

**CS FOR HOUSE BILL NO. 199(O&G) am**  
**IN THE LEGISLATURE OF THE STATE OF ALASKA**  
**EIGHTEENTH LEGISLATURE - SECOND SESSION**

**BY THE HOUSE SPECIAL COMMITTEE ON OIL AND GAS**

**Amended: 3/14/94**  
**Offered: 2/9/94**

**Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR**

**A BILL**

**FOR AN ACT ENTITLED**

1 **"An Act relating to the exploration and production of oil and gas and related**  
2 **hydrocarbons, to oil and gas exploration licenses, and to oil and gas leases in**  
3 **certain areas of the state; and providing for an effective date."**

4 **BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

5 **\* Section 1. AS 38.05.020(b) is amended to read:**

6 **(b) The commissioner may**

7 **(1) establish reasonable procedures and adopt reasonable regulations**  
8 **necessary to carry out this chapter and, whenever necessary, issue directives or orders**  
9 **to the director to carry out specific functions and duties; regulations adopted by the**  
10 **commissioner shall be adopted under AS 44.62 ([THE] Administrative Procedure Act)**  
11 **[(AS 44.62)]; orders by the commissioner classifying land, issued after January 3,**  
12 **1959, are not required to be adopted under AS 44.62 ([THE] Administrative Procedure**  
13 **Act) [(AS 44.62)];**

14 **(2) enter into agreements considered necessary to carry out the purposes**

1 of this chapter, including agreements with federal and state agencies;

2 (3) review any order or action of the director;

3 (4) exercise the powers and do the acts necessary to carry out the  
4 provisions and objectives of this chapter;

5 (5) notwithstanding the provisions of any other section of this chapter,  
6 grant an extension of the time within which payments due on any exploration license,  
7 lease, or sale of state land, minerals, or materials may be made, including payment of  
8 rental and royalties, on a finding that compliance with the requirements is or was  
9 prevented by reason of war, riots, or acts of God;

10 (6) classify tracts for agricultural uses and require the prequalification,  
11 including the submission of conservation plans, development plans, or other plans,  
12 schedules, or programs, of persons who apply to participate in an agricultural  
13 development project under AS 44.33.475;

14 (7) waive, postpone, or otherwise modify the development requirements  
15 of a contract for the sale of agricultural land if

16 (A) the land is inaccessible by road; and

17 (B) transportation, marketing, and development costs render the  
18 required development uneconomic.

19 \* Sec. 2. AS 38 is amended by adding new sections to read:

20 **ARTICLE 5A. OIL AND GAS EXPLORATION LICENSES; LEASES.**

21 **Sec. 38.05.131. APPLICABILITY; DETERMINATION; REGULATIONS. (a)**

22 Unless specifically provided otherwise in AS 38.05.132 - 38.05.134, the provisions of  
23 AS 38.05.005 - 38.05.040, 38.05.140(f), 38.05.180, 38.05.182 - 38.05.184, and  
24 38.05.920 - 38.05.990 apply to the issuance of oil and gas exploration licenses and  
25 leases under AS 38.05.132 - 38.05.134.

26 (b) The provisions of AS 38.05.131 - 38.05.134 do not apply to land

27 (1) north of the Umiat baseline; and

28 (2) in the vicinity of Cook Inlet that is within the area bounded by

29 (A) the north boundary of Township 17 North, Seward  
30 Meridian;

31 (B) the Seward Meridian;

1 (C) the south boundary of Township 7 South, Seward Meridian;

2 and

3 (D) the west boundary of Range 19 West, Seward Meridian.

4 (c) The commissioner shall make preliminary written determinations of the  
5 state land that may be subject to the provisions of AS 38.05.132. The determinations  
6 shall be given public notice using the methods described in AS 38.05.945(b). After  
7 completion of the comment period and evaluation of the comments received, the  
8 commissioner shall issue a written determination of the state land that is subject to the  
9 provisions of AS 38.05.132.

10 (d) The commissioner may adopt regulations necessary to implement  
11 AS 38.05.131 - 38.05.134.

12 (e) The commissioner may not issue exploration licenses to a licensee so that,  
13 at any one time, the licensee holds exploration licenses on more than 2,000,000 acres.

14 Sec. 38.05.132. OIL AND GAS EXPLORATION LICENSE. (a) To  
15 encourage exploration for oil and gas on state land, the commissioner may issue oil  
16 and gas exploration licenses.

