Testifying: Frank Pauls, Dept. H&SS,

HB 881 - Physician Patient Relationship

Committee looked at the CS which this committee had drawn up, decided to move out with no objection.

SCR 84 Ownership of state owned facility - Craig

Dr. Pauls testified for the dept. They are against transferring of ownership. The facility was built with G.O. bond. Dept. feels it is a breach of contract to turnover to city of Craig. Attorney General's office felt it was also a breach of contract, problem being that there would be a charge for services.

Committee discusses putting in clause that would revert ownership back to state if conditions not met. Conditions being that it must be used as a health care facility,

bill moved out. (Doug is having the amendment drafted upstairs)

CSSB 542 - Medical Assistance for Needy Persons

Dr. Schrader, presented the Dept. position regarding this bill

Debbie explained the fiscal impact

HB 881 - Physician Patient Relationships

Dave Walker testifying aabout the C.S. he drew up. stated there are many cases now on appeal regarding laetrile. Concurs with Hugh Fleischer that there is no reason why the bill can't begin "no person, etc.

Amendment, line 9 delete, "The legislature declares, etc."

Amendment, delete the words limited to board
passed

line 13, after drug insert "as so prescribed and admin."
passed

many little amendments which Dave will include in the committee substitute.

Testimony from the research analyst regarding more cases involving interstate commerce and laetrile.

Committee spoke about whether the bill should specify that the Medical board is subject to the A.P.A. most everybdoy thought it already, vote to decide if it should be included in bill, yes, include it

Does this exclude hospitals from interfering in the administration of laetrile in their hospital??? Walker, yes, you can not legislate that.

Include Charlies language for the second section of the bill
"No physician may be subject to disciplinary action by the State Medical Board of PSRO for prescribing or administering laetrile upon request by a patient under his care, unless the State Medical Board, after a hearing conducted in accordance with the Admin. Proced. Act has made a formal finding that laetrile is harmful."

Dr. Pauls, would like to see the generic name for laetrile inserted in the bill,
passed.

Walker, state med board would not have capabilities of making decisions, must have clinical evaluation.

Depts. position is that they are against it for various reasons. Mainly that the city would use it as incentive for a Phy. assistant to come in and charge fees. Agains the states policy. Many legal problems.

JUNEAU ALASKA

Alaska State Legislature

Testimony received by the House HESS Committee by Hugh Fleischer, regarding HB 881 - Laetrile

First recommendation is that the language of the bill begins on line 13 "No person, group, organization or facility", rather than have it begin with "It is the intention"

He also feels it would be appropriate to limit the consideration of the bill to the administration of laetrile, as prescribed to a patient; if found to be harmful by the state medical board, (he concedes that over doses of oral doses, can be harmful, just as other quantities of aspirin, etc. can be harmful)

The appropriate wording for the consideration of the Medical Board should be worded as follows: Administrated by a physician and requested by a patient unless a substance as so prescribed or administered by the physician is found to be harmful by the state medical board.

This would define the responsibilities of the Medical Board and their latitude of questions regarding laetrile as administered by a physician.

He also suggests that this finding be subject to the Administrative Procedure Act, regarding rights to hearings, etc.

Regarding the statement by Chris Beardley, Providence Hospital, that "laetrile is harmful", Mr. Fleischer stated that legal counsel would or could advise the committee that the only law that applies to laetrile in Ak. is the Food, Drug & Cosmetic Act of 1938, which limits terms of its application and introduction & delivery for interstate commerce of any article under this drug act. Assuming that the F.D.A. has authority over laetrile under the provisions of this act, then this law is the only one that applies.

Advises the committee about numerous responsible studies that have been done by such institutes as the Sloan Kettering Cancer Institute, N.Y., National Cancer Institute, Food & Drug Administration under Dept. of H.E.W. All of these studies refute the blanket statement made by Dr. Wilson, that there is harmfulness in laetrile.

There are no toxic substances reported in and injection of laetrile. The history of laetrile is over a century old.

Recommends that the word "drug" be changed to "substance". He does not consider laetrile as a drug, although the Food & Drug administration has a very broad definition of the word drug.

Testimony - Dr. Rodman Wilson
Immediate past President
of Alaska State Medical Assoc.

