STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

OFFICE OF THE COMMISSIONER

POUCH D
JUNEAU, ALASKA 99811

January 14, 1980

The Alaska State Legislature:

Transmitted herewith, pursuant to AS 44.66.050, are reports on the following State boards: the Board of Public Accountancy; Board of Barber Examiners; Collection Agency Board; Board of Hairdressing and Beauty Culture Examiners; Board of Electrical Examiners; State Board of Registration for Architects, Engineers and Land Surveyors; Guide Licensing and Control Board; Board of Marine Pilots; Real Estate Commission; and Board of Welding Examiners.

This evaluation, supplemental to the Department's testimony before the Legislature, serves to focus attention upon the questions of whether or not the board reviewed are best serving the interests of the public. Data as provided by the Division of Occupational Licensing, the board members, licensees and members of the public has been received, reviewed and evaluated.

Yours truly,

Bertram L. Wagnon
Deputy Commissioner

Philosophy of Evaluation

This review and evaluation has been undertaken to determine whether continued regulation of an industry or occupation under State auspices can be justified in terms of protection of public health, safety and welfare. State boards and regulatory agencies should be continually cognizant of the public's right to a government acting responsibly in licensing competent practitioners and doing so only in the best interests of the people. Evidence must clearly indicate that the primary goal of regulation is to promote the public good rather than that of the industry or profession. The absence of such evidence indicates cessation of State regulation. Where public benefit or a potential for benefit can be shown to exist, recommendations are made with respect to possible alternatives in the regulatory process which will serve to enhance public health, safety, welfare and accountability.

Division of Occupational Licensing

The Performance Review of the Division of Occupational Licensing (DOL), dated October 30, 1978, was accomplished by the Division of Legislative Audit in response to the sunset law calling for legislative review of boards and commissions with examination and/or licensing authority in professions. A number of recommendations were made regarding procedures and practices of the Division of Occupational Licensing, most of which were concurred with by DOL and most of which have been implemented.

According to the FY'78 Annual Report from the Department of Commerce and Economic Development, the goal of the Division of Occupational Licensing is to "provide preventive consumer protection in occupational areas where the potential harm is so great that the remedies available for recourse to general law will frequently be insufficient to compensate the aggrieved party."

The Division of Occupational Licensing is statutorily charged with administrative and investigative support services for twenty-one boards and commissions and three occupations which are regulated but have no board. Approximately one hundred and twenty-five members serve on the following boards and commissions:

Board of Chiropractic Examiners
Board of Dental Examiners
State Medical Board
Board of Nursing
Board of Dispensing Opticians

Board of Examiners in Optometry
Board of Pharmacy
Board of Veterinary Examiners
Board of Psychologist and Psychological Associate Examiners
Board of Nursing Home Administrators
Physical Therapy Board
Board of Public Accountancy
Board of Barber Examiners
Collection Agency Board
Board of Hairdressing and Beauty Culture Examiners
Board of Electrical Examiners
State Board of Registration for Architects, Engineers and Land Surveyors
Guide Licensing and Control Board
Board of Marine Pilots
Real Estate Commission
Board of Welding Examiners

Professions regulated without a board are Mortuary Science, Construction Contractors, and Concert Promoters.

The Division has a total of twenty-one employees. Two investigators, two Executive Officers, and two administrative support persons comprise the Anchorage Field Office personnel. Juneau personnel consists of eight licensing examiners, one licensing supervisor, one chief investigator, one regulation specialist, one management analyst, three administrative support persons and the Director. The Executive Officer and Executive Secretary located in Anchorage are partially exempt positions and are providing administrative support to the Board of Nursing and the Real Estate Commission.

In FY '79, the Division's staff scheduled and coordinated approximately 71 board meetings and 52 examinations for 3,000 candidates, responded to more than 20,000 inquiries, processed and issued 2,742 new licenses and

8,000 renewal licenses, collected over $717,000 in fees, and maintained more than 28,000 license files.

It should be stressed that DOL is statutorily mandated to provide administrative and budgetary services to boards and commissions; the Division has no authority or decision-making control over any individual board. Legal advice on board activities is provided by the Department of Law, when sought.

Almost without exception the licensing boards have declared their financial independence. That is, they have maintained that they are self-supporting, that revenues from fees charged exceed regulation expenses of their particular profession. Almost without exception this is not the case. Because revenues from all professions are deposited into the general fund, and all expenditures must be allocated from the Division's authorized budget, a penny-by-penny expenditure breakdown is simply not kept for individual boards. The following information was compiled by deducting figures for contractors and mortuary science (who have no board), deducting variables, and assigning administrative expenditures based on number of licensees in each profession in each fiscal year indicated.

With respect to specific recommendations made by the Division of Legislative Audit, appropriate steps for implementation have been taken in most instances.

Recommendation No. 1: The Division of Occupational Licensing's investigation unit should be transferred to the Department of Public Safety.

Unconstitutional on against some cases

As of this date, a thorough analysis of such a transfer is continuing. The feasibility of an RSA between the Department of Commerce and Economic Development and the Department of Public Safety is a valid option that may have considerable merit in that the functions could be assumed by the Department of Public Safety in an expedited time frame. If our review indicates a transfer of the unit is merited, the transfer would take place prior to February 15, 1980.

Improvements have been made in this unit within the past year. Complaints are now being screened and prioritized, and reports by investigative staff are being made to the boards. Approximately 1,700 cases were purged from the Division files in the fall of 1978; these are pending board approval for closure due to age, lack of jurisdiction, or no apparent violation. Effective December, 1979, approximately 400 have been closed. The Division is in the process of organizing all investigative files and forwarding appropriate material to the State archives; this is expected to be completed by the end of January, 1980.

The Division's enforcement staff received 298 complaints for investigation in FY '79, ranging in priority from urgent public harm to minor technical violations. In FY '79, 44 cases were closed due to one of the following reasons: no jurisdiction, no violation, voluntary compliance or age. Charges were filed against 27 which required process for hearing. Out of the 27 litigation cases, 3 licenses were revoked, 1 license was suspended, 2 licenses were denied, 1 case was dropped due to no violation, 2 closed with the stipulation that they retake the board examination and pass, 1 applicant was allowed to resubmit an application after

1 year, and license was granted with the other 16 litigation cases still pending. As of December 10, the Division had 307 open cases on file.

Recommendation No. 2: Statutory amendments are needed to assure that appropriate action is taken on consumer complaints against licensed persons.

The Office of the Governor has indicated that appropriate amendments to AS 45.50.471, and its application, are being pursued.

Recommendation No. 3: The Office of the Governor should keep the appointments of members of the occupational licensing boards current.

We agree with this recommendation; the Division has solicited and submitted recommendations for board appointments.

Recommendation No.4: Legislation should be enacted limiting the length of service for all board members to two consecutive terms.

We agree with this recommendation and the reasoning supporting it.

Recommendation No. 5: The Department of Commerce and Economic Development should improve the operation, security and internal control of the 3M-Linolex minicomputer system.

To designate a data entry person is a valid recommendation, however, budget restrictions do not allow us to hire one individual solely to enter data. This would be very costly.

The Division is currently locking all copied data diskettes in its fire proof safe. These disks are kept current by creating new copies to replace the old ones after 20 changes have been made to any one master disk. It would be very difficult for a person to come into the office and be able to open a data disk without prior training. The State also maintains security personnel who walk the floors constantly and who question any individual working in the offices after hours. If, by chance, a disk was ruined we would have a current backup disk in the safe.

It is felt that if we prenumbered the blank licenses, it would add to more confusion to the licensee. This would have to be a four digit number, which is the same number of digits in a license number. The cost is also high.

A system utilization log has been established and is maintained daily.

The only operating procedures manual at this time is the one distributed by 3M. For data entry it is very good, for correcting errors on disks caused by power failure and/or fluctuations, it is poor. Time has not allowed us to complete a manual at present.

Recommendation No.6: The Department of Commerce and Economic Development should review the license fee structure of all boards and seek appropriate revisions.

Agreed. The Division has reintroduced legislation (SB 94 in the Senate Finance Committee) which would allow the Department to set fees after consultation with the boards. This request was also made to the 1978 Legislature but no action was taken.

Recommendation No. 7: The Department of Commerce and Economic Development should include the goals, objectives and quantifiable measures of each board in the Division of Occupational Licensing's budget documents and submit performance reports for each board as required by AS 37.07.

In April of 1979, all boards and commissions were contacted by the Division and requested to submit goals and objectives for inclusion in the FY '81 budget documents; 15 boards complied. Boards were also requested to submit performance reports for FY '79; 14 boards complied with this request.

Recommendation No. 8: The Division of Occupational Licensing should collect, record and maintain, for five year periods, files, and statistics of license and testing applicants, and related workload of the licensing examiners.

For the past year, monthly activity reports have been maintained by the Division containing information on board activities and examiner workload. Examiners are also submitting interim reports to the boards which outline licensure activity between meetings. This encourages feedback from the boards regarding staff performance.

Recommendation No. 9: The Department of Commerce and Economic Development, in conjunction with the Office of the Governor, should prepare a board member orientation booklet, including a code of conduct.

A manual for board members was prepared by the Department of Law and was distributed to all members. In addition to this manual, new board members receive information regarding complaint handling and the board's role in investigation and adjudication, an application packet for the regulated profession, appropriate statutes and regulations, a copy of the Administrative Procedure Act, information on the availability of teletype service, a listing of other members' names and address on the particular board, and a listing of Division employees.

Recommendation No. 10: The 11 health-related boards, in conjunction with the Division of Occupational Licensing, should review their applications for licensure and delete any questions which could lead to discrimination against applicants.

All 21 boards and commissions are cognizant of the need to ensure against appearances or charges of discrimination, and of their responsibilites in this area. The process of application review is time consuming for most boards due to the infrequency of meetings; however, all boards have, or will, consider this recommendation, with assistance from the Division.

Recommendation No. 11: The Department of Commerce and Economic Development should improve formal board minutes.

The Division has been implementing this recommendation and will continue to do so. A decrease in licensing examiner turnover has resulted in substantial improvements to board minutes preparation.

Recommendation No. 12: The Department of Commerce and Economic Development and all licensing boards should ensure that public notices of examinations are sufficiently and timely advertised.

Public notices for board meetings and examinations are advertised according to legal requirements.

In conclusion, the DOL wishes to ensure the Legislature and the public that every effort is being made within available resources to accomplish the directives outlined in Title 8. The recommendations made as a result of the Sunset process, in addition to any other appropriate suggestions from any source, have been and will continue to be evaluated.

A

STATE OF ALASKA
BOARD OF WELDING EXAMINERS
May, 1979

Findings

The Board of Welding Examiners was created in 1968 and was charged at that time with numerous responsibilities regarding regulation of the welding profession. While it is felt that quality assurance is needed within the industry, the review process indicates that the Board is duplicating the standards and efforts of the American Welding Society (AWS) and is only minimally active in carrying out its statutory duties.

We believe that the existence of this board and State licensing is inappropriate as a matter of public interest. / Sunset

Welding

I. General Information

A. Regulated Parties

1. Welding Inspectors
2. Testing Facilities (by statute)

B. Definitions

"(16) 'welder' means welder, welding, welding operator and tacker;

(17) 'welding' means the metal joining process used in making welds;

(20) 'welding procedure' means a written document specifying the essential variables as listed in the appropriate welding or engineering code or both;" (12 AAC 72.900)

C. Nature and Composition of Board

1. Board members and terms:

Five-year term (no restrictions on consecutive terms or numbers of terms).

Tim Farrell	ends December 16, 1983
Peter Millar	ends December 16, 1979
Don Lockman (Chairman)	ends December 16, 1981
Don Delk	ends December 16, 1980
Philip Davis	ends December 16, 1983
J.C. Wingfield	ends December 16, 1983
George Fox	ends December 16, 1983

2. Representation:

Profession = 7
Public = 0

3. Qualifications:

"Each member of the board shall be a citizen of the United States and a resident of the state. At least three members shall be persons with engineering degrees or registration as an engineer and each engineer member shall have at least five years engineering experience. All members shall have extensive experience in welding." (AS 08.99.050)

Members are appointed from a list prepared by the Alaska Chapter of the American Welding Society and the Alaska Society of Professional Engineers.

D. Licensing Data

Current licenses (effective May, 1979)

in-State	=	37
out-of-State	=	26
Total	=	63

Total subsidy
$10 x 63 =
$ 630.00

E. Fees

1.	welding inspector application	$25.00
2.	annual renewal	10.00

F. Board Revenues and Expenditures

	FY' 76	FY '77	FY '78	FY '79
Receipts	$ -	$ -	$ -	$1,830.00
- refunds	-	-	-	15.00

Deficit	$2,898.01	$4,918.99	$2,982.25	$2,896.91

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

Year	Received	Closed	To Litigation
1975	0	0	0
1976	1	0	0
1977	4	0	0
1978	0	5	0
1979 (through April)	1	0	0

Welding

Pending: 1 complaint against five individuals

The five cases closed in 1978 were closed due to age. Only one complaint was received from a member of the public and none alleged harm to the public.

H. Qualifications

Trade school or vocational training.

II. Analysis

A. To what extent has the Board of Welding Examiners operated in the public interest?

The Board of Welding Examiners is statutorily required (AS 08.99.080(a)(1)) to establish rules and regulations concerning certification of welders in the State. The Board has done this indirectly by licensing a form of middle man, the "welding inspector," who in turn certifies welders and welding procedures in accordance with standards established by the industry nationwide and designated by the project engineer and/or designer. The certification procedure involves a practical demonstration of welding competence supervised by a licensed inspector. Inspector licensure is granted on the basis of Alaska Welding Society (AWS) certification and proof of all position welding qualification. [Procedurally, an applicant must apply for examination and qualify for certification through the American Welding Society prior to application for State licensure.]

A national AWS test is utilized; it is monitored by the licensing examiner from the Division of Occupational Licensing, usually by one or two Board members, and by an Alaska Chapter representative of the

Society. Tests are well secured and are graded by the Society. The State does not have access to its contents nor to individual scores; only "pass or fail" information is attainable if requested. Candidates for testing are charged a $50.00 fee by the American Welding Society. As of April, 1979, the Society is also requesting that the State pay $250.00 for each use the examination in addition to expenses for one of its representatives to travel to Alaska and ensure that the test is being administered properly. The AWS test is given four times a year in accordance with 12 AAC 72.085.

Elaine! which is this the national or State?

It is suggested that if the Board and/or licensing is retained, the function of AWS testing be eliminated as a State responsibility.

"Welders" are not certified, licensed or registered by the Board or the State. "Welding Inspectors" are licensed based on authorization of the American Welding Society. The applicant for State licensure must submit only a copy of his American Welding Society certificate and All Position Welding Qualification. These documents are merely photocopies; they are not certified. The All Position Welding Qualification may come in many forms from many sources all over the country with nonverifiable signatures. The requirements for a welding inspector license, with one exception, are exact requirements of AWS certification. The application upon which qualifications are enumerated is submitted to AWS, not to the State, yet these qualifications appear in Board regulations as State requirements. State licensure should be indicative of compliance with criteria established to protect the health, safety and welfare of its citizens. It is questionable whether such a significant government authorization should be based on two photocopies of "presumed" validity or solely upon authorization from a national society.

Licensure

§ 080(a)(2) requires that the Board "establish and define certification tests as they apply to various types and categories of work done in or for the state." This provision is accomplished by adherence to national

applicable codes and standards which define certification tests and procedures. These procedures may also be developed by weld testing facilities.

§ 080(a)(3) requires the Board to "work with federal and private agencies and specifying engineers to establish uniform testing and certifying methods" for welders. Again, this is determined by national codes and standards of the industry.

Reciprocity

§ 080(a)(4) requires that the Board "work with federal agencies and the agencies of other states to establish reciprocity agreements." Reciprocity agreements mandate licensure contingent upon formal interstate concurrence rather than utilization of individual qualification criteria. Such agreements have not been formulated nor are they appropriate to the nature of this industry. Under present board operation all applicants meeting the qualifications are licensed in Alaska without regard to place of residency or licensure in another jurisdiction.

§ 080(a)(5) provides that the Board "set up criteria and define experience and documentary requirements which may be accepted in lieu of physical certification tests." The Board has done this to the extent that welders need not be recertified if continuously employed on the process for which certification was obtained. Continuous employment is defined as employment without interruption of more than 90 consecutive days, unless otherwise specified by an applicable code. Certification and recertification expenses are normally borne by the prospective employer.

fees.

§ 080(a)(6) requires the Board to "set the fees for the welder certification tests." This has not been done, nor is it felt to be appropriate. Testing costs may vary depending on facility equipment or location and fees charged should remain within the industry.

§ 080(a)(7) obligates the Board to "examine, certify, and renew" certification. This is done by the Board insofar as it examines and licenses welding inspectors. No examination, certification or renewal is done by the Board with respect to welders.

Reports of Board

§ 080(a)(8) mandates submission of an annual report to the governor and the legislature. The Board reports that this has been complied with, however, no information of this type has been received by the administrative agency.

§ 080(a)(9) concerns promulgation of regulations regarding weld and welder qualifications and designation of reporting procedures which certify compliance. The Board has adopted the AWS qualifications set for the industry. There is no record of designated reporting procedures, however, the function of welding inspectors is to certify compliance of welders to welding processes.

§ 080(a)(10) provides that the Board shall "designate and approve persons qualified to administer welding tests," and "designate and approve" testing facilities. The Board is approving persons qualified to administer welding tests -- almost to the exclusion of all else. This appears to be one area of statutory authority which the Board is actively involved in. It has adopted lengthy and detailed regulations outlining the qualifications and responsibilities of an inspector, most of which is duplication of AWS standards.

Several testing facilities were approved by the Board during the years 1974 through 1976. One was approved in November of 1977. Once approval is given, facilities are under no further review or renewal process to insure on-going compliance with standards or approval criteria. At least one facility is now operating in the State without Board approval. Apparently, with the advent of welding inspectors, the Board decided it no longer needed to approve facilities as required.

The Board of Welding Examiners is comprised of seven members and as of May, 1979, regulates 63 welding inspectors. The Board meets four times a year, most often for one to three hours. Members may be appointed only from nominations submitted by the Alaska Chapter of AWS and the Alaska Society of Professional Engineers. Some members of the industry have expressed a desire to serve on the Board but felt this nomination method constituted a barrier. Some also indicated that they felt nominations submitted are subject to Board endorsement. Members of the industry also expressed concern that the Board not be weighted with representatives from testing facilities, or any one facet of welding. This is recommended for any board to avoid the appearance of conflicting interests.

Barrier to get onto the board.

Finally, Board statutes address compliance with and enforcement of regulations, rules and orders. There is apparently some question regarding authority. AS 08.99.080(b) has been interpreted by opinion of the Department of Law as providing for enforcement by the Department of Labor and by the Department of Commerce and Economic Development. Due to some confusion among the concerned parties regarding this matter, it is suggested that the advice given to "work out an arrangement" be followed (see Appendix A).

dual power for enforcement

see page 30

As previously mentioned, Board regulations and activities have concentrated directly on licensure of welding inspectors rather than on certification of welders. The Board has adopted almost verbatim and in its

entirety the "Standard for Qualification and Certification of Welding Inspectors" of the American Welding Society as its own regulations. State licensure is contingent upon AWS certification. Thus, current Board operation is redundant in its exclusive reliance on industry established criteria.

NO Teeth. No statutory prohibition against noncertified or nonlicensed activity exists. The Board has accomplished this through its regulations. Welders who are tested and perform satisfactorily are certified by the inspector and must remain "continuously employed" on that particular process to maintain certification. Interrupted employment of more than 90 days requires recertification unless otherwise cited in the project specifications.

Compliance documents are submitted to AWS, not to the State. Only the "all position welding qualification" is a State imposed and regulated requirement. State licensure in this instance amounts to notice that the inspector is AWS qualified. The services of welders and welding inspectors are utilized by members of the industry (eg., contractors and engineers), who are responsible for the work done and who are well able to judge for themselves the competence and qualifications of welders. Inspection and regulation of the type of establishment the average consumer may do business with (eg., small welding shops and marina repair facilities) is not taking place.

are regulated.

NOT Regulated

There is no question that weldment failure can and has involved "hazard to life or property." However, the State is not active in inspection of work performed. There is no requirement for inspection of a welding operation in which weldment failure would involve hazard to life and

property, only that if one does inspect, one must be licensed. Liability for damages resulting from weldment failure is usually against the contractor; the "welding inspector" is only liable to his employer, if he has one. It is also noted that a "welding inspector" is not required to be an active welder while the designer/engineer who specifies the welding procedures to be used may not inspect them for compliance unless licensed by the State as an inspector.

In reviewing the August, 1978 regulations, one might conclude that those reguations and the current operation of the Board have, in practice and in fact, supplanted the statutes, albeit not necessarily by specific design. The statutory responsibilities of the Board would be monumental tasks given the nature of the industry and other restrictions such as time and budgeting. (Enforcement and regulation in the manner which is statutorily mandated indicates effort by a body of well-trained, well-qualified and well-paid individuals to carry out the tasks of inspection, certification, governmental interaction, and rule-making.

We believe that the Board and State regulation should be allowed to terminate on June 30, 1980 thereby letting the industry rely on AWS, national codes, and national standards. Oklahoma is the only other state to license welding inspectors. It should be noted, however, that individuals holding AWS certification are exempt from licensure requirements while this is the major criteria by which Alaska licenses. The Oklahoma Department of Labor, Boiler Inspection Department, has administrative responsibility for this occupation (see Appendix B). Another option is to create an information/public relations position to verify that welders throughout the State are indeed certified.

If the Board of Welding Examiners is continued, consideration also should be given to representative membership, to allowance of nominations from any and all sources, and to limiting numbers of terms which may be served.

Board Composition

B. To what extent has the operation of the Board of Welding Examiners been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

A major impediment to Board operation has been the prodigious nature of its statutory responsibilities. Given the number of Board members, frequency and duration of meetings, inadequate financial resources, and limited support services, a Board of this nature would find it difficult to comply with all of its obligations. It could, however, accomplish more toward its objectives than is presently the case. The administrative agency will be working with the Board to establish objectives and improve its operations.

The Board of Welding Examiners has experienced some difficulty with respect to personnel and budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate. Employee turnover has, in the past, impeded continuity and follow through on Board requests. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct board revenues and expenses may be determined. Although this Board has been in existence since 1968 and was actively licensing, no fees were charged and no revenues collected until FY '79.

The Board has encountered some problems with respect to investigative services provided by the administrative agency. During FY '78 two investigator positions were vacant; as a result, one position was abolished by the Legislature. At the present time, two investigators are located in Anchorage with a Chief Investigator located in Juneau. An additional investigator position was approved in the FY '80 budget

but will probably not be filled immediately due to vacancy factors incorporated into the personal service category of the budget. Procedural constraints of the administrative adjudication article of the Administrative Procedure Act (AS 44.62.330-630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints.

Nominations for membership on the Board should be allowed from any source rather than just the Alaska Chapter of the American Welding Society and the Alaska Society of Professional Engineers. At least two public members should be included on the Board without increasing total membership. Consideration should be given to decreasing the number of Board members to five and to methods of ensuring representation from different areas of the industry.

Board Composition
see page 9 "BARTLEY"

Statutory changes which would facilitate Board functions would be desirable. The Division will continue to work with the Board to establish reasonable alternatives to the present statutes.

C. To what extent has the Board of Welding Examiners recommended statutory changes which are generally of benefit to the public interest?

Board function not carried out.

No statutory amendments have been made to AS 08.99 since 1970.

Board minutes from the past three years reflect no recommended statutory changes, whether specifically in the public interest or otherwise. The Board has concentrated most of its efforts on the regulations which went into effect in August of 1978. These regulations were two years in the making with considerable industry controversy and testimony.

D. To what extent has the Board of Welding Examiners encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

Participation and interest in services, regulations and decisions of the Board is from the industry. As previously noted, recent regulations effected considerable industry interest and concern. Board meetings are routinely attended by a few members of the industry. Very little, if any, "public" interest has been shown in the form of attendance at meetings, hearings, or as written input. Positive steps could be taken to make the general public aware of the existence and functions of the Board. However, the field of welding is somewhat technical and complex and members of the public may not wish to concern themselves without a particular reason for doing so.

Public interests are felt to be furthered by the presence of public members on professional boards. The Board of Welding Examiners has no public members. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decisionmaking."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding.

California Law!

---

[1]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, pg. 20

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Welding Examiners processed and resolved?

Complaints received regarding this occupation have been from the industry for unlicensed activity. None alleged harm or danger to the public.

No formal complaints have been filed against the Board or its members although allegations regarding conflict of interest (members owning testing facilities) are found in agency files.

F. To what extent does the Board of Welding Examiners present qualified applicants to serve the public?

Board not meeting Responsibility.

None. Applicant qualfications are determined and certified to by the American Welding Society.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Welding Examiners in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (also responsible for services to another very large regulated occupation) who is hired through the State Personnel System and is subject to affirmative action.

Welding Inspector licenses are issued on the basis of AWS certification without consideration to affirmative action requirements.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Welding Examiners to better serve the interests of the public?

The administrative agency will be working with the Board in an attempt to delineate realistic objectives and functions. However, until and unless its statutory duties are changed, the Board should take positive action to comply with them.

Board composition should be reviewed in terms of representation and total membership. Source of nominations for appointment should also be considered. The Board should consider a regulatory amendment to make licenses renewable on a biennial basis rather than annually. It also should refuse renewal to those licentiates not meeting renewal requirements, specifically, evidence of having passed an eye examination (or change the requirements).

Fees.

Board and administrative expenses outweigh revenues collected through regulation of this profession. The current fee schedule, $25 for license application and $10 for license renewal, is established by Board regulations and the Board has indicated a reluctance to consider raising fees. Fees collected are not adequate to cover transportation and per diem for meetings and examinations, and Division of Occupational Licensing administrative overhead, such as staff salaries and examination expenses.

Chapter 99. Board of Welding Examiners

Section
10. Creation and membership of board
20. Term of office
30. Source of appointments
40. Removal from office
50. Qualifications of board members
60. Meetings
70. Quorum
80. Powers and duties of the board
90. Applicability of Administrative Procedure Act
100. Expenses
110. Codes
120. Penalty

Sec. 08.99.010. Creation and membership of board. There is created the Board of Welding Examiners, consisting of seven members appointed by the governor. (§ 1 ch 151 SLA 1968)

Sec. 08.99.020. Term of office. Board members serve a term of five years. However, of the members first appointed, one shall be appointed for a term of one year, one for two years, one for three years, one for four years, and three for terms of five years. (§ 1 ch 151 SLA 1968)

Sec. 08.99.030. Source of appointments. The governor shall appoint board members from a list of persons prepared by the Alaska Chapter of the American Welding Society and the Alaska Society of Professional Engineers and submitted at least 30 days before the expiration of a term and not more than 60 days after a vacancy occurs in an unexpired term. The list shall contain not less than two recommended candidates for each appointment. The governor shall make appointments within 30 days after receiving the list. (§ 1 ch 151 SLA 1968; am § 1 ch 151 SLA 1970)

Sec. 08.99.040. Removal from office. Each member holds office at the pleasure of the governor notwithstanding the member's term. (§ 1 ch 151 SLA 1968)

Sec. 08.99.050. Qualifications of board members. Each member of the board shall be a citizen of the United States and a resident of the state. At least three members shall be persons with engineering degrees or registration as an engineer and each engineer member shall have at least five years engineering experience. All members shall have extensive experience in welding. (§ 1 ch 151 SLA 1968; am § 2 ch 151 SLA 1970)

Sec. 08.99.060. Meetings. The board shall meet at least once a year. (§ 1 ch 151 SLA 1968)

Sec. 08.99.070. Quorum. A majority of the board constitutes a quorum. (§ 1 ch 151 SLA 1968)

Sec. 08.99.080. Powers and duties of the board. (a) The board shall

(1) establish and promulgate rules and regulations concerning certification of welders in the state;

(2) establish and define certification tests as they apply to various types and categories of work done in or for the state;

(3) work with federal and private agencies and specifying engineers to establish uniform testing and certifying methods for all welders throughout the state;

(4) work with federal agencies and the agencies of other states to establish reciprocity agreements;

(5) set up criteria and define experience and documentary requirements which may be accepted in lieu of physical certification tests in the state;

(6) set the fees for the welder certification tests;

(7) examine, certify, and renew the certification of qualified applicants;

(8) keep a record of its proceedings, and submit annual reports to the governor and the legislature;

(9) promulgate regulations concerning the quality of welds and qualifications of welders required in specific areas of industry and construction and designate reporting procedures necessary to certify compliance with these quality standards;

(10) designate and approve persons qualified to administer welding tests, and designate and approve shops, laboratories, or other establishments qualified for testing coupons and weldments.

(b) The board may request technical personnel from the Department of Labor for the purpose of reviewing and analyzing reports and may request field inspection by the department for the purpose of assuring compliance with, and enforcement of the regulations, rules and orders promulgated under §§ 10 - 110 of this chapter. (§ 1 ch 151 SLA 1968; am §§ 3 - 5 ch 151 SLA 1970)

Sec. 08.99.090. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62). (§ 1 ch 151 SLA 1968)

Sec. 08.99.100. Expenses. Members of the board are entitled to the per diem and travel expenses allowed by law. (§ 1 ch 151 SLA 1968)

Sec. 08.99.110. Codes. The United States of America Standards Institute Codes listed below are established as the piping codes for the state:

(1) B 31.10.0 - 1967 power piping;

(2) B 31.2 - 1968 fuel gas piping;

(3) B 31.8 - 1968 gas transmission and distribution piping system;

(4) B 31.3 - 1966 petroleum refining piping;

(5) B 31.4 - 1966 and B 31.4a - 1968 liquid petroleum transportation piping systems. (§ 6 ch 151 SLA 1970)

Sec. 08.99.120. Penalty. A person who violates a regulation adopted under §§ 10-110 of this chapter is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than $500. (§ 7 ch 151 SLA 1970)

45. Requirements for maintaining a current welder qualification certificate

12 AAC 72.015. WELDER QUALIFICATION CERTIFICATE REQUIRED. A person may not perform a welding operation in the state for compensation, in which weldment failure would involve hazard to life or property unless he or she holds a current, valid welder qualification certificate in the appropriate rating. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(2),(5) and (9)

12 AAC 72.020. DURATION AND RENEWAL. Repealed. (8/21/78, Reg. 67)

12 AAC 72.025. REQUIREMENTS FOR WELDER QUALIFICATION CERTIFICATE. (a) Testing of welders shall be done under the direct supervision of a licensed welding inspector.

(b) An applicant for a welder qualification certificate or a company desiring to have a welder qualified shall

(1) submit to the welding inspector the welding procedure specifications or the welding performance specifications, or both when indicated, for the appropriate rating; and

(2) complete the welding test for the appropriate rating according to the terms of the welding procedure specifications or the welding performance specifications, or both when indicated.

(c) Prequalified procedure specifications may be used for test administration according to applicable codes. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(2),(5) and (9)

12 AAC 72.030. TEST [illegible]LECTION. Repealed. (8/21/78, Reg. 67)

12 AAC 72.0[illegible] [illegible]R QUALIFICATION CERTIFICATI[illegible] The welding inspector shall issue the w[illegible] fication certificate in the appropriate [illegible] o the applicant or company upon th[illegible] pplicant's successful completion of the examination. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(7) and (10)

12 AAC 72.040. QUALIFICATION. Repealed (8/21/78, Reg. 67)

12 AAC 72.045. REQUIREMENTS FOR MAINTAINING A CURRENT WELDER QUALIFICATION CERTIFICATE. (a) A welder qualification certificate is valid if

(1) it is kept current in compliance with the code under which it is issued unless stated otherwise in the job specification; and

(2) the welder has been continuously employed on the welding process for which he is certified.

(b) The expiration or revocation of one rating does not affect any remaining rating. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(5) and (10)

12 AAC 72.050. TEST FACILITIES. Repealed. (8/21/78, Reg. 67)

12 AAC 72.055. WELDING INSPECTOR LICENSE REQUIRED. A person may not test a welder for the purpose of issuing a welder qualification certificate or inspect a welding operation in the state in which weldment failure would involve hazard to life or property unless he or she holds a current, valid welding inspector license. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7) and (10)

12 AAC 72.060. WELD QUALIFIER. Repealed. (8/21/78, Reg. 67)

12 AAC 72.065. REQUIREMENTS FOR WELDING INSPECTOR LICENSE. (a) An applicant for a welding inspector license must

(1) be a high school graduate or hold a state or military approved high school equivalency diploma;

(2) have no less than five years' experience at the technical level in an occupational function that directly involved

(A) design experience such as preparation of plans and drawings for weldment construction according to a code, standard or specification;

(B) construction experience such as actual construction or fabrication and erection of weldments in accordance with a code, standard, specification or drawing;

(C) maintenance experience such as detection and measurement of weld inadequacies or discontinuities in accordance with specified procedures; and

(D) repair experience such as repair or replacement of welds that were determined inadequate or defective by reference to a code, standard, specification or drawing;

(3) be familiar with and understand the fundamentals of shielded metal arc welding, stud arc welding, submerged arc welding, flux cored arc welding, gas metal arc welding, gas tungsten arc welding, electroslag welding, oxyfuel gas welding, brazing, thermal cutting and mechanical cutting;

(4) be capable of writing clear and concise reports and maintaining records;

(5) pass an eye examination to prove natural or corrected near distance acuity for reading J-1 letters at a distance of not less than 12 inches on Jaeger's standard test type chart for near vision, or equivalent test, and natural or corrected far distance acuity of 20/40 as evidenced by a written, signed statement from a physician or an optometrist;

(6) pass a closed book test on welding inspection fundamentals such as welding processes, nondestructive testing methods, and interpretation;

(7) pass an open book test on general code or standard requirements such as fabrication tolerances and preheat requirements;

(8) pass a demonstration of competency in the use of tools, gauges, and instruments pertaining to weld inspection; and

(9) submit evidence of having previously passed an all position welding qualification test in at least one welding process.

(b) The requirements of (a)(3) – (8) of this section will be waived for an applicant possessing a current welding inspector certificate issued by the American Welding Society in accordance with AWS QC 1-77, "Standard for Qualification and Certification of Welding Inspectors."

(c) An applicant may substitute up to two years of post-high-school education for two years of the five-year experience relevant to any of the functions covered by (a)(2) of this section and approved by the board. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(5) and (10)

12 AAC 72.070. TEST FEES. Repealed. (8/21/78, Reg. 67)

12 AAC 72.075. APPLICATION FOR WELDING INSPECTOR LICENSE. Application for a welding inspector license must be made to the department on a form provided by the department and must be accompanied by a fee of $25. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99 080(a)(6) and (10)

12 AAC 72.080. CODES. Repealed. (8/21/78, Reg. 67)

12 AAC 72.085. EXAMINATION FOR WELDING INSPECTOR LICENSE. Examinations for welding inspector licenses will be conducted four times a year. Additional examinations may be conducted if the applicant furnishes all necessary facilities and pays all expenses incurred by the examiners. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(2), (7) and (10)

12 AAC 71.090. DEFINITIONS. Repealed. (8/21/78, Reg. 67)

12 AAC 72.095. WELDING INSPECTOR LICENSE ISSUED. The department will issue a welding inspector license to an applicant who

meets the requirements of sec. 65 of this chapter. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7) and (10)

12 AAC 72.105. WELDING INSPECTOR LICENSE EXPIRATION AND RENEWAL. (a) A welding inspector license is valid until March 1 of each year unless revoked for reasons stated in sec. 125 of this chapter.

(b) Application for renewal of a welding inspector license must be made to the department on a form provided by the department no later than February first of each year and must be accompanied by a fee of $10.

(c) An application for renewal of a welding inspector license must contain

(1) evidence of compliance with the requirement of sec. 65(a)(5) of this chapter; and

(2) evidence of employment as a welding inspector in the form of

(A) a signed statement of an employer;

(B) payroll records indicating the position held; or

(C) affidavits of two fellow employees attesting to employment activity of the applicant.

(d) Application for renewal of a welding inspector license which has lapsed is considered a new application. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7) and (10)

12 AAC 72.115. DUTIES AND RESPONSIBILITIES OF A WELDING INSPECTOR. (a) A welding inspector shall, when applicable

(1) keep the department advised of his current address for the mailing of renewal notices;

(2) verify that the work inspected conforms to the requirements of the applicable codes, standards and job specifications;

(3) verify that the base materials and consumable welding materials conform to the specification requirements and that the specified welding filler metals are used on each base metal or combination of base metals;

(4) verify that the welding equipment to be used for the work is that which is specified in the welding procedure and has the capability to produce the specified welds;

(5) verify that the welding procedures are as specified, and are qualified and available to the welders for reference;

(6) verify that the welders have been properly qualified in accordance with the applicable codes and standards and that their qualification authorizes them to use the welding procedures specified for the work;

(7) observe the qualification tests when qualifying welders;

(8) verify that only specified and properly qualified welding procedures are used for the work;

(9) verify that the joint preparation and fit-up meets the requirements of the welding procedure and drawings;

(10) verify that the specified filler metals are used and that the filler metals are maintained in proper condition for use as specified;

(11) observe the technique and performance of each welder;

(12) examine the work for conformance to the requirements of the applicable codes, standards, specifications and drawings;

(13) identify the work inspected with specified marking methods or appropriate records;

(14) perform the necessary visual inspections;

(15) verify that the required visual and other nondestructive examinations have been performed by qualified personnel in the specified manner and review the resulting information to assure that the results are complete;

(16) perform nondestructive examinations that are specified, if he or she is qualified in accordance with the specified requirements;

(17) prepare clear and concise reports and keep necessary records of the welding procedure, the welding procedure qualifications, the welder qualifications, the control of welding materials and the results of inspections and tests:

(18) act with complete integrity in professional matters and be forthright and candid to the board or its representative on matters pertaining to this standard;

(19) to preserve the health and well-being of the public by performing the duties required of weld inspection in a conscientious and impartial manner to the full extent of his or her responsibilities and qualifications;

(20) undertake and perform assignments only when qualified by training, experience, and capability;

(21) be objective, thorough and factual in any written report, statement or testimony of the work and include all relevant or pertinent information in such communiques or testimonials;

(22) sign only for work that he or she has inspected, or for work over which he or she has personal knowledge through direct technical c ntrol; and

(23) conscientiously avoid conflict of interests with the employer or client and disclose any business association, interests, or circumstances that might be so considered.

(b) If there is evidence that the welder's work does not conform to the requirements of the applicable code, standard or specification, the welding inspector may require requalification of the welder. The welding inspector shall require a requalification of a welder if that person's qualification is not current by the requirements of the applicable codes, standards or specifications.

(c) If the welding inspector is to perform nondestructive examinations other than visual, and there are no specified qualification requirements, he or she must be qualified and certified in accordance with the Recommended Practice No. SNT-TC-1A, "Personnel Qualification and Certification for Nondestructive Testing," June 1975. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7),(9) and (10)

12 AAC 72.125. PROHIBITED CONDUCT OF WELDING INSPECTOR. (a) A welding inspector licensed under this chapter is prohibited from performing acts including

(1) signing a blank welder qualification certificate;

(2) issuing a welding qualification certificate to a welder not tested under his or her direct supervision;

(3) delegating his or her responsibility in testing of welders;

(4) paying, soliciting, or offering, directly or indirectly, any bribe or commission for professional employment with the exception of the usual commission required by employment agencies;

(5) falsifying, exaggerating, or indulging in the misrepresentation of personal academic and professional qualifications, past assignments, accomplishments, and responsibilities or those of his or her associates;

(6) issuing statements, criticisms, or arguments on weld inspection matters connected with public policy which are solicited or paid for by an interested party or parties, without first identifying the party and the speaker and disclosing any possible pecuniary interest;

(7) expressing an opinion on a weld inspection subject unless it is founded upon adequate knowledge of the facts in issue, upon a background of technical competence pertinent to the subject and upon honest conviction of the accuracy and propriety of the statement;

(8) accepting compensation, financial or otherwise, from more than one party for services on the same project, or for services pertaining to the same project, unless the circumstances are fully disclosed and agreed to by all interested parties or their authorized agents;

(9) soliciting or accepting gratuities, directly or indirectly, from any party or parties dealing with the client or employer in connection with the welding inspector's work; and

(10) associating with or knowingly participating in a fraudulent or dishonest venture.

(b) The board will suspend, refuse renewal of or revoke the welding inspector's license, place the license holder on probation, or reprimand the holder, if he or she is found to have engaged in prohibited conduct. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7),(9) and (10)

ARTICLE 4.
GENERAL PROVISIONS

Section
899. Weld qualifier license
900. Definitions

12 AAC 72.899. WELD QUALIFIER LICENSE. A weld qualifier license issued under the authority of this chapter as it existed between August 2, 1973 and the effective date of this section is valid until six months after the effective date of this section and may not be renewed. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7)

12 AAC 72.900. DEFINITIONS. (a) In this chapter

(1) "appropriate rating" means that rating which is required by the specific code designated in the job specifications; when there is no job specification or a specific code is not designated in the job specification, appropriate rating is not less than the all-position certification issued in accordance with the current edition of the American Welding Society Code;

(2) "board" means the Board of Welding Examiners;

(3) "code" means nationally recognized welding, nondestructive testing or engineering principles or rules published as guides or requirements or both by societies or agencies charged with establishing such guidelines;

(4) "continuous employment" means employment without interruption of more than 90 consecutive days unless otherwise specified in the code under which the certificate is being renewed;

(5) "coupon" means a piece of metal cut and sectioned for testing;

(6) "cutting process" means a process in which the severing or removing of metals is effected;

(7) "department" means the Department of Commerce and Economic Development;

(8) "direct supervision" means being physically present at the work site and in personal charge of the work being performed;

(9) "job specifications" means the written document setting out the specific construction standards to be adhered to for the project;

(10) "rating" means a particular skill level in the art of welding;

(11) "responsibility" means being accountable to the board or its agents or both for one's action relating to the requirements of this chapter;

(12) "standards" means minimum acceptable guidelines established by societies or agencies or both charged with the responsibility for promulgating such guidelines;

(13) "technical level" means a level of work in welding using mathematics and science such as would require at least two years of post-high-school study at an accredited engineering school or technical institute or equivalent study;

(14) "valid" means having legal force and properly executed and binding under the law and is in compliance with the appropriate code, standard or specification;

(15) "weld testing methods" means the destructive or nondestructive means of evaluating the integrity of the weld metal or heat affected zone of the base material or both;

(16) "welder" means welder, welding operator and tacker;

(17) "welding" means the metal joining process used in making welds;

(18) "welding inspector" means a person meeting the requirements of secs. 55 – 125 of this chapter;

(19) "welding performance specification" means a document required before testing, setting the criteria for demonstration of a welder's ability to produce welds meeting prescribed standards;

(20) "welding procedure" means a written document specifying the essential variables as listed in the appropriate welding or engineering code or both;

(21) "welding procedure specification" means a document required before welding on any structure, specifying the parameters and requirements which control the quality of the welding for that structure;

(22) "welding process" means the method of application of heat or filler metal or both to complete the joining process;

(23) "welding qualification certificate" means a certificate issued under the authority of the board by a licensed welding inspector to a person verifying that he or she has successfully performed one or more of the specific welding tests required for a certification to a particular welding or engineering code;

(24) "weldment" means an assembly whose component parts are joined by welding.

(b) Terms not defined in this section shall be construed in accordance with American Welding Society A3.0-76, "Terms and Definitions." (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1) and (9)

STATE
of ALASKA

MEMORANDUM

APPENDIX "A"

TO: Don Hostak, Director
Div. of Occupational Licensing
Dept. of Commerce and
Economic Development

DATE: June 13, 1979

FILE NO.

TELEPHONE NO

FROM: AVRUM M. GROSS
ATTORNEY GENERAL
By: Norman E. Staton
Norman E. Staton
Assistant Attorney General

SUBJECT: AS 08.40 and AS 08.99
Enforcement Responsibilities

You have requested an opinion as to which department has the authority and responsibility for enforcing the provisions contained in AS 08.99, regarding the Board of Welding Examiners and the Board of Electrical Examiners.

After reviewing the pertinent provisions, it is our opinion that the Department of Commerce and Economic Development ("Commerce") and the Commissioner of Labor ("Labor") have specific statutory authority for enforcement and investigation of complaints regarding Electrical Examiners, (AS 08.40) and therefore have concurrent discretionary authority. However, while Commerce has discretionary authority for enforcement and investigation of complaints regarding the Board of Welding Examiners (AS 08.99), Labor only has the authority to act if requested to act by the Board.

Commerce and Labor have concurrent discretionary authority to investigate and enforce provisions regarding Electrical Examiners (AS 08.40).

AS 08.01.087 provides:

> Sec. 08.01.087. Powers and duties of department. (a) The department may upon its own motion, conduct investigations to determine whether any person has violated a provision of this chapter or a regulation adopted under it or a provision of a chapter in this title dealing with one of the boards listed in § 10 of this chapter or a regulation adopted by one of those boards, or to secure information useful in the administration of this chapter.
>
> (b) If it appears to the commissioner that a person has engaged in or is about to engage in an act or practice in violation of a provision of this chapter or a regulation adopted under it, or any of the laws pertaining to or regulations adopted

> by the boards listed in § 10 of this chapter, he may, if he considers it in the public interest, and after notification to all board members by telephone or telegraph of a proposed order or action unless a majority of the members of the board object within 10 days, ...

AS 08.01.110 provides in part: "(Definitions.) In this chapter ... (2) 'department' means the Department of Commerce and Economic Development."

The powers and duties of Commerce embrace the boards listed in AS 08.01.010, which provides in part:

> (Applicability of Chapter.) This chapter applies to the ...
> (7) Board of Electrical Examiners;
> (17) Board of Welding Examiners

As a result, under the provisions of AS 08.01.087, AS 08.01.110(2) and AS 08.01.010(7) and (17), Commerce may, upon its own motion, conduct investigations and enforce the provisions of AS 08.40, Electrical Administrators and AS 08.99, Board of Welding Examiners.

AS 08.40.175, regarding Electrical Examiners, provides:

> Sec. 08.40.175. Cease and desist order. (a) If the commissioner of labor determines that a person is acting as an electrical administrator in violation of this chapter, he may issue a cease and desist order prohibiting further action by the person as an electrical administrator. The cease and desist order remains in effect until the person has submitted evidence acceptable to the commissioner of labor showing that the violation has been corrected.
>
> (b) A person affected by an order issued under (a) of this section may seek equitable relief preventing the commissioner of labor from enforcing the order.

As a result, AS 08.40.175 grants authority to Labor to determine if an electrical examiner is acting in violation of the chapter. In order for Labor to make a determination, it must have the authority to investigate. If the commissioner determines that action is warranted, he or she may issue a cease and desist order and thereby enforce the provisions of the chapter.

Therefore, AS 08.01.87 and AS 08.40.175 grant Commerce and Labor concurrent discretionary authority to investigate and enforce the provisions of AS 08.40, Electrical Administrators.

Due to the fact that Commerce and Labor have concurrent discretionary authority, it would be advisable for the departments to cooperate and coordinate their activities in the area.

Commerce has discretionary authority to investigate and enforce provisions of the Board of Welding Examiners (AS 08.99) while Labor only has authority to do so if requested by the Board.

As discussed above, AS 08.01.087 grants Commerce discretionary authority upon its own motion, to conduct investigations and enforce the provisions of AS 08.99, Board of Welding Examiners.

On the other hand, AS 08.99.080(b) requires Labor to investigate and enforce provisions of the chapter upon request by the Board of Welding Examiners. AS 08.99.080(b) provides:

> (b) The board may request technical personnel from the Department of Labor for the purpose of reviewing and analyzing reports and may request field inspection by the department for the purpose of assuring compliance with, and enforcement of the regulations, rules and orders promulgated under §§ 10-110 of this chapter.

(Emphasis added.) If requested to investigate or enforce, Labor would have concurrent authority with Commerce.

Although the Department of Commerce and Economic Development has discretionary authority while the Department of Labor has mandatory authority, we again recommend the departments work out an arrangement to handle this matter, or in the alternative, have the legislature resolve the matter.

Title 59. PROFESSIONS AND OCCUPATIONS

CHAPTER 40. OKLAHOMA WELDING ACT (NEW)

Effective October 1, 1978

Sec.
1624. Short title.
1625. Description and legislative intent.
1626. Definitions.
1627. Welding inspectors - Powers and duties.
1628. Applicants for certification - Qualifications.
1629. Certification of Applicants.
1630. Standards of skills, practice and conduct of welding inspectors.
1631. Unauthorized practice - Suspension, refused renewal or revocation of certification.
1632. Reinstatement.
1633. Recertification.
1634. United States of America Standard Institute Codes Adoption.
1635. Commission of Labor - Additional powers and duties.
1636. Fees.
1637. Disposition of revenues.
1638. Exemptions.
1639. Owner may require welder to qualify with appropriate code - Exempt equipment.
1640. Violations - Misdemeanor - Penalties.
1641. Construction of act.

§ 1624. Short title. This act shall be known and may be cited as the "Oklahoma Welding Act."

§ 1625. Description and legislative intent. A. This act describes the welding inspector's basic technical functions, the requirements by which welding personnel may become qualified, and the principles of conduct and practice by which certification may be maintained. The certification procedure shall apply to personnel who inspect weldments.

B. This act is intended to supplement any requirements of an employer, code, standard or specification and shall not be construed as a preemption of the employer's responsibility for the work or for the performance of such work.

§ 1626. Definitions. As used in this act:

1. "Certificate" means the document issued to an applicant upon successful examination;

2. "Certification" means the testimony of qualifications;

3. "Code" means United States of America Standard Institute Code;

4. "Committee" means the Oklahoma State Labor Department, Boiler Inspection Department, Chief Boiler Inspector;

5. "Qualification" means the successful completion of all parts of the requirements set out by the Oklahoma Department of Labor;

6. "Welding Inspector" means a person who has met the requirements of this act;

7. "Weld-testing facility" means a qualified and approved testing facility approved by the Oklahoma Department of Labor;

8. "Weldment" means a welded assembly in which the bulk of the component parts are prepared and joined by any combination of the cutting and welding processes covered by Section 5 of this act;[1] and

9. "Work" means that portion of the product or weldment that specifically involves or affects the use of welding.

[1]Section 1628 of this title.

§ 1627. Welding inspectors - Powers and duties. A welding inspector shall have the following powers and duties:

1. Verify that the work which he inspects conforms to the requirements of the applicable codes, standards and job specifications;

2. Verify that the base materials and consumable welding materials conform to the specification requirements and that the specified welding filler metals are used on each base metal or combination of base metals;

3. Verify that the welding equipment to be used for the work is that which is specified in the welding procedure and has the capability to produce the specified welds;

4. Verify that the welding procedures are as specified, qualified and available to the welders for reference;

5. Verify that the welders have been properly qualified in accordance with the applicable codes and standards, and that their qualifications authorize them to use the welding procedures specified for the work. If there is evidence that the welder's work does not conform to the requirements of the applicable code, standard or specification, the welding inspector may require requalification of a welder, if that person's qualification is not current by the requirements of the applicable codes, standards or specifications;

6. When qualifying welders, the welding inspector shall observe the qualification tests;

7. Verify that only specified and properly qualified welding procedures are used for the work;

8. Verify that the joint preparation and fit-up meets the requirements of the welding procedure and drawings;

9. Verify that the specified filler metals are used and that the filler metals are maintained in proper condition for use as specified;

10. Observe the technique and performance of each welder;

11. Examine the work for conformance to the requirements of the applicable codes, standards, specifications and drawings;

12. Identify the work he inspects with specified marking methods or appropriate records;

13. Perform the necessary visual inspections;

14. Verify that the required visual and other nondestructive examinations have been performed by qualified personnel in the specified manner. He shall review the resulting information to assure that the results are complete. The welding inspector may perform nondestructive examinations that are specified, providing he is qualified in accordance with the specified requirements; and

15. Prepare clear and concise reports and keep necessary records of the welding procedure, the welding procedure qualifications, the welding qualifications, the control of welding materials and the results of inspections and tests. It shall be the duty of the welding inspector to see that all test results are forwarded to the Department of Labor for issuance of welder certification cards.

§ 1628. Applicants for certification - Qualifications. Each applicant for certification as a welding inspector shall have the following qualifications:

1. Maintenance experience involving the detection and measurement of weld inadequacies or discontinuities in accordance with specified procedures;

2. Repair experience involving the repair or replacement of welds that were determined inadequate or defective by reference to a code, standard, specification or drawing;

3. Familiarity with and understanding of the fundamentals of the following processes:

a. shielded metal arc welding,

b. stud arc welding,

c. submerged arc welding,

d. flux cored arc welding,

e. gas metal arc welding,

f. gas tungsten arc welding,

g. electroslag welding,

h. oxyfuel gas welding,

i. brazing,

j. thermal cutting, and

k. mechanical cutting.

Cutting processes refer only to those processes that are applied to the fabrication and repair of weldments;

4. Capability in writing clear and concise reports and maintaining records; and

5. Competency in the use of tools, gauges and instruments pertaining to weld inspection.

§ 1629. Certification of applicants. The Oklahoma State Labor Department shall issue to each applicant successfully meeting the qualifications requirements provided in Section 5 of this act[1] a certificate stating that the applicant has met the certification requirements. The certificate shall be valid for one (1) year unless revoked pursuant to Section 8 of this act.[2]

[1]Section 1628 of this title.

[2]Section 1631 of this title.

§ 1630. Standards of skills, practice and conduct of welding inspectors.

A. In order to safeguard the public health and well-being and to maintain integrity and high standards of skills, practice and conduct in the occupation of welding inspection, the certified welding inspector shall be cognizant of the principles provided in this section and the

scope to which they apply with the understanding that any unauthorized practice is subject to the Committee's review and may result in suspension or revocation of certification.

B. The welding inspector shall act with complete integrity in professional matters and be forthright and candid to the representatives on matters pertaining to this act.

C. The welding inspector shall preserve the health and well-being of the public by performing the duties required of welding inspectors in a conscientious and impartial manner to the full extent of his moral and civic responsibilities and qualifications. Accordingly, the welding inspector shall:

1. Undertake and perform assignments only when qualified by training, experience and capability; and

2. Be completely objective, thorough and factual in any written report, statement or testimony of the work and include all relevant or pertinent information in such communiques or testimonials.

D. With regard to public statements, the welding inspector shall:

1. Issue no statements, criticisms or arguments on weld inspection matters connected with public policy which are inspired or paid for by one or more interested parties without first identifying the party and speaker, and disclosing any possible pecuniary interest; and

2. Publicly express no opinion on a weld inspection subject unless it is founded upon an adequate knowledge of the facts in issue, upon a background of technical competence pertinent to the subject, and upon honest conviction of the accuracy and propriety of the statement.

E. With regard to conflicts of interest, the welding inspector shall:

1. Conscientiously avoid conflict of interest with his client and shall disclose any business association, interests or circumstances that might be so considered;

2. Not accept compensation, financial or otherwise, from more than one party for services on the same project, or for services pertaining to the same project, unless the circumstances are fully disclosed and agreed to by all interested parties or their authorized agents;

3. Not solicit or accept gratuities, directly or indirectly, from one or more parties dealing with the client or employer in connection with the welding inspector's work; and

4. Neither inspect, review nor approve any work on behalf of one or more parties, while serving in the capacity of an elected, retained or employed public official.

F. With regard to solicitation of employment, the welding inspector shall:

1. Neither pay, solicit nor offer, directly or indirectly, any bribe or commission for professional employment with the exception of the usual commission or fees required; and

2. Neither falsify, exaggerate nor indulge in the misrepresentation of personal academic and professional qualifications, past assignments, accomplishments and responsibilities, or those of his associates.

§ 1631. Unauthorized practice - Suspension, refused renewal or revocation of certification. The Oklahoma Commissioner of Labor shall have the power to suspend, refuse renewal of or revoke the welding inspector's certification, and the power to place on probation or to reprimand the holder, if he is found guilty of an unauthorized practice. The Commissioner of Labor may apply to any court of competent jurisdiction for an enforcement of its administrative decisions and rulings.

§ 1632. Reinstatement. Reinstatement of a revoked certification shall be allowed with no penalty or prejudice to the individual, provided the reason for such revocation has been rectified to the Commissioner of Labor's satisfaction.

§ 1633. Recertification. A. The welding inspector shall be recertified upon payment of the current fee and successful reexamination of complete facilities every year. However, renewal applicants who attest to continual or uninterruped activity in the practice of welding inspection and who recomply with the provisions of Sections 141 through 147 of Title 40 of the Oklahoma Statutes and rule number 36 of the Oklahoma Boiler Code Manual shall be recertified upon payment of the current certification fee without reexamination.

B. Application for renewal of a certification that has expired shall be considered a new application.

C. The welding inspector shall be responsible for maintaining a current address with the State Department of Labor, Boiler Inspector Department, for mailing of renewal notices.

§ 1634. United States of America Standard Institute Codes - Adoption. The following United States of America Standard Institute Codes shall be the piping codes for this state:

1. The power piping code;

2. The fuel gas piping code;

3. The gas transmission and distribution piping system code;

4. The petroleum refining piping code; and

5. The liquid petroleum transportation piping system code.

The provisions of this act shall apply only to weldments required by the above codes.

§ 1635. Commission of Labor - Additional powers and duties. The Commissioner of Labor shall have the following duties in addition to any other duties prescribed by law:

1. Examine, certify and renew the certification of qualified applicants, keep a record of all such proceedings, and submit annual reports to the Governor;

2. Promulgate rules and regulations concerning the quality of welds and qualification of welders;

3. Designate and approve persons qualified to administer welding tests; and

4. Designate and approve shops, testing facilities or other establishments qualified for testing coupons and weldments.

§ 1636. Fees. A. The certification fee for each welder shall be Ten Dollars ($10.00). The certification fee for each testing facility shall be Fifty Dollars ($50.00).

B. Certificates for welders and testing facilities shall be issued for a period of one (1) year, and shall be renewed by January 1 of each year. Failure to renew the certificate within thirty (30) days of expiration shall require certification.

§ 1637. Disposition of revenues. All revenues collected under the provisions of this act shall be paid by the Department of Labor to the State Treasurer and by him placed to the credit of the General Revenue Fund of the state, to be used for governmental functions and to be paid out only pursuant to direct appropriation by the Legislature of the State of Oklahoma.

§ 1638. Exemptions. Upon the effective date of this act, owner-user inspectors following weldment procedures which conform to the applicable code for qualifying welders and testing weldments by non-

destructive or destructive methods shall be exempt from this act. Any inspector who has been certified by the American Welding Society shall be exempt.

§ 1639. Owner may require welder to qualify with appropriate code - Exempt equipment. If a welder holds a state certificate, the owner may require the welder to qualify in accordance with the appropriate code whenever deemed necessary, and reject the welder if qualifying test is failed. Any equipment fabricated in compliance with existing codes is exempt from this act.

§ 1640. Violations - Misdemeanor - Penalties. Any person who violates the provisions of this act shall be guilty of a misdemeanor and upon conviction thereof shall be punished by payment of a fine of Five Hundred Dollars ($500.00).

§ 1641. Construction of act. Nothing in this act shall be construed to affect or modify any unexpired welder certification issued prior to the adoption hereof. Holders of unexpired welder certifications issued by the Commissioner of Labor shall be entitled to renew said certificates as herein provided.

B

STATE OF ALASKA
Guide Licensing and Control Board
May, 1979

Findings

The Guide Licensing and Control Board functions to establish guiding areas, limit the number of guides in areas, and assure that a guide is competent enough to care for himself and others in the remote setting. Guides are also concerned with environmental conservation and animal husbandry. Regulation of this profession is in the best interests of the State and should be continued. The Board is carrying out its duties in a responsible manner and appears to be meeting needs and demands reasonably; therefore, we believe the Board also should be continued. Guides and their clients are also subject to Alaska Department of Fish and Game hunting regulations.

Section 1, ch. 106, SLA 1976, provides: "Purpose. It is the purpose of this Act to protect the safety of the citizens of the state and better manage and protect its resources by licensing persons who transport hunters for hire so that reasonable standards and guidelines will be met and activities affecting the state's game resources will be more accurately monitored and assessed."

I. General Information

A. Regulated Parties

1. Master Guides
2. Registered Guides
3. Class-A Assistant Guides
4. Assistant Guides
5. Transporters

B. Definitions

"(2) 'guide,' 'guides' or 'guiding' means assisting another person to take game with the intent of receiving monetary or material remuneration for the services, by accompanying and directing that person personally or through a licensed assistant guide for the duration of a hunt, and not solely for the purpose of providing transportation services;

(5) 'transporting' or the 'activity of transporting' means conveying a person by any lawful means to an area for remuneration or material benefit in excess of normal operating costs, when the primary purpose of the person being conveyed is the taking of big game and the associated removing of big game meat and parts of big game after big game has been taken; big game as used in this paragraph means game which, if taken by a nonresident, would require a big game tag." (AS 08.54.240)

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

Marcus F. Jensen (Chairman)	ends June 15, 1980
Clark Engle	ends June 15, 1981
Glen Glenzer	ends June 15, 1980
Charles Keim	ends June 15, 1979
Hubert Weise	ends June 15, 1979
Norman Sutliff	ends June 15, 1979
Donald Harris	ends June 15, 1981

2. Representation:

Profession = 3
Public = 4

3. Qualifications:

"...No more than three members of the board shall have a guide license. The other members shall have a general knowledge of the game resources of the state. A minimum of 10 years residence in the state is required for all members of the board." AS 08.54.010

D. Licensing Data

Current licenses (effective May, 1979)

Master guides	=	35
Registered guides	=	268
Class-A assistants	=	95
Assistant guides	=	413
Transporters	=	47
Total		858

All licentiates in this profession are in-State.

E. Fees

1.	master guide license, annual	$75.00
2.	registered guide license, annual	75.00
3.	class-A assistant guide, annual	15.00
4.	assistant guide license, annual	10.00
5.	transporter license	10.00
6.	examination fee	25.00

(Also subject to Fish and Game fees under AS 16.05.340(e).)

F. Board Revenues and Expenditures

	FY '76	FY '77	FY '78	FY '79
Receipts	$39,054.64	$39,025.50	$41,882.00	$41,601.00

Deficit	-	-	-	-

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

Enforcement of Guide Licensing and Control statutes and regulations is the responsibility of the Department of Public Safety, Division of Fish and Wildlife Protection. An Anchorage based Assistant Attorney General is specifically designated for the Board. Sixty-

one investigations were reported to have been conducted by the Division of Fish and Wildlife Protection during the period from April, 1977 through April, 1979. During this same period 35 accusations were filed for disciplinary hearings before the Board.

II. Analysis

A. To what extent has the Guide Licensing and Control Board operated in the public interest?

The Board operates to protect the public interests by controlling hunting activity, promoting hunter safety, and protecting wildlife resources. Accordingly, the Board has statutory responsibility for: (1) preparation, grading and administration of examinations; (2) passing on applicant qualifications; (3) regulation of guide activity and performance standards; (4) maintaining a current register; (5) maintaining and publishing a list of active registered or master guides; (6) regulating guide activities and conduct; (7) revocation, denial and suspension of licenses; (8) establishing geographical guiding quotas; and (9) adoption of procedural and substantive regulations concerning guiding.

Special permit provisions exist for qualified applicants who are limited by language barriers. Candidates for examination who may not fully understand the English language may be given the examination orally in their native language. The Board has recently concentrated a great deal of effort in recruiting qualified guides from remote bush and coastal areas. A separate guiding district has been created (making a total of 27) which includes all western, northwestern and northern Alaska coastal areas north of latitude 50° north for the purpose of regulating marine mammal hunting. Board members have traveled to outlying villages to educate the populace on guide qualifications and to take applications for licensure. Meetings in Nome and/or Kotzebue are planned in 1979 assuming an Arctic guide program is started.

Examinations given by the Guide Licensing and Control Board are Board constructed. Only applicants for registered guide status must take a written examination. Oral examinations are administered by the Board to candidates for both registered and master guide. A passing score of 80% must be achieved. Even though the Board has failed applicants on the basis of the oral examination, it has not made or kept a record of these proceedings. The Board should record all oral examinations in support of its determinations and should ensure that its reasons for denial of applications and licenses are cited in meeting minutes and in notices to the applicant. Review indicated that this procedure is not always followed.

State licensure constitutes exclusive permission to engage in an activity that would otherwise be unlawful. Board procedures are designed to assure that those persons so licensed and engaged are qualified by virtue of past experience and demonstrated competence.

The Anchorage office of the Division of Fish and Wildlife Protection maintains records and files on all enforcement activities and on all guides. These records are complete and up to date. Individual guide files contain all relevant information from initial licensure to latest renewal. A transfer of the Board and regulation to the Division of Fish and Wildlife Protection should be given consideration, particularly in view of the fact that the division has responsibility for enforcement of guiding laws. In a memorandum dated November 8, 1978, to the Office of the Governor, an official of the Department of Public Safety indicated that such a transfer would be favorable. The Board also has indicated support for this proposal.

The Guide Licensing and Control Board is active in disciplinary proceedings concerning the profession. A number of hearings have been held by the Board and subsequent action taken. Viability of enforcement is

largely due to authorization of investigation, administrative support services and Department of Law assistance assigned particularly to guide activities.

AS 08.54.190(a) provides that all licenses expire every year on December 31. As of May, 1979, 858 licenses were in effect and the number increases every year. A statutory amendment should be considered which would allow for biennial renewal.

AS 08.54.200(c)(3) makes revocation of a guide license mandatory upon conviction of two violations of federal or State sport fish, game or guide statutes or regulations. The Board is presently given no discretion or latitude by which it may consider the seriousness of offenses or lesser disciplinary action such as suspension; the most minor violations must result in license revocation. SB 101, with which the board is in agreement, was introduced during the 1979 session of the Legislature (see Appendix A). Passage of this bill would allow the Board to take disciplinary action commensurate with the nature of offenses.

Transporters are required by AS 02.05.040 (the Alaska Air Commerce Act of 1960) to have "in force a certificate issued by the commission [Alaska Transportation Commission] authorizing that person to engage in air commerce as a certificated carrier, contract carrier, or air taxi operator." Title 02, § 170(f), also requires filing of game transporter reports with the Department of Fish and Game. The Alaska Business Act (43.70) requires that transporters maintain a current business license. An abundance of regulations covering this subject also exists under AS 16.05, Fish and Game Code. Licensed guides are exempt from license requirements for transporters. In view of the enforcement and regulatory difficulties encountered in this area, and the fact that transporters are otherwise regulated, it is suggested that appropriate revisions be made to Guide Licensing statutes.

12 AAC 38.055 provides for a limited time waiver of guide area use requirements in case of death of a permit holder. During this period "an heir may apply to the board for a reassignment of the permit to a person designated by the heir" (emphasis added). In case of mental incompetence, a guardian may, during this same limited period "apply to the board for a reassignment of the permit to a person designated by the guardian" (emphasis added). It is questionable whether designation of permit holders should be done by heirs and guardians and whether preference should be given by the Board to persons so designated. It should not be a function of a State board to protect the monetary interests of a licentiate. Rather, the Board should consider the qualifications of all applicants, as is done in other instances, and grant permits on that basis alone.

B. To what extent has the operation of the Guide Licensing and Control Board been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Resources and services provided for this Board far exceed those provided for other boards and commissions under Title 8. As previously noted, enforcement and investigation of its statutes and regulations is adequately handled by the Department of Public Safety. The Board has been assigned an Assistant Attorney General, located in Anchorage, and issues have been pursued actively, both by the Department of Law and by the Board. Other support staff is provided by the Division of Occupational Licensing and is presently adequate. Employee turnover has impeded to some extent continuity and follow through on Board requests.

The Board has not been particularly impeded by budgetary constraints. Meetings and/or hearings have been scheduled as necessary. A special appropriation in the amount of $10,000 was made by the Legislature in 1979 to allow the Board to conduct hearings and formulate procedures

related to hunting of marine mammals. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct board revenues and expenses may be determined.

The Board has expressed a desire to repeal statutes in Title 8 concerning transporters (§§ 142, 144 and 146). Interpretation of AS 08.54.130(2) has apparently caused some confusion in that it is not clear whether the supervisor of a Class-A assistant should be in the guide unit or merely giving direction from any location in the State. AS 08.54.190(a) should be amended to allow for biennial rather than annual renewal of licenses. SB 101, introduced in 1979, would give the Board some latitude in disciplinary actions where guides have been convicted of federal or State sport fish, game or guide laws.

Examinations for registered and master guides are given once a year in November or December, in Anchorage. Control and security of testing materials is maintained by the Department of Public Safety. Board regulations state that applicants who fail either the written or oral test may not be reexamined for six months. An annual examination procedure means that an applicant who fails will miss an entire subsequent hunting season before he can take the next examination. It is suggested that consideration be given to scheduling two examinations each year in two areas of the State to coincide with regular Board meetings.

Public members are included in the composition of the Board. Total membership of seven is felt to be adequate. Terms of membership are three years, however, at least two members have served since the Board was established in 1973.

C. To what extent has the Guide Licensing and Control Board recommended statutory changes which are generally of benefit to the public interest?

In 1976 statutory amendments concerned regulation of transporters and "housekeeping" items. One significant 1976 amendment mandated that the Board "establish a quota of licensed operating guides who may operate within designated geographical game units or subunits of the state and provide for an equitable and reasonable procedure for limiting the number of guides to that quota" (AS 08.54.040(a)(8)). The Board has recently accomplished this directive.

Statutory recommendations made by the Board have been cited previously.

D. To what extent has the Guide Licensing and Control Board encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

Guide Board meetings and hearings are well attended by interested parties. Petitioners before the Board will not even have their petitions considered unless they or their representative(s) are present. Any party possibly affected by a petition is also notified that the matter will be discussed so they may participate.

There is evidence to indicate that Board members have made themselves visible and available to members of the public and the industry. Some members have spent a considerable amount of time on personal correspondence and even personal visits with interested parties in some cases. For instance, members have traveled to Nunivak to meet with and recruit potential guides.

Public interests are felt to be furthered by the presence of public members on professional boards. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decisionmaking."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding.

E. How efficiently are public inquiries or complaints regarding the Guide Licensing and Control Board processed and resolved?

Routine correspondence regarding Board activities may be responded to by the Division of Fish & Wildlife Protection, the Division of Occupational Licensing or by individual Board members. Review of Board files indicates that responses generally are made in an appropriate and timely manner.

Sixty-one investigations were reported to have been conducted by the Division of Fish and Wildlife Protection during the period from April, 1977 through April, 1979. Thirty-five Accusations for Disciplinary Hearings before the Board were filed during this time.

---

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, pg. 20.

At least one complaint regarding the examination was filed with the Office of the Ombudsman and was determined by that office to have been partially justified.

F. To what extent does the Guide Licensing and Control Board present qualified applicants to serve the public?

Individuals seeking licensure must submit fees and qualifying documents to the administrative agency for consideration by the Board. Examinations for registered and master guides are given annually. Applicants who are qualified and/or demonstrate a specified level of knowledge and proficiency are issued a license.

Licensure does not, however, guarantee assignment of hunting units. This is also determined by past use, animal resources and number of guides already in the area, and compatibility with present users and facilities. Current policy limits the number of hunting units that a guide may be certified for; past assignments in excess of the general limit were not rescinded but once lost or forfeited are usually re-assigned to another qualified applicant. These procedures are intended to comply with § 040(a)(8).

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Guide Licensing and Control Board in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (also responsible for

two other boards) who is hired through the State Personnel System and is subject to affirmative action.

Licenses are issued on the basis of specific criteria. Affirmative action requirements are not applicable to these licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Guide Licensing and Control Board to better serve the interests of the public?

Transfer of licensing and record keeping functions to the Department of Public Safety would contribute to continuity and centralization of Board operations. Enforcement and investigative services provided by that Department, and the services of the Department of Law, have proved satisfactory.

AS 08.54.190(a) should be amended to allow for biennial renewals. § 200(c)(3) should be amended to vest some disciplinary discretion with the Board in instances concerning convictions of minor violations. §§ 142, 144 and 146, concerning transporters, should be repealed. This intent was also expressed by the Board by resolution at its April 3, 1979 meeting.

The Board should review its regulations with respect to implications that heirs and guardians of permit holders may designate successors. The Board should also consider regulatory clarification of "supervision" as cited in § 130(2).

The Board should reconsider its policy of scheduling examinations only annually and only in Anchorage.

Article 1. Guide Licensing and Control Board.

Section
10. Creation and membership of board
20. Appointment and term of office
30. Chairman of board
40. Powers and duties
45. Special guiding permit
50. Board regulations
60. Board hearing
70. Compensation and expenses

Sec. 08.54.010. Creation and membership of board. There is created the Guide Licensing and Control Board consisting of seven members. No more than three members of the board shall have a guide license. The other members shall have a general knowledge of the game resources of the state. A minimum of 10 years residence in the state is required for all members of the board. (§ 1 ch 17 SLA 1973)

Sec. 08.54.020. Appointment and term of office. The members of the board shall be appointed by the governor and confirmed by the legislature for staggered terms of three years or until their successors are appointed. Initial terms are as follows: three members for one year, two members for two years, and two members for three years. A member may be removed at the pleasure of the governor. (§ 1 ch 17 SLA 1973)

Sec. 08.54.030. Chairman of board. The board shall elect one of its members as chairman. (§ 1 ch 17 SLA 1973)

Sec. 08.54.040. Powers and duties. (a) Except as provided in § 45 of this chapter, the board shall

(1) prepare, grade and administer examinations;

(2) determine and pass on qualifications of applicants for licenses and authorize the issuance of licenses to those who qualify;

(3) establish guide performance standards and regulate activity;

(4) compile, maintain and publish a guide register of guides who have not been convicted of a violation of a federal or state sport fish, game, or guiding statute or regulation; a guide listed in the register whose license is revoked or suspended shall be removed from the register while his license is revoked or suspended;

(5) compile, maintain and publish a record of registered or master guides who have completed a contract hunt in any of three years immediately preceding the publishing of the record;

(6) prohibit guiding activities which are unsportsmanlike, unethical, unsafe, against principles of conservation, degrading to the guiding profession, or which adversely affect the natural resources;

(7) after a hearing, revoke, suspend or deny renewal of a license in accordance with § 200 of this chapter;

(8) establish a quota of licensed operating guides who may operate within designated geographical game units or subunits of the state and provide for an equitable and reasonable procedure for limiting the number of guides to that quota; preference shall be given to qualified available and willing licensed guides who reside within the designated game unit or subunit.

(b) If a person is unable to competently understand the written portion of an examination given under (a)(1) of this section, he shall be given the complete examination orally in a language which he understands. (§ 1 ch 17 SLA 1973; am § 1 ch 133 SLA 1976)

Sec. 08.54.045. Special guiding permit. This chapter does not limit the power of the board or its authorized designee, to issue a special guiding permit, in place of a guide license, to a person to guide in a specifically designated area, if the person is considered sufficiently experienced to perform the services of a guide and is limited solely by language barriers from securing a regular guide license. (§ 1 ch 17 SLA 1973)

Sec. 08.54.050. Board regulations. The board shall adopt procedural and substantive regulations, under the Administrative Procedure Act (AS 44.62), required by this chapter or reasonably necessary for its administration. (§ 1 ch 17 SLA 1973)

Sec. 08.54.060. Board hearing. The Administrative Procedure Act (AS 44.62) applies to proceedings and hearings under this chapter. (§ 1 ch 17 SLA 1973)

Sec. 08.54.070. Compensation and expenses. Members of the board receive no salary, but are entitled to per diem and travel expenses authorized by law for other boards. (§ 1 ch 17 SLA 1973)

Article 2. Licensing.

Section
100. Qualifications for a master guide license
110. Qualifications for registered guide license
120. Qualifications for a class-A assistant guide license
130. Privileges and limitations of class-A assistant guides
140. Qualifications for assistant guide license
142. Qualifications for transporter license

144. Restriction to transportation
146. Transporter report
150. Responsibility of registered or master guide for violations
170. License fees
180. Examination fee
185. Additional fees
190. Expiration and renewal
200. Grounds for disciplining a licensee
210. Unlawful acts
220. Injunction against unlawful action

Sec. 08.54.100. Qualifications for a master guide license. A person is entitled to be licensed as a master guide if he

(1) has legally hunted in the state for a part of each of 10 years during which time a substantial source of his income was from guiding or related activities directly contributing to his experience and competency as a guide;

(2) meets all the requirements of a registered guide and has been actively engaged in licensed guiding activities in the state for at least five years preceding application;

(3) has not been convicted of a violation of federal or state sport fishing, game or guiding laws or regulations within the preceding five years;

(4) has consistently performed in a superior manner as evidenced by required reports submitted to the board and by inquiries made by the board to at least two of the guide's clients of record; and

(5) meets additional qualifications which the board may require. (§ 1 ch 17 SLA 1973)

Sec. 08.54.110. Qualifications for registered guide license. A person is entitled to be licensed as a registered guide if he

(1) is 21 years of age or more;

(2) is a resident of the state and maintains a permanent place of abode in the state;

(3) has practical field experience in the handling of firearms, hunting, judging trophies, field preparation of trophies, first aid and photography;

(4) is familiar with the terrain and transportation problems in the district for which the license is requested;

(5) has passed the qualification examination prepared and administered by the board;

(6) has demonstrated to the board sufficient standards of competence and ethical conduct and has not been convicted of a crime involving moral turpitude;

(7) has legally hunted in the state for all or part of each of five years in a manner directly contributing to his experience and competency as a guide;

(8) has been licensed as and performed the services of an assistant guide in the state for a part of each of three years;

(9) submits a written recommendation to the board from a registered guide for whom the applicant has worked;

(10) is capable of performing the physical duties associated with guiding activities;

(11) has been favorably recommended in writing by two hunters that he has guided or assisted in guiding during each year of his three years as an assistant guide, whose recommendations have been solicited by the board from a list provided by the applicant;

(12) meets additional qualifications which the board may require. (§ 1 ch 17 SLA 1973)

Sec. 08.54.120. Qualifications for a class-A assistant guide license. A person is entitled to be licensed as a class-A assistant guide if he

(1) has been employed for at least one season as a licensed assistant guide;

(2) has had at least 20 years experience in the guide district in which he is to be employed; for the purposes of this paragraph physical presence at some time of the year during each of the 20 years constitutes adequate evidence of experience, and military service outside the state for no more than six years shall be accepted as part of the required 20 years experience;

(3) has been recommended in writing as qualified by a registered or master guide to the board. (§ 1 ch 17 SLA 1973)

Sec. 08.54.130. Privilgeges and limiations of class-A assistant guides. A class-A assistant guide

(1) may not contract for hunts;

(2) shall be under the supervision of a registered or master guide who has contracted with the client for whom the class-A assistant guide is conducting the hunt;

(3) may take charge of a camp and conduct hunts from it without the registered or master guide necessarily being present in the area if the registered or master guide is physically present in the state and is actively supervising in guiding activities. (§ 1 ch 17 SLA 1973)

Sec. 08.54.140. Qualifications for assistant guide license. A person is entitled to be licensed as an assistant guide if he

(1) is 19 years of age or more;

(2) is a resident of the state;

(3) is favorably recommended to the board, in writing, by a registered guide;

(4) meets additional qualifications which the board may require;

(5) is in sound physical condition. (§ 1 ch 17 SLA 1973)

Sec. 08.54.142. Qualification for transporter license. (a) No person may engage in the activity of transporting unless he is licensed as a transporter under this chapter. A person may be licensed as a transporter if he

(1) is a resident of the state;

(2) is familiar with the terrain and transportation problems in the district or districts for which the license is requested;

(3) obtains a business license to do business as a transporter under AS 43.70.030.

(b) No person may engage in the activity of transporting by air without an air commerce certificate as required by AS 02.05.040. (§ 2 ch 106 SLA 1976)

Sec. 08.54.144. Restriction to transportation. (a) A licensed transporter may transport persons whose primary purpose is the taking of big game or the associated removing of big game meat and parts of big game, with the intent of receiving monetary or material remuneration for the transportation.

(b) Air carriers who transport person between airports, landing strips or other landing areas officially listed in the United States government Flight Information Publication, Alaska Supplement, as revised, or the United States government Sectional Aeronautical Charts, as revised, are exempted from the license requirements for transporters under this chapter but shall comply with the reporting provisions as prescribed in AS 02.05.170(f).

(c) Master guides, registered guides, class-A assistant guides or assistant guides are exempted from the license requirements for transporter under this chapter but shall comply with the reporting provisions as prescribed in AS 02.05.170(f). (§ 2 ch 106 SLA 1976)

Sec. 08.54.146. Transporter report. A transporter shall maintain a record of (1) the names and addresses of all persons he transports; (2) the type of game transported; (3) an estimate of the quantity of meat transported; (4) the date of transporting; and(5) if known, the locality where the game was taken. The report shall be submitted to the Department of Fish and Game within 90 days after transporting the game. After receiving a report required under this section, the Department of Fish and Game shall send a copy of it to the Department of Public Safety. (§ 2 ch 106 SLA 1976; am § 4 ch 133 SLA 1976)

Sec. 08.54.150. Responsibility of registered or master guide for violations. A registered or master guide contracting for a hunt is equally responsible under § 200 of this chapter for a violation of a federal or state sport fish, game or guide statute or regulation committed by a class-A assistant guide or assistant guide while in the course of his employment. (§ 1 ch 17 SLA 1973)

Sec. 08.54.170. License fees. (a) License fees for engaging in the profession of guiding are:

(1)	master guide license, annual.....	$75
(2)	registered guide license, annual.....	75
(3)	class-A assistant guide, annual.....	15
(4)	assistant guide license, annual.....	10

(b) The license fee for a master guide, registered guide, class-A assistant guide or assistant guide license is in addition to the fee required for a hunting or fishing license.

(c) The license fee for a transporter is $10. (§ 1 ch 17 SLA 1973; am § 3 ch 106 SLA 1976)

Sec. 08.54.180. Examination fee. An applicant for a guide examination shall pay a fee of $25. (§ 1 ch 17 SLA 1973)

Sec. 08.54.185. Additional fees. In addition to the license and examination fees provided for under this chapter, master guides and registered guides are subject to fees imposed under AS 16.05.340(e). (§ 4 ch 268 SLA 1976)

Sec. 08.54.190. Expiration and renewal. (a) A master guide, registered guide, class-A assistant guide, assistant guide or transporter license expires on December 31, following issuance.

(b) No license may be issued to a class-A assistant guide or assistant guide who has failed to renew his license for two consecutive years unless he again meets the qualifications for initial issuance of the license.

(c) A master or registered guide who fails to renew a license is not required to requalify under § 100(2) or § 110(8) of this chapter, respectively. (§ 1 ch 17 SLA 1973; am § 12 ch 127 SLA 1974; am § 4 ch 106 SLA 1976)

Sec. 08.54.200. Grounds for disciplining a licensee. (a) The board shall hold a hearing to determine if disciplinary action is necessary if

(1) complaints concerning the licensee have been filed with the board from three or more clients of separate parties; or

(2) a licensee has been charged with a violation of federal or state sport fish, game or guide statutes or regulations; or

(3) a licensee has been convicted of a violation of federal or state sport fish, game or guide statute or regulation.

(b) After a hearing, the board may revoke, suspend, or deny renewal of a license if the board finds that the licensee

(1) engaged in unethical activity, unsafe activity, or activity which adversely affects the natural resources of the state when such activity is unrelated to the legal and legitimate purposes of the contract hunt; or

(2) violated a provision of a federal or state sport fish, game or guide statute or regulation.

(c) After a hearing, the board shall revoke a license if the board finds that the licensee

(1) does not meet the qualifications specified by statute or regulation for the class of license held;

(2) is incompetent as a master guide, registered guide, class-A assistant guide, or assistant guide;

(3) has been convicted of two violations of federal or state sport fish, game or guide statutes or regulations.

(d) No person who is disciplined under this section may engage in any guiding or transporting activity during the period of license revocation or disciplinary action. No person licensed under this chapter may hire or work for a guide whose license is suspended or revoked under this section.

(e) If the board revokes a license it shall notify the Department of Revenue, and the person whose license has been revoked shall return the license to the Department of Commerce and Economic Development. (§ 1 ch 17 SLA 1973; am § ch 43 SLA 1975; am § 5 ch 106 SLA 1976; am § 47 ch 218 SLA 1976)

Sec. 08.54.210. Unlawful acts. (a) It is unlawful for

(1) a master guide, registered guidge, class-A assistant guide, assistant guide or transporter to fail to timely report to the Department of Public Safety, division of fish and wildlife protection, and in no event later than 30 days, violations by a client of a state fish, game or guiding statute or regulation;

(2) a master guide, registered guide, class-A assistant guide, assistant guide or transporter to aid the commission of a violation of this chapter or of AS 16.05 or a regulation promulgated under either chapter, or permit the commission of a violation in his sight without attempting to prevent it, short of using force, and without reporting it;

(3) a person to guide or transport as defined in this chapter without being licensed under this chapter and without having the license in his actual possession; however, for purposes of transporting by air, in the case of a corporation, company, partnership or other business entity, the license may remain at the principal place of business of the business entity;

(4) a person to advertise as or represent himself to be a licensed master guide, registered guide, class-A assistant guide, assistant guide or transporter without being currently licensed, or to falsely advertise services;

(5) a person to guide as defined in this chapter without having a current valid hunting and fishing license in his possession.

(6) a master or registered guide to employ or have under his supervision more than three assistant guides at the same time.

(7) a person to guide as defined in this chapter without paying a fee as prescribed in AS 16.05.340(e).

(b) A person who violates (a)(1)-(6) of this section is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than $1,000 or by imprisonment for not more than one year, or by both, and may have his license revoked for a period up to five years. However, a person who engages in guiding or transporting activity during the period his license is suspended or revoked under this chapter is guilty of a felony punishable, upon conviction, by a fine of not more than $5,000 and by imprisonment for not less than one year nor more than three years. In addition to punishment for a felony, all guns, fishing tackle, boats, aircraft, automobiles or other vehicles, camping gear and other equipment and paraphernalia used in, or in aid of, guiding or transporting activity engaged in during the period of suspension or revocation shall be confiscated by persons authorized to enforce this chapter. A person who violates (a)(7) of this section, upon conviction, is subject to the same license revocation provision as for a violation of (a)(1)-(6) of this section and, in addition, is punishable by a fine of not more than $5,000, or by imprisonment for not more than one year, or by both. (§ 1 ch 17 SLA 1973; am §§ 3, 4 ch 43 SLA 1975; am § 6 ch 106 SLA 1976; am § 3 ch 133 SLA 1976; am §§ 5, 6 ch 268 SLA 1976)

Sec. 08.54.220. Injunction against unlawful action. When in the judgment of the board a person or corporation or other entity has engaged in an act in violation of § 130 and §§ 200-210 of this chapter or the regulations promulgated under them, the board may apply to the appropriate court for an order enjoining the act. Upon a showing by the board that the person is engaging in the act, the court shall grant injunctive relief or other appropriate order without bond. (§ 1 ch 17 SLA 1973; am § 5 ch 43 SLA 1975)

Article 3. General Provisions.

Section
240. Definitions

Sec. 08.54.240. Definitions. In this chapter

(1) "board" means the Guide Licensing and Control Board;

(2) "guide", "guides" or "guiding" menas assisting another person to take game with the intent of receiving monetary or material remuneration for the services, by accompanying and directing that person personally or through a licensed assistant guide for the duration of a hunt, and not solely for the purpose of providing transportation services;

(3) "resident" means a person who maintains a place of residence within the state; has not claimed residency in another state for

the immediately preceding 12 months; shows by all attending circumstances that his intent is to make this state his permanent residence;

(4) "unethical activity" means

(A) deception in any degree involving prospective or actual clients either before, during, or following contract hunts;

(B) misrepresentation either through private communication or public advertising of the nature, type, duration, cost, or other conditions of contract hunts.

(C) making a guaranty that a species or certain number of species of game will be taken on a contract hunt.

(5) "transporting" or the "activity of transporting" means conveying a person by any lawful means to an area for remuneration or material benefit in excess of normal operating costs, when the primary purpose of the person being conveyed is the taking of big game and the associated removing of big game meat and parts of big game after big game has been taken; big game as used in this paragraph means game which, if taken by a nonresident, would require a big game tag. (§ 1 ch 17 SLA 1973; am §§ 7, 8 ch 106 SLA 1976; am § 2 ch 133 SLA 1976)

CHAPTER 38. GUIDE LICENSING

Article
1. Examinations (12 AAC 38.010)
2. Guide Register (12 AAC 38.020)
3. General Provisions (12 AAC 38.030–12 AAC 38.190)

ARTICLE 1. EXAMINATIONS

Section
10. Examinations

12 AAC 38.010. EXAMINATIONS. (a) The application for a guide examination must be made at least five months before the examination date on a form provided by the board. The application for examination shall include a listing of all hunters the applicant has guided or assisted in guiding during his apprenticeship and a letter of recommendation from any registered or master guide for whom he has worked.

(b) Guide examinations will be administered by the board or its authorized representatives at times and places as announced by the board.

(c) The registered guide examination will be composed of written and oral portions designed to reveal the actual qualifications of the candidate to practice guiding in the district or districts of his choice. However, a prospective guide unable to competently understand the written portion of the examination may be granted a guide license based on the outcome of the oral examination augmented by his experience. A score lower than 80 percent on either the written or oral portion of the test shall indicate inadequate qualifications. A person failing to achieve 80 percent or more on either the written or oral portion of the examination may not be reexamined for six months.

(d) A person contesting the results of any portion of the registered guide examination shall direct his appeal and the grounds therefor in writing to the chairman of the Guide Licensing and Control Board, Department of Commerce, Division of Occupational Licensing, Pouch D, Juneau, Alaska 99811, at least 30 days before the board meeting following the examination. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050

ARTICLE 2. GUIDE REGISTER

Section
20. Guide register

12 AAC 38.020. GUIDE REGISTER. (a) On December 31 of the register year, the names of all persons holding a master guide or registered guide license shall be entered by the board, on a register maintained by the board and shall be published for distribution to the public.

(b) All guides shall advise the board of their current address and all changes of address. (Eff. 6/28/74, Reg. 50; am 2/25/77, Reg. 61)

Authority: AS 08.54.040(a)(4) and (5)
AS 08.54.050

ARTICLE 3. GENERAL PROVISIONS

Section
30. Licenses
40. Restriction to districts
50. (Repealed)
51. Guiding area permits
52. Guide prohibited from using a guiding area not assigned to him or her
53. Application and qualification for guiding area permit
54. Reassignment of guiding area permit
55. Death or mental incapacity of guiding area permit holder
56. Changes to guiding area permit
57. Minimum use of guiding area
58. Grounds for revocation or suspension of a guiding area permit
60. Statement of financial remuneration
70. Responsibility of guide to his client
80. Survival gear
90. Presence of guide required
100. Taking of game by guides
110. Transporting meat
120. Cooperation with officials
130. (Repealed)
140. Requirements for a registered guide license
150. Requirements for a master guide
160. Improper certification
170. Improper reporting
180. Guiding ethics
190. Definitions

12 AAC 38.030. LICENSES. (a) A person must purchase his registered guide license within one year of passing the guiding examination or his eligibility lapses.

(b) An application for a guide license shall be made to the Division of Occupational Licensing, Department of Commerce, Pouch D, Juneau, Alaska 99811. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050

12 AAC 38.040. RESTRICTION TO DISTRICTS. (a) A guide may conduct guiding activities only in districts for which he is certified.

(b) Twenty-six guide districts are established and defined as being identical to those areas described as game management units by the Board of Fish and Game in 5 AAC 90.010, as of January 1, 1974, with the addition of two subdistricts

(1) 18A – Nunivak Island and all waters within one mile of that island;

(2) repealed 6/6/79;

(3) 27 – Marine Mammals, including all the area between the western boundaries of districts 17, 18, 22, 23 and 26, except that area included in 18A, north of latitude 50 degrees north and east of the Convention Line of 1867 between the United States and the Union of Soviet Socialist Republics and south of latitude 75 degrees north.

(c) A guide licensed under AS 08.54 as of the effective date of this section is restricted to certification to guide in those districts for which he is certified on that date.

(d) After the effective date of this section, all guides applying for new certification are limited to a total of three districts including those districts for which they were certified as of that date.

(e) A master guide or registered guide may serve as a class A assistant guide in districts for which he is not certified.

(f) Notwithstanding any provision of this section, a guide may petition the board for a transfer of certification to another district if he demonstrates to the satisfaction of the board

(1) that he will incur substantial hardship if a transfer is not permitted as evidenced by

(A) substantial land withdrawals from hunting within his district;

(B) significant reclassifications of land within his district;

(C) depletion of game as evidenced by actions of the Department of Fish and Game; or

(D) other demonstrations of hardship; and

(2) that he is qualified to guide in the district to which he wishes to be transferred. (Eff. 6/28/74, Reg. 50; am 2/25/77, Reg. 61; am 6/6/79, Reg. 70)

Authority: AS 08.54.040(a)(3) and (6)
AS 08.54.050

12 AAC 38.050. REGISTRATION OF MAIN CAMP. Repealed 5/12/78.

12 AAC 38.051. GUIDING AREA PERMITS. (a) Guiding area permits will be issued by the board to guides qualifying under secs. 53 and 54 of this chapter for exclusive or joint use of a specified area in order to limit the number of guides allowed to guide for big game animals in that area.

(b) The board will determine the size, boundaries and number of guiding areas assigned to a master or registered guide and is not limited by number or boundaries of guide districts which may be included.

(c) Each guiding area will be assigned a unique identification code. (Eff. 5/12/78, Reg. 66)

Authority: AS 08.54.040(a)(3),(6) and (8)
AS 08.54.050

12 AAC 38.052. GUIDE PROHIBITED FROM USING A GUIDING AREA NOT ASSIGNED TO HIM OR HER. No guide may contract guided big game hunts in an exclusive guiding area not assigned to him or her unless written permission to do so is obtained from the guide

to whom the guiding area is assigned. If more than one guide holds a permit for joint use of the guiding area, written permission must be obtained from each holder of a permit. The written permission must include the effective and expiration dates of use and the identity and number of the big game species to be hunted,

and must be dated and signed by all of the persons holding a permit for the guiding area. This written permission must be on the person of the guide conducting the hunt or in the base camp from which the hunt is conducted. (Eff. 5/12/78, Reg. 66)

Authority: AS 08.54.040(a)(3),(6) and (8)
AS 08.54.050

12 AAC 38.053. APPLICATION AND QUALIFICATION FOR GUIDING AREA PERMIT. (a) An applicant for initial issuance of a guiding area permit must, at the time of application and at the time the application is reviewed by the board, be a registered or master guide in good standing and must be certified in the district or districts in which the applied-for guiding area is located.

(b) In order to be considered, an applicant must submit to the board, on or before the published deadline, an application which describes the proposed geographic boundaries of the guiding area being applied for and a 1:250,000 scale map showing the proposed boundaries.

(c) Each application must include satisfactory documentation of the applicant's past use, occupancy, or financial investment in the guiding area applied for. The application may include other relevant information if it is substantiated by satisfactory documentation.

(d) The board will, in its discretion, issue a permanent guiding area permit to a qualified applicant who can substantiate his or her use, occupancy, or financial investment in the guiding area for at least three of the five years immediately preceding the published deadline for filing the application for that particular unit. The board will, in its discretion, issue a temporary guiding area permit to a qualified applicant who can substantiate his or her use, occupancy or financial investment in the guiding area for at least two of the five years immediately preceding the published deadline for filing the application for that particular unit.

(e) The holder of a temporary guiding area permit may apply for a permanent permit after one additional year of use, in the temporary guiding area. (Eff. 5/12/78, Reg. 66)

Authority: AS 08.54.040(a)(3),(6) and (8)
AS 08.54.050

12 AAC 38.054. REASSIGNMENT OF GUIDING AREA PERMIT. (a) Guiding area permits are not transferable by the permit holder. The board will, in its discretion, reassign a guiding area permit

(1) upon the death of the permit holder or upon a judicial determination that the permit holder is mentally incompetent;

(2) upon revocation or suspension of a guiding area permit;

(3) if the permit holder voluntarily relinquishes the guiding area permit; and

(4) upon application for reassignment.

(b) Under (a)(4) of this section, a permit holder may apply to the board for reassignment of his or her guiding area permit to a designated master or registered guide; the application must be made jointly by the permit holder and the designated master or registered guide. Approval of the reassignment will be given only upon a finding by the board, after notice and opportunity for a hearing, that the designated registered or master guide is qualified to guide in the area, is certified in the district or districts in which the applied-for guiding area is located, and that the reassignment is consistent with the public interest. The board will consider the designated master or registered guide's past use, occupancy, or financial investment in the guiding area and other relevant and reliable information in determining whether the designated master or registered guide is qualified.

(c) Except as otherwise provided in this chapter, an applicant for a guiding area permit which is to be reassigned must meet the requirements of sec. 53(a) of this chapter and make application in the manner prescribed for initial issuance of a guiding area permit.

(d) If an applicant cannot establish past use of the guiding area to be transferred or is not certified in the district or districts in which the guiding area is located, the board will consider experience and current use in another area of similar terrain if the applicant can establish to the satisfaction of the board that he or she is competent because of other relevant factors to conduct guiding activities in the guiding area.

(e) The board will consider the recommendations of the prior holder of the guiding area permit to be reassigned and will, in areas of joint use, consider the recommendations of the other holders of permits for the guiding area. (Eff. 5/12/78, Reg. 66)

Authority: AS 08.54.040(a)(3),(6) and (8)
AS 08.54.050

12 AAC 38.055. DEATH OR MENTAL INCAPACITY OF GUIDING AREA PERMIT HOLDER. (a) Upon the death of a holder of a guiding area permit, the board will, in its discretion, grant a waiver, for a time specified by the board, of the requirements of sec. 57 of this chapter if application is made by the estate within 90 days after death. Failure to make application within 90 days is considered a voluntary relinquishment of the permit. At any time during the period of the waiver, an heir may apply to the board for a reassignment of the permit to a person designated by the heir.

(b) Upon a judicial determination that a guiding area permit holder is mentally incompetent, the board will, in its discretion, grant a waiver, for a time specified by the board, of the requirements of sec. 57 of this chapter if application is made by the permit holder's guardian within 90 days after a judicial determination of the permit holder's mental incompetency. Failure to make application within 90 days is considered a voluntary relinquishment of the permit. At any time during the period of the waiver the guardian may apply to the board for a reassignment of the permit to a person designated by the guardian. (Eff. 5/12/78, Reg. 66)

Authority: AS 08.54.040(a)(3),(6) and (8)
AS 08.54.050

12 AAC 38.056. CHANGES TO GUIDING AREA PERMIT. Petitions for changes to the size or boundary of a guiding area, for reassignment of a guiding area permit, or for any other changes affecting the guiding area, will be accepted for all guide districts and will be reviewed at a regularly scheduled meeting of the board. Each petitioner will be advised of the date and place of the meeting when his or her petition is scheduled for review. A petition will not be reviewed by the board if the petitioner or a person authorized in writing by the petitioner as his or her designee fails to appear at the time of the scheduled review. If the petition concerns a joint use guiding area permit, each holder of a permit for that guiding area will be furnished a copy of the petition and advised of the date and place when the petition is scheduled to be reviewed and may appear before the board and present testimony relevant to the petition. (Eff. 5/12/78, Reg. 66)

Authority: AS 08.54.040(a)(3),(6) and (8)
AS 08.54.050

12 AAC 38.057. MINIMUM USE OF GUIDING AREA. Each holder of a guiding area permit must conduct at least two contracted hunts within two consecutive calendar years in the guiding area as evidenced by statements of financial remuneration filed in accordance with sec. 60 of this chapter. Failure to do so for any two consecutive calendar years may result in revocation of the guiding area permit unless the permit holder can demonstrate to the satisfaction of the board that circumstances beyond his control precluded conducting the required hunts. (Eff. 5/12/78, Reg. 66)

Authority: AS 08.54.040(a)(3),(6) and (8)
AS 08.54.050

12 AAC 38.058. GROUNDS FOR REVOCATION OR SUSPENSION OF A GUIDING AREA PERMIT. The board will, in its discretion, revoke or suspend a guiding area permit or permits if the permit holder

(1) violates a federal or state sport fish, game or guiding statute or regulation, which violation occurred while guiding;

(2) has his guide license revoked or suspended or is denied renewal of a license for violation of a federal or state sport fish or game or guiding statute or regulation other than for nonpayment of current license fees;

(3) is found by the board to have misused a guiding area. (Eff. 5/12/78, Reg. 66)

Authority: AS 08.54.040(a)(3),(6) and (8)
AS 08.54.050

12 AAC 38.060. STATEMENT OF FINANCIAL REMUNERATION. (a) Before hunting with his or her client, a guide shall complete or have completed a statement of financial remuneration in triplicate on a form provided by the board for this purpose and shall state

(1) that he received financial or material remuneration for his services;

(2) the dates of the contract hunt;

(3) the species to be hunted for;

(4) the legal signature of the guide and his client;

(5) the typed or printed name and address of the guide and his client;

(6) the guiding area permit unique identifying code assigned under sec. 51(c) of this chapter.

(b) The original of the statement required in (a) of this section shall be sent to the Department of Public Safety, Division of Fish and Wildlife Protection, Records Section, P.O. Box 6188 Annex, Anchorage, Alaska 99502, within 21 days after completion of the hunt.

(c) The guide is responsible for furnishing one copy of the statement to his client.

(d) One copy of the statement shall be filed in camp for the duration of the hunt and thereafter at the guide's regular place of business for four years, and shall be produced for inspection upon request by an agent of the Department of Public Safety. (Eff. 6/28/74, Reg. 50; am 5/12/78, Reg. 66)

Authority: AS 08.54.050

12 AAC 38.070. RESPONSIBILITY OF GUIDE TO HIS CLIENT. (a) It is the responsibility of a guide to ascertain that a client has a proper license and appropriate tags and harvest reports, in his possession, for the big game species being hunted before hunting. The guide is responsible for attaching appropriate tags to any game taken by his client and is responsible for having all game sealed or marked as required by Alaska Department of Fish and Game regulations.

(b) A guide shall take every reasonable measure to assure the safety and comfort of his clients. He is responsible for having available the following:

(1) adequate first aid supplies;

(2) sufficient food to provide for emergencies that might render the party immobile;

(3) shelter which is normally considered satisfactory and comfortable under field conditions;

(4) transportation or communications or arrangements to obtain them without hardship or unreasonable delay. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050

12 AAC 38.080. SURVIVAL GEAR. A guide is responsible for assuring that each aircraft operated by him, and used in any phase of a hunt conducted by him, carries survival gear as required by AS 02.35.110. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050

12 AAC 38.090. PRESENCE OF GUIDE REQUIRED. A master, registered or class A assistant guide must be in the field and participating in the conduct of the guided hunt whenever assistant guides are guiding. (Eff. 6/28/74, Reg. 50; am 11/2/75, Reg. 56)

Authority: AS 08.54.050

12 AAC 38.100. TAKING OF GAME BY GUIDES. (a) No guide may take big game animals or marine mammals while acting as a guide, except in cases of actual emergency when a bear or other animal is attacking or when a bear or other animal is about to escape after being wounded. It is then the duty of the guide to take such actions as he considers necessary.

(b) It is unlawful for a master guide, registered guide, class A assistant guide or assistant guide guiding a hunter for walrus to take or assist in taking any walrus other than the animal taken by the client he is guiding; however, one crewman other than the guide may take one single cow walrus and its calf if this taking does not exceed the bag limit as prescribed by regulations of the Board of Game. (Eff. 6/28/74, Reg. 50; am 6/12/77, Reg. 62)

Authority: AS 08.54.050

12 AAC 38.110. TRANSPORTING MEAT. A guide is responsible for transporting the meat of big game animals, except bear, wolves, and wolverine, taken by his client from the site of the kill to its destination or to a common carrier

for shipping to its destination for the purpose of human consumption. If the meat is delivered to a person other than the person who took the animal, a signed and dated statement or receipt stating the kind and quantity of meat received in approximate pounds or named portions of the carcass must be obtained from the recipient and presented upon request to any officer authorized to enforce this chapter. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050

12 AAC 38.120. COOPERATION WITH OFFICIALS. Failure on the part of a guide to assist the Departments of Fish and Game and Public Safety in determining the truth of any statements reported in accordance with secs. 30 – 180 of this chapter is considered a violation of ethical conduct. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050

12 AAC 38.130. REQUIREMENT FOR AN ASSISTANT GUIDE LICENSE. Repealed 5/12/79.

12 AAC 38.140. REQUIREMENTS FOR A REGISTERED GUIDE LICENSE. In addition to the requirements of AS 08.54.110, to be qualified for a registered guide license, a person must

(1) demonstrate to the board that he has spent 90 days in the field acting as an assistant guide as certified by the master or registered guides who employed him;

(2) not have violated a federal or state sport fish, game or guide statute or regulation or engaged in unethical activity, unsafe activity or activity which adversely affects the natural resources of the state for the preceding five years. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050
AS 08.54.110(12)

12 AAC 38.150. REQUIREMENTS FOR A MASTER GUIDE. In addition to the requirements of AS 08.54.100, to be qualified for a master guide license a person must have acted as a registered guide for 12 consecutive years. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050
AS 08.54.100(5)

12 AAC 38.160. IMPROPER CERTIFICATION. No master or registered guide may improperly certify that a person has met the qualifications for a guide license. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050

12 AAC 38.170. IMPROPER REPORTING. No guide may knowingly falsify any information required to be set out on any form required by the Alaska Department of Fish and Game or the Guide Licensing and Control Board. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.050

12 AAC 38.180. GUIDING ETHICS. Unethical activity includes, but is not limited to

(1) not fully cooperating with state and federal wildlife officials or not abiding by and advising clients and personnel of all applicable conservation and game laws and regulations or condoning their violation;

(2) misrepresenting or not clearly defining rates, accommodations and services to prospective clients prior to booking and acceptance of deposit, or otherwise misleading prospective clients through false or fictitious advertising;

(3) being unwilling or incapable of making financial restitution to a client for any breach of contract by the guide or his employees, owing to no fault of the client;

(4) not advising clients of game population to the best of the guide's ability based on past performances in hunting areas and advising him of his chances of encountering the species he desires in the time allotted;

(5) making "guarantees" as to the success of a hunt or the number of pieces of game to be collected;

(6) not maintaining and providing stock,

mechanical equipment, gear, food supplies and facilities to a quality and condition to provide services equal to or better than described in the guide's advertising, correspondence, verbal declaration or contractual agreements;

(7) not maintaining a neat, orderly and sanitary camp at all times, or not providing reasonably well-prepared, palatable and balanced camp meals for clients and personnel in keeping with the conditions of the hunt;

(8) contracting for more hunts or for more hunters at any one time than the guide or his employees can adequately facilitate rendering services for;

(9) hiring guides that are improperly licensed, or ill trained in the arts of woodsmanship, judging trophies, cooking, first aid, photography, firearms, trophy preparation and caring for clients;

(10) failing, while guiding a client, to take all precautions if an animal is wounded;

(11) failing to use every means at his disposal to bag any wounded animal while it is in danger of escaping, or if in a serious emergency, human life or well-being is endangered;

(12) filling a client's game tag or bag limit;

(13) failing, barring unforeseen conditions, to properly prepare, according to generally accepted procedures, all antlers, horn. hides and capes to be delivered to the taxidermist or to the client at the conclusion of a hunt in a satisfactory and unspoiled condition;

(14) failing to endeavor to salvage all meats of trophies taken by his client, in accordance with existing state law;

(15) promoting hunting or the taking of trophies by means other than fair chase: specifically, the pursuit of a trophy in an illegal or unsportsmanlike manner, by herding, driving or chasing of animals with the use of any mechanically powered equipment;

(16) failing to practice sound wildlife conservation or failing to create an awareness of conservation needs and practices during his associations with the public. (Eff. 6/28/74, Reg. 50)

Authority: AS 08.54.040(6)
AS 08.54.050

12 AAC 38.190. DEFINITIONS. Unless otherwise indicated, in this chapter

(1) "competence" means a professional standard of conduct which satisfactorily implements, under field conditions, the knowledge and qualifications of a guide;

(2) "transport" means shipping, carrying, importing, exporting, or receiving or delivering for shipment, carriage or export;

(3) "board" means the Alaska Guide Licensing and Control Board. (Eff. 6/28/74, Reg. 50)

IN THE SENATE BY THE JUDICIARY COMMITTEE

CS FOR SENATE BILL NO. 101

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act relating to the disciplining of a licensed guide."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 08.54.200(c)(3) is repealed.

C

STATE OF ALASKA
COLLECTION AGENCY BOARD
June, 1979

Findings

Statutes regulating the Collection Agency Board and profession vest licensing and enforcement powers within the Department of Commerce and Economic Development. These functions continued throughout a six-year period during which no Board meetings were held. Due to potential monetary loss by businesses and the public as a result of unscrupulous collection operations, control of agencies and agency operators is determined to be a valid governmental concern. However, control could be maintained without a State board as demonstrated by continued operation during the six-year dormant period. We believe that the Collection Agency Board should be allowed to terminate on June 30, 1980.

I. General Information

A. Regulated Parties

1. Collection Agencies
2. Collection Agency Operators

B. Definitions

"(3) 'collection agency business' means the business of engaging directly or indirectly and having as a primary or secondary object, business or pursuit the solicitation of claims for collection or repossession of collateral security or the collection of claims owed or due or asserted to be owed or due to another or the repossession of collateral security;

(A) a house, agency, firm, person, corporation or voluntary association using a name other than its own in collecting its own claims with the intention of conveying, or which tends to convey, the impression that a third party has been employed, is conducting a collection agency business within the meaning of this chapter;

(B) a person who sells, attempts to sell, gives away or attempts to give away to another person, other than a licensee under this chapter a system of collection letters, demand forms or other printed matter where the name of a person other than a creditor appears in a manner to indicate that a request or demand is being made by another person, other than the creditor, for the payment of a sum due, or asserted to be due, or who solicits or accepts accounts for collection on a contingent or percentage basis or by a fee or outright purchase

for collection purposes, is considered to be in the collection agency business within the meaning of this chapter;

(4) 'collection agency' means a person licensed and authorized to engage in the collection agency business;

(5) 'operator' means a person having managerial control of a collection agency." (AS 08.24.380)

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

James Engwall (Chairman)	Ends March 1, 1981
Allan Shepard	Ends March 1, 1980
Donald Leach	Ends March 1, 1981
Judy Warwick	Ends March 1, 1979
Director, Division of Occupational Licensing	

2. Representation:

Profession = 2
Public = 2
Administrative Agency = 1

3. Qualifications:

"...The board shall consist of two persons engaged in the collection agency business within the state and licensed

under this chapter. The third member shall be designated by the commissioner of commerce economic development from his staff. Two members shall be public members in accordance with AS 08.01.025." (AS 08.24.011)

D. Licensing Data

Current licenses (effective May, 1979)

Agencies = 23
Operators = 25

There are currently no out-of-State licenses.

E. Fees

Resident

1.	operator biennial fee	$100.00
2.	operator application fee	40.00
3.	agency biennial fee	200.00
4.	agency application fee	100.00
5.	delinquency charge	50.00

Nonresident

1.	operator license	$100.00
2.	operator biennial fee	200.00
3.	agency license	200.00
4.	agency biennial fee	400.00

$5,000 Agency bond required for all collection agencies.

F. Board Revenues and Expenditures

	FY' 76	FY '77	FY '78	FY '79
Receipts	$4,164.00	$8,364.00	$6,950.00	$3,697.55
- refunds	-	300.00	-	-
Total	$4,164.00	$8,064.00	$6,950.00	$3,697.55
Expenditures				
Transportation	-	438.83	1,830.87	2,018.48
Per Diem	-	212.50	1,621.60	1,493.55
Phone	-	20.10	49.40	950.69
Printing, Adver. & Postage	-	140.16	624.35	204.79
Fees & Services	-	-	-	
Rents, Leases	-	-	-	
Other	-	-	-	3.25
Total	-	811.59	4,126.22	$4,670.76
Surplus	$4,164.00	$7,252.41	$2,823.78	-
Deficit	-	-	-	$ 973.21

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

As of June 1, 1979, nine complaints remain open in agency files. These complaints are from various sources and range in nature from embezzlement to harrassment of the public by collection entities. Sixty-four cases are pending Board approval for closure due to age and lack of jurisdiction.

H. Professional Qualifications

No technical education or experience requirements.

II. Analysis

A. To what extent has the Collection Agency Board operated in the public interest?

The only specific statutory authority allowed this Board is to adopt rules and regulations and investigate applicants. The Board is involved in licensure of applicants as a matter of policy although the Commissioner or his designee has responsibility for passing on applicant qualifications. Departmental authority includes enforcement, approval and issuance of licenses, power to seek injunctions, publication of the law and current directories, modification or waiver of operator license requirements, investigation of applicants, adoption of rules and regulations, auditing of agency transactions, and suspension of licenses for nonrenewal or noncompliance with required procedures. The Department may also suspend, revoke or refuse renewal under certain conditions.

No examination is given to applicants for operator or agency licensure. Approval is based on statutory qualfications as well as additional Board and/or department required information. Individual licensee files maintained by the agency are inadequate in documentation of qualifications. Only one of seven files for which licenses were issued in 1970 contained information relevant to the applicant's moral character. Two out of eighteen files reviewed for which licensure was granted after 1970 lacked this information. In the group of seven issued in 1970, one had not completed high school or its equivalent, two contained no fingerprint information, one indicated a possible law violation with no follow-

through or resolution, and one had no application on file at all. One of the remaining eighteen contained no application or fingerprint information and six were licensed contingent on a favorable report from the F.B.I. No verification of education such as transcripts or certified diploma copies has ever been required. The applicant must submit, however, in addition to statutory requirements, a personal resume, a personal credit report, and three past employment verification forms.

Regulations are currently being promulgated which will outline application procedures, qualifying requirements, specific procedures for handling funds collected, and ethical rules of professional conduct. No regulations are in effect as of this writing.

Applicants for operator licensure are required by statute to have been a State resident continuously for at least one year prior to the date of application. For a total of $300 a nonresident may be licensed (residents pay $140). The residency requirement under AS 08.24.110(1) should be reviewed for validity. The Board has recommended deletion of this statute. Applications also request information regarding individual social security numbers, marital status, a picture, and a credit report. Board regulations as presently drafted also contain information requirements of this nature. Residency information appears on reporting forms for new agency employees regardless of their position or length of employment.

Collection agencies are required by AS 08.24.220 to submit a semiannual statement of employees on June 1 and December 1 of every year and by AS 08.24.210 to submit an annual statement of collection no later than January 31 of each year for the preceding year. AS 08.24.240 makes it incumbent upon the Department to ensure compliance and suspend licenses for substantial noncompliance. As of May 17, 1979, only three of the total twenty-three licensed agencies had submitted the required reports

for December, 1978 and January, 1979. Letters were sent to licensees requesting submission of this information. Noncompliance has been a problem in the past and obviously continues to be a problem to which employee turnover and/or shortage within the administrative agency has contributed.

Public Law 95-109 (Fair Debt Collection Practices Act) was approved in 1977 to take effect in the first half of 1978. The United States Congress found "abundant evidence of the use of abusive, deceptive and unfair debt collection practices" which "contribute to the number of personal bankruptcies, to marital instability, to the loss of jobs, and to invasions of individual privacy." Congress' stated purpose in regulation is "to eliminate abusive debt collection practices by debt collectors, to insure that those debt collectors who refrain from using abusive debt collection practices are not competitively disadvantaged, and to promote consistent State action to protect consumers against debt collecton abuses." The Act outlines ethical conduct and prohibitions against unfair practices. It also assigns enforcement responsibility to the Federal Trade Commission. Due to the fact that there is no FTC office in Alaska, one may assume that this agency's enforcement activities here are negligible. Pending Board regulations are expected to rely heavily on the provisions of PL 95-109.

This profession has no endorsement, continuing competency or temporary permit procedures; however, these are not determined to be necessary to protect the public interest nor are they particularly necessary as prerequisites to licensure.

B. To what extent has the operation of the Collection Agency Board been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

The first Board meeting was held in September of 1970 with three members present. The Board subsequently met in October of 1971, again with three members present. This was the last meeting until March of 1977 at which four members were present and one absent. There is no documentation which would explain the reason for this six-year hiatus in Board operations. Only relatively recently has the Board been in a position to formulate procedures and policies and to promulgate substantive regulations.

The Collection Agency Board has experienced some difficulty with respect to personnel and budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs; however, past employee turnover has impeded continuity and follow-up on Board requests. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct board revenues and expenses may be determined.

The Board has encountered the same difficulties as have all other boards and commissions with respect to investigative services provided by the administrative agency. During FY '78 two investigator positions were vacant; as a result, one position was abolished by the Legislature. At the present time, two investigators are located in Anchorage with a Chief Investigator located in Juneau. An additional investigator position was approved in the FY '80 budget but will probably not be filled immediately due to vacancy factors incorporated into the personal service category of the budget. Procedural constraints of the administrative adjudication article of the Administrative Procedure Act (AS 44.62.330-.630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense

results in pursuit of only the most flagrant and potentially injurious licensing complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

Regulations are still being promulgated by the Board prior to final approval and adoption. None are in effect at this time.

Several statutory provisions for the Collection Agency Board are in need of review and possible revision.

§ 100(b) refers to an annual operator's license and a biennial fee. § 110(1) requires that an applicant for an operator's license "have been a resident of this state continuously for at least one year before the time of application..." Residency requirements should be deleted from the statutes. § 370 regarding nonresidents should be reviewed also. The term "moral turpitude" is not defined, nor is "good cause" for waiver or modification of license qualifications. The Board or the Department should clearly delineate what constitutes a "complete investigation" of applicants.

§ 130(a)(5) refers to "additional information" which may be required by the Board or Department from applicants for licensure as an agency. It should be noted that no such "additional information" is provided for in operator license requirements yet the Board has proposed by regulations to require previous names, social security number, birthplace, outline of personal business experience, a personal financial statement, a credit report, past employment information, and a complete personal history.

§ 180, a grandfather clause, is recommended to be repealed.

§ 220(b) refers to reporting of any pseudonyms or false names used in collection efforts. Apparently the use of aliases is widespread and common within this profession. § 807(10) of PL 95-109 (Fair Debt Collection Practices Act) cites as a violation the "use of any false representation or deceptive means to collect or attempt to collect any debt or to obtain information concerning a consumer." Also cited as a violation (§ 807(11)) is "the failure to disclose clearly in all communications made to collect a debt or to obtain information about a consumer, that the debt collector is attempting to collect a debt and that any information obtained will be used for that purpose."

§ 304(b)(4) refers to "further information" which should be defined.

Consideration may also be given to increasing the amount of the bond required for collection agencies ($5,000) to $10,000 and to requiring submission of only surety bonds or cash.

C. To what extent has the Collection Agency Board recommended statutory changes which are generally of benefit to the public interest?

Two public members were added to the Board by statute in 1976. No other substantive changes have been made since the Board was created in 1968.

Since 1970 the Board has recommended changes to: (1) Sec. 140(b) which would require reports and payments to customers every month; (2) Sec. 110(1) which would remove the residency requirement for an operator's license; and (3) deletion of Sec. 340(c) which requires that the employee report information be notarized.

D. To what extent has the Collection Agency Board encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availablity of service which it has provided?

Participation concerning Board affairs and services has come from the profession. Very little "public" interest has been shown in the form of attendance at meetings, hearings, or as written input. Most concern is expressed by individuals with particular problems directly approaching Board members.

Notices of pending meetings and new or amended regulations are published in major newspapers in the State but elicit minimal response. Positive overt steps could be taken by the Board to heighten public awareness of its existence and functions, such as public service radio announcements and utilizaton of other media. Wider dissemination of general information may help to mitigate public disinterest.

Public interests are furthered by the presence of two public members on the Board. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decision-making."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has beer highly rewarding.

E. How efficiently are public inquiries or complaints regarding the activities of the Collection Agency Board processed and resolved?

---

[1]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

As of June 1, 1979, there were nine open investigations on file with the administrative agency. Complaints have been received from the Board, the profession, and from the public. They range in nature from harrassment of the public to embezzlement. In September of 1978, 64 complaint cases were purged from agency files and are pending closure before the Board due to age or lack of jurisdiction.

Until recently, the Board had been unaware of the number and nature of the complaints on file. The administrative agency is addressing complaints and investigation procedures and the need for timely disposition of issues.

There have been no complaints against the Collection Agency Board as a body.

F. To what extent does the Collection Agency Board present qualified applicants to serve the public?

No technical education or experience is required for licensure in this profession. As long as an operator applicant is at least 19 years of age and has a high school education or its equivalent, (s)he may potentially be licensed. Collection agency applicants must be at least 19 years of age and submit required information and fees. No examination is administered.

G. To what extent have State personel practices, including affirmative action requirements, been complied with by the Collection Agency Board in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (also responsible for services to another large commission) who is hired through the State Personnel System and is subject to affirmative action requirements.

Licenses in this profession are issued on the basis of specific statutory criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Collection Agency Board to better serve the interests of the public?

Application forms and procedures should be reviewed and improved. Pending regulations will accomplish much toward this objective. Residency requirements should be deleted from Board statutes. The Board and/or the Division should ensure that licensees comply with reporting requirements in a timely manner. A $10,000 surety bond, or cash, should be required of all collection agencies.

The administrative agency is formulating investigation procedures for all boards to whom support services are provided. The licensing examiner assigned to the Collection Agency Board also is responsible to the Real Estate Commission; services to the Commission constitute a considerable amount of time and work thereby limiting the services that should be provided to both entities. If the Board is continued, one-fourth of an examiner position is recommended as minimally adequate for administrative support.

Other recommended statutory changes have been cited previously in this report.

Article 1. Collection Agency Board.

Section
011. Collection Agency Board
016. [Repealed]
021. Appointment and term of office
031. Regulations

Sec. 08.24.011. Collection Agency Board. There is created a Collection Agency Board consisting of five members, four of whom shall be appointed by the governor. The board shall consist of two persons engaged in the collection agency business within the state and licensed under this chapter. The third member shall be designated by the commissioner of commerce and economic development from his staff. Two members shall be public members in accordance with AS 08.01.025. (§ 1 ch 101 SLA 1968; am § 42 ch 218 SLA 1976; am § 7 ch 258 SLA 1976)

Sec. 08.24.016. Transportation and per diem. Repealed by § 1 ch 165 SLA 1970.

Sec. 08.24.021. Appointment and term of office. The board members shall be appointed initially for terms of two and three years respectively. Thereafter, appointments to the board shall be made upon the expiration of the initial appointment and the term of office for each member so appointed shall be three years. The members shall serve at the pleasure of the governor. Vacancies caused by death, resignation or removal from office shall be filled by appointment by the governor. (§ 1 ch 101 SLA 1968)

Sec. 08.24.031. Regulations. The board may adopt rules and regulations necessary to effectuate the purposes of this chapter. (§ 1 ch 101 SLA 1968)

Article 2. Powers and Duties of the Department of Commerce

Section
041. Duty to enforce chapter
045. Duty to pass upon qualification
051. Power to seek injunctions
061. Publications of applicable law
071. Directory of licensed agencies

Sec. 08.24.041. Duty to enforce chapter. The department shall enforce all laws, rules and regulations relating to collection agencies. (§ 1 ch 101 SLA 1968)

Sec. 08.24.045. Duty to pass upon qualifications. The commissioner of the department or his designee within the department shall pass upon the qualifications of applicants for collection agency licenses and operators licenses. (§ 1 ch 101 SLA 1968)

Sec. 08.24.051. Power to seek injunctions. The department may apply to the superior court for an injunction to temporarily restrain a violation of this chapter or a rule or regulation issued under it, conduct investigations of alleged violations of this chapter, and regulations enacted under this chapter, and perform other action necessary to accomplish the purposes of this chapter. (§ 1 ch 101 SLA 1968)

Sec. 08.24.061. Publication of applicable law. The department shall reproduce the laws relating to licensing of collection agencies and operators, the rules and regulations adopted by the department or the board and other pertinent matter, publish the material in pamphlet form, and make the pamphlets available to the public without expense. (§ 1 ch 101 SLA 1968)

Sec. 08.24.071. Directory of licensed agencies. The department shall publish on or about August 1 of each year a directory containing a list of licensed collection agencies which specifies as to each agency its owners and officers and the names of its licensed operator or operators, together with other matters pertinent to the general purposes of this chapter. The department shall mail one copy of the directory to each licensed collection agency, to the clerk of each superior court in the state, and upon request, to other persons. (§ 1 ch 101 SLA 1968)

Sec. 08.24.090. License required. (a) No person other than a collection agency licensed and authorized under this chapter may for compensation

(1) conduct a collection agency business in this state;

(2) collect claims for others in this state;

(3) solicit the right to collect or receive payment of a claim for another;

(4) advertise or solicit either in print, by letter, in person or otherwise, the right to collect or receive payment of a claim for another;

(5) seek to make collection or obtain payment of a claim on behalf of another.

(b) This chapter does not apply to the following when engaged in the regular course of their respective businesses:

(1) attorneys at law;

(2) persons regularly employed on a regular wage or salary in the capacity of credit men or a similar capacity, except as an independent contractor;

(3) banks, including trust departments of banks, fiduciaries and financing and lending institutions;

(4) common carriers;

(5) title insurers and abstract companies while doing an escrow business;

(6) licensed real estate brokers;

(7) employees of licensees under this chapter;

(8) substation payment offices employed by or serving as independent contractors for public utilities.

(c) A violation of this section is a misdemeanor punishable by imprisonment in a jail for not to exceed one year, or by a fine of not more than $1,000 or by both. (§ 1 ch 101 SLA 1968)

Sec. 08.24.100. Licensed operator required, exceptions and fee. (a) Notwithstanding any other provision of this chapter, no licensee may engage in the collection agency business unless and until the collection agency, and each branch office of the agency is under the management and control of a licensed operator for each office. The department or the board may waive this requirement for a period not to exceed 90 days upon the death or disability of an operator, or for other good cause.

(b) The annual operator's license shall be renewable on or before July 1 of each second year beginning on July 1, 1968, and the biennial fee is $100. (§ 1 ch 101 SLA 1968)

Sec. 08.24.110. Qualification for operator's license. (a) To qualify for an operator's license, the applicant shall:

(1) have been a resident of this state continuously for at least one year before the time of application;

(2) be a high school graduate, or have the equivalent education of a high school graduate;

(3) be of good moral character;

(4) not have been convicted of violating this chapter, nor have any unsettled complaints under this chapter against him;

(5) not have been convicted of a felony or a crime of larceny or embezzlement or a crime involving moral turpitude;

(6) be 19 years of age or older at the time of application;

(7) not be a disbarred attorney or have filed bankruptcy;

(8) pay the biennial license fee which is fixed at $100.

(b) The commissioner may waive or modify the requirements specified in (a)(2), (4), (5) and (7) of this section for good cause shown. § 1 ch 101 SLA 1968)

Sec. 08.24.120. Application for operator's license. (a) An application for an operator's license shall be made on forms furnished by the department and shall contain the information required in § 110 of this chapter and, in addition, the following:

(1) a complete set of fingerprints;

(2) a 2"x3" photograph showing a front view of head and shoulders;

(3) if an original application, an application fee of $40;

(4) the biennial license fee required by § 100 of this chapter.

(b) The department and the board are authorized to make a complete investigation of applicants including inquiry of police agencies as to the applicant's record of arrest or conviction of crime. (§ 1 ch 101 SLA 1968)

Sec. 08.24.130. Application for agency license. (a) An application for a collection agency license, or for a renewal of a license shall be made upon forms furnished by the department and shall contain the following information:

(1) the full name and proposed business name of the applicant;

(2) the address of the applicant's principal place of business and branch offices;

(3) the names and addresses of the applicant and those associated with him; if the applicant is a corporation or association, the application shall contain the names of the officers of the corporation or association;

(4) the names and residential addresses of the applicant's operators;

(5) additional information which the department or the board, by rule or regulation, requires.

(b) Every natural person applying for a collection agency license must be 19 years of age or older at the time of making application. (§ 1 ch 101 SLA 1968)

Sec. 08.24.140. Fee, bond and other material. (a) The application shall be accompanied by:

(1) if an original application, an application fee of $100;

(2) the biennial license fee for a collection agency which is fixed at $200 for the principal place of business and $200 for each branch office;

(3) a bond running to the state with a surety or sureties to the satisfaction of the department, and conditioned that the licensee shall, within 30 days after the close of each calendar or fiscal month, report and pay to his customers the net proceeds due and payable of all collections made during the calendar or fiscal month which exceeds $20.

(b) All money collected by an agency belonging to a client shall be deposited in a trust account and cleared at the end of each month. The department may audit any agency transaction. (§ 1 ch 101 SLA 1968)

Sec. 08.24.150. Bond. (a) The bond provided for in §140 of this chapter shall be in the sum of $5,000, executed by the applicant, as principal, and by a corporation which is licensed or authorized to transact business of fidelity and surety insurance within the state as surety. The department may at any time request verification of a bonding agent's authority by the main office of any company acting as surety.

(b) A licensee may, at any time, file with the department a new bond. A licensee may in lieu of a bond make a $5,000 cash deposit with the department, the deposit to be held by the department under the same terms and conditions as if bond in that amount were posted.

(c) A surety may file with the department notice of his withdrawal on the bond of a licensee. Upon filing a new bond, or upon the revocation of the collection agency license, or upon expiration of 60 days after the filing of notice of withdrawal as surety by the surety, the liability of the former surety for all future acts of the licensee shall terminate.

(d) The department shall immediately cancel the bond given by a surety company upon being advised its license to transact business of fidelity and surety insurance has been revoked by the state.

(e) Upon the filing with the department of notice by a surety of his withdrawal as the surety on the bond of a licensee, or upon the cancellation by the department of the bond of a surety company as provided in this section, the department shall immediately give notice to the licensee of the withdrawal or cancellation, which notice shall be by registered or certified mail with request for a return receipt and addressed to the licensee at his main office, as shown by the records of the department. At the expiration of 30 days from the date of mailing

the notice, the license of the licensee shall be terminated, unless the licensee has filed a new bond with a surety satisfactory to the department. All bonds given under this chapter shall be filed and held in the office of the department.

(f) The bond required by this section shall remain in effect until cancelled by action of the surety, the principal or the department. No action may be initiated upon the bond after two years from its cancellation. (§ 1 ch 101 SLA 1968)

Sec. 08.24.160. Form of bond. The bond required by §§ 140 and 150 of this chapter shall be in the form substantially as follows:

BOND

Know all Men by These Presents that we, ..., as principal, and.....as surety, are held and firmly bound to the State of Alaska, in the penal sum of $....., lawful money of the United States, for the payment of which we bind ourselves, our heirs, executors, administrators, successors and assigns jointly and severally.

The condition of this obligation is such that whereas, the bonded principal, named above, has applied to the Department of Commerce and Economic Development of the State of Alaska for a collection agency license under the provisions of AS 08.24 and is required by the provisions of that law to furnish a bond conditioned as herein set out.

Now, therefore, if....., within 30 days after the close of each fiscal or calendar month, reports and pays to customers the net proceeds due and payable of all collections made during that calendar or fiscal month which exceed $20, and strictly, honestly and faithfully complies with the provisions of AS 08.24 and all amendments to it and regulations adopted under it, then this obligation is void, otherwise to remain in full force and effect.

This bond becomes effective on the.....day of ....., 19..... The surety may be relieved of future liability under it by giving 60 days' written notice to the principal and to the Department of Commerce and Economic Development of the State of Alaska.

This bond is one continuing obligation and the liability of the surety for the aggregate of all claims which may arise under it may in no event exceed the amount of the penalty set out in it.

IN WITNESS WHEREOF we have hereunto set our hands and seals at....., Alaska, this.....day of ....., 19.....

(SEAL).....Principal

(SEAL).....Surety

(§ 1 ch 101 SLA 1968; am § 43 ch 218 SLA 1976)

Sec. 08.24.170. Return of fees and bond. If the department does not issue the license applied for, the license fee and bond shall be returned. The application fee may not be returned. (§ 1 ch 101 SLA 1968)

Sec. 08.24.180. Persons presently engaged in collection business. (a) A person who is actively engaged in a collection agency business on May 1, 1968 and who wishes to continue to engage in this business shall apply for a license within 60 days after May 1, 1968.

(b) A person who applies or receives a license under (a) of this section is subject to all of the provisions of this chapter, except that in his application for a license he is not required to comply with §120(a)(3) and (4) of this chapter. (§ 1 ch 101 SLA 1968)

Sec. 08.24.190. License as personal privilege. (a) Except as provided in (b) of this section, a license granted under this chapter is a personal privilege and is not assignable.

(b) Upon the death of a collection agency licensee, the department has the right to transfer the license of the decedent to the executor or administrator of his estate for the period of the unexpired term of the license and the court having jurisdiction of the probate of the estate of the decedent may authorize the executor or administrator to continue the collection agency business of the decedent and upon other terms and conditions as the court may prescribe.

(c) The death of the operator of a corporate licensee shall in no way interfere with the continuation of the licensed business if another licensed operator is placed in management control of the corporate licensee. (§ 1 ch 101 SLa 1968)

Sec. 08.24.200. Expiration and renewal. (a) All licenses required by this chapter shall expire on June 30, 1970, and June 30 of each second year thereafter and shall be renewed as of July 1 following upon payment of required biennial fees.

(b) If a licensee under this chapter is delinquent for a period of 15 days in applying for the renewal of a license, the department shall suspend the license and notify the licensee by certified mail or by personal service. The notice shall state that the license will be revoked if application for renewal is not made within 15 days from the date on which the notice was mailed or personally served. When a licensee has been delinquent in renewing his license or certificate, the department shall charge an additional fee of $50 for the renewal of the license. (§ 1 ch 101 SLA 1968)

Sec. 08.24.210. Annual statement of collection. Each collection agency licensee shall, not later than January 31 of each calendar year, file with the department a verified annual statement for the preceding

calendar year, showing the respective amounts of all customers' money collected by the licensee during the preceding calendar year, which has not previously been remitted to the customers entitled to it or properly accounted for, and showing also the amounts of money which the licensee has on deposit in a bank or in the licensee's possession for the purpose of liquidating any and all amounts due to customers. The statement shall contain the name and address of the bank. The annual statement shall be made substantially in the following form:

ANNUAL STATEMENT TO DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT

Pursuant to AS 08.24.210 the undersigned,....., licensed under AS 08.24 to conduct a collection agency business, hereby declares that the amount of money collected during the preceding calendar year by the undersigned, as a licensee under AS 08.24, which has not been remitted to a customer or properly accounted for is $.....; and that the amount on deposit with all banks for the purpose of liquidating all amounts to customers is $.....

The attached schedule contains a true statement of the name and address of each customer of the undersigned to whom there was due or owing at the end of the preceding calendar year on account of collections made during the preceding calendar year the aggregate sum of $20 or more.

IN WITNESS WHEREOF, the undersigned has executed this statement on this..... day of....., 19.....

Notary Public in and for Alaska
My commission expires:

(§ 1 ch 101 SLA 1968; am § 44 ch 218 SLA 1976)

Sec. 08.24.220. Semiannual statement of employees. (a) Every collection agency licensee shall file with the department on June 1 and December 1 of every year a list of the names and residence addresses of each person employed by the licensee in the six-month period ending 10 days before the due date of the report.

(b) If any of these employees have used pseudonyms or false names in their collection business efforts for the reporting period, those pseudonyms or false names must be set out following the true name of the employee using the name. (§ 1 ch 101 SLA 1968)

Sec. 08.24.230. False declarations in statement. The willful making of a false declaration in the annual statement or biennial statement of employees constitutes sufficient grounds for revocation of the license of the licensee. (§ 1 ch 101 SLA 1968)

Sec. 08.24.240. Failure to file statement. If the annual statement of collection or semiannual statement of employees is not filed as required under §§ 210 and 220 of this chapter, the failure to file constitutes grounds for the immediate suspension of the collection agency license of the licensee failing to file the statement, and the department shall notify the licensee by registered or certified mail that the license of the licensee will be suspended upon the expiration of 15 days after the date on which the notice was mailed unless the licensee complies with the provisions of §§ 210 or 220 of this chapter. However, for good cause shown and upon satisfactory proof furnished by the licensee that the failure to file the statement was due to a condition not within the control, or was due to excusable neglect, of the licensee, the department may permit the filing of the statement after the time limited and excuse the failure to file the statement within the time limited. If the statement required by §§ 210 or 220 of this chapter is not filed as required in this section the department shall revoke the license. (§ 1 ch 101 SLA 1968)

Sec. 02.24.250. Information confidential. Except as otherwise provided in this chapter, information in whatever form required to be filed by the terms of §§ 210 and 220 of this chapter shall be confidential and may not become a public record, but it may be introduced in evidence in a suit, action or proceeding in a court or in a proceeding involving the granting or revocation of the license of a licensee. (§ 1 ch 101 SLA 1968)

Sec. 08.24.260. Investigations. The department may upon its own motion, and shall, upon the sworn complaint in writing of a customer of a collection agency, investigate the actions of a licensee claimed to have violated this chapter and for that purpose shall have free access to the offices and place of business and, if the complaint involves customer accounts, to all pertinent books, accounts, records, papers, files, safes and vaults of the licensee or certificate holder. If the complaint involves the owing of money, or any other thing of value, by a

licensee to the complainant, when the licensee raises the issue of an offset or counterclaim, the division may require the complainant to submit all records and data in his possession pertaining to the offset or counterclaim. (§ 1 ch 101 SLA 1968)

Sec. 08.24.270. Administrative Procedure Act. The department and the board shall comply with the Administrative Procedure Act [AS 44.62] both as to enactment of regulations and adjudication. (§ 1 ch 101 SLA 1968)

Sec. 08.24.280. Records and funds. (a) A collection agency shall keep a record of all sums collected by it, and of all disbursements made by it, and shall maintain and keep all the records and all customers' funds in a trust account with a recognized financial institution in this state. Collection agencies shall maintain accounting records of collections for and payments to customers for a period of six years from the date of the last entry. Collection agencies shall keep other records for a period of two years from the date of the last entry.

(b) Every collection agency shall maintain a permanent numerical receipt record which shall indicate as to each payment made by a debtor the following information:

(1) the name of the debtor making payment;

(2) the amount paid;

(3) the name of the creditor to whom funds are being applied;

(4) the date and form of payment;

(5) the balance remaining due on account.

(c) An agency using a computer system giving read-out debtor payment information will not have to maintain a numerical receipt record; however, if requested, a receipt will be furnished to debtor.

(d) The receipt shall be made immediately upon the receipt of funds by the collection agency in payment of a debt; the original copy to be made immediately available to the debtor who has made payment, upon request; and a copy to be made immediately available to the creditor for whom payment was received, upon request; and a copy to be maintained in the permanent receipt record.

(e) A collection agency shall maintain daily cash ledger sheets showing all funds received from debtors and all funds received as fees for services, such as credit reports and the like.

(f) No collection agency, or an employee of a collection agency, may intentionally make a false entry in the collection agency record or

intentionally mutilate, destroy or otherwise dispose of a record within the time limits provided in this section. The records shall at all reasonable times be open for inspection by the department, the board or their authorized agent.

(g) A collection agency shall maintain a separate trust account exclusively for customers' funds and shall keep the funds in the trust account until disbursed to the customer. (§ 1 ch 101 SLA 1968)

Sec. 08.24.290. Suspension, revocation or refusal to renew or grant a license or certificate. The department may suspend, revoke or refuse to renew or grant a license issued or applied for under this chapter if the licensee or applicant or a partner, associate, or major stockholder of a collection agency has since the date of the application been disbarred from the practice of law or been convicted of fraud, embezzlement, obtaining money under false pretenses, a crime involving moral turpitude, extortion, conspiracy to defraud, violation of a provision of this chapter or violating a rule or regulation promulgated under authority of this chapter. (§ 1 ch 101 SLA 1968)

Sec. 08.24.300. Court action by agency. No collection agency is entitled to maintain a suit or action involving the collection of money on behalf of its customers in a court of this state without alleging and proving that it is licensed and has procured a bond, as provided in this chapter. A copy of the collection agency license, certified by the department to be a true and correct copy is prima facie evidence of the licensing and bonding of the collection agency for the term expressed in the copy of the license. (§ 1 ch 101 SLA 1968)

Sec. 08.24.310. Additional business names. A collection agency using a business name other than the one appearing on the application for its license shall secure a separate license and bond as provided in this chapter for each business name used. (§ 1 ch 101 SLA 1968)

Sec. 08.24.320. Documents which imitate judicial process. Forms of demand or notice or other documents drawn to resemble court process may not be used by collection agencies in the collection of bills, accounts or other indebtedness. (§ 1 ch 101 SLA 1968)

Sec. 08.24.330. Duty to maintain a public office. Each collection agency shall maintain its principal office and any branch office at a street address which is stated in its original application for license or another address which the agency may designate to the department; the office shall be maintained in such a manner as to be open for contact by the public or debtors during normal working hours. (§ 1 ch 101 SLA 1968)

Sec. 08.24.340. Statement of persons employed by agency. (a) Within 15 days after licensure under this chapter, a collection agency shall submit to the department a list of all person employed by

the agency. Thereafter, upon hiring a new employee, the collection agency shall, within 15 days after the hiring, submit to the department the name of the newly hired employee and the further information required by (b) of this section.

(b) There shall be submitted with the name of the employee employed by the collection agency the following information:

(1) the employee's residence address;

(2) the employees's length of residence in the state;

(3) a statement of his previous employment in the last year;

(4) further information which the board or department may require.

(c) The statement shall be verified by the employee before a notary public or other person authorized to administer oaths.

(d) The owner or licensed operator of the collection agency shall also state upon the form submitted the date upon which the new employee was hired and that he is an employee of the collection agency at the time the form is executed. (§ 1 ch 101 SLA 1968)

Sec. 08.24.350. Notice of withdrawal of employees. When an employee withdraws from employment or his employment with a collection agency is terminated for any reason, the agency shall, within 15 days of withdrawal or termination of employment, notify the department in writing of the employee's withdrawal from employment. (§ 1 ch 101 SLA 1968)

Sec. 08.24.360. Fines and penalties. A collection agency or an operator who fails on written demand to render a true and complete account to the person from whom an indebtedness was taken for collection or who fails to turn over to that person the proceeds of the collection within 30 days after the demand, or who fails to comply with any of the provisions of this chapter is punishable by a fine of not more than $500, or by imprisonment for not more than three months, or by both. (§ 1 ch 101 SLA 1968)

Sec. 08.24.370. Nonresidents. A nonresident may apply for and receive a collection agency license or an operator license or both on the same basis as a resident. The application fee for a nonresident operator license is $100 and the biennial license fee is $200. The application fee for a nonresident agency license if $200, and the biennial license fee is $400 for the principal place of business and $400 for each branch office. (§ 1 ch 101 SLA 1968)

Sec. 08.24.380. Definitions. In this chapter

(1) "board' means the Collection Agency Board;

(2) "department" means the Department of Commerce and Economic Development;

(3) "collection agency business" means the business of engaging directly or indirectly and having as a primary or secondary object, business or pursuit the solicitation of claims for collection or repossession of collateral security or the collection of claims owed or due or asserted to be owed or due to another or the repossession of collateral security;

(A) a house, agency, firm, person, corporation or voluntary association using a name other than its own in collecting its own claims with the intention of conveying, or which tends to convey, the impression that a third party has been employed, is conducting a collection agency business within the meaning of this chapter;

(B) a person who sells, attempts to sell, gives away or attempts to give away to another person, other than a licensee under this chapter a system of collection letters, demand forms or other printed matter where the name of a person other than a creditor appears in a manner to indicate that a request or demand is being made by another person, other than the creditor, for the payment of a sum due, or asserted to be due, or who solicits or accepts accounts for collection on a contingent or percentage basis or by a fee or outright purchase for collection purposes, is considered to be in the collection agency business within the meaning of this chapter;

(4) "operator" means a person having managerial control of a collection agency. (§ 1 ch 101 SLA 1968; am § 45 ch 218 SLA 1976)

D

STATE OF ALASKA
BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS
June, 1979

Findings

This Board was created in 1957 and, until the past year, has met annually to conduct its affairs. Members of this profession are regulated by AS 08.28; control over health and sanitation is with the Department of Health and Social Services (AS 18.05.040). Alternatives to the present operation of the Board and to regulation of this profession are discussed in this review.

I. General Information

A. Regulated Parties

1. Schools
2. School owners
3. Instructors
4. Operators
5. Shop owners
6. Shop managers
7. Demonstrators
8. Consultants
9. Apprentices
10. Manicurists

B. Definitions

"(10)" 'practice of hairdressing and beauty culture' is engaging, for compensation or other reward, in any of the following practices: (A) arranging, dressing, curling, waving, cleansing, singeing, bleaching, coloring, or similar work on a wig or hair piece of artificial or human hair, or upon the hair of a living person by any means; (B) trimming hair, as a part of hairdressing; (C) utilizing cosmetic preparations, antiseptics, tonics, lotions, or creams, with the hands or with a mechanical or electrical apparatus, in massaging, cleansing, stimulating, manipulating, exercising, or beautifying the scalp, face, neck, arms, hands, bust, or upper part of the body of a person, for the purpose of beautification;" (08.28.320)

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

Hester Pumphrey,	Ends June 15, 1978
Ione Lambert, Chairman	Ends June 15, 1979
Maria Dunham	Ends June 15, 1980
Dennis Milhouse	Ends June 15, 1981

2. Representation:

Profession	=	5	(by statute)
Public	=	0	

3. Qualifications:

Board members must be adults, United States citizens and Alaska residents. Four members must have at least five years' experience as an operator, manager-operator, or owner-operator, and one member must have at least three years' experience as the owner, manager, or instructor of a licensed beauty school. All members must remain active and shall take an oath of office. (AS 08.28.030)

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

As of June 1, 1979, five complaints remain open in agency files and six are pending closure on Board approval. Sixty-seven were purged in 1978 and are pending closure due to lack of jurisdiction or age of the complaint. One of the open cases has been on-going since

1972 with continual infractions and complaints from a number of sources. Another case alleges physical injury to a member of the public (received a year after the alleged incident).

H. Professional Qualifications

All states require vocational training as a prerequisite to licensure.

II. Analysis

A. To what extent has the Board of Hairdressing and Beauty Culture Examiners operated in the public interest?

Statutory powers and duties of the Board include examining applicants and issuing licenses. The written portion of the examination is a national test, composed and graded by a national organization (the Psychological Corporation). The Board is considering inclusion of a jurisprudence portion into this examination. A six-to-seven hour practical examination is also administered to newly graduated students. Monitoring and grading is done by the Board. Applicants must achieve a score of 75% in all portions of the examination and must retest in only the area(s) failed. The examination process is designed to demonstrate competency in a profession and helps to ensure that individuals are qualified to practice.

The Board also has responsibility for regulating and licensing schools of hairdressing and beauty culture. Four such schools exist in the State, one in Fairbanks, and three in Anchorage. The Board reviews and approves school layout, its curriculum, student-teacher ratios, necessary equipment, and other matters pertaining to training of students. Inspections of schools are conducted by the Board and by the State Department of Health and Social Services. 7 AAC 22.390 outlines the criteria by which the Department of Health and Social Services deter-

mines the sanitary status of establishments. The Board routinely inspects schools in Anchorage during the period in which it holds a scheduled meeting. It has not conducted inspections in Fairbanks; however, a board member was assigned this responsibility at the May, 1979, Board meeting. It should be noted also that the Board has consistently found infractions in one particular school which has been the subject of numerous complaints from a variety of sources since 1972. Although the school has been admonished regarding its practices, no definitive action has been taken. The Board has the authority to suspend or revoke a license for good cause.

The Board may promulgate rules and regulations necessary to carry out the purposes of AS 08.28. It is now in the process of revising and updating current regulations and adding provisions concerning application procedures, qualifications, requirements for schools, and examination and grading procedures. Members of the profession have exhibited interest in the regulation making activity.

Most licenses are issued without examination to applicants who are already licensed in another jurisdiction. This practice facilitates entry into the profession as does that of issuing temporary licenses pending examination. A review of applicant files indicates that out-of-state applicants are usually licensed about 4-5 weeks from the date of application. The Board has been relying on its examiner from the Division of Occupational Licensing to verify qualifications and issue licenses. The Board has formally authorized this procedure at its May, 1979, meeting and will review and ratify licensures during a subsequent regularly scheduled meeting.

Applicants for licensure must be at least 17 years of age, of good moral character, have completed two years of high school or its equivalent, and have the required training or work experience. These items are addressed on application forms but are not verified. No school transcripts are required; although applicants are required to list three

character references, in no case has this information been checked or used for any purpose. Also included on the application are questions regarding such matters as length of residency in Alaska and future job prospects. The Board should review its applications and procedures for licensing.

Schools are required to submit quarterly reports to the Board on student or apprentice achievement and to notify the Board of enrollments and terminations. These records are maintained by the administrative agency as are all Board and licentiate files. The agency is in the process of implementing improved file and data maintenance procedures for all boards.

Barbers are excluded from the provisions of AS 08.28.

The Board has been discussing the advantages and disadvantages of continuing education requirements but has not yet formulated a position other than to agree that members of the profession should take every opportunity to upgrade their skills.

While it was stated as past policy that apprenticeships would not be allowed in towns where schools are located, the Board reversed this position at its May, 1979, meeting. It also rescinded a previous action which required the Division to release student examination scores to schools.

The Board and regulation of the beauty culture profession could be allowed to terminate on June 30, 1980, as provided by law, probably without significant adverse impact on the consuming public. Another alternative would be termination of the Board and assumption of the licensure functions by the administrative agency. Or practitioners could simply be registered by the administrative agency.

The Board could also be reestablished for another four years or less. If it is reestablished and/or regulation of this profession continues, consideration should be given to the suggestions for efficient operation noted in this review.

B. To what extent has the operation of the Board of Hairdressing and Beauty Culture Examiners been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Practices and policies which utilize standard examinations, standard endorsement procedures and the issuance of temporary permits are felt to facilitate entry of qualified applicants into the profession and to promote availability of services. Student and apprenticeship programs also function to provide career opportunities and services in the State.

The Board of Hairdressing and Beauty Culture Examiners has experienced some difficulty with respect to personnel and budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs; however, past employee turnover has impeded continuity and follow-up on Board requests. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct board revenues and expenses may be determined.

The Board has encountered the same difficulties as have all other boards and commissions with respect to investigative services provided by the administrative agency. During FY '78 two investigator positions were

vacant; as a result, one position was abolished by the Legislature. At the present time, two investigators are located in Anchorage with a Chief Investigator located in Juneau. An additional investigator position was approved in the FY '80 budget but will probably not be filled immediately due to vacancy factors incorporated into the personal service category of the budget. Procedural constraints of the administrative adjudication article of the Administrative Procedure Act (AS 44.62.330-.630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

Regulations concerning applications for licensure and examination procedures are being promulgated. A review of Board statutes indicates that changes should be considered either by the Board or by the Legislature.

The term "good moral character" should be either defined or deleted from the statutes.

AS 08.28.030 requires that all Board members also be members of the profession. Public members should be allowed on this Board, although an increase in total membership is not advocated. Members have not taken an oath of office as required.

In reference to § 090, the Board has not promulgated regulations specifically for apprentices, however, this is not mandatory. Formal procedures have been established.

The Board has requested draft legislation which would repeal § 150, admission of shop owner without examination. This statute allows a shop

owner to practice hairdressing or beauty culture without a license as long as he employs a licensed manager-operator. §§ 240, 250 and 260, all grandfather clauses, are recommended to be repealed.

C. To what extent has the Board of Hairdressing and Beauty Culture Examiners recommended statutory changes which are generally of benefit to the public interest?

1976 amendments added to the powers and duties of the Board and included general items of a "housekeeping" nature.

Board minutes from 1976 reflect the Board's recommendation for legislation for shampooists, facialists and manicurists. There is no record of any recommendations by the Board for statutory changes that would be of specific benefit to the public.

D. To what extent has the Board of Hairdressing and Beauty Culture Examiners encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The bulk of participation at Board meetings and hearings has come from the profession. Substantial professional interest is generated by promulgation of regulations, by enforcement activities, and by quality of training facilities. Very little general "public" concern with Board functions has been demonstrated. Notices of pending meetings and new or

amended regulations are published in major newspapers in the State. Positive steps could be taken by the Board and the Division to heighten public awareness, such as public service radio announcements or utilization of other media.

Public interests would be furthered by the presence of public members on the Board. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decision-making."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Hairdressing and Beauty Culture Examiners processed and resolved?

Five open complaints regarding this profession were on file with the administrative agency as of June, 1979. One of these alleged physical injury to a consumer; however, it is worth noting that the complaint was referred by another division and had been received by them a year after the alleged incident occurred. Six additional cases are pending Board approval for closure and sixty-seven were purged in 1978 due to age and/or lack of jurisdiction (also pending closure). The administrative agency has been addressing the need for investigative procedures and for timely disposition of complaints.

---

[1]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

One complaint against the Board is on file but Board records indicate this issue has been resolved.

F. To what extent does the Board of Hairdressing and Beauty Culture Examiners present qualified applicants to serve the public?

Individuals wishing to practice must submit fees and application to the administrative agency with relevant information regarding qualifications. 12 AAC 24.020 provides that examinations for licensure be given on a quarterly basis. Applicants who are statutorily qualified and who demonstrate the required level of knowledge and proficiency are issued a license.

Current Board practices which allow for licensure by endorsement and the issuance of temporary work permits are conducive to entry into the profession by qualified persons.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Hairdressing and Beauty Culture Examiners in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (also responsible to four other regulated professions), who is hired through the State Personnel System and is subject to affirmative action requirements.

Licenses in this profession are issued on the basis of specific statutory criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, budgetary, or other changes necessary to enable the Board of Hairdressing and Beauty Culture Examiners to better serve the interests of the public?

Conclusions Proposed by O.L.

Public members should be included on the Board. Statutory amendments should be introduced which would repeal §§ 150, 240, 250 and 260. through attrician add 1 public member.

The Board should explore methods of informing the general public of its existence and functions. It also should assume a more active roll in regulation and inspection of schools. The administrative agency will continue to address the need for assessment and follow through on complaints as well as record keeping procedures.

The Board should review and revise its application forms and procedures.

Board and administrative expenses outweigh revenues collected through regulation of this profession. Fees collected are not adequate to cover transportation and per diem for meetings and examinations, and Division of Occupational Licensing administrative overhead such as staff salaries, examination expenses, and investigative services.

Chapter 28. Cosmetologists and Hairdressers.

Article
1. Board of Hairdressing and Beauty Culture Examiners (§§ 08.28.010-08.28.090)
2. Licenses (§§ 08.28.100-08.28.260)
3. Miscellaneous Provisions (§§ 08.28.270-08.28.290)
4. General Provisions (§§ 08.28.300-08.28.320)

Article 1. Board of Hairdressing and Beauty Culture Examiners.

10. Creation and membership of Board of Hairdressing and Beauty Culture Examiners
20. Term of office and removal
30. Qualifications of board members
40. Powers and duties of the board
50. Meetings of the board
60 -70. [Repealed]
80. Standards for regulations
90. Special regulations

Sec. 08.28.010. Creation and membership of Board of Hairdressing and Beauty Culture Examiners. There is created a Board of Hairdressing and Beauty Culture Examiners, referred to in this chapter as the board. The board consists of five members appointed by the governor. (§ 3(1) ch 52 SLA 1957)

Sec. 08.28.020. Term of office and removal. Members serve a term of three years and at the pleasure of the governor. (§ 3(1) ch 52 SLA 1957)

Sec. 08.28.030. Qualifications of board members. (a) To qualify for membership on the board, a member must be an adult, a citizen of the United States, and a resident of the state.

(b) The governor shall appoint persons so that four members have at least five years' experience as an operator, manager-operator, or owner-operator, and one member has at least three years' experience as the owner, manager, or instructor of a beauty school licensed under this chapter. To remain on the board, a member must remain active in an activity that would qualify him for appointment under this subsection.

(c) Each member shall take the oath provided by law for public officers. (§ 3(1) ch 52 SLA 1957; am § 1 ch 101 SLA 1963)

Sec. 08.28.040. Powers and duties of the board. The board shall exercise general control over the vocations of hairdressing and beauty culture within the state. The board

duties

(1) shall examine applicants and issue licenses;

(2) shall issue licenses for schools of hairdressing or beauty culture;

(3) may suspend or revoke a license;

(4) may promulgate rules and regulations relating to hairdressing or beauty culture, and hairdressing or beauty culture schools, necessary to effectuate the purposes of this chapter;

(5) except as provided in § 280 of this chapter, may inspect schools and shops in order to enforce the provisions of this chapter;

(6) may, on its own motion, and shall, upon receipt of a written complaint, investigate the practices of a person, shop, or school licensed under this chapter. (§ 3(2) ch 52 SLA 1957; am § 1 ch 104 SLA 1976)

Sec. 08.28.050. Meetings of the board. The board shall meet at least once each year for the conduct of its business. The annual meeting shall be held at the place designated by the majority of the board members.

The board shall, at its annual meeting, elect a president, vice-president and secretary-treasurer from its members. Board members serve without pay. However, each member is entitled to transportation and per diem allowances authorized by law. (§ 3(3) ch 52 SLA 1957)

Sec. 08.28.060. Duties of secretary-treasurer. Repealed by § 3 ch 59 SLA 1966.

Sec. 08.28.070. Salary of secretary-treasurer. Repealed by § 3 ch 59 SLA 1966.

Sec. 08.28.080. Standards for regulations. The board shall adhere as closely as possible to the rules, regulations, and standards prescribed and recommended by the "Allied Cosmetology Council of State Board, Schools, and Shops." (§ 13 ch 52 SLA 1957)

Sec. 08.28.090. Special regulations. The board may prescribe special rules and regulations for apprentices whose job training is supervised by the Department of Education under a vocational rehabilitation program. However, these apprentices, to become licensed, shall pass the standard licensing examination given by the board. (§ 14 ch 52 SLA 1957)

Article 2. Licenses

Section
100. License required
110. Qualifications of applicants
120. Examination and other requirements
130. Temporary license
140. Out-of-state licenses
150. Admission of shop owner without examination
160. [Repealed]
170. Fees
180. School license
190. Display of license
200 - 210. [Repealed]
220. Lapsed license
230. Grounds for revocation or suspension of license
240. Application of license provisions to existing operators
250. Application of license provisions to beauty schools
260. Credit to students for prior study

Sec. 08.28.100. License required. No person may engage in the practice of hairdressing or beauty culture or organize, open, or conduct a school of hairdressing and beauty culture without a license. (§ 2 ch 52 SLA 1957)

Sec. 08.28.110. Qualifications of applicants. An applicant for a license as an operator, manager-operator, demonstrator or consultant, owner-operator, or instructor-operator shall

(1) be at least 17 years of age;

(2) be of good moral character;

(3) have completed two years of high school or its equivalent;

(4) have training at least 2,000 hours, extending over a school term of not less than 50 weeks in a school of hairdressing or beauty culture approved by the board, or service as an apprentice under a licensed operator in a shop approved by the board or completed training and working experience as a hairdresser in another state or country which the board finds to meet the minimum requirements of this state. (§ 4(1) ch 52 SLA 1957; am § 2 ch 112 SLA 1959; am § 2 ch 104 SLA 1976)

Sec. 08.28.120. Examination and other requirements. An applicant shall pass an examination given by the board. The examination shall cover subjects designated by the board. The board shall fix the time and place for examination and shall give at least one examination each year. The board may delegate the power of examination to a committee of the board or a board member. The board may prescribe additional requirements for a license. (§ 4(2) ch 52 SLA 1957)

Sec. 08.28.130. Temporary license. The board may issue a temporary license or working permit to a graduate of an approved school of hairdressing or beauty culture or to an apprentice who has received on-the-job training which complies with the rules and regulations of the board. A temporary license or working permit is valid until the results of the examination given to the student or apprentice are announced. (§ 4(3) ch 52 SLA 1957)

Sec. 08.28.140. Out-of-state licenses. A person holding a current valid license from a board of cosmetology and hairdressing in another state or country is entitled to a license under this chapter without examination if he applies, accompanying his application with

(1) proof of a foreign license;

(2) proof that he has completed at least 2,000 hours of training in a hairdressing and beauty culture school or service as an apprentice under a licensed hairdresser in a shop approved by the board or completed training and working experience as a hairdresser which the board finds to meet the minimum requirements of the state;

(3) payment of an investigation fee. (§ 4(4) ch 52 SLA 1957; am § 3 ch 112 SLA 1959; am § 2 ch 101 SLA 1963; am § 1 ch 2 SLA 1965; am § 1 ch 46 SLA 1968; am § 3 ch 104 SLA 1976)

Sec. 08.28.150. Admission of shop owner without examination. A shop owner may be licensed without examination but, unless licensed as an operator, he shall not engage in the practice of hairdressing or beauty culture without employing a licensed manager-operator. (§ 4(4) ch 52 SLA 1957; am § 3 ch 112 SLA 1959)

Sec. 08.28.160. Examination fee. Repealed by § 3 ch 46 SLA 1968.

Sec. 08.28.170. Fees. The following fees shall be imposed under this chapter when applicable

(1) schools:

registration and initial license fee.....	$500
biennial renewal.....	200

(2) school owner:

registration and initial license fee.....	40
biennial renewal.....	30

(3) instructor-operator:

registration and initial license fee.....	40
biennial renewal.....	30

(4) owner-operator:

registration and initial license fee.....	25
biennial renewal.....	20

(5) owner only, beauty shop:

registration and initial license fee.....	25
biennial renewal.....	20

(6) manager-operator:

registration and initial license fee.....	25
biennial renewal.....	20

(7) demonstrator or consultant:

registration and initial license fee.....	40
biennial renewal.....	30

(8) operator:

registration and initial license fee.....	15
biennial renewal.....	10

(9) apprentice or student:

registration and one-year permit fee.....	5
annual renewal.....	3

(10) manicurist:

registration and initial license fee.....	15
biennial renewal.....	10

(11) examination fee.....	15
(12) investigation fee.....	25

(§ 4(5) cn 52 SLA 1957; am § 4 ch 112 SLA 1959; am § 2 ch 46 SLA 1968; am §§ 4, 5 ch 104 SLA 1976)

Sec. 08.28.180. School license. The board shall prescribe rules and regulations for the licensing of schools of hairdressing and beauty culture. The rules and regulations shall include the financial respon-

sibility of the owner, details of the curriculum, minimum hours of instruction, and physical condition of the school premises and facilities. (§ 5 ch 52 SLA 1957)

Sec. 08.28.190. Display of license. Every licensee shall display his license in a conspicuous place in his place of business or in his working booth. Each shop owner or manager is responsible for the display of licenses held by employees in their shops. (§ 6(1) ch 52 SLA 1957)

Sec. 08.28.200. License year. Repealed by § 3 ch 59 SLA 1966.

Sec. 08.28.210. Duplicate licenses. Repealed by § 3 ch 46 SLA 1968; § 7 ch 94 SLA 1968.

Sec. 08.28.220. Lapsed license. A lapsed license may be reinstated, if the license has not been lapsed for a period of more than five years, and all renewal and delinquent fees for the period during which the license has been lapsed are paid. (§ 6(4) ch 52 SLA 1957)

Sec. 08.28.230. Grounds for revocation or suspension of license. The board may suspend or revoke a license for failure to comply with this chapter, or a rule, regulation, or order of the board. (§ 8 ch 52 SLA 1957)

Sec. 08.28.240. Application of license provisions to existing operators. A person holding a valid license as an operator issued before March 16, 1957, is not required to obtain a new license, but shall nevertheless comply with all other provisions of this chapter. (§ 12 ch 52 SLA 1957)

Sec. 08.28.250. Application of license provisions to beauty schools. Hairdressing and beauty culture schools shall comply with the licensing provisions of this chapter and with rules and regulations issued under it. Upon application and payment of the fee by a beauty school which has been in operation and teaching a course of not less than 2,000 hours for one year before January 1, 1957, the board shall issue a license for its operation. (§ 12 ch 52 SLA 1957)

Sec. 08.28.260. Credit to students for prior study. A student of a hairdressing and beauty culture school shall receive credit for hours of instruction completed before March 16, 1957, if the school substantially met the minimum standards for curricula, the qualification of instructors, and other rules and regulations established by the board under this chapter. If the school met the prescribed minimum standards for a period of six months or more preceding March 16, 1957, all students who have satisfactorily completed the course of instruction shall receive credit for the entire period of instruction. (§ 12 ch 52 SLA 1957)

Article 3. Miscellaneous Provisions.

Section
270. Record of achievement
275. Advertising
280. Control of health and sanitary conditions
290. Applicability of Administrative Procedure Act

Sec. 08.28.270. Record of achievement. Each licensee who supervises a student or apprentice shall submit quarterly to the board a record of achievement of the student or apprentice. (§ 3 ch 52 SLA 1957)

Sec. 08.28.275. Advertising. No person, shop, or school engaged in the practice of hairdressing or beauty culture may knowingly use false or deceptive statements in advertising its services. A hairdressing or beauty culture school representing itself to be approved or accredited shall indicate the organization or agency issuing the approval or accreditation. (§ 6 ch 104 SLA 1976)

Sec. 08.28.280. Control of health and sanitary conditions. Control over health and sanitary conditions in shops and schools licensed under this chapter is in the Department of Health and Welfare. (§ 7 ch 52 SLA 1957)

Sec. 08.28.290. Applicability of Administrative Procedure Act. Procedures and rules and regulations adopted under this chapter shall comply with the Administrative Procedure Act (AS 44.62). (§ 10 ch 52 SLA 1957; am § 5 ch 112 SLA 1959)

Article 4. General Provisions.

Section
300. Barbers excluded
310. Penalties
320. Definitions

Sec. 08.28.300. Barbers excluded. This chapter does not apply to barbers exclusively engaged in the occupation of barbering. (§ 11 ch 52 SLA 1957)

Sec. 08.28.310. Penalties. A person who engages in the practice of hairdressing or beauty culture without obtaining a license, or any person who organizes, opens or conducts a school of hairdressing or beauty culture, without obtaining a license, is guilty of a misdemeanor and upon conviction is punishable by imprisonment for a period of not more than 90 days, or by a fine of not more than $300, or by both. (§ 9 ch 52 SLA 1957)

Sec. 08.28.320. Definitions. As used in this chapter, unless the context otherwise requires,

(1) "apprentice" is a person at least 17 years of age who has completed two years of high school or equivalent education, who receives on-the-job training on licensed premises and who does not receive a wage or commission, and for whose work no charge is made until the apprentice has received at least 350 hours of training;

(2) "demonstrator" or "consultant" is a person who practices hairdressing and beauty culture upon a person acting as a subject or model when the demonstration is performed before students, operators, manager-operators, instructors or individuals, shop owners, school owners, or any other public gathering;

(3) "instructor-operator" is a person who gives instruction in the practice of hairdressing or beauty culture in a school, who has passed the qualifications of an owner-operator or manager-operator, and who has passed an examination and holds an instructor-operator license;

(4) "manager-operator" is a person of legal age who operates or manages a hairdressing or beauty culture shop or school;

(5) "manicurist" is a person who practices beauty culture by treating the hands and nails;

(6) "operator" is a person who engages in any practice defined in (10) of this section;

(7) "owner" is a person owning a hairdressing or beauty culture shop;

(8) "owner-operator" is a person who owns a hairdressing or beauty culture shop or school who is qualified under this chapter to practice the art of hairdressing and beauty culture or who is a licensed cosmetologist;

(9) "person" includes a corporation, copartnership, or unincorporated association;

(10) "practice of hairdressing and beauty culture" is engaging for compensation or other reward, in any of the following practices:

(A) arranging, dressing, curling, waving, cleansing, singeing, bleaching, coloring, or similar work on a wig or hair piece of artificial or human hair, or upon the hair of a living person by any means;

(B) trimming hair, as a part of hairdressing;

(C) utilizing cosmetic preparations, antiseptics, tonics, lotions, or creams, with the hands or with a mechanical or electrical apparatus, in massaging, cleansing, stimulating, manipulating,

exercising, or beautifying the scalp, face, neck, arms, hands, bust, or upper part of the body of a person, for the purpose of beautification;

(11) "school of hairdressing" or "school of beauty culture" is a place where a person operates and maintains a class to teach hairdressing or beauty culture;

(12) "shop" is a building or structure, or part of a building or structure, other than a school, where the practice of hairdressing or beauty culture is conducted;

(13) "student" is a person at least 16 years of age who has completed two years of high school or equivalent education, attends a licensed beauty school and does not receive a wage or comission, and for whose work no charge is made until the student has received at least 350 hours of training;

(14) "board" means the Board of Hairdressing and Beauty Culture Examiners;

(15) "department" means the Department of Commerce and Economic Development. (§ 1 ch 52 SLA 1957; am § 1 ch 112 SLA 1959; am § 1 ch 17 SLA 1966; am §§ 60, 61 ch 127 SLA 1974; am §§ 7, 8 ch 104 SLA 1976)

CHAPTER 24. BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS

Section

10. Submission of application
20. Time of examination
30. Additional requirements for licenses
40. Requirements for licenses without examination
50. Apprenticeships
60. Duties of instructor-operator and student instructor
70. Location of shops in private residence
80. Prohibition against employment of unlicensed operators
90. Notification to board of sale, lease or transfer
100. Approval of school of hairdressing and beauty culture
110. Plan and equipment requirements of schools
120. Sanitary rules and regulations
130. Curriculum requirements of school of hairdressing and beauty culture
140. Inspection of schools

12 AAC 24.010. SUBMISSION OF APPLICATION. (a) All applications shall be made under oath and all documentary evidence in support of the application, such as diplomas and foreign license, shall be verified or certified.

(b) The required fee must be submitted with the application.

(c) Applicants shall apply in writing to the secretary of the Board of Hairdressing and Beauty Culture Examiners.

(d) The board reserves the right to require additional proof of qualifications. (In effect before 7/28/59; am 2/64, Reg. 14; am 5/27/66, Reg. 21)

Authority: AS 08.28.120

12 AAC 24.020. TIME OF EXAMINATION. (a) Examination of applicants for licenses shall be given quarterly.

(b) The board shall give public notice of the date, place and time at least 30 days prior to examination.

(c) Additional examinations may be held at the discretion of the board if there are five or more applicants. (In effect before 7/28/59; am 2/64, Reg. 14; am 5/27/66, Reg. 21)

Authority: AS 08.28.120

12 AAC 24.030. ADDITIONAL REQUIREMENTS FOR LICENSES. (a) No person may be licensed as a manager-operator unless

(1) he is a licensed cosmetologist; and

(2) he has had one year practical experience as a licensed cosmetologist immediately prior to application.