17 (b) An oil and gas exploration license issued under this section gives the  
18 licensee

19 (1) the exclusive right to explore, for a term not to exceed 10 years, for  
20 deposits of oil and gas on unleased state land described in the exploration license  
21 unless the exploration license is terminated under (d)(1) of this section or the land is  
22 earlier relinquished, removed, or deleted under (d)(2) of this section; and

23 (2) unless the exploration license is terminated under (d)(1) of this  
24 section, the option to convert the exploration license for all or part of the state land,  
25 except the land that is deleted or removed from the land described in the exploration  
26 license under (d)(2) of this section, into an oil and gas lease upon fulfillment of the  
27 work commitments contained in the exploration license.

28 (c) An exploration license awarded under this section

29 (1) is not subject to the acreage limitations imposed by AS 38.05.140(c)  
30 or 38.05.180(m);

31 (2) may cover, subject to the maximum acreage limitation on

1 exploration licenses by one licensee under AS 38.05.131(e), an area of not less than  
2 20,000 acres and not more than 500,000 acres, that must be reasonably compact and  
3 contiguous;

4 (3) must be conditioned upon an obligation to perform a specified work  
5 commitment, in total for the term of the license, expressed in dollars of direct  
6 exploration expenditures; the specified work commitment must include a requirement  
7 that the licensee complete at least 25 percent of the licensee's total specified work  
8 commitment by the fourth anniversary of the effective date of the issuance of the oil  
9 and gas exploration license;

10 (4) must be conditioned upon the posting of a bond or other security  
11 acceptable to the commissioner, in favor of the state and subject to the following  
12 requirements:

13 (A) the bond or other security must be renewed annually;

14 (B) the initial bond or other security and any annual renewal of  
15 it must be in the amount determined by

16 (i) subtracting the licensee's cumulative direct  
17 exploration expenditures through the last day of the project year from  
18 a number that equals the licensee's total specified work commitment;  
19 and

20 (ii) dividing the amount determined in (i) of this  
21 subparagraph by the number of years remaining before the exploration  
22 license expires;

23 (5) is subject to an annual review and revocation if the commissioner  
24 determines that the licensee has failed to provide or maintain in effect the bond or  
25 other security required by (4) of this subsection;

26 (6) must be conditioned upon the licensee's payment to the state of a  
27 nonrefundable oil and gas exploration license fee in an amount determined by the  
28 commissioner, not to exceed \$1 for each acre of land or fraction of each acre that is  
29 subject to the exploration license; and

30 (7) must be conditioned upon an agreement that exploration  
31 expenditures are subject to audit by the commissioner.

1 (d) If, on the fourth anniversary of the effective date of the issuance of the  
2 exploration license awarded under this section,

3 (1) the licensee has not completed at least 25 percent of the licensee's  
4 total specified work commitment, as measured by the licensee's direct exploration  
5 expenditures, the exploration license terminates;

6 (2) the licensee has completed at least 25 percent but has not completed  
7 at least 50 percent of the licensee's total specified work commitment, as measured by  
8 the licensee's direct exploration expenditure, the commissioner shall remove or delete  
9 or shall require the licensee to relinquish a portion of the area within the exploration  
10 license; relinquishment, removal, or deletion of an area from the state land described  
11 in the exploration license terminates the licensee's rights under AS 38.05.131 -  
12 38.05.134 in the area that is relinquished, removed, or deleted; a relinquishment,  
13 removal, or deletion of a portion of the area described in the exploration license must  
14 be in areas that are reasonably compact and contiguous; the areas relinquished from  
15 the state land described in the exploration license must be areas identified by the  
16 licensee but, if the licensee fails to identify sufficient area, the commissioner may  
17 identify any additional acreage required to be removed or deleted from the area under  
18 license to meet the requirements of this subsection; within the area described in the  
19 exploration license issued under (a) - (c) of this section,

20 (A) 25 percent must be relinquished, removed, or deleted not  
21 later than the fourth anniversary of the effective date of the issuance of the  
22 exploration license;

23 (B) an additional 10 percent of the acreage remaining after  
24 relinquishment, removal, or deletion of acreage required by (A) of this  
25 paragraph and by previous relinquishments, removals, or deletions under this  
26 paragraph must be removed or deleted on each of the succeeding anniversaries  
27 of the effective date of the issuance of the exploration license;

28 (C) the cumulative total of the acreage relinquished, removed,  
29 or deleted under (A) and (B) of this paragraph may not be required to exceed  
30 50 percent of the area awarded within the original exploration license area.

31 (e) If, immediately before the beginning of the period for annual renewal of

1 the bond or other security under (c)(4)(A) of this section, the licensee fails to provide  
2 or maintain in effect the bond or other security required by (c) of this section for the  
3 period covered by the annual renewal and the commissioner revokes the exploration  
4 license, the bond or other security then in effect for the licensee's obligations under  
5 the exploration license is forfeited to the state.