Regarding - Laetrile - HB 881

One of the cruelest examples of man's inhumanity to man is in cancer quackery. The hope or sometimes promise to cure is held out to victims of cancer. Temporary improvement is seen in brightening of attitude, gain in weight, improvement in strength, even perhaps transient slowing in growth or regression of tumor. All of these effects are psychologically mediated. Such transient benefit is difficult to prove when controlled studies are done. Persons receiving the drug agent fare no better than those receiving a mock drug.

It might not matter if the only loss to patients were financial, though many cancer victims and their families can ill afford the dollar loss of a cancer hoax. What is most cruel of all is that some victims will lose their opportunity for cure or actual palliation by choosing the cancer hoax modality rather than legitimate expert care.

I have no personal experience with Laetrile. The best description of the substance and its history is contained in the Jan-Feb 1976 issue of Ca - A Cancer Journal for Clinicians, published by The American Cancer Society. I would like to read an interview between the editor of the Journal and Dr. Robt. Eyerly, M.D., chairman, of the Committee on the Proven Methods of Cancer Management, the American Cancer Society: p. 50-54.

If you are still unconvinced of the worthlessness of Laetrile, I suggest that you invite Dr. Elmer Gaede of Soldotna. I understand that he is allegedly administering Laetrile to cancer patients. If this is true, he should be glad to come before your committee to explain what he is doing. Ask him to bring X-rays and other materials with him to show you, if he can, how cancer lumps on chest and bone x-rays have disappeared or diminished in size after administering Laetrile.

You may ask why our medical societies are not looking into the matter. Well, we intend to, but I must warn you that if you pass such a bill as HB 881, it will make this kind of investigation much more difficult. Who wants to risk being fined \$5,000 - \$25,000. It is a risk because it is particularly difficult to conclusively, the word appears 3 times in the bill - prove anything beneficial or harmful in biological circumstances. Believe it or not, it has never been conclusively proven that penicillin is effective in late forms of syphilis, even though it has been the standard form of treatment for over 20 years. I could give many other examples. With a drug as inert as Laetrile - given by injection - it can be toxic when given by mouth because it turns into hydrogen cyanide, as you have heard - it is especially hard to conclusively prove harm, except to the pocketbook - from Laetrile.

Finally I would add that much of the malpractice legislation that you all have been struggling with so long and so hard is directed specifically toward strengthening, no weakening, discipline within the profession, increasing the desire and ease and effectiveness with which health professionals can review each others practices and behavior, Federal review programs such as PSRO are about this too. Don't undo this by passing such a foolish measure as HB 881.

Thank you

Rodman Wilson, M.D.

To: House Hess Committee

Testimony: From Chris Beardsley, PROVIDENCE HOSPITAL, ANCHORAGE, ALASKA

Subject: HB 881

Providence Hospital strongly opposes HB 881 "An Act relating to interference with physician-patient relationships."

As the proponents of the bill are testifying specifically in favor of the bill as it relates to Laetrile (or its chemical equivalent) Amygdalin), as an alleged cure for cancer, I would first suggest that Sections 3 and 4 be omitted from the proposed bill.

Furthermore: Relating specifically to Laetrille,

1. Federal law prohibits the use or administration of a drug by anyone which is not approved by the FDA. Hospitals, of course, fall under this law. Therefore, a hospital must prohibit the administration of a drug or substance (regulated by the FDA) that is not approved by the FDA.
2. In a brief survey of hospitals relating to this bill, all surveyed specifically stated their opposition to HB 881.
3. In addition, some medical liability insurance carriers (malpractice insurance writers) have stated that if hospitals did approve administration of non-approved FDA substances or drugs, that their medical liability insurance would be stopped and/or non renewed.
4. In an attempt to circumvent the federal ban on Laetrile, the proponents have renamed it Bee-Seventeen, the "anti-neoplastic vitamin," and Aprikenn. These oral preparations have been distributed to many health food stores across the country. However, the FDA has issued a public warning that they are misbranded and potentially dangerous; the ingestion of five capsules of Aprikern or two packets of Bee-Seventeen can be fatal in a child.