(b) No person may be licensed as an instructor-operator unless

(1) he has an Alaska cosmetology license;

(2) he has had one year's practical experience; and

(3) he has engaged in the active practice of hairdressing and beauty culture for at least five years, or has completed 600 hours of student instructor training.

(c) Except that a person may be licenesed as an instructor-operator by reciprocity if he holds a current instructor-operator license from a state whose requirements were substantially equal to those provided in AS 08.28.140 at the time the license was issued. (In effect before 7/28/59; am 2/64, Reg. 41; am 5/27/66, Reg. 21)

Authority: AS 08.28.040
AS 08.28.110
AS 08.28.180
AS 08.28.120

12 AAC 24.040. REQUIREMENTS FOR LICENSES WITHOUT EXAMINATION. (a) An applicant who has a current license from a board of cosmetology in another state with less than 2,000 hours of training in an approved school of beauty culture shall be allowed credit for practical shop experience. He may be licensed without examination as follows:

(1) the training and experience must have been immediately prior to date of application and

(A) he has 1,500 hours of training and one year's experience in a licensed beauty shop; or

(B) he has 1,000 hours of training and two years' experience in a licensed beauty shop.

(b) Proof of practical experience must accompany the application for license or be furnished at the request of the board.

(c) Special consideration may be given to an applicant who can furnish proof of training in an advanced beauty culture school. (In effect before 7/28/59; am 2/64, Reg. 14; am 5/27/66, Reg. 21)

Authority: AS 08.28.130
AS 08.28.140

12 AAC 24.050. APPRENTICESHIPS. Any hairdressing or beauty culture shop may train an apprentice in the art of hairdressing or beauty culture subject to the following conditions:

(1) All apprentices shall register with the secretary of the board;

(2) A shop may have one apprentice for each five operators or fraction thereof except that an apprentice who is training under the state office of Vocational Rehabilitation may train in any shop without regard to the quota imposed by this section;

(3) Apprentices shall be instructed in both theory and practical work. Theory shall be taught from a textbook or textbooks approved by the board;

(4) An apprentice shall complete 2,000 hours of instruction over a period not exceeding two years with not more than eight hours' instruction to be given in any single day;

(5) Upon completion of the prescribed course, the apprentice shall be eligible to take an examination given by the board. If the apprentice fails to pass the examination, he shall be eligible to take another examination;

(6) An apprentice shall complete his apprenticeship in the shop in which he was registered, except that the board may authorize an apprentice's transfer to another shop where good cause is shown;

(7) When an apprentice has interrupted his apprenticeship for a continuous period of one year, no credit will be allowed for apprenticeship instruction received prior to the interruption. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.090
AS 08.28.120

12 AAC 24.060. DUTIES OF INSTRUCTOR-OPERATOR AND STUDENT INSTRUCTOR. (a) No instructor-operator may (in connection with his duties as an instructor at a licensed school) practice hairdressing and beauty culture upon members of the public, except when the work pertains directly to the instruction of students.

(b) A student-instructor in cosmetology shall be registered with the board upon enrollment in a registered school.

(c) A student-instructor shall not be permitted to instruct without a licensed instructor on the premises. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.070. LOCATION OF SHOPS IN PRIVATE RESIDENCE. (a) No shop may be opened and maintained in a private residence unless the shop is located in a separate room apart from the living quarters.

(b) The shop shall be properly equipped and shall be subject to inspection by the board and by the Alaska Department of Health and Welfare. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.080. PROHIBITION AGAINST EMPLOYMENT OF UNLICENSED OPERATORS. No manager or any other person in a position of authority shall employ an unlicensed operator. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.100

12 AAC 24.090. NOTIFICATION TO BOARD OF SALE, LEASE OR TRANSFER. In the case of a sale, lease or transfer of any school or shop, the seller, lessor or transferor shall notify the board of the transaction within 30 days of the sale, lease or transfer. The notice shall contain the name and address of the buyer, lessee or transferee. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.100. APPROVAL OF SCHOOL OF HAIRDRESSING AND BEAUTY CULTURE. No school of hairdressing or beauty culture may be approved by the board unless the school employs at least two licensed instructors, and upon approval, the school must keep on duty at least one full-time, licensed instructor for each 10 students during school hours. After enrollment of the first 20 students, the school shall employ one additional instructor for every 25 students. In addition to the foregoing requirements, such school shall teach the following minimum required operations for each student during the 2,000 hours training:

(1) shampoos – 100

(2) color rinses – 50

(3) neck trims w/clippers – 50

(4) haircuts – 200

(5) manicures – 50

(6) tweezer arches – 10

(7) wax arches – 10

(8) fingerwaves (flat) – 100

(9) iron work – 150

(10) scalp treatments – 25

(11) facials (to be completed with make-up) – 25

(12) cold waves – 60

(13) heat permanents (blocking and wrapping) – 10

(14) henna packs – 5

(15) bleaches – 25

(16) hair tints - 25

(17) hairstyles – 300 (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.110. PLAN AND EQUIPMENT REQUIREMENTS OF SCHOOLS. (a) The plans for a proposed school shall be submitted to the board for approval. A representative of the board shall review the plans and inspect the premises for the purpose of determining:

(1) suitability of location

(2) suitability of school rooms including plumbing, ventilation, lighting and adequacy of floor space (basement rooms below ground level will not be approved);

(3) adequacy of layout;

(4) adequacy of equipment; and

(5) adequacy of provisions for licensed instructors.

(b) After all equipment has been installed the premises must be inspected by a representative of the board and thereafter approved by the board before a license will be issued.

(c) The minimum requirements for a school of beauty culture enrolling 25 students or less shall consist of the following items of equipment:

(1) 10 wefts;

(2) one vibrator;

(3) six curling heaters;

(4) eight block heads;

(5) one linen cabinet;

(6) four shampoo basins and trays

(7) 10 mirrors and 10 chairs;

(8) one blackboard, 4' x 4' or equivalent;

(9) eight sanitary receptacles;

(10) eight dryers;

(11) four facial chairs;

(12) four dry sterilizers (lamps or equivalent);

(13) one therapeutic lamp installed in such manner as to permit free use of operator's hands;

(14) one permanent wave machine, croquinole (two complete sets of 32 each of rods, clips and felts), cold wave (four sets each consisting of 32 rods);

(15) one tablet armchair or usable table for each student in theory class;

(16) one beauty culture textbook for each student (book of questions and answers are not considered textbooks);

(17) three types of iron (paper curl, marcel and straghtening comb).

(d) In addition to the items of equipment listed in (c) the school shall have such supplies as wave sets, shampoo creams, hair tint, cloth towels, manicuring tables with proper lighting, chairs for at least five students, available books on anatomy, physiology and hygiene, charts 24" x 24" or equivalent, on skin, bones, muscles, nerves, and circulatory systems, and other necessary items for instruction that the board may require.

(e) The proper placement of this equipment shall require at least 1,000 square feet of floor space, excluding office, cloakroom and reception room space. In the event that the student enrollment of any school increases, additional space and equipment may be required by the board. The number of students taught in a school of beauty culture at any one time shall be limited to one for every 15 square feet of space contained in the school subject to the following limitations: space occupied by offices and lavatories shall not be used in computing maximum number of students taught.

(f) The following equipment shall be issued to each student:

(1) one shampoo cape;

(2) two brushes;

(3) one pair scissors;

(4) one pair thinning shears;

(5) one razor;

(6) six combs (four fingerwaves, one rattail, and one haircutting);

(7) one electric clipper (optional);

(8) complete tools for manicuring; cuticle oil, cuticle remover, polish, emery boards, nipper scissors, pusher and brush; and

(9) a carrying case of sufficient size to accomodate the materials used by the student. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180
AS 08.28.250

12 AAC 24.120. SANITARY RULES AND REGULATIONS. The rules and regulations of the Alaska Divison of Public Health, as set forth in Title 7, Alaska Administrative Code, Sections 1250 and 1257, are hereby adopted by reference and incorporated herein as a part of these rules and regulations. All licensees shall comply with such regulations. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.280

12 AAC 24.130. CURRICULUM REQUIREMENTS OF SCHOOL OF HAIRDRESSING AND BEAUTY CULTURE. (a) The school shall submit its proposed curriculum to the board, with the application for license. The curriculum must be approved by the board before the school is licensed. The curriculum shall provide for the use of a standard textbook approved by the board. The curriculum must include instructions on the statutes and regulations governing hairdressing and beauty culture in the State of Alaska.

(b) The curriculum shall provide for a course of at least 2,000 hours of instruction, with no more

than eight hours of instructions in any single day. The school shall, upon completion of the course by a student, issue a diploma and an academic achievement record. A copy of the academic record shall be transmitted to the board.

(c) All students shall register with the secretary of the board. It shall be the duty of the owner of each school to transmit in writing the name, age, address and the date of commencement of instructions of each student enrolled within 30 days after the student's enrollment. It shall also be the duty of the owner of each school to advise the secretary of the board, in writing, of the date of termination of instructions within 30 days after termination.

(d) There shall be a minimum requirement of 250 hours of theory study during the 2,000 hours.

(e) There shall be a minimum requirement of 350 hours of practice training.

(f) Schools must keep daily records of student attendance of all courses, and these records shall be open for inspection by any member of the Board of Hairdressing and Beauty Culture Examiners.

(g) Practice training shall consist of classwork and individual training in all subjects of each practice. All practice training shall be limited to actual practice by the student either on transformation or other devices, or on other students, for the purpose of acquiring the fundamentals and technique of such subjects.

(h) A school may make a reasonable charge for these services to persons other than student, but all services shall be of a clinical nature and under direct supervision of an instructor.

(i) School authorities shall give a student who leaves the school in good standing an "affidavit" indicating the number of hours of each type of instructions received. A student who wishes to transfer to another school must present the affidavit to the school authorities before credit may be given for past instructions.

(j) A student transferring from a school in another state may transfer his credits upon presentation of a certified affidavit of records from the state cosmetology board of the other state, or upon other proof acceptable by the board.

(k) Where a student has interrupted his schooling for a continuous period of three years, no credit will be allowed for instructions received prior to the interruption. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.140. INSPECTION OF SCHOOLS. Licensees shall permit any member of the board to inspect at any time during working hours. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

E

STATE OF ALASKA
Board of Barber Examiners
July, 1979

Findings

The Board of Barber Examiners was created in 1957. Members of this profession, and the Board, are regulated under AS 08.12; control over health and sanitation of facilities is with the Department of Health and Social Services (AS 08.12.030(2) and AS 18.05.040(9)).

Alternatives to the present operation of the Board and to State regulation of the barbering profession are discussed in this review; however, we believe that the review indicates termination of the Board and licensing.

I. General Information

A. Regulated Parties

1. Barbers

B. Definitions

"Barbering includes the following practices when performed for hire or reward:

(1) shaving or trimming the beard or cutting the hair;

(2) giving facial and scalp massages or treatments with oils, creams, lotions or other preparations either by hand or mechanical appliances;

(3) singeing, shampooing, dressing or dyeing the hair or applying hair tonics." (AS 08.12.280)

C. Nature and Composition of Board

1. Board members and terms:

(No specified length of term and no restrictions regarding consecutive terms or numbers of terms.)

Don A. Noll
Manual Norat
James Russi
Elmo Kienbaum
Maurice Smith

2. Representation:

Profession = 5 (by statute)
Public = 0

3. Qualifications:

Four members shall be from separate major senatorial districts and the fifth from the district having the largest number of practicing licensed barbers. Each member shall be a practicing barber who has engaged in barbering the State for at least five years prior to his appointment.

D. Licensing Data

Currently licensed:

in-State	=	204	
out-of-State	=	40	
	Total	244	(July, 1979)

E. Fees

1.	barber license exam	$25.00
2.	teacher license exam	75.00
3.	annual relicensure	10.00
4.	annual teaching relicensure	50.00
5.	annual school/college fee	150.00
6.	temporary permit	25.00

F. Board Revenues and Expenditures

	FY '76	FY '77	FY '78	FY '79
Receipts	$4,087.00	$5,005.54	$4,410.18	$4,369.00
-Refunds	-	35.00	10.00	95.00
Total	4,087.00	4,970.54	4,400.18	$4,274.00
Expenditures				
Per Diem	1,152.50	1,714.50	1,297.75	1,227.50
Transportation	586.93	583.61	723.22	1,647.25
Phone	20.75	74.20	84.30	473.41
Printing, Adver. & Postage	558.61	425.96	228.49	272.78
Fees & Services	170.40	115.00	300.00	35.00
Rents, Leases & Other	-	-	300.00	725.65
Total	$2,489.19	$2,913.27	$2,933.76	$4,381.59
Surplus	$1,597.81	$2,057.27	$1,466.42	-
Deficit	-	-	-	$ 107.59

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

Eight of the twelve complaints filed with the administrative agency from January, 1976 through June, 1979 were complaints against the Board regarding its examination procedures. The remaining four cases consisted of complaints that individuals were practicing barbering without a license. Although these were filed in 1976 and 1977, only one has been closed. All complaints against the Board (filed in 1978) remain open.

H. Professional Qualifications

None. Most states require barber training or schooling as a prerequisite to licensure.

II. Analysis

A. To what extent has the Board of Barber Examiners operated in the public interest?

The Board is statutorily required to issue licenses and permits to qualified individuals or schools, to examine applicants for a barber teacher license, and to regulate conduct and standards of teaching facilities. The Board also has general powers which it may exercise: (1) adoption of examinations in accordance with nationally recognized standards; (2) adoption of reasonable rules and regulations relative to sanitation - ultimate control over health and sanitary conditions is expressly cited as being with the Department of Health and Social Services; (3) suspension of licenses for failure to maintain sanitary standards; (4) inspection of shops; (5) adoption of rules concerning Board operations; (6) delegation of examination, inspection and enforcement powers; and (7) other acts and things necessary to carry out the purposes of AS 08.12.

The Board of Barber Examiners has experienced several problems with its past examinations and procedures. Eight of twelve complaints filed with the administrative agency from January, 1976, through June, 1979, were complaints against the Board regarding its examination.

All applicants for licensure must take an examination. No statutory authority exists by which the Board may license through endorsement or reciprocity. In addition to the written portion of the examination, a practical portion is given consisting of four parts: haircut, shampoo, shave and massage. A passing grade of 75% must be attained on the written portion and on all parts of the practical portion. If any part of the practical is failed, the applicant must retake all four parts.

The written examination given by the Board in the past has contained a variety of types of questions (i.e., multiple choice, short essay, fill-in-the-blank). No key was utlized by the Board in grading which appears to have resulted in some inconsistencies. The test utilized in April, 1979, was provided by the National Board of Barber Examiners of America. Two out of twelve applicants passed that examination and complaints were received regarding the relevancy of some questions. The Board is currently developing a pool of test questions, with answers, from which the Division of Occupational Licensing can formulate future examinations. In this way standard procedures will be established yet each exam will be different in content.

Administration of the practical examination has also met with considerable criticism. In August of 1978 a meeting was held with the Board, representatives of the Department of Law and Division of Occupational Licensing and a representative from the Office of the Governor. The purpose of the meeting was to review allegations of impropriety on the part of the Board and to develop guidelines to assist the Board in its future operations. One Board member, who owns a barber school in the State, was advised to refrain from grading students of his facility.

The member has complied with this advice, however, he has participated in grading of other applicants. Because scores are averaged, such a procedure could work to the disadvantage of "nonstudents." A review of files of applicants who have been licensed since mid-1974 (and are still active) indicate that a significant percentage (84%) were given exactly the same passing grade (75) on all parts of the practical examination by one member of the Board. In a few of these instances the proportionate points given did not total 75 and in one case proper addition would have failed the applicant.

Past Board procedure has been to review the examinations the day after they are given. Scores on some examination papers have been changed either at the time of scoring or during the Board review process. The Board has been made aware of the potential problems this procedure could generate and has been advised to discontinue this practice. The Board has also been advised to establish standard grading criteria for its own benefit as well as that of the applicants.

The Board has adopted regulations for the conduct of the practice of barbering in accordance with reasonable standards of sanitation. However, it does not inspect facilities or ensure that the regulations are being adhered to. Standards for barber schools and colleges also have been established by regulations as have application procedures and some examination information. AS 08.12.030(2) specifically provides that the Department of Health and Social Services have "ultimate control over health and sanitary conditions for all licensees under this chapter..." At its April, 1979, meeting the Board resolved not to involve itself in inspection activities but rather to leave this to other agencies.

The Board may suspend licenses for failure to maintain sanitation standards. There is no record of such an instance having come before the Board in recent years.

Applicants for licensure must submit evidence of good moral character (certified attestation by two parties), a health certificate, and "other information required" by regulation. There is no requirement that an applicant have attended barber school or training, or that (s)he have barbering experience. The Board has proposed statutory amendments which would establish an apprentice program and which would require either 1,500 hours or two years of schooling and/or training.

Statutory exemptions from licensure are licensed cosmetologists, persons engaged in barbering within a military reservation and persons barbering in a community of less than 1,000 persons, or more than 25 miles from such a community. (In analyzing the need for regulation of this profession, one may note that the public in small isolated communities apparently does not need protection.) The Board has also requested a statutory amendment which would delete the latter exception from licensure.

Temporary permits "shall" be issued by the Board to persons entering the State or transferring from exempt status who have either a barber college diploma or a license issued by another jurisdiction. While new graduates from another state may be issued a temporary permit, none is provided for in-State graduates. The Board has, however, been issuing permits to these individuals. Permits are valid until the next examination and are nonrenewable (except that those failing the April, 1979 examination were reissued permits).

We believe that termination of the Board of Barber Examiners and cessation of State regulation of this profession would not have any significant impact on public well-being. No complaints have been received from the public or regarding any threat to public safety. Barbers do not utilize strong chemical agents. Monetary costs of services to the consumer are relatively minor. A bill was introduced during the 1979

Legislative session, SB 215, which would abolish the Board and relevant statutes (See Appendix A). This bill is now in the Senate Commerce Committee.

B. To what extent has the operation of the Board of Barber Examiners been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

The greatest impediment to efficient Board operation has been its examination procedures. As previously noted, this has been discussed with the Board and suggestions were made to correct past deficiencies. The fact that the Board can license only by examination has created problems when individuals have demanded licensure by endorsement or reciprocity.

The Board has indicated that it feels the statutory exemption for barbers in small outlying communities is inappropriate. It has also requested that barber schooling or training be made a statutory requirement for licensure.

There is no term of membership provided for board members. The restriction on Board membership for only persons who have been licensed in the State for five years should be reexamined.

The Board of Barber Examiners has experienced some difficulty with respect to personnel and budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs; however, past employee turnover has impeded continuity and follow-up on Board requests. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined.

The Board has encountered the same difficulties as have all other boards and commissions with respect to investigative services provided by the administrative agency. During FY'78 two investigator positions were vacant; as a result, one position was abolished by the Legislature. At the present time, two investigators are located in Anchorage with a Chief Investigator located in Juneau. An additional investigator position was approved in the FY '80 budget but will probably not be filled immediately due to vacancy factors incorporated into the personal service category of the budget. Procedural constraints of the administrative adjudication article of the Administrative Procedure Act (AS 44.62.330-630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

C. To what extent has the Board of Barber Examiners recommended statutory changes which are generally of benefit to the public interest?

No amendments of consequence have been made to AS 08.12 since 1960.

If regulation of the profession is determined to be of benefit to the public interest, the following amendments requested by the Board would further those interests: (1) provisions for apprenticeship programs; (2) requirements for schooling or training as licensure qualifications; and (3) deletion of exemption for persons barbering in a community having less than 1,000 persons, or more than 25 miles from such a community.

D. To what extent has the Board of Barber Examiners encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

Notices of pending meetings and new or amended regulations are published in newspapers in the State by the administrative agency. Board regulations have not been amended since 1964. Meeting minutes for the past three years indicate no interest or participation by other than persons seeking examination privileges from the Board.

Public interests would be furthered by the presence of public members on the Board. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interest of the public would be represented in decision-making."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding.

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Barber Examiners processed and resolved?

Twelve compliants were filed with the administrative agency from January, 1976, through June, 1979; eight were from applicants regarding Board examination procedures, and four involving unlicensed activity were initiated by the agency. One of these cases had been closed (in September of 1978) as of June 30, 1979.

The administrative agency has been addressing investigative procedures and the need for timely disposition of complaints.

F. To what extent does the Board of Barber examiners present qualified appicants to serve the public?

The only method the Board has of assuring qualification is the examination procedure. Applicants are not required to have schooling, training or experience and the Board is unable to accept verification of licensure in another jurisdiction for licensure without examination in Alaska. Past examination procedures, however, have not proved satisfactory as measurements of ability either. The administrative agency and the Board will continue to work toward valid examination and grading standards.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Barber Examiners in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (also responsible for

four other regulated professions) who is hired through the State Personnel System and is subject to affirmative action requirements.

Affirmative action requirements are not applicable to statutory criteria for licensure.

H. To what extent are statutory, budgetary or other changes necessary to enable the Board of Barber Examiners to better serve the interests of the public?

If the board is reestablished, the following statutory amendments are suggested: (1) deletion of the requirement that Board members come from separate senatorial districts and the five year Alaska license restriction, length of terms should be established and number of consecutive terms limited, § 010; (2) inclusion of public members on the Board while not increasing overall size, § 020; (3) requirements for schooling or training as a condition of licensure, § 070; (4) biennial rather than annual license fees, §§ 090, 100 and 110; (5) requirement of health certification as a condition of renewal; (6) provisions for issuance of temporary permits to in-State graduates pending examination, § 160; (7) endorsement of applicants licensed in another jurisdiction with similar qualifications; (8) repeal of § 180; (9) repeal of exemption for persons barbering in a community with less than 1,000 persons, or more than 25 miles from such a community, § 270; and (10) provisions for apprentice programs.

The Board should establish examination and grading standards. It should work to solicit the interest and participation of those it regulates. Temporary permits should be issued only in accordance with statutory authority until and unless an amendment is made.

Board and administrative expenses outweigh revenues collected through regulation of this profession. Fees collected are not adequate to cover transportation and per diem for meetings and examinations, and Division of Occupational Licensing overhead such as staff salaries and investigative services.

Chapter 12. Barbers

Article
1. Board of Barber Examiners (§§ 08.12.010-08.12.050)
2. Examination and Licensing (§§ 08.12.060-08.12.190)
3. Barber Schools and Colleges (§§ 08.12.200-08.12.240)
4. Unlawful Acts and Penalties (§§ 08.12.250-08.12.260)
5. General Provisions (§§ 08.12.270-08.12.280)

Article 1. Board of Barber Examiners.

Section
10. Creation and membership of board
20. Qualifications of board members
30. General powers of board
40. Meetings and examinations
50. Board expenses

Sec. 08.12.010. Creation and membership of board. There is created the Board of Barber Examiners, referred to in this chapter as the board, composed of five members appointed by the governor. Four members of the board shall be from separate major senatorial districts. The fifth member shall be appointed from the district having the largest number of practicing licensed barbers. The members serve at the pleasure of the governor. (§ 1 art II ch 68 SLA 1957; am § 1 ch 168 SLA 1960)

Sec. 08.12.020. Qualifications of board members. Each member of the board shall be a practicing barber who has engaged in barbering in the state for at least five years prior to his appointment. Engaging in the practicing of barbering within a military reservation is not qualifying experience. (§ 2 art II ch 68 SLA 1957)

Sec. 08.12.030. General powers of board. The board may

(1) adopt examinations in accordance with standards provided by any nationally recognized manual of barber science and examine applicants for licenses to engage in the practice of barbering;

(2) adopt rules and regulations for the conduct of the practice of barbering in accordance with reasonable standards of sanitation which do not derogate from the ultimate control over health and sanitary conditions for all licensees under this chapter which is in the Department of Health and Social Services;

(3) suspend licenses for failure to maintain standards of sanitation prescribed by the board;

(4) conduct inspections of barber shops to insure that standards of sanitation are being maintained, except that the board may not

conduct a second inspection of the same shop within 90 days after the first inspection;

(5) adopt rules of procedure for its own organization and conduct of its meetings, examinations, and inspections;

(6) delegate its powers of examination, inspection, and enforcement to a member of the board to be exercised in the judical district in which he resides;

(7) do such other acts and things necessary to carry out this chapter. (§ 3 art II ch 68 SLA 1957; am § 2 ch 168 SLA 1960; am § 6 ch 104 SLA 1971)

Sec. 08.12.040. Meetings and examinations. The board shall meet as often as necessary to conduct its business but shall hold at least one examination in each year in which applications for a license have been filed. (§ 4 art II ch 68 SLA 1957)

Sec. 08.12.050. Board expenses. Members of the board receive no salary, but are entitled to per diem and expenses authorized by law. (§ 5 art II ch 68 SLA 1957)

Article 2. Examination and Licensing.

Section
60. License required
70. Application
80. Examination fees
90. License fee for barbers
100. License fee for barber teachers
110. License fee for barber schools
120. Licenses
130. Display of licenses
140. [Repealed]
150. Reinstatement of lapsed license
160. Temporary permit
170. Issuance of temporary permit
180. License for certain resident barbers
190. Deposit of receipts

Sec. 08.12.060. License required. No person may engage in the practice of, or attempt to practice, barbering without a license or permit issued by the board. (§ 1 art III ch 68 SLA 1957)

Sec. 08.12.070. Application. A person wishing to practice barbering shall apply to the board by submitting

(1) evidence of his good moral character;

(2) a certificate of health from a physician; and

(3) other information required under regulations adopted by the board. (§ 2 art III ch 68 SLA 1957)

Sec. 08.12.080. Examination fees. An applicant for examination shall submit with his application an exmaination fee as follows:

(1) examination for barber license.....$25

(2) examination for barber teacher license.....$75
(§ 3 art III ch 68 SLA 1957; am § 3 ch 168 SLA 1960)

Sec. 08.12.090. License fee for barbers. The annual fee for a license to engage in barbering is $10. (§ 5 art III ch 68 SLA 1957; am § 6 ch 168 SLA 1960; § 3A art III ch 68 SLA 1957; added by § 4 ch 168 SLA 1960)

Sec. 08.12.100. License fee for barber teachers. The annual fee for a license to engage in the teaching of barbering is $50. (§ 3A art III ch 68 SLA 1957; added by § 4 ch 168 SLA 1960)

Sec. 08.12.110. License fee for barber schools. The annual fee for a license to conduct a barber school or college is $150. (§ 2 art V ch 68 SLA 1957; am § 8 ch 168 SLA 1960; § 3A art III ch 68 SLA 1957; added by § 4 ch 168 SLA 1960)

Sec. 08.12.120. Licenses. Licenses shall be issued by the board to any applicant who passes the examination and who possesses the other necessary qualifications. Each license and temporary permit shall have a photograph of the licensee attached. (§ 4 art III ch 68 SLA 1957; am § 5 ch 168 SLA 1960)

Sec. 08.12.130. Display of licenses. Every licensee or permittee shall display his license or permit in a conspicuous place in his place of business. Owners, operators, and managers of shops and schools are responsible for the display of all licenses held by their employees. (§ 4 art III ch 68 SLA 1957; am § 5 ch 168 SLA 1960)

Sec. 08.12.140. Duplicate license or permit. Repealed by § 7 ch 94 SLA 1968.

Sec. 08.12.150. Reinstatement of lapsed license. A lapsed license may be reinstated if it has not remained lapsed for more than five years. (§ 5 art III ch 68 SLA 1957; am § 6 ch 168 SLA 1960; am § 4 ch 94 SLA 1968)

Sec. 08.12.160. Temporary permit. Any person entering the state or transferring from a practice exempt under the provisions of § 270 of this chapter, and who desires to engage in barbering who has (1) a diploma from a barber college accredited by the board or (2) a bona fide license issued by another territory or state, shall be issued a temporary permit, valid until the next examination given by the board. (§ 6 art III ch 68 SLA 1957)

Sec. 08.12.170. Issuance of temporary permit. A temporary permit may be issued by any member of the board upon application under terms and conditions established by regulations of the board, and upon the receipt of an application fee of $25. The fee shall be credited to the temporary permittee, who shall be permitted to take an examination for a regular license without any additional fee. Upon taking the examination, the holder shall surrender the temporary permit to the board or the committee conducting the examination. (§ 7 art III ch 68 SLA 1957)

Sec. 08.12.180. License for certain resident barbers. The board shall issue a license without examination to a person who was engaged in the practice of barbering in the state, before March 18, 1957. Application for a license shall be accompanied by payment of a fee of $25, an affidavit that the applicant qualifies for a license under this section, and a certificate of health from a physician that the applicant has no contagious or infectious disease. (§ 8 art III ch 68 SLA 1957)

Sec. 08.12.190. Deposit of receipts. All money received by the board shall be paid into the general fund of the state. (§ 9 art III ch 68 SLA 1957)

Article 3. Barber Schools and Colleges

Section
200. Regulation by board
210. License required
220. Application
230. Examination
240. School license

Sec. 08.12.200. Regulation by board. The board shall provide for the conduct and supervision of barber schools and colleges in the state. The board shall adopt regulations establishing standards of sanitation and skill for barber schools and colleges and the teachers and instructors. (§ 1 art V ch 68 SLA 1957; am § 8 ch 168 SLA 1960)

Sec. 08.12.210. License required. No person may operate a barber school or college, or teach in a barber school or college, without a barber teacher license issued by the board. (§ 2 art V ch 68 SLA 1957; am § 8 ch 168 SLA 1960)

Sec. 08.12.220. Application. A person wishing to operate a barber school or college or teach in a barber school or college shall apply for examination and licensing to the board and submit

(1) evidence of his good moral character satisfactory to the board;

(2) a certificate of health from a physician;

(3) a diploma from a nationally accredited barber school or college offering a course in barber science evidencing the applicant's qualifications as a barber teacher;

(4) such other information as may be required by regulations adopted by the board. (§ 3 art V ch 68 SLA 1957; am § 8 ch 168 SLA 1960)

Sec. 08.12.230. Examination. Each applicant for a barber teacher license shall demonstrate to the board by passing an examination in theory and practice that he has the ability to instruct barber students in subjects necessary to qualify them as competent barbers. (§ 4 art V ch 68 SLA 1957; am § 8 ch 168 SLA 1960)

Sec. 08.12.240. School license. No person may operate a barber school or college without a license issued by the board. The board shall issue a license if it finds that the school or college is properly staffed with licensed barbers and the premises and equipment are sufficient, sanitary, and proper. (§ 5 art V ch 68 SLA 1957; am § 8 ch 168 SLA 1960)

Article 4. Unlawful Acts and Penalties.

Section
250. Failure to possess license
260. Suspension of license

Sec. 08.12.250. Failure to possess license. A person who practices, or attempts to practice barbering or operates a barber school or college or teaches in a barber school or college without a license is guilty of a misdemeanor, and upon conviction is punishable by a fine of not more than $500, or by imprisonment for a period of not more than 30 days, or by both. (§ 1 art IV ch 68 SLA 1957; am § 7 ch 168 SLA 1960)

Sec. 08.12.260. Suspension of license. The board may suspend the license or permit of a person who violates any provision of this chapter. The board shall suspend the license of a person who, by his acts, gives evidence that he is not of good moral character, or who uses narcotics or overindulges in the use of alcoholic beverages while practicing his profession, until it is satisfied that he will conduct his profession in a proper manner. (§ 2 art IV ch 68 SLA 1957)

Article 5. General Provisions.

Section
270. Application of chapter
280. Barbering defined

Sec. 08.12.270. Application of chapter. This chapter applies to a person engaged in barbering in a community in the state having a population of more than 1,000 persons, or within 25 miles of such a community. Persons engaged in barbering entirely within a military reservation and licensed cosmetologists are excepted from this chapter. (§ 2 art I ch 68 SLA 1957)

Sec. 08.12.280. Barbering defined. Barbering includes the following practices when performed for hire or reward:

(1) shaving or trimming the beard or cutting the hair;

(2) giving facial and scalp massages or treatments with oils, creams, lotions or other preparations either by hand or mechanical appliances;

(3) singeing, shampooing, dressing or dyeing the hair or applying hair tonics. (§ 1 art I ch 68 SLA 1957)

40. Applicants failing to pass
50. Disqualification during examination
60. Form of examination, required equipment, grading

12 AAC 08.010. FILING OF APPLICATION. The application for examination must be on file 10 days before the examination date. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030

12 AAC 08.020. LOCATION AND DATE. The location and date of the examination shall be published by the Board of Examiners at least 30 days in advance of the date of examination. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030

12 AAC 08.030. FORM OF APPLICATION. The application shall be on a form provided by the board and shall be mailed to the secretary of the board accompanied by a $25 examination fee; and two photographs signed on the front. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030
AS 08.12.070
AS 08.12.080

12 AAC 08.040. APPLICANTS FAILING TO PASS. Applicants failing to pass an examination or failing to appear for examination may take another examination by filing the required $25. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030

12 AAC 08.050. DISQUALIFICATION DURING EXAMINATION. Any attempt by a school owner, manager, instructor, or any person to communicate with or help an applicant in any way while taking the examination, or any attempt by an applicant to secure information from another applicant will disqualify the applicant from completing the examination. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030
AS 08.12.220

12 AAC 08.060. FORM OF EXAMINATION, REQUIRED EQUIPMENT, GRADING. (a) Written examination. The applicant must obtain a grade of at least 75 percent on sanitation, Barber Science, sterilization, and common contagious and infectious diseases of the face, skin, and scalp.

(b) Practical examination. The applicant must obtain a grade of at least 75 percent on each of the following subjects: haircut, shave, massage, shampoo, condition of tools.

(c) Authorized textbooks. The following are the authorized textbooks to be used by applicants: *Standard Textbook of Barbering*, published by Associated Master Barbers of America, Chicago, Illinois, and *Textbook of Practical and Scientific Barbering*, published by Journeymen Barbers, Educational Department, Indianapolis, Indiana.

(d) Equipment. Each applicant must furnish his own smock, tools, and model.

(e) Standards for grading examinations. In grading each applicant, the examiners will consider the following: care and neatness of supplies and equipment; appearance and posture of applicant; time consumed in completion of each operation. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030

280. Practical training room
290. Curriculum – hours of classes
300. Prerequisites of approved barber schools
310. Requirements for license

12 AAC 08.240. CLASSROOMS AND EQUIPMENT. All schools must have a classroom for scientific study, and the classroom shall be separate from the room used for practical training. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.200

12 AAC 08.250. BARBERING PROHIBITED IN SCHOOLS AND COLLEGES. No barber shall practice the science of barbering as defined

in the law in any barber school or college. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.200

12 AAC 08.260. REQUIREMENTS FOR APPLICATION. Any applicant for a license to operate a barber school in the State of Alaska must possess the necessary requirements as set forth in the law. (In effect before 7/28/69; am 2/64, Reg. 14)

Authority: AS 08.12.200

12 AAC 08.270. EQUIPMENT REQUIREMENTS. The classroom shall be equipped with sufficient seating capacity for all students attending the classroom and shall have the following equipment:

(1) One lavatory with hot and cold running water for every two barber chairs to be approved for scientific barbering practice classes;

(2) One blackboard not less than six feet by three and one-half feet in size;

(3) One chart of the skin and hair;

(4) One chart of the muscles of the face, head and neck;

(5) One chart of the nerves of the face, head and neck;

(6) One chart of the bones of head and face;

(7) One chart of the blood supplies to the face, head and neck;

(8) One standard dictionary;

(9) One medical dictionary;

(10) One microscope for the study of bacteria. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.200

12 AAC 08.280. PRACTICAL TRAINING ROOM. The floor of the practical training room shall be covered with tile or any type of first grade linoleum and shall have available the following equipment and facilities:

(1) One closed cabinet for tools and linens for each chair;

(2) One approved soiled towel container with hinged lid or door for each chair;

(3) One sterilization solution container for each chair adequate in size to accommodate all instruments to be used on each patron;

(4) One ultra-violet lamp for every 10 students or fraction thereof;

(5) One infrared generator for every 10 students or fraction thereof;

(6) One high frequency unit for every 10 students or fraction thereof;

(7) One hair drier;

(8) One time clock. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.200

12 AAC 08.290. CURRICULUM–HOURS OF CLASSES. (a) No school for the teaching of barbering shall be approved by the board unless at least one approved barber teacher is teaching therein at all times and in charge of each daily class in theoretical scientific study, scientific barbering practice, and general barbering practice at all times.

(b) Each school for the teaching of barbering shall require that a patron not be released from a chair after being served by a student until all the work performed by the student has been thoroughly inspected and approved by the barber teacher.

(c) Each school for the teaching of barbering shall furnish each student upon enrollment a copy of the rules and regulations governing sanitary conditions of barbershops and schools for the teaching of barbering of this state as registered with the secretary of state.

(d) Each school for the teaching of barbering shall have adequate ventilation and lighting equipment approved by the board.

(e) Each school for the teaching of barbering, having both men and women in its enrollment,

shall provide one toilet for men and one for women. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.200

12 AAC 08.300. PREREQUISITES OF APPROVED BARBER SCHOOLS. No school for the teaching of barbering shall enroll or admit any student thereto unless such student shall make and file, in duplicate, a duly verified application which said application shall be obtained by such student or the school from the board. One copy of such application shall be retained by the school enrolling or admitting the student and the other copy shall be filed by such school with the board. Senate Bill 232

Sec. 18.60.590. Borough and city electrical safety codes. (a) The department may by regulation adopt amendments the 1971 National Electrical Code as approved and issued by the American Standards Association.

(b) This chapter does not affect the authority of any municipality or rural electrification association to prescribe by ordinance, rule, or order standards for their respective areas of jurisdiction not less stringent than the standards prescribed by the department or those established under § 580 of this chapter. (§ 1 ch 89 SLA 1969; am § 42 ch 69 SLA 1970; am § 29 ch 53 SLA 1973)

Effect of amendments. — The 1970 amendment substituted "adopt" for "incorporate into §§ 580—660 of this chapter" in subsection (a).

The 1973 amendment substituted "1971" for "1968" in subsection (a).

Legislative committee reports. — For report on ch. 69, SLA 1970 (HB 564), see 1970 House Journal Supplement No. 2, p. 7. For report on ch. 53, SLA 1973 (CSHB 382), see 1973 House Journal, pp. 793, 885.

Sec. 18.60.600. Powers and duties of the department. (a) The department may

(1) promulgate regulations to carry out the purposes of §§ 580 —660 of this chapter;

(2) inspect the electrical wiring of any place of employment or public structure in this state.

(b) The department shall

(1) keep a record of all inspection fees collected;

(2) keep a record of all electrical inspections conducted. (§ 1 ch 89 SLA 1969)

Sec. 18.60.610. Delegation of authority. Upon application to the department, a person, corporation, electric utility firm, public utility district, rural electrification association, or municipal utility district furnishing electrical current may be authorized by the commissioner to inspect the electrical wiring for a public or commercial structure as defined in § 660 of this chapter to which it is to furnish electrical current before energizing the electrical system on, in, or about the premises. Authorization by the commissioner under this section constitutes a grant of full authority to act within the provisions of §§ 580—660 of this chapter with the same immunities and privileges accorded to the state in the performance of these duties. A person or entity whose electrical wiring installation is found, by the authorized inspector, not to meet the standards prescribed has the right to appeal to the commissioner for a new inspection. The commissioner shall, within 15 days, furnish a new inspection by a designee not associated with the person, firm or utility who did the original inspection. (§ 1 ch 89 SLA 1969)

Sec. 18.60.620. Inspection fees. A person, corporation, electric utility firm, public utility district, rural electrification association or municipal utility district authorized under § 610 of this chapter to

provide inspection services may charge a fee for these services. After notice and hearing, the department shall set a schedule of maximum fees for inspection services rendered under §§ 580—660 of this chapter. The department may review the schedule every two years after giving notice and hearing. (§ 1 ch 89 SLA 1969)

Sec. 18.60.630. Enforcement of compliance. An authorized inspector under this chapter shall give written notice to the owner of constructed premises, or the contractor of premises under construction, of each violation of applicable electrical standards discovered as a result of his inspection. If within 15 days after receipt of written notice of an electrical violation, the person notified does not rectify the condition, the inspector shall notify the electric utility firm, public utility district, rural electrification association or municipality district supplying power to the premises. Upon notice in writing from the inspector, the supplier of electrical power may discontinue services to the premises where the alleged violation exists. (§ 1 ch 89 SLA 1969)

Sec. 18.60.640. Scope of work covered. (a) Sections 580—660 of this chapter cover only new installations and alterations to existing installations.

(b) These standards are the recommended minimum standards for all new structures in the state. (§ 1 ch 89 SLA 1969)

Sec. 18.60.650. Penalty for violations. A person who installs electrical wiring not in compliance with minimum electrical standards as set out in § 580 of this chapter, and who fails to correct this wiring after having been notified in writing by an authorized inspector, upon conviction, is punishable by a fine of not more than $1,000. (§ 1 ch 89 SLA 1969)

Sec. 18.60.660. Definitions. In §§ 580—660 of this chapter

(1) "department" means the Department of Labor;

(2) "commissioner" means commissioner of the Department of Labor;

(3) "Electrical wiring" means the entire electrical system, including all conducting and shielding material, all regulatory and safety apparatus, and all devices and techniques used in the process of installation;

(4) "public structures" mean buildings such as hotels, resident housing with more than one rental unit, restaurants, taverns, lodging houses, children's homes, auditoriums, town halls, or any structure designed or used for public assembly whether publicly or privately financed. (§ 1 ch 89 SLA 1969)

STATE OF ALASKA
Board of Electrical Examiners
(August, 1979)

Findings

The Board of Electrical Examiners was created in 1960 under AS 08.40. Electrical Administrators are regulated under provisions of AS 08.40, AS 18.60, and AS 08.62, and electrical work may be inspected by the appropriate city and/or borough to ensure compliance with national standards and codes.

Alternatives to the present operation of the Board and to regulation of this profession are discussed in this review.

I. General Information

A. Regulated Parties

Electrical Administrators (Contractors)

B. Statutory Definition of Regulated Profession

"(2) 'electrical administrator' means any person engaged in the business of, or purporting to be engaged in the business of, installing or repairing, or contracting to install or repair, electrical wiring, conduits, devices, fixtures, equipment, or other electrical materials for transmitting, using or consuming electrical energy;" (AS 08.40.200)

C. Purpose of Regulation

"The purpose of this chapter [08.40] is to protect the safety of people and property in the state from the danger of improperly installed electrical wiring and equipment, by providing a procedure to assure

(1) the public that persons responsible for making electrical installations in this state qualified; ied; and

(2) a sufficient number of persons are so qualified." (AS 08.40.005)

Deficit	-	-	-	$ 18,320.51

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

H. Complaints

Thirty-two complaint files were open as of June 30, 1979, dating from January, 1978, through that time. All regarded unlicensed activity and all came from members of the industry or related professions. Review of the files indicates: six have had no action, eight appear to have been resolved, status of two is undetermined, and sixteen are pending Board approval for closure due to lack of jurisdiction, age of complaint, or resolution of the issue. Also pending Board approval for closure are an additional one-hundred and five cases which were purged from agency files in September of 1978.

II. Analysis

A. To what extent has the Board of Electrical Examiners operated in the public interest?

Statutory responsibilities of the Board include adoption of regulations establishing categories of licensure relating to examination and licensure of electrical administrators. The Board is required to hold at least one meeting each year and may hold others with prior approval of the governor. It must conduct at least two examinations each year. It may make, or have made, inspections or investigations of work performed by a licensee, and may suspend, revoke or refuse a license under specified conditions.

NO Teeth IN Revocation

Meetings of the Board are scheduled by regulation (12 AAC 32.260) four times each year in February, May, August and November. Examinations are given in conjunction with meetings; Board policy is to hold two in Anchorage, one in Fairbanks and one in Juneau. Meetings are well attended by applicants and members of the industry. The number of applicants for each examination varies but always is large. In 1978, 45 examinations were administered in February, 80 in May, 46 in August and 70 in November. Failure rates also are high: 67% in February, 85% in May, 87% in August, and 67% in November.

The Board has established five categories of licensure: inside wiring, residential wiring, outside linework, inside communications and outside communications. The examinations for the first three categories consist of three parts, for the latter two categories, two parts. Applicants must achieve at least a score of 70 on all parts; however, if any part is failed, only that part must be retaken. A national examination or something similar apparently does not exist. Examinations are therefore prepared by an electrical administrator licensed in Alaska. Each test

is prepared separately and submitted to the Division of Occupational Licensing and the Board, with answers, prior to its administration. This person also assists the Board in grading of the tests which is done as soon as the applicant turns his work in. Applicants are usually notified of their test results the same day and, according to 12 AAC 32.215, may request a review of the test with the Board the following day. (Also provided by regulations is the requirement that any subsequent change(s) in score be documented and signed by a Board member and retained by the administrative agency with the examination papers.)

Regulations effective in 1977 specify applicant qualifications for each category of licensure. Two categories (outside linework and inside wiring) require that the applicant have a Certificate of Fitness issued by the Department of Labor and that the applicant ~~have worked~~ under this certificate for an additional three years. This requirement by the Board is an attempt to establish standard licensing criteria; however, the fitness card program has only been viable for approximately two years and the Board has attempted to make appropriate allowances for those who appear to qualify for examinations. Certificates of fitness are not required in the remaining three categories because those who qualify for outside linework also qualify for outside communications, and those who qualify for inside wiring also qualify for inside communications and residential wiring.

Violation of Statute

Licensees are prohibited by statute from operating as an electrical administrator for more than one registered contractor. This prohibition, however, is not enforced. There also seems to be problems with utilization of another's license for work in lieu of obtaining one properly. Licenses are renewed biennially upon application and receipt of the renewal fee unless lapsed more than three years, in which case the Board may require reexamination. At the present time nothing else is required for renewal but the Board is discussing methods by which licensees must submit information verifying their continued competency,

such as employer certification that the individual has been active in the trade.

Statutory exemptions from licensure are provided under specified conditions for municipalities and utilities, for the manufacture or repair of electrical apparatus or equipment, for some electrical work under $5,000 in outlying communities, for use by the installer or his immediate family, for radio or television broadcasting systems, for some elevator work, and for telephone systems. All such work is subject to inspection under AS 08.40.070, as well as to the provisions of AS 18.60.

Elaine! Should Communicators be regulated

All applicants for licensure must take the appropriate examination(s). There are no endorsement or reciprocity provisions, nor any provision for temporary permits pending examination. The overwhelming majority of complaints regarding this profession are complaints from the industry about unlicensed activity. The existence of interim measures to allow apparently qualified people to work might function to reduce the amount of unlicensed electrical work allegedly being done. Interviews conducted during the course of this review indicated widespread dissatisfaction with the enforcement administration of the Department of Commerce and Economic Development, the Department of Labor, and the municipalities. All licensees stated that "80-90%" of the work done, even by licensees, is defective and dangerous. Almost all indicated that a considerable number of applicants had been approved for examination without being qualified and expressed objection that qualifications were not verified by the Board. Almost all declined to make formal complaints about substandard work. Many expressed a desire to serve on the Board but felt there were statutory and practical restrictions to their doing so, i.e., that appointments are made on a geographical basis and/or are lifetime appointments.

Dangerous electrical work is most certainly a matter of public concern. In 1977, there were 125 electrical systems fires in Alaska resulting in 10 injuries; in 1978, there were 110 electrical systems fires resulting in 6 injuries.[1] By authority of AS 18.60 (Electrical Safety) the Department of Labor has adopted the 1978 National Electrical Safety Code as the minimum electrical and safety standards of the State. Local governments may also adopt standards for themselves as long as they are not less stringent than those adopted by the Department of Labor.

Some alternate regulatory procedures exist within the State. In connection with work performed under established standards, no person may be employed to perform the work without a certificate of fitness issued by the Department of Labor under AS 18.62. This certificate of fitness is a prerequisite to approval for examination by the Board of Electrical Examiners. Centralization of electrical regulation under one State agency should be given consideration. Further suggestions are made in this report in the event the Board is reestablished.

B. To what extent has the operation of the Board of Electrical Examiners been impeded or enhanced by existing statutes, procedures or practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

---

[1] 1978 Annual Report, State of Alaska, Department of Public Safety, Division of Fire Prevention.

The Board of Electrical Examiners is given wide latitude in its operations. It is able to establish categories and standards of licensing, to make or request inspections or investigations, to formulate and administer examinations and to promulgate appropriate regulations. The Board thus has almost no restrictions on its authority other than those self imposed.

The Board of Electrical Examiners has experienced some difficulty with respect to personnel and budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs; however, past employee turnover has impeded continuity and follow-up on Board requests. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct board revenues and expenses may be determined.

The Board has encountered the same difficulties as have all other boards and commissions with respect to investigative services provided by the administrative agency. During FY '78 two investigator positions were vacant; as a result, one position was abolished by the Legislature. At the present time, two investigators are located in Anchorage with a Chief Investigator located in Juneau. An additional investigator position was approved in the FY '80 budget but will probably not be filled immediately due to vacancy factors incorporated into the personal service category of the budget. Procedural constraints of the administrative adjudication article of the Administrative Procedure Act (AS 44.62.330-630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints. The administrative agency will continue

2/07/80 is filled per Clause G.

to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

AS 08.40.010 requires that all Board members be licensed electrical admi istrators. (1) Public members should be provided for as a media of public participation in regulation procedures and decision making. (2) Terms of membership for all members should be limited.

Statute

C. To what extent has the Board of Electrical Examiners recommended statutory changes which are generally of benefit to the public interest?

Board did not comply with

The purpose of AS 08.40 was added to Board statutes in 1977. General "housekeeping" amendments were also made and the term "electrical contractor" was replaced with "electrical administrator." The stated purpose of the chapter is to "protect the safety of people and property in the state..."

D. To what extent has the Board of Electrical Examiners encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

Meetings and hearings of the Board are attended by applicants, union representatives and other interested parties. General "public" interest is negligible. Notices of pending meetings and new or amended regulations are published in major newspapers in the State.

Public interests would be furthered by the presence of public members on the Board. "In recent years a number of states have added one or more

public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decision-making."[2] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding. In August of 1977 the Board indicated that it would like to have two public members.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Electrical Examiners processed and resolved?

By memorandum of June 13, 1979 (see Appendix A), the Department of Law advised that "AS 08.01.87 and AS 08.40.175 grant Commerce and Labor concurrent discretionary authority to investigate and enforce the provisions of AS 08 40..." The Department of Labor has two electrical inspectors in the State, one in Anchorage and one in Fairbanks.

Routine correspondence regarding Board activities may be handled by the Department of Labor, the Divison of Occupational Licensing or the Board itself depending on the nature of the inquiry. Review of Board files indicates that, except in some enforcement cases, responses are generally made in an appropriate and timely manner.

F. To what extent does the Board of Electrical Examiners present qualified applicants to serve the public?

---

[2]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

The Board has delineated qualifications for each licensure category in its regulations. It does not, however, verify qualifications cited in individual applications. Interviewees generally felt the tests administered were fair and valid although quite difficult (failure rates from 67% to 87% in 1978).

The Board has provided a procedure by which individuals failing the test may review it with the Board the following day. Any changes made as a result of this review are required to be documented and retained with the examination materials. Applicants who have failed the examination may be reexamined at the next scheduled time. Applicants who appear to be qualified and who pass the appropriate examination(s) are issued a license.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Electrical Examiners in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (also responsible to three other regulated professions), who is hired through the State Personnel System and is subject to affirmative action requirements.

Licenses in this profession are issued on the basis of specific statutory criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, budgetary, or other changes necessary to enable the Board of Electrical Examiners to better serve the interests of the public?

Conclusions -

(1) Public members should be included in Board membership and terms of service should be limited. The Board has been actively recommending statutory changes (see Appendix B) and promulgating regulations. p. 32

The Board has indicated that it would prefer to have the electrical inspector from the Department of Labor more closely associated with the Board and its activities. It also feels that one such inspector for the entire State is inadequate, particularly when the position is not assigned exclusively to electrical duties.

Board and administrative expenses outweigh revenues collected through regulation of this profession. Fees collected are not adequate to cover transportation and per diem for meetings and examinations, and Division of Occupational Licensing administrative overhead such as staff salaries and examination expenses. fees

178. Injunctive relief
180. Violation of chapter

Sec. 08.40.090. License required. (a) No person may act as an electrical administrator in the state without a license issued by the board.

(b) A person licensed under this chapter may perform work only in a category for which he is licensed. (§ 3 (c) ch 158 SLA 1960; am § 6 ch 53 SLA 1977)

Sec. 08.40.100. Exclusion. Repealed by § 14 ch 53 SLA 1977.

Sec. 08.40.110. Application for license. An applicant for a license shall apply upon a form prescribed by the board. (§ 3 (d) ch 158 SLA 1960)

Sec. 08.40.120. Examination of applicant. Each applicant shall be examined to determine his knowledge of electrical installations and wiring, familiarity with the regulations contained in the National Electrical Code and the National Electrical Safety Code, as approved by the American Standards Association, other installation and safety regulations approved by the American Standards Association, and his personal skill and ability. (§ 3(d) ch 158 SLA 1960)

Sec. 08.40.130. Administrator limited to one licensed contractor. No person may qualify for or operate as an electrical administrator for more than one registered contractor. (§ 3(e) ch 158 SLA 1960; am § 1 ch 30 SLA 1969; am § 7 ch 53 SLA 1977)

Sec. 08.40.135. Renewal and reinstatement. (a) A license issued under this chapter, unless revoked or suspended, is nontransferable and may be renewed on a date set by the department, without examination, by appropriate application.

(b) A lapsed license may be reinstated by payment of all unpaid renewal fees and a penalty fee of $25 for each year the license has been lapsed unless the license has been lapsed for more than three years and the board has reason to believe that it may be necessary to require the licensee to take and pass the examination given under § 120 of this chapter. (§ 2 ch 30 SLA 1969; am § 8 ch 53 SLA 1977)

Sec. 08.40.140. Issuance and display of license. An applicant who successfully passes the examination shall recieve a certificate of license. The certificate shall be prominently displayed, while in effect, in the holder's principal place of business. (§ 3(f) ch 158 SLA 1960)

Sec. 08.40.150. Fees. (a) Each applicant shall pay an original license fee of $100.

(b) The fee for biennial renewal of a license is $100. (§ 3 (f) ch 158 SLA 1960; am § 3 ch 30 SLA 1969)

Sec. 08.40.160. Waiver of examination. Repealed by § 14 ch 53 SLA 1977.

Sec. 08.40.170. Denial, suspension and revocation of license. (a) The board may suspend, revoke or refuse to grant a license upon a finding that

(1) the application is fraudulent or misleading;

(2) the licensee has knowingly violated this chapter or a lawful rule, order or regulation of the board;

(3) the licensee is incompetent, or has engaged in fraudulent practices.

(b) Notice of a proposed denial, suspension or revocation of license shall be given in writing, stating the grounds.

(c) Proceedings for the denial, suspension or revocation of a license shall be governed by the Administrative Procedure Act (AS 44.62). (§ 4 ch 158 SLA 1960; am § 4 ch 30 SLA 1969)

Sec. 08.40.175. Cease and desist order. (a) If the commissioner of labor determines that a person is acting as an electrical administrator in violation of this chapter, he may issue a cease and desist order prohibiting further action by the person as an electrical administrator. The cease and desist order remains in effect until the person has submitted evidence acceptable to the commissioner of labor showing that the violation has been corrected.

(b) A person affected by an order issued under (a) of this section may seek equitable relief preventing the commissioner of labor from enforcing the order. (§ 1 ch 39 SLA 1972; am § 9 ch 53 SLA 1977)

Sec. 08.40.178. Injunctive relief. The commissioner of labor may seek an injunction in the superior court to enjoin a person from violating this chapter. (§ 1 ch 39 SLA 1972)

Sec. 08.40.180. Violation of chapter. A person who knowingly violates this chapter, or who knowingly violates a valid rule, regulation or order of the board, is guilty of a misdemeanor, and upon conviction is punishable by a fine of not more than $300, or by imprisonment for not more than 60 days or by both. (§ 10 ch 158 SLA 1960)

Article 3. General Provisions

Section
190. Exclusions
200. Definitions

Sec. 08.40.190. Exclusions. (a) This chapter does not apply to any utility or municipality engaged in

(1) electrical construction and maintenance of electrical wiring for the generation and distribution of electrical current where the wiring is an integral part of a system owned and operated by that utility or municipal light and power department;

(2) the installation, operation, maintenance, or repair of telephone, telegraph, signal or communication systems when the work is performed by the employees of the utility.

(b) This chapter does not apply to any person engaged in

(1) the manufacture or repair of electrical apparatus or equipment;

(2) electrical work, the cost of which does not exceed $5,000 involving residences or small commercial establishments in communities

(A) which have a population of under 500; or

(B) which are over 50 miles by air or water transportation from the business place of an electrical administrator licensed under this chapter;

(3) electrical installation on residential property which is owned by the installer or a member of his immediate family and not intended for sale at the time of making the installation;

(4) the operation, maintenance or repair of a television or radio broadcasting system and the installation of a radio broadcasting system under 500 watts input power except for A.C. power supply and wiring;

(5) the installation, maintenace and repair of elevators so long as the work is performed by an agent or employee of the elevator industry and is confined to the elevator control system, which system does not include the power supply, wiring and motor connection;

(6) the maintenance or repair of telephone systems.

(c) Work within the exclusionary provisions of this section is nevertheless subject to the inspection provisions of § 70 of this chapter and must follow the regulations regarding workmanship adopted by the board. (§ 8 ch 158 SLA 1960; am § 1 ch 79 SLA 1967; am § 10 ch 53 SLA 1977)

Sec. 08.50.200. Definitions. As used in this chapter

(1) "board" means the Board of Electrical Examiners;

(2) "electrical administrator" means any person engaged in the business of, or purporting to be engaged in the business of, installing or repairing, or contracting to install or repair, electrical wiring, conduits, devices, fixtures, equipment, or other electrical materials for transmitting, using or consuming electrical energy;

(3) "electrical wiring" means and includes wiring, fixtures, conduits, appliances, devices, equipment, overhead or underground wiring systems, or other equipment in connection with the general distribution or utilization of electrical energy;

(4) "manufacture" means fabrication or completion of a product or electrical apparatus exclusive of its completion or installation at a job site;

(5) "utility" means every corporation (whether public, cooperative or otherwise), company, individual, or association of individuals, their lessees, trustees, or receivers appointed by a court, that owns, operates, manages, or controls any plant or system for

(A) furnishing, by generation, transmission or distribution, electrical service to the public for compensation;

(B) furnishing telecommunications service to the public for compensation. (§ 3(a)(b) ch 158 SLA 1960; am §§ 12, 13 ch 53 SLA 1977)

12 AAC 32.030. EXAMINATIONS. Repealed 7/28/77.

12 AAC 32.031. SCOPE OF AN ELECTRICAL ADMINISTRATOR LICENSE IN THE OUTSIDE LINEWORK CATEGORY. (a) The holder of an electrical administrator license in the outside linework category may supervise all work defined in (b) of this section. A person holding a current valid license in outside linework on the effective date of the amendment to this section will be granted a license in outside communications without examination.

(b) Outside linework includes

(1) all work necessary to the assembling, installation, erection, operation, maintenance or repair of all electrical apparatus, devices, wires, cables, supports, insulators, conductors, ducts,

and raceways when part of distributing systems outside of buildings;

(2) all underground ducts and cables when they are part of a system of a distributing company or utility;

(3) all outdoor substations and electrical connections up to and including the setting of transformers and the connecting of the primary busses to them;

(4) all outdoor street lighting on public thoroughfares, roadways, and rights-of-way; and

(5) all linework consisting of wood, concrete or metal, or substitutes for those materials; poles or towers, including wires, cables, or other apparatus supported by them. (Eff. 7/28/77, Reg. 63; am 4/11/79, Reg. 70)

EXAMINATIONS

Section
210. Examination
215. Examination review
220. Reexamination
230. Notice of examination
240. Examination papers

12 AAC 32.210. EXAMINATION. (a) Each part of an examination must be passed with a minimum score of 70 percent.

(b) An applicant may not be examined for more than two electrical administrator license categories at any one scheduled examination. (Eff. 7/28/77, Reg. 63)

Authority: AS 08.40.045
AS 08.40.050
AS 08.40.120

12 AAC 32.215. EXAMINATION REVIEW. (a) A person receiving a failing score may review his or her examination in the presence of at least one board member if he or she makes a request to the board before the recess of the board's regularly scheduled meeting the day immediately following the examination.

(b) An examination review shall be conducted the day the request for review is made or the following day.

(c) Upon completion of an examination review with an applicant, the board member reviewing the examination will prepare a written and signed statement of any changes the board member determines should be made to the original examination score.

(d) The board will review and act upon all written statements of recommended changes before the adjournment of the board's regularly scheduled meeting immediately following the examination.

(e) The written and signed statement of recommended changes will be returned with the original and unaltered examination papers to the department following the board's meeting. (Eff. 5/25/79, Reg. 70)

Authority: AS 08.40.050
AS 08.40.120

12 AAC 32.220. REEXAMINATION. (a) An applicant failing part of the examination will be allowed to retake the parts failed if he or she notifies the department of his or her intent to retake the examination at least 30 days before the next scheduled examination.

(b) An applicant who fails to retake the parts failed within one year must retake the entire examination. (Eff. 7/28/77, Reg. 63)

Authority: AS 08.40.050

12 AAC 32.230. NOTICE OF EXAMINATION. Candidates whose applications for examination have been accepted will be notified of the time and place of examination at least two weeks before the examination. Notice of the examination will also be published in major newspapers at least 30 days before the examination. (Eff. 4/11/79, Reg. 70)

Authority: AS 08.40.050
AS 08.40.060

12 AAC 32.240. EXAMINATION PAPERS. All examination papers will be preserved for a period of at least six months after notification of grade results, during which time any candidate who has failed the examination may inspect his papers in the presence of a board member or his designee. However, no person may inspect examination papers during the 30 days immediately preceding any examination. (Eff. 4/11/79, Reg. 70)

Norman E. Staton
Assistant Attorney General

SUBJECT: AS 08.40 and AS 08.99
Enforcement Responsibilities

You have requested an opinion as to which department has the authority and responsibility for enforcing the provisions contained in AS 08.99, regarding the Board of Welding Examiners and the Board of Electrical Examiners. - 08.01.

After reviewing the pertinent provisions, it is our opinion that the Department of Commerce and Economic Development ("Commerce") and the Commissioner of Labor ("Labor") have specific statutory authority for enforcement and investigation of complaints regarding Electrical Examiners, (AS 08.40) and therefore have concurrent discretionary authority. However, while Commerce has discretionary authority for enforcement and investigation of complaints regarding the Board of Welding Examiners (AS 08.99), Labor only has the authority to act if requested to act by the Board.

Commerce and Labor have concurrent discretionary authority to investigate and enforce provisions regarding Electrical Examiners (AS 08.40).

AS 08.01.087 provides:

> Sec. 08.01.087. Powers and duties of department. (a) The department may upon its own motion, conduct investigations to determine whether any person has violated a provision of this chapter or a regulation adopted under it or a provision of a chapter in this title dealing with one of the boards listed in § 10 of this chapter or a regulation adopted by one of those boards, or to secure information useful in the administration of this chapter.
>
> (b) If it appears to the commissioner that a person has engaged in or is about to engage in an act or practice in violation of a provision of this chapter or a regulation adopted under it, or any of the laws pertaining to or regulations adopted

Electrical

> by the boards listed in § 10 of this chapter, he may, if he considers it in the public interest, and after notification to all board members by telephone or telegraph of a proposed order or action unless a majority of the members of the board object within 10 days, ...

AS 08.01.110 provides in part: "(Definitions.) In this chapter ... (2) 'department' means the Department of Commerce and Economic Development."

The powers and duties of Commerce embrace the boards listed in AS 08.01.010, which provides in part:

> (Applicability of Chapter.) This chapter applies to the ...
> (7) Board of Electrical Examiners;
> (17) Board of Welding Examiners

As a result, under the provisions of AS 08.01.087, AS 08.01.110(2) and AS 08.01.010(7) and (17), Commerce may, upon its own motion, conduct investigations and enforce the provisions of AS 08.40, Electrical Administrators and AS 08.99, Board of Welding Examiners.

AS 08.40.175, regarding Electrical Examiners, provides:

> Sec. 08.40.175. Cease and desist order. (a) If the commissioner of labor determines that a person is acting as an electrical administrator in violation of this chapter, he may issue a cease and desist order prohibiting further action by the person as an electrical administrator. The cease and desist order remains in effect until the person has submitted evidence acceptable to the commissioner of labor showing that the violation has been corrected.
>
> (b) A person affected by an order issued under (a) of this section may seek equitable relief preventing the commissioner of labor from enforcing the order.

As a result, AS 08.40.175 grants authority to Labor to determine if an electrical examiner is acting in violation of the chapter. In order for Labor to make a determination, it must have the authority to investigate. If the commissioner determines that action is warranted, he or she may issue a cease and desist order and thereby enforce the provisions of the chapter.

Therefore, AS 08.01.87 and AS 08.40.175 grant Commerce and Labor concurrent discretionary authority to investigate and enforce the provisions of AS 08.40, Electrical Administrators.

Due to the fact that Commerce and Labor have concurrent discretionary authority, it would be advisable for the departments to cooperate and coordinate their activities in the area.

Commerce has discretionary authority to investigate and enforce provisions of the Board of Welding Examiners (AS 08.99) while Labor only has authority to do so if requested by the Board.

As discussed above, AS 08.01.087 grants Commerce discretionary authority upon its own motion, to conduct investigations and enforce the provisions of AS 08.99, Board of Welding Examiners.

On the other hand, AS 08.99.080(b) requires Labor to investigate and enforce provisions of the chapter upon request by the Board of Welding Examiners. AS 08.99.080(b) provides:

> (b) The board may request technical personnel from the Department of Labor for the purpose of reviewing and analyzing reports and may request field inspection by the department for the purpose of assuring compliance with, and enforcement of the regulations, rules and orders promulgated under §§ 10-110 of this chapter.

(Emphasis added.) If requested to investigate or enforce, Labor would have concurrent authority with Commerce.

Although the Department of Commerce and Economic Development has discretionary authority while the Department of Labor has mandatory authority, we again recommend the departments work out an arrangement to handle this matter, or in the alternative, have the legislature resolve the matter.

NES:bwb

ATTACHMENT I

EXHIBIT A

BOARD OF ELECTRICAL EXAMINERS

1978 ANNUAL REPORT

EXHIBIT "A"

5 members

* Section 1.AS 08.40.010 is ammended to read:

Sec 08.40.010. Creation and membership of the board. There is hereby created a board of Electrical Examiners consisting of three members who are licensed electrical administrators and two members drawn from the public at large.

YES

Rationale: Since regulation affects the vital interests of consumers, it is incumbent upon the legislature to develop a forum upon which public views can be heard.

* Section 2.AS 08.40.030 is ammended to read:

Sec 08.40.030 Chairman of the board. The board shall elect one of its members as chairman. The chairman shall be a licensed electrical administrator.

NO

California Example p.11

Rationale: The Board rejects the philosophy that only members of our occupational group are qualified to make judgements about entrance standards, examination content, or disciplinary matters. We do feel, however, that the technical nature of our industry requires the presence of a knowledgeable, technically qualified chair person to represent the Board on a day to day basis.

Parliamentarian

* Section 3.AS 08.40.040 is ammended to read:

YES

Sec 08.40.040 Board meetings. The Board shall hold a regular quarterly (annual) meeting. The Board may hold special meetings at the call of the

Electrical

Chairman with prior approval of the Governor. Three (two) members constitute a quarom.

Rationale: The board regularly holds 4 meetings a year a, this is the minimum necessary to satisfy the public need. The quorum limitation must be increased to accomodate the public members requested in Section 1, above.

* Section 4.AS 08.40.090

Sec 08.40.090 License required (A) No person may act as an electrical admistrator in the state without a license issued by the board.

NO { 1. No person may submit a bid or offer to perform electrical work in the state without a license issued by the board.

(B) A person licensed under this chapter may perform or offer to perform electrical work only in a catagory for which he is licensed.

Rationale: A person who responds to an invitation for bids is proporting to be engaged in the business of electrical contracting unless, as an unlicensed practitioner, he acknowledges his inability to perform the work until he is licensed. Without this contingency, an offer made or contract entered into is, in effect, an agreement to commit a crime and is in violation of the public policy of the state.

Ask Blanc...

* Section 5.AS 08.40.120 is ammended to read:

Sec 08.40.120 Examination of applicant. Each applicant shall be examined to determine his knowledge of electrical installations and wiring, familiarity with the regulatiors contained in the National Electrical Code and the National Electrical Safety Code, as (approved by the American National Standards Association) adopted and ammended by title 18, Electrical

article 6 of the Alaska Health and Safety Code, other appropriate installation and safety regulations (approved by the American Standards Assoc.), and his personal skill and ability.

Rationale: The legislature of the state of Alaska enacts statutory regulations dealing with occupational health and safety. These statutes are not approved by the American Standards Association and as a consequence of the wording of this section, applicants can not be examined on their content. (Yet) knowledge of these (and other similar) requirements will directly affect the quality and safety of contractor's work.

* Section 6. AS 08.40.135 is ammended to read:

Sec 08.40.135 Renewal and Reinstatement.

(a) A license issued under this chapter, unless revoked or suspended, is non-transferrable and may be renewed biennially on a ~~date set~~ by the department without examination, upon submission of adequate proof of activity to the board and by appropriate application.

(b) A lapsed license may be reinstated by payment of all unpaid renewal fees and a penalty fee $25.00 for each year the license has been lapsed, unless the license has been lapsed for more than two (three) years (and the Board has reason to believe that it may be necessary to require) in which case the licensee will be required to take and pass the examination given under section 120 of this chapter.

(c) A licensee who fails to submit adequate proof of activity to the board for more than two consecutive years will be required to take and pass the examination given under section 120 of this chapter to renew his license.

Rationale: At present most inactive practitioners can preserve their right to practice by simply paying the renewal fee. By keeping their licenses in force, they are able to resume practice at any time even though they may have failed to retain their competence.

Reciprocity

* Section 7. AS 08.40.165 Is enacted to read:

Sec 08.40.165 Licensure by endorsement. An applicant who is a licensed electrical administrator in another state may apply for licensure without examination upon providing proof satisfactory to the board that;

(A) he is currently actively engaged in the electrical contracting industry and,

(B) The standards of entry in his state of licensure are at least equal to those of this state. How is this equality determined.

Rationale: In order to encourage the competitive process, it is necessary to provide out of state applicants with fair and reasonable access to our credentialing procedures.

* Section 8.AS 08.40.170 is ammended by enacting sub-section (a)(4) to read:

Sec 08.40.170 Denial, Suspension, and revocation of license.

A man can lose his licensee if someone 'tells' on him ---- to much like Big Brother.

(a) (4), The licensee has knowingly permitted electrical work to be accomplished in this state under the guise of his license and without his supervision.

Rationale: The accomplishment of electrical work by an unlicensed person is a crime against the state. Persons who deliberately allow other, unlicensed persons to accomplish electrical work under the fraudulent "unbrella" of licensed activity are themselves guilty of violating this statute.

* Section 9.AS 08.400.200 (5)(B) is ammended to read:

Sec 9 AS 08.40.200 (5)(B) Definitions. Furnishing (telecommunications) <u>telephone or telegraph</u> service to the public for compenstation.

Rationale: When this definition was added to the statute in 1977, the intent of both the Board and the Legislature was to exclude the activities of Public Service corporations (ie: Municipal Utilities, long lines carriers, etc.,) from the requirements of this chapter. Unfortunately, the wording

we jointly selected has resulted in considerable controversey and needs to be clarified.

* Section 10.AS 08.40.200 is ammended by enacting sub-section 6 to read:

Sec 08.40.200 (6) Definitions "repair" means the performance or accomplishment of work, of a routine recurring nature or otherwise, on an integral electrical circuit component which is or is capable of being energized, when such work involves the removal, replacement, disconnection or reconnection of that integral component.

Rationale: There has been a great deal of controversy over the last several years revolving around the legislative intent of the word "repair". Only by adding a firm definition for this word can we hope to achieve uniform comprehension and enforcement of this statute.

National Code

O/C

* Section 11.AS 18.60.580 is repealed and re-enacted to read:

Sec 18.60.580. Minimum electrical standards. The latest published editions of the National Electrical Code and the National Electrical Safety Code, both as approved by the American National Standards Institute constitute the minimum Electrical Safety standards of the state.

Rationale: It is both ridiculous and expensive for the legislature to have to review this act every two to three years to change a date so that we may once again be in tune with the rest of the U.S.A.

* Section 12.AS 18.60.590 is ammended to read:

Sec 12.AS 18.60.590 State, Borough and City electrical Codes

Sec 12. AS 18.60.590 Electrical Codes

(A) The (department) Board of Electrical Examiners may be regulation adopt ammendments to the (1971) National Electrical Code and/or the National Electrical Safety Code (as approved and issued by the American Standards Association) provided such ammendments result in standards no less stringent than those prescribed by section 580 of this chapter.

(B) This chapter does not affect the authority of any organized borough, municipality or rural electrification association to prescribe by ordinance, rule or order, standards for their respective areas of jurisdiction no less stringent than the standards prescribed by the (department) Board or those established by section 580 of this chapter.

Rationale: The Department of Labor employes electrical inspectors, not administrators. The technical expertise necessary to formulate ammendments to the National Standards more properly sites with the Board. Additionally, as this statute is now worded, no one can ammend the National Electrical Safety-Code regardless of the rationale behind such an ammendment. Please see attachment 1 to the exhibit for an example of why the Board needs this authority.

* Section 13.AS 18.60.600 is repealed and re-enacted to read:

Sec 18.60.600 Powers and duties of the Board and the Department;

(A) The Board may:

1. Promulgate regulations to carry out the purposes of section 580-610 of this chapter.
2. Inspect, or cause to be inspected, the electrical wiring of any place of employment or public structure in the state.

leave regulations w/ the Board

(B) The department shall:

1. Promulgate regulations to carry out the purposes of section 620-660 of this chapter.
2. Keep a record of all inspection fees collected.
3. Keep a record of all electrical inspections conducted.

Rationale: This revision is necessary to accomodate the other contemplated changes to this chapter.

NO its not!

* Section 14.AS 18.60.610 is ammended to read:

Sec 18.60.610 Delegation of Authority. Upon application to and approval of the Board (department), a person, corporation, electric utility firm, public utility district, Rural Electrification Association, or Municipal-Utility District furnishing electrical current may be authorized (by the commisioner) to inspect the electrical wiring for a public or commercial structure as defined in section 660 of this chapter to which it is to furnish electrical current before energizing the electrical system on, in, or about the premises. Authorization by the Board (commissioner) under this section constitutes a grant of full authority to act within the provisions of sections 580-660 of this chapter with the same immunities and privelages accorded to the state in the performance of these duties. A person or entity whose electrical wiring installation is found, by the authorized inspector, not to meet the standards prescribed, has the right to appeal to the Board (commissioner) for a new inspection. The Board (commissioner) shall, within 15 days, furnish a new inspection by a designee not associated with the person, firm, or utility who did the original inspectior

Rationale: The board has the authority (Granted by AS.08.40.070) to conduct inspections but lacks the tool to implement it. Additionally, the technical direction required by the State Electrical Inspectors must come from the Board as the department has no source of expertise other than the inspectors themselves.

* Section 15.AS 18.60.640 is ammended to read:

Sec 18.60.640 Scope of work covered;

(A) Sections 580-660 of this chapter apply to (cover only) new installations and alterations to existing installations.

18.60.580

(B) These standards are the required (recommended) minimum standards for all new structures in the state

Rationale: The wording changes are necessary to bring this section into agreement with other sections of this chapter.

* Section 16.AS 18.60.660 (4) is ammended to read:

Sec 18.60.660 Definitions in sections 580-660 of this chapter. (4) "Public Structures" means buildings such as hotels, resident housing, except homes owned by the installer and not intended for sale at the time of making the installation, (with more than one rental unit) restaurants, taverns, lodging houses, children's homes, auditoriums, town halls, or any structure designed or used for public assembly whether publicly or privately owned or financed.

Rationale: This change would allow for inspection of residential occupancies built by contractors and any other dwelling unit intended for rental occupancy regardless of the number of units involved. This authority is required to allow us to comply with the intent of AS 08.40 which again, is to protect the public.

OK to add.

* Section 17. AS 18.60.660 is ammended by enacting sub-section 5 to read:

Sec 18.60.660(5) "Board" means the board of Electrical Examiners as created by Alaska Statute AS 08.40.

Rationale: The necessity for this revision is self evident.

is already stated this way. p 44

* Section 18.AS 18.62.010 is ammended to read:

Sec 18.62.010 Certificate of fitness required. In connection with work performed subject to the standards established in (AS 18.60.580 and) AS 18.60.705, no person may be employed without a certificate of fitness to perform work.

Electrical

Rationale: The board considers the certificate of fitness program to be an abrogation of an individual's constitutional right to work at his trade. Additionally, there is absolutely no need for two licensing programs within the same occupation. If the contractor is licensed and responsible for the work accomplished under his license, why then regulate the workman? "There is little justification for licensure if practitioners work under supervision. If regulation is needed, it should be the supervisor who is regulated".[1]

Cost Impact:

The net result of the foregoing legislative package would be a cost increase of approximately $2,500.00 a year to support the two new board members and a cost decrease of untold magnetude in the reduction of administrative costs pertinant to the certificate of fitness program. The machinery for supporting the balance of this legislative package already exists and would neither expand nor contract as a result of these changes.

good pt.

1. Occupational licensing: questions a legislator should ask, Page 15; Shimberg & Roederer, 1978.

(Health and Safety)
Article 6. Electrical Safety.

Section
580. Minimum electrical standards
590. Borough and city electrical safety codes
600. Powers and duties of the department
610. Delegation of authority
620. Inspection fees
630. Enforcement of compliance
640. Scope of work covered
650. Penalty for violations
660. Definitions

Sec. 18.60.580. Minimum electrical standards. The Department of Labor shall adopt the 1971 published edition of the National Electrical Code approved by the American Standards Association, and the lastest published edition as of August 5, 1969 of the National Electrical Safety Code issued by the U.S. Department of Commerce, Bureau of Standards, as the minimum electrical safety standards of the state. (§ 1 ch 89 SLA 1969; am § 1 ch 37 SLA 1972)

Sec. 18.60.590. Borough and city electrical safety codes. (a) The department may by regulation adopt amendments to the 1971 National Electrical Code as approved and issued by the American Standards Association.

(b) This chapter does not affect the authority of any municipality or rural electrification association to prescribe by ordinance, rule, or order standards for their respective areas of jurisdiction not less stringent than the standards prescribed by the department or those established under § 580 of this chapter. (§ 1 ch 89 SLA 1969; am § 42 ch 69 SLA 1970; am § 29 ch 53 SLA 1973)

Sec. 18.60.600. Powers and duties of the department. (a) The department may

(1) promulgate regulations to carry out the purposes of §§ 580-660 of this chapter;

(2) inspect the electrical wiring of any place of employment or public structure in this state.

SB-232 would Repeal this

(b) The department shall

(1) keep a record of all inspection fees collected;

(2) keep a record of all electrical inspections conducted. (§ 1 ch 89 SLA 1969)

Sec. 18.60.610. Delegation of authority. Upon application to the department, a person, corporation, electric utility firm, public utility district, rural electrification association, or municipal utility district furnishing electrical current may be authorized by the commissioner to inspect the electrical wiring for a public or commercial structure as defined in § 660 of this chapter to which it is to furnish electrical current before energizing the electrical system on, in, or about the premises. Authorization by the commissioner under this section constitutes a grant of full authority to act within the provisions of §§ 580-660 of this chapter with the same immunities and privileges accorded to the state in the performance of these duties. A person or entity whose electrical wiring installation is found, by the authorized inspector, not to meet the standards prescribed has the right to appeal to the commissioner for a new inspection. The commissioner shall, within 15 days, furnish a new inspection by a designee not associated with the person, firm or utility who did the original inspection. (§ 1 ch 89 SLA 1969)

Sec. 18.60.620. Inspection fees. A person, corporation, electric utility firm, public utility district, rural electrification association or municipal utility district authorized under § 610 of this chapter to provide inspection services may charge a fee for these services. After notice and hearing, the department shall set a schedule of maximum fees for inspection services rendered under §§ 580-660 of this chapter. The department may review the schedule every two years after giving notice and hearing. (§ 1 ch 89 SLA 1969)

Sec. 18.60.630. Enforcement of compliance. An authorized inspector under this chapter shall give written notice to the owner of constructed premises, or the contractor of premises under construction, of each violation of applicable electrical standards discovered as a result of his inspection. If within 15 days after receipt of written notice of an electrical violation, the person notified does not rectify the condition, the inspector shall notify the electric utility firm, public utility district, rural electrification association or municipality district supplying power to the premises. Upon notice in writing from the inspector, the supplier of electrical power may discontinue services to the premises where the alleged violation exists. (§ 1 ch 89 SLA 1969)

Sec. 18.60.640. Scope of work covered. (a) Sections 580-660 of this chapter cover only new installations and alterations to existing installations.

(b) These standards are the recommended minimum standards for all new structures in the state. (§ 1 ch 89 SLA 1969)

Sec. 18.60.650. Penalty for violations. A person who installs electrical wiring not in compliance with minimum electrical standards as set out in § 580 of this chapter, and who fails to correct this wiring

after having been notified in writing by an authorized inspector, upon conviction, is punishable by a fine of not more than $1,000. (§ 1 ch 89 SLA 1969)

Sec. 18.60.660. Definitions. In §§ 580-660 of this chapter

(1) "department" means the Department of Labor;

(2) "commissioner" means commissioner of the Department of Labor;

(3) "electrical wiring" means the entire electrical system, including all conducting and shielding material, all regulatory and safety apparatus, and all devices and techniques used in the process of installation;

(4) "public structures" mean buildings such as hotels, resident housing with more than one rental unit, restaurants, taverns, lodging houses, children's homes, auditoriums, town halls, or any structure designed or used for public assembly whether publicly or privately financed. (§ 1 ch 89 SLA 1969)

(Health and Safety)
Chapter 62. Certificates of Fitness.

Section
10. Certificate of fitness required
20. Application for and issuance of certificate
30. Fee
40. Duration of certificate
50. Issuance and contents of certificate
60. Power of the department
70. Persons required to obtain certificate
80. Penalty

Sec. 18.62.010. Certificate of fitness required. In connection with work performed subject to the standards established in AS 18.60.580 and AS 18.60.705, no person may be employed without a certificate of fitness to perform the work. (§ 1 ch 12 SLA 1974)

Sec. 18.62.020. Application for and issuance of certificate. The department shall issue certificates of fitness. The certificate shall be issued only to an individual. An applicant for a certificate shall apply in writing, under oath, on a form prescribed by the department containing

(1) the name and address of the applicant;

(2) his age;

(3) his citizenship; and

(4) other information relevant to licensing which the department requires. (§ 1 ch 12 SLA 1974)

Sec. 18.62.030. Fee. An applicant shall pay an initial fee of $15 with his application. (§ 1 ch 12 SLA 1974)

Sec. 18.62.040. Duration of certificate. The department may cancel a certificate for cause. Certificates, if not cancelled for cause, are renewable upon payment of an annual renewal fee of $5. (§ 1 ch 12 SLA 1974)

Sec. 18.62.050. Issuance and contents of certificate. (a) If, upon investigation and examination by the department, the applicant is found competent by reason of training and experience, the department shall issue a certificate of fitness. The certificate shall set out the competency of the applicant and provide for his positive identification, and shall be carried on the person engaged in work subject to the requirement of a certificate of fitness under this chapter.

(b) An applicant who engaged in a trade subject to the requirement of a certificate of fitness under this chapter who has been engaged in that trade in the state for one year or more before January 1, 1973, upon making a satisfactory showing of qualifications to the department, shall be issued a certificate without examination.

(c) Verification by an Alaska-based labor union of a member's qualification to meet the requirements for a certificate of fitness may be accepted in lieu of examination or other requirement for issuing a certificate under this chapter. (§ 1 ch 12 SLA 1974)

Sec. 18.62.060. Power of the department. The department shall issue orders, rules and regulations necessary to carry out the purposes of this chapter. (§ 1 ch 12 SLA 1974)

Sec. 18.62.070. Persons required to obtain certificate. A person engaged in one of the following trades shall first obtain from the department the appropriate certificate of fitness in that trade:

(1) electrical wiring subject to the standards established in AS 18.60.580; and

(2) plumbing subject to the uniform plumbing code, as established in AS 18.60.705. (§ 1 ch 12 SLA 1974)

Sec. 18.62.080. Penalty. A person, either an employer or employee, who violates a provision of this chapter or of a regulation issued under this chapter is guilty of a misdemeanor and, upon conviction, is punishable by a fine of not more than $500. (§ 1 ch 12 SLA 1974)

G

STATE OF ALASKA
Real Estate Commission
August, 1979

Findings

Review of the responsibilities and activities of the Real Estate Commission indicates that regulation of this profession is in the public interest and should continue. Substantial amounts of money may be involved in real estate transactions which are often difficult for the consuming public to interpret and rely upon. The Commission is carrying out its functions in a responsible manner and appears to be meeting needs and demands reasonably.

I. General Information

A. Regulated Parties

1. Real Estate Brokers
2. Associate Real Estate Brokers
3. Real Estate Salesmen

B. Definitions

"(1) 'real estate' means an interest or estate in land, corporeal or incorporeal;" (AS 08.88.431)

C. Nature and Composition of Commission

1. Commission members and terms:

Four-year term (no restrictions regarding consecutive terms or number of terms).

Lance Youngquist (Chairman)	ends January 31, 1981
Karen Morris	ends January 31, 1981
Carol Maser	ends January 31, 1980
Ken Calhoon	ends January 31, 1983
Frank Austin	ends January 31, 1980
Gary Wilkin	ends January 31, 1983
Gail Glad	ends January 31, 1983

2. Representation:

Profession = 5
Public = 2

3. Qualifications:

"(a) Five members of the commission must be real estate brokers or associate brokers who have been licensed real estate brokers or licensed associate brokers in Alaska for at least three years before appointment. Two members of the board must be public members in accordance with AS 08.01.025.

(b) One member of the commission shall be from the First Judicial District, one shall be from the Second Judicial District, one shall be from the Third Judicial District, one shall be from the Fourth Judicial District and one shall be from the state at large. However, if no person is eligible or available for appointment from the Second Judicial District, then two shall be from the state at large." (AS 08.88.041)

D. Licensing Data

Current active licenses (effective through July, 1979)

Brokers	=	449
Associate Brokers	=	342
Salesmen	=	1,967
Total		2,758

All licentiates are in-State.

E. Fees

Real estate broker or associate broker

1.	examination	$ 50.00
2.	reciprocity	50.00
3.	initial license	100.00
4.	biennial renewal - active license	100.00
5.	beinnial renewal - inactive license	25.00
6.	surety fee	125.00

Real estate salesmen

1.	examination	$ 50.00
2.	reciprocity	50.00
3.	initial license	50.00
4.	biennial renewal - active license	50.00
5.	biennial renewal - inactive license	25.00
6.	surety fee	40.00

For amended license 2.00

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

H. Complaints*

FY '78 Received 107 written complaints
Closed 91

Two licenses were revoked.
One license was denied.
One applicant was denied admittance to the examination.
One hearing on two licensees is in progress.
One exam score was cancelled (cheating - 2 applicants).
One hearing was requested on 9/1/78 by the commission but has not occurred.

FY '79 Received 127 written complaints
Closed 56

43 referred to investigations.
14 inactive.
One revoked license.
One referred to Banking and Securities.
Four advisory (letters but not actual complaints - no action is taken on these unless writter follows up).
Two conflict of interest - cases involving family, friends or commission members.

Six cases are still with the Executive Secretary pending receipt and/or evaluation of responses.

*See Appendix F

II. Analysis

A. To what extent has the Real Estate Commission operated in the public interest?

Duties of the Commission include passing on applicant qualifications, preparation and grading of examinations, suspension and/or revocation of licenses, prosecutions of licensing violations, and publication of subsequent disciplinary actions.

Activities by a licensee which constitute grounds for disciplinary action are detailed in Commission statutes and regulations. Enforcement and complaint procedures for real estate matters differ somewhat from the procedures delineated for other boards and commissions supported by the Division of Occupational Licensing. Those procedures (see Appendix A) are acceptable to all concerned parties but apparently are not being completely adhered to and, as a result, are not as effective as they might otherwise be. The Real Estate Commission, in contrast to all other boards and commissions except the Board of Nursing, enjoys the services of an Executive Secretary who is a Division of Occupational Licensing employee assigned specific duties with respect to the Commission (see Appendix B). This person is in a particularly significant position in that (s)he serves as liaison among Commission members, licensees and the public. Many questions and/or complaints can be and have been resolved at this level.

As of July 31, 1979, there were 2,758 active licenses in this profession. While the number of applicants per test has not particularly increased, the number of tests given each year has. In 1976, four examinations were given; in 1977, five; and in 1978, eleven. Total registered applicants for examination in 1978 was 2,636. Initial application forms and fees are received and processed by the Division of

Occupational Licensing. Information is submitted by that agency to the examination proctor(s) and to the Educational Testing Service, which provides the examination to this State and several others. If the individual subsequently passes the examination, (s)he then submits application and fee for a license. ETS has recently offered to take over the entire examination procedure and to provide results to the Division for licensure of those individuals who have passed. The fee owed by the applicant to ETS would be $11.00 as opposed to the $50 fee now being paid to the Division which is nonrefundable. By memorandum of July 5, 1979 (see Appendix C), the Department of Law, indicates that the $11 could be credited toward the $50 examination fee to "be consistent with the statute." Of course, if the statute were amended, this problem would be resolved. Adoption of the ETS proposal would eliminate a considerable amount of paperwork, would be less expensive for the applicant, and would require license application only after passing the examination.

Another pending issue is that of allowing reciprocity among all states utilizing the ETS examination. Under such a program, applicants from another jurisdiction would only be required to pass the Alaska law portion of the exam. Although AS 08.88.261 allows for licensure by reciprocity, the Commission does not use this method and has, in fact, cancelled its previous agreements with other states. Under reciprocity, only applicants from states with which agreements have been established may be admitted without examination regardless of individual qualifications. Endorsement, however, would allow licensure of those persons whose qualifications are substantially similar to those in Alaska at a given time, independently of formal interstate concurrence.

The Commission has taken positive action to inform and educate licensees and the public. Articles regarding real estate transactions and laws are prepared by the Executive Secretary and published in major newspapers as well as in the industry newsletter. Several references are

found in Commission minutes to development of seminars and educational programs. AS 08.88.091 provides that the Commission "may conduct and assist in conducting real estate clinics, meetings, courses or institutes" and may "assist libraries and education institutions in sponsoring studies and programs for the purpose of raising the standards of the real estate business and the competency of licensees." AS 45.85 (Real Estate Surety Fund) creates a special account into which payments are made by licensed real estate brokers and salesmen. Funds in excess of $250,000 may be appropriated for real estate educational purposes. In 1979, $75,000 was provided from these funds.

The surety fund provides financial recourse against licensees who have been adjudicated liable on grounds of fraud, misrepresentation, deceit or conversion of trust funds in a maximum amount of $10,000 for each transaction. A court order must be obtained directing payment from the fund and application for payment must be served upon the Commissioner of the Department of Commerce and Economic Development.

In the first half of 1979 four claims were settled in the amounts of $7,052.00, $1,112.65, $10,000.00, and $8,070.95. The balance of the fund on July 30, 1979 was $310,925.40.

The Commission has discussed at length the advisability of mandatory continuing education; however, no consensus of opinion has been reached. No evidence has been shown regarding the positive benefits of such requirements and administration aspects would have to be considered. The Commission also feels that upgrading of the profession is important. CSSB 212 (see Appendix D) addresses the matter of continuing education. The bill was introduced during the 1979 session of the Legislature and is in Committee.

The Real Estate Commission will hold five regular meetings in 1979. Meeting minutes are formulated by the Commission secretary rather than by its Executive Secretary or licensing examiner. Meetings are not tape

recorded. Several subcommittees of the Commission have been appointed to focus on special projects such as legislation, Sunset preparation and budget submission.

It is felt that the Commission has operated in the public interest through its examination, education and enforcement efforts. This Commission is actively concerned about enforcement of the laws and has requested assistance from the Division and Department of Law on numerous occasions. One of the Commission's more effective enforcement tools is education as a preventative measure. Public interests are served by making people more cognizant of the profession and disseminating information regarding common real estate practices and transactions.

B. To what extent has the operation of the Real Estate Commission been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

The Real Estate Commission has the same operational impediments as do all boards: not enough money, time, support, or investigative services. It does, however, have an Executive Secretary and access to the Anchorage and Juneau Departments of Law. These factors have put the Real Estate Commission in a considerably better position than other boards and commissions with respect to its operations and accomplishments. Additional support staff provided by the Division of Occupational Licensing includes a licensing examiner whose time is almost entirely devoted to real estate. It is worth noting that almost 3,000 individuals are currently licensed in this profession statewide.

Fees and revenues for all boards and commissions under the jursidiction of the Division are collected through the Division and are deposited into the general fund. Monies deposited and withdrawn are identified by codes so that direct revenues and expenses may be determined.

Members of the real estate profession are regulated by portions of Title 34 (Property) as well as by AS 08.88 (Real Estate Commission) and AS 45.85 (Real Estate Surety Fund). Extensive regulations have been promulgated and adopted by the Commission. Bills for statutory amendments have been sponsored by the Commission and by the professional association.

The Division would support a transfer of examination responsibilities to the Educational Testing Service as being less cumbersome for the Commission, the Division, and the applicants. The Commission has elected not to have its meetings tape recorded. Goals and objectives have been established by the Commission but no Performance Report for FY '79 has been submitted as of this writing.

C. To what extent has the Real Estate Commission recommended statutory changes which are generally of benefit to the public interest?

The Commission has recommended and supported numerous changes that are designed to clarify the law and improve services by licensees. As previously noted, CSSB 212 is currently in Committee. HB 328 (regarding exemptions from licensing) is also in Committee and is not supported by the Commission in its present form. HB 494 (an Act repealing the prohibition on licensng felons) is still in Committee. Proposed statutory amendments submitted by administration in 1978 are delineated in Appendix E.

D. To what extent has the Real Estate Commission encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of services which it has provided?

The Commission appears to be conscientious and sensitive to the public interests; however, the bulk of participation concerning its affairs and services has come from individuals with particular problems. According to the Executive Secretary, a large portion of his time is spend with persons who are dissatisfied with, or seeking clarification of, real estate transactions. That person also feels that public awareness is increasing as well as that of licensees. Public media has been used to help accomplish this.

Public interests are also furthered by the presence of two public members on the Board. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decisionmaking."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding. The Commission has expressed satisfaction with its public members.

E. How efficiently are public inquiries or complaints regarding the activities of the Real Estate Commission processed and resolved?

[1] Shimberg, B. and Roederer, D., Occupational Licensing Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March 1978, p. 20.

As discussed elsewhere, complaints and investigative procedures have been established which were agreed upon by all concerned parties. Those procedures appear to be reasonable and workable but delays are encountered through the administrative process and as a result of complaint prioritization based on seriousness of offenses. Public inquiries are handled by Commission members and by Division personnel as appropriate.

F. To what extent does the Real Estate Commission present qualified applicants to serve the public?

One method of assuring qualified applicants is through an examination procedure. Individuals who pass the exam are then required to submit application and fees for licensure. All qualifications are outlined in AS 08.88; those who demonstrate compliance and a satisfactory level of knowledge are granted a license.

The Commission has previously terminated all reciprocity agreements with other states and will not license by this method. While there is not felt to be a shortgage of licensees within the State, this should not be a basis upon which restrictions on entry into the field are postulated. Neither should the presumption that out-of-State licensees are not familiar with Alaska law; this could be addressed by utilization of a jurisprudence examination.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Real Estate Commission in its own activities, and in its area of activity or interest?

Commission staff consists of the support services of an Executive Secretary as well as a licensing examiner (most of whose time is spent on real estate matters). These individuals are employed by the Division of Occupational Licensing and are subject to the requirements and procedures of the State Personnel System.

Licenses in this profession are issued on the basis of specific statutory criteria to which affirmative action requirements are not applicable.

H. To what extent are statutory, budgetary or other changes necessary to enable the Real Estate Commission to better serve the interests of the public?

As 08.88.026, regarding terms of office of initial Commission members should be repealed. A limitation on consecutive numbers of terms may also be considered. The Department has not been issuing inactive license certificates as cited in § 251, nor is this felt to be necessary in practice. CSSB 212 deletes this requirement and outlines appropriate procedures for reactivating a license. This bill also allows for endorsement of out-of-State licensees who pass an examination on Alaska law.

Statutory qualifications for examination require that the applicant not have been convicted of a felony involving "moral turpitude" within the previous ten years. This term has not been defined and should be either defined or deleted. Actions which constitute "unethical conduct" are cited in Commission regulations.

Sec. 08.88.241 provides that only those individuals who were licensed by examination can be reexamined if their license has lapsed for more than three years. It is not reasonable to exempt those persons licensed in

another manner, such as reciprocity or endorsement, should their license lapse.

Commission statutes require 90 days residency of applicants for licensure. This condition is not considered to serve any valid licensing purpose.

The Division has not been charging a $2 fee for amendments to licenses, such as reactivation or changes of employment (§221).

The Division and the Commission are in favor of allowing ETS to take over examinations entirely provided that benefit would result as indicated in the current proposal.

Entensive regulations have been promulgated by the Commission as a result of problems encountered in its activities and operations.

Chapter 88. Real Estate Brokers and Salesmen.

Article
1. Real Estate Commission (§§ 08.88.011-08.88.141)
2. Licensing (§§ 08.88.161-08.88.261)
3. Miscellaneous Provisions (§§ 08.88.281-08.88.401)
4. General Provisions (§§ 08.88.421-08.88.431)

Article 1. Real Estate Commission.

Section
11. Creation and membership of commission
21. Appointment and terms of office
26. Initial terms of office
31. Executive secretary of commission
41. Qualifications of commission members
51. Commission meetings and officers
61. Assistants
71. Duties of the commission
81. Commission regulations
91. Education
101. Administrative duties of department
111. Department regulations
121. Sale of register
131. Applicability of the Administrative Procedure Act
141. Compensation

Sec. 08.88.011. Creation and membership of commission. There is created a Real Estate Commission. It consists of seven members. (§ 1 ch 95 SLA 1964; am § 9 ch 258 SLA 1976)

Sec. 08.88.021. Appointment and terms of office. The governor shall appoint the members of the commission, with the confirmation of the legislature, for staggered terms of four years. A member serves at the pleasure of the governor. The governor shall fill a vacancy by appointment for the unexpired term. A member serves until his successor is appointed. (§ 1 ch 95 SLA 1964)

Sec. 08.88.026. Initial terms of office. Initial appointments of members are as follows: one member for one year, one member for two years, one member for three years, and two members for four years. Initial terms date from February 1 after appointment. (§ 1 ch 37 SLA 1965)

Sec. 08.88.031. Executive secretary of commission. The commissioner of commerce and economic development shall appoint a full-time staff administrator and delineate his authority and duties. He shall serve as the executive secretary of the Real Estate Commission. (§ 1 ch 95 SLA 1964; am § 1 ch 28 SLA 1974; am § 56 ch 218 SLA 1976)

Sec. 08.88.041. Qualifications of commission members. (a) Five members of the commission must be real estate brokers or associate brokers who have been licensed real estate brokers or licensed associate brokers in Alaska for at least three years before appointment. Two members of the board must be public members in accordance with AS 08.01.025.

(b) One member of the commission shall be from the First Judicial District, one shall be from the Second Judicial District, one shall be from the Third Judicial District, one shall be from the Fourth Judicial District and one shall be from the state at large. However, if no person is eligible or available for appointment from the Second Judical District, then two shall be from the state at large. (§ 1 ch 95 SLA 1964; am § 1 ch 130 SLA 1966; am § 1 ch 14 SLA 1972; am § 10 ch 258 SLA 1976)

Sec. 08.88.051. Commission meetings and officers. (a) The commission shall hold a regular annual meeting. It may hold a special meeting at the call of the chairman or at the request of three commission members.

(b) At least two judicial districts shall be represented and at least a majority of the commission members shall be present in order to conduct business.

(c) The commission shall elect its officers. (§ 1 ch 95 SLA 1964; am § 2 ch 130 SLA 1966; am § 11 ch 258 SLA 1976)

Sec. 08.88.061. Assistants. The commission, with the approval of the commissioner of commerce and economic development, may employ assistants to

(1) prepare questions on examinations;

(2) grade examinations;

(3) investigate alleged violations of this chapter. (§ 1 ch 95 SLA 1964; am § 57 ch 218 SLA 1976)

Sec. 08.88.071. Duties of the commission. (a) The commission shall

(1) pass on qualifications of applicants for licenses and issue licenses to those who qualify;

(2) prepare and grade examinations;

(3) after hearing, have the authority to suspend or revoke the license of a licensee who

(A) with respect to a real estate transaction;

(i) made a substantial misrepresentation;

(ii) made a false promise likely to influence, persuade, or induce;

(iii) in the case of a real estate broker, pursued a flagrant course of misrepresentation or made a false promise through an agent, associate real estate broker, or real estate salesman;

(iv) has engaged in conduct that is fraudulent or dishonest;

(v) violates § 391 of this chapter;

(B) procures his license by deceiving the commission, or aids another to do so;

(C) has engaged in conduct of which the commission had no knowledge at the time he was licensed demonstrating his unfitness to engage in the business for which he is licensed;

(D) knowingly authorizes, directs, connives at or aids in publishing, distributing, or circulating a material false statement or misrepresentation concerning his business or concerning real estate for sale in his business in this or any other state;

(E) if a real estate broker, wilfully violates § 171(d) or § 291 of this chapter;

(F) if an associate real estate broker, claims to be a real estate broker, or, if a real estate salesman, claims to be a real estate broker or associate real estate broker;

(G) if a real estate broker, employs an unlicensed associate real estate broker or real estate salesman;

(H) if an associate real estate broker or real estate salesman, fails immediately to turn money collected in a real estate transaction over to the employing real estate broker;

(4) prosecute, through the Department of Law, violations of the provisions of this chapter or lawful regulations promulgated under this chapter;

(5) publish, on three consecutive weekends in a newspaper of general circulation in the locale of the offending person's principal office licensed under this chapter, any disciplinary action taken by the commission against a person licensed under this chapter.

(b) When a payment is made from the real estate surety fund under AS 45.85 in settlement of a claim or toward satisfaction of a judgment against a licensed broker, associate broker or salesman for fraud, misrepresentation, deceit or conversion of trust funds, the commission, after a proper hearing establishing the misconduct, shall suspend or revoke the license of the broker, associate broker or salesman. The broker, associate broker or salesman may not be reinstated until he has satisfied in full any judgment based on any of the grounds listed in AS 45.85.030. (§ 1 ch 95 SLA 1964; am §§ 2, 3 ch 28 SLA 1974; § 3 ch 143 SLA 1974)

Sec. 08.88.081. Commission regulations. The commission shall adopt substantive regulations making more specific the general grounds for revoking or suspending a license. (§ 1 ch 95 SLA 1964)

Sec. 08.88.091. Education. The commission may conduct and assist in conducting real estate clinics, meetings, courses, or institutes. The commission may assist libraries and educational institutions in sponsoring studies and programs for the purpose of raising the standards of the real estate business and the competency of licensees. (§ 1 ch 95 SLA 1964)

Sec. 08.88.101. Administrative duties of department. (a) The department shall furnish the commission with administrative services, including collecting fees and issuing receipts; keeping records of receipts and disbursements; distributing and receiving application forms; notifying an applicant whether or not the commission has accepted his application; designating the dates on which examinations are to be held; at least 30 days before an examination is to be held, publishing notice that it is to be held; printing examinations; providing space for holding examinations; proctoring examinations; notifying applicants of the results of the examination; printing and distributing uniform license certificates, duplicate certificates to replace lost ones, and pocket-sized recognition cards; sending notice, before December 1 of each year, that licenses must be renewed; keeping a current register of licensees; employing secretarial assistants; replying to routine requests for information; printing and distributing forms and informational bulletins; maintaining records and completed examinations; recording suspensions and revocations of licenses; and recording office registrations.

(b) The department shall allow members of the commission free access to its records concerning the commission's activities. (§ 1 ch 95 SLA 1964)

Sec. 08.88.111. Department regulations. The department shall adopt procedural regulations describing

(1) how it conducts an examination;

(2) how a person applies to take an examination, applies for a license, and registers his office. (§ 1 ch 95 SLA 1964)

Sec. 08.88.121. Sale of register. The department shall offer for sale to the public publications containing the names, addresses, license classifications, and business associations of persons licensed by the commission. The department shall sell the publications at a price designed to recover costs of compilation, publication, and distribution. (1 ch 95 SLA 1964)

Sec. 08.88.131. Applicability of the Administrative Procedure Act. The Administrative Procedure Act (AS 44.62) applies to regulations and proceedings under this chapter. (§ 1 ch 95 SLA 1964)

Sec. 08.88.141. Compensation. A commission member is entitled to transportation expenses and per diem allowances specified in AS 39.20.180. (§ 1 ch 95 SLA 1964)

Article 2. Licensing.

Section
161. License required
171. Entitlement to license
181. Content of examination
191. Administration of examination
201. Reexamination
211. Qualification for examination
221. Fees
231. Deposit in general fund
241. Reinstatement of lapsed license
251. Inactive license
261. Out-of-state licenses

Sec. 08.88.161. License required. Unless licensed as a real estate broker, associate real estate broker, or real estate salesman, no natural person, foreign or domestic corporation, or partnership, or limited partnership, or other entity may

(1) sell, exchange, rent lease, auction, or purchase real estate;

(2) list real estate for sale, exchange, rent, lease, auction, or purchase;

(3) collect rent for the use of real estate;

(4) as a business, buy, sell, or deal in

(A) options in real estate, or

(B) options in improvements to real estate;

(5) assist in or direct the procuring of prospective buyers or the negotiation of a transaction which results or is calculated to result in the sale, exchange, rent, lease, auction, or purchase of real estate;

(6) hold himself out to the public as being engaged in the business of doing any of the things listed in this section;

(7) attempt or offer to do any of the things listed in this section.

(8) (deleted) (§ 1 ch 95 SLA 1964; am § 1 ch 108 SLA 1970; am § 4 ch 28 SLA 1974)

Sec. 08.88.171. Entitlement to license. (a) A person is entitled to a real estate broker licnese if he has been a resident of the state for 90 days and if he applies for his license within six months after receipt of notice that he has passed the real estate examination, files the required bond, and is an owner of a real estate business or employed as a real estate broker by a corporation or a partnership, if the corporation or partnership does not have an existing licensed broker. Unless he fails to pay the biennial renewal fee or his license is suspended or revoked to pay the biennial renewal fee or his license is suspended or revoked under § 71(3) of this chapter, a real estate broker's license continues in effect so long as he is an owner of a real estate business, or he is employed as a real estate broker by a corporation or a partnership. If he stops being an owner of a real estate business, or stops being employed as a real estate broker by a corporation or partnership, his license is suspended from the time he stops until

(1) he again becomes an owner of a real estate business or is again employed as a real estate broker by a corporation or a partnership; or

(2) he is employed by a licensed real estate broker, in which case his real estate broker license is returned to the department, and the department issues him an associate real estate broker license.

(b) A person is entitled to an assoicate real estate broker license if he has been a resident of the state for 90 days and if he passes the real estate examination, applies for his license within six months after receipt of notice that he has passed the examination, files the required bond, and is employed by a licensed real estate broker.

Unless he fails to pay the biennial renewal fee or his license is suspended or revoked under § 71(3) of this chapter, an associate real estate broker's license continues in effect so long as he is employed by a licensed real estate broker. If he stops being employed by a licensed real estate broker, his license is suspended from the time he stops until

(1) he again is employed by a real estate broker, or

(2) he becomes an owner of a real estate business, in which case his associate real estate broker license is returned to the department, and the department issues him a real estate broker license.

(c) A person is entitled to a real estate salesman license if he has been a resident of the state for 90 days and if he passes the real estate saleman examination, applies for his license within six months after receipt of notice that he has passed the examination, files the required bond, and is employed by a real estate broker. Unless he fails to pay the biennial renewal fee or his license is suspended or revoked under § 71(3) of this chapter, a real estate salesman's license continues in effect so long as he is employed by a licensed real estate broker, his license is suspended from the time he stops until he again is employed by a licensed real estate broker.

(d) A licensee shall promptly inform the department of a change in his business association that affects the status of his license under this section. (§ 1 ch 95 SLA 1964; am § 3 ch 130 SLA 1966; am § 1 ch 55 SLA 1969; am §§ 5-7 ch 28 SLA 1974)

Sec. 08.88.181. Content of examination. (a) The real estate examination includes questions on business ethics; arithmetic; elementary principles of land economics and appraisal; the general principles in state statutes relating to deeds, mortgages, real estate contracts, subdivisions, legal descriptions, building restrictions, agency and brokerage; and the general provisions in this chapter and in regulations of the commission.

(b) The real estate salesman examination covers the same subjects as the real estate broker examination, but is less difficult.

(c) The only purpose of an examination under this chapter is to disqualify those whose lack of ability to participate in real estate transactions would create a serious risk of serious financial loss to members of the public. (§ 1 ch 95 SLA 1964; am § 2 ch 55 SLA 1969)

Sec. 08.88.191. Administration of examination. (a) The department shall offer examinations at least one a year and more frequently if more than two persons who are qualified to take an examination petition the department for an additional examination.

(b) Examinations shall be so administered that one who grades an examination does not know whose paper he is grading.

(c) The department shall maintain files of examination papers. A person, at any reasonable time within two months of the date he is notified of the results of the examination, is entitled to inspect his examination paper for the purpose of challenging the propriety of its questions, the method of grading, or the accuracy of grading.

(d) If a person fails to take an examination after he has paid the application fee, the department shall refund one-half of the fee.

(e) The provisions of (c) of this section are inapplicable if a nationally recognized testing service prepares and grades the examination provided the national testing service, if requested, will evaluate the examination results for an applicant. (§ 1 ch 95 SLA 1964; am § 2 ch 108 SLA 1970; am §§ 1, 2 ch 24 SLA 1972; am § 8 ch 28 SLA 1974)

Sec. 08.88.201. Reexamination. A person who fails an examination may apply for a subsequent examination, but shall pay the application fee each time he applies. He may not petition for an additional examination under § 191(a) of this chapter, but may take one if it is offered. (§ 1 ch 95 SLA 1964)

Sec. 08.88.211. Qualification for examination. (a) A person is entitled to take a real estate broker or associate broker examination if he

(1) has had at least 24 months of active and continuous experience as a licensed real estate saleman;

(2) Repealed by § 10 ch 28 SLA 1974.

(3) Repealed by § 25 ch 245 SLA 1970.

(4) has not been convicted of a felony involving moral turpitude within the past 10 years, is not under indictment for fraud or embezzlement and has not engaged in conduct that demonstrates that he is unfit to be a real estate broker;

(5) Repealed by § 17 ch 127 SLA 1974.

(6) Repealed by § 4 ch 55 SLA 1969.

(b) A person is entitled to take a real estate salesman examination if he

(1) is at least 19 years old;

(2) Repealed by § 11 ch 28 SLA 1974.

(3) has not been convicted of a felony involving moral turpitude within the past 10 years, is not under indictment for fraud or embezzlement and has not engaged in conduct that demonstrates that he is unfit to be a real estate salesman;

(4) Repealed by § 17 ch 127 SLA 1974.

(5) Repealed by § 4 ch 55 SLA 1969.

(c) In addition to the requirements of (a) or (b) of this section, to be qualified to take an examination a person must

(1) within the time specified by a department regulation, return application forms to the department showing information specified in regulations of the commission;

(2) pay the application fee.

(d) Repealed by § 9 ch 108 SLA 1970. (§ 1 ch 95 SLA 1964; am § 4 ch 130 SLA 1966; am § 1 ch 31 SLA 1968; am § 4 ch 55 SLA 1969; am §§ 3-5, 9 ch 108 SLA 1970; am § 25 ch 245 SLA 1970; am §§ 9-11 ch 28 SLA 1974; am § 17 ch 127 SLA 1974)

Sec. 08.88.221. Fees. (a) The following fees shall be charged a real estate broker or associate broker licensee or applicant when applicable:

(1)	examination.....	$ 50
(2)	reciprocity.....	50
(3)	initial license.....	100
(4)	biennial renewal - active license.....	100
(5)	biennial renewal - inactive license.....	25

(b) The following fees shall be charged a saleman licensee or applicant when applicable:

(1)	examination.....	$ 50
(2)	reciprocity.....	50
(3)	initial license.....	50

(4) biennial renewal - active license..... $ 50

(5) biennial renewal - inactive license..... 25

(c) The fee for amending a license is $2. (§ 1 ch 95 SLA 1964; am § 2 ch 31 SLA 1968; am §§ 12, 13 ch 28 SLA 1974)

Sec. 08.88.231. Deposit in general fund. The department shall deposit money collected under this chapter in the general fund. (§ 1 ch 95 SLA 1964)

Sec. 08.88.241. Reinstatement of lapsed license. A licensee who was required to take an examination before receiving a license and whose license has lapsed for more than three years shall be reexamined before reinstatement. (§ 1 ch 95 SLA 1964; am § 5 ch 130 SLA 1966; am § 3 ch 31 SLA 1968; am § 6 ch 94 SLA 1968; am § 6 ch 108 SLA 1970)

Sec. 08.88.251. Inactive license. (a) A person licensed by the commission may become inactive by returning to the department his license certificate and a form provided by the department. In the form, he shall state the date on which he intends to become inactive. His inactive status begins on the date stated. The department shall issue him an inactive license certificate.

(b) An inactive licensee may not do any of the things § 161 of this chaper authorizes an active licensee to do, nor is he required to have a bond.

(c) A person who is inactive may become active by returning to the department his inactive license certificate, the active license biennial renewal fee, if he becomes active more than five months before January 1 following, and a completed form provided by the department. In the form he shall state the date on which he intends to become active. His active status begins on the date stated. The department shall send him a license certificate. A person is entitled to change from an inactive to an active status without examination if he has not been inactive more than three years. If he has been inactive more than three years, he is required to take an examination. (§ 1 ch 95 SLA 1964; am § 4 ch 31 SLA 1968; am § 7 ch 108 SLA 1970)

Sec. 08.88.261. Out-of-state licenses. A person who holds a valid, active license from another state which grants an equivalent right to Alaskan licensees is entitled to a license of the kind he holds there without examination if he

(1) meets the requirements of § 211(a)(2)-(5) of this chapter for brokers or § 211(b) for salesmen, and files the required bond;

(2) passed an examination in the other state; and

(3) has actively practiced his profession for at least five out of the previous six years before filing his application. (§ 1 ch 95 SLA 1964; am § 3 ch 55 SLA 1969)

Article 3. Miscellaneous Provisions.

301. Change of location
311. Branch offices
321. Possession and display of license certificates
331. Making of transactions
341. Listings
351. Record of transaction
361. When commission is earned
371. Conduct by employee
381. Signs
391. Conflict of interest
401. Prohibited conduct

Sec. 08.88.281. Real estate surety fund. Before issuing a license to an applicant under this chapter, the board shall determine that the applicant has complied with the provisions of AS 45.85.020 and is covered by the real estate surety fund established in AS 45.85. (§ 1 ch 95 SLA 1964; am § 1 ch 54 SLA 1968; am § 2 ch 143 SLA 1974)

Sec. 08.88.291. Location. A licensed real estate broker shall inform the commission of his principal office and of any branch offices he has. He and the associate real estate brokers and real estate brokers and real estate salesmen he employs may do business only in or out of his principal office and his branch offices. Failure of a real estate broker to maintain a place of business or inform the department of its location and the names and addresses of all licensees under his jurisdiction at the location are grounds for the suspension or revocation of his broker license. (§ 1 ch 95 SLA 1964; am § 14 ch 28 SLA 1974)

Sec. 08.88.301. Change of location. If a real estate broker changes the location of his principal office or of a branch office, he shall immediately notify the department. (§ 1 ch 95 SLA 1964; am § 15 ch 28 SLA 1974)

Sec. 08.88.311. Branch offices. (a) A branch offices shall be under the direct supervision of a broker or an associate real estate broker whose principal place of business is that office and who is licensed under this chapter. An associate real estate broker may serve in the capacity of direct supervisor at one office only.

(b) All branch offices shall bear and be advertised only in the name of the principal office but may indicate that they are branch offices of the principal office. (§ 1 ch 95 SLA 1964; am § 8 ch 108 SLA 1970; am § 16 ch 28 SLA 1974; am § 1 ch 174 SLA 1976)

Sec. 08.88.321. Possession and display of license certificates. A real estate salesman or an associate real estate broker shall turn his license certificate over to the real estate broker who employs him. The employing real estate broker shall display his license certificate in his principal office and the license certificates of those he employs in the office where they do most of their work. (§ 1 ch 95 SLA 1964)

Sec. 08.88.331. Making of transaction. A real estate salesman or associate real estate broker may make a real estate transaction only through the real estate broker who employs him. All money collected on behalf of the broker shall immediately be turned over to the broker or his agent. All transactions in real estate by a real estate salesman or associate real estate broker shall be processed through his employing real estate broker's office, whether the transactions are for the real estate salesman's or associate real estate broker's own use or the use of a client. (§ 1 ch 95 SLA 1964)

Sec. 08.88.341. Listings. All real estate listings must be in writing and must be signed by the seller or by an agent of the seller. All exclusive listings must have a definite expiration date. (§ 1 ch 95 SLA 1964)

Sec. 08.88.351. Record of transaction. A real estate broker shall

(1) keep a complete record of all real estate transactions made by himself or persons in his employ for at least three years;

(2) make a closing statement showing disbursements and accounting for all money in the transaction;

(3) keep a separate trust account in a bank, into which he shall deposit all earnest money deposits and purchase money until it is proper for him to distribute the money to the proper persons;

(4) make available to the commission, on request, records and all other documents relating to transactions under (3) of this section which the commission may require in order to conduct a complete audit of trust accounts. (§ 1 ch 95 SLA 1964; am § 17 ch 28 SLA 1974)

Sec. 08.88.361. When commission is earned. A commission is earned when the real estate broker finds a buyer willing and able to purchase at a price and on terms set by the seller, providing negotiations with the buyer were initiated during the term of a valid listing agreement and within the time limit of the listing. (§ 1 ch 95 SLA 1964)

Sec. 08.88.371. Conduct by employee. For the purpose of § 71(3) of this chapter, the conduct of an employee is not attributable to a real estate broker unless the real estate broker has actual knowledge that the employee is going to engage in the conduct and agrees to the conduct, either actively or by remaining silent, or ratifies the conduct after it is engaged in. (§ 1 ch 95 SLA 1964)

Sec. 08.88.381. Signs. A licensed real estate broker shall maintain a sign at each of his offices, prominently showing the name of his business. (§ 1 ch 95 SLA 1964)

Sec. 08.88.391. Conflict of interest. A licensed real estate broker, associate real estate broker, or real estate salesman who has a personal financial interest in a real estate transaction shall disclose that interest to every person involved in the transaction. (§ 1 ch 95 SLA 1964)

Sec. 08.88.401. Prohibited conduct. (a) No licensee may use the term "Realtor" unless he is entitled to use it.

(b) No person, even though he is an obligor or escrow holder, may pay or deliver compensation to a person who is not licensed in this state or who does not hold a valid broker license in another state for doing work for which a license is required under this chapter.

(c) No person may

(1) knowingly authorize, direct, or aid in the publication of a false statement or misrepresentation concerning land or a subdivision or other real estate offered for sale or lease;

(2) with knowledge that an advertisement, pamphlet, or letter concerning land or a subdivision or other real estate contains a written statement that is false or fraudulent, issue, circulate, publish, or distribute it or cause it to be issued, circulated, published, or distributed.

(d) A person who violates a provision of this section or § 161 of this chapter is guilty of a misdemeanor. (1 ch 95 SLA 1964; am § 6 ch 130 SLA 1966; am § 18 ch 28 SLA 1974; am § 4 ch 143 SLA 1974)

Article 4. General Provisions.

Section
421. Exceptions
431. Definitions

Sec. 08.88.421. Exceptions. This chapter does not apply to

(1) a person making a real estate transaction with respect to real estate he owns or on his own behalf, unless the transaction involves land defined in AS 34.55.044(6);

(2) an attorney in fact under a power of attorney authorizing the consummation of a specific real estate transaction; an attorney in fact may not act as such for more than two transactions in a calendar year;

(3) a lawyer performing his duties as a lawyer;

(4) a public official in the conduct of his official duties;

(5) a person acting as receiver, trustee, administrator, executor or guardian;

(6) a person acting under court order;

(7) a person acting under the authority of a will or trust instrument;

(8) a person dealing in mineral rights transactions;

(9) a domestic or foriegn corporation, general or limited partnership, or a partner or regular employee of one of these, when performing acts described in § 161 of this chapter in the regular course, or as an incident to, the management, sale or other disposition of real estate owned by the corporation or partnership; however, the person may not perform these acts as a vocation or for compensation if the amount of the compensation is dependent upon or directly related to the value of the real estate with respect to which the acts are performed. (§ 1 ch 95 SLA 1964; am § 1 ch 38 SLA 1969; am § 19 ch 28 SLA 1974)

Sec. 08.88.431. Definitions. In this chapter

(1) "real estate" means an interest or estate in land, corporeal or incorporeal;

(2) "commission" means the Real Estate Commission;

(3) "department" means the Department of Commerce and Economic Development;

(4) "lease" includes a lease that is a part of another transaction. (§ 1 ch 95 SLA 1964; am § 58 ch 218 SLA 1976)

40. Notification of applicant
50. Appeals

12 AAC 64.010. APPLICATIONS FOR EXAMINATION. (a) All applicants for examination to act as real estate broker, associate real estate broker, or real estate salesman, shall be in writing to the Commissioner of Commerce upon a form to be prescribed and furnished by the Commissioner of Commerce. The fee required by law shall accompany the application.

(b) The applicant may be required to furnish additional information to demonstrate that he meets the minimum qualification of the law as to age, residence, citizenship, and has not engaged in conduct that demonstrates that he is unfit to be licensed.

(c) Applications for examination must reach the office of the Commissioner of Commerce not later than 45 days prior to the examination date. (Eff. 8/6/67, Reg. 24; am 8/9/72, Reg. 43)

Authority: AS 08.88.111
AS 08.88.211

12 AAC 64.020. TIME AND PLACES. (a) Examinations shall be given at least three times each year at times and places to be designated by the Commissioner of Commerce, such notice to be given to the public as required by law.

(b) The Commissioner of Commerce shall arrange for space in which the examinations will be given and arrange for persons to proctor the examination. Such proctors shall be paid for their services, and conduct the examination

under instructions issued by the Commissioner of Commerce. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.101
AS 08.88.111

12 AAC 64.030. METHOD OF CONDUCTING. Repealed 8/9/72, Reg. 43.

12 AAC 64.040. NOTIFICATION OF APPLICANT. (a) All applicants will be notified in writing of the time and place of examination by the Commissioner of Commerce at least seven days prior to the examination.

(b) The applicant will be advised of his grade in writing no later than 10 days following the grading of examinations by the commission. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.101
AS 08.88.111

12 AAC 64.050. APPEALS. A contested scoring of an examination will be hand scored upon request in writing directly to Educational Testing Service, Princeton, New Jersey 08540. (Eff. 8/6/67, Reg. 24; am 8/9/72, Reg. 43; am 1/13/73, Reg. 44)

Authority: AS 08.88.191(e)

Section

60. Applications for licenses
70. License year
80. Suspension and revocation of active licenses
90. Surrender of suspended or revoked licenses
100. Reissuance of a suspended license

12 AAC 64.060. APPLICATIONS FOR LICENSES. (a) All applications for license to act as real estate broker, associate real estate broker, or real estate salesman, shall be made in writing to the Commissioner of Commerce upon a form to be prescribed and furnished by the Commissioner of Commerce. The fee required by law shall accompany the application.

(b) The applicant may be required to furnish additional information to demonstrate that he meets the minimum qualification of the law as to age, residence, citizenship, and has not engaged in conduct that demonstrates that he is unfit to be licensed. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.111
AS 08.88.171
AS 08.88.211

12 AAC 64.070. LICENSE YEAR. (a) The license year begins January 1 and ends December 31, on a biennial basis, to be effective January 1, 1968 and fees are not prorated for a fractional portion of the year.

(b) All licenses expire December 31, of the appropriate year, regardless of the date the license was issued. It shall be the duty of all persons licensed as a real estate broker, associate real estate broker, or a real estate salesman to register biennially with the Commissioner of Commerce and to renew their license, by paying for each biennial registration the fee for license, as set forth in the act, section, etc. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.111
AS 08.88.221

12 AAC 64.080. SUSPENSION AND REVOCATION OF ACTIVE LICENSES. An active license is defined as a license which has been duly issued by the Department of Commerce for the purposes expressed in AS 08.88.161. An active license is one which has neither lapsed nor been exchanged for an inactive license. An active license shall be suspended or revoked under the following conditions:

(1) it shall be suspended when the licensee ceases to act in the capacity of or be employed as a real estate broker, associate real estate broker or real estate salesman as required under AS 08.88.171;

(2) it shall be revoked

(A) if the license is that of a real estate broker and he becomes employed by a licensed real estate broker (AS 08.88.171(a)(2);

(B) if the license is that of an associate real estate broker and he becomes an owner of a real estate business (AS 08.88.171(b)(2);

(3) it is suspended or revoked when, after hearing, it has been declared suspended or revoked by the commission as provided in AS 08.88.071 and these regulations;

(4) upon the suspension or revocation of a real estate broker's license, the license of every associate real estate broker, or real estate salesman employed by such broker is automatically suspended. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.071
AS 08.88.081
AS 08.88.111
AS 08.88.161
AS 08.88.171

12 AAC 64.090. SURRENDER OF SUSPENDED OR REVOKED LICENSES. (a) Every license which has been suspended or revoked, and the pocket part of such license shall be immediately surrendered by the employing broker to the Commissioner of Commerce; or if such license and pocket part are not in the possession of a broker, they shall be surrendered by the licensee. A license and pocket part have been surrendered when they have been placed in the United States mail, postage prepaid and properly addressed to the Commissioner of Commerce or when they have been delivered to the Commissioner of Commerce or his authorized agent.

(b) When a real estate broker surrenders his license, he shall at the same time surrender all licenses and pocket parts within his possession of all associate real estate brokers and salesmen employed by him.

(c) When an associate real estate broker or real estate salesman is discharged or otherwise terminates his employment with a broker, the broker shall inscribe the date and reason for termination on the reverse side of the license to be surrendered.

(d) The surrender of a license does not entitle the licensee to any refund of license fees and no refund shall be made by the department or the commission.

(e) A licensee whose license has been suspended or revoked may not engage in any of the activities authorized by AS 08.88.161 until his license has been reissued. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.081
AS 08.88.111
AS 08.88.161

12 AAC 64.100. REISSUANCE OF A SUSPENDED LICENSE. A license which has been suspended and surrendered, together with its pocket part, will be reissued, without charge, for the unexpired balance of the license period, under the following conditions:

(1) if suspended by the commission for cause as provided in AS 08.88.071(3) or these regulations, the license will be reissued when the conditions imposed in the suspension order have been met and the licensee complies with the appropriate subsections (2) and (3) or (2) and (4) of this section;

(2) submission to the department of satisfactory evidence that the licensee's required bond is in full force and effect; and

(3) if the suspended license is that of an associate real estate broker or real estate salesman, he has met the employment requirements of AS 08.88.171(b) or (c) and has completed and returned to the department the required notice of release, transfer and re-employment; or

(4) if the suspended license is that of a real estate broker, he has met the ownership or employment requirements of AS 08.88.181(a) and he has completed and returned to the department his notice of compliance with Section 08.88.171 as to issuance of a broker license. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.071(3)
AS 08.88.111
AS 08.88.171

ARTICLE 3. PLACE OF BUSINESS

Section
110. Defined
120. Branch offices

12 AAC 64.110. DEFINED. The commission recommends that the office of licensed real estate brokers be established in an office or

headquarters where the real estate broker conspicuously displays his license and the licenses of his employees, if any, and at or from which a real estate broker, either through his own efforts or through his employees, regularly transacts the business of a real estate broker as defined in the law, and where he or his employees can receive business calls and direct business calls to be made. (Eff. 8/6/67, Reg. 34)

Authority: AS 08.88.111
AS 08.88.291

12 AAC 64.120 BRANCH OFFICES. Branch offices shall be applied for on a form provided by the Commissioner of Commerce. Each application shall contain the following:

(1) address of the branch office;

(2) the name of the person in charge of the branch office;

(3) a branch office must be staffed at all times. Failure to staff a branch office will be grounds for withdrawing permission to operate a branch office. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.111
AS 08.88.311

PROHIBITED CONDUCT

Section
130. Business ethics
140. Employment of unlicensed personnel
150. Failure to maintain a place of business
160. False or misstatement in obtaining a license
170. Investigation by commission

12 AAC 64.130. BUSINESS ETHICS. The following acts will be grounds for revocation or suspension of licenses for unethical business practices:

(1) those grounds specifically enumerated in AS 08.88.071(3);

(2) acting for more than one party in a real estate transaction without the knowledge of all parties for whom he acts;

(3) failure to account for or to remit or surrender to the person entitled thereto, any money, documents, or other property of value coming into the possession or control of the licensee in the course of a real estate transaction;

(4) paying or receiving any rebate, profit, compensation or commission in violation of these regulations;

(5) forgery, embezzlement, obtaining money under false pretenses, larceny, extortion, conspiracy to defraud or other like offenses committed in the course of employment as a real estate broker, associate real estate broker or real estate salesman and who has been convicted thereof in a court of competent jurisdiction of this or any other state;

(6) placing a sign on a property offering it for sale, lease or rent without first obtaining the written authority of the owner or his authorized agent to sell, lease or rent the property;

(7) splitting fees with or otherwise compensating others not licensed here under AS 08.88 for referring business;

(8) advertising to buy, sell, rent or exchange any real property for another or others without including in the advertisement the name of the employing or selling real estate broker. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.081
AS 08.88.111
AS 08.88.401

12 AAC 64.140. EMPLOYMENT OF UNLICENSED PERSONNEL. Grounds for revocation or suspension of licenses for employment of unlicensed personnel are as follows:

(1) retaining the services of any person as a real estate salesman or an associate real estate broker who is unlicensed under Alaska Statutes;

(2) accepting a commission or valuable consideration as a real estate salesman for the performance of any of the acts specified in the

laws or these regulations from any person except the real estate broker whose name appears on his license. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.081
AS 08.88.111
AS 08.88.401

12 AAC 64.150. FAILURE TO MAINTAIN A PLACE OF BUSINESS. Failure of a real estate broker to maintain a place of business is grounds for suspension or revocation of his broker's license. (Eff. 8/6/67, Reg. 24)

Authority: AS 08.88.081

TRUST ACCOUNTS

Section
180. Establishment of trust account
190. Trust funds exempt from attachment, other process
200. Deposit to trust account
210. Trust account interest
220. Record of trust account transactions
230. Trust funds other than earnest money
240. Broker's commission
250. Prohibited activity
260. Violation

12 AAC 64.180. ESTABLISHMENT OF TRUST ACCOUNT. (a) Every real estate broker shall establish a trust account in a bank authorized to do business in this state, and the name of the account so established must include the words "trust account" or "trustee account."

(b) Every real estate broker shall file with the Department of Commerce and Economic Development the name of the account, the account number, and the name of the bank which holds the account for all trust accounts held by the broker.

(c) The broker who establishes the account shall be trustee of the account and responsible for all signatories to that account.

(d) If maintenance expenses are charged against a trust account, the broker shall deposit a sum of money not exceeding $100 to the trust account for the purpose of paying the maintenance expenses of the account and shall make additional deposits when necessary, but not to exceed $100 on deposit.

(e) All trust accounts must be demand accounts only. (Eff. 1/19/78, Reg. 65)

Authority: AS 08.88.081
AS 08.88.351

12 AAC 64.190. TRUST FUNDS EXEMPT FROM ATTACHMENT, OTHER PROCESS. No provision may be made for a bank to withhold issue of funds from a trust account except upon a court order. (Eff. 1/19/78, Reg. 65)

Authority: AS 08.88.081
AS 08.88.351

12 AAC 64.200. DEPOSIT TO TRUST ACCOUNT. All money deposited with the broker or person employed by or affiliated with the broker as trustee in real estate transactions must be deposited in or mailed to the trust account within five days following receipt unless factors such as geographical location, weather conditions, or transportation facilities make such depositing impossible or unreasonable. (Eff. 1/19/78, Reg. 65)

Authority: AS 08.88.081
AS 08.88.351

12 AAC 64.210. TRUST ACCOUNT INTEREST. If a trust account bears interest,

that fact and the rate of interest must be disclosed to the trustor. (Eff. 1/19/78, Reg. 65)

Authority: AS 08.88.081
AS 08.88.351

12 AAC 64.220. RECORD OF TRUST ACCOUNT TRANSACTIONS. (a) A broker shall keep a complete record of all trust account transactions and assign a transaction account number to each transaction. The broker shall assign a transaction number to all written offers on real estate. For property management transactions, the broker shall assign a transaction number to each landlord for whom property is managed or to each property managed.

(b) The record of the trust transactions must include

(1) deposit slips showing date, transaction account number, amount of deposit, and trustor's name;

(2) all checks and check records, including voided checks, written on the trust account, showing the date, the payee, and the transaction account number; and

(3) a ledger or its equivalent showing transaction number, all deposits to the trust account, and all withdrawals from the trust account identified by check number and payee.

(c) Trust accounts must be reconciled monthly.

(d) A complete record must be kept in the trust ledger of all transactions in which deposits are not made to the broker's trust account, including direct deposits to an escrow agent's trust account. (Eff. 1/19/78, Reg. 65)

Authority: AS 08.88.081
AS 08.88.351

12 AAC 64.230. TRUST FUNDS OTHER THAN EARNEST MONEY. (a) For trust funds other than earnest money including, but not limited to, rents or mortgage payments, records must be kept consistent with the requirements of sec. 220 of this chapter.

(b) Failure of a licensee engaged in property management to comply with the provisions of AS 34.03 is considered fraudulent or dishonest conduct within the meaning of AS 08.88.071(a)(3)(A)(iv). (Eff. 1/19/78, Reg. 65)

Authority: AS 08.88.071
AS 08.88.081
AS 08.88.351

12 AAC 64.240. BROKER'S COMMISSION. (a) Each withdrawal of a broker's commission from a trust account must be separate and separate and identified as to the specific transaction.

(b) A broker shall withdraw his or her commission from a trust account within 15 days after the date that the transaction has been closed or otherwise settled. (Eff. 1/19/78, Reg. 65)

Authority: AS 08.88.071
AS 08.88.081
AS 08.88.351

12 AAC 64.250. PROHIBITED ACTIVITY. No broker may

(1) pay a salesman's commission directly from the trust account;

(2) pay bills for his or her business or personal obligations from the trust funds;

(3) use trust funds to pay the maintenance expenses of a trust account;

(4) deposit funds belonging to him or her in a trust account, except those described in sec. 180(d) of this chapter; or

(5) withdraw funds from a trust account without fully complying with the recordkeeping requirements of sec. 220 of this chapter. (Eff. 1/19/78, Reg. 65)

Authority: AS 08.88.071
AS 08.88.081
AS 08.88.351

12 AAC 64.260. VIOLATION. Failure to comply with secs. 180 – 260 of this chapter or the withholding of records or trust property which a broker is required to maintain, from that broker, or failure to turn over to the Real Estate Commission, upon the request of the commission, records that are required by this chapter is considered fraudulent and dishonest conduct within the meaning of AS

08.88.071(a)(3)(A)(iv). (Eff. 1/19/78, Reg. 65)
Authority: AS 08.88.071
AS 08.88.081

Complaint Handling/
Investigations
Real Estate Licensees

This shall serve to clarify and establish the procedure for processing complaints received against real estate licensees only.

I. RECEIPTING

A. All complaints received, whether received at the Juneau or Anchorage office, will be date-time stamped immediately on receipt and assigned a file control number, thereby entering the complaint into the main control system maintained by the Investigations Section. All complaints against real estate licensees are to be forwarded at the same time to the executive secretary for initial review and processing.

B. A carbon copy of the complaint will be retained by the Investigations Section with no other action to be taken by the Investigations Section at this point. The executive secretary may continue to utilize whatever case number/control system which best applies to his purpose.

II. EXECUTIVE SECRETARY REVIEW

A. The executive secretary will conduct the initial review of all complaints received against real estate licensees. The executive secretary will consider and attempt to establish jurisdictional authority and whether or not it appears that a violation has or may have occurred and proceed as follows:

1. Matters determined not to be within the Commission's jurisdiction, no violation, or matters which may be closed informally will be brought before the Commission for formal concurrence to close.

2. If the matter cannot be closed informally initially, the ten-day letter will be sent to the respondent to determine the respondent's position in the issue. Discretion should be used, as all complaints would not dictate the use of this letter.

3. At this time, after receiving response to the ten-day letter, if the matter is to be closed informally, it will be brought before the Commission for formal concurrence to close.

4. As such matters are closed, a report of closure will be prepared and entered as a matter of record as the last transaction in the file.

5. Matters not to be closed, which involve violations, will be transferred to the Investigations Section for further processing.

B. The executive secretary will not receipt, review, or retain any complaint concerning possible conflicts of interest, i.e. complaints concerning the executive secretary or a Commission member or their relatives or business partners, past or present, or any matter involving unlicensed activity. These complaints will be immediately referred to the Investigations Section. The executive secretary will not be involved with these complaints.

III. REFERRALS TO THE INVESTIGATIONS SECTION

At any time following receipt of a complaint it becomes evident that a violation has or may have occurred, it is to be transferred in its entirety to the Investigations Section with a cover memorandum. This memorandum will serve to provide a record of the transfer and will include a brief synopsis of the matter, a priority recommendation and an index of the record developed to that point. Details of the information developed to that point will not be exposed to the members of the Commission. Full responsibility for all files and case handling thereafter rests with the Investigations Section. The executive secretary will not be further involved except at the request of the Investigations Section, usually to provide input, advice or other appropriate assistance relating to the field of real estate or particular real estate matters.

IV. INVESTIGATIONS SECTION - PROCESSING

A. If the Investigations Section determines that no violation or jurisdiction exists, the Section will provide a full report and/or the investigative file, as appropriate, to the Commission for their formal concurrence to close.

B. If the Investigations Section determines that a violation has occurred, the completed investigation file will be referred to the Department of Law for appropriate preparation for litigation. At the time an accusation is served on the respondent, a copy will be sent to the Commission members by the Investigations Section. This is a function of the Chief Investigator.

C. If the Department of Law determines that a matter is not adequately supported, or if a matter is determined to be of such

insignificance not to warrant process in litigation, that matter will be otherwise processed by the Investigations Section for resolution or closure. This may be accomplished by the Department of Law, or will be in accordance with recommendations by that department which will probably include resolution directly by the Commission. Regardless, these matters will be brought before the Commission for formal concurrence to close or for the Commission to resolve and close.

V. CLOSURES, WITHOUT HEARINGS

All cases closed that do not require hearing or other litigation process by the Commission, whether closed by the executive secretary or the Investigations Section, will contain a report of closure as the last document in the file. This report of closure will include as a minimum the date closed before the Commission and a clear, but brief, explanation why the Commission closed the matter. Recommendations for referral, as appropriate, will also be written into the report of closure. The closed file will then be transferred with the cover memorandum (see III above) to the Investigations Section. The Investigations Section will then proceed to close the matter from the main Investigations Section files maintained by the Chief Investigator.

VI. REPORTS TO THE REAL ESTATE COMMISSION

A. The Real Estate Commission will receive a written status report prior to each meeting on all cases currently handled by the Investigations Section. A similar report will be provided on all cases currently being handled by the executive secretary. This will consist of stating the number of cases open since the last report, number in progress, and the number closed since the last report.

B. Status reports, whether prepared by the Investigations Section or the executive secretary, will not contain investigative details or developments or inferences of guilt or innocence. The Commission members will not be exposed to such information until the case is presented for closure by the Commission or presented in hearing.

VII. GENERAL

Cases currently under process by the executive secretary will be retained by the executive secretary until resolved or documented in detail what has been done to date pursuant to III above.

This procedure is effective on receipt and follows discussion before the Real Estate Commission during the meeting of December 6, 1978. Any problems which may develop on implementation of this procedure, or any requests for changes or additions, should be sent to this office immediately for consideration.

DH/mh/5/12

cc: Frank Moore, Investigator, Anchorage Field Office
Bob Barton, Investigator, Anchorage Field Office

Executive Secretary to the Real Estate Commission
Description of Duties

Administer and supervise the activities and functions of the Real Estate Commission office, arranging for efficient operation of office procedures in accordance with the law and policies set by the Real Estate Commission.

Resolve complaints from the public and the profession regarding violations of the Real Estate Act, AS 08.88, and provide for settlement or refer the matter to the proper court for appropriate action.

Interpret and administer the statutes (AS 08.88) and Regulations (12 AAC 64) in order to properly apply them to the functions of the office in the best interest of the public. Recommend any needed additions or amendments to regulations and/or statutes.

Establish policies to assure that the provisions of the statutes and regulations will be adequately administered for the protection of the public.

Assist the Office of the Attorney General and/or the District Attorney to compile and provide evidence to support and prosecute claims of violations of AS 08.88, Real Estate Act.

Attend and participate in professional meetings of District, State, and regional levels, and report in writing back to Commission and Department. Attend all regular Real Estate Commission meetings.

Approve real estate schools or classes in collaboration with the Real Estate Commission and review their curriculum to assure that it corresponds to the statutes, regulations and accepted real estate practices current in the State. Require reports by the schools as are deemed necessary to determine the students' course of study.

Keep the public alerted of the services available and to publicize violations.

Prepare figures on estimated expenditures to assist the Division in preparing the annual budget.

Compile and file a quarterly consolidated activities report with the Real Estate Commission and Department of Commerce.

Perform other duties as may be required by the Department of Commerce or the Real Estate Commission.

Norman E. Staton
Assistant Attorney General

SUBJECT: Educational Testing Service Contract

You have requested us to review the $50 examination fee of the Alaska Real Estate Commission in light of the proposed change of the Educational Testing Service conducting the examination and charging $11.

From the letter of James L. Magowan, Executive Secretary of the Alaska Real Estate Commission, we assume the following facts. Presently, each applicant is charged a $50 examination fee by the Division of Occupational Licensing. In the future, the Educational Testing Service will be responsible for the total administration of the examination and will directly charge each applicant $11 to take the exam. This change raises the issue of whether the commission should credit the $11 examination fee charged by ETS to the general $50 examination fee or in the alternative have the $11 examination fee be in addition to the general $50 examination fee.

We recommend that ETS's $11 examination fee be credited to the general $50 examination fee. Although Mr. Magowan proposes that the regulations could be drafted either way, we remind you that the regulations must be consistent with the statute. Under AS 08.88.111, 1/ the Department of Commerce shall adopt procedural regulations regarding examination. The proposed change appears consistent with AS 08.88.111, in that the examination will be separated into two parts. The first, a written examination of the applicant's minimum competence and the second, examination of the applicant's qualifications.

1/ AS 08.88.111. Department Regulations. The department shall adopt procedural regulations describing
(1) how it conducts an examination;
(2) how a person applies to take an examination, applies for a license, and registers his office.

However, under AS 44.62.030 2/ the proposed regulation must be consistent with the statute. AS 08.88.221 3/ provides for a $50 examination fee and as a result of AS 44.62.030, the proposed regulation must not exceed that amount or it will be invalid.

Therefore, we recommend the proposed regulation provide that the ETS examination fee be credited to the general $50 examination fee.

In addition, we feel it appropriate to comment on Mr. Magowan's statement that the regulations could be adopted on an emergency basis. The proposed regulation would not seem to be "necessary for the immediate preservation of the public peace, health, safety or general welfare" and as a result, would not qualify as a emergency regulation of AS 44.62.250. We recommend that you coordinate the time sequence for your regulations with your need requirements without the use of emergency regulations.

2/ AS 44.62.030. Consistency between regulation and statute. If, by express or implied terms of a statute, a state agency has authority to adopt regulations to implement, interpret, make specific or otherwise carry out the provisions of the statute, no regulation adopted is valid or effective unless consistent with the statute and reasonably necessary to carry out the purpose of the statute.

3/ AS 08.88.221. Fees. (a) The following fees shall be charged a real estate broker or associate broker licensee or applicant when applicable: (1) examination ... $50.

IN THE SENATE BY THE JUDICIARY COMMITTEE

CS FOR SENATE BILL NO. 212 (Judiciary)

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act relating to the regulation of real estate brokers and salesmen; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 08.88.041(b) is amended to read:

(b) Of the five members of the commission who must be real estate brokers or associate brokers, one [ONE] member [OF THE COMMISSION] shall be from the First Judicial District, one shall be from the Second Judicial District, one shall be from the Third Judicial District, one shall be from the Fourth Judicial District and one shall be from the state at large. However, if no licensed real estate broker or licensed associate broker [PERSON] is eligible or available for appointment from the Second Judicial District, then two licensed real estate brokers or licensed associate brokers shall be appointed from the state at large.

* Sec. 2. AS 08.88.071(a) is amended by adding a new paragraph to read:

(6) issue a temporary permit to the executor, administrator, or personal representative of the estate of a deceased broker or to some other person designated by the commission in order to secure proper administration in concluding the affairs of decedent broker's real estate business.

* Sec. 3. AS 08.88.091 is repealed and re-enacted to read:

Sec. 08.88.091. EDUCATION. The commission shall

(1) initiate and maintain a program of continuing education in real estate by

(A) reviewing and, when applicable, granting approval to courses of instruction which provide opportunity to persons engaged in the real estate business to gain knowledge and reasonable proficiency in current real estate practices and procedures;

(B) defining course standards, to include a variety of subject material covering general and special areas of real estate practice and procedure in courses presented by

(i) accredited educational institutions;

(ii) private vocational schools;

(iii) correspondence schools; or

(iv) educational programs, seminars, and workshops offered by institutes, professional societies and organizations, and equivalent offerings;

(C) qualifying instructors to present approved courses of instruction based on the academic qualifications and practical experience in real estate of the instructor and the specific course to be offered;

(2) assist in conducting real estate clinics, meetings, courses, or institutes;

(3) assist educational institutions in sponsoring studies and programs for the purpose of raising the standards of the real estate business and the competency of licensees; and

(4) maintain a list of those educational programs which receive approval under (1) of this subsection.

* Sec. 4. AS 08.88.171(a) is amended to read:

(a) A person is entitled to a real estate broker license if he has been a resident of the state for 90 days and if he applies for his license within six months after <u>the date he completed the real estate examination, furnishes satisfactory proof that he has successfully com-</u>

pleted all requirements imposed by AS 08.88.173 [RECEIPT OF NOTICE THAT HE HAS PASSED THE REAL ESTATE EXAMINATION, FILES THE REQUIRED BOND], and is an owner of a real estate business or employed as a real estate broker by a corporation or a partnership, if the corporation or partnership does not have an existing licensed broker. Unless the broker [HE] fails to pay the biennial renewal fee or fails to furnish satisfactory proof that he has complied with all continuing educational requirements under AS 08.88.175, or unless his license is suspended or revoked under AS 08.88.071(3), the [A] real estate broker's license continues in effect so long as he is an owner of a real estate business, or he is employed as a real estate broker by a corporation or a partnership. If he stops being an owner of a real estate business, or stops being employed as a real estate broker by a corporation or partnership, his license is suspended from the time he stops until

(1) he again becomes an owner of a real estate business or is again employed as a real estate broker by a corporation or a partnership; or

(2) he is employed by a licensed real estate broker, in which case his real estate broker license is returned to the department, and the department issues him an associate real estate broker license.

* Sec. 5. AS 08.88.171(b) is amended to read:

(b) A person is entitled to an associate real estate broker license if he has been a resident of the state for 90 days and if he passes the real estate examination, applies for his license within six months after the date he completed the real estate examination, furnishes satisfactory proof that he has successfully completed all requirements imposed by AS 08.88.173 [RECEIPT OF NOTICE THAT HE HAS PASSED THE EXAMINATION, FILES THE REQUIRED BOND], and is employed by a licensed real estate broker. Unless the associate broker [HE] fails to pay the

biennial renewal fee or fails to furnish satisfactory proof that he has complied with all continuing educational requirements under AS 08.88.175, or unless his license is suspended or revoked under AS 08.88.071(3), the [AN] associate real estate broker's license continues in effect so long as he is employed by a licensed real estate broker. If he stops being employed by a licensed real estate broker, his license is suspended from the time he stops until

(1) he again is employed by a real estate broker; or

(2) he becomes an owner of a real estate business, in which case his associate real estate broker license is returned to the department, and the department issues him a real estate broker license.

* Sec. 6. AS 08.88.171(c) is amended to read:

(c) A person is entitled to a real estate salesman license if he has been a resident of the state for 90 days and if he passes the real estate salesman examination, applies for his license within six months after the date he completed the real estate examination, furnishes satisfactory proof that he has successfully completed all requirements imposed by AS 08.88.173 [RECEIPT OF NOTICE THAT HE HAS PASSED THE EXAMINATION, FILES THE REQUIRED BOND], and is employed by a real estate broker. Unless the salesman [HE] fails to pay the biennial renewal fee or fails to furnish satisfactory proof that he has complied with all continuing educational requirements under AS 08.88.175, or unless his license is suspended or revoked under AS 08.88.071(3), the [A] real estate salesman's license continues in effect so long as he is employed by a licensed real estate broker. If he stops being employed as a real estate salesman, his license is suspended from the time he stops until he again is employed by a licensed real estate broker.

* Sec. 7. AS 08.88 is amended by adding new sections to read:

Sec. 08.88.173. PREPARATORY REQUIREMENTS. (a) An applicant for

an initial license as a real estate broker or associate real estate broker shall provide evidence that he has passed the real estate examination and, during the two years preceding submission of his license application, successfully completed 60 hours of courses, workshops, seminars, institutes or programs approved by the commission under AS 08.88.091(1).

(b) An applicant for an initial license as a real estate salesman shall provide evidence that he has passed the real estate examination and, during the two years preceding submission of his license application, successfully completed 30 hours of courses, workshops, seminars, institutes or programs approved by the commission under AS 08.88.091(1).

Sec. 08.88.175. CONTINUING EDUCATION REQUIREMENTS. (a) A real estate broker, associate real estate broker, or real estate salesman who holds an active license or who seeks reinstatement of an inactive license shall provide evidence that he has, during the two years preceding the biennial renewal period, successfully completed 30 hours of courses, workshops, seminars, institutes or programs approved by the commission under AS 08.88.091(1).

(b) The provisions of (a) of this section do not apply to a person renewing an inactive license within two years of the date on which his license becomes inactive.

Sec. 08.88.177. CREDIT FOR INSTRUCTION. A real estate broker, associate real estate broker, or real estate salesman who provides evidence that he has been an instructor in a course, workshop, seminar, institute or program approved by the commission under AS 08.88.091(1) shall receive credit for his hours as an instructor against the requirements of AS 08.88.175. The commission may give course instruction credit under this section only once for the same course of instruction.

* Sec. 8. AS 08.88.211(a)(4) is amended to read:

(4) has not been convicted of forgery, embezzlement, obtaining money under false pretenses, larceny, extortion, conspiracy to defraud or similar offense or of a felony involving moral turpitude within the past 10 years, is not under indictment for fraud or embezzlement and has not engaged in conduct that demonstrates that he is unfit to be a real estate broker;

* Sec. 9. AS 08.88.211(b) 3) is amended to read:

(3) has not been convicted of forgery, embezzlement, obtaining money under false pretenses, larceny, extortion, conspiracy to defraud or similar offense or of a felony involving moral turpitude within the past 10 years, is not under indictment for fraud or embezzlement and has not engaged in conduct that demonstrates that he is unfit to be a real estate salesman;

* Sec. 10. AS 08.88.241 is amended to read:

Sec. 08.88.241. REINSTATEMENT OF LAPSED LICENSE. A licensee who was required to take an examination before receiving a license and whose license has lapsed for more than six months [THREE YEARS] shall be re-examined before reinstatement.

* Sec. 11. AS 08.88.251(b) is amended to read:

(b) An inactive licensee may not do anything authorized by [ANY OF THE THINGS] AS 08.88.161 for [AUTHORIZES] an active licensee [TO DO, NOR IS HE REQUIRED TO HAVE A BOND].

* Sec. 12. AS 08.88.251(c) is amended to read:

(c) A person who is inactive may become active by applying for an active license, paying the required fees, and providing evidence of completion of educational requirements, when required [BY RETURNING TO THE DEPARTMENT HIS INACTIVE LICENSE CERTIFICATE, THE ACTIVE LICENSE BIENNIAL RENEWAL FEE, IF HE BECOMES ACTIVE MORE THAN FIVE MONTHS BEFORE JANUARY 1 FOLLOWING, AND A COMPLETED FORM PROVIDED BY THE DEPARTMENT]. In the

application form he shall state the date on which he intends to become active. His active status begins on the date stated. The department shall send him a license certificate. A person is entitled to change from an inactive to an active status without examination if he has not been inactive more than three years. If he has been inactive more than three years, he is required to take an examination.

* Sec. 13. AS 08.88. is amended by adding a new section to read:

Sec. 08.88.263. LICENSE BY ENDORSEMENT. A person who holds a valid active real estate license issued by another state shall be granted an equivalent Alaska real estate license if he

(1) passes the portion of the real estate examination which examines on Alaska law; and

(2) meets the requirements of AS 08.88.171 and 08.88.211.

* Sec. 14. AS 08.88.361 is amended to read:

Sec. 08.88.361. WHEN COMMISSION IS EARNED. A commission is earned when the real estate broker fulfills the terms of a written agreement [FINDS A BUYER WILLING AND ABLE TO PURCHASE AT A PRICE AND ON TERMS SET BY THE SELLER, PROVIDING NEGOTIATIONS WITH THE BUYER WERE INITIATED DURING THE TERM OF A VALID LISTING AGREEMENT AND WITHIN THE TIME LIMIT OF THE LISTING].

* Sec. 15. AS 08.88.261 is repealed.

* Sec. 16. Section 1 of this Act takes effect February 1, 1981. Sections 2, 3, 8 - 11, and 13 - 15 of this Act take effect immediately in accordance with AS 01.10.070(c). Sections 4 - 7 and 12 of this Act take effect February 1, 1980.

1978 Proposed Amendments by Commission

Add new statute
08.88.176 Death of a Broker. In the event of a death of a broker, the real estate commission shall have the authority to issue a temporary permit to the executor, administrator, or representative of the estate of the deceased broker or to some person designated by the real estate commission to continue to transact business for the sole purpose of concluding the affairs of the deceased broker.

Change Sec. 08.88.361. When commission is earned. To read: A commission is earned when the real estate broker fulfills the terms of a written employment agreement.

Change Sec. 08.88.091. Education. To read: The commission shall establish and assist in conducting real estate clinics, meetings, courses, or institutes. The commission shall assist educational institutions in sponsoring studies and programs for the purpose of raising the standards of the real estate business and the competency of licensees.

Add new statute
08.88.036. Educational Coordinator of Commission. The Commissioner of Commerce and Economic Development shall appoint a full time staff administrator whose duties shall be to serve with the Real Estate Commission to carry out the requirements of Sec. 08.88.091 of this chapter.

Change Sec. 08.88.171. Entitlement to license. To read: (a) A person is entitled to a real estate broker license if he has been a resident of the state for 90 days and if he applies for his license within six months after the date he took the exam, furnishes satisfactory proof that he has completed successfully all educational requirements adopted by the commission, and is an owner of a real estate business or employed as a real estate broker by a corporation or a partnership.....(all of the rest of (a)(1)(2) remain the same)

(b) A person is entitled to an associate real estate broker license if he has been a resident of the state for 90 days and if he passes the real estate examination, applies for his license within six months after the date he took the exam, furnishes satisfactory proof that he has completed sucesssfully all educational requirements adopted by the commission, and is employed by a licensed real estate broker..... (all of the rest of (b)(1)(2) remain the same)

(c) A person is entitled to a real estate saleman license if he has been a resident of the state for 90 days and if he passes the real estate salesman examination, applies for his license within six months after the date he took the exam, furnishes satisfactory proof that he has completed successfully all educational requirements adopted by the commission, and is employed by a real estate broker.....(all of the rest of (c)(d) remain the same)

Delete Sec. 08.88.261

Add new statute
08.88.177. Reciprocity. A person who holds a valid active real estate license from another state shall be granted an equivalent Alaska real estate license upon passing the Alaska law portion of the exam and meeting the requirements of Sec. 171 and 211 of this chapter.

Delete from Sec. 08.88.251(b) nor is he required to have a bond.

Change Sec. 08.88.211(a)(4) to read: has not been convicted of forgery, embezzlement, obtaining money under false pretences, larceny, extortion, conspiracy to defraud, or any other similar offense or offenses or has not been convicted of a felony involving moral turpitude within the past 10 years, is not under indictment for fraud or embezzlement and has not engaged in conduct that demonstrates that he is unfit to be a real estate broker;

Change Sec. 08.88.211(b)(3) to read: has not been convicted of forgery, embezzlement, obtaining money under false pretences, larceny, extortion, conspiracy to defraud, or any other similar offense or offenses or has not been convicted of a felony involving moral turpitude within the past 10 years, is not under indictment for fraud or embezzlement and has not engaged in conduct that demonstrates that he is unfit to be a real estate saleman;

Delete from Sec. 08.88.251(c), if he becomes active more than five months before January 1 following,

Change Sec. 08.88.251(c) to read: A person is inactive may become active by applying for an active license and paying the required fees, and a completed form provided by the Department. (The rest of the section remains the same)

Change Sec. 08.88.241. Reinstatement of lapsed license. A licensee who was required to take an examination before receiving a license and whose license has lapsed for more than six months shall be re-examined before reinstatement.

STATE of ALASKA

MEMORANDUM

TO: Elaine Garrett
Management Analyst

DATE: August 29, 1979

FILE NO:

TELEPHONE NO:

FROM: James L. Magowan
Executive Secretary
Real Estate Commission

SUBJECT: Real Estate Investigation/ Complaints (Memo of 8/23/79)

There is apparently some confusion of terms in regard to "investigations." Most cases before the real estate commission have not been investigated in great depth. What has been done since 1976 is as follows:

1. Receipt of written complaint
2. All licenses implicated are sent "10 day letter"
3. Response and complaint are evaluated - if there is reason to continue at this point. Further investigation is made - occasionally interviews etc., are conducted.
4. If response satisfies us the case is recommended to the commission for closing.
5. If case's further investigated or file is prepared for Attorney General to issue accusation

As far as I have been concerned all written complaints are investigated - even if only to the extent of requiring a response to a 10-day letter.

The 10-day letter automatically requests trust account records - this is our only form of random "auditing."

Most "complaints" or inquiries are not written and no record of them exists. I receive many phone calls each day from persons who are not

pleased with real estate transactions. Most complaints - both written and phoned are from the public. We receive a few from licensees. Sometimes the caller is able to resolve the problem by calling the licensee and telling them what I said. Sometimes I make a call or two to find out "what is going on" which results in problems disappearing.

I estimate the phone complaints at better than 3 or 4 times the number of written complaints.

There are also innumerable calls from licensees asking clarification of the law with respect to specific situations. The phone inquiries absorb most of my time. Over the past four years I have been able to thoroughly investigate few cases because the initial receipt of cases and the phone inquiries have taken most of my time.

The following is a tabulation of written complaints for FY 78 and FY 79.

FY 1978 Received 107 written complaints

Closed 94

Two licenses were revoked.

One license was denied.

One applicant was denied admittance to the examination.

One hearing on two licensees is in progress.

One exam score was cancelled (cheating - 2 applicants)

One hearing was requested on 9/1/78 by the commission but this has not occurred.

Six cases are classed as inactive. This means that to all appearances violations occurred but we are unable to do anything about them. Most cases involving unlicensed activity or requiring an audit go into this category. We have not been able to interest the Attorney General's office in prosecuting unlicensed activity and we do not have auditors available.

It should be noted that in the past we have used Revenue Auditors on several occasions. This has not proven effective because the books often balance. The licnesees simply do not maintain proper records for the problem transactions. It requires investigative auditors to uncover our violations.

FY 79 Received 127 written complaints

Closed 56

43 referred to investigations

14 inactive

1 revoked license

1 referred to B & S

4 advisory (letters but not actual complaints - no action is taken on these unless writer follows up)

2 Conflict of Interest - cases involving family, friends or commission members.

Six cases still with the Executive Secretary pending receipt and/or evaluation of responses.

Total for 2 years 234 written complaints

150 Closed

84 referred to investigations or inactive.

We are closing about 60% of our cases. A number of these have died of old age.

It should be noted that a number of serious cases have had hearings requested by the commission but there has been no action to proceed with hearings on most of these.

Most of our serious cases involve misrepresentation, fraud or embezzling. Misrepresentation, fraud and embezzling all require a considerable amount of investigation.

We know of brokers and salesmen who are repeat offenders but nothing happens.

Example: We currently are awaiting an accusation against [redacted], Broker. [redacted] confessed judgement in a $45,000 embezzlement.

Over a year ago the commission requested a hearing against [redacted] in another complaint. Last October in an inspection of her trust account I found a $7,000 embezzlement and again requested a hearing through the investigation section. There are about three other "old" complaints against her. Nothing has happened on these.

One case against her was referred to the ombudsman's office due to delay. The Legislative Audit felt the charge of delay was justified - and this case is the most difficult to prove and the most minor offense filed against her.

We get some complaints from licensees--usually difficulty in collecting earned commissions from brokers. Most of these are considered civil disputes and out of commission jurisdiction. The majority of our complaints are from aggrieved buyers and/or sellers.

H

STATE OF ALASKA
Board of Public Accountancy
(October, 1979)

Findings

The Board of Public Accountancy operates under AS 08.04 to license qualified applicants and regulate individuals within the profession. It is to the benefit of the public that business entities within communities can be competently evaluated and subsequently perpetuated on the basis of economic viability. The Board of Public Accountancy has demonstrated responsibility and conscientiousness in performing its duties. We believe that the Board and State regulation of the profession should continue.

I. General Information

A. Regulated Parties

1. Certified Public Accountants
2. Public Accountants
3. Partnerships and Corporations

B. Definitions

"(1) 'accountant' means any person licensed in the state as either a certified public accountant or public accountant under AS 08.04;

(7) 'practice of public accounting' means the holding of a CPA certificate or a PA license and the performance for the general public of any auditing services, accounting services, tax services, management services or special accounting services for compensation; this definition does not apply to acts of public officials or public employees in the performance of their duties, or to any officer, employee, partner, or principal except for those employed as an employee, partner, principal, or practitioner of a certified public accountant firm or public accountant firm;" (12 AAC 04.290)

C. Nature and Composition of Board

1. Board members and terms:

   Three-year term; no person who has served two successive complete terms may be reappointed until one year from the expiration of his term.

Charlotte Stuart, C.P.A., Inactive (Chairman)	ends April 25, 1981
James Dieringer, C.P.A. & P.A.	ends April 25, 1981
Vern Johnson, C.P.A. & P.A.	ends April 25, 1981
L. Pete Hogan, C.P.A.	ends April 25, 1980
Roxana Kemp (public member)	ends April 25, 1981
(professional member vacancy)	
(public member vacancy)	

2. Representation:

Profession = 5 (by statute)
Public = 2 (by statute)

3. Qualifications:

"Each member shall be a resident of this state for at least one year. Three members shall be certified public accountants, two members shall be public members in accordance with AS 08.01.025, and the remaining members shall be public accountants." All professional members must hold a current certificate or license or must be eligible to receive a permit. (AS 08.04.020)

D. Licensing Data

Current Licenses (through September, 1979)

in-State	364
out-of-State	37
Total	401

E. Fees

1.	examination	$ 50.00
2.	partnership change	5.00
3.	biennial permit (partnership or corporate practice)	60.00
4.	annual permit	100.00

Deficit	-	$ 3.70	-	-

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

One case remains open since August, 1976; this case went to litigation and in March, 1978, the individual's license was revoked. A March, 1977 case involving misuse of funds was responded to in August by the individual against whom the complaint was made; apparently no further action has been taken. Six complaints remain open from 1978: four show no action in the files, one is pending receipt of further information from the complainant, and one was resolved in July, 1978. Four complaints were received in 1979, all of which are pending investigation. Thirty-three cases have been purged from agency files and will be taken before the Board with a recommendation for closure due to age of complaint and lack of jurisdiction. (The Board considered and closed a number of these cases at its October, 1979 meeting.)

The twelve open cases consist of complaints regarding unlicensed activity, overcharging, misuse of funds, and criminal activities. Five were received from members of the profession and the remainder from the profession and/or Board.

II. Analysis

A. To what extent has the Board of Public Accountancy operated in the public interest?

The Board of Public Accountancy has acted in the public interest in assuring qualified practitioners and availability of services throughout the State. Recommendations and observations made in this review are designed to enhance Board operations in regulating the profession in a manner which is most desirable for the continued protection of the public.

The Board is given broad authority in its affairs under AS 08.04.070(b) which provides that the Board "may adopt and amend regulations for the orderly conduct of its affairs and for the administration of this chapter." Extensive regulations have been adopted by the Board (and more are being promulgated) concerning rules of professional conduct, meetings of the Board, requirements for certificate or license, examination procedures, reciprocity (endorsement), general provisions, and continuing education.

Applicants for licensure as Certified Public Accountants or Public Accountants must be at least 19 years old, Alaska residents, and of good moral character. They must also meet the education and experience requirements prescribed by the Board. All applicants for initial licensure in Alaska (who are not licensed by endorsement) must take the uniform CPA examination prepared and graded by the American Institute of Certified Public Accountants. The applicant may take and pass all parts of the CPA examination prior to obtaining the necessary experience. The examination consists of four major parts: auditing, theory, business law, and accounting practice; accounting practice consists of two "subparts." Applicants who have passed all of the accounting practice portion of any other two parts are considered to be "conditioned," and may retake all or any one of the remaining parts at subsequent examinations. The ability of Alaska applicants to take only portions of the test has been a matter of concern to the Board because some states require the "all or nothing" procedure; licensees who obtained their certificates in another manner may not be eligible for reciprocity or endorsement in those states. Alaska proctors for other states' candidates and most states proctor for Alaska candidates. The Board will also be requiring applicants who have passed the Uniform CPA examination to take and pass an ethics examination, graded by the American Institute.

As of September, 1979, there were 27 resident and 11 nonresident partnerships registered with the Department of Commerce and Economic Development, and 16 corporations. Eight individuals are licensed Public

Accountants, two of which are Board members, yet AS 08.04.020 requires two Public Accountants to serve on the Board. The Board is supposed to consist of seven members, three CPAs, two PAs, and two public members. Five members is considered to be adequate but is not in keeping with statutes.

Temporary certifications are statutorily provided for CPA applicants who do not meet residency requirements, or who do not have a place of business in the State, or are not regularly employed in the State. The Board does not issue temporary certificates. Residency requirements have not been shown to affect the job performance of licensees and have no relationship to their professional ability. It is suggested that all such requirements be deleted from Board statutes.

AS 08.04.425 mandates Board regulations prescribing criteria for continuing education as a condition of relicensure. Regulations effective January 18, 1978 accomplished this and will be utilized for December 31, 1979 renewals. Based upon a memorandum from the Department of Law dated October 27, 1978, renewal applicants will be required to have completed 58.5 hours of continuing education in 1979 and 60 hours each renewal prior thereafter (see Appendix A). Exceptions to continuing education requirements are instances of chronic illness, retirement, military service or as individually determined by the Board.

The Board has the authority to revoke or suspend certificates, licenses, registrations or permits. This has been done in some cases. The Board is actively concerned about enforcement and has suggested development and implementation of a positive enforcement program which would, of course, require additional funding.

Maintenance of records and supporting documents by the administrative agency is an area of some concern. Minutes clearly reflect approval and denial of applicants, Board policies and resolutions, and indications of

intent for actions (or inaction). Agency records, however, are lacking some pertinent information and follow through material. Steps have recently been taken to organize records and files for all boards and commissions, and relevant statistics on activity are being maintained. Efforts in this area will continue.

B. To what extent has the operation of the Board of Public Accountancy been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Generally speaking, the Board of Public Accountancy has done very well with the resources provided to it. As with all boards and commissions for which support services are furnished by the Department, it has been adversely affected by limitations in budget and personnel. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs; however, past employee turnover has impeded continuity and follow-up on Board requests. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct board revenues and expenses may be determined.

The Board has encountered the same difficulties as have all other boards and commissions with respect to investigative services provided by the administrative agency. During FY '78 two investigator positions were vacant; as a result, one position was abolished by the Legislature. At the present time, two investigators are located in Anchorage with a Chief Investigator located in Juneau. An additional investigator position was approved in the FY '80 budget but will probably not be filled immediately due to vacancy factors incorporated into the personal ser-

vice category of the budget. Procedural constraints of the administrative adjudication article of the Administrative Procedure Act (AS 44.62.330-.630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

Statutory authority given the Board allows it to develop regulations, policies and procedures suitable and appropriate for its operations. The Board actively formulates and institutes changes as necessary. Further regulations are now pending hearings, approval and adoption.

C. To what extent has the Board of Public Accountancy recommended statutory changes which are generally of benefit to the public interest?

Two public members were added to the Board in 1976; the examination fee was increased from $25 to $50; continuing education requirements were added; and several clarifying and housekeeping amendments were made. The Board supports CSSB 185, now in Senate Rules Committee, which concerns issuance of temporary permits. As previously noted, the Board reviews its statutes and regulations routinely.

D. To what extent has the Board of Public Accountancy encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The bulk of participation at Board meetings and hearings has come from applicants for certification and/or members of the profession. Among these, substantial interest has been demonstrated in proposed regulations, particularly with respect to experience requirements. As a result of professional participation, changes were incorporated into experience provisions prior to final adoption of regulations in August, 1979.

The Board has considered methods of encouraging public interest in its activities. Effective August, 1979, form letters to applicants will contain a statement inviting them to attend Board meetings. There is also a requirement under AS 08.04.080 that all licensees be notified of proposed Board rules.

