SENATE BILL NO. 21

3

IN THE LEGISLATURE OF THE STATE OF ALASKA

4

THIRTEENTH LEGISLATURE - FIRST SESSION

5

A BILL

6 For an Act entitled: "An Act relating to grants for water supply, sewerage
7 and solid waste facilities; and providing for an
8 effective date."

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 * Section 1. AS 46.03.030(b) is amended to read:

11 (b) The department may grant to a municipality, as funds are
12 available, up to 75 [50] percent of eligible costs not financed by the
13 federal government, for public water supply, treatment and
14 distribution systems and public sewage collection, treatment and
15 discharge facilities for which construction has not commenced on or
16 before July 1, 1983. If the project is partly financed by the federal
17 government, a grant under this subsection may not exceed the
18 difference between the amount of the federal financing for the project
19 and 87.5 percent of the eligible costs of the project [JUNE 21, 1976].

20 The eligible cost of a project or portions of a project will be as
21 determined by the federal agency granting the most monetary
22 assistance. On projects or portions of projects, for which federal
23 participation is not available, eligible costs will be determined by
24 the department in accordance with (d) of this section. Projects shall
25 be constructed in accordance with plans and specifications approved by
26 the department.

27 * Sec. 2. AS 46.03.030(e) is amended to read:

28 (e) The department may grant to a municipality not more than 75
29 [50] percent of the eligible costs, including costs of obtaining

1 federal waivers from the requirement for secondary treatment plants,
2 that [WHICH] are not paid for by the federal government for solid
3 waste processing or disposal facilities constructed after July 1, 1983
4 [1980]. However, the department may grant a municipality up to 85
5 [60] percent of the eligible costs not paid for by the federal
6 government for a solid waste processing or disposal facility
7 constructed after July 1, 1983 [1980], if the facility is used for
8 resource recovery. The eligible costs of a solid waste processing or
9 disposal facility are determined by the federal agency granting the
10 most monetary assistance for construction of the facility. For a
11 solid waste processing or disposal facility for which federal money is
12 not available, the department shall determine the eligible costs in
13 accordance with (d) of this section. A municipality shall construct
14 solid waste processing or disposal facilities financed by grants under
15 this section according to plans and specifications approved by the
16 department.

17 * Sec. 3. This Act takes effect July 1, 1983.
