Dear Nels:

The House Bill No. 118 you mentioned sounds great, however I would like to make a suggestion regarding a "transporter". If a transporter is going to be transporting people by air, he should be subjected to the same aircraft inspection regulations as the air taxi operators, this being primarily for safety reasons. I have seen some of the junk the guides fly around here and I wouldn't let my DOG ride with them!

It was nice to hear from you Nels, and hope to see you soon.

Best Personal Regards,