~~WHILE~~ THE MEDICAL ESTABLISHMENT CONTINUES TO PRESSURE DOCTORS AND PATIENTS INTO USING THE SAME OLD TREATMENTS, ^{WHILE} CANCER DEATHS, FOR INSTANCE, CONTINUE TO INCREASE 3% OR MORE A YEAR, THE HIGHEST RATE OF INCREASE IN RECORDED HISTORY! DOCTORS HAVE BEEN HARRASSED AND PENALIZED FOR TRYING SOMETHING NEW, BUT OLD METHODS, ONCE CODIFIED, CAN BE USED OVER AND OVER FORCING SOCIETY AND DOCTORS TO ACCEPT THESE METHODS, EVEN THO RESULTS APPROACH 100% FAILURES. A DOCTOR MAY DISCOVER A THERAPY WHICH SAVES OR PROLONGS THE LIVES OF 50% OF THE VICTIMS OF A USUALLY FATAL DISEASE, BUT HE CAN BE HARRASSED OR SUED BECAUSE HE DID NOT USE THE ESTABLISHED METHODS.

THE ONES TO SUFFER MOST ARE PATIENTS AND THEIR FAMILIES AND IN PARTICULAR, THOSE WHO DO NOT WISH TO HAVE THE ORTHODOX TREATMENTS FORCED UPON THEM. AN EDITORIAL IN BARRONS MAGAZINE, MARCH 19, 1973, WAS DEVOTED TOTALLY TO THIS TOPIC AND CITED A GERMAN STUDY WHICH USED OUR FDA AS THE MOST UNDESIRABLE EXAMPLE OF GOVERNMENT CONTROL IN THE MEDICAL FIELD. IT FOUND THAT PEOPLE WERE LITERALLY FORCED TO SMUGGLE STANDARD EUROPEAN THERAPY INTO THE U.S FOR PERSONAL USE.

ONE EXAMPLE OF THIS LEGAL HARRASSMENT IS LAETRILE, VITAMIN B-17 OR AMYGDALIN. ACCEPTED AND LEGAL IN 25 COUNTRIES AS A CONTROL FOR CANCER, DOCTORS AND PATIENTS IN THIS COUNTRY WHO WISH TO USE IT AS A CONTROL FOR CANCER CONTINUE TO BE HARRASSED. THEY CAN HOWEVER, USE IT FOR ANYTHING ELSE BUT IN THE TREATMENT OF CANCER WITHOUT HARRASSMENT.

CANCER PATIENTS ARE NOT THE ONLY ONES WHO HAVE RUN INTO THE BUREAUCRACY. HEART, ASTHMA AND ARTHRITIC PATIENTS HAVE BEEN DENIED VITAMIN THERAPIES OF THEIR CHOICE IN THIS COUNTRY. RECENTLY, AN ARTICLE IN NATIONAL HEALTH FEDERATION CITED A LOUISIANA MEDICAL DOCTOR COMING UNDER HEAVY ATTACK BY THE BUREAUCRACY AND ESTABLISHED MEDICINE FOR USING CHELATED MINERALS IN SUCCESSFULLY TREATING STROKE VICTIMS.

CLEARLY THERE IS SOMETHING WRONG AND IT MUST BE CORRECTED TO PREVENT FURTHER LOSS OF LIFE DUE TO OUR OBSOLETE BUT EXPENSIVE PRACTICES.

ESTABLISHED MEDICINE IS DENYING PATIENTS AS WELL AS DOCTORS THEIR INHERENT RIGHT TO CHOOSE THEIR OWN THERAPY. I, FOR ONE, AND I BELIEVE THE SIGNERS OF THESE PETITIONS THAT I PRESENT TO YOU, FEEL PERFECTLY CAPABLE, ALONG WITH OUR DOCTOR, TO CHOOSE OUR OWN THERAPY.

HB 881 WOULD STILL ALLOW THOSE WHO BELIEVE IN DRUGS, SURGERY AND RADIATION TO PURSUE THAT TREATMENT AND WOULD FURTHER ALLOW US TO PURSUE VITAMIN AND OTHER THERAPIES PRESENTLY DENIED US. THIS FREEDOM TO CHOOSE SHOULD BE OUR INHERENT RIGHT, BUT SOMEHOW IT HAS BEEN LOST BY THE WAYSIDE.

IN A MEMORANDUM TO REPRESENTATIVE RUDD, DAVID T. WALKER, LEGISLATIVE COUNSEL, STATES DEFECTS OF THE BILL, CITING VIOLATION OF THE PRINCIPLES OF MEDICAL ETHICS OF THE AMERICAN MEDICAL ASSOCIATION, ABORTION LAWS, AND OTHER TENUOUS ARGUMENTS AGAINST THE BILL.

