HOUSE JOURNAL

Letter of Intent  
HB 700

In considering the purposes of the appropriation contained within HB 700, especially after review of the Alaska Power Study, it became apparent to the Finance Committee that to serve the interests of the different communities, particularly in Southeast Alaska, it may be necessary to evaluate projects other than those discussed in the House Resources Committee. Therefore, we recommend that the House Resources Committee letter of intent not be adopted, but that the loans be made to eligible borrowers within the amount of the appropriation.

A number of communities in the State are in need of immediate assistance for development of water supply and electric power, and it is the intent that the department make the loans available as soon as possible during FY 1977.

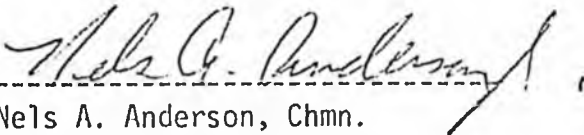

The Committee recognizes that a loan fund for electrical development would be a more appropriate place to place that portion of the appropriation that deals with these types of projects. In the event such a fund is established, the Committee recommends that \$2,700,000 of the appropriation be transferred to that fund.

Rep. Hugh Malone, Chairman  
House Finance Committee

It is the intent of the House Resources Committee in passing out HB700 that the following projects be funded:

CITY	PROJECT NAME
Petersburg	Blind Slough Expansion
Petersburg-Wrangell	Thomas Bay
Sitka	Green Lake
Ketchikan	Swan Lake or Lake Grace
Kodiak	Terror Lake
Anchorage	Municipal Water
Cordova	Power Creek
