

SENATE JOURNAL
ALASKA STATE LEGISLATURE
THIRTY-FOURTH LEGISLATURE
FIRST SESSION

Juneau, Alaska

Friday

January 24, 2025

Fourth Day

Pursuant to adjournment the Senate was called to order by President Stevens at 10:33 a.m.

The roll showed eighteen members present. Senator Tobin was excused from a call of the Senate. Senator Olson was absent.

The prayer was offered by the Chaplain, Reverend Gordon Blue, Holy Trinity Episcopal Church. Senator Hoffman moved and asked unanimous consent the prayer be spread. Without objection, it was so ordered.

Creator of life, redeemer of the afflicted and spirit of grace, in this season, the Epiphany, the Northern infancy of light, we celebrate our homes and ask your blessing upon them.

Spirit of justice, help this Senate to make and keep the great State of Alaska a home for all its different peoples.

You have made us many peoples, but of one blood; preserve our many cultures, and make us also of one mind, as declared by the Psalmist:

In you, O Lord, have I taken refuge; let me never be put to shame; deliver me in your righteousness.

Incline your ear to me; make haste to deliver me.

Be my strong rock, a castle to keep me safe, for you are my crag and my stronghold; for the sake of your Name, lead me and guide me. Let us pray.

Almighty and everlasting one, I give you thanks and praise for our Great Land, and for what has been achieved by past Legislatures. God, you know better than we the temptations that will bring us down. Protect us and guide our feet into the way of peace.

May you be with these Senators, who have been called by the people into service. Give them strength to bear their own and one another's burdens. Bless them so that their example may give to the people a zeal for justice and the strength of forbearance, and we may use our liberty to bring blessings upon the future generations of Alaska. May they grow in grace and in the knowledge and love of you; guide, comfort, and strengthen them; and preserve them in peace now and forever. Amen.

Senator Claman led the Senate in the Pledge of Allegiance.

Certification

Senator Giessel moved and asked unanimous consent the journals for the second and third legislative days be approved as certified by the Secretary. Without objection, it was so ordered.

Senator Giessel moved and asked unanimous consent Senator Olson be excused from a call of the Senate today. Without objection, Senator Olson was excused.

Introduction of Executive Orders

EO 136

EXECUTIVE ORDER NO. 136

Establishing the Department of Agriculture and transferring functions of the Department of Natural Resources relating to agriculture to the Department of Agriculture.

was read the first time and referred to the Resources and Finance Committees.

Governor's transmittal letter dated January 20:

Dear President Stevens:

Under the authority of Article III, Section 18, of the Alaska Constitution, I am transmitting an Executive Order establishing the Alaska Department of Agriculture. Pursuant to my authority under Article III, Section 23, of the Alaska Constitution to make changes in the organization of the Executive Branch and in the assignment of functions among its units, this Order would create a new principal Department of the State with authority over agricultural policy.

This order would transfer the powers and duties of the Department of Natural Resources relating to agriculture in Title 3 of the Alaska Statutes to the new Department of Agriculture. The Alaska Board of Agriculture and Conservation would be moved to the new Department. The Commissioner of Agriculture would consult with the Commissioner of Natural Resources in the classification, leasing, and sale of state agricultural land. The Order would also rename the Alaska Natural Resource Conservation and Development Board and place the Commissioner of Agriculture on the Board, *ex-officio*.

Two Task Forces, one established by my Administrative Order 331 (modified under AOs 334 and 341) and another within the Legislative Branch established by House Bill 298 signed in 2022, have concluded that it is in the best interests of state policy priorities for greater food security and increasing agriculture production to create a Department of Agriculture.

This Executive Order will encourage the development and growth of the agriculture industry in Alaska through the establishment of a Department dedicated to a mission focused on increased production activity and accountability to the public.

Sincerely,

/s/

Mike Dunleavy
Governor

SB 58

SENATE BILL NO. 58 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act making appropriations for the operating and capital expenses of the state's integrated comprehensive mental health program; and providing for an effective date."

was read the first time and referred to the Finance Committee.

