FIRST, THE MINUTE THE "BOARD" NO LONGER EXISTS, THE LICENSES OF THE ADMINISTRATORS BECOME INVALID -- THUS THE NURSING HOMES ARE NOT IN COMPLIANCE AND THE PATIENTS MUST BE MOVED ALMOST IMMEDIATELY, RETURNED TO THEIR HOMES OR BE PLACED IN NON-EXISTING FACILITIES.

SECONDLY, MEDICAID HAS THE RIGHT AT THAT POINT TO STOP PAYMENT OF THE FIFTY (50%) PERCENT SUPPORT.

THE OBVIOUS RESULT OF ONE AND TWO IS THE REMOVAL OF MEDICAL CARE FROM APPROXIMATELY 500 ILL AND ELDERLY PATIENTS -- NONE OF WHOM HAVE A PLACE TO GO -- SOME OF WHOM ARE COMATOSE -- ALL OF WHOM ARE UNABLE TO CARE FOR THEMSELVES -- NONE OF WHOM HAVE FAMILIES ABLE TO CARE FOR THEM OR THEY SHOULD NOT BE IN NURSING HOMES -- MOST OF WHOM ARE WARM, CARING, LOVING PEOPLE DOING THEIR VERY BEST UNDER VERY TRYING STATES OF HEALTH.

WHAT CAN BE DONE TO STOP THE POTENTIAL SERIOUS DANGER TO THE PRESENT AND PROSPECTIVE RESIDENTS OF NURSING HOMES; THE AGED, AND THE ILL, BOTH YOUNG AND OLD?

RETAIN THE BOARD OF NURSING HOME ADMINISTRATORS. THE LEGISLATURE MAY WELL DESIRE TO CHANGE THE MANNER IN WHICH THE BOARD IS CONSTITUTED, AND WE WOULD APPLAUD ANY CHANGE THAT BROUGHT ABOUT COST SAVING WITHOUT DESTROYING EFFECTIVENESS. THE SIZE OF THE BOARD MAY BE AS SMALL AS THREE MEMBERS; ONE COULD WELL BE FROM THE STAFF OF HEALTH AND SOCIAL SERVICES, ONE FROM THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT AND THE OUTSIDE MEMBER COULD BE THE ADMINISTRATOR OF A JUNEAU-BASED NURSING HOME. THUS, THE ONLY COST INVOLVED WOULD BE CLERICAL AS RELATED TO THE SCHEDULED MEETINGS AND EXAMINATIONS. NO TRAVEL AND NO PER DIEM. AND THIS SYSTEM COMPLIES WITH FEDERAL REQUIREMENTS.

AS AN ASIDE, I WOULD MENTION THAT IN MY MIND THE CONSIDERATION OF DOING AWAY WITH A BOARD MUST INCLUDE DEEP AND CAREFUL THOUGHT UPON THE TOTAL RELATIONSHIPS INVOLVED AND NOT ONLY THE APPARENT COST AND PRODUCTIVITY OF A BOARD. MUCH WORK MUST BE DONE ON A NATIONAL LEVEL TO CHANGE FEDERAL RULES IF ALASKA TRULY WISHES TO LESSEN EXTERNAL CONTROLS. LET'S LET THAT BE A SEPERATE CONCERN.

FOR NOW WE SHOULD ALL WORK TOGETHER TO RETAIN ANACCEPTABLE, TO US AND TO FEDERAL AUTHORITIES, "BOARD OF NURSING HOME ADMINISTRATORS" AND RETAIN OUR ABILITY TO PROVIDE PROPER MEDICAL HELP FOR OUR ELDERLY AND OUR ILL. SECONDARILY, LET US MAINTAIN OUR ABILITY TO SHARE THE COST WITH THE FEDERAL GOVERNMENT.

REMEMBER, NO "BOARD OF NURSING HOME ADMINISTRATORS" COULD MEAN AN ALMOST IMMEDIATE CLOSURE OF THE NURSING HOMES THROUGH NON-COMPLIANCE----AND, AN ULTIMATE LOSS OF FEDERAL FUNDING.

THE COMPLIANCE WITH FEDERAL STANDARDS AND THE CURE OF THE PROBLEM ARE SIMPLE MATTERS. COMPOSE THE BOARD FROM THE REPRESENTATIVE OF APPROPRIATE STATE AGENCIES PLUS A REPRESENTATIVE OF THE NURSING HOME INDUSTRY AND CONTINUE TO OPERATE UNDER THE PRESENT RULES

SINCERELY YOURS,

JIM L. BUCK

CSSB 544

BOARD OF BARBERS AND HAIRDRESSERS

MR. PRESIDENT, I MOVE THE ADOPTION OF CSSB 544 WHICH TERMINATES THE EXISTING BOARD OF BARBER EXAMINERS AND THE EXISTING BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS, AND ESTABLISHES A NEW BOARD ENTITLED: THE BOARD OF BARBERS AND HAIRDRESSERS. THE BARBERS, HAIRDRESSERS, AND COSMETOLOGISTS ARE BROUGHT UNDER THE ONE BOARD. IT IS FELT THAT THE REGULATION OF THESE PROFESSIONS WILL OPERATE MORE EFFECTIVELY AND ECONOMICALLY UNDER THE NEW BOARD SINCE THESE PROFESSIONS ARE SIMILAR IN NATURE.

(SEC. 08)
P. 1, LS. 13-15

SEC. 1 CREATES A NEW CHAPTER IN TITLE 8 COVERING THE COMBINED PROFESSIONS OF BARBERING AND HAIRDRESSING.

(SEC. 08.13.010)
P. 1, LS. 16-23

CREATES THE BOARD OF BARBERS AND HAIRDRESSERS CONSISTING OF 5 MEMBERS APPOINTED BY THE GOVERNOR. THE BOARD CONSISTS OF 2 BARBERS, 2 HAIRDRESSERS AND 1 PUBLIC MEMBER.

(SEC. 08.13.020)
P. 1, LS. 24-27

PROVIDES FOR MEMBERS OF THE BOARD TO SERVE STAGGERED TERMS OF 3 YEARS AND MEMBERS MAY SERVE NO MORE THAN TWO CONSECUTIVE TERMS.

(SEC. 08.13.030)
P. 1/2, LS. 28/12

SPELLS OUT THE DUTIES OF THE BOARD, WHICH ARE THE FOLLOWING:

(1) THE BOARD SHALL EXERCISE GENERAL

CONTROL OVER THE VOCATIONS OF BARBERING, HAIRDRESSING AND COSMETOLOGY.

(2) THE BOARD SHALL EXAMINE APPLICANTS AND APPROVE THE ISSUANCE OF LICENSES AND PERMITS.

(3) THE BOARD SHALL APPROVE THE ISSUANCE OF LICENSES FOR SCHOOLS OF BARBERING, HAIRDRESSING AND COSMETOLOGY.

(4) THE BOARD WILL SET FEES FOR LICENSING, ISSUING PERMITS, LICENSE AND PERMIT RENEWAL, AND OTHER CHARGES AS NECESSARY TO COVER THE OPERATING EXPENSES OF THE BOARD.

(5) THE BOARD SHALL SUBMIT A BUDGET TO THE LEGISLATURE AND REQUEST APPROPRIATIONS FROM THE GENERAL FUND, NOT TO EXCEED THE INCOME GENERATED FROM FEES TO COVER OPERATING EXPENSES.

(SEC. 08.13.030)
P. 2, LS. 13-20

SPELLS OUT THE POWERS OF THE BOARD, WHICH ARE AS FOLLOWS:

(1) THE BOARD HAS THE POWER TO SUSPEND OR REVOKE A LICENSE OR PERMIT;

(2) THE BOARD HAS THE POWER TO CONDUCT HEARINGS AND REQUEST THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT TO INVESTIGATE THE PRACTICES OF A PERSON OR SHOP OR SCHOOL WHICH IS INVOLVED IN THE PRACTICE OF TEACHING BARBERING, HAIRDRESSING,

OR COSMETOLOGY.

(3) THE BOARD HAS THE POWER TO ADOPT REGULATIONS OR DO ANY ACT TO CARRY OUT THE PROVISIONS OF THIS CHAPTER.

(SEC. 08.13.040)
P. 2, Ls. 21-27

GIVES THE BOARD THE POWER TO MEET AS OFTEN AS NECESSARY TO CONDUCT ITS BUSINESS. THE BOARD SHALL CONDUCT SEPARATE EXAMINATIONS COVERING THE FIELDS OF BARBERING, HAIRDRESSING, AND COSMETOLOGY. THE EXAMINATIONS SHALL BE GIVEN AT LEAST TWICE IN EVERY YEAR FOR EACH FIELD OF PRACTICE FOR WHICH APPLICATIONS FOR LICENSURE ARE PENDING. AN APPLICANT MAY TAKE AN EXAMINTION IN MORE THAN ONE FIELD DURING THE SAME TESTING SESSION. HE MAY CHOOSE TO ENTER MORE THAN ONE FIELD OF PRACTICE.

(SEC. 08.13.050)
PS. 2/3, LS. 28/4

REQUIRES THE BOARD TO KEEP RECORDS OF THE ISSUANCE, REFERRAL, SUSPENSION AND REVOCATION OF LICENSES AND PERMITS. THEIR RECORDS SHALL CONTAIN THE NAME, PLACE OF BUSINESS AND DATE OF EACH LICENSE AND PERMIT ISSUED AND THEIR RECORDS ARE OPEN TO INVESTIGATION BY THE PUBLIC. THE BOARD IS ALSO REQUIRED TO SUBMIT AN ANNUAL REPORT ON ITS OPERATIONS TO THE GOVERNOR.

(SEC. 08.13.070)
P. 3, LS. 6-20

PROHIBITS:

(1) THE PRACTICE OF BARBERING, HAIRDRESSING OR COSMETOLOGY WITHOUT A LICENSE OR PERMIT UNLESS EXEMPT UNDER AS 08.13.160(c);

(2) OPENING OR CONDUCTING A SCHOOL OF BARBERING, HAIRDRESSING OR COSMETOLOGY WITHOUT A LICENSE;

(3) OPERATING A SHOP WITHOUT A LICENSE UNLESS SPECIFICALLY EXEMPTED BY STATUTE;

(4) ALLOWING AN EMPLOYEE OR PERSON BEING SUPERVISED TO PRACTICE BARBERING, HAIR-DRESSING OR COSMETOLOGY WITHOUT A LICENSE OR A PERMIT UNLESS EXEMPTED BY AS 08.13.160(c);

(5) PERMITTING THE USE OF A LICENSE OR PERMIT BY ANOTHER PERSON;

(6) OBTAINING OR ATTEMPTING TO OBTAIN A LICENSE OR PERMIT BY FRAUDULENT MEANS.

(SEC. 08.13.080)
PS. 3/4, LS. 21/4

SPELLS OUT THE QUALIFICATIONS OF APPLICANTS FOR EXAMINATION. THERE ARE THREE SEPARATE OCCUPATIONAL FIELDS WHICH AN APPLICANT MAY SEEK LICENSURE IN -- BARBERING, HAIRDRESSING, OR COSMETOLOGY. TO QUALIFY FOR LICENSURE, AN APPLICANT MUST HAVE FINISHED THE COURSES AND PASS THE EXAMINATION THAT A SCHOOL WITH A PROGRAM IN THE PARTICULAR FIELD IS REQUIRED TO TEACH. SEPARATE EXAMINATIONS SHALL

BE GIVEN FOR THE FIELDS OF BARBERING, HAIRDRESSING, AND COSMETOLOGY. IT IS ALSO POSSIBLE FOR AN APPLICANT TO QUALIFY FOR EXAMINATION THROUGH SERVING AN APPRENTICESHIP, RATHER THAN BY ATTENDING A LICENSED OCCUPATIONAL SCHOOL.

(SEC. 08.13.082)
P. 4, LS. 5-22

DESCRIBES THE ACCEPTED APPRENTICESHIP PROGRAM, WHICH MAY ONLY BE CONDUCTED IN A SHOP APPROVED BY THE BOARD. A PERSON WANTING TO BECOME A BARBER IS REQUIRED TO RECEIVE 1,500 HOURS OF APPRENTICESHIP TRAINING. THE PROGRAM MUST LAST AT LEAST NINE MONTHS AND MAY NOT BE EXTENDED PAST TWO YEARS. A PERSON WHO WISHES TO BECOME A HAIRDRESSER MUST COMPLETE 2,000 HOURS OF APPRENTICESHIP TRAINING IN NOT LESS THAN ONE YEAR AND NOT OVER TWO YEARS. A PERSON WHO WISHES TO PRACTICE COSMETOLOGY MUST RECEIVE 350 HOURS OF APPRENTICESHIP TRAINING OVER A PERIOD OF SIX MONTHS BUT WITHIN ONE YEAR.

(SEC. 08.13.090)
PS. 4/5, LS. 23/4

REQUIRES THAT EACH APPLICANT FOR LICENSURE MUST PASS A WRITTEN EXAMINATION COVERING SANITARY PRACTICES, SAFETY OF ALL

PROCEDURES USED IN A PARTICULAR FIELD, AND THE CARE OF INSTRUMENTS, EQUIPMENT AND CHEMICALS PERTINENT TO THE PARTICULAR FIELD. THE BOARD HAS THE DISCRETION TO REQUIRE A PRACTICAL EXAMINATION AS WELL THROUGH REGULATION.

(SEC. 08.13.100)
P. 5, LS. 5-20

SIMPLY STATES THAT A LICENSE IS VALID FOR 2 YEARS AND IT SHALL STATE THE FIELD OR FIELDS OF PRACTICE WHICH A PERSON IS REQUIRED TO PERFORM. A PERSON WHO IS LICENSED IN ANOTHER STATE OR COUNTRY IS AUTOMATICALLY ENTITLED TO A LICENSE IN THIS STATE WITHOUT EXAMINATION UPON PAYMENT OF THE REQUIRED FEES AND PROOF OF COMPLETED TRAINING AND WORKING EXPERIENCE WHICH THE BOARD FINDS MEETS THE MINIMUM REQUIREMENTS OF THIS STATE.

(SEC. 08.13.110)
P. 5, LS. 21-25

PROVIDES THAT SCHOOLS OF BARBERING, HAIRDRESSING, AND COSMETOLOGY SHALL BE LICENSED IF THEY MEET STANDARDS SET BY THE BOARD. THE BOARD MUST ADOPT REGULATIONS SETTING STANDARDS FOR LICENSING, INCLUDING CURRICULUM REQUIREMENTS, HOURS OF INSTRUCTION, PHYSICAL CONDITION OF SCHOOL FACILITIES, AND FINANCIAL RESPONSIBILITY OF THE OWNER.

(SEC. 08.13.120)
Ps. 5/6, Ls. 26/3

REQUIRES THE BOARD TO ADOPT REGULATIONS FOR LICENSING BARBER, HAIRDRESSING, AND COSMETOLOGY SHOPS. AN OWNER WILL BE LICENSED TO OPERATE A SHOP WITHOUT AN EXAMINATION; HOWEVER, UNLESS HE IS LICENSED TO PRACTICE, HE MUST EMPLOY A MANAGER WHO IS. NO LICENSURE REQUIREMENT IS IMPOSED UPON SHOPS LOCATED IN COMMUNITIES HAVING A POPULATION OF LESS THAN 1,000 PEOPLE AS LONG AS THERE IS NOT A COMMUNITY OF OVER 1,000 PEOPLE WITHIN 25 MILES.

(SEC. 08.13.130)
P. 6, Ls. 4-8

REQUIRES A PERSON LICENSED UNDER THIS ACT TO DISPLAY HIS LICENSE OR TO KEEP IT WITH HIM IF HE IS GOING TO WORK OUTSIDE OF A REGULAR PLACE OF BUSINESS. A SHOP OWNER IS ALSO AFFIRMATIVELY OBLIGATED TO DISPLAY THE LICENSES OF HIS EMPLOYEES.

(SEC. 08.13.140)
P. 6, Ls. 9-12

STATES THAT A LICENSE WHICH HAS NOT BEEN RENEWED FOR THREE YEARS MAY BE REINSTATED AFTER PAYMENT OF ANY REQUIRED RENEWAL AND DELINQUENT FEES.

(SEC. 08.13.150)
P. 6, Ls. 13-17

GIVES THE BOARD THE DISCRETION TO REFUSE, SUSPEND, OR REVOKE A LICENSE OR PERMIT FOR FAILURE TO COMPLY WITH THIS CHAPTER, WITH A REGULATION, OR WITH AN ORDER OF THE BOARD.

(SEC. 08.13.160)
Ps. 6/7, Ls. 18/8

IS THE GRANDFATHER CLAUSE WHICH ALLOWS A PERSON WITH VALID LICENSES UNDER EXISTING LAW TO CONTINUE TO PRACTICE UNTIL THEIR LICENSES EXPIRE. AT THAT TIME, THEY WILL BE REQUIRED TO COMPLY WITH THE PROVISIONS OF THIS CHAPTER. ADDITIONALLY, NO LICENSE IS REQUIRED TO PRACTICE IN A COMMUNITY HAVING A POPULATION OF LESS THAN 1,000 PEOPLE SO LONG AS IT IS NOT WITHIN 25 MILES OF A COMMUNITY WHICH IS LARGER.

(SEC 08.13.170)
P. 7, Ls. 9-20

THIS SECTION STATES THAT A TEMPORARY PERMIT IS AVAILABLE TO A PERSON WHO WISHES TO PRACTICE ON A TEMPORARY BASIS IN THE STATE FOR EDUCATIONAL PURPOSES, AND WHO IS OTHERWISE QUALIFIED.

(SEC. 08.13.170)
Ps. 7/8, Ls. 21/1

DEALS WITH STUDENT PERMITS AND STATES THAT A PERSON ATTENDING A SCHOOL OR SERVING AN APPRENTICESHIP MUST HOLD A STUDENT PERMIT. A PERMIT TO PRACTICE BARBERING OR HAIRDRESSING IS VALID FOR TWO YEARS, WHILE ONE TO PRACTICE COSMETOLOGY IS VALID FOR ONE YEAR. A STUDENT PERMIT MAY NOT BE RENEWED; BUT THE BOARD HAS THE DISCRETION TO ISSUE A NEW PERMIT TO THE SAME PERSON OR TO EXTEND AN EXPIRED PERMIT TO THE DATE OF THE NEXT SCHEDULED EXAMINATION SO THAT A PERSON MAY CONTINUE TRAINING WHILE WAITING TO BE TESTED. IF A PERSON APPLIES FOR A NEW STUDENT PERMIT, THE BOARD HAS THE DISCRETION

TO TRANSFER CREDIT EARNED UNDER THE EXPIRED PERMIT.

(SEC. 08.13.190) P. 8, Ls. 2-8 — SPECIFIES THAT FAILURE OF A PERSON PRACTICING TO POSSESS A LICENSE OR PERMIT WHO IS NOT EXEMPT UNDER AS 08.13.120 (COMMUNITY OF LESS THAN 1,000 PEOPLE) IS GUILTY OF A CLASS-B MISDEMEANOR.

(SEC. 08.13.200) P. 8, Ls. 11-12 — STATES THAT MONEY GENERATED THROUGH FEES IMPOSED UNDER THIS CHAPTER SHALL BE DEPOSITED INTO THE GENERAL FUND.

(SEC. 08.13.210) P. 8, Ls. 13-16 — SIMPLY STATES THAT IT IS THE RESPONSIBILITY OF THE DEPARTMENT OF HEALTH AND SOCIAL SERVICES TO SUPERVISE SANITARY CONDITIONS IN SHOPS AND SCHOOLS.

(SEC. 08.13.220) Ps. 8/9, Ls. 10/21 — CONSISTS OF DEFINITIONS.

(SEC. 08.03.010(c)) P 9, Ls. 22-24 — SECTION 2 STIPULATES THE TERMINATION DATE FOR THE BOARD OF BARBER AND HAIRDRESSERS AS JUNE 30, 1984.

(SEC. 18.05.040) Ps. 9/10, Ls. 26/3 — SECTION 3 IS SIMPLY AMENDED TO INCLUDE HAIRDRESSING AND COSMETOLOGY ESTABLISHMENTS IN THE EXISTING REQUIREMENT OF THE DEPARTMENT OF HEALTH AND SOCIAL SERVICES TO ADOPT REGULATIONS SETTING STANDARDS OF CLEANLINESS FOR THESE ESTABLISHMENTS.

(SEC. 44.62.330(A)) P. 10, Ls. 4-5 — SECTION 4 ADDS THE BOARD OF BARBERS AND HAIRDRESSERS TO THE EXISTING LIST OF BOARDS REQUIRED TO FOLLOW THE ADJUDICATORY PROCEDURES OF THE ADMINISTRATIVE PROCEDURES ACT.

P. 10, Ls. 6-7 — SECTION 5 REPEALS THE FOLLOWING:

AS 08.03.010(B)(2) AND (4) - REMOVES THE BOARD OF BARBER EXAMINERS AND THE BOARD OF HAIRDRESSING AND BEAUTY CULUTURE EXAMINERS FROM THE LIST OF BOARDS WHICH HAD A TERMINATION DATE OF JUNE 30, 1980.

AS 08.12 - REPEALS THE BOARD OF BARBER EXAMINERS.

AS 08.28 - REPEALS THE BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS.

AS 44.62.330(A)(1) AND (7) - REMOVES THE BOARD OF BARBER EXAMINERS AND THE BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS FROM THE LIST OF BOARDS REQUIRED TO FOLLOW THE ADJUDICATORY PROCEDURES OF THE ADMINISTRATIVE PROCEDURES ACT.

P. 10, Ls. 8-9 SECTION 6 PROVIDES THAT THIS ACT TAKES EFFECT IMMEDIATELY.

Introduced: 4/3/80
Referred: Commerce

IN THE SENATE BY THE COMMERCE COMMITTEE

SENATE BILL NO. 544

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act relating to the regulation of the practice of hair design and cosmetology; terminating the existence of the Board of Barber Examiners and the Board of Hairdressing and Beauty Culture Examiners; establishing the Board of Barbers and Hairdressers; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 08 is amended by adding a new chapter to read:

CHAPTER 13. BARBERS AND HAIRDRESSERS.

ARTICLE 1. BOARD OF BARBERS AND HAIRDRESSERS.

Sec. 08.13.010. CREATION AND MEMBERSHIP OF BOARD. (a) There is created the Board of Barbers and Hairdressers consisting of five members appointed by the governor.

(b) The board consists of

(1) three persons licensed as barbers or hairdressers under this chapter;

(2) one person licensed to practice cosmetology under this chapter;

(3) a public member who has no direct financial interest, and has never had such an interest, in a barber, hairdresser, or beauty culture business.

Sec. 08.13.020. TERM OF OFFICE AND REMOVAL OF MEMBERS. Members serve a term of three years and at the pleasure of the governor. Members of the board may be appointed to serve no more than two full terms.

Sec. 08.13.030. POWERS AND DUTIES OF THE BOARD. (a) The board shall exercise general control over the vocations of hair design and cosmetology.

(b) The board shall

(1) examine applicants and approve the issuance of licenses and permits to practice;

(2) authorize the issuance of licenses for schools of hair design or cosmetology;

(3) set fees for licensing, issuing permits, license and permit renewal, examining applicants and other charges as necessary to cover the operating expenses of the board; fees set for licensing and renewing of licenses for barbers under AS 08.13.150 may not exceed fees charged for licensing and renewing of licenses for practitioners;

(4) prepare an annual budget to be submitted to the legislature and request appropriations from the general fund, not exceeding the income generated from fees, to cover operating expenses.

(c) The board may

(1) suspend or revoke a license or permit;

(2) on its own motion, and shall, upon receipt of a written complaint, conduct hearings and request the department to investigate the practices of a person, shop, or school involved in the practice or teaching of hairdressing or cosmetology;

(3) adopt regulations or do any act necessary to carry out the provisions of this chapter.

Sec. 08.13.040. MEETINGS AND EXAMINATIONS. The board shall meet as often as necessary to conduct its business, but shall hold at least two examinations each year if applications for a license are pending.

Sec. 08.13.050. RECORDS OF THE BOARD. The board shall keep a record of its proceedings related to the issuance, refusal, suspension

Sec. 6 – To be issued a license for a shop ~~to pawnbroker~~ and applicant shall:

08.13.08 Eliz

and revocation of licenses and permits. The record shall contain the name, place of business, and date of each license and permit issued and shall be open to inspection by the public at all reasonable times. The board shall submit an annual report on its operations to the governor.

ARTICLE 2. EXAMINATION AND LICENSING.

Sec. 08.13.070. LICENSE REQUIRED. A person may not

(1) practice hair ~~design~~ or cosmetology without a license, temporary permit, or student permit;

(2) organize, open or conduct a school of hair design or cosmetology without a license;

(3) operate a shop unless it is at all times under the direct supervision of a practitioner;

(4) permit a person in his employ or under his supervision to practice hair design or cosmetology without a license, temporary permit, or student permit;

(5) permit the use of his license, temporary permit, or student permit by another person;

(6) obtain or attempt to obtain a license, temporary permit, or student permit by fraudulent means.

Sec. 08.13.080. QUALIFICATIONS OF APPLICANTS. An applicant for examination must

(1) have successfuly completed all courses that a school of hair ~~design~~ is required to teach in order to be licensed under AS 08.-13.110; or

(2) have served an apprenticeship under AS 08.13.082; and

(3) be at least 17 years of age.

Sec. 08.13.082. APPRENTICESHIP. (a) The period of apprenticeship required to qualify an applicant for a license to practice hair design is 2,000 hours. The apprenticeship must be served in a shop approved by

the board. The apprenticeship may not be completed in less than one year from the date of its commencement and must be completed in not less than two years from the date of its commencement.

(b) The period of apprenticeship required to qualify an applicant for a license to practice cosmetology is 1,000 hours. The apprenticeship must be served in a shop approved by the board. The apprenticeship may not be completed in less than six months from the date of its commencement and must be completed in not less than one year from the date of its commencement.

Sec. 08.13.090. EXAMINATIONS AND OTHER REQUIREMENTS. (a) A written examination shall be given to each applicant for examination at a time and place determined by the board. The board may delegate the power of examination to a committee of the board or a board member.

(b) The examination shall cover subjects designated by the board and shall test the applicant's knowledge of sanitary practices, safety of all procedures, and use of instruments, equipment and chemicals permitted within the field of practice for which the applicant is seeking a license.

(c) The board may prescribe additional requirements for a license.

Sec. 08.13.100. LICENSE. (a) The board shall authorize the issuance of a license to each qualified applicant who has passed an examination under AS 08.13.090. The license is valid for two years and subject to renewal.

(b) A license shall state the areas of practice the practitioner is qualified to perform. At the request of an applicant who has qualified to perform hair design, the board shall issue a license designating its holder as a "barber", "hairdresser", or both.

(c) A person holding a current valid license from a board of hair design or cosmetology in another state or country is entitled to a

08.13-130 lapsed

+ restored by the Agreement:

(a) submits plans & the warranties required in Sec. 08.13.090.

(b) pays one years license fee in advance.

- allow grandfather rights for all licenses

license under this chapter without examination. An application shall include:

(1) proof of a foreign license;

(2) proof of completed training and working experience which the board finds to meet the minimum requirements of the state;

(3) payment of an investigation fee.

Sec. 08.13.110. SCHOOL LICENSE. The board shall adopt regulations for the licensing of schools of hair design and cosmetology. The regulations shall include details of the curriculum, minimum hours of instruction, physical condition of the facilities, and financial responsiblity of the owner.

Sec. 08.13.120. DISPLAY OF LICENSE. A practitioner shall display his license in a conspicuous location in his place of business. Each shop owner is responsible for the display of the licenses of employees. A practitioner who practices outside of a place of business shall carry his license with him to be shown to persons upon whom work is performed.

Sec. 08.13.130. LAPSED LICENSE. A lapsed license may be reinstated if the license has not been lapsed for a period of more than one year, and all renewal and delinquent fees for the period during which the license has been lapsed are paid.

Sec. 08.13.140. GROUNDS FOR REFUSAL, SUSPENSION OR REVOCATION OF A LICENSE OR TEMPORARY PERMIT. The board may refuse, suspend, or revoke a license or temporary permit for failure to comply with this chapter, with a regulation adopted under this chapter, or with an order of the board.

Sec. 08.13.150. PREVIOUS LICENSURE. (a) A person holding a valid license to practice barbering under AS 08.12 is licensed under this chapter, and may continue to practice barbering under the conditions imposed by AS 08.12 and the regulations issued under AS 08.12 except

that the license renewal fee for a barber licensed under this section shall be the same as for a practitioner licensed under AS 08.13.

(b) The licensing and permit provisions of this chapter do not apply to

(1) a person practicing hair design or cosmetology in a community having a population of less than 1,000 people which is not within 25 miles of a community of more than 1,000 people;

(2) a shampoo person.

(c) A shop owner may be licensed to operate a shop without examination, but, unless he is a practitioner or exempted from the licensing requirement under (b)(1) of this section, he may not conduct a business of hair design or cosmetology without employing a manager who is a practitioner.

Sec. 08.13.160. TEMPORARY PERMITS. (a) A person not licensed under this chapter who wishes to practice and teach hair design or cosmetology temporarily and primarily for educational purposes who is otherwise qualified to practice hair design or cosmetology as determined by the board shall first obtain a temporary permit.

(b) The temporary permit shall specify

(1) the purpose for which it is granted;

(2) the period during which the holder of the temporary permit may practice;

(3) the place or places the holder of the temporary permit may practice.

Sec. 08.13.170. STUDENT PERMITS. A person attending a licensed school of hair design or cosmetology, and a person apprenticed to a practitioner in a shop approved by the board shall obtain a student permit. A student permit to practice hair design is valid for two years. A student permit to practice cosmetology is valid for one year.

A student permit may not be renewed, but the board may issue a new student permit to the same person upon application. Credit earned under an expired student permit may be transferred to the new student permit as determined by the board.

Sec. 08.13.180. FAILURE TO POSSESS A LICENSE OR PERMIT. A person who practices hair design or cosmetology, or operates a school of hair design or cosmetology, or teaches in a school of hair design or cosmetology, without a license, temporary permit, or student permit is guilty of a class B misdemeanor.

ARTICLE 3. GENERAL PROVISIONS.

Sec. 08.13.190. DEPOSIT OF RECEIPTS. Money received by the board from the payment of fees shall be paid into the general fund of the state.

Sec. 08.13.200. HEALTH AND SANITARY CONDITIONS. Health and sanitary conditions in shops and schools of hair design and cosmetology shall be supervised by the Department of Health and Social Services.

Sec. 08.13.220. DEFINITIONS. As used in this chapter,

(1) "apprentice" means a person at least 16 years of age who receives on-the-job training under the direct supervision of a practitioner, who does not receive a wage or commission, and for whose work no charge is made before he has received 350 hours of training;

(2) "board" means the Board of Barbers and Hairdressers;

(3) "cosmetology" means the use of the hands, mechanical or electric apparatus or appliances, cosmetic preparations, antiseptics, or lotions in massaging, cleansing, stimulating, or similar work on the human body for cosmetic purposes for a fee;

(4) "hair design" means performing, for a fee, the following services for cosmetic purposes:

(A) shaving, trimming, or cutting the beard of a living person; and

(B) arranging, styling, dressing, curling, temporary waving, permanent waving, cutting, singeing, bleaching, coloring, cleansing, conditioning, or similar work on the hair of a living person;

(5) "practitioner" means a person licensed to practice hair design or cosmetology under th s chapter;

(6) "shampoo person" means a person who, for a fee, cleanses or conditions the hair with products which have no affect other than cleaning or conditioning under the supervision of a practitioner;

(7) "shop" is an establishment operated for the purpose of engaging in hair design or cosmetology.

* Sec. 2. AS 08.03.010(c) is amended by adding a new paragraph to read:

(2) Board of Barbers and Hairdressers (AS 08.13.010) -- June 30, 1984.

* Sec. 3. AS 18.05.040(a)(9) is amended to read:

(9) standards of cleanliness and sanitation in connection with the construction, operation and maintenance of a camp, cannery, food handling establishment, food manufacturing plant, mattress manufacturing establishment, industrial plant, school, <u>hair design or cosmetology</u> [BARBER SHOP, COSMETOLOGICAL] establishment, soft drink establishment, beer and wine dispensaries, and for other similar establishments in which insanitation may create a condition causative of disease.

* Sec. 4. AS 44.62.330(a) is amended by adding a new paragraph to read:

(47) Board of Barbers and Hairdressers (AS 08.13.010).

* Sec. 5. AS 08.03.010(b)(2) and (4); AS 08.12; AS 08.28; and AS 44.62.-330(a)(1) and (7) are repealed.

* Sec. 6. It is the intention of the legislature that notwithstanding

AS 08.13.010 the persons who are serving on the Board of Barber Examiners (AS 08.12.010) on June 29,1980, shall serve as voting ex officio members of the Board of Barbers and Hairdressers (AS 08.13) for the duration of the term for which they were appointed.

* Sec. 7. This Act takes effect June 30, 1980.

CS FOR SENATE BILL NO. 544

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act relating to the regulation of the practice of hair design and cosmetology; terminating the existence of the Board of Barber Examiners and the Board of Hairdressing and Beauty Culture Examiners; establishing the Board of Barbers and Hairdressers; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 08 is amended by adding a new chapter to read:

CHAPTER 13. BARBERS AND HAIRDRESSERS.

ARTICLE 1. BOARD OF BARBERS AND HAIRDRESSERS.

Sec. 08.13.010. CREATION AND MEMBERSHIP OF BOARD. (a) There is created the Board of Barbers and Hairdressers consisting of five members appointed by the governor.

(b) The board consists of

(1) four persons licensed under AS 08.13; and

(2) one public member.

Sec. 08.13.020. TERM OF OFFICE AND REMOVAL OF MEMBERS. Members serve staggered terms of three years at the pleasure of the governor. Members of the board may be appointed to serve no more than two consecutive full terms.

Sec. 08.13.030. POWERS AND DUTIES OF THE BOARD. (a) The board shall exercise general control over the vocations of hair design and cosmetology.

(b) The board shall

(1) examine applicants and approve the issuance of licenses and permits to practice;

(2) authorize the issuance of licenses for schools of hair design and schools of cosmetology;

(3) set fees for licensing, issuing permits, license and permit renewal, examining applicants and other charges as necessary to cover the operating expenses of the board; fees set for licensing and renewing of licenses for barbers under AS 08.13.160(a) may not exceed fees charged for licensing and renewing of licenses for practitioners;

(4) prepare an annual budget to be submitted to the legislature and request appropriations from the general fund, not exceeding the income generated from fees, to cover operating expenses.

(c) The board may

(1) suspend or revoke a license or permit;

(2) on its own motion, and shall, upon receipt of a written complaint, conduct hearings and request the department to investigate the practices of a person, shop, or school involved in the practice or teaching of hair design or cosmetology;

(3) adopt regulations or do any act necessary to carry out the provisions of this chapter.

Sec. 08.13.040. MEETINGS AND EXAMINATIONS. The board shall meet as often as necessary to conduct its business, but shall hold at least two examinations each year covering the field of hair design and two examinations each year covering the field of cosmetology if applications for a license are pending.

Sec. 08.13.050. RECORDS OF THE BOARD. The board shall keep a record of its proceedings related to the issuance, refusal, suspension and revocation of licenses and permits. The record shall contain the name, place of business, and date of each license and permit issued and

shall be open to inspection by the public at all reasonable times. The board shall submit an annual report on its operations to the governor.

ARTICLE 2. EXAMINATION AND LICENSING.

Sec. 08.13.070. LICENSE REQUIRED. A person may not

(1) practice hair design or cosmetology without a license, temporary permit, or student permit unless exempted under AS 08.13.-160(c);

(2) organize, open or conduct a school of hair design or cosmetology without a license;

(3) operate a shop in violation of AS 08.13.120;

(4) permit a person in his employ or under his supervision who is not exempted under AS 08.13.160(c) to practice hair design or cosmetology without a license, temporary permit, or student permit;

(5) permit the use of his license, temporary permit, or student permit by another person;

(6) obtain or attempt to obtain a license, temporary permit, or student permit by fraudulent means.

Sec. 08.13.080. QUALIFICATIONS OF APPLICANTS. An applicant for examination must

(1) have successfuly completed all courses that a school of hair design is required to teach in order to be licensed under AS 08.-13.110 if applying for a license to practice hair design;

(2) have successfully completed all courses that a school of cosmetology is required to teach in order to be licensed under AS 08.13.-110 if applying for a license to practice cosmetology; or

(3) have served an apprenticeship under AS 08.13.082.

Sec. 08.13.082. APPRENTICESHIP. (a) The period of apprenticeship required to qualify an applicant for a license to practice hair design is 2,000 hours. The apprenticeship must be served in a shop approved by

the board. The apprenticeship may not be completed in less than one year from the date of its commencement and must be completed in not more than two years from the date of its commencement.

(b) The period of apprenticeship required to qualify an applicant for a license to practice cosmetology is 350 hours. The apprenticeship must be served in a shop approved by the board. The apprenticeship may not be completed in less than six months from the date of its commencement and must be completed in not more than one year from the date of its commencement.

Sec. 08.13.090. EXAMINATIONS AND OTHER REQUIREMENTS. (a) A written examination shall be given to each applicant for examination at a time and place determined by the board. The board may delegate the power of examination to a committee of the board or a board member.

(b) The written examination shall cover subjects designated by the board and shall test the applicant's knowledge of sanitary practices, safety of all procedures, and use of instruments, equipment and chemicals permitted within the field of practice for which the applicant is seeking a license.

(c) The board may require a practical examination for licensure.

Sec. 08.13.100. LICENSE. (a) The board shall authorize the issuance of a license to each qualified applicant who has passed an examination under AS 08.13.090. The license is valid for two years and subject to renewal.

(b) A license shall state the areas of practice (hair design, cosmetology, or both) which the practitioner is qualified to perform. At the request of an applicant who has qualified to perform hair design, the board shall issue a license designating its holder as a "barber", "hairdresser", or both.

(c) A person holding a current valid license from a board of hair

design or cosmetology in another state or country is entitled to a license under this chapter without examination. An application shall include:

(1) proof of a foreign license;

(2) proof of completed training and working experience which the board finds to meet the minimum requirements of the state;

(3) payment of an investigation fee.

Sec. 08.13.110. SCHOOL LICENSE. The board shall adopt regulations for the licensing of schools of hair design and cosmetology. The regulations shall include details of the curriculum, minimum hours of instruction, physical condition of the facilities, and financial responsiblity of the owner.

Sec. 08.13.120. SHOP LICENSE. The board shall adopt regulations for the licensing of shops. A shop owner will be licensed to operate a shop without examination, but unless he is a practitioner he may not conduct business without employing a manager who is a practitioner. This section does not apply to a shop located in a community having a population of less than 1,000 people which is not within 25 miles of a community of more than 1,000 people.

Sec. 08.13.130. DISPLAY OF LICENSE. A practitioner shall display his license in a conspicuous location in his place of business. Each shop owner is responsible for the display of the licenses of employees. A practitioner who practices outside of a place of business shall carry his license with him to be shown to persons upon whom work is performed.

Sec. 08.13.140. LAPSED LICENSE. A lapsed license may be reinstated if the license has not been lapsed for a period of more than three years, and all renewal and delinquent fees for the period during which the license has been lapsed are paid.

Sec. 08.13.150. GROUNDS FOR REFUSAL, SUSPENSION OR REVOCATION OF A

"Grandfather for Barbers"

LICENSE OR TEMPORARY PERMIT. The board may refuse, suspend, or revoke a license or temporary permit for failure to comply with this chapter, with a regulation adopted under this chapter, or with an order of the board.

Sec. 08.13.160. APPLICATION OF LICENSE REQUIREMENTS. (a) A person holding a valid license to practice barbering under AS 08.12 is licensed under this chapter, and may continue to practice barbering under the conditions imposed by AS 08.12 and the regulations issued under AS 08.12 except that the license renewal fee for a barber licensed under this section shall be the same as for a practitioner licensed under AS 08.13.

Grandfather for "Beauty"

(b) A person holding a valid license under AS 08.28 may continue to practice under the conditions imposed under AS 08.28 and the regulations issued under AS 08.28 until the license expires, at which time the provisions of this chapter apply and a license issued under AS 08.28 cannot be renewed.

(c) The licensing and permit provisions of this chapter do not apply to

(1) a person practicing hair design or cosmetology in a community having a population of less than 1,000 people which is not within 25 miles of a community of more than 1,000 people and who uses only chemicals available to the general public;

(2) a shampoo person.

Sec. 08.13.170. TEMPORARY PERMITS. (a) A person not licensed under this chapter who wishes to practice and teach hair design or cosmetology temporarily and primarily for educational purposes who is otherwise qualified to practice hair design or cosmetology as determined by the board shall first obtain a temporary permit.

(b) The temporary permit shall specify

(1) the purpose for which it is granted;

(2) the period during which the holder of the temporary permit may practice;

(3) the place or places the holder of the temporary permit may practice.

Sec. 08.13.180. STUDENT PERMITS. A person attending a licensed school of hair design or cosmetology, and a person apprenticed to a practitioner in a shop approved by the board shall obtain a student permit. A student permit to practice hair design is valid for two years. A student permit to practice cosmetology is valid for one year. A student permit may not be renewed, but, upon application, the board may issue a new student permit to the same person, or extend a permit due to expire to the date of the next scheduled examination. Credit earned under an expired student permit may be transferred to a new student permit as determined by the board.

Sec. 08.13.190. FAILURE TO POSSESS A LICENSE OR PERMIT. A person who practices hair design or cosmetology, or operates a shop, or operates a school of hair design or cosmetology, or teaches in a school of hair design or cosmetology, without a license, temporary permit, or student permit and who is not exempt under AS 08.13.120 or under 08.13.160(c) is guilty of a class B misdemeanor.

ARTICLE 3. GENERAL PROVISIONS.

Sec. 08.13.200. DEPOSIT OF RECEIPTS. Money received by the board from the payment of fees shall be paid into the general fund of the state.

Sec. 08.13.210. HEALTH AND SANITARY CONDITIONS. Health and sanitary conditions in shops and schools of hair design and cosmetology shall be supervised by the Department of Health and Social Services.

Sec. 08.13.220. DEFINITIONS. As used in this chapter,

(1) "apprentice" means a person who receives on-the-job training under the direct supervision of a practitioner, who does not receive a wage or commission before he has completed 350 hours of training, and for whose work no charge is made before he has completed 350 hours of training;

(2) "board" means the Board of Barbers and Hairdressers;

(3) "cosmetology" means the use of the hands, mechanical or electric apparatus or appliances, cosmetic preparations, antiseptics, or lotions in massaging, cleansing, stimulating, or similar work on the human body for cosmetic purposes for a fee;

(4) "hair design" means performing, for a fee, the following services for cosmetic purposes:

(A) shaving, trimming, or cutting the beard of a living person; and

(B) arranging, styling, dressing, curling, temporary waving, permanent waving, cutting, singeing, bleaching, coloring, cleansing, conditioning, or similar work on the hair of a living person;

(5) "practitioner" means a person licensed to practice hair design or cosmetology under this chapter;

(6) "shampoo person" means a person who, for a fee and under the supervision of a practitioner, cleanses or conditions the hair of the human head with products which have no effect other than cleaning or conditioning the hair;

(7) "shop" is an establishment operated for the purpose of engaging in hair design or cosmetology.

* Sec. 2. AS 08.03.010(c) is amended by adding a new paragraph to read:

(2) Board of Barbers and Hairdressers (AS 08.13.010) -- June 30, 1984.

* Sec. 3. AS 18.05.040(a)(9) is amended to read:

(9) standards of cleanliness and sanitation in connection with the construction, operation and maintenance of a camp, cannery, food handling establishment, food manufacturing plant, mattress manufacturing establishment, industrial plant, school, barber shop, <u>hair design or cosmetology</u> [COSMETOLOGICAL] establishment, soft drink establishment, beer and wine dispensaries, and for other similar establishments in which insanitation may create a condition causative of disease.

* Sec. 4. AS 44.62.330(a) is amended by adding a new paragraph to read:

(47) Board of Barbers and Hairdressers (AS 08.13.010).

* Sec. 5. AS 08.03.010(b)(2) and (4); AS 08.12; AS 08.28; and AS 44.62.-330(a)(1) and (7) are repealed.

* Sec. 6. It is the invention of the legislature that notwithstanding AS 08.13.010 three persons selected by the governor who are serving on the Board of Barber Examiners (AS 08.12.010) on June 29, 1980, shall serve as voting ex officio members of the Board of Barbers and Hairdressers (AS 08.13) for the duration of the term for which they were appointed.

* Sec. 7. This Act takes effect June 30, 1980.

(6) COMMENTS:

The Division of Occupational Licensing supports SB 215, "An Act abolishing the Board of Barber Examiners." We believe that no public need has been demonstrated to justify a state board or state regulation of this profession. No complaints have been received involving this profession which concern potential harm to the public; most complaints have been directed against the board itself by applicants for licensure. Nine complaints were received in 1977 & 1978: 4 concerned unlicensed activity, 5 were against the Board, and none alleged or involved danger to the public.

CHAIRMAN

S 60 (Rev. 12/78)

Senator Bradley:

I want to take this opportunity to state my opposition to the sunsetting of the Collection Agency Board now before the Senate Commerce Committee.

I received a copy of the Legislative Budget and Audit Committee report by Gerald L. Wilkerson, CPA - his analysis of a performance review of the Collection Agency Board. I feel his report, generally speaking, is good - it gives exposure to some of the problems - and his view of where the Board is lacking.

I have been licensed as a collection agency in the State of Alaska for 18-19 years. This is the first time I have had exposure to the accomplishments, finances or shortcomings of the Board. I disagree the strongest with Mr. Wilkerson's conclusions. I can appreciate Mr. Wilkerson's desire to have numbers to evaluate; however, a well-written regulation needs time and exposure to really judge it's value.

Prior to the formation of the Collection Agency Board as I recall, licensing consisted of a State of Alaska business license. The license charge was minimal. Recognizing the need for regulation and a qualification standard for both operators and agencies, the current regulations were promulgated and adopted as I recall by a combined effort of members of the collection industry in Alaska and the Alaska state government. It was my understanding the fees for operators and agencies were set at their current level then to furnish funding for the anticipated expenditures of the Board.

This report is the first attempt, from my experience, of addressing the finances involved in the Board. There were no expenses for the Board bwtween October 1971 and March 1977, omitted by the

report - therefore a financial plus for that period. Appendix A indicates an average yearly revenue of $7,500 with expenditures over $15,000 with a net deficit of $7,800. This appears to be considerably out of balance with the response to this report on page 31(b) by James L. Engwall, chairman of the Board, in which he states...."the Board's entire budget for 1979-1980 to be $3,200." If the cost of continuing the Collection Agency Board is a factor, there has been no attempt to separate the expenses relevant to the Board only, excluding those relating to DOL functions.

I am in disagreement with some important conclusions offered in this report: "In our opinion, no public need for the Collection Agency Board has been demonstrated and continuation of the Board is not necessary to protect the public's health, safety and welfare.... However, licensing of collection agencies and operators and enforcement of existing statutes and newly developed regulations governing the licensees is necessary and essential for the public's health, safety and welfare. The Division of Occupational Licensing (OL) within the Department of Commerce and Economic Development, which already has the statutory authority to do so, can perform these functions." The OL has several noticeable shortcomings, as indicated in Recommendations No. 2,3 & 4, page 8 & 9; also page 12, item II. Also, licensing has never been a function of the Board anyway.

I attended the Board meeting in Anchorage March 14, 1978 at which time the revised agency and operator regulations were adopted. We were assured by OL that finalized copies would be mailed to all agencies. To date that copy has not arrived.

Mr. Wilkerson indicates on page six, collection agency accounting

and other records are not being inspected by the Board, DOL, or authorized agent. Regarding this, he states on page 32 of the report, "DOL procedures require all Board members to forward complaints, without delay, to the Division's chief investigator for appropriate action." I don't believe the Board should undertake personally the investigation of complaints. A better function of the Board might be the screening of complaints to dismiss those having little or no basis and passing on to the DOL chief investigator for appropriate action those complaints which are deemed to need investigation.

I am very strongly opposed to delegation of the Collection Agency Board's responsibilities and functions to the Consumer Protection Agency of the Department of Law, because I feel they are biased, in some respects unqualified and to a degree possess a conflict of interest to the responsible operation of the industry in Alaska. The public sector can best be served by responsible, objective regulation of the business community, the collection industry being only one small part of that community but it serves a very definite need.

The concensus of everyone contributing to this report seems to be that increased financing will be necessary to do the investigative work recommended that is not now being funded. This appears to be true with or without the Board. A financial statement is needed showing past expenses of this Board along with a budget proposal showing proposed expenses for the future with and without the Board.

I am in agreement with the Collection Agency Board's responses

with particular emphasis on Appendix B, Schedule 1, page 31(d); also on 31(e) which states: "It is the collective opinion of members of the Collection Agency Board that the Board can accomplish the State's policymaking, investigative and advisory roles to the extent intended by the Legislature in a more efficient and cost-effective manner than the Division of Occupational Licensing acting alone."

In view of this and the vague alternatives, I strongly urge the continuation of the Collection Agency Board.

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the intent of Alaska Statutes 24.20.271 (1) and 44.66.050 (sunset legislation), an audit of the Collection Agency Board was conducted to review Board activities and accomplishments to determine if the Board has been operating in an effective, efficient, and economical manner.

As required by legislative intent, this report shall be considered during the legislative oversight function in determining whether the Collection Agency Board should be reestablished. The law currently specifies that this Board will terminate on June 30, 1980 but will continue until June 30, 1981 for the purpose of concluding its affairs.

Scope

The major areas reviewed were the Board's operations and its licensing, administration, complaint and affirmative action functions. Our review consisted of analyzing and evaluating the following:

(1) Applicable statutes and proposed Board regulations;

(2) Interviews with Board members and questionnaires sent to the Board;

(3) Correspondence with professional associations;

(4) Tests of records and documents of the Board and the Division of Occupational Licensing (OL), Department of Commerce and Economic Development;

(5) Interviews with OL employees;

(6) Complaints filed with OL, the Ombudsman's Office, Consumer Affairs Agency, and the Equal Employment Opportunity Office;

(7) Questionnaires sent to 22 State licensed Collection Agency Operators.

Scope Constraint

This review was hampered by the Board not having established and reported financial and program plans as required by AS 37.07.050 nor has it developed and reported performance information required by AS 37.07.090.

ORGANIZATION AND FUNCTION

The Collection Agency Board was established by the 1968 Session Laws of Alaska and exists under the provisions of Title 8, Chapter 24 of the Alaska Statutes. The Board consists of five members, four of whom are appointed by the governor. Two of the appointees are public members while two are licensees engaged in the collection agency business within the State. The fifth member is designated by the Commissioner of Commerce and Economic Development from his staff and has historically been the Director of the Division of Occupational Licensing. Board members serve staggered terms of three years.

The Board is organized under the Department of Commerce and Economic Development, Division of Occupational Licensing (OL). OL provides licensing, administrative, budgetary and investigative services to the Board. The licensing section processes applications, collects fees, issues licenses, maintains license files, answers inquiries and provides other administrative help to the Board.

The function of the Board is primarily regulatory, mandated by AS 08.24. Accordingly, the Board has the authority to adopt rules and regulations necessary to enforce the statutes, make a complete investigation of applicants for licensure as a collection agency or operator and inspect the records of collection agencies operating in the State.

REPORT CONCLUSION

Policy Issues

This review contains policy issues raised as a result of our evaluation of various Board practices. The final policy decisions affecting these practices are not within the scope of this review but require legislative consideration. In debating these issues, the legislative oversight committees should consider the findings and alternatives presented in this report in reaching their decision.

Report Conclusion

In our opinion, no public need for the Collection Agency Board has been demonstrated and continuation of the Board is not necessary to protect the public's health,safety and welfare (see Recommendation No. 1). However, licensing of collection agencies and operators and enforcement of existing statutes and newly developed regulations governing the licensees is necessary and essential for the public's health, safety and welfare. The Division of Occupational Licensing (OL) within the Department of Commerce and Economic Development, which already has the statutory authority to do so, can perform these functions.

In the event it is determined that the Collection Agency Board will be reestablished, the following recommendations need Board attention. If the Board is not reinstated, OL should implement the procedures where applicable to solve the problems addressed.

Investigation of complaints concerning collection agencies and operators has been unsatisfactory (see Recommendation No. 2).

We found that collection agency accounting and other records are not being inspected by the Board, OL or their authorized agent (see Recommendation No. 3).

The advertising of Board meetings has not always been sufficiently timely to encourage public participation in the meetings (see Recommendation No. 4).

The Collection Agency Board has not established formal goals, objectives and quantifiable measures (see Recommendation No. 5).

We noted that the statutes, applications and newly developed regulations relating to collection agencies and operators contained items which we considered vague, obsolete or possibly discriminatory (see Recommendation No. 6).

FINDINGS AND RECOMMENDATIONS

Findings and Recommendations No. 1, 3, 5, and 6 are addressed to the Collection Agency Board. Findings and Recommendations No. 2 and 4 are addressed to the Division of Occupational Licensing (OL) and should be read in conjunction with "A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development, October 30, 1978".

Recommendation No. 1

The Collection Agency Board should be allowed to terminate on June 30, 1980. However, the licensing function and the enforcement of statutes and regulations should be continued.

During our review of the Collection Agency Board, we have determined that collection agencies and operators should be licensed because the practice of this profession can significantly affect the public's health, safety and welfare. Licensing not only allows the State to maintain a list of all agencies and operators working in Alaska, but also to require that these agencies and operators meet certain conditions before being allowed to practice the profession in the State. The requirement that these conditions be met, such as the filing with the Department of Commerce and Economic Development of a $5,000 bond or cash in lieu of bond, helps ensure the public's welfare is being protected.

However, the Board is not doing anything that could not be done by the Division of Occupational Licensing (OL). For example, the Commissioner of the Department, rather than the Board, has the authority to issue, suspend or revoke collection agency and operator licenses or apply other penalties such as fines.

The Collection Agency Board did not hold any meetings between October 13, 1971 and March 14, 1977. The licensing function did not suffer during this dormant period as the Department issued 40 operators' licenses and 28 agency licenses.

The Board does have the authority to adopt rules and regulations necessary to effectuate the purposes of Alaska Statute Title 8 Chapter 24. The Board did exercise this authority by formulating regulations regarding licensing, licensee accounting requirements, rules of professional conduct, and general provisions, which are currently in the process of being finalized. However, the Board has not formulated regulations for repossession of collateral security such as is practiced by towing companies when they repossess vehicles.

The Board also has the authority, along with the Department or their authorized agent, to inspect the records of collection agencies. This authority, however, is not being exercised in that collection agency records are not being inspected by the Board or the Department.

In summary, there is a public need for the licensing and regulating of collection agencies and operators in Alaska, but there is no public need for the Collection Agency Board.

An alternative to the recommendation made here (i.e. terminate the Board but retain the licensing and enforcement functions) is to terminate both the Board and the licensing function. In this event, the Consumer Protection Section of the Department of Law, as well as their enabling statutes and regulations pertaining to collection agencies and operators, would have to be strengthened. However, by retaining the licensing function, the fees and penalties can help offset the cost of enforcing the statutes and regulations. Furthermore, the requirements for licensure, such as the submission of the applicant's fingerprints to the FBI during the background check, serve as a deterrent to potentially unscrupulous persons entering the collection industry in Alaska.

In the event the Board is not terminated, and/or licensing is continued, then the following recommendations should be considered.

Recommendation No. 2

The Investigation Section of the Division of Occupational Licensing (OL) should investigate complaints concerning collection agencies and/or operators on a timely basis. Procedures should be established to keep the public informed of complaint activities such as the type of complaint and the penalty applied.

OL received 25 complaints about collection activities between July 1, 1975 and March 12, 1979. Of the eighteen cases closed, eight were never resolved. For seven of the eight not resolved, there was no evidence of any investigation. The cases were closed because they were relatively minor and too much time had passed to make them worth pursuing.

We also found that there are no procedures established to keep the public informed of complaint activities and the disposition of complaints.

Enforcement of the regulating statutes is essential for public protection. Violations of laws and regulations by licensees should be investigated and prosecuted. Penalties, such as fines, revocation of license or suspension of license should be applied when appropriate. When penalties are

applied, they should be publicized to let the public and other licensees know that complaints will be investigated, laws and regulations will be enforced, and penalties will be applied when appropriate.

Recommendation No. 3

The Division of Occupational Licensing should inspect collection agency accounting and other records on a random basis.

Alaska Statute 08.24.280 requires collection agencies to keep specific records for all collections and disbursements. The records are required to be open for inspection by the Department, the Board, or their authorized agent at all reasonable times. Currently, collection agency records are not being inspected at all.

Without periodic inspections of the collection agencies' records, it is impossible to determine if they are being kept and are accurate. Inaccurate records can result in financial losses to both debtors and creditors, and in inaccurate credit reports. Whether or not the Collection Agency Board remains in existence, violations of laws and regulations by licensees should be investigated and prosecuted. Inspections of each collection agency's records are one way of determining compliance with statutory requirements.

Recommendation No. 4

Collection Agency Board meetings should be sufficiently advertised - in a timely manner - so as to encourage public participation.

Advertisement orders for Board meetings were placed on a one time only basis. Six advertisement orders were placed but no affadavit of publication was obtained to indicate the ad was published. One Board meeting advertisement was published on the day of the meeting in one paper and only two days before the meeting in another paper.

Alaska Statute 44.62.310(e) states, in part, that "reasonable public notice shall be given for all meetings..." Alaska Statute 44.62.312(a)(5) states, in part, that "the people's right to remain informed shall be protected so that they may retain control over the instruments they have created".

In our opinion, the advertising of meetings in the examples mentioned above were not sufficiently timely to encourage public participation in the meetings.

Recommendation No. 5

The Board should establish formal goals, objectives and quantifiable measures which should be included in the Division of Occupational Licensing's (OL's) budget document.

Objectives describe what an agency or Board is seeking to accomplish during a specific year. Well formulated objectives are capable of measurement and should include numerical targets so that actual accomplishments can be compared with stated targets. Without goals and objectives, the Board's performance cannot be adequately evaluated and analyzed.

OL establishes its own budget goals and objectives. The budget documents do not include any goals or measures for individual boards. Without the Board's goals and measures being identified or measured, neither the Governor's Office nor the Legislature can evaluate the Board's performance.

Recommendation No. 6

The Collection Agency Board, in conjunction with the Division of Occupational Licensing, should review the statutes and regulations relating to collection agencies and operators and clarify or delete those parts which are vague, obsolete or discriminatory.

We found several statutes and regulations which we considered vague, obsolete or possibly discriminatory. For example:

A. AS 08.24.100(b) is vague and should be clarified. It mentions an annual operator's license renewable every second year with a biennial fee.

B. AS 08.24.110(a) (5) and 12AAC 20.020(c) are considered to be vague because they do not state what a crime involving moral turpitude is.

C. AS 08.24.110(b) is vague because it does not define what constitutes "good cause shown" for the purpose of waiving or modifying statutory requirements for licensure.

D. AS 08.24.180(a) and (b) is obsolete because it refers to the licensing of people actively engaged in the collection agency business on May 1, 1968.

E. The following statutes and proposed regulations could encourage discrimination because of race, color, national origin, age or sex:

AS 08.24.120(a) (2) requires a photograph of the applicant;

12AAC 20.010(a) (1) birth date;

12AAC 20.010(a) (6) credit reports;

12AAC 20.020(a) (2) birthdate and birthplace;

12AAC 20.020(a) (7) credit report.

The Board and/or Division of Occupational Licensing should consult with the State Equal Employment Opportunity Office or the Human Rights Commission on the make-up of the requirements and applications for licensure. Any discriminatory - type items should be analyzed to determine if a real need for the information exists. If not, the items should be deleted.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analysis of Board activities relates to the public need factors defined in the "sunset" law. This analysis is not intended to be all inclusive, but addresses those areas we were able to cover within the scope of our review.

In the event it is determined that the Collection Agency Board will be continued, the following recommendations need Board attention. If the Board is not reinstated, OL should implement the procedures where applicable to solve the problems addressed.

I. The extent to which the board, commission or program has operated in the public interest.

1. In our opinion, no public need for the Board has been demonstrated. The Board did not hold any meetings between October 13, 1971 and March 14, 1977. During this dormant period the Department, which has the statutory authority to do so, issued 40 operators licenses and 28 agency licenses (see Recommendation No. 1).

II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

1. The OL investigative section has not provided adequate investigative support necessary for the enforcement of the law (see the OL Performance Audit Report and Recommendation No. 2).

2. Because of high turnover within the Division of Occupational Licensing, the Collection Agency Board has had a number of different licensing examiners. This has caused a lack of continuity in licensing requirements.

3. By not holding any meetings between October 13, 1971 and March 14, 1977, the Board was seriously hampered in developing regulations to govern the industry.

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

1. The Board has made one recommendation for a statutory change. This will eliminate the one year residency requirement for a person to qualify for an operator's license.

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

1. The public is invited to attend Board meetings and to give their input about the workings of the Board. Notices of meetings are advertised generally one time only in each of three newspapers throughout the State. We found that the time between the publishing of the notice and the meeting is not always sufficient to allow persons wishing to attend a meeting time to prepare for it. The publishing of the advertisements is handled by the Division of Occupational Licensing (see Recommendation No. 4 and the OL Performance Audit Report).

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

1. As stated under criteria IV, the public is invited, by published notices in newspapers, to attend Board meetings to give their input about Board regulations.

2. Public hearings were held in Fairbanks on March 2, 1978 and in Anchorage on March 3, 1978 for the purpose of allowing the public to testify on proposed regulations. Several people gave testimony at each of the hearings.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

1. One complaint has been filed with the Ombudsman's Office concerning an agency reportedly failing to pay the complainant monies collected in his behalf. The complaint was found to be justified and was rectified.

2. One complaint concerning a collection agency which was filed with the Consumer Protection Section of the Attorney General's office is currently before the State Supreme Court.

3. Of the thirteen cases which are currently open and are on file in the Division of Occupational Licensing, one was opened in 1972 and one was opened in 1973.

4. Of the thirty-two cases on file in OL which were closed between 1976 and March 1979, fourteen were not complaints but just routine background checks. Eight of the remaining cases were closed without being satisfactorily resolved. Of these eight, seven did not show any investigative effort by OL (see Recommendation No. 2 and the OL Performance Audit Report).

VII. <u>The extent to which a board or commission which regulated entry into an occupation or profession has presented qualified applicants to serve the public</u>.

1. The Collection Agency Board does not have the statutory authority to pass upon the qualifications of applicants for agency and/or operator licenses. They also do not have the authority to issue licenses.

2. The Director of OL, who is also a member of the Board, has been submitting applications to the Board for the purpose of obtaining their recommendation on whether to issue a license or not. Between March 1977 and March 1979, nine operator and six agency licenses were issued.

3. The Board did not hold any meetings between October 13, 1971 and March 14, 1977. During this dormant period the Department, which has the statutory authority to do so, issued forty operators licenses and twenty-eight agency licenses (see Recommendation No. 1).

4. As of February 1979, there are twenty-two collection agencies and twenty-five operators licensed in the State.

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

1. The statutes, applications and/or regulations pertaining to collection agencies and operators require information such as birthdate, birthplace, marital status, number of dependents and a picture of the applicant. These requirements may be violations of the Equal Employment Opportunity requirements. However, some of this information may be necessary to confirm an applicant's qualifications. We have recommended that the requirements be analyzed to determine if a real need for the information exists (see Recommendation No. 6 and the OL Performance Audit Report).

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

1. If the Collection Agency Board is reinstated, it should be added to the list of boards, commissions and/or agencies which come under the Administrative Procedures Act. This is a technicality since the Board is covered by the act.

2. Please refer also to the Findings and Recomendations section of this report and the OL Performance Audit Report.

APPENDIXES

APPENDIX A

COLLECTION AGENCY BOARD
REVENUES COMPARED WITH EXPENDITURES
Fiscal Year 1978
(UNAUDITED)

Average Revenue (Schedule 1 and Note 1)	$ 7,507
Expenditures (Note 2)	15,289
Excess of Expenditures over Average Revenues	$(7,782)

Schedule 1
Types of Revenues

Revenues	Amount	Collection Time
Collection Agency License		
Application Fee	$100	With application
Renewal Fee	$200	Biennially
Late Renewal Penalty	$50	If 15 days after renewal date
Non Resident Application Fee	$200	With application
Non Resident Renewal Fee	$400	Biennially
Collection Agency Operator License		
Application Fee	$40	With application
Renewal Fee	$100	Biennially
Late Renewal Penalty	$50	If 15 days after renewal date
Non Resident Application Fee	$100	With application
Non Resident Renewal Fee	$200	Biennially

Note 1

Most of the collection agency revenues are composed of renewal registration fees. These fees are collected once every two years and cause revenues in one year to be much

greater than the revenues collected in the next year. Therefore, we calculated and reported an average of the revenues collected in fiscal years 1977 and 1978 in order to obtain an accurate representation of collected revenues.

Note 2

Expenditures include those made by Board members, such as travel and per diem, and an allocated percentage (estimated) of total administrative expenses of OL. They do not include expenditures for efforts of other departments, such as the Department of Law, that may be assisting the Board and OL.

APPENDIX B

INVESTIGATION STATISTICS

Schedule 1

Cases opened between July 1, 1975 and March 22, 1979

Case Description	Fiscal Year Case Opened 1979	1978	1977	1976	Total Opened	Total Closed
Complaints:						
Practicing Without licenses	1	1	2	9	13	11
Licensee Violating Statutes	1	2	1	4	8	5
Non-licensee Violating Statutes	-0-	-0-	-0-	1	1	1
Alleged embezzlement or fraud by licensee	2	-0-	-0-	-0-	2	-0-
Licensee using another licensee's business name	-0-	-0-	1	-0-	1	1
Total Complaints (Note 1)	4	3	4	14	25	18
Routine Background Checks - Not Complaints (Note 2)	2	2	9	3	16	14
Total Cases Opened (Note 3)	6	5	13	17	41	
Cases closed by March 22, 1979	-0-	4	12	16		32

Note 1

Of the twenty-five complaint cases opened, eighteen have been closed. Of these eighteen, eight were closed without being satisfactorily resolved. Seven of these 8 cases did not show any investigative effort by OL (see Recommendation No. 2).

Note 2

AS 08.24 authorizes the Department of Commerce and Economic Development and the Collection Agency Board to conduct a

complete investigation of applicants for an operator's license, including inquiry of police agencies as to the applicant's record of arrest or conviction of a crime. The "Routine Background Checks" referred to in the schedule are a result of this authorization. They consist of the following:

a) The applicant's fingerprints, which are required along with the application, are sent to the Alaska State Troopers and to the Federal Bureau of Investigation (FBI) for file checks for any crimes the applicant may have committed;

b) Depending on the information received from these two agencies, the results are either filed or further investigation is conducted;

c) The applicant's personal and employee references are contacted for their input as to the applicant's character and status in the community.

Note 3

In addition to the 41 cases contained in Schedule 1, 4 cases which were opened between 1972 and 1975 are still considered open as of March 12, 1979.

APPENDIX C

ADMINISTRATIVE STATISTICS

	As of March 22, 1979
Currently Licensed Collection Agencies	22
Currently Licensed Collection Agency Operators	25

Board Meetings:

A meeting was held on October 13, 1971. The next meeting was held on March 14, 1977 in Anchorage. From that date to the present (March 1979), the following meetings have been held:

August 5, 1977	in Juneau
November 18, 1977	in Anchorage
January 5, 1978	in Anchorage
August 28, 1978	in Anchorage
November 17, 1978	in Anchorage
February 23, 1979	in Anchorage

APPENDIX D

COLLECTION AGENCY BOARD
QUESTIONNAIRE SENT TO BOARD MEMBERS

1. What do you believe to be the goals and objectives of the Collection Agency Board?

	Description	Number of Board Member Response (Notes 1 and 2)
A.	*To adopt rules and regulations to implement Title 8 Chapter 24 of the Alaska Statutes.*	2
B.	*Hear the merits of complaints after investigation by the Division of Occupational Licensing.*	1
C.	*Confirm major administrative decisions, such as agency and operator licensing and revocation*	1
D.	*Help prevent collection agency business failures, which might result in loss of customer funds, by conducting extensive backgrouna checks on new applicants for licensure.*	1
E.	*Represent the industry when National and State legislation affecting collection agencies and operators is being proposed.*	1

2. How does the Board measure its progress in meeting its goals and objectives?

	Description	Number of Board Member Response
A.	*Regulations have been developed and are currently (March, 1979) being reviewed by the Attorney General's Office before being finalized.*	2
B.	*The Board is lobbying for more investigative funds for the Division of Occupational Licensing to permit more investigating of licensee activity including spot audits of agency operations.*	1
C.	*The Board's method of judging its progress must be a purely subjective one. Community interest and the interest of the credit/collection industry has increased tremendously.*	1

3. Are there any statutes or regulations that you believe to be obsolete, vague, unduly restrictive, and/or inadequate to provide the Board with the responsibility and power to properly govern the purpose and activities of the Board? Please list and explain.

	Description	*Number of Board Member Response*
A.	*Eliminate the conflict over operator residency requirements in Title 8 Chapter 24.*	*1*
B.	*The bonding requirement (for fidelity of agency and employees) should be raised to become more in line with amounts held in client trust fund accounts.*	*1*
C.	*The statutes as they stand do a pretty good job of regulating the collection industry if they are followed by the State.*	*1*
D.	*The Board should have the right to, of themselves, suspend or revoke a license for cause, and to demand an immediate audit, and impound a client's trust fund when they have established in fact that clients' trust funds are not being paid, or are being used as operating funds.*	*1*

4. Has the Board recommended any statutory changes which are generally in the public's best interest? Please list and explain.

	Description	*Number of Board Member Response*
A.	*Eliminate section 08.24.110(1) which requires one year residency to qualify for an operator's license.*	*2*
B.	*Many changes, which are a part of the new regulations governing the collection agency industry in Alaska, have been recommended.*	*1*

5. Is the staff from the Department of Commerce and Economic Development and/or other departments adequate to perform and enforce all laws and regulations relating to the Collection Agency Board? What staff support services are provided adequately/inadequately?

	Description	*Number of Board Member Response*
A.	*No. The staff must be bolstered with more and better investigators and auditors.*	*2*

		Number of Board Member Response
C.	*The reasons are that one agency, which has been the subject of many past lawsuits, did not want any one in the State looking at their operations. Although the owner was a member of the Board for only one term, he effectively controlled the other members at the time.*	1

8. Do you think Collection Agencies and/or operators should be licensed by a State agency? Please explain.

	Description	Number of Board Member Response
A.	*Yes. The licensing procedure provides a means of not only registration of key data about an operator and agency, but - more importantly - a means of evaluating the eligibility and character of applicants.*	1
B.	*Yes. The licensing procedure is adequate as it is, if it is followed correctly.*	1
C.	*Yes. The business does a great deal of good, but one or two bad apples can and have done a great deal of harm. The industry should be governed, and have the opportunity through a board consisting of some representatives of the industry, to have a say in the governing and disciplining of agencies.*	1

9. Do you think a duplication of effort exists between the Collection Agency Board and the Consumer Protection Section of the Department of Law concerning the regulation of collection agencies and operators? Please explain.

	Description	Number of Board Member Response
A.	*No. The authority and functions are quite different.*	1
B.	*Yes. The Board could easily handle all the complaints against the industry. If the Board decided some legal action was necessary, then that function could be handled by the Attorney General's Office.*	2

10. In your opinion, are there any changes that could be made to the Board which would make it more effective in meeting its goals and objectives as you perceive them in question number one?

	Description	*Number of Board Member Response*
A.	*The Board desperately needs the investigative and audit support of the Division, which is at a very low level due to a lack of personnel and funding.*	1
B.	*Board members should serve for a four year term to enable them to become more familier with the industry problems.*	1
C.	*The Board needs the power to, of themselves, suspend or revoke a license for cause.*	1
D.	*The make-up of the Board (i.e. 5 members) does not need to be changed.*	1

11. Do you think the Collection Agency Board should be allowed to continue operations past the scheduled termination date of June 30, 1980? Why or why not?

	Description	*Number of Board Member Response*
A.	*The functions carried out by the Board should be continued.*	1
B.	*Yes. The continuation of the Board is necessary for the health and well beirg of the collection industry. The Board's screening of applicants prevents unscrupulous characters from entering the business.*	2

12. Any other comments? (This is your chance to air your gripes, compliments and/or opinions!)

	Description	*Number of Board Member Response*
A.	*Yes. New applications should be documented better by the State before being referred to the Board.*	1
B.	*When discussion is had in Juneau, concerning the future of this Board, I would like to present my views on the need for the Board.*	1

Note 1

The questionnaire was sent to all 5 Board members in November 1978. We received replies from 3 Board members. Therefore, the response rate is 60%.

Note 2

Some Board members responded to each question with several answers. Therefore, total responses for each question may exceed the number of Board members.

APPENDIX E

QUESTIONNAIRE SENT TO COLLECTION AGENCY OPERATORS

		Number of Responses (See Notes 1 and 2)		
		Yes	*No*	*No Opinion*
1.	Have you ever had any contact with the Collection Agency Board?	*14*	*3*	*-0-*
2.	If so, was it concerning:			
	A. Application for licensure?	*4*	*13*	*-0-*
	B. New regulations?	*7*	*10*	*-0-*
	C. Board policy?	*1*	*16*	*-0-*
	D. New legislation?	*6*	*11*	*-0-*
	E. Inspections of your records?	*-0-*	*17*	*-0-*
	F. Complaints?	*1*	*16*	*-0-*
	G. Other? Please specify: _____	*5*	*12*	*-0-*
3.	Do you believe the Board has operated in the public's best interest? If not, please specify: _____	*14*	*1*	*2*
4.	Would the absence of the Board be detrimental to the public's best interest? Please discuss: (A typical response was that there should be some control over collection agencies.)	*12*	*4*	*1*
5.	Are there any statutes or regulations that are obsolete, vague or unduly restrictive? Please specify:	*7*	*5*	*5*
6.	Are you aware of any discriminatory practices involving licensing or investigations of the Board?	*-0-*	*15*	*2*
7.	Do you believe that Alaska's licensing requirements (for agencies and operators) are adequate and effective in ensuring the the public is protected? Please specify:	*17*	*-0-*	*-0-*

	Yes	No	No Opinion
8. Are there any additional statutes, regulations or licensing requirements needed to ensure the public is adequately protected? Please specify:	1	12	4
9. Do you have any complaints concerning the service provided by the staff support of the Division of Occupational Licensing, Department of Commerce and Economic Development? Please specify: (A typical response was that the staff was slow in answering correspondence and not informing the public and agencies of upcoming meetings);	6	11	-0-
10. Do you believe that there is a need for licensure of all collection agency operators in the State?	13	4	-0-
11. Do you believe that there is a need for licensure of all collection agencies in the State?	17	-0-	-0-
12. Any additional comments? (This is your chance to air your gripes, compliments and/or opinions!) (A typical response was that more information is needed on Board meetings prior to the meeting.)	8	9	

Note 1

Number of questionnaires sent to State licensed collection agency operators	22
Number of collection agency operators who responded	17
Response Rate	77.3%

Note 2

One agency operator's response was not received in time to include in this report. Two Board members, who are also licensed agency operators, were sent Board members' questionnaires and not agency operators' questionnaires.

JAY S. HAMMOND, GOVERNOR

OFFICE OF THE COMMISSIONER

POUCH D
JUNEAU, ALASKA 99811

June 21, 1979

RECEIVED

JUN 26 1979

LEGISLATIVE AUDIT

Mr. Gerald Wilkerson, CPA
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

The following comments are in response to the Performance Review of the Collection Agency Board, as submitted by the Division of Legislative Audit.

Recommendation No. 1: We agree that this profession could affect the public's welfare, and that the division can license agencies and operators if the board were terminated. It should be noted that the board has discussed formulation of regulations for repossession of collateral security.

Recommendation No. 2: Agreed. Complaints received against all regulated professions should be handled on a timely basis. Budgetary restraints have mandated priortization of investigations.

Recommendation No. 3: Agreed. However, current staffing prohibits in-house auditing of agencies' records. Budgetary limitations also severely limit the use of outside sources. AS 08.01.087(b)(3) allows examination of books and records and for that agency to pay the reasonable costs of the examination only if it appears that a person has engaged in, or is about to engage in, an act or practice in violation of a provision of this chapter. Without sufficient funding, outside hired agents or auditors could be difficult to retain.

Recommendation No. 4: Agreed. Division policy has been to publish notice of meetings two weeks to one month prior to the date of meeting and usually for one time only in three newspapers. Payment for the ad is made upon receipt of affidavit of publication. Again, budgetary limitations at this time limit publication to one time in three different newspapers. To double the number of times printed would require approximately $9,000 additional funding for all boards.

Recommendation No. 5: Agreed. All boards have been contacted to provide this information for the division's FY '81 budget.

Recommendation No. 6: Agreed. The board, in conjunction with the division, is addressing needed statutory and regulatory updates.

I appreciate the time and efforts expended by your staff and the opportunity to provide these comments.

Sincerely,

Charles R. Webber
Commissioner

RECEIVED
JUN 29 1979
LEGISLATIVE AUDIT

Mr. Gerald Wilkerson, CPA
Legislative Auditor
Division of Legislative Audit
State of Alaska
The State Legislature
Pouch W
Juneau, AK 99811

Dear Mr. Wilkerson,

Thank you for the copy of your Preliminary Audit Report on "A Performance Review of the Collection Agency Board", dated March 22, 1979. Please accept the following response on behalf of the Collection Agency Board. This response does not preclude additional individual response from Board members.

We believe that the Collection Agency Board as it is now constituted can and does protect the public's safety and welfare. This conclusion is drawn from our review of the authority of the Board and its effectiveness in carrying out that authority, although we have undoubtedly approached that review from a different perspective than your auditor. In addition, at least three members of the Board have a considerable working knowledge of the collection industry.

In terms of its authority, the Board has three basic functions: to develop administrative regulations, to investigate and to advise the Division of Occupational Licensing. Most of the issues raised in your audit relate to your evaluation of the Board's effectiveness over the years in carrying out that authority.

Here is our specific response, each section labelled according to section names within your audit report:

"Recommendation Number 1"

1. "...the Board is not doing anything that could not be done by the Division of Occupational Licensing."

On the face of it, this seems to be a reasonable statement. And, as I pointed out in detail to a Legislative Audit staff member in my letter to him of April 27, 1979, the Division of Occupational Licensing - if properly funded - probably could conduct investigations and obtain some of the investigative tips that only those within such a unique industry would likely obtain. However, I seriously doubt that collection agency operators and others

wishing to provide confidential tips in a discreet fashion would tend to provide this information to a bureaucrat, irrespective how trustworthy.

We are talking here about human behavior patterns. Informers would be far more likely to pass investigative information on to a peer (such as a collection agency operator member of the Board] or to a person independent of both the Division and the industry (such as a public member of the Board).

Collection agencies deal daily with behavior patters of consumer members of the public. Non-payment of a legally incurred debt can be viewed as a form of larceny, assuming the non-payment is intentional. Persons purposefully engaging in this practice (the irresponsible variety and not those with sincere financial problems] border on if not overtly practice criminal behavior.

Collection agency operators deal daily with a certain number of persons from this element of society in an effort to enforce payment responsibility and protect persons who are responsible in their credit dealings. This function, moreover, makes the work and qualifications for the work of a collection agency unique and quite different from those of other disiplines licensed by the State.

It is for this reason that we feel the Board is needed to provide in a discreet and sometimes clandestine fashion information concerning suspicious operator and collection agency activities and those of unlicensed agencies and operators and applicants for agency and operator licenses.

What about the cost-effectiveness of the Board? The Board's entire Budget for fiscal 1979-1980 is $ 3,199. This can be compared to either the cost of the Division performing the same functions or savings to the public because of Board activities, or both.

There have been at least two instances during the past year in which the Board has taken action and/or made a recommendation to the Division which has clearly saved the public much more that the direct costs of operating the Board. What the same results would have cost the Division, I do not know. However, that cost would likely have exceed our $3,200 annual cost. There are also a number of other instances in which the Board's functions have generated savings to the Public, but the savings in those cases would be difficult to estimate because of its indirect nature.

2. "...The licensing function did not suffer during this dormant period as the Department issued 40 operators licenses and 28 agency licenses."

Again, on the face of it, this seems reasonable. However, quantity does not measure quality. And, unless a review was made of the extent to which operators and agencies receiving licenses during the "dormant period" measure up after a thorough background check to the statutary criteria for license eligibility, there is no way of determining that the Board would not have positively affected the quality of those who would have been licensed.

There are at least two instances during the past year in which the Board - on its own investigation - verified a history of responsibility problems with a prospective licensees and supplied this information to the Division with a recommendation that licenses not be issued.

How many such instances would have existed (or do exist) with licensees who first received their license during the "dormant period"?

3. "...the Board has not formulated regulations for repossession of collateral security".

We agree. However, Board members are now working on drafts of proposed collateral repossession regulations which will be considered in a work session prior to our next regular Board meeting.

4. "....this (investigative) authority...is not being exercised..."

At its last regular meeting (May 18, 1979), the Board authorized for cause an investigation of the accounting records of a collection agency.

5. The third paragraph of page 8 implies that the Consumer Protection Division of the Attorney General's office is capable of handling all collection agency consumer complaints. If indeed their enabling statutes were strengthened to permit that kind of activity, they could also be given investigative authority. However, doing so would not necessarily bring in investigative tips of the source and nature now received by Board members and would not be as cost-effective as the Board in performing this function.

Recommendation Number 3:

"...collection agency records are not being inspected at all..."

Please see number 4 above. Subsequent to its re-activitation, the Board has just begun to work its way into this arena as salient cases appear which require investigation.

Recommendation Number 5;

We agree. Adoption of our proposed regulations this summer will clarify four major areas of concern. We now are developing what we feel should be our investigative and advisory goals. Once developed, we will outline specific objectives designed to meet those goals.

Recommendation Number 6:

We agree with respect to your examples A, B, C, D, and E-photograph. We do not agree with respect to birth date and credit report.

1. Birth Date is needed to establish that the applicant meets the minimum age requirement of the statute.

2. Birth Date provides identifying information by which an investigating Board member or Division investigator could, for example, distinguish between two persons with the same name living in the same town.

3. Credit reports are needed to provide background information to evaluate the applicant's eligibility under several of the statutory criteria. In addition to permitting an evaluation of the individual's or firm's historical performance in carrying out its fiscal responsibilities, a credit report provides corroboration of data provided by the applicant.

"ANALYSIS OF PUBLIC NEED"
Section I

Please see my discussion of this matter under "Recommendation Number 1" above.

Section V, Number 2
"...several people gave testimony at each of the hearings"

Comment: I believe that minutes of those hearings will show that more than 40 persons testified, indicating a substantial amount of interest by the industry and public in the proposed regulations. Your quantification, "several", implies that perhaps two persons testified, which would indicate little interest.

APPENDIX B
Schedule 1

Comment: We currently are investigating at least three cases in which an agency or operator is/was alledgedly operating without a license and at least one case in which a licensee is alledgedly using another licensee's name. In addition, the Board and Division are currently notifying all known organizations or individuals in the State known to be practicing collateral repossession and who are not apparently exempt from provisions of Title 24 that they may be required to obtain an agency/operator license. This activity may result in numerous cases of non-licensee violating statutes (or regulations).

APPENDIX C
Board Meetings

Comment: This schedule does not include two Board meetings with quorums present held in March of 1978. These sessions were in part public hearings to hear comment on proposed administrative regulations affecting collection agencies and operators and affecting the public in its relationship with agencies and operators.

APPENDIX D

Comment: The index of responses to your questionaire which are tabulated in this Appendix and your "Note 1" at the end of Appendix D appear to indicate that only several members of the Board responded. My response to the questionaire was intended to be a response on behalf of the entire Board. If my questionaire does not so indicate, it is my error. In any case, the intent of the questionaire which I returned was to provide Board response on behalf of all members collectively. In intent, then, all members of the Board did respond.

In Alaska, the Collection Agency Board deals with agencies and operators who are estimated by a member of our Board to place an average of 800,000 collection telephone calls each year. That's more than 3,150 calls each working day, an indication of the scope of activity over which Division employees and investigators and the Board are responsible. For Division personnel, this activity is in addition to the numerous other disiplines under their jurisdiction.

It is the collective opinion of members of the Collection Agency Board that the Board can accomplish the State's policymaking, investigative, and advisory roles to the extent intended by the Legislature in a more efficient and cost-effective manner than the Division of Occupational Licensing acting alone.

Thank you for this opportunity to respond to your thorough review of our activities. Any member of the Board will be pleased to provide you with any further information you may desire in connection with your Sunset Review activities.

Sincerely,

James L. Engwall, Chairman
COLLECTION AGENCY BOARD

STATE OF ALASKA

THE LEGISLATURE

BUDGET AND AUDIT COMMITTEE

AUDIT DIVISION
POUCH W—ALASKA OFFICE BUILDING

FINANCE DIVISION
POUCH WF—STATE CAPITOL

JUNEAU, ALASKA 99811

July 3, 1979

Members of the
Legislative Budget and Audit Committee:

We have reviewed the Collection Agency Board's response to The Performance Review of the Collection Agency Board dated March 22, 1979. Our comments follow:

Recommendation No. 1

Board Response 1 (page 31a):

The Board feels that informers are more likely to pass investigative information on to Board members than to a State agency. However, Division of Occupational Licensing (DOL) procedures require all board members to forward complaints, without delay, to the Division's Chief Investigator for appropriate action. This is based on a November 2, 1977 memo from an Assistant Attorney General which states: "It is our position that the boards should refrain from becoming actively involved in investigations....The reason for this limitation of board investigatory functions is the risk of undue bias that could violate a respondent's right to a fair and impartial hearing."

In addition, none of the 25 complaint cases opened between July 1, 1975 and March 22, 1979 were referred to the Division of Occupational Licensing by the Board.

Therefore, the Board is not needed for investigative input.

Board Response 2 (page 31b):

The Board feels that review by the board could positively affect the quality of licensees. Yet, none of the licenses issued by the Department without Board review have been revoked. However, lack of investigative effort, rather than quality, may be the reason licenses haven't been revoked (see Recommendations No. 2 and 3). Since many of the licenses issued have not been renewed, it may be the market which eliminates those who are not properly qualified.

Board Response 4 (page 31c):

At its May 18, 1979 meeting the Board authorized a Board member who owns a collection agency to investigate another agency. As noted in our comments titled "Board Response 1", investigations by Board members can result in a violation of a respondent's right to a fair and impartial hearing. The Board member doing the investigation must not participate in the Board's decision regarding this case.

There is also an additional problem. Even though the Board member may have a good working knowledge about collection agency accounting requirements, and about how fraud and embezzlement are carried out and hidden, the board member may lack knowledge of investigative techniques. Failure to properly document the investigation could result in a weakened or lost criminal case.

Board Response 5 (page 31c):

We made no comment regarding Consumer Protection's capability of handling complaints because that Division's performance has not been reviewed.

Appendix B

As noted on the schedule, the period reported on ended March 22, 1979.

Appendix C

The March, 1978 public hearings were discussed on page 13 (section V.2.) of the report.

SUBJECT: Section-by-section analysis of SB 576 relating to the Collection Agency Board (Work Order Number 8523)

TO: Senator Brad Bradley
Chairman, Senate Commerce Committee

FROM: Tamara Brandt Cook TBC
Legislative Counsel

You have requested a section-by-section analysis of Senate Bill 576 entitled "An Act relating to the regulation of collection agencies and continuing the existence of the Collection Agency Board; and providing for an effective date."

Section 1 This section provides for sunset review of the Collection Agency Board on June 30, 1984.

Section 2 The composition of the board has been altered so that one member is a certified public accountant and only one member is engaged in the collection agency business. The existing law provides for two members who are persons engaged in the collection agency business. Otherwise, the board membership remains the same.

Section 3 This amends the section dealing with appointment and term of office of board members so that no person may serve more than two consecutive terms. Since the terms are for three years, a person who has served two terms must wait three years before he can be reappointed to the board, but this amendment does not place a limitation on the number of terms that a person may serve.

Section 4 This provides for the biennial renewal of licenses and raises the fee from $100 to $300. It also deletes the requirement that renewal take place on or before

July 1st of every other year. This change was made in order to conform with AS 08.01.100 requiring the Department of Commerce and Economic Development to set renewal dates with the approval of the respective occupational board. Since the department must provide administrative services to all occupational boards, it seems appropriate to allow the department to determine how these duties shall be organized.

Section 5 Once again, an amendment was necessary to raise license renewal fee from $100 to $300.

Section 6 Under this provision, three credit references and a credit report must be submitted along with an application for a license. Other provisions of that section continue to require that an applicant also submit a set of finger prints, an application fee, and the license fee.

Section 7 In order for a collection agency to be licensed it must provide a surety bond to the state. This amendment raises the amount of the bond from $5,000 to $10,000 and also adds the requirement that the bond contain the name of the collection agency which is seeking a license and that it be executed in trust for the state.

Section 8 This section allows a collection agency to deposit cash with the state rather than providing a bond. The amendment raises the amount required for a cash deposit from $5,000 to $10,000.

Section 9 While the Department of Commerce and Economic Development or its authorized agent continues to have access to the books of a collection agency, this section is amended so the Collection Agency Board does not have access to these records. Since one member of the board must be a person involved in the collection agency business, the amendment serves to protect the confidentiality of the records of a collection agency by denying the possibility of access to these records by a potential competitor.

Section 10 This amendment serves to raise the renewal license fee for a nonresident operator's license from $200 to $300 in order to conform to the increase imposed upon residents.

Section 11 The Collection Agency Board is added to the list of boards and agencies which must comply with the adjudicatory procedures set out in the Alaska Administrative Procedure Act.

Section 12 This section repeals those provisions which are inconsistent with this act.

AS 08.03.010(a)(3) removes the Collection Agency Board from the list of boards to be terminated June 30, 1980;

AS 08.24.110(a)(1) deletes the requirement that a person who wishes to apply for an operator's license must have been a resident of the state for at least one year prior to application;

AS 08.24.110(a)(3) deletes the requirement that a person applies for an operator's license be of good moral character;

AS 08.24.120(a)(2) deletes the requirement that a person applying for an operator's license submit a photograph of himself;

AS 08.24.160 deletes the section setting out the form for the bond which would be required of a collection agency seeking licensure in the state, which was done primarily because the form does not include the new requirement that the bond be executed in trust for the state and because eliminating the form requirement allows the Department of Commerce and Economic Development flexibility to develop forms which particularly suit its administrative routines;

AS 08.24.180 deletes an outdated grandfather clause allowing a person who had been engaged in a collection agency business on May 1, 1968 to automatically receive a license to continue in business;

AS 08.24.200(a) repeals a section requiring renewal of licenses upon July 1st every second year in order to allow the Department of Commerce and Economic Development to set the renewal date.

Section 13 This section provides that the act will take effect on June 30, 1980, the date upon which the Collection Agency Board is scheduled to terminate under existing law.

If you have any further questions, please contact me.

TBC:ljb

SENATE BILL 576

MR. PRESIDENT, THIS BILL, CONCERNING THE COLLECTION AGENCY BOARD, IS [redacted] ONE OF MANY SUNSET REVIEW BILLS, some few we have had, and several others are to come.

(SEC. 08.03.010(C))
P.1, L.10/12

SECTION 1 PROVIDES FOR SUNSET REVIEW OF THE COLLECTION AGENCY BOARD AND PROVIDES FOR A TERMINATION DATE OF JUNE 30, 1984.

(SEC. 08.24.011)
P.1, L.14/21

SECTION 2 IS AMENDED TO INCLUDE A CERTIFIED PUBLIC ACCOUNTANT (CPA) ON THE BOARD. BECAUSE OF THE NATURE OF THE COLLECTION AGENCY BUSINESS, IT [redacted] was recommended by the Div. of O.A. and other testimony that a [redacted] CPA'S KNOWLEDGE WILL PLAY A MAJOR ROLE IN THE CONTROL OF ACCOUNTS RECEIVABLE AND HELP CONTROL THE "UNDERHANDEDNESS" WHICH HAS BEEN SOMEWHAT PREVALENT IN THIS BUSINESS. THE MEMBERS ON THE BOARD INVOLVED IN THE COLLECTION AGENCY BUSINESS HAVE BEEN REDUCED FROM TWO TO ONE IN ORDER TO ADD THE NECESSARY CPA. OTHERWISE, THE BOARD MEMBERSHIP REMAINS THE SAME.

(SEC. 08.24.021)
P.1, L.29; P.2, L.1

SECTION 3 IS AMENDED SO THAT NO BOARD MEMBER MAY SERVE MORE THAN TWO CONSECUTIVE TERMS. THIS WAS DONE TO ALLOW MORE TURNOVER ON THE BOARD AND TO CREATE MORE DIVERSITY OF IDEAS AND TO BETTER SERVE THE PUBLIC INTEREST.

(SEC. 08.24.100(B))
P. 2, L.4/6

IN SECTION 4 THE WORD "ANNUAL" HAS BEEN DELETED PROVIDING FOR THE BIENNIAL RENEWAL OF LICENSES.

THIS SECTION RAISES THE FEE FROM $100 TO $300, BECAUSE THE FEE HAD NOT BEEN INCREASED SINCE 1968. (THIS SECTION ALSO DELETES THE REQUIREMENT THAT RENEWAL TAKE PLACE ON OR BEFORE JULY 1 OF EVERY OTHER YEAR. THIS CHANGE WAS MADE IN ORDER TO CONFORM WITH AS 08.01.100 REQUIRING THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT TO SET RENEWAL DATES WITH THE APPROVAL OF THE RESPECTIVE OCCUPATIONAL BOARD.)

(SEC. 08.24.100(A))
P.2, L.7/8

IN SECTION 5, ONCE AGAIN, AN AMENDMENT WAS NECESSARY TO INCREASE THE LICENSE RENEWAL FEE FROM $100 TO $300.

(SEC. 08.24.120(A))
P. 2, L.10/12

IN SECTION 6, IN ADDITION TO OTHER INFORMATION CURRENTLY REQUIRED OF AN APPLICANT FOR A LICENSE, THREE CREDIT REFERENCES AND A CREDIT REPORT FROM A CREDIT BUREAU IS ALSO REQUIRED BY THIS BILL. THIS HELPS UPGRADE THE PROFESSION AND PROVIDES for MORE CREDIBILITY OF [redacted] COLLECTION AGENCIES. THIS SHOULD ALSO HELP TO REDUCE THE fraud caused by some "FLY-BY-NIGHTERS."

(SEC. 08.24.150(A))
P. 2, L.13/21

SECTION 7, IN ORDER FOR A COLLECTION AGENCY TO BE LICENSED IT MUST PROVIDE A SURETY BOND TO THE STATE. THIS AMENDMENT RAISES THE AMOUNT OF THE BOND FROM $5,000 TO $10,000 AND ALSO ADDS THE REQUIREMENT THAT THE BOND CONTAIN THE NAME OF THE

COLLECTION AGENCY WHICH IS SEEKING A LICENSE AND THAT IT BE EXECUTED IN TRUST FOR THE STATE.]

(SEC. 08.24.150(B))
P.2, L.22/27

SECTION 8 ALLOWS A COLLECTION AGENCY TO DEPOSIT CASH WITH THE STATE RATHER THAN PROVIDING A BOND. THE AMENDMENT RAISES THE AMOUNT REQUIRED FOR A CASH DEPOSIT FROM $5,000 TO $10,000.

(SEC. 08.24.280(F)
P.2, L.28/29
P.3, L.1/5

SECTION 9 WHILE THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT OR ITS AUTHORIZED AGENT CONTINUES TO HAVE ACCESS TO THE BOOKS OF A COLLECTION AGENCY, THIS SECTION IS AMENDED SO THE COLLECTION AGENCY BOARD DOES NOT HAVE ACCESS TO THESE RECORDS. SINCE ONE MEMBER OF THE BOARD MUST BE A PERSON INVOLVED IN THE COLLECTION AGENCY BUSINESS, THE AMENDMENT SERVES TO PROTECT THE CONFIDENTIALITY OF THE RECORDS OF A COLLECTION AGENCY BY DENYING THE POSSIBILITY OF ACCESS TO THESE RECORDS BY A POTENTIAL COMPETITOR.

SEC. 08.24.370)
P.3, L.7/13

SECTION 10 THIS AMENDMENT SERVES TO RAISE THE RENEWAL LICENSE FEE FOR A NONRESIDENT OPERATOR'S LICENSE FROM $200 TO $300 IN ORDER TO CONFORM TO THE INCREASE IMPOSED UPON RESIDENTS.

(SEC. 44.62.330(A))
P.3, L.14/15

SECTION 11 IS AMENDED TO ADD THE COLLECTION AGENCY BOARD TO THE LIST OF BOARDS AND AGENCIES WHICH MUST COMPLY WITH THE ADJUDICATORY PROCEDURES SET OUT IN THE ALASKA ADMINISTRATIVE PROCEDURES ACT.

P.3, L.16/17

SECTION 12 REPEALS ~~AS FOLLOWS, THOSE PROVISIONS~~ seven sections WHICH ARE INCONSISTENT WITH THIS ACT. I would be glad to discuss them individually if requested, otherwise, I won't bore you.

(1.) AS 08.03.010(A)(3) REMOVES THE COLLECTION AGENCY BOARD FROM THE LIST OF BOARDS TO BE TERMINATED JUNE 30, 1980;

(2.) AS 08.24.110(A)(1) DELETES THE REQUIREMENT THAT A PERSON WHO WISHES TO APPLY FOR AN OPERATOR'S LICENSE MUST HAVE BEEN A RESIDENT OF THE STATE FOR AT LEAST ONE YEAR PRIOR TO APPLICATION; [Some national agencies are quite reputable and we saw no need for this requirement if one of them decided to establish in Alaska.]

(3.) AS 08.24.110(A)(3) DELETES THE REQUIREMENT THAT A PERSON APPLYING FOR AN OPERATOR'S LICENSE BE OF GOOD MORAL CHARACTER; [what does it mean and what does it have to do with a honest business. Being not guilty of moral turpitude is still a requirement.]

(4.) AS 08.24.120(A)(2) DELETES THE REQUIREMENT THAT A PERSON APPLYING FOR AN OPERATOR'S LICENSE SUBMIT A PHOTOGRAPH OF HIMSELF; [This was thought to be discriminatory; it would probably indicate race.]

(5.) AS 08.24.160 DELETES THE SECTION SETTING OUT THE FORM FOR THE BOND WHICH WOULD BE REQUIRED OF A COLLECTION AGENCY SEEKING LICENSURE IN THE STATE, WHICH WAS DONE PRIMARILY BECAUSE THE FORM DOES NOT INCLUDE THE NEW REQUIREMENT THAT THE BOND BE EXECUTED IN TRUST FOR THE STATE AND BECAUSE ELIMINATING THE FORM REQUIREMENT ALLOWS THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT

FLEXIBILITY TO DEVELOP FORMS WHICH PARTICULARLY SUIT ITS ADMINISTRATIVE ROUTINES;

6. AS 08.24.180 DELETES AN OUTDATED GRANDFATHER CLAUSE ALLOWING A PERSON WHO HAD BEEN ENGAGED IN A COLLECTION AGENCY BUSINESS ON MAY 1, 1968, TO AUTOMATICALLY RECEIVE A LICENSE TO CONTINUE IN BUSINESS;

7. AS 08.24.200(A) REPEALS A SECTION REQUIRING RENEWAL OF LICENSES UPON JULY 1 EVERY SECOND YEAR IN ORDER TO ALLOW THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT TO SET THE RENEWAL DATE.

P.3, L.18 SECTION 13 THIS SECTION PROVIDES THAT THE ACT WILL TAKE EFFECT ON JUNE 30, 1980, THE DATE UPON WHICH THE COLLECTION AGENCY BOARD IS SCHEDULED TO TERMINATE UNDER EXISTING LAW.

MR. PRESIDENT, I URGE THE PASSAGE OF SENATE BILL 576.

MR. PRESIDENT, MOST OF THE LARGER COLLECTION AGENCIES HAVE RATHER GOOD REPUTATIONS, BUT A GOOD NUMBER OF SMALLER ONES HAVE BEEN GUILTY OF FRAUD, SO WE HAVE TIGHTENED UP THE REQUIRMENTS SOMEWHAT IN THIS BILL FOR THAT REASON.

COLLECTION AGENCY

STATUTES

08.03.010

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);
(2) Board of Dental Examiners (AS 08.36.010);
(3) State Medical Board (AS 08.64.010);
(4) Board of Nursing (AS 08.68.010);
(5) Board of Dispensing Opticians (AS 08.71.010);
(6) Board of Examiners in Optometry (AS 08.72.010);
(7) Board of Pharmacy (AS 08.80.010);
(8) Board of Veterinary Examiners (AS 08.98.010);
(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);
(10) Board of Nursing Home Administrators (AS 08.70.010);
(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);
(2) Board of Barber Examiners (AS 08.12.010);
(3) Collection Agency Board (AS 08.24.011);
(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);
(5) Board of Electrical Examiners (AS 08.40.010);
(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);
(7) Guide Licensing and Control Board (AS 08.54.010);
(8) Board of Marine Pilots (AS 08.62.010);
(9) Real Estate Commission (AS 08.88.011);
(10) Board of Welding Examiners (AS 08.99.010);
(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

08.24.011

Sec. 08.24.011. Collection Agency Board. There is created a Collection Agency Board consisting of five members, four of whom shall be appointed by the governor. The board shall consist of two persons engaged in the collection agency business within the state and licensed under this chapter. The third member shall be designated by the commissioner of commerce and economic development from his staff. Two members shall be public members in accordance with AS 08.01.025. (§ 1 ch 101 SLA 1968; am § 42 ch 218 SLA 1976; am § 7 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment substituted "commissioner of commerce and economic development" for "commissioner of commerce" in the third sentence.

The second 1976 amendment made the same change as the first 1976 amendment and, in addition, substituted "five members, four of whom" for "three members, two of whom" in the first sentence and added the fourth sentence.

COLLECTION AGENCY

STATUTES

08.24.021

Sec. 08.24.021. Appointment and term of office. The board members shall be appointed initially for terms of two and three years respectively. Thereafter, appointments to the board shall be made upon the expiration of the initial appointment and the term of office for each member so appointed shall be three years. The members shall serve at the pleasure of the governor. Vacancies caused by death, resignation or removal from office shall be filled by appointment by the governor. (§ 1 ch 101 SLA 1968)

08.24.100

Sec. 08.24.100. Licensed operator required, exceptions and fee. (a) Notwithstanding any other provision of this chapter, no licensee may engage in the collection agency business unless and until the collection agency, and each branch office of the agency is under the management and control of a licensed operator for each office. The department or the board may waive this requirement for a period not to exceed 90 days upon the death or disability of an operator, or for other good cause.

(b) The annual operator's license shall be renewable on or before July 1 of each second year beginning on July 1, 1968, and the biennial fee is $100. (§ 1 ch 101 SLA 1968)

08.24.110

Sec. 08.24.110. Qualification for operator's license. (a) To qualify for an operator's license, the applicant shall:

(1) have been a resident of this state continuously for at least one year before the time of application;

(2) be a high school graduate, or have the equivalent education of a high school graduate;

(3) be of good moral character;

(4) not have been convicted of violating this chapter, nor have any unsettled complaints under this chapter against him;

(5) not have been convicted of a felony or a crime of larceny or embezzlement or a crime involving moral turpitude;

(6) be 19 years of age or older at the time of application;

(7) not be a disbarred attorney or have filed bankruptcy;

(8) pay the biennial license fee which is fixed at $100.

(b) The commissioner may waive or modify the requirements specified in (a) (2), (4), (5) and (7) of this section for good cause shown. (§ 1 ch 101 SLA 1968)

08.24.120

Sec. 08.24.120. Application for operator's license. (a) An application for an operator's license shall be made on forms furnished by the department and shall contain the information required in § 110 of this chapter and, in addition, the following:

(1) a complete set of fingerprints;

(2) a 2" x 3" photograph showing a front view of head and shoulders;

(3) if an original application, an application fee of $10;

(4) the biennial license fee required by § 100 of this chapter.

(b) The department and the board are authorized to make a complete investigation of applicants including inquiry of police agencies as to the applicant's record of arrest or conviction of crime. (§ 1 ch 101 SLA 1968)

COLLECTION AGENCY

STATUTES

08.24.150

Sec. 08.24.150. Bond. (a) The bond provided for in § 140 of this chapter shall be in the sum of $5,000, executed by the applicant, as principal, and by a corporation which is licensed or authorized to transact business of fidelity and surety insurance within the state as surety. The department may at any time request verification of a bonding agent's authority by the main office of any company acting as surety.

(b) A licensee may, at any time, file with the department a new bond. A licensee may in lieu of a bond make a $5,000 cash deposit with the department, the deposit to be held by the department under the same terms and conditions as if bond in that amount were posted.

(c) A surety may file with the department notice of his withdrawal on the bond of a licensee. Upon filing a new bond, or upon the revocation of the collection agency license, or upon expiration of 60 days after the filing of notice of withdrawal as surety by the surety, the liability of the former surety for all future acts of the licensee shall terminate.

(d) The department shall immediately cancel the bond given by a surety company upon being advised its license to transact business of fidelity and surety insurance has been revoked by the state.

08.24.280

Sec. 08.24.280. Records and funds. (a) A collection agency shall keep a record of all sums collected by it, and of all disbursements made by it, and shall maintain and keep all the records and all customers' funds in a trust account with a recognized financial institution in this state. Collection agencies shall maintain accounting records of collections for and payments to customers for a period of six years from the date of the last entry. Collection agencies shall keep other records for a period of two years from the date of the last entry.

(b) Every collection agency shall maintain a permanent numerical receipt record which shall indicate as to each payment made by a debtor the following information:

(1) the name of the debtor making payment;

(2) the amount paid;

(3) the name of the creditor to whom funds are being applied;

(4) the date and form of payment;

(5) the balance remaining due on account.

(c) An agency using a computer system giving read-out debtor payment information will not have to maintain a numerical receipt record; however, if requested, a receipt will be furnished to debtor.

(d) The receipt shall be made immediately upon the receipt of funds by the collection agency in payment of a debt; the original copy to be made immediately available to the debtor who has made payment, upon request; and a copy to be made immediately available to the creditor for whom payment was received, upon request; and a copy to be maintained in the permanent receipt record.

(e) A collection agency shall maintain daily cash ledger sheets showing all funds received from debtors and all funds received as fees for services, such as credit reports and the like.

08.24.370

Sec. 08.24.370. Nonresidents. A nonresident may apply for and receive a collection agency license or an operator license or both on the same basis as a resident. The application fee for a nonresident operator license is $100, and the biennial license fee is $200. The application fee for a nonresident agency license is $200, and the biennial license fee is $400 for the principal place of business and $400 for each branch office. (§ 1 ch 101 SLA 1968)

COLLECTION AGENCY
STATUTES

44.62.330

Sec. 44.62.330. Application of §§ 330 — 630. (a) The procedure of the state boards, commissions, and officers listed in this subsection or of their successors by reorganization under the constitution shall be conducted under §§ 330 — 630 of this chapter. This procedure, including, but not limited to, accusations and statements of issues, service, notice and time and place of hearing, subpoenas, depositions, matters concerning evidence and decisions, conduct of hearing, judicial review and scope of judicial review, continuances, reconsideration, reinstatement or reduction of penalty, contempt, mail vote, oaths, impartiality, and similar matters shall be governed by this chapter, notwithstanding similar provisions in the statutes dealing with the state boards, commissions, and officers listed. Where indicated, the procedure that shall be conducted under §§ 330 — 630 of this chapter is limited to named functions of the agency.

(47) Collection agency Board (AS 08.24.011)

08.24.180

Sec. 08.24.180. Persons presently engaged in collection business. (a) A person who is actively engaged in a collection agency business on May 1, 1968 and who wishes to continue to engage in this business shall apply for a license within 60 days after May 1, 1968.

(b) A person who applies or receives a license under (a) of this section is subject to all of the provisions of this chapter, except that in his application for a license he is not required to comply with § 120(a) (3) and (4) of this chapter. (§ 1 ch 101 SLA 1968)

08.24.200

Sec. 08.24.200. Expiration and renewal. (a) All licenses required by this chapter shall expire on June 30, 1970, and June 30 of each second year thereafter and shall be renewed as of July 1 following upon payment of required biennial fees.

(b) If a licensee under this chapter is delinquent for a period of 15 days in applying for the renewal of a license, the department shall suspend the license and notify the licensee by certified mail or by personal service. The notice shall state that the license will be revoked if application for renewal is not made within 15 days from the date on which the notice was mailed or personally served. When a licensee has been delinquent in renewing his license or certificate, the department shall charge an additional fee of $50 for the renewal of the license. (§ 1 ch 101 SLA 1968)

08.01.025

Sec. 08.01.025. Public members. No public member of a board may:

(1) be engaged in the occupation which the board regulates;

(2) be associated by legal contract with a member of the occupation which the board regulates except as a consumer of the services provided by a practitioner of the occupation; or

(3) have a direct financial interest in the occupation which the board regulates. (§ 1 ch 258 SLA 1976)

COLLECTION AGENCY BOARD

The Collection Agency Board should be allowed to terminate on June 30, 1980. After that date, licensing by the Department of Commerce & Economic Development shall continue as provided in AS 08.24, including promulgation of regulations by the Department.

If the Board is to continue:

1. Delete the following in Sec. 08.24.110:

   (3) [Be of good moral character]
   The AG cannot even define this.

   (5) [or a crime involving moral turpitude]

2. Repeal Sec. 08.24.180 - grandfather clause

3. Amend Sec. 08.24.100 - Make it a biennial license with a biennial fee of $200.00 [$100] - keep it consistent.

4. Sec. 08.24.150 - Bond - Increase the amount of bond required for collection agencies from [$5000.] to $10,000. Only surety bonds or cash shall be submitted. They should include the collection agency name and In Trust for the State of Alaska - so the State can cash them. (Upgrade solidity of agencies.)

5. Sec. 08.24.021 - Board members may be appointed to serve no more than two consecutive terms. (Currently 3-year terms)

6. Repeal Sec. 08.24.120(a)(2) - requiring a photograph with the application - (discriminatory).

7. Add to Sec. 08.24.120(5) - Proof of Financial Responsibility

   a. Three credit references and a credit report from a credit bureau. (This is required on the applications, but it is not in statute.)

8. Sec. 08.24.011 - The Board should consist of three members only.

   1 - CPA
   1 - Collection Agency Operator
   1 - Public Member
   1 - Commissioner or his designee
   (The board currently consists of five members)

9. A procedure for filing against a bond should be put into regulations or statute. A step-by-step process. Evidently, according to OL, lawyers and the layman do not know how to go about this process. Statement call for regulations to be developed for step-by-step.

10. In Sec. 08.24.280(f) - delete [the board].

The reason for this is that the board is made up of two collection agency people and as the statute now stands, they can go to other collection agencies and look at their books and get customers names, etc. for their agency. The books should not be open to these board members.

11. Delete Sec. 08.24.370 - Non-Residency

It should remain [Sec. 08.24.110(1)] that in order to obtain a license, an individual must be a resident for one year. This will help control "fly-by-night" collectors.

(The board suggests deleting the residency statute and allow anyone to come up from another state and open an agency. This should not be so. There has to be at least one licensed operator in an agency and the non-resident may work in an agency when he or she comes to Alaska, but they should not be allowed to own one until they are here for at least a year.)

Optional

Sec. 08.24.370 - Amend: Non-residence fee of $200. [$100.] and biennial renewal of $300 [$200]

The Collection Agency Board plays a major role in controlling the "white collar" crime so prevalent in this profession. The Board has the ability to "point-out" those agencies which are "questionable" in character and has acted as a liaison between the state and consumer in controlling fraudulent crime.

For instance, Mr. James Carter was issued a new license for his collection agency by the Division of Occupational Licensing without proper investigation. Don Leach, a member of the Collection Agency Board, has been investigating Mr. Carter and found that Mr. Carter has judgments against him for close to $100,000. Such "rubber-stamping" of licenses by the Division of Occupational Licensing clearly points out the need for the Collection Agency Board. The Board can prevent licensing of those collection agency owners who continue to milk their corporations dry and use the monies for personal assets. If someone is going to collect money from me they had better have excellent credit themselves.

SB 576, "...the continuation of the existence of the Collection Agency Board..." contains many measures which help prevent the crime so prevalent in this profession; e.g., raising the bond required for a Collection Agency business from $5,000 to $10,000, etc. (See attached analysis of the bill.)

M E M O R A N D U M April 25, 1980

SUBJECT: Section-by-section analysis of SB 576 relating to the Collection Agency Board (Work Order Number 8523)

TO: Senator Brad Bradley
Chairman, Senate Commerce Committee

FROM: Tamara Brandt Cook TBC
Legislative Counsel

You have requested a section-by-section analysis of Senate Bill 576 entitled "An Act relating to the regulation of collection agencies and continuing the existence of the Collection Agency Board; and providing for an effective date."

Section 1 This section provides for sunset review of the Collection Agency Board on June 30, 1984.

Section 2 The composition of the board has been altered so that one member is a certified public accountant and only one member is engaged in the collection agency business. The existing law provides for two members who are persons engaged in the collection agency business. Otherwise, the board membership remains the same.

Section 3 This amends the section dealing with appointment and term of office of board members so that no person may serve more than two consecutive terms. Since the terms are for three years, a person who has served two terms must wait three years before he can be reappointed to the board, but this amendment does not place a limitation on the number of terms that a person may serve.

Section 4 This provides for the biennial renewal of licenses and raises the fee from $100 to $300. It also deletes the requirement that renewal take place on or before

July 1st of every other year. This change was made in order to conform with AS 08.01.100 requiring the Department of Commerce and Economic Development to set renewal dates with the approval of the respective occupational board. Since the department must provide administrative services to all occupational boards, it seems appropriate to allow the department to determine how these duties shall be organized.

Section 5 Once again, an amendment was necessary to raise license renewal fee from $100 to $300.

Section 6 Under this provision, three credit references and a credit report must be submitted along with an application for a license. Other provisions of that section continue to require that an applicant also submit a set of finger prints, an application fee, and the license fee.

Section 7 In order for a collection agency to be licensed it must provide a surety bond to the state. This amendment raises the amount of the bond from $5,000 to $10,000 and also adds the requirement that the bond contain the name of the collection agency which is seeking a license and that it be executed in trust for the state.

Section 8 This section allows a collection agency to deposit cash with the state rather than providing a bond. The amendment raises the amount required for a cash deposit from $5,000 to $10,000.

Section 9 While the Department of Commerce and Economic Development or its authorized agent continues to have access to the books of a collection agency, this section is amended so the Collection Agency Board does not have access to these records. Since one member of the board must be a person involved in the collection agency business, the amendment serves to protect the confidentiality of the records of a collection agency by denying the possibility of access to these records by a potential competitor.

Section 10 This amendment serves to raise the renewal license fee for a nonresident operator's license from $200 to $300 in order to conform to the increase imposed upon residents.

Section 11 The Collection Agency Board is added to the list of boards and agencies which must comply with the adjudicatory procedures set out in the Alaska Administrative Procedure Act.

Section 12 This section repeals those provisions which are inconsistent with this act.

AS 08.03.010(a)(3) removes the Collection Agency Board from the list of boards to be terminated June 30, 1980;

AS 08.24.110(a)(1) deletes the requirement that a person who wishes to apply for an operator's license must have been a resident of the state for at least one year prior to application;

AS 08.24.110(a)(3) deletes the requirement that a person applies for an operator's license be of good moral character;

AS 08.24.120(a)(2) deletes the requirement that a person applying for an operator's license submit a photograph of himself;

AS 08.24.160 deletes the section setting out the form for the bond which would be required of a collection agency seeking licensure in the state, which was done primarily because the form does not include the new requirement that the bond be executed in trust for the state and because eliminating the form requirement allows the Department of Commerce and Economic Development flexibility to develop forms which particularly suit its administrative routines;

AS 08.24.180 deletes an outdated grandfather clause allowing a person who had been engaged in a collection agency business on May 1, 1968 to automatically receive a license to continue in business;

AS 08.24.200(a) repeals a section requiring renewal of licenses upon July 1st every second year in order to allow the Department of Commerce and Economic Development to set the renewal date.

Section 13 This section provides that the act will take effect on June 30, 1980, the date upon which the Collection Agency Board is scheduled to terminate under existing law.

If you have any further questions, please contact me.

TBC:ljb

SENATE BILL 576

MR. PRESIDENT, I MOVE THE ADOPTION OF SENATE BILL 576 WHICH DEALS WITH THE CONTINUATION OF THE COLLECTION AGENCY BOARD.

(SEC. 08.03.010(c))
P.1, L.10/12

SECTION 1 IS AMENDED TO ADD A NEW PARAGRAPH WHICH CONTINUES THE EXISTENCE OF THE COLLECTION AGENCY BOARD UNTIL JUNE 30, 1984. THE COLLECTION AGENCY BOARD PLAYS A MAJOR ROLE IN CONTROLLING THE WHITE COLLAR CRIME SO PREVALENT IN THIS PROFESSION. THE BOARD HAS THE ABILITY TO "POINT OUT" THOSE AGENCIES WHICH ARE "QUESTIONABLE" IN CHARACTER AND HAS ACTED AS A LIAISON BETWEEN THE STATE AND CONSUMER IN CONTROLLING FRAUDULENT CRIME.

(SEC. 08.24.011)
P.1, L.14/21

SECTION 2 IS AMENDED TO INCLUDE A CERTIFIED PUBLIC ACCOUNTANT (CPA) ON THE BOARD. BECAUSE OF THE NATURE OF THE COLLECTION AGENCY PROFESSION IT IS FELT THAT A CPA'S KNOWLEDGE WILL PLAY A MAJOR ROLE IN THE CONTROL OF ACCOUNTS RECEIVABLE AND HELP CONTROL THE "UNDERHANDEDNESS" WHICH IS CURRENTLY IN THIS PROFESSION. THE NUMBER OF MEMBERS ON THE BOARD WHO ARE INVOLVED IN THE COLLECTION AGENCY BUSINESS HAS BEEN REDUCED FROM (TWO) TO ONE IN ORDER TO ADD THE NECESSARY CPA TO THE BOARD. HENCE THE COMPOSITION WILL BE THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT, A CPA, A PROFESSIONAL IN THE COLLECTION BUSINESS, AND TWO PUBLIC MEMBERS.

(SEC. 08.24.021)
P.1, L.29; P.2, L.1

SECTION 3 IS CHANGED TO FORBID A BOARD MEMBER FROM SERVING MORE THAN TWO CONSECUTIVE TERMS. BUT THIS DOES NOT LIMIT THE TOTAL NUMBER OF TERMS WHICH A PERSON MAY SERVE -- THIS PROVIDES GREATER TURNOVER OF THE MEMBERS ON THE BOARD. THIS WAS DONE TO ALLOW MORE TURNOVER ON THE BOARD AND TO CREATE MORE DIVERSITY.

(SEC. 08.24.100(F))
P.2, L.4/6

IN SECTION 4 THE WORD (ANNUAL) HAS BEEN DELETED PROVIDING FOR THE BIENNIAL RENEWAL OF LICENSES. THIS SECTION RAISES THE FEE FROM ($100) TO $300. IT ALSO DELETES THE REQUIREMENT THAT RENEWAL TAKE PLACE ON OR BEFORE JULY 1 OF EVERY OTHER YEAR. THIS CHANGE WAS MADE IN ORDER TO CONFORM WITH AS 08.01.100 REQUIRING THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT TO SET RENEWAL DATES WITH THE APPROVAL OF THE RESPECTIVE OCCUPATIONAL BOARD.

(SEC. 08.24.120(A))
P.2, L.10/12

SECTION 6 ADDS A PARAGRAPH WHICH REQUIRES THE APPLICANT FOR A LICENSE TO INCLUDE THREE CREDIT REFERENCES AND A CREDIT REPORT FROM A CREDIT BUREAU. THIS HELPS UPGRADE THE PROFESSION AND PROVIDES MORE CREDIBILITY OF THE PEOPLE WHO OPEN, WORK IN, OR OPERATE AN AGENCY. THIS WILL ALSO REDUCE THE "FLY-BY-NIGHTERS."

(SEC. 08.24.150(A))
P.2, L.13/21

SECTION 7 RAISES THE AMOUNG OF BOND REQUIRED BY THE APPLICANT AS PRINCIPAL FROM ($5000) TO $10,000

AND THE BOND SHALL CONTAIN THE NAME OF THE COLLECTION AGENCY FOR WHICH A LICENSE IS BEING APPLIED AND SHALL BE EXECUTED IN TRUST FOR THE STATE OF ALASKA. THE BOND SHALL BE EXECUTED IN TRUST FOR THE STATE OF ALASKA TO MAKE IT EASIER FOR THE STATE TO CASH THE BONDS. (PAGE 2, LINES 22-27) SECTION 8, AS 08.24.150(B) RAISES THE AMOUNT OF CASH REQUIRED BY AN APPLICANT FROM ($5000) TO $10,000 FOR THE SAME REASONS AS THE BOND.

(SEC. 08.24.280(F))
P.3, L.4/5

SECTION 9 DELETES THE WORD (BOARD). THE RECORDS SHALL AT ALL REASONABLE TIMES BE OPEN FOR INSPECTION BY THE DEPARTMENT, OR ITS AUTHORIZED AGENT. THE BOARD CURRENTLY CONTAINS TWO COLLECTION AGENCY MEMBERS AND AS THE STATUTE NOW STANDS, THEY COULD GO TO OTHER COLLECTION AGENCIES TO EXAMINE RECORDS, BOOKS AND ACQUIRE CUSTOMER'S NAMES, AMOUNTS COLLECTED, ETC., FOR THEIR OWN AGENCIES. THE BOOKS SHOULD NOT BE OPEN TO THESE BOARD MEMBERS.

(SEC. 08.24.370)
P. 3, L. 7/13

SECTION 10 IS AMENDED TO RAISE THE NONRESIDENT FEES. THIS CONFORMS WITH THE RESIDENT FEE RAISE.

(SEC. 44.62.330(A))
(P. 3, L.14/15

SECTION 11 IS AMENDED TO ADD THE COLLECTION AGENCY BOARD TO THE LIST OF BOARDS AND AGENCIES WHICH MUST COMPLY WITH THE ADJUDICATORY PROCEDURES SET OUT IN THE ALASKA ADMINISTRATIVE PROCEDURES ACT.

P.3, L.16/17 THE FOLLOWING IS REPEALED:

- SEC. 08.03.010(A)(3) - REMOVES THE COLLECTION AGENCY BOARD FROM THE LIST OF BOARDS TO BE TERMINATED JUNE 30, 1980.

- SEC. 08.24.110(A)(1) - REPEALS THE REQUIREMENT THAT TO QUALIFY FOR AN OPERATOR'S LICENSE, THE APPLICANT SHALL (HAVE BEEN A RESIDENT OF THIS STATE CONTINUOUSLY FOR AT LEAST ONE YEAR BEFORE THE TIME OF APPLICATION). WE ALLOW NONRESIDENTS TO OBTAIN A LICENSE BEFORE ONE-YEAR RESIDENCY.

- SEC. 08.24.110(A)(3) - REMOVES THIS AMBIGUOUS WORDAGE (BE OF GOOD MORAL CHARACTER) - THE ATTORNEY GENERAL'S OFFICE CANNOT DEFINE THIS TERM.

- SEC. 08.24.120(A)(2) - ELIMINATES THE REQUIREMENT FOR A PHOTOGRAPH TO BE ATTACHED TO THE APPLICATION. THIS HAS BEEN DEEMED DISCRIMINATORY.

- SEC. 08.24.160 - REPEALS THE $5000 BOND REQUIREMENT.

- SEC. 08.24.180 - DELETES AN OUTDATED GRANDFATHER CLAUSE ALLOWING A PERSON WHO HAD BEEN ENGAGED IN A COLLECTION AGENCY BUSINESS ON MAY 1, 1968 TO AUTOMATICALLY RECEIVE A LICENSE TO CONTINUE IN BUSINESS.

- SEC. 08.24.200(3) - REPEALS RENEWAL LICENSE SECTION WHICH HAS BEEN CHANGED BY THIS BILL. THE SECTION REPEALED REQUIRES RENEWAL OF LICENSES UPON JULY 1 EVERY SECOND YEAR IN ORDER TO ALLOW THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT TO SET THE RENEWAL DATE.

COLLECTION AGENCY

STATUTES

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

08.03.010

(1) Board of Chiropractic Examiners (AS 08.20.010);
(2) Board of Dental Examiners (AS 08.36.010);
(3) State Medical Board (AS 08.64.010);
(4) Board of Nursing (AS 08.68.010);
(5) Board of Dispensing Opticians (AS 08.71.010);
(6) Board of Examiners in Optometry (AS 08.72.010);
(7) Board of Pharmacy (AS 08.80.010);
(8) Board of Veterinary Examiners (AS 08.98.010);
(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);
(10) Board of Nursing Home Administrators (AS 08.70.010);
(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);
(2) Board of Barber Examiners (AS 08.12.010);
(3) Collection Agency Board (AS 08.24.011);
(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);
(5) Board of Electrical Examiners (AS 08.40.010);
(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);
(7) Guide Licensing and Control Board (AS 08.54.010);
(8) Board of Marine Pilots (AS 08.62.010);
(9) Real Estate Commission (AS 08.88.011);
(10) Board of Welding Examiners (AS 08.99.010);
(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

Sec. 08.24.011. Collection Agency Board. There is created a Collection Agency Board consisting of five members, four of whom shall be appointed by the governor. The board shall consist of two persons engaged in the collection agency business within the state and licensed under this chapter. The third member shall be designated by the commissioner of commerce and economic development from his staff. Two members shall be public members in accordance with AS 08.01.025. (§ 1 ch 101 SLA 1968; am § 42 ch 218 SLA 1976; am § 7 ch 258 SLA 1976)

08.24.011

Effect of amendments. — The first 1976 amendment substituted "commissioner of commerce and economic development" for "commissioner of commerce" in the third sentence.

The second 1976 amendment made the same change as the first 1976 amendment and, in addition, substituted "five members, four of whom" for "three members, two of whom" in the first sentence and added the fourth sentence.

COLLECTION AGENCY

STATUTES

08.24.021

Sec. 08.24.021. Appointment and term of office. The board members shall be appointed initially for terms of two and three years respectively. Thereafter, appointments to the board shall be made upon the expiration of the initial appointment and the term of office for each member so appointed shall be three years. The members shall serve at the pleasure of the governor. Vacancies caused by death, resignation or removal from office shall be filled by appointment by the governor. (§ 1 ch 101 SLA 1968)

08.24.100

Sec. 08.24.100. Licensed operator required, exceptions and fee. (a) Notwithstanding any other provision of this chapter, no licensee may engage in the collection agency business unless and until the collection agency, and each branch office of the agency is under the management and control of a licensed operator for each office. The department or the board may waive this requirement for a period not to exceed 90 days upon the death or disability of an operator, or for other good cause.

(b) The annual operator's license shall be renewable on or before July 1 of each second year beginning on July 1, 1968, and the biennial fee is $100. (§ 1 ch 101 SLA 1968)

08.24.110

Sec. 08.24.110. Qualification for operator's license. (a) To qualify for an operator's license, the applicant shall:

(1) have been a resident of this state continuously for at least one year before the time of application;

(2) be a high school graduate, or have the equivalent education of a high school graduate;

(3) be of good moral character;

(4) not have been convicted of violating this chapter, nor have any unsettled complaints under this chapter against him;

(5) not have been convicted of a felony or a crime of larceny or embezzlement or a crime involving moral turpitude;

(6) be 19 years of age or older at the time of application;

(7) not be a disbarred attorney or have filed bankruptcy;

(8) pay the biennial license fee which is fixed at $100.

(b) The commissioner may waive or modify the requirements specified in (a) (2), (4), (5) and (7) of this section for good cause shown. (§ 1 ch 101 SLA 1968)

08.24.120

Sec. 08.24.120. Application for operator's license. (a) An application for an operator's license shall be made on forms furnished by the department and shall contain the information required in § 110 of this chapter and, in addition, the following:

(1) a complete set of fingerprints;

(2) a 2" × 3" photograph showing a front view of head and shoulders;

(3) if an original application, an application fee of $40;

(4) the biennial license fee required by § 100 of this chapter.

(b) The department and the board are authorized to make a complete investigation of applicants including inquiry of police agencies as to the applicant's record of arrest or conviction of crime. (§ 1 ch 101 SLA 1968)

COLLECTION AGENCY
STATUTES

08.24.150

Sec. 08.24.150. Bond. (a) The bond provided for in § 140 of this chapter shall be in the sum of $5,000, executed by the applicant, as principal, and by a corporation which is licensed or authorized to transact business of fidelity and surety insurance within the state as surety. The department may at any time request verification of a bonding agent's authority by the main office of any company acting as surety.

(b) A licensee may, at any time, file with the department a new bond. A licensee may in lieu of a bond make a $5,000 cash deposit with the department, the deposit to be held by the department under the same terms and conditions as if bond in that amount were posted.

(c) A surety may file with the department notice of his withdrawal on the bond of a licensee. Upon filing a new bond, or upon the revocation of the collection agency license, or upon expiration of 60 days after the filing of notice of withdrawal as surety by the surety, the liability of the former surety for all future acts of the licensee shall terminate.

(d) The department shall immediately cancel the bond given by a surety company upon being advised its license to transact business of fidelity and surety insurance has been revoked by the state.

08.24.280

Sec. 08.24.280. Records and funds. (a) A collection agency shall keep a record of all sums collected by it, and of all disbursements made by it, and shall maintain and keep all the records and all customers' funds in a trust account with a recognized financial institution in this state. Collection agencies shall maintain accounting records of collections for and payments to customers for a period of six years from the date of the last entry. Collection agencies shall keep other records for a period of two years from the date of the last entry.

(b) Every collection agency shall maintain a permanent numerical receipt record which shall indicate as to each payment made by a debtor the following information:

(1) the name of the debtor making payment;

(2) the amount paid;

(3) the name of the creditor to whom funds are being applied;

(4) the date and form of payment;

(5) the balance remaining due on account.

(c) An agency using a computer system giving read-out debtor payment information will not have to maintain a numerical receipt record; however, if requested, a receipt will be furnished to debtor.

(d) The receipt shall be made immediately upon the receipt of funds by the collection agency in payment of a debt; the original copy to be made immediately available to the debtor who has made payment, upon request; and a copy to be made immediately available to the creditor for whom payment was received, upon request; and a copy to be maintained in the permanent receipt record.

(e) A collection agency shall maintain daily cash ledger sheets showing all funds received from debtors and all funds received as fees for services, such as credit reports and the like.

08.24.370

Sec. 08.24.370. Nonresidents. A nonresident may apply for and receive a collection agency license or an operator license or both on the same basis as a resident. The application fee for a nonresident operator license is $100, and the biennial license fee is $200. The application fee for a nonresident agency license is $200, and the biennial license fee is $400 for the principal place of business and $400 for each branch office. (§ 1 ch 101 SLA 1968)

(5) AMENDMENTS PROPOSED:

The Collection Agency Board should be allowed to terminate as of June 30, 1980.

(6) COMMENTS:

The Division of Occupational Licensing opposes SB 576 and believes that the Collection Agency Board should be allowed to terminate as of June 30, 1980. However, the licensing function and the enforcement of statutes and regulations should be continued and remain within the Department of Commerce & Economic Development, DOL. The Division of Occupational Licensing is capable of performing the necessary functions to protect the public in regards to the licensing and enforcement of this profession.

The Honorable Terry Gardiner
Speaker of the House
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. Speaker:

The House State Affairs Committee has had under consideration for "Sunset" review the Collection Agency Board under AS 24.20.271 and AS 44.66.050.

A public hearing was held on the review of the board, at which testimony of the Director of the Division of Occupational Licensing was received. Additional testimony was received from the public in person and by teleconference. The Committee particularly examined the performance audit of the activities of the board prepared by the Legislative Audit Division.

The State Affairs Committee finds itself in agreement with the Legislative Audit Division and recommends that the Collection Agency Board not be reinstated. The committee further recommends that legislation be introduced to transfer the duties of the Collection Agency Board to the Division of Occupational Licensing.

Sincerely,

Representative Mike Miller
Chairman
House State Affairs

Senate Com. Comitte Report on Sunst Review of Division of Occupational Licensing, Department of Commerce and Economic Development.

Statement of Problem

In accordance with the provision of Alaska Statutes 44.66.010 and 44.66.050 the Senate Commerce Comitte as the designated committe of reference has conducted the required Sunst Review of the Division of Occupational Licensing. This report fulfilles the legislative requirments for the committe of refrances' responsibility to make formal notification to the president of the senate of their findings relative to the Division of Occupational Licensing.

The Senate Commerce Committee ~~is~~ is designated as the committee of refurance by the President of the Senate. The Senate Commerce Comittee ha held one public hearing diring which testimoney was recieved from all those who requested a chance to be heard. Among those who were heard were the Director ~~of the~~ representing the Division of Occupational Licensing and the chief investigator from Occupational licensing. The remainder of those who testified were the The Deputy Commissioner of Commerce and Economic Development ~~also testified~~ and a repusentative ~~of the~~ from the Alaska Health Coalition.

Discussion

~~The Homogeneity of testimony~~

The thrust of testimony provided fell into two and catagories: (1) Administration position, (2) the Health Care Industry.

(1) The administrative position, is to follow the recomendations embodied in the Performance Review (attached as enclosure <1>). The administrative position as stated by the Department of Commerce and Economic Development included the following recomendations.

(a) That the Division of ~~[illegible]~~.

Occupational Liscensing should display better management through an 'in-house' organization program.

(b) that the Division of Occupational licensing whose primary goal, is to ensure that Alaskans are adequately protected from

unscrupulous or incompetent practitioners, streamline their investigative practices.

