(c) There is a water supply, [AND] sewerage and solid waste facilities [SYSTEMS] fund created in the department to carry out the purposes of this section.

* Sec. 3. AS 46.03.030(d) is repealed and re-enacted to read:

(d) The department shall, by regulation, identify those costs which are eligible costs for the purposes of this section. Eligible

1 costs include the costs established in a construction contract which are
2 necessary for construction of a project, but do not include the cost of
3 interest and financing and right-of-way acquisition, or costs related to
4 operation, maintenance, repair or replacement of a project.

5 * Sec. 4. AS 46.03.030 is amended by adding a new subsection to read:

6 (c) The department may grant to a municipality not more than 50
7 percent of the eligible costs which are not paid for by the federal
8 government for solid waste processing or disposal facilities constructed
9 after July 1, 1980. However, the department may grant a municipality up
10 to 60 percent of the eligible costs not paid for by the federal govern-
11 ment for a solid waste processing or disposal facility constructed after
12 July 1, 1980, if the facility is used for resource recovery. The eli-
13 gible costs of a solid waste processing or disposal facility are deter-
14 mined by the federal agency granting the most monetary assistance for
15 construction of the facility. For a solid waste processing or disposal
16 facility for which federal money is not available, the department shall
17 determine the eligible costs in accordance with (d) of this section. A
18 municipality shall construct solid waste processing or disposal facili-
19 ties financed by grants under this section according to plans and speci-
20 fications approved by the department.

21 * Sec. 5. AS 46.03.900 is amended by adding new paragraphs to read:

22 (26) "resource recovery" means the recovery of materials or
23 energy from solid wastes for industrial use, agriculture, heat pro-
24 duction, power production, or other processes or purposes and includes
25 the reuse of materials or products to conserve natural resources;

26 (27) "solid waste" means all unwanted, abandoned, or discarded
27 solid or semi-solid material whether or not subject to decomposition,
28 originating from any source;

29 (28) "solid waste disposal facility" means a facility for the

1 discharge, deposit, injection, consolidation, or placement of solid
2 wastes into or onto the land and includes transfer stations and sanitary
3 landfills;

4 (29) "solid waste processing facility" means a facility for
5 the extraction of materials from solid waste, volume reduction, con-
6 version to energy, or other separation and preparation of solid waste
7 for reuse or disposal and includes incinerators, shredders, balers, and
8 transfer stations.

9 * Sec. 6. This Act takes effect July 1, 1980.
