The Honorable Terry Gardiner  
House of Representatives  
Pouch J  
Juneau, Alaska 99811

Dear Mr. Gardiner:

I recently read Pat Dougherty's article on the Alien Disclosure Law in the December 7-13, 1978 issue of the Alaska Advocate. An insert entitled "Division Unfairly Administers Alien Disclosure Law" appeared in that article relating to this division's administration of the law and is enclosed for your information.

I believe the insert is inaccurate and does not clearly state what steps the division has in fact taken to administer the law since its enactment in 1975.

The following steps are taken as a matter of course to ensure that the requirements of AS 10.05.255, 10.05.615 and 10.05.702 relating to alien affiliates are met:

1. When articles of incorporation for a domestic corporation are received, they are reviewed by the Corporations Section within this division pursuant to AS 10.05.255. If the 5% shareholder or alien affiliate requirements are not met (no reference to alien affiliates in the articles or otherwise disclosed), a letter is mailed to the person requesting the filing of the articles stating that alien affiliates must be disclosed, or if there are none, disclose that fact. The articles would, of course, be rejected if any of the other requirements of AS 10.05.255 were not met. In addition the requestor is informed that the articles will be held in the Corporations Section for 30 days awaiting his response. However, if after 30 days the required information is not received, the articles are returned to the requestor. Similar steps are taken regarding the 5% shareholder requirement.
2. When an application for certificate of authority is received from a foreign corporation, it is reviewed pursuant to 10.05.615. Every item must be completed, including the alien affiliate and 5% shareholder requirement. If any item on the application is omitted, the application is returned to the sender with a letter of explanation.

3. Annual reports are reviewed for completeness pursuant to AS 10.05.702. Every item on the report form is checked for answers, including the alien affiliate and 5% shareholder requirements. If the report is not completed, it is returned to the sender along with a letter of explanation. In previous years, when any item was omitted the report was accepted and a letter was sent requesting the additional information.

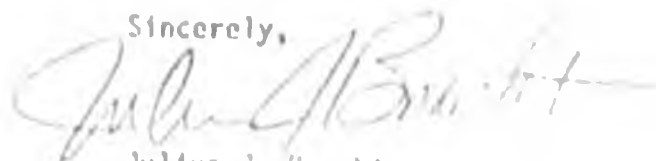

As a further inducement to corporate officers to provide correct information on future annual reports, a paragraph will be added to the reports in the next publication informing the officer filling out the form of the penalties imposed upon officers and directors by AS 10.05.706 for nondisclosure or falsification of information on the annual report filed with the department.

Recently, the division completed the conversion of a portion of its data base to an on-line computer automated system. Thirty-five types of information on each of the approximately 12,000 corporations on file with the division are now maintained in the State's computer in Juneau, enabling the division to provide vastly improved maintenance of the files and quicker response to requests from the public including members of the press. It may be possible depending on funding to have computer terminals elsewhere in the State from which requestors can obtain up-to-date information on corporations on file with the division.

Last month, the annual reports were addressed by computer. The computer is also used to generate several special reports, including a list of those corporations with alien affiliates, those with 5% shareholders, those with the same state of domicile, those with the same purpose, and various others. It will also produce the Corporate Directory, which previously was compiled using a "mag card" typewriter and took approximately two months just to type. Now the report can be produced overnight. In addition, various certificates relating to corporations are also produced.

In summary, I believe that the division has administered the law in question in a reasonable and professional fashion. I would be happy to discuss this matter with you further at your convenience. I look forward to seeing you in Juneau next month.

Sincerely,

Julius J. Krocht  
Director

March 9, 1979

Honorable Alvin Osterback  
Chairman  
House Resources Committee  
Pouch V  
Juneau, Alaska 99811

Dear Mr. Osterback:

RE: HCR-9

In my testimony before the House Resources Committee yesterday, I indicated that I had a copy for the committee of a letter which I had sent to Rep. Terry Gardiner regarding the article on foreign affiliates which appeared in the December 7-13, 1978 issue of the Alaska Advocate. Please find a copy of that letter dated December 15, 1978 enclosed.

I would also like to take this opportunity to express again that the division has, in my view, uniformly administered the foreign affiliate reporting requirement of AS 10.05.702(9) and has not devised nor used a definition of "affiliate" different from that stated in AS 10.05.825(18).

Unfortunately, Mr. Williams, who appeared after me at the hearing yesterday apparently did not grasp these simple points. The Alaska Advocate article was incorrect in this regard as well. Some of the confusion on their part stems from the annual report form used by the department. A copy is enclosed for your information.

I believe that if you review the department's corporation annual report form, you will conclude that Item 10 of that form simply is not in any way a definition. It simply restates the language of AS 10.05.702(9). It is true that there was an ambiguity regarding foreign affiliates in the 1977 annual report forms. However, that problem has been remedied in the present form.

The only change contemplated with regard to foreign affiliates on republication of the annual report forms next year, is to make specific reference to AS 10.05.786 which sets out the penalties for a false filing with the department.

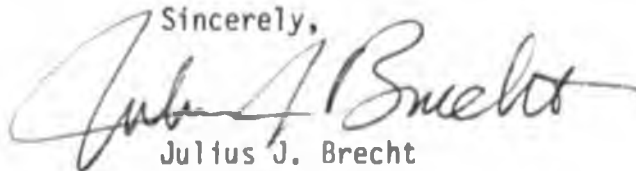

March 9, 1979

The department is enforcing the foreign affiliate law by the only effective means available:

1. rejecting articles of incorporation which do not address the issue;
2. refusing to register foreign corporations which do not address the issue in their filings, and
3. rejecting annual reports of both foreign and domestic corporations that do not respond to Item 10 of the annual report form.

I can empathize with the committee's interest in obtaining information of foreign affiliates in the fishing industry. I stand ready to answer further questions that the committee may have on foreign affiliates and invite you and the committee members to inspect the corporations filing office within this division at your convenience.

Sincerely,

Julius J. Brecht