Public interests are furthered by a presence of public members on the Board. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decision-making."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Public Accountancy processed and resolved?

---

[1] Shimberg, B and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

General inquiries regarding the activities of the Board are responded to by Department staff and by members of the Board. Indications are that these responses are both accurate and timely and that efforts are made to disseminate appropriate information.

Twelve open cases involving the profession were delineated earlier in this review, as were cases pending closure. Several were closed by the Board at its October, 1979, meeting.

F. To what extent does the Board of Public Accountancy present qualified applicants to serve the public?

Individuals wishing certification must submit fees and application to the administrative agency. They must have passed the CPA examination and meet the experience requirements. The examination and qualification procedure is designed to insure competency.

The Board is also making an active effort to insure quality service subsequent to certification through continuing education requirements and enforcement against abuses in practice.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Public Accountancy in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (also responsible to two other boards), who is hired through the State Personnel System and is subject to affirmative action requirements.

Licenses in this profession are issued on the basis of specific statutory criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, budgetary or other changes necessary to enable the Board of Public Accountancy to better serve the interests of the public?

Recommended statutory changes include: reduction of Board membership from seven to five and deletion of requirement for two Public Accountants on the Board (§ 200); deletion of requirement for notice of proposed rules to all licentiates (§ 080); repeal of residency and age requirements (§§ 110 and 280); repeal of § 120(1) as outdated; and repeal of § 260, regarding temporary certificates, as unnecessary.

Investigation and complaint procedures are being addressed by the administrative agency with emphasis being placed on magnitude of offense and public safety.

Board and administrative expenses outweigh revenues collected through regulation of this profession. Fees collected are not adequate to cover transportation and per diem for meetings and examinations, and Division of Occupational Licensing administrative overhead such as staff salaries, examination expenses, and investigative services.

180. Prior applicants
190. Examination fee
200. Use of title "certified public accountant"
210. Effect on existing certificates
220. Certification of foreign accountants
230. [Repealed]
240. Registration of partnerships and corporations composed of certified public accountants
250. [Repealed]
260. Temporary certificate as certified public accountant

Sec. 08.04.100. Certificate granted. The certificate of "Certified Public Accountant" shall be granted by the board to any person who meets the requirements of §§ 110-130 of this chapter. (§ 3(1) ch 187 SLA 1960)

Sec. 08.04.110. Personal requirements. An applicant for the certified public accountant certificate shall be

(1) Repealed by § 3 ch 127 SLA 1974.

(2) a resident of this state;

(3) at least 19 years of age; and

(4) of good moral character. (§ 3(2) ch 187 SLA 1960; am § 3 ch 127 SLA 1974)

Sec. 08.04.120. Educational and experience requirements. An applicant shall meet the following requirements of education and experience.

(1) During the period from April 26, 1960, to and including April 26, 1965, the educational requirement is graduation from a high school or the substantial equivalent thereof. The experience requirement is four years of accounting experience satisfactory to the board.

(2) After April 26, 1965, the educational requirement is

(A) satisfactory completion of two years of study at one or more colleges or universities recognized by the board, or

(B) graduation from a junior or community college in Alaska or otherwise recognized by the board, or

(C) the substantial equivalent of (2)(A) or (B) of this section.

The experience requirement is four years of accounting experience satisfactory to the board.

(3) After April 26, 1960, the education and experience requirements may also be satisfied by

(A) the satisfactory completion of four years of study with a nonaccounting major at one or more colleges or universities recognized by the board, and three years of accounting experience satisfactory to the board, or

(B) the satisfactory completion of four years of study with an accounting major at one or more colleges or universities recognized by the board, and two years of accounting experience satisfactory to the board. (§ 3(3)-(6) ch 187 SLA 1960)

Sec. 08.04.130. Examination. An applicant shall pass a written examination in theory of accounts, in accounting practice, in auditing and in other related subjects which the board determines appropriate. The examination shall be designated in advance by the board as an examination for the certificate of certified public accountant. The board shall use the uniform certified public accountants' examination and advisory grading service, if available. (§ 3(7) ch 187 SLA 1960)

Sec. 08.04.140. Frequency of examination. The examination shall be held by the board as often as it determines desirable but not more than three times each year. If the uniform certified public accountants' examination is available less frequently, an examination shall be held not less than once each year. (§ 3(8) ch 187 SLA 1960)

Sec. 08.04.150. Experience prerequisite for certificate. An applicant who meets the educational requirements of § 120 of this chapter may take the examination whether or not he has met the experience requirements of that section. However an applicant shall meet the experience requirements of § 120 of this chapter before he is entitled to receive a certificate. (§ 3(9) ch 187 SLA 1960)

Sec. 08.04.160. Re-examination. An applicant who fails an examination may take as many examinations as he chooses. An applicant who receives a passing grade in accounting practice or in at least two of the other subjects has the right to be re-examined in only the remaining subjects at succeeding examinations within five years after the first examination, if he takes an examination in the remaining subjects at least once each calendar year unless excused by the board for good cause. If the applicant receives a passing grade in the remaining subjects he has passed the entire examination. (§ 3(10) ch 187 SLA 1960)

Sec. 08.04.170. Examination standards. An applicant passes the examination by attaining a grade of at least 75 in each subject in which he is examined. The board may give credit to an applicant who has passed all or part of the examination in another state if the board determines that the standards under which the examination was held are

as high as the standards established for the examination in this State. (§ 3(10) ch 187 SLA 1960)

Sec. 08.04.180. Prior applicants. Any applicant who, before April 26, 1960, applied to take an examination for the certificate of certified public accountant, or held a valid license as a public accountant, or was regularly enrolled in any college or correspondence course in accounting, or any person whose registration under this chapter is accepted by the board, shall receive a certificate when he has met either the requirements of this chapter, or the requirements which were effective at the time his first application was filed, at the option of the applicant. (§ 3(11) ch 187 SLA 1960)

Sec. 08.04.190. Examination fee. The board shall charge each application a fee of $50 for the initial examination and for each reexamination. The applicant shall pay the fee at the time he applies for examination or reexamination. (§ 3(12 ch 187 SLA 1960; am § 1 ch 147 SLA 1976)

Sec. 08.04.200. Use of title "certified public accountant". A person who has received a certificate from the board as a certified public accountant and who holds a current permit issued under §§ 390-440 of this chapter shall be known as a certified public accountant and may use the abbreviation "CPA". (§ 3(13) ch 187 SLA 1960)

Sec. 08.04.210. Effect on existing certificates. A person who, on April 26, 1960, held a certificate as a certified public accountant issued under the laws of the Territory or State of Alaska is not required to obtain a certificate under this chapter but is otherwise subject to this chapter. Certificates issued before April 26, 1960, shall be considered certificates issued under this chapter. (§ 3(14) ch 187 SLA 1960)

Sec. 08.04.220. Certification of foreign accountants. Upon finding that an applicant meets the requirements of §§ 110 and 120 of this chapter the board may issue a certified public accountant certificate to an applicant who holds a certified public accountant certificate in effect under the laws of any state, or who holds a certificate, license or degree in effect in a foreign country which constitutes a recognized qualification for the practice of public accounting in that country comparable to that of a certied public accountant in this state. (§ 3(15) ch 187 SLA 1960)

Sec. 08.04.230. Registration of foreign accountants. Repealed by § 2 ch 147 SLA 1976.

Sec. 08.04.240. Registration of partnerships and corporations composed of certified public accountants. (a) A partnership engaged in this state in the practice of public accounting may register with the board as a partnership of certified public accountants if it meets the following requirements:

(1) at least one general partner must be a certified public accountant of this state in good standing;

(2) each partner must be a certified public accountant of some state in good standing; and

(3) except as otherwise provided in this chapter, each resident manager in charge of an office of a firm in this state, and each partner personally engaged in this state in the practice of public accounting as a member of that firm must be a certified public accountant of this state in good standing.

(b) A corporation organized for the practice of public accounting may register with the board as a corporation of certified public accountants if it meets the following requirements:

(1) the sole purpose and business of the corporation must be to furnish to the public services not inconsistent with this chapter or the regulations promulgated under it by the board; however, the corporation may invest its funds in a manner not incompatible with the practice of public accounting;

(2) each shareholder of the corporation must be a certified public accountant of some state in good standing and must be principally employed by the corporation or actively engaged in its business; no other person may have any interest in the stock of the corporation; the principal officer of the corporation and any officer or director having authority over the practice of public accounting by the corporation must be a certified public accountant of some state in good standing;

(3) at least one shareholder of the corporation must be a certified public accountant of this state in good standing;

(4) except as otherwise provided in this chapter, each resident manager in charge of an office of the corporation in this state and each shareholder or director personally engaged in this state in the practice of public accounting must be a certified public accountant of this state in good standing;

(5) to facilitate compliance with the provisions of this section relating to the ownership of stock, there must be a written agreement binding the corporation or the qualified shareholders to purchase shares offered for sale by, or not under the ownership or effective control of, a qualified shareholder and binding a holder not a qualified shareholder to sell these shares to the corporation or the qualified shareholders; the agreement must be noticed on each certificate of corporate stock; the corporation may purchase any amount of its stock for this purpose, notwithstanding any impairment of capital, so long as one share remains outstanding;

(6) the corporation must be in compliance with those other regulations pertaining to corporations practicing public accounting in this state that the board may prescribe.

(c) Application for registration must be made upon the affidavit of a general partner or shareholder who is a certified public accountant of this state in good standing. The board shall in each case determine whether the applicant is eligible for registration. A partnership or corporation which is so registered and which holds a permit issued under § 400 of this chapter may use the words "certified public accountants" or the abbreviation "CPA's" in connection with its partnership or corporate name. Notification shall be given the board, within one month, after the admission or withdrawal of a partner or shareholder from a partnership or corporation registered under this section. (§§ 5(1), 10(3) ch 187 SLA 1960; § 3 ch 147 SLA 1976)

Sec. 08.04.250. Requirements for registration. Repealed by § 4 ch 147 SLA 1976.

Sec. 08.04.260. Temporary certificate as certified public accountant. If an applicant for a certificate as a certified public accountant meets all the requirements for a certificate except the residence requirement, or the requirement that he have a place of business in the state or be an employee regularly employed in this state, the board may issue a temporary certificate as a certified public accountant. The certificate is effective until the board notifies the applicant that his application has been granted or rejected. A temporary certificate is effective for a period not exceeding six months. No fee may be charged for the issuance of a temporary certificate. (§ 6 ch 187 SLA 1960)

Article 3. Public Accountants.

Section
270. License granted
280. Personal requirements
290. Educational and experience requirements
300. Examination for license
310. Use of term "public accountant"
320. Effect on existing licenses
330. Partnerships of public accountants
340. Requirements for registration

Sec. 08.04.270. License granted. A license as a public accountant shall be granted by the board to a person who meets the requirements of §§ 280-320 of this chapter. (§ 7(1) ch 187 SLA 1960)

Sec. 08.04.280. Personal requirements. Any person is qualified to apply for a license who

(1) Repealed by § 4 ch 127 SLA 1974.

(2) is a resident of this state or has a place of business in this state or is an employee regularly employed in this state;

(3) is at least 19 years of age; and

(4) is of good moral character. (§ 7(2) ch 187 SLA 1960; am § 4 ch 127 SLA 1974)

Sec. 08.04.290. Educational and experience requirements. The requirements of education and experience shall be

(1) graduation from a high school or the substantial equivalent, and

(2) four years of accounting experience satisfactory to the board. (§ 7(3) ch 187 SLA 1960)

Sec. 08.04.300. Examination for license. (a) An applicant shall pass a written examination on subjects the board determines appropriate. The board shall designate the examination in advance as an examination for the license of public accountant.

(b) The examination shall be given by the board as often as it considers desirable but not less than once each year.

(c) The board shall charge each applicant a fee of $50 for an initial examination and for each reexamination. The applicant shall pay the fee at the time he applies for examination or reexamination. (§ 7(4)-(6) ch 187 SLA 1960; am § 5 ch 147 SLA 1976)

Sec. 08.04.310. Use of term "public accountant". A person who receives a license as a public accountant and who holds a permit issued under §§ 390-440 of this chapter, which are both in effect, shall be known as a public accountant and may use the abbreviation "PA." (§ 7(7) ch 187 SLA 1960)

Sec. 08.04.320. Effect on existing licenses. A person who, on April 26, 1960, held a license as public accountant issued under the laws of this state or the Territory of Alaska is not required to obtain a license under this chapter but is otherwise subject to this chapter. A license issued prior to April 26, 1960, shall be considered a license issued under this chapter. (§ 7(8) ch 187 SLA 1960)

Sec. 08.04.330. Partnerships of public accountants. A partnership engaged in this state in the practice of public accounting may register with the board as a partnership of public accountants, if it meets the requirements of § 340 of this chapter. In each case the board shall determine whether the applicant is eligible for registration. Applica-

tion for registration of a partnership shall be made upon the affidavit of a general partner of the partnership who is a certified public accountant or public accountant of this state in good standing. A partnership which is registered and holds a permit issued under §§ 390-440 of this chapter may use the words "public accountants" or the abbreviation "PA's" in connection with its partnership name. The partnership shall notify the board of any change in partners within one month from the date of the change, and pay a fee of $5. The board shall prescribe registration procedure by regulation. (§§ 8(1), 10(3) ch 187 SLA 1960)

Sec. 08.04.340. Requirements for registration. The board shall register a partnership if

(1) at least one general partner is a certified public accountant or public accountant of this state in good standing;

(2) each partner personally engaged in this state in the practice of public accounting is a certified public accountant or public accountant in good standing and holds a valid permit to practice issued under §§ 390-440 of this chapter;

(3) each nonresident partner is a certified public accountant in good standing in any state; and

(4) all offices of a partnership established or maintained in this state for the practice of public accounting in this state are maintained and registered as required by §§ 350-380 of this chapter. (§ 8(2) ch 187 SLA 1960)

Article 4. Regulation of Accountants.

Section
350. Registration of offices
360. Supervision required
370. Use of title "certified public accountant" by registered office
380. Waiver of requirements
390. Permit for individual practice as a public accountant
400. Permit for partnership or corporate practice as a public accountant
410. Permit for person not engaged in practice
420. Permit for general practice as a certified public accountant
425. Continuing education
430. Expiration and renewal
440. Effect of failure to obtain permit
450. Revocation or suspension of certificate, license, registration or permit
460. Suspension or revocation of license revokes permit
470. Revocation or suspension of partnership or corporate registration or permit
480. Grounds for revocation or suspension of partnership or corporate permit

490. Reinstatement

Sec. 08.04.350. Registration of offices. Each office established or maintained in this state for the practice of public accounting in this state

(1) by a certified public accountant, partnership or corporation of certified public accountants, or

(2) by a public accountant, partnership or corporation of public accountants, shall registered annually with the board. No fee may be charged for registration. The board shall prescribe registration procedure by regulation. (§ 9(1) ch 187 SLA 1960; am § 6 ch 147 SLA 1976)

Sec. 08.04.360. Supervision required. Each office established or maintained in this state for the practice of public accounting shall be under the direct supervision of a person in residence who holds a permit under §§ 390-440 of this chapter. The supervisor may be either a sole proprietor, partner, principal or staff employee. A supervisor may serve in this capacity at one office only. (§ 9(2) ch 187 SLA 1960)

Sec. 08.04.370. Use of title "certified public accountant" by registered office. The title "certified public accountant" or the abbreviation "CPA" shall not be used in connection with an office registered under this chapter unless the "person in residence" required by § 360 of this chapter is a certified public accountant in this state. (§ 9(3) ch 187 SLA 1960)

Sec. 08.04.380. Waiver of requirements. The board may waive the requirements of §§ 240(a)(3) and (b)(4), 360 and 370 of this chapter if

(1) the community has a population of 2,000 or less; and

(2) the firm opening or maintaining the office maintains another office in the state which meets the requirements outlined in §§ 360 and 370 of this chapter. (§ 9(4) ch 187 SLA 1960; am § 2 ch 70 SLA 1964; am § 7 ch 147 SLA 1976)

Sec. 08.04.390. Permit for individual practice as a public accountant. The board shall issue a permit to engage in the practice of public accounting to a holder of a certificate or license if all offices of the certificate holder or licensee are maintained and registered as required by §§ 350-380 of this chapter. The biennial permit fee is $60. (§ 10(1), (2) ch 187 SLA 1960; am § 8 ch 147 SLA 1976)

Sec. 08.04.400. Permit for partnership or corporate practice as a public accountant. The board shall issue a permit to engage in the practice of public accounting as a partnership or as a corporation to a

partnership or corporation registered under §§ 240 or 330-340 of this chapter. The biennial permit fee is $60. A permit is valid only for practice under the registered name of the partnership or corporation. (§ 10(3) ch 187 SLA 1960; am § 9 ch 147 SLA 1976)

Sec. 08.04.410. Permit for person not engaged in practice. A person holding a certificate or license not engaged in the practice of public accounting may maintain his certificate or license in good standing by registering with the board and paying an annual registration fee of $10. (§ 10(4) ch 187 SLA 1960; am § 10 ch 147 SLA 1976)

Sec. 08.04.420. Permit for general practice as a certified public accountant. A certified public accountant, or a partnership or corporation of certified public accountants in good standing in a state, not holding a permit under §§ 390 or 400 of this chapter nor maintaining an office in this state but engaging in the practice of public accounting in this state, shall apply to the board for a permit to practice. The board shall determine whether the applicant is eligible for the permit. The annual fee for the issuance of a permit is $100. (§ 10(5) ch 187 SLA 1960; am § 11 ch 147 SLA 1976)

Sec. 08.04.425. Continuing education. (a) the board shall by regulation prescribe requirements for continuing education for persons licensed to practice as certified public accountants under this chapter. In adopting these regulations, the board may

(1) use and rely upon guidelines and pronouncements with respect to continuing education issued by recognized educational and professional associations in the field; and

(2) prescribe content, duration and organization of courses or programs that will satisfy the continuing education requirements.

(b) After the expiration of two years immediately following the effective date of regulations promulgated by the board under (a) of this section, every application for renewal of a permit to practice as a certified public accountant by a person who has held a certificate as a certified public accountant for two years or more shall be accompanied or supported by documents or other evidence indicating satisfaction of the continuing education requirements prescribed by the board during the two years immediately preceding the application.

(c) Failure by an applicant for renewal of a permit to practice to furnish that evidence constitutes grounds for revocation, suspension or refusal to renew the permit under § 450 of this chapter, unless the board determines that failure to have been due to reasonable cause or excusable neglect. However, the board may renew a permit to practice despite failure to furnish evidence of satisfaction of the continuing education requirements established under (a) of this section if the applicant agrees to follow a particular program or schedule of continuing education prescribed by the board.

(d) In adopting regulations under (a) of this section, or in issuing individual orders under (c) of this section,

(1) the board shall consider

(A) the accessibility of applicants to the continuing education courses or programs that it may require; and

(B) any impediments to interstate practice of public accountancy which may result from differences in continuing education requirements prescribed by other states; and

(2) the board may relax or suspend the continuing education requirements

(A) for applicants who certify that they do not intend to engage in the practice of public accountancy; or

(B) in instances of individual hardship. (§ 12 ch 147 SLA 1976)

Sec. 08.04.430. Expiration and renewal. A permit or registration under §§ 390-420 of this chapter, unless revoked or suspended, shall be renewed biennially upon payment of a renewal fee in the same amount as the initial biennial fee. (§ 10(6) ch 187 SLA 1960; am § 3 ch 94 SLA 1968)

Sec. 08.04.440. Effect of failure to obtain permit. Failure of a person, partnership or corporation to apply for the annual permit to practice or to pay the annual fee within (1) three years from the expiration date of the permit to practice or annual registration last obtained or renewed, or (2) three years from the date upon which the certificate holder or licensee was granted his certificate as a certified public accountant or license as a public accountant deprives him of the right to a permit or annual registration or renewal of a permit, unless the board determines that the failure is excusable. In case of excusable failure, the fee shall not exceed three times the annual fee. (§ 10(7) ch 187 SLA 1960; am § 13 ch 147 SLA 1976)

Sec. 08.04.450. Revocation or suspension of certificate, license, registration or permit. The board may revoke or suspend a certificate or license, or may revoke, suspend, or refuse to renew any permit, or may censure any certificate holder, licensee, registrant, or permit holder for

(1) fraud or deceit in obtaining any certificate, license, registration, or permit required by this chapter;

(2) dishonesty or gross negligence in the practice of public accounting, or other acts discreditable to the accounting profession;

(3) violation of any provision of §§ 500-610 of this chapter;

(4) violation of a rule of professional conduct or other regulation promulgated by the board;

(5) conviction of a felony under the laws of any state or of the United States;

(6) conviction of any crime, an essential element of which is dishonesty or fraud, under the laws of any state or of the United States;

(7) cancellation, revocation, suspension, or refusal to renew authority to practice as a certified public accountant or public accountant in any other state for any cause other than failure to pay an annual registration fee;

(8) suspension or revocation of the right to practice before any state or federal agency; or

(9) [delete]

(10) failure of a certified public accountant to satisfy the continuing education requirements prescribed by the board under § 425 of this chapter, except as conditioned, relaxed or suspended by the board under § 425(c) and (d) of this chapter. (§ 11(1) ch 187 SLA 1960; am § 14 ch 147 SLA 1976)

Sec. 08.04.460. Suspension or revocation of license revokes permit. Revocation or suspension of a certificate, license, or registration required for the issuance of a permit under §§ 390-440 of this chapter revokes or suspends the permit. (§ 11(2) ch 187 SLA 1960)

Sec. 08.04.470. Revocation or suspension of partnership or corporate registration or permit. The board shall revoke the registration and permit to practice of a partnership or corporation if at any time it does not meet the qualifications prescribed by the sections of this chapter under which it qualified for registration. (§ 12(1) ch 187 SLA 1960; am § 15 ch 147 SLA 1976)

Sec. 08.04.480. Grounds for revocation or suspension of partnership or corporate permit. The board may revoke or suspend the registration and permit to practice of a partnership or corporation, may revoke, suspend or refuse to renew its permit to practice or may censure the partnership or corporation for any of the causes enumerated in §§ 450 and 460 of this chapter, or for the following additional causes:

(1) the revocation or suspension of the certificate, license or registration of any partner or shareholder;

(2) the revocation, suspension, or refusal to renew the permit to practice of any partner or shareholder;

(3) the cancellation, revocation, suspension, or refusal to renew the authority of the partnership or any partner or the corporation or a shareholder to practice public accounting in any other state for any cause other than failure to pay an annual registration fee in that state. (§ 12(2) ch 187 SLA 1960; am § 16 ch 147 SLA 1976)

Sec. 08.04.490. Reinstatement. Upon application in writing and after a hearing, the board may issue a new certificate to a certified public accountant whose certificate has been revoked, or may permit reregistration of one whose registration has been revoked, or may modify the suspension of or may reissue any certificate, license, or permit to practice public accounting which has been revoked or suspended. (§ 14 ch 197 SLA 1960)

Article 5. Unlawful Acts and Penalties.

Section
500. Individual posing as a certified public accountant
510. Partnership or corporation posing as a certified public accountant
520. Individual posing as public accountant
530. Partnership or corporation posing as public accountant
540. Use of deceptive title or abbreviation
550. [Repealed]
560. Individual may not assume title
570. Persons not affected
580. Partnership posing as accountants or auditors
590. Use of title with corporate name
600. Disclosure of lack of permit
610. Deceptive use of partnership or corporation title
620. Exceptions
630. Injunction against unlawful act
640. Penalty
650. Single act evidence of practice

Sec. 08.04.500. Individual posing as a certified public accountant. (a) No person may assume or use the title or designation "certified public accountant" or the abbreviation "CPA" or any other title, designation, word, letter, abbreviation, sign, card, or device tending to indicate that he is a certified public accountant, unless he has received a certificate, holds a permit issued under §§ 390-440 of this chapter, hereinafter referred to as a "live" permit, and all of his offices in this state for the practice of public accounting are maintained and registered as required by §§ 350-380 of this chapter.

(b) This section does not prohibit

(1) a certified public accountant in good standing in any state holding a permit under § 420 of this chapter from using the title certified public accountant;

(2) Repealed by § 17 ch 147 SLA 1976. (§ 15(1) ch 187 SLA 1960; am § 17 ch 147 SLA 1976)

Sec. 08.04.510. Partnership or corporation posing as a certified public accountant. (a) No partnership or corporation may assume or use the title or designation "certified public accountant" or the abbreviation "CPA" or any other title, designation, word, letter, abbreviation, sign, card, or device tending to indicate that it is composed of certified public accountants, unless the partnership or corporation is registered and holds a live permit, is practicing under its registered name, and its offices in this state for the practice of public accounting are maintained and registered as required by §§ 350-380 of this chapter.

(b) A partnership or corporation of certified public accountants in good standing in any state, not registered as a partnership or corporation of certified public accountants under §§ 240 and 250 of this chapter but holding a permit under § 420 of this chapter, may use the title or designation "certified public accountants." (§ 15(2) ch 187 SLA 1960; am § 18 ch 147 SLA 1976)

Sec. 08.04.520. Individual posing as public accountant. No person may assume or use the title or designation "public accountant" or the abbreviation "PA" or other title, designation, word, letter, abbreviation, sign, card, or device tending to indicate that he is a public accountant, unless he holds a live permit and his offices in this state for the practice of public accounting are maintained and registered as required by §§ 350-380 of this chapter. (§ 15(3) ch 187 SLA 1960)

Sec. 08.04.530. Partnership or corporation posing as public accountant. No partnership or corporation may assume or use the designation "public accountant" or the abbreviation "PA" or any other title, designation, word, letter, abbreviation, sign, card, or device tending to indicate that the partnership or corporation is composed of public accountants, unless the partnership or corporation holds a live permit, is practicing under its registered name, and its office in this state for the practice of public accounting is maintained and registered as required by §§ 350-380 of this chapter. (§ 15(4) ch 187 SLA 1960; am § 19 ch 147 SLA 1976)

Sec. 08.04.540. Use of deceptive title or abbreviation. No person, partnership or corporation may assume or use the title or designation "certified accountant", "chartered accountant", "enrolled accountant", "licensed accountant," "registered accountant", or any other title or designation likely to be confused with "certified public accountant" or "public accountant," or any of the abbreviations "CA," "EA," "LA," "RA", or similar abbreviations likely to be confused with

"CPA", or "PA"; however, a person, partnership or corporation holding a live permit and whose offices in this state for the practice of public accounting are maintained and registered as required by §§ 350-380 of this chapter may hold himself or itself out to the public as an accountant or auditor. (§ 15(5) ch 187 SLA 1960; am § 20 ch 147 SLA 1976)

Sec. 08.04.550. Corporation may not assume title. Repealed by § 21 ch 147 SLA 1976.

Sec. 08.04.560. Individual may not assume title. No person may sign or affix his name or any trade or assumed name used by him to any accounting or financial statement, or opinion or report on any accounting or financial statement with any wording indicating that he is a certified public accountant or public accountant or with any wording indicating that he has expert knowledge in accounting or auditing, unless he holds a live permit and his offices in this state for the practice of public accounting are maintained and registered as required by §§ 350-380 of this chapter. (§ 15(7) ch 187 SLA 1960)

Sec. 08.04.570. Persons not affected. Section 560 does not prohibit

(1) an officer, employee, partner, or principal of any organization from affixing his signature to any statement or report in reference to the financial affairs of the organization together with any wording designating the postion, title or office which he holds;

(2) an act of a public official or public employee in the performance of his duties;

(3) a person maintaining a bookkeeping or tax service from affixing his signature to any record, statement or report maintained or prepared by him. (§ 15(7) ch 187 SLA 1960)

Sec. 08.04.580. Partnership posing as accountants or auditors. No person may sign or affix a partership name with any wording indicating that it is a partnership composed of accountants or auditors or persons having expert knowledge in accounting or auditing to any accounting or financial statement, or to any opinion, on, report on or certificate to any accounting or financial statement unless the partnership holds a live permit, is practicing under its registered name, and its offices in this state for the practice of public accounting are maintained and registered as required by §§ 350-380 of this chapter. (§ 15(8) ch 187 SLA 1960)

Sec. 08.04.590. Use of title with corporate name. No person may sign or affix a corporate name with any wording indicating that it is a corporation performing services as accountants or auditors, or composed of accountants or auditors or persons having expert knowledge in accounting or auditing to any accounting or financial statement, or to any

opinion or report on or certificate to any accounting or financial statement unless the corporation holds a live permit, is practicing under its registered name, and its offices in this state for the practice of public accounting are maintained and registered as required by §§ 350-380 of this chapter. (§ 15(9) ch 187 SLA 1960; am § 22 ch 147 SLA 1976)

Sec. 08.04.600. Disclosure of lack of permit. No person, partnership or corporation not holding a live permit may hold himself or itself out to the public as a certified public accountant or public accountant by use of such words or abbreviations on any sign, card, letterhead or in any advertisement or directory, without indicating that the person, partnership, or corporation does not hold a permit. This section does not prohibit (1) an officer, employee, partner, or principal of an organization from describing himself by the position, title, or office which he holds in the organization, (2) an act of a public official or public employee in the performance of his duties, or (3) any person from maintaining a bookkeeping or tax service. (§ 15(10) ch 187 SLA 1960; am § 23 ch 147 SLA 1976)

Sec. 08.04.610. Deceptive use of partnership or corporation title. No person may assume or use the title or designation "certified public accountant" or "public accountant" or an abbreviation of them, in conjunction with a name indicating or implying that there is a partnership or corporation, or in conjunction with the designation "and Company" or "and Co." or any similar designation unless there is a bona fide partnership or corporation registered under that name. However, a sole proprietor or partnership lawfully using the title or designation "certified public accountant" or "public accountant" or an abbreviation of them in conjunction with such names or designation on April 26, 1960, may continue to do so if the person or partnership otherwise complies with this chapter. (§ 15(11) ch 187 SLA 1960; am § 24 ch 147 SLA 1976)

Sec. 08.04.620. Exceptions. Nothing in this chapter prohibits

(1) a person not a certified public accountant or public accountant from serving as an employee of or as an assistant to any person, partnership or corporation holding a live permit so long as the employee or assistant does not use his name in connection with any accounting or financial statement,

(2) a certified public accountant or public accountant from indicating that he holds a certificate or license entitling him to that designation if he holds a valid certificate or license in any state, but the person shall not indicate that his services are available to the public unless he holds a live permit issued under this chapter;

(3) a holder of a certificate, license, or degree from a foreign country which constitutes a recognized qualification for the practice of public accounting in that country from indicating that he

holds the certificate, license, or degree, but the person shall not indicate that his services are available to the public unless he holds a live permit issued under this chapter. (§ 16 ch 187 SLA 1960; am § 25 ch 147 SLA 1976)

Sec. 08.04.630. Injunction against unlawful act. Whenever, in the judgement of the board, any person has engaged in any act which constitutes a violation of §§ 500-610 of this chapter, the board may apply to the appropriate court for an order enjoining the act. Upon a showing by the board that a person has engaged in the act, the court shall grant an injunction or any other appropriate order without bond. (§ 17 ch 187 SLA 1960; am § 3 ch 70 SLA 1964)

Sec. 08.04.640. Penalty. Any person who violates any provision of §§ 500-610 of this chapter is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than $500, or by imprisonment for not more than one year, or by both. Whenever the board has reason to believe that any person has violated any provision of §§ 500-610 of this chapter it may certify the facts to the attorney general of this state or other appropriate enforcement officer, who may cause appropriate proceedings to be brought. (§ 18 ch 187 SLA 1960)

Sec. 08.04.650. Single act evidence of practice. The display or uttering by a person of a card, sign, advertisement or other printed, engraved, or written instrument or device, bearing a person's name in conjunction with the words "certified public accountant," or any abbreviation thereof, or with the words "public accountant," or any abbreviation thereof, or any words or abbreviations likely to be confused with any of them is prima facie evidence in any action brought under §§ 630 or 640 of this chapter that the person whose name is displayed caused the display or uttering of the card, sign, advertisement or written instrument or device, and that the person is holding himself out to be a certified public accountant or public accountant. In any action, evidence of the commission of a single act prohibited by this chapter is sufficient to justify an injunction or a conviction without evidence of a general course of conduct. (§ 18 ch 187 SLA 1960)

Article 6. Miscellaneous Provisions.

Section
660. Ownership of accountant's working papers
670. Construction

Sec. 08.04.660. Ownership of accountant's working papers. Statements, records, schedules, working papers, and memoranda made by a certified public accountant, public accountant, or registered foreign accountant incident to or in the course of professional service to a client, except reports submitted to a client, are the property of the accountant, in the absence of an express agreement between the accountant and the client to the contrary. No statement, record, schedule,

working paper, or memorandum may be sold, transferred, or bequeathed to a person other than a partner of the accountant without the consent of the client or his personal representative or assignee. (§ 20 ch 187 SLA 1960)

Sec. 08.04.670. Construction. If any provision of this chapter or the application of any provision to any person or to any circumstances is invalid, the remainder shall not be affected. (§ 22 ch 187 SLA 1960)

Article 7. General Provisions.

12 AAC 04.005. INTEGRITY AND OBJECTIVITY. An accountant may not knowingly misrepresent facts, and when engaged in the practice of public accounting, including the rendering of tax and management advisory services, may not subordinate his or her judgment to others in matters relating to professional accounting decisions. In tax practice, an accountant may resolve doubt in favor of his or her client as long as there is reasonable support for his or her position. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.010. INDEPENDENCE. (a) An accountant or accounting firm shall express a disclaimer of an opinion on financial statements of any enterprise if he or she or the firm is not independent of that enterprise and shall disclose the lack of independence.

(b) An accountant or accounting firm is not independent if

(1) during the period of professional engagement or at the time of expressing an opinion he or any member of the firm had or was committed to acquire a direct or indirect financial interest in the enterprise; or

(2) during the period of professional engagement or the period covered by the

financial statements or at the time of expressing an opinion he or any member of the firm was connected with the enterprise as a promoter, underwriter, voting trustee, director, officer, or employee.

(c) For purposes of this section, the word "director" shall not include gratuitous service to a charitable, religious, or nonprofit organization. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43; am 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.015. COMPETENCE. An accountant may not undertake any engagement which he or she or his or her firm cannot reasonably expect to complete with professional competence. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.020. CONFIDENTIAL RELATIONSHIP. Unless required by law or court order, an accountant shall not violate a confidence of his client. A confidence is violated when information gained through the professional relationship is disclosed to another without the client's consent. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.030. CONTINGENT FEES. Unless imposed by a court of law, no accountant may render or offer professional services for a fee which is contingent upon his findings. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.033. ACCOUNTING PRINCIPLES. (a) An accountant may not express an opinion that financial statements are presented in conformity with generally accepted accounting principles if those statements contain any departure from a generally accepted accounting principle which has a material effect on the statements taken as a whole unless the accountant can demonstrate that due to unusual circumstances the financial statements would otherwise have been misleading. In such cases his or her report must describe the departure, the approximate effects of it, if practicable, and the reasons why compliance with the principle would result in a misleading statement.

(b) Generally accepted accounting principles include, but are not limited to,

(1) statements of financial accounting standards adopted by the Financial Accounting Standards Board which are in effect when the financial statements are issued;

(2) accounting research bulletins and opinions of the Accounting Principles Board of the American Institute of Certified Public Accountants which are not superseded by action of the Financial Accounting Standards Board. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.036. AUDITING STANDARDS. (a) An accountant may not permit his or her name to be associated with financial statements in such a manner as to imply that he or she is acting as an independent public accountant unless he or she has complied with generally accepted auditing standards or can justify departure from them.

(b) Generally accepted auditing standards include, but are not limited to, statements of auditing standards issued by the American Institute of Certified Public Accountants in effect when financial statements are examined. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.040. USE OF WORK OF OTHERS. No accountant may express an opinion on financial statements which is based in part upon work performed by another accountant unless

(1) such work was performed in accordance with generally accepted auditing standards; and

(2) employed generally accepted accounting principles; and

(3) was performed by an independent accountant as defined in sec. 10 of this chapter. (Eff. 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.050. RESPONSIBILITY AND DISCLOSURE. An accountant may not issue an opinion on representations in financial statements he has examined unless he

(1) discloses any relevant, material fact known to him which is not disclosed in the financial statements; and

(2) discloses any material misstatement contained in the financial statements; and

(3) has exercised that degree of skill which is customary in the profession; and

(4) discloses any deviation in the financial statements from customary accounting procedures. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.060. FORM OF OPINIONS AND REPORTS. (a) In every report and opinion, an accountant shall clearly state the scope of responsibilities undertaken, all material information used, all audited facts, and when unaudited financial statements are included, the fact that they were not audited.

(b) An accountant shall not permit his name to be associated with financial statements unless he has with regard to those statements

(1) expressed an unqualified opinion; or

(2) expressed a qualified opinion which clearly specifies the reason for the qualification; or

(3) expressed an adverse opinion; or

(4) disclaimed an opinion on the statements which clearly indicates his reasons therefor. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.070. FORECASTS. An accountant shall not permit his name to be used with a forecast or prediction of future events in a manner which may lead to a belief that he vouches or warrants that the events will in fact occur. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.080. ADVERTISING. Advertising and other public communication by an accountant must not

(1) misrepresent facts or fail to disclose relevant facts;

(2) create false or unjustified expectations of favorable results;

(3) imply abilities not supported by valid educational or professional attainments or licensing recognition;

(4) set forth fees without disclosing all variables and other relevant factors;

(5) imply the ability to influence improperly any court, tribunal or other public body or official; or

(6) contain any other representation or implication that is false, fraudulent or unfair, or that probably would deceive or mislead an ordinarily prudent person. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43; am 2/10/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.090. SOLICITATION. An accountant may not solicit clients or offer professional services to anyone who has not explicitly indicated a desire for such services. (Eff. 1/20/63, Reg. 7, am 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.100. COMMISSIONS. (a) Commissions, brokerage, or other participation in the fees or profits of professional work shall not be paid by an accountant to any person not regularly engaged in the practice of accounting.

(b) Commissions, brokerage, or other participation in the fees or profits or work recommended or turned over to any person not regularly engaged in the practice of accounting

shall not be accepted by an accountant. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.110. SERVICES PERFORMED BY EMPLOYEES. An accountant shall not permit an employee to perform any services which the accountant himself or his firm is not permitted to perform. (Eff. 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

12 AAC 04.120. REFERRALS. An accountant who receives an engagement for services by referral from another accountant shall not discuss or accept an extension of his services beyond the specific engagement without first consulting with the referring accountant. (Eff. 1/20/63, Reg. 7; am 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)
AS 08.04.080

REQUIREMENTS FOR CERTIFICATE OR LICENSE

Section
150. (Repealed)
160. References
170. Resident defined
180. Experience
181. Experience requirement point system
185. Education defined for certified public accountant applicants
187. Education verified

12 AAC 04.150. CITIZENSHIP. Repealed 2/10/78.

12 AAC 04.160. REFERENCES. Every candidate must submit names of at least three persons, one of whom must be a resident of the state who can vouch for his moral character. The board may make such other inquiries as it deems appropriate to satisfy itself that the candidate is of good moral character. (Eff. 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)

12 AAC 04.170. RESIDENT DEFINED. (a) The term "resident" as used in AS 08.04 shall include only a person who actually resides in the state. Any applicant who has not so resided for a period of at least one year may be required to furnish the board evidence that he is in fact a bona fide resident.

(b) An applicant may meet the resident requirement by having a place of business in this state or being an employee regularly employed in the state. (Eff. 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)

12 AAC 04.180. EXPERIENCE. (a) In order to fulfill the experience requirements set out in AS 08.04.120 and AS 08.04.290, an applicant shall show to the satisfaction of the board that his or her audit experience includes all of the following:

(1) experience in applying a variety of auditing procedures and techniques to the usual and customary financial transactions recorded in accounting records;

(2) experience in preparation of audit working papers covering the examination of the accounts usually found in accounting records;

(3) experience in planning programs of audit work and selecting the procedures to be followed;

(4) experience in the preparation of written explanation and comments on the findings of

the examination and on the content of the accounting records; and

(5) experience in the analysis, review, or preparation of audited or unaudited financial statements and of explanations and notes on them.

(b) Each year of experience required by AS 08.04.290 must consist of 12 calendar months' cumulative work experience, but not necessarily consecutive. (Eff. 9/9/72, Reg. 43; am 8/3/79, Reg. 70)

Authority: AS 08.04.070(b)

12 AAC 04.181. EXPERIENCE REQUIREMENT POINT SYSTEM. (a) In evaluating the experience of an applicant for a certified public accounting certificate, one of the following is required:

(1) a minimum of four experience points for an applicant with a four-year accounting degree recognized by the board, including 850 hours performing the attest function under the direct supervision of a CPA of which

(A) 50 hours include experience in planning programs of audit work and procedures to be followed; and

(B) 150 hours include experience in the analysis, review, or preparation of audited or unaudited financial statements and of explanations and notes on them; or

(2) a minimum of six experience points for an applicant with a four-year nonaccounting degree recognized by the board, including 850 hours performing the attest function under the direct supervision of a CPA of which

(A) 50 hours include experience in planning programs of audit work and procedures to be followed; and

(B) 150 hours include experience in the analysis, review, or preparation of audited or unaudited financial statements and of explanations and notes on them; or

(3) a minimum of eight experience points for an applicant with 60 college semester hours recognized by the board including 850 hours performing the attest function under the direct supervision of a CPA of which

(A) 50 hours include experience in planning programs of audit work and procedures to be followed; and

(B) 150 hours include experience in the analysis, review, or preparation of audited or unaudited financial statements and of explanations and notes on them.

(b) Experience points are allocated as follows:

(1) one year experience working in public accounting under the direct supervision of a certified public accountant two experience points;

(2) one year experience working in private accounting or governmental accounting under the direct supervision of a certified public accountant, one and one-third experience points; or

(3) one year experience working as an accountant not under the direct supervision of a certified public accountant, one experience point.

(c) The board will, in its discretion, require an applicant for a certified public accountant certificate to provide work papers or other documentation to substantiate the statement of accounting experience.

(d) The requirements of this section apply to all applicants for certified public accountant certificates after January 1, 1980. (Eff. 8/3/79, Reg. 70)

Authority: AS 08.04.070(b)

12 AAC 04.185. EDUCATION DEFINED FOR CERTIFIED PUBLIC ACCOUNTANT APPLICANTS. (a) As used in AS 08.04.120(2), "two years of study at one or more colleges or universities recognized by the board" and "graduation from a junior or community college" means the accumulation, from a college or university whose credits would be accepted by the University of Alaska toward a degree granted by it, of

(1) 60 semester credit hours, 12 of which are in accounting subjects; or

(2) 90 quarter credit hours, 18 of which are in accounting subjects.

(b) AS used in AS 08.04.120(3)(B), an accounting major consists of not less than

(1) 24 semester credit hours or 36 quarter credit hours in subjects such as, but not limited to

(A) accounting principles;

(B) intermediate accounting;

(C) income tax;

(D) cost accounting;

(E) auditing;

(F) advanced accounting; or

(G) accounting theory;

(2) three semester credit hours or five quarter credit hours of business law;

(3) three semester credit hours of five quarter credit hours of economics; and

(4) three semester credit hours or five quarter credit hours of

(A) statistics;

(B) computer science; or

(C) algebra.

(c) The requirements of (a) of this section apply to a person making initial application for examination after January 18, 1978.

(d) The requirments of (b) of this section apply to a person applying for a certified public accountant certificate after January 18, 1978. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.120(2) and (3)

12 AAC 04.187. EDUCATION VERIFIED. (a) An applicant for a public accountant examination or license shall submit a transcript from his or her high school of graduation.

(b) An applicant for a certified public accountant examination or certificate shall submit a transcript or transcripts from colleges or universities necessary to verify that he or she meets the appropriate education requirements of sec. 185 of this chapter.

(c) A transcript submitted by an applicant for examination need not be certified. A transcript submitted by an applicant for a public accountant license or certified public accountant certificate must be certified unless considered impossible or impracticable by the board.

(d) If an applicant cannot submit a transcript as required by this section, the board may accept as evidence of education

(1) verification from the licensing authority of accountants in another jurisdiction;

(2) verification from a governmental agency, employer, or association which

(A) previously required documentary evidence of education; or

(B) directly verified education;

(3) oral testimony and sworn statements of the applicant and other parties; and

(4) other documentary evidence.

(e) An applicant applying under the substantially equivalent provisions of AS 08.04.120(2)(C) or AS 08.04.290(1) shall provide the board with such documentary evidence, sworn statements, and oral testimony as it requires. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)

200. Examination
210. Time and place of examination
220. Notice of examination
230. Examination papers

12 AAC 04.190. TIME AND PLACE FOR FILING APPLICATIONS. (a) Each candidate must file a written application on forms furnished on request by the department.

(b) The application, together with the required fee, must be received in the department not less than 60 days before the date set for the examination except that the applications received after that date may be accepted upon a showing of good cause.

(c) Candidates who will not be in the state on the date set for the examination may request the department to arrange for the examination to be proctored in another state.

(d) If a candidate fails to take an examination without notifying the department in writing 30 days before the examination date, the candidate's examination fee will be forfeited except upon a showing of good cause. (Eff. 9/9/72, Reg. 43; am 2/10/78, Reg. 64; am 8/3/79, Reg. 70)

Authority: AS 08.04.070(b)

12 AAC 04.200. EXAMINATION. The examination for certified public accountant and public accountant is the Uniform Certified Public Accountant Examination prepared by the American Institute of Certified Public Accountants. A grade of at least 75 in each subject of the examination , considered passing. In the absence of exceptional circumstances, grades are those reported by the Advisory Grading Service of the American Institute of Certified Public Accountants. (Eff. 9/9/72, Reg. 43; am 2/10/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.130
AS 08.04.300(a)

12 AAC 04.210. TIME AND PLACE OF EXAMINATION. Examinations will be offered semiannually on dates set by the American Institute of Certified Public Accountants in, but not limited to, Juneau, Anchorage and Fairbanks. (Eff. 9/9/72, Reg. 43; am 2/10/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.140
AS 08.04.300(b)

12 AAC 04.220. NOTICE OF EXAMINATION. Candidates whose applications for examination have been accepted will be notified of the time and place of examination at least two weeks before the examination. Notice of the examination will also be published in major newspapers at least 90 days before the examination. (Eff. 9/9/72, Reg. 43; am 2/10/78, Reg. 64)

Authority: AS 08.04.070(b)

12 AAC 04.230. EXAMINATION PAPERS. All examination papers remain the property of the board and none will be returned to the candidate. All examination papers shall be preserved for a period of at least six months after notification of grading at which time any candidate shall have the right to inspect his papers only in the presence of a board member or his designee. (Eff. 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)

270. Reciprocity for CPA's

12 AAC 04.240. WHEN ALL REQUIREMENTS ARE MET. Repealed 2/10/78.

12 AAC 04.250. REGISTRATION. Registration prescribed by AS 08.04.350, 390, 400, 410 and 420 shall be on forms provided by the department and shall be due on December 31 of each biennium. (Eff. 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)

12 AAC 04.260. ROSTER. By March 15 following each biennial licensing period, the department shall prepare a roster of all registered individuals and partnerships. (Eff. 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)

12 AAC 04.270. RECIPROCITY FOR CPA'S. Certificates will be granted to the holders of certified public accountant certificates granted by other states or of equivalent certificates granted by the recognized authority of foreign countries provided

(1) the applicant meets all of the personal and education requirements of AS 08.04;

(2) the applicant holds a currently valid and unrevoked certificate as a certified public accountant, or its equivalent, issued under the laws of any state or foreign country; and

(3) that the standards under which the applicant received the certificate or equivalent, on which he bases his application for a certificate are, in the opinion of the board, equivalent to those established by this state for the issuance of a certificate as a certified public accountant. (Eff. 9/9/72, Reg. 43)

Authority: AS 08.04.070(b)

ARTICLE 6.
GENERAL PROVISIONS

Section
280. Complaints
290. Definitions

12 AAC 04.280. COMPLAINTS. A complaint against a licensed or unlicensed person or firm must be made to the department in compliance with the established complaint procedures of the department. (Eff. 9/9/72, Reg. 43; am 2/10/78, Reg. 64)

Authority: AS 08.04.070(b)

12 AAC 04.290. DEFINITIONS. In this chapter

(1) "accountant" means any person licensed in the state as either a certified public accountant or public accountant under AS 08.04;

(2) "board" means the Board of Public Accountancy;

(3) "department" means the Department of Commerce and Economic Development;

(4) "attest function" means the ordinary examination of financial statements by a CPA or PA resulting in the expression of an opinion on the fairness with which the financial statement presents the financial position, results of operations, and changes in financial position in conformity with generally accepted accounting principles; the CPA's or PA's report is the medium through which he or she expresses his or her opinion or, if circumstances require, disclaim an opinion;

(5) "financial statement" includes, but is not limited to, a statement of position, a statement of operation, a statement of change in equity and notes, a balance sheet, an income statement, a statement of change in financial position, a statement of assets and liabilities, a statement of change in excess of assets over liabilities, and any other statement which purports to represent a statement of position or operation;

(6) "opinion" means a written conclusion, based on the use of expert knowledge in accounting and auditing, in matters for which advice is sought or required;

(7) "practice of public accounting" means the holding of a CPA certificate or a PA license and the performance for the general public of any auditing services, accounting services, tax services, management services or special accounting services for compensation; this definitions does not apply to acts of public officials or public employees in the performance of their duties, or to any officer, employee, partner, or principal except for those employed as an employee, partner, principal, or practitioner of a certified public accountant firm or public accountant firm;

(8) "report" means a written presentation containing a record of facts derived from review, investigation and examination;

(9) "statement" means a financial statement. (Eff. 9/9/72, Reg. 43; am 2/10/78, Reg. 64; am 8/3/79, Reg. 70)

Authority: AS 08.04.070(b)

420. Applicability of continuing education requirement
430. Reentry to practice

12 AAC 04.300. HOURS OF CONTINUING EDUCATION REQUIRED. Except as provided for in sec. 430 of this chapter, an applicant for renewal of a license to practice as a certified public accountant must have completed 60 hours of approved continuing education during the two years immediately preceding the application. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.310. COMPUTATION OF NONACADEMIC CONTINUING EDUCATION HOURS. (a) For the purpose of secs. 300 -430 of this chapter, 50 minutes of instruction constitutes one hour.

(b) Credit is given only for full hours of instruction and not for a fraction of an hour.

(c) Credit is given only for class hours and not for hours devoted to class preparation. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.320. COMPUTATION OF ACADEMIC CONTINUING EDUCATION HOURS. (a) One quarter hour academic credit from college or university constitutes 10 hours of continuing education.

(b) One semester hour academic credit from a college or university constitutes 15 hours of continuing education. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.330. CHALLENGED COURSES. Academic credit earned for a challenged course is not acceptable for continuing education. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.340. APPROVED SUBJECTS. In order to be approved by the board, a subject must contribute directly to the professional competence of a person licensed to practice as a certified public accountant. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.350. NONACADEMIC PROGRAM CRITERIA. (a) Nonacademic continuing education programs requiring class attendance are approved by the board if

(1) a course outline is prepared in advance and preserved;

(2) the program is at least one hour in length;

(3) the program is conducted by a qualified instructor; and

(4) a record of registration or attendance is maintained.

(b) A qualified instructor or discussion leader is anyone whose background, training, education, or experience makes it appropriate for him to lead a discussion on the subject matter of the particular program. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.360. APPROVED NONACADEMIC CONTINUING EDUCATION PROGRAMS. The following programs are approved by the board if they meet the requirements of secs. 340 and 350 of this chapter:

(1) professional development programs of the American Institute of Certified Public Accountants and its state societies;

(2) technical sessions at meetings of the American Institute of Certified Public Accountants and its state societies;

(3) formal, organized, in-firm education programs;

(4) college or university short courses not carrying academic credit;

(5) other accounting, industrial, or professional programs. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.370. INDIVIDUAL STUDY. The number of hours of continuing education credit awarded for completion of a formal correspondence or other individual study program which requires registration and provides evidence of satisfactory completion will be determined by the board on an individual basis. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.380. INSTRUCTOR OR DISCUSSION LEADER. (a) One hour of continuing education credit is awarded for each hour completed in preparation for instruction or discussion as an instructor or discussion leader of educational programs meeting the requirements of secs. 300–430 of this chapter. The number of hours of credit so awarded may

not exceed twice the number of hours awarded under (b) of this section.

(b) One hour of continuing education credit is awarded for each hour completed as an instructor or discussion leader of educational programs meeting the requirements of secs. 300–430 of this chapter. Credit is awarded only for the initial course of instruction of the subject matter unless there have been substantial new developments in the subject since the prior presentation.

(c) Credit awarded under (a) and (b) of this section may not exceed 30 hours in any two-year period. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.390. PUBLICATIONS. Continuing education credit may be awarded for publication of articles or books. The amount of credit so awarded will be determined by the board on an individual basis. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(a)

12 AAC 04.400. REPORT OF CONTINUING EDUCATION. An applicant for renewal of a license to practice public accounting shall submit, on a form provided by the department, a sworn statement of the continuing education in which he or she has participated. The statement must indicate

(1) the sponsoring organization;

(2) the location of the course or correspondent;

(3) the title or description of the course or both;

(4) the principal instructor;

(5) the dates of attendance or period of correspondence; and

(6) the hours of continuing education credit claimed. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(b)

12 AAC 04.410. "REASONABLE CAUSE OR EXCUSABLE NEGLECT" DEFINED. For the purpose of AS 08.04.425(c), "reasonable cause or excusable neglect" includes, but is not limited to

(1) chronic illness;

(2) retirement;

(3) military service; and

(4) hardships as individually determined by the board. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(c)

12 AAC 04.420. APPLICABILITY OF CONTINUING EDUCATION REQUIREMENT. The continuing education requirement of AS 08.04.425(a) does not apply to a person registered under the provisions of AS 08.04.410. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(d)(2)(A)

12 AAC 04.430. REENTRY TO PRACTICE. A person licensed under AS 08.04.410 applying for reentry as a holder of an active biennial permit to practice as a Certified Public Accountant under AS 08.04.390 may be granted an active permit on the condition that he or she complete ten hours of continuing education for each full calendar quarter between the date of reentry and the next biennial renewal date up to a maximum of 60 hours. Forty of the hours required under this section and sec. 300 of this chapter for the subsequent biennial period must be completed within six months following the date of reentry. (Eff. 1/18/78, Reg. 64)

Authority: AS 08.04.070(b)
AS 08.04.425(c)

12 AAC 08.020. LOCATION AND DATE. The location and date of the examination shall be published by the Board of Examiners at least 30 days in advance of the date of examination. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030

12 AAC 08.030. FORM OF APPLICATION. The application shall be on a form provided by the board and shall be mailed to the secretary of the board accompanied by a $25 examination fee; and two photographs signed on the front. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030
AS 08.12.070
AS 08.12.080

12 AAC 08.040. APPLICANTS FAILING TO PASS. Applicants failing to pass an examination or failing to appear for examination may take another examination by filing the required $25. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030

12 AAC 08.050. DISQUALIFICATION DURING EXAMINATION. Any attempt by a school owner, manager, instructor, or any person to communicate with or help an applicant in any way while taking the examination, or any attempt by an applicant to secure information from another applicant will disqualify the applicant from completing the examination. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030
AS 08.12.220

12 AAC 08.060. FORM OF EXAMINATION, REQUIRED EQUIPMENT, GRADING. (a) Written examination. The applicant must obtain a grade of at least 75 percent on sanitation, Barber Science, sterilization, and common contagious and infectious diseases of the face, skin, and scalp.

(b) Practical examination. The applicant must obtain a grade of at least 75 percent on each of the following subjects: haircut, shave, massage, shampoo, condition of tools.

(c) Authorized textbooks. The following are the authorized textbooks to be used by applicants: *Standard Textbook of Barbering*, published by Associated Master Barbers of America, Chicago, Illinois, and *Textbook of Practical and Scientific Barbering*, published by Journeymen Barbers, Educational Department, Indianapolis, Indiana.

(d) Equipment. Each applicant must furnish his own smock, tools, and model.

(e) Standards for grading examinations. In grading each applicant, the examiners will consider the following: care and neatness of supplies and equipment; appearance and posture of applicant; time consumed in completion of each operation. (In effect before 7/28/59; am 2/64, Reg. 14)

Authority: AS 08.12.030
AS 08.12.070
AS 08.12.220

STATE
of ALASKA

MEMORANDUM

APPENDIX "A"

TO: Don Hostak
Director
Division of Occupational
Licensing
Department of Commerce and
Economic Development

DATE: October 27, 1978

FILE NO: J-66-183-79

TELEPHONE NO.

SUBJECT: Education Regulations
for Accountants

FROM:
Bruce M. Botelho
Assistant Attorney General

OCT 31 12 PM '78
DEPT. OF LAW
JUNEAU, ALASKA

This memorandum is in response to your request for a determination as to whether 12 AAC 04.400, effective on January 18, 1978, will apply to those licenses expiring on December 31, 1979.

12 AAC 04.300 requires that an applicant for renewal of a license to practice as a certified public accountant complete 60 hours of approved continuing education during the two years immediately preceeding the application. 12 AAC 04.400, in turn, requires that an applicant for renewal of a license to practice public accounting submit, on a form provided by the department, a sworn statement of the continuing education in which he or she has participated. The issue which you pose is, then, whether 12 AAC 04.400 may be applied to the current registration period which expires on December 31, 1979 in view of the fact that applicants for renewal will not have had an entire two year period within which to satisfy the requirements of 12 AAC 04.300.

It is our opinion that the continuing education requirements should be imposed on licensees whose licenses expire on December 31, 1979. While the effective date of 12 AAC 04.400 and the date upon which licenses will expire (December 31, 1979), is 18 days short of two years, we regard this time period to substantially satisfy the requirements of 12 AAC 04.400. However, in order to avoid any inference of unfairness in application, we propose that the board pro-rate the credit hour requirement so that an applicant for renewal of licensure who has completed 58.5 hours of continuing education on or before December 31, 1979 may be deemed to have satisfied the requirements of 12 AAC 04.300.

BMB:cb

STATE OF ALASKA
Board of Registration for Architects,
Engineers and Land Surveyors
October, 1979

Findings

Present statutes (enacted in 1972) regulating Architects, Engineers and Land Surveyors supplanted a 1949 Act which provided for registration and licensing of professional architects and engineers.

The current Board of Registration for Architects, Engineers and Land Surveyors operates under AS 08.48 to license qualified applicants and regulate individuals within the professions. Support services are provided by the Department of Commerce and Economic Development, Division of Occupational Licensing.

The stated purpose of the Act is to safeguard life, health and property and to promote the public welfare. In its operations and application of the Act the Board has demonstrated compliance with, and furtherance of, this purpose. We believe that the Board and State regulation of these professions is in the public interest and should continue.

I. General Information

A. Regulated Parties

1. Architects
2. Land Surveyors
3. Engineers (Chemical, Civil, Electrical, Mechanical, Mining, Petroleum)
4. Corporate Authorizations

B. Definitions

"(7) 'practice of architecture' means professional services or creative work in the functional and aesthetic design of structures, the teaching of advanced architectural courses in institutions of higher learning, consultation, investigation, evaluation, planning, design and professional observation of construction of public or private structures, buildings, works or projects, and architectural review of plans and specifications by regulatory agencies; it may by regulation of the board include mechanical, electrical or structural design of relatively minor importance to the project as a whole;

(8) 'practice of engineering' means professional or creative work, the adequate performance of which requires the application of specialized knowledge of mathematics and sciences, dealing with the functional and economic design of buildings, structures, machines, equipment, utilities systems, materials, processes, works or projects, public or private; the teaching of advanced engineering courses in institutions of higher learning, the direction of or the performance of engineering surveys, consultation, investigation, evaluation, planning, design, and professional observation of construction of public and private structures, buildings, works or

projects and engineering review of plans and specifications by regulatory agencies; it may by regulation of the board include architectural design of relatively minor importance to the project as a whole, but it does not include comprehensive architectural services;

(9) 'practice of land surveying' means any service or work the adequate performance of which involves the application of special knowledge of the principles of mathematics, the related sciences, and the relevant requirements of law for adequate evidence of the act of measuring and locating land, geodetic and cadastral surveys for the location and monumentation of property boundaries, for the platting and planning of land and subdivisions, and for the preparation and perpetuation of maps, record plats, field note records and property descriptions that represent these surveys;" (AS 08.48.341)

C. Purpose of Regulation

"The object of this Act is to safeguard life, health and property, and to promote the public welfare." (Section 2, ch. 179, SLA 1972)

D. Nature and Composition of Board

1. Board members and terms:

Six-year term (no restrictions regarding consecutive terms or number of terms).

Wallace DeBoff (Chairman)	ends July 1, 1982
Wayne Jensen	ends July 1, 1984
Jim Bridges	ends July 1, 1980
Donald Cook	ends July 1, 1981
James Lake	ends July 1, 1981
Loren Lounsbury	ends July 1, 1982
Paul Stutzman	ends July 1, 1984
Gordon Unwin	ends July 1, 1980
Wallace Wellenstein	ends July , 1983

The combined licenses of these members provides representation by three architects, three civil engineers, three land surveyors, one mechanical engineer, one electrical engineer, and one mining engineer.

2. Representation:

Profession = 9
Public = 0

3. Qualifications:

The Board consists of two civil engineers, one land surveyor, one mining engineer, two engineers from other branches of the profession, and three architects. Members must have been a resident in the State for three consecutive years immediately preceding appointment, must be registered, and must have a minimum of five years' professional practice in their fields.

E. Licensing Data

Current licenses (effective Sept[illegible]r 30, 1979)

Architects	in-State	160
	out-of-State	204
Land Surveyors	in-State	423
	out-of-State	220
Engineers	in-State	841
	out-of-State	1,129
Corporate Authorizations	in-State	59
	out-of-State	59
		3,095

F. Fees

1.	examination	$ 50.00
2.	reexamination	50.00
3.	application by comity	50.00
4.	corporate authorization	100.00
5.	registration fee	15.00
6.	corporate authorization registration fee	50.00
7.	registration renewal (biennially)	30.00
8.	corporate authorization renewal (biennially)	100.00
9.	amendment to corporate authorization	20.00
10.	delinquent renewal fee	30.00
11.	postponement of examination	20.00
12.	duplicate certificate	10.00

G. Board Revenues and Expenditures

	FY '76	FY '77	FY '78	FY '79
Receipts	$101,502.00	$31,086.00	$112,970.75	$27,608.35
- refunds	125.00	30.00	2,100.00	219.92
Total	$101,377.00	$31,056.00	$110,870.75	$27,388.43
Expenditures				
Transportation	4,879.28	5,180.64	6,740.23	5,909.11
Per Diem	5,719.75	7,062.50	7,021.73	4,874.64
Phone	166.49	304.42	452.26	930.58
Printing, Adver. & Postage	3,020.76	2,268.31	1,823.13	866.35
Fees & Services	4,054.98	4,307.27	5,099.23	5,956.24
Rents, Leases & Other	35.50	-	113.90	5,290.98
Total	$ 17,876.76	$19,323.14	$ 21,250.48	$23,827.90
Surplus	$ 83,500.24	$11,732.86	$ 89,620.27	$ 3,560.53
Deficit	-	-	-	-

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

H. Complaints

1.	Number of cases received in FY '78 and FY '79	39
2.	Number of cases closed in FY '78 and FY '79	4
3.	Number of cases to litigation in FY '79	0
4.	Number of cases pending closure by board	63
5.	Total cases open effective September 30, 1979 (includes cases prior to FY '78)	121

Of the 39 cases received in FY '78 and '79, 8 concerned architects, 23 concerned engineers, and 8 concerned land surveyors.

I. Useful Abbreviations

1. NCARB = National Council of Architectural Registration Boards
2. NCEE = National Council of Engineering Examiners
3. NAAB = National Architectural Accrediting Board
4. ECPD = Engineer's Council for Professional Development
5. PE = Professional Engineer
6. PLS = Professional Land Surveyor
7. EIT = Engineer in Training
8. LSIT = Land Surveyor in Training
9. AKLS = Alaska Land Surveying (examination)
10. ETS = Educational Testing Service

II. Analysis

A. To what extent has the Board of Registration for Architects, Engineers and Land Surveyors operated in the public interest?

Statutory duties of the Board include: holding at least four regular meetings each year, submission of an annual (fiscal year) report to the Governor, holding written examinations at least twice each year, adoption of regulations, disciplinary actions when warranted, authority to request injunctions, and passing on applicant qualifications.

During calendar year 1978, the Board held five meetings; in 1979 six will be held with one special meeting having been financed by a particular company which requested the meeting for the purpose of reviewing its employees' qualifications. An annual report was submitted by the Board for FY'79 but this has not been done in the past few years. Examinations for engineers and land surveyors are given twice each year; two different examinations for architects are given once each year. With one exception (the Alaska Land Surveyor exam) all examinations are prepared and graded nationally.

In comparision to some other boards, this one has almost unlimited latitude in promulgating and adopting regulations, the only limitations being legality and reasonableness. Regulations currently in effect outline the application and examination procedures, eligibility requirements, fees charged, rules of conduct, and definitions of terms.

Because the professions under discussion are highly technical in many aspects, the following breakdowns were prepared to condense an otherwise lengthy and involved narrative. Consideration of each profession separately may serve to clarify individual classifications as well as their interrelationships.

ARCHITECTS

A. Two Categories

1. Qualifying Category

A. those with no degree must take <u>qualifying exam</u>

1. given once each year

2. consists of four sections

a. A through D

3. passing score is 75

4. may retake only failed sections

5. graded by ETS

2. Professional Category*

A. those holding degrees or passed qualifying take <u>professional exam</u>

1. given once each year

2. consists of two parts

A. part "A" is design

*If graduated from NAAB approved school, may take part "A" immediately; three years' experience needed for part "B"

1. graded "pass-fail" by region members of NCARB

b. part "B" has four subparts

1. must pass or retake all

2. passing score is 75

3. graded by ETS

3. All applicants must submit treatise on sub-arctic conditions

B. Applicants for Comity

1. must have taken NCARB examination

2. must submit treatise on sub-arctic conditions

a. must also submit treatise on seismic forces if:

1. registered in California before May, 1933

2. registered by exam in Washington before 1963

3. registered in any other state before 1964

ENGINEERS

A. Two categories

1. Fundamentals of Engineering Catenory (EIT - Engineer in Training)

a. one examination

1. waived for 20 years professional experience

2. must pass entire examination

a. given twice each year

b. graded by ETS

b. if waived, or passed, may take Professional Exam

2. Professional Engineer Category

a. two years professional experience in responsible charge under a PE

b. must have passed or received waiver for EIT exam to be eligible

1. six branches of engineering and examination

a. chemical engineering

b. civil engineering

c. electrical engineering

d. mechanical engineering

e. mining engineering

f. petroleum engineering

2. one examination

a. must pass entire examination

1. given twice each year

2. graded by NCEE

3. All applicants must submit treatise on sub-arctic conditions

B. Applicants for Comity

1. must have taken 16 hour NCEE examination

2. must have four years professional experience

3. must submit treatise on sub-arctic conditions

LAND SURVEYORS

A. Two categories

1. Fundamentals of Land Surveying Category (LSIT) - Land Surveyor in Training)

a. must have four years professional experience and/or education

1. one examination

a. no exemptions or waivers

b. must pass entire examination

1. given twice each year

2. graded by NCEE

2. Professional Land Surveyor Category

a. must have passed or be approved for LSIT

b appropriate professional experience and/or education

c. three years professional experience in responsible charge under a registered Land Surveyor

1. professional examination portion

a. must pass entire examination

1. given twice each year

2. graded by NCEE

2. Alaska examination portion

a. must pass entire examination

1. given twice each year

2. prepared and graded by University of Alaska professor

3. may take LSIT, PLS and Alaska portion at the same exam

B. Applicants for Comity

1. must have taken 12 hour NCEE examination, and

2. must take 4 hour Alaska Land Surveyor examination

Applications submitted to the Board must be timely and complete and are evaluated by the Board during a regular meeting. There is no indication that the Board has acted in an arbitrary or capricious manner in approving or denying applications. On the contrary, applicants are encouraged to appear before the Board to address any questions or present additional information.

In general, the Board has operated in the public interest assuring qualified practitioners through its qualification and examination procedures and by its efforts in maintaining integrity of the profession through regulation.

B. To what extent has the operation of the Board of Registration for Architects, Engineers and Land Surveyors been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Board minutes reflect its ongoing concern regarding inadequacy of operating funds and its dissatisfaction with complaint and investigative procedures. The Board wants to be as active as possible in enforcement and disciplinary actions but is frustrated by what it feels is slow action on the part of the Departments of Law and Commerce and Economic Development. The possibility of obtaining an Executive Secretary has been discussed by the Board as one way of improving its efficiency in this and other activities. It should, however, be noted that a licensing examiner from the Division of Occupational Licensing is assigned only to this Board rather than to three to five boards which is usually the case. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct board revenues and expenses may be determined.

The Board has encountered the same difficulties as have all other boards and commissions with respect to investigative services provided by the administrative agency. During FY'78 two investigator pos tions were vacant; as a result, one position was abolished by the Legislature. At the present time, two investigators are located in Anchorage with a Chief Investigator located in Juneau. An additional investigator position was approved in the FY '80 budget but will probably not be filled immediately due to vacancy factors incorporated into the personal service category of the budget. Procedural constraints of the administrative adjudication article of the Administrative Procedure Act (AS 44.62.330-630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

Consideration should be given to restructuring of the Board to provide more equitable representation of the professions regulated and to provide for public representation.

C. To what extent has the Board of Registration for Architects, Engineers and Land Surveyors recommended statutory changes which are generally of benefit to the public interest?

The Board is opposed to SB 257 (now in the Senate Commerce Committee) which would add Landscape Architects as another regulated profession under the Board, as being unnecessary for the health, welfare and safety of the public.

Board minutes for 1978 and 1979 cite no recommended statutory changes; minutes from the September, 1979 meeting state that the Board is concerned about ability to budget its own dollars, an executive secretary and enforcement powers (as statutory concerns.) The board would also like to have some legislative clarification of AS 08.48.261 as it pertains to waiver requirements for State employees.

D. To what extent has the Board of Registration for Architects, Engineers and Land Surveyors encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

Participation concerning Board affairs has come from the professions and users of professional services. Very little "public" interest has been shown in the form of attendance at meetings or hearings although schedules are published in newspapers in the State. It may be assumed that members of the public are somewhat reluctant to involve themselves in areas of a technical nature which may be seen as too complex for consideration by laypersons. A technical and professional barrier therefore exists, due to the natures of the professions involved, which probably tends to deter public participation and knowledgeability.

The Board has not reacted favorably to the proposals for public membership; however, we believe public interests would be furthered by the presence of public members on the Board. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public

would be represented in decisionmaking."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Registration for Architects, Engineers and Land Surveyors processed and resolved?

Inquiries reagarding Board activities may be answered by members of the Board, the Board as a whole, or by personnel from the Department of Commerce and Economic Development. Review of files indicates that responses made are timely, appropriate and informative.

F. To what extent does the Board of Registration for Architects, Engineers and Land Surveyors present qualified applicants to serve the public?

The Board has established definitive qualification criteria to which it adheres on a consistent basis. Applicants are encouraged to appear before the Board to discuss their qualifications and must present further information in cases of irregularities or questions. Only when the Board is satisfied that the applicant is truly qualified is (s)he approved examination or licensure. This process, in conjunction with viable enforcement and regulation elements, helps to insure initial and on-going competence in professional services.

---

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Registration for Architects, Engineers and Land Surveyors in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner (responsible only to this Board) employed by the Division of Occupational Licensing. This position and others, such as Division Director, Regulations Specialist, etc., are hired through the State personnel system and are subject to affirmative action.

Examination and licensing privileges in these professions are based on specific criteria to which affirmative action requirements are not applicable.

H. To what extent are statutory, budgetary or other changes necessary to enable the Board of Registration for Architects, Engineers and Land Surveyors to better serve the interests of the public?

Public members should be included on the Board and numbers of consecutive terms should be limited for all members. The Board should submit its fiscal report annually as required by statute; goals and objectives and a performance report were submitted by the Board this year.

AS 08.48.081 requires that a complete roster showing names and last known addresses of all licentiates be published at least once each year and mailed to each person registered, and that it may be distributed or sold to the public. The cost of printing 4,000 rosters in April, 1979 was $2,536.00 (free of charge to registrants); postage fees for 3,000 registrants at $.40 each would be approximately $1,200.00; estimated time involved for labeling and mailing is ten days for one person. We believe that this information could be made available to those desiring

it without statutory requirements and taking into consideration less costly and time consuming methods.

Chapter 48. Architects, Engineers and Land Surveyors.

Article

101. Regulations; bylaws; code of ethics
111. Power to revoke, suspend, or reissue certificate
121. Disciplinary action and procedure
131. Injunction
141. Legal counsel

Sec. 08.48.011. Board created. (a) There is created the State Board of Registration for Architects, Engineers and Land Surveyors. The board shall administer the provisions of this chapter and comply with the Administrative Procedure Act (AS 44.62).

(b) The board consists of nine members appointed by the governor having the qualifications as set out in § 31 of this chapter. The board consists of two civil engineers, one land surveyor, one mining engineer, two engineers from other branches of the profession of engineering, and three architects. (§ 3 ch 179 SLA 1972; am § 1 ch 44 SLA 1975)

Sec. 08.48.021. Appointments and terms. (a) The governor shall give each member of the board a certificate of his appointment, and the member shall file with the lieutenant governor his written oath or affirmation for faithful discharge of his official duty.

(b) The term of office for board members is six years. The first board shall be appointed with two members having two-years terms, two members having three-year terms, two members having four-year terms, one member having a five-year term and two members having six-year terms. A member of the board may be appointed to succeed himself. Each member shall hold office until the expiration of the term for which he is

appointed or until his successor has been appointed. If a vacancy occurs on the board due to resignation, death or other cause, the governor shall appoint a qualified person to serve the unexpired term. (§ 3 ch 179 SLA 1972)

Sec. 08.48.031. Qualifications. Each member of the board must have been a resident in the state for three consecutive years immediately preceding his appointment and must be registered and have a minimum of five years of professional practice in his respective field. (§ 3 ch 179 SLA 1972; am § 2 ch 44 SLA 1975)

Sec. 08.48.041. Removal of members. The governor may remove a member of the board for misconduct, incompetency or neglect of duty. (§ 3 ch 179 SLA 1972)

Sec. 08.48.051. Organization and meetings. The board shall hold at least four regular meetings each year. Special meetings may be held as the bylaws of the board provide. The board shall elect or appoint annually from its members the following officers: president, vice-president and secretary. A quorum of the board consists of not less than five members. (§ 3 ch 179 SLA 1972)

Sec. 08.48.061. Finances. (a) All money derived under the provisions of this chapter shall be deposited in the general fund.

(b) Each member of the board is entitled to receive per diem and travel expenses as authorized by law for other boards and commissions.

(c) The board may make expenditures from appropriated funds for any purpose which is reasonably necessary for the proper performance of its duties under this chapter. This may include the expenses of the board delegates to meetings of councils of architect examiners, engineering examiners, or land surveyor examiners, or any of their subdivisions. The total amount of warrants issued in payment of the expenses incurred under this chapter may not exceed the amount of money appropriated by the legislature. (§ 3 ch 179 SLA 1972)

Sec. 08.48.071. Records and reports. (a) The following record of the board's proceedings and of all applications for registration or authorization shall be kept by the Department of Commerce and Economic Development under AS 08.01.050:

(1) the name, age and last known address of each applicant;

(2) the date of application;

(3) the place of business of the applicant;

(4) the education, experience and other qualifications;

(5) the type of examination required;

(6) whether or not the applicant was rejected;

(7) whether or not a certificate of registration or authorization was granted or endorsed;

(8) the date of the action of the board;

(9) other action taken by the board;

(10) other information which may be considered necessary by the board.

(b) The record of the board is prima facie evidence of the proceedings of the board, and a transcript, certified by the secretary, is admissible as evidence with the same effect as if the original were produced.

(c) Annually, at the end of the fiscal year, the board shall submit to the governor a report of its transactions of the preceding year, and shall transmit to him a complete statement of the receipts and expenditures of the board, attested by affidavits of its president and its secretary. Board records and papers of the following class are of a confidential nature and are not public records: examination material for examinations not yet given, file records of examination problems, solutions, letters of inquiry and reference concerning applicants, board inquiry forms concerning applicants, investigation files if an investigation is still pending, and all other matters of a like confidential nature. (§ 3 ch 179 SLA 1972; am § 46 ch 218 SLA 1976)

Sec. 08.48.081. Roster. A complete roster showing the names and last known addresses of all architects, engineers and land surveyors, based on the register prepared under AS 08.01.050(12), shall be published by the secretary of the board once each year, or at lesser intervals as established by board regulations, and shall include the registrants' authorization numbers if applicable. Copies of this roster shall be mailed to each person registered, placed on file with the lieutenant governor and borough and city officials, and, upon request, may be distributed or sold to the public. (§ 3 ch 179 SLA 1972)

Sec. 08.48.091. Written examinations and examination fees. Written examinations shall be held at least twice each year at places determined by the board. A candidate failing an examination may apply for reexamination. The examination fee for applicants shall be established by the board in an amount not to exceed $50 and shall accompany the application. (§ 3 ch 179 SLA 1972)

Sec. 08.48.101. Regulations; bylaws; code of ethics. (a) The board may adopt regulations to carry out the purpose of this chapter, including, but not limited to

(1) describing the contents of an examination;

(2) establishing the conduct of an examination;

(3) establishing a minimum score for passing an examination;

(4) establishing bylaws governing its meetings and activities;

(5) publishing a code of ethics or professional conduct for those persons regulated by this chapter, including corporations under § 241 of this chapter.

(b) The regulations, bylaws and code of ethics or professional conduct promulgated by the board shall be published in the annual report to the governor. (§ 3 ch 179 SLA 1972)

Sec. 08.48.111. Power to revoke, suspend, or reissue certificate. The board may suspend, refuse to renew, or revoke the certificate of or reprimand a registrant or corporation who is found guilty of (1) fraud or deceit in obtaining a certificate; (2) gross negligence, incompetence, or misconduct in the practice of architecture, engineering or land surveying; (3) violation of this chapter, a regulation adopted under it, or the code of ethics or professional conduct as promulgated by the board; or (4) a crime involving moral turpitude relevant to one of those professions. The code of ethics or professional conduct shall be made known in writing to every registrant and applicant for registration under this chapter, and shall be published with the roster provided for in § 81 of this chapter. This publication constitutes due notice to all registrants. The board may revise and amend its code and, upon doing so, shall immediately notify each registrant in writing of the revisions or amendments. The board may, upon petition of the registrant or corporation, reissue a certificate if a majority of the members of the board vote in favor of the reissuance. (§ 3 ch 179 SLA 1972)

Sec. 08.48.121. Disciplinary action and procedure. Any person may file with the secretary of the board a charge of fraud, deceit, gross negligence, incompetence, misconduct or violation of this chapter, a regulation adopted under it, or the code of ethics of the board. Such a charge, constituting an accusation under the Administrative Procedure Act (AS 44.62), shall be in writing and sworn to by the person making it. A charge may be dismissed by the board as unfounded or trivial. (§ 3 ch 179 SLA 1972)

Sec. 08.48.131. Injunction. The board may bring an action in the superior court to enforce compliance with this chapter or an order of

the board, or to enjoin a person from doing an act that violates this chapter. (§ 3 ch 179 SLA 1972)

Sec. 08.48.141. Legal counsel. The attorney general of the state shall act as legal advisor to the board and render legal assistance upon request of its president. (§ 3 ch 179 SLA 1972)

Article 2. Registration and Practice.

Section
171. General requirements and qualifications for registration
181. Registration upon examination
191. Registration by comity or endorsement
201. Application and fees for registration
211. Certificate of registration
221. Seals
231. Expirations and renewals
241. Corporations
251. Partnerships
261. State employees

Sec. 08.48.171. General requirements and qualifications for registration. An applicant for registration as an architect, engineer or land surveyor must be of good character and reputation and must submit evidence satisfactory to the board of his education, training and experience. (§ 3 ch 179 SLA 1972)

Sec. 08.48.181. Registration upon examination. Except as provided in § 191 of this chapter, for registration as a professional architect, professional engineer or professional land surveyor, a person shall be examined in this state in accordance with the regulations of procedure and standards adopted by the board in accordance with the Administrative Procedure Act (AS 44.62), which procedure and standards shall at least meet the requirements adopted by recognized national examining councils for these professions. (§ 3 ch 179 SLA 1972)

Sec. 08.48.191. Registration by comity or endorsement. (a) A person holding a certificate of registration authorizing him to practice architecture in a state, territory or possession of the United States, the District of Columbia, or a foreign country, or holding a certificate of qualification issued by the national Council of Architectural Registration Board, which, in the opinion of the board, meets the requirements of this chapter, based on verified evidence, may, upon application, be registered in accordance with the regulations of the board.

(b) A person holding a certificate of registration authorizing him to practice engineering in a state, territory or possession of the United States, the District of Columbia, or a foreign country, which, in the opinion of the board meets the requirements of this chapter, based on verified evidence, may, upon application, be registered in accordance

with regulations of the board. A person holding a certificate of qualification issued by the National Council of Engineering Examiners Committee on National Engineering Certification may, upon application, be registered in accordance with the regulations of the board.

(c) A person holding a certificate of registration authorizing him to practice land surveying in a state, territory or possession of the United States, the District of Columbia, or a foreign country, may, upon application, be registered in accordance with the regulations of the board if his certificate was issued under requirements comparable to those in this state. (§ 3 ch 179 SLA 1972)

Sec. 08.48.201. Application and fees for registration. (a) Application for registration as a professional architect, a professional engineer or a professional land surveyor shall (1) be on a form prescribed and furnished by the board; (2) contain statements made under oath, showing the applicant's education and a detailed summary of his technical experience; and (3) contain five references, three of whom must be architects for architectural registration, engineers for engineering registration and land surveyors for land surveying registration, having personal knowledge of the applicant's architectural, engineering or land surveying education, training or experience.

(b) The registration fee for professional architects, professional engineers and professional land surveyors shall be established by the board in an amount not to exceed $100 and shall accompany the application for registration. (§ 3 ch 179 SLA 1972)

Sec. 08.48.211. Certificate of registration. (a) An applicant who fulfills the requirements set out by the board shall be awarded a certificate of registration as a professional architect, engineer or land surveyor, authorizing the holder to offer or perform architectural, engineering or land surveying services or work for the public, or to certify or sign architectural, engineering or land surveying documents. Certificate of registration issued under this section shall be inscribed on their face in a manner determined by the board.

(b) The certificate of registration sealed by the board is prima facie evidence that the person named in it is entitled to all rights and privileges of a professional architect, professional engineer or professional land surveyor, while the certificate remains unrevoked or unexpired. (§ 3 ch 179 SLA 1972)

Sec. 08.48.221. Seals. Each registrant may obtain a seal of the design authorized by the board, bearing the registrant's name, registration number, and the legend, "Registered Professional Architect," "Registered Professional Engineer," or "Registered Professional Land Surveyor," as appropriate. Final drawings, specifications, surveys, plats, plates, reports and other similar documents shall, when issued,

be signed and stamped with the seal. It is unlawful for an architect, engineer or land surveyor to affix or permit his seal and signature to be affixed to an instrument after the expiration of a certificate or for the purpose of aiding or abetting another person to evade or attempt to evade a provision of this chapter. The registrant, by affixing his seal to final drawings, specifications, surveys, plats, plates, reports and other similar documents, and signing them, certifies that these documents were prepared by or under his direct supervision, unless he certifies on the face of the document to the extent of his responsibility. (§ 3 ch 179 SLA 1972)

Sec. 08.48.231. Expirations and renewals. (a) To remain valid, certificate shall be renewed in accordance with AS 08.01.100. Notice of renewal dates, given under AS 08.01.050(11), shall be mailed to the registrant or corporation at his or its last known address at least one month in advance of the date of the expiration of the certificate. If the certificate has been suspended or revoked, the board may take action independent of this section.

(b) The renewal of a certificate does not require reapplication if the certificate has not expired or has not been suspended or revoked. The renewal fee for a certificate may not exceed $100.

(c) Renewal of an expired certificate may be effected under regulations promulgated by the board regarding requirements of reexamination and penalty fees. (§ 3 ch 179 SLA 1972)

Sec. 08.48.241. Corporations. (a) This chapter does not prevent a corporation from offering architectural, engineering or land surveying services; however, the corporation shall file with the board

(1) an application for a certificate of authorization upon a form to be prescribed by the board and containing information required to enable the board to determine whether the corporation is qualified in accordance with the provisions of this chapter to offer to practice architecture, engineering or land surveying in this state;

(2) a certified copy of a resolution of the board of directors of the corporation designating persons holding certificates of registration under this chapter as responsible for the practice of architecture, engineering or land surveying by the corporation in this state and providing that full authority to make all final architectural, engineering or land surveying decisions on behalf of the corporation with respect to work performed by the corporation in this state is granted by the board of directors to the persons designated in the resolution; however, the filing of this resolution does not relieve the corporation of any responsibility or liability imposed upon it by law or by contract;

(3) a designation in writing setting out the name of one or more persons holding certificates of registration under this chapter who are in responsible charge of each major branch of the architectural, engineering or land surveying activities in which the corporation specializes in this state; if a change is made in the person in responsible charge of a major branch of the architectural, engineering or land surveying activities, the change shall be designated in writing and filed with the board within 30 days after the effective date of the change.

(b) Upon filing with the board the application for certificate of authorization, certified copy of resolution, affidavit, and designation of persons specified in this section, the board shall, subject to (c) of this section, issue to the corporation a certificate of authorization to practice architecture, engineering or land surveying in this state upon a determination by the board that

(1) the bylaws of the corporation contain provisions that all architectural, engineering or land surveying decisions pertaining to architectural, engineering or land surveying activities in this state will be made by the specified architect, engineer or land surveyor in responsible charge, or other registered architects, engineers or land surveyors under his direction or supervision;

(2) the application for certificate of authorization states the type of architecture, engineering or land surveying practiced or to be practiced by the corporation;

(3) the applicant corporation has the ability to provide architectural, engineering or land surveying services;

(4) the application for certificate of authorization states the professional records of the designated person who is in responsible charge of each major branch of architectural, engineering or land surveying activities in which the corporation specializes;

(5) the application for certificate of authorization states the experience of the corporation, if any, in furnishing architectural, engineering or land surveying services during the preceding five-year period;

(6) the applicant corporation meets other requirements related to professional competence in the furnishing of architectural, engineering or land surveying services as may be established and promulgated by the board in furtherance of the objectives and provisions of this chapter.

(c) The board may, in the exercise of its discretion, refuse to issue, or may suspend or revoke a certificate of authorization to a corporation if the board finds that any of the officers, directors,

incorporators or the stockholders holding a majority of the stock of the corporation has committed misconduct or malpractice, or has been found personally responsible for misconduct or malpractice under the provisions of this chapter.

(d) The certificate of authorization shall specify the major branches of architecture, engineering or land surveying of which the corporation has designated a person in responsible charge as provided in this section. The certificate of authorization shall be conspicuously displayed in the place of business of the corporation, together with the names of persons designated as being in responsible charge of the professional activities.

(e) If a corporation, organized solely by either a group of architects, a group of engineers, or a group of land surveyors, each holding a certificate of registration under this chapter, applies for a certificate of authorization, the board may, in its discretion, grant a certificate of authorization to the corporation based on a review of the professional records of the incorporators, in place of the required qualifications set out in this section. If the ownership of the corporation is altered, the corporation shall apply for a revised certificate of authorization, based upon the professional records of the owners, if exclusively architects, engineers or land surveyors, or otherwise under the qualifications required by (b)(1)-(4) of this section.

(f) A corporation authorized to offer architectural, engineering or land surveying services under this chapter, together with its directors and officers for their own individual acts, is responsible to the same degree as the designated individual registered architect, engineer or land surveyor, and must conduct its business without misconduct or malpractice in the practice of architecture, engineering or land surveying as defined in this chapter.

(g) If the board, after a proper hearing, finds that a corporation holding a certificate of authorization has committed misconduct or malpractice, the board shall suspend or revoke the certificate of authorization. The board shall also suspend or revoke the certificate of registration of any registered individual architect, engineer or land surveyor who, after a proper hearing, is found by the board to have participated in committing the misconduct or malpractice.

(h) Plans, specifications, designs and reports, when issued in connection with work performed by a corporation under its certificate of authorization, shall be prepared by or under the responsible charge of and shall be signed by and shall be stamped with the official seal of a person holding a certificate of registration under this chapter.

(i) For each certificate of authorization issued to a corporation under the provisions of this chapter, there shall be paid an initial fee not to exceed $300. (§ 3 ch 179 SLA 1972)

Sec. 08.48.251. Partnerships. This chapter does not prevent the practice of architecture, engineering or land surveying by partnership if all of the members of the partnership are architects, engineers or land surveyors legally registered under this chapter. (§ 3 ch 179 SLA 1972)

Sec. 08.48.261. State employees. The head of each principal department in which there are positions necessitating use of architectural, engineering, or land surveying knowledge or skills shall specify, in the job descriptions, the positions for which registration under this chapter is required. This requirement for any position in a department may be waived by the head of the department. When the requirement is waived, the head of the department shall transmit to the division of personnel a written statement to the effect that the person filling the position is qualified to perform the duties of that position and a statement of the reasons for waiving the requirement, explaining why the employee was hired or was retained as an employee even though not registered under this chapter. The head of the department shall send a copy of the statement to the board. (§ 3 ch 179 SLA 1972)

Article 3. Unlawful Acts.

Section
281. Prohibited practice
291. Violations and penalties

Sec. 08.48.281. Prohibited practice. No person may practice or offer to practice the profession of architecture, engineering or land surveying in Alaska, as defined in this chapter, or use in connection with his name or otherwise assume or advertise a title or description tending to convey the impression that he is a registered architect, engineer or land surveyor unless he has been registered under the provisions of this chapter or is a person to whom these provisions do not apply, or, in the case of a corporation, unless it has been authorized under this chapter. (§ 3 ch 179 SLA 1972)

Sec. 08.48.291. Violations and penalties. A person who practices or offers to practice architecture, engineering or land surveying in Alaska without being registered or authorized to practice in accordance with the provisions of this chapter, or a person presenting or attempting to use the certificate or the seal of another, or a person who gives false or forged evidence of any kind to the board or to a member of the board in obtaining or attempting to obtain a certificate, or a person who impersonates a registrant, or a person who uses or attempts to use an expired or revoked or nonexistent certificate, knowing of the certificate's status, or a person who falsely claims that he is registered and authorized to practice under this chapter, or a person who violates any of the provisions of this chapter, is guilty of a misdeanor and upon conviction is punishable by a fine of not more than $10,000, or by imprisonment for not more than one year, or by both. (§ 3 ch 179 SLA 1972)

Article 4. General Provisions.

Section
311. Individual right
321. Evidence of practice
331. Exemptions
341. Definitions
351. Short title

Sec. 08.48.311. Individual right. The right to engage in the practice of architecture, engineering or land surveying is considered a personal and individual right, based on the qualifications of the individual as evidenced by his certificate of registration, which is not transferable. (§ 3 ch 179 SLA 1972)

Sec. 08.48.321. Evidence of practice. A person practices or offers to practice architecture, engineering or land surveying who

(1) practices a branch of the profession of architecture, engineering or land surveying as defined in § 341 of this chapter;

(2) by verbal claim, sign, advertisement, letterhead, card, or other means represents himself to be an architect, engineer or land surveyor, or through the use of some other title implies that he is an architect, engineer or land surveyor;

(3) holds himself out as able to perform or who does perform an architectural, engineering or land surveying service recognized by the professions covered by this chapter, and specified in regulations of the board, as architectural, engineering or land surveying. (§ 3 ch 179 SLA 1972)

Sec. 08.48.331. Exemptions. This chapter does not apply to

(1) the execution as a contractor of work designed by a professional architect or engineer, or the supervision of the construction of this work as a foreman or superintendent for a contractor;

(2) superintendents, foremen, inspectors, or building trades craftsmen in the performance of their customary duties;

(3) an officer or employee of the United States government practicing architecture, engineering or land surveying as required by his official capacity;

(4) an officer or employee of the state practicing architecture, engineering or land surveying as required by his official capacity and registration is not required in his job description;

(5) the work of an employee or a subordinate of a person legally registered under this chapter, if the work or service does not include final designs or decisions or surveys, and is done under the direct supervision of and verified by a person legally registered under this chapter;

(6) the services ordinarily performed by locomotive, stationary and marine engine men, power plant operators, and manufacturers who supervise the operation of or operate machinery or equipment, or supervise construction within their own plant which affects only the property or interest of the manufacturer, unless the public health or safety is involved;

(7) the practice of any other lawfully recognized profession;

(8) associates, consultants or specialists retained by an individual, a partnership of legally registered individuals, or a corporation authorized under this chapter, in the performance of the professional services offered by the legally registered individual, partnership, or authorized corporation if responsible charge of the work remains with the individual, partnership or designated representative of the corporation;

(9) a person preparing plans, drawings, or specifications for

(A) a building for his own use and occupancy unless the public health, safety, or welfare is substantially involved;

(B) farm or ranch buildings unless the public health, safety, or welfare is substantially involved;

(C) a building intended to be used only as a residence by not more than four families and not more than two stories high;

(D) a building with a total of not more than 500 square feet of floor space;

(10) a specialty contractor licensed under appropriate Alaska Statutes, while engaged in the business of contracting, designing systems or facilities as otherwise permitted by law for work within the specialty for which his license was issued to be performed or supervised by the contractor, or any licensed contractor preparing shop or field drawings for work which he has contracted to perform;

(11) a person furnishing, either alone or with subcontractors, labor and materials, with or without plans, drawings, specifications, instruments of service, or other data covering the labor and materials to be used for any of the following:

(A) storefronts (facades), interior alterations or additions, fixtures, cabinetwork, furniture, or other appliances or equipment;

(B) work necessary to provide for installation of an item listed in (A) of this paragraph;

(C) alterations or additions to a building necessary to or attendant upon installation of an item listed in (A) of this paragraph, if the alteration or addition does not change or affect the structural system or safety of the building;

(12) an officer or employee of an individual, firm, partnership, association or corporation which officer or employee practices architecture, engineering or land surveying when required by his official capacity or work duties connected with his employment if the individual firm, partnership, association or corporation is not engaged in the business of offering architectural, engineering or land surveying services to the public. (§ 3 ch 179 SLA 1972)

Sec. 08.48.341. Definitions. In this chapter

(1) "architect" means a professional architect;

(2) "board" means the State Board of Registration for Architects, Engineers and Land Surveyors;

(3) "certificate of authorization" means a certificate issued by the board authorizing a corporation to provide professional services in architecture, engineering or land surveying through individuals legally registered by the board;

(4) "certificate of registration" means a certificate issued by the board recognizing the individual named in the certificate as meeting the requirements for registration under this chapter;

(5) "engineer" means a professional engineer;

(6) "land surveyor" means a professional land surveyor;

(7) "practice of architecture" means professional service or creative work in the functional and aesthetic design of structures, the teaching of advanced architectural courses in institutions of higher learning, consultation, investigation, evaluation, planning, design and professional observation of construction of public or private structures, buildings, works or projects, and architectural review of plans and specifications by regulatory agencies; it may by regulation of the board include mechanical, electrical or structural design of relatively minor importance to the project as a whole;

(8) "practice of engineering" means professional or creative work, the adequate performance of which requires the application of specialized knowledge of mathematics and sciences, dealing with the functional and economic design of buildings, structures, machines, equipment, utilities systems, materials, processes, works or projects, public or private; the teaching of advanced engineering courses in institutions of higher learning, the direction of or the performance of engineering surveys, consultation, investigation, evaluation, planning, design, and professional observation of construction of public and private structures, buildings, works or projects and engineering review of plans and specifications by regulatory agencies; it may by regulation of the board include architectural design of relatively minor importance to the project as a whole, but it does not include comprehensive architectural services;

(9) "practice of land surveying" means any service or work the adequate performance of which involves the application of special knowledge of the principles of mathematics, the related sciences, and the relevant requirements of law for adequate evidence of the act of measuring and locating land, geodetic and cadastral surveys for the location and monumentation of property boundaries, for the platting and planning of land and subdivisions, and for the preparation and perpetuation of maps, record plats, field note records and property descriptions that represent these surveys;

(10) "professional architect" means a person who has been legally registered as a professional architect by the board;

(11) "professional engineer" means a person who has been legally registered as a professional engineer by the board;

(12) "professional land surveyor" means a person who has been legally registered as a professional land surveyor by the board;

(13) "responsible charge" means the direct control and personal supervision of work. (§ 3 ch 179 SLA 1972)

Sec. 08.48.351. Short title. This chapter may be cited as the Architects, Engineers and Land Surveyors Registration Act. (§ 3 ch 179 SLA 1972)

12 AAC 36.010. APPLICATIONS. (a) An application for registration or examination for registration must be typewritten and filed with the board on a form prescribed by the board, accompanied by the required fee and a recent, frontal photograph, 2" x 2½" in size.

(b) No candidate will be admitted to an examination or approved for registration until his qualifications are accepted by the board. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.171
AS 08.48.191
AS 08.48.201

12 AAC 36.020. ABANDONED APPLICATIONS. (a) In the absence of special circumstances, the board will consider an examination application abandoned if

(1) the applicant fails to appear for examination at the time fixed without obtaining a postponement as set out in sec. 70 of this chapter;

(2) the applicant, after two postponements, fails to appear for examination at the time fixed.

(b) An applicant whose application is considered abandoned will have his application denied without prejudice and his application fee will be forfeited.

(c) An application is considered abandoned if 18 months have elapsed since correspondence was last received from the applicant. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)

12 AAC 36.030. REFUND WHEN APPLICATION WITHDRAWN. An applicant who withdraws his application before board action will be refunded his application fee except for five dollars. (Eff. 5/23/74, Reg. 50)

Authority: AS 08.48.101

12 AAC 36.040. REEXAMINATION APPLICATION. An applicant who has failed the examination may, within 18 months of notification of the failed examination, reapply for examination. Another examination fee is required. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.091
AS 08.48.101(a)
AS 08.48.171

12 AAC 36.050. FINAL FILING DATES. (a) The final filing date for applications for examination is 60 days before the examination

and will be advertised as such by the board at least 30 days before that date.

(b) Repealed. (9/30/78, Reg. 67)

(c) Whenever the final filing date for an examination falls upon a Saturday, Sunday or holiday, it will be extended to the next business day.

(d) If an application is filed with the board through the United States mail, it will be considered filed on the date shown by the Post Office cancellation mark stamped on the envelope containing it, or on the date mailed if satisfactory proof is made that the mailing occurred on an earlier date. (Eff. 5/23/74, Reg. 50)

Authority: AS 08.48.101

12 AAC 36.060. ELIGIBILITY FOR PROFESSIONAL ARCHITECT EXAMINATION OR ARCHITECT'S QUALIFYING EXAMINATION. To be eligible for the professional architect examination or the architect's qualifying examination, an applicant must meet the education and experience requirements adopted by the NCARB. An applicant for examination may receive a copy of the requirements upon submission of a written request to the board. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.171
AS 08.48.181

12 AAC 36.062. ELIGIBILITY FOR FUNDAMENTALS OF ENGINEERING EXAMINATION. To be eligible for the fundamentals of engineering examination, an applicant must

(1) have successfully completed at least 85 percent of the required courses leading to an undergraduate degree in an engineering curriculum accredited by ECPD; or

(2) have been engaged in engineering work acceptable to the board for a period of not less than four years; or

(3) submit to the board satisfactory evidence that his education or experience or both are equivalent to the requirements as set out in the following EIT table of equivalent experience:

ENGINEER IN TRAINING TABLE OF EQUIVALENT EXPERIENCE

Classification	Education In Years	Experience In Years	Total Education And Experience
Graduate of ECPD accredited engineer curriculum 4 or 5 year course w/B.S.	4	–0–	4
Graduate of non-ECPD accredited engineer curriculum 4 or 5 year course w/B.S.	2	2	4
No formal education	–0–	6	6

(Eff. 9/30/78, Reg. 67)

Authority: AS 08.48.101
AS 08.48.171

12 AAC 36.063. ENGINEER EDUCATION AND EXPERIENCE REQUIREMENTS. (a) To be eligible for a professional engineering examination, an applicant must

(1) have been approved for or have passed the fundamentals of engineering examination or had these requirements waived under sec. 90(a) of this chapter; and

(2) apply for examination in a branch of engineering recognized by sec. 250(17) of this chapter; and

(3) be a graduate of an engineering curriculum accredited by ECPD within the branch of engineering applied for and have been engaged in professional engineering work in the applicant's branch for at least four years and during that period have had direct personal supervision or responsible charge of professional engineering work as a supervisor or assistant under the supervision of a registered professional engineer in the applicant's branch, for not less than two years; or

(4) have been engaged in professional engineering work in the applicant's branch for a period of not less than 12 years and during that

period have had direct personal supervision or responsible charge of professional engineering work as a supervisor or assistant under the supervision of a registered professional engineer in the applicant's branch, for not less than two years; or

(5) submit to the board satisfactory evidence that his education or experience or both are equivalent to the requirements as set out in the following professional engineer table of equivalent experience:

PROFESSIONAL ENGINEER TABLE OF EQUIVALENT EXPERIENCE

(Education and experience for initial registration must be in the branch in which the applicant seeks registration for full credit to be given. If the education experience is not in the branch in which the applicant seeks registration, any credit in excess of 1/2 will be determined by the board.)

Classification	Education In Years	Experience In Years	Responsible Charge Under P.E.	Total Education And Experience
Graduate of ECPD accredited engineering curriculum with M.S. or Ph.D.	5	3	2	8
Graduate of ECPD accredited 4 or 5 year course w/B.S.	4	4	2	8
Graduate of non-ECPD accredited engineering curriculum 4 or 5 year course	2	6	2	8
No formal education	-0-	12	2	12

(b) For registration in more than one branch of engineering, professional work experience used in securing registration in one branch of engineering will be evaluated by the board in considering an application for registration in another branch or field of engineering. (Eff. 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.171
AS 08.48.181

12 AAC 36.064. ELIGIBILITY FOR FUNDAMENTALS OF LAND SURVEYING EXAMINATION. To be eligible for the fundamentals of land surveying examination, an applicant must have four years of experience. The required experience may be any combination of the experience credit set forth in the professional land surveyor table of equivalent experience in sec. 65(a)(2) of this chapter. (Eff. 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)

12 AAC 36.065. ELIGIBILITY FOR PROFESSIONAL LAND SURVEYOR EXAMINATION. (a) To be eligible for the professional land surveyor examination, an applicant must

(1) have been approved for or have passed the fundamentals of land surveying examination; and

(2) submit to the board satisfactory evidence that his education or experience or both are equivalent to the requirements set out in the following professional land surveyor table of equivalent experience:

PROFESSIONAL LAND SURVEYORS TABLE OF EQUIVALENT EXPERIENCE

Classification	Education Credit Allowed In Years	Experience Credit Allowed In Years	Responsible Charge Under R.L.S. In a Land Surveying Capacity	Total Education And Experience Required
Graduate of a board approved surveying curriculum 4-year course	4	4	3	8

(b) Responsible charge of professional land surveying work as a supervisor under the direct supervision of a registered land surveyor, and working in a land surveying capacity. The remainder of the required experience must be derived from office or field work involving the activities listed in AS 08.48.341(9). Partial completion of a curriculum leading to a degree in land surveying, civil engineering, or mining engineering will, in the discretion of the board, be considered by the board in determining applicable experience. (Eff. 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.171
AS 08.48.181

12 AAC 36.067. DATE OF EXPERIENCE. Computation of qualifying experience for admission to the examination as an architect, engineer, or land surveyor is up to the date of the examination. (Eff. 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.171

12 AAC 36.070. POSTPONEMENTS. The board will, in its discretion, grant postponements, not to exceed two postponements for each type of examination given, to any applicant who, for reasonable cause, is prevented from appearing for the examination at the time fixed, if the applicant's request for postponement and the reason for it are filed with the board not later than 10 days immediately following the date of the examination. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)

12 AAC 36.080. AUTHORIZATION TO TAKE EXAMINATION. Notification of the applicant's authorization to take the examination will be made at least 30 days before the examination. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)

12 AAC 36.090. WAIVER OF FUNDAMENTALS OF ENGINEERING EXAMINATION. (a) An applicant for registration as a professional engineer who has not passed the fundamentals of engineering examination need not take that examination if satisfactory evidence is submitted to the board to verify 20 years of professional experience.

(b) An applicant for registration in any branch of engineering who holds a valid registration in another branch of engineering meeting this state's requirements will not be required to take the fundamentals of engineering examination. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)

12 AAC 36.100. CONTENT OF EXAMINATION. Except as provided in AS 08.48.191, an applicant for registration as an architect, engineer or land surveyor is required to take and pass an examination either as currently prepared by NCEE, NCARB, or for those cases where no national examination is prepared, as prepared or selected by the board. (Eff. 5/23/74, Reg. 50)

Authority: AS 08.48.101
AS 08.48.171
AS 08.48.181

12 AAC 36.105. REGISTRATION BY COMITY. (a) A person holding a certificate of registration to engage in the practice of engineering issued to him by a proper authority of a state or possession of the United States, the District of Columbia or any foreign country based on requirements that do not conflict with the provisions of AS 08.48 and were of a standard not lower than that specified in the applicable registration Act in effect in this state at the time that certificate was issued, will upon application be registered without further examination.

(b) A person, holding a valid certificate issued by the Committee on National Engineering

Certification of the National Council of Engineering Examiners, whose qualifications as evidenced by his council record meet the requirements of AS 08.48, will upon application be registered without further examination.

(c) A person holding a valid certificate of registration to practice land surveying issued on comparable qualification from a state, territory or possession of the United States, the District of Columbia or a foreign country with experience satisfactory to the board, is required to pass a written examination of not less than four hours' duration which includes questions on laws, procedures, and practices pertaining to land surveying in this state. The board will, in its discretion, require additional examination unless the examination requirements under which the applicant was initially registered, were equivalent to this state's examination requirements at the time of the initial registration.

(d) The board will not grant temporary registration under any circumstances.

(e) The board will not recognize or grant professional registration by eminence. (Eff. 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.191

12 AAC 36.110. TREATISE REQUIRED FOR REGISTRATION. (a) An applicant for architectural registration must

(1) submit a treatise on construction under arctic and subarctic conditions acceptable to the board prior to the issuance of a certificate of registration; or

(2) have successfully completed either a course or seminar in arctic engineering approved by the board.

(b) An applicant for architectural registration by comity must also submit a treatise on seismic forces, except for an applicant

(1) registered in California in May, 1933 or later;

(2) registered by examination in Washington State in 1963 or later;

(3) registered by examination in any other state in 1964 or later.

(c) An applicant for engineering registration must

(1) submit a treatise on construction under arctic and subarctic conditions, emphasizing his specific branch, that is acceptable to the board; or

(2) have successfully completed either a course or seminar in arctic engineering approved by the board. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.171

12 AAC 36.120. EXPERIENCE CREDIT. Repealed. (9/30/78, Reg. 67)

12 AAC 36.130. DATE OF EXPERIENCE. Repealed. (9/30/78, Reg. 67)

12 AAC 36.140. ARCHITECTURAL CURRICULA APPROVED BY THE BOARD. Repealed. (9/30/78, Reg. 67)

12 AAC 36.150. ENGINEERING CURRICULA APPROVED BY THE BOARD. Repealed. (9/30/78, Reg. 67)

12 AAC 36.160. DUPLICATE CERTIFICATE. Duplicate certificates will be issued by the board to registrants and corporations upon written request and payment of a $10 fee. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.211

12 AAC 36.170. FEES. Following are the prescribed fees:

(1) application by examination, $50 per examination;

(2) reexamination fee, $50 per examination;

(3) application by comity, $50;

(4) application for corporate authorization, $100;

(5) registration fee, $15 per year for balance of biennial period;

(6) corporate authorization registration fee, $50 per year;

(7) registration renewal, $15 annually, payable biennially by December 31 of odd-numbered years;

(8) corporate authorization renewal, $50 annually, payable biennially by December 31 of odd-numbered years;

(9) amendment to corporate authorization, $20;

(10) delinquent renewal fee for reinstatement of expired registration, $30;

(11) postponement of examination, $20. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.01.100

12 AAC 36.180. SEAL. (a) The seal authorized for use by professional architects is of the following design:

(b) The seal authorized for use by professional engineers is of the following design:

and must reflect the branch of engineering authorized by the board. This identification is to be placed below the registrant's number on the seal as noted:

EC – Chemical engineer
CE – Civil engineer
EE – Electrical engineer
ME – Mechanical engineer
EM – Mining engineer
EP – Petroleum engineer

(c) The seal authorized for use by professional land surveyors is of the following design:

(Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.221

12 AAC 36.190. TESTING LABORATORY REPORTS. Reports issued by testing laboratories shall be prepared by or under the supervision of a registered engineer and signed or sealed by him whenever such reports go beyond the tabulation of test data (compositions of material, breaking stress, etc.) by

(1) interpreting the data to draw conclusions as to the characteristics of a civil engineering structure or parts of one;

(2) expressing engineering judgment in the form of recommendations derived from the results of the test; or

(3) performing design work in the preparation of plans, specifications and other instruments requiring registration as an engineer. (Eff. 5/23/74, Reg. 50)

Authority: AS 08.48.101

ARTICLE 2.
RULES OF PROFESSIONAL CONDUCT

Section
200. Integrity
210. Responsibility to the public
220. Conflict of interest
225. Public service
230. Solicitation of employment
235. Advertising
240. Improper conduct

12 AAC 36.200. INTEGRITY. An architect, engineer or land surveyor shall act with complete integrity in professional matters for each client or employer as a faithful agent or trustee and shall be honest and impartial in serving the public, his client and his employer. (Eff. 5/23/74, Reg. 50)

Authority: AS 08.48.101
AS 08.48.111

12 AAC 36.210. RESPONSIBILITY TO THE PUBLIC. (a) In order to establish and maintain a high standard of integrity, skills, and practice in the professions of architecture, engineering and land surveying, and to safeguard the life, health, property and welfare of the public, the following rules of professional conduct are adopted and are binding upon every individual holding a certificate of registration as an architect, engineer, or land surveyor and upon all partnerships or corporations or other legal entities authorized to offer or perform architectural, engineering, or land surveying services in the state.

(b) Each architect, engineer, or land surveyor shall

(1) at all times recognize his primary obligation to protect the safety, health, property, and welfare of the public in the performance of his professional duties; if his professional judgment is overruled under circumstances where the safety, health, and welfare of the public are endangered, he shall inform his employer or client of the possible consequence and notify such other proper authority of the situation as may be appropriate; and

(2) undertake to perform assignments only when he or his associates, consultants, or employees are qualified by education, training, experience, and licensing in the specific technical branches or fields involved;

(3) be completely objective and truthful in all professional reports, statements, or testimony and shall include all relevant and pertinent information in such reports, statements, or testimony when the result of an omission would, or reasonably could, lead to a fallacious conclusion; and

(4) not affix his signature or seal to any plan or document dealing with professional services in which he is not qualified by virtue of education, experience, and licensing; and

(5) issue no statements, criticisms, or arguments on architectural, engineering, or land surveying matters connected with public interests which are inspired or paid for by his interested party or parties unless he has prefaced his comment by explicitly identifying himself by disclosing the identities of the party or parties on whose behalf he is speaking, and by revealing the existence of any pecuniary interest. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)
AS 08.48.111

12 AAC 36.220. CONFLICT OF INTEREST. (a) Each architect, engineer or land surveyor shall avoid conflicts of interest with his employer or client but, when unavoidable, the architect, engineer, or land surveyor shall promptly inform his employer or client of any business association, interests, or circumstances and identify any circumstances which could influence his judgment or the quality of his service to his employer or client.

(b) An architect, engineer, or land surveyor may not accept compensation, financial or otherwise, from more than one party for services on the same project or for services pertaining to the same project unless the circumstances are fully disclosed to and agreed to by all interested parties or their authorized agents.

(c) An architect, engineer, or land surveyor may not solicit or accept financial or other valuable consideration from suppliers for specifying their products.

(d) An architect, engineer, or land surveyor may not solicit or accept gratuities from other parties dealing with his client or employer in connection with the work for which he is responsible. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)(5)

12 AAC 36.225. PUBLIC SERVICE. When in public service as a member, advisor, or employee of a government body, an architect, engineer, or land surveyor may not participate in considerations or actions with respect to services provided by him or his organization. An architect, engineer, or land surveyor, in his capacity as an elected, retained, or employed public official, may not review or approve work that he has performed, whether it was under his direction or on behalf of another employer or client. (Eff. 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)(5)

12 AAC 36.230. SOLICITATION OF EMPLOYMENT. (a) An architect, engineer or land surveyor may not pay, solicit nor offer, directly or indirectly, any bribe or commission for professional employment with the exception of his payment of the usual commission for securing salaried positions through licensed employment agencies.

(b) Each architect, engineer, or land surveyor shall seek professional employment on the basis of qualifications and competence for proper accomplishment of the work. He may not knowingly solicit or submit proposals for professional services on the basis of competitive bidding.

(c) An architect, engineer or land surveyor may not falsify or permit misrepresentation of his or his associates' academic or professional qualifications. He may not misrepresent or exaggerate his degree of responsibility in or for the subject matter of prior assignments.

(d) Brochures or other presentations incident to an architect's engineer's or land surveyor's solicitation of employment may not misrepresent pertinent facts concerning employers, employees, associates, joint ventures, or his or their past accomplishments with the intent and purpose of enhancing his qualifications and his work. (Eff. 5/23/74, Reg. 50)

Authority: AS 08.48.101
AS 08.48.111

12 AAC 36.235. ADVERTISING. An architect, engineer, or land surveyor may not advertise his or her services in a deceptive, self-laudatorial, or untruthful manner. (Eff. 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)(5)

12 AAC 36.240. IMPROPER CONDUCT. (a) An architect, engineer, or land surveyor may not knowingly associate with or permit the use of his name or firm name in a business venture by any person or firm which he knows or has reason to believe is engaging in business or professional practices in a fraudulent or dishonest manner.

(b) If an architect, engineer, or land surveyor has knowledge or reason to believe that another person or firm may be in violation of the provisions of AS 08.48, or any of these rules of professional conduct, he or she shall present that information to the board in writing and shall cooperate with the board in furnishing such further information or assistance as may be required. (Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)

ARTICLE 3.
GENERAL PROVISIONS

Section
250. Definitions

12 AAC 36.250. DEFINITIONS. For the purposes of this chapter and AS 08.48, unless the context requires otherwise

(1) "advanced courses" means courses in institutes of higher learning beyond the second academic year;

(2) "board" means the State Board of Registration for Architects, Engineers and Land Surveyors;

(3) "chemical engineering" means that branch of professional engineering which embraces studies and activities relating to applied chemistry, both industrial and nonindustrial, concerned with chemical materials, their composition, locations, transportation, and storage; chemical and physical-chemical processes naturally occurring or artificially operated, their matter and energy changes, the conditions of temperature, concentration and media for those changes including apparatus and analytical control; chemical products, their quality, quantity, applications, uses, and values; preparation of materials for public or industrial use including water supply, waste abatement, and pollution control;

(4) "civil engineering" means that branch of professional engineering which embraces studies and activities in connection with research, design, and construction of fixed works for irrigation, drainage, waterpower, water supply and treatment, flood control, inland waterways, harbors, municipal improvements, railroads, highways, tunnels, airports and airways, sewerage, refuse disposal, foundations, structures, or bridges;

(5) "design" means the original and unique application of basic aesthetic, mathematical and physical and chemical principles to provide an acceptable solution of a problem or project;

(6) "direct supervision" means personal control, at the working level, of the preparation of professional documents;

(7) "ECPD" means Engineers' Council for Professional Development;

(8) "electrical engineering" means that branch of professional engineering which embraces studies and activities relating to generation, transmission and utilization of electrical energy and to telecommunications systems and facilities, including the design of electrical, electronic and magnetic circuits and components, and the technical control of their operation and of the design of electrical and telecommunications gear; it is concerned with the research, organizational and economic aspects of these studies and activities;

(9) "mechanical engineering" means that branch of professional engineering which deals with engineering problems relating to generation, transmission and utilization of energy in the thermal or mechanical form, and also with engineering problems relating to the production of tools, machinery and their products and to mechanical processes, heating, air conditioning, refrigeration and plumbing; it is concerned with the research, design, production, operational, organizational and economic aspects of these studies and activities;

(10) "mining engineering" means that branch of professional engineering which embraces studies or activities relating to the exploration, location, and recovery of mineral commodities; it is concerned with research, design, construction, and development of structures, devices, and facilities of production and the economic aspects related to these studies and activities;

(11) "NAAB" means the National Architectural Accrediting Board;

(12) "NCARB" means the National Council of Architectural Registration Boards;

(13) "NCEE" means the National Council of Engineering Examiners;

(14) "petroleum engineering" means that branch of professional engineering which embraces studies or activities relating to the exploration, location, and recovery of natural fluid hydrocarbons; it is concerned with research, design, production, and operations of devices, and the economic aspects of these studies and activities;

(15) repealed (9/30/78, Reg. 67);

(16) repealed (9/30/78, Reg. 67);

(17) "professional engineering" includes the branches of

(A) chemical engineering;

(B) civil engineering;

(C) electrical engineering;

(D) mechanical engineering;

(E) mining engineering;

(F) petroleum engineering;

(18) "professional work" means the time the applicant has been occupied in architecture, engineering or land surveying work of higher grade and responsibility than that of subprofessional work;

(19) "responsible charge of work in the field" means the direction of work, the successful accomplishment of which rested upon the applicant, where the applicant has to decide questions of methods of execution and suitability of materials without relying upon advice or instructions from his superiors and where the applicant has to supply solutions to deficiencies in plans or has to correct errors in designs without first referring them to higher authority for approval, except where the approval is a matter of form;

(20) "responsible charge" as it pertains to "work in the office" means undertaking investigations or carrying out assignments, which demand resourcefulness and originality, or making plans, writing specifications, and directing drafting and computations for the design of architectural, engineering or land surveying work with only rough sketches, general information and field measurements for reference;

(21) "state" means the State of Alaska;

(22) "subprofessional work" means time spent working as rodman, chainman, recorder, draftsman, clerk of works, instrument man, inspector, or similar work where personal responsibility and technical knowledge are slight;

(23) "speciality contractor" means a contractor registered to offer not more than two labor trades;

(24) "registration by comity" means registration by recognition of the applicant's credentials accepted by another jurisdiction.

(Eff. 5/23/74, Reg. 50; am 9/30/78, Reg. 67)

Authority: AS 08.48.101(a)

J

STATE OF ALASKA
Board of Marine Pilots
(October, 1979)

Findings

Review of the responsibilities and activities of the Board of Marine Pilots indicates that regulation of this profession is in the public interest and should be continued.

Observations made in the review are designed to enhance Board operation and efficiency.

The Board functions under AS 08.62 to license qualified applicants and regulate individuals within the profession. Support services are provided by the Department of Commerce and Economic Development, Division of Occupational Licensing.

I. General Information

A. Regulated Parties

1. Marine Pilots
2. Vessels subject to AS 08.62 must register with the Board

B. Definitions

"Pilotage waters" includes all inside Alaska waters, with exceptions noted in Board regulations (12 AAC 56.110).

C. Purpose of Regulation

AS 08.62.040 requires the Board to "provide for the maintenance of efficient and competent pilot service on all waters covered by this chapter to assure protection of shipping and the safety of human life and property..."

D. Nature and Composition of Board

1. Board members and terms:

Four-year term (no restrictions regarding consecutive terms or number of terms).

Charles R. Webber, Commissioner
Department of Commerce & Economic Development (Chairman)

Capt. Donald Oldow	ends June 1, 1980
Capt. Jack Maroni	ends June 1, 1979
Charles Stover (Agent)	ends June 1, 1980
Marvin Taylor (Agent)	ends June 1, 1979
Kenneth Peavyhouse (public)	ends June 1, 1983
(public member vacancy)	

2. Representation:

Profession = 4
State Government = 1
Public = 2

3. Qualifications:

The Board "consists of two pilots licensed under this chapter who have been actively engaged in piloting on vessels subject to this chapter, two agents or managers of vessels subject to this chapter, two public members in accordance with AS 08.01.025, and the commissioner or his designee. Not more than one pilot and one agent or manager shall be from any one judicial district. All members of the board shall be residents of the state." (AS 08.62.010)

E. Licensing Data

Current licenses (effective September 30, 1979)

in-State = 36
out-of-State = 16
Total = 52

F. Fees

1.	application fee	$ 10.00
2.	biennial license fee	200.00
3.	temporary license fee	50.00

G. Board Revenues and Expenditures

	FY '76	FY '77	FY '78	FY '79
Receipts	$ 990.00	$11,122.10	$1,830.00	$10,722.00
- refunds	-	-	50.00	-
Total	990.00	11,122.10	1,780.00	10,722.00
Expenditures				
Transportation	865.50	2,444.46	1,648.74	3,549.00
Per Diem	1,313.75	2,271.68	1,692.00	3,105.75
Phone	32.98	42.12	49.96	463.56
Printing, Adver. & Postage	501.29	706.10	358.94	750.79
Fees & Services	-	35.00	-	70.00
Rents, Leases & Other	-	15.75	70.00	173.57
Total	$2,713.52	$ 5,515.11	$3,819.64	$ 8,112.67
Surplus	-	$ 5,606.99	-	$ 2,609.33

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

H. Complaints

Cases received during FY '78 and FY '79	= 14
Cases closed during FY '78 and FY '79	= 16
Cases to litigiation during FY '78 and FY '79	= 1
Cases pending closure before the Board	= 0
Cases on file for investigation	= 12

All twelve open cases were filed by members of the profession or industry; seven concern unlicensed activity, three pertain to failure to report accidents, and two are of an undetermined nature.

II. Analysis

A. To what extent has the Board of Marine Pilots operated in the public interest?

The Board assures competency of Marine Pilots through its qualifications for licensure as outlined in Board regulations. The Board meets in May and December of each year to pass on applicant qualifications, conduct examinations, and consider other Board business.

Temporary permits are available (pending full examination at a regular meeting) for qualified applicants for unlimited, limited or channel pilot licenses, subsequent to submission of qualifications and brief examination by two members of the Board. These two members have traditionally been either the pilot and agent from Scuthwest Alaska or the pilot and agent from Southeast Alaska. Authorization of the temporary permit is documented by these members and forwarded to the administrative agency for issuance of the permit.

Regular examinations held during Board meetings consist of written and oral testing. Content of the written exam is cited in 12 AAC 56.070 and appears to be similar in nature to the examination given for a license by the U.S. Coast Guard; a Coast Guard license is a prerequisite for a State license. Applicants are also tested orally by the Board regarding specific conditions and situations of vessels and maneuvers in the particular geographical area for which licensure is being sought. In view of the fact that there appears to be redundancy in the Coast

Guard and State tests, and the fact that applicants must have a Coast Guard license, the Board should consider eliminating some or all of the written portion of its examination.

Marine Pilot licenses are renewed biennially on December 31 of even-numbered years. Recent professional activity and certification of physical fitness are renewal requirements. Licentiates are required by regulations to file with the administrative agency quarterly reports on all vessels served; however, in many instances this has not been done on a consistent basis.

The Board has not kept a register of vessels, operators, agents or managers as required by AS 08.62.040(a)(3).

The Board has adopted substantive regulations pursuant to its mandate to provide for competent service in the protection of shipping and safety of human life and property.

B. To what extent has the operation of the Board of Marine Pilots been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

As with all boards and commissions for which support services are provided by the Division of Occupational Licensing, this Board functions within strict budgetary and personnel limitations. Direct staff support is provided by a licensing examiner who is also responsible for two other boards. Fees and revenues for all boards and commissions under the jurisdiction of the Division of Occupational Licensing are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct board revenues and expenses may be determined. Revenues for this Board are not sufficient to support its operation.

The Board has encountered the same difficulties as have all other boards and commissions with respect to investigative services provided by the administrative agency. During FY'78 two investigator positions were vacant; as a result, one position was abolished by the Legislature. At the present time, two investigators are located in Anchorage with a Chief Investigator located in Juneau. An additional investigator position was approved in the FY '80 budget but will probably not be filled immediately due to vacancy factors incorporated into the personal service category of the budget. Procedural constraints of the administrative adjudication article of the Administrative Procedure Act (AS 44.62.330-630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

Although the Board of Marine Pilots usually holds two meetings each year, two additional special meetings were held early in 1979 relative to the statutory provision (AS 08.62.040(a)(4)) that the Board "regulate pilotage fees." One of the two Marine Pilot associations representing a portion of Alaska licensees had requested a hearing before the Board on a proposed tariff increase, which was finally denied by the Board in June of 1979 but has been scheduled again for the December, 1979 meeting. Representatives from the Southwest Alaska Pilots' Association, the shipping industry, the Department of Commerce and Economic Development, and the Department of Law, as well as most members of the Board, were actively involved in these hearings.

Because no definitive guidelines or procedures for tariff hearings have been established, there is a considerable amount of time consuming confusion related to this Board activity. A number of areas of concern

regarding tariff hearings have been cited by the Department of Law including possible antitrust suits arising from negotiated uniform fees to be charged by the association on behalf of "independent" pilots and the potential for conflict of interest in that the Board membership includes two pilots and two shipping agents who constitute a majority of the Board and without whom there could be no quorum (see Appendices A and B).

A number of suggestions were made by the Department of Law to establish hearing procedures and guidelines; however, this has not been done. Regulations proposed by the Department of Law (see Appendix C) addressing some of these problem areas were rejected by the Board at its last meeting.

We do not believe that a State board should involve itself in "labor negotiations" or in fee setting for industry and would recommend statutory amendments which would resolve the conflicts seen in present hearing procedures, whether it be specific authority to permit prehearing negotiations between pilots and shippers, reconstitution of the Board, delegation of tariff hearing authority, or complete disassociation as a State regulatory function.

If no statutory amendments are made, it is suggested that the Board immediately proceed in setting up specific hearing procedures. The Board should also reconsider its position on needed regulatory amendments.

C. To what extent has the Board of Marine Pilots recommended statutory changes which are generally of benefit to the public interest?

Two public members were added to the Board in 1976; in 1979 penalties for unlicensed activity were increased from a minimum of $500 and maximum of $1,000 to a minimum of $1,000 and maximum of $5,000 (with Board approval).

Review of Board minutes for the past two years indicates no other recommended statutory changes either specifically in the public interest or otherwise.

D. To what extent has the Board of Marine Pilots encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy and availability of service which it has provided?

Participation concerning Board affairs has come from the profession and related industries. No "public" interest in Board activities has been demonstrated. Efforts could be made by the Board to promote public awareness but probably would have minimal effect.

Public interests are furthered by a presence of public members on the Board. "In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decision-making."[1] The State of California, which provides for a one-third public membership on health care boards and a public majority on others, has indicated that its experience with public members has been highly rewarding.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Marine Pilots processed and resolved?

---

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

General inquiries regarding the activities of the Board are responded to by Department staff and by members of the Board. Indications are that these responses are both accurate and timely and that information disseminated is appropriate.

Efforts are being made by the Division of Occupational Licensing to further organize and expedite the complaint and investigation process for all boards and commissions.

F. To what extent does the Board of Marine Pilots present qualified applicants to serve the public?

Regulations regarding licensure qualifications have been adopted to insure competency of pilots, and are adhered to by the Board. This process, in conjunction with viable enforcement provisions, functions to assure initial and on-going professional ability.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Marine Pilots in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner (also responsible to two other boards), employed by the Division of Occupational Licensing. This position and others, such as Division Director, Management Analyst, Regulations Specialist, etc., are hired through the State Personnel System and are subject to affirmative action requirements.

Examination and licensing privileges in this profession are based on specific criteria to which affirmative action requirements are not applicable.

H. To what extent are statutory, budgetary or other changes necessary tc enable the Board of Marine Pilots to better serve the interests of the public?

Investigation and complaint procedures are being addressed by the administrative agency with emphasis being placed on magnitude of offense and public safety.

Board and administrative expenses outweigh revenues collected through regulation of this profession. Fees collected are not adequate to cover transportation and per diem for meetings and examinations, and Division of Occupational Licensing administrative overhead such as staff salaries, examination expenses, and investigative services.

AS 08.62.110 may be repealed as well as a portion of §120. Fees could be increased, particularly the $10 application fee. Statutory terms such as "incompetent" and "misconduct" should be defined. The Board should revise its regulations with respect to quorums for the conduct of its business and, as a matter of general policy, follow through on advice given it by the Department of Law.

Significant decisions need to be made with regard to the Board's role in tariff hearings. Continued confusion or inaction is not a suitable alternative to the many potential problems faced by the Board in its present situation. It is hoped that clarification and direction will be provided as a result of Legislative consideration.

Chapter 62. Marine Pilots.

Article
1. Board of Marine Pilots (§§ 08.62.010-08.62.040)
2. Licensing (§§ 08.62.080-08.62.150)
3. General Provisions (§§ 08.62.160-08.62.200)

Article 1. Board of Marine Pilots.

Section
10. Creation and membership of board
20. Appointment and term of office
30. Meetings
40. Powers and duties

Sec. 08.62.010. Creation and membership of board. There is created the Board of Marine Pilots. It consists of two pilots licensed under this chapter who have been actively engaged in piloting on vessels subject to this chapter, two agents or managers of vessels subject to this chapter, two public members in accordance with AS 08.01.025, and the commissioner or his designee. Not more than one pilot and one agent or manager shall be from any one judicial district. All members of the board shall be residents of the state. (§ 2 ch 106 SLA 1970; am § 8 ch 258 SLA 1976)

Sec. 08.62.020. Appointment and term of office. The governor shall appoint the pilot and agent or manager members of the board, subject to confirmation by a majority of the members of the legislature in joint session, for terms of four years, or until their successors are appointed. The first members shall be initially appointed for one, two, three and four year terms. (§ 2 ch 106 SLA 1970)

Sec. 08.62.030. Meetings. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman with prior approval of the governor. (§ 2 ch 106 SLA 1970)

Sec. 08.62.040. Powers and duties. (a) The board shall

(1) provide for the maintenance of efficient and competent pilot service on all waters covered by this chapter to assure protection of shipping and the safety of human life and property;

(2) consistent with the law, adopt regulations, subject to the Administrative Procedure Act (AS 44.62), establishing the qualifications of pilots and providing for the examination of pilots and the issuance of original or renewal pilot licenses to qualified persons;

(3) keep a register of licensed pilots, vessels, operators, agents, and managers;

(4) regulate pilotage fees;

(5) make available, upon request, copies of this chapter and the regulations adopted under it.

(b) The board may, by regulation, make any other provision for proper and safe pilotage upon the waters covered by this chapter and for the efficient administration of this chapter. (§ 2 ch 106 SLA 1970)

Article 2. Licensing.

Section
80. License requirement
90. Application
100. Qualifications
110. Previous licensure
120. Duration, renewal
130. Lapsed license
140. Fees
150. Denial, revocation or suspension

Sec. 08.62.080. License requirement. No person may pilot a vessel subject to this chapter unless he is licensed under this chapter. (§ 2 ch 106 SLA 1970)

Sec 08.62.090. Application. (a) A person who desires to be licensed under this chapter shall apply in writing to the department.

(b) The application shall provide the information and be made on a form prescribed by the board. (§ 2 ch 106 SLA 1970)

Sec. 08.62.100. Qualifications. A person is entitled to a license under this chapter if he

(1) is of good moral character;

(2) is a citizen of the United States;

(3) passes the examination given by the board; and

(4) qualifies under the regulations adopted under § 40(a)(2) and (b) of this chapter. (§ 2 ch 106 SLA 1970)

Sec. 08.62.110. Previous licensure. A license that was issued under AS 30.10 is considered as having been issued under this chapter. (§ 2 ch 106 SLA 1970)

Sec. 08.62.120. Duration, renewal. A license issued under this chapter shall be renewed biennially on dates set by the department. A license issued under AS 30.10 lapses at the end of calendar year 1970.

A license issued between May 7, 1970 and the end of 1970 shall be issued for a fee of $100. A license shall be renewed without examination upon the payment of the biennial license fee. (§ 2 ch 106 SLA 1970)

Sec. 08.62.130. Lapsed license. A lapsed license may be reinstated without examination if it has not remained lapsed for more than two years. However, it the license is lapsed for less than two years and the board has reason to believe that the person applying for reinstatement of his license is incapable or incompetent to carry out the duties of a licensed marine pilot, the board may require the applicant to take and pass the examination given by the board. (§ 2 ch 106 SLA 1970; am § 1 ch 22 SLA 1973)

Sec. 08.62.140. Fees. The following fees shall be imposed under this chapter when applicable:

(1) application fee.....	$ 10
(2) biennial license fee.....	200

(§ 2 ch 106 SLA 1970)

Sec. 08.62.150. Denial, revocation or suspension. (a) The board, after compliance with the Administrative Procedure Act (AS 44.62), may deny, revoke or suspend the license of a person who

(1) is incompetent in the performance of his pilotage duties;

(2) is habitually intoxicated;

(3) illegally uses or sells narcotic or hallucinogenic drugs;

(4) makes a false statement to obtain a license;

(5) violates a provision of this chapter or a regulation adopted under it; or

(6) is guilty of misconduct during the course of his employment.

(b) A license denied, revoked or suspended under (a) of this section may not be granted or reinstated until

(1) the reason for the license denial, revocation or suspension has been remedied; and

(2) the period of suspension has been served and all fines imposed under this chapter have been paid. (§ 2 ch 106 SLA 1970)

Article 3. General Provisions.

Section
160. Mandatory employment of licensed pilots
170. Pilot's lien for compensation
180. Exemptions
185. Certain licensed pilots required for oil tankers
190. Penalty
200. Definitions

Sec. 08.62.160. Mandatory employment of licensed pilots. A vessel subject to this chapter navigating the inside coastal waters of Alaska as determined by regulation shall employ a pilot holding a valid license under this chapter. (§ 2 ch 106 SLA 1970)

Sec. 08.62.170. Pilot's lien for compensation. Each vessel, its tackle, apparel and furniture and the owner of the vessel are jointly and severally liable for the compensation of a pilot employed on the vessel and the pilot has a lien on the vessel, her tackle, apparel and furniture for his compensation. (§ 2 ch 106 SLA 1970)

Sec. 08.62.180. Exemptions. This chapter does not apply to

(1) vessels under enrollment, except as provided in § 185 of this chapter;

(2) fishing vessels registered in the United States or in British Columbia, Canada;

(3) motorboats as defined in sec. 1 of the federal Motor Boat Act of 1940 (54 Stat. 163; 46 U.S.C., sec. 526 et seq.);

(4) vessels of United States registry of less than 300 gross tons and tow boats of United States registry and vessels owned by the State of Alaska, engaged exclusively

(A) on the rivers of Alaska, or

(B) in the coastwise trade on the west coast of the United States including Alaska, Hawaii, and British Columbia, Canada;

(5) vessels of Canada, including Canadian cruise ships, engaged in frequent trade between British Columbia and Alaska, if reciprocal exemptions are granted by Canada to vessels owned by the State of Alaska and those of United States registry; and

(6) pleasure craft. (§ 2 ch 106 SLA 1970; am § 1 ch 43 SLA 1972; am § 2 ch 78 SLA 1977)

Sec. 08.62.185. Certain licensed pilots required for oil tankers. (a) Any oil tanker, whether enrolled or registered, of 50,000 dead weight tons or greater, shall, when navigating in state waters beyond Alaska pilot stations either

(1) employ a pilot licensed by the state under this chapter, or

(2) utilize a federally licensed pilot whose duty station has been on that tanker throughout that specific voyage.

(b) The pilot required in (a) of this sectoin shall control the vessel during all docketing operations. (§ 3 ch 78 SLA 1977)

Sec. 08.62.190. Penalty. A master or owner of a vessel required by this chapter to employ a licensed pilot who fails to do so when a licensed pilot is available, unless the perils or hazards of the sea prevent the employment of a pilot, is gulity of a misdemeanor and, upon conviction, is punishable by a fine of not less than $1,000 nor more than $5,000. A person who violates any other provisoin of this chapter or a regulation adopted under it is guilty of a misdemeanor and, upon conviction, is punishable by a fine of not less than $1,000 nor more than $5,000. (§ 2 ch 106 SLA 1970; am § 1 ch 34 SLA 1979)

Sec. 08.62.200. Definitions. In this chapter

(1) "board" means the Board of Marine Pilots;

(2) "commissioner" means the commissioner of the Department of Commerce and Economic Development;

(3) "department" means the Department of Commerce and Economic Development;

(4) "vessel" means all vessels not exempt under § 180 of this chapter. (§ 2 ch 106 SLA 1970; am § 48 ch 218 SLA 1976)

CHAPTER 56.
BOARD OF MARINE PILOTS

5. General Provisions

ARTICLE 1.
ADMINISTRATION OF BOARD

Section

10. Quorum
20. Meetings

12 AAC 56.010. QUORUM. (a) For the purpose of approving applications for examination and administering the examination for a temporary license, two members of the board are a quorum.

(b) For the purpose of board meetings, hearings, examinations and for conducting all other board business, three members are a quorum. (Eff. 6/11/71, Reg. 38; am 6/1/72, Reg. 42)

Authority: AS 08.62.040(b)

12 AAC 56.020. MEETINGS. The annual meeting of the board shall be in December on the date, time and place designated by the chairman. Special meetings will be held at times and places designated by the chairman with approval of the governor and members of the board. (Eff. 6/11/71, Reg. 38)

Authority: AS 08.62.030
AS 08.62.040(b)

ARTICLE 2.
LICENSING

Section

30. Qualifications for unlimited pilot's license
40. Qualifications for limited pilot's license
50. Qualifications for channel pilot's license
60. Temporary license
70. Examinations
80. Biennial license renewal

12 AAC 56.030. QUALIFICATIONS FOR UNLIMITED PILOT'S LICENSE. An applicant for an unlimited pilot's license shall apply on a form provided by the Department of Commerce

(1) pay the required fee; and

(2) submit a full-sized, certified reproduction of a valid United States Coast Guard license as first-class pilot upon the waters for which applying; and

(3) submit a full-sized, certified reproduction of a valid United States Coast Guard license for master of steam or motor vessels of 500 gross tons or better including tow boat or freighting vessels, but excluding fishing vessels; and

(4) have practical knowledge of the navigation of vessels and of the conditions of navigation in the waters for which he is applying, which will be determined by oral and written examination before the board from topics listed in sec. 70 of this chapter; and

(5) have met the following requirements

(A) have a minimum of one year as a master or pilot of a vessel in the waters for which applying, and have executed under the direct supervision of a pilot holding an unlimited pilot's license under AS 08.62.100 a minimum of 10 dockings and 10 undockings while holding a United States Coast Guard license as a first-class pilot upon the waters for which applying and a United States Coast Guard license for master of steam or motor vessels of 500 gross tons or better including tow boat or freighting vessels, but excluding fishing vessels. No more than five of the required dockings or undockings may have been under the direct supervision of the same supervisory pilot; or

(B) have executed under the direct supervision of a pilot holding an unlimited pilot's license under AS 08.62.100 a minimum of 20 dockings and 20 undockings while holding a United States Coast Guard license as a first-class pilot upon the waters for which applying and a United States Coast Guard license for master of steam or motor vessels of 500 gross tons or better including tow boat or freighting vessels, but excluding fishing vessels. No more than five of the required dockings or undockings may have been under the direct supervision of the same supervisory pilot; and

(C) all dockings and undockings must be certified as having been made within two years prior to the date of application; and

(6) have satisfactorily completed a physical examination within 30 days of the date of application. The physical examination required of all pilots shall demonstrate that he is in all respects physically fit to perform his duties as a pilot and shall include an examination of his eyesight, hearing, blood pressure and anything else necessary in the opinion of the examining physician; and

(7) be at least 25 years of age. (Eff. 6/11/71, Reg. 38; am 6/1/72, Reg. 42)

Authority: AS 08.62.040(a)(2)

12 AAC 56.040. QUALIFICATIONS FOR LIMITED PILOT'S LICENSE. (a) A limited pilot's license is a license to pilot vessels of 2,000 gross tons or less.

(b) An applicant for a limited pilot's license shall apply on a form provided by the Department of Commerce

(1) pay the required fee; and

(2) submit a full-sized, certified reproduction of a valid United States Coast Guard license for first-class pilot upon the waters for which applying; and

(3) submit a full-sized, certified reproduction of a valid United States Coast Guard license for master; and

(4) have practical knowledge of the navigation of vessels and of the conditions of navigation in the waters for which he is applying, which will be determined by oral and written examination before the board from topics listed in sec. 70(b) and (c) of this chapter; and

(5) have satisfactorily completed a physical examination within 30 days of the date of application; the physical examination required of all pilots shall demonstrate that he is in all respects physically fit to perform his duties as a pilot and shall include an examination of his eyesight, hearing, blood pressure and anything else necessary in the opinion of the examining physician; and

(6) be at least 25 years of age.

(c) An applicant for a limited pilot's license not meeting the requirements of (b)(2) and (3) of this section may be issued a limited license, if in the opinion of the board he has submitted sufficient proof of experience and knowledge for the area in which he is applying. (Eff. 6/11/71, Reg. 38; am 6/1/72, Reg. 42)

Authority: AS 08.62.040(a)(2)

12 AAC 56.050. QUALIFICATIONS FOR CHANNEL PILOT'S LICENSE. A channel pilot's license is a license to pilot in main ship channels only. A channel pilot may perform docking and undockings only under the direct supervision of a pilot holding an unlimited pilot's license. An applicant for a channel pilot's license shall apply on forms provided by the Department of Commerce. An applicant shall

(1) pay the required fee; and

(2) submit a full-sized, certified reproduction of a valid United States Coast Guard license for first-class pilot upon the waters for which applying; and

(3) submit a full-sized, certified reproduction of a valid United States Coast Guard license for master of steam or motor vessel of 500 gross tons or better including tow boat or freighting vessels, but excluding fishing vessels; and

(4) have practical knowledge of the navigation of vessels and of the conditions of navigation in the water for which he is applying, which will be determined by oral and written examination before the board from topics listed in sec. 70(b) and (c) of this chapter; and

(5) have completed satisfactorily a physical examination within 30 days of the date of application; the physical examination required of all pilots shall demonstrate that he is in all respects physically fit to perform his duties as a pilot and shall include an examination of his eyesight, hearing, blood pressure and anything else necessary in the opinion of the examining physician; and

(6) be at least 25 years of age. (Eff. 6/11/71, Reg. 38; am 6/1/72, Reg. 42; am 6/19/74, Reg.50)

Authority: AS 08.62.040(a)(2)

12 AAC 56.060. TEMPORARY LICENSE. (a) A temporary license may be issued to a person applying for an unlimited, limited or channel pilot's license upon

(1) submission of the required application; and

(2) submission of the temporary license fee of $50; and

(3) submission of proof that he meets all requirements for the license for which he is applying except the examination requirement; and

(4) successful passing of a written examination consisting of 20 questions with a score of at least 75 percent; the questions will be taken from a list of 100 questions prepared previously by the board; this examination will not be considered as part of the oral and written examination given by the board under sec. 70 of this chapter, but will cover the same topics.

(b) A temporary license will be valid until the results of the next scheduled examination are received. If for a valid reason the applicant was unable to appear for the next scheduled examination, the board may extend the temporary license until the next scheduled examination after the one for which the applicant was unable to appear. The temporary license shall not be extended more than once nor shall a second temporary license be issued.

(c) An applicant for an extension of route may receive a temporary permit by appearing before two board members and taking a written and oral examination for the requested area. If the applicant passes the examination, a temporary extension of route permit will be issued which

will remain in effect until the next scheduled meeting of the board when the application will be reviewed for permanent licensure. The applicant need not appear at the scheduled meeting. If permanent licensure is approved, the area will be added to the license; if it is disapproved, the temporary permit is void as of the date of disapproval. (Eff. 6/11/71, Reg. 38; am 6/1/72, Reg. 42; am 6/19/74, Reg. 50; am 6/30/78, Reg. 66)

Authority: AS 08.62.040(a)(2)

12 AAC 56.070. EXAMINATIONS. (a) The examination required by secs. 30, 40 and 50 of this chapter will be given at least once a year at the time and place designated by the chairman of the board with prior approval of the other board members. All applications for examination must be submitted to the board at least 60 days before the date of examination.

(b) Applicants must pass the written portion of the examination with a score of at least 75 percent in each topic with the exception of (1) of this subsection, inland and pilot rules, which must be passed with a score of at least 90 percent. The written examination may consist of, but not be limited to, the following topics:

(1) inland and pilot rules;

(2) aids to navigation;

(3) courses, distances, and distances passed abeam at change of course points between given points;

(4) important and essential cable areas;

(5) dredged channel widths and depths;

(6) bridge signals, widths, regulations, and closing periods;

(7) ship handling, docking problems, seamanship by actual observation, use of tow boats and anchors;

(8) Alaska Pilotage Act and rules of the board;

(9) location of anchorages;

(10) duties of a pilot;

(11) relationship between master and pilot;

(12) practical operation and use of marine radar, including use of maneuvering board;

(13) currents and tides;

(14) dock headings, lengths, depths of water alongside pier locations and berth numbers;

(15) U.S. Government Public Health Quarantine regulations;

(16) prohibited areas, restricted areas, explosive anchorages;

(17) chart knowledge, including chart symbols and abbreviations;

(18) use of navigational and bridge instruments;

(19) engine order and rudder commands for

(A) U.S. merchant vessels;

(B) U.S. naval vessels;

(C) foreign flag merchant vessels.

(c) An applicant for licensure as an unlimited, limited or channel pilot will be orally interviewed by the board on his safety record and elaboration of his seagoing background as listed on his application. In addition, the applicant must pass the oral examination required by secs. 30, 40 and 50 of this chapter with a score of at least 75 percent in the following topics:

(1) knowledge of the local harbor conditions and local regulations in the area applied for;

(2) signals; and

(3) rules of the road. (Eff. 6/11/71, Reg. 38; am 6/1/72, Reg. 42; am 6/19/74, Reg. 50)

Authority: AS 08.62.040(a)(2)

12 AAC 56.080. BIENNIAL LICENSE RENEWAL. (a) All licenses expire on December 31 of even-numbered years. In order to renew the biennial license, all licensees must submit the renewal application with

(1) proof of having satisfactorily completed a physical examination within 30 days of the renewal date; and

(2) the biennial license fee of $200.

(b) In addition, a licensee

(1) holding an unlimited pilot's license must submit proof of having worked in a licensed deck officer capacity for two months in the area for which he was licensed during the last biennial period;

(2) holding either a limited pilot's license or a channel pilot's license must have worked in a capacity which in the opinion of the board has kept him currently knowledgeable in the area for which his license was originally issued;

(3) who has not worked during the last two biennial periods in an area for which he was licensed shall petition the board to determine that he has sufficient knowledge and experience to resume pilotage in that area and is restricted from doing so until such a determination has been made. (Eff. 6/11/71, Reg. 38; am 6/19/74, Reg. 50; am 5/12/78, Reg. 66)

Authority: AS 08.62.040(a)(2) and (b)

ARTICLE 3.
INSIDE WATERS

Section

90. General rule for determining boundaries of inside waters of Alaska
100. Established boundaries of inside waters of Alaska
110. Exclusions for entering inside waters of Alaska
120. Pilot stations or pickup points

12 AAC 56.090. GENERAL RULE FOR DETERMINING BOUNDARIES OF INSIDE WATERS OF ALASKA. At all buoyed entrances from seaward to bays, sounds, rivers, or other estuaries for which specific lines are not described in this chapter, the waters inshore of a line drawn approximately parallel with the general trend of the shore, drawn through the outermost buoy or other aid to navigation of any system of aids, are inside waters. (Eff. 6/11/71, Reg. 38)

Authority: AS 08.62.040(a)(1) and (b)

12 AAC 56.100. ESTABLISHED BOUNDARIES OF INSIDE WATERS OF ALASKA. (a) The boundaries for Southeastern inside waters are as follows: A line drawn from Cape Spenser Light due south to a point of intersection which is due west of the southernmost extremity of Cape Cross; thence to Cape Edgecumbe Light; thence through Cape Bartolome Light and extended to a point of intersection which is due west of Cape Muzon Light; thence due east to Cape Muzon Light; thence to a point which is one mile, 180° true, from Cape Chacon Light; thence to Barren Island Light; thence to Lord Rock Light; thence to the southernmost extremity of Garnet Point, Kanagunut Island; thence to the southeasternmost extremity of Island Point, Sitklan Island. A line drawn from the northeasternmost extremity of Point Mansfield, Sitklan Island, 40° true, to where it intersects the mainland.

(b) The boundaries for Southwestern inside waters are as follows:

(1) Prince William Sound. All waters of Prince William Sound inside a line drawn from Cape Puget to Point Elrington; thence to Cape Clear; thence Zaikof Point to Cape Hinchinbrook Light; thence Point Bentinch Light to Point Whitshed;

(2) Resurrection Bay. The waters of Resurrection Bay north of latitude 59° 59.0′ north;

(3) Cook Inlet. All waters of Cook Inlet inside a line drawn from Cape Douglas (latitude 58° 51.2′ north, longitude 153° 14.9′ west) through Cape Elizabeth Light at latitude 59° 08.9′ north, longitude 151° 52.5′ west to the Kenai Peninsula shoreline. (Eff. 6/11/71, Reg. 38)

Authority: AS 08.62.040(a)(1) and (b)

12 AAC 56.110. EXCLUSIONS FOR ENTERING INSIDE WATERS OF ALASKA. Vessels are excluded from the use of a licensed marine pilot for inside waters only when proceeding directly from points outside Alaska inside waters to an established pilot station or pickup point. These exclusions are as follows:

(1) Southeastern Alaska:

(A) travel via Clarence Strait to Guard Island at a point located at latitude 55° 26.7′ north, longitude 131° 52.8′ west;

(B) travel via Clarence Strait to a point located approximately one mile east of Point McCartey Light at latitude 55° 06.8′ north, longitude 131° 42.3′ west;

(C) travel via Cape Bartolome in Bucareli Bay to Cabras Island located at latitude 55° 20.3′ north, longitude 133° 23.4′ west;

(D) travel via Cape Ommaney in Chatham Strait to a point in the vicinity of Point Retreat located at latitude 58° 25.0′ north, longitude 134° 59.0′ west;

(E) travel via Sitka Sound to a vicinity close aboard Eckholms Light at latitude 57° 00.6′ north, longitude 135° 21.4′ west. This exclusion applies only to those vessels going to the port of Sitka; and

(2) Southwestern Alaska:

(A) travel via Prince William Sound to the Cordova Pilot Station located approximately two miles south of Sheeps Point at latitude 60° 37.0′ north, longitude 146° 00.0′ west;

(B) travel via Prince William Sound to the Valdez Pilot Station located approximately 2.3 miles north of Busby Island Light (60° 53.8′ north, 146° 48.9′ west);

(C) travel via Prince William Sound to the Whittier Pilot Station located approximately one mile south of Pigot Point Light (60° 48.1′ north, 148° 21.3′ west);

(D) travel via Cook Inlet to the Homer Pilot Station located approximately one mile south of Homer Spit Light on Coal Point (59° 36.2′ north, 151° 24.5′ west); and

(E) travel to the Kodiak City or Womens Bay Pilot Station located approximately one mile eastward of St. Paul Harbor lighted buoy No. 14 (57° 44.5′ north, 152° 24.3′ west).

(Eff. 6/11/71, Reg. 38; am 6/1/72, Reg. 42)

Authority: AS 08.62.040(a)(1) and (b)

12 AAC 56.120. PILOT STATIONS OR PICKUP POINTS. (a) The established pilot stations for Southeastern Alaska are as follows:

(1) Guard Island (55° 26.7′ north, 131° 52.8′ west);

(2) Point McCartey – located approximately one mile east of Point McCartey (55° 06.8′ north, 131° 42.3′ west);

(3) Cabras Island, Bucareli Bay (55° 20.3′ north, 133° 23.4′ west);

(4) Sitka Sound – to a point close aboard Eckholms Light (57° 00.6′ north, 135° 21.4′ west);

(5) Point Retreat – to a point in the vicinity of Point Retreat (58° 25.0′ north, 134° 59.0′ west); and

(6) repealed. (6/30/78, Reg. 66)

(b) The established pilot stations for Southwestern Alaska are as follows:

(1) Cordova – located approximately two miles south of Sheeps Point (60° 37.0′ north, 146° 00.0′ west);

(2) Valdez – located approximately 2.3 miles north of Busby Island Light (60° 53.8′ north, 146° 48.9′ west);

(3) Whittier – located approximately one mile south of Pigot Point Light (60° 48.1′ north, 148° 21.3′ west);

(4) Seaward – located one mile southeasterly from Caines Head Light (59° 59.0′ north, 149° 23.1′ west);

(5) Cook Inlet – located near Homer approximately one mile south of Homer Spit Light on Coal Point (59° 36.2′ north, 151° 24.5′ west);

(6) Kodiak (city) or Womens Bay – located approximately two miles 100° true from St. Paul Harbor entrance light (57° 44.4′ north, 152° 25.7′ west);

(7) Cold Bay – located approximately three miles southward of Cold Bay entrance buoy No. 1 (55° 05.6′ north, 162° 31.8′ west);

(8) Dutch Harbor – located one mile east of Ulakta Head Light (53° 55.5′ north, 166° 30.4′ west); and

(9) Adak – located two miles east of Gannet Rocks Light (51° 52.1′ north, 176° 36.4′ west).

(c) For those areas not having an established pilot station or pickup point, pickups will be made only by specific arrangement with the ship's agent and pilots. (Eff. 6/11/71, Reg. 38; am 6/1/72, Reg. 42; am 5/12/78 and 6/30/78, Reg. 66)

Authority: AS 08.62.040(a)(1) and (b)

ARTICLE 4.
RATES

Section
130. General rule for determining rates
140. Consent to rate deviation
150. Rate adjustment

12 AAC 56.130. GENERAL RULE FOR DETERMINING RATES. If no rate for an area has been established, the rate mutually agreed on by the parties will be used until a rate is established by the board. (Eff. 6/11/71, Reg. 38)

Authority: AS 08.62.040(a)(4) and (b)

12 AAC 56.140. CONSENT TO RATE DEVIATION. If parties to a piloting contract are dissatisfied with the rates established for an area, the parties may agree to a higher rate. This rate mutually agreed upon must be submitted to the board for approval. No deviations from the published rate may be used until approved by the board. (Eff. 6/11/71, Reg. 38)

Authority: AS 08.62.040(1)(4)(a) and (b)

12 AAC 56.150. RATE ADJUSTMENT. Any party having a material interest in the rate structure desiring a rate change for an area must file a request for a rate adjustment at least 60 days before the next meeting of the board. (Eff. 6/11/71, Reg. 38)

Authority: AS 08.62.040(a)(4) and (b)

ARTICLE 5.
GENERAL PROVISIONS

Section
160. Duties of pilots
170. Physical incapacitation
180. Registration of operators
190. Definitions

12 AAC 56.160 DUTIES OF PILOTS. (a) A pilot shall be on duty piloting the vessel at all times when the vessel is in transit in pilotage waters.

(b) Passenger vessels in transit of the inside waters of Southeast Alaska except as set forth in sec. 110 of this chapter are required to carry two pilots on board for continuous alternating duty.

(c) In any case where a vessel being piloted by a state licensed pilot goes aground, collides with another vessel or dock, or meets with any casualty, or is injured or damaged in any way, the pilot shall, within ten days thereafter, make written report thereof to the board, and the board may thereupon, either with or without complaint being made against the pilot, investigate the matter reported upon. In any case of apparent damage being sustained or caused by a vessel under his charge the pilot shall file his report as soon as possible after returning to shore.

(d) Pilots will report to the Aids to Navigation officer of the United States Coast Guard, all changes in lights, range lights, buoys, and any dangers to navigation that may come to their knowledge.

(e) Any pilot who fails, neglects or refuses to make a report to the board as required by the pilotage laws of the state, or by this chapter, for a period of ten days after the date when the report is required to be made, is subject to having his license suspended at the discretion of the board.

(f) Pilots when so notified in writing shall report in person to the board at any meeting specified in the notice.

(g) Any pilot summoned to testify before the board shall appear in accordance with the summons and shall answer, under oath, any questions put to him which deal with any matter connected with the pilot service, or of the pilotage waters over which he is licensed to act. He is entitled to have his attorney or advisor present during any such appearance and testimony.

(h) A pilot on boarding a ship, if required by the master, shall exhibit his state license or photostatic copy of it.

(i) Pilots on board passenger vessels shall be provided access to an operable radio on the bridge at all times to use on frequency 2182 kHz for security purposes.

(j) Repealed. (5/12/78, Reg. 66)

(k) All pilots shall report on a quarterly basis

the names of all vessels served that were subject to the services of a licensed pilot. (Eff. 6/11/71, Reg. 38; am 6/19/74, Reg. 50; am 5/12/78, Reg. 66)

Authority: AS 08.62.040(a)

12 AAC 56.170. PHYSICAL INCAPACITATION. Any pilot who is physically incapacitated as a pilot for a period of 90 days or more shall not return to service as an active pilot until he has passed a physical examination by a physician approved by the board. (Eff. 6/11/71, Reg. 38; am 8/2/73, Reg. 47)

Authority: AS 08.62.040(a)(1) and (2) AS 08.62.040(b)

12 AAC 56.180. REGISTRATION OF OPERATORS. All ship owners, operators and agents of owners and operators whose vessels are subject to AS 08.62 must register with the board and keep the board advised of any changes of names and addresses. (Eff. 6/11/71, Reg. 38)

Authority: AS 08.62.040(a)(3)

12 AAC 56.190. DEFINITIONS. For the purpose of this chapter "pilotage waters" means all inside waters of Alaska except those described in sec. 110 of this chapter. (Eff. 6/11/71, Reg. 38)

Authority: AS 08.62.040(b)

MEMORANDUM

APPENDIX "A"

TO: Charles Webber, Chairman,
Board of Marine Pilots
Commissioner, Commerce &
Economic Development

DATE: February 8, 1979

FILE NO:

TELEPHONE NO.

FROM: AVRUM M. GROSS
ATTORNEY GENERAL

SUBJECT: Applicability of AS 44.62 to the rate-making proceeding; Participation of Absent Board Members in the proceeding; Ex Parte Contacts.
Our File: J-66-458-79

By: Joseph K. Donohue
Joseph K. Donohue
Assistant Attorney General

You have requested our advice generally concerning the proper conduct of the rate-making proceeding presently designated the Proposed Tariff Increase filed by Southwest Alaska Pilots Association, BMP Rate Case No. 78-1. This office has reviewed the course of the proceeding thus far and wishes to give the board members several general instructions concerning the proper conduct of a rate-making proceeding. Many of these rules of conduct are of general application and the Director of the Division of Occupational Licensing should instruct members of other boards along similar lines whenever he deems it appropriate.

1. Applicability of AS 44.62.330 - .620

The Southwest Alaska Pilots Association filed a request for rate adjustment prior to the December 5th meeting of the Board of Marine Pilots in accordance with 12 AAC 56.150. */ In doing so, they initiated a rate making proceeding under the Board's general authority to "regulate pilotage fees." AS 08.62.040(a)(4). The hearing was subsequently continued until January 30, 1979. The question arises as to whether the administrative adjudication provisions of the Administrative Procedure Act (APA), AS 44.62.330 - .630 apply to a rate-making proceeding. AS 44.62.330(a)(33) expressly states that the Board of Marine Pilots is subject to this article of the APA. A review of those provisions clearly demonstrate that they are designed to establish the proper procedure for license revocation proceedings. There can be no question but that the Board is subject to the APA in any case involving the denial, suspension or revocation of a marine pilot's license.

However, it is also clear that the accusation, notice of defense and other provisions of the APA are not readily adapted

---

*/ That regulation provides that "[a]ny party having a material interest in the rate structure desiring a rate change for an area must file a request for rate adjustment at least 60 days prior to the next meeting of the board."

to a rate-making proceeding. Each of the regulatory commissions created under state law -- the Alaska Public Utilities Commission, AS 42.05, the Alaska Pipeline Commission, AS 42.06, and the Alaska Transportation Commission, AS 42.07, provide entirely separate procedures for the filing of tariffs and for protesting rate increases by interested parties. These procedures which are implemented by statutory provisions and regulations enacted by those commissions insure procedural due process in the context of a hearing which is both adversary and legislative in nature. */

A review of the tariff filing and protest procedures by other rate-making or regulatory commissions demonstrates the inapplicability of the administrative adjudication provisions of the Administrative Procedure Act to this particular function of the Board of Marine Pilots. It is therefore the opinion of this office that the present rate-making hearing before the board need not be held in strict compliance with those latter provisions. However, the board must conduct its rate-making hearing in a fair and equitable manner which utilizes the APA provisions as appropriate guidelines, wherever possible, and which benefits from rate-making procedures of those agencies assigned comparable regulatory responsibilities with regard to determination of rates.

In light of the foregoing, this department recommends that the Board of Marine Pilots take all appropriate steps to promulgate procedural regulations and regulations setting forth the substantive criteria which it will consider in formulation of pilotage fees as soon as possible. In the meantime, the board should take every action within its authority to insure the parties to the instant proceedings are afforded ample opportunity to fully present their case and argue their position.

2. Participation of Absent Members

The Board of Marine Pilots is presently composed of seven members -- the Commissioner of Commerce and Economic Development, two shipping agents (one from Southeastern Alaska and one from Southwestern Alaska), two marine pilots (also one from Southeastern Alaska and one from Southwestern Alaska) and two public members. Presently one of the public member positions is vacant. At the January 30, 1979, hearing only four members were in attendance i.e. the Commissioner, both pilot members and the shipping agent from Southwestern Alaska. At that hearing, the board issued an order requiring document production and setting a briefing schedule. At the next board meeting in April, the board intends to deliberate

*/ It is legislative to the extent that the commissions are independently charged with setting just and reasonable rates.

and issue a decision with regard to the request for rate adjustment. The question arose whether the absent members would be able to participate in those deliberations should they attend the April meeting.

Traditionally, it has been the common judicial practice for a judge or commissioner to refuse to participate in a decision unless he has heard all of the testimony and been given an opportunity to review the entire record in the proceeding. This concept is expressly incorporated in AS 42.05.171 which states that a commissioner of the Alaska Public Utilities Commission "who has not heard the testimony, including the argument, may not participate in making a decision of the commission." See also AS 42.06.180 (APC). This should be compared with the present practice of the Alaska Supreme Court with regard to members of the panel who are absent during oral argument of an appeal. It is the practice of our state court to notify the parties that the absent justice has requested the parties' consent that he be allowed to participate in the proceeding upon his review of the tapes of the oral argument. The question is presented in such a way as to indicate that an objection by either party to the appeal would automatically be upheld and thus disqualify the absent member.

This office feels that this latter procedure adequately comports with the idea of a fair and impartial hearing on the record and that no party to the proceeding would be prejudiced by its adoption. Thus, any absent member of the board who wishes to participate in the rate-making decision should make his desire known formally by letter to the chairman with copies to all interested parties to the proceeding. The interested parties would thus have an opportunity to object to the participation of any of the absent members. Obviously, if there are no objections, the absent members can participate in subsequent deliberations assuming they have had an opportunity to review the tapes of the hearing held on January 30, 1979, and otherwise review the entire written record before the Board.

The conflict of interest question should be addressed in the same context. That is, is there a duty of a board member to disqualify himself in the face of an obvious conflict of interest? The pilot member from Southwest Alaska clearly stood to materially benefit from the rate-making decision before the board should that tariff increase be approved. It is equally true that the board member representing the shipping interests of Southwest Alaska had a direct interest in the case.

The Administrative Procedure Act expressly addresses this particular problem. AS 44.62.450(c) states in relevant

part:

> A hearing officer or agency member shall voluntarily disqualify himself and withdraw from a case in which he cannot accord a fair and impartial hearing or consideration. A party may request the disqualification of a hearing officer or agency member by filing an affidavit, before the taking of evidence at a hearing, stating with particularity the grounds upon which it has claimed that a fair and impartial hearing cannot be accorded. . . No agency member may withdraw voluntarily or be disqualified if his disqualification would prevent the existence of a quorum qualified to act in the particular case.

Again, we feel that the Administrative Procedure Act has incorporated a sound rule which comports with the due process notions guaranteed by the state and federal constitutions and that that guideline should be observed in this hearing and in future hearings. It could be also argued that the statutory composition of the board contemplates a conflict of interest and attempts to balance that conflict by requiring that there be a pilot member and shipping industry representative from each pilotage region of the state. However, this office has in the past and reiterates here that in the interest of a fair and impartial hearing that unless necessary for a quorum, members with conflicts should disqualify themselves. This was the advice given the board by the undersigned in response to a similar question at its meeting on April 21, 1976. See Minutes of Meeting Board of Marine Pilots, April 20 and 21, 1976.

Thus, in the context of the January 30, 1979, hearing at which the statutory quorum was in attendance, it was proper for the two members from Southwest Alaska to refuse to voluntarily disqualify themselves from the hearing. Likewise, they would not have been susceptible to a motion to disqualify, had such a motion been made, given the fact that their absence would have rendered the board unable to act.

3. Ex parte contacts

As a final cautionary matter, this office hereby advises each member of the Board of Marine Pilots that, in his capacity as a board member, he is serving in a quasi-judicial capacity in reviewing the tariff application of the Southwest Alaska Marine Pilots Association. Therefore, each member should refrain from communications with any interested party concerning the merits of the case. If any interested party

or his attorney */ approaches a member of the board, the board member should merely refrain from discussing any matter pertinent to the proceeding and request that the interested party refrain from discussing the case. Ex parte contacts between board members and parties interested in the outcome of the litigation arguably violate constitutional due process rendering that member subject to disqualification and possibly invalidating the entire proceeding. See Moss v. CAB, 430 F.2d 891 (D.C. Cir. 1970); Sangamon Valley v. United States, 269 F.2d 221 (D.C. Cir. 1959).

A corollary of the rule prohibiting ex parte contacts is the rule concerning the confidentiality of the board's deliberation process. The importance of flexible and open debate in such closed session is expressly recognized and promoted in AS 44.62.310. That section provides two general exceptions to the open meeting requirement for board meetings. First, certain topics which are carefully delimited in subsection (c) may be discussed in executive session e.g. matters which would prejudice the reputation of any person. Second, subsection (d) exempts meetings of judicial or quasi-judicial bodies holding a meeting to make a decision in any adjudicatory proceeding e.g. in rate-making proceeding. In both cases, the matters discussed should be confidential. Obviously, no one is prejudiced by this confidentiality since the board cannot act in the absence of a public decision with related findings and conclusions supported by the record.

This office requests strict compliance with these latter rules of conduct. This advice is of general application to any member of a professional licensing board participating in, or likely to review the result of, an adjudicative proceeding involving licensing, rates etc.

JKD:mll

cc: All Board Members

---

*/ Such ex parte contacts by an attorney would in most cases be deemed an unethical practice. See Code of Professional Responsibility, Canon 7; EC 7-35.

MEMORANDUM

APPENDIX "B"

TO: Don Hostak, Director
Division of Occupational Licensing
Department of Commerce and Economic Development

DATE: February 5, 1979

FILE NO:

TELEPHONE NO:

FROM: AVRUM M. GROSS
ATTORNEY GENERAL

SUBJECT: Meeting and Necessary Quorum for the Board of Marine Pilots
Our File: J-66-458-79

By: Joseph K. Donohue
Joseph K. Donohue
Assistant Attorney General

On January 30, 1979, I attended a Board of Marine Pilots meeting at which two technical procedural questions were raised. The first question relates to the proper manner in which to call a special meeting of the Board. AS 08.62.030 provides that the Board shall hold a regular annual meeting and in addition the Board may hold special meetings "at the call of the chairman with prior approval of the Governor". I inquired as to whether or not former Commissioner Hubbard had obtained the prior approval of the Governor when he called the meeting scheduled for January 30th. You indicated that you were uncertain as to whether that formality had been observed. In order to avoid any questions being raised in the future concerning this question, I would recommend that you prepare a form letter for the Governor's signature indicating his approval of each special meeting of the Board as well as a form letter for the Commissioner of Commerce and Economic Development's signature indicating that he has obtained the prior approval of the Governor and calling the special meeting for the specific dates involved. These letters could be entered into the record and minutes of each meeting to indicate that the Board had been properly convened.

You also inquired concerning the proper quorum requirements of the Board of Marine Pilots and what majority of that quorum was necessary for a resolution to pass and be duly approved by the Board. AS 08.62.010 creates a seven member board consisting of the Commissioner of Commerce and Economic Development, two marine pilot members, two shipping agent members and two public members. AS 08.01.030 provides that a majority of a membership of a board constitutes a quorum unless otherwise provided. There being no different quorum requirement established by AS 08.62 four members of the Board must be present at the meeting before the Board of Marine Pilots can conduct business. In turn, a majority of that quorum is necessary for the Board to take binding legal action. Thus the idea of the quorum is to establish a threshold number of the members of the board which when present at the meeting are competent to transact business in the name of the Board but in the absence of the other members. It is traditionally defined as a majority of the membership of the Board unless otherwise provided by statute. On the other hand, it takes only a

majority of that quorum to bind the Board as a whole. Benintendi v. Kenton Hotel, 60 N.E. 2d 829, 831 (New York 1945). This will at times be a minority of the entire membership of the Board.

In this context, I wish to bring to the attention of the Board its regulation 12 AAC 56.010 which states:

> (a) For the purpose of approving applications for examination and administering the examination for a temporary license, two members of the board are a quorum.
>
> (b) For the purposes of board meetings, hearings, examinations and for conducting all other board business, three members are a quorum.

Prior to 1976 subsection (b) was a correct statement of the law. In 1976 with the addition of two public members, the quorum requirement of the Board of Marine Pilots was increased to four members. (see sec. 8, ch. 258 SLA 1976) Thus this regulation has been superseded by a statutory amendment and is no longer valid.

With regard to subsection (a) it appears as though the proper authority for that subsection is found in AS 08.62.040(a)(2) which states that the Board can by regulation provide for the examination of pilots and the issuance of pilot licenses to qualified persons. Under that provision it would appear that the Board would have the discretion to provide for issuance of a temporary license on the basis of the approval of two members of the Board. Thus strictly speaking it does not appear to be a quorum requirement or it is a quorum requirement limited exclusively to the Board's examination and licensing authority. In any event, the Board should consider making these minor revisions outlined above in its next set of proposed regulations.

