SUBJECT: Loss of Private Vehicle

FROM: Ronald S. Davena *RSD*  
Construction & Maintenance Engineer  
Western District

Per our conversation regarding the flooding of the East End and downtown Nome on the evening of November 11, 1974.

At approximately 7:30 p.m. that evening, I was enroute back into town in my private vehicle, which I was using at the time as it was the most expedient means of transportation available, when the high waves hit us, washing the vehicle off the road near the end of the seawall. I attempted to get the vehicle back onto the road, but had to abandon it at approximately 8:30 p.m. when the water became too high.

As a result, my vehicle has been damaged beyond repair.

*This is a factual statement and it is my opinion he should be reimbursed for his loss.*
