FISCAL NOTE ANALYSIS

STATE OF ALASKA
2024 LEGISLATIVE SESSION

Analysis

This bill modifies the marijuana tax structure, providing for a reduction on the excise tax from \$50 per ounce to \$12.50 per ounce and restructures the way the tax is collected by eliminating the cultivator tax entirely and implementing a retail sales tax on January 1, 2025, set at 6% to be collected quarterly.

Based on the projections from the Department of Revenue, changing the rate from \$50 per ounce to \$12.50 per ounce would reduce projected revenue in FY2025. Combining that change with the change to a 6% retail sales tax mid-way through the fiscal year would create an estimated reduction in revenue of \$11.7 million in FY2025, including \$2.9 million general fund, \$5.8 million recidivism reduction, and \$2.9 million marijuana education and treatment funds. The revenue reduction will decrease slightly in future years due to inflation, market growth, and population growth.

The reduced revenues will result in lower dollar amounts appropriated to the Department of Corrections. Reductions will be made to budgets that are proportional to the amounts requested in the FY2025 Governor's Budget.

The Department of Corrections allocation from this fund is used to support successful reentry efforts within the Community Residential Centers. Without replacement funding these efforts would be severely impacted, if not eliminated. To maintain these efforts, undesignated general funds would be necessary to offset a \$351.0 loss of recidivism reduction funds in FY2025.