SUBJECT: Marine Pilots Regulations

FROM: H. Russ McKeever
Paralegal
AGO
Juneau, Alaska

HRMS.

Per your request, I have examined the material available in AS 08.62.010 - 08.62.190 as well as the regulations promulgated by the Board of Marine Pilots pursuant to the Alaska Administrative Procedure Act and contained in 12 AAC 56.010 - 56.190. I have also reviewed similar laws and regulations from the United States Coast Guard and the states of Washington, Oregon, and California. Following are my observations and suggestions which the Alaska Board of Marine Pilots may wish to consider.

The board, composed of representatives of marine pilots and shipping companies establishes pilotage tariffs which determine the salaries received by the pilots and the costs incurred by shipping companies. The board relies to a great degree on the information provided by the pilots whenever they anticipate altering the tariff rate. It is of extreme importance that the information be accurate, be provided on a regular basis and disclose all potential sources of income and conflicts-of-interest on the part of the pilots. The operations of the pilots individually, as well as the operation of their respective associations (Southwest Pilots Association and Southeast Pilots Association) should be open to maximum scrutiny by the Board. I would recommend that the Board consider adopting the following provisions relating to reporting income and pilotage activities and requiring disclosure of related interests and sources of income.

12 AAC 56.161. CONFLICT OF INTEREST. Without express written authority of the board, no pilot shall either

(1) own, or have any fiduciary interest in, any shipping or marine transportation business or concern;

(2) own an interest in, or have any fiduciary interest in, any boats used as pilot boats; or

(3) accept any form of compensation from the owner or operator of any pilot boat.

Authority: AS 08.62.040

12 AAC 56.162. REPORT OF FINANCIAL AND BUSINESS INTERESTS. A licensed pilot shall file a statement giving his income sources and business interests, under oath and on penalty of perjury, no later than April 15, or 15 days after the pilot files his federal income tax return in each year.

Authority: AS 08.62.040

12 AAC 56.163. CONTENTS OF STATEMENT. (a) Each statement shall be an accurate representation of the financial affairs of the pilot and shall contain the same information for each member of his family, as specified in (b) of this section. An asset or liability under $500, household goods, and personal effects need not be identified.

(b) Each statement filed by a pilot under this chapter shall include:

(1) The source of all income over $500 including capital gains, whether or not taxable, received by him or his spouse or dependent child of his or non-dependent child who is living with him, during the preceding calendar year;

(2) The identity by name and address, of each business in which he or his spouse or dependent child of his or non-dependent child of his who is living with him was a stockholder, owner, officer, director, partner, proprietor, or employee during the preceding calendar year,

(3) The identity and nature of each interest owned by him or his spouse or dependent child of his or non-dependent child of his who is living with him in any business during the preceding calendar year. 1/

Authority: AS 08.62.040

1/ Both 12 AAC 56.162 and 163 are taken in part from AS 39.50.020 and 030 which deals with public officers and employees.

Although the matter of conflict-of-interest and financial accountability have not been previously addressed by the Boards of Marine Pilots either in Alaska or the other Western states, it is not without some precedent in Alaska law. To cite just a few examples; AS 27.05.020 Officials of the Department of Natural Resources, AS 21.06.040 Executives/ Employees of Division of Insurance, AS 24.20.291 Legislative Finance and Audit Personnel, AS 39.50.020 Public Officials, etc.

12 AAC 56.164. PILOTS TO FILE QUARTERLY REPORTS. (a) Every pilot shall file with the board not later than the tenth of January, April, July and October of each year a report for the preceding quarter. The report shall contain an account of all moneys received for pilotage by him or by any other person for him or on his account or for his benefit. The report shall contain:

(1) the name of each vessel piloted;
(2) the name of the vessel's master;
(3) Tthe name of each vessel for which pilotage has been charged or collected;
(4) the amount charged to or collected from each;
(5) any rebates made and allowed and for what amounts;
(6) where the vessel is registered;
(7) whether the vessel was inward or outward bound;
(8) the depth of each vessel's draft and its highest gross tonnage; and
(9) the name of the pilot boat used.

(b) In addition, each report shall contain a daily work log setting forth the following:

(1) All transportation and subsistence charges;
(2) Amount of time spent on pilot boats in travel to or from vessels;
(3) Actual piloting time aboard these vessels.[2/3/]

2/RCW 88.16.110 Pilots to File Quarterly Report Contents. Every pilot licensed under this chapter shall file with the board not later than the tenth day of January, April, July and October of each year a report for the preceding quarter. Said report shall contain an account of all moneys received for pilotage by him or by any other persons for him or on his account or for his

12 AAC 56.166. AUDIT. The marine pilots associations shall have their records audited annually by a certified public accountant approved by the board and submit the audit report to the board.

Authority: AS 08.62.040

In the "definitions" sections under both AS 08.62.200 and under 12 AAC 56.190 there is no reference to the word "pilots". I would suggest amending §190 with the addition of . . .

> "pilot" means a marine pilot licensed under the provisions of this chapter.

Section 12 AAC 56.010 dealing with a board quorum appears to be in some need of revision. It seems more appropriate that (a) of that section should be placed under Article 2, Licensing.

12 AAC 56.065 Application and Temporary Licenses. § 10(a).

Since I believe the quorum requirements specified in 12 AAC 56.010 appear to be out of keeping with requirements imposed by other Western states, I would suggest the complete rewriting of this section to read:

12 AAC 56.010. Quorum. (a) For the purpose of board meetings, hearings, and conducting all other board business, except under (b) of this section, four members are a quorum as long as one member is a pilot, one member is an agent of managers of vessels subject to this chapter, and one is a public member.

(b) For the purpose of fixing pilotage rates, six

---

benefit. Said report shall state the name of each vessel piloted, the amount charged to and/or collected from each vessel, the port of registry of such vessel, its dead weight amount so received, collected, or charged is in full payment of pilotage and such other information as the board shall by regulation prescribe.

A similar report is required of California pilots.

3/ Adoption of 12 AAC 56.164 would necessitate repeal of 12 AAC 56.160(k).

members is a quorum.

For comparison purposes, the state of California has three board members and two are required to transact any business. The state of Washington specifies that five of the seven members must be present for all matters. Oregon has five members on the board with a simple majority required as long as one pilot and one ship owner representative are included. The state of Oregon specifies further that for consideration of pilotage rates, the entire board must be in attendance.

Also, for your information I have attached copies of excerpts of California, Oregon, and Washington laws or regulations dealing with the subject of board hearings and license suspension or revocation.

DEPARTMENT OF TRANSPORTATION
Washington State Ferries, Seattle Ferry Terminal
Seattle, Washington 98104 206-464-7800
BOARD OF PILOTAGE COMMISSIONERS

October 23, 1979

Ms. Elaine Garrett
Department of Commerce & Economic
Development
Division of Occupational Licensing
Pouch D
Juneau, AK 99811

Dear Ms. Elaine Garrett:

This letter responds to your telephone inquiry as to how pilotage tariffs are set in Washington State.

The Board of Pilotage Commissioners is charged with the annual setting of pilotage fees (RCW 88.16.035(4)). A copy of the current pilotage act is attached. For many years it has been the practice that the pilots associations, and the Puget Sound Steamship Operators Association (their pilotage committee) will negotiate a level of fees to which both sides ultimately come to an agreement. With previous communication, as the negotiations progress, the Board will set a hearing date to hear testimony and ask questions of the two sides as to how the agreement was reached. Because of the agreement between the parties, the Board is usually inclined to adopt the rates as proposed. The rate hearings are therefore usually very short in duration and when completed the usual monthly meeting is commenced (the hearing is set on the day of the regular meeting).

Last year the Grays Harbor pilots received a 7% increase; the Puget Sound pilots received a rate increase of 8.3%, covering an 18 months period. Negotiations are commencing now for the next round.

As you can see the Board spends very little time in the actual tariff making process. We feel this is better handled by the parties directly involved, i.e., the ones providing the services and the ones paying the bills.

Copies of the two current tariffs are attached along with copies of minutes of the two hearings at which they were adopted.

We hope this information will be of assistance to you in your efforts to establish your next set of tariff changes. If any members of the Commission or your staff are interested, our Board meetings are held the second Thursday of each month. We would be delighted to have you attend so as to exchange matters of mutual interest and concern.

Please let us know if we can be of further assistance.

Sincerely,

BOARD OF PILOTAGE COMMISSIONERS

Richard A. Berg
Chairman

DIVISION OF OCCUPATIONAL LICENSING

POUCH D
JUNEAU, ALASKA 99811

January 15, 1979

The Alaska State Legislature:

Transmitted herewith, pursuant to AS 44.66.050, are the reports of the Alaska State Board of Dental Examiners, Board of Nursing, Board of Dispensing Opticians, Board of Examiners in Optometry, Board of Pharmacy, Board of Veterinary Examiners, Board of Psychologist and Psychological Associate Examiners, Board of Nursing Home Administrators, Physical Therapy Board, Board of Chiropractic Examiners and State Medical Board.

This evaluation, supplemental to my oral testimony before the Legislature, serves to focus attention upon the question of whether or not the boards are best serving the interests of the public. Data as provided by the Division of Occupational Licensing, the board members, licensees and members of the public has been received, reviewed and evaluated. Specific proposals are made on the basis of this data achieving increased effectiveness and protection to the consuming public.

Yours truly,

Charles Webber,
Commissioner

Philosophy of Evaluation

This review and evaluation has been undertaken to determine whether continued regulation of an industry or occupation under State auspices can be justified in terms of protection of public health, safety and welfare. State boards and regulatory agencies should be continually cognizant of the public's right to a government acting responsibly in licensing competent practitioners and doing so only in the best interests of the people. Evidence must clearly indicate that the primary goal of regulation is to promote the public good rather than that of the industry or profession. The absence of such evidence indicates cessation of State regulation. Where public benefit or a potential for benefit can be shown to exist, recommendations are made with respect to possible alternatives in the regulatory process which will serve to enhance public health, safety, welfare and accountability.

STATE OF ALASKA
Board of Dental Examiners
(July, 1978)

Findings

Dissolution of the Board of Dental Examiners and subsequent governmental deregulation of the dentistry profession would subject the public to the possibility of persons practicing dentistry who are not compelled to meet requisite minimum standards of proficiency. Lack of control could result in financial loss, physical injury or death among members of the general public. With the abrogation of governmental regulation and investigative follow-up on complaints of alleged dental malpractice, unqualified practitioners would be unhindered in their practices on an unaware public, even though previous violations such as overcharging or physical harm had occurred. Therefore, it is recommended that the Board of Dental Examiners be reestablished for an additional four-year period.

I. General Information

A. Regulated Parties

1. Dentists
2. Dental Hygienists

B. Statutory Definition of Regulated Profession

"A person engages in the practice of dentistry who

(1) performs or holds himself out to the public as being able to perform dental operations;

(2) diagnoses, treats, operates on, corrects or attempts to correct, or prescribes for, a disease, lesion, pain, injury, deficiency, deformity, or physical condition, malocclusion or malposition of the human teeth, alveolar process, gums or jaws and adjacent tissues;

(3) performs or attempts to perform an operation incident to the replacement of teeth;

(4) furnishes, supplies, constructs, reproduces, or repairs prosthetic dentures, bridges, appliances or other structures to be used and worn as substitutes for natural teeth, except on prescription of a duly licensed and registered dentist and by the use of impressions or casts made by a duly licensed and registered dentist;

(5) uses the word 'dentist' or 'dental surgeon' or the letters D.D.S. or D.M.D. or other letter or title which represents him as engaging in the practice of dentisty;

(6) extracts or attempts to extract human teeth;

(7) owns, manages or operates a place where the acts and things described in this section are performed or done." (AS 08.36.360)

C. Purpose of Regulation

"The practice of dentistry in the state is hereby declared to affect the public health, safety and welfare and to be subject to regulation and control in the public interest. It is further declared to be a matter of public interest and concern that the dental profession merit and receive the confidence of the public and that only qualified dentists be permitted to practice dentistry in the state. All provisions of this chapter relating to the practice of dentistry and dental hygiene and to the registration of dental laboratories shall be liberally construed to carry out these objects and purposes." (Section 1, Chapter 155, SLA 1968)

D. Nature and Composition of Board

1. Board members and terms:

Five-year term (no restrictions regarding consecutive terms or number of terms).

Arthur Hansen, DDS (Chairman)	ends February 1, 1982
Wayne Putman, DMD	ends February 1, 1983
Leonard Yuknis, DDS	ends February 1, 1979
Claude Rick, DDS	ends February 1, 1981
John Kobylarz, DMD (Secretary)	ends February 1, 1980
Jana Varrati, RDH	ends February 1, 1981
John R. Beard, Attorney	ends February 1, 1981

2. Representation:

Profession = 6 (includes one dental hygienist)
Public = 1

3. Qualifications:

"Five members shall be qualified resident dentists who have been engaged in the practice of dentistry in the state for five years immediately preceding appointment, one member shall be a dental hygienist licensed under AS 08.32, and one member with no direct financial interest in the health care industry." (AS 08.36.010)

I. Qualifications

1. Dentists:

Applicants applying for licensure by examination are required to be of good moral character and to have graduated from an approved dental college. College requirements may vary, however, six to eight years of post high school education is obligatory. Examination is required by every state prior to initial licensure.

2. Dental Hygienists:

Applicants must be at least 18 years of age, of good moral character, a graduate from both high school and an approved training school with at least a two-year program and must pass an examination prior to initial licensure.

II. Criteria and Analysis

A. To what extent has the Board of Dental Examiners operated in the public interest?

A major function of the Board is to examine and license qualified applicants to practice dentistry and dental hygiene throughout the State. While some qualifications are provided by statute (i.e., graduation from an approved dental college), the Board is given wide latitude in setting standards by which professional competence is judged.

One method of judging competency of applicants is through an examination, now given once each year, consisting of either written testing, clinical testing, or a combination of both at the discretion of the Board. Applicants who have completed the National Board written examination may or may not be required to successfully complete an additional written examination for Alaska. The Board has consistently required clinical examination of applicants, however, written examination requirements have been inconsistent. The 1975 dental examination included a written test, no longer in use, composed by the Board of Dental Examiners. In 1976 and 1977 no written examination was administered. In 1978, applicants were required to successfully complete the American Association of Dental Examiners' written test. The Board recently resolved to implement the June, 1978 requirements cited through adoption as regulations. This lack of continuity obviously contributed to the litigations instituted against the Board by unsuccessful candidates during this period.

Applicants who do not exhibit the prescribed level of knowledge and proficiency remain unlicensed until reexamination is successfully completed. It should be noted that an applicant who has failed to pass the examination on two separate occasions must submit proof of further study before reexamination.

Public interests are protected by requiring that applicants demonstrate professional proficiency. Incompetence could result in financial loss, physical harm and perhaps death. By licensing and registering dentists in the State, the Board is certifying to the public that the practitioner is at least minimally competent by its standards.

In contrast to other health care board statutes (i.e. State Medical Board, Board of Pharmacy, Board of Nursing), those of the Board of Dental Examiners do not specifically provide that an applicant for licensure shall meet specific requirements or substitutes. Rather, applicants may follow alternative procedures which the Board may designate at its discretion. It is, therefore, recommended that a separate, short term task force be created with the specific directive and goal of reviewing, revising and recommending concise and definitive statutory language. This task force should be represented by members of the dental profession, the legal profession, and knowledgeable lay persons, and should be dissolved immediately upon completion of this single directive.

Continued competency is not assured by initial testing procedures. No review or reexamination procedures exist. Valid arguments may be made against mandatory continuing education. One is the fact that if ongoing education is required, provisions must be made to allow compliance. The practicality of implementation in a rural state or of requiring professionals to go out of state to obtain education must be weighed against

whatever assurance there may be that incompetency will be significantly reduced or avoided by this method. Pending further study of this issue, one opinion[1] seems to indicate that vigorous investigation and enforcement programs may be an effective course of action.

It must be recognized that there is a widespread trend toward continuing education requirements as a condition of license renewal. Alaska is one of only 12 states not presently considering mandatory implementation of such requirements.[2] The American Dental Association supports continuing education. Continuing dental education requirements in the State of Minnesota have resulted in voluntary termination of licensure by out-of-state, semi-retired, and retired dentists and in suspension of 1.2% of all licenses for failure to meet reassessment requirements.[3] The recommended statutory review task force could appropriately address this subject as it relates to dental and other health care related boards.

[2] Dunn, R. and Porter, D., A Performance Audit of Dental Licensing in Utah. Office of Legislative Auditor General, Salt Lake City, Utah, June, 1978, p. 7.

[3] Ibid.

In the event that reassessment advantages are determined to outweigh the disadvantages, alternatives are:

1. certification of completion of approved courses to provide a basis for public selection of practitioners;

2. periodic in-office review of client records, dental practices and procedures;

3. mandatory reexamination by methods such as written tests, records and x-ray review;

4. routine periodic oral interviews before the Board, a member, or a selected committee;

5. review and analysis of quantity, type and disposition of complaints;

6. well developed and effective peer review mechanisms; and/or

7. programs that may be offered by the Alaska branch of the National Dentistry Association.

The problem of providing dental care to outlying communities is a very real one within the State. Permits for isolated areas may be issued upon recommendation by the Department of Health and Social Services and a "pool" of licensed dentists exists in some areas to provide periodic dental care to remote communities under contract. The Board has discontinued, as a matter of policy, the issuance of temporary permits prior to successful completion of the dental examination.

Formal licensure is not necessarily a guarantee against malpractice. Safeguards exist which can be utilized as measurements of ability, and as bases for revocation or limitation of temporary permits. Graduation from dental college should be indicative of ability and knowledge sufficient to have completed stringent academic and practical curricula. Additionally statutory provisions for issuance of a temporary permit require: That the permittee practice in a city or rural village where there is no actively practicing resident dentist; that the applicant have a license in good standing in a state, district, territory or possession of the U.S.; that the Board may issue one year permits only for a maximum of two years by which time the applicant must pass a Board examination; and that the Board may revoke, suspend or annul the license or take disciplinary action if necessary during that period.

The Board of Dental Examiners, at its discretion, also does not license by waiver or reciprocity, nor does it permit out-of-state proctoring, nor does it allow for examination in out-of-state dental colleges. Regional examinations in which several states may participate and which provide reciprocity among those states are not accepted or being considered as alternatives by the Board at this time.

The current practice of the Board in examining candidates annually, in conjunction with restrictive policies against reciprocity and the issuance of temporary permits, is not conducive to opportunity for entry into dentistry in the State. A review of reciprocity provisions indicates that such requirements restrict interstate entry into professions. Only applicants from states with which agreements have been established may be admitted without examination regardless of their qualifications. Endorsement allows licensure of those individuals licensed elsewhere whose qualifications are substantially similar to those in Alaska at a given time, independently of formal interstate concurrence. Endorsement provisions are felt to be more in keeping with the principle of licensing

qualified applicants and with providing services of practitioners. It is recommended that statutory changes be made to allow for licensure by endorsement and that the Board take positive steps toward implementation of all methods which would allow additional availability of services to the public.

B. To what extent has the operation of the Board of Dental Examiners been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

The functions of the Board have been limited and impeded by the lack of specific criteria and guidelines relevant to its operation. Much Board time is consumed with clarification and refinement of regulations. Recent revisions in Board regulations and policies have largely evolved out of court cases in which unsuccessful applicants allege nonuniformity of standards and failure of the Board to establish specific guidelines.

In an attempt to clarify its functions and requirements and to provide specific guidelines, the Board approved updated regulations delineating examination procedures, content, criteria for grading, and notification procedures (which were subsequently invalidated because formal adoption procedures were faulty). This continual refinement process has also contributed to confusion in interpretation and some conflict with statutes. Those regulations (12 AAC 28.100) stated: "Before each clinical examination the board will appoint three to five persons (who may be but are not required to be members of the board) as examiners for that examination." AS 08.36.130 states in part: "At least once each year the board shall appoint from its membership an examination committee of at least three persons." There also existed some ambiguity in the regulations covering examination procedures as to what constitutes a testing "section," a "subject" and a "part" as they pertain to reexamination provisions.

A general review of the statutes applicable to dentists and dental hygienists indicates a need to reexamine statutory language and continuity. Statutory consistency and standardization covering the functions and operations applicable to all health care boards could be expected to produce the following results:

1. a reduction in time expended in attempting to clarify Board functions and requirements;

2. a reduction in litigation, costs and time;

3. a reduction in time expended by the administrative agency in research, documentation and interpretation,

4. formalization of the Board's relationship with the public and with the administrative agency; and

5. formalization of the Board's scope of authority and support for its subsequent activities.

As previously noted, it is recommended that a separate, short-term task force be created with the specific directive and goal of reviewing, revising, and recommending concise and definitive statutory language. The task force would be dissolved immediately upon completion of this single task.

The Board of Dental Examiners has experienced little difficulty in its administrative operations with respect to personnel or budgetary restrictions, with the exception of investigative services. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs. All fees and revenues are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes.

Improved procedures are being developed within the administrative agency pertaining to organization of records, forms and examination information which will better enable the Board to perform its functions.

The Board of Dental Examiners has experienced the same difficulties as other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency. During the past year two investigator positions remained unfilled. As a result one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints.

It is undeniably in the public interest to enforce the laws promulgated for the protection of public health and welfare and to take expeditious action upon receipt of potentially serious complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

C. To what extent has the Board of Dental Examiners recommended statutory changes which are generally of benefit to the public interest?

Health care legislation enacted in 1976 provided several amendments and additions to existing statutes relating to Dental Hygienists and the Board of Dental Examiners:

AS 08.32.165 and 08.36.325 expand on previous sections which provide for revocation or suspension of licenses. The additions enumerate less severe disciolinary measures that may be enforced to limit or place conditions on a practitioner (i.e., reprimand, censure, probation, practice restrictions, or requirements for additional education or training).

AS 08.01.050(a)(19) was added to "provide investigative services" to boards for assistance in "matters of professional discipline." The Enforcement and Investigation Section of the Division of Occupational Licensing handles complaints received in which licensing violations are alleged. Complaints which are determined not to be this type of violation are referred to appropriate agencies while cases within Division jurisdiction are investigated and processed. Two investigators (including the chief investigator) currently are responsible to twenty-four (24) boards, commissions and interest groups.

AS 08.02.020 provided immunity from personal liability for licensing board members acting within their scope of authority.

AS 08.36.010 amended Board membership from five (5) to seven (7) members adding one dental hygienist and one member with no direct financial interest in the health care industry to the then existing five qualified resident dentist members.

AS 08.36.020 deleted the requirement that nominations for appointment to the Board be made by, and restricted to, the Alaska Dental Society.

1978 amendments relating to the practice of dental hygiene consisted for the most part of "housekeeping items," clarification and updating of existing statutes.

No statutory recommendations have been made by the Board of Dental Examiners that would be of specific benefit to the public.

D. To what extent has the Board of Dental Examiners encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The Board is generally sensitive to public concern and to aspects of public health and welfare. However, very little public interest in the activities of the Board has been shown in the form of attendance at Board meetings, hearings, or as written comment. Most public concern is expressed as a result of controversial issues arousing publicity or by individuals with particular problems directly approaching Board members. Notices of pending meetings and new or changing regulations are published in major newspapers in the State. It can be assumed that members of the public are somewhat reluctant to involve themselves in areas of a technical or scientific nature which may be considered too complex for anything but minimal scrutinization by a layperson. A technical and professional "barrier" of sorts exists, due to the nature of the occupation involved, which probably tends to deter public knowledgeability and participation.

The Board has not taken any overt action to solicit general public response to the quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Wider dissemination of general information regarding the Board may help to mitigate public disinterest.

Public interests are furthered by the existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[4]

---

[4]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Dental Examiners processed and resolved?

No complaints were received which were specifically directed at individual members of the Board of Dental Examiners. Current and recent litigations have charged that the Board as a whole has been arbitrary and capricious in its examination requirements and grading standards. Two such cases were resolved through determination by a hearing officer that a special examination be held eight months later to accommodate the candidates (both passed and were subsequently licensed). In another instance, the hearing officer determined that the candidate should be reexamined on the failed portion of the test and that all costs of this procedure be borne by the Board.

Over the past three years only one complaint was received by the Office of the Ombudsman relating to Board activities. This complaint involved a delay in the receipt of a hygiene certificate and was resolved satisfactorily.

F. To what extent does the Board of Dental Examiners present qualified applicants to serve the public?

Applicants for licensure are not sponsored by the Board of Dental Examiners. Individuals wishing to practice within the State must submit fees and application to the administrative agency with documentation of qualifications. One examination each year is currently conducted, monitored and graded by the Board. Applicants who demonstrate the required level of knowledge and proficiency are issued a license.

Because examinations are given only once each year, it may be of some public benefit to increase examination schedules. Applicants who have failed the examination or a portion, or who apply too late to be scheduled for an examination, would not be required to wait as long as a

year. A second examination could be scheduled providing that a minimum number of applications are received 30 days prior to the examination date. This increase in scheduling, once established, could be expected to increase the availability of licensed practitioners within the State. It should be noted that an applicant who has failed to pass the examination on two separate occasions must submit proof of further study before being reexamined (AS 08.36.180).

The current practice of the Board in examining candidates once each year, in conjunction with restrictive policies against reciprocity and the issuance of temporary permits, is not conducive to encouraging entry into the profession. It is again recommended that the Board review its regulatory alternatives, including the possibility of endorsement, and that it make every effort in providing opportunities for availability of dental services to the public.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Dental Examiners in its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for two other boards) who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

The Board of Dental Examiners issues licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Dental Examiners to better serve the interests of the public?

Recent litigation and interpretation difficulties have led to attempts at refining Board regulations. The Board is cognizant of the need for standardization and specificity within its regulations and is continually reviewing and revising them to provide more definite guidelines. Board policies with respect to examination criteria and uniformity in grading are also subject to continual scrutiny.

Changes in statutory language need to be enacted upon which the Board, the applicants, and the public may rely. While Board discretion may be advantageous in some functional aspects, it also exposes Board judgment and decisions to challenge. This latitude results in lengthy discussions and time-consuming attention to interpretation, primarily concerning matters of qualifications for licensure. More Board time could be provided addressing matters such as examinations, temporary permits and reciprocity or endorsement provisions if its functions and standards were more clearly defined by statute.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are simply not adequate to cover transportation and per diem for meetings and examinations, and the Division of Occupational Licensing administrative overhead such as staff salary, examination expenses, investigative services and litigation.

The Board presently consists of seven members, five qualified resident dentists who have practiced in the State for the five years preceding appointment, one licensed hygienist, and one public member with no interest in the health care industry. Because of recent concern regarding the need for occupational licensing, the questions raised concerning public welfare versus professional interests and concern regarding proliferation of regulated and licensed groups, appointment of knowledgeable laymembers is a widely advocated step. "There has been a growing movement to place public members on regulatory boards to ensure

that there will be input from groups other than those representing the regulated occupation."[5] Shimberg and Roederer further indicate that, "... if impact is the major criterion, one public member is probably too few, two would be the minimum, and three or four would increase the likelihood that the impact of public members would be felt, particularly if the board had from seven to ten members." It is recommended that public Board membership be increased to three with three qualified resident dentists and one dental hygienist and that number of terms or of consecutive terms be limited for all members.

III. Conclusion

The Board of Dental Examiners and regulation of this profession does function to protect the public health, safety and welfare.

IV. Summary of Recommendations

The Board of Dental Examiners should be reauthorized for another four-year period. The following recommendations are made:

1. It is recommended that a short term task force be created with the specific direction and goal of reviewing, revising and recommending concise and definitive statutory language, such task force to be represented by members of the dental profession, the legal profession, and knowledgeable lay persons, and to be dissolved immediately upon completion of this single task. This task force should also review the area of continuing education requirements upon which license renewal would be contingent. (See discussion on p. 9)

---

[5]Ibid, Shimberg & Roderer, p. 9.

2. The Board should request statutory changes or adopt regulations requiring continuing education as a condition of relicensure. Acceptable compliance methods should be outlined and adopted through Board regulations. (See discussion on p. 9)

3. The Board should not take a blanket position against the issuance of any and all temporary permits. Board policy should allow for consideration of temporary permits on an individual basis. The statutory provision requiring that temporary permits be only in areas where there is no licensed resident dentist should be deleted. (See discussion on p. 11)

4. Statutory changes should be made which allow for licensure by endorsement rather than reciprocity. If this is not done, the Board should take positive steps to establish reciprocal agreements with other states wherever possible. If qualifications in Alaska are substantially dissimilar to those of other states, they should be carefully reviewed for validity and appropriate recommendations made. (See discussion on p. 12)

5. The Board and the administrative agency should take positive steps to inform the public of Board and profession activities. (See discussion on p. 17)

6. The Board should schedule two examinations each year provided that a minimum number of applications are received 30 days prior to the second examination date. This would eliminate the year-long waiting period if enough candidates are available and would allow more frequent opportunity for entry into practice. (See discussion on p. 18)

7. Board membership should be changed to consist of three licensed resident dentists, one dental hygienist and three public members. (See discussion on p. 20)

Chapter 32. Dental Hygienists.

Article
1. Examination and Licensing (§§ 08.32.010 — 08.32.090)
2. Regulation of Dental Hygienists (§§ 08.32.100 — 08.32.180)
3. General Provisions (§ 08.32.190)

Article 1. Examination and Licensing.

Section
10. License required
15. Malpractice insurance
20. Examination required
30. Examination waived
40. Application and fee
50. Disposition of fees
60. Frequency and content of examination
70. Registration and licensing of dental hygienists
80. [Repealed]
81. Lapse and reinstatement of license
90. Temporary license

Sec. 08.32.010. License required. No person may practice, offer or attempt to practice, or advertise or announce himself as prepared or qualified to practice dental hygiene without a license. (§ 1 ch 78 SLA 1953)

Sec. 08.32.015. Malpractice insurance. If medical malpractice insurance for dental hygienists becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of dental hygiene services to the public, the director of insurance may require all persons licensed under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of licensure under this chapter. The provisions of this section are satisfied if the licensee's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 7 ch 102 SLA 1976)

Sec. 08.32.020. Examination required. (a) An applicant for examination shall be

(1) of good moral character;

(2) at least 18 years of age;

(3) a graduate of an accredited high school;

(4) a graduate of an American training school for dental hygienists which requires at least a two-year course and is accredited and recognized by the board; and

(5) an examinee who has successfully completed the National Board Examination or the written examination given by the board.

(b) An applicant for examination shall apply in writing to the secretary of the board at least 30 days before the date selected by the board for the examination. (§ 1 ch 78 SLA 1953; am § 1 ch 36 SLA 1969; am § 1 ch 99 SLA 1970)

Sec. 08.32.030. Examination waived. A dental hygienist who holds a certificate from a school accredited by the American Dental Association and who has had two years of practical experience is qualified to practice in the state without examination upon registering with the board. (§ 1 ch 78 SLA 1953)

Sec. 08.32.040. Application and fee. An application for qualification shall be accompanied by the applicant's certificate of graduation, and a fee of $25. (§ 1 ch 78 SLA 1953; am § 2 ch 36 SLA 1969)

Sec. 08.32.050. Disposition of fees. All fees and charges shall be deposited in the general fund of the state. (§ 1 ch. 78 SLA 1953)

Sec. 08.32.060. Frequency and content of examination. The examination shall be held once each year at the same time as the examination of dentists. The examination shall cover subjects considered essential by the board for a dental hygienist, including a practical examination on the removal of deposits or stains from the exposed surfaces of the teeth. (§ 1 ch. 78 SLA 1953)

Sec. 08.32.070. Registration and licensing of dental hygienists. If the applicant passes the examination, the board shall register him and issue a certificate. The fee for registration is $20. Before May 1 of every other year after the year of registration, every registered dental hygienist shall pay a registration fee of $20. (§ 1 ch. 78 SLA 1953; am § 3 ch. 36 SLA 1969)

Sec. 08.32.080. Lapse and reinstatement of license.
Repealed by § 7 ch. 94 SLA 1968.

Sec. 08.32.081. Lapse and reinstatement of license. The failure, neglect, or refusal of a licensed dental hygienist to pay the biennial registration fee constitutes a forfeiture of the license. The board may reinstate the license within three years upon written application and payment of $25. (§ 4 ch 36 SLA 1969)

Revisor's note (1969). — "Annual" was changed to "biennial" in this section in order to make it consistent with the change in sec. 70 of this chapter. In ch. 36, SLA 1969, this section was numbered AS 08.32.080.

Sec. 08.32.090. Temporary license. The board may issue a temporary license, without examination, to a person qualified to take the examination who has a license to practice in another state. The temporary license granted to a hygienist in the employ of a privately practicing dentist terminates at the time of notification of the results of the next board examination. The board may revoke a temporary license at any time. Time spent on a temporary license does not count toward license by reciprocity. (§ 2 ch. 75 SLA 1953; am § 5 ch 36 SLA 1969)

Article 2. Regulation of Dental Hygienists.

Section
100. Employment of dental hygienists
110. Scope of work of dental hygienists
120. Place of employment
130. Information required
140. Supervision required
150. Revocation of dentist's license
160. Suspension or revocation of license
165. Limits or conditions on license; discipline
170. Procedure followed
180. Violation

Sec. 08.32.100. Employment of dental hygienists. A licensed dentist, incorporated eleemosynary dental dispensary or infirmary, private school or welfare center, the United States of America or the state may employ a licensed dental hygienist. (§ 3 ch 78 SLA 1953)

Sec. 08.32.110. Scope of work of dental hygienists. The role of the dental hygienist is to assist members of the dental profession in providing oral health care to the public. He may not perform any of the following functions dealing with dentistry:

(1) diagnosis, treatment planning, or prescription;

(2) operative or surgical procedures on hard or soft tissues;

(3) restorative, prosthetic, orthodontic or other procedures which require the knowledge and skill of a dentist and constitute the practice of dentistry;

(4) prescription for drugs, medicament or work authorization. (§ 3 ch 78 SLA 1953; am § 6 ch 36 SLA 1969)

Sec. 08.32.120. Place of employment. A dental hygienist may operate in the office of a licensed dentist, or legally incorporated eleemosynary dental dispensary or infirmary, private school or welfare center, or in a building owned or occupied by the state and under the direct or general supervision of a licensed dentist. (§ 3 ch 78 SLA 1953)

Sec. 08.32.130. Information required. Every dental hygienist shall furnish the board with the name and address of his employer. (§ 1 ch 78 SLA 1953)

Sec. 08.32.140. Supervision required. A dental hygienist may not practice except under the supervision of a licensed dentist. (§ 1 ch 78 SLA 1953)

Sec. 08.32.150. Revocation of dentist's license. The board may revoke the license of a dentist who permits a dental hygienist, employed by him or working under his supervision, to perform a dental operation other than that permitted under this chapter. (§ 4 ch 78 SLA 1953)

Sec. 08.32.160. Suspension or revocation of license. The board may suspend or revoke, with power to reinstate, the license of a dental hygienist who violates this chapter or who is guilty of professional misbehavior, or is not of good moral character. (§ 6 ch 78 SLA 1953)

Sec. 08.32.165. Limits or conditions on license; discipline. (a) In addition to action under § 160 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education or health the authority to practice dental hygiene should be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by specialty, procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 7 ch 102 SLA 1976)

Sec. 08.32.170. Procedure followed. Procedures for the revocation or suspension of a license under §§ 150 and 160 of this chapter shall comply with the Administrative Procedure Act (AS 44.62). (§ 4 ch 78 SLA 1953)

Sec. 08.32.180. Violation. A person who violates this chapter or who fails to comply with the requirements of this chapter, a penalty for which is not otherwise provided, is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than $100. (§ 5 ch. 78 SLA 1953)

Article 3. General Provisions.

Section
190. "Board" defined

Sec. 08.32.190. "Board" defined. Board means the Board of Dental Examiners.

Chapter 36. Dentistry.

Article
1. Board of Dental Examiners (§§ 08.36.010—08.36.091)
2. Examination and Licensing (§§ 08.36.100—08.36.300)
3. Unlawful Acts (§§ 08.36.310—08.36.340)
4. General Provisions (§§ 08.36.350—08.36.360)

Article 1. Board of Dental Examiners.

Section
10. Creation and membership of board
20. Appointment and term of service of members
30. Election of officers
40. Meetings
50. Quorum
60. [Repealed]
70. General powers
80. Applicability of Administrative Procedure Act
90. [Repealed]
91. Records and reports

Sec. 08.36.010. Creation and membership of board. There is created the Board of Dental Examiners, referred to in this chapter as the board, consisting of seven members. Five members shall be qualified resident dentists who have been engaged in the practice of dentistry in the state for five years immediately preceding appointment, one member shall be a dental hygienist licensed under AS 08.32, and one member with no direct financial interest in the health care industry. (§ 1 art II ch 186 SLA 1955; am § 2 ch 155 SLA 1968; am § 8 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "seven members" for "five members" at the end of the first sentence and rewrote the second sentence.

Editor's note. — Section 1, ch. 155, SLA 1968, provides: "**Purposes.** The practice of dentistry in the state is hereby declared to affect the public health, safety and welfare and to be subject to regulation and control in the public interest. It is further declared to be a matter of public interest and concern that the dental profession merit and receive the confidence of the public and that only qualified dentists be permitted to practice dentistry in the state. All provisions of this chapter relating to the practice of dentistry and dental hygiene and to the registration of dental laboratories shall be liberally construed to carry out these objects and purposes."

Am. Jur., ALR and C.J.S. references. — 41 Am. Jur., Physicians and Surgeons, §§ 13, 23.

Dentist as within statutes pertaining to physician or surgeon, 115 ALR 261.

70 C.J.S. Physicians and Surgeons §§ 1 to 5.

Sec. 08.36.020. Appointment and term of service of members. Members of the board are appointed by the governor, subject to confirmation by the legislature in joint session. Each board member serves for a term of five years, and until his successor is appointed and qualified. The term begins on February 1. An appointment to a vacancy

is for the unexpired term. (§ 2 art II ch 186 SLA 1955; am § 1 ch 59 SLA 1964; am § 9 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment deleted "assembled" from the end of the first sentence and deleted the former fifth through eighth sentences, which related to a list of names from which appointments were to be made.

Sec. 08.36.030. Election of officers. The board shall elect a president and a secretary from among its members, each to serve for a term not to exceed two years. (§ 3 art II ch 186 SLA 1955; am § 1 ch 121 SLA 1972)

Sec. 08.36.040. Meetings. The board shall meet as often as, and at the times and places, necessary to conduct its business. (§ 3 art II ch 186 SLA 1955)

Sec. 08.36.050. Quorum. A majority of the board constitutes a quorum for the transaction of business. (§ 4 art II ch 186 SLA 1955)

Sec. 08.36.060. Expenses and salary.
Repealed by § 3 ch 59 SLA 1966.

Sec. 08.36.070. General powers. The board shall have, but not by way of limitation, the following powers and duties:

(1) to examine and issue licenses to applicants;

(2) to register licensed dentists in good standing;

(3) to submit an annual report of its proceedings to the governor and to members of the Alaska Dental Society, containing a statement of money received and disbursed;

(4) to affiliate with the American Association of Dental Examiners, and pay annual dues to the association;

(5) to hold hearings, revoke, annul, or suspend the license of a person who violates this chapter or the rules and regulations of the board;

(6) to supply forms for applications, licenses, permits, certificates, and other papers and records;

(7) to enforce the provisions of this chapter and make, alter, or amend the rules and regulations necessary or desirable to make the provisions of this chapter effective. (§ 5 art II ch 186 SLA 1955; am § 6 ch 69 SLA 1970)

Legislative committee report. — For report on ch. 69, SLA 1970 (HB 564), see 1970 House Journal Supplement No. 2, p. 7.

Sec. 08.36.080. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62).

Sec. 08.36.090. Records and reports.
Repealed by § 3 ch 59 SLA 1966.

Sec. 08.36.091. Records and reports. The board shall maintain

(1) a record of its proceedings;

(2) a register containing the name, office and home addresses, and other information considered necessary by the board, of each person licensed as a dentist or dental hygienist, and a register of the licenses revoked by the board, and information on the status of each licensee. (§ 3 ch 155 SLA 1968)

Article 2. Examination and Licensing.

Section

100. License required
110. Qualifications of applicants
115. Malpractice insurance
120. Photograph and filing date of application
130. Examination
140. Out-of-state examination
150. Examination in out-of-state dental schools
160. Contents of examination
170. Partial examination
180. Re-examination
190. Grading of examination
200. Waiver of written examination
210. Waiver of examination by reciprocity
220. Issuance of license by reciprocity
230. Practice outside the state
240. Issuance of license; recordation; display
244. License to practice as specialist required
246. Qualification for a specialist license
247. Limitation of special practice
248. Suspension or revocation of specialty licenses
250. Biennial registration
260. Branch office registration
270. [Repealed]
271. Permits for isolated areas.
280. Temporary permit
285. [Repealed]
290. Fees and penalties
300. [Repealed]

Sec. 08.36.100. License required. No person, except those specifically exempted from the application of this chapter, may practice, or attempt to practice, dentistry without a license or permit, and a current certificate of registration. (§ 1 art III ch 186 SLA 1955; am § 4 ch 155 SLA 1968)

ALR and C.J.S. references. — Unlicensed dentist's right to recover for services, 30 ALR 860; 118 ALR 661.

Right of corporation or individual not himself licensed, to practice dentistry through licensed employees, 103 ALR 1240.

Constitutionality and construction of statutes or regulations prohibiting one who has no license to practice dentistry from owning, maintaining, or operating an office therefor, 20 ALR2d 808.

70 C.J.S. Physicians and Surgeons §§ 6 to 23.

Sec. 08.36.110. Qualifications of applicants. An applicant for a license to practice dentistry may apply to the board for an examination and license by submitting information that he is

(1) Repealed by § 25 ch 245 SLA 1970.

(2) of good moral character;

(3) Repealed by § 10 ch 127 SLA 1974.

(4) a graduate of a dental college approved by the Council on Dental Education of the American Dental Association at the time of graduation, and holds a D.D.S. or D.M.D. degree or the equivalent;

(5) Repealed by § 1 ch 36 SLA 1970. (§ 2 art III ch 186 SLA 1955; am § 1 ch 26 SLA 1965; am § 1 ch 36 SLA 1970; am § 7 ch 69 SLA 1970; am § 25 ch 245 SLA 1970; am § 10 ch 127 SLA 1974)

Effect of amendment. — The 1974 amendment repealed paragraph (3).

Legislative committee reports. — For report on ch. 69, SLA 1970 (HB 564), see 1970 House Journal Supplement No. 2, p. 7. Chapter 245, SLA 1970 (HCSSB 399 am H), was identical to CSHB 406 (Jud.). For report on CSHB 406 (Jud.), see 1970 House Journal Supplement No. 6.

For report on ch. 127, SLA 1974 (SCSHB 817 am S), see 1974 House Journal, p. 657.

Sec. 08.36.115. Malpractice insurance. If medical malpractice insurance for dentists becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of dental services to the public, the director of insurance may require all persons licensed under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of licensure under this chapter. The provisions of this section are statisfied if the licensee's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 10 ch 102 SLA 1976)

Sec. 08.36.120. Photograph and filing date of application. Each applicant shall submit a recent unmounted, autographed photograph of himself. Applications shall be filed at least 30 days before the date scheduled for an examination. (§ 2 art III ch 186 SLA 1955)

Sec. 08.36.130. Examination. An examination shall be given at times and places determined by the board to be convenient and economical for the applicants and the state. At least once each year the board shall appoint from its membership an examination committee of at least three persons. The examination committee shall conduct an examination at least once a year and report the results to the board for official action. (§ 3 art III ch 186 SLA 1955; am § 5 ch 155 SLA 1968)

Sec. 08.36.140. Out-of-state examination. If an applicant requests the board to hold an examination outside the state, the board may require the applicant to pay the transportation costs to the members of the committee conducting the examination. (§ 3 art III ch 186 SLA 1955)

Sec. 08.36.150. Examination in out-of-state dental schools. The examination committee, with the approval of the board, may conduct an examination in the clinic of an approved dental school within the continental limits of the United States and admit to the examination a dental student in his last year of school who would otherwise be eligible

for admission to examination and licensing in the state upon completion of his education. (§ 3 art III ch 186 SLA 1955)

Sec. 08.36.160. Contents of examination. The examination shall be clinical and written and of such a character as to test in a satisfactory manner the qualifications of the applicant to practice dentistry. The examination shall consist of the following:

(1) The subjects of the written examination shall be selected in accordance with the trend of dental education as determined by the Council of Dental Education of the American Dental Association.

(2) The applicant shall give demonstration of his skill in operative and the prosthetic dentistry or any procedures as recommended by the American Association of Dental Examiners. (§ 4 art III ch 186 SLA 1955; am § 6 ch 155 SLA 1968)

Sec. 08.36.170. Partial examination. A student at least 19 years of age who has satisfactorily completed regular courses of instruction in dentistry in at least two different school years at an approved dental school, and who is certified by the dean of the college as having satisfactorily completed the subjects included in section I of the examination may take section I of the examination. If the student passes section I and subsequently takes the full examination, the requirements of section I are waived. (§ 5 art III ch 186 SLA 1955)

Sec. 08.36.180. Re-examination. An applicant shall pass each subject of each section of the examination with a score of at least 75 per cent. If an applicant fails in one subject in each section, he may be re-examined in that subject. If an applicant fails in more than one subject in any section, he shall be re-examined in the whole section. If an applicant fails the examination or any section of it on two separate occasions, the board shall refuse to examine him further until he produces evidence satisfactory to the board that he has pursued further study in preparation for the examination. (§ 6 art III ch 186 SLA 1955)

Sec. 08.36.190. Grading of examination. Upon the conclusion of the written examination and as soon as practicable, the papers shall be rated by an examiner. The examiner shall prepare a report in duplicate on each written examination and a report in duplicate on each practical examination. The examiner shall forward one copy of each report on each candidate to the secretary of the board and one copy to the division of occupational licensing. The secretary shall prepare a composite report on each applicant and file one copy of his report with the division of occupational licensing. As soon as practicable the division of occupational licensing shall notify each candidate of the results of the examination. (§ 7 art III ch 186 SLA 1955; am § 2 ch 121 SLA 1972)

Sec. 08.36.200. Waiver of written examination. The board may waive the requirement for written examination for an applicant who holds a certificate from the National Board of Dental Examiners that

he has passed the theoretical or written examination given by the national board. (§ 8(a) art III ch 186 SLA 1955)

Sec. 08.36.210. Waiver of examination by reciprocity. The board may waive the requirement for written examination for a graduate of an approved dental school who has been licensed, and has been in legal and reputable practice of dentistry in a state, territory, district or possession of the United States which has requirements for licensing, and give reciprocal rights, equivalent to those of this state, if the applicant meets the requirements of § 110 of this chapter. (§ 8(b) art III ch 186 SLA 1955; am § 3 ch 121 SLA 1972)

Sec. 08.36.220. Issuance of license by reciprocity. If an applicant having the qualifications contained in §§ 110 and 210 of this chapter has been engaged in the practice of dentistry for a period of five years in the state, territory, district or possession of the United States, immediately preceding his application to practice in the state, the board may license the applicant without examination. (§ 9 art III ch 186 SLA 1955; am § 2 ch 26 SLA 1965; am § 7 ch 155 SLA 1968; am § 4 ch 121 SLA 1972)

Sec. 08.36.230. Practice outside the state. A dentist licensed to practice in this state and residing and practicing dentistry outside of this state, may maintain his eligibility to practice in this state by biennially registering his name and place of residence with the division of occupational licensing. If the dentist fails to register, the board may reinstate his license without examination upon payment of a penalty of $25, payment of all delinquent registration fees, and presentation of proof of active practice at his place of residence, certified by the dental board having jurisdiction at his place of residence, or, if there is no board, by evidence satisfactory to the board. (§ 10 art III ch 186 SLA 1955; am § 5 ch 121 SLA 1972)

Sec. 08.36.240. Issuance of license; recordation; display. The board shall issue a license to each successful applicant who has paid the required fees. The holder of a license shall register it in the office of the clerk of the superior court in the judicial district of his place of residence. The licensee shall display the license in a conspicuous place where he practices. (§ 11 art III ch 186 SLA 1955; am § 6 ch 121 SLA 1972)

Sec. 08.36.244. License to practice as specialist required. No licensed dentist may hold himself out to the public as being especially qualified in a branch of dentistry by announcing through the press, sign, card, letterhead or printed matter, or any means of public advertising, using such terms as "specialist," or inserting the name of the specialty, or using other phrases customarily used by qualified specialists that would imply to the public that he is so qualified, without first securing a specialist's license as provided in this chapter. (§ 8 ch 155 SLA 1968)

Sec. 08.36.246. Qualification for a specialist license. (a) An applicant for a specialty license must

(1) possess a license to practice dentistry in the state, and

(2) have completed two or more academic years of advanced education in the specialty.

(b) The provision of (a) (2) of this section does not apply to dentists who have limited their practice exclusively and who ethically announced limitation of practice in accordance with American Dental Association policy before July 23, 1968. (§ 8 ch 155 SLA 1968)

Sec. 08.36.247. Limitation of special practice. (a) No specialty license may be issued unless the applicant presents proof satisfactory to the board that he is qualified to practice that specialty.

(b) This section may not be construed as limiting or preventing a licensed and qualified dentist from performing, without a specialty license, dental acts or services to the public in any of the branches of dentistry, except that no dentist may administer a general anesthetic to a patient without a valid permit as required by regulations of the dental examiners board. (§ 8 ch 155 SLA 1968)

Sec. 08.36.248. Suspension or revocation of specialty licenses. The board may suspend or revoke a specialty license upon any grounds set out in § 310 of this chapter, and the procedure for suspensions and revocations shall be the same as for the revocation or suspension of a regular license to practice dentistry. (§ 8 ch 155 SLA 1968)

Sec. 08.36.250. Biennial registration. At least 60 days before January 1 of every other year, the division of occupational licensing shall mail a form for biennial registration to each licensed dentist. Each licensee shall complete the form and return it together with the registration fee. The division of occupational licensing shall, as soon as practicable, issue a registration certificate valid for the years for which issued. Each licensee shall keep the registration certificate beside or attached to his license. Failure to receive the registration form does not exempt a dentist from biennial registration. (§ 12 art III ch 186 SLA 1955; am § 9 ch 155 SLA 1968; am § 7 ch 121 SLA 1972)

Sec. 08.36.260. Branch office registration. A licensee who practices in an established office with an address other than that address for which his biennial registration certificate is issued shall obtain a branch office registration certificate for each office. (§ 13 art III ch 186 SLA 1955; am § 10 ch 155 SLA 1968)

Sec. 08.36.270. Permits for isolated areas.

Repealed by § 3 ch 26 SLA 1965; § 5 ch 93 SLA 1965.

Sec. 08.36.271. Permits for isolated areas. (a) The Department of Health and Social Services shall designate as isolated areas those specific places and regions remote from major population centers which

are not served by dentists licensed under this chapter and which have a geographical location which works financial hardship, extended loss of time, or arduous and costly travel upon residents needing dental care.

(b) The board shall, upon recommendation of the Department of Health and Social Services, issue an annual permit authorizing the treatment of residents in an area designated under (a) of this section, who are not entitled to dental care by the state or federal government, by a dentist employed by the United States Public Health Service or qualified member of the armed services who serves in that area. (§ 1 ch 93 SLA 1965; am § 11 ch 155 SLA 1968; am § 6 ch 104 SLA 1971)

Sec. 08.36.280. Temporary permit. (a) The board may issue a one year temporary permit without examination to an applicant to practice dentistry in a locality requested by the applicant if the locality is of the type specified in (2) of this subsection and the applicant

(1) meets the requirements of § 110 of this chapter;

(2) desires to practice dentistry in a city or rural village which does not have a resident licensed dentist in active general practice;

(3) has a license in good standing to practice dentistry in a state, territory, district or possession of the United States;

(4) tenders and pays the fee prescribed in § 290 (6) of this chapter.

(b) The board may authorize a temporary permittee to practice dentistry in more than one city or rural village of the type specified in (a) (2) of this section.

(c) The board may annually renew a temporary permit upon written application of an applicant and upon payment of the prescribed fee if the applicant has not committed an act which is a ground for revocation in § 310 of this chapter, but in any case, within two years from issuance of his first temporary permit, the applicant must pass a board exam.

(d) A temporary permit may be revoked, suspended or annulled, or the permittee may be reprimanded, censured or disciplined by the board in the same manner and for the same cause as a licensed dentist under § 310 of this chapter.

(e) The board shall grant or deny an application for a temporary permit within 60 days after it is received. (§ 15 art III ch 186 SLA 1955; am § 4 ch 26 SLA 1965; am §§ 8, 9 ch 121 SLA 1972)

Sec. 08.36.285. Licensing a permittee.
Repealed by § 10 ch 121 SLA 1972.

Editor's note. — The repealed section derived from § 5, ch. 26, SLA 1965.

Sec. 08.36.290. Fees and penalties. The board shall impose and collect the following fees and penalties:

(1) for the issuance of an original license, $30;

(2) for the examination of an applicant, $50;

(3) for re-examination of an applicant, $50;

(4) for biennial registration, $40;

(5) for each branch office biennial registration, $40;

(6) for a temporary permit, $25;

(7) Repealed by § 7 ch 94 SLA 1968.

(8) for re-instatement as provided in § 230 of this chapter a penalty of $10;

(9) for a specialty license, $30;

(10) for a duplicate license, $10. (§ 16 art III ch 186 SLA 1955; am § 7 ch 94 SLA 1968; am § 12 ch 155 SLA 1968)

For history of taxation of profession of dentistry, see United States v. Dasher, 9 Alaska 719 (1940).

C.J.S. references. — 53 C.J.S. Licenses § 34; 70 C.J.S. Physicians and Surgeons §§ 2 to 4, 6 to 8.

Sec. 08.36.300. Deposit of fees and payment of expenses. Repealed by § 3 ch 59 SLA 1966.

Article 3. Unlawful Acts.

310.	Grounds for revocation of license	330.	Injunction
320.	Order of reprimand, suspension and revocation	340.	Penalties
325.	Limits or conditions on license; discipline		

Sec. 08.36.310. Grounds for revocation of license. A license and registration may be revoked, suspended, or annulled, or the licensee may be reprimanded, censured, or disciplined by the board after hearing when he

(1) secures a license through deceit, fraud, or wilful misrepresentation of a material fact;

(2) is convicted of a crime involving moral turpitude;

(3) has a chronic or persistent inebriety or addiction to habit-forming drugs which renders him incompetent to continue the practice of dentistry;

(4) commits wilful or gross malpractice or wilful or gross neglect in the practice of dentistry;

(5) hires, supervises, permits or aids unlicensed persons to practice dentistry;

(6) is insane or has a contagious or infectious disease making him an improper person to continue in the practice of dentistry;

(7) practices or offers to practice dentistry under a name other than the name in which the license is issued;

(8) uses the name of a company, association, corporation, trade name, dental clinic, or business name in connection with the practice of dentistry;

(9) knowingly practices in the employment of or in association with a person who is practicing in an unlawful manner;

(10) uses an advertising solicitor or free-publicity press agent;

(11) wilfully deceives or attempts to deceive the board with reference to any matter under investigation by it;

(12) advertises professional superiority;

(13) advertises free dental work or free examination;

(14) advertises prices for professional service;

(15) advertises to perform any dental operation painlessly;

(16) advertises by means of a large display, glaring light sign, or sign containing as a part of it the representation of a tooth, bridgework, or any portion of the human head;

(17) advertises by a medium other than the carrying or publishing of a modest professional card or the display of a modest window or street sign at the licensee's office containing the name, address, profession, office hours, telephone number and specialty;

(18). permits the use of his name as a dentist by others in the sale or advertisement of products;

(19) violates a provision of this chapter or a regulation of the board promulgated under authority of this chapter;

(20) advertises as a specialist in any branch of dentistry, unless he devotes a major portion of his practice to that branch;

(21) engages in the practice of fee-splitting;

(22) engages in unprofessional conduct;

(23) obtains a fee by fraud;

(24) directly or indirectly advertises or solicits for dental hygiene business;

(25) advertises as a specialist in a branch of dentistry without first obtaining a specialty license;

(26) fails to report a death that occurred on premises used for the practice of dentistry to the office of the secretary-treasurer of the board within 72 hours;

(27) administers a general anesthetic without a valid permit required by regulations of the dental board. (§ 1 art IV ch 186 SLA 1955; am §§ 13—15 ch 155 SLA 1968)

Cross reference. — As to malpractice actions, see AS 09.55.530—09.55.560.

Revocability of license for fraud or other misconduct before or at the time of its issuance, 165 ALR 1138.

Admissibility and necessity of expert evidence in proceeding for revocation of license, 6 ALR2d 675.

Sec. 08.36.320. Order of reprimand, suspension and revocation. The board may, by a majority vote, evidenced by the signatures of the members on the order, reprimand a licensee or revoke or suspend a license. (§ 5 art IV ch 186 SLA 1955)

Sec. 08.36.325. Limits or conditions on license; discipline. (a) In addition to actions under §§ 310 and 320 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education, or health, the authority to practice dentistry should be limited or conditioned or the practitioner disciplined, the board may censure, place on probation, restrict practice by specialty, procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action take by the board under this section. (§ 10 ch 102 SLA 1976)

Sec. 08.36.330. Injunction. The board may sue in its own name in a competent court to enjoin any person from doing an act consituting a violation of this chapter. (§ 7 art IV ch 186 SLA 1955)

Sec. 08.36.340. Penalties. A person who violates any provision of this chapter for which no specific penalty is provided, is guilty of a misdemeanor and is punishable by a fine of not more than $500, or by imprisonment for not more than six months, or by both. (§ 8 art IV ch 186 SLA 1955)

Article 4. General Provisions.

Section

350. Application of chapter
360. Practice of dentistry defined

Sec. 08.36.350. Application of chapter. This chapter applies to a person who practices, offers or attempts to practice dentistry in the state except

(1) dental surgeons or dentists in the military service in the discharge of official duties;

(2) licensed dental hygienists in the performance of duties authorized by law;

(3) dentists in the employ of the United States Public Health Service, United States Veterans' Administration, Alaska Native Service, or Department of Health and Social Services, in the discharge of official duties;

(4) clinicians demonstrating at meetings of dentists approved by the board;

(5) physicians and surgeons;

(6) dentists in the employ of the United States Public Health Service providing care by authority of a permit issued under § 271 of this chapter. (§ 2 art I ch 186 SLA 1955; am § 2 ch 93 SLA 1965; am § 6 ch 104 SLA 1971)

Sec. 08.36.360. Practice of dentistry defined. A person engages in the practice of dentistry who

(1) performs or holds himself out to the public as being able to perform dental operations;

(2) diagnoses, treats, operates on, corrects or attempts to correct, or prescribes for, a disease, lesion, pain, injury, deficiency, deformity, or physical condition, malocclusion or malposition of the human teeth, alveolar process, gums or jaws and adjacent tissues;

(3) performs or attempts to perform an operation incident to the replacement of teeth;

(4) furnishes, supplies, constructs, reproduces, or repairs prosthetic dentures, bridges, appliances or other structures to be used and worn as substitutes for natural teeth, except on prescription of a duly licensed and registered dentist and by the use of impressions or casts made by a duly licensed and registered dentist;

(5) uses the word "dentist" or "dental surgeon" or the letters D.D.S. or D.M.D. or other letter or title which represents him as engaging in the practice of dentistry;

(6) extracts or attempts to extract human teeth;

(7) owns, manages or operates a place where the acts and things described in this section are performed or done. (§ 1 art I ch 186 SLA 1955)

CHAPTER 28.
BOARD OF DENTAL EXAMINERS

Article
1. Administering of Anesthetic Agent
2. Clinical Examination for Licensure

ARTICLE 1.
ADMINISTERING OF ANESTHETIC AGENT

Section
10. Permit requirements
20. Operative procedure
30. Other than permit holders
40. Written consent
50. Medical history
60. Requirements for administering general anesthetic
70. Suspension or revocation of permit
80. Filing report
90. Definition

12 AAC 28.010. PERMIT REQUIREMENTS. The Alaska Board of Dental Examiners shall issue a permit to a dentist licensed in Alaska for the administration of an anesthetic agent or agents for the purpose of inducing general anesthetic if the applicant offers certified proof that he

(1) is a diplomate of the American Board of Oral Surgery; or

(2) is a member of the American Society of Oral Surgery; or

(3) has fulfilled not less than 36 months of oral surgery advanced education approved by the Council on Dental Education of the American Dental Association; or

(4) is a certified member of an American Dental Association Specialty Board and meets the minimum requirement in anesthesiology as recommended by the American Board of Oral Surgery; or

(5) has completed a minimum of one year of advanced training in anesthesiology in an accredited program beyond the undergraduate dental school level. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)
AS 08.36.247(b)

12 AAC 28.020. OPERATIVE PROCEDURE. A dentist administering a general anesthetic may not perform any operative procedures for the duration of the anesthesia. "Operative procedure" means surgical or restorative manipulations in or about the oral cavity. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)

12 AAC 28.030. OTHER THAN PERMIT HOLDERS. In addition to a dentist holding a valid permit for the administration of an anesthetic agent or agents for the purpose of inducing general anesthesia, as provided in sec. 10 of this chapter, the following persons may administer an anesthetic agent:

(1) a registered nurse certified by the Association of Nurse Anesthetists who while in a dental office administers the anesthetic agent under the direct supervision of a dentist holding a valid permit under sec. 10 of this chapter;

(2) a board-eligible anesthesiologist who while in a dental office administers the anesthetic agent while under the direct supervision of a dentist holding a valid permit under sec. 10 of this chapter;

(3) a dentist who administers an anesthetic agent under the direct supervision of a medical doctor in a licensed hospital even though the dentist does not have a valid permit to do so under sec. 10 of this chapter. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)
AS 08.36.247(b)

12 AAC 28.040. WRITTEN CONSENT. Written consent of the patient shall be obtained prior to the administration of a general anesthetic. In the case of a minor, the consent shall be obtained from his parent or legal guardian. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)

12 AAC 28.050. MEDICAL HISTORY. (a) A medical history shall be taken before the administration of a general anesthetic. Patients should be asked to describe any current treatments, including drugs, impending operations, and pregnancies and to give other information that may be helpful to the person administering the anesthetic agent. The dentist is

not required to make a medical examination of the patient and draw medical diagnostic conclusions; therefore, if the dentist suspects a problem and calls in a physician for an examination and evaluation, he may then rely upon that conclusion and the diagnosis.

(b) Questions asked of and answers received from the patient shall be permanently recorded and signed by the patient before the administration of any general anesthetic and this record shall become a permanent part of the patient's treatment record. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)

12 AAC 28.060. REQUIREMENTS FOR ADMINISTERING GENERAL ANESTHETIC. A holder of a permit to administer a general anesthetic for the purpose of inducing surgical anesthesia shall

(1) obtain and maintain an adequate airway for the patient;

(2) use an oxygen machine and have it available for maintaining the ventilation of the lungs;

(3) have the knowledge of and be able to skillfully place needles into veins for the administration of drugs; and

(4) maintain in his office at all times appropriate drugs and medicines for emergencies. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)
AS 08.36.247(b)

12 AAC 28.070. SUSPENSION OR REVOCATION OF PERMIT. A permit to administer a general anesthetic for the purpose of inducing surgical anesthesia shall automatically become revoked upon the suspension or revocation of the holder's license to practice dentistry in the state. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)
AS 08.36.320

12 AAC 28.080. FILING REPORT. In reporting a death as required under AS 08.36.310(26), each member of the anesthesia team that administered the anesthetic agent or agents, shall file an individual report which includes his individual findings. Within two weeks of the receipt of these reports by the board, the board will review them and make a determination in writing as to whether further investigation by the board should be made. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)
AS 08.36.310(26)

12 AAC 28.090. DEFINITION. "General anesthesia" means surgical or the third stage of anesthesia. The use of an anesthetic agent for introduction of analgesia (first state) or amnesia is not to be construed as the practice or use of general anesthesia. (Eff. 4/10/70, Reg. 34)

Authority: AS 08.36.070(7)

STATE OF ALASKA
Board of Dispensing Opticians
(August, 1978)

Findings

Dissolution of the Board of Dispensing Opticians and subsequent governmental deregulation of this profession would have little if any adverse impact on the physical health of the general public. Information obtained in the process of this review indicated that the potential for visual damage to the consumer by a licensed or unlicensed practitioner is minimal to non-existent except under the most extreme and ungovernable circumstances. Additionally, Board and regulatory control which results in endorsement of monopolistic practices only serves to promote the profession by restricting services that have assumed the sanction of government licensing. In accordance with the Sunset criteria, it is recommended that the Board of Dispensing Opticians and State support in regulation and licensing of this profession be allowed to terminate on June 30, 1979.

I. General Information

A. Regulated Parties

1. Dispensing opticians
2. Apprentice dispensing opticians

B. Statutory Definition of Regulated Profession

"(3) 'dispensing optician' means a person who prepares duplications of or prepares and dispenses lenses, spectacles, eyeglasses, artificial eyes, and their appurtenances, to the intended wearers of them on written prescriptions from physicians or optometrists; and in accordance with those prescriptions, measures, adapts, adjusts and fabricates lenses, spectacles, eyeglasses, artificial eyes, and their appurtenances, to the human face for the aid or correction of visual or ocular anomalies of the human eye." (AS 08.71.240)

A dispensing optician's apprentice shall be in training and under direct supervision for a period not to exceed six years (unless mitigating circumstances occur). A licensed dispensing optician may have no more than two apprentices under his/her supervision at the same time.

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

Philip A. Lampert (Chairman)	Ends June 14, 1979
George Tresnak	Ends June 14, 1979
Dick Kleinkopf	Ends June 14, 1978
Edna M. Lyon	Ends June 14, 1978
John W. Greiff	Ends June 14, 1977
Robert Sherwood	Ends June 14, 1980
Harry J. Lang	Ends June 14, 1979

2. Representation:

Profession	=	5
Public	=	2

3. Qualifications:

"Five board members shall be licensed, practicing dispensing opticians residing in the state. Two shall be persons with no direct financial interest in the health care industry." (AS 08.71.030)

1977	6	0	0
1978 (through August 31)	1	10	0

Pending: 1

Most complaints involving dispensing opticians related to nondisplay of licenses and charges by the public of defective workmanship. Five complaints were received from the public at large. None were found to be statutory violations and all but one has been closed as of this writing. None alleged physical harm or danger to the consumer.

H. Qualifications

Training for this profession usually consists of "on-the-job" or apprenticeship training, which lasts for approximately four to five years depending on experience gained and on individual ability. Formal institutional training is becoming more common and programs are offered through several vocational schools. High school graduation is usually a prerequisite for apprenticeship.

II. Criteria and Analysis

A. To what extent has the Board of Dispensing Opticians operated in the public interest?

The stated functions of the Board include assuring professional competency, governing the practice of opticianry and preventing conduct which would tend to harm the public's "visual health." Information obtained through discussions with several optometrists and dispensing opticians indicated that while visual damage to an individual by a dispensing optician may be possible in some extreme cases, it is highly unlikely. The consumer may become nauseated or perhaps have a headache but will usually be able to recognize that something is wrong. Further by statutory safeguard, a prescription calling for fitting of contact lenses must also require that the patient return to see the prescibing physician or optometrist as a check on the work done. Optometrists and ophthalmologists may also dispense, and may employ any person under their supervision, without State regulation or licensure, to dispense. It was noted that 39 out of

the 40 licensed in-State dispensing opticians practice in, or in the immediate vicinity of, Anchorage and Fairbanks. One individual licentiate is located in Homer. (See Figure 1) It must be assumed that the remainder of the State is serviced by an ophthalmologist, an optometrist, a traveling clinic or by mail. This type of geographic concentration must be questioned in analyzing "public" interest in relation to regulation by an agency funded Statewide.

Through regulations and by statutory directive the Board has established continuing education requirements designed to help assure continuing competency. Biennial relicensure is contingent on compliance with those requirements. If, however, it is improbable that incompetence could result in visual damage to the public, these regulations may be considered superfluous. Concurrently, examinations which test competency of candidates for licensure would not be valid measurements of public protection.

Other factors exist which contributed to the recommendation for termination of regulation and the Board. Less than half of the states regulate and license dispensing opticians; Alaska does not have a reciprocal agreement with any although this is provided by statute. There are more members of the Board than there were individuals licensed to practice in any one of the last three years. Six licenses were issued in 1975 and in 1977, four in 1976 and none through August of 1978. Additionally, none of the complaints received regarding this profession were determined to be statutory violations and none involved physical harm or damage to a member of the public.

All of the preceding factors indicate that State regulation and licensing of this profession is inappropriate and does not serve to protect the public interest in terms of health, safety or welfare. There can be no justification for regulation in the absence of potential harm or danger to public health, safety, or welfare.

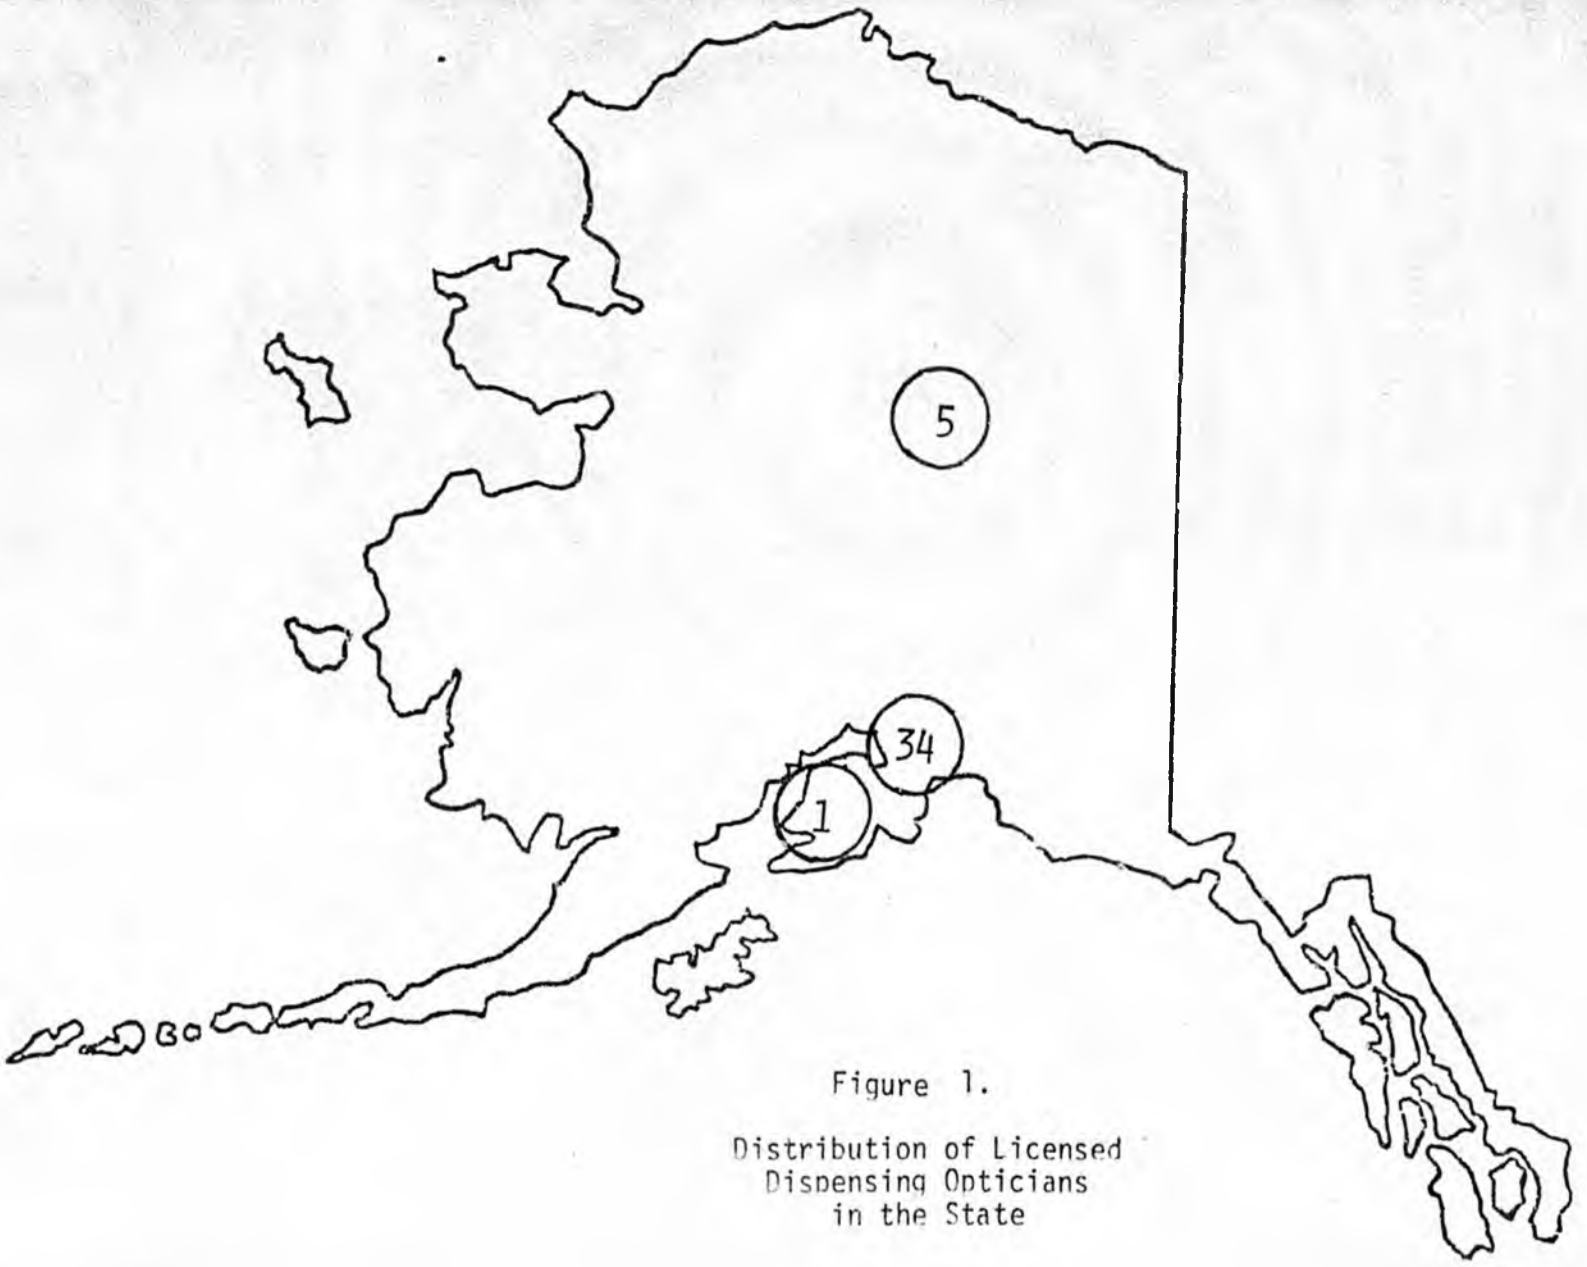

Figure 1.

Distribution of Licensed
Dispensing Opticians
in the State

The Opticians Association of Alaska is headquartered in Anchorage and claims most licensed dispensing opticians in its membership. Association membership also includes unlicensed dispensers who are supervised by an ophthalmologist or optometrist. The major function of the Association is educational, to disseminate updated professional information. The Association may receive complaints regarding the profession for referral to the Board of Dispensing Opticians and encompasses a type of peer review process. In the event of governmental deregulation, the association membership could certainly expand its scope to accomplish self-regulation consistent with desirable professional standards as determined by a broader base of practitioners.

If continued regulation and licensing of this profession is determined to be beneficial and in the public interest, it is recommended that these functions be vested with the administrative agency. Practical examinations, now given once each year, may be proctored by licensed dispensing opticians selected specifically for that purpose or may be eliminated. All support services including administration of a written examination may be provided by the administrative agency and licenses issued by it as authorized by exam results and compliance with statutory qualifications. Should the Board of Dispensing Opticians be reestablished, recommendations are made throughout the body of this report that are based on that premise.

B. To what extent has the operation of the Board of Dispensing Opticians been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

This Board has no statutory or regulatory provisions which would allow issuance of a temporary permit to an otherwise qualified applicant pending examination. It may also happen that an applicant has failed only the practical portion of the examination and must wait another year

before being reexamined. If this Board is reestablished, it should be given the authority to promulgate and adopt regulations by which it may issue a temporary permit pending examination or reexamination of the practical portion, one time only. It should also consider provisions for practical reexamination of a candidate, within a prescribed period of time, by two licensed Board members, at the discretion of the Board. Temporary permits thus issued would become invalid at the time of examination or reexamination and would not be renewed if an applicant failed a specially scheduled practical portion a second time. Due to the low number of candidates for examinations, an increase in routine scheduling is not recommended.

AS 08.71.150 allows reciprocity between states with equivalent requirements. Only two states were reviewed to this end in 1974 and 1975, prior to utilization of a national written examination. Alaska does not have reciprocity in this profession with any other state and no overtures have been made by the Board since 1975 to open this avenue of entry into practice. A review of reciprocity provisions indicates that such requirements restrict interstate entry into professions. Only applicants from states with which agreements have been established may be admitted without examination regardless of their qualifications. Endorsement allows licensure of those individuals licensed elsewhere whose qualifications are substantially similar to those in Alaska at a given time, independently of formal interstate concurrence. Endorsement provisions are felt to be more in keeping with the principle of licensing qualified applicants and with providing services of practitioners. It is recommended that statutory changes be made to allow for licensure by endorsement rather than reciprocity. If this is not done, the question of reciprocity should be thoroughly addressed by the Board. In that a national written examination is now being utilized, other states may be more receptive to such an agreement. If they are not, qualifications and policies may need to be reviewed or revised for validity and to facilitate entry into the profession in this manner.

The Board also should adopt specific regulations for practice and supervision of apprentice dispensing opticians. Much concern has been expressed by members of the profession and the Board regarding "adequate supervision" but this concept has not been defined as a regulation or policy.

The statutes provide for seven Board members; it is noted that there are more members of this Board than there were individuals initially licensed to practice with or without examination in any of the last three years. If the Board of Dispensing Opticians is continued, it is recommended that membership be reduced from seven to five individuals, three of whom should be licensed practicing dispensing opticians and two of whom should be lay persons. This membership could adequately regulate the profession with the support services provided by the administrative agency. Members should not serve consecutive terms unless appointed initially to an unexpired term, but may be reappointed following a term of absence.

The Board of Dispensing Opticians has experienced little difficulty in its administrative operations with respect to personnel or budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs. All fees and revenues are collected through the Division and are deposited into the general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes.

Improved procedures are being developed within the administrative agency pertaining to organization of records, forms and examination information which will better enable the Board to perform its functions.

The Board of Dispensing Opticians has experienced the same difficulties as have all other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency.

During the past year, two investigator positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Ajudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time and nature of alleged offense mandates that only the most flagrant and potentially injurious licensing complaints are pursued.

C. To what extent has the Board of Dispensing Opticians recommended statutory changes which are generally of benefit to the public interest?

Recent statutory changes with respect to the Board of Dispensing Opticians concerned: (1) Board membership, appointment and term of office; (2) addition of lay persons to membership; (3) Medical Indemnity requirements; (4) disciplinary matters, and (5) applicability of the Administrative Procedure Act to the Board and the licentiates.

The Board itself has recommended no statutory changes since its creation in 1973 that would be of direct benefit to the public.

D. To what extent has the Board of Dispensing Opticians encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

Very little public interest in the activities of the Board has been shown in the form of attendance at Board meetings, hearings, or as written input. Public concern, if any, is probably expressed by individuals with particular problems directly approaching Board members. Notices of pending meetings and new or changing regulations are published in major newspapers in the State.

The Board has not taken any overt action to solicit general public response to its quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Public interests are furthered by the existence of public members in professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[1]

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Dispensing Opticians processed and resolved?

No complaints were received which were specifically directed at individual members of the Board. No complaints were received by the Office of the Ombudsman against the Board or members of this profession.

For the period from January, 1975 through August, 1978 fourteen complaints were logged by the administrative agency which concerned this profession. None of these were found to be statutory violations and none alleged physical damage or danger to an individual. Until recently, there has been a considerable time lag between receipt of a complaint and its resolution, however, due to lack of validity or jurisdiction, ten cases were closed within the month of August, 1978. Investigative services to all boards and commissions under the jurisdiction of the administrative agency are expected to improve.

---

[1]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

F. To what extent does the Board of Dispensing Opticians present qualified applicants to serve the public?

Applicants for licensure are not sponsored by the Board of Dispensing Opticians but apprentices preparing for licensure may very well be serving under and trained by a Board member. Preparation for a career in dispensing opticianry, unlike in other health related fields, can be accomplished within the State of Alaska by serving a specific apprenticeship. Individuals wishing to practice within the State must submit fees and application to the administrative agency with documentation of qualifications. One examination each year is currently given. Applicants who demonstrate the required level of knowledge and proficiency are issued a license.

Board policies which would allow issuance of temporary permits and which would allow for special reexamination of the practical portion of the test as previously cited, and overt efforts to establish endorsement provisions or reciprocal agreements wherever possible, would increase the opportunity for licensure of practitioners within the State.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Dispensing Opticians in its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for three other boards), who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

The Board of Dispensing Opticians issues licenses on the basis of specific eduation and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Dispensing Opticians to better serve the interests of the public.

In view of the functions of this Board and the relatively few professional members that are regulated (45), it is felt that present statutes are generally adequate with the exception of the number of members that serve on the Board. If the Board of Dispensing Opticians is continued, membership should be reduced to three professional members and two lay members.

Regulations need to be adopted which specifically outline supervision and practice of the dispensing optician's apprentice. Provisions for the issuance of temporary permits on an individual basis and at Board discretion should be authorized, formulated and adopted.

The Board should introduce legislation which would allow for licensure by endorsement. If unsuccessful, it should take positive and overt steps toward establishing reciprocal relationships with other states wherever possible.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are simply not adequate to cover transportation and per diem for meetings and examinations, and the Division of Occupational Licensing administrative overhead, such as staff salary, examination expenses and investigative services.

III. Conclusion

The regulatory functions of the Board of Dispensing Opticians and administration of those functions by the Department of Commerce and Economic Development are not determined to be justified in terms of protection of public health, safety and welfare.

IV. Summary of Recommendations

A. The Board of Dispensing Opticians, and State regulation of the profession, should be allowed to terminate on June 30, 1979.

B. In the event that State regulation is determined to be justified, the Board should terminate and the functions of examining and licensing members of this profession should be vested within the administrative agency. Two dispensing opticians may be selected to proctor a practical examination, if necessary, and support services (including administration of the written national examination) could be provided by the adminstrative agency.

C. If the Board of Dispensing Opticians is continued, the following recommendations are made:

1. The Board should adopt regulations which would allow for the issuance of temporary permits on an individual basis and at the discretion of the Board. This would allow an otherwise qualified person to practice pending examination and should be invalidated at the time the next scheduled examination results are final. (See discussion on p. 8)

2. The Board should consider regulations which would allow for reexamination of a candidate who has failed only the practical portion of the test, within a prescribed time period, by two or three licensed Board members, at the discretion of the Board. There is no requirement that all Board members be present at an examination. The practical portion is generally not more than 1/2 hour in length and private facilities may be available within the

profession. An applicant who has failed only the practical portion of the examination need not wait another full year under this system. (See discussion on p. 8)

3. The Board should adopt regulations which specifically outline grading and scoring procedures for the practical examination. While this has been agreed on in the past among Board members, written procedures would help to eliminate potential inconsistencies or allegations of arbitrary grading.

4. Statutory changes should be made which allow for licensure by endorsement rather than reciprocity. If this is not done, the Board should explore the possibility of reciprocal agreements with other states. If Alaska's qualifications are substantially different from those of other states (less than half licensed dispensing opticians), they should then be reviewed for validity and appropriate recommendations made. (See discussion on p. 9)

5. The Board should adopt regulations governing the practice of apprentice dispensing opticians and defining the scope of supervision desirable and necessary for apprenticeship. (See discussion on p. 10)

6. Board composition should be reduced to three professional members and two lay members. Members should not serve consecutive terms unless appointed initially to an unexpired term, but may be reappointed following a three-year term of absence. (See discussion on p. 10)

Chapter 71. Dispensing Opticians.

Article
1. Board of Dispensing Opticians (§§ 08.71.010 — 08.71.070)
2. Licensing (§§ 08.71.080 — 08.71.160)
3. Unlawful Acts (§§ 08.71.170 — 08.71.180)
4. Miscellaneous Provisions (§ 08.71.200)
5. General Provisions (§§ 08.71.220 — 08.71.240)

Article 1. Board of Dispensing Opticians.

Section
10. Creation of board
20. Membership of board; source of appointments; term of office
30. Qualifications of board members
40. Election of officers
50. Board regulations
60. Record of proceedings
70. Applicability of Administrative Procedure Act

Sec. 08.71.010. Creation of board. There is created the Board of Dispensing Opticians. (§ 1 ch 45 SLA 1973)

Sec. 08.71.020. Membership of board; source of appointments; term of office. The board consists of seven persons appointed by the governor. Members serve staggered terms of three years. The terms of the public members of the board shall be set so that they do not expire at the same time. Vacancies on the board shall be filled for the unexpired term. (§ 1 ch 45 SLA 1973; am § 19 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment rewrote this section.

Sec. 08.71.030. Qualifications of board members. Five board members shall be licensed, practicing dispensing opticians residing in the state. Two shall be persons with no direct financial interest in the health care industry. (§ 1 ch 45 SLA 1973; am § 20 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "Five board members" for "A board member" at the beginning of the first sentence, and deleted "a" preceding "licensed" and substituted "opticians" for "optician" in that sentence, and added the second sentence.

Sec. 08.71.040. Election of officers. The board shall elect a chairman and secretary from among its members. The officers may administer oaths. (§ 1 ch 45 SLA 1973)

Sec. 08.71.050. Board regulations. The board may adopt regulations:

(1) necessary or advisable to carry out the provisions of this chapter and which help to assure the competency of dispensing opticians and prevent conduct on their part which would tend to do harm to the visual health of the public;

(2) governing the practice of dispensing opticians;

(3) specifying the subject matter to be covered in examinations for dispensing opticians. (§ 1 ch 45 SLA 1973)

Sec. 08.71.060. Record of proceedings. The secretary shall keep a record of all proceedings, including the name of each applicant for examination and licensing. These records shall be open for public inspection. (§ 1 ch 45 SLA 1973)

Sec. 08.71.070. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62). (§ 1 ch 45 SLA 1973)

Article 2. Licensing.

Section		Section	
80.	License required	120.	Fees
85.	Malpractice insurance	130.	Renewal of license
90.	Content of examination	140.	Display of license
100.	Administration of examination	150.	Issuance of license by reciprocity
110.	Qualifications of applicants for examination	160.	Dispensing optician's apprentice

Sec. 08.71.080. License required. No person may act as a dispensing optician in the state unless he is licensed under this chapter. In order to be licensed under this chapter, a person shall pass an examination given by the board, unless he is eligible for licensing without examination under § 150 of this chapter. A license shall be issued for (1) the dispensing of contact lenses, or (2) the dispensing of other lenses, eyeglasses, spectacles, artificial eyes, and their appurtenances, or (3) both. The board shall by endorsement on the license designate for which aspect of dispensing opticianry the license is issued. The board shall license successful examinees. (§ 1 ch 45 SLA 1973; am § 14 ch 127 SLA 1974)

Effect of amendment. — The 1974 amendment added "unless he is eligible for licensing without examination under § 150 of this chapter" to the end of the first sentence.

Legislative committee report. — For report on ch. 127, SLA 1974 (SCSHB 817 am S), see 1974 House Journal, p. 657.

Sec. 08.71.085. Malpractice insurance. If medical malpractice insurance for opticians becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of optician services to the public, the director of insurance may require all persons licensed under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of licensure under this chapter. The provisions of this section are satisfied if the licensee's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 21 ch 102 SLA 1976)

Sec. 08.71.090. Content of examination. To be licensed as a dispensing optician a person, unless eligible for licensing without examination under § 150 of this chapter, shall pass an examination given by the board. At the discretion of the board, the examination may test orally, in writing, or otherwise, knowledge and skills in any or all of the following subjects: optics, anatomy, laboratory technology, ophthalmic dispensing, contact lens technology, technical mathematics and physics, and business concepts of optical dispensing. (§ 1 ch 45 SLA 1973; am § 15 ch 127 SLA 1974)

Effect of amendment. — The 1974 amendment inserted "unless eligible for licensing without examination under § 150 of this chapter" in the first sentence.

Legislative committee report. — For report on ch. 127, SLA 1974 (SCSHB 817 am S), see 1974 House Journal, p. 657.

Sec. 08.71.100. Administration of examination. The board shall offer an examination at least once a year. Examinations shall be administered so that one who grades the written part of the examination does not know whose paper he is grading. (§ 1 ch 45 SLA 1973)

Sec. 08.71.110. Qualifications of applicants for examination. A person is entitled to take the examination who

(1) has either

(A) completed at least 6,000 hours of training as an apprentice, or

(B) been engaged for at least 10,000 hours as a practicing optician in good standing in a state, territory, district or possession of the United States; and

(2) has paid the required examination fee. (§ 1 ch 45 SLA 1973)

Sec. 08.71.120. Fees. The following fees shall be imposed under this chapter when applicable:

(1) examination fee	$50
(2) initial dispensing optician license fee	50
(3) biennial renewal fee	50

(§ 1 ch 45 SLA 1973)

Sec. 08.71.130. Renewal of license. (a) A licensed dispensing optician shall renew his license biennially with the Department of Commerce on or before the date set by the department under AS 08.01.100.

(b) If the license is not renewed on or before that date, if shall lapse. A penalty of $10 shall be charged, in addition to all delinquent fees, for the reinstatement of a license which remains lapsed for more than 60 days.

(c) If the license remains lapsed for more than one year, the board may require the applicant to be examined under § 90 of this chapter.

(d) Before a license may be renewed the licensee shall submit to the board evidence of 15 hours of continuing competence in optical dispensing as prescribed by regulations of the board. (§ 1 ch 45 SLA 1973)

Sec. 08.71.140. Display of license. A licensed dispensing optician shall conspicuously display his license in his place of business. (§ 1 ch 45 SLA 1973)

Sec. 08.71.150. Issuance of license by reciprocity. An applicant who has been licensed and has been practicing as a dispensing optician in a state, territory, district or possession of the United States which has requirements for licensing and gives reciprocal rights equivalent to those of this state, and who otherwise meets the requirements of § 110 of this chapter, shall be licensed by the board without examination. (§ 1 ch 45 SLA 1973)

Sec. 08.71.160. Dispensing optician's apprentice. (a) A person may be employed by a licensed dispensing optician as an apprentice. An apprentice shall be designated as such in the records of the board at the request of a licensed physician, optometrist or dispensing optician and shall be in training and under the direct supervision of a licensed physician, optometrist or dispensing optician. No apprentice may be employed under this section for longer than six years unless the board determines that an apprentice is prevented by circumstances beyond his control from obtaining a license as a dispensing optician within that time.

(b) No more than two apprentices may be under the direct supervision of one licensed dispensing optician at the same time. (§ 1 ch 45 SLA 1973)

Article 3. Unlawful Acts.

Section

170. Grounds for revocation, suspension or denial of license
175. Limits or conditions on license; discipline
180. Practicing without a license

Sec. 08.71.170. Grounds for revocation, suspension or denial of license. The board, after compliance with the Administrative Procedure Act (AS 44.62), may revoke, suspend or deny the license of a person who

(1) has been convicted of a felony involving moral turpitude;

(2) is addicted to the use of alcohol or any other drug;

(3) has used advertising, whether printed, radio, display, or of any other nature, which is fraudulent, misleading or inaccurate in any material particular, or misrepresents in any way goods, services or credit terms, values, policies, services or the nature or form of the business conducted;

(4) has practiced fraud or deception in his application for or in his examination for a license;

(5) has used the word "licensed", "registered", or any of their synonyms publicly, except as provided in § 140 of this chapter;

(6) has displayed or published directly or indirectly by any means, a price, terms of payment, or a discount, or a policy or practice of generally underselling competitors, or any reference to the benefits available to the subscribers to any prepaid health plan;

(7) has participated in the division, assignment, rebate or refund of fees to a physician or optometrist in consideration of patient referrals;

(8) has bartered or given away as premiums in any manner either on his own account or as agent or representative for another person, firm or corporation, any eyeglasses, spectacles, lenses or frames;

(9) has advertised the "free examinations of eyes", "free consultation", "consultation without obligation", "free advice", or any words or phrases of similar import which convey the impression to the public that eyes are examined free or are of a character tending to deceive or mislead the public, or are in the nature of "bait advertising";

(10) has employed either directly or indirectly any person commonly known as a "capper" or a "steerer" to obtain business;

(11) has solicited or employed any person to solicit from house to house;

(12) has used advertising offering a service to the public for which he is not licensed under this chapter; however, nothing in this section prohibits the optician from advertising merchandise for which the license which is the subject of this chapter is not required;

(13) has engaged in a group contract for the duplication of eyeglasses or spectacles without a written prescription from an optometrist or physician; or

(14) has advertised the services of any other segment of the healing arts. (§ 1 ch 45 SLA 1973)

Sec. 08.71.175. Limits or conditions on license; discipline. (a) In addition to action under § 170 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education, or health the authority to practice as a dispensing optician under this chapter should be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 21 ch 102 SLA 1976)

Sec. 08.71.180. Practicing without a license. It is unlawful for a person to practice as a dispensing optician without a license issued under this chapter or while his license is suspended or revoked. A person who violates this section is guility of a misdemeanor. (§ 1 ch 45 SLA 1973)

Article 4. Miscellaneous Provisions.

Section

200. Contact lenses

Sec. 08.71.200. Contact lenses. Contact lenses shall be fitted in conjunction with and under the supervision of a licensed physician or an optometrist and with a written contact-lens prescription showing that the prescription may be filled for contact lenses and requiring that the patient return to see the prescribing physician or optometrist. In no case may contact lenses be prepared by neutralizing a person's eyeglasses or spectacles. (§ 1 ch 45 SLA 1973)

Revisor's note (1973).—In ch. 45, SLA 1973, this section appeared as part of what was designated there as AS 08.71.210(3) (now AS 08.71.240(3)).

Article 5. General Provisions.

Section

220. Persons practicing as dispensing opticians before July 1, 1973

230. Exemptions from and limitations on the application of this chapter

Section

240. Definitions

Revisor's note (1973).—In ch. 45, SLA 1973, this article appeared as Article 4, and AS 08.71.220—08.71.240 appeared as AS 08.71.190—08.71.210.

Sec. 08.71.220. Persons practicing as dispensing opticians before July 1, 1973. (a) Within 60 days after July 1, 1973, a person who has been engaged in practice in Alaska as a dispensing optician for a period of at least six months immediately preceding July 1, 1973 shall be issued a license without examination upon the payment of a fee of $50 and a certification to the board under oath that he is of good moral character and that

(1) he has been engaged as a dispensing optician for not less than 3,000 hours; or

(2) he has been engaged as a dispensing optician in contact lens fitting for not less than 6 000 hours.

(b) If a person qualifies for a license under (a) (1) or (2) of this section, the board shall by endorsement on the license designate for which aspect of dispensing opticianry the license is issued. If a person qualifies for a license under (a) (1) and (2) of this section, the board shall by endorsement on the license so designate.

(c) Within eight months after July 1, 1973, a person who has been engaged in practice in Alaska as a dispensing optician for a period of at least six months immediately preceding July 1, 1973 but who is not otherwise qualified for licensing under (a) (1) or (2) of this section may take the examination required under § 90 of this chapter. A person who has not been engaged in practice in Alaska as a dispensing optician for a period of at least six months immediately preceding July 1, 1973 must qualify to take the examination under § 110 of this chapter. (§ 1 ch 45 SLA 1973)

Sec. 08.71.230. Exemptions from and limitations on the application of this chapter. This chapter may not be construed to

(1) limit or restrict a licensed physician or optometrist or employees working under the personal supervision of a licensed physician or optometrist from the practices enumerated in this chapter, and each licensed physician and optometrist has all the rights and privileges which may accrue under this chapter to dispensing opticians licensed under it;

(2) prohibit an unlicensed person from performing mechanical work upon inert matter in an optical office, laboratory or shop;

(3) prohibit an unlicensed person from engaging in the sale of eyeglasses, spectacles, magnifying glasses, goggles, sunglasses, telescopes, binoculars, or any like articles which are completely preassembled and sold only as merchandise;

(4) authorize or permit a licensee under this chapter to hold himself out as being able to, or to offer to, or to attempt by any means, to refract or exercise eyes, diagnose, treat, correct, relieve, operate or prescribe for any human ailment, deficiency, deformity, disease or injury. (§ 1 ch 45 SLA 1973)

Sec. 08.71.240. Definitions. In this chapter

(1) "board" means the Board of Dispensing Opticians;

(2) "department" means the Department of Commerce and Economic Development;

(3) "dispensing optician" means a person who prepares duplications of or prepares and dispenses lenses, spectacles, eyeglasses, artificial eyes, and their appurtenances, to the intended wearers of them on written prescriptions from physicians or optometrists; and in accordance with those prescriptions, measures, adapts, adjusts and fabricates lenses, spectacles, eyeglasses, artificial eyes, and their appurtenances, to the human face for the aid or correction of visual or ocular anomalies of the human eye. (§ 1 ch 45 SLA 1973; am § 52 ch 218 SLA 1976)

Revisor's note (1973).—In ch. 45, SLA 1973, paragraph (3) of this section included what is now AS 08.71.200.

Effect of amendment. — The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (2).

CHAPTER 30.
BOARD OF DISPENSING OPTICIANS

Article
1. Continuing Competence

ARTICLE 1.
CONTINUING COMPETENCE

Section
10. Definition of "continuing competence"
20. Evidence of continuing competence
30. Date of continuing competence
40. Field in which continuing competence is obtained
50. Continuing competence required for renewal of initial license

12 AAC 30.010. DEFINITION OF "CONTINUING COMPETENCE." For the purpose of AS 08.71.130(d) and this chapter, "continuing competence" means

(1) attendance at a seminar or course conducted by

(A) the Opticians Association of America;

(B) the Contact Lens Society;

(C) the American Optometric Association;

(D) the Academy of Ophthalmology;

(E) the Optical Wholesalers Association;

(F) the Opticians Association of Alaska, Incorporated; or

(G) other recognized professional organizations in the field of opticianry;

(2) satisfactory completion of a course conducted by a recognized school of opticianry;

(3) attendance at an exhibit conducted for the optical public; or

(4) individual instruction by a licensed ophthalmologist, optometrist, dispensing optician or optical manufacturer outside of the normal work situation. (Eff. 6/23/78, Reg. 66)

Authority: AS 08.71.050(1)
AS 08.71.130(d)

12 AAC 30.020. EVIDENCE OF CONTINUING COMPETENCE. (a) Evidence of continuing competence is

(1) a seminar or course program indicating the sponsor and signed by the instructor;

(2) the original or a copy of a certificate of completion of a seminar or course;

(3) the original or a copy of a diploma;

(4) the original or a copy of a receipt for payment of a seminar or course registration fee;

(5) a sworn affidavit from an instructor attesting to the instruction given; or

(6) a form provided by the department validated by the instructor.

(b) Evidence of continuing competence must state the number of hours spent.

(c) A copy of a document must be certified by a notary public to be a true copy of the original document. (Eff. 6/23/78, Reg. 66)

Authority: AS 08.71.050(1)
AS 08.71.130(d)

12 AAC 30.030. DATE OF CONTINUING COMPETENCE. Continuing competence must be obtained within two years preceding the date of application for license renewal or since the date of initial licensure, whichever is sooner. (Eff. 6/23/78, Reg. 66)

Authority: AS 08.01.100
AS 08.71.050(1) and (2)
AS 08.71.130(d)

12 AAC 30.040. FIELD IN WHICH CONTINUING COMPETENCE IS OBTAINED. Continuing competence shall be in the aspect of dispensing opticianry for which the licensee is licensed. A person licensed to dispense both spectacles and contact lenses shall meet the requirement of AS 08.71.130(d) for each of those aspects of opticianry. (Eff. 6/23/78, Reg. 66)

Authority: AS 08.71.050(1) and (2)
AS 08.71.080
AS 08.71.130(d)

12 AAC 30.050. **CONTINUING COMPETENCE REQUIRED FOR RENEWAL OF INITIAL LICENSE.** A person receiving his or her initial license under AS 08.71

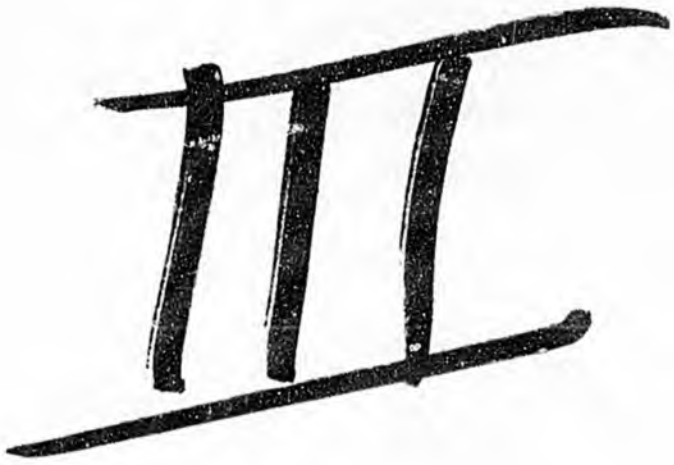
(1) within six months of that date by which it must be renewed need not comply with the continuing competence requirement of AS 08.71.130(d) until the second and subsequent renewal dates;

(2) within 14 months of but more than six months before the date by which it must be renewed need obtain only eight of the 15 hours of continuing competence required by AS 08.71.130(d) for the first renewal period; or

(3) more than 14 months before the date by which it must be renewed must comply with the continuing competence requirement of AS 08.71.130(d). (Eff. 6/23/78, Reg. 66)

Authority: AS 08.01.100
AS 08.71.050(1) and (2)
AS 08.71.130(d)

613 SC 1 VOLUME SUNSET REVIEWS, (HEALTH CARE)



STATE OF ALASKA
Board of Veterinary Examiners
(August, 1978)

Findings

The Board of Veterinary Examiners regulates a profession involved in treatment of diseased and injured animals which may include administration of medication or controlled substances. Federal authorization to prescribe controlled substances and to issue health certificates for interstate and international transportation of animals is contingent on State licensure. Disease prevention, control, and treatment and restrictions on prescriptive authority for drugs are legitimate areas of governmental concern in protecting public health, safety and welfare. It is the determination of this review that State licensure and regulation of this profession is justifiable and that the Board of Veterinary Examiners should be reestablished for an additional four-year period.

I. General Information

A. Regulated Parties

1. Veterinarians

B. Statutory Definition of Regulated Profession

"(1) a person who practices veterinary medicine, surgery, or dentistry is one who does any of the following:

(A) appends to his name a title or abbreviation indicating to the public that he is a veterinarian;

(B) for compensation, diagnoses or treats diseases, injuries, or deformities of domesticated animals;

(C) holds himself out to the public as one who diagnoses or treats diseases, injuries, or deformities of domesticated animals;

(D) maintains premises for receiving, examining, and treating a domesticated animal for compensation;
(AS 08.98.250)

C. Nature and Composition of the Board

1. Board members and terms:

Four-year term (no restrictions regarding consecutive terms or number of terms).

Berton A. Gore, DVM	ends January 31, 1980
Clifford D. Lobaugh, DVM	ends January 1, 1981
David Howe, DVM	ends January 31, 1979

2. Representation:

Professional = 3
Public = -0-

3. Qualifications:

Members must be licensed veterinarians.

D. Licensing Data

By Examination

Year	# of Candidates	# Passed	# Failed	% Passed	% Failed
1974	5	4	1	80	20
1975	12	11	1	92	8
1976	11	9	2	82	18
1977	8	8	-0-	100	-0-
1978 (through June)	8	5	3	62	38

Currently licensed:

in-State =	66	(through June, 1978)
out-of-State =	34	(through June, 1978)
Total -	100	

E. Fees

1)	examination fee	$25.00
2)	reciprocity fee	25.00
3)	initial license fee	25.00
4)	biennial renewal	50.00
5)	temporary license	10.00

F. Board Revenues and Expenditures

	FY '75	FY '76	FY '77	FY '78
Receipts	$3,570.00	$ 705.00	$4,236.50	$1,160.00

Deficit	-	$1,001.94	-	$ 480.42

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

	Received	Closed	To Litigation
1975	-	-	-
1976	-	-	-
1977	2	-	-
1978	3	-	-

Pending: 5

These complaints involve allegations of over-charging and malpractice through neglect of animals resulting in death and injury. There are two complaints against one practitioner and three against another, both of whom are established in the same office. No action has been taken at this writing and resolution is pending.

H. Qualifications

Veterinarians are generally required to have from two to four years of preprofessional course work at an accredited university. Veterinary colleges usually require some 5,000 classroom hours over a four-year period. Individuals must successfully complete examination prior to initial licensure.

II. Criteria and Analysis

A. To what extent has the Board of Veterinary Examiners operated in the public interest?

The Board of Veterinary Examiners has statutory authority to pass on qualifications of applicants, to issue licenses, to administer and grade examinations and to revoke or suspend licenses. Public interests are protected by requiring that applicants be qualified and demonstrate proficiency in their profession and by providing methods by which incompetence or abuse may be disciplined.

For the past several years the Board has utilized a national written examination. This examination is administered only if the applicant has not taken and passed it within the last three years. An applicant may also choose to take this examination a second time as the Board will accept the higher of the two scores. Applicants are required to take and pass additional written and practical examinations composed by the Board. An average score of 72.5% has been established as the minimum passing score. The Board is required to offer at least one examination each year and this has been its practice. 1978 is the first year in which two examinations were scheduled.

Other qualifications for licensure include graduation from an approved school of veterinary medicine and a requirement that the applicant must not have had his license revoked in the past. By examining and licensing veterinarians in the State, based on these qualifications, the Board is certifying to the public that the practitioner is at least minimally competent.

The Board has adopted regulations which define incompetence, require full disclosure of facts in instances of potential conflict of interest and require the exercise of care, skill and diligence in practice.

No statutory provisions are made for continuing education requirements. Regulatory powers of the Board are restrictive (in comparison to those of other health care boards) and specify the subject matter to be regulated. Continuing education is not one of these specified subjects.

Valid arguments may be made against mandatory continuing education. One is the fact that if ongoing education is required, provisions must be made to allow compliance. The practicality of implementation in a State where well developed systems of higher and/or professional education are limited, or of requiring professionals to go out of State to obtain education must be weighed against whatever assurance there might be that incompetency will be significantly avoided or reduced by this method. Pending further study of this issue, one opinion[1] seems to indicate that vigorous investigation and enforcement programs may be an effective course of action.

It must be recognized, however, that there is a widespread trend toward continuing education requirements within health care professions. Eighteen states presently have such requirements for the veterinary profession. In the event that reassessment advantages are determined to outweigh the disadvantages, alternatives are:

---

[1] Shimberg, B., Improving Occupational Regulation, "Officials from 30 states discuss common problems and search for solutions," Educational Testing Service, Princeton, N.J., 1976.

1. certification of completion of approved courses to provide a basis for public selection of practioners;

2. periodic in-office review of client records and/or actual veterinary practices and procedures;

3. mandatory reexamination by such methods as written tests, records and/or x-ray review;

4. routine periodic oral interviews before the Board, a member, or a selected committee;

5. review and analysis of quantity, type and disposition of complaints;

6. well developed and effective peer review mechanisms; and/or

7. programs that may be developed by the Alaska State Veterinary Association.

It is recommended that the Board of Veterinary Examiners be given the authority to adopt regulatons which are necessary and advisable to carry into effect the chapter provisions. One of these should address the matter of continuing education as a condition of relicensure.

The Board must allow entry into the profession and has no latitude under statutory temporary permit procedures. Candidates for licensure have obtained a temporary permit pending the examination, moved into the State, set up individual practice and then failed the examination (temporary permits are not renewable). In response to concern by the Board over instances such as this, an Attorney General's opinion in February of 1978 indicated that the Board may not decline to issue permits nor

does it have any legal responsibility to the candidate. Temporary permits are authorized as a means of expediting entry into a profession and of providing increased availability of qualified services to the public. The Board has indicated a desire to restrict the practice of permittees to an existing clinic but has no authority to do so. Provisions for reexamination in all or a portion of the test areas which were failed are advisable but would require clarification regarding procedures and scheduling.

Endorsement is also utilized by the Board as a means of allowing entry into the profession.

B. To what extent has the operation of the Board of Veterinary Examiners been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

The statutes governing the Board of Veterinary Examiners and the veterinarian profession are perhaps the most restrictive of all Alaska health care statutes. There have been no statutory changes made since 1970 and none of major significance since the Board was created in 1963.

No public members serve on this Board as was provided by statute for all other health care boards in 1976. The Board has discussed this subject and requested in June of 1978, through the administrative agency, that a public member be allowed to attend Board meetings. No response or further action was taken on this request. Board membership consists of three licensed veterinarians. One member whose term expired in January of 1978 had moved from the State leaving a quorum of two professional members until September when a new member was appointed.

Regular annual meetings are required. However, any special meetings may only be held "with prior approval of the governor" (AS 08.98.040). "The commissioner of commerce and economic development is the executive secretary of the board" (AS 08.98.030).

Violations specified as causes for revocation or suspension of license include the terms "chronically drunk," "drug addict" and moral turpitude." Such terminology is considered to be outdated, somewhat ambiguous and difficult to charge in a legal proceeding.

Regulations may be adopted by the Board only if they define incompetence, specify approved schools of veterinary medicine or if they specify subject matter to be covered in examinations. In contrast to most health care boards, it may not specifically adopt regulations necessary or advisable to govern the practice of veterinary medicine within statutory guidelines.

Statutes for this Board and profession contain no provisions for veterinary assistants or technicians, no provisions for foreign graduates of veterinary medicine, no requirement for an annual report, no continuing education provisions, no penalties in the form of fines or designation as a misdemeanor of violations, and no provisions for emergency care or services under the "good samaritan" principle.

The Board of Veterinary Examiners, in conjunction with the professional association has drafted a complete "Proposed Alaska Veterinary Practice Act." Minutes of Board meetings indicate that at least since 1969 and every year thereafter, requests have been made to the administrative agency for assistance in introducing revised drafts. There is no record of any action having been taken. Separate requests for assistance in introducing changes in individual statutes (i.e., temporary permit changes) have apparently met the same fate.

It is recommended that a separate, short-term task force be created with specific directive and goal of reviewing, revising, and recommending concise and thorough statutory construction, such task force to be represented by members of the veterinary and legal professions, and knowledgeable lay persons, and to be dissolved immediately upon completion of this task.

The Board of Veterinary Examiners has experienced little difficulty in its general administrative operations with respect to personnel or budgetary restrictions with the exception of investigative services and technical assistance as previously noted. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs. All fees and revenues are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes.

Improved procedures are being developed within the administrative agency pertaining to organization of records, forms and examination information which will better enable the Board to perform its functions.

The Board of Veterinary Examiners has experienced the same difficulties as have all other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency. During the past year two investigator positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints.

It is undeniably in the public interest to enforce the laws promulgated for the protection of public health and welfare and to take expeditious action upon receipt of potentially serious complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

C. To what extent has the Board of Veterinary Examiners recommended statutory changes which are generally of benefit to the public interest?

As previously cited, no major changes have taken place in the profession's statutes since creation of the Board in 1963. Since 1968 numerous requests have been made by the Board for assistance in implementing statutory and regulatory changes. These changes involved Board discretion in issuing temporary permits and in licensing out-of-State practitioners by waiver of examination. The Board and the Alaska Veterinary Association have jointly drafted a proposed new practice act which they have been attempting to obtain assistance with.

No recommendations have been made by the Board of Veterinary Examiners relating to statutory changes that would be of specific direct benefit to the public, however, efficient administration and regulation of the profession would have an overall beneficial public effect.

D. To what extent has the Board of Veterinary Examiners encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The Board is generally sensitive to public concern and to aspects of public health and welfare. However, very little public interest or participation in the activities of the Board has been shown in the form of attendance at Board meetings, hearings, or as written input. Most public concern is expressed by individuals with particular problems directly approaching Board members.

The Board has not taken any overt action to solicit general public response to its quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Wider dissemination of general information regarding the Board may help to mitigate public disinterest.

The absence of public members on this Board is not felt to encourage public participation or to further public interests. Public interests are furthered by the existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[2]

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Veterinary Examiners processed and resolved?

---

[2]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

No complaints were received which were specifically directed at individual members of the Board of Veterinary Examiners and no complaints regarding the Board or profession have been received by the Office of the Ombudsman. Five complaints received in the last past two years involve allegations of over-charging and malpractice through neglect of animals resulting in injury and death. All were against two practitioners in the same clinic and none have been acted upon.

F. To what extent does the Board of Veterinary Examiners present qualified applicants to serve the public?

Applicants for licensure are not sponsored by the Board of Veterinary Examiners. Individuals wishing to practice within the State must submit fees and application to the administrative agency with documentation of qualifications. State examinations are conducted, monitored and graded by the Board. Applicants who demonstrate the required level of knowledge and proficiency are issued a license.

Every statutory authority is currently being exercised to screen qualified applicants and provide acceptable practitioners. The Board is already licensing by endorsement, issuing temporary permits and conducting examinations as warranted. These procedures help to expedite entry into the profession and to increase availability of services to the public.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Veterinary Examiners in its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for three other boards) who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

The Board of Veterinary Examiners issues licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Veterinary Examiners to better serve the interests of the public?

Several changes need to be made to the statutes governing this Board. All have been previously noted as have the recommendations for upgrading terminology and content. Needed regulatory changes cannot take place unless and until the Board is given authority to adopt such regulations as are advisable in governing the profession. The Board has repeatedly requested assistance with, and revised, statutory changes and a complete new practice act. Appropriate steps are now being taken by the administrative agency to provide the assistance requested by the Board.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are not adequate to cover transportation and per diem for meetings and examinations, and the Division of Occupational Licensing administrative overhead, such as staff salary and examination expenses.

Because of recent concern regarding the need for occupational licensing, the questions raised concerning public welfare versus professional interests and concern regarding proliferation of regulated and licensed groups, appointment of knowledgeable laymembers is a widely advocated step. "There has been a growing movement to place public members on regulatory boards to ensure that there will be input from groups other than those representing the regulated occupation."[3] Shimberg and Roederer further indicate that, "... if impact is the major criterion, one public member is probably too few, two would be the minimum, and three or four would increase the likelihood that the impact of public members would be felt, particularly if the board had from seven to ten members." It is recommended that Board membership be increased to five to include two public members.

III. Conclusion

Veterinarians have the responsibility for detecting and controlling animal diseases; they have the authority to issue prescriptions for controlled substances; federal authorization for a Drug Enforcement Agency number (necessary if prescribing controlled substances) is contingent on State licensure as is federal authorization to issue health certificates for interstate and international transportation of animals. It must also be recognized that many members of the public have a substantial economic and/or emotional investment in their animals. Continuation of the Board of Veterinary Examiners and State regulation is determined to be justified in terms of protection of public health, safety and welfare.

---

[3]Ibid, Shimberg & Roederer, p. 9.

IV. Summary of Recommendations

The Board of Veterinary Examiners should be continued for an additional four-year period. The following recommendations are made:

It is recommended that a complete review and revision of these statutes take place in order that they be updated and extend the authority necessary and adequate to govern the practice of veterinary medicine in the State. (See discussion beginning on p. 9)

a. The Board should be given authority to adopt regulations necessary to govern the practice of veterinary medicine in the State. (See discussion on p. 9)

b. Mandatory continuing education requirements, and possible exceptions, should be imposed by statute. The Board should then adopt regulations delineating compliance methods and criteria. (See discussion on p. 7)

c. Public members should be included in the composition of the Board. The statutory restriction precluding lay members on the Board has not encouraged public participation or interest in its regulations or decisions. (See discussion on p. 9, 13 and 16)

d. The Board, in conjunction with the administrative agency, should be given the authority to establish a necessary and reasonable fee structure. (See discussion on p. 15)

Chapter 98. Veterinarians.

Article
1. Board of Veterinary Examiners (§§ 08.98.010 — 08.98.100)
2. Licensing (§§ 08.98.120 — 08.98.210)
3. Enforcement (§ 08.98.230)
4. General Provisions (§ 08.98.250)

Article 1. Board of Veterinary Examiners.

Section
10. Creation and membership of board
20. Appointment and term of office
30. Executive secretary of board
40. Board meetings
50. Duties of the board
60. Board regulations
70. Duties of the department
80. Department regulations
90. Applicability of the Administrative Procedure Act
100. Compensation

Sec. 08.98.010. Creation and membership of board. There is a Board of Veterinary Examiners. It consists of three licensed veterinarians. (§ 1 ch 91 SLA 1963; am § 1 ch 94 SLA 1966)

Sec. 08.98.020. Appointment and term of office. The governor shall appoint the members of the board, with the confirmation of the legislature, for terms of four years, or until their successors are appointed. A member serves at the pleasure of the governor. The first members shall be initially appointed for two-, three- and four-year terms. (§ 1 ch 91 SLA 1963)

Sec. 08.98.030. Executive secretary of board. The commissioner of commerce and economic development is the executive secretary of the board. (§ 1 ch 91 SLA 1963; am § 59 ch 218 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "commissioner of commerce and economic development" for "commissioner of commerce."

Sec. 08.98.040. Board meetings. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman with prior approval of the governor. (§ 1 ch 91 SLA 1963)

Sec. 08.98.050. Duties of the board. The board shall

(1) pass on qualifications of applicants for licenses and issue licenses to those who quality;

(2) prepare and grade examinations, provided that the board may use examinations prepared by the National Board of Veterinary Examiners;

(3) after hearing, have the authority to suspend or revoke the license of a licensed veterinarian who

(A) obtained his license by fraud, misrepresentation, or deception;

(B) is chronically drunk or is a drug addict;

(C) makes untruthful statements about his professional ability, to solicit business;

(D) distributes alcohol or drugs except as required by the practice of veterinary medicine, surgery, or dentistry;

(E) in his professional capacity, conducts himself in a way that indicates he is not a competent veterinarian;

(F) is convicted of a felony or any crime involving moral turpitude;

(G) falsifies an official state or federal certificate relating to veterinary medicine. (§ 1 ch 91 SLA 1963; am § 2 94 SLA 1966; am § 1 ch 54 SLA 1967)

Sec. 08.98.060. Board regulations. (a) The board shall adopt procedural regulations describing how a person applies for and takes an examination under this chapter.

(b) The board shall adopt substantive regulations

(1) defining conduct which, if engaged in by a veterinarian, is evidence of incompetence;

(2) specifying approved schools under § 170(1) of this chapter;

(3) specifying the subject matter to be covered in an examination for veterinarians. (§ 1 ch 91 SLA 1963)

Sec. 08.98.070. Duties of the department. The department shall furnish the board with administrative services, including renting space for holding examinations, printing and mailing licenses, sending notices, before December 1 of each year, that licenses must be renewed, collecting fees and issuing receipts, keeping a current register of licensees, employing secretarial assistants, replying to routine requests for information, printing forms and informational bulletins, typing all matter to be reproduced, maintaining records and completed examinations, and keeping records of receipts and disbursements. (§ 1 ch 91 SLA 1963; am § 3 ch 94 SLA 1966)

Sec. 08.98.080. Department regulations. The department shall adopt procedural regulations necessary to carry out the duties imposed on it by § 70 of this chapter. (§ 1 ch 91 SLA 1963)

Sec. 08.98.090. Applicability of the Administrative Procedure Act. The Administrative Procedure Act (AS 44.62) applies to regulations and proceedings under this chapter. (§ 1 ch 91 SLA 1963)

Sec. 08.98.100. Compensation. Members of the board are entitled to per diem allowances and transportation expenses allowed by law and paid members of other state examining boards. (§ 1 ch 91 SLA 1963)

Article 2. Licensing.

Section		Section	
120.	License required	170.	Qualification for examination
130.	Examination	180.	Temporary license
140.	Content of examination	190.	Fees
150.	Administration of examination	200.	Reinstatement of lapsed license
160.	Reexamination	210.	Out-of-state veterinarian

Sec. 08.98.120. License required. No person may practice veterinary medicine, surgery, or dentistry unless he is licensed under this chapter. (§ 1 ch 91 SLA 1963)

Sec. 08.98.130. Examination. A person who passes the examination given by the board is entitled to be licensed as a veterinarian. (§ 1 ch 91 SLA 1963)

Sec. 08.98.140. Content of examination. The examination shall be in veterinary anatomy, surgery, medicine, obstetrics, pathology, chemistry, diagnosis, materia medica, therapeutics, physiology, sanitary medicine, dentistry, and other scientific subjects related to the practice of veterinary medicine surgery, and dentistry. (§ 1 ch 91 SLA 1963)

Sec. 08.98.150. Administration of examination. The board shall offer examinations at least once a year. Examinations shall be so administered that, whenever possible, one who grades a written examination does not know whose paper he is grading. (§ 1 ch 91 SLA 1963; am § 4 ch 94 SLA 1966)

Sec. 08.98.160. Reexamination. A person who fails an examination may apply for a subsequent examination, but shall pay the examination fee each time he applies. (§ 1 ch 91 SLA 1963)

Sec. 08.98.170. Qualification for examination. A person is entitled to take the examination who

(1) was graduated from a school of veterinary medicine approved by the board;

(2) Repealed by § 25 ch 245 SLA 1970.

(3) has completed application forms and returned them to the board;

(4) has paid the fee specified in § 190 of this chapter;

(5) has not had a veterinarian license revoked for cause in another jurisdiction;

(6) is of good moral character. (§ 1 ch 91 SLA 1963; am §§ 5, 6 ch 94 SLA 1966; am § 25 ch 245 SLA 1970)

Legislative committee report. — Chapter 245, SLA 1970 (HCSSB 399 am H), was identical to CSHB 406 (Jud.) For report on CSHB 406 (Jud.), see 1970 House Journal Supplement No. 6.

Sec. 08.98.180. Temporary license. A person who meets the requirements of § 170 of this chapter is entitled to be licensed. A license issued under this section is valid until the results of the examination following the issuance of the license are published. No person may receive more than one license under this section. (§ 1 ch 91 SLA 1963; am § 8 ch 94 SLA 1966)

Sec. 08.98.190. Fees. The following fees shall be imposed under this chapter when applicable:

(1) examination fee	$25
(2) reciprocity fee	25
(3) initial license fee	25
(4) biennial renewal	50
(5) temporary license	10

(§ 1 ch 91 SLA 1963; am § 1 ch 53 SLA 1968)

Sec. 08.98.200. Reinstatement of lapsed license. A person whose license has lapsed is entitled to have his license reinstated without taking an examination unless his license has remained lapsed more than five years. (§ 1 ch 91 SLA 1963; am § 2 ch 53 SLA 1968)

Sec. 08.98.210. Out-of-state veterinarian. A veterinarian in good standing in a veterinary association of another state or territory or the District of Columbia which licenses veterinarians to practice veterinary medicine may be licensed without examination and otherwise upon substantially the same terms and conditions as are fixed in the jurisdiction from which he has come for the licensure of a veterinarian from this state. As a prerequisite to licensure the board shall require a veterinarian to take and pass an examination, unless the applicant has

(1) passed a state veterinarian examination;

(2) engaged in the active practice of veterinary medicine for at least five out of the previous seven years before filing the application excluding time spent in the military service of the United States;

(3) graduated from an accredited school of veterinary medicine;

(4) met the character requirements established by the board. (§ 1 ch 91 SLA 1963; am § 8 ch 94 SLA 1966; am § 2 ch 54 SLA 1967)

Article 3. Enforcement.

Section
230. Injunction

Sec. 08.98.230. Injunction. When it appears that a person has engaged in or is about to engage in an act constituting a violation of § 120 of this chapter, the board, through its executive secretary, shall bring an action in the superior court to enjoin the act and to enforce compliance with § 120 of this chapter. (§ 1 ch 91 SLA 1963)

Article 4. General Provisions.

Section
250. Definitions

Sec. 08.98.250. Definitions. In this chapter

(1) a person who practices veterinary medicine, surgery, or dentistry is one who does any of the following:

(A) appends to his name a title or abbreviation indicating to the public that he is a veterinarian;

(B) for compensation, diagnoses or treats diseases, injuries, or deformities of domesticated animals;

(C) holds himself out to the public as one who diagnoses or treats diseases, injuries, or deformities of domesticated animals;

(D) maintains premises for receiving, examining, and treating a domesticated animal for compensation;

(2) "board" means the Board of Veterinary Examiners;

(3) "department" means the Department of Commerce and Economic Development. (§ 1 ch 91 SLA 1963; am § 60 ch 218 SLA 1976)

Revisor's note (1973). — In light of the 1966 amendment of AS 08.98.010, "Veterinarian" has been changed to "Veterinary" in paragraph (2) of this section.

Effect of amendment. — The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (3).

2. Evidence of Incompetence

ARTICLE 1.
EXAMINATIONS

Section
10. Applications
20. Time and place of examination
30. Notification of applicants
40. Application for license

12 AAC 68.010. APPLICATIONS. (a) An application for examination to practice veterinary medicine, surgery, or dentistry shall be made in writing to the Department of Commerce on a form prescribed and furnished by the Department. The fee required by AS 08.98.190 shall accompany the application form.

(b) An applicant may be required to furnish other information to demonstrate that he meets the minimum qualifications of AS 08.98.170.

(c) An application for examination must be postmarked no later than 60 days before the examination date. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.060(a)
AS 08.98.070

12 AAC 68.020. TIME AND PLACE OF EXAMINATION. (a) The time and place of the examination will be published by all major newspapers, in the State of Alaska, at least six months before the examination date.

(b) The Department of Commerce will arrange for space in which the examination is given. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.060(a)
AS 08.98.070

12 AAC 68.030. NOTIFICATION OF APPLICANTS. (a) All applicants will be notified in writing of the time and place of the examination by the Department of Commerce at least 10 days before the examination.

(b) An applicant will be advised by the department of his grade in writing no later than 60 days following the grading of the examination by the board. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.060(a)

12 AAC 68.040. APPLICATION FOR LICENSE. An application for a license is included on the same form used for the application for examination. Space is provided on the form to indicate whether licensing will be by examination or by waiver of examination. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.060
AS 08.98.210

ARTICLE 2. EVIDENCE OF INCOMPETENCE.

Section
50. Evidence of incompetence
60. Approved schools
70. Conflict of interest
80. Treatment of patients
90. Certificate of health
100. Confidential relationship
110. Testimonials
120. Soliciting

12 AAC 68.050. EVIDENCE OF INCOMPETENCE. The following conduct is considered evidence of incompetence of an applicant:

(1) a judgment of insanity by any competent court;

(2) a conviction of a violation of a federal or state law relating to narcotic drugs;

(3) a conviction of malpractice in veterinary medicine, surgery or dentistry. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.060

12 AAC 68.060. APPROVED SCHOOLS. A school of veterinary medicine that is recognized and approved by the American Veterinary Medical Association is approved by the board. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.060(b)(2)

Editor's Note: A list of approved schools may be obtained from the American Veterinary Medical Association.

12 AAC 68.070. CONFLICT OF INTEREST. It is unprofessional to represent conflicting interest, except by express consent of all concerned, given after a full disclosure of the facts. A conflict of interest results when a veterinarian is employed by a buyer to inspect an animal for soundness or other reason, and he accepts a fee from the seller. Acceptance of a fee from both the buyer and the seller is evidence of unprofessional conduct for the purposes of AS 08.98.050. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.050 (3) (E)
AS 08.98.060 (b) (1)

12 AAC 68.080. TREATMENT OF PATIENTS. A licensed veterinarian shall exercise the degree of care, skill and diligence in treating patients that is ordinarily used in the same or similar circumstances by average members of the veterinary medical profession in the community in which he practices. Failure to comply with this section constitutes incompetence for the purpose of AS 08.98.050(3)(E). (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.050(3)(E)
AS 08.98.060(b)(1)

12 AAC 68.090. CERTIFICATE OF HEALTH. No licensed veterinarian may issue a certificate of health for an animal unless he performs the inspection and the appropriate tests it required. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.050(3)(E)
AS 08.98.060(b)(1)

12 AAC 68.100. CONFIDENTIAL RELATIONSHIP. A licensed veterinarian shall maintain a confidential personal relationship between himself and his client, or his client's authorized agent. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.050(3)(E)
AS 08.98.060(b)(1)

12 AAC 68.110. TESTIMONIALS. No licensed veterinarian may write testimonials endorsing proprietary remedies, instruments, equipment or food except that reports of the results of properly controlled experiments or clinical studies are permitted if given publicity through scientific journals or meetings. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.050(3)(E)
AS 08.98.060(b)(1)

12 AAC 68.120. SOLICITING. (a) No member of the veterinary profession may utilize the services of solicitors. No licensed veterinarian may participate in arrangements which share th proceeds from professional services with individuals who may have been instrumental in his having been selected to perform the particular service.

(b) A licensed veterinarian shall avoid the impropriety of employing questionable methods to attract public attention or claim to possess superior knowledge or skill in the treatment or prevention of a disease. (Eff. 3/27/71, Reg. 37)

Authority: AS 08.98.050(3)(E)
AS 08.98.060(b)(1)

STATE OF ALASKA
Physical Therapy Board
(August, 1978)

Findings

Governmental deregulation of the physical therapy profession would subject the public to potential danger from persons who are not required to meet minimum standards of proficiency. Physicial therapy is performed at the direction of a physician and can be a prolonged process characterized by gradual physical improvement and frequently accompanied by substantial investments of time and money. Lack of quality control could result in considerable financial loss or physical injury among members of the general public. Unregulated and unqualified practitioners would be unhindered in practice and promises of physical aid that may be unrealistic or blatantly false. Regulation of this profession could, however, be accomplished without a State board by the administrative agency with appropriate statutory guidelines. If the Board is continued, recommendations are contained herein that would enhance its efficient functioning.

I. General Information

A. Regulated Parties

1. Physical Therapists
2. Physical Therapy Assistants

B. Statutory Definition of Regulated Profession

"(2) 'physical therapist' means a person who practices physical therapy;

(3) 'physical therapy' means the treatment of a bodily or mental condition of a person by the use of the properties of heat, light, water, electricity, massage, therapeutic exercise including physical rehabilitation procedures, and physical therapy evaluation, treatment planning, instruction and consultative services; the use of roentgen rays and radium for diagnostic and therapeutic purposes, and the use of electricity for surgical purposes, including cauterization, are not included within the term 'physical therapy';

(4) 'physical therapy assistant' means a person who assists in the practice of physical therapy or portions of it as initiated, supervised, and terminated by a registered physical therapist; his reponsibilities do not include testing or evaluation." (AS 08.84.190)

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

Recently resigned Chairman	ends September 1, 1977
Donna Klokkevold, RPT (Secy)	ends September 1, 1978
Richard Alsop, RPT	ends September 1, 1979
J. Michael James, M.D.	ends September 1, 1977
Edward Heuston	ends September 1, 1977

2. Representation:

Profession = 4 (includes one licensed physician)
Public = 1

3. Qualifications:

"...The membership consists of one physician licensed to practice medicine in the state, three physical therapists registered in the state, and one lay person..." (AS 08.84.010)

D. Registration Data

G. Complaints

	Received	Closed	To Litigation
1975	1	1	0
1976	0	0	0
1977	0	0	0
1978 (through June)	0	0	0

Pending: 0

One complaint was received by the Office of the Ombudsman. This complaint was from an applicant charging that s/he was improperly denied licensure; the charge was determined to be justified and was rectified. One other complaint for practicing without a license received in 1975 had previously been referred to the Medical Board and is still pending.

H. Qualifications

Practitioners are required to have a Bachelor's degree (four-year program) from an approved school and work only under physician direction.

II. Criteria and Analysis

A. To what extent has the Physical Therapy Board operated in the public interest?

The statutory duties of the Board are to conduct examinations, control all matters pertaining to professional registration, issue, suspend or revoke registration certification, maintain current registration listings, and maintain records of its proceedings. The Board has no regulatory authority and, hence, has operated under the restrictive limitations of the foregoing duties.

A national examination for applicants has consistently been utilized by the Board. All applicants for registration, including those who are requesting licensure by endorsement, must have taken and passed this written examination with a minimal score of 70. The examination is given twice each year, is proctored by one or more members of the Board and is graded by the national testing service. No practical examination is given. The testing function could be assumed by the administrative agency.

Assuring competency of practitioners by utilizing nationally established testing standards and procedures is one method by which regulation operates in the public interest. Handicapped individuals or their relatives may be tempted to place their well being in the care of unqualified or unscrupulous persons who promise unrealistic help or cures. The result could be the loss of literally thousands of dollars and no assistance to the individual while actual physical harm could occur in the incorrect application of treatments such as those utilizing muscular exercise, heat, and electricity. The general public must be supplied with a measure for determining the qualifications of a person providing such services. Compliance with State requirements and subsequent registration controlling applicants for this profession function to protect the public health and safety.

Provisions for registration by endorsement and for issuance of temporary permits are found in the Board's statutes. These avenues of expeditious entry into the profession are utilized by the Board and are felt to be in keeping with the public interest by allowing opportunities for access to practitioners. Most licentiates within the State have been licensed by endorsement. Endorsement is allowed from any state whose registration requirements were substantially equal to those of Alaska at the date of the applicants' registration. Temporary permits may be, and are, issued to applicants who are otherwise qualified pending examination. Permits are valid for eight months or until the next examination results are

published - or until the endorsement application is considered by the Board - whichever occurs first. Foreign graduates must first be licensed in another state and must have passed the national examination to be eligible for endorsement in Alaska.

The Board has established a policy by which an applicant may take the examination an unlimited number of times. While it is felt to be advisable that an applicant who has failed the examination twice must obtain further qualifying training and/or experience, there is no authority for the Board to impose requirements of this kind.

There also is no authority for the Board to consider the subject of continuing education except as a policy matter. Valid arguments may be made against continuing education. One is the fact that if ongoing education is required, provisions must be made to allow compliance. The practicality of this in a rural State where well developed systems of higher and/or professional education are virtually nonexistent, or of requiring professionals to go out-of-State to obtain education they cannot get here, must be weighed against whatever assurance there might be that incompetency will be significantly avoided or reduced by this method. It must be recognized, however, that there is a widespread trend toward continuing education requirements as a condition of license renewal and the Board should have the authority to consider the implications and implementation of such action.

If the Physical Therapy Board is allowed to terminate, continuing education should be delineated by statute to allow administration and determination of qualifications by the agency. If continued, it is recommended that the Physical Therapy Board by given the statutory authority to adopt regulations necessary and advisable to govern the practice of the profession within statutory limitations, including the matter of continuing education.

B. To what extent has the operation of the Physical Therapy Board been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

The operation of the Physical Therapy Board has been limited by the absence of statutory authority necessary to adopt regulations governing the profession and its practitioners. Procedures covering application for registration, codes of ethics, training functions and utilization of physical therapy assistants, and clarification of a supervisory relationship have been formulated as Board policies. These policies do not, however, have the sanctity of regulations. As previously noted, the Board may not consider or require continuing education as a condition for relicensure.

Present Board composition requires that only one public member may be appointed. This is not considered to enhance the public interest and accountability of the Board's operation. Because of recent concern regarding the need for occupational licensing, the questions raised concerning public welfare versus professional interests and concern regarding proliferation of regulated and licensed groups, appointment of knowledgeable lay members is a widely advocated step. "There has been a growing movement to place public members on regulatory boards to ensure that there will be input from groups other than those representing the regulated occupation."[1] Shimberg and Roederer further indicate that,

---

[1]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 9.

"... if impact is the major criterion, one public member is probably too few, two would be the minimum, and three or four would increase the likelihood that the impact of public members would be felt, particularly if the board had from seven to ten members." Public representation on the Board should be increased to two members for a public-profession ratio of 2:3.

A general review of Board statutes indicates a need to refine and define terms such as "habitually drunk," "immoral or unprofessional conduct," "moral turpitude" and "gross negligence." (AS 08.84.120)

The Physical Therapy Board has experienced some difficulty in its administrative operations with respect to budgetary matters. In an attempt to recognize and alleviate limitations, the Board recently resolved that a licensing examiner from the administrative agency need not be present at all Board meetings. (This is not in keeping with the policy of the administrative agency but is intended to demonstrate Board efforts with respect to minimizing expenditures.) The Board also has recently discussed the possibility of members not requesting transportation or per diem for meetings and has in fact refused this. (Again, this is contrary to administrative policy.) It is noted that prior to a 1977 statutory amendment, members of this Board were not entitled to a travel or per diem allowance by the Physical Therapist practice act.

Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs although employee turnover has not enhanced Board operations. All fees and revenues are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes.

Improved procedures are being developed within the administrative agency pertaining to organization of records, forms and examination information which will better enable the Board to perform its functions.

Complaints received in relation to this profession would encounter the same difficulties as have those of all other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency. During the past year two investigator positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints.

C. To what extent has the Physical Therapy Board recommended statutory changes which are generally of benefit to the public interest?

As with general statutory amendments recently made to many health care related boards, recent changes to these statutes included: deletion of the requirement that nominations to the Board be made only by the professional association, Medical Indemnity Corporation of Alaska provisions, applicability of the Administrative Procedure Act and minor "housekeeping" items.

No recommendations have been made by the Physical Therapy Board relating to statutory changes that would be of specific benefit to the public.

D. To what extent has the Physical Therapy Board encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The Board is sensitive to public concern and to aspects of public health and welfare. However, very little public interest in the activities of the Board has been shown in the form of attendance or participation at Board meetings, hearings, or as written input. Most public concern is expressed by individuals with particular problems directly approaching Board members.

The Board has not taken any overt action to solicit public response to its quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Wider dissemination of general information regarding the Board may help to mitigate public disinterest.

E. How efficiently are public inquiries or complaints regarding the activities of the Physical Therapy Board processed and resolved?

One complaint was received by the Office of the Ombudsman (in 1975) charging that an applicant was improperly denied licensure. This complaint was justified and resolved in a timely manner. Several references are found in the files of complaints made against a particular individual since 1975. These complaints also involve allegations of violations concerning the medical and chiropractic professions and action is still pending under jurisdiction of the Medical Board.

F. To what extent does the Physical Therapy Board present qualified applicants to serve the public?

Applicants for licensure are not sponsored by the Physical Therapy Board or any of its members. Individuals wishing to practice within the State must submit fees and application to the administrative agency with documentation of qualifications. Two examinations each year are currently conducted and endorsement provisions are utilized. Applicants who demonstrate the required level of knowledge and proficiency are issued a license.

Current Board practices which allow registration through endorsement and the issuance of temporary permits are conducive to entry into the profession, provide opportunity for availability and public access to services and could as well be agency administered. Qualifications delineated for these methods are designed to assure competency sufficient to meet minimal practicing standards.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Physicial Therapy Board in its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for three other boards) who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

The Physical Therapy Board issues licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Physical Therapy Board to better serve the interests of the public?

If continued, the Board should be authorized to promulgate and adopt regulations necessary and advisable to govern the practice of physical therapists and physical therapy assistants in the State within statutory guidelines. Areas which should be considered by the Board include: a limitation on the number of times an applicant may fail the examination before further study is required, continuing education/competency requirements, functions and training of physical therapy assistants and definitions of "supervision," "immoral or unprofessional conduct," "moral turpitude" and "gross negligence."

Public interests are furthered by the existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[2] It is, therefore, recommended that public membership on the board be increased to two, with three professional members and that number of terms or of consecutive terms be limited.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are simply not adequate to cover transportation and per diem for meetings and examinations and the costs of Division of Occupational Licensing administrative overhead, such as staff salary and examination expenses.

III. Conclusion

Regulation of this profession is determined to function in the protection of the public health, safety and welfare and could be accomplished by the adminstrative agency.

---

[2]Ibid, Shimberg & Roederer, p. 20.

IV. Summary of Recommendations

A. The Physical Therapy Board should be allowed to terminate and the functions of examining and licensing should be assumed by the administrative agency with appropriate statutory guidelines.

B. If the Physicial Therapy Board is reestablished for an additional four-year period, the following recommendations are made:

1. It is recommended that the Physical Therapy Board be given authority to promulgate and adopt appropriate regulations. The Board may then consider advisable and needed regulations such as those concerning:

   a. a limitation on the number of times an applicant may fail an examination before s/he must obtain further training, (See discussion on p. 9)

   b. continuing education requirements, (See discussion on p. 9)

   c. form and procedures for licensure applications,

   d. the functions and scope of activities for physical therapy assistants, and

   e. the definition and scope of activity of a supervisory relationship. (See discussion on p. 10)

2. Terms such as "habitually drunk," "immoral or unprofessional conduct," "moral turpitude," and "gross negligence," should be refined and/or defined. (See discussion on p. 11)

3. The ratio of lay persons to professional members of the board should be increased. It is recommended that public membership be increased to two and that number of terms or consecutive terms be limited. (See discussion on p. 10)

Chapter 84. Physical Therapists Practice Act.

Article
1. State Medical Board (§§ 08.84.010 — 08.84.020)
2. Registration (§§ 08.84.030 — 08.84.120)
3. Unlawful Acts (§§ 08.84.130 — 08.84.185)
4. General Provisions (§§ 08.84.190 — 08.84.200)

Article 1. State Medical Board.

Section
10. State Physical Therapy Board
20. Applicability of Administrative Procedure Act

Sec. 08.84.010. State Physical Therapy Board. (a) There is created the State Physical Therapy Board, which consists of five members appointed by the governor. The membership consists of one physician licensed to practice medicine in the state, three physical therapists registered in the state, and one lay person. Members of the board shall be appointed for terms of one, two and three years, respectively; all subsequent appointments shall be made for a term of three years and until their successors are appointed.

(b) The Physical Therapy Board shall conduct examinations for applicants and shall control all matters pertaining to the registration of physical therapists and physical therapy assistants and the practice of physical therapy. The board shall

(1) pass upon the qualifications of applicants;

(2) conduct examinations;

(3) issue temporary permits and registration certificates to physical therapists and physical therapy assistants qualified under this chapter;

(4) suspend or revoke registration certificates, when necessary;

(5) keep a current register listing the name, business address, date and number of registration certificate of each physical therapist and physical therapy assistant who is registered to practice in this state;

(6) keep a record and minutes of its meetings, proceedings and hearings. (§ 15 ch 74 SLA 1957; am § 8 ch 49 SLA 1969; am § 1 ch 71 SLA 1974; am § 1 ch 208 SLA 1975; am § 2 ch 43 SLA 1977)

Effect of amendments. — The 1974 amendment rewrote this section.

The 1975 amendment substituted "American Physical Therapy Association" for "American Physical Therapist Association" at the end of the former third sentence of subsection (a).

The 1977 amendment, in subsection (a), deleted the former third, fifth, and sixth sentences, which read, respectively, "The members shall be selected from a list of 10 persons which shall be submitted by the Alaska Chapter of the American Physical Therapy Association", "Vacancies on the board shall be filled by appointment in like manner", and "Board members are not entitled to a travel or per diem allowance."

Legislative committee report. — For report on ch. 43, SLA 1977 (SB 110), see 1977 Senate Journal, p. 173.

Am. Jur. reference. — 41 Am. Jur., Physicians and Surgeons, § 31.

Sec. 08.84.020. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62).

Article 2. Registration.

Section
30. Qualifications for registration
35. Malpractice insurance
40. Application for registration
50. Fees
60. Registration by endorsement
65. Temporary permit
70. [Repealed]
80. Examinations
90. Registration
100. Renewal of registration
110. [Repealed]
120. Refusal, revocation and suspension of registration

Sec. 08.84.030. Qualifications for registration. To be eligible for registration by the board as a physical therapist or physical therapy assistant, an applicant shall

(1) be of good moral character;

(2) have graduated from a school of physical therapy approved by the Council on Medical Education and Hospitals of the American Medical Association, or the American Physical Therapy Association;

(3) pass to the satisfaction of the board an examination from the Professional Examination Service Association, to determine his fitness for practice as a physical therapist or physical therapy assistant, or be entitled to registration without examination as provided in § 60 of this chapter. (§ 3 ch 74 SLA 1957; am §§ 1, 8 ch 49 SLA 1969; am §§ 1, 2 ch 26 SLA 1970; am § 25 ch 245 SLA 1970; am § 2 ch 71 SLA 1974; am § 2 ch 208 SLA 1975)

Effect of amendments. — The 1974 amendment repealed and re-enacted this section, renumbering the paragraphs and inserting "or physical therapy assistant" in the introductory language and in present paragraph (3).

The 1975 amendment substituted "Professional Examination Service Association" for "professional examination service of the American Public Health Association" in paragraph (3).

Legislative committee report. — Chapter 245, SLA 1970 (HCSSB 399 am H), was identical to CSHB 406 (Jud.). For report on CSHB 406 (Jud.), see 1970 House Journal Supplement No. 6.

Sec. 08.84.035. Malpractice insurance. If medical malpractice insurance for physical therapists becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of physical therapist services to the public, the director of insurance may require all persons registered under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of registration under this chapter. The provisions of this section are satisfied if the registrant's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 29 ch 102 SLA 1976)

Sec. 08.84.040. Application for registration. To be registered as a physical therapist or physical therapy assistant, an applicant shall apply to the board on a form prescribed by the board. An applicant shall include in his application, evidence under oath that he possesses the qualifications required by § 30 of this chapter. (§ 4 ch 74 SLA 1957; am § 3 ch 71 SLA 1974)

Effect of amendment. — The 1974 amendment inserted "or physical therapy assistant" in the first sentence.

Sec. 08.84.050. Fees. The following fees shall be imposed under this chapter when applicable:

(1) application	$25
(2) registration by examination	25
(3) registration by endorsement	25
(4) biennial renewal	25
(5) temporary permit	10

(§ 4 ch 74 SLA 1957; am § 2 ch 49 SLA 1969; am § 3 ch 26 SLA 1970)

Sec. 08.84.060. Registration by endorsement. The board may register without examination an applicant who is a physical therapist or physical therapy assistant registered under the laws of another state or territory, if the requirements for registration in that state or territory were, at the date of his registration, substantially equal to the requirements in this state. (§ 6 ch 74 SLA 1957, am § 4 ch 26 SLA 1970; am § 4 ch 71 SLA 1974)

Effect of amendment. — The 1974 amendment inserted "or physical therapy assistant" near the middle of the section.

Sec. 08.84.065. Temporary permit. (a) The board may issue a nonrenewable temporary permit to an applicant for registration by endorsement or by examination who meets the requirements of § 30(1) and (2) of this chapter and pays the required fee.

(b) A temporary permit issued to an applicant for registration by endorsement is valid for eight months or until the board considers the applicant's endorsement application, whichever occurs first.

(c) A temporary permit issued to an applicant for registration by examination is valid for eights months or until the results of the first examination for which the applicant is scheduled are published, whichever occurs first. If the applicant fails to take the first examination for which he is scheduled his temporary permit lapses on the day of the examination. (§ 5 ch 26 SLA 1970; am § 5 ch 71 SLA 1974; am § 3 ch 208 SLA 1975)

Effect of amendments. — The 1974 amendment substituted "registration" for "licensure" in subsections (a) and (b) and in the first sentence of subsection (c). The 1975 amendment substituted "§ 30(1) and (2)" for "§ 30(1), (2) and (3)" in subsection (a).

Sec. 08.84.070. Registration fee.
Repealed by § 8 ch 49 SLA 1969.

Editor's note. — The repealed section derived from § 6, ch. 74, SLA 1957.

Sec. 08.84.080. Examinations. (a) The board shall examine applicants for registration as physical therapists or physical therapy assistants at the times and places it determines.

(b) An application for examination shall be submitted to the department at least 40 days before the examination date. (§ 7 ch 74 SLA 1957; am § 3 ch 49 SLA 1969; am § 6 ch 26 SLA 1970; am § 6 ch 71 SLA 1974)

Effect of amendment. — The 1974 amendment, in subsection (a), inserted "or physical therapy assistants" and deleted the former second sentence.

Sec. 08.84.090. Registration. The board shall register an applicant who meets the qualifications for registration under this chapter. It shall issue a certificate of registration to each person registered. A certificate of registration is prima facie evidence of the right of the person to represent himself as a registered physical therapist or registered physical therapy assistant. (§ 8 ch 74 SLA 1957; am § 7 ch 71 SLA 1974)

Effect of amendment. — The 1974 amendment added "or registered physical therapy assistant" to the end of the third sentence.

Sec. 08.84.100. Renewal of registration. (a) A registered physical therapist or physical therapy assistant shall renew his registration biennially with the Department of Commerce and Economic Development on or before the date set by the department under AS 08.01.100(a). If the registration is not renewed on or before that date, it lapses.

(b) A penalty of $10 shall be charged in addition to all delinquent renewal fees for reinstatement of registration which remains lapsed for more than 60 days. If the registration remains lapsed for more than three years, the board may require the applicant to take and pass the examination given under § 30(3) of this chapter. (§ 9 ch 74 SLA 1957; am § 4 ch 49 SLA 1969; am § 8 ch 71 SLA 1974; am § 4 ch 208 SLA 1975; am § 54 ch 218 SLA 1976)

Effect of amendments. — The 1974 amendment inserted "or physical therapy assistant" near the beginning of the first sentence of subsection (a).

The 1975 amendment substituted "§ 30(3)" for "§ 30(4)" in the second sentence of subsection (b).

The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in the first sentence of subsection (a).

Sec. 08.84.110. Renewal fee.
Repealed by § 8 ch 49 SLA 1969.

Editor's note. — The repealed section derived from § 9, ch. 74, SLA 1957.

Sec. 08.84.120. Refusal, revocation and suspension of registration. The board may refuse to register an applicant, may refuse to renew the registration of a person, and may suspend or revoke the registration of a person who

(1) is habitually drunk or addicted to the use of narcotic drugs;

(2) is, in the judgment of the board, guilty of immoral or unprofessional conduct;

(3) has been convicted of violating a state or federal narcotic law;

(4) has been convicted of a crime involving moral turpitude;

(5) is guilty, in the judgment of the board, of gross negligence in his practice as a physical therapist;

(6) has obtained or attempted to obtain registration by fraud or material misrepresentation;

(7) has been declared mentally ill by a court and has not thereafter been lawfully declared sane; or

(8) has treated or attempted to treat ailments of human beings otherwise than by physical therapy, or has attempted to practice independent of the prescription and direction of a person licensed to practice medicine or osteopathy;

(9) as a physical therapy assistant, has attempted to practice physicai therapy which has not been initiated, supervised and terminated by a registered physical therapist. (§ 10 ch 74 SLA 1957; am § 5 ch 49 SLA 1969; am § 9 ch 71 SLA 1974)

Effect of amendment. — The 1974 amendment added paragraph (9).

Cited in Leege v. Martin, Sup. Ct. Op. No. 131 (File No. 256), 379 P.2d 447 (1963).

Article 3. Unlawful Acts.

Section
130. False claim of registration forbidden
140. Penalty for fraud in obtaining registration
150. Registration of physical therapists
160. Practice of registered physical therapist
170. Penalty
180. Investigation by board
185. Limits or conditions on license; discipline

Sec. 08.84.130. False claim of registration forbidden. (a) A person not registered as a physical therapist, or whose registration is suspended or revoked, or whose registration is lapsed, who uses in connection with his name the words or letters "R.P.T.," "Registered Physical Therapist," or other letters, words, or insignia indicating or implying that he is a registered physical therapist, or who in any way, orally, or in writing, directly or by implication, represents himself as a registered physical therapist is guilty of a misdemeanor.

(b) A person not registered as a physical therapy assistant, or whose registration is suspended or revoked, or whose registration is lapsed, who in any way, orally, or in writing, directly or by implication, represents himself as a registered physical therapy assistant is guilty of a misdemeanor. (§ 11 ch 74 SLA 1957; am § 10 ch 71 SLA 1974)

Effect of amendment. — The 1974 amendment designated the provisions of this section as subsection (a) and added subsection (b).

Sec. 08.84.140. Penalty for fraud in obtaining registration. A person who wilfully makes a false oath or affirmation or who obtains or attempts to obtain registration by a fraudulent representation is guilty of a misdemeanor. (§ 12 ch 74 SLA 1957)

Sec. 08.84.150. Registration of physical therapists. (a) It is unlawful for anyone to practice physical therapy without being registered in accordance with this chapter.

(b) A person practicing physical therapy without being registered on April 27, 1969 may continue to practice for a period of six months. At the end of that period he must be registered under § 90 of this chapter in order to continue to practice physical therapy in the state. (§ 14 ch 74 SLA 1957; am § 6 ch 49 SLA 1969)

Sec. 08.84.160. Practice of registered physical therapist. A person registered under this chapter may not treat human ailments by physical therapy or otherwise except under the prescription and direction of a person licensed to practice medicine or osteopathy. This chapter does not authorize any person to practice medicine, osteopathy, chiropractic, or other method of healing. A person who violates this section is guilty of a misdemeanor. (§ 13 ch 74 SLA 1957; am § 7 ch 49 SLA 1969)

Sec. 08.84.170. Penalty. A person who violates this chapter is guilty of a misdemeanor, and upon conviction is punishable by a fine of not less than $50 nor more than $500, or by imprisonment for not more than 30 days. (§ 17 ch 74 SLA 1957)

Sec. 08.84.180. Investigation by board. The board shall investigate every supposed violation of this chapter coming to its notice and shall report all cases which in the judgment of the board warrant prosecution to the proper law enforcement officials. (§ 17 ch 74 SLA 1957)

Sec. 08.84.185. Limits or conditions on license; discipline. (a) In addition to action under § 180 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education or health the authority to practice physical therapy should be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by specialty, procedure or facility, require additional education or training, or revoke or suspend a registration.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 29 ch 102 SLA 1976)

Article 4. General Provisions.

Section
190. Definitions
200. Short title

Sec. 08.84.190. Definitions. As used in this chapter, unless the context otherwise requires,

(1) "board" means the State Physical Therapy Board;

(2) "physical therapist" means a person who practices physical therapy;

(3) "physical therapy" means the treatment of a bodily or mental condition of a person by the use of the properties of heat, light, water, electricity, massage, therapeutic exercise including physical rehabilitation procedures, and physical therapy evaluation, treatment planning, instruction and consultative services; the use of roentgen rays and radium for diagnostic and therapeutic purposes, and the use of electricity for surgical purposes, including cauterization, are not included within the term "physical therapy";

(4) "physical therapy assistant" means a person who assists in the practice of physical therapy or portions of it as initiated, supervised, and terminated by a registered physical therapist; his responsibilities do not include testing or evaluation. (§ 2 ch 74 SLA 1957; am § 11 ch 71 SLA 1974)

Effect of amendment. — The 1974 amendment substituted "State Physical Therapy Board" for "State Medical Board" in paragraph (1), inserted "and physical therapy evaluation, treatment planning, instruction and consultative services" in paragraph (3), and added paragraph (4).

Sec. 08.84.200. Short title. This chapter may be cited as the Physical Therapists Practice Act. (§ 1 ch 74 SLA 1957)

STATE OF ALASKA
Board of Examiners in Optometry
(September, 1978)

Findings

Research and interviews conducted in the preparation of this review indicated that State regulation of this profession is justified, however, regulation through a Board of Optometry is unnecessary. Potential damage to a consumer is possible in some cases. The financial investment is not unduly large. The total number of licensees is small (37 in-State). Dissolution of the Board of Examiners in Optometry and assumption of the examination and licensing functions by the administrative agency would adequately serve the physical health and well being of the general public. It is therefore recommended that the Board of Examiners in Optometry be allowed to terminate on June 30, 1979. However, should retention and reestablishment of the Board be determined to be in the public interests, recommendations are made throughout this report which would contribute to efficiency of its operation.

I. General Information

A. Regulated Parties

1. Optometrists

B. Statutory Definition of Regulated Profession

"(2) 'optometry' is the employment of means or methods, other than the use of drugs, for the diagnosis of an optical deficiency or deformity, visual or muscular anomaly of the human eye, or the prescription or application of lenses, prisms or ocular exercises for the correction or relief of the human eye;

(3) 'practicing optometry' means the diagnosis by means or methods other than the use of drugs, of an optical deficiency or deformity, visual or muscular anomaly of the human eye, or the prescription of lenses, prisms or ocular exercises for the correction or relief of the human eye, or the holding of oneself out as being able to do so;" (AS 08.72.300)

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

Curtis M. Johnson, OD (Chairman)	ends June 15, 1978
Timothy B. Mc'.aughlin, OD	ends June 15, 1979
John T. Shank, OD	ends June 15, 1980
Thomas Kinsella	ends June 15, 1978
(Unfilled term since 11-76)	

2. Representation:

Profession = 3
Public = 2 (by statute)

3. Qualifications:

"Three board members shall be licensed, practicing optometrists who have been residents for at least three years. Two shall be persons who have no direct financial interest in the health care industry." (AS 08.72.040)

D. Registration Data

By Examination

Year	# of Candidates	# passed	# failed	% passed	% failed
1975	2	1	1	50	50
1976	7	7	0	100	0
1977	5	5	0	100	0
1978	4	4	0	100	0

Currently registered:

in-State	=	37	(through June, 1978)
out-of-State	=	8	(through June, 1978)
Total		45	

E. Fees

1.	examination	$35.00
2.	reexamination	25.00
3.	waiver	25.00
4.	certificate	50.00
5.	biennial renewal	50.00
6.	branch office registration	25.00

F. Board Revenues and Expenditures

	FY '75	FY '76	FY '77	FY '78
Receipts	$2,190.00	$ 630.00	$2,800.00	$ 795.00

(EXCLUDING DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

	Received	Closed	To Litigation
1975	3	0	0
1976	2	1	0
1977	10	0	0
1978 (through June)	3	0	0

Pending: 17

An additional complaint was filed against the Board by an unsuccessful applicant for licensure. The applicant was given a failing grade, the case went to litigation and the Board agreed to pass and license the applicant largely because the oral examination contained unspecified subject matter that the candidate had not been notified would be included.

II. Criteria and Analysis

A. To what extent has the Board of Examiners in Optometry operated in the public interest?

The Board of Examiners in Optometry has the authority to adopt rules and regulations necessary for the performance of its duties, governing applicants and applications, registering of optometrists and governing the practice of optometry. It may define and adopt rules of professional conduct.

Included in statutory powers given to the Board is the authority to issue branch office certificates of registration to "an Alaskan licensee who maintains a full-time practice in the state but who serves other communities in the state on a part-time basis..." (AS 08.72.125). The Board is charged with the responsibility of prescribing factors to be considered in the issuance of branch office certificates. It appears, however, that the Board has far exceeded its authority in regulations and practices concerning branch office certificates the issuance of which is intended to provide public services.

Board files indicate that a number of applications for branch office registration have been turned down by the Board on the basis that another practitioner already has a branch office in the subject community. A review of current branch office licenses revealed that two practicing optometrists have branch offices in the same two communities. Another

application was refused because the Board determined that the community which was to be served was accessible to a larger community by road. A branch office registration was subsequently issued to another applicant for the same community. Additionally, the Board has periodically demanded that an applicant "explain his reasons" for wanting to establish a branch office practice but this requirement has not been applied to all applicants. Pertaining to branch office certificates, 12 AAC 48.030(a) states in part, "A branch office certificate may be issued for the purpose of serving some community in the state which cannot support an optometrist and which can be shown to the satisfaction of the board to need the service of a licensed optometrist on a part-time basis may be issued a semiannual branch office certificate of registration..." (emphasis added). 12 AAC 48.030(b) states: "No branch office certificate will be issued in a community where a full-time optometric practice is available, and any certificate in force when a full-time practice is established will not be renewed." In October of 1977, an Attorney General's opinion was issued in which the Board was advised that such "obvious anticompetitive implications" restrict part-time practice to communities incapable of supporting a full-time practice and prevent a part-time practice in a community capable of supporting a full-time practice. This opinion further advised "that the board conduct a thorough review of its branching regulations so that it might consider the anticompetitive consequences of its regulations, weigh them against the public interest in maintaining the restrictions in their present form and consider substituting less restrictive alternatives in their stead." The Board has apparently chosen to ignore this advice and continues to restrict the availability of optometric services to the public. It also appears to have gone even further in inconsistent application of its restrictive practices by arbitrarily denying one application and granting another as previously noted.

Branch office certificates have also been transferred or sold with a practice by one practitioner to another. This is in conflict with statutes in that certificates are issued to a licensee, not a practice. If a certificate holder discontinues his practice for some reason, his successor or any other interested licensee should be allowed and required to apply for certification.

AS 08.72.140 sets out qualifications of an applicant for examination which require that (s)he must have "normal color perception and a visual acuity of a standard of at least 20/40 in at least one eye as corrected" and that (s)he must not be "afflicted with a contagious or infectious disease." Application forms do not address these items and there is no record of any applicant ever having complied or having submitted evidence of compliance with the statute. There also is no record of Board consideration and/or approval based on any evidence or statement of compliance from the applicant nor is there any record of continued compliance.

An applicant for examination must also be a graduate of a "recognized" school or college of optometry. Applicants may be, and have been, approved for examination without a Doctor of Optometry degree. These applicants have graduated from science curriculums with a major in optometry. The Board has never formally established what is considered to be a "recognized" school or college, however, it has rejected applicants who (1) did not graduate from an "accredited" school or (2) did not graduate from a "United States" school. In the absence of regulations specifying "accredited" or "recognized" schools, the Board has again exceeded its authority in the arbitrary granting of examination privileges.

"The examination shall be written, practical, and oral in nature. The oral portion of the examination shall be recorded and retained for two years" AS 08.72.160(a). It is difficult to comment on observed aspects of the Board administered examinations because licensing examiners from the administrative agency have been overtly and specifically barred from this procedure by the Board. Files maintained by the agency present the only substantive record of examination proceedings and are inadequate in documentation. Again, the Board has not adopted formal regulations and/or procedures covering the content or grading of examinations.

The first record in Board minutes of a Board administered written examination appears in 1976. However, this may be because the Board previously required only that the applicant had taken and passed the national examination. One unsuccessful candidate filed charges and was ultimately granted a license because the national examination may have been improperly scored and because he had not been notified that the Board would be testing on Alaska Statutes. Questions asked by the Board, and on which candidates are graded, include: (1) "How many members on the Optometry Board?", and (2) "What are the qualifications to be a member of the Board?". These types of questions do not constitute valid measures of competency nor do they elicit an applicant's knowledge of his responsibilities under the law.

While there is no requirement that applicants must have taken and passed the National Board Examination, some have been denied the Alaska examination on that basis. Portions of examination and scoring sheets are at times missing from the files and some scoring sheets were not completed by the examiners. The statutory requirement that oral examinations be recorded and retained for two years has apparently not been complied with.

"Before a license may be renewed the licensee shall submit to the board evidence of 24 hours post graduate education as prescribed by regulations of the board" AS 08.72.181(d). The Board has adopted broad criteria for acceptable post graduate education, including all those programs recognized and approved by the Board. The Board has never refused or questioned any submission. While the statute plainly states that 24 hours of post graduate education shall be submitted as a condition of relicensure, the Board has chosen to waive this requirement. Requirements for licensees who were initially licensed within the two year period prior to renewal have been waived. In a few instances, relicensure was granted to those who either did not comply with the requirements or who submitted a fewer number of hours than those required

without any documentation showing that they were prevented from compliance. "24 hours" has apparently been interpreted to mean either clock hours or credit hours. Forms submitted to verify completion of courses have been accepted without the licensees' name, without the licensees' signature and without an instructor's signature or initials. Notes and letters from various sources have been accepted as verification of attendance. The authority to adopt regulations exempting recent licensees and those who have compelling reasons prohibiting compliance is questionable under the statutory wording. This type of regulation is considered to be reasonable, however, it has not been done. The Board presently has no authority to waive the statutory requirements for continuing education as a condition of relicensure.

Arbitrary standards and procedures by which the Board purports to determine qualifications and competency of applicants and practitioners do not operate in the public interest. Statutory requirements, such as those concerning continuing education and health standards for applicants, are designed to insure a satisfactory level of care quality and availability which is not achieved unless applied consistently as directed.

In response to recent court decisions and concern regarding anticompetitive advertising restrictions, the Federal Trade Commission in May of 1978 adopted a final Trade Regulation Rule:

> "It is an unfair act or practice under Section 5 of the Federal Trade Commission Act for any state or local government entity or any subdivision thereof, state instrumentality, or state or local governmental official to enforce any:
>
> (a) prohibition, limitation or burden on the dissemination of information concerning ophthalmic goods and services by any seller or group of sellers, or

(b) prohibition, limitation or burden on the dissemination of information concerning eye examinations by any refractionist." 16 C.F.R. § 456.3

Recent regulations adopted by the Board in April, 1978 are designed to allow competitive but ethical and professional advertising. This subject is being further addressed by the administrative agency with respect to all boards and commissions under its jurisdiction.

B. To what extent has the operation of the Board of Examiners in Optometry been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Statutory provisions for the Board and the profession are considered to be adequate. The public participation intended for this Board has been somewhat limited by the presence of only one public member as opposed to two authorized by the Legislature in 1976.

Restrictive policies of the Board in issuing branch office certificates are not conducive to provision of services to the public. Practitioners are discouraged from competing in the profession and in the quality of services offered. Some communities either have no choice of practitioners or are only served sporadically.

The Board of Examiners in Optometry has experienced little difficulty in its administrative operations with respect to personnel or budgetary restrictions, with the exception of investigative services. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs except that employee turnover has impeded continuity and follow through on Board requests and actions. All fees and revenues are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes.

Research and record keeping procedures within the administrative agency are now being developed. Noted deficiencies are partially due to the fact that some materials have been forwarded to the Board rather than to the administrative agency. Organization of records, forms and examination information would better enable the Board to perform its functions.

The Board of Examiners in Optometry has experienced the same difficulties as have all other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency. During the past year two investigator positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints.

C. To what extent has the Board of Examiners in Optometry recommended statutory changes which are generally of benefit to the public interest?

Legislation enacted recently with respect to this profession concerned: (1) Board membership, appointment and term of office; (2) Medical Indemnity provisions; (3) applicability of the Administrative Procedure Act; and (4) general "housekeeping" items.

In the 1978 Legislative session, a bill was introduced which would have given selective authority for optometrists to administer diagnostic drugs. This bill did not get out of the committee and was not acted upon.

No recommendations were made by the Board of Examiners in Optometry relating to statutory changes that would be of specific benefit to the public.

D. To what extent has the Board of Examiners in Optometry encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The Board is generally sensitive to public concern and to aspects of public health and welfare. However, very little public interest in the activities of the Board has been shown in the form of attendance at Board meetings, hearings, or as written input. Most public concern is expressed by individuals with particular problems directly approaching Board members.

The Board has not taken any overt action to solicit general public response to its quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Public interest and participation in Board activities has been hampered by the absence of one of the public members authorized by the Legislature in 1976.

Public interests are furthered by the existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[1]

---

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Examiners in Optometry processed and resolved?

Most complaints received against members of the optometry profession were allegations of improper prescriptions or fit, over charging, and prescribing glasses unnecessarily. One unsuccessful candidate for licensure filed charges against the Board and was subsequently licensed due to questionable testing procedures. Only one case out of 18 received since 1975 had been closed as of June 30, 1978. None of the complaints involved physical damage or danger to members of the public.

F. To what extent does the Board of Examiners in Optometry present qualified applicants to serve the public?

Applicants for licensure are not sponsored by the Board of Examiners in Optometry. Individuals wishing to practice within the State must submit fees and application to the administrative agency with documentation of qualifications. One examination each year is currently conducted, monitored and graded by the Board. Applicants who demonstrate a required level of knowledge and proficiency are issued a license.

Current regulations of the Board which restrict temporary permits, restrict services to communities that are incapable of supporting a full-time practice and prohibit practice under a corporation or voluntary association, in conjunction with arbitrary granting of examination and licensure privileges, do not function to present qualified applicants and availability of services to the public.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Examiners in Optometry in its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for four other regulated professions) who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

The Board of Examiners in Optometry issues licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Examiners in Optometry to better serve the interests of the public?

In view of the functions of this Board and the relatively few professional members that are regulated (45 in-and out-of-State), it is felt that present statutes are generally adequate with minor exceptions if the Board is reestablished. Specific statutory language which would grant appropriate exemptions under the continuing education requirements would eliminate any misinterpretation of its applicability. The Board should promulgate and adopt regulations covering examination content and grading procedures and what is considered to be an approved school when applying for licensure.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are simply not adequate to cover transportation and per diem for meetings and examinations, and the Division of Occupational Licensing administrative overhead, such as staff salary, examination expenses, and investigative services.

III. Conclusion

The regulatory functions of the Board of Optometry could be adequately performed by the administrative agency. Examination and licensure of practitioners is determined to be desirable due to the nature of the profession and the fact that optometrists may diagnose deficiencies, deformities or anomalies of the eye.

IV. Summary of Recommendations

A. The Board of Examiners in Optometry should be allowed to terminate on June 30, 1979, and the functions of examining and licensing should be assumed by the administrative agency.

Technical expertise could be provided by members of the profession if needed periodically.

B. If the Board of Examiners in Optometry is reestablished for an additional four-year period, the following recommendations are made:

1. The Board should consistently and appropriately grant examination and licensing privileges based on statutory qualifications for applicants. (See discussion beginning on p. 5)

2. Examination tapes, records and materials should be maintained by the administrative agency as should all records pertaining to Board activities and licensees.

a. Procedures should be established which cover procedures for content and grading of examinations.

b. Only questions relevant to competency and job performance should be included in examination. (See discussion on p. 7 & 8)

3. All restrictions regarding the issuance of branch office certificates should be deleted from Board regulations and certificates should be issued only as allowed by statute.

