Division:	Tax Director	Date:	03/29/2024
Approved By:	Adam Bryan, Division Operations Manager	Date:	03/29/24
Agency:	Department of Revenue		

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2024 LEGISLATIVE SESSION**Analysis****Bill Analysis**

This bill would set the royalty rate to zero for gas produced from a well drilled in Cook Inlet after July 1, 2024. It would also set the royalty rate to five percent for oil (or oil and gas) produced from a well drilled in Cook Inlet after July 1, 2024.

**Revenue Impact**

Although this bill does not propose any changes to the tax structure for oil or gas produced in Cook Inlet, the Department of Revenue is providing this fiscal note because a reduction in royalty would result in slightly more production tax due to higher taxable volumes.

The exact tax revenue impact is indeterminate, however, we estimate that it would likely be a few hundred thousand per year (positive) under the spring forecast, holding all else equal. The amount could be more if additional production is incentivized by the royalty rate reduction.

**Implementation Cost**

This legislation would not require any changes within the Department of Revenue and would not have any cost.
