

HOUSE CONCURRENT RESOLUTION NO. 31
IN THE LEGISLATURE OF THE STATE OF ALASKA
EIGHTEENTH LEGISLATURE - SECOND SESSION

BY REPRESENTATIVES NICHOLIA, Ulmer, Brice, Brown, Bunde, Davidson, B.Davis, G.Davis, Hoffman, James, Kott, Larson, Menard, Navarre, Nordlund, Olberg, Parnell, Sitton, Toohey, Williams

Introduced: 2/2/94

Referred: Health, Education & Social Services

A RESOLUTION

1 Relating to Alcohol-Related Birth Defects Awareness Week.

2 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

3 WHEREAS fetal alcohol syndrome and fetal alcohol effects, which are birth defects
4 related to alcohol consumption by pregnant women, can be prevented if pregnant women and
5 women who plan to become pregnant abstain from alcohol consumption; and

6 WHEREAS fetal alcohol syndrome results in permanent growth retardation, physical
7 malformations, and permanent central nervous system damage, including developmental
8 delays, learning disabilities, and behavioral problems, and is most often accompanied by
9 mental retardation; and

10 WHEREAS pregnant women who consume alcohol also risk having children with fetal
11 alcohol effects, which most often include permanent developmental delays, learning
12 disabilities, and behavioral problems; and

13 WHEREAS fetal alcohol syndrome is the number one identifiable cause in the United
14 States of birth defects accompanied by mental retardation, and the only preventable one; and

15 WHEREAS alcohol-related birth defects have only recently been discovered to be a
16 major health problem, and many questions regarding them remain unanswered; and

17 WHEREAS the latest research shows that children with fetal alcohol syndrome and

1 fetal alcohol effects are often unable to live totally independent lives; and

2 **WHEREAS** the research has also shown that additional children of a woman who has
3 previously given birth to a child with an alcohol-related birth defect are most often born with
4 alcohol-related birth defects in successively severe degrees if the woman continues to drink
5 during her pregnancies; and

6 **WHEREAS**, without exception, mothers of infants born with fetal alcohol syndrome
7 consumed alcohol during pregnancy; and

8 **WHEREAS** the Surgeon General has issued an advisory that pregnant women and
9 women who plan to become pregnant should not consume alcohol; and

10 **WHEREAS** the division of alcohol and drug abuse, Department of Health and Social
11 Services, will be conducting a statewide campaign designed to increase awareness of fetal
12 alcohol syndrome during the week of May 8 - 14, 1994;

13 **BE IT RESOLVED** that the Alaska State Legislature respectfully requests the
14 Governor to proclaim May 8 - 14, 1994, as Alcohol-Related Birth Defects Awareness Week,
15 and urges schools, health care organizations and practitioners, and other public and private
16 agencies and individuals observe the week with appropriate activities.

17 **COPIES** of this resolution shall be sent to the governing body of each school district,
18 the State Medical Board, the Board of Certified Direct-Entry Midwives, the Board of Nursing,
19 and the chief executive officer of each hospital and health clinic in the state.