   The Board should also reconsider its regulatory prohibition against employment of optometrists by a corporation or voluntary association. (See discussion on p. 5)

4. The Board should enforce statutory requirements with respect to visual and health standards for licentiates and should consider methods of ongoing compliance documentation. (See discussion on p. 7)

5. The Board should define what will be accepted as a "recognized school or college of optometry" and do so in consideration of AS 08.72.170(2) which allows waiver of examination to qualified applicants licensed in a foreign country. (See discussion on p. 7)

6. Definite statutory language should be implemented which specifically addresses possible exceptions to the requirements for continuing education as a consideration of relicensure. (See discussion on p. 8)

7. Operation of the Board and public representation/participation would be enhanced by inclusion on the Board of the second public member authorized by the Legislature in 1976. Terms of all members should be restricted to one unless initially appointed to fill a vacancy or following a term of absence. (See discussion on p. 10 and 12)

16 C.F.R. Part 456

Advertising of Ophthalmic Goods and Services

§ 456.1 Definitions

(a) A "buyer" is any person who has had an eye examination.

(b) The "dissemination of information" is the use of newspapers, telephone directories, window displays, signs, television, radio, or any other medium to communicate to the public any information, including information concerning the cost and availability of a product or service.

(c) An "eye examination" is the process of determining the refractive condition of a person's eyes or the presence of any visual anomaly by the use of objective or subjective tests.

(d) "Ophthalmic goods" consist of eyeglasses, or any component of eyeglasses and contact lenses.

(e) "Ophthalmic services" are the measuring, fitting, and adjusting of ophthalmic goods to the face subsequent to an eye examination.

(f) A "person" means any party over which the Federal Trade Commission has jurisdiction. This includes individuals, partnerships, corporations, and professional associations.

(g) A "prescription" is the written specifications for ophthalmic lenses which are derived from an eye examination. The prescription shall contain all of the information necessary to permit the buyer to obtain the necessary ophthalmic goods from the seller of his choice. In the case of a prescription for contact lenses, the refractionist must include in the prescription only those measurements and directions which would be included in a prescription for spectacle lenses.

All prescriptions shall include all of the information specified by state law, if any.

(h) A "refractionist" is any Doctor of Medicine, Osteopathy or Optometry or any other person authorized by state law to perform eye examination.

(i) A "seller" is any person, or his employee or agent, who sells or provides ophthalmic goods and services directly to the public.

§ 456.2 Private Conduct

(a) It is an unfair act or practice for sellers to fail to disseminate information concerning ophthalmic goods and services notwithstanding state or local law to the contrary. PROVIDED: Violation of this subpart by any seller acting alone shall not be deemed to be a violation of Section 5(a)(1) of the Federal Trade Commission Act.

To prevent this unfair act or practice, any seller may engage in the dissemination of information concerning ophthalmic goods and services subject to the limitations expressed in Section 456.5 below.

(b) It is an unfair act or practice for refractionists to fail to disseminate information concerning eye examinations notwithstanding state or local law to the contrary. PROVIDED: Violation of this subpart by any refractionist acting alone shall not be deemed to be a violation of Section 5(a)(1) of the Federal Trade Commission Act.

To prevent this unfair act or practice, any refractionist may engage in the dissemination of information concerning eye examinations. Nothing in this subpart shall excuse a refractionist from compliance with any state or local law which permits the dissemination of information concerning eye examinations, including information on the cost

and availability of those examinations, but requires that specified affirmative disclosures also be included.

§ 456.3 Public Restraints

It is an unfair act or practice under Section 5 of the Federal Trade Commission Act for any state or local government entity or any subdivision thereof, state instrumentality, or state or local governmental official to enforce any:

(a) prohibition, limitation or burden on the dissemination of information concerning ophthalmic goods and services by any seller or group of sellers, or

(b) prohibition, limitation or burden on the dissemination of information concerning eye examinations by any refractionist. PROVIDED: Nothing in subpart (b) shall be construed to prohibit the enforcement of a state or local law which permits the dissemination of information concerning eye examinations, including information on the cost and availability of those examinations, but requires that specified affirmative disclosure also be included.

Violation of subparts (a) and (b) shall not be deemed for purposes of Section 5(m)(1)(A) or Section 19 of the Federal Trade Commission Act to be a violation of Section 5(a)(1) of the Act.

§ 456.4 Conformance to State Law

It is an unfair act or practice under Section 5 of the Federal Trade Commission Act:

(a) for any seller to reduce, limit, or burden the dissemination of information concerning ophthalmic goods and services in order to comply with any law, rule, regulation or code of conduct of any non-

federal legislative, executive, regulatory or licensing entity or any other entity or person, which would have the effect of prohibiting, limiting, or burdening the dissemination of this information, or

(b) for any refractionist to reduce, limit, or burden the dissemination of information concerning eye examinations in order to comply with any law, rule, regulation or code of conduct of any nonfederal legislative, executive, regulatory or licensing entity or any other entity or person, which would have the effect of prohibiting, limiting, or burdening the dissemination of this information. PROVIDED: To the extent that a state or local law, rule, or regulation permits the dissemination of information concerning eye examinations, including information on the cost and availability of those examinations, compliance with that law or regulation shall not be construed to reduce, limit or burden the dissemination of information concerning eye examinations.

§ 456.5 Permissable State Limitations

(a) To the extent that a state or local law, rule, or regulation requires that any or all of the following items be included within any dissemination of information concerning ophthalmic goods and services, such a law, rule, or regulation shall not be considered to prohibit, limit, or burden the dissemination of information:

(1) whether an advertised price includes single vision and/or multifocal lenses;

(2) whether an advertised price for contact lenses refers to soft and/or hard contact lenses;

(3) whether an advertised price for ophthalmic goods includes an eye examination;

(4) whether an advertised price for ophthalmic goods includes all dispensing fees; and

(5) whether an advertised price for eyeglasses includes both frames and lenses.

(b) Where a state or local law, rule or regulation applies to all retail advertisements of consumer goods and services (including a law, rule, or regulation which requires the affirmative disclosure of information or imposes reasonable time, place and manner restrictions), such a law, rule, or regulation shall not be considered to prohibit, limit, or burden the dissemination of information.

(c) If, upon application of an appropriate state or local governmental agency, the Commission determines that any additional requirement of any such state or local governmental agency deemed by that agency to be necessary to prevent deception or unfairness is reasonable and does not unduly burden the dissemination of information, then that requirement shall be permitted to the extent specified by the Commission.

§ 456.6 Private Restraints

(a) It is an unfair act or practice for any person, other than a state or a political subdivision of agency thereof, to prohibit, limit or burden:

(1) the dissemination of information concerning ophthalmic goods and services by any seller;

(2) the dissemination of information concerning eye examinations by any refractionist. PROVIDED: Nothing in this subpart shall be construed to pronibit any person from imposing reasonable affirmative disclosure requirements on the dissemination of information concerning eye examinations.

(b) Any organization or association which is not composed primarily of sellers and/or refractionists, which adopts or enforces self-regulatory guidelines for the dissemination of information which apply to all retail advertisements of consumer goods and services, shall not be deemed to be in violation of this subpart.

(c) The conditioning of membership in a professional or trade association of sellers or refractionists on a requirement that members or prospective members of that association not engage in the dissemination of information concerning ophthalmic goods and services and eye examinations or a requirement that ophthalmic goods and services be advertised only in a prescribed manner shall be deemed to prohibit, limit or burden the dissemination of that information.

§ 456.7 Separation of Examination and Dispensing

In connection with the performance of eye examinations, it is an unfair act or practice for a refractionist to:

(a) fail to give to the buyer a copy of the buyer's prescription immediately after the eye examination is completed. PROVIDED: A refractionist may refuse to give the buyer a copy of the buyer's prescription until the buyer has paid for the eye examination but only if that refractionist would have required immediate payment from that buyer had the examination revealed that no ophthalmic goods were required;

(b) condition the availability of an eye examination to any person on a requirement that that person agree to purchase any ophthalmic goods from the refractionist;

(c) charge the buyer any fee in addition to the refractionist's examination fee as a condition to releasing the prescription to the buyer. PROVIDED: A refractionist may charge an additional fee for verifying ophthalmic goods dispensed by another seller when the additional fee is imposed at the time the verification is performed; or

(d) place on the prescription, or require the buyer to sign, or deliver to the buyer a form or notice waiving or disclaiming the liability or responsibility of the refractionist for the accuracy of the eye examination or the accuracy of the ophthalmic goods and services dispensed by another seller.

§ 456.8 Federal or State Employees

Nothing in this part shall be construed to prohibit any federal, state or local governmental entity from adopting and enforcing standards or requirements concerning the dissemination of information and release of prescriptions by sellers or refractionists employed by those governmental entities.

§ 456.9 Declaration of Commission Intent

(a) It is the purpose of this part to allow retail sellers of ophthalmic goods and services to disseminate information concerning those goods and services in a fair and nondeceptive manner to prospective purchasers. This part is intended to eliminate certain restraints, burdens, and controls imposed by state and local governmental action as well as by private action on the dissemination of information, including advertising, concerning ophthalmic goods and services.

It is the intent of the Commission that this part shall preempt all state and local laws, rules, or regulations that are repugnant to this part, and that would in any way prevent or burden the dissemination of information by retail sellers of ophthalmic goods and services to prospective purchasers, except to the extent specifically permitted by this part. All state or local laws, rules, or regulations which burden the dissemination of information by requiring affirmative disclosure specifically addressed to ophthalmic goods and services are preempted, except for those specifically permitted by this part. State and local laws,

rules, o regulations which apply to advertising of all consumer goods and services, including those that require affirmative disclosure of information, are not preempted.

(b) It is the Commission's intent that state laws which do not permit refractionists to disseminate information concerning eye examinations, including information concerning the cost and availability of those examinations, be preempted. State and local laws, rules or regulations which require affirmative disclosure of information in all disseminations of information concerning eye examinations are not preempted.

(c) The Commission intends this part to be as self-enforcing as possible. To that end, it is the Commission's intent that this part may be used, among other ways, as a defense to any proceeding of any kind which may be brought against any retail seller of ophthalmic goods and services or refractionist who advertises in a nondeceptive and fair manner.

(d) It is not the Commission's intent to compel any seller or refractionist to disseminate information by virtue of this part. On the contrary, the provisions of this part are intended solely for the protection of those sellers and refractionists who want to disseminate information but have been restrained or prevented from advertising due to the prohibitions and restrictions of state and local laws and regulations, or by private action.

(e) In prohibiting the use of waivers and disclaimers of liability in Section 456.4(d), it is not the Commission's intent to impose liability on a refractionist for the ophthalmic goods and services dispensed by another seller pursuant to that refractionist's prescription.

(f) In this part, the Rule, each subpart, and the Declaration of Commission Intent and their application are separate and severable.

Chapter 72. Optometry Law.

Article
1. Board of Examiners in Optometry (§§ 08.72.010—08.72.100)
2. Licensing and Registration (§§ 08.72.110—08.72.270)
3. Unlawful Acts (§§ 08.72.275—08.72.290)
4. General Provisions (§§ 08.72.300—08.72.310)

Article 1. Board of Examiners in Optometry.

Section
10. Creation of board of examiners
20. Membership of board and terms of office
30. Vacancies
40. Qualifications
50. Power of board to adopt regulations
60. Miscellaneous powers and duties of board
70. Applicability of Administrative Procedure Act
80. [Repealed]
90. Record of proceedings
100. [Repealed]

Sec. 08.72.010. Creation of board of examiners. There is created the Board of Examiners in Optometry. (§ 35-3-132 ACLA 1949)

Am. Jur., ALR and C.J.S. references.— 41 Am. Jur., Physicians and Surgeons, § 28.

Optometrist within statute relating to practice of medicine, 22 ALR 1173.

Constitutionality of statute prescribing conditions of practicing medicine as affected by discrimination against or in favor of optometrists, 37 ALR 682.

Constitutionality of statutes and validity of regulations relating to optometry, 98 ALR 905; 22 ALR2d 939.

Right of corporation, or individual not himself licensed, to practice optometry through licensed employee, 102 ALR 343; 128 ALR 585.

One who fills prescription under reciprocal arrangement with optometrist, as subject to charge of practice of optometry without license, 121 ALR 1455.

What constitutes practice of "optometry," 141 ALR 883.

70 C.J.S. Physicians and Surgeons §§ 1, 3, 5, 6, 8, 10, 12.

Sec. 08.72.020. Membership of board and terms of office. The board consists of five persons, appointed by the governor. Members serve staggered terms of three years. The terms of the public members of the board shall be set so that they do not expire at the same time. (§ 35-3-132 ACLA 1949; am § 22 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "five persons" for "three persons" in the first sentence and rewrote the second and third sentences.

Sec. 08.72.030. Vacancies. The governor shall fill vacancies on the board by appointment for the unexpired term. (§ 35-3-132 ACLA 1949)

Sec. 08.72.040. Qualifications. Three board members shall be licensed, practicing optometrists who have been residents for at least three years. Two shall be persons who have no direct financial interest in the health care industry. (§ 35-3-132 ACLA 1949; am § 23 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment rewrote this section.

Sec. 08.72.050. Power of board to adopt regulations. The board shall adopt rules and regulations

(1) necessary for the proper performances of its duties;

(2) governing the applicants and applications for licensing;

(3) for the registration of optometrists;

(4) necessary to govern the practice of optometry. (§ 35-3-133 ACLA 1949)

Chapter contains sole powers of board. — The board, being purely a creature of the legislature, has no powers other than those contained in this chapter. Edmunds v. Board of Exmrs. in Optometry, 9 Alaska 462, aff'd, 9 Alaska 627, 106 F.2d 904 (9th Cir. 1939).

And must be strictly construed.—This chapter and the powers invested in the board are to be strictly construed. Edmunds v. Board of Exmrs. in Optometry, 9 Alaska 462, aff'd, 9 Alaska 627, 106 F.2d 904 (9th Cir. 1939).

Sec. 08.72.060. Miscellaneous powers and duties of board. (a) The board or a member designated by the board, may issue subpoenas, administer oaths and take testimony concerning any matter within its jurisdiction.

(b) The board may adopt a seal.

(c) The board shall elect a president and secretary from among its members.

(d) Repealed by § 3 ch 59 SLA 1966.

(e) The board may define professional conduct and adopt rules of professional conduct.

(f) Repealed by § 3 ch 59 SLA 1966. (§§ 35-3-133, 35-3-140 ACLA 1949; am § 3 ch 59 SLA 1966)

Sec. 08.72.070. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62).

Sec. 08.72.080. Compensation of board and secretary.
Repealed by § 3 ch 59 SLA 1966.

Sec. 08.72.090. Record of proceedings. The Department of Commerce shall keep a record of all proceedings, including the name of each applicant for examination and registration. These records shall be open for public inspection. (§ 35-3-133 ACLA 1949; am § 1 ch 76 SLA 1969)

Sec. 08.72.100. Bond of secretary.
Repealed by § 3 ch 59 SLA 1966.

Article 2. Licensing and Registration.

Section
110. License required
115. Malpractice insurance
120. Registration
125. Registration of branch offices
130. Optometry register
140. Qualifications for examination
150. Application for examination and issuance of certificate
160. Examination
170. Issuance of certificate by waiver of written examination
180. [Repealed]
181. Renewal of license
190. [Repealed]
191. Fees
200—220. [Repealed]
230. Fees and disbursements
240. Revocation of registration certificate or exemption
250. Board action on revocation and renewal
255. Limits or conditions on license; discipline
260. Revocation of license by court
270. Practice not at place of business

Sec. 08.72.110. License required. No person not licensed as an optometrist may fit, sell, or dispose of or take, receive or solicit an order for fitting, sale or disposition of spectacles, eyeglasses or lenses for the correction or relief of an optical or visual defect of the human eye or sell spectacles, eyeglasses or lenses from house to house, or in the streets or highways. This chapter does not apply to the sale of toy glasses, goggles consisting of plano-white or plano-colored lenses or ordinary colored glasses, or complete ready-made spectacles and eyeglasses sold only as merchandise, or the sale or repair of eyeglass frames, or repair or replacement of lenses without pretense of adapting them to the eyes. (§ 35-3-134 ACLA 1949)

Sec. 08.72.115. Malpractice insurance. If medical malpractice insurance for optometrists becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of optometrist services to the public, the director of insurance may require all persons licensed under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance

on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of licensure under this chapter. The provisions of this section are satisfied if the licensee's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 24 ch 102 SLA 1976)

Sec. 08.72.120. Registration. It is unlawful for a person to practice, or attempt, or offer to practice, optometry without first obtaining a certificate of registration from the board, and without filing the certificate with the clerk of the superior court in each judicial district in which he practices. (§ 35-3-135 ACLA 1949)

C.J.S. reference.—70 C.J.S. Physicians and Surgeons § 10

Sec. 08.72.125. Registration of branch offices. (a) The board may issue to an Alaskan licensee who maintains a full-time practice in the state but who serves other communities in the state on a part-time basis a branch office certificate of registration.

(b) It is unlawful for a person to practice, or to attempt or offer to practice, optometry in communities on a part-time basis without obtaining a branch office certificate of registration from the board, and without filing the certificate with the clerk of the superior court in each judicial district in which he maintains a branch office.

(c) The board shall prescribe in the regulations the factors to be considered in issuing a branch office certificate of registration. (§ 2 ch 76 SLA 1969)

Sec. 08.72.130. Optometry register. The clerk of the superior court in each judicial district shall keep a record known as the "Optometry Register" and record the certificate of registration of each optometrist who files his certificate. The clerk shall charge the regular filing fee for registration. When an optometrist dies, or when his certificate is suspended or revoked, the clerk shall note that fact on the record. (§ 35-3-147 ACLA 1949)

Sec. 08.72.140. Qualifications for examination. The board shall admit to the examination a person who furnishes proof that

(1) Repealed by § 3 ch 76 SLA 1969.

(2) he has normal color perception and a visual acuity of a standard of at least 20/40 in at least one eye as corrected;

(3) he is not afflicted with a contagious or infectious disease;

(4) he has had education equivalent to four years attendance at a state high school;

(5) he is a graduate of a recognized school or college of optometry;

(6) he is of good moral character. (§ 35-3-141 ACLA 1949; am § 1 ch 95 SLA 1966; am §§ 3—5 ch 76 SLA 1969)

Cited in Edmunds v. Board of Exmrs. in Optometry, 9 Alaska 627, 106 F.2d (904 (9th Cir. 1939).

C.J.S. references. — 53 C.J.S. Licenses § 34; 70 C.J.S. Physicians and Surgeons § 12.

Sec. 08.72.150. Application for examination and issuance of certificate. An applicant shall apply for the examination by filing an application with the department together with the examination fee at least 15 days before the examination. Upon successful completion of the examination by the applicant and payment of the fee, the board shall issue a certificate of registration as a licensed optometrist to the applicant. After the applicant has properly filed his certificate of registration he may practice optometry in the state. (§ 35-3-141 ACLA 1949; am § 6 ch 76 SLA 1969)

Sec. 08.72.160. Examination. (a) The examination shall be written, practical, and oral in nature. The oral portion of the examination shall be recorded and retained for two years.

(b) An applicant who fails the practical or the oral portion of the examination may take a re-examination in that portion without paying an additional examination fee.

(c) An applicant who fails the written portion of the examination may take a re-examination in the written portion upon payment of an additional examination fee.

(d) An applicant who fails more than one portion of the examination must retake the entire examination and pay the full examination fee. (§ 35-3-141 ACLA 1949; am § 7 ch 76 SLA 1969)

Sec. 08.72.170. Issuance of certificate by waiver of written examination. (a) The board may waive the written portion of the examination requirement for an applicant who:

(1) meets the qualifications of § 140 of this chapter;

(2) holds a current license by examination in another state, territory or foreign country and has been established in ethical optometric practice for at least three years before the application, or shows satisfactory evidence of having passed the written portion of the examination given by the National Board of Examiners in Optometry; and

(3) has not had a certificate or license revoked for cause in any state, territory or foreign country.

(b) No waiver of the practical or oral portions of the examinations may be given. (§ 35-3-142 ACLA 1949; am § 8 ch 76 SLA 1969)

Cited in Edmunds v. Board of Exmrs. in Optometry, 9 Alaska 627, 106 F.2d 904 (9th Cir. 1939).

Sec. 08.72.180. Annual renewal of license.

Repealed by § 7 ch 94 SLA 1968.

614 SC 1 VOLUME, SUNSET REVIEWS (HEALTH CARE)

Sec. 08.72.181. Renewal of license. (a) To remain in force a license must be renewed biennially.

(b) An optometrist licensed in this state and serving in the military service of the United States, while in the discharge of his official duties, may maintain his eligibility to practice in this state without paying a renewal fee by registering his name and place of residence with the department.

(c) An application for license renewal shall contain the name, office and post office address, date and license number of the licensee, and other information the board considers necessary.

(d) Before a license may be renewed the licensee shall submit to the board evidence of 24 hours post graduate education as prescribed by regulations of the board. (§ 9 ch 76 SLA 1969)

Sec. 08.72.190. Fee for license by reciprocity.
Repealed by § 10 ch 76 SLA 1969.

Editor's note. — The repealed section derived from § 35-3-149, ACLA 1949.

Sec. 08.72.191. Fees. The following fees shall be imposed under this chapter when applicable:

(1) examination fee	$35
(2) re-examination fee for written portion	25
(3) waiver of examination fee	25
(4) certificate fee	50
(5) biennial renewal fee	50
(6) branch office biennial registration fee	25

(§ 11 ch 76 SLA 1969)

Sec. 08.72.200. Examination fee.
Repealed by § 10 ch 76 SLA 1969.

Editor's note. — The repealed section derived from § 35-3-149, ACLA 1949.

Sec. 08.72.210. Certificate fee.
Repealed by § 10 ch 76 SLA 1969.

Editor's note. — The repealed section derived from § 35-3-149, ACLA 1949; § 1, ch. 12, SLA 1963.

Sec. 08.72.220. Renewal fee.
Repealed by § 10 ch 76 SLA 1969.

Editor's note. — The repealed section derived from § 35-3-149, ACLA 1949; § 2, ch. 12, SLA 1963.

Sec. 08.72.230. Fees and disbursements. The department shall collect all fees and keep a record of each transaction, and shall remit to the Department of Revenue all money received. (§ 35-3-138 ACLA 1949; am § 12 ch 76 SLA 1969)

Sec. 08.72.240. Revocation of registration certificate or exemption. The board may revoke a certificate of registration or exemption granted by it if the holder

(1) has violated a rule, order or regulation of the board; or

(2) has violated this chapter or is guilty of a crime; or

(3) is grossly incompetent, afflicted with a contagious disease, habitually drunk or guilty of unprofessional conduct. (§ 35-3-140 ACLA 1949)

C.J.S. references. — 53 C.J.S. Licenses § 44; 70 C.J.S. Physicians and Surgeons §§ 10, 15.

Sec. 08.72.250. Board action on revocation and renewal. In a proceeding for the revocation of a certificate of registration or for the annulment of registration the board shall make a complete written report of its findings, and if the board finds that any of the charges are sustained, the board may revoke the certificate of the accused, or annul his registration, or both. If the board annuls the registration, it shall transmit to the clerk of the judicial district in which the accused is registered as an optometrist, a certificate under its seal, certifying that his registration has been annulled. The clerk shall, upon receipt of the certificate, file it and mark the registration "annulled." The board may, after the expiration of one year, entertain an application for the renewal of a revoked certificate, in the same manner as an original application for a certificate and may exempt the applicant from the examination. (§ 35-3-140 ACLA 1949)

Full and substantial hearing.—It is not necessary that the board follow technical legal procedure. A full and substantial hearing of the charges, where denied, is all that is required. Edmunds v. Board of Exmrs. in Optometry, 9 Alaska 462, aff'd, 9 Alaska 627, 106 F.2d 904 (9th Cir. 1939).

Under this section the board may not entertain an application until the expiration of one year. Edmunds v. Board of Exmrs. in Optometry, 9 Alaska 627, 106 F.2d 904 (9th Cir. 1939).

Order revoking renewal certificate cannot be set aside in a mandamus proceeding. Edmunds v. Board of Exmrs. in Optometry, 9 Alaska 627, 106 F.2d 904 (9th Cir. 1939).

Conduct justifying treatment of charge as confessed.—Where a written complaint and notice were served on an optometrist requiring him to appear and answer charges against him by the board, but where no answer, denial or appearance was ever made, it was not incumbent upon the board to call any witnesses or receive any evidence in support of the charges, and the board was justified in treating the charge as confessed and entering its findings accordingly. Edmunds v. Board of Exmrs. Optometry, 9 Alaska 462, aff'd, 9 Alaska 627, 106 F.2d 904 (9th Cir. 1939).

Sec. 08.72.255. Limits or conditions on license; discipline. (a) In addition to action under §§ 240 and 250 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education, or health the authority to practice optometry under this chapter should be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by specialty, procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 24 ch 102 SLA 1976)

Sec. 08.72.260. Revocation of license by court. A license may be revoked by the superior court upon proof of violation of law or for a cause for which the board may refuse admittance to its examination. The attorney general shall prosecute appropriate judicial proceedings upon request of a member of the board. (§ 35-3-146 ACLA 1949)

Sec. 08.72.270. Practice not at place of business. (a) A registered optometrist, who temporarily practices optometry away from his regular place of business, shall display his registration certificate and deliver to each patient or person fitted or supplied with glasses a receipt with his signature showing his permanent place of business or post office address, certificate number, and the amount charged. A licensee who fails to comply with any of the foregoing provisions for six months after issuance of the certificate shall forfeit his certificate.

(b) Nothing contained in this section shall be construed as permitting peddling or canvassing by licensed optometrists. (§ 35-3-136 ACLA 1949)

Article 3. Unlawful Acts.

Section		Section	
275.	Lenses and frames for eyeglasses and sunglasses	280.	Violations
		290.	Penalty

Sec. 08.72.275. Lenses and frames for eyeglasses and sunglasses. (a) No person may fabricate, distribute, sell, exchange, deliver or have in his possession with intent to distribute, sell, exchange or deliver eyeglasses or sunglasses unless they are fitted with plastic lenses, laminated lenses, heat-treated glass lenses, or glass lenses made impact resistant by other methods. All plastic and heat-treated glass lenses, before they are mounted in frames, shall be capable of withstanding the impact of a five-eighths inch steel ball dropped on the lens from a height of 50 inches. The impact test shall be conducted at room temperature, with the lens supported by a plastic tube one inch inside diameter, one and one-fourth inch outside diameter, with a one-eighth inch by one-eighth inch neoprene gasket on the top edge.

(b) No person may fabricate, distribute, sell, exchange, deliver or have in his possession with intent to distribute, sell, exchange or deliver eyeglasses or sunglasses having frames manufactured from cellulose nitrate or other highly flammable materials.

(c) A person who violates this section is punishable by a fine of not less than $50 nor more than $100. (§ 1 ch 220 SLA 1968; am § 1 ch 48 SLA 1973)

Effect of amendment. — The 1973 amendment rewrote subsection (a).

Sec. 08.72.280. Violations. No person may falsely personate a registered optometrist, nor buy, sell or fraudulently obtain a certificate of registration issued to another or advertise the practice of optometry in violation of rules of the board. Practicing or offering to practice optometry is sufficient evidence of a violation of this chapter. (§ 35-3-144 ACLA 1949)

Sec. 08.72.290. Penalty. A person who violates this chapter is guilty of a misdemeanor and is punishable by a fine of not less than $50 nor more than $500, or by imprisonment for a term of not less than 10 days nor more than 90 days, or by both. (§ 35-3-145 ACLA 1949)

C.J.S. references. — 53 C.J.S. Licenses §§ 62 to 65.

Article 4. General Provisions.

Section
300. Definitions
310. Short title

Sec. 08.72.300. Definitions. As used in this chapter

(1) "board" means the Board of Examiners in Optometry;

(2) "optometry" is the employment of means or methods, other than the use of drugs, for the diagnosis of an optical deficiency or deformity, visual or muscular anomaly of the human eye, or the prescription or application of lenses, prisms or ocular exercises for the correction or relief of the human eye;

(3) "practicing optometry" means the diagnosis, by means or methods other than the use of drugs, of an optical deficiency or deformity, visual or muscular anomaly of the human eye, or the prescription of lenses, prisms or ocular exercises for the correction or relief of the human eye, or the holding of oneself out as being able to do so;

(4) "lenses" means conventional or contact lenses;

(5) "recognized school or college of optometry" is one which is approved by the American Optometric Association or one of its committees;

(6) "department" means the Department of Commerce and Economic Development. (§ 35-3-131 ACLA 1949; am § 2 ch 95 SLA 1966; am § 13 ch 76 SLA 1969; am § 53 ch 218 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (6).

This chapter is a valid exercise of the legislative power. Edmunds v. Board of Exmrs. in Optometry, 9 Alaska 462, aff'd, 9 Alaska 627, 106 F.2d 904 (9th Cir. 1939).

Sec. 08.72.310. Short title. This chapter may be cited as the Optometry Law. (§ 35-3-150 ACLA 1949)

CHAPTER 48.
BOARD OF EXAMINERS IN OPTOMETRY

Section

10. Board membership
20. Biennial license renewals and reinstatement
30. Branch office certificates
40. Display of certificate
50. When a practice is conveyed to another
60. Visual analysis records
63. Advertising
65. Routine vision examination
70. Unprofessional conduct
80. Definitions

12 AAC 48.010. BOARD MEMBERSHIP. The secretary shall notify the office of the governor of Alaska whenever a vacancy occurs. The secretary shall supply the governor with a list of all Alaska-registered optometrists who have resided in Alaska for a period of three years or more, and are qualified as the statute provides, AS 08.72.040. (In effect before 7/28/59; am 9/10/65, Reg. 21; am 4/24/71, Reg. 37)

Authority: AS 08.72.030
AS 08.72.050(1)

12 AAC 48.020. BIENNIAL LICENSE RENEWALS AND REINSTATEMENT. (a) The postgraduate education may be obtained any time within the two-year renewal period, but may not be carried over from one renewal period to the other.

(b) Courses that will be accepted are: educational courses given at the American Optometric Association Annual Convention or any AOA affiliate state optometric convention; seminars held by committees of the American Optometric Association or organized regional Optometric Extension Program Foundation seminars for educational purposes; postgraduate courses offered by recognized schools or colleges of optometry. Other postgraduate courses may be approved by the board if course titles, instructors' names, and a brief description of the course material is submitted to the board 30 days before the commencement of the educational program. Licensees who submit satisfactory proof that they were prevented from attending an educational program because of illness or other reasons may be exempted from this requirement. A form shall be provided with the biennial renewal application that must be validated by the instructor teaching the course. Correspondence courses will not be accepted as fulfilling the requirements of AS 08.72.181. (Eff. 4/24/71, Reg. 37)

Authority: AS 08.72.181

12 AAC 48.030. BRANCH OFFICE CERTIFICATES. (a) A branch office certificate may be issued for the purpose of serving some community in the state which cannot support an optometrist and which can be shown to the satisfaction of the board to need the service of a licensed optometrist on a part-time basis may be issued a semiannual branch office certificate of registration. The name of an associate practicing in a branch office shall appear on the entrance door to the office used and upon all stationery; no commercial name or designation may be used in connection with any branch office nor may such a practice have any commercial lay connections, nor may there be anything in the nature of "chain exploitation" of licenses. Nothing in this section requires an active licensee to obtain a branch office certificate for the purpose of rendering necessary optometric services for his patients confined to their homes.

(b) No branch office certificate will be issued in a community where a full-time optometric practice is available, and any certificate in force when a full-time practice is established will not be renewed.

(c) No branch office certificate will be required for a licensee to participate in bona fide vision and eye-screening projects outside of his regular or branch office. Vision and eye-screening projects must be organized under the auspices of an established service organization not composed primarily of optometrists.

(d) Optometrists who participate in vision and eye-screening projects may not receive remuneration for their services other than for travel and living expenses and for emergency care as required. (In effect before 7/28/59; am 9/10/65, Reg. 21; am 4/24/71, Reg. 37)

Authority: AS 08.72.125(c)

12 AAC 48.040. DISPLAY OF CERTIFICATE. A licensee's registration certificate and renewal certificate shall be

displayed in the office in which the holder practices optometry, but not in such a manner that the certificate may be seen from the street. Every licensee, whenever requested, shall exhibit the certificate to a member of the board or person authorized to represent the board and shall notify the department or board of his address and changes of his address. (In effect before 7/28/59; am 9/10/65, Reg. 21; am 4/24/71, Reg. 37)

Authority: AS 08.72.050(4)

12 AAC 48.050. WHEN A PRACTICE IS CONVEYED TO ANOTHER. When an optometrist disposes of his established practice to a successor, the successor shall, within a reasonable time, remove from all signs, cards, stationery, and directories connected with the practice he has acquired or is acquiring, all words or phrases such as "successor to," "associate of," or words of like import. Under no circumstances may the use of these signs, cards, stationery or advertising continue for more than two years. (In effect before 7/28/59; am 9/10/65, Reg. 21; am 4/24/71, Reg. 37)

Authority: AS 08.72.050(4)

12 AAC 48.060. VISUAL ANALYSIS RECORDS. Every optometrist shall keep a record of examinations and visual analyses made and prescriptions issued and for whom the prescriptions were prepared. The record shall be preserved for a period of at least five years from the date services were rendered, except in the case of death of the patient. (In effect before 7/28/59; am 9/10/65, Reg. 21; am 4/24/71, Reg. 37)

Authority: AS 08.72.050(4)

12 AAC 48.063. ADVERTISING. (a) An advertisement concerning the availability, sale or price of frames or mountings for spectacle lenses must contain a readily legible statement, in the same type size as the main body of the advertisement, which specifies the

(1) name of the manufacturer;

(2) material from which the frames or mountings are made;

(3) country of origin; and

(4) style name or model number.

(b) An advertisement concerning the availability, sale, or price of spectacle or contact lenses must contain a readily legible statement, in the same type size as the main body of the advertisement, which specifies the

(1) name of the manufacturer;

(2) material from which the lenses are made;

(3) country of origin;

(4) absorptive property of the lenses, whether clear or tint;

(5) refractive powers of the lenses, whether low, medium or high; and

(6) type or style, whether single vision, bifocal or trifocal.

(c) An advertisement concerning the fees charged for optometric services, other than for an initial routine vision examination, must contain a readily legible statement in the same type size as the main body of the advertisement, which specifies the tests and measurements to be performed.

(d) An advertisement for a routine vision examination or complete eye examination or which uses language of similar import, need not specify the tests and measurements to be performed so long as the optometrist providing the advertised services complies with the examining and recording standards established by sec. 65 of this chapter. Failure to comply with the standards is unprofessional conduct within the meaning of AS 08.72.240(3).

(e) Advertising permitted by this section may only appear in newspapers, periodicals, and professional directories and must include the name of the licensed optometrist. (Eff. 2/14/78, Reg. 65)

Authority: AS 08.72.050(4)
AS 08.72.060(e)

12 AAC 48.065. ROUTINE VISION EXAMINATION. For the purposes of this chapter, an advertisement for a routine vision examination means that the optometrist shall at a minimum adhere to the following standards in the intial examination of the patient:

(1) the optometrist shall, in accordance with professionally recognized standards, make and record the following findings of the condition of the patient:

(A) a complete case history including ocular, physical, occupational and medical data and other pertinent information concerning the patient;

(B) aided and unaided visual acuity at both near and far;

(C) external examination of the eyes and adnexa;

(D) internal ophthalmoscopic examination;

(E) ocular motility and neurological integrity;

(F) a far point subjective examination, a static retinoscopy, and a subjective refraction;

(G) a near point subjective examination, a dynamic retinoscopy and a subjective refraction;

(H) tests of accommodation and convergence and binocular coordination at far and near, preferably made with a phoropter; and

(I) confrontation fields and tonometry tests;

(2) if contact lenses are prescribed, a routine vision examination includes, in addition to the requirements of subsection (1):

(A) a slit lamp evaluation;

(B) a fluorescein examination;

(C) a diagnostic evaluation when soft lenses are prescribed; and

(D) reexamination and reevaluation within three months in the case of firm lenses and within six months in the case of soft lenses. (Eff. 2/14/78, Reg. 65)

Authority: AS 08.72.050(4)
AS 08.72.060(c)

12 AAC 48.070. UNPROFESSIONAL CONDUCT. (a) An optometrist may not engage in unprofessional conduct within the meaning of AS 08.72.240(3). Without limiting the general application of the foregoing, the following conduct is a violation of this section:

(1) except as provided by sec. 63 of this chapter, soliciting patients by advertising of any nature or description regardless of means or media employed; however, upon the opening, reopening or removal of any office for the practice of optometry, an optometrist may publish, in local newspapers, an announcement, which announcement is limited to a statement of his name, title, profession, degrees, specialty, address, telephone number and office hours; the announcement may not be published for more than 90 days after the opening, reopening, or removal of the office; the announcement may not exceed eight square inches in area;

(2) displaying any spectacle, eyeglasses or eyeglass or spectacle frames or mountings, goggles, lenses, prisms, spectacle or eyeglass cases, ophthalmic material of any kind, optometric instruments or optical tools or machinery, or any merchandise, material or displays of a commercial nature in office windows or reception rooms or display cases outside the office, where the display of the merchandise, material or display would make it visible from outside the office;

(3) using display or boldface type or type that is in any way dissimilar in size, shape or color to that used for others of the healing arts in the same directory;

(4) using any false, deceptive, or misleading representation in connection with any advertising concerning ophthalmic prosthetic products or optometric services;

(5) using "bait" advertising;

(6) using signs whether painted, neon, decalcomania, colored or otherwise, and whether constructed in the form of eyes or structures resembling them, or frames or mountings for any type of lenses or other ophthalmic prosthetic products displayed in any manner or place connected with the practice of optometry;

(7) using publicly, a sign, card, stationery, or other publicity medium which fails to clearly identify the individual optometrist or optometrists engaged in practice in an office or practice location, or using a name other than the name under which the optometrist is licensed including such designations as "optical company," "optical laboratory," or words or pharses of like import which are out of keeping with the use of the title "Doctor of Optometry" and the practice of optometry as a profession;

(8) soliciting, personally or through agents, from house to house for the rendering of optometric services or sale of ophthalmic prosthetic products;

(9) advertising self-styled superiority or the performance of services in a manner presumed to be superior, or the making of untruthful, improbable or impossible claims regarding treatments, cures, or values;

(10) lending, leasing, renting, or in any other manner placing a certificate of registration at the disposal of or in the service of any person not licensed to practice optometry in this state.

(b) An optometrist may not associate with a corporation or voluntary association for the practice of optometry, or in any manner practice the profession, on a salary or commission basis, for a corporation or voluntary association. However, this subsection does not prohibit professional incorporation under the Professional Corporation Act, AS 10.45. The fact that an officer, trustee, director, agent, or employee of a corporation or voluntary association is an optometrist does not permit the corporation or voluntary association to do the acts prohibited in this section, nor is that fact a defense to board action against any of the persons mentioned in this subsection for a violation of this section; however, this subsection does not apply to a partnership of two or more registered and licensed optometrists who practice under their own names.

(c) It is unlawful for an optometrist to practice optometry as an employee, lessee, or sublessee of a commercial or mercantile establishment or to practice optometry in connection with one, or to advertise either in person or through a commercial or mercantile establishment that he is a registered practitioner and is practicing or will practice optometry as an employee, lessee, or sublessee of a commercial or mercantile establishment or in connection with one. Nothing in this subsection prohibits the rendering of professional services to the officers and employees of a person, firm, or corporation by an optometrist, whether or not the compensation for the services is paid by the officers and employees or by the employer or jointly by all or any of them.

(d) No optometrist may practice in or on premises where any materials other than those necessary to render his professional services are dispensed to the public.

(e) No optometrist may display a sign containing other than his name, profession, recognized specialty, and office hours, which sign may be used only on office windows or at an entrance to his office. Letters may not be luminous or illuminated.

(f) No optometrist may represent himself or herself as a specialist in an optometric field unless he or she is certified, as a diplomate of the American Academy of Optometry or as a fellow of the College of Vision Development, in a recognized specialty. The board recognizes American Academy certification in contact lenses, binocular vision, geriatric care, and low vision, and College of Vision Development fellowships in vision training and developmental vision. (In effect before 7/28/59; am 9/10/65, Reg. 21; am 4/24/71, Reg. 37; am 2/14/78, Reg. 65; am 7/6/78, Reg. 67)

Authority: AS 08.72.050(4)
AS 08.72.060(e)
AS 08.72.240(3)

12 AAC 48.080. DEFINITIONS. Unless the content in this chapter otherwise states:

(1) "Act," "law," or "statute" refers to AS 08.72.;

(2) "regulations" referred to are those made by the board in keeping with AS 08.72.;

(3) "registration" means registration under AS 08.72.;

(4) "chain exploitation" means establish-

ments that provide vision care in various locations either in one community or throughout a geographic area, where the service is provided by one or more than one optometrist in each or more than one location, and who is under the employ or have an agreement based on a lease, rental agreement partnership, stockholder, or other binding agreement; where control over these establishments are exercised by an individual or group of individuals;

(5) "established service organizations" means an organization who holds a charter from a parent organization whose primary established goal is public service without profit;

(6) "vision and eye-screening projects" means a project organized with the intent of identification and referral of vision and eye disorders;

(7) "prescription" means a written formula prepared by a person licensed under AS 08.72 and which contains the following essential elements when applicable to eyeglasses, contact lenses or other visual therapy: diopric power of spheres, cylinders and prisms, axis of cylinders and position of prism base; designation of inter-pupillary distances; size, base curve, power, color and type, when a contact lens; and the name of the patient, date of prescription and name and office location of prescriber;

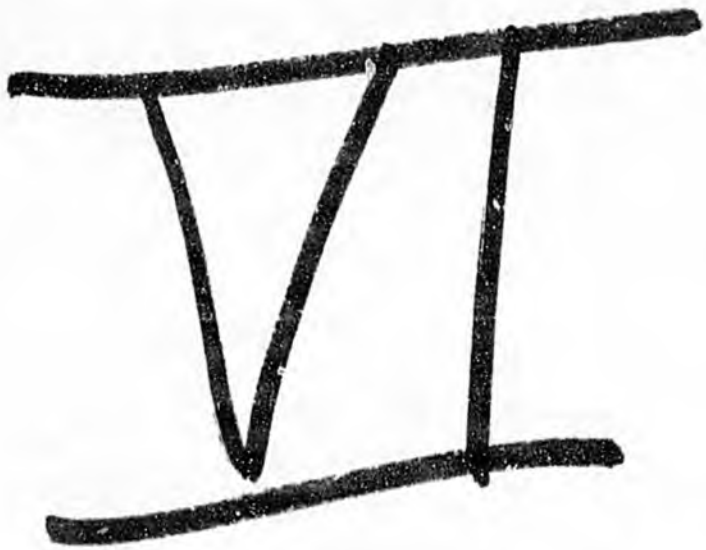
(8) "ophthalmic prosthetic products" means eye-glasses, lenses, contact lenses, frames or any component thereof or any other device used for or incident to the correction of any visual anomaly;

(9) "optometric services" means the measuring, fitting and adjusting of ophthalmic prosthetic products to the face and eyes; and

(10) "routine vision examination" is the process of determining the refractive condition of a person's eyes or the presence of any visual anomaly by the use of objective and subjective tests. (In effect before 7/28/59; am 9/10/65, Reg. 21; am 4/24/71, Reg. 37; am 2/14/78, Reg. 65)

Authority: AS 08.72.050(1) and (4)

12 AAC 48.1100 – 12 AAC 48.1121. Repealed. (4/24/71, Reg. 37)



STATE OF ALASKA
Board of Psychologist and Psychological
Associate Examiners
(September, 1978)

Findings

In contrast to most health care professions, services of a psychological nature often cannot be measured in terms of imminent physical improvement or tangible results. Methods are employed in the treatment of illnesses of the mind and emotions which should be used only by properly educated and certified individuals.

Persons with emotional handicaps should be given a choice in the type of treatment which is available. Mental therapy is available in two general forms: through the use of drugs by a psychiatrist and without the use of drugs by a psychologist. The choice of methods, in theory, results in the same end. It is the method of treatment which differs and, in the case of the mind and emotions, both methods require regulation by the State. State regulation and certification of this profession is necessitated by the need to assure the public of practitioner competency so that whatever form of therapy is chosen, the practitioner has been determined to be qualified.

The Board of Psychologist and Psychological Associate Examiners, in practice, has been arbitrary and capricious in the application of the laws contained in its practice act to applicants for examination and licensure. The Board also has repeatedly ignored Attorney General advice relating to various applicants. In accordance with the criteria established within the Sunset Act, it is recommended that the Board of Psychologist and Psychological Associate Examiners be allowed to terminate on June 30, 1979. In

light of the Board's past performance, the availability of standardized examinations offered by a Professional Examination Service and statutorily defined minimum qualifications, regulatory functions necessary for this profession could be assumed by the administrative agency.

I. General Information

A. Regulated Parties

1. Psychologists
2. Psychological Associates

B. Statutory Definition of Regulated Profession

"(2) 'to practice psychology' means to apply established principles of learning, motivation, perception, thinking, and emotional relationships to problems of personnel evaluation, group relations, and behavior adjustment, including

(A) counseling and guidance;
(B) using psychotherapeutic techniques with persons or groups at school, or at work;
(C) measuring and testing of personality, intelligence, aptitudes, emotions, and attitudes and skills;
(D) conducting research on human behavior;"

"(5) 'psychological associate' includes a counselor and psychometrist;"

"(7) 'to practice counseling' means to apply established principles of learning, motivation, perception, thinking, and emotional relationships to problems of group relations, and behavior adjustment,

(A) counseling and guidance;

(B) using counseling techniques with persons or groups of persons who have adjustment problems in the family, school or at work;

(C) limited use of testing including tests of intelligence or tests of motor skills;"

"(9) 'to practic psychometrics' means to apply the recognized principles, methods and procedures of the science and profession of psychology, but limited to the administering, scoring, and interpreting of tests of mental abilities, aptitudes, interests, motor skills and objective tests of personality characteristics for purposes such as psychological evaluation or for educational or vocational education, guidance or placement;"
(AS 08.86.230)

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

Dorothy Whitmore, Ed.D. (Chairman)	ends July 1, 1980
Pamela Delys-Baglien, Ph.D	ends July 1, 1981
James C. Parsons, Ed.D.	ends July 1, 1979
Dick L. Madson	ends July 1, 1980
Robert D. Bowers	ends July 1, 1981

2. Representation:

Profession = 3
Public = 2

3. Qualifications:

Professional members must be licensed; public members must have no direct financial interest in the health care industry.

G. Complaints

	Received	Closed	To Litigation
1975	3	0	0
1976	5	1	0
1977	1	0	0
1978 (through June)	1	0	1

Pending: 9

The only case closed was closed by virtue of the fact that the party against whom the complaint was lodged left the State. In 1976 three complaints were received against a single practitioner; potential litigation is pending in this case. Most complaints involved allegations of practicing without a license and of false advertising. None were received in recent years from the public and none were determined to have resulted in harm to the public. The case referred to litigation was brought by an unsuccessful applicant for licensure charging that the board is arbitrary and capricious in its application of examination and scoring procedures.

II. Criteria and Analysis

A. To what extent has the Board of Psychologist and Psychological Associate Examiners operated in the public interest?

The Board is statutorily charged with responsibility for passing on applicant qualifications; for preparation, administration and grading of written examinations; for revocation or suspension of licenses as a result of statutory violations; and for setting associate fees (AS 08.86.070). "Passing on qualifications of applicants" has been a problem with this Board for a number of years. A 1975 Division of Legislative Audit report recommended that the Board "should apply Alaska Statute 08.86 consistently to all applicants for licensing." Specific examples

of arbitrary granting of examination and licensure privileges are cited within the report. That recommendation and the examples cited are still relevant and could alone be the basis of this report.

The Board has continued to approve one applicant by waiving standards for examination while denying another with equal qualifications for not complying with the standard. Applications for licensure by endorsement are held pending information on licensure from another state which is already contained in the applicant's file. While statutes require a doctoral degree with emphasis on psychology from an accredited school, the Board has held action or refused examination or licensure to candidates meeting this requirement who did not take specific courses or who took courses which the Board did not approve of. At least one applicant who held a doctoral degree in education was allowed to sit for the exam while another was denied because his doctoral emphasis was not in psychology. The Board approved one applicant for examination pending receipt of a letter from his supervisor. This applicant was advised the day before the examination that he would not be allowed to take the examination because the information had not been received. A review of the applicant's file indicates that the information was received and the applicant so notified several months before the examination date. This applicant has since left the State. One applicant was refused because he had not resided in Alaska for thirty days preceding the date of examination. Another applicant was approved by a previous Board, took and passed the examination, and was subsequently denied licensure because he had not graduated from an "accredited" school, a criteria which has not yet been formally defined through Board regulations nor consistently applied through Board policy.

The Board has adopted a policy in Board minutes whereby the requirement for one year's experience acceptable to the Board is defined as one year's post doctoral experience under the supervision of a licensed psychologist. However, enforcement of this policy has also been con-

sistently inconsistent. One candidate who was initially refused licensure under this policy was subsequently licensed by intervention from the Office of the Attorney General. It is interesting to note that the Board will not accept supervision by a licensed psychiatrist to fulfill this post graduate requirement. At its September, 1978 meeting the Board considered two particular candidates for examination, both of whom met the statutory requirements and neither of whom met the post doctoral experience policy requirements. One was approved, the other was not. The only apparent differences in these two candidates were the specific courses taken though both graduated from American Psychology Association "fully approved programs."

If this Board is continued, recommendations are noted herein which should be considered for implementation.

Examination procedures need to be improved with respect to conduct of the examination and to anonymity of applicants. Answer sheets found in files contain the name of the applicant and at least one 1978 applicant made references to his current employment status and professional associations. Applicant anonymity should be maintained to the extent possible to help insure complete objectivity in scoring. The Board constructed written examination is of the essay type. During the time period in past examinations in which some candidates were writing their responses they were also interviewed orally by the Board on those same questions. Candidates should not be interrupted during the examination and should not be given the opportunity to test their own responses against Board reaction during this interview. Additionally, the Board does not have the statutory authority to give an oral interview as part of the examination, only to prepare, administer and grade written examinations.

The Board should discontinue the practice of approving applications for examination prior to receipt of all application materials. This procedure has created a number of problems when an applicant is notified that he is approved and scheduled and then finds at a late date that a reference has not been received or a transcript is missing from his file. Regulations currently being processed require that an applicant's file be complete "at least 45 days before a scheduled examination," and, once adopted, should be complied with.

Statutes provide that the Board may issue a temporary permit to an otherwise qualified applicant pending examination. This provision has been utilized in granting temporary permits to individuals who have not yet submitted proof that they are qualified, such as official transcripts which indicate a doctoral degree. Statutes applicable to applicants already licensed in an authority other than Alaska provide that the applicant is entitled to be licensed if he holds a doctoral degree with emphasis on psychology and if the other authority's qualifications were similar to Alaska's at the time he was licensed. One applicant was initially denied by the Board because the other state's qualifications at the time he was initially licensed were different from those presently in effect in Alaska. Another was required to take the Board's written examination because he did not have the experience required by the other state although he had worked for two years following the date of his degree. Another was approved for endorsement without examination but did not meet the endorsement requirements. Another applicant for endorsement was denied but approved for examination and did not meet requirements for either one.

Lack of continuity and standardization in Board policies and practices does not operate in the public interest. Statutes regarding qualifications for licensure and Board responsibilities in regulation of the profession are designed to assure competency of practitioners and to allow methods by which services may be made available to the public.

The Board has been aware of these problems for some time and pending Board regulations address many of the points raised in this report. If, however, the Board has failed to apply existing statutes and policies consistently in the past, the effect of future regulatory provisions is questionable.

The Board has authority to adopt regulations to carry out the purposes of 08.86. A recent resolution was made expressing the intent of the board to draft mandatory continuing education requirements. If the board is reestablished, it should pursue this subject. A statutory change, however, would be advisable if relicensure or exemptions are contingent on compliance with board outlined criteria.

Regulatory functions for this profession could be carried out by the administrative agency with utilization of professional expertise where necessary.

B. To what extent has the operation of the Board of Psychologist and Psychological Associate Examiners been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Existing statutes have not particularly impeded or enhanced the operation of the Board. Inconsistent application of statutory provisions, as previously cited, has impeded impartial examination and licensure of qualified applicants. Arbitrary Board policies and practices restrict

the quality and quantity of services to the public. If adhered to, present statutes and pending regulations would be generally adequate to govern this profession.

The Board of Psychologist and Psychological Associate Examiners has experienced little difficulty in its administrative operations with respect to personnel or budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs except that high turnover of agency personnel has in some respects prevented continuity of services to all boards. All fees and revenues are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes.

Improved procedures are being developed within the administrative agency pertaining to organization of records, forms and examination information which will better assist the Board and the agency in carrying out its functions.

This Board has experienced the same difficulties as have all other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency. During the past year two investigator positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense mandates that only the most flagrant and potentially injurious licensing complaints are pursued.

Complaints regarding this profession are in the nature of unethical advertising and practicing without a license. There also were no complaints received from the public at large, only from the Board, the profession, or a related profession.

C. To what extent has the Board of Psychologist and Psychological Associate Examiners recommended statutory changes which are generally of benefit to the public interest?

Recent statutory changes with respect to the profession concerned: (1) addition of lay persons to Board membership; (2) Medical Indemnity provisions; (3) applicability of the Administrative Procedure Act; and (4) general "housekeeping" items.

Records of Board meetings reflect a desire of the Board to require a one-year State residency clause as a licensure qualification. There is also indication that the Board wishes to regulate unlicensed governmental employees and counselors. No recommended changes were made by the Board which would be of specific public benefit.

D. To what extent has the Board of Psychologist and Psychological Associate Examiners encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

Very little public interest in the activities of the Board has been shown in the form of attendance at Board meetings, hearings, or as written input although notices of pending meetings and new or changing regulations are published in major newspapers in the State. It may be that members of the public are somewhat reluctant to involve themselves

in areas of a technical or scientific nature and which may be considered too complex for anything but minimal scrutinization by a layperson. A technical and professional "barrier" of sorts exists which probably tends to deter public knowledgeability and participation. This barrier appears to be perpetuated by the Board through the use of professional terminology and the aura of secrecy that is conveyed at Board meetings. The licensing examiner from the administrative agency has been instructed not to record large portions of "public" Board meetings. Additionally, minutes of those meetings are edited and reworded by individual Board members at the time the draft is circulated for perusal. This practice has resulted in questions regarding past Board considerations and does not lend credence to the minutes as written.

Public interests are furthered by the existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[1] If this Board is continued, consideration should be given to a public membership majority.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Psychologist and Psychological Associate Examiners processed and resolved?

No complaints have been received which were directed against individual members of the Board. However, on at least four occasions the Board as a whole was threatened with litigation by applicants for licensure, another applicant was licensed after intervention by the Attorney General's

---

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

Office and litigation was initiated by another applicant charging capricious and arbitrary conduct by the Board.

One of the ten cases received during the past four years had been closed through June, 1978. No recent complaints have been received which were lodged by a member of the general public or which were determined to have resulted in actual danger to the public. The administrative agency is currently addressing complaints and investigative procedures and the need for timely disposition of issues. Investigative services to all boards and commissions under its jurisdiction are expected to improve.

F. To what extent does the Board of Psychologist and Psychological Associate Examiners present qualified applicants to serve the public?

Applicants for examination and/or licensure are not sponsored by the Board. Individuals wishing to practice within the State must submit fees and application with documentation of qualifications. Unfortunately, as is noted previously in this report, compliance with statutory requirements does not necessarily insure an applicant that (s)he will be examined and/or licensed in a timely manner if at all. Review of files for recent years revealed that applicants generally must wait several months from the time of initial application to final licensure. One applicant was licensed seven years after the date of application. Another waited over three years.

Board practices which would allow for the issuance of temporary permits and expeditious licensing by endorsement or examination for all applicants who are qualified would be conducive to entry into the profession and to increased availability of practitioners within the State.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Psychologist and Psychological Associate Examiners ir its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for two other boards) who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

This Board is responsible for issuing licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Psychologist and Psychological Associate Examiners to better serve the interests of the public?

If the Board is reestablished, the statutes should specifically delineate Board duties and applicant qualifications in a manner that precludes Board latitude in interpretation beyond statutes. For instance, the Board should not be able to deny examination to an applicant who meets the degree requirements of AS 08.86.130(2) because it does not approve of specific courses taken in pursuit of the degree. Continuing education requirements, if desirable, should be set down by statute as should any exceptions to those requirements.

The Board should consistently apply its own standards as set forth in pending regulations. For instance, if "one year's experience acceptable to the board" is defined as one year's post doctoral supervised experience, the Board should apply this regulation to all cases regardless of other background factors.

The Board should issue temporary permits only in compliance with statutes and should take positive steps toward utilizing endorsement provisions wherever possible. If Alaska's examination and qualification requirements are determined to be substantially different than those of other states, they should then be reviewed for validity as measures of professional competency.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are not adequate to cover transportation and per diem for meetings and examinations, and the Division of Occupational Licensing administrative overhead such as staff salary, examination costs and investigative services. The need for a State Board has not been demonstrated to justify expenses of regulation in this instance.

III. Conclusion

No public need has been demonstrated which would mandate continuation of regulation of this profession by an established oard. Aside from this main consideration, restrictive and monopolistic practices by a board which serve to protect and perpetuate only a small interest group should not have the sanction of State authority and should not continue under its auspices.

IV. Summary of Recommendations

A. The Board of Psychologist and Psychological Associate Examiners should be allowed to terminate on June 30, 1979.

The functions of examining and licensing should be assumed by the administrative agency with appropriate statutory guidelines and regulatory authority.

B. In the event that the Board of Psychologist and Psychological Associate Examiners is continued, the following recommendations are made:

1. Statutory amendments should be made which outline specific qualifications and examination criteria. Content and language should be such that the Board is precluded from arbitrary granting or withholding of these privileges. (See discussion on pp. 8 & 9)

2. The Board should act consistently in applying its own policies and regulations within statutory authority. Standardization of examination procedures should be formulated, and observed, and applicant anonymity should be maintained to the extent possible. The Board should refrain from practices which imply an oral examination and from interrupting candidates while being tested. (See discussion on p. 9)

3. The Board should discontinue past practice of approving and notifying candidates for examination prior to completion of the application. (See discussion on p. 10)

4. The Board should review its policies with respect to the issuance of temporary permits and grant these only as allowed by statute. (See discussion on p. 10)

5. Continuing competency requirements as a condition of licensure, should be addressed by statute as should any exemptions from the requirements. (See discussion on p. 11)

6. The Board should confine its activities in regulating the profession to those over which it has regulatory authority. This does not include government employees or unlicensed counselors within the State. (See discussion on p. 13)

7. The Board should utilize endorsement provisions wherever possible. If Alaska's qualifications are found to be substantially different from those of other states, they should be reviewed for validity and appropriate recommendations made. (See discussion on p. 10)

8. Consideration should be given to placing a majority of public members on this Board. Professional members would provide advice and expertise and would review written examination sheets. Members should not serve consecutive terms unless initially appointed to an unexpired term, but may be reappointed following a term of absence.

9. The Board should refrain from giving the appearance of concealing information during meetings that should properly be a matter of public record. It should also refrain from making substantive changes in minutes of Board meetings. (See discussion on p. 14)

Chapter 86. Psychologists and Psychological Associates.

Article
1. Board of Psychologist and Psychological Associate Examiners (§§ 08.86.010 — 08.86.050)
2. Administration of Board Affairs (§§ 08.86.070 — 08.86.100)
3. Licensing of Psychologists (§§ 08.86.120 — 08.86.150)
3A. Licensing of Psychological Associates (§§ 08.86.160 — 08.86.162)
4. Prohibitions and Penalties (§§ 08.86.170 — 08.86.220)
5. General Provisions (§ 08.86.230)

Article 1. Board of Psychologist and Psychological Associate Examiners.

Section
10. Creation and membership of board
20. Appointment and term of office
30. Board meetings
40. Assistants
50. [Repealed]

Sec. 08.86.010. Creation and membership of board. There is created a Board of Psychologist and Psychological Associate Examiners. It consists of three licensed psychologists, and two persons who have no direct financial interest in the health care industry. (§ 1 ch 136 SLA 1967; am § 1 ch 65 SLA 1973; am § 30 ch 102 SLA 1976)

Effect of amendments. — The 1973 amendment inserted "and Psychological Associate" in the first sentence.

The 1976 amendment added "and two persons who have no direct financial interest in the health care industry" to the end of the second sentence.

Sec. 08.86.020. Appointment and term of office. Members of the board are appointed by the governor and confirmed by the legislature for staggered terms of three years. The terms of the public members shall be set so that they do not expire at the same time. A member serves at the pleasure of the governor. (§ 1 ch 136 SLA 1967; am § 31 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment added the present second sentence.

Sec. 08.86.030. Board meetings. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman or of two board members. (§ 1 ch 136 SLA 1967)

Sec. 08.86.040. Assistants. The board may employ assistants to prepare and grade examinations and to investigate alleged violations of this chapter. (§ 1 ch 136 SLA 1967)

Sec. 08.86.050. Transportation and per diem.
Repealed by § 1 ch 42 SLA 1977.

Editor's note. — The repealed section derived from § 1, ch. 136, SLA 1967.

Article 2. Administration of Board Affairs.

Section
70. Duties of the board
80. Board regulations
90. Administrative duties of the department
100. Applicability of the Administrative Procedure Act

Sec. 08.86.070. Duties of the board. The board shall
(1) pass on qualifications of applicants for licenses;
(2) prepare, administer and grade written examinations;
(3) after hearing, suspend or revoke the license of a licensed psychologist or psychological associate who violates a regulation of the board;
(4) set fees which are charged for psychological associates. (§ 1 ch 136 SLA 1967; am §§ 2, 3 ch 65 SLA 1973)

Effect of amendment. — The 1973 amendment inserted "or psychological associate" in paragraph (3) and added paragraph (4).

Sec. 08.86.080. Board regulations. The board shall adopt regulations to carry out the purposes of this chapter. (§ 1 ch 136 SLA 1967)

Cited in Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Sec. 08.86.090. Administrative duties of the department. The department shall furnish administrative services for the board. (§ 1 ch 136 SLA 1967)

Sec. 08.86.100. Applicability of the Administrative Procedure Act. The Administrative Procedure Act (AS 44.62) applies to regulations and proceedings under this chapter. (§ 1 ch 136 SLA 1967)

Article 3. Licensing of Psychologists.

Section	Section
120. Entitlement to licensure	135. Temporary license
125. Malpractice insurance	140. Fees
130. Qualification for examination	150. Out-of-state license

Sec. 08.86.120. Entitlement to licensure. A person who passes the examination given by the board is entitled to be licensed as a psychologist. (§ 1 ch 136 SLA 1967)

The statutes evince a policy that psychotherapy be practiced only by licensed psychologists, and that others such as psychological associates be limited to the practice of counseling. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Distinctions between psychotherapy and counseling. — See Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Sec. 08.86.125. Malpractice insurance. If medical malpractice insurance for psychologists or psychological associates becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of psychologist or psychological associate services to the public, the director of insurance may require all persons licensed under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of licensure under this chapter. The provisions of this section are satisfied if the licensee's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 32 ch 102 SLA 1976)

Sec. 08.86.130. Qualification for examination. A person is entitled to take an examination if the board finds he

(1) has not engaged in dishonorable conduct relevant to the practice of psychology;

(2) holds a doctoral degree with primary emphasis on psychology from an accredited school;

(3) has at least one year's experience acceptable to the board. (§ 1 ch 136 SLA 1967)

The statutes evince a policy that psychotherapy be practiced only by licensed psychologists, and that others such as psychological associates be limited to the practice of counseling. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Distinctions between psychotherapy and counseling. — See Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Sec. 08.86.135. Temporary license. The board may issue a temporary license to a person who meets the requirements of § 130 of this chapter. A temporary license issued under this section is valid until the results of the examination following the issuance of the temporary license are published. (§ 1 ch 38 SLA 1970)

Sec. 08.86.140. Fees. Each application fee, renewal fee, biennial and out-of-state license fee is $50. The fee for a temporary license is $10. The fee for a duplicate license is $2. (§ 1 ch 136 SLA 1967; am § 2 ch 38 SLA 1970)

Revisor's note (1970). — In ch. 38, SLA 1970, "biannual" was used instead of "biennial" in the first sentence of this section. The correction was made in light of AS 08.01.100(a) (which requires biennial renewal) and the statement in Webster's Third New International Dictionary that the two words are "sometimes" synonymous. Such a usage was clearly the intent of ch. 38, SLA 1970.

Sec. 08.86.150. Out-of-state license. A person who is licensed or certified as a psychologist by an authority other than Alaska is entitled to be licensed in Alaska without examination if

(1) he holds a doctoral degree with primary emphasis on psychology from an accredited school;

(2) the examination and qualification requirements for his out-of-state license or certificate were essentially similar to the examination and qualification requirements for licensure in Alaska at the time he was licensed; or

(3) he is a diplomate in good standing of the American Board of Examiners in Professional Psychology;

(4) he completes and returns the proper application forms, and pays the out-of-state certificate fee. (§ 1 ch 136 SLA 1967)

Article 3A. Licensing of Psychological Associates.

Section

160. Associates: Entitlement to licensure
162. Associates: Qualification for examination

Sec. 08.86.160. Associates: Entitlement to licensure. A person who passes the examination given by the board is entitled to be licensed as a psychological associate. (§ 5 ch 65 SLA 1973)

The statutes evince a policy that psychotherapy be practiced only by licensed psychologists, and that others such as psychological associates be limited to the practice of counseling. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Distinctions between psychotherapy and counseling. — See Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Sec. 08.86.162. Associates: Qualification for examination. A person is entitled to take a psychological associate examination if the board finds that he:

(1) has not engaged in dishonorable conduct related to the practice of counseling or psychometry;

(2) holds a master's degree from an accredited or approved educational institution, with at least 24 credit hours of course work directly related to counseling or another specialized area in which licensure is requested, including a practicum;

(3) has at least three years' experience within the past ten years, two of which are in Alaska, and including one year's supervised postgraduate experience acceptable to the board;

(4) has the recommendation of his immediate supervisor if a licensed psychologist, or two licensed psychologists who hold doctoral degrees;

(5) has not within the preceding six months failed an examination given by the board. (§ 5 ch 65 SLA 1973)

The statutes evince a policy that psychotherapy be practiced only by licensed psychologists, and that others such as psychological associates be limited to the practice of counseling. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Distinctions between psychotherapy and counseling. — See Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Article 4. Prohibitions and Penalties.

Section
170. Use of title
180. Practice of psychology
185. Practice of counseling and psychometrics
190. Name under which person practices
200. Confidentiality of communication
210. Penalty
220. Limits or conditions on license; discipline

Sec. 08.86.170. Use of title. (a) Unless he is licensed under this chapter, no person may use the title "psychologist" or a title, designation, or device indicating or tending to indicate that he is a psychologist or practices psychology.

(b) Unless he is licensed under this chapter, no person may use the title "psychological associate" or a title, designation, or device indicating or tending to indicate that he is a psychological associate or practices counseling or psychometrics. (§ 1 ch 136 SLA 1967; am § 6 ch 65 SLA 1973)

Effect of amendment. — The 1973 amendment added subsection (b).

The statutes evince a policy that psychotherapy be practiced only by licensed psychologists, and that others such as psychological associates be limited to the practice of counseli..g. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Distinctions between psychotherapy and counseling. — See Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Sec. 08.86.180. Practice of psychology. (a) Unless he is licensed under this chapter, no person may practice psychology, or offer to practice psychology, or represent to the public that he is a psychologist or that he practices psychology.

(b) This section does not apply to

(1) a person employed by a governmental unit, educational institution or private agency who may be required to engage in some phase of work of a psychological nature in the course of his employment, if the employer maintains appropriate supervision of psychological activities and professional conduct;

(2) a student, intern, or resident in psychology pursuing a course of study approved by the board is qualifying training and experience for psychologist, if his activities constitute a part of his supervised course of study and he is designated by titles such as "psychology intern" or "psychology trainee";

(3) a qualified member of another profession, such as a social worker, or pastoral counselor, in doing work of a psychological nature consistent with his training and consistent with the code of ethics of his profession;

(4) Repealed by § 15 ch 65 SLA 1973.

(5) a person practicing medicine, if he is licensed to practice medicine.

(c) Nothing in this chapter authorizes a person licensed as a psychologist to engage in the practice of medicine, as defined by the laws of the state. (§ 1 ch 136 SLA 1967; am § 10 ch 69 SLA 1970; am §§ 7, 15 ch 65 SLA 1973)

Effect of amendment. — The 1973 amendment deleted "or" preceding "educational institution" in paragraph (1) of subsection (b) inserted "or private agency" and the proviso, and repealed paragraph (4) of that subsection.

Legislative committee report. — For report on ch. 69, SLA 1970 (HB 564), see 1970 House Journal Supplement No. 2, p. 7.

Sec. 08.86.185. Practice of counseling and psychometrics. (a) Unless he is licensed under this chapter, no person may practice counseling or psychometrics, offer to practice counseling or psychometry, or represent to the public that he is a counselor or psychometrist.

(b) This sections does not apply to:

(1) a person employed by a governmental unit, educational institution or private agency who may be required to engage in some phase of work of a counseling nature in the course of his employment, if the employer

maintains appropriate supervision of psychological activities and professional conduct;

(2) a student, intern or resident in psychology pursuing a course of study approved by the board as qualified training and experience for counseling, if his activities constitute a part of his supervised course of study;

(3) pastoral counselors.

(c) Nothing in this chapter authorizes a person licensed as a psychological associate to engage in the practice of medicine, as defined by the laws of the state. (§ 8 ch 65 SLA 1973)

Sec. 08.86.190. Name under which person practices. (a) A licensed psychologist may practice psychology only under his own name.

(b) A licensed psychological associate may practice counseling or psychometry only under his own name. (§ 1 ch 136 SLA 1967; am § 9 ch 65 SLA 1973)

Effect of amendment. — The 1973 amendment added subsection (b).

The statutes evince a policy that psychotherapy be practiced only by licensed psychologists, and that others such as psychological associates be limited to the practice of counseling. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Distinctions between psychotherapy and counseling. — See Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Sec. 08.86.200. Confidentiality of communication. No psychologist or psychological associate may reveal to another person a communication made to him by a client of his about a matter concerning which the client has employed the psychologist or psychological associate in a professional capacity. This section does not apply to a case conference with other psychologists, psychological associates or with physicians and surgeons, or in the case in which the client in writing authorized the psychologist or psychological associate to reveal a communication. (§ 1 ch 136 SLA 1967; am § 10 ch 65 SLA 1973)

Effect of amendment. The 1973 amendment, in the first sentence, inserted "or psychological associate" twice and, in the second sentence, inserted "psychological associates" and "or psychological associate."

This section does not provide a statutory psychotherapist privilege in criminal cases. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

This section nowhere states that it was intended as creating a privilege. It does not refer to courtroom testimony. The general thrust of its language seems to point towards "anti-gossip" consideration. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

The legislature's failure to create expressly an evidentiary privilege for psychotherapists while doing so for newspapermen during the same session as the Psychological Licensure Act was enacted indicates a legislative intent that psychotherapists were not to be so favored. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

It is only as an "anti-gossip" measure that this section makes sense. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

This section provides that only a writing may waive whatever rights a patient acquires under the section. But evidentiary privileges are traditionally much more easily waived, in light of the strong

competing policy in favor of compulsory testimony. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Effect of enacting this section as "anti-gossip" measure. — By enacting this section as an "anti-gossip" measure the legislature has opened the door to professional licensing sanctions and possibly broadened the scope of common-law duty in suits against indiscreet psychotherapists. Allred v. State. Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

The supreme court recognizes a common-law privilege, belonging to the patient, which protects communications made to psychotherapists in the course of treatment. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

As to the scope of the common-law privilege, see Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Sec. 08.86.210. Penalty. A person who violates §§ 170, 180, 185, or 190 of this chapter is guilty of a misdemeanor. (§ 1 ch 136 SLA 1967; am § 11 ch 65 SLA 1973)

Effect of amendment. — The 1973 amendment inserted "185."

Cited in Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Sec. 08.86.220. Limits or conditions on license; discipline. (a) Upon a finding that by reason of demonstrated problems of competence, experience, education, or health the authority to practice psychology or as a psychological associate under this chapter should be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by time, specialty, procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 32 ch 102 SLA 1976)

Article 5. General Provisions.

Section
230. Definitions

Sec. 08.86.230. Definitions. In this chapter

(1) "psychologist" means a person who practices psychology;

(2) "to practice psychology" means to apply established principles of learning, motivation, perception, thinking, and emotional relationships to problems of personnel evaluation, group relations, and behavior adjustment, including

(A) counseling and guidance;

(B) using psychotherapeutic techniques with persons or groups of persons who have adjustment problems in the family, at school, or at work;

(C) measuring and testing of personality, intelligence, aptitudes, emotions, and attitudes and skills;

(D) conducting research on human behavior;

(3) "board" means the Board of Psychologist and Psychological Associate Examiners;

(4) "department" means the Department of Commerce and Economic Development;

(5) "psychological associate" includes a counselor and psychometrist;

(6) "counselor" means a person who practices counseling;

(7) "to practice counseling" means to apply established principles of learning, motivation, perception, thinking, and emotional relationships to problems of group relations, and behavior adjustment,

(A) counseling and guidance;

(B) using counseling techniques with persons or groups of persons who have adjustment problems in the family, school or at work;

(C) limited use of testing including tests of intelligence or tests of motor skills;

(8) "psychometrist" means a person who practices psychometrics;

(9) "to practice psychometrics" means to apply the recognized principles, methods and procedures of the science and profession of psychology, but limited to the administering, scoring, and interpreting of tests of mental abilities, aptitudes, interests, motor skills and objective tests of personality characteristics for purposes such as psychological evaluation or for educational or vocational selection, guidance or placement;

(10) "private agency" means a clinic or private practice under the direction of a licensed psychologist, psychiatrist, or a custodial, rehabilitative or health care organization which is acceptable to the board;

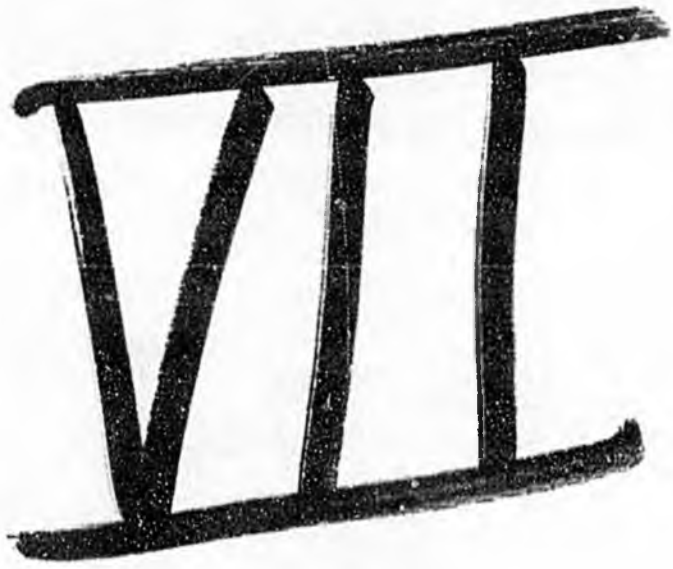
(11) "supervision" means at least one hour a week of personal interview with a supervisor whose educational qualifications are consistent with the level of activity being supervised; a supervisor is responsible for insuring that the extent, kind and quality of the psychological and counseling services performed are consistent with a psychological associate's training and experience, as well as his obedience to the provisions of this chapter. (§ 1 ch 136 SLA 1967; am §§ 12, 13 ch 65 SLA 1973; am § 55 ch 218 SLA 1976)

Effect of amendments. — The 1973 amendment inserted "and Psychological Associate" in paragraph (3) and added paragraphs (5) to (11).

The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (4).

The statutes evince a policy that psychotherapy be practiced only by licensed psychologists, and that others such as psychological associates be limited to the practice of counseling. Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).

Distinctions between psychotherapy and counseling. — See Allred v. State, Sup. Ct. Op. No. 1304 (File No. 2343), 554 P.2d 411 (1976).



STATE OF ALASKA
Board of Chiropractic Examiners
(October, 1978)

Findings

Manipulation of the human body in such a way as to relieve pain rather than increase pain or cause injury requires a degree of skill that can only be obtained through specialized study and training. The practice of chiropractic includes the taking of x-rays and administration of treatments such as those utilizing heat, water, and electricity. Unqualified practitioners present a danger to the public health, safety and well-being in that the possibility of inappropriate application of treatment methods would be increased by deregulation of the profession. Regulation of the chiropractic profession by a State Board should continue. Recommendations to enhance efficient functioning of the Board are made in this report.

I. General Information

A. Regulated Parties

1. Chiropractors
2. Associate Chiropractors

B. Statutory Definition of Regulated Profession

"Chiropractic is the science of locating and correcting interference with nerve energy transmission and expression within the human body, and the employment and practice of drugless therapeutics, including physiotherapy, hydrotherapy, mechanotherapy, phytotherapy, electrotherapy, chromotherapy, thermotherapy, thalmotherapy, correcting and orthopedic gymnastics, and dietetics which includes the use of foods and those biochemical tissue building products and cell salts found within the normal human body, without the use of drugs or surgery." (AS 08.20.220)

An associate chiropractor serves in an existing clinic or office under direct supervision of a licensed chiropractor for a period not to exceed three years pending completion of at least two years of college in liberal arts or science, and providing all other qualifications have been met.

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

Keith Godfrey, DC (Chairman)	ends July 15, 1979
Lee Q. Burger, DC (Vice President)	ends July 15, 1980
Adrian Barber, DC (Secy)	ends July 15, 1978
Linnea Burmeister	ends July 15, 1978
Locke Jacobs	ends July 15, 1979

2. Representation:

Profession = 3
Public = 2

3. Qualifications:

"Three members of the board shall be licensed chiropractic physicians who have practiced chiropractic in this state not less than two years. Two members of the board shall be persons with no direct financial interest in the health care industry..." (AS 08.20.020)

D. Licensing Data

By Examination

Year	# of Candidates	# Passed	# Failed	% Passed	% Failed
1975	7	6	1	86	14
1976	4	4	0	100	-0-
1977	12	12	0	100	-0-
1978 (through August)	7	5	2	71	29

Currently licensed:

in-State = 32 (through June, 1978)
out-of-State = 9 (through June, 1978)
Total 41

Associate licenses = 4 (through June, 1978)

E. Fees

1.	application for examination	$25.00
2.	application for reexamination	10.00
3.	temporary permit	25.00
4.	initial license	50.00
5.	biennial renewal	50.00
6.	associate license	30.00

F. Board Revenues and Expenditures

	FY '75	FY '76	FY '77	FY '78
Receipts	$1,205.00	$ 345.00	$1,910.00	$1,070.00
- refunds	-	25.00	-	-
Total	$1,205.00	$ 320.00	$1,910.00	$1,070.00
Expenditures				
Per Diem	-	1,001.25	1,000.00	1,835.00

Total	$ 160.98	$2,838.78	$2,377.00	$4,218.07
Surplus	$1,044.02	-	-	-
Deficit	-	$2,518.78	$ 467.00	$3,148.07

(EXCLUDES DIVISION OF OCCUPATIONAL LICENSING ADMINISTRATIVE OVERHEAD)

G. Complaints

	Received	Closed	To Litigation
1975	2	1	0
1976	0	1	0
1977	2	0	0
1978 (Through September 15)	1	3	0

Pending: 0

One complaint was closed because no violation was found to exist, another due to lack of information. Three complaints alleged over-charging, unethical advertising, and practicing without a license. None alleged harm to the public.

H. Qualifications

According to the Alaska Chiropractic Society, chiropractors must have a minimum of six years of college study and internship, the latter two years of which are generally devoted to practical or clinical studies.

II. Criteria and Analysis

A. To what extent has the Board of Chiropractic Examiners operated in the public interest?

Board authority in governing the practice of chiropractic includes the adoption of regulations necessary to carry out chapter provisions, approval of accredited schools or colleges, administration and approval of examinations and licensing of qualified chiropractors and associates. Authority to issue temporary permits and to license out-of-State licentiates without examination is discretionary. Requirements which are designed to measure proficiency operate in the public interest in assuring competency of practitioners. While administration and approval of examinations by the Board is an appropriate and desirable function, consistency and validity of these measures must be a major consideration.

Two examinations are scheduled routinely each year as provided by regulations. Applicants are required by statute to have taken and passed "to the satisfaction of the board, Part I and Part II of the examination of the National Board of Chiropractic Examiners." The State Board has, in the past, given this examination to applicants who have not already taken it or who have not passed. Pending regulations will require that an applicant have passed the national examination before s/he applies for examination in Alaska with the result that the Board will no longer be administering the national examination as it has been doing.

In addition to the requirement for successful completion of the national examination, the Board requires a written Board prepared examination, an oral (diagnosis, x-ray, visual) examination and a practical (application, treatment) examination. Each portion is graded by individual examiners and scores are averaged including the national examination score. A general average rating of 75% is considered to be a passing grade.

A review of Board prepared examination materials for recent years indicates that content was frequently identical or at least strikingly similar for as long as three years. Most questions are in essay form and require a measure of subjective judgment on the part of the examiners. The Board has not promulgated regulations which govern methods of grading or scoring for consistency of application. Although not specifically cited in Board records, it appears that there may have been additional inconsistencies in averaging methods utilized.

As one method of avoiding allegations of arbitrary and capricious action, the Board should adopt regulations which specify grading criteria. The Board should also adopt a policy which would promote substantial dissimilarity in successive Board examinations and regulations which govern "general average rating" procedures that would apportion examination sections appropriately and definitively. Potential problem areas could be largely avoided through the use of a national testing service.

Continuing education requirements, as a condition of continuing licensure, have been discussed by the Board. The Board (and the Alaska Chiropractic Society) has expressed a desire to institute such requirements, however, it has no authority to do so as a condition of relicensure. There are no current review or reexamination procedures. Valid arguments may be made against mandatory education requirements: lack of facilities, cost of programs, and the prospect of legal issues arising from failure to renew a license. Equally valid arguments may be made in behalf of measures that are designed to help insure continued competency and allow practitioners to up-date themselves in their profession.

Statutory authority to adopt "necessary" regulations implies that the Board may consider continuing education requirements. To provide definitely that this may be done the Board should be given the specific

statutory direction to consider the subject and to impose requirements that are determined to be advisable. This would not be inconsistent with other health care boards, i.e., Medical, Optometry and Dispensing Opticians, whose statutes require continuing education. It is considered advisable to address mandatory continuing education by statutory directive with any appropriate exemption provisions.

Statutory authority exists for the issuance of temporary permits pending examination to applicants who are otherwise qualified. Records indicate that only one temporary permit has been requested and approved in recent years.

Present statutes require that out-of-State applicants meet both endorsement and reciprocity provisions. It is interesting to note that while all present professional members of this Board were licensed by reciprocity, the Board has made a formal policy decision that it will not license in this manner. The last license to be issued by reciprocity was issued in 1970-to a member of the Board. Several requests have been made by out-of-State applicants seeking endorsement. Board replies indicate that no reciprocal agreement exists between Alaska and the other state, however, there is no documentation that suggests reciprocity has been explored as a possibility, only that such relationships do not exist. A review of reciprocity provisions indicates that such requirements restrict interstate entry into professions. Only applicants from states with which agreements have been established may be admitted without examination regardless of their qualifications. Endorsement allows licensure of those individuals licensed elsewhere whose qualifications are substantially similar to those in Alaska at a given time, independently of formal interstate concurrence. Endorsement provisions are felt to be more in keeping with the principle of licensing qualified applicants and increasing services of practitioners. It is recommended that licensing be allowed on the basis of endorsement and that the Board consider every mechanism by which entry into the profession and availability of services to the public may be facilitated.

B. To what extent has the operation of the Board of Chiropractic Examiners been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Restrictive policies of the Board regarding reciprocity impede the opportunity of providing additional services to the public. The Board should recommend statutory changes for licensure by endorsement and, if unsuccessful, it should investigate the possibility of establishing reciprocal agreements with other states. If the requirements of Alaska and other states are substantially dissimilar, the Board should then review statutory qualifications for validity and make any appropriate recommendations that may be indicated.

Other statutory provisions for the Board of Chiropractic Examiners are generally considered to be adequate with the exception of mandatory continuing education requirements. The Board is given authority and latitude sufficient to allow it to operate in regulating the chiropractic profession.

The Board of Chiropractic Examiners has experienced little difficulty in its administrative operations with respect to personnel or budgetary restrictions, with the exception of investigative services. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs. All fees and revenues are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes.

Improved procedures are being developed within the administrative agency pertaining to organization of records, forms and examination information which will better enable the Board to perform its functions, one of which is submission of an annual report.

The Board of Chiropractic Examiners has experienced the same difficulties as have all other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency. During the past year two investigator positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complairts.

It is undeniably in the public interest to enforce the laws promulgated for the protection of public health and welfare and to take expeditious action upon receipt of potentially serious complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

C. To what extent has the Board of Chiropractic Examiners recommended statutory changes which are generally of benefit to the public interest?

Laymembers were added to the Board by statute in 1976. Other 1976 amendments were concerned with Medical Indemnity provisions and general "housekeeping" items.

No recommendations have been made by the Board of Chiropractic Examiners relating to statutory changes that would be of specific benefit to the public.

D. To what extent has the Board of Chiropractic Examiners encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The Board appears to be generally sensitive to public concern and to aspects of public health and welfare. However, very little public interest in the activities of the Board has been shown in the form of attendance at Board meetings, hearings, or as written input. Most public concern is expressed by individuals with particular problems directly approaching Board members. Notices of pending meetings and new or changing regulations are published in major newspapers in the State.

The Board has not taken any overt action to solicit general public response to its quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Wider dissemination of general information regarding the Board may partially mitigate public disinterest.

Public interests are furthered by the existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[1]

---

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Chiropractic Examiners processed and resolved?

No complaints were received which were specifically directed at individual members of the Board and none against the Board or profession were received by the Office of the Ombudsman. All complaints received against the profession through September, 1978 have been closed.

F. To what extent does the Board of Chiropractic Examiners present qualified applicants to serve the public?

Applicants for licensure are not sponsored by the Board of Chiropractic Examiners. Individuals wishing to practice within the State must submit fees and application to the administrative agency with documentation of qualifications. State Board examinations are conducted, monitored and graded by the Board. Applicants who demonstrate the required level of knowledge and proficiency are issued a license.

Board policy against licensure of out-of-State applicants by reciprocity is not conducive to encouraging entry into the profession. In order to provide the opportunity for increased availability of services to the public, it is recommended that reciprocity requirements be deleted and that licensure by endorsement be utilized. If not, the Board should attempt to establish reciprocal relationships with other states wherever possible.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Chiropractic Examiners in its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for two other boards) who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

The Board of Chiropractic Examiners issues licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Chiropractic Examiners to better serve the interests of the public?

Steps should be taken by the Board to apply existing statutes, regulations, and policies uniformly. Standards for examinations and grading should be formulated and enforced. Continuing education upon which relicensure would be contingent, and appropriate exemptions, should be considered and implemented. Efforts should be made to establish reciprocal relationships with other jurisdictions or to amend statutes to allow for licensure by endorsement.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are simply not adequate to cover transportation and per diem for meetings and examinations, and the Division of Occupational Licensing administrative overhead such as staff salary, examination expenses, and investigative services.

Information obtained in the process of this review indicates that the Board has not complied with 12 AAC 16.210 concerning the practice and working agreements of chiropractic associates. Under these regulations, an associate must execute a contract with a supervising chiropractor which "provides for a definite salary and no fee splitting, and provides that no remuneration may be made except under terms of the contract."

"The supervising chiropractor assumes liability for all malpractice of the associate." "The board will deny the practice of an associate if in the opinion of the board the contract permits unfair advantage to be taken of the associate." Available documentation suggests that the Board has abrogated its responsibility in reviewing these contracts and that the contracts are, in fact, unfair to associates. There is question also as to the legality of the current agreements, however, determination on this is a matter to be taken up by another department. If such agreements are to exist, the Board should enforce its regulations regarding them.

Board membership in terms of numbers is considered adequate. Although it would be desirable to have the two separate chiropractic schools of thought represented by professional members, this may be difficult in administration. Terms of membership should be limited unless appointed to an unexpired term or following a term of absence.

Reciprocity requirements in many cases serve to restrict entry into professions in a state. Only applicants from states with which agreements have been established may be admitted without examination regardless of their qualifications. Endorsement allows licensure of those individuals licensed elsewhere whose qualifications are substantially similar to those in Alaska at a given time, independently of formal interstate concurrence. Endorsement provisions are felt to be more in keeping with the principle of licensing qualified applicants and with providing services of practitioners.

Regulations of this and all boards which pertain to advertising prohibitions are currently in the process of review and appropriate revisions.

III. Conclusion

Regulation of this profession is determined to function in the public interest.

IV. Summary of Recommendations

The Board of Chiropractic Examiners should be reestablished for an additional four-year period. The following recommendations are made:

1. The Board should promulgate and adopt regulations covering examination and grading procedures, content, and criteria. (See discussion on p. 7)

2. The Board should address the subject of mandatory continuing education, possible exemptions, and qualifying courses or methods of compliance.

   It is recommended that these requirements and exceptions be established by statute. (See discussion on p. 7)

3. It is recommended that statutory provisions for reciprocity be deleted and endorsement be allowed instead. Whether by reciprocity or by endorsement, the Board should make every effort to encourage entry into the profession and to increase the availability of practitioners. (See discussion on p. 8)

4. The Board should fulfill its responsibility in applying statutes and regulations uniformly and fairly.

   Chiropractic associate agreements should be reviewed as stipulated or appropriate amendments made to the regulations. (See discussion on p. 13)

5. The Board should adopt regulations which define "accredited" schools or colleges of chiropractic which are approved by the Board.

6. The Board should comply with the statutory requirement for submission of an annual report.

Chapter 20. Chiropractors.

Article
1. Board of Chiropractic Examiners (§§ 08.20.010 — 08.20.090)
2. Licensing and Regulation (§§ 08.20.100 — 08.20.190)
3. Unlawful Acts and Penalties (§§ 08.20.200 — 08.20.210)
4. General Provisions (§ 08.20.220)

Article 1. Board of Chiropractic Examiners.

Section
10. Creation and membership of Board of Chiropractic Examiners
20. Members of board
30. Members' terms; vacancies
40. Organization of board
50. Power of officers to administer oaths and take testimony
55. Board regulations
60. Power of board to adopt seal
70 — 80. [Repealed]
90. Quorum of board

Sec. 08.20.010. Creation and membership of Board of Chiropractic Examiners. There is created the Board of Chiropractic Examiners consisting of five members appointed by the governor. (§ 35-3-23 ACLA 1949; am § 2 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "five members" for "three members."

Am. Jur., ALR and C.J.S. references. — 41 Am. Jur., Physicians and Surgeons, § 27.

Constitutionality of statute prescribing conditions of practicing medicine as affected by discrimination against chiropractors, 37 ALR 680; 54 ALR 600.

Kind or character of treatment which may be given by one licensed as chiropractor, 86 ALR 630.

70 C.J.S. Physicians and Surgeons §§ 1, 8, 10, 12, 15.

Sec. 08.20.020. Members of board. Three members of the board shall be licensed chiropractic physicians who have practiced chiropractic in this state not less than two years. Two members of the board shall be persons with no direct financial interest in the health care industry. Each member serves without pay but is entitled to per diem and travel expenses allowed by law. (§§ 35-3-23, 35-3-30 ACLA 1949; am § 3 ch 102 SLA 1976)

Revisor's note. — This section relating to per diem and expenses was impliedly amended by § 1, ch. 130, SLA 1953, as amended by § 1 ch. 34, SLA 1960.

Effect of amendment. — The 1976 amendment substituted "Three members" for "Each member" and "licensed chiropractic physicians who" for "a licensed chiropractic physician and shall" in the first sentence and added the present second sentence.

Sec. 08.20.030. Members' terms; vacancies. Members serve for staggered terms of three years. The terms of the public members of the board may not expire at the same time. Vacancies on the board shall be filled for the unexpired term. (§ 35-3-23 ACLA 1949; § 4 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment rewrote this section.

Sec. 08.20.040. Organization of board. Every two years, the board shall elect from its membership a president, vice president and secretary. (§ 35-3-24 ACLA 1949)

Sec. 08.20.050. Power of officers to administer oaths and take testimony. The president and the secretary may administer oaths in conjunction with the business of the board. (§ 35-3-24 ACLA 1949)

Sec. 08.20.055. Board regulations. The board shall adopt substantive regulations necessary to effect the provisions of this chapter. (§ 1 ch 102 SLA 1966)

Sec. 08.20.060. Power of board to adopt seal. The board shall adopt a seal and affix it to all licenses issued. (§ 35-3-24 ACLA 1949)

Sec. 08.20.070. Secretary.
Repealed by § 3 ch 59 SLA 1966.

Sec. 08.20.080. Records, reports and accounts of board.
Repealed by § 3 ch 59 SLA 1966.

Sec. 08.20.090. Quorum of board. A majority of the board constitutes a quorum for the transaction of business (§ 35-3-24 ACLA 1949)

Article 2. Licensing and Regulation.

Section		Section	
100.	Practice of chiropractic without license prohibited	150.	Recording of license
110.	Application for license	160.	Temporary permits
115.	Malpractice insurance	170.	Grounds for suspension, revocation or refusal to issue a license
120.	Qualifications for license	175.	Limits or conditions on license; discipline
130.	Examinations	180.	Fees
135.	Associate	190.	Disposition of fees
140.	Out-of-state licenses		

Sec. 08.20.100. Practice of chiropractic without license prohibited. No person may practice chiropractic in the state without a license. (§ 35-3-21 ACLA 1949)

Cited in Territory of Alaska v. Hawkins, 9 Alaska 573 (1939).

Am. Jur. reference. — 41 Am. Jur., Physicians and Surgeons, §§ 15, 16, 27.

Sec. 08.20.110. Application for license. A person desiring to practice chiropractic shall apply in writing to the board. (§ 35-3-26 ACLA 1949)

Sec. 08.20.115. Malpractice insurance. If medical malpractice insurance for chiropractors becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of chiropractic services to the public, the director of insurance may require all persons licensed under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of licensure under this chapter. The provisions of this section are satisfied if the licensee's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 5 ch 102 SLA 1976)

Sec. 08.20.120. Qualifications for license. An applicant shall be issued a license to practice chiropractic if he

(1) Repealed by § 25 ch 245 SLA 1970.

(2) has had a high school education or its equivalent;

(2) has successfully completed at least two academic years of study in a college of liberal arts or sciences;

(4) is a graduate of a legally chartered accredited school or college of chiropractic, approved by the board, which requires for graduation a residence course of instruction of not less than four years of nine months each;

(5) passes an examination given by the board;

(6) Repealed by § 8 ch 32 SLA 1971.

(7) passes to the satisfaction of the board Part I and Part II of the examination of the National Board of Chiropractic Examiners. (§ 35-3-25 ACLA 1949; am § 1 ch 53 SLA 1955; am § 1 ch 91 SLA 1965; am § 25 ch 245 SLA 1970; am § 8 ch 32 SLA 1971; am § 1 ch 84 SLA 1972)

Revisor's note (1972). — In ch. 84, SLA 1972, the apparently necessary word "examination" was omitted from AS 08.20.120(7). It has been added here.

Legislative committee reports. — Chapter 245, SLA 1970 (HCSSB 399 am H), was identical to CSHB 406 (Jud.). For report on CSHB 406 (Jud.), see 1970 House Journal Supplement No. 6. For report on ch. 32, SLA 1971 (HB 111 am), see 1971 House Journal, p. 138.

Sec. 08.20.130. Examinations. (a) Examinations for a license to practice chiropractic may be held in the time and manner fixed by the board.

(b) The examination may include practical demonstration and oral and written examination in those subjects usually taught in accredited chiropractic schools.

(c) A general average rating of 75 per cent is a passing grade on the examination.

(d) An applicant may take a re-examination within one year after failing the examination upon payment of a fee of $10. (§ 35-3-27 ACLA 1949; am § 2 ch 91 SLA 1965)

Am. Jur. reference. — 41 Am. Jur., Physicians and Surgeons, §§ 40, 41.

Sec. 08.20.135. Associate. A person who complies with § 120 (1), (2), (4), (5), and (6) of this chapter shall, pending compliance with (3) of § 120 of this chapter, be licensed to serve as an associate in an existing chiropractic clinic or office under the direct supervision of a licensed chiropractor for a period not to exceed three years. (§ 3 ch 91 SLA 1965)

Editor's note. — Paragraphs (1) and (6) of § 120, referred to in this section have been repealed.

Sec. 08.20.140. Out-of-state licenses. The board may issue a license without examination to an applicant presenting satisfactory proof of the possession of a license or certificate of registration in a state or territory of the United States, or a foreign country, if the requirements for registration at the date of his license are considered by the board as equivalent to those in this chapter, and if the licensing jurisdiction extends the same privilege to those holding a license from this state. (§ 35-3-25 ACLA 1949; am § 1 ch 53 SLA 1955)

Sec. 08.20.150. Recording of license. Each licensee shall record his license with the clerk of the superior court in the judicial district in which he is practicing his profession. (§ 35-3-28 ACLA 1949)

Sec. 08.20.160. Temporary permits. Temporary permits may be issued to persons apparently qualified until the next regular meeting of the board. (§ 35-3-28 ACLA 1949)

Sec. 08.20.170. Grounds for suspension, revocation or refusal to issue a license. (a) The board may refuse to issue, or may suspend or revoke a license upon any of the following grounds:

(1) malpractice;
(2) misrepresentation;
(3) unprofessional conduct;
(4) habitual intemperance, or addiction to the use of narcotics;
(5) conviction of a felony or misdemeanor invoiving moral turpitude;
(6) violation of any provision of this act.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board for the suspension or revocation of a license.

(c) Any person whose license is suspended or revoked may within two years from date of suspension apply for reinstatement, and if the board is satisfied that the applicant should be reinstated, it shall order reinstatement. (§ 35-3-29 ACLA 1949)

Am. Jur. reference. — 41 Am. Jur., Physicians and Surgeons, §§ 44 to 46.

Sec. 08.20.175. Limits or conditions on license; discipline. (a) In addition to action under § 170 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education or health the authority to practice chiropractic should be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by specialty, procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 6 ch 102 SLA 1976)

Sec. 08.20.180. Fees. The board shall impose and collect the following fees:

(1) upon the filing of an application for examination, $25;

(2) upon application for re-examination, $10;

(3) for issuance of temporary permit, $25;

(4) initial and renewal biennial license, $50;

(5) associate license, $30. (§ 35-3-30 ACLA 1949; am § 1 ch 13 SLA 1968)

Sec. 08.20.190. Disposition of fees. All fees collected by the board shall be paid into the general fund of the state. (§ 35-3-30 ACLA 1949)

Article 3. Unlawful Acts and Penalties.

Section

200. Violation of § 100 of this chapter

210. Fraudulent certificates

Sec. 08.20.200. Vilation of § 100 of this chapter. A person who violates § 100 of this chapter is guilty of a misdemeanor, and upon conviction is punishable by a fine of not more than $1,000, or by imprisonment for not more than a year, or by both. In prosecutions under this section, evidence that the defendant has failed to file his certificate of registration with the board is prima facie evidence that he is not a licensed chiropractor. (§ 3 ch 53 SLA 1955)

Revisor's note. — This section introduces a requirement which does not exist in this chapter, viz., filing a certificate with the board. It is the board's duty to keep a registry.

Sec. 08.20.210. Fraudulent certificates. Any person who obtains or attempts to obtain a chiropractic certificate by dishonest or fraudulent means, or who forges, counterfeits, or fraudulently alters any such certificate is punishable by a fine of not more than $500, or by imprisonment for not more than six months, or by both. (§ 4 ch 53 SLA 1955)

Article 4. General Provisions.

Section
220. Chiropractic defined

Sec. 08.20.220. Chiropractic defined. Chiropractic is the science of locating and correcting interference with nerve energy transmission and expression within the human body, and the employment and practice of drugless therapeutics, including physiotherapy, hydrotherapy, mechanotherapy, phytotherapy, electrotherapy, chromotherapy, thermotherapy, thalmotherapy, correcting and orthopedic gymnastics, and dietetics which includes the use of foods and those biochemical tissue building products and cell salts found within the normal human body, without the use of drugs or surgery. (§ 35-3-22 ACLA 1949)

Prescription of drugs or medicine illegal. — It is illegal and criminal for a chiropractor, without additional qualifications, to prescribe drugs or medicine to sick or injured persons. 1961 Op. Att'y Gen., No. 23.

Expenditures from fishermen's fund for medicine prohibited. — Money cannot

ARTICLE 1. THE BOARD

Section
10. Objectives
20. Meetings

12 AAC 16.010. OBJECTIVES. (a) It is the objective of the board to foster professional standards consistent with the best interests of the profession.

(b) It is the objective of the board to adhere to the Code of Ethics of the American Chiropractic Association or International Chiropractic Association as a basis for considering what comprises the duties and obligations of chiropractors to the public. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.020. MEETING. (a) Robert's Rules of Order govern the deliberations of the board to the extent that they do not conflict with this chapter or with the laws of the state.

(b) The board will meet regularly the second Saturday and Sunday of January and June for purposes of meeting and examining applicants. Other meetings or examinations are termed "special."

(c) The board will, when possible, coincide business meetings and examination of applicants for licensure. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.030. APPLICATION FOR EXAMINATION. No applicant may take the examination unless he

(1) applies on the board approved form for application for licensure;

(2) complies with all the forms, requirements and any additional requests for information by the secretary of the board when necessary to complete the applicant's credentials;

(3) submits to the board written proof of meeting all requirements of AS 08.20;

(4) pays the required fees for application and

(5) applies no less than 30 days before a scheduled examination. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.130

12 AAC 16.040. EVALUATION. Evaluation of an applicant's credentials in work for liberal arts or science (two years' liberal arts and science college) shall be made from a course of study from an institution equivalent to those of the University of Alaska or acceptable to the regional accrediting agencies for approved colleges of liberal arts or sciences. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.050. NOTIFICATION. An applicant will be notified of his passing or failing of an examination or the acceptance or denial of his application for examination within a reasonable time from the date of examination or

the receipt of application for examination. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.060. SCHEDULE. The board will when possible, regularly examine applicants on the second Saturday and/or Sunday of January and June at a time and place determined by the board. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.130(a)

12 AAC 16.070. BASIS OF QUESTIONS. All examination questions will be based upon material contained in standard text books used in chiropractic schools or colleges. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.080. IDENTITY OF APPLICANT. An applicant for examination will be designated by a number instead of a name, so that the identity is not disclosed to the examiners until the papers are graded. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.090. METHOD OF EXAMINATION. The paper of an applicant will be identified by numbers as follows:

(1) each envelope will be numbered and will contain a blank sheet of paper with a number on it which the applicant shall write his name and address on the blank and return it to the envelope which shall be sealed and delivered to the director;

(2) each applicant shall place on his examination paper the number given to him. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.130(a)

12 AAC 16.100. MATERIALS. No applicant may have on his examination table any paper or object other than the examination questions, examination paper, blotter, pencil, pens, and ink, eraser, and a watch. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.130(a)

12 AAC 16.110. LEAVING THE EXAMINATION ROOM. No candidate may leave the examination room for any reason unless accompanied by a proctor or board member. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.130(a)

12 AAC 16.120. DISTURBANCE. No applicant may communicate with another applicant during the examination. A disturbance on the part of the applicant will cause him to be required to leave the examination room. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.130(a)

12 AAC 16.130. QUESTIONS. An applicant shall rely solely on his own judgment for the meaning of each question, and on his own knowledge of the subject in answering each question. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.140. GRADES. (a) An applicant failing to make required grade average will be credited for the subjects passed.

(b) An applicant failing to attain a general average rating of 75 percent after two examinations is required to produce evidence of refresher courses in the subjects failed before he is allowed a re-examination. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.130

12 AAC 16.150. RE-EXAMINATION. An applicant may apply for re-examination by

(1) informing the board of his intention at least 30 days before the next regularly scheduled examination: and

(2) paying the re-examination fee. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.160. TIME. An applicant will be allowed to proceed at his own speed on each subject given in the examination, within the time specified. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.130(a)

12 AAC 16.170. SPECIAL EXAMINATION. A special examination of an applicant may be

allowed if all members of the board agree and notice of 30 days in writing is given to the board and the applicant has complied with the provisions of this chapter and AS 08.20. (Eff. 3/8/71, Reg. 37)

Authority: AS 20.055

12 AAC 16.180. RECONSIDERATION OF PAPERS. The examining board will not reconsider an applicant's examination papers unless the applicant presents his reason in writing to the board. The applicant is bound by the decision of the board. (Eff. 3/8/71, Reg. 37)

Authority: 08.20.055

12 AAC 16.190. CERTIFICATES. The board shall issue one form of license to those passing the examination for licensure. The license shall be designated "License to Practice Chiropractic." The license authorizes its holder to practice chiropractic in the state, and shall be signed by all board members. All certificates shall be numbered consecutively. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.200. TEMPORARY PERMITS. (a) Temporary permits are subject to termination by the board at any time if, in the board's determination, the holder of the permit is violating ethical behavior or law after being warned by the board that this action in regard to him was being contemplated.

(b) Temporary permits shall be displayed in a conspicuous place in the office where the holder practices chiropractic.

(c) It is the duty of the permittee to inform the board of any change in his mailing and practicing address. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.160

12 AAC 16.210. ASSOCIATES. (a) No associate may treat or diagnose a patient professionally unless

(1) he furnishes the board periodic evidence that he is pursuing reasonable academic study to fulfill the two years liberal arts or science requirements within the three-year period;

(2) he executes a contract with the supervising chiropractor which provides for a definite salary and no fee splitting, and provides that no remuneration may be made except under terms of the contract;

(3) the supervising chiropractor assumes liability for all malpractice of the associate.

(b) The board will deny the practice of an associate if in the opinion of the board the contract permits unfair advantage to be taken of the associate.

(c) The associate shall inform the board of any changes in his current mailing address and contemplated changes in his contract.

(d) The associate shall openly display his license in the office in which he practices and on the license shall be stamped in a conspicuous place on the face, the words, "associate" or "as the associated chiropractor licensed under statute."

(e) The board will revoke the license of an associate at any time it reasonably appears impossible for the associate to complete the specified curricula within three years from the date of licensure issue.

(f) The licensed associate shall use the word "associate" after his name to inform the public of his status. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.135

12 AAC 16.220. DUPLICATE LICENSES. The board shall, upon request, issue a duplicate license in place of the original if the original is destroyed or lost, or if the licensee legally changes his name. The duplicate license shall have on the face in a conspicuous place the word "duplicate." (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.230. MISREPRESENTATION. As used in AS 08.20.170 (2) "misrepresentation" means

(1) the use of any advertising in which untruthful, exaggerated, improper, misleading or deceptive statements are made;

(2) the advertising of techniques or modalities to infer or imply superiority of treatment or diagnose by their use;

(3) impersonation of another practitioner of like or different name;

(4) advertising either in his own or under the name of another person, or clinic, or concern, actual or pretended, in any newspaper, pamphlet, circular or other written or printed paper or document, professing superiority to or a greater skill than that possessed by fellow chiropractic physicians;

(5) the advertising or holding oneself out to treat diseases or other abnormal conditions of the human body by any secret formula, method or procedure;

(6) knowingly permitting or allowing any person to use his certificate in the practice of any system or mode of treating the sick or afflicted. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.240. UNPROFESSIONAL CONDUCT. In AS 08.20.170 (3) "unprofessional conduct" means

(1) aiding the practice of any of the healing arts by an unlicensed person;

(2) the use of his name under the designation "Doctor," "Dr.," "Chiropractor," "Chiropractor Physician," or "Ph.C." or any similar designation with reference to the commercial exploitation of any goods, wares or merchandise;

(3) advertising which contains offers, premium gifts or cut rates for the purpose of attracting or retaining patients; or which is not in accordance with sec. 250 of this chapter;

(4) mention of either

(A) superiority to other members of the chiropractic profession; or

(B) of the school from which the advertising chiropractor was graduated;

(5) the use of handbills for the purpose of attracting patients;

(6) advertising the prices for which services are available;

(7) dishonorable conduct of degradation by a license relating to the occupation. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.170

ARTICLE 3. GENERAL PROVISIONS

Section
250. Violations
260. Advertising
270. Definitions

12 AAC 16.250. VIOLATIONS. It is the duty of all members of the board to report to the Division of Occupational Licensing, instances of alleged violations of AS 08.20.100. The secretary shall inform a new licensee in the state that it is his duty to report all instances of suspected unlicensed practice of chiropractic known to him to the board. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055
AS 08.20.100

12 AAC 16.260. ADVERTISING. (a) Upon the opening, reopening or removal of an office for the practice of chiropractic, the chiropractor may publish, in local newspapers, an announcement, which shall be limited to a statement of his name, title, profession, degrees, address, telephone number and office hours. The announcement may not be published for more than 90 days after the opening, reopening, or removal of the office. The announcement may not exceed eight square inches in area.

(b) When a chiropractor transfers his established practice to a successor, the successor shall, within a reasonable time, remove from all signs, cards, stationery and directories connected with the practice he has acquired or is acquiring, all such words or phrases as "successor to" or words of like import. Under no circumstances may these signs, cards, stationery or advertising

continue for a period of more than two years. (Eff. 3/8/71, Reg. 37)

Authority: AS 08.20.055

12 AAC 16.270. **DEFINITIONS.** In this chapter:

(1) "board" means the Board of Chiropractic Examiners as established by AS 08.20.010. (Eff. 3/8/71, Reg. 37

Authority: AS 08.20.055

STATE OF ALASKA
Board of Pharmacy
(October, 1978)

Findings

The practice of pharmacy is controlled by AS 08.80, by Title 17 (Food and Drugs) and by federal laws and regulations. Practitioners dispense, upon prescription, controlled and dangerous drugs as well as those routinely prescribed to relieve pain or illness or to promote health. Lack of control over persons responsible for appropriate dispensing and security of these substances would present a danger to the welfare of the public. In general, the Board of Pharmacy has operated to insure high standards within the profession, to allow entry of qualified individuals, and to provide availability of services to the consuming public. Inconsistencies, exceptions and recommendations concerning the Board and regulation of the profession are cited in this report. It is recommended that the Board of Pharmacy and State regulation of this profession be reestablished for another four-year period.

I. General Information

A. Regulated Parties

1. Pharmacists
2. Intern Pharmacists
3. Pharmacies
4. Shopkeepers

B. Statutory Definition of Regulated Profession

1. Pharmacist: None specified

2. Intern pharmacist: None specified

3. Pharmacy: "... includes 'drug store' and 'pharmacy or drug department' and means a place of business in which physicians' prescriptions are compounded or dispensed and in which drugs and medicines are compounded or dispensed;" (AS 08.80.480(5))

4. Shopkeepers: "... means a retail dealer who sells over the counter medicinal preparations in original unbroken packaging which do not require a prescription for dispensing." (AS 08.80.480(19))

C. Nature and Composition of Board

1. Board members and terms:

Five-year term (no restrictions regarding consecutive terms or number of terms).

Eldon Ulmer (Chairman)	Ends March 31, 1977
James L. Murphy	Ends March 31, 1976
Lester E. Elkins	Ends March 31, 1983
Charles R. Rush (Secy.)	Ends March 31, 1979
James H. McCorcle	Ends March 31, 1980
Fred Savok	Ends March 31, 1981
Robert K. Snider	Ends March 31, 1980

2. Representation:

Profession = 5
Public = 2

3. Qualifications:

Five members shall be resident licensed pharmacists who have actively practiced in the State for the three-year period immediately preceding appointment and two members shall be persons with no direct financial interest in the health care industry.

1978 (through June 30)	1	0	0

Pending: 15

The largest portion of these cases was referred by members of the Board or profession and most deal with allegations of unethical advertising. Due to the nature of offense and length of time since filed, several of these complaints may be considered moot at this point.

II. Criteria and Analysis

A. To what extent has the Board of Pharmacy operated in the public interest?

Overall, the Board of Pharmacy is, and has been, acting in the public interest in assuring qualified practitioners and availability of services throughout the State. Recommendations and observations made in this report are designed to enhance Board operation in regulating the profession in a manner which is most desirable for the continued protection of the public.

The Board of Pharmacy has a number of statutory powers and duties through which it regulates the profession. For example, it may examine applicants, investigate State or federal violations, promulgate and adopt regulations, register and govern the practice of interns, and promulgate regulations

to ensure security of dangerous drugs (AS 08.80.030). AS 08.80.040 provides that the Board shall examine applicants, grant registration, initiate prosecution of violators, submit reports on the condition of pharmacy in the State to the Legislature, maintain necessary records, issue a list of potentially dangerous medicinal ingredients or preparations, and issue shopkeeper permits. These powers and duties are felt generally to be necessary if the Board is to continue to function for the public interest and protection by maintaining control over the quality and integrity of practitioners and pharmaceutical related establishments.

Qualifications for licensure include fluency in the English language, two character affidavits, graduation from a recognized college of pharmacy, successful completion of the NABP examination and 1,500 hours of internship, of which 540 must be postgraduate. The only other requirement established by the Board is that the applicant must pass a jurisprudence examination given by a member of the Board. Applicants may take this jurisprudence examination at their convenience and as many times as needed to pass.

The written examination proctored by the Board is developed and provided by the National Association of Boards of Pharmacy. This examination, the NABPLEX, is given nationwide to graduates who are then registered through the National Board. Very few licentiates have been licensed by examination in Alaska, only those who have not previously taken the National Board examination. Most applicants for an Alaska license are approved by endorsement as certified by the National Board.

Licensure may be delayed in instances where an applicant does not meet the requirement for 540 hours of postgraduate training under direct supervision of a licensed pharmacist. Registration as a postgraduate intern is then available until completion of the requirement at which time a permanent license is issued.

Upon completion of all items except validation of registration by the National Board, a Board member may issue a temporary registration certificate. Temporary certificates are valid for three months or until the next Board meeting - whichever is longer, may be extended for 60 days maximum, are nonrenewable and are issued on a one-time basis. This procedure allows adequate time in which to receive NABP certification and allows the applicant to begin practicing in the interim. Pregraduate intern permits are also issued to applicants who are enrolled and at least a junior in pharmacy school.

Practices and policies which utilize standard examinations, standard endorsement procedures and the issuance of temporary permits to qualified applicants are felt to operate in the public interest by encouraging entry into the profession and promoting increased availability of services.

Regulations adopted by the Board govern the practice of interns, practices of hospital pharmacies, and expanded definitions. Statutory authority to promulgate regulations ensuring dangerous drug security and to issue a list of potentially dangerous medicinal ingredients or preparations has been provided, the latter being a mandatory directive. However, some difficulty has been encountered by the Board in attempting to follow through on these. Some time ago regulations were proposed with respect to the required list of dangerous ingredients and preparations; they were not approved and no further action has taken place. This requirement is mandated by statute and should be pursued by the Board. Promulgation and adoption of regulations concerning security of dangerous drugs has also not occurred although this statute is optional and not mandatory.

Investigations of statute violations per se are conducted by and are generally the responsibility of the administrative agency. The Board, on its own initiative, and considering budgetary constraints, has con-

ducted on-premise inspections of pharmaceutical establishments wherever and whenever possible. These inspections include drug security, sanitation, access of pharmacy within the building, display of license, and equipment and references available. Because of budgetary limitations, these inspections have not occurred as often as may be desirable and in some areas very seldom or not at all. Self-inspection forms may be mailed in lieu of a personal visit as a reminder to proprietors.

Statutory provisions are made with respect to registration of shopkeeper permits. Issuance of such permits would entail on-going certification and regulation of all food stores, convenience stores, and so on, which sell items such as aspirin and laxatives to the public. Control over these establishments would assist in such matters as recalling items at the request of the manufacturer but regulation in this area has been unworkable due to opposition on behalf of retail establishments. Without enforcement capabilities, the Board of Pharmacy has requested that provisions regarding shopkeepers be deleted from the statutes.

No report has been made to the Legislature on the condition of pharmacy in the State although the administrative agency has been requested by the Board to accomplish this.

Maintenance of registration records with supporting documents is an area of some concern. Administrative agency files are inadequate with respect to licensing of applicants and actions authorized by the Board. Additionally, there is evidence that one member is acting or approving action which should be documented as occurring after consideration by the Board as a whole. For example, temporary permits, retail pharmacy registrations, and hospital pharmacy registrations are routinely issued by one Board member with no record of other members' consideration or approval. Statutes authorizing these items address the Board, not individual members, and the Board should take action as a body at a duly conducted meeting in the performance of its duties. Also missing from

some files are: (1) renewal information, (2) records of approval for licensure following internship, (3) jurisprudence examinations and scores, (4) copies of initial licenses, (5) application information, and (6) records of licensure authorization. Every effort should be made by the Board and by the agency to maintain adequate records and documents. Organization of records, forms and examination information would better enable the Board to perform its functions, such as submission of an annual report.

Another problem in this area is that fees, examination materials, application forms and other information have frequently been initially sent to a member of the Board rather than to the administrative agency. This procedure should be discontinued and all materials pertaining to applicants and licensees should be forwarded to and maintained by the administrative agency. Again, review and action on files should only occur through consideration of the Board at a regular meeting.

The Board of Pharmacy has been incorrectly interpreting and applying statutes concerning temporary registration in some instances. AS 08.80.150 states, "The board shall issue a temporary license to an applicant applying for registration as a pharmacist under § 140 of this chapter upon written or oral examination..." § 140 provides for licensure by endorsement for an applicant certified by the National Board who meets the requirements of § 110(1) - (4). Section 110(5), requiring 1,500 hours of internship training of which 540 hours must be postgraduate, is excluded from the endorsement provision and from the temporary registration provision. The Board has, however, denied temporary registration to applicants who have not had 540 hours of postgraduate experience, against statutory provisions. Amendments have been recently proposed to change these particular statutes but until such time as a change is made, if it is made, the Board should act in compliance with law.

No continuing education requirements are in effect for members of this profession nor are any contemplated as a condition of relicensure. The Board has recently taken a position in favor of such requirements but against mandatory imposition based on the scarcity of available educational resources within the State. Valid arguments may be made against mandatory continuing education. One is the fact that if ongoing education is required, provisions must be made to allow compliance. Pending further study of this issue, one opinion[1] seems to indicate that vigorous investigation and enforcement programs may be an effective course of action. It must be recognized, however, that there is a widespread trend toward continuing education requirements as a condition of license renewal. In view of the technical nature of the profession, changing procedures, new and increasing numbers of medicinal aids, and increasing technology in this field, it is recommended that the Board reconsider its position and adopt regulations requiring some form of continuing competency as a condition of relicensure. This may also be accomplished by statute with the Board outlining acceptable educational criteria. Any exceptions to such requirements should also be delineated by statute.

B. To what extent has the operation of the Board of Pharmacy been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

---

[1] Shimberg, B., Improving Occupational Regulation, "Officials from 30 states discuss common problems and search for solutions," Educational Testing Service, Princeton, N.J., 1976, p. 35.

As previously noted, present statutes are considered to be appropriate to Board operation. While there have been no particular difficulties with advertising in the profession, AS 08.80.420(b) should be repealed in keeping with recent federal court decisions which deal with this subject. A statutory provision is also recommended which would require continuing education and which would clarify qualifications for temporary registration.

Board policies which allow for one member to act on matters of licensing and which circumvent the administrative agency's responsibility in the areas of fees collection and applicant files are felt to impede effective regulation. There is also indication that applicants are notified of approval for licensure but no certificate is issued until the applicant passes the jurisprudence examination. If certification is to be withheld in this manner, the Board and the regulations should clearly indicate that this examination is a prerequisite to licensure.

Available records further indicate that temporary registrants may have been practicing without authorization. In several instances temporary registrations expired prior to the effective date of licensure with no record of an extension having been applied for or approved. At least one applicant was granted two temporary permits with a three-month interruption between them. The effective date of licensure was beyond initial temporary registration even with an extension period. Temporary registrations are statutorily provided for applicants for licensure by endorsement pending National Board certification. They have, on occasion, been issued pending receipt of such items as birth certificate notarization. The Board should grant temporary registration privileges as provided by statutes and in a uniform manner. It further should act on these matters as a Board and ensure that adequate documentation exists for action.

The desires of the Board to delete AS 08.80.030(6), .040(7), .160(13), .380, and .480(19) concerning shopkeepers is concurred with as being unrealistic in terms of regulation or control. Opposition previously cited regarding regulation of potentially dangerous medicines and preparations has made these statutory provisions unenforceable under present circumstances.

The Board of Pharmacy has experienced some difficulty in its administrative operations with respect to personnel and budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs although high employee turnover has impeded continuity and follow-up on Board requests. All fees and revenues are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes. An expanded budget which would allow for increased inspection scheduling would be desirable if this Board is to be effective in administration of its duties.

Consideration should be given to an increased number of scheduled meetings to allow the Board to consider matters needing action and to facilitate documentation of subsequent action.

The Board of Pharmacy has experienced the same difficulties as have all other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency. During the past year two investigator positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and poten-

tially injurious licensing complaints. It must be noted that until recently this Board was unaware of the number of complaints on file concerning the profession.

It is undeniably in the public interest to enforce the laws promulgated for the protection of public health and welfare and to take expeditious action upon receipt of potentially serious complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

C. To what extent has the Board of Pharmacy recommended statutory changes which are generally of benefit to the public interest?

Health care legislation enacted in 1976 provided amendments to existing statutes relating to the Board and the practice of pharmacy concerning: (1) addition of lay members to the Board; (2) Medical Indemnity provisions; (3) applicability of the Administrative Procedure Act; (4) expansion of violations provisions; and (5) general "housekeeping" items.

The Board of Pharmacy has discussed and recommended statutory and regulatory changes which it has determined would be of benefit in regulating the practice of pharmacy. Specific recommendations of direct benefit to the public are absent from Board records, however, increased administrative efficiency has an overall beneficial public effect.

D. To what extent has the Board of Pharmacy encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The Board is conscientious and sensitive to public concern and to aspects of public health and welfare. However, very little public interest or participation in the activities of the Board has been shown in the form of attendance at Board meetings, hearings, or as written input. Most public concern is expressed by individuals with particular problems directly approaching Board members. Notices of pending meetings and new or changing regulations are published in major newspapers in the State. It can be assumed that members of the public are somewhat reluctant to involve themselves in areas of a technical or scientific nature and which may be considered too complex for anything but minimal scrutinization by a layperson. A technical and professional "barrier" of sorts exists, due to the nature of the occupation involved, which probably tends to deter public knowledgeability and participation.

The Board has not taken any overt action to solicit general public response to its quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Wider dissemination of general information regarding the Board may help to mitigate public disinterest.

Public interests are furthered by the existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[2]

---

[2]Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Pharmacy processed and resolved?

As of June, 1978 there were 15 complaint cases pending in agency files. Most of these deal with advertising and would be invalid in view of recent court rulings. Until recently the Board has been unaware of the number and nature of these complaints and little action was taken. The administrative agency is currently addressing complaints and investigative procedures and the need for timely disposition of issues. Investigation services to all boards and commissions under its jurisdiction are expected to improve.

There have been no complaints against the Board of Pharmacy or its members and no complaints regarding the Board or profession were reported received by the Office of the Ombudsman.

An accelerated inspection program by the Board is recommended to ensure adherence to laws, quality of premises and quality of services provided. Concurrently, it is recommended that budgetary allowances be made for such inspections throughout the State.

F. To what extent does the Board of Pharmacy present qualified applicants to serve the public?

Applicants for licensure are not sponsored by the Board of Pharmacy. Individuals wishing to practice within the State must submit fees and application with documentation of qualifications. Two examinations each year are currently scheduled. Applicants who demonstrate the required level of knowledge and proficiency are granted a license by examination or by endorsement.

High professional standards are advocated by this Board and members have exhibited a willingness to serve to the utmost to assure those high standards. Exceptions to procedure and statute and inconsistencies noted in this report are not felt to be a result of professional disinterest or disregard of public welfare. On the contrary, entry into the profession is facilitated and expedited by the Board in most cases. Recommendations made should be implemented to correct any inequities and to increase administrative efficiency. The Board should consider scheduling one or two additional meetings each year for the purpose of acting on Board business and coordinating its actions.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Pharmacy in its own activities, and in its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for two other boards) who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

The Board of Pharmacy issues licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Pharmacy to better serve the interests of the public?

AS 08.80.030(6), .040(7), .160(13), .380 and .480(19), concerning shopkeepers, should be repealed as being unenforceable and unrealistic in terms of control. AS 08.80.420(b) should also be repealed as inappropriate with respect to advertising restrictions. The Board should be given specific statutory direction concerning the subjects of continuing education requirements and temporary permit qualifications.

The Board of Pharmacy has adequate regulatory authority. The Board should act to comply with AS 08.80.040(6) which requires issuance of a list of dangerous medicinal ingredients or preparations. It should also clarify the requirement for a jurisprudence examination as it relates to disbursement of certification. Board members should discontinue the practice of acting independently from the Board and from requesting or retaining materials that should be directed to and maintained by the administrative agency. This would also facilitate compliance with .040(4) which requires reports to the Legislature on the condition of pharmacy in the State. The administrative agency will establish procedures and ensure maintenance of records to facilitate assistance to the Board and accountability to the public or other interested parties. The agency will also continue to address the need for efficient and responsive investigation of complaints.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are simply not adequate to cover transportation and per diem for meetings and examinations, and the Division of Occupational Licensing administrative overhead such as staff salary, examination expenses and investigative services. Resources which would enable the Board to conduct periodic inspections of premises throughout the State are not available. This function of the Board is necessary to insure compliance with laws and standards and to inspect the quality of establishments and services. Budgetary allowances are needed for adequate inspection scheduling and for an increase in meetings when necessary to conduct Board business.

Current Board composition is also determined to be adequate. It is recommended, however, that the number of terms served be restricted to one in view of the fact that members serve for a five-year period.

III. Conclusion

The Board of Pharmacy and State regulation of this profession is justified in terms of protection of public health, safety and welfare.

IV. Summary of Recommendations

The Board of Pharmacy should be reestablished for an additional four-year period. The following recommendations are made:

1. The Board should comply with statutory provisions and apply those provisions uniformly.

   a. The Board should comply with § 040(6) which requires that it "issue a list of potentially dangerous medicinal ingredients or preparations that may be sold only under the direct supervision of a licensed pharmacist;" (See discussion on p. 9)

   b. The Board should "promulgate regulations to ensure adequate security for all dangerous drugs" as authorized by § 030(8). (See discussion on p. 9)

   c. The Board and the administrative agency should comply with § 040(4) which requires a report to the Legislature on the condition of pharmacy within the State. (See discussion on p. 10)

   d. The Board should apply the requirements for the issuance of temporary registrations as delineated by statute. While the Board is proposing a change which would make 540 hours of postgraduate supervision under a licensed pharmacist manadatory, this is not presently a requirement for temporary registration. (See discussion on p. 11)

2. The Board should clarify its position with respect to a jurisprudence examination and its relationship to licensure. (See discussion on p. 13)

3. A statutory change is recommended which sets out mandatory continuing education requirements for this profession and any appropriate exceptions. The Board should then address the kinds of educational courses which meet the requirements. (See discussion on p. 12)

4. Consideration should be given to deleting § .420(b) concerning advertising and § .030(6), .040(7), .160(13), .380, and .480(19) concerning shopkeepers and their regulation. (See discussion on p. 10)

5. The Board should act on all matters pertaining to licensure and examination privileges as a body at a regular business meeting. Individual members should not act independently of the Board in granting or denying these privileges. (See discussion on p. 10)

6. It is recommended that the Board expand its inspection duties to encompass periodic inspections of all establishments throughout the State and that it increase the number of meetings scheduled each year when necessary for the efficient conduct of Board business. The Board will not, however, be able to accomplish this without adequate budgetary allowances. (See discussion on p. 9)

7. It is recommended that membership on the Board be restricted to one five-year term unless initially appointed to fill a vacant term or following a term of absence. (See discussion on p. 19)

Chapter 80. Pharmacy Act.

Article
1. The Board of Pharmacy (§§ 08.80.010—08.80.100)

3. Duties of Licensed Pharmacists (§§ 08.80.270—08.80.365)
4. Unlawful Acts (§§ 08.80.370—08.80.460)
5. General Provisions (§§ 08.80.470—08.80.490)

Article 1. The Board of Pharmacy.

Section
10. Creation and membership of Board of Pharmacy
20. Term of office
30. Powers of the board
40. Duties of the board
50. Applicability of Administrative Procedure Act
60. Meetings of the board
70. Quorum
80. Expenses of members
90. Disposition of fees
100. [Repealed]

Sec. 08.80.010. Creation and membership of Board of Pharmacy. There is created the Board of Pharmacy, composed of seven members, five of whom shall be pharmacists licensed in the state who have been actively engaged in the practice of pharmacy in the state for a period of three years immediately preceding their appointment. Two shall be persons with no direct financial interest in the health care industry. Whenever possible, the board shall include at least one member from each judicial district. (§ 3 ch 194 SLA 1955; am § 25 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment, in the first sentence, substituted "seven members, five" for "five members, each," "pharmacists" for "a pharmacist," "have" for "has," and "their" for "his." The amendment also added the present second sentence.

Am. Jur. and C.J.S. references.—17 Am. Jur., Drugs and Druggists, §§ 7 to 13.
28 C.J.S. Druggists §§ 1, 2, 4.

Sec. 08.80.020. Term of office. Members of the board are appointed by the governor, and confirmed by the legislature in joint session, for overlapping terms of five years, or until their successors are appointed and qualified. The terms of the public members shall be staggered so that they do no expire at the same time. An appointment to fill a vacancy is for the unexpired term. The term of office begins on April 1 of each year. (§ 3 ch 194 SLA 1955; am § 26 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment added the present second sentence.

Sec. 08.80.030. Powers of the board. The board may

(1) elect a president and secretary from its membership and adopt rules for the conduct of its business;

(2) examine applicants for registration as pharmacists;

(3) investigate individually, collectively, or through its agent, for violations of this chapter, or of any other state or federal statute relating to the practice of pharmacy;

(4) adopt regulations and do whatever else is necessary and advisable to carry out the purposes of this chapter;

(5) promulgate regulations to carry out the purposes of this chapter;

(6) examine applicants for shopkeeper permits;

(7) register intern pharmacists and promulgate rules relating to their minimum experience requirements;

(8) promulgate regulations to ensure adequate security for all dangerous drugs. (§ 4 ch 194 SLA 1955; am § 1 ch 72 SLA 1969; am § 9 ch 69 SLA 1970; am § 1 ch 206 SLA 1972; am § 1 ch 187 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "investigate individually, collectively, or through its agent, for" for "investigate, individually, collectively, all alleged" in paragraph (3).

Legislative committee report.—For report on ch. 69, SLA 1970 (HB 564), see 1970 House Journal Supplement No. 2, p. 7.

Sec. 08.80.040. Duties of the board. The board shall

(1) examine qualified applicants for registration as pharmacists; each examination shall be graded by a member who resides in a judicial district other than the district in which the applicant resides;

(2) grant certificates of registration;

(3) initiate prosecution of any person violating this chapter;

(4) report to the legislature on the condition of pharmacy in the state; the report shall include a resumé of the proceedings of the board during the year and the names of all persons registered under this chapter;

(5) maintain a record of the name and place of business of each person registered under this chapter, together with evidence adequate to justify registration;

(6) issue a list of potentially dangerous medicinal ingredients or preparations that may be sold only under the direct supervision of a licensed pharmacist; the failure to include an ingredient or preparation in this list does not affect any law or regulation, which prohibits or restricts the sale of the ingredient or preparation; and

(7) issue shopkeeper permits in accordance with § 380 of this chapter. (§ 5 ch 194 SLA 1955; am § 2 ch 206 SLA 1972)

Sec. 08.80.050. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62).

Sec. 08.80.060. Meetings of the board. The board shall meet at least once each year at the call of the president for the transaction of business

properly before it. The president shall also call the board into session when requested in writing by at least two members. The secretary shall give at least 30 days written notice to all members before a meeting. (§ 6 ch 194 SLA 1955)

Sec. 08.80.070. Quorum. Four members constitute a quorum for the transaction of business. However, when the board meets for the purpose of examining applications for registration, three members of the board constitute a quorum. (§ 6 ch 194 SLA 1955; am § 27 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "Four members" for "Three members" at the beginning of the section and "three members" for "two members" near the end of the section.

Sec. 08.80.080. Expenses of members. Members of the board are entitled to reimbursement for actual travel expenses incidental to the discharge of their duties and, while in the performance of their duties, are entitled to the per diem expenses allowed by law. (§ 7 ch 194 SLA 1955)

Sec. 08.80.090. Disposition of fees. The fees collected by the secretary of the board shall be deposited in the general fund of the state. (§ 21 ch 194 SLA 1955)

Sec. 08.80.100. Board secretary as certifying officer.
Repealed by § 3 ch 59 SLA 1966.

Article 2. Licensing and Registration.

Section
110. Qualifications for registration
115. Registration of pregraduate and postgraduate intern pharmacist
117. Malpractice insurance
120. Grading and content of examination
130. Re-examination
140. License by endorsement
150. Temporary registration
155. Emergency permit
160. Fees
170—210. [Repealed]
220. Prescription department required for issuance of license
230. Sanitary conditions required for issuance of license
240. Form and display of registration certificate and license
250. Renewal of lapsed registration
260. Grounds for refusing or revoking a license
265. Limits or conditions on license; discipline

Sec. 08.80.110. Qualifications for registration. An applicant for registration as a pharmacist shall

(1) be fluent in the reading, writing and speaking of the English language;

(2) furnish the board with at least two affidavits from reputable citizens, whom he has known for at least one year, attesting to his good moral character and freedom from addiction to the use of drugs or alcoholic liquors;

(3) be a graduate of a college of pharmacy recognized by the National Association of Boards of Pharmacy;

(4) pass an examination by a board of pharmacy which board has been approved by the National Association of Boards of Pharmacy;

(5) have completed at least 1,500 hours of internship training under the direct supervision of a licensed pharmacist in a licensed pharmacy, 540 hours of which must have been completed after graduation. (§ 8 ch 194 SLA 1955; am § 1 ch 24 SLA 1968; am § 2 ch 72 SLA 1969; am §§ 3, 4 ch 206 SLA 1972; am § 16 ch 127 SLA 1974)

Effect of amendment. — The 1974 amendment deleted "a citizen of the United States and" following "be" in paragraph (1).

Legislative committee report. — For report on ch. 127, SLA 1974 (SCSHB 817 am S), see 1974 House Journal, p. 657.

Cited in Hicklin v. Orbeck, Sup. Ct. Op. No. 1435 (File No. 3025), 565 P.2d 159 (1977).

C.J.S. references. — 28 C.J.S. Druggists § 3; 53 C.J.S. Licenses §§ 32 to 34.

Sec. 08.80.115. Registration of pregraduate and postgraduate intern pharmacist. (a) An applicant for registration as a postgraduate intern pharmacist shall meet the requirements of § 110(1) — (3) of this chapter and pay the required fee.

(b) An applicant for registration as a pregraduate pharmacist shall meet the requirements of § 110(1) and (2) and shall be enrolled in a pharmacy school recognized by the National Association of Board of Pharmacy and shall be declared a junior by the pharmacy school. An applicant for registration as a pregraduate internship pharmacist may be on recognized vacation from the pharmacy school; however, the vacation may not exceed one quarter or one semester. The pregraduate internship pharmacist shall pay the required fee.

(c) The registration of postgraduate or pregraduate internship pharmacists is valid for one year and may be renewed upon application. (§ 5 ch 206 SLA 1972)

Sec. 08.80.117. Malpractice insurance. If medical malpractice insurance for pharmacists becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of pharmacist services to the public, the director of insurance may require all persons licensed under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of licensure under this chapter. The provisions of this section are satisfied if the licensee's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 28 ch 102 SLA 1976)

Sec. 08.80.120. Grading and content of examination. To pass the state pharmacy examination each applicant must attain a general average of not less than 75 per cent and a grade of not less than 60 per cent in any one category of the National Association of Board of Pharmacy Standard Examinations for licensure or an equivalent examination given by the board. (§ 89 ch 194 SLA 1955; am § 2 ch 24 SLA 1968; am § 6 ch 206 SLA 1972; am § 1 ch 50 SLA 1974)

Effect of amendment. — The 1974 amendment, at the end of the section, substituted the language beginning "any one category" and ending "examination given by the board" for "each of the following subjects on the examination: jurisprudence, chemistry, mathematics, pharmacy, pharmacology and related subjects, and in the discretion of the board, oral theory and practical pharmacy."

Legislative committee report. — For report on ch. 50, SLA 1974 (HB 588), see 1974 House Journal, p. 311.

Sec. 08.80.130. Re-examination. An applicant unsuccessful in his initial examination may take a second examination within one year without further application and upon payment of the re-examination fee. If the applicant fails to take a second examination within one year, he must submit a new application for any examination. (§ 8 ch 194 SLA 1955; am § 7 ch 206 SLA 1972)

Sec. 08.80.140. License by endorsement. The board may register without examination an applicant who has been certified as a registered pharmacist by the National Association of Boards of Pharmacy, if the applicant meets the requirements of § 110(1) — (4) of this chapter. (§ 8 ch 194 SLA 1955; am § 3 ch 24 SLA 1968; am § 3 ch 72 SLA 1969; am § 8 ch 206 SLA 1972)

Sec. 08.80.150. Temporary registration. The board shall issue a temporary license to an applicant applying for registration as a pharmacist under § 140 of this chapter upon written or oral examination before a member of the board and certification by the member to the secretary of the board that the applicant is competent to receive a temporary license. The temporary license is valid for three months, or until the next regular meeting of the board, whichever is longer. A temporary license is not renewable, but at the discretion of the issuing board member may be extended for a period not to exceed 60 days, and an applicant may not receive more than one temporary license. An applicant whose registration has been denied by the board is not eligible to receive a temporary license. (§ 9 ch 194 SLA 1955; am § 9 ch 206 SLA 1972)

Sec. 08.80.155. Emergency permit. (a) The board may in its discretion grant an emergency permit to a pharmacist for the purpose of providing coverage in a pharmacy which is temporarily without the services of a pharmacist due to death, illness or other emergency circumstances.

(b) A pharmacist applying under (a) of this section must submit proof that he holds a license in good standing in a state recognized by the National Association of Boards of Pharmacy, and pay the fee required under § 160 of this chapter.

(c) A permit issued under this section is valid for a period not to exceed 60 days. (§ 10 ch 206 SLA 1972)

Sec. 08.80.160. Fees. The following fees shall be imposed under this chapter when applicable:

(1) examination fee	$50
(2) re-examination fee	15
(3) reciprocity investigation fee	25
(4) biennial pharmacist license fee	50
(5) temporary license fee	10
(6) wholesale drug dealer biennial license fee	50
(7) retail pharmacy biennial license fee	50
(8) pharmacy intern registration fee	10
(9) emergency permit fee	10
(10) hospital pharmacy biennial license fee (in and out-patient)	50
(11) hospital drug room biennial license fee (inpatient)	25
(12) nursing home and related facilities biennial license fee for inpatient dispensing	25
(13) shopkeepers biennial permit fee	10
(14) license amendment or replacement fee	2

(§ 10(a) ch 194 SLA 1955; am § 4 ch 24 SLA 1968; am § 11 ch 206 SLA 1972)

Sec. 08.80.170. Examination fee.

Repealed by § 7 ch 24 SLA 1968.

Sec. 08.80.180. Temporary registration fee.

Repealed by § 7 ch 24 SLA 1968.

Sec. 08.80.190. Renewal fee.

Repealed by § 7 ch 24 SLA 1968.

Sec. 08.80.200. Wholesale dealer license fee.

Repealed by § 7 ch 24 SLA 1968.

Sec. 08.80.210. Retail dealer license fee.

Repealed by § 7 ch 24 SLA 1968.

Sec. 08.80.220. Prescription department required for issuance of license. The board shall issue a license to operate a pharmacy only to an establishment which operates a bona fide prescription department. (§ 10 ch 194 SLA 1955)

Sec. 08.80.230. Sanitary conditions required for issuance of license. Failure to have proper sanitary appliances and to maintain orderly and sanitary premises are grounds for refusing a license to a pharmacy. (§ 10 ch 194 SLA 1955)

Sec. 08.80.240. Form and display of registration certificate and license. The registration certificate and license shall be in the form, and issued in the manner prescribed by the board. The license and certificate shall be conspicuously displayed in the premises for which issued or in which the licensee is employed. (§ 10 ch 194 SLA 1955)

Sec. 08.80.250. Renewal of lapsed registration. A previously licensed pharmacist who has not been registered for a period of three years or more shall take an oral examination before the board and satisfy it of his competence before the renewal of his registration. He may take a written examination if he desires. (§ 10 ch 194 SLA 1955; am § 5 ch 24 SLA 1968)

Sec. 08.80.260. Grounds for refusing or revoking a license. The board may refuse to issue, or may suspend or revoke a license to practice pharmacy for any of the following grounds:

(1) conviction of a felony or conviction of a misdemeanor involving moral turpitude;

(2) selling, bartering, or making available, morphine, cocaine or other narcotic to a person addicted to the use of drugs except upon prescription issued by a licensed physician;

(3) drug addiction;

(4) intemperance in the use of alcohol;

(5) violation of this chapter;

(6) conduct or habits inconsistent with professional standards;

(7) conviction of selling federal legend drugs without prescription of a licensed physician, surgeon, dentist or veterinarian;

(8) falsely stating in any license application that the applicant has not been convicted of or is not presently charged with any violation of pharmacy, liquor or narcotic laws;

(9) violation of regulations pertaining to the provision of adequate security for dangerous drugs. (§ 14 ch 194 SLA 1955; am § 6 ch 24 SLA 1968; am § 12 ch 206 SLA 1972)

Cited in Leege v. Martin, Sup. Ct. Op. No. 131 (File No. 256), 379 P.2d 447 (1963).

ALR and C.J.S. references. — What amounts to conviction within statute making conviction a ground for refusing or cancelling license or special privilege, 113 ALR 1179.

28 C.J.S. Druggists §§ 2 to 5; 53 C.J.S. Licenses § 44.

Sec. 08.80.265. Limits or conditions on license; discipline. (a) In addition to action under § 260 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education, or health the authority to practice pharmacy under this chapter should

be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by specialty, procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 28 ch 102 SLA 1976)

Article 3. Duties of Licensed Pharmacists.

Section		Section	
270.	Report of employee	310.	Record of sales
280.	Responsibility for goods sold	320.	Pharmacist required
290.	Affixing of label	330.	Licensed pharmacist as manager
295.	Substitution	340.	Who may prepare prescriptions
297.	Prescription prices available to consumer	350.	Technical aids required
300.	Record of prescriptions	360.	Sale of dangerous materials
		365.	Partial closure of pharmacy

Sec. 08.80.270. Report of employee. (a) An owner or manager of a pharmacy shall report to the board at the time the board directs, but not more often than twice each year, the names of all pharmacists employed in his pharmacy.

(b) An owner or manager of a pharmacy shall forward to the board a change of employee notice within 10 days of hiring or dismissing a pharmacist. (§ 11(a) ch 194 SLA 1955; am § 13 ch 206 SLA 1972)

Sec. 08.80.280. Responsibility for goods sold. An owner, or, if the owner is not a licensed pharmacist, a manager of a pharmacy, is responsible for the quality of drugs, chemicals and other medicines sold or dispensed by him, except those sold in the original packages of the manufacturer, and except those articles and preparations known as patent or proprietary medicines. (§ 11(b) ch 194 SLA 1955)

C.J.S. reference. — 28 C.J.S. Druggists §§ 6, 11 to 13

Sec. 08.80.290. Affixing of label. At the time of dispensing a prescription, there shall be affixed to the container of a prescription, a label bearing the name and address of the pharmacy compounding the prescription, the serial number of the prescription, the name and directions of the prescriber, the name of the patient, the date of dispensing, and the initials of the registered pharmacist who compounded the prescription. In addition a pharmacist shall indicate on the drug container the name and strength of the drug contained in it, unless specifically directed otherwise by the prescribing physician, osteopathic physician, dentist or veterinarian. If a drug is a mixture of pharmacologically active substances, only the name of the mixture need be indicated on the container, or in the absence of a name, the term

"physician's mixture" may be used. (§ 11(c) ch 194 SLA 1955; am § 14 ch 206 SLA 1972)

Sec. 08.80.295. Substitution. (a) Except as limited by (b) and (c) of this section, with the consent of the purchaser, the pharmacist may substitute a drug product with the same generic name in the same strength, quantity, dose and dosage form as the prescribed drug which is, in the pharmacist's professional opinion, therapeutically equivalent and meets the standards of (f) of this section. Upon substitution the pharmacist shall notify the purchaser and the person who prescribed the drug of the substitution and of the drug substituted.

(b) A person authorized to prescribe drugs shall specify in writing or by oral communication whether or not the pharmacist may substitute a drug under (a) of this section. Written specification may be accomplished either by (1) the physician personally initialing or checking the appropriate box on a prescription order form labeled "DISPENSE AS WRITTEN" or "SUBSTITUTION ALLOWED"; or (2) by handwriting on the prescription order. If the physician fails or neglects to give written specification, the prescription shall be dispensed as written. If the person communicating the specification does so orally, the pharmacist shall indicate that fact in handwriting on the written copy of the prescription order.

(c) Preprinted prescription order forms used by a person authorized to prescribe drugs shall contain boxes labeled "DISPENSE AS WRITTEN" and "SUBSTITUTION ALLOWED" to be checked or initialed by the person issuing the prescription.

(d) A pharmacist shall substitute a drug product under (a) of this section only when there will be a savings in cost to the purchaser.

(e) For a period of two years following September 16, 1976, every pharmacy shall post a sign in a location easily seen by patrons at the counter where prescriptions are dispensed stating that "Under Alaska law a therapeutically equivalent but less expensive drug may, in some cases, be substituted for the drug prescribed by your doctor. Please consult your pharmacist or physician." The printing on the sign shall be in block letters not less than one inch in height.

(f) If a person authorized to prescribe drugs is temporarily unavailable, the pharmacist may, if he cannot supply the drug requested, substitute a drug or preparation of approximately equal therapeutic value so long as he notifies the author of the prescription at an early opportunity. The pharmacist in all cases of substitution, except when specifically indicated to the contrary by the prescriber, shall relate the nature of the change to the purchaser.

(g) A pharmacist may not substitute a product under the provisions of this section unless it has been manufactured with the following minimum good manufacturing standards and practices:

(1) maintain quality control standards equal to those of the Food and Drug Administration;

(2) comply with regulations promulgated by the Food and Drug Administration;

(3) mark products with identification code or monogram;

(4) label products with expiration date;

(5) provide reasonable services to accept returned goods that have reached their expiration date;

(6) maintain 24-hour resources for product information where practicable and financially feasible;

(7) maintain recall capabilities for unsafe or defective drugs;

(8) shall not refuse to sell to any properly licensed pharmacy.

(h) As used in this section, unless the context requires otherwise,

(1) "brand name" means the proprietary or trade name selected by the manufacturer and placed upon a drug, its container, label or wrapping at the time of packaging;

(2) "generic name" means the official title of a drug or drug ingredients published in the latest edition of a nationally recognized pharmacopoeia or formulary;

(3) "substitute" means to dispense without prescriber's express authorization a different drug product in place of the drug ordered or prescribed;

(4) "therapeutically equivalent" means drugs that will provide essentially the same efficacy and toxicity when administered to an individual in the same dosage regimen. (§ 15 ch 206 SLA 1972; am § 2 ch 187 SLA 1976)

Effect of amendment. — The 1976 amendment rewrote this section.

Sec. 08.80.297. Prescription prices available to consumer. A pharmacist shall disclose the price of filling any prescription when requested by the consumer. (§ 3 ch 187 SLA 1976)

Sec. 08.80.300. Record of prescriptions. Each pharmacy shall maintain a record of every prescription compounded or dispensed. The record shall be kept for a period of not less than five years, and shall be open at all times to inspection by the board, its members, agents or employees, and by the medical doctor who issued the prescription. (§ 11(d) ch 194 SLA 1955)

C.J.S. reference. — 28 C.J.S. Druggists §§ 6, 9, 10.

Sec. 08.80.310. Record of sales. (a) The owner, or, if the owner is not a licensed pharmacist, the manager, of every drug store, shall maintain in his place of business a record in which sales of the following items shall be entered: the compounds and salts of arsenic and mercury (calomel excepted); caustic hydrates of sodium and potassium; the concentrated mineral acids; hydrocyanic acids and their salts; yellow

phosphorous; the essential oils of pennyroyal, tansy and savine; croton oil, aconite; carbolic acid; and the poisonous alkaloids or alkaloidal salts.

(b) The record shall state the quantity and date of purchase, the purpose for which it is to be used, and the name and address of the buyer. The record shall be available during hours of business and subject to inspection by the attorney general, a federal, state or municipal peace officer, acting within his area of jurisdiction, and an authorized agent of the board. A record of each sale shall be retained for a period of five years from the date of the sale. (§ 11(e) ch 194 SLA 1955; am § 16 ch 206 SLA 1972)

Sec. 08.80.320. Pharmacist required. (a) A pharmacy shall have a pharmacist, licensed and registered under this chapter, on duty during the hours that the pharmacy is open for business.

(b) In communities which have one licensed pharmacy, the owner of the pharmacy shall have a pharmacist, licensed and registered under this chapter, on duty, or on call, at all times that the pharmacy is open for business. (§ 11(f) (i) ch 194 SLA 1955; am § 17 ch 206 SLA 1972)

ALR and C.J.S. references. — Construction of statutes in relation to operation of drugstore, pharmacy or chemical store, without registered pharmacist, 74 ALR 1084.
28 C.J.S. Druggists § 6.

Sec. 08.80.330. Licensed pharmacist as manager. (a) If the owner of a pharmacy is not a licensed pharmacist, he shall place a licensed pharmacist, designated the manager, in full charge and control of the pharmacy. The manager shall insure compliance with all laws, rules and regulations governing the operation of the pharmacy. The licensed pharmacist shall immediately advise the board of his appointment as manager.

(b) No license may be issued to a pharmacy unless there is a licensed registered pharmacist in charge whose name appears on the face of the license. (§ 11(g) ch 194 SLA 1955; am § 18 ch 206 SLA 1972)

Sec. 08.80.340. Who may prepare prescriptions. No person except a licensed pharmacist or a licensed intern pharmacist under the direct supervision of a licensed pharmacist may compound and dispense the prescription of a physician. However, this section does not limit the authority of a licensed medical doctor to compound and dispense medicinal preparations. (§ 11(h) ch 194 SLA 1955; am § 19 ch 206 SLA 1972)

Sec. 08.80.350. Technical aids required. Each licensed pharmacy shall have on the premises a copy of the most recent revision of the "United States Dispensatory" or "Remington's Practice of Pharmacy" or both the "National Formulary" and the "United States Pharmacopoeia." In addition, each pharmacy shall have sufficient technical equipment to properly compound prescriptions and

pharmaceutical preparations. No license may be issued until the requirements of this section are met. (§ 11(j) ch 194 SLA 1955; am § 20 ch 206 SLA 1972)

Sec. 08.80.360. Sale of dangerous materials. Drugs or medical supplies which contain poisonous, potent, habit-forming or deleterious ingredients shall be dispensed only by a licensed pharmacist. At the time of the sale, the pharmacist shall make the nature of the drug or medical preparation known to the purchaser. (§ 11(k) ch 194 SLA 1955)

C.J.S. reference. — 28 C.J.S. Druggists §§ 6, 8 to 13.

Sec. 08.80.365. Partial closure of pharmacy. A pharmacy or pharmacy drug department which is open for business at times different than the remainder of the store or building in which the pharmacy is located shall

(1) be accessible to the remainder of the store or building only through an entrance which is capable of being locked;

(2) be advertised by the methods described in §§ 420 and 430 of this chapter only if the signs or symbols are attached or located within the portions of the store or building where the pharmacy is located;

(3) be locked during nonbusiness hours; and

(4) have all keys to the pharmacy or drug department in the possession of a pharmacist, licensed and registered under this chapter. (§ 21 ch 206 SLA 1972)

Article 4. Unlawful Acts.

Section		Section	
370.	Vending machine sales prohibited	420.	Certain advertising prohibited
380.	Issuance of shopkeepers permits	430.	Use of pharmacy symbols prohibited
390.	Pharmacists required in hospitals and clinics	440.	Denial of examination or license
400.	Practice of medicine not affected	450.	Disciplinary action
410.	Use of term "pharmacist" prohibited	460.	Violation

Sec. 08.80.370. Vending machine sales prohibited. No mechanical device or vending machine wherever located, may be used to dispense a drug, medicine or preparation containing poison. (§ 12 ch 194 SLA 1955)

C.J.S. reference. — 28 C.J.S. Druggists §§ 6, 11 to 13.

Sec. 08.80.380. Issuance of shopkeepers permits. The board shall, upon proper application and payment of the required fee, issue a shopkeepers permit to sell substances or preparations not of a poisonous nature, in the original unbroken packages only. These remedies shall be

sold under restrictions and regulations as the board may adopt. The board may include in shopkeeper permits permission to sell other remedies not prohibited by law. (§ 12 ch 194 SLA 1955; am § 22 ch 206 SLA 1972)

Sec. 08.80.390. Pharmacists required in hospitals and clinics. (a) A hospital, clinic, nursing home, infirmary or related facility which dispenses drugs for outpatient treatment shall have a licensed pharmacist in charge of the dispensary, except that prescriptions may be compounded and dispensed by or under the supervision of the prescribing physician.

(b) The board shall issue a license to a hospital drug room, nursing home drug room or related facility which dispenses drugs from bulk supply for inpatient treatment, providing the facility employs a licensed pharmacist on a continual or consultant basis. (§ 12 ch 194 SLA 1955; am § 23 ch 206 SLA 1972)

Sec. 08.80.400. Practice of medicine not affected. This chapter does not affect the practice of medicine by a licensed medical doctor, and does not limit him in supplying a patient with any medicinal preparation or article which he considers proper. (§ 12 ch 194 SLA 1955)

Sec. 08.80.410. Use of term "pharmacist" prohibited. It is unlawful for a person to assume or use the title "pharmacist," or any variation of the title, or to hold himself out to be a pharmacist, without being registered. (§ 13(a) ch 194 SLA 1955)

Sec. 08.80.420. Certain advertising prohibited. (a) It is unlawful for a person to use or exhibit the title "pharmacist," "assistant pharmacist," or "druggist," or the descriptive term "pharmacy," "drug store," "drug sundries," or other similar title or term containing the word "drug," in any business premises, or in an advertisement through the media of press, or publication, or by radio or television, unless the business has a licensed pharmacist in regular and continuous employment.

(b) A person may not advertise in any manner, prices, percentiles of prices or discounts for drugs requiring a prescription. (§ 13(b) ch 194 SLA 1955; am § 24 ch 206 SLA 1972)

Sec. 08.80.430. Use of pharmacy symbols prohibited. It is unlawful for a person to display in a place of business the characteristic pharmacy symbol of bottles, or globes, which are colored or contain colored liquids unless the business has a pharmacist licensed and registered under this chapter on duty under § 320 of this chapter. (§ 13(c) ch 194 SLA 1955; am § 25 ch 206 SLA 1972)

Sec. 08.80.440. Denial of examination or license. The board may deny an applicant the opportunity to be examined, may deny a license to an applicant who has successfully completed the prescribed examination, or may deny a license to an applicant for registration by

reciprocity, or institute proceedings to suspend, revoke or otherwise terminate a registration, but only upon the basis of a specific complaint. Complaints shall be in the form of an affidavit and shall be filed in duplicate with the secretary of the board. (§ 15 ch 194 SLA 1955)

Sec. 08.80.450. Disciplinary action. The board may consider a complaint based upon the alleged violation of any provision of this chapter, and may by a majority vote of a quorum dismiss the complaint, reprimand a licensee, or take other punitive action as the nature of the facts warrant. Orders issued by the board shall be in writing, signed by a majority and filed with the secretary of the board. The accused shall receive an authenticated copy of the order. (§ 17 ch 194 SLA 1955)

Sec. 08.80.460. Violation. (a) A person who violates a provision of this chapter for which no punishment is provided is guilty of a misdemeanor and is punishable by a fine not to exceed $1,000, or by imprisonment for a period not to exceed three months or by both.

(b) A person who violates the provisions of § 295 of this chapter is punishable by a civil fine in an amount established by the board in a schedule or schedules establishing the amount of civil fine for a particular violation. The schedule or schedules shall be adopted by the board by regulation. Any civil fine imposed under this section may be appealed in the manner provided for appeals in the Administrative Procedure Act (AS 44.62). (§ 19 ch 194 SLA 1955; am § 26 ch 206 SLA 1972; am § 4 ch 187 SLA 1976)

Effect of amendment. — The 1976 amendment added subsection (b).

C.J.S. references. — 28 C.J.S. Druggists §§ 6, 11 to 13; 53 C.J.S. Licenses §§ 56 to 71.

Article 5. General Provisions.

Section		Section	
470.	Construction	480.	Definitions
475.	Exception	490.	Short title

Sec. 08.80.470. Construction. Nothing in this chapter amends, modifies, repeals or otherwise changes any provision of the Uniform Narcotic Drug Act (AS 17.10) or the Alaska Food, Drug and Cosmetic Act (AS 17.20). (§ 20 ch 194 SLA 1955)

Sec. 08.80.475. Exception. This chapter does not apply to the safe storage, preservation, dispensing, or control of drugs in any federally operated hospital or institution. (§ 1 ch 49 SLA 1974)

Legislative committee report. — For report on ch. 49, SLA 1974 (HB 589), see 1974 House Journal, p. 312.

Sec. 08.80.480. Definitions. As used in this chapter, unless the context otherwise requires,

(1) "board" means the Board of Pharmacy;

(2) "drug" or "drugs" means drugs or medical supplies which contain poisonous, potent, habit-forming or deleterious ingredients, or medicines containing ingredients which may be considered dangerous or harmful if taken in overdose;

(3) "medical supplies" means items for the cure or treatment of disease or injury which do not require prescription by a physician and which do not contain poisonous, potent, habit-forming or deleterious ingredients, or an ingredient which may be considered dangerous or harmful if taken in overdose;

(4) "owner" means the owner of a place of business for wholesaling, retailing, compounding or dispensing drugs, medicines or poisons;

(5) "pharmacy" includes "drug store" and "pharmacy or drug department" and means a place of business in which physicians' prescriptions are compounded or dispensed and in which drugs and medicines are compounded or dispensed;

(6) Repealed by § 11 ch 53 SLA 1973.

(7) "recognized college of pharmacy" means a college, school or department of pharmacy whose entrance requirements and courses of study are approved by the National Association of Boards of Pharmacy;

(8) "manager" means a licensed pharmacist in charge of a pharmacy or drug store, or of a pharmacy or drug department, where the owner is not a licensed pharmacist;

(9) "retail" means sale to the ultimate user;

(10) "retail pharmacist" means a person who sells to the ultimate user;

(11) "sell" means to possess in violation of the intent of this chapter, exchange, barter, give away or otherwise dispose of;

(12) "wholesale" means sale by a manufacturer, wholesale dealer, distributor, or jobber to a person who sells, or intends to sell, directly to the user;

(13) "wholesale drug dealer" means a manufacturer, wholesale dealer, distributor or jobber;

(14) "bulk supply" means drugs in original containers not labeled as required by § 290 of this chapter;

(15) "drug room" means an area provided only for the proper and safe storage, preservation and control of bulk supply drugs and which is under the responsibility of a continuously employed or consultant pharmacist;

(16) "hospital pharmacy" means and includes a pharmacy, licensed by the board, located within any hospital, institution or establishment which maintains and operates organized facilities for the diagnosis, care and treatment of human illness and provides for the obtaining, storage and

dispensing of drugs to both inpatients and outpatients and which is under the responsibility of a staff pharmacist;

(17) "outpatient dispensing" means dispensing drugs for administration outside of the hospital pharmacy's control;

(18) "prescription department" means that section of a business in which prescriptions for medications are compounded, filled and dispensed by a licensed pharmacist;

(19) "shopkeeper" means a retail dealer who sells over the counter medicinal preparations in original unbroken packaging which do not require a prescription for dispensing. (§ 2 ch 194 SLA 1955; am §§ 27 — 29 ch 206 SLA 1972; am § 11 ch 53 SLA 1973)

Effect of amendment. — The 1973 amendment repealed paragraph (6).

Legislative committee report. — For report on ch. 53, SLA 1973 (CSHB 382), see 1973 House Journal, pp. 793, 885.

Sec. 08.80.490. Short title. This chapter may be known as the Pharmacy Act. (§ 1 ch 194 SLA 1955)

CHAPTER 52.
BOARD OF PHARMACY

Article
1. Internship
2. Hospital Pharmacies
3. General Provisions

ARTICLE 1.
INTERNSHIP

Section
10. Record of experience of pregraduate and postgraduate pharmacy intern
20. Training requirements for pharmacy intern
30. Intern experience in a hospital
40. Internship in government-operated institutions

12 AAC 52.010. RECORD OF EXPERIENCE OF PREGRADUATE AND POSTGRADUATE PHARMACY INTERN. A pharmacy intern shall submit a record of his intern experience every three months on a form provided by the board. The form must be certified by a pharmacist, licensed and registered under AS 08.80.110, who supervises the pharmacy intern's work. (Eff. 4/11/76, Reg. 58)

Authority: AS 08.80.030(4),(5) and (7)

12 AAC 52.020. TRAINING REQUIREMENTS FOR PHARMACY INTERN. (a) A pharmacy intern shall

(1) write one comprehensive outline for each 40 hours of employment, of at least 300 words about a pharmaceutical preparation, drug or specialty in the notebook required under (b) of this section until he has accumulated 500 hours of internship; pharmacy interns with 500 or more hours of internship need not comply with this requirement;

(2) record the prescriptions or chart orders filled in the notebook required under (b) of this section and personally fill at least at the rate of 100 prescriptions per 40 hours worked after completion of 1,000 hours of internship;

(3) observe the dispensing and recording of sales of controlled substances as those substances are defined by federal and state laws and regulations;

(4) study the method of controlled substance inventory in compliance with federal and state laws and regulations; and

(5) make out official order forms, except for signature, for the purpose of controlled substances.

(b) A pharmacy intern must record in a suitable notebook the experience he has gained to show he has met the training requirements outlined in (a) of this section. The notebooks will be reviewed and considered by the board in determining whether or not a pharmacy intern has met the training requirements in (a) of this section. (Eff. 4/11/76, Reg. 58)

Authority: AS 08.80.030(4),(5) and (7)

12 AAC 52.030. INTERN EXPERIENCE IN A HOSPITAL. Pharmacy intern experience in a hospital must be obtained in a hospital pharmacy licensed as an inpatient and outpatient hospital pharmacy as defined in AS 08.80.480(16). (Eff. 4/11/76, Reg. 58)

Authority: AS 08.80.030(4),(5) and (7)

12 AAC 52.040. INTERNSHIP IN GOVERNMENT-OPERATED INSTITUTIONS. The completion of an internship served in a pharmacy not licensed by the board but operated in an institution established by the state will be sufficient to meet the requirements set out in AS 08.80.110(5) if the following conditions are met:

(1) the applicant has served his internship under the supervision of a pharmacist licensed by the state; and

(2) supervising pharmacist certifies that the pharmacy in which the internship was completed meets all of the requirements set out by federal law and regulation, the Alaska Statutes, and this chapter. (Eff. 4/11/76, Reg. 58)

Authority: AS 08.80.030(4) and (5)
AS 08.80.110(5)

ARTICLE 2.
HOSPITAL PHARMACIES

Section
100. Preparation of list of noncontrolled legend drugs

110. Prepackaging noncontrolled legend drugs
120. Labeling prepackaged noncontrolled legend drugs
130. Supervision of prescribing physician; procedure for delivery to patient of prepackaged, noncontrolled legend drugs
140. Pharmacist in charge of hospital pharmacy

12 AAC 52.100. PREPARATION OF LIST OF NONCONTROLLED LEGEND DRUGS. The licensed pharmacist or licensed consultant pharmacist in charge of a hospital pharmacy or drug room, in consultation with the hospital's medical staff, shall prepare a list of noncontrolled legend drugs which may be delivered to outpatients receiving emergency treatment when a licensed pharmacist is not on duty and the prescribing physician is not present. (Eff. 12/17/76, Reg. 60)

Authority: AS 08.80.030(4) and (8)
AS 08.80.390

12 AAC 52.110. PREPACKAGING NONCONTROLLED LEGEND DRUGS. Licensed pharmacists may prepackage noncontrolled legend drugs identified on the list prepared under sec. 100 of this chapter. There shall be no more than six doses of the drug in each prepackaged container. (Eff. 12/17/76, Reg. 60)

Authority: AS 08.80.030(4) and (8)
AS 08.80.390

12 AAC 52.120. LABELING PREPACKAGED NONCONTROLLED LEGEND DRUGS. (a) Drugs prepackaged under sec. 110 of this chapter must be labeled by the pharmacist at the time of packaging.

(b) The prescription label or unit dose package label must contain

(1) a blank space for the name of the patient;

(2) a blank space for the name of the prescribing physician;

(3) the name of the drug;

(4) the strength of the drug;

(5) the expiration date of the drug, if applicable;

(6) the lot number of the drug;

(7) the date of prepackaging;

(8) a blank space for the date of delivery to patient;

(9) a prescription number;

(10) initials of the pharmacist who prepackaged the drug;

(11) the name and address of the hospital;

(12) directions to the patient or, if not predetermined, a blank space for special instructions of the prescribing physician; and

(13) a blank space for the name or initials of the person delivering the drug. (Eff. 12/17/76, Reg. 60)

Authority: AS 08.80.030(4) and (8)
AS 08.80.390

12 AAC 52.130. SUPERVISION OF PRESCRIBING PHYSICIAN; PROCEDURE FOR DELIVERY TO PATIENT OF PREPACKAGED, NONCONTROLLED LEGEND DRUGS. (a) If a licensed pharmacist is not on duty, emergency room personnel may deliver noncontrolled legend drugs, prepackaged in accordance with secs. 100–120 of this chapter, to a person receiving emergency outpatient treatment on receiving on order from a licensed physician. The physician's order may be by written or telephonic communication. No more than one prepackaged container of the same drug may be delivered to a person receiving emergency outpatient treatment, unless more than one package is required to sustain the patient until the first available pharmacist is on duty in the community.

(b) When delivering drugs under this section, the person doing so shall

(1) complete the label affixed to the container with all required information except that the name and strength of the drug may be deleted on order of the prescribing physician; and

(2) prepare a record of delivery which includes all of the information listed in sec. 120 of this chapter.

(c) The record prepared under (b)(2) of this section shall be given to the pharmacist in charge of the hospital pharmacy at the beginning of the pharmacist's next duty day.

(d) This section does not authorize other than emergency room personnel on a hospital's staff to deliver noncontrolled legend drugs to outpatients receiving emergency treatment.

(e) This section does not authorize the delivering of controlled legend drugs by any person not authorized by law to dispense controlled legend drugs. (Eff. 12/17/76, Reg. 60)

Authority: AS 08.80.030(4) and (8)
AS 08.80.390

12 AAC 52.140. PHARMACIST IN CHARGE OF HOSPITAL PHARMACY. (a) The pharmacist in charge of the hospital pharmacy shall within a resonable time record all drugs delivered to outpatients under sec. 130 of this chapter in the pharmacy record book maintained for the recording of all medication delivered from the emergency room under this chapter.

(b) The entry made under (a) of this section must include logging the prescription number and all information required by the record of delivery prepared under sec. 130(b)(2) of this chapter and must be shown as a completed prescription.

(c) The pharmacist in charge of the hospital pharmacy shall determine what constitutes an adequate supply of prepackaged, noncontrolled legend drugs for use under the provisions of this article. (Eff. 12/17/76, Reg. 60)

Authority: AS 08.80.030(4) and (8)
AS 08.80.390

ARTICLE 3.
GENERAL PROVISIONS

Section
900. Definitions

12 AAC 52.900. DEFINITIONS. In this chapter unless the context otherwise requires

(1) "board" means the Board of Pharmacy;

(2) "state" means the State of Alaska;

(3) "completed prescription" means the prescribed drug has been delivered to the patient, on a physician's order, that blank spaces on the label have been filled in, and a record of doing so has been given to the pharmacist so he may file the prescription as required by law;

(4) "deliver to patient" means completing the blank spaces on the label of the prepackaged drug and actually handing the package to the patient, or the patient's representative;

(5) "dose" means the amount of medication that is to be given at one specific time, as determined by the physician;

(6) "emergency room personnel" means those employees of a hospital who are designated by the administrator of the hospital, or by the personnel committee of the hospital, to be employed in the emergency room of the hospital for the purpose of administering emergency treatment to patients;

(7) "noncontrolled legend drug" means any drug that bears on the label the legend, "TO BE DISPENSED ONLY ON OR BY THE PRESCRIPTION OF A PHYSICIAN," but not drugs that have been classified as "CONTROLLED SUBSTANCES" under the Federal Controlled Substances Act of 1970 (21 USC Section 801 et seq.);

(8) "pharmacy record book" means a book kept for the sole purpose of logging all information pertinent to the delivery of noncontrolled legend drugs under secs. 100–140 of this chapter;

(9) "physician's order" means an order given to the emergency room personnel by a physician licensed to practice in Alaska or recognized by the hospital as a physician who may practice medicine in the hospital;

(10) "prepackage" means placing in a container that meets federal and state qualifications as a legal container, not more than six doses of a noncontrolled legend drug and affixing a label to the container that includes all of the information required under sec. 120 of this chapter;

(11) "present" means physically present in the emergency room of the hospital with the patient. (Eff. 12/17/76, Reg. 60)

STATE OF ALASKA
Board of Nursing Home Administrators
(October, 1978)

Findings

Legislation creating the Board of Nursing Home Administrators was enacted in 1975 in response to federal legislation mandating that eligibility for Medicaid and/or Medicare funds be contingent on State licensure of the institutional administrator. There are currently 28 licensed practitioners in the State, excluding hospital administrators, and administrators of government or military facilities who are exempt. Also exempt are administrators of the Alaska Pioneers' Homes although some hold licenses.

No evidence has been shown which would indicate that licensing of this profession by a State board is in the best interests of the public. In view of the initial reason for creation of the Board, the nature of the profession and the absence of evidence reflecting general public protection, it is advocated that the Board of Nursing Home Administrators be allowed to terminate and that the administrative agency assume responsibility for examining and licensing applicants.

