8 (b) The legislature finds that

9 (1) in order to assure the protection of lives and property and the marine environment
10 of the state, licensed marine pilots having extensive local knowledge are required to pilot certain vessels
11 on the inland and coastal water of and adjacent to the state;

12 (2) it is necessary to give the Board of Marine Pilots broad statutory authority, including
13 the authority to establish pilotage regions and maximum tariffs and the authority to establish criteria for
14 the training and licensing of marine pilots;

1 (3) marine pilots operating as independent contractors have provided and will continue
2 to provide essential services to the people of the state;

3 (4) marine pilots further the public interest by providing safe pilotage on the inland and
4 coastal water of and adjacent to the state;

5 (5) in the past, pilot organizations have provided, and in the future will continue to
6 provide, important services on behalf of marine pilots; these pilot organizations have furthered the policy
7 of protecting lives and property and the marine environment on the inland and coastal water of and
8 adjacent to the state.

9 (c) It is the intent of the legislature that the Board of Marine Pilots

10 (1) exercise jurisdiction over pilotage and marine pilots on the inland and coastal water
11 of and adjacent to the state to the maximum extent allowed under federal and state law; and

12 (2) work with

13 (A) marine pilots to ensure that safe pilotage is maintained in the state; and

14 (B) pilot organizations in a cooperative effort to enhance the policy of protecting
15 lives and property and the marine environment.
