

HOUSE CS FOR CS FOR SENATE JOINT RESOLUTION NO. 19(RES)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTY-FOURTH LEGISLATURE - FIRST SESSION

BY THE HOUSE RESOURCES COMMITTEE

Offered: 5/16/25

Referred: Rules

Sponsor(s): SENATORS BJORKMAN, Merrick, Giessel, Cronk, Stedman, Hughes, Myers, Hoffman, Shower, Kawasaki, Wielechowski, Olson, Kaufman

REPRESENTATIVES Hall, Elam, Vance, Bynum, Saddler, Kopp, Schrage

A RESOLUTION

1 **Urging the United States Congress to honor the terms of the Mineral Leasing Act and**
2 **the Alaska Statehood Act and provide the state with a 90 percent share of all bonuses,**
3 **royalties, and rentals received by the federal government from the Arctic National**
4 **Wildlife Refuge and the National Petroleum Reserve in Alaska.**

5 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

6 **WHEREAS** the Alaska State Legislature is grateful for the approval and development
7 of the Willow project and other projects in the National Petroleum Reserve in Alaska and for
8 the work underway to unlock the vast natural resources and economic potential of the state;
9 and

10 **WHEREAS** this state is a young state, the resources of which are vital to maintaining
11 national security, growing the state's economy, and ensuring geopolitical superiority in the
12 Arctic and North Pacific; and

13 **WHEREAS** President Donald J. Trump's 2025 executive order, "Unleashing Alaska's
14 Extraordinary Resource Potential," rescinds cancellation of leases within the coastal plain of
15 the Arctic National Wildlife Refuge and expedites review of all necessary permits and

1 easements for exploration to facilitate, to the greatest extent possible, the production of oil
2 and gas within the area; and

3 **WHEREAS** the executive order also prioritizes liquefied natural gas development in
4 the state; and

5 **WHEREAS** the executive order highlights the economic and national security
6 benefits for the United States associated with oil and gas development; and

7 **WHEREAS**, when issuing the 2025 Secretary's Order 3422 titled "Unleashing
8 Alaska's Extraordinary Resource Potential," United States Secretary of the Interior Doug
9 Burgum said that "[i]t's time for the U.S. to embrace Alaska's abundant and largely untapped
10 resources as a pathway to prosperity for the nation" and recognized "the central role the State
11 of Alaska plays in meeting our nation's energy needs"; and

12 **WHEREAS**, in Secretary's Order 3422, Secretary Burgum directed the Department of
13 the Interior and the Bureau of Land Management to pursue reopening up to 82 percent of the
14 National Petroleum Reserve in Alaska to leasing to expand energy development opportunities
15 in the state for the benefit of the nation; and

16 **WHEREAS** Secretary's Order 3422 further directs the Department of the Interior to
17 convey to the state the land previously withdrawn along the Trans Alaska Pipeline System,
18 paving the way for construction of pipeline for the Alaska Liquefied Natural Gas Project; and

19 **WHEREAS** the state welcomes additional oil production on federal land, while
20 recognizing that lease activity write-offs against producers' tax liability cause a reduction in
21 state revenue; and

22 **WHEREAS** the state's aging transportation infrastructure is expected to require
23 significant repair and upgrades to accommodate the heavy traffic anticipated for the
24 construction of the proposed pipeline for the liquefied natural gas project; and

25 **WHEREAS**, in 1957 and 1958, when considering the admission of the state into the
26 Union as the 49th state, the United States Congress recognized that the state's comparatively
27 small population and limited industrial base would not be able to generate enough revenue to
28 pay for basic state services, especially because the state is geographically isolated and large,
29 covering one-fifth the area of the contiguous 48 states; and

30 **WHEREAS**, in 1957, the United States Congress amended the Mineral Leasing Act
31 of 1920 to grant the Territory of Alaska 90 percent of the proceeds from mineral leases,

1 including oil and gas leases, on federal land in the territory; and

2 **WHEREAS**, in sec. 28 of the Alaska Statehood Act of 1958, the United States
3 Congress established the right of the state to receive 90 percent of the income derived from
4 mineral leasing collected from the development of federal land in the state; and

5 **WHEREAS**, during debate over the Alaska Statehood Act, the report from the Senate
6 Committee on Interior and Insular Affairs, speaking to the 90 percent royalty share to Alaska,
7 "deem[ed] it only fair that when the State relieves the United States of most of its expense
8 burden, the State should receive a realistic portion of the proceeds from resources within its
9 borders"; and

