COMMENTS: (Justification must be stated for the above line checked - continue on another page if needed.)

- 1. Due to increased cost of material and labor it is difficult for an individual to construct or purchase a good quality home for less than \$55,000. This also holds true for multiple dwellings limited to \$80,000.
- 2. The impact of population growth in Alaska is requiring new housing and adequate financing for single family and multiple dwelling units.
- 3. If this proposed legislation is approved I would like the effective date no sooner than July 1, 1975, due to an existing backlog of applications at the present time.
- 4. Increased personnel and cost to administer will definately be involved.