WITH REFERENCE TO ABORTION, THE KEY WORD IN THE BILL IS "TREATMENT". DEFINITION OF TREATMENT IS "THE ACT OR MANNER OF TREATING SOMETHING... THE APPLICATION OF REMEDIES WITH THE OBJECT OF EFFECTING A CURE OR A THERAPY". DEFINITION OF THERAPY IS "THE TREATMENT OF DISABILITY, HEALING POWER OR QUALITY". UNLESS PREGNANCY IS NOW CONSIDERED A DISEASE, REFERENCE TO THE ABORTION LAWS IS MEANINGLESS.

AS FOR OPENING THE DOORS TO "QUACKERY", THIS HAS AND SHOULD BE CONTROLLED THROUGH LICENSING OF PRACTITIONERS.

AS FOR VIOLATING THE ETHICS OF THE AMA, THE QUESTION OFTEN OFTEN ARISES, "WHAT ETHICS" ? TO PROTECT THE AMA OR ESTABLISHED MEDICINE AT THE EXPENSE OF THE PATIENTS' POCKETBOOK AND HEALTH IS CRUEL TO SAY THE LEAST AND THESE ARGUMENTS SHOULD BE CONSIDERED NEBULOUS.

Dear Dr. Harbin:

This is in reply to your March 23, 1976 request for information on Laetrile.

We enclose three pamphlets which present our current position on so called Vitamin B-17 also known as Laetrile and Amygdalin. These substances are drugs under section 505 of the Federal Food, Drug, and Cosmetic Act as amended. We do not have adequate information to permit its use or distribution, either as a drug or a vitamin.

In April 1970, a Notice of Claimed Investigational Exemption for a New Drug (IND) was submitted for Laetrile. The IND was terminated promptly thereafter with the concurrence of a panel of nationally recognized experts.

The FDA will entertain new INDs for clinical studies of Laetrile. All requirements as outlined in Form FD 1571 must be met in order for an exemption to be granted. In short, the preclinical and clinical evidence that justifies the clinical trial, and a well designed protocol in terms of section 314.111 of the CFR (a copy of which is enclosed) must be presented. The investigator must be qualified by training and experience to conduct the trial, and must have adequate clinical research facilities available to him and his subjects.

Laetrile, then, at the present time, is not an approved drug for the treatment of any malignancy. It is only through the efforts of interested parties which stimulate the conduct of the clinical studies necessary to provide the substantial evidence of safety and efficacy required by law that any drug will ever be approved for a particular use. Interested organizations may direct their efforts to finding, funding, and stimulating clinical investigators to conduct clinical investigations in this area.

As typical of our responses to consumers, we enclose a copy of a letter to a librarian in Illinois and also one to an attorney in Anchorage.

Dear Mrs. Sullivan,

It seems obvious from the work done that this "drug" has not shown any potential for inhibiting cancer cells. The work was done by several independent labs.

The physicians on the Kenai had the opportunity to question two of the so called cures from Laetrile and indeed both were on additional, conventional anti-cancer medication.

It may be true the drug is used in Germany but if you recall it was that country which produced thousands of "Thalidamide babies"? This should serve to question that countries drug licensing policies.

I feel any more research on this drug would be a waste of taxpayer dollars.

Dear Mrs. Rudd;

After viewing the filmstrip "World Without Cancer" I researched the subject rather extensively and it immediately became apparant that so called facts presented by the film are really prefabrications! The drug never got past the preliminary studies done by reputable research groups and the so called "trophoblastic theory" of cancer is not even considered by eminent science people.

Mr. McNaughton, one of the top Laetrile people in Mexico, was convicted in Canada for conspiracy to misrepresent the value of mining stock, and in Italy he has been charged with swindling investors in a plant to produce Laetrile.

I'd be happy to testify at any hearings you may have on the subject.

THEREFORE, WE THE PEOPLE OF ALASKA, PROPOSE:

AN ACT RELATING TO THE "FREEDOM OF CHOICE" IN MEDICAL TREATMENT IN ALASKA.

1. EVERY CITIZEN OF THE STATE OF ALASKA IS ENTITLED TO SEEK MEDICAL TREATMENT OF HIS CHOICE AND EVERY MEDICAL DOCTOR IN THE STATE OF ALASKA IS ENTITLED TO GIVE TO HIS PATIENT THEIR MUTUALLY AGREED UPON TREATMENT AND SHOULD BE RESTRICTED ONLY IF THE TREATMENT IS CONCLUSIVELY PROVEN HARMFUL TO THE PATIENT.
