It is expected that costs associated with administration of a contract to complete the study will not exceed 5% of the contract amount.

NOTE: The Corps of Engineers has an authorized but unfunded study pending on a possible harbor at St. Paul. The study is deferred until such time that the local government can furnish needed economic justification. If such data cannot be submitted a negative report will be submitted. If such justification can be compiled the Corps will seek study funds from the Congress. Preliminary estimates place the cost of a Small Boat Harbor for St. Paul at \$4,000,000.