(2) The consciences position presented by the Health Care Coalition was that ~~the~~ money is the major problem plaguing ~~our~~ the various boards, especially money for investigative services. Lack of division funds for investigative services has stymied every board being reviewed. The Coalition also believes that that more complaints would be filed if people were better informed as to the procedures for doing so. A major concern of the coalition was the lack of communication between the

division of Occupational Licensing
~~department~~ and the boards. Reference was made that introduction of legislation directly affecting the boards ~~be introduced~~ be discussed ~~prior to~~ with the boards prior to introduction. The following Recommendations were submitted by the Health Coalition:

(a) At least 3 investigator positions be funded for the health board and that each be assigned to certain boards so they can be educated in that particular discipline to facilitate their investigation.

(b) the ~~dlp~~ division of occupational licensing be required to submit to boards all proposed legislation having a direct or indirect affect on the boards.

(c) the division of Occupational licensing play a stronger role in settling disputes between boards and other agencies and departments.

~~(d)~~

insert (a)

That the division of Occupational licensing, investigations unit be transfered to the Department of Public safety.

(d) Require the Division of Occupational licensing to actively solicit names ~~from~~ for possible appointments from the public and private sectors and that the division periodically review and update it with current information.

(e) All the statutes in chapter 08 be revised to limit the number of terms that any board member could serve to two.

(f) The Division should review the licensing fee structure and seek appropriate revisions.

(6)

Conclusion

The Senate Commerce Committee after hearing all testimony provided in the hearing has come to the following conclusions.

(1) The Division of Occupational Licensing should be continued subject to resolution of the recomendations made by the Legislative Budget and Audit Committee (~~see~~ attached enclosure <1>).

(2) Statutory amendments are needed to assure that appropriate action is taken on consumer complaints against liscened persons.

(7)

(3) It does not appear at this time that there is an alternative method of achieving the stated purposes and objectives of the Division of Occupational licensing.

(4) It does not appear on the basis of testimony recieved that the Division of Occupational Liscensing could be consolidated with any other Board or commission within the state government.

Recommendations

The Senate Commerce Comittee recomends the following actions be taken by the eleventh legislature.

(1) ~~That~~ The pufamance Review of the Division of Occupatronal liscensing ~~to be~~ conducted by the legislative audit be approved and adopted as the required report to the president of the senate together with this report.

(2) That legislation be drafted to extend the life of the Division of Occupatronal Liscensing until June 30, 1980 ~~pending the recom.~~

(3) In the intreum the Senate Commerce Committee recomends that certain legislative actions be taken to correct the deficencies in the Division of Occupational Licensing as noted in the Legislative Budget and Audit Preformance Review. These would include, but not be limited to SB-73.

2/27/19 C.C. Meeting

Jana Varriati
Coordinator of Alaska Health Coalition.

Common Problems
1) Funding
2) Communications
3) Lack of funding

* for meeting and investigation.
Why — Boards were never asked to put a budget in. Under ms Hostasko this has been a little elevated.
→ Lack of division funds for investigators.
Recomendation → 3 investigators for health boards alone
→ Use investigators of the department of public safty. If this is done the boards would loose track of the records.

→
Communication Problems
Lack there of
→ Department of O.C should admit all legislation to the various Boards.
→ O.C should send out budget requests for discussion from all boards.
→ O.C should help the Boards with their problems dealing with other agencies.
→ Openess result in more efficient operation.

→ Communicate Problem between Dept. and Boards.
→ Procedures followed by board members.
→ Ethics about activities of board members.

→ The Boards should be required to place notice of all public meeting. IE -- In newspaper in the same place all times. like opposit the comitte.
→ Boards should solicit public input.
→ ~~Ok~~
→ A person complaing should get a follow-up. Also the person being complained against should be informed w/r to the complaint.

[Boards have no knowledge of what is going on during an investigation. Often is a secret problem.

A convention once a year for all boards and the O.L. director, also the commissioner of commerce.
A phone book by d.i of all Boards distributed to all Board members.

Some other states have a news letter for Communicate between Boards.

Board Vacancies →

① Dept be requid to solicit names for board member.
② Review the list and updat it
③ No board membr can have no more than 2 terms.
~~④~~

No Privision fo Removing a Board Memb.
→ If you dont go to 40% of the meetings you get removed.
→ In Califonia the Gov. can remove a Board member.

get this statute

Re-licensee should have agan to take an exam to prove they are still qualified.

About Sun-Set Regulation →

Get the problems on the table and review them. Most boards are trying to do ther job but are running into beaurocratic garbage.

Mr Long - Chief Investigator for
O.L. Division

① Drug abuse by professionals.

Can a board fine! → (*)

Bert Wagnon

O.L. $1,029 million budget.

→ they should better manage. But these are in-house problems.

PURPOSE AND SCOPE OF THE REVIEW

In accordance with the provisions of Title 24 of the Alaska Statutes, a review was conducted to determine the efficiency and effectiveness of certain Divisional operations that have a direct effect on the performance of the 11 occupational licensing boards currently under sunset review.

The performance of the Division of Occupational Licensing's responsibilities reflect on the efficiency and effectiveness of the licensing boards. Therefore, this report should be reviewed in conjunction with the individual reports, issued under separate covers, of the following boards subject to termination under sunset legislation, AS 08.03.010(a):

(1) Board of Chiropractic Examiners (AS 08.20.010);

(2) Board of Dental Examiners (AS 08.36.010);

(3) State Medical Board (AS 08.64.010);

(4) Board of Nursing (AS 08.68.010);

(5) Board of Dispensing Opticians (AS 08.71.010);

(6) Board of Examiners in Optometry (AS 08.72.010);

(7) Board of Pharmacy (AS 08.80.010);

(8) Board of Veterinary Examiners (AS 08.98.010);

(9) Board of Psychologists and Psychological Associate Examiners (AS 08.86.010);

(10) Board of Nursing Home Administrators (AS 08.70.010); and

(11) Physical Therapy Board (AS 08.84.010).

Our review of the 11 licensing boards was hampered, in part, by the Division of Occupational Licensing. The Division has not adequately collected, recorded and maintained pertinent files and statistics relating to the boards to effectively and efficiently carry out their administrative responsibilities, nor have they established managerial controls over the investigation unit.

In 1977, the Legislature approved a fiscal note to the sunset legislation which provided for a Management Analyst I position. The intended purpose of this position was to provide staff support to each of the sunset effected agencies in order to develop, design and implement program data systems which accurately reflect the level of activity and public impact of each agency's programs. Although the

position was filled by a temporary employee for 7 1/2 months, the employee spent the majority of time assisting the past Director with budget preparation, proposed desk reclassifications and various requests. Therefore, little effort was given to preparation for sunset review.

ORGANIZATION AND FUNCTION

The Department of Commerce and Economic Development is charged with the responsibility of providing administrative, budgetary, and investigative services for 21 professional licensing boards and the administration of the Construction Contractor's Registration Act and the Mortuary Science Licensing Act.

These responsibilities are performed by the Division of Occupational Licensing whose primary goal, as stated in the FY'78 budget document, is to ensure that Alaskans are adequately protected from unscrupulous or incompetent practitioners where neither the existence of competition nor recourse to general law will provide sufficient protection or redress.

Services provided by the Division include:

1. Investigations;
2. Collection of fees;
3. Issuance and receipt of applications;
4. Publication of notices;
5. Issuance of licenses, certificates and permits as authorized by the boards;
6. Employment of support staff;
7. Maintenance of files relating to individual licensees; and
8. Performance of other services requested by the boards.

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

The Division of Occupational Licensing's investigation unit should be transferred to the Department of Public Safety.

During our review of the licensing boards, we found that the investigative performance was not sufficient to provide adequate public protection from abuse by regulated occupations.

The Department of Commerce and Economic Development has not established managerial controls over the investigation unit. Our review of the boards and the investigative files found:

1. A board requested the investigators not to pursue complaints against firms held by board members;

2. Potential board member improprieties exist which have received no investigative action;

3. Investigative files exist on persons for no justifiable reason, and investigations have been pursued without evidence of potential violation;

4. Investigations are conducted outside of the Division's statutory responsibility. Fifty-one percent of the investigative files are on building contractors, although it is the Department of Labor who is statutorily charged with investigations of building contractor violations.

5. The status of many investigations could not be determined. For many of the closed files, there was nothing in the files that indicated that the cases had been closed.

Satisfactory criteria for categorizing investigations has been recently established. However, past investigations have not been performed on the basis of the greatest threat to the public welfare.

1. Of the investigation cases for the State Medical Board during FY '78, 21 of the 46 open cases should be classified as posing a life threatening or a severe danger to the public. Of the 21 cases, 2 are closed, 4 were in litigation and 1 had some investigative effort. However, there were 14 cases for which no investigative action had occurred, although cases of a technical nature with little potential harm were investigated.

2. The various health boards requested 27 investigations. Of these, 15 had been investigated. For 12 cases there was no indication of any investigative effort. In addition, there was no evidence the boards had been informed as to the outcome of these investigations.

There have been complaints made by several boards that they are getting no response from the investigative unit on requests they have made for investigations. For example, one board asked for an investigation in 1975. Although the case was investigated, the board has not yet heard from the investigative unit regarding this complaint.

4 years ago!

The quality of investigations is largely the result of having qualified personnel. We were informed by the investigative unit that during FY'78 they did not have a competent investigative staff, nor did they have sufficient clerical support.

Based on our review we concur that additional clerical staff is needed. However, we were unable to determine if there are a sufficient number of investigators because the number of cases worked and the number of investigative hours per case was not available. Also the Division did not hire all investigators authorized; 20 of 43 investigative man months were vacant during FY'78.

didn't hire Q of investigators law says.

Transferring the investigation unit to the Department of Public Safety would provide continuing managerial control, proper training and supervision, and insulate the investigators from possible board influence. With joint cooperation and proper communication between Public Safety and Occupational Licensing, investigations could be efficiently and effectively conducted.

Recommendation No. 2 (Coditions agrees)

Statutory amendments are needed to assure that appropriate action is taken on consumer complaints against licensed persons.

During our review of the investigations unit within the Division of Occupational Licensing (OL), we noted that consumer complaints against licensed persons are not being adequately handled. Consumer complaints involving regulated occupations are received by two agencies: OL and the Consumer Protection agency (CP), under the Attorney General's office. We noted the following problems with the handling of consumer complaints by the two agencies:

1) Neither OL nor CP has the statutory authority to

handle the consumer complaints involving regulated occupations.

2) Because a gray area exists as to which agency should handle the consumer complaints, both agencies end up investigating some complaints.

3) Other complaints are referred from one agency to the other. We found several cases where CP referred a case to OL, and OL referred the case back to CP. As a result, the complaints either were never investigated or the investigation took months to complete.

4) Of the complaints that finally end up in OL, many are never investigated. According to OL, this is because consumer complaints are given a low priority; OL does not have time to deal with consumer complaints. Two boards have resolved that consumer complaints be turned over to local grievance committees for review.

5) The consumer is not notified of the outcome of the investigation of a complaint when the investigations are actually conducted by OL.

The consumer needs a government channel to file and pursue a complaint if the public is to have recourse against licensed persons. Even when a complaint is lodged with a board, the complainant has little or no leverage he can use against a board that is reluctant to move. A board is also placed in a difficult position when a consumer has been charged an unreasonable amount for professional services. While the boards have the power to suspend or revoke a license, they have no expressed authority to provide redress to a wronged or injured party.

In order to combat the problem of inefficient and ineffective handling of consumer complaints, we recommend the following statutory changes:

1) The current statute, AS 45.50.471, which gives Consumer Protection authority to handle consumer complaints excludes from its jurisdiction persons regulated by other State agencies or boards. This statute should be expanded to allow the CP office to handle complaints against licensed persons.

   This will allow CP to pursue redress against licensees for wronged or injured persons. In addition, licensing boards should seek CP's assistance in cases where the board believes economic redress is in order and is in the best interest of persons injured or wronged.

2) Presently business practices of an unethical or unscrupulous nature are not considered licensing violations. Boards should be allowed to define professional business practices which are not in the best interest of the

public as licensing violations. The following types of practices should be considered licensing violations by all boards:

A) A conviction of a criminal or civil act which demonstrates a threat to the public's welfare or safety.

B) Giving or receiving a rebate, kickback, or other form of compensation for services not actually rendered.

C) Advertising which is deceptive or misrepresents the practice of the licensed person and which could result in harm to the public welfare or safety.

D) Fraudulent business practices, such as willful overcharging for services, including filing false statements for collection of fees for services.

In addition to the statutory changes, the two agencies - OL and CP - should coordinate the handling of consumer complaints involving licensed persons. The coordination efforts should be geared towards two goals: 1) providing the public with efficient and effective service, and 2) using State resources in the most efficient manner. Coordinating the flow of paperwork between the two agencies would be one step towards achieving these goals.

Recommendation No. 3

The Office of the Governor should keep the appointments of members of the occupational licensing boards current.

During our review of the 11 licensing boards, we noted several unjustifiable delays in the appointment or reappointment of board members. Some examples are:

1. Twenty-eight (28) months have lapsed without appointment to a public member position created in 1976 on the Board of Examiners in Optometry;

2. Twenty-five (25) months had lapsed before appointment to a position on the Board of Nursing Home Administrators since the inception of the Board;

3. Two members of the Board of Dental Examiners served a total of 66 months after the expiration of their terms until they ultimately were reappointed as Board members.

As a result of these and other vacancies, the boards are not in compliance with the statutes that created them. In addition, the boards may be missing valuable input from the profession they represent or the public by not having a full board. For those members whose terms are not renewed, confusion is created, since the members are not clear as to whether they should continue attending meetings or not.

We recommend that the Office of the Governor review all regulatory boards and appoint new members to vacant board seats or reappoint current members when their terms expire in a timely manner.

We further recommend that the Office of the Governor consider establishing a talent pool for all board appointments. The concept of a talent pool is to have a list of persons available and desiring to serve as a board member. Many sources exist in the State to establish such a pool. Professional associations could be requested to provide a list of members who would like to serve on their profession's board or as a public member on any board. Retired citizens offer an excellent pool of potential talent for public member appointments and should be contacted for possible inclusion in the talent pool.

An established talent pool, updated at reasonable intervals, would allow for the immediate appointment of board members when terms expire or a position is vacated.

Recommendation No. 4

Legislation should be enacted limiting the length of service for all board members to two consecutive terms.

All boards' statutes define the number of years in a term of office, ranging from three to five years. However, only the Board of Nursing Statutes limit the number of terms a member may serve.

In our review of the Board of Pharmacy, we found that by the time current terms expire, three members will have served a combined total of 50 years and a previous Board member served for 25 consecutive years on the Board. This dedication to service is commendable. However, we feel that a regulatory board should have reasonable turnover.

Limiting appointments to two consecutive terms would, over the years, permit a broader spectrum of professional background combined with increased opportunities for new members and ideas. This should make the boards more responsive to public needs and less subject to criticism.

Recommendation No. 5

The Department of Commerce and Economic Development should improve the operation, security and internal control of the 3M-Linolex minicomputer system.

The Division of Occupational Licensing (OL) uses a minicomputer system to maintain the basic licensee data necessary for license issuance and ready reference of all regulated professions.

We reviewed the system to determine the use made of the minicomputer and the internal control and security established for the hardware and licensee computer files.

To improve the overall operation of the system and to protect the valuable data files, we recommend that OL should:

1. Designate a data entry person, not responsible for application review or other board related duties, to enter and update information to licensee data files. This will provide the needed separation of duties.

2. Store master file data diskettes in a locked cabinet or the available fireproof safe overnight and whenever authorized operating personnel are not present. Presently, there are no security precautions taken to protect against unintentional or intentional loss or modification of the data base.

Occupational Licensing and the Coalition agree.

3. Establish a policy for regular data file backup. With current backup information, OL would be able to quickly and positively recover data in the event master files are lost or become unusable.

4. Periodically reconcile computer data files to the original licensee folder to strengthen internal control and allow for earlier error detection.

5. Pre-number the blank licenses, strictly control access to the blank license stock and maintain a control log of all licenses issued, voided, destroyed, etc.

6. Maintain a systems utilization log to determine actual computer use and workload composition. This information would provide a good supervisory tool.

7. Prepare an Operating Procedures Manual. Step-by-step procedures would quickly and efficiently educate users as to how the system operates.

8. Install a key-lock type system on the equipment to protect against unauthorized use.

Implementation of these recommendations will improve the security and operating effectiveness of the minicomputer system.

Recommendation No. 6

The Department of Commerce and Economic Development should review the license fee structure of all boards and seek appropriate revisions.

During our review of the Division of Occupational Licensing (OL), we prepared a comparison of the costs of operations versus the revenue generated by each of the 11 boards under sunset review (see Appendix A). We found that the total costs of the 11 boards ($270,900) exceeds the revenues generated ($132,700) by $138,200. The deficits range from $3,500 for the State Medical Board to $42,100 for the Board of Nursing.

The main source of revenue for the boards is the license renewal fee collected, by the majority of the boards, on a biennial basis. Presently, license fees are set by statute. A large majority of these fees have not been revised since 1968 and 1969.

Although we do not believe that all licensing boards are capable of being self-supporting, it can be reasonably expected that the licensed professional should adequately contribute to the cost of operating his or her respective licensing board. This includes those professionals currently holding an inactive Alaska license.

Therefore, we recommend that the Department review the existing license fees and where deemed necessary, seek legislation increasing the fees. In addition, legislation should be enacted requiring an inactive license renewal fee for all boards. Presently, only State Medical Board Statutes allow for the collection of inactive license renewal fees.

An alternative to continuous legislative revision of the current single license fee structure would be to amend the license fee statutes to designate a minimum to maximum range within which the Department of Commerce and Economic Development could administratively establish license fees. However, this would necessitate a more accurate accounting by individual boards of all related Departmental expenditures in order to properly justify any fee increase.

Recommendation No. 7

The Department of Commerce and Economic Development should include the goals, objectives, and quantifiable measures of each board in the Division of Occupational Licensing's budget documents and submit performance reports for each board as required by AS 37.07.

The Executive Budget Act, AS 37.07, requires each State agency, including boards, to prepare and submit their goals and objectives to the Office of the Governor's Division of Budget and Management and the Legislative Finance Division.

Since boards are budgeted under OL, there is joint responsibility for the proper formulation and inclusion of goals, objectives, and measures in the budget documents.

Presently, OL establishes its own budget goals and objectives, but the budget documents do not include any goals or measures for individual boards. Without each board's goals and objectives being identified or measured, neither the Governor's office nor the Legislature can properly evaluate a board's performance.

The Executive Budget Act also requires each State agency to submit a performance report to the Division of Budget and Management no later than September 1, for the preceding fiscal year. The Division of Budget and Management has not requested nor has the Department prepared the required reports.

In the 1977 Session, the Legislature, in conjunction with sunset legislation, amended the performance reporting statute (AS 37.07.090) to require agencies to specifically address eight criteria. The reports, based on those criteria, would provide a useful tool for evaluating agencies that are presently or in the future may be subject to sunset review.

Recommendation No. 8

The Division of Occupational Licensing should collect, record and maintain, for five year periods, files and statistics of license and testing applicants, and related workload of the licensing examiners.

The Division needs relevant facts and statistics for evaluating the performance of their personnel and board activity. Many past records have not been collected and maintained. Some examples are:

1. Number of professionals licensed, by speciality if applicable;

2. Records of applicants denied a license or the chance to take the examination due to the lack of qualifications;

3. Records of those applicants failing the examination;

4. Number and type of complaints and criticisms about the boards and staff;

5. Number of persons requesting applications; and

6. Correspondence workload of licensing examiners.

Uniform procedures should be developed as to how records and statistics are to be gathered and maintained for all licensing boards. It is to the advantage of the Division to keep these records in order to support their budget request, evaluate their personnel and keep the boards informed as to their progress. Also, feedback from the boards and the public should be encouraged so as to determine whether staff performance is adequate.

Recommendation No. 9

The Department of Commerce and Economic Development, in conjunction with the Office of the Governor, should prepare a board member orientation booklet, including a code of conduct.

During our review of the 11 licensing boards, we noted several instances where it is questionable whether a board or a board member's actions were in the public's best interest.

The acceptance of a gubernatorial appointment as a board member should invoke a commitment to honorable behavior, even at the sacrifice of personal advantage. Although a code of conduct cannot guarantee ethical behavior, it should set forth minimum levels of acceptable conduct that are mandatory and enforceable.

A code of conduct for all board members should include the following:

1. A member should not enter into a conflict of interest relationship, a position contrary to the basic philosophy, principles and goals of the board, which might impair the integrity and objectivity necessary to properly fulfill his/her responsibilities.

2. If a member does not have an impartial attitude concerning an issue before the board that member should abstain from participating in the board action.

3. A member should not use his/her public trust to further personal or professional interests to the detriment of the health and welfare of the public.

4. A required percentage of attendance at all board related activities.

In addition, all new board appointments should be acquainted with:

1. The general duties and responsibilities of a board member and the limits of his/her authority;

2. The philosophy of a regulatory licensing board;

3. The role of a public member on a licensing board; and

4. Services provided by or available through the Division of Occupational Licensing.

Both the general acquaintance information and a code of conduct could be included in one informational booklet that would apply to all boards under the Department of Commerce ar Economic Development.

Recommendation No. 10

The 11 health-related boards, in conjunction with the Division of Occupational Licensing, should review their applications for licensure and delete any questions which could lead to discrimination against applicants.

One of the public need criteria for the continued existence of a board is the extent to which State personnel practices, including affirmative action requirements, have been complied with by the board in its area of activity.

this info. is not necessary

In reviewing the applications for licensure of the various boards, we noted that the applications contain questions which could lead to discrimination by board members against applicants. The applications request information on sex, age, height, weight, color of eyes and hair, and most of the applications require pictures. We did not find any evidence of discrimination against an applicant based on the answers to these questions. However, the potentiality for discrimination exists.

We recommend that the boards and/or Division of Occupational Licensing consult with the State Equal Employment Opportunity Office or the Human Rights Commission on the makeup of the applications for licensure. These two agencies could help the boards make a determination as to whether or not the questions asked are of a discriminatory nature. Then, any discriminatory-type questions should be analyzed to determine if a real need for the information exists. If not, the questions should be deleted.

Two alternatives to the applications currently used are as follows:

a) Include a disclaimer on the application stating that certain questions may lead to discrimination and the applicant has the option of not answering the questions. These questions should then be identified.

b) Any discriminatory-type questions, if necessary for investigation purposes, for example, may be included on a detachable page of the application. The page could then be detached before the application is seen by board members.

Already been implemented

Recommendation No. 11

The Department of Commerce and Economic Development should improve formal board minutes.

Board minutes are the official public record of all proceedings of a board meeting and the only means a board has to formally state its actions. Therefore, it is essential that all minutes be detailed, accurate, and complete.

Several boards tape record the meeting proceedings to be transcribed at a later date. This is a good method of accurately recording the boards' activities and should be encouraged. However, it was observed by auditors in attendance at a board meeting, that the tape recorder was arbitrarily turned off and on during board discussion. This practice should not be allowed.

In addition, much of the detail contained on the tape is omitted during the transcribing process.

To improve the quality of all board minutes, we recommend that the Department establish procedures that include the following requirements:

1. All board proceedings, except for executive sessions, should be tape recorded to allow for a more accurate and detailed transcription;

2. Tapes should be retained for a reasonable period of time following transcription;

3. Minutes should include board member attendance, absence and public attendance;

4. Minutes should reflect more detail of discussions during the meeting and identification of the person speaking;

5. Minutes should include an accurate quote of all motions and resolutions whether carried or not and an accurate breakdown of the membership's voting;

6. Attachments to board minutes should include any documents adopted, lists of applicants approved and denied for licensure or examination; and

7. Minutes should be properly approved, signed and ratified in a timely manner.

Recommendation No. 12

The Department of Commerce and Economic Development and all licensing boards should ensure that public notices of examinations are sufficiently and timely advertised.

The Department is required by statute to publish notices of examinations and it is each board's responsibility to notify the Department of upcoming examinations well enough in advance to permit proper advertisement.

During our review of examination advertisements, we found that many notices did not allow adequate time for individuals interested in taking the examination to submit applications within the advertised deadline. For example, on May 25, 1978, the Department advertised an upcoming Registered Nurses' examination. The notice required all completed applications to be submitted to the Department by May 26, 1978.

Advertisements should be published on dates that will allow adequate time for all interested people to submit applications before the stated deadline.

Expenditures[3]	43,300	20,000	17,500	98,600	10,000	11,700	11,900	14,000	10,000	22,000	11,900	270,9
Excess of Expenditures over Reverues	$(3,500)	$(17,900)	$(5,100)	$(42,100)	$(7,300)	$(9,400)	$(10,300)	$(12,300)	$(8,100)	$(11,800)	$(10,400)	$(138,2
Year of Last Renewal Fee Increase	1969	1970	1968	1969	1968	1969	(Note 4)	1969	(Note 4)	1968	1968	

Note 1

This revenue/expenditure comparison was prepared from available records and discussions with Occupational Licensing personnel. The records were not audited by us and accordingly we do not express an opinion on the Board Revenues Compared With Expenditures.

Note 2

The majority of the revenues collected are composed of license renewal fees. These fees are collected by most boards once every two years and cause revenues in one year to be much greater than the revenues collected in the next year. Therefore, we calculated and reported an average of the revenues collected in fiscal year 1977 and 1978 in order to obtain an accurate representation of collected revenues.

Note 3

Expenditures include those made by board members, such as travel and per diem and an allocated percentage (estimated) of total administrative expenses of the Division of Occupational Licensing. They do not include expenditures for efforts of other departments, such as the Department of Law, assisting the boards and the Division.

Note 4

The Board of Dispensing Opticians and the Board of Nursing Home Administrators were created in 1973 and 1975 respectively and have not had a fee increase.

JAY S. HAMMOND
GOVERNOR

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

RECEIVED
JAN 11 AM
LEGISLATIVE
AUDIT

January 10, 1979

Mr. Gerald L. Wilkerson, CPA
Legislative Auditor
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

We appreciate the efforts put forth in your findings and recommendations contained in your Preliminary Report entitled:

> A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development, October 30, 1978

It should be pointed out that certain recommendations in this report and others pertaining to specific Boards and Commissions are beyond the scope of authority of the Division of Occupational Licensing to resolve.

This will acknowledge Commissioner Hubbard's December 15, 1978 response to that report and provide additional comments as considered necessary.

Recommendation No, 1

The Division of Occupational Licensing's investigation unit should be transferred to the Department of Public Safety.

Response

Although your recommendation has merit, we concur with Commissioner Hubbard's position in which he disagreed with this recommendation. The examples of apparent impropriety and inadequate or lack of investigations have caused and do cause us serious concern. However, the underlying cause seems to be largely a shortage of or lack of adequately trained investigators and clerical support staff.

We have discussed this recommendation with Acting Commissioner Nix of the Department of Public Safety and he has expressed agreement that the nature and extent of licensing, professional ethics and related standards investigations would differ substantially from those performed by the Criminal Investigations Bureau and others within his department.

Despite stringent budgetary constraints we are concentrating on improved investigative reports and records within the Division of Occupational Licensing. You may be assured that current and any future investigations will be made on an impartial basis and that appropriate actions will be taken.

Recommendation No. 2

Statutory amendments are needed to assure that appropriate action is taken on consumer complaints against licensed persons.

Response

We are in agreement, and as you suggested, we are pursuing an amendment to AS 45.50.471 and its application.

Recommendation No. 3

The Office of the Governor should keep the appointments of members of the Occupational Licensing Boards current.

Response

We are presently reviewing the occupational licensing boards in an effort to make appropriate appointments and to keep them filled with qualified persons. Additionally, as you sugested, we are establishing a talent pool from which appointments can be made to the Boards as necessary. Please be assured that this office will make timely appointments in the future.

Recommendation No. 4

Legislation should be enacted limiting the length of service for all board members to two consecutive terms.

Response

We agree in concept. Recommendations will be made during Sunset review to address this situation.

We believe the remaining recommendations are appropriately addressed in Commissioner Hubbard's response with a view toward resolving any deficiencies noted. Remedial actions have already been taken pertaining to significant issues raised. For example, as shown in Commissioner Hubbard's response to your Recommendation No. 6, the Division of Occupational Licensing has heretofore introduced and re-introduced legislation authorizing the department to set fees for all boards.

Your findings and recommendations and our own studies indicate much has been accomplished by the Boards and Commissions through the administration of the Division of Occupational Licensing but that much remains to be accomplished to assure compliance and maximized public service and protection. Please be assured we are continuing to monitor and refine data to upgrade those services and protective programs.

Sincerely,

Michael Harper
Administrative Assistant
to the Governor

JAY S. HAMMOND, Governor

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

DIVISION OF OCCUPATIONAL LICENSING

POUCH D
JUNEAU, ALASKA 99811

December 15, 1978

RECEIVED
JAN 11 A.M.
LEGISLATIVE AUDIT

Gerald L. Wilkerson, CPA
Legislative Auditor
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

The following comments are in response to the Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development submitted by the Division of Legislative Audit.

Recommendation No. 1. We disagree. Transfer of the division's investigation unit has not been demonstrated to be of potential benefit to the State or to the public. Whenever the functions of an agency are divided between two or more governmental bodies, responsibilities are fragmented and public confusion exists.

Major improvements have been made in this unit within the past few months. A complete review of investigative files has resulted in eliminating many of the concerns expressed in this audit. Transfer of appropriate files to the Department of Labor was accomplished in September 1978. Frequent turnover of clerical support has resulted in inadequate organization of investigative files in the past. We believe that other specific examples cited are isolated instances of the type that must be dealt with periodically and should not imply prevalence among boards.

As you have noted, criteria for categorizing investigations have been recently established. This includes procedures for informing boards of investigations status within Administrative Procedure guidelines. We agree with your observations regarding the need for additional clerical staff in this unit.

08-HBLH

Recommendation No. 2. We agree that statutory amendents are needed, however, we would advocate provisions that would make Consumer Protection responsible for complaints concerning nonlicensing violations. Determination of unethical business practices should be made by the agency, which has jurisdiction over consumer complaints.

Recommendation No. 3. Agreed. There are a myriad of reasons that could be cited as to this deficiency. However, I am assured by the Governor's Office that timely appointments will be made in the future.

Recommendation No. 4. Agreed. This policy would enhance participation by a broader professional base with different views and ideas, provided there are qualified professionals available and willing to serve on a particular board.

Recommendation No. 5. The general recommendation is agreed with and majority of these concerns either are in the planning process or have recently been initiated. The designation of one employee as a data entry person is not agreed with at this time. Current staff limitations prohibit this approach. The prenumbering of blank licneses is under consideration as a means of controlling license stock, however, further study will be made before determining if this is the best approach. The installation of a key lock system on the mini computer is not needed. The building is secured and the diskettes are locked in a safe. Any unauthorized use of this machine would be highly improbable and of no use to the unauthorized user.

Recommendation No. 6. Agreed. The division has re-introduced legislation which would allow and authorize the department to set fees for all boards. This request was made to the 1978 Legislature. No action was taken.

Recommendation No. 7. Agreed. Consultation with the boards was initiated for the FY 80 budget on a limited basis. The division will be contacting all boards for their goals, objectives and financial requirements for inclusion in the FY 1981 budget.

Recommendation No. 8. Agreed. The division has initiated many of these recommendations for each board. The remaining recommendations will be inititated within a eight-month period.

Recommendation No. 9. Agreed. The division, in conjunction with the Attorney General's Office, is in the process of formulating an orientation and procedure booklet which will encompass all points listed.

Recommendation No. 10. Agreed. Applications and all other forms used by the 21 boards administered by the division will be reviewed, consolidated and changed to meet affirmative action requirements and to increase the efficiency of forms processing. We expect to accomplish this task within the next eight months depending on staff availability.

Recommendation No. 11. Agreed. The majority of these items are being and have been accomplished. All meetings will be recorded and tapes preserved for two years. The typing of verbatum minutes is not felt to be needed, especially with the tapes available to provide details.

Recommendation No. 12. Agreed. Every effort is made to publish all public notices at least 30 days before each meeting, examination or application deadline.

We appreciate the time and efforts expended by your staff.

Yours truly,

H. Phillip Hubbard
Commissioner

M E M O R A N D U M

MAJORITY MEMBERS' (HOUSE COMMERCE COMMITTEE) RECOMMENDATIONS

REGARDING "SUNSET" REVIEW ON ELEVEN HEALTH REGULATORY BOARDS

The following memorandum represents the position recommended to the House Commerce Committee by its majority members on the morning of February 26, 1979, regarding retention or termination of eleven boards, which, through the Division of Occupational Licensing, regulate the practices within the various indicated professions.

This memo is not in formal form, and does not go into the explanations that would be forthcoming from a Committee Report under the "Sunset" law, and, of course, is not in the statutory form that will be required in order to implement these suggestions.

1. The Board of Medical Examiners would be continued on a probationary basis for only one year, with specific directives in the committee's letter regarding the matters of scrutiny which must be addressed by that Board. Indications are that the doctors also need to have an executive director on their board similar to the executive director for the Board of Nursing.

2. The Board of Nursing should be continued for a full four years, and the statutes should be amended to allow the Board of Nursing alone to promulgate regulations for the advanced nurse practitioners.

3. The Board of Dentistry should be continued but only for two years, in a probationary status, with statutory changes which would facilitate the entrance into the profession of more dentists, particularly dentists credentialed in other jurisdictions. At the end of two years, the dentists would be expected to demonstrate that their Board has acted to admit competent dentists and has not acted in any restrictive or "turf-protecting" manner.

4. The Board of Pharmacy is to be continued for a four-year period, with some of the statutory changes suggested by the legislative auditors.

With regard to all four Boards retained, the terms should be adjusted to four-year terms, staggered, with no member to serve more than two consecutive four-year terms.

The makeup of the Boards should be adjusted to provide for more lay participation. Each of the four Boards is presently constituted with five admitted professionals and two lay-persons. The statutes should be changed to provide for a ratio of four professionals to three lay-members.

The remaining seven Boards (Licensing, Psychologists and Psychological Associates, Physical Therapists, Chiropractors, Optometrists, Opticians, Veterinarians, and Nursing Home Administrators) should be terminated but not quite in the manner anticipated by the Sunset law. The termination should occur during a period when the Boards are still fully functioning, allowing admission to their professions, while also cooperating with the Division of Occupational Licensing, and transferring their licensing functions to that Division. Our original suggestion was that this termination date be January 1, 1981; however, the budgetary considerations may well cause us to change that recommendation to June 30, 1980. In either case, this will give the Boards and the Division one entire budget cycle with which to deal with the transfer, and will avoid an unfortunate ambiguity in the Sunset law about the role of the Board during is final year of operation if terminated.

Originally, we were considering looking at the legislation that the federal government normally expects from a state which has nursing homes obtaining federal funds. The Nursing Home Administrators were only established in order to guarantee the flow-through of federal money. However, there have been some recent indications that nursing home administrators need only be licensed, but not necessarily by a professional Board as presently constituted. If that is the case, it will fit into our plan with no different treatment for the Nursing Home Administrators; if it is not the case, the Division and the legislature will have adequate time to address the problem in the next session.

This memorandum does not address the practices of the Division of Occupational Licensing, although the review of the Division by the Legislative Audit will necessarily be affected by these recommendations if they are adopted.

Obviously the recommendations anticipate substantial explanation and direction in Committee Reports and in legislation yet to be introduced.

Dated:

_____

Fred Brown, Chairman
House Commerce Committee

10 House Health Commerce

TESTIMONY OF THE ALASKA HEALTH COALITION

submitted by

Jana Varrati, Coordinator

I'm Jana Varrati, coordinator of the Alaska Health Coalition, a member of the dental board and a practicing dental hygienist.

Again at the start I would like to express the Coalition's enthusiasism for the concept of sunset review and our appreciation for the way this committee is working overtime to impliemnt the spirit of the statute. We look to sunset as a way to alleviate some of the problems that have been plaguing our boards for years and we're pleased to have the opportunity to get at them all at once rather than piecemeal. We would also like to thank Elaine Garrett and David Creckman from OL and Mr. Hostak, director of OL, for their roles in supplying information and support to our boards and associations when requested and to the best of their abilities. We also thank the legislative auditors for their willingness to tackle a very difficult job in a sometimes holstile environment.

I would like to address some of the common problems of our boards which hamper their function; funding or a lack of it; communication or a lack of it; filling and creating board vacancies; licensing examiners; incomplete minutes. I would also like to address the auditor's reccommendations after reviewing OL, and make some miscellaneous observations.

Money is the major problem plaguing our boards: money for meetings and for investigative services. There are a couple reasons for the inadequate meetings budget. The boards were never advised by the department of statutes requiring them to submit a budget to the department nor were the boards asked until Mr. Hosting came on to do so. He moved on it right away but the time was short so the needs could not be discussed in a meeting; therefore in 1978 most ~~boards~~ boards grossly fell short on what they would need for 1980. Two years projection is a long one and a good number of the boards' members were newly appointed so had little appreciation of time requirements for getting things done on a board. Part of problem is already solved. As a result of this audit we see that our boards are aware of their obligations to devise a workable budget and are better prepared for longer needs projection.

Lack of division funds for investigative services has stymied every board being reviewed. We believe that there is an insufficient number of investigators handling licensing complaints and that the salary classification for the position of investigator is too low. For $1500/month we expect Superman but what we get are vacant positions, a lack of qualified applicants, the hiring of less qualified personnel, a high turnover and more cases handled improperly. We reccommend:

1) At least 2 investigator positions be funded for the health boards and that they be assigned to certain boards so they can be educated in that particular discipline to facilitate their investigations;

2) Reviewing the classification for investigator to provide a salary commensurate

with job responsibilities and comparable to other investigator salaries. (For instance, a trooper investigator I starts at $2172, investigator II earns $2238, investigator III makes $2517/month) We expect our investigators to be familiar with Alaska law, to know the Administrative Procedures Act inside out, as well as the practice acts and other applicable statutes, to be a super sleuth and to do it for only $300 more per month than the guy who pushes the broom out in the halls earns.

But supposing we don't keep investigations within the division of OL. There is a strong case to be made for using the department of public safety for investigations- and a good one. The investigators are already there, already trained, and are assigned by specialty and training to each of about 10 categories of crime. They are sufficiently well-paid to be motivated, have the administrative and technical know-how to get the job done and have knowledge of the laws. It should be just one more additional duty to take on board investigations. The big difficulty with this idea lies in the possibility of the boards and the division losing track of cases. That could be solved by having a chief investigator for OL charged with assigning cases to the troopers, to CP and peer review organizations, and with keeping track of the progress and outcome of those assignments in order to keep the boards and the divisions informed.

The Coalition also believes that there would be more complaints filed if people knew more about the procedures for doing so. If communications between the [illegible] public existed beyond a cursory notice in the paper of meetings we [illegible] there would be even more investigations work to be done, probably in the area of consumer protection, rather than actual licensing violations.

In addition to [illegible] procedural deficiencies in communications exist when [illegible] action; between the department and the boards, between the boards and [illegible], between related boards, and between boards and the professionals they [illegible].

The lack of communication between the department and the boards has resulted in the introduction of legislation directly affecting the boards but without board knowledge or approval (see HB's 46, 62, 109: SB's 94 and 73). Because the department may and does submit legislation we would like to see:

3. the department required to submit to boards all proposed legislation having a direct or indirect affect on the board, the professionals regulated, or on board function. The boards are responsible for policy as well as for function and should be included in drafting legislation.

4. the department required to speedily set out reasons for opposing or supporting legislation submitted to it by the boards, or favored by the board. The veterinary bill (HB 86) is an example. The veterinary association and board worked hard to draw up a new practice act which failed to get the support of the administration, but neither the board nor the association were told why the bill was rejected, just that it would not be supported. And that only after I told them; before that they had no suspicion that all was not right with their world. It turns out that the reason for the opposition was the inclusion in the bill of a section adding two members to their board, one a veterinarian and one a public member. They were trying to save the state money by asking for only a five person board instead of the seven that is standard, but the department opposed it because two public members were not added. That's what the veterinarians were told. I was told that it was opposed because of the extra expense of adding any members. Whatever the reason, it could have been worked out beforehand. After all, the boards and the department are supposed to be on the same side.

The Coalition would also like to see the department play an active role in resolving disputes between the boards and other departments or agencies. An example of this need is that of the dental board and the Aleutian-Pribiloff Island

dental clinic. The department of Health, Education and Social Services was involved initially before the case slipped its harness and got wrapped up in federal grants and jurisdiction. I know it was because I was involved in some of the discussion with Dr. Fraser about it. Granted, there were several other points at which the whole situation would have been resolved, the work done on the people needing it, and the hard feelings that we see now avoided. The point is, that if the department had taken a stronger role in helping the parties come together and had served as a kind of middle man or middle ground everyone would have benefited. Openness results in more efficient operations and a better understanding of the other side's position. So we reccommend that

5. the department play a stronger role in settling disputes between boards and other agencies, departments , etc.

Another major gap in department/board communications results from board members and their licensing examiners not being familiar with <u>all</u> the statutes affecting their boards. The Coalition sees a strong need for an information packet to be given to each board member and licensing examiner when he/she comes on consisting of:

6. 1. the current statute and regulations governing that board's regulated professionals.

2. any other statutes affecting a board or their activities

   a. Central Licensing
   b. Advertising
   c. Malpractice
   d. Administrative Procedures
   e. Executive Budget Act
   f. [illegible] Act

3. procedures to be followed by the board members regarding

   a. investigation
   b. litigation
   c. examination

4. ethics concerning activities of the members

5. general responsibilities of the board

6. two years of each minutes of the board

The second area of communications lag is that between the boards and the public. Public notices of meetings and examinations are run one time only in differing sections of certain newspapers. Usually the meeting's agenda is not part os the notice. Obviously, a person not knowing where to look, usually doesn't see the notice if it's not on or opposite their favorite feature and if they don't know what's to be discussed they certainly are not going to walk off the job to attend a board meeting on the chance that a topic of interest to them will be considered. Another roadblock to public input is the lack of a form on which to file a complaint with a board. People wisning to complain are told to file a written report but many are hesitant because they don't know how much or what kind of information is need to spark an investigation. Lack of a form which requests specific information slows classification and disposal of cases. Even after a complaint is registered in most cases the complaintant is not informed of what action was taken, the results, etc. The boards get the blame, but truthfully, the boards don't know what kind or how many complaint are filed with OL nor are board members allowed to help decide investigative priorities. To alleviate these matters the Coalition reccommends:

7. that the boards, through the department, by statute or regulation, be required
   a. place notices of all public meetings of the boards in a popular section of the newspapers in which they are published (like opposite the comics or on the second page.)
   b. that these notices always be in the same section of all newspapers in which they are printed.
   c. that they always run for 3 days
   d. that they include a proposed agends whenever possible
   e. that they also be published in alternate newspapers such as the Tundra Times or The Alaska Advocate so people without the Atwood syndrome would be more likely to see them.

8. that the boards, through the department, be required to solicit public input by:
   a. periodic public service announcements on radio and tv;
   b. periodic letters of inquiry to groups such as Ak.PIRG, Native Corporations, OPAG.

9. that the division of OL be required to compose a common complaint form to be used by all the health regulatory boards

10. that the division of OL be required to
   a. advise each complaintant within 30 days of receipt of the complaint what disposition has been made of the complaint:
      1) to CP
      2) to professional peer review committee
      3) to both 1) and 2)
      4) to investigator for further action

5) to the board for immediate action.

b. advise each complaintant as to the findings regarding that complaint.

11. that the boards:

a. be advised at each meeting of the numbers and kinds of complaints against practitioners regulated by that board and the disposition of those cases

b. choose from their membership one person who is to be consulted by the investigator in deciding investigative priorities of licensing violations and other decisions which may require professional knowledge. Such board member will automatically be excluded from deliberations by the board concerning those cases in which she/he was consulted.

Communications between boards with similiar responsibilities and interests is badly needed for reinforcement of purpose, the sharing of information and policies, and discussion and possible solution of common problems. In 1977 Commissioner Hubbard call all the board chairs to a meeting to introduce himself and to recognize shared problems. It had a remarkable effect on the members. We were recognized as people, for one thing, and not as paper agencies! Several people stayed around afterward to discuss certain subjects and got so enthusiastic at the communication that the Coalition was formed. Now the Coalition is an alliance of the professional associations regulated by the boards so the boards are still without ties. Therefore we reccommend:

12. a meeting be held at least once a year for at least two days for the express purpose of discussing common problems and solutions of the boards' problems which shall be attended by members of the health regulatory boards, the Commissioner of Commerce Department, the Director ofOL, representative of the AG"s office, licensing examiners.

13. that each member of each health regulatory board receive from the department the names, addresses and phone numbers of members of the other health boards. (the reasoning behind this reccommendation is that in case of a cross-disciplinary problem, such as between nurses and dental hygienists in the past, a board member can have a contact in the other board, get the information, perhaps even get the problem resolved without haveing to go through the whole rigamarole of official phone calls, investigations, etc. Most of this type problem is just a result of faulty information, misunderstanding of proper information,)

14. a boards' newsletter serving the health regulatory boards. As a board member I would be interested in knowing what is happening with the other boards periodically and officially rather than through the licensing examiner grapevine.

Communications between the boards and the members of the professional associations they regulate are also suffering. Our associations feel there islittle if any

attempt by the boards to encourage participation by the associations in board meetings, discussions, etc. Not so much by intent, but by oversight. We feel this could be corrected if:

15. the boards were required, through the licensing examiner, to send a 30 day advance notice of pending board meetings and public hearings with the proposed agends to the person in charge of the professional newsletter or to the state president of the association represented.

16. the boards were required either by statute or by regulation to send copies of their annual reports,including but not limited to receipts and expenditures and a list of all persons currently licensed in the board's jurisdiction to the president of the professional association represented.

The professionals, the associations, as well as the public suffer when our boards are not working with their full compliment of members. We realize that the governor has the problem of a lack of nominations to such positions, especially for public members. (who in their right mind would want to serve on a board? Often those who do want to for some very wrong reasons.) We propose the following solutions:

17. require the department to actively solicit names for possible appointment from the public and private sectors through newspaper notices, public service announcements, reccommendations from professional associations, private organizations like Ak.PIRG, OPAG, Native groups, and other public interest and service groups on a prescribed form for that purpose

18. that the department review this list periodically and update it with current information.

The governor could then choose from that pool is she or he wanted. The Coalition also reccommends that

19. all the statutes in chapter 08 be revised to limit the number of terms that any board member could serve to two.

By that time any member no burned out either hasn't been doing the job or has gone past caring. Time for new blood in either case.

Now that we've talked about filling vacancies on the boards I think we should talk about creating vacancies. The Coalition feel that there should be a way to remove from duty board members who are not fulfilling their obligations as members. Presently there is nothing in the statutes that set out procedure for accomplishing this but there should be for obvios reasons. We suggest:

20. Either
    a. automatic termination if a member fails to attend 40% of meetings in any fiscal year or
    b. California Statute: Chap.4, Div. 2, Art. 1, Sec. 1605 "The governor has the power to remove from office at anytime any member of the board for continued neglect of duty required by this chapter or for incompetency or unprofessionsl conduct." (Unprofessional is defined in the chapter)

I would like to breifly address what were major areas of concern to our boards but which have been greatly relieved since Mr. Hostak's arrival at OL and these are rapid turnover of licensing examiners and the lack of detailed minutes. Most of our boards seem to be pleased with their licensing examiners now and the licensing examiners seem to be comfortable with their workload except in the case of the person responsible for the pharmacy/medical/psychology boards. These are all very busy boards. The medical board should probably have an executive director like the nursing board. Their jurisdiction is so varied that it's inconceivable to us how they ever address any one issue in depth given their meeting schedule. Obviously they don't function as efficiently as they should given the life and death responsibilities of their profession. I think we've all seen the magic that an executive director can work for a board. The nursing board is the smoothest functioning board, got the highest marks from the auditors, and the fewest reccommendations and the only health board with an executive director. I'm not reccommending executive directors for all boards, most could function with some statute changes, some membership changes, and increased communications as outlined before, and with a periodic review to keep the whole picture in sight.

The taking of minutes has also greatly improved since Mr. Hostak's arrival. In the recent past the minutes were so cursory that it was impossible to read them over and get a fairly clear idea of what went on in the meeting, who voted how and why, what kind of discussion occurred. There is still room for improvement especially in the area of recording discussion and the resons a particular member voted . At Mr. Hostak's direction the licensing examiners are also sending to the members an interin report keeping them informed of OL activity on their behalf between meetings. A real helpful addition.

COALITION REAPONSE TO THE OL AUDIT RECCOMMENDATIONS

Recc. 1. That the division of OL investigations unit be transferred to the Dept of Public Safety.

The Coalition has mixed feelings about this reccommendation. We can see the value in keeping investigations within the department (division) but because of salary restrictions and budgeting restraints on #'s of investigators we feel, as previously stated, that we have no objection to the troopers handling our investigations PROVIDED THAT ALL COMPLAINTS FIRST GO ACCROSS THE DESK AND THROUGH THE HANDS OF THE OL INVESTIGATOR WHO WOULD BE CHARGED WITH:

a. deciding if a complaint is a licensing violation and what priority it should be given, with the aid of a designated board member, if needed

b. assigning the complaint to the proper investigative authority

c. maintaining an open OL file on each complaint and advising the board on the status at each board meeting until the case is closed by theproper authority and to thesatisfaction of the board.

Recc. 2. Statutory amendments are needed to assure appropriate action is taken on consumer complaints against licensed persons.

a. we agree with statute change #1- that the current statute which gives CP the authority to handle consumer complaints be expanded to allow CP to also handle those complaints against licensed persons excluding, however, actual licensing violations. We believe that CP as well as the professional peer review committee should play the major roles in this area so the consumer knows that a specific agency has responsibility but that these complaints, filed on a specifically prescribed form, be filtered throug OL before going to either CP or peer review. We firmly believe that OL must keep the master records of the boards are to keep fully informed and therby functional in their obligation to protect the public.

B. We heartily agree with the reccommendation that boards be allowed to--rather, be required to--define unethical or unscrupulous business practices as licensing violations. I think that most statutes have already addressed this issue but not defined specifically as unethical or unscrupulous practice. The California statutes have a long list under unprofessional conduct, parts of which the Alaska dental board has incorporated into its proposed statute changes to round out an already long list of infractions. Perhaps what needs to be done in reviewing the statutes is to make a complete list similiar to California's and include it in all the practice acts.

c. We aggree with the third reccommendation under #2 regarding coordination between OL and CP be established. The chief investigator can and should handle this.

Recc. 3. The Office of the Governor should keep the appointments of the occupational licensing boards current. We agree and have already presented our reccommendations for a nominations pool and methods for stocking the pool. The reccommendation that retired persons should be considered is an excellent one.

Recc. 4. Legislation should be enacted limiting the length of service for all board members to 2 consecutive terms. Agreed, as already discussed.

Recc. 5. The Department should improve the operation, security and internal control of the 3M Linolex computor system. The Coalition has no reccommendation on use of the computor but does agree with sub-reccommendations

3) establish a policy for regular file backup

4) periodically reconcile computor data with the original license folder

5) pre-number the blank licenses!!!!!!!!

Recc. 6. The Department should review the licensing fee structure and seek appropriate revisions. HERE WE ENCOUNTER THE FALSE PREMISE THAT PROFESSIONALS ARE THE BENEFICIARIES OF THE REGULATORY PROCEDURE AND SHOULD THEREFORE BEAR THE BURDEN OF SUPPORTING THE REGULATORY AGENCY. WE BELIEVE THE BOARDS SHOULD BE ABLE TO GENERATE ENOUGH REVENUE TO PAY FOR THE PAPERWORK GENERATED IN LICENSING AND EXAMINING PROFESSIONALS, TO SUPPORT THE LICENSING EXAMINERS, AND TO PAY THEIR SHARES OF THE SALARIES OF THE COMMISSIONER AND THE OL DIRECTOR, AND OF THE OVERHEAD BUT SINCE IT IS THE PUBLIC THAT BENEFITS FROM THE REGULATION AND LICENSING OF PROFESSIONALS, THAT THE $$ FOR THAT REGULATION COME FROM PUBLIC FUNDS!!! After all, we don't expect the revenues from the parking meters to pay the salaries of the police force.

The auditor was in error when he stated that the medical statute is the only onewhich addresses fees for inactive license renewal. The dental statute also deals with that issue. Here again, we go off into discussion of the advisability of allowing for inactive licenses to renewed. The dental statute requires that any person who allows her or his license to lapse into inactivity must prove that she or he has been in active practice elsewhere during the lapsed time or else to take the examination for licensure again. We could run into the problem of persons dropping out of practice to pursue another line of interst then deciding togo back to medicine (or nursing,etc.) after

a number of years has gone by and they may now under most statutes with out proof of additional schooling, continuing education courses. Only the dental hygiene statute, rewritten last year, defines "active practice" and then when it is a condition for licensure by credentials. The Coalition feels this area needs to be addressed by all the boards and associations in order to assure minimum competency in practice.

Recc. 7. The Department should include the goals, objectives and quantifiable measures of each board in the division of OL budget document and submit performance reports for each as required by AS 37. 07 Executive Budget Act. We agree.

Recc. 8. The Division of OL should collect, record and maintain for 5 years the files, statistics of license and examination and related workload of the licensing examiners. We agree.

Recc. 9. The Department should prepare a board member orientation booklet, including a code of ethics. We agree and feel is should include copies of all statutes and regs affecting each board, 2 years of back minutes, policy and standard procedure for investigation, litigation, and examination as well as the general responsibilities of the boards. The packet should also be distributed to the licensing examiner.

Recc.10. The 11 health boards review their applications and delete questions which could lead to discrimination against applicants. Agreed.

Recc. 11 That formal board minutes be improved. Agreed and implemented already

Recc.12. The Department and boards should ensure that public notices of exams are sufficiently and timely advertized. Agreed. The Coalition feels that this reccommendation should go even further to incorporate the reccommendations we made concerning lack of communications.

MISCELLANEUOS OBSERVATIONS

1. Consistent audit reccommendation for additionsl public members to equal the number of professional members. I disagree that California's experience is a good one. The dental board members were told repeatedly that it is close to a disaster. The public members don't show up, lack interst and experience. Large boards are unweildy and expensive. We belive that one or two public members on a 5 or 7 person board ,respectively, is a suitable number.

2. Consistent audit reccommendations to discontinue the requirement of photographs for board files. We disagree. Photographs are necessary for the identification of the applicants. Remember the Great Imposter?
It could be reccommended that only the licensing examiner check the photograph against the face at the examination sites.

3. Failure of the auditors to recognize the value of the professional peer review committees. The Coalition reccommends that the boards direct the professional assiations to examine, update and oil their peer review mechanisms; and that all complaints sent to CP (as non-licensing violations) be also sent to peer review as a double check. A different facet of the complaint may be explored by peer review than by CP. We believe this dual investigation of a consumer complaint would add comfort and credibility to tje consumer/patient to know that an in-house as well as a public investigation of the complaint is taking place.

To Senate Read 1st
Hess Committee.

Testimony

of

Alaska Health Coalition

The Alaska Health Coalition is a legislative alliance of the state associations of the professionals in nursing, dental hygiene, pharmacy, physical therapy, optometry, occupational therapy, veterinary medicine, speech & hearing, psychology, optical dispensing & nurse practitioners. The purpose of the Coalition is to promote responsible health legislation by monitoring all health bills and taking action deemed appropriate and by providing a resource pool of information and expert witnesses for legislators and their staff members for use in drafting health bills and in legislative hearings. Since the boards regulating most of our members are being reviewed under the Sunset Statute this session the Coalition would like to sumit testimony regarding that review: to point out some of the basic deficiencies of the audit, enumerate problems the Coalition sees as hampering board functions, and to propose some possible solutions.

At the start I would like to state that the Coalition membership enthusiastically supports the concept of Sunset review and looks to it as a way of solving some of the major problems which have been frustrating our boards for years. We sincerely appreciate your efforts to view these hearings as a positive effort to address those problems. In addition we would like to thank Elaine Garrett and David Creekman from Occupational Licensing and Mr. Hastok, Director of OL for their roles in supplying Sunset information and support to our associations and boards when requested and to the best of their ability. We would also like to thank the auditors from legislative audit for their willingness to tackle a very difficult job.

Outline of Contents

I. Limitations of Audit

A. Lack of Precedent
   1. In State
   2. Out of State

B. Conducted by CPA and Accountants
   1. Lacked knowledge of professions
   2. Line of questioning pursued
      a. Too broad
      b. Irrelevant
      c. Lacked flexibility

C. Burden of proof for continuance lies with boards but

   1. Boards unaware of Sunset implications and requirements
      a. Advised by O.L. of statute
      b. No guidelines provided for implementation
   2. Audits
      a. Not started till mid July
      b. Preliminary reports back to boards for response in August
      c. Final reports not available until second week of this legislative session
   3. Funding to deal with Sunset responsibilities
      a. Considerations
         1. No funds from department available for meeting
         2. Geographic appointment of members
      b. Results
         1. Boards not able to mmet to decide what information to request from department
         2. Boards response is simply reaction to audit and information and statistics used by auditors

D. Sixty day provision in statute is restrictive

   1. Hinders in-depth look at all factors

   2. Colorado
      a. Hears 13 boards, commissions, agencies every 2 years (or 6/session)
      b. No time restriction on submitting recommendations
      c. Sessions 5 to 6 months in length

II. Common Problems Hampering Board Functions

A. Funding

1. For meetings
   a. Boards input not requested by department when composing budget until last year
   b. Boards not advised of statute requirements to make budget requests nor of department's responsibility to advise of same
   c. Therefore:
      1. Insufficient funds for meeting needs of boards' workload in budget
      2. Takes longer to get things done

2. For investigative services
   a. Insufficient numbers of investigators
      1. Additional investigators recently hired but numbers still inadequate
      2. Affects speedy classification and disposal of cases.
   b. Low classification of investigator positions results in
      1. Vacancies
      2. Lack of qualified applicants
      3. Hiring of less qualified personnel
      4. Higher turnover
      5. More cases not handled properly
         a. Administrative Procedures Act not fully complied with so accused escapes on technicality
         b. Cases not fully investigated so action by department or boards cannot be taken

3. "Per Diem" too low

B. Lack of Communication

1. Between Department and Boards
   a. Budget - (see II, A, 1, a)
   b. Legislation
      1. Introduction of legislation directly affecting boards but without board knowledge or approval
      2. Failure to support legislation introduced by boards but not offering reasons
   c. Hesitancy of department to involve itself with conflict board may have with another department and to help facilitate solutions
   d. No department policy and procedures manual for board members and licensing examiners

2. Between Boards and Public
   a. Public Notices not sufficient
      1. No prescribed section in newspapers for notices of meetings or examinations
      2. Run one time only
      3. Agendas not published

b. No active solicitation of public input except through public members
c. No prescribed forms for filing complaints
d. No response from boards to complainants regarding action taken, results, etc.
1. Boards don't know what complaints filed with O.I.
2. Boards not allowed to help decide investigative priorities

3. Between Boards and other related boards
4. Between Boards and the professionals they regulate
a. Few statutes require boards to send copy of annual report to associations
b. No special notice given to associations of board meetings and proposed agenda for publication in professional newsletters, announcements of meetings, etc.

C. Vacancies on the Boards

1. Not promptly filled
2. No active solicitation of names for appointment from public or private sources
3. No statutory limitations, in most cases, of number of terms a member may serve

D. Rapid turnover of Licensing Examiners

1. Hiring unqualified personnel for difficult job
2. Overburdening
a. Most are evened out now
b. Medical board shares examiner with two other boards requiring a lot of paperwork: pharmacy & psychology

E. Lack of detailed minutes

F. No procedure for removal of board members

III. Suggested Solutions

A. Funding

1. General

a. Support pending legislation before House Commerce Committee to allow boards to set all fees for licensure, examination, etc. by regulation rather than by statute
   1. Allow boards flexibility
   2. Facilitate process of boards becoming more self-supporting
   3. Eliminate taking valuable legislative time to raise fees

b. Direct O.L. to advise boards of required dates for submission of projected board funding needs for inclusion in department budget.

2. Investigative

a. Upgrade job classification of investigators
b. Budget funds for more investigators

3. Increase "per diem" from $55/day for board members.

B. Communications

1. Between Departments & Boards by regulation:
   a. Require department to submit to the board all proposed legislation having a direct or indirect effect on the board, its members, or its function
   b. Require the department to advise boards submitting legislation of department's reasons for supporting or not supporting that legislation
   c. Require the department to take an active role in settling disputes between a board and another department, agency or commission of the state government.
      1. Not just sending an investigator but
      2. Helping set meetings between key people on both sides of dispute
      3. Coordinate with Attorney General in dispute
   d. require the department to publish and dispense to all board members and to their licensing examiners a manual which includes but is not limited to:
      1. The current statute and regulations governing the board's actions
      2. Any statute affecting a board
         a. Central licensing
         b. Advertising
         c. Malpractice
         d. Administrative procedures
         e. Executive budget act

3. Procedures to be followed in
    a. Investigations
    b. Litigation
    c. Examinatic~
4. Ethics concerning activities of members
5. General responsibilities of the board

2. Between Boards and the Public by regulation
    a. Require that notices of all public meeting or the boards be
        1. Placed in a popular section of the newspapers in which they are published;
        2. That they always be in the same section of all newspapers;
        3. That they always run for three consecutive days;
        4. That they include proposed agendas whenever possible
        5. That they also be published in alternate newspapers such as The Tundra Times and The Alaska Advocate
    b. Require the boards through the department to solicit public input by periodic
        1. Public service announcements
        2. Letters to such groups as AK. P.I.R.G., Native Corporations
    c. Require the division of O.L. to compose a common complaint form to be used by all health regulatory boards which would result in
        1 More comprehensive information from complaintant
        2. Facilitating classification by investigator
        3. Facilitating investigation of complaint
    d. Require that each complaintant
        1. Be advised by O.L. within 30 days of receipt of the complaint what disposition has been made of the complaint:
            a. To Consumor Protection
            b. To professional peer review committee
            c. To both 1. and 2.;
            d. To investigator for further action
            e. To board for immediate action
        2. And that each complaintant be advised as to the findings regarding that complaint.
    c. Require that boards
        1. Be advised at each meeting of the numbers and kinds of complaints against practitioners regulated by that board and the disposition of those cases
        2. Choose from their membership one person who is to be consulted by the investigator in deciding investigative priorities of licensing violations and other decisions which may require professional knowledge; such board member will automatically be excluded from deliberations by the board concerning those cases in which he/she was consulted

3. Between Boards and other Alaska Health Regulatory Boards:
    a. A meeting at least once a year of members of related boards and the commissioner to discuss common problems and solutions
    b. A boards newsletter would be really helpful

4. Between Boards and the Professionals they regulate
   a. Require that all boards either by statute or regulation send copies of annual reports, including but not limited to receipts and expenditures to the professional associations under their regulation
   b. Require that the Boards, through the licensing examiner, send 30 day advance notice of pending board meetings and public hearings with proposed agenda to the person in charge of the professional newsletter of the practitioners regulated.

C. Vacancies on boards

1. Require the department to actively solicit names for appointment from the public and private sectors
   a. Newspaper notices
   b. Public service announcements
   c. Recommendations from professional associations
   d. Recommendations from practitioners by direct mailing with return postage paid

2. Governor may, but would not be required, to fill board vacancies from that pool

3. Pool must be updated periodically

4. Require statutory, not regulatory, limits of two consecutive terms for board members.

D. Rapid Turnover of Licensing Examiners

1. Somewhat alleviated now but has been a real problem in the past.
   a. Recommend selection of licensing examiners be made with great care
   b. Recommend that licensing examiners be provided with information packets and manuals recommended in III, B, 1 & 2

2. Recommend periodic reassessment of workload of all licensing examiners

E. Lack of Detailed Minutes

Agree with audit's recommendation #11 page 16 of Occupational Licensing Review.

F. Removal of Board Members: Suggestions

1. Automatic termination if member fails to attend 40% of meetings in any fiscal year

2. California Statute: Chap 4, Div 2, Art. 1, Sec 1605 "The Governor has power to remove from office at anytime any member of the board for continued neglect of duty required by this chapter or for incompetency or unprofessional or dishonorable conduct"

IV. Review of Recommendations by Legislative Audit of Division of Occupational Licensing, Department of Commerce and Economic Development

A.	Recommendation #1	Disagree
B.	Recommendation #2	Conditionally agree
C.	Recommendation #3	Agree
D.	Recommendation #4	Agree
E.	Recommendation #5	Conditionally agree
F.	Recommendation #6	Conditionally agree
G.	Recommendation #7	Agree
H.	Recommendation #8	Agree
I.	Recommendation #9	Agree
J.	Recommendation #10	Conditionally agree
K.	Recommendation #11	Agree
L.	Recommendation #12	Agree

V. Miscellaneous Observations

A. Consistent audit recommendation for additional public members: Disagree
   1. California experience not a good one
   2. Large boards
      a. Unwieldy
      b. Expensive
   3. Knowledgable public members are assets but non-contributing members are a severe handicap

B. Consistent audit recommendations to discontinue requirement of photographs for board files: Disagree
   1. Necessary for identification of applicants
   2. It could be recommended that only licensing examiners check photograph against face at examination sites (as does dental board)

C. Failure of auditors to recognize the value of professional peer review groups
   Recommendations:
   1. That boards direct professional associations to examine and update and oil their peer review mechanisms
   2. That all complaints sent to C.P. (as non-licensing violations) also be sent to professional peer review
      a. Double check
      b. Different facet of complaint may be explored by peer review than by C.P.
      c. Add credibility and comfort to consumor/patient to know in-house as well as public investigation of problem

Discussion

I. There are three major considerations to keep in mind when viewing the results and recommendations of these audits. First of all, that the whole procedure for this review was experimental, a first for Alaska. Secondly, that the reviews were conducted by C.P.A.'S and Accountants with little or no knowledge of the professions to which they were assigned; therefore, in almost all instances, boards and practitioners expressed frustration at trying to answer questions that were so broad that they sounded inane but the answers to which carried considerable weight. For example, a question asked of the board of dispensing opticians:

Q. Do you believe there is a shortage of opticians in Alaska?

Four members said yes. The auditor concluded that because only Fairbanks, Anchorage, and Homer have resident opticians, there is a great shortage in the rural areas. If he had had knowledge of the bush practices of some optometrists and phthamologists he would have known that the shortage is not as critical as he assumed because those optometrists and opthomologists usually have opticians or other dispensers traveling with them. Members of the pharmacy association expressed frustration that the auditor spent a major portion of his time with them stating that their board was remiss in not regulating the prices of drugs, which, of course is beyond that board's powers. In some instances, boards have expressed concern that because of the auditor's apparent lack of flexibility in attitude that improper weight would be assigned to some answers allowing for faulty conclusions.

The second area of concern of the Coalition is that our boards may be thought somewhat ill-prepared for the hearing process and we would like to point out some of the reasons for this seeming inadequacy. Even though, by statute, the burden of proof lies with the board, most were unaware of Sunset implications and requirements until the actual audits began in July. The boards were advised by O.L. that Sunset legislation had been passed but were provided with no guidelines for implementation. This is probably because O.L. was as much in the dark about procedures as were the boards and the auditors. The audits began in mid-July and preliminary reports from both legislative audit and the department of Commerce were sent back to the board members by mid-August for response. Only then did the boards learn the scope and shape of the process. But by then most boards had used up their budgeted meetings for the year and were informed by O.L. that there was no more money under any circumstances. You might say, if it were really important to them the members would get together on their own to formulate an action plan to deal with Sunset. You must remember, however, that board appointments are made to balance geographic needs and concerns so a meeting is not as simple as calling up the locals for an afterwork session. Consequently, most of our boards were not able to meet even once for the express purpose of dealing with Sunset and the responses are mainly a reaction to audit and the information and statistics used by the auditors, even though a considerable amount of work was done by individual members on behalf of their respective boards. A further hinderance was the fact that the final legislative audit reports were not made available to the boards until January 29th, of this year.

In spite of these limitations the Coalition feels that the audit, viewed as a management study, was very enlightening to all concerned and has focused in on some of the vagaries and inconsistencies in board policies and function as well as discrepancies and shortcomings in the statues and regulations. However, the Coalition also feels that the 60 day provision in the statute by which time all hearings must have been conducted and committee chair reports on board worthiness for continuance be made to the leader of each chamber of the legislature is too restrictive and hinders an in-depth look at all factors as well as places an incredible burden on the committees of reference and their chairpersons. Colorado, by contrast, hears 13 boards or commissions every two years, or an average of six per session, with sessions lasting five to six months and no time restrictions on submitting recommendations.

II. The Coalition sees several problems common the health regulatory boards that hamper efficient function. Lack of funding for meetings is the major deficiency. Until last year the boards were not asked to determine their projected meeting needs nor were they advised of the department's responsibility in asking them to do so. It was difficult to try to predict two years ahead for needs and most boards know now that they seriously underestimated. The results will be that 1980 will find some very frustrated boards attempting to get their acts together after Sunset exposure but severely limited in doing so unless extra budget allowances are made.

Another funding concern of our member association is that there are an insufficient number of investigators to police the health boards. Three persons for 22 boards is ridiculous, especially when the physical

wellbeing and safety of the state's population is at stake. Additional investigators have been hired but numbers are still inadequate to speed up the classification and disposal of cases.

One reason why it is difficult to hire really good investigators with broad and useful backgrounds is the low job classification. An investigator for the boards must have knowledge of laws, procedures and the professions as well as Dick Tracy training. We cannot expect to attract really talented people for $1500/month. Consequently we see positions not filled because of a lack of qualified applicants who want to work for peanuts and subsequent hiring of less qualified persons, a higher turnover, and more cases improperly handled with the accused let off on a technicality either because the complicated Administrative Procedures Act was not followed to the letter or because aspects of cases were not fully investigated.

The final complaint dealing with funding is that the "per diem" is too low. It really is a sacrifice for conscientious board members to spend as much time as they do on board business on their own and then compensate them with only $55/day when participating in scheduled meetings.

In addition to funding some real deficiencies in communication exist which hamper board function. Those between the boards and the department include the introduction of legislation directly affecting the boards but without board knowledge or approval (see HB's 46, 62, 109; SB's 94 & 73); failure to support legislation favored by boards but not offering reasons. The veterinary bill (HB 86) is an example.

The veterinary association and board worked hard to draw up a new practice act which failed to get the support of the asministration only because of the addition in the bill of two more members to the board, one a public member, to bring the board into line with the Governor's Policy of two public members on each board. The veterinary board was not told why their bill was rejected, simply that it would not be supported. There is the problem of the department's hesitancy to get involved with a conflict a board may have with another department or agency. (See Dr. Hansen's report in the dental board file about the Aleutian-Pribilof Island dental clinic)

Lastly, there is no department policy and procedures manual for new board members and licensing examiners. The department personnel are always very helpful in answering questions and pulling files but new board members and licensing examiners need some basic information provided at the outset to enable them to function efficiently.

There are difficulties in communications between the boards and the public. Public notices of meetings and examinations are run one time only in differing sections of certain newspapers. Usually the meeting's agenda is not part of the notice. Obviously, a person not knowing where to look, usually doesn't see the notice if it's not on or opposite their favorite feature and if they don't know what's to be discussed they certainly are not going to walk off the job to attend a board meeting on the chance that a topic of interest to them will be considered. Another roadblock to public input is the lack of a form on which to file a comprehensive complaint with a board. People wishing to complain are told to file a written report but many are hesitant because they don't

know how much or what kind of information is needed to spark an investigation. Lack of a form which requires certain information slows classification and disposal of cases. After a complaint is registered, however, in most cases the complaintant is never informed of the action taken, the results, etc. The boards get the blame but the boards don't even know what kind and how many complaints are filed with O.L., nor are board members allowed to help decide investigative priorities.

There is no communication between the such related boards as the health delivery regulators; therefore, one does not benefit from the struggles and victories of another except through discussions in association alliances such as the Coalition. At that, the associations feel somewhat neglected by their boards because little or no effort is made by boards to encourage participation in meetings, no special notice given to regulated practitioners of board functions and decisions, and few statutes require the boards to make available their annual report to the professionals they regulate.

Vacancies on the boards not promptly filled is a real hinderance to board activity. There seems to be no set policy in the department for soliciting names for possible appointment from either the public or private sectors. So seats remain vacant while the search mechanism, if there is one, is set in action. In addition, the Coalition feels that certain boards have stagnated because their members keep getting reappointed to term after term, a deal danger when there are no statutory limitations to the number of terms a member be allowed to serve.

In the past, the major complaint of all boards was that there was a rapid turnover of licensing examiners and that the examiners were severely overburdened. The former has been fairly well rectified but at least

one examiner is still having to try to be wonder woman to three busy boards.

In addition, most board minutes lack detail which results in re-discussion of the same points of contention or agreement in many meetings, wastes a lot of time, and makes it impossible for any person reading the minutes to have much of an idea of what went on and how, who voted how and why. This is of concern to our associations because we're trying to stay informed of all our boards' activities, to give them input when discussion is raised on certain points and issues, and to initiate discussion on certain points and issues when timely. In addition, a non professional should be able to pick up the minutes and get a fairly clear idea of what goes on at the meetings. Until recently, it wasn't possible to do that.

The Coalition also feels that there should be a way to remove from duty board members who are not fulfilling their obligations as members. Presently there is nothing in statutes or regulations that set out procedure for accomplishing that but there should be for obvious reasons.

CASE PRIORITIES

INDICATORS	CATEGORY	PRIORITY
1. Public danger, real or potential, is severe. Situation present that death has occured, or is imminent, or severe public injury is real or very possible, unless urgent action is taken to correct or remove the danger. Generally this will apply to but is not limited to the health services, i.e. medical, dental and nurse board areas. Use or abuse of drugs, alcoholism, emotional instability and/or gross incompetence in the health board areas; poor or incompetent engineering; and unlicensed activity in the health board areas are some examples which could pose grave danger or severe threats against the general public.	SEVERE	I
2. Public harm, real or potential, is very serious. Indicators can be the same as under Priority I, but the threat of public harm appears not as severe. The matter demands early attention. In the fiduciary area, fraud, incompetency and misconduct are considerations as well as unlicensed activity in the marine pilot and electrical administrator areas.	VERY SERIOUS	II
3. Public harm, real or potential is serious. Indicators can be the same as Priority I and II, but to a lessor degree. Financial improprities such as in trust account activity; licensees acting outside their license category such as in building services and engineering; and misconduct or misrepresentation in all licensing areas which indicate public harm by financial loss are some examples. Unlicensed activity in the fiduciary and building services (except electrical) will usually be in this category.	SERIOUS	III
4. Public harm, potential, due to technical type violations. Public harm can result if the violations are allowed to continue. No indication on receipt that other problems are evident.	TECHNICAL	IV

NOTE: Case prioritization can be influenced by many other considerations as well such as amount of financial loss involved, the number of people or victims indicated and the impact if not acted on right away. Each case must be reviewed with priority assigned according to the merits of the case. Priorities may change as investigation progresses and/or situations dictate.

(EXHIBIT_____)

*Section 1. AS 08.01 is amended by .dding a new section to read:

Sec. 08.01.005. PURPOSE OF CHAPTER. There is established in the Department of Commerce and Economic Development, an Alaska Commission of the Healing Arts, created with the responsibility of assuring the public of safe and competent health care providers.

*Section 2. AS 08.01.010 is amended to read:

Sec. 08.01.010. APPLICABILITY OF CHAPTER. This chapter applies to the

(1) Repealed;

(2) Repealed;

(3) Repealed;

(4) [BOARD OF] chiropractic <u>profession</u>;

(5) Repealed;

(6) [BOARD OF] dental <u>profession</u>;

(7) Repealed;

(8) Repealed;

(9) [STATE] medical <u>profession</u> [BOA.D];

(10) [BOARD OF] nursing <u>profession</u>;

(11) [BOARD OF EXAMINERS IN] optometry profession;

(12) [BOARD OF] pharmacy <u>profession</u>;

(13) Repealed;

(14) [BOARD OF] veterinary <u>profession</u>;

(15) [BOARD OF] psychologist and psychological associate <u>profession</u> [EXAMINERS];

(16) Repealed;

(18) Repealed;

(19) [BOARD OF] dispensing optician [S] profession;

(20) Repealed;

(21) [STATE] physical therapy profession board; [.]

(22) nursing home administrator profession .

*Section 3. AS 08.01.020 is amended to read:

Sec. 08.01.020. COMMISSION [BOARD] MEMBERSHIP AND ORGANIZATION. The commission consists of eleven public members. [UNLESS OTHERWISE PROVIDED, ALL] All commission [BOARD] members are appointed by the legislature for staggered terms of six years [GOVERNOR AND SERVE AT HIS PLEASURE]. However , three initial appointments shall be made for two year terms , four initial appointments for four year terms and four initial appointments for six year terms . No member may succeed himself more than once . [UNLESS OTHERWISE PROVIDED, THE GOVERNOR SHALL DESIGNATE THE CHAIRMAN OF THE BOARD AND ALL] all [OTHER] officers shall be elected by the commission [BOARD] members.

*Section 4. AS 08.01.025 is amended to read:

Sec. 08.01.025. PUBLIC MEMBERS. No [PUBLIC] member of the commission [A BOARD] may:

(1) be engaged in an [THE] occupation which the commission [BOARD] regulates;

(2) be associated by legal contract with a member of an [THE] occupation which the commission [BOARD] regulates except as a consumer of the services provided by a practitioner of an [THE] occupation regulated; or

(3) have a direct financial interest in an [THE] occupation which the commission [BOARD] regulates.

*Section 5. AS 08.01 is amended by adding a new section to read:

Sec. 08.01.026. COMMISSION MEETINGS. The commission shall meet semi-annually for the conduct of its business. The meetings shall be held each time in a judicial district different from the one in which the previous meeting was held.

*Section 6. AS 08.01.030 is amended to read:

Sec. 08.01.030. QUORUM. A majority of the membership of the commission [A BOARD] constitutes a quorum [UNLESS OTHERWISE PROVIDED].

*Section 7. AS 08.01.050(19) is amended to read:

(19) provide investigative services to the commission [BOARDS] established under this chapter [CHS. 20, 32, 36, 64, 68, 71, 72, 80, 84, and 86 OF THIS TITLE,] for the purpose of assisting the [THOSE] board[S] in matters of professional discipline ; and [.]

*Section 8. AS 08.01.060 is amended by adding new subsections to read:

(20) coordinate the activities of the commission established under this chapter and the advisory boards established under chapters 20, 36, 64, 68, 70, 71, 72, 80, 84, 86, and 98 of this title; and

(21) employ an executive secretary for the commission established under this chapter.

*Section 9. AS 08.01 is amended by adding a new section to read:

Sec. 08.01.065. FEES ESTABLISHED BY REGULATION. (a) The department shall adopt regulations which establish application fees, examination fees, and license fees for the occupations covered by this chapter, and which establish the manner in which the fees must be paid.

(b) Before adopting a regulation under (a) of this section, the department shall consult with the commission.

*Section 10. AS 08.01.070 is amended to read:

Sec. 08.01.070. [ADMINISTRATIVE] DUTIES OF THE COMMISSION [BOARDS]. The commission [EACH BOARD] shall perform the following duties [IN ADDITION TO THOSE PROVIDED IN ITS RESPECTIVE LAW]:

(1) keep minutes and records of all proceedings;

(2) hold a minimum of two [ONE] meetings each year;

(3) hold [AT LEAST ONE] examinations [EACH YEAR];

(4) request, through the departme t, investigations of alleged violations of its laws and regulations;

(5) direct the advisory boards to make recommendations regarding the preparation , selection and grading of examinations [PREPARE AND GRADE EXAMINATIONS];

(6) direct the department to pass on qualifications of routine applicants for examination and license;

(7) forward minutes of meetings to the department within 30 [20] days;

(8) forward results of examinations to the department;

(9) notify the department of meeting dates and places at least 30 [15] days before meeting ; [.]

(10) promulgate all necessary regulations upon advisement by an advisory board and after consultation with representatives of interested professional societies , department staff , consumer organizations and the general public ;

(11) establish minimum educational and training qualifications for all regulated practitioners ;

(12) appoint , from among its membership , committees deemed necessary ;

(13) endorse a valid license issued by a licensing board or commission of another state , jurisdiction , territory or province which was issued upon similar qualifications to those in effect in this state ;

(14) direct the department to remedy any error in the issuance of a license ;

(15) designate a professional conduct officer on recommendation of the commissioner and/or investigative staff in connection with professional misconduct proceedings and criminal matters , such officer to be empowered to issue subpoenas and administer oaths in connection with disciplinary proceedings ;

(16) establish , by regulation , standards of conduct with respect to advertising , fee splitting , practicing under a pseudonym when not authorized , proper use of professional or academic titles tending to imply professional status and other such ethical practices as the board deems necessary ; and

(17) delegate to department officials the disposition of any licensing matters pursuant to board regulations .

*Section 11. AS 08.01.087 is amended to read:

Sec. 08.01.087. POWERS AND DUTIES OF DEPARTMENT. (a) The department shall [MAY], upon its own motion or at the instance of the commission, conduct investigations to determine whether any person has violated a provision of this chapter or a regulation adopted under it or a provision of a chapter in this title dealing with one of the occupations [BOARDS], or to secure information useful in the administration of this chapter.

(b) If it appears to the director [COMMISSIONER] that a person has engaged in or is about to engage in an act or practice in violation of a provision of this chapter or a regulation adopted under it or any of the laws pertaining to the professions [OR REGULATIONS ADOPTED BY THE BOARDS] listed in § 10 of this chapter, he may, if he considers it in the public interest, and after notification to all commission [BOARD] members by telephone or telegraph of a proposed order or action unless a majority of the members of the commission [BOARD] object within 10 days,

(1) issue an order directing the person to stop the act or practice; however, reasonable notice of and an opportunity for a hearing must first be given to the person, except that the director [COMMISSIONER] may issue a temporary order before a hearing is held; a temporary order remains in effect until a final order affirming, modifying, or reversing the temporary order is issued or

until 15 days after the person receives the notice and has not requested a hearing by that time; a temporary order becomes final if the person to whom the notice is addressed does not request a hearing within 15 days after receiving the notice; the director [COMMISSIONER] or his designee shall be the hearing officer at the hearing and shall issue a final order within 10 days after the hearing;

(2) bring an action in the superior court to enjoin the acts or practices and to enforce compliance with this chapter, a regulation adopted under it or an order issued under it, or any of the laws or regulations pertaining to [OR REGULATIONS ADOPTED BY] the occupations [BOARDS] listed in § 10 of this chapter and adopted by the commission established by this chapter;

(3) examine or have examined the books and records of any person whose business activities require licensure by the commission [BOARD LISTED IN § 10 OF THIS CHAPTER] and he may require that person to pay the reasonable costs of the examination; and

(4) issue subpoenas for the attendance of witnesses, and the production of books, records and other documents.

(c) The director shall bring to the commission cases of alleged violations where the protection of the public health , welfare or safety requires immediate action .

(d) The director may overrule a commission determination regarding the issuance of a license ; however , the commission may overrule the director in this instance by a 2/3rds vote of its total membership .

*Section 13. AS 08.01.100 is amended to read:

Sec. 08.01.100. LICENSE RENEWAL, LAPSE AND REINSTATEMENT. (a) All licenses shall be renewed [BIENNIALLY] on the dates set by the department with the approval of the commission [RESPECTIVE BOARD].

(b) A registration, license, permit or certificate[S] requiring renewal to continue to be effective must be renewed n or before the date set by the department or it will lapse. The department may establish a [A] penalty which must be paid [OF $10

SHALL BE CHARGED] in addition to all delinquent renewal fees for reinstatement of a registration, license, permit or certificate which remains lapsed for more than 60 days.

*Section 15. AS 08.01.105 is amended to read:

Sec. 08.01.105. PENALTY FOR IMPROPER PAYMENT. An applicant shall pay a penalty of $15 [$10] each time a negotiable instrument is presented to the department in payment of an amount due and payment is subsequently refused by the named payor.

*Section 16. AS 08.01.110 is amended to read:

Sec. 08.10.110. DEFINITIONS. In this chapter

(1) "board" means the Alaska Commission of the Healing Arts described in § 20 of this chapter [INCLUDES THE BOARDS AND COMMISSIONS LISTED IN § 10 OF THIS CHAPTER];

(2) "department" means the Department of Commerce and Economic Development;

(3) Repealed

(4) "license" means any license, certificate, permit or registration or similar evidence of authority issued by [ONE OF] the commission [BOARDS LISTED IN § 10 OF THIS CHAPTER];

(5) "licensee" means any person who holds a license;

(6) "occupation" means any of the trades or professions for which licensure is required and [BY ONE OF THE BOARDS] listed in § 10 of this chapter ; [.]

(7) "director" means the director of the Division of Occupational Licensing of the Department of Commerce and Economic Development .

*Section 17. AS 08.02.010(b) is amended to read:

(b) A person subject to (a) of this section who fails to comply with the requirements of (a) of this section shall be given notice of his noncompliance by the commission [HIS APPROPRIATE LICENSING BOARD]. If, after a reasonable time, with opportunity

for a hearing, his noncompliance continues, the commission [BOARD] may suspend or revoke his license or registartion, or administer other disciplinary action which in its determination is appropriate.

*Section 18. AS 08.02.020 is amended to read:

Sec. 08.02.020. LIMITATION OF LIABILITY FOR MEMBERS OF COMMISSIONS [LICENSING BOARDS]. No person is liable for damages or other relief in an action by reason of his activity as a member of a regulatory or advisory [LICENSING] commission or board established under this title or by reason of a recommendation or action of the board when the person acts in the reasonable belief that his action or recommendation is warranted by facts known to him or to the board after reasonable efforts to ascertain the facts upon which the action or recommendation is made.

*Section 19. AS 08.02 is amended by adding a new section to read:

Sec. 08.02.030. PROFESSIONAL ADVERTISING. After the effective date of this Act, it is unlawful for a professional association, trade association, occupational or professional licensing agency, or any other governmental agency to adopt, implement, or enforce, or attempt to adopt, implement, or enforce, any prohibition of truthful advertising including publication of fees and prices. However, this section does not prohibit an association or agency to which licensing functions have been delegated by statute from setting reasonable standards or established reasonable requirements pertaining to advertising by an occupation or profession within its jurisdiction.

*Section 20. AS 08.03.010(c) is repealed and re-enacted to read:

(c) The following commission has the termination date provided by this subsection. The Alaska Commission of the Healing Arts (AS 08.10.005) June 30, 1985.

Chapters 20, 32, 36, 64, 68, 70, 71, 72, 80, 84, 86 and 98 of Title 8 are to be uniformly amended so that each reads similarly and provides for:

(1) creation of an "advisory" board for the profession in question consisting of two members of the profession and one public member who also serves on the Alaska Commission of the Healing Arts. Each professional member is to serve for a term of three years, may succeed himself only once and is appointed by the commission;

(2) minimum qualifications to be met by an applicant for any profession currently regulated by the board now in existance.

Each advisory board should, in the amended version, be given authority to advise the commission on regulation and disciplinary questions. The advisory boards, also, are primarily responsible for the administration of and, where applicable, grading of examinations subject, of course, to final certification or review by the commission. References to executive officer/secretary positions in the amended versions should be repealed as a similar position is being created for the commission as a whole.

Included in each amended section should be, if at all possible and where appropriate, the suggestions for statutory changes which have been made by the individual boards. Much board and division time has gone into some of these drafts with the hoped for result being stronger and more workable laws relating to the practice of any of the health care professions regulated by the state.

Finally, certain appropriate and applicable sections of legislation already introduced should be included in the redraft of all sections to be amended. Those bills with applicable sections to be included are HB 46 (relating to advertising by businesses/professions), HB 86 (relating to the practice of veterinary medicine), SB 94 (relating to occupational licensing fees) and SB 261 (relating to physical therapists).

*Section 1. AS 08.01 is amended by adding a new section to read:

Sec. 08.01.005. PURPOSE OF CHAPTER. There is established in the Department of Commerce and Economic Development, an Alaska Commission of the Healing Arts, created with the responsibility of assuring the public of safe and competent health care providers.

*Section 2. AS 08.01.010 is amended to read:

Sec. 08.01.010. APPLICABILITY OF CHAPTER. This chapter applies to the

(1) Repealed;

(2) Repealed;

(3) Repealed;

(4) [BOARD OF] chiropractic <u>profession</u>;

(5) Repealed;

(6) [BOARD OF] dental <u>profession</u>;

(7) Repealed;

(8) Repealed;

(9) [STATE] medical <u>profession</u> [BOARD];

(10) [BOARD OF] nursing <u>profession</u>;

(11) [BOARD OF EXAMINERS IN] optometry profession;

(12) [BOARD OF] pharmacy <u>profession</u>;

(13) Repealed;

(14) [BOARD OF] veterinary <u>profession</u>;

(15) [BOARD OF] psychologist and psychological associate <u>profession</u> [EXAMINERS];

(16) Repealed;

(17) Repealed;

(18) Repealed;

(19) [BOARD OF] dispensing optician [S] profession;

(20) Repealed;

(21) [STATE] physical therapy profession board; [.]

(22) nursing home administrator profession .

*Section 3. AS 08.01.020 is amended to read:

Sec. 08.01.020. COMMISSION [BOARD] MEMBERSHIP AND ORGANIZATION. The commission consists of eleven public members. [UNLESS OTHERWISE PROVIDED, ALL] All commission [BOARD] members are appointed by the legislature for staggered terms of six years [GOVERNOR AND SERVE AT HIS PLEASURE]. However , three initial appointments shall be made for two year terms , four initial appointments for four year terms and four initial appointments for six year terms . No member may succeed himself more than once . [UNLESS OTHERWISE PROVIDED, THE GOVERNOR SHALL DESIGNATE THE CHAIRMAN OF THE BOARD AND ALL] all [OTHER] officers shall be elected by the commission [BOARD] members.

*Section 4. AS 08.01.025 is amended to read:

Sec. 08.01.025. PUBLIC MEMBERS. No [PUBLIC] member of the commission [A BOARD] may:

(1) be engaged in an [THE] occupation which the commission [BOARD] regulates;

(2) be associated by legal contract with a member of an [THE] occupation which the commission [BOARD] regulates except as a consumer of the services provided by a practitioner of an [THE] occupation regulated; or

(3) have a direct financial interest in an [THE] occupation which the commission [BOARD] regulates.

*Section 5. AS 08.01 is amended by adding a new section to read:

Sec. 08.01.026. COMMISSION MEETINGS. The commission shall meet semi-annually for the conduct of its business. The meetings shall be held each time in a judicial district different from the one in which the previous meeting was held.

*Section 6. AS 08.01.030 is amended to read:

Sec. 08.01.030. QUORUM. A majority of the membership of the commission [A BOARD] constitutes a quorum [UNLESS OTHERWISE PROVIDED].

*Section 7. AS 08.01.050(19) is amended to read:

(19) provide investigative services to the commission [BOARDS] established under this chapter [CHS. 20, 32, 36, 64, 68, 71, 72, 80, 84, and 86 OF THIS TITLE,] for the purpose of assisting the [THOSE] board[S] in matters of professional discipline ; and [.]

*Section 8. AS 08.01.060 is amended by adding new subsections to read:

(20) coordinate the activities of the commission established under this chapter and the advisory boards established under chapters 20, 36, 64, 68, 70, 71, 72, 80, 84, 86, and 98 of this title; and

(21) employ an executive secretary for the commission established under this chapter.

*Section 9. AS 08.01 is amended by adding a new section to read:

Sec. 08.01.065. FEES ESTABLISHED BY REGULATION. (a) The department shall adopt regulations which establish application fees, examination fees, and license fees for the occupations covered by this chapter, and which establish the manner in which the fees must be paid.

(b) Before adopting a regulation under (a) of this section, the department shall consult with the commission.

*Section 10. AS 08.01.070 is amended to read:

Sec. 08.01.070. [ADMINISTRATIVE] DUTIES OF THE COMMISSION [BOARDS]. The commission [EACH BOARD] shall perform the following duties [IN ADDITION TO THOSE PROVIDED IN ITS RESPECTIVE LAW]:

(1) keep minutes and records of all proceedings;

(2) hold a minimum of two [ONE] meetings each year;

(3) hold [AT LEAST ONE] examinations [EACH YEAR];

(4) request, through the department, investigations of alleged violations of its laws and regulations;

(5) direct the advisory boards to make recommendations regarding the preparation , selection and grading of examinations [PREPARE AND GRADE EXAMINATIONS];

(6) direct the department to pass on qualifications of routine applicants for examination and license;

(7) forward minutes of meetings to the department within 30 [20] days;

(8) forward results of examinations to the department;

(9) notify the department of meeting dates and places at least 30 [15] days before meeting ; [.]

(10) promulgate all necessary regulations upon advisement by an advisory board and after consultation with representatives of interested professional societies , department staff , consumer organizations and the general public ;

(11) establish minimum educational and training qualifications for all regulated practitioners ;

(12) appoint , from among its membership , committees deemed necessary ;

(13) endorse a valid license issued by a licensing board or commission of another state , jurisdiction , territory or province which was issued upon similar qualifications to those in effect in this state ;

(14) direct the department to remedy any error in the issuance of a license ;

(15) designate a professional conduct officer on recommendation of the commissioner and/or investigative staff in connection with professional misconduct proceedings and criminal matters , such officer to be empowered to issue subpoenas and administer oaths in connection with disciplinary proceedings ;

(16) establish , by regulation , standards of conduct with respect to advertising , fee splitting , practicing under a pseudonym when not authorized , proper use of professional or academic titles tending to imply professional status and other such ethical practices as the board deems necessary ; and

(17) delegate to department officials the disposition of any licensing matters pursuant to board regulations .

*Section 11. AS 08.01.087 is amended to read:

Sec. 08.01.087. POWERS AND DUTIES OF DEPARTMENT. (a) The department shall [MAY], upon its own motion or at the instance of the commission, conduct investigations to determine whether any person has violated a provision of this chapter or a regulation adopted under it or a provision of a chapter in this title dealing with one of the occupations [BOARDS], or to secure information useful in the administration of this chapter.

(b) If it appears to the director [COMMISSIONER] that a person has engaged in or is about to engage in an act or practice in violation of a provision of this chapter or a regulation adopted under it or any of the laws pertaining to the professions [OR REGULATIONS ADOPTED BY THE BOARDS] listed in § 10 of this chapter, he may, if he considers it in the public interest, and after notification to all commission [BOARD] members by telephone or telegraph of a proposed order or action unless a majority of the members of the commission [BOARD] object within 10 days,

(1) issue an order directing the person to stop the act or practice; however, reasonable notice of and an opportunity for a hearing must first be given to the person, except that the director [COMMISSIONER] may issue a temporary order before a hearing is held; a temporary order remains in effect until a final order affirming, modifying, or reversing the temporary order is issued or

until 15 days after the person receives the notice and has not requested a hearing by that time; a temporary order becomes final if the person to whom the notice is addressed does not request a hearing within 15 days after receiving the notice; the director [COMMISSIONER] or his designee shall be the hearing officer at the hearing and shall issue a final order within 10 days after the hearing;

(2) bring an action in the superior court to enjoin the acts or practices and to enforce compliance with this chapter, a regulation adopted under it or an order issued under it, or any of the laws or regulations pertaining to [OR REGULATIONS ADOPTED BY] the occupations [BOARDS] listed in § 10 of this chapter and adopted by the commission established by this chapter;

(3) examine or have examined the books and records of any person whose business activities require licensure by the commission [BOARD LISTED IN § 10 OF THIS CHAPTER] and he may require that person to pay the reasonable costs of the examination; and

(4) issue subpoenas for the attendance of witnesses, and the production of books, records and other documents.

(c) The director shall bring to the commission cases of alleged violations where the protection of the public health , welfare or safety requires immediate action .

(d) The director may overrule a commission determination regarding the issuance of a license ; however , the commission may overrule the director in this instance by a 2/3rds vote of its total membership .

*Section 13. AS 08.01.100 is amended to read:

Sec. 08.01.100. LICENSE RENEWAL, LAPSE AND REINSTATEMENT. (a) All licenses shall be renewed [BIENNIALLY] on the dates set by the department with the approval of the commission [RESPECTIVE BOARD].

(b) A registration, license, permit or certificate[S] requiring renewal to continue to be effective must be renewed on or before the date set by the department or it will lapse. The department may establish a [A] penalty which must be paid [OF $10

SHALL BE CHARGED] in addition to all delinquent renewal fees for reinstatement of a registration, license, permit or certificate which remains lapsed for more than 60 days.

*Section 15. AS 08.01.105 is amended to read:

Sec. 08.01.105. PENALTY FOR IMPROPER PAYMENT. An applicant shall pay a penalty of $15 [$10] each time a negotiable instrument is presented to the department in payment of an amount due and payment is subsequently refused by the named payor.

*Section 16. AS 08.01.110 is amended to read:

Sec. 08.10.110. DEFINITIONS. In this chapter

(1) "board" means the Alaska Commission of the Healing Arts described in § 20 of this chapter [INCLUDES THE BOARDS AND COMMISSIONS LISTED IN § 10 OF THIS CHAPTER];

(2) "department" means the Department of Commerce and Economic Development;

(3) Repealed

(4) "license" means any license, certificate, permit or registration or similar evidence of authority issued by [ONE OF] the commission [BOARDS LISTED IN § 10 OF THIS CHAPTER];

(5) "licensee" means any person who holds a license;

***Mr. Mellon testified during the morning session and the afternoon session. Due to equipment malfunction, morning session was not recorded and written testimony has been requested. Mr. Mellon's afternoon testimony was recorded and is included in this transcript.

BURKE: Thank you. First of all, I supervise what we call in the Civil Division, the Business Regulation and Taxation Section. There are four attorneys in that section in our Juneau office, including myself, two in the Anchorage office, although I do not supervise them, and another in the Fairbanks office. And our section basically is responsible for representing the Department of Revenue and the regulatory side of the Department of Commerce. This includes the Division of Occupational Licensing and the licensing boards themselves. Basically, the kind of assistance that we provide to the boards falls into three categories: requests for legal advice on specific questions, assistance in the rule making activity of the board and that is regulation review, and finally representing the Division of Occupational Licensing in disciplinary proceedings or in proceedings where someone is complaining about say the denial of a license or some other action taken by a board. As I understand it, the Department has come under some criticism generally during the course of the sunset review hearing that your Committee has been conducting. I can't really respond to those in any specific sort of way because from what I've heard, they're simply too general at this point. It would be helpful if the Committee desires if specific instances could be brought to our attention, we might be able to make a more specific response to some of the complaints that we've been hearing. I think one area where I myself have heard complaints from boards has been in the area of requests for opinions and that's one area, at least with respect to the one board that I talked with recently, where it seemed to me that some misunderstandings had occurred as to the procedure that the board should go through in order to have these opinions pop out when they want them to. In order to do that, I'd like to explain very briefly about what I call our department's work-management reporting system. Every time an opinion request comes through either the Attorney General or the Deputy Attorney General, a file is opened and it is given a number and the name of the file and the number is put into our computerized information system. And this reports out every month every opinion request that has come into the department through the official channels. Now for my section, I will get a copy of all of the work-management reports for the attorneys in my section. And I go through it at the beginning of every month when I get the report to see how long it has been since these various files have been opened. If it looks to me that something has been open for a couple of months with no action apparently having been taken, I can then go to the attorney to whom the opinion request was assigned and say "What's going on? Are you having any problems with it? Why isn't this getting out?" Now if requests for opinions come into the Department in any other way, either directly to me or directly to one of the other assistant attorneys in my section, it is possible that the request doesn't get logged into our information system -- our management reporting system. And when that happens there is a tendancy for them to get lost. They can

drop through the cracks. Sometimes I have observed that a board will ask a question say of an attorney who is attending a board meeting and the board thinks that is all it has to do and that an opinion will be forthcoming on the question. The attorney is under the impression that the board will send a written request to the Division of Occupational Licensing and that the request in writing will come through the Commissioner's Office to the Attorney General in the normal course of events leaves the meeting and forgets about it. So what I am I guess saying is that the boards need to make sure that the opinion requests come through in this procedure. We have prepared and have provided to all of the licensing boards a copy of a manual for occupational licensing in the state. This manual covers general policy reasons for occupational licensing, rule making authority and how the board should go about promulgating regulations. It goes through disciplinary proceedings and the other adjudicatory functions of the boards and it goes finally lists the functions of the Department of Law and I'd like to read a sentence or two from this, which has been sent to all of the boards: "Requests for opinions made by boards must be made by the board president and must have the approval of the Commissioner or his designee before submission to the Department of Law. This ensures that frivolous or repetitious opinion requests are not submitted." Now in that line, I should also point out that every so often, we will get request for legal advice that aren't really requests for legal advice at all. A board may be reluctant, quite frankly, to make a decision in a particular area and is really asking the Department how should we decide this policy question and, of course, that's not our job and we shouldn't be doing that. The Division of Occupational Licensing is aware of this distinction between legal questions and policy questions and that's another reason for sending the opinion requests through the Division and through the Department and that is that they can screen them for us so that we get only what are truly opinions for legal advice.

BRADLEY: Susan, does that

BURKE: I guess that's basically all that I wanted to tell the Committee. I can answer general questions and I can make note of any specific questions that the Committee members might have and perhaps get back to the Committee at a later time with the answers to specific questions.

BRADLEY: Senator Sturgulewski?

STURBULEWSKI: Mr. Chairman. Susan, I appreciate your comments. As a member of the Health, Education, or HESS Committee in the Senate, we reviewed health boards and now as a member of the Commerce we're obviously getting into a number of other boards and I'll just make a flat out statement that I don't think that we've had a board before us that has not had rather significant problems

in a number of areas. One, the ability to get regulations drafted in a timely manner, the ability to get assistance with statute or practice act changes that are needed, the ability to know just what complaints are filed and what the process and progress and final disposition of those are. I think this has just run through the whole thing. There are some of us that feel if a sunset is to be successful, it's going to take further coordination really between the boards representing the public interest, the occupational licensing and law. I guess I'm at a loss to, I understand how it is necessary to have very specific things brought to you. The fact is we have had, I think, a major breakdown and nonutilization of people who put in a great deal of time either through, in some cases, their not knowing the procedures, in others just a very basic fact of communication. I guess I would challenge you to either at this time or later to assist this Committee in finding a way that we can in fact have an opportunity to have a closer working relationship between the boards, the Department of Law and OL. I don't think I as an individual want the state, you know, you're to blame or this person is to blame. It's to find out how to make the system work and it flat out isn't.

BURKE: Senator Sturgulewski, I will solemnly pledge my assistance to help work out in a constructive way any kind of procedures that will make the occupational licensing system work better. You have my word.

STURGULEWSKI: Mr. Chairman, again I'm certainly in no way critical of any individual but I really appreciate that and I think it is absolutely vital to making the whole process of sunset work. Just getting rid of boards and throwing it on OL without some basic changes, I think is no answer so I really appreciate that comment.

BRADLEY: Any other comments or questions by members of the Committee? Staff?

BASLER: Just a comment.

BRADLEY: Okay, Chris. Christian Basler.

BASLER: Susan, I really would like to take this time to ask you if you could possibly send me expeditiously a copy of the booklet that you referred to that is sent to all the Board members earlier in your testimony. I'd like to really see that as fast as possible.

BURKE: Oh, absolutely. I had intended and neglected to offer to do that without having to be asked earlier. If you tell me where to send it, I'd appreciate it.

BRADLEY: Susan, when was that distributed?

BURKE: I'm not entirely certain, Senator Bradley. The date on it is 1979. I think it was fairly recently. I could look back in our files and give you a more exact date but it was sometime earlier this year.

BRADLEY: Fine, as long as we can get a copy. That will satisfy the request. Thank you, Susan. Does anyone else have any questions or statements? Senator Sturgulewski again.

STURGULEWSKI: Mr. Chairman. Susan, one of the areas that we have had quite frequent requests for and this goes into the health boards and most recently, I believe, before the Board of Engineers, Architects and Land Surveyors, has been the request for the boards to have a more active role in pursuing a complaint and I think that generally their response has been that "No" well because it gets involved somewhere along the process that it is not appropriate for their involvement. And I think that is something that the staff of this committee is going to have to take a look at is how much can we utilize the board in more or less of a self-policing of various professions. I think that's a major issue and I think that your comments along that line may well be needed as we move along in this.

BURKE: May I defer committing myself to any particular comment until later on in the process or would you like me to -- I hesitate to speak on behalf of the Department on this issue because I really haven't discussed either with the Attorney General or his deputy?

STURGULEWSKI: Mr. Chairman. Susan, that obviously is certainly appropriate, but I do think that's an area that goes across the lines in a number of the boards and many of them feel that they really need timely reports, need to know what's going on and become involved in following up on those cases so I think that is something that would be helpful to have a position paper on.

BRADLEY: Thank you very much, Senator Sturgulewski. I think we all share the same feeling about the situation and know that there has to be something done about it. Let me me insert right now for all stations, both Fairbanks and Juneau as well as Anchorage here, anyone that has any written testimony, please submit copies to the Senate Commerce Committee at address 1016 West Sixth Avenue -- I think you probably already have that -- Anchorage, Alaska 99501. If you have any problems, the telephone number is 278-1581 or 82. In that we had some problems with our recording device this morning and we must have that testimony or we'll have to do it all over again and that puts a lot of people to a lot of trouble and time is of the essence right now with the Committee. We have a lot of sunsets. So this applies to those that are still here and we'll contact those that have departed since this morning. It is unfortunate. The first time we've had it to happen but I guess there is always a first time for everything. Now let us have, let me check with Juneau first. Do you have anybody else in Juneau?

JUNEAU MODERATOR: Mr. Chairman, we have one more witness to testify for the Board of Electrical Examiners.

BRADLEY: Hold, Sioux, in Juneau and let me check with Maxine in Fairbanks. Maxine, do you have anybody that's in an extremely big hurry or can we go ahead and finish off Juneau for the afternoon?

FAIRBANKS MODERATOR: Mr. Chairman, that's just fine with us. We realize that Juneau is two hours later. We will take our place in line after them.

BRADLEY: Thank you, Maxine. That's the point I had in mind. Go ahead with the next witness to testify, Juneau.

JUNEAU MODERATOR: Our next witness is Tom Cashen who is representing the International Brotherhood of Electrical Workers, Local 1547.

CASHEN: Senator Bradley, good to talk to you again. I'll be real brief and try not to be redundant with regard to the previous witnesses. I'd like to testify in support of the Board of Electrical Examiners. The elimination of the board would be bad for the general, for the electrical industry and the general public. Some of the reasons given for elimination of the Board are that all electricians are licenses anyway and therefore there is no need to license contractors. Well this, these lower requirements for the Certificate of Fitness would lower the standards of the industry and it would create a thousand new electrical contractors overnight. This would be create a situation that would be impossible to regulate and the result would be no protection for the public. You know, like here today gone tomorrow, no established shops or any responsibility to the customers. Another reason put forth for elimination of the Board is that there is inspection by municipalities. With the exception of Anchorage and Fairbanks and possibly Juneau, the smaller towns do not have an adequate inspection program due to lack of funding and inability to hire qualified people. Of course, you've heard already how impossible it is for one or two State inspectors to try to cover the entire State so rather than eliminating the Board, I think we should try to get some additional funding so that they can do a proper job. Thank you for your time, Senator. Over and out.

BRADLEY: Thank you, Tom, very much. Nice hearing your voice again, too. Any comments or questions by members of the Committee or staff? Tom, we have no questions. Thank you and, Susan, you haven't had anyone else to come in at the last minute have you. Over?

JUNEAU MODERATOR: No, Mr. Chairman, we have not.

BRADLEY: Well, Sioux, thank you very much. Of course you know you are welcome to listen in but you don't have to. So now we'll go to Fairbanks. Maxine, next person to testify, please.

FAIRBANKS MODERATOR: Yes, Mr. Chairman, we have Terence Duszynski, and I will spell both names. Terence is Terence and Duszynski is Duszynski. And he is representing Interior Alaska Dwelling Inspection Council.

BRADLEY: Go ahead, Mr. Duszynski.

DUSZYNSKI: Mr. Chairman, I am an inspector for the Interior Alaska Dwelling Inspection Council and the Council is a private, nonprofit corporation that was formed in 1977 to provide the services of inspection, recommendation and guidance for homeowners, homebuyers and homebuilders in the Fairbanks area because there is no inspection of any kind outside the City limits. The major thrust of our inspection is in electrical and fire safety; however, we do inspect the entire dwelling from the foundation to the chimney. Since we first began operation in June of 1977, I have personally inspected 45 homes, all of these in the Greater Fairbanks area. Of these 45 houses, nine were found to have deficiencies, both electrical and otherwise. Of these nine, five have been inspected because of litigation between owner and builder or owner and seller. I would like to give a short rundown on the kinds of things I have found in these nine homes. The first home was inspected by request of the bank handling the construction loan in August of 1977. This was a spec house which had been wired by the general contractor himself. Although the work was done using correct materials, it was done in a shoddy manner. Wires were not stapled correctly, tiedown clamps were not used for wires coming into the outlet and fixture boxes and insulation was also stripped off the wire well before it came into the boxes. Now the bank required this builder to fix the house so that it was passable. The second house I inspected was done by request of the homeowner in March of 1978. The wiring in this house was also done by the builder. The majority of the outlets had the ground wire cut off or not attached to anything. The main panel was not properly grounded and there was no ground fault protection in the bath and exterior outlets. I don't know what has come from this particular inspection. The third house was also done by request of the owner in March of '78. There were a number of deficiencies that the builder had refused to repair among them was a sloppy wiring job in the basement and at the boiler. I have photos of these. This work was done by an unlicensed electrician for the general contractor. The fourth house was inspected by request of a prospective buyer in April of 1978. This was a ten-year old home and its deficiencies included junction boxes without covers in areas where possible water damage could occur and outlets of the nongrounding type. The work in this house had been done by the owner-builder. The fifth house was done by request of a real estate agent because of a Fanny Mae requirement of inspection of all duplexes that they

finance. This dwelling was five years old. The main grounding for this house was attached to thin air and the hot water heater was connected with black tape with the wires exposed. Now this house had to be repaired in order to be sold. The sixth home inspected was done by request of the owner because the house had recently had a major fire and he wanted to be sure that the contractor doing the work had done it correctly. The wiring was again done by the contractor himself. He left the main power lines from the service to the distribution panel exposed to touch. The wire to the hot water heater and boiler were exposed romex; the lighting in the basement and the garage were exposed romex stapled to the ceiling. There was also no ground fault protection. The seventh house was also inspected by request of the homeowner after repeated attempts to have the builder repair the deficiencies and the builder saying that there was nothing wrong. The house had a number of deficiencies; however, the only electrical problem was that there was no inhibitator used at the connection of the main feeder wire and the interior distribution panel. The eighth house on this list was again done at the request of the owner. The wiring had been done by the previous owner-builder. It was a log home, approximately seven years old and the deficiencies included all the wiring being exposed to touch and light fixtures hanging in mid air supported only by the romex attached to the sides coming in and going out. The last house in this group shows perhaps the most blatant disregard for electrical standards and personal safety that I've ever seen. I inspected this house on Monday of this week. It is two years old. What adds to the seriousness of the deficiencies is the lack of care shown by the persons who should have cared. This home is located in University Heights, which is a fairly expensive subdivision in Fairbanks. It had been appraised by a licensed appraiser at $96,000. It was represented and sold by a realtor. The financing was arranged by a local bank and it is insured for 80% of its value and its mortgage is now held by the Alaska Housing Financing Corporation. At least one-third of the total wiring in this home has been done with zip cord, which is common lamp cord. Zip cord had been used for switches and power for lights, even the humidifier attached to the forced air furnace is wired with lamp cord. The smoke alarm was put on a switch using zip cord. Apparently the furnace often smoked because of improper installation and the owner-builder got tired of the alarm going off so he switched it. The main feeder cable for this out was spliced using some sort of split volt connector and black tape. A bath exhaust fan wired and switched zip code was also vented into the wall. Zip cord goes into junction boxes which contain romex and comes out again. It runs all over the house from attic to basement. It is sandwiched between studs and crushed under the furnace. This house was unsafe for habitation and was still handled just like any other. The purchase occurred last April. This house is a fire waiting to happen. I also would like to bring to your attention that the building we are sitting in right now has a number of deficiencies in it. I have photographs of these which I will send to you. But there is romex exposed on the ceiling, stapled only, and there is romex going in and out of florescent fixtures

without benefit of connectors to either hold it to the fixture or protect it from sharp edges. All these unsafe conditions have persisted while the Board of Electrical Examiners has been administering the contractor's test. Can you imagine what will happen if there is no test given to qualify electrical contractors at all. If this Board is allowed to die and the testing of electrical contractors along with it, then the Legislature will in effect be declaring open season on residents of this State. What we need is more stringent controls on electrical wiremen and contractors, not less. The recommendations by the audit that the Certificate of Fitness will take up the gap if the administrator's examination is done away with is not valid. The electrical administrator's examination is far more stringent than the Certificate of Fitness examination and there is no redundancy of the two examinations. The electrical administrator's examination requires a much greater degree of electrical knowledge and practical skill thereby assuring the general public of a better quality of workmanship. The requirements for application for the inside wiring and electrical administration, administrator, are more restrictive than the requirements for the journeymen electrician certificate of fitness. The administrator-applicant must have three years of current practical experience as a journeyman electrician plus four years of current management experience in inside wiring as a field superintendent, office engineer or similar position or a degree in electricial engineering plus one year's experience as a journeyman electrician in inside wiring. In summary, the applicant is required to have a total of about ten years' experience prior to examination or five years' experienece if he holds an electrical engineering degree. The requirements for application for the journeyman electrician certificate of fitness are four years of experience in electrical trade, which by definition means installation and construction of inside wiring within buildings. The open book examination required for the Certificate of Fitness is composed of questions taken verbatim from the J3 National Electrical Code Course textbook taught in many schools and tests the applicant's knowledge of the National Electrical Code. The examination does not address the practical application of the code nor does it test the working skills of the electrician. It has come to my attention that during a recent NECAIBEW Code Course that an apprentice electrician who had never been employed by a contractor, never carried a set of tools and never performed electrical work of any kind passed the certificate of fitness examination with a grade of 86%. If this student could document four years in the electrical trade, he could apply for an electrical contractor's license and bid any electrical job in the State. That is, if the Board of Electrical Examiners is done away with and there is no more testing. The Certificate of Fitness issued by the Department of Labor does not assure that an electrician has knowledge of the National Electrical Code and should be able to -- excuse me, does assure that the electrician has knowledge of the Code and should be able to install wiring in accordance with that but

the certificate does not assure the ability of the applicant to read blueprints, design layouts, supervise contract or install complicated electrical systems found in many industrial, commercial and multi-family projects. The electrical administrator's examination does address the complicated problems of this wiring. I would like to also say that there have been a couple of state projects that had been wired by nonlicensed electricians. Of these, there was one in Delta Junction. It was some Trooper housing and some Trooper housing in Cantwell also and they had to have the tenants evacuated because of the dangerous conditions there. As you can see, I'm in favor of all testing of contractors, electricial contractors, and also keeping the Certificate of Fitness for any wiremen who work on any electrical work.

BRADLEY: Mr. Duszynski, are you through with your testimony?

DUSZYNSKI: Yes, I am.

BRADLEY: Thank you very much. Any questions by any members of the Committee? or statements? staff? Thank you very much, Mr. Duszynski. Appreciate your enlighting testimony very much. Oh, I'm sorry, I think we do. Senator Sturgulewski?

STURGULEWSKI: Mr. Chairman. No question. Very good testimony. I would hope that we could perhaps consider directing a letter to the appropriate, I would imagine, DOTPF, to specifically ask for a response to that particular comment regarding the Trooper housing and I think that might be interesting to know the answer.

BRADLEY: Very valid, Senator Sturgulewski. Incidentally, can everybody hear all right in the back? It seems to me that everyone was speaking loud enough, sometimes they don't, but if not, just raise your hand. Incidentally, there's coffee back there if anybody so desires. Feel free to help yourself. And now we'll go ahead with another Fairbanks if it's all right. I don't think we have any more electricial examining board testifiers here, right? Couple have come in lately but I guess they were for the welding board. Maxine, next one to testify, over.

FAIRBANKS MODERATOR: Yes, Mr. Chairman. We have Robert Mellon again. He is from Denali Electric. He testified earlier.

MELLON: Hello, Mr. Chairman. I just want to say in closing that we not only need a licensing board to examine the contractors but we need very badly an adequate inspection department that can inspect some of this work even after it's done by the licensed contractors. Most of the work outside the City of Fairbanks, I would say, is being done by unlicensed men and is very sloppy work and definitely hazardous. I would suggest that we spend a little bit of money, in fact an awful lot of money, in increasing our staff of electrical inspectors and not only, not stopping there

but have some plumbing inspectors and some general structural inspectors. It's going to be expensive, definitely, but it could and will save lives, I'm sure. That's all.

BRADLEY: Senator Sturgulewski?

STURGULEWSKI: Mr. Chairman. Mr. Mellon, have you ever appeared before the Assembly with request. I think one of the problems, anytime you get government too far away and inspection too far away, there are problems. It should be done on a local level. Why hasn't it been done in the Fairbanks area as far as the North Star Borough?

MELLON: There is no inspection department for the North Star Borough. There is an inspection department which Jerry here works for but that is on a voluntary basis.

STURGULEWSKI: Mr. Chairman. Mr. Mellon, you might take yourself before that Assembly and tell them to get their act together up there. That might be an answer.

MELLON: I'm the guy that started it.

STURGULEWSKI: Good for you.

BRADLEY: Any other question for Mr. Mellon? No one? Mr. Mellon, thank you very much. We certainly appreciate testimony from someone on the receiving end. Maxine, any other people to testify from the great Fairbanks area?

FAIRBANKS MODERATOR: Mr. Chairman, no one sitting for the Electricial but we do have on person waiting here to testify for the welding end of it.

BRADLEY: Very well. Thank you very much. Juneau any more electricial examiners board to testify?

JUNEAU MODERATOR: Yes, Mr. Chairman, this is Debra in Juneau. We have two individuals wishing to testify for the Board of Welding Examiners.

BRADLEY: We're going to take just about a one minute recess here before we start with the Welding Examiners Board so stand by.

Re: Testimony given for Board of Electrical Examiners

Dear Senators:

Thank you for allowing me this opportunity to express the opinions of the membership of A. I. E. C. A. We respectfully submit five suggestions that we feel will help to correct the existing problems with the Board of Electrical Examiners.

First of all, with regard to composition, we feel that all facets of the electrical industry should be represented. The board should be made up of five members to include one licensed administrator from a large union company that performs primarily large commercial jobs, such as high rise office buildings. It should also contain one licensed administrator from a small non-union company that performs primarily residential work, one licensed administrator from a firm that performs high line work, one electrical engineer that has no administrator license, and finally one member that has no knowledge of electrical work, but is very concerned with the publics tax dollars.

Second, the tenure of these people should be a two year term with only one re-appointment possible. These terms should be staggered in accordance with existing statutes.

Third, according to current law, the board is required to submit an annual report, however, I understand that this is not being enforced. I would suggest that this be mandatory under penalty of dismissal for violation.

Fourth, current law in Alaska states that if there is no licensed electical contractor within fifty miles of a location, that anyone may legally contract electrical work in that location. In this situation, we rely on the state electrical inspector for safety, however, in reality, we find that a.) Senate bill 232 seeks to repeal the entire state electrical inspection department, and b.) the largest state in the nation has only two inspectors with an annual travel budget of approximately $2,500.00 each. Considering all of the construction sites in the state of Alaska, very few get proper inspections with that type of budget. Our suggestion would be to increase the number of inspectors, and increase the travel budget to allow them to do thier jobs, and finally to allow them to charge for either mandatory inspections, or mandatory permits so that inspections can be made such as Anchorage handles its inspection programs.

Our last suggestion concerns the testing proceedures within the state. The performance review prepared by the Legislative Audit Division cites two examples of inconsistent grading of tests. We feel that the board should prepare the test and then submit it to the Department of Labor to administer, as they already administer all of the tests for the state certificate of fitness. An applicant for the administrators license should appear before the board with his application and documentation of experience to be qualified to write the test. If his papers are in order, he should be referred to the Department of Labor to schedule his test. The test should be numbered at the Department of Labor when he writes it to protect against any possible biases that the board might have when they grade it at thier next meeting. Grading should be done with one standard answer sheet that has the approval of the entire board. After grading, all tests should be returned to the Department of Labor who would then issue administrator licenses to those individuals who had been given passing grades. This administrators license should encompase both the journeyman and wireman certificate of fitness. As this test is considerably more difficult, those who pass it should not be required to go back and pass a certificate of fitness test.

Sincerely,

Michael L. Frith

Sunset Review on Electrical Licensing
Senator Brad Bradley, Chairman
-November 7, 1979-

My name is Lawrence M. Slay Jr. and I am here to testify in favor of and for the retention of the requirement for Electrical Administration licensing.

This past summer, the State of Florida, through sunset review did away with the requirement to license psychiatrists. In a very short while they had issued over a thousand permits for individuals to practice psychiatry; a person who would go to one of those untrained individuals should have their head examined. I feel very strongly the same way about using an unqualified person to do your electrical contracting.

I have appeared in court several times as an expert witness for the prosecution attorney in cases where electrical work was not done in a manner conforming to the applicable codes. An example: The village of Elim had a fish processing plant built by a company that did the entire contract and was not qualified to do the electrical, refrigeration, structural, generation nor the general construction. The people in the village that paid for the job were virtually raped. Conductors were left exposed on the ground, house panels were used in an area that was washed down each day. The generator was not fastened down and junction boxes were not used. I wrote up four pages of violations on the National Electric Code, just on that small job. It was a hazard and was in imminent danger of fire. A very similar condition existed in the village of Golovin.

I worked on a house for Dr. Dicksheet in Fairbanks that was so badly wired that the repair of it cost more that the original work. I have seen much shoddy workmanship on houses that are not inexpensive. Zip cord, exposed conductors and general violations are not uncommon. The majority of the work done in the haphazard manner was done by persons not qualified, licensed nor trained in any phase of electrical work. Owners often, in order to save money or the inconvenience, will often allow non-qualified persons to do their work.

Don't get me wrong - I have no complaint about people who wish to do their own work and live in it. They can burn their dwelling right down around their ankles if they so choose. What I argue with is that a person or persons selling services should be made to comply with the code and guarantee their work. Anyone who does electrical work that involves the life and safety of others should be made to comply with the laws

That we presently have. We do not have sufficient inspection or funds for inspection travel nor cooperation of the Attorney General in the enforcement of violations.

In 1976, a New Jersey contractor working at Fort Wainwright had no electrical contractor and had young inexperienced G.I.'s doing the work of residing the housing. At the time, I complained to the base and wrote letters to Washington - nothing was done until a young soldier touched a service drop with an aluminum ladder and was killed. We do not need after-the-fact inspections and compliance.

Contractors that are now licensed, are responsible, have expertise, have been trained, use qualified people, work safely and do their best to protect life and property. Most contractors must maintain their reputation to remain in business. An unlicensed individual would feel no responsibility for any of the foregoing.

This brings up another point that is a real irritant. People from down south bringing a work force to our state, doing a botched up job, not using our Alaska labor and skipping out without paying State tax. I can name numerous jobs done in just this manner. Alaska work is for Alaska people.

Another point is that the State does not even follow it's own laws. They act outside the law, don't follow the codes, do work without the license and use uncertified people. Our Electrical Inspector, Tony Reed can cite you many examples; the State Highway Department, the Department of Public Works, and Department of Transportation are all violators of the law.

I write tests for the State. I am not paid for this but as of this month will start getting my expenses. I make the test as objective as possible. The Board examines in five catagories and we have three tests in each catagory. The material for the test is taken from Code, safety standards, and material that is taught to apprentices. Contractors should have at least that amount of knowledge.

I state that my present position is working for both Labor and Management.. I am presently the coordinator for the Electrical Training School and teach both apprentices and journeymen in all aspects of the trade.

Dear Mr. Hudson:

Thank you for your testimony regarding the Board of Electrical Examiners, which you gave before the Senate Commerce Committee on November 7, 1979.

Due to mechanical problems with the teleconference recording system, we were unable to record your testimony for the Committee's records. The system had been checked out prior to starting the hearings and was in operating condition but when the tapes were checked prior to the afternoon session, it was discovered that only a loud hum had been recorded. If possible, therefore, the Committee would appreciate it if you could submit either a copy of your testimony, if you were speaking from prepared text, or a summation of your views regarding this matter in order that your feelings might be made a part of the Committee's record.

We apologize for any inconvenience and we look forward to receiving your written testimony and/or exhibits concerning the Board of Electrical Examiners. We would like to receive this testimony as soon as possible and should we be able to assist you, please do not hesitate to contact our offices.

Sincerely,

Christian Basler

Dear Mr. Mellon:

Thank you for your testimony regarding the Board of Electrical Examiners, which you gave before the Senate Commerce Committee on November 7, 1979.

Due to mechanical problems with the teleconference recording system, we were unable to record your testimony for the Committee's records. The system had been checked out prior to starting the hearings and was in operating condition but when the tapes were checked prior to the afternoon session, it was discovered that only a loud hum had been recorded. If possible, therefore, the Committee would appreciate it if you could submit either a copy of your testimony, if you were speaking from prepared text, or a summation of your views regarding this matter in order that your feelings might be made a part of the Committee's record.

We apologize for any inconvenience and we look forward to receiving your written testimony and/or exhibits concerning the Board of Electrical Examiners. We would like to receive this testimony as soon as possible and should we be able to assist you, please do not hesitate to contact our offices.

Sincerely,

Christian Basler

June 30, 1977

TO WHOM IT MAY CONCERN:

This personal affidavit is true to the best of my knowledge and is presented as a true vesture of my capabilities warranting a working Administrators Contractors Licenses for inside and outside electrical wiring and communication work.

My knowledge and experience in the field total thrity-two years . Working in conjunction with and under the supervision of Merideth E. Young, Contractor in Chicago, Illinois, I have completed basic training, graduating in the field of electricity, majoring in all phases of commercial, industrial and residential wiring.

While employed by New York Shipbuilding Company of Camden, New Jersey and Sunship Building Dry dock of Chester, Pennsylvania, I performed both inside and outside wiring. Such work included generators, motors, transformers, panels, circuits, wiring, testing, and radar signaling, installing and testing. At the same time, I operated my own business, H.D. Wilson Electric.

In 1968, new Pennsylvania legislation required licensing of electrical contractors. At that time, I obtained an electrical contractors license which I have held until moving to Alaska in late 1976. H.D. Wilson Electric has operated for a total of 27 years. We have completed contracts for the City of Philadelphia Water Department, Park District, Recreation Department, School District and the Phildelphia Naval Yard, as well as numerous other contracts. A summary of contract abstracts is attached for your review and consideration.

If there is any additional information you desire, I would be most happy to provide it.

Sincerely,

H D Wilson

The Honorable Mike Gravel
United States Senate
Washington, D. C. 20510

Dear Senator Gravel:

This letter comes to your attention to apprise you of a situation I am now confronted with which leads to my frustration, and represents a challenge to my livelihood.

The problem I am confronted with is that I am a licensed, bonded and certified Electrical Contractor, licensed in the State of Pennsylvania. I have been providing professional services in that field for over 30 years. I am now residing in the State of Alaska, and find it impossible to practice my profession because Alaska has no reciprocity in this field with the State of Pennsylvania, and because of this, I am forced to take an examination for said license.

Should I successfully satisfy the examination requirements, I would be one of a few minorities, and more specifically, one of three Blacks, who have done so in the State of Alaska. However, at this point in my life, this examination poses what I feel is an unnecessary hardship. Therefore, I would want you to intercede.

Under Section 08.40.160 of the Alaska Statutes Waiver of Examination, I feel I am qualified for a waiver of examination because of the above. Please advise me of efforts your office can make to improve opportunities for minority business participation.

I look forward to your reply.

Sincerely,

H. D. Wilson

Dear Mr. Wilson:

Thank you for your letter asking for assistance in regard to the practice of your profession in the State of Alaska.

Since licensing is a state matter, I have referred your letter to the Commissioner of the Department of Labor. Enclosed you will find a copy of my letter to him. He will be able to advise you on a further course of action.

Please feel free to contact me if you need any further assistance.

Warm regards.

Sincerely,

Mike Gravel

Dear Mr. Wilson:

The Board of Electrical Examiners has confirmed the following dates, times and places:

ACTIVITY:	DATE:	TIME:	PLACE:
Public hearing regarding proposed changes in regulations	11/15/78	9:00 a.m.-Noon	Grand Jury-Room 407 Alaska Court Building 303 K Street Anchorage
Reviews of August exam	11/15/78	1:30 p.m.	YMCA 6th and F Streets Anchorage
Board meeting	11/16/78	8:30 a.m.	YMCA 6th and F Streets Anchorage
Electrical Examination	11/17/78	8:30 a.m.	YMCA 6th and F Streets Anchorage

Testimony from the public, both written and verbal, will be accepted at the public hearing. Written testimony regarding the proposed changes in the regulations should be submitted to the Department of Commerce and Economic Development, Pouch D, Juneau, Alaska 99811, postmarked no later than midnight, November 9, 1978.

The Board of Electrical Examiners will hold a regular meeting for the purpose of conducting its usual business and possible adoption of regulatory changes.

Those who took the examination for the electrial administrators' license in August may review their exam results with the board. Reviews will be taken in alphabetical order.

Mr Scale

Those persons whose applications have been approved and have received notification of approval may sit for the electrical exam. Those who have taken the exam before may retake portions failed, provided they have notified the licensing examiner in advance.

If you have any questions, please feel free to contact this office.

Cordially,

MEMORANDUM

TO: Robert Cates
Deputy Commissioner

DATE: May 11, 1978

FROM: Glen Campbell
EEO Director

SUBJECT: H.D. Wilson, Minority Electrical Contractor

We would like to make you aware of a problem that Mr. H.D. Wilson a minority electrical contractor is encountering in regards to obtaining his license for the State of Alaska (please see attached correspondence).

As indicated, Mr. Wilson requested a waiver of examination due to his qualifications and extensive experience in his field.

Although this matter does not fall within the particular jurisdiction of our office, we are very concerned about it from a humanitarian viewpoint as well as the fact that the present posture of minority electrical contractors within the State of Alaska is extremely low. At present there are only two minority electrical contractors that obtained their license in the State of Alaska, and they did not obtain these licenses through the examination process, but obtained them under the Grandfathers clause. Perhaps the requirements create disparity for minority electrical contractors and this matter should be looked into.

Any assistance that you can offer in regards to this matter would be greatly appreciated.

Thank you,

JAY S. HAMMOND
GOVERNOR

Dear Mr. Wilson:

Unfortunately, this is not good news. The Department of Law informs me that there is no legal way that the Governor can grant you a waiver of examination to become an electrical contractor.

We certainly wish we could help in this matter, but just cannot. If you have any other suggestions or ideas on how we might assist, please let us know and we'll take a look.

Sincerely,

Bill McConkey
Special Assistant
to Governor Hammond

PRESENTATION BY MR. H. D. WILSON

History of my experience with the test.

REQUESTS:

1. Is it possible to take a test that is only in the area of electrical work for an electrical contractor's license?

2. If so, when will the test be given in Anchorage?

RECOMMENDATIONS:

Update all questions on the tests and review them to see if they are job related in my field category.

As an Alaskan with an Alaskan electrical license, I feel that some consideration should be given to me. I am a minority and there are only three other minorities in this field -- to my knowledge. There are so few of us who pass the test. I would recommend that you review your own records and see how many minorities have taken the general construction license test series. Then compare the number of minorities who took the test and passed, to the number of nonminorities who took the test and passed. I believe such a comparison would indicate the need for my final recommendation - A tutoring program must be initiated to assist minorities with general questions which will help us to qualify for the test.

Re: Ombudsman Complaint 77-1505
(Closed)

Dear Mr. Wilson:

I have researched the matter that you brought to our attention concerning electrical contractors licenses. Unfortunately, there is currently no waiver of examination under Alaska State statutes. The statute allowing this (A.S. 08.40.160) was repealed by the Legislature this year and did not apply to contractors who had had a license in another state, anyway. There is apparently no way for anyone to get a contractors license in this area without taking an examination.

In regard to the possibility of incorporating, it would be at best, a limited solution, as you would have to hire a licensed electrical administrator before your corporation could get an electrical contractors license. Also, you would have to have a licensed electrical administrator on staff at all times in order to retain your contractors license. You can, however, as I understand it, get a general contractors license, but not a specialty contractors license without first hiring someone who has an electrical administrators license.

I hope this answers any questions you may have had. I am sorry that there is not more that we can do, but, our legislative responsibilities do not allow us to go to court nor can we repeal a statute once enacted by the Legislature.

Thank you very much for your patience in this matter.

Sincerely,

Frank Flavin

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the intent of Alaska Statutes 24.20.271(1) and 44.66.050 (sunset legislation), an audit of the Board of Electrical Examiners was conducted to review Board activities and accomplishments to determine if the Board has been operating in an effective, efficient, and economical manner.

As required by legislative intent, this report shall be considered during the legislative oversight function in determining whether the Board of Electrical Examiners should be reestablished. The law currently specifies that this Board will terminate on June 30, 1980, but will continue until June 30, 1981, for the purpose of concluding its affairs.

Scope

The major areas reviewed were the Board's operations and its licensing, examination, administration, complaint and affirmative action functions. Our review consisted of analysing and evaluating the following:

(1) Applicable statutes and Board regulations;

(2) interviews with Board members and questionnaires sent to the Board;

(3) interviews with inspection agencies and union officials;

(4) tests of records and documents of the Board and the Division of Occupational Licensing (OL), Department of Commerce and Economic Development;

(5) interviews with OL employees;

(6) complaints filed in the last three years with OL, the Ombudsman's Office, Consumer Affairs Agency, and the Equal Employment Opportunity Office;

(7) questionnaires sent to 100 licensed electrical administrators; and

(8) questionnaires sent to 25 applicants for licensure.