Should reestablishment of the Board be determined to be in the public interest, recommendations are made throughout this report the implementation of which is felt to be desirable in its continued operation.

I. General Information

A. Regulated Parties

1. Nursing Home Administrators

B. Statutory Definition of Regulated Parties

"(6) 'nursing home administrator' means a person who manages, supervises, or is in general charge of a nursing home, even though the duties are shared with another person; a member of a board of directors of a nursing home is an administrator only if he also serves in the administrative capacity defined in this paragraph." (AS 08.70.180)

C. Nature and Composition of Board

1. Board members and terms:

Three-year term (no restrictions regarding consecutive terms or number of terms).

Jane Hanna, RN (Chairman)	ends October 1, 1980
Roberly R. Potter, (Admin.)	ends October 1, 1979
Donna M. Stephens (Admin.)	ends October 1, 1980
Sister Patrick Mary	ends October 1, 1978
Unappointed public member	

2. Representation:

Profession = 3
Public = 1 (2 provided)

3. Qualifications:

"The board consists of five members: two nursing home administrators licensed under this chapter and practicing in the state, a registered nurse licensed in the state, and two persons from the general public." (AS 08.70.020(a))

D. Licensing Data

Currently Licensed

in-State	24
out-of-State	5
Total	29

E. Fees

1)	examination	$25.00
2)	investigation	25.00
3)	annual license	50.00

1975	0	0	0
1976	0	0	0
1977	0	0	0
1978 (through June)	1	0	0

Pending: 1

The sole complaint received and still pending consists of a protest over termination and allegations of nursing malpractice between a nurse and a nursing home administrator. None were received by the Office of the Ombudsman and none were received from the public.

H. Qualifications

No specific training for this profession is provided or generally required by all states. Requirements usually take the form of college coursework with emphasis on business or health administration, or on administrative experience.

II. Criteria and Analysis

A. To what extent has the Board of Nursing Home Administrators operated in the public interest?

The operation of the Board and licensing of administrators by the Board has not been shown to protect the public interests. Whether or not an administrator is licensed has no effect per se on the direct health and welfare of consumers. Rather, other facility personnel are responsible for the health and well being of its users while the administrator "manages, supervises, or is in general charge..." It undoubtedly is desirable to employ persons with health care and administrative knowledge. It is also likely that employers will hire those persons with the most desirable qualifications.

A review of agency and license files indicates a number of inconsistencies in the operation of the Board. Should it be continued, steps need to be taken to insure consistent application of Board statutes, regulations and policies.

There are numerous instances of material missing from files that routinely is required in the application and licensing process. Missing documents include character references, renewal applications and information, certification of continuing education compliance, education transcripts, examination materials and results, and approval (or denial) of the Board regarding licensure and/or relicensure. Only 14 of 25 administrators licensed for 1978 were formally approved for relicensure by the Board at its regular meeting, three without documentation of continuing education. Several files were found of qualified applicants who successfully completed examination but who are not licensed. There is no evidence to indicate that these licenses were approved or issued, or lapsed, or that the applicant subsequently refused or was refused licensure.

A National Association of Board of Nursing Home Administrations, Inc. examination is utilized as allowed by AS 08.70.050(2), 110(1), 120 and 12 AAC 46.010-030. Examinations are generally given twice each year, are proctored by the administrative agency, and may be scheduled in separate locations for convenience of applicants. Grading is done by the national board and an average of 75% is the minimum passing score set by the Alaska Board. Applicant records reveal that applicants have, on occasion, been approved for and passed the examination prior to completion of the application file. This practice should be discontinued and applicants approved for examination only after the necessary materials have been received by the administrative agency.

Although much documentation is absent, the Board has apparently licensed only by examination and never by endorsement as authorized by .110(3). A request for a reciprocity agreement from another state was denied because "provisions in the law only address licensure by examination or endorsement." Availability of practitioners is one measure of public service. However, in this instance, availability of practitioners depends on job openings and there is a limited market for this service within the State.

Board regulations stipulate that prior to January 1, 1978, applicants must have one year of administrative experience. From that date and through December 31, 1979, applicants must have an associate degree in administration from an accredited college. None of the five persons licensed through June of 1978 met this qualification. Subsequent to December 31, 1979, applicants will be required by Board regulation to have a baccaluareate degree in health care administration or a degree in business administration and one year of experience in a health care facility. This requirement appears to be overly restrictive considering the functions of an administrator and, again, the right of an employer to hire a person he deems qualified.

Annual relicensure and continuing competency documentation are required by statute. These requirements on an annual basis are considered to be excessive. It is recommended that relicensure be established on a biennial basis and that continuing competency requirements be deleted from the statutes. Documentation of education compliance is absent from files in many cases. Acceptable courses are supposed to be approved by the Board on an individual course basis prior to licensee participation. There is little evidence that this has been done. Lengthy Board regulations outline responsibilities of the "educational arm" and activities which are not acceptable for compliance with renewal requirements. However, there is no specific list of courses or particular criteria to guide the applicant in selecting suitable activities which will be acceptable. Some licensees have discovered too late that they and the Board have disagreed on what is acceptable with the result that renewals are refused.

In the absence of public protection evidence, restrictive applicant qualifications and mandatory continuing competency requirements are determined to be superfluous. Considering the primary reason for licensure, eligibility for federal health care funds, examination and licensure by the administrative agency would be adequate to serve that purpose. It is noted, as previously, that examinations are nationally formulated and graded, are written in nature and are already being proctored by the administrative agency. Standard reasonable qualifications, such as a two-year degree, a nursing degree, or administrative experience, may be established to guide the agency in examining and licensing appropriately.

If the Board of Nursing Home Administrators is to be reestablished, every effort should be made to insure that the public has representation. This Board has never had the two public members which were authorized by the Legislature at its creation. Public interests are not served by inadequate participation in professional board activities.

Because of recent concern regarding the need for occupational licensing, the questions raised concerning public welfare versus professional interests and concern regarding proliferation of regulated and licensed groups, appointment of knowledgeable lay members is a widely advocated step. "There has been a growing movement to place public members on regulatory boards to ensure that there will be input from groups other than those representing the regulated occupation."[1] Shimberg and Roederer further indicate that, "... if impact is the major criterion, one public member is probably too few, two would be the minimum, and three or four would increase the likelihood that the impact of public members would be felt, particularly if the board had from seven to ter members."

Fees allowed by statute should be reviewed and established within realistic bounds. It is suggested that an investigation fee may be inappropriate particularly in view of the fact that endorsement is not utilized. National examination costs are $20 each without administration expenses. A separate fee for provisional licensure should be considered.

The statutorily required annual report on goals and activities of the Board and profession has not been submitted.

There is no evidence of compliance with 12 AAC 46.020(d) which requires a written statement of need from the prospective employer of an applicant for a provisional license. There also is no evidence of compliance with 12 AAC 070(1) requiring a sworn statement of "good moral character" as a condition of license renewal. 12 AAC 46.030(d) requiring a new application if a candidate fails to pass the examination within two years of initial application has not been complied with in at least one instance.

---

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 9.

B. To what extent has the operation of the Board of Nursing Home Administrators been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Existing statutes, regulations and policies of the Board are more than adequate to accomplish the primary reason for licensing members of this profession. Operation of the Board has not been impeded with the exception of annual renewal and annual continuing education requirements which are felt to serve little purpose. Efficient operation in compliance with statutes and regulations has been impeded by the Board itself through inconsistent and restrictive policies as previously cited.

The Board of Nursing Home Administrators has experienced little difficulty in its administrative operations with respect to personnel or budgetary restrictions. Support staff is provided by the Division of Occupational Licensing and is presently adequate to serve Board needs. All fees and revenues are collected through the Division and are deposited into a general fund. Monies deposited and withdrawn are identified by codes so that direct Board revenues and expenses may be determined for budgetary purposes. It is recommended, however, that the present fee structure be reviewed.

Improved procedures are being developed within the administrative agency pertaining to organization of records, forms and examination information which will better enable the Board to perform its functions.

Only one complaint has been received by the administrative agency concerning this profession. This complaint, received in 1978, concerned an administrator and a nurse and is still pending. It is primarily due to the fact that no other complaints were received that this Board has encountered no difficulty with follow through by the administrative agency as have other boards. During the past year two investigator

positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely dispositon of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints. The administrative agency will continue to address the need for initial assessment and subsequent appropriate action with emphasis on magnitude of offense as it relates to matters of public safety and concern.

C. To what extent has the Board of Nursing Home Administrators recommended statutory changes which are generally of benefit to the public interest?

It must be remembered that statutes concerning this Board have only been in effect since July 1, 1975. Changes since that time have been minor "housekeeping" amendments.

The Board itself has recommended no statutory changes whether of public benefit or otherwise.

D. To what extent has the Board of Nursing Home Administrators encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

Very little public interest in the activities of the Board has been shown in the form of attendance at Board meetings, hearings, or as written input. Interest has been from members of this or a related profession. Notices of pending meetings and new or changing regulations

are published in major newspapers in the State. Public interest and participation regarding the Board has been at least partially restricted by the absence since the creation of the Board of one public member.

The Board has not taken any overt action to solicit general public response to its quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Wider dissemination of general information regarding the Board may partially mitigate public disinterest. Because regulation does not serve to protect the public, concern regarding public interest or disinterest may be considered irrelevant.

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Nursing Home Administrators processed and resolved?

No complaints were received which were directed at the Board or its individual members. Only one has been received concerning a licentiate and is still pending.

F. To what extent does the Board of Nursing Home Administrators present qualified applicants to serve the public?

Inconsistencies in application of licensing and renewal requirements which do not function to serve public or licensee interests have been enumerated elsewhere in this report. Pending regulatory qualifications which will mandate that applicants have a baccalaureate degree in business administration and one year of administrative experience in a health care facility are unduly restrictive qualifications which would eventually result in licensure of a small elite interest group from which an employer would be forced to choose regardless of any other considerations. "Qualified" applicants in this profession do not serve the public directly but instead supervise the facility and personnel that do.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Nursing Home Administrators in its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for four other boards) who is hired through the State Personnel System and, therefore, subject to affirmative action requirements.

The Board of Nursing Home Administrators issues licenses on the basis of education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Board of Nursing Home Administrators to better serve the interests of the public?

If the Board is determined to function in the best interests of the public, some statutory changes would be desirable. Continuing education requirements should be deleted from the statutes. Renewal of licenses should be on a biennial basis rather than annually. Fees charged should be reviewed with consideration given to raising the examination fee, deleting the investigation fee, and including a fee for provisional licensure.

The Board should review the future licensure qualifications it has established by regulations and consider qualifications which are realistic and allow reasonable licensure. The Board should consistently and equally apply statutes and its own regulations in licensing and relicensing.

Board and administrative expenses outweigh the revenues collected through regulation of nursing home administrators. Fees collected are simply not adequate to cover transportation and per diem for meetings and examinations and the costs of Division of Occupational Licensing administrative overhead, such as staff salary and examination expenses. Additionally, the need for protecting the public from financial and/or physical harm has not been demonstrated nor is the expense of regulation justified by this criteria.

III. Conclusion

Licensure of nursing home administrators is required as a condition of eligibility for federal Medicaid funds. This is the sole reason for State licensure of nonexempt facility administrators.

IV. Summary of Recommendations

A. The Board of Nursing Home Administrators should be allowed to terminate on June 30, 1979. The functions of examination and licensure should be assumed by the administrative agency.

Applicant qualifications and conditions for licensure should be established by statute as a guideline for the agency.

B. If the Board of Nursing Home Administrators is determined to function in the public interest and is reestablished, the following recommendations are made:

1. The Board and the administrative agency should insure adequate documentation of board activities and related files. (See discussion on p. 6)

2. The Board should apply statutory and regulatory provisions with respect to initial licensure and relicensure and do so uniformly. (See discussion on p. 7)

3. The Board should establish reasonable and nonrestrictive educational and experience requirements for applicants. It should also enforce requirements that are established. (See discussion on p. 7)

4. Relicensure should take place biennially rather than annually. Annual renewal is considered to be unnecessary and cumbersome to administer for the applicant, the Board, and the agency. (See discussion on p. 8)

5. Mandatory continuing education requirements should be deleted as being superfluous in the regulation of nursing home administrators. This subject is more appropriately a concern of the administrator and/or his/her employer. (See discussion on p. 8)

6. The Board should be allowed to function with a full membership. An excessive ratio of professional members on any board is not a desirable situation from the standpoint of a Sunset review concerned with public participation and knowledgeability. It is also recommended that members not serve consecutive terms unless initially appointed to an unexpired vacancy but may be reappointed following a term of absence. (See discussion on p. 8)

7. The Board, in conjunction with the administrative agency, should be given the authority to review fee structure and establish appropriate fees. (See discussion on p. 9)

8. The Board should prepare and submit an annual report to the Governor and Legislature as required by statute.
(See discussion on p. 9)

Sec. 08.70.010. Creation of Board of Nursing Home Administrators. There is established the Board of Nursing Home Administrators. (§ 1 ch 123 SLA 1975)

Legislative committee report. — For report on ch. 123, SLA 1975 (HCSSB 132 [Judiciary] am H), see 1975 House Journal, p. 1221.

Sec. 08.70.020. Membership board; source of appointments; term of office. (a) The board consists of five members: two nursing home administrators licensed under this chapter and practicing in the state, a registered nurse licensed in the state, and two persons from the general public.

(b) Board members are appointed by the governor.

(c) Board members serve staggered terms of three years or until their successor is appointed, except that a member appointed to a vacated term serves the duration of that term. On the first board two members serve one-year terms, two members serve two-year terms, and one member serves a three-year term. (§ 1 ch 123 SLA 1975; am § 1 ch 77 SLA 1977)

Effect of amendment. — The 1977 amendment, in subsection (a), substituted "two nursing home administrators" for "one nursing home administrator" and deleted "a physician licensed in the state" following "registered nurse licensed in the state."

Sec. 08.70.030. Election of officers. The board shall annually elect a chairperson and a vice-chairperson from its members. (§ 1 ch 123 SLA 1975)

Sec. 08.70.040. Board meetings: Quorum. The board shall meet at least semiannually. A majority of the board constitutes a quorum. (§ 1 ch 123 SLA 1975)

Sec. 08.70.050. Duties and powers of the board. (a) The board shall

(1) adopt standards for licensing nursing home administrators to insure that licensees have knowledge and experience in health care and institutional administration necessary for competent administrators, and update the standards when necessary;

(2) examine, license, and renew the licenses of qualified persons;

(3) establish procedures to insure that licensees continue to uphold the board's standards; revoke, suspend, or refuse to renew licenses of persons who fail to uphold the standards;

(4) adopt criteria for educational programs for persons preparing for the licensing examination and for the continuing education of licensees; review the educational programs available in the state and accredit the programs meeting the criteria;

(5) keep a record of its proceedings and submit annual reports to the governor and the legislature.

(b) The board may adopt regulations necessary for the performance of its duties and to meet the requirements of Title 19 of the Social Security Act, the federal rules promulgated under it, and other federal requirements. (§ 1 ch 123 SLA 1975)

Sec. 08.70.060. Expenses. Board members serve voluntarily, except that members are entitled to the travel expenses and per diem allowed by law. (§ 1 ch 123 SLA 1975)

Sec. 08.70.070. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62). (§ 1 ch 123 SLA 1975)

Sec. 08.70.080. License required. Only a licensed nursing home administrator may manage, supervise, or be generally in charge of a nursing home unless excepted by this chapter. Only a nursing home which is supervised by a licensed nursing home administrator may operate in Alaska unless specially excepted by the board. This section does not apply to the Alaska Pioneers' Homes. (§ 1 ch 123 SLA 1975)

Sec. 08.70.090. Application. Applicants shall file applications with the Department of Commerce and Economic Development on forms provided by the department. Information requested on the forms shall be given under oath. (§ 1 ch 123 SLA 1975; am § 50 ch 218 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in the first sentence.

Sec. 08.70.110. Licensing. (a) The board shall license

(1) applicants who pass the written examination administered by the board and meet the standards established by the board under § 50 of this chapter;

(2) persons licensed under emergency regulations 7AAC 12.045 promulgated in Register 51, July 8, 1974, who have practiced as administrators since licensing.

(b) The board may issue a license without examination to a person holding a current license as a nursing home administrator from another jurisdiction, if the board finds that the standards for licensing in the other jurisdiction are substantially equivalent to those in this state, and the person is otherwise qualified. (§ 1 ch 123 SLA 1975)

Sec. 08.70.120. Examination. The purpose of the examination is to test the applicant's knowledge of the health and safety standards of the state and his experience in the practice of health care. The board determines the content, scope, format, and grading procedure. Examinations shall be given at least annually, at the time and place chosen by the board. (§ 1 ch 123 SLA 1975)

Sec. 08.70.130. Provisional licenses. (a) A provisional license may be granted without examination to a person who meets the standards adopted by the board under § 50 of this chapter and who is needed to fill a vacancy in an administrative position.

(b) The provisional license is valid for six months and is nonrenewable. (§ 1 ch 123 SLA 1975)

Sec. 08.70.140. Expiration and renewal. (a) A nursing home administrator's license expires on December 31 of the year issued.

(b) An administrator may apply for renewal of his license by submitting an application for renewal to the board; application forms for renewal are provided by the department.

(c) A person whose license has expired for a period of 12 months or more must apply for a license and be examined in the same manner as an applicant who has not been licensed before. (§ 1 ch 123 SLA 1975)

Sec. 08.70.150. Fees. The following fees shall be imposed under this chapter when applicable:

(1) examination fee $25

(2) investigation fee for persons applying for a license under § 110 (b) of this chapter $25

(3) annual license fee $50

(§ 1 ch 123 SLA 1975)

Sec. 08.70.160. Unlawful acts. No person may

(1) sell or fraudulently obtain or furnish a license or aid another in doing so;

(2) practice as a nursing home administrator under cover of a license illegally or fraudulently obtained;

(3) practice as a nursing home administrator or use in connection with his name a designation tending to imply that he is a nursing home administrator unless licensed under this chapter;

(4) practice as a nursing home administrator during the time his license issued under this chapter is suspended or revoked; or

(5) otherwise violate this chapter. (§ 1 ch 123 SLA 1975)

Sec. 08.70.170. Penalties. A person convicted of violating a provision of this chapter is punishable by a fine of not more than $500, or by imprisonment for not more than one year, or by both. (§ 1 ch 123 SLA 1975)

Sec. 08.70.180. Definitions. In this chapter

(1) "board" means the Board of Nursing Home Administrators;

(2) "department" means the Department of Commerce and Economic Development;

(3) "license" means the certificate awarded by the board to a qualified person which entitles him to be a nursing home administrator in this state;

(4) "licensee" means a person who has been granted a license to be a nursing home administrator in this state by the board;

(5) "nursing home" means a facility which is operated in connection with a hospital or in which nursing care, intermediate care, and medical services are prescribed by or performed under the general direction of persons licensed to practice medicine or surgery within the state for the accommodation of convalescents or other persons who are not acutely ill but who do require skilled or intermediate nursing care and related medical services; the term "nursing home" is restricted to those facilities the purpose of which is to provide skilled or intermediate nursing care and related medical services for a period of not less than 24 hours a day to individuals admitted because of illness, disease or physical or mental infirmity;

(6) "nursing home administrator" means a person who manages, supervises, or is in general charge of a nursing home, even though the duties are shared with another person; a member of a board of directors of a nursing home is an administrator only if he also serves in the administrative capacity defined in this paragraph. (§ 1 ch 123 SLA 1975; am § 51 ch 218 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (2).

Sec. 08.70.190. Facilities operated by religious organizations. Nothing in this chapter or the regulation under this chapter is to be construed as requiring a person who applies for a license as administrator of a facility operated by a religious organization relying on spiritual means alone for healing to have skills in medical techniques or educational qualifications which are not in accord with the care and treatment provided in the facility. (§ 1 ch 123 SLA 1975)

12 AAC 46.010 QUALIFICATIONS OF APPLICANT FOR INITIAL LICENSE. (a) To be eligible for an initial license as a nursing home administrator, a person must be

(1) at least 19 years of age;

(2) of sound physical and mental health;

(3) a high school graduate or the equivalent; and

(4) of good moral character.

(b) In addition to the requirements of (a) of this section, a person applying for a license

(1) before January 1, 1978, must have one year of administrative experience;

(2) after December 31, 1977, must possess an associate degree in administration from an accredited college; and

(3) after December 31, 1979, must possess a

(A) baccalaureate degree in health care administration from an accredited college; or

(B) baccalaureate degree in business administration from an accredited college and have one year of administrative experience in a health care facility. (Eff. 5/13/77, Reg. 62)

Authority: AS 08.70.050(a)(1) and (b)

12 AAC 46.020. APPLICATION FOR INITIAL LICENSE. (a) A person applying for an initial license as a nursing home administrator shall submit

(1) a completed application form;

(2) a written statement from a physician attesting to the fact that his or her physical and mental health is adequate to enable him or her to satisfactorily perform the duties involved in nursing home administration; and

(3) after December 31, 1977, an official transcript from his or her college of graduation.

(b) A person applying for an initial license by examination shall submit the documents in (a) of this section, accompanied by the examination fee required by AS 08.70.150(1), at least 30 days before the date of a scheduled examination, in order to be scheduled for that examination.

(c) In addition to the requirements of (a) of this section, a person applying for an initial license without examination shall submit

(1) evidence that he or she has passed the licensing examination for nursing home administrators of the Professional Examination Service or the National Association of Boards of Nursing Home Administrators, Inc. with a score of at least 75 percent;

(2) a copy of his or her current nursing home administrator license from another jurisdiction; and

(3) the investigation fee required by AS 08.70.150(2).

(d) In addition to the requirements of (a) of this section, a person applying for a provisional license shall submit a written statement from his or her prospective employer of the circumstances of his or her need to fill a vacancy in an administrative position. (Eff. 5/13/77, Reg. 62)

Authority: AS 08.70.050(b) AS 08.70.110(b)
AS 08.70.090 AS 08.70.130(a)

12 AAC 46.030. EXAMINATION OF APPLICANT. (a) The examination required by

AS 08.70.110(a)(1) is the examination prepared and graded by the National Association of Boards of Nursing Home Administrators, Inc.

(b) A score of 75 percent is required to pass the examination.

(c) The examination is offered semiannually in May and November.

(d) A person who fails to pass the examination within two years of submitting his or her application for licensure shall submit a new physican's statement required by sec. 20(a)(2) of this chapter, along with a new application form. (Eff. 5/13/77, Reg. 62)

Authority: AS 08.70.050(b)
AS 08.70.120

12 AAC 46.040. CONTINUING EDUCATION REQUIRED FOR LICENSE RENEWAL. (a) Continuing education required to maintain licensure as a nursing home administrator is at least

(1) one semester hour academic credit from an accredited college in a subject relevant to health care administration; or

(2) two continuing education units from the sponsoring organization of a nonacademic continuing education program approved by the board.

(b) Continuing education required by (a) of this section must be earned during the calendar year immediately preceding the year for which license renewal is being requested. (Eff. 5/13/77, Reg. 62)

Authority: AS 08.70.050(a)(3) and (b)

12 AAC 46.050. BOARD ACCREDITATION OF NONACADEMIC CONTINUING EDUCATION PROGRAM. (a) In order for a nonacademic continuing education program to be accredited by the board, the sponsoring organization must

(1) have an identifiable educational arm with designated professional staff empowered to administer and coordinate an organized schedule of continuing education programs;

(2) maintain, through its educational arm, administrative control of all program elements to assure that both the immediate educational objectives and the requirements of this subsection are met;

(3) provide or arrange, through its educational arm, for appropriate educational facilities, library and reference materials and all necessary instructional aides and equipment consistent with the educational content, format and objectives of each learning experience;

(4) maintain a permanent individual record of participation and make the record readily available to each participant upon request;

(5) plan the program or activity in response to the educational needs of nursing home administrators, including the opportunity for input by representatives of nursing home administrators, as well as by other knowledgeable individuals having content expertise and an appreciation of the educational objectives to be met;

(6) prepare a clear statement of rationale, purposes and goals for each educational activity before the initiation of the program;

(7) directly involve qualified instructional personnel in conducting the educational activity;

(8) establish specific performance requirements for the award of continuing education units to participants before offering the program;

(9) include sufficient detail in participant registration to provide the necessary information for a permanent record of individual participation;

(10) use evaluation procedures determined during the planning process to measure the effectiveness of the program design and operation; and

(11) include in program administration a system for verification of satisfactory completion of the activity by each participant and for providing an approved list of those awarded continuing education units to the office responsible for preparing and maintaining permanent records for individual participants.

(b) An application for accreditation of a continuing education program must state the

(1) manner in which the sponsoring organization meets the requirements of (a) of this section; and

(2) starting date of the program.

(c) A sponsoring organization must apply to the board for accreditation of a continuing education program at least 60 days before the starting date of the program. (Eff. 5/13/77, Reg. 62)

Authority: AS 08.70.050(a)(4) and (b)

12 AAC 46.060. ACTIVITIES NOT ELIGIBLE FOR NONACADEMIC CONTINUING EDUCATION ACCREDITATION. The board will not accredit, for nonacademic continuing education,

(1) a program leading to a high school equivalency certificate or diploma;

(2) a program dealing with such internal topics as indoctrination in rights, benefits and responsibilities; organizational structure; on-the-job methods, processes or procedures;

(3) committee activities;

(4) conferences, delegate assemblies or similar meetings for policymaking purposes;

(5) meetings and conventions of societies and associations unless educational activities programmed independently and held concurrently with these meetings meet the requirements of sec. 50(a) of this chapter;

(6) participation in programs delivered through the media such as television, radio and newspapers unless these presentations are an integral part of an educational program which meets the requirements of sec. 50(a) of this chapter;

(7) attendance at lecture series, cultural performances, entertainment or recreational meetings or activities and participation in travel groups unless these activities are an integral part of a larger educational program which meets the requirements of sec. 50(a) of this chapter;

(8) on-the-job training, apprenticeships and other work experience unless structured as part of a planned educational experience which meets the requirements of sec. 50(a) of this chapter;

(9) independent writing of articles or research reports or the presentation of papers outside a planned educational program which meets the requirements of sec. 50(a) of this chapter;

(10) individual, self-directed studies or other forms of independent learning experiences which are not subject to later verification by testing for the acquisition of cognitive or affective skills;

(11) noneducational activities of associations and professional societies, which may otherwise be used to qualify for professional and occupational group membership or certification; or

(12) a program involving less than 10 contact hours of instruction. (Eff. 5/13/77, Reg. 62)

Authority: AS 08.70.050(a)(4) and (b)

12 AAC 46.070. APPLICATION FOR LICENSE RENEWAL. A person applying for renewal of his or her license as a nursing home administrator shall submit to the department

(1) a completed license renewal application form including a sworn statement that he or she has not violated the provisions of sec. 900(5) of this chapter;

(2) proof of meeting the continuing education requirement of sec. 40 of this chapter in the form of an official college transcript or a letter from the sponsor of a continuing education program, whichever is appropriate; and

(3) the annual license fee required by AS 08.70.150(3). (Eff. 5/13/77, Reg. 62)

Authority: AS 08.70.050(a)(2) and (3) and (b)

12 AAC 46.900. DEFINITIONS. In this chapter

(1) "accredited college" means an institution

that meets the accreditation standards set forth by the Northwest Association of Schools and Colleges or its equivalent;

(2) "board" means the Board of Nursing Home Administrators;

(3) "continuing education unit" means 10 contact hours in an organized continuing education experience under responsible sponsorship, capable direction and qualified instruction;

(4) "department" means the Department of Commerce and Economic Development;

(5) "good moral character" means that a person

(A) has not paid, given, caused to be paid or given or offered to pay or to give a commission or other valuable consideration for solicitation or procurement, either directly or indirectly, of nursing home patronage or has accepted such a payment;

(B) has not committed acts of misconduct in the operation of a nursing home including but not limited to fraud, deceit, or misrepresentation in his capacity as a nursing home administrator;

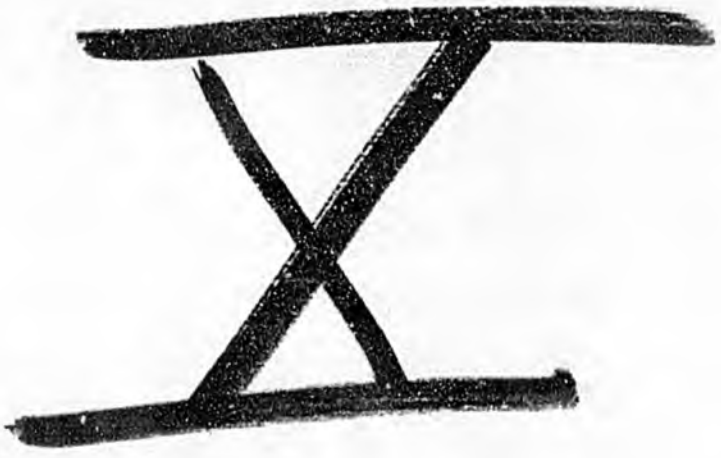
(C) is not addicted to or dependent upon the use of alcohol, morphine, cocaine or other drugs recognized as producing an abnormal effect;

(D) has not been convicted of a felony relative to work as a nursing home administrator; or

(E) has not engaged in conduct that demonstrates unfitness to practice as a nursing home administrator;

(6) "health care facility" means a place devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment, or care of two or more nonrelated individuals suffering from illness, disease, injury or deformity, or a place devoted primarily to providing obstetrical or other medical or nursing care for two or more nonrelated individuals and includes a convalescent home, nursing home, a public health center, and community mental health center and a facility for the mentally retarded. (Eff. 5/13/77, Reg. 62)

Authority: AS 08.70.050(b)



STATE OF ALASKA
Board of Nursing
(October, 1978)

Findings

Members of the nursing profession are responsible for a wide range of health care including treatments and therapeutic measures, administration of medications, and direct patient care, under the supervision and prescription of a licensed physician or dentist. Special provisions may be instituted which would allow for independent medical practice by qualified practitioners. The Board of Nursing has the responsibility for establishing and evaluating educational standards of institutions.

Dissolution of the Board and governmental deregulation would significantly and adversely affect the quality of health care provided to and received by the general public. Lack of control could result in financial loss, physical injury or death. Additionally, with the abrogation of complaint and enforcement responsibility, unqualified practitioners would be virtually unhindered in practice. Regulation of this profession, by State government and through a State Board, is considered to be in the best interests of the public.

I. General Information

A. Regulated Parties

1. Licensed Professional Nurses (registered)
2. Licensed Practial Nurses (vocational)

B. Statutory Definition of Regulated Profession

"(5) 'practice of professional nursing' means the performance for compensation of observation, care and counsel of the ill, injured, or infirm, or the maintenance of health or prevention of illness of others, the supervision and teaching of personnel; or the administration of medications and treatments prescribed by a licensed physician or dentist which require substantial specialized judgment and skill based on knowledge and application of the principles of biological, physical, and social science; but the foregoing do not include acts of medical diagnosis, or the prescription of medical therapeutic or corrective measures unless authorized by regulations promulgated jointly by the State Medical Board and the Board of Nursing and as implemented by the Board of Nursing."

"(6) 'practice of practical nursing' means the performance for compensation of selected acts in the care or prevention of illness, and in the care of the ill, injured, or infirm under the direction of a licensed professional nurse or a licensed physician or a licensed dentist not requiring the substantial specialized skill, judgment and knowledge required in professional nursing."

"(9) 'advanced nurse practitioner' means a registered professional nurse who by virtue of specialized education and experience, has become certified to perform acts of medical diagnosis, and prescription of medical, therapeutic or corrective measures as authorized by regulations promulgated under (5) of this section." (AS 08.68.410)

C. Nature and Composition of Board

1. Board members and terms:

Five-year term (members may not serve more than two consecutive terms unless filling an unexpired vacancy of two years or less).

Eileen Montano, R.N. (Chairman)	ends March 31, 1981
Norma J. Frank, R.N.	ends March 31, 1979
Marjorie Van Kooten, R.N.	ends March 31, 1978
Betty Irwin Hodo, R.N.	ends March 30, 1980
Carol Ann Verga, R.N., A.N.P.	ends March 31, 1982
Kandace Henry	ends March 31, 1980
Erna Rasmussen	ends March 31, 1981

2. Representation:

Profession = 5
Public = 2

3. Qualifications:

"One member shall be currently involved in institutional nursing service, one member in community or public health nursing and two members in basic or continuing education, one nurse at large, and two persons who have no direct financial interest in the health care industry." (AS 08.68.010)

"The five members of the board who are nurses shall be licensed professional nurses in the state, and shall have been actively engaged in nursing for not less than four years before appointment, two years of which were within the five years preceding appointment." (AS 08.68.060)

One complaint was received by the Office of the Ombudsman from an applicant who alleged that s/he was unfairly denied licensure by endorsement. This complaint was determined to be unsupported in fact. A case involving drug abuse and related charges was acted upon by authorities. Other complaints received included: (1) practicing without a license, (2) dispensing drugs without appropriate authorization, (3) misrepresentation, and (4) practicing beyond scope of authority, such as practicing midwifery without a license to do so.

H. Qualifications

1. Registered Nurse: Practitioners must have completed high school and from two to four years of nurse training. All states require successful completion of examination prior to initial licensure.

2. Licensed Practical Nurse: Practitioners must have completed a training program, usually one year, and must pass an examination prior to initial licensure.

II. Criteria and Analysis

A. To what extent has the Board of Nursing operated in the public interest?

The statutory duties of the Board include adoption of necessary rules and regulations, approval of educational curricula and adoption of educational program standards, accrediting of appropriate programs, and examining, licensing, and renewing licenses of qualified individuals.

Two methods of assuring licentiate competency are education and training evaluation. Nursing programs within the State are thoroughly reviewed by the Board prior to accreditation. Academic and clinical content must meet established criteria and must continue to do so. Continued evalution is accomplished through survey visits by the Board and submission of annual reports related to faculty, students and current curriculum. Programs meeting all requirements are given full accreditation, new programs that have yet to fulfill all requirements are given provisional accreditation status, and those with demonstrated problems in compliance are given conditional accreditation for a one-year period. Because content and criteria of nursing programs nationwide are similar and because all states require examination for licensure, educational qualifications for out-of-State applicants present few problems.

Examinations for professional and practical nurses consist of the State Board Test Pool Examination (SBTPE). These tests are constructed, provided and graded by the National League for Nursing, Inc. under contract with the National Council of State Boards of Nursing. Elaborate procedures for test security exist and must be adhered to by states participating, which is all states but one. Examinations are administered nationwide simultaneously, that is, on the same date, at the same time, and in the same manner. Only the acceptable passing score varies among states. Candidates in Alaska must score at least 350 in

each area of the examination, may be reexamined in one or two failed areas, and must repeat theory and practice if unable to successfully complete the examination a third time. Alaska will proctor the examination for other states.

Standard training, education and examination criteria operate in the public interest by assuring minimum competency and validity of competency requirements. Public interests are further served by the utilization of reasonable opportunities for entry into the profession. Several Board policies operate to provide such opportunities. For instance, it was noted that the Board has on occasion assumed the responsibility for locating special refresher training for candidates who failed the examination.

Temporary permits are issued routinely to allow apparently qualified individuals to practice pending licensure. Applicants for endorsement may be issued a temporary permit valid for a period not to exceed four months by which time all endorsement materials should have been received. Candidates for examination may receive a temporary permit which is valid until the results of the next examination are published. Temporary permit provisions are felt to advance the public interests by allowing expeditious entry into the profession. There does appear, however, to have been some problems when graduates from foreign schools applied for licensure. One such applicant was notified that she would be eligible for examination but would not be granted a temporary permit. Other applicants were refused permits because they had "graduated from foreign schools" or because they had "not had U.S. employment." AS 08.68.210(b) provides for the issuance of permits to any candidate for examination who is otherwise qualified. The Board should apply permit provisions to foreign graduates as well as to all other eligible qualified applicants.

Documentation also indicates that potential licentiates have been notified that their applications are incomplete because they lack such items as four reference letters, but such requirements are not statutory or regulatory prerequisites. It would be advisable for the Board to adopt regulations governing application procedures and materials so that such requirements may be enforced.

All applicants for endorsement who qualify on the basis of training and who have achieved a minimum score of 350 in all test areas are eligible for licensure in Alaska. Only in a few instances are such individuals required to be reexamined, notably, if test security had been broken at the time of initial examination, a rare occurrence. Because California utilizes (after January 1, 1974) a State constructed L.P.N. examination, its recent L.P.N licensees are a routine exception.

Practitioners with lapsed or inactive licenses who have been inactive for a period of five years or more may apply for reinstatement. However, if the Board has reason to believe it necessary, it may require additional training or supervised work to assure competency of the individual. Continuing competency of current licensees is not a requirement at the present time. In view of the importance of proficiency in nursing and the likelihood that programs could be established within the State, it is recommended that continuing education be instituted as a condition of relicensure. This should be accomplished by statutes as should any exceptions that may be acceptable. The Board should then designate qualifying programs or courses.

With few exceptions, the Board of Nursing has operated in the public interest through its statutes, regulations and policies. Entry into the profession is facilitated by standardized qualifications and requirements of nurse candidates, and by nonrestrictive licensing practices.

B. To what extent has the operation of the Board of Nursing been impeded or enhanced by existing statutes, procedures and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

The functions of the Board have not been particularly impeded by existing statutes, regulations and policies. As previously noted, however, the Board should make every effort to apply temporary permit provisions uniformly and should adopt regulations concerning application procedures. Continuing competency requirements should be designated upon which continued licensure would be contingent.

Although 27% of those nurses regulated by the Board are Licensed Practical Nurses, this group is not represented in Board membership. The inclusion of one practical nurse is recommended.

In July of 1976 some candidates were denied examination due to inadequate facilities, i.e., not enough room for all those applying. Adequate facilities and resources should be provided to help prevent a recurrence of this type of situation.

The Board and the administrative agency should have the authority to establish reasonable fees which would cover the costs of examination and licensing. Present fees are not adequate to cover transportation and per diem expenses and the total costs of Division of Occupational Licensing administrative overhead.

The Board of Nursing usually schedules three to four business meetings each year. Additional meetings and public hearings are held when necessary. Budgetary allowances should take into consideration these factors.

Support functions for the Board are largely the responsibility of its executive officer who: (1) performs administrative duties, (2) carries out Board regulations and policy decisions, and (3) assists in conducting examinations, educational programs, preparation of minutes and other Board administrative work. Further support staff is provided by a licensing examiner, who is also responsible for two other boards, and two clerical positions in Anchorage shared by this and two other units. Because of this support staff, little difficulty has been encountered with record keeping or maintenance of forms, files and board documents. Annual reports required by statute have been submitted each year and contain comprehensive information on the activities of the Board and the status of the profession.

The Board of Nursing has experienced the same difficulties as have all other boards and commissions under the jurisdiction of the administrative agency with respect to investigative services. During the past year two investigator positions remained vacant. As a result, one of these positions was abolished by the Legislature. One position in Anchorage was recently filled. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330-630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints.

It is undeniably in the public interest to enforce laws enacted for the protection of public health and welfare and to take expeditious action upon receipt of potentially serious complaints. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

C. To what extent has the Board of Nursing recommended statutory changes which are generally of benefit to the public interest?

Recent health care legislation pertaining to the Nursing Board statutes included: (1) public membership on the Board, (2) Medical Indemnity provisions, (3) applicability of the Administrative Procedure Act, and (4) general "housekeeping" items.

There are no recent records of statutory amendments proposed by the Board that would be specifically of direct benefit to the public. There are, however, numerous instances of regulatory changes designed to upgrade the profession and the efficiency of the Board. For example, recent regulations promulgated under AS 08.68.410(5) which will authorize independent practice by Advanced Nurse Practitioners are at this writing scheduled for public hearing. It is in the public interest to promulgate and adopt regulations and policies which will provide opportunities for entry into the profession and increased availability of services.

D. To what extent has the Board of Nursing encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The bulk of interest and participation concerning Board activities and services has come from this and related professions. The Board is sensitive to all input, however, very little general public interest has been demonstrated. Public concern is expressed by individuals with particular problems directly approaching Board members. Notices of pending meetings and new or changing regulations are published in major newspapers within the state but appear to elicit minimal response from the public at large. It may also be that members of the public are

somewhat reluctant to involve themselves in areas which they see as being technical or scientific in nature. A technical and professional "barrier" acts to deter public knowledgeability and participation.

The Board has not taken any overt action to inform the public or solicit its response outside of the professional sphere. Positive steps, such as public service radio announcements, could be taken to increase public awareness.

Public interests are furthered by the existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding.[1]

E. How efficiently are public inquiries or complaints regarding the activities of the Board of Nursing processed and resolved?

One complaint was received by the Office of the Ombudsman. This unsupported charge alleged that the Board had unfairly denied licensure. Other complaints related to drug abuse allegations, practicing without a license, and practicing outside of the licensee's scope of authority. Sixteen complaints of this nature were received by the administrative agency during the last three and one-half year period. In this same

---

[1] Shimberg, B. and Roeder, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

period one was referred to litigation and two were closed. At the time of this writing, fifteen cases remain open in agency files. The administrative agency will continue to review and update its complaints and investigative services to all boards and commissions coming under its jurisdiction.

A review of reading files maintained by the administrative agency indicates that public and professional inquiries are handled thoroughly and expeditiously through the mechanism of the Board's executive officer and clerical support.

F. To what extent does the Board of Nursing present qualified applicants to serve the public?

With few exceptions as previously noted, the Board makes every effort to present qualified practitioners to the public. The use of standard examinations and educational criteria to assure competency combined with utilization of temporary permit and endorsement procedures encourages entry into the profession and enhances availability of practitioners.

Every effort is made by the Board to insure the quality of in-State institutional education and training. Individual Board members have taken it upon themselves to provide assistance to applicants who require additional theory and practice. Only in the area of temporary permits for applicants for examination who graduated from foreign schools has nonconformance with statutes been indicated which may have restricted entry of some individuals into practice.

Mandatory continuing education requirements are recommended as an additional method of assuring that licensees continue to be qualified after initial licensure.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Board of Nursing in its own activities, and its area of activity or interest?

Board staff consists of the support services of an executive officer, a licensing examiner and two shared clerical positions, all of whom are employed by the Division of Occupational Licensing, are hired through the State personnel system, and are subject therefore to affirmative action requirements.

The Board of Nursing issues licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary or other changes necessary to enable the Board of Nursing to better serve the interests of the public?

Representation on the Board should specify the inclusion of an L.P.N. Mandatory continuing competency requirements should be delineated, as should possible exemptions, and the Board should then define acceptable educational compliance. Temporary permit provisions should be applied uniformly to all qualified applicants. Authorization should be given to the administrative agency and the Board to establish a reasonable fee structure. AS 08.68.310 should be clarified to read that "graduates of an accredited nursing program are eligible for examination." No statutory language now exists which would clarify the "good samaritan" principle as it relates to nursing. Application materials and procedures should be delineated in Board regulations.

III. Conclusion

Continuation of the Board of Nursing and State regulation of the nursing profession are determined to be justified in terms of public health, safety and welfare.

IV. Summary of Recommendations

The Board of Nursing and State regulation should be reestablished for another four-year period. The following recommendations are made:

1. The Board should apply temporary permit provisions uniformly to all qualified applicants. (See discussion on p. 8)

2. Application procedures and necessary materials should be defined by Board regulations. (See discussion on p. 9)

3. Mandatory continuing competency requirements, and exemptions, should be imposed by statute and the Board should promulgate and adopt regulations which define acceptable qualifying education. (See discussion on p. 9)

4. A statutory amendment should be made that would specifically include an L.P.N. in board membership. (See discussion on p. 10)

5. Budgetary allowances need to be considered so that adequate meeting scheduling, testing facilities, and support services may be provided as necessary.

6. Authority should be given to enable the board and the administrative agency to establish reasonable fee structures. (See discussion on p. 10)

Chapter 68. Nursing.

Sec. 08.68.010. Creation and membership of Board of Nursing. There is created a Board of Nursing, consisting of seven members appointed by the governor. One member shall be currently involved in institutional nursing service, one member in community or public health nursing and two members in basic or continuing nursing education, one nurse at large, and two persons who have no direct financial interest in the health care industry. (§ 3 ch 90 SLA 1957; am § 1 ch 67 SLA 1973; am § 15 ch 102 SLA 1976)

Effect of amendments. — The 1973 amendment rewrote the second sentence.

The 1976 amendment substituted "seven members" for "five members" in the first sentence and "one nurse at large, and two persons who have no direct financial interest in the health care industry" for "and one large" at the end of the second sentence.

Am. Jur. and C.J.S. references. — 41 Am. Jur., Physicians and Surgeons, §§ 14, 23 to 69.

70 C.J.S. Physicians and Surgeons, §§ 1, 8, 10, 69.

Sec. 08.68.020. Term of office. Members serve staggered terms of five years and until their successors are appointed. The terms of the public members on the board shall be set so that they do not expire at the same time. Vacancies on the board shall be filled for the unexpired term. (§ 3 ch 90 SLA 1957; am § 16 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment rewrote this section.

Sec. 08.68.030. Limitation on term of service. A board member may not serve more than two consecutive terms. Time served in filling an unexpired vacancy of two years or less is not considered a term. (§ 3 ch 90 SLA 1957)

Sec. 08.68.040. Source of appointments.
Repealed by § 46 ch 102 SLA 1976.

Editor's note. — The repealed section derived from § 3, ch. 90, SLA 1957.

Sec. 08.68.050. Removal from office. The governor may remove any board member for neglect of duty required by law, or for unprofessional or dishonorable conduct after a fair and impartial hearing. (§ 3 ch 90 SLA 1957)

Sec. 08.68.060. Qualifications of board members. The five members of the board who are nurses shall be licensed professional nurses in the state, and shall have been actively engaged in nursing for not less than four years before appointment, two years of which were within the five years preceding appointment. (§ 4 ch 90 SLA 1957; am § 17 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment rewrote this section.

Sec. 08.68.070. Election of officers. The board shall annually elect a chairman and secretary-treasurer from among its members. (§ 5 ch 90 SLA 1957)

Sec. 08.68.080. Meetings. The board shall meet at least once a year. (§ 5 ch 90 SLA 1957)

Sec. 08.68.090. Quorum. A majority of the board constitutes a quorum. (§ 5 ch 90 SLA 1957)

Sec. 08.68.100. Duties of board. The board shall

(1) adopt rules and regulations necessary to make this chapter effective and when necessary, additions to or changes in rules and regulations of the board by a quorum vote by mail, these additions to or changes in the rules and regulations which are made by mail and the vote on them to be entered in the minutes of the board at its next meeting;

(2) make available, upon request, copies of this chapter and the regulations adopted for administering it;

(3) approve curricula and a[illegible] standards for educational programs preparing persons for licensing and provide for surveys of these programs in the state at the times it considers necessary;

(4) accredits educational programs which meet the requirements of this chapter and the standards of the board, and deny or withdraw accreditation from educational programs for failure to meet board standards;

(5) examine, license, and renew the licenses of qualified applicants, and conduct hearings upon charges and administer oaths to persons giving testimony at hearings;

(6) keep a record of its proceedings, and submit annual reports to the governor and the legislature. (§ 6(1) (2) (3) ch 90 SLA 1957)

Sec. 08.68.110. Appointment of executive officer.

Repealed by § 3 ch 59 SLA 1966.

Sec. 08.68.111. Executive officer of board. (a) The Department of Commerce and Economic Development, in consultation with the Board of Nursing, shall employ a licensed, registered nurse, who is not a member of the board, to serve as executive officer of the board.

(b) The executive officer shall be a nurse having a bachelor's degree or higher, currently licensed in the state and with not less than five years of active nursing experience, of which not less than two years within the preceding five years has been in an administrative or a teaching capacity in an accredited institution acceptable to the board. If a licensed professional nurse holding a bachelor's degree is not available to fill the position of executive officer, the board may waive the requirement for a bachelor's degree and appoint a licensed professional nurse possessing other qualifications in education and administrative experience which the board considers acceptable. However, the appointee shall complete the requirements for the award of a bachelor's degree in four years after appointment to the position of executive officer. Annually, the appointee shall offer the board evidence of satisfactory progress toward award of a bachelor's degree. If after the annual review the board believes that the appointee has not made satisfactory progress toward award of a bachelor's degree, the department may dismiss the appointee, notwithstanding the provisions of AS 39.25.170.

(c) The executive officer shall:

(1) perform the administrative duties as required by the statutes and the department,

(2) carry out regulations and policy decisions, consistent with law, made by the Board of Nursing, and

(3) assist the board in the conducting of examinations, educational programs, preparation of minutes and other board administrative work.

(d) Repealed by § 1 ch 129 SLA 1974. (§ 1 ch 47 SLA 1967; am § 1 ch 81 SLA 1969; am § 2 ch 67 SLA 1973; am § 1 ch 129 SLA 1974; am § 49 ch 218 SLA 1976)

Effect of amendment. — The 1973 amendment added the second, third, fourth and fifth sentences of subsection (b).

The 1974 amendment repealed subsection (d).

The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in subsection (a).

Sec. 08.68.120. Bond.
Repealed by § 3 ch 59 SLA 1966.

Sec. 08.68.130. Disposition of fees.
Repealed by § 3 ch 59 SLA 1966.

Sec. 08.68.140. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62).

Sec. 08.68.150. Expenses. Members of the board are entitled to the per diem and travel expenses allowed by law. (§ 7 ch 90 SLA 1957)

Article 2. Examination and Licensing.

Section
160. License required
165. Malpractice insurance
170. Qualifications of professional nurse applicants
180. Qualifications of practical nurse applicants
190. License by examination
200. License by endorsement
210. Temporary permits
220. Fees
230. Use of title and abbreviation
240. Nurses licensed or holding temporary permits under previous law
250. [Repealed]
251. Lapsed licenses
260. Inactive nurses
270. Grounds for denial, suspension or revocation
275. Limits or conditions on license; discipline

Sec. 08.68.160. License required. A person practicing or offering to practice professional or practical nursing in the state shall submit evidence that he is qualified to practice, and shall be licensed under this chapter. (§ 1 ch 90 SLA 1957)

Sec. 08.68.165. Malpractice insurance. If medical malpractice insurance for nurses becomes unavailable on the voluntary market and the director of insurance finds, after public hearing, that the unavailability is impairing the delivery of nursing services to the public, the director of insurance may require all persons licensed under this chapter to carry medical malpractice insurance and to purchase their insurance from the Medical Indemnity Corporation of Alaska established under AS 21.88. If a finding of unavailability of insurance

on the voluntary market and impairment of services has been made under this section, purchase of medical malpractice insurance from the Medical Indemnity Corporation of Alaska is a condition of licensure under this chapter. The provisions of this section are satisfied if the licensee's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska. (§ 18 ch 102 SLA 1976)

Sec. 08.68.170. Qualifications of professional nurse applicants. An applicant for a license to practice professional nursing shall submit to the board on forms and in the manner prescribed by the board, written evidence, verified by oath, that the applicant has completed an approved four year high school course of study or the equivalent as determined by the appropriate educational agency, and has successfully completed (1) a professional nursing education program accredited by the board; or (2) a professional nursing education program outside the state which, in the opinion of the board, meets the minimum requirements of the board for an accredited program of study in this state at the time the applicant graduated; or (3) a professional nursing education program accredited by the National League for Nursing at the time the applicant graduated. (§ 8 ch 90 SLA 1957; am § 2 ch 129 SLA 1974; am § 1 ch 105 SLA 1976)

Effect of amendments. — The 1974 amendment substituted "in another state or territory" for "outside the state" in item (2).

The 1976 amendment substituted "outside the state" for "in another state or territory" in item (2).

Sec. 08.68.180. Qualifications of practical nurse applicants. (a) An applicant for a license to practice practical nursing shall submit to the board on forms prescribed by the board written evidence, verified by oath, that the applicant has completed the tenth grade or its equivalent as determined by the appropriate educational agency, is not less than 18 years of age, and has successfully completed (1) a practical nursing education program accredited by the board; or (2) a practical nursing education program outside the state which, in the opinion of the board, meets the minimum requirements of the board for an accredited program of study in this state.

(b) A qualified student of the Mt. Edgecombe School of Practical Nursing who was graduated before January 1, 1959, and had eighth

grade pretraining is eligible for a license. (§ 9 ch 90 SLA 1957; am § 3 ch 129 SLA 1974; am § 2 ch 105 SLA 1976)

Effect of amendments. — The 1974 amendment substituted "in another state or territory" for "outside the state" in item (2) of subsection (a).

The 1976 amendment substituted "outside the state" for "in another state or territory" in item (2) of subsection (a).

Sec. 08.68.190. License by examination. The applicant shall pass a written examination in the subjects which the board prescribes. The board shall issue a license to an applicant who passes the examination to practice professional nursing or practical nursing provided the other qualifications outlined in §§ 170 and 180 of this chapter are also met. The board shall conduct examinations annually and as often as it considers necessary. (§ 10 ch 90 SLA 1957)

Sec. 08.68.200. License by endorsement. The board may issue a license by endorsement to practice professional nursing or to practice practical nursing, whichever is appropriate, to an applicant who is licensed as either a professional nurse or a practical nurse under the laws of another state or territory, if in the opinion of the board the applicant meets the qualifications required for licensing in the state, and meets the requirements of either § 170 or § 180 of this chapter, whichever is applicable. (§ 11 ch 90 SLA 1957; am § 1 ch 37 SLA 1970; am § 4 ch 129 SLA 1974)

Effect of amendment. — The 1974 amendment substituted "state or territory" for "state, territory, or foreign country" near the middle of the section.

Sec. 08.68.210. Temporary permits. (a) The board may issue a temporary permit, nonrenewable and valid for a period not exceeding four months, to an applicant for a license by endorsement if he

(1) submits proof satisfactory to the board that he is currently licensed in another state or territory,

(2) meets the requirements of either § 170 or § 180 of this chapter, whichever is applicable, and

(3) pays the required fee.

(b) The board may issue a nonrenewable permit to an applicant for license by examination if he meets the qualifications of § 170 or § 180 of this chapter, whichever is applicable, and pays the required fee. The permit will be valid for a period not extending beyond the time when the results are published of the first examination the applicant is eligible to take after the permit is issued. (§ 11 ch 90 SLA 1957; am § 2 ch 37 SLA 1970; am § 5 ch 129 SLA 1974)

Effect of amendment. — The 1974 amendment substituted "state or territory" for "state, territory, or foreign country" in paragraph (1) of subsection (a).

Sec. 08.68.220. Fees. The following fees shall be imposed under this chapter when applicable:

(1) for professional or registered nursing

(A) application fee	$20
(B) license by examination fee	20
(C) license by endorsement fee	20
(D) biennial license renewal fee	15

(2) for practical or vocational nursing

(A) application fee	$15
(B) license by examination fee	15
(C) license by endorsement fee	15
(D) biennial license renewal fee	15

(§ 13 ch 90 SLA 1957; am § 1 ch 80 SLA 1960; am § 5 ch 94 SLA 1968; am § 2 ch 81 SLA 1969; am §§ 3, 4 ch 37 SLA 1970)

Sec. 68.68.230. Use of title and abbreviation. (a) A person licensed to practice professional nursing in the state may use the title "licensed professional nurse," "registered nurse," and the abbreviation "R.N."

(b) A person licensed to practice practical nursing in the state may use the title "licensed practical nurse," or "licensed vocational nurse," and the abbreviation "L.P.N." or "L.V.N." (§ 14 ch 90 SLA 1957)

Sec. 08.68.240. Nurses licensed or holding temporary permits under previous law. A person holding a license to practice professional or practical nursing in the state under prior law is considered licensed as a professional or practical nurse. (§ 15 ch 90 SLA 1957)

Sec. 08.68.250. Renewal of license.
Repealed by § 3 ch 81 SLA 1969.

Editor's note. — The repealed section derived from § 16, ch. 90, SLA 1957; § 2, ch. 80, SLA 1960; § 7, ch. 94, SLA 1968.

Sec. 08.68.251. Lapsed licenses. A lapsed license may be reinstated if it has not remained lapsed for more than five years. If the license is lapsed for more than five years and the board has reason to believe that the person applying for reinstatement of his license no longer has sufficient knowledge to carry out the duties of a licensed nurse, the board may require the applicant to take and pass the examination given under § 190 of this chapter or complete a refresher course approved by the board. (§ 3 ch 81 SLA 1969; am § 6 ch 129 SLA 1974)

Revisor's note (1969). — In ch 81 SLA 1969 this section was numbered AS 08.68.250.

Effect of amendment. — The 1974 amendment added "or complete a refresher course approved by the board" to the end of the second sentence.

Sec. 08.68.260. Inactive nurses. A licensed nurse may apply to be placed on inactive status. An inactive nurse may engage in the practice of nursing by submitting an application for renewal and the current biennial renewal fee to the board and receving a renewal certificate. If the board has reason to believe that the applicant for a renewal certificate no longer has sufficient knowledge to carry out the duties of a licensed nurse, the board may require the applicant to take and pass the examination given under § 190 of this chapter or complete a refresher course approved by the board. (§ 16 ch 90 SLA 1957; am § 2 ch 80 SLA 1960; am § 4 ch 81 SLA 1969; am § 7 ch 129 SLA 1974)

Effect of amendment. — The 1974 amendment added "or complete a refresher course approved by the board" to the end of the third sentence.

Sec. 08.68.270. Grounds for denial, suspension or revocation. The board, after compliance with the Administrative Procedure Act (AS 44.62), may deny, suspend or revoke the license of a person who

(1) has obtained or attempted to obtain a license to practice nursing by fraud or deceit;

(2) has been convicted of a felony;

(3) has been convicted of a crime involving moral turpitude;

(4) is habitualiy intoxicated or is addicted to the use of narcotics;

(5) has impersonated a professional or practical nurse;

(6) is guilty, in the opinion of the board, of negligence which has resulted in serious injury to a patient;

(7) is mentally ill or mentally incompetent;

(8) is guilty of unprofessional conduct;

(9) has wilfully or repeatedly violated any of the provisions of this chapter;

(10) is considered by the board to be professionally incompetent. (§ 20 ch 90 SLA 1957; am § 8 ch 129 SLA 1974)

Effect of amendment. — The 1974 amendment added paragraph (10).

Cited in Leege v. Martin, Sup. Ct. Op. No. 131 (File No. 256), 379 P.2d 447 (1963).

C.J.S. references. — 53 C.J.S. Licenses § 44; 70 C.J.S. Physicians and Surgeons § 16.

Sec. 08.68.275. Limits or conditions on license; discipline. (a) In addition to action under § 270 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education, or health the authority to practice nursing should be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by specialty, procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 18 ch 102 SLA 1976)

Article 3. Nursing Education Programs.

Section
280. Nursing education program prohibited unless accredited
290. Application for accreditation
300. Survey and accreditation by the board
310. Accreditation
320. Denial of accreditation
330. List of accredited programs

Sec. 08.68.280. Nursing education program prohibited unless accredited. No person, institution or agency may conduct a nursing education program for professional or practical nurses unless the program is accredited by the board. (§ 18 ch 90 SLA 1957)

Sec. 08.68.290. Application for accreditation. An institution desiring to conduct a nursing education program to prepare professional or practical nurses shall apply to the board and submit evidence that (1) it is prepared to carry out the curriculum approved by the board for professional nursing or for practical nursing, as the case may be, and that (2) it is prepared to meet other standards established by law and by the board. (§ 17 ch 90 SLA 1957)

Sec. 08.68.300. Survey and accreditation by the board. The board shall designate the executive officer, a board member, or a consultant to survey the institution applying for accreditation to determine if the standards and requirements required by law and the board are met. The board may survey a nursing education program in the state at any time. Written reports of the surveys shall be filed with the board and retained by it. (§ 18 ch 90 SLA 1957)

Sec. 08.68.310. Accreditation. If, in the opinion of the board, the nursing education program meets the requirements established by the board, the board shall accredit it as an approved nursing education program for professional or practical nurses. The graduates of an accredited nursing program are eligible for licenses. (§ 18 ch 90 SLA 1957)

Sec. 08.68.320. Denial of accreditation. The board may deny, revoke or suspend accreditation of a nursing education program if it determines that required standards are not being maintained. (§ 18 ch 90 SLA 1957)

Sec. 08.68.330. List of accredited programs. The board shall prepare, maintain, and from time to time publish a list of accredited nursing education programs in the state. (§ 19 ch 90 SLA 1957)

Article 4. Unlawful Acts.

Section
340. Violations
350. Punishment for misdemeanor
360. Unlicensed practice a public nuisance
370. Application for injunction
380. Issuance of injunction
390. Remedy not exclusive

Sec. 08.68.340. Violations. It is a misdemeanor for a person to

(1) sell or fraudulently obtain or furnish a nursing diploma, license renewal or record, or aid or abet therein; or

(2) practice nursing under cover of a diploma, license, or record illegally or fraudulently obtained or signed or issued unlawfully or by fraudulent representation; or

(3) practice or offer to practice nursing without a license, except when rendering necessary aid to the ill, injured or infirm in an emergency, or to knowingly employ a person without a license to practice nursing; or

(4) use in connection with his name a designation tending to imply that he is a licensed nurse unless he is licensed; or

(5) practice nursing during the time his license is lapsed, suspended or revoked; or

(6) conduct a nursing education program unless the program has been accredited by the board; or

(7) violate any provision of this chapter. (§§ 1, 22 ch 90 SLA 1957; am § 9 ch 129 SLA 1974)

Effect of amendment. — The 1974 amendment inserted "or to knowingly employ a person without a license to practice nursing" in paragraph (3).

C.J.S. references. — 53 C.J.S. Licenses §§ 62 to 65; 70 C.J.S. Physicians and Surgeons § 8.

Sec. 08.68.350. Punishment for misdemeanor. A person who violates § 340 of this chapter is punishable by imprisonment for not less than 10 days nor more than one year, or by a fine of not less than $10 nor more than $500, or by both. (§ 22 ch 90 SLA 1957)

Sec. 08.68.360. Unlicensed practice a public nuisance. The practice of professional or practical nursing for compensation by a person who is not licensed, or whose license is suspended, or revoked, or expired, is declared to be inimical to the public welfare and to constitute a public nuisance. (art VIII ch 90 SLA 1957)

Sec. 08.68.370. Application for injunction. The board may, apply for an injunction in a competent court to enjoin a person not licensed or whose license is suspended or revoked, or expired, from practicing professional or practical nursing. The court may issue a temporary injunction enjoining the defendant from practicing professional or practical nursing. (art VIII ch 90 SLA 1957)

Sec. 08.68.380. Issuance of injunction. If it is established that the defendant has been, or is practicing professional or practical nursing without a license or has been or is practicing nursing after his license has been suspended, or revoked, or has expired, the court may enjoin the defendant from further practice. (art VIII ch 90 SLA 1957)

Sec. 08.68.390. Remedy not exclusive. If a person violates an injunction issued under this section, he may be punished for contempt

of court. The injunction proceeding is in addition to other penalties and remedies provided in this chapter. (art VIII ch 90 SLA 1957)

Article 5. General Provisions.

Section
400. Exceptions to application of chapter
410. Definitions

Sec. 08.68.400. Exceptions to application of chapter. (a) This chapter does not apply to

(1) a qualified nurse licensed in another state employed by the United States Government or a bureau, or agency, or division of the United States Government while in the discharge of his official duties;

(2) nursing service given temporarily in the event of a public emergency or disaster;

(3) the practice of nursing by a student enrolled in a nursing education program accredited by the board when the practice is in connection with the student's course of study; or

(4) the practice of nursing by a nurse enrolled in an approved refresher course.

(b) For purposes of this section the word "nurses" includes professional and practical nurses, and "nursing" means professional and practical nursing. (art IX ch 90 SLA 1957; am § 10 ch 129 SLA 1974)

Effect of amendment. — The 1974 amendment added paragraph (4) to subsection (a).

Sec. 08.68.410. Definitions. As used in this chapter

(1) "board" means the Board of Nursing;

(2) "licensed professional nurse" is equivalent to the common title registered nurse;

(3) "licensed practical nurse" is equivalent to the title licensed vocational nurse;

(4) "practical nursing" also means vocational nursing;

(5) "practice of professional nursing" means the performance for compensation of observation, care and counsel of the ill, injured, or infirm, or the maintenance of health or prevention of illness of others, the supervision and teaching of personnel; or the administration of medications and treatments prescribed by a licensed physician or dentist which require substantial specialized judgment and skill based on knowledge and application of the principles of biological, physical, and social science; but the foregoing do not include acts of medical diagnosis, or the prescription of medical therapeutic or corrective measures unless authorized by regulations promulgated jointly by the State Medical Board and the Board of Nursing and as implemented by the Board of Nursing;

(6) "practice of practical nursing" means the performance for compensation of selected acts in the care or prevention of illness, and in the care of the ill, injured, or infirm under the direction of a licensed professional nurse or a licensed physician or a licensed dentist not requiring the substantial specialized skill, judgment and knowledge required in professional nursing;

(7) an "accredited nursing education program" is a program having curricula and standards which meet the requirements established by the board;

(8) "endorsement" is the licensing or registering of an applicant without examination through the acceptance of a license or registration issued by any state or territory after a comprehensive examination which is equivalent to the examination offered in this state, and providing the applicant meets all other qualifications required by law;

(9) "advanced nurse practitioner" means a registered professional nurse who by virtue of specialized education and experience, has become certified to perform acts of medical diagnosis, and prescription of medical, therapeutic or corrective measures as authorized by regulations promulgated under (5) of this section. (§ 2 ch 90 SLA 1957; am § 5 ch 37 SLA 1970; am § 3 ch 67 SLA 1973; am §§ 11, 12 ch 129 SLA 1974)

Effect of amendments. — The 1973 amendment added the language beginning "unless authorized" to the end of paragraph (5).

The 1974 amendment substituted "state or territory" for "state, territory, or foreign country" near the middle of paragraph (8) and added paragraph (9).

CHAPTER 44. BOARD OF NURSING

Article

1. Nursing Education of Professional Nurses
2. Nursing Education of Practical Nurses
3. Examination and Licensure
4. Advanced Nurse Practitioner
5. General Provisions

ARTICLE 1. NURSING EDUCATION OF PROFESSIONAL NURSES

Section

10. Purpose of accreditation
20. Types of accreditation
30. Survey
40. Establishment of school of professional nursing
50. Discontinuance of program
60. Organization of schools
70. Budget
80. Student clinical experience
90. Faculty
100. Qualifications of director and professional nursing instructors
110. Records
120. School catalogue
130. Curriculum requirements
140. Reports

12 AAC 44.010. PURPOSE OF ACCREDITATION. The purpose of accreditation is

(1) to assure the safe practice of nursing by setting minimum requirements for the conduct of school of professional nursing that prepares the nurse practitioner;

(2) to assure the graduate of their eligibility for admission to the licensing examination for professional nurses in Alaska; and

(3) to encourage within school of professional nursing self-evaluation and study for growth, development and improvement of its program. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100
AS 08.68.290

12 AAC 44.020. TYPES OF ACCREDITATION. (a) Full accreditation is granted a school of professional nursing that has met the requirements as set forth in secs. 10 – 140 of this chapter.

(b) Provisional accreditation is granted a school of professional nursing that has not been in operation long enough to fulfill the standards of accreditation of secs. 10 – 140 of this chapter.

(c) Conditional accreditation is granted a school of professional nursing which has failed to maintain minimum standards and has been notified that it must meet the requirements of the board within one year from date of notice. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.109(1),(3) and (4)
AS 08.68.290

12 AAC 44.030. SURVEY. (a) The completed application for provisional accreditation shall be submitted to the board when the school of professional nursing is ready for a survey visit.

(b) A survey of each school of nursing, including affiliations and extended campus facilities, is required for the purpose of full accreditation and shall be made by one or more representatives of the board and may include a faculty member from an established professional nursing program.

(c) Each school of professional nursing shall permit periodic surveys by the board or their designated representative for the purpose of determining compliance with accreditation standards.

(d) Prior to a survey visit, specific information will be requested by the board.

(e) The information supplied by the school and the written report of the survey will be given to the board. The report and recommendations of the board will be sent to the administrator of the controlling body and the delegated nurse administrator of the program. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1),(3) and (4)
AS 08.68.300

12 AAC 44.040. ESTABLISHMENT OF SCHOOL OF PROFESSIONAL NURSING. (a) Any university or college wishing to establish a school of professional nursing shall inform the

board in writing during the initial planning period.

(b) There shall be information on the availability of clinical facilities and job opportunities for graduates. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1),(3) and (4)
AS 08.68.300

12 AAC 44.050. DISCONTINUANCE OF PROGRAM. When a school of professional nursing plans on discontinuing its program it shall

(1) notify the board in writing as soon as the decision is made;

(2) give assurances that the educational standards shall be maintained until the last class has graduated or that adequate provisions are made for the transfer of students unable to complete the program; and

(3) make provision for the preservation of students' records. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)

12 AAC 44.060. ORGANIZATION OF SCHOOLS. (a) There shall be a clear statement of philosophy which shall be filed with the board.

(b) The school of professional nursing shall be an integral part of an accredited institution of higher learning. There shall be a plan of organization and administration of the school of professional nursing with an organization diagram available to all persons concerned with the school of professional nursing. This chart shall indicate responsibilities and lines of communication and show how individuals and units within the school of professional nursing stand in relation to one another and to such groups as the board of control and clinical facilities. The relationships may be direct, advisory, contractual, coordinating or cooperative in nature. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)

12 AAC 44.070. BUDGET. (a) The financial statement of a school of professional nursing shall be submitted annually to the board and must include assets and liabilities, allowance for fiscal year for faculty salaries, administrative positions, laboratory equipment, maintenance, capitol improvement, library.

(b) In addition to the information required in (a) of this section, a school of professional nursing applying for initial, provisional accreditation shall submit a proposed budget for five years which includes projected amounts and sources of funding, and an analysis of projected disbursements. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)

12 AAC 44.080. STUDENT CLINICAL EXPERIENCE. (a) Assignment of students for clinical experience shall be the responsibility of the director of the school of professional nursing and the faculty.

(b) Each school of professional nursing shall include in its curriculum student experience in meeting the physical, emotional and social needs of people of all ages in health and illness for nursing care.

(c) If there is more than one professional nursing program having clinical experience simultaneously within the same clinical area, each group shall have separate instructors.

(d) In student clinical experience, the clinical instructor-student ratio may not exceed 1:12 at any given time. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)

12 AAC 44.090. FACULTY. The administration and teaching staff shall consist of

(1) a director of the school of professional nursing;

(2) nursing instructors prepared in the major broad areas of current nursing practice. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)

12 AAC 44.100. QUALIFICATIONS OF DIRECTOR AND PROFESSIONAL NURSING INSTRUCTORS. (a) The director of a school of professional nursing shall be a professional nurse and have at least a master's degree in education or nursing, including coursework in curriculum development and counseling, and at least one

year of experience either in instruction or administration of nursing education.

(b) Instructors who are responsible for the development and implementation of curriculum in one of the specialty areas shall have a master's degree in nursing, and have at least one year of clinical nursing experience in that area.

(c) Instructors who supervise nursing practice in a school of professional nursing shall have at least a baccalaureate degree in nursing and have at least one year of clinical nursing experience in the area in which they are teaching. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)

12 AAC 44.110. RECORDS. The school of professional nursing shall provide for

(1) pre-admission and current records for each student, including information as to the student's knowledge and skills related to the practice of professional nursing; and

(2) the official transcript of each student. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)
AS 08.68.300

12 AAC 44.120. SCHOOL CATALOGUE. In the catalogue of the accredited institution there shall be a current official statement, developed by the nursing faculty, describing the nursing program, which includes

(1) a statement of the philosophy and objectives of the school of professional nursing;

(2) admission and graduation policies and procedures;

(3) the curriculum, course description, and list of faculty members; and

(4) description of physical facilities. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)

12 AAC 44.130. CURRICULUM REQUIREMENTS. Baccalaureate and associate degree programs shall comply with the following minimum curriculum requirements:

(1) biological and physical sciences

(A) academic faculty prepared in these areas shall provide this instruction;

(B) subject matter shall relate to structure and function of the human body;

(2) behavioral and social sciences

(A) academic faculty prepared in these areas shall provide this instruction;

(B) subject matter shall include principles of psychology, communications, growth and development, and interpersonal relationships;

(3) nursing science

(A) the school of professional nursing shall provide instruction and clinical experience in the major broad areas of current nursing practice;

(B) it shall provide instruction in allied subjects such as community health, pharmacology, nutrition and diet therapy, history and trends in nursing and professional responsibilities;

(C) theory and laboratory experience shall be concurrent to enable students to develop basic skills in professional nursing;

(D) throughout the program the student shall have experience applying the principles learned by working with the health team in providing nursing services and health education to people of all ages. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)
AS 08.68.290

12 AAC 44.140. REPORTS. By July 1 of each year, schools of professional nursing shall submit to the Board of Nursing reports related to faculty, students and current curriculum as follows:

(1) written job descriptions and qualifications for each category of faculty;

(2) names, educational qualifications, and titles of all nursing faculty members;

(3) a count of students admitted, withdrawn, transferred and graduated on forms provided by the board;

(4) a copy of the catalogue;

(5) course outlines for all nursing courses;

(6) budget information required in sec. 70 of this chapter; and

(7) a copy of any written agreement between the school of professional nursing and clinical facilities. (Eff. 10/14/72, Reg. 43)

ARTICLE 2. NURSING EDUCATION OF PRACTICAL NURSES

Section

150. Purpose of accreditation
160. Types of accreditation
170. Survey
180. Establishment of school of practical nursing
190. Discontinuance of program
200. Organization of schools
210. Budget
220. Student clinical experience
230. Faculty
240. Qualifications of director and practical nursing instructors
250. Records
260. School catalogue
270. Curriculum requirements
280. Reports

12 AAC 44.150. PURPOSE OF ACCREDITATION. The purpose of accreditation is

(1) to assure safe practice of nursing by setting minimum requirements for the conduct of school of practical nursing that prepares the practical nurse;

(2) to assure the graduates of their eligibility for admission to the licensing examination for practical nurses in Alaska; and

(3) to encourage within school of practical nursing self-evaluation and study for growth, development and improvement of its program. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100
AS 08.68.290

12 AAC 44.160. TYPES OF ACCREDITATION. (a) Full accreditation is granted a school of practical nursing that has met the requirements as set forth in secs. 150 – 280 of this chapter.

(b) Provisional accreditation is granted a school of practical nursing that has not been in operation long enough to fulfill the standards of accreditation of secs. 150 – 280 of this chapter.

(c) Conditional accreditation is granted a school of practical nursing which has failed to maintain minimum standards and has been notifed that it must meet the requirements of the board within one year from date of notice. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.109(1)(3)(4)
AS 08.68.290

12 AAC 44.170. SURVEY. (a) The completed application for provisional accreditation shall be submitted to the board when the school of practical nursing is ready for a survey visit.

(b) A survey of each school of nursing, including affiliations and extended campus facilities, is required for the purpose of FULL accreditation and shall be made by one or more representatives of the board and may include a faculty member from an established practical nursing program.

(c) Each school of practical nursing shall permit periodic surveys by the board or their designated representative for the purpose of determining compliance with accreditation standards.

(d) Prior to a survey visit, specific information will be requested by the board.

(e) The information supplied by the school and the written report of the survey will be given to the board. The report and recommendations of the board will be sent to the administrator of

the controlling body and the delegated nurse administrator of the program. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)(4)
AS 08.68.300

12 AAC 44.180. ESTABLISHMENT OF SCHOOL OF PRACTICAL NURSING. (a) Any college wishing to establish a school of practical nursing shall inform the board in writing during the initial planning period.

b) There shall be information on the availability of clinical facilities and job opportunities for graduates. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)(4)
AS 08.68.300

12 AAC 44.190. DISCONTINUANCE OF PROGRAM. When a school of practical nursing plans on discontinuing its program it shall

(1) notify the board in writing as soon as the decision is made;

(2) give assurances that the educational standards shall be maintained until the last class has graduated or that adequate provisions are made for the transfer of students unable to complete the program; and

(3) make provision for preservation of students' records. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)

12 AAC 44.200. ORGANIZATION OF SCHOOLS. (a) There shall be a clear statement of philosophy which shall be filed with the board

(b) The school of practical nursing shall be an integral part of an accredited institution of higher learning. There shall be a plan of organization and administration of the school of practical nursing with an organization diagram available to all persons concerned with the school of practical nursing. This chart shall indicate responsibilities and lines of communication and show how individuals and units within the school of practical nursing stand in relation to one another and to such groups as the board of control and clinical facilites. The relationships may be direct, advisory, contractual, coordinating or cooperative in nature. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)

12 AAC 44.210. BUDGET. (a) The financial statement of a school of practical nursing shall be submitted annually to the board and must include assets and liabilities, allowance for fiscal year for faculty salaries, administrative positions, laboratory equipment, maintenance, capital improvement library.

(b) In addition to the information required in (a) of this section, a school of practical nursing applying for initial, provisional accreditation shall submit a proposed budget for five years which includes projected amounts and sources of funding, and an analysis of projected disbursements. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)

12 AAC 44.220. STUDENT CLINICAL EXPERIENCE. (a) Assignment of students for clinical experience shall be the responsibility of the director of the school of practical nursing and the faculty.

(b) Each school of practical nursing shall include in its curriculum, student clinical experience in the areas of medical, surgical, obstetrical, psychiatric and pediatric nursing.

(c) If there is more than one nursing program having clinical experience simultaneously within the same clinical area, each group shall have separate instructors.

(d) In student clinical experience, the clinical instructor-student ratio may not exceed 1:12 at any given time. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)

12 AAC 44.230. FACULTY. The administration and teaching staff shall consist of

(1) a director of the school of practical nursing; and

(2) nursing instructors in each specialty area, medical, surgical, obstetrical, psychiatric and pediatric nursing. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)

12 AAC 44.240. QUALIFICATIONS OF DIRECTOR AND PRACTICAL NURSING INSTRUCTORS. (a) The director of a school of practical nursing shall have at least a baccalaureate degree in nursing, including coursework in curriculum development and counseling, and at least one year of experience either in instruction or administration of nursing education and one year clinical nursing experience in the areas in which he is teaching.

(b) Instructors who teach in a school of practical nursing shall be registered nurses with a bachelor's degree who have at least one year of clinical nursing experience in the area in which they are teaching. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)

12 AAC 44.250. RECORDS. The school of practical nursing shall provide for

(1) pre-admission and current records for each student, including information as to the student's knowledge and skills related to the practice of practical nursing; and

(2) the official transcript of each student. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)
AS 08.68.300

12 AAC 44.260. SCHOOL CATALOGUE. In the catalogue of the accredited institution there shall be a current official statement, developed by the nursing faculty describing the nursing program, which includes

(1) a statement of the philosophy and objectives of the school of practical nursing;

(2) admission and graduation policies and procedures;

(3) the curriculum, course description, and list of faculty members; and

(4) description of physical facilities. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)(3)

12 AAC 44.270. CURRICULUM REQUIREMENTS. The program for a school of practical nursing shall comply with the following minimum requirements:

(1) the school of practical nursing shall provide instruction and clinical experience in medical, surgical, obstetrical, pediatric and psychiatric nursing;

(2) the school of practical nursing shall provide instruction in those basic principles of the physical, social and behavioral sciences which relate to the practice of practical nursing;

(3) the school of practical nursing shall provide instruction in basic concepts of nutrition, pharmacology, communications, history and trends in nursing, and vocational responsibilities;

(4) theory and laboratory experience shall be concurrent to enable students to develop basic skills in practical nursing; and

(5) throughout the program the student shall have experience applying all principles learned by working with the health team in providing basic bedside care to patients. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (3)
AS 08.68.290

12 AAC 44.280. REPORTS. By July 1 of each year, schools of practical nursing shall submit to the board reports related to faculty, students, and current curriculum as follows:

(1) written job descriptions and qualifications for each category of faculty;

(2) names, educational qualifications, and titles of all nursing faculty members;

(3) a count of students admitted, withdrawn, transferred and graduated, on forms provided by the board;

(4) a copy of the catalogue;

(5) course outlines for all nursing courses;

(6) budget information required in sec. 210 of this chapter; and

(7) a copy of any written agreement between the school of practical nursing and clinical facilities. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.300

ARTICLE 3.
EXAMINATION AND LICENSURE

Section
290. Application for examination
300. State board examinations
310. Licensure of graduates of foreign schools of nursing
320. Temporary permits

12 AAC 44.290. APPLICATION FOR EXAMINATION. (a) All applicants for license by examination in Alaska shall

(1) make written application on forms provided by the board for permission to be admitted to the licensing examination;

(2) pay the required fee;

(3) provide the board with a complete certified transcript of her nursing education; and

(4) submit a letter of recommendation for examination from the director of the school of nursing.

(b) Application, fee, and all credentials shall be on file in the board office not later than six weeks prior to the date of the examination. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (5)
AS 08.68.190

12 AAC 44.300. STATE BOARD EXAMINATIONS. (a) Candidates shall write the State Board Test Pool Examination.

(b) Registered nurse candidates who receive a standard score of 350 or above in each area of the examination will be issued a license by the Board of Nursing.

(c) Registered nurse candidates who fail one or two areas of the examination need repeat only the areas failed. Candidates who fail three or more areas of the examination shall repeat the entire examination.

(d) Licensed practical nurse candidates who receive a standard score of 350 or above will be issued a license by the Board of Nursing.

(e) Licensed practical nurse candidates who fail the examination shall repeat said examination.

(f) After the third failure both registered nurse and licensed practical nurse candidates shall be required to repeat, at an accredited school of nursing, the theory and practice in the areas failed. The candidate shall provide proof of having fulfilled this requirement. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (5)
AS 08.68.190

12 AAC 44.310. LICENSURE OF GRADUATES OF FOREIGN SCHOOLS OF NURSING. (a) Applicants shall submit all required documents accompanied by certified English translations if the original documents are not in English.

(b) Unless otherwise provided by this section, nurses who have received nursing education outside the United States shall write the State Board Test Pool Examination.

(c) Applicants who have successfully completed the State Board Test Pool Examination elsewhere shall be licensed by endorsement.

(d) If licensed in Canada as a result of passing the national Canadian examination, and having received a score of at least 350 on each part of the examination, an applicant may receive a license by endorsement in the manner provided by AS 08.68.200. If the examination did not include all subjects included in the State Board Test Pool Examination, the applicant will be required to examine in those subjects. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.190
AS 08.68.200
AS 08.68.210(a) and (b)

12 AAC 44.320. TEMPORARY PERMITS. A temporary nonrenewable permit may be issued to an applicant who has taken the State Board Test Pool Examination one time and the results are pending. This permit will be valid until the results of this examination are published. (Eff. 10/14/72, Reg. 43; am 6/27/76, Reg. 58)

Authority: AS 08.68.100(1) and (5)
AS 08.68.200
AS 08.68.210(a) and (b)

ARTICLE 4.
ADVANCED NURSE PRACTITIONER

Section
322. Nurse-midwife

12 AAC 44.322. NURSE-MIDWIFE. (a) A person may not practice or offer to practice as a nurse-midwife in Alaska or use a title or initials signifying that he or she is a nurse-midwife unless authorized to do so by the board.

(b) An applicant for authorization to practice as a nurse-midwife must meet the following requirements:

(1) apply on forms provided by the board;

(2) at the time of application, provide written evidence of an established collaborative relationship with a physician or physicians appropriate to the area of practice, at least one physician who must be certified by the American Board of Obstetrics and Gynecology or eligible for certification by that board;

(3) pay a fee of $25, which must accompany the application;

(4) be currently licensed to practice as a professional nurse in Alaska;

(5) be certified by the American College of Nurse-Midwives; and

(6) within the five years before application have

(A) practiced nurse-midwifery on a continuing basis at least one year; or

(B) completed a basic nurse-midwifery program approved by the American College of Nurse Midwives.

(c) A person authorized to practice as a nurse-midwife by the board shall immediately report in writing to the board any change in conditions or terms in his or her collaborative relationship.

(d) A nurse-midwife may

(1) manage all in- and out-patient care of a low-risk obstetrical patient, which includes the prescription of necessary medical therapeutic or corrective measures, or those patients who meet criteria established by an advisory committee jointly appointed by the board and the State Medical Board; and

(2) provide family planning services.

(e) A nurse-midwife may not

(1) continue to manage a patient if abnormal conditions or complications are apparent or known to exist, except that emergency measures may be performed, if necessary, after summoning a physician but before arrival of a physician;

(2) perform deliveries except within a hospital licensed under AS 18.30.101 – 18.30.130 unless prevented from doing so by unusual or emergency circumstances.

(f) The executive officer of the board will prepare and transmit to the Alaska Board of Pharmacy a listing of all nurse-midwives. The listing will contain

(1) the name and Drug Enforcement Administration number, if issued, of each nurse-midwife;

(2) the beginning and ending dates of the nurse-midwife's authority to prescribe; and

(3) any limitations on the prescribing authority of the nurse-midwife.

(g) The executive officer of the board will notify the Alaska Board of Pharmacy within 24 hours of a termination or any other change in the prescribing authority of the nurse-midwife and the reason for the action.

(h) The authority to practice as a nurse-midwife will be denied, revoked or suspended in accordance with AS 08.68.270 and provisions of this chapter. (Eff. 6/27/76, Reg. 58; am 2/8/78, Reg. 65)

Authority: AS 08.68.100(1) and (5)
AS 08.68.111
AS 08.68.410(5)

ARTICLE 5.
GENERAL PROVISIONS

Section
330. License renewal
340. Reinstatement of a suspended license
350. Reinstatement of a revoked license
360. Change of name
370. Definitions

12 AAC 44.330. LICENSE RENEWAL. (a) All licenses shall be renewed biennially by June 30. Notice of renewal with inventory questionnaire will be mailed to every currently licensed nurse on or before May 1 of every even-numbered year.

(b) Any licenses not renewed by June 30 will be automatically canceled by July 1 or placed on the inactive list at the request of the licensee.

(c) To retain legal recognition as a nurse-midwife, a license must be renewed biennially by June 30 with

(1) a fee of $20 accompanying the renewal application;

(2) evidence of meeting any existing educational requirements for continued certification by the American College of Nurse-Midwives. (Eff. 10/14/72, Reg. 43; am 6/27/76, Reg. 58)

Authority: AS 08.68.100(1) and (5)

12 AAC 44.340. REINSTATEMENT OF A SUSPENDED LICENSE. A suspended license may be reinstated at the termination of suspension only if the requirements in the suspension order have been met. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (5)

12 AAC 44.350. REINSTATEMENT OF A REVOKED LICENSE. (a) One year after revocation of a license the licensee may apply to the board in writing for reinstatement of a license.

(b) The applicant for reinstatement may be requested to appear before the board.

(c) The board may request the applicant to work under supervision for a specified length of time in an agency approved by the board as a condition for temporary reinstatement of license.

(d) The applicant shall be responsible for providing a written evaluation from the employing agency regarding his performance and will be evaluated by the board to determine whether or not the license shall be reinstated. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1) and (5)

12 AAC 44.360. CHANGE OF NAME. The name of a licensed nurse shall be changed on the records when a request is made in writing and accompanied by one of the following:

(1) affidavit form supplied by the board;

(2) certified copy of marriage certificate; or

(3) certified copy of court ruling. (Eff. 10/14/72, Reg. 43)

Authority: AS 08.68.100(1)

12 AAC 44.370. DEFINITIONS. As used in this chapter

(1) "board" means Alaska Board of Nursing;

(2) "shall" indicates a mandatory requirement,

(3) "may" indicates permission at the discretion of the board;

(4) "school" or "program" means a division in a college or university which is responsible for preparing persons for practice of professional or practical nursing;

(5) "clinical facility" means any facility which provides laboratory experience for the education of students in a school of professional or practical nursing;

(6) "accreditation" means the approval granted a school of professional or practical nursing which has met the minimum requirements of the board;

(7) "baccalaureate program" is conducted in a senior college or university and is an academic department, division, school or college of the

senior college or university, which prepares persons for a baccalaureate degree in nursing;

(8) "associate degree program" includes general academic and nursing courses, is conducted within a community or junior college, and prepares persons for an associate degree in nursing;

(9) "collaborative relationship" is a working relationship between a nurse and a physician which utilizes their respective areas of expertise to meet the common goal of providing comprehensive care for the patient;

(10) "manage" means select and perform those measures essential to the effective execution of care and treatment regimens;

(11) "low-risk obstetrical patient" is a person who meets the following criteria:

(A) general good health;

(B) no major medical disorders, such as diabetes, heart disease, epilepsy, kidney disease, blood dyscrasia;

(C) no previous major obstetrical complications;

(D) parity under six;

(E) not presenting during the course of pregnancy symptoms of toxemis, hydramnios, placenta previa or abrupto, malposition of fetus, multiple pregnancy;

(F) vital signs remaining within normal curve;

(G) labor progressing according to normal curve;

(H) no prolonged rupture of membranes;

(I) no anesthesia, required or desired, other than pudendal or local; and

(J) acceptance of management of care by a nurse-midwife. (Eff. 10/14/72, Reg. 43; am 6/27/76, Reg. 58)

Authority: AS 08.68.100(1)
AS 08.68.410(5)

Editor's Note: All old regulations adopted by the Board of Nursing, Sections 1000 – 1090, were repealed as of 10/14/72. Check Register 3, June 1961, for the old regulations.

STATE OF ALASKA
Medical Board
(October, 1978)

Findings

The need for regulating the medical profession in the public interest is self evident. As stated in 37 ALR Annotated 676: "Careful preparation is required of one who enters the medical profession. No one has, or ought to have, the right to practise (sic) medicine who does not possess the necessary skill and learning. The physician must not only be able to detect readily the presence of disease, but also to ascertain its nature or character and to prescribe appropriate remedies for its cure. Many may have occasion to consult a physician, but few are able to determine his qualifications. Reliance in this respect must therefore be placed upon an assurance, usually in the form of a license granted by competent authority. Consideration for the protection of society has led many states to exclude from the practice of medicine those who upon an examination have been found not qualified therefor." (1924)

I. General Information

A. Regulated Parties

1. Physicians
2. Podiatrists
3. Chiropodists
5. Acupuncturists
6. Physician Assistants (pending)
7. Paramedics (pending)

B. Statutory Definition of Regulated Profession

"(2) 'practice of medicine' or 'practice of osteopathy' means

(A) maintaining an office or place of business for the purpose of treating the sick or injured for pay; or

(B) the public display of one's name and the letters 'M.D.,' 'M.B.' or 'D.O.' or the words 'physician' or 'osteopath' or 'osteopathic physician,' or 'osteopathic surgeon,' or 'osteopathic physician and surgeon,' or a specialist designation such as 'surgeon' or 'dermatologist,' 'psychiatrist,' or the like; or

(C) the assumption or promulgation of a title which tends to show that the person is willing or qualified to diagnose or treat the sick or injured; or

(D) for a fee prescribing, directing or recommending for the use of a person, a drug or medicine for the treatment, cure or relief of a disease, infirmity, bodily injury or defect; or

(E) for a fee performing a surgical operation for the cure, relief or reduction of disease, bodily injury, deformity, or defect..."

"(6) 'acupuncture' means a medical practice to cure disease or relieve pain, alter function or induce anesthesia by piercing portions of the body with needles;"

"(7) 'physician-trained mobile intensive care paramedic' means a person who

(A) has successfully completed the advanced first aid course prescribed by the board;

(B) is trained by a licensed physician

(i) to carry out all phases of cardio-pulmonary resuscitation,

(ii) to administer drugs under written or oral authorization of a licensed physician,

(iii) to administer intravenous solutions under written or oral authorization of a licensed physician; and

(C) has been examined and certified as a physician-trained mobile intensive care paramedic by the board or by the board's designated representatives;"

"(9) 'practice of podiatry' means the medical, mechanical, and surgical treatment of aliments of the foot, the muscles and tendons of the leg governing the functions of the foot, and superficial lesions of the hand other than those associated with trauma; the use of preparations, medicines, and drugs as are necessary for the treatment of these ailments; the treat-

ment of the local manifestations of systemic diseases as they appear in the hand and foot, except that

(A) a patient shall be concurrently referred to a physician or osteopath for the treatment of the systemic disease itself;

(B) general anaesthetics may be used only in colleges of podiatry approved by the State Medical Board and in hospitals approved by the joint commission on the accreditation of hospitals, or the American Osteopathic Association; and

(C) the use of X ray or radium for therapeutic purposes is not permitted." (AS 08.64.380)

C. Nature and Composition of the Board

1. Board members and terms:

Four-year term (no restrictions regarding consecutive terms or number of terms).

Hilbert J. Henrickson, M.D. (Chairman)	ends April 31, 1982
Jeffrey A. Partnow, M.D.	ends November 6, 1980
Thomas J. Harrison, M.D.	ends July 8, 1980
Thomas Stengl, M.D.	ends January 12, 1980
Winthrop Fish, M.D.	ends April 21, 1981
Janette P. Adasiak	ends August 13, 1980
Hugh Gellert	ends January 19, 1981

2. Representation:

Profession = 5
Public = 2

3. Qualifications:

The Board shall consist of "five licensed physicians, residing in as many separate Alaska judicial districts as possible, and two persons with no direct financial interest in the health care industry." (AS 08.64.010)

D. Licensing Data

Current active licenses:

in-State = 387
out-of-State = 72
total = 459
(through May, 1978)

1976	11	1	0
1977	20	2	0
1978 (through August, 1978)	6	27	2

Pending: 13

These complaints involve allegations ranging from overcharging to drug abuse and malpractice resulting in death. At least 20 were filed with the administrative agency by members of the public at large, however, most of these concerned fees charged by the practitioner. Two additional complaints were received by the Office of the Ombudsman: one regarding a delay in investigating a grievance was justified and rectified, the other for failure to refund a license application fee which also was justified and rectified.

II. Criteria and Analysis

A. To what extent has the Medical Board operated in the public interest?

The Medical Board is statutorily directed to adopt regulations regarding abortion procedures and the registration and practice of physician assistants and physician-trained mobile intensive care paramedics. Board responsibilities include governing the licensing and practice of chiropodists, podiatrists, osteopaths and acupuncturists.

Most applicants for licensure in Alaska have a current license elsewhere and are seeking endorsement privileges. Those who have not successfully completed examination are administered a national examination, the

Federation Licensing Examination (FLEX), or appropriate portions. These FLEX examinations are given twice each year in all states at the same time and in the same manner. All applicants must have an oral interview with a member of the Board at which time a temporary permit is usually issued by the member unless there is a problem regarding the individual's qualifications or application. Graduates of medical colleges not accredited by the American Medical Association (AMA) must have been examined and certified by the Education Council on Foreign Medical Graduates or be licensed in another state, U.S. territory or Canada.

Another method by which physicians may practice in Alaska is the locum tenens permit. This is issued following an interview by a Board member to a physician licensed in another jurisdiction who wishes to substitute for an Alaska physician in his absence. Locum tenens permits are valid for 120 consecutive days.

Temporary permits are issued routinely to allow apparently qualified individuals to practice pending licensure. Permits are valid for eight months or until the Board meets to consider the application, whichever occurs first, and may be renewed by the Board one time only. Documentation of Board renewal is not contained in individual files or in meeting minutes even though there is a time lapse between permit expiration date and the effective date of initial licensure.

Utilization of all methods which allow entry into the profession operates in the public interest. Board regulations and policies are consistent with the goal of protecting the public by insuring qualifications and availabilty of practitioners.

Continuing education as a condition of relicensure, and exemption provisions, are required by AS 08.64.312. Regulations have been promulgated but are not yet in effect which delineate hours and methods of

compliance. Both the American Medical Association and the Alaska State Medical Association advocate continuing education as a means of keeping physicians up-to-date on current practices and technology. This too serves in the interests of public protection and welfare.

B. To what extent has the operation of the Medical Board been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, or any other matter, including budgetary, resource and personnel matters?

Medical Board statutes are considered to be adequate in governing the profession. There are no real problems with existing regulations or Board policies in general.

A major impediment to Board operation is a lack of technical and clerical assistance partially due to a high turnover rate of personnel in the administrative agency. Three to five meetings are scheduled each year and are usually one day in length due to professional commitments of Board members. Although much is accomplished during meetings, priority items (i.e. three sets of pending regulations) consume a major portion of this time. For instance, the practice of podiatry has recently (1976) been placed under the Medical Board and although applications for licensure are pending, procedures and requirements have not yet been formulated. The requirement for submission of an annual report has not been complied with. Board members have not taken an oath of office as required by statute. Board minutes and files are lacking such documentation as Board approval for licensure and renewal of temporary permits. It is not felt that these deficiencies are so much a result of negligence as they are of lack of time and adequate administrative support. The administrative agency position which is responsible for support services to this Board is also responsible to two other professional boards with equally valid demands and priorities. Additionally, when the pending regulations go into effect, this Board will be examining, regulating and

licensing mobile intensive care paramedics and physician assistants and will be reviewing continuing education compliance and collaborative relationships between physicians and advanced nurse practitioners.

The Medical Board has experienced the same difficulties as other boards and commissions with respect to investigative services coming under the jurisdiction of the administrative agency. During the past year two investigator positions remained unfilled. As a result, one of these positions was abolished by the Legislature. One position was recently filled in Anchorage. Moreover, procedural constraints of the Administrative Adjudication Article of the Administrative Procedure Act (AS 44.62.330 - 630), while necessary, restrict timely disposition of litigation. Prioritization based on time, staffing and nature of alleged offense results in pursuit of only the most flagrant and potentially injurious licensing complaints.

It is undeniably in the public interest to enforce the laws promulgated for the protection of public health and welfare and to take expeditious action upon receipt of such potentially serious complaints as those received regarding the medical profession. The administrative agency will continue to address the need for initial assessment and follow through on complaints with emphasis on magnitude of offense as it relates to public safety.

C. To what extent has the Medical Board recommended statutory changes which are generally of benefit to the public interest?

1976 amendments to Medical Board statutes included: addition on the Board of two public members to serve staggered terms, addition of podiatrists and the practice of podiatry under Board regulation, Medical Indemnity provisions, applicability of the Administrative Procedure Act, the right of a physician to administer laetrile at the patient's request, mandatory continuing education, and general "housekeeping items."

Specific statutory recommendations of direct benefit to the public have not been made by the Board.

D. To what extent has the Medical Board encouraged interested persons to participate in and report to it concerning the making and effect of its regulations and decisions, or to report to it concerning the effectiveness, economy, and availability of service which it has provided?

The bulk of interest and participation concerning Board activities and services has come from this and related professions. The Board is sensitive to all input, however, very little general public interest has been demonstrated. Most public concern is expressed as a result of controversial issues or publicity, or by individuals with particular problems directly approaching Board members. Notices of pending meetings and new or changing regulations are published in major newspapers in the State. It can be assumed that members of the public are somewhat reluctant to involve themselves in areas of a technical or scientific nature which may be considered too complex for anything but minimal scrutinization by a layperson. A technical and professional "barrier" of sorts exists, due to the nature of the occupation involved, which probably tends to deter public knowledgeability and participation.

The Board has not taken overt action to solicit general public response to its quality and availability of service. Positive steps could be taken to solicit interest and make the public aware of the existence and functions of the Board, such as public service radio announcements. Wider dissemination of general information regarding the Board may help to mitigate public disinterest.

Public interests are furthered by existence of public members on professional boards. The State of California, which provides for a one-third public membership on health care boards and a public majority on other boards, has indicated that its experience with public members has been highly rewarding. [1]

E. How efficiently are public inquiries or complaints regarding the activities of the Medical Board processed and resolved?

No complaints were received against individual members of the Board or the Board as a whole.

Among complaints received against practitioners were charges relating to drug abuse, malpractice and negligence resulting in death. These cases are one to two years old and still pending largely due to the lengthy processes of litigation. As previously noted, this and all other boards have experienced some difficulty in timely and efficient receipt of investigative services. Also as previously noted, complaints of such a serious nature where health and life are in danger should be acted upon immediately. The administrative agency is addressing the matter of procedure and prioritization with emphasis on magnitude of offense as it relates to public welfare and safety.

---

[1] Shimberg, B. and Roederer, D., Occupational Licensing: Questions a Legislator Should Ask, The Council of State Governments, Lexington, Kentucky, March, 1978, p. 20.

F. To what extent does the Medical Board present qualified applicants to serve the public?

Applicants for licensure are not sponsored by the Medical Board. Individuals wishing to practice within the State must submit fees and application to the administrative agency with documentation of qualifications. Two examinations are given each year, for those who need examination, both in Alaska and nationwide. Applicants who demonstrate the required level of knowledge or qualifications are issued a license.

Provisions for endorsement, temporary permits, locum tenens permits and for licensure of foreign graduates function to encourage availability of health care in the State. Continuing education, licensure qualifications, and regulation of related health care providers function to enhance the quality of services to the public.

G. To what extent have State personnel practices, including affirmative action requirements, been complied with by the Medical Board in its own activities, and its area of activity or interest?

Board staff consists of the support services of a licensing examiner employed by the Division of Occupational Licensing (responsible for two other boards) who is hired through the State Personnel System, and therefore, subject to affirmative action requirements.

The Medical Board issues licenses on the basis of specific education and performance criteria. Affirmative action requirements are not applicable to licensure qualifications.

H. To what extent are statutory, regulatory, budgetary, or other changes necessary to enable the Medical Board to better serve the interests of the public?

Present Medical Board statutes are considered to be generally adequate except that AS 08.64.030 regarding substitution of members should be reviewed for validity. Pending regulations should be finalized as soon as possible. The Board and the administrative agency should comply with statutory requirements such as submission of an annual report. Appropriate steps need to be taken to formalize qualification and application procedures for podiatry applicants.

A lack of specific and adequate support services for this Board has contributed to the length of time in which action is taken on Board business such as documentation and follow through on requests. The administrative agency position assigned to the Medical Board also is responsible to two other professional boards. There has been a turnover in personnel that has not enhanced efficient Board operation.

Board and administrative expenses outweigh the revenues collected through regulation of this profession. Fees collected are not adequate to cover transportation and per diem for meetings and examinations and the Division of Occupational Licensing administrative overhead, such as staff salary, investigative services and litigation costs.

III. Conclusion

The Medical Board and State regulation of the professions under its jurisdiction function to protect the public health, safety and welfare

IV. Summary of Recommendations

The Medical Board and State regulation should be reestablished for another four-year period. The following recommendations are made:

1. The Board should take formal action as a body on approvals for licensure and for extensions of temporary permits. This information should be recorded in meeting minutes and in Board files. (See discussion on p. 8)

2. The Board should take expeditious action on regulations now pending so that the intent of its statutes and policies may be in effect. (See discussion on p. 9)

3. The problem of providing adequate support services to this Board and possible administrative and budgetary implications should be considered. (See discussion on p. 9)

4. The Board should comply with statutory provisions such as those requiring an oath of office and an annual report on its activities. (See discussion p. 9)

5. The Board should take steps to formalize its requirements for podiatry applicants. (See discussion on p. 9)

6. The Board and the administrative agency should take positive steps to inform the public of Board and profession activities. (See discussion on p. 11)

Chapter 64. Medicine.

Article
1. State Medical Board (§§ 08.64.010 — 08.64.160)

100. Power of board to adopt regulations
105. Regulation of abortion procedures
107. Regulation of physician assistants and intensive care paramedics
110. Per diem and expenses
120. [Repealed]
130. Board records
140. Annual report to governor
150. [Repealed]
160. Applicability of Administrative Procedure Act

Sec. 08.64.010. Creation and membership of State Medical Board. The governor shall appoint a board of medical examiners, to be known as the State Medical Board, consisting of five licensed physicians, residing in as many separate Alaska judicial districts as possible, and two persons with no direct financial interest in the health care industry. (§ 35-3-82 ACLA 1949; am § 1 ch 148 SLA 1970; am § 11 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment added the language beginning "and two persons" to the end of the section and deleted the former second sentence, which read "Each member shall be chosen from a panel of three, for each vacancy, submitted to the Governor by the Alaska State Medical Association."

Constitutionality of statute prescribing conditions of practicing medicine or surgery as affected by question of discrimination against particular school or method, 16 ALR 709; 37 ALR 680; 42 ALR 1342; 54 ALR 600.

Grounds for revocation of license, 54 ALR 1504; 82 ALR 1184.

What offenses involve moral turpitude within statute providing grounds for denying license, 109 ALR 1459.

What amounts to conviction within statute making conviction ground for refusing license, 113 ALR 1179.

Revocability of license for fraud or other misconduct before or at the time of its issuance, 165 ALR 1138.

70 C.J.S. Physicians and Surgeons § 1.

Sec. 08.64.020. State Medical Board term of office. Members shall be appointed for a term of four years, subject to confirmation by a majority of the members of the legislature in joint session, and shall hold office until their successors are appointed and qualified. The terms of the public members of the board shall be staggered so that they do not expire at the same time. (§ 35-3-82 ACLA 1949; am § 4 ch 107 SLA 1969; am § 12 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment added the second sentence.

Sec. 08.64.030. Substitution of members. (a) If impracticable, a member of the board residing in another judicial district is not obligated to attend meetings of the board.

(b) If a member is unavoidably prevented from attending a meeting of the board, the governor may appoint a substitute examiner to serve pro tem with the same duties and responsibilities as a regular member. (§§ 35-3-82, 35-3-84 ACLA 1949; am § 2 ch 148 SLA 1970)

Sec. 08.64.040. Removal of members. The governor may remove a member of the board for cause. (§ 35-3-84 ACLA 1949)

Sec. 08.64.050. Oath of office. Each member shall take an oath of office. The oath shall be filed and preserved in the division of occupational licensing of the department. (§ 35-3-83 ACLA 1949; am § 1 ch 77 SLA 1969; am § 1 ch 101 SLA 1974)

Effect of amendment. — The 1974 amendment substituted "division of occupational licensing" for "central licensing section."

Sec. 08.64.060. Seal. The board shall adopt a seal. (§ 35-3-83 ACLA 1949)

Sec. 08.64.070. Officers. The board shall elect a president and secretary from among its members. The president and secretary may administer oaths. (§ 35-3-83 ACLA 1949; am § 2 ch 77 SLA 1969)

Sec. 08.64.080. Meetings of board.
Repealed by § 3 ch 59 SLA 1966.

Sec. 08.64.090. Quorum. Four members of the board constitute a quorum for the transaction of all business properly before the board. (§ 35-3-83 ACLA 1949; am § 3 ch 148 SLA 1970; am § 13 ch 102 SLA 1976)

Effect of amendment. — The 1976 amendment substituted "Four members" for "Three members" at the beginning of the section.

Sec. 08.64.100. Power of board to adopt regulations. The board may prescribe and establish rules and regulations necessary to carry into effect the provisions of this chapter. (§ 35-3-95 ACLA 1949)

Sec. 08.64.105. Regulation of abortion procedures. The State Medical Board shall adopt regulations necessary to carry into effect the provisions of AS 11.15.060 and shall define ethical, unprofessional or dishonorable conduct as related to abortions, set standards of professional competency in the performance of abortions and establish procedures and set standards for facilities, equipment and care of patients in the performance of an abortion. (§ 2 ch 103 SLA 1970)

Legislative committee report. — For report on ch. 103, SLA 1970 (CSSB 527 (HWE)), see 1970 Senate Journal Supplement No. 10; 1970 House Journal Supplements Nos. 12, 13. Also refer to the following relevant reports on abortion bills: 1970 Senate Journal Supplements Nos. 1, 4 (re SB 411); 1970 House Journal Supplement No. 11 (re CSHB 776).

Sec. 08.64.107. Regulation of physician assistants and intensive care paramedics. The board shall adopt regulations regarding the registration of physician assistants and physician-trained mobile intensive care paramedics, and the medical services that each may perform, including but not limited to (1) the educational and other qualifications, (2) the application and registration procedures, (3) the scope of activities authorized, and (4) the responsibilities of the supervising or training physician. (§ 2 ch 101 SLA 1974)

Sec. 08.64.110. Per diem and expenses. The members of the board are entitled to per diem and expenses authorized by law. (§ 35-3-95 ACLA 1949)

Revisor's note. — This section was impliedly amended by § 1, ch. 130, SLA 1953, as amended by § 1, ch. 34, SLA 1960.

Sec. 08.64.120. Coverage of funds and warrants for expenses. Repealed by § 3 ch 59 SLA 1966.

Sec. 08.64.130. Board records. The board shall preserve a record of its proceedings, which shall contain the name, age, residence and duration of residence of each applicant for a license, the time spent by him in medical study, the place of medical study, and the year and school from which degrees were granted. The record shall also show whether the applicant was granted a license or rejected. (§ 35-3-84 ACLA 1949)

Sec. 08.64.140. Annual report to governor. The board shall report annually to the governor, furnishing an itemized account of all money received and disbursed, with a complete record of the proceedings of the board for the preceding year. (§ 35-3-84 ACLA 1949)

Sec. 08.64.150. Bond of secretary-treasurer. Repealed by § 28 ch 77 SLA 1969.

Editor's note. — The repealed section derived from § 35-3-84, ACLA 1949.

Sec. 08.64.160. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62)

Article 2. Licensing.

Section
170. License to practice medicine or osteopathy
180. Application for license
190. Contents of application
200. Qualifications of physician applicants
205. Qualifications for osteopath applicants
207. Qualifications for acupuncture applicants
209. Qualifications for podiatry applicants
210. Examination required

220. Contents of examination and grading
225. Foreign medical graduates
230. License granted
240. License refused
250. Licensure by endorsement
255. Interview required
260. Re-examination
270. Temporary permits
272. Residency and internship
275. Temporary permit for locum tenens practice
280. Record of license
290. Examination fee
300 — 310. [Repealed]
311. Biennial license renewal
312. Continuing education requirements
313. Inactive license
315. Fees
320. Disposition of fees
325. Limits or conditions on license; discipline
330. Grounds for revocation of license
332. Automatic suspension for mental incompetency or insanity
334. Voluntary surrender
336. Duty of physicians to report
340. Statement of grounds of refusal or revocation of license
350. Certification of revocation

Sec. 08.64.170. License to practice medicine or osteopathy. (a) No person may practice medicine, podiatry, osteopathy or acupuncture in the state unless he is licensed under this chapter, except that

(1) a physician assistant may examine, diagnose or treat persons under the supervision, control, and responsibility of either a physician licensed under this chapter or a physician exempted from licensure under § 370 of this chapter;

(2) a physician-trained mobile intensive care paramedic may render emergency lifesaving service; and

(3) a person licensed under AS 08.36 may perform acupuncture in the regular practice of dentistry, subject to the regulations of the Board of Dental Examiners.

(b) Repealed by § 4 ch 101 SLA 1974.

(c) A chiropodist practicing in the state on May 16, 1972 is exempt from this section.

(d) A podiatrist practicing in the state on March 26, 1976 is exempt from this section, and shall be issued a license without examination if application is made within one year of the effective date of this act. (§ 35-3-81 ACLA 1949; am § 4 ch 148 SLA 1970; am § 1 ch 5 SLA 1972; am § 1 ch 21 SLA 1974; am §§ 3, 4 ch 101 SLA 1974; am §§ 1, 2 ch 24 SLA 1976)

Effect of amendments. — The first 1974 amendment, in subsection (a), substituted "medicine, osteopathy or acupuncture" for "medicine or osteopathy" in the introductory language and added a sentence which has been designated by the revisor as paragraph (3).

The second 1974 amendment designated the provisions of subsection (a) as subsection (a)(1), added paragraph (2) of that subsection, and repealed subsection (b).

The 1976 amendment inserted "podiatry" in the introductory language of subsection (a) and added subsection (d).

Legislative committee report. — For report on ch. 5, SLA 1972 (SCS CSHB 34), see 1971 House Journal, pp. 250, 251.

C.J.S. references. — 53 C.J.S. Licenses §§ 32 to 39; 70 C.J.S. Physicians and Surgeons §§ 8 to 14.

Sec. 08.64.180. Application for license. A person who desires to practice medicine, osteopathy or acupuncture in the state shall apply in writing to the department for a license. (§ 35-3-85 ACLA 1949; am § 1 ch 22 SLA 1960; am § 4 ch 143 SLA 1968; am § 3 ch 77 SLA 1969; am § 2 ch 21 SLA 1974)

Effect of amendment. — The 1974 amendment substituted "medicine, osteopathy or acupuncture" for "medicine or osteopathy."

Legislative committee report. — For report on ch. 143, SLA 1968 (HB 707), see 1968 House Journal, p. 836.

Sec. 08.64.190. Contents of application. The application shall state the name, age, residence, the duration of residence, the time spent in medical or osteopathy study, the place, year and school in which degrees were granted, and other information the board considers necessary. The application shall be made under oath. (§ 35-3-85 ACLA 1949; am § 1 ch 22 SLA 1960; am § 4 ch 77 SLA 1969)

Sec. 08.64.200. Qualifications of physician applicants. Except for foreign medical graduates as specified in § 225 of this chapter, each physician applicant shall

(1) be of good moral character;

(2) submit a certificate of graduation from a legally chartered medical school accredited by the Association of American Medical Colleges and the Council on Medical Education of the American Medical Association;

(3) submit a certificate from a recognized hospital certifying that the applicant has satisfactorily performed the duties of resident physician or intern for a period of one year;

(4) not have a license to practice medicine in another state, province, or territory which is currently suspended or revoked for disciplinary reasons; and

(5) be a citizen of the United States or be lawfully admitted for permanent residence. (§ 55-3-85 ACLA 1949; am § 1 ch 22 SLA 1960; am § 1 ch 18 SLA 1963; am § 5 ch 77 SLA 1969; am §§ 5, 6 ch 148 SLA 1970; am § 1 ch 85 SLA 1972; am § 5 ch 101 SLA 1974)

Effect of amendment. — The 1974 amendment added the exception to the beginning of the section and added paragraph (5).

Legislative committee report. — For report on ch. 77, SLA 1969 (CSHB 326 [Finance] am), see 1969 House Journal, p. 738.

Sec. 08.64.205. Qualifications for osteopath applicants. Each osteopath applicant shall meet the qualifications prescribed in § 200(1), (4) and (5) of this chapter and shall

(1) submit a certificate of graduation from the legally chartered school of osteopathy approved by the board;

(2) submit a certificate from a hospital approved by the American Medical Association or the American Osteopathic Association which certifies that he has satisfactorily completed and performed the duties of intern or resident physician for one year;

(3) take the examination required by § 210 of this chapter or be certified to practice by the National Board of Examiners for Osteopathic Physicians and Surgeons. (§ 1 ch 56 SLA 1966; am § 6 ch 77 SLA 1969; am § 7 ch 148 SLA 1970; am § 6 ch 101 SLA 1974)

Effect of amendment. — The 1974 amendment inserted the reference to § 200 (5) in the introductory language, inserted "the American Medical Association or" in paragraph (2), and substituted "or be certified to practice by the National Board of Examiners for Osteopathic Physicians and Surgeons" for "no waiver of this requirement for an osteopath applicant may be given" in paragraph (3).

Sec. 08.64.207. Qualifications for acupuncture applicants. Each acupuncture applicant shall meet all of the qualifications prescribed in § 200 of this chapter and shall meet those requirements of experience or education in the practice of acupuncture as may be required by the board. (§ 3 ch 21 SLA 1974)

Sec. 08.64.209. Qualifications for podiatry applicants. (a) Each applicant who desires to practice podiatry shall meet the qualifications prescribed in § 200(1) and (4) of this chapter and shall

(1) submit a certificate of graduation from a legally chartered school of podiatry approved by the board;

(2) take the examination required by § 210 of this chapter; the State Medical Board shall call to its aid a podiatrist of known ability who is licensed to practice podiatry to assist in the examination and licensure of applicants for a license to practice podiatry,

(3) meet other qualifications of experience or education which the board may require.

(b) The provisions of §§ 180 — 190, 220, and 230 — 380 of this chapter relating to the practice of medicine or osteopathy apply to the application procedure, testing, and practice of podiatry, as appropriate. (§ 3 ch 24 SLA 1976)

Sec. 08.64.210. Examination required. (a) The applicant shall take examinations in subjects the board considers necessary, unless excused under provisions of § 250 of this chapter.

(b) The application for examination shall be submitted to the board at least 40 days before the examination date. (§ 35-3-85 ACLA 1949; am § 1 ch 22 SLA 1960; am § 7 ch 77 SLA 1969; am § 8 ch 148 SLA 1970)

Sec. 08.64.215. Insurance required. (a) To be eligible for an active license under this chapter, a person shall maintain insurance issued by the Medical Indemnity Corporation of Alaska against liability to patients for medical malpractice in limits of not less than $200,000 per occurrence and $600,000 aggregate liability per year. This requirement is satisfied if a person's employer maintains insurance for him from the Medical Indemnity Corporation of Alaska in the required amounts.

(b) The director of insurance or his designee shall waive the requirement in (a) of this section for a person if that person furnishes satisfactory evidence of his having other insurance providing coverage in amounts not less than those specified in (a) of this section. No waiver granted under this subsection may extend beyond the normal expiration date of the person's insurance policy or January 1, 1977, whichever occurs first. (§ 14 ch 102 SLA 1976)

Sec. 08.64.220. Contents of examination and grading. (a) The board shall make the examination written and oral and sufficient to test the applicant's fitness to practice medicine or osteopathy.

(b) Repealed by § 27 ch 148 SLA 1970.

(c) The examinations, answers and scores shall be preserved and filed. (§ 35-3-85 ACLA 1949; am § 1 ch 22 SLA 1960; am §§ 8, 9 ch 77 SLA 1969; am §§ 9, 27 ch 148 SLA 1970)

Sec. 08.64.225. Foreign medical graduates. Applicants who are graduates of medical colleges not accredited by the American Medical Association or one of its agencies shall meet the requirements of § 200(1), (3), (4) and (5) of this chapter and must have passed an examination and be certified by the Education Council on Foreign Medical Graduates, or be licensed by examination in another state or territory of the United States or province of Canada. (§ 10 ch 77 SLA 1969; am § 10 ch 148 SLA 1970; am § 7 ch 101 SLA 1974)

Effect of amendment. — The 1974 amendment inserted the reference to § 200 (5) near the middle of the section.

Sec. 08.64.230. License granted. (a) If the physician applicant passes the examination and meets the requirements of § 200 of this chapter, the board shall grant a license to him to practice medicine in the state.

(b) If the osteopath applicant passes the examination and meets the requirements of § 205 of this chapter, the board shall grant a license to him to practice osteopathy in the state.

(c) Each license shall be signed by the secretary and president of the board, and have the seal of the board affixed to it. (§ 35-3-85 ACLA 1949; am § 1 ch 22 SLA 1960; am § 11 ch 77 SLA 1969)

Sec. 08.64.240. License refused. If the applicant fails the examination, or is determined by the board to be morally or professionally unfit to practice medicine or osteopathy in this state, or fails to comply with any of the other requirements of this chapter, the board shall refuse to grant the license. (§ 35-3-85 ACLA 1949; am § 1 ch 22 SLA 1960; am § 12 ch 77 SLA 1969; am § 11 ch 148 SLA 1970)

Sec. 08.64.250. Licensure by endorsement. The board may waive the examination requirement and license by endorsement if the physician applicant meets the requirements of § 200 of this chapter, pays the required fee and has

(1) an active license from a board of medical examiners established under the laws of a state or territory of the United States or a province of Canada issued after thorough examination; or

(2) passed an examination given by the National Board of Medical Examiners or the Federation of State Medical Boards of the United States. (§ 35-3-85 ACLA 1949; am § 1 ch 22 SLA 1960; am § 13 ch 77 SLA 1969; am § 8 ch 69 SLA 1970; am § 12 ch 148 SLA 1970)

Revisor's note (1970). — Section 8, ch. 69, SLA 1970 and § 12, ch. 148, SLA 1970, both amended AS 08.64.250, making changes not compatible with each other. The earlier enactment (ch. 69) made a technical change to remove an ambiguity; it was superseded by the later enactment which made a substantive change that incidentally eliminated the source of the ambiguity. Since the earlier amendment never took effect it is not set out here.

Legislative committee report. — For report on ch. 69, SLA 1970 (HB 564), see 1970 House Journal Supplement No. 2, p. 7.

Sec. 08.64.255. Interview required. All applicants for a license under § 250 of this chapter shall be interviewed in person by at least one member of the board before a license will be issued. The interview shall be recorded, and, if the application is denied on the basis of the interview, the denial shall be stated in writing with the reasons for it, and the record shall be preserved. (§ 14 ch 77 SLA 1969; am § 13 ch 148 SLA 1970)

Legislative committee report. — For report on ch. 77, SLA 1969 (CSHB 326 [Finance] am), see 1969 House Journal, p. 738.

Sec. 08.64.260. Re-examination. (a) If the applicant fails the examination, he may, on the same application and payment of a re-examination fee, take another examination not less than six months nor more than two years after the date of the first examination. If the applicant fails a second examination, he may, after a year or more of further study or training approved by the board, make a new application for licensure.

(b) Applicants failing every portion of the examination shall retake the entire examination and pay the full examination fee.

(c) Applicants failing portions of part I or part II of the examination may retake the portions failed at a prorated fee prescribed in the regulations by the board.

(d) Applicants failing part III of the examination shall retake the entire part at a prorated fee prescribed in the regulations by the board. (§ 35-3-92 ACLA 1949; am § 15 ch 77 SLA 1969; am § 14 ch 148 SLA 1970)

Sec. 08.64.270. Temporary permits. (a) The board may issue a temporary permit to an applicant who meets the requirements of § 200 or 205 of this chapter and pays the required fee.

(b) A temporary permit is valid for eight months or until the board meets to consider the application, whichever occurs first.

(c) A temporary permit may be renewed at the board's discretion one time only. (§ 35-3-96 ACLA 1949; am § 16 ch 77 SLA 1969; am § 15 ch 148 SLA 1970; am §§ 2, 3 ch 85 SLA 1972; am § 8 ch 101 SLA 1974)

Effect of amendment. — The 1974 amendment deleted "nonrenewable" preceding "temporary permit" and "for licensure by endorsement or by examination" following "applicant" in subsection (a), deleted "issued to an applicant for licensure by endorsement" following "temporary permit" in subsection (b), and rewrote subsection (c).

Sec. 08.64.272. Residency and internship. For the limited purpose of doing residency or internship work, the board may issue a temporary permit to an applicant without examination if the applicant meets the requirements of § 200(1) and (2) of this chapter, pays the required fee, and has been accepted by an eligible institution in the state for the purpose of doing residency or internship work. (§ 16 ch 148 SLA 1970)

Sec. 08.64.275. Temporary permit for locum tenens practice. (a) A member of the board may grant a temporary permit to a physician or osteopath for the purpose of substituting for another physician or osteopath licensed in this state. The permit is valid for 120 consecutive days. If circumstances warrant, an extension of the permit may be granted by the board.

(b) A physician applying under (a) of this section shall pay the required fee and shall meet the requirements of § 200 of this chapter. In addition, he shall submit evidence of holding a license to practice medicine in a state or territory of the United States or in a province of Canada.

(c) An osteopath applying under (a) of this section shall pay the required fee and shall meet the requirements of § 205 of this chapter. In addition, he shall submit evidence of holding a license to practice in a state or territory of the United States or in a province of Canada.

(d) Within 10 days from the granting of the permit, the board member shall forward the fee to the department with a report of the issuance of the permit. (§ 17 ch 77 SLA 1969; am §§ 17 — 19 ch 148 SLA 1970)

Sec. 08.64.280. Record of license. (a) Before engaging in the practice of medicine or osteopathy, the licensee shall file the license or a certified copy of it with the clerk of the superior court in the judicial district in which he intends to practice medicine. The clerk shall file the certificate in his office and enter a memorandum of it in a book provided for that purpose containing the date of the license, the ground upon which it is issued, and the name and address of the licensee. The certificate and memorandum are open to public inspection.

(b) The clerk shall give the secretary of the board notice of all licenses recorded.

(c) If a licensee moves to another judicial district he shall file his license as provided in (a) of this section.

(d) Proof of failure to file the license is prima facie evidence of a violation of this chapter. (§ 35-3-91 ACLA 1949; am § 20 ch 148 SLA 1970)

Sec. 08.64.290. Examination fee. The examination fee shall be paid at the time of applying for examination. The board may refund the examination fee only if the applicant is unavoidably prevented from making the examination. (§ 35-3-86 ACLA 1949; am § 18 ch 77 SLA 1969)

Sec. 08.64.300. Fee for license by reciprocity.

Repealed by § 19 ch 77 SLA 1969.

Editor's note. — The repealed section derived from § 35-3-86, ACLA 1949.

Sec. 08.64.310. Annual license fee.

Repealed by § 20 ch 77 SLA 1969.

Editor's note. —The repealed section derived from § 35-3-87, ACLA 1949.

Sec. 08.64.311. Biennial license renewal. Licenses shall be renewed biennially. (§ 20 ch 77 SLA 1969; am § 21 ch 148 SLA 1970)

Revisor's note (1969). — In ch. 77, SLA 1969, this section was numbered AS 08.64.310.

Sec. 08.64.312. Continuing education requirements. (a) The Board shall promote a high degree of competence in the practice of medicine by requiring every physician licensed in the state to fulfill continuing education requirements.

(b) Before a license may be renewed the licensee shall submit evidence to the board that continuing education requirements prescribed by regulations adopted by the board have been met.

(c) The board may exempt a physician from the requirements of (b) of this section upon an application by him giving evidence satisfactory to the board that he is unable to comply with the requirements because of extenuating circumstances. However, no person may be exempted from more than 15 hours of continuing education in a five-year period. (§ 14 ch 102 SLA 1976)

Sec. 08.64.313. Inactive license. A licensee residing outside Alaska may renew his license as inactive. If he practices intermittently in Alaska, he may not hold an inactive license. (§ 21 ch 148 SLA 1970)

Sec. 08.64.315. Fees. The following fees are imposed under this chapter:

(1) application	$ 25
(2) license by examination	125
(3) license by endorsement or waiver of examination	100
(4) temporary permit	25
(5) locum tenens permit	25
(6) license renewal, biennial, active	100
(7) license renewal, biennial, inactive	25
(8) license by reexamination	75

(§ 21 ch 77 SLA 1969; am § 22 ch 148 SLA 1970)

Legislative committee report. — For report on ch. 77 SLA 1969 (CSHB 326 [Finance] am), see 1969 House Journal, p. 738.

Sec. 08.64.320. Disposition of fees. Fees collected by the board shall be deposited in the general fund. (§ 35-3-86 ACLA 1949)

Sec. 08.64.325. Limits or conditions on license; discipline. (a) In addition to action under § 330 of this chapter, upon a finding that by reason of demonstrated problems of competence, experience, education, or health the authority to practice under this chapter should be limited or conditioned or the practitioner disciplined, the board may reprimand, censure, place on probation, restrict practice by speciality, procedure or facility, require additional education or training, or revoke or suspend a license.

(b) The Administrative Procedure Act (AS 44.62) applies to any action taken by the board under this section. (§ 14 ch 102 SLA 1976)

Sec. 08.64.330. Grounds for revocation of license. (a) A license may be revoked for failure to pay the license renewal fee prescribed in § 315 of this chapter. If the fee is not paid within the time provided, the department shall give written notice to the licensee that he is in default. Notice may be served on him personally or by registered mail addressed to his last known residence. If he fails to pay the fee within three months after notice of default, the secretary shall revoke his license on behalf of the board and notify the licensee of the revocation by mail or by personal service of the revocation.

(b) After a hearing, a license may be suspended, limited, revoked or annulled, or the licensee may be reprimanded, censured or disciplined by the board for (1) unprofessional or dishonorable conduct as defined in § 380(3) of this chapter, (2) professional incompetence, or (3) a violation of this chapter or a regulation adopted under it. (§ 35-3-89 ACLA 1949; am § 22 ch 77 SLA 1969; am § 9 ch 101 SLA 1974)

Effect of amendment. — The 1974 amendment rewrote subsection (b).

Legislative committee report. — For report on ch. 77, SLA 1969 (CSHB 326 [Finance] am), see 1969 House Journal, p. 738.

Sec. 08.64.332. Automatic suspension for mental incompetency or insanity. Notwithstanding AS 44.62.330 — 44.62.640, if a person holding a license to practice medicine and surgery or osteopathy under this chapter is adjudged mentally incompetent or insane by any final order or adjudication by a court of competent jurisdiction or by voluntary commitment to an institution for the treatment of mental illness, his license shall be automatically suspended by the board. The suspension shall continue in effect until the licensee is found or adjudged by the court to be restored to reason or until he is determined to be restored to reason by a licensed psychiatrist approved by the board. (§ 10 ch 101 SLA 1974)

Sec. 08.64.334. Voluntary surrender. The board, at its discretion, may accept the voluntary surrender of a license. No license may be returned unless the board determines, under regulations established by it, that the licensee is competent to resume his practice. However, no license may be returned to the licensee if the voluntary surrender resulted in the dropping or suspension of civil or criminal charges against the physician. (§ 10 ch 101 SLA 1974)

Sec. 08.64.336. Duty of physicians to report. (a) A physician who professionally treats a person licensed to practice medicine and surgery or osteopathy in this state for alcoholism or drug addiction, or for mental, emotional or personality disorders, shall report it to the board if he feels that the person may constitute a danger to the health and welfare of his patients or the public if he continues in practice. The report shall state the name and address of the person and the condition found.

(b) Upon receipt of a report under (a) of this section, the board shall investigate the matter and, upon a finding of reasonable cause, may appoint a committee of three qualified physicians to examine the licensee and report their findings to the board.

(c) If the board finds that the licensee is unable to continue to practice medicine and surgery or osteopathy with reasonable safety to his patients or the public, it shall initiate action to suspend, revoke, limit or condition his license to the extent determined necessary for the protection of the public. (§ 10 ch 101 SLA 1974)

Sec. 08.64.340. Statement of grounds of refusal or revocation of license. If the board refuses to issue a license or revokes a license, it shall file a brief and concise statement of the grounds and reasons for the action in the office of the secretary of the board and in the department. The statement, together with the written decision of the board, shall remain of record in the department. (§ 35-3-89 ACLA 1949; am § 23 ch 77 SLA 1969)

Sec. 08.64.350. Certification of revocation. When a license is revoked, the fact of revocation shall be certified by the secretary of the board to the clerk of the superior court in the judicial district where the license is on file. The clerk shall endorse the fact of revocation and the date of revocation on the face of the license or a certified copy of it which is on file. The same information shall be noted in the registry book provided for in § 280 of this chapter. (§ 35-3-94 ACLA 1949; am § 24 ch 77 SLA 1969)

Article 3. Unlawful Acts.

Section

360. Penalty for practicing without a license or in violation of chapter

Sec. 08.64.360. Penalty for practicing without a license or in violation of chapter. Except for a physician assistant and a physician-trained mobile intensive care paramedic under § 170 of this chapter, a person practicing medicine or osteopathy in the state without obtaining and filing an appropriate license is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than $50 nor more than $100, or by imprisonment for not less than 10 days nor more than 90 days, or by both. Evidence that the defendant has failed to file a license with the clerk of the court is prima facie evidence that the defendant is not licensed. Each day of illegal practice is a separate offense. (§ 35-3-93 ACLA 1949; am § 25 ch 77 SLA 1969; am § 2 ch 5 SLA 1972; am § 11 ch 101 SLA 1974)

Effect of amendment. — The 1974 amendment inserted "and a physician-trained mobile intensive care paramedic" near the beginning of the first sentence.

Legislative committee report. — For report on ch. 5, SLA 1972 (SCS CSHB 34), see 1971 House Journal, pp. 250, 251.

C.J.S. references. — 53 C.J.S. Licenses §§ 44, 62 to 71; 70 C.J.S. Physicians and Surgeons §§ 24 to 30.

Article 4. Miscellaneous Provisions.

Section
365. [Repealed]
366. Liability for services rendered by a physician-trained mobile intensive care paramedic
367. Prescription or administration of laetrile by physicians
368. [Repealed]

Sec. 08.64.365. Physicians acting under emergency circumstances.

Repealed by § 46 ch 102 SLA 1976.

Editor's note. — The repealed section derived from § 1, ch. 6, SLA 1962.

Sec. 08.64.366. Liability for services rendered by a physician-trained mobile intensive care paramedic. No act or omission of a physician-trained mobile intensive care paramedic done or omitted in good faith while rendering emergency lifesaving service to a person who is in immediate danger of loss of life shall impose any liability upon the physician-trained mobile intensive care paramedic, the supervising physician, a hospital, the officers, members of the staff, nurses, or other employees of a hospital or upon a federal, state, borough, city or other local governmental unit or upon other employees of a governmental unit; however, this section does not relieve a physician or a hospital of a duty otherwise imposed by law upon the physician or hospital for the designation or training of a physician-trained mobile intensive care paramedic or for the provision or maintenance of equipment to be used

by the physician trained mobile intensive care paramedic. (§ 14 ch 101 SLA 1974)

Sec. 08.64.367. Prescription or administration of laetrile by physicians. (a) No physician may be subject to disciplinary action by the State Medical Board for prescribing or administering amygdalin (laetrile) to a patient under his care who has requested the substance unless the State Medical Board in a hearing conducted under the Administrative Procedure Act (AS 44.62) has made a formal finding that the substance is harmful.

(b) No hospital or health facility may interfere with the physician-patient relationship by restricting or forbidding the use of amygdalin (laetrile) when prescribed or administered by a physician and requested by a patient unless the substance as prescribed or administered by the physician is found to be harmful by the State Medical Board in a hearing conducted under the provisions of the Administrative Procedure Act (AS 44.62). (§§ 1, 2 ch 227 SLA 1976)

Sec. 08.64.368. Permits for isolated areas.

Repealed by § 27 ch 148 SLA 1970.

Editor's note. — The repealed section derived from § 3, ch. 93, SLA 1965.

Article 5. General Provisions.

Section

370. Persons not affected
380. Definitions

Sec. 08.64.370. Persons not affected. This chapter does not apply to

(1) officers in the regular medical service of the armed services of the United States or the United States Public Health Service while in the discharge of their official duties;

(2) a physician or osteopath, who is not a resident of this state, who is asked by a physician or osteopath licensed in this state to help in the diagnosis or treatment of a case;

(3) the practice of the religious tenets of a church;

(4) Repealed by § 13 ch 127 SLA 1974.

(5) a person while serving as a student, intern, resident physician, or fellow at a hospital, clinic, or medical facility in the state;

(6) a physician in the regular medical service of the United States Public Health Service or the armed services of the United States volunteering his services without pay or other remuneration to a hospital, clinic, medical office, or other medical facility in the state. (§ 35-3-97 ACLA 1949; am § 4 ch 93 SLA 1965; am § 26 ch 77 SLA 1969; am §§ 23, 24 ch 148 SLA 1970; am §§ 1, 2 ch 88 SLA 1972; am § 13 ch 127 SLA 1974)

Effect of amendment. — The 1974 amendment repealed paragraph (4).

Legislative committee report. — For report on ch. 127, SLA 1974 (SCSHB 817 am S), see 1974 House Journal, p. 657.

Sec. 08.64.380. Definitions. As used in this chapter

(1) "board" means the State Medical Board;

(2) "practice of medicine" or "practice of osteopathy" means

(A) maintaining an office or place of business for the purpose of treating the sick or injured for pay; or

(B) the public display of one's name and the letters "M.D.", "M.B." or "D.O." or the words "physician" or "osteopath" or "osteopathic physician", or "osteopathic surgeon", or "osteopathic physician and surgeon", or a specialist designation such as "surgeon" or "dermatologist", "psychiatrist", or the like; or

(C) the assumption or promulgation of a title which tends to show that the person is willing or qualified to diagnose or treat the sick or injured; or

(D) for a fee prescribing, directing or recommending for the use of a person, a drug or medicine for the treatment, cure or relief of a disease, infirmity, bodily injury or defect; or

(E) for a fee performing a surgical operation for the cure, relief or reduction of disease, bodily injury, deformity, or defect; or

(F) Repealed by § 1 ch 117 SLA 1971.

(3) "unprofessional or dishonorable conduct" means

(A) a violation of the provisions of AS 11.15.060 or regulations lawfully adopted by the State Medical Board concerning abortion procedures and practice;

(B) habitual overuse of alcoholic beverages or depressant, hallucinogenic or stimulant drugs, as defined in AS 17.12.150(3), or addiction to the use of narcotic drugs as defined in AS 17.10.230(13);

(C) conviction of an offense involving moral turpitude;

(D) advertising professional services to the public except for notice of opening, closing, or removing practice, and except for directories listing physicians in a community on a uniform and nondiscriminatory basis, containing only factual, truthful descriptions of physicians and their services;

(E) making untruthful or fraudulent statements in the application for examination, or deceiving or cheating during the examination for license, or procuring a license by deceit or fraud;

(F) violating the Controlled Substances Act (P.L. 91-513; 84 Stat. 1242) or any other federal law pertaining to medical practice and drugs;

(G) violating the principles of medical ethics of the American Medical Association and of the Alaska State Medical Association;

(4) Repealed by § 27 ch 148 SLA 1970.

(5) "department" means the Department of Commerce.

(6) "acupuncture" means a medical practice to cure disease or relieve pain, alter function or induce anesthesia by piercing portions of the body with needles;

(7) "physician-trained mobile intensive care paramedic" means a person who

(A) has successfully completed the advanced first aid course prescribed by the board;

(B) is trained by a licensed physician

(i) to carry out all phases of cardio-pulmonary resuscitation,

(ii) to administer drugs under written or oral authorization of a licensed physician,

(iii) to administer intravenous solutions under written or oral authorization of a licensed physician; and

(C) has been examined and certified as a physician-trained mobile intensive care paramedic by the board or by the board's designated representatives;

(8) "emergency lifesaving service" means medical assistance given to a person whose physical condition, in the opinion of a reasonably prudent person, is such that his life is endangered;

(9) "practice of podiatry" means the medical, mechanical, and surgical treatment of ailments of the foot, the muscles and tendons of the leg governing the functions of the foot, and superficial lesions of the hand other than those associated with trauma; the use of preparations, medicines, and drugs as are necessary for the treatment of these ailments; the treatment of the local manifestations of systemic diseases as they appear in the hand and foot, except that

(A) a patient shall be concurrently referred to a physician or osteopath for the treatment of the systemic disease itself;

(B) general anaesthetics may be used only in colleges of podiatry approved by the State Medical Board and in hospitals approved by the joint commission on the accreditation of hospitals, or the American Osteopathic Association; and

(C) the use of X ray or radium for therapeutic purposes is not permitted. (§§ 35-3-94, 35-3-38 ACLA 1949; am § 27 ch 77 SLA 1969; am § 3 ch 103 SLA 1970; am §§ 25 — 27 ch 148 SLA 1970; am § 9 ch 32 SLA 1971; am § 1 ch 117 SLA 1971; am § 4 ch 85 SLA 1972; am § 4 ch 21 SLA 1974; am §§ 12, 13 ch 101 SLA 1974; § 1 ch 127 SLA 1975; am § 4 ch 24 SLA 1976)

Cross reference. — As to malpractice actions, see AS 09.55.530 — 09.55.560.

Effect of amendments. — The first 1974 amendment added paragraph (6).

The second 1974 amendment added subparagraph (G) to paragraph (3) and added paragraphs (7) and (8).

The 1975 amendment added the language beginning "and except for directories listing physicians" to the end of paragraph (3) (D).

The 1976 amendment added paragraph (9).

Legislative committee report. — For report on ch. 32, SLA 1971 (HB 111 am), see 1971 House Journal, p. 138.

The statutory definition of practicing medicine or surgery is very broad and within the literal meaning of the words

would include the practice of dentistry, optometry, podiatry, chiropractic, etc. By its very breadth the definition precludes a literal interpretation inasmuch as dentists, for example, have had a separate licensing procedure as long as have those who practice medicine or surgery. 1962 Op. Att'y Gen., No. 17.

Prescription of drugs or medicine by chiropractor. — It is illegal and crimiral for a chiropractor, without additional qualifications, to prescribe drugs or medicine to sick or injured persons. 1961 Op. Att'y Gen., No. 23.

Cited in Leege v. Martin, Sup. Ct. Op. No. 131 (File No. 256), 379 P.2d 447 (1963).

12 AAC 40.010. LICENSE BY ENDORSEMENT. An applicant for license by endorsement shall submit evidence satisfactory to the board that he has passed an examination in the medical and basic science subjects. (Eff. 12/20/70, Reg. 36)

Authority: AS 08.64.250

12 AAC 40.020. LICENSE BY EXAMINATION. (a) The written examination will be the FLEX examination administered in Alaska.

(b) The oral examination required under AS 08.64.220 will be given in conjunction with the written examination.

(c) An applicant for license by examination must attain a FLEX weighted average of not less than 75 percent on his examination. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 08.64.100
AS 08.64.220

12 AAC 40.030. RE-EXAMINATION FEES. The following fees will be charged for re-examination where applicable:

(1) Part I $15
(2) Part II 20
(3) Part III 40
(4) Part I and II by individual subject 10

(Eff. 12/20/70, Reg. 36)

Authority: AS 08.64.260

12 AAC 40.040. RECOGNIZED HOSPITAL. For the purpose of AS 08.64.200(3) a recognized hospital is one which has been approved for internship or residency training by the Council on Medical Education of the American Medical Association or the Canadian Medical Association. (Eff. 12/20/70, Reg. 36)

Authority: AS 08.64.100
AS 08.64.200

12 AAC 40.050. BIOGRAPHICAL DATA REQUIRED. (a) The department will request biographical data from the Amercian Medical Association on each applicant for licensure by examination or endorsement, and no application will be considered complete until the form entitled "Biographical Data on Physicians" is on file.

(b) The department will request data from the United States Department of Justice, Bureau of Narcotics and Dangerous Drugs, on each applicant for licensure by examination or endorsement, and no application will be considered complete until the report is on file. (Eff. 8/29/73, Reg. 47)

Authority: AS 08.64.190

ABORTIONS.

Section

60. Termination of pregnancy
70. Informed consent
80. Medical procedures
90. Evaluation
100. Consultation requirements
110. Abortion procedures
120. Standards for hospitals and facilities
130. Records
140. Limitation

12 AAC 40.060. TERMINATION OF PREGNANCY. Termination of pregnancy must be requested by the pregnant woman, unless she has been adjudged mentally incompetent or is unmarried and under 18 years of age, in which case the request must be made by her parent or guardian. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 11.15.060(a)(3)
AS 08.64.105

12 AAC 40.070. INFORMED CONSENT. Unless otherwise provided in sec. 60, a written informed consent shall be obtained from the patient or from any other person whose consent is required before termination of a pregnancy. Such written informed consent shall be on the patient's chart. The patient and other persons whose consent is required shall be advised of the medical implications and the possible emotional and physical sequelae of the procedure. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 08.64.105

12. AAC 40.080. MEDICAL PROCEDURES. The patient shall be examined by a physician licensed in Alaska, and a written record of the patient's physical and emotional health shall be prepared before performing an abortion procedure as set out in sec. 110 of this chapter. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 08.64.105

12 AAC 40.090. EVALUATION. The attending physician shall make an evaluation of the patient and an estimation of the duration of gestation based upon the patient's history, examination and test results. This information shall be recorded on the patient's chart. (Eff. 12/20/70, Reg. 36)

Authority: AS 08.64.105

12 AAC 40.100. CONSULTATION REQUIREMENTS. Abortions interrupting a pregnancy up to and including the twelfth week of gestation may be performed without consultation. Abortions performed after the twelfth week of gestation shall be preceded by consultation with another physician. The consultation shall include an opinion as to the preferred method of termination of pregnancy. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 08.64.105

12 AAC 40.110. ABORTION PROCEDURES. During the second or third trimester of a pregnancy, acceptable procedures include dilatation and curettage, suction aspiration of the uterus, injection of pharmacological agents, hysterectomy and hysterotomy. The exact procedure to be used will depend upon the patient's total health, age, associated disease and pathology, and anomalies such as skeletal defects and other medical indications. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 08.64.105

12 AAC 40.120. STANDARDS FOR HOSPITALS AND FACILITIES. (a) During the second or third trimester of a pregnancy, abortions shall be performed under sterile conditions. A bed and a registered nurse shall be available for a minimum recovery period of one-half hour. A registered nurse shall be present during the procedure.

(b) During the second or third trimester of a pregnancy, blood, blood derivatives, blood substitutes or plasma expanders shall be immediately available when an abortion is performed, and an operating room appropriately staffed and equipped for major surgery in accordance with regulations adopted under AS 18.20.060 shall be immediately available. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 08.64.105

12 AAC 40.130. RECORDS. During the second or third trimester of a pregnancy, the attending physician shall record a medical history, findings of the physical examination, operative report of the abortion procedure and pathology report as part of the clinical record to be maintained by the hospital or facility. The physician and hospital or facility shall treat the patient's identity and medical record as confidential information. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 08.64.105

12 AAC 40.140. LIMITATION. A fetus which has not developed beyond 150 days after the first day of the last menstrual period may be considered non-viable for purposes of AS 11.15.060(a). In the performance of an abortion after that date, the physician shall be guided by a reasonable judgment as to whether the fetus is viable in fact. (Eff. 12/20/70, Reg. 36; am 8/29/73, Reg. 47)

Authority: AS 11.15.060(a)
AS 08.64.105

ARTICLE 3.
GENERAL PROVISIONS.

Section
150. Professional incompetence
160. Definitions

12 AAC 40.150. PROFESSIONAL INCOMPETENCE. As used in AS 08.64.330(b),

"professional incompetence" means lacking in sufficient knowledge or skills or both, in that field of practice in which the physician concerned engages, to a degree likely to endanger the health of his patients. (Eff. 8/29/73, Reg. 47)

Authority: AS 08.64.330(b)

12 AAC 40.160. DEFINITIONS. In this chapter

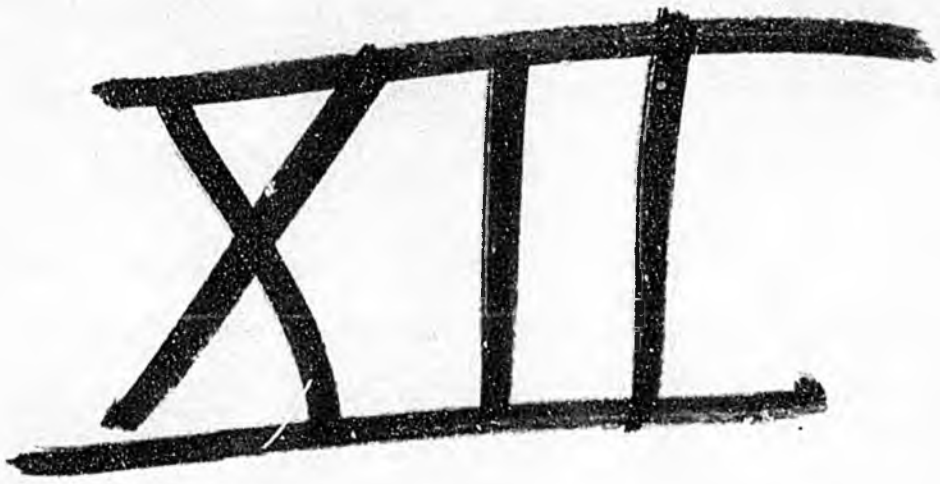
(1) "department" means Department of Commerce;

(2) "pharmacological agents" means saline, glucose, prostaglandins and pitocin;

(3) "board" means State Medical Board;

(4) "FLEX examinations" means the written examinations prepared by the Federation of State Medical Boards of the United States. (Eff. 8/29/73, Reg. 47)

Authority: AS 08.64.100



LAWS OF ALASKA

1977

Source

CSHB 1(Finance) am S

Chapter No.

149

AN ACT

Relating to the termination, continuation, or reestablishment of certain boards and commissions, and establishing a procedure for evaluation of agency programs and activities.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. The legislature finds that the substantial increase in the number of state agencies, boards and commissions, and the proliferation of rules and regulations which each has adopted have contributed to a public disenchantment with the operation of state government, and that there is need for an effective and regular system of scrutiny of the programs and activities of all agencies, boards and commissions. The legislature further finds that the establishment of a system for periodic review by the public and the executive and legislative branches of certain state agencies, boards and commissions will help the governor and the legislature to determine the need for the continued existence of each of the agencies, boards and commissions.

* Sec. 2. AS 08 is amended by adding a new chapter to read:

CHAPTER 03. TERMINATION, CONTINUATION AND REESTABLISHMENT OF REGULATORY BOARDS.

Sec. 08.03.910. TERMINATION, CONTINUATION AND REESTABLISHMENT OF REGULATORY BOARDS. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);

(2) Board of Dental Examiners (AS 08.36.010);

(3) State Medical Board (AS 08.64.010);

Chapter 149

(4) Board of Nursing (AS 08.68.010);

(5) Board of Dispensing Opticians (AS 08.71.-010);

(6) Board of Examiners in Optometry (AS 08.72.-010);

(7) Board of Pharmacy (AS 08.80.010);

(8) Board of Veterinary Examiners (AS 08.98.-010);

(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);

(10) Board of Nursing Home Administrators (AS 08.70.010);

(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.-010);

(2) Board of Barber Examiners (AS 08.12.010),

(3) Collection Agency Board (AS 08.24.011);

(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);

(5) Board of Electrical Examiners (AS 08.40.010),

(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);

(7) Guide Licensing and Control Board (AS 08.-54.010);

(8) Board of Marine Pilots (AS 08.62.010);

(9) Real Estate Commission (AS 08.88.011);

(10) Board of Welding Examiners (AS 08.99.010),

(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years.

* Sec. 3. AS 44 is amended by adding a new chapter to read

CHAPTER 66. REVIEW OF THE ACTIVITIES OF AGENCIES, BOARDS AND COMMISSIONS.

Sec. 44.66.010. TERMINATION OF STATE BOARDS AND COMMISSIONS. (a) Boards and commissions listed in this subsection expire on the date set out after each:

(1) Alcoholic Beverage Control Board (AS 04.05.010) -- June 30, 1979;

(2) Alaska Transportation Commission (AS 42.07.011) -- June 30, 1979;

(3) State Board of Parole (AS 33.15.010) -- June 30, 1980;

(4) Alaska Public Utilities Commission (AS 42.05.010) -- June 30, 1980;

(5) Alaska Pipeline Commission (AS 42.05.010) -- June 30, 1981.

(b) Upon termination, a commission listed in (a) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs.

(c) A commission scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years.

Sec. 44.66.020. AGENCY PROGRAMS. (a) Agency programs and activities listed in this subsection which are specifically designated as provided in sec. 30 of this chapter are subject to termination during the regular legislative session convening in the month and year set out after each:

(1) programs in the budget categories of general government, public protection, and administration of justice -- January, 1980;

(2) programs in the budget categories of education and the University of Alaska -- January, 1981.

(3) programs in the budget categories of health and social services -- January, 1982;

(4) programs in the budget categories of natural resources management, development and transportation -- January, 1983.

(b) An agency program or activity designated in (a) of this section shall be subject to termination during the regular legislative session convening for years

after the preceding review and may be subject to termination at any time upon the recommendation of the Legislative Budget and Audit Committee and the concurrence of the legislature as if under sec. 30 of this chapter

Sec. 44.66.030. PROGRAM IDENTIFICATION. During the legislative session preceding each of the years set out in sec. 20 of this chapter, the Legislative Budget and Audit Committee shall designate, not later than March 1 of those years, the programs and activities within each program category which shall be subject to termination in the next fiscal year. The recommendations of the Legislative Budget and Audit Committee shall be submitted to the respective houses of the legislature in the form of a bill which, if enacted into law, would terminate those designated programs and activities on or before July 1 of the following year.

Sec. 44.66.050. LEGISLATIVE OVERSIGHT. (a) Before the termination, dissolution, continuation or reestablishment of a board or commission under AS 08.03.010 or sec. 10 of this chapter, or of an agency program under secs. 20 and 30 of this chapter, a committee of reference of each house, which shall be the standing committee of legislative jurisdiction as provided in the Uniform Rules of the Legislature, shall hold one or more hearings to receive testimony from the public, the commissioner of the department having administrative responsibility for each named board, commission, or agency program, and the members of the board or commission involved. The hearings may be joint hearings. The committee shall also consider the proposed budget of the board, commision, or agency program, prepared in accordance with AS 37.07.050(f), and the performance audit of the activities of the board, commission, or agency program, prepared by the legislative audit division as prescribed in AS 24.20.271(1). The committee may consider any other report of the activities of the board, commission or program, including but not limited to annual reports, summaries prepared by the Legislative Affairs Agency, and any evaluation or general report of the manner of conduct of activities of the board, commission, or agency program prepared by the office of the ombudsman.

(b) During a public hearing, the board, commission or agency shall have the burden of demonstrating a public need for its continued existence or the continuation of the program, and the extent to which any change in the manner of exercise of its functions or activities may increase efficiency of administration or operation consistent with the public interest.

(c) A determination as to whether a board or commission or agency program has demonstrated a public need for its continued existence shall take into consideration the following factors:

(1) the extent to which the board, commission or program has operated in the public interest;

(2) the extent to which the operation of the board, commission, or agency program has been impeded or

enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters;

(3) the extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest,

(4) the extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided;

(5) the extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions;

(6) the efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved;

(7) the extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public;

(8) the extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest; and

(9) the extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

(d) As to each board, commission, or agency program assigned to it for purposes of review, the committee of reference shall, not later than the 60th day of the legislative session, submit a report to the presiding officer of the house. The report shall contain a summary of the findings of the committee as to the compliance of the board, commission or program with the factors enumerated in (c) of this section, together with a summary or recommendations of the committee as to each of the following:

(1) an identification of the problems or the needs that the programs and activities of the board, commission or agency are intended to address;

(2) a statement, to the extent practicable, of the objectives of the program of the board, commission, or agency program, and its anticipated accomplishments;

(3) an identification of any other programs

having similar, conflicting or duplicate objectives;

(4) an assessment of alternative methods of achieving the purpores of the program;

(5) an assessment of the consequences of eliminating the board, commission or program and consolidating its activities with another program, or of funding it at a lower level;

(6) a justification for the recommended continuation or extension of the board, commission or program, and an explanation of the manner in which it avoids duplication of or conflict with other efforts; and

(7) any other information which, in the opinion of the committee, would improve the performance of the board, commission or agency with respect to its representation of and responsiveness to the public interest.

(e) The committee of reference may introduce a bill providing for the reorganization or continuation of the board, commission or agency program. No more than one board, commission, or agency program shall be continued or reestablished in any legislative bill, and the board, commission, or agency program shall be mentioned in the title of the bill.

Sec. 44.66.060. EXISTING CLAIMS. This chapter shall not cause the termination or dismissal of a claim or right of a citizen against a board, commission or program of an agency terminated under this chapter which is subject to litigation. Claims and rights shall be assumed by the department to which the board or commission terminated under this chapter was attached for administrative purposes.

* Sec. 4. AS 24.20.271(1) is repealed and re-enacted to read:

(1) conduct a performance post-audit of boards and commissions designated in AS 44.66.010 and of those programs and activities of agencies subject to termination as determined in the manner set out in AS 44.66.020 - 44.66.040, and submit the audit, together with a written report, not later than the first day of the regular session of the legislature convening in each year set out with reference to boards, commissions or agency programs whose activities are subject to termination as prescribed in AS 44.66;

* Sec 5. AS 37.07.050 is amended by adding a new subsection to read:

(f) Budget requests for boards and commissions and for those agency programs for the fiscal year following termination under AS 44.66.010 - 44.66.070 shall be prepared and submitted. The recommended appropriation request shall include:

(1) an identification of the objectives

intended for the program and the problem or need which the activities and operations of the board, commission or program is intended to address;

(2) an assessment of the degree to which the original objectives of the program have been achieved expressed in terms of performance, effects, or accomplishments of the program and of the program or need which it was intended to address;

(3) a statement of the performance and accomplishments of the program in each of the last four complete fiscal years and of the costs incurred in the operation of the program;

(4) a statement of the number and types of persons affected by operation of the program;

(5) a summary statement, for each of the last three completed fiscal years, of the number of personnel employed in carrying out the program and a summary of the cost of personnel employed under contract in carrying out the program;

(6) an assessment of the effect of the program on the economy of the state;

(7) an assessment of the degree to which the overall policies of the program, as expressed in regulations adopted by the agency, board or commission and its decisions, meet the objectives of the legislature in establishing the program; and

(8) an analysis of the services and performance estimated to be achieved if the life of the agency, board or commission were to be continued.

* Sec. 6. AS 37.07.090 is amended to read:

Sec. 37.07.090. PERFORMANCE REPORTING. (a) Each state agency shall submit a performance report to the division no later than September 1 for the preceding fiscal year. These reports shall be in the form prescribed by the division after consultation with the legislative finance division, and shall include

(1) an identification of the objectives intended for the program and the problem or need which the activities and operations of the board, commission or program is intended to address;

(2) an assessment of the degree to which the original objectives of the program have been achieved expressed in terms of performance, effects, or accomplishments of the program and of the program or need which it was intended to address;

(3) a statement of the performance and accomplishments of the program in each of the last four completed fiscal years and of the costs incurred in the operation of the program;

(4) a statement of the number and types of persons affected by operation of the program,

(5) a summary statement, for each of the last three completed fiscal years, of the number of personnel employed in carrying out the program and a summary of the cost of personnel employed under contract in carrying out the program;

(6) an assessment of the effect of the program on the economy of the state;

(7) an assessment of the degree to which the overall policies of the program, as expressed in regulations adopted by the agency, board or commission and its decisions, meet the objectives of the legislature in establishing the program; and

(8) an analysis of the services and performance estimated to be achieved if the life of the agency, board or commission were to be continued.

(b) The division shall summarize the performance reports and forward copies to each member of the legislature.

Approved by the Governor June 18, 1977
Actual Effective Date: September 16, 1977

(1) the extent to which the board, commission or program has operated in the public interest;

(2) the extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource and personnel matters;

(3) the extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest;

(4) the extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided;

(5) the extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions;

(6) the efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively

assigned, or with the office of the ombudsman have been processed and resolved;

(7) the extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public;

(8) the extent to which State personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest; and

(9) the extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

STATE OF ALASKA
PUBLIC NOTICE
DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

The Department of Commerce & Economic Development hereby announces the initiation of a "sunset" review of all state health care boards.

The review is based upon "sunset" legislation enacted in 1977 in response to public dissatisfaction at the substantial increase in the number of state boards. All state health care boards will be terminated on June 30, 1979 unless definite public need and worthiness can be determined. These boards include:

Chiropractic Examiners
Dental Examiners
Medical Board
Nursing
Examiners in Optometry
Pharmacy
Psychologist and Psychological Associates
Veterinary Examiners
Physical Therapists
Dispensing Opticians
Nursing Home Administrators

The public is invited and encouraged to assist the department and participate in this review process by submitting comments, in writing, to:

Chapter 01. Centralized Licensing.

Section		Section	
10.	Applicability of chapter	80.	Department regulations
20.	Board organization	87.	Powers and duties of department
25.	Public members	90.	Applicability of the Administrative Procedure Act
30.	Quorum	100.	License renewal, lapse and reinstatement
40.	Transportation and per diem	105.	Penalty for improper payment
50.	Administrative duties of department	110.	Definitions
60.	Application for license		
70.	Administrative duties of boards		

Sec. 08.01.010. Applicability of chapter. This chapter applies to the

(1) Board of Public Accountancy;

(2) Board of Barber Examiners;

(3) Repealed by § 6 ch 32 SLA 1971.

(4) Board of Chiropractic Examiners;

(5) Board of Hairdressing and Beauty Culture Examiners;

(6) Board of Dental Examiners;

(7) Board of Electrical Examiners;

(8) State Board of Registration for Architects, Engineers and Land Surveyors;

(9) State Medical Board;

(10) Board of Nursing;

(11) Board of Examiners in Optometry;

(12) Board of Pharmacy;

(13) Real Estate Commission;

(14) Board of Veterinary Examiners;

(15) Board of Psychologist and Psychological Associate Examiners;

(16) Collection Agency Board;

(17) Board of Welding Examiners;

(18) Board of Marine Pilots;

(19) Board of Dispensing Opticians;

(20) Guide Licensing and Control Board;

(21) State Physical Therapy Board. (§ 1 ch 59 SLA 1966; am § 2 ch 136 SLA 1967; am § 2 ch 101 SLA 1968; am § 2 ch 143 SLA 1968; am § 2 ch 151 SLA 1968; am § 1 ch 106 SLA 1970; am § 6 ch 32 SLA 1971; am § 4 ch 179 SLA 1972; am § 2 ch 45 SLA 1973; am § 14 ch 65 SLA 1973; am § 1 ch 43 SLA 1975; am § 1 ch 43 SLA 1977)

Effect of amendments. — The first 1973 amendment added paragraph (19).

The second 1973 amendment inserted "and Psychological Associate" in paragraph (15).

The 1975 amendment added paragraph (20).

The 1977 amendment added paragraph (21).

Editor's note. — Section 2, ch. 59, SLA 1966, provides: "The Department of Commerce shall provide for the orderly transfer of the service functions which are to be performed by the department under this chapter."

Section 4, ch. 59, SLA 1966, provides: "A provision in existing law which conflicts with this Act is superseded by this Act."

Legislative committee reports. — For report on ch. 143, SLA 1968 (HB 707), see 1968 House Journal, p. 836. For report on ch. 32, SLA 1971 (HB 111 am), see 1971 House Journal, p. 138.

Sec. 08.01.020. Board organization. Unless otherwise provided, all board members are appointed by the governor and serve at his pleasure. Unless otherwise provided, the governor shall designate the chairman of the board, and all other officers shall be elected by the board members. (§ 1 ch 59 SLA 1966)

Sec. 08.01.025. Public members. No public member of a board may:

(1) be engaged in the occupation which the board regulates;

(2) be associated by legal contract with a member of the occupation which the board regulates except as a consumer of the services provided by a practitioner of the occupation; or

(3) have a direct financial interest in the occupation which the board regulates. (§ 1 ch 258 SLA 1976)

Sec. 08.01.030. Quorum. A majority of the membership of a board constitutes a quorum unless otherwise provided. (§ 1 ch 59 SLA 1966)

Sec. 08.01.040. Transportation and per diem. A board member is entitled to transportation expenses and per diem as set out in AS 39.20.180. (§ 1 ch 59 SLA 1966)

Sec. 08.01.050. Administrative duties of department. (a) The department shall provide the following administrative and budgetary services when appropriate:

(1) collect fees and issue receipts;

(2) maintain records and files;

(3) issue and receive application forms;

(4) notify applicants of acceptance or rejection of applicants as determined by the board;

(5) designate dates examinations are to be held and notify applicants;

(6) publish notice of examination;

(7) arrange space for holding examinations;

(8) notify applicants of results of examinations;

(9) issue licenses and certificates or temporary licenses or certificates as authorized by the board;

(10) issue duplicate licenses or certificates upon proof by the licensee of loss of the original and payment by the licensee of a fee of $2;

(11) notify licensees of renewal dates at least 30 days before the expiration date of their licenses;

(12) compile and maintain current a register of licenses;

(13) answer routine inquiries;

(14) maintain files relating to individual licensees;

(15) arrange for printing and advertising;

(16) purchase supplies;

(17) employ secretarial help when needed;

(18) perform other services which may be requested by the board;

(19) provide investigative services to the boards established under chs. 20, 32, 36, 64, 68, 71, 72, 80, 84, and 86 of this title, for the purpose of assisting those boards in matters of professional discipline.

(b) The form and content of a license, authorized by a board listed in § 10 of this chapter, including any document evidencing renewal of a license, shall be determined by the department after consultation with and consideration of the views of the board concerned. (§ 1 ch 59 SLA 1966; am § 1 ch 102 SLA 1976; am § 39 ch 218 SLA 1976; am § 2 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment added paragraph (19) of present subsection (a).

The second 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in the introductory paragraph of present subsection (a).

The third 1976 amendment designated the provisions of this section as subsection (a), and in that subsection, substituted "department" for "Department of Commerce" and "when appropriate" for "for the boards" in the introductory language and inserted "by the licensee" in two places in paragraph (10). The amendment also added subsection (b).

While none of the amendments gave effect to the others, this section is set out as it appears in ch. 258, SLA 1976, with the inclusion of paragraph (19) of subsection (a) added by ch. 102, SLA 1976.

Sec. 08.01.060. Application for license. All applications for examination or licensing to engage in the business or profession covered by this chapter shall be made in writing to the department. (§ 1 ch 59 SLA 1966)

Sec. 08.01.070. Administrative duties of boards. Each board shall perform the following duties in addition to those provided in its respective law:

(1) keep minutes and records of all proceedings;

(2) hold a minimum of one meeting each year;

(3) hold at least one examination each year;

(4) request, through the department, investigation of violations of its laws and regulations;

(5) prepare and grade examinations;

(6) pass on qualifications of applicants for examination and license;

(7) forward minutes of meetings to the department within 20 days;

(8) forward results of examinations to the department;

(9) notify the department of meeting dates at least 15 days before meeting. (§ 1 ch 59 SLA 1966)

Sec. 08.01.080. Department regulations. The department shall adopt regulations to carry out the purposes of this chapter including but not limited to describing

(1) how an examination is to be conducted;

(2) what is contained in application forms;

(3) how a person applies for an examination or license. (§ 1 ch 59 SLA 1966)

Sec. 08.01.087. Powers and duties of department. (a) The department may, upon its own motion, conduct investigations to determine whether any person has violated a provision of this chapter or a regulation adopted under it or a provision of a chapter in this title dealing with one of the boards listed in § 10 of this chapter or a regulation adopted by one of those boards, or to secure information useful in the administration of this chapter.

(b) If it appears to the commissioner that a person has engaged in or is about to engage in an act or practice in violation of a provision of this chapter or a regulation adopted under it, or any of the laws pertaining to or regulations adopted by the boards listed in § 10 of this chapter, he may, if he considers it in the public interest, and after notification to all board members by telephone or telegraph of a proposed order or action unless a majority of the members of the board object within 10 days,

(1) issue an order directing the person to stop the act or practice; however, reasonable notice of and an opportunity for a hearing must first be given to the person, except that the commissioner may issue a temporary order before a hearing is held; a temporary order remains in effect until a final order affirming, modifying, or reversing the temporary order is issued or until 15 days after the person receives the notice and has not requested a hearing by that time; a temporary order becomes final if the person to whom the notice is addressed does not request a hearing within 15 days after receiving the notice; the commissioner or his designee shall be the hearing officer at the hearing and shall issue a final order within 10 days after the hearing;

(2) bring an action in the superior court to enjoin the acts or practices and to enforce compliance with this chapter, a regulation adopted under it, or an order issued under it, or any of the laws pertaining to or regulations adopted by the boards listed in § 10 of this chapter;

(3) examine or have examined the books and records of any person whose business activities require licensure by a board listed in § 10 of this chapter and he may require that person to pay the reasonable costs of the examination; and

(4) issue subpoenas for the attendance of witnesses, and the production of books, records and other documents. (§ 3 ch 258 SLA 1976)

Sec. 08.01.090. Applicability of the Administrative Procedure Act. The Administrative Procedure Act (AS 44.62) applies to regulations adopted and proceedings held under this chapter, except those under AS 08.01.087(b). (§ 1 ch 59 SLA 1966; am § 4 ch 258 SLA 1976)

Effect of amendment. — The 1976 amendment added "except those under AS 08.01.087(b)" to the end of the section.

Sec. 08.01.100. License renewal, lapse and reinstatement. (a) All licenses shall be renewed biennially on the dates set by the department with the approval of the respective board.

(b) A registration, license, permit or certificates requiring renewal to continue effective must be renewed on or before the date set by the department or it will lapse. A penalty of $10 shall be charged in addition to all delinquent renewal fees for reinstatement of a registration, license, permit or certificate which remains lapsed for more than 60 days. (§ 1 ch 59 SLA 1966; am § 2 ch 94 SLA 1968)

Sec. 08.01.105. Penalty for improper payment. An applicant shall pay a penalty of $10 each time a negotiable instrument is presented to the department in payment of an amount due and payment is subsequently refused by the named payor. (§ 3 ch 258 SLA 1976)

Sec. 08.01.110. Definitions. In this chapter

(1) "board" includes the boards and commissions listed in § 10 of this chapter;

(2) "department" means the Department of Commerce and Economic Development;

(3) "commissioner" means the commissioner of commerce and economic development;

(4) "license" means any license, certificate, permit, or registration or similar evidence of authority issued by one of the boards listed in § 10 of this chapter;

(5) "licensee" means any person who holds a license;

(6) "occupation" means any of the trades or professions for which licensure is required by one of the boards listed in § 10 of this chapter. (§ 1 ch 59 SLA 1966; am § 40 ch 218 SLA 1976; am § 5 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (2).

The second 1976 amendment added paragraphs (3) through (6).

Chapter 02. Miscellaneous Provisions.

Section

10. Professional designation requirements
20. Limitation of liability for members of licensing boards

Sec. 08.02.010. Professional designation requirements. (a) A person licensed in the state as a chiropractor as defined in AS 08.20.220, a dentist as defined in AS 08.36.360, a medical practitioner or osteopath as defined in AS 08.64.380, a professional nurse as defined in AS 08.68.410, an optometrist as defined in AS 08.72.300(3), a registered pharmacist under AS 08.80, a registered physical therapist under AS 08.84, or a psychologist under AS 08.86, shall professionally identify

himself by the use of appropriate letters or a title after his name which represents his specific field of practice. The letters or title shall appear on all signs, stationery or other advertising in which the person offers or displays his professional services to the public. In addition, a person engaged in the practice of medicine or osteopathy under AS 08.64.380(2), or a person engaged in any manner in the healing arts who diagnoses, treats, tests, or counsels other persons in relation to human health or disease and identifies himself by using the letters "M.D." or the title "doctor" or "physician" or any other title which tends to show that the person is willing or qualified to diagnose, treat, test, or counsel another person, shall clarify the letters or title by adding the appropriate specialist designation, if any, such as "dermatologist", "radiologist", "audiologist", "naturopath", or the like.