In accordance with AS 37.14.003(b), a report of the differences between the Governor's proposed budget and the recommendations of the Alaska Mental Health Trust Authority was transmitted.

Governor's transmittal letter dated January 20:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill relating to the State's comprehensive mental health program for Fiscal Year (FY) 2026. As required by statute, this bill includes both operating and capital appropriations.

This budget totals \$245.5 million and includes \$184.5 million in unrestricted general funds, \$39.6 million in designated general funds, and \$21.4 million in Mental Health Trust Authority funds.

The FY 2026 proposed mental health budget includes requests that were put forward to the Office of Management and Budget by the Alaska Mental Health Trust (Trust). The requests support programs and activities in Trust focus areas that meet the identified treatment and service needs of Trust beneficiaries and areas of system change to improve the lives of beneficiaries.

I look forward to working with the Legislature on the timely passage and implementation of the FY 2026 budget for Alaska's comprehensive mental health program.

Fiscal Note No. 2, zero, Department of Education and Early Development

Fiscal Note No. 3, zero, Department of Education & Early Development

Fiscal Note No. 4, Department of Education & Early Development

Governor's transmittal letter dated January 21:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill establishing a pilot program for demonstration state-tribal education compact (STEC) schools. Senate Bill 34 (2022) directed the Department of Education and Early

Development (DEED) to negotiate a demonstration state-tribal education compact with federally recognized tribes and tribal organizations and to submit a report to the legislature relating to the demonstration state-tribal education compact and state-tribal education compact schools. On January 31, 2024, DEED submitted its *State Tribal Education Compact Schools Demonstration Legislative Report*, based on its negotiations with five federally recognized tribes or tribal organizations that applied to participate: Central Council of the Tlingit & Haida Indian Tribes of Alaska, the Inupiat Community of the Arctic Slope, the Ketchikan Indian Community, the Knik Tribe, and the King Island Native Community in partnership with the Village of Solomon.

This bill takes the next step in launching STEC schools in Alaska by setting up a five-year pilot program for the five participating tribes and tribal organizations to enter into education compacts with DEED for the establishment of tribally operated Alaska public schools. The bill designates mandatory subjects that must be addressed in each compact but allows DEED and the participating tribes and tribal organizations to negotiate the details of each mandatory provision based on their individual needs and circumstances.

Demonstration STEC schools may be funded by the legislature as if they were schools in a regional education attendance area. Participating tribes and tribal organizations must report on student data and enrollment at their demonstration STEC schools to DEED on an annual basis and DEED will provide that information to the legislature in its annual progress reports. At the completion of the pilot program, DEED will provide a written report to the legislature summarizing the student data over the entire project period.

I urge your prompt and favorable action on this measure.

SB 67

SENATE BILL NO. 67 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to municipal and state procurement preferences for agricultural products harvested in the state and fisheries products harvested or processed in the state; and providing for an effective date."

was read the first time and referred to the Resources and Finance Committees.

The following fiscal information was published today:

Fiscal Note No. 1, zero, Department of Administration
Fiscal Note No. 2, zero, Department of Commerce, Community,
and Economic Development

Governor's transmittal letter dated January 21:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill to increase purchase limits under the Alaska-grown procurement policy and preference. In order to support Alaska businesses and to foster food security in the state, this bill would increase allowable price differentials for the state, municipalities, and school districts to purchase more Alaskan agricultural and fisheries products. Alaskan food producers often face cost barriers to market access and have long advocated for increased institutional purchases as a means to scale up production and keep state dollars circulating in the Alaska economy. Expanding access to institutional markets has also been supported by stakeholder groups and was among the recommendations of the Governor's Food Security and Independence Task Force final report released in February 2023.

When state agencies, municipalities, and school districts that receive state funds purchase agricultural and fisheries products, state law requires that they purchase in-state products so long as those products are priced no more than seven percent higher than equivalent products

available from out-of-state sellers. State law further authorizes state agencies and corporations, municipalities, and school districts to purchase in-state products that are priced up to 15 percent higher than out-of-state equivalents.

This bill would increase the purchase price differential for required in-state purchases by state agencies, municipalities, and school districts from seven percent to 10 percent and the differential for permissible in-state purchases from 15 percent to 25 percent.

