SELECT COMMITTEE ON EDUCATION

February 18, 1976

Mr. Michael Bradner  
Speaker of the House  
Alaska State Legislature  
Juneau, Alaska 99811

Dear Mr. Bradner:

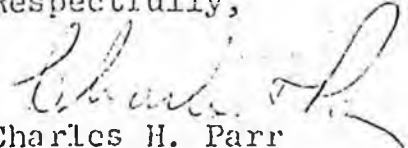

The Select Committee on Education has had HB 620 under consideration. A Majority of the members of the Committee recommend it be replaced with CS for HB 620, that CS for HB 620 Do Pass, and be referred to the Finance Committee.

HB 620 would provide funds to replace schools damaged or destroyed by fire (at Nondalton, Deering and Fort Wainwright), for repair or replacement of roofs, and to meet fire code provisions in schools on six military installations. Also included is oil storage diking at 52 rural sites.

The bill authorizes \$2,000,000 for water and sewer up-grade for rural schools. Testimony before the Committee was that \$11,000,000 had been requested for up-grading 55 schools, but that the Governor's Budget Review Committee had reduced the figure. An inventory of rural school water and sewer facilities, which was to have been completed by Alaska State Operated Schools in October 1975, has not been done and testimony from the Department of Environmental Conservation is that there is presently no integrated up-to-date data base concerning rural community water and sewer systems.

It should be noted that all costs shown in the bill are estimates and are not the result of actual engineering or architectural research. The Committee is not pleased with this lack of precision and expects more definitive figures in future bills of this nature.

Respectfully,