(b) A person subject to (a) of this section who fails to comply with the requirements of (a) of this section shall be given notice of his noncompliance by his appropriate licensing board. If, after a reasonable time, with opportunity for a hearing, his noncompliance continues, the board may suspend or revoke his license or registration, or administer other disciplinary action which in its determination is appropriate. (§ 1 ch 6 SLA 1973)

Sec. 08.02.020. Limitation of liability for members of licensing boards. No person is liable for damages or other relief in an action by reason of his performance of a duty, function, or activity as a member of a licensing board or by reason of a recommendation or action of the board when the person acts in the reasonable belief that his action or recommendation is warranted by facts known to him or to the board after reasonable efforts to ascertain the facts upon which the action or recommendation is made. (§ 45 ch 102 SLA 1976)

1. The Barber Examiners Board should not be continued.
   (Y) - p. 1, par. 2.
   (B) - p. 8, par. 4.

If The Board of Barber Examiners is to be continued then the following changes/recommendations are suggested:

A. The Board should review its examination procedures and develop a valid, consistent examination and grading standard.
   (Y) - p. 5, par 1; p. 6, par 3; p. 7, par 2; p. 9, par 3; p. 12, par 5; p. 13, par 5.
   (W) - p. 2, p. 6, p. 8.
   (B) - p. 10, recommendation #2.

B. There should be an inclusion of two public members on the board without increasing its overall size. (5)
   (Y) - p. 11, par. 3; p. 13.
   (W) - p. 6, par. 1.
   (B) - p. 11, recommendation #4; p. 12, last par.

C. The five (5) year Alaska License restriction for Board members should be deleted. (08.12.020)
   (Y) - p. 9, par. 5; p. 13. par. 4.
   (B) - p. 12, par. 3 (definition of the statute in question)

D. Board Membership should be limited to two consecutive terms.
   (Y) - p. 13, par. 4.
   (W) - p. 23.
   (B) - p. 11, last par.; p. 12, par. 5 & last par.

E. Statutory authority for reciprocity should exist for obtaining a license. Presently, licensure is by examination only.
   (Y) p. 9, par. 4; p. 13, par. 4.
   (B) - p. 7, par. 4; p. 9, par. 4; p. 10, par. 1.

F. Section 08.12.270 should be repealed. (applies to a person engaged in barbering in a community having more than 1,000 persons, etc.)

(Y) - p. 9, par. 4; p. 10, par. 3; p. 13, par. 4.

G. Section 08.12.180 should be repealed. (Licensing of person barbering before 1957 without examination.)
(Y) - p. 13, par. 3. (this is now obsolete. If a person in this category does not have a license by now he never will. Formality.)

H. Change Fees - Board recommendation
Section 08.12.080. [EXAMINATION] FEES. An applicant [FOR EXAMINATION] shall submit with his application a [AN EXAMINATION] fee as follows:

(1) examination for apprentice barber registration [LICENSE]..... $25

(2) annual apprentice registration fee [EXAMINATION FOR BARBER TEACHER LICENSE].... $10 [$75]

(3) annual barber license fee.... $15

(4) annual barber teacher license fee.... $50

(5) annual barber school or college license fee.. .. $150

(6) examination for barber teacher license.... $75

GENERAL COMMENTS:

The Board of Barber Examiners should establish formal goals, objectives, and quantifiable measures which should be included in the Division of Occupational Licensing's budget document.

THE BOARD DOES NOT HAVE A STATEMENT OF GOALS AND OBJECTIVES TO DATE ACCORDING TO THE O. L. REPORT (Y). (B) - p. 14, recommendation #7.

The testimony of the Barber Examiners hearing on October 22, 1979 said very little regarding significant changes and recommendations.

(B) - (blue cover) - Division of Legislative Audit Performance Review

(W) - (white cover) - Senate Commerce Committee Public Hearing Testimony, October 23, 1979.

A. The Board of Welding Examiners should be discontinued.
(Y) - p 1; p 11, paragraph 3
(B) - p 7, paragraph 2; p 8, Recommendation 1
(W) - p 38, paragraph 4; p 39, paragraph 1

If the Board of Welding Examiners is to continue, the following changes are recommended:

1. To insure adequate representation of the regulated occupation and the general public, the sources of nomination for board membership should be accepted from the entire industry rather than only nominations by the Alaska Chapter of the American Welding Society and the Alaska Society of Professional Engineers. AS 08.99.030 should be amended as such.
(Y) - p 11, paragraph 4; p 13, paragraph 2
(B) - p 10
(W) - p 5 (written testimony by Donald Lockman, Chairman of the Board of Welding Examiners)

2. Reduce the number of board members from 7 to 5 members only. The board currently licenses only 50 persons. Amend AS 08.99.010
(Y) - p 11, paragraph 4; p 13, paragraph 2
(B) - p 11, paragraph 4

3. Add one public member to the board if total number of board members is reduced to five (add two public members if total number remains at seven)
(Y) - p 13, paragraph 2; p 14, paragraph 3
(B) - p 11, paragraph 2
(W) - p 6 (written testimony by Donald Lockman, Chairman of the Board of Welding Examiners)

4. Limit the term of board members to no more than two consecutive terms which would create a more responsive, active board.
(Y) - p 11, paragraph 4
(B) - p 11, paragraph 3
(W) - p 4 (written testimony by Donald Lockman)

5. Increase application fee from $25 to $50 and increase biennial fee from $10 to $50
(Y) - p 16, paragraphs 2 and 3

4/29

Jon / Frank / Chris,

Use this format for all sunset sectional analyses.

Desired ~~and~~ underlining. I should do that.

Where there is a comparasion between the changes in the bill and the existing statute, you may not need to give the reason for the change if it is an obvious comparison, but otherwise always give a reason for the

change or changes in each section. Inevitably this question is asked.

Do not take a sectional analysis as the last word or the best way to express a point. Often they confuse the issue in Legislative Affairs Agency.

Always attach a copy of the referenced statute (Title. Chapter. Section) in the order that they are mentioned in your own sectional analysis of a bill.

Don't forget to include and explain all ~~sections~~ that are repealed in a bill.

Follow the attached model as close as possible -- no shortcuts / Brad

CS FOR SENATE BILL 574

MR. PRESIDENT, I MOVE THE ADOPTION OF CS FOR SB 574, WHICH IS IDENTICAL, AT THIS POINT, TO THE HOUSE BILL FOR THE SAME BOARD. WE HAVE WORKED JOINTLY TO TRY TO PREVENT AN UNNECESSARY AND OFTEN TIME-CONSUMING FREE CONFERENCE COMMITTEE.

THIRD READING

I will attempt to cover the changes to current law by section as briefly as possible

(SEC. 08.54.010) P. 1, L. 12

- SECTION 1 ESTABLISHES THE GUIDE LICENSING AND CONTROL BOARD SOLELY IN THE DIV. OF FISH AND WILDLIFE PROTECTION OF THE DEPT. OF PUBLIC SAFETY. CURRENTLY, THE BOARD IS ESTABLISHED IN THE DIV. OF OCCUPATIONAL LICENSING OF THE DEPT. OF COMMERCE AND ECONOMIC DEVELOPMENT AND THIS DIVISION PLUS THE DIV. OF FISH AND WILDLIFE PROTECTION OF THE DEPT. OF PUBLIC SAFETY SHARE THE RESPONSIBILITY FOR STAFF SUPPORT. THIS SECTION ALSO ENSURES THAT THREE MEMBERS OF THE BOARD WILL BE ACTIVELY INVOLVED IN GUIDING AND THE REMAINING FOUR WILL HAVE NO INVOLVEMENT IN THE GUIDING BUSINESS. CURRENTLY, THREE MEMBERS ARE JUST REQUIRED TO HAVE A GUIDE LICENSE AND THE OTHER FOUR A GENERAL KNOWLEDGE OF GAME RESOURCES.

(SEC. 08.54.020) P. 1, L. 28

- SECTION 2 PROVIDES THAT THE MEMBERS OF THE BOARD MAY NOT BE APPOINTED FOR MORE THAN TWO CONSECUTIVE TERMS. A TERM IS FOR THREE YEARS. CURRENTLY, THERE IS NO LIMIT TO HOW MANY CONSECUTIVE TERMS A MEMBER MAY SERVE if appointed.

(SEC. 08.54.030) P. 2, L. 2

- SECTION 3 REQUIRES THAT THE BOARD MUST ELECT A CHAIRMAN AND A VICE-CHAIRMAN ANNUALLY. THE CHAIRMAN MAY NOT SERVE FOR MORE THAN TWO CONSECUTIVE TERMS. TESTIMONY INDICATED THAT SUCH ROTATION WOULD ASSURE THAT THE BOARD WOULD BE MORE RESPONSIVE TO THE PUBLIC INTEREST. CURRENTLY, THERE IS NO LIMIT TO HOW LONG A CHAIRMAN CAN SERVE.

(SEC. 08.54.070(A)) P. 2, L. 7

- SECTION 4 REQUIRES GUIDE LICENSE FEES TO BE PAID BIENNIALLY AND GENERALLY INCREASES THEM 25 TO 30 PERCENT.

(SEC. 08.54.182) P. 2, L. 13

- SECTION 5. PERSONS SEEKING REGISTERED AND MASTER GUIDE LICENSES MUST PASS AN EXAMINATION, AND THAT EXAMINATION SHALL BE HELD TWICE A YEAR AT BOTH JUNEAU AND ANCHORAGE FOR THE CONVENIENCE OF APPLICANTS. CURRENTLY, THE EXAMINATIONS ARE ADMINISTERED ONLY IN ANCHORAGE.

(SEC. 08.54.190(A)) P. 2, L. 18

- SECTION 6 ELIMINATES A LICENSURE PROVISION FOR AIR TRANSPORTERS AND IT ASSURES THAT ALL GUIDE LICENSES ARE VALID FOR AT LEAST ONE FULL YEAR. UNDER EXISTING LAW, ALL LICENSES EXPIRE ON DECEMBER 31 FOLLOWING ISSUANCE REGARDLESS OF WHEN THEY WERE ISSUED. PERSONNEL IN THE DIV. OF FISH AND WILDLIFE PROTECTION CONSIDER THE "TRANSPORTER LAWS" CONFUSING AND DIFFICULT TO ENFORCE. IN ADDITION, THE INFORMATION AND REPORTS THAT TRANSPORTERS ARE REQUIRED TO FILE ARE NOT BEING ACCOMPLISHED AND ARE NOT NEEDED TO MANAGE THE GAME RESOURCES OF THE STATE. Testimony was unanimous that the transporter license should be eliminated.

(SEC. 08.54.190(B)) P. 2, L. 23 — SECTION 7 REQUIRES THAT AN ASSISTANT GUIDE OR A CLASS-A ASSISTANT GUIDE THAT HAS NOT RENEWED HIS LICENSE FOR FOUR YEARS MAY NOT BE RENEWED UNTIL HE MEETS THE QUALIFICATIONS FOR AN INITIAL LICENSE. CURRENTLY, THE GRACE PERIOD IS FOR ONLY TWO YEARS.

(SEC. 08.54.200(A)) P. 2, L. 28 — SECTION 8. UNDER EXISTING LAW, THE BOARD IS REQUIRED TO HOLD A HEARING TO CONSIDER DISCIPLINARY ACTION IF IT RECEIVED COMPLAINTS FROM THREE OR MORE SEPARATE PARTIES TO WHICH A LICENSEE HAS PROVIDED SERVICES. NO TIME PERIOD WAS INDICATED; IT COULD BE THREE COMPLAINTS IN THIRTY YEARS, which is impractical. SECTION 8 PROVIDES A TIME PERIOD OF FIVE YEARS WITHIN WHICH THESE COMPLAINTS MUST BE RECEIVED BEFORE THE BOARD IS REQUIRED TO HOLD A DISCIPLINARY HEARING. THIS SECTION ALSO PROVIDES THAT THE BOARD IS NO LONGER OBLIGATED TO HOLD A DISCIPLINARY HEARING WHEN A LICENSEE IS MERELY CHARGED WITH A VIOLATION OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS. HOWEVER, UPON A CONVICTION, THE BOARD IS STILL REQUIRED TO HOLD A DISCIPLINARY HEARING.

(SEC. 08.54.200(C)) P. 3, L.9 — SECTION 9 PROVIDES THE BOARD THE OPTION OF REVOKING, SUSPENDING, OR DENYING RENEWAL OF A LICENSE IF THE BOARD FINDS THAT THE LICENSEE DOES NOT MEET CERTAIN REQUIREMENTS. UNDER EXISTING LAW, THE BOARD WAS REQUIRED TO REVOKE THE LICENSE UPON SUCH A FINDING. THIS SECTION ALSO PROVIDES THAT SPECIFIED DISCIPLINARY

ACTION MUST BE TAKEN BY THE BOARD ONLY WHEN A LICENSEE HAS BEEN CONVICTED OF TWO VIOLATIONS OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS WITHIN THE PAST FIVE YEARS. UNDER CURRENT LAW, TWO VIOLATIONS TRIGGER MANDATORY DISCIPLINARY ACTION REGARDLESS OF THE TIME PERIOD.

(SEC. 08.54.210(A)(1)) P. 3, L. 20 • SECTION 10 REMOVES REFERENCE TO A TRANSPORTER BECAUSE TRANSPORTERS WILL NO LONGER BE LICENSED UNDER THIS ACT. (SEE SECTION 6 AND SEC. 08.54.142 AND 144)

(SEC. 08.54.210(A)(2)) P. 3, L. 26 • SECTION 11 REMOVES REFERENCE TO A TRANSPORTER.

(SEC. 08.54.210(A)(4)) P. 4, L. 5 • SECTION 12 REMOVES REFERENCE TO A TRANSPORTER.

(SEC. 44.41.020) P. 4, L. 11 • SECTION 13 PROVIDES THAT A NEW DUTY OF THE DEPT. OF PUBLIC SAFETY SHALL BE THE SOLE RESPONSIBILITY FOR ADMINISTRATIVE STAFF SUPPORT OF THE GUIDE LICENSING AND CONTROL BOARD (SEE SECTION 1).

(SEC. 08.03.010(C)) P. 4, L. 15 • SECTION 14 PROVIDES FOR JUNE 30, 1984, AS THE TERMINATION DATE FOR THE GUIDE LICENSING AND CONTROL BOARD.

P. 4, L. 16 • SECTION 15. THIS SECTION REPEALS PROVISIONS WHICH ARE INCONSISTENT WITH THIS ACT.

AS 08.01.010(20) REMOVES THE GUIDE LICENSING AND CONTROL BOARD FROM THE LIST OF BOARDS TO WHICH CHAPTER 01 APPLIES, SINCE THIS BOARD

WILL NO LONGER BE ADMINISTERED BY THE DEPT. OF COMMERCE AND ECONOMIC DEVELOPMENT.

AS 08.03.010(B)(7) REPEALS THE SUNSET PROVISION FOR THIS BOARD;

AS 08.54.100(5) ELIMINATES THE BOARD'S DISCRETION TO ESTABLISH QUALIFIACTIONS FOR LICENSING MASTER GUIDES IN ADDITION TO THOSE ESTABLISHED BY STATUTE (IF THE BOARD WAS PERMITTED TO ESTABLISH QUALIFICATIONS IN ADDITION TO THOSE IN THE STATUTES, IT WAS THOUGHT THERE COULD POSSIBLY BE SOME CHANCE OF DISCRIMINATION);

AS 08.54.110(12) ELIMINATES THE BOARD'S DISCRETION TO ESTABLISH QUALIFICATIONS FOR LICENSING REGISTERED GUIDES IN ADDITION TO THOSE ESTABLISHED BY STATUTE (THE SAME REASON AS FOR MASTER GUIDES ALSO APPLIES HERE);

TRANSPORTER REPEALS BEGINS HERE (NEXT 5 SECTIONS)

AS 08.54.142 REPEALS THE SECTION DEALING WITH LICENSURE OF TRANSPORTERS;

AS 08.54.144 REPEALS THE RESTRICTIONS ON TRANSPORTATION OF HUNTERS BY TRANSPORTERS;

AS 08.54.146 REPEALS THE SECTION REQUIRING PREPARATION AND FILING OF TRANSPORTER REPORTS;

AS 08.54.170(c) ELIMINATES THE LICENSE FEE FOR A TRANSPORTER;

AS 08.54.240(5) REMOVES THE DEFINITION OF "TRANSPORTING" AND "ACTIVITY OF TRANSPORTING"; TRANSPORTER REPEALS END HERE.

AS 16.05.340(E) ELIMINATES FEES CHARGED TO MASTER GUIDES AND REGISTERED GUIDES FOR THE TAKING OF SPECIFIED GAME ANIMALS. (Head Tax).

P. 4, L. 19 ● SECTION 16 PROVIDES FOR THIS ACT TO TAKE EFFECT JUNE 30, 1980, THE DATE ON WHICH THE BOARD IS SCHEDULED TO TERMINATE.

March 8, 1980

TO: Senator Arliss Sturgulewski
Representative Hugh Malone

FROM: Margo W. Waring & Paul Quesnel

RE: Sunset Free Conference Committee

Our previous memorandum on this subject (Feb. 29, 1980) conveyed to you the options and recommendations of Gerald Wilkerson, Legislative Audit. In this memorandum, we would like to present a fuller discussion of the issue of revision of the sunset process.

To establish a context for decisions about sunset revisions, a restatement of the policy approach of the sunset legislation may be appropriate. The significant difference between sunset and previously existing audit and review laws (as embodied in AS 24.20, Legislative Budget and Audit and AS 37.07 Executive Budget Act) is the provision for automatic termination of programs and agencies unless positive joint legislative action is taken. The philosophic assumption informing this approach is that needless government regulation over the private lives of individuals exists that creates a costly and needless burden. Hence, only positive action would save these agencies from automatic extinction. This bias of "guilty til proved innocent" is the key distinction between traditional audit and review mechanisms and the mechanism available in the sunset process.

Alaska's experience with sunset has not been atypical: few agencies have been allowed to terminate. A great deal of time, energy, and money has gone into reviewing boards and determining both their effectiveness and the adequacy of their enabling legislation. However, apparently, few legislators have felt a deep commitment to sunset, and several standing committees have found their time overwhelmed by the demands of the sunset process.

It is within this context that our instructions were given: to review the sunset process with a goal of a revision which would focus on those agencies/boards which require review, free regular committees from the burden of so tight a schedule, yet maintain the sunset process.

While the instructions are clear, the criteria used for judging any particular option are stringent: any number of alternatives would achieve the first two criteria; very few will meet the added criterion of

maintaining a process in which agencies/boards are automatically terminated unless positive action is taken by the legislature.

Discussion of Alternatives

1. The first alternative is the one suggested by Mr. Wilkerson (memorandum of February 29, 1980) in which legislators annually target agencies for sunset. While this option preserves the appearance of the existing sunset process, it should be noted that the power to annually target agencies/boards for sunset already exists under AS 24.20.271 relating to legislative audit. Passage of legislation which would enact this option would essentially duplicate existing authorities. Nothing more would be achieved than would be achieved by the simple repeal of sunset. Additionally, since bills would need to be signed by the Governor, possible veto could endanger this approach.

2. As mentioned in the memorandum of February 29, 1980, stretching out the existing schedule would meet the three criteria we were given, with the exception of focussing on agencies "in need" of sunset review. Even so, this option merits further discussion, as its implementation could be within the function of the Free Conference Committee itself. Legislative Legal Services informs us that the original intention behind placing the health boards in one group for sunset review was to achieve certain efficiences in approach and to provide for coordination in review, so that consolidations, cross references and other inter-disciplinary approaches could be undertaken by the legislature. However, the Free Conference could elect to extend the life of the health boards by varying lengths. For example, while the Psychology Board might be extended for one year, the Board of Nursing could be extended for six or eight years, effectively staggering reviews over a longer time period. Such action would achieve all three objectives: more frequent attention on those boards "in need" of review, less work for the standing committees, and retention of the sunset process.

3. If greater attention is paid to the concept of "less work" than to the other criteria, other options suggest themselves.

a) The sunset legislation allows for joint hearings on the agencies/boards. If joint hearings were held, less total legislative time would be spent; it would be easier for board members to participate, and the whole process would be less expensive. These benefits would be increased if boards were extended for greater periods of time, as suggested in 2 above.

b) Most states, in their sunset legislation, review only licensing/regulatory boards. If the Sunset Act were amended to eliminate the program agencies, then the work load would be reduced. In support of this concept, it should be remembered that program agencies can and are routinely reviewed and audited, that the executive budget process performs similar performance reviews and that the perceived burden of government regulation on the lives of citizens comes substantially from the public interest efforts of licensing and regulatory boards. Hence, if program agencies were to be removed from the sunset list, all three criteria would be observed, without great loss, as program agencies can and are routinely reviewed under traditional mechanisms.

Either or both of the options mentioned in 3(a) and (b) can be supported by the following argument. During the first cycle of sunset reviews, a great deal has been learned regarding the conduct of the process. In 1983, when the boards would again be sunsetted, review criteria will be easier to establish, the organization and scheduling of hearings should be easier, and, perhaps most significantly, there should be less to review as most of the boards will have undergone considerable revision of their practice acts.

4. There is a fourth alternative which would also meet the criteria given to us. This option does not necessarily involve changes in the sunset process or in the scheduling of boards for review. Instead, the legislature itself could establish an alternative process for the sunset reviews. A standing Sunset Committee (perhaps a Joint Committee) would be established. Staff would be hired for this committee. In favor of this option are several efficiences of effort. Although the same time and money would be spent as now, those efforts and funds could be more efficiently used. Staff would develop an expertise in the sunset process, hearings could be held over the interim, deadlines would be more easily met, and the public could be educated regarding the public interest goals of the boards, thus encouraging greater public participation in the sunset hearings. The theoretical loss involved in this option would be the expertise of existing standing committees.

This option could be combined with those detailed in 3(a) and (b) above.

After this memorandum was written, we received a copy of the "House Commerce Committee Interim Report, Sunset in Alaska, 1979-1980." On page 32 of that document a recommendation is made to establish a permanent committee on sunset. A copy of that page is attached to this memorandum.

Summary

There are several options which meet the criteria assigned to us for use in selecting optional revisions of the sunset process. Several of the options can be combined. Of importance in the consideration of these options is whether or not you wish to pursue an aggressive sunset review program. If so, the process selected should be well established and supported. On the other hand, you may consider that the primary value of sunset has already been achieved by the first sunset cycle: revisions to practice acts have been made, board performance has been improved, management adjustments have occurred, and some boards may have been terminated. In other words, we see this juncture as a further determination of the public interest and how that may be served.

Enclosure

RECOMMENDED CRITERIA FOR SELECTING PROGRAMS SUBJECT TO SUNSET REVIEW

1. Duplication of program's objectives.
2. Duplication of efforts.
3. Degree of public exposure.
4. Dollars spent.
5. Dollar impact on consumer and/or private industry.
6. Availability/success of complaint function.
7. Results of assessment of alternative methods to achieve program's objectives.
8. Questi n of who should provide the service - State government, local government, or private sector.
9. Age of program.
10. Number of positions in program.
11. Existence of recent legislative review.
12. Indication of program deficiencies through internal or external audits.
13. Source of funding.
14. Recent change in legislation affecting the responsibilities of the program.

Administration Of Justice

Human Rights Commission - Office Of The Governor

The Commission enforces Alaska's Human Rights Law by investigating citizen complaints and by issuing remedial orders after public hearing where cases are not settled voluntarily. The Commission also initiates investigations of alleged discriminatory practices on its own motion. Seven unsalaried Commissioners, appointed by the Governor and approved by the Legislature, administer the agency. Offices are

maintained in Anchorage, Barrow, Juneau and Fairbanks. Funding for FY'79 was $883,300 (20 positions), $838,200 for FY'78, and $748,700 for FY'77. Funding is 100% General Fund.

Police Standards Council - Office Of The Governor

The Council establishes the minimum employment, educational and training standards for all Alaska police officers. Responsibilities include establishing the minimum curriculum requirements for preparatory, in-service, and advanced courses of police training. The Council consists of nine members appointed by the Governor, representing State and municipal police administrators, municipal executives and the private sector. Funding for FY'79 was $98,400 (2 positions), $96,500 for FY'78 and $89,700 for FY'77. Funding is 100% General Fund.

Criminal Justice Planning Agency - Office Of The Governor

Agency provides supportive services to all Alaskan criminal justice agencies for inter-agency coordination, planning, research and evaluation. Specifically, Agency provides staff functions for maintenance of Governor's Commission on the Administration of Justice. Statewide planning and action requirements are mandated by the Federal Omnibus Crime Control and Safe Streets Act of 1968, as amended, for State receipt of LEAA funds. Agency administers the LEAA block grant program with funds awarded to the State by the Federal government. Funding for FY'79 was $2,824,500 (20 positions), $3,454,000 for FY'78, and $3,132,800 for FY'77. Approximately 86% of Agency's funding is Federal money.

Violent Crimes Compensation Board - Department Of Public Safety

The three member Board determines and issues pecuniary awards to victims or family members of the victim of a criminal act, without which the recipient's total well-being and economic independence would not be maintained. In so doing the Board holds hearings, issues orders and decisions; has full subpoena powers; promulgates, rescinds and amends regulations; develops standards for determination of compensation. Funding for FY'79 was $339,300 (2 positions), $323,600 for FY'78, and $186,100 for FY'77. Funding source is the General Fund.

Public Protection

Office Of Consumer Protection - Department Of Law

As a section in the Civil Division of the Department of Law, Consumer Protection investigates and prosecutes violations of the State's Consumer Protection Statutes. Services offered by its offices in Anchorage, Fairbanks, Juneau and Ketchikan include consumer complaint mediation, consumer fraud alerts, consumer and business education, referrals, monitoring of advertising, investigation of possible deceptive practices, civil and criminal litigation to eliminate unfair and deceptive practices, and to recover restitution for injured consumers as well as penalties and costs for the State. Funding for FY'79 was $434,400 (12 positions), $381,800 for FY'78, and $342,700 for FY'77. Funding is 100% General Fund.

Industrial Safety - Mechanical Inspection - Department of Labor

Through its staff of professional inspectors, this Section protects the public from physical and financial injuries from the unregulated use, operation and installation of inferior, hazardous boiler and pressure vessels, electrical installations, unsafe elevators, and substandard unsanitary plumbing construction. These responsibilities are met by its licensing and inspection functions. Funding for FY'79 was $478,800 (13 positions), $393,100 for FY'78, and $426,200 for FY'77. Approximately 47% of funding is estimated to be program receipts with the remainder General Fund money.

Worker Protection - Fisherman's Fund - Department of Labor

The Fund provides benefits to licensed fishers who are injured or become ill while engaged in commercial fishing activities on shore in Alaska or in the territorial waters of the State. Benefits include all medical and transportation expenses up to $2,500 for each injury. The Fund is administered under the supervision of the Commissioner of Labor with the assistance of the Fisherman's Fund Advisory and Appeals Council (5 members) serving in an advisory and appellate capacity. Funding for FY'79 was $346,300 (2 positions), $283,600 for FY'78, and $279,900 for FY'77. Fund is supported by 60% of the money derived by the State from each crewmember fishing license issued under AS 16.05.480 and an equal amount of money derived by State from each commercial fisherman issued a permit under AS 16.43.

Weights and Measures - Department of Commerce and Economic Development

This section inspects all commercial weighing and measuring devices and public utility meters; inspects packages or amounts of commodities offered for sale; enforces standards for mobile homes as homes arrive in the State; investigates alleged violations; issues and enforces regulation to carry out the Weights and Measures Act (AS 45.75). Funding for FY'79 was $636,600 (16 positions), $592,800 for FY'78, and $870,000 (28 positions) for FY'77. FY'77 is not comparable since some functions moved to the Department of Public Safety in FY'78. Funding is 100% General Fund.

Alaska Division of Emergency Services - Department of Military Affairs

Previously known as the Alaska Disaster Office, this program develops and maintains the capability, both private and public, to protect life and property and to assist in the recovery from natural disaster or nuclear attack. In an emergency or threat of disaster, the Division provides warning and responds to aid local authorities. Division administers State and Federal funds authorized for disaster relief and recovery programs. Funding for FY'79 was $855,500 (21 positions), $836,000 for FY'78, and $2,211,700 for FY'77. Federal money provides approximately 50% of funding.

Agricultural Inspections - Department of Natural Resources

The purpose of this section is to ensure through inspection that food products purchased from commercial outlets are of wholesome quality and truthfully labeled, to minimize animal-to-man transmissible diseases and to provide marketing expertise to improve local production. Division is headquartered in Palmer with branch offices in Juneau, Fairbanks and Kodiak. Funding for FY'79 was $992,600 (20 positions), $770,200 for FY'78, and $659,600 for FY'77. Federal funding provides for approximately 35% of total funding; remainder is General Fund.

Vehicle Weight Enforcement - Department of Public Safety

This section operates weigh stations, enforces highway size, weight and load limitations, inspects commercial vehicles and issues special oversize and overweight permits. The purpose of these activities is to prevent damage to the State highway system for overloaded vehicles and to protect the motoring public from dangers of unsafe commercial vehicles. Funding for FY'79 was $895,700 (25 positions), $487,100 for FY'78 and $444,400 for FY'77 (in FY'79, the Oversize, Overweight Special Permit Program was transferred to DOPS from DOTPF). Program receipts are estimated to provide 47% of funding for FY'79; remainder is General Fund.

General Government

Policy Development and Planning - Office of the Governor

The Division assists executive and legislative branches in identifying and translating goals and objectives into policies to guide State agencies in designing programs and services that meet Alaska's needs. Funding for FY'79 was $812,500 (18 positions), $731,200 for FY'78 and $1,231,800 for FY'77. Federal funding is approximately 31% of total funding; remainder is General Fund.

Growth Policy Council - Office of the Governor

This is a group of 11 citizens appointed by the Governor that involves the public in issues and recommends policy alternatives relating to growth and development in Alaska. The Council serves as the "Board of Directors" of the Alaska Public Forum which is a systematic process of citizen participation through which the public can make know its feelings on these issues to the AGPC, the executive and legislative branches, and to private groups and citizens. Funding for FY'79 was $326,500 (3 positions), $319,300 for FY'78 and $501,600 in FY'77. Funding is all General Fund.

Public Offices Commission - Office of the Governor

The Commission administers the campaign expenditure disclosure laws; promulgates and administers the regulations for lobbying and lobbyists and the conflict of interest law. In the areas of campaign disclosure and regulation of lobbying, the Commission receives complaints, conducts investigations, and recommends prosecution or other action to the Attorney General when it believes a violation has occurred. In the conflict of interest area the Commission reviews the conflict of interest statements and refers violations to the Attorney General. Funding for FY'79 was $316,500 (8 positions), $303,600 for FY'78, and $249,900 for FY'77. Funding is all General Fund.

Risk Management - Department of Administration

This section is responsible for combining the insurable exposures of all State agencies under a single program to obtain the most advantageous cost and most effective coverage. In addition to the placement of adequate insurance coverage at fair market cost with reliable underwriters, the section educates State agencies in proper loss control techniques to reduce losses and subsequently premiums. Funding for FY'79 was $173,600 (4 positions), $157,000 for

FY'78, and $5,705,500 for FY'77. The large decrease in funding after FY'77 is due to not funding possible liabilities. Thus if the State incurs a large liability, the program would probably need a special appropriation. Funding is General Fund.

Blue Book - Department of Education

The Alaskan Blue Book is the official directory of the State of Alaska. It is compiled, published and distributed biennially, and in the past, is updated in the interim. However, there was no FY'78 interim update. The book is distributed free of charge to all State, municipal and Federal agencies in the State and to all Alaskan schools, libraries, and members of the Legislature. Copies are sold to the general public for $5. Funding for FY'79 was $36,000 (1 position) and $27,000 for FY'77 (3,000 books were printed in FY'77). Funding is General Fund.

STATE of ALASKA

MEMORANDUM

TO: All Occupational Licensing Boards

DATE: November 2, 1977

THRU: Sharon Andrew, Director
Division of Occupational Licensing

FILE NO.

TELEPHONE NO.

FROM: Avrum M. Gross
Attorney General

SUBJECT: Boards' Role in Investigation and Adjudication

By:
Bruce M. Botelho
Assistant Attorney General

Because of the limited resources of the Department of Law, it is impossible that attorneys attend all meetings of the State's 23 occupational licensing boards. In our absence this memorandum is designed to lend the boards some guidance in fulfilling their responsibilities with respect to complaints against practitioners.

INTRODUCTION

Generally speaking, state governments have assumed responsibility for licensure of occupations and professions in order to assure the public that practitioners are both competent and scrupulous. In Alaska, policing of the occupations has been divided between the Division of Occupational Licensing and the occupational licensing boards.

The Division of Occupational Licensing assumes day-to-day responsibility for processing of applications, fees and inquiries regarding the various professions. Furthermore, the division, through its enforcement section, investigates complaints against persons in violation of the occupational licensing statutes (found in Title 8 of the Alaska Statutes). Finally, the division, through the Commissioner of the Department of Commerce and Economic Development, has authority to seek enforcement of the licensing statutes either through cease and desist orders or court injunctions pursuant to AS 08.01.087.

The occupational licensing boards generally are responsible for reviewing the applications of all persons wishing to enter a profession in Alaska, to adopt regulations regarding the

standards of practice within the professions, and to hear cases presented to the boards by the Division of Occupational Licensing.

The Department of Law serves as counsel for both the Division of Occupational Licensing and for the licensing boards. The department specifically provides advice to the division and to the boards regarding their statutory authority and functions, helps draft and review proposed legislation and regulations and represents the division and boards in administrative proceedings and in court.

COMPLAINTS

Complaints about violations of the occupational licensing statutes usually come to a board's attention in two ways: (1) the division brings a complaint to the board for preliminary review; or (2) a member of the board has been contacted by some third party or has independently observed a violation of the law.

The immediate issue arises: how involved should the board become with the complaint? It is our position that the boards should refrain from becoming actively involved in investigations. Instead, investigations should be conducted by division staff. Thus, complaints received by an individual board member should be referred to the division. This does not preclude the division from approaching a board to inform it of the number and nature of outstanding complaints or investigations or from seeking guidance from a board as to whether particular conduct could constitute a violation of the licensing statute.

The reason for this limitation of board investigatory functions is the risk of undue bias that could violate a respondent's right to a fair and impartial hearing. The most recent U.S. Supreme Court decision in this regard is Withrow v. Larkin, 421 U.S. 35, 43 L.Ed.2d 712, 95 Sup. Ct. 1456 (1976), in which the Court was asked to uphold a decision of a three-judge U.S. District Court that enjoined a state medical board from temporarily suspending a license because the board had itself investigated the complaint and then separately held a revocation hearing based on the complaint! The Supreme Court reversed the District Court decision, holding that the processes utilized by the board did not in themselves contain an unacceptable risk of bias. However, the Court went to some length to emphasize two points:

1. That the board in question had utilized certain procedural safeguards (e.g., the doctor and his attorney were permitted to be present throughout the investigative proceeding), thus eliminating certain due process questions;

2. That there are risks of bias in administrative proceedings of this nature.

The Court concluded: "the mere exposure to evidence presented in non-adversary investigative procedures is insufficient in itself to impune the fairness of the board members at a later adversary hearing."

The Alaska Supreme Court has reached a similar result in interpreting Alaska's constitutional due process provisions. In In Re Cornelius, 527 P.2d 76 (Alaska 1974), the Alaska Supreme Court was asked to review a recommendation of the Board of Governors calling for the discipline of a member of the bar. The Alaska court summarily held that the combination of the investigative and judicial functions within an agency did not violate due process. It is noteworthy, however, that the trial committee of the board and the Board of Governors, which made the recommendation, are two separate entities within the State Bar Association. Different persons within the agency performed the separate investigative and judicial functions.

Thus, I believe that boards may become involved in investigations to the extent I have outlined above without fear of later court reversal. On the other hand, to allow a greater role except on a case-by-case basis (reviewed by a staff attorney) increases the risk of adverse court reaction to the board conduct in question.

AS 08.01.087 AUTHORITY

Once the division has investigated a complaint (whether it involves a practitioner in violation of the licensing statute or a person who is required to be licensed but is not), and it determines that a violation appears to have occurred or is about to occur, the division, on behalf of the Commissioner of the Department of Commerce and Economic Development, may seek (1) a cease and desist order stopping the person from committing a violation of the Act; (2) an injunction in superior court; (3) examination of license records; or (4) subpoena power to conduct further investigations.

In order to do any of these, however, the division must first contact the board involved by telephone or telegraph. The proposed action may take place if a majority of the board do not object within 10 days. As a practical matter the division will poll the board at the time of notification to determine whether a majority object to the proposed action.

The statute does not grant authority to the boards to issue cease and desist orders or injunctions. Nor can they direct the division to seek such relief. At most, they can recommend that the division review a complaint for possible action.

LICENSE DENIALS, SUSPENSIONS, AND REVOCATIONS

Statement of Issues

When a board, after reviewing an application for licensure, has determined that licensure should be denied, then the board issues a "Statement of Issues."

The statement of issues will generally be issued by the board without the assistance of the Department of Law. However, the board should set forth clearly and completely in the statement of issues all the reasons that the license is being denied. The board must set forth clearly and completely in its minutes and records the bases for its action. The Department of Law presents the state's case at hearing before the board.

Accusation

An accusation begins the process of determining whether a license that is currently valid should be suspended or revoked. In all cases, the accusation is filed by the division -- not by the board. The Department of Law drafts the accusation and presents the case to the board at hearing on behalf of the division.

The Hearing

Once either a statement of issues or an accusation has been filed, the person complained against (called "the Respondent") has 15 days to file a notice of defense and request a hearing. If the Respondent does not make such a filing, then at the board's next meeting the division will put on its evidence and the board will issue an order based on the evidence.

Normally, however, the Respondent requests a hearing. In that case, the hearing must be presided over by a hearing officer, either sitting alone or with the board members. The hearing officer is normally responsible for setting the time and place of hearing as well as the setting of any prehearing conferences. The board must make a determination, either before or after a notice of defense is filed, whether it wishes to delegate the hearing function to a hearing officer alone or whether it wishes to hear the case with the hearing officer. Some of the considerations in making such a decision are: the time involved (some cases have lasted several weeks), the location of the hearing and the complexity of the case. If a board chooses to hear the case, a majority of the board must hear it -- that means, hear all the evidence and testimony. A board member who believes he/she cannot render an impartial decision should disqualify himself/herself.

Paramount to all administrative proceedings is that the Respondent be accorded "due process." What lawyers usually refer to when they speak of "due process" is the right to a fair and impartial hearing. Though by no means exhaustive, the following are the most important elements of due process. Each board member who sits in a hearing has an obligation to protect these rights:

1. There must be adequate and timely notice of hearing and of every material step in the proceeding.

2. The purpose of the hearing and the issues involved must be stated clearly and simply in the notice and, where it is possible, the notice should contain a statement of the statute, rule or regulation involved and also the factual basis of the hearing or the charge involved.

3. The hearing must be before an impartial adjudicator.

4. There must be a full opportunity to be heard.

5. All parties must have the right to be represented by counsel or other representatives of their own choosing.

6. All parties have the right to bring witnesses to the hearing.

7. All parties are entitled to hear the whole testimony and the evidence produced against them and to know the claims or charges made against them; to confront and be

confronted by all parties and witnesses on the other side. There are exceptions of necessity, as discussed herein later.

8. All parties have the right to offer evidence and witnesses in their behalf and to rebut or explain testimony or evidence against them.

9. All parties have the right to cross-examine other parties and witnesses and to offer argument or explanation in support of their positions or contentions.

10. All parties have the right to have the power of subpoena exercised in their behalf, to bring in persons and records, according to the statutes, rules or regulations and court decisions governing subpoenas.

11. There must be substantial evidence, adequate to support pertinent and necessary findings of fact.

12. There must be a written decision setting forth findings of fact, conclusions of law or opinion, giving the reasons for the decision.

13. The conclusions or opinion in the decision must be governed by and based upon all the evidence adduced at the hearing. There must also be substantial evidence to support them.

14. The decision must be promptly served on all parties and their representatives.

15. If there is a right of administrative appeal from the decision, the notice of that right should be given with the decision.

16. Judicial review of the decision of the hearing officer or of a higher administrative tribunal must be afforded.

If a proposed decision is reached by a hearing officer sitting alone, then the board may:

(1) allow the proposed decision to become final;

(2) order reconsideration within 30 days, allowing

for additional evidence and argument;

(3) adopt the proposed decision, but reduce the proposed penalty; or

(4) decline to adopt the proposed decision and decide the case on the record (with or without taking additional evidence.

GENERAL REMARKS

Despite its limited resources, the Department of Law is committed to delivering quality service to each of its boards. The boards can assist the department towards this end in the following ways:

1. By limiting their opinion requests to issues vital to the exercise of their current functions. The requests should be through the Director of the Division of Occupational Licensing. It is important to note that each opinion request takes time away from the board attorney to prosecute revocation proceedings.

2. By refraining from contacting department attorneys for advice on particular cases or investigations outside of board members. When necessary, such contact should be initiated through the board chairperson.

I have attached copies of the instructions regarding occupational licensing matters which are contained in the Department of Law Manual in order to acquaint board members with our procedures.

INSTRUCTIONS FOR ADMINISTRATIVE PROCEEDINGS

All administrative adjudications under the Administrative Procedure Act, AS 44.62.010 et seq., (APA) are initiated through an accusation or a statement of issues. The APA does not apply to all administrative proceedings; AS 44.62.330 sets forth some of the agencies to which the APA applies. That section, as well as the specific agency statutes and regulations should be consulted to determine if the APA applies to a particular proceeding.

Accusation

An accusation begins the process of determining whether a right, authority, license or privilege should be revoked, suspended, limited, or conditioned. AS 44.62.360. A form of notice of defense must be served with the accusation. AS 44.62.380. If the respondent files a notice of defense within 15 days after service, he/she is entitled to a hearing on the merits. The accusation may be amended or supplemented at any time before the matter is submitted for decision pursuant to AS 44.62.400, and may be further amended after submission pursuant to AS 44.62.490.

The accompanying form of accusation follows the format of a complaint. Paragraph one sets forth briefly the nature of the proceeding, specifying the statutes relied on, the respondent and the relief sought. Paragraphs two and three set forth the operative facts. Paragraph four sets forth the statute violated. Paragraph five sets forth the consequences of the violation. In more complicated and lengthier accusations, refer to the form complaint and

instructions in these forms.

Statement of Issues

A statement of issues is used when an agency has denied a right, authority, license or privilege in the first instance or has refused to renew such right, authority, license or privilege. The statement of issues should take the same form as an accusation. A form notice of defense must be served with the statement of issues. AS 44.62.380. AS 44.62.370 implies that either the State or another party (possibly the respondent) may prepare a statement of issues. The Department of Law takes the position that, since it is the agency that denied the right, authority, license or privilege, it should prepare the statement.

The statement of issues will generally be issued by the agency without the assistance of the Department of Law. However, the client agency should be advised to set forth clearly and completely in the statement of issues all the reasons that the license, right, authority or privilege is being denied. The client agency should be further advised that it must set forth clearly and completely in its minutes and records the bases for its action.

The Department of Law will generally become involved if the agency action is contested. The attorney should first thoroughly review the statement of issues and the agency minutes and records to determine if an amended statement of issues should be prepared. Although the APA is not clear, the Department of Law takes the position that a statement of issues may be amended in the same manner as an

accusation pursuant to AS 44.62.400 and 490.

Once an administrative proceeding has been initiated by an accusation or statement of issues, the State attorney representing an agency should be particularly circumspect regarding his/her contacts with agency personnel who could hear the matter on appeal. Although the Alaska Supreme Court has ruled that counsel for an agency may advise the ultimate judges regarding procedural matters related to the case, the line of demarcation between compliance with due process and its violation is unclear.

The administrative hearing is presided over by a hearing officer, either sitting alone or with agency representatives. AS 44.62.450. The hearing officer is normally responsible for setting the time and place of hearing as well as the setting of any prehearing conferences.

AS 44.62.460 outlines the rules of evidence, which are generally much less strict than those applicable to court proceedings. However, since both parties are normally represented by attorneys and the hearing officer is also an attorney, the parties by stipulation may choose to use the civil rules.

Contempt Proceedings (Order to Show Cause)

If a party refuses to be sworn or examined or disrupts the administrative proceeding, the agency can seek a contempt order pursuant to AS 44.62.590. The papers should include a petition to the court, a certification by the agency (usually the hearing officer) of the facts necessitating court action and a form of order.

The law is uncertain regarding the procedure to be followed when a respondent challenges agency action.

AS 44.62.560(e) provides that the superior court may enjoin agency action in excess of constitutional or statutory authority at any stage of an agency proceeding. Appellate Rule 45 provides for appeals to superior court from district court and from administrative agencies.

District Court Civil Rule 31 provides for petition for review of any order or decision of a "magistrate court" or an administrative agency. The Department of Law takes the position that the rules supersede the statute. See, State v. Keep, 397 P.2d 973 (Alaska 1965).

Because such proceedings are often wasteful and result in undue delay of the administrative proceeding, attorneys should avail themselves of the doctrine of administrative primary jurisdiction. See, G & A Contractors, Inc. v. Alaska Greenhouses, Inc., 517 P.2d 1379 (Alaska 1974); and Alaska Public Utilities Commission v. Greater Anchorage Area Borough, 534 P.2d 549 (Alaska 1975). See also, Abbott Laboratories v. Gardener, 387 U.S. 136 (1967).

Re: Notice of Denial of the Application
of [insert name of applicant] for
[identify license applied for]

You are hereby notified that on [insert date] the [insert name of agency] considered your application for [identify license applied for]. For the reasons set forth in the enclosed Statement of Issues, your application for [identify license applied for] was denied.

Notice of Defense and Request for Hearing.

The enclosed Statement of Issues was prepared pursuant to AS 44.62.370 and sets forth the findings of [insert name of agency]. This letter constitutes notice as required by AS 44.62.380 that you may request a hearing on the findings set forth in the Statement of Issues and the denial of your application for [identify license applied for].

Unless a written request for a hearing signed by you or on your behalf is delivered or mailed to [insert name of agency] within 15 days after receipt of the enclosed Statement of Issues, the denial of your application for [identify license applied for] is final and not reviewable by any court of law. The request for a hearing may be made by delivering or mailing the enclosed Notice of Defense form to [insert name of agency] in the enclosed envelope, postage prepaid. Mailing of the Notice of Defense signed by you or on your behalf and returned to [insert name of agency] within 15 days in the enclosed addressed envelope, postage prepaid, acknowledges receipt of the enclosed Statement of Issues and constitutes a notice of defense pursuant to AS 44.62.390.

Sincerely,

Sharon Andrew, Director
Division of Occupational
Licensing
Department of Commerce and
Economic Development

ACCUSATION

Petitioner Sharon Andrew, Director of the Division of Occupational Licensing, Department of Commerce and Economic Development, State of Alaska, alleges:

1. This is a proceeding pursuant to [cite the statutory or regulatory basis for the proceeding, e.g., AS 08.36.070(5) and (7) and AS 44.62.330 et seq.] to [describe proposed action, e.g., revoke the license of the respondent to practice dentistry in the State of Alaska].

2. On or about [insert date] respondent was licensed to practice dentistry in the State of Alaska.

3. On or about [insert date] respondent [state grounds of revocation, e.g., was convicted of the crime of embezzlement. It is advisable in such cases to attach a certified copy of the judgment of conviction].

4. The crime of embezzlement is a crime involving moral turpitude for purposes of AS 08.36.310(2).

5. Pursuant to AS 08.36.310(2), respondent's license may be revoked for the reason that he has been convicted of a crime involving moral turpitude.

WHEREFORE, petitioner seeks:

1. To revoke respondent's license to practice dentistry in the State of Alaska.

2. To make such other findings and disposition of this proceeding as are just.

DECISON

The Alaska Board of Dental Examiners, after hearing evidence in this proceeding submitted by petitioner and by respondent at a hearing held on [insert date(s)], enters the following decision:

FINDINGS OF FACT

1. Respondent was licensed to practice dentistry in the State of Alaska on or about [insert date].

2. Respondent was convicted of the crime of embezzlement on or about [insert date].

3. [Here insert the reason why the findings support the agency action taken--i.e., revocation, rather than suspension or reprimand].

DETERMINATION OF ISSUES

4. The crime of embezzlement is a crime involving moral turpitude for purposes of AS 08.36.310(2).

PENALTY

5. Respondent's license to practice dentistry in the State of Alaska is hereby revoked.

STATE OF ALASKA
THE LEGISLATURE

LEGISLATIVE AFFAIRS AGENCY

POUCH Y · STATE CAPITOL
JUNEAU, ALASKA 99811
907-465-3800

M E M O R A N D U M

March 17, 1980

SUBJECT: Legislative oversight procedures

TO: Max DuBois, A.A.
House State Affairs Committee

FROM: David T. Walker
Co-Revisor of Statutes

The purpose of this memorandum is to identify procedural changes which would operate to modify the role of the standing committees in the sunset process. I would also like to take the opportunity to identify several areas within the existing statutory framework which would benfit from clarifying amendments.

I. Alternatives for Discussion

(1) Restrict oversight procedures to Title 8 boards and commissions;

NO (2) Create a permanent committee of the legislature charged with oversight responsibilities; this could function in the same manner as the Administrative Regulations Review Committee (this is the approach recommended by the House Commerce Committee in its interim report, Sunset in Alaska 1979-80 page 32);

(3) Eliminate the automatic termination features of the statutes and allow the Legislative Budget and Audit Committee to "target" all boards and commissions using the same procedures which now apply only to agency programs under AS 44.66.020 - 030. Oversight would then be restricted to those areas selected for review by the legislature.

II. Clarifying and Perfecting Amendments

(1) AS 44.66.010(a) uses the word "expire" when it should use "are terminated";

(2) The statute should address what the legislature wishes to happen when it does not comply with the AS 44.66.050(d) procedures or deadlines;

(3) Does the legislature intend for the boards, etc. identified in AS 44.66.010 to be effected by the one year wind-down period in the same way as the Title 8 boards? If so, I would recommend that the second sentence of AS 08.-03.020(a) be added to AS 44.66.010(b). Should the word "otherwise" be deleted from that sentence?

(4) If the legislature intends that the standing committees meet and conduct the oversight process during the interim, I would recommend that it express that in the oversight statutes.

DWT:ljb

4.

a. Are you satisfied w the support your Board gets from or & dept of Ins.

b. Are you satisfied w the amt. of $ your Board gets to do its business:
   1. # meetings
   2. ability to travel to different parts of state for public accessibility
   3. ability to participate in natl workshops & conventions
   4. for advertising meetings to solicit public input
      a. papers
      b. radio/TV PSA's
      c. notification to associations & public organizations which might have interest
      d.

c. Are you satisfied with the way your Bd gets & spend its money?
   a. does it decide how/where/# days given x amt of $ per fiscal year
   b. does it decide when/where meetings held
   c. may your Board travel out of state on state funds
      1. would you like it to have that flexibility?
      2.

d. do you think your Board should have the option of deciding priorities of travel/meetings? In other words, if your Bd thought it very important to send a member to a natl meeting & wanted to spend $ to do so rather than

hold one of its scheduled meetings (it's that important) do you think the board should be able to make that decision?

D. Are you satisfied with the way complaints are handled by or - the investigator?

1. does your board know of all complaints filed against nurses reported by the board?
   a. does the board know before or after the investigation known
   b. does your board know what disposition has been made of complaints?
   c. does your board make dispositions or does the investigator?
   d. how are complaints handled
   e. ~~should~~ do you ~~the~~ think the board should know of all complaints filed with it.
   f. should the board be the body to make disposition? (ie: to consumer protection, to peer review committee, to investigator for further information)
2. g. Should the board be involved in fee disputes? Or leave that to peer review &/or consumer protection.
   a. should fee disputes be recorded in a nurse's file (in case this is a repetative occurance which might prompt the board to issue a reprimand)

3 Does your board have a standardized method (statutory or regulatory) by which actions against a

a. under what circumstances is a ~~public~~:
   1) ~~reprimanded~~ license reprimanded
   2) license suspended
   3) ~~limited~~ license limited
   4) revoked (license)
b. has the dept. & bd. given your board assistance in:
   1) establishing guidelines for the above
   2) enforcing the above
c. how often since you become a board member has an action been taken against a license

4. do you think it would be helpful for a contact # for your board to be in the phone book (idea: / secretary for all 22 boards could take complaint calls, ~~direct~~ send complaint forms to callers, alert board member, etc.) (not an OL or Dept #)

E Are you satisfied with the way the dept of law gives assistance to your board
1. does a representative of the dept attend your meetings? Would you like a rep. to attend:
   a. as a matter of course
   b. on request
   c. when they want something
   d. never
2. does the dept answer your written or phone requests promptly?
3. does the dept. give you the information you need in a way that you understand?
4. do you feel (as a Board) that the dept law represents you well in hearings & court?
   a. Are you allowed to attend hearings & court proceedings?
   b. Are you allowed to read transcripts of hearing & court proceedings before rendering decisions?
5. does the dept of law ever bargain away your board's decision for a lesser penalty
   a. does your board have the ability to prevent this after the fact bargains
   b. does the dept's attorney counsel you about his/her intention to bargain away your decision or are you informed after it has been accomplished that that's what happened

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);
(2) Board of Dental Examiners (AS 08.36.010);
(3) State Medical Board (AS 08.64.010);
(4) Board of Nursing (AS 08.68.010);
(5) Board of Dispensing Opticians (AS 08.71.010);
(6) Board of Examiners in Optometry (AS 08.72.010);
(7) Board of Pharmacy (AS 08.80.010);
(8) Board of Veterinary Examiners (AS 08.98.010);
(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);
(10) Board of Nursing Home Administrators (AS 08.70.010);
(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);
(2) Board of Barber Examiners (AS 08.12.010);
(3) Collection Agency Board (AS 08.24.011);
(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);
(5) Board of Electrical Examiners (AS 08.40.010);
(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);
(7) Guide Licensing and Control Board (AS 08.54.010);
(8) Board of Marine Pilots (AS 08.62.010);
(9) Real Estate Commission (AS 08.88.011);
(10) Board of Welding Examiners (AS 08.99.010);
(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

BY THE RULES COMMITTEE BY REQUEST OF THE LEGISLATIVE BUDGET AND AUDIT COMMITTEE

IN THE SENATE

SENATE BILL NO. 232

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act designating programs and activities for review and termination under AS 44.66; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 14.56.250 - 14.56.290 (relating to the responsibility and authority of the Department of Education, division of state libraries, to publish the Alaska Blue Book) are repealed.

* Sec. 2. The following laws relating to mechanical inspection functions of the Department of Labor are repealed:

(1) AS 18.60.220 - 18.60.395 (boiler and pressure vessel inspection);

(2) AS 18.60.600(a)(2), 18.60.600(b), and 18.60.610 - 18.60.650 (electrical wiring inspection);

(3) AS 18.60.715(b), 18.60.720(b), 18.60.725, 18.60.730 and 18.60.740(4) (plumbing code inspection);

(4) AS 18.60.800(b)(2) and 18.60.820 (elevator safety inspection).

* Sec. 3. AS 18.65.130 - 18.65.290 and AS 44.62.330(a)(34) (Police Standards Council) are repealed.

* Sec. 4. AS 18.80 and AS 39.50.200(9)(N) (State Commission on Human Rights) are repealed.

* Sec. 5. AS 23.35 (Fisherman's Fund) is repealed.

* Sec. 6. AS 28.05.011(8) (authority of the Department of Public Safety to operate motor vehicle weighing stations and to enforce size, weight and

load limitations) is repealed.

* Sec. 7. AS 44.19.870 - 44.19.881 (division of policy development and planning) are repealed.

* Sec. 8. AS 45.50.491 - 45.50.521 (consumer protection - Department of Law) are repealed.

* Sec. 9. AS 45.50.531(b) is amended to read:

(b) A person entitled to bring an action under this section may, [AFTER INVESTIGATION BY AND APPROVAL OF THE ATTORNEY GENERAL,] if the unlawful act or practice has caused similar injury to numerous other persons similarly situated and if he adequately represents the similarly situated persons, bring an action on behalf of himself and other similarly injured and situated persons to recover actual damages. [A PERSON PLANNING TO BRING AN ACTION UNDER THIS SUBSECTION SHALL FIRST SUBMIT TO THE ATTORNEY GENERAL A COPY OF HIS PROPOSED COMPLAINT, AND HE MAY NOT FILE THE COMPLAINT IN COURT WITHOUT THE ATTORNEY GENERAL'S APPROVAL.] In an action brough under this subsection, the court may in its discretion order, in addition to damages, injunctive or other equitable relief.

* Sec. 10. The responsibility of the Department of Law under AS 45.45 (regulation of motor vehicle repairs) is terminated.

* Sec. 11. AS 47.10.150, 47.10.160, and 47.10.180 - 47.10.220 (programs of the Department of Health and Social Services relating to the confinement of juveniles) are repealed.

* Sec. 12. The Alaska Growth Policy Council, established within the division of policy development and planning, Office of the Governor, by Administrative Order No. 26, under the authority of AS 44.19.880(c), is terminated.

* Sec. 13. A claim for an injury compensable under AS 23.35, repealed by this Act, may be paid by the commissioner of labor if claim for compensation

is made within one year of the effective date of this Act. A claim shall be paid in accordance with the provisions of AS 23.35 as the provisions read at the time of repeal. On July 1, 1981 the balance in the fishermen's fund (AS 23.35.060, repealed and AS 37.05.155(a)(6)) lapses into the general fund.

* Sec. 14. This Act takes effect July 1, 1980.

APPENDICES

A. INTRODUCTION

1. Reasons for Licensing

Licensing of professions and occupations is simply regulation of vocations by the state. The state defines the qualifications of persons who are permitted to engage in a vocation and prohibits anyone who does not have the required qualifications from pursuing that vocation.

Licensing is an exercise of the state's police power to protect the public health, welfare, and safety by safeguarding the public from the activities of incompetent persons.

2. Development of Licensing

Modern regulation of professions and occupations is an outgrowth of medieval guilds of merchants, craftsmen, and the professions. Merchant guilds appeared first and developed into organizations designed to protect the merchant class. Municipal authorities not only passed ordinances to protect the public from the adulteration of goods, short-weight, and unfair prices upon recommendation of the guilds, but also legislated for the benefit of the guilds. Thus the guilds obtained legal sanction for restricting their membership and gained a monopolistic control over trade.

Occupational groups began to organize into national associations just prior to the Civil War. The American Medical Association was organized in 1847, and soon after organizations appeared representing pharmacists (1852), civil engineers (1852), architects (1857), dentists (1859), and veterinarians (1863). The groups appeared because of: (1) a desire for comradeship with others of the same background; (2) an interest in advancing the knowledge of the profession or perfecting the skill of the vocation by sharing the experiences and counsel of others; (3) a desire to discuss mutual problems, new discoveries, and new techniques; (4) a desire to set out codes of ethics which defined the relationship between professional persons; and (5) a desire to gain for the entire membership the compensation and status which the community could be induced to grant for particular services.

To protect their status, associations sponsored and urged licensing legislation which gave legal sanction to their codes of ethics and established a legal register of "qualified" practitioners. A demand for self government

also emerged. Members of the professions desired licensing boards controlled by fellow members who would more likely understand their problems. Almost invariably, the associations won the right to be represented on, and in many instances control of, the licensing boards.

The recent legislative trend nationwide has been to divorce the licensing boards from overt control of the associations. This has been accomplished through placement of "public" members on boards and deletion of statutory obligations on the appointing authority to consult with or draw from the associations.

"Sunset" legislation has been enacted in most states, including Alaska. Under such statutes, legislatures periodically review the activities of executive branch agencies, including licensing boards, to determine whether there is sufficient justification for their continued existence. The result of such review is often corrective legislation and, in some instances, abolition of the agency.

3. Characteristics of Licensing Boards

Licensing boards have two main duties: (1) to control entrance into the occupation, and (2) to support and enforce the standards of practice among licensed practitioners. To accomplish these objectives, the boards typically engage in the following activities:

1. Examination of the credentials of applicants and determination of whether their education, experience and moral fitness meet statutory or administrative requirements.

2. Boards ordinarily prepare (or select nationally recognized) examinations to test the academic and practical qualifications of applicants. They then administer and grade examinations to determine who have passed and who have failed.

3. In most states, the boards have discretionary power to grant licenses on the basis of reciprocity with other states.

4. Most boards issue regulations establishing standards of practice. They hold hearings on allegations of violations of conduct when reasonable evidence of violation exists. If necessary, the boards suspend or revoke licenses.

4. Occupational Licensing in Alaska

In Alaska, policing of the occupations has been divided between the Division of Occupational Licensing and the occupational licensing boards.

The Division of Occupational Licensing assumes day-to-day responsibility for processing of applications, fees and inquiries regarding the various professions. Furthermore, the division, through its enforcement section, investigates complaints against persons in violation of the occupational licensing statutes (found in Title 8 of the Alaska Statutes). Finally, the division, through the Commissioner of the Department of Commerce and Economic Development, has authority to seek enforcement of the licensing statutes either through cease and desist orders or court injunctions under AS 08.01.087.

The occupational licensing boards, much like their counterparts elsewhere, are generally responsible for reviewing the applications of all persons wishing to enter a profession in Alaska, to adopt regulations regarding the standards of practice within the professions, and to hear cases presented to the boards by the Division of Occupational Licensing.

The Department of Law serves as counsel for both the Division of Occupational Licensing and for the licensing boards. The department specifically provides advice to the division and to the boards regarding their statutory authority and functions, helps draft and review proposed legislation and regulations and represents the division and boards in administrative proceedings and in court.

PART I

RULEMAKING AUTHORITY:

THE PROMULGATION OF REGULATIONS

1.1 RULEMAKING AUTHORITY

1.1.1 Rulemaking: Introduction

The observations contained in this section should be read in conjunction with rather than in lieu of the Alaska Drafting Manual for Administrative Regulations.

While the Division of Occupational licensing has a regulations specialist available to assist boards in the promulgation of regulations, each board member should assume the responsibility to strictly observe the statutory requirements in the rulemaking process.

1.1.2 Basis of Authority

A board has only those powers that are given it by law; no board or agency may promulgate an administrative regulation unless it has expressly been given such powers by statute, or unless such powers are necessarily implied from its statutory duties. Rulemaking authority can only be delegated by specific statute.

In promulgating regulations, the board is exercising powers that have been delegated by the legislature and that are not inherently of the board. Under our scheme of government, the legislature was given the power to make laws or regulations, which were then carried out by the executive branch. As the regulatory functions of government increased, it became impossible for the legislature adequately to legislate all of the regulations that were needed. The practice of delegating some rulemaking authority evolved as a practical necessity, both because of the number of regulations required and because of the specialized subjects of regulation.

1.1.3 Scope of Authority

Generally, the legislature sets the state's policy and establishes standards to guide the board. The board may then, within the scope of these standards, promulgate regulations to effectuate the policies established by the legislature. The legislature must set policy and define the general legislative purposes before the board can make regulations. The rulemaking authority should be used sparingly. An agency should promulgate regulations only when there is

substantial evidence that regulations are necessary either to meet demonstrated problems or to comply with legislative mandates.

1.1.4 Limits on Authority

Within the permissible scope of rulemaking activities, there are limits on what a board may do. These may be summarized as follows:

(1) The board's action may not be arbitrary or unreasonable;

(2) The board may not make a regulation which deprives any person or persons of their constitutional rights;

(3) The board's actions must comply with statutory requirements concerning rulemaking procedures;

(4) The board may make only such regulations as are consistent with law. In some cases, very explicit statutory authority is required if an agency's action is to be valid, because some acts are considered to be exclusively the prerogative of the legislature.

1.1.5 Procedures Required

no regulation to which the rulemaking process applies is valid unless it is adopted in compliance with procedures set by statute. It is the board's responsibility to assure that its rules conform precisely to statutory requirements.

1.2. DEFINITION OF REGULATION

1.2.1 General Definition

A regulation is usually defined as each statement of a board that is of general applicability and that implements, interprets, or prescribes law or policy, or that describes the organization, procedure or practice of the agency. Regulations have the force and effect of law once they have been properly adopted.

In general, rulemaking is appropriate:

(1) When the legislature has delegated authority to a board to promulgate the particular regulations, or to promulgate regulations on that subject;

(2) When the regulation would regulate particular conduct in a general manner;

(3) When the regulation would apply to future situations.

(4) When the need to regulate particular conduct is demonstrated.

1.2.2 Mandatory and Discretionary Regulations

Mandatory regulations are those which the board is required by statute to promulgate. For example, a board may be required by statute to prescribe by regulations minimum educational and professional conduct for licensees. Another example would be a statute requiring a board to adopt regulations establishing standards for certain types of professional equipment. The statutes usually use the word "shall" in defining mandatory regulations.

Discretionary regulations are those which the agency may adopt, although it is not required to do so. These must be within the scope of the board's statutory authority. A typical statute authorizes a board to make such regulations as may be necessary to carry out the purposes of the statute.

1.2.3 Rules of Organization and Practice

A board may be required by law to adopt a regulation describing its organization, stating the general course and

method of its operations and the methods whereby the public may obtain information or make submissions or requests. The board may adopt such a regulation even if it is not required.

A board may be required by law to adopt regulations setting forth the nature and requirements of all formal and informal proceedings before it. These may include a description of all forms and instructions used by the agency.

1.2.4 Amendment of Prior Rule

The definition of a regulation includes action to amend or repeal a prior regulation. Such action is subject to the same rulemaking procedures as is an original regulation.

1.2.5 Exclusion from Definition

Certain documents or materials issued by a board would not normally be considered regulations, although they might contain official statements of agency policy. Examples are:

(1) Internal rules, which affect only employees of the board and do not affect the rights of the public;

(2) Official reports, such as those to the Governor or legislature;

(3) Declaratory rules issued by the board in response to requests for statements clarifying the effect of a regulation;

(4) Reprints of statutes relating to the agency;

(5) Informal material, such as news releases and informational booklets.

In each case, however, the board must exercise its discretion to decide whether the rulemaking process is required.

1.2.6 Relation to Statute

The statute granting rulemaking authority to the board should not itself be set forth as a rule. This is not only unnecessary, but it can cause confusion and error. It may, however, be necessary for the sake of clarity to incorporate portions of the statute into rules.

1.3. DRAFTING REQUIREMENTS

1.3.1 Requirements for Form and Style

All boards must comply with the uniform drafting style of the Drafting Manual for Administrative Regulations. This is necessary to ensure consistency in the regulations when they are codified and to ensure that they meet minimum standards of clarity and precision.

1.3.2 Specific Suggestions

Some suggestions on drafting regulations are:

(1) Check to make sure that any references to statutes are current, complete and accurate.

(2) While there is no requirement for maximum or minimum length, each regulation should encompass one subject only and each subject should be covered in a single regulation, to the extent possible;

(3) Be sure that the title of the regulation clearly expresses the subject concerned;

(4) Use the word "shall" when an action is mandatory and the word "may" when an action is discretionary;

(5) Divide regulations into sections and subsections at logical breaks in the subject matter, for more convenient reference.

1.3.3 Adoption by Reference

The board may adopt by reference all or part of a standard, or code which has been adopted by another state board or agency or by a federal agency. It may also adopt regulations which have been adopted by a professional organization or association. Such material is often referred to as "third-party standards."

Material adopted by reference must be clearly specified in the reference. The board must keep copies of the adopted material available for inspection. If part of the referenced material is to be deleted, the rule adopting the material must so specify.

Adoptions by reference must follow the same procedure as other rule-making, including giving adequate advance notice. The adoption of a third-party standard is required to refer to a specific version or edition of the standard, not merely to standards adopted by a specific board or agency. The version adopted by regulation does not change automatically if the third-party standard changes; if the board wishes to adopt the revised standard, normal rule-making procedures must be followed.

1.4 NOTICE

1.4.1 General Requirement

A board must give adequate advance notice of proposed regulations, except in emergency situations, as described in this manual. Notice is necessary to allow all interested persons to learn of the proposal and to prepare comments if they so desire. Notice should be given not only to persons who are directly affected by the regulation, but to the public at large. See AS 44.62.190(a)(10). Generally, notice should be given in such a manner as is reasonably calculated to reach interested persons.

1.4.2 Contents of Notice

The contents of the notice will depend on the issues involved and similar factors.

The notice must contain the following information, as a minimum:

(1) A concise statement of the substance of the proposed regulation and the major issues it involves;

(2) A statement of the statute or other authority under which the regulation is to be promulgated;

(3) A request for comments and an explanation of how comments should be submitted, whether in writing or at a hearing;

(4) Certification by the appropriate official.

The notice should also contain any other information that is required by statute or that the board feels would be helpful to the persons affected.

1.4.3 Notice of Hearing

If the board plans to hold an oral hearing, the notice must, in addition to the above, state the time and place of the hearing.

A board should hold an oral hearing if (i) there is general interest among those affected by the regulation in the subject matter of the regulation, or (ii) if the

regulation is a controversial one, or (iii) if those affected by the regulation would be better able by that method to provide the agency with information that is useful to it in deciding whether or not to finally adopt the proposed regulation, or (iv) if the agency feels it would benefit by an opportunity to explain the regulation to interested persons.

If it decides not to hold an oral hearing, the notice must contain a statement that those interested in the regulations may present their views to the agency in writing before a specified date.

1.5 CONDUCT OF HEARING

1.5.1 Conducting the Hearing

The board alone has the statutory authority to make regulations. The board may, however, delegate to a panel the responsibility for conducting a hearing. It may not delegate the responsibility for adopting regulations.

1.5.2 The Presiding Officer

The presiding officer, whether a hearing officer or a board member, has an important role in the hearing. It is the presiding officer's responsibility to ensure that the hearing is orderly, that all parties are treated fairly, and that it progresses in an expeditious manner.

Presiding officers usually have the power, pursuant to statute and regulation, to:

(1) Preside over the hearing;

(2) Take action necessary to maintain order;

(3) Rule on motions and procedural questions arising during the hearing;

(4) Call recesses or adjourn the hearing;

(5) Recognize speakers and allot time for their presentations;

(6) Question speakers;

(7) Grant extensions for any time requirements.

1.5.3 Standards of Conduct

To ensure a fair but efficient hearing, the presiding officer must enforce proper conduct on the part of all persons present. The presiding officer should recognize a person who is entitled to speak and refuse to allow any other person to speak until that person has been recognized. In case of disturbances, the presiding officer should ask the offending person to be quiet or to leave the hearing. If necessary, and after appropriate warning, the presiding officer may rule that a person has forfeited the right to

participate in the hearing, or may order a person removed from the room.

1.5.4 Examination of Witnesses

The presiding officer or any board member who is present may examine any witness, and may allow others to do so. Most hearings, however, would not involve the examination of witnesses.

A hearing is not an adversary proceeding or a determination of rights, but is informative by nature. Therefore, there is no right to crossexamination of witnesses, although the presiding officer may allow this. For the same reasons, witnesses are seldom placed under oath.

1.5.5 Evidence

The presiding officer should keep a list of all physical and documentary material offered in evidence. He/she should ascertain that each exhibit is marked by an identifying number.

The rules of evidence that govern a courtroom proceeding need not be followed, because the purpose of the hearing is not to determine rights, but to allow an adequate expression of opinion on an issue and to guide the board in its decision making. For example, reports and studies are appropriate kinds of information to be considered in rulemaking, although they might not be admissible as evidence in a court of law. The primary object of the hearing is to gather relevant information to help determine policy.

1.5.6 Record of Hearing

The presiding officer or his/her designee should keep a list of persons who testify at the hearing. This should show each person's name, address and affiliation, if any. It should also show whether the person testified in favor of or in opposition to the proposed regulation, and such other information as appropriate. All rulings of the presiding officer should also be made a matter of record. If the full board is not present at the hearing, the record should be given to them to aid in the regulation-making decision.

1.6 EMERGENCY RULES

1.6.1 Provision for Adoption

Boards are authorized by statute to adopt, amend, or repeal a rule in specific circumstances without complying with the procedures that are normally required. This can be done only in situations that involve an emergency, as defined by statute. These emergency situations permit the board to dispense with advance notice and a public hearing.

An emergency is defined by statute in reference to the public, not to the board. It usually must involve an imminent peril to the health, safety or welfare of the public. By statute, emergencies are rarely found to exist.

1.6.2 Effective Dates

Emergency regulations can go into effect immediately upon filing by the Lieutenant Governor. However, the board should allow as much notice as possible before putting an emergency regulation into effect. The amount of time will necessarily depend on the nature of the emergency.

The period for which an emergency regulation can remain in effect is limited by statute to 120 days.

1.7 ADOPTION AND FILING

1.7.1 Action by Agency

At the conclusion of the hearing, and after all procedural requirements for notice have been met, the board may take formal action on the regulation covered by the notice. The board may adopt, amend or repeal the proposed regulation.

A majority vote is usually necessary to adopt regulations and a quorum of the board must be present for the vote.

1.7.2 Legal Approval

The board must send the final regulations to the Department of Law, along with the written adoption order, a copy of the public notice, the publishers' affidavits of publication and any other relevant documents. After reviewing the substance of the regulations and the procedure followed in adopting them, in order to form an opinion as to their validity compliance with this manual, etc., the Department of Law will write an opinion on the final regulations. That department will send a copy of the opinion to the board and will forward the regulations, the opinion, and all other documents to the lieutenant governor.

1.7.3 New Order of Adoption

When a regulation is changed by the board in response to the Department of Law review, after the initial adoption order is signed, a new adoption order should be signed, to show that the adopting board has in fact adopted the final version.

1.7.4 Filing and Effective Date

Regulations properly submitted to the lieutenant governor are then filed by him/her. It is his/her practice to return to the adopting agency a copy of the adoption order showing his/her signature and the date and time of filing. A regulation becomes effective on the 30th day after it is filed, unless it is an emergency regulation, or unless the agency specifies a date more than 30 days from the filing date, or unless it is a regulation "prescribing the organization or procedure of an agency."

1.8 LEGISLATIVE AND JUDICIAL REVIEW

1.8.1 Legislative Review of Rules

In 1975, the Administrative Regulation Review Committee (ARRC) was established as a permanent interim committee of the legislature, to review regulations to determine whether legislative annulment is appropriate.

1.8.2 Declaratory Judgment by Courts

An action for declaratory judgment may be brought in court to determine the validity or the applicability of a regulation.

PART II

DISCIPLINARY PROCEEDINGS

2.1. THE DISCIPLINARY PROCESS

2.1.1 Use of Administrative Hearings

Boards often use formal administrative hearings to determine whether disciplinary action should be taken against persons whom they have licensed. The board may suspend or revoke a license or impose other sanctions. In other cases an applicant may request a hearing if a board has denied a license or issued a restricted license. Formal hearings invlove a contested case, in which the licensee challenges or contests the action taken by the board.

The board, in the course of the proceeding, hears the charges and the licensee's response. It then makes findings of fact and conclusion of law and reaches a decision on the basis of evidence presented at the hearing.

This part is concerned with disciplinary proceedings against a licensee. However, identical or substantially similar procedures may be followed when a board agrees to hear the complaint of an applicant who contests the board's action in refusing to issue a license.

2.1.2 Nature of Proceeding

A disciplinary proceeding, including the formal hearing, is usually less formal than is a judicial proceeding. Boards must, however, conduct such proceedings in accordance with considerations of fair play and constitutional requirements of due process. They must also observe any requirements set by law or regulation.

The purpose of this kind of proceeding is to determine contested issues of law and fact: whether the licensee did certain acts and, if he did, whether those acts violate statutes or regulations administered and enforced by the board; and to determine the appropriate disciplinary action.

2.1.3 Role of the Board

The board's responsibility in a disciplinary proceeding is to reach a decision and render a judgment. It is also responsible for conducting the hearing, unless it delegates this function to a hearing officer. The board, however, may not delegate its decision-making function to a hearing of-

fice., although the hearing officer may recommend a particular decision to the board.

While the courts have not clearly defined the degree to which a board may combine the duties of a prosecutor and a judge, such combination should be avoided; the board's primary role is that of decision-maker. Therefore it is Alaska practice to divorce boards from fact finding inquiries or investigation prior to the formal hearing.

2.1.4 Participants

There are usually two parties to a disciplinary proceeding: the state, which is bringing the charges, and the licensee, against whom they are brought. The state frequently brings charges as a result of a complaint by a private individual or other entity, but such person or entity is not an official party to the action.

The state is represented by a member of the Attorney General's office and is assisted by staff of the Division of Occupational Licensing.

The other party is the person who holds a license issued by the board and whose conduct is challenged. The licensee is frequently represented by an attorney at the hearing.

The licensing board hears the evidence and reaches a decision.

2.1.5 Jurisdiction of the Board

The board can conduct formal proceedings only against those persons over whom it has jurisdiction. Most boards have jurisdiction only over persons who hold licenses, certificates, registrations, or permits issued by the board.

The board must have jurisdiction over the subject matter of the complaint i.e., the complaint must be one which concerns a regulation of the board or a statute administered by it. A complaint about a licensee which does not concern his or her fitness, competence or qualifications to practice, as defined by statute and regulation, will usually not be within the board's jurisdiction.

2. INFORMAL DISPOSITION OF COMPLAINTS

2.2.1 Advantages of Informal Disposition

Not all complaints are resolved by formal proceedings. Many are settled informally by the Division of Occupational Licensing, which screens and investigates complaints about licensees, and the licensee. This approach is often desirable when the issues are relatively simple. It usually costs less than does a formal hearing, in terms of both time and money. It may be possible to dispose of some issues informally, thereby reducing the scope of the formal hearing, even if the entire complaint cannot be resolved in this manner.

2.2.2 Disposition by Correspondence

One method of disposing of a complaint informally is through correspondence. The division may write to the licensee explaining the nature of the complaint received. The licensee's subsequent response may explain the situation to the division's satisfaction, and the matter may be dropped.

In response to less serious complaints, the division may write to the licensee and suggest remedial action. The licensee may agree to these suggestions, and make further action by the division unnecessary.

2.2.3 Conference or Informal Hearing

Another informal approach is for the division to hold a conference with the licensee. The conference may result in a complete settlement, thereby making a formal hearing unnecessary. Alternatively, it may result in the settlement of some issues, so that the number of matters to be considered at a formal hearing are reduced. The conference is held prior to a formal hearing.

The conference may not be so informal that it amounts to a denial of the licensee's constitutional rights. The licensee must be given adequate notice of the conference, and of the issues to be discussed.

Because the conference is informal, witnesses are not placed under oath and no subpoenas are issued. Statements made at a conference may not be introduced at a formal hearing unless all parties consent. No transcript of the conference is made.

2.2.4 The Board's Role in Informal Hearings

A board should be careful not to become involved in informal proceedings, because a formal hearing may subsequently be held and the board would have to take action on the same case. The board may not be able to act impartially in the formal hearing if its members had been closely involved in an informal hearing or conference. For this reason, board members do not participate in informal hearings.

2.2.5 Consent Order

A consent order is an order involving some type of disciplinary action and is made by the State with the consent of the licensee. It requires the formal consent of the board. It is not the result of the board's deliberations, but represents the board's acceptance of an agreement reached between the State and the licensee. The order is issued by the board to carry out the parties' agreement. This agreement involves the licensee's assent to some form of discipline against the licensee. The agreement must be in writing. It must be signed by the licensee, the representative of the State and the board or someone authorized to sign for the board.

2.3 THE RIGHTS OF PARTIES

2.3.1 Right to Appear

Any person who is a party to a proceeding has the right to appear and be heard, either in person or by counsel. A party also has a right to notice; that is, to be given a statement of what accusations have been made. If, however, a party does not appear after proper notice has been given, the party may be considered to have waived these rights and the board may proceed with the hearing without the presence of the party.

2.3.2 Right to Present Evidence and to Cross-Examine

Every person who is a party to a proceeding has the right in a hearing:

(1) to present evidence on questions of fact, provided that such evidence is acceptable under the rules governing the hearing;

(2) to present arguments on issues of law and policy;

(3) to cross-examine witnesses.

2.3.3 Right to Counsel

The licensee against whom the proceeding is brought has a constitutional right to be accompanied and advised by counsel. He also has the right to be examined by his own counsel. There is no constitutional requirement, however, that the board pay for or appoint counsel for the respondent, even if he is indigent.

The filing of an answer, a motion or other appearance by an attorney constitutes his appearance on behalf of the licensee. The board must be notified in writing if the attorney withdraws from the proceeding.

2.3.4 Right to Copy of Testimony

Any person who gives evidence, whether as a party, in response to a subpoena, or as a witness, is entitled to procure a copy of any transcript of his testimony. The person requesting the copy can be required to pay for the transcript. The requesting party obtains the transcript from the

reporter; the board does not order the transcript unless it desires a copy.

2.3.5 Right to Judicial Review

A licensee has the right to ask the courts to review a decision of the board that is adverse to him.

2.4 INITIATING A DISCIPLINARY PROCEEDING

2.4.1 Initiating the Process

All administrative adjudications under the Administrative Procedure Act, AS 44.62.010 et seq., (APA) are initiated through an accusation or statement of issues.

An accusation begins the process of determining whether license should be revoked, suspended, limited, or conditioned. (See Appendix)

A statement of issues is used when a board has denied a license in the first instance or has refused to renew the license. (See Appendix)

The accusation and statement of issues serve to: initiate the disciplinary proceeding; give notice to the person complained against (the licensee) of the essential facts of the complaint; and define the issues to be contested at the hearing.

These documents are accompanied by a notice of certain procedural rights (See Appendix) as well as a "notice of defense" which the licensee returns if he/she intends to contest the proceeding. (See Appendix)

2.4.2 Need for Formal Adjudication

The possibility of informal disposition is usually pursued before proceeding to a formal hearing.

A decision to initiate formal adjudication usually results from one or more of the following conditions:

(1) the board or division believes that the complaint is sufficiently serious to require formal adjudication;

(2) the licensee fails to respond to the division's letter concerning a complaint and the division believes there are sufficient grounds to justify further action;

(3) the licensee's response to the division's letter or investigative demand does not convince the division that no action is necessary;

(4) an informal hearing or a conference is held, but fails to resolve all of the issues.

The board's hearing procedures are not well suited for adjudication of legitimate civil disputes between individuals which would more appropriately be settled in court. The board should not interject itself into private commercial disputes, or permit a complainant to use the threat of board action to force a licensee to settle a civil case.

2.4.3 Right to Hearing

The Constitution provides that no person can be deprived of life, liberty or property without due process of law. Most courts, including the United States Supreme Court, have interpreted this to require a formal hearing in proceedings which are held to determine a person's rights, duties or privileges.

A person may choose to waive his right to a hearing, either by non-appearance or by consent order or settlement.

2.4.4 When a Hearing is not Required

The exceptions to the requirement for a hearing can be summarized as follows:

(1) where Alaska law specifically provides that the board need not hold a hearing;

(2) where disciplinary action is based solely on the failure to file required reports, applications or other material in a timely manner, or on a failure to pay required fees or maintain required insurance.

2.4.5 Ex Parte Communications

Ex Parte is a legal term meaning by or for one party, or in the absence of another party. Generally, no board member or hearing officer may communicate with any party to a proceeding or his representative concerning any issue of fact or law involved in that proceeding, once notice of the proceeding has been served. This prohibition assumes that whatever a party has to say to the board member has a bearing on the case and should be available to all parties. The board or hearing officer may, however, communicate ex parte concerning procedural matters.

2.5 DESIGNATION OF HEARING OFFICERS

2.5.1 Use of Hearing Officers

All hearings are presided over by a hearing officer who is an attorney appointed by the Governor and who has generally engaged in the practice of law for at least five years.

The hearing officer may "sit alone", that is, hear the case alone and recommend a proposed decision to the board or the hearing officer may sit with the board as the presiding officer of the hearing.

The board must make a determination, either before or after a notice of defense is filed, whether it wishes to delegate the hearing function to a hearing officer alone or whether it wishes to hear the case with the hearing officer. (See Appendix) Some of the considerations in making such a decision are: the time involved (some cases have lasted several weeks), the location of the hearing and the complexity of the case.

2.5.2 Duties of the Hearing Officer

Although discussed in more detail below, the hearing officer is normally responsible for setting the time and place of hearing as well as scheduling prehearing conferences.

The hearing officer rules on motions, conducts the hearing and assists in the preparation of findings of fact and conclusions of law.

The hearing officer's paramount concern will be the making of the record of the proceeding.

2.6 PRELIMINARY ACTIONS

2.6.1 Pre-Hearing Conferences

The hearing officer may, at the request of a party or on his/her own initiative order a pre-hearing conference. Such a conference may also be held by agreement of the parties. The board is not present at the prehearing conference.

The purpose of such a conference is to consider any or all of the following actions:

(1) to reduce or simplify the issues to be adjudicated;

(2) to dispose of preliminary legal issues including ruling on pre-hearing motions;

(3) to stipulate issues that are not contested by the parties;

(4) for the parties to stipulate to the admission of certain evidence or admissions of fact which will avoid unnecessary proof;

(5) to identify documentary evidence or other physical evidence and to dispose of any questions by the parties about its authenticity;

(6) to identify witnesses;

(7) to amend the pleadings;

(8) other matters which might aid in the expeditious conduct of the hearing.

Written notice of the conference should be sent to all parties prior to the conference unless it was included in the notice of the hearing.

2.6.2 Stipulation

The parties may stipulate, or agree upon, certain issues or certain facts. Stipulated issues or facts are not required to be proved at the hearing.

It may be advisable to hold a formal hearing even if one is not required by law. A hearing typically involves a

meeting, with the parties present and able to give oral testimony. Even if the parties agree to submit the question to be adjudicated on a stipulation of agreed facts, the parties should be given an opportunity to present oral arguments in support of their positions.

2.7 MOTIONS

2.7.1 Use of Motions

A request to the board by a party for a particular action is normally made in the form of a motion. A motion may be made before, during, or after a hearing. All motions must be made at an appropriate time, according to the nature of the request.

2.7.2 Form of Motions

A motion made before or after the hearing is usually made in writing. Motions made at the commencement of or during the course of the hearing may be made orally. Motions are directed to the hearing officer.

The person making the motion must identify with particularity the action, ruling or order sought.

2.7.3 Answers to Motions

Any party may file a response or answer to a motion. Such an answer may be in support of or in opposition to a motion, and may be accompanied by an affidavit and memorandum.

2.7.4 Argument on Motions

Oral argument or the presentation of evidence on a motion may or may not be allowed at the hearing officer's discretion.

The propriety of allowing argument and presentation of evidence may depend on the importance of the motion. For example, the motion may be a simple one, such as a request that the hearing be held at a later date because of the illness of the licensee or his attorney. Such motions are usually allowed with liberality if they are made in a timely manner.

On the other hand, a motion may be complex and require the determination of contested issues of law or fact or be determinative of the result of the case. Argument or presentation of evidence would be appropriate in considering such complex motions. For example, a licensee may claim that the statute or regulation that he is charged with

violating is unenforceable because it was improperly adopted. The motion would request that the charges be dismissed. In considering such a motion the hearing officer or board may well desire the presentation of evidence or argument as the determination of the motion will also determine significant issues of law and policy and may determine the result of the case.

2.7.5 Disposition of Motions

The board or hearing officer must rule on all motions. Rulings should be made as promptly as possible.

In some situations, a hearing officer may not have authority to rule on a motion, but may need to refer the motion to the board. An example would be a motion to dismiss a proceeding and close the case.

2.8 SUBPOENAS

2.8.1 Types of Subpoenas

A subpoena is an order for a witness to be present at a proceeding or to present documents for the record. The purpose of the subpoena is to produce evidence which otherwise would not be available and which is needed for the determination of facts relevant to the case.

There are two types of subpoenas used in disciplinary proceedings: (a subpoena requiring a person to appear and give testimony; and (2) a subpoena duces tecum, which requires that a person produce books, records, correspondence, or other materials over which he has control.

2.8.2 Subpoena Authority

The board shall issue a subpoena when requested in writing by any party to a contested case.

Either side in a contested hearing may request that a subpoena be issued. It is generally required that the information called for by a subpoena must be reasonable in terms of the amount required and that it must relate to the matter under consideration. A subpoena duces tecum should show the reasonable scope and relevance of the documentary material sought.

2.8.2 Procedure for Issuing Subpoena

A party to whom the subpoena is directed is not given notice that it will be issued. The subpoena serves as its own notice. This is done to ensure that no evidence will be destroyed.

After the hearing begins the subpoena may be issued by a hearing officer, board member, or the entire board.

2.8.4 Response to Subpoena

The person to whom the subpoena is directed must comply with it unless he files a motion with the board to modify or quash the subpoena. Such a motion must be filed within a stated number of days after receipt, or at any time prior to the return date.

The board may decide to quash the subpoena if it finds that:

(1) the testimony required is not reasonably related to the subject matter of the hearing;

(2) the subpoena does not adequately describe the evidence required;

(3) the production of the evidence would impose difficulties that are not justified in light of its importance to the case, or would subject the witness to undue hardship;

(4) the material or testimony requested falls under a privilege afforded to the witness by statute, regulation, or constitutional guarantees.

2.8.5 Enforcement

If a person fails to comply with a subpoena, the board may apply to the Superior Court for an order to show cause why the person should not be required to comply. The court has power to order the witness to comply with the subpoena and to impose punishment for failure so to do.

2.9 CONDUCTING THE HEARING

2.9.1 The Presiding Officer

The hearing officer as presiding officer has an important role in the hearing. It is his responsibility to ensure that the hearing proceeds smoothly, and that all parties are treated fairly. Hearing officers have the power to:

(1) regulate the discovery process;

(2) hold conferences for the simplification or settlement of issues;

(3) issue subpoenas;

(4) place witnesses under oath;

(5) take action necessary to maintain order;

(6) rule on motions and procedural questions arising during the hearing;

(7) call recesses or adjourn the hearing;

(8) prescribe and enforce general rules of conduct and decorum;

(9) examine witnesses.

2.9.2 Standards of Conduct

To ensure a fair but efficient hearing, the hearing officer must enforce proper conduct on the part of persons present. He should recognize the person who is entitled to speak, and refuse to allow any person to speak until that person has been recognized. In case of disturbance, the hearing officer should ask the offending person to be quiet or to leave the hearing. If necessary, and after appropriate warning, he may rule that a person has forfeited his right to participate in the hearing or may certify the incident to the superior court for appropriate action.

2.9.3 Conduct of Board Members and Officers

Board members, hearing officers, and any other board

representatives should prepare for the hearing by reading in advance the notice of hearing, the answer (if any) and any other pleadings, motions, or briefs. They should attend all of the sessions necessary to conclude a hearing on a particular case. They shall be barred from voting on the final decision unless they were present throughout the hearing or have read the entire record including this the transcript, even though not present at the hearing. Board members should avoid any impression of prejudice against or favoritism toward any party, attorney or witness, and especially in questioning a witness.

2.9.4 Admission of Public

As a general rule, hearings should be open to the public unless there is a compelling reason that the particular hearing should be closed in accordance with AS 44.62.310.

2.9.5 Record of Proceeding

Alaska law requires that a formal record be made of a hearing.

The board and the hearing officer are responsible for ensuring that the proceeding is accurately recorded. It may employ a court reporter or a stenographer for this purpose, or it may make a tape recording. If a tape recorder is used, it should be checked carefully before the proceeding begins to ensure that it is working well.

2.10 ORDER OF PROCEEDINGS

2.10.1 Convening the Hearing

The hearing officer calls the session to order and identifies the case by name and number. He states for the record a brief summary of the subject of the hearing and cites the authority for holding it.

He should ask the parties to identify themselves and their counsel. All parties should be allowed to state for the record any objections they have to any of the prehearing proceedings, such as the service of notice, and to make any prehearing motions they have.

2.10.2 Oaths and Affirmations

As a general rule, all testimony is given under oath. Its purpose is to impress on the witness the seriousness of the occasion in order to assure that his testimony will be truthful.

If the witness objects to "swearing" or "taking an oath," the word "affirm" may be substituted.

If the witness' testimony is interrupted by a recess, it is not necessary to administer the oath again when the hearing reconvenes. He may, however, be reminded that he is still under oath.

2.10.3 Order of Proceedings

The customary order of the proceeding is as follows:

(1) the person presenting the evidence against the licensee makes an opening statment of what he intends to prove, and what action he wants the board to take;

(2) the licensee makes an opening statement, explaining why he believes that the charges against him are untrue;

(3) the person presenting evidence gives the case against him;

(4) the licensee cross-examines;

(5) the licensee presents evidence;

(6) the person who presented evidence against him cross-examines;

(7) the person presenting evidence against the licensee rebuts the latter's evidence;

(8) the licensee rebuts the evidence against him;

(9) both parties make closing statements.

This order may vary, however.

2.11 EVIDENCE

2.11.1 Purpose of Evidence

The purpose of evidence is to provide the facts necessary to reach a decision in a case. The board or hearing officer is not strictly bound by the rules of evidence which govern court proceedings, except that the evidence admitted must be of a type commonly relied upon by reasonably prudent men in the conduct of their affairs.

Constitutional guarantees of due process give the licensee a right to a decision based on evidence presented at the hearing. This means that a board member in making up his mind must consider evidence presented at the hearing, and can consider only such evidence. A board member may not consider anything that he has heard or read about the case; he may consider only the evidence presented at the hearing.

2.11.2 Forms of Evidence

Evidence includes testimony, documents, reports, technical and scientific facts, and real evidence, such as direct physical illustration of a fact before the board. Evidence usually consists of:

(1) oral testimony given by witnesses at the hearing;

(2) documentary evidence, i.e., written or printed materials including public, business, or institutional records;

(3) visual, physical, and illustrative evidence;

(4) admissions, which are written or oral statements of a party made either before or during the hearing;

(5) facts offically noted.

2.11.3 Admissibility

In determining the admissibility of evidence, the presiding officer usually follows the rules governing evidence in Alaska courts. However, the board may admit some hearsay evidence, although this would not be admitted in a court. Hearsay is testimony by a witness as to a

statement made by another person who is not present at the time of the testimony. When the statement by the absent declarant is offered to prove the truth of the matter asserted, it is considered unreliable because the person who made the original statement was not under oath, because opposing parties do not have an opportunity to cross-examine that person, and because the truth of the statement depends on whether the declarant is believable. While hearsay and similar evidence that could not be admitted in a trial might be admitted in a hearing, the board may not take disciplinary action solely on the basis of such evidence.

A party to the proceeding should inform the presiding officer if he objects to the admission of any evidence. If the presiding officer sustains the objection, the evidence is immediately withdrawn from consideration. If not, the proceeding continues with the evidence admitted.

2.11.4 Rules of Privilege

The board must follow the rules of privilege in excluding certain evidence. Generally, these provide that communications to an attorney or physician may not be disclosed without the consent of the person who sought the professional's assistance.

A board also may not force a licensee to testify if he invokes the Fifth Amendment privilege against self-incrimination. Since the decision of the board must be based on evidence presented in the case, the licensee's refusal to testify must be looked upon as having presented no evidence in his own behalf. A board may not, however, draw any inference from a respondent's invocation of the Fifth Amendment privilege.

2.11.5 Exclusion of Evidence

Evidence which is irrelevant, immaterial, incomplete, inaccurate, unsubstantiated, or unduly repetitious should be excluded. Examples are:

(1) irrelevant evidence which does not relate to the issues, and has no bearing on their resolution;

(2) immaterial evidence which, though it may relate to the issues, has no bearing on their resolution, including reptitious evidence, which covers matters that have already been fully covered by other evidence, although some repeti-

tion can be allowed for emphasis;

(3) incomplete, inaccurate, or unsubstantiated evidence such as technical evidence submitted by an unqualified person.

2.11.6 Exhibits

The presiding officer should see that all documentary and physical evidence is marked for identification and that a list is kept that describes the exhibit and its identification. The list should note whether the exhibit was admitted as evidence. One copy of any document offered as evidence must be furnished to each of the parties during or prior to the hearing. The original is given to the hearing officer, unless he allows a copy to be substituted. Copies generally may be introduced into evidence in lieu of original documents unless a party challenges the copy's authenticity.

2.11.7 Official Notice

The board may take official notice of a matter, thereby making it part of the official record. Proof of a matter is not necessary if it has been officially noticed. Where a board's decision rests on official notice of a material fact not appearing in the evidence, a party is entitled to an opportunity to disprove or rebut that fact. Official notice is usually limited to facts which are generally known or which are readily determined by a source which is of unquestioned accuracy. A fact need not always be indisputable to be noticed, so long as parties have an opportunity to challange it. Official notice may also be taken of rules, official reports, decisions, standards, orders of records of the board or of other regulatory agencies or state or federal courts.

2.11.8 Evidentiary Terms

The following are legal definitions of certain evidentiary rules which are pertinent to the administrative process.

Burden of proof is defined as "...(1) either the necessity of establishing the existence of a certain fact or certain facts by evidence that preponderates to the legally required extent, or (2) the necessity which rests on the party at any particular time during a trial, to create a

prima facie case in his own favor, or to overthrow one when created against him."

Preponderance of the evidence is a term which "... simply means what it says, that the evidence on one side outweighs, preponderates over, is more than, the evidence on the other side, not necessarily in number of witnesses or quantity, but in its effect on those to whom it is addressed." In effect, in a Statement of Issues proceeding, the applicant must establish by a preponderance of the evidence that he is entitled to the agency action which he seeks; while in an Accusation proceeding the agency must establish by a preponderance of the evidence that the licensee in fact violated the subject law.

The agency presents its case first in Statement of Issues and Accusation cases, irrespective of the burden of proof. This is often referred to as the "burden of going forward."

A document which the hearing officer merely marks for identification only is made part of the record, but is not to be considered as evidence by the Board, and, therefore, cannot be used by the board for the purpose of making specific findings. It is thusly labeled primarily as a matter of convenience, so that any subsequent reference to it may be made by number. When a document is admitted into evidence by the hearing officer, it has the same force and effect as sworn oral testimony, unless a legal barrier, such as hearsay, affects its use. It is admitted into evidence when certain preliminary facts about the document are established.

Direct or positive evidence is legally defined as "... that which proves the fact in dispute, directly, without an inference or presumption, and which in itself, if true, conclusively establishes the fact...." This includes relevant evidence which was formerly defined as indirect or circumstantial.

2.12 THE BOARD'S DECISION

2.12.1 Making the Decision

The first task of the board is to perform its fact-finding function. It must determine the facts in issue solely on the basis of the evidence submitted at the hearing then prepare its findings of fact. It must then determine whether the facts in the case support the charges brought against the licensee. Last, it must determine whether the charges brought are a violation of the relevant law or regulation and it must prepare its conclusions of law.

If the board has delegated the hearing to a hearing officer, he prepares a report setting forth such findings and conclusions and submits the report to the board. The board may adopt such findings and conclusions in whole or in part. Generally, it may amend or revise the hearing officer's findings and conclusions only if it was present throughout the hearing or its members have read the transcript of the hearing or if it wishes to reduce the proposed penalty.

Where the board adopts the decision into the form DECISION found in the Appendix should be used. If the board rejects the proposed decision of the hearing officer, the board must file the NOTICE OF REJECTION OF PROPOSED DECISION found in the Appendix. The board must also determine whether it will hear the case or assign it to another hearing officer. The form notice should be modified accordingly.

2.12.2 Multiple Charges

In cases where multiple charges or issues are involved in an appeal, findings of fact and conclusions of law must be made on each charge.

2.12.3 Procedures for Decision

At the conclusion of the evidence-taking portion of the hearing, the board will retire into an executive session for the purpose of rendering a decision. Only board members who were present at the entire hearing, and the hearing officer who presided, will be permitted to attend, or participate in discussions in the executive session. Executive sessions should not be hurried, and an adequate opportunity will be provided for each board member to express his opinions and theories concerning the cause heard.

The first order of business in the executive session should be to determine whether the allegations raised by the pleadings are to be found true and correct; followed by a determination of the sanction, if any, to be imposed by the majority opinion of the board. No minority opinion will be filed.

Generally, the hearing officer who presided at the hearing, and conducts the executive session, will draft the decision for execution by the board. The manner of execution will be at the option of the board, but under no circumstances should board members who did not deliberate execute the decision. Oftentimes, the secretary of the board is authorized by the board to execute the decision in behalf of the board.

The vote of the board must be recorded and available for inspection to demonstrate that the findings and conclusions were adopted by the required majority.

2.12.4 Determining Sanctions

Once the board has completed its fact-finding function and decided that action should be taken against the licensee, it must determine what sanction or punishment is appropriate. The sanction must be based on the findings of fact and conclusions of law determined by the hearing.

The sanctions available to a board are generally determined by law. They may include: revocation or suspension of the license; probations; censure or reprimands; and fines.

2.13 RECONSIDERATION OF DECISION

2.13.1 Procedures

Alaska law provides for the board to reconsider a matter which it has decided.

Reconsideration may occur in three ways:

(1) A party who is dissatisfied with a decision of the board may file a motion requesting that the decision be reconsidered by the board.

(2) The board may order reconsideration on its own motion.

(3) A court to which the board's decision has been appealed may remand the case for reconsideration or rehearing.

All parties must be given notice of a reconsideration or rehearing and the same procedures must be followed as in the original proceeding. Appropriate forms for accepting or denying petitions for reconsideration are contained in the Appendix.

2.13.2 Basis for Reconsideration

The board should grant a motion for reconsideration or rehearing when it is satisfied that one or more of the following conditions are met:

(1) the motion and the record show a serious irregularity in the conduct of the proceeding, such as lack of proper notice that deprived the licensee of due process;

(2) there is newly-discovered evidence, which was not available to the licensee at the time of the hearing and which may be sufficient to reverse the board's action;

(3) the board's decision is contrary to the manifest weight of the evidence;

(4) there was good cause for the licensee's failure to appear or file papers which resulted in default by the licensee.

2.13.3 Enforcement of Decision

If the motion for reconsideration or rehearing is denied, the board's decision is final and binding. The licensee may proceed to seek judicial review of the decision. The board's decision, however, is enforceable unless the court orders a stay.

If a motion for reconsideration is granted, the decision of the board is not final and, therefore, is not implemented until a final decision is reached.

2.14 JUDICIAL REVIEW

2.14.1 Seeking Judicial Review

Judicial review of board actions normally cannot be sought until all administrative remedies have been exhausted; the licensee must use any administrative hearing procedures that are available before he can go to court.

The licensee has the right to seek judicial review if he is dissatisfied with the board's decision.

2.14.2 Effect of Review

The filing of a petition for judicial review does not, in itself, affect the board's decision. The board's decision is enforced unless the court orders a stay of that decision. The court may do this if good cause is shown.

The court may take various types of action on judicial review. It may affirm the board's action. It may modify the board's decision by changing parts of it. Or it may reverse the decision entirely. The court also may remand the case for further proceedings, in which case the board may be directed to reconsider all or some issues.

2.14.3 Scope of Review

The reviewing court generally will not substitute its judgment for that of the licensing board concerning questions of fact, but will accept the board's determination of these matters.

The reviewing court may overrule the board's decision when there has been a failure by the board to meet the requirements of law. The court also may overrule the board if the board has: violated the Constitution or statutes; exceeded its lawful authority; failed to follow lawful procedure; acted in a way that is clearly arbitrary or capricious; abused its discretion; or if the board's findings are not supported by the record.

2.14.4 Procedures for Review

The requirements for filing an appeal are set forth in the Alaska Rules of Appellate Procedure, specifically Appel-

late Rule 45. In certain circumstances, Alaska District Court Rule 31 also applies.

2.15 DISQUALIFICATION

2.15.1 Disqualification of Hearing Officer or Board Member

A hearing officer or board member should be disqualified because of bias or interest which makes him unable to conduct a fair and impartial hearing. Determination of bias involves many considerations. Generally, bias about issues of law or policy is not a ground for disqualification. Bias or prejudgment about issues of fact in a case, however, is a ground for disqualification, as is bias or prejudice for or against one party in a proceeding. Another ground for disqualification is personal interest, i.e., when the hearing officer or board member stands to gain or lose from the outcome of a proceeding.

2.15.2 Procedures for Disqualification

If, a hearing officer or board member determines that he or she is unable to conduct a hearing in an impartial manner, that person should disqualify himself/herself.

A party to the proceeding may also file an affidavit or motion with the board alleging that a hearing officer or board member is unable to conduct the hearing because of bias or other disqualification. The affidavit should state the grounds for disqualification as precisely as possible. It must be filed before the commencement of the hearing, or at the first opportunity after the party becomes aware of the facts upon which the claim of disqualification is based.

2.15.2 Action on Disqualification

If the request for disqualification concerns the agency member the issue shall be determined by the other members of the agency. If the request concerns the hearing officer, the issue shall be determined by the agency when the agency hears the case with the hearing officer, and by the hearing officer when he hears the case alone. No agency member may withdraw voluntarily or be disqualified if his disqualification would prevent the existence of a quorum qualified to act in the particular case.

2.16 THE CASE RECORD

2.16.1 Need for Record

A complete case record must be maintained for each formal hearing because there is a possibility of subsequent judicial action. The court usually will not rehear the evidence in a case, so it must rely on the division to furnish a complete record of everything that occurred during the hearing.

The record of the proceeding must be retained until the time for any appeal has expired, or until the appeal has been concluded. It is not usually transcribed unless a party to the proceeding so requests. The requesting party is required to pay the expense of such transcription.

2.16.2 The Case Record

The case record includes the following, plus other material that the board or hearing officer considers desirable to retain:

(1) all papers filed and served in the proceeding;

(2) all documents and other materials accepted as evidence at the hearing;

(3) statements of matters officially noticed;

(4) notices required by the statutes or rules, including notice of the hearing;

(5) affidavits of service or receipts for mailing of process or other evidence of service;

(6) stipulations, settlement agreements or consent orders if any;

(7) records of matters agreed upon at the prehearing conference;

(8) reports filed by the hearing officer;

(9) orders of the board and its final decision;

(10) actions taken subsequent to the decision, including requests for reconsideration and rehearing;

(11) a transcript of the proceedings, if one has been made, or the tape recording.

The Appendix contains the Supreme Court's instructions on preparation of the record on appeal. These instructions should be closely adhered to.

Once a designation of the record has been filed with the division an estimate of costs in preparing the record is sent by the division to the appellant (See Appendix). If payment is not forthcoming within 30 days, the division moves to dismiss the appeal.

PART III

FUNCTIONS OF THE DIVISION OF OCCUPATIONAL LICENSING

3.1 ROLE OF THE DIVISION IN THE PROMULGATION OF REGULATIONS

3.1.1 Drafting Regulations

When a board decides to promulgate regulations, it may prepare a draft on its own. Usually, however, the board requests the division to prepare a draft for the board's review. The division subsequently returns the draft to the board for its comments, revisions and approval.

3.1.2 Hearing Notification

Upon compilation of a satisfactory draft the division, on behalf of the board, prepares the appropriate notice, schedules the meeting place and provides other administrative services related to the adoption of regulation.

3.1.3 Post-hearing Procedures

Once comment has been received and reviewed, the division prepares a final version of the proposed regulation for board approval and adoption. The division readies the order for adoption, affidavit of notice of adoption and affidavits of publication. These documents are referred to the Department of law for review before submission to the lieutenant governor for filing.

3.2 ROLE OF THE DIVISION IN THE DISCIPLINARY PROCESS

3.2.1 Initial Complaint Procedures

Complaints about licensees are handled by the division in the manner generally set forth in Chapter II. Investigations are likewise conducted by the division in accordance with priorities set forth by the director of the division.

3.2.2 Initiation of Formal Proceedings

Whenever an accusation or statement of issues is generated on behalf of the division, it opens a litigation file. Accusations or statements of issues regarding guide licensing and control board matters are usually served by the Fish and Wildlife Protection Division. The Division of Occupational Licensing takes responsibility for serving all other statements of issues and accusations. All notices of defense accompanying these statements of issues and accusations, regardless of the board, are returnable to the director of the Division of Occupational Licensing.

Once the notice of defense has been returned, the Division sends a copy of the notice of defense to the attorney in the Department of Law handling the case (the attorney who drafted the accusations or was consulted on the statement of issues).

3.2.3 Appointment of Hearing Officers

At the same time, the Division requests the Governor to appoint a hearing officer. (See Appendix) This request is directed to the Office of the Governor but is carbon copied to the Department of Law.

Once an appointment has been made, the Division notifies counsel for the State and for the respondent. (See Appendix)

3.2.4 Delegation of Hearing Authority

The Division contacts the board before whom the matter is to be heard in order to make a determination whether that board wishes to sit with the hearing officer or to delegate

the hearing responsibility to a hearing officer sitting alone. In both cases, there should be a written record of the decision, normally in the minutes of the board. When, however, the board delegates the hearing function to a hearing officer sitting alone, a separate order in the case should be filed and transmitted to the parties. (See Appendix)

Once a hearing officer has been appointed, the Division should contact the hearing officer in writing, enclosing the accusation/statement of issues, notice of defense and any other orders filed by the agency. The Division should not attempt to duplicate the hearing officer's file with respect to the pleadings, motions, and other papers filed by counsel. Instead, all papers should be filed directly with the hearing officer.

3.2.5 Issuance of Subpoenas

On rare occasions, a party may wish to engage in discovery prior to the appointment of the hearing officer. This procedure is specifically allowed under the Alaska Administrative Procedure Act. In that instance, the party would normally petition the board for a subpoena. Accordingly, at the same time the board is deciding whether or not it will hear the case sitting with a hearing officer or will delegate the hearing function to a hearing officer sitting alone, the board should determine whether to grant the president or some other officer of the board authority to issue subpoenas duces tecum. (See Appendix) This resolution should be transmitted to the parties as well.

3.2.6 Filing of Proposed Decision

At the conclusion of the hearing, the hearing officer issues a proposed decision. The hearing officer is under a duty to file the proposed order with the Division (acting on behalf of the board) which in turn files it with the Office of the Lieutenant Governor and brings it to the attention of the appropriate board.

3.2.7 Preparation of the Record

Should the respondent appeal from the decision of the board, the Division has the responsibility of preparing the record. The record should be prepared substantially in accordance with the instructions found in the Appendix and in chapter II.15. In every case, the Division assesses the estimated cost of preparation of the record against the appellant. (See Appendix)

3.3. EMERGENCY POWERS

3.3.1 Cease and Desist Authority

Where the division has investigated a complaint (whether it involves a practitioner in violation of the licensing statute or a person who is required to be licensed but is not), and it determines that a violation appears to have occurred or is about to occur, the division, on behalf of the Commissioner of the Department of Commerce and Economic Development, may seek a cease and desist order stopping the person from committing a violation of the Act, or an injunction in superior court.

3.3.2 Procedural Requirements

Before the issuance of an order or application for injunctive relief, the division must first contact the board involved by telephone or telegraph. The proposed action may take place if a majority of the board do not object within 10 days. As a practical matter the division will poll the board at the time of notification to determine whether a majority object to the proposed action.

3.3.3 Nature of the Violation

The Commissioner will not normally invoke the emergency powers of AS 08.01.087 unless in his/her judgment the acts complained of pose a danger to the public health or safety.

3.3.4 Investigative Powers

AS 08.01.087 also authorizes the Commissioner to issue subpoenas and to examine the records of a licensee in aid of an investigation. The requirements set forth in sections 3.2.1 and 3.2.2 above must be satisfied before such action may be taken.

PART IV

FUNCTIONS OF THE DEPARTMENT OF LAW

4.1 FUNCTIONS OF THE DEPARTMENT OF LAW

4.1.1 General Duties

By statute the Attorney General is the legal advisor to the Governor and other state officers and is responsible for the administration of state legal services.

The Attorney General is also charged with responsibilities to represent the State in all civil actions in which the State is a party and to prosecute all cases involving violation of state law.

4.1.2 Legal Advice

The Department of Law renders advice in three forms:

(1) "opinions" (sometimes referred to as "formal opinions" or "official opinions") on matters which:

(a) are likely to result in litigation;

(b) are likely to cause significant public controversy;

(c) are of significant precedential importance; or,

(d) involve a significant commitment of human, financial, or natural resources, depending on the resolution of the issue;

(2) "memoranda of advice" (sometimes referred to as "informal opinions" or "unofficial opinions") on less important matters; and,

(3) "oral advice" on minor matters, that may be followed by a "memorandum of advice" where good judgment requires.

Requests for opinions made by boards must be made by the board president and must have the approval of the Commissioner or his designee before submission to the Department of Law. This ensures that frivolous or repetitious opinion requests are not submitted.

Oral legal advice is usually rendered by an assistant attorney general who may be in attendance at a regular or special meeting of a board. It is the policy of the depart-

ment not to send a representative to such meetings unless requested by the board and/or the director of the Division of Occupational Licensing to address issues involving questions of law.

4.1.3 Promulgation of Regulations

The Department of Law is available to work with the regulations specialist of the Division of Occupational Licensing in preliminary drafting of regulations. Normally, however, the department's role is limited to review of proposed regulations for legality of form and substance before adoption. If the department recommends changes, the department will later review the regulations to determine if the necessary alterations have been made. A written statement of approval by the Department of Law must accompany the regulations to permit them to be filed by the Lieutenant Governor.

4.1.4 Drafting of Legislation

The Department of Law is responsible for drafting all administration bills introduced in the legislature at the request of the Governor. Legislative proposals originating with the boards must be submitted to the Commissioner of the Department of Commerce and Economic Development for his approval prior to their submission to the Department of Law.

4.1.5 Representation of the Division

The Department of Law represents the Division of Occupational licensing in all disciplinary proceedings before the board. Similarly, in proceedings to determine whether a license was properly denied, the department represents the division and/or the board.

WHENEVER THE DEPARTMENT OF LAW APPEARS BEFORE A BOARD ON A CONTESTED MATTER IN AN ADVERSARY CAPACITY IT MAY NOT RENDER LEGAL ADVICE TO THE BOARD REGARDING HOW THE BOARD SHOULD DECIDE.

The board should seek legal guidance from the hearing officer appointed to serve as the presiding officer. This does not preclude the board from hearing argument from both parties (the state and the respondent) regarding issues of law or procedure so long as both parties are present and are afforded the opportunity to respond.

4.1.6 Representation of the Board

Whenever a board has rendered a decision challenged in court by a respondent or third party, the Department of Law assures the representation of the board. Similarly, whenever a board member or board is sued for conduct within the scope of its responsibility, the department will represent the member or the board.

4.1.7 Audits of board procedures

When complaints are received by the Department of Law regarding alleged unlawful practices of a board (e.g., conducting business without a quorum, arbitrary denial of a license), the department will initiate an investigation or request the Department of Commerce and Economic Development to do so.

Where violations of the law have occurred, the department will meet with the board to assist it in undertaking corrective measures.

Where a board or board member refuses to abide by the advice rendered by the department, the department generally will not represent that board or board member in any suit challenging the legality of the acts complained of. Failure to follow the advice of the Department of Law could lead to liability for damages or other relief. See AS 08.02.020.

Re: [Insert caption on accusation]

You are hereby notified that the enclosed Accusation has been filed with [insert name of agency]. [Insert name of agency] will conduct a hearing to decide the issues presented in the Accusation.

Notice of Defense and Request for Hearing.

The enclosed Accusation was prepared pursuant to AS 44.62.360 and sets forth the issues that will be decided by [insert name of agency]. This letter constitutes notice as required by AS 44.62.380 that you may request a hearing on the issues set forth in the Accusation.

Unless a written request for a hearing signed by you or on your behalf is delivered or mailed to [insert name of agency] within 15 days after receipt of the enclosed Accusation, [insert name of agency] pursuant to AS 44.62.530 will decide in your absence the issues presented in the Accusation. The request for a hearing may be made by delivering or mailing the enclosed Notice of Defense to [insert name of agency] in the enclosed envelope, postage prepaid. Mailing of the Notice of Defense signed by you or on your behalf and returned to [insert name of agency] within 15 days in the enclosed addressed envelope, postage prepaid, acknowledges receipt of the enclosed Accusation and constitutes a notice of defense pursuant to AS 44.62.390.

Sincerely,

Don Hostak, Director
Division of Occupational
Licensing
Department of Commerce and
Economic Development

convicted of a crime involving moral turpitude.

WHEREFORE, petitioner seeks:

1. To revoke respondent's license to practice dentistry in the State of Alaska.

2. To make such other findings and disposition of this proceeding as are just.

INSTRUCTIONS TO ADMINISTRATIVE AGENCIES

ON APPELLATE PROCEDURE

Prepared and Distributed by

Clerk, Supreme Court
State of Alaska

March 1975

INSTRUCTIONS TO AGENCIES ON APPELLATE PROCEDURE

In order to facilitate the handling by the Superior Court of appeals and petitions for review, this memorandum of instructions has been prepared. There is presented here the detailed, step-by-step procedure to be followed by the clerks in handling such cases. The rule numbers which appear from time to time refer to the Rules of the Court and to the Alaska Statutes.

WHAT MAY BE APPEALED AS 44.62.560

An appeal may be taken to this court from a final administrative order.

1. NOTICE OF APPEAL

When an appeal is taken from a final judgment of an agency the first document that counsel will file is a Notice of Appeal with the Superior Court. Counsel will also provide the necessary copies along with an Attorneys of Record list for the Clerk of Superior Court. The court will then serve all parties with a copy of the Notice of Appeal.

When the Notice of Appeal is filed it will be automatically given the case file number which should be referenced

2. ATTORNEYS OF RECORD

After the court has mailed copies of the Notice to all parties, the parties wishing to join in the appeal are to file an entry of appearance within thirty (30) days, if they

fail to appear they will be defaulted.

At the end of the 30 day period an appellate conference will be held with only those who have filed their appearance. At this conference the designation of record for the appeal will be determined and any other special conditions.

3. DESIGNATION

After the conference the appellant will file a designation of record with the agency and serve a copy on all parties.

The agency will promptly advise counsel of the cost of preparation of the record. If the agency has not received the requested fees or corporate surety bond to equal the estimated cost within 20 days after notification, then the agency is to notify the court in writing of the amount due and when counsel was advised and copy all parties in the action.

The record on appeal is due 30 days after the fee has been submitted.

4. PREPARATION OF RECORD ON APPEAL

The clerk prepares the record by taking from the agency files those papers and documents referred to in the designation and they are placed in one or more separate files, depending on how voluminous the record will be. Documents should be in chronological order starting with the first instrument filed (generally the complaint or petition), each page should be numbered beginning with number 1 and going on page by page to the end of the record. Numbering may be done

in ink or with a rubber stamp numbering machine, at the lower right hand corner of each page. Papers should be fastened at the top of the folder with an acco fastener.

A typical record on appeal would probably include (but not be limited to) the following:

a. Petition or complaint

b. Answer

c. Motion for early hearing or Stay

d. Memorandum in support

e. Hearing notes on Motion

f. Motion for reconsideration

d. Administrative agency order

5. TRANSCRIPT

Included in the designation filed with the agency will be a request for transcript. If the evidence or proceedings in an action were electronically recorded, it is likely that counsel will request that a transcript of the same be included in the record on appeal. The transcript may consist of one or more separate volumes separately bound. It is not necessary to place these volumes in file folders, they should be forwarded to the court along with the rest of the record on appeal.

6. EXHIBITS

Exhibits designated for inclusion in the record should generally be placed in separate folders, envelopes or boxes, together with a document made up by the clerk

indicating the contents, such as : "Petitioner's Exhibits Nos. _____ to _____ inclusive".

7. TABLE OF CONTENTS-CERTIFICATE

Before the record is ready to be forwarded to the Superior Court, two more things must be done. First, the clerk should prepare a table of contents which should list each document contained in the record on appeal, with corresponding reference to the place that such document may be found, by file number and page number. This table of contents should be fastened to the top of the first page of the first file of the record on appeal so that it will be in the front of the folder. [Rule 9(f)(2)] (Example). Finally the clerk should add to the table of contents a certificate which shows the following:

a. The date upon which the preparation of the record was completed.

b. The date upon which notice of the completion of the record was given to counsel for each of the parties.

c. The names and addresses of counsel notified.

d. The manner in which the notice was given [Rule 9(f)(3)(4)]. (Example)

Upon completion of the record it should either be delivered to the Appeals Clerk or mailed by certified mail to the court.

8. DETERMINATION

The record from the agency will be held with the court until the determination by the court and upon decision

a copy will be mailed to the agency. The file will be held further for a 30 day period for Supreme Court appeal time to run. If no appeal is taken then the record will be transmitted back to the agency.

9. MISCELLANEOUS

a. SERVICE. Various papers that are filed with the clerk in connection with an appeal must be served on adverse parties and when filed, must be accompanied by proof of service. This subject is governed by Rule 39.

b. FILING FEES. Filing fees in connection with appeals and petitions for review are to be paid directly to the Clerk of the Trial Courts for the district. The fee is $50.00.

c. DESIGNATION. This document tells the agency what the attorney wants them to prepare as a record on appeal for the Superior Court. AS 44.62.560(c)(d).

d. EXTENSIONS OF TIME. When the agency finds that a record is of such size that it will be impossible for them to certify the record on or before the due date the agency should contact the appellant of the problem who then should apply to the court for an extension.

Dear ~~Senator~~ Brad Bradley:

During the 1980 session, the Legislature will continue to be involved with "sunset" reviews of several occupational licensing boards and commissions. We will be deciding to continue, change or terminate these boards and commissions, as well as several related licensing statutes.

Several questions and issues will have to be addressed in reaching those decisions. Although many will be unique to individual boards, some will be common to all occupational licensing and regulation.

Enclosed is a booklet on occupational licensing prepared by the Council on State Governments. This short booklet is very helpful in defining several of the basic questions and issues which will be addressed in the coming session.

Sincerely,

Jim

Foreword

In 1952 the Council of State Governments published *Occupational Licensing Legislation in the States.* That publication reported licensure of more than 70 occupations, trades, and professions—from abstractors to yacht salesmen. Today state government has a renewed interest in occupational and professional licensing as a result, in part, of the increasing number of requests for licensure.

The Council of State Governments is pleased to join with the Educational Testing Service (ETS) in publication of this guide. It is intended to assist state policymakers confronting decisions regarding the credentialing of various occupations and professions.

The material was prepared by Dr. Benjamin Shimberg, Associate Director, Center for Occupational and Professional Assessment, ETS, with assistance from Doug Roederer of the Council of State Governments' staff. The Council is indebted to the authors and a number of individuals who gave generously of their time in reviewing early drafts of this manuscript. They include Mrs. Karen Greene, Manpower Analyst, Employment and Training Administration, U.S. Department of Labor; Mrs. Ruth Herrink, Director, Virginia Department of Professional and Occupational Regulation; Ms. Corrine Larson, Director, and Dr. Colleen Coughlan, Supervisor of Special Studies, Health Manpower Program, Minnesota Department of Health; Dr. Raymond Salman, Director, Division of Professional Licensing Services, New York State Department of Education; Neil Duncliffe, Lexington Office, and Alec Sutherland, Midwestern Office, the Council of State Governments; Dr. Albert P. Maslow, Director, and Dr. Gordon Cook, Staff Associate, Center for Occupational and Professional Assessment, ETS.

A legislative handbook on occupational and professional regulation is currently in preparation under a grant from the Employment and Training Administration, U.S. Department of Labor, to the Educational Testing Service. The handbook will deal with a variety of regulatory issues in considerable detail and will present action options for consideration. The handbook is being developed cooperatively by Dr. Benjamin Shimberg and his associates at Educational Testing Service, with assistance from the Council of State Governments. It is expected that the handbook will be ready for distribution in the spring of 1979.

Herbert L. Wiltsee
Executive Director
The Council of State Governments

Lexington, Kentucky
March 1978

Introduction

Licensing is a process by which an agency of government grants permission to an individual to engage in a given occupation upon finding that the applicant has attained the minimal degree of competency required to ensure that the public health, safety, and welfare will be reasonably well protected.

Licensing makes it illegal for anyone who does not hold a valid license to engage in the occupation, profession, trade, etc. covered by the statute. Thus, the power to license can be used to deny individuals the legal opportunity to earn livelihoods in their chosen fields. This is an awesome power—one that must be exercised judiciously.

The public seems to have accepted licensing as a restriction that is needed to protect society from incompetents and charlatans. Proponents of licensing—especially trade and professional groups—maintain that licensing benefits the public by assuring consumers of high-quality goods and services.

Critics of licensing believe otherwise. Consumer groups are asking, "Who benefits most from licensing, the public or the group being regulated?" They cite studies funded by the U.S. Department of Labor, and other agencies, which show that licensing boards often use their powers to restrict the supply of practitioners. These restrictions, say consumers, eventually affect what they must pay for services. (Selected references relating to licensing and certification are at the end of the report.)

The Federal Trade Commission (FTC) has noted that many licensing boards prohibit price advertising and that a few also prohibit competitive bidding. The FTC recently proposed rules that would outlaw such restrictions. In the meantime, the U.S. Supreme Court has decided that it is unconstitutional for licensing boards to prohibit pharmacists from advertising the price of prescription drugs or lawyers the cost of certain services. The Antitrust Division of the U.S. Department of Justice has also initiated legal action against the State Board of Accountancy in Texas, charging that its rules against competitive bidding by accountants violate the federal antitrust laws.

Nevertheless, many new licensing laws continue to be enacted each year. At a recent session, one state legislature considered bills to license auctioneers, home improvement contractors, pet groomers, sex therapists, television repairmen, electrologists, data processors, appraisers, professional salespersons, and a dozen other groups. Faced by such an onslaught, how can legislators decide when

it would be in the public interest to license members of an occupation?* What questions should legislators ask? What alternative forms of regulation should be considered before licensure is granted?

This booklet attempts to put licensing into perspective by calling attention to a number of issues that should be considered:

- Deciding whether state governments should regulate an occupational group at all.
- Drafting the regulatory statute so that it is fair to practitioners and consumers alike.
- Establishing an administrative structure that promotes accountability and public confidence.

These issues are discussed in Chapter 1.

Chapter 2 provides a guide for questioning groups that are seeking regulation of an occupation. The questions may be posed in written form to give sponsors of the legislation ample opportunity to assemble the necessary data, or they can be put orally during the course of hearings on the legislation.

Chapter 3 describes efforts in three states—California, Minnesota, and Virginia—to bring about change in their regulatory structures. In each instance, names of key contacts are provided for those wishing more information.

*Throughout this report, the term occupation should be understood as including those who engage in an occupation, profession, trade, etc.

1. Guidelines for Occupational Regulation

The following guidelines for planning or reviewing a regulatory program grew out of a series of regional conferences convened in 1975 and 1976 for the purpose of identifying ways to improve occupational regulation.[1] Participants in the conferences included legislators, administrators of state licensing programs, attorneys general, and consumer officials. The problems, issues, and concerns voiced by participants and the solutions proposed provided the basic material from which the guidelines and accompanying text were developed.

Should State Government Regulate an Occupational Group?

Regulation should meet a public need.

Requests for licensure seldom come from an outraged public seeking to end some intolerable abuse. Usually they are made by occupational associations acting on behalf of practitioners.

Unfortunately, consumers are rarely on hand at legislative hearings when such regulatory proposals are under consideration. They should be, but in most areas they are poorly organized and lack the skills and resources to assemble and effectively present data which would show the likely impact of regulation on their pocketbooks. In a few states, legislatures have created consumer advocacy agencies to intercede on behalf of consumers before legislative committees and regulatory boards. The Consumer's Council in Massachusetts and the Office of the Public Advocate in New Jersey are two such agencies which show promise of providing consumers with at least a small voice in regulatory matters.

Proponents of licensure, be they the public or an occupational group, frequently argue that regulation is needed to protect the public health, safety, and welfare. Often, however, the occupational group is the major beneficiary of a licensure law. Licensed practitioners gain an exclusive right to deliver services. They may then ask the board, made up of fellow practitioners, to use its powers to restrict entry into the field by setting high education and experience requirements, giving difficult tests, and erecting barriers to keep out practitioners from other states. Thus, the licensed group may establish monopoly conditions which enable it to control the availability and cost of services and restrict competition by prohibiting advertising and competitive bidding. Such practices often operate to raise costs to consumers.

To determine whether an occupational group should be licensed, each proposed licensure program should be carefully scrutinized to determine the precise nature and seriousness of the need. There are many situations where the public needs to be protected from dangers posed by unqualified practitioners, but

not every service represents a threat to the public health, safety, and welfare if a practitioner is unqualified.

The overriding questions that a state must answer when evaluating the need for licensing are: (1) whether the unlicensed practice of an occupation poses a serious risk to the consumers' life, health, and safety or economic well-being; (2) whether potential users of the occupational service can be expected to possess the knowledge needed to properly evaluate the qualifications of those offering services; and (3) whether benefits to the public clearly outweigh any potential harmful effects such as a decrease in the availability of practitioners, higher costs of goods and services, and restrictions on optimum utilization of personnel.

Government should provide only the minimum level of regulation.

Even when an analysis of need shows that there are compelling reasons to regulate an occupation, it does not necessarily follow that licensure is the most appropriate mechanism for doing so. Licensure restricts the scope of practice so that it becomes illegal for unlicensed individuals to provide the services in question. That is why licensure should be used only as the remedy of last resort.

Before legislators agree to license persons in an occupation, other regulatory approaches short of licensure need to be explored. Among the alternatives to individual licensing are the enforcement or strengthening of existing statutes relating to deceptive or unfair trade practices. Another is the assignment of inspection or other supervisory authority to an existing agency, i.e., a department of health or department of licensing and registration. A third alternative is to license establishments rather than individuals. For example, restaurants are licensed, not the individuals who prepare and serve food.

If none of these approaches is considered adequate by a state, it may be necessary to consider ways to regulate individuals. However, the method of regulation and the degree to which it restricts practice should bear some relationship to the seriousness of the harm that is likely to result from the absence of regulation. Two approaches, less restrictive than licensing, are registration and certification.

Registration is an appropriate form of regulation when the threat to life, health, safety, and economic well-being is relatively small and when other forms of legal redress are available to the public. In its simplest form, registration requires that an individual file his or her name and address with a designated agency. There is usually no preentry screening by a regulatory board. Registration in this form does little more than provide a roster of practitioners. However, it is also possible to have a registration requirement in combination with minimum practice standards set by the agency. Thus, while registration would not be exclusionary, it would subject registrants to minimum standards and thereby provide some protection to the public.

Certification is a form of regulation which grants recognition to individuals who have met predetermined qualifications set by a state agency. Only those who

meet the qualifications may legally use the designated title. However, noncertified individuals may offer similar services to the public as long as they do not describe themselves as being "certified." Certification is especially appropriate when the public needs assistance in identifying competent practitioners, but where the risks to health and safety are not severe enough to warrant licensure.

There is considerable confusion surrounding the terms "registered" and "certified." Indeed, they are sometimes used interchangeably with licensure. For example, "registered nurses" are actually licensed nurses because it is illegal for anyone to practice nursing unless he or she has been granted a license by a state nursing board. Confusion is further compounded by the fact that many nongovernmental agencies, such as professional societies, offer "certification" to those who meet predetermined qualifications.

If nothing else, the confusion in terms reflects a search for alternatives to the more stringent remedy of occupational licensing. Examples of state experimentation with these alternatives are found in Chapter 3.

If an occupation is to be licensed, its scope of practice should be coordinated with existing statutes to avoid fragmentation and inefficiency in the delivery of services.

Occupational groups seeking mandatory licensing usually argue that it is necessary to have their scope of practice defined broadly in order to prevent unqualified persons from engaging in any aspect of the occupation. However, as technology expands and new occupational categories emerge, members of occupational groups often find that the existing broad scope of practice statements bring them into conflicts with already licensed occupational groups. Such conflicts may prevent them from functioning in areas where they are qualified by training to provide services.

Restrictions imposed by overly broad scope of practice statements stem, in part, from a failure to recognize that many groups within a system (such as the health delivery system) have overlapping functions. When such groups are granted mandatory licensure based on broad scope of practice statements, certain undesirable consequences, such as fragmentation of services, underutilization of manpower, and unnecessary proliferation of occupational categories, are likely to result.

A field becomes fragmented when many discrete specialty groups, each with its own scope of practice statement, obtain licensure. Fragmentation may be signaled when an already licensed group seeks to prevent an emerging group with a different occupational label from sharing the work.

Underutilization occurs when paraprofessionals, medical auxiliaries, or groups which combine parts of several already regulated occupations find that their utilization within the delivery system is impeded by jurisdictional conflicts

and by prohibitions against the delegation of functions. Such an uncoordinated delivery system forces employers to hire one of each kind of practitioner. The state policy focus should be on competence and efficiency and the avoidance of exclusive allocation of functions to certain named groups.

Proliferation or pressure to license new occupational categories sometimes happens when practice restrictions of one group prevent members of another group from providing services that the latter group is qualified to provide. For example, in some states psychologists have claimed that the provision of personal-social advisement services by counselors (with M.A. or Ph.D. degrees) constitutes an infringement on the Psychology Practice Act. The group prevented from practicing—in this case, counselors—is then likely to seek its own licensure law in order to gain statutory recognition that would legitimatize its activities.

Rather than license a new and discrete occupation, the legislature might consider alternatives such as narrowing the overly broad existing definition of scope of practice or including the new group within the definition of competent practitioners.

Licensure Laws Should Be Fair and Operate to Protect Practitioners and Consumers Alike

Requirements and evaluation procedures for entry into an occupation should be clearly related to safe and effective practice.

Regulatory laws are often exclusionary because they include requirements—such as age, years of formal education, citizenship, high license fees, and residency—which bear little or no relationship to effective performance on the job. Irrelevant requirements should be eliminated.

The completion of an approved training program and certain experience requirements are usually reasonable requirements. Yet even such requirements can become exclusionary if the time involved in training is excessive or if needless restrictions are imposed. For example, a requirement that an applicant's experience must have been acquired in a specific city or state would be difficult to justify as reasonable.

While most applicants for entry into a regulated occupation usually apply after completion of an approved program of training, the law should make allowances for those who may have acquired their competence outside the formal educational system—in the armed services, for example. It should also be recognized that for certain occupations no formal training programs presently exist. Drug and alcohol counselors, for example, often acquire their knowledge of chemical dependency through on-the-job training and experience. Ways must be found to evaluate such individuals, not in terms of their formal training, but in

terms of their demonstrated competence to perform the functions required by the job.

Indeed, all testing and evaluation procedures used in making licensing or certification decisions need to be scrutinized to be sure that they are fair to candidates and that they meet professional testing standards. Further, in those fields where employers are required by law to hire only individuals who are licensed or certified, the state boards or agencies which issue these credentials should be aware that they may be subject to the proposed "Uniform Guidelines on Employee Selection Procedures."[2] These uniform guidelines stipulate that evaluation procedures which affect employment decisions must not discriminate unfairly against members of minority groups, women, or other classes protected under Title VII of the Civil Rights Act of 1964. In addition, when the tests used in the licensing or certification process result in significant disparities in passing rates among various applicant groups, and there is a legal challenge, the board or agency which issued the license or certificate may be required to demonstrate that its procedures, including the test in question, meet the standards set forth in the uniform guidelines.

Every out-of-state licensee or applicant should have fair and reasonable access to the credentialing process.

When two states have a reciprocity arrangement, licensed practitioners from one state will be licensed by the other without further examination. However, where no such agreement exists, licensed applicants from other states may be required to undergo the entire licensing process—including written and performance examinations—regardless of their experience or qualifications. This can work a real hardship on qualified practitioners who have been out of school for many years because examinations used for initial entry tend to emphasize what is currently being taught in occupational training programs. With the passage of time, most professionals forget many of the theoretical concepts as well as specific occupational information that they learned while in school, especially if these are seldom used in their day-to-day practice. However, as they encounter new problems and situations in the course of their practice, they must acquire new knowledge and skills in order to meet these challenges successfully. Thus, the test used to screen recent graduates may not be the best or the most effective way to assess the competence of those who have been out in practice for a number of years.

Hardships can also be created by the examination process itself. In dentistry, for example, out-of-state licensees and applicants must supply their own patients for the clinical portion of the examination. The applicant must often literally walk the streets in search of individuals in need of specific types of dental work who are willing to have the work done during the course of the licensing examination. Such people are often hard to find.

Many people believe that licensure by endorsement is a more equitable procedure. Under such an arrangement, individuals who are already licensed in one state may submit their credentials for evaluation by the state to which they wish to migrate. Applicants who are as qualified as those practitioners in the state who were graduated at about the same time would be licensed without requiring them to take the initial application examination.

In order for such endorsement licensing to work, states need to adopt standards of entry that are roughly comparable to those of other states. One technique is to make use of national examinations, when such examinations are available. If an applicant has already passed an examination which is similar or equivalent to the examination given by his new state, the need for reexamination should be questioned. Any state agency that wishes to adopt standards substantially higher than those which prevail elsewhere should be required to demonstrate that these higher standards would clearly be in the public interest and not calculated to exclude qualified practitioners from entering the state.

Once granted, a credential should remain valid only for that period during which the holder can provide evidence of continued competency.

Regulatory agencies usually make a strenuous effort to ensure that applicants are initially competent, but they are often much less zealous in monitoring the competence of practitioners after they have been licensed. Thus, the public has no assurance that licensees have kept abreast of developments and can still provide high-quality services.

A number of strategies have been proposed for assuring continued competence. While many states have adopted mandatory continuing education as a condition of relicensure, there is no evidence available to indicate that mandatory continuing education assures competence. Indeed, consumer groups are asking whether the cost of such education, which ultimately must be borne by the public, will provide consumers with anyy added protection against incompetent practitioners.

The idea of reexamination as a condition of relicensure has been strongly resisted by licensees. However, a number of nongovernmental medical specialty certification boards have recently demonstrated that it is possible to develop written tests and performance measures which simulate important aspects of the physician's work. It remains to be seen whether periodic reexamination is a practical and cost-effective way of dealing with the problem of continued competency.

Peer professional evaluation—through direct observation or review of records—has been proposed as a procedure that might be used in place of or as a supplement to periodic reexamination. Unfortunately, doubts about the dependability of peer review procedures have been raised. Studies show that qualified experts often do not agree as to what constitutes acceptable

performance; neither do they apply standards uniformly. Clearly, more attention needs to be paid to defining "acceptable performance" and to training evaluators in the use of standards before peer review procedures are widely applied.

A vigorous enforcement and discipline policy for those found unfit to practice has also been proposed. This approach assumes (1) that most practitioners, acting in their own self-interest, make an effort to keep abreast of their fields; and (2) only a small minority, for a variety of reasons, fails to maintain its competence. Two such minorities are inactive and high-risk practitioners.

At present most inactive practitioners can preserve their right to practice by simply paying the renewal fee. By keeping their licenses in force, they are able to resume practice at any time even though they may have failed to maintain their competence. States should consider requiring that practitioners who have been inactive for a substantial period to demonstrate that they are still competent.

A system needs to be developed to identify high-risk practitioners against whom numerous complaints or malpractice actions are lodged. If there is evidence of negligence or incompetence following an investigation, such individuals should be subject to disciplinary action. Serious offenders could have their licenses suspended or revoked. Less serious offenders could be placed on probation, required to participate in relevant continuing education programs, or to work under supervision for a stated period.

This "enforcement" approach is selective as it is concerned only with those practitioners who are the subject of complaints. In this respect it is likely to be more cost-effective than a system which subjects all practitioners to rigid educational or evaluation procedures.

The Regulatory Structure and Board Composition Should Promote Accountability and Public Confidence

The public should be involved in the regulatory process.

For many years, trade and professional groups fostered the idea that only members of their own occupational group were qualified to make judgments about entrance standards, examination content, or disciplinary matters. This professional mystique argued that the public had no role to play in the regulatory process.

In recent years this view has been challenged. Consumers now argue that since regulation affects their vital interests, they have a right to share in the decisionmaking process. They point out that every day laymen legislators and jurors must make decisions in highly technical areas. They are able to do so by utilizing the testimony of experts to set forth the facts and clarify the issues.

There has been a growing movement to place public members on regulatory boards to ensure that there will be input from groups other than those representing the regulated occupation. Those who favor the idea believe that the

presence of public members will help to break up the in-group psychology that often prevails when all board members are practitioners. Ideally, public members will provide a point of view otherwise absent on a board composed solely of license holders.

Initial experience with public members often was not favorable because those appointed lacked the qualifications for effective service on a board. Recent experience suggests that public members can make significant contributions when they have backgrounds equipping them to deal with problems and issues likely to come before the board, a strong interest in serving, sufficient time to devote to board activities, and prior experience in community affairs so that they know how to get things done in the public arena.

While public members may not know much about the technical aspects of an occupation, they may nevertheless contribute to board deliberations by raising questions about such topics as the appropriateness of entrance requirements, board rules, tests, fees, and disciplinary procedures.

How many public members should be on a board? There is no simple answer, but if impact is the major criterion, one public member is probably too few, two would be the minimum, and three or four would increase the likelihood that the impact of public members would be felt, particularly if the board had from seven to 10 members. In California, the legislature has decreed that for certain boards a majority shall be public members. (See Chapter 3 for a case study of the California experience.)

Complaints should be investigated and resolved in a manner which is satisfactory and credible to the public.

Many regulatory agencies are perceived as overly protective of those whom they regulate. This has led consumers to question whether professionally dominated boards are willing to deal forcefully with their peers when complaints are received from the public. Consumers also express doubts that they will receive a fair hearing before boards composed solely of licensed practitioners.

To remedy the situation, a number of states have centralized complaint handling in independent agencies whose staffs are not beholden to the regulatory board or the occupational group. Where investigation reveals that a practitioner has been incompetent or has violated board rules, such agencies can initiate disciplinary action promptly without awaiting consent from the board.

The decision of an independent agency is more likely to satisfy the consumer as a fair decision than one rendered by the practitioner's peers. Unfortunately, disciplining an errant practitioner will seldom provide relief to the client who has suffered physical injury or financial loss. A number of states have established restitution funds to which all licensed attorneys and real estate brokers contribute. Such funds are used to reimburse clients for determinable losses caused by unscrupulous practitioners. This spares clients the necessity of seeking

relief in the courts, with all the attendant costs and long delays. However, the court route remains open should the client wish to use it.

Procedures for evaluating the qualifications of applicants and disciplinary proceedings against licencees should be conducted in a fair and expeditious manner.

The constitutional rights of applicants are not always safeguarded in the present system which makes the regulatory board virtually the sole judge of who shall and shall not be credentialed. For example, applicants who are rejected on the basis of qualifications or for failing an examination may be forced to take their appeal to the same board that passed on their qualifications initially, or which was responsible for preparing and grading the examination that they failed. Arguing that such applicants always have recourse to the courts ignores the simple truth that litigation is both costly and time consuming. If licensed practitioners cannot work, they are unlikely to have the resources to pursue a lengthy legal battle. Clearly, the solution lies in providing applicants with an independent administrative appeal route either through the centralized licensing agency or through a separate board, such as that provided by the New York State Board of Regents.

The licensee who is charged with incompetence or unprofessional conduct faces the loss of his or her livelihood and is entitled to due process protection. Such protection is absent when members of a regulatory board serve multiple functions (investigator, prosecutor, judge, and jury). Once again, such investigations should be conducted by an independent unit. Where probable cause is found, the evidence should be presented before a hearing officer or an administrative judge to establish the facts and determine whether a law or board rule has been violated. To avoid allegations of favoritism, some boards rely on the hearing officer to recommend appropriate sanctions.[3]

In a number of states, boards find that they are enjoined from taking disciplinary action against errant practitioners while civil or criminal actions against such practitioners are still pending. This means that a licensee charged with negligence, incompetence, or serious breach of conduct may continue to provide services even when the evidence suggests that he or she could be a menace to society. To rectify such situations, states are granting regulatory agencies emergency powers which will enable them to suspend an individual's license for a given period where continued practice would not be in the public interest.

The purpose of regulation is to protect the public, not the economic interest of the occupational group.

Boards sometimes make decisions that serve the economic interests of the occupational group rather than those of the public. For example, a board may

tighten entry qualifications or raise the passing score in order to limit the supply of practitioners. They may also pass rules that prohibit price advertising or competitive bidding. Such rules often characterize competitive practices as "unprofessional conduct." Restrictions on the flow of truthful information concerning fees, qualifications, and professional attainments clearly hamper the consumer's ability to shop for services. Competition is lessened, thereby reducing downward pressure on fees.

Many licensing statutes substantially adopt the private ethical code of the profession. These ethical codes are the source of many anticompetitive rules and statutory provisions. Lawmakers should be wary of edifying into public law ethical codes clearly designed to serve and "dignify" the profession. One possible unintended effect of giving specific legislative sanction to prohibitions against competitive bidding, for example, might be to place such practices beyond the reach of federal antitrust law.[4]

The administrative structure should promote efficiency, policy coordination, and public accountability.

While autonomous regulatory boards continue to exist in many states, there is a growing realization that such an arrangement, besides being inefficient from the standpoint of optimal use of state resources, makes coordination and effective oversight very difficult.

Three widespread practices tend to contribute to board autonomy. They are (1) boards are often housed in their own building or rented office space, physically separated from other offices of state government; (2) boards frequently generate their own revenue through the collection of license fees, and thus exist outside the usual budget and appropriation mechanisms of the legislature; and (3) trade and professional associations frequently are vested with the power to nominate board candidates. This practice contributes to the notion that the board is an extension of the association rather than an arm of state government.

Some states have created umbrella agencies to provide administrative, clerical, and fiscal services to the various boards. These are usually "housekeeping" agencies headed by an administrator who has no authority to coordinate board activities or to question board policies. This lack of coordination sometimes results in the setting of standards or promulgation of rules by a board without taking into consideration the probable impact that these may have on other boards or agencies.

Some critics of such "housekeeping" agencies say that the authority of the administrator needs to be strengthened if policy coordination is to occur. They urge that the director have power to hire and fire board staff, control board budgets, review and approve proposed rules and regulations, initiate and conduct investigations, provide legal services to boards, and see that disciplinary

proceedings are conducted expeditiously and with adequate due process safeguards. Under such an arrangement, boards would be largely advisory. They would concentrate on formulating and proposing policies, establishing professional or technical standards, developing examinations, and recommending sanctions in disciplinary matters.

Occupational groups tend to be critical of the strong administrator approach, arguing that there is not sufficient evidence of wrongdoing to suggest that such a proposal is necessary. Moreover, they believe that such an arrangement places too much power in the hands of a single individual. To counter this latter criticism, it has been proposed that, as an alternative to a strong director, rulemaking and decisionmaking authority be placed in a board or commission made up of public members without financial, educational, or marital ties to any of the regulated occupations. Such a group would be better able to evaluate proposed rules and other board actions from a public interest viewpoint. In New York State, for example, where professional boards serve primarily in an advisory capacity, the New York State Board of Regents, a lay board, has decisionmaking authority.

The system used to finance regulatory activities can contribute to the accountability of individual boards and to the effectiveness of the overall regulatory program.

The tradition of financing regulatory activities out of income from fees has contributed to the strength and durability of many autonomous boards. Because such boards do not have to come before the legislature to obtain funds, they are seldom required to justify their budgets or to demonstrate that they are serving an important public purpose. In a very real sense, the fiscal autonomy of boards contributes to their lack of accountability. Moreover, when any of these boards has income in excess of their expenses, such funds are usually placed in segregated accounts under the control of the boards. Board members tend to think of these funds as belonging to the occupational group to be used solely for the benefit of the group.

Many people view a change in the financial structure of licensing as an effective way to make boards more accountable. They argue that since regulation is intended to protect the public, all regulatory activities should be funded, at least in part, by the taxpayers at large. They urge that any income from fees go directly into the general fund and that individual boards be allocated their operating expenses through the normal budgetary process.

Those who oppose this general fund approach express a concern that the legislature may increase regulatory fees solely for the purpose of obtaining additional revenue and that this would constitute an unfair tax on practitioners in regulated occupations. Fears are also expressed that in periods of financial stringency, board budgets would be cut and regulatory activities curtailed, even when income from fees is adequate to support the program.

Some of these fears have been allayed in states which place all income from fees into an account administered by the umbrella agency. Operating budgets for the various boards are allocated by the agency on the basis of need. This pooling arrangement makes it possible to use funds from financially strong occupational boards—usually those with a large number of licensees—to help defray the operating expenses of the smaller and financially weaker boards. Income from fees also covers the cost of operating the agency and providing all boards with essential services. The agency is, of course, accountable to the legislature for the overall effectiveness of the regulatory program.

2. Questions Legislators Should Ask

Questions legislators should ask of groups seeking regulation follow and have been drawn from a variety of sources. For example, the Bateman Commission Report to the New Jersey Legislature[5] was one of the earliest efforts to develop licensing criteria and procedures for scrutinizing applicant groups to determine (1) whether a need for regulation exists and (2) what mode of regulation would be most appropriate.

Staffs of the Educational Testing Service and the Council of State Governments have attempted to synthesize material from these and other sources in order to provide a comprehensive list of questions that legislators may wish to ask of groups sponsoring regulatory legislation. Not all questions will be applicable in every situation. However, the topics covered provide a useful checklist not only for legislators but also for groups sponsoring legislation as well.

What Is the Problem?

- Has the public been harmed because the occupational group has not been regulated?
  - To what extent has the public's health, safety, or economic well-being been harmed?
- Can the claims of proponents of regulation be documented?

Why Should the Occupational Group Be Regulated?

- Who are the users of services offered?
  - Are they members of the general public who lack knowledge necessary to evaluate qualifications of those offering services?
  - Are they institutions or qualified professionals who have the knowledge to evaluate qualifications?
- What is the extent of autonomy of practitioners?
  - Is there a high degree of independent judgment required of practitioners?
  - How much skill and experience are required in making these judgments?
  - Do practitioners customarily work on their own or under supervision?
  - If supervised, is supervisor covered by regulatory statute?
    Note: There is little justification for licensure if practitioners work under supervision. If regulation is needed, it should be the supervisor who is regulated.

What Efforts Have Been Made to Address the Problems?

- Has the occupational group established a code of ethics?
  - To what extent has it been accepted and enforced?
- Has the occupational group established complaint-handling procedures for resolving disputes between practitioners and public?
  - How effective has this been?
- Has a nongovernmental certification program been established to assist the public in identifying qualified practitioners?
- Could the use of applicable laws or existing standards solve problems?
  - Use of unfair and deceptive trade practices laws.
  - Use of civil laws such as injunctions, cease and desist orders, etc.
  - Use of criminal laws such as prohibitions against cheating, false pretenses, deceptive advertising, etc.
  - Use of existing standards such as construction codes, product safety standards, etc.
- Would strengthening existing laws or standards help to deal with the problem?

Have Alternatives to Licensure Been Considered?

- Use of an existing agency under legislative control.
- Regulation of business employer rather than individual practitioner, e.g., licensing restaurants rather than cooks or waiters/waitresses.
- Registration of practitioners coupled with minimum standards set by state agency.
- Certification of practitioners, thereby restricting use of title to those who have demonstrated competence. Occupational group, however, would not have control of field of practice.
- Why would the use of the above not be adequate to protect the public interest?
  - Why would licensing be more effective?

Will the Public Benefit from Regulation of the Occupation?

- How will regulation help public identify qualified practitioners?
- How will regulation assure that practitioners are competent?
  - What standards are proposed for granting credentials?
  - Are all standards job related?
  - How do these standards compare with those of other states?
  - If standards differ from those of other states, can the difference be justified?
  - Are there training and experience requirements?
    - —Are these requirements of excessive duration when compared with other states? Why?
    - —Does training include supervised field experience? If so, is an additional experience requirement justified?

- Are there restrictions on where or how experience may be acquired? Why?
- Will alternative routes of entry be recognized?
  - —Will applicants who have not gone through prescribed training/experience be eligible for licensure or certification?
  - —Will licensure or certification in another state automatically allow an individual to be credentialed in this state?
- Will applicants for licensure or certification be required to pass an examination?
  - —Does an examination already exist?
  - —Does it meet professional and legal testing standards (see footnote 2 on proposed uniform quidelines)?
  - —If no test exists, who will develop it and how will development cost be met?
- Is there a "grandfather" clause in licensure?
  - —Why is it necessary?
  - —Will such practitioners be required to take a test at a later date?

■ What assurance will the public have that the individuals credentialed by the state have maintained their competence?
- Will license or certificate carry expiration date?
- Will renewal be based solely on payment of fee?
- Will renewal require periodic examination, peer review, evidence of continuing education or other procedures for continued competence?

■ How will complaints of the public against practitioners be handled?
- Will there be a method for receiving complaints?
- Will there be an effective procedure for disciplining incompetent or unethical practitioners?
- What grounds will there be for suspension or revocation of credentials?

■ Is it feasible to establish a restitution fund so that the public will be able to recover money lost through actions of unscrupulous practitioners?

Will Regulation Be Harmful to the Public?

■ Will competition be restricted by the occupational group, e.g., prohibiting price advertising?

■ Will the occupational group control the supply of practitioners?
- By standards more restrictive than necessary?
- By restricting entry of those from other states who have substantially similar qualifications?

■ Will regulation prevent the optimum utilization of personnel?
- Will "scope of practice" prevent individuals from other occupational groups from providing services for which they are qualified by training and experience?

■ Will regulation increase costs of goods and services to consumers?

■ Will regulation decrease availability of practitioners?

- Are there safeguards in law to ensure that the occupational group does not use its powers to promote self-interest over those of public?

How Will the Regulatory Activity Be Administered?

- Will the regulatory entity be composed only of members of occupation?
  - Will there be public members on the regulatory entity? In what percentage?
- What powers will regulatory entity have?
  - Will it review qualifications, examinations, investigations, and disciplining of practitioners?
  - Will it promulgate rules and codes of conduct?
- Will actions of regulatory entity be subject to review?
  - By whom?
  - Will reviewing authority have power to override regulatory entity actions? Which ones?
- How would cost of administering regulatory entity be financed?
  - How will fees be set?
  - Will income from fees go into general fund, departmental fund, or special account controlled by regulatory entity?

Who Is Sponsoring the Regulatory Program?

- Are members of the public sponsoring regulatory program?
- What associations, organizations, or other groups in the state represent practitioners?
  - Approximately how many practitioners belong to each group?
  - What are the different levels of practice in each group?
- Which of the above groups are actively involved in sponsoring regulatory programs?
  - Are other groups supporting the effort? If not, why?

Why Is Regulation Being Sought?

- Is the occupational group seeking to enhance its status by having its own regulatory law?
- Is the occupational group claiming it is prevented from rendering services for which its members are qualified by "scope of practice" statement of another occupation?
  - If so, what efforts have been made to resolve differences?
- Is the occupational group seeking licensure in order to gain reimbursement under federal-state programs or private insurers, e.g., Medicare or Blue Cross?
- Is the public seeking greater accountability of the occupational group?

3. Several Case Studies

Questions are being asked about state schemes for regulating occupations. In some states legislators have undertaken comprehensive studies aimed at producing major structural changes in the licensing system. In others, legislators have focused on specific problems, such as the process by which decisions are made to license or not to license an occupation and whether the scope of practice for an occupation should be expanded. There has also been growing interest in devising ways to make boards mc ccountable. Placing public members on boards represents one such effort.

This chapter presents case studies illustrating approaches that three states have taken in dealing with licensing issues. These case studies are not offered as models to be emulated, but rather as examples of how legislators can break out of conventional molds to deal with regulatory problems.

California Public Member Act

A frequent criticism of licensing boards composed entirely of members of the regulated occupation has been that such boards sometimes use their powers to promote the interests of the occupational group rather than those of the public. Some of the ways in which they may do so are by setting excessively high entry standards or promulgating rules that unduly restrict competition.

In recent years a number of states have added one or more public members (citizens with no particular interest in the occupation or profession governed by the board) to licensing boards in an effort to ensure that the interests of the public would be represented in decisionmaking. Such appointments were often viewed as "tokenism" since public members often lacked qualifications and therefore had relatively little impact on the regulatory process.

To increase public confidence in the regulatory process, S.B. 2116 (known as the Public Member Bill) was introduced into the California legislature in 1977. This act, coupled with S. B. 1039 and S.B. 1987, provided for a majority of public members on all boards except the health-related boards and accountancy, where the ratio is one-third public members to two-thirds licensee members. These bills were enacted and went into effect on January 1, 1977. The California Public Member law recognizes the public policy nature of many decisions faced by regulatory boards and it institutes a system that ensures that these decisions will be made by a board containing a diversity of perspectives.

The Department of Consumer Affairs (the agency assigned responsibility for regulatory boards) conducted a wide-ranging "talent search" to identify prospective board members who were either knowledgeable about the occupation or who had background or specialized skills that would enable them to contribute to the work of the board. Among the initial group of appointees were a no-fee physician offering medical services to ghetto residents to the Board of Medical Examiners, a black female law professor specializing in Title VII of the Civil Rights Act to the Board of Dental Examiners, a lawyer/accountant to the Contractor's Board, and a legal aid attorney to the Collection Agency Advisory Board. Perhaps the most widely publicized appointment was that of Robert Truehaft to the Board of Funeral Directors and Embalmers. Mr. Truehaft is the husband of Jessica Mitford, author of *The American Way of Death*. Another appointment that attracted wide attention was that of an ex-convict to the Board of Vocational Nurses and Psychiatric Technicians. It has been alleged that this board had been pursuing a policy of denying licensure to ex-offenders.

The department feels its experience with public members has been highly rewarding. It now has substantial citizen participation which has brought a new perspective to board meetings and decisions. Assumptions of the past are being challenged and a broader range of skills is available for problemsolving.

To orient and educate new public and licensee board members, the department has scheduled periodic orientation sessions of one to two days

duration and it has developed an *Orientation Manual* that details the administrative and disciplinary processes.

A board member newsletter, *Boardialogue*, describing board member activity and experience and containing information and news of interest to board members, is prepared and distributed every other month.

A congress of board members, made up of one elected delegate from each of the 38 boards, is being organized. The purpose of the congress is to provide a forum for the exchange of information, to develop positions on legislation affecting several boards, to formulate and discuss licensing issues, and to advise the director on future directions.

A Process for Screening Occupational Groups Seeking Regulation

Minnesota

In an effort to halt the unnecessary proliferation of licensing boards and to achieve greater coordination among existing boards, in 1976 the Minnesota legislature enacted an omnibus credentialing act, which amended an earlier law—the Allied Health Manpower Credentialing Act of 1973. This legislation requires that all health and other human services groups seeking to become regulated go through a review process carried out by the Minnesota Department of Health, Division of Health Manpower, for the Human Services Occupations Advisory Council (HSOAC) which advises the commissioner of the Department of Health.

Any group requesting regulation must first fill out a detailed applicant questionnaire documenting the need for regulation based on factors in authorizing legislation (Minn. Stat., Sec. 214.001). After it has been accepted by the commissioner and HSOAC, the completed questionnaire becomes a public document available for inspection by all interested parties. Staff reviews the application and circulates copies to related occupational groups, appropriate government agencies, and consumer groups. Recipients are invited to point out errors or exaggerations and to comment on problems that may arise if the regulatory proposal is implemented.

A number of public forums are then scheduled in various parts of the state so that interested parties may testify and answer questions with respect to the need for regulation, the mode of regulation, and the type of administrative structure. The forums are conducted by members of a subcommittee of HSOAC. The 26-member council is made up of representatives of the 10 existing health licensing boards, two other regulated groups, three related state agencies, and 11 members appointed by the governor, including five members from groups not credentialed at the present time. HSOAC is staffed by the Division of Health Manpower.

The application, staff reports, minutes, other data, written comments, and testimony received at the public forum are reviewed by the subcommittee. A recommendation, accompanied by supporting documentation, is then transmitted to the full council.

The recommendation may take three forms:

(1) No regulation of the occupation is warranted.

(2) The occupational group should be registered, with administrative authority to be vested in one of the existing health-related licensing boards or in the Minnesota Department of Health. Under registration (known elsewhere as "statutory certification" or "permissive licensure") only practitioners meeting certain qualifications may use a particular title. It would not be illegal for unregistered practitioners in other occupational groups to perform similar tasks, but only those listed on the official register could use the designated title. A

recommendation to register a group may be implemented without action by the legislature.

(3) The occupational group should be licensed, either through one of the existing boards, through the Minnesota Department of Health, or through the creation of a separate board. If the recommendation to license is forwarded by HSOAC to the commissioner of the Department of Health and if the commissioner agrees, he will transmit it to the legislature for appropriate action.

Following recommendation 2, administrative rules for the registration of the group are developed through the assistance of a technical advisory group and comments received through public forums held by HSOAC. When the final draft of the rules is completed, the commissioner of the Department of Health authorizes a public hearing.

Since the inception of the applicant group evaluation process in 1974 nine credentialing decisions have been made. Five decisions for registration were for emergency medical technicians, environmental health specialists, speech language pathologists or audiologists, chemical dependency generalists, and contact lens technicians. In three cases no credentialing—neither licensure nor registration—was recommended. These groups were behavioral analysts, medical laboratory personnel, and ophthalmic medical assistants. One preliminary licensure recommendation for X-ray machine operators is being refined to determine placement of responsibility and to define competency and training levels. If licensure is recommended, this recommendation will be brought to the legislature with all the background work completed for a bill and adequate data to support the recommendation.

Supporters of the program believe that it has helped to reduce unnecessary proliferation of licensure and the further fragmentation of health and human services personnel. An added benefit may be the opportunity which HSOAC provides for interdisciplinary dialogue. This dialogue may encourage licensing board members and others to examine the complexity of the health care delivery system and the issues involved in training, regulating, and utilizing health and human services manpower. With the knowledge gained, decisions can be made from a broader and more informed perspective.

Virginia

The volume of requests for the creation of new regulatory boards and the need for supplemental legislation dealing with existing boards led the Virginia General Assembly in 1972 to pass Joint Resolution 41, directing the Virginia Advisory Legislative Council to study the statutes relating to professions and occupations and their administration.

The report of the committee (H.D. 31), issued in 1974, recommended the creation of a Commission for Professional and Occupational Regulation. The commission consisted of the director of the Department of Professional and Occupational Regulation as chairperson, the commissioner of the Department of Agriculture and Commerce, the commissioner of the Department of Health, the commissioner of the Department of Labor and Industry, and three public members. In 1977, under a reorganization act, most licensing was transferred to the Department of Commerce. The name of the commission was changed to the Board of Commerce. It now consists of nine public members.

The Board of Commerce (like its predecessor) is charged with the responsibility for determining whether professions and occupations not presently regulated should be regulated and, if so, what degree of regulation should be imposed. The legislation specified that the board shall recommend to the legislature only that degree of regulation needed to protect the public health, safety, and welfare. Before recommending any new regulation, the board is directed to consider as alternatives (1) possible statutory changes in civil or criminal law, and (2) possible statutory changes to grant an appropriate state agency power to impose sufficient inspection and injunction procedures.

If these approaches are deemed inadequate, the board is then directed to consider registration or certification as possible alternatives to mandatory licensing. The following criteria are to be considered in determining the proper degree of regulation.

(1) Whether the practitioner performs a service for individuals involving a hazard to the public health, safety, or welfare, if unregulated.

(2) The views of a substantial portion of the people who do not practice the particular profession, trade, or occupation.

(3) The number of states which have regulatory provisions similar to those proposed.

(4) Whether there is sufficient demand for the service for which there is no substitute not likewise regulated and this service is required by a substantial portion of the population.

(5) Whether the profession, trade, or occupation requires high standards of public responsibility, character, and performance of each individual engaged in the profession, trade, or occupation, as evidenced by established and published codes of ethics.

(6) Whether the profession, trade, or occupation requires such skill that the public generally is not qualified to select a competent practitioner without some assurance that he has met minimum qualifications.

(7) Whether the professional, trade, or occupational associations do not adequately protect the public from incompetent, unscrupulous or irresponsible members of the profession, trade, or occupation.

(8) Whether current laws which pertain to public health, safety, and welfare generally are ineffective or inadequate.

(9) Whether the characteristics of the profession, trade, or occupation make it impractical or impossible to prohibit those practices of the profession, trade, or occupation which are detrimental to the public health, safety, and welfare.

(10) Whether the practitioner performs a service for others which may have a detrimental effect on third parties relying on the expert knowledge of the practitioner.

All requests for licensing must be considered by the Board of Commerce before going to the legislature. The board requires each applicant group to submit detailed information relating to the criteria listed in the law. Hearings are held to give the applicant group an opportunity to present its case and for other groups to appear in support of or in opposition to the request. After the board has reached a decision, it transmits its recommendations to the legislature, along with supporting documentation. If the recommendation is in favor of regulation, a detailed set of agreed-upon rules and regulations must be presented to the legislature before action is taken. In this way the legislature knows beforehand what standards and procedures will be used by the regulatory board, even though these details are not incorporated into the regulatory statute.

Since this screening approach was initiated in 1974, 17 groups have filed formal applications. Of these, seven were recommended for licensure, but only three received approval from the legislature. In addition, two groups were recommended for certification, but neither won approval in the legislature. Each year since 1974, fewer and fewer groups have managed to get through the screening process. In 1977 not a single group was recommended for licensure.

California Experimental Health Manpower Projects

In the early 1970s, the California legislature was besieged with requests to license new health professional groups. At the same time, some groups (nurses particularly) were practicing functions not allowed under the current practice acts. The legislature was faced with making decisions on licensure with minimal or conflicting information and licensing boards were faced, in some cases, with widespread violations of the practice acts.

In 1973 the legislature enacted A.B. 1503. This legislation granted authority to the California Department of Health to waive practice acts or other licensing laws to enable training programs to train practitioners in expanded functions. Responsibility for administering the program is placed in the Department of Health, Office of Health Professions Development (OHPD).

Projects are generally carried out by universities, community colleges, clinics, or hospitals. They must make application for the waiver to OHPD. Applicants must provide information on the nature of the licensing/law practice act for which waiver is being requested; the tasks trainees will be trained to perform; the training program facilities, instructional materials, and faculty; and plans to evaluate the training program and the trainees. A review committee made up of Department of Health program specialists, licensing board members, professional association members, and others conducts an informal review of the proposed training program. Suggestions from the review committee frequently result in changes in the proposed program. Based on the information collected through the process, the Department of Health director makes a final decision on approval of the applications.

Currently 28 projects are in operation. Since the program began in 1973, more than 6,000 trainees have completed the more than 75 training programs. The majority of the projects and trainees have been in the nursing field.

This program is considered quite successful by the Department of Health, licensing boards, professional associations, and the legislature. By providing for experimentation with an expanded scope of practice for a particular group, the legislature has data and experience upon which to base its decisions regarding licensure. The program has contributed to changes in the Nurse Practice Act (1975) and the Dental Practice Act (1976).

This program operates on an annual budget of less than $80,000. While state government does not fund the training programs, the program does offer state policymakers an opportunity to make decisions about the shape of the health care delivery system and on professional licensure matters.[6]

Dear Sioux:

First of all I must say that I like the way you spell your name - most unusual.

Secondly, the topics and locations needed for the teleconference hearings which I have requested are as follows:

SENATE COMMERCE COMMITTEE TELECONFERENCE REQUIREMENTS UPDATE

Thursday, February 21, 1980 - Guide Licensing and Control Board Hearing.
Statewide teleconference - all locations required.

Tuesday, February 26, 1980 --Board of Public Accountancy
SB 183 - " An Act Relating to the Regulation of Public Accountants."
SB 287 - " An Act relating to civil Liability for shoplifting and providing for an effective date."
ANCHORAGE, FAIRBANKS & JUNEAU teleconference locations.

Tuesday, March 4, 1980 - Real Eastate Commission hearing.
ANCHORAGE, FAIRBANKS & JUNEAU teleconference loactions.

Thursday, March 6, 1980 - APUC Hearing. (Locations needed for teleconferencing not yet known. Will let you know on this one.)

All hearings in Beltz Room, #209, Capitol. 3:00 p.m.

Sioux Plummer
Teleconference
Room 30, Ground Floor
State Capitol

February 6, 1980

Dear Sioux:

The Senate Commerce Committee would like to reserve teleconference facilities for the following dates. The hearings will all be scheduled in the Beltz Room, Capitol #209 at 3:00 p.m. Additional information will be given to you as it is received. Thus far, the only hearing listed which will be statewide is the February 21, 1980. I will let you know of any changes.

SENATE COMMERCE COMMITTEE TELECONFERENCE REQUIREMENTS

Thursday, February 21, 1980 - Statewide teleconference - all locations needed.

Tuesday, February 26, 1980

Tuesday, March 4, 1980

Thursday, March 6, 1980

Thank-you,

Jon E. Mathison
Administrative Assistant

BOARD OF MARINE PILOTS

Key to References

(Y) - (yellow cover) - State of Alaska Sunset Review, 1979. Prepared by the Division of Occupational Licensing

(B) - (blue cover) - Division of Legislative Audit Performance Review

(W) - (white cover) - Senate Commerce Committee Public Hearing Testimony, December 10, 1979

1. Examinations - Statutory elimination of the Coast Guard exam as a prerequiste to the State Exam. Redundant.
   (Y) - p 5, last paragraph; p 6, first paragraph
   (B) - p 5, paragraph 4; p 7
   (W) - p 2, paragraph 3; p 3, paragraph 1; p 4; p 5, paragraph 4

2. Increase the biennial license fee (presently $200) and the application fee (presently $10).
   (Y) - p 3; p 11, paragraphs 2 and 3
   (B) - p 25
   (W) - page 16; page 18

3. Repeal Sec. 08.62.040 (2)(4) which gives the board the power to regulate pilotage fees. I suggest that this power be given to an existing regulation body, such as the ATC, which already has a rate structure within it.
   (Y) - p 7, last paragraph; p 8
   (B) - p 6; p 7, last paragraph; p 12
   (W) - p 6 (Capt. Ed Murphy); p 28, paragraph 1; p 30

4. The Board of Marine Pilots should be continued. (How many years?)
   (Y) - p 1
   (B) - p 7, paragraph 2
   (W) - p 2, paragraph 3; p 6, paragraph 2

5. Repeal Sec. 08.62.110 (AS 30.10 was repealed in 1970) and the portion of Sec. 08.62.120 which states "A license issued under AS 30.10 lapses at the end of calendar year 1970."
   (Y) - p 11; p 13 (obsolete)

6. AS 08.62.040(a)(3) - repeal vessels in section.
   (a) The board shall:
   (3) keep a register of licensed pilots, [vessels], operators, agents, and managers
   (Y) - This is a suggestion by OL and Elaine Cl...ett may wish to comment on this. Evidently there is no way OL is able to keep a register on all vessels. They are performing this function for the Board of Marine Pilots.

7. Section 08.62.150 should be amended to include failure to maintain qualifications for the original license as a basis for mandatory revocation, suspension, or refusal to re-issue a license.

8. In keeping with the Board's mandate to provide for the maintenance of efficient pilot service for Alaska, AS 08.62.040(4) should be amended to require that marine pilot associations have their records audited annually by a certified public accountant approved by the Board, a copy of such report shall be submitted promptly to the Board.

1. The Guide Licensing and Control Board should continue until July 1, 1982.

2. Eliminate the Transporter laws:

Sec.	08.54.142	(Qualification)
	08.54.144	(Restriction)
	08.54.146	(Report)
	08.54.170(c)	(License fee)

3. The Board and regulations should be transferred to the Division of Fish & Wildlife Protection, Department of Public Safety.

