FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2025 LEGISLATIVE SESSION

**Analysis**

This bill provides legislative approval of a contract negotiated between the State of Alaska and Marathon Petroleum Supply and Trading Company LLC for the sale of between 10,000 and 15,000 barrels per day of state royalty oil for a fixed term of three years with seven options for one-year extensions.

The number of barrels per day is multiplied by a negotiated royalty in-kind differential per barrel to arrive at the expected revenue increase. There will be no fiscal impact to the operating expenditures. The proposed contract will result in a premium to the state compared to taking the state royalty oil in-value. The specific revenue to the state above taking the royalty in-value is indeterminate as it will depend on variables such as volume nominated and nomination requirements. The additional revenue to the state is expected to be between \$12 million and \$18 million for the initial three years of the contract.
