[Signature] recommends: NO REVISIONS  
[Signature] recommends: NO REVISIONS  
\_\_\_\_\_ recommends:  
\_\_\_\_\_ recommends:

[Signature] Chairman

HOUSE COMMUNITY AND REGIONAL AFFAIRS COMMITTEE

March 29, 1976

The meeting was called to order at 9:10 am by Chairman Cotten for discussion of HB's 797, 798, 725 and 816. Present were:

Rep. Cotten	Rep. Urion
Rep. Freeman	Alan Latham, Legislative Affairs
Rep. Rudd	Jerry Sargeant
Rep. Ostrosky	Jerry Rhinel, Dept. of C & R A
Rep. Hackney	Barbara Englert Thomas, Staff
Rep. Davis	Vicci Hansen, Staff

0014 Rep. Cotten said that last weekend he and Rep. Rudd had gone to Anchorage and he had a talk with a man named David Hickock from the Alaska Environmental Information and Data Center. Mr. Hickock suggested that he could use the contract and could put to use \$75,000.00. He suggested \$50,000.00 for people to gather the research and the remaining \$25,000.00 to be used for publication and for holding a conference in Anchorage. He suggested that the benefits of having people coming in from different countries would be probably pretty slight. He also suggested that there probably wasn't a lot of new information that would be found through a study like this or as the result of any conference.

00 Cotten asked the Department if they would care to comment on this.

The Department, Jerry Rhinel, said that they really haven't had a chance to discuss this but his reaction was that they would pretty much have to concur with Mr. Hickock's comments. He wonders what they could get for \$75,000.00. He was skeptical about what they get for \$75,000.00.

0111 Cotten said that the point was made that "what do you have right now" - what if they came to the Dept. and said that they would like to see what their options are for putting in a sewer disposal system up in a certain place, is the Department able to provide a work book of different plans that they might want to use or what their alternatives might be. Is the Department able to provide them with some hard data like that right now.

0127 Sargeant said that they have all kinds of data and you can't put everything into a little pamphlet. There was discussion on this.

The committee discussed the cost of hiring an engineer, the interest of people in having a conference.

It was discussed that on HB 797 the CS should be amended to switch 1 and 2, to amend lines 17 and 21 to delete arctic and sub arctic and insert "Alaskan" on line 21 to delete arctic and insert "Alaskan".

CSHB 797 and 798 were passed out.

0921 Cotten brought up HB 816 which was sponsored by Rep. Urion for changing the home rule power to not allow them to charge over 25%.

Rep. Freeman commented on this. He said that he checked any diminution of the home rule authority and come to find out that when you get right down to it the community in question, Homer, is not a home rule city and they are violating the law. Mr. Freeman objected to the bill and said that it wouldn't do anything to accomplish. . The committee concurred with Mr. Freeman and the bill was dead.

1009

HB 725 was briefly discussed and was passed out.

The meeting was adjourned at 9:55 am.
