Approved By: Pam Halloran, Assistant Commissioner	Date: 01/22/26
Agency: Department of Health	

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2026 LEGISLATIVE SESSION

Analysis

HB027 amends AS 18.08.010 by adding care for “other major emergencies” in the same vein as trauma care. AS 18.08.200 adds “major emergency” to definitions, defining it as heart attack or stroke.

This legislation creates a comprehensive care system across the state, aiming to standardize and support patient care from the onset of symptoms to the delivery of life-saving treatment for time-sensitive emergencies for heart attacks and strokes. Achieving this, requires collaboration among various agencies, including EMS air and ground agencies, village clinics, sub-regional clinics, critical access hospitals, and specialty care hospitals capable of providing definitive treatment.

To accomplish the objectives of this bill will require one additional full time position in the trauma systems unit within the Division of Public Health. The position will support coordination of multiple stakeholder committees to build this process. Additionally, funding for IT systems enhancements will be required to implement tracking and reporting of heart attack and stroke.

Cost estimates:

Personnel - (1) Full-time, range 20, step C, Anchorage, Public Health Specialist 2 \$147.6

Travel - Convene community partners to implement all aspects of the legislation; there are 13 critical access hospitals and 4 community hospitals outside of Anchorage/Mat-Su. Not all are anticipated to sign up immediately and not all at once. Four trips at a cost of \$1.2 each for a total of \$4.8.

Services - Cover the costs associated with chargebacks, telecom, IT, the initial IT system enhancement and annual maintenance costs associated. \$20.0 per year

IT system enhancement – Image Trend is the vendor for EMS and the Trauma registry. Based on current contract, the initial cost of adding the enhanced capability and data transfer is \$75.0 for year one. Maintenance costs for the system in year two and forward is \$54.0

Commodities - supplies and materials, the first year includes addition commodities costs for computer equipment for the new position. \$5.0 for year one, \$2.0 year two and forward.

If this bill were to pass, Article 7 – 7AAC 26.710-750 would require regulation changes.