6 (f) In this section,

7 (1) "direct exploration expenditure" means cash expenses undertaken  
8 in performance of a specified work commitment under the provisions of AS 38.05.131  
9 - 38.05.134 and necessarily incurred by the licensee in the permitting, mobilization,  
10 conducting, demobilization, and evaluation of geophysical and geological surveys, or  
11 the drilling, logging, coring, testing, and evaluation of oil and gas wells; the term

12 (A) includes direct labor costs, including the cost of benefits,  
13 for employees directly associated with the work commitment programs, the cost  
14 of renting or leasing equipment from parties not affiliated with the licensee, the  
15 reasonable costs of maintaining and operating equipment, payments to  
16 consultants and independent contractors not affiliated with the licensee, and  
17 costs of materials and supplies;

18 (B) does not include noncash expenses such as depreciation and  
19 reserves, interest or other costs of borrowed funds, return on investment,  
20 overhead, insurance or bond premiums, or any other expense that is  
21 unreasonable or that the licensee has not incurred to satisfy the licensee's work  
22 commitment;

23 (2) "work commitment" includes the drilling of one or more exploration  
24 wells or the gathering of data from activities described in (f)(1) of this section, or both.

25 Sec. 38.05.133. LICENSE PROCEDURES. (a) The procedures in this section  
26 apply to the issuance of an oil and gas exploration license under AS 38.05.132.

27 (b) The licensing process is initiated by the commissioner preparing, or a  
28 prospective licensee submitting to the commissioner, a proposal that identifies a  
29 specific area to be subject to the exploration license, proposes specific minimum work  
30 commitments, and states the minimum qualifications for a licensee as established by  
31 regulations adopted by the commissioner. A prospective licensee may initiate a

1 proposal only in response to a call for proposals by the commissioner or during a  
2 period specified in regulations adopted by the commissioner. The regulations must  
3 provide for at least one period for that purpose during each calendar year.

4 (c) If the commissioner initiates the licensing process under (b) of this section,  
5 the commissioner shall publish notice of the commissioner's proposal in order to solicit  
6 comments and competing proposals.

7 (d) Within 30 days after receipt of a proposal from a prospective licensee  
8 under (b) of this section, the commissioner shall either reject it in a written decision  
9 or give public notice of the intent to evaluate the acceptability of the proposal. The  
10 commissioner shall solicit comments on a proposal for which public notice is given  
11 under this subsection, and shall request competing proposals.

12 (e) The commissioner may make a written request to a prospective licensee for  
13 additional information on the prospective licensee's proposal. The commissioner shall  
14 keep confidential information described in AS 38.05.035(a)(9) that is voluntarily  
15 provided if the prospective licensee has made a written request that the information  
16 remain confidential.

17 (f) After considering proposals not rejected under (d) of this section and public  
18 comment on those proposals, the commissioner shall issue a written finding addressing  
19 all matters set out in AS 38.05.035(e) and (g), except for AS 38.05.035(g)(1)(K). If  
20 the finding concludes that the state's best interests would be served by issuing an oil  
21 and gas exploration license, the finding must (1) describe the limitations, stipulations,  
22 conditions, or changes from the initiating proposal or competing proposals that are  
23 required to make the issuance of the exploration license conform to the best interests  
24 of the state, and (2) if only one proposal was submitted, identify the prospective  
25 licensee whom the commissioner finds should be issued the exploration license. The  
26 commissioner shall attach to the finding a copy of the exploration license to be issued  
27 and the form of lease that will be used for any portion of the exploration license area  
28 subsequently converted to an oil and gas lease under AS 38.05.134.

29 (g) If only one prospective licensee submits a proposal and the finding under  
30 (f) of this section concludes that an exploration license should be issued to that  
31 prospective licensee, the prospective licensee has 30 days after issuance of the finding

1 within which to accept or reject the issuance of the exploration license, as limited or  
2 conditioned by the terms contained in the finding. The exploration license to be issued  
3 and the form of lease that will be used must be attached to that finding. The  
4 prospective licensee must accept or reject the issuance of the exploration license in  
5 writing.