Scope Constraints

This review was hampered by the following constraints:

(1) The Board has not established and reported financial and program plans as required by AS 37.07.050 nor

has it developed and reported performance information required by AS 37.07.090; and

(2) OL has not adequately collected, recorded and maintained pertinent files and statistics relating to the Board to effectively and efficiently carry out its administrative responsibilities.

ORGANIZATION AND FUNCTION

The Board of Electrical Examiners was established by the 1960 Session Laws of Alaska, Chapter 158. The three Board members, who are all electrical administrators licensed under this act, are appointed by the Governor with confirmation by the Legislature. Board members serve staggered terms of three years.

The Board is organized under the Department of Commerce and Economic Development, Division of Occupational Licensing (OL). OL provides the Board with licensing and some investigative support, however the enforcement of the electrical administrators statute is primarily the responsibility of the Department of Labor (DOL).

The function of the Board is primarily regulatory, mandated by AS 08.40. Accordingly, the Board has the authority to examine and issue licenses to qualified applicants, establish or amend rules and regulations necessary and desirable to enforce statutes, and to hold hearings to revoke, suspend or deny the license of a person violating the electrical administrator statutes and regulations.

REPORT CONCLUSION

Policy Issues

This review contains policy issues raised as a result of our evaluation of various Board practices. The final policy decisions affecting these practices are not within the scope of this review but require legislative consideration. In debating these issues, the legislative oversight committees should take into consideration the findings and alternatives presented in this report, so that the potential impact of policy changes can be evaluated.

Report Conclusion

In our opinion, the continuation of the Board and the licensing of electrical administrators is not necessary to protect the public's health, safety and welfare (see Recommendation No. 1).

However, if the Legislature deems that the continuation of the Board and the licensing of electrical administrators is in the public's best interest, then several changes need to be implemented in order for the Board to more effectively serve the public.

The Board presently licenses electrical administrators in the communications category. In our opinion, licensing in this category is not necessary to protect the public (see Recommendation No. 2).

The Board has not consistently enforced the licensing criteria as specified by 12 AAC 32. It is the Board's responsibility to determine that applicants are qualified, thereby ensuring the public is adequately protected (see Recommendation No. 3).

The Board needs to establish procedures for conducting, grading, and reviewing examinations to ensure that all examiners are treated equally and fairly (see Recommendation No. 4).

The present Alaska Statutes do not allow licensure by endorsement or reciprocity. Allowing licensure by endorsement and/or reciprocity would help to ensure an adequate supply of electrical administrators to the Alaskan public (see Recommendation No. 5).

Electrical administrators are not required to meet continuing competency standards for license renewal. The public would be better protected if electrical administrators were

required to be familiar with changes in the electrical safety standards (see Recommendation No. 6).

Public members should be added to the Board to assure the representation of the public's interest (see Recommendation No. 7).

FINDINGS AND RECOMMENDATIONS

Findings and Recommendations No. 1 through No. 7 are addressed to the Board of Electrical Examiners. Findings No. 8 and No. 9 are addressed to the Division of Occupational Licensing and should be read in conjunction with "A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development, October 30, 1970".

Recommendation No. 1

The Board of Electrical Examiners should be allowed to terminate on June 30, 1980.

The Board of Electrical Examiners licenses electrical administrators under Alaska Statute 08.40. The purpose of this chapter is to protect the public from the danger of improperly installed electrical wiring. An electrical administrator contracts for the installation and/or repair of electrical wiring, and is responsible for all work done under his license.

To contract electrical work in Alaska you must be, or have in your employ, an electrical administrator. The electrical contractors license is issued under AS 08.18 by the Division of Occupational Licensing. This statute governs construction contractors and provides for the protection of the public from economic loss resulting from negligent or improper work, or breach of contract.

eliminate this duplication

In addition, all electricians are licensed - issued a certificate of fitness - by the Department of Labor (DOL) under AS 18.62. The certificate of fitness issued by DOL assures that an electrician is qualified to perform electrical work in accordance with the minimum electrical safety standards established by AS 18.60.580.[1]

Several municipalities and boroughs (Juneau, Sitka, Anchorage, Palmer, Valdez and Fairbanks) inspect electrical installations to determine if electrical work is done in accordance with the electrical safety standards. The Department of Labor also inspects electrical installations in public

---

(1) The 1978 published edition of the "National Electrical Code", approved by the American Standards Association, and the latest published edition of the "National Electrical Safety Code", issued by the United States Department of Commerce, Bureau of Standards, constitute the minimum electrical safety standards of the State.

buildings or places of employment throughout Alaska. We were informed by DOL and city officials, as well as many respondents to our questionnaires, that inspection is the primary safeguard from faulty installation of electrical wiring.

Further, comments from DOL, city officials and respondents to our questionnaires stated that one license is adequate to protect the public, as long as that license ensures that the electrician is qualified to perform electrical work in accordance with the safety standards of AS 18.60.580.

Competition may be unduly restricted by requiring an electrician who has his certificate of fitness issued by DOL, to also have an electrical administrators license before obtaining a contractors license to perform electrical work.

In our opinion, there is no need for the continuation of the Board and the Licensing of electrical administrators. The following measures are adequate to protect the public's health, safety and welfare, and economic well-being:

1. State laws governing electrical safety under DOL (AS 18.60.580-660);

2. certificate of fitness issued by DOL (AS 18.62);

3. State laws governing construction contractors (AS 08.18); and

4. inspections by State and local agencies.

If the Board and the licensing of electrical administrators are terminated, we recommend that AS 08.18.026 requiring an electrical administrators license to contract for electrical work be amended to allow electricians licensed by DOL to obtain an electrical contractors license.

However, if the Board is not terminated and/or licensing of electrical administrators is continued, then the following recommendations should be considered.

Recommendation No. 2

Legislation should be enacted to exempt communications electricians from the electrical administrators statutes.

The Board presently licenses electrical administrators practicing in the communications category under the provisions of 12 AAC 32.051-071 and 12 AAC 32.130-150. However, Alaska Statute 08.40.190 exempts utilities from the requirement of having to employ an electrical administrator. AS 08.40.200(5) defines "utility" as essentially every business or nonbusiness entity that:

(A) Furnishes, by generation, transmission, or distribution, electrical service to the public for compensation.

(B) Furnishes telecommunications service to the public for compensation.

Therefore, many communications electricians who are employed by private or public utilities are exempted by statute from being licensed by this Board.

However, the Board has required that certain utility companies (cable TV, burglar alarm companies) employ an electrical administrator. In the opinion of our legal counsel, Legislative Affairs Agency, Division of Legal Services, cable TV, burglar alarm systems, and similar type companies are exempt since they are utilities and are not required to hire an electrical administrator licensed by the Board. Therefore, the Board should not require cable TV, burglar alarm systems, and similar type companies to hire electrical administrators.

Further, the Department of Labor reported that from a safety to the public standpoint, there was little, if any, need to regulate the communications electricians. This conclusion was reached as a result of hearings and workshops that they conducted prior to repealing 8 AAC 90.050, which requires telecommunications electricians to hold a certificate of fitness issued by DOL.

In our opinion, the licensing of communications electricians is not necessary for the protection of the public.

Recommendation No. 3

The Board should enforce the existing laws for issuing licenses in a uniform and consistent manner.

In our test of licenses issued in the last two years, we noted five applicants did not have a certificate of fitness issued by the Department of Labor as required by 12 AAC 32. Also, one of the five did not meet the experience requirements of 12 AAC 32.

In addition, two applicants were rejected for licensure because the Board felt they did not have adequate documentation of experience. However, the Board has accepted many applications with less information.

In summary, the Board should adopt regulations and/or policies governing review of applications, to include what evidence of experience is necessary so that qualified applicants will not be delayed in obtaining their license.

Recommendation No. 4

The Board should establish procedures for conducting, grading and reviewing examinations.

We observed the November 17, 1978 electrical administrators examination conducted by the Board of Electrical Examiners. During the examination we noted a great deal of noise and confusion occurring because of the different completion times for the various tests.

Also, one portion of the last residential wiring examination was not graded consistently. One individual was given a passing grade of 70%, while another was given a failing grade of 68%, but both had missed five out of fifteen questions. The examination had been graded by different people using a different point value per question, and different methods of scoring.

In addition, two applicants, who had failed an examination, were licensed after their examinations were reviewed and regraded. There was no indication of why their scores were changed from failing to passing, nor what questions had been reviewed. Also, if an examinee successfully challenges a question because it is poorly worded or irrelevant, the Board should consider that questions impact on all who took that examination.

In summary, we recommend the Board establish procedures that will minimize confusion and distractions during the examinations, provide consistent and fair grading of all examinations, and provide control of examination review and regrading to include an evaluation of questions that may be ambiguous or irrelevant.

Recommendation No. 5

The Board should seek legislation to allow licensure by endorsement and/or reciprocity.

The present Alaska Statutes do not allow electrical administrators to be licensed by endorsement and/or reciprocity.

Under endorsement, an applicant who is licensed in another state, and otherwise meets the licensing requirements of the electrical administrators statue, would be eligible for licensure in Alaska without further examination. Reciprocity is similar to endorsement except that it requires an agreement between the two states.

Legislation to allow licensure by endorsement and/or reciprocity would help to ensure an adequate supply of electrical administrators to the Alaskan public.

Recommendation No. 6

Legislation should be introduced which will require electrical administrators to meet continuing competency standards.

To obtain an initial electrical administrators license in Alaska, an applicant must pass an examination to determine his knowledge of the electrical codes and of electrical installations and wiring. However, to renew his license only requires the payment of a biennial license renewal fee.

Once an individual is granted a license to practice an occupation, he has an implied obligation to maintain that minimum competence. Electrical administrators should be required to meet continuing competency standards to assure that they are familiar with changes in the electrical safety standards.

Recommendation No. 7

Legislation should be introduced which will require public members on the board.

The Board regulates electrical administrators for the purpose of public protection. The Board is presently composed of only three electrical administrators licensed by the Board. The Board has requested the Department of Commerce and Economic Development to pursue the possibilities of adding public members to the Board.

We agree with the Board, that the public should have its views represented on the Board since the Board's purpose is to protect the public. The State of California claims that the public's confidence and well-being have been enhanced by their 1977 Public Member Act, which required a majority of public members on all boards except health related and accounting boards.

Recommendation No. 3

The Board should establish formal goals, objectives and quantifiable measures which should be included in the OL's budget document.

Annual Report.

Objectives describe what an agency or Board is seeking to accomplish during a specific year. Well formulated objectives are capable of measurement and should include numerical targets so that actual accomplishments can be compared with stated targets. Without goals and objectives, the Board's performance cannot be adequately evaluated and analyzed.

OL establishes its own budget goals and objectives. The budget documents do not include any goals or measures for individual boards. Without the Board's goals and measures being identified or measured, neither the Governor's Office nor the Legislature can evaluate the Board's performance.

Recommendation No. 9

The Division of Occupational Licensing should collect, record and maintain for five year periods files and statistics of licensing and testing applicants and related workload of the licensing examiner.

The Division needs relevant facts and statistics for evaluating the performance of its personnel and Board activity. Many past statistics have not been collected and maintained, such as:

1. Number of electrical administrators licensed in the past;

2. number of applicants failing the examination;

3. number of applicants denied the chance to take the examination due to lack of qualifications;

4. correspondence workload of license examiners; and

5. number of persons requesting applications.

It is to the advantage of the Division to keep these records in order to support its budget request, evaluate its personnel and keep the Board informed as to its progress. Also, feedback from the Board and the public should be encouraged so as to determine whether staff performance is adequate.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analyses of Board activities relates to the public need factors defined in the "Sunset" law. These analyses are not intended to be all inclusive, but addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or program has operated in the public interest.

1. The Board has not enforced the existing laws for issuing licenses in a uniform and consistent manner (see Recommendation No. 3).

II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

1. The Division of Occupational Licensing (OL) has not maintained updated records and statistics for Board use (see Recommendation No. 9 and OL Performance Audit Report).

2. The OL investigative section has not provided adequate investigative support necessary for the enforcement of the law (see OL Performance Audit Report).

3. Occupational Licensing should establish examination and/or reexamination fees for the electrical administrators examination.

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

1. The Board has recommended that public members be added to the Board (see Recommendation No. 7).

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

1. We found no evidence that the Board has made a special effort to encourage interested

persons to report to it regarding the effect of its regulations and decisions.

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

1. To encourage public participation, the Board advertises upcoming Board meetings, examinations, and proposed regulations in newspapers located in the cities of Juneau, Ketchikan, Anchorage and Fairbanks.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

1. We noted one complaint filed with the Office of the Ombudsman against the Board. The Board had failed to respond to an inquiry in a timely manner. The complaint was resolved by the Ombudsman's office.

VII. The extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public.

1. From March 1973 to October 1978, the number of licensed electrical administrators has increased from 164 to 285.

2. Over the past four years (1975-1978) the failure rate on the examination has averaged 79%.

3. The present Alaska statutes do not allow licensure by endorsement and/or reciprocity (see Recommendation No. 5).

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

1. Applications for licensure require information such as an applicants birth date, physical characteristics, and picture. These questions are of a potential discriminatory nature and should be eliminated uless they are based upon a bonafide occupational qualification.

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

1. Please refer to the previous section, Findings and Recommendations.

APPENDIXES

APPENDIX A

BOARD OF ELECTRICAL EXAMINERS
REVENUES COMPARED WITH EXPENDITURES
Fiscal Year 1978
(UNAUDITED)

Average Revenue (Note 1 and Schedule 1)	$21,898
Expenditures (Note 2)	26,547
Excess of Expenditures over Average Revenues	$4,649

Schedule 1
Types of Revenues

Revenues	Amount	Collection Time
Initial License Fee	$100	With application
License Renewal Fee	$100	Biennially
Late Renewal Fee (additional)	$ 10	If over 60 days after renewal date
Reinstatement Fee (For Lapsed license)	$ 25	With reinstatement notice (Fee is for each year license was lapsed)

Note 1

A significant portion of revenues are composed of license renewal fees. The renewal date is December 31 of the even numbered year which causes revenues to be unequal from year to year. Therefore, we took an average of the revenues collected in Fiscal Year 1977 and 1978 in order to obtain a representative amount of collected revenue.

Note 2

Expenditures include those made by Board members, such as travel and per diem, and an allocated percentage (estimated) of total administrative expenses of OL. They do not include expenditures for efforts of other departments, such as the Department of Law, that may be assisting the Board and OL.

APPENDIX B

ADMINISTRATIVE STATISTICS

Licensing Statistics

Total as of October 1978	285
Total as of March 1973	164
Increase over 5 1/2 years	121

Examination Statistics	1978	1977	1976[1]	1975
Applicants Tested	242	189	67	113
Number of Fails	188	149	59	88
Number of Passes	54	40	8	25
Percentage Pass Rate	22.3%	21.2%	11.9%	22.1%

Passing Rate for 4 year period: 20.8%

(1) For 1976, statistics were available for only one of the two examinations given.

APPENDIX C

QUESTIONNAIRE SENT TO BOARD MEMBERS

1. What do you believe to be the goals and objectives of the Board?

Description	*Number of Board Members' Responses (See Note 1 & 2)*
To protect the public by assuring that:	
a) there are qualified electricians and contractors; and	*2*
b) electrical installations conform to the electrical safety codes.	*2*
To provide adequate direction for the electrical industry in Alaska.	*1*

2. Do you believe that the Board is achieving its goals as you perceive them in question number 1? How does the Board measure its progress in attaining its goals and objectives?

Description	*Number of Board Members' Responses*
No - only one state electrical inspector.	*1*
No - Board has no authority to enforce electrical safety standards, but effectiveness of assuring qualified contractors is measured by historical pass/fail ratio of examination.	*1*
Yes - by requiring electricians to pass the Electrical Administrators' examination	*1*

3. Do you believe there is a duplication of effort by the Board of Electrical Examiners and the Department of Labor (they both require experience in the field and a knowledge of the National Electrical Code as prerequisites to licensure)?

3. (Cont'd.)

Description	Number of Board Members' Responses (See Note 1 & 2)
No - Department of Labor assures that electricians are qualified to perform electrical work, the Board assures the supervisor is qualified.	2
No response.	1

4. Is the Staff from the Department of Commerce and Economic Development and/or other departments adequate to perform and enforce all laws and regulations relating to the Board? What staff support services are provided adequately? Inadequately? Are investigations performed adequately/ inadequately?

Description	Number of Board Members' Responses
Enforcement & investigations are inadequate.	3
Attorney General office support is inadequate.	1

5. Are there any statutes or regulations that you believe to be obsolete, vague, unduly restrictive and/or inadequate to provide the Board with the responsibility and power to properly govern the purpose and activities of the Board? Please list and explain.

Description	Number of Board Members' Responses
Up to the Attorney General's office to tell us if regulations are vague, obsolete, or unduly restrictive.	1
Do not know, A.G.'s office has not responded to our questions.	1
Only one central body should be provided the authority and responsibility to prevent public harm from improper electrical installations.	1

6. What evidence exists demonstrating the the absence of regulations governing electrical administrators and/or the Board would be detrimental to the public's best interest?

Description	Number of Board Members' Responses (See Note 1 & 2)
None.	2
If no law, then anyone could perform electrical work.	1
It can be argued that the Department of Labor's certificate of fitness precludes the necessity for a contractors Board, but these two programs are complementary.	1

7. What changes could be made to the Board which would improve its service to the electrical trade and/or the public?

Description	Number of Board Members' Responses
Continuing education of the Board members.	1
Give Board authority to issue cease and desist order.	1
Add two members to the Board who are associated with the electrical industry, but have no financial interest in the electrical administration field.	1
Revise license and examination fee structure.	1
Provide Board with authority it requires to meet its goals.	1

8. Presently, the Board is composed of 3 electrical administrators. Do you believe adding public members would tend to make the Board:

	Number of Board Members' Responses
A. More receptive to public need.	0
B. Less receptive to public need.	0
C. No change.	3

9. Do you believe there is a shortage of electrical administrators in Alaska? If yes, in what areas?

Description	*Number of Board Members' Responses (See Note 1 & 2*
No	*3*

10. If you answered yes to number 9, what steps are or should the Board take to correct the shortage?

_____

_____

_____

11. Are the questions on the examinations pertinent and relevant? Please mention any studies and/or other support backing your opinion.

Description	*Number of Board Members' Responses*
Yes.	*3*
Would like to see how other electrical boards handle examinations and pick the best method from among them.	*1*
Have compared Alaska's examination to Washington's and Oregon's and they contain comparable questions.	*1*
Would like to add oral examination.	*1*

12. Has the Board recommended any statutory changes which are generally in the public's best interest?

Description	*Number of Board Members' Responses*
Attorney General recommended elimination of the business section of the test.	*1*
Yes, see Chapter 53, Session Laws of Alaska, 1977, and also register 63, 1977 for revision of 12 AAC 32. Also see House Bill No. 705, 1978, which was passed out of House Commerce but was not scheduled through House Rules.	*1*
No response.	*1*

13. Do you think continuing education should be required for license renewal?

Description	*Number of Board Members' Responses (See Note 1 & 2)*
Yes, 1978 code had over 1,200 changes and it is important that licensees be aware of the changes.	*1*
No, being in business is adequate to satisfy the learning process.	*2*

Note 1

Number of Board members sent questionnaires. 3

Number of responses. 3

Note 2

Some Board members responded to each question with several answers. Therefore, total responses for each question may exceed the number of Board members who responded.

APPENDIX D

QUESTIONNAIRE SENT TO ELECTRICAL ADMINISTRATORS

		Number of Responses (See Note 1)		
		Yes	No	No Responses
1.	Do you feel that the absence of the licensing and regulation of electrical administrators would significantly harm, affect, or endanger the public's safety and welfare?	38	1	0
2.	Do you feel that you are able to do a better job because of the requirements you have had to meet to be licensed?	33	6	0
3.	A) Do you feel that there are other methods of regulation which would adequately protect the public?	20	18	1
	B) If yes, which of the following would be appropriate?			
	1) Certificate of Fitness, issued by the Department of Labor.	8	5	26
	2) Inspections by State electrical inspectors.	18	1	20
	3) Inspections by local electrical inspectors.	20	0	19
	4) Specialty contractors license issued by the Division of Occupational Licensing, Department of Commerce and Economic Development.	10	6	23

4. What do you feel is the purpose of the Board of Electrical Examiners?

Responses	Number of Responses
To protect the public by assuring qualified electrical administrators, and by regulating the industry.	35

Michael L. Frith
8421 Little Dipper
Anchorage, AK 99504

Dear Mr. Frith:

Thank you for your testimony regarding the Board of Electrical Examiners, which you gave before the Senate Commerce Committee on November 7, 1979.

Due to mechanical problems with the teleconference recording system, we were unable to record your testimony for the Committee's records. The system had been checked out prior to starting the hearings and was in operating condition but when the tapes were checked prior to the afternoon session, it was discovered that only a loud hum had been recorded. If possible, therefore, the Committee would appreciate it if you could submit either a copy of your testimony, if you were speaking from prepared text, or a summation of your views regarding this matter in order that your feelings might be made a part of the Committee's record.

We apologize for any inconvenience and we look forward to receiving your written testimony and/or exhibits concerning the Board of Electrical Examiners. We would like to receive this testimony as soon as possible and should we be able to assist you, please do not hesitate to contact our offices.

Sincerely,

Christian Basler

June 30, 1977

TO WHOM IT MAY CONCERN:

This personal affidavit is true to the best of my knowledge and is presented as a true vesture of my capabilities warranting a working Administrators Contractors Licenses for inside and outside electrical wiring and communication work.

My knowledge and experience in the field total thrity-two years . Working in conjunction with and under the supervision of Merideth E. Young, Contractor in Chicago, Illinois, I have completed basic training, graduating in the field of electricity, majoring in all phases of commercial, industrial and residential wiring.

While employed by New York Shipbuilding Company of Camden, New Jersey and Sunship Building Dry dock of Chester, Pennsylvania, I performed both inside and outside wiring. Such work included generators, motors, transformers, panels, circuits, wiring, testing, and radar signaling, installing and testing. At the same time, I operated my own business, H.D. Wilson Electric.

In 1968, new Pennsylvania legislation required licensing of electrical contractors. At that time, I obtained an electrical contractors license which I have held until moving to Alaska in late 1976. H.D. Wilson Electric has operated for a total of 27 years. We have completed contracts for the City of Philadelphia Water Department, Park District, Recreation Department, School District and the Phildelphia Naval Yard, as well as numerous other contracts. A summary of contract abstracts is attached for your review and consideration.

If there is any additional information you desire, I would be most happy to provide it.

Sincerely,

H D Wilson

The Honorable Mike Gravel
United States Senate
Washington, D. C. 20510

Dear Senator Gravel:

This letter comes to your attention to apprise you of a situation I am now confronted with which leads to my frustration, and represents a challenge to my livelihood.

The problem I am confronted with is that I am a licensed, bonded and certified Electrical Contractor, licensed in the State of Pennsylvania. I have been providing professional services in that field for over 30 years. I am now residing in the State of Alaska, and find it impossible to practice my profession because Alaska has no reciprocity in this field with the State of Pennsylvania, and because of this, I am forced to take an examination for said license.

Should I successfully satisfy the examination requirements, I would be one of a few minorities, and more specifically, one of three Blacks, who have done so in the State of Alaska. However, at this point in my life, this examination poses what I feel is an unnecessary hardship. Therefore, I would want you to intercede.

Under Section 08.40.160 of the Alaska Statutes Waiver of Examination, I feel I am qualified for a waiver of examination because of the above. Please advise me of efforts your office can make to improve opportunities for minority business participation.

I look forward to your reply.

Sincerely,

H. D. Wilson

STATE
of ALASKA

MEMORANDUM

TO: Robert Gates
Deputy Commissioner

DATE: May 11, 1978

FROM: Glen Campbell
EEO Director

SUBJECT: H.D. Wilson, Minority Electrical Contractor

We would like to make you aware of a problem that Mr. H.D. Wilson a minority electrical contractor is encountering in regards to obtaining his license for the State of Alaska (please see attached correspondence).

As indicated, Mr. Wilson requested a waiver of examination due to his qualifications and extensive experience in his field.

Although this matter does not fall within the particular jurisdiction of our office, we are very concerned about it from a humanitarian viewpoint as well as the fact that the present posture of minority electrical contractors within the State of Alaska is extremely low. At present there are only two minority electrical contractors that obtained their license in the State of Alaska, and they did not obtain these licenses through the examination process, but obtained them under the Grandfathers clause. Perhaps the requirements create disparity for minority electrical contractors and this matter should be looked into.

Any assistance that you can offer in regards to this matter would be greatly appreciated.

Thank you,

JAY S. HAMMOND

Dear Mr. Wilson:

Unfortunately, this is not good news. The Department of Law informs me that there is no legal way that the Governor can grant you a waiver of examination to become an electrical contractor.

We certainly wish we could help in this matter, but just cannot. If you have any other suggestions or ideas on how we might assist, please let us know and we'll take a look.

Sincerely,

Bill McConkey
Special Assistant
to Governor Hammond

PRESENTATION BY MR. H. D. WILSON

History of my experience with the test.

REQUESTS:

1. Is it possible to take a test that is only in the area of electrical work for an electrical contractor's license?

2. If so, when will the test be given in Anchorage?

RECOMMENDATIONS:

Update all questions on the tests and review them to see if they are job related in my field category.

As an Alaskan with an Alaskan electrical license, I feel that some consideration should be given to me. I am a minority and there are only three other minorities in this field -- to my knowledge. There are so few of us who pass the test. I would recommend that you review your own records and see how many minorities have taken the general construction license test series. Then compare the number of minorities who took the test and passed, to the number of nonminorities who took the test and passed. I believe such a comparison would indicate the need for my final recommendation - A tutoring program must be initiated to assist minorities with general questions which will help us to qualify for the test.

Re: Ombudsman Complaint 77-1505
(Closed)

Dear Mr. Wilson:

I have researched the matter tnat you brought to our attention concerning electrical contractors licenses. Unfortunately, there is currently no waiver of examination under Alaska State statutes. The statute allowing this (A.S. 08.40.160) was repealed by the Legislature this year and did not apply to contractors who had had a license in another state, anyway. There is apparently no way for anyone to get a contractors license in this area without taking an examination.

In regard to the possibility of incorporating, it would be at best, a limited solution, as you would have to hire a licensed electrical administrator before your corporation could get an electrical contractors license. Also, you would have to have a licensed electrical administrator on staff at all times in order to retain your contractors license. You can, however, as I understand it, get a general contractors license, but not a specialty contractors license without first hiring someone who has an electrical administrators license.

I hope this answers any questions you may have had. I am sorry that there is not more that we can do, but, our legislative responsibilities do not allow us to go to court nor can we repeal a statute once enacted by the Legislature.

Thank you very much for your patience in this matter.

Sincerely,

Frank Flavin

Juneau, Alaska 99811

Dear Sir:

The board of Electrical Examiners, in compliance with Alaska Statute 37.07.050 and 37.07.090, respectfully submits this annual report.

The contents of this report reflect the activities of this board for the past year together with many of our concerns for the future. We believe our activities are responsive to the the public need and we welcome any communication you would care to direct to us.

Very truly yours,

J. Trammer, Chairman
Board of Electrical Examiners

SECTION 1

BOARD OF ELECTRICAL EXAMINERS ACTIVITY

The safety and well being of the people of this state continue to be paramount in formulating this board's policies and procedures. 1978 saw both an increase in the number of licensed administrators within our state and the number of citizen complaints to both the departments of Commerce and Labor regarding unlicensed activity and improperly installed electrical systems.

Prior to July 1,1978, the Department of Commerce license violations section had 180 open electrical administrator cases. The department was able to obtain voluntary compliance in 71 of these; 28 more resulted in cease and desist orders, 3 licenses were revoked and 2 misdemeanor convictions were obtained. Twenty-two additional complaints were received after July 1; 11 of these had been processed by the end of the year, resulting in 7 cases of voluntary compliance and the issuance of 4 cease and desist orders.

The board held two public hearings during 1978. These hearings dealt with further sub-dividing the classes of licensure to more properly encompass our growing telecommunications industry and clarifiying our administrative regulations. These hearings resulted in the promulgation of new regulations which became effective in 1979 under 12.AAC.32.

In 1977, and again in 1978, the board unsuccessfully sponsored ammenditory legislation designed to increase our awareness of the public need and to provide us with the authority to do the job assigned us by the legislature. Our detailed legislative proposals are attached to this report as "Exhibit A".

The Board of Electrical Examiners met 4 times in 1978. Two meetings were held in Anchorage,1 in Juneau and 1 in Fairbanks. In additon to the public hearings held at these meetings, the board administered the licensing examination to qualified individuals. A summary of results of these examinations is attached to this report as "Exhibit B".

The operations of the board during 1978 continued to generate a cash surplus. Our income and expense analysis is detailed in "Exhibit C".

SEC.
2

SECTION 2

A DISSERTATION ON LICENSING

"Licensing is a process by which an agency of government grants permission to an individual to engage in a given occupation upon finding that the applicant has attained the minimal degree of competency required to ensure that the public health, safety and welfare will be reasonably well protected".[1]

"The purpose of this chapter is to protect the safety of people and property in the state from the danger of improperly installed electrical wiring and equipment, by providing a procedure to assure;

(1) The public that persons responsible for making electrical installations in this state are qualified; and

(2) That a sufficient number of persons are so qualified".[2]

From its inception in 1960 until the mid 1970's, the Board of Electrical Examiners functioned, as did most state regulatory agencies, with only minimal guidance and no clear legislative intent to focus upon. In 1977, using the vehicle of board sponsored legislation submitted through the Governor's office, the Alaska State Legislature passed a number of ammendments to AS.08.40.

1. Occupational licensing: Questions a Legislator Should Ask; Shimberg & Roederer, 1978.

2. Alaska Statute AS08,40.005 (Sec.2, Ch. 53, SLA 1977)

Included in these revisions was the statement of legislative intent excerpted above. It is readily apparant that the average citizen of this state is incapable of protecting himself from the hazzards created by improperly installed electrical wiring, because he does not recognize, (by lack of specialized education and experience,) the difference between right and wrong. Everyone knows (but generally ignores,) that electricity can cause fires; that electricity can injure, maim and kill; and that improperly installed wiring is likely to result in loss of comfort, property or worse. How can the average citizen of our state be expected to recognize the difference?

"The purpose of regulation is to project the public, not the economic interest of the occupational group".[3]

The electrical contracting industry in our state is divided (along traditional lines,) into two major groups; Union and Non-Union with a fairly high percentage of "Independant" contractors operating alone. There is no single cohesive force (except the State Regulatory Agency) that is capable of drawing the diverse factions of the industry together to where self regulation would become a viable alternative to our present system.

[3]Occupational licensing: Questions a Legislator Should Ask; Shimberg & Roederer, 1978.

It is the continuing objective of this board to assure the public that an adequate number of qualified practitioners are available to make safe electrical installations within the basic nature of the competitive process. To this end, we have formulated the following goals:

(1) To continue to refine our professional and vocational regulations so that;

a. All requirments and evaluation procedures for entry into this occupation are clearly defined.

b. All complaints are investigated and resolved in a manner which is satisfactory and credible to the public.

c. All disciplinary proceedings against licencees are conducted in a fair and expeditious manner.

d. All applicants and licensees are treated equitably, fairly and equally.

e. All persons coming into contact with this board are guaranteed due process.

(2) To continue to offer proposals to our state legislature in order to;

a. Further define the legislative intent of our statute

b. Provide the board with the authorities necessary to accomplish its responsibilities.

c. Coordinate and consolidate the various existing statutes regulating our industry into a cohesive, intelligible unit.

Exhibit A

EXHIBIT "A"

* Section 1.AS 08.40.010 is ammended to read:

Sec 08.40.010. Creation and membership of the board. There is hereby created a board of Electrical Examiners consisting of three members who are licensed electrical administrators and two members drawn from the public at large.

Rationale: Since regulation affects the vital interests of consumers, it is incumbent upon the legislature to develop a forum upon which public views can be heard.

* Section 2.AS 08.40.030 is ammended to read:

Sec 08.40.030 Chairman of the board. The board shall elect one of its members as chairman. The chairman shall be a licensed electrical administrator.

Rationale: The Board rejects the philosophy that only members of our occupational group are qualified to make judgements about entrance standards, examination content, or disciplinary matters. We do feel, however, that the technical nature of our industry requires the presence of a knowledgeable, technically qualified chair person to represent the Board on a day to day basis.

* Section 3.AS 08.40.040 is ammended to read:

Sec 08.40.040 Board meetings. The Board shall hold a regular quarterly (annual) meeting. The Board may hold special meetings at the call of the

Chairman with prior approval of the Governor. Three (two) members constitute a quarom.

Rationale: The board regularly holds 4 meetings a year as this is the minimum necessary to satisfy the public need. The quorum limitation must be increased to accomodate the public members requested in Section 1, above.

* Section 4.AS 08.40.090

Sec 08.40.090 License required (A) No person may act as an electrical admistrator in the state without a license issued by the board.

1. No person may submit a bid or offer to perform electrical work in the state without a license issued by the board.

(B) A person licensed under this chapter may perform or offer to perform electrical work only in a catagory for which he is licensed.

Rationale: A person who responds to an invitation for bids is proporting to be engaged in the business of electrical contracting unless, as an unlicensed practitioner, he acknowledges his inability to perform the work until he is licensed. Without this contingency, an offer made or contract entered into is, in effect, an agreement to commit a crime and is in violation of the public policy of the state.

* Section 5.AS 08.40.120 is ammended to read:

Sec 08.40.120 Examination of applicant. Each applicant shall be examined to determine his knowledge of electrical installations and wiring, familiarity with the regulations contained in the National Electrical Code and the National Electrical Safety Code, as (approved by the American National Standards Association) adopted and ammended by title 18,

article 6 of the Alaska Health and Safety Code, other appropriate installation and safety regulations (approved by the American Standards Assoc.), and his personal skill and ability.

Rationale: The legislature of the state of Alaska enacts statutory regulations dealing with occupational health and safety. These statutes are not approved by the American Standards Association and as a consequence of the wording of this section, applicants can not be examined on their content. (Yet) knowledge of these (and other similar) requirements will directly affect the quality and safety of contractor's work.

* Section 6. AS 08.40.135 is ammended to read:

Sec 08.40.135 Renewal and Reinstatement.

(a) A license issued under this chapter, unless revoked or suspended, is non-transferrable and may be renewed biennially on a date set by the department without examination, upon submission of adequate proof of activity to the board and by appropriate application.

(b) A lapsed license may be reinstated by payment of all unpaid renewal fees and a penalty fee $25.00 for each year the license has been lapsed, unless the license has been lapsed for more than two (three) years (and the Board has reason to believe that it may be necessary to require) in which case the licensee will be required to take and pass the examination given under section 120 of this chapter.

(c) A licensee who fails to submit adequate proof of activity to the board for more than two consecutive years will be required to take and pass the examination given under section 120 of this chapter to renew his license.

Rationale: At present most inactive practitioners can preserve their right to practice by simply paying the renewal fee. By keeping their licenses in force, they are able to resume practice at any time even though they may have failed to retain their competence.

* Section 7. AS 08.40.165 Is enacted to read:

Sec 08.40.165 Licensure by endorsement. An applicant who is a licensed electrical administrator in another state may apply for licensure without examination upon providing proof satisfactory to the board that;

(A) he is currently actively engaged in the electrical contracting industry and,

(B) The standards of entry in his state of licensure are at least equal to those of this state.

Rationale: In order to encourage the competitive process, it is necessary to provide out of state applicants with fair and reasonable access to our credentialing procedures.

* Section 8.AS 08.40.170 is ammended by enacting sub-section (a)(4) to read:

Sec 08.40.170 Denial, Suspension, and revocation of license.

(a) (4), The licensee has knowingly permitted electrical work to be accomplished in this state under the guise of his license and without his supervision.

Rationale: The accomplishment of electrical work by an unlicensed person is a crime against the state. Persons who deliberately allow other unlicensed persons to accomplish electrical work under the fraudulent "unbrella" of licensed activity are themselves guilty of violating this statute.

* Section 9.AS 08.400.200 (5)(B) is ammended to read:

Sec 9 AS 08.40.200 (5)(B) Definitions. Furnishing (telecommunications) <u>telephone or telegraph</u> service to the public for compenstation.

Rationale: When this definition was added to the statute in 1977, the intent of both the Board and the Legislature was to exclude the activities of Public Service corporations (ie: Municipal Utilities, long lines carriers, etc.,) from the requirements of this chapter. Unfortunately, the wording

we jointly selected has resulted in considerable controversey and needs to be clarified.

* Section 10.AS 08.40.200 is ammended by enacting sub-section 6 to read:

Sec 08.40.200 (6) Definitions "repair" means the performance or accomplishment of work, of a routine recurring nature or otherwise, on an integral electrical circuit component which is or is capable of being energized, when such work involves the removal, replacement, disconnection or reconnection of that integral component.

Rationale: There has been a great deal of controversy over the last several years revolving around the legislative intent of the word "repair". Only by adding a firm definition for this word can we hope to achieve uniform comprehension and enforcement of this statute.

* Section 11.AS 18.60.580 is repealed and re-enacted to read:

Sec 18.60.580. Minimum electrical standards. The latest published editions of the National Electrical Code and the National Electrical Safety Code, both as approved by the American National Standards Institute constitute the minimum Electrical Safety standards of the state.

Rationale: It is both ridiculous and expensive for the legislature to have to review this act every two to three years to change a date so that we may once again be in tune with the rest of the U.S.A.

* Section 12.AS 18.60.590 is ammended to read:

Sec 12.AS 18.60.590 State, Borough and City electrical Codes

Sec 12. AS 18.60.590 Electrical Codes

(A) The (department) Board of Electrical Examiners may be regulation adopt ammendments to the (1971) National Electrical Code and/or the National Electrical Safety Code (as approved and issued by the American Standards Association) provided such ammendments result in standards no less stringent than those prescribed by section 580 of this chapter.

(B) This chapter does not affect the authority of any organized borough, municipality or rural electrification association to prescribe by ordinance, rule or order, standards for their respective areas of jurisdiction no less stringent than the standards prescribed by the (department) Board or those established by section 580 of this chapter.

Rationale: The Department of Labor employes electrical inspectors, not administrators. The technical expertise necessary to formulate ammendments to the National Standards more properly sites with the Board. Additionally, as this statute is now worded, no one can ammend the National Electrical Safety-Code regardless of the rationale behind such an ammendment. Please see attachment 1 to the exhibit for an example of why the Board needs this authority.

* Section 13.AS 18.60.600 is repealed and re-enacted to read:

Sec 18.60.600 Powers and duties of the Board and the Department;

(A) The Board may:

1. Promulgate regulations to carry out the purposes of section 580-610 or this chapter.

2. Inspect, or cause to be inspected, the electrical wiring of any place of employment or public structure in the state.

(B) The department shall:

1. Promulgate regulations to carry out the purposes of section 620-660 of this chapter.
2. Keep a record of all inspection fees collected.
3. Keep a record of all electrical inspections conducted.

Rationale: This revision is necessary to accomodate the other contemplated changes to this chapter.

* Section 14.AS 18.60.610 is ammended to read:

Sec 18.60.610 Delegation of Authority. Upon application to and approval of the Board (department), a person, corporation, electric utility firm, public utility district, Rural Electrification Association, or Municipal-Utility District furnishing electrical current may be authorized (by the commisioner) to inspect the electrical wiring for a public or commercial structure as defined in section 660 of this chapter to which it is to furnish electrical current before energizing the electrical system on, in, or about the premises. Authorization by the Board (commissioner) under this section constitutes a grant of full authority to act within the provisions of sections 580-660 of this chapter with the same immunities and privelages accorded to the state in the performance of these duties. A person or entity whose electrical wiring installation is found, by the authorized inspector, not to meet the standards prescribed, has the right to appeal to the Board (commissioner) for a new inspection. The Board (commissioner) shall, within 15 days, furnish a new inspection by a designee not associated with the person, firm, or utility who did the original inspection.

Rationale: The board has the authority (Granted by AS.08.40.070) to conduct inspections but lacks the tool to implement it. Additionally, the technical direction required by the State Electrical Inspectors must come from the Board as the department has no source of expertise other than the inspectors themselves.

* Section 15.AS 18.60.640 is ammended to read:

Sec 18.60.640 Scope of work covered;

(A) Sections 580-660 of this chapter apply to (cover only) new installations and alterations to existing installations.

(B) These standards are the required (recommended) minimum standards for all new structures in the state.

Rationale: The wording changes are necessary to bring this section into agreement with other sections of this chapter.

* Section 16.AS 18.60.660 (4) is ammended to read:

Sec 18.60.660 Definitions in sections 580-660 of this chapter. (4) "Public Stru..tures" means buildings such as hotels, resident housing, except homes owned by the installer and not intended for sale at the time of making the installation, (with more than one rental unit) restaurants, taverns, lodging houses, children's homes, auditoriums, town halls, or any structure designed or used for public assembly whether publicly or privately owned or financed.

Rationale: This change would allow for inspection of residential occupancies built by contractors and any other dwelling unit intended for rental occupancy regardless of the number of units involved. This authority is required to allow us to comply with the intent of AS 08.40 which again, is to protect the public.

* Section 17. AS 18.60.660 is ammended by enacting sub-section 5 to read:

Sec 18.60.660(5) "Board" means the board of Electrical Examiners as created by Alaska Statute AS 08.40.

Rationale: The necessity for this revision is self evident.

* Section 18.AS 18.62.010 is ammended to read:

Sec 18.62.010 Certificate of fitness required. In connection with work performed subject to the standards established in (AS 18.60.580 and) AS 18.60.705, no person may be employed without a certificate of fitness to perform work.

Rationale: The board considers the certificate of fitness program to be an abrogation of an individual's constitutional right to work at his trade. Additionally, there is absolutely no need for two licensing programs within the same occupation. If the contractor is licensed and responsible for the work accomplished under his license, why then regulate the workman? "There is little justification for licensure if practitioners work under supervision. If regulation is needed, it should be the supervisor who is regulated".[1]

Cost Impact:

The net result of the foregoing legislative package would be a cost increase of approximately $2,500.00 a year to support the two new board members and a cost decrease of untold magnetude in the reduction of administrative costs pertinant to the certificate of fitness program. The machinery for supporting the balance of this legislative package already exists and would neither expand nor contract as a result of these changes.

1. Occupational licensing: questions a legislator should ask, Page 15; Shimberg & Roederer, 1978.

ATTN: Nancy Ferguson

Gentlemen:

Please place us on your agenda for the next Board meeting. We would like to discuss with you experimental single high voltage lines with ground return. Mr. Dwane L. Legg, P. E., of Retherford Associates is requesting from this Department an exception to the National Electrical Safety Code and your opinion regarding the safety of such an operation would be appreciated. It concerns Article 305 (2e) of the National Electrical Code and Article 215 (B4) of the National Electrical Safety Code.

More detailed information will be provided at the time of the meeting.

Yours truly,

A. J. Reed
C. E. I

Mr. Jerome Trammer
16 Glacier #18
Fairbanks, Alaska 99701

Dear Mr. Trammer:

Representatives from the firm of Robert W. Retherford Associates are scheduled to meet with the State Electrical Board in Anchorage on the 23rd of May, 1979, to present information pertaining to the use of Single Wire Ground Return (SWGR) Systems in Alaska.

Enclosed is a general information brief related to SWGR Systems which may be reviewed for familiarization with the single wire ground return concept.

Sincerely,

ROBERT W. RETHERFORD ASSOCIATES

Frank J Bettine

Frank J. Bettine
Staff Engineer

FB:smd/n

SUBJECT: SINGLE WIRE GROUND RETURN SYSTEMS

PURPOSE: Waiver of Article 215-B4, National Electric Safety Code, which prohibits the use of the earth as a return conductor.

DISCUSSION:

A single wire ground return system (SWGR) can best be described as single-phase, single wire transmission system using the earth as a return circuit. SWGR is not a new technology as thousands of miles of line have been in successful operation for more than thirty years - mostly outside the United States i.e., India, New Zealand, Australia, Canada and in areas of the USA during W.W. II.

The SWGR lines suggested here are point-to-point connections with a carefully established grounding system at each end point. (See Figure 1) The design of these end point grounding systems would comply with presently accepted standards for limiting potential ground gradients and would be similar in design to a grounding system found in todays high voltage substation. The substation established at each end would then connect to the conventional multi-grounded distribution system as commonly used today throughout Alaska and the other 49 states. It is believed that the applications proposed here would in no way create any operating system with lesser safety than those now acceptable.

The later editions of the National Electric Safety Code (NESC) does not, however, allow the use of the earth as a return conductor (Part 2, Safety Rules for the Installation and Maintenance of Overhead Electric Supply and Communication Lines, Article 215-B4). The Fifth (effective to 1961) and prior addition of the NESC did, however, allow for use of the earth as a normal return path of an electric circuit in rural areas. Therefore, an exception or waiver to the present restriction in the NESC would be required to implement a SWGR system in Alaska.

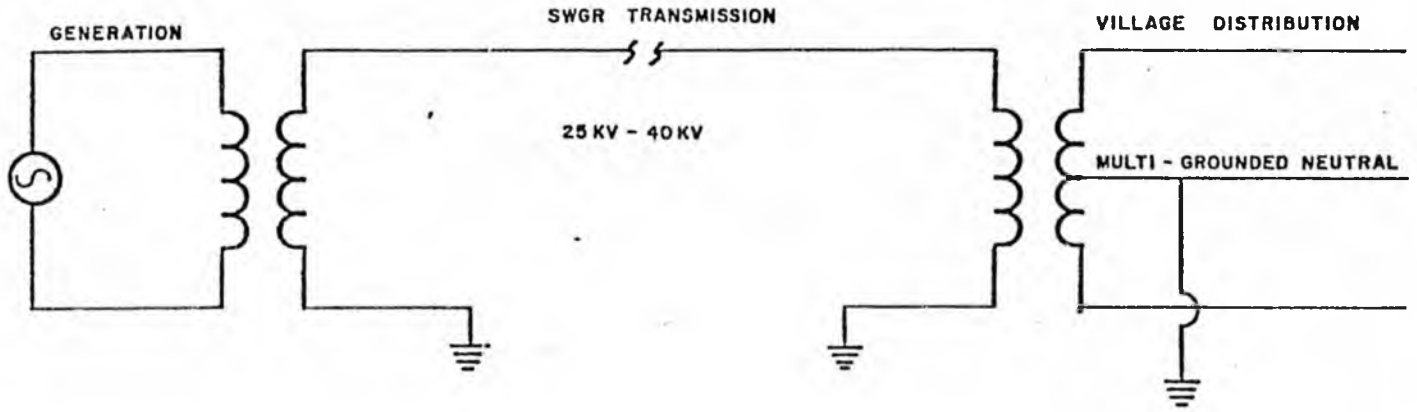

FIGURE 1

SIMPLIFIED SWGR TRANSMISSION SYSTEM

A presently envisioned SWGR systems would be used to connect several small outlying villages within a given geographical area to a centrally located, larger, more efficient, generation facility thereby eliminating the need for each small village to operate their own generating facility. (Figure 2)

Interconnection of these outlying villages to serve present loads by conventional three phase transmission system would be prohibitively expensive. Typical cost in the Anchorage area is approximately $60,000 per mile for conventional 25 kV three phase overhead construction. It is estimated that the cost of a 25 kV to 40 kV SWGR system using the design method as outlined in the attached appendix would be approximately 1/3 the cost of conventional three phase construction. Table 1 compares the relative bus-bar cost per kWh for three alternatives defined below.[1] (Cost of village plant assumed as one.) For the three alternatives listed the economic advantage is in favor of the SWGR system.

1. Village power plant system - power plant at each village.

2. Transmission interconnecting using conventional 3Ø - 4 wire lines to interconnect villages to a central plant.

3. A transmission interconnection using a SWGR system to interconnect villages to a central plant.

TABLE 1 RELATIVE BUS-BAR COST PER kWh

Alternate	
Village Plants	1.0
3Ø Line	0.88
SWGR Line	0.64

[1] A Regional Electric Power System for the Lower Kuskokwim Vicinity, Alaska Power Administration, July 1975.

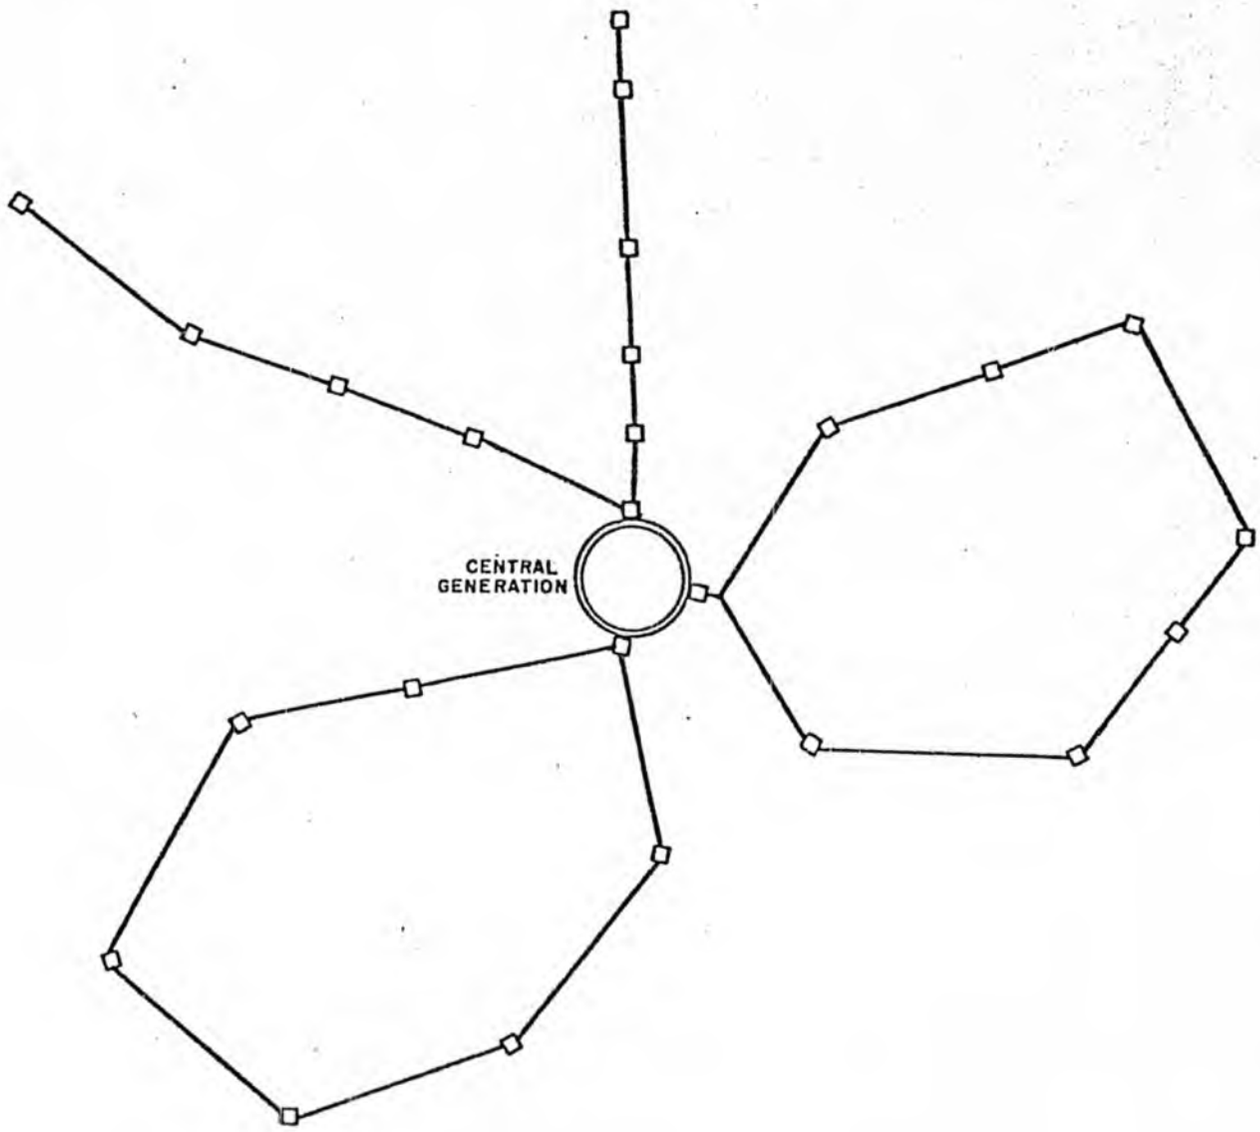

FIGURE 2

TYPICAL SWGR SYSTEM SUPPLY FOR RURAL ELECTRIFICATION

ADVANTAGES OF SWGR

1. The major advantage of a SWGR system is economics. It is much less costly to provide service using a SWGR system than using conventional three phase transmission.

2. The SWGR system proposed for village interconnections can be constructed by the villagers themselves with lightweight equipment and minimum "outside" assistance. This fact provides the opportunity for villagers to return to their communities a substantial share of the construction investment in wages earned locally.

3. Although not previously discussed a SWGR system operating at a line to ground voltage equal to the phase-to-phase voltage of a conventional three phase line will have approximately the same load carrying capability of the three phase line for a given voltage drop. This is the direct result of the low resistance earth return path.

Limitations:

SWGR is generally most suitable for serving low load density rural areas, where little if any problems will be encountered in using the earth as a return conductor.

As the load density increases above a certain level the cost advantage of a SWGR system is lost and conventional three phase transmission will again become the only practical solution.

November 13, 1979

Honorable Brad Bradley
Chairman
Senate Commerce Committee
P.O. Drawer 8-Q
Anchorage, Alaska 99501

Dear Senator Bradley:

During the Sunset hearings held by your committee November 7, 1979, a Mr. Robert Melon testified. His testimony included complaints about substandard electrical wiring in a home in Bettles, and state housing containing shabby wiring and construction, also in Bettles.

In the first case, Mr. Melon reported to the Department of Labor and was advised that permission to check on it would be necessary from the owner because it was not a commercial building. The owner gave the necessary permission, Mr. Reid checked the wiring, verified it was substandard but was never able to identify who did the wiring. The complaint was not reported to the Division of Occupational Licensing.

The second instance cited by Mr. Melon appears to be state housing units, also in Bettles. This office has not received a complaint. At this time, we are not able to determine if the Department of Labor or any other department has received a complaint or is investigating. If this is unlicensed activity or a violation by a licensee, we will, upon learning details, investigate.

Please contact me if you have any questions or comments.

Sincerely,

for Ann B. Griggs
Director

ABG/cw2N

BOARD OF ELECTRICAL EXAMINERS BOARD OF ELECTRICAL EXAMINERS

First Problem - refer to dept of Occ Lic Book (Yellow) Section F pg 27 -- 29

Both the Dept of Commerce & Dept of Labor have responsibility of enforcement for the Board of Electrical Examiners.

Second Problem - re: pg 5 Leg Aud Rep (Blue) #(2)
Not only has OL not maintained files and stats but there is also a problem that has tended to discriminate against Alaskan workers: Dept of Labor has enforced the requirement for a fitness certificate only among union people through the hiring halls - the scabs that are brought in up north are not checked for certificates....

FINDINGS & RECOMMENDATIONS OF LEGIS. AUDIT:

#1 - The committee does not agree that the board should be terminated

There is validity in the use of the administrator to assure a safe installation of electrical work.

#2 The licensing of communication electricians.
I believe that we should agree with legis. audit on this one... unless there is considerable change in the experience and testing requirements so that they are applicable to the fields in which the "electrician" is working.
there is a great deal of absurdity in requiring a DP type to have 4000 hours of telephone installation experience.

I think that this is one place where the marketplace will do a better job of checking credentials than this board would be capable of.... (does this sound like a libertine?)

for issueing licenses

#3 enforce existing laws/in a uniform manner....

YES There is a strong indication that the practices have in fact been discriminatory. They should be strongly advised to standardize requirements for taking the exam & to grade the exams in a consistent manner.
(Recommendation #5: reciprocity & Rec. #4 also deal with this area) (SEE APPENDIX A "FOLLOW UP REVIEW" for proposed legislation)
I believe that we should agree with findings #3,4 &5.

Rec. #6 Continuing competency standards.

The board has proposed legislation (see appendix A of "follow up review") that would require submission of proof of activity to the board to renew license. This may or may not assure continuing competency - but probably will.

Rec #7 - They recommend a public member. The Board agrees with this. (as a side note: The Senate is adding public members to ALL boards!) I think it's a good idea.

#8 & 9 The dept of Occ Lic is now doing what the leg aud recommended...

further:

Rick Halford & Hugh Malone both feel that the language in the statute should be strong in requiring the Board to <u>BE FAIR</u> in administering and grading tests and issuing licenses. This would give an applicant that felt wronged a clear ground for appeal. I think you are better equipped to come up with wording to effect this.

Malone also felt that we might consider putting into statute the following:

a requirement that the licensed administrator "sign off" on each job upon completion certifying that it's kosher.

a requirement that the licensed administrator be required to assure that those working under him have the required certificate of fitness. The dept of Lab. hasn't been able to do this ... maybe a little local enforcement at risk of a license would be more effective.

Increase the number of Electrical Inspectors (presently 2) to 5 (and maybe decrease the number of pressure vessel inspectors from 5 to 2 - that's my comment not malones)

Hugh Malone also felt that because of the requirements of the financial institutions and the new state loan programs that we should ask the organized communities to submit some sort of plan for fire and electrical inspection to the next legislature as a condition for revenue sharing in fire protection.... A good idea in the long run that will enable the rural loan programs to go into the RURAL areas. Lack of inspection is a problem in financing rural homes.

Last but not least - WE SHOULD REQUIRE THE STATE TO ABIDE BY THE SAME LAWS AS THE PRIVATE SECTOR (see attached memo from Av. Gross)

ADDITION: The definition of "Repair" offered in their proposed legislation is unacceptable - far too broad.

March 13, 1980

The Honorable Clem Tillion
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Your Senate Commerce Committee has had under consideration for "Sunset" review the Board of Electrical Examiners pursuant to your referral under AS 44.66.050 and AS 08.03.010.

In accordance with the statutory requirements, a public hearing was held on the review of this board, at which written and oral testimony was recieved. Members of the board testified in person or by teleconference. The Committee considered the proposed budget of the board for FY 1981 and particularly examined the performance audit of the activities of the board conducted by the Division of Legislative Audit.

Guided, in part, by this performance review the Committee took into consideration the factors required to be considered under AS 44.66.050(c).

Your Commerce Committee thereby makes the following findings: The Committee concurs in some and disagrees with others of the nine findings and recommendations as they appear on pages 9 through 14 of the Performance Review of the Board of Electrical Examiners dated May 2, 1979 which is hereby incorporated by reference as though fully set out herein. While we agree with many of the criticisms of the ongoing functioning of the present Board of Electrical Examiners, we do not concur with the auditor that the Board of Electrical Examiners should be allowed to terminate.

However, having concluded that the Board of Electrical Examiners should not be terminated and that it should continue to license electrical administrators, the Committee has found that it is necessary to provide the board with a short extension and continuing audit monitoring, because it has not been responsive enough to criticisms by the Division of Legislative Audit, particularly even after a period of many months following the original audit report, as can be seen from the follow-up report of February 6, 1980.

For instance, in following up its recommendation number three, relating to a requirement for more uniformity and consistency in the enforcement of current laws by the board, the Legislative Auditor found that even since August, 1979, six of the seventeen electrical administrators who were licensed did not have a certificate of fitness required by present regulations. Also, in following up its recommendation number four regarding the establishment of uniform procedures for examinations, the auditor found some improvement on the conduct of the examination, but found that grading the examination still has the incredible inconsistencies noted in the original audit report.

For instance, as to this last recommendation, the February 6, 1980 report from the auditor notes that "some applicants are passed and others are failed, even though the same questions are missed." (Page two.)

Additionally, while the auditor notes that the problems on review and regrading examinations have been partially corrected, the reasons for changing a grade are still not stated, nor are there indications of follow-up to determine impact on all examinees. The auditor notes that this is directly in violation of a new regulation promulgated by the board on May 25, 1979. Other audit recommendations are yet to be discussed, but it can already be seen that the board has a long way to go to correct the problems originally indicated in the audit.

For these reasons, the Committee is of the view that the Board of Electrical Examiners should be extended for only another two years, rather than the usual four years anticipated by the Sunset legislation, and that the Legislative Budget and Audit Committee should be asked to request the Division of Legislative Audit to perform a more thorough follow-up review of the Board of Electrical Examiners for the intervening year before full Sunset review again occurs in 1982.

Other recommendations urged certain statutory changes (recommendation number two, five, six, and seven).

Briefly, the Committee wishes to address some of these statutory recommendations, but cautiously.

The auditors recommended (number two) that legislation exempt "communications electricians" from the electrical administrator's statutes. The board disagreed, and provided some graphic examples of life-threatening occurrences in the installation of home communications equipment (particularly MDS and cable television services). However, the Committee finds that it is very difficult to easily delineate what areas ought and ought not to be exempted, although some justification for exemption in certain areas seems appropriate.

To the extent possible, the Committee will attempt to provide language in its proposed legislation that will exempt some "communications electricians" from the requirements of the chapter, but which still can address some of the concerns of the board in this area. This will not be easy.

The Committee accepts part of the auditor's recommendation number five which urges statutory changes to allow licensure by endorsement or reciprocity. However, the Committee will attempt to include in its legislation provisions that may still allow the board to require examination of an outside electrical contractor who is fully qualified in his state, but only as to those areas of knowledge and skill required for work in the unique Alaskan environment and that specially relate to the usages of the trade in Alaska.

Pursuant to recommendation number six, the Committee will include in its legislation provisions requiring the board to establish continuing competency requirements for electrical administrators, which may be met by proof of attendance at relevant functions of the applicable trade association, approved on a case by case basis by the board. The board has agreed with recommendation number seven, to add public members to the board, and has suggested legislation along those lines: Such provisions will be included in the Committee's legislation.

The Committee feels it has adequately addressed the recommendations and categories required under AS 44.66.050(d), and recommends that with the changes stated in this report the Board of Electrical Examiners be continued for another two years, that is, that the repealer with regard to the activities of the board be amended to read June 30, 1982, and that an interim one-year performance audit of the board be requested of the Legislative Audit Division through the Legislative Budget and Audit Committee, so that the Legislature can monitor the response of this board to the problems raised in this report.

A bill will be introduced by the Commerce Committee facilitating the changes and recommendations in this report.

Respectfully submitted,

Brad Bradley

Bill No.	Senate Bill 566	Date	May 5, 1980
Title	"An Act continuing the existence of the Board of Electrical Examiners and amending the laws relating to the licensing of electrical administrators and to electrical safety."	Contact:	Judy DuBois 465-2700 Dale Cheek 465-4870

If the law requiring certificate of fitness for work performed subject to the standards established in AS 18.60.580 is repealed, the public can no longer be assured that electrical wiring installed whether in the home, commercial, or public building will be done by competent electricians.

Under the present Statutes the Department of Labor requires that individuals working in the electrical trade have a certain number of hours experience and pass a written test successfully before they are allowed to be certified. Without those safeguards an inexperienced or untrained individual could install wiring in buildings that could cause loss of property, injury, or even the loss of life because of electrical malfunction which caused a fire.

May 27, 1980

SUBJECT: Section-by-section analysis of SCS for CSHB 1031 (Work Order No. 8591)

TO: Senator Brad Bradley
Chairman, Senate Commerce Committee

FROM: Joseph A. Guthrie
Legislative Counsel

You have requested a section-by-section analysis of SCS for CSHB 1031 (Electrical Examiners).

Section 1 changes the composition of the Board of Electrical Administrators so as to require that one member of the board be a public member, defined in AS 08.01.025 as a person not engaged in the conduct the board regulates or otherwise involved, by legal contact or financial interest, in that conduct. Two members of the board must still be electrical administrators.

Section 2 adds a requirement that a person may not be appointed to serve more than two consecutive terms on the board.

Section 3 adds a requirement that the board adopt regulations establishing the methods and standards whereby the board, in determining whether to renew or reinstate a license, may judge whether the applicant is still competent.

Section 4 adds to the subjects which must be tested in examinations administered to applicants for licensure. Moreover, provision is made for the board to accept the credentials of an electrical administrator licensed in a state other than Alaska for the purposes of licensure of that person in this state, except insofar as the licensing requirements of this state do not duplicate the licensing requirements of the other state.

Section 5 adds a requirement that licenses may not be renewed or reinstated unless the applicant demonstrates that he continues to be competent. Moreover, if reinstatement is sought after a license has lapsed for more than two years, the applicant must take and pass the examination required of new applicants.

Section 6 doubles the fees for original application and renewal of licenses.

Section 7 expands the work which can be performed by persons not licensed as electrical administrators to include not just the "maintenance and repair of telephone systems" but also the operation of those systems as well as the maintenance, repair and operation of telegraph and "intercommunication" systems.

Section 8 includes among the work which can be performed by persons not licensed as electrical administrators the installation, maintenance, and repair of fire and burglar alarms, as well as the maintenance and repair of diesel engines installed on heavy construction equipment.

Section 9 requires an electrical administrator to personally inspect all work done under his supervision, unless the work consists of simple or highly standardized work performed in less than 24 man hours.

Sections 10, 11, 12, and 13 continue the board in existence in lieu of termination mandated by sunset legislation.

SUBJECT: SCS CSHB 1031, Board of Electrical Examiners

TO: All Senators

FROM: Brad Bradley, Chairman
Senate Commerce Committee

DATE: May 22, 1980

(Sec. 08.40.010) P.1, Ls. 12/15 — Section 1. The Board of Electrical Examiners is composed of three (3) members: two (2) licensed electrical administrators and one (1) public member.

(Sec. 08.04.020) P.1, Ls. 17/22 — Section 2 The board members serve staggered terms of three years and may serve no more than two consecutive terms.

(Sec. 08.40.050) P.1, Ls. 24/28 — Section 3. The board is required to adopt regulations relating to the examination and licensing of electrical administrators. The board shall also adopt regulations establishing continued competency for license renewal and reinstatement. (See attached letter of intent.)

(Sec. 08.40.120) P.2, Ls. 1/13 — Section 4. Each applicant shall be examined to determine:

(1) his ability to understand plans, design and terminology.

(2) his knowledge of electrical installations and wiring.

(3) his familiarity with regulations in National codes approved by the American Standards Association.

(4) his familiarity with other installation and safety regulations established by the American Standards Association.

(5) his familiarity with electrical installation problems and usage peculiar to Alaska.

(6) his personal skill and ability.

(Sec. 08.40.120)
P.2, Ls. 14/24

Sec. 120(b) explains the provisions of examination and licensing reciprocity.

(Sec. 08.40.135)
P.2/3, Ls. 26/8

Section 5. A license may be renewed upon proof of continued competency. A lapsed license may be reinstated upon proof of continued competency and by payment of all renewal fees and a payment fee of $25 for each year the license has been lapsed. If a person's license has been lapsed for more than two years, he is required to take an examination.

(Sec. 08.04.150)
P.3, Ls. 10/12

Section 6. Increases (doubles) license and biennial renewal fees because they have not been increased since 1969.

(Sec. 08.40.190(b)(6))
P.3, Ls. 13/22

Section 7. This is an exclusion section in which this chapter does not apply to any person engaged in:

(6) the operation, maintenance and repair of telephone, telegraph and intercommunication facilities.

Section 8 includes additional work within the exclusionary provisions of this section but is nevertheless subject to the inspection provisions of Sec. 70 of this chapter and must follow the regulations regarding workmanship adopted by the Board.

(7) the installation, maintenance, and repair of fire alarm, intrusion alarm or other low voltage signaling systems of 48 volts to ground or less.

(8) the maintenance or repair of diesel electric engines installed on heavy construction equipment.

(Sec. 08.40.195)
P.3/4, Ls. 24/2

Section 9. An electrical administrator is required to personally inspect the installation and repair of a job unless the installation or repair amounts to simple or highly standardized work performed in less than 24 man-hours by personnel generally under the supervision of the electrical administrator.

(Sec. 08.03.010(c))
P.4, Ls. 3/5

Section 10. The termination date for the Board of Electrical Examiners is June 30, 1982.

(Sec. 08.03.010(b)(5)
P.4, L. 6

Section 11. Removes the Board of Electrical Examiners from the list of Boards which have a termination date of June 30, 1980.

(Sec. 08.40.010)
P.4, Ls.7/10

Section 12. A member serving on the board on the effective date of this act continues to serve until the expiration of his term.

P.4, Ls.11

Section 13. This act takes effect June 30, 1980.

LETTER OF INTENT
SCS for CS for HB 1031
May 20, 1980

The Honorable Senator Clem Tillion
Senate President
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Senator Tillion:

The Senate Commerce Committee has reviewed the problems mentioned in our previous report arising from "Sunset" review of the Board of Electrical Examiners. Senate Commerce Committee Substitute for Committee Substitute for HB 1031 addresses these concerns.

One item requires some explanation. On page 1, lines 26 and 28, and on page 2, lines 28 and 29, and on page 3, lines 1 and 2, there is reference to a requirement of "proof of continued competency" and a provision to allow the Board to adopt regulations establishing continued competency for license renewal.

The Committee anticipates that the Board of Electrical Examiners would provide by regulation for compliance with these sections by addressing meetings and functions sponsored by recognized trade associations. In most cases this would probably refer to functions sponsored by the National Electrical Contractor's Association.

The Committee does not intend that there be a strict, classroom-style continuing education program that might not be consistent with this profession and trade, but rather that the Board of Electrical Examiners assure itself that an electrical contractor is keeping in touch with the applicable trade associations and is attending functions sponsored by them which may add to his knowledge about the changes in the field.

There were indications at our committee hearings during the "Sunset" process that the trade organization performs some of this function now and is interested in doing more of it. Of course, passage of this legislation would virtually require the trade organization to become more active in this area. There seems to be no objection to that.

Respectfully submitted,

Senator Brad Bradley
Chairman

Effect of amendments. — The first 1973 amendment added paragraph (19).

The second 1973 amendment inserted "and Psychological Associate" in paragraph (15).

The 1975 amendment added paragraph (20).

The 1977 amendment added paragraph (21).

Editor's note. — Section 2, ch. 59, SLA 1966, provides: "The Department of Commerce shall provide for the orderly transfer of the service functions which are to be performed by the department under this chapter."

Section 4, ch. 59, SLA 1966, provides: "A provision in existing law which conflicts with this Act is superseded by this Act."

Legislative committee reports. — For report on ch. 143, SLA 1968 (HB 707), see 1968 House Journal, p. 836. For report on ch. 32, SLA 1971 (HB 111 am), see 1971 House Journal, p. 138.

Sec. 08.01.020. Board organization. Unless otherwise provided, all board members are appointed by the governor and serve at his pleasure. Unless otherwise provided, the governor shall designate the chairman of the board, and all other officers shall be elected by the board members. (§ 1 ch 59 SLA 1966)

Sec. 08.01.025. Public members. No public member of a board may:

(1) be engaged in the occupation which the board regulates;

(2) be associated by legal contract with a member of the occupation which the board regulates except as a consumer of the services provided by a practitioner of the occupation; or

(3) have a direct financial interest in the occupation which the board regulates. (§ 1 ch 259 SLA 1976)

Sec. 08.01.030. Quorum. A majority of the membership of a board constitutes a quorum unless otherwise provided. (§ 1 ch 59 SLA 1966)

Sec. 08.01.040. Transportation and per diem. A board member is entitled to transportation expenses and per diem as set out in AS 39.20.180. (§ 1 ch 59 SLA 1966)

Sec. 08.01.050. Administrative duties of department. (a) The department shall provide the following administrative and budgetary services when appropriate:

(1) collect fees and issue receipts;

(2) maintain records and files;

(3) issue and receive application forms;

(4) notify applicants of acceptance or rejection of applicants as determined by the board;

(5) designate dates examinations are to be held and notify applicants;

(6) publish notice of examination;

(7) arrange space for holding examinations;

(8) notify applicants of results of examinations;

(9) issue licenses and certificates or temporary licenses or certificates as authorized by the board;

(10) issue duplicate licenses or certificates upon proof by the licensee of loss of the original and payment by the licensee of a fee of $2;

(11) notify licensees of renewal dates at least 30 days before the expiration date of their licenses;

(12) compile and maintain current a register of licenses;

(13) answer routine inquiries;

(14) maintain files relating to individual licensees;

(15) arrange for printing and advertising;

(16) purchase supplies;

(17) employ secretarial help when needed;

(18) perform other services which may be requested by the board;

(19) provide investigative services to the boards established under chs. 20, 32, 36, 64, 68, 71, 72, 80, 84, and 86 of this title, for the purpose of assisting those boards in matters of professional discipline.

(b) The form and content of a license, authorized by a board listed in § 10 of this chapter, including any document evidencing renewal of a license, shall be determined by the department after consultation with and consideration of the views of the board concerned. (§ 1 ch 59 SLA 1966; am § 1 ch 102 SLA 1976; am § 39 ch 218 SLA 1976; am § 2 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment added paragraph (19) of present subsection (a).

The second 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in the introductory paragraph of present subsection (a).

The third 1976 amendment designated the provisions of this section as subsection (a), and in that subsection, substituted "department" for "Department of Commerce" and "when appropriate" for "for the boards" in the introductory language and inserted "by the licensee" in two places in paragraph (10). The amendment also added subsection (b).

While none of the amendments gave effect to the others, this section is set out as it appears in ch. 258, SLA 1976, with the inclusion of paragraph (19) of subsection (a) added by ch. 102, SLA 1976.

Sec. 08.01.060. Application for license. All applications for examination or licensing to engage in the business or profession covered by this chapter shall be made in writing to the department. (§ 1 ch 59 SLA 1966)

Sec. 08.01.070. Administrative duties of boards. Each board shall perform the following duties in addition to those provided in its respective law:

(1) keep minutes and records of all proceedings;

(2) hold a minimum of one meeting each year;

(3) hold at least one examination each year;

(4) request, through the department, investigation of violations of its laws and regulations;

(5) prepare and grade examinations;

(6) pass on qualifications of applicants for examination and license;

(7) forward minutes of meetings to the department within 20 days;

(8) forward results of examinations to the department;

(9) notify the department of meeting dates at least 15 days before meeting. (§ 1 ch 59 SLA 1966)

Sec. 08.01.080. Department regulations. The department shall adopt regulations to carry out the purposes of this chapter including but not limited to describing

(1) how an examination is to be conducted;

(2) what is contained in application forms;

(3) how a person applies for an examination or license. (§ 1 ch 59 SLA 1966)

Sec. 08.01.087. Powers and duties of department. (a) The department may, upon its own motion, conduct investigations to determine whether any person has violated a provision of this chapter or a regulation adopted under it or a provision of a chapter in this title dealing with one of the boards listed in § 10 of this chapter or a regulation adopted by one of those boards, or to secure information useful in the administration of this chapter.

(b) If it appears to the commissioner that a person has engaged in or is about to engage in an act or practice in violation of a provision of this chapter or a regulation adopted under it, or any of the laws pertaining to or regulations adopted by the boards listed in § 10 of this chapter, he may, if he considers it in the public interest, and after notification to all board members by telephone or telegraph of a proposed order or action unless a majority of the members of the board object within 10 days,

(1) issue an order directing the person to stop the act or practice; however, reasonable notice of and an opportunity for a hearing must first be given to the person, except that the commissioner may issue a temporary order before a hearing is held; a temporary order remains in effect until a final order affirming, modifying, or reversing the temporary order is issued or until 15 days after the person receives the notice and has not requested a hearing by that time; a temporary order becomes final if the person to whom the notice is addressed does not request a hearing within 15 days after receiving the notice; the commissioner or his designee shall be the hearing officer at the hearing and shall issue a final order within 10 days after the hearing;

(2) bring an action in the superior court to enjoin the acts or practices and to enforce compliance with this chapter, a regulation adopted under it, or an order issued under it, or any of the laws pertaining to or regulations adopted by the boards listed in § 10 of this chapter;

(3) examine or have examined the books and records of any person whose business activities require licensure by a board listed in § 10 of this chapter and he may require that person to pay the reasonable costs of the examination; and

(4) issue subpoenas for the attendance of witnesses, and the production of books, records and other documents. (§ 3 ch 258 SLA 1976)

Sec. 08.01.090. Applicability of the Administrative Procedure Act. The Administrative Procedure Act (AS 44.62) applies to regulations adopted and proceedings held under this chapter, except those under AS 08.01.087(b). (§ 1 ch 59 SLA 1966; am § 4 ch 258 SLA 1976)

Effect of amendment. — The 1976 amendment added "except those under AS 08.01.087(b)" to the end of the section.

Sec. 08.01.100. License renewal, lapse and reinstatement. (a) All licenses shall be renewed biennially on the dates set by the department with the approval of the respective board.

(b) A registration, license, permit or certificates requiring renewal to continue effective must be renewed on or before the date set by the department or it will lapse. A penalty of $10 shall be charged in addition to all delinquent renewal fees for reinstatement of a registration, license, permit or certificate which remains lapsed for more than 60 days. (§ 1 ch 59 SLA 1966; am § 2 ch 94 SLA 1968)

Sec. 08.01.105. Penalty for improper payment. An applicant shall pay a penalty of $10 each time a negotiable instrument is presented to the department in payment of an amount due and payment is subsequently refused by the named payor. (§ 3 ch 258 SLA 1976)

Sec. 08.01.110. Definitions. In this chapter

(1) "board" includes the boards and commissions listed in § 10 of this chapter;

(2) "department" means the Department of Commerce and Economic Development;

(3) "commissioner" means the commissioner of commerce and economic development;

(4) "license" means any license, certificate, permit, or registration or similar evidence of authority issued by one of the boards listed in § 10 of this chapter;

(5) "licensee" means any person who holds a license;

(6) "occupation" means any of the trades or professions for which licensure is required by one of the boards listed in § 10 of this chapter. (§ 1 ch 59 SLA 1966; am § 40 ch 218 SLA 1976; am § 5 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (2).

The second 1976 amendment added paragraphs (3) through (6).

Chapter 02. Miscellaneous Provisions.

Section

10. Professional designation requirements
20. Limitation of liability for members of licensing boards

Sec. 08.02.010. Professional designation requirements. (a) A person licensed in the state as a chiropractor as defined in AS 08.20.220, a dentist as defined in AS 08.36.360, a medical practitioner or osteopath as defined in AS 08.64.380, a professional nurse as defined in AS 08.68.410, an optometrist as defined in AS 08.72.300(3), a registered pharmacist under AS 08.80, a registered physical therapist under AS 08.84, or a psychologist under AS 08.86, shall professionally identify

himself by the use of appropriate letters or a title after his name which represents his specific field of practice. The letters or title shall appear on all signs, stationery or other advertising in which the person offers or displays his professional services to the public. In addition, a person engaged in the practice of medicine or osteopathy under AS 08.64.380(2), or a person engaged in any manner in the healing arts who diagnoses, treats, tests, or counsels other persons in relation to human health or disease and identifies himself by using the letters "M.D." or the title "doctor" or "physician" or any other title which tends to show that the person is willing or qualified to diagnose, treat, test, or counsel another person, shall clarify the letters or title by adding the appropriate specialist designation, if any, such as "dermatologist", "radiologist", "audiologist", "naturopath", or the like.

(b) A person subject to (a) of this section who fails to comply with the requirements of (a) of this section shall be given notice of his noncompliance by his appropriate licensing board. If, after a reasonable time, with opportunity for a hearing, his noncompliance continues, the board may suspend or revoke his license or registration, or administer other disciplinary action which in its determination is appropriate. (§ 1 ch 6 SLA 1973)

Sec. 08.02.020. Limitation of liability for members of licensing boards. No person is liable for damages or other relief in an action by reason of his performance of a duty, function, or activity as a member of a licensing board or by reason of a recommendation or action of the board when the person acts in the reasonable belief that his action or recommendation is warranted by facts known to him or to the board after reasonable efforts to ascertain the facts upon which the action or recommendation is made. (§ 45 ch 102 SLA 1976)

Chapter 03. Termination, Continuation and Reestablishment of Regulatory Boards

Section

10. Termination, continuation and reestablishment of regulatory boards

Cross reference. — As to review of the activities of agencies, boards and commissions, see AS 44.66.010 et seq.

Editor's note. — Section 1, ch. 149, SLA 1977, provides: "The legislature finds that the substantial increase in the number of state agencies, boards and commissions, and the proliferation of rules and regulations which each has adopted have contributed to a public disenchantment with the operation of state government, and that there is need for an effective and regular system of scrutiny of the programs and activities of all agencies, boards and commissions. The legislature further finds that the establishment of a system for periodic review by the public and the executive and legislative branches of certain state agencies, boards and commissions will help the governor and the legislature to determine the need for the continued existence of each of the agencies, boards and commissions."

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);

(2) Board of Dental Examiners (AS 08.36.010);

(3) State Medical Board (AS 08.64.010);

(4) Board of Nursing (AS 08.68.010);

(5) Board of Dispensing Opticians (AS 08.71.010);

(6) Board of Examiners in Optometry (AS 08.72.010);

(7) Board of Pharmacy (AS 08.80.010);

(8) Board of Veterinary Examiners (AS 08.98.010);

(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);

(10) Board of Nursing Home Administrators (AS 08.70.010);

(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);

(2) Board of Barber Examiners (AS 08.12.010);

(3) Collection Agency Board (AS 08.24.011);

(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);

(5) Board of Electrical Examiners (AS 08.40.010);

(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);

(7) Guide Licensing and Control Board (AS 08.54.010);

(8) Board of Marine Pilots (AS 08.62.010);

(9) Real Estate Commission (AS 08.88.011);

(10) Board of Welding Examiners (AS 08.99.010);

(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

Chapter 40. Electrical Administrators.

Article
1. Board of Electrical Examiners (§§ 08.40.005—08.40.080)
2. Licensing (§§ 08.40.090—08.40.180)
3. General Provisions (§§ 08.40.190—08.40.200)

Cross reference. — As to electrical contractors, see AS 08.18.026.

Article 1. Board of Electrical Examiners.

Section
05. Purpose of chapter
10. Creation and membership of board
20. Appointment and term of office
30. Chairman of board
40. Board meetings
45. Categories of licenses
50. Regulations
60. Examinations
70. Inspection or investigation by board
80. Compensation of board members

Sec. 08.40.005. Purpose of chapter. The purpose of this chapter is to protect the safety of people and property in the state from the danger of improperly installed electrical wiring and equipment, by providing a procedure to assure

(1) the public that persons responsible for making electrical installations in this state are qualified; and

(2) a sufficient number of persons are so qualified. (§ 2 ch 53 SLA 1977)

Sec. 08.40.010. Creation and membership of board. There is hereby created a Board of Electrical Examiners consisting of three members

who are licensed electrical administrators. (§ 1 ch 158 SLA 1960; am § 3 ch 53 SLA 1977)

Effect of amendment. — The 1977 amendment substituted "administrators" for "Contractors" at the end of the section.

Sec. 08.40.020. Appointment and term of office. The members of the board shall be appointed by the governor and confirmed by the legislature for staggered terms of three years, or until their successors are appointed. A member may be removed at the pleasure of the governor. (§ 1 ch 158 SLA 1960)

Sec. 08.40.030. Chairman of board. The board shall elect one of its members as chairman. (§ 1 ch 158 SLA 1960)

Sec. 08.40.040. Board meetings. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman with prior approval of the governor. Two members constitute a quorum. (§ 2 ch 158 SLA 1960)

Sec. 08.40.045. Categories of licenses. The board may adopt regulations establishing categories of electrical administrators, establishing qualifications for those categories and the content of examinations for applicants for each category. (§ 4 ch 53 SLA 1977)

Sec. 08.40.050. Regulations. The board shall adopt regulations subject to the Administrative Procedure Act (AS 44.62), relating to the examination and licensing of electrical administrators and the suspension or revocation of licenses. (§ 2 ch 158 SLA 1960; am § 5 ch 53 SLA 1977)

Effect of amendment. —The 1977 amendment substituted "adopt regulations" for "issue rules and regulations" and "administrators" for "contractors."

Sec. 08.40.060. Examinations. A licensing examination, under the supervision of the chairman of the board or his designee, shall be conducted at least twice during each year at appropriate places in the state. (§ 2 ch 158 SLA 1960)

Sec. 08.40.070. Inspection or investigation by board. The board may make or have made a special inspection or investigation into the work of a licensee which it considers necessary, may issue subpoenas and process compelling the attendance of any person and the production of any papers or books, for the purpose of the investigation nad examination, may administer oaths when required, and may petition a court of the state to enforce subpoenas and process or to compel testimony. (§ 5 ch 158 SLA 1960)

Sec. 08.40.080. Compensation of board members. Members of the board are entitled to payments, per diem allowances and transportation expenses allowed by law and paid members of other state examining and licensing boards. (§ 6 ch 158 SLA 1960)

Article 2. Licensing.

Section
90. License required
100. [Repealed]
110. Application for license
120. Examination of applicant
130. Administrator limited to one licensed contractor
135. Renewal and reinstatement
140. Issuance and display of license
150. Fees
160. [Repealed]
170. Denial, suspension and revocation of license
175. Cease and desist order
178. Injunctive relief
180. Violation of chapter

Sec. 08.40.090. License required. (a) No person may act as an electrical administrator in the state without a license issued by the board.

(b) A person licensed under this chapter may perform work only in a category for which he is licensed. (§ 3 (c) ch 158 SLA 1960; am § 6 ch 53 SLA 1977)

Effect of amendment. — The 1977 amendment designated the provisions of this section as subsection (a), substituted "administrator" for "contractor" in that subsection, and added subsection (b).

Purpose. — The purpose of Alaska's electrical contractor's (now administrator's) licensing law is the protection of the public against fire, injury and unsatisfactory craftsmanship. 1967 Op. Att'y Gen., No. 3.

No bond is required, no test of financial responsibility. The licensing provision is designed only to protect those desiring electrical work to be done and those who visit the improved premises from the results, particularly fire hazard, of shoddy workmanship. 1963 Op. Att'y Gen., No. 14.

Legislative intent. — The legislature intended the licensing act to regulate all electrical wiring where there might be a substantial potential hazard to the general public. 1967 Op. Att'y Gen., No. 3.

This chapter prohibits any substantial electrical wiring or rewiring of commercial buildings by nonlicensed individuals, irrespective of who owns or uses them. 1967 Op. Att'y Gen., No. 3, rendered prior to the 1967 amendment to AS 08.40.190.

If the work to be done is of such nature that it would not impose a serious fire or safety hazard even if performed improperly, then it could be considered insignificant. Absent this limitation anyone engaged in wiring a commercial building for monetary gain is engaged in the business of electrical wiring, irrespective of what his usual occupation may be. 1967 Op. Att'y Gen., No. 3, rendered prior to the 1967 amendment to AS 08.40.190.

And a person must be a licensed electrical contractor (now administrator) in order to bid on and construct signal and communication systems. 1966 Op. Att'y Gen., No. 4.

Exception. — As a general rule, the performance by a person engaged in a different occupation or profession of a single transaction, or even a number of isolated transactions, pertaining to a licensed occupation or profession, will not be considered as engaging in or carrying on such occupation or profession within the purview of the law requiring the license. 1967 Op. Att'y Gen., No. 3.

Am. Jur. and C.J.S. references. — 34 Am. Jur., Licenses, § 9.

C.J.S. Licenses §§ 6, 30.

Sec. 08.40.100. Exclusion.
Repealed by § 14 ch 53 SLA 1977.

Editor's note. — The repealed section derived from § 9, ch. 158, SLA 1960.

Sec. 08.40.110. Application for license. An applicant for a license shall apply upon a form prescribed by the board. (§ 3 (d) ch 158 SLA 1960)

Sec. 08.40.120. Examination of applicant. Each applicant shall be examined to determine his knowledge of electrical installations and wiring, familiarity with the regulations contained in the National Electrical Code and the National Electrical Safety Code, as approved by the American Standards Association, other installation and safety regulations approved by the American Standards Association, and his personal skill and ability. (§ 3 (d) ch 158 SLA 1960)

Design of chapter. — This chapter is designed to assure that no one installs wiring unless qualified by an examination designed to prove his personal skill and ability. 1963 Op. Att'y Gen., No. 14.

Sec. 08.40.130. Administrator limited to one licensed contractor. No person may qualify for or operate as an electrical administrator for more than one registered contractor. (§ 3 (e) ch 158 SLA 1960; am § 1 ch 30 SLA 1969; am § 7 ch 53 SLA 1977)

Effect of amendment. — The 1977 amendment rewrote this section.
Legislative committee report. — For report on ch. 30, SLA 1969 (CSSB 145), see 1969 House Journal, p. 417.

Sec. 08.40.135. Renewal and reinstatement. (a) A license issued under this chapter, unless revoked or suspended, is nontransferable and may be renewed on a date set by the department, without examination, by appropriate application.

(b) A lapsed license may be reinstated by payment of all unpaid renewal fees and a penalty fee of $25 for each year the license has been lapsed unless the license has been lapsed for more than three years and the board has reason to believe that it may be necessary to require the licensee to take and pass the examination given under § 120 of this chapter. (§ 2 ch 30 SLA 1969; am § 8 ch 53 SLA 1977)

Effect of amendment. — The 1977 amendment, in subsection (a), deleted "is valid for two years after issuance" following "under this chapter" and substituted "on a date set by the department" for "biennially on January 1.

Legislative committee report. — For report on ch. 30, SLA 1969 (CSSB 145), see 1969 House Journal, p. 417.

Sec. 08.40.140. Issuance and display of license. An applicant who successfully passes the examination shall receive a certificate of license. The certificate shall be prominently displayed, while in effect, in the holder's principal place of business. (§ 3 (f) ch 158 SLA 1960)

Sec. 08.40.150. Fees. (a) Each applicant shall pay an original license fee of $100.

(b) The fee for biennial renewal of a license is $100. (§ 3 (f) ch 158 SLA 1960; am § 3 ch 30 SLA 1969)

Legislative committee report. — For report on ch. 30, SLA 1969 (CSSB 145), see 1969 House Journal, p. 417.

Sec. 08.40.160. Waiver of examination.
Repealed by § 14 ch 53 SLA 1977.

Editor's note. — The repealed section derived from § 3 (f), ch. 158, SLA 1960.

Sec. 08.40.170. Denial, suspension and revocation of license. (a) The board may suspend, revoke or refuse to grant a license upon a finding that

(1) the application is fraudulent or misleading;

(2) the licensee has knowingly violated this chapter or a lawful rule, order or regulation of the board;

(3) the licensee is incompetent, or has engaged in fraudulent practices.

(b) Notice of a proposed denial, suspension or revocation of license shall be given in writing, stating the grounds.

(c) Proceedings for the denial, suspension or revocation of a license shall be governed by the Administrative Procedure Act (AS 44.62). (§ 4 ch 158 SLA 1960; am § 4 ch 30 SLA 1969)

Legislative committee report. — For report on ch. 30, SLA 1969 (CSSB 145), see 1969 House Journal, p. 417.

Sec. 08.40.175. Cease and desist order. (a) If the commissioner of labor determines that a person is acting as an electrical administrator in violation of this chapter, he may issue a cease and desist order prohibiting further action by the person as an electrical administrator. The cease and desist order remains in effect until the person has submitted evidence acceptable to the commissioner of labor showing that the violation has been corrected.

(b) A person affected by an order issued under (a) of this section may seek equitable relief preventing the commissioner of labor from enforcing the order. (§ 1 ch 39 SLA 1972; am § 9 ch 53 SLA 1977)

Effect of amendment. — The 1977 amendment substituted "administrator" for "contractor" in two places in the first sentence of subsection (a).

Sec. 08.40.178. Injunctive relief. The commissioner of labor may seek an injunction in the superior court to enjoin a person from violating this chapter. (§ 1 ch 39 SLA 1972)

Sec. 08.40.180. Violation of chapter. A person who knowingly violates this chapter, or who knowingly violates a valid rule, regulation or order of the board, is guilty of a misdemeanor, and upon conviction is punishable by a fine of not more than $300, or by imprisonment for not more than 60 days or by both. (§ 10 ch 158 SLA 1960)

Effect of bid in response to invitation for general construction. — If an invitation to bid is for general construction, including electrical work, and allows subcontracting, no inference that the work will be done by the bidder is involved, the electrical work is incidental to the main contract, and therefore no question of violation of the law arises. 1963 Op. Att'y Gen., No. 14.

And to invitation specifically for electrical work. — If the invitation is specifically for electrical work, the question arises whether the bidder is purporting to be in the business of electrical contracting. 1963 Op. Att'y Gen., No. 14.

Party may ask for bids on contingency. — A party desiring electrical work to be done is not restricted in his right to ask for bids on contingency. 1963 Op. Att'y Gen., No. 14.

And the invitation to bid can be phrased so as to allow bids from persons not qualified to do the work at the time the bids are received. 1963 Op. Att'y Gen., No. 14.

No valid legislative purpose is served by attaching criminal sanctions to entering a contract expressly contingent upon obtaining a license, since the contract does not endanger anyone protected by the statute. Therefore, it is legal for an unlicensed electricial contractor (now administrator) to bid if he acknowledges his inability to perform the work unless and until licensed. 1963 Op. Att'y Gen., No. 14.

But without contingency the contract is, in effect, an agreement to commit a crime and is in violation of the public policy of the state. 1963 Op. Att'y Gen., No. 14.

And such a contract is illegal and unenforceable. 1963 Op. Att'y Gen., No. 14.

Normally a contingent bid is not responsive to the invitation to bid. 1963 Op. Att'y Gen., No. 14.

And constitutes a material variance from state specifications. — The "Invitation to Bid" form normally used by state agencies at the present time contains no provision indicating that the contractor (now administrator) will be permitted to qualify after the opening of the bids to perform the electrical work offered. By submitting a responsive bid to such an invitation a contractor (now administrator) is purporting to be ready and able to do the work and is in violation of the law if the contractor is not licensed. If the bid recites the lack of license qualification, the recital constitutes a variance from the specifications of the invitation. The lack of license is such a material variance as to be basic. State contracting officers are not entitled to waive the variance as an informality since the variance reaches matters of essence and substance. 1963 Op. Att'y Gen., No. 14.

A bidder who admits he is unlicensed and unable to presently perform the work is making no false pretenses. 1963 Op. Att'y Gen., No. 14.

Article 3. General Provisions.

Section
190. Exclusions
200. Definitions

Sec. 08.40.190. Exclusions. (a) This chapter does not apply to any utility or municipality engaged in

(1) electrical construction and maintenance of electrical wiring for the generation and distribution of electrical current where the wiring is an integral part of a system owned and operated by that utility or municipal light and power department;

(2) the installation, operation, maintenance, or repair of telephone, telegraph, signal or communication systems when the work is performed by the employees of that utility.

(b) This chapter does not apply to any person engaged in

(1) the manufacture or repair of electrical apparatus or equipment;

(2) electrical work, the cost of which does not exceed $5,000, involving residences or small commercial establishments in communities

(A) which have a population of under 500; or

(B) which are over 50 miles by air or water transportation from the business place of an electrical administrator licensed under this chapter;

(3) electrical installation on residential property which is owned by the installer or a member of his immediate family and not intended for sale at the time of making the installation;

(4) the operation, maintenance or repair of a television or radio broadcasting system and the installation of a radio broadcasting system under 500 watts input power except for A.C. power supply and wiring;

(5) the installation, maintenance and repair of elevators so long as the work is performed by an agent or employee of the elevator industry and is confined to the elevator control system, which system does not include the power supply, wiring and motor connection;

(6) the maintenance or repair of telephone systems.

(c) Work within the exclusionary provisions of this section is nevertheless subject to the inspection provisions of § 70 of this chapter and must follow the regulations regarding workmanship adopted by the board. (§ 8 ch 158 SLA 1960; am § 1 ch 79 SLA 1967; am § 10 ch 53 SLA 1977)

Effect of amendment. — The 1977 amendment rewrote this section.

Legislative committee report. — For report on ch. 79, SLA 1967 (HB 258), see 1967 House Journal, p. 427.

Section delineates circumstances where strict control not deemed necessary. — The exclusions provided in this section and former AS 08.40.100 delineate within narrow limits those circumstances where strict control is not deemed necessary. 1967 Op. Att'y Gen., No. 3.

Performance of single transaction pertaining to licensed occupation. — As a general rule, the performance by a person engaged in a different occupation or profession of a single transaction, or even a number of isolated transactions, pertaining to a licensed occupation or profession, will not be considered as engaging in or carrying on such occupation or profession within the purview of the law requiring the license. 1967 Op. Att'y Gen., No. 3.

Wiring commercial building for monetary gain. — If the work to be done is of such nature that it would not impose a serious fire or safety hazard even if performed improperly, then it could be considered insignificant. Absent this limitation anyone engaged in wiring a commercial building for monetary gain is engaged in the business of electrical wiring irrespective of what his usual occupation may be. 1967 Op. Att'y Gen., No. 3, rendered prior to the 1967 amendment to this section.

Sec. 08.40.200. Definitions. As used in this chapter

(1) "board" means the Board of Electrical Examiners;

(2) "electrical administrator" means any person engaged in the business of, or purporting to be engaged in the business of, installing or repairing, or contracting to install or repair, electrical wiring, conduits, devices, fixtures, equipment, or other electrical materials for transmitting, using or consuming electrical energy;

(3) "electrical wiring" means and includes wiring, fixtures, conduits, appliances, devices, equipment, overhead or underground wiring systems, or other equipment in connection with the general distribution or utilization of electrical energy;

(4) "manufacture" means fabrication or completion of a product or electrical apparatus exclusive of its completion or installation at a job site;

(5) "utility" means every corporation (whether public, cooperative or otherwise), company, individual, or association of individuals, their lessees, trustees, or receivers appointed by a court, that owns, operates, manages, or controls any plant or system for

(A) furnishing, by generation, transmission or distribution, electrical service to the public for compensation;

(B) furnishing telecommunications service to the public for compensation. (§ 3 (a) (b) ch 158 SLA 1960; am §§ 12, 13 ch 53 SLA 1977)

Effect of amendment. — The 1977 amendment substituted "administrator" for "contractor" near the beginning of paragraph (2) and added paragraphs (4) and (5).

Installation of signal and communication systems is included within the broad definitions of this section. 1966 Op. Att'y Gen., No. 4.

One who responds to invitation for bids is or purports to be in business of electrical contracting. — A person who responds to an invitation for bids is engaged in and purporting to be engaged in the business of contracting to install or repair electrical wiring, if the necessary purport of his bid, to the inviter, is that he is engaged in the business of electrical contracting. 1963 Op. Att'y Gen., No. 14.

And to "purport" to be in such business requires dissemblance. — To "purport" to be in the business of electrical contracting, as distinct from being engaged in the business, requires dissemblance on the part of the electrician, since "being engaged" includes the appearance of being engaged, unless the appearance is deceptive. 1963 Op. Att'y Gen., No. 14.

12 AAC 32.021. EXAMINATION FOR AN ELECTRICAL ADMINISTRATOR LICENSE IN THE OUTSIDE LINEWORK CATEGORY. An applicant for an electrical administrator license in the outside linework category will be examined to determine his or her knowledge of outside linework, familiarity with the applicable portions of the regulations contained in the National Electrical Code and the National Electrical Safety Code, as approved by the American National Standards Institute, other applicable installation and safety regulations approved by the American National Standards Institute, and practical skill and ability in outside linework. (Eff. 7/28/77, Reg. 63)

Authority: AS 08.40.045 AS 08.40.060
AS 08.40.050 AS 08.40.120

12 AAC 32.030. EXAMINATIONS. Repealed 7/28/77.

12 AAC 32.031. SCOPE OF AN ELECTRICAL ADMINISTRATOR LICENSE IN THE OUTSIDE LINEWORK CATEGORY. (a) The holder of an electrical administrator license in the outside linework category may supervise all work defined in (b) of this section. A person holding a current valid license in outside linework on the effective date of the amendment to this section will be granted a license in outside communications without examination.

(b) Outside linework includes

(1) all work necessary to the assembling, installation, erection, operation, maintenance or repair of all electrical apparatus, devices, wires, cables, supports, insulators, conductors, ducts,

and raceways when part of distributing systems outside of buildings;

(2) all underground ducts and cables when they are part of a system of a distributing company or utility;

(3) all outdoor substations and electrical connections up to and including the setting of transformers and the connecting of the primary busses to them;

(4) all outdoor street lighting on public thoroughfares, roadways, and rights-of-way; and

(5) all linework consisting of wood, concrete or metal, or substitutes for those materials; poles or towers, including wires, cables, or other apparatus supported by them. (Eff. 7/28/77, Reg. 63; am 4/11/79, Reg. 70)

Authority: AS 08.40.045
AS 08.40.050
AS 08.40.090

INSIDE WIRING CATEGORY

Section
90. Qualifications for an electrical administrator license in the inside wiring category
100. Examination for an electrical administrator license in the inside wiring category
110. Scope of an electrical administrator license in the inside wiring category

12 AAC 32.090. QUALIFICATIONS FOR AN ELECTRICAL ADMINISTRATOR LICENSE IN THE INSIDE WIRING CATEGORY. An applicant for an electrical administrator license in the inside wiring category shall furnish proof satisfactory to the board that he or she has

(1) three years of current practical experience as a journeyman electrician in inside wiring;

(2) four years of current management experience in inside wiring as field superintendent, office engineer or similar position; or

(3) a degree in electrical engineering from an accredited college or university plus one year of current practical experience as a journeyman electrician in inside wiring. (Eff. 7/28/77, Reg. 63)

Authority: AS 08.40.045
AS 08.40.050

12 AAC 32.100. EXAMINATION FOR AN ELECTRICAL ADMINISTRATOR LICENSE IN THE INSIDE WIRING CATEGORY. An applicant for an electrical administrator license in the inside wiring category will be examined to determine his or her knowledge of inside wiring, familiarity with the applicable portions of the regulations contained in the National Electrical Code and the National Electrical Safety Code, as approved by the American National Standards Institute, other applicable installation and safety regulations approved by the American National Standards Institute, and practical skill and ability in inside wiring. (Eff. 7/28/77, Reg. 63)

Authority: AS 08.40.045 AS 08.40.060
AS 08.40.050 AS 08.40.120

12 AAC 32.110. SCOPE OF AN ELECTRICAL ADMINISTRATOR LICENSE IN THE INSIDE WIRING CATEGORY. (a) The holder of an electrical administrator license in the inside wiring category may supervise all work defined in (b) of this section and the work defined under the residential wiring category in sec. 190(b) of this chapter. A person holding a current valid license in inside wiring on the effective date of the amendment to this section will be granted a license in inside examination.

(b) Inside wiring includes

(1) installation, construction, operation, maintenance and repair of all electrical work within buildings and within property lines of any given property, and beginning at the secondary side of the transformer, except linework consisting of poles and towers, including wires or cables and other apparatus supported by them, and except outdoor substations as defined under outside linework jurisdiction; and

(2) work starting immediately after the first point of attachment of aerial conductors to buildings when aerial wires or cables are used to provide power for buildings or structures within the property lines of any given property. (Eff. 7/28/77, Reg. 63; am 4/11/79, Reg. 70)

Authority: AS 08.40.045
AS 08.40.050
AS 08.40.090

AS 08.40.090

ARTICLE 6.
EXAMINATIONS

Section
210. Examination
215. Examination review
220. Reexamination
230. Notice of examination
240 Examination papers

12 AAC 32.210. EXAMINATION. (a) Each part of an examination must be passed with a minimum score of 70 percent.

(b) An applicant may not be examined for more than two electrical administrator license categories at any one scheduled examination. (Eff. 7/28/77, Reg. 63)

Authority: AS 08.40.045
AS 08.40.050
AS 08.40.120

12 AAC 32.215. EXAMINATION REVIEW. (a) A person receiving a failing score may review his or her examination in the presence of at least one board member if he or she makes a request to the board before the recess of the board's regularly scheduled meeting the day immediately following the examination.

(b) An examination review shall be conducted the day the request for review is made or the following day.

(c) Upon completion of an examination review with an applicant, the board member reviewing the examination will prepare a written and signed statement of any changes the board member determines should be made to the original examination score.

(d) The board will review and act upon all written statements of recommended changes before the adjournment of the board's regularly scheduled meeting immediately following the examination.

(e) The written and signed statement of recommended changes will be returned with the original and unaltered examination papers to the department following the board's meeting. (Eff. 5/25/79, Reg. 70)

Authority: AS 08.40.050
AS 08.40.120

12 AAC 32.220. REEXAMINATION. (a) An applicant failing part of the examination will be allowed to retake the parts failed if he or she notifies the department of his or her intent to retake the examination at least 30 days before the next scheduled examination.

(b) An applicant who fails to retake the parts failed within one year must retake the entire examination. (Eff. 7/28/77, Reg. 63)

Authority: AS 08.40.050

12 AAC 32.230. NOTICE OF EXAMINATION. Candidates whose applications for examination have been accepted will be notified of the time and place of examination at least two weeks before the examination. Notice of the examination will also be published in major newspapers at least 30 days before the examination. (Eff. 4/11/79, Reg. 70)

Authority: AS 08.40.050
AS 08.40.060

12 AAC 32.240. EXAMINATION PAPERS. All examination papers will be preserved for a period of at least six months after notification of grade results, during which time any candidate who has failed the examination may inspect his papers in the presence of a board member or his designee. However, no person may inspect examination papers during the 30 days immediately preceding any examination. (Eff. 4/11/79, Reg. 70)

Authority: AS 08.40.050
AS 08.40.060
AS 08.40.120

ARTICLE 7.
APPLICATIONS

Section
250. Application; forms, supporting evidence, and fee
260. Time and place for filing applications

12 AAC 32.250. APPLICATION; FORMS, SUPPORTING EVIDENCE, AND FEE. (a) An application for initial licensure must be submitted on a form provided by the department with

(1) a check or money order in the amount specified in (b) of this section;

(2) transcripts from an accredited school or trade school attended by applicant;

(3) a certified copy of the applicant's degree awarded by an accredited school or certificate from trade school;

(4) evidence of experience required by this chapter.

(b) The appropriate fee under AS 08.40.150 or 08.40.135(b) must accompany an application. The fees under AS 08.40.150 for original license and renewal must be paid for each category applied for. (Eff. 4/11/79, Reg. 70)

Authority: AS 08.40.050
AS 08.40.110
AS 08.40.150

12 AAC 32.260. TIME AND PLACE FOR FILING APPLICATIONS. An application together with the required fee must be filed at least 10 days before a regularly scheduled board meeting in order to be considered at that meeting. Regular meetings are held in the months of February, May, August, and November. (Eff. 4/11/79, Reg. 70)

Authority: AS 08.40.050
AS 08.40.110
AS 08.40.150

ARTICLE 8.
GENERAL PROVISIONS

Section
900. Licensed electrical administrator is responsible for completed project
910. Definitions

12 AAC 32.900. LICENSED ELECTRICAL ADMINISTRATOR IS RESPONSIBLE FOR COMPLETED PROJECT. Completion of a project conducted under an electrical administrator's license constitutes certification by the administrator that work performed and materials used conform to applicable codes and standards. (Eff. 7/28/77, Reg. 63)

Authority: AS 08.40.050
AS 08.40.130

12 AAC 32.910. DEFINITIONS. In this chapter

(1) "board" means the Board of Electrical Examiners;

(2) "department" means the Department of Commerce and Economic Development;

(3) "four-plex" means a building containing four dwelling units erected on a common foundation;

(4) "journeyman lineman" or "journeyman electrician" means a person who has at least four years or 8,000 hours experience in the electrical trade and holds a certificate of fitness as issued by the Department of Labor under AS 18.62;

(5) "residential wireman" means a person who has at least two years or 4,000 hours experience in the residential wiring trade and holds or is otherwise entitled to hold a certificate of fitness as issued by the Department of Labor under AS 18.62. (Eff. 7/28/77, Reg. 63)

[redacted]

1. Board should not be continued
   (B) Audit - page 7, page 9, Recommendation 1; page 8 (Yellow) O.L.

~~Quote from Elaine Garrett~~

If the Board of Electrical Examiners should be continued the following changes/additions are suggested:

A. Board composed of 4 members -- 2 lay, 2 professional. Two year terms with one re-appointment.
   Testimony - p. 59
   (Y) - p. 10/13 O.L.
   (Y) - p. 32, Board View
   (B) - p. 13, Audit

   (5) 3 + 2 lay
   (TOT) (Prof)

B. Increase the number of inspectors.
   Testimony - p. 60, 6, and 10
   (Y) - p. 11, O.L.
   (Y) - p. 5, Board has power to inspect
   Testimony - Don Liston, Editor of "Building Alaska" magazine

C. Statutory authority for reciprocity should exist.
   Testimony - H. D. Wilson, contractor, p. 69, and ombudsman's letter, p. 80
   (Y) - p. 35, Board
   (B) - p. 12, Audit, Recommendation #5
   (Y) - p. 7, O.L.

   Endorsement

D. Eliminate inspection power from the Department of Labor for Electrical Examiners. Commerce already has this power.
   (Y) - p. 27/29, conclusive p. 30, Attorney General
   Testimony - Don Liston/"Build Alaska"
   SB 232

   O.K.

E. Licensee should not take the certificate of fitness test.
Testimony - p. 60,9
(Y) - p. 39, Board
(Y) - pp. 8, 6
(B) - p. 9 (instead of Sunset, eliminate this duplication) Audit

F. Adopt the National Electrical Code and the National Electrical Safety Code as a minimum standard for the State of Alaska.
(Y) - p. 36 - Board
Testimony - Tony Reid, Inspector
Administration - Memo Oct. 30, 1979 by Bill McConkey, p. 2

O.K.

G. Annual report from Board to Legislature/Put authority in 08 Title.
Testimony - Michael Frith
(B) - p. 13, Audit
(Green) - p. 3, section 2, Board

Yes Report

H. It should not be required that electricians involved in the communications industry be licensed.
(B) - pp. 7, 10, Recommendation 2 - Audit
(Y) - p. 7, Audit

Let to the Bd

I. In regard to fees and licensing a maximum of two-years [redacted] of license should be allowed before reexamination is statutorily required.
(Y) - p. 34, Board
(Y) - p. 13 - fees - O.L.
(Y) - O.L. and Audit agree on fees. Set by OL and Board. SB 94.

J. Licencees should be notified of renewal dates at least thirty days before the expiration date of their licenses.

IN THE HOUSE BY THE COMMERCE COMMITTEE

SENATE CS FOR CS FOR HOUSE BILL NO. 1031

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act continuing the existence of the Board of Electrical Examiners, and amending the statutes relating to the powers and duties of the board; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 08.40.010 is amended to read:

Sec. 08.40.010. CREATION AND MEMBERSHIP OF BOARD. There is [HEREBY] created a Board of Electrical Examiners consisting of three members, <u>two of whom</u> [WHO] are licensed electrical administrators <u>and one of whom is a public member</u>.

* Sec. 2. AS 08.40.020 is amended to read:

Sec. 08.40.020. APPOINTMENT AND TERM OF OFFICE. The members of the board shall be appointed by the governor and confirmed by the legislature for staggered terms of three years, or until their successors are appointed. A member may be removed at the pleasure of the governor. <u>A person may not be appointed to serve more than two consecutive terms on the board.</u>

* Sec. 3. AS 08.40.050 is amended to read:

Sec. 08.40.050. REGULATIONS. The board shall adopt regulations subject to the Administrative Procedure Act (AS 44.62), relating to the examination and licensing of electrical administrators<u>, the establishing of the continued competency of an applicant for license renewal and reinstatement,</u> and the suspension or revocation of licenses.

* Sec. 4. AS 08.40.120 is amended to read:

Sec. 08.40.120. EXAMINATION OF APPLICANT. (a) Each applicant shall be examined to determine

(1) his ability to understand plans, design specifications, and engineering terms commonly used in the electrical field;

(2) his knowledge of electrical installations and wiring;

(3) his [,] familiarity with the regulations contained in the National Electrical Code and the National Electrical Safety Code, as approved by the American Standards Association;

Amendment *

(4) [,] his familiarity with other installation and safety regulations approved by the American Standards Association;

(5) his familiarity with electrical installation problems and the usages of the trade peculiar to Alaska; [,] and

(6) his personal skill and ability.

(b) If an applicant for a license submits proof satisfactory to the board that he is licensed as an electrical administrator or the equivalent by another state or territory, that he meets qualifications established by the board under AS 08.40.045, and that he has passed an examination equivalent to the test administered under (a) of this section except insofar as that examination tests knowledge and skill particularly required to meet the environment and usages of the trade peculiar to Alaska, the board shall waive all of the examination required under (a) of this section except those parts which test knowledge and skill particularly required to meet the environment and usages of the trade peculiar to Alaska.

* Sec. 5. AS 08.40.135 is amended to read:

Sec. 08.40.135. RENEWAL AND REINSTATEMENT. (a) A license issued under this chapter, unless revoked or suspended, is nontransferable and may be renewed on a date set by the department upon proof of continued competency [WITHOUT EXAMINATION], by appropriate application.

(b) A lapsed license may be reinstated upon proof of continued competency by payment of all unpaid renewal fees and a penalty fee of $25 for each year the license has been lapsed unless the license has been lapsed for more than two [THREE] years. If a person's license has been lapsed for more than two years, he is required to take an examination under AS 08.40.120 [AND THE BOARD HAS REASON TO BELIEVE THAT IT MAY BE NECESSARY TO REQUIRE THE LICENSEE TO TAKE AND PASS THE EXAMINATION GIVEN UNDER AS 08.40.120].

* Sec. 6. AS 08.40.150 is amended to read:

Sec. 08.40.150. FEES. (a) Each applicant shall pay an original license fee of $200 [$100].

(b) The fee for biennial renewal of a license is $200 [$100].

* Sec. 7. AS 08.40.190(b)(6) is repealed and re-enacted to read:

(6) the operation, maintenance and repair of telephone, telegraph, and intercommunication facilities;

* Sec. 8. AS 08.40.190(b) is amended by adding new paragraphs to read:

(7) the installation, maintenance and repair of fire alarm, intrusion alarm or other low voltage signaling systems of 48 volts to ground or less;

(8) the maintenance or repair of diesel electric engines installed on heavy construction equipment, either in a shop or on a job site.

* Sec. 9. AS 08.40 is amended by adding a new section to read:

Sec. 08.40.195. PERSONAL SUPERVISION. A person licensed under this chapter as an electrical administrator who contracts to install or repair electrical wiring, conduits, devices, fixtures, equipment, or other electrical materials for transmitting, using, or consuming electrical energy must personally inspect those materials after installation and repair unless the installation or repair amounts to simple or highly

standardized work performed in less than 24 man hours by personnel generally under the supervision of the electrical administrator.

* Sec. 10. AS 08.03.010(c) is amended by adding a new paragraph to read:

(2) Board of Electrical Examiners (AS 08.40.010) -- June 30, 1982.

* Sec. 11. AS 08.03.010(b)(5) is repealed.

* Sec. 12. Notwithstanding AS 08.40.010 amended in sec. 1 of this Act, a member serving on the Board of Electrical Examiners on the effective date of this Act continues to serve on the board until expiration of the term to which he was appointed.

* Sec. 13. This Act takes effect June 30, 1980.

SENATE CS FOR HOUSE CS 1031

MR. PRESIDENT, I MOVE THE ADOPTION OF THE SENATE COMMERCE CS (WHICH HAS BEEN A RESULT OF A JOINT EFFORT WITH THE HOUSE TO PREVENT AN UNNECESSARY AND OFTEN TIME-CONSUMING FCC.).

MAIN BILL SUMMARY

1. SECTION 1, THIS BILL ADDS A PUBLIC MEMBER WITHOUT INCREASING THE SIZE OF THE BOARD.

2. SECTION 2, AS HAS BEEN DONE WITH THE OTHER BOARDS, A MEMBER CANNOT SERVE MORE THAN TWO CONSECUTIVE TERMS OF THREE YEARS EACH.

3. SECTION 3, THIS BILL PROVIDES THAT THE BOARD SHALL ADOPT REGULATIONS ESTABLISHING CONTINUED COMPETENCY OF AN APPLICANT FOR LICENSE RENEWAL AND REINSTATEMENT AND there is A LETTER OF INTENT ATTACHED WHICH EXPLAINS THE DETAILS OF this intent.

4. SECTION 4 OF THE BILL BEEFS UP THE EXAMINATION REQUIREMENTS AND EXPLAINS THE CONDITIONS OF RECIPROCITY.

5. SECTION 5 REQUIRES THAT A PERSON MUST BE RE-EXAMINED IF HIS LICENSE HAS BEEN LAPSED FOR MORE THAN TWO YEARS.

6. SECTION 6 INCREASES THE BIENNIAL RENEWAL LICENSE FEE FROM $100 TO $200 BECAUSE IT HAS NOT BEEN INCREASED SINCE 1969.

7. SECTIONS 7 AND 8 DENOTES THOSE PERSONS IN THE ELECTRICAL FIELD IN WHICH THIS CHAPTER DOES NOT APPLY, BUT WHO ARE SUBJECT TO THE INSPECTION PROVISIONS OF THIS CHAPTER. SECTION 7 EXPANDS SUBPARAGRAPH (6) TO INCLUDE OPERATION, AS WELL AS MAINTENANCE AND REPAIR, OF TELEGRAPH AND INTERCOMMUNICATION FACILITIES. SECTION 8, adds SUBPARAGRAPHS (7) AND (8), which is WORK THAT IS SPECIFICALLY SUBJECT TO INSPECTION PROVISIONS OF SEC. 70 OF THIS CHAPTER.

8. SECTION 9 REQUIRES AN ELECTRICAL ADMINISTRATOR TO PERSONALLY INSPECT AN INSTALLATION AND REPAIR JOB UNLESS THE JOB IS A SIMPLE, one PERFORMED IN LESS THAN 24 HOURS AND IS UNDER THE GENERAL SUPERVISION OF THE ELECTRICAL ADMINISTRATOR.

9. SECTION 10 EXTENDS THE LIFE OF THE BOARD TO JUNE 30, 1982.

10. SECTION 11 REMOVES THE BOARD OF ELECTRICAL EXAMINERS FROM THE LIST OF BOARDS WHICH HAVE A TERMINATION DATE OF JUNE 30, 1980.

11. SECTION 12 PROVIDES FOR THE BOARD MEMBERS SERVING ON THE EFFECTIVE DATE OF THIS ACT TO CONTINUE TO SERVE UNTIL THEIR TERMS EXPIRE.

12. SECTION 13 STATES THAT THIS ACT TAKES EFFECT JUNE 30, 1980.

COMMITTEE REPORT

SENATE

LETTER OF INTENT
SCS for CS for HB 1031
May 20, 1980

The Honorable Senator Clem Tillion
Senate President
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Senator Tillion:

The Senate Commerce Committee has reviewed the problems mentioned in our previous report arising from "Sunset" review of the Board of Electrical Examiners. Senate Commerce Committee Substitute for Committee Substitute for HB 1031 addresses these concerns.

One item requires some explanation. On page 1, lines 26 and 28, and on page 2, lines 28 and 29, and on page 3, lines 1 and 2, there is reference to a requirement of "proof of continued competency" and a provision to allow the Board to adopt regulations establishing continued competency for license renewal.

The Committee anticipates that the Board of Electrical Examiners would provide by regulation for compliance with these sections by addressing meetings and functions sponsored by recognized trade associations. In most cases this would probably refer to functions sponsored by the National Electrical Contractor's Association.

The Committee does not intend that there be a strict, classroom-style continuing education program that might not be consistent with this profession and trade, but rather that the Board of Electrical Examiners assure itself that an electrical contractor is keeping in touch with the applicable trade associations and is attending functions sponsored by them which may add to his knowledge about the changes in the field.

There were indications at our committee hearings during the "Sunset" process that the trade organization performs some of this function now and is interested in doing more of it. Of course, passage of this legislation would virtually require the trade organization to become more active in this area. There seems to be no objection to that.

Respectfully submitted,

Brad Bradley

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the intent of Alaska Statutes 24.20.271(1) and 44.66.050 (sunset legislation), an audit of the Guide Licensing and Control Board was conducted to review Board activities and accomplishments to determine if the Board has been operating in an effective, efficient and economical manner.

As required by legislative intent, this report shall be considered during the legislative oversight function in determining whether the Guide Licensing and Control Board should be reestablished. The law currently specifies that this Board will terminate on June 30, 1980 but will continue until June 30, 1981 for the purpose of concluding its affairs.

Scope

The major areas reviewed were the Board's operations and its licensing, administration, complaint, examination and affirmative action functions. Our review consisted of analyzing and evaluating the following:

(1) Applicable statutes and Board regulations;

(2) discussion with the Board and questionnaires sent to Board members;

(3) tests of records and documents of the Board, the Division of Occupational Licensing (OL), Department of Commerce and Economic Development and the Division of Fish and Wildlife Protection - Investigation Section, Department of Public Safety;

(4) interviews with OL employees, Fish and Wildlife Protection employees, Division of Game employees, Department of Revenue employees, employees in the Office of the Governor and employees in the Attorney General's Office;

(5) complaints filed with the Division of Fish and Wildlife Protection, the Ombudsman's Office, the Attorney General's Office, the Equal Employment Opportunity Office and the Human Rights Commission;

(6) questionnaires sent to 180 State licensed Registered and Master Guides.

Scope Constraint

This review was hampered by the Board not having established and reported financial and program plans as required by AS 37.07.050 nor has it developed and reported performance information required by AS 37.07.090.

ORGANIZATION AND FUNCTION

The Guide Licensing and Control Board was established by the 1973 Session Laws of Alaska and succeeds the Board of Fish and Game, Department of Fish and Game, which previously regulated the guiding industry. The seven member Board is appointed by the Governor with confirmation by the Legislature and is restricted to having no more than three members as licensed guides. Board members serve staggered terms of three years or until their successors are appointed.

The Board is organized under the Department of Commerce and Economic Development, Division of Occupational Licensing. Two budgeted positions, a Guide Investigator and Administrative Assistant, in the Department of Public Safety, Division of Fish and Wildlife Protection, have been provided to assist in the licensure and investigations of guides.

The function of the Board is primarily regulatory, mandated by AS 08.54.040. Accordingly, the Board has the capacity to administer examinations; determine qualifications of guides; establish performance standards and regulate activities; maintain guide registers; prohibit harmful guiding activities; conduct hearings regarding licensure; and establish quotas of guides for specified geographical areas (exclusive guiding areas). The Board through the assignment of exclusive guiding areas limits hunting pressure by guides within a specific geographical area.

In addition, the Board licenses "transporters", a licensed "transporter" is a person who transports hunters for hire.

REPORT CONCLUSION

Policy Issues

This review contains policy issues raised as a result of our evaluation of various Board practices. The final policy decisions affecting these practices are not within the scope of this review but require legislative consideration. In debating these issues, the legislative oversight committees should consider the findings and alternatives presented in this report in reaching their decision.

Report Conclusion

In our opinion, the Guide Licensing and Control Board should be continued. For the following reasons, we believe the regulation and licensing of guides is needed to protect the public's health, safety and welfare:

A. This profession involves contracting for hunting game that could result in severe physical harm if practiced by incompetent persons. Potential harmful results include injury or death to the hunter due to neglect or carelessness on the part of the guide.

B. Other users of game resources, such as the general public and subsistance hunter, can be directly or indirectly affected by guiding activities. For example, overhunting by guides in an area not only depletes the game resources available to the general public but also adversely affects the subsistance hunters in that area.

C. In order to protect the public without unduly restricting individual rights, AS 16.05.407(a) exempts Alaskan residents from requiring the services of a guide.

While the reasons above indicate that the Board should continue to license and regulate guides, certain changes need to be implemented in order for the Board to more effectively serve the public.

The Board should seek legislation to have the guide licensing function transferred to the Department of Public Safety. Currently, staff support for the Board is being provided by two departments - the Department of Public Safety and the Department of Commerce and Economic Development. Personnel in both Departments believe that the licensing function as well as enforcement would be enhanced by consolidation of the two functions in one department (see Recommendation No. 1).

The Board should seek legislation to have the transporter laws (Alaska Statutes 08.54.142, 144, 146 and 08.54.170(c)) repealed, as they are confusing and of little value (see Recommendation No. 2).

The Board should continue its efforts to make the statutes and regulations more relevant and workable (see Recommendation No. 3).

The Department of Revenue should collect fees from guides as required by statute (see Recommendation No. 4).

The Board should establish formal goals, objectives and quantifiable measures (see Recommendation No. 5).

FINDINGS AND RECOMMENDATIONS

Findings and Recommendations No. 1 through No. 3 are addressed to the Guide Licensing and Control Board, No. 4 is addressed to the Department of Revenue, No. 5 is addressed to the Division of Occupational Licensing (OL) and should be read in conjunction with "A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development, October 30, 1978".

Recommendation No. 1

The Guide Licensing and Control Board should seek legislation to have the guide licensing function transferred to the Department of Public Safety.

Staff support for the Guide Licensing and Control Board is currently being provided by two departments - the Department of Commerce and Economic Development (DCED), Division of Occupational Licensing (OL) and the Department of Public Safety (DPS), Division of Fish and Wildlife Protection (F&WP).

Applications for guide licenses are required by Alaska Statute 08.01.060 to be sent to DCED. A licensing examiner in the Division of Occupational Licensing (OL) in Juneau receives the application and fees and, upon authorization from the Board, issues the license. The licensing examiner also provides other administrative and clerical support to the Board. In addition, the licensing examiner maintains files on each individual licensee, and copies of the material in the files are sent to the Division of Fish and Wildlife Protection in Anchorage.

The Division of Fish and Wildlife Protection (F&WP), Investigation Section in Anchorage has two budgeted positions, a Guide Investigator and an Administrative Assistant, assigned to provide assistance in the licensure and investigation of guides. F&WP is also responsible for the enforcement of guide related statutes and regulations. In addition, F&WP maintains current and complete history files on all licensed guides as well as maintaining files on all the exclusive/joint use guiding areas.

Personnel in both OL and F&WP have stated that the licensing and investigative services provided to the Guide Licensing and Control Board should be consolidated within one agency. OL personnel have stated that public convenience, and staff availability would be enhanced by the consolidated effort. F&WP personnel believe that the licensing function as well

as enforcement would be enhanced by consolidation of the two functions. A reduction in operating costs should result to OL, based on the reduced work load of the licensing examiner, who estimates that she spends approximately 2/3 of her time on Guide Board related matters.

Recommendation No. 2

The Guide Licensing and Control Board should seek legislation to have the "transporter laws" repealed.

The purpose of the "transporter laws" (Alaska Statutes 08.54.142,.144.,146 and 08.54.170(c)) is to protect the safety of the citizens of the State and better manage and protect its resources by licensing persons who transport hunters for hire so that reasonable standards and guidelines would be met and activities affecting the State's game resources would be more accurately monitored and assessed.

In our opinion, the "transporter laws" are not needed to protect the safety of the public or manage the game resources.

Personnel in the Department of Public of Safety, Division of Fish and Wildlife Protection, consider the "transporter laws" confusing and difficult to enforce. In addition, we found the information and reports that transporters are required to file are not being used and are not needed to manage the game resources of the State. Furthermore, air transporters' flying safety qualifications and aircraft safety are regulated by the Federal Aviation Administration.

Recommendation No. 3

The Board should continue its efforts to make the statutes more clear, relevant and workable.

Over the past several years the Board has been adopting regulations to make the statutes more clear, relevant and workable. However, we noted several statutes which need further consideration. For example:

A. AS 08.54.142.144, .146 and 08.54.170(c) as discussed in Recommendation No. 2, the Board should seek legislation to have the "transporter laws" repealed.

B. AS 08.54.190(a) requires an annual renewal of guide licenses. This conflicts with AS 08.01.100(a) which requires biennial renewal of occupational licenses. It also creates additional administrative effort for both the Division of Occupational Licensing and the licensee, with no demonstrable benefit to the public.

C. AS 08.54.110(6) pertaining to moral turpitude is considered to be vague and should be repealed as the regulation (12 AAC 38.180) defining unethical activity provides sufficient public protection in this area.

D. AS 08. 54.200(c)(3) is considered to be unduly restrictive because it requires the Board to revoke a guide's license upon two convictions of federal or State sport fish, game or guide violations regardless of how minor the violations may have been or how long ago they may have occurred.

E. AS 08.54.130(2) requiring a Class-A assistant guide to be under the supervision of a registered or master guide is considered vague. The term "supervision" should be clarified to indicate exactly what constitutes supervision during the conduct of a hunt.

Recommendation No. 4

The Department of Revenue should collect fees from guides as required by statute.

Alaska Statute 16.05.340(e) effective January 1, 1977 requires licensed master and registered guides to pay a fee in the following amounts for each caribou, sheep, moose, brown or polar bear taken on a guided hunt over a specified number:

1) over 5 up to a total of 10 per season - $20;

2) over 10 up to a total of 25 per season - $100;

3) over 25 per season - $500.

Executive Order No. 17 requires the Department of Revenue to collect and account for all revenues incidental to the regulation and management of Alaska's fish and game resources. The Department has not developed forms and procedures necessary to collect and account for revenue under AS 16.05. 340(e).

Recommendation No. 5

The Board should establish formal goals, objectives and quantifiable measures which should be included in the Division of Occupational Licensing's (OL's) budget document.

Objectives describe what an agency or Board is seeking to accomplish during a specific year. Well formulated objectives are capable of measurement and should include numerical targets so that actual accomplishments can be compared with stated targets. Without goals and objectives, the Board's performance cannot be adequately evaluated and analyzed.

OL establishes its own budget goals and objectives. The budget documents do not include any goals or measures for individual boards. Without the Board's goals and measures being identified or measured, neither the Governor's Office nor the Legislature can evaluate the Board's performance.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analysis of Board activities relate to the public need factors defined in the "sunset" law. This analysis is not intended to be all inclusive, but addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or program has operated in the public interest.

1. The Board has adopted regulations defining unethical conduct which clarify and strengthen the professional's responsibility to the public.

II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

1. The Division of Fish and Wildlife Protection, Department of Public Safety, has handled investigations of complaints in a timely and effective manner.

2. The Board is required to license and regulate transporters under AS 08.54.142, .44, .146 and AS 08.54.170(c). Board members, personnel in the Departments of Public Safety and Fish and Game consider these statutes to be confusing and of little value (see Recommendation No. 2).

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

1. Although the statutes and regulations governing Board activities should be subjected to further review, the Board has adopted revisions to its regulations that significantly improve their clarity and applicability (see Recommendation No. 3)

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

1. The public is invited to attend Board meetings and to give their input about the workings of the Board. Notices of meetings are advertised in each of three newspapers throughout the State. In addition, guides are notified by registered mail of meetings that might affect them.

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

1. As stated under criteria IV, the public is invited, by published notices in newspapers, to attend Board meetings to give their input about Board regulations or submit written testimony.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

1. Since 1977, five complaints have been filed with the Ombudsman's Office concerning guides and/or the Board. All five cases were relatively minor and were all resolved satisfactorily.

2. During the period between April 1977 and April 1979, the Investigative Support Unit of the Division of Fish and Wildlife Protection, Department of Public Safety conducted 61

investigations involving all classifications of guides. During this same period, 35 accusations were filed for Disciplinary Hearings before the Board. Many of the Disciplinary Hearings resulted in the Board taking action such as suspending or revoking a guide's license.

VII. The extent to which a board or commission which regulated entry into an occupation or profession has presented qualified applicants to serve the public.

1. As of June, 19, 1979 approximately 39 Master Guides, 289 Registered Guides, 116 Class-A Assistant Guides, 468 Assistant Guides and 48 Transporters are licensed in Alaska.

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

1. The applications pertaining to licensing of guides and transporters contain requests for information such as birthdate, birthplace, marital status, sex and whether the applicant is a citizen of the United States. These requests may be violations of the Equal Employment Opportunity requirements. However, some of this information may be necessary to confirm an applicant's qualifications. We recommend that the requirements for licensure be analyzed to determine if a valid need for the information exists (see the OL Performance Audit Report).

2. Although the Board does not have a formal affirmative action plan, it has been making an effort to increase the participation of Native Alaskans in the guiding industry. For example, in August 1979, two Board members, a Fish and Game Biologist and the Chairman of the Interim Subsistence Committee in the State House of Representatives went to several native villages along the Arctic coast for the purpose of explaining the guiding business and how the natives along the Arctic coast can become licensed to guide for marine mammals such as walrus. In addition, a

Board meeting has been scheduled to be held in Nome at the end of November 1979, in order to orally examine native applicants for guide licenses. We recommend that the Board continue its efforts to include more Native Alaskans in the guiding industry.

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

1. Staff support for the Guide Licensing and Control Board is currently being provided by two departments. In our opinion, consolidation of the licensing and investigation functions would result in a more efficient, economical and effective performance of both functions (see Recommendation No. 1).

2. Please refer also to the previous section of this report, Findings and Recommendations.

APPENDIXES

APPENDIX A

GUIDE LICENSING AND CONTROL BOARD
REVENUES COMPARED WITH EXPENDITURES
Fiscal Year 1978
(UNAUDITED)

Average Revenue (Schedule 1, Note 1 and Note 2)		$ 40,157
Expenditures-OL (Note 3)	$38,843	
Expenditures-F&WP (Note 3)	77,243	116,086
Excess of Expenditures over Revenues		$(75,929)

Schedule 1
Types of Revenues

Revenues	Amount	Collection Time
Master Guide License	$75	Annually
Registered Guide License	$75	Annually
Class-A Assistant Guide License	$15	Annually
Assistant Guide License	$10	Annually
Transporter License	$10	Annually
Application For A Guide Examination	$25	With Application
Late Renewal Penalty	$10	With Late Payment

Note 1

Although guide and transporter licenses are renewed annually, we calculated and reported an average of the revenues collected in Fiscal Years 1977 and 1978 in order to present a fair representation of collected revenues.

