Approved By:	Melissa Hurley-Marvin, Division Operations Manager	Date:	01/22/26
Agency:	Natural Resources		

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2026 LEGISLATIVE SESSION

## Analysis

This proposed bill creates a new statute providing for the disposal of state lands deemed suitable for commercial development through a lease to sale program. To implement the new commercial leasing/disposal program, the Department of Natural Resources (DNR) will need to evaluate land nominations, identify land offering areas, prepare documents relating to planning and classification/reclassification of lands to be offered, prepare best interest findings under AS 38.05.035(e), title due diligence and title report issuance, and provide appraisal of the land under AS 38.05.840.

This will require a minimum of:

**Personal Services \$273.8**

Two permanent Full-Time Natural Resource Specialists 3, range 18, Anchorage (\$136.9 per PCN)

**Travel: \$0****Services \$55.0**

Core costs by position (\$15.0 each annually)

If the program is popular, the department will need to contract appraisal services on an annual basis to successfully implement the program. (\$25.0)

**Commodities \$10.0**

Initial position setup (\$5.0 each one time costs)

If program changes from this fiscal note create an increase to revenues over time, the fund source may be adjusted to 1153 Land Disposal Income Fund (LDIF) in outlying years. LDIF is a sweepable fund and currently, cannot support increased costs without ensured revenue.

Regarding associated regulations: The Division of Mining, Land, and Water would aim to adopt regulations by December 2028.

**Change in Revenues:**

Revenues generated from the disposal of state land are deposited into the 1153 Land Disposal Income Fund (LDIF). As the department cannot predict by what amount the proposed commercial lease or sale program will be utilized, the additional LDIF revenue beginning in FY2027 is indeterminate.

Estimating revenue from leasing and conveying lands for commercial development is difficult as the department does not have regulations developed for this program. This bill requires the department to develop regulations implementing statutes under AS 38.05.400. Until such time as the regulations are developed, any estimate of potential revenue related to leasing and conveying land for commercial development is speculative.
