HB 601 State aid for public schools - Rules/Gov

Cole & Grieser, spoke about the states need to raise the basic support from 93% to 95%. This is due to increased costs, inflation, unit value, etc.

Committee discussion about the quality of ed. in Alaska, kids can't even read when they get out of school. Fiscal note was reviewed by committee.

Sullivan - vote - due pass 6

HB 596 Local Health Services -Rules/Gov

Jund related purpose and reasons for the bill, how it is necessary to start contracting health services to areas.

Committee concerns related around whether communities really wanted contract services of the state or whether they would rather do it themselves.. Is there an actual need to provide this service. Swanson very concerned about communities right to provide their own health care. Discussion continued regarding the cost breakdown, as provided in the policy statement. A lot of additional staff, travel, etc.

How this bill would effect the lack of medical services on the chain was discussed, basically it will not change that, they will still have their itinerant nurses and health aids. This will not establish doctors.

Committee decided to hold and have more input into this because of the cost factor and controversial discussion regarding communities self-determination.