Note 2

The average revenue amount reported does not include revenue obtained from the sale of game tags or hunting licenses. It only includes revenue obtained from fees required to obtain and/or renew guide licenses.

Note 3

Expenditures include those made by Board members, such as travel and per diem, and an allocated percentage (estimated) of total administrative expenses of OL. Also included were expenditures which were charged to the Board by the Department of Public Safety, Division of Fish and Wildlife Protection - Investigation Section. The amount reported does not include expenditures for efforts of other departments, such as the Department of Law, that may be assisting the Board, OL and the Division of Fish and Wildlife Protection.

APPENDIX B

ADMINISTRATIVE STATISTICS

APPENDIX C

QUESTIONNAIRE SENT TO BOARD MEMBERS

1. What do you believe to be the goals and objectives of the Guide Licensing and Contol Board?

Description	Number of Board Members' Responses (See Notes 1, 2 and 3)
A. *To establish a viable guiding industry.*	2
B. *To assure public protection by allowing adequate entrance of qualified guides into the guiding business.*	1
C. *To establish a conservation program for game management through the use of exclusive guiding areas.*	1
D. *To set standards of conduct such as a Code of Ethics.*	1

2. How does the Board measure its progress in meeting its goals and objectives? Please specify.

Description	Number of Board Members' Responses
A. *By the establishment of exclusive guiding areas by game management units.*	3
B. *Proposed regulations are scheduled for hearings.*	1
C. *Guide exams are scheduled and given.*	2
D. *Hearings on accusations are scheduled and handled.*	1
E. *Monitor political issues that affect the guides and/or the guiding industry.*	1
F. *Progress is measured by the support of the majority of ethical guides/businessmen even while they remain as the Board's constant critic/mentor.*	1

3. What evidence exists demonstrating that the absence of guide regulations and/or the Board would be detrimental to the public's best interest? Please explain.

Description	Number of Board Members' Responses
A. *The Guide Board has the power to act against the license of an errant guide. This power appears to be the greatest deterrent the guides willingly recognize.*	2
B. *Because the Board has spread out the guiding pressure, the public now has a better chance at a good hunting trip. Guides themselves have endorsed the program of exclusive guide areas as a way to conserve game.*	2
C. *Prior to the Board's existence, unqualified people set themselves up as "guides" to an unknowing public--particularly those outside Alaska. This resulted in hunters leaving the State bitterly disappointed.*	1
D. *Through the use of Regulations - Code of Ethics, qualifications and tests, exclusive guiding areas, etc., society is starting to recognize and respect the guide as a professional.*	1

4. A. Is the staff from the Department of Commerce and Economic Development and/or the Department of Public Safety adequate to perform and enforce all laws and regulations relating to the Guide Licensing and Control Board?

Description	Number of Board Members' Responses
A. *Yes. A workable staff has been established. Complaints (founded and unfounded) have dropped over 60% since the Board has been established according to a Public Safety spokesman.*	1
B. *Yes. All staff personnel are doing a good job. There is some delay and confusion in handling inquiries and license*	

4. (Cont'd.)

	Number of Board Members' Responses
research due to the support staff being split into two departments.	1
C. *More support for the enforcement end of the guiding industry is needed.*	1

4. B. What staff support services are provided adequately/inadequately?

Description

A. *Guides, Guide Board files and exclusive guide area maps are handled very well. Support from the AG's Office is good at this time.*	1
B. *Staff support now is the best it has ever been.*	1
C. *The Board needs more travel and per diem so it can meet in other places in the State besides Anchorage, Fairbanks, and very seldom Juneau.*	1

4. C. Are investigations performed adequately/inadequately?

Description

A. *Yes. Present investigations are very thorough.*	1
B. *Yes. The biggest improvement in the last year is in the timeliness of investigations and hearings. This is mainly due to the fact the Attorney General's Office has assigned a special attorney to handle our cases.*	2

5. Are the Board functions and activities and/or the guiding industry hampered by any statutes or regulations which you believe to be obsolete, vague or unduly restrictive? Please list and explain.

Description	Number of Board Members' Responses
A. *Yes. Some statutes and regulations are obsolete, vague and unduly restrictive. The Board and an advisory committee appointed by the Board are reviewing this. Statutes and regulations are a part of each Board meeting, and only with input from the public and the AG's Office can these be evaluated and changed when needed.*	1
B. *The Guide Board set up a joint committee with the professional guides to examine problems concerning regulations or statutes. The joint committee has made recommendations to the Board concerning changes needed in the regulations and statutes.*	2

6. Has the Board recommended any statutory changes which are generally in the public's best interest? Please list and explain.

Description	Number of Board Members' Responses
A. *Believe the Board has recommended changes in the statutes, but without researching, can not list.*	1
B. *The Board just passed a regulation establishing an Arctic Coast guide unit, which would be called Guide Unit 27. In future programs we will be assigning guides for the taking of marine mammals.*	1
C. 1) *Establishment of Exclusive Guiding areas;*	1
2) *placing more emphasis upon the guides' recommendations for assistant guides;*	1

7. What changes could be made to the Board which would improve its service to the public and guiding industry? Please discuss.

Description	Number of Board Members' Responses
A. *Believe the Board has served the public interests and the guiding industry very well.*	1
B. *Have enough funds to pay for a public address system at our meetings.*	1
C. *My experience on the Board has finally convinced me that the mere increase in numbers would make it more efficient, more fair. I believe that with a couple more meetings each year, the Board would have more time before each meeting for discussion.*	1

8. In your opinion, what effect have exclusive and joint use guiding areas had on the guiding profession and the game resources of the State? Are exclusive and joint use guiding areas beneficial to the Alaskan public? Please discuss.

Description	Number of Board Members' Responses
A. *Exclusive and Joint Use Guiding Areas have given guides an incentive to better manage the game resources in their areas.*	4
B. *They have provided the public the following benefits; 1) less guide pressure in areas of high game count; 2) better guide service; 3) more game available to the hunter; 4) over all better public acceptance of hunting as a sport, not a slaughter as some special interest groups would like the public to believe.*	2
C. *With the help of Exclusive Guiding Areas, the Board has largely brought illegal guiding activities under control.*	1

9. Any other comments?

Description	Number of Board Members' Responses
A. *Believe the news media has to be used to better inform the public of guiding and/or hunting.*	1
B. *Fees from guides and guiding activity should reimburse the State for the costs of the Guide Board and related activity of other Departments. The Board should be kept active for a minimum of another four years so that the effect of its performance can be adequately measured.*	1
C. *The Board has passed a regulation setting forth an offshore guide area in the Arctic. This area could offer guided hunts for walrus, seal, whales, and polar bear. There are many non-residents who are interested in these types of hunts. If the Native hunters become interested in the guiding profession it could add a great deal to their economy. Our Board is going to try to make a personal survey with the Arctic villages to see if they are interested in a guide program.* *I feel that the Guide Board is working fairly with the Attorney General's Office, Public Safety, Commerce Department and the professional guides. Our program is pretty well understood by the guides and we have made every effort to be as fair as possible.* *D-2 land settlement might cause the Board to re-evaluate what could be done for those guides put out of business. We would ask for public input and information from the Dept. of Game as to what possibilities are open to us.*	1
D. *The exclusive guiding areas (EGA) are starting to work for the good of all. The removal of the EGA system now would be chaotic. The greatest losses would be to the game populations, the Alaska general public and the industry itself.*	1

Note 1

Number of Board Members 7

Number of Board Members' Responses 4

Note 2

Some Board Members responded to each question with several answers. Therefore, total responses to a question may exceed the number of Board members.

Note 3

Comments were all reviewed and considered in the performance of our audit, and are briefly summarized in this appendix.

APPENDIX D

QUESTIONNAIRE SENT TO LICENSED MASTER GUIDES AND LICENSED REGISTERED GUIDES

The following questionnaire was sent to licensed master and registered guides (see Note 1). For each question on the questionnaire we have noted the percentage of yes and no responses. We have also shown the most typical written comments for each question as compiled from the questionnaire (see Note 2).

	% of Responses (See Note 1)		
	Yes	No	No Opinion
1. Do you believe the Guide Licensing and Control Board has operated in the public's and guiding industry's best interest?	72%	26%	2%
Comments:			
Yes. Competition for hunting areas has been reduced tremendously since assigned areas were implemented by the Board. Action by the Board against unethical operations has had a good effect on the industry.			
2. Would the absence of the Board be detrimental to the public's best interest?	68%	29%	3%
Comments:			
Yes. The Board is necessary if we are to regulate the guiding profession.			
3. Are there any statutes or regulations which you believe to be obsolete, vague or unduly restrictive?	51%	35%	14%
Comments:			
Yes. The three assistant guide limit is unduly restrictive. The transporter law should be deleted, as all it does is legalize a bunch of $10 guides who are not restricted to area, ethics.			

		% of Responses		
		Yes	No	No Opinion
4.	Are you aware of any discriminatory practices by the Board with regard to an individual's race, religion, color, national origin, age or sex?			
	Comments:	*10%*	*88%*	*2%*
	Yes. No comments were received for the 10% yes responses.			
	No. In fact they go overboard to be fair.			
5.	Do you believe that Alaska's licensing requirements (for assistant guide, Class-A assistant guide, registered guide and master guide) are adequate and effective in ensuring that the public is protected?			
	Comments:	*72%*	*24%*	*4%*
	Yes. The requirements are adequate.			
	No. Tests should be much more rigid and cover broader areas.			
6.	Are there any additional statutes, regulations or licensing requirements needed to ensure the public is adequately protected?			
	Comments:	*30%*	*59%*	*11%*
	Yes. There should be a legal limit placed on the number of guides because there is a limited amount of game.			
	No. We have too many statutes and regulations on the books now.			
7.	Do you have any complaints concerning the service provided by the staff support of the:			
	1) Department of Commerce and Economic Development, Division of Occupational Licensing?	*13%*	*75%*	*12%*
	2) Department of Public Safety, Division of Fish and Wildlife Protection?	*30%*	*59%*	*11%*

	% of Responses		
	Yes	No	No Opinion

7. (Cont'd.)

Comments:

Yes. The Department of Commerce and Economic Development is too slow in getting licenses issued.

No. Staff support has been good.

Yes. Protection officers seem to tend to be more interested in making cases than working to prevent offenses. By the same token, they spend time checking sport fishermen for licenses rather than work on more important offenses.

Favoritism. Harassment of some well meaning and hardworking guides.

No. They have been doing a good job.

8. Do you believe that the examination given by the Board for a registered guide license is a fair and reasonable test of a guide's professional knowledge and ability? 79% 14% 7%

Comments:

Yes. Between the written and oral exams an applicant gets adequate testing.

No. Some emphasis should be placed on contracts, civil rights and legal rights. A guide should also be required to attend a First Aid course or an adequate substitute.

9. Do you feel that the issuance of exclusive and joint use guiding area permits is in the best interests of the public and the guiding industry? 63% 34% 3%

Comments:

Yes. It is the only way to preserve our industry and maintain a healthy game population.

No. Areas are unfairly proportioned with little or no standardization. The big money operators were given huge tracts,

	% of Responses		
	Yes	No	No Opinion

9. (Cont'd.)

much of which they seldom if ever use. This has eliminated the opportunity for many newer and smaller guide operations to have any area at all.

10. Do you believe that there is a need for licensure of all transporters in the State? — 42% | 51% | 7%

Comments:

Yes. One of the biggest abuses of the wildlife resource in Interior Alaska has been by transporters (pilots without guide licenses) who act, for all practical purposes as guides.

No. A so called transporter does the same job as a guide and should be qualified as a guide. It's a way around the guide law, and has been abused by many Air Taxi operators and residents.

11. Any other comments to assist us in evaluating the public need for the Board and/or its performance:

The Guide Board has worked very hard for the guiding industry. I believe that should the Guide Board be dissolved, the guiding industry would die. There is evidence that guiding brings a lot of money into the State that stays here. I strongly recommend the Guide Board be retained.

I believe the Guide Board should be abolished. They have been given too much power. If you aren't friends or have the money you are out. Who needs them!

Note 1

Number of questionnaires sent to licensed master guides and licensed registered guides.	180
Number of responses.	91
Response Rate.	51%

Note 2

Comments were all reviewed and considered in the performance of our audit, and are briefly summarized in this appendix.

JAY S. HAMMOND

OFFICE OF THE GOVERNOR
JUNEAU

RECEIVED
SEP 28 1979
LEGISLATIVE AUDIT

September 28, 1979

Mr. Gerald Wilkerson
Legislative Auditor
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

We have reviewed the enclosed Department of Commerce and Economic Development response to your preliminary report entitled:

"A Performance Review of the Guide Licensing and Control Board -July 17, 1979"

Additionally, we have reviewed the interim response data submitted by the Departments of Revenue and Public Safety and are forwarding them to you.

You will note that the Department of Revenue is consulting with the Department of Law concerning Recommendation No. 4 and that they plan to make an official response within ten days. Also, the Department of Public Safety has indicated that there have been no changes of substance since their response to your interim letter. Accordingly, they and we feel that the original response is adequate and self-explanatory.

Sincerely,

Richard A. Smith

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

OFFICE OF THE COMMISSIONER / POUCH D – JUNEAU 99811

September 27, 1979

RECEIVED
SEP 28 1979
LEGISLATIVE AUDIT

Mr. Gerald Wilkerson, C.P.A.
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

The following comments are in response to the Performance Review of the Guide Licensing and Control Board, as submitted by the Division of Legislative Audit.

Recommendation No. 1: Agree. We believe that consolidation of guide licensing and control into one agency would enhance efficiency of operations, avoid duplication, and be less confusing. Transfer of licensing to the Department of Public Safety would not, however, have a significant effect in reducing Division of Occupational Licensing operating costs. We still would maintain equipment, overhead expenses, and the licensing examiner who is also currently responsible for two other boards. The reducation in workload would result in reallocation of duties from other high volume areas.

Recommendation No. 2: Agree. The division and the board are in agreement with this recommendation and will be preparing appropriate statutory amendments for consideration during the 1980 legislative session.

Recommendation No. 3: Agree. The board works on a continual basis to make its statutes and regulations comprehensible and relevant. The division will assist the board in these efforts.

Recommendation No. 4: N/A

Recommendation No. 5: Agree. All boards and commissions were requested to submit this information for inclusion in the FY '81 budget document. The Guide Licensing and Control Board has complied with that request.

Thank you for the opportunity to respond to this report and for the time and effort expended by you and your staff.

Sincerely,

Bertram L. Wagnon
Acting Commissioner

BLW/kb

Gerald Wilkerson, Director
Legislative Auditor
Division of Legislative Audit

August 10, 1979

William R. Nix, Commissioner
Department of Public Safety

Interim Letter No. 1
Guide Licensing and
Control Board

Having reviewed the Interim Letter No. 1 concerning the sunset audit conducted by your agency of the Guide Licensing and Control Board, I offer the following comments:

Recommendation No. 1

The Guide Licensing and Control Board should seek legislation to have the guide licensing function transferred to the Department of Public Safety.

This department endorses this recommendation. The duplicated efforts currently practiced by two departments will be eliminated and all guide licensing functions placed under one authority. This will greatly simplify the citizens involvement with guide licensing functions. Additionally, it will eliminate the need to correct numerous errors that currently occur due to a split in the duties and responsibilities.

Recommendation No. 2

The Guide Licensing and Control Board should seek legislation to have the "transporter laws" repealed.

Again the department endorses this recommendation. As written the transporter laws do not serve a useful purpose in enforcement, game management, or protection of the resources. Some discussion between the Department of Fish and Game and the Department of Public Safety on this subject last year indicated that they share our opinion. To a large degree, our functions with the transporter laws overlaps that of the Federal Aviation Administration.

Recommendation No. 3

The Board should continue its efforts to make the statutes more clear, relevant and workable.

In general, many of the statutes and regulations are confusing to the public and our protection officers. It does little good to have statutes on the book and regulations

promulgated if the public doesn't understand them. In response to the examples you cited I offer the following:

A. This was covered in our response to recommendation number 2. This law is not only unworkable, but does not serve the purpose for which it was intended.

B. This may not be as confusing as it sounds because all fish and game licenses are renewed annually. If the guide licensing functions are placed under one authority (recommendation #1) it may eliminate the problems.

C. We admit that the term moral turpitude is vague; yet, ethical conduct or ethical activity, as recommended by the auditor, only applies to persons acting in the guide profession after a license is secured. Section 08.54.110(6) speaks to the qualifications for a registered guide license and the wording "has not been convicted of a crime involving moral turpitude" gives us a court established precedent for requesting applicants fingerprints and for conducting background investigations. If "moral turpitude" is repealed, some substitute qualification should be found that continues to give us the ability to eliminate applicants with serious criminal backgrounds.

D. The department agrees with the auditor that this section is very restrictive. The same intent could probably be accomplished by changing the word shall to may. Other statutes such as AS 08.54.200(b) and AS 08.54.200(c) give the board the authority to revoke licenses for other types of violations.

E. We would like to caution trying to define "supervision" as it could end up in the same category as "participate in a hunt" (AS 38.090) or "cooperate with officials" (AS 38.120). For purposes of enforcement, we feel that the current wording is sufficient.

Recommendation No. 4

The Board should establish formal goals, objectives and quantifiable measures which should be included in the in the Division of Occupational Licensings' budget document.

I feel that the board does have definate objectives and would have no reluctance to stating those objectives.

If you have additional questions or need a comment clarified, please feel free to contact me.

STATE of ALASKA

MEMORANDUM

SEP 28 1979

LEGISLATIVE AUDIT

TO: Richard Smith, Director
Internal Audit Division
Department of Administration

DATE: September 28, 1979

FILE NO:

TELEPHONE NO:

FROM: Thomas K. Williams, Commissioner
Department of Revenue JKD for

SUBJECT: Legislative Audit's Performance Review of the Guide Licensing & Control Board

RECOMMENDATION NO. 4 - THE DEPARTMENT OF REVENUE SHOULD COLLECT FEES FROM GUIDES, AS REQUIRED BY STATUTE.

This law requires the participation of several State agencies. In 1976, the Department of Revenue met with the Departments of Law, Fish and Game, Commerce, Public Protection, and the Guide Licensing and Control Board.

The determination at that time was that the Guide Board, working with the Department of Commerce, was the only State agency that could effectively collect fees. The Guide Board and the Department of Law were to resolve the various problems and formulate the policy and procedures.

In the first week of October, the Department of Law is to release a memorandum which will set the guidelines and recommend appropriate action by each participating agency.

The Department of Revenue would like to defer an official response to Recommendation No. 4 until the Department of Law's memorandum has been reviewed. We request a ten-day postponement.

Mr. Gerald L. Wilkerson, CPA
Legislative Auditor

Dear Mr. Wilkerson:

Thanks for the copy of the preliminary audit of the Guide Board. Mine caught up with me in Port Angeles a couple of days ago. I notice that the chairman of the Board is requested to provide you with a response within 20 days. The last communication I received from Marcus Jensen via a copy of a letter to someone else indicated that he would not be back in Alaska until the latter part of October. He then will be in Juneau for a time until he goes to deer camp. My reaction to the audit is that it is both thorough and perceptive.

Sincerely,

Charles D. Kern
Member

SUMMARY OF A.P.H.A. SURVEY OF GUIDING INDUSTRY

RE: ASSESSMENT OF STATE GUIDE LICENSING AND CONTROL BOARD:

RE: REGULATIONS, STATUTES, AND PROBLEMS EFFECTING THE GUIDING INDUSTRY

283 Questionnaires mailed; 56 (20%) Returned
3 undelivered.

Part A

1. How many guide board meetings have you attended during the past three years?

1 to 3 15; 4 to 8 22; 9 to 12 12; More 6;

2. If you attended less than 6, why have you not attended more often:

a. 14 Said to far to travel.

b. I attend one annually which is sufficient. Meetings held other than in Fairbanks and Anchorage are to time consuming, and to costly to attend.

c. Do not know when meetings are set, having no telephone or newspaper.

d. Completely disenchanted with politics which direct Boards activities.

e. I seldom know about the meetings in time to schedule my time for them.

f. Don't feel I could do anything about the way things are being done anyway.

g. Was never notified unless I was personally involved.

h. After being denied five times in a row one gets the feeling no one is listening with an open mind.

3. To what percentage from 0% to 100% do you believe the guide board has fairly and equitably administered the exclusive guide areas?

61.84% average, Comments follow on page 2

3. Comments
   a. 0%, I disagree with exclusive areas.

   b. The board decidedly shows favoritism.

4. The guide board has appointed an informal advisory committee of random guides for the purpose of reviewing statutes and regulations, and submitting the recommended revisions and deletions of statutes and regulations to clarify, improve and make them more relevant. Do you favor the concept of advisory committee to the guide board? YES 48, NO 2. Would you be willing to serve on such a committee YES 39, NO 8.

   a. Our present board is very uninformed in many respects. Not only in statutes and regulations, but in regards to awarding areas.

   b. Get some rural guides on this committee.

   c. Yes, the reasoning used to have assistant guides on it is wrong. I don't need an assistant that is going to tell me how to shape my destiny.

   d. The advisory committee should be made law and funded.

5. Do you believe that the guiding profession could be better served if all board members were licensed master or registered guides? YES 25, NO 25. Comment:

   a. I think four of the members should be active guides. We need some lay people on the board.

   b. No, I feel we should have the imput of the other side, because we tend to be one sided.

   c. No, but would like to see four professional guides on the Board.

   d. Yes, the non-guide members are making decisions on a profession that they were never in. They can not relate to the problems of making a living by guiding.

   e. Yes, to many have no idea of the actual problems involved in actively guiding in Alaska.

   f. Yes, only if it was well thought out when we appointed them.

   g. Yes, no guides are inperative

   h. No, it seems the board has enough trouble being fair and impartial at this time. If the board were completely made up of guides---wow! I think that as a group guides are a little short on scruples.

Cont'd pg. 3

5. Continued, member make-up of guide board.

i. The board should be made up of 1 master guide, 2 registered guides, 1 competent assistant guide, 1 fish and game member, 1 public member, 1 environmentalist, and 1 Alaska native of at least ½ blood, who is a competent progressive individual, but aware of his people.

j. Yes, if a guide board member is to serve on the board he has to know how to guide, have experience in hunting regulations, and know how to care for clients and trophies.

k. Yes, it is hard enough to understand problems even if you hold a license. I think impossible if you do not.

l. No, the board is not there to serve the guides, but to protect the public. The board should not be packed with professional members. This makes for a good image of creditability for the board. This is a fact that should be brought to the attention of the public.

m. Yes, the board should be made up of master guides that are active in the industry

n. No, the guide board is a public serving, governing body. I feel we need some non-guide members.

o. The board needs 3 full time professional outfitters. There is only one full time outfitter now. We need civilians for favorable public opinion even though trade and medical boards don't always have laymen on them.

p. I believe the guide board should be totally eliminated. A board made up of guides from our own ranks, and the Dept. of Fish and Game could better administer the industry.

q. An all guide, guide board would be more acceptable. Each member with 15 years experience.

r. Lets fact it Hammonds men are on the board. That makes it all self-serving. We need guides on the board not paid lobbyists.

s. Board not necessary

t. A majority of guides would not better the boards ability to function for a good guide industry

u. I believe we have the best board possible to set up.

6. Evaluation of Guide Board Members by the guiding industry. Comments:

a. The board has functioned well under the circumstances.

b. I'm pleased with the Guide board and feel we owe them all a vote of thanks and our support.

c. I think they have done as honest a job as they could, but they have been in to long, Keim - Engle - Jensen - Glenzer.

Continued pg. 4

PART A #6. EVALUATION OF GUIDE BOARD MEMBERS BY THE GUIDING INDUSTRY

BOARD MEMBER	PRUDENT	FAIR AND IMPARTIAL	EXHIBITS UNDERSTANDING OF GUIDE PROBLEMS	RESISTS SELF-SERVING DECISIONS OR ACTIONS	EVALUATING SYSTEM
MARCUS JENSEN	21 Avg. 1.77	18 Avg. 1.91	24 Avg. 1.65	17 Avg. 2.04	1 - Good
	13	15	15	10	2 - Acceptable
	11	14	8	19	3 - Unacceptable
	3	1	1	2	4 - No Opinion
CLARK ENGLE	30 Avg. 1.38	23 Avg. 1.53	39 Avg. 1.19	25 Avg. 1.49	1 - Good
	16	20	7	18	2 - Acceptable
	1	2	1	2	3 - Unacceptable
	1	3	1	3	4 - No Opinion
CHARLES KEIM	35 Avg. 1.30	29 Avg. 1.43	34 Avg. 1.32	26 Avg. 1.46	1 - Good
	8	14	9	17	2 - Acceptable
	3	3	3	2	3 - Unacceptable
	2	2	2	3	4 - No Opinion
GLEN GLENZER	17 Avg. 1.63	16 Avg. 1.63	12 Avg. 1.84	18 Avg. 1.56	1 - Good
	18	20	20	10	2 - Acceptable
	3	2	6	4	3 - Unacceptable
	10	10	10	16	4 - No Opinion

	5	6	5	3	2 - Acceptable
	0	0	4	0	3 - Unacceptable
	39	38	35	40	4 - No Opinion

6. Continued - Guide board evaluation and comment

d. This board has not behaved in accordance with its own regulations in the matter of handling exclusive guiding areas. Certain guides with large financial investments in a given area have historically been overlooked. Other guides have sold "improvements"but have not transfered the exclusive guiding rights as provided by the boards guidelines. In short the board serves a small group leaving most newer guides hanging out in the rain.

e. A good board, they do tend to favor the party who is in front of them at the time. They probably try to satisfy to many people.

f. We need a guide board and it must be a pipeline back to the legislature so we can get things done that are favorable for the industry. Without a board we will be back to no voice at all.

g. The guide board should pay more attention to the advisory committee whose recommendations thus far the board has ignored.

h. Our present board is very uninformed in many respects. Not only in statutes and regulations, but in regards to awarding areas.

PART B

1. Do you believe a guide law is NECESSARY 45, DESIRABLE 9, UNNECESSARY & UNDESIRABLE 2, comments.

a. Necessary, guiding and anything that deals with a renewable resource should be controlled in an effective manner.

b. Necessary, must have a guide law or we will be finished.

c. Necessary, for non-resident hunter safety, if for nothing else.

d. A guide law is necessary in order to have a guide industry. There is not much of a future for big game hunting without a guide industry.

2. In your opinion is the current guide las AS08:54 GOOD 9, ACCEPTABLE 30, UNACCEPTABLE 13, NO OPINION -3.

a. Some areas are unnecessarly restrictive. All licensed registered, and master guides are not listed on the annual state roster.

b. To much regulation

c. Unacceptable, to many regulations and not enough field work is the essence of the guiding industry today.

d. Acceptable, there are too many unnecessary restrictions and to few realistic regulations. A guide is hard put to follow all the rules, besides make the business work. There are few Protections offered a Guide.

3. The exclusive guide area system under 12 AAC 38.051 now in effect, in your opinion, is NECESSARY 30, DESIRABLE 1, UNNECESSARY & UNDESIRABLE 2, NO OPINION 0. COMMENT:

a. It may have some useful purpose, for me now it is unfair and discriminates between new and old guides.

Continued pg. 6

Part B continued, need of guide area system.

3. b. Guide areas should be permanent, saleable, and transferable.

c. Whoever yelled the loudest and was unbending got the most, and those who co-operated got screwed.

d. If handled properly by the guides assigned these areas, it is an excellent management tool.

e. Until the D-2 Land question is settled.

f. It has many faults and needs some refining.

g. A necessary evil, but areas were divided out "politically type wise".

h. With D-2, areas will no longer work, let us guide where we please

i. Undesirable, Exclusive Guide areas are not fair, why should some guides be allowed to hunt in some areas where others are not. Why should Doctors, Lawyers, and Commercial Fishermen be given these areas, to use as a hobby and tax write-off, when other persons who depend on guiding for their livelihood do not have an area to book hunts on. When areas are transferred they are sold for hugh sums, which makes it impossible for the new guide to get an area unless he has lots of bucks. I think I should have the opportunity to make a living at guiding and running my own hunts although I'm poor.

j. Undesirable, The board was very biased, if you arn't liked you are out of luck regardless of longevity or ethics or dollars invested.

k. Undesirable. It prohibits free enterprize and competition. It serves a very select few.

4. Do you believe the concept of the exclusive guide areas is good? YES 40, NO 10. Comments;

a. No other professional people in the State are restricted. I never had trouble with other guides working my camps. This is just a carrot in front of the mule to justify more regulations.

b. Yes. Tends to force a more conscientious management of the wild-life resource.

c. Yes, Needs up dating.

d. Yes, Exclusive use, overlapping no; and not in areas where animals migrate

e. No. Exclusive guide areas are probably unconstitutional.

f. No. Guides forced out of business by D-2, now have no place to hunt as all areas are taken. All guide areas should be desolved.

g. No, With the situation as is stands now I am not in favor of exclusive guiding areas.

h. Yes, Sure the basic concept is good, but the way it presently functions is not good.

i. Yes, It's necessary, but it is to bad the old days arn't still with us. Over abuse of aircraft makes it a necessary evil.

Continued to pg. 7

4. Guide area concept comments cont'd.

   j. Yes, This may not be the case in some areas of the State. For Kodiak it is a definate necessity. We are locked into a ridged permit area system. Without guide areas a guide here would have no assurance of obtaining any permits. As things are it's a gamble.

   k. Yes, If it had been assigned according to the initial theory

   l. Yes, at this time. When it started No.

5. Do you believe the board should review exclusive areas to consider reducing the size of the guide areas if not used appropriately by assigned guides. YES 42, NO 8. Comments:

   a. Some guides have areas larger than they deserve, and some are not deserving of any areas.

   b. Areas should be struck down. This was unjustified bureaucratic meddling with free enterprize.

   c. No. Would give the guide board one more power trip

   d. Yes, Only went on guides word and with many it was just so much "bull".

   e. Yes, Extremely important.

   f. No. A certain buffer area is necessary to keep game species in good shape

   g. Yes, Many guide areas were to large and are still to large since they have never been reconsidered.

   h. Yes, But what would be the criteria.

   i. Yes, Look at some of the areas that are the size of National Monumen

   j. Yes, Not necessarily reduce the size but perhaps allow more joint use.

PART C THE FOLLOWING ARE SOME STATUTES AND REGULATIONS WHICH SOME GUIDES WOULD LIKE TO SEE ELIMINATED OR REVISED. PLEASE INDICATE YOUR PREFERENCES.

1. Qualification for assistant guide license AS08.54.140 requires an individual to be 19 years or more, a resident of the State, is in sound physical condition and be favorably recommended by a registered or master guide. Do you feel this is an adequate qualification for an assistant guide: YES 34, NO16. Comments:

   a. Yes, but guides should be required to stand ready to prove any recommendation he gives is correct and the man is fully qualified.

   b. No, The assistant should have to prove some qualifications and longer residency.

   c. Yes, Should demonstrate more experience--largly OK, but an apprenticeship or breakin period would be better.

   d. No, Assistant guides should be required to demonstrate his ability by a short practical test.

   e. No, Needs 2 years experience, packin job.

   f. Yes, I do not like the thirty day field training law. It is to strangling.

Continued Pg. 8

1. Requirements for an Assistant Guide License, continued.

g. No, An assistant guide should also have to pass a test of basics.

h. Sometimes Yes, but we have quite a few unqualified Registered a and Master guides.

i. Yes, the minimum age of 19 may be to high in some cases.

j. No, Should be required to pass a basic test on hunting skills.

k. Should have field experience.

l. No, Assistant guides are sufficient when supervised by registered guides, but many assistant guides guide with little or no supervisior

m. Yes, The recommending guide should know.

n. No, Would like to see it harder for an assistant to get his License. Some assistants can't start a fire with 2 boxes of matches and 5 gallons of gas.

o. No, Should have lived or camped up to 5 years in the wilderness or made his living trapping, fishing or working for a guide.

2. Do you believe the transporter law serves a useful purpose?
YES 8, NO 40. Comment:

a. No, all it does is make instant illegal guides and I might add (advertising) guides.

b. No, All it does is create a $10.00 guide license and puts unnecessary paperwork for the Registered guide having to file transporter reports, even though he isn't required to have the license.

c. No, I'm not in the transport business, but required to submit unnecessary paperwork.

d. No, It serves as a license to steal. They should not be allowed to operate at all. Transporters are guides without licenses or qualifications.

e. No, $10.00 dollarsguides are a hazard to the public. Repeal the transporters license law.

f. No, This year in my area, several people were guiding for Moose and Caribou, without being restricted to a guide area or having qualifications of a registered guide, under the transporters License.

g. No, Not enforced to any extent. Rather see requirments similar to those placed on guides. For transporters (actually Air Taxi & Outfitters for all intent), are acting as guides.

h. No, I have yet to see any positive results from this law. Absolutly useless, imposes extra paper work of no value

i. Yes, Transporters should have been considered in allocating exclusive guide areas.

j. No, This law has only compounded the problems the guiding industry has by making Semi-Legal a bunch of $10.00 guides with no controls imposed

k. No usefull purpose in its current form. Must be recinded.

l. No, To difficult to administer. Resulting accuracy is questionable

m. Transporters or commercial pilots are acting as guides with no enforcement after them

Continued pg. 9

Part C #2. Transporter Law useful? continued

n. It legalizes about everybody. This is unfair to those who have gone to the trouble, work and testing to become a Licensed Guide.

3. AS08.54.150 makes registered and master guides equally responsible for violations of federal or state sport fish, game, guiding laws, perpetrated by assistant guides under his supervision. Do you believe registered or master guides should be held responsible for such violations reguardless of whether he does not condone, or may not be aware of those acts: YES 14, NO 38. Comment:

a. No, Assistants are adults, they know the law.

b. No, A registered guide should be some responsible in hiring of an assistant guide by knowing the mans background as best as possible.

c. No, This law must be applied properly, there are times when a guide has no control over his subordinates.

d. No, But he should not be allowed to let his assistant guide take his blame either. Every man should bear the burden of his own activities.

e. This is a very sticky subject, but in many cases I believe the guide should be given immunity.

f. No, The guide is only responsible when assistant is working under his direct order or supervision.

g. No, A registered or master guide should not be responsible unless he is personally present and could have prevented the violation.

h. No, the guilty should be punished, not the registered guide who is not partaken of the crime.

i. No, The key word is regardless, that is why I said No. A guide should be responsible for conduct of his employees.

j. Yes, It's the guides show out there and if he can't stay on top of it he is not qualified to be a registered or master guide.

4. AS o8.54.200 Paragraph (c) section (3), dictates the guide board shall revoke a guide license if the licensee has been convicted of two violations of federal or state sport fish, game or guide laws. In your opinion, should revocation of a license be manditory as specified above: YES 18, NO 28. Should such action be left to the discretion of the guide board? YES 27, NO 16, Comment;

a. Let our courts decide.

b. There should be a time limit on any violation, 3, 5, 8 yrs. Then the violation should be scrubed.

c. Why discriminate against one business and not another.

d. No, The "Kangaroo Court" guide board should not have the power to take a guides licenses or areas away. This should be done only by State court which follows safeguards built in over the last 200 years.

continued pg. 10

4. License revokation comments continued.

   e. Yes, As long as the guide board is governing guide activities under the Dept. of Commerce.

   f. No, Have seen guide license removed for very small violation.

   g. No, Much to inflexable to be realistic and fair considering the heavy penalties for two conceivably minor offenses.

   h. Yes, Should be worded so guide board can in very special cases use descretion.

   i. No, A guide should have more than 2 convictions over a 5 year period, like five convictions. Every 5 years the slate should be wiped clean. A time limit is a must.

   j. No, It should be damn hard for the board to revoke a license.

   k. Yes, Why is the work federal in the paragraph? Isn't this a State board? A guide should lose his license if he is convicted of 2 State game violations, and this should be decided by a judge and jury, not the guide board.

   l. Yes, the board is to lenient to their close friends, and to strict on others. The guide board is the most unfair biased group of power people I have ever delt with.

   m. No, However in most cases so far it would be hard to argue that license revocation was not warrented.

   n. Yes, It's damned hard for a licensed guide to accidently break a game regulation. It would make sense to yank a ticket for the first violation. We all know that convictions of game regulation violations are hard to get into court.

   o. I don't like the word shall. We might need different degrees of violation, major and minor.

   p. Board members are to prejudiced. Might be better to have a panel of 6 persons who have no knowledge of the guide or his activities.

   q. The law should be to refer to violations which take place while guiding.

5. A.S. 08.54.210 paragraph (a) section (6) limits the number of assistant guides a registered or master guide may employ at the same time. Do you favor a law that dictates the number of assistant guides a guide may employ? YES 22, NO 32. Comment:

   a. No, This law should be recinded or the APHA should be the front runner in a court battle to prove it wrong.

   b. Unconstitutional

   c. Yes, 3 is as many as any guide can properly supervise.

   d. No, This would stop growth possibilities for the guide. It also leads to a condition where to many clients are tagging along with a single guide or assistant, or lying around inactive for periods of time. I favor potential growth, whether or not an individual guide decides to grow

   e. No, We should be able to have more than three at a time, if I have more than three hunters at a time.

continued page 11.

5 Limits of assistant guides employed, continued.

f. If you limit help you limit quality.

g. Yes, 3 assistants at once may be to restrictive, but it should not be an unlimited number.

h. Stick to free interprize concepts.

i. Yes, tends to keep down mass production hunting, which only fuels the bank and depletes wildlife resources.

j. No, I flat--think this is unconstitutional, discriminatory, and a rediculous law for any business man to live with.

k. Yes, but no restrictions on number of Class-A, registered, or master guides.

l. No, this is the only way we can "make real professionals", and should be used as such.

m. No, this law drastically hampers many guides operations.

n. No, This law was pushed through by a part-time guide with tunnel vision, and has made violators out of honest men-Stupid law.

o. No, This law creates a hardship on the honest operator trying to make ends meet.

p. No, However as long as we have production guides we need the law.

q. Yes, I don't believe I should be controled as to my help, however if this would restrict money hungry guides from raping the land, it should be done.

6. A.S.16.05.340 requires licensed master and registered guides pay fees for animals taken by his clients over a specified number in the following amounts for Caribou, Sheep, Moose, and Brown or Polar Bear.

6 through 10 of each species per season	$20.00.
11 through 25 of each species per season	$100.00.
over 25 of each species per season	$500.00

Do you favor the concept of taxing guides for game taken by their clients as stipulated above? YES 10, NO 46. If yes, do you believe this concept should also apply to all users of renewable resources to include Air Taxi operators? YES 13, NO __. Transporters? YES 13, NO __; Commercial Fisherman? YES 12, NO __. Sport Fisherman? YES 12; Subsistence users? YES 12, NO __.

a. No, If guides are saddled with this tax all Natural resource users should be also.

b. Yes, I believe this tax, if used, should be levied against the hunter on a per animal basis and those funds generated are made for use by the Game Division of ADF&G.

c. I don't know this tax was even enforced, should be repelled or used. The State should give a person with a license the right to take a set number of animals. These animals are public property. Non-residents and aliens are charged for this privilege to hunt, which is good. Still this law is silly because it is not enforced and the tax is ridiculously low.

d. No, If it is good for us guides it should be good for everyone else.

e. Discriminatory - Poor legislation - should not single out one user group.

Continued pg. 12.

6. Animal head tax comments continued.

   f. If this law sticks, then I feel everyone else taking a natural resource should pay too.

   g. The 6-10 animal tax is not fair, but $20.00 isn't going to hurt anyone. The $500. tax should be placed on a lower number than 25. If a guide can take 25 or more animals of a species he is either hurting his area, or has a lot bigger area then he should have.

   h. Should be deleted unless the forrest industry and commercial fisherman are taxed for the use of a natural resource also.

   i. The client will have to pay these fees no matter who they are collected from and trophy fees paid by the hunter is the proper place to collect the tax.

   j. No, God put animals on earth for us to enjoy and have dominance over, not the State, (Although Hammond has been trying to play God to the people of this State).

   k. No, The non-resident fee is more than ample payment.

7. Do you believe the renumeration reports required by the guide board are useful? YES 30, NO 23; Necessary? YES 15, NO 27; An invasion of privacy? YES 29, NO 13.

   a. A written report of game taken should be sufficient. A list of clients and addresses should be turned into the local protection officer only.

   b. If they are used to keep track of guides use of his area. Otherwise they are a real pain.

   c. This is a police report. Not a renumeration report. A simple statement on the Big Game tag form suffices.

   d. Yes, but not to state any amounts.

   e. These are used for the protection dept to be able to go about an unwarranted investigation. The same purpose can be attained by the license that is bought.

   f. This seems like a minimum requirement to access the activities of a guide.

   g. Yes, Some sort of report is required if for no other reason than to determine if a guide is utilizing his guide area.

   h. I would estimate that 95% are falsified. Some are filed with ghost hunters who do not exist. Some declare false areas in order to show use.

   i. Yes, A hunting contract is useful for guide-client relationship.

PART D

THE FOLLOWING ARE SOME CHANGES THE GUIDE BOARD WILL CONSIDER ACTION ON FOR THE COMING YEAR.

1. It has been suggested that regulatory control of the guiding industry be transferred from the Department of Commerce and Economic Development to the Department of Public Safety. Would you favor such a transfer? YES 14 NO 38. Comment:

   a..No, Fish and Game should control guides. Wayne Fleek is the best example why public safety should not have control of guides or guiding.

continued pg. 13.

Part D 1. Guiding industry department control, comments cont'd.

b. No, Why seperate it from other industries and whats the relationship between the guiding industry and Public Safety.

c. No, They have to much control now.

d. No, Might as well hang it up if this happens. Even now you can feel the great influence that D.P.S. has over the guide board and regulations in the guiding industry.

e. Yes, The D.P.S. have a better feel for the guiding industry, and consequently could do a better job of administrating it.

f. No, Absolutely not. The system is terribly biased now. With this, there would be no justice at all. The same agency would be arresting you, trying you and penalizing you.

g. No, Anyone that would ask for this is nuts. Right in the enemy camp. I can appreciate the reason for the desire, but knowing the attitude of most enforcement people about guides I would actively fight against this move with vigor.

h. No, I feel it's bad enough now, but we havn't seen anything if it goes into the protections hands.

i. No, "God!" No way.

j. Yes, Consolidate guiding affairs under one roof, hopefully.

k. Yes, I think they should know more about our activity and way of business.

l. No, The Dept. of Commerce is probably much more fair and square than the Dept of Public Safety would be.

m. Yes, It will make little difference either way.

n. No, ADOLF tried this in 1939.

o. Yes, I don't believe the guide board should have any right to consider this action because they do not represent the guides. They only consider themselves and are looking for more power.

p. No, Don't know what department should administer guides, but it should be separate from enforcement.

q. No, It is working as is.

r. No, The federal government and outside interest has applied to much pressure on our Guided hunts. If the police dept. is after the guided hunt there will be many conflicts.

s. No, Why should the guiding industry be set apart from others. The Dept. of Public Safety has already developed a "get the guide" attitude. Where's the justice.

t. Guiding is a public related business. The pressure the guide lives under from the enforcement groups, Federal, State, etc. is way to much already.

continued pg. 14

2. There has apparently been numerous flagnant violations of game laws perpetuated by alien non-resident hunters. To alleviate this problem the legislature may be asked to consider a bill requiring alien non-resident hunters to have or be accompanied by a guide for all big game hunting. Would you support such a bill? YES 54, NO 2. Comment:

a. I've noted several of these violations in the past three years - these hunters have no regard to our game or our systems.

b. A selfish bill and why discriminate against aliens - unjust.

c. All non-resident big game hunters should be under a mandatory guide law. This would solve some of the transporter problems.

d. All aliens should be required to have a guide for hunting in Alaska.

e. Eliminate the word alien - the south forty-eighters are equally guilty of violations and wanton waste.

f. Will support. Could stop a lot of hunting which is repugnant tc rural residents, i.e., Swedes for Bear and Moose in Units 19 and 21 (45 in 1977).

g. The state would benefit by the revenue going to the guides.

h. Highly necessary tc make progress here. Air Taxi - foreign hunting operations are killing our image.

i. Should exclude all big game for alien hunters.

j. This would be a good step in protecting our resource from rape by foreigners.

k. In my guide area there are men guiding and operating lodges who have no guide licenses. They have numerous alien hunters under the pretext of furnishing transportation.

l. There should be a bill requiring all non-residents to have a guide.

m. It would up-date the industry.

n. It would increase hunter safety for non-residents who are unfamiliar with our state and its wilderness. Besides, its about time air taxis, with their seasonal non-resident pilots, should stop taking advantage of non-resident hunters in an effort to boost revenues. Guides will still need air taxi support and I doubt if the air taxi would suffer financially in the final analysis.

o. The flocks of non-guided aliens are abusing our resources.

3. Due to a possible sharp decline in the brown bear population in game management in unit 14, it has been proposed that the guide board arbitrarily reduce the number of guides certified to guide in unit 4, from 20 to 6 or 8, to preclude and in lieu of game board actions, such as shortened seasons, permit system, and etc., to reduce the bear kill in unit 4. Considering these circumstances, do you believe the guide board should have and use the authority to eliminate some previously certified, active guides in an area while allowing other to continue? Yes 7 No 42. If yes, explain how to distinguish between those that are eliminated and those that are allowed to stay.

   a. The number of bears is the prime concern, not the number of outfitters. The Game and Fish can regulate this with a permit system.

   b. Those allowed to continue should be based upon the same concept as limited entry, i.e., investment, past dependence (full time, part-time) and tenure.

   c. Regulate the harvest by season length.

   d. Absurd. This is a Game Board function, not a Guide Board function.

   e. Lottery on year-by-year swaps.

   f. Unit 4 should be managed like the rest of Alaska.

   g. Close the season if necessary, but don't try reducing the number of guides. Regulate the take with shorter seasons or permits.

   h. How long have they been active - Grandfathers rights!! Alternatives - take turns taking bears, do this for the rest of the state as the need arises.

   i. If necessary, then a drawing out of a hat would be the fairest. This would eliminate any payoffs.

   j. This would set a dangerous precedent and cannot be allowed. The Board has already reduced the number of guides by making guide areas.

   k. Only the ones who aren't using the area should be deleted, otherwise the season should be shortened or a permit system set up.

   l. Out of my area.

   m. 1) Number of years in area.
      2) Consistency of area use over the years.
      3) Resident in the area.
      4) Investment for guiding in the area.
      5) Economic dependency on guiding.
      6) Residence time in Alaska.

   1. It is best for 20 guides in Unit 4 to take a hunter or two a year.

3. Continued - Guide Board authority to eliminate active guides?

   2. Or best, to let 6 or 8 guides make a living in the guide industry. I'd favor #2.

   n. A qualified registered or master guide should simply have the right to practice his profession within the confines of the state.

   o. If bear are declining, something has to be done. Maybe someone who only hunts bear there should have the privilege to hunt over another guide who has a bear area in another unit.

LIST OTHER REGULATIONS OR STATEMENTS YOU WANT DELETED OR MODIFIED.

1. Limiting new guides to three game units. A license to guide should be state-wide.

2. I was born and raised in this state. I have hunted and fished more years than many of the guides now licensed. I have had a registered guide license for two years. In that time I have not been allowed to acquire joint or exclusive areas, while several guides who I know have not hunted areas recently have forced me out. I feel cheated and discriminated against.

3. This board cannot <u>impartially</u> and wisely judge a guide for wrongdoing. This must be done in our courts of law juried by peers with an open mind.

4. Additional guide requirement: Must be a citizen of the U.S.A.

5. We need to get license and area revocation back in the courts where there is a chance for fairness.

6. We need to eliminate the fly-by-night "transporter guide."

7. With exclusive guide areas in effect, it should be required that a guide define the area or drainage where the hunt was conducted on the Remuneration Report. This would show if a guide is using his entire area.

8. We need stronger regulations against guides spending the winter in the lower 48 and coming up here in the summer and ripping off the state. The residency requirement for licensed guides should be more strongly enforced. Maintaining an Alaska address is a cover-up that a lot of these parasites use.

OTHER COMMENTS

1. There are too many guides in Alaska. There has to be some way of limiting guides who do not derive the majority of their income from guiding.

2. How can doctors, lawyers and commercial fishermen who make many tens of thousands of dollars through their profession or business be allowed to have areas and operate as hobby guides when I can't get an area and guiding is the only way I can make a living.

3. A guide should have to accommodate a given number of legitimate clients (this can be checked) per year to remain a guide. Good part-time guides are beneficial but a guide license for tax evasion is ridiculous. Some of these types have tied up good exclusive areas.

4. Once licensed, I believe a guide should have the right to work professionally anywhere in the state. The concept of exclusive guide areas is unconstitutional and without precedence here. This blocks free enterprise, the backbone of the American system.

   Perhaps limiting a guide's total big game kill on a per-annum basis would be more fair to both the resources and guides in general. It would allow the young guides an opportunity to come out of the closet where they are presently forced to compete with air taxis in taking as many non-residents afield as possible, avoiding Brown/Grizzly and sheep hunters.

   Prohibition of hunting the same day as airborne is another poor law. It seems better to apply minimum sizes to animals taken under a guide. I'm sure I know an adult animal when I see one. That includes big bears.

5. Do away with ewe sheep hunts in Tok Management area.

   Do something about permit hunts. Do something so guide areas in permitted hunts can be guaranteed some animals which can't survive otherwise.

   Delete the words "maximum" and "minimum" in the wording of the Tok Management permit hunt.

6. A guide should have to make 80% of his income from guiding in order to hold a Registered or Master Guide license.

7. I do not believe in confiscation laws.

8. The guide area map should be up-dated yearly and sent to all guides. Many guides cannot easily get to town and don't know when revisions have been made affecting them.

9. There should be a provision for guides to receive a percentage of the permits in their guide areas directly.

10. The whole guide program should be thrown out and a fresh new modern-day program designed to replace it.

SUPPLEMENT

PART A 1-6 Questions directly addressing Guide Board

Questions of Prime Interest to Guides:

Part B #5 Page 7
Part C #2 Page 8
Part C #6 Page 11
Part D #2 Page 14

February 19, 1980

Senate Commerce Committee
Pouch V
Mail Stop 3100
Juneau, AK 99811

Gentlemen:

I do not know the purpose of your public hearing on the Guide Licensing & Control Board, but I would like to bring my personal experience with the Board to your attention.

The attached letter to the Board chairman, dated March 7, 1978, pretty well describes my case. The chairman's answer to that letter, dated March 13, 1978, is also attached. I feel that the response to the issues raised in my letter were inadequately addressed by Mr. Jensen. More specifically, I have not been able to get an answer to why, as an active registered guide since 1962, I was not notified in writing of the proposed criteria for allocating exclusive areas and given a chance to comment. Apparently the Board's position was that if a guide didn't attend one of their rare meetings when the subject was discussed, it was too bad. My observation is that the Board adopted very inadequate criteria in their desperation to get the game management units divided into exclusive guide areas. And they did so with little regard for the vast majority of guides, such as myself, who operate "part time."

In the second paragraph of Mr. Jensen's reply, he states that the Board did not restrict me as a registered guide. I don't think he really believes that, but please judge for yourself. Between 1962 and 1978, I was able to contract with my hunters in game management units 6 through 17. Since 1978 I have been prohibited from exercising this right under my license because the Board denied me the use of all requested areas for either exclusive or joint use. The only way I can use my license now for big game hunting is to work for another registered guide with an area.

In the fourth paragraph of Mr. Jensen's letter, he states that a guide had to have contracts for 2 out of the prior 5 years (1972-76) in order to qualify for an area. He left out one critical point. The 2 years of contracts had to be for hunts in the same game management unit. Although I had personally contracted 2 hunters in 1976 for unit 17, 1 hunter in 1972 for unit 7, and had submitted a letter from another guide that I worked for in unit 15 during 1974, that wasn't sufficient to qualify me. A check of my file with the Dept. of Fish and Game will also reveal copies of contracts in 1971, 1969, and earlier.

My letter of March 7, 1978, pointed out a situation where the Board granted another guide joint use of an area with 2 other guides, even though he had not personally signed any of the contracts for the hunters he guided. I have no objection to this per se, but if this particular guide has been allowed to keep his area, fair play would seem to indicate that I should receive similar consideration. Mr. Jensen did not address my question on this issue in his March 13, 1978, response.

In conclusion, I still find it outrageous that an active registered guide can be regulated right out of the profession. My thoughts have not changed from those expressed in my March 7 letter to Mr. Jensen. I think the exclusive area concept should be repealed as a bad effort. I would also strongly favor a return of licensing and control of the guiding profession to the Department of Fish and Game. In my opinion, the Department was not as susceptible to the pressures of special interest efforts.

Respectfully,

Lee Browning

March 7, 1978

Marc Jensen, Chairman
Guide Licensing & Control Board
P. O. Box 2220
Juneau, Alaska 99803

Dear Mr. Jensen:

After several frustrating appearances before your board--and coming away empty-handed--I am persuaded that the best thing I can do for the moment is to state my case in writing.

When I received word in 1976 that I would have to apply for an area in which to guide, I submitted maps on 3 areas in which I had contracts. It was not until the Guide Board meetings of July, 1977 when Units 7, 13 and 15, among others, were divided up that I learned anything about the criteria the Board was using to grant areas.

To make a long story shorter, I appeared before your board three times during those July meetings, submitting additional backup information. I was finally granted temporary joint use of a small area overlapping into Units 7 and 15 to hunt goats and black bear. This was granted because I submitted a letter from another registered guide verifying that I had guided one of his hunters in the area requested during 1974. Coupled with the contract I had for 1972, this gave me the magic 2 years out of the last 5 that I could show use of this area--I thought. I did not have contracts for 2 out of the last 5 years in the other two areas for which I applied, so they were denied outright.

The crowning blow came on Feb. 18, 1978 when the Board reviewed the temporary areas they had granted and decided that I didn't quality after all. I was told that they couldn't accept the letter from my guide friend since I had not personally signed the contract. The Board said they would be inconsistent if they accepted that letter. I assume from this action that Mr. Northcutt (see attached letter of July 17, 1977) also had his area revoked?

Mr. Jensen, I do not criticize the Board for being consistent--they should be. What I am disturbed about is the criteria used, and lack thereof, along with the abrupt way the designated area concept has been handled. Permit me to explain.

The only criteria that I have been able to detect is that a guide must have at least 2 years of contracts on file for a specific Unit during the period of 1972 through 1976 in order to be granted an area. I submit that this is arbitrary, selective, woefully inadequate and very unfair.

Why weren't we as individual guides notified in writing of the proposed criteria for granting areas and given opportunity to comment before they

became a reality? Where were the notices of public hearing to discuss this issue? I never received either of the above. It seems to me that it is normally S.O.P. to do both when new regulations are proposed that have such a profound effect on an individual's life, liberty and pursuit of happiness.

There are a number of other questions crying for answers: (1) Why weren't some guidelines established at the very outset as to the size of an area that a guide could be granted? Right now, the areas granted range from nothing to perhaps a couple of thousand square miles. (2) What provisions are made for new guides who will be entering the profession? (3) What is the criteria for a guide disposing of a part or all of his area? (4) Finally, what was the urgency to divide up the state before answers to these and other questions were developed? It seems quite likely that settlement of the d-2 land issue and conveyance of the native lands will undo a good share of what the board is desperately trying to accomplish.

To conclude this epistle, Mr. Chairman, I have lived in Alaska almost 30 years and have been an active registered guide since 1962. Like most guides, I work at it on a part time basis; however, there have been few years out of the past 16 that I have not guided for myself or some other registered guide. I am registered in Units 6 through 17. The reason I mention my own credentials is that I find it outrageous that a registered guide, such as myself, can suddenly find himself regulated right out of the profession. And I'm sure I am not alone in this predicament.

Mr. Chairman, when your Board promulgates regulations that do what I have described above, there is something wrong with the regulations. Government is supposed to help the individual and strive for fairness, but your criteria for allocating guide areas can't help but result in grave injustices.

Although I was unsuccessful in several attempts to acquire an area, I hope the Board will reconsider its action on qualifying criteria and come forth with new guidelines that provide for longevity and a broader definition for determining "use" of an area. This seems like a reasonable thing to ask if we are to have the concept of designated areas forced upon us.

Sincerely yours,

Lee Browning

Guide Licensing & Control Board
P.O. Box 6188 Annex
Anchorage, Alaska 99502

Gentlemen:

I appreciate your hearing me out last evening after a long day of difficult decisions. This letter is to petition the Board again for temporary joint use of an area in Units 7 & 15 as shown on the attached map. My reasons for this second petition are as follows:

1. One letter of remuneration is in my file for 1972 and one letter proving that I guided another hunter in this area in 1974 with the contract signed by Roy Biffle. I did receive remuneration for that second hunt.

2. On July 16, 1977 the Board permitted Mr. Northcutt to have joint use with Mr. Coleman and Mr. Deering. Mr. Northcutt said he wanted to be included with Coleman and Deering because he has guided there since 1963 but Coleman and Deering signed the contracts. This is a matter of public record taken from notes made by Board member Charles Keim.

As I testified to you, my guiding activity in this area will be for an occasional goat and/or black bear hunt. By occasional, I mean that I may not contract a hunt every year.

I will not reiterate other statements of justification given verbally last evening except to say that I'm certain that there is no reason for conflict among the guides proposing to use this area.

Your consideration of this request is appreciated.

Very truly yours,

Lee Browning

E. L. (Lee) Browning
2907 W. 34th Avenue
Anchorage, AK 99503

P.S. I have only one copy of the map to enclose. The area shown has been reduced from that originally submitted and I am willing to modify the boundaries further as long as specific camp sites are not excluded.

DIVISION OF OCCUPATIONAL LICENSING / POUCH D – JUNEAU 99811

March 13, 1978

Mr. Lea Browning
2907 W. 34th Ave.
Anchorage, Alaska 99503

Dear Mr. Browning:

I will try to get a quick reply off to you in answer to your letter of March 7, as I will be leaving town shortly.

To begin with, the recent Guide Licensing and Control Board action did not restrict you as a registered guide, to guide hunters. This type of guiding you have been doing for many years, working for other registered guides.

Over the last five years the Board has consistently advertised our meetings and published scheduled hearings on regulations. Every year we have held at least one meeting in Anchorage that lasted three to five days. It was at these meetings that the guides and the public had the opportunity for input on proposed regulations. To my knowledge I cannot recall your presence at any of these meetings that had to do with regulations, and where you personally expressed your views. Our attendance at these meetings has been extremely good, with over 100 guides in attendance. Most of these guides have guiding as a vocation and rely on it as a substantial yearly income.

When it came to setting a criteria for qualifying for an area some guides thought that only those guides who used guiding as a vocation to support more than 50% of their income should qualify to hold an area. The final criteria that was accepted by the Board was that to qualify for an area a guide must at least have had contracts in two out of the last five years. In other words, unless a guide was active enough to establish a volume of business of at least $3,000 over 5 years he wasn't a very active guide. The $3,000 could easily be established by taking only two contract hunts for sheep at $1,500 a hunt.

Certainly you can appreciate the fact that a guide should be active to hold a guide area. All the men on the Board, as individuals, try very hard to be fair; in your particular case the majority of the vote was that the evidence you produced was not convincing enough that you had actually signed up hunters yourself.

The regulations that the Board has been working on for the last two years, with many hearings on public input, should be finalized shortly. When they are finalized the Board will present them to the guiding industry. They will pretty well define some of the questions you have raised in your letter.

If you plan on being more active in the future I would recommend that you spend some time with Mr. William Bellingar and our staff in Anchorage. They are always willing to try and help guides that have a problem find areas that are open and make suggestions that can be helpful. The Board members and myself are spending a great deal of time and effort in trying to make this program go. We welcome suggestions, and the best time for them is at the public meetings that are held and advertised.

Sincerely yours,

Mark.

Senator Bradley
Senate Commerce Committee

Dear Sir;

The Guide Control Board is an absolute necessity!

5 more impartial men doing a very difficult job would be hard to find.

If you check, or have checked with Fish & Game protection - you'll find they can expect justice from the board where they can't in the courts where violations are concerned.

The handful of guides that wish to destroy the board are the very ones that need controling.

The Guide that operates within the law has nothing to fear from them. From experience we have learned first hand that they will quickly jump to a guide's defense & do all they can to help him, IF he is in the right. The same with Fish & Game.

It is our recommendation that the Guide Control Board be backed by the State Government & given a decent salary for the hard difficult almost impossible job they do!

Sincerely,
Andy Runyan

Exclusive Alaskan Hunts
S.R.C. Box 8860
Palmer, Alaska 99645
Feb 20, 1980

Senator Bradley
Senate Commerce Committee

Dear Sir;

The Guide Control Board is an absolute necessity.

#1. Because there are guides who refuse to 'police' themselves.

#2. There are guides who wish to continue to do as they deem prudent regardless of the laws or whose toes they step on.

#3 Greedy guides who wish to keep huge areas for their exclusive use plus everyone else's

#4 Fish & Game's funds have been cut till they have too few men to do the entire job let alone get the illustrious Judges in the state to back them up!

#5 The Guide Control Board (underpaid for their efforts) is about as impartial a group as there is to be found. Which would you prefer, if you were to be judged on an infraction; 5 men or 1 judge whose wife burnt his toast that A.M.?

#6 The very men who are trying to get rid of the Guide Control Board are the one's that have been raping Alaska for years! It's common knowledge; yet they've managed to continue without getting into serious trouble, so far. They know their days are numbered, hence the push to get rid of the board.

#7 Guiding has a sour reputation up here now. Take away the control of the Guide Board and the federal government is going to step in and take away more of our rights, very quickly!

#8 IF these disgruntled guides force the Guide control Board out of existance is the State prepared to give Fish & Game the funds & men to do the job the Board does at present?

#9. Shouldn't Dept of Fish & Game operate separately from State legislators? Why clutter up your already busy desks with issues such as this?

Guiding brings huge sums of money into the state every year. What 7o of the 'tourists' up here are hunters & fishermen. The Guide control Board controls the guides. WHO controls the residents? Nobody, because Fish & Game hasn't the funds or personnel!

It's time the legislators get behind the very men that are trying to SAVE an industry instead of a disgruntled few with money to buy lobbyists etc.

A very disgusted Guides wife!

Dear Mr. Brodley,

I am writing in response to your letter concerning the "Guide Licensing and Contact Board".

I think the board has been providing a very valuable service to the guides of Alaska. I have not always agreed with all their decisions, but I would hate to think what the guiding industry would be like without the service they are providing.

I have attended nearly every meeting of the board and feel that the Chairman, and the members are doing an excellent job.

Sincerely

P.S. Keep the capitol in Juneau!

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

DIVISION OF OCCUPATIONAL LICENSING / POUCH D – JUNEAU 99811

April 22, 1979

Mr. Don Hostak, Director
Division of Occupational Licensing
Department of Commerce and Economic Development
Juneau Alaska

Dear Don:

This isthe first report that the Guide Licensing and Control Board has issued covering its activities, and because of that fact I would like to make a statement as to the need for a Guide Board.

There are over 400 registered guides operating in the State of Alaska. The health and status of the game resource is vitally important for the taking of trophy and meat animals. With no control over the guides it was found that there occurred many times a concentration of guides in one area for trophy sheep or trophy bear. This condition led to a great deal of guide friction, very poor hunter success and a much too heavy harvest of the game resource. After many public meetings the guides themselves agreed that the Board should try and set out boundaries for the individual guides based on prior use, capital investments and current active status. An individual filing system was set up in the Anchorage office where a copy of the contracts for each hunt, was filed under the guide's name. This past year has seen the Board complete hearing individual guide petitions for the second go-round. At this writing the majority of the guides now have areas that show on a master map in the Public Safety Office of the Fish and Game Department.

1. Exclusive guide areas have been a big tool for better game management; 2. Exclusive guide areas have reduced guide friction andgiven the hunters better wilderness experiences; 3. Exclusive guide areas have made it possible to identify the harvest of animals in a given area; 4. It has allowed the guides to develop better improvements because they have the opportunity of transferring or selling these improvements at a later date; 6. Exclusive guide area does not belong to the guide but reverts back to the Board for disposal when the guide is through using it.

This last year the Board gave about 30 written guide tests with 24 passing. Each guide was then given an hour oral test by three examiners. All but three guides passed the oral test.

The Board was busy every meeting sitting as a jury on violation cases and hearing petitions for boundary changes. To give the interested parties a brief view of the Boards attivity I am including in this report a copy of the minutes of the January meeting. This is an average meeting but not nearly one of the heaviest workloads that we have.

Sincerely yours,

Marcus F. Jensen, Chairman

08-H8LH

STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

DIVISION OF OCCUPATIONAL LICENSING / POUCH D – JUNEAU 99811

April 22, 1979

Mr. Don Hostak, Director
Division of Occupational Licensing
Department of Commerce and Economics
Juneau,Alaska

Dear Don:

Guide Licensing and Control Board proposed program for Fiscal Year 1981:

Three meetings between Juneau, Anchorage, and Fairbanks, from three to four days for each meeting. A possible meeting at Nome or Kotzebue if the Arctic ;guide kprogram moves ahead on schedule.

If the D-2 land bill changes the status of over one hundred guides as to their exclusive guide areas,I think that the Board will be able to handle this work load within the regular three meetings.

I am going to make a line item report, which pretty well identifies the Board's activities during the 1981 FY:

1. Give written and oral guide examinations. Approximately 20 to 25 guides have been taking this exam yearly.

2. The Board would sit as a jury on violation cases presented by the Attorney General's office.

3. Hear petitions from guides on boundary changes.

4. Hear petitions on transfer of guide areas to other qualified guides.

5. Hear testimony for Master Guides.

6. Act on proposed guide areas in Game Units 1 through 4.

7. Hear testimony on impact of D-2 land legislation where guide areas are involved.

8. Testify on S.B. 101 and H.B. 405 requiring changes on the Guide statutes.

9. Make survey of Arctic villages to explain Arctic guide programs, which would involve the taking of marine mammals.

10. Finalize the upgrading of Master guide area maps in the Anchorage office.

STATE OF ALASKA
JAY S. HAMMOND, GOVERNOR
DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT
DIVISION OF OCCUPATIONAL LICENSING
POUCH D – JUNEAU 99811

11. Receive applications for areas from new guides. The Board would open the whole state for six months and give everyone an equal chance to file.

12. Request money for a public address system to be used at our public hearings.

The Guide Board will need very few new regulations. The base has been very well established and proven workable. S.B. 101 has passed the Senate and should pass the House. It would repeal Part C, Line 3 in Sec. 08.54.200. This line made it mandatory that the Board revoke a license if guide was convicted of two violations. The Board has this power under another Section, which does not make it mandatory.

I will let your Department add to this report the expense incurred for our meetings and travel.

Yours very truly

Mark Jensen

REF: Guide Licensing
& Control Board

Dear Senator Bradley,

I was one of the three people who attended the tele-conference this afternoon at Wasilla regarding the hearing on the GUIDE LICENSING & CONTROL BOARD. Unfortunately, I didn't have the packet containing the information on the hearing until arriving at the Wasilla office so I was ill prepared to give any testimony to you over the air.

To begin with, I would like to go on record by stating that I fully support the continuance of the Guide Licensing & Control Board as an appropriate method of maintaining a system of checks & balances pertaining to Guide related activities. I began working for Pinnell & Talifson of Kodiak, Alaska at the age of 18 and was fully in their employ until being drafted and upon my return from Vietnam until the present, I have been working for them on a part time basis, now as a Registered Guide during either the Spring or Fall season. Although I have been a State employee for nearly 12 years, the Guiding Profession still holds a very high priority with me.

During the tele-conference this afternoon, I kept somewhat of a score-card of those who called in their testimony with the result being, approximately 3 to 1 in favor of keeping the Guide Licensing & Control Board. It seemed to me as those opposed, were individuals who for one reason or other, had had a confrontation with the Board. Some of their reasoning as to why they shouldn't be held accountable for their actions, i.e. "minor" violations e.g. snagging fish etc., could, in my opinion, be likened to being "little bit pregnant". Now while I believe that most of us sometime in our lives probably have slipped somewhat, I can hardly believe that it is any excuse to use if brought before such a body as the Guide Licensing Board. I would intend to believe that there was more to it than 'snagging a fish'.

Some other areas of interest to me were the collection of Trophy Fees and Protection. I feel that if Trophy Fees are necessary to be collected, these monies should go towards game management rather than placed into the General Fund. Also, Protection should be of a high priority as it is virtually impossible to have Management without Protection. Lastly, I would like to express my views in regards to Exclusive Areas. It would seem logical that if these areas were broken down into smaller units, there would be more hunting pressure as, more guides equals more hunters equals more hunting equals more pressure in increasingly smaller areas. In spite of seemingly unfairness to those who don't have an exclusive area, by maintaining a larger area, a more ideal conservation practice is effected. (Although there may be exceptions). The "heat" for lack of sufficient hunting areas should be more directed towards the Federal Government's land look-up rather than the Guide Licensing & Control Board.

I firmly believe at this time that the continuance of the Guide Licensing & Control Board is very vital issue that should be supported by you and your colleagues and wish to thank you for allowing me my input in this matter of mutual concern. I would be very interested in knowing the results of this hearing and ask that you inform me at your convienence. Thank you.

Sincerely,

Dan Brase

Dear Senate Members:

In regard to the subject on the Guide Licensing and Control Board hearing, we wish to make our opinions, suggestions and recommendations known.

There is no doubt in our mind that the Guide Board does have a vital purpose to help properly control and manage the guiding industry, undoubtly if the board were terminated chaos would arrise. It is however evident that the board has not succeeded in properly fullfilling its objectives and unless significant changes are made we would favor its termination.

Its initial purpose was greatly needed however soon after its inception there followed continued inconsistantcies in its proceedures and policies. In its efforts to try and protect our investement and livilhood it actually has reduced it. We have been treated fairly in some regard and very unjust in others and thus it has been difficult to maintain proper objectives to stablize our guiding business. More consideration should be given to full time guide operators. They have the most invested and the most to loose. Use of areas should be more accuratally established. Greater consideration should be given to game population for establishing areas. When areas are "joint use" harvest restrictions should be established between guides so that abuse does not arrise out of uncooperativeness.

We are also concerned with the powers that have a dominant force superior to normal court proceedings, violations are not treated in proportion to their severity. Guide laws and regulations are often unclear and ambigeous which need revision. If the D2 legislation remains unresolved we can expect more complications with the increased pressure on the remaining hunting areas. Some guides will infringe on areas by unjust means, creating unbalanced harvest.

We hope that you will recommend that unless the board establishes more positive and consistant policies that a new alternative be found to manage the guiding industry.

Sincerely,

Dennis Branham

February 28, 1980

Honorable W.B. Bradley,
State Commerce Committee
Pouch V, Mail Stop 3100
Juneau, Alaska 99811

Dear Mr. Bradley,

The Marine Mammal Act has affected this Island and elsewhere. It also hurts us-Alaskans. For the fact, it has cut down hunting, our source of food supply.

In my belief, as poor as I am, believe that if anyone has a need they should try to get whatever they want. I try to get what I need because it is my need. It shouldn't be any different with anyone else.

If the Guide hunting should begin we would like to run it on our own, in our own way. Others may think that we just give them the trophy they want and let them be on their way. It is not so, the walrus they get is divided amongest the crew- it is not left behind. It is our food.

Most of the boat captains are very much interested in guiding for this also brings money into the families of the crew for there are no employment or occupation here for everyone. I, myself, am for it for it would make me happy to be feeding my family and paying for our bills. I happen to have a large family to feed and clothe.

Thank-you.

Sincerly,
Alexander Akeya

Adventures Unlimited

Mile 100, Delani Highway
CANTWELL, ALASKA 99729

Feb 27, 1980

Dear Sen. Bradley:

Although I received the letter regarding the hearing on the Guide licensing and control Board late, I hope my following comments will be noted in your records.

I retired from the US Army in June 1966 as a 1/Sgt (E-8) after 21 years service with almost 9 years of it in Alaska. I have been a legal resident since 1950. During these years of service my dream upon retirement was to build a hunting lodge and become a big game guide. This sounds rather childish in retrospect, but I come from a rather poor background from rural Georgia with a 4th grade formal education. I & my wife raised two sons in Alaska, one is in charge of the Metro Unit in Fairbanks ~~and~~ and the other is a vice officer with the Anchorage Police Dept. So you can see I believe in law and order & I don't believe in indiscriminate welfare.

My wife & I filed on a homesite on the

Adventures Unlimited

Mile 100, Delani Highway
CANTWELL, ALASKA 99729

Denali Highway and for several years we lived in a tent and an old housetrailer. During these years my income was derived from hauling game for hunters + renting camp gear + sites. I worked for various companys all over Alaska during the winter for money to build with in the summer. Some winters I stayed in and trapped. (after I got the walls of our lodge erected + could live in it.) I wanted a guide license in the worst way, but it meant working for some of the most unethical people I'd ever been in contact with. I've had an assistant guides license for many years + tried to get enough time working for registered guides so that I could take the test but invariably I'd get into borderline trouble with the Fish + Game people + get disgusted and give it up.

Quite frankly, I think the present set up of licensing guides + assigning exclusive guide areas is illegal + against the constitution.

I have come to believe that the only way I'll ever get my registered guide's license is to become a school teacher, a Doctor or a politician.

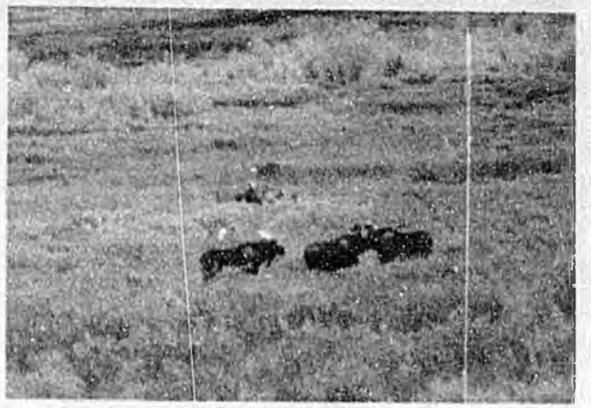
P.O. Box 89
Cantwell, Alaska 99729

Unguided and guided big game hunts can be arranged.

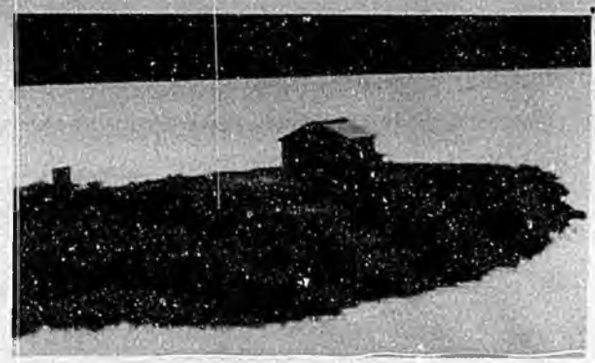


Remote camps

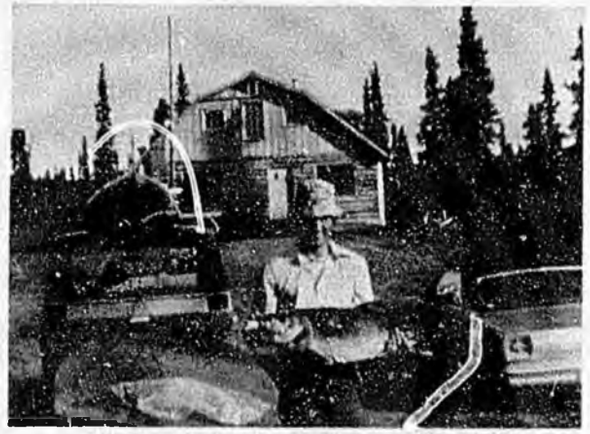
Winter scene

The Lodge sits at the edge of the timberline facing north, with a broad timbered valley stretching away to the serenity of the glaciered mountains. Behind the Lodge to the south is gently rolling hills of tundra dotted with dozens of lakes. For the birdwatcher and backpacker it is superb country for watching the thousands of migratory birds that nest annually on the tundra as well as the animals that roam this vast land. Some of the birds that can be seen here are Golden Plover, Jaeger, Arctic Tern, Curlew, Whembrel, Wilson's Snipe and numerous species of sparrows. Most of the birds begin arriving by the first of June. Also our own Ptarmigan raises his family here. The tundra is dotted with Parka squirrel colonies and fox dens. Part of the Nelchina Caribou herd lives here year around. Wolf, Moose, and Grizzly Bear are commonly seen here. Just a 15 minute walk from our Lodge gives one a sense of aloneness that can be attained in very few places left on this earth. Our nearest permanent neighbor is 35 miles away!

Backcountry trips by large tracked vehicles are conducted out of the Lodge for photographic, fishing gold panning, glacier exploring, etc., for groups of four or more persons.



Adventures Unlimited owns and maintains a large cabin at Butte Lake (Nadiwen). The lake is approximately 9 miles from the main Lodge and is about two miles long by one mile wide. The lake is famous for large grayling and lake trout. Other fish are Burbot (Ling Cod) and white fish.



The cabin sleeps eight persons and is furnished with bunks, cooking utensils, propane stove (propane furnished) wood stove, etc. A sanitary outdoor toilet is provided. Two boats are also furnished with cabin rental. Transportation to the lake is by tracked vehicle. A package plan is offered for groups up to eight people that includes all the above. Reservations from 1 June thru 30 Sept. is recommended. Write for current prices.

Although the Denali Highway is officially closed to vehicular traffic from mid-October until about 1 May, our Lodge remains open year round for the convenience of winter sports enthusiasts. From mid February through April, it is ideal country for cross country skiers, snowmobiling, dog mushers, or just plain getting away from it all. The weather is mostly clear and bright, the daylight grows from 6 to 7 minutes longer each day. There's fantastic displays of The Northern Lights. The temperature ranges from -30 to +35 with very low humidity. For guests who would like to experience a winter adventure, we have arrangements with a Bush flying service to fly in to the Lodge from Cantwell.

Juneau, AK 99811

Dear Brad and Committee members,

I want to go on record as being wholeheartedly in favor of keeping the Guide Control Board. I think it is one of the most useful tools we have for law regulation regarding the guiding profession — and should not be discarded unless there is something better to put in it's place.

The men on the guide Board have done a good job and Marc Jensen is to be commended for his efforts.

I speak with over thirty years of guiding experience.

Sincerely,

Leonard Helgason

Attention: Chairman, Brad Bradley

I would like to add my comments on the Guide Licensing and Control Board Public hearing that was held on February 28, 1980.

I am very much in favor of keeping the Guide Board in existence. I think they are doing a very good job. Also, I am against transferring the jurisdiction to the Department of Public Safety. I would also like to see the transportor law dropped.

I would highly recommend the Guide Board come under the Department of Fish and Game.

Sincerely,

James K. Bailey
Registered Guide

March 3, 1980

Senator Brad Bradley, Chairman
Senate Commerce Committee
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Senator Bradley,

Last week, I spoke at the Teleconference Hearings on the Guide Licensing and Control Board. Mr. Jensen's closing statements on why the board revoked a guide's license after one violation clearly shows the position the board has taken. If they do not like an individual, they make it hard on you. No board should have the power to operate in this manner. It is a gross misuse of our system.

I strongly recommend an investigation of all the actions of the guide board from 1975 till present to clearly see how unfairly they have acted. I have completed many pages of notes and would gladly help in any manner.

I am thankful for the opportunity to share my views with the legislature. There are many people who share my views but who are afraid to speak out against the board. I personally, have felt their prejudice in my dealings with them. It is a very tough road to travel when a board is allowed to act the way this board has acted.

Thank you very much.

Sincerely yours,

Ken Owsichek

Ken Owsichek

P.S. I would also like to have a copy of Mr. Jensen's last statement to the committee on why they revoked the license.

Feb. 28

Senator Bradley,

Thanks for the letter informing me of the hearing on the guide Lisence and Control Board. I attended the tele-conference in Dillingham.

As an assrstant guide, I have totaly dedicated myself to becoming the very best and most competent guide possible. This yeai- I will be elligable to take the registered guide tests, I support the conept of exclusive guide areas that allows "joint usage" as this seems the only logical way of preventing too much pressure in certain areas and protecting the non-pilot guide, like myself, from those who would roam freely in their super cubs to high game population centers. At least in the case

of Kodiak, the exclusive area concept has made each guide highly concious and responsible for the game in ther areas,

At the Same time time, however, it has become increasingly more dificult for young assistant guides and registered guides to find openings in the proffesion. with anti-hunting pressure as strong as it is, I think it is important that the young men after having completed their "internship" have the opportunity to earn their living at what they have worked so hard to achieve. The future of hunting depends on these young men.

I think the board is doing a good job and should be retained

Thanks

Joe Klutsch

Cecil R Jones
St Rt A Box 49A

March 1, 1980

Dear Folks,

In the recent hearings on the guide board there was considerable testimony on the problem of new guides in the state trying to aquire a guide area permit. Many were in favor of the Guide Area Concept but felt that something should be done for the new guides starting out in the business. Here is the way I feel on this issue. The board should do a field investigation of the guides who are presently holding oversize areas or more than two areas. If they find the guide isn't utilizing the entire area, cut the area down to his traditional use. This would produce more areas, also the resident requirement for guides should be enforced. We all know guides presently operating in Alaska who have basically retired. Guides who live in the lower 48' who come to Alaska only during hunting season. When hunting season ends they go home and take their money with them. Money that should remain in the state. I feel that anyone not making Alaska his year-round residence should not be allowed to operate in this state. Let them retire from the guide business and pass his area permit on, there by opening the way for a new guide.

These two things could help the new guides tremendously and not hurt the industry at all. Beyond these two things the only alternative new guides have is to find a good outfit to work for and stay with him.

The guide area permit concept is a good thing. It just needs a few wrinkles ironed out. Thank You.

Sincerley

Cecil Jones

March 27, 1980

Rep. Al Osterback, Chairman
Puoch V
Juneau, Alaska 99811

Dear Mr. Chairman,

This letter is in regards to the Sunset Review of the Guide License and Control Board. As a member of said board, I feel I must comment on the review and a copy of a letter of a request by Rep. Rick Halford, to attorney general's office about a legal audit.

First, I would like to comment on Rep. Halford. It has come to my attention that certain people have made accusations against him. They say he has a conflict of interest, he is letting his family get in his way of making good judgement, etc. I want you to understand I am not a fan of Rep. Halford's, in fact, we very seldom agree on most facts. However, I do think Rep. Halford is an honest legislator and his integrety, as far as I am concerned, has never been in doubt. To say he has a conflict of interest is ridiculous and the family problem is even more ridiculous.

I feel this attack on him was due to him asking for a legal audit. As one of the board members, I say it is about time and I welcome a legal audit. I cannot understand anyone not wishing to adhere to the constitution, and after all, that is what is expected of us.

Now, I would like to comment on the review finding by the House Resources.

No. 1 I am happy to see you find need for the board, for safety and welfare of the public. I feel you have left out one important thing, that is, the great need by the industry, for a board, to better the guiding industry.

No. 2 I disagree with finding in this case. The board should not be under public safety. A seperation of the police and the board should be distinct. The reason given me for putting it under protection is commerce does not do its job. If this is true and I believe it is, the legislator should shape the bureaucracy up, not transfer the problem.

No. 3 The transporter law, like many laws, was designed to correct a problem. And like many other laws, it failed miserably,

in fact it caused more problems. All this law did was to license a $10.00 guide.

No. 4 This finding has much merit. For years we have been trying to change some simple statutes. I shall list them, these will not be in there order of importance.

(a) Repeal of the guide head tax (Alaska Statute Sec. 16.05.340). This head tax is the most unfair, and I believe, it is a discriminatory tax. It sets the guide aside and taxes him and does not tax any other user of the natural resources, such as resident hunter, timber people, commerical fishermen, sports fishermen, miner, subsistance hunter and fishermen. You must remember, we do not shoot the game, all we do is provide a service for a hunter. The hunter has already paid for the right to hunt by buying a license and tags. I take note of the lack of tax on bird watchers who takes pictures, etc. I encourage you to repeal this law.

(b) In the guide law (Sec. 08.54.200) grounds for disciplining a licensee. According to this statute, the board must have a hearing, if a licensee has had 3 or more complaint letters from Clients. There is no time element on this, these complaints could be 10 or 15 years apart. I suggest the mandatory section be removed. Leave it up to the board, there are times when one complaint should be heard. All complaints should be investigated and the results should be presented to the board.

(c) Sec. 08.54.200 grounds for disciplining a license Section (C) No. (3) It is mandatory the board revoke a license if a licensee is convicted of two violations. This manadatory section should be removed also. Some convictions do not merit revoking a license. Example (a guide is convicted of forgetting his license one year, 10 years later he is convicted of not having proper survival gear in the aircraft, the guide claims the gear was stolen. It would be mandatory for the board to revoke his license for 5 years. I say leave this decision to the board, do not make it mandatory.

(d) New sections to be added. The board will advertise to the public for proposals to change guide regulation and will consider them and take action at least once a year. At this time the public has no way to submit a proposed change of regulation unless the board chairman O.K.'s them or one of the board members submit them. This should be set up simular to Game Board.

(e) New section to be added. Annual election of chairman and vice chairman. Chairman and vice chairman will only serve 2 consecutive years. Mark Jenson has been Chairman for 6 years and he has been a very dedicated chairman, however, I think it is healthy for a board to have a new chairman every two years for new thinking, new ideas, a new outlook on matters.

(f) New section. Guide Board members must attend at least 3/4th of the meetings each year, and registered guide members of the board must be active. To prove activity they must have at least 5 financial renumeration statements on file, per year. It does no no good to have a guide on the board that is not active, he is out of the main stream of the industry.

No. 5 I hope the legislators do not hamstring the board by continuing the board for just one year. We are only allowed 3 meetings a year, by the commerce dept. They tell us they have no more funds. There is only a certain amount one can expect from a board that will be in session for 15 days a year. Possibly the answer to that, if you do continue us for just one year is, set asside a special appropriation for more meetings and longer meetings.

(5b) Last but not least this deals with rural resident guides. I am happy to see our rural resident s taken care of. However, let me caution you, make dam sure that all guides, whether they be rural or urban, be treated equal. Do not make the law double standard.

I realize I have been long winded, as I usually am, but I feel you should get as much imput from all segment of the guiding industry. Only then can you make workable laws.

Sincerely,

Clark L. Engle

2/28/'80

Sen. Brad Bradley
Alaska Senate Commerce Committee
Greetings;

Rec. Communication re: hearing on Guide License & Control Board - too late for any timely remarks, since I live in a remote area with no regular mail service. I am, an unaffiliated, Reg. Guide; and as Monday-after-the-game Comment my impression of the Board is that I disagree with the basic concept they seem to operate: in short, I am opposed to commercialization of Alaska Game resources for the enrichment of a small group.

But I was glad to receive your communication, since now I have an address, where to write re: a couple queries been in mind:

I would like to know by what Statute, the Division of Occupational Licensing is empowered to charge,and collect, extra $IO fee for Guide License applied for later than Feb. of the year affected - even an extra, $IO besides, for a past year in which no, License was applied (?)

And re: the Statute whereby an extra fee is charged to Guides taking more than 5, of some big game species -I heard over Radio that after this was passed into law, legislators decided it would be un-enforceable ; but then the Dept. of Commerce took it upon themselves, stating they, would, enforce it. Now I have no quarrel with that Statute - seems a good idea; but I do have misgivings about the methods used in enforcement. All I knew of the Statute I heard over Radio. But then Guides were sent Forms to fill, which amounted to self-imposed billing, the extra fees for the past 3, years, since the Statute was enacted. I owed nothing, so, in opposition to principles, I filled the Form and returned. But such action seems to parallel - selling someone something, then a couple years later coming around saying they should be paid more. I'd like to know by what Statute this Retroactive,fee is allowed.

Since the Dept of Commerce (& Econ. Dev.) is so apt letting people know when People, U.S., Alaska citizens, who are supposed to be the main issue and cause for, Gov't; owe, them I think it would be only just that they let us know in advance, about such extra fees to be charged - so that we, might include allowance for such in our, charges to customers; and further, that they be required to state, by what authority such extra fees and methods are

allowed - which was not, done in either of cases above.

Sorry, I meant to add, re: extra $10 for Guide License after Feb. - the only Regulation I know of on this states that a Guide must have Alaska Guide License at the time actually guiding or Contracting, hunters. Tho' this latter may be done earlier thru mail, in my experience Contracts have been signed just before beginning hunting, hunters already at the hunting camp. For a small operator like myself, the $75 License fee is an important amount - and I understand we are allowed to skip applying for one year, in which we do not plan to guide; since now we are under a system of Designated Guide Areas, a Guide interested in perpetuity of resources within their Area, might think best to rest, it for a time, perhaps because contrary circumstances are threatening maintenance of Game resources there. Amen.

Truly yours,

John Ireland

CS FOR SENATE BILL 574

MR. PRESIDENT, I MOVE THE ADOPTION OF CS FOR SB 574, WHICH IS IDENTICAL, AT THIS POINT, TO THE HOUSE BILL FOR THE SAME BOARD. WE HAVE WORKED JOINTLY TO TRY TO PREVENT AN UNNECESSARY AND OFTEN TIME-CONSUMING FREE CONFERENCE COMMITTEE.

THIRD READING

I will attempt to cover the changes to current law by section as quickly as possible

(SEC. 08.54.010) P. 1, L. 12

- SECTION 1 ESTABLISHES THE GUIDE LICENSING AND CONTROL BOARD SOLELY IN THE DIV. OF FISH AND WILDLIFE PROTECTION OF THE DEPT. OF PUBLIC SAFETY. CURRENTLY, THE BOARD IS ESTABLISHED IN THE DIV. OF OCCUPATIONAL LICENSING OF THE DEPT. OF COMMERCE AND ECONOMIC DEVELOPMENT AND THIS DIVISION PLUS THE DIV. OF FISH AND WILDLIFE PROTECTION OF THE DEPT. OF PUBLIC SAFETY SHARE THE RESPONSIBILITY FOR STAFF SUPPORT. THIS SECTION ALSO ENSURES THAT THREE MEMBERS OF THE BOARD WILL BE ACTIVELY INVOLVED IN GUIDING AND THE REMAINING FOUR WILL HAVE NO INVOLVEMENT IN THE GUIDING BUSINESS. CURRENTLY, THREE MEMBERS ARE JUST REQUIRED TO HAVE A GUIDE LICENSE AND THE OTHER FOUR A GENERAL KNOWLEDGE OF GAME RESOURCES.

(SEC. 08.54.020) P. 1, L. 28

- SECTION 2 PROVIDES THAT THE MEMBERS OF THE BOARD MAY NOT BE APPOINTED FOR MORE THAN TWO CONSECUTIVE TERMS. A TERM IS FOR THREE YEARS. CURRENTLY, THERE IS NO LIMIT TO HOW MANY CONSECUTIVE TERMS A MEMBER MAY SERVE if appointed.

(SEC. 08.54.030) P. 2, L. 2 — SECTION 3 REQUIRES THAT THE BOARD MUST ELECT A CHAIRMAN AND A VICE-CHAIRMAN ANNUALLY. THE CHAIRMAN MAY NOT SERVE FOR MORE THAN TWO CONSECUTIVE TERMS. TESTIMONY INDICATED THAT SUCH ROTATION WOULD ASSURE THAT THE BOARD WOULD BE MORE RESPONSIVE TO THE PUBLIC INTEREST. CURRENTLY, THERE IS NO LIMIT TO HOW LONG A CHAIRMAN CAN SERVE.

(SEC. 08.54.070(A)) P. 2, L. 7 — SECTION 4 REQUIRES GUIDE LICENSE FEES TO BE PAID BIENNIALLY AND GENERALLY INCREASES THEM 25 TO 30 PERCENT.

(SEC. 08.54.182) P. 2, L. 13 — SECTION 5. PERSONS SEEKING REGISTERED AND MASTER GUIDE LICENSES MUST PASS AN EXAMINATION, AND THAT EXAMINATION SHALL BE HELD TWICE A YEAR AT BOTH JUNEAU AND ANCHORAGE FOR THE CONVENIENCE OF APPLICANTS. CURRENTLY, THE EXAMINATIONS ARE ADMINISTERED ONLY IN ANCHORAGE.

(SEC. 08.54.190(A)) P. 2, L. 18 — SECTION 6 ELIMINATES A LICENSURE PROVISION FOR AIR TRANSPORTERS AND IT ASSURES THAT ALL GUIDE LICENSES ARE VALID FOR AT LEAST ONE FULL YEAR. UNDER EXISTING LAW, ALL LICENSES EXPIRE ON DECEMBER 31 FOLLOWING ISSUANCE REGARDLESS OF WHEN THEY WERE ISSUED. PERSONNEL IN THE DIV. OF FISH AND WILDLIFE PROTECTION CONSIDER THE "TRANSPORTER LAWS" CONFUSING AND DIFFICULT TO ENFORCE. IN ADDITION, THE INFORMATION AND REPORTS THAT TRANSPORTERS ARE REQUIRED TO FILE ARE NOT BEING ACCOMPLISHED AND ARE NOT NEEDED TO MANAGE THE GAME RESOURCES OF THE STATE. Testimony was unanimous that the transporter license should be eliminated.

(SEC. 08.54.190(B)) P. 2, L. 23 SECTION 7 REQUIRES THAT AN ASSISTANT GUIDE OR A CLASS-A ASSISTANT GUIDE THAT HAS NOT RENEWED HIS LICENSE FOR FOUR YEARS MAY NOT BE RENEWED UNTIL HE MEETS THE QUALIFICATIONS FOR AN INITIAL LICENSE. CURRENTLY, THE GRACE PERIOD IS FOR ONLY TWO YEARS.

(SEC. 08.54.200(A)) P. 2, L. 28 SECTION 8. UNDER EXISTING LAW, THE BOARD IS REQUIRED TO HOLD A HEARING TO CONSIDER DISCIPLINARY ACTION IF IT RECEIVED COMPLAINTS FROM THREE OR MORE SEPARATE PARTIES TO WHICH A LICENSEE HAS PROVIDED SERVICES. NO TIME PERIOD WAS INDICATED; IT COULD BE THREE COMPLAINTS IN THIRTY YEARS, which is impractical. SECTION 8 PROVIDES A TIME PERIOD OF FIVE YEARS WITHIN WHICH THESE COMPLAINTS MUST BE RECEIVED BEFORE THE BOARD IS REQUIRED TO HOLD A DISCIPLINARY HEARING. THIS SECTION ALSO PROVIDES THAT THE BOARD IS NO LONGER OBLIGATED TO HOLD A DISCIPLINARY HEARING WHEN A LICENSEE IS MERELY CHARGED WITH A VIOLATION OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS. HOWEVER, UPON A CONVICTION, THE BOARD IS STILL REQUIRED TO HOLD A DISCIPLINARY HEARING.

(SEC. 08.54.200(C)) P. 3, L.9 SECTION 9 PROVIDES THE BOARD THE OPTION OF REVOKING, SUSPENDING, OR DENYING RENEWAL OF A LICENSE IF THE BOARD FINDS THAT THE LICENSEE DOES NOT MEET CERTAIN REQUIREMENTS. UNDER EXISTING LAW, THE BOARD WAS REQUIRED TO REVOKE THE LICENSE UPON SUCH A FINDING. THIS SECTION ALSO PROVIDES THAT SPECIFIED DISCIPLINARY

ACTION MUST BE TAKEN BY THE BOARD ONLY WHEN A LICENSEE HAS BEEN CONVICTED OF TWO VIOLATIONS OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS WITHIN THE PAST FIVE YEARS. UNDER CURRENT LAW, TWO VIOLATIONS TRIGGER MANDATORY DISCIPLINARY ACTION REGARDLESS OF THE TIME PERIOD.

(SEC. 08.54.210(A)(1)) P. 3, L. 20 • SECTION 10 REMOVES REFERENCE TO A TRANSPORTER BECAUSE TRANSPORTERS WILL NO LONGER BE LICENSED UNDER THIS ACT. (SEE SECTION 6 AND SEC. 08.54.142 AND 144)

(SEC. 08.54.210(A)(2)) P. 3, L. 26 • SECTION 11 REMOVES REFERENCE TO A TRANSPORTER.

(SEC. 08.54.210(A)(4)) P. 4, L. 5 • SECTION 12 REMOVES REFERENCE TO A TRANSPORTER.

(SEC. 44.41.020) P. 4, L. 11 • SECTION 13 PROVIDES THAT A NEW DUTY OF THE DEPT. OF PUBLIC SAFETY SHALL BE THE SOLE RESPONSIBILITY FOR ADMINISTRATIVE STAFF SUPPORT OF THE GUIDE LICENSING AND CONTROL BOARD (SEE SECTION 1).

(SEC. 08.03.010(C)) P. 4, L. 15 • SECTION 14 PROVIDES FOR JUNE 30, 1984, AS THE TERMINATION DATE FOR THE GUIDE LICENSING AND CONTROL BOARD.

P. 4, L. 16 • SECTION 15. THIS SECTION REPEALS PROVISIONS WHICH ARE INCONSISTENT WITH THIS ACT.

AS 08.01.010(20) REMOVES THE GUIDE LICENSING AND CONTROL BOARD FROM THE LIST OF BOARDS TO WHICH CHAPTER 01 APPLIES, SINCE THIS BOARD

WILL NO LONGER BE ADMINISTERED BY THE DEPT. OF COMMERCE AND ECONOMIC DEVELOPMENT.

AS 08.03.010(B)(7) REPEALS THE SUNSET PROVISION FOR THIS BOARD;

AS 08.54.100(5) ELIMINATES THE BOARD'S DISCRETION TO ESTABLISH QUALIFIACTIONS FOR LICENSING MASTER GUIDES IN ADDITION TO THOSE ESTABLISHED BY STATUTE (IF THE BOARD WAS PERMITTED TO ESTABLISH QUALIFICATIONS IN ADDITION TO THOSE IN THE STATUTES, IT WAS THOUGHT THERE COULD POSSIBLY BE SOME CHANCE OF DISCRIMINATION);

AS 08.54.110(12) ELIMINATES THE BOARD'S DISCRETION TO ESTABLISH QUALIFICATIONS FOR LICENSING REGISTERED GUIDES IN ADDITION TO THOSE ESTABLISHED BY STATUTE (THE SAME REASON AS FOR MASTER GUIDES ALSO APPLIES HERE);

TRANSPORTER REPEALS BEGINS HERE (NEXT 5 SECTIONS)

AS 08.54.142 REPEALS THE SECTION DEALING WITH LICENSURE OF TRANSPORTERS;

AS 08.54.144 REPEALS THE RESTRICTIONS ON TRANSPORTATION OF HUNTERS BY TRANSPORTERS;

AS 08.54.146 REPEALS THE SECTION REQUIRING PREPARATION AND FILING OF TRANSPORTER REPORTS;

AS 08.54.170(c) ELIMINATES THE LICENSE FEE FOR A TRANSPORTER;

AS 08.54.240(5) REMOVES THE DEFINITION OF "TRANSPORTING" AND "ACTIVITY OF TRANSPORTING";

TRANSPORTER REPEALS

END HERE.

AS 16.05.340(E) ELIMINATES FEES CHARGED TO MASTER GUIDES AND REGISTERED GUIDES FOR THE TAKING OF SPECIFIED GAME ANIMALS. (Head Tax).

P. 4, L. 19 ● SECTION 16 PROVIDES FOR THIS ACT TO TAKE EFFECT JUNE 30, 1980, THE DATE ON WHICH THE BOARD IS SCHEDULED TO TERMINATE.

STATE OF ALASKA
THE LEGISLATURE

LEGISLATIVE AFFAIRS AGENCY

POUCH Y - STATE CAPITOL
JUNEAU, ALASKA 99811
907-465-3800

MEMORANDUM April 26, 1980

SUBJECT: Section-by-section analysis of SB 574 dealing with the Guide Licensing and Control Board (Work Order No. 8526)

TO: Senator Brad Bradley
Chairman, Senate Commerce Committee

FROM: Tamara Brandt Cook TBC
Legislative Counsel

You have requested a section-by-section analysis of Senate Bill 574 entitled "An Act continuing the existence of the Guide License and Control Board and amending the law relating to its powers and responsibilities; and providing for an effective date."

Section 1. The Guide Licensing and Control Board is established in the division of fish and wildlife protection, Department of Public Safety. This amendment ensures that three members of the board will be involved in guiding and that the remaining four members will have no involvement in the guiding business.

Section 2. This amendment provides that members of the board may not be appointed for more than two consecutive terms. Since a term is for three years, a person would have to wait three years before being reappointed to the board after serving two terms. There is no limitation on the total number of terms which a person may serve on the board.

Section 3. The board must elect a chairman and a vice-chairman annually.

Section 4. This section generally increases fees required for licenses to engage in the profession of guiding.

Section 5. Persons seeking licenses must pass an examination, and that the examination shall be held twice a year at both Juneau and Anchorage for the convenience of applicants.

Section 6. This section is amended to eliminate a licensure provision for transporters and to assure that a license is valid for at least one full year. Under existing law all licenses expire on December 31st following issuance regardless of when they were issued.

Section 7. An assistant guide license which has not been renewed for four years may not then be renewed until the applicant meets the qualifications for an initial license. Under the existing statute only a two-year grace period is provided.

Section 8. Under existing law the board is required to hold a hearing to consider disciplinary action if it receives complaints from three or more separate parties which a licensee has provided services to. The amendment provides a time period of five years within which these complaints must be received before the board is required to hold a disciplinary hearing. This section is also amended so that the board is no longer obligated to hold a disciplinary hearing when a licensee is merely charged with a violation of federal or state sport fish, game or guide statutes or regulations. Upon a conviction, however, the board is still required to hold a disciplinary hearing.

Section 9. The board is permitted the option of revoking, suspending, or denying renewal of a license if the board finds that the licensee does not meet certain requirements. Under existing law the board was required to revoke the license upon such a finding. This section is also amended to provide that specified disciplinary action must be taken by the board only when a licensee has been convicted of two violations of federal or state sport fish, game or guide statutes or regulations within the past five years. Under current law, two violations trigger mandatory disciplinary action regardless of the time period between the violations.

Section 10. This section is amended to remove reference to a transporter because transporters will no longer be licensed under this act.

Section 11 A reference to a transporter is deleted.

Section 12 A reference to a transporter is deleted.

Section 13 A new duty of the Department of Public Safety shall be the administration of the Guide License and Control Board.

Section 14. June 30, 1984 is set as the termination date for the Guide License and Control Board.

Section 15. This section repeals provisions which are inconsistent with this act.

AS 08.01.010(20) removes the Guide Licensing and Control Board from the list of boards to which Chapter 01 applies, since this board will no longer be administered by the Department of Commerce and Economic Development;

AS 08.03.010(b)(7) repeals the sunset provision for this board;

AS 08.54.100(5) eliminates the board's discretion to set qualifications in addition to those established by statute for licensure of master guides;

AS 08.54.110(12) eliminates the board's discretion in establishing qualifications for registered guide licenses in addition to those established by statute;

AS 08.54.142 repeals the section dealing with licensure of transporters;

AS 08.54.144 repeals the restrictions on transportation of hunters;

AS 08.54.146 repeals the section requiring preparation and filing of transporter reports;

AS 08.54.170(c) eliminates the license fee for a transporter;

AS 08.54.240(5) removes the definition of "transporting" and "activity of transporting";

AS 16.05.340(e) eliminates fees charged to master guides and registered guides for the taking of specified game animals;

Section 16. This act takes effect June 30, 1980, the date on which the board is scheduled to terminate.

If you have any further questions, please contact me.

TBC:ljb

1. The Guide Licensing and Control Board should continue until July 1, 1982.

2. Eliminate the Transporter laws:

Sec.	08.54.142	(Qualification)
	08.54.144	(Restriction)
	08.54.146	(Report)
	08.54.170(c)	(License fee)

3. The Board and regulations should be transferred to the Division of Fish & Wildlife Protection, Department of Public Safety.

4. Grounds for disciplining a licensee. (08.54.200)

(a)(1) complaints concerning the licensee have been filed with the board from three or more clients of separate parties within the past five years; or

(a)(2) [A LICENSEE HAS BEEN CHARGED WITH A VIOLATION OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS; OR]

(c) After a hearing, the board [SHALL] may revoke, suspend, or deny renewal of a license if the board finds that the licensee

(c)(3) has been convicted of two violations of federal or state sport fish, game or guide statutes or regulations within the past five years.

5. Expiration and renewal (08.54.190)

Change license renewal from the existing one year to two years.

6. Appointment and terms of office (08.54.020)

Members of the board may not serve more than two consecutive terms.

7. Creation and membership of board. (08.54.010)

There is created the Guide License and Control Board consisting of seven members. [NO MORE THAN THREE MEMBERS OF THE BOARD SHALL HAVE A GUIDE LICENSE] Three members of the board shall be active licensed guides receiving a substantial portion of their income from guiding activities.

8. Sec. 08.54.030 Chairman of Board. The board shall annually elect one of its members as chairman [.] and one of its members as vice chairman.

9. AS 16.05.340(e) repeal of head tax.

10. Sec. 08.54.170. License fees. (a) License fees for engaging in the profession of guiding are:

(1)	master guide license, biennial	[75]	$200
(2)	registered guide license, biennial	[75]	$200
(3)	class A assist and guide, biennial	[15]	$50
(4)	assistant guide license, biennial	[10]	$30

11. Sec. 08.54.100(5) eliminate this section.

[MEETS ADDITIONAL QUALIFICATIONS WHICH THE BOARD MAY REQUIRE.]

This change will mean that all guides will be operating by law and not isolated regulations.

12. Examinations: Instead of one exam per year for registered and master guides there should be two exams per year in two different areas of the state-i.e., one in Anchorage, one in Juneau.

13. 08.54.110(12) eliminate this section.

A person is entitled to be licensed as a registered guide if he [MEETS ADDITIONAL QUALIFICATIONS WHICH THE BOARD MAY REQUIRE.]

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

Operational funding for the Guide Licensing and Control Board would be required to include the establishment of two positions, an Administrative Assistant I (range 12) and a Clerk-Typist III (range 8) and associated costs. These two positions would be located in Anchorage under the Director of the Fish & Wildlife Protection Division, and would provide administrative and clerical support to the Board. Travel costs are estimated for five members of the Board plus the Administrative Assistant for three meetings (approximately twelve days each) annually. The costs shown for FY81 also include office equipment for the new positions and an audio recording system to be used to document testimony and Board actions in cases of license suspension, revocation, or denial which are litigated. Dollar amounts shown after FY81 include a 7% inflation factor.

If the Board membership is increased, travel costs will be correspondingly higher than the estimates indicated.

JUSTIFICATION:

The Department currently does not have sufficient clerical staff to adequately administer the Guide Licensing and Control Board.

This position will be responsible for all administrative duties required and would process and issue approximately 1,500 guide licenses annually as well as preparing the Guide Register for public distribution annually and maintaining all Board records. The incumbent will also be required to arrange and attend all Board meetings to provide support as necessary and ensure proper documentation of all Board activities.

JUSTIFICATION:

The Department currently does not have sufficient clerical staff to adequately administer the Guide Licensing and Control Board.

This position would be responsible for all clerical support to the Board, including transcriptions of Board meetings for use in possible hearings and litigations. At present, some of this work is being accomplished by the Director's staff to the detriment of other duties and obligations. Approximately 15,000 financial remuneration statements submitted by guides annually are currently being filed by professional level investigators, decreasing their time available for program operations.

Some of the functions, in part, are currently being accomplished by the Dept. of Commerce. When the Board is transferred to this Department, however, clerical support will not be transferred. Denial of this position will result in program ineffectiveness, as professional level staff will have to be diverted to clerical work as indicated above.

REVISED DATE _____

2/14/80 Confirmation Hearing
Guide Board.

☆ Norman Sutliff

Alien Hunting (non-resident) damaging our game resources. What can we do?

☆ Mr. Charles Kern

Board members should have limited terms.

Walrus situation --- AK Walrus Commission and include more AK natives in the hunting industry. The Economic reward for ivory makes it difficult to control the slaughter of these noble animals.

→ If we don't use the leather from Walrus why not export this raw material.

Letter | ☆☆. → Contact the American Leather Industry w/r to its interest in AK. Walrus as a resource.

William Proecter
→ FBX.

Mark Jensen (Chairman of the Board) since 1973.

History since '73.

Under no dept. no staff, no $ --- just floating along. About 3 years time evolved until this was reclassified. Then started the guide management concept of 'areas' for a specific guide

⇒ Cumently the land 'D-2' issues are having a major impact on professional hunters.

SB-101 & 102

Current Bills on Guiding are good.

& Transporter Licence - be repealed.

Clark Engle ⇒
A) $ & for Board.

Don. Hanns ⇒ Previously on Fish & Game Board.

& Phil Driver - President AK Hunters Ass.
Transporter Law - bad law
Transfer to Public Safety - no good.

Define Guiding ⇒ what is it.

→ Use of 3 assist. guides should be eliminated

→ Industry is saturated currently. Work into it.

&& ⇒ Alien Problem.

→ TAX. (Head TAX)

House of Representatives

To: Office of the Attorney General

From: Representative Rick Halford

Date: March 10, 1980

Request: Legal Review of the Powers, Duties and Performance of the State Guide Licensing and Control Board

The House Resources Committee is considering the merits of continuation or termination of the Guide Licensing and Control Board under the Sunset review process. Because the Guide Board's mandate and procedures have been the subject of numerous legal questions, it seems appropriate to request that your department review certain issues which are beyond the expertise of Legislative audit.

A substantial portion of the Guide Board's time, since its creation, has been devoted to the development and implementation of a limited entry system under the terminology of "exclusive guide areas". Specific questions include:

1) Does the exclusive guide area system comply with the provisions of Article I, Section I of the State Constitution and the further provisions of Article VIII, Section 17 in concept (if carried out properly).

2) If the system is conceptually within Constitutional bounds, does the method of implementation used by the Guide Licensing and Control Board comply with all applicable Consititutional and Statuatory provisions.

These two questions are basic to the entire area system which has been in place for several years:

1) If guide A is cited for guiding in an area assigned to guide B, and guide A is willing to go through the entire legal appeal process, will he win if he is in every other way legal to guide in the area in question?

2) Do the broad protections applied to a guide's license in the Herscher case logically extend to the exclusion from using that license under the exclusive areas?

It would also be useful to have copies of all past correspondence between your office and the Department of Public Safety or the Guide Board on this subject.

Attention: Chairman, Brad Bradley

I would like to add my comments on the Guide Licensing and Control Board Public hearing that was held on February 28, 1980.

I am very much in favor of keeping the Guide Board in existence. I think they are doing a very good job. Also, I am against transferring the jurisdiction to the Department of Public Safety. I would also like to see the transportor law dropped.

I would highly recommend the Guide Board come under the Department of Fish and Game.

Sincerely,

James K. Bailey
Registered Guide

February 28, 1980

Honorable W.B. Bradley,
State Commerce Committee
Pouch V, Mail Stop 3100
Juneau, Alaska 99811

Dear Mr. Bradley,

The Marine Mammal Act has affected this Island and elsewhere. It also hurts us-Alaskans. For the fact, it has cut down hunting, our source of food supply.

In my belief, as poor as I am, believe that if anyone has a need they should try to get whatever they want. I try to get what I need because it is my need. It shouldn't be any different with anyone else.

If the Guide hunting should begin we would like to run it on our own, in our own way. Others may think that we just give them the trophy they want and let them be on their way. It is not so, the walrus they get is divided amongest the crew- it is not left behind. It is our food.

Most of the boat captains are very much interested in guiding for this also brings money into the families of the crew for there are no employment or occupation there for everyone. I, myself, am for it for it would make me happy to be feeding my family and paying for our bills. I happen to have a large family to feed and clothe.

Thank-you.

Sincerly,
Alexander Akeya

Juneau, Alaska 99811

Dear Senate Members:

In regard to the subject on the Guide Licensing and Control Board hearing, we wish to make our opinions, suggestions and recommendations known.

There is no doubt in our mind that the Guide Board does have a vital purpose to help properly control and manage the guiding industry, undoubtly if the board were terminated chaos would arrise. It is however evident that the board has not succeeded in properly fullfilling its objectives and unless significant changes are made we would favor its termination.

Its initial purpose was greatly needed however soon after its inception there followed continued inconsistantcies in its proceedures and policies. In its efforts to try and protect our investement and livilhood it actually has reduced it. We have been treated fairly in some regard and very unjust in others and thus it has been difficult to maintain proper objectives to stablize our guiding business. More consideration should be given to full time guide operators. They have most invested and the most to loose. Use of areas should be more accuratally established. Greater consideration should be given to game population for establishing areas. When areas are "joint use" harvest restrictions should be established between guides so that abuse does not arrise out of uncooperativeness.

We are also concerned with the powers that have a dominant force superior to normal court proceedings, violations are not treated in proportion to their severity. Guide laws and regulations are often unclear and ambigeous which need revision. If the D2 legislation remains unresolved we can expect more complications with the increased pressure on the remaining hunting areas. Some guides will infringe on areas by unjust means, creating unbalanced harvest.

We hope that you will recommend that unless the board establishes more positive and consistant policies that a new alternative be found to manage the guiding industry.

Sincerely,

Dennis & Chris Branham

REF: Guide Licensing
& Control Board

Dear Senator Bradley,

I was one of the three people who attended the tele-conference this afternoon at Wasilla regarding the hearing on the GUIDE LICENSING & CONTROL BOARD. Unfortunately, I didn't have the packet containing the information on the hearing until arriving at the Wasilla office so I was ill prepared to give any testimony to you over the air.

To begin with, I would like to go on record by stating that I fully support the continuance of the Guide Licensing & Control Board as an appropriate method of maintaining a system of checks & balances pertaining to Guide related activities. I began working for Pinnell & Talifson of Kodiak, Alaska at the age of 18 and was fully in their employ until being drafted and upon my return from Vietnam until the present, I have been working for them on a part time basis, now as a Registered Guide during either the Spring or Fall season. Although I have been a State employee for nearly 12 years, the Guiding Profession still holds a very high priority with me.

During the tele-conference this afternoon, I kept somewhat of a score-card of those who called in their testimony with the result being, approximately 3 to 1 in favor of keeping the Guide Licensing & Control Board. It seemed to me as those opposed, were individuals who for one reason or other, had had a confrontation with the Board. Some of their reasoning as to why they shouldn't be held accountable for their actions, i.e. "minor" violations e.g. snagging fish etc., could, in my opinion, be likened to being "little bit pregnant". Now while I believe that most of us sometime in our lives probably have slipped somewhat, I can hardly believe that it is any excuse to use if brought before such a body as the Guide Licensing Board. I would intend to believe that there was more to it than 'snagging a fish'.

Some other areas of interest to me were the collection of Trophy Fees and Protection. I feel that if Trophy Fees are necessary to be collected, these monies should go towards game management rather than placed into the General Fund. Also, Protection should be of a high priority as it is virtually impossible to have Management without Protection. Lastly, I would like to express my views in regards to Exclusive Areas. It would seem logical that if these areas were broken down into smaller units, there would be more hunting pressure as, more guides equals more hunters equals more hunting equals more pressure in increasingly smaller areas. In spite of seemingly unfairness to those who don't have an exclusive area, by maintaining a larger area, a more ideal conservation practice is effected. (Although there may be exceptions). The "heat" for lack of sufficient hunting areas should be more directed towards the Federal Government's land lock-up rather than the Guide Licensing & Control Board.

I firmly believe at this time that the continuance of the Guide Licensing & Control Board is very vital issue that should be supported by you and your colleagues and wish to thank you for allowing me my input in this matter of mutual concern. I would be very interested in knowing the results of this hearing and ask that you inform me at your convienence. Thank you.

Sincerely,

Dan Brase

Dan Brase

Board Hearing

Board Strengthening: Putbff - Federal.

① Have at least 1 more meeting per year.

Problems ē aliens going after our game. Major problem.

Chas Kerr

Native population into feeding system - an effort is being made to do this.

Cruelty to animals - Chased by snow machines &c (Carabo) - Western Arctic herds. A handle is now getting on this -

As natives become part of this system they be - come bound to it - helps stop the dessemination.

Need for native involvement into system.

Legislature concerned by:

Ducks shipped contact Korea, Japan etc. Idea if we can't bring in some barges & salvage rest of wolves for Orient at a profit. Natives paid $7 for - the tusks (ivory) etc. Salvage rest for Orient for meat, oil, leather, protein Bone meal etc. We were on the verge of doing this.

Wm. Strocher - concerned also.

Mark Jensen - Needs

Better recognition by Senate & House as to the place where guides fit in to Alaska.

Recognize the Committee as part of Alaska —
4 bills dealing ☐ Guide Licensing what should have priority — Mail fees there should be priority.
Transporter licenses D/B repealed.

Clark Engle

Tenancy of The Board, a problem: — more funding needed to have more meetings ☐ a good make — a problem. — Against at sum into protection division.

Don Hanes: Repeal Transporter Licenses.
Hunters closer to areas where they can get licenses.

Phil Driver — Pres. Hunters Association
Problem: Determination what is going on in the back areas of the state — more meetings to all areas.
Advisory Board System should be made up to advise board of what is going on in the Guide Industry.

Not in favor of Transfers to Public Safety — S/not/b under 1 Roof.

Against "transporter" law

Guidelines D/B used down to entail funding concerns
3 —
Record and 3 assistant Guide Statute — would like more than 3 ⇒ quality + bring more Guides into

the industry.

A test of 5 shells or something of this sort should be given to assistant guides.

Industry is saturated w/ working guides

Alien thing is one of the biggest phases we have — aliens & over guides. We need an alien guide law. **

non-resident alien — I was a guide. Find 2 - would prevent this.

*Excess tax on a few guides — a head tax — not fair should be repealed. Pay tax for guiding license & business based on.

Interior Wildlife Association of Alaska Conservation: Wise USE of Resources

PHONE (907) 452-3788 • BOX 60255 • FAIRBANKS, ALASKA 99701

BOARD OF DIRECTORS:

Dr. P. B. Haggland, Chairman
H. C. "Bud" Wiese, Treas.
William G. Straecker
Richard A. Burley
William I. Waugaman
Charles L. Gray

March 20, 1980

Representative Alvin Osterback
Co-Chairman, Resources Committee
House of Representatives
Pouch V
Juneau, Alaska 99811

Dear Representative Osterback and Committee Members,

As a former member of the Guide Board, I have an abiding interest in its success. Any objective study or audit of the Board will show that a lot has been accomplished in the face of adversity. The Board, through its dedicated chairman, has accomplished the near-impossible in straightening out and bringing some degree of professionalism to the guiding business.

Because of this, we are distressed that a more positive report regarding the sunset review did not come out of your committee (House Journal, No. 29, 3-13-80). We are particularly concerned about paragraphs 5 and 5a. Surely the clean bill given the Board by the Division of Legislative Audit and by the Senate Commerce Committee this year warrant better than a one year extension by your committee! What long range plans can be carried out with a restriction like that? What further miracles must the Board perform to be given a pat on the back and encouraged rather than have additional road blocks thrown in the way?

Judging from Represenative Rick Halford's request to the AG's office for a legal review of the Board, he may have had an adverse affect on your committee's report. It would appear to us, based on wording in Halford's request, that his personal and family problems with the Board may be coloring his views.

It is rumored in Fairbanks that Representative Halford has had lucrative summer flying contracts for the Game Department. Until this is checked out, we can only question the propriety of such practices by a legislator and wonder about conflict of interest problems--moral, if not legal. Maybe the AG should be asked about this?

The Guide Board needs assistance and encouragement, not unnecessary impediments. Much has been accomplished and much more can be accomplished if the Board is given a chance. It doesn't appear your committee is giving it that chance.

Sincerely,
Interior Wildlife Assoc.

STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

DIVISION OF OCCUPATIONAL LICENSING / POUCH D – JUNEAU 99811

June 29, 1978

Governor Jay Hammond
Office of the Governor, State of Alaska
Juneau, Alaska

Dear Governor Hammond:

Since 1973 I have been chairman of the State Guide Licensing and Control Board. As chairman it has been necessary for me to work closely with the staff in the Licensing Department under the Department of Commerce. Our particular board is handling the correspondence and problems of about 420 registered guides and over 500 assistant guides, plus over 120 Class A guides. There is a wide variety of correspondence to answer. I personally have willingly given generously of my time to see that the questions that come up are properly answered.

My chief reason for writing this letter is to bring to your attention the fact that since my contact with the Department there has been a steady turnover of help in the Department. The turnover in the guide section has been atthe rate of about 1 each year. My observation places the turnover on the other desks representing the other twenty boards at a very similar rate. In all the cases of where the Guide Board had a change of secretarial help the change was related to the workload required and the lack of salary connected with that workload. The amount of time it takes to acquaint a new secretary with the work, and have her assume responsibility of moving the correspondence smoothly, is a major factor in how good, and smoothly, our Board functions. All the girls I have worked with in the Department have been very good and competent. In some cases, however, some have taken more responsibility than others, which certainly brings the workload up to a higher efficiency.

The Administration is now in the process of building up the new budget, and I would sincerely hope the proper agency would evaluate the increased workload that has occurred in the Licensing Division in the last five years, and also a recap of the turn-over of help in this division. If this is recapped I am certain that the rate of turn-over would be many times the state's normal average. That alone should raise some questions that require answers. We are all interested in good government and the way we get it is attention to the state employee problem when needed.

Sincerely yours,

Marcus F. Jensen, Chairman
Guide Licensing and Control Board

Representative Alvin Osterback
Co-Chairman, Resources Committee
House of Representatives
Pouch V
Juneau, Alaska 99811

Dear Mr. Osterback,

As one of 10 guides who spontaneously appeared in Fairbanks for the recent Senate Commerce Committee teleconference on the sunset provision for the Guide Board, I want to tell you that we are all disappointed in the lukewarm endorsement for the Board that came out of your committee. When I say "we", I assume the others will be, too, for they all spoke highly of the Board's accomplishments.

Thanks to the Board, a guide can now concentrate on producing a quality hunt instead of trying to out-fox other guides that are vying for the same area. I would also call your attention to the fact that two of the five biggest vacuum cleaning outlaws have been put out of business by the Board.

I particularly feel it is unfair to only recommend a temporary one year extension of the Board while the Department of Law looks for problems. Instead of causing the Board trouble, you should be praising them for accomplishing the near-impossible.

As for paragraph 5b of your report to the House Speaker, it appears your committee is suggesting a special class of citizen be created to accommodate rural residents. While I won't attempt to probe the constitutionality of this, I would remind you that the function of the Board is to upgrade the guiding profession. Guides have to handle a lot of correspondence, contracts and other business functions that cannot be neglected in a profession.

Now having said that, I would point out that the Board bends over backwards to accommodate native people that genuinely want to get into guiding. Examples would be some of the walrus hunters on St. Lawrence Island and muskoxen guides on Nunivak. At the Board's request, I am presently assisting a native guide from Arctic Village to prepare his case for a guiding area. This fellow, whom I helped into the guiding business many years ago, has failed to show up at Board meetings on several occasions when contenders for the area have been greatly inconvenienced by this fact. Still the Board has kept his application open long after it would

have been closed for any white guide. I don't object to this; I think it is good that the Board goes the extra mile, but I fail to see how you can expect them to do more, by any stretch of the imagination.

I sincerely hope you will take these comments as constructive and informative and see your way clear to give the Board greater assistance, for none of the guides I know want to return to the chaos we had prior to the formation of the Guide Board.

Sincerely,

Chuck Gray

Dear Representative Osterback and Committee Members,

As a former member of the Guide Board, I have an abiding interest in its success. Any objective study or audit of the Board will show that a lot has been accomplished in the face of adversity. The Board, through its dedicated chairman, has accomplished the near-impossible in straightening out and bringing some degree of professionalism to the guiding business.

Because of this, we are distressed that a more positive report regarding the sunset review did not come out of your committee (House Journal, No. 29, 3-13-80). We are particularly concerned about paragraphs 5 and 5a. Surely the clean bill given the Board by the Division of Legislative Audit and by the Senate Commerce Committee this year warrant better than a one year extension by your committee! What long range plans can be carried out with a restriction like that? What further miracles must the Board perform to be given a pat on the back and encouraged rather than have additional road blocks thrown in the way?

Judging from Represenative Rick Halford's request to the AG's office for a legal review of the Board, he may have had an adverse affect on your committee's report. It would appear to us, based on wording in Halford's request, that his personal and family problems with the Board may be coloring his views.

It is rumored in Fairbanks that Representative Halford has had lucrative summer flying contracts for the Game Department. STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

DIVISION OF OCCUPATIONAL LICENSING / POUCH D – JUNEAU 99811

April 22, 1979

Mr. Don Hostak, Director
Division of Occupational Licensing
Department of Commerce and Economics
Juneau, Alaska

Dear Don:

Guide Licensing and Control Board proposed program for Fiscal Year 1981:

Three meetings between Juneau, Anchorage, and Fairbanks, from three to four days for each meeting. A possible meeting at Nome or Kotzebue if the Arctic ;guide kprogram moves ahead on schedule.

If the D-2 land bill changes the status of over one hundred guides as to their exclusive guide areas, I think that the Board will be able to handle this work load within the regular three meetings.

I am going to make a line item report, which pretty well identifies the Board's activities during the 1981 FY:

1. Give written and oral guide examinations. Approximately 20 to 25 guides have been taking this exam yearly.

2. The Board would sit as a jury on violation cases presented by the Attorney General's office.

3. Hear petitions from guides on boundary changes.

4. Hear petitions on transfer of guide areas to other ;qualified guides.

5. Hear testimony for Master Guides.

6. Act on proposed guide areas in Game Units 1 through 4.

7. Hear testimony on impact of D-2 land legislation where guide areas are involved.

8. Testify on S.B. 101 and H.B. 405 requiring changes on the Guide statutes.

9. Make survey of Arctic villages to explain Arctic guide programs, which would involve the taking of marine mammals.

10. Finalize the upgrading of Master guide area maps in the Anchorage office.

08-H8LH

STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

DIVISION OF OCCUPATIONAL LICENSING / POUCH D – JUNEAU 99811

11. Receive applications for areas from new guides. The Board would open the whole state for six months and give everyone an equal chance to file.

12. Request money for a public address system to be used at our public hearings.

The Guide Board will need very few new regulations. The base has been very well established and proven workable. S.B. 101 has passed the Senate and should pass the House. It would repeal Part C, Line 3 in Sec. 08.54.200. This line made it mandatory that the Board revoke a license if guide was convicted of two violations. The Board has this power under another Section, which does not make it mandatory.

I will let your Department add to this report the expense incurred for our meetings and travel.

Yours very truly

Mark Jensen

The Honorable Clem Tillion
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Your Senate Commerce Committee has had under consideration for "Sunset" review the Guide Licensing and Control Board pursuant to your referral under AS 44.66.050 and AS 08.03.010.

In accordance with the statutory requirements, a public hearing was held on the review of this Board, at which written and oral testimony was received. Members of the board testified in person or by teleconference. The committee considered the proposed budget for the board for FY 1981 and particularly examined the performance audit of the activities of the board conducted by the Division of Legislative Audit.

Guided, in part, by this performance review the Committee took into consideration the factors required to be considered under AS 44.66.050(c).

In considering the findings and recommendations of the Division of Legislative Audit as they appear on pages 9 through 12 of the Performance Review of the Guide Licensing and Control Board dated July 17, 1979, which is hereby incorporated by reference as though fully set out herein, the Committee makes the following recommendations:

The Committee finds that it would be in the best interest of the people of the state of Alaska for the board to be continued.

The Committee has not yet reached a concise opinion

regarding the transfer of the Guide Licensing functions to the Department of Public Safety.

The Committee feels that the "transporter laws" are not needed to protect the safety of the public or manage game resources.

The Committee feels it has adequately addressed the recommendations and categories required under AS 44.66.050(d), and recommends that the Guide Licensing and Control Board be continued for another four years, that is, that the repealer with regard to the activities of the board be amended to read June 30, 1984.

A bill will be introduced by the Commerce Committee to implement the recommendations in this report.

Respectfully submitted,

Brad Bradley

Senator Brad Bradley
Chairman
Senate Commerce Committee

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)
Operational funding for the Guide Licensing and Control Board would be required to include the establishment of two positions, an Administrative Assistant I (range 12) and a Clerk-Typist III (range 8) and associated costs. These two positions would be located in Anchorage under the Director of the Fish & Wildlife Protection Division, and would provide administrative and clerical support to the Board. Travel costs are estimated for five members of the Board plus the Administrative Assistant for three meetings (approximately twelve days each) annually. The costs shown for FY81 also include office equipment for the new positions and an audio recording system to be used to document testimony and Board actions in cases of license suspension, revocation, or denial which are litigated. Dollar amounts shown after FY81 include a 7% inflation factor.

If the Board membership is increased, travel costs will be correspondingly higher than the estimates indicated.

JUSTIFICATION:

The Department currently does not have sufficient clerical staff to adequately administer the Guide Licensing and Control Board.

This position will be responsible for all administrative duties required and would process and issue approximately 1,500 guide licenses annually as well as preparing the Guide Register for public distribution annually and maintaining all Board records. The incumbent will also be required to arrange and attend all Board meetings to provide support as necessary and ensure proper documentation of all Board activities.

AA KEY NUMBER _____ COLUMN NO. _____

JUSTIFICATION:

The Department currently does not have sufficient clerical staff to adequately administer the Guide Licensing and Control Board.

This position would be responsible for all clerical support to the Board, including transcriptions of Board meetings for use in possible hearings and litigations. At present, some of this work is being accomplished by the Director's staff to the detriment of other duties and obligations. Approximately 15,000 financial remuneration statements submitted by guides annually are currently being filed by professional level investigators, decreasing their time available for program operations.

Some of the functions, in part, are currently being accomplished by the Dept. of Commerce. When the Board is transferred to this Department, however, clerical support will not be transferred. Denial of this position will result in program ineffectiveness, as professional level staff will have to be diverted to clerical work as indicated above.

IN THE HOUSE BY THE RESOURCES COMMITTEE

HOUSE BILL NO. 1032

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act continuing the existence of the Guide Licensing and Control Board, annulling regulations relating to exclusive guide licensing areas, and amending the law relating to the board's powers and responsibilities; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 08.54.010 is amended to read:

Sec. 08.54.010. CREATION AND MEMBERSHIP OF BOARD. There is created in the division of fish and wildlife protection, Department of Public Safety, the Guide Licensing and Control Board consisting of five [SEVEN] members. Three [NO MORE THAN THREE] members of the board shall be master guides or registered guides actively involved in guiding [HAVE A GUIDE LICENSE]. The other members shall have a general knowledge of the game resources of the state but may not (1) be engaged in guiding; (2) be associated by legal contract with a guide except as a consumer of the services provided by the guide; or (3) have a direct financial interest in a guide business. A minimum of 10 years residence in the state is required for all members of the board.

* Sec. 2. AS 08.540.020 is amended to read:

Sec. 08.54.020. APPOINTMENT AND TERM OF OFFICE. The members of the board shall be appointed by the governor and confirmed by the legislature for staggered terms of three years or until their successors are appointed. [INITIAL TERMS ARE AS FOLLOWS: THREE MEMBERS FOR ONE YEAR, TWO MEMBERS FOR TWO YEARS, AND TWO MEMBERS FOR THREE YEARS.] A member

may be removed at the pleasure of the governor. A person may not be appointed to the board for more than two consecutive terms.

* Sec. 3. AS 08.54.030 is amended to read:

Sec. 08.54.030. CHAIRMAN OF BOARD. The board shall annually elect one of its members as chairman and one of its members as vice-chairman. A person elected as chairman may not serve for more than two consecutive years.

* Sec. 4. AS 08.54.170(a) is amended to read:

(a) License fees for engaging in the profession of guiding are:

(1) master guide license, biennial [ANNUAL]. . . $200 [$75]

(2) registered guide license, biennial [ANNUAL]. $200 [75]

(3) class-A assistant guide, biennial [ANNUAL] . $ 50 [15]

(4) assistant guide license, biennial [ANNUAL] . $ 30 [10]

* Sec. 5. AS 08.54 is amended by adding a new section to read:

Sec. 08.54.182. EXAMINATION. The qualification examination required to be passed by persons seeking licensure under AS 08.54.100 and 08.54.110 shall be administered twice a year in both Juneau and Anchorage.

* Sec. 6. AS 08.54.190(a) is amended to read:

(a) A master guide, registered guide, class-A assistant guide, or assistant guide [OR TRANSPORTER] license expires on December 31 of the calendar year following the calendar year in which the license was issued [FOLLOWING ISSUANCE].

* Sec. 7. AS 08.54.190(b) is amended to read:

(b) No license may be issued to a class-A assistant guide or assistant guide who has failed to renew his license for four [TWO] consecutive years unless he again meets the qualifications for initial issuance of the license.

* Sec. 8. AS 08.54.200(a) is amended to read:

(a) The board shall hold a hearing to determine if disciplinary action is necessary if

(1) complaints concerning the licensee have been filed with the board from three or more clients of separate parties within the past five years; or

(2) [A LICENSEE HAS BEEN CHARGED WITH A VIOLATION OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS; OR]

(3) a licensee has been convicted of a violation of federal or state sport fish, game or guide statute or regulation.

* Sec. 9. AS 08.54.200(c) is amended to read:

(c) After a hearing, the board shall revoke, suspend, or deny renewal of a license if the board finds that the licensee

(1) does not meet the qualifications specified by statute or regulation for the class of license held;

(2) is incompetent as a master guide, registered guide, class-A assistant guide, or assistant guide;

(3) has been convicted of two violations of federal or state sport fish, game or guide statutes or regulations within the past five years.