6 (h) If competing proposals are submitted, and the commissioner's finding  
7 under (f) of this section concludes that an oil and gas exploration license should be  
8 issued, the commissioner shall issue a request for competitive sealed bids, under  
9 procedures adopted by the commissioner by regulation, to determine which prospective  
10 licensee should be issued the exploration license. The finding provided to the  
11 prospective licensees and the public under (f) of this section must contain notice that  
12 (1) the commissioner intends to request competitive sealed bids, (2) a prospective  
13 licensee who intends to participate in the bidding must notify the commissioner in  
14 writing by the date specified in the notice, and (3) a prospective licensee's notice of  
15 intent to participate in the bidding constitutes acceptance of issuance of the exploration  
16 license, as limited or conditioned by the terms contained in the finding and by the  
17 exploration license to be issued and the form of lease to be used that have been  
18 attached to that finding, if the prospective licensee is the successful bidder. The  
19 successful bidder is the prospective licensee who submits the highest bid in terms of  
20 the minimum work commitment dollar amount.

21 Sec. 38.05.134. CONVERSION TO LEASE. If the licensee requests and the  
22 commissioner determines that the work commitment obligation set out in an oil and  
23 gas exploration license issued under AS 38.05.132 has been met, the commissioner  
24 shall convert to one or more oil and gas leases all or part, as the licensee may indicate,  
25 of the area described in the exploration license that remains after the relinquishments,  
26 removals, or deletions required by AS 38.05.132(d)(2). A lease issued under this  
27 section

- 28 (1) is subject to the acreage limitations imposed by AS 38.05.140(c);  
29 (2) is subject to AS 38.05.180(j) - (m), (o) - (u), and (x) - (z);  
30 (3) must be conditioned upon a royalty in amount or value of not less  
31 than 12.5 percent of production;

1 (4) must include an annual rent of \$3 per acre or fraction of an acre  
2 initially paid to the state at inception of the lease and payable annually after that until  
3 the income to the state from royalty under that lease exceeds the rental income to the  
4 state under that lease for that year; and

5 (5) is subject to other conditions and obligations that are specified in  
6 the lease.

7 \* Sec. 3. AS 38.05.135(a) is amended to read:

8 (a) Except as otherwise provided, valuable mineral deposits in land belonging  
9 to the state shall be open to exploration, development, and the extraction of minerals.  
10 All land, together with tide, submerged, or shoreland, to which the state holds title to  
11 or to which the state may become entitled, may be obtained by permit or lease for the  
12 purpose of exploration, development, and the extraction of minerals. Except as  
13 specifically limited by AS 38.05.131 - 38.05.181 [AS 38.05.135 - 38.05.181], land may  
14 be withheld from lease application on a first-come, first-served basis, and offered only  
15 on a competitive bid basis when determined by the commissioner to be in the best  
16 interests of the state. In unproven areas the commissioner may offer additional  
17 incentives, including a reduction of royalty to a minimum of five percent in the case  
18 of oil and gas, and other terms in and granting a permit or lease for exploration and  
19 development whenever it appears to be in the best interests of the state to do so.

20 \* Sec. 4. AS 38.05.140(f) is amended to read:

21 (f) The submerged and shoreland lying north of 57 degrees, 30 minutes north  
22 latitude and east of 159 degrees, 49 minutes west longitude within the Bristol Bay  
23 drainage are designated as the Bristol Bay Fisheries Reserve. Within the Bristol Bay  
24 Fisheries Reserve no surface entry permit to develop an oil or gas lease or oil and gas  
25 exploration license may be issued on state owned or controlled land until the  
26 legislature by appropriate resolution specifically finds that the entry will not constitute  
27 danger to the fishery.

28 \* Sec. 5. AS 38.05.180(d) is amended to read:

29 (d) The commissioner may issue oil and gas leases in an area that has not been  
30 included in a leasing program submitted, in accordance with (b) of this section, to the  
31 legislature if the land to be leased

1 (1) [THE LAND TO BE LEASED] was previously subject to a valid  
2 state or federal oil and gas lease; [OR]

3 (2) [THE LAND TO BE LEASED] is contiguous to land already under  
4 state, federal or private lease and the commissioner makes a written finding, after  
5 hearing, that leasing of the land would result in a substantial probability of early  
6 evaluation and development of the land to be leased; [OR]

7 (3) [THE LAND TO BE LEASED] is adjacent to land owned or  
8 controlled by another party on which a discovery of commercial quantities of oil or  
9 gas has been made, and the commissioner finds, after hearing, that there is a  
10 reasonable probability that the land to be leased contains oil or gas in communication  
11 with the oil or gas discovered on the land of the other party; [OR]

12 (4) [THE LAND TO BE LEASED] is adjacent to land included in the  
13 federal five-year Outer Continental Shelf leasing program under 43 U.S.C. 1344, and  
14 the commissioner makes a written finding, after hearing, that coordinated or  
15 simultaneous leasing with the federal government is in the public interest; or

16 (5) is the subject of an oil and gas exploration license issued under  
17 AS 38.05.131 - 38.05.134.