10 **WHEREAS**, in 1958, Secretary of the Interior Fred Seaton stated that, according to
11 analysis prepared by the Department of the Interior, the additional costs of statehood would be
12 offset by the 90 percent in mineral revenue to be provided to the state; and

13 **WHEREAS** that assurance was integral to residents' vote in favor of statehood and
14 taking on the costs of self-management; and

15 **WHEREAS**, during its deliberations, the United States Congress also acknowledged
16 concern that previous land reservations and withdrawals had involved some of the most
17 resource-rich and valuable tracts in the territory, including acreage that is now part of the
18 National Petroleum Reserve in Alaska and the Arctic National Wildlife Refuge, thus
19 preventing the state from producing revenue from that land and further justifying that 90
20 percent of mineral revenue be provided to the state; and

21 **WHEREAS**, when the United States Congress passed the Alaska Statehood Act and
22 the people of the state voted in referendum to approve it, a compact of the provisions was
23 created, including the provision to provide 90 percent of mineral revenue from federal land to
24 the state; and

25 **WHEREAS** the United States Congress enacted legislation that provides for the state
26 to receive a 50 percent share of the adjusted bonus, rental, and royalty receipts derived from
27 leasing, exploration, and development of land on the coastal plain of the Arctic National
28 Wildlife Refuge, in contravention of the percentage share required under the Mineral Leasing
29 Act and the Alaska Statehood Act; and

30 **WHEREAS** the federal government enacted legislation that provides for the state to
31 receive a 50 percent share of the adjusted bonus, rental, and royalty receipts derived from

1 leasing, exploration, and development of land in the National Petroleum Reserve in Alaska,
 2 the majority of which is required to be paid in impact grants to the communities directly
 3 impacted by production in the reserve and not available for state use; and

4 **WHEREAS** the decline in oil prices, the decline in the Trans Alaska Pipeline System
 5 throughput, and revenue reductions from write-offs on federal lease activity have reduced and
 6 will continue to significantly reduce the revenue available to maintain the transportation
 7 infrastructure of the state and to fund state government programs necessary to support
 8 production in the Arctic National Wildlife Refuge and the National Petroleum Reserve in
 9 Alaska and construction of a liquefied natural gas pipeline; and

10 **WHEREAS** the state was not allowed to freely select state land as promised under the
 11 Alaska Statehood Act, reducing the revenue available to the state from mineral production on
 12 state land;

13 **BE IT RESOLVED** that the Alaska State Legislature urges the United States
 14 Congress to honor the terms of the Mineral Leasing Act and the Alaska Statehood Act, which
 15 provide that the state receive a 90 percent share of all bonuses, royalties, and rentals under
 16 leases received by the federal government for exploration, development, and production in the
 17 coastal plain of the Arctic National Wildlife Refuge; and be it

18 **FURTHER RESOLVED** that the Alaska State Legislature urges the United States
 19 Congress to provide that the state receive a 90 percent share of all bonuses, royalties, and
 20 rentals under leases received by the federal government for exploration, development, and
 21 production in the coastal plain of the National Petroleum Reserve in Alaska while maintaining
 22 the original local impact grant program.

23 **COPIES** of this resolution shall be sent to the Honorable Mike Johnson, Speaker of
 24 the U.S. House of Representatives; the Honorable Hakeem Jeffries, Minority Leader of the
 25 U.S. House of Representatives; the Honorable John Thune, Majority Leader of the U.S.
 26 Senate; the Honorable Charles E. Schumer, Minority Leader of the U.S. Senate; the
 27 Honorable Mike Lee, Chair of the U.S. Senate Committee on Energy and Natural Resources;
 28 the Honorable Martin Heinrich, Ranking Member of the U.S. Senate Committee on Energy
 29 and Natural Resources; the Honorable Bruce Westerman, Chair of the U.S. House Committee
 30 on Natural Resources; the Honorable Jared Huffman, Ranking Member of the U.S. House
 31 Committee on Natural Resources; and the Honorable Lisa Murkowski and the Honorable Dan

- 1 Sullivan, U.S. Senators, and the Honorable Nicholas Begich, U.S. Representative, members of
- 2 the Alaska delegation in Congress.
