III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

Special camp facilities for non-standard campers will be developed adjacent to existing campground. Special trails and activity areas will be developed including swimming beach, boat dock, play area, special interpretive trails, access, and cabins for above normal needs. This area and all facilities will be useable on a reservation basis by standard campers when not otherwise reserved. LMCF funds are limited by federal requirement to recreation facilities only. Some units of special construction cannot be matched in later phases. We recommend this facility be transferred to Chena River Recreation Area. Basic costs for power, water, and sewerage provisions must increase by approximately \$50,000 in accounts 300-400 in FY 78 and \$100,000 in FY 79, if this change is made.
