**Estimated SUPPLEMENTAL (FY2026) cost:** 0.0 *(separate supplemental appropriation required)*

**Estimated CAPITAL (FY2027) cost:** 0.0 *(separate capital appropriation required)*

**Does the bill create or modify a new fund or account?** No  
*(Supplemental/Capital/New Fund - discuss reasons and fund source(s) in analysis section)*

### ASSOCIATED REGULATIONS

Does the bill direct, or will the bill result in, regulation changes adopted by your agency? Yes  
 If yes, by what date are the regulations to be adopted, amended or repealed? 07/01/26

### Why this fiscal note differs from previous version/comments:

Updated to SLA2026 fiscal note template. Updated to reflect current position costs. Removed reference to the cap on number of residents for a complex care residential home to align with committee substitute for CSHB073(FIN).

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2026 LEGISLATIVE SESSION

## Analysis

HB073 establishes a new health facility licensing category for Complex Care Residential Homes (CCRHs), addressing a critical gap in Alaska's care continuum for individuals with complex needs. The CCRHs will provide long-term, multidisciplinary care in a structured and supportive residential environment for individuals with severe emotional, behavioral, cognitive disorders, but who do not qualify for traditional intermediate care facilities (ICFs).

Currently, Alaska lacks a statutory mechanism to support facilities tailored to meet these needs. Many individuals with complex needs such as severe and persistent mental illness or other co-occurring disorders are placed in assisted living homes, Psychiatric Residential Treatment Facilities (PRTFs), or acute psychiatric hospitals like the Alaska Psychiatric Institute (API). This bill introduces a solution for both adults and children by bridging the gap between higher-acuity inpatient settings like PRTFs and home-based care, providing a safe and supportive intermediary option that promotes long-term stabilization and community reintegration.

The CCRHs will serve several subpopulations, including children who have cycled through PRTFs and who struggle to transition directly to home settings, adults with severe behavioral health needs exceeding the scope of existing community programs, and individuals with dementia exhibiting behaviors unsuitable for traditional long-term care options. These homes will provide services equivalent to those of ICFs but for individuals who do not have a qualifying disability, ensuring a comprehensive system of care.

Implementation will require collaboration across the Department of Health to establish eligibility criteria, define services, develop an assessment tool to determine the appropriate level of care, and establish licensing and regulatory standards.

**Financial Breakdown:** The Division of Health Care Services, Health Facilities Licensing and Certification section will require one Nurse Consultant 1 beginning in year two. This position will assist in program development, create licensing fees and regulations, design necessary forms, provide training, and other necessary framework to support this new facility type.

The department anticipates up to 15 facilities will be created as a result of this legislation.

The costs associated with this position and the necessary support infrastructure include:

Personal Services: \$185.8 annually, beginning in FY2028, for one Nurse Consultant 1 (including benefits) at range 24 in Anchorage.

Travel: \$10.0 annually, starting in FY2029, for travel to license and recertify facilities.

Services: \$20.0 annually, starting in FY2028, for office space, phone, and reimbursable service agreements to support the position.

Commodities: \$2.0 annually, beginning in FY2029, for office supplies.

One-Time Commodities Cost: \$5.0 one-time, in FY2028, for computer, software, and office equipment.

Costs will be reimbursed by the federal government at 50 percent.