4. Grounds for disciplining a licensee. (08.54.200)

(a)(1) complaints concerning the licensee have been filed with the board from three or more clients of separate parties within the past five years; or

(a)(2) [A LICENSEE HAS BEEN CHARGED WITH A VIOLATION OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS; OR]

(c) After a hearing, the board [SHALL] may revoke, suspend, or deny renewal of a license if the board finds that the licensee

(c)(3) has been convicted of two violations of federal or state sport fish, game or guide statutes or regulations within the past five years.

5. Expiration and renewal (08.54.190)

Change license renewal from the existing one year to two years.

6. Appointment and terms of office (08.54.020)

Members of the board may not serve more than two consecutive terms.

7. Creation and membership of board. (08.54.010)

There is created the Guide License and Control Board consisting of seven members. [NO MORE THAN THREE MEMBERS OF THE BOARD SHALL HAVE A GUIDE LICENSE] Three members of the board shall be active licensed guides receiving a substantial portion of their income from guiding activities.

8. Sec. 08.54.030 Chairman of Board. The board shall annually elect one of its members as chairman [.] and one of its members as vice chairman.

9. AS 16.05.340(e) repeal of head tax.

10. Sec. 08.54.170. License fees. (a) License fees for engaging in the profession of guiding are:

1)	master guide license, biennial	[75]	$200
2)	registered guide license, biennial	[75]	$200
(3)	class A assist and guide, biennial	[15]	$50
(4)	assistant guide license, biennial	[10]	$30

11. Sec. 08.54.100(5) eliminate this section.

[MEETS ADDITIONAL QUALIFICATIONS WHICH THE BOARD MAY REQUIRE.]

This change will mean that all guides will be operating by law and not isolated regulations.

12. Examinations: Instead of one exam per year for registered and master guides there should be two exams per year in two different areas of the state-i.e., one in Anchorage, one in Juneau.

13. 08.54.110(12) eliminate this section.

A person is entitled to be licensed as a registered guide if he [MEETS ADDITIONAL QUALIFICATIONS WHICH THE BOARD MAY REQUIRE.]

ADDRESS YOUR REPLY TO
2020 East Third Avenue
Anchorage, Alaska 99501

April 28, 1980

The Honorable W.E. "Brad" Bradley
Alaska State Senate
Pouch V State Capitol Bldg.
Juneau, AK 99811

Ref: Senate Bill #264

Dear Senator Bradley:

We've been advised that you're hearing on Senate Bill #264 on product liability on Tuesday of this week. Yukon Equipment will be unable to have anyone attend the hearing so we wish to enter this letter as testimony.

Yukon Equipment Inc. is a distributor of construction machinery for the state of Alaska, we are members of a national organization of equipment distributors known as "Associated Equipment Distributors" or, the AED; with headquarters in Chicago.

We have watched our premiums of product liability grow from approximately four hundred dollars a year back in 1970 to almost twenty thousand dollars a year in 1978! This raise in cost not unique to our organization but typical of most members of AED. The reason of these high rates are due to court settlements on claims against manufacturers and sellers of construction equipment. Those claims have been without regard to the age of the equipment the way that the manner in which the machinery has been used or maintained and the state of the art that was available at the time of its manufacture or sale.

As of July of last year there are approximately twenty states that have passed legislation similar to your bill #264.

For the reasons stated above Yukon Equipment will wish to go on record supporting bill #264 and urge its adoption.

Very truly yours,
YUKON EQUIPMENT, INC.

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the provisions of Alaska Statutes 24.20.271 (1), 44.66.010, and 44.66.050 (sunset legislation), a review of the Alaska Transportation Commission (ATC) was conducted to determine if the Commission has been operating in an effective and efficient manner.

AS 44.66 currently specifies that this Commission will terminate on June 30, 1979 but will continue until June 30 of the next succeeding year for purpose of concluding its affairs. This report shall be considered during the legislative oversight function in determining whether the Alaska Transportation Commission should be allowed to terminate, be reestablished in its present form, or in a modified form.

Scope

The functions reviewed included the Commission's executive, administrative, enforcement, rates/tariff analysis, and records/docketing functions. Our review consisted of analyzing and evaluating the following:

(1) Applicable statutes and regulations;

(2) Interviews with Commission members and questionnaires sent to the Commissioners;

(3) Interviews with staff members and questionnaires sent to the staff;

(4) Questionnaires sent to regulated motor and air carriers;

(5) Questionnaires sent to shippers utilizing ATC regulated carriers;

(6) Questionnaires sent to attorneys who practice before the Commission;

(7) Questionnaires sent to other states' transportation regulatory agencies;

(8) Questionnaires and interviews sent to transportation associations;

(9) Observations of Commission weekly meetings and several types of hearings held before the ATC;

(10) Tests of ATC records and documents; and

(11) Interviews with Attorney General's office.

ORGANIZATION AND FUNCTION

The Alaska Transportation Commission was established by AS 42.07.011 in 1969 consisting of three members appointed by the Governor and confirmed by the legislature in joint session. The Commissioners are appointed for staggered six year terms with one member designated by the Governor as Chairman for a two year period.

The Commission is authorized by AS 42.07.121 to administer the Air Commerce Act of 1960, the Motor Freight Carrier Act, the Bus Transportation Act, and the Ferry Transportation Act. Under these Acts, ATC is primarily responsible for assuring that all transportation activity under its jurisdiction provides safe, adequate service at reasonable rates and that sound economic conditions prevail. In addition, the Commission may adopt their own regulations within the framework of the existing statutes to accomplish these purposes.

At the present time, the Commission has a staff of 27, consisting of an Executive Director, two hearing officers, a tariff section, and an enforcement section.

The Commission must frequently exercise its quasi-judicial function by conducting formal hearings on:

- Contested applications for new or extended authority.
- Complaint and accusation matters.
- Rate matters.

In addition they may also conduct hearings required by the Administrative Procedures Act (AS 44.62) for the adoption or amendment of rules.

The tariff section reviews rate changes by ATC regulated carriers. Significant changes are brought to the Commission's attention and may be suspended and investigated. In addition, they maintain a library of tariffs filed nationwide and related publications to aid in analysis of Alaskan tariffs.

The enforcement section investigates consumer and carrier complaints, participates in public hearings and other activities necessary to maintain satisfactory compliance by the regulated carriers, and conducts carrier surveys. If a violation of the statutes or regulations has occurred, civil penalties may be assessed.

REPORT CONCLUSION

Policy Issues

This review contains policy issues raised as a result of our evaluation of various Commission practices. The final policy decisions affecting these practices are not within the scope of this review but require legislative consideration. In debating these decisions, the legislative oversight committees should take into consideration the findings and recommendations presented in this report, so that the potential impact of policy changes can be evaluated.

Report Conclusions

In our opinion, the Alaska Transportation Commission should continue to regulate the transportation industry pending a comprehensive transportation study. The economic consequences of regulation or deregulation need to be determined in order to fully evaluate the public need for this agency.

However, in the interim, certain changes need to be implemented in order for the Alaska Transportation Commission to effectively accomplish its statutory purposes which are: (1) to provide shippers and receivers with a stabilized rate structure; (2) to foster sound economic conditions among the carriers which will guarantee transportation in the public interest; and (3) to promote adequate, economic services and reasonable charges.

The Commission has been hampered by the following problems in meeting these purposes. The statutes and regulations which affect the Commission are overdue for revision in many areas. Their inadequacy and obsolescence has resulted in several successful appeals of the Commission's decisions. The Commission staff is burdened with additional work due to obsolete legislation such as the Ferry Act as well as dump truck and recreational air carrier regulatory sections. Necessary statutory and regulation revisions must proceed if the ATC is to resolve other problems (see Recommendation Nos. 1, 2 and 3).

Improvement is needed in the manner in which ATC approaches its economic regulation mandate and its enforcement responsibilities. Obtaining data on carrier operations is a prerequisite to determining if a public need exists for the carriers and the rates which should be charged. Moreover, once available, the data must then be audited and analyzed in order to make useful comparisons. After carriers are authorized to operate, ATC must enforce the provisions of the various transportation acts with regard to their transport activities. Consistently suspending civil penalties

levied against carriers is not a useful deterrent in that connection. (See Recommendation Nos. 4 and 5).

Applications for authority to operate have not been processed in a timely fashion which is a disservice to the public. Moreover, communicating operating authority to carriers by telegram, before findings of fact and conclusions of law have been drafted, is contrary to statute and has been successfully appealed to the Superior Court. (See Recommendation Nos. 6 and 10).

The ATC Commissioners have not complied with the statutory requirement for providing notice and opening their meetings to the public. Further, the meetings have not been held weekly as is required. In addition, we have recommended both the Commissioners and the staff decline any future free offers of transportation from regulated carriers. (See Recommendation Nos. 9 and 12).

There has been a serious disregard of the prohibitions against ex parte communication by both the Commissioners and the staff. This is evidenced by phone calls to Commissioners from attorneys representing parties to a case before the Commission and orders written by staff members on cases to which they were a party. Also, it appears the Governor, through the Commissioner of Administration, has attempted to influence the judgement of the Commission. These practices must be corrected in order to avoid repercussions from the Alaska Bar Association or the Appeals Court. (See Recommendation Nos. 7 and 8).

Improvements in the efficiency of order writing and decision making would result from compiling a complete and accurate index of all prior orders and court decisions by subject, including name of case, ATC docket number, and court case number. Improvements in attorney and tariff analyst services should result from a transfer to ATC of the assistant attorney general and tariff analyst currently assigned to the Department of Law. This would be appropriate since much of their work is ATC related. (See Recommendation Nos. 13 and 14).

The primary goals of the Commission are to regulate air and motor commerce to ensure economically sound carriers and a stabilized rate structure. In general, the ATC does not have the necessary information on carriers profit, volume of traffic, trends in population, or traffic growth to make informed decisions on applications for authority or rate changes. Before ATC can develop a statewide plan for allocation of routes and rate structure, they must first complete a statewide study of all factors which concern effective and efficient movement of goods and passengers. ATC is mandated by statute to complete a statewide air commerce study and such a study, including all modes of transportation has been

started by the Department of Transportation in Southeast Alaska. The results of this study, as well as a similar study of other areas in the state should enhance ATC's ability to accomplish their primary goals.

In conclusion, the Alaska Transportation Commission should analyze and evaluate the methods of the Commission and take the necessary actions needed to perform and fulfill their responsibilities to the public.

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

The statutory requirements for the ATC to regulate bulk-type commodities and recreational air carriers should be eliminated.

AS 42.10.070 and .080 authorize the Commission to regulate common and contract motor freight carriers. AS 02.05.04 states that no person may engage in air commerce unless a certificate has been issued by the Commission. We believe, however, bulk-type commodity and recreational air carriers should not be regulated. Bulk-type commodity carriers (dump trucks) applications for authority are routinely issued, as we found in a 100% test of the applications for authority processed during fiscal years 1977 and 1978. The Commission granted authority to all of the applicants. The Commissioners agree that dump truck operators should be deregulated.

In another review, we determined that time was spent processing unnecessary paperwork for both dump truck operators and recreational air carriers (air guides and lodge pilots). Of the total applications for voluntary suspension of operations processed during fiscal year 1978, 25% were filed by dump truck operators and 30% were filed by recreational air carriers. Since these are seasonal operators, inactivity of business during winter months was the justification given for these suspensions. Besides processing these applications each fall, an order to resume operations is issued by the ATC each spring.

Air guides' professional skills and standards are regulated by the Guides Licensing and Control Board of the State of Alaska. In addition, both air guides' and pilots' flying qualifications and aircraft safety are regulated by the Federal Aviation Administration (FAA). The FAA's determination as to the type of safety regulations a recreational air carrier will be governed by is based solely on the carrier's type of operations, not whether ATC has or has not issued a certificate of authority to operate. Moreover, lodge pilots who service a recreational lodge and air guides are not servicing a public necessity.

Recommendation No. 2

The statutes and regulations governing the ATC should be revised.

We determined through interviews, questionnaires, and review of the ATC records that the statutes and regulations governing the ATC are conflicting, vague, obsolete and

inadequate to carry out the statutory purposes of the transportation acts. The examples received from the Commissioners, staff, and attorneys who practice before the ATC are numerous. The following are examples of the problems caused by the present statutes and regulations:

1. Cease and desist authority is needed to stop illegal carriers. These carriers' operations are oftentimes completed before the ATC can take any action.

2. A definition of a scheduled air carrier and clarification of the definition of an air taxi operator should be provided. Presently, a decision of the ATC has been appealed to the Supreme Court due to the inadequacies or absence of these definitions.

3. Procedural regulations for hearings conducted by the ATC should be adopted. The ATC is currently in the process of writing these regulations which should be implemented as soon as possible to reduce the time and expense of hearings.

4. A clarification of "incidental transportation to some other primary business" is needed. This is another example of inadequate statutes resulting in a decision of the ATC being appealed to the Supreme Court.

5. A statutory amendment is needed to give the Commissioners the authority to delegate their duty to preside over hearings to a hearing examiner. Due to the absence of this authority a decision of the ATC was successfully appealed to the Superior Court. The ATC has subsequently appealed the Superior Court decision to the Supreme Court.

6. Registration fees (air only), weight fees (motor freight and passenger) and application fees for all types of carriers have not been increased for at least nine years. Further, the fees in the Statutes for motor freight and air commerce do not agree with the amounts in the regulations. Also, the $150 civil penalty fee for motor carriers which may be assessed by the ATC for violations of the Statutes or regulations has not been increased since 1970. Inflation has invariably caused the amount of the above fees to be obsolete.

The adoption of statutes and regulations has taken excessive time in many instances. The uniform accounting regulations were drafted in 1965 but not adopted until 1972. Over two years ago, the Bus Transportation Act and regulations had been rewritten to remove the conflicts between them. However, they have not been adopted to date. In addition, 12 other sets of regulations were developed by the ATC staff over two years ago and forwarded to the Attorney General's office for review and approval. These regulations have not yet been adopted. In 1972 an attorney was engaged under a contract by the Legislative Affairs agency to rewrite the transportation acts. These revisions have not yet been enacted and are currently being reviewed by the Department of Law.

In order to ensure effective administration and enforcement of the transportation acts by the ATC, the statutes and regulations should be expeditiously revised.

Recommendation No. 3

The Commission should seek the repeal of the Alaska Ferry Transportation Act.

Presently, only one ferry operation between the Ketchikan International Airport and the City of Ketchikan falls under the jurisdiction of the ATC through this act. All state operated ferries are exempted from regulation by the ATC.

AS 45.25, the Alaska Ferry Transportation Act states that the Commission may issue a certificate of public convenience and necessity to a ferry operator engaged in the transportation of passengers or vehicles between points within the state.

Complaints from the public concerning this ferry operator may be investigated by and relief sought through a number of other existing agencies, such as the Ombudsman, Consumer Protection section of the Department of Law, Legislators, and the Better Business Bureau. Therefore, we do not find any public need for this Act.

Recommendation No. 4

ATC should regulate the economics of the transportation industry as required by the Alaska Statutes.

AS 02.05.010, AS 42.10.010 and AS 42.15.011 state in part, that the purpose of these chapters is to provide shippers and receivers with a stabilized rate structure, to foster sound economic conditions among the carriers which will guarantee transportation in the public interest, and to promote economical service and reasonable charges. In order that these statutory requirements be met, Alaska Transportation Commission should implement the following:

A. Carriers should be required to submit all pertinent financial data necessary for economic regulation.

ATC only receives financial data pertaining to the costs of operations from 20 scheduled air carriers. Only 20 out of 228 regulated air carriers are scheduled air carriers. The quarterly financial report form for air taxi operators does not include a request for costs of operations.

AS 02.05.170 states that the Commission may require reports from any air carrier covering any operations or business. The Commission may also require monthly, periodical and special reports from an air carrier and may prescribe the manner and form in which these reports shall be made.

Without knowledge as to the air taxi operators costs of operations, the Commission cannot determine if the rates are just, reasonable, and non-discriminatory. As a result the public may be paying excessive charges while air taxi operators make unreasonably high profits. Conversely, the public interest could also suffer from unstable service due to carriers not being allowed to apply rates which would return a reasonable profit. This financial instability could result in a poor quality of service or even a decrease in the number of carriers serving the public.

B. ATC should audit the carrier's accounting records to ensure they are prepared in accordance with regulatory accounting requirements and to determine the reasonableness of the financial data.

The Commission does not perform in-depth reviews of carrier accounting records. Presently, the procedures for field surveys of carriers do not include auditing the financial records. Also, out of approximately 600 regulated carriers, only 58 were surveyed during fiscal year 1978. In addition, the field surveys were conducted by personnel without accounting or auditing expertise.

Alaska Statutes 02.05.170(b), 42.10.120(a) and 42.15.041 authorize the Commission access to all accounts, books and records of the carriers for inspection and examination. AS 02.05.170(b) also states that the Commission may employ special agents or auditors to perform the examinations.

Many of the financial reports or data submitted by the carriers have not been previously audited by an independent certified public accountant. Therefore, there is no assurance that the data is uniformly prepared, consistently reported, or that it is sufficiently accurate to be used as a criteria for the decision-making process of the Commission.

We made a survey of several other states which are economic regulators of their transportation industry. All of them indicated that limited financial/compliance audits of carriers were performed on a regular basis by personnel with accounting expertise. One state required Certified Public Accountants for the Rate Analyst positions.

The following procedures should be implemented by the Commission:

1. Increase the number of field surveys performed each year.

2. Field surveys should include a limited financial/compliance audit of the carrier's accounting records.

3. Interim audits should be performed, as necessary, to verify the financial data submitted by the carriers to justify rate changes.

4. Personnel with accounting expertise and auditing experience, similar to the Utility Financial Analyst positions in the Alaska Public Utilities Commission, should perform the audits. This can be done through attrition in the Tariff Specialist positions.

   As an alternative, in order to decrease the necessary number of audits performed by the Commission staff, carriers who earn above a certain amount of dollars in gross operating revenue could be required by the ATC to submit financial data audited by an independent certified public accountant. This would require ATC to audit only the smaller carriers.

Adequate uniform audit procedures should reduce the time and expense of hearings before the Commission. This would be due to the decreased need for cross-examination to establish the credibility of the financial data introduced at hearings.

C. <u>ATC should establish written basic policies and procedures for analysis of rate changes</u>.

The ATC may require carriers to submit financial data to support and justify requests for rate changes. This financial information can be a very useful tool for the ATC in considering the merits of such requests. It is usually necessary, however, to first analyze the data and develop statistics which can be compared to industry standards in Alaska to effectively measure the justification for the rate change. We found that, in general, this is not being done.

In a review of the rate investigations of ATC, we determined that approximately 317 tariff changes were filed with the Commission during the fiscal year 1978. Of these, only 20 were suspended, pending investigation by the Commission. An examination of these 20 cases resulted in the following:

1. Of the seven cases for which hearings were held:

   - One had a final order which mentions an analysis prepared by the staff, but no work papers of the analysis could be found.

   - Another case had a final order with percentage of revenue and operating ratio calculations.

   - In a third case, a Tariff Specialist had a file containing copies of the carrier's revenue and payroll records. A schedule had been prepared of the different types and amount of revenue, however, there was no indication that some type of analysis of these figures had been done.

   - In the remaining four cases no work papers or indications of a staff analysis could be found.

2. Documents for the remaining 13 cases, for which hearings were not held, could not be found which would indicate that some type of analysis had been done by the staff.

3. Six tariff changes (less than 2% of the total tariff changes filed during the fiscal year 1978) were cancelled by ATC.

The decision whether or not to investigate and analyze the financial justification for rate changes is left to the discretion of each Tariff Specialist. Less than 1% of the tariff changes filed during fiscal year 1978 showed any indication that some type of analysis had been prepared.

We reviewed the operating ratios, (total costs expressed as a percent of revenue), for 97 out of 198 common motor carriers, which were prepared from data on the 1977 Annual Financial Reports submitted to the ATC. We found the ratios ranged as follows:

75% to 105% for Class I (carriers with gross operating revenue of $1,000,000 or more).

73% to 101% for Class II (carriers with gross operating revenue of $300,000 to $1,000,000).

31% to 972% for Class III (carriers with gross operating revenue of $300,000 or less).

The Federal motor carrier regulatory agency, the Interstate Commerce Commission, has determined an operating ratio of approximately 94% to be reasonable.

The wide variations in operating ratio of the Alaska intrastate common motor carriers could be in part a result of (1) some of the carriers' unsophisticated accounting procedures which may result in distorted and inaccurate financial data and (2) the Commission has not adequately regulated the economics of the transportation industry in order to stabilize the rate structure; to foster sound economic conditions among the carriers; or to promote economical service and reasonable charges. The Commission, as noted in part (A) of this recommendation does not obtain sufficient information from 96% of the air carriers to determine the reasonableness of their profits.

Alaska Statutes 02.05.140, 42.10.280, 42.10.285, 42.15.141, 42.15.161 and 42.15.201 require air, motor freight, and motor passenger (bus) regulated carriers, except contract carriers, to file with the ATC tariffs and any subsequent changes thereto, which may be subject to suspension and investigation by the Commission.

Two Commissioners defined a good regulatory policy as one which would allow a carrier a fair rate of return on investment. Neither could define a fair rate of return on investment. One explained that ATC really did not have sufficient information or the skilled personnel to determine the carrier's rate of return and the other did not have any specific percentage in mind but was mainly interested in whether the carrier had safe and sound equipment.

The Commission's current policies and procedures are not sufficient to ensure that the statutory purposes, to foster sound economic conditions among the carriers and to provide the public with stabilized and reasonable rates, are accomplished. We have suggested three general procedures which should assist the Commission in achieving these statutory purposes. In addition, a member of the Commission with economic or financial expertise, such as is required for the Alaska Public Utilities Commission, would be helpful in establishing these necessary policies and procedures and in continuous monitoring of their effectiveness. (See Recommendation No. 11).

Recommendation No. 5

Improvement is needed in the enforcement of the ATC statutes and regulations.

ATC is responsible for enforcing the provisions of the following acts:

1. Alaska Transportation Commission Act.

2. Alaska Motor Freight Carrier Act.

3. Bus Transportation Act.

4. Alaska Air Commerce Act of 1960.

5. Alaska Ferry Transportation Act.

A civil penalty of $150 was established in 1970 for the motor freight carriers and was later enacted into the Bus Transportation Act in 1972. Also, the Air Commerce Act in 1972 provided for a $150 civil penalty for each offense noted by the ATC.

We reviewed the enforcement activities of the Commission and noted the following deficiencies:

A. ATC does not process enforcement actions in a timely manner.

We analyzed complaint, investigation, and accusatory cases for the period of 1½ years ending June 14, 1978. We found the average delay between the initiation of an investigation and the issuance of a final order, for cases involving public hearings, was 12 months (100% test). The average delay in cases not involving a public hearing was seven months, (30% test). In addition 31% of the cases in our test involving violations of statutes pending before the Commission as of June 14, 1978, were older than six months.

None of these average delays include investigative activity prior to the formal issuance of an accusation since, in most cases, the files did not show investigation commencement dates.

Standard operating procedures for ATC enforcement activities are currently being developed. To ensure their effectiveness, they should include provisions to record the date on which investigation commences and continuous monitoring of open files in order that processing is expedient.

B. The Commission frequently suspends all or part of the civil penalties assessed for violations.

Approximately 80 cases during fiscal year 1978 resulted in fines being assessed by the Commission. In 46 cases all or a part of the fines were suspended. The amount suspended equalled 74% of the total fines assessed.

We believe, in the first place, fines limited to $150 for carriers are not a sufficient deterrent to prohibit the worst abuses of the transportation Acts. In addition, frequent suspension of fines diminishes an already weak deterrent. ATC should discontinue the practice of routinely suspending these civil penalties.

C. ATC enforcement staff duplicates the motor vehicle safety inspections done by the Department of Public Safety.

Currently, ATC enforcement agents perform safety inspections of motor carriers at scale houses along public highways and at the carrier's place of business. Field surveys at the carrier's place of business include a review of the driver's and maintenance logs. The Alaska State Troopers also make safety inspections at the scale houses. They have the authority to stop carriers on the highway for inspections also.

This results in a duplication of scale house inspections, and correspondingly, an insufficient number of field surveys performed by the Commission. Only 40 field surveys were made in FY 1978 by the ATC out of 385 regulated motor carriers.

We recommend ATC discontinue safety inspections at scale houses and on public highways. This should allow for a significant increase in the percentage of carriers surveyed by the ATC at their place of business. These surveys are particularly useful because they serve to educate the carriers on safety matters and should result in improved preventative maintenance. In addition, enforcement agents will respond to specific complaints by the general public, and by carriers themselves, in a more timely fashion.

Recommendation No. 6

Applications should be processed by the ATC in a more timely manner and temporary operating authority should be granted in accordance with Alaska Statutes.

We reviewed the applications for permanent authority (original, transfers and extensions) and temporary authority processed by the ATC for a period of 1½ years ending June 14, 1978. We found the average delay between the application date and the issuance of a final order for permanent authority applications, which included public hearings, was 12 months, (48% test). A seven month delay was found for applications without public hearings, (45% test). In a 100% examination of applications without a final order issued at June 14, 1978, 34% had been pending for six months or more.

In our review of 100% of the temporary authority applications two deficiencies were noted, untimely processing and granting temporary authority in violation of the Alaska Statutes. We found the average delay for applications involving public hearings was 13 months. Applications without a public hearing averaged nine months. Of the applications still pending at June 14, 1978, 11% were six months old to one year old and 57% were more than a year old.

According to the Alaska Statutes (AS 42.10.210, 42.15.111 and 02.05.060) the Commission may only issue a temporary permit to a carrier if it finds an emergency exists. We tested the temporary authority applications to determine if they had been granted due to an existing emergency. We determined that of the 22 applications that were granted, 12 were granted without the ATC finding an emergency public need existed. Further, we could not find any indication in the files that an emergency public need existed as justification for the application in 66% of the cases that were pending at June 14, 1978.

A decision by the ATC to grant temporary authority to a carrier was appealed to the Superior Court. The Court declared the order by the ATC void and of no effect. One reason given was that no supporting documents evidenced that an emergency existed. ATC's decision had been based solely on the application and proposed shipper's contracts. The Court further enjoined the Commission from granting temporary authority to the carrier until it had held a public hearing and received evidence that an emergency existed.

One possible cause for the untimely processing of the above applications is that the ATC does not have a written standard operating procedures manual. Our flowchart of the document flow emphasized the complexity of their present procedures. The ATC should review these procedures in order to eliminate unnecessary and time consuming processes and to streamline the flow of documents within the Commission.

Recommendation No. 7

The Commissioners and hearing examiners should write the formal written decisions (orders) on applications before the ATC.

It is a common practice of the ATC to require the staff to draft orders. A staff member generally is given the legal file and a tape recording of the hearing, if one was held, to prepare a final order. Frequently, the staff is given no instructions as to what evidence or laws support the Commissioners' decision. This practice often requires the staff to take excessive time in reviewing the legal file or tape recording to determine the evidence which supports the decision.

Not only does this practice utilize time which is needed by the staff to adequately perform their regular duties in connection with the economic regulation of carriers, (See Recommendation No. 4) and statutory enforcement (See Recommendation No. 5), but also, at times, violates the ATC's ethical regulations. This occurs when the staff drafts orders for applications for which a hearing was held and they actively participated. We found that this violation had occurred in 86% of the rate investigation hearings in which the staff had participated.

The ethical conduct regulations (3AAC60.010(a) & (h) prohibit parties in a pending matter before the ATC from communicating privately, directly or indirectly, with the Commissioners or hearing examiners about such matters or arguing the merits of those cases without their adversaries present or without notice to them. The Commission should avoid any situations that could be construed as violations of these rules of ethical conduct.

In order to effectively implement our recommendation, it would be appropriate to require one member of the Commission to be an attorney, since the deficiency most often discussed with us by the Commissioners was a lack of legal assistance (See Recommendation No. 11). In addition, a paralegal position would aid the Commissioners in both order writing and legal research.

Recommendation No. 8

The ethical conduct regulations should be complied with in matters before the ATC.

The ethical conduct regulations (3AAC60.010) apply to all persons appearing in proceedings before the Commission. Subsection (d) of these regulations specifically label unethical the practice of enlisting the aid of a public official in order to sway the Commissioner's judgement. Further, subsection (h) states that it is grossly improper for such persons to communicate privately, directly or indirectly, with the Commissioners or hearing examiners about pending matters or to argue the merits of these matters in the absence of their adversaries or without notice to them. If any person does not conform to the ethical standards, the Commission may refuse that person the right to appear before the ATC.

We noted two types of violations of the above regulations during our audit. In a pending case before the ATC an attorney for a protestant explicitly told the Commissioners what final decision should be made by them. Further, he requested the Commissioners to return his call to discuss the subject of the decision. In another case pending before the ATC, we found letters from the Commissioner of Administration to the Chairman of ATC which stated that the Governor had met with the applicant.

It also stated that the Governor had expressed his support for the applicant.

These types of communications with parties or their attorneys of a pending matter should be avoided by the ATC and the Executive branch. It is particularly improper for the Governor's preference to be communicated to the Commissioners in cases pending before the ATC because the Commissioners are appointed by the Governor. In addition, since one Commissioner's term expires in four months, such communications could give the appearance of influencing the Commission far beyond that of a simple expression of preference by a member of the general public.

Recommendation No. 9

Neither Commissioners nor ATC staff should accept free transportation from any regulated air or motor carrier.

During August, 1978, an ATC Commissioner and a staff member received free air transportation, from two regulated air carriers, between Fairbanks and Galena. We understand the sole purpose of the trip was to conduct ATC business, and therefore no personal gain resulted. However, due to the nature of the responsibilities vested with the Commissioners and their staff in regulating Alaska's transportation industry, they should decline offers of free transportation by regulated carriers for any purpose.

The conduct of the Commissioners and staff must be such that neither the public nor any regulated carrier can misconstrue any action of theirs as creating a conflict of interest. Moreover, they must at all times avoid even giving the appearance of a conflict of interest.

Recommendation No. 10

ATC should issue orders in accordance with the Alaska Statutes.

We noted several cases in which the ATC granted operating authority to an applicant by telegram prior to the preparation of a written order supported by findings of fact and conclusions of law.

According to 3AAC60.350 a decision issued by the Commission must be written and must contain required findings of fact and conclusions of law.

The Superior Court, after a telegram order was appealed, declared the order void and of no effect. Further, it stated the ATC was prohibited from granting authority unless it was granted by a written order containing the required findings of fact and conclusions of law.

The Commission continues to issue orders by telegram in the above manner. We recommend that the Commission discontinue this practice in view of the Superior Court's decision. Procedures should be followed which will minimize the possibility of the Commission's decisions being appealed, since appeals result in wasted time and unnecessary expenses.

Recommendation No. 11

The statutory qualifications for Commissioners of the ATC should require specific areas of expertise.

The statutory qualifications of Commissioners in terms of experience and education are outlined at AS 42.07.041. They are worded such that a candidate for the Commission may possess any of a variety of backgrounds however none of the specific areas of expertise included such as law or accounting, are mandatory. As noted in several of our prior recommendations there is a need for the Commissioners to have almost continuous economic and legal assistance in accomplishing their statutory goals. In order to help minimize the need for additional staffing to adequately regulate the transportation industry it should be required that the Commissioners each have expertise in a different field. One Commission member in each of the areas of transportation, law and economics would aid the ATC in performing its duties in a more efficient and effective manner.

The Alaska Public Utilities Commission (APUC) members are required by statute to have expertise in law, engineering and finance, accounting or business administration. According to the Attorney General's office the requirement for legal expertise in the APUC has partially satisfied their needs for legal advice and assistance. We believe the same would result if the ATC was required by statute to have Commission members with specific fields of expertise.

Recommendation No. 12

The ATC should give notice; hold or to the public; and maintain complete minutes of the Commission weekly meetings.

During fiscal year 1978 the ATC held 24 weekly meetings or less than 50% of the 52 weekly meetings required by statute. In addition, the ATC publishes no notice to the public of these weekly meetings. Minutes of these meetings consisted of a one or two word comment on each item on the agenda, which does not adequately describe the actions taken at the meetings.

AS 44.62.310 requires all meetings of the Commission to be open to the public except when holding a meeting solely to make a decision in an adjudicatory proceeding. Also, reasonable public notice shall be given for all meetings. 3AAC60.470 requires the Commission to meet on Monday of every week at 2:00 p.m. at the Commission office unless notice is otherwise given.

An appeal of a Commission decision before the Superior Court was due to the absence of adequate minutes of the Commission's weekly meetings. In its decision the Court stated the present Commission should be conducting regular meetings with recorded minutes so that any action occurring before the Commission would not be lost by the passage of time and dimming memories.

Recommendation No. 13

An index system should be developed for the final orders issued by the ATC and decisions on appeals from the courts.

Presently, there are three lists of decisions of the ATC which have been appealed; one prepared manually by the ATC; another by the ATC computer; and a third by the Department of Law. These lists are not uniformly cross referenced to the file docket number or the court case numbers. Moreover, each list does not contain the same cases nor do they include all cases. The decisions of the ATC are filed numerically which is not designed for quick reference to decisions made in similar type cases by the Commissioners and staff.

An index system which provides cross referencing by the subject, including the name of case, the ATC docket file number and the court case number, if any, would serve as a useful management tool. The Commission could review the decisions in a subject area to help determine the needs for statutory or regulatory changes and written internal policies within the Commission's discretionary powers. Further, it may reduce application processing and hearing time by allowing an applicant's attorney to review prior decisions and cases which are similar to his client's case.

Recommendation No. 14

The assistant attorney general and tariff analyst positions at Department of Law, which are assigned to ATC matters, should be placed organizationally and physically within the ATC.

Pursuant to AS 02.05.030(c), the ATC is authorized to represent the State in interstate transportation cases before the Interstate Commerce Commission, (ICC), and the Civil Aeronautics Board, (CAB).

The ATC is responsible for representing the State where the CAB or the ICC have authorized an air carrier or motor carrier rate change or operating authority change which is not in the State's best interest. Two positions within the Department of Law, an attorney and a tariff analyst, are assigned to assist the ATC with these matters which require their technical expertise.

In addition to these matters, the attorney position:

1. Represents the ATC before the courts in appeals,
2. Represents the ATC staff before the Commission,
3. Drafts ATC regulations, and
4. Assists in enforcement work.

These legal services are provided ATC through a reimbursable services agreement with the Department of Law.

The tariff analyst position, which is funded by the Department of Law, was initially acquired to assist with federal maritime rate cases. We understand however, the backlog of maritime cases has been cleared and the analyst has been assigned primarily to rate matters before the ICC and CAB.

We believe both these positions should be organizationally within ATC and should be physically located at ATC offices in Anchorage.

There has been disagreement between ATC and the Department of Law over assignment of the services of these positions for several years. This has led to ineffectiveness and inefficiencies at the ATC. Any arrangement where an employee performs most of his work for one agency and yet reports to, and is physically located at, another agency will result in conflicts in management policy and work priorities between the two agencies.

Since a majority of the attorney's duties are ATC matters, and the analyst's duties are ICC and CAB matters, also an ATC responsibility, they belong with ATC, not Department of Law. If the Department of Law has need of an analyst's expertise on maritime cases, ATC could provide such services to the Department of Law. It should not be the other way around because ATC has the primary responsibility for both intrastate and interstate regulatory matters.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analysis indicates both positive and negative attainments of the Commission and how its activities relate to the public need factors as defined by AS 44.66.050. This analysis is not intended to be comprehensive in nature. It has been limited by the scope of our review.

I. The extent to which the board, commission or program has operated in the public interest.

After Alaska became a State, statutes were enacted to regulate the transportation industry. Prior to enactment no study was made to determine the transportation needs or the type and extent to which it should have been regulated.

Therefore, to state whether regulation of the transportation industry is in the public interest or not, we must first have knowledge of the economic consequences which result from regulation or deregulation. Since this was beyond the scope of our audit we did not attempt to make this determination. However, we have recommended some carriers be deregulated as no public need for regulation could be determined. In addition, we have recommended to the Commission that a future study be made to determine the extent of the need for transportation regulation. (See Report Conclusion).

II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

Administration and enforcement of the transportation acts has been impeded by existing statutes and current practices and procedures of the Commission (See Recommendation Nos. 2, 4 and 5).

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

The Commission submitted two Senate Bills to the 1978 Legislature. These bills would have amended and clarified the existing statutes which would have aided the Commission in accomplishing their statutory purposes and relaxed the regulatory burdens of the air and motor carriers.

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

The Commission publishes a bi-weekly journal which contains a description of each new application, the Commission's orders, enforcement actions and tariff changes. The journal is distributed to subscribers, news media, and other interested groups. A protest period of 30-days is allowed after each application has been published. Further, public hearings are held for the Commission to hear testimony and to receive evidence from any protesting party or any party who would like to attest to the public need for the services of the applicant.

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

A review of the regulatory changes written by the Commission shows that the Commission had properly published and held public hearings as required by law.

However, the Commission has not given proper notice; held open to the public; maintained complete minutes; or held on a regular basis, the Commission's weekly meetings as required by statute. (See Recommendation No. 12).

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

The Commission processes complaints and accusatory cases in an untimely manner (See Recommendation No. 5).

The Ombudsman Office has received ten complaints concerning the Commission since 1975. Five cases have been closed. Of the five open cases, which were filed in 1976 and 1977, three are pending court action and two are still under investigation.

VII. The extent to which a board or commission which regulated entry into an occupation or profession has presented qualified applicants to serve the public.

The Commission, prior to granting authority to a regulated carrier, must determine whether the carrier is financially able and that it has proper and safe equipment in order to provide transportation services.

The regulated carriers are required to show proof of insurance prior to commencing operations to ensure that the public safety is protected. However, the ATC does not have all the pertinent financial data nor the procedures or staff for a proper audit and analysis to determine the financial condition of the regulated carriers. Therefore, the Commission's ability to adequately determine whether carriers are qualified to serve the public is impeded. (See Recommendation No. 4).

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

In a review of the FY 78 personnel records of the Commission, we found that it had complied with the State personnel practices and the affirmative action requirements. Further, the Commission has never received a complaint alleging discrimination on the basis of race, religious affiliation, or sex, from any applicant for authority.

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

Please refer to the previous section, Findings and Recommendations.

APPENDIXES

APPENDIX A

ALASKA TRANSPORTATION COMMISSION
REVENUES COMPARED WITH EXPENDITURES
Fiscal Year 1978

UNAUDITED[1]

Revenue Collected (See Schedule 1)	$ 135,848.80
Expenditures	1,234,136.58
Excess of Expenditures Over Revenues	$(1,098,287.78)

SCHEDULE 1
COLLECTED REVENUES

Revenues	Amount	Collection Time
Civil Penalties	Up to $150 for each offense	When assessed by Commission
Misdemeanor	Up to $500 for each offense	When assessed by Commission
Publication Fee	$40	Upon any application
Motor Freight Carriers		
Application Fee	$50	Upon application for permanent, temporary, extension or transfer of a permit.

Note 1

The records were not audited by us and accordingly we do not express an opinion on the Commission Revenues Compared with Expenditures.

Revenues	Amount	Collection Time
Initial Registration of Authority	$25	Annual
Continued Registration of Authority	$10	Annual, after initial registration
Motor Carrier-Bus		
Application Fee	$50	Upon application for certificate, transfer, lease, modification, consolidation, merger or contract to operate the property of one or more carriers
Air		
Application Fee, GTOW of 12,500 or less	$100	Upon application for permanent, temporary, transfer, amendment or lease
Application Fee, GTOW of 12,501 or more	$200	See above
Aircraft Registration Fees By Gross Take-Off Weight (GTOW)		
GTOW of 4000 or less	$25	Annually
GTOW of 4001 but less than 7900	$50	Annually
GTOW of 7900 but less than 12,500	$100	Annually
GTOW of 12,500 but less than 27,000	$150	Annually
GTOW of 27,000 but less than 50,000	$300	Annually
GTOW of 50,000 but less than 75,000	$400	Annually
GTOW of 75,000 or over	$600	Annually

APPENDIX B

PROGRAM ACTIVITY OF THE
ALASKA TRANSPORTATION COMMISSION
Fiscal Year 1978

UNAUDITED[1]

Activity	Number
New Dockets	527
Orders Issued	783
Hearings Held	125
Citations Issued	72
	Amount
Civil Penalties Assessed[1]	$134,915

Note 1

The records were not audited by us and accordingly we do not express an opinion on the Commission Revenues.

APPENDIX C

QUESTIONNAIRE SENT TO REGULATED MOTOR CARRIERS

1. Do you believe the Commission's procedures for processing applications, hearings and issuing final orders are adequate and completed on a timely basis? Inadequate? Please explain.

	Number of Motor Carrier Responses (See Notes 1 and 2)
Adequate and timely.	9
Inadequate, not timely.	4
Procedures adequate, not timely.	2
Procedures inadequate, timely.	1
No opinion.	2

Additional Comments

Carrier application misplaced by ATC.	1
Have to pay to find out about competitor's applications. Don't feel that was the intent of the statute.	1
Whole process too costly, inflationary, slow-moving to benefit the public.	1
Anyone sitting on Commission should have experience in PUC and ICC matters so they can make good judgments instead of mediocre ones as in the past.	1
Commission does not do a lot of checking on applications, not knowledgeable of bus transportation in Alaska.	1

2. Are there any statutes or regulations that you believe to be obsolete, vague, conflicting, unduly restrictive, and/or inadequate to allow the Commission to effectively and efficiently regulate transportation in Alaska? Please list and explain.

	Number of Motor Carrier Responses (See Notes 1 and 2)
Not knowledgeable enough to comment	2
No response	3
No	6
Yes	1
Some statutes and regulations vague and conflicting.	1
Need authority to stop illegal carriers.	1
15 days should be enough for tariff filing.	1
Believe should be able to tow any items they can properly handle.	1
Need more control over cabs who offer sightseeing without authority.	1
Make airlines realize air freight to small communities is essential.	1

Additional Comments

Update laws to be able to arrest illegal carriers.	2
Bill #362 would improve inadequacies, if passed.	1
Commission should have more and definite authority.	1
Enforcement of illegal carriers without authority is insufficient and a waste of tax dollars.	1
Small operators who do not do much volume dollarwise, and are fairly diverse for income, yet are expected to separate out the trucking business for reports- sales invoices, etc.	1

3. Do you feel public needs, i.e. lower costs, safer and more efficient transportation, etc., would be better met if the Commission were to relax or strengthen regulation of transportation in any specific area?

Commission doing a good job of regulation, regulation should remain as it is.	5
Strengthen regulations.	4
Relax regulations.	7
Undecided.	1
No response.	1

3. Question No. 3 (continued)

	Number of Motor Carrier Responses (See Notes 1 and 2)
Additional Comments	
Commission should have more people to travel to outlying areas.	1
Should enforce regulations more stringently.	1
Carriers should be able to expand their scope to include other zones, do away with the zone system.	2
Too costly and hopeless to get authority.	1
Allow contract or private carriers to be used by permit holders during peak demand.	1
Towing should be deregulated.	1
The only way to get lower costs, safer and more efficient transportation is to protect the people who have the investment, instead of letting everybody "just go at it".	1

4.a. Does the Commission enforce the statutes and regulations i.e. stop unauthorized carriers, safety, etc., adequately? Inadequately? Please explain.

Adequately	5
Inadequately	11
No response.	1
Don't know.	1

Additional Comments

Commission does not have any enforcement.	2
Need stronger penalties against unauthorized carriers.	1
Need regulations with more investigative and enforcement powers.	2
Need more enforcement man-power.	2
Enforcement more than adequate, sometimes nit picking.	1
Commission does not enforce statutes and regulations in any way.	1

4,a. Additional Comments (continued)

	Number of Motor Carrier Responses (See Notes 1 and 2)
ATC spends too much time harrassing carriers trying to run legally, and very seldom stopping unauthorized carriers they receive complaints about.	3
Unauthorized carriers have a financial advantage.	1
Easier to grant permits than to enforce regs.	1

4,b. In your opinion, is there a duplication of safety enforcement between the Commission and any other state agency? Please explain.

No response.	2
Unaware, don't know.	5
Yes	6
No	4
Cannot have excess of safety enforcement.	1

Additional Comments

Enforcement handled by police, troopers.	5
ATC needs to spend enforcement time getting both authorized and illegal carriers to comply with statutes.	1
Not unusual for driver and cargo to be checked more than once on trip.	1
Conflict of authority between ATC, State Labor Commission and ICC.	1

5. Any additional comments.

No additional comments.	9
Try to update present laws.	1
Failure to have automatic distribution of information pertaining to permit application to effected carriers-subscription charge seems unjust for small companies.	1
Enforcement needs to stop illegal hauling.	1
Make granting of permits more difficult for companies that have a bad record of paying their bills.	1

5. Any additional comments (continued)

	Number of Motor Carrier Responses (See Notes 1 and 2)
Trucks that operate beyond Anchorage and other cities do not give service and rates consistent with air freight forwarders.	1
Trucking industry in Alaska needs a great deal of help-problem rests with both the State and the industry.	1
Lot of government agencies are parasites of the transportation industry.	1
Expansion of ATC authority would be poor. Better to have no laws than poor ones.	1
Carrier cannot take in income necessary to upgrade equipment if others are allowed to operate illegally or too many authorities are granted in one area.	1
All in all, ATC does a good job.	1

Note 1

Number of regulated motor carriers included in sample	60
Number of motor carriers which responded	18
Response rate	30%

Note 2

Each regulated motor carrier may have responded to each question with several answers. Therefore, total responses for each question may exceed the number of motor carriers which responded.

APPENDIX D

QUESTIONNAIRE SENT TO REGULATED AIR CARRIERS

1. Do you believe the Commission's procedures for processing applications, hearings and issuing final orders are adequate and completed on a timely basis? Inadequate? Please explain.

	Number of Air Carrier Responses (See Notes 1 and 2)
Adequate	5
Inadequate	8
Adequate in some, inadequate in others.	1
No response.	1

Additional Comments

Commission slow.	8
Need to take applications in order received.	1
Limit time for hearings.	1
Too much paperwork.	1
Commission lost carrier documents filed with them.	1
Delays deprive applicant or complainant of due process.	1
Orders vague, devoid of findings.	1
Orders not adequate if not enforced.	1
Hearing Officer, or Commissioner should write order not employee who did not attend hearing.	1
Time figure will vary depending on who is filing for the authority and how much political pull he has.	1
Commission contributes to growth of monopolies.	1
Entire state licensing procedure should be abolished because it duplicates FAA.	1

2. Are there any statutes or regulations that you believe to be obsolete, vague, conflicting, unduly restrictive, and/or inadequate to allow the Commission to effectively and efficiently regulate transportation in Alaska? Please list and explain.

	Number of Air Carrier Responses (See Notes 1 and 2)
No	3
Yes	8
Existing regulations and procedures applied to enforce them are violative of due process.	1
No need for regulations.	1
No response.	1

Additional Comments

Regulation that requires prior approval of scheduled routes appear vague and unenforcable.	1
Procedure for protesting applications should be streamlined.	1
Form for quarterly reports too complicated for small carriers.	1
Commission should investigate the public need before they publish for protests.	1
Unfair operating advantage given by ATC to all "Grandfather" Operators.	1
Hearing process is one of the greatest obstacles applicants face.	1
Unduly restrictive on 45-day notice of rate increase.	1
No check to see if carrier is following regulations except if there is a complaint.	1
Should be more stringent regulations pertaining to guides flying for hire without a permit.	1
Particular statutes used by ATC in interpretation and justification of Alaska Travel Air case should be changed.	1
Entire Alaska Air Commerce Act of 1960 is not only unduly restrictive and inadequate, but also vague and conflicts with FAA and CAB regulations.	2

3. Do you feel public needs, i.e. lower costs, safer and more efficient transportation, etc., would be better met if the Commission were to relax or strengthen regulation of transportation in any specific area?

	Number of Air Carrier Responses (See Notes 1 and 2)
No	2
Strengthen	3
Relax	7
If regulations were any more relaxed, there would no longer be a need for the Commission.	1
No comment.	1

Additional Comments

Permit free competition as long as high standards are met.	2
Strengthen or drop the whole thing.	1
Liberalize or drop regulation.	3
Relax all efforts to be heavy-handed in imposing unrealistic restrictions on offenders.	1
Increase insurance coverage to protect public.	1
Public needs, per se, have not even been considered in some regulatory hearings.	1
Commission says that for authority to provide public service, only the public need is taken into consideration, when in fact all decisions are based on the protection of the industry, instead of the public.	1
Strengthen regs. for subcontractors of Wien and Alaska Mail Routes - IFR, Pilot Training.	1
Allow a reasonable time for a new certificate holder to become established before issuing other new certificates in that area.	1

4. Does the Commission enforce the statutes and regulations, i.e. stop unauthorized carriers, safety, etc., adequately? Inadequately? Please explain.

Adequately	1
Inadequately	11
As adequate as possible.	2

4. Ouestion No. 4 (continued)

	Number of Air Carrier Responses (See Notes 1 and 2)
Additional Comments	
Too many unauthorized air taxis.	6
Part 91 operators operate unsafely.	1
No enforcement against non-licensed carriers, much less efficient enforcement.	1
Six months after a complaint is filed is too long before an investigation.	1
A quick overnight visit or phone call is not adequate investigation for even a trivial complaint.	1
Insufficient number of field agents with too little travel money.	1
Let the Federal Government regulate safety.	1
Restrict pilots without sufficient Alaska flying time.	1
All the ATC does is move paper.	1
Have we combined the power of the PUC in Denver with the figurehead posture of the Texas Aeronautical Commission to produce the level of enforcement applied by ATC?	1

5. Any additional comments.

No additional comments.	5
Commission tries to do a good job, but responsibility outweighs authority.	1
Great over-supply of operators.	3
Commission available to only a select, political group.	1
Commission is a waste of the taxpayer's money.	1
Should have a minimum number of Alaska flying hours for pilots.	1
No continuity in tariffs with other carriers with like equipment.	1
Discontinue ATC, let free enterprise prevail.	3

5. Anv additional comments (continued)

	Number of Air Carrier Responses (See Notes 1 and 2)
ATC should oversee but not limit or impede private (contract) carriage or freight carriage.	1
Who do I see about protecting my operating authority given to me by the ATC?	1

Note 1

Number of regulated air carriers included in sample.	45
Number of air carriers which responded.	15
Response rate	33%

Note 2

Each carrier may have responded to each question with several answers. Therefore, total responses for each question may exceed the number of air carriers which responded.

APPENDIX E

QUESTIONNAIRE SENT TO SHIPPERS UTILIZING ATC REGULATED CARRIERS

1. Do you believe the Alaska Transportation Commission's (ATC'S) regulation of Alaska carriers has resulted in the following:

	Yes	No	No Opinion
a. lower freight costs for the consumer?	15%	70%	15%
b. stabilized transportation services?	50%	30%	20%
c. safe transportation of goods?	60%	5%	35%

2. Are you acquainted with ATC'S Journal which is published bi-weekly to give public notice of pending applications for authority, proposed rate changes and enforcement actions against Alaska carriers? 40% 60% 0%

3. Do you believe ATC'S procedures for investigating consumer complaints due to overcharges, unsafe operations, etc., are adequate? 30% 5% 65%

   If no, please explain why not.

4. Should ATC'S regulatory activities be:

   5% increased?

   40% decreased?

   55% kept the same?

   Please explain.

4. Question No. 4 (continued).

	No. of Responses
ATC appears to grant carriers anything asked for.	1
Competition should be encouraged.	5
Deregulation not in the shipping public's best interest.	1
ATC doing adequate job.	2
No major traffic problems in Alaska.	1
ATC should be more involved in activities and needs of shippers and carriers.	1

5. Can you suggest any other changes to the ATC which would be in the best interest of the public?

No comments.	13
Some shippers should be made part of Commission-ATC is biased.	1
Commission stand unclear on private carriage and freight forwarder.	1
Haul road should have been better coordinated.	1
Rates should follow "supply and demand".	1
Certification procedures unrealistic in free enterprise system.	1
Establish 3 year (instead of 6) statute of limitations.	1
Too many carriers.	1
Need checking on carrier financial back-up.	1
Greater promotion of docket and rate matters to shippers.	1
When ATC can control underlying causes of rate changes more services at reasonable cost can be provided.	1
Union wage and benefit demands hurt carriers.	1

Note 1

Number of shippers included in sample	63
Number of shippers which responded	20
Response rate	32%

Note 2

Each shipper may have responded to each question with several answers. Therefore, total responses for each question may exceed the number of shippers which responded.

APPENDIX F

QUESTIONNAIRE SENT TO ATTORNEYS WHO PRACTICE BEFORE THE ALASKA TRANSPORTATION COMMISSION

1. Are there any statutes or regulations that you believe to be obsolete, vague, conflicting, unduly restrictive, and/or inadequate to allow the Commission to effectively and efficiently regulate transportation in Alaska? Please list and explain.

	Number of Attorney Responses (See Note 1 and 2)
No	3
Not knowledgeable enough.	1
Statutes requiring air taxi operators to obtain a certificate of convenience are obsolete, monopolistic, and cause a lower quality of service - AS 2.05.055.	2
Encourages an air taxi operator to operate in a manner more specifically reserved to scheduled carriers - AS 2.05.050(d) (3).	1
Regularity of operations - AS 2.05.	2
Nobody really understands what this statute means when it refers to issuing an order for a temporary exemption under the Administrative Procedures Act (AS 44.62) - AS 2.05.060.	1
Allows a private party to bring a suit for injunctive relief against illegal operations in the Court, but the Motor Carrier Act does not allow such action - AS 2.05.210.	1
Lodge owners should be free from requirements of obtaining authority to carry their guests hunting, fishing, sight-seeing.	1
Hasn't been "regular" route application approved by Commission since Statehood - AS 42.10.420.	1
Too restrictive and presumably would prevent an owner-operator from leasing his truck to a private carrier - AS 42.10.420(2)(B).	2
Commission has never adequately defined the operations of a broker or forwarder - AS 42.10.420(2)(c).	1
Interpretation of "contract carrier" - AS 42.10.420(3).	1

1. Question No. 1 (continued)

	Number of Attorney Responses (See Note 1 and 2)
Existing exemptions too restrictive - AS 42.10.420.	1
"Incidental" has never been defined in Commission regulations as it has been by the ICC - AS 42.10.420(7)(A).	1
"Property" definition too restrictive. Many commodities of such low value should not be regulated. Deregulate dump trucks - AS 42.10.420 (11).	2
"Construction Contractor" not defined - AS 42.10.421 (12).	1
Commission's regulation over contract bus carriers has never been adequately figured out - AS 42.15.021.	1
In transferring an interest in a certificate, there has been some confusion as to whether a 50% transfer of interest requires application for approval of the transfer or just notification of the Board.	1
Confusion in trying to determine what interim management agreements are acceptable to ATC pending approval of transfer.	1
All of the statutes involved should be redrafted in a concise, simplified fashion, with a lucid and simple index.	1

2. Do you believe the Commission's procedures for processing applications, hearings, and issuing final orders are adequate? Inadequate? Please explain.

Proposed orders time consuming and unnecessary.	2
Commission should make better use of proposed decisions, findings of fact and conclusions of law prepared by applicants and protestants.	1
Commission too lenient in granting reopened hearings for applicants whose cases have been inadequately and improperly prepared in the first instance.	1
Should have at least one Commissioner present at each hearing.	1
Hearings conducted too informally.	1
Too great a lapse of time between date of application and hearing.	1
Evidentiary rules are interpreted and applied too loosely.	1

2. Question No. 2 (continued)

	Number of Attorney Responses (See Notes 1 and 2)
Should be some precise rules on confidentiality of testimony.	1
Administrative regulations do not sufficiently provide for pre-hearing discovery.	1
Increase travel budget to allow for more hearings in carriers area.	1
Procedures for processing unprotested applications should be expedited.	1
Procedures should be more explicitly defined.	1
Continued applications for the same authority.	1
Delays sometimes occur.	3
Commission does an adequate job.	4

3. Any additional comments.

No additional comments.	5
Commission has done a commendable job in enforcing the rule against ex parte.	1
Commissioners should take an added responsibility of drafting orders.	1
Commission should not have more than investigative right as to fitness of applicant, public need and necessity should be determined in the market place.	1
Surprised at attitude of existing established operators hiding behind the political skirts of the Commission in fear of competition.	1
Commission heavily influenced by big air taxi outfits.	1

Note 1

Number of Attorneys included in sample.	35
Number of Attorneys who responded.	10
Response rate	29%

Note 2

Each Attorney may have responded to each question with several answers. Therefore, total responses for each question may exceed the number of Attorneys who responded.

JAY S. HAMMOND
GOVERNOR

RECEIVED
JAN 11 A.M.
LEGISLATIVE
AUDIT

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

January 9, 1979

Mr. Gerald Wilkerson
Legislative Auditor
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

We have reviewed your preliminary reports as shown below:

1. Board of Examiners in Optometry
2. Board of Dispensing Opticians
3. Board of Psychologist and Psychological Associate Examiners
4. Board of Chiropractic Examiners
5. Alaska State Medical Board
6. Board of Veterinary Examiners
7. State Physical Therapy Board
8. Board of Pharmacy
9. Board of Nursing
10. Board of Nursing Home Administrators
11. Board of Dental Examiners
12. Alaska Transportation Commission

We view these reviews of agency programs and activities which are specifically subject to termination in a manner different from those made of State departments or agencies. Usually we in the Executive Branch endeavor to respond directly to each finding and recommendation. However, in regard to the Boards and Commissions, the Executive Branch agency during a public hearing shall demonstrate a public need for its continued existence or the discontinuation of the program, and the extent to which any change in the manner of exercise of its functions or activities may increase efficiency of administration or operation consistent with the public interest.

The Executive Branch of Alaska Government has made an extensive study of the above Boards and the Alaska Transportation Commission. We are continuing to study those entities, their origin, their present and future potential, and other related subjects in conjunction with Alaska statutes 24 and 44 (Sunset Legislation). As prescribed in AS 44.66.050 one or more legislative hearings are to be held to receive testimony from the public, the Commissioner of the department having administrative responsibility for each, and the members of the Boards or Commission involved. During those hearings we will present our findings and recommendations affecting each of the foregoing Boards and the Alaska Transportation Commission.

Accordingly, we are presenting this in addition to the responses from the Department of Commerce, Department of Law, and the individual Board or Commission members and others on an interim basis.

Sincerely,

Michael Harper
Administrative Assistant
to the Governor

STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

ALASKA TRANSPORTATION COMMISSION

MacKAY BUILDING
338 DENALI ST.
ANCHORAGE 99501

January 3, 1979

Mr. Gerald L. Wilkerson
Legislative Auditor
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

This letter is in response to the preliminary performance review of the Alaska Transportation Commission prepared by the Division of Legislative Audit in accordance with Title 24 and 44 of the Alaska Statutes. The response represents as nearly as possible a consensus opinion of the present commission members who have independent thoughts in regard to the findings and recommendations contained in the preliminary report. The response to the recommendations will be made in the order in which they appear in the preliminary report.

RECOMMENDATION NO. 1:

<u>The statutory requirements for the ATC to regulate bulk type commodities and recreational air carriers should be eliminated</u>.

The Commission agrees that the regulation of that class of carriers transporting commodities in bulk in dump type equipment commonly referred to as dump truck operators should not be regulated in the manner presently provided for in AS 42.10. The restriction of entry provision presently contained in the Act could be substituted for the issuance of an annual permit to those wishing to engage in this type of transportation subject to having their vehicle inspected for compliance with current safety regulations and the tendering of proof that sufficient liability and property damage insurance is in effect for all vehicles while they are in use on the public highways.

The Alaska Air Commerce Act of 1960, AS 02.05, does not clearly provide for the transportation of persons or property which might be incidental to another private or primary business as do similar provisions in the Motor Freight Carrier Act, AS 42.10, and the Alaska Bus Act, AS 42.15. Accordingly the Commission has since its inception issued certificates to such carriers who have been providing in whole or in part transportation in connection with another primary business

such as guides or lodge owners. Carriers thus certificated are required to maintain adequate insurance for the protection of the public, file a tariff, register aircraft, and hold a certificate from the FAA which indicates that they are providing public transportation in conformance with specified safety regulations. Here again, the Commission believes that the entry requirements for this type of carrier could be replaced with public interest standards which would include the requirement that the carrier maintain adequate insurance for the protection of the public and require that the operation be conducted pursuant to safety standards established by the FAA for this type of operation.

RECOMMENDATION NO. 2:

The statutes and regulations governing the ATC should be revised.

The Commission is in full agreement with Recommendation No. 2 and makes no further comment to No. 2, except to say that various amendments to the regulatory acts have been introduced in almost every session of the legislature since 1970.

RECOMMENDATION NO. 3:

The Commission should seek the repeal of the Alaska Ferry Transportation Act.

The Alaska Ferry Transportation Act, AS 42.25, is serving a very limited public purpose as it is presently enacted. The Commission has no objection to the repeal of this act, but in so doing, the Legislature should give serious consideration to improving the service presently provided by vessel operators along the major riverways and coastal areas. Authorizing the ATC, together with other appropriate state agencies to conduct an investigation into the needs and services available to communities located along these waterways would be appropriate.

RECOMMENDATION NO. 4:

ATC should regulate the economics of the transportation industry as required by the Alaska Statutes.

A. Carriers should be required to submit all pertinent financial data necessary for economic regulation.

B. ATC should audit the carrier's accounting records to ensure they are prepared in accordance with regulatory accounting requirements and to determine the reasonableness of the financial data submitted to the Commission.

C. ATC should establish written basic policies and procedures for analysis of rate changes.

The Commission agrees that implementing these recommendations would enhance the agency's ability to carry out the declaration of policy

set forth in each of the transportation acts. We would point out, however, that there does not appear to be any practical way given the Commission's present budgetary and personnel limitations to implement these recommendations. The recommendations would greatly improve the quality of regulation and speed up the process of investigations, the development of adequate standards and methodology will be dependent upon the agency's ability to acquire technical personnel and sufficient funding.

RECOMMENDATION NO. 5:

Improvement is needed in the enforcement of ATC statutes and regulations.

A. ATC does not process enforcement actions in a timely manner.

B. The Commission frequently suspends all or part of the civil penalties assessed for violations.

C. ATC enforcement staff duplicates the motor vehicle safety inspections done by the Department of Public Safety.

In regard to Sub-Paragraph A, the Commission will only point out that lawyers are involved in the ATC's enforcement matters and lawyers sometimes view procedural delays as being in their clients best interests. The Commission's actions must be considered in accordance with due process provisions of the law and in many cases, due process means delay. Further, the decisions by the Commission are subject to review by the Superior Court and we have been careful not to burden the court with appeals taken from hastily prepared accusations and orders easily overturned or remanded for lack of sufficient findings of fact or conclusions of law.

In regard to Sub-Paragraph B, the Commission's policy of suspending a portion of a civil penalty is founded on the belief that the majority of the violations are a result not of intentional managerial misbehavior but rather a failure of many of the small carriers to perceive their responsibilities as members of the regulated industry. If compliance with the laws and regulations relating to transportation can be achieved through the practice of suspending civil penalties, then it appears to the Commission that this policy is in the public interest and should be used where factual situations warrant.

Regarding Sub-Paragraph C, in our opinion, the ATC enforcement staff complements rather than duplicates motor vehicle safety inspections which are performed by the Department of Public Safety. The Alaska State Troopers' vehicle safety inspections performed at the scale houses are ineffective because the scale houses are closed a large part of the time. We are not convinced that the inspection of vehicles at the carriers' place of business where he can show you just what he wants you to see is going to be a substantial deterrent to the operation of unsafe vehicles on the public highways. Additionally, there are elements of motor vehicle safety other than mechanical, for

instance, the transportation of hazardous materials where a violation of this sort almost always occurs while the commodity is being transported and not at the carrier's terminal. We agree that there is a need for more frequent and thorough safety inspections and that some, but not all, of this can be done at a carrier's place of business. We believe that there is a substantial amount of traffic moving at the present time by unauthorized carriers and in our opinion, the scale house is an invaluable tool for the ATC in both motor vehicle safety and economic regulation.

RECOMMENDATION NO. 6:

Applications should be processed by the ATC in a more timely manner and temporary operating authorities should be granted in accordance with Alaska Statutes.

The Commission's response to this recommendation is basically the same as in Recommendation No. 5A above. In addition, we note that even though there is still a substantial regulatory lag between the filing and the granting or denying of a given application, this delay has been reduced dramatically over what it was in prior years.

For the most part, the Commission grants a temporary authority subject to the recommendation of the staff who often have first-hand knowledge of a given situation or on a prima facie showing by a carrier or shipper that there is a need for the particular service. For the most part, these temporary authorities are limited to a period of ninety (90) days, although some have extended for longer periods. Many temporary authorites are ultimately turned into permanent authority subsequent to the filing of an application, notice and opportunity for hearing and a determination by the Commission that the additional authority is required by the public convenience and necessity. A substantial number of temporary authorities are granted by the Commission each year and a great portion of these temporary authorities are in the nature of a transfer of control from one business entity to another. Our recollection is that there has been only one (1) reversal by the Superior Court of the many decisions to grant temporary authority and in our opinion, this is not a bad record at all.

RECOMMENDATION NO. 7:

The Commissioners and Hearing Officers should write the formal written decisions (orders) on applications before the ATC.

The Commission agrees with this recommendation with the understanding that it would not preclude the Commissioner acting as a hearing officer in preparing a final order from availing himself of the assistance of Commission employees with expertise in technical areas, such assistance to include the actual drafting of the order under the supervision and with the assistance of the commissioner who presided over the hearing. We disagree that this recommendation would be more effectively implemented by requiring one member of the Commission to be an

attorney. At one point in time, the Commission was comprised of two attorneys and one layman and Commission records will demonstrate that the need for legal assistance was no less then than it is at the present time. Commission records might also demonstrate that the agency's productivity was considerably less during that period as compared to a similar period of time when the Commission was comprised entirely of laymen.

RECOMMENDATION NO. 8:

The ethical conduct regulation should be complied with in matters before the ATC.

The Commission agrees with this recommendation.

RECOMMENDATION NO. 9:

Neither commissioners nor ATC staff should accept free transportation from any regulated or motor carrier.

The Commission agrees with this recommendation.

RECOMMENDATION NO. 10:

ATC should issue orders in accordance with Alaska Statutes.

The Commission believes that it is issuing its orders in substantial compliance with Alaska Statutes. The granting of temporary authority by telegram is sometimes accomplished prior to the issuance of a formal written order containing findings of facts and conclusions of law in order to satisfy apparent public interest requirements. The comments made to Recommendation No. 6 are somewhat appropriate to this recommendation.

RECOMMENDATION NO. 11:

The statutory qualifications for Commissioners of the ATC should require specific areas of expertise.

The comments to Recommendation No. 7 apply in part as our response to this recommendation. In addition, we question the feasibility of the Legislature requiring one of more Commissioners to have financial or economic expertise. Expertise of this type would be of value to any Commissioner, but we are not convinced that reducing the pool of potential candidates from which the Governor can select persons to serve as ATC Commissioners is advisable. AS 42.07 requires that the Commission have access to experts in the field of law and economics and finance in order to develop a good transportation policy. Therefore, it is not necessary that individual Commissioners have this specific expertise. Experience in the field of transportation, regardless of mode, is a far greater advantage. The Governor should have the prerogative to appoint a person with the best over-all qualifications to fill Commission vacancies without the artifically imposed requirement to appoint individuals with expertise in specific fields.

RECOMMENDATION NO. 12:

The ATC should give notice; hold open to the public; and maintain complete minutes of the Commission weekly meetings.

At the present time, all of the Commission's meetings are held for the purpose of making decisions in an adjudicatory proceeding, and therefore, are not required to be open to the public. Although the procedural regulations presently require the Commission to meet on Monday of every week at 2:00 p.m., the Commission has replaced these (public) meetings with an open door policy which allows public access to the staff and the individual Commissioners at any time during the working day and throughout the working week. We find that this works very well and does not limit the public's access to the Commission to a particular time or day of the week. This open door policy does unfortunately, create the undesirable presumption that parties are conducting ex-parte communications with the Commissioners, however, generally speaking, this is not true and parties with matters pending before the Commission for a decision are admonished not to discuss the merits of these particular cases.

RECOMMENDATION NO. 13:

An index system should be developed for the final orders issued by the ATC and decision on appeals from the courts.

We concur in this recommendation.

RECOMMENDATION NO. 14:

The Assistant Attorney General and tariff analyst positions at the Department of Law, which are assigned to the ATC matters, should be placed organizationally and physically within the ATC.

We concur with this recommendation.

Yours very truly,

ALASKA TRANSPORTATION COMMISSION

Jake Johnson
Chairman

JJ/cjh

STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

DEPARTMENT OF LAW

OFFICE OF THE ATTORNEY GENERAL

POUCH K-STATE CAPITOL
JUNEAU, ALASKA 99811

January 11, 1979

Gerald Wilkerson
Legislative Auditor
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

The Performance Review of the Alaska Transportation Commission, conducted by the Division of Legislative Audit and issued October 24, 1978, concludes that the ATC is authorized by statute to represent the s[illegible] before the Civil Aeronautics Board and the Interstate [illegible]merce Commission. The Review recommends that in order to accomplish this task the attorney assigned to ATC matters and the Transportation Analyst employed by the Department of Law should be transferred from the Attorney General's Office to the ATC.

I feel strongly that the proposed transfer should not take place because the ATC's statutory authority to represent the state before federal regulatory agencies is unclear and anachronistic, and, generally, because of the difficulties inherent with state regulatory bodies when they depart from their quasi-judicial intrastate functions and attempt to act as advocates in interstate proceedings before federal regulatory commissions.

The auditor's recommendation that the Department of Law's Transportation Attorney and Transportation Analyst be reassigned seems to come from a misconception that intrastate and interstate matters are the opposite sides of the same regulatory coin. In fact, they are entirely separate currencies and an examination of statute and practice among Alaska's three regulatory commissions reveals the impracticality of combining both functions in the same agency.

The Alaska Public Utilities Commission has the clearest mandate to represent the state in federal matters and it stems from AS 42.05.141(6) which provides that the APUC may "appear personally or by counsel and represent the

03-CSLH

interests of the state in all matters and proceedings involving a public utility pending before an officer, department, board, commission, or court of the state or the United States and to intervene in, protect, resist, or advocate the granting, denial, or modification of any petition, application, complaint, or other proceeding . . . "

In practice, however, the APUC defers to the Governor's Office of Telecommunications in formulating interstate communications policy and to the Attorney General's Office in advocating the state's interest before the FCC. The reason for this deference is that a well-functioning state regulatory agency cannot act as an independent, quasi-judicial body in intrastate proceedings involving a company and then transform itself into an advocate before a federal commission concerned with regulating the same company. There would be, for example, an obvious conflict if the APUC, concerned as it is with RCA Alascom intrastate tariffs, were to appear before the Federal Communications Commission as an advocate in proceedings involving interstate rates and ownership of satellites and earth stations to which RCA was a party. In these matters policy emanates from the Governor and concerned state agencies and is presented by the Attorney General.

The anachronism of state regulatory bodies acting both as independent, quasi-judicial agencies and also as policy makers and advocates was recognized by the legislature when it amended the powers and duties of the Alaska Pipeline Commission in 1976. Initially, the power of the APC to appear before federal regulatory bodies (ICC oil pipelines, FPC gas pipelines) paralleled that granted to the APUC. However, it was soon apparent that the APC could not fulfill both intrastate and interstate functions and the legislature changed AS 42.06.140(10) to read "[the APC] shall provide all reasonable assistance to the Department of Law in intervening in, offering evidence in, and participating in proceedings involving a pipeline carrier and affecting the interests of the state, before an officer, department, board, commission, or court of another state or the United States."

Thus, with regard to the APC, the legislature recognized the conflict in function between intrastate and interstate matters and codified the ad hoc practice which exists at the APUC.

The authority of the ATC to represent the state interest in interstate proceedings before federal agencies is the vaguest of the three Alaska commissions. Under title 42 the ATC has no specific power to appear before the Inter-

state Commerce Commission, the Federal Maritime Commission, or Civil Aeronautics Board. The Alaska Air Commerce Act of 1960, however, provides that the ATC, under AS 02.05.050(c), "may apply by petition to [the CAB] when the interstate rates, fares, charges or classifications of air carriers affecting the commerce of this state are, in the opinion of the commission, excessive or discriminatory . . . or when interstate services are inadequate, unsatisfactory or discriminatory . . ."

Thus legislative authority for ATC participation in federal proceedings extends only to one of the three federal transportation regulation commissions and even before the CAB, the ATC is, by statute, to be advised and represented by the Attorney General. Further, the Attorney General has separate authority in transportation matters through AS 44.23.060 which provides for the discovery of information and data from regulated carriers "[i]n a hearing or proceeding in which the Attorney General appears before a board, court, commission, committee, or officer of the United States involving traffic and commerce or rates of transportation between points in interstate or intrastate transportation . . ." The implication here is that it is the Attorney General who represents the state interest before federal commissions and not the ATC.

Aside from statutory considerations, however, there is a question of practicality involved and the same reasons which compelled the delegation of interstate matters from the APUC and the APC to the Governor and the Attorney General apply equally to the ATC: i.e. the ATC should not act as judge in intrastate proceedings and then appear as an advocate before federal agencies in matters which involve the same regulated carriers.

A second practical problem which arises when interstate and intrastate authority is combined in a single agency is that of communications between the ATC and elected officials. Recommendation number 8 of the Performance Review criticizes contacts between the Governor and the commission asserting "[i]t is particularly improper for the Governor's preference to be communicated to the Commissioners in cases pending before the ATC because the Commissioners are appointed by the Governor. In addition, since one Commissioner's term expires in four months, such communications could give the appearance of influencing the Commission far beyond that of a simple expression of preference by a member of the general public."

While this admonition extends only to cases docketed before the ATC, it is obvious that there will always

be instances where individual carriers have similar matters docketed before both the ATC and a federal commission. It thus becomes impossible for the Governor to formulate and communicate interstate policy to the ATC without influencing intrastate decisions made by the ATC.

An example of how interstate transportation proceedings can be handled without ethical conflict is the recent Southeast Alaska Service Investigation. There, in a case involving restoration of competitive air service between Southeast Alaska and Seattle, policy was developed by the Governor's Office in conjunction with the Departments of Commerce and Economic Development, Transportation, and Community and Regional Affairs, and the ATC, and was coordinated by the Department of Law's Tariff Analyst. As the case progressed it was apparent that the ATC and the Governor held different views and, had the proceeding been handled by the ATC, the state's position would probably not have reflected the administration's views. In fact, in two earlier CAB proceedings the filings were prepared by a Hawaii Consultant under contract to the ATC and were circulated to the Governor's Office too late for comment.

The importance of close cooperation between administration policy-makers and advocates of Alaska's interstate transportation interests is particularly crucial at the present time because of deregulation of federal transportation agencies. Traditional rate and route cases, which have their courterpart among ATC proceedings, are giving way to anti-trust, subsidy, and small communities service questions at the CAB and these matters more properly fall within the scope of the Department of Law and the Governor's Office. Similarly, deregulation at the ICC and FMC is rapidly approaching and the state position on whether modifications should be sought for Alaska interests is one which should be developed by the Governor and presented by the Attorney General. This approach would parallel the state's activities regarding energy deregulation before FERC, where it is the Attorney General, not the APC, who represents the state.

Finally, the Department of Law is adamently opposed to the decentralization of the Attorney General's staff. If, as the auditor recommends, attorneys whose duties are primarily directed towards a single agency are transferred to that agency, the Department of Law would virtually disappear and the Attorney General would no longer direct the state's legal business. Obviously, if state agencies retained their own counsel there would be tremendous pressure upon the in-house attorney to issue opinions favorable to the agency's desires and there would be no control over the state's legal policy. The balkanization of the Department of Law proposed here is unworkable.

Additionally, it should be pointed out that the Department of Law's Tariff Analyst is not simply assigned to transportation regulation matters. Since pipelines, telecommunications, and surface and air carriers are all somewhat similarly regulated industries, expertise in one area is in many instances transferable from one endeavor to another. The tariff analyst has, for example, been active in pipeline proceedings and is currently being assigned an expanded role in telecommunications. Consequently, transfer of the position from the Department of Law to the ATC would simply fragment a developing cohesiveness in the state's approach to presenting its views to a wide range of federal regulatory agencies. Moreover, the position is heavily involved with consumer advocacy and reassignment to the ATC would surely restrict the Department of Law's ability to bring consumer actions before federal regulatory agencies.

Sincerely,

Avrum M. Gross
Attorney General

AMG:ams

STATE OF ALASKA

THE LEGISLATURE

BUDGET AND AUDIT COMMITTEE

AUDIT DIVISION
POUCH W—ALASKA OFFICE BUILDING

FINANCE DIVISION
POUCH WF—STATE CAPITOL

JUNEAU, ALASKA 99811

January 9, 1979

Members of the
Legislative Budget and Audit Committee:

We have reviewed the responses of the Alaska Transportation Commission to our audit report dated October 24, 1978. The responses appear thoughtfully prepared and we believe they will assist you in evaluating the Alaska Transportation Commission. Our comments on the responses follow.

Recommendation No. 5

ATC enforcement staff duplicates the motor vehicle safety inspections done by the Department of Public Safety.

The response states ATC safety inspections complement rather than duplicate safety inspections done by the Department of Public Safety.

We found ATC inspections at the scale houses were performed only during the hours State Troopers were performing similar activities at the scale houses. These ATC inspections do not result in increased safety enforcement.

Further, the State Troopers provide ATC with copies of any citations for safety violations issued at the scale houses during periods ATC enforcement personnel are not present. The copies provided include any instances of failure to display required ATC certificate numbers in addition to the safety violations.

We therefore reaffirm our finding that ATC safety inspections at the scale houses do not result in additional enforcement but merely duplicate State Troopers' activities, and should be discontinued.

31-Q1LH

Recommendation No. 6

Applications should be processed by the ATC in a more timely manner and temporary operating authority should be granted in accordance with Alaska Statutes.

The Commission stated it grants temporary authority if a carrier can show a need exists for the particular service. They also stated a substantial number of temporary authorities are granted by the Commission each year of which a great portion are in the nature of a transfer of control from one business entity to another.

The Commission's response does not fully address our recommendation with regard to the granting of temporary authority. Both the Motor Freight Carrier Act and the Air Commerce Act require demonstration of either an emergency situation or unusual circumstances before temporary permits may be issued. Our test sample indicated 55% of the temporary permits were not accompanied by these criteria. Moreover, it is not relevant, with regard to Motor or Air Carrier, that the reason for issuing a temporary permit is a change in firm ownership. An emergency or unusual circumstance must first be demonstrated. The change of firm ownership exemption from the demonstrated emergency requirement applies only to Motor Passenger Carriers (buses) which constituted two percent of our sample.

Recommendation No. 10

ATC should issue orders in accordance with Alaska Statutes.

The Commission believes that it is issuing its orders in substantial compliance with Alaska Statutes.

We believe that the Commission is not in compliance with AS 42.07.141 or 3 AAC 60.350 which require the written decision to contain the findings of fact and conclusions of law. During our audit we observed a case in which authority was issued by telegram but the required findings of fact and conclusions of law were not formulated or reduced to writing until several days after the authority was granted.

Motor vehicles--their manufacture, sale, servicing and commercial use--represent one of the most dynamic forces affecting our national economy. About one of every six employed persons work in automotive-related occupations. Some of the facts about motor vehicles include:

- Americans now own nearly 140 million cars, trucks, and buses--40 percent of the world total--or more than one vehicle for every two persons in the country.

- Motor vehicle producers maintain plant, office, warehouse or test facilities in nearly every state and in addition purchase materials, parts, and services from an estimated 40,000 independent suppliers.

- Directly and indirectly the industry contributes a large share of taxes to national, state, and local governments.

- Nearly two million Americans own stock in the motor vehicle manufacturing companies and many others benefit through participation in pension funds and investment programs involving automotive stock.

To highlight the importance of motor vehicles, the Motor Vehicle Manufacturers Association has prepared reports summarizing significant facts concerning the automotive industry for the various states. I hope you will find the attached report for your state interesting.

W. D. Eberle

Highlights

Employment

The manufacture, distribution, maintenance, and commercial use of motor vehicles in Alaska provides employment for almost 21,000 workers.

Automotive Businesses

Almost 400 different firms in Alaska are primarily engaged in the manufacture, distribution, and servicing of motor vehicles. In addition, 170 firms engaged in highway transportation employed 2,500 workers with an annual payroll of $40 million.

Motor Vehicle Manufacturers

Manufacturers of motor vehicles in Alaska, not including independent suppliers:

- Employ about 20 workers.
- Disburse $214,000 in annual wages and salaries.
- Pay almost $140,000 a year in taxes to state and local government.

Dealers

In Alaska there are:

- 32 new car and truck dealers.
- Employing 850 workers.
- Paying $13 million in annual wages and salaries.

Stockholders

About 600 residents in Alaska own stock in motor vehicle manufacturing corporations.

Vehicle Taxes

Highway users in Alaska paid $29 million in special state vehicle taxes. Motor vehicle, fuel, and license taxes accounted for six percent of total state tax revenues.

Federal automotive excise taxes paid by users in Alaska amounted to an additional $10 million.

Motor trucks in Alaska -- 32 percent of vehicles registered -- paid 53 percent of total special state vehicle taxes.

Vehicle Registrations

Total vehicles registered in Alaska amounted to 255,000 in 1976 -- 159,000 were automobiles and 96,000 were commercial vehicles.

New Vehicle Registrations

Passenger cars newly registered in Alaska in 1976 totaled 11,900 and 11,300 new motor trucks were also registered.

Drivers

There are 242,000 licensed drivers in Alaska or .95 drivers per registered vehicle.

Automobile Ownership and Use

Four out of five households in Alaska own an automobile. Privately owned automobiles are used by 60 percent of workers in the state to get to their jobs.

LIMITATIONS OF DATA FROM "COUNTY BUSINESS PATTERNS"

- *Much of the data used in this report is derived from* County Business Patterns, *a statistical by-product of employment and payroll information reported to the Treasury Department under the Social Security Program*

- *Self-employed persons are not included in the report. As a result, the counts of establishments, employment, and payrolls are understated. In the case of repair shops, trucking firms, taxicabs, and others, the number of such firms omitted may be quite large in relation to the number listed. Total employment and payrolls would also be affected but not the same extent*

- *It should also be noted that firms are classified by their principal line of business. This is another source of understatement for certain lines of business. For example, gasoline service stations operated as part of a new car dealership are not included in the count of such stations. Similarly, the count of tire, battery, and accessory retailers or of auto repair facilities would not include new car dealers or large department stores offering such sales and services*

Economy

A special study of motor vehicle manufacturers provides some new measures of the importance of the motor vehicle industry to the economy of the State of Alaska:

> Manufacturers of motor vehicles, not including independent suppliers, employ about 20 workers, with an annual payroll of $214,000. Annual taxes paid to state and local governments by these manufacturers exceed $140,000.
>
> Some 600 persons in the state are stockholders of motor vehicle manufacturing corporations.
>
> There are 32 new car and truck dealers in the state. They employ 850 people and pay $13 million in wages and salaries.

HOUSE CS FOR SENATE BILL NO. 236 am H

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act continuing the existence of the Alaska Transportation Commission and amending laws relating to the commission; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 44.66.010(2) is amended to read:

(2) Alaska Transportation Commission (AS 42.07.011) -- June 30, 1981 [1979];

* Sec. 2. AS 02.05 is amended by adding a new section to read:

~~Sec. 02.05.035. EXEMPT AIR CARRIERS. This chapter applies to all air carriers unless specifically exempted by this section. This chapter, except when specifically otherwise provided, does not apply to~~

~~(1) the operation of rotary-wing aircraft (helicopters) by an air carrier;~~

~~(2) the operation of unscheduled, single-engine, fixed-wing aircraft with a certified gross takeoff weight of 5,500 pounds or less by an air carrier.~~

* Sec. 3. AS 39.25.120 is amended by adding a new paragraph to read:

(12) the director, deputy director, hearing officers and staff legal counsel of the Alaska Transportation Commission.

* Sec. 4. AS 42.07.101 is repealed and re-enacted to read:

Sec. 42.07.101. EMPLOYMENT OF COMMISSION PERSONNEL. (a) The commission may employ an executive director who shall have had at least five years of experience in public transportation management or

regulation, law, accounting, or an allied field. The executive director may be a member of the commission. The commission may employ engineers, hearing officers, staff legal counsel, experts, clerks, accountants, and other agents and assistants it considers necessary. The executive director, if not a member of the commission, his deputy and staff legal counsel to the commission are in the partially exempt service under AS 39.25.120. All other employees and agents of the commission are in the classified service under AS 39.25.100. The salary of an executive director who is a member of the commission may not exceed that of a superior court judge.

(b) In addition to its staff of regular employees, the commission may contract for and engage the services of consultants and experts the commission considers necessary.

* Sec. 5. AS 42.07.121 is amended to read:

Sec. 42.07.121. GENERAL POWERS AND DUTIES. The Alaska Transportation Commission shall supervise and regulate transportation in the state as provided in this chapter and in AS 02.05 and AS 42.10 [, AS 42.15, AS 42.25], and may do all things, whether specifically designated in this chapter or in AS 02.05 or AS 42.10 [, AS 42.15, AS 42.25], or in addition thereto, which are necessary or convenient in the exercise of this power and jurisdiction.

* Sec. 6. AS 42.07 is amended by adding a new section to read:

Sec. 42.07.126. EXEMPT TRANSPORTATION CARRIERS. The jurisdiction of the commission does not extend to the regulation of ~~carriers by bus or to the regulation of~~ ferry transportation.

* Sec. 7. AS 42.07.131 is amended to read:

Sec. 42.07.131. AUTHORITY LIMITED BY FEDERAL LAW. The provisions of this chapter and AS 02.05 and AS 42.10 [AND AS 42.15] apply to transportation carriers engaged in foreign commerce and interstate commerce

to the extent permitted by the constitution and laws of the United States.

* Sec. 8. AS 42.07 is amended by adding a new section to read:

Sec. 42.07.136. INSURANCE OR DEPOSIT OF SECURITY ON EXEMPT CARRIERS. The commission shall require carriers exempted under AS 02.05.035, AS 42.07.126, and AS 42.10.020 to procure and maintain bodily injury and property damage liability insurance from a company licensed to write insurance in the state or deposit security for the limits of liability and upon the terms and conditions the commission determines necessary for the reasonable protection of the public against damage and injury for which the carrier may be liable by reason of its operation. Evidence of the required insurance shall be filed with the commission.

* Sec. 9. AS 42.10.020 is amended by adding a new paragraph to read:

(5) motor vehicles operated as tow trucks.

* Sec. 10. AS 42.10.090(2) is amended to read:

(2) require every private carrier and every exempt carrier except as provided in AS 42.10.020(4) and (5) to file information required by the commission to carry out this chapter, and supervise and regulate each private carrier in all other matters affecting its relationship with the shipping and the general public.

* Sec. 11. AS 39.23.060 is amended to read:

Sec. 39.23.060. REVIEW OF COMPENSATION AND BENEFITS; OFFICERS COVERED. The commission shall conduct an on-going review of compensation and retirement benefits for members of the legislature; the governor; the lieutenant governor; commissioners, deputy commissioners, and division directors of each executive department; members of the Alaska Public Utilities Commission; members of the Alaska Pipeline Commission; members of the Alaska Transportation Commission; members of the Alaska

Commercial Fisheries Entry Commission; and the judiciary, to determine the appropriateness of compensation and benefits.

* Sec. 12. AS 39.27.011(b) is amended to read:

(b) The salary schedule set out in (a) of this section has no effect upon other provisions of law specifying the salary of the governor, lieutenant governor, legislators, judicial officers as defined in AS 22.20.010, department heads, and members of the Alaska Public Utilities Commission, the Alaska Transportation Commission, the Alaska Pipeline Commission, or the Alaska Commercial Fisheries Entry Commission.

* Sec. 13. AS 42.07.071 is amended to read:

Sec. 42.07.071. COMPENSATION OF MEMBERS OF THE ALASKA TRANSPORTATION COMMISSION. The Commissioners are in the exempt service under AS 39.25 and shall receive an annual salary as established under AS 39.23 [SET BY AS 39.27.011(a) FOR RANGE 27, STEP C OF THE STATE PAY PLAN].

* Sec. 14. AS 42.15 and AS 42.25 are repealed.

* Sec. 15. AS 02.05.035(2), as added by sec. 2 of this Act, takes effect July 1, 1980. Sections 1 and 3 - 10 and 14 of this Act take effect July 1, 1979. Section 11 of this Act takes effect immediately in accordance with AS 01.10.070(c). Sections 12 and 13 of this Act take effect on the effective date of the next recommendation submitted to and accepted by the legislature under AS 39.23.080(c) following the effective date of sec. 11 of this Act.

IN THE SENATE BY THE COMMERCE COMMITTEE

HOUSE CS FOR CS FOR SPONSOR SUBSTITUTE FOR SENATE BILL NO. 60

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act relating to the Alaska Transportation Commission and to its regulation of air commerce under the Alaska Air Commerce Act of 1960."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 42.07.031 is amended to read:

Sec. 42.07.031. QUORUM. Two members of the commission constitute a quorum for the transaction of business, for the performance of a duty, or for the exercise of a power of the commission, except as provided in AS 42.07.181(d).

* Sec. 2. AS 42.07.101 is repealed and re-enacted to read:

Sec. 42.07.101. EMPLOYMENT OF COMMISSION PERSONNEL. (a) The commission may employ an executive director who shall have had at least five years of experience in public transportation management or regulation, law, accounting, or an allied field. The executive director may be a member of the commission. The commission may employ engineers, hearing officers, staff legal counsel, experts, clerks, accountants, and other agents and assistants it considers necessary. The executive director, if not a member of the commission, his deputy, hearing officers and staff legal counsel to the commission are in the partially exempt service under AS 39.25.120. All other employees and agents of the commission are in the classified service under AS 39.25.100. The salary of an executive director who is a member of the commission may not exceed that of a superior court judge.

(b) In addition to its staff of regular employees, the commission

may contract for and engage the services of consultants and experts the commission considers necessary.

* Sec. 3. AS 42.07.141 is amended by adding a new subsection to read:

(e) The commission may adopt regulations or issue orders governing the protection, assemblage, exchange, and distribution of information including the allocation of any costs incurred by a person in performing those activities.

* Sec. 4. AS 42.07 is amended by adding new sections to read:

Sec. 42.07.171. ENFORCEMENT AUTHORITY. An enforcement officer authorized and designated by the commission has the enforcement authority set out in this section in order to enforce regulations and orders of the commission and to enforce the statutes that the commission has the responsibility to administer. The commission may authorize that person to

(1) require the operator of any surface or air vehicle which may be subject to or is reasonably believed to be subject to the authority of the commission to present documents of vehicle registration, ownership, or other documents required by regulation to be in the possession of the operator;

(2) issue citations for the violation of a regulation, order, or statute under the jurisdiction of the commission; and

(3) apply to a court for an appropriate order.

Sec. 42.07.181. STOP ORDERS. (a) The commission may, following a hearing under its regulations, issue a stop order directed to a person violating a regulation, order, or statute under the jurisdiction of the commission.

(b) The commission may issue a stop order on its own motion before a hearing if it finds that immediate and irreparable harm is likely to occur to the public if the order is not issued. In addition, the commis-

sion may iss a stop order on its own motion if it finds that the party to whom the order is directed

(1) has failed to file required insurance or surety bonds;

(2) is no longer fit, willing and able to operate properly;

(3) is operating without an appropriate certificate or permit allowing him to conduct the transportation in question; or

(4) is operating in a manner that will jeopardize the public safety if such an order is not issued.

(c) A stop order issued by the commission on its own motion and without a hearing is effective for five days, and the order shall provide the respondent a hearing within five days. If requested by the respondent, the hearing shall be held in the judicial district in which the residence or principal place of business of the respondent is located. If a hearing has been provided within five days, the commission may extend the stop order an additional five days in order that the commission may decide the matter.

(d) If a single commissioner finds that a person engaging in transportation does so in a manner that creates a likelihood that the public safety will be jeopardized if a stop order is not issued, he may issue a stop order without a hearing. A stop order issued by a single commissioner is effective for 48 hours or until a stop order is issued by the commission under (c) of this section.

(e) A stop order shall be rescinded if the commission finds, upon petition or upon its own motion, that the respondent has complied with the terms of the stop order, or that the stop order was erroneously or improperly issued.

(f) If, after a hearing, the commission finds that a respondent violated the stop order, the commission may fine that person not more than $1,000 for each day the violation of the stop order continues, or

an amount equal to any revenue that person earned as a result of violating the stop order, whichever is greater. No fine may be collected if violations or alleged conditions upon which the stop order was issued are found by the commission or by a court not to apply.

(g) A respondent who is injured by the stop order or citation and is subsequently determined not to have been in violation of a regulation, order, or statute under the jurisdiction of the commission has a claim against the state. A claim under this subsection shall be filed in the superior court. It is not a defense to a claim under this subsection that the stop order or citation constituted a discretionary act on the part of the commission or the enforcement officer.

(h) In this section, "respondent" means a person against whom a stop order or citation is directed.

* Sec. 5. The Alaska Transportation Commission shall amend its rules of practice and procedure within 180 days of the effective date of this Act to insure that any person subject to a stop order issued under AS 42.07.181 has the opportunity to have the stop order rescinded because he has complied with its terms.

* Sec. 6. AS 02.05.050(d)(1) is amended to read:

(1) may, in accordance with his certificate, the limitations established by this chapter and regulations of the commission, utilize in all areas of the state from which he is authorized to operate, aircraft <u>which have a maximum payload capacity determined with reference to federal air regulations of not more than 7,500 pounds and a maximum passenger seating configuration, exclusive of any pilot's seat, of 30</u> [HAVING A MAXIMUM CERTIFICATED TAKEOFF WEIGHT OF 12,500 POUNDS OR LESS] except as authorized on certificates in effect on September 26, 1972 or as otherwise authorized by the commission;

* Sec. 7. AS 02.05.050(d)(3) is amended to read:

(3) may charge individual passenger fares and per pound cargo rates [ON BUSH ROUTES OR POINTS SERVED BY HIM ON AN IRREGULAR BASIS; HOWEVER, NO INDIVIDUAL PASSENGER FARE AND PER POUND CARGO RATE MAY BE LESS THAN THAT CONTAINED IN THE PUBLISHED TARIFF OF A SCHEDULED CARRIER BETWEEN POINTS BEING SERVED BY THE CARRIER];

XEROX

Dividends from Deregulation

A benefit, on balance, for travelers and traffic

Almost exactly a year ago, Congress passed the Airline Deregulation Act, which in the name of free market economics all but stripped away the bureaucracy that had controlled and coddled the U.S. air travel industry for 40 years. Generally, the skies were opened to many new carriers, and operators were given unprecedented freedom to change routes, flight schedules and even their fares. Result after twelve months: a spurt of competition that has brought benefits for travelers as well as some headaches, but that may be cut short by new financial woes afflicting the industry.

On balance, deregulation has led to improved service. Scheduled carriers have added flights at more than 100 cities, and 35 carriers began serving 231 routes that had not previously been flown by lines that had permission to use them. In addition, 32 carriers have taken advantage of a rule that allows each line to begin flying one new route each year without having to get the Civil Aeronautics Board's assent. Insists United Airlines Chairman Richard Ferris: "About 98% of the traveling public has as much or more service available today than a year ago."

The big gainers have been hub cities such as Los Angeles, Houston, Chicago and New York and recreation meccas like Hawaii and Florida. But there have been losers too. Some 60 cities have been stripped of all scheduled airline service. In Chattanooga, which lost much of its service when United and Eastern pulled out this year, James Hunt, a Chamber of Commerce executive, says unhappily of deregulation: "Count us as one of the minuses."

The hope was that in places where service was curtailed or ended altogether, commuter airlines flying small planes and endowed with subsidies would fill the gap. Indeed, in the past twelve months more than 60 such lines have started up. But as a group they are plagued by a shortage of suitable aircraft and a poor safety record. So far in 1979, crashes involving commuter planes have killed 61 persons, vs. 42 in all of 1978.

The increased competition brought on by deregulation has cut average air travel costs. Traffic is up by 13.5% for the first nine months of this year, on top of a 17% increase in 1978, and about half of all air travelers now pay discount fares. The flood of flights has overstrained airports, creating booking, check-in and departure delays. Planes are packed, and even first-class seats can be difficult to get because more and more passengers are paying the premium rates to avoid the crowding and hassle of cabin class. But despite this booming business and a 32% increase in basic fares, the airlines are encountering profit problems, chiefly as a result of higher fuel prices. Says Marvin Cohen, chairman of the CAB: "Fuel has been a real bitch."

Jet fuel, which cost 25¢ per gal. in 1970, is now 70¢ and rising fast; today fuel accounts for about 30% of an airline's operating costs, up from 16% only two years ago. Having earned more than $1 billion in the first nine months of 1978, the industry cleared only $580 million in the same period this year, and all carriers are scrambling to cut costs. TWA has laid off 2,500 employees; and United, which was grounded by a long strike last spring and is now being hurt by passengers cashing in and flying on half-fare coupons, has furloughed 195 pilots and 400 other employees. Braniff has pulled out of 23 of the 40 markets it entered a year ago. Pan Am, which last week got CAB approval for its plan to merge with National, has dropped some overseas routes.

Some airline executives argue that deregulation has helped the carriers cope with runaway costs. Insists John Zeeman, vice president of passenger marketing at United: "If we did not have deregulation we would have been hurt worse. We have problems catching costs but we are now more flexible and can better respond to the market." The real test of that will come next year, when air travel is expected to drop as the recession begins to bite deeper. "The jury is still out," says Edwin Colodny, chairman of USAir (formerly Allegheny). "There will be no full answer on deregulation until the industry has gone through a full economic cycle, up and down."

For now, however, the carriers seem eager to exercise their new freedom to fight for business. At present, the hottest battleground is Florida, where National, Delta and Eastern are all facing new competition on routes in and out of the Sunshine State. Since deregulation, American, Ozark and Republic have all launched runs between Florida and points in the Midwest and other areas, while Braniff has increased its service from Texas and Western states. TWA and United plan to invade Florida this winter.

RAY FISHER

Passengers board a New York–bound Air Florida flight in Miami

Some "gnats" are spreading wings, and making money too.

One beneficiary of all this competition has been the traveling public. Sun seekers can now fly more nonstops to Florida than ever before, and for a multitude of discount fares. As a result, traffic is booming; in the year ending last July, the number of passengers passing through Miami airport was up 21%.

Another beneficiary has been Air Florida, one of the many smaller carriers across the country that have been able to spread their wings under deregulation. Two years ago, it was just another rickety one-state airline, linking six Florida cities with half a dozen planes. Today it is an aggressive regional carrier that serves 23 cities, including Washington, D.C., Philadelphia and New York, with a fleet of jets. This fiscal year it turned its first real profit: $2.4 million. Says Chairman C. Edward Acker: "Without deregulation we'd still be tiny. It has given us the ability to move fast into markets."

When Air Florida expanded to New York and Washington, it undercut its bigger competitors by offering one-way fares of just over $50 (since raised to $70). In a kind of backhanded salute to its aggressiveness, Eastern and other carriers struck back with lower fares on in-state routes. They forced Air Florida to reduce sharply its Miami-Tampa flights and all but abandon the Miami-Orlando run, but the airline retaliated, charging Eastern with "predatory pricing" before the CAB. Eastern spokesmen denied the Air Florida challenge, saying, "They're a gnat. We didn't even know they were there." As a result of deregulation, that may change. ■

SENATE COMMERCE COMMITTEE REPORT
OF ACTION TAKEN ON PERFORMANCE REVIEW
OF THE
ALASKA TRANSPORTATION COMMISSION

STATEMENT OF PROBLEM

In accordance with the provisions of Alaska Statutes 44.66.010 and 44.66.050, the Senate Commerce Committee, as the delegated committee of reference, has conducted the required sunset review of the Alaska Transportation Commission. This report fulfills the legislative requirement for the committee of references' responsibility to make formal notification to the president of the Senate of its findings relative to the Alaska Transportation Commission.

BACKGROUND

The tenth legislature, acting in the interest of streamlining government and making it more efficient, decreed that certain bodies be reviewed and evaluated periodically to determine whether their continuation is in the best interest of the public. The Legislative Budget and Audit Committee has conducted their required performance review of the Alaska Transportation Commission and submitted it to the Legislature (attached as enclosure #1).

The Senate Commerce Committee was delegated as the committee of reference by the president of the Senate. The Senate Commerce Committee has held three public hearings during which testimony was received from all those who requested a chance to be heard. Among those who were heard were the Deputy Commissioner of the Department of Commerce and Economic Development representing the Commissioner of the Department of Commerce and Economic Development, and the Chairman of the Alaska Transportation Commission. The remainder of those who testified were from various sectors of the transportation industry, representing both the ground and air modes of transportation, and the public at large. Those individuals representing various organizations or those who themselves could not testify in person submitted written testimony.

DISCUSSION

The thrust of the testimony covered three general categories: (1) Adminstrative position, (2) Trucking Industry, and; (3) Air Industry. A summary of these positions follows.

(1) The general administrative position is to follow the recommendations embodied in the Performance Review (attached as enclosure #1). The administrative position as stated by the Department of Commerce and Economic Development included the following recommendations:

a. That the Alaska Transportation Commission not be assigned a dedicated attorney.

b. That the bulk commodity carriers (dump trucks) be de-regulated.

c. That a study should be made determining the affects of de-regulation prior to the implementation of de-regulation. In other words, the administration does not know what the consequences would be if the Alaska Transportation Commission were terminated June 30, 1979.

d. An additional recommendation made by the Chairman of the Alaska Transportation Commision was that an economist be assigned to the Commission in an advisory position.

(2) The concensus opinion presented by the trucking industry was that the Alaska Transportation Commission should be retained. It was the feeling of the industry representatives that regulation is necessary to insure a stable and responsive transportation system in the State of Alaska. One witness expressed a concern over the currently structured regulatory process. Another witness expressed a desire to de-regulate the entire commission with respect to the trucking and towing industry.

(3) The Alaska Air Carriers Association supports the findings of the Legislative Audit report and favors continuation of the Air Commerce Laws and Regulations. However, some individual air operators were for de-regulation of the air carrier portion of the Alaska Transportation Commission's

responsibilities. The central theme of their objections were concerned with limited entry provisions of the law, and a deep desire to let the public decide for themselves what they want and not be told what they can and cannot do.

CONCLUSION

The Senate Commerce Committee, after hearing the testimony, has come to the following conclusions:

(1) The Alaska Transportation Commission should be continued subject to correction of the deficiencies noted and resolution of the recommendations made by the Legislative Budget and Audit Committee (enclosure #1).

(2) The economic review study of de-regulation which was recommended by the Legislative Budget and Audit Committee should be funded by the Legislature and should be conducted by a qualified independent research organization.

(3) At this time, it does not appear that there is an alternative method of achieving the stated purposes and objectives of the Alaska Transportation Commission; however, the Economic review study (referred to in sub-paragraph (2) of this paragraph) may result in recommended administrative and operational changes.

(4) On the basis of the testimony received, it does not appear that the Alaska Transportation Commission could be consolidated with any other board or commission within the state government.

RECOMMENDATIONS

The Senate Commerce Committee recommends that the following actions be taken by the eleventh legislature.

(1) The Performance Review of the Alaska Transportation Commission, conducted by the Division of Legislative Audit, be approved and adopted as the required report to the president of the Senate together with this report.

(2) The Legislature fund an economic review study of de-regulation as recommended by the Senate Commerce Committee and Legislative Budget and Audit Committee.

(3) That legislation be drafted to extend the life of the Alaska Transportation Commission until June 30, 1980, pending the recommended economic review study of de-regulation. (see sub-paragraph (2) of this paragraph).

(4) In the interim, the Senate Commerce Committee recommends that certain legislative actions be taken to correct the deficiencies of the Alaska Transportation Commission as noted in the Legislative Budget and Audit Review. These would include, but should not be limited to SSSB 60, SB 97 and SB 236 (attached), which are currently scheduled for consideration by the Senate Commerce Committee during the first session of the eleventh legislature.

SENATE COMMERCE COMMITTEE REPORT ON SUNSET REVIEW OF THE ALASKA TRANSPORTATION COMMISSION

STATEMENT OF PROBLEM

In accordence with the provisions of Alaska Statytes 44.66.010 and 44.66.050 the Senate Commerce Committe as the deligated committee of reference has conducted the required sunset review of the Alaska Transportation Commission. This report fulfilles the legislative requirment for the committee of references' responsibility to make formal notification to the president of the Senate of their findings relitive to the Alaska Transportation Commission.

BACKGROUND

The tenth legislature, acting in the interest of streamlining government and make it more efficient, decread that certian bodies be reviewed and evaluated periodically to determin weather their continuation is in the best interest of the public. The Legislative Budget and Audit Committee has conducted their required review of the Alaska Transportation Commission., and submittde their Preformance Review to the legislature (attached as inclosure #1).

The Senate Commerce Committee was deligated as the committee of reference by the President of the Senate. The Senate Commerce Committee has held three public hearings during which testimony was recieved from all those who requested a chance to be heard. Among those who were heard were the

deputy Commissioner of Commerce and Economic Development representing the Commission of Commerce and Economic Development, and the Chairman of the Alaska Transportation Commission. The remainder of those who testified were from various sectors of the industry and the public at large.

DISCUSSION

In The thrust of testimony fell into three catagories: (1) Administrative position, (2) Trucking Industry, and (3) Air Carriers. A Summery of these positions followes.

(1) The general administrative position is to follow the recomendations embodied in the Preformance Review (attached as enclosure #1). The administrative position as stated by the Department of Commerce and Economic Development included the following recomendations. (A) that the Alaska Transportation Commission not be assigned a dedicated attorney. (B)That the bulk commodity carriers (dunp trucks) be de-regulated. (C) That a study should be made determining the affects of de-regulation prior to the implementation of de-regulation. In other words thhe administration does not know what the affects of consequences whould be if the Alaska Transportation Commission were sunseted June 30, 1979. (D) An additional recomendation made by the Chairman of the Alaska Transportation Commission was that an economic economist be assigned to the commission in an advisory possition.

(2) The concenious opinion presented by the trucking industry was that the Alaska Transportation Commission should be ~~stronger~~ retained. It was the feeling of the industry representatives that regulation is an ~~absolute~~ necessity to insure a stable responsive transportation system to the State of Alaska. One witness expressed a concern over the currently structured regulatory process. Another witness expressed a desire to de-regulate the entire commission with respect to the trucking and towing industry.

(3) The conseccious position presented by the Air Carriers was for de-regulation of the air portion of the Alaska Transportation Commission responsibilities. The centeral theam of their objections were concerened with limited entry provisions of the law, and a deep desire to let the public decide for themselves what they want and not betold. The Air Carriers Association is in favor of continuel regulation.

cONCLUSION

The Senate Commerce Committee after hearing the testimony has come to the following conclusions:

(1) The Alaska Transportation Commission should be continued subject to resolution of the recomendations made by the Legislative Budgit and Audit Ckmmittee (enclouser #1).

(2) That the economic review study recomended by the Legislative

Budget and Audit Committee Report, be funded by the legislature, provided the study be conducted by an independent research orginization.

(3) It does not appear at this time that there is an alternative method of achieving the stated purposes and objectives of the Alaska Transportation Commission. The Economic review study (refered to in sub paragraph (2) of this paragraph) may ~~reeemmen~~ result in recomended changes.

(4) It does not appear, on the basis of testimony recieved, that the Alaska Transportation Commission could be consolidated with any other board or commission within the state government.

RECOMENDATIONS

The Senate Commerce Committee recomend the following actions be taken by the eleventh legislature.

(1) The Preformance Review of the Alaska Transportation Commission, conducted by Legislative Audit, be approved and adopted as the required report to the president of the Senate together with this report.

(2) The Legislature fund a review study as recommended by the Senate Commerce Committee and Legislative Budget and Audit Committee.

(3) That legislation be drafted to extend the life of the Alaska Transportation Commission until June 30, 1980, pending the recomended economic study of de-regulation. (see paragraph (2) of this paragraph.

(4) In the intrum the Senate Commerce Committee recomends that certian ~~legislatiion~~ legislative actions be taken to correct the deficencies of the Alaska Transportation Commsiiion as noted in the Legislative ~~Bugs~~ Budgit and Audit Review. These would include but not be limited to sponser substitute SB-60 and SB-97.

SENATE COMMERCE COMMITTEE REPORT
ON SUNSET REVIEW OF THE
DIVISION OF OCCUPATIONAL LICENSING,
DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT

STATEMENT OF PROBLEM

In accordance with the provisions of Alaska Statutes 44.66.010 and 44.66.050 the Senate Commerce Committee as the designated committee of reference has conducted the required Sunset Review of the Division of Occupational Licensing. This report fulfills the legislative requirements for the committee of references' responsibility to make formal notification to the President of the Senate of their findings relative to the Division of Occupational Licensing.

The Senate Commerce Committee is designated as the committee of reference by the President of the Senate. The Serate Commerce Committee has held one public hearing during which testimony was received from all those who requested a change to be heard. Among those who were heard were the Director representing the Division of Occupational Licensing and the Chief Investigator from Occupational Licensing. The remainder of those who testified were the Deputy Director of Commerce and Economic Development and a representative from the Alaska Health Coalition.

DISCUSSION

The thrust of testimony received fell into two categories: (1) Administration position and, (2) the Health Care Industry.

(1) The administrative position is to follow the recommendations embodied in the Performance Review (attached as enclosure #1). The administrative position as stated by the Department of Commerce and Economic Development included the following recommendations:

a., That the Division of Occupational Licensing should display better management through an in-house organization program.

b. That the Division of Occupational Licensing whose primary goal is to ensure that Alaskans are adequately protected from unscrupulous or incompetent practitioners, streamline the investigation process.

(2) The concensus position presented by the Health Care Coalition was that money is the major problem plaguing the various boards, especially money for investigative services. Lack of division funds for investigative services has stymied every board being reviewed. The Coalition also believes that more complaints would be filed if people were better informed as to the procedures for doing so. A major concern of the coalition was the lack of communication between the Division of Occupational Licensing and the boards. Reference was made that introduction of legislation directly affecting the boards

be discussed with the boards prior to introduction. The following recommendations were submitted by the Health Coalition:

a. That the Division of Occupational Licensing investigations be transferred to the Department of Public Safety.

b. The Division of Occupational Licensing be required to submit to boards all proposed legislation having a direct or indirect affect on the boards.

c. The Division of Occupational Licensing play a stronger role in settling disputes between boards and other agencies and departments.

d. Require the Division of Occupational Licensing to actively solicit names for possible appointments from the public and private sectors and that the division periodically review and update it with current information.

e. All the statutes in Chap. 08 by revised to limit the number of terms that any board member could serve to two.

f. The division should review the licensing fee structure and seek appropriate revisions.

CONCLUSION

One Senate Commerce Committee after hearing all testimony provided in the hearing has come to the following conclusions:

(1) The Division of Occupational Licensing should be continued subject to resolution of the recommendations made by the Legislative Budget and Audit Committee (attached enclosure 1).

(2) Statutory amendments are needed to assure that appropriate action is taken on consumer complaints against licensed persons.

(3) It does not appear at this time that there is an alternative method of achieving the stated purposes and objectives of the Division of Occupational Licensing.

(4) It does not appear on the basis of testimony received that the Division of Occupational Licensing could be consolidated with any other board or commission within the state government

RECOMMENDATIONS

The Senate Commerce Committee recommends the following actions be taken by the eleventh legislature:

(1) The performance Review of the Division of Occupational Licensing conducted by the legislative audit be approved and adopted as the required report to the president of the Senate together with this report.

(2) That legislation be drafted to extend the life of the Division of Occupational Licensing until June 30, 1980.

(3) In the interim the Senate Commerce Committee recommends that certain legislative actions be taken to correct the deficiencies in the Division of Occupational Licensing as noted in the Legislative Budget and Audit Performance Review. These would include, but not be limited to, SB 73.

MEMORANDUM TO: Commerce Committee

From: Secretary of the Senate RM

Subject: Sunset Audits with Discussion of Legislative Oversight Responsibilities

The President has referred the following reports to the Commerce Committee for public hearings:

A Performance Review of the Alaska Transportation Commission, October 24, 1978

A Performance Review of the Division of Occupational Licensing Department of Commerce and Economic Development, October 30, 1978

Also enclosed is the memorandum of January 22 from the Legislative Budget and Audit Committee pointing out the requirements set out in AS 44.66.050(c) d

President Tillion will expect to receive a report from your committee before the March 1st deadline.

Chapter 66. Review of the Activities of Agencies, Boards and Commissions.

Section	
10. Termination of state boards and commissions	30. Program identification
20. Agency programs	50. Legislative oversight
	60. Existing claims

Cross reference. — As to the termination, continuation and reestablishment of regulatory boards, see AS 08.03.010.

Editor's note. — Section 1, ch. 149, SLA 1977, provides: "The legislature finds that the substantial increase in the number of state agencies, boards and commissions, and the proliferation of rules and regulations which each has adopted have contributed to a public disenchantment with the operation of state government, and that there is need for an effective and regular system of scrutiny of the programs and activities of all agencies, boards and commissions. The legislature further finds that the establishment of a system for periodic review by the public and the executive and legislative branches of certain state agencies, boards and commissions will help the governor and the legislature to determine the need for the continued existence of each of the agencies, boards and commissions."

Sec. 44.66.010. Termination of state boards and commissions. (a) Boards and commissions listed in this subsection expire on the date set out after each:

(1) Alcoholic Beverage Control Board (AS 04.05.010) — June 30, 1979;

(2) Alaska Transportation Commission (AS 42.07.011) — June 30, 1979;

(3) State Board of Parole (AS 33.15.010) — June 30, 1980;

(4) Alaska Public Utilities Commission (AS 42.05.010) — June 30, 1980;

(5) Alaska Pipeline Commission (AS 42.05.010) — June 30, 1981;

(6) Alaska Council on Science and Technology (AS 44.19.181) — June 30, 1983;

(7) Alaska Renewable Resources Corporation (AS 37.12.010) — June 30, 1982.

(b) Upon termination, a commission listed in (a) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs.

(c) A commission scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 3 ch 149 SLA 1977; am § 3 ch 101 SLA 1978; am § 10 ch 1979 SLA 1978)

Effect of amendments. — The first 1978 amendment added paragraph (6) of subsection (a).

The second 1978 amendment added paragraph (7) of subsection (a).

Editor's note. — The reference in paragraph (5) to AS 42.05.010 should be to AS 42.06.010.

Sec. 44.66.020. Agency programs. (a) Agency programs and activities listed in this subsection which are specifically designated as provided in § 30 of this chapter are subject to termination during the regular legislative session convening in the month and year set out after each:

(1) programs in the budget categories of general government, public protection, and administration of justice — January, 1980;

(2) programs in the budget categories of education and the University of Alaska — January, 1981;

(3) programs in the budget categories of health and social services — January, 1982;

(4) programs in the budget categories of natural resources management, development and transportation — January, 1983.

(b) An agency program or activity designated in (a) of this section shall be subject to termination during the regular legislative session convening four years after the preceding review and may be subject to termination at any time upon the recommendation of the Legislative Budget and Audit Committee and the concurrence of the legislature as if under § 30 of this chapter. (§ 3 ch 149 SLA 1977)

Sec. 44.66.030. Program identification. During the legislative session preceding each of the years set out in § 20 of this chapter, the Legislative Budget and Audit Committee shall designate, not later than March 1 of those years, the programs and activities within each program category which shall be subject to termination in the next fiscal year. The recommendations of the Legislative Budget and Audit Committee shall be submitted to the respective houses of the legislature in the form of a bill which, if enacted into law, would terminate those designated programs and activities on or before July 1 of the following year. (§ 3 ch 149 SLA 1977)

Sec. 44.66.050. Legislative oversight. (a) Before the termination, dissolution, continuation or reestablishment of a board or commission under AS 08.03.010 or § 10 of this chapter, or of an agency program under §§ 20 and 30 of this chapter, a committee of reference of each house, which shall be the standing committee of legislative jurisdiction as provided in the Uniform Rules of the Legislature, shall hold one or more hearings to receive testimony from the public, the commissioner of the department having administrative responsibility for each named board, commission, or agency program, and the members of the board or commission involved. The hearings may be joint hearings. The committee shall also consider the proposed budget of the board, commission, or agency program, prepared in accordance with AS 37.07.050(f), and the performance audit of the activities of the board, commission, or agency program, prepared by the legislative audit

division as prescribed in AS 24.20.271(1). The committee may consider any other report of the activities of the board, commission or program, including but not limited to annual reports, summaries prepared by the Legislative Affairs Agency, and any evaluation or general report of the manner of conduct of activities of the board, commission, or agency program prepared by the office of the ombudsman.

(b) During a public hearing, the board, commission or agency shall have the burden of demonstrating a public need for its continued existence or the continuation of the program, and the extent to which any change in the manner of exercise of its functions or activities may increase efficiency of administration or operation consistent with the public interest.

(c) A determination as to whether a board or commission or agency program has demonstrated a public need for its continued existence shall take into consideration the following factors:

(1) the extent to which the board, commission or program has operated in the public interest;

(2) the extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters;

(3) the extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest;

(4) the extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided;

(5) the extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions;

(6) the efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved;

(7) the extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public;

(8) the extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest; and

(9) the extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

for purposes of review, the committee of reference shall, not later than the 60th day of the legislative session, submit a report to the presiding officer of the house. The report shall contain a summary of the findings of the committee as to the compliance of the board, commission or program with the factors enumerated in (c) of this section, together with a summary or recommendations of the committee as to each of the following:

(1) an identification of the problems or the needs that the programs and activities of the board, commission or agency are intended to address;

(2) a statement, to the extent practicable, of the objectives of the program of the board, commission, or agency program, and its anticipated accomplishments;

(3) an identification of any other programs having similar, conflicting or duplicate objectives;

(4) an assessment of alternative methods of achieving the purposes of the program;

(5) an assessment of the consequences of eliminating the board, commission or program and consolidating its activities with another program, or of funding it at a lower level;

(6) a justification for the recommended continuation or extension of the board, commission or program, and an explanation of the manner in which it avoids duplication of or conflict with other efforts; and

(7) any other information which, in the opinion of the committee, would improve the performance of the board, commission or agency with respect to its representation of and responsiveness to the public interest.

(e) The committee of reference may introduce a bill providing for the reorganization or continuation of the board, commission or agency program. No more than one board, commission, or agency program shall be continued or reestablished in any legislative bill, and the board, commission, or agency program shall be mentioned in the title of the bill. (§ 3 ch 149 SLA 1977)

Sec. 44.66.060. Existing claims. This chapter shall not cause the termination or dismissal of a claim or right of a citizen against a board, commission or program of an agency terminated under this chapter which is subject to litigation. Claims and rights shall be assumed by the department to which the board or commission terminated under this chapter was attached for administrative purposes. (§ 3 ch 149 SLA 1977)

JUNEAU, ALASKA 99811

THE LEGISLATURE

BUDGET AND AUDIT COMMITTEE

January 22, 1979

To: Presiding Officer of Both Houses

From: Legislative Budget and Audit Committee
George Hohman, Chairman

Subject: Forwarding of Sunset Audits with Discussion of Legislative Oversight Responsibilities

Enclosed are Sunset Audit Reports of 13 boards and commissions that will terminate June 30, 1979. We are forwarding these reports to you so that they may be distributed to the appropriate standing committees you will designate to perform the legislative oversight function.

According to AS 44.66.050 the standing committee of legislative jurisdiction, as provided in Rule 20 of the uniform Rules of the Legislature, shall hold one or more hearings to receive testimony from the public and other parties that have associated responsibilities or interests. In addition the Committee shall consider Legislative Audit's report, the agencies proposed budget, the agencies program performance report and any other tools that might assist them in evaluating the conduct and activities of the agency being terminated.

It is important to note that the terminating agency shall have the burden of demonstrating a public need for its continued existence during the public hearings.

The determination of "public need" for continued existence shall take into consideration the following factors set out in AS 44.66.050(c):

(1) the extent to which the board, commission or program has operated in the public interest;

(2) the extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters;

(3) the extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest;

(4) the extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided;

(5) the extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions;

(6) the efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved;

(7) the extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public;

(8) the extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest; and

(9) the extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

The Legislative Audit reports have addressed these issues individually but only to the extent allowed by restricted audit scopes detailed within the reports.

The Law further states that the committee of reference shall, not later than the 60th day of the legislative session, submit a report to the presiding officer of each house. The report is to include a summary of findings as to compliance with the "public need" factors enumerated above together with recommendations as to each of the following:

(1) an identification of the problems or the needs that the programs and activities of the board, commission or agency are intended to address;

(2) a statement, to the extent practicable, of the objectives of the program of the board, commission, or agency program, and its anticipated accomplishments;

(3) an identification of any other programs having similar, conflicting or duplicate objectives;

(4) an assessment of alternative methods of achieving the purposes of the program;

(5) an assessment of the consequences of eliminating the board, commission or program and consolidating its activities with another program, or of funding it at a lower level;

(6) a justification for the recommended continuation or extension of the board, commission or program, and an explanation of the manner in which it avoids duplication of or conflict with other efforts; and

(7) any other information which, in the opinion of the committee, would improve the performance of the board, commission or agency with respect to its representation of and responsiveness to the public interest.

The committee of reference may introduce a bill providing for the reorganization or continuation of the agency being terminated as stipulated in AS 44.66.050(c).

In addition, the Law requires the Legislative Budget and Audit Committee to designate, not later than March 1, 1979, programs or activities in the general government, public protection and administration of justice budget categories, which shall be subject to termination in the next fiscal year. It is anticipated that the Legislative Budget and Audit Committee will be recommending six to nine programs for termination which will be submitted to you in the form of bills by the required deadline.

The following bill was engrossed and enrolled, signed by the President and Secretary of the Senate, the Speaker and Chief Clerk of the House, and the enrolled and engrossed copies transmitted to the Office of the Governor at 4:30 p.m., May 10, 1979: FCCS SB 236

FREE CONFERENCE COMMITTEE SUBSTITUTE
FOR SENATE BILL NO. 236
(continuing the existence of the Alaska Transportation Commission and amending laws relating to the commission)

The following memorandums explain changes made in the engrossed bill as passed by the House and Senate when the bill was enrolled as recommended by the Co-Revisor of Statutes. Speaker Gardiner, Representative Brown, President Tillion and Senator Bradley concurred in the above as enrolled, when contacted on May 10, 1979:

M E M O R A N D U M May 10, 1979

SUBJECT: FCCSSB 236

TO: Peggy Mulligan, Senate Secretary

FROM: Sally McIntire, Enrolling Secretary SM

At the request of the Revisor of Statutes I have made the following clerical corrections in this bill:

(1) *Sec. 12 of the bill has been deleted from the bill and the remaining sections renumbered accordingly.

(2) On page 7, line 16 the reference to AS 42.15 has been removed from the repealer.

I have enclosed a copy of the revisor's memorandum requesting the corrections. The presiding officers should be advised of these corrections made under Rule 42 of the Uniform Rules.

FCCS
SB
236

LEGISLATIVE AFFAIRS AGENCY

MEMORANDUM May 10, 1979

SUBJECT: FCCSSB 236

TO: Sally McIntire, Legal Editor

FROM: David T. Walker
Co-Revisor of Statutes

My investigation of conflicts within this bill causes me to conclude that the legislature did not intend for this bill to repeal AS 42.15 (Alaska Bus Act). I have spoken with the bill drafter, reviewed our bill file, and listened to the tape recorded explanations of the Free Conference Committee version of the bill given to the Senate by Senator Bradley and to the House by Representative Brown.

All the evidence indicates that it was the intention of the Free Conference Committee, and the House and Senate, to continue regulating carriers by bus in Alaska, and their belief that FCCSSB 236 did not violate that concept.

Rule 42 of the Uniform Rules requires me, in my role as revisor, to check the engrossed bill for legal content. I have marked on it in red pencil the corrections I believe should be made so they are readily identifiable.

I request that you include them as an authorized clerical correction and report the matter to the secretary under Rule 42, Uniform Rules, Alaska State Legislature.

The history back on the engrossed bill sent to the Governor reflects the action taken above and reflects the opinions of the Free Conference Committee members contacted.

The Governor's veto on the following bill was overridden in a joint session on May 4, 1979:

SCS
HB
45

SENATE COMMITTEE SUBSTITUTE FOR
HOUSE BILL NO. 45
(relating to the Alaska Legislative Council and the Legislative Budget and Audit Committee; eff. date)
Chapter 57, SLA 1979

FCCS SB 53

LEGISLATIVE AFFAIRS AGENCY

M E M O R A N D U M May 16, 1979

SUBJECT: FCCSSB 53 (Budget)

TO: Peggy Mulligan
Senate Secretary

FROM: Donna Spragg Pegues
Co-Revisor of Statutes

I have discovered a clerical error in the enrolled copy of FCCSSB 53 (Budget). At page 4, line 26, after "sec. 45," the words "ch. 163," should be inserted.

We plan to correct the bill before it is duplicated for inclusion in the 1979 session laws.

The following messages dated May 18, 1979 were received stating the Governor has signed the following bills and transmitted the enrolled and engrossed copies to the Lieutenant Governor's Office for permanent filing:

The Honorable Clem Tillion HCS
President of the Senate SB
The Honorable Terry Gardiner 86
Speaker of the House
Alaska State Legislature
Juneau, Alaska 99811

Dear Mr. President and Mr. Speaker:

Upon the advice of the Attorney General, I am vetoing House Committee Substitute for Senate Bill 86, which expands upon the sunset program and requires fiscal notes for adopting administrative regulations. It is the Attorney General's view that combining those separate subjects in one bill and failing to express the latter subject in the bill's title are fatal defects.

Rather than permit an almost certainly invalid law to go on the books, I feel that the bill should be vetoed. If the legislature still wishes to act on the two subjects, two new bills can be enacted to achieve that result.

Sincerely,

Jay S. Hammond
Governor

FCCS SB 53 — The following message dated June 1, 1979 regarding FREE CONFERENCE COMMITTEE SUBSTITUTE FOR SENATE BILL NO. 53 (appropriating for the operating and capital expenses of the state government, effective date) was received:

The Honorable Clem Tillion
President of the Senate
The Honorable Terry Gardiner
Speaker of the House
Alaska State Legislature
Juneau, Alaska 99811

RE: FCCS SB 53
CHAPTER 80

Dear Mr. President and Mr. Speaker:

I am today signing Free Conference Committee Substitute for Senate Bill 53 into law. For the first time in four years the legislature has passed an appropriation bill beneath the ceiling I presented to them in my budget message. This is a most significant precedent and one which I encouraged by assuring the legislature that so long as administrative priorities were accommodated, I would not be forced to veto legislative programs falling beneath such ceiling. While I may not agree with some of the specific uses proposed for these funds, compared to those proposed in my budget, joint acceptance by the legislature and administration of a budget ceiling is a far greater consideration. FCCS SB 53

I am, however, vetoing a portion of Section 15 of this bill, which would have amended Sections 1 and 2 of chapter 2, SLA 1978 by reducing the appropriation made last year to the Department of Transportation and Public Facilities for delineation of a utility corridor and right-of-way extension of the Alaskan Railroad to the Canadian border from $865,000 to $600,000. This section then appropriated $265,000 to the Legislative Council for a similar purpose which I have allowed to stand. The Department of Transportation and Public Facilities had already obligated the majority of these funds when the Free Conference Committee on the budget was taking this action and, therefore, these funds are not available for lapse.

In addition to this veto, I feel I must notify you that there are other sections and "riders" that you placed in the bill which are not legally binding. Since these are not birding, I have -- with notable exception of the bill of attainder at page 18 -- not lined them out in the bill, but I am attaching the review of the bill performed by the Department of Law which outlines the legal responsibilities imposed by the various "riders." As you will note when you read this attachment, many of the "riders" that were placed in the bill have no legal force and in other cases are in direct violation of existing law. Of course, state agencies must follow existing law when there is a conflict between the "rider" and other statutes.

The bill in Section 20 contains language that would lead the public, and perhaps some legislators, to believe that there would be no reduction in services below the level provided in fiscal 1979. This is simply not the case. While the budget I submitted could have retained such service levels, because the legislature shifted funds from my proposed operational budget to capital projects there will be a decrease in certain services. State agencies will, of course, attempt to minimize the service reductions, but there needs to be an understanding that service and employment reductions will occur.

Sincerely,

Jay S. Hammond
Governor

FCCS
SB
53

APPENDIX

Review of Riders on FY 80 General
Appropriations Bill
May 17, 1979

OPERATIONAL BUDGET.

1. Positions. After many of the entries indicating the purpose of an appropriation is a parenthetical indicating a number of positions, i.e., permanent personnel. Appropriation bills must be confined to appropriations. Alaska Const., art. II, § 13. Fixing the numbers of positions in various offices is not an appropriation. Accordingly, these parentheticals are treated as informational, reflecting a likely understanding, but not having the force of law.

2. Page 9, lines 16-19 */ (Capital '80): An appropriation bill must be confined to appropriations. Alaska Const., art. II, § 13. The Fiscal Procedures Act covers purchases of goods and services by all state agencies. AS 37.05.220--280, 320(2). The rider on lines 12-13 cannot be construed to amend the Fiscal Procedures Act.

3. Page 11, lines 25-28, 30-33 (University of Alaska): This rider would require a transfer of $125,000 from the "UNIVERSITY PLANT FUND TO THIS APPROPRIATION AS PROGRAM RECEIPTS FROM EXCESS COLLECTIONS OF DEDICATED REVENUE BOND FEES." The university has title to all its personal property. Alaska Const., art. VII, § 2. Its property is to be managed and disposed of as provided by law. Id. There is nothing in AS 14.40.280--450 which provides for the university to match appropriations from the general fund with money from one or another of its funds or accounts. Because it must be confined to appropriations, it is unlikely that an appropriation bill can be used to achieve that effect. The appropriation probably can be made conditional on a match from the university's own money. Specifying the source, however, gets into managing the university's money directly, and probably goes too far to be valid as a condition.

4. Page 12, lines 5-13, 17-25 (University of Alaska): This

*/ Page references are to the print of the bill as it will appear as a session law. The print is longer (84 pages) than the bill (71 pages) due to printing style differences. Thus, for example, page 56 of the print is page 47 of the bill.

rider contains a conditional exception to the statutory prohibition against making transfers between appropriations. Generally, an appropriation cannot amend other, substantive law. There are two reasons why the provisions here are probably valid. One, the exception made by them is one recognized by case law at any event. Even without these provisions, a reorganization which combined the two units to which the money was appropriated would result in the money's being combined. Two, the subject of the substantive law is appropriations; therefore, the bill is acting only on appropriations and does not exceed the constitutional restriction.

5. Page 13, lines 7-10 (University of Alaska): This is the same as 3, above, i.e., probably over intrusive and invalid. A less intrusive condition requiring a match from the university probably would be valid.

6. Page 13, line 21 (Ketchikan Community College): This is an explanatory item within an allocation and has no real effect.

7. Page 15, lines 20-24 (U of A, Mineral Industry Research Laboratory): The provisions in this rider for lapsing money in the event of a shortfall in the receipt of matching monies appear to duplicate the provisions of section 3 of the bill.

8. Page 16, lines 23-30 (Child Support Enforcement): This rider conditions the expenditure of funds on their not being used to invade constitutionally protected rights. It is directly and substantially related to the appropriation, and therefore, is valid.

9. Page 17, lines 14-16. (Youth Services): The use of the appropriations bill for pass-through grants where a grants program has not been established by law creates both legal and administrative problems because of the absence of standards for determining recipients and amounts. For example, if there are entities similarly situated to the named grantees which are ready, willing, and able to perform the same services, how is one selected and the other not. Does that deny equal protection. Is the legislature by selecting out a single, identified entity to perform a service for a specific amount of money actually contracting for the state for it. Does that violate the separation of powers. The Fiscal Procedures Act. Grants to municipalities (or their agencies) are clearly permissible; they are the state's political subdivisions. But grants to others must be treated as appropriations for contractual services and the provisions of the Fiscal Procedures Act must be followed.

10. Page 17, lines 18-31 (Adult Supportive Services): These

FCCS
SB
53

provisions create the same problems as 9, above. Of course, many of the named recipients provide a singular service, and it can be argued that, as a practical matter, each constitutes a single source. However, under ordinary and customary practice, the state agencies would make requests for proposals and by doing so could create additional sources. As a result, legislative identification of the grantee evades the requirements of the Fiscal Procedures Act. Because this bill cannot amend that Act, its provisions must be followed.

11. Page 18, lines 5-7 (Social Services, Southern Region): This appropriation bill cannot be used to impose a legal requirement that there be a night in-take program at Ketchikan. These provisions are valid as a statement of intent and are entitled to great weight. They also afford ample reason for the agency administrators to assume that the elimination of the program will be followed by a reduction in the appropriation by an amount equal to support two positions.

12. Page 18, lines 8-10 (Social Services, Southern Region): What is true for Ketchikan is also true for Wrangell. This appropriation bill cannot dictate the staffing of the Wrangell office.

13. Page 18, lines 13-16 (Social Services, Central Office): So too, no appropriation is made by a provision, such as in the rider here, relating to deleting a position. Moreover, since this rider applies to a clearly ascertainable person, and is clearly intended as a punishment, it is a bill of attainder prohibited by the constitution. United States v. Lovett, 328 U.S. 303, 315 (1946). Its invalidity is beyond reasonable dispute.

14. Page 18, lines 21-24 (Office on Aging): This is another grant where the selection of the grantee must follow the Fiscal Procedures Act as discussed in 9, above.

15. Page 18, lines 26-27 (Grants): Same problem.

16. Page 19, lines 9-12 (Internal Audit): The Legislative Auditor probably should be funded directly by program receipts rather than by a rider for these and similar audits.

17. Page 20, lines 17-20 (Social Services, CETA): This provision creates the grants problem discussed in 9, above.

18. Page 20, lines 21-37 (Adventure-Based Education Program): Notwithstanding the need for prompt action expressed by these provisions, the agency's administrators must comply with the applicable law covering contracts for goods and services. It is not the agency's fault that this appropriation came so late in the year. The directive to encumber

$25,000 and transfer the money from other appropriations is of dubious validity. It does not effect a transfer by law as has been done in other bills this year.

19. Page 21, lines 28-29, 37-38 (Handicapped Children and Regional Labs): The direct grant raises the questions raised in 9, above.

20. Page 22, lines 7-13 (Public Health Administration): Same.

21. Page 23, lines 16-21 (Alcohol Abuse): The direct grants, because they are made to a municipality, are valid items.

22. Page 23, lines 30-34 (Mental Health): To the extent the grants are to municipalities, they are valid. To others, section 9, above, applies.

23. Page 24, lines 5-8 (Residential Care): Same.

24. Page 24, lines 10-15 (Family Support): Same.

25. Page 24, lines 20-21 (Mental Health): Same.

26. Page 25, lines 10-19 (Natural Resource Administration): Partial funding is patently inconsistent with the Executive Budget Act. This comment will not be repeated with respect to other agencies which are also partially funded.

27. Page 26, lines 35-38 (Commercial Fisheries): This appropriation bill cannot be used to set the staffing for Haines or Dillingham. This "condition" is invalid.

28. Page 27, lines 19-27 (Admin. and Support): The direct grants raise the questions discussed in 9, above. Contracts for performing the specific projects must be let under applicable law.

29. Page 27, lines 33-35 (Investigations and Research): Same as 27, above.

30. Page 30, lines 33-35 (Occupational Licensing): As this rider does, an appropriation bill can set the period for which an appropriation is made and it need not be the same as others in the same bill. Alaska Const., art. IX, § 13.

31. Page 31, lines 37-39 (Highway Safety): Same.

32. Page 32, lines 30-32 (Criminal Justice Planning): Same.

33. Page 35, lines 35-39 and page 36, lines 4-24 (Renewable Resources Board): While these provisions, being part of an

FCCS
SB
53

appropriations bill, can have no lawful force or effect, they constitute a valid statement of the legislature's wishes and should be responded to accordingly.

34. Page 36, lines 36-39 and page 37, line 4 (Economic Enterprise): The problem with this provision is that the $65,000 appropriation referred to is not one expressly contained in the bill. Nevertheless, Budget and Management should be able to see that the sums come out as intended by the legislature.

35. Page 37, lines 19-21 (Tourism): Again, the direct grants must be governed by law as discussed in 9, above.

36. Page 38, lines 10-13 (Community Planning): Same.

37. Page 39, lines 5-10 (DOT/PF Commissioner's Office): These provisions add nothing to the existing law and, being part of an appropriations bill, cannot impose a legal duty on the commissioner beyond that imposed by existing laws.

38. Page 39, lines 28-36 (M & O, Administration): These provisions cannot compel the department to contract with the railroad for the specified service. This is an invalid rider on an appropriations bill.

39. Page 40, lines 14-19 (Highways): Nor can a rider be attached to provide for road maintenance on an off-system road in violation of existing law. The money probably could be used to support ferry service.

40. Page 40, lines 31-34 (Airports): The rider for a direct grant for air-taxi mail delivery raises the problems discussed in 9, above.

41. Page 42 lines 5-23 (Executive Office): The rider requiring the Governor to report on the consolidation of certain functions has no legal force or effect. The Governor can, of course, honor the rider as a request.

42. Page 42, lines 28-34 (Budget & Management): This rider, being part of an appropriation bill, has no legal force or effect. Moreover, insofar as it would intrude the legislative branch into the exercise of a power over the budget vested exclusively by the constitution in the executive, it would probably be invalid even if enacted as a separate law.

43. Page 43, lines 6-9 (Internal Audit): A rider in an appropriations bill cannot be used to effect a transfer of an agency or function between the principal departments of the executive branch. Accordingly, this is an invalid condition. The function of the Internal Auditor is not, however, placed

in the Department of Administration by law; and therefore, the Governor has authority to relocate it.

44. Page 43, lines 10-13 (Internal Audit): A rider on an appropriations bill cannot establish a legal duty. Nevertheless, duplication of functions by the executive and legislative auditors should be avoided.

45. Page 43, lines 16-20 (Bethel Office): The legislature may refuse to fund a given function, and when it does, that will generally be the end of it. The rider here, however, has no effect on the Governor's use of his contingency fund, which may be used to fund a trouble shooter at Bethel. Additionally, the legislature's power to refuse funding cannot be used to inflict a punishment, for to do so would make the rider an unconstitutional bill of attainder.

46. Page 43, lines 25-30 (AWCF Services): This is merely an explanation of an accounting adjustment.

47. Page 43, lines 34-38 (U of A Audit): This rider has no legal force or effect.

48. Page 44, lines 6-18 (Salary Increases): This rider has no legal force or effect. Neither the executive nor legislative branches are bound by it. Nevertheless, it is a valid statement of the consensus of the 11th State Legislature and entitled to great deference and respect.

49. Page 44, lines 26-32 (Risk Management): It is highly unlikely that a $13.6 million appropriation for insurance, half of which will be expended before the so-called condition can occur, will be held to be conditioned on a report concerning four positions. This rider merely illustrates how any requirement can be stated as a condition.

50. Page 44, lines 35-39 and page 45, line 4 (General Services): The rider requiring the Departments of Administration and of Transportation and Public Facilities to establish joint car rental policies can have no legal effect.

51. Page 45, lines 13-17 (Data Processing): This rider appears to make storage space a purpose of the FY 79 appropriation for data processing. In effect, it amends last year's appropriation bill. That is almost certainly permissible.

52. Page 45, lines 19-38 and page 46, lines 4-9 (Data Processing): This rider appears to both explain and reflect an adjustment by the legislature in the budget for data processing. It relates directly and solely to appropriations, and therefore, is valid.

FCCS
SB
53

53. Page 46, lines 23-26 (FERC Proceedings): This language provides for a lapse of the appropriation when the tariff proceedings terminate. It is valid.

54. Page 46, lines 33-36 (Permanent Fund Management): This is a similar provision for a lapse.

55. Page 47, lines 23-31 (Procurement): This language specifies the period of a portion of the appropriation. That is valid.

56. Page 47, lines 32-35 (Tenakee Health Center): This rider has no legal force or effect.

57. Page 47, lines 36-39 and page 48, lines 4-5 (Combined Facilities): This rider has no legal force or effect.

58. Page 48, lines 17-19 (Communications): This rider has no legal effect, but it is a proper statement of legislative intent, as are similar riders mentioned above and below. Ordinarily, it is the kind of statement which is placed in a committee report, as are many of this bill's riders.

59. Page 48, lines 21-25 (Communications): This rider has no legal force or effect.

60. Page 48, lines 29-37 (Communications): The breakdown of the appropriation item contained in this rider does not impose a legal restriction on the use of the appropriated money.

61. Page 49, lines 4-19 (Television): These riders place no legal duty on anyone to do anything.

62. Page 49, lines 20-38 (Television): This rider appears to state that, notwithstanding the actual apparent appropriation of $2,170,815 for television, the agency should spend $2,553,000, the "full funding" for FY 80. Unfortunately, the language does not parallel that used by other riders which clearly state the legislature's intent to fund at a higher level than the amount appropriated in the bill. Accordingly, that intent probably cannot be inferred, and the expenditures cannot be made, absent some other evidence of it.

63. Page 50, lines 11-19 (Vehicle Repairs and Rentals): These riders have no legal force or effect.

64. Page 50, lines 24-27 (Audits): This rider has no legal force or effect.

65. Page 51, lines 5-35 (Legislative Council): This rider

is explanatory and has no legal effect. Again, it is the kind of material which ordinarily appears in a committee report.

CAPITAL BUDGET.

66. Page 55, lines 8 and 19 (Election District): The indication of election districts is informational only. An error in district designation has no effect on the appropriation or its expenditure.

67. Page 60, lines 18-27, 32, 36, etc. (Grants): The capital budget, like the operating budget, includes a large number of "grants" to nongovernmental entities for services or facilities or both. The same questions raised under 9, above, are raised by the "grants" in this portion of the bill. They will have to be handled as discussed in 9, above, i.e., under applicable statutes, most particularly the Fiscal Procedures Act and the Public Facilities Procurement Act.

68. Page 62, lines 29-30 (Sutton Community Building): There is no municipality of Sutton, and the "community of Sutton" is not a juridicial entity with which the state can transact business. It appears, therefore, that the agency must, in this and similar situations, seek out a responsible group or association in the community to be responsible legally for the community building, and to contract with the state for the money.

69. Page 63, lines 20-22 (St. James Mission): There is a City of Tanana. Presumably, the grant is to it. The purpose of the grant, rehabilitation of a mission, raises establishment of religion problems. In order to expend public funds, it must be for a non-religious purpose.

70. Page 63, lines 23-26 (Gateway R.E.A.A.): Direct grants to the named villages raise public purpose questions. This appropriation appears to be to the Department of Natural Resources for Parks and Recreation (page 62, lines 4-5) for the Gateway REAA, to be divided among five communities. No purpose is stated. Presumably it relates to recreation. The agency and the intended recipients are, however, apparently left to devise a purpose. This is almost certainly an overly broad and unconstitutional delegation of the power of appropriation. It appears that the bill contains a large number of such items. Unless there is some legislative documentation of the purpose of these grants, they raise real questions of validity.

FCCS
SB
53

71. Page 66, lines 9-12 (Commercial Fisheries and Agriculture Bank): The rider's explanatory material limits the appropriation. It is a valid limitation, relating solely and directly to the appropriation.

72. Page 66, lines 22-29 (AHFC Mobile Homes): This rider states an "intent" rather than a condition. "Legislative intention without more is not legislation." Train v. City of New York, 420 U.S. 35, 45 (19[illegible]). Had the legislature intended to make $1 million solely available for a mortgage insurance for mortgage financing for mobile homes, it would have appropriated it that way. A statement of intent must be perceived as a lesser restriction.

73. Page 68, lines 8-13 (Farm Projects): These are more examples of the problems discussed above in 9 relating to legislatively prescribed, non-governmental grantees.

74. Page 68, lines 15, 17-35 (Grants): Same.

75. Page 70, lines 23-26 (Firehalls): Volunteer fire departments fall into a category which is quite close to municipalities. They probably constitute de facto service areas in the unorganized borough, and because of the statutorily prescribed governmental functions they perform, may well be de jure service areas. Grants to them should, therefore, be treated much the same as grants to municipalities.

76. Page 70, lines 30-33, 34-36, 37-39 (Grants): While these riders name entities within municipalities, it is best to infer that they are part of the object or purpose of the appropriation and that the grant is to the respective municipalities for those purposes, e.g., for recreational facilities in Spenard.

77. Page 71, lines 7-9 (Grant): The grant to the Thomas Bay Power Authority raises questions concerning its purpose. If there is no legislative documentation on the p[illegible]ose, it may well be an invalid appropriation.

78. Page 71, lines 21-24 (Takotna Grant): Takotna does not appear to be a city. If not, the grant must be handled so as to ensure its expenditure is for a public purpose and not for private benefit.

79. Page 73, lines 13-15, 16-18 (Grants): Chalkyitsik and Cantwell were not incorporated cities as of 1978. Where a grantee does not exist, the grant probably fails. Legislative documentation (or lack of it) should be determinative.

80. Page 73, lines 22-24 (Grants): Healy Lake was not an

incorporated city in 1978.

81. Page 73, lines 31-35 (Grants): These grants may be too indefinite as to recipient and purpose to be valid constitutionally. It will depend upon the existence of legislative documentation identifying both more precisely.

82. Page 75, lines 7-9 (Traffic Signals): This rider merely further identifies the purpose of the appropriation.

83. Page 75, lines 11-12 (Street Repairs): As a general rule, a "community council" cannot be given power to supervise the expenditure of public funds. This rider, therefore, does not have the force of law.

84. Page 75, lines 21-24 (Road Improvements): Same.

85. Page 76, lines 11-13 (Paradise Haven Lodge): This rider is invalid. First, in order for a condition on an appropriation to be valid, it must have a direct and substantial connection to the appropriation. Second, the lawmaking power is not the power to pick and choose the buildings to be used for park facilities.

86. Page 77, lines 19-20 (Priorities): While a valid statement of concern and entitled to great weight, this rider can have no legal effect.

87. Page 79, lines 12-23 (Landscaping): This rider's statement of intent does not have the force of law required to remove these projects from the application of other laws which could frustrate the very intent stated by the rider.

88. Page 81, lines 19-22 (Fourth Floor): This rider -- vesting the Legislative Finance Division with control over the fourth floor in the capitol -- has no legal effect. First, so long as there is space on the fourth floor of the capitol occupied by another branch of the government, an agency of the legislature cannot -- under the separation of powers -- usurp that space or have supervening control over it. Second, under existing law, space occupied by the legislature and its agencies is under the control of the Legislative Affairs Agency. AS 24.20.060(5). A rider on an appropriations bill cannot amend that substantive law. Of course, the second consideration is solely a matter of internal concern to the legislature, and no law on the subject is required at all.

RE: HCS CS SB 137 am H
CHAPTER 83, SLA 1979

Dear Mr. President and Mr. Speaker:

I am allowing House Committee Substitute for Committee Substitute for Senate Bill 137 am H to become law with-

HCS
CSSB
137
am H

out signature. I know that a great deal of hard work has gone into the bill and that, in most respects, it is good legislation.. Nevertheless, because it would create an impossible situation with respect to apportionment of borough assemblies and allow a multiplicity of zoning jurisdictions to exist within organized boroughs, I am compelled not to sign it. Because the House and Senate managers of the bill have promised that curative legislation will be brought to the floor during the next session, I am not vetoing the bill.

The first defect is that the provision which provides for the voters to choose the kind of apportionment a borough assembly should have creates a method by which two electorates within a borough could select two different kinds of apportionment. No means is provided for resolving the difference. If reapportionment were imminent, a veto would be necessary. But there is yet time to cure this defect, and it can be done at your next session.

The second problem concerns zoning. Since the inception of organized boroughs in Alaska shortly after statehood, it has been an accepted and indisputable fact that, at a minimum, three functions of local government were areawide by their very nature: education, planning and zoning, and tax assessment and collection. Nothing has occurred in the meantime to alter that conclusion. Indeed, if anything, the opposite is true, particularly with respect to land-use planning and zoning.

I am aware that the particular zoning needs of some cities presently appear to be very great, but they must and can be met in some other fashion than the giant step backward proposed by this bill. No greater disservice can be done to our citizens, particularly those who own homes and businesses, than to fragment our local planning and zoning. Another solution must, and will, be found, and the administration will work closely with you to find one.

Sincerely,

Jay S. Hammond
Governor

FCCS
HB
66

June 1, 1979

The Honorable Clem Tillion
President of the Senate
The Honorable Terry Gardiner
Speaker of the House
Alaska State Legislature
Juneau, Alaska 99811

Dear Mr. President and Mr. Speaker:

I have signed the following bill and am transmitting the enrolled and engrossed copies to the Lieutenant Governor's Office for permanent filing:

FREE CONFERENCE COMMITTEE SUBSTITUTE FOR
HOUSE BILL NO. 66
(relating to the management and disposal of public land; and providing for an effective date)
chapter 85, SLA 1979

Although I am signing Free Conference Committee Substitute for House Bill 66 into law because it makes important improvements by removing statutory impediments to transfer of state land to private ownership, I would like to note that the measure does pose some serious implementation problems. There are conflicting and contradictory provisions that will make it difficult to implement some portions of the bill within the various short deadlines contained in the bill. Nevertheless, I have directed the Department of Natural Resources to aggressively find solutions to accomplish true legislative intent. Specifically, I have instructed the department to dispose of 100,000 acres during FY 80 rather than FY 81 as the act requires. In addition, I have instructed that although municipalities may no longer disapprove of state subdivision plats, the department make every effort to plat in a way the boroughs would approve, had they a choice.

Two sections of the bill are especially troublesome. Counsel advises that Sections 2-5 and 45 which could be construed as restricting the state's right to refuse municipal selections that are clearly contrary to the state's interest (the surface estate at Prudhoe Bay, for example), is almost certainly unconstitutional. Nevertheless, due to present classification of these lands, it is unlikely that such conflicts will arise and the question is probably more academic than practical.

Even worse is Section 44, which rewards trespassers by granting them an interest in public lands without due notice and without providing a similar chance to law abiding citizens to secure the same interest. On the advice of the Attorney General, I have instructed the Department of Natural Resources to not implement that provision because of its unconstitutionality. Almost surely, the matter can then be decided in court.

FCCS
HB
66

All in all, however, I am most pleased to sign into law this important legislation and to pledge eager implementation of its very postive land disposal sections.

Sincerely,

Jay S. Hammond
Governor

FCCS
SB
236

The Honorable Clem Tillion
President of the Senate
The Honorable Terry Gardiner
Speaker of the House
Alaska State Legislature
Juneau, Alaska 99811

Dear Mr. President and Mr. Speaker:

I have vetoed Free Conference Committee Substitute for Senate Bill 236, an act continuing the existence of the Alaska Transportation Commission and amending laws relating to the commission; and providing for an effective date.

The Department of Law has pointed out serious defects in the language relating to the issuance of stop orders by the Alaska Transportation Commission, the effect of the language would be to dilute the power of the Alaska Transportation Commission's enforcement of its own orders.

Section 12 of the enrolled bill (insurance on exempt carriers) has been previously discussed in regard to the "deregulation" of air service. However, it also should be noted that sec. 12 would require all currently exempt vehicles, including motor vehicles operated by federal, state, and municipal government, those operated by ranchers, farmers, and dairymen under 12,000 pounds gross vehicle weight, and those operated by construction contractors to file insurance coverage with the commission. Such regulation would in fact, increase the scope of regulatory control by the commission and could quite possibly necessitate an increase in commission personnel. Additionally, there is doubt that the language relating to insurance requirements for exempt carriers is clear enough that the provision is enforceable.

Existing law provides that the Alaska Transportation Commission would be terminated June 30, 1979 but would continue in existence until June 30, 1980. Therefore, I

FCCS SB 236 believe that there is sufficient time for the legislature to address the issue in a timely manner. Additionally, it should be noted that the deregulation provisions relating to fixed wing aircraft would not take effect until July 1, 1980. Some operators of light aircraft that the legislature intended to exempt from regulation, i.e., guides, would continue to be regulated due to the proviso for providing 12 months of service.

The fiscal impact of the bill is significant, analysis indicares a cost of 97.7 thousand dollars annually, no funding was provided with the measure.

Sincerely,

Jay S. Hammond
Governor

Alaska State Legislature

House

JUNEAU, ALASKA

MESSAGE TO THE SENATE DATE ~~April~~ May 2, 1979

MR. PRESIDENT:

The House has passed SB 236 (continuing the existence of the Alaska Transportation Commission; eff. date) with the following amendment:

HCSSB 236amH (continuing the existence of the Alaska Transportation Commission and amending laws relating to the commission; eff. date)

and it is transmitted herewith for consideration.

Chief Clerk of the House

Owner-Operators of Alaska,

Have you taken a good look at your earnings lately as opposed to your expenses? How many of you are aware of the proposal and amendment presently being considered for adoption by the Alaska Transportation Commission? If adopted, your earnings will, inevitably, be reduced further. You are the only work force in Alaska that has taken a reduction in earnings for four consecutive years!

It would appear that fourteen different Carriers have conspired against you by giving their Power of Attorney to one man, enabling him to represent their desires and he presented this proposal in Anchorage at the A.T.C. Not one Owner-Operator was present at that hearing. Did you see the notice of that hearing posted in your local newspaper? To date, I have not found anyone that did.

A hearing was not scheduled for Fairbanks until Joe Gilbertson filed a formal complaint with A.T.C. A hearing was then scheduled for January 24, 1980 in Fairbanks. As I understand it, a notice is to be published in at least three different publications. This was handled by a notice in the "Juneau Southeast Empire", "Nome Nugget", and the "Journal", a magazine subscribed to by the Carriers. In all fairness, I must add that the A.T.C. claims a notice went out to all the Newspapers. I havn't as yet found any hard evidence to support the claim. This action tells me, they didn't want any Owner-Operator representation. However, as a notice was hand carried to all the Carriers shortly before the hearing, Joe Gilbertson notified as many as possible. About a dozen Owner-Operators were present.

This proposal and amendment appear fairly innocent on the surface, but was cleverly devised to shift all the operational cost from the Carrier to the Owner-Operator while at the same time rendering your Union Contract "non-applicable". Indeed, the Carrier would become a "Broker" and the Owner-Operator would be a "Sub-Contractor".

Can the Owner-Operator afford more expense? Can you pay your own Secretary, all payroll taxes, including Workmans' Comp., cargo insurance, and the deductable on the trailer belonging to the Carrier? From whom do you collect if you sustain a permanent injury on the job? Do you sue yourself?

Furthermore, this puts the A.T.C. in the position your Union has held. Basically, they are negotiating your next contract. The "Brokers" won't need a Union. You'll be loading your own loads or paying a hostler out of your own pocket as some are already doing.

Some of you claim you are happy without the Union. How happy will you be in the absence of a Union and faced with possible deregulation on June 30th? When the next pipeline begins and there isn't any control over Alaska hire, every Independent in the lower fourty-eight can come up here and take your jobs. They'll work for less, live in their trucks, and send their money outside. While you're all sitting home, who will pay your house payment, your truck payment, ard feed the family? You're kidding yourselves if you don't think it can and will happen! That is exactly what this new proposal is all about.

In fact, the same person weilding the fourteen Powers of Attorney and this proposal at A.T.C., is the same person that devised the illegal lease which was presented to the Sager drivers, in anticipation of this proposal being adopted. They are all counting on the fact that truckers seldom stick together, even on basic issues. They steadily decrease your earnings, make you dependent on the next pay check, then zap it to you. You're right on the edge of that now as each of you have consistently robbed your savings to meet Carrier "back-charges" this past year.

At the time of the Statehood Act, Owner-Operators were not a consideration under the statutes adopted for Transportation, as they were non-existant. You've all been "manipulated" under provisions concerning lease equipment. Consequently, these regulations can, at will, by requests of the Carriers, be changed at their desire and for their benefit. While requesting changes to shift more operational expense to the Owner-Operator on one hand, with the other, they are filing reduced rates to further decrease your earnings. They want all of you to be so financially dependent on them for your next truck payment, you'll work for nothing. Up to this time, and over the last three years you've all sat back and watched it happen.

This time you had better all stand up and be counted. File your objections with the Transportation Commission and your Legislators. At the end of the last pipeline there were over four hundred Owner-Operators in the State. Each one puts a mimimum of $75,000 back into the economy annually. That adds up to a basic figure of $30,000,000. On that figure alone, the Owner-Operator should have the right to request the attention of your Legislature.

You had all better insist on funding for the A.T.C. while at the same time asking for a statute to protect Owner-Operators. You need a statute depicting the minimum amount your truck will be paid, and how often it will be paid. Ask that the driver will be an employee of the Carrier so you don't get stuck with their overhead. You desperately need a statute the Carriers can't jack around!

There is a subtle conspiracy in this State to take down the Unions and reduce your wages. Consider the hardships endured and the loss of jobs when the City of Fairbanks refused to negotiate new Labor contracts this last year. Their problems are still going on. How many are aware that outside carpenters were brought in to build the new Pizza Hut in Fairbanks, while Alaska carpenters picketed. Sager Trucking in Delta Junction are bringing in outsiders while Alaskans picket. The oil companies brought in electricians, to Prudhoe Bay, a couple of weeks ago, claiming there were not enough qualified Alaskans. We have Alaskan Electricians out of work. How many non-residents were hired for pipeline security by Alyeska? I doubt most people are aware of the percentage of non-Alaskans working at Prudhoe Bay and all the Pump Stations along the way.

For once, all the Union Organizations had better stand together. All our jobs are at stake here, not just the Teamsters.

I'm asking all Owner-Operators, all Union people and all concerned Alaskans that agree with what I've said here, to cut out ~~this letter~~, sign it, include your name and address, and send it to the Legislator of your choice.

For once let ALASKANS stand up for Alaskans, before we all find out we can be replaced for less!

These are my feelings also as a 28 yr Alaskan — I approve and ask your Support.

Gene Cecil

ALASKA TRUCKING ASSOCIATION, INC.

June 7, 1979

The Honorable Jay Hammond
Governor of Alaska
Juneau, Alaska

Sir:

The Special Committee of the Alaska Trucking Association wishes to thank you for allowing us the opportunity of meeting with you on June 4, 1979. I think it was agreed among our group that a frank discussion took place and that there was a free exchange of opinions. At the close of that meeting, how ver, our committee left with rather frustrated feelings. We, of course had been seeking a strong expression of support from the Administration regarding the year round maintenance of the State road from Fairbanks to Deadhorse. It was our feeling that your Administration gave us only qualified support and that you were relying on Alyeska Pipeline Service Company to provide that maintenance which we feel is the State of Alaska's obligation.

At this time we would like to summarize the key reasons that we feel that the State of Alaska should maintain that highway on a year round basis.

1. Affect on Motor Carrier Industry

We as an industry are seriously concerned that a six month closure of the road will in fact result in the demise of a significant portion of the motor carrier industry. We have provided you statistics which indicate that at a minimum $25.7 million dollars were earned in revenues by motor carriers from operations on the North Slope in 1978. Out of those revenues approximately $9.5 million dollars in wages were paid directly to approximately 308 drivers. It is our feeling that the motor carriers and the various owner/operators who operate on the North Slope could not economically maintain facilities, equipment and employees on the basis of operating less than six months per year. Consequently if the road was only open for that period of time it could be presumed there would not be sufficient transportation to haul freight over the road.

2. The Economic Impact on Fairbanks

It is well recognized that Fairbanks already has an unemployment rate of 14% or greater. Many of the motor carriers operating to the North Slope have drivers and support facilities domiciled in Fairbanks. The resultant unemployment caused by the six month closure of the road would only add to the unemployment factor in that city. Using the ripple effect, that impact would be even greater. It has been stated by one airline company in this State that if the road were closed, unemployment in Fairbanks would actually diminish because of the resultant growth in the air freight industry. It is our feeling that the closure of the road will not mean significant diversions of freight to aircraft. All indications we receive from the oil industry are that the diversion of freight will rather take place to barges traveling from Seattle to Prudhoe Bay or up the McKenzie River to Prudhoe Bay. Consequently it is erroneous to assume that the air freight industry will grow to any extent in the Fairbanks area.

3. The Economic Affect on the State of Alaska

At least one oil company (Atlantic Richfield Company) has stated that they expend approximately $78 million dollars per year for goods and services purchased from approximately 1,100 Alaskan vendors. They have indicated that if the road is closed significant portions of those expenditures would be made in the Lower 48 rather than Alaska. It is our understanding that the oil companies and Alyeska Pipeline Service Company are conducting studies at this time to provide similar statistics such as Atlantic Richfield's. We have been assured by those oil companies that when the final statistics are compiled the economic impact of a six month road closure on the State of Alaska will be staggering.

4. Future Development of Resources Within the State

Recent passage of the Udall-Anderson Bill by the U. S. House of Representatives was widely recognized as being a deterrent toward the economic development of the resources within the State of Alaska. It is particularly disconcerting at this time to see our own State government further weaken the economic development of the State and the oil industry in particular through closure of the road for six months.

It is widely known that the Atlantic Richfield Company has plans to develop the Kuparuk Oil Field. The reserves in that field are believed to be quite significant. It is obvious that if the road is closed the cost and time frame of developing that field will greatly increase. It should also

be noted that we understand that Sohio-BP has a large number of leases in that oil field. Sohio-BP has publicly stated that there will not be any significant drilling programs undertaken until such time as the State's attitude toward the oil industry improves. Obviously any closure of the road would only be a further indication to Sohio-BP that the State does not have a positive attitude toward the oil industry. Consequently the road closure could cause Sohio-BP to delay any development of the Kuparuk Field.

5. Maintenance of the Alyeska Pipeline

During the course of the meeting on June 4 you expressed great concern regarding the difficulties in safely maintaining the pipeline during the six month period when the road was to be closed. It is obvious to all that any breakdown or major oil spill that would occur on the pipeline would have a disastrous affect both environmentally and economically on the State. For instance, it has been estimated that a closure of the pipeline for one day could cause a loss of revenue of approximately $2.08 million dollars to the State. Any major breakdown of the pipeline during the winter months while the road was closed could potentially cost the State tens of millions of dollars in lost revenues. In addition, it could be visualized that the State would have some legal liability for any major oil spills due to the fact that they did not maintain adequate transportation corridors for the pipeline.

6. Alternate Modes of Transportation

During the course of the construction of the pipeline and of the development of the Prudhoe Bay oil field there were always available alternate methods of transporting goods. The most commonly used methods were either by motor truck, barge or air freight. The closure of the road for a six month period could drastically affect the alternatives of shipping goods. It should be remembered that a few years ago the sealift barge movement was prevented by ice formations from arriving at Prudhoe Bay. In that particular instance the majority of goods were diverted to motor truck. If such an occurrence should happen again only a limited amount of those goods could be diverted to air freight due to economic and size factors. It is also possible that because of weather conditions aircraft cannot serve the needs of the pipeline or the oil field for sustained periods of time. In such emergencies it would be disastrous if a maintained road was not open to serve the needs of the industries.

June 7, 1979

Over the course of the past few weeks our committee has found that the sentiment of the business community within Alaska is overwhelmingly in favor of having the State maintain the road on a year round basis. It is our understanding that various communities and Chambers of Commerce have passed resolutions in favor of such year round maintenance and have forwarded those resolutions to you. As you also know, a poll was conducted by the Resource Development Council to ascertain the sentiment of the Alaska State Legislators toward year round maintenance. Of those legislators contacted, an overwhelming majority appear to favor year round maintenance. In fact, it is obvious to all that less than a handful of legislators are the only roadblock that prevents the year round maintenance from occurring. It is our belief that the economic well being of this State and of the motor carrier industry in particular is too significant to be thwarted by the wishes of a few individuals. We believe that the climate is right for your Administration and for the State legislators as a whole to take a strong stand and once and for all demonstrate that they are concerned about the economic well being of this State. Year round maintenance of the North Slope Road by the State would be a good demonstration of that support. We do not believe that Alyeska Pipeline Service Company should be expected to provide the funds needed for that maintenance. It is obvious that they and the oil companies in the Prudhoe Bay area are by far the largest contributors toward the revenues received by the State Treasury. It is our opinion that it is the moral and probably legal obligation of the State to provide for and fund the maintenance of the road which is vital in maintaining a healthy oil industry in this State.

Because of all of the above, the Alaska Trucking Association at their Board of Directors meeting on June 6, 1979 authorized the Special Committee to send a resolution to you. That resolution is as follows:

> It is our understanding that Governor Hammond intends to call a Special Session of the State Legislature in the near future. It is our belief that when the Governor calls that Special Session, he can include the issue of year round maintenance of the State highway from Fairbanks to Deadhorse. We believe that the State has an obligation to maintain that road and

June 7, 1979

that it is paramount to the economic well being of this State that such maintenance be performed. We therefore call upon the Governor to exercise his leadership and the authority of his office to include the issue of the State highway funding on the agenda for the Special Session of the legislature.

We would appreciate receiving a response regarding the above resolution as soon as possible.

Respectfully yours,

ALASKA TRUCKING ASSOCIATION
SPECIAL COMMITTEE

SUBCHAPTER I—GENERAL PROVISIONS

§ 1301. Definitions

As used in this chapter, unless the context otherwise requires—

(1) "Administrator" means the Administrator of the Federal Aviation Administration.

(2) "Aeronautics" means the science and art of flight.

(3) "Air carrier" means any citizen of the United States who undertakes, whether directly or indirectly or by a lease or any other arrangement, to engage in air transportation: *Provided*, That the Board may by order relieve air carriers who are not directly engaged in the operation of aircraft in air transportation from the provisions of this chapter to the extent and for such periods as may be in the public interest.

(4) "Air commerce" means interstate, overseas, or foreign air commerce or the transportation of mail by aircraft or any operation or navigation of aircraft within the limits of any Federal airway or any operation or navigation of aircraft which directly affects, or which may endanger safety in, interstate, overseas, or foreign air commerce.

(5) "Aircraft" means any contrivance now known or hereafter invented, used, or designed for navigation of or flight in the air.

(6) "Aircraft engine" means an engine used, or intended to be used, for propulsion of aircraft and includes all parts, appurtenances, and accessories thereof other than propellers.

(7) "Airman" means any individual who engages, as the person in command or as pilot, mechanic, or member of the crew, in the navigation of aircraft while under way; and (except to the extent the Secretary of Transportation may otherwise provide with respect to individuals employed outside the United States) any individual who is directly in charge of the inspection, maintenance, overhauling, or repair of aircraft, aircraft engines, propellers, or appliances; and any individual who serves in the capacity of aircraft dispatcher or air-traffic control-tower operator.

(8) "Air navigation facility" means any facility used in, available for use in, or designed for use in, aid of air navigation, including landing areas, lights, any apparatus or equipment for disseminating weather information, for signaling, for radio-directional finding, or for radio or other electrical communication, and any other structure or mechanism having a similar purpose for guiding or controlling flight in the air or the landing and take-off of aircraft.

(9) "Airport" means a landing area used regularly by aircraft for receiving or discharging passengers or cargo.

(10) "Air transportation" means interstate, overseas, or foreign air transportation or the transportation of mail by aircraft.

(11) "Appliances" means instruments, equipment, apparatus, parts, appurtenances, or accessories, of whatever description, which are used, or are capable of being or intended to be used, in the navigation, operation, or control of aircraft in flight (including parachutes and including communication equipment and any other mechanism or mechanisms installed in or attached to aircraft during flight), and which are not a part or parts of aircraft, aircraft engines, or propellers.

(12) "Board" means the Civil Aeronautics Board.

(13) "Citizen of the United States" means (a) an individual who is a citizen of the United States or of one of its possessions, or (b) a partnership of which each member is such an individual, or (c) a corporation or association created or organized under the laws of the United States or of any State, Territory, or possession of the United States, of which the president and two-thirds or more of the board of directors and other managing officers thereof are such individuals and in which at least 75 per centum of the voting interest is owned or controlled by persons who are citizens of the United States or of one of its possessions.

(14) "Civil aircraft" means any aircraft other than a public aircraft.

(15) "Civil aircraft of the United States" means any aircraft registered as provided in this chapter.

(16) "Conditional sale" means (a) any contract for the sale of an aircraft, aircraft engine, propeller, appliance, or spare part under which possession is delivered to the buyer and the property is to vest in the buyer at a subsequent time, upon the payment of part or all of the price, or upon the performance of any other condition or the happening of any contingency; or (b) any contract for the bailment or leasing of an aircraft, aircraft engine, propeller, appliance, or spare part, by which the bailee or lessee contracts to pay as compensation a sum substantially equivalent to the value thereof, and by which it is agreed that the bailee or lessee is bound to become, or has the option of becoming, the owner thereof upon full compliance with the terms of the contract. The buyer, bailee, or lessee shall be deemed to be the person by whom any such contract is made or given.

(17) "Conveyance" means a bill of sale, contract of conditional sale, mortgage, assignment of mortgage, or other instrument affecting title to, or interest in, property.

(18) "Federal airway" means a portion of the navigable airspace of the United States designated by the Secretary of Transportation as a Federal airway.

(19) "Foreign air carrier" means any person, not a citizen of the United States, who undertakes, whether directly or indirectly or by lease or any other arrangement, to engage in foreign air transportation.

SUBCHAPTER I—GENERAL PROVISIONS

§ 1301. Definitions

As used in this chapter, unless the context otherwise requires—

(1) "Administrator" means the Administrator of the Federal Aviation Administration.

(2) "Aeronautics" means the science and art of flight.

(3) "Air carrier" means any citizen of the United States who undertakes, whether directly or indirectly or by a lease or any other arrangement, to engage in air transportation: *Provided*, That the Board may by order relieve air carriers who are not directly engaged in the operation of aircraft in air transportation from the provisions of this chapter to the extent and for such periods as may be in the public interest.

(4) "Air commerce" means interstate, overseas, or foreign air commerce or the transportation of mail by aircraft or any operation or navigation of aircraft within the limits of any Federal airway or any operation or navigation of aircraft which directly affects, or which may endanger safety in, interstate, overseas, or foreign air commerce.

(5) "Aircraft" means any contrivance now known or hereafter invented, used, or designed for navigation of or flight in the air.

(6) "Aircraft engine" means an engine used, or intended to be used, for propulsion of aircraft and includes all parts, appurtenances, and accessories thereof other than propellers.
