Approved By:	Dawn Hannasch, Administrative Services Director	Date:	08/01/25
Agency:	Department of Education and Early Development		

## FISCAL NOTE ANALYSIS

STATE OF ALASKA  
2025 LEGISLATIVE SESSION**Analysis**

The bill sets out that the department, through regulation, establish processes for the department to compensate a district that accepts students after the fall count period under AS 14.17.600. Because the department does not collect average daily membership (ADM) data at the end of the school year, the student numbers are based on enrollment. Enrollment numbers are based on student enrollment in a school on a certain date, as such can be slightly higher than the ADM, which is calculated on the number of hours a student is enrolled (full time equivalent (FTE)) and days of membership over a period of time.

In FY2024, 11 districts experienced growth in brick-and-mortar school enrollment from the October count to the count of enrollment on the last day of school, totaling 41 students. This does not include department-approved early education programs under the Alaska Reads Act, and the end of year data excludes students that graduated prior to the last day of school.

The fiscal note is based on 50 students, this reflects the prior year data and an estimate to account for students that may change school districts mid-year under the bill provisions that allow a child to attend a district in which the child is not a resident. The 50 students is multiplied by an average district cost factor of 1.470 and a base student allocation of \$6,660, for a total projected cost of \$489.5. This fiscal note does not anticipate funding for an increase in a district's correspondence study program count.
