3 resources without the prior written approval of the board.

14 sec. 40(1) - (2) and sec. 50 of this chapter the board shall consider

15 (1) the revenue needs and projected fiscal condition of the

17 (2) the existence and extent of local and regional needs
18 for oil and gas products and by-products, the effect of state or
19 federal commodity allocation requirements which might be applicable
20 to those products and by-products, and the priorities among competing
21 needs;

22 (3) the desirability of localized capital investment,
23 increased payroll, secondary development and other possible effects
24 of the sale, exchange or other disposition of oil and gas or both;

25 (4) the projected social impacts of the transaction;

20 best interest of the state does not require it or that no competition
21 exists.

22 (b) Where competitive bids are required, the commissioner, with
23 the prior written approval of the Alaska Royalty Oil and Gas Develop-