* Sec. 10. AS 08.54.210(a)(1) is amended to read:

(1) a master guide, registered guide, class-A assistant guide, or assistant guide [OR TRANSPORTER] to fail to timely report to the Department of Public Safety, division of fish and wildlife protection, and in no event later than 30 days, violations by a client of a state fish, game or guiding statute or regulation;

* Sec. 11. AS 08.54.210(a)(2) is amended to read:

(2) a master guide, registered guide, class A assistant guide, or assistant guide [OR TRANSPORTER] to aid the commission of a violation of this chapter or of AS 16.05 or a regulation adopted [PROMUL-

GATED] under either chapter, or permit the commission of a violation in his sight without attempting to prevent it, short of using force, and without reporting it;

* Sec. 12. AS 08.54.210(a)(4) is amended to read:

(4) a person to advertise as or represent himself to be a licensed master guide, registered guide, class-A assistant guide, or assistant guide [OR TRANSPORTER] without being currently licensed, or to falsely advertise services;

* Sec. 13. AS 44.41.020 is amended to read:

Sec. 44.41.020. DUTIES OF DEPARTMENT. (a) The Department of Public Safety shall administer functions relative to the protection of life and property.

(b) The Department of Public Safety shall administer the Guide Licensing and Control Board established under AS 08.54.010.

* Sec. 14. AS 08.03.010(c) is amended by adding a new paragraph to read:

(2) Guide Licensing and Control Board (AS 08.54.010) -- June 30, 1984.

* Sec. 15. The terms of the members of the Guide Licensing and Control Board appointed under AS 08.54.020 terminate on the effective date of this Act. The governor shall appoint members to the board for the following initial terms: one member for one year, two members for two years, and two members for three years.

Repeal existing guide areas.

* Sec. 16. 12 AAC 38.051 - 12 AAC 38.058 are annulled.

* Sec. 17. AS 08.01.010(20); AS 08.03.010(b)(7); AS 08.54.040(a)(8), 08.54.100(5), 08.54.110(12), 08.54.142, 08.54.144, 08.54.146, 08.54.170(c), 08.54.240(5); and AS 16.05.340(e) are repealed.

* Sec. 18. This Act takes effect immediately in accordance with AS 01.10.-070(c).

3/9/80
Ammendments from House Resources.

AMENDMENT TO HOUSE BILL 1032

Delete Repeal in Sect 17 of bill

Sec. 4 AS 08.54.040 Powers and duties (a) is amended to read

(8) [ESTABLISH A QUOTA OF LICENSED OPERATING GUIDES WHO MAY OPERATE WITHIN DESIGNATED GEOGRAPHICAL GAME UNITS OR SUBUNITS OF THE STATE AND PROVIDE FOR AN EQUITABLE AND REASONABLE PROCEDURE FOR LIMITING THE NUMBER OF GUIDES TO THAT QUOTA; PREFERENCE SHALL BE GIVEN TO QUALIFIED, AVAILABLE AND WILLING LICENSED GUIDES WHO RESIDE WITHIN THE DESIGNATED GAME UNIT OR SUBUNIT.] the authority of the board does not extend to the creation of exclusive use areas for guides.

Sect 5
New section to read:

AS 08.54.065 Quorum. A majority of the members of the board constitutes a quorum for the transaction of business, for the performance of any duty, and for the exercise of any power. However, a majority of the full board membership is required to carry all motions, regulations and resolutions.

SUBJECT: Section-by-section analysis of SB 574 dealing with the Guide Licensing and Control Board (Work Order No. 8526)

TO: Senator Brad Bradley
Chairman, Senate Commerce Committee

FROM: Tamara Brandt Cook TBC
Legislative Counsel

You have requested a section-by-section analysis of Senate Bill 574 entitled "An Act continuing the existence of the Guide License and Control Board and amending the law relating to its powers and responsibilities; and providing for an effective date."

Section 1. The Guide Licensing and Control Board is established in the division of fish and wildlife protection, Department of Public Safety. This amendment ensures that three members of the board will be involved in guiding and that the remaining four members will have no involvement in the guiding business.

Section 2. This amendment provides that members of the board may not be appointed for more than two consecutive terms. Since a term is for three years, a person would have to wait three years before being reappointed to the board after serving two terms. There is no limitation on the total number of terms which a person may serve on the board.

Section 3. The board must elect a chairman and a vice-chairman annually.

Section 4. This section generally increases fees required for licenses to engage in the profession of guiding.

Section 5. Persons seeking licenses must pass an examination, and that the examination shall be held twice a year at both Juneau and Anchorage for the convenience of applicants.

Section 6. This section is amended to eliminate a licensure provision for transporters and to assure that a license is valid for at least one full year. Under existing law all licenses expire on December 31st following issuance regardless of when they were issued.

Section 7. An assistant guide license which has not been renewed for four years may not then be renewed until the applicant meets the qualifications for an initial license. Under the existing statute only a two-year grace period is provided.

Section 8. Under existing law the board is required to hold a hearing to consider disciplinary action if it receives complaints from three or more separate parties which a licensee has provided services to. The amendment provides a time period of five years within which these complaints must be received before the board is required to hold a disciplinary hearing. This section is also amended so that the board is no longer obligated to hold a disciplinary hearing when a licensee is merely charged with a violation of federal or state sport fish, game or guide statutes or regulations. Upon a conviction, however, the board is still required to hold a disciplinary hearing.

Section 9. The board is permitted the option of revoking, suspending, or denying renewal of a license if the board finds that the licensee does not meet certain requirements. Under existing law the board was required to revoke the license upon such a finding. This section is also amended to provide that specified disciplinary action must be taken by the board only when a licensee has been convicted of two violations of federal or state sport fish, game or guide statutes or regulations within the past five years. Under current law, two violations trigger mandatory disciplinary action regardless of the time period between the violations.

Section 10. This section is amended to remove reference to a transporter because transporters will no longer be licensed under this act.

Section 11 A reference to a transporter is deleted.

Section 12 A reference to a transporter is deleted.

Section 13 A new duty of the Department of Public Safety shall be the administration of the Guide License and Control Board.

Section 14. June 30, 1984 is set as the termination date for the Guide License and Control Board.

Section 15. This section repeals provisions which are inconsistent with this act.

AS 08.01.010(20) removes the Guide Licensing and Control Board from the list of boards to which Chapter 01 applies, since this board will no longer be administered by the Department of Commerce and Economic Development;

AS 08.03.010(b)(7) repeals the sunset provision for this board;

AS 08.54.100(5) eliminates the board's discretion to set qualifications in addition to those established by statute for licensure of master guides;

AS 08.54.110(12) eliminates the board's discretion in establishing qualifications for registered guide licenses in addition to those established by statute;

AS 08.54.142 repeals the section dealing with licensure of transporters;

AS 08.54.144 repeals the restrictions on transportation of hunters;

AS 08.54.146 repeals the section requiring preparation and filing of transporter reports;

AS 08.54.170(c) eliminates the license fee for a transporter;

AS 08.54.240(5) removes the definition of "transporting" and "activity of transporting";

AS 16.05.340(e) eliminates fees charged to master guides and registered guides for the taking of specified game animals;

Section 16. This act takes effect June 30, 1980, the date on which the board is scheduled to terminate.

If you have any further questions, please contact me.

LEGISLATIVE AFFAIRS AGENCY

MEMORANDUM October 11, 1979

SUBJECT: Sunset (Work Order Number 7408)

TO: Representative Fred E. Brown

FROM: David T. Walker
Legislative Counsel

You have requested an opinion as to the status of statutory provisions relating to the responsibilities of a board or commission terminated under the provisions of AS 44.66.

I recall discussion of that issue during the hearings and meetings involved with setting up the "sunset" concept and legislation. The legislature intentionally modeled this portion of our law after the Colordao statute (CS 24-34-104). Under this version of sunset the statutory provisions relating to the responsibilities of a board or commission are rendered ineffectual by the termination of the board or commission. It is expected that the legislature would subsequently act to expressly repeal those statutes. The revisor's bill is considered a likely vehicle for that purpose.

Under the sunset concept the legislative committee of reference identifies problems and needs addressed by board and agency programs and evaluates among other things, whether or not continued regulation of the activity is in the public interest. One purpose of sunset legislation is to subject the programs and activities of all agencies, boards and commissions to a regular system of legislative scrutiny. When the investigating committee determines that an agency activity should be modified, or the activity continued but transferred to another agency, it introduces a bill to effect the recommended change. It recommends a measure of deregulation of an activity by doing nothing - allowing the regulating agency to terminate under the terms of AS 44.66.

If, for example, the legislature allowed the Alcoholic Beverage Control Board to terminate and no additional legislation was introduced to transfer responsibilities, etc., I believe a person could sell alcoholic beverages without a license but that it would remain a misdemeanor to sell alcoholic beverages to a person under the age of 19 years.

It is my opinion that statutes which depend upon the exercise of a power of a board or commission for their execution are rendered ineffectual by the termination of that board or commission under AS 44.66.

AVRUM M. GROSS
ATTORNEY GENERAL

Status of ABC Board in 1980

By:
Rodger W. Pegues
Assistant Attorney General

You have asked if it is within the scope of the Sunset Law to continue the normal exercise of the powers of the ABC Board at least until March 1980 and then, absent any statutory resurrection, phasing it out.

We believe that you are acting within the scope of the law.

The 1977 Legislature enacted a sunset law for two classes of agencies. §§ 2 and 3, ch. 149, SLA 1977. One section applies to 22 expressly designated professional and occupational licensing boards. It has been codified as AS 08.03.010. The other applies, first, to five expressly designated regulatory commissions and then to certain other agencies. It is codified as AS 44.66.010, 020. The latter, over a period of years, provides for review and potential termination of all state agencies and institutions. */ The ABC Board is one of the regulatory agencies specified in AS 44.66.010.

Both provide for "termination" on dates certain, e.g., June 30, 1979, in the case of the ABC Board. Both provide for a terminated agency to "continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs." Compare AS 08.03.010(c) with AS 44.66.010(b). It is at this point, however, that an apparent distinction arises.

Under AS 08.03.010(c), during its year of continued "existence," the terminated agency's powers expressly remain undiminished. A similar provision does not occur in AS 44.66.010(b). It is silent on the matter. Ordinarily,

---

*/ Because they are constitutionally established or mandated, certain agencies cannot be abolished, e.g., the Alaska Legislative Council, Alaska Const., art. II, § 11.

when two provisions are enacted together on related matters and are distinguishable in this manner, the distinction is considered to intend a substantial difference, i.e., here, that agencies terminated under AS 44.66.010 do not continue to possess their powers during this closing-out year. There is no reason, however, to perceive such a difference here. The situation is the same for both classes of agencies and for the objects of regulation and public protection. Indeed, AS 08.03.010(d) provides that the provisions of AS 44.66.050 govern the termination of agencies under AS 08.03, a rather persuasive indication that the same rules are to apply to both classes of agencies.

Our conclusion is, therefore, that the difference in wording is inadvertant and that there was no intention to strip the regulatory boards terminated under AS 44.66 of their powers during the year in which they are closing out. If the boards are not resurrected during that last year, then their powers cease to exist, and they cannot -- absent new legislation -- be delegated to the departments in which the boards were located.

CS FOR SENATE BILL 574

08.54.010
p.1, L.12/14

SECTION 1. THE GUIDE LICENSING AND CONTROL BOARD IS ESTABLISHED SOLELY IN THE DIVISION OF FISH AND WILDLIFE PROTECTION, DEPARTMENT OF PUBLIC SAFETY. CURRENTLY DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT (OCCUPATIONAL LICENSING) AND DIVISION OF PUBLIC SAFETY (FISH AND WILDLIFE PROTECTION) HAVE RESPONSIBILITY FOR STAFF SUPPORT. THIS

p.1, L.15/20

AMENDMENT ALSO ENSURES THAT THREE MEMBERS OF THE BOARD WILL BE ACTIVELY INVOLVED IN GUIDING AND THE REMAINING FOUR WILL HAVE NO INVOLVEMENT IN THE GUIDING BUSINESS.

08.540.020
p.1,L.28/29

SECTION 2. PROVIDES THAT MEMBERS OF THE BOARD MAY NOT BE APPOINTED FOR MORE THAN TWO CONSECUTIVE TERMS. A TERM IS FOR THREE YEARS.

08.54.030
p.2, L.2/5

SECTION 3. THE BOARD MUST ELECT A CHAIRMAN AND A VICE-CHAIRMAN ANNUALLY. THE CHAIRMAN MAY NOT SERVE FOR MORE THAN TWO CONSECUTIVE YEARS. ADEQUATE ROTATION WILL ASSURE A MORE RESPONSIVE BOARD TO THE PUBLIC INTEREST.

08.54.070(a)
p.2, L.8/11

SECTION 4. THIS SECTION GENERALLY INCREASES FEES REQUIRED FOR LICENSES TO ENGAGE IN THE PROFESSION OF GUIDING.

08.54.182
p.2, L.13/16

SECTION 5. PERSONS SEEKING LICENSES MUST PASS AN EXAMINATION, AND THAT THE EXAMINATION SHALL BE HELD TWICE A YEAR AT BOTH JUNEAU AND ANCHORAGE FOR THE CONVENIENCE OF APPLICANTS.

08.54.190(a)
p.2, L.18/20

SECTION 6. THIS SECTION IS AMENDED TO ELIMINATE A LICENSURE PROVISION FOR TRANSPORTERS AND TO ASSURE THAT A LICENSE IS VALID FOR AT LEAST ONE FULL YEAR. UNDER EXISTING LAW ALL LICENSES EXPIRE ON DECEMBER 31 FOLLOWING ISSUANCE REGARDLESS OF WHEN THEY WERE ISSUED. PERSONNEL IN THE DEPARTMENT OF PUBLIC SAFETY, DIVISION OF FISH AND WILDLIFE PROTECTION, CONSIDER THE "TRANSPORTER LAWS" CONFUSING AND DIFFICULT TO ENFORCE. IN ADDITION, WE FOUND THE INFORMATION AND REPORTS THAT TRANSPORTERS ARE REQUIRED TO FILE ARE NOT BEING USED AND ARE NOT NEEDED TO MANAGE THE GAME RESOURCES OF THE STATE. FURTHERMORE, AIR TRANSPORTERS' FLYING SAFETY QUALIFICATIONS AND AIRCRAFT SAFETY ARE REGULATED BY THE FEDERAL AVIATION ADMINISTRATION.

08.54.190(b)
p.2, L.24

SECTION 7. AN ASSISTANT GUIDE LICENSE WHICH HAS NOT BEEN RENEWED FOR FOUR YEARS MAY NOT THEN BE RENEWED UNTIL THE APPLICANT MEETS THE QUALIFICATIONS FOR AN INITIAL LICENSE. UNDER THE EXISTING STATUTE ONLY A TWO-YEAR GRACE PERIOD IS PROVIDED.

08.54.200(a)
p.3, L.2
p.3, L.6

SECTION 8. UNDER EXISTING LAW THE BOARD IS REQUIRED TO HOLD A HEARING TO CONSIDER DISCIPLINARY ACTION IF IT RECEIVED COMPLAINTS FROM THREE OR MORE SEPARATE PARTIES TO WHICH A LICENSEE HAS PROVIDED SERVICES. THE AMENDMENT PROVIDES A TIME PERIOD OF FIVE YEARS WITHIN WHICH THESE COMPLAINTS MUST BE RECEIVED BEFORE THE BOARD IS REQUIRED TO HOLD A DISCIPLINARY HEARING. THIS SECTION IS ALSO AMENDED

SO THAT THE BOARD IS NO LONGER OBLIGATED TO HOLD A DISCIPLINARY HEARING WHEN A LICENSEE IS MERELY CHARGED WITH A VIOLATION OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS. UPON A CONVICTION, HOWEVER, THE BOARD IS STILL REQUIRED TO HOLD A DISCIPLINARY HEARING.

08.54.200(c) p.3, L.9 p.3, L.16 SECTION 9. THE BOARD IS PERMITTED THE OPTION OF REVOKING, SUSPENDING, OR DENYING RENEWAL OF A LICENSE IF THE BOARD FINDS THAT THE LICENSEE DOES NOT MEET CERTAIN REQUIREMENTS. UNDER EXISTING LAW THE BOARD WAS REQUIRED TO REVOKE THE LICENSE UPON SUCH A FINDING. THIS SECTION IS ALSO AMENDED TO PROVIDE THAT SPECIFIED DISCIPLINARY ACTION MUST BE TAKEN BY THE BOARD ONLY WHEN A LICENSEE HAS BEEN CONVICTED OF TWO VIOLATIONS OF FEDERAL OR STATE SPORT FISH, GAME OR GUIDE STATUTES OR REGULATIONS WITHIN THE PAST FIVE YEARS. UNDER CURRENT LAW, TWO VIOLATIONS TRIGGER MANDATORY DISCIPLINARY ACTION REGARDLESS OF THE TIME PERIOD BETWEEN THE VIOLATIONS.

08.54.210(a)(1) p.3, L.20 SECTION 10. THIS SECTION IS AMENDED TO REMOVE REFERENCE TO A TRANSPORTER BECAUSE TRANSPORTERS WILL NO LONGER BE LICENSED UNDER THIS ACT. SEE SECTION 6.

08.54.210(a)(2) p.3, L.26 SECTION 11. A REFERENCE TO A TRANSPORTER IS DELETED.

08.54.210(a)(4) p.4, L.5 SECTION 12. A REFERENCE TO A TRANSPORTER IS DELETED.

44.41.020 p.4, L.11 SECTION 13. A NEW DUTY OF THE DEPARTMENT OF PUBLIC SAFETY SHALL BE THE TOTAL ADMINISTRATIVE STAFF SUPPORT OF THE GUIDE LICENSE AND CONTROL BOARD.

08.03.010(c)
p.4, L.15

SECTION 14. JUNE 30, 1984 IS SET AS THE TERMINATION DATE FOR THE GUIDE LICENSING AND CONTROL BOARD.

SECTION 15. THIS SECTION REPEALS PROVISIONS WHICH ARE INCONSISTENT WITH THIS ACT.

AS 08.01.010(20) REMOVES THE GUIDE LICENSING AND CONTROL BOARD FROM THE LIST OF BOARDS TO WHICH CHAPTER 01 APPLIES, SINCE THIS BOARD WILL NO LONGER BE ADMINISTERED BY THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT;

AS 08.03.010(B)(7) REPEALS THE SUNSET PROVISION FOR THIS BOARD;

AS 08.54.100(5) ELIMINATES THE BOARD'S DISCRETION TO SET QUALIFICATIONS IN ADDITION TO THOSE ESTABLISHED BY STATUTE FOR LICENSURE OF MASTER GUIDES;

AS 08.54.110(12) ELIMINATES THE BOARD'S DISCRETION IN ESTABLISHING QUALIFICATIONS FOR REGISTERED GUIDE LICENSED IN ADDITION TO THOSE ESTABLISHED BY STATUTE:

AS 08.54.142 REPEALS THE SECTION DEALING WITH LICENSURE OF TRANSPORTERS;

AS 08.54.144 REPEALS THE RESTRICTIONS ON TRANSPORTATION OF HUNTERS;

AS 08.54.146 REPEALS THE SECTION REQUIRING PREPARATION AND FILING OF TRANSPORTER REPORTS;

AS 08.54.170(c) ELIMINATES THE LICENSE FEE FOR A TRANSPORTER;

AS 08.54.240(5) REMOVES THE DEFINITION OF "TRANSPORTING" AND "ACTIVITY OF TRANSPORTING;"

AS 16.05.349(e) ELIMINATES FEES CHARGED TO MASTER GUIDES AND REGISTERED GUIDES FOR THE TAKING OF SPECIFIED GAME ANIMALS;

Section 16. THIS ACT TAKES EFFECT IMMEDIATELY.

AUDIT REPORTS ---

A PREFORMANCE REVIEW OF THE BOARD OF REGISTRATION FOR ARCHITECTS, ENGINEERS AND LAND SURVEYORS
May 11, 1979

Divison of Legislative Audit, Att: Gerald L. Wilkerson
State Office Building
Pouch W, State Capitol, Juneau, Alaska 99811 (465-3830

STATEMENT OF THE LEGISLATIVE CHAIRMAN

ALASKA HAIRDRESSERS AND COSMETOLOGISTS ASSOCIATION

RE BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS

Mr. Chairman and members of the Committee, my name is Wilma Raduege and I am a licensed cosmetologist since 1964. The Alaska Hairdressers and Cosmetologists Association and I appreciate the opportunity to testify before you on the subject of whether or not the Board of Hairdressing and Beauty Culture Examiners should continue in existence.

To begin, our Association fully supports the principle of legislative review of the operations of all boards and commissions created by the Legislature for the purpose of eliminating those boards and commissions whose continued existence is not in the public interest. At the same time, we believe that when it becomes apparent that a regulatory agency is not founded upon an adequate statute, or has not been properly administered, the first consideration should be whether regulation of the particular profession should be abandonned, or whether the enabling statute and the administrative functions of the agency ought to be improved. Even before reaching that point, it should be determined whether regulation of a particular occupation is or is not in the public interest. That consideration, in turn, includes, in part, the three points requiring determination as set out at page 7 of the report of the Division of Legislative Audit while those three points for consideration are fairly stated by the Report, the Alaska

Hairdressers and Cosmetologists Association disagrees with conclusions reached by the Report to the extent that it recommends termination of the Board and and discontinuance of licensure. Other recommendations of the Report will be addressed separately. Before considering the three points raised by the Report for determination, let us recognize that the Board has not been, and is not a financial burden upon the State of Alaska. In a Memoradum of October 31, 1978, the Division of Occupational Licensing reported that the previous year the Board of Hairdressing and Beauty Culture examiners had a revenue of $21,821.00 and expenditures of $4,823.14. Assuming the accuracy of that report, the State Treasury benefitted by about $17,000.00.

In another report of June 4, 1979, the Division of Occupational Licensing advised the State Legislative Chairman that during the period of July 1, 1978 to April 30, 1979, and thus not a full year's report, revenues amounted to $10,017.00, and expenditures were in the sum of $4,361.32. Again, a clear profit for the State Treasury and I suspect that a report for the entire year might well be much closer to the previous one. Thus, it is safe to conclude that regulation of the field of hairdressing and cosmetology does not result in a financial drain upon the taxpayers of the State of Alaska.

The first point for consideration stated by the report is "the unlicensed practice of cosmetology poses a serious threat to the health, safety, or economic well-being of the consuming public". The question is basically treated in the second

paragraph at page 8 of the report. Those comments are to the effect that:

(1) Cosmetological products are manufactured outside of Alaska.

(2) Their sale and distribution is controlled by the federal departments of Health, Education and Welfare, Public Health Service, and Food and Drug Administration.

(3) The labelling of the products contains instructions for their use and precautions to be observed.

(4) That most manufacturers have persons on their staff who specialize in product liability to ensure that the products' labels comply with federal regulations and can be read and understood by ordinary individuals.

The conclusion reached is that if a cosmetologist, licensed or unlicensed, followed the instructions and precautions on the label of professional cosmetics, the potential harm to the consumer would be minimal. Mr. Chairman, the Report is submitted by a Certified Public Accountant. Conceivably, it could be argued that if the public read the applicable statutes and regulations written by legislators and qualified government employees, they could do their own financial reports and there should be no need for C.P.A.s.

As any members of the Committee who have occasion to watch television know, there is a national federal campaign to encourage members of the public to read labels because it is a commonly well-established fact that people either do not read labels, or do not read them carefully.

It is a fact that regulation of the Hairdressing and Cosmetology profession exists not only throughout the United States, but in many other countries as well. Such almost universal practice is not the result of a strong lobby since, as the members of the Committee know, they have never been approached by a lobbyist on behalf of this profession at any time for the good reason that we have never had one. In order to agree with the conclusions of the Report, one would also have to conclude that the legislatures of the various states and foreign nations who have adopted regulation of the profession have all done so in error. Nothing could be further from the truth.

The preparer of the Report inquired regarding complaints or investigations from the Federal Drug Administration, Seattle field office. Apparently, they did not bother to check with the federal departments of Health, Education and Welfare, Public Health Service, and Food and Drug Administration at the top level.

The fact that the FDA field office indicated infrequent need for investigation can be indicative of many things. Most members of the public are not in the habit of turning to government agencies to lodge their complaints. The home user of cosmetological products who winds up with unsatisfactory, or even harmful results, is most likely to blame herself or himself. If the individual resorted to the services of an unlicensed person, it was probably done at home by a friend and complaints to federal agencies would be most unlikely to follow.

The Report is completely silent on the question of law suits

filed, although such may be the course most likely followed by an injured person whose first inclination would be to see an attorney, and the attorney would be more likely to file suit than to complain to any governmental agency. According to the experience of members of this Association, most instances of unsatisfactory results or harmful results are of limited monetary potential by way of claims, so that cases are most often either abandoned or settled without litigation or any report to any state or federal agency. The mounting and unreachable cost of litigation for most people in most instances is only too well known. It is specifically in this area of damages amounting to a value of a few hundred to a few thousand dollars that the need for regulation is most readily apparent to prevent harm that may not be realistically compensable through our expensive judicial system.

The very existence of regulation assures the public of trained specialists and of clean and sanitary beauty salons where members of the public can receive the beauty treatment they require with the peace of mind of knowing that the work is to be performed in a proper manner and that their hair, scalp, skin and eyes are in relative safety.

In addition to the health and sanitary aspects, one should consider the psychological importance of appearance to the patrons of beauty salons. Whether it be for social, business, or romantic reasons, or even just personal satisfaction, patrons of beauty salons, particularly women, are willing to spend large amounts of money in order to achieve the desired appearance.

without the training and education required by the regulatory statute, and without the examination and licensing, it would be impossible for the consumer to know that the operator is well trained. Please try to imagine the dispair and mortification of the lady who is invited to a legislative social function, a Governor's ball, or dinner with the boss or her spouse's boss, or for an important date and who finds herself either physically harmed, or unattractively coiffed, having gone to an unlicensed hairdresser after work on the evening in question. Isn't that economic and psychological interest also to be protected?

Mr. Chairman and members of the Committee, as you well know, there is both national and state interest in the examination and licensing of automobile mechanics to protect the consumer of those services for similar safety and economic consumer protection reasons.

You will note that there are four appendices to the Report. Appendix A indicates a deficit of revenues over expenditures. It is unaudited and reportedly, was conducted in a rather haphazard manner. It also appears to be contrary to the two reports I have mentioned earlier. Assuming the truth of Appendix A, a readjustment of fees charged to the profession can easily take care of that problem. Appendix B indicates that there are 1,678 current licenses. However, Appendix D shows that only 225 questionaires were mailed to regulated persons. How those were chosen, and whether they are representative is unknown.

Appendix C consists of a questionaire sent to Board members. It appears that there was not a single attempt made at obtaining

any reaction from the public served. It is stated at page 10 of the Report that regulation of the practice of cosmetology was instituted to meet a public need. That is, to protect the health, safety and economic welfare of Alaskans. The Report recommends that if the Board is to be continued in existence, there should be two members of the public placed on the Board. But no sampling of the feeling of the public concerning de-regulation was even sought.

Mr. Chairman, there are cosmetological products advertised on television, radio, newspapers and magazines, and products are available on the shelves of supermarkets and drug stores. If self help or mutual help among unlicensed persons in the use of those products were the preferred method of the using public, we would not have 1,678 current licenses in Alaska for the good reason that beauticians could not afford to stay in business. The very existence of the 229 owner-operator licenses, 219 manager-operator licenses, and other businesses listed give you a strong indication of the feelings of the using public. It is only reasonable to assume that the many thousands of customers served by those businesses and those operators would resort to self help and mutual help with the less expensive use of off-the-shelf products if it were not for their concern over apearance, confidence in the training of the operators, and concern for their health and safety.

The second point raised at page 7 of the report is that "potential users can be expected to possess the knowledge needed to evaluate the qualifications of those offering the service."

There is not one word of commentary in the report to support such a conclusion. My previous comments on point number 1, however adequately answer the second point in the negative.

The third question raised is whether "benefits to the public clearly outweigh any potential harmful effects, such as a decrease in the numbers of cosmetologists or higher cost of service, created by regulation". Again, that point is not discussed in the commentary that follows in the report. One wonders why the questions are raised if they are not answered by the report.

I cannot furnish you with any exact numbers, but out of a population of approximately 200,000 people in the State of Alaska, I would venture that more than half consist of persons who do not frequent beauty salons. Out of the balance of the population, it must be assumed that a fair percentage are users of self help or mutual help with off-the-shelf products, which should leave us with an average of approximately one licensed operator for 30 to 40 consumers. The obvious conclusion is that the number of cosmetologists is obviously more than adequate, and that such level of competition assures the public of competitive pricing.

The analysis of public need in the report addresses well deserved criticism of the administration by the Board and by the Division of Occupational Licensing. Considerable improvement of the statute and of the regulations are needed. Most of the recommended changes are sound.

Other speakers will make more specific recommendations, but

on behalf of the Alaska Hairdressers and Cosmetologists Association, I urge this committee and the legislature not to throw out the baby with the bath water. The system is far from perfect. Part of the problem resides with the Board, but part of the problem resides with an inadequate statute and with inadequate support and cooperation by the Attorney General's office in assisting in preparing amendments to the statutes and to the regulations, and inadequate support and cooperation by the Division of Occupational Licensing as pointed out by the report, and a total lack of updated regulations and inspections by the Department of Health and Social Services. The public need exists. It is up to you, members of the legislature, to create a better vehicle with better support and better cooperation for use by an updated Board. Discontinuance of regulation and abandonment of licensing are definitely not the answer. Thank you very much for your time and attention.

TESTIMONY OF DOROTHY NEAL

RE BOARD OF HAIRDRESSERS AND BEAUTY CULTURE EXAMINERS

Mister Chairman and Members of the Committee, my name is Dorothy Neal, and I am a licensed and practicing cosmetologist. I appreciate the opportunity to appear and testify before you on the subject of the proposed discontinuance of regulation and licensure of the hairdressers and cosmetologists in Alaska. I fully endorse the position of the Alaska Hairdressers and Cosmetologists Association in favor of continued regulation and licensing.

Rather than repeat testimony covered by others, I would address myself to some of the questions on occupational licensing indicated by the Council of State Governments in the pamphlet entitled Questions a Legislator Should Ask, as they apply to the Board of Hairdressing and Beauty Culture Examiners.

1. There is no indication whatsoever that the public has been harmed because this occupational group has been regulated. The statute has been in effect for many years, and I am not aware of any outcry from any part of the public served against the regulation or licensure of this profession.

2. Who are the users of services offered? They are members of the general public who lack the knowledge necessary to evaluate the qualifications of those offering the service. The person who enters a beauty salon would have no way of determining the technical knowledge and the experience of the operator without the existing regulation. An unsubstantiated claim of knowledge or experience by the operator, in most instances, could not be verified.

3. Are there institutions or qualified professionals who

have the knowledge to evaluate the qualifications? The answer to that question is that the Alaska Hairdressers and Cosmetologists Association does have such persons, and the members of the State Board are regularly members of the Association. However, the Association is not, at this time, structured and prepared to handle such regulation, although it is conceivable that it could be so geared in the future if it were to receive the kind of official recognition that the Board of Governors of the Alaska Bar Association has, as a State agency.

4. What is the extent of autonomy of practitioners? There is a considerable degree of independent judgment required of practitioners in the choice of products to be used and in the treatment required for a particular customer, as well as in the styling most appropriate for a particular customer.

Unquestionably, a considerable amount of skill and experience are required in making these judgments. That is one of the reasons why proof of training, and the passing of an examination are required in order to permit one to be licensed.

While many practitioners customarily work on their own and without supervision, many of the practitioners who are new in the field gain much by working under the supervision and guidance of more experienced practitioners. However, no such supervision or guidance is required by any of the existing statutes or regulations. Once licensed, a practitioner is able to perform most of the required services, but may not be able to perform them as well as someone with more experience. Thus, such supervision and guidance are a matter of choice exercised by

employers and by new practitioners who, rather than work independently, prefer to work in an establishment where the owner or the manager can help the new person in gaining experience in the field. Again, the parallel can be made with the attorney admitted to practice who, usually, finds it most beneficial to work for and under the supervision and guidance of more experienced attorneys, although he or she has the legal right to practice independently.

5. What efforts have been made to address the problems? Unfortunately, too little has been done. The Board and the State administration have been lax in promulgating adequate regulations and seeking meaningful amendments to the statutes. Still, what has been done has served the public well to date. The vehicle can be improved or replaced with a new model, but there is no indication that we should do without some means of testing, regulating, inspecting and licensing.

6. There has been no suggestion of unfair and deceptive trade practices. Injunctions, cease and desist orders, etc. require some authority to initiate them. A regulatory authority such as the Board should properly be the agency to initiate such action with better support from the Department of Commerce and from the Attorney General's office than have been available in the past.

7. The alternatives indicated at page 16 of the pamphlet are clearly not applicable. We are not talking about licensing a restaurant rather than cooks or waiters or waitresses. Certification of practitioners may have some value, but the

certificating agency again should be a competent agency for the purpose such as the present Board. As a matter of fact, that is largely what the present licensing accomplishes. The law prohibits persons from engaging in the practice of hairdressing or beauty culture for compensation or other reward. Self-help and mutual help without compensatior are not prohibited, and are commonly practiced by those members of the public who purchase cosmetological products from retail establishments. It is the experience of every busy shop that every week and sometimes a number of times in a week customers come in for corrective treatment to undo the bad job performed either by themselves or by a friend with off the shelf products from the drugstore or the supermarket. If the customer did not know that he or she was now turning to a trained capable operator, who would that person turn to? In this connection, those very numerous instances of dissatisfied users of off the shelf products wind up in a beauty salon and do not become statistics in the books of the FDA or any other state or federal office. The professional cosmetologist took care of the problem and there was no complaint registered or litigation that followed.

8. Does the public benefit from regulation of the occupation? We submit that the answer to that question is yes because licensure helps the public identify qualified practitioners and regulation assures the public of an acceptable level of sanitation in the establishments rendering the service. Further, the regulation assures that the practitioners are competent because of the fact that they have received formal

education covering aspects of dermatology, hair structure, properties of the chemicals used and how to use them, principles of beauty treatments and hair styling, as part of a total of 2000 hours of training which includes a well defined panoply of practicum.

9. As to the length of training and experience required, there exists some variation from state to state, but no suggestion has been made by anyone that the requirements in Alaska are of excessive duration when compared with other states.

10. In the area of complaints from the public, improvements can be made by way of both state and institutional advertising to let the public know where and how they may lodge complaints.

11. It should be obvious that our licensing procedures do not exist to restrict entry into the field by qualified persons. During the fiscal year 1978-1979, there were four one-day examinations given. Out of 90 applicants, there were 74 students, 11 manicurists and 5 instructors, and 99 persons were admitted by reciprocity for a total of 189 new licenses issued during that year. The average score of persons examined was 83.6. With approximately 1700 licensed persons in the State of Alaska, there can be no question but a highly competitive market exists and grows, and that the public has a wide choice of qualified persons from which to choose.

In conclusion, Mr. Chairman, it appears that all or most of the points raised by the Council of State Governments for consideration by legislators are clearly answered in favor of continuation of the Board, regulation, testing, inspection and

licensure. Instead of wielding an indiscriminate ax, it would be far preferable to improve the statute and to direct the support services of the administration to better assist the Board in improving regulations, inspection and enforcement. Thank you for your attention, I will gladly try to answer any questions you may have.

TESTIMONY OF WINNIE GRAY

RE BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS

Mr. Chairman and members of the Committee, my name is Winnie Gray, and I am a practicing cosmetologist in Alaska, and a member of the Alaska Hairdressers and Cosmetologists Association.

The Alaska Hairdressers and Cosmetologists Association which represents about 300 licensed cosmetologists, vigoroulsy supports the retention of the Alaska Board of Hairdressing and Beauty Culture Examiners as vital to the health and general welfare of the citizens of this state. We therefore present this statement in opposition to any effort to terminate the Board of Hairdressing and Beauty Culture Examiners and eliminate the State's authority to inspect and license beauty salons, conduct licensing examinations for cosmetologists, inspect and regulate schools of cosmetology and such other matters pertinent to regulating the practice of cosmetology.

I. REGULATION OF THE COSMETOLOGY PROFESSION BY THE BOARD-PROTECTS THE CONSUMER.

Cosmetologists in the course of styling hair or applying cosmetics can, through incompetence, affect the physical health and well being of their patrons. Unlike other occupations such as accountants or real estate agents which are generally subject to State regulation, the danger arising from unqualified practitioners is not merely a loss of money; rather, in the caseof an unskilled cosmetologist, the result could be facial disfigurement, baldness, or even blindness. Thus, it is

imperative that the practice of cosmetology be regulated by a state board with specific authority and sufficient expertise to insure that the high standards of this profession continue to be met.

Like doctors, nurses and other members of the health professions, the cosmetologist deals with the human body on a daily basis. Literally thousands of women each day entrust not only their hair and their scalps but also their faces and upper torsos to their hairdressers in the course of obtaining the services offered by the practitioners of beauty culture. To meet the demands of their clientele, cosmetologists must apply a variety of chemical compounds, ranging from such mild and generally harmless products as shampoo, rouge and nail polish to such potentially dangerous chemical formulas as permanent wave and hair straightening solutions, tints and bleaches.

Not only could improper application of such such strong chemical compounds singe the hair or cause it to fall out, but an unskilled operator could also seriously and permanently scar the scalp, face or neck of a patron or even cause blindness should such chemicals be inexpertly applied. Tinting of the eyebrows and the removal of facial hair through the use of wax depilatories and electricity also have inherent dangers to the physiognomy of the customer of the beauty salon. Even curling irons which have recently returned to vogue could result in facial disfigurement in the hands of an ill-trained cosmetologist.

Thus, it is clear that an unqualified cosmetologist presents

a clear and present danger to Alaska citizens because the hairdresser must necessarily apply strong chemicals and use razor-sharp or electrically wired instruments in close contact with the human body. The Alaska Board of Hairdressing and Beauty Culture Examiners is therefore needed to prevent such harmful effects by ensuring that cosmetologists meet minimum state standards. It does so by requiring a comprehensive and up-to-date curriculum for cosmetology schools and by testing all graduates for licensure to make certain that the subjects taught have been adequately learned. A licensing examination which tests a candidate in the theory and practice of hairdressing, hair coloring, chemical hair relaxing, cosmetic chemistry, scalp treatments and hair conditioning, facial massage and cosmetic use will assure that cosmetologists who apply such skills to patrons have mastered a minimal competency in these cosmetic techniques and should therefore be allowed to apply their training to members of the public.

Moreover, there is no reasonable method of protecting the public; normal market forces just will not adequately protect the patron of a beauty salon. Although a consumer will be able to discern if she has been injured, it is unlikely that she will be able to evaluate in advance the likelihood of harm resulting from her choice of cosmetologist since a patron cannot readlily predict the aptitude of her cosmetologist and, given the size of modern communities, will probably not learn of the injuries inflicted on other customers by an inept operator. Without such information, patrons are often unable to make intelligent

decisions concerning their choice of cosmetologists and, considering the potential for serious injury, regulation is therefore vital to assure the public that salon operators meet at least minimum standards of competence.

II. REGULATION OF THE COSMETOLOGY PROFESSION BY THE BOARD AIDS THE BEAUTY SALON OWNER AND THE STUDENT.

The continuation of the Board of Hairdressing and Beauty Culture Examiners not only serves the public interest but it also helps the members of the cosmetology profession. By establishing curriculum standards for beauty schools, the salon owner is assured that the graduates he hires have been provided with a comprehensive and up-to-date curriculum. Further, the licensing examination conducted by the Board guarantees the salon owner that prospective employees have not only been taught the requisite skills but that they have mastered them as well. Similarly, students can be confident that the instruction offered by the beauty schools they attend -- and to which they pay tuition -- will provide them with the skills needed to earn their future living.

Moreover, if the Board is terminated, there is currently no guarantee that the beauty schools will provide sufficient training. It is only relatively recently that a national accrediting agency has been established to accredit beauty schools and attempt to ensure that they provide an adequate program for their students. However, the overwhelming majority of beauty schools are still not accredited by the Federally-recognized Cosmetology Accrediting Commission (CAC) nor

are they required by any state or national law to become so. But even if they should receive accreditation from the Commission, professional competence is not assured because the CAC's standards and procedures were recently challenged in proceedings held by the U.S. Office of Education. As a result, CAC has only received provisional accreditation and must revise its practices. If it does not, CAC will lose its recognition as a national accrediting agency and beauty schools will not be able to voluntarily submit their curriculums to any agency for review.

III. COMMENTS ON THE REPORT'S RECOMMENDATIONS.

1. The recommendation no. 1 requiring that two of the five Board members be public members and to limit Board member service to not more than two consecutive three-year terms appears reasonable and is not objectionable, but there should be some provision concerning the qualifications of the public members requiring that they have some specialized or professional background that would especially contribute to the function of the Board.

2. Recommendation no. 2 concerning inspection of beauty schools on a regular basis, and prompt investigation of violations and complaints is sound and should be adopted. However, amendment of A.S.08.28.040(5) should be considered because it specifically excepts health and sanitary inspection from the jurisdiction of the Board by reference to A.S.08.28.280. In fact, the Department of Health and Social Services has not been performing the required inspections and that Department's regulations in this respect are badly in need of review and

updating. The writer of the report has not made an adequate review of the statutory provisions governing both this Board and the Division of Occupational Licensing, as is obviously apparent in the light of the comments made. Investigative services statutorily provided are limited to boards other than this by A.S.08.01.050(a)(19) and requests for other services under (18) should be specific and in writing so as to give OL jurisdiction.

3. Recommendation no. 3 is questionable, although it appears sound in the light of 12 A.A.C. 24.050 as presently written. The present policy of the Board does not violate the intent of any provision of the statute as suggested by the writer of the report. Nor is it discriminatory unless one takes the view that it discriminates against shop owners in the vicinity of a school. The argument can properly be made that the interest of the public is best served by having quality schools with an adequate curriculum and teaching staff, entirely devoted to the teaching of the profession. Under the interpretation of recommendation no. 3 and comments thereunder, every shop automatically becomes an "approved shop" for the purpose of training an apprentice, without any proof whatsoever that the licensed personnel in that shop make qualified instructors. In fact, the comment makes meaningless the requirement in the statute at A.S.08.28.110(4) for a "shop approved by the Board". In case of a conflict between the statute and the regulation, it should be the regulation that gives way to the statute, not the other way around. In this instance, instead of restricting entry into the practice of cosmetology, the present policy of the Board

in fact facilitates entry for the reason that students trained under a teaching staff in a school should be better trained, and therefore better able to pass the licensing test.

4. Recommendation no. 4 is inaccurate both in its reasoning and its conclusion. The school that has been educating and, hopefully, giving tests and grades to an individual student throughout his or her 2000 hours of training has a vital interest in being informed of the students' results at the examination. The school is already in possession of test scores for that student and can, and should be, trusted with one more score to be kept as confidential as the rest. It is also of vital importance to the evaluation of a school by itself and by the Board to have information about the percentage of its own students who pass the examination, compared with the average statewide. In any event, that recommendation is not one for consideration by the legislature, since it is not for amendment to the statute, but a recommendation to the Board concerning one of its resolutions.

5. Recommendation no. 5 points to a violation of the statute by both the Division of Occupational Licensing and the Board. Apparently, the legislative intent was that the Board exercises some discretion in deciding whether to have the Division of Occupational Licensing issue the licenses, or else the statutory provision at A.S.08.01.050(a)(9) would not have included the words "as authorized by the Board." Either the Board should be left with that discretion, or the legislature should amend the statutory language to eliminate the discretion.

6. Recommendation no. 6 sounds impressive, but appears to

be couched in bureaucratic jargon difficult to understand. Perhaps the writer of the report ought to give some specific examples of "goals and quantifiable objectives". It appears that the goal should be the regulation of the profession with the prompt resolution of complaints and violations, and the achievement of the greatest possible reduction in the causes for complaints and violations. One gets the impression that the greater the quantity of objectives, or statistics, the better the performance. Hopefully, the contrary may well be the most desirable goal. Just what the difference is between a goal and an objective, I don't know. If one can clarify what is intended by establishment of goals and quantifiable objectives, recommendation no. 6 may well be very sound.

7. Recommendation no. 7 deserves a great amen, and our full endorsement without more comment. The same is true of recommendation no. 8, although example "C" under it doesn't seem to make any sense as written. Further, the comments in the report concerning the cost of "operating the Board" is subject to considerable doubt. As far as we have been able to determine, neither the Office of Occupational Licensing, nor the Department of Commerce, nor the Attorney General's office, has any records allocating time and costs in the manner suggested. We believe that the amount reported could have just as easily been $10,000.00 profit as $15,000.00 or $30,000.00 or more deficit. The gathering of that type of information does not seem to have been among the quantifiable objective in statistics of those agencies.

8. Recommendation no. 9 appears entirely reasonable and should be adopted.

In conclusion, Mr. Chairman, it seems that amendment of the statute and improvement in support services would do a great deal towards improving the quality of the regulation, and that these past deficiencies that are correctable should not form the basis for abolishing a much needed service. We urge you to exercise the legislative continuance of the Board for a limited period of time during which the necessary amendments to the statutes can be enacted by the legislature, and improvements in support services provided to the Board to permit it to render the kind and quality of service that the public has a right to expect.

STATE OF ALASKA
THE LEGISLATURE

LEGISLATIVE AFFAIRS AGENCY

POUCH Y - STATE CAPITOL
JUNEAU, ALASKA 99811
907-465-3800

M E M O R A N D U M May 2, 1980

SUBJECT: Section-by-section analysis CS for SB 544 (Work Order Number 8541)

TO: Senator Brad Bradley
Chairman, Senate Commerce Committee

FROM: Tamara Brandt Cook TBC
Legislative Counsel

You have asked for a section-by-section analysis of CS for Senate Bill 544 entitled: "An Act relating to the regulation of the practice of barbering, hairdressing, and cosmetology; terminating the existence of Board of Barber Examiners and the Board of Hairdressing and Beauty Culture Examiners; establishing the Board of Barbers and Hairdressers; providing for an effective date."

Section 1. A new chapter is created in Title 8 covering the combined professions of barbering and hairdressing.

Sec. 08.13.010. The Board of Barbers and Hairdressers is composed of five persons appointed by the governor, two barbers, two hairdressers, and one public member.

Sec. 08.13.020. The board members serve staggered terms of three years and may serve no more than two consecutive terms.

Sec. 08.13.030. The board has the following duties:

(1) to exercise general control over the vocations of barbering, hairdressing, and cosmetology;

(2) to examine applicants and approve issuance of licenses and permits;

(3) to approve the issuance of licenses for schools of barbering, hairdressing, and cosmetology;

(4) to set fees as necessary to cover the operating expenses of the board;

(5) to submit a budget to the legislature and request appropriations from the general fund which may not exceed income generated from fees collected by the board.

The board has the following powers:

(1) to suspend or revoke a license or permit;

(2) to conduct hearings and request the Department of Commerce and Economic Development to investigate the practices of the occupations being regulated;

(3) to carry out the provisions of this chapter through adopting regulations or doing any required act.

Sec. 08.13.040. The board is free to meet as often as required. It shall hold examinations in the fields of barbering, hairdressing, and cosmetology at least twice each year. An applicant for licensure may choose the field of practice he wishes to enter, or may choose to be examined in more than one field of practice.

Sec. 08.13.050. The board is obligated to keep records of permits and licenses issued or revoked and to report on its operations to the governor annually.

Sec. 08.13.060. This section prohibits

(1) the practice of barbering, hairdressing or cosmetology without a license or permit unless exempted under this act;

(2) conducting a school of barbering, hairdressing, or cosmetology without a license;

(3) operating a shop without a license unless specifically exempted by statute;

(4) allowing an employee or person being supervised to practice without a license or a permit unless specifically exempted by statute;

(5) permitting the use of a license or permit by another person;

(6) obtaining a license or permit by fraudulent means.

Sec. 08.13.080. There are three separate occupational fields which an applicant may seek licensure in. To qualify for licensure an applicant must have finished the courses that a school with a program in the particular field is required to teach in order to be licensed under this chapter. It is left up to the board to establish by regulation the standards for the licensing of schools. So, the educational requirements set out in this section are not specific, but rather, shall match the requirements which the board sets for schools. In this way, if a person attends a licensed occupational school, he will be assured of meeting the state educational requirements. In addition, an applicant must pass an examination in order to be licensed in a particular field. Separate examinations shall be given for the fields of barbering, hairdressing, and cosmetology. It is also possible for an applicant to qualify for examination through serving an apprenticeship, rather than by attending a licensed occupational school.

Sec. 08.13.082. This section describes the accepted apprenticeship program, which may only be conducted in a shop approved by the board. A person wanting to become a barber is required to receive 1,500 hours of apprenticeship training. The program must last at least nine months and may not be extended past two years. A person who wishes to become a hairdresser must complete 2,000 hours of apprenticeship training in not less than one year and not over two years. A person who wishes to practice cosmetology must receive 350 hours of apprenticeship training over a period of six months but within one year.

Sec. 08.13.090. Each applicant for licensure must pass a written examination covering sanitary practices, safety of procedures used in a particular field, and the use of instruments, equipment and chemicals pertinent to the particular field. The board has discretion to require a practical examination as well through regulation.

Sec. 08.13.100. A license is valid for two years and shall state the field or fields of practice which a person is qualified to perform. A person who is licensed in another

state or country is automatically entitled to a license in this state upon payment of required fees if he has training and work experience which the board finds meets the minimum requirements of this state.

Sec. 08.13.110. Schools of barbering, hairdressing, and cosmetology shall be licensed if they meet standards set by the board. The board must adopt regulations setting standards for licensing, including curriculum requirements, hours of instruction, physical condition of school facilities, and financial responsibility of the owner. Under the broad provision of AS 08.13.030(c)(3) granting the board power to adopt regulations needed to carry out its duties, the board has the discretion to adopt regulations setting standards for school licensure.

Sec. 08.13.120. The board is required to adopt regulations for licensing barber, hairdressing, and cosmetology shops. An owner will be licensed to operate a shop without an examination, however, unless he himself is licensed to practice, he must employ a manager who is. No licensure requirement is imposed upon shops located in communities having a population of less than 1,000 people as long as there is not a community of over 1,000 people within 25 miles.

Sec. 08.13.130. A person licensed under this act is required to display his license or to keep it with him if he is going to work outside of a regular place of business. A shop owner is affirmatively obligated to display the licenses of his employees.

Sec. 08.13.140. A license which has not been renewed for three years may be reinstated after payment of any required fees.

Sec. 08.13.150. The board has discretion to refuse, suspend, or revoke a license or permit for failure to comply with this chapter, with a regulation, or with an order of the board.

Sec. 08.13.160. Persons with valid licenses under existing law are allowed to continue to practice until their licenses expire. At that time, they will be required to comply with the provisions of this chapter and to obtain new licenses. The grandfather clause applies to persons who hold licenses

to practice barbering, and to persons holding any license under AS 08.28, which includes persons involved in the practice of hairdressing and beauty culture, managers, owners, instructors, and schools. Under AS 08.28 managers manicurists were licensed; but since they are no longer required to obtain a special license, the grandfather provision has no practical effect on them. The licensing requirements of this act also do not apply shampoo persons, persons who wash hair while under the supervision of a licensed practitioner. Additionally, no license is required to practice in a community having a population of less than 1,000 people so long as it is not within 25 miles of a community which is larger.

Sec. 08.13.170. A permit is available to a person who wishes to practice on a temporary basis in the state for educational purposes, and who is otherwise qualified. The board determines whether or not an applicant is qualified and a permit must specify the purpose for which the permit is granted, the period during which the holder may practice, and the place or places which the holder may practice.

Sec. 08.13.180. A person attending a school or serving an apprenticeship must hold a student permit. A permit to practice barbering or hairdressing is valid for two years, while one to practice cosmetology is valid for one year. A student permit may not be renewed; but the board has the discretion to issue a new permit to the same person or to extend an expired permit to the date of the next scheduled examination so that a person may continue training while waiting to be tested. If a person applies for a new student permit, the board has the discretion to transfer credit earned under the expired permit.

Sec. 08.13.190. A person who practices barbering, hairdressing, or cosmetology, operates a shop, operates a school, or teaches in a school without a license or permit commits a class B misdemeanor. This criminal penalty does not apply to a person practicing in or a shop located in a community of less than 1,000 people which is not within 25 miles of a larger community.

Sec. 08.13.200. Money generated through fees imposed under this chapter shall be deposited into the general fund.

Sec. 08.13.210. The Department of Health and Social Services is responsible for supervising sanitary conditions in shops and schools.

Sec. 08.13.220. This section defines terms.

(1) "Apprentice" is a person receiving on the job training under the supervision of someone licensed under this chapter. An apprentice may not receive a wage or commission until he has completed 350 hours of training, and no charge may be made for his work until that time.

(2) "Barbering" is shaving, trimming, cutting the beard or hair of a living person for a fee. A person practices barbering only when this is done for cosmetic, rather than for medical, purposes.

(3) "Board" refers to the Board of Barbers and Hairdressers.

(4) "Cosmetology" involves work upon the human body for cosmetic purposes for a fee.

(5) "Hairdressing" differs from "barbering" in that it includes temporary waving, permanent waving, singeing, bleaching, and coloring hair as well as shaving, trimming, or cutting the beard or hair.

(6) "Manicurist" is a person who works upon hands and nails for cosmetic purposes for fee. Manicurists are exempted from licensure.

(7) "Practitioner" is broadly defined to include all persons licensed to practice under this chapter.

(8) "Shampoo person" is a person who cleans or conditions hair under the supervision of a person who is licensed. A shampoo person is exempted from licensure.

(9) "Shop" includes barbering, hairdressing, and cosmetology establishments.

Section 2. The termination date of the Board of Barbers and Hairdressers is June 30, 1984.

Section 3. In order to include hairdressing establishments this section amends a provision which requires the commissioner of the Department of Health and Social Services to adopt regulations setting standards of cleanliness.

Section 4. The Board of Barbers and Hairdressers is added to the list of boards and agencies required to following the adjudicatory procedures of the Administrative Procedure Act.

Section 5. Provisions establishing a termination date of June 30, 1980 for the Board of Barber Examiners and the Board of Hairdressing and Beauty Culture Examiners are repealed; the chapters dealing with those boards are repealed entirely; and those two boards are removed from the list of boards and agencies required to comply with the adjudicatory provisions of the Administrative Procedure Act.

Section 6. The act becomes immediately effective.

If you have any further questions, please contact me.

CSSB 544

BOARD OF BARBERS AND HAIRDRESSERS

the Commerce C.S.

1. MR. PRESIDENT, I MOVE THE ADOPTION OF ~~CSSB 544 WHICH TERMINATES THE EXIST-~~
2. Mr. President, This bill terminates the existing Board of Barber Examiners and
~~ING BOARD OF BARBER EXAMINERS AND THE EXISTING BOARD OF HAIRDRESSING AND~~
Board of Hairdressing and
BEAUTY CULTURE EXAMINERS; AND ESTABLISHES A NEW BOARD, ~~ENTITLED~~ THE
Which combines
(and Cosmetologists into one board;)
BOARD OF BARBERS ~~AND~~ HAIRDRESSERS. ~~THE BARBERS, HAIRDRESSERS, AND~~
are qualified and as both barbers and hairdressers.
The ~~COSMETOLOGISTS ARE BROUGHT UNDER THE ONE BOARD. IT IS FELT THAT THE~~ Both the
Senate and House Commerce Committee as well as the Barbers and Hairdressers who
~~REGULATION OF~~ THESE PROFESSIONS WILL OPERATE MORE EFFECTIVELY AND testified or their
representatives
ECONOMICALLY UNDER THE NEW BOARD SINCE THESE PROFESSIONS ARE SIMILAR agreed to the
provisions of this bill.
IN NATURE. It is felt that

(SEC. 08)
P. 1, Ls. 13-15

SEC. 1 CREATES A NEW CHAPTER IN TITLE 8 COVERING THE COMBINED PROFESSIONS OF BARBERING AND HAIRDRESSING.

(SEC. 08.13.010)
P. 1, Ls. 16-23

CREATES THE BOARD OF BARBERS AND HAIRDRESSERS CONSISTING OF 5 MEMBERS APPOINTED BY THE GOVERNOR. THE BOARD CONSISTS OF 2 BARBERS, 2 HAIRDRESSERS AND 1 PUBLIC MEMBER.

(SEC. 08.13.020)
P. 1, Ls. 24-27

PROVIDES FOR MEMBERS OF THE BOARD TO SERVE STAGGERED TERMS OF 3 YEARS AND MEMBERS MAY SERVE NO MORE THAN TWO CONSECUTIVE TERMS.

(SEC. 08.13.030)
P. 1/2, Ls. 28/12

SPELLS OUT THE DUTIES OF THE BOARD, WHICH ARE THE FOLLOWING:

(1) THE BOARD SHALL EXERCISE GENERAL

CONTROL OVER THE VOCATIONS OF BARBERING, HAIRDRESSING AND COSMETOLOGY.

(2) THE BOARD SHALL EXAMINE APPLICANTS AND APPROVE THE ISSUANCE OF LICENSES AND PERMITS.

(3) THE BOARD SHALL APPROVE THE ISSUANCE OF LICENSES FOR SCHOOLS OF BARBERING, HAIR-DRESSING AND COSMETOLOGY.

(4) THE BOARD WILL SET FEES FOR LICENSING, ISSUING PERMITS, LICENSE AND PERMIT RENEWAL, AND OTHER CHARGES AS NECESSARY TO COVER THE OPERATING EXPENSES OF THE BOARD.

(5) THE BOARD SHALL SUBMIT A BUDGET TO THE LEGISLATURE AND REQUEST APPROPRIATIONS FROM THE GENERAL FUND, NOT TO EXCEED THE INCOME GENERATED FROM FEES TO COVER OPERATING EXPENSES.

(SEC. 08.13.030)
P. 2, LS. 13-20

SPELLS OUT THE <u>POWERS</u> OF THE BOARD, WHICH ARE AS FOLLOWS:

(1) THE BOARD HAS THE POWER TO SUSPEND OR REVOKE A LICENSE OR PERMIT;

(2) THE BOARD HAS THE POWER TO CONDUCT HEARINGS AND REQUEST THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT TO INVESTIGATE THE PRACTICES OF A PERSON OR SHOP OR SCHOOL WHICH IS INVOLVED IN THE PRACTICE OF TEACHING BARBERING, HAIRDRESSING,

OR COSMETOLOGY.

(3) THE BOARD HAS THE POWER TO ADOPT REGULATIONS OR DO ANY ACT TO CARRY OUT THE PROVISIONS OF THIS CHAPTER.

(SEC. 08.13.040)
P. 2, LS. 21-27

GIVES THE BOARD THE POWER TO MEET AS OFTEN AS NECESSARY TO CONDUCT ITS BUSINESS. THE BOARD SHALL CONDUCT SEPARATE EXAMINATIONS COVERING THE FIELDS OF BARBERING, HAIRDRESSING, AND COSMETOLOGY. THE EXAMINATIONS SHALL BE GIVEN AT LEAST TWICE IN EVERY YEAR FOR EACH FIELD OF PRACTICE FOR WHICH APPLICATIONS FOR LICENSURE ARE PENDING. AN APPLICANT MAY TAKE AN EXAMINTION IN MORE THAN ONE FIELD DURING THE SAME TESTING SESSION. HE MAY CHOOSE TO ENTER MORE THAN ONE FIELD OF PRACTICE.

(SEC. 08.13.050)
PS. 2/3, LS. 28/4

REQUIRES THE BOARD TO KEEP RECORDS OF THE ISSUANCE, REFERRAL, SUSPENSION AND REVOCATION OF LICENSES AND PERMITS. THEIR RECORDS SHALL CONTAIN THE NAME, PLACE OF BUSINESS AND DATE OF EACH LICENSE AND PERMIT ISSUED AND THEIR RECORDS ARE OPEN TO INVESTIGATION BY THE PUBLIC. THE BOARD IS ALSO REQUIRED TO SUBMIT AN ANNUAL REPORT ON ITS OPERATIONS TO THE GOVERNOR.

(SEC. 08.13.070)
P. 3, LS. 6-20

PROHIBITS:

(1) THE PRACTICE OF BARBERING, HAIRDRESSING OR COSMETOLOGY WITHOUT A LICENSE OR PERMIT UNLESS EXEMPT UNDER AS 08.13.160(c);

(2) OPENING OR CONDUCTING A SCHOOL OF BARBERING, HAIRDRESSING OR COSMETOLOGY WITHOUT A LICENSE;

(3) OPERATING A SHOP WITHOUT A LICENSE UNLESS SPECIFICALLY EXEMPTED BY STATUTE;

(4) ALLOWING AN EMPLOYEE OR PERSON BEING SUPERVISED TO PRACTICE BARBERING, HAIR-DRESSING OR COSMETOLOGY WITHOUT A LICENSE OR A PERMIT UNLESS EXEMPTED BY AS 08.13.160(c);

(5) PERMITTING THE USE OF A LICENSE OR PERMIT BY ANOTHER PERSON;

(6) OBTAINING OR ATTEMPTING TO OBTAIN A LICENSE OR PERMIT BY FRAUDULENT MEANS.

(SEC. 08.13.080)
PS. 3/4, LS. 21/4

SPELLS OUT THE QUALIFICATIONS OF APPLICANTS FOR EXAMINATION. THERE ARE THREE SEPARATE OCCUPATIONAL FIELDS WHICH AN APPLICANT MAY SEEK LICENSURE IN -- BARBERING, HAIRDRESSING, OR COSMETOLOGY. TO QUALIFY FOR LICENSURE, AN APPLICANT MUST HAVE FINISHED THE COURSES AND PASS THE EXAMINATION THAT A SCHOOL WITH A PROGRAM IN THE PARTICULAR FIELD IS REQUIRED TO TEACH. SEPARATE EXAMINATIONS SHALL

BE GIVEN FOR THE FIELDS OF BARBERING, HAIR-DRESSING, AND COSMETOLOGY. IT IS ALSO POSSIBLE FOR AN APPLICANT TO QUALIFY FOR EXAMINATION THROUGH SERVING AN APPRENTICESHIP, RATHER THAN BY ATTENDING A LICENSED OCCUPATIONAL SCHOOL.

(SEC. 08.13.082)
P. 4, LS. 5-22

DESCRIBES THE ACCEPTED APPRENTICESHIP PROGRAM, WHICH MAY ONLY BE CONDUCTED IN A SHOP APPROVED BY THE BOARD. A PERSON WANTING TO BECOME A BARBER IS REQUIRED TO RECEIVE 1,500 HOURS OF APPRENTICESHIP TRAINING. THE PROGRAM MUST LAST AT LEAST NINE MONTHS AND MAY NOT BE EXTENDED PAST TWO YEARS. A PERSON WHO WISHES TO BECOME A HAIRDRESSER MUST COMPLETE 2,000 HOURS OF APPRENTICESHIP TRAINING IN NOT LESS THAN ONE YEAR AND NOT OVER TWO YEARS. A PERSON WHO WISHES TO PRACTICE COSMETOLOGY MUST RECEIVE 350 HOURS OF APPRENTICESHIP TRAINING OVER A PERIOD OF SIX MONTHS BUT WITHIN ONE YEAR.

(SEC. 08.13.090)
PS. 4/5, LS. 23/4

REQUIRES THAT EACH APPLICANT FOR LICENSURE MUST PASS A WRITTEN EXAMINATION COVERING SANITARY PRACTICES, SAFETY OF ALL

PROCEDURES USED IN A PARTICULAR FIELD, AND THE CARE OF INSTRUMENTS, EQUIPMENT AND CHEMICALS PERTINENT TO THE PARTICULAR FIELD. THE BOARD THROUGH REGULATION HAS THE DISCRETION TO REQUIRE A PRACTICAL EXAMINATION.

(SEC. 08.13.100)
P. 5, LS. 5-20

STATES THAT A LICENSE IS VALID FOR 2 YEARS AND IT SHALL STATE THE FIELD OR FIELDS OF PRACTICE WHICH A PERSON IS REQUIRED TO PERFORM. A PERSON WHO IS LICENSED IN ANOTHER STATE OR COUNTRY IS AUTOMATICALLY ENTITLED TO A LICENSE IN THIS STATE WITHOUT EXAMINATION UPON PAYMENT OF THE REQUIRED FEES AND PROOF OF COMPLETED TRAINING AND WORKING EXPERIENCE.

(SEC. 08.13.110)
P. 5, LS. 21-25

PROVIDES THAT SCHOOLS OF BARBERING, HAIRDRESSING, AND COSMETOLOGY SHALL BE LICENSED IF THEY MEET STANDARDS SET BY THE BOARD. THE BOARD MUST ADOPT REGULATIONS SETTING STANDARDS FOR LICENSING, INCLUDING CURRICULUM REQUIREMENTS, HOURS OF INSTRUCTION, PHYSICAL CONDITION OF SCHOOL FACILITIES, AND FINANCIAL RESPONSIBILITY OF THE OWNER.

(SEC. 08.13.120)
PS. 5/6, LS. 26/3

REQUIRES THE BOARD TO ADOPT REGULATIONS FOR LICENSING BARBER, HAIRDRESSING, AND COSMETOLOGY SHOPS. AN OWNER WILL BE LICENSED TO OPERATE A SHOP WITHOUT AN EXAMINATION; HOWEVER, UNLESS HE IS LICENSED TO PRACTICE, HE MUST EMPLOY A MANAGER WHO IS. NO LICENSURE REQUIREMENT IS IMPOSED UPON SHOPS LOCATED IN COMMUNITIES HAVING A POPULATION OF LESS THAN 1,000 PEOPLE AS LONG AS THERE IS NOT A COMMUNITY OF OVER 1,000 PEOPLE WITHIN 25 MILES.

(SEC. 08.13.130)
P. 6, LS. 4-8

REQUIRES A PERSON LICENSED UNDER THIS ACT TO DISPLAY HIS LICENSE OR TO KEEP IT WITH HIM IF HE IS GOING TO WORK OUTSIDE OF A REGULAR PLACE OF BUSINESS. A SHOP OWNER IS ALSO AFFIRMATIVELY OBLIGATED TO DISPLAY THE LICENSES OF HIS EMPLOYEES.

(SEC. 08.13.140)
P. 6, LS. 9-12

A LAPSED LICENSE MAY BE REINSTATED IF THE LICENSE HAS NOT BEEN LAPSED FOR A PERIOD OF MORE THAN THREE YEARS, AND ALL RENEWAL AND DELINQUENT FEES ARE PAID.

(SEC. 08.13.150)
P. 6, LS. 13-17

GIVES THE BOARD THE DISCRETION TO REFUSE, SUSPEND, OR REVOKE A LICENSE OR PERMIT FOR FAILURE TO COMPLY WITH THIS CHAPTER, WITH A REGULATION, OR WITH AN ORDER OF THE BOARD.

(SEC. 08.13.160)
Ps. 6/7, Ls. 18/8

IS THE GRANDFATHER CLAUSE WHICH ALLOWS A PERSON WITH VALID LICENSES UNDER EXISTING LAW TO CONTINUE TO PRACTICE UNTIL THEIR LICENSES EXPIRE. AT THAT TIME, THEY WILL BE REQUIRED TO COMPLY WITH THE PROVISIONS OF THIS CHAPTER. ADDITIONALLY, NO LICENSE IS REQUIRED TO PRACTICE IN A COMMUNITY HAVING A POPULATION OF LESS THAN 1,000 PEOPLE SO LONG AS IT IS NOT WITHIN 25 MILES OF A COMMUNITY WHICH IS LARGER.

(SEC 08.13.170)
P. 7, Ls. 9-20

THIS SECTION STATES THAT A TEMPORARY PERMIT IS AVAILABLE TO A PERSON WHO WISHES TO PRACTICE ON A TEMPORARY BASIS IN THE STATE FOR EDUCATIONAL PURPOSES, AND WHO IS OTHERWISE QUALIFIED.

(SEC. 08.13.170)
Ps. 7/8, Ls. 21/1

DEALS WITH STUDENT PERMITS AND STATES THAT A PERSON ATTENDING A SCHOOL OR SERVING AN APPRENTICESHIP MUST HOLD A STUDENT PERMIT. A PERMIT TO PRACTICE BARBERING OR HAIRDRESSING IS VALID FOR TWO YEARS, WHILE ONE TO PRACTICE COSMETOLOGY IS VALID FOR ONE YEAR. A STUDENT PERMIT MAY NOT BE RENEWED; BUT THE BOARD HAS THE DISCRETION TO ISSUE A NEW PERMIT TO THE SAME PERSON OR TO EXTEND AN EXPIRED PERMIT TO THE DATE OF THE NEXT SCHEDULED EXAMINATION SO THAT A PERSON MAY CONTINUE TRAINING WHILE WAITING TO BE TESTED. IF A PERSON APPLIES FOR A NEW STUDENT PERMIT, THE BOARD HAS THE DISCRETION

TO TRANSFER CREDIT EARNED UNDER THE EXPIRED PERMIT.

(SEC. 08.13.190) P. 8, Ls. 2-8 — A PERSON WHO PRACTICES BARBERING, HAIRDRESSING, OR COSMETOLOGY, OPERATES A SHOP, OPERATES A SCHOOL, OR TEACHES IN A SCHOOL WITHOUT A LICENSE OR PERMIT COMMITS A CLASS B MISDEMEANOR. THIS CRIMINAL PENALTY DOES NOT APPLY TO A PERSON PRACTICING IN OR A SHOP LOCATED IN A COMMUNITY OF LESS THAN 1,000 PEOPLE WHICH IS NOT WITHIN 25 MILES OF A LARGER COMMUNITY.

(SEC. 08.13.200) P. 8, Ls. 11-12 — STATES THAT MONEY GENERATED THROUGH FEES IMPOSED UNDER THIS CHAPTER SHALL BE DEPOSITED INTO THE GENERAL FUND.

(SEC. 08.13.210) P. 8, Ls. 13-16 — STATES THAT IT IS THE RESPONSIBILITY OF THE DEPARTMENT OF HEALTH AND SOCIAL SERVICES TO SUPERVISE SANITARY CONDITIONS IN SHOPS AND SCHOOLS.

(SEC. 08.13.220) Ps. 8/9, Ls. 10/21 — CONSISTS OF DEFINITIONS.

(SEC. 08.03.010(c)) P 9, Ls. 22-24 — SECTION 2 STIPULATES THE TERMINATION DATE FOR THE BOARD OF BARBER AND HAIRDRESSERS AS JUNE 30, 1984.

(SEC. 18.05.040) Ps. 9/10, Ls. 26/3 — SECTION 3 IS AMENDED TO INCLUDE HAIRDRESSING AND COSMETOLOGY ESTABLISHMENTS IN THE EXISTING REQUIREMENT OF THE DEPARTMENT OF HEALTH AND SOCIAL SERVICES TO ADOPT REGULATIONS SETTING STANDARDS OF CLEANLINESS FOR THESE ESTABLISHMENTS.

(SEC. 44.62.330(A)) P. 10, Ls. 4-5 — SECTION 4 ADDS THE BOARD OF BARBERS AND HAIRDRESSERS TO THE EXISTING LIST OF BOARDS REQUIRED TO FOLLOW THE ADJUDICATORY PROCEDURES OF THE ADMINISTRATIVE PROCEDURES ACT.

P. 10, Ls. 6-7 — SECTION 5 REPEALS THE FOLLOWING:

AS 08.03.010(B)(2) AND (4) - REMOVES THE BOARD OF BARBER EXAMINERS AND THE BOARD OF HAIRDRESSING AND BEAUTY CULUTURE EXAMINERS FROM THE LIST OF BOARDS WHICH HAD A TERMINATION DATE OF JUNE 30, 1980.

AS 08.12 - REPEALS THE BOARD OF BARBER EXAMINERS.

AS 08.28 - REPEALS THE BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS.

AS 44.62.330(A)(1) AND (7) - REMOVES THE BOARD OF BARBER EXAMINERS AND THE BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS FROM THE LIST OF BOARDS REQUIRED TO FOLLOW THE ADJUDICATORY PROCEDURES OF THE ADMINISTRATIVE PROCEDURES ACT.

P. 10, Ls. 8-9 SECTION 6 PROVIDES THAT THIS ACT TAKES EFFECT IMMEDIATELY.

Senate
Committee On Commerce

To Whom It May Concern:

This is my testimony regarding the Board of Barbers Examiners, Oct. 22, 1979.

The members of the BArbers Board has operated in the interest of the public, by encouring the Barbers to promote communicable hygiene and Sanitation.

Doing the Hickel administration the members of the Board tried to get an apprentice bill passed. The apprentice bill lost by one vote.

Recommendation No. 8; States that the minutes are not complete and in enough detail to recreate what happen at the Board meeting.
I had a chance to sit in on one of the Board meetings to ask a question. The entire meeting were taped. I asked about the taping .
The members said the tapes were sent to the commerce department to be typed and mailed to the Boards secretary to be signed , and mailed back to the commerce department. There you have two copies.
With this procedure you have all of the meeting in complete detail.

To protect the public the Board members has made sure that No Barber Stylist are working under the influence of alcohol or drugs.

End of testimony.

Thank You,
Alberta J. Grant

Alberta J. Grant

I feel that every professional organization should have there own Board Examiners.
Here are some laws that I would like to see changed.

SEC. 081280 Numbers one and two. Barbering defined. Add chemicals, bleaching , Makeups and skincare.
SEC. 0812030 eliminate numbers 4,6,&7. Board members to revised inspection sheets.
SEC 0812040 Multiple choice exams.
Sec 0812010Board members (Four Barbers) Fifth Person AConsumer.
SEC. 0812020 Add one consumer who has resided in the State of Alaska for ten or more years.
SEC. 0812030 Add photo to displayed license.

Thank You,

Alberta J. Grant

Attn: The Honorable Senator Bradley, Chairman

Dear Senator Bradley:

This letter offers comments on HB 978. On behalf of the Alaska Hiardressers and Cosmetologists Association, it is submitted that the bill does not meet the desires of the thousands of consumers who have submitted statements to your committee, or the substance of the testimony at hearings held by your committee. The consolidation of the two existing boards, Barbers and Hairdressing and Beauty Culture, does not require the combining of the professions or the domination of the new agency by barbers, as the new bill proposes.

Passage of HB 978 would deal a serious blow at cosmetologists as the word is used in the beauty culture field and by legislatures elsewhere, which includes hairdressers, as opposed to barbers. We believe that it would also be of real concern to the customers who would have no way of knowing whether an operator (licensee) is a person trained in one area or the other.

While other states such as California have expanded the role of boards of cosmetology as reflected by the bill proposed by the Association, and require continuing professional eduction as a condition of renewal of licenses for the protection of the using public, HB 978 appears to be a step backwards from consumer protection and a lowering of professional requirements.

The bill appears to be a great one for barbers, but a sad one for hairdressers.

1. The definition of cosmetology used (A.S. 08.13.220(3)) does not follow the meaning of the word generally adopted throughout the nation or by the writers in the subject.

2. "Hairdressing" is not defined.

3. "Hairdresser" is not defined.

4. No legislative guideline or standard is given for schools other than requiring regulations as to "curriculum, minimum hours of instruction, physical condition of the facilities, and financial responsibility of the owner." (A.S. 08.13.110). Nothing is provided regulating or establishing standards for teachers, or student-teacher ratio, minimum equipment required, supplies, reports, required filings, or standards for approval, disapproval suspension, or revocation.

5. No standards are provided for shops.

6. No inspection of shops or schools is provided, except for health and sanitation enforcement by Health and Social Services who has had a dismal performance of the same authority in the past. California has resorted to inspectors under Board of Cosmetology supervision for the purpose, the same here would combine health, sanitation and compliance with other standards such as display of licenses, equipment used, checking personnel, professional supervision, etc. As licensees are required to demonstrate knowledge in these areas, they should be well qualified, and inspector qualifications can be higher.

7. Historically, as far back as ancient history, barbers and cosmetologists have been separate professions. They have separate associations. But this bill lumps them together so that the board may be totally controlled by one profession. As set out by Section 6, the five members of the existing Board of Barbers are to be voting ex-office members, thus assuring control of the new Board by Barbers to the exclusion of cosmetologists. Even without it, three "Hairdressers" may be all barbers! Only one cosmetologist is assured.

8. Grandfather rights are provided for barbers by A.S. 08.13.150, but none are provided for cosmetologists.

9. A "barber" license is provided by A.S. 08.13.150 and 010(b)(1) no definition is offered as to what is a barber, except by reference to A.S. 08.12 and regulations thereunder, but that statute is repealed by Section 5, and all regulations thereunder are repealed by implication, as they rely upon A.S. 08.12 for their validity. Thus, once A.S. 08.12 is repealed, any interested person would have to search statutes and regulations

no longer published to attempt to find the meaning of the new statute. That is both unfair, unjust and unduly expensive and time consuming.

10. The only licenses contemplated by A.S. 08.13.070 are (1) for hairdressing or cosmetology, and (2) to organize, open or conduct a school. None appears to be provided for "barbers" or for teachers.

11. Qualifications under A.S. 08.13.080 require successful completion of all courses required to be taught by a school of hair design, but does not include any mention of a school of cosmetology. Furthermore, these provisions appear contrary to A.S. 08.13.090 which contemplates examination "within the field of practice for which the applicant is seeking a license", and to A.S. 08.13.100(b) which provides that "A license shall state the areas of practice the practitioner is qualified to perform." Again, that section provides for a designation as "barber", "hairdresser" or both, but neither is defined by the bill. Surely, if one is to be licensed in a limited area of practice, then one should not be required to successfully complete all courses offered.

12. It appears that A.S. 08.13.120 permits practice "outside of a place of business", but provides no criteria for such itenerant practice, particularly in the area of sanitation, and would appear to make it virtually impossible to subject such itenerant practitioner to any form of inspection, thus negating the intent.

13. If licensing and regulation of hairdressers and cosmetologists is deemed desirable for the protection of the consumers of the service, there appears to exist no logical reason for excluding from that protection communities of less than 1,000 people as provided by A.S. 08.13.150(b). The further question arises as to the status of an unlicensed practitioner in such a community who, after a period of some years of such practice, moves to a more populated area, or the area in which such person practices increases in populaiton from 999 to 1,000. Would such a practitioner be suddenly illegal, or would he or she be somehow "grandfathered in"? There appears to be no reason why such a practitioner should not be required to be examined and licensed initially. The subsection should be eliminated.

14. While A.S. 08.13.150(b) appears to create an exemption, the misdemeanor provisions of A.S. 08.13.180 contain no exception. Clarification would be helpful.

15. Page 8, line 10, "affect" is apparently intended to be "effect".

16. The loose definition of "cosmetology" in A.S. 08.13.220 may, conceivably, include manicurists, cosmeticians, and electrologists, but appears to be intended to cover only cosmeticians, although the phrase, "similar work" is subject to widely varying interpretations, and what is intended by "the human body" is likewise vague. For example, it could include pedicure, or even the occupation engaged in by massage parlors, erotic or otherwise. On may also wonder whether the head and the limbs are intended to be included in "the human body", or whether the phrase includes only the torso.

17. Although the minimum requirements of A.S. 08.13.082 [one year under (a), and six months under (b)] are understandable, the maximum requirements are not. If the language is changed to "not more than" instead of "not less than", the meaning is clearer, but the result would appear highly inequitable if the apprentice had to interrupt education for a period of time, such as for illness, resulting is going over the limitation. If A.S. 08.13.170 is intended to cure the problem such is not indicated by 082.

18. A number of states are requiring continuing professional education as a condition of license renewal. The bill proposed by the Alaska Hairdressers and Cosmetologists Association contained such a provision because customers should be entitled to know that new procedures, products, styles and safety provisions are known to the practitioner. This bill has no such provision, but it should.

19. The administrative disciplinary powers conferred upon the Board include only suspension and revocation of licenses. The harshness of the provisions often result in their failure of enforcement, or undue litigation efforts and expense on the part of the threatened licensee who needs to protect his right to earn a livelihood. Again, the bill proposed by the Association provided for the assessment of civil penalties or fines, which can often accomplish the desired result much more equitably,

efficiently, and economically for the state as well as for the licensee. A specific power to issue orders to show cause might well speed up and facilitate the Board's administration of its disciplinary authority.

The attached draft statement for use by the various state chapters of the National Hairdressers and Cosmetologists Association discusses the wide differences between the professions which are not addressed by HB 978.

In conclusion, the bill, as written, appears to be in need of considerable revision if it is to accomplish the desired purposes equitably, with clarity, in the interest of the public, and without undue discrimination against cosmetologists who are considerably more numerous than barbers.

Very truly yours,

ROSE & BREEZE, P. C.

STATEMENT BY THE

[STATE] HAIRDRESSERS AND COSMETOLOGISTS ASSOCIATION

CONCERNING THE MERGER OF THE

[STATE] BOARDS OF COSMETOLOGY AND BARBERING

For the past [number] years, the [State] Hairdressers and Cosmetologists Association has represented the concerns of the now more than [number] licensed cosmetologists in [state] and has been committed to ensuring high standards of professionalism among the practitioners of beauty culture. To this end, the [State] Hairdressers and Cosmetologists Association has sought to expand and intensify the curriculum of beauty schools and has supported an active role for the [state] board of cosmetology. However, because of such activities and because the officers of the [State] Hairdressers and Cosmetologists Association are themselves practicing cosmetologists, the [State] Hairdressers and Cosmetologists Association is vitally aware of the uniqueness of this profession and particularly the specialized skills required to service the patrons of beauty salons.

It is because of the distinctiveness of this profession that the [State] Hairdressers and Cosmetologists Association opposes the merger of the [state] boards of cosmetology and barbering. The qualifications and characteristics of these two professions are so diverse as to make it infeasible and therefore inappropriate for cosmetologists to serve on a board

which examines the qualifications of graduates of barber schools and conversely for barbers to evaluate the competency of graduates of beauty schools. It would be equally difficult for cosmetologists to fairly evaluate whether a barber's license should be suspended or revoked as it would be similarly infeasible to expect a barber to be able to judge the performance of a licensed cosmetologist. Therefore, the merger of these traditionally separate boards would do a disservice to both professions and would hinder the respective board members' ability to effectively fulfill their statutory obligations.

Moreover, there are limitations on a legislature's power to classify or merge various occupations with respect to licensure. In order to be lawful, the classification of occupations must be reasonable; accordingly, different classes must be regulated by different administrative bodies. Although the differences among the established classes must be "substantial" to warrant separate administration, it is clear that they do not have to be "great" to require individual licensing.

The disparity between the cosmetology profession and the barbering profession clearly requires separate and distinct licensing requirements and separate and distinct regulatory boards. The disparity is most noticeably reflected in the diversity of the services each renders to its particular clientele. Since the cosmetologist primarily serves female patrons, fashion is a critical factor in the performance of the art of hairdressing. It

is not enough to know how to cleanse and cut hair. A licensed cosmetologist must be an expert in hairstyling and be able to cut, set and comb out a patron's hair so that it not only reflects the latest trends in hair fashion but also suits the personality and physiognomy of the customer.

Since women can wear their hair short or long, straight or curly, twisted into French knots or corn rows, plain or adorned with ribbons, hairpieces, combs or barretts, it is obvious that the hairdresser requires different skills than the barber who remains essentially immune from the vagaries of hair fashion. In order to achieve certain effects, the hairdresser must be trained in finger-waving, wigology, curling, singeing, thinning, tinting, streaking, bleaching, rinsing, permanent waving, hair straightening, pin and roller curling as well as iron curling. Many of these skills would be of little service in a barber shop.

In addition, because the salon owners service a female clientele, the licensed cosmetologist must be skilled in the application of cosmetics. Not only do hairdressers need to understand the use and advantages of such cosmetics as eyeshadow, rouge and nail polish, but they must also be able to arch and tint eyebrows as well as remove facial hair by the use of tweezers, wax, depilatories and electricity or camouflage such superfluous hair by bleaching, again employing techniques not required by barbers who service their clients more appropriately by shaving off facial hairs.

Because cosmetologists and barbers provide different services to their patrons, they generally rely on different instruments and tools. It is the rare occasion at most that a barber would be called on to use hair pins, bobby pins, clips, curlers, rollers, hair nets, curling irons, hair dryers or eyebrow tweezers. It would be equally unusual for a cosmetologist to wield a straight razor during the course of a traditional day's practice.

Such diversity in the services performed and the implements used are reflected in the differences in the curriculum provided and often required by statute in schools that train future cosmetologists and barbers. The very fact that there are beauty schools which are separate and distinct in ownership and operation from barber schools underscores the separateness of the two professions. A perusal of the subjects offered in beauty schools indicates that cosmetologists emphasize clinical instruction and receive extensive training in hair styling, permanent waving (a service which barbers are prohibited by law from offering in California and several other states), cosmetics, hair coloring and lightening as well as the care and styling of wigs.

In addition, a survey of the hours of training required for cosmetologists and barbers reveals that cosmetologists in 29 states were required by law to have considerably more instruction than student barbers. In another 13 states, both professions have an equal number of training

hours, leaving only 8 states where cosmetologists receive less instruction than barbers. In fact, cosmetologists generally receive 1,000 to 2,500 hours of training in contrast to barbers who receive from 0 to 2,000 hours. Further, not only are cosmetologists' apprenticeship training periods generally longer than in the barber apprenticeship programs, but the minimum educational qualifications for admission to beauty schools are higher than the requirements for acceptance in barber schools.

Finally, the existence of two separate and distinct professions is confirmed by the fact that there are now and traditionally have been two separate trade associations, the National Hairdressers and Cosmetologists Association, Inc., which represents the concerns of the licensed cosmetologist and the Associated Master Barbers and Beauticians Association which represents the practicing barber. Each explores the interests and deals with the problems unique to its membership. Although there is informational exchange between the two groups, each association works to service the particular needs and express the views of their individual members.

Thus, it is imperative that the [state] board of cosmetology and the [state] board of barbering continue to function as two separate entities. The cosmetologist and the barber serve different clients, perform different services, use different implements, study different courses and have different interests as reflected in the existence of their separate

trade associations. The [State] Hairdressers and Cosmetologists Association therefore opposes the merger of these two distinctive licensing boards so that applicants and practitioners alike can be evaluated by those best suited to judge their capabilities and their performance.

March 17 ,1980

The Hon. W. "Brad" Bradley
Chairman, Senate Commerce Committee
Pouch V
Juneau, AK 99811

Dear Sen. Bradley:

Supplementing my prior statement before your committee concerning the sunset consideration of the Board of Hairdressing and Beauty Cultures Examiners. You have been furnished by Mr. Rose with some of the thousands of consumer statements which have been gathered by beauty shops and operators in various parts of the State. There are many more that should be on their way to your committee. Interestingly, none of the users of services of cosmetologists have seen fit to file any statements in opposition to continuing regulation, supervision and licensing of the profession and shops. Neither have any of the consumers opted for any form of bureaucratic supervision by any office of the administration composed of State employees rather than members of the profession.

Obviously, there appears to be a strong feeling on the part of consumers in support of the Association's position expressed before your committee.

You have also been furnished with the draft of a proposed bill terminating the existence of Board of Hairdressing and Beauty Culture Examiners, and replacing it with a Board of Cosmetology consisting of seven members, including two public members and five cosmetologists. In preparing this comprehensive bill, the Association has considered existing statutes of a number of other jurisdictions, and has chosen to pattern the bill basically after the California statute, with a few modifications taken from Florida law and from existing Alaska law, generally to fit the local situtation better.

The jurisdiction of the proposed Board of Cosmetology has been expanded to include Cosmeticians, which is a relatively new branch

among Cosmetologists, and Electrology, which involves the permanent removal of hair by the application of electricity.

The Association and myself, sincerely believe that the proposed bill constitutes a considerable improvement over the existing statute, and we respectfully urge you to give it favorable consideration.

Very truly yours,

By: Wilma Radegue

AMENDMENT

OFFERED IN THE SENATE: BY: BRADLEY

TO: CS SENATE BILL No. 544

HOUSE BILL No. _____

PAGE: _____ LINE: _____

1. on / Page 6, Lines 22 thru 24: (Sec. 160(a))

After the word "expires," delete the ", at which time the provisions of this chapter apply and a license issued under AS 08.12 cannot be renewed" (This change grandfathers in Barbers.)

remainder of the sentence.

2. on / Page 6, lines 27 thru 29:

After the word "expires", delete the ", at which time the provisions of this chapter apply and a license issued under AS 08.28 cannot be renewed" (This change grandfathers in Hairdressers.)

remainder of the sentence

3. on / Page 7, before line 1: (Sec. 160(a) and (b))

Insert the following new material as a new subparagraph (c)

(c) A person holding a valid license issued under AS 08.12 (Barbers chap.) or AS 08.28 (Hairdressers chap.) shall be entitled upon expiration of the license to a license to practice under this chapter, without meeting requirements for new licensure. (This subparagraph was added, and it applies to the grandfathering in of both Barbers and Hairdressers.)

4. Page 7, line 1:

Delete "(c)" and insert "(d)" in its place. (This, of course, is merely a relettering of subparagraphs.)

*The reason for this entire amendment is to allow anyone who holds a current license in either barbering or hairdressing, no matter how it was obtained, to be entitled to a new license under this chapter without having to go to school and be examined.

Mike - Concur w/ House changes

HOUSE CS FOR CS FOR SENATE BILL 544
THE BOARD OF BARBERS AND HAIRDRESSERS

The following changes were made by the house regarding CSSB 544:

(1) P. 2. LS. 7-12 (CSSB 544) - The house deleted these lines in the Senate Bill which removes the regulation of fees by the board. The house inserted a fee schedule into ststute which we can go along with. In the HCS the fee schedule is added on P. 8/9, Ls. 5/1.

(2) P. 5. LS. 7-10 (HCSCSSB 544) - The house added a section (c) which allows the board to create limited areas of professional licensing of cosmotology by regulation.
The board may not restrict or regulate the fields of manicure or pedicure. Initially the Senate didn't realize that there were only 4 (four) manicurirts in the state. All their equipment and materials can be purchased over the counter and there is no need to regulate these fields. We can go along with this change. Section (c) in the senate bill was changed to (d) in the HCS to allow for this change.

(3) P. 6. LS. 8-10 (HCSCSSB 544) - The house added a sentence requiring a person holding a student permit or temporary permit to have his permit available for inspection when engaged in practice. This goes along with the requirement for display of license of other practitioners as well.

(4) P. 7. LS. 8 (CSSB 544) - - The house deleted [a manacurist] from this section since there is no need for regulation of manacurists. (see (2) above).

(5) P. 9, LS. 9-13 - The definition of manacurist was deleted. (see (2) above)

IN THE SENATE BY THE COMMERCE COMMITTEE

HOUSE CS FOR CS FOR SENATE BILL NO. 544

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act relating to the regulation of the practice of barbering, hairdressing, and cosmetology; terminating the existence of the Board of Barber Examiners and the Board of Hairdressing and Beauty Culture Examiners; establishing the Board of Barbers and Hairdressers; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 08 is amended by adding a new chapter to read:

CHAPTER 13. BARBERS AND HAIRDRESSERS.

ARTICLE 1. BOARD OF BARBERS AND HAIRDRESSERS.

Sec. 08.13.010. CREATION AND MEMBERSHIP OF BOARD. (a) There is created the Board of Barbers and Hairdressers consisting of five members appointed by the governor.

(b) The board consists of

(1) two persons licensed as barbers under this chapter;

(2) two persons licensed as hairdressers under this chapter; and

(3) one public member.

Sec. 08.13.020. TERM OF OFFICE AND REMOVAL OF MEMBERS. Members serve staggered terms of three years at the pleasure of the governor. Members of the board may be appointed to serve no more than two consecutive full terms.

Sec. 08.13.030. POWERS AND DUTIES OF THE BOARD. (a) The board shall exercise general control over the vocations of barbering, hair-

dressing, and cosmetology.

(b) The board shall

(1) examine applicants and approve the issuance of licenses and permits to practice;

(2) authorize the issuance of licenses for schools of barbering, hairdressing, and cosmetology.

(c) The board may

(1) suspend or revoke a license or permit;

(2) on its own motion or upon receipt of a written complaint, conduct hearings and request the department to investigate the practices of a person, shop, or school involved in the practice or teaching of barbering, hairdressing, or cosmetology;

(3) adopt regulations or do any act necessary to carry out the provisions of this chapter.

Sec. 08.13.040. MEETINGS AND EXAMINATIONS. The board shall meet as often as necessary to conduct its business. It shall conduct separate examinations covering each field of practice: barbering, hairdressing, and cosmetology. Examinations shall be given at least twice in every year for each field of practice for which applications for licensure are pending. An applicant may take an examination in more than one field during the same testing session.

Sec. 08.13.050. RECORDS OF THE BOARD. The board shall keep a record of its proceedings related to the issuance, refusal, suspension, and revocation of each license and permit. The record shall contain the name of the person to whom a license or permit is issued, his place of business, the date of issuance for each license and permit, and whether it is currently valid. The record shall be open to inspection by the public at all reasonable times. The board shall submit an annual report on its operations to the governor.

ARTICLE 2. EXAMINATION AND LICENSING.

Sec. 08.13.070. LICENSE REQUIRED. A person may not

(1) practice barbering, hairdressing, or cosmetology without a license, temporary permit, or student permit unless exempted under AS 08.13.160(d);

(2) open or conduct a school of barbering, hairdressing, or cosmetology without a license;

(3) operate a shop in violation of AS 08.13.120;

(4) permit a person in his employ or under his supervision who is not exempted under AS 08.13.160(d) to practice barbering, hairdressing, or cosmetology without a license, temporary permit, or student permit;

(5) permit the use of his license, temporary permit, or student permit by another person;

(6) obtain or attempt to obtain a license, temporary permit, or student permit by fraudulent means.

Sec. 08.13.080. QUALIFICATIONS OF APPLICANTS. An applicant for examination must

(1) have successfully completed all courses that a school with a program in barbering is required to teach in order to be licensed under AS 08.13.110 if applying for a license to practice barbering;

(2) have successfully completed all courses that a school with a program in hairdressing is required to teach to be licensed under AS 08.13.110 if applying for a license to practice hairdressing;

(3) have successfully completed all courses that a school with a program in cosmetology is required to teach in order to be licensed under AS 08.13.110 if applying for a license to practice cosmetology; or

(4) have served an apprenticeship under AS 08.13.082.

Sec. 08.13.082. APPRENTICESHIP. (a) The period of apprenticeship

required to qualify an applicant for a license to practice barbering is 1,500 hours. The apprenticeship must be served in a shop approved by the board. The apprenticeship may not be completed in less than nine months from the date of its commencement and must be completed in not more than two years from the date of its commencement.

(b) The period of apprenticeship required to qualify an applicant for a license to practice hairdressing is 2,000 hours. The apprenticeship must be served in a shop approved by the board. The apprenticeship may not be completed in less than one year from the date of its commencement and must be completed in not more than two years from the date of its commencement.

(c) The period of apprenticeship required to qualify an applicant for a license to practice cosmetology is 350 hours. The apprenticeship must be served in a shop approved by the board. The apprenticeship may not be completed in less than six months from the date of its commencement and must be completed in not more than one year from the date of its commencement.

Sec. 08.13.090. EXAMINATIONS AND OTHER REQUIREMENTS. (a) A written examination shall be given to each applicant for examination at a time and place determined by the board. The board may delegate the power of examination to a committee of the board or a board member.

(b) The written examination shall cover subjects designated by the board and shall test the applicant's knowledge of sanitary practices, safety of all procedures, and use of instruments, equipment and chemicals permitted within the field of practice for which the applicant is seeking a license.

(c) The board may by regulation establish requirements for a practical examination for licensure.

Sec. 08.13.100. LICENSE. (a) The board shall authorize the

issuance of a license to each qualified applicant who has passed an examination under AS 08.13.090. The license is valid for two years and subject to renewal.

(b) A license shall state the areas of practice (barbering, hairdressing, cosmetology, or any combination) which the practitioner is qualified to perform.

(c) The board may by regulation create areas of limited professional licensing in the field of cosmetology, except that the board may not restrict or otherwise regulate the practice of manicure or pedicure. Any limitation must be stated on the license.

(d) A person holding a current valid license from a board of barbering, hairdressing, or cosmetology in another state or country is entitled to a license under this chapter without examination. An application shall include:

(1) proof of a valid license issued by another licensing jurisdiction;

(2) proof of completed training and working experience which the board finds to meet the minimum requirements of the state;

(3) payment of a credential investigation fee.

Sec. 08.13.110. SCHOOL LICENSE. The board shall adopt regulations for the licensing of schools of barbering, hairdressing, and cosmetology. The regulations shall include details of the curriculum, minimum hours of instruction, physical condition of the facilities, and financial responsiblity of the owner.

Sec. 08.13.120. SHOP LICENSE. The board shall adopt regulations for the licensing of shops. A shop owner will be licensed to operate a shop without examination, but unless he is a practitioner he may not conduct business without employing a manager who is a practitioner. This section does not apply to a shop located in a community having a

population of less than 1,000 people which is not within 25 miles of a community of more than 1,000 people.

Sec. 08.13.130. DISPLAY OF LICENSE OR PERMIT. A practitioner shall display his license in a conspicuous location in his place of business. Each shop owner is responsible for the display of the licenses of employees. A practitioner who practices outside of a place of business shall carry his license with him to be shown to persons upon whom work is performed. →A person holding a student permit or temporary permit shall have his permit available for inspection when engaged in practice.

Sec. 08.13.140. LAPSED LICENSE. A lapsed license may be reinstated if the license has not been lapsed for a period of more than three years, and all renewal and delinquent fees for the period during which the license has been lapsed are paid.

Sec. 08.13.150. GROUNDS FOR REFUSAL, SUSPENSION OR REVOCATION OF A LICENSE OR PERMIT. The board may refuse, suspend, or revoke a license, student permit, or temporary permit for failure to comply with this chapter, with a regulation adopted under this chapter, or with an order of the board.

Sec. 08.13.160. APPLICATION OF LICENSE REQUIREMENTS. (a) A person holding a valid license to practice barbering under AS 08.12 is licensed under this chapter, and may continue to practice barbering under the conditions imposed by AS 08.12 and the regulations issued under AS 08.12 until the license expires.

(b) A person holding a valid license under AS 08.28 may continue to practice under the conditions imposed under AS 08.28 and the regulations issued under AS 08.28 until the license expires.

(c) A person holding a valid license issued under AS 08.12 or AS 08.28 shall be entitled upon its expiration to a license to practice

under this chapter in the field of practice for which he was originally licensed, without meeting requirements for new licensure.

(d) The licensing and permit provisions of this chapter do not apply to

(1) a person practicing barbering, hairdressing, or cosmetology in a community having a population of less than 1,000 people which is not within 25 miles of a community of more than 1,000 people and who uses only chemicals available to the general public;

(2) a shampoo person.

Sec. 08.13.170. TEMPORARY PERMITS. (a) A person not licensed under this chapter who wishes to practice and teach barbering, hairdressing, or cosmetology temporarily and primarily for educational purposes who is otherwise qualified to practice barbering, hairdressing, or cosmetology as determined by the board shall first obtain a temporary permit.

(b) The temporary permit shall specify

(1) the purpose for which it is granted;

(2) the period during which the holder of the temporary permit may practice;

(3) the place or places the holder of the temporary permit may practice.

Sec. 08.13.180. STUDENT PERMITS. A person attending a licensed school of barbering, hairdressing, or cosmetology, and a person apprenticed to a practitioner in a shop approved by the board shall obtain a student permit. A student permit to practice barbering or hairdressing is valid for two years. A student permit to practice cosmetology is valid for one year. A student permit may not be renewed, but, upon application, the board may issue a new permit to the same person, or extend an expired permit to the date of the next scheduled examination.

Credit earned under an expired student permit may be transferred to a new permit as determined by the board.

Sec. 08.13.185. FEES. The following fees are imposed under this chapter as applicable:

(1) schools:

initial two-year license fee.....$700

biennial renewal..... 400

(2) school owner:

initial two-year license fee.....$ 70

biennial renewal..... 60

(3) instructor:

initial two-year license fee.....$ 70

biennial renewal..... 60

(4) shop owner:

initial two-year license fee.....$ 45

biennial renewal..... 40

(5) practitioner of barbering:

initial two-year license fee.....$ 55

biennial renewal..... 40

(6) practitioner of hairdressing:

initial two-year license fee.....$ 55

biennial renewal..... 40

(7) practitioner of cosmetology:

initial two-year license fee.....$ 45

biennial renewal..... 30

(8) temporary permit.....$ 30

(9) student permit.....$ 20

(10) examination fee.....$ 25

(11) investigation fee.....$ 25

(12) delinquent fee for late renewal.....$ 20

Sec. 08.13.190. FAILURE TO POSSESS A LICENSE OR PERMIT. A person who practices barbering, hairdressing, or cosmetology, or operates a shop, or operates a school of barbering, hairdressing, or cosmetology, or teaches in a school of barbering, hairdressing, or cosmetology, without a license, temporary permit, or student permit and who is not exempt under AS 08.13.120 or under 08.13.160(d) is guilty of a class B misdemeanor.

ARTICLE 3. GENERAL PROVISIONS.

Sec. 08.13.200. DEPOSIT OF RECEIPTS. Money received by the board from the payment of fees shall be paid into the general fund of the state.

Sec. 08.13.210. HEALTH AND SANITARY CONDITIONS. Health and sanitary conditions in shops and schools of barbering, hairdressing, and cosmetology shall be supervised by the Department of Health and Social Services.

Sec. 08.13.220. DEFINITIONS. As used in this chapter,

(1) "apprentice" means a person who receives on-the-job training under the direct supervision of a practitioner, who does not receive a wage or commission before he has completed 350 hours of training, and for whose work no charge is made before he has completed 350 hours of training;

(2) "barbering" means shaving, trimming, or cutting the beard or hair of a living person for a fee and for cosmetic purposes;

(3) "board" means the Board of Barbers and Hairdressers;

(4) "cosmetology" means the use of the hands, mechanical or electric apparatus or appliances, cosmetic preparations, antiseptics, or lotions in massaging, cleansing, stimulating, or similar work on the human body for cosmetic purposes for a fee;

(5) "hairdressing" means performing, for a fee, the following services for cosmetic purposes:

(A) shaving, trimming, or cutting the beard of a living person; and

(B) arranging, styling, dressing, curling, temporary waving, permanent waving, cutting, singeing, bleaching, coloring, cleansing, conditioning, or similar work on the hair of a living person;

(6) "practitioner" means a person licensed to practice barbering, hairdressing, or cosmetology under this chapter;

(7) "shampoo person" means a person who, for a fee and under the supervision of a practitioner of barbering or hairdressing, cleanses or conditions the hair of the human head with products which have no effect other than cleaning or conditioning the hair;

(8) "shop" is an establishment operated for the purpose of engaging in barbering, hairdressing, or cosmetology.

* Sec. 2. AS 08.03.010(c) is amended by adding a new paragraph to read:

(2) Board of Barbers and Hairdressers (AS 08.13.010) -- June 30, 1984.

* Sec. 3. AS 18.05.040(a)(9) is amended to read:

(9) standards of cleanliness and sanitation in connection with the construction, operation and maintenance of a camp, cannery, food handling establishment, food manufacturing plant, mattress manufacturing establishment, industrial plant, school, barber shop, hairdressing or cosmetology [COSMETOLOGICAL] establishment, soft drink establishment, beer and wine dispensaries, and for other similar establishments in which insanitation may create a condition causative of disease.

* Sec. 4. AS 44.62.330(a) is amended by adding a new paragraph to read:

(47) Board of Barbers and Hairdressers (AS 08.13.010).

* Sec. 5. AS 08.03.010(b)(2) and (4); AS 08.12; AS 08.28; and AS 44.62.-330(a)(1) and (7) are repealed.

* Sec. 6. This Act takes effect immediately in accordance with AS 01.10.-070(c).

and revocation of licenses and permits. The record shall contain the name, place of business, and date of each license and permit issued and shall be open to inspection by the public at all reasonable times. The board shall submit an annual report on its operations to the governor.

ARTICLE 2. EXAMINATION AND LICENSING.

Sec. 08.13.070. LICENSE REQUIRED. A person may not

(1) practice barbering, hairdressing, or cosmetology without a license, temporary permit, or student permit unless exempted under AS 08.13.160(c);

(2) open or conduct a school of barbering, hairdressing, or cosmetology without a license;

(3) operate a shop in violation of AS 08.13.120;

(4) permit a person in his employ or under his supervision who is not exempted under AS 08.13.160(c) to practice barbering, hairdressing, or cosmetology without a license, temporary permit, or student permit;

(5) permit the use of his license, temporary permit, or student permit by another person;

(6) obtain or attempt to obtain a license, temporary permit, or student permit by fraudulent means.

Sec. 08.13.080. QUALIFICATIONS OF APPLICANTS. An applicant for examination must

(1) have successfully completed all courses that a school with a program in barbering is required to teach in order to be licensed under AS 08.13.110 if applying for a license to practice barbering;

(2) have successfully completed all courses that a school with a program in hairdressing is required to teach to be licensed under AS 08.13.110 if applying for a license to practice hairdressing;

(3) have successfully completed all courses that a school

with a program in cosmetology is required to teach in order to be licensed under AS 08.13.110 if applying for a license to practice cosmetology; or

(4) have served an apprenticeship under AS 08.13.082.

Sec. 08.13.082. APPRENTICESHIP. (a) The period of apprenticeship required to qualify an applicant for a license to practice barbering is 1,500 hours. The apprenticeship must be served in a shop approved by the board. The apprenticeship may not be completed in less than nine months from the date of its commencement and must be completed in not more than two years from the date of its commencement.

(b) The period of apprenticeship required to qualify an applicant for a license to practice hairdressing is 2,000 hours. The apprenticeship must be served in a shop approved by the board. The apprenticeship may not be completed in less than one year from the date of its commencement and must be completed in not more than two years from the date of its commencement.

(c) The period of apprenticeship required to qualify an applicant for a license to practice cosmetology is 350 hours. The apprenticeship must be served in a shop approved by the board. The apprenticeship may not be completed in less than six months from the date of its commencement and must be completed in not more than one year from the date of its commencement.

Sec. 08.13.090. EXAMINATIONS AND OTHER REQUIREMENTS. (a) A written examination shall be given to each applicant for examination at a time and place determined by the board. The board may delegate the power of examination to a committee of the board or a board member.

(b) The written examination shall cover subjects designated by the board and shall test the applicant's knowledge of sanitary practices, safety of all procedures, and use of instruments, equipment and chemi-

cals permitted within the field of practice for which the applicant is seeking a license.

(c) The board may by regulation establish requirements for a practical examination for licensure.

Sec. 08.13.100. LICENSE. (a) The board shall authorize the issuance of a license to each qualified applicant who has passed an examination under AS 08.13.090. The license is valid for two years and subject to renewal.

(b) A license shall state the areas of practice (barbering, hairdressing, cosmetology, or any combination) which the practitioner is qualified to perform.

(c) A person holding a current valid license from a board of barbering, hairdressing, or cosmetology in another state or country is entitled to a license under this chapter without examination. An application shall include:

(1) proof of a valid license issued by another licensing jurisdiction;

(2) proof of completed training and working experience which the board finds to meet the minimum requirements of the state;

(3) payment of a credential investigation fee.

Sec. 08.13.110. SCHOOL LICENSE. The board shall adopt regulations for the licensing of schools of barbering, hairdressing, and cosmetology The regulations shall include details of the curriculum, minimum hours of instruction, physical condition of the facilities, and financial responsiblity of the owner.

Sec. 08.13.120. SHOP LICENSE. The board shall adopt regulations for the licensing of shops. A shop owner will be licensed to operate a shop without examination, but unless he is a practitioner he may not conduct business without employing a manager who is a practitioner.

This section does not apply to a shop located in a community having a population of less than 1,000 people which is not within 25 miles of a community of more than 1,000 people.

Sec. 08.13.130. DISPLAY OF LICENSE. A practitioner shall display his license in a conspicuous location in his place of business. Each shop owner is responsible for the display of the licenses of employees. A practitioner who practices outside of a place of business shall carry his license with him to be shown to persons upon whom work is performed.

Sec. 08.13.140. LAPSED LICENSE. A lapsed license may be reinstated if the license has not been lapsed for a period of more than three years, and all renewal and delinquent fees for the period during which the license has been lapsed are paid.

Sec. 08.13.150. GROUNDS FOR REFUSAL, SUSPENSION OR REVOCATION OF A LICENSE OR PERMIT. The board may refuse, suspend, or revoke a license, student permit, or temporary permit for failure to comply with this chapter, with a regulation adopted under this chapter, or with an order of the board.

Sec. 08.13.160. APPLICATION OF LICENSE REQUIREMENTS. (a) A person holding a valid license to practice barbering under AS 08.12 is licensed under this chapter, and may continue to practice barbering under the conditions imposed by AS 08.12 and the regulations issued under AS 08.12 until the license expires, at which time the provisions of this chapter apply and a license issued under AS 08.12 cannot be renewed.

(b) A person holding a valid license under AS 08.28 may continue to practice under the conditions imposed under AS 08.28 and the regulations issued under AS 08.28 until the license expires, at which time the provisions of this chapter apply and a license issued under AS 08.28 cannot be renewed.

(c) The licensing and permit provisions of this chapter do not apply to

(1) a person practicing barbering, hairdressing, or cosmetology in a community having a population of less than 1,000 people which is not within 25 miles of a community of more than 1,000 people and who uses only chemicals available to the general public;

(2) a shampoo person;

(3) a manicurist.

Sec. 08.13.170. TEMPORARY PERMITS. (a) A person not licensed under this chapter who wishes to practice and teach barbering, hairdressing, or cosmetology temporarily and primarily for educational purposes who is otherwise qualified to practice barbering, hairdressing, or cosmetology as determined by the board shall first obtain a temporary permit.

(b) The temporary permit shall specify

(1) the purpose for which it is granted;

(2) the period during which the holder of the temporary permit may practice;

(3) the place or places the holder of the temporary permit may practice.

Sec. 08.13.180. STUDENT PERMITS. A person attending a licensed school of barbering, hairdressing, or cosmetology, and a person apprenticed to a practitioner in a shop approved by the board shall obtain a student permit. A student permit to practice barbering or hairdressing is valid for two years. A student permit to practice cosmetology is valid for one year. A student permit may not be renewed, but, upon application, the board may issue a new permit to the same person, or extend an expired permit to the date of the next scheduled examination. Credit earned under an expired student permit may be transferred to a new

permit as determined by the board.

Sec. 08.13.190. FAILURE TO POSSESS A LICENSE OR PERMIT. A person who practices barbering, hairdressing, or cosmetology, or operates a shop, or operates a school of barbering, hairdressing, or cosmetology, or teaches in a school of barbering, hairdressing, or cosmetology, without a license, temporary permit, or student permit and who is not exempt under AS 08.13.120 or under 08.13.160(c) is guilty of a class B misdemeanor.

ARTICLE 3. GENERAL PROVISIONS.

Sec. 08.13.200. DEPOSIT OF RECEIPTS. Money received by the board from the payment of fees shall be paid into the general fund of the state.

Sec. 08.13.210. HEALTH AND SANITARY CONDITIONS. Health and sanitary conditions in shops and schools of barbering, hairdressing, and cosmetology shall be supervised by the Department of Health and Social Services.

Sec. 08.13.220. DEFINITIONS. As used in this chapter,

(1) "apprentice" means a person who receives on-the-job training under the direct supervision of a practitioner, who does not receive a wage or commission before he has completed 350 hours of training, and for whose work no charge is made before he has completed 350 hours of training;

(2) "barbering" means shaving, trimming, or cutting the beard or hair of a living person for a fee and for cosmetic purposes;

(3) "board" means the Board of Barbers and Hairdressers;

(4) "cosmetology" means the use of the hands, mechanical or electric apparatus or appliances, cosmetic preparations, antiseptics, or lotions in massaging, cleansing, stimulating, or similar work on the human body for cosmetic purposes for a fee;

(5) "hairdressing" means performing, for a fee, the following services for cosmetic purposes:

(A) shaving, trimming, or cutting the beard of a living person; and

(B) arranging, styling, dressing, curling, temporary waving, permanent waving, cutting, singeing, bleaching, coloring, cleansing, conditioning, or similar work on the hair of a living person;

(6) "manicurist" means a person who uses the hands, mechanical or electric apparatus or appliances, cosmetic preparations, antiseptics, or lotions in massaging, cleansing or similar work on the human hands or trims, shapes or polishes the nails of the human hands for cosmetic purposes for a fee;

(7) "practitioner" means a person licensed to practice barbering, hairdressing, or cosmetology under this chapter;

(8) "shampoo person" means a person who, for a fee and under the supervision of a practitioner of barbering or hairdressing, cleanses or conditions the hair of the human head with products which have no effect other than cleaning or conditioning the hair;

(9) "shop" is an establishment operated for the purpose of engaging in barbering, hairdressing, or cosmetology.

* Sec. 2. 18.03.010(c) is amended by adding a new paragraph to read:

( ) Board of Barbers and Hairdressers (AS 08.13.010) -- June 30, 34.

* Sec. 3. S 18.05.040(a)(9) is amended to read:

(9) standards of cleanliness and sanitation in connection with the construction, operation and maintenance of a camp, cannery, food handling establishment, food manufacturing plant, mattress manufacturing establishment, industrial plant, school, barber shop, hairdressing

or cosmetology [COSMETOLOGICAL] establishment, soft drink establishment, beer and wine dispensaries, and for other similar establishments in which insanitation may create a condition causative of disease.

* Sec. 4. AS 44.62.330(a) is amended by adding a new paragraph to read:

(47) Board of Barbers and Hairdressers (AS 08.13.010).

* Sec. 5. AS 08.03.010(b)(2) and (4); AS 08.12; AS 08.28; and AS 44.62.-330(a)(1) and (7) are repealed.

* Sec. 6. This Act takes effect immediately in accordance with AS 01.10.-070(c).

SUBJECT: Proposed legislation---
Board of Hairdressing and
Beauty Culture Examiners

Mrs. Ione Lambert of the Alaska Board of Hairdressing and Beauty Culture Examiners has requested that I send you the attached copy of proposed legislation which was drafted by this division on behalf of the board for possible introduction as Executive Branch Legislation.

The draft was not approved by Governor Hammond for his introduction and the board has been informed that they must now seek an alternate method of introduction if an interest in this draft still exists.

	one-time renewal of permit fee	$ 10

Re. to Dept. - input from Board!

Board recommendation.

HOUSE RESEARCH AGENCY
Pouch Y - State Capitol
Juneau, Alaska 99811
465-3991

MEMORANDUM March 4, 1980

TO: Representative Fred Brown

FROM: Elaine Mitchell, Research Analyst

RE: Oregon's Combined Board of Hairdressers and Barbers
Research Request No. 89

Background

In 1977, the Oregon Legislature, under sunset provisions, was considering the activities of various boards and commissions. At that time, there were separate boards of examiners for barbers and for hairdressers. There had been for a number of years, according to one contact, fighting between the two associations over "turf" i.e., which profession would prevail over what services of the industry. There was also a belief among some of the industry that if they didn't come up with a viable proposal, the legislature would "do it for them."

Opposition to the combination of the two boards was voiced strongly by organized barbers. Through the barbers' union, the traditional entry into the profession was via the apprentice-journeyman route. The barbers were opposed to any change in the system and mounted a labor-intensive campaign in an attempt to defeat the legislation to combine the boards.

An organization was formed for the specific purpose of lobbying for a combined board of examiners--to place the hairdressers and the barbers under one examining board. The organization, still in existence, is named The Professional Hair Industry, Inc.

Interview Comments

According to a spokesman for that organization, Wayne Beinert, who is head of the Executive Barbers School in Portland, the combined board is a positive move for the industry in general. It has simplified the licensing procedure by (a) providing for a "one-stop" examination and licensing procedure; (b) eliminating the practical demonstration type examination; and (c) providing for an on-going licensing procedure schedule. Exams are scheduled once a month at designated areas throughout the state; are written exams only; and cover five categories: chemistry, safety, sanitation, use of implements, and state laws.

The administrator of the combined boards, Virginia Honeywell, discussed positive results: reduced paperwork within the administration and reduced cost. The latter will result this year in reduced cost to license applicants from $50 to $30, effective July 1, 1980; examination fees will be reduced from $15 to $10.

Individual licensed shop owners were also contracted. A barber (Eddie Gustamente) was a licensed barber at the time of the combination of the two boards, and is now a licensed hairdresser and barber. He related a positive reaction to the combined boards; and stated that objections by barbers at the time of the legislative consideration were voiced "probably because they were not prepared to get into 'hairdressing.'"

A hairdresser (Ilene Copeland) was a licensed hairdresser at the time of legislative consideration of the combination of the two boards, and is a member of the above named organization which lobbied for the change. She also related a positive attitude for the change, pointing out, in addition to the above comments, that it "has made life simpler for the licensed shop owner."

If you would like additional information, please let us know.

VICTOR ATIYEH
GOVERNOR

Department of Commerce
BOARD OF BARBERS AND HAIRDRESSERS
FOURTH FLOOR, LABOR & INDUSTRIES BUILDING, SALEM, OREGON 97310 PHONE 378-8667

February 21, 1980

Mr. John Mathison
Senate Commerce Committee
Pouch V
Juneau, ALASKA 99811

Dear Mr. Mathison:

I enjoyed talking with you today, and appreciate you looking to Oregon as a model for your proposed legislation.

Enclosed is the following information as per our telephone conversation:

1. Xeroxed copy of C-Engrossed and Enrolled HB-3167;
2. Summary of HB-3167;
3. ORS Chapter 690;
4. OAR Chapter 817;
5. In-State Packet;
6. Out-of-State Packet;
7. Assorted Forms;
8. Baker vs. Daly.

Upon review of the packets, you will note that we no longer require pre-filing for examination by the applicant (this eliminates a tremendous amount of paper-shuffle). *

When reviewing ORS Chapter 690, you will find that students can choose the area or field in which they wish to train. Example: a student may choose to train in hairdressing only, or any field, or combination of fields. Upon completion of training, he or she can be examined in that area(s) without being required to train in the others. * This approach says: It is not incumbent upon the practitioner to know how to manicure to be able to dress hair. I believe this concept is in keeping with the 14th Amendment to the Constitution of the United States.

.../2

I'm also enclosing a 1926 District Court case that you may find of interest. Our required curriculum is in keeping with the decision of this case. Although students were required to train in all areas until 1977, when the Legislature acknowledged and legislated separate fields of training, e.g., hairdressing, cosmetology and manicuring.

If I can be of further assistance, please feel free to contact me.

Sincerely,

Virginia L. Honeywell

Virginia L. Honeywell,
Administrator

GENERAL PROVISIONS

690.005 Definitions. As used in ORS 690.005 to 690.243:

(1) "Board" means the State Board of Barbers and Hairdressers.

(2) "Certificate" means a certificate of registration, issued in accordance with ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992, authorizing the holder to practice hair design, cosmetology or manicure in accordance with the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(3) "Cosmetology" means the use of the hands, mechanical or electrical apparatus or appliances, cosmetic preparations, antiseptics, tonics, lotions or creams in massaging, cleansing, stimulating, manipulating, exercising, beautifying or similar work performed on the human body for cosmetic purposes and not for the treatment of disease or physical or mental ailments, and when done for payment either directly or indirectly for the public generally.

(4) "Hair design" means, when done upon the human body for cosmetic purposes and not for the treatment of disease or physical or mental ailments, and when done for payment either directly or indirectly for the public generally, any one or more of the following practices:

(a) Shaving, trimming or cutting of the beard.

(b) Arranging, styling, dressing, curling, temporary waving, permanent waving, relaxing, cutting, singeing, bleaching, coloring, dyeing, cleansing, shampooing, conditioning, applying hair tonics or similar work upon the hair of an individual.

(5) "License" means a license to operate a shop issued under the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(6) "Manicure" means cutting, trimming, polishing, coloring, tinting, cleansing, or otherwise treating the nails of the hand or massaging, cleansing, treating or beautifying the hands performed for cosmetic purposes and not for the treatment of disease or physical or mental ailments, and when done for payment either directly or indirectly for the public generally.

(7) "Practitioner" means a person certified and registered to practice hair design, cosmetology or manicure under the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(8) "School of hair design" means an establishment operated for the purpose of teaching hair design and licensed under ORS chapter 345.

(9) "Shop" means an establishment operated for the purpose of engaging in the practice of hair design, cosmetology or manicure and licensed under the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

[1977 c.886 §1]

690.010 [Amended by 1969 c.687 §1; 1977 c.270 §1; repealed by 1977 c.842 §28 and 1977 c.886 §42]

690.015 Certificate required; prohibited acts. No person shall:

(1) Practice or attempt to practice hair design, cosmetology or manicure without a certificate as a practitioner issued pursuant to ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(2) Operate a shop unless it is at all times under the direct supervision and management of a practitioner.

(3) Display a sign or in any way advertise or hold himself out as a practitioner, barber or hairdresser or as being engaged in the practice or business of hair design, cosmetology or manicure without first obtaining a certificate or license as provided in ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(4) Knowingly make a false statement on an application for a license, certificate or permit or for the renewal of a license, certificate or permit issued under the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(5) Permit any person in his employ or under his supervision or control to practice hair design, cosmetology or manicure without a certificate as required by ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(6) Obtain or attempt to obtain a certificate, license or permit by fraudulent means.

(7) Permit the fraudulent use of his certificate by another person.

[1977 c.886 §3]

690.020 [Amended by 1961 c.300 §3; 1969 c.687 §2; repealed by 1977 c.842 §28 and 1977 c.886 §42]

690.025 Application of chapter. ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992 do not apply to:

(1) Services performed without compensation in case of emergency or in domestic administration.

(2) The following persons while in the proper discharge of their professional duties:

(a) Persons authorized by the law of this state to practice medicine, osteopathy, surgery or dentistry.

(b) Registered nurses.

(c) Persons licensed by the State Board of Pharmacy, merchants or other individuals when demonstrating apparatus or supplies for purposes of sale.

(d) Commissioned medical and surgical officers of the United States Army, Navy or Marine Hospital Service.

(3) A student attending a school licensed to teach hair design, cosmetology or manicure under ORS chapter 345 nor is such person required to obtain a license under ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992 to perform within the scope of his training.
[1977 c.886 §2]

690.030 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

CERTIFICATES, LICENSES AND PERMITS

690.035 Application for license or certificate. A person desiring to obtain a license or certificate shall apply in writing to the board on a form provided by the board. Each application shall be accompanied by evidence under oath or affirmation and satisfactory to the board that the applicant possesses the necessary qualifications.
[1977 c.886 §4]

690.040 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.045 Qualifications; issuance of certificate; duration of validity. (1) To be issued a certificate as a practitioner, each applicant shall:

(a) Pass the certification examination given by the board pursuant to ORS 690.065;

(b) Pay the examination fee and application fee determined by the board; and

(c) If the applicant is applying for a certificate to practice hair design, have successfully completed all courses a school of hair design is required to teach to be licensed under ORS chapter 345; or

(d) If the applicant is applying for a certificate to practice cosmetology or manicure, have successfully completed all courses a school permitted to teach cosmetology or manicure is required to teach to be licensed under ORS chapter 345.

(2) An applicant who holds a currently valid license or certificate to perform hair design, cosmetology or manicure issued by a licensing agency of another state or territory of the United States shall not be required to comply with paragraph (c) or (d) of subsection (1) of this section.

(3) An applicant shall not be required to comply with paragraph (c) or (d) of subsection (1) of this section if the applicant is the graduate of a hair design, cosmetology or manicure school in another state or territory or in a state correctional institution and the requirements for successful completion of training at the school are determined by the Superintendent of Public Instruction to meet the minimum requirements for licensing a school of hair design or a school permitted to teach cosmetology or manicure under ORS chapter 345.

(4) The board shall issue to each qualified applicant a certificate. A certificate shall be valid for one year. The certificate shall be prima facie evidence of the right of the holder to practice in the field of practice for which the holder has qualified and to represent himself as a practitioner.

(5) At the request of any applicant who has qualified to perform hair design under this section, the board shall issue a certificate designating its holder as either a "barber" or "hairdresser," or both, as the applicant requests.

(6) A certificate shall state the areas of practice the practitioner may preform.
[1977 c.886 §5]

690.050 [Amended by 1959 c.630 §1; 1961 c.436 §1; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.055 Shop license requirements. (1) To be issued a license for a shop, each applicant shall:

(a) Be 18 years of age.

(b) Comply with the rules of the board concerning health, safety and sanitation.

(c) Comply with the applicable health and safety laws and rules of the Health Division and any other state agencies.

(d) Pay the application fee determined by the board.

(2) The board shall issue to each qualified applicant a license. A license shall be valid for one year. The license shall be prima facie evidence of the right of the owner of the shop to operate a shop and to advertise as offering the services for which the shop is licensed.

(3) A shop issued a license under the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992 must at all times be under the direct supervision and management of a practitioner. If hair design is practiced in the shop, the practitioner who supervises the shop must have a certificate to practice hair design.
[1977 c.886 §6]

690.060 [Amended by 1959 c.630 §2; 1961 c.436 §2; 1969 c.687 §3; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.065 Examinations. (1) Examinations shall be given at such times and places as the board may determine, but in no instance less often than once every month.

(2) Examinations shall be written or oral tests and shall test the applicant's knowledge of sanitary practices and safety for all procedures permitted and in the use of all instruments, equipment or chemicals permitted within the scope of a license and certificate in the field of practice for which the applicant is seeking certification.
[1977 c.886 §7]

690.070 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.075 Grounds for refusal, suspension or revocation of certificate or license. The board may refuse to issue or may suspend or revoke any certificate or license for any one or more of the following causes:

(1) Continued performance of hair design, cosmetology or manicure by a person knowingly having an infectious or communicable disease.

(2) Violation of ORS 646.608 in the conduct of a hair design, cosmetology or manicure business.

(3) Violation of any of the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.
[1977 c.886 §8]

690.080 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.085 Renewal of certificates and licenses. (1) Except as otherwise provided by ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992, all certificates and licenses issued under ORS 690.005 to 690.243 and 690.992 shall expire one year after the date of issue, unless renewed within 30 days of the expiration date by payment of the required renewal fee and compliance with other requirements for renewal. The board, however, may vary the date of certificate and license renewal by giving to the applicant written notice of the renewal date being assigned and by making prorated adjustments in the renewal fee.

(2) Any license or certificate not renewed before it expires may be renewed within one year by payment of the required renewal fee, compliance with other requirements for renewal and payment of a late renewal fee set by the board.

(3) A certificate that has not been renewed for more than one year, and less than five years, after the date of expiration may be renewed and restored upon payment of one year's renewal fee.

(4) A certificate that has not been renewed for a period of five years after date of expiration may be renewed and restored if the applicant:

(a) Satisfactorily passes the examination required by ORS 690.065.

(b) Pays one year's license fee in advance.
[1977 c.886 §9]

690.090 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.095 Display of certificate required. (1) Every holder of a certificate shall display it in a conspicuous place adjacent to or near his work chair. If he has no work chair, the certificate shall be displayed in a conspicuous place within the shop.

(2) Every holder of a license shall display it in a conspicuous place within the shop.
[1977 c.886 §10]

690.100 [Amended by 1961 c.300 §4; 1969 c.687 §4; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.105 Permit requirements. (1) A person not certified under ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992 who wishes to practice, demonstrate and teach hair design, cosmetology or manicure, or perform any one or more of such functions, temporarily and primarily for educational purposes and is otherwise quali-

fied as determined by the board shall first obtain a permit from the board.

(2) The permit shall specify:

(a) The purpose for which it is granted.

(b) The period during which the person is permitted to practice, demonstrate and teach, which period shall not exceed 10 days.

(c) The time and place of exercising the privilege granted by the permit.

(3) A person may be granted a permit under subsection (1) of this section if he:

(a) Makes application to the board for the permit.

(b) Is currently licensed or certified to practice or teach hair design, cosmetology or manicure in another state and presents satisfactory evidence of that fact to the board, or is otherwise qualified as determined by the board.

(c) Describes the purpose for which the permit is sought.

(d) Pays the required permit fee.
[1977 c.886 §11]

690.110 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.115 Temporary premises license. (1) A person who wishes to temporarily operate any premises for teaching hair design, cosmetology or manicure shall first obtain a temporary premises license from the board.

(2) A person may be granted a license under subsection (1) of this section if he:

(a) Makes application to the board.

(b) Describes the purpose for which the license is sought.

(c) Identifies the location of the premises to be licensed.

(d) States the time and dates for which the license will be issued.

(e) Pays the required license fee.

(3) The license shall specify:

(a) The times, dates and location.

(b) The purpose for which the license is granted.

(c) The person to whom the license is issued. The person specified shall be responsible for the adherence to board rules governing health and sanitation.

(4) The period during which the premises shall be licensed shall not exceed five days.

(5) A temporary premises license is not required and shall not be issued if the educational activity is conducted in a licensed school of hair design, cosmetology or manicure.
[1977 c.886 §12]

690.120 [Amended by 1961 c.300 §5; 1973 c.832 §38; 1977 c.873 § 8; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.123 Certificate of identification. (1) A practitioner who practices outside of or away from a place of business shall carry with him a certificate of identification which must be shown to a person upon whom the work is being performed. The certificate shall contain the signature of the practitioner, his post-office address, the number and date of his certificate.

(2) The board shall, without charge, issue such certificates upon demand by any practitioner who practices away from his place of business on persons who are physically unable to visit a licensed shop.
[1977 c.886 §13]

690.125 [1961 c.300 §2; 1969 c.687 §6; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.130 [Amended by 1959 c.630 §3; 1961 c.300 §6; 1961 c.436 §3; 1969 c.687 §7; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.140 [Amended by 1965 c.274 §1; 1973 c.832 §39; 1977 c.873 §9; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.150 [Amended by 1961 c.300 §7; 1965 c.274 §2; 1969 c.687 §11; 1971 c.86 §1; 1973 c.832 §40; repealed by 1977 c.842 §26 and 1977 c.886 §42]

STATE BOARD

690.155 State Board of Barbers and Hairdressers; qualifications; appointment. (1) There is created within the Department of Commerce a State Board of Barbers and Hairdressers consisting of seven members appointed by the Director of Commerce. Each member of the board shall serve for a term of three years and until his successor is appointed and qualified. At all times the membership of the board shall be so constituted that:

(a) Six members of the board shall be practitioners licensed under the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(b) One member shall be a public member not licensed under ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.

(2) A person is not eligible for appointment as a member of the board if:

(a) He is associated, directly or indirectly, in the manufacture of cosmetic or barber appliances or supplies or their rental, sale or distribution to licensees.

(b) He has previously served two terms.

(3) A member of the board serves at the pleasure of the Director of Commerce. Vacancies shall be filled by the Director of Commerce, by appointment for the unexpired term.
[1977 c.886 §14]

690.160 [1969 c.687 §9; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.165 Powers of board. In addition to the powers otherwise granted by ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992, the board shall have the power:

(1) To determine whether applicants to practice hair design, cosmetology or manicure meet the qualifications under ORS 690.045 or 690.055, to conduct examinations, and to grant certificates and licenses to qualified applicants upon compliance with ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992 and the rules of the board.

(2) To establish sanitary and safety standards for the practice of hair design, cosmetology or manicure, and to enforce the standards.

(3) To prescribe and furnish forms for applications for examinations, certificates, licenses and permits.

(4) To do any act necessary or proper to effect and carry out the duties required of the board by ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.
[1977 c.886 §21]

690.170 [1969 c.687 §10; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.175 Officers; rules; meetings; quorum; compensation and expenses. (1) The board shall elect a chairperson. The board shall prescribe rules to govern the proceedings of the board. The board shall hold meetings at such times and places as it determines. A majority of the members of the board shall constitute a quorum.

(2) Each member of the board is entitled to compensation and expenses as provided in ORS 292.495.
[1977 c.886 §§16, 17]

690.185 Administrator; appointment and compensation; services and employes. (1) The Director of Commerce shall fix the qualifications of and appoint an administrator for the board who shall not be a member of the board. Subject to the applicable provisions of the State Merit System Law, the director shall fix the compensation of the administrator, who shall be in the unclassified service.

(2) The Director of Commerce shall provide the board with such services and employes as the board requires to carry out its duties under the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992.
[1977 c.886 §18]

690.195 Records of board. The board shall keep a record of its proceedings relating to the issuance, refusal, suspension and revocation of certificates. This record shall also contain the name, place of business and the date of each certificate and license issued by the board. The records of the board shall at all reasonable times be open to inspection by the public.
[1977 c.886 §19]

690.200 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.205 Rules; approval of Health Division; when domestic use of premises permitted. (1) The board has authority to make reasonable rules for the administration of the provisions of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992 and prescribe sanitary and safety requirements for shops. Sanitary requirements for shops shall be subject to the approval of the Health Division. A copy of the rules adopted by the board shall be furnished by the board to the owner or manager of each shop.

(2) Notwithstanding subsection (1) of this section, the board may not prohibit the use of the shop for domestic purposes if the part devoted to domestic purposes is in a completely separate room not used by customers, with walls extending from floor to ceiling and with any connecting doors kept closed while the shop is in actual operation.

(3) Any rules adopted by the board shall be adopted in accordance with the procedures set forth in ORS chapter 183.
[1977 c.886 §§20, 22 (2)]

690.210 [Repealed by 1977 c.270 §3; 1977 c.842 §26 and 1977 c.886 §42]

690.215 When hearing required. Where the board proposes to revoke or suspend or refuse to issue or renew a certificate, permit or license, opportunity for hearing shall be accorded as provided in ORS chapter 183.
[1977 c.886 §22 (1)]

690.220 [Amended by 1969 c.687 §12; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.225 Inspections. (1) In addition to any other duties prescribed by law, the Director of Commerce shall establish within the Department of Commerce a program to provide for the inspection of shops licensed under ORS 690.005 to 690.243 and 690.992 and of schools licensed to teach hair design, cosmetology or manicure under ORS chapter 345.

(2) Inspections conducted under this section shall determine whether the shops comply with the sanitary and safety requirements under ORS 690.005 to 690.243 and 690.992 and rules adopted thereunder and whether the schools comply with the sanitary and safety requirements under ORS chapter 345 and rules adopted thereunder. Upon completion of each school inspection the Director of Commerce shall cause a report of the results of the inspection to be submitted to the Superintendent of Public Instruction.
[1977 c.886 §26]

690.230 [Amended by 1961 c.436 §4; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.235 Fees. Fees required to be paid shall be paid in amounts determined by the board and approved by the Director of Commerce, except that no fee shall exceed the following:

(1) The filing of an application for an original certificate as a practitioner, $15.

