**Thirty-fifth Day**

Pursuant to adjournment the Senate was called to order by President Stevens at 11:01 a.m.

Dear Heavenly Father, I thank you for this new day and for this body, the Alaska Senate. May you bless each Senator as they serve and grant them the ability to love each other, and treat each other respectfully, even when they have strong differences of opinion.

I'm reminded of your words in Proverbs chapter 15, verse 1, where it says, "A soft and gentle and thoughtful answer turns away wrath, but harsh and careless words stir up anger." Lord, please help each Senator to give soft and gentle and thoughtful answers and avoid harsh and painful and careless words. Let their conversations be always full of grace, seasoned with salt, so that they may know how to answer each other.

Lord, in accordance with your unconditional love, may you help each Senator today as they work together for the betterment of this great State of Alaska that you have blessed us to be a part of.

In Jesus' name, I pray.

Amen.

Senator Yundt led the Senate in the Pledge of Allegiance.

was read the first time and referred to the Resources and Finance Committees.

The following fiscal information was published today:

Fiscal Note No. 1, zero, Department of Environmental Conservation

Fiscal Note No. 2, zero, Department of Fish and Game

Governor's transmittal letter dated February 20:

Dear President Stevens:

Under the authority of Article III, Section 18 of the Alaska Constitution, I am pleased to transmit a bill authorizing and regulating finfish farms and finfish farm products. Currently, Alaska law prohibits the farming of finfish, except for private nonprofit (PNP) salmon hatcheries. Authorizing finfish farming would introduce a new industry to Alaska, creating jobs, increasing food security for residents, and contributing to economic growth.

This bill authorizes the Commissioner of the Department of Fish and Game (DFG), in consultation with the Commissioner of the Department of Environmental Conservation (DEC), to permit the cultivation and sale of certain finfish in natural or artificial inland, closed-system bodies of water.

With a finfish farm permit, a permittee may operate a finfish farm and acquire, hold, offer, transfer, or sell finfish stock and finfish farm products, subject to DFG regulations and DEC oversight. The bill defines finfish as any bony fish belonging to the *Osteichthyes* class, excluding pink, chum, sockeye, coho, chinook, and Atlantic salmon. All finfish in finfish farms must remain sterile, and no artificial propagation is authorized.

I urge your prompt and favorable action on this measure.

Sincerely,

/s/

Mike Dunleavy  
Governor