18 \* Sec. 6. AS 38.05.180(f) is amended to read:

19 (f) Except as provided by AS 38.05.131 - 38.05.134, the [THE]  
20 commissioner may issue oil and gas leases on state land to the highest responsible  
21 qualified bidder determined by competitive bidding under regulations adopted by the  
22 commissioner. Bidding may be by sealed bid or according to any other bidding  
23 procedure the commissioner determines is in the best interests of the state. Whenever,  
24 under any of the leasing methods listed in this subsection, a royalty share is reserved  
25 to the state, it shall be delivered in pipeline quality and free of all lease or unit  
26 expenses, including but not limited to separation, cleaning, dehydration, gathering, salt  
27 water disposal, and preparation for transportation off the lease or unit area. Following  
28 a pre-sale analysis, the commissioner may choose at least one of the following leasing  
29 methods:

30 (1) a cash bonus bid with a fixed royalty share reserved to the state of  
31 not less than 12.5 [12 1/2] percent in amount or value of the production removed or

- 1 sold from the lease;
- 2 (2) a cash bonus bid with a fixed royalty share reserved to the state of
- 3 not less than 12.5 [12 1/2] percent in amount or value of the production removed or
- 4 sold from the lease and a fixed share of the net profit derived from the lease of not
- 5 less than 30 percent reserved to the state;
- 6 (3) a fixed cash bonus with a royalty share reserved to the state as the
- 7 bid variable but no less than 12.5 [12 1/2] percent in amount or value of the
- 8 production removed or sold from the lease;
- 9 (4) a fixed cash bonus with the share of the net profit derived from the
- 10 lease reserved to the state as the bid variable;
- 11 (5) a fixed cash bonus with a fixed royalty share reserved to the state
- 12 of not less than 12.5 [12 1/2] percent in amount or value of the production removed
- 13 or sold from the lease with the share of the net profit derived from the lease reserved
- 14 to the state as the bid variable;
- 15 (6) a cash bonus bid with a fixed royalty share reserved to the state
- 16 based on a sliding scale according to the volume of production or other factor but in
- 17 no event less than 12.5 [12 1/2] percent in amount or value of the production removed
- 18 or sold from the lease;
- 19 (7) a fixed cash bonus with a royalty share reserved to the state based
- 20 on a sliding scale according to the volume of production or other factor as the bid
- 21 variable but not less than 12.5 [12 1/2] percent in amount or value of the production
- 22 removed or sold from the lease.

23 \* Sec. 7. AS 38.05.945(a) is amended to read:

24 (a) This section establishes the requirements for notice given by the department

25 for the following actions:

26 (1) classification or reclassification of state land under AS 38.05.300

27 and the closing of land to mineral leasing or entry under AS 38.05.185;

28 (2) zoning of land under applicable law;

29 (3) a decision under AS 38.05.035(e) or 38.05.132 - 38.05.134

30 regarding the sale, lease, or disposal of an interest in state land or resources;

31 (4) a competitive disposal of an interest in state land or resources after

1 final decision under AS 38.05.035(e);  
2 (5) a public hearing under AS 38.05.856(b);  
3 (6) a preliminary finding under AS 38.05.035(e) and 38.05.855(c)  
4 concerning sites for aquatic farms and related hatcheries.

5 \* **Sec. 8. ADDITIONAL EXCLUDED AREA.** In addition to the area designated in  
6 AS 38.05.131(b), added by sec. 2 of this Act, the provisions of AS 38.05.131 - 38.05.134,  
7 added by sec. 2 of this Act, do not apply to land within proposed Competitive Oil and Gas  
8 Lease Sales 80, 87, and 88, as the area to be offered in each of those proposed competitive  
9 oil and gas lease sales was delineated in the Five-Year Oil and Gas Leasing Program prepared  
10 by the Department of Natural Resources and dated January 1993. However, the exclusion of  
11 the land in any one of those lease sales that is required by this section ceases on the date the  
12 land described in the lease sale is first offered for competitive oil and gas leasing under  
13 AS 38.05.180, and that land is thereafter subject to the provisions of AS 38.05.131 -  
14 38.05.134, added by sec. 2 of this Act.

15 \* **Sec. 9. REGULATIONS.** The commissioner of natural resources may proceed to adopt  
16 regulations necessary to implement AS 38.05.131 - 38.05.134, added by sec. 2 of this Act.  
17 The regulations take effect under AS 44.62 (Administrative Procedure Act), but not before the  
18 effective date of secs. 2 - 8 of this Act.

19 \* **Sec. 10.** Section 9 of this Act takes effect immediately under AS 01.10.070(c).