(2) An annual renewal of a certificate as a practitioner, $15.

(3) Each examination for a certificate as a practitioner, $15.

(4) A temporary permit issued under ORS 690.105, $5.

(5) A shop license, $50.

(6) An annual renewal for a shop license, $25.

(7) A temporary premises license, $25.

(8) A duplicate or replacement of any certificate, license or permit, $5.

(9) A late renewal fee, $5.
[1977 c.886 §23]

690.240 [Amended by 1969 c.377 §2; repealed by 1971 c.734 §21]

690.243 Use of fees. All fees and other funds received by the Department of Commerce under ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992 shall be paid into the Commerce Administration Account. The payments shall be credited to a separate subaccount, and are continuously appropriated for the purpose of administering ORS 690.005 to 690.243 and 690.992.
[1977 c.886 §24]

690.245 [1971 c.734 §146; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.250 [Amended by 1969 c.377 §3; repealed by 1971 c.734 §21]

690.260 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.270 [Repealed by 1977 c.842 §26 and 1977 c.886 §42]

SCHOOL LICENSE

690.275 Election for school to be regulated under this chapter or under vocational school law. (1) Notwithstanding any other provision of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992, any school licensed to teach barbering under the provisions of this chapter on July 27, 1977, may continue, at the election of the school, to operate under the provisions of this chapter and any rules adopted thereunder as effective on July 27, 1977, and as administered by the Superintendent of Public Instruction. If a school elects to become subject to the provisions of this section all aspects of the operation of the school shall become subject to regulation under this section, including, but not limited to, the course of study, admission requirements, teacher requirements and qualifications, teacher licensing and license renewal, requisites for graduation, work station requirements, curriculum and all other requirements for the school.

(2) If a school elects to be regulated according to the provisions of this section, it is not subject to regulation pursuant to any other provision of ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 to 690.992. Any student attending a school regulated according to the provisions of this section and any teacher teaching in the school are subject to the requirements of this chapter and any rules adopted thereunder only while attending or teaching in the school.

(3) No school shall be regulated according to the provisions of this section unless the school so elects before the effective date of the rules adopted by the State Board of Education pursuant to section 39, chapter 886, Oregon Laws 1977. Any school electing to operate according to this section may at any later time elect to withdraw from the provisions of this

section and become regulated as otherwise provided by ORS 293.110, 345.010, 345.400 to 345.450 and 690.005 tc 690.992.

(4) Any license or certificate to teach barbering issued by the Board of Barber Examiners pursuant to this chapter before July 27, 1977, sh.ll remain valid and may be renewed according to the provisions of this chapter and rules adopted thereunder as effective on July 27, 1977, ac long as the holder teaches at a school regulated according to this section.

(5) The Superintendent of Public Instruction shall administer the provisions of this section.
[1977 c.886 §38a]

690.280 [Amended by 1965 c.373 §1; 1971 c.753 §51; repealed by 1977 c.842 §26 and 1977 c.886 42]

690.290 [Amended by 1969 c.377 §1; 1973 c.832 §40a; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.300 [Amended by 1965 c.274 §3; 1969 c.314 §91; 1969 c.377 §4; 1973 c.832 §40b; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.310 [Amended by 1969 c.377 §5; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.320 [Amended by 1973 c.832 §41; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.330 [Amended by 1961 c.436 §5; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.340 [Amended by 1967 c.637 §34; repealed by 1977 c.842 §26 and 1977 c.886 §42]

PENALTIES

690.990 [Amended by 1977 c.270 §2; repealed by 1977 c.842 §26 and 1977 c.886 §42]

690.992 Penalties. Violation of ORS 690.015 is a Class B misdemeanor.
[1977 c.886 §25]

CERTIFICATE OF LEGISLATIVE COUNSEL

Pursuant to ORS 173.170, I, Thomas G. Clifford, Legislative Counsel, do hereby certify that I have compared each section printed in this chapter with the original section in the enrolled bill, and that the sections in this chapter are correct copies of the enrolled sections, with the exception of the changes in form permitted by ORS 173.160 and other changes specifically authorized by law.

Done at Salem, Oregon,
October 1, 1977.

Thomas G. Clifford

DIVISION 1

PROCEDURAL RULES

817-01-000 **NOTICE OF PROPOSED RULE**

"Prior to the adoption, amendment, or repeal of any rule, the State Board of Barbers and Hairdressers shall give notice of the proposed adoption, amendment, or repeal:

(1) In the Secretary of State's Bulletin referred to in ORS 183.360 at least fifteen (15) days prior to the effective date.

(2) By mailing a copy of the notice to persons on the State Board of Barbers and Hairdressers official mailing list established pursuant to ORS 335(6).

(3) By mailing a copy of the notice to the following organizations or publications:

(a) United Press International and Associated Press

(b) Oregon Hairdressers and Cosmetologists Association, Inc.

(c) Oregon Beauty Schools Association

(d) Professional Hair Industry Association, Inc.

(e) Oregon Barbers and Beauticians Association [Barbers, Beauticians Allied Industries International Association]

(f) Oregon State Board of Education"

817-01-005 **MODEL RULES OF PROCEDURE**

"The Model Rules of Procedure as promulgated by the Attorney General of the State of Oregon under the Administrative Procedures Act effective November 25, 1977, are by this reference adopted as the rules and procedures of the Board of Barbers and Hairdressers and shall be controlling except as otherwise required by statute or rule."

817-01-010 **REQUIRING AN ANSWER TO CHARGES AS PART OF NOTICES TO PARTIES IN CONTESTED CASES**

In addition to the notice requirements under the Attorney General's Model Rules of Procedure adopted under OAR 817-01-005, the notice to parties in contested cases may include the statement that an answer to the assertions of charges will be required and, if so, the consequence of failure to answer. A statement of the consequences of failure to answer may be satisfied by enclosing a copy of rule 817-01-015 with the notice.

817-01-015 **HEARING REQUEST AND ANSWER: CONSEQUENCE OF FAILURE TO ANSWER**

(1) A hearing request, and answer when required, shall be made in writing to the Board by the party or his attorney and an answer shall include the following:

(a) An admission or denial of each factual matter alleged in the notice;

(b) A short and plain statement of each relevant affirmative defense the party may have.

(2) Except for good cause:

(a) Factual matters alleged in the notice and not denied in the answer shall be considered a waiver of such defense;

(b) Failure to raise a particular defense in the answer will be considered a waiver of such defense;

(c) New matters alleged in the answer (affirmative defenses) shall be presumed to be denied by the agency; and

(d) Evidence shall not be taken on any issue not raised in the notice and the answer.

DIVISION 10

SANITARY AND SAFETY RULES

817-10-002 **DEFINITIONS** as used in OAR 817-10-002 through 817-50-005

(1) **ACCEPTABLE** means fulfilling the needs or requirements.

(2) **ADEQUATE VENTILATION** means ventilation by natural or mechanical means must be provided capable of providing at least two air changes per hour.

(3) **APPROVED** means accepted by the State Board of Barbers and Hairdressers.

(4) **BARBER/HAIRDRESSER** means a person certified and registered to practce Hair Design.

(5) **BOARD** means the State Board of Barbers and Hairdressers.

(6) **CERTIFICATE** means an authorization of the holder to practice Hair Design (barbering, hairdressing), Cosmetology or Manicure.

(7) **CLEAN** means the absence of soil or dirt, or the removal of soil or dirt by washing, sweeping, clearing away, or any method appropriate to the material at hand.

(8) **DISPENSARY** means that area or room where chemicals are mixed and tools and implements are washed and sanitized.

(9) **DISPOSABLE TOWELS** means disposable paper towels or the roller-type cloth towel furnished by laundries.

(10) **EASILY ACCESSIBLE** means easy to approach or enter.

(11) **EQUIPMENT** means those items usually considered stationary, e.g., waiting chairs, barber or style chairs, shampoo chairs, cabinets, sinks, shampoo bowls, stationary dryers, manicuring table and stool, and those items required to open a shop for business.

(12) **HAIR DESIGN** means the practice of barbering and hairdressing.

(13) **LICENSE** means a license to operate a shop.

(14) **MATERIAL AND SUPPLIES** means those items which complement the use of tools, e.g., towels, hair tints, bleaches, permanent wave solutions, tonics, hair oils, shampoos, rinses, disinfectants, chemicals and other such items not mentioned that are used accordingly.

(15) **NON-ABSORBENT** means incapable of absorbing, sucking up, or taking in water or other liquid.

(16) **PERMIT** means authorization by the Board which allows a licensed person from another state to practice, demonstrate and teach the acts of Hair Design, Cosmetology or Manicure or perform any one or more of such functions temporarily and primarily for educational purposes for a limited time not to exceed ten (10) days. (Authorizes the person.)

(17) **PRACTITIONER** means any person certified and registered with the Board.

(18) **PREMISES** means the entire area of the shop which is licensed by the Board and so designated as a shop.

(19) **SANITARY** means free from agents of infection, disease, or infestation by insects and vermin; and free of soil, dust, or foreign material.

(20) **SANITIZED** means rendered free of soil, dust, foreign material, and agents of disease or infestation from insects or vermin by effective cleaning and disinfecting processes.

(21) **SCHOOL** means an establishment licensed by Chapter 345 to teach Hair Design, Cosmetology or Manicure, or any combination thereof.

(22) **SHOP** means a licensed establishment wherein acts of Hair Design or Cosmetology or Manicure, or any combination thereof, are performed by certified and registered practitioners.

(23) **STERILIZER, WATER SANITIZER or PAN** means the container holding the solution which is large and deep enough to submerge the tool or implement to be disinfected.

(24) **TEMPORARY PREMISES LICENSE** means authorization by the Board which allows a person(s) to temporarily operate a premises for teaching Hair Design, Cosmetology, or Manicure for a limited time, not to exceed five (5) days. (Authorizes the place.)

(25) **TOOLS and/or IMPLEMENTS** means all portable tools and implements that can be carried in by the practitioner for use upon patrons, e.g., combs, shears, clippers, yoyettes and any other item used on the individual patron. Statutory Authority: ORS 690.205

817-10-007 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS**

Practitioners and shop owners shall observe and be subject to all state and Health Division regulations pertaining to public health and safety. Compliance with state fire, plumbing and electrical regulations is required. Statutory Authority: ORS 690.055

817-10-011 **LIGHTING**

All shops shall have adequate and sufficient artificial or natural lighting or, in lieu of natural lighting, at least 10 foot candle light at all work stations and work tables. Statutory Authority: ORS 690.205

817-10-016 **WATER SUPPLY STANDARDS**

All shops shall have a supply of both hot and cold running water with a minimum of 15 pounds pressure per square inch in accordance with the State Plumbing Code. The Water Supply Standard section requires the quality and construction to meet ORS 448 and the Health Division rules, OAR 333-42-200 thru 333-42-245. Statutory Authority: ORS 690.205

817-10-021 **TOILETS**

(1) An adequate and easily accessible toilet facility for the shop shall be provided. A public toilet facility in a public building may be acceptable.

(2) Toilet facilities shall be kept clean and sanitary without offensive odor and in working order at all times. Soap, disposable towels and hand washing facilities shall be provided. Statutory Authority: ORS 690.205

817-10-026 **WATER DISPOSAL**

All shop liquid waste from toilets and lavatories shall be discharged into a public sewer; or, in the absence of a sewer, by a method meeting the requirements of ORS 454.405 (septic tank and drain field requirements). Statutory Authority: ORS 690.205

817-10-030 **USE OF ELECTRICAL APPLIANCES FOR PREPARATION OF FOOD**

Stoves or electrical appliances used for the preparation of food shall be allowed within a shop only when located and used in an entirely separate room for use by employes only and not used for the practice of Hair Design, Cosmetology, Manicure or for the storage of supplies by the shop.

Statutory Authority: ORS 690.205

817-10-035 **TOWELS**

(1) Clean towels shall be used for each patron.

(2) Separate closed compartment(s) shall be provided for all clean linen. Packages furnished by the laundry shall not be acceptable as storage for clean linen.

(3) Closeable container(s) or hamper(s) large enough and sturdy enough to store all soiled linen shall be provided by the shop.

(4) All soiled linen shall be immediately placed in a closed, covered container(s) or hamper(s).

(5) Laundry bags shall not be used for storage of soiled linen. Statutory Authority: ORS 690.205

817-10-040 **ARTICLES IN CONTACT WITH PATRON**

(1) A neckstrip or towel shall be placed around the neck of the patron so that the hair cloth or cape does not come in contact with the skin.

(2) A common powder puff, sponge, lump alum or styptic pencil shall not be used.

(3) A sanitized neck duster may be used.

(4) If a vacuum is used in lieu of a sanitized neck duster, the attachment head of the vacuum shall be wiped clean with a towel, cloth or tissue dipped in the approved disinfecting solution after use on each patron.

Statutory Authority: ORS 690.205

817-10-045 **HEADRESTS**

The headrest of any operating chair shall be covered with fresh linen or paper for each patron.

Statutory Authority: ORS 690.205

817-10-050 **LINENS**

Clean linen shall be stored in a separate closed compartment. Statutory Authority: ORS 690.205

817-10-055 **MATERIALS IN CONTACT WITH PATRON**

(1) Powder shall be dispensed from a shaker-top receptacle.

(2) Wave solutions shall be dispensed from a suitable container in a manner which will prevent contamination of the unused fluid.

(3) Creams and semi-solid substances shall be dipped from the containers with a clean spatula or disposable tissue.

Statutory Authority: ORS 690.205

817-10-060 **REFUSE AND WASTE MATERIAL**

(1) Refuse and all dry waste material shall be stored in a fly-tight container and frequently disposed of in a sanitary manner.

(2) All waste disposal cans shall be large enough to accommodate refuse until it is picked up.

(3) All waste disposal cans shall have a fly-tight cover which shall be kept in place.

(4) Waste disposal cans shall be kept clean to prevent odor.

(5) Cardboard boxes shall not be used for the storage of waste. Statutory Authority: ORS 690.205

817-10-065 **SANITIZING SOLUTIONS**

(1) The sanitizing solution shall be made up at all times the shop is in operation. It shall be kept in a covered pan or container large enough to hold the sanitizing solution for complete immersion of the object to be sanitized.

(2) After each patron, all tools and implements (including steel manicuring equipment) which comes in direct contact with the patron (except hair clippers and emery boards) shall be cleansed of hair and other adherent foreign material, thoroughly washed with soap and other detergents in water, rinsed in clear water, and disinfected by complete immersion for at least 10 minutes in a solution containing 1600 parts per million (ppm) of a commercial quaternary ammonium compound or by complete immersion for at least 10 minutes at room temperature in a solution containing not less than 15,000 parts per million (ppm) aqueous dilution of a commercial phenol compound; rinsed again in clear water and wiped dry with clean absorbent material.

(3) Sanitizing solutions shall be kept clean and test to required strength at all times:

(a) Quaternary ammonium compounds shall test at least 1600 ppm.

(b) Phenol solutions shall test at least 15,000 ppm.

(4) After each use, steel tools having a fine cutting edge and steel manicuring equipment may be disinfected by saturating a cotton pad with 75% alcohol and rubbing the pad on the part of the tool to be disinfected. This can be used as an alternate method to 817-10-065(2).

(5) Electrical or mechanical hair clippers shall be cleansed after each individual patron by removal of hair and other adherent foreign material, operated for at least 15 seconds in a solution containing not less than 1% of a commercial alkyl phenol or of alkyl chlorophenols in hydrocarbon oil, followed by drainage for at least 10 minutes prior to wiping dry and storage for re-use on another patron.

Statutory Authority: ORS 690.205

817-10-070 **SANITIZED TOOLS AND IMPLEMENTS**

(1) All tools and implements shall be cleaned and sanitized prior to each use.

(2) If an emery board is used it shall be a fresh emery board and shall be discarded immediately. Statutory Authority: ORS 690.205

817-10-075 **STORAGE OF SANITIZED TOOLS AND IMPLEMENTS**

(1) All santized tools and implements shall be stored in a clean, dry, closed storage cabinet when not in use.

(2) Sanitized tools and implements shall be stored separately from all other.

(3) Sanitized combs and brushes spread out to dry shall be covered with a clean towel.

(4) Roller storage receptacles shall be clean and free of hair and any other adherent foreign material.

(5) Storage drawers for clean tools and implements shall be clean, free of hair and used only for said tools and implements.

(6) Storage cabinets throughout the entire shop shall be kept clean.

(7) Work stations and vanities shall be kept clean, neat and orderly. Work areas shall not be cluttered with useless, unnecessary articles such as newspapers, magazines, etc.

Statutory Authority: ORS 690.205

817-10-080 **STORAGE OF SOILED TOOLS AND IMPLEMENTS**

A receptacle, which is large and deep enough to hold soiled tools and implements shall be provided.

Statutory Authority: ORS 690.205

817-10-085 **HAIRPIECES**

When trying on a manufactured hairpiece, that portion of the head that comes in contact with the hairpiece shall be completely covered with a disposable cover. All used hair goods must be cleaned and sanitized before resale and marked as "Used."

Statutory Authority: ORS 690.205

817-10-090 **USE OF DRINKING CUPS**

(1) Disposable drinking cups shall be provided in the shop. A drinking fountain is acceptable.

(2) All drinks must be served in disposable drinking cups (patrons use) and disposed of immediately in a fly-tight covered container.

Statutory Authority: ORS 690.205

817-10-095 **PETS IN SHOPS**

No pets shall be permitted on the premises of a shop. This does not apply to a trained guide dog accompanied by a blind person.

Statutory Authority: ORS 690.205

817-10-101 **EQUIPMENT**

(1) The surface of all equipment, including backbars, within the shop for public use shall be a washable non-absorbent material and kept in a clean, orderly and sanitary condition.

(2) Shampoo bowls shall be clean of hair and free of residue. A clean towel shall be placed around the neck of each patron to protect the patron while in position at the shampoo bowl.

(3) All equipment (furniture) fabric shall be clean and in good repair. Badly spotted, torn or worn fabric shall be replaced.

Statutory Authority: ORS 690.205

817-10-106 **FLOOR SURFACE**

(1) Floor surfaces in a shop shall be of a washable, non-absorbent, material such as washable carpeting, nylon or acrylic fibers, tile or linoleum and kept in a clean, orderly and sanitary condition.

(2) Floor surfaces shall be kept clean and in good repair. Worn or broken floor coverings shall be replaced. Statutory Authority: ORS 690.205

817-10-110 **WALLS AND CEILINGS**

Walls and ceilings shall be clean and free of leak spots, mildew, condensate or peeling paint.

Statutory Authority: ORS 690.205

817-10-115 **WINDOWS AND MIRRORS**

Windows and mirrors shall be clean and free of dust, smoke, hairspray, etc.

Statutory Authority: ORS 690.205

817-10-120 **POSTING OF LICENSES, INSPECTION CERTIFICATES AND RULES**

(1) All shop licenses shall be posted in public view.

(2) All inspection certificates shall be posted in public view.

(3) Sanitiary and safety rules adopted by the Board shall be conspicuously displayed in public view. Statutory Authority: ORS 690.095

817-10-125 **COMMUNICABLE DISEASE**

A practitioner or employe suffering from a communicable disease in a communicable form shall not work in a shop. Statutory Authority: ORS 690.095

817-10-130 **TREATMENT OF DISEASE**

A practitioner or employe shall not undertake the treatment of any disease nor may he or she knowingly serve a patron suffering from a communicable disease of the hair, scalp or nails.

Statutory Authority: ORS 690.005

817-10-135 **SERVING PATRONS**

Each practitioner shall wash his or her hands with soap and water prior to serving each patron.

Statutory Authority: ORS 690.205

817-10-140 **DISPENSARY**

Dispensary sink and entire area shall be neat and clean. Dispensary area shall not be cluttered with trash, bottles or items which need to be discarded.

Statutory Authority: ORS 690.205

DIVISION 20

LICENSING AND OPERATION OF A SHOP

817-20-002 **VARIANCES**

(1) In the case of any shop licensed prior to the effective date of these rules, upon application to the Board, the Board may grant a variance from any rule relating to the physical requirements of the premises constituting a shop.

(2) The Board may grant a variance only when it finds that the requirements of the rule in question would render strict compliance unreasonably burdensome or impractical to the special physical condition.

(3) In granting a variance, the Board may impose certain conditions which it deems necessary to protect the health and safety of the public.

Statutory Authority: ORS 690.165

817-20-005 **ISSUANCE OF SHOP LICENSES**

The Administrator of the Board may issue a shop license if all sanitary and other regulations and statutes are met. Statutory Authority: ORS 690.205

817-20-011 **CRITERIA FOR A NEW SHOP**

Each applicant shall:

(1) Be at least 18 years of age.

(2) Make application on the form furnished by the Board.

(3) Pay the application fee.

(4) Comply with the rules of the Board concerning health, safety and sanitation pursuant to ORS 690.055(1), (6).

(5) The area within a home operated as a shop must be equipped with the facilities and equipment required for all shops.

Statutory Authority: ORS 690.055

817-20-015 **PURCHASING AN EXISTING SHOP**

You must:

Meet the requirements of a new shop; refer to 817-20-011. Statutory Authority: ORS 690.055

817-20-025 **MOVING AN EXISTING SHOP TO NEW LOCATION**

You must:

(1) Meet the requirements of a new shop; refer to 817-20-011.

(2) Shop licenses are not transferable from person to person or to a new location.

Statutory Authority: ORS 690.205

817-20-030 **CLOSING A SHOP**

You shall:

(1) Inform the Board office of the date you are to close the shop.

(2) If you reopen the shop, you are to inform the Board office. Statutory Authority: ORS 690.205

DIVISION 30

EXAMINATIONS

817-30-005 **HOW TO OBTAIN A CERTIFICATE AS A GRADUATED STUDENT FROM AN OREGON SCHOOL OF HAIR DESIGN, COSMETOLOGY OR MANICURE**

(1) To obtain an Oregon certificate as a Barber, Hairdresser, Cosmetologist and Manicurist, you must:

(a) Complete and pass all courses in a barber school or beauty school in the subjects in which you wish to become certified;

(b) Must pass written examination administered by the Board of Barbers and Hairdressers;

(c) Pay a $15 examination fee and a $15 certificate fee. Statutory Authority: ORS 690.035

817-30-010 **HOW TO OBTAIN A CERTIFICATE AS AN OUT-OF-STATE LICENSED APPLICANT**

(1) To obtain an Oregon certificate as a Barber, Hairdresser, Cosmetologist or Manicurist, you must:

(a) Furnish the Board of Barbers and Hairdressers with a copy of your *current* out-of-state certificate (license);

(b) Pass a written test administered by the Board of Barbers and Hairdressers;

(c) Pay a $15 examination fee and a $15 certificate fee.

(2) Out-of-state applicants may take their original examination in the Board office. This may be done any day of the week Monday thru Friday during regular business hours.

Statutory Authority: ORS 690.035

817-30-015 **HOW TO APPLY TO TAKE THE EXAMINATION**

(1) An applicant is not required to preregister. The applicant decides when and where he or she wants to take the test and goes to the exam site of his or her choice on the scheduled date and hours (refer to 817-30-030).

(2) Tests are given on a first-come, first-served basis. The applicant should allow enough time to finish the test by closing time.

(3) The only time an applicant would need to contact the Board of Barbers and Hairdressers before taking the test is if there are questions whether he or she is qualified to take the test. Statutory Authority: ORS 690.035

817-30-020 **WHAT TO BRING WITH YOU WHEN YOU TAKE THE EXAMINATION**

(1) Completed and signed application form;

(2) Oregon-graduated students must also have the school manager, instructor, or owner sign the application form to verify the completion of required courses to qualify to take the test;

(3) Bring identification with you to the exam site, such as a driver's license with your picture.

Statutory Authority: ORS 690.035

817-30-025 **WHAT AN APPLICANT CAN TAKE INTO THE EXAMINATION ROOM**

(1) An applicant will not be allowed to take notes, textbooks, or notebooks into the examination room;

(2) The applicant may use a translating dictionary in a foreign language, if needed. This must be a translating dictionary—not a definition dictionary. Before the applicant is allowed to use the dictionary it must be checked by the Examiner. Statutory Authority: ORS 690.205

817-30-030 **OTHER THINGS THE APPLICANT SHOULD KNOW BEFORE TAKING THE EXAMINATION**

(1) Applicant will be disqualified if he or she talks to another applicant during the test. If the applicant has questions, ask the Examiner;

(2) Applicant must obtain permission from the Examiner to leave the room during the examination;

(3) No one will be admitted to the examination room except those persons taking the test.

Statutory Authority: ORS 690.205

817-30-035 **EXAMINATION COST**

(1) Cost to take the test is $15. If the applicant passes the test he or she will need to pay another $15 for a certificate;

(2) Applicant must bring two (2) $15 checks to the exam site. If the applicant does not have a checking account, he or she should bring two (2) money orders or the exact amount of cash. Statutory Authority: ORS 690.235

817-30-040 **THE TYPE OF EXAMINATION THE APPLICANT WILL HAVE TO TAKE**

The examination is a written test. There is no practical examination. Statutory Authority: ORS 690.065

817-30-045 **SUBJECTS THAT WILL BE COVERED IN THE WRITTEN EXAMINATION**

(1) Test is divided into four sections:

(a) Safety and Sanitation

(b) Barbering/Hairdressing
(c) Cosmetology
(d) Manicuring

(2) An applicant must pass the Safety and Sanitation section of the test in order to qualify for a certificate.

(3) The applicant may choose which of the remaining sections he or she wants to take based on the type of certificate desired and courses which have been completed and passed.

(4) All four sections will test applicant on:
(a) The basic principles on safety and sanitation;
(b) The sanitary rules of the Board of Barbers and Hairdressers;
(c) Chemicals used;
(d) How to safely use the tools of the trade and how they are to be kept clean;
(e) Diseases and disorders.

(5) Questions for safety and sanitation in barbering and hairdressing are taken from both barber and cosmetology textbooks.

Statutory Authority: ORS 690.065

817-30-050 TIME LIMIT FOR FINISHING EXAMINATION

The test is scheduled to last 1½ hours.

Statutory Authority: ORS 690.065

817-30-055 LENGTH OF TIME BEFORE THE APPLICANT KNOWS IF HE/SHE PASSED THE EXAMINATION

The Examiner will grade the examination on site and give the applicant his or her scores.

Statutory Authority: ORS 690.205

817-30-060 PASSING SCORE

The applicant must have a score of 75 percent or more to pass. Statutory Authority: ORS 690.205

817-30-065 PROCEDURE TO BE FOLLOWED IF THE APPLICANT FAILS

(1) If the applicant does not pass all or part of the test and wants to take it again, he or she can do so the next month. The applicant is required to pay another $15 examination fee whether all or part of the test is taken. The applicant must bring the exam fee to the exam site of his or her choice.

(2) The applicant may review the exam sections failed by discussion with the Examiner.

Statutory Authority: ORS 690.205

817-30-070 OBTAINING A CERTIFICATE

(1) If the applicant passes the Safety and Sanitation portion of the test and at least one other portion, he or she will receive a temporary certificate as soon as the test is graded. This will allow the applicant to go to work immediately. The applicant is required to pay a $15 certificate fee; this is in addition to the $15 paid for the examination.

(2) The temporary certificate is good for 30 days or until the applicant receives his or her permanent certificate. The certificate is good for one (1) year from date the temporary certificate was issued. Statutory Authority: ORS 690.205

817-30-075 WHEN EXAMINATIONS ARE HELD

(1) Exams are given once a month at five different locations on five different dates.

(2) The times, places, and dates may be obtained from the Board office.

Statutory Authority: ORS 690.065

817-30-080 ORAL EXAMINATIONS

An oral examination may be requested by the applicant who has demonstrated his or her inability by failing to pass the original written test. An oral examination will be conducted in the office of the Board. Statutory Authority: ORS 690.065

817-30-085 ISSUANCE OF PRACTITIONER CERTIFICATE

The Administrator is authorized to grant a Certificate of Registration if the applicant successfully passes an examination. Statutory Authority: ORS 690.205

DIVISION 40
FEES

817-40-005 ORIGINAL CERTIFICATE AND LICENSE

(1) A fee of $15 shall be paid to the Board with each application for an original certificate as a practitioner;

(2) A fee of $50 shall be paid to the Board with each application for a shop license.

Statutory Authority: ORS 690.235

817-40-010 RENEWAL OF CERTIFICATE AND LICENSE

(1) A fee of $15 shall be paid to the Board as a requirement for annual renewal of certificate;

(2) A fee of $25 shall be paid to the Board as a requirement for annual renewal of a shop license. Statutory Authority: ORS 690.235

817-40-015 LATE FEE

A fee of $5 shall be paid to the Board as a requirement for renewal of an expired license or certificate which has not been renewed within 30 days following the expiration date.

Statutory Authority: ORS 690.235

817-40-020 DUPLICATE OR REPLACEMENT OF A CERTIFICATE OR LICENSE

A fee of $5 shall be paid to the Board as a requirement for a duplicate or replacement of any certificate, license or permit.

Statutory Authority: ORS 690.235

817-40-025 TEMPORARY PREMISES LICENSE

A fee of $25 shall be paid to the Board with each application for a Temporary Premises License.

Statutory Authority: ORS 690.235

817-40-030 **TEMPORARY PERMIT**

A fee of $5 shall be paid to the Board with each application for a Temporary Permit issued under ORS 690.105.

Statutory Authority: ORS 690.235

817-40-035 **EXAMINATION**

A fee of $15 shall be paid to the Board with each application for examination for a certificate as a practitioner. A $15 fee shall be paid by the applicant for each subsequent examination.

Statutory Authority: ORS 690.235

DIVISION 50

RENEWAL AND RESTORATION OF CERTIFICATE OR LICENSE

817-50-005 **RENEWAL FEES**

(1) "The one year" renewal fee under ORS 690.085(3) means the renewal fee for the year for which the certificate is to be issued.

(2) "The one year" license fee in advance under ORS 690.085(4) means the renewal fee for the year for which the certificate is to be issued.

Statutory Authority: ORS 690.085

Sec. 08.01.010. Applicability of chapter. This chapter applies to the

(1) Board of Public Accountancy;

(2) Board of Barber Examiners;

(3) Repealed by § 6 ch 32 SLA 1971.

(4) Board of Chiropractic Examiners;

(5) Board of Hairdressing and Beauty Culture Examiners;

(6) Board of Dental Examiners;

(7) Board of Electrical Examiners;

(8) State Board of Registration for Architects, Engineers and Land Surveyors;

(9) State Medical Board;

(10) Board of Nursing;

(11) Board of Examiners in Optometry;

(12) Board of Pharmacy;

(13) Real Estate Commission;

(14) Board of Veterinary Examiners;

(15) Board of Psychologist and Psychological Associate Examiners;

(16) Collection Agency Board;

(17) Board of Welding Examiners;

(18) Board of Marine Pilots;

(19) Board of Dispensing Opticians;

(20) Guide Licensing and Control Board;

(21) State Physical Therapy Board. (§ 1 ch 59 SLA 1966; am § 2 ch 136 SLA 1967; am § 2 ch 101 SLA 1968; am § 2 ch 143 SLA 1968; am § 2 ch 151 SLA 1968; am § 1 ch 106 SLA 1970; am § 6 ch 32 SLA 1971; am § 4 ch 179 SLA 1972; am § 2 ch 45 SLA 1973; am § 14 ch 65 SLA 1973; am § 1 ch 43 SLA 1975; am § 1 ch 43 SLA 1977)

Effect of amendments. — The first 1973 amendment added paragraph (19).

The second 1973 amendment inserted "and Psychological Associate" in paragraph (15).

The 1975 amendment added paragraph (20).

The 1977 amendment added paragraph (21).

Editor's note. — Section 2, ch. 59, SLA 1966, provides: "The Department of Commerce shall provide for the orderly transfer of the service functions which are to be performed by the department under this chapter."

Section 4, ch. 59, SLA 1966, provides: "A provision in existing law which conflicts with this Act is superseded by this Act."

Legislative committee reports. — For report on ch. 143, SLA 1968 (HB 707), see 1968 House Journal, p. 836. For report on ch. 32, SLA 1971 (HB 111 am), see 1971 House Journal, p. 138.

Sec. 08.01.020. Board organization. Unless otherwise provided, all board members are appointed by the governor and serve at his pleasure. Unless otherwise provided, the governor shall designate the chairman of the board, and all other officers shall be elected by the board members. (§ 1 ch 59 SLA 1966)

Sec. 08.01.025. Public members. No public member of a board may:

(1) be engaged in the occupation which the board regulates;

(2) be associated by legal contract with a member of the occupation which the board regulates except as a consumer of the services provided by a practitioner of the occupation; or

(3) have a direct financial interest in the occupation which the board regulates. (§ 1 ch 258 SLA 1976)

Sec. 08.01.030. Quorum. A majority of the membership of a board constitutes a quorum unless otherwise provided. (§ 1 ch 59 SLA 1966)

Sec. 08.01.040. Transportation and per diem. A board member is entitled to transportation expenses and per diem as set out in AS 39.20.180. (§ 1 ch 59 SLA 1966)

Sec. 08.01.050. Administrative duties of department. (a) The department shall provide the following administrative and budgetary services when appropriate:

(1) collect fees and issue receipts;

(2) maintain records and files;

(3) issue and receive application forms;

(4) notify applicants of acceptance or rejection of applicants as determined by the board;

(5) designate dates examinations are to be held and notify applicants;

(6) publish notice of examination;

(7) arrange space for holding examinations;

(8) notify applicants of results of examinations;

(9) issue licenses and certificates or temporary licenses or certificates as authorized by the board;

(10) issue duplicate licenses or certificates upon proof by the licensee of loss of the original and payment by the licensee of a fee of $2;

(11) notify licensees of renewal dates at least 30 days before the expiration date of their licenses;

(12) compile and maintain current a register of licenses;

(13) answer routine inquiries;

(14) maintain files relating to individual licensees;

(15) arrange for printing and advertising;

(16) purchase supplies;

(17) employ secretarial help when needed;

(18) perform other services which may be requested by the board;

(19) provide investigative services to the boards established under chs. 20, 32, 36, 64, 68, 71, 72, 80, 84, and 86 of this title, for the purpose of assisting those boards in matters of professional discipline.

(b) The form and content of a license, authorized by a board listed in § 10 of this chapter, including any document evidencing renewal of a license, shall be determined by the department after consultation with and consideration of the views of the board concerned. (§ 1 ch 59 SLA 1966; am § 1 ch 102 SLA 1976; am § 39 ch 218 SLA 1976; am § 2 ch 258 SLA 1976)

Effect of amendments. -- The first 1976 amendment added paragraph (19) of present subsection (a).

The second 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in the introductory paragraph of present subsection (a).

The third 1976 amendment designated the provisions of this section as subsection (a), and in that subsection, substituted "department" for "Department of Commerce" and "when appropriate" for "for the boards" in the introductory language and inserted "by the licensee" in two places in paragraph (10). The amendment also added subsection (b).

While none of the amendments gave effect to the others, this section is set out as it appears in ch. 258, SLA 1976, with the inclusion of paragraph (19) of subsection (a) added by ch. 102, SLA 1976.

Sec. 08.01.060. Application for license. All applications for examination or licensing to engage in the business or profession covered by this chapter shall be made in writing to the department. (§ 1 ch 59 SLA 1966)

Sec. 08.01.070. Administrative duties of boards. Each board shall perform the following duties in addition to those provided in its respective law:

(1) keep minutes and records of all proceedings;

(2) hold a minimum of one meeting each year;

(3) hold at least one examination each year;

(4) request, through the department, investigation of violations of its laws and regulations;

(5) prepare and grade examinations;

(6) pass on qualifications of applicants for examination and license;

(7) forward minutes of meetings to the department within 20 days;

(8) forward results of examinations to the department;

(9) notify the department of meeting dates at least 15 days before meeting. (§ 1 ch 59 SLA 1966)

Sec. 08.01.080. Department regulations. The department shall adopt regulations to carry out the purposes of this chapter including but not limited to describing

(1) how an examination is to be conducted;

(2) what is contained in application forms;

(3) how a person applies for an examination or license. (§ 1 ch 59 SLA 1966)

Sec. 08.0
The Admin
adopted and
08.01.087(b)

Effect of
amendment ad
08.01.087(b)"

Sec. 08.01.087. Powers and duties of department. (a) The department may, upon its own motion, conduct investigations to determine whether any person has violated a provision of this chapter or a regulation adopted under it or a provision of a chapter in this title dealing with one of the boards listed in § 10 of this chapter or a regulation adopted by one of those boards, or to secure information useful in the administration of this chapter.

(b) If it appears to the commissioner that a person has engaged in or is about to engage in an act or practice in violation of a provision of this chapter or a regulation adopted under it, or any of the laws pertaining to or regulations adopted by the boards listed in § 10 of this chapter, he may, if he considers it in the public interest, and after notification to all board members by telephone or telegraph of a proposed order or action unless a majority of the members of the board object within 10 days,

(1) issue an order directing the person to stop the act or practice; however, reasonable notice of and an opportunity for a hearing must first be given to the person, except that the commissioner may issue a temporary order before a hearing is held; a temporary order remains in effect until a final order affirming, modifying, or reversing the temporary order is issued or until 15 days after the person receives the notice and has not requested a hearing by that time; a temporary order becomes final if the person to whom the notice is addressed does not request a hearing within 15 days after receiving the notice; the commissioner or his designee shall be the hearing officer at the hearing and shall issue a final order within 10 days after the hearing;

(2) bring an action in the superior court to enjoin the acts or practices and to enforce compliance with this chapter, a regulation adopted under it, or an order issued under it, or any of the laws pertaining to or regulations adopted by the boards listed in § 10 of this chapter;

(3) examine or have examined the books and records of any person whose business activities require licensure by a board listed in § 10 of this chapter and he may require that person to pay the reasonable costs of the examination; and

(4) issue subpoenas for the attendance of witnesses, and the production of books, records and other documents. (§ 3 ch 258 SLA 1976)

Sec. 08.01.090. Applicability of the Administrative Procedure Act. The Administrative Procedure Act (AS 44.62) applies to regulations adopted and proceedings held under this chapter, except those under AS 08.01.087(b). (§ 1 ch 59 SLA 1966; am § 4 ch 258 SLA 1976)

Effect of amendment. — The 1976 amendment added "except those under AS 08.01.087(b)" to the end of the section.

Sec. 08.01.100. License renewal, lapse and reinstatement. (a) All licenses shall be renewed biennially on the dates set by the department with the approval of the respective board.

(b) A registration, license, permit or certificates requiring renewal to continue effective must be renewed on or before the date set by the department or it will lapse. A penalty of $10 shall be charged in addition to all delinquent renewal fees for reinstatement of a registration, license, permit or certificate which remains lapsed for more than 60 days. (§ 1 ch 59 SLA 1966; am § 2 ch 94 SLA 1968)

Sec. 08.01.105. Penalty for improper payment. An applicant shall pay a penalty of $10 each time a negotiable instrument is presented to the department in payment of an amount due and payment is subsequently refused by the named payor. (§ 3 ch 258 SLA 1976)

Sec. 08.01.110. Definitions. In this chapter

(1) "board" includes the boards and commissions listed in § 10 of this chapter;

(2) "department" means the Department of Commerce and Economic Development;

(3) "commissioner" means the commissioner of commerce and economic development;

(4) "license" means any license, certificate, permit, or registration or similar evidence of authority issued by one of the boards listed in § 10 of this chapter;

(5) "licensee" means any person who holds a license;

(6) "occupation" means any of the trades or professions for which licensure is required by one of the boards listed in § 10 of this chapter. (§ 1 ch 59 SLA 1966; am § 40 ch 218 SLA 1976; am § 5 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (2).

The second 1976 amendment added paragraphs (3) through (6).

Chapter 02. Miscellaneous Provisions.

Section
10. Professional designation requirements
20. Limitation of liability for members of licensing boards

Sec. 08.02.010. Professional designation requirements. (a) A person licensed in the state as a chiropractor as defined in AS 08.20.220, a dentist as defined in AS 08.36.360, a medical practitioner or osteopath as defined in AS 08.64.380, a professional nurse as defined in AS 08.68.410, an optometrist as defined in AS 08.72.300(3), a registered pharmacist under AS 08.80, a registered physical therapist under AS 08.84, or a psychologist under AS 08.86, shall professionally identify

himself by the use of appropriate letters or a title after his name which represents his specific field of practice. The letters or title shall appear on all signs, stationery or other advertising in which the person offers or displays his professional services to the public. In addition, a person engaged in the practice of medicine or osteopathy under AS 08.64.380(2), or a person engaged in any manner in the healing arts who diagnoses, treats, tests, or counsels other persons in relation to human health or disease and identifies himself by using the letters "M.D." or the title "doctor" or "physician" or any other title which tends to show that the person is willing or qualified to diagnose, treat, test, or counsel another person, shall clarify the letters or title by adding the appropriate specialist designation, if any, such as "dermatologist", "radiologist", "audiologist", "naturopath", or the like.

(b) A person subject to (a) of this section who fails to comply with the requirements of (a) of this section shall be given notice of his noncompliance by his appropriate licensing board. If, after a reasonable time, with opportunity for a hearing, his noncompliance continues, the board may suspend or revoke his license or registration, or administer other disciplinary action which in its determination is appropriate. (§ 1 ch 6 SLA 1973)

Sec. 08.02.020. Limitation of liability for members of licensing boards. No person is liable for damages or other relief in an action by reason of his performance of a duty, function, or activity as a member of a licensing board or by reason of a recommendation or action of the board when the person acts in the reasonable belief that his action or recommendation is warranted by facts known to him or to the board after reasonable efforts to ascertain the facts upon which the action or recommendation is made. (§ 45 ch 102 SLA 1976)

Chapter 03. Termination, Continuation and Reestablishment of Regulatory Boards

Section

10. Termination, continuation and reestablishment of regulatory boards

Cross reference. — As to review of the activities of agencies, boards and commissions, see AS 44.66.010 et seq.

Editor's note. — Section 1, ch. 149, SLA 1977, provides: "The legislature finds that the substantial increase in the number of state agencies, boards and commissions, and the proliferation of rules and regulations which each has adopted have contributed to a public disenchantment with the operation of state government, and that there is need for an effective and regular system of scrutiny of the programs and activities of all agencies, boards and commissions. The legislature further finds that the establishment of a system for periodic review by the public and the executive and legislative branches of certain state agencies, boards and commissions will help the governor and the legislature to determine the need for the continued existence of each of the agencies, boards and commissions."

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);

(2) Board of Dental Examiners (AS 08.36.010);

(3) State Medical Board (AS 08.64.010);

(4) Board of Nursing (AS 08.68.010);

(5) Board of Dispensing Opticians (AS 08.71.010);

(6) Board of Examiners in Optometry (AS 08.72.010);

(7) Board of Pharmacy (AS 08.80.010);

(8) Board of Veterinary Examiners (AS 08.98.010);

(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);

(10) Board of Nursing Home Administrators (AS 08.70.010);

(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);

(2) Board of Barber Examiners (AS 08.12.010);

(3) Collection Agency Board (AS 08.24.011);

(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);

(5) Board of Electrical Examiners (AS 08.40.010);

(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);

(7) Guide Licensing and Control Board (AS 08.54.010);

(8) Board of Marine Pilots (AS 08.62.010);

(9) Real Estate Commission (AS 08.88.011);

(10) Board of Welding Examiners (AS 08.99.010);

(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

CHAPTER 24. BOARD OF HAIRDRESSING AND BEAUTY CULTURE EXAMINERS

Section

10. Submission of application
20. Time of examination
30. Additional requirements for licenses
40. Requirements for licenses without examination
50. Apprenticeships
60. Duties of instructor-operator and student instructor
70. Location of shops in private residence
80. Prohibition against employment of unlicensed operators
90. Notification to board of sale, lease or transfer
100. Approval of school of hairdressing and beauty culture
110. Plan and equipment requirements of schools
120. Sanitary rules and regulations
130. Curriculum requirements of school of hairdressing and beauty culture
140. Inspection of schools

12 AAC 24.010. SUBMISSION OF APPLICATION. (a) All applications shall be made under oath and all documentary evidence in support of the application, such as diplomas and foreign license, shall be verified or certified.

(b) The required fee must be submitted with the application.

(c) Applicants shall apply in writing to the secretary of the Board of Hairdressing and Beauty Culture Examiners.

(d) The board reserves the right to require additional proof of qualifications. (In effect before 7/28/59; am 2/64, Reg. 14; am 5/27/66, Reg. 21)

Authority: AS 08.28.120

12 AAC 24.020. TIME OF EXAMINATION. (a) Examination of applicants for licenses shall be given quarterly.

(b) The board shall give public notice of the date, place and time at least 30 days prior to examination.

(c) Additional examinations may be held at the discretion of the board if there are five or more applicants. (In effect before 7/28/59; am 2/64, Reg. 14; am 5/27/66, Reg. 21)

Authority: AS 08.28.120

12 AAC 24.030. ADDITIONAL REQUIREMENTS FOR LICENSES. (a) No person may be licensed as a manager-operator unless

(1) he is a licensed cosmetologist; and

(2) he has had one year practical experience as a licensed cosmetologist immediately prior to application.

(b) No person may be licensed as an instructor-operator unless

(1) he has an Alaska cosmetology license;

(2) he has had one year's practical experience; and

(3) he has engaged in the active practice of hairdressing and beauty culture for at least five years, or has completed 600 hours of student instructor training.

(c) Except that a person may be licenesed as an instructor-operator by reciprocity if he holds a current instructor-operator license from a state whose requirements were substantially equal to those provided in AS 08.28.140 at the time the license was issued. (In effect before 7/28/59; am 2/64, Reg. 41; am 5/27/66, Reg. 21)

Authority: AS 08.28.040
AS 08.28.110
AS 08.28.180
AS 08.28.120

12 AAC 24.040. REQUIREMENTS FOR LICENSES WITHOUT EXAMINATION. (a) An applicant who has a current license from a board of cosmetology in another state with less than 2,000 hours of training in an approved school of beauty culture shall be allowed credit for practical shop experience. He may be licensed without examination as follows:

(1) the training and experience must have been immediately prior to date of application and

(A) he has 1,500 hours of training and one year's experience in a licensed beauty shop; or

(B) he has 1,000 hours of training and two years' experience in a licensed beauty shop.

(b) Proof of practical experience must accompany the application for license or be furnished at the request of the board.

(c) Special consideration may be given to an applicant who can furnish proof of training in an advanced beauty culture school. (In effect before 7/28/59; am 2/64, Reg. 14; am 5/27/66, Reg. 21)

Authority: AS 08.28.130
AS 08.28.140

12 AAC 24.050. APPRENTICESHIPS. Any hairdressing or beauty culture shop may train an apprentice in the art of hairdressing or beauty culture subject to the following conditions:

(1) All apprentices shall register with the secretary of the board;

(2) A shop may have one apprentice for each five operators or fraction thereof except that an apprentice who is training under the state office of Vocational Rehabilitation may train in any shop without regard to the quota imposed by this section;

(3) Apprentices shall be instructed in both theory and practical work. Theory shall be taught from a textbook or textbooks approved by the board;

(4) An apprentice shall complete 2,000 hours of instruction over a period not exceeding two years with not more than eight hours' instruction to be given in any single day;

(5) Upon completion of the prescribed course, the apprentice shall be eligible to take an examination given by the board. If the apprentice fails to pass the examination, he shall be eligible to take another examination;

(6) An apprentice shall complete his apprenticeship in the shop in which he was registered, except that the board may authorize an apprentice's transfer to another shop where good cause is shown;

(7) When an apprentice has interrupted his apprenticeship for a continuous period of one year, no credit will be allowed for apprenticeship instruction received prior to the interruption. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.090
AS 08.28.120

12 AAC 24.060. DUTIES OF INSTRUCTOR-OPERATOR AND STUDENT INSTRUCTOR. (a) No instructor-operator may (in connection with his duties as an instructor at a licensed school) practice hairdressing and beauty culture upon members of the public, except when the work pertains directly to the instruction of students.

(b) A student-instructor in cosmetology shall be registered with the board upon enrollment in a registered school.

(c) A student-instructor shall not be permitted to instruct without a licensed instructor on the premises. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.070. LOCATION OF SHOPS IN PRIVATE RESIDENCE. (a) No shop may be opened and maintained in a private residence unless the shop is located in a separate room apart from the living quarters.

(b) The shop shall be properly equipped and shall be subject to inspection by the board and by the Alaska Department of Health and Welfare. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.080. PROHIBITION AGAINST EMPLOYMENT OF UNLICENSED OPERATORS. No manager or any other person in a position of authority shall employ an unlicensed operator. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.100

12 AAC 24.090. NOTIFICATION TO BOARD OF SALE, LEASE OR TRANSFER. In the case of a sale, lease or transfer of any school or shop, the seller, lessor or transferor shall notify the board of the transaction within 30 days of the sale, lease or transfer. The notice shall contain the name and address of the buyer, lessee or transferee. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.100. APPROVAL OF SCHOOL OF HAIRDRESSING AND BEAUTY CULTURE. No school of hairdressing or beauty culture may be approved by the board unless the school employs at least two licensed instructors, and upon approval, the school must keep on duty at least one full-time, licensed instructor for each 10 students during school hours. After enrollment of the first 20 students, the school shall employ one additional instructor for every 25 students. In addition to the foregoing requirements, such school shall teach the following minimum required operations for each student during the 2,000 hours training:

(1) shampoos – 100

(2) color rinses – 50

(3) neck trims w/clippers – 50

(4) haircuts – 200

(5) manicures – 50

(6) tweezer arches – 10

(7) wax arches – 10

(8) fingerwaves (flat) – 100

(9) iron work – 150

(10) scalp treatments – 25

(11) facials (to be completed with make-up) – 25

(12) cold waves – 60

(13) heat permanents (blocking and wrapping) – 10

(14) henna packs – 5

(15) bleaches – 25

(16) hair tints – 25

(17) hairstyles – 300 (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.110. PLAN AND EQUIPMENT REQUIREMENTS OF SCHOOLS. (a) The plans for a proposed school shall be submitted to the board for approval. A representative of the board shall review the plans and inspect the premises for the purpose of determining:

(1) suitability of location

(2) suitability of school rooms including plumbing, ventilation, lighting and adequacy of floor space (basement rooms below ground level will not be approved);

(3) adequacy of layout;

(4) adequacy of equipment; and

(5) adequacy of provisions for licensed instructors.

(b) After all equipment has been installed the premises must be inspected by a representative of the board and thereafter approved by the board before a license will be issued.

(c) The minimum requirements for a school of beauty culture enrolling 25 students or less shall consist of the following items of equipment:

(1) 10 wefts;

(2) one vibrator;

(3) six curling heaters;

(4) eight block heads;

(5) one linen cabinet;

(6) four shampoo basins and trays

(7) 10 mirrors and 10 chairs;

(8) one blackboard, 4' x 4' or equivalent;

(9) eight sanitary receptacles;

(10) eight dryers;

(11) four facial chairs;

(12) four dry sterilizers (lamps or equivalent);

(13) one therapeutic lamp installed in such manner as to permit free use of operator's hands;

(14) one permanent wave machine, croquinole (two complete sets of 32 each of rods, clips and felts), cold wave (four sets each consisting of 32 rods);

(15) one tablet armchair or usable table for each student in theory class;

(16) one beauty culture textbook for each student (book of questions and answers are not considered textbooks);

(17) three types of iron (paper curl, marcel and straghtening comb).

(d) In addition to the items of equipment listed in (c) the school shall have such supplies as wave sets, shampoo creams, hair tint, cloth towels manicuring tables with proper lighting, chairs for at least five students, available books on anatomy, physiology and hygiene, charts 24" x 24" or equivalent, on skin, bones, muscles, nerves, and circulatory systems, and other necessary items for instruction that the board may require.

(e) The proper placement of this equipment shall require at least 1,000 square feet of floor space, excluding office, cloakroom and reception room space. In the event that the student enrollment of any school increases, additional space and equipment may be required by the board. The number of students taught in a school of beauty culture at any one time shall be limited to one for every 15 square feet of space contained in the school subject to the following limitations: space occupied by offices and lavatories shall not be used in computing maximum number of students taught.

(f) The following equipment shall be issued to each student:

(1) one shampoo cape;

(2) two brushes;

(3) one pair scissors;

(4) one pair thinning shears;

(5) one razor;

(6) six combs (four fingerwaves, one rattail, and one haircutting);

(7) one electric clipper (optional);

(8) complete tools for manicuring; cuticle oil, cuticle remover, polish, emery boards, nipper scissors, pusher and brush; and

(9) a carrying case of sufficient size to accomodate the materials used by the student. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180
AS 08.28.250

12 AAC 24.120. SANITARY RULES AND REGULATIONS. The rules and regulations of the Alaska Divison of Public Health, as set forth in Title 7, Alaska Administrative Code, Sections 1250 and 1257, are hereby adopted by reference and incorporated herein as a part of these rules and regulations. All licensees shall comply with such regulations. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.280

12 AAC 24.130. CURRICULUM REQUIREMENTS OF SCHOOL OF HAIRDRESSING AND BEAUTY CULTURE. (a) The school shall submit its proposed curriculum to the board, with the application for license. The curriculum must be approved by the board before the school is licensed. The curriculum shall provide for the use of a standard textbook approved by the board. The curriculum must include instructions on the statutes and regulations governing hairdressing and beauty culture in the State of Alaska.

(b) The curriculum shall provide for a course of at least 2,000 hours of instruction, with no more

than eight hours of instructions in any single day. The school shall, upon completion of the course by a student, issue a diploma and an academic achievement record. A copy of the academic record shall be transmitted to the board.

(c) All students shall register with the secretary of the board. It shall be the duty of the owner of each school to transmit in writing the name, age, address and the date of commencement of instructions of each student enrolled within 30 days after the student's enrollment. It shall also be the duty of the owner of each school to advise the secretary of the board, in writing, of the date of termination of instructions within 30 days after termination.

(d) There shall be a minimum requirement of 250 hours of theory study during the 2,000 hours.

(e) There shall be a minimum requirement of 350 hours of practice training.

(f) Schools must keep daily records of student attendance of all courses, and these records shall be open for inspection by any member of the Board of Hairdressing and Beauty Culture Examiners.

(g) Practice training shall consist of classwork and individual training in all subjects of each practice. All practice training shall be limited to actual practice by the student either on transformation or other devices, or on other students, for the purpose of acquiring the fundamentals and technique of such subjects.

(h) A school may make a reasonable charge for these services to persons other than student, but all services shall be of a clinical nature and under direct supervision of an instructor.

(i) School authorities shall give a student who leaves the school in good standing an "affidavit" indicating the number of hours of each type of instructions received. A student who wishes to transfer to another school must present the affidavit to the school authorities before credit may be given for past instructions.

(j) A student transferring from a school in another state may transfer his credits upon presentation of a certified affidavit of records from the state cosmetology board of the other state, or upon other proof acceptable by the board.

(k) Where a student has interrupted his schooling for a continuous period of three years, no credit will be allowed for instructions received prior to the interruption. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

12 AAC 24.140. INSPECTION OF SCHOOLS. Licensees shall permit any member of the board to inspect at any time during working hours. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the intent of Alaska Statutes 24.20.271(1) and 44.66.050 (sunset legislation), a review of the Board of Hairdressing and Beauty Culture Examiners was conducted to review Board activities and accomplishments to determine if the Board has been operating in an effective, efficient and economical manner.

As required by legislative intent, this report shall be considered during the legislative oversight function in determing whether the Board of Hairdressing and Beauty Culture Examiners should be reestablished. The law currently specifies that this Board will terminate on June 30, 1980, but will continue until June 30, 1981 for the purpose of concluding its affairs.

Scope

The major areas reviewed were the Board's operations and its licensing, examination, administration, complaint and affirmative action functions. Our review consisted of analyzing and evaluating the following:

(1) Applicable statues and Board regulations;

(2) interviews with Board members and questionnaires sent to the Board;

(3) interviews with health agencies and professional associations;

(4) tests of records and documents of the Board and the Division of Occupational Licensing (OL), Department of Commerce and Economic Development;

(5) interviews with OL employees;

(6) complaints filed with OL, the Ombudsman's Office Consumer Affairs Agency, and the Equal Employment Opportunity Office; and

(7) questionnaires sent to persons regulated by the Board.

Scope Constraints

This review was hampered by the following constraints:

(1) The Board has not established and reported financial and program plans as required by AS 37.07.050 nor has it developed and reported performance information regarding its effectiveness and accomplishments as required by AS 37.07.090.

manpower problem ($)

(2) The Division of Occupational Licensing has not adequately collected, recorded and maintained pertinent files and statistics relating to the Board to effectively and efficiently carry out its administrative responsibilities.

ORGANIZATION AND FUNCTION

The Board of Hairdressing and Beauty Culture Examiners was created by the 1957 Session Laws of Alaska to serve in a regulatory capacity under the provisions of AS 08.28. The Board is charged with exercising general control over the vocations of hairdressing and beauty culture within the State. To accomplish this, the five member Board has been given authority to examine applicants, issue licenses, inspect shops and schools, investigate complaints, suspend or revoke a license, and promulgate rules and regulation necessary to enforce statutes.

The Board regulates beauty schools, school owners, instructors, students, beauty shop owners, managers and operators, demonstrators and consultants, manicurists, and apprentices. Qualifications for licensure include educational or apprenticeship requirements and passing score on a practical examination as well as a national written test prepared and scored by the Psychological Corporation. Out-of-State applicants holding a current valid license from another state or country may be licensed by endorsement in Alaska if they also meet minimum education and experience requirements.

REPORT CONCLUSION

Policy Issues

This review contains policy issues raised as a result of our evaluation of various Board practices. The final policy decisions affecting these practices are not within the scope of this review but require legislative oversight consideration. In debating these decisions, the legislative oversight committees should take into consideration the findings and alternatives presented in this report, so that the potential impact of policy changes can be evaluated.

Report Conslusion

The Board of Hairdressing and Beauty Culture Examiners (hereinafter referred to as the Board) was created by the 1957 Session Laws of Alaska to serve in a regulatory capacity under the provisions of AS 08.28. The Board is charged with exercising general control over the vocations of hairdressing and beauty culture within the State. To accomplish this, the five member Board has been given authority to examine applicants, issue licenses, inspect shops and schools, investigate complaints, suspend or revoke a license, and promulgate rules and regulations necessary to enforce statutes.

The primary purpose of a regulatory board is to protect the public. This is most often accomplished by licensure. In order to justify licensing of cosmetologists and hairdressers, it is necessary to determine if:

1. The unlicensed practice of cosmetology poses a serious threat to the health, safety, or economic well-being of the consuming public;

2. potential users can be expected to possess the knowledge needed to evaluate the qualifications of those offering the service; and

3. benefits to the public clearly outweigh any potential harmful effects, such as a decrease in the numbers of cosmetologists or higher cost of service, created by regulation.

Services rendered by cosmetologists include two areas of potential harm to the public:

1. Spread of infectious disease; and

2. improper use of chemicals.

The Commissioner of the Department of Health and Social Services (H & SS) is charged with promulgating rules and regulations establishing standards of cleanliness and sanitation in connection with the operation of any cosmetology establishment (AS 18.05.040). Under this authority, H & SS representatives inspect schools and shops to enforce sanitation requirements and control the spread of contagious diseases. Therefore, it is unnecessary for the Board to become involved in this area of public protection.

Chemicals used in cosmetological establishments vary from mild shampoos to stronger formulas for permanent waves and hair coloring. These products for professsional users are manufactured in states other than Alaska. Their sale and interstate distribution is controlled by the Department of Health, Education and Welfare, Public Health Service, Food and Drug Administration (FDA). The labeling of such products contains ingredients, instructions for use and precautions to be observed. Most manufacturers have persons on their staff, oftentimes entire departments, who specialize in product liability to ensure that their product labels comply with Federal regulations and can be read and understood by ordinary individuals. Thus, if a cosmetologist, licensed or unlicensed, followed the instructions and precautions on the label of professional cosmetics, the potential harm to the consumer would be minimal.

NOT TRUE w/ professional chemicals

In answer to our inquiry regarding complaints or investigations, the FDA, Seattle Field Office, replied that their infrequent needs for investigation reveal that, almost without exception, any adverse effects suffered would be due to sensitivity or allergy type reactions and that this is particularly true for products more commonly used in beauty salons, such as hair dyes and permanent wave products. Here again, products likely to cause sensitivity or allergic reactions caution the user to patch test the product on the consumer prior to application.

To further help resolve the question of whether or not the practice of hairdressing and beauty culture needs regulation, we examined the complaints filed with the Alaska Department of Commerce and Economic Development, Division of Occupational Licensing (OL). Since 1974, 94 complaints have been filed with OL; only 5% were consumer complaints and, of these, only one alleged physical injury. The majority of complaints (44%) were filed by licensed practitioners against others operating without a license; none of these alleged physical harm to customers of unlicensed practitioners. Thus, the nature of these complaints indicates that the unlicensed practice of cosmetology poses a minimal threat to the health, safety, or economic well-being of the consuming public.

There are alternative forms of regualtion other than licensure which are appropriate when the threat of life, health, safety and economic well-being is relatively small and other forms of legal redress are available to the public. These include registration without pre-entry screening, registration with minimum standards as a pre-requisite, and certification requiring minimum standards.

alternatives to the Board.

In summary, we conclude that the Board of Hairdressing and Beauty Culture Examiners should be allowed to terminate on June 30, 1980, and that licensure of cosmetologists and hairdressers be discontinued.

If the Board is not terminated and/or licensing is continued, then the following recommendations should be considered.

FINDINGS AND RECOMMENDATIONS

Findings and Recommendations No. 1 through No. 8 are addressed to the Board of Hairdressing and Beauty Culture Examiners. Finding and Recommendation No. 9 is addressed to the Division of Occupational Licensing (OL) and should be read in conjunction with "A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development, October 30, 1978" issued under separate cover.

Recommendation No. 1

The Board should seek legislation to require that two of the five Board members be public members and to limit Board member service to not more than two consecutive three year terms.

AS 08.28 created a Board of Hairdressing and Beauty Culture Examiners composed of five members appointed by the Governor. Four members must have been licensed in the State for five years as an operator, manager-operator or owner-operator; one member must have been licensed for three years as an owner of, manager of, or instructor in a licensed beauty school. Members serve a term of three years and at the pleasure of the Governor; there is no limit on the number of terms a member may serve. Two of the present Board members have served more than two terms; one member has served more than three terms.

Although regulation of the practice of cosmetology was instituted to meet a public need, that is, to protect the health, safety and economic welfare of Alaskans, there is no member of the public represented on the Board. A review of the Board minutes since 1975 shows that no members of the public have been present at the meetings.

Limiting appointments to two consecutive terms and including public members in the Board make-up would permit a broader spectrum of professional background with increased opportunities for new members and ideas and would provide a point of view otherwise absent on a board composed solely of license holders.

Recommendation No. 2

The Board should inspect all licensed beauty schools on a regular basis; violations and complaints should be investigated promptly.

AS 08.28.040 provides that the Board may inspect schools to exercise general control over the vocations of hairdressing and beauty culture within the State.

There are four beauty schools licensed in Alaska; three are located in Anchorage, the fourth is in Fairbanks. The Board annually inspects the three schools in Anchorage, but the school in Fairbanks has not been inspected since 1976. The Board should consistently exercise its inspection prerogative.

Numerous complaints, both written and oral, against one particular school in Anchorage have been directed to the Board since 1972. Inspections by the Board have indicated that the majority of these complaints were valid and have revealed further violations by the school owner. Individual Board members have verbally requested investigations by the Division of Occupational Licensing (OL). OL has not acted upon these requests in a timely manner.

The Board should inspect all schools uniformly; and deficiencies noted should be referred to OL in writing.

Recommendation No. 3

The Board should allow apprenticeships in any hairdressing or beauty culture shop which meets the requirements of 12 AAC 24.050.

It is the policy of the present Board not to allow an apprentice to train in a shop which is located in a town where there is a beauty school. According to the minutes of the May, 1978 Board meeting, the policy exists "to protect (beauty) schools".

This policy violates the intent of the law and is discriminatory. It was adopted to protect a segment of the regulated occupation rather than to serve the best interest of the public. Furthermore, it may be construed as restricting entry into the practice of cosmetology.

Recommendation No. 4

The Board should revoke a previous resolution which amounts to invasion of privacy.

On May 17, 1978 the Board unanimously passed a motion instructing the Division of Occupational Licensing (OL) to send a copy of each student's examination results to the beauty school the student attended. OL subsequently complied with these instructions.

To send the beauty schools results of individual students' examination scores serves no useful purpose that could not be served as well by examination statistics without names.

To avoid violation of the students' privacy, the Board should revoke that resolution or amend it to the extent that examination statistics without names be made available to all the beauty schools. OL should not release individual scores without written permission of the student.

Recommendation No. 5

The Board should take formal action to authorize OL to issue licenses.

Between July 1, 1976 and December 31, 1978, OL issued 467 new licenses to cosmetologists and others regulated by AS 08.28 without formal approval of the Board as required by AS 08.01.050.

Since the Board has prescribed minimum licensing requirements, OL has followed the procedures of having a License Examiner approve the license application based on the pre-established requirements.

To comply with the intent of AS 08.01.050, the Board should pass a resolution authorizing OL to issue licenses to applicants meeting minimum requirements.

Recommendation No. 6

The Board should establish goals and quantifiable objectives which would permit performance evaluation by the legislative and executive branches.

In order to show how the Board has provided positive benefits to the public, the membership should establish objectives describing what the Board seeks to accomplish during a specific budget year. To be most effective, these objectives should be capable of measurement and include numerical targets which serve to measure actual accomplishments to stated target accomplishments.

A survey of the members showed that this Board, as a group, does not have a clear idea of its goals and objectives. The Division of Occupational Licensing (OL) established its own overall budget goals and objectives; however, the budget documents do not include goals or objectives for individual boards.

Alaska Statute 37.07.090 requires each agency, board or commission to submit a performance report no later than September 1 for the preceding fiscal year. OL has not, in the past, required the Board to comply with this statute. Without quantifiable objectives, the Board cannot comply with this statute. Without performance data, neither the Governor's Office nor the Legislature can evaluate the effectiveness of the Board.

Sec. 37.07.090. Performance reporting. (a) Each state agency shall submit a performance report to the division no later than September 1 for the preceding fiscal year. These reports shall be in the form prescribed by the division after consultation with the legislative finance division, and shall include

(1) an identification of the objectives intended for the program and the problem or need which the activities and operations of the board, commission or program is intended to address;

(2) an assessment of the degree to which the original objectives of the program have been achieved expressed in terms of performance, effects, or accomplishments of the program and of the program or need which it was intended to address;

(3) a statement of the performance and accomplishments of the program in each of the last four completed fiscal years and of the costs incurred in the operation of the program;

(4) a statement of the number and types of persons affected by operation of the program;

(5) a summary statement, for each of the last three completed fiscal years, of the number of personnel employed in carrying out the program and a summary of the cost of personnel employed under contract in carrying out the program;

(6) an assessment of the effect of the program on the economy of the state;

(7) an assessment of the degree to which the overall policies of the program, as expressed in regulations adopted by the agency, board or commission and its decisions, meet the objectives of the legislature in establishing the program; and

(8) an analysis of the services and performance estimated to be achieved if the life of the agency, board or commission were to be continued.

(b) The division shall summarize the performance reports and forward copies to each member of the legislature. (§ 1 ch 188 SLA 1970; am § 5 ch 95 SLA 1971; am § 6 ch 149 SLA 1977)

Effect of amendment. — The 1977 amendment deleted "statements concerning" following "legislative finance division, and shall include" in the second sentence of subsection (a) and substituted present paragraphs (1) through (8) for former paragraphs (1) through (4) in that sentence.

Editor's note. — Section 1, ch. 149, SLA 1977, provides: "The legislature finds that the substantial increase in the number of state agencies, boards and commissions, and the proliferation of rules and regulations which each has adopted have contributed to a public disenchantment with the operation of state government, and that there is need for an effective and regular system of scrutiny of the programs and activities of all agencies, boards and commissions. The legislature further finds that the establishment of a system for periodic review by the public and the executive and legislative branches of certain state agencies, boards and commissions will help the governor and the legislature to determine the need for the continued existence of each of the agencies, boards and commissions."

Recommendation No. 7

The Board should establish procedures for the conduct of its business.

During our review of Board proceedings we noted that:

A. Minutes were not always complete and had not been signed by the Board president; none of the minutes on file with OL were approved.

Minutes are the official public record of the proceedings of a Board meeting and the only means a Board has to formally state its actions. Therefore, it is essential that all minutes be accurate, properly signed and approved.

B. The Board does not observe parliamentary procedures for the conduct of meetings. Board meetings have been held without notifying all members and publishing agendas; and a single Board member has taken independent action for which the entire Board is responsible.

Meetings conducted without observing parliamentary procedures reduce the effectiveness of the Board. Independent action by a single Board member does not necessarily represent the will of a majority of the Board. Action for which the entire Board is responsible should be decided by a majority of the Board in compliance with the intent of AS 08.01.030.

The Board should (MUST) improve formal minutes and adopt standard parliamentary procedures for the conduct of meetings.

Recommendation No. 8

The Board should review existing statutes, rules and regulations and seek appropriate revision where necessary.

As a part of our examination we reviewed the statutes and regulations governing cosmetologists and hairdressing to determine if these laws were obsolete, vague, or unduly restrictive. We also reviewed the Board's activity concerning promulgation of rules and regulations.

Examples of findings follow:

A. Regulations do not define the minimum licensing requirements for school owner, owner-operator, shop operator only, demonstrator or consultant, and manicurist.

schooling for a continuous period of three years, no credit will be allowed for instructions received prior to the interruption. (In effect before 7/28/59; am 5/27/66, Reg. 21)

Authority: AS 08.28.180

B. AS 08.28.080 states that the Board shall adhere as closely as possible to rules, regulations and standards prescribed and recommended by the "Allied Cosmetology Council of State Board, Schools, and Shops". There is no such organization today; Board members and employees of the Division of Occupational Licensing (OL) were unaware of any such rules, regulations and standards.

C. The Board has been applying curriculum requirements of beauty schools, 12 AAC 24.130.(K) as a criteria to determine if applicants have 2,000 hours of schooling required by AS 08.28.110. The Attorney General recently rendered an opinion that 12 AAC 24.12.(k) is not applicable to operator licensing requirements.

Get a copy of this →

D. The Board approved some changes in its rules and regulations in May, 1978. OL subsequently prepared an initial draft of the revised regulations and forwarded them to the Board for action at the August meeting. No action was taken at the August or November meetings.

E. Hairdressing laws impose 22 categories of fees (including original license and biennial renewal). Nine categories have not been changed since they were established in 1957 (22 years); two categories haven't been increased for 20 years; and nine other categories haven't been increased for 11 years.

Based on 1977-78 figures, the annual cost to taxpayers for operating the Board was $15,000 over and above license revenue. The licensed profession should adequately contribute to the cost of operating their Board. The Board should review the existing license fees, determine to what extent the Board should be self-supporting, and seek legislation to increase fees in line with current economic conditions.

AS 08.28.040 provides that the Board shall exercise general control over the vocations of hairdressing and beauty culture within the State. This cannot be done effectively if the statutes or rules and regulations are obsolete, vague and can be inconsistently applied. Currently, applicants are unable to determine if they meet minimum qualifications and the potential exists for discrimination by the Board and/or OL. When the Board has reviewed and approved changes in statutes or rules and regulations, it should act promptly to seek the necessary legislation to effect these changes.

Recommendation No. 9

OL should maintain operating statistics in licensing, examinations, and related license examiner workload.

The Division needs relevant facts and statistics for evaluating the performance of its personnel and Board activity. Many past statistics have not been collected and maintained, such as:

1. Number of beauty schools, school owners, instructors, students, beauty shop owners, managers and operators, demonstrators or consultants, manicurists and apprentices licensed each year and in the past;

2. number of persons requesting applications and number of applicants denied licensure due to lack of qualification;

3. number of persons taking the practical and written examinations and number of applicants failing;

4. number of complaints against the Board or the regulated occupation received; number investigated and final disposition;

5. correspondence workload of license examiner; and

6. number of complaints or criticisms about the performance of OL support staff.

It is to the advantage of the Division to keep these records in order to support its budget request, evaluate its personnel and keep the Board informed of its progress. Feedback from the Board and the public should be encouraged to determine if staff performance is adequate.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analysis indicates both positive and negative aspects of Board activities as they relate to the public need factors defined in the "Sunset" law. This analysis is not intended to be comprehensive in nature, but addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or program has operated in the public interest.

1. The Board has promulgated rules and regulations to exercise general control over the vocations of hairdressing and beauty culture within the State. However, our review showed that some of these rules and regulations are vague, obsolete and can be inconsistently applied.

2. The Board does not allow apprenticeships in any town where a beauty school is located. This policy was adopted to protect a segment of the regulated occupation rather than to serve the best interest of the public.

3. The Board does not consistently exercise its inspection prerogative. One beauty school has not been inspected since 1976. In addition, the Department of Health and Social Services is charged with inspecting schools and shops to enforce sanitation requirements, so it is unnecessary for the Board to become involved in this area of public protection.

4. The Board has invaded the privacy of beauty school students by sending a copy of each student's examination results to the school he/she attended.

II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

1. The Division of Occupational Licensing (OL) has not provided investigative support to the Board, thereby rendering ineffective the Board's powers of revocation and suspension of licenses.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analysis indicates both positive and negative aspects of Board activities as they relate to the public need factors defined in the "Sunset" law. This analysis is not intended to be comprehensive in nature, but addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or program has operated in the public interest.

1. The Board has promulgated rules and regulations to exercise general control over the vocations of hairdressing and beauty culture within the State. However, our review showed that some of these rules and regulations are vague, obsolete and can be inconsistently applied.

2. The Board does not allow apprenticeships in any town where a beauty school is located. This policy was adopted to protect a segment of the regulated occupation rather than to serve the best interest of the public.

3. The Board does not consistently exercise its inspection prerogative. One beauty school has not been inspected since 1976. In addition, the Department of Health and Social Services is charged with inspecting schools and shops to enforce sanitation requirements, so it is unnecessary for the Board to become involved in this area of public protection.

4. The Board has invaded the privacy of beauty school students by sending a copy of each student's examination results to the school he/she attended.

II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

1. The Division of Occupational Licensing (OL) has not provided investigative support to the Board, thereby rendering ineffective the Board's powers of revocation and suspension of licenses.

2. The high turnover of License Examiners in OL has resulted in decreased efficiency in the administrative and licensing support furnished the Board.

3. The Board is not self-supporting; cost to taxpayers of operating the Board for FY 1978 was $15,059.

4. OL has not maintained updated records and statistics for Board use.

See page 12 of this audit.

5. The Bqard has not developed and reported program plans and performance information required by AS 37.07.090

6. The Board does not follow parliamentary procedures for the conduct of meetings. Formal Board minutes are not all approved and ratified.

7. The Office of the Governor has not made appointments and/or reappointments to the Board in a timely manner.

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

1. As a result of the pipeline impact, the Board initiated action leading to legislation easing restrictions on licensed cosmetologists from other states to practice in Alaska.

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

1. The Board has not established formal procedures to encourage reporting by interested persons.

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

1. OL has not published notice of Board meetings and examinations 30 days in advance as required by AS 08.01.050 and 12 AAC 24.020. NOT REQUIRED

STATE OI

Sec. 08.01.050. Administrative duties of department. (a) The department shall provide the following administrative and budgetary

Sec. 08.01.050. Administrative duties of department. (a) The department shall provide the following administrative and budgetary services when appropriate:

(1) collect fees and issue receipts;

(2) maintain records and files;

(3) issue and receive application forms;

(4) notify applicants of acceptance or rejection of applicants as determined by the board;

(5) designate dates examinations are to be held and notify applicants;

(6) publish notice of examination;

(7) arrange space for holding examinations;

(8) notify applicants of results of examinations;

(9) issue licenses and certificates or temporary licenses or certificates as authorized by the board;

(10) issue duplicate licenses or certificates upon proof by the licensee of loss of the original and payment by the licensee of a fee of $2;

(11) notify licensees of renewal dates at least 30 days before the expiration date of their licenses;

(12) compile and maintain current a register of licenses;

(13) answer routine inquiries;

(14) maintain files relating to individual licensees;

(15) arrange for printing and advertising;

(16) purchase supplies;

(17) employ secretarial help when needed;

(18) perform other services which may be requested by the board;

(19) provide investigative services to the boards established under chs. 20, 32, 36, 64, 68, 71, 72, 80, 84, and 86 of this title, for the purpose of assisting those boards in matters of professional discipline.

(b) The form and content of a license, authorized by a board listed in § 10 of this chapter, including any document evidencing renewal of a license, shall be determined by the department after consultation with and consideration of the views of the board concerned. (§ 1 ch 59 SLA 1966; am § 1 ch 102 SLA 1976; am § 39 ch 218 SLA 1976; am § 2 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment added paragraph (19) of present subsection (a).

The second 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in the introductory paragraph of present subsection (a).

The third 1976 amendment designated the provisions of this section as subsection (a), and in that subsection, substituted "department" for "Department of Commerce" and "when appropriate" for "for the boards" in the introductory language and inserted "by the licensee" in two places in paragraph (10). The amendment also added subsection (b).

While none of the amendments gave effect to the others, this section is set out as it appears in ch. 258, SLA 1976, with the inclusion of paragraph (19) of subsection (a) added by ch. 102, SLA 1976.

2. The Board has no public members nor is there any documentation to indicate that members of the public attend Board meetings.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

(#) 1. OL does not provide adequate investigative support to the Board as required by AS 08.01.050.

(2) The Board and OL have not followed through on numerous complaints against one particular beauty school filed over a period of seven years.

which school (7)

3. Two complaints against the Board were filed with the Ombudsman, and were promptly investigated.

VII. The extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public.

1. The Board promulgated rules and regulations to permit licensure by endorsement with other states meeting the minimum requirements of Alaska.

2. The Board does not approve all licenses prior to issuance as required by AS 08.01.050.

(3) The Board administers a practical examination and a national written examination to candidates four times a year. However, OL has not adopted regulations describing how an examination is to be conducted (AS 08.01.080), nor have License Examiners been present to proctor all examinations.

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

1. The Department of Administration, Division of Equal Employment Opportunity (EEO), has not established affirmative action requirements for boards and commissions in the State of Alaska.

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

1. Please refer to the previous section, Findings and Recommendations.

APPENDIX A

BOARD OF HAIRDRESSING AND
BEAUTY CULTURE EXAMINERS
REVENUES COMPARED WITH EXPENDITURES
Fiscal Year 1978
(UNAUDITED)

Revenues (See Schedule 1 and Note 1)	$ 21,907
Expenditures (See Note 2)	(36,966)
Deficit of Revenues Over Expenditures	$(15,059)

Schedule 1
Types of Revenue

Revenues	Amount	Collection Time
Schools:		
Registration and initial license fee	$500	With application for license
Biennial renewal	$200	Biennially
School Owner, Instructor-Operator, and Demonstrator or Consultant:		
Registration and initial license fee	$ 40	With application for license
Biennial renewal	$ 30	Biennially
Operator and Manicurist:		
Registration and initial license fee	$ 15	With application for license
Biennial renewal	$ 10	Biennially
Owner Only-Beauty Shop, Owner-Operator and Manager Only:		
Registration and initial license fee	$ 25	With application for license
Biennial renewal	$ 20	Biennially
Apprentice or Student:		
Registration and one year permit fee	$ 5	With Student Enrollment Certificate
Annual renewal	$ 3	Annually

Schedule 1 (Continued)
Types of Revenue

Revenues	Amount	Collection Time
Examination Fee	$ 15	10 days prior to examination
Investigation Fee	$ 25	With application for licensure by endorsement

Note 1

A significant portion of the revenue is license renewal fees due June 30 of odd numbered years. This causes revenue collections to be unequal from year to year. Therefore, we calculated an average of the revenues collected in fiscal years 1977 and 1978 to report a more accurate representation of annual revenues compared with annual expenditures for Fiscal Year 1978.

Note 2

Expenditures include those made by Board members, such as per diem and travel, plus an allocated percentage (estimated) of the total administrative cost of OL. Expenditures do not include those which other departments, such as the Department of Law, may have incurred in assisting the Board or OL.

APPENDIX B

ADMINISTRATIVE STATISTICS (Note 1)

Current Licenses At October 1978 (Note 2)

Operator	1,139
Owner-Operator	229
Manager Operator	219
Instructor-Operator	39
Owner Only-Beauty Shop	18
Manicurist	13
Operator-Instructor-Owner	12
Operator-Instructor-Manager	3
Owner-Demonstrator	1
Operator-Owner-Manager	1
Operator-Owner-Demonstrator	1
Operator-Manager-Demonstrator	1
School Owner Only	1
School Owner-Operator-Instructor	1
Total Current Licenses, per Directory	1,678

New Licenses Issued in Calendar Years 1977 and 1978 (Note 3)

	1977	1978
Operator	153	204
Manager-Operator	21	16
Owner-Operator	5	5
Owner Only-Beauty Shop	5	8
Manicurist	3	9
Instructor-Operator	6	1

New Licenses Issued in Calendar Years 1977 and 1978 (Note 3)(Cont'd)

	1977	1978
Demonstrator	2	-0-
School Owner	1	-0-
Total New Licenses Issued	196	243

Two hundred and forty-one of the above licenses were issued by endorsement from other states or countries.

Board Meetings - Calendar Years 1976, 1977, 1978

Number of Meetings held	12
Average Number of Meetings per year	4

Examinations - Calendar Years 1976, 1977, 1978

Number of examinations administered	12
Average number of examinations per year	4

Note 1

There are no current statistics available for students taking examination and pass/fail ratio nor for number of licenses renewed.

Note 2

This data was summarized from the Board of Hairdressing and Beauty Culture Examiners Directory published by OL in October, 1978.

Note 3

This data was obtained from a log of new licenses issued maintained by OL.

APPENDIX C

QUESTIONNAIRE SENT TO BOARD MEMBERS

See Note 1
Number of Responses

1. What are the goals and objectives of the Board?

   a. *To better the hairdresser and cosmetology profession.* — 2

   b. *To better the testing.* — 2

   c. *To monitor internal practices of the profession in order to safequard public interests.* — 1

   d. *To update statutes.* — 1

   e. *To see that students are wel. trained.* — 1

   f. *To promote continuing education.* — 1

2. How does the Board measure its progress in meeting its goals and objectives?

   a. *By input from members of the profession and the public.* — 1

   b. *By the well trained students we examine.* — 1

   c. *By improvements seen in grades on written and practical examinations.* — 1

   d. *By examining complaints.* — 1

   e. *By reevaluating past decisions and reviewing post actions.* — 1

   f. *By reviewing the actions of other Boards.* — 1

   g. *By conducting public interviews.* — 1

		Number of Responses		
		Yes	No	No Opinion
3.	Do you believe the Board's meetings are conducted in a professional, business-like manner?	2	2	-0-

Please comment:

		Number of Responses
a.	*No. We need a good set of guidelines.*	1
b.	*No. Many members do not follow parliamentary procedures to advance their views.*	1
c.	*Yes. Except when a member does not follow parliamentary procedures.*	1
d.	*Yes. No comment.*	1

		Number of Responses		
		Yes	No	No Opinion
4.	Should the taxpayers help pay for the Board through appropriations from the State?	2	2	-0-

Please comment:

		Number of Responses
a.	*No. Board should be self-supporting*	2
b.	*Yes. We as a Board, are used primarily to test (applicants), thereby protecting the consumer.*	1
c.	*Yes. No comment.*	1

5. What are your general duties and responsibilities as a Board member?

a.	*Administer examinations.*	4
b.	*Inspect schools.*	3
c.	*Consider changes in the field, including laws and regulations.*	2

		Number of Responses
d.	*Hold meetings.*	2
e.	*Help out-of-state operators obtain licenses.*	1
f.	*Check complaints from students and operators.*	1
g.	*Inspect shops.*	1
h.	*Answer inquiries.*	1

6. What are the limits of your authority?

a.	*As outlined in State statutes.*	3
b.	*The authority of the Board is restricted because procedures for the conduct of meetings have not been established.*	1

7. What do you feel should be part of the code of conduct for Board members?

a.	*Act in a professional manner at all times.*	1
b.	*Set an example (as a leader) for everyone connected with or interested in hairdressing.*	1
c.	*Maintain high standards and remember that he/she represents the State.*	1
d.	*Maintain professional objectivity and eliminate personal bias and prejudice.*	1
e.	*No comment.*	1

	Number of Responses		
	Yes	No	No Opinion
8. Do you feel that the support you get from the Division of Occupational Licensing (OL) is adequate?	4	-0-	-0-

Why or Why not?

	Number of Responses
a. *Yes. But OL should have more authority.*	1
b. *Yes. They proctor exams, answer questions and send supplies.*	1
c. *Yes. But if License Examiner position were upgraded, maybe the turnover wouldn't be so frequent and our paperwork would be done.*	1
d. *Yes. No comment.*	1

	Number of Responses		
	Yes	No	No Opinion
9. Should the number of years a Board member may serve on the Board be limited?	1	3	-0-

If yes, how many years for 1 term? 3

How many terms? 2

	Number of Responses
10. Why were you selected to serve on the Board?	
a. *Qualified and available to serve.*	3
b. *No comment.*	1
11. What are the differences between barbering and hairdressing or cosmetology?	
a. *Cosmetology is a much more technical, intensive area.*	1
b. *Barber schools do not teach all the subjects taught in beauty schools and do not require as many hours.*	1
c. *Hairdressers have more training in chemical work, sets, and comb-outs.*	1
d. *Hairdressers use chemicals.*	1
12. What are the similarities between barbering and hairdressing or cosmetology?	
a. *Serving personal appearance.*	1

		Number of Responses
b.	*Meeting the public and cutting hair.*	1
c.	*Haircutting and skin care.*	1
d.	*Haircutting and health regulation.*	1

	Number of Responses		
	Yes	No	No Opinion
13. Could the Board of Barber Examiners be effectively combined with the Board of Hairdressing and Beauty Culture Examiners?	2	2	-0-

Why or why not?

		Number of Responses
a.	*No. Responsibilities and training of each group are so different.*	1
b.	*No. Barbers need more training in basic hairdressing and chemical work; hairdressers need training in shaving.*	1
c.	*Yes. It would be to the advantage of both professions.*	1
d.	*Yes. But, only if barbers could upgrade to hairdressing requirments.*	1

	Four Responses			
	#1	#2	#3	#4
14. If combination of the two boards is considered, how should such a combined Board be made up?				
For example:				
A. How many members?	5	7	5	No Opinion
B. How many hairdressers?	3	3	3	No Opinion
C. How many barbers?	1	3	2	No Opinion
D. How many members from the public?	1	1	No Opinion	None

Other comments:

		Number of Responses
a.	*No barber is qualified to examine a hairdresser or cosmetology student.*	1
b.	*Laws would have to be changed.*	1
c.	*No comments.*	2

		Number of Responses		
		Yes	No	No Opinion
15.	Should a person having any ownership in a beauty school or barber school be allowed to serve as a Board member?	3	1	-0-

Why or why not?

		Number of Responses
a.	*Yes. They are often the most experienced persons available.*	1
b.	*Yes. To act as liaison between schools and Board.*	1
c.	*Yes. School owners have a great interest in the profession.*	1
d.	*No. There is a great chance that a school owner would consider his/her own best interest rather than the profession as a whole.*	1

		Number of Responses		
		Yes	No	No Opinion
16.	Do you know of any instance where a patron was physically harmed because of an error made by a hairdresser?	3	1	-0-

Please explain (no names need be mentioned):

		Number of Responses
a.	*Yes. Hair was burned off by chemicals.*	1
b.	*Yes. Two patrons lost all their hair by bleach; one patron sued because of an infected finger.*	1
c.	*Yes. Several instances of chemical burns and similar accidents noted.*	1

	Number of Responses
d. *No, not physically. A hairdresser did not have enough study in chemicals, mixed wrong products which caused breakage of hair. Patron was furnished with a wig.*	*1*

	Number of Responses		
	Yes	*No*	*No Response*
17. Have you ever directed any complaints to an agency such as:			
A. Division of Occupational Licensing, Department of Commerce and Economic Development?	*4*	*-0-*	*-0-*
B. Alaska's Ombudsman?	*-0-*	*1*	*3*
C. Alaska's Attorney General's Office?	*1*	*1*	*2*
D. Consumer Affairs Offices?	*-0-*	*-0-*	*4*
E. Better Business Bureau or similar agency?	*1*	*-0-*	*3*
F. Member of Board of Hairdressing and Beauty Culture Examiners?	*2*	*-0-*	*2*
G. Other (please specify)? Human Rights Commission	*1*	*-0-*	*3*

18. What was the final disposition of your complaint (please indicate agency handling your complaint)?

Agency	*Disposition*	*Number of Responses*
Division of Occupational Licensing	*unresolved*	*2*
Board	*unresolved*	*1*

	Number of Responses		
	Yes	*No*	*No Opinion*
19. Do you feel that any changes should be made in the way complaints are handled?	*3*	*1*	*-0-*

Please explain:

	Number of Responses
a. *Yes. Occupational Licensing should be more involved.*	1
b. *Yes. Let the Board member know the disposition, because the complainant wants to know.*	1
c. *Yes. We need more help for the Investigative Unit (in OL) so they can follow through on complaints.*	1
d. *No. No comment.*	1

1. Examinations - Statutory elimination of the Coast Guard exam as a prerequisite to the State Exam. Redundant.
(Y) - p 5, last paragraph; p 6, first paragraph
(B) - p 5, paragraph 4; p 7
(W) - p 2, paragraph 3; p 3, paragraph 1; p 4; p 5, paragraph 4

2. Increase the biennial license fee to $300 (presently $200) and the application fee to $50 (presently $10).
(Y) - p 3; p 11, paragraphs 2 and 3
(B) - p 25
(W) - page 16; page 18

3. ~~Repeal~~ Sec. 08.62.040 (2)(4) which gives the board the power to regulate pilotage fees. I suggest that this power be given to an existing regulation body, such as the Alaska Transportation Commission, which already has a rate structure within it.
(Y) - p 7, last paragraph; p 8
(B) - p 6; p 7, last paragraph; p 12
(W) - p 6 (Capt. Ed Murphy); p 28, paragraph 1; p 30

4. The Board of Marine Pilots should be continued for four more years.
(Y) - p 1
(B) - p 7, paragraph 2
(W) - p 2, paragraph 3; p 6, paragraph 2

5. Repeal Sec. 08.62.110 (AS 30.10 was repealed in 1970) and the portion of Sec. 08.62.120 which states "A license issued under AS 30.10 lapses at the end of calendar year 1970."
(Y) - p 11; p 13 (obsolete)

6. AS 08.62.040(a(3) - repeal vessels in section.
(a) The board shall:
(3) Keep a register of licensed pilots, [vessels], [operators], agents, and [managers]
(Y) - This is a suggestion by OL and Elaine Garrett may wish to comment on this. Evidently there is no way OL is able to keep a register on all vessels. They are performing this function for the Board of Marine Pilots.

7. Members of the Board may be appointed to serve no more than two ~~full~~ terms.

7. Section 08.62.150 should be amended to include failure to maintain qualifications for the original license as a basis for mandatory revocation, suspension, or refusal to re-issue a license.

8. In keeping with the Board's mandate to provide for the maintenance of efficient pilot service for Alaska, AS 08.62.040(4) should be amended to require that marine pilot associations have their records audited annually by a certified public accountant approved by the Board, a copy of such report shall be submitted promptly to the Board.

BOARD OF MARINE PILOTS

1. Section 08.62.040(4) should be amended to read:

The Board shall:

(4) regulate pilotage fees and consistent with the law, adopt regulations, subject to the Administrative Procedure Act (AS 44.62), justifying the setting of these fees.

The cost of Audits required by regulation to carry out this section shall be the responsibility of the board.

OR

The Board shall:

(4) regulate pilotage fees and develop specific regulations to substantiate these fees.

(a) the Board shall establish regulations for input by marine pilots, industry, and public in the setting of these fees.

2. AS 08.62.040 (a) (3) Repeal [vessels] [operators] and [managers] in section.

(a) The Board shall:

(3) Keep a register of licensed pilots and agents. Evidently, vessels with over 1600 gross tons of cargo, or those vessels which carry dangerous cargo (chemicals, etc.) must give 24-hour notice to the Coast Guard before their arrival to the Captain of the particular port. (Registry, etc.)

Operators and managers are not proper terms.

3. Agents who represent ships subject to the state pilotage Act shall pay a biennial registration fee of $100.00.

The agents are not paying any registration fee at this time and by doing so they would be more likely to register. There is evidently a large number of agents who are not registered at this time and this suggestion could help eleviate this problem.
The pilots are required to pay a fee so the agents should also. This would also give the general fund more monies which might allow more than one meeting a year by the Board of Marine Pilots.

BOARD OF MARINE PILOTS

BOARD OF PILOTAGE COMMISSIONERS

October 23, 1979

Ms. Elaine Garrett
Department of Commerce & Economic
Development
Division of Occupational Licensing
Pouch D
Juneau, AK 99811

Dear Ms. Elaine Garrett:

This letter responds to your telephone inquiry as to how pilotage tariffs are set in Washington State.

The Board of Pilotage Commissioners is charged with the annual setting of pilotage fees (RCW 88.16.035(4)). A copy of the current pilotage act is attached. For many years it has been the practice that the pilots associations, and the Puget Sound Steamship Operators Association (their pilotage committee) will negotiate a level of fees to which both sides ultimately come to an agreement. With previous communication, as the negotiations progress, the Board will set a hearing date to hear testimony and ask questions of the two sides as to how the agreement was reached. Because of the agreement between the parties, the Board is usually inclined to adopt the rates as proposed. The rate hearings are therefore usually very short in duration and when completed the usual monthly meeting is commenced (the hearing is set on the day of the regular meeting).

Last year the Grays Harbor pilots received a 7% increase; the Puget Sound pilots received a rate increase of 8.3%, covering an 18 months period. Negotiations are commencing now for the next round.

As you can see the Board spends very little time in the actual tariff making process. We feel this is better handled by the parties directly involved, i.e., the ones providing the services and the ones paying the bills.

Copies of the two current tariffs are attached along with copies of minutes of the two hearings at which they were adopted.

We hope this information will be of assistance to you in your efforts to establish your next set of tariff changes. If any members of the Commission or your staff are interested, our Board meetings are held the second Thursday of each month. We would be delighted to have you attend so as to exchange matters of mutual interest and concern.

Please let us know if we can be of further assistance.

Sincerely,

BOARD OF PILOTAGE COMMISSIONERS

Richard A. Berg

SOUTHEASTERN ALASKA PILOTS' ASSOCIATION
Testimony (Teleconference)
Senate Commerce Committee
December 10, 1979

Good afternoon Mr. Chairman. My name is Eugene Richards and I am a marine pilot living in Ketchikan. I represent the Southeastern Alaska Pilots' Association as their Association president.

Our Association recommends that the Board of Marine Pilots be retained. We firmly believe that the State should not relinquish any further jurisdiction of our state waters to the Federal Government.

Furthermore, the Commandant of the U.S. Coast Guard has already stated his policy regarding state pilotage in his letter to Captain Pat Neely, President of the American Pilot Association. The complete letter was forwarded previously to your audit board.

I would like to quote one paragraph as follows:

> "The first issue is with respect to the position of the Coast Guard on state pilot organizations. On this issue I would like to set the record straight, once and for all. The Coast Guard has no intent or desire to supplant or replace the state pilots organizations with a federal pilot scheme. State pilots have played and will continue to play a major role in United States pilotage."

This concludes my testimony and I wish to thank you for this opportunity.

Eugene W. Richards

AMERICAN INSTITUTE OF MERCHANT SHIPPING

Testimony Before

ALASKA HOUSE COMMERCE COMMITTEE

SUNSET HEARINGS ON ALASKA BOARD OF MARINE PILOTS

January 30, 1980

By D. J. Paul, Jr.

West Coast Fleet Manager

Exxon Co., USA

My name is Dan Paul, West Coast Fleet Manager, Exxon Co., USA. Today I represent the American Institiute of Merchant Shipping (AIMS), a national trade association comprised of 28 companies who own, operate or charter the majority of United States flag tankers, liquefied gas carriers and other bulk carriers, aggregating nine (9) million deadweight tons.

AIMS acts as a voice for many activities in our industry, one of which pertains to marine pilotage. Within AIMS' structure we have a number of committees that interface with U.S. delegations participating in deliberations with the Intergovernmental Maritime Consultative Organization (IMCO). IMCO's main objective is to facilitate cooperation among governments on technical matters affecting international shipping, in order to achieve the highest practicable standards of maritime safety and navigation.

Our Pilotage Committee philosophy embodies this concept as we are concerned with qualifications, training and licensing; the master-pilot relationship and other matters which follow the objective of maritime pilotage which, as I think you will agree, is the enhancement of safety.

AIMS' National Pilotage committee and its subcommittees include among its membership a substantial percentage of the users of pilotage services rendered by Alaska State Pilots. I would like to thank you for the opportunity to express AIMS' views regarding the Alaska Board of Marine Pilots.

AIMS concurs with the Division of Legislative Audit's report that the Board of Marine pilots should continue to regulate and license Marine pilots for the State of Alaska. The report highlighted several key issues which AIMS agrees deserve the legislature's attention. I would like to focus your attention on a few of the more important of these in my testimony today.

Licensing State Pilots

AIMS is dedicated to the establishment and maintenance of high levels of pilotage performance and believes that this can best be achieved through the development and acceptance of universally applicable standards which should be established by a

national pilotage authority.

Under the U.S. Constitution, pilotage legislation falls withing the purview of the Federal Government as part of its authority to regulate commerce. However, the first Congress delegated to the states the right to control pilotage for vessels "until further provision is made by Congress." Congress has since exempted U.S. Flag vessels operating under enrollment from state pilotage and returned them to Federal control.

The U.S. Coast Guard is charged with the responsibility to insure that federally licensed pilots possess the requisite knowledge and skills and is the logical choice to play the lead role in establishing proper uniform standards for pilotage, both state and federal. When these standards are developed, they can provide guidelines for the coast Guard as well as state and local authorities in establishing necessary training and certification programs. Until this long range goal can be accomplished, AIMS urges the State of Alaska to establish active liaison with the U.S. Coast Guard to accomplish the following:

1) Continue to require federal pilotage endorsements as a prerequisite to state pilotage.
2) Eliminate those state license examination requirements which duplicate federal pilotage examinations.
3) Seek active U.S. Coast Guard liaison on the Board of Marine Pilots.

Pilot Recertification

AIMS agrees with the state that recertification procedures are required to insure that pilot qualification is maintained. However, the recertification procedures are too vague to assure that the intent of the regulation is met. AIMS would be happy to assist the Board in developing realistic recertification procedures which insure pilot competency in each port area. In this regard, I understand that the USCG will, in the near future, initiate new procedures for recertification of federal pilots. We would encourage the Board's thorough evaluation of these procedures.

Pilot Discipline

Implicit in the authority to certify a pilot is the responsibility and authority to investigate casualties and take disciplinary action. Alaska has recognized this responsibility by allowing the Board to take action against a pilot who "is incompetent in the performance of his pilotage duties" or "is guilty of misconduct during the course of his employment." However, AIMS agrees with the Legislative Audit report that these terms are too vague and need to be clarified and suggests seeking the advice of the Coast Guard, the pilots and the industry in doing so. We also agree that provisions should be made for revocation or suspension of a state license if corresponding action is taken against the pilot's federal license by the USCG.

Regulation of Fees

The Board is currently directed by statute to regulate pilotage fees. Because of the monopoly situation created by state pilot associations with respect to Foreign Flag Vessels and U.S. Flag Vessels under registry, AIMS agrees with the Legislative Audit report that it is in the public interest for the Board to continue this responsibility. AIMS is pleased with the Board's increased interest and more active involvement in regulating fees, because we believe the Board provides a proper forum for public debate of the complex issues involved in establishing fair and equitable rates. In fact, we believe that active involvement of the Board in establishing pilot tariffs is the only viable mechanism currently available to the pilots and industry to debate the issues and would strongly object to any reduction in the Board's involvement.

As evidence of the Board's responsiveness to this need, it recently adopted standards for the review of pilotage rate proposals. AIMS commends the Board for moving in this direction, but proposes once again that the more detailed standards which AIMS recommended to the Board in December would provide a more suitable framework within which to fully consider the pertinent issues associated with changes

in pilotage rates. These issues include, among others, individual pilot income, workload, time off, benefits, travel and standby time, expenses and equitable distribution of costs to users by pilotage ground and vessel size.

As a matter of good business practice, AIMS strongly recommends that state pilot associations be required to have their financial records audited annually by a certified public accountant. This will also insure that consistent records are available when required for consideration of a rate increase.

Board Administration

AIMS supports the Legislative Audit report's recommendation that the Board prepare a procedures manual to govern its activities and to improve its efficiency.

Board Composition

Since the start up of the trans-Alaska Pipeline System, the tanker industry has become a significant user of Alaskan State Pilotage. Because of the increased importance of this industry as a user group and because of the significant contribution it could make to the Board through its resources and experience, AIMS recommends that the tanker industry be represented on the Board.

Regulation of Enrolled Vessels

As stated earlier in my testimony, regulation of enrolled vessels was returned to federal control sometime ago by Congress. However, in 1977 Alaska enacted a statute which established certain pilotage requirements for enrolled tankers. The Legislative Audit report points out in Section III.2 on Page 20 that the state has no jurisdiction over these vessels because of federal law. AIMS shares this view and strongly recommends that the legislature take steps to repeal those sections of the statute (AS 08.62) as required to conform to federal law. As I indicated earlier, the vessels affected by this statute are already required to be under federal pilotage, and it is AIMS' view that the welfare of the State would not be compromised by this action.

In closing, let me thank you again for permitting me to express AIMS' views on these issues. I will be happy to try to answer any question you may have.

T E S T I M O N Y

Good morning Mr. Chairman, members of the committee. I am Harley Clough and I live in Juneau. I am an active pilot and am President of the Southeast Alaska Pilots Association. I am here to testify in support of retaining the Board of Marine Pilots, essentially in its' present form. In reading and studying the Performance Review of the Board of Marine Pilots, I feel the Division of Legislative Audit has failed to grasp and understand the state pilotage system and I have several comments on this subject.

The report states the State Pilot exam duplicates the C.G. exam and recommends eliminating the state exam. Here, the legislative audit has completely missed the mark. I will agree there are some duplications which perhaps should be changed but the exams do not duplicate each other. The state exam concentrates on the daily gut work of a pilot; his detailed knowledge of Alaskan waters and his ability to maneuver large ships in and out of ports under Alaskan conditions. These things are not learned from a book and are the foundation of a pilot's job.

The Coast Guard exam is an academic exercise based on texts and federal government publications. You could purchase this information in any city in the country, and if the CG would permit, take and pass the Coast Guard test without ever seeing Alaska. There is no way an applicant can pass the oral and written state pilot exam without really knowing the Alaskan ports and really knowing how to handle ships. For Alaskan Pilotage, a far better argument would be to eliminate the CG exam and expand the State Pilot test.

Throughout this report, legislative audit has attributed the Coast Guard with a capability and an expertise they do not possess. In Alaskan pilotage, we are concerned in a through knowledge of Alaskan waters and with mainly handling of large ships. The Coast Guard has no large ships and have little experience in this area. Similarly, military rotation and other policies severely limit the sea-going experience of any CG officer in Alaskan waters. The degree of practical experience of the Coast Guard in Alaskan pilotage matters is almost non-existant. Believe me, the State Board of Marine Pilots is a far more experienced and competent regulatory body to supervise Alaskan pilotage matters than the United State Coast Guard.

Also, as a long time Alaskan resident, I strongly object to any suggestion which invites a federal regulatory agency to assume an interest in state affairs.

The legislative audit report states the Board of Marine Pilots takes little interest in tariff matters and has been a rubber stamp for previously arranged pilot-industry agreements. This simply is not true. I have appeared before the Board on a number of occasions to discuss tariff matters. The Board has always taken a high degree of interest in the tariff. Several years ago the Commissioner of Commerce suggested the pilots and agents get together and work out a preliminary tariff for the Board. This duplicated a long established precedent used in Washington state. This was done on only one occasion and the Board has subsequently rejected this procedure. In Southeast Alaska 98% of pilot tariffs are paid by foreign ship owners. The U.S. agents have been deligent in protecting the foreign interests. There have been no tariff give-aways. Indeed, I have been often dismayed at the length the Board and the State have gone to secure and protect these foreign business interests.

On Page 41 of the Performance Report there is a ship owners and agents comment which states "We have no control of a pilot, we hire through an Association". Now this comment would appear to be a legitimate criticism of the Pilotage system and I'm sure that the legislative audit specifically included it in the report for this reason. A casual reader of the report might also agree that their critical remark has merit. However, he would be wrong to do so - completely and absolutely dead wrong. A state licensed pilot is not supposed to be under control of the ship owner. A pilot's main responsibility is for the safety of the ship - not financial interest of a Greek owner of a Liberian ship sailing with a Chinese captain and mixed nationality crew. A pilots first responsiblity is to protect the lives and property of Alaskans and the Alaskan environment - not adhere to some oil company's shipping schedules. This is what the state pilotage system is all about.

In conclusion, Mr. Chairman, I want to commend the Board of Marine Pilots to the committee. The Board has done a good job during the ten years of its existance. Board members have put in many hours of work without remuneration. The Board has cost the state virtually nothing to operate during the period. Indeed, much of legislative audit criticism is directly due to the lack of necessary funds for the Board to conduct its business. Again, I say the Board has done a good job for the State, for the citizens of Alaska, and for the marine industry.

I appreciate the opportunity to testify before this committee and I want to thank the committee and its staff for the hearing arrangements they have provided.

Harley Clough

Telephone 202/783-6440
Telex: 89-424 AIMSHIP WSH

February 29, 1980

Honorable W. E. Bradley
Chairman, Senate Commerce Committee
State of Alaska
State Capitol
Pouch V - Mail Stop 3100
Juneau, Alaska 99811

Dear Senator Bradley:

At the January 30, 1980, Sunset Hearings on the Board of Marine Pilots held by the House Commerce Committee in Juneau, I presented testimony on behalf of the American Institute of Merchant Shipping (AIMS). During discussions following my prepared testimony, I was requested to categorize AIMS' recommendations into statutory and regulatory proposals. I am pleased to respond at this time to that request, and would also like to take this opportunity to offer further comment on other issues not fully explored during the Hearing which may have a bearing on your deliberations.

With respect to categorizing AIMS' recommendations into statutory or regulatory proposals, I offer the following:

Licensing State Pilots

1. Continue to require Federal pilotage endorsements as a prerequisite to State pilotage.

   No action is requested. This requirement is included under 12 AAC 56.030(2).

2. Eliminate those State license examination requirements which duplicate Federal pilotage examinations.

   It is recommended that language be added to AS 08.62.-040(2) permitting elimination of examination requirements

3. Seek active USCG liaison with the Board of Marine Pilots.

It is recommended that the Board of Marine Pilots be encouraged to solicit active liaison with the U. S. Coast Guard regarding establishment of appropriate guidelines for pilot qualification, examination, recertification and discipline. In this regard, we encourage the State to request such a U. S. Coast Guard representative to be stationed in, or be in close contact with, U. S. Coast Guard Headquarters in Washington. This will ensure uniformity of application nationwide.

Pilot Recertification

As indicated in AIMS' Testimony, recertification procedures are too vague to assure that the intent of the legislature is met. In addition, the USCG will, in the near future, issue new procedures for recertification of Federal pilots. AIMS proposes that a committee of interested parties, including the pilots, industry, USCG and Board of Members be established to identify and recommend statutory or regulatory changes to strengthen this most important area.

Pilot Discipline

1. Clarify the terms "incompetent" and "misconduct."

This subject should be included in the scope of the previously recommended Committee's work.

2. Suggest Alaska standards for revocation or suspension of State pilot licenses be established similar to USCG standards and procedures for revocation or suspension of Federal pilot licenses.

AIMS proposes Section 08.62.150 should be amended to include failure to maintain qualifications for the original license as a basis for mandatory revocation, suspension, or refusal to re-issue a license.

Regulation of Fees

1. Provide more detailed criteria for evaluating pilotage rate changes.

Section 08.62.040(4) should be amended to require that

individual pilot compensation must be adequate, but not excessive, to assure that qualified personnel are attracted to the service, and that consideration must be given to difficulty of pilotage, length of time on the job, hours on standby, area standards of living, ratio of time off to time worked, benefits, necessary expenses, including pilot boat cost if required, and equitable distribution of these costs to the users of the pilotage service.

2. Require annual financial audit of pilot associations by state auditors with the audit available to the public.

In keeping with the Board's mandate to provide for the maintenance of efficient pilot service for Alaska, AS 08.62.040(4) should be amended to require that marine pilot associations have their records audited annually by a certified public accountant approved by the Board, a copy of such report shall be submitted promptly to the Board.

Board Composition

1. Provide for tanker industry representation on the Board.

It is proposed that AS 08.62.101 be amended to specify that one industry member of the Board be a representative of the tanker industry. This member could make a significant contribution to the Board through the industry's resources and experience. In order to assure that a person of sufficient experience and knowledge is available for service to the Board, the State residency requirement for that representative should also be expanded to permit any U.S. citizen to qualify for appointment.

Regulation of Enrolled Vessels

1. Eliminate those Sections of State Statute AS 08.62 added by passage of HB 510 in 1977 because they conflict with Federal law.

AS 08.62.185 should be repealed in its entirety for reasons already presented in AIMS' testimony.

In addition to clarifying AIMS' proposals to the Committee, I would like to discuss more fully two statements which were made by others during the Hearings which were inaccurate.

The first was that pilots assume responsibility for the safe navigation of the vessel when piloting. This statement is not consistent with the widely recognized master/pilot relationship which, by Federal and international law, holds the master fully and ultimately responsible for the safe navigation of the vessel at all times except when transiting the Panama Canal. The pilot, whether required by law or not, acts as an advisor to the master with respect to local conditions. Any orders which the pilot may give to the helmsman are given under the direct supervision of the master and with his approval. The master has the responsibility and authority to countermand any order given by the pilot, or to relieve the pilot if he believes the safety of the ship is being jeopardized.

A second statement was made that Federal, or employee, pilots are influenced by the vessel owner to "maintain schedule or move the vessel with unacceptable margins of safety," and therefore the State pilot "places a higher priority on the protection of life, property and the environment." This argument is obviously without merit when one considers the owner's investment in his ship, its cargo and crew and the social and financial consequences which would result from a vessel casualty. No one has more to lose than the U.S. ship owner when safety is not the paramount consideration in vessel operation.

Furthermore, it is not necessary for a Federal pilot to be an employee of the shipowner or operator. Independent Federal pilot services are available at many U.S. ports and provide both channel navigation and docking pilot services.

In closing, let me thank you again for the opportunity to express AIMS' views on this most important matter. I will be happy to try to provide you and other members of the Committee with any further information you may request.

Very truly yours,

Mark R. Johnson

TESTIMONY FOR SUNSET LEGISLATION

ON STATE PILOT BOARD

The term pilot can be described in a couple of different ways.

The federally or Coast Guard licensed pilot is subject to the selection and control of the shipowner. The Coast Guard license can be obtained by getting between 5 and 20 observation trips and then sitting for an examination. This by law qualifies any person to pilot enrolled vessels with no demonstration of abilities.

Secondly, the term pilot means a State licensed pilot who is not subject to the selection and control of the shipowner. To obtain a license in the State of Alaska one is required to make 20 dockings and 20 undockings under the supervision of State licensed pilots, with no more than 5 dockings and undockings with any one pilot. The applicant must also take a written examination that is made up by professional pilots. Also the applicant must already have the Coast Guard pilotage endorsement and a 500 ton Masters License before applying for the State endorsement.

It is obvious that the State of Alaska has a much more effective means of licensing than the Coast Guard in that the State requires a demonstration of abilities.

However, some of the companies with the largest investments in ships and docks seemed to think that both the federal and State requirements are not adequate.

For example, in order to dock a ship at the Drift River terminal, each pilot must be observed several times by the shoreside personnel while he

is actually docking the ship. Then a letter must be submitted to the Cook Inlet Pipeline Marine Committee and they must make the final approval.

Also before a pilot can handle the LNG ships into the Phillips dock at Nikiski he must comply with the following requirements as set up by Phillips and Marathon:

1. Removed any tonnage limitation from his pilotage endorsements
2. Completed the Association training program and has been approved by the Association Board of Directors to handle all tonnages at the T.A.P.S. terminal at Valdez.
3. Been approved by the Cook Inlet Pipeline Company Marine Committee to dock and undock vessels at the Drift River platform.
4. Operated in Cook Inlet under ice conditions for at least 2 winters previously.
5. Made at least 3 observer trips to and from the LNG dock at Nikiski in Cook Inlet on the LNG vessels, two of which shall have been under heavy ice conditions.
6. Been approved by the Association Board of Directors to pilot the LNG vessels.

Southwest Alaska Pilots Association agrees that the requirements by both the Coast Guard and State are not adequate. Before we turn a pilot loose in Valdez he first has to become a proficient pilot in the remainder of the territory that the Southwest Alaska Pilots Association cover. This in itself is a tremendous recommendation based on performance. Also we require that each pilot, at our expense, attends the ship handling school in Grenoble, France.

So within the piloting community there are pilots and professional pilots. The companies with the largest investments in ships and docks insist upon letting only the most experienced of the professional pilots

handle their investments during the most critical part of the ships operation.

The Southwest Alaska Pilots Association recognizes the need for higher professional standards and we are presently re-evaluating our training program to increase these standards. We recognized this as a fact of life because the only thing we have marketable is a service, and if that service is not totally professional then we no longer have anything to offer. Because customarily pilots do not work under contracts and at any time the companies or agents can stop using our service.

If the State of Alaska decides to eliminate the State Pilot Board, they relinquish all regulatory control over the quality of pilots that handle the largest ships in the United States within Alaskan waters. Southwest Alaska Pilots Association believes there is a need for even higher standards within the State framework, but with the State Pilot Board, the mechanism for increasing these standards is there.

Also if there is no compulsory pilotage within the State framework, then the shipowner has the right of selection and control over his employees in the performance of their duties. Future employment will be dependant upon how well the employee satisfies the demands of his employer. However with the State compulsory pilotage system the shipowner draws their pilot from a pool of pilots and therefore each pilot can operate to serve the States superior interest and is relatively insulated from the demands and pressures that can be placed on an ordinary employee to compromise the margins of safety.

Let me ask the State of Alaska whether they would like a voice in choosing which pilots shall handle the ships plying the environmentally sensitive waters of this great state.

There is no doubt that the State Pilot Board is absolutely necessary to ensure the highest degree of professionalism among pilots.

Sunset Hearing - Marine Pilot Board

Mr. Chairman, I am Harley Clough and live in Juneau, Alaska. I am an active pilot member of the Southeastern Alaska Pilots' Association.

I have several comments concerning the legislative audit performance review of the Board of Marine Pilots. The report states the State Pilot exam duplicates the C.G. exam and recommends eliminating the state exam. Here, the legislative audit has completely missed the mark. I will agree there are some duplications which perhaps should be changed but the exams do not duplicate each other. The state exam concentrates on the daily gut work of a pilot; his detailed knowledge of Alaskan waters and his ability to maneuver large ships in and out of ports under Alaskan conditions. These things are not learned from a book and are the foundation of a pilot's job.

The Coast Guard exam is entirely an academic exercise based on texts and federal government publications. You could purchase this information in any city in the country, and if the CG would permit, take and pass the Coast Guard test without ever seeing Alaska. There is no way an applicant can pass the oral and written state pilot exam without really knowing the Alaskan ports and really knowing how to handle ships. For Alaskan Pilotage, a far better argument would be to eliminate the CG exam and expand the State Pilot test.

Throughout this report, legislative audit has attributed the Coast Guard with a capability and an expertise they do not possess. In Alaskan pilotage, we are concerned in a thorough knowledge of Alaskan waters and with mainly handling of large ships. The Coast Guard has no large ships and have no practical experience in this area. Similarly, military rotation and other policies severely limit the sea-going experience of any CG officer in Alaska waters. The degree of practical experience of the Coast Guard in Alaskan pilotage matters is almost non-existant. Believe me, the State Board of Marine Pilots is a far more experienced and competent regulatory body to supervise Alaskan pilotage matters than the United States Coast Guard.

Also, as a long time Alaska resident, I strongly object to any suggestion which invites a federal regulatory agency to assume an interest in state affairs. Although the Coast Guard

may need the knowledge and experience of the Board of Marine Pilots on occasion; the Board of Marine Pilots has little need for the advise of the CG on piloting matters.

The legislative audit report states the Board of Marine Pilots takes little interest in tariff matters and has been a rubber stamp for previously arranged pilot-industry agreements. This simply is not true. I have appeared before the Board on a number of occasions to discuss tariff matters. The Board has always taken a high degree of interest in the tariff. Several years ago the Commissioner of Commerce suggested the pilots and agents get together and work out a preliminary tariff for the Board. This duplicated a long established precedent used in Washington state. This was done on only one occasion and the Board has subsequently rejected this procedure now. In Southeast Alaska 98% of pilot tariffs are paid by foreign ship owners. The U.S. agents of these owners have been very deligent in protecting the foreign interests. There have been no tariff give-aways. Indeed, I have been often been dismayed at the length the Board and the State have gone to secure and protect these foreign business interests.

I appreciate the opportunity to testify before this committee and I want to thank the committee and its staff for the extensive hearing arrangements they have provided.

Thank You.

Mr. Christian Basler
Administrative Assistant
Senate Commerce Committee
1016 West Sixth Ave., Suite 201
Anchorage, AK 99501

Dear Mr. Basler:

Thank you for your letter of 7 December 1979 with enclosed copy of the "Performance Review of the Board of Marine Pilots" and the opportunity to submit comment.

I am in agreement with recommendations submitted and also with the majority opinions generated by questionnaires to pilots, agents, and board members.

Discontinuance of the board and its functions, I strongly feel will be destructive to the State Pilotage System in Alaska. The State Pilotage System has been found a very necessary adjunct to the maritime commerce of the coastal States. The history of development and accomplishmnets of these systems has been well documented by the American Pilots Association. Problems cited giving rise to this audit I believe are "growing pains" no doubt somewhat simular to those encountered by like organizations in the lower forty eight.

In my opinion this Review has generated the necessary attention of those concerned to an element of the State's commercial maturization having growing import.

Thank you again for your reply.

Sincerely yours,

Roger W. Swett

MARINE PILOTS REPORT:
TOUR SHIPS

By Ron E. Whitcraft
Legislative Assistant
to the
Interim Committee on Transportation

September 22, 1978

1. Introduction

It is a very well known fact that one of the main industries of Southeast and Southcentral Alaskan port cities is tourism. It was, therefore, the desire of the Interim Committee on Transportation to look into the problems of bringing the big tour ships into Alaskan ports. Tourism is an ever increasing industry in Alaska and it was brought to the Committee's attention that the pilots, who bring the tour ships into port, have legitimate problems.

2. Southeastern Alaskan Pilots Association

The Committee pursued the problems by going to the Southeastern Alaskan Pilots Association. The Pilots Association is located in Ketchikan and assigns duty to its licensed pilot members. A member is assigned to each of the tour ships while it is in Alaskan waters and must safely take the tour ship into and out of Alaskan ports of call. The Committee did all of its interviewing and research while tour ships were in port at Juneau.

With hopes of getting a cross reference of views, the Committee recorded five of the pilots and has entered those interviews in this report. Several problems, pointed out by the pilots, were reoccuring during the interviews and a couple of other problems were brought out.

3. Pilots Problems Summary

Problems that were discussed often were problems relating to docking facilities. Most of the pilots in this report felt many of the docking facilities in Southeast Alaska are not strong enough to handle the large

tour ships. Particularly mentioned was the tour ship docking facility at Skagway. The pilots, who discussed the Skagway dock, said that dock was not only weak but also in a bad structural state.

The Alaska Steamship dock was mentioned as a problem because of its shallow docking area. It was discussed that this dock is in an excellent location at Juneau's downtown. As things are currently, only two or three of the tour ships can dock there. There were at least ten tour ships going into Juneau this summer.

It was brought out that often times there are too many fishing boats tying up to the docking facilities. Pilots said maneuverability was cut way down in docking the ships and sometimes there was no mooring area at all.

A problem that came up was that areas that should be lighted, by the Coast Guard, were in fact not lighted. This problem creates a hazard and, unless the pilot is a veteran of Southeast waters, could be a serious problem to the tour ship.

A need for more powerful tugs for the large tour ships was discussed in this report. Pilots felt much in-port time was lost just getting the ship into place at the docks. Some tour ships have a short tie-up time. It was realized, at the same time, that this problem is of a private enterprise nature.

A definite grievance was entered into this report over the large number of fishing vessels in the corridors of tour ships. It was explicit that the

tour ships must travel in a corridor and has little maneuverability. It was felt that these fishing vessels must be made aware of the tour ship corridor.

One other priority problem that stemmed from this inquiry was that the National Oceanic and Atmospheric Administration is not making available much of the needed charting information for Alaskan waters. The tour ships are larger vessels than those vessels utilized by the Alaskan Marine Highway System. The pilots need to know where they can take the tour ships.

4. Interviews With Pilots

The following are the interviews with pilots who bring tour ships into Alaskan waters. These pilots, once again, are members of the Southeastern Alaskan Pilots Association.

INTERVIEW WITH PILOT FROM THE UNIVERSE

Ron Whitcraft: Are there any problems that you see, any complaints that you see right now, that pilots are enduring to bring these tour ships into Alaska? Is there anything that can be upgraded or something that can be looked at?

Pilot: I don't have any complaints but there are some factors that can be upgraded, particularly the conditions of the docks. One example would be to request to bring the Rotterdam into the dock in Juneau, and the size of the ship, the dock is not suitable for that size ship unless improvements or extentions are made on it. We have a similar problem in Skagway that's being resolved, hopefully tomorrow. But we're out to take the Fairsea into the dock in Skagway next year. Prior to doing this we wrote to the port captain and advised him that the condition of the dock is deteriorating, particular at the south end and in case of adverse winds, if any strain was put on the dock we wouldn't be able to check the ships motion. There are other moorings there such as the one over ashore, but the longshoremen won't handle lines off the dock, and so it means that we have to get the ship into the dock before you can actually run these lines. So it's after the fact and they really didn't help you under adverse conditions. Another factor that we reported to them is the fact that we don't have adequate size tugs up there. As a matter of fact the tugs we're using here are doing the job and they're the same tugs we used in Skagway last year and we got by. It would be preferable to have a little bit more horsepower if we could, but you have to use what's available and we can't expect a company that has large tugs to just assign one to that area. Not enough traffic to warrant it. So we try to do the best we can with what we have available. Another condition of Skagway is the fact that they load container ships up there for White Pass and they're changing those over to barges here shortly. So there will always be a barge at the dock. These things we can live with if we can improve the dock structure itself, the mooring facilities. What we had proposed to do was bring an additional tug from Juneau up to Skagway. We have two small tugs there. Captain _____ who is a port captain will be in Skagway tomorrow and Captain _____ will be on a ship that is due in there, the Pacific Princess. They plan to discuss. Here in Juneau we have a situation where there's a shoal up at the head of the old Alaska Steam Dock. Some of the larger ships are restricted from mooring there because of the shoal at the head of the dock. Also they're restricted because of small boat traffic. The cold storage has got to survive too. You can't expect them to stop fishing. This is something that we can live with, but it would be helpful if they could do some dredging and make that dock more

useful. Ketchikan, it seems like there's a movement away from Ketchikan as far as tour ships are concerned and I think it's basically because of the lack of tourist attractions compared to Glacier Bay and what you have to offer here in Juneau. Everyone seems to be going to the seven day schedule so they have to eliminate something. And the tendency has been to eliminate Ketchikan, I think.

Ron Whitcraft: How's Sitka?

Pilot: Sitka, of course, is strictly an anchorage. We have no dock. We can anchor three ships there in suitable anchorage at a time and we have another inner-anchorage which is a little marginal under adverse weather conditions. It can be used as long as conditions are good. So there hasn't been too much of a serious problem there. As far as the tour ships are concerned they might not appreciate it too much to have a longer trip with us. As far as we're concerned, I don't see any problems.

Ron Whitcraft: How about Wrangell and Petersburg?

Pilot: Wrangell has a dock there for the ships we're taking in. It's a new dock. It has a little current action there but this we can live with. It's a little bit better oriented than the dock that we used to use. There was some comment about the Rotterdam going into Wrangell. But the thought there was that they would just go to anchor. The Rotterdam was mentioned to replace the Prinsendam. I think this is probably two years off.

Ron Whitcraft: How about bringing the ships up the Inside Passage? Are you having any problems with the passageway through the channels? Any problems with markers at all or anything like that?

Pilot: Well, we're usually able to resolve those with the Coast Guard. We've asked for a few aids here and there. And generally, within reasonable time, we get the cooperation. They always have a budgeting problem. We can ask for something they'd like to give us, but it takes a while for them to get the money in their budget in order to do this. That's the case with Snow Pass. We asked for a buoy down there. They were trying to put it in their budget and this year they found it in their budget. It's supposed to go in sometime this week or next week. So they've been quite cooperative. You asked me about Petersburg. We really don't have too many ships of this size that go into Petersburg. We used to take vessels through Wrangell Narrows which were comparable to the size of the ferries. The possibility of large tour ships calling at Petersburg is probably rather remote. We had one situation come up this year that we'd like to try and resolve with the navy. In past years on the Fourth of July the navy has come in with destroyer type vessels up here and they're always able to moor at the government facilities here or Ketchikan. This year was quite a change in that they

sent relatively large ships up here. We had an ammunition ship anchor in Ketchikan and an oiler anchored here in Juneau. It's rather restricted swinging room. It worked out here all right, in Juneau, moving around a little bit. And in Ketchikan we had to anchor two vessels in an area that we normally put one. The thought was, and I discussed it with the Coast Guard, that possibly if we were to contact the navy and point out to them that a smaller vessel...we want the navy to come. We're not trying to drive them out. But if they were to send smaller vessels it would probably be less interruptions to commercial trade of tourism.

Ron Whitcraft: Were there two ships more in Juneau's harbor this weekend? Or was it just that navy ship?

Pilot: There was the Veendam I believe at that time. But we have anchored two ships here in Juneau but when you anchor two large ships in Juneau they really get tight. What people don't stop and think about is not just the length of the ship involved but you have to put out enough chain so that you have adequate support to hold the vessel. So we put out considerable chain and they have quite a swinging radius. Actually, those are some of the reasons we're bored with....handle the ship under those conditions. But anytime we can eliminate a problem before it arises we like to do that too.

Ron Whitcraft: I know you have a designated corridor you follow when the tour ships come into the Inside Passage. Do you have any problems with fishermen getting into that corridor and dodging them when necessary?

Pilot: I think what you probably have reference to is the gill netters. They're more of a problem than any other type fishing vessel. We from time to time have crossing situations with fishing vessels when we're even in the wide channels. But where the critical situations arise is south of Haines it's a very narrow channel. And when Fish and Game opened this area for gill netting, it's very difficult to get some of these ships through that narrow passage, also an area where they're doing extensive gill net fishing. This year has been relatively easy because there hasn't been too much fishing in that area. The area they're fishing in has been off to the side of the channel. But later as the seasons open up then possibly they'll be fishing... The main thing as far as we're concerned is we have to slow down and when you slow down you lose a certain amount of maneuverability. Particularly some of these large ships like the Veendam, the Fairsea, they won't hardly turn unless you're going six to eight knots. You have to have enough speed to get the action on the rudders. But this year, as I say, we haven't had much problem with the gill netting because of the nature of the openings. They haven't been in the areas where we've had to transit.

Ron Whitcraft: Any other situations that have occurred that you would like to present?

Pilot: One thing that we try to do at any pertinent facility, and this would include places like the pulp mill, or Metlekatla, the lumber mill, we try to obtain adequate charting data there that we can safely moor the ships there. Since I was formally with...an agency that's responsible for charting, has been able to get their assistance in providing this data to us in a timely manner. Either that or surveys at Skagway, we've asked for surveys at Ketchikan, Wrangell, and I'm in the process now of probably requesting a survey at Ketchikan pulp mill. There seems to be a shoaling there and some of the ships are starting to rest on the bottom when they're loading on the side. This is federal program that can be used to the benefit of the state for improved navigation. And some one keeps putting this information in they'll respond to it. If we don't get any input we don't respond to it. They have their other programs which are maybe a five year program or something like that or maybe high priority. They routinely work on whatever's highest priority. So if we don't say anything about inadequate charts in our harbor we don't get anything out of it. But so far anytime I've asked for anything I've been able to get it. We have now adequate charting information of Glacier Bay and Tracy Arm, Endicott Arm. Those surveys, not so much Glacier Bay, but Tracy Arm and Endicott Arm, were done primarily at the request of the Southeast Alaska Pilots Association.

Ron Whitcraft: What are you proposing here?

Pilot: I'm saying that sometimes it's better for the Southeast Alaska Pilots requesting surveys, it would have more emphasis if it came from your office or something like that. I'm thinking about this problem here locally, this shoal at the end of the dock. I've already discussed it on the telephone with them and they said they expected to have a ship here later this summer, probably late September, that could be assigned to that, if desirable. I talked to one of the city engineers and they seemed to be interested in getting the information. But it all depends on how much emphasis.

Ron Whitcraft: This is with the NOAA?

Pilot: Right. I'm requesting a survey down at Ward Cove and you probably could request this for the same time. But I have to bear in mind that they have other things that may be higher priority. And they may or may not succeed in getting it done. So I think probably that's one area that you could assist all the maritime industry

here. We have at Metlekatla requests for taking larger and larger ships into there. Of course the dock is only so long and we can extend the bow beyond it if there wasn't a shoal there, but that would be a shoal. The more information we have, give us more information about what size ship we can bring in there.

Ron Whitcraft: You don't have information on that?

Pilot: Not too good information. We have some that we obtained from their prior survey. And even a survey might not solve the problem. It may say that there's something there and then it's up to the corps of engineers or industry to dredge it out. There's an awful lot of dredging done up here in Alaska. One other problem we have which is not related to your tour ships, is violation of state pilot laws. Some of these, particularly the smaller fishing vessels that come in, of course they are not always too knowledgeable to what the requirements are. So the Department of Commerce does have an investigation team. When there is a violation they follow up on it.

Ron Whitcraft: There is a set of regulations for all those fishing ships out there right?

Pilot: Any foreign vessel...there are certain exceptions in Southeast Alaska. Chatham Straights of course is an exception and also the pilot stations are exceptions. They go through the pilot stations and request a pilot, then they're not in violation. But they take a devious route and go into pilot waters without a pilot, then they are in violation. We've had two of those situations occur just recently.

Ron Whitcraft: What do you do to them when you catch them violating?

Pilot: We don't do anything. It's up to the Department of Commerce, the Occupational Licensing Division. They follow it up.

Ron Whitcraft: How do they check that? How do they check to see if the pilot's on there or not?

Pilot: First of all, they're supposed to be flying a pilot flag. We see them and call them on the radio, they're supposed to maintain a radio. If they don't answer the radio then you board it and find out whether they do have a pilot on board. We have a list of all the state pilots. So you could go through that list of pilots and contact each one of them. Kind of a roundabout way of doing it. But most of those pilots from that list either belong to Southeastern Alaska Pilots or Southwestern Alaska Pilots Association. Of course the associations know whether or not any of these people are aboard. There are a few free lance pilots. The list that we used to have gave their license limitations. In other words told what portions they were licensed to work in.

I think that pretty well covers it. I think it's important maritime industry get as much as they can from federal charting agencies. You don't tell them what we need and they don't know.

Ron Whitcraft: Thank you very much for your time.

INTERVIEW WITH PILOT FROM THE PACIFIC PRINCESS

Ron Whitcraft: Are there any particular problems in bringing these ships, first of all, into Southeast that bother you?

Pilot: No. I can't truthfully think of anything right now. During the ten years I've been here I've noticed quite an improvement generally, I'd say particularly in Juneau. I think perhaps there's been a little closer surveillance by the Coast Guard. None of this is in the form of criticism. As you know, as the years go by the ships have a tendency to get a little bit larger. I guess at some point they'll reach a point above which they can grow any bigger. Some of these harbors are limited in their capability of the size of the ship, for instance Juneau harbor. If you put a couple of these over 600 feet in here you have a little bit of a problem. This occasionally happens. That's just a simple reality that we have to face.

Ron Whitcraft: How about the docking facilities throughout Southeast? Are you noticing any problems with them? I understand Skagway has got a problem up there. How do you feel about that?

Pilot: There again, in past years, we have had occasions where we've had to stick a rather large cruise ship behind the Klondike or the Canadian bore vessels. This is a touchy manuever in certain weather conditions. I would think maybe that the White Pass and the Yukon dock could stand a little bit of repair, particularly in the southern end. I'm sure a surveyor could assess that. The simple business of getting over some good stern lines in a heavy southerly wind is bound to occur and eventually become a real problem. Recently, I believe, one of the cruise ships destined for Skagway had to cancel that call because of severe weather a couple of weeks ago.

Ron Whitcraft: By severe weather you mean the winds?

Pilot: Yes, southerly winds on docking prevented the Royal Viking Sky from calling there about two or three weeks ago. Actually, this may be something that no one could have any control over.

Ron Whitcraft: That's what I wanted to know. Is that fault with the docks?

Pilot: That's questionable, but the fact is that had they managed to get alongside, they might have been in some jeopardy while they were there during the visit, had the winds increased. I'm concerned about adequate

Pacific Princess - Continued

mooring facilities for large vessels, 20,000 tons and over.

Ron Whitcraft: How big is the Pacific Princess?

Pilot: She's about 21,000 tons. I think we have about four ships that size coming here. I believe there's talk of perhaps a larger one next year.