I urge your prompt and favorable action on this measure.

Sincerely,

SB 68

SENATE BILL NO. 68 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to employment; relating to voluntary flexible work hour plans; relating to the employment of minors; and relating to hours worked by minors employed in the state."

was read the first time and referred to the State Affairs and Labor and Commerce Committees.

The following fiscal information was published today:

Fiscal Note No. 1, zero, Department of Labor and Workforce
Development

Governor's transmittal letter dated January 21:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill relating to employment, overtime pay, and the employment of minors. This bill would authorize

additional options for voluntary flexible work hour plans and ease the conditions under which employers may obtain permission from the commissioner of labor and workforce development to employ minors.

State law requires that employers pay overtime to hourly employees when they work more than eight hours in one day, subject to certain exceptions. One exception is a flexible work hour plan. In a flexible work hour plan, an employee may agree to work up to 10 hours in one day so long as the employee does not exceed 40 hours in one week. This bill would increase the daily hour limit to 12 hours in one day, thereby allowing an employee to work three 12-hour workdays in one week, totaling 36 hours, instead of the standard five days of eight hour shifts.

In addition, the bill would ease conditions under which employers may obtain permission from the Commissioner of the Department of Labor and Workforce Development to employ minors. The restriction on youth employment would be lowered from under 17 years of age to under 16 years of age. The bill would allow the Commissioner to issue general written authorizations to employers to employ minors without requiring that each job duty be specifically approved or each minor individually authorized or provided with written parental consent. Minors working in a family business under the supervision of a family member would be exempted from the written authorization requirement altogether. Finally, the bill would increase the hours that minors under 16 years of age may work.

I urge your prompt and favorable action on this measure.

SB 69

SENATE BILL NO. 69 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to sexual assault examination kits;
establishing the sexual assault examination kit
tracking system; and providing for an effective date."

was read the first time and referred to the Judiciary and Finance
Committees.

The following fiscal information was published today:

Fiscal Note No. 1, Department of Public Safety

Governor's transmittal letter dated January 21:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill to establish timelines for submitting sexual assault examination kits to the lab for testing and to establish a sexual assault examination kit tracking system. This bill will assist in the timely transmission and testing of sexual assault examination kits, as well as assist victims in tracking the kits associated with their cases.

When a sexual assault examination kit is used to collect evidence, it is the responsibility of law enforcement to submit that kit to the lab for testing. This means that if a health care provider uses a sexual assault examination kit to collect evidence, law enforcement is responsible for picking up the kit from the health care provider and submitting it to the lab. This legislation establishes timelines for health care providers to notify law enforcement that a kit is available for pickup and ready for the laboratory to test. It also shortens the current timelines for law enforcement to submit the kit for testing. Restructuring these timelines will help ensure that sexual assault examination kits are processed in a more timely manner as intended by the underlying statute.

Additionally, this legislation establishes a sexual assault examination kit tracking system. The tracking system will be used throughout the collection and testing process. Health care providers and law

enforcement will be able to upload information about when a kit was collected and sent to the lab. The lab will also be able to update the information as the kit is processed for testing. Victims will have the ability to log into the system and see where the kit associated with their case is in the process. They may even elect to receive automated notifications as the kit moves through the process. Requiring the use of the sexual assault examination kit tracking system at every phase of the process will go a long way towards helping victims stay informed.

These changes will help ensure timely processing of important evidence and will help increase transparency and accountability as sexual assault examination kits moves through the process. This is the least we can do for the victims of these horrendous crimes.

I urge your prompt and favorable action on this measure.

Sincerely,

/s/

SB 70

SENATE BILL NO. 70 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to regional educational attendance area elections; relating to terms for members of regional school boards; relating to voter residence; relating to voter registration; relating to the inclusion of voter registration forms in permanent fund dividend applications; relating to election administration; relating to ballot counting; relating to absentee voting; relating to early voting; relating to voting by mail; relating to publication of election pamphlets; and relating to confidential information in voter registration records."

was read the first time and referred to the State Affairs and Finance Committees.

