17 ments, including but not limited to electrical utilities, geothermal,
18 hydroelectric, or wind-power energy production, or for natural gas line
19 construction.

20 (b) A certificate of need may issue only if the application
21 demonstrates that the loan sought is to assist in meeting the energy
22 needs of rural communities of 3,000 or less people, is not otherwise
23 available from private lenders on reasonably equivalent terms and condi-