Ron Whitcraft: This is in Skagway?

Pilot: Yes. That is something that perhaps something could be done about. We can't enlarge, say, the harbor of Juneau. That's pretty well established. Maybe just by scheduling we can avoid having two of the larger vessels at anchor at once. Sitka is an anchorage program there. I think there's nothing you can really do about that, unless Sitka decides to build one, berthing facility for cruise ships.

Ron Whitcraft: By anchorage program, does that mean that they cannot dock? They have to anchor out away from Sitka?

Pilot: All cruise ships anchor there. That's kind of accepted as part of the visit to Sitka. But it's worthy of thought. Are the cruise ships here to stay, and if so would it be worthwhile to consider a berthing facility in Sitka?

Ron Whitcraft: What about the current ferry terminal they have there? Is it just not deep enough to pull one in there? It's not strong enough to dock up next to it?

Pilot: It wouldn't be adequate for the size cruise ships. Furthermore, it's not quite that accessible to the city and most of the cruise ships are on limited time. It's get in there, get the people ashore, let them visit a few hours, and move on, and it'll always be that way. So the facility has to be pretty close to the area they're going to visit. I believe that might rule out, among other things, it's not accessible to the open ocean very well.

Ron Whitcraft: How about lighting situations, lighted passes, all the way up here?

Pilot: Navigation aids. I have no criticism. I think they're pretty well serviced and pretty ideally located really.

Ron Whitcraft: I had a complaint by one of the pilots several weeks ago on the fact that there are alot of fishermen in the path of the tour ships. That is the fishermen could essentially go where he wants to go but the tour ship could only go

Pacific Princess - Continued

so far and that's it.

Pilot: I'm afraid this is a reality that I feel we have to live with. The fishermen are involved in earning the livelihood and I think it's a rare occasion when they deliberately create a hazard. That would be my feeling. The waterways in Southeast Alaska have fishermen in them like the fields have farmers. So I'm not sure I'm able to really contribute anything. I'm happy to be a part of it. It's an interesting business and I'm glad to see you at least checking into the realities that we have to contend with, from my point of view. I think the relationship with the shipmasters and the companies and the pilots has been very good. As you can see I'm pretty comfortable here. That's about really all I can think of.

Ron Whitcraft: Very good. I appreciate it.

INTERVIEW WITH PILOTS FROM THE ISLAND PRINCESS

Pilot 1: Well, they could build a bunch of new docks that are stronger, but I don't think the state could afford that. We'd like to see stronger docks with the bigger ships coming all the time. Maybe a little bit more rapport with the fishing associations, or communications. We have trouble with the fishermen. They obstruct the main ship channels continually. Of course, this is a Fish and Game problem but perhaps through your good officers we might somehow be able to exclude from the fishing waters safe passage for these vessels without constantly having to worry about it. There is plenty of water in Southeast Alaska for all the fishermen. I should think that they'd find some way to be able to have a free fareway of which we could go with these large commercial vessels without being obstructed. I think that's only fair. This is particularly a bad place because fishing is so heavy. The fishermen present quite a strong and vocal political problem. They can fish almost anywhere in the waters yet we can't go anywhere with these ships. That's what it boils down to. We're very restricted.

Pilot 2: As far as facilities in the state are concerned, I think I'll mention that we get by, but most of the facilities are really marginal.

Ron Whitcraft: How about the depths of this particular harbor coming in here (Juneau)?

Pilot 2: The depth at the head of the other dock (Alaska Steamship Dock), and the size of the dock itself, the only ship we take in there is the Sun Princess because we only run our lines on that dock and not over at the cold storage dock, so that's the biggest ship we get in there. At a low minus tide the bow of that ship will touch the bottom at the head of that dock. That's really not much of a problem, we can't take anything bigger in there.

Pilot 1: See, actually most of the facilities in Southeast are privately owned. This is a city dock. There really aren't any state docks as such as there are in so many of the other states where they operate state port authorities. There just isn't anything here. The state doesn't operate. It's all private.

Pilot 2: It would appear to be private enterprise to better the facilities, make the docks stronger, larger. We could use some bigger tug boats, stronger tug boats. That's all a matter of the dollar.

Island Princess - Continued

Pilot 1: Business is so seasonal. I'm sure you're aware of the problem with the shipping industry in Southeast, that it is very seasonal. Until, I suppose, you develop a year round economy in this type of business, there's really not much we can do. And unfortunately, I do not see a twelve month situation developing here for quite a long time. If it was, then we'd have a lot to talk about.

Pilot 2: You could probably help tourism by building some better facilities. This new ramp that they've put up here (at Alaska Steamship Dock) is a step in the right direction. Things like that make the tourists feel like they're welcome here. You keep them coming and it's a profit not only for the steamship companies, but for the state as well, longshoremen and everybody else.

Pilot 1: It seems to me this tourist business here, certainly in Southeast, is quite a large business, although seasonal. But it seems to be encouraged only on a local level. I don't, as an individual, see the state really participating in trying to improve facilities. Anything that's done seems to be on a local level in Sitka, Skagway, Juneau or Ketchikan. It just seems to be a community activity. We really don't see too much encouragement or assistance from the state.

Pilot 2: What we're talking about is like in Wrangell a little high school band composed of about twelve people come down every time a ship comes in there and the band plays on the dock. The people that come from the tour ships, the paying customers, feel like they really want us to come. Shows a little flair for a little town and all the townspeople are doing it for nothing just to encourage the ships to come. It's that sort of thing that means the most to the paying passengers.

Pilot 1: We're only repeating comments that we have heard from passengers and so forth.

Ron Whitcraft: Thank you very much for your time.

INTERVIEW WITH PILOT FROM THE SUN PRINCESS

Pilot: I'm just summertime. I'm not up here full year. Of course most of the things we complain about is when you're bringing a tour ship in alongside a dock there's usually, during the fishing season, too many fishing boats tied up abreast and it makes it difficult for a ship this size to get in. Here at this dock (Alaska Steamship Dock), especially when you've got this ebb tide, it's real difficult. And there's a shoal spot right up at the head of the dock that ought to be thinned out a little bit and made a little deeper.

Ron Whitcraft: How about the docking facilities throughout Southeast?

Pilot: Well, everybody on the dock is waiting for the ship to knock something down. So there would be more ships tied up alongside the dock if people weren't so hard pressed to get people to repair the docks for them. Just like Skagway, now that's getting to be in real sad shape and a lot of the ships won't come in. When we came into Skagway on the Fourth of July, Frank H. Brown was in there and he said he would move ahead but the wind was blowing and the ship won't move it in, so the second ship behind him can't tie up because the dock is so rotten. He said he would move, but he never moved. Of course those ships are going to be laid up in March so they don't care what the tour ships do. And I think a lot of the ships, with the condition the docks are getting in, will soon bypass Skagway. Sitka, of course there's all anchorage, so there's no problem there. They've made arrangements there so they can anchor up three ships. Seven or eight years ago they were talking about putting a dock in there in Jamestown. I don't know whatever happened to that. So, as I say, Sitka is strictly anchorage.

The fellows that are up here year round would know more about other conditions that have to do with a yearly basis than I would. I'm strictly on the passenger ships, the tour ships, and I really can't give you a lot of information.

Ron Whitcraft: Any problems coming up through the channels?

Pilot: No, not as far as I'm concerned. But I've been coming up here for 33 years and all these places could use a few more lights, but that comes under Coast Guard. You sit down and argue with them and it seems to work out more where the ferrys want a light, they'll put a light for the ferry but they won't put it for the other ships.

Sun Princess - Continued

Ron Whitcraft: How about the other docks down south - Wrangell, Petersburg, Ketchikan?

Pilot: Of course Montgomery's Dock is getting old. They have the new dock off the Stikine, and they rebuilt a nice new dock in Ketchikan so that's a step in the right direction. It used to be just a hunk of empty pilings. Now that's utilized. Petersburg, nobody ever goes in there. Once in a while a smaller ship used to go in there, but outside of that, it's just a little too touch and go with the current and the dock in Petersburg. So, Petersburg, you might as well forget that, except the egg boats that are coming up here. So you just got Skagway, Juneau, Wrangell and Ketchikan and that's it.

Ron Whitcraft: How about Haines?

Pilot: Well, that dock is not too hot a shape either in the town itself. You can go up to Lutak Inlet and that's a good solid dock but it's not a dock for passengers when you've got logs dumped all over the place. Last time I was in there it should have been fixed up. A lot of passengers wouldn't go ashore because of the condition on the face of the dock itself.

It seems like everybody is out for the buck. Juneau used to give a lot of information. They'd come down and meet the ships when they'd come in. Right now they just get the ships in and get them in the stores and get them out. Ketchikan is no better. The ships want to keep the passengers aboard and the merchants want to get them ashore.

There's really not the room for the passenger ships here. Everybody keeps crowding in and crowding in. Just like this little ramp up ahead here now...it makes it touch...if you've got three fishing boats - wide back out there, why it's pretty hard. You've got a mechanical favor. And it seems like, with this environmental stuff coming on, every town is out to get the ship everyday. You've gotta blow tubes once in a while or some of them, just when they manuever, put out smoke and before the guy can get to the next port he's got a fine on him. It's not very cooperative to those guys when they're trying to bring in money and the state, the city and business themselves that want the money are the first ones to fine them.

Ron Whitcraft: Do you think there should be more lights along your routes?

Sun Princess - Continued

Pilot: Well, there are places where there are shoal spots that should have a buoy on it.

Ron Whitcraft: Can you think of anyplace in particular?

Pilot: Well, there's one they're trying to get one on coming out of Snow Pass. It's only got four and a half fathoms and it should have a buoy on it. And there's other places where there's beacons, like coming out of Sitka. That light could be more powerful and Cape Edgecombe, that's an ocean-going light and yet you've gotta be right on top of it to see it. And now the ships are coming up seaward and going into Sitka, they could have a little brighter light there.

Ron Whitcraft: What would the one at Cape Edgecombe take?

Pilot: Well, I think it's only got a visibility of about nine miles - and that's on a clear night with a clear atmosphere. You get four miles off it sometimes and you have to look through glasses to find it. And there's another one down there in Dixon entrance and Port Cornwallis and even Cape Chacon which is the main light down there. That power should be increased. I'm not saying it should be like Guard Island which is also an aerial beacon, and even then they cut that down. But there's places where they can have intensive lights for poor visibility without problem. A lot of these ships come up here with radar on. Of course they've got their electronic experts on there that can fix it. But there's others that don't. And you've got a mixed crew on there with nationalities. On some we have a problem with language barriers. So we have to watch ourselves, too, and not get ourselves in a bind because if something does happen, the Coast Guard's on our necks. We're the only branch in the United States that's under military rule you might say. If the Coast Guard doesn't get you the income tax will. So we have to be careful. Once they suspend your license or take it away you can't work anywhere. We have to watch everything. A lot of things that you have no control over. You could make a squawk about it but until you know the right channels to go through it doesn't do you a bit of good. Unless you can get a whole bunch of guys and get a lot of money to go up and start doing some lobbying, you don't get much satisfaction anyway. You just get the old runaround and nothing's ever done. And maybe in a month, maybe two months, maybe the next year, this thing you've squawked about happens and it costs a lot more than the deal you wanted to put in there or get fixed or something like that.

Sun Princess - Continued

A lot of the lights that we used to go by with Alaska Steam have disappeared and the lights have gone up for the ferrys' use. And you can't blame them because they are there every week or maybe every couple of days. So I could see where they could want lights. But there are places where they've taken them off where they would still come in handy. I don't see why they don't just increase the power of some of these lights so we could see.

Ron Whitcraft: Have you noticed lights gone in just recent years or has it been several years ago?

Pilot: It seems like, as things go, a period of years. A new regime will come in the Coast Guard and he's gonna make marks for himself, so some guy will make improvements and some guy will change things around. Like a lot of times they change lights so they'll all flash in six seconds. Well, if you miss one you might think the second light is the first one. And that's very confusing. Before you'd have one that would flash two and a half seconds, and maybe the next one would be four seconds, and maybe the next would be six seconds, and maybe you might have three in a row of six seconds. You have to keep up. It doesn't pay to be away too long. You can notice changes.

Ron Whitcraft: Thank you very much for your time.

CAPTAIN DONALD OLDOW

COMMITTEE TESTIMONY ON SUNSET

REVIEW OF THE BOARD OF MARINE PILOTS

Mr. Chairman and ladies and gentlemen of the committee, I wish to thank you for allowing me to testify in favor of retaining the Alaska Board of Marine Pilots. My name is Donald Oldow, representing the Board of Marine Pilots as the Southwest Alaska pilot member.

You are no doubt aware that the purpose of the Board of Marine Pilots is to provide for the maintenance of an effient and competent pilot service on all the inside waters of the State of Alaska to assure protection of shipping and the safety of human life and property. The Board is also charged with the responsibility to adopt regulations; establish qualifications, examine and issue licenses to qualified pilots; take disiplinary action against negligent or incompetent pilots; and regulate pilotage fees.

I would like to briefly review the somewhat complex subject of "pilotage". All maritime nations since ancient times have offered inducements for mariners to become pilots and maintain pilotage systems for the protection of shipping. It is probably the oldest regulated profession. Our Colonial Legislatures had pilotage laws in effect prior to our becoming a nation. The first Congress in 1789 quickly passed an Act that left pilotage under state control.

Pilotage remained exclusively a public service under state control until 1871 when Congress acted to provide for federal licensing of pilots of steam vessels engaged in the coastwise or interior commerce of the country. At that time steam engines were considered inherently dangerous and many laws were being passed to protect the public from this new threat. Since many state laws exempted ships engaged in strictly coastwise or interior commerce from the requirements of taking aboard a public pilot, Congress felt there was a need to insure that these new and dangerous steam vessels should employ someone familiar

with the waters being navigated.

This created a different catagory of pilot - a federally licensed pilot. So now, in the United States, the term "pilot" is used to describe two different sets of relationships.

The first, or original, "pilot" is the state licensed publicly regulated pilot who is not subject to the selection and control of the shipowner and whose terms and conditions of service are established by statute and not subject to negotiation. The relationship is created by compulsion of law and defined by the state compulsory pilotage statute and decided court cases applying principles of maritime law.

The other "pilot" is the federally licensed employee of the ship who is subject to the selection and control of the shipowner and whose terms and conditions of employment are determined by mutual agreement. The relationship is the common law one of employer and employee.

Simply stated the state licensed pilot is exercising a public function on publicly regulated terms and conditions and the federally licensed pilot is acting in a private capacity on privately agreed terms and conditions.

There is a vast difference in the training, experience, perceived duties and responsibilities, working relationships, legal relationships and attitudes that seperate the federally licensed employee pilot and the state licensed public pilot.

The federally licensed pilot is a common law employee of the shipowner serving in a private capacity. The shipowner has the right of selection and the right to exercise control over his employees in the performance of their duties. The terms and conditions of emploment are privately agreed to with the shipowner. The prospects of future employment are dependent upon how well the employee satisfies the demands placed upon him by his employer.

In contrast, compulsory pilotage is the creation of law, not of contract, and the pilot is not the employee, servant or agent of the shipowner, the ship or the master. He is placed aboard by the state with the conditions of his

service fixed by law. He is required to be accepted by the vessel and placed in charge of her navigation to serve the state's interest in protecting life and property - and in today's world, the environment - from the hazards of navigation. He sees his duty and obligation as being owed to local political authority and the public, rather than to the shipowner in the role of an employer. His fee is set by law and he can receive no increase in fee for accepting greater risks nor be penalized with a lesser fee for taking precautions in conflict with the owner's interests. His future employment does not depend upon satisfying the demands of the shipowner to maintain schedule or move the vessel with unacceptable margins of safety. He is free to exercise independent professional judgement as to the acceptability of the risks. The public nature of his role leads him to place a higher priority on the protection of life, property and the environment than the master who has to consider all decisions in the light of the owners commercial interest. The compulsory pilot's autonomy and independence are the single most important safeguard that exists in the shipping world.

This, then, is the decision that the legislature of the State of Alaska must make at this time. Whether to control pilotage in the State or return that control to the Federal Government and federally licensed pilots. In light of the large amount of oil tanker traffic and large foreign fishing and trading fleets operating in or near the waters of this state, I believe the best interests of the public and the State of Alaska are much better served by choosing, examining, licensing and otherwise controlling those persons who will be responsible to the State for the protection of the safety of those vessels, the public and the environment from the consequences of marine casualties.

With these thoughts in mind, I would like to turn briefly to the recommendation of the Division of Legislative Audit to delete the requirement of a written examination as a condition for obtaining a pilot's license. As one who assists in the preperation of the state licensing exam, I must respectfully

disagree with the statement that there is a duplication of the material that is on the federal pilot's exam, and that the state exams are out of date. The degree to which the state and federal exams overlap is not excessive and the state exams are not out of date, in fact they are being revised continually and examinations for fourteen new ports have been compiled within the past year and one-half to keep up with the ever changing patterns of shipping in the various ports of Alaska. The state examinations are more pilot orientated than the federal exams and deal with information that a practicing pilot should know and use while performing his duties. I believe maintaining the written examination is very important and necessary towards preserving the higher standards of state licensed pilots.

All state licensed pilots of my acquaintance state without reservation that qualifications and standards should, if possible, be increased rather than decreased to preserve the quality of state pilotage.

In conclusion, I would ask the committee to recommend the retention of the Alaska Board of Marine Pilots. Further, I would urge you to recommend that the high professional qualifications and standards be maintained to insure the safety of shipping in Alaska. Thank you.

RE: Marine Pilots Board Sunset Hearing

Dear Allen:

As we discussed after the meeting above-referenced was adjourned, I would like to submit a formal letter with some additional comments regarding the Legislative Audit recommendations for the Marine Pilot Board. These primarily emphasize the fact that, with the duties and obligations imposed upon the Board by both statute and voluntarily assumed by regulation, two meetings per year appear to be insufficient to accomplish those responsibilities and adequately rectify some of the misgivings which have, of late, been focused on the Board.

At the hearing of January 30, 1980, I specifically made reference to the problems that the Board will have in adopting regulations in accordance with the A.P.A., due to the notice requirements of the A.P.A. and the infrequent meetings of the Board of Marine Pilots. Similar restriction upon the Board's practical ability to exercise revocation and licensing censures exists because of the infrequency of Board meetings and/or an insufficient budget. In order that the Board retain its quasi-judicial function, it must, of course, remain impartial throughout the investigation process and the presentation of evidence. Consequently, when an incident is referred to the Board for investigation, it is necessary that, the Division of Occupational Licensing conduct that investigation, then under the A.P.A., the formal papers of Accusation would be filed through the Attorney General's Office and a hearing date would be set. If the full Board is to hear the revocation case, after due notice to the parties, it becomes obvious that the Board,

though having previously scheduled a one-day meeting, could end up sitting around listening to evidence for three or four days, depending upon how long the hearing takes. This is not practical in light of the limited number of Board meetings and the other substantial business which the Board must conduct. Consequently, it would seem that the most efficient way to handle this problem would be to allocate additional funds to the Board so that it might appoint independent hearing officers, who would conduct the actual hearing, write a proposed decision, and then submit the proposed decision for adoption, modification or rejection. Of course, the proposed decision would have to be served on all parties, and all parties would be present at the time the Board considers the proposed decision to make comments one way or the other. Notwithstanding the fact that all parties would be there, due to the pre-existence of a proposed decision, the matter would be greatly expedited and specific answers could be posed to the questions of the Board. However, with the limited funds which are now available, such a procedure does not seem feasible as a matter of course.

This very procedure has recently been employed by the Board in aid of its resolution of current tariff disputes. Governor Jay Hammond appointed Dick Edwards of Anchorage, an attorney, to act as hearing officer in the tariff rate dispute. Mr. Edwards will be holding a hearing sometime later this month, at which both the pilots and industry representatives will present evidence on what they feel are appropriate tariffs under the guidelines of the Marine Pilots Board statutes. Mr. Edwards will then write a proposed decision and the matter will be submitted to the Board for ultimate action. I anticipate that at that time, with the parties having previously received the proposed decision from the hearing officer, they will also attend and make their comments before the Board. Indeed, this is the most common manner in which serious evidenciary problems are handled by other boards and commissions.

Consequently, I would merely like to reinforce my testimony at the hearing, that the Board is looking at a substantial disability, considering its lack of funds and semi-annual meeting schedule. I would like this letter to be included

in the record of the House and Senate Commerce Committee hearings on the sunset review of the Board of Marine Pilots. I thank you so much for your cooperation.

Best regards,

CAPTAIN EDWARD MURPHY

COMMITTEE TESTIMONY ON SUNSET

REVIEW OF THE BOARD OF MARINE PILOTS

NOVEMBER 28, 1979 - DECEMBER 10, 1979

Mr. Chairman and ladies and gentlemen of the committee, thank you for this opportunity to testify in favor of retaining the Alaska Board of Marine Pilots. My name is Edward Murphy and I am appearing today as a representative and spokesman from the Southwest Alaska Pilots Association. Southwest Pilots is one of the two associations of state and federally licensed marine pilots in Alaska and provides state pilots to shipping from Cape Spencer north.

I would like to acknowledge the assistance of Captain George Quick and the American Pilots Association in the preparation of this testimony.

Before getting into the details of the report by the division of legislative audit, I would first like to describe the pilotage scene as it exists today for the benefit of those committee members who may not be familiar with the subject.

All maritime nations since ancient times have offered inducements for mariners to become pilots and maintain pilotage systems for the protection of shipping. We may not be the oldest profession but we are certainly the oldest regulated profession. The colonial legislatures had pilotage laws in effect prior to our becoming a nation. The first congress assembled after the adoption of the Constitution in 1789 realized that the delegation of the right to regulate interstate and foreign commerce granted to the federal government by the Constitution would interfere with pilotage systems and regulations in place in the various states and quickly passed an act that left pilotag under state control.

The state laws generally provided for a system of regulated public pilots who con-

ducted to and from the sea and whose terms and conditions of service were established by law. Pilotage remained exclusively a public service under state control until 1871 when congress acted to provide for the federal licensing of pilots on steam vessels engaged in coastwise or interior commerce of the country. At that time steam vessels were considered inherently dangerous and many laws were being passed to protect the public from this new threat created by the industrial revolution. Since many states exempted ships engaged in strictly coastwise or interior commerce from the requirement of taking aboard a public pilot, congress felt that there was a need to insure that these new and dangerous vessels driven by steam employ someone familiar with the waters over which the vessel was navigating.

This new act of congress by creating a different category of federally licensed pilots who were employees of the ship and who often were actually the master or other officer acting as pilot by virtue of additional endorsement on his license has caused confusion in defining the term pilot and in defining the role and function of a pilot.

The term pilot in the United States is used to describe two entirely different sets of relationships:

1) It can refer to a federally licensed employee of the ship who is subject to the selection and control of the ship owner and whose terms and conditions of employment are determined by mutual agreement. The relationship is the common law one of employer and employee.

2) It can refer to the state licensed publically regulated pilot who is not subject to the control and selection of the ship owner and whose terms and conditions of service are established by statute and not subject to negotiation. The relationship is created by compulsion of law and defined by the state compulsory pilotage statute and decided court cases applying principles of maritime law.

In simple terms, the federally licensed pilot is acting in a private capacity on privately agreed terms and conditions, and the state licensed pilot is exercising a public function on publically regulated terms and conditions.

The legal text writers and the court decisions attempt to avoid confusion by generally referring to the pilot acting in a private capacity as a voluntary pilot and referring to the pilot exercising a public function as a compulsory pilot.

In the voluntary pilot situation the employment contract is by mutual agreement between the ship owner and the employee pilot, even though the ship owner is naturally compelled to select his employee from among a class, i.e. federally licensed pilots. In the compulsory pilot situation the pilot is forced on the ship owner by compulsion of law and under terms and condtions established by law. The concept of compulsory pilotage excludes any right of the ship owner and pilot to mutually agree on the terms of their relationship. The right of selection and control, as well as the terms and conditions of service are not properly the subject of negotiations, they are established by the state to serve the state's superior interests.

There is a vast difference in the training, experience, perceived duties and responsibilities, working relationships, legal relationships and attitudes that separate the federally licensed employee pilot and the state licensed public pilot. An understanding of the differences is necessary.

The state licensed pilot is regulated by state statutes creating compulsory pilotage. His state license is both a certificate of competency and a franchise as a public servant requiring him to assume public obligations in maintaining pilot stations and operating a pilotage system. The rights, duties, and obligations of the owner, the ship, the master and the pilot are created by law and not by mutual agreement between the parties. Common law principles governing the usual employment contract have no application.

The general scheme in effect throughout most of the world is one in which a vessel approaching the coast with the intent of making port has a compulsory obligation to accept a local pilot skilled in navigating those waters and knowledgeable as to local hazards, place him in charge of the navigation of the ship, and pay the fee for his services prescribed by local law. The purpose is to protect the safety of shipping by

assuring a complement of pilots will be available when needed at designated locations (pilot stations) and placing navigational control of the ship in the hands of a qualified local expert when the ship is in a high risk area.

As part of their franchise as a public service it is compulsory for the pilot to maintain pilot boats on established stations known to all mariners, to keep a complement of qualified pilots available to render services as all times, to go to any ship needing his service without discrimination or choice and to provide his services under legally established terms and conditions, and for a fee prescribed by law and published in a tariff.

Compulsory pilotage is a creation of law, not a contract. It is regulated in much the same manner as a public service company and charged with the public responsibility of rendering pilotage services to vessels. The pilot is in no sense the employee or servant of the ship owner or the vessel he pilots. He is required to be accepted by the vessel and placed in charge of her navigation to serve the state's interest in protecting life and property - and in today's world, the environment - from the hazards of navigation. He sees his duty and obligation as being owed to local political authority and to the public, rather than to the ship owner in the role of an employer. The public nature and regulation of the terms and condition of his service protect and insulate him from the demand and pressures that can be placed on an ordinary employee to compromise the margins of safety.

In contrast the federally licensed pilot is a common law employee of the ship owner serving in a private capacity. The ship owner has the right of selection and the right to exercise control over his employees in the performance of their duties. The terms and conditions of employment are privately agreed to with the ship owner. The prospects of future employement are dependent on how well the employee satisfies the demands placed on him by his employer. The master and the federally licensed pilot work for and are answerable to the same employer and are licensed by the same federal agency, the Coast Guard. In some cases the master and pilot may in fact be the same person serving in a

dual capacity. This lack of independence and the absence of checks and balances should give the public cause for concern when they consider that the sea-going coastwise tankers are largely exempt from the protection of state compulsory pilotage laws. Many of them are navigated on our inland waters by company employee pilots or masters serving in the dual capacity of pilot.

So, compulsory state pilotage operating under the authority of the state Board of Marine Pilots functions to protect and insulate independent decision making affecting the safety of ships from commercial pressures by placing navigational control in high risk areas in charge of a compulsory public pilot who does not belong to the ship, i.e. free of the ship owner's interest and control.

I think the committee and the legislature will agree that these are compelling reasons for maintaining state licensed public pilots under the control of the Alaska Board of Marine Pilots.

I would like to turn now to report conclusions and recommendations made by the Division of Legislative Audit. The division recommended that the Board discontinue the requirement of a state administered examination because the State examination duplicates examinations given by the U.S. Coast Guard. This recommendation is misinformed and ill-advised. The State administered examination for an Alaska pilot's license is not duplicative and goes far beyond the Coast Guard written examination. Because the Coast Guard personnel who administer pilotage examinations have little, if any, local experience the written examination is necessarily taken from navigation publications and coast pilots. The state examination, on the other hand, contains questions of a practical and relevant nature which pilots operating in a particular area should be expected to know. The value of the state's examination is unquestioned among practicing state licensed pilots and it should be retained. The division's comment on the state examination being out of date does have relevance. However, in the past year the examinations for Southwest Alaska have been completely renewed and rewritten.

The division also recommended that the Board of Marine Pilots take a more active

role in regulating pilotage tariffs. Southwest Pilots would agree with the recommendation that the Board take a more active role, although we have no specific recommendations to make as to what that role should be. There is a pressing need for published guidelines to be followed by the pilot associations when they request a rate increase.

The other recommendations made by the division concerning the Board's lack of efficiency in processing requests for information, disciplinary action against pilots, and generally conducting it's affairs in a businesslike manner certainly hit the mark.

We believe that the Board's problems are largely the result of insufficient support from the Division of Occupational Licensing and the Attorney General's office. We are also convinced that two meetings a year are not enough to properly conduct the business of the Board. If the Board met quarterly and received proper support from the various state agencies it's efficiency would realize a quantum jump.

In conclusion, I would urge the committee to recommend the retention of the Alaska Board of Marine Pilots in it's present form. State pilotage in Alaska's waters is absolutely essential as any examination of the excellent safety record of shipping piloted by state licensed pilots will prove. That safety record is largely the result of the stringent professional standards which Alaska demands of it's pilots. Standards which are maintained and overseen by the Board of Marine Pilots. Thank you.

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the intent of Alaska Statutes 24.20.271(1) and 44.66.050 (sunset legislation), an audit of the Board of Marine Pilots was conducted to review Board activities and accomplishments to determine if a public need for the Board exists, and if so, to determine if the Board has operated in an effective, efficient, and economical manner.

As required by legislative intent, this report shall be considered during the legislative oversight function in determining whether the Board of Marine Pilots should be reestablished. The law currently specifies that this Board will terminate on June 30, 1980, but will continue until June 30, 1981, for the purpose of concluding its affairs.

Scope

The major areas reviewed were the Board's operations and its licensing, administration, complaint and affirmative action functions. Our review consisted of analyzing and evaluating the following:

(1) Applicable statutes and Board regulations;

(2) interviews with the Board members and questionnaires sent to the Board members;

(3) tests of records and documents of the Board and the Division of Occupational Licensing (OL), Department of Commerce and Economic Development;

(4) interviews with OL employees;

(5) complaints filed with OL and the Attorney General's Office;

(6) questionnaires sent to the marine pilots currently licensed by the Board and to shipper's agents;

(7) interviews and correspondence with a national pilots association and local pilot associations; and

(8) interviews with personnel from the U.S. Coast Guard.

ORGANIZATION AND FUNCTION

Responsibility for the regulation of marine pilotage is shared by the federal government and state governments. The federal government, through the U.S. Coast Guard (CG), regulates pilotage on enrolled vessels, while the individual states are given the right, in the United States Code, to regulate pilotage on registered vessels. Enrolled vessels are vessels registered in the United States and engaged in commerce between American ports; registered vessels are those vessels engaged in foreign trade. The individual states have the right to regulate pilotage on vessels engaged in foreign trade.

The Alaska Board of Marine Pilots was created under Alaska Statute 08.62 to carry out the State of Alaska's responsibility of regulating pilotage on registered vessels. The Statute became effective in 1970.

The Board is made up of seven members - two marine pilots, two agents or managers of vessels, two public members and the Commissioner of the Department of Commerce and Economic Development. Per the Statutes (08.62), the purposes of the Board of Marine Pilots are to license qualified pilots; to take disciplinary action against negligent or incompetent pilots; and to regulate pilotage fees.

Once a marine pilot has received a license from the Board, he is authorized to pilot registered vessels within the established boundaries of inside waters of the state. The inside waters are defined by regulations as all of Southeastern Alaska, Prince William Sound, Cook Inlet and Resurrection Bay. Alaska Statute 08.62 requires registered vessels to carry State licensed pilots when inside these boundaries. It is the pilot's job to direct a vessel safely through the inside waters and dock and undock the vessel.

To obtain an unlimited pilot's license an applicant must first obtain both a pilot's license and a master's license issued by the U. S. Coast Guard. In addition, he must perform ten to twenty dockings and undockings and pass written and oral examinations administered by the Board.

The Board also issues limited pilot's licenses and channel pilot's licenses. The holders of limited pilot's licenses may pilot vessels of 2,000 gross tons or less. Channel pilots may pilot vessels in main ship channels only, and can perform dockings and undockings under the direct supervision of pilots holding unlimited pilot's licenses. Proof of dockings and undockings is not required to obtain these two classes of licenses. Applicants for any of the three licenses

can obtain temporary licenses by meeting all the licensure requirements and taking a temporary license examination. A second examination is required for permanent licensure.

To obtain license renewal, a pilot must show that he has worked at least two months in each area for which he holds a license. The two months' time must have been worked within four years prior to the renewal date. License renewal is required biennially.

The Board is assisted in performing its licensing and other administrative functions by staff support from the Division of Occupational Licensing (OL). OL processes applications, maintains files, answers correspondence dealing with the Board and provides other administrative support as needed by the Board. In addition, OL investigates any complaints or accident reports involving marine pilots.

(3) Another function of the Board is regulating fees for pilotage services. Any increases of the fees charged by pilots for their services must be approved by the Board.

There are currently 45 State licensed marine pilots. The majority of the pilots belong to a pilot's association. There are two associations - the Southeast Pilot's Association and the Southwest Pilot's Association. These associations act as dispatching and billing agencies for their pilot members.

Price Fixing

REPORT CONCLUSION

Policy Issues

This report contains policy issues raised as a result of our review of the Board of Marine Pilots. The final policy decisions affecting the operation of the Board are not within the scope of this review - they require legislative consideration. In debating these issues, the legislative oversight committees should consider the findings and recommendations presented in this report in reaching their decisions.

Report Conclusion

In our opinion, the Board of Marine Pilots should continue to regulate and license the marine pilotage profession. The regulation and licensing of marine pilots by a State agency is necessary to assure the protection of shipping, human life and property, and the environment from potential dangers caused by registered vessels sailing in Alaskan waters.

During our review we noted that at least one alternative to maintaining the State Board of Marine Pilots exists:

Under the Port and Tanker Safety Act of 1978, passed by the U.S. Congress in 1978, the Coast Guard has the authority to assume a state's pilotage responsibilities if the state relinquishes that right.

The personnel of the Seventeenth Coast Guard District feel that this is not a viable alternative in Alaska because it would place too heavy a burden on their present resources.

The legislative oversight committees should carefully consider the impact of relinquishing State jurisdictional authority to a federal agency.

We recommend the following changes be implemented if the Board of Marine Pilots is reestablished:

1. The Board should discontinue the requirement of a State-administered examination because the State examination duplicates examinations required for obtaining U.S. Coast Guard-issued officer's and pilot's licenses.

2. The requirements for license renewal should be reviewed by the Board members to determine if they are necessary and reasonable or if they are restrictive and should be changed.

3. The Board should establish criteria and describe terms to be used by the pilot associations and the shipping industry in proposing and opposing tariff increase requests. Also,

procedures prescribing the manner in which tariff increase hearings should be conducted should be established.

(4) Statutes or regulations which define licensing violations and also give pilots an indication of what their professional responsibilities are should be promulgated by the Board.

Finally, the Board and the State agencies which provide support services to it, OL and the Attorney General's office, should coordinate their efforts so that the Board can better achieve its purposes. Both need improvement.

FINDINGS AND RECOMMENDATIONS

Findings and Recommendations No. 1 through No. 4 are addressed to the Board of Marine Pilots, No. 5 is addressed to both the Board and the agencies which provide support services to the Board, and No. 6 and No. 7 are addressed to the Division of Occupational Licensing (OL), and should be read in conjunction with "A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development, October 30, 1978".

Get from Elaine Cavett.

Recommendation No. 1

The Board of Marine Pilots should recommend statutory and regulatory changes to delete the requirement of a written examination as a condition for obtaining a pilot's license.

Alaska Statute 08.62.100(3) requires an applicant for a State-issued pilot's license to pass written and oral examinations given by the Board.

During our review of the Board of Marine Pilot's examination function, we noted two problem areas. The first problem area involves the administering of the examinations.

Portions of the Board's examinations and answer keys are out-of-date. Each time an examination is given, the Board informally checks the examinations over and makes corrections accordingly. However, it would be easy to miss a change that should be made using this procedure. Another problem we noted was that if an applicant had to be reexamined for some reason (i.e. either because the applicant failed an examination, or he applied and was tested for a temporary license first and then a permanent license), in many cases he was given the same examination both times.

A pilot applying for a State pilot's license for an area or port for which an examination is not made up is automatically granted a license for that area on the basis of his Coast Guard endorsement for the area without being tested. This points out an inconsistency in the importance placed on the examinations by the Board members.

The Board's oral examinations are not administered in compliance with the regulations. The regulations require an applicant to be tested by oral examination in the following subjects: knowledge of local harbor conditions and regulations; signals; and rules of the road. However, the oral examinations administered by the Board have been limited to questions about the applicants' safety records and seagoing backgrounds.

The second problem area we noted was the duplication of test material on the State and Coast Guard pilot's examinations. To obtain a Coast Guard pilot's license, which is required for State licensure, a pilot must pass an examination administered by the Coast Guard.

The material tested on the State Board's examination can be divided into three categories: 1) questions about the pilot's knowledge of the conditions of the geographical areas he is being tested for; 2) questions about the pilot's knowledge of navigation, ship handling, rules of the road, etc; and 3) questions about the State Marine Pilotage Act and the relationship between a master and pilot.

The Coast Guard pilot's examination consists of filling in blank chartlets (to show depth of water, landmarks, aids to navigation, danger areas, etc.) and answering local knowledge questions for each chartlet area (there are 45 chartlets for Southeast Alaska and 37 for the Southwest area). By these two means, the Coast Guard examination covers local knowledge extensively.

It is true that the local knowledge questions are asked in different forms on the State examination, however the questions on both examinations cover identical material.

The Coast Guard pilot's examination does not test the examinee on general navigation, ship handling or rules of the road. However, by the time a person has obtained a master's license issued by the Coast Guard, he has passed a number of tests which cover these subjects extensively. As an applicant for State pilotage must possess a master's license, he has been tested thoroughly on general navigation, ship handling and rules of the road.

The Coast Guard examination does not cover the subjects listed under number 3 above - the State Marine Pilotage Act and the relationship between the master and pilot. Per the Board's regulations, the Board may test examinees on these subjects.

However, in the recent past, the Board has chosen not to administer tests on these subjects.

We feel that because the State's pilot examination largely duplicates the Coast Guard examination the State exam serves little useful purpose. The usefulness of the State examination is further eroded by the first three problems noted above.

We therefore recommend that the Board of Marine Pilots drop its written examination and instead license State pilots on the basis of the other State licensing requirements. The

other licensing requirements combined with the various examinations administered by the Coast Guard are more than adequate to assure the public that a pilot is qualified to perform pilotage duties.

Recommendation No. 2

The Board of Marine Pilots should recommend regulatory changes to make the license renewal requirements less restrictive and vague.

The regulation which sets down the requirements for the renewal of a State pilot's license is vague and restrictive. Alaska Administrative Code (AAC) 12.56.080 requires applicants for the biennial renewal of their State pilots' licenses to submit proof of having worked at least two months in each area for which they are requesting renewal. The two months must have been worked in a licensed deck officer capacity during the four years prior to the date of renewal of the license. (Note: for the purposes of licensing the Board divides Alaska into two areas, Southeast and Southwest).

The regulation is vague in that the terms and phrases used are not defined. For example, "two months" can mean 60 days or 60 days less week-ends or one trip a week for eight weeks. "Licensed deck officer capacity" can mean any position from third mate to pilot. The regulation states the pilot must have worked "in the area for which he was licensed during the last biennial period." A person licensed for all of southeastern or southwestern Alaska could spend two months in only one of many ports in the area and still fulfill the "in the area" requirement.

The regulation is restrictive in that a pilot holding pilotage in both Southeastern and Southwestern Alaska faces a hardship in trying to make arrangements for two months worth of trips in both areas.

Of the persons who responded to the questionnaire we sent to the licensed marine pilots (see Appendix E), 69 per cent were of the opinion that the renewal requirements are too restrictive.

The intended purpose of the two-month requirement is to provide reasonable assurance that a pilot remains current in his knowledge of the areas he is licensed to pilot in. However, the requirement does not accomplish this purpose since a pilot could conceivably fulfill his two-month requirement by working out of one port in an area, thus obtaining no recent experience in all the other ports in the area.

We feel the Board of Marine Pilots should review AAC 12.56.080 to determine if less restrictive alternatives exist. We encourage the Board to solicit help from the pilotage profession and the shipping industry in exploring alternatives. Regulatory revisions should also be made to define terms used.

Recommendation No. 3

(3) Tariffs

The Board of Marine Pilots should take a more active role in regulating pilotage tariffs.

(3)* Alaska Statute 08.62.040(a) (4) states that the Board of Marine Pilots "...shall regulate pilotage fees". Until just recently, it has been Board policy to direct the two pilots' associations within the state to negotiate a tariff increase with representatives from the shipping industry. The rate agreed upon by the two parties was then automatically approved by the Board. As a result, the Board in the past has not analyzed or studied the tariff increase requests to determine the need for an increase and the impact of a tariff increase on commerce.

After repeated warnings by the Attorney General's Office that the Board was not fulfilling its statutory responsibility, the Board has decided to become more actively involved in regulating the tariffs. We encourage this action by the Board. However, some further changes to the Board's method of regulating tariffs should be made.

Presently, the Board has no criteria on which requests for * tariff increases are to be based. Also, the Board has not set down procedures describing how hearings for tariff increases should be conducted. Because of the lack of any criteria and procedures for the granting of tariff increases, the Board members and representatives from the shipping industry and the pilots associations have a difficult time communicating about what is being requested and why.

We recommend that the Board of Marine Pilots establish criteria to provide a basis for the pilots and shipping industry to follow when a tariff increase is being requested. The criteria should serve as a guide for the Board members in determining whether or not a tariff increase should be approved. The criteria should also list terms and definitions of the terms to be used by the pilot and industry groups in presenting their requests and rebuttals. An example of the terms that should be defined is "time in work status".

The Board should also establish procedures for how the tariff hearings should be conducted. Included in the procedures should be directions for the method and timing of notices of tariff increases to interested parties. The procedures should describe the proper conduct during the Board proceedings of those Board members who have a direct financial interest in a tariff increase. The procedures should also give directions to the parties involved, the pilot groups and the shippers, as to the documentation and information that will be required and the format and timing of proposals and rebuttals.

Recommendation No. 4

The Board of Marine Pilots, in conjunction with the Attorney General's Office, should promulgate statutes or regulations which define license violations.

Alaska Statute 08.62.150(a) outlines license violations which are grounds for the denial, revocation or suspension of a State-issued marine pilot's license. The statute allows the Board to take action against a marine pilot who "is incompetent in the performance of his pilotage duties" or "is guilty of misconduct during the course of his employment".

Nowhere in the Marine Pilotage Act or the regulations are "incompetent" and "misconduct" defined. These terms are too vague to give a marine pilot an indication of what his professional responsibilities as a marine pilot are.

In addition to these shortcomings, neither the statutes nor the regulations make express provisions to allow the Board to suspend or revoke the State-issued license of a pilot whose Coast Guard license has been suspended or revoked. Instead, since Administrative Code sections 12.56.030(2), 040 (b)(2) and 050(2), state that a pilot must possess a valid Coast Guard pilot's license in order to be licensed as a State pilot, it is implied that the suspension or revocation of a pilot's Coast Guard license makes his State license invalid.

We recommend that a provision be added to Alaska Statute 08.62.150(a) to allow the Board to revoke or suspend a license based on the revocation or suspension of a Coast Guard pilot's license. This would speed up disciplinary proceedings since the State would not have to prove that a pilot was negligent or imcompetent in his pilotage duties.

We further recommend that the statutes or regulations be amended to define ambiguous terms such as incompetent and misconduct.

Recommendation No. 5

The Board should establish formal procedures to conduct its business more effectively and promote better communication with supporting agencies.

During our review of the Board of Marine Pilots, we noted several problems which hinder the effectiveness of the Board. Those problems are as follows:

1) Complaints were made to us by representatives from the shipping industry, Coast Guard personnel and members of the pilotage profession about the

Board's failure to investigate complaints and accidents involving pilotage and its failure to take disciplinary action against negligent pilots.

2) We also received complaints from persons interested in State pilotage that the Board and/or the Division of Occupational Licensing is not responsive to requests for information.

3) It takes the Board as long as two or more years to implement changes.

4) In interviewing Coast Guard personnel, we found that there is little cooperation or communication between the Board and the U.S. Coast Guard. As a result, matters which require the concurrent attention of both entities take longer than necessary to resolve.

The slowness of the Board and its failure to make changes can be attributed to two factors:

a) The Board only meets twice a year - it is difficult to implement changes and take action on problems when six months elapse between discussions of the changes.

b) The Division of Occupational Licensing and the Department of Law (Attorney General's Office) have failed to follow through on requests for assistance and information made by the Board.

As a result of the above problems, the effectiveness of the Board is impaired because it is losing credibility with the persons it is attempting to regulate. The Board needs to take steps to improve its image among the marine pilotage profession and the other groups involved with pilotage.

We recommend that the Board of Marine Pilots and the two agencies which support it, the Division of Occupational Licensing and the Attorney General's Office, take steps to efficiently and effectively take action on issues facing the Board, so that the Board can achieve its purposes. We urge all entities involved to be more diligent in following up on the requests and needs of the Board.

Following are recommendations for some specific actions the Board and supporting agencies could take:

1. The Board members and the licensing examiner for the Board should work up a procedures manual to be used by the Board members and the examiner. Many misunderstandings betweer the licensing examiner

and the Board members can be cleared up this way. In addition, a procedures manual would provide continuity between licensing examiners - this would help alleviate the problems caused by the rapid turnover of license examiners. An example of the type of information that should be included in a procedures manual is the procedure for the approval of the Board's minutes.

2. It is a usual practice of the Division of Occupational Licensing to request opinions from the Attorney General's Office in writing. We approve of this practice and urge both the Division of Occupational Licensing and the Attorney General's Office to follow up on the Board's requests for legal advice as efficiently as possible. Responses to requests for assistance should be communicated to the Board members timely enough so that they can use the information during Board meetings.

3. The Board should consider requesting the Coast Guard to appoint one of its personnel to act as a liaison between the Board and the Coast Guard. This person could possibly act in an advisory capacity to the Board and attend the Board meetings in order to provide a means of communication between the two entities.

4. The problem of slow or nonexistent investigations of accidents and complaints and resultant disciplinary actions is recurrent among all the occupational licensing boards (as we explained in the performance audit of OL). The investigations unit within OL says that they do not have the manpower to give priority to cases, such as most marine pilot cases, which are not "life-threatening". Hopefully, now that the three investigator positions within the unit have been filled, this problem will be alleviated.

   Two recommendations for further decreasing the amount of time it takes to investigate complaints and take disciplinary actions are:

   a) The Board should maintain a register of vessels, operators, agents and managers of vessels subject to the Marine Pilotage Act as required by Alaska Statute 08.62.040(a) (3). The investigations unit personnel feel this register would be useful in doing their investigations of marine pilots cases.

   b) Disciplinary actions should be taken by the Board as soon as information needed is available. Disciplinary action is still pending on a marine accident which occurred in 1976. No

action had been taken on the case until February of 1979 because the investigations unit was waiting for the Coast Guard's final decision on an appeal filed by the licensee after the initial determination was handed down. Action could have been taken against the pilot's State license after the Coast Guard's initial determination was made.

Recommendation No. 6

The Board of Marine Pilots should establish formal goals, objectives and quantifiable measures which should be included in the OL's budget document.

Objectives describe what an agency or Board is seeking to accomplish during a specific year. Well formulated objectives are capable of measurement and should include numerical targets so that actual accomplishments can be compared with stated targets. Wihout goals and objectives, the Board's performance cannot be adequately evaluated and analyzed.

OL establishes its own budget goals and objectives. The budget documents do not include any goals or measures for individual boards. Without each Board's goals and measures being identified or measured, both the Governor's Office and the Legislature cannot evaluate a Board's performance (see the OL Performance Audit Report).

Recommendation No. 7

The Division of Occupational Licensing should collect, record and maintain for five year periods, files and statistics of the licensing and testing of applicants and the related workload of the licensing examiner.

The Division needs relevant facts and statistics for evaluating the performance of its personnel and Board activity. Many past records have not been collected and maintained, such as:

1. Number of marine pilots licensed in past years;
2. records of those applicants failing the examination;
3. numbers of applicants denied the chance to take the examination due to lack of qualifications;
4. number of complaints and criticisms about the performance of the Board and its staff;

5. correspondence workload of license examiners; and

6. number of persons requesting applications.

It is to the advantage of the Division to keep these records in order to support its budget request, evaluate its personnel and keep the Board informed as to its progress. Also, feedback from the Board and the public should be encouraged to determine whether staff performance is adequate.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analysis of Board activities relates to the public need factors defined in the "sunset" law. This analysis is not intended to be all inclusive, but addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or program has operated in the public interest.

1. The Board of Marine Pilots has operated in the public interest by promulgating regulations which help assure that a State-licensed marine pilot has the experience, knowledge and skill required for safe pilotage. The qualifications required for licensure as a State pilot exceed the requirements for a Coast Guard issued pilot's license as follows:

   a. Applicant must possess a Coast Guard issued master's license;

   b. applicant must document having completed 10 to 20 dockings and undockings under the supervision of a State licensed pilot; and

   c. applicant must be at least 25 years old.

   We inquired of the pilotage profession, the shipping industry and the Coast Guard about whether or not they felt the additional requirements are necessary to assure a pilot's competency. All three groups were in favor of the extra requirements - their general concensus was that the extra requirements promote marine safety.

   However, the differences between the requirements for a Coast Guard pilot's license and a State pilot's license indicate one of two problems exist.

   a. Either the additional requirements for obtaining a State license are unnecessary, because the Coast Guard requirements are sufficient to assure that a pilot is competent; or

   b. those persons who possess only a Federal pilot's license, and thus are licensed

to pilot enrolled vessels, have not been required to sufficently demonstrate their ability to perform pilotage competently.

2. 18 per cent of the pilots licensed either did not possess or did not provide documentation that they possessed the qualifications necessary for licensure. Also, three out of 45 (or six per cent) of the licensees who received license renewals for 1979-1980, were renewed even though they did not provide documentation of the two-month requirement.

3. The Board is directed by statute to regulate pilotage tariffs. Because of the monopoly situation that is created by the two pilots associations, it is in the best interests of the public that the Board regulate the tariffs.

   In the past, the Board has not taken an active role in setting the tariffs. It has given its "rubber-stamp" approval to the tariff increases negotiated between the pilot's associations and the shipping industry (see Recommendation No. 3).

4. The Board is protecting the public by providing a mechanism to help assure the protection of shipping, human lives and property and the environment from the dangers posed by foreign vessels in Alaskan waters.

II. <u>The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters</u>.

1. Because the Governor's Office has not kept Board member appointments current, one of the Board's public member positions was unfilled for 14 months. Another Board member's term was lapsed for 16 months before he was reappointed.

2. The other public member on the Board, although his appointment was current, has attended only 50 per cent of the meetings. Thus, the Board has been operating with only five of its seven members.

3. The Division of Occupational Licensing has not provided the Board with adequate investigative services. Because of this, many complaints made to the Board have gone uninvestigated or, if an investigation was done, it was not timely (see Recommendation No. 5).

4. Because of the high turnover of licensing examiners within the Division of Occupational Licensing, the administrative services to the Board have lacked continuity. We received complaints in response to the questionnaires we sent out that the service provided by OL was either very slow or non-existent.

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

1. During the 1979 Legislative session, a bill was passed that increased the maximum fine payable by violators of the statute which required pilots aboard registered vessels from $1,000 to $5,000. This is in the public's best interest because it should have more of a deterrent effect on potential violators than the $1,000 maximum penalty did.

2. In 1977, a section was added to the statutes which required any oil tankers, whether registered or enrolled, to either pick up a State-licensed pilot or carry a federally-licensed pilot during its entire voyage. It is in the public's best interest to take extra precautions to regulate oil tankers. However, the Board has endeavored to regulate enrolled vessels, in spite of the fact that the State has no jurisdiction over these vessels because of federal laws.

3. In 1976, two public members were added to the Board of Marine Pilots by statutory amendment.

4. In 1978, a change was made to the Administrative Code (AAC 12.56.060(c)) which made the process of obtaining an extension of route easier. We believe this was a sensible change made by the Board, because it eliminated redundant paperwork.

5. Also in 1978, another section was added to the Administrative Code (AAC 12.56.080(b)(3)) which gave the Board the authority to restrict a pilot from piloting in a certain area if he

has not worked in that area for two biennial periods. The restriction remains in effect until the Board determines that the pilot has sufficient knowledge and experience to resume pilotage in that area. Testimony against the regulation was received by the Board from several marine pilots. Their major complaint against the regulation was that it would cause the independent pilots to lose one of the two areas (southeast and southwest) they had previously been licensed for, thus benefiting the associations since competition would be lessened (see Recommendation No. 2).

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, and availability of service which it has provided.

1. The public is invited, by notices in the four major newspapers throughout the State, to the Board's meetings. However, in many cases, the notices are not published timely enough to allow a person interested in attending a meeting time to prepare for the meeting.

2. At each of the last three meetings of the Board, there have been at least four persons, other than the Board members or support staff, in attendence at the meetings.

3. From the responses to the questionnaires we sent to the licensed pilots and the agents and in talking to other persons such as representatives from the pilots' associations, we heard a number of complaints about the service provided by the Board. For example, requests had been made for copies of Board minutes and notification of changes in statutes and regulations. However, no response was received from the Board or the Division of Occupational Licensing.

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

1. Until the January, 1979, the pilots' associations and the shipping industry were very involved in the Board's decision making, since they negotiated the tariff increases before they were approved by the Board. Input from

the associations and the shippers will still be welcome; however, in the future, the Board plans to take a more active role in approving tariff increases (see Recommedation No. 3).

2. As stated in Criteria IV, number 1, the public is invited to the Board of Marine Pilots meetings to give input about Board business.

3. The public also has a chance to give input about proposed regulations, since proposed regulations have to be published in the newspapers before they can become effective. In the public notices, the public is invited to make testimony on the proposed regulations.

4. One area where the public is not given notice of impending changes is with the tariff increases. Proposed tariff increases are not published in newspapers.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

1. Per Number 3 under Criteria II and Recommendation No. 5, the Division of Occupational Licensing has not provided the Board with efficient investigative services on complaints made involving marine pilots. As a result, the Board has been critized by the U.S. Coast Guard, the shipping industry and other licensed pilots because it does not properly police the State marine pilots. Since the complaints have been made repeatedly, they apparently have not been efficiently processed and resolved.

VII. The extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public.

1. Based on the requirements for licensure as a State marine pilot, the applicants should be qualified to pilot vessels in the inside waters of Alaska.

2. As stated in Number 2 under Criteria I, 18 per cent of the licensees either did not possess or did not show documentation of

possessing all of the qualifications required for licensure. Also, six per cent of the persons whose licenses were renewed, had not submitted documentation of having fulfilled the two-month requirement.

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

1. Applicants for a State pilot's license must by regulation be at least 25 years old. Age restrictions such as this have been found by the Alaska Legislature to be illegal and unnecessary.

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

1. See Recommendations No. 1 through No. 7.

APPENDIXES

APPENDIX A

BOARD OF MARINE PILOTS
REVENUES COMPARED WITH EXPENDITURES
Fiscal Year 1978
(UNAUDITED)

Revenues (see Schedule 1 and Note 1)	$ 6,451
Expenditures (see Note 2)	16,988
Excess of Expenditures over Revenues	$(10,537)

Schedule 1
Types of Revenue

Revenues	Amount	Time of Collection
Application and Examination Fee	$ 10	With submittal of application
Temporary License Fee	$ 50	With submittal of application
License Fee	$200	Biennially

Note 1

Most of the revenues collected by this Board are comprised of license renewal fees. These fees ($200) are collected once every two years, which causes revenues in one year to be much greater than the revenues collected in the next year. Therefore, the revenue figure reported above is an average of the revenues collected in fiscal years 1977 and 1978, in order to obtain an accurate representation of collected revenues.

Note 2

Expenditures includes those made by Board members, such as travel and per diem, and an allocated percentage (estimated) of total administrative expenses of OL. They do not include expenditures for the efforts of other departments, such as the Department of Law, in assisting the Board and OL.

APPENDIX B

ADMINISTRATIVE STATISTICS

Licensed Marine Pilots	As of May 1, 1979
Number of pilots living in-State	31
Number of pilots living in other states	16
Total - Licensed Pilots	47
Number of pilots licensed to pilot in Southeastern Alaska	20
Number of pilots licensed to pilot in Southwestern Alaska	18
Number of pilots holding licenses for both areas	9
Total - Licensed Pilots	47

Number of Board Meetings	
Number of Board meetings in calendar years 1976-1978	6
Number of Board meetings in calendar year 1979 (as of May 1, 1979)	2
Average number of Board meetings per calendar year	2

Note 1

Statistics on the number of exams given by the Board have not been kept, and therefore are not available.

APPENDIX C

SCHEDULE OF AVERAGE PILOTS' INCOMES

1978 Income of a member of the Southeast Pilot's Association	$ 58,518[1]
Average annual income of a member of the Southwest Pilot's Association	120,713[2]
Average annual income for a member of the Puget Sound Pilots' Association	76,000[3]

Note 1

This figure was taken from a tariff increase request proposal submitted to the Board by the Southeast Pilots' Association in September, 1978. The tariff increase request proposed that the Southeast tariffs be increased enough, over a two-year period, to bring the members' salaries up to $93,041 annually.

Note 2

This figure came from a staff report prepared for the Board of Marine Pilots by a tariff analyst employed by the Department of Law. The report was prepared to study the Southwest Pilots' Association's tariff increase proposal, which estimated average earnings at $95,000 annually.

Note 3

This figure was taken from a supplement to the staff report prepared by the Department of Law, as described in 2 above.

APPENDIX D

QUESTIONNAIRE SENT TO BOARD MEMBERS
(see Note 1)

1. What do you believe to be the goals and objectives of the Board of Marine Pilots?

Responses

To provide for the maintenance of efficient and competent pilot service on all the waters of the State of Alaska to assure the protection of shipping, commerce and the environment and the safety of human life and property.

State regulation of pilotage.

Mediating between pilots and shippers.

Making, giving and grading exams.

2. Do you feel the Board is achieving its goals as you perceive them in question number 1? Please explain how the goals and objectives are or are not being achieved.

Responses

The goals are being met by regulating the qualifications and licensing of Marine Pilots.

The goals are being met by requesting the investigation of violations of the Marine Pilot statutes and regulations.

The goals are being met by regulating pilotage fees.

The Board moves too slowly on most matters. One of the items on the 1-30-79 agenda was at least 18 months old.

3. Do you feel more emphasis should be placed on some goals and less on others? Please explain.

Responses

All the goals are being adequately pursued except the investigation of violations, which if not improved, could lead to the erosion of credibility concerning the Marine Pilot Statute, harm to commerce and the marine environment of Alaska.

More emphasis should be put on safety.

The Board should be more efficient.

4. Do you feel that the absence of State regulations for marine pilots would be detrimental to the public's best interests? Please specify your reasons.

Responses

Yes! High standards for Marine Pilots must be maintained to protect the orderly marine commerce of the State whether it be freight, seafoods, forest products or crude oil as well as protection of the marine environment from pollution from tanker or other vessels navigational accidents.

Yes. It would be a jungle without regulation!

Yes. The U.S. Coast Guard regulations do not cover vessels under registry. Without State regulations there would be no pilotage requirements for foreign vessels.

Yes. The Coast Guard could cover things but it would be in the State's best interest to have some control in the intra-state coastal commerce.

5. Are the skills required of a pilot holding only a Coast Guard pilot's license the same as the skills required of a pilot with a State pilot's license? Please explain.

Responses

No. Qualifications for a State license require proof of shiphandling capability in addition to a Coast Guard pilot's license which does not require other than observation of the area or route.

The skills are largely the same, however some of the State regulations are more specific.

Not sure on exactness, but they are similar.

6. Why is it necessary for the State Board of Marine Pilots to require an examination for a State marine pilot's license in addition to the examination required for a Coast Guard marine pilot's license?

Responses

Questions of a nature more pertinent to actual piloting of a vessel in an area are asked in a State examination in addition to those pertaining to the physical features of the area as are generally asked in a Coast Guard examination. The questions are asked by practicing marine pilots while the U.S. Coast Guard and its personel are not versed in piloting vessels.

6. (Cont'd.)

The State exam concentrates more on local ports and conditions.

The State exam has more details that need to be known on it.

7. Do you think the State requirements for licensure as a marine pilot - i.e. requirement for a master's license, number of required dockings, and examination requirements - are reasonable? Too restrictive? Too loose? Please discuss your answer.

Responses

Reasonable, any less restrictive and it would lead to erosion of the high professional standards required by marine pilots in the state of Alaska to protect its rich resources and the environment as well as commerce and safety of human life. These higher professional standards are needed in this State due to the more harsh and extreme conditions under which all commerce must operate in comparison to other areas.

Too restrictive - the Coast Guard license should be sufficient so far as written examinations are concerned. Ten dockings and undockings under AAC 12.56.030(5) (A) are more than necessary - three dockings and undockings should be sufficient. Twenty dockings and undockings under AAC 12.56.030(5)(B) could be made less restrictive. Perhaps some of the dockings and undockings could be supervised by individuals holding only a Coast Guard pilot's license for the area.

The requirements are reasonable.

8. Do you think continuing education or reexamination should be required for the renewal of a State marine pilot's license? Please discuss your answer.

Responses

Continuing education is always necessary and it is required by marine pilots in this State by submitting proof of experience or having worked in an area for license renewal. Experience is the best teacher in pilotage. Most pilot groups, in addition to on-the-job training for junior pilots, have programs for additional training including super tanker training at Grenoble, France and the simulators in New York.

No. The problem of discontinuing the license of an incompetent pilot exists, but the problem is not simple. The Coast Guard faces the same problem and there is no need for the State to duplicate their activities. The Coast Guard has more staff and budget to do this.

Yes. Some as any licensed pilot needs to have up-dated knowledge.

9. Alaska Statute 08.62.040(a)(4) states that the Board of Marine Pilots shall regulate pilotage fees. Why do you think setting the tariffs should be a Board function?

Responses

So that rates will be sufficient to support and attract highly qualified and competent marine pilots of a sufficient number to provide adequate marine pilotage services to all areas of the State where required by industry and commerce.

The basic function in rate regulation is to establish fair and equal rates. The State tariff should help control the "monopoly" situation created by the pilots' associations.

The Board is composed of the two groups who are directly concerned with tariffs - ships' agents and pilots.

10. Is the staff of Occupational Licensing and/or other State agencies adequate to handle the administrative and enforcement needs of the Board? What staff support services are provided adequately? Inadequately?

Responses

The staff of Occupational licensing should be adequate to handle the administrative needs of the Board. Personnel turnover and continual "new" people have made administration rather chaotic at times but hopefully that is being resolved. The enforcement of violations has been very poor due to lack of investigative officers and some cases slow down when the cases are finally passed on to the Attorney General's office.

We need continuity - there is too much turnover of the staff.

Reasonably adequate.

The support services are adequately provided, but the investigative services are inadequate.

11. Are there any statutes or regulations that you believe are too obsolete, vague, unduly restrictive and/or inadequate to allow the Board to carry out its purposes? Please cite specific statutes and their weaknesses.

Responses

Any statutes or regulations that are in this category, I believe, are being reviewed and changed by the Board.

11. (Cont'd.)

AAC 12.56.030(5)(A) and (B) - dockings and undockings must be supervised by a State licensed pilot should be changed so that a pilot holding only a Coast Guard license can also do the supervising. AAC 12.56.030(5)(C) which requi es the applicant to have done his dockings within two years prior to the date of application should be deleted - it is covered adequately by Coast Guard requirements.

AAC 12.56.030(6) - requirement for a physical exam should be deleted. It also is adequately covered by Coast Guard requirements.

AAC 12.56.030(7) - requirement that applicant be at least 25 years old should also be deleted. It may be unconstitutional.

The same requirements should be deleted from AAC 12.50.040 and 050.

12. What changes could be made to the Board which would improve its service to the public?

Responses

I believe the Board is adequate to serve and protect the public if it gets proper assistance in upholding the statutes and regulations.

The public members have not been active.

The Board needs to take faster action on its decisions.

13. Please add any other comments or suggestions that you believe would enable us to better evaluate the public need for the Board. Thank you for your cooperation!

Responses

If the Board of Marine Pilots is abolished the State Pilotage Statutes would be meaningless and the effect would be chaotic on the commerce of the State of Alaska. Foreign vessels would come and go as they please having no concern for the environment and the safety of life and property within the State and answerable to no State agency. The high standards of qualification for marine pilots would erode if not governed and their rates regulated by the Board.

Note 1

At the time this questionnaire was mailed to the Board members there were six members on the Board. Of the six questionnaires we sent out, we received four responses. The responses are summarized above.

APPENDIX E

QUESTIONNAIRE SENT TO THE LICENSED MARINE PILOTS

The following questionnaire was sent to the licensed marine pilots. For each question on the questionnaire, we have indicated the percentage of yes or no responses. We have also included examples of typical written comments for each question as compiled from the questionnaires (see also Note 1).

	Percent of Response (See Note 1)		
	Yes	No	No Opinion
1. Do you feel that the absence of the State Board of Marine Pilots would be detrimental to the public's best interests? Please discuss.	92	8	0
2. Do you believe the Board of Marine Pilots is operating in the public's best interests? If no, please explain.	92	8	0
3. How would you classify the present Board requirements for determining that an applicant has acquired the skill and knowledge necessary to function as a marine pilot (i.e. requirements for a Coast Guard master's and pilot's license, number of dockings required, and the examination requirements)?			
a. too restrictive	19		
b. reasonable	69		4
c. not restrictive enough	8		

Please discuss the reasons for your answer.

- *The Board is needed to assure that only qualified pilots are licensed.*

- *The Board is needed to protect Alaskan waters from the risks posed by foreign vessels.*

- *Licensing pilots and investigating accidents is in the public's best interests.*

- *The exam should be done away with because the Coast Guard exam is sufficient.*

		Percent of Responses (See Note 1) Yes	No	No Opinion
3.	(Cont'd.)			
	- *The docking requirements are good - they require a pilot to demonstrate practical ship-handling experience.*			
	- *Dockings requirement is too restrictive because of a lack of ships in an area.*			
4.	Do you feel the Board has permitted all qualified applicants to obtain licensure as a marine pilot?	69	27	4
	Please explain:			
	- *The Board has simply followed the letter of the laws in licensing.*			
	- *Applicants unwilling to play the political game have been discriminated against.*			
5.	Do you feel it is necessary for the Board to require applicants for a State marine pilot's license to take a State examination in addition to the examination required for a Coast Guard license?	77	23	0
	Why or why not?			
	- *The State exam goes into more detail about local knowledge and shiphandling than the Coast Guard exam does - the exam should be kept.*			
	- *The State exam is an unnecessary duplication of the Coast Guard exam.*			
6.	In your opinion, is the State examination required for licensure as a marine pilot a fair and reasonable test of the skills and knowledge an applicant should possess in order to function as a marine pilot?	77	23	0
	Please comment.			
	- *The exam is somewhat out-dated regarding lights, radio call signs, etc.*			

		Percent of Responses (See Note 1)		
		Yes	No	No Opinion
7.	Do you have any suggestions for improving the exam or exam procedures?	*Not applicable*		
	- *The exam should be done away with - applicants should be licensed on the basis of their Coast Guard exams.*			
	- *The exam questions should be updated.*			
8.	Do you feel the procedure for obtaining an extension of route is reasonable?	*69*	*23*	*8*
	Can you think of any improvements that could be made to the present system of obtaining an extension of route?			
	- *The exams for extensions of route should only cover local knowledge applicable to the route being applied for.*			
9.	AAC 12.56.080(b) requires a pilot to have worked in a licensed deck officer capacity for two months in the area in which he was licensed during the last biennial period in order to get a State pilot's license renewed. The two months must have been worked within the last two biennial periods.			
	Do you think this requirement is:			
	a. too restrictive	*69*		
	b. reasonable	*23*		
	c. not restrictive enough	*8*		
	Please explain further.			
	- *The requirement is much too restrictive. A pilot may not be able to find sufficient work in an area to meet the requirement.*			
	- *A pilot should stay familiar with an area. Frequency trips are important.*			
	- *One orientation trip into an area should be sufficient to keep a pilot familiar with an area.*			

		Percent of Respons		
		Yes	No	No Opinio
9.	(Cont'd.)			
	- *The terms "area" and "licensed deck officer capacity" are too hard to define.*			
10.	Do you think continuing education or re-examination should be required for the renewal of a marine pilot's license?	23	77	0
	Why or why not?			
	- *Reexamination should not be necessary as a pilot should keep himself knowledgeable in the areas for which he is licensed.*			
	- *Everytime a pilot goes aboard a ship he is continuing his education.*			
11.	Do you believe it should be the Board of Marine Pilots' job to regulate the tariffs marine pilots can charge for their services?	88	8	4
	Why or why not?			
	- *By regulating tariffs, the Board eliminates competition.*			
	- *If the Board didn't set the rates, one of two things would happen: a) pilots would charge unreasonable rates, or b) the shipowners would work pilots against each other, causing rivalry and chaos.*			
12.	Are the skills required of a pilot holding only a Coast Guard pilot's license the same as the skills required of a pilot with a State pilot's license?	38	58	4
	Please explain.			
	- *To obtain a State pilot's license, a pilot must demonstrate his shiphandling, local knowledge and practical navigation experience, wheras a pilot could get a Coast Guard license without ever having handled a ship.*			

	Percent of Response		
	Yes	No	No Opinion
13. Are you aware of any discriminatory practices involving the licensing of minority groups (i.e. race, sex, religion, age, etc.)?	8	92	0
14. Do you have any complaints concerning the service provided by the staff support of the Division of Occupational Licensing, Department of Commerce and Economic Development?	42	58	0

If so, please describe.

- *no comments.*

Please discuss.

- *The Division does not send notices of new tariffs and other pertinent information to all the licensed pilots.*
- *Because of the high turnover of licensing examiners, there is no continuity in the work produced by the Division.*
- *The Division makes administrative error after error.*
- *The Division does not pursue reports of violations and marine accidents.*
- *Generally, the service seems fairly efficient!*

15. What improvements do you feel are needed for the Board of Marine Pilots, and its statutes and regulations? Also, please make any other comments you have here. *Not applicable*

Thank you for your cooperation!

- *There should not be so much political influence on the operations of the Board.*
- *Improvements should be made by the State agencies responsible for providing services to the Board (such as investigations). This would make the Board much more effective.*
- *The Board should give out more information and let the pilots know what is going on.*

Note 1

Number of questionnaires sent to State licensed Marine Pilots	54
Number of Marine Pilots who responded	26
Response Rate.	48%

APPENDIX F

QUESTIONNAIRE SENT TO AGENTS

The following questionnaire was sent to nine shipper's agents who represent ship owners within the State of Alaska. Six of the agents responded (response rate of 67 per cent). For each question on the questionnaire we have indicated the number of yes or no responses. We have also shown the most typical written comments for each question as compiled from the questionnaires.

	Number of Responses		
	Yes	*No*	*No Opinion*
1. In your opinion, are marine pilots necessary to assure the safety of human life and property on board vessels within the inside waters of Alaska?	*6*	*0*	*0*

Please explain.

- *A vessel takes aboard a pilot to gain the benefit of his personal knowledge and experience as it relates to local waters and their hazards.*

2. Do you think it is necessary for the State to regulate pilotage of those vessels which come under State jurisdiction?	*5*	*1*	*0*

Please explain.

- *The State should regulate pilotage aboard registered vessels because the Coast Guard doesn't regulate registered vessels, and they should be regulated by someone.*

3. If the State Pilotage Act was repealed, would those shippers previously subject to the State Act continue to employ marine pilots?	*5*	*1*	*0*

Why or why not?

- *A majority of foreign vessels would continue to employ pilots. Whether a U.S. vessel under registry would employ a pilot would depend on the experience and local knowledge of the vessel's master.*

			Number of Responses		
			Yes	No	No Opinion
4.	a)	Do you think the State Board of Marine Pilots should be setting the tariffs marine pilots charge for their services?	4	2	0
	b)	Do you think marine pilotage fees should be decided upon by the shipper (or agent) and the marine pilot, leaving the Board of Marine Pilots out of the decision?	2	4	0
	c)	Please explain your answers to the above questions.			

- *The Board should regulate tariffs because there appears to be a monopoly operation of pilotage in Alaska, which must be regulated by a government agency.*

- *The time spent by the Board in analyzing tariff increases has not been adequate.*

- *Each district should set its own tariff fees based on the difficulty factors of the area.*

5.	a)	In your opinion, is the present system of negotiating tariff increases (i.e. setting up an industry-pilot association negotiating team which then makes its recommendation to the Board) an adequate system?	4	2	0
	b)	Do you have any suggestions for improving the system?			

- *Let the pilots and industry negotiate tariff increases but keep the State out of it.*

- *The present system is the only fair approach.*

		Number of Response		
		Yes	No	No Opinio
6.	Do you find that employing pilots through a pilots' association is an advantage or a disadvantage to your business?			
	a. advantage	2		
	b. disadvantage	1		1
	c. both	2		

Please explain.

- *We prefer to have the same pilot handle our vessels because he is completely familiar with the vessels' handling characteristics.*

- *We do not have control of a pilot hired through an association.*

- *An association provides an efficient dispatching service.*

- *Because of the associations, competition is non-existent.*

- *The associations have too much control over future potential pilot applicants.*

- *Independent pilots have little input into rate and other regulatory matters.*

7. Are there any other comments you would like to make about the Board or its activities? Thank you for your cooperation in filling out this questionnaire!

- *There is no enforcement or investigation of accidents or violations.*

- *In general, the Board has failed to take an active part in the pilotage problem.*

Sept. 24, 1979

State of Alaska
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Gentlemen:

The following is my response to the Legislative Audits preliminary report, "A Performance Review of the Board of Marine Pilots - June 15, 1979".

In general, I agree with the report conclusion: The board should continue to regulate and license the marine pilotage profession.

I disagree with the recommendation to discontinue the requirement for State - administered examinations. I think testing rules of the road is a duplication of Coast Guard testing and should be discontinued. I think the number of examination questions should be reduced to cover certain items usually not covered by the Coast Guard exams. I think the oral examinations should be continued.

I do not particularly disagree with the other recommendations.

I think the docking and undocking requirements by state law are to restrictive and should be changed somewhat. This is one important point and I feel that the audit report touched too lightly on this subject. This matter deserves further investigation by the audit division.

Very truly yours,

C. D. Stover

To The Trustees and Members of the American Pilot Association

Re: The Role and Function of a Pilot

The enclosed paper was presented at a recent symposium held in Washington D.C. in September of 1979.

Since it represents a departure from commonly held views, some explanation of the circumstances and reasons for the position taken in the paper should be offered.

Pilotage is coming under greater scrutiny by the political institutions than at any previous time. On the Congressional level we've had recent moves to place licensing under Coast Guard control, and a current GAO report to Congress recommends such action. On the State level we have Sunset Laws in many states that cause the compulsory pilotage laws to self-destruct periodically and place the burden on the pilot to prove that his continued existence and state protection serve the public interest. On the International level we have IMCO considering international standards on the training, qualification and operational procedures for pilots; and the International Association of Ports and Harbours defining the role and function of the pilot.

With the emphasis in government today on the creation of a society completely free of risk, we can expect continued scrutiny and examination of the pilot's role in protecting the safety of the ship, the public and the environment from the consequences of marine casualties.

If we must stand in the glare of the public spotlight periodically and undergo a political "physical exam" we should make it clear that we exist to serve the public interest, that we are aware of our public responsibilities and that we are deserving of the protection of the State.

Acceptance of shipping management's definition of the role and function of the pilot as "a servant of the vessel" who "advises the master" places us in the untenable position of justifying our protected status under State laws on the basis of satisfying the

private interests of the shipowner. If our official position before the public in a political forum, such as Congress or a State Legislature, is as the advisor and servant of the ship filling a purely private interest need of the owner to expedite the ship's schedule for commercial reasons, we will have little claim to public protection. Unless our public role is emphasized to a greater degree there is a very good possibility that the public, i.e. the political institutions, will see our disputes with an antagonistic shipping management as purely a labor/management struggle. When the issues of sunset review, pilotage rates, regulatory boards and other matters affecting pilots arise we must be prepared to show that the public has a stake in protecting the pilot from the domination and control of shipping management. Past experience has shown that shipping management invariably attempts to exploit any weakness or failing on our part to denigrate the role and function of the pilot in order to gain the upper hand in rates, regulation, licensing or control over our profession.

Acceptance of a definition of a pilot in terms that characterize him as a servant who advises the master creates a very weak and misleading public image that does not reflect the actual situation on the bridge of a ship. In order for a pilot who has the conn to be described as an "advisor" requires construing the term in a manner quite different from its commonly understood meaning. It conjures up a picture in the average layman's mind of a master actually maneuvering his vessel with a pilot sitting in the background and available for comment or consultation on local conditions. This is th image frequently offered by the opposition when pilotage rates or regulations are being discussed and the image creates an obstacle to the recognition of our true worth.

There has been a reluctance in the past to assert ourselves on the issue of the pilot's role and function. This has probably been due, in part, to a hope that the advisor designation might offer some protection from liability after a casualty. It is clear from reviewing the court cases dealing with pilot liability that it makes little difference whether the pilot contends that he is in control of the navigation or merely serving as an advisor, if a casualty occurs because of his negligent actions, be they orders or advise, he is liable for the damages.

It would seem that there is no benefit in accepting management's characterization of our role and function aboard ship. We should develop our own view of the part we play in the industry and the interests we serve and protect, and that position should be readily

understandable to the layman and justifiable to the political establishment.

The paper and recommendations attached represent a personal viewpoint and policy based on the experience in Maryland--- other pilots with different experiences may hold different viewpoints.

As a trustee of the American Pilot Association I would like the views expressed to serve as a starting point for discussion between us leading to the development of a national policy on pilotage matters. If we don't take the initiative in defining our own goals and role, we may find the AIMS position paper prevailing by default.

I would greatly appreciate your comments.

Fraternally,

PILOTAGE

by George A. Quick, President

Association of Maryland Pilots

PILOTAGE

by George A. Quick

I've been given 40 minutes and the promise that I was free to express my views on maritime pilotage in the United States with emphasis on problem areas and possible solutions. Since it is my belief that one of the major problems is a lack of understanding of the role and function of a pilot, even among many pilots, I am going to seize this opportunity to discuss pilotage as an institution from my viewpoint.[1] Knowing that my views won't be shared by everyone, I've attached references or annotations to explain or support the basis of my beliefs.

Before we can get into the finer points that require discussion, I should first describe the pilotage scene as it exists in the United States today for the benefit of those in the audience who aren't familiar with the subject.

All maritime nations since ancient times have offered inducements for mariners to become pilots and maintain pilotage systems for the protection of shipping.[2] We may not be the oldest profession

but we are certainly the oldest regulated profession.[3] The Colonial Legislatures had pilotage laws in effect prior to our becoming a nation.[4] The first Congress assembled after the adoption of the Constitution in 1789 realized that the delegation of the right to regulate interstate and foreign commerce granted to the Federal Government by the Constitution would interfere with the pilotage systems and regulations in place in the various states and quickly passed an Act that left pilotage under state control.[5]

The state laws generally provided for a system of regulated public pilots who conducted ocean-going ships to and from the sea and whose terms and conditions of service were established by law.[6] Pilotage remained exclusively a public service under state control until 1871 when Congress acted to provide for the federal licensing of pilots on steam vessels engaged in the coastwise or interior commerce of the country.[7] At that time steam engines were considered inherently dangerous and many laws were being passed to protect the public from this new threat created by the Industrial Revolution. Since many state laws exempted ships engaged in strictly coastwise or interior commerce from the requirement of taking aboard a public pilot, Congress felt there was a need to insure

that these new and dangerous vessels driven by steam employ someone familiar with the waters over which the vessel was navigating.

This new Act of Congress by creating a different category of federally licensed "pilots" who were employees of the ship and who often were actually the master or other officer acting as "pilot" by virtue of an additional endorsement on his license has caused confusion in defining the term "pilot" and in defining the role and function of a pilot.

The term "pilot" in the United States is used to describe two entirely different sets of relationships:

1.) It can refer to a federally licensed employee of the ship who is subject to the selection and control of the shipowner and whose terms and conditions of employment are determined by mutual agreement. The relationship is the common law one of employer and employee.

2.) It can refer to the state licensed publicly regulated pilot who is not subject to the selection and control of the shipowner and whose terms and conditions of service are established by statute and not subject to negotiation.[8] The relationship is created by compulsion of law and defined by the state compulsory pilotage statute and decided court

cases applying principles of maritime law.

In simple terms, the federally licensed "pilot" is acting in a private capacity on privately agreed terms and conditions, and the state licensed "pilot" is exercising a public function on publicly regulated terms and conditions.[9]

The legal text writers and the court decisions attempt to avoid confusion by generally referring to the pilot acting in a private capacity as a "voluntary" pilot and referring to the pilot exercising a public function as a "compulsory" pilot although the distinction still becomes blurred in some contexts.[10]

In a sense the coastwise seagoing vessel is compelled under the 1871 statute to employ a federally licensed pilot in the same manner as it is compelled to employ a specified complement of licensed officers and engineers or certified seamen, but that is not the type of compulsion referred to in the distinction between "voluntary" and "compulsory" pilotage. In the "voluntary pilot" situation the employment contract is by mutual agreement between the shipowner and the employee pilot, even though the shipowner is naturally compelled to select his employee from among a class i.e. federally licensed pilots. In the "compulsory pilot" situation the pilot is forced

on the shipowner by compulsion of law and under terms and conditions established by law. The concept of "compulsory pilotage" excludes any right of the shipowner and pilot to mutually agree on the terms of their relationship. The right of selection and control, as well as the terms and conditions of service are not properly the subject of negotiations, they are established by the state to serve the state's superior interests.

The British and Canadian practice is to avoid the confusion by legally defining a "pilot" in the following terms:

"'pilot' means any person not belonging to the ship who has the conduct there"

Canada, Pilotage Act, Sec. 2(i), (1971)

Great Britain, Merchant Shipping Act of 1894, sec. 742, amended by Pilotage Act of 1913.

Under their definition employees of the ship who navigate the vessel in pilotage waters are not considered to be, nor licensed as, pilots.

Under British and Canadian practice an employee comparable to our federally licensed pilot would be granted a pilotage certificate, as distinguished from a license, exempting the vessel on which he serves from the obligation of taking on board a licensed public pilot. The pilotage certificate is issued

for a one year period on the basis of relatively limited experience, probably obtained only on the ship employing the certificate holder, and is restricted to the ship named on the certificate. The issuance of a license as pilot is limited to those who undertake piloting as a distinct profession, with substantially higher standards similar to our state licensing procedures, and whose terms and conditions of employment are the subject of public regulation.

It seems to me that this avoids the unhappy situation where no distinction is made between the professional pilot with broad experience exercising a public responsibility and the company employee with relatively limited experience who works for the shipowner in a private capacity.

There is a vast difference in the training, experience, perceived duties and responsibilities, working relationships, legal relationships and attitudes that separate the federally licensed employee pilot and the state licensed public pilot. An understanding of the differences is necessary if we are to progress further in our discussion of the pilotage scene.

The state licensed pilot is regulated by state statutes creating "compulsory" pilotage. His state license is both a certificate of competency and a

franchise as a public service requiring him to assume public obligations in maintaining pilot stations and operating a pilotage system. The rights, duties and obligations of the owner, the ship, the master and the pilot are created by law and not by mutual agreement between the parties. Common law principles governing the usual employment contract have no application.

The general scheme in effect throughout most of the world is one in which a vessel approaching the coast with the intent of making port has a compulsory obligation to accept a local pilot skilled in navigating those waters and knowledgeable as to local hazards, place him in charge of the navigation of the ship, and pay the fee for his services prescribed by local law.[11] The purpose is to protect the safety of shipping by assuring a complement of pilots will be available when needed at designated locations (pilot stations) and by placing navigational control of the ship in the hands of a qualified local expert when the ship is in a high risk area.[12]

As part of their franchise as a public service it is compulsory for the pilots to maintain pilot boats on established stations known to all mariners, to keep a complement of qualified pilots available to render services at all times, to go to any ship needing his services without discrimination or choice and to provide his services under legally established terms and conditions, and for a fee prescribed by law and published in a tariff.

In order to comply with his obligations under a compulsory pilotage statute, the individual pilot has to devote a considerable part of his early years to education and training to develop professional expertise,[13] he has to invest his capital in his share of pilot station vessels, launches, offices, shore stations, communications equipment, automobiles and all the other equipment and facilities needed to maintain and operate an essential service to shipping within his pilotage district, he has

to be responsible for and employ on his pilot station vessels a considerable work force of masters, watch officers, engineers, launch operators, seamen and stewards, as well as an office staff of dispatchers, drivers and administrative personnel needed to operate a pilotage system at a major port. He undertakes these obligations on speculation as to the future needs of shipping at the port he serves and with no guarantees or contractual obligations from the shipping industry to protect his investment or future income.

Compulsory pilotage is the creation of law, not of contract. It is regulated in much the same manner as a public service company and charged with the public responsibility of rendering pilotage services to vessels. The pilot is in no sense the employee or servant of the shipowner or the vessel he pilots. The shipowner is not personally liable for the acts or negligence of the public pilot,[14] although the ship is liable "in rem" under American law. He is required to be accepted by the vessel and placed in charge of her navigation to serve the state's interest in protecting life and property - and in today's world, the environment - from the hazards of navigation.[15] He sees his duty and obligation as being owed to local political authority and the public, rather

than to the shipowner in the role of an employer. The public nature and regulation of the terms and condition of his service protect and insulate him from the demands and pressures that can be placed on an ordinary employee to compromise the margins of safety.

In contrast the federally licensed pilot is a common law employee of the shipowner serving in a private capacity. The shipowner has the right of selection and the right to exercise control over his employees in the performance of their duties.[16] The terms and conditions of employment are privately agreed to with the shipowner. The prospects of future employment are dependent upon how well the employee satisfies the demands placed upon him by his employer. The master and the federally licensed pilot work for and are answerable to the same employer and are licensed by the same federal agency, the Coast Guard. In some cases the master and pilot may in fact be the same person serving in a dual capacity. This lack of independence and the absence of checks and balances should give the public cause for concern when they consider that the sea-going coastwise tankers are exempt from the protection of state compulsory pilotage laws. The majority of them are navigated on our inland waters by company employee pilots or masters serving in the dual capacity of pilot.

The 1971 collision of the ARIZONA STANDARD and OREGON STANDARD under the Golden Gate Bridge in San Francisco is a good illustration of the consequences of exempting coastwise tankers from state compulsory pilotage laws. Both tankers were under the sole control of masters attempting to perform as pilots on the basis of a Coast Guard endorsement, and under pressure to move their ships in spite of the unacceptable visibility and limited experience they possessed. The resulting oil pollution and national publicity was one of the driving forces behind the Coast Guard's move to establish Vessel Traffic Systems. As an alternative to a massive effort to install expensive and sophisticated electronic systems of doubtful effectiveness, wouldn't it have been wiser to consider efforts to insure the competency of personnel handling ships by increasing the amount of experience and recency of service requirements for licensing; and if the vessel is large enough or carrying oil or hazardous cargoes, so as to present a threat to the environment or the public, her movement be under compulsory pilotage so as to insulate the pilot from

commercial pressures? Both the legislatures of California and Washington attempted to do just that, as a response to the threat of oil pollution in their waters, by attempting to pass state legislation placing large oil tankers in coastwise trade under state compulsory pilotage laws. Both attempts failed, the Washington effort going all the way to the U.S. Supreme Court, because of pre-emption of the field by the Congressional Act of 1871, which places exclusive regulation in the Coast Guard.

I've spent a fair amount of time discussing the contrasting roles of the federal and state licensed pilots, and I am afraid this may create the erroneous impression that federal licensed employee pilots are a major factor in the piloting of large ocean-going ships. They are not. Their employment is limited to a very small number of sea-going ships engaged in the coastwise trade. To put the situation in numerical perspective there are about 1200 compulsory pilots nationwide and there are probably less than 50 federally licensed employee pilots working regularly, primarily employed on coastwise tankers of the major oil companies. The vast majority, probably well over 95%, of ocean-going ships moving on the inland waterways are under the control of state licensed public pilots operating in a compulsory pilotage

system.

I believe there is not sufficient understanding or appreciation of the concepts underlying compulsory pilotage and how it functions to protect and insulate independent decision making effecting the safety of the ship from commercial pressures by placing navigational control in high risk areas in charge of a compulsory public pilot who does not "belong to the ship," i.e. free of the shipowner's interest and control.

Although compulsory pilots hold licenses issued by the state, they also hold federal pilot licenses as that is generally one of the first steps in beginning a career as a professional pilot. I have experience in serving in both the "voluntary" private employee pilot and the "compulsory" public pilot capacities. Keeping the foregoing in mind, I would like to express my views on some aspects of piloting.

THE COMPULSORY PILOT AND MASTER RELATIONSHIP

The personal relationship between the master and the pilot is invariably a friendly one, based on mutual respect and a common heritage as professional seamen regardless of nationality. They both have the same goal, a safe and expeditious transit of the ship over the pilotage route. Their interests seldom conflict and I doubt if either gives much thought to the finer points of their legal relationship.[17]

Custom, history and tradition dictate the practical working arrangement worldwide as shipping is international in character and the relationship has to be uniform and standardized regardless of the flag the ship flies or the differences in nationality of the pilot, the master and the crew. The relationship is not a subject matter for discussion between them, it is known and understood from long experience and cannot vary from ship to ship because the pilot, the master or shipping management would personally prefer some other relationship.[18] To permit any variation would cause great confusion as to the role and function of both the master and pilot, and the rights and obligations each owes the other.

The law governing the relationship reflects general shipboard practice and can be found in the works of legal text writers and the court decisions that define the duties and obligations.[19] They are the result of centuries of maritime history and tradition that have developed the basic principles.[20]

The first and most important legal principle is that the compulsory pilot is not the employee, servant, or agent of the shipowner, the ship, or the master. He is placed aboard by the state with the conditions of his service fixed by

law. The shipowner or master has no right of selection or control over him. The compulsory pilotage statute insulates him from the commercial interests of the shipowner and protects him from coercion. His fee is set by law and he can receive no increase in fee for accepting greater risks nor be penalized with a lesser fee for taking precautions in conflict with the owner's interests. His future employment does not depend upon satisfying the demands of the shipowner to maintain schedule or move the vessel with unacceptable margins of safety. He is free to exercise independent professional judgement as to the acceptability of the risks. The public nature of his role leads him to place a higher priority on the protection of life, property and the environment than the master who has to consider all decisions in the light of the owners commercial interest. The compulsory pilot's autonomy and independence are, I believe, the single most important safeguard that exists in the shipping world.

Unfortunately most of the management people we deal with on a day to day basis generally do not have a background that includes shipboard experience and they don't fully understand the pressures and responsibilities placed on the master and how the master/pilot relationship functions as a buffer against

shoreside management pressure. The usual shore personnel we encounter have a strong background in traffic, terminal operations, stevedoring, freight solicitation or other related job categories that have a heavy emphasis on cost effectiveness, competitive advantage, and maintenance of schedule. These attitudes unfortunately impact on the master and he may rightly believe that his future employment may depend upon how well he handles the conflicting demands of ship safety and the shipowner's commercial interest. In a recent survey of ship masters, 40% indicated that maintaining schedule was the prime criterion in judging their job performance, and 50% indicated that there was strong pressure to meet schedules even under poor conditions.[21] It is not unusual to have an apprehensive master faced with a risk he sees as unacceptable to seek shelter from his owners under the compulsory pilot's cloak of insulation by indicating diplomatically that it would be appreciated if the pilot accepted the responsibility for the decision not to attempt the transit under the existing conditions. It is clear that, considering the exposure to risk that large ocean-going ships are subjected to in confined pilotage waters, the casualty rate would be far higher if it were not for the freedom of compulsory pilots to exercise their own best judgement without fear of management retaliation.

The second principle is that the pilots pay a price for the independence and insulation from shipowner

control that they derive from compulsory pilotage statutes.

If the control over navigation is taken away from the shipowner and the master and placed in the hands of the compulsory pilot under operation of law, with no right of selection and control, the shipowner and master are released from personal liability for the acts of the pilot - as he is not their employee or servant.[22] The pilot stands alone and a leading text on Admiralty law states it rather succinctly:

> "He so far is in charge of the ship that his errors expose him to appalling consequences....If he injures the vessel which employs him he is liable for the damages. If through her he injures other property, he is liable for that as well, and if the vessel employing him is by his act exposed to liability to the other vessel, he is liable over to her."
>
> Robinson on Admiralty, p. 697

The potential personal exposure to liability that the pilot has when he assumes responsibility for a multi-million dollar ship is for all practical purposes uninsurable as the premiums would approach or possibly exceed the pilotage charges. If he attempted to have the cost of insurance included in the pilotage tariff it would be met with strong shipowner opposition as the owner's basic insurance already covers the owner for the acts of the pilot, and if the pilotage charges also included the cost of liability insurance, the owner would in effect be required to pay for the same

coverage twice. If he attempted to negotiate an exculpatory contract or indemnification agreement with the shipowner, as is common with voluntary pilots acting as docking masters, it would probably fail as his relationship with the shipowner is not a contractual one subject to negotiated terms.[23] The end result is that the compulsory pilot steps on the bridge of a ship and takes charge with a horrendous uninsured personal liability hanging over his head. Management frequently belittles that risk by claiming the owner's recourse against the pilot is financially unreal, as the pilot does not have the resources to pay for the damages he could incur. That makes little difference to the pilot. he is liable for all he owns and faces the possibility of bankruptcy if harm comes to the ship through his error. The fact that pilots are not sued more frequently and placed in bankruptcy is an act of compassion on the part of Admiralty lawyers and insurance companies.

The potential liability has always colored the pilot's attitude. He will not share responsibility or become involved in navigation by committee. He will demand having effective and absolute control over the ship, if there is any intentional or substantial interference by the master with his control he will probably consider himself displaced and leave the bridge

so there will be no question of who was in charge when the casualty occurs. It should be remembered that the relationship of the pilot to the ship is that of a stranger and in the event of a casualty it may be difficult for the pilot to prove the actual circumstances, be it intentional interference, delay in carrying out orders or error on the part of the ship's personnel. The compulsory pilot has far more than action against his license and a suspension at risk when he takes charge of a ship.

The third principle is that the pilot does not serve in an advisory capacity.

The "Report of the Royal Commission on Pilotage"[24] contains a detailed analysis of the British and Canadian statutory definition of the term:

> "'pilot' means any person not belonging to a ship who has the conduct thereof."

The Royal Commission decided that to conduct means:

> "to have charge and control of navigation; in other words, of the movement of the vessel," and "Similarly, if anyone is merely used as an advisor and not entrusted with the navigation of the ship, he is not the pilot of that ship."[25]

The Royal Commission, after reviewing the actual practices followed aboard ship concluded:

> "The pilot does not act as an advisor to the Master but actually navigates the ship. In point of fact the Master is then, to a certain extent, an advisor to the pilot when he points out the peculiarities of the ship. ....This factual situation which corresponds to the legal definition of 'pilot' is, in fact, the only realistic solution because, if pilots were used merely as advisors, navigation would be very hazardous and, at times, it would be impossible to proceed safely..... The first course a ship is committed to is frequently the last. If bad judgement has been used, the result is inevitable and swift.... ....The legislation of most countries recognize the realistic situation that there is not time for advice, consultation and deliberation between the pilot and Master and that the pilot must navigate the vessel himself. How this situation is covered in legislation is a question of semantics,..."[26]

The authoritative legal text "Corpus Juris Secundum" states the law as derived from the American Court decisions to be:

> "Generally, while exercising his functions, a pilot is in sole control of the navigation of the ship and his orders must be obeyed as in effect orders of the master. While a pilot who is in charge of a vessel supersedes the master in so far as the navigation of the vessel is concerned, the master does not surrender his vessel to the pilot and the pilot is not the master; the master is still in command of the vessel, notwithstanding the presence of a pilot. There are occasions when the master may and should interfere and even displace the pilot. Thus, the master may properly displace an obviously incompetent or intoxicated pilot, and the circumstances may be such

> as to require the master to displace a compulsory pilot because of incompetency or physical incapacity. If, however, the master does not observe that a compulsory pilot is incompetent or physically incapacitated, the master is justified in relying on the pilot, but not blindly. In order to be justified in displacing a pilot, the master should be sure that the pilot is for some reason incompetent, and the master or other officer is not bound to interfere with, or to displace, the pilot, if the pilot is not making an obvious mistake, or danger from his acts is not imminent. The view has been expressed that, even where the master deems a compulsory pilot incompetent, the master is not under an absolute duty to displace the pilot."[27]

The American court decisions have dealt in broad terms with the relationship between the master and the pilot, and the right or duty of the master to displace a pilot.[28] But, they have not explored the finer points of the division of control between the master and the pilot to the same extent as the British courts. Prior to 1913, British law held both the owner and the ship free of all liability for acts of compulsory pilots, so many cases arose determining the role and duties of a pilot and whether the action causing the damage was properly within the duty of the master or the pilot. Since limitation was only granted on the basis of sole fault of the pilot, the cases generally attempted to include the master's lack of vigilance as contributing to the accident

so as to avoid the injured party being forced to look only to the pilot. For a discussion of the problem see THE CHINA, 7 Wall. (U.S.) 67, (1868.) Due to the International nature of maritime law and pilotage, and in the absence of American cases holding to the contrary, the British decisions are applicable to the division of control between the master and the pilot on ships engaged in foreign trade in United States' waters, the compulsory pilot situation.

G.K. Geen, the author of "The Law of Pilotage" includes in his excellent work a review of the British case law on the division of control between the master and pilot.[29] He has concluded:

> "The attitude of the courts to the master-pilot relationship is based on precedents created more than a century ago, the guiding principle of which has been throughout that the paramount danger to a ship under pilotage is that created by a 'divided authority.' Attention was drawn to this danger on innumerable occasions, but was perhaps put most succinctly by Dr. Lushington in the case of THE PEERLESS in 1860:-
>
> 'There may be occasions on which the master of a ship is justified in interfering with the pilot in charge but they are very rare. If we encourage such interfering, we should have a double authority on board, a divisum imperium, the parent of all confusion, from which many accidents and much mischief would probably ensue. If

the pilot is intoxicated, or is steering a course to the certain destruction of the vessel, the master no doubt may interfere and ought to interfere, but it is only in urgent cases.'

It would appear, however, from what has been deduced so far, that the legal relationship between the master and the pilot is based on principles which are contradictory:-

(i) that division of authority is inimical to the safety of navigation.

(ii) that the pilot, by definition, has the conduct of the ship.

(iii) that the master, by definition, has command or charge of the ship, a definition which specifically excludes the pilot.

In order to reconcile these apparent inconsistencies it becomes necessary to:-

(i) differentiate between the expressions 'to conduct a ship' and 'to be in command of a ship'; and

(ii) draw up a code of procedure for vessels under pilotage based upon legal decisions, which defines the respective duties of the master and the pilot.

With regard to the first of these requirements it is evident that confusion as to the difference in meaning between these two terms is not confined to the layman. The words of Bargreave Deane, J., for example, in the case of THE NORD would indicate that he considered the two expressions to be synonymous when he said:-'I think the word 'conducted' means that the pilot is in charge...he is in command.' The Canadian Royal Commission,

however, drew a very careful distinction between the two expressions thus:-

> ''To conduct a ship' must not be confused with being 'in command of a ship.' The first expression refers to an action, to a personal service being performed; the second to a power. The question whether a pilot has control of navigation is a question of fact and not of law. The fact that a pilot has been given control of the ship for navigational purposes does not mean that the pilot has superseded the Master. The Master is, and remains, in command; he is the authority aboard. He may, and does, delegate part of his authority to subordinates and to outside assistants whom he employs to navigate his ship, i.e., pilots. A delegation of power is not an abandonment of authority, but one way of exercising authority.''
>
> With regard to the second requirement, having established that both the pilot and the master have active roles to play, it becomes essential that the duties of both should be clearly defined in order to minimise the dangers which are inherent in the 'divided authority' situation."

G.K. Geen then goes on to analyze and cite British cases pertaining to the general duties of the master and pilot,[30] the legal meaning of interference,[31] keeping a lookout,[32] observance of collision regulations, sound signals, private sound signals,[33] whether to proceed,[34] anchoring, speed,[35] and the use of radar.[36]

From his analysis it is apparent that the British and American law respecting the role and function of a

compulsory pilot are consistent.

He is to be placed in navigational control of the ship and give all orders effecting the navigation of the ship, i.e. rudder orders, courses, speed, anchoring, weighing anchor, whistle signals, and the like. He is entitled to the cooperation of the master and crew and they are to see that his orders are carried out and are not to interfere with his control of the navigation unless the pilot is manifestly incapacitated, incompetent, or placing the ship in clear and imminent danger.

In the "voluntary" pilot situation where the pilot's status is one of an employee the law states that the vessel shall "be under the control and direction of pilots" licensed by the Coast Guard. (The Act of 1871, now found in 46 USC §364). On the surface it would appear he has nearly the same role to play in navigating the ship as a compulsory pilot, but his employee status and relationship with the master interfere with his insistence on effect control. After all, the employee pilot thinks, he and the master are employed by the same shipowner and answerable to the same licensing authority, the Coast Guard. Rightly or wrongly, he feels the master is a fellow employee in a supervisory capacity with the right to interfere with or control his actions and the right to overrule his decisions. The employee has to accept interference and control cheerfully or risk loss of

employment or being banned or refused by that company's ships in the future. There is a tendency to be reluctantly seduced or coerced into situations that wouldn't be tolerated on ships under compulsory pilotage - where the pilot's responsibilities are clear and his role is protected.

THE COMPULSORY PILOT AND MANAGEMENT RELATIONSHIP

On a policy making level, our contacts are limited to national trade associations representing companies that own and operate ships and local trade associations that purportedly represent the shipowner's interests, but in actual fact are representing local port business interests, i.e. stevedoring, terminal operations, warehousing, freight forwarding, ship agencies. etc.

It appears to us that the trade associations see their role as limited to an adversary one. the national association being primarily interested in fostering legislation or governmental regulatory policies that favor their shipowner members and the local associations focusing on competitive costs that may enhance their local businesses. The unfortunate result is that much of the dialogue between representatives of industry and pilots occur over the issues of control

over or cost of pilotage services in an antagonistic climate. The lack of a forum to discuss mutual problems and concerns on a co-operative basis leads to many misunderstandings. The differing perceptions of the role and function of a pilot further compounds the problem.

The pilot sees his role as one of serving a mixture of both private and public interests. His role in expediting the movement of the ship to make schedules, avoiding lost shoreside labor commitments, carrying the optimum cargo capacity through the available channel depths, and protecting the safety of the ship he is aboard are basically serving private industry needs. His role in maintaining a compulsory pilotage system as a public service with public responsibilities has already been discussed.

Not unnaturally, industry representatives place greater emphasis on the private role of the pilot in discussions and tend to perceive the pilot as a quasi-employee of the ship serving a private interest objective. This view leads to a developing trend to speak of the pilot as "a servant of the ship" who functions as "an advisor to the master," and "utilizing" the pilot in

a "team effort" in the navigation of the ship. Such terminology re-enforces the perception of the pilot as serving private needs at the expense of his public responsibilities. The terms convey an impression of the pilot's role and function that is not found in maritime law or in actual shipboard practice.

Our concern over attempts to depict the pilot as an "advisor" to the master is twofold--the first and obvious one is that any attempt to discount our real responsibilities will diminish our standing in the maritime community and weaken our claim to adequate remuneration for our training and responsibilities. Secondly, and of more importance to the public, if the pilot's role can be downgraded to an "advisor" to the team, what happens to his right and duty to refuse to move a ship when the circumstances are unsafe due to inadequate keel clearance, reduced visibility, deficient equipment or crew or any other reasons?

It should be borne in mind that about 80% of the ocean-going ships transiting our inland waters are foreign flag with masters and officers licensed by foreign nations.[37] The control over their conduct and license rests abroad in the governments of Liberia, Panama, Singapore, Korea, Russia, Poland, Turkey, Cyprus and other traditional maritime nations. The only American presence aboard with a sense of obligation

and responsibility to the local community and its political institution is the pilot. When a vessel is under pilotage it may be appropriate for the master to represent the shipowner's private commercial interest and give them high priority. Efforts by shipping management to also claim the pilot's primary loyalty as well should be resisted as inconsistent with his public role. Compulsory pilotage should provide a system of checks and balances between the pilot and the master, between public and private responsibilities, between local and foreign allegiances, that should not be blurred by loose language in discussions of the pilot's role and function.

Another area of potential problems in pilotage, and pilot/management relations, arises from past efforts of management to bring local state pilot licensing under federal, i.e. Coast Guard, control.

Our concern is that the present Coast Guard licensing system is one of "voluntary" pilotage with the pilot in an employee relationship to the shipowner. Federal legislation bringing pilots on ships engaged in foreign trade under the same Coast Guard licensing procedures as "voluntary" pilots on coastwise ships could pre-empt the right of states to license and regulate pilots in a compulsory pilotage system. It could result in pilots on all vessels being reduced to the category

of employee "voluntary" pilots with right of selection and terms and conditions of employment being subject to negotiation with performance, i.e. a higher priority on the owner's economic interests, being a factor. The United States would then become the only major maritime nation without a true compulsory pilotage system where the selection, control, terms and conditions governing pilotage shifts from the state to the shipowner.

Since our investment in pilot stations, our livelihoods, our pensions, our standards of training and professionalism, and the orderly administration of a pilotage system depend upon stability in state regulation; we are disturbed by past efforts of management to upset that stability.

There is a need for a constructive dialogue with shipping management, and it should begin with a discussion of the basic issue of the role and function of the pilot and his traditional status in the maritime community.

LICENSING, TRAINING AND QUALIFICATIONS OF PILOTS

There are three basic routes for becoming a compulsory state licensed pilot:

1.) Straight apprenticeship where the candidate serves his entire time on pilot station vessels and as an apprentice pilot on ships transiting the pilotage district and receives instruction in basic nautical skills and piloting under senior pilots. It is generally a process requiring 5 to 10 years of increasing responsibility before reaching senior pilot status.

2.) Service as a master or employee pilot on inland vessels, such as tugs or river craft, followed by selection and training as a pilot on ocean-going ships for a period of time.

3.) Service as a master or deck officer on ocean-going ships, followed by selection and training as a pilot for a period of time.

Each geographical area seems to have a preference toward one or the other methods of selection and training. Some areas combine methods. The preference is the result of opinion on the best way to learn the peculiarities of the local area and is probably also colored somewhat by the background of the pilots in the area who believe that the best future pilots are those cast in their own image. My state association requires a college degree, preferably a maritime academy education followed by service at sea as an officer, and after selection for training a period of 4 to 6

years of apprenticeship depending on license and experience on entry.

Our selection process includes an eye exam whose standards for uncorrected vision are higher than the Coast Guard permits with the aid of glasses, and an extensive physical exam with any abnormality of any nature or tendency to obesity not being a cause for rejection, it is automatic rejection. Selection includes an interview by a committee of 15 senior pilots with emphasis on control under pressure, motivation, and quality of past experience and performance. Selection is generally based on a combination of age and license held with only those who have raised their license and sought advancement as quickly as possible being considered. Our goal is to recruit the hard driving, aggressive, ambitious young officer who is already on the fast track of advancement in the industry. About one out every 20 candidates interviewed is accepted.

Each method of training has one thing in common, heavy emphasis on "hands on" experience under the guidance and observation of a senior pilot on all types of vessels under a wide variety of conditions and with incremental steps in size of vessel and responsibilities assumed. Federal pilot licensing

by the Coast Guard is accomplished either before entering training or in the early stages of training and is not given much weight as an indication of competency. We require far more observation, training and experience than possession of a Coast Guard license would indicate before we consider an individual pilot qualified to serve without restrictions.

Actual training and licensing consists of intensive exposure to the pilotage environment. The apprentice is scheduled for about 100 hours a week on duty with approximately 50 hours a week on the bridge of ships. He's lucky if he sleeps two nights a week in his own bed, and the divorce rate among married apprentices is high. The routine is purposely exhausting to serve both as a training method and a test of motivation and commitment. After a very short indoctrination the apprentice is expected to actually do the piloting with a senior pilot offering guidance, instructing, and observing how the apprentice handles various situations and stepping in if the apprentice seems to be headed for trouble. The senior pilots compare opinions on the performance of the apprentice and their collective opinion determines if the apprentice is continued in the training program and eventually licensed. If his performance is unacceptable he can be dropped at the sole discretion of the officers

of the association without the need to show cause or offer explanation. If he is licensed it is on the basis of his having actually performed satisfactorily as a pilot under a wide variety of conditions for a number of years under senior pilot observation.

In marked contrast are the Coast Guard federal licensing requirements. Licensing is based on a written examination that the candidate is qualified to "sit for" after a relatively limited number of trips over the route as an observer without provision for "hands on" experience and evaluation by a qualified pilot.

I believe the differing approaches to selection, training and licensing leads to differing views between the state authorities and the Coast Guard on the handling of pilot discipline and accountability.

It appears to us that the Coast Guard approach is to issue a federal license as pilot on the basis of very scanty experience and training with the knowledge that the license holder can only work under his federal license in an employee category and they expect or hope that his employer will act responsibly to screen or determine the actual competency of the newly employed pilot. In the event an employee pilot proves by virtue of a casualty that he is actually incompetent,

the Coast Guard attempts to spur him to greater effort or remove him from the system by suspension or revocation proceedings against his license. It seems to us the emphasis to screen out incompetent personnel occurs after the fact, when it should occur before the fact in more stringent standards on experience and training required for initial licensing.

In our state system licensing is based on observable and proven competency under actual conditions. Every pilot licensed by the State of Maryland has proven without question that he is a competent professional pilot. If a casualty occurs it is the result of "competent error" by a well trained and qualified expert who for some reason couldn't cope with an extraordinary situation. "Incompetent error" caused by lack of training, skills or experience rarely occurs. Under our system, state pilotage authorities are slow to penalize competent error as most cases involve professional judgement and there is a proper reluctance to substitute the local authorities' judgement for the judgement of a competent professional who was on the scene and performing under unknowable pressures.

Of course, if a casualty occurs because of wilful misconduct or inattention to duty, penalties will

follow. But if the casualty results in spite of the pilot's conscientious best efforts penalties will probably not be imposed. Adding a minor additional burden in the form of a suspension will have little effect on the attitude of a pilot already burdened with the fear of financial liability and possible bankruptcy, and looking forward with dread to years of litigation on the issue of fault in the courts. Months will be devoted to analyzing the actions he was forced to take in minutes or seconds.

Competent pilots can, and do, occasionally become incompetent pilots due to physical deterioration or infirmities, alcoholism or other causes. In that event they are, quite frankly, coerced into accepting a disability or retirement pension, hopefully before rather than after a casualty, and their removal from the system should be considered a legitimate cost of a pilotage system.

For the reasons discussed, the statistics on actions taken against pilots by state authorities are not impressive in the Coast Guard's view. As with most professional groups we have an aversion to public executions, and we are ever mindful that actions finding minor fault against a pilot that result in minor penalties can prejudice lawsuits between

shipowners and companies involving many millions. For these reasons I would suggest that compiling a public record of disciplinary actions against pilots is not high on our list of priorities, and the public record is deceptive with more pilots being removed from the system than the record would indicate.

While state standards generally are far higher than the federal pilot standards administered by the Coast Guard, the Coast Guard standards are nevertheless important, as they constitute a minimum standard for state licensing and the only standard for federal licensed "voluntary" pilots on coastwise ships.

The present Coast Guard standards are far too low in terms of experience over the route and recency of service required to obtain and maintain a pilot license, if the license is to be taken at face value as qualifying the holder as a professional pilot of any ship under any conditions. The problem stems from the Coast Guard being required to license under one uniform national regulation "pilots" on Great Lakes vessels; the vessels employed in the vast inland river transportation system; tugs and inland vessels navigating bays, sounds and harbors of the country; masters and officers acting in a collateral role as pilots of their own coastwise ships; and pilots boarding

ocean-going vessels solely to perform pilotage services. The standards applicable for permitting a member of the vessel's permanent complement to navigate his own vessel, where he has an intimate knowledge of the characteristics of the vessel and her crew, are not the standards that should be applied to the professional pilot who boards as a stranger and has to be qualified to take charge of any vessel under any conditions.

Unfortunately, the Coast Guard's licensing procedures don't recognize this distinction, and licensing requirements are set low enough and broad enough to encompass all categories under the same regulation. Because of this least common denominator principle, possession of a Coast Guard pilot license endorsement really says very little about the holder's experience or training.

Compulsory state pilots nationwide are extremely reluctant to have the Coast Guard sit in judgement on their actions. Since the Ports and Waterways Safety Act greatly expanded their role the Coast Guard has been brought into far greater contact with pilots and other ship's personnel, and the demands on their personnel resources have forced the Coast Guard to place greater and larger responsibilities on lower

ranks and enlisted ratings, many of them with very little practical experience and few, if any of them, with merchant ship experience. The net result is that Coast Guard personnel have lost credibility in the industry as competent maritime professionals. The generally held feeling is how can personnel without the education, training and experience of ocean-going merchant ship officers and pilots regulate an industry effectively and knowledgeably? What forms the basis of their judgements and decisions?

There is an understandable resentment of these inexperienced people with vast authority having control over the license of a professional pilot who has decades of education, training and experience in his field. It is universally believed that the appropriateness of sanctions against his license for professional errors will be more a matter of chance than justice.

RECOMMENDATIONS

1. COAST GUARD - LICENSING STANDARDS

Consideration should be given to adopting the British and Canadian practice of distinguishing between a master or other officers employed aboard a ship with collateral duties as pilot of that ship and the professional pilot who boards solely to provide pilotage services over a specific route. This could be accomplished by retaining the term first class pilot for the former and designating the latter as senior pilot. The present Coast Guard written examination for issuance of a pilot license is adequate, but the standards of experience and recency of service requirements should be substantially increased.

In order to qualify and sit for a license as senior pilot the applicant should have instruction and experience obtained by actually acting as pilot under the supervision of a qualified pilot. The number hours of such instruction and experience should depend upon the license the applicant holds. I would suggest the following schedule is not unreasonable:

Master/Chief Officer	1,000 hours
Second Officer	1,500 hours
Third Officer	2,000 hours
Unlicensed	3,000 hours

At least 25% of the hours should be during the hours of darkness.

The experience should include at least 50 round trips over each route for which licensing is sought with at least 25% of the trips occurring during the hours of darkness.

Initial licensing should be limited to vessels of restricted length overall, possibly 600-650 feet L.O.A. On successful completion of at least 1000 hours as pilot of vessels restricted to that length the limitation should be increased to vessels of possibly 750-800 feet in L.O.A. After successful completion of an additional 2000 hours as pilot of vessels limited to this category an unlimited license should be issued.

These standards are below the established practice in my State, and I do not believe them to be too high for a professional pilot. Of course, local conditions, particularly in ports with low traffic volume, may make attainment of these standards impractical. But, they should be considered as the general goal for licensing of professional pilots at major ports with high traffic density.

Vessel length should be the basis for limitation of licenses rather than gross tonnage as length is an immutable indicator of the actual physical size of the ship, while gross tonnage is a measure of the internal volume of the ship and astute naval architects can vary the gross tonnage of vessels of identical dimension with uncanny ability.

2. COAST GUARD - RECENCY OF SERVICE REQUIREMENT

In order to maintain the validity of any class of pilot license, the holder should have recent experience over the pilotage route. If the pilot has not made a trip over the route within the past year he should be required to qualify by making at least one trip over the route as an observer before being permitted to act as pilot in charge of the navigation of a ship. The provision could be self-regulated with a substantial fine if violations come to light after a casualty or from spot checks. Of course, this again has to be a general goal and might only be practical at ports with a reasonable volume of traffic.

3. PERMITTING STATE ACTION ON OIL OR HAZARDOUS CARGO

The law placing exclusive jurisdiction in

the Coast Guard for the licensing of pilots on sea-going coastwise ships found in 46 USC § 364 should be amended to permit states to have concurrent jurisdiction over the licensing of pilots on this category of ship if they are carrying oil or hazardous cargoes that threaten the environment. This would permit the states to protect themselves against the actions of company employee federal pilots who can be coerced into imprudent action, by placing these ships under the protection of state regulated compulsory pilotage.

4. PERIODIC TRAINING

The industry and pilots should arrange for periodic training, not in shiphandling skills that pilots practice daily, but in the areas of understanding the role and function of a pilot, environmental awareness, the impact of new regulations or Colregs, pilotage law, new developments in equipment, etc. Such training requires the support of management to agree to pilotage charges that are needed to maintain a facility and provide for additional pilot complement needed to allow for training time.

5. MASTER-PILOT RELATIONSHIP

The master-pilot relationship on the bridge of a ship underway in pilotage waters is rarely, if ever, the subject of discussion or dispute between the master and the pilot. It seems to arise only in discussions with management ashore in the context of pilot remuneration or who has the responsibility for action, the master or the pilot?

On the bridge the master and the pilot each feel responsible for the safety of the ship. There is undoubtedly some element of ambiguity in their feelings about who will be held responsible if a casualty occurs. I wonder if the interests of safety are not best served by leaving it that way? There is sufficient grief for both if a casualty occurs, and I question if it is in the public interest to define their respective duties so precisely as to relieve either from the necessity of eternal vigilance.

It may be in the public interest to assure safety by spelling out in law or regulation that neither has the sole authority to order the vessel to undertake a passage or continue a passage without the concurrence of the other. As a

practical matter, this is what normally occurs. But with the industry attempting to redefine the role of the pilot as advisory, it might be wise to assure that checks and balances remain in place. If conditions are unacceptable and the margin of safety is questionable, both the master and the pilot should have the right to veto the decision of the other to attempt or continue a passage, and a passage should only be attempted when both have agreed that it is safe and reasonable to do so.

We should avoid discussions or rhetoric from management about ultimate responsibility or authority. Each is ultimately responsible for his own actions to different authorities and with differing consequences. What we should be concerned with is concurrent responsibility and concurrent opinion as to the acceptability of contemplated actions.

6. NATIONAL ACCREDITATION BOARD

If it is felt that an effort should be made to improve the standards of pilotage service on ocean-going vessels entering the inland waters of the United States, consideration should be given to the establishment of a

National Accreditation Board, possibly with representatives such as management, maritime labor, pilots, insurance companies, admiralty attorneys, environmentalists, and the Coast Guard.

The Board could continually review,and when necessary increase,the standards for accreditation as a pilot in any locality on the basis of local conditions. This would recognize that it is difficult to apply a general uniform high standard nationwide, but would allow for the highest practical standards for any locality, and permit increasing those standards periodically, possibly on a "phased in" or scheduled basis.

The standards could include:

1.) Selection and qualifications for entry into training.

2.) Training standards and experience for initial license.

3.) Appropriate limitations on initial licensing and provision for appropriate incremental increases in the limits imposed until unlimited status is attained.

4.) Recency of service requirements and provisions for requalification after an absence from active piloting.

5.) Provision for periodic training courses to expose pilots to new developments in regulations, laws or equipment.

Failure to attain or loss of accreditation could result in sanctions being imposed, i.e. lack of support or opposition to increases or revisions in pilotage rates at hearings before state legislatures or regulatory bodies; or support of the National Board for state action that impose acceptable standards.

Suspension or revocation of accreditation for an individual pilot might follow a casualty in which it can be shown he was incompetent or negligent. The Board might utilize a hearing examiner to determine the facts with the Coast Guard findings of facts being made a part of the record. On the basis of all the evidence, including the opinions of other pilots on the standard of care required under the circumstances, the hearing examiner could submit a recommendation to the Board. If the Board suspends or revokes the accreditation of an

individual pilot and the state regulatory agency or pilot association permits him to act as pilot during the suspension, the association could lose its accrediation with appropriate sanctions being imposed.

Individual state regulatory agencies could make accreditation a prerequisite for acting as pilot on a state license, and would then in effect be adopting the actions of the National Board as their own actions.

While the Coast Guard may be a proper participant in a National Accreditation Board, along with other interests that have a degree of professional expertise, under no circumstances should the Coast Guard be permitted to have sole licensing authority with the power to determine fault after a casualty.

There is a serious conflict of interest between the licensing authority and the various other roles the Coast Guard performs. The Coast Guard maintains and services the aids to navigation that, unfortunately, are sometimes improperly or negligently maintained or serviced in a manner contributing to a vessel casualty. The pilot

is then in the unhappy position of having the Coast Guard proceeding against his license to prove it was the pilot's sole fault and not the fault of the Coast Guard. The Coast Guard has a strong financial interest in succeeding against the pilot for if they fail, the Coast Guard could be held liable for the damages sustained by the ship due to the defective aid to navigation. (see UNIVERSE TANKSHIPS v. U.S., 336 F. Supp. 282 (1972))

The Coast Guard is operating vessels that have collisions with vessels under the control of compulsory pilots. (see the USCG WHITE ALDER and S.S. HELENA collision in the Mississippi River on 7 December 1968 with the loss of 17 lives; and the USCG CUYAHOGA and M.V. SANTA CRUZ collision in the Chesapeake Bay on 20 October 1978 with the loss of 11 lives.) The appearance of a conflict of interest in the Coast Guard sitting in judgement on the cause of collisions to which they are a party, with the right to determine negligence on the part of the pilot that could effect the outcome of substantial lawsuits against the Coast Guard for their own negligence, gives us great concern.

The Coast Guard is operating Vessel Traffic Systems in which they can order vessels to comply with their instructions or issue advice that a pilot can only ignore at his peril. Into the traditional master-pilot relationship a new element has been introduced. The decision making process on the bridge now has to include the unseen, but vocal, disembodied presence of the Coast Guard represented by a junior officer or enlisted rating with little experience but an active participant by virtue of a radio link and the legal authority of the Coast Guard to command compliance with their instructions. When casualties occur in which the Coast Guard VTS personnel may be at fault, the Coast Guard will have a strong self interest in placing the blame elsewhere, probably on the pilot, to avoid the consequences and lawsuits resulting from their own possible negligence.

7. OPERATIONAL PROCEDURES

Operational procedures should not be discussed under the same heading as training and qualifications of pilots, as found in the U.S. proposal to IMCO. The latter refer to the capability of the pilot as an individual, the former refer to interaction with ship's

personnel over whom the pilot has no operational control, indeed, they are strangers to him. Experience has shown us that the best interests of safety are served by the pilot being cooperative with the master and bridge personnel, but he should rely on them as little as possible. If the circumstances permit he should personally assure himself that every order he gives is followed out as given. He should check every course, every rudder order, every engine order on the telegraph and the response of the engines on the tachometer. If the master or bridge personnel wish to maintain a track line, independently determine the ship's position, check all orders given, etc., the pilot will welcome the monitoring and support effort as a back-up to his efforts and as a check against error. But this should not be considered as, or described as "team effort" navigation. The pilot will not find this type of operational procedure in effect on the average ship, he has no right to insist upon it, and should not be held accountable for the failure of the ship's personnel to follow the mandate of either the British or U.S. regulations requiring it. If he does find it, and depends upon it, it loses

its purpose as an independent check. Any requirement placing such duties on ship's personnel should not properly be included in discussions of training and qualifications of pilots as it implies that the pilot might be justified in relying on ship's personnel or might be responsible for the inactions of ship's personnel and both conclusions are clearly erroneous.

REFERENCE NOTES AND ANNOTATIONS

(1) 1.1 In a case where a shipowner stubbornly refused to acknowledge the effect of pilotage laws, a federal court judge was moved to comment:

"To be sure, state compulsory pilotage is not a body of law familiar to most legal practioners, much less one at the forefront of public attention. Yet it is not a particularly difficult body of law. Indeed, unlike the state of flux that characterizes many areas of contemporary law, pilotage law is remarkably straightforward and firmly established."

Jackson v. Marine Exploration Co. Inc., 583 F.2d 1350 (1978)

(2) 2.1 In a case discussing state pilotage laws the Supreme Court of Oregon stated:

"It appears from the report to Parliament that some form of control over pilotage had existed in England and other European countries since about the 14th century.

In the United States, Massachusetts adopted laws regulating pilotage as early as 1783. Some of the other states adopted regulatory laws shortly after Congress, in 1789, specifically provided that the states should exercise control over most of the forms of pilotage."

Powell v. State, 355 P.2d 227 (1960)

2:2 In a British decision the court stated:

"This doctrine of compulsory pilotage is an enacted doctrine no doubt. It was not enacted for the protection only of ships; it was enacted for the protection of ports; of commercial ports in particular because if a vessel is wrecked and lost and sunk near to the entrance, or within the entrance of a commercial port, she is not only lost herself, but she is a great danger and obstruction to the port and to other vessels, and would interfere with the commercial business of the port."

The Charlton, 8 Asp. M.L.C. 29 at p. 29 (1895)

2.3 In a general discussion of the law of pilotage a leading legal encyclopedia states:

"The various states of this country possessing harbors have enacted laws requiring vessels approaching their ports, with certain exceptions, to take on board pilots duly licensed under the local law, or in case of refusal, to pay pilotage fees, as if the service had been received and rendered, to the qualified pilot who first tenders his services.....

The purpose of these laws is to insure at all times a due supply of men well qualified by skill, knowledge, and experience to protect vessels entering ports and harbors from the dangers of navigation, by holding out to such men sufficient inducements to prepare themselves for the discharge of their duties and to pursue a business attended with so much of peril and hardship."

70 Am Jur 2d, Shipping, §61

(3) 3.1 "The profession or employment of pilot has existed from the earliest times, and laws have been enacted in every nation engaged in commerce regulating and protecting pilots. Such laws are to be classed under the head of maritime law, pilotage being a subrodinate but highly useful branch thereof; and statutory provisions with relation thereto are entitled to a liberal construction in order to give full efficiency to laws especially designed to promote the interest of commerce, and to protect the lives and property of the citizens engaged in it."

70 Am Jur 2d, Shipping, §54

(4) 4.1 An early Supreme Court decision commented:

"When the government of the Union was brought into existence it found a system for the regulations of its pilots in full force in every state."

Gibbons v. Ogden, 9 Wheat, 207

(5) 5.1 In one of the first Supreme Court decisions on the effect of the commerce clause of the Constitution it was found:

"The act of 1789 contains a clear and authoritative declaration by the first congress that the nature of this subject is such that until congress should find it necessary to exert its powers, it should be left to the legislation of the states; that it is local and not national; that it is likely to be the best provided for, not by one system or plan of regulations, but by as many as the legislative discretion of the several states should deem applicable to the local peculiarities of the ports within their limits."

Cooley v. Board of Wardens, 12 HOW (US) 299, 13 L.Ed. 996

5.2 In discussing the constitutionality of state pilotage the general law has been stated as:

"When the Constitution of the United States was adopted, each state had its own regulations of pilotage, and instead of superseding these in the exercise of its supreme power over the subject, Congress has provided that all pilots in the bays, inlets, rivers, harbors, and ports of the United States shall continue to be regulated in conformity with the existing laws of the states respectively wherein such pilots may be, or with such laws as the states may respectively enact for the purpose until further legislative provision shall be made by Congress. It has been stated that this statute adopts the existing state systems, giving them the same validity as if their respective provisions had been specially enacted by Congress, and it leaves to the several states and territories of the United States the power to legislate in the future upon this subject, and to prescribe rules for the licensing and government of pilots, the collection of their fees, and such other incidental matters as the nature of their services in the particular localities may require. The statute was passed in recognition of the propriety of local action in respect of pilotage because of the local necessities of navigation, and it operates not as a congressional grant of power to the states, but as a mere legislative recognition of their

concurrent authority to regulate pilotage until Congress shall act. In general, state pilotage laws have not been superseded by the passage of the various federal statutes regulating shipping, even though these contain certain provisions relating to pilots. However, it should be noted that the Ports and Waterways Safety Act of 1972 provides, inter alia, that the Secretary of the Department in which the Coast Guard is operating (presently the Secretary of Transportation) may require pilots on self-propelled vessels engaged in the foreign trade in areas and under circumstances where a pilot is not otherwise required by state law to be on board, until the state having jurisdiction of an area involved establishes the requirement for a pilot in that area or under the circumstances involved."

70 Am Jur 2d, Shipping, §56

5.3 The Act of Aug. 7, 1789 is now contained in 46 USC §211:

"Until further provision is made by Congress, all pilots in the bays, inlets, rivers, harbors, and ports of the United States shall continue to be regulated in conformity with the existing laws of the States respectively wherein such pilots may be, or with such laws as the States may respectively enact for the purpose."

(6) 6.1 The Federal Court for the Southern District of Florida stated:

"Since the organization of the state government no less than 25 acts have been passed upon this subject, and by a large majority of these local boards have been given full and complete powers to make rules and regulations, establish rates and change the same, as deemed best; and under them full power in regard to compensation has been claimed and exercised. In no case has the right to fix rates been held to be separate from the question of compulsory pilotage, nor has either question been passed upon or treated separately."

The Chase, 14 F. 857 (1882)

(7) 7.1 The Act of Feb. 28, 1871 is now contained in 46 USC §364:

"...and every coastwise sea-going steam-vessel subject to the navigation laws of the United States, and to the rules and regulations aforesaid, not sailing under register, shall, when under way, except on the high seas, be under the control and direction of pilots licensed by the inspectors of steamboats (Commandant of the Coast Guard or Commissioner of Customs)."

(8) 8.1 In a case concerning a suit against a pilot for damages a shipowner had to pay due to the acts of the pilot it was said:

"A licensed pilot, enjoying the emoluments of compulsory pilotage, is quite in a different class from an ordinary employee. He assumes to have a skill and a knowledge in respect to navigation in the particular waters over which his license extends superior to and more to be trusted than that of the master, and from the moment he begins his duty he takes command and supersedes the master in respect to the navigation. His remuneration is fixed by law, and is proportionate to his responsibility, and his liability for neglect or want of skill must be in a similar proportion."

Guy v. Donald, 157 F. 530 (1907)

(9) 9.1 "In some jurisdictions, on a consideration of pertinent statutes, a pilot has been regarded as a public officer, that is to say, as a state officer, whose office is created by the legislature in the exercise of the police power for the general welfare. In other jurisdictions the view has been taken that a pilot is not a public officer. In any event the office of a pilot is so far public as to be subject to regulations.

The rights, privileges, and powers which are vested by law in a pilot are franchises."

70 C.J.S. Pilots, §1(b)

9.2 "The liabilities and rights as between the pilot and the vessel are determined by the sort of pilot the man is. The federally licensed pilot is ordinarily an employee of the coasting ship and the rights and liabilities between him and the owner are those applicable to a member of her ship's company.

The state pilot is usually paid on a fee basis and he has the owner's liability in personam, and also a lien on the ship, for his fees.

The local pilot is entitled to the fees which the state statutes give him. They may be considerable. The federal pilot is usually a salaried man."

Robinson on Admiralty, p. 694

9.3 "Since 1805 Louisiana pilots have been State officers whose work has been controlled by the State.

Thus in Louisiana, as elsewhere, it seems to have been accepted at an early date that in pilotage, unlike other occupations, competition for appointment, for the opportunity to serve particular ships and for fees, adversely affects the public interest in pilotage."

Kotch v. Pilot Comm'rs., 330 US 560 (1947)

9.4 In discussing the justification of compulsory pilotage the Royal Commission commented:

"From the service point of view, pilotage has been defined as the ultimate means to enhance safe and speedy transit of ships through confined waters. It is a public service in the full sense of the word when it is controlled, maintained or provided primarily to serve the superior interests of the State; it is a private service when its main purpose is to serve private needs, but safety remains the principal aim in both cases: in the former, "safety or navigation" through Canadian waterways; in the latter, "safety of the ship", including safety of privately owned port installations."

Canada, Report of Royal Commission on Pilotage, Part 1, p 473 (1968)

(10) 10.1 "The coastwise steamer pilot is ordinarily one of the ship's officers. He is not "compulsory" in the sense that the state pilot has been held to be in several cases where the status of the state pilot has been fought over. In these the owner seeks to establish that he was "compulsory" and insists that as he was "compulsory" there is no respondeat superior and the ship owner is not personally liable. The courts have agreed with the conclusion once the "compulsory" character is found."

Robinson on Admiralty, p. 702

(11) 11.1 "If the pilot charges seem heavy the pilot's responsibilities are great, and it must also be recalled that his job is often one of great hazard. Come wind come weather he boards incoming ships at sea and he leaves outgoing vessels outside the shelter of harbors. And he does both by small boats."

Robinson on Admiralty, P. 695

(12) 12.1 In considering the status of pilots in a landmark decision, the U.S. Supreme Court stated:

"Studies of the long history of pilotage reveal that it is a unique institution and must be judged as such. In order to avoid invisible hazards vessels approaching and leaving ports must be conducted from and to open waters by persons intimately familiar with the local waters. The pilot's job generally requires that he go outside the harbor's entrance in a small boat to meet incoming ships, board them and direct their course from open water to the port. The same service is performed for vessels leaving the port. Pilots are thus indispensable cogs in the transportation system of every maritime economy. Their work prevents traffic congestion and accidents which would impair navigation in and to the ports. It affects the safety of lives and cargo, the cost and time expended in port calls, and, in some measure, the competitive attractiveness of particular ports. Thus, for the same reasons that governments of most maritime communities have subsidized, regulated, or have themselves operated docks and other harbor facilities and sought to improve the approaches to their ports, they have closely regulated and often operated their ports' pilotage systems.

The object of the entire pilotage law, as we have pointed out, is to secure for the State and others interested the safest and most efficiently operated pilotage system practicable."

Kotch v. Pilot Comm'rs., 330 US 557 (1947)

12.2 In a case where the ship struck a dike a federal court stated:

"The purpose of requiring a vessel to take a pilot is to have her in charge of a competent person, familiar with particular waters. When on board he is temporarily in charge of her whole navigation, including the duty of determining her course and speed, and the time, place, and manner of anchoring her. The master is not entirely absolved of responsibility when a pilot is in charge, but before he is justified in displacing him he should be sure that the pilot is for some reason incompetent.....the navigation of the ship was primarily in charge of the pilot, and, while the master had the right, if he deemed him incompetent and circumstances warranted it, to displace him, he was not under the absolute duty to do so, but was entitled to exercise his sound discretion. Whether he should have displaced him, on the facts shown, was not a matter of law for the court, but was a question to be determined by the jury on all the facts and circumstances of the case."