The following fiscal information was published today:
Fiscal Note No. 1, Office of the Governor

Governor's transmittal letter dated January 21:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill to improve election efficiency and integrity and to increase the flexibility of the Alaska Division of Elections in the administration of elections in the State. This bill will improve timelines, logistics, and processes for the public and the division.

The Alaska Division of Elections strives to ensure the integrity and transparency of elections. Nevertheless, many Alaskans have legitimate concerns about the reliability of elections due to outdated and impractical provisions of our election code. This bill aims to reform certain aspects of the Alaska election code in order to bolster the public's trust in our election system.

To that end, this bill will repeal provisions of Ballot Measure No. 1 from 2016 that authorized voters to register as part of their permanent fund dividend application. It will close early voting five days prior to Election Day and will authorize the Division to conduct elections by mail for communities with a population of 750 or less. It provides for postage-paid return envelopes for absentee ballots, requires absentee ballots to be received by the Division on or before Election Day, and authorizes the counting of absentee ballots to begin sooner. The bill will give the Division greater flexibility in adjusting the pay of election workers, setting the standards for voting booths, and in printing and distributing election pamphlets. It will increase the terms of regional school board members while decreasing the frequency of regional school board elections.

I urge your prompt and favorable action on this measure.

SB 71

SENATE BILL NO. 71 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act relating to pretrial services supervision agreements."

was read the first time and referred to the State Affairs and Judiciary Committees.

The following fiscal information was published today:
Fiscal Note No. 1, zero, Department of Corrections

Governor's transmittal letter dated January 23:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill allowing the Department of Corrections to enter into agreements with municipalities to provide pretrial supervision services for defendants charged with violating municipal or borough laws.

When it was established in 2018, the pretrial services program was aimed at providing risk assessments for defendants who have been charged, making release recommendations to the court, and providing pretrial supervision of defendants when ordered by the court. Currently, the State bears all the costs of pretrial supervision, even for those defendants charged only with municipal or borough offenses. This legislation will allow the Department of Corrections to enter into agreements with municipalities that would like to continue to have certain defendants charged with violating the laws of that jurisdiction supervised before trial. As a part of those agreements, the Department will be able to charge reasonable fees in order to recoup some of the costs of providing the service to municipalities.

Evaluating the costs of providing certain services on behalf of other jurisdictions is prudent. Allowing the Department of Corrections to continue to provide an important service while recovering some of the costs associated with providing that service is a reasonable approach, which will help ensure that this service is available for years to come.

I urge your prompt and favorable action on this measure.

SENATE BILL NO. 72 BY THE SENATE RULES COMMITTEE
BY REQUEST OF THE GOVERNOR, entitled:

"An Act authorizing the Alaska Railroad Corporation to issue revenue bonds to finance the replacement of the Alaska Railroad Corporation's passenger dock and related terminal facility in Seward, Alaska; and providing for an effective date."

was read the first time and referred to the Finance Committee.

The following fiscal information was published today:

Fiscal Note No. 1, zero, Department of Commerce, Community,
and Economic Development

Governor's transmittal letter dated January 23:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am transmitting a bill relating to increasing the bonding authority of the Alaska Railroad Corporation to construct a new dock and terminal in Seward, Alaska.

The legislature authorized \$60,000,000 in bonds for this purpose during the Thirty-Second Alaska State Legislature. This bill would increase the Corporation's bonding authority to \$135,000,000 in order to construct the new dock and terminal. The existing Seward dock is

nearing the end of its useful life. The dock is a critical connection for hundreds of thousands of cruise passengers and visitors arriving each summer, many of whom bring tourism dollars to Alaska businesses throughout the State. Without the increase in bonding authority authorized by this bill, closure or curtailed use of the existing dock is inevitable. This is a true economic development project to both replace an existing asset and expand its capability for the future.

Pursuant to the Corporation's organic statutes, legislative approval is required in order for the Corporation to issue bonds to fund this necessary and beneficial project. The contemplated bonds will be guaranteed by revenues of the Corporation and are not a liability of the State. No state dollars will be used to repay them.

I urge your prompt and favorable action on this measure.
