was read the first time and referred to the Labor and Commerce and Finance Committees.

The following fiscal information was published today:

Fiscal Note No. 1, Department of Commerce, Community, and Economic Development

Governor's transmittal letter dated February 23:

Dear President Stevens:

Under the authority of Article III, Section 18, of the Alaska Constitution, I am transmitting a bill relating to temporary professional licensing.

This bill would expedite and streamline professional licensing by creating a new "temporary license" designation under AS 08.01. The bill would repeal most temporary license types (e.g., courtesy licenses, temporary courtesy licenses, temporary permits, etc.) that can be found across the professional licensing statutes and replace them with the universal temporary license, which would be administered by the Department of Commerce, Community, and Economic Development. The bill would allow the department to grant temporary licenses using standard criteria to reduce board work and provide consistency to the process.

The universal temporary licensing provisions would not apply to all professions. The bill creates exceptions for professions that are unique to Alaska, such as big game guides and marine pilots. Additionally, the new provisions would not change the temporary military courtesy licenses available to United States Armed Forces service members and their spouses. However, the temporary military courtesy license statute is amended slightly to avoid confusion over the term "temporary license."

Finally, a number of changes would be made to conform the Alaska Statutes to the changes proposed under AS 08.01.

I urge your prompt and favorable action on this measure.

Sincerely,

/s/

Mike Dunleavy
Governor

SB 84

SENATE BILL NO. 84 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to the business of money transmission; relating to money transmission licenses, licensure requirements, and registration through the Nationwide Multistate Licensing System and Registry; relating to the use of virtual currency for money transmission; relating to authorized delegates of a licensee; relating to acquisition of control of a license; relating to record retention and reporting requirements; authorizing the Department of Commerce, Community, and Economic Development to cooperate with other states in the regulation of money transmission; relating to permissible investments; relating to violations and enforcement of money transmission laws; relating to money transmission license exemptions; relating to payroll processing services; repealing currency exchange licenses; and providing for an effective date."

was read the first time and referred to the Labor and Commerce, Judiciary and Finance Committees.

The following fiscal information was published today:

Fiscal Note No. 1, Department of Commerce, Community, and
Economic Development

Governor's transmittal letter dated February 23:

Dear President Stevens:

Under the authority of Article III, Section 18, of the Alaska Constitution, I am transmitting a bill to modernize the Alaska Uniform Money Services Act.

This bill would amend the Alaska Uniform Money Services Act (AS 06.55) through selective adoption of the Uniform Money Transmission Modernization Act (“Model Law”), which was developed by industry stakeholders and the Conference of State Bank Supervisors to recognize significant changes in the operation and regulatory supervision of money services businesses. The Alaska Uniform Money Services Act was adopted in 2008 before internet-based business models, virtual currencies, and mobile phone applications were regularly in use. Today, virtual currency transmission and online transactions account for nearly one-third of money transmission volume in Alaska. The Model Law sections incorporated in the bill clarify application of state law to virtual currency transmitters, which will protect consumers and ensure the safety and soundness of the businesses interacting with Alaskans.

Adoption of key components of the Model Law will also allow the Department of Commerce, Community, and Economic Development to coordinate with other states while more effectively utilizing state resources. This change benefits licensees by adopting a standardized nationwide multistate licensing process.

The bill streamlines the regulatory process by eliminating the separate currency exchange license type and clarifying activities that are exempt from the requirement of obtaining a license, such as payroll processing services. The bill also provides for criminal and civil background checks designed to provide better consumer protection.

I urge your prompt and favorable action on this measure.

Sincerely,

/s/

SB 85

SENATE BILL NO. 85 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to record checks for certain employees of the Department of Revenue; relating to permanent fund dividends; and providing for an effective date."

was read the first time and referred to the Labor and Commerce and Finance Committees.

The following fiscal information was published today:

Fiscal Note No. 1, zero, Department of Revenue

Governor's transmittal letter dated February 23:

Dear President Stevens:

Under the authority of Article III, Section 18, of the Alaska Constitution, I am transmitting a bill that expands Permanent Fund Dividend eligibility for certain merchant marines; authorizes the Department of Revenue (DOR) to obtain national criminal history record checks on employees handling highly personal information; and allows DOR to use electronic notice when a levy is made against a permanent fund dividend payment.

This bill proposes amendments to the statutes relating to DOR and the Permanent Fund Dividend program in order to increase security of Alaskans' private information, modernize the department's notice requirements, and clarify dividend eligibility for students, including students training to be merchant marines. Under our current system, Alaskans serving as merchant marines are eligible for an allowed absence when serving aboard a vessel, but Alaskans training to be merchant marines are not provided an allowed absence. The bill remedies this disparity so that Alaskans training to be merchant marines are treated the same as other students.

Moreover, this bill clarifies the meaning of "education on a full-time basis." Due to the variability in educational schedules, certain students lose dividend eligibility due to breaks in the academic year. The bill

provides a specific definition for “education on a full-time basis” that includes academic year breaks, excluding summer break, so that students are not penalized based on vagaries in academic schedules.

Additionally, this bill strengthens the security of Alaskans’ personal information by authorizing the department to perform national criminal history record checks on employees that have access to the banking and vital records of nearly every citizen of our state. By allowing the department to obtain full background checks, the state will have taken every measure to provide the most secure system possible.

Finally, the bill updates statutory language to allow for the electronic notice of levy. Many Alaskans apply for the dividend online and consent to be contacted by the Permanent Fund Dividend division via email. Currently, if another individual attempts to place a levy on a dividend payment, DOR is required to contact the levied individual via the postal system. Allowing consent to receive electronic notice of levy will assist Alaskans in receiving vital information in the manner of their choosing.

I urge your prompt and favorable action on this measure.

Sincerely,

/s/