Dampskibsselskabet Atalanta A/S et al v. U.S. 31 F. 2d 962 (1929)

12.3 In a case where a ship attempted a transit without a pilot and a casualty resulted, the federal court found:

"There are very few published decisions on the question of whether a local pilot is necessary to complete the proper manning of a vessel when she leaves port. This is probably because pilotage is so universally customary and so generally compulsory at all ports of any importance throughout the world that very few vessels enter or leave a harbor without taking a pilot. The rule announced by the text-writers and supported by some earlier decisions, in substance, is this: Where pilotage is customary at a port, a pilot is available, and the nature of the navigation requires one, it is a breach of the warranty of seaworthiness if a pilot is not taken..... The rule is supported by sound reason. A pilot is employed because he is presumed to have

knowledge of the tides and currents and their effects upon the ship and of all other dangers affecting the safety of the vessel due to local conditions. The master, however competent he might be to navigate his ship in the open waters of the ocean, would not be expected to have this knowledge. It is apparent that it would be as hazardous for a ship to attempt to follow a dangerous channel to sea without a competent hand on the tiller as it would be if the steering gear was defective."

The Framlington Court 69 F2d 304 (1934)

12.4 "A study of foreign pilotage legislation will show that compulsory pilotage in many countries exists broadly for one of the following reasons:

(i) for the protection of life and property on board ships, and of harbour entrances and port installations. In such cases it is a statutory offence not to take a pilot and in some cases it is such an offence to interfere with the pilot, as for example in certain parts of Germany.

(ii) for the financial support of the pilotage service, as for example in Holland."

The Law of Pilotage p. 32

(13) 13.1 In a suit against a pilot for damages sustained by the ship he was piloting, the federal court found:

"He was charged with the safety of the vessel, and bound to use due diligence and care and reasonable skill in the exercise of his important functions. He is answerable if the vessel suffered damage through his negligence or want of skill while she was under his control..... The skill required of a pilot is the ordinary care of an expert in his profession. When in charge of navigation, he supersedes the master, and is liable for negligence."

The Dora Allison 213 F. 646 (1914)

(14) 14.1 In a case where the ship struck a bridge the federal court commented on the pilot-shipowner relationship as follows:

"There is no dispute that the ship's use of the pilot in our pending case was compulsory. It is well settled that the owner of a vessel is not liable, personally, for the negligence of a compulsory pilot because the element of compulsion eliminates the 'respondeat superior nexus' which would normally serve as a basis for imputing a pilot's negligence to the ship owner.

However, it has also been held, since the Supreme Court's decision in The China, 7 Wall (U.S.) 67 that, notwithstanding personal non-liability of the ship owner in such a case, the ship itself remains liable 'in rem' for damages arising out of a collision due to the pilot's negligence-even though the use of the pilot is compulsory.

Harrison v. Hughes, 125 F. 860, citing The China and its progeny, succinctly states its rule and the theory upon which it is based:

> '. . .It is admitted that, at common law, no action can be maintained against the owner of a vessel, for the fault of a compulsorily taken pilot, as, in such case, the pilot is in no sense the agent or servant of the owner; but, although the same doctrine holds in England, both at common law and in admiralty, a different view of the liability of the ship is taken in admiralty cases in this country.
>
> . . .The theory of the admiralty law in this country in such cases, is that the collision impressed upon the wrongdoing vessel a maritime lien, which the vessel carries with it into whosesoever hands it may come. The vessel is treated, according to this theory, as the guilty thing. It is the res, to which fault is imputable, and which is held to respond in damages. The responsibility of the owners, as owners, and the law of agency, as applicable to the employment of a pilot, do not come into consideration.'"

Calif. v. M. V. Ilice, 534 F. 2d 841 (1976)

(15) 15.1 In an early Supreme Court case testing the validity of compulsory pilotage laws the court stated:

"Like other laws they are framed to meet the most usual cases, 'quae frequentius accidant'; they rest upon the propriety of securing lives and property exposed to the perils of a dangerous navigation, by taking on board a person peculiarly skilled to encounter or avoid them; upon the policy of discouraging the commanders of vessels from refusing to receive such persons on board at the proper times and places; and upon the expediency, and even intrinsic justice, of not suffering those who have incurred labor, and expense, and danger, to place themselves in a position to render important service generally necessary, to go unrewarded because the master of a particular vessel either rashly refuses their proffered assistance, or, contrary to the general experience does not need it."

Cooley v. Board of Wardens, 12 How. (U.S.) 299, 13 L Ed. 996 (1851)

(16) 16.1 In a case involving a "voluntary" pilot the federal court stated:

"The pilot was placed in charge of the Seekonk by the master and not by the law. and the rights and obligations of the parties must be determined by reference to the relation thus established."

Los Angeles v. Standard Transp. Co., 32 F. 2d 990 (1929)

(17) 17.1 In an excellent legal opinion prepared by a Coast Guard legal officer it states:

"Because of this delicate balance between the authority of the master and the liability of the owner, the case law dealing with the relationship between the master and the pilot is often confusing and sometimes appears contradictory. As a general rule, it may be stated that it is discretionary with the master whether to remove the pilot. The

master has the same power to remove the pilot that he has to remove any subordinate officer and this power becomes a duty to interfere in a case of the pilots intoxication or manifest incapacity, in cases of danger unforeseen by the pilot, or in cases of great necessity. The China, 74 U.S. (7 How.) 53, 19 L. Ed. 67 (1868) But the pilot is more than a mere subordinate to the master and, while on his pilotage grounds, is a temporary master, for the time being in command of the navigation of the ship and his orders must be obeyed in all manners connected with her navigation. The Oregon, 158 US 186, 39 L Ed. 948; Ralli v. Troope, 157 U.S. 386, 39 L. Ed. 742; Cooley v. Board of Wardens, 53 U.S. (12 How.)299, 13 L. Ed.996 (1851) He is, in a sense, a master pro hac vice and gives all orders and directions as to speed, course, stopping, and other matters regarding vessel navigation. Guy v. Donald, 157 F. 527, although a master may relieve a pilot, he does so at his peril and with regard to certain matters within the peculiar province of the pilot he must not interfere unless the master sees that the pilot is plainly misgoverning the situation. Union Shipping and Trading Company v. U.S., 127 F. 2d 771 (2nd Circuit 1942). The exercise of the masters power to relieve the pilot rests within his sound discretion and is determined by the factual situation. U.S. v. Westervelt, 135 F. Supp. 596 (SDNY 1956) Further, the master, in waters unfamiliar to him, is entitled to rely on the knowledge and skill of a pilot and is not bound to overrule him. The master should not substitute his judgment for that of the pilot except in cases of clear and obvious danger. Waterman Steamship Company v. U. S. 304 F. Supp. 401 (W.D. Washington 1969); Barbey Packing Corp. v. Stavros, 169 F.Supp. 897 (O. Oregon 1959) It has been repeatedly held that a ships officer is not negligent in failing to intervene unless the pilot is doing something obviously dangerous. Park Steamship Co. v. City Services Oil Co., 188 F. 2nd 804 (2nd Circuit)(1951).

This principle is particularly well settled and of long standing with regard to matters based on the special knowledge of the pilot regarding local conditions. The pilot has sole direction of the vessel in those respects where his local knowledge is presumably required such as the course, speed, and manuevering of the vessel. Baron Parke in The Christina, 7 Moore, Privy Concil 160, 172 (1850) cited in

Union Shipping and Trading Company v. U. S. Supra at 1775). In some cases, the masters "power" to relieve the pilot has been severly circumscribed and it has been stated that the master has no right to interfere with the pilot without ample justification, the navigation of the ship being taken out of the hands of the master and transferred to the pilot. The Oregon, 158 U.S. 186 39 L. Ed. (1943).

It is thus apparent that the popular misconception that a pilot is a "mere advisor" to the master is without substantial foundation in the law. While the master is still the master and in overall command of the ship, and does have the power to relieve the pilot, he may do so only at the substantial peril of exposing himself and the owner of the vessel to far ranging liability. For purposes of administering the Ports and Waterways Safety Act, it is readily apparent that the pilot is indeed in control of the operation and navigation of a vessel both in practice and under admiralty law. It is significant to note, that while a master has been found negligent in many cases for acting improperly to relieve a pilot, for acting improperly after relieving a pilot, or for failure to relieve a pilot, pilots themselves have been held almost universally accountable for their own improper actions. Attempts to relieve themselves of liability by alleging that they were not actually in control and that the sole responsibility for the navigation of the vessel rested with the master have been of no avail."

U. S. Coast Guard Legal Memorandum, P. E. Versaw, 13th Coast Guard District Legal Officer, 13 April, 1977

(18) 18.1 In a rare state court case involving maritime law the New York Supreme Court wrote the following excellent description of the duties of the pilot and master:

"Where a compulsory pilot is in charge of a ship, the master being required to permit him to navigate it, if the master observes that the pilot is incompetent or physically incapable, then it is the duty of the master to refuse to permit the pilot to act. But if no such reasons are present, then the master is justified in relying upon the pilot, but not blindly. Under the circumstances of this case, if a situation arose

where the master, exercising that reasonable vigilance which the master of a ship should exercise, observed, or should have observed, that the pilot was so navigating the vessel that she was going, or was likely to go, into danger, and there was in the exercise of reasonable care and vigilance an opportunity for the master to intervene so as to save the ship from danger, the master should have acted accordingly. Of course, where danger is suddenly sensed, too late for action by the master, the master's failure to act cannot be charged against the ship. Whether a particular situation calls for action rests in sound judgment, for on some occasions to interfere might be more dangerous than noninterference, or there might be justifiable expectation that the pilot, through his own capacity and superior skill and knowledge, would be able to draw the ship away from the danger zone. These are questions of fact for a jury."

Hinman v. Moran, 268 N.Y.S. 410 (1934)

18.2 "Generally speaking, the pilot supersedes the master for the time being in the command and navigation of the ship, and his orders must be obeyed in all matters connected with her navigation. He becomes the master pro hac vice, and should give all directions as to speed, course, stopping and reversing, anchoring, towing, and the like."

70 Am Jur 2d, Shipping, § 191

(19) 19.1 The Supreme Court in discussing the pilots role in maritime commerce stated:

"Now, a pilot, so far as respects the navigation of the vessel in that part of the voyage which is his pilotage-ground, is the temporary master charged with the safety of the vessel and cargo, and of the lives of those on board, and intrusted with the command of the crew. He is not only one of the persons engaged in navigation, but he occupies a most important and responsible place among those thus engaged."

Cooley v. Board of Wardens, 12 HOW (US) 299 13 L Ed. 996 (1851)

19.2 In a later Supreme Court decision the role of the pilot was affirmed:

"To the pilot, therefore, temporarily belongs the whole conduct of the navigation of the ship, including the duty of determining her course and speed, and the time, place and manner of anchoring her....But the master still has the duty of seeing to the safety of the ship, and to the proper stowage of the cargo. For instance, the duty to keep a good lookout rests upon the master and crew."

Ralli v. Troop, 157 US 386, 15 S. Ct. 657 (1894)

19.3 In a case involving the role of the pilot the Supreme Court of Washington commented:

"A pilot while in charge of a ship supersedes the master, in so far as the navigation of the vessel is concerned, but the master is at all times in command, and may and should advise with the pilot, and can displace him in case of intoxication or manifest incompetence. Any power of command exercised by the pilot is limited to the navigation of the ship.... 'While exercising his functions a pilot is in sole control of the navigation of the ship, and his orders must be obeyed as in effect orders of the master. But the master is still in command of the vessel, as distinguished from its navigation, and may properly displace an obviously incompetent or intoxicated pilot, although he is not bound to do so unless the pilot is making an obvious mistake.' ...As to the relative duties of the pilot and the master, it is the law that the pilot does not assume command of the ship. 'No ship is large enough for two captains.' Hughes on Admiralty (2d Ed.) p.36. The pilot becomes navigating officer, and the master should not interfere unless it is plain that the pilot is reckless or incompetent; but the pilot is not in command in the sense that he supersedes the master.... 'In one respect the decisions in relation to pilots run counter to common law ideas on the subject of agency. It is a principle of the law of agency that the foundation of the master's responsibility for the acts of his agent is the right of selection and control. Yet the American courts hold that a vessel is responsible to third parties for unjuries arising from the negligence of the pilot, though he came on board against the will of the master under a state statue of compulsory pilotage... 'The reason why the vessel is held liable is that

admiralty looks on the vessel itself as a responsible thing, and that under the ancient laws relating to pilots the responsibility was one which attached to the vessel itself, irrespective of ownership, it being thought unjust to require injured third parties to look beyond the offending thing to questions of ownership or control."

Grays Harbor v. The Brimanger, 18 P. 2d 29 (1933)

19.4 A leading authority on Admiralty law wrote:

"The pilot when he takes over his duties aboard the vessel supersedes the master, for the time being, in the command and navigation of the ship, and his orders must be obeyed in all matters connected with her navigation. The master is not wholly absolved from his duties while the pilot is on board and may advise with him and even displace him in case he is intoxicated or manifestly incompetent. The master is still in command of the vessel, except so far as her navigation is concerned, and is bound to see that there is a sufficient watch on deck and that the men are attentive to their duties.

The master has the same power to displace the pilot that he has to remove any insubordinate officer of the vessel. He may exercise it or not, according to his discretion."

The Law of Seaman, 3rd Edition, §532, Martin J. Norris, The Lawyers Co-Operative Publishing Co.

(20) 20.1 Judge Lerned Hand discussed the history of the role of the pilot:

"It is of course true that a master does not surrender his ship to a pilot and that there remain occasions when he must interfere and even displace him. The first case, so far as we know, came up in England in 1847, soon after the compulsory pilotage act was passed. The Gipsey King, 2 W. Roginson 537. It chanced to concern the proper catting of an anchor on a vessel in charge of a pilot, and Dr. Lushington, in excusing the owner because the catting was the pilot's spoke as follows (p. 547): 'It is, I apprehend,

an established principle of law that the mode, the time, and place of bringing a vessel to ar anchor, is within the peculiar province of the pilot who is in charge.' Only three years later the Privy Council, speaking through Baron Parke (The Christiana, 7 Moore P.C. 160, 172), said of a compulsory pilot: 'It was his sole duty to select the proper anchorage-place, the mode of anchoring and preparing to anchor.' And still earlier on the same page: 'The Pilot has, unquestionably, the sole direction of the vessel in those respects where his local knowledge is presumably required; the direction, the course, the manoeuvres of the vessel, when sailing, belong to him.' In 1857 Dr. Lushington in The Argo, Swabey, 462, announced the limitation upon this which is generally accepted and which the Supreme Court recognized obiter in The China; and again in somewhat truncated form in The Oregon. It was this: 'a master has no right to interfere with the pilot, except in cases of the pilot's intoxication or manifest incapacity, or in cases of danger which the pilot does not foresee, or in cases of great necessity.' He said further. 'The navigation of the ship is taken out of the hands of the master and transferred to the pilot.'

Union Shipping v. U.S., 127 F. 2d 775 (1942)

20.2 In a suit against the pilot brought by a shipowner for damages sustained when his vessel struck a dock while attempting to berth, a Federal court discussed the duties of the pilot and master in the following terms:

"Having found that the pilot placed the vessel in such a position as to constitute an immediate threat of danger both to herself and to the Barbey Dock, and having determined that the subsequent harm done was a result of the pilot's action, does this of itself fasten liability upon the pilot and absolve the vessel? It is settled law that the fact that a pilot was on board the vessel does not release the ship's master from his duties. The master still remains in command of his vessel and retains the authority to control the actions of the pilot to assure the safety of his ship and to avoid any imminent danger.... The courts have held that the master not only retained the power, but had the duty to interfere in all cases of necessity or danger and to displace the pilot.... The earlier cases,

in speaking of the master removing the pilot, were concerned only with situations where it appeared the pilot was intoxicated or manifestly incompetent.... Later cases have appeared to hold the master to a higher degree of responsibility than the earlier courts contemplated....The master's duty to relieve the pilot rests within the master's sound discretion, and can only be viewed in light of the surrounding factual situation....In light of the obvious confusion that would exist on a vessel if, on his slightest whim, the master would countermand the pilot's order, the master to insure the safety of his command should exercise his power to remove the pilot discriminately. The master ought not to substitute his judgment for that of the pilot except in cases of obvious danger, or where danger is apparent and avoidable."

Barbey Packing v. The Stavros, 169 F. Supp. 901 (1959)

20.3 In speaking of the problems for the master under established pilotage law a leading Admiralty authority stated:

"The relation of pilot and master is an unhappy one for the master. He must see that the pilot's orders are carried out. If he does not check the pilot he forfeits his owner's 'compulsory pilot' defenses. But if he interferes so far that it can be said that he removes the pilot he exposes his owner to whatever liability there would be, in the circumstances, if no pilot were on board."

Robinson on Admiralty, p. 696

(21) 21.1 In discussing human factors and their impact on ship casualties Mr. W. O. Gray of Exxon Corporation stated:

"High Level of Calculated Risk - Calculated risk is defined for this report as knowing acceptance of risk in operational situations to meet personal or corporate priorities. The acceptance of risk was found by the Panel to be a significant causal factor in merchant marine casualties.

The in-depth survey provided several instances where risk taking contributed to a casualty or near-casualty. For instance, when asked to select among 12 criteria used by companies for grading a captain's performance, 40% of those responding to the question

indicated that making schedules was the prime criterion. When asked how companies feel about meeting schedules in poor conditions, 50% of those responding said that there was strong pressure to meet schedules. Almost all of those responding reported sailing on a ship that they personally knew to be unseaworthy.

Perhaps the most revealing disclosure from the interviews was that of a company that in 1969 dropped a safety program that offered a good bonus to tugs and crews with the least accident claims, because the program resulted in decreased productivity and a slowdown in task completion."

Oil Companies International Marine Forum, Safe Navigation Symposium, Session 2, Paper No. 3, Human Factors by W. O. Gray. Presented at Washington, D. C. 17 - 18 January, 1978

(22) 22.1 In another Supreme Court decision relating to the role of the pilot it was held:

"The liability of the owner at common law for the act of a pilot on his vessel is well stated by Mr. Justice Story in his Treatise on Agency, 2d ed. § 456a: 'The master of a ship, and the owner also, is liable for any injury done by the negligence of the crew employed in the ship. The same doctrine will apply to the case of a pilot employed by the master or owner, by whose negligence any injury happens to a third person or his property; as, for example by a collision with another ship, occasioned by his negligence. And it will make no difference in the case that the pilot, if any is employed, is required to be a licensed pilot; provided the master is at liberty to take a pilot, or not, at his pleasure; for in such a case the master acts voluntarily, although he is necessarily required to select from a particular class. On the other hand, if it is compulsive upon themaster to take a pilot, and a fortiori, if he is bound to do so under a penalty, then, and in such case, neither he nor the owner will be liable for injuries occasioned by the negligence of the pilot; for in such a case the pilot cannot be deemed properly the servant of the master or the owner, but is forced upon them, and the maxim, 'Qui facit per alium facit

per se', does not apply.'

The answer to the second question must therefore be that in an action at common law the shipowner is not liable for injuries inflicted exclusively by negligence of a pilot accepted by a vessel compulsorily."

Homer Ramsdell v. La Compagnie Generale Transatlantique, 182 US 1161 (1901)

22.2 In a recent case where the ship struck a dry dock the court absolved the master and crew in the following language:

"We also uphold the District Court's finding that 'the Captain and crew of the Hong Kong Clipper were not guilty of any negligence contributing proximately to the collision,' since the ship was under the sole command of Pilot Jenkins throughout the period with which we are concerned here."

Latex Construction Co. v. Jacksonville Shipyards, Inc., 442 F. 2d 452 (1971)

(23) 23.1 In a case involving damages caused by the acts of a "voluntary" pilot a federal court held:

"The first question is whether Aultman was a noncompulsory pilot. If so, he was in much the same position as one of the ship's officers. Under the ordinary rules of respondeat superior, the shipowner would be responsible for Aultman's actions. If, on the other hand, the district court had concluded that pilotage was compulsory, the respondeat superior nexus would have been broken, and APL would not be personally liable for the results of the pilot's negligence.... Because of the voluntary nature of the pilotage, and the availability of trip insurance at a nominal cost, the provisions of the tariff of the Port of Long Beach exculpating the pilot and his employers from liability are valid and enforceable."

U.S. v. S.S. President Van Buren, 490 F. 2d 506, 509 (1974)

23.2 In discussing the effect of exculpatory agreements a legal authority on the subject has written:

"The pilot associations in Oregon (which has voluntary pilotage only, i.e., either the master or the owner of the vessel is privileged to pilot the vessel and need not hire a pilot), have adopted an ingenious system which has been sanctioned, insofar as it is legally permissible to do so, by the Oregon State Legislature. The system adopted is on the theory that state pilotage rates must directly reflect the cost to the pilots of doing business; consequently, if they must pay rather high premiums to procure adequate insurance to protect themselves against a high degree of liability, the pilotage rates would necessarily have to be increased. Since all vessel owners carry P & I insurance on their vessels, which insurance protects the vessel owner with respect to negligenee of the pilot aboard it, if the pilots likewise carry liability insurance, the vessel owner is paying for his liability coverage twice-first in connection with the P & I premium and second in paying an increment in the pilotage fee to reflect the cost of liability insurance for the pilot."

Law of Tug, Tow and Pilotage, p. 484

23.3 "Aside from moral considerations which should preclude a shipowner from attempting to disavow a contract freely entered into by which he consents to accepting as his own employe a harbor pilot who is 'loaned' to him, there are highly presuasive economic reasons why shipowners should, in their own enlightened self-interest, concede the validity of pilotage clauses and proceed with caution in attempting to have them declared invalid or inapplicable.

For example:

(1) It must be remembered that literally every ship being piloted has already procured P & I insurance insuring the liability of its owner to third parties for negligent acts of its master, crew and pilots. If the 'loaned employe' status of the harbor pilot is to be ignored, then the tug company, both with respect to its assisting tugs and its 'loaned'harbor pilot, must procure insurance in an amount equal to the full value of the largest vessel handled and her cargo. The cost of such insurance necessarily must be included in the ship assistance rates charged, in which case vessel

owners will be paying twice for insurance against the same risks."

(24) Canada, Report of the Royal Commission on Pilotage, Part 1, p. 22

(25) 25.1 Ibid, p. 23 and 24

25.2 A legal reference defines "conduct" as follows:

"Conduct (verb): A regulation having statutory force which provides that a ship is to be conducted by a pilot does not mean that she is to be navigated under his advice; it means that she must be conducted by him, and that makes pilotage compulsory"

Words and Phrases Legally Defined, Second Edition, Saunders

(26) Canada, Report of the Royal Commission on Pilotage, p. 30 and 31

(27) 70 C.J.S., Pilots § 14

(28) 28.1 In a case where the master and officers left the bridge to the pilot to retire and the only ship's personnel on watch were unlicensed seaman assisting the pilot the Supreme Court stated:

"Nor are we satisfied with the conduct of the master in leaving the pilot in sole charge of the vessel. While the pilot doubtless supersedes the master for the time being in the command and navigation of the ship, and his orders must be obeyed in all matters connected with her navigation, the master is not wholly absolved from his duties while the pilot is on board, and may advise with him, and even displace him in case he is intoxicated or manifestly incompetent. He is still in command of the vessel, except so far as her navigation is concerned, and bound to see that there is a sufficient watch on deck, and the men are attentive to their duties. The Iona, R. 1. P.C. 426.

In The Batavier, 1 Spinks, 378, 383, it was said by Dr. Lushington: 'There are many cases in which I should hold that, notwithstanding the pilot has charge, it is the duty of the master to prevent accidents, and not to abandon the vessel entirely to the pilot; but that there are certain duties he has to discharge (notwithstanding there is a pilot on board) for the benefit of the owners.' In an official report made by a maritime commission in 1874, the Elder Brethren of Trinity House are said to have expressed the opinion 'that in well-conducted ships the master does not regard the presence of a duly licensed pilot in compulsory pilot waters as freeing him from every obligation to attend to the safety of the vessel, but

that, while the master sees that his officers and crew duly attend to the pilot's orders, he himself is bound to keep a vigilant eye on the navigation of the vessel, and, when exceptional circumstances exist, not only to urge upon the pilot to use every precaution, but to insist upon such being taken.' Marsden on Collisions."

The Oregon, 158 US 194 (1894)

(28) 28.2 "The rule stated in the case of Homer Ramsdell Co. v. Com. Gen. Trans., to the effect that in actions at common law the shipowner is not liable for injuries inflicted exclusively by negligence of a pilot accepted by a vessel compulsorily, does not exempt the shipowner from liability where negligence of the vessel's master proximately contributed to the injury complained of in such an action....We are of opinion that the evidence mentioned tended to prove conduct of the pilot, known to the master, giving rise to a case of danger or great necessity, calling for the intervention of the master. A master of a vessel is not without fault in acquiescing in conduct of a pilot which involves apparent and avoidable danger, whether such danger is to the vessel upon which the pilot is, or to another vessel, or persons or property thereon or on shore...as to whether the negligence shown was exclusively that of the pilot, and as to whether negligence of the master proximately contributed to the injury, should have been submitted to the jury under appropriate instructions."

Jure v. United Fruit Co.,6 F. 2d 7 (1925)

28.3 "The responsibility for the safety of the ship rests upon the master. The pilot, because of his superior knowledge of the depth of water and location of the channel, has charge of the navigation of the vessel, but even then the master is not absolved from his duties, but may advise the pilot, and even displace him in case of manifest incompetency....We recognize the rule contended for by defendant that the master ought not to substitute his judgment for that of the pilot except in cases of obvious danger, or as expressed in the Jure Case, where danger is apparent and avoidable. But we think a proper case for the master's assertion of

authority for the safety of his ship presents itself where it is obvious or apparent that danger from some cause is imminent, though the particular cause of danger may not be appreciated."

Charente S. S. Co. v. U.S., 12 F. 2d 413 (1926)

28.4 "The master is not merely entitled but bound to point out to the compulsory pilot that he may be mistaken in an opinion he has formed (The Tactician (1907) P. 244). He is also entitled, in order to avoid immediate peril, to take the navigation out of the hands of the pilot, but if he does so he must be prepared to show justification...'...if the master sees fit to take the navigation out of the hands of the pilot and countermands his orders, he must satisfy the court that he was justified in so doing, and that the action which he took was at all events more calculated to avoid a collision than the manoeuvre which he countermanded.'"

British, Tower Field v. Dock Board, Ll.L. Rep. 233, p. 259 (1950)

(29) The Law of Pilotage, Chapter Seven, Division of Control Between Master and Pilot, p. 58

(30) 30.1 GENERAL DUTIES

Per Baron Parke in The Christiana (1850), 13 E.R. 841 P.C.

"The duties of the master and the pilot in many respects are clearly defined. Although the pilot has charge of the ship, the owners are most clearly responsible to third persons for the sufficiencies of the ship and her equipments, the competency of the master and crew, and their obedience to the orders of the pilot in everything that concerns his duty, and under ordinary circumstances we think that his commands are to be implicitly obeyed. To him belongs the whole conduct of the navigation of the ship, to the safety of which it is important that the chief direction should be vested in one only."

Per Brett, L.J. in The Guy Mannering (1882), 4 Asp. M.L.C. 553:

"The duty of a pilot in England is too well known and too universally applied to require any enactment

with regard to it at all. It is to regulate the navigation of the ship, and to conduct it so far as the course of the ship is concerned. He has no other power on board the ship; he has no power over the discipline of the ship, he has no power over the cargo on board; he has no power with regard to the various matters which are necessary to enable him to perform his duty; he cannot place a man on the look-out, or regulate the place at which the look-out man shall be on board the ship. He has nothing to do but to control the navigation."

Per Lord Alverstone, C.J. in The Tactician (1907), 10 Asp. M.L.C. 534:

"I think the cardinal principle to be borne in mind in these cases...is that the pilot is in sole charge of the ship, and that all directions as to speed, course, stopping and reversing and everything of that kind are for the pilot...But side by side with that principle is the other principle that the pilot is entitled to the fullest assistance of a competent crew, of a competent look out, and a well-found ship."

Per Bargreave Deane, J. in The Ape (1914), 12 Asp. M.L.C. 487:

"I have to...lay down what I think is the true principle as to the duty of ship's officers and crew towards the pilot, and...unless the man is incompetent in the sense of being ill or the worse for drink, or something of that sort which justifies force majeure, the officers of the vessel have no right to take control of the navigation out of the hands of the pilot, yet he is entitled to every assistance which can be rendered to him by those on board the ship."

Sir Samuel Evans said in The Umsinga (1912), 12 Asp. M.L.C. 1

"It is easy to conceive cases in which...a master must be on the bridge before it can be rightly said that all the assistance which the law requires to be given to the pilot by the master and the crew is given, and in which his absence might be evidence of negligence or default...But, in my opinion, it cannot be held as a matter of law, or as an inflexible rule of good navigation that the master must be there, or that his absence amounts to default for which his owners are liable, when he provides a competent officer, or where there are no special circumstances of difficulty, or no special matters within his knowledge of which he ought to be ready to inform the pilot...'It is beside the question to inquire whether the master, if on the bridge, might...have caused the pilot to avoid

the collision. If he is not there, and is not bound by the law, or by the rules of good navigation to be there, the court cannot surmise what he would have done if he was there.'"

Ibid, p. 61

(31) 31.1 INTERFERENCE

Dr. Lushington defined "interference" as follows:

"I should never go to the length of saying that the mere suggesting to the pilot on the part of the master to take in this sail, or otherwise to keep as near the South Sand light, and vice versa, or to bring the ship up, was interfering, in the legal acceptation of the term, with the duties of the pilot; illegal interference is of a different description. If, for example, in this case the boatswain had called out to the men below to starboard the helm, or if the master had called out to port the helm, it would be interference; but it would not be interference to consult the pilot, or to suggest to him the measures pursued were not proper, or that other measures would in all probability be attended with greater success.

The Lochlibo, 166 E.R. 978 (1850)

Thus, in the case of The Oakfield where the pilot gave, at the suggestion of the master, an improper order which brought about a collision with a vessel at anchor, it was held that the master's intervention did not transfer the responsibility of the pilot to the master. The Judge justified his decision as follows:

'There is a conflict as to how this order to starboard came to be given, but the pilot admits that the words proceeded from his lips. To excuse himself he says he was merely carrying out the captain's order, and that it was not his order at all. I cannot accept that explanation. I feel convinced that the true solution of the case is, that when the Duchess of Albany was first seen there was no doubt as to whether she was or was not at anchor, that the captain very likely did strongly express an opinion that it would be safe and proper to starboard and go across her bows, that the pilot adopted that view and gave the order which brought about the collision.'"

The Oakfield, 5 Asp. M.L.C. 575 (1886)

Ibid, p. 62

(32) 32.1 LOOKOUT

"In circumstances which called for the greatest care and fullest assistance he (the pilot) was left to his own observation. It is obvious from his own explanation that he was not fully aware of the position and intentions of both these vessels at the time of the collision. It may be (though I am not satisfied on this point) that he ought to have been aware, but a pilot's duty is that of controlling the navigation of the ship and his attention must at times be concentrated on some particular fact. He is entitled to have the assistance of a look-out and timely reports of material incidents."

The Alexander Shukoff, 15 Asp. M.L.C. 122 (1920)

32.2 "In the same case Lord Molton said:

'The defendants say that the pilot ought to have found these things for himself and that therefore, they are excused for having omitted to report them to him. Now it must be remembered that the pilot has many things to think of, especially where...he is leaving port in company with other vessels and new incidents may at any moment arise. He needs, therefore, to be in a position of feeling that he can give his whole attention to his duties of management secure that all relevant occurrences will be duly reported to him.'"

32.3 '"...He must have been from his own observation, perfectly aware of the torpedo-boat and her movements at all material times. Under these circumstances it is not easy to see how, even if there had been an omission on the part of the lookout...to report the torpedo-boat, this omission could have contributed to the accident, as the pilot was throughout in full possession of all the facts himself."'

The Kamouraska, (H.L.) 2L1.L Rep. 125, 299 at p.300(1920)

The Law of Pilotage, p. 64

(33) 33.1 COLLISION REGULATIONS

'"I have said on many occasions...that a master, has no right to interfere with the pilot, except in cases of the pilot's intoxication or manifest incapability, or in cases of danger which the pilot does not forsee, or in cases of great necessity. The master of the Argo says 'It is not my province to take notice of the ship, or on what shore she is navigating. She may be taken here or there, while she is in charge of the pilot, without my knowing the cause; there may be reason under water why the pilot does it. All my duty is, to take care that all the pilot's orders are promptly and properly obeyed'; and I think he says so rightly."'

The Argo, 166 E.R. 1217 (1859)

(34) 34.1 WHETHER TO PROCEED

"Thus in a case where the court had to decide upon the wisdom of taking a vessel through the Downs in bad weather, the Judge said:

'...It would be very dangerous to hold, that there can be any divided authority in the ship with reference to the same subject, and whether the ship was to anchor or to proceed was a matter which we think belonged exclusively to the pilot to decide.'"

Pollock V. M'Alpin, 13 E.R. 945 (1851)

34.2 "Similarly, in the case of The Oakfield, which was involved in a collision with a vessel at anchor in the River Mersey in poor visibility, Sir James Hannen said:

'I think if there was such a state of obscurity owing to fog as would give rise to a plain prospect of danger, the master could in those circumstances throw the whole responsibility on the pilot if he ordered the vessel to get underwway. But in this case it is said that the circumstances did not give rise to such a plain prospect of danger, for although the weather was admittedly foggy, yet vessels might be

seen at such a distance as that, then it is a question for the pilot to determine whether it was wise to weigh anchor, and the master would be relieved from responsibility. The pilot knows all the local dangers and knows as it were by instinct where he may go and where he may not go. It is therefore obvious that the master would leave it to the pilot to judge whether it would be safe to proceed in such a state of weather.'"

The Oakfield, 5 Asp. M.L.C. 575 (1886)

The Law of Pilotage, p. 66

(35) 35.1 SPEED

"It would appear from reported cases that the speed at which a vessel should proceed is within the province of the pilot. In The Maria, for example, Dr. Lushington said:

'...it would be a most dangerous doctrine to hold, except under most extraordinary circumstances, that the master could be justified in interfering with the pilot in his proper vocation...If no order was given to ease the steamer, the fault was in the pilot, not in the master.'"

The Maria, 166 E.R. 508 (1839)

The Law of Pilotage, p. 68

(36) 36.1 USE OF RADAR

Quoting from the Canadian Royal Commission:

"With the aid of various electronic instruments, the pilot is now provided with means which are constantly being improved to 'see' when visual means fail but this electronic 'sight' has its limitations, and the images and information provided differ from what is seen by the naked eye. Therefore, to take advantage of these technical developments, pilots must acquire the necessary knowledge and skill to understand and use these instruments. The strange images that

appear on the radar screen should be as familiar to the pilot as the land features in time of clear visibility and such local knowledge must form part of the qualifications of pilots today."

The bow of the Japanese ship Ryuyo Maru No. 2 is hard agound on St. Paul Island in the Pribilof Islands, since the fisheries factory vessel hit the rocks on Friday. Some 100,000 gallons of diesel oil has spilled from her ruptured fuel tanks into the Bering Sea. This Coast Guard photo was taken from atop cliffs on the island.

State queries why ship had no licensed pilot

By BILL WILSON
Daily News reporter

There was no licensed pilot aboard the Ryuyo Maru No. 2 Friday night when a Japanese fishing vessel crashed into the wildlife-rich rocks of St. Paul Island and began spilling oil, state and federal officials said Wednesday.

The absence of a such a pilot may have been a violation of state law.

Alaska law requires state-licensed pilots be at the helm when large vessels ply so-called "inland waterways." Generally the pilots board vessels as they approach Alaska waters.

Whether or not the seas surrounding the Pribilof Islands are among those requiring an Alaskan pilot is presently being investigated by the Alaska Department of Commerce.

The Ryuyo's captain was at the helm Friday night when the 324-foot Japanese bottomfishing

vessel ran aground, according to Sally Towers, a U.S. government monitor aboard the craft. Towers boarded the Ryoyo in Japan to keep an eye on harvest logs, and was being taken to St. Paul so she could visit an ailing member of her family in Seattle at the time of the grounding.

One source within the commerce department said the penalties following a finding that a pilot was needed, "would be very, very heavy," but declined to say how big they might be.

While state law specifically identifies certain territory requiring a licensed pilot — such as the inside passage in Southeastern and much of Cook Inlet — it addresses much of the water surrounding Alaska in rather vague terms, according to marine attorneys. Hence the uncertainty over the Ryuyo.

The piloting of the vessel is also part of the U.S. Coast Guard's investigation, according to Lt. Cmdr. Mike Macie, the local Marine Safety Officer, who declined to elaborate.

Meanwhile, the mop-up effort continued into the night Wednesday in the face of worsening weather. Although the 35-knot winds and and 20-foot waves that have helped evaporate the 60,000 to 100,000 gallons of diesel fuel that spewed from the ill-fated vessel's tanks, they hamper speedy collection of remaining oil. The weather forecast for St. Paul calls for 60-knot winds and 30-foot waves today and tomorrow.

About 2 miles of beach are now covered with varying amounts of oil, officials say.

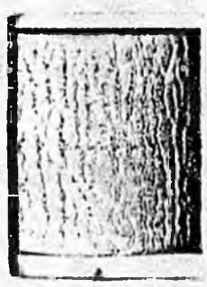
The oil has killed dozens of waterfowl and possibly is responsible for the death of a handful of seal pups, but overall, damage to the St. Paul ecosystem appears to be relatively light — at least so far, according to Coast Guard officials.

However, Salt Lagoon, a stop ping point for thousands of migrating ducks and other water birds, is suffering from the spill as the tide deposits more and more diesel.

The lagoon, near the village of St. Paul, is fed by a narrow channel. The 80 cleanup workers on the scene are building a sandbag dam across the lagoon in an effort to keep the sheen away. A boom designed to block the flow of the oil was in place Wednesday. It had broken loose earlier in the cleanup effort.

While the current bird population of the lagoon is small, Coast Guard spill experts say a

See Back Page, STATE QUERIES



State queries ship's lack of licensed pilot

Continued

wave of migrating Elder ducks is expected soon. Much of the cleanup activity is presently centered around collecting oil-poisoned crustaceans so they may not be eaten by birds.

The creatures upon which the Elders and other birds feed include small shrimp-like animals.

"Our problem now is that several food species are being affected adversely," said Macie. "In other words, they are being killed."

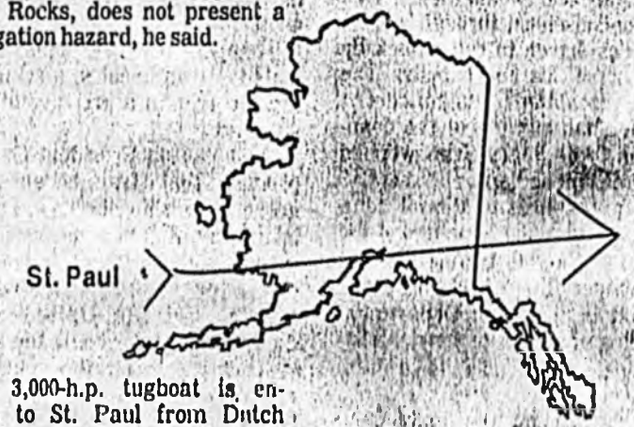
The cleanup crew faces lethal ammonia gas which is thought to have escaped from the vessel's refrigeration system. Also, a deadly hydrogen and sulfur mix is sometimes created when ammonia blends with organic matter, says the Coast Guard. Whether or not that has happened was not known Wednesday as much of the freezing equipment was underwater and could not be reached.

Macie said the oil remaining in the Ryuyo will be removed via three-inch vents on deck, a process he says requires "lots of muscle power and lots of patience."

Macie, who visited St. Paul over the weekend to watch the

of whether or not to salvage the Ryuyo has not been made. "If you want to pay the money, you could salvage it," he said. "There's no repair facility here, and anywhere you want to take it, it's going to be an ocean voyage. It's either Japan or Seattle."

The ship, which appears to be solidly placed on the ragged St. Paul Rocks, does not present a navigation hazard, he said.



A 3,000-h.p. tugboat is enroute to St. Paul from Dutch Harbor to help anchor and or remove the Ryuro. Also, a seal expert is headed there to assess the damage to the estimated 100,000 seals on the island, which make up the backbone of St. Paul's economy.

Diesel oil, while hardly easy to clean up from sandy beaches, poses a less serious threat than heavier crude oil.

PUBLIC SERVICE ANNOUNCEMENT

The Senate Commerce Committee will convene at 1:00 p.m. (Alaska Standard Time) on Monday, December 10, 1979, for the purpose of holding a public "Sunset" hearing on the Board of Marine Pilots. The hearing is open to the public and will be held in Anchorage at 1016 West Sixth Avenue, Suite 201. The hearing will also be teleconferenced to Fairbanks, Soldotna, Ketchikan and Juneau.

Fairbanks will hold its hearing at the Legislative Information Office, 101 College Road, Building F, Room 252, Fairbanks.

The Soldotna hearing will be held at the Legislative Information Office, Cordova Building, Spur Highway, Soldotna.

The hearings in Juneau and Ketchikan will begin at 3:00 p.m. (Pacific Standard Time). Juneau will hold its hearing in Room 124 of the Capitol Building, Juneau. The Ketchikan hearing will be held at the Legislative Information Office, 415 Main Street, Room 301, Ketchikan.

A copy of the performance review of the Board of Marine Pilots is available for public use at the local Legislative Information Offices.

For further information, please contact the Senate Commerce Committee at 1016 West Sixth Avenue, Suite 201, Anchorage, AK 99501, telephone: 278-1581 or 278-1582.

February 29, 1980

Honorable W. E. Bradley
Chairman, Senate Commerce Committee
State of Alaska
State Capitol
Pouch V — Mail Stop 3100
Juneau, Alaska 99811

Dear Senator Bradley:

At the January 30, 1980, Sunset Hearings on the Board of Marine Pilots held by the House Commerce Committee in Juneau, I presented testimony on behalf of the American Institute of Merchant Shipping (AIMS). During discussions following my prepared testimony, I was requested to categorize AIMS' recommendations into statutory and regulatory proposals. I am pleased to respond at this time to that request, and would also like to take this opportunity to offer further comment on other issues not fully explored during the Hearing which may have a bearing on your deliberations.

With respect to categorizing AIMS' recommendations into statutory or regulatory proposals, I offer the following:

Licensing State Pilots

1. Continue to require Federal pilotage endorsements as a prerequisite to State pilotage.

No action is requested. This requirement is included under 12 AAC 56.030(2).

2. Eliminate those State license examination requirements which duplicate Federal pilotage examinations.

It is recommended that language be added to AS 08.62.040(2) permitting elimination of examination requirements

1 of 5

3. Seek active USCG liaison with the Board of Marine Pilots.

It is recommended that the Board of Marine Pilots be encouraged to solicit active liaison with the U. S. Coast Guard regarding establishment of appropriate guidelines for pilot qualification, examination, recertification and discipline. In this regard, we encourage the State to request such a U. S. Coast Guard representative to be stationed in, or be in close contact with, U. S. Coast Guard Headquarters in Washington. This will ensure uniformity of application nationwide.

Pilot Recertification

As indicated in AIMS' Testimony, recertification procedures are too vague to assure that the intent of the legislature is met. In addition, the USCG will, in the near future, issue new procedures for recertification of Federal pilots. AIMS proposes that a committee of interested parties, including the pilots, industry, USCG and Board of Members be established to identify and recommend statutory or regulatory changes to strengthen this most important area.

Pilot Discipline

1. Clarify the terms "incompetent" and "misconduct."

This subject should be included in the scope of the previously recommended Committee's work.

2. Suggest Alaska standards for revocation or suspension of State pilot licenses be established similar to USCG standards and procedures for revocation or suspension of Federal pilot licenses.

AIMS proposes Section 08.62.160 should be amended to include failure to maintain qualifications for the original license as a basis for mandatory revocation, suspension, or refusal to re-issue a license.

Regulation of Fees

1. Provide more detailed criteria for evaluating pilotage rate changes.

Section 08.62.040(4) should be amended to require that

individual pilot compensation must be adequate, but not excessive, to assure that qualified personnel are attracted to the service, and that consideration must be given to difficulty of pilotage, length of time on the job, hours on standby, area standards of living, ratio of time off to time worked, benefits, necessary expenses, including pilot boat cost if required, and equitable distribution of these costs to the users of the pilotage service.

2. Require annual financial audit of pilot associations by state auditors with the audit available to the public.

In keeping with the Board's mandate to provide for the maintenance of efficient pilot service for Alaska, AS 08.62.060(4) should be amended to require that marine pilot associations have their records audited annually by a certified public accountant approved by the Board, a copy of such report shall be submitted promptly to the Board.

Board Composition

(1.) Provide for tanker industry representation on the Board.

It is proposed that AS 08.62.101 be amended to specify that one industry member of the Board be a representative of the tanker industry. This member could make a significant contribution to the Board through the industry's resources and experience. In order to assure that a person of sufficient experience and knowledge is available for service to the Board, the State residency requirement for that representative should also be expanded to permit any U.S. citizen to qualify for appointment.

Regulation of Enrolled Vessels

(1.) Eliminate those Sections of State Statute AS 08.62 added by passage of HB 510 in 1977 because they conflict with federal law.

AS 08.62.185 should be repealed in its entirety for reasons already presented in AIMS' testimony.

3 of 5

In addition to clarifying AIMS' proposals to the Committee, I would like to discuss more fully two statements which were made by others during the Hearings which were inaccurate.

The first was that pilots assume responsibility for the safe navigation of the vessel when piloting. This statement is not consistent with the widely recognized master/pilot relationship which, by Federal and international law, holds the master fully and ultimately responsible for the safe navigation of the vessel at all times except when transiting the Panama Canal. The pilot, whether required by law or not, acts as an advisor to the master with respect to local conditions. Any orders which the pilot may give to the helmsman are given under the direct supervision of the master and with his approval. The master has the responsibility and authority to countermand any order given by the pilot, or to relieve the pilot if he believes the safety of the ship is being jeopardized.

A second statement was made that Federal, or employee, pilots are influenced by the vessel owner to "maintain schedule or move the vessel with unacceptable margins of safety," and therefore the State pilot "places a higher priority on the protection of life, property and the environment." This argument is obviously without merit when one considers the owner's investment in his ship, its cargo and crew and the social and financial consequences which would result from a vessel casualty. No one has more to lose than the U.S. ship owner when safety is not the paramount consideration in vessel operation.

Furthermore, it is not necessary for a Federal pilot to be an employee of the shipowner or operator. Independent Federal pilot services are available at many U.S. ports and provide both channel navigation and docking pilot services.

In closing, let me thank you again for the opportunity to express AIMS' views on this most important matter. I will be happy to try to provide you and other members of the Committee with any further information you may request.

Very truly yours,

Mark R. Johnson
Assitant to the Director
of Marine Affairs

/for/ Daniel J. Paul, Jr.

MR. PRESIDENT, I MOVE THE ADOPTION OF SENATE BILL 573, WHICH IS IDENTICAL, AT THIS POINT, TO THE HOUSE BILL FOR THE SAME BOARD. WE HAVE WORKED JOINTLY TO TRY TO PREVENT AN UNNECESSARY AND OFTEN TIME-CONSUMING FREE CONFERENCE COMMITTEE.

(SEC. 08.62.020)
P. 1, LS 16-18

SECTION 1 IS CHANGED TO FORBID A BOARD MEMBER FROM SERVING MORE THAN TWO CONSECUTIVE TERMS, BUT DOES NOT LIMIT THE TOTAL NUMBER OF TERMS WHICH A PERSON MAY SERVE. THE COMMISSIONER OF THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT OR HIS DESIGNEE IS A MEMBER OF THE BOARD, AND THIS PROVISION DOES NOT APPLY TO HIM. THIS WAS DONE TO ALLOW MORE TURNOVER ON THE BOARD CREATING MORE DIVERSITY.

why?

(SEC. 08.62.040(A)(3)
P. 1, LS. 20-21

SECTION 2 IS AMENDED TO STATE THAT THE BOARD MUST KEEP A REGISTER OF LICENSED PILOTS AND AGENTS, BUT IS NO LONGER REQUIRED TO KEEP A REGISTER OF VESSELS, OPERATORS, AND MANAGERS. "OPERATORS" IS AN UNDEFINABLE TERM IN SEA-GOING LANGUAGE. ANY VESSEL FROM ALL OVER THE WORLD CAN BE IN OUR WATERS AND THE COMPILING OF A LIST IS VIRTUALLY IMPOSSIBLE. LLOYDS OF LONDON COMPILED SUCH A LIST AND IT COMPRISED VOLUMES.

Why not define reason for managers being excluded.

(SEC. 08.62.040(A)(4))
P. 1, LS. 23-26

SECTION 3 REQUIRES THE BOARD TO ADOPT REGULATIONS ESTABLISHING STANDARDS BY WHICH FEES MAY BE SET AND TO PAY FOR AUDITS IF AN AUDIT IS NEEDED TO COLLECT INFORMATION REQUIRED IN

ORDER TO APPLY THE STANDARDS IN THE [redacted]ONS. THERE HAS BEEN A NEED FOR SUBSTANTIATING THE SETTING OF THE FEES.

(SEC. 08.62.140)
P. 2, LS. 1-3

SECTION 4 INCREASES THE FEES PROVIDED FOR UNDER EXISTING LAW. AN ADDITIONAL BIENNIAL REGISTRATION FOR AGENTS IS ADDED. AGENTS HAVE NOT BEEN REGISTERING AND BY ATTACHING A FEE TO THE REGISTRATION IT IS BELIEVED THAT REGISTRATION FOR AGENTS WOULD SEEM MORE IMPORTANT AND HENCE MORE AGENTS WOULD REGISTER. REGISTRATION TAKES ON MORE VALUE WHEN A FEE IS ATTACHED.

(SEC. 08.62.150(A))
P. 2, LS. 4-5

SECTION 5. UNDER CERTAIN SPECIFIED CONDITIONS THE BOARD MAY IMPOSE A DISCIPLINARY SANCTION ON A PERSON. SECTION 5 ADDS, AS A CONDITION WHICH WOULD ALLOW THE BOARD TO DENY A LICENSE, REVOKE A LICENSE, OR SUSPEND A LICENSE, THE REVOCATION OF A FEDERAL PILOTS LICENSE HELD BY A PERSON LICENSED OR SEEKING A LICENSE UNDER THIS CHAPTER. IT IS FELT THAT ONE LOOSING HIS FEDERAL LICENSE IS GROUNDS FOR REVOCATION OF THE STATE LICENSE.

(SEC. 08.62.187)
P. 2, LS. 7-9

SECTION 6 IS A NEW PROVISIONS REQUIRING A PERSON TO HAVE HIS NAME ON THE REGISTER OF AGENTS BEFORE HE MAY ACT AS THE AGENT OF A VESSEL. THIS ENABLES GREATER CONTROL OF AGENTS.

(SEC. 08.03.010(c))
P. 2, Ls. 10-11

SECTION 7 PROVIDES THE TERMINATION DATE FOR THE BOARD OF MARINE PILOTS IS JUNE 30, 1983.

(SEC. 08.03.010(B)(8))
P. 2, L. 12

SECTION 8 REPEALS THE EXISTING TERMINATION DATE, JUNE 30, 1980, FOR THE BOARD OF MARINE PILOTS.

P. 2, L. 13

SECTION 9 THE EFFECTIVE DATE OF THIS ACT IS JUNE 30, 1980, THE DATE UPON WHICH THE BOARD OF MARINE PILOTS IS SCHEDULED TO TERMINATE.

08.62.020

Sec. 08.62.020. APPOINTMENT AND TERM OF OFFICE. The governor shall appoint the pilot and agent or manager members of the board, subject to confirmation by a majority of the members of the legislature in joint session for terms of four years, or until their successors are appointed. The first members shall be initially appointed for one, two, three and four year terms. (sec 2 ch 106 SLA 1970)

Sec. 08.62.030. MEETINGS. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman with prior approval of the governor. (sec 2 ch 106 SLA 1970)

08.62.040

Sec. 08.62.040. POWERS AND DUTIES. (a) The board shall

(1) provide for the maintenance of efficient and competent pilot service on all waters covered by this chapter to assure protection of shipping and the safety of human life and property;

(2) consistent with the law, adopt regulatons, subject to the Administrative Procedure Act (AS 44.62), establishing the qualifications of pilots and providing for the examination of pilots and the issuance of original or renewal pilot licenses to qualified persons;

(3) keep a register of licensed pilots, vessels, operators, agents and manager;

(4) regulate pilotage fees; and

(5) make available, upon request, copies of this chapter and the regulations adopted under it.

(b) The board may, by regulation, make any other provision for proper and safe pilotage upon the waters covered by this chapter and for the efficient administration of this chapter. (sec 2 ch 106 SLA 1970)

08.62.140

Sec. 08.62.140. FEES. The following fees shall be imposed under this chapter when applicable:

(1) application fee..... $ 10
(2) biannial license fee..... $200
(sec 2 ch 106 SLA 1970)

08.62.150

Sec. 08.62.150. DENIAL, REVOCATION OR SUSPENSION. (a) The board, after compliance with the Administrative Procedure Act (AS 44.62), may deny, revoke or suspend the license of a person who

(1) is incompetent in the performance of his pilotage duties;

(2) is habitually intoxicated;

(3) illegally uses or sells narcotic or hallucinogenic drugs;

(4) makes a false statement to obtain a license;

(5) violates a provision of this chapter or a regulation adopted under it; or

(6) is guilty of misconduct during the course of his employment.

(b) A license denied, revoked or suspended under (a) of this section may not be granted or reinstated until

(1) the reason for the license denial, revocation or suspension has been remedied; and

(2) the period of suspension has been served and all fines imposed under this chapter have been paid. (sec 2 ch 106 SLA 1970)

08.03.010.

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);
(2) Board of Dental Examiners (AS 08.36.010);
(3) State Medical Board (AS 08.64.010);
(4) Board of Nursing (AS 08.68.010);
(5) Board of Dispensing Opticians (AS 08.71.010);
(6) Board of Examiners in Optometry (AS 08.72.010);
(7) Board of Pharmacy (AS 08.80.010);
(8) Board of Veterinary Examiners (AS 08.98.010);
(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);
(10) Board of Nursing Home Administrators (AS 08.70.010);
(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);
(2) Board of Barber Examiners (AS 08.12.010);
(3) Collection Agency Board (AS 08.24.011);
(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);
(5) Board of Electrical Examiners (AS 08.40.010);
(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);
(7) Guide Licensing and Control Board (AS 08.54.010);
(8) Board of Marine Pilots (AS 08.62.010);
(9) Real Estate Commission (AS 08.88.011);
(10) Board of Welding Examiners (AS 08.99.010);
(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

Sec. 08.01.100. LICENSE RENEWAL, LAPSE AND REINSTATEMENT. (a) All licenses shall be renewed biennially on the dates set by the department with the approval of the respective board.

(b) A registration, license permit or certificates requiring renewal to continue effective must be renewed on or before the date set by the department or it will lapse. A penalty of $10 shall be charged in addition to all delinquent renewal fees fo reinstatement of a registration, license, permit or certificate which remains lapsed for more than 60 days.

Sec. 08.01.105. PENALTY FOR IMPROPER PAYMENT. An applicant shall pay a penalty of $10 each time a negotiable instrument is presented to the department in payment of an amount due and payment is subsequently refused by the named payor.

Sec. 08.01.110. DEFINITIONS. In this chapter

(1) "board" includes the boards and commissions listed in sec. 10 of this chapter;
(2) "department" means the Department of Commerce and Economic Development;
(3) "commissioner" means the commissioner of commerce and economic development;
(4) "license" means any license, certificate, permit, or registration or similar evidence of authority issued by one of the boards listed in sec. 10 of this chapter;
(5) "licensee" means any person who holds a license;
(6) "occupation" means any of the trades or professions for which licensure is required by one of the boards listed in sec. 10 of this chapter.

CHAPTER 62. MARINE PILOTS

Article
1. Board of Marine Pilots (secs 08.62.010 - 08.62.040)
2. Licensing (secs 08.62.080 - 08.62.150)
3. General Provisions (secs 08.62.160 - 08.62.200)

Revisor's note (1970) -
In ch. 106, SLA 1970, AS 08.62 was incorrectly designated AS 08.87.

ARTICLE 1. BOARD OF MARINE PILOTS

Section
10. Creation and membership of board
20. Appointment and term of office
30. Meetings
40. Powers and duties

Sec. 08.62.010. CREATION AND MEMBERSHIP OF BOARD. There is created the Board of Marine Pilots. It consists of two pilots licensed under this chapter who have been actively engaged in piloting on vessels subject to this chapter, two agents of managers of vessels subject to this chapter, two public members in accordance with AS 08.01.025, and the commissioner or his designee. Not more than one pilot and one agent or manager

shall be from any one judicial district. All members of the board shall be residents of the state. (sec 2 ch 106 SLA 1970; am sec 8 ch 258 SLA 1976) (Eff. of amendment. The 1976 amendment inserted "two public members in accordance with AS 08.01.025" in the second sentence.)

Sec. 08.62.020. APPOINTMENT AND TERM OF OFFICE. The governor shall appoint the pilot and agent or manager members of the board, subject to confirmation by a majority of the members of the legislature in joint session for terms of four years, or until their successors are appointed. The first members shall be initially appointed for one, two, three and four year terms. (sec 2 ch 106 SLA 1970)

Sec. 08.62.030. MEETINGS. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman with prior approval of the governor. (sec 2 ch 106 SLA 1970)

Sec. 08.62.040. POWERS AND DUTIES. (a) The board shall

(1) provide for the maintenance of efficient and competent pilot service on all waters covered by this chapter to assure protection of shipping and the safety of human life and property;
(2) consistent with the law, adopt regulatons, subject to the Administrative Procedure Act (AS 44.62), establishing the qualifications of pilots and providing for the examination of pilots and the issuance of original or renewal pilot licenses to qualified persons;
(3) keep a register of licensed pilots, vessels, operators, agents and manager;
(4) regulate pilotage fees; and
(5) make available, upon request, copies of this chapter and the regulations adopted under it.

(b) The board may, by regulation, make any other provision for proper and safe pilotage upon the waters covered by this chapter and for the efficient administration of this chapter. (sec 2 ch 106 SLA 1970)

ARTICLE 2. LICENSING

Section
80. License requirement
90. Application
100. Qualifications
110. Previous licensure
120. Duration, renewal
130. Lapsed license
140. Fees
150. Denial, revocation or suspension

Sec. 08.62.080. LICENSE REQUIREMENT. No person may pilot a vessel subject to this chapter unless he is licensed under this chapter. (sec 2 ch 106 SLA 1970)

Sec. 08.62.090. APPLICATION. (a) A person who desires to be licensed under this chpater shall apply in writing to the department.

(b) The application shall provide the information and be made on a form prescribed by the board. (sec 2 ch 106 SLA 1970)

Sec. 08.62.100. QUALIFICATIONS. A person is entitled to a license under this chapter if he

(1) is of good moral character;
(2) is a citizen of the United States;
(3) passes the examination given by the board; and
(4) qualifies under the regulations adopted under section 40(a)(2) and (b) of this chapter. (sec 2 ch 107 SLA 1970)

Sec. 08.62.110. PREVIOUS LICENSURE. A license that was issued under AS 30.10 is considered as having been issued under this chapter. (sec 2 ch 106 SLA 1970)

Sec. 08.62.120. DURATION, RENEWAL. A license issued under this chapter shall be renewed biennially on dates set by the department. A license issued under AS 30.10 lapses at the end of calendar year 1970. A license issued between May 7, 1970 and the end of 1570 shall be issued for a fee of $100. A license shall be renewed without examination upon the payment of the biennial license fee. (sec 2 ch 106 SLA 1970)

Sec. 08.62.130. LAPSED LICENSE. A lapsed license may be reinstated without examination if it has not remained lapsed for more than two years. However, if the license is lapsed for less than two years and the board has reason to believe that the person applying for reinstatement of his license in incapable or incompetent to carry out the duties of a licensed marine pilot, the board may require the applicant to take and pass the examination given by the board. (sec 2 ch 106 SLA 1970; am sec 1 ch 22 SLA 1973)

Sec. 08.62.140. FEES. The following fees shall be imposed under this chapter when applicable:

(1) application fee..... $ 10
(2) biennial license fee..... $200
(sec 2 ch 106 SLA 1970)

Sec. 08.62.150. DENIAL, REVOCATION OR SUSPENSION. (a) The board, after compliance with the Administrative Procedure Act (AS 44.62), may deny, revoke or suspend the license of a person who

(1) is incompetent in the performance of his pilotage duties;
(2) is habitually intoxicated;
(3) illegally uses or sells narcotic or hallucinogenic drugs;
(4) makes a false statement to obtain a license;
(5) violates a provision of this chapter or a regulation adopted under it; or
(6) is guilty of misconduct during the course of his employment.

(b) A license denied, revoked or suspended under (a) of this section may not be granted or reinstated until

(1) the reason for the license denial, revocation or suspension has been remedied; and
(2) the period of suspension has been served and all fines imposed under this chapter have been paid. (sec 2 ch 106 SLA 1970)

ARTICLE 3. GENERAL PROVISIONS

Section
160. Mandatory employment of licensed pilots
170. Pilot's lien for compensation
180. Exemptions
190. Penalty
200. Definitions

Sec. 08.62.160. MANDATORY EMPLOYMENT OF LICENSED PILOTS. A vessel subject to this chapter navigating the inside coastal waters of Alaska as determined by regulations shall employ a pilot holding a valid license under this chapter. (sec 2 ch 106 SLA 1970)

Sec. 08.62.170. PILOT'S LIEN FOR COMPENSATION. Each vessel, its tackle, apparel and furniture and the owner of the vessel are jointly and severally liable for the compensation of a pilot employed on the vessel and the pilot has a lien on the vessel, her tackle, apparel and furniture for his compensation. (sec 2 ch 106 SLA 1970)

Sec. 08.62.180. EXEMPTIONS. This chapter does no apply to

(1) vessels under enrollment;
(2) fishing vessels registered in the United States or in British Columbia, Canada;
(3) motorboats as defined in sec. 1 of the Federal Motorboat Act of 1940 (54 Stat. 163; 46 U.S.C., sec. 526 et seq.);
(4) vessels of United States registry of less than 300 gross tons and tow boats of United States registry and vessels owned by the State of Alaska, engaged exclusively
(A) on the rivers of Alaska; or
(B) in the coastwise trade on the west coast of the United States including Alaska, Hawaii, and British Columbia, Canada;
(5) vessels of Canada, including Canadian cruiseships, engaged in frequent trade between British Columbia and Alaska, if reciprocal exemptions are granted by Canada to vessels owned by the State of Alaska and those of United States registry; and
(6) pleasure craft. (sec 2 ch 106 SLA 1970; am sec 1 ch 43 SLA 1972)

Effect of amendment-1972 amendment inserted "of United States registry of less than 300 gross tons" after "vessels in (4) and added "or" in (A).

Sec. 08.62.190. PENALTY. A master or owner of a vessel required by this chapter to employ a licensed pilot who fails to do so when a licensed pilot is available, unless the perils or hazards of the sea prevent the employment of a pilot, is guilty of a misdemeanor and, upon conviction, is punishable by a fine of not less than $1,000 nor more than $5,000. A person who violates any other provision of this chapter or a regulation adopted under it is guilty of a misdemeanor and, upon conviction, is punishable by a fine of not less than $500 nor more than $1,000. (sec 1 ch 34 SLA 1979)

Sec. 08.62.200. DEFINITIONS. In this chapter

(1) "board" means the Board of Marine Pilots;
(2) "commissioner" means the commissioner of the Department of Commerce and Economic Development;
(3) "department" means the Department of Commerce and Economic Development;
(4) "vessel" means all vessels not exempt under 180 of this chapter. (sec 2 ch 106 SLA 1970; am sec 48 ch 218 SLA 1976)

Effect of amendment.-The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraphs (2) and (3).

THE BOARD OF MARINE PILOTS

STATUTES

08.62.020

Sec. 08.62.020. APPOINTMENT AND TERM OF OFFICE. The governor shall appoint the pilot and agent or manager members of the board, subject to confirmation by a majority of the members of the legislature in joint session for terms of four years, or until their successors are appointed. The first members shall be initially appointed for one, two, three and four year terms. (sec 2 ch 106 SLA 1970)

Sec. 08.62.030. MEETINGS. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman with prior approval of the governor. (sec 2 ch 106 SLA 1970)

08.62.040

Sec. 08.62.040. POWERS AND DUTIES. (a) The board shall

(1) provide for the maintenance of efficient and competent pilot service on all waters covered by this chapter to assure protection of shipping and the safety of human life and property;

(2) consistent with the law, adopt regulatons, subject to the Administrative Procedure Act (AS 44.62), establishing the qualifications of pilots and providing for the examination of pilots and the issuance of original or renewal pilot licenses to qualified persons;

(3) keep a register of licensed pilots, vessels, operators, agents and manager;

(4) regulate pilotage fees; and

(5) make available, upon request, copies of this chapter and the regulations adopted under it.

(b) The board may, by regulation, make any other provision for proper and safe pilotage upon the waters covered by this chapter and for the efficient administration of this chapter. (sec 2 ch 106 SLA 1970)

08.62.140

Sec. 08.62.140. FEES. The following fees shall be imposed under this chapter when applicable:

(1) application fee..... $ 10
(2) biennial license fee..... $200
(sec 2 ch 106 SLA 1970)

08.62.150

Sec. 08.62.150. DENIAL, REVOCATION OR SUSPENSION. (a) The board, after compliance with the Administrative Procedure Act (AS 44.62), may deny, revoke or suspend the license of a person who

(1) is incompetent in the performance of his pilotage duties;

(2) is habitually intoxicated;

(3) illegally uses or sells narcotic or hallucinogenic drugs;

(4) makes a false statement to obtain a license;

(5) violates a provision of this chapter or a regulation adopted under it; or

(6) is guilty of misconduct during the course of his employment.

(b) A license denied, revoked or suspended under (a) of this section may not be granted or reinstated until

(1) the reason for the license denial, revocation or suspension has been remedied; and

(2) the period of suspension has been served and all fines imposed under this chapter have been paid. (sec 2 ch 106 SLA 1970)

08.03.010.

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);

(2) Board of Dental Examiners (AS 08.36.010);

(3) State Medical Board (AS 08.64.010);

(4) Board of Nursing (AS 08.68.010);

(5) Board of Dispensing Opticians (AS 08.71.010);

(6) Board of Examiners in Optometry (AS 08.72.010);

(7) Board of Pharmacy (AS 08.80.010);

(8) Board of Veterinary Examiners (AS 08.98.010);

(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);

(10) Board of Nursing Home Administrators (AS 08.70.010);

(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);

(2) Board of Barber Examiners (AS 08.12.010);

(3) Collection Agency Board (AS 08.24.011);

(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);

(5) Board of Electrical Examiners (AS 08.40.010);

(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);

(7) Guide Licensing and Control Board (AS 08.54.010);

(8) Board of Marine Pilots (AS 08.62.010);

(9) Real Estate Commission (AS 08.88.011);

(10) Board of Welding Examiners (AS 08.99.010);

(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

STATE OF ALASKA
THE LEGISLATURE

POUCH Y · STATE CAPITOL
JUNEAU, ALASKA 99811
907·465·3800

LEGISLATIVE AFFAIRS AGENCY

MEMORANDUM April 28, 1980

SUBJECT: Section-by-section analysis of SB 573 dealing with the Board of Marine Pilots (Work Order Number 8525)

TO: Senator Brad Bradley
Chairman, Senate Commerce Committee

FROM: Tamara Brandt Cook TBC
Legislative Counsel

You have requested a section-by-section analysis of Senate Bill 573 entitled: "An Act continuing the existence of the Board of Marine Pilots and amending the law relating to its powers and responsibilities, and providing for an effective date."

(P.1, lines 16-18) Sec 1, AS 08.62.020.

(1) ~~Section 1~~. This change forbids a board member from serving more than two consecutive terms, but does not limit the total number of terms which a person may serve. The commissioner of the Department of Commerce and Economic Development or his designee is a member of the board, and this provision does not apply to him. This was done to allow more turnover on the board creating more diversity.

(P.1, lines 20-31) Sec 2, AS 08.62.040(a)(3):

(2) ~~Section 2~~. The board must keep a register of licensed pilots and agents, but is no longer required to keep a register of vessels, operators, and managers. Operators is an undesirable term in sea-going language. Any vessels from all over the world can be in our -

(3) Section 3. Under existing law the board has the duty to regulate pilotage fees. This section requires the board to adopt regulations establishing standards by which fees may be set and to pay for audits if an audit is needed to collect information required in order to apply the standards in the regulations. This has been a need for substantial rate setting of the fees.

(P1, lines 23-26) Sec 3, AS 08.62.040(a)

(4) ~~Section 4~~. The fees provided for under existing law are increased. An additional biennial registration fee is added. Agents have not been registering + by attaching a fee to the registration it is believed that registration for agents would become more uniform + more agents would register. Registration fees on ocean going vessels are attached.

(P2, line 1-3)

(P 2, line 4-5) Sec 5, AS 08.62.150(a).

~~Section~~ 5. Under certain specified conditions the board may impose a disciplinary sanction on a person. This section adds, as a condition which would allow the board to deny a license, revoke a license, or suspend a license, the revocation of a federal pilots license held by a person licensed or seeking a license under this chapter. It is felt that one losing his federal license is grounds for revocation of the state license.

(P2, line 7-9) Section 6. This is a new provision requiring a person to have his name on the register of agents before he may act as the agent of a vessel. This enables quicker control of agents.

~~Sec~~. Sec. 6, AS 08.62.187.

(P2, line 10-11) AS 08.03.010(c) Section 7. June 30, 1983 is the termination date for the Board of Marine Pilots.

→ AS 08.03.010(6)(8) -

(P2, line 12) Section 8. This section repeals the existing termination date, June 30, 1980, for the Board of Marine Pilots.

(P2, line 13) Section 9. The effective date of this act is June 30, 1980, the date upon which the Board of Marine Pilots is scheduled to terminate.

If you have any further questions regarding this matter, please contact me.

TBC:ljb

ORDER TO APPLY THE STANDARDS IN THE REGULATIONS. THERE HAS BEEN A NEED FOR SUBSTANTIATING THE SETTING OF THE FEES.

(SEC. 08.62.140)
P. 2, Ls. 1-3

SECTION 4 INCREASES THE FEES PROVIDED FOR UNDER EXISTING LAW. AN ADDITIONAL BIENNIAL REGISTRATION FOR AGENTS IS ADDED. AGENTS HAVE NOT BEEN REGISTERING AND BY ATTACHING A FEE TO THE REGISTRATION IT IS BELIEVED THAT REGISTRATION FOR AGENTS WOULD SEEM MORE IMPORTANT AND HENCE MORE AGENTS WOULD REGISTER. REGISTRATION TAKES ON MORE VALUE WHEN A FEE IS ATTACHED.

(SEC. 08.62.150(A))
P. 2, Ls. 4-5

SECTION 5. UNDER CERTAIN SPECIFIED CONDITIONS THE BOARD MAY IMPOSE A DISCIPLINARY SANCTION ON A PERSON. SECTION 5 ADDS, AS A CONDITION WHICH WOULD ALLOW THE BOARD TO DENY A LICENSE, REVOKE A LICENSE, OR SUSPEND A LICENSE, THE REVOCATION OF A FEDERAL PILOTS LICENSE HELD BY A PERSON LICENSED OR SEEKING A LICENSE UNDER THIS CHAPTER. IT IS FELT THAT ONE LOOSING HIS FEDERAL LICENSE IS GROUNDS FOR REVOCATION OF THE STATE LICENSE.

(SEC. 08.62.187)
P. 2, Ls. 7-9

SECTION 6 IS A NEW PROVISIONS REQUIRING A PERSON TO HAVE HIS NAME ON THE REGISTER OF AGENTS BEFORE HE MAY ACT AS THE AGENT OF A VESSEL. THIS ENABLES GREATER CONTROL OF AGENTS.

SENATE BILL 573

BOARD OF MARINE PILOTS

MR. PRESIDENT, I MOVE THE ADOPTION OF SENATE BILL 573, WHICH IS IDENTICAL, AT THIS POINT, TO THE HOUSE BILL FOR THE SAME BOARD. WE HAVE WORKED JOINTLY TO TRY TO PREVENT AN UNNECESSARY AND OFTEN TIME-CONSUMING FREE CONFERENCE COMMITTEE.

(SEC. 08.62.020)
P. 1, LS 16-18

SECTION 1 IS CHANGED TO FORBID A BOARD MEMBER FROM SERVING MORE THAN TWO CONSECUTIVE TERMS, BUT DOES NOT LIMIT THE TOTAL NUMBER OF TERMS WHICH A PERSON MAY SERVE. THE COMMISSIONER OF THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT OR HIS DESIGNEE IS A MEMBER OF THE BOARD, AND THIS PROVISION DOES NOT APPLY TO HIM. THIS WAS DONE TO ALLOW MORE TURNOVER ON THE BOARD CREATING MORE DIVERSITY.

why?

(SEC. 08.62.040(A)(3)
P. 1, LS. 20-21

SECTION 2 IS AMENDED TO STATE THAT THE BOARD MUST KEEP A REGISTER OF LICENSED PILOTS AND AGENTS, BUT IS NO LONGER REQUIRED TO KEEP A REGISTER OF VESSELS, OPERATORS, AND MANAGERS. "OPERATORS" IS AN UNDEFINABLE TERM IN SEA-GOING LANGUAGE. ANY VESSEL FROM ALL OVER THE WORLD CAN BE IN OUR WATERS AND THE COMPILING OF A LIST IS VIRTUALLY IMPOSSIBLE. LLOYDS OF LONDON COMPILED SUCH A LIST AND IT COMPRISED VOLUMES.

why not define reason for managers being excluded.

(SEC. 08.62.040(A)(4))
P. 1, LS. 23-26

SECTION 3 REQUIRES THE BOARD TO ADOPT REGULATIONS ESTABLISHING STANDARDS BY WHICH FEES MAY BE SET AND TO PAY FOR AUDITS IF AN AUDIT IS NEEDED TO COLLECT INFORMATION REQUIRED IN

Introduced: 4/22/80
Referred: Commerce

IN THE SENATE BY THE COMMERCE COMMITTEE

SENATE BILL NO. 573

IN THE LEGISLATURE OF THE STATE OF ALASKA

ELEVENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act continuing the existence of the Board of Marine Pilots and amending the law relating to its powers and responsibilities; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. AS 08.62.020 is amended to read:

Sec. 08.62.020. APPOINTMENT AND TERM OF OFFICE. The governor shall appoint the pilot and agent [or manager] members of the board, subject to confirmation by a majority of the members of the legislature in joint session, for terms of four years, or until their successors are appointed. The first members shall be initially appointed for one, two, three and four year terms. No person, with the exception of the commissioner or his designee, may be appointed to the board for more than two consecutive terms.

* Sec. 2. AS 08.62.040(a)(3) is amended to read:

(3) keep a register of licensed pilots, and [VESSELS, OPERATORS,] agents [, AND MANAGERS];

* Sec. 3. AS 08.62.040(a)(4) is repealed and re-enacted to read:

(4) adopt regulations under the Administrative Procedure Act (AS 44.62) establishing standards by which pilotage fees may be established, and pay for audits whenever an audit is necessary to collect information needed to apply the standards in the regulations;

* Sec. 4. AS 08.62.140 is amended to read:

Sec. 08.62.140. FEES. The following fees shall be imposed under this chapter when applicable:

THE LEGISLATURE OF THE STATE OF ALASKA

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

No fiscal impact is associated with passage of this bill.

It is also felt that the audits necessary to collect information for the establishment of pilotage fees would not be very large and could be absorbed by the division.

(W) - (white cover) - Senate Commerce Committee Public Hearing Testimony, December 10, 1979

1. Examinations - Statutory elimination of the Coast Guard exam as a prerequisite to the State Exam. ~~Redundant.~~ need both exams
   (Y) - p 5, last paragraph; p 6, first paragraph
   (B) - p 5, paragraph 4; p 7
   (W) - p 2, paragraph 3; p 3, paragraph 1; p 4; p 5, paragraph 4

2. Increase the biennial license fee to $300 (presently $200) and the application fee to $50 (presently $10).
   (Y) - p 3; p 11, paragraphs 2 and 3
   (B) - p 25
   (W) - page 16; page 18

3. Repeal Sec. 08.62.040 (2)(4) which gives the board the power to regulate pilotage fees. I suggest that this power be given to an existing regulation body, such as the Alaska Transportation Commission, which already has a rate structure within it.
   (Y) - p 7, last paragraph; p 8
   (B) - p 6; p 7, last paragraph; p 12
   (W) - p 6 (Capt. Ed Murphy); p 28, paragraph 1; p 30

4. The Board of Marine Pilots should be continued for four more years.
   (Y) - p 1
   (B) - p 7, paragraph 2
   (W) - p 2, paragraph 3; p 6, paragraph 2

5. Repeal Sec. 08.62.110 (AS 30.10 was repealed in 1970) and the portion of Sec. 08.62.120 which states "A license issued under AS 30.10 lapses at the end of calendar year 1970."
   (Y) - p 11; p 13 (obsolete)

6. AS 08.62.040(a(3) - repeal vessels in section.
   (a) The board shall:
   (3) Keep a register of licensed pilots, [vessels], ~~operators,~~ Shippers agents, ~~and managers~~
   (Y) - This is a suggestion by OL and Elaine Garrett may wish to comment on this. Evidently there is no way OL is able to keep a register on all vessels. They are performing this function for the Board of Marine Pilots.

7. Members of the Board may be appointed to serve no ~~more~~ more than two full terms, excluding the Commissioner. Don Smith

7. Section 08.62.150 should be amended to include failure to maintain qualifications for the original license as a basis for mandatory revocation, suspension, or refusal to re-issue a license.

8. In keeping with the Board's mandate to provide for the maintenance of efficient pilot service for Alaska, AS 08.62.040(4) should be amended to require that marine pilot associations have their records audited annually by a certified public accountant approved by the Board, a copy of such report shall be submitted promptly to the Board.

BOARD OF MARINE PILOTS

1. Section 08.62.040(4) should be amended to read:

The Board shall:

(4) regulate pilotage fees and consistent with the law, adopt regulations, subject to the Administrative Procedure Act (AS 44.62), justifying the setting of these fees. audits ~~required~~ by regulation to carry out this section will be paid for by the Board.

OR

The Board shall:

(4) regulate pilotage fees and develop specific regulations to substantiate these fees.

(a) the Board shall establish regulations for input by marine pilots, industry, and public in the setting of these fees.

2. AS 08.62.040 (a) (3) Repeal [vessels] [operators] and [managers] in section.

(a) The Board shall:

(3) Keep a register of licensed pilots and agents. Evidently, vessels with over 1600 gross tons of cargo, or those vessels which carry dangerous cargo (chemicals, etc.) must give 24-hour notice to the Coast Guard before their arrival to the Captain of the particular port. (Registry, etc.)

Operators and managers are not proper terms.

3. Agents who represent ships subject to the state pilotage Act shall pay a biennial registration fee of $100.00.

The agents are not paying any registration fee at this time and by doing so they would be more likely to register. There is evidently a large number of agents who are not registered at this time and this suggestion could help eleviate this problem.
The pilots are required to pay a fee so the agents should also. This would also give the general fund more monies which might allow more than one meeting a year by the Board of Marine Pilots.

BOARD OF MARINE PILOTS

For the Committee's information see attached letter from the Department of Transportation, State of Washington, regarding the procedures in establishing their pilotage fees.

BOARD OF PILOTAGE COMMISSIONERS

October 23, 1979

Ms. Elaine Garrett
Department of Commerce & Economic
Development
Division of Occupational Licensing
Pouch D
Juneau, AK 99811

Dear Ms. Elaine Garrett:

This letter responds to your telephone inquiry as to how pilotage tariffs are set in Washington State.

The Board of Pilotage Commissioners is charged with the annual setting of pilotage fees (RCW 88.16.035(4)). A copy of the current pilotage act is attached. For many years it has been the practice that the pilots associations, and the Puget Sound Steamship Operators Association (their pilotage committee) will negotiate a level of fees to which both sides ultimately come to an agreement. With previous communication, as the negotiations progress, the Board will set a hearing date to hear testimony and ask questions of the two sides as to how the agreement was reached. Because of the agreement between the parties, the Board is usually inclined to adopt the rates as proposed. The rate hearings are therefore usually very short in duration and when completed the usual monthly meeting is commenced (the hearing is set on the day of the regular meeting).

Last year the Grays Harbor pilots received a 7% increase; the Puget Sound pilots received a rate increase of 8.3%, covering an 18 months period. Negotiations are commencing now for the next round.

As you can see the Board spends very little time in the actual tariff making process. We feel this is better handled by the parties directly involved, i.e., the ones providing the services and the ones paying the bills.

Copies of the two current tariffs are attached along with copies of minutes of the two hearings at which they were adopted.

We hope this information will be of assistance to you in your efforts to establish your next set of tariff changes. If any members of the Commission or your staff are interested, our Board meetings are held the second Thursday of each month. We would be delighted to have you attend so as to exchange matters of mutual interest and concern.

Please let us know if we can be of further assistance.

Sincerely,

BOARD OF PILOTAGE COMMISSIONERS

Richard A. Berg
Chairman

H. Phillip Hubbard
Deputy Commissioner
Department of Commerce
Pouch D
Juneau, Alaska 99811

Re: Tariffs for licensed pilots on enrolled ships (AS 08.62.040, AS 08.62.180, 12 AAC 56.160(j))

Dear Deputy Commissioner Hubbard:

You have requested an opinion from the Attorney General whether or not the Board of Marine Pilots has statutory authority to regulate tariffs charged by licensed pilots employed on enrolled ships. It is the opinion of this department that the board does have such authority. The rationale for this conclusion is set out below.

The powers and duties of the board are set out in AS 08.62.040(a), which reads in part as follows:

> (1) provide for the maintenance of efficient and competent pilot service on all waters covered by this chapter to assure protection of shipping and the safety of human life and property;
>
> # # # # * *
>
> (4) regulate pilotage fees; . . . .

This statute then gives the board authority to regulate services by licensed pilots on specified waterways to assure protection of shipping, the safety of human life and property, and to regulate tariffs charged by licensed pilots for their services.

Under As 08.62.180(1), "vessels under enrollment" are explicitly excepted from the requirements of AS 08.62. However, the board has promulgated regulation 12 AAC 56.160(j) which reads as follows:

> When a pilot licensed under AS 08.62 is employed on an enrolled ship, the same regulations [as for ships not excepted from the requirements of AS 08.62] apply.

It is generally held that an express exception in a statute "comprises the only limitation on the operation of the statute and no other exception will be implied." 1/ In the matter at hand, the fact that AS 08.62.180(1) provides an express exception for enrolled vessels does not require an implied exception from the board's tariff regulations for licensed pilots employed on those vessels.

The enrolled ship exception in AS 08.62.180(1) does not expressly extend to licensed pilots employed on such vessels. That is, the board is authorized and has the duty to establish qualifications of licensed pilots to provide for examination of pilots and their licensing, and to provide for efficient and competent pilot service, as well as, to regulate pilotage fees for licensed pilots regardless of whether the vessel in question is enrolled. One might at first view this result as indirect regulation of the enrolled vessels themselves, in violation of AS 08.62.180(1). However, owners of enrolled vessels are not required to take on licensed pilots while in Alaskan waters. These owners are free to go elsewhere for pilotage advice.

Therefore, it is the opinion of this department that the board is authorized under AS 08.62.040 to regulate tariffs charged by licensed pilots employed on enrolled ships. And so, 12 AAC 56.160(j) is a valid regulation pursuant to this authority.

Sincerely yours,

AVRUM M. GROSS
ATTORNEY GENERAL

February 29, 1980

Honorable W. E. Bradley
Chairman, Senate Commerce Committee
State of Alaska
State Capitol
Pouch V — Mail Stop 3100
Juneau, Alaska 99811

Dear Senator Bradley:

At the January 30, 1980, Sunset Hearings on the Board of Marine Pilots held by the House Commerce Committee in Juneau, I presented testimony on behalf of the American Institute of Merchant Shipping (AIMS). During discussions following my prepared testimony, I was requested to categorize AIMS' recommendations into statutory and regulatory proposals. I am pleased to respond at this time to that request, and would also like to take this opportunity to offer further comment on other issues not fully explored during the Hearing which may have a bearing on your deliberations.

With respect to categorizing AIMS' recommendations into statutory or regulatory proposals, I offer the following:

Licensing State Pilots

1. Continue to require Federal pilotage endorsements as a prerequisite to State pilotage.

   No action is requested. This requirement is included under 12 AAC 56.030(2).

2. Eliminate those State license examination requirements which duplicate Federal pilotage examinations.

   It is recommended that language be added to AS 08.62.040(2) permitting elimination of examination requirements

3. Seek active USCG liaison with the Board of Marine Pilots.

It is recommended that the Board of Marine Pilots be encouraged to solicit active liaison with the U. S. Coast Guard regarding establishment of appropriate guidelines for pilot qualification, examination, recertification and discipline. In this regard, we encourage the State to request such a U. S. Coast Guard representative to be stationed in, or be in close contact with, U. S. Coast Guard Headquarters in Washington. This will ensure uniformity of application nationwide.

Pilot Recertification

As indicated in AIMS' Testimony, recertification procedures are too vague to assure that the intent of the legislature is met. In addition, the USCG will, in the near future, issue new procedures for recertification of Federal pilots. AIMS proposes that a committee of interested parties, including the pilots, industry, USCG and Board of Members be established to identify and recommend statutory or regulatory changes to strengthen this most important area.

Pilot Discipline

1. Clarify the terms "incompetent" and "misconduct."

This subject should be included in the scope of the previously recommended Committee's work.

(2.) Suggest Alaska standards for revocation or suspension of State pilot licenses be established similar to USCG standards and procedures for revocation or suspension of Federal pilot licenses.

AIMS proposes Section 08.62.160 should be amended to include failure to maintain qualifications for the original license as a basis for mandatory revocation, suspension, or refusal to re-issue a license.

Regulation of Fees

1. Provide more detailed criteria for evaluating pilotage rate changes.

Section 08.62.040(4) should be amended to require that

individual pilot compensation must be adequate, but not excessive, to assure that qualified personnel are attracted to the service, and that consideration must be given to difficulty of pilotage, length of time on the job, hours on standby, area standards of living, ratio of time off to time worked, benefits, necessary expenses, including pilot boat cost if required, and equitable distribution of these costs to the users of the pilotage service.

2. Require annual financial audit of pilot associations by state auditors with the audit available to the public.

In keeping with the Board's mandate to provide for the maintenance of efficient pilot service for Alaska, AS 08.62.040(4) should be amended to require that marine pilot associations have their records audited annually by a certified public accountant approved by the Board, a copy of such report shall be submitted promptly to the Board.

Board Composition

(1.) Provide for tanker industry representation on the Board.

It is proposed that AS 08.62.101 be amended to specify that one industry member of the Board be a representative of the tanker industry. This member could make a significant contribution to the Board through the industry's resources and experience. In order to assure that a person of sufficient experience and knowledge is available for service to the Board, the State residency requirement for that representative should also be expanded to permit any U.S. citizen to qualify for appointment.

Regulation of Enrolled Vessels

(1.) Eliminate those Sections of State Statute AS 08.62 added by passage of HB 510 in 1977 because they conflict with Federal law.

AS 08.62.185 should be repealed in its entirety for reasons already presented in AIMS' testimony.

In addition to clarifying AIMS' proposals to the Committee, I would like to discuss more fully two statements which were made by others during the Hearings which were inaccurate.

The first was that pilots assume responsibility for the safe navigation of the vessel when piloting. This statement is not consistent with the widely recognized master/pilot relationship which, by Federal and international law, holds the master fully and ultimately responsible for the safe navigation of the vessel at all times except when transiting the Panama Canal. The pilot, whether required by law or not, acts as an advisor to the master with respect to local conditions. Any orders which the pilot may give to the helmsman are given under the direct supervision of the master and with his approval. The master has the responsibility and authority to countermand any order given by the pilot, or to relieve the pilot if he believes the safety of the ship is being jeopardized.

A second statement was made that Federal, or employee, pilots are influenced by the vessel owner to "maintain schedule or move the vessel with unacceptable margins of safety," and therefore the State pilot "places a higher priority on the protection of life, property and the environment." This argument is obviously without merit when one considers the owner's investment in his ship, its cargo and crew and the social and financial consequences which would result from a vessel casualty. No one has more to lose than the U.S. ship owner when safety is not the paramount consideration in vessel operation.

Furthermore, it is not necessary for a Federal pilot to be an employee of the shipowner or operator. Independent Federal pilot services are available at many U.S. ports and provide both channel navigation and docking pilot services.

In closing, let me thank you again for the opportunity to express AIMS' views on this most important matter. I will be happy to try to provide you and other members of the Committee with any further information you may request.

Very truly yours,

Mark R. Johnson
Assitant to the Director
of Marine Affairs

LEGISLATIVE AFFAIRS AGENCY

M E M O R A N D U M April 28, 1980

SUBJECT: Section-by-section analysis of SB 573 dealing with the Board of Marine Pilots (Work Order Number 8525)

TO: Senator Brad Bradley
Chairman, Senate Commerce Committee

FROM: Tamara Brandt Cook TBC
Legislative Counsel

You have requested a section-by-section analysis of Senate Bill 573 entitled: "An Act continuing the existence of the Board of Marine Pilots and amending the law relating to its powers and responsibilities; and providing for an effective date."

Section 1. This change forbids a board member from serving more than two consecutive terms, but does not limit the total number of terms which a person may serve. The commissioner of the Department of Commerce and Economic Development or his designee is a member of the board, and this provision does not apply to him.

Section 2. The board must keep a register of licensed pilots and agents, but is no longer required to keep a register of vessels, operators, and managers.

Section 3. Under existing law the board has the duty to regulate pilotage fees. This section requires the board to adopt regulations establishing standards by which fees may be set and to pay for audits if an audit is needed to collect information required in order to apply the standards in the regulations.

Section 4. The fees provided for under existing law are increased. An additional biennial registration fee is added.

Section 5. Under certain specified conditions the board may impose a disciplinary sanction on a person. This section adds, as a condition which would allow the board to deny a license, revoke a license, or suspend a license, the revocation of a federal pilots license held by a person licensed or seeking a license under this chapter.

Section 6. This is a new provision requiring a person to have his name on the register of agents before he may act as the agent of a vessel.

Section 7. June 30, 1983 is the termination date for the Board of Marine Pilots.

Section 8. This section repeals the existing termination date, June 30, 1980, for the Board of Marine Pilots.

Section 9. The effective date of this act is June 30, 1980, the date upon which the Board of Marine Pilots is scheduled to terminate.

If you have any further questions regarding this matter, please contact me.

Alaska State Legislature

Senate

Committee on Commerce

Official Business

Pouch V
State Capitol
Juneau, Alaska 99811

March 13, 1980

The Honorable Clem Tillion
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Your Senate Commerce Committee has had under consideration for "Sunset" review the Board of Marine Pilots pursuant to your referral under AS 44.66.050 and AS 08.03.010.

In accordance with the statutory requirements, a public hearing was held on the review of this board, members of the board testified in person or by teleconference. The Committee considered the proposed budget of the board for FY 1981 and particularly examined the performance audit of the activities of the board prepared by the Legislative Audit Division.

Guided, in part, by the report prepared by the Legislative Audit Division the Committee took into consideration the factors required to be considered under AS 44.66.050(c).

The Committee feels it has adequately addressed the recommendations and categories required under AS 44.66.050(d), and recommends that the Board of Marine Pilots be continued for another four years, that is, that the repealer with regard to the activities of the board be amended to read June 30, 1984.

A bill will be introduced by the Commerce Committee to implement the recommendations in this report.

Respectfully submitted,

Brad Bradley

Senator Brad Bradley
Chairman
Senate Commerce Committee

BB/bm

08.62.020

Sec. 08.62.020. APPOINTMENT AND TERM OF OFFICE. The governor shall appoint the pilot and agent or manager members of the board, subject to confirmation by a majority of the members of the legislature in joint session for terms of four years, or until their successors are appointed. The first members shall be initially appointed for one, two, three and four year terms. (sec 2 ch 106 SLA 1970)

Sec. 08.62.030. MEETINGS. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman with prior approval of the governor. (sec 2 ch 106 SLA 1970)

08.62.040

Sec. 08.62.040. POWERS AND DUTIES. (a) The board shall

(1) provide for the maintenance of efficient and competent pilot service on all waters covered by this chapter to assure protection of shipping and the safety of human life and property;

(2) consistent with the law, adopt regulatons, subject to the Administrative Procedure Act (AS 44.62), establishing the qualifications of pilots and providing for the examination of pilots and the issuance of original or renewal pilot licenses to qualified persons;

(3) keep a register of licensed pilots, vessels, operators, agents and manager;

(4) regulate pilotage fees; and

(5) make available, upon request, copies of this chapter and the regulations adopted under it.

(b) The board may, by regulation, make any other provision for proper and safe pilotage upon the waters covered by this chapter and for the efficient administration of this chapter. (sec 2 ch 106 SLA 1970)

08.62.140

Sec. 08.62.140. FEES. The following fees shall be imposed under this chapter when applicable:

(1) application fee..... $ 10
(2) biennial license fee..... $200
(sec 2 ch 106 SLA 1970)

08.62.150

Sec. 08.62.150. DENIAL, REVOCATION OR SUSPENSION. (a) The board, after compliance with the Administrative Procedure Act (AS 44.62), may deny, revoke or suspend the license of a person who

(1) is incompetent in the performance of his pilotage duties;

(2) is habitually intoxicated;

(3) illegally uses or sells narcotic or hallucinogenic drugs;

(4) makes a false statement to obtain a license;

(5) violates a provision of this chapter or a regulation adopted under it; or

(6) is guilty of misconduct during the course of his employment.

(b) A license denied, revoked or suspended under (a) of this section may not be granted or reinstated until

(1) the reason for the license denial, revocation or suspension has been remedied; and

(2) the period of suspension has been served and all fines imposed under this chapter have been paid. (sec 2 ch 106 SLA 1970)

THE BOARD OF MARINE PILOTS STATUTES

08.03.010.

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);
(2) Board of Dental Examiners (AS 08.36.010);
(3) State Medical Board (AS 08.64.010);
(4) Board of Nursing (AS 08.68.010);
(5) Board of Dispensing Opticians (AS 08.71.010);
(6) Board of Examiners in Optometry (AS 08.72.010);
(7) Board of Pharmacy (AS 08.80.010);
(8) Board of Veterinary Examiners (AS 08.98.010);
(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);
(10) Board of Nursing Home Administrators (AS 08.70.010);
(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);
(2) Board of Barber Examiners (AS 08.12.010);
(3) Collection Agency Board (AS 08.24.011);
(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.28.010);
(5) Board of Electrical Examiners (AS 08.40.010);
(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);
(7) Guide Licensing and Control Board (AS 08.54.010);
(8) Board of Marine Pilots (AS 08.62.010);
(9) Real Estate Commission (AS 08.88.011);
(10) Board of Welding Examiners (AS 08.99.010);
(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

Sec. 08.01.100. LICENSE RENEWAL, LAPSE AND REINSTATEMENT. (a) All licenses shall be renewed biennially on the dates set by the department with the approval of the respective board.

(b) A registration, license permit or certificates requiring renewal to continue effective must be renewed on or before the date set by the department or it will lapse. A penalty of $10 shall be charged in addition to all delinquent renewal fees for reinstatement of a registration, license, permit or certificate which remains lapsed for more than 60 days.

Sec. 08.01.105. PENALTY FOR IMPROPER PAYMENT. An applicant shall pay a penalty of $10 each time a negotiable instrument is presented to the department in payment of an amount due and payment is subsequently refused by the named payor.

Sec. 08.01.110. DEFINITIONS. In this chapter

(1) "board" includes the boards and commissions listed in sec. 10 of this chapter;
(2) "department" means the Department of Commerce and Economic Development;
(3) "commissioner" means the commissioner of commerce and economic development;
(4) "license" means any license, certificate, permit, or registration or similar evidence of authority issued by one of the boards listed in sec. 10 of this chapter;
(5) "licensee" means any person who holds a license;
(6) "occupation" means any of the trades or professions for which licensure is required by one of the boards listed in sec. 10 of this chapter.

CHAPTER 62. MARINE PILOTS

Article
1. Board of Marine Pilots (secs 08.62.010 - 08.62.040)
2. Licensing (secs 08.62.080 - 08.62.150)
3. General Provisions (secs 08.62.160 - 08.62.200)

Revisor's note (1970) - In ch. 106, SLA 1970, AS 08.62 was incorrectly designated AS 08.87.

ARTICLE 1. BOARD OF MARINE PILOTS

Section
10. Creation and membership of board
20. Appointment and term of office
30. Meetings
40. Powers and duties

Sec. 08.62.010. CREATION AND MEMBERSHIP OF BOARD. There is created the Board of Marine Pilots. It consists of two pilots licensed under this chapter who have been actively engaged in piloting on vessels subject to this chapter, two agents of managers of vessels subject to this chapter, two public members in accordance with AS 08.01.025, and the commissioner or his designee. Not more than one pilot and one agent or manager

shall be from any one judicial district. All members of the board shall be residents of the state. (sec 2 ch 106 SLA 1970; am sec 8 ch 258 SLA 1976) (Eff. of amendment. The 1976 amendment inserted "two public members in accordance with AS 08.01.025" in the second sentence.)

Sec. 08.62.020. APPOINTMENT AND TERM OF OFFICE. The governor shall appoint the pilot and agent or manager members of the board, subject to confirmation by a majority of the members of the legislature in joint session for terms of four years, or until their successors are appointed. The first members shall be initially appointed for one, two, three and four year terms. (sec 2 ch 106 SLA 1970)

Sec. 08.62.030. MEETINGS. The board shall hold a regular annual meeting. The board may hold special meetings at the call of the chairman with prior approval of the governor. (sec 2 ch 106 SLA 1970)

Sec. 08.62.040. POWERS AND DUTIES. (a) The board shall

(1) provide for the maintenance of efficient and competent pilot service on all waters covered by this chapter to assure protection of shipping and the safety of human life and property;
(2) consistent with the law, adopt regulatons, subject to the Administrative Procedure Act (AS 44.62), establishing the qualifications of pilots and providing for the examination of pilots and the issuance of original or renewal pilot licenses to qualified persons;
(3) keep a registor of licensed pilots, vessels, operators, agents and manager;
(4) regulate pilotage fees; and
(5) make available, upon request, copies of this chapter and the regulations adopted under it.

(b) The board may, by regulation, make any other provision for proper and safe pilotage upon the waters covered by this chapter and for the efficient administration of this chapter. (sec 2 ch 106 SLA 1970)

ARTICLE 2. LICENSING

Section
80. License requirement
90. Application
100. Qualifications
110. Previous licensure
120. Duration, renewal
130. Lapsed license
140. Fees
150. Denial, revocation or suspension

Sec. 08.62.080. LICENSE REQUIREMENT. No person may pilot a vessel subject to this chapter unless he is licensed under this chapter. (sec 2 ch 106 SLA 1970)

Sec. 08.62.090. APPLICATION. (a) A person who desires to be licensed under this chpater shall apply in writing to the department.

(b) The application shall provide the information and be made on a form prescribed by the board. (sec 2 ch 106 SLA 1970)

Sec. 08.62.100. QUALIFICATIONS. A person is entitled to a license under this chapter if he

(1) is of good moral character;
(2) is a citizen of the United States;
(3) passes the examination given by the board; and
(4) qualifies under the regulations adopted under section 40(a)(2) and (b) of this chapter. (sec 2 ch 107 SLA 1970)

Sec. 08.62.110. PREVIOUS LICENSURE. A license that was issued under AS 30.10 is considered as having been issued under this chapter. (sec 2 ch 106 SLA 1970)

Sec. 08.62.120. DURATION, RENEWAL. A license issued under this chapter shall be renewed biennially on dates set by the department. A license issued under AS 30.10 lapses at the end of calendar year 1970. A license issued between May 7, 1970 and the end of 1970 shall be issued for a fee of $100. A license shall be renewed without examination upon the payment of the biennial license fee. (sec 2 ch 106 SLA 1970)

Sec. 08.62.130. LAPSED LICENSE. A lapsed license may be reinstated without examination if it has not remained lapsed for more than two years. However, if the license is lapsed for less than two years and the board has reason to believe that the person applying for reinstatement of his license in incapable or incompetent to carry out the duties of a licensed marine pilot, the board may require the applicant to take and pass the examination given by the board. (sec 2 ch 106 SLA 1970; am sec 1 ch 22 SLA 1973)

Sec. 08.62.140. FEES. The following fees shall be imposed under this chapter when applicable:

(1) application fee..... $ 10
(2) biennial license fee..... $200
(sec 2 ch 106 SLA 1970)

Sec. 08.62.150. DENIAL, REVOCATION OR SUSPENSION. (a) The board, after compliance with the Administrative Procedure Act (AS 44.62), may deny, revoke or suspend the license of a person who

(1) is incompetent in the performance of his pilotage duties;
(2) is habitually intoxicated;
(3) illegally uses or sells narcotic or hallucinogenic drugs;
(4) makes a false statement to obtain a license;
(5) violates a provision of this chapter or a regulation adopted under it; or
(6) is guilty of misconduct during the course of his employment.

(b) A license denied, revoked or suspended under (a) of this section may not be granted or reinstated until

(1) the reason for the license denial, revocation or suspension has been remedied; and
(2) the period of suspension has been served and all fines imposed under this chapter have been paid. (sec 2 ch 106 SLA 1970)

ARTICLE 3. GENERAL PROVISIONS

Section
160. Mandatory employment of licensed pilots
170. Pilot's lien for compensation
180. Exemptions
190. Penalty
200. Definitions

Sec. 08.62.160. MANDATORY EMPLOYMENT OF LICENSED PILOTS. A vessel subject to this chapter navigating the inside coastal waters of Alaska as determined by regulations shall employ a pilot holding a valid license under this chapter. (sec 2 ch 106 SLA 1970)

Sec. 08.62.170. PILOT'S LIEN FOR COMPENSATION. Each vessel, its tackle, apparel and furniture and the owner of the vessel are jointly and severally liable for the compensation of a pilot employed on the vessel and the pilot has a lien on the vessel, her tackle, apparel and furniture for his compensation. (sec 2 ch 106 SLA 1970)

Sec. 08.62.180. EXEMPTIONS. This chapter does no apply to

(1) vessels under enrollment;
(2) fishing vessels registered in the United States or in British Columbia, Canada;
(3) motorboats as defined in sec. 1 of the Federal Motorboat Act of 1940 (54 Stat. 163; 46 U.S.C., sec. 526 et seq.);
(4) vessels of United States registry of less than 300 gross tons and tow boats of United States registry and vessels owned by the State of Alaska, engaged exclusively

(A) on the rivers of Alaska; or
(B) in the coastwise trade on the west coast of the United States including Alaska, Hawaii, and British Columbia, Canada;

(5) vessels of Canada, including Canadian cruiseships, engaged in frequent trade between British Columbia and Alaska, if reciprocal exemptions are granted by Canada to vessels owned by the State of Alaska and those of United States registry; and
(6) pleasure craft. (sec 2 ch 106 SLA 1970; am sec 1 ch 43 SLA 1972)

Effect of amendment-The 1972 amendment inserted "of United States registry of less than 300 gross tons" after "vessels in (4) and added "or" in (A).

Sec. 08.62.190. PENALTY. A master or owner of a vessel required by this chapter to employ a licensed pilot who fails to do so when a licensed pilot is available, unless the perils or hazards of the sea prevent the employment of a pilot, is guilty of a misdemeanor and, upon conviction, is punishable by a fine of not less than $1,000 nor more than $5,000. A person who violates any other provision of this chapter or a regulation adopted under it is guilty of a misdemeanor and, upon conviction, is punishable by a fine of not less than $500 nor more than $1,000. (sec 1 ch 34 SLA 1979)

Sec. 08.62.200. DEFINITIONS. In this chapter

(1) "board" means the Board of Marine Pilots;
(2) "commissioner" means the commissioner of the Department of Commerce and Economic Development;
(3) "department" means the Department of Commerce and Economic Development;
(4) "vessel" means all vessels not exempt under 180 of this chapter. (sec 2 ch 106 SLA 1970; am sec 48 ch 218 SLA 1976)

Effect of amendment.-The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraphs (2) and (3).

How shoplifting is draining the economy

Bank robbers have been grabbing headlines since the days of Jesse James. Last year they made off with nearly $25 million in cash and negotiable securities. But that is all small potatoes compared with a less glamorous but far more costly crime that is draining upwards of $8 billion a year from U. S. merchants—and which no one has been able to do much about so far.

The crime is shoplifting, and, according to experts, it contributes to productivity losses, saps the vitality of many retail businesses, and redistributes a significant amount of wealth from stores to thieves and fences—which adds up to higher costs for most consumer goods. Merchandise losses and extra security costs, in fact, add an average of 2% to 3% to everything sold by major department stores and grocery and drug chains, speeding up an already overheated inflationary spiral.

In fact, shoplifting appears to be growing faster than most segments of the economy, including the inflation rate. For as prices rise, many consumers are taking out their frustration and anger on the person along the business chain who is closest at hand: the retail merchant. And as such pilferage gains increasing acceptance among many Americans, it is accelerating the growth of a subterranean economy in the U. S., which some economists claim reached a mind-numbing $195 billion in 1977—or about 10% of the recorded gross national product (BW—Mar. 13, 1978).

Even the Internal Revenue Service has belatedly acknowledged the existence of an underground economy where some $100 billion worth of income from legal sources goes unreported—as well as $35 billion from drug peddling, illegal gambling, and prostitution on which no income tax is paid. So far, the IRS has been unable to estimate the tax loss from such white-collar crimes as shoplifting.

Bankruptcies. For the bigger retailers, all this has become an unpleasant fact of doing business. But for smaller merchants, who can afford neither the losses nor the security to keep them in line, shoplifting can mean financial ruin. According to some estimates, one out of three small-business bankruptcies are the direct result of thefts by employees and customers.

Unlike many other social scientists, economists view such crimes as shoplifting as rational acts in which the thief carefully weighs the personal costs and benefits involved. And according to economist William E. Cobb of the West Virginia College of Graduate Studies, who spent a year talking to fences and surveying shoppers in metropolitan Washington, all the benefits are on the side of the shoplifter. Cobb found that the average veteran shoplifter in 1971 was walking off with more than $30,000 worth of merchandise annually. At 1979 prices, a skilled shoplifter could thus be clearing $53,000 a year. "I'd say that's a pretty good occupation," says Cobb, who also found that only 1 out of 1,250 shoplifters ever sees the inside of a jail cell. And for those who do, almost none ends up behind bars for the act of shoplifting alone. Instead, they are sentenced for such crimes as illegally possessing drugs or weapons when caught by the store detective.

Losses add at least 2% to the prices of most goods. Productivity feels the pinch

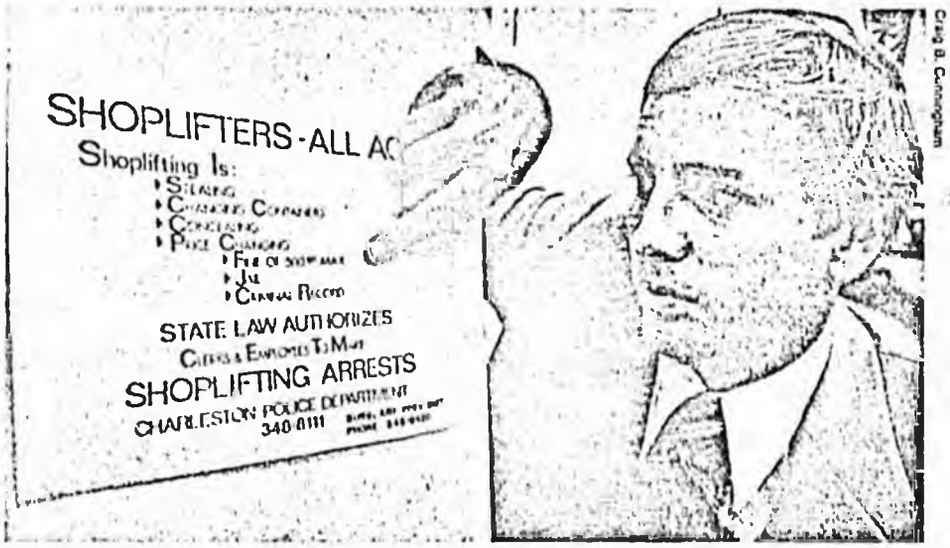
In fact, a good part of the reason why the benefits are all on the side of the shoplifter is that judges are reluctant to imprison them. Many companies in turn, are reluctant to spend time and money prosecuting shoplifters when the courts put them right back on the street. But Cobb and most security experts stress that stores must become tough on thieves. Evidence shows that amateurs, once nabbed, are discouraged from shoplifting again, and that even repeat shoplifters are deterred by being fingerprinted and formally arrested.

But shoplifters prey not just on stores but on the economy as a whole. Edward F. Denison, one of the nation's foremost experts on economic growth and an associate director of the Commerce Dept.'s Bureau of Economic Analysis, says that retail crime takes a significant slice out of U. S. productivity. Extra security means that stores are using money to pay guards and buy electronic equipment that could be spent on adding more consumer goods to the economy. "You are basically adding lots of people and no output," he maintains. And theft means that goods purchased as inventory have disappeared from the store's books and thus, in a sense, from the nation's measurable output.

Compounded losses. Moreover, fences traditionally purchase stolen merchandise for about 25% of its actual value and resell it illegally to stores that are willing to ask few questions in order to buy something at discount. Thus a very real part of the value of the nation's output has been destroyed.

Professional shoplifters often compound the loss still further by returning their stolen goods for a 100% refund to the very stores from which they were taken. And the toll can be even higher—many thousands of times the actual value of the merchandise—because many professional thieves shoplift not to walk off with the store's wares but with an eye to a civil lawsuit for false arrest. Says James J. Kerin, former security director at Macy's New York and now president of security consultant Kerin, Duffy & Hellerer Inc.: "There's no question that a professional shoplifter can kill you [financially]."

As shoplifting has increased, so has the number of professionals living off it. In 1977 police in New York and other



Economist Cobb: Stores have to get tough on shoplifters by prosecuting all thefts.

major U. S. cities reported that members of organized gangs were each netting as much as $1,000 a day stealing better men's and women's clothes. According to Glen R. Dornfeld, who recently retired as security director at Minneapolis-based Dayton's department stores, the professionals today are far more brazen and more violent than any he has ever seen.

Made to order. At Southern California's Von's Grocery Co., C. R. Gresswell, the chain's loss prevention manager, says that he is seeing both more professional shoplifters and more of them carrying weapons. In fact, grocery stores are finding themselves even bigger prey to organized rings, where such easily resold items as meat, cigarettes, and liquor are often shoplifted to order for fences or well-to-do clients.

Economists stress that the only real solution is to change the actual—as well as the perceived—costs of such thefts. West Virginia's Cobb says that stores should redirect the amount they are currently spending on fancy electronic equipment and put their dollars to work in the following areas:

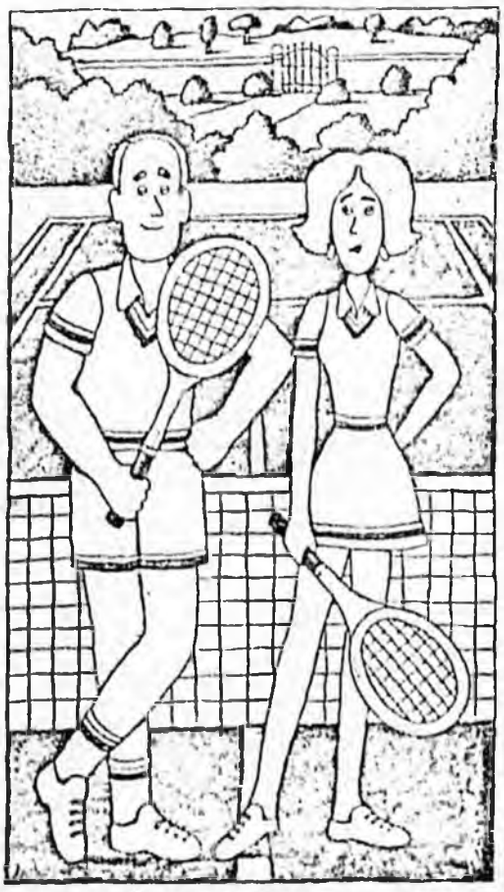
- Prosecuting all shoplifters they catch. Instead, most stores ask apprehended thieves to return the stolen goods and sign a statement admitting the crime and agreeing not to set foot in the store again.
- Advertising the fact that both uniformed and plainclothes detectives are on the watch for potential shoplifters. The idea, Cobb says, is to give thieves the feeling that they can never be sure when they are being observed.
- Mounting dummy cameras and large signs promising dire consequences to shoplifters who are caught—even though such threats may not be valid.
- Hiring actors to pose as shoplifters and periodically staging fake, calm arrests, so that potential thieves get the idea that their misdeeds will be detected. Cobb points out that such ploys have been effective in reducing thefts by employees at major retail chains.

Skilled shoplifters can clear $50,000 a year. Few ever see a jail cell

Dallas-based Zale Corp. claims quite a bit of success using some of these methods, plus some more traditional ones. The company has started a special program to train employees in spotting common shoplifting tricks, has installed a network of closed-circuit cameras, and is busy redesigning its 1,723 stores to eliminate any blind spots where thieves could go to hide merchandise under their clothes or in dummy gift boxes. But most important, says Harry D. Johnson, vice-president for loss prevention, Zale now has a company-wide policy of prosecuting all shoplifters. "Everything has to be done," he says, "to make it difficult for the shoplifter to operate in private."

The big dilemma with all programs aimed at discouraging shoplifters, of course, is that they tend to discourage legitimate shoppers as well. With uniformed guards, ominous-sounding posters, and all kinds of electronic spy equipment around, "people begin to think they are in an armed camp," warns Leonard F. Smith, executive director of the American Management Assn.'s Crimes Against Business Project. Thus, retail stores—particularly those with a wealthier clientele—are constantly faced with the trade-off of more surveillance and less theft or less surveillance and more sales.

But far more significant than this trade-off is the one affecting the cost-benefit ratio for shoplifting itself. Unless repeat shoplifters are treated more like house burglars or bank robbers, and unless the courts and society stop dismissing shoplifting as penny-ante stuff, the toll on inflation and U. S. productivity will just keep mounting. ■



Individual Retirement Accounts. The Scudder Approach:

"A solid return is never a matter of luck."

If you are not currently covered by an employer-sponsored retirement plan, consider the advantages of a Scudder Individual Retirement Account.

With a Scudder IRA, you can make tax-deductible investments of up to 15% of your salary or $1,500 (whichever is less) every year toward your retirement.

Scudder Retirement Plans are backed by more than sixty years of investment counseling experience. Every Scudder plan offers:

- Choice of investment in any of four Scudder no-load funds
- Flexibility of transfer among funds
- Convenience

LEGISLATIVE AFFAIRS AGENCY

M E M O R A N D U M April 3, 1980

SUBJECT: A bill continuing the existence of the Board of Public Accountancy (Work Order No. 8435)

TO: Senate Commerce Committee
Attn: Christian Basler, A.A.

FROM: Tamara Brandt Cook TBC
Legislative Counsel

Here is the bill you requested continuing the existence of the Board of Public Accountancy. The House Commerce Committee considered this board for "sunset" review in House Journal Supplement No. 29. The committee recommended that the changes suggested in the Performance Review of the Board of Public Accountancy dated October 1, 1979 be made, and that, with these changes, the Board be continued.

I have attempted to incorporate the recommendations of this report into the enclosed act. However, several of the changes recommended cannot be appropriately or adequately dealt with in a bill which deals specifically with the Board of Public Accountancy. I suggest that the following recommended changes be incorporated into another bill dealing with the Department of Commerce and Economic Development, rather than with any one particular board.

(1) Recommendation No. 2 suggests that board members be appointed in a timely fashion. I have amended a provision in the enclosed act to require that members of the Board of Public Accountancy be appointed within 60 days of a vacancy; however, a section requiring the governor to make board appointments is currently in the chapter dealing with the department as a whole, and this could be amended to affirmatively require that appointments of all the board members be made within 60 days or within some other reasonable period of time.

(2) Recommendation No. 4 suggests that the board be required to tape record its meetings and that the department be required to keep these tapes on file as public records for 2 years. In the enclosed bill, I have provided that the board shall tape record its meetings and turn these tapes over to the department; however, a statute requiring the department to maintain the tapes for 2 years is probably in order.

(3) Recommendation No. 7 is addressed specifically to problems with record keeping procedures which exist in the Department of Commerce and Economic Development. Requirements as to how the department shall maintain and update records for all boards ought to be contained in a bill specifically directed at the department.

(4) Recommendation No. 8 is also addressed specifically towards the department. It recommends that the department handle investigations in a more comprehensive, efficient and timely manner. In the enclosed act, I provided that the department will handle investigations for the board of public accountancy; but any requirement dealing with how the department will perform this function ought to be incorporated into legislation directed specifically at the department, rather than at this particular board.

If it is your desire that recommended changes to the Department of Commerce and Economic Development be made as a condition to continuing the existence of the Board of Public Accountancy, the effective date of the enclosed act ought to be tied to the effective date of a bill incorporating the recommended changes to the department. If I can be of any assistance in this matter, please contact me.

STATE OF ALASKA

AUDIT DIVISION
POUCH W—ALASKA OFFICE BUILDING

THE LEGISLATURE

FINANCE DIVISION
POUCH WF—STATE CAPITOL

BUDGET AND AUDIT COMMITTEE

JUNEAU, ALASKA 99811

November 2, 1979

Members of the
Legislative Budget and Audit Committee:

In accordance with the intent of Title 24 and 44 of the Alaska Statutes, the Division of Legislative Audit was mandated to perform a "Sunset" review of the Alaska State Board of Public Accountancy.

As many staff members of the Division hold Certified Public Accountant certificates, and are subjected to regulation by that Board, the Division lacked the apparent independence necessary to perform the review.

The Division contracted with R.W. Pavitt and Associates, Inc. and Homan-McDowell Associates (joint venture) to perform this review. Both firms are reputable management consultant businesses that have been in operation for several years.

Due to legal ramifications surrounding the confidentiality of investigative records maintained in the Division of Occupational Licensing, the Division of Legislative Audit excluded the investigative effort from the contractor's audit scope and performed the review of confidential records at the direction of the contractor. Except for the investigative aspects of this report, the content represents only the findings and conclusions of the contractor.

We feel this report discharges our responsibility, mandated under Title 24 and 44. The report is submitted for your review.

Gerald L. Wilkerson, CPA
Legislative Auditor
Division of Legislative Audit

HOMAN-McDOWELL ASSOCIATES

September 28, 1979

Legislative Audit Division
State of Alaska
Pouch W
Juneau, Alaska 99811

Attention: Merle R. Jenson, Deputy Legislative Auditor

Dear Mr. Jenson:

In accordance with the Contract for Services between the Legislative Audit Division and our firm, we have completed a performance review of the Alaska State Board of Public Accountancy using guidelines and standards established in Alaska Statutes for such "sunset" audits.

The report, entitled A PERFORMANCE REVIEW OF THE ALASKA STATE BOARD OF PUBLIC ACCOUNTANCY, is hereby submitted.

Respectfully,

R. W. Pavitt, AICP
President
R. W. Pavitt and Associates, Inc.

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the intent of Alaska Statutes 24.20.271(1) and 44.66.050 (Sunset legislation), a review of the Board of Public Accountancy was conducted to examine Board activities, operations, policies and accomplishments. The purpose of the review is to determine if the Board has operated in a fair, effective, efficient and economical manner in the performance of its statutory functions, duties and responsibilities.

As required by AS 44.66.050, this report shall be considered during the legislative oversight procedure in determining whether the Board of Public Accountancy should be continued or reestablished. The law currently specifies that this Board will terminate on June 30, 1980, but will continue until June 30, 1981 for the purpose of concluding its affairs.

Scope

The major areas studied were the Board's operations, policies, procedures and its examination, licensing, administration, complaint and affirmative action responsibilities. Our review consisted of research, analysis and evaluation of the following:

(1) Applicable Alaska Statutes and Alaska Administrative Code regulations;

(2) Observation of the Board during its August 1 and 2, 1979 meeting in Fairbanks;

(3) Interviews with Board members;

(4) Records and documents of the Board and the Division of Occupational Licensing, Alaska Department of Commerce and Economic Development;

(5) Licensing requirements of other states;

(6) Survey questionnaires sent to 222 resident State licensed accountants;

(7) Interviews conducted with personnel of:

Division of Occupational Licensing
Consumer Affairs Agency (Department of Law)
Human Rights Commission (Office of the Governor)
Office of the Ombudsman
Division of Equal Employment Opportunity (Dept. of Admin.)
Division of Budget and Management (Office of the Governor)
Legislative Finance Division

(8) Complaints filed with:

Division of Occupational Licensing
Consumer Affairs Agency
Human Rights Commission
Division of Equal Employment Opportunity
Office of the Ombudsman

Constraints

This review was constrained by the following limiting factors:

(1) The Board has not established and reported financial and program plans as required by AS 37.07.050, nor has it developed and reported performance information with respect to its effectiveness and accomplishments as required by AS 37.07.090.

(2) The Division of Occupational Licensing (hereafter DOL) has not adequately organized or maintained statistics and files relating to the Board to effectively carry out its administrative responsibilities.

ORGANIZATION AND FUNCTION

Although regulation of the profession of public accountancy in Alaska dates back to 1949, the Alaska State Board of Public Accountancy was established by the First Alaska Legislature when it adopted the Accountancy Act of 1960 (AS 08.04). An amendment to the Act in 1976 added two public members to the Board, bringing its total membership to seven. (Chapter 258 SLA 1976).

The Accountancy Act of 1960 establishes the Alaska State Board of Public Accountancy and assigns to the Board the following major responsibilities:

1. the promulgation and amendment of rules to "establish and maintain a high standard of integrity and dignity in the profession of public accountancy" (AS 08.04.080)
2. granting of certificates of "Certified Public Accountant" to persons meeting the specified requirements (AS 08.04.100)
3. administering the Uniform CPA examination prepared and graded by the Board of Examiners of the American Institute of Certified Public Accountants (AS 08.04.130)
4. consideration of the qualifications of applicants holding certificates in other states or foreign countries (AS 08.04.220)
5. registration of partnerships and corporations engaged in the practice of public accountancy (AS 08.04.240)
6. granting of licenses as "Public Accountant" to persons meeting the specified requirements (AS 08.04.270)
7. prescribing requirements for continuing education as a prerequisite to renewal of permits to practice (AS 08.04.425)
8. consideration of revocation or suspension of a certificate or license for a cause specified in the Act (AS 08.04.450)
9. consideration of reinstatement of a revoked or suspended certificate or license (AS 08.04.490)
10. consideration of application to the appropriate court for an order enjoining certain unlawful acts (AS 08.04.630)

Except for the exemptions specified in AS 08.04.570, the Accountancy Act of 1960 prohibits the practice of public accountancy by any individual, firm, partnership or corporation not holding a currently valid certificate, license and/or permit to practice in the State of Alaska. (AS 08.04.500 et seq.)

REPORT CONCLUSION

Policy Issues

This review contains policy issues raised as a result of our evaluation of various Board practices. Policy decisions affecting these practices are not within the scope of this review, but will require legislative consideration. In debating these issues, the legislative oversight committees should consider the findings and alternatives presented in this report in reaching their decisions.

Report Conclusion

In our opinion, the Alaska State Board of Public Accountancy should be continued. Protection of the public interest is a basic tenet of society and an important responsibility of state government. We believe that state regulation and licensing of the profession of public accountancy is necessary and desirable for the continued protection of the citizens of Alaska.

That conclusion is supported by the following rationale:

- Financial statements, audited and attested by certified public accountants are relied on by many persons required to make judgements on important financial and business transactions. Users of such financial statements cannot reasonably be expected to investigate the individual qualifications and competency of every accountant who performs the attest function.
- State licensing and regulation protects the public from incompetent and fraudulent practitioners.
- State licensing and regulation assures the public that only individuals who have proven themselves skilled and knowledgeable of technical accounting principles and procedures may perform the attest (or audit) function.

- The public interest is advanced when individuals, financial institutions, businesses and government agencies are able to identify and rely on public accountants who have demonstrated professional skill and competence.

Fifty four jurisdictions in the United States including all fifty states, Guam, Puerto Rico, the Virgin Islands and the District of Columbia require that a person must pass the Uniform CPA Examination in order to qualify for a CPA license. Every jurisdiction has found it in the public interest to pass laws regulating public accountancy, and each has established a board of accountancy to administer and enforce the law.

A review of these laws indicates that the experience, educational, age, citizenship and residency requirements vary somewhat from one jurisdiction to another. The requirements of the Alaska Accountancy Act of 1960, as amended, appear reasonable and prudent when reviewed along with the accountancy laws of other jurisdictions.

The Alaska Statute governing public accountancy is clearly designed to set apart those who have met certain qualifications for a license and to restrict the use of the titles of "Certified Public Accountant" and "Public Accountant" to those who have so qualified. The policies and practices of the Alaska State Board of Public Accountancy observed in the conduct of this review appear to be consistent with that objective.

While this report concludes that the Board should continue to regulate the profession of public accountancy and to license practitioners, certain changes need to be implemented in order for the Board to more effectively serve the public. *

The statutory make-up of the Board should be reviewed and amended to provide better representation of the accounting profession and the general public (see Recommendation No. 1).

Appointments should be made in a timely manner to assure that the Board has its full complement of qualified members (see Recommendation No. 2).

The licensing of new applicants as Public Accountants (PA) should be discontinued (see Recommendation No. 3).

Electronic recordings of all Board meetings should be required, and the tapes maintained for two years (see Recommendation No. 4).

The Board should consider and adopt a formal statement of its goals, objectives and policies; and should prepare an annual report of its activities (see Recommendation No. 5).

The statute setting forth qualifications for public members of boards (AS 08.01.025) should be clarified (see Recommendation No. 6)

The Division of Occupational Licensing should establish, implement and maintain improved statistical record-keeping methods and procedures (see Recommendation No. 7).

The Division of Occupational Licensing should handle investigations of complaints related to public accountancy in a more comprehensive, efficient and timely manner (see Recommendation No. 8).

*

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

* The qualifications and conditions of Board membership (AS 08.04.020) should be amended to specify five certified public accountants or public accountants, and two public members.

The statutory structure of the Board presently specifies that "three members shall be certified public accountants, two members shall be public members in accordance with AS 08.01.025, and the remaining members shall be public accountants." (emphasis added)

As of September, 1979, DOL reported the valid individual license count to include 495 certified public accountants (CPA) and only eight public accountants (PA).

It is noted that two of the eight PA's are current Board members who are also CPA's of long standing in Alaska. Board minutes indicate that these persons sought and received their PA licenses for the sole purpose of meeting the statutory requirement that the Board must include two PA's in its membership. Other than these cases (which occurred only after all Alaska PA's had declined invitations to serve on the Board), no new PA license has been issued for many years.

Because there are so few PA's in Alaska, it has become increasingly difficult to fill Board vacancies in this category. While the active PA's currently make up less than 1% of the professional accountants in Alaska, the statute as presently written requires that they constitute 40% of the professional representation on the Board.

Recommendation No. 2

* The Board of Public Accountancy should be brought to its full complement of seven members, and maintained at that strength by means of timely appointments of qualified professional and public members.

Implementation of Alaska's public disclosure law occasioned the resignation of many persons who, because of the confidential nature of their professional relationships, were unwilling to divulge the identity of their clients. The Board of Public Accountancy was no exception, and for a time in the mid-1970s, ceased to function as a duly constituted board.

The combination of resignations, membership requirements (addressed in Recommendation No. 1), slow appointment procedures, and the statutory addition of two public members, created a lack of continuity that has made it difficult for the Board to operate at peak efficiency. The Board is currently two members short of its full complement of seven members.

Board minutes examined indicate that meetings typically extend over a full two day period, and require many hours of diligent concentration and substantial travel of the members. The charge to "establish and maintain a high standard of integrity and dignity in the profession of public accountancy" is taken seriously by the Board. The State as well as the people of Alaska benefit from the many hours of unpaid and dedicated service contributed by members of the Board.

The Board of Public Accountancy is missing valuable input from the accounting profession and the public by not having a full complement of members. We recommend that the Office of the Governor expeditiously appoint qualified new members to the two vacant Board seats, and continue to make appointments or reappointments to this Board in a timely manner.

Target licensing PA's - only CPA's.

Recommendation No. 3

Without affecting the rights and privileges of presently-licensed Public Accountants, the Accountancy Law should be amended to discontinue the licensing of new applicants as Public Accountants.

In litigation involving state regulation of public accountancy, courts throughout the United States have held that only the auditing or attest function (the expression of an independent opinion on the fairness with which a financial statement presents a financial position in conformity with generally accepted accounting principles) is imbued with sufficient public interest to justify regulation by legislation.

Alaska's Accountancy Law establishes two classes of accountants, certified public accountants (CPA) and public accountants (PA). The experience and educational requirements for achieving PA status are substantially less stringent than those for certification as a CPA. Yet, the attest function can be performed by either class of accountant.

Of the 54 jurisdictions regulating public accountancy in the U.S., only 10 (including Alaska) continue to license PA's to perform the attest function under requirements lower than those applicable to certified public accountants. 40 jurisdictions either license only CPA's, or continue to license present PA's as a "dying class". The remaining four boards license PA's on a continuing basis, but do not permit them the attest function. The Comptroller General of the U.S. has established a policy for the General Accounting Office (GAO) which limits qualifications to audit federal programs to CPA's and those PA's who were licensed as of December 31, 1975.

Licensing two classes of professionals on the basis of different standards to perform identical services is neither logical nor does it serve the public interest. Without affecting the status of the five presently active PA's, the statute should be reviewed with the objective of discontinuing the licensing of new applicants as Public Accountants.

Recommendation No. 4

* Electronic recordings should be made of all Board meetings, and the tapes retained by DOL for two years.

Although the Board is required to "keep a record of its proceedings" (AS 08.04.070.(d)), neither the Statutes nor the Alaska Administrative Code requires that Board meetings be recorded.

The practice has been to tape record Board meetings and for DOL personnel to prepare summary minutes from notes and the tapes. The written minutes are considered by the Board at its following meeting, corrections and amendments made, and the minutes adopted.

Following acceptance of the minutes of a meeting, the tapes have been re-used or destroyed.

Turnover in Board membership and DOL personnel make such an informal system of record-keeping less than desirable in light of the highly technical and quasi-legal matters with which the Board regularly deals.

Our review of Board meeting minutes for the past five years indicates that the quality and detail of the written and approved minutes varies substantially according to the familiarity of the Licensing Examiner assigned to the Board with its duties, responsibilities, terminology and subject matter. Maintenance of recorded tapes from which transcriptions can be made regarding details of subject matter not covered in the summary minutes would be of value to the Board in the case of defending a particular action, and would lessen concerns regarding the quality or completeness of the written minutes.

Recommendation No. 5

* The Board should adopt a formal statement of goals, objectives and policies; and should prepare an annual report of its activities.

Under sunset legislation, the Board will have the burden of demonstrating a public need for its continued operation. The Board will be expected to develop and adopt formal goals, objectives, policies and programs which provide quantifiable measures. Without identifiable and measurable objectives, neither the Legislature, the Executive branch nor the Board itself can effectively evaluate performance.

The Annual Report of the Board of Public Accountancy should include:

1. The Board's purpose and goal;
2. Objectives and program for the year;
3. Statistics related to Board operations; (number of applicants, pass/fail rate, certificates issued, complaints processed, etc.)
4. Significant developments or Board concerns;
5. Amendments offered to Regulations or Statutes;
6. Board member participation and appointment status;
7. Receipts and disbursements related to Board operations.

The following recommendation is addressed to the legislative committee responsible for reviewing the performance of the Board of Public Accountancy.

Recommendation No. 6

AS 08.01.025 should be amended to state more clearly legislative intent with respect to the qualifications of public members of boards.

> Sec. 08.01.025. Public member. No public member of a board may:
> (1) be engaged in the occupation which the board regulates;
> (2) be associated by legal contract with a member of the occupation which the board regulates except as a consumer of the services provided by a practitioner of the occupation; or
> (3) have a direct financial interest in the occupation which the board regulates. (ch 258 SLA 1976)

In a letter dated February 13, 1979, Governor Hammond asked the Legislature to confirm a public member of the Board of Public Accountancy appointed by him to a three year term in July, 1978. The Legislature confirmed the appointment on April 11, 1979.

The person appointed and confirmed as a public member of the Board of Public Accountancy is employed by a CPA firm on a full-time basis in a secretarial capacity.

The question of whether being an employee of a professional practitioner constitutes having a "direct financial interest" in the regulated occupation is not within the scope of this review. Assuming that the legislative committee of reference was made aware of the nominee's employment and yet opted to recommend confirmation, one must assume that no conflict was seen by the Legislature in the matter.

Two respondents to the survey questionnaire (see Appendix D) questioned the propriety of public members being employed by a regulated CPA firm.

Simplification of the legal language contained in Sec. 08.01.025 would, we believe, be in the best interests of the Governor, the Legislature and all professional licensing boards by clearly and unequivocally stating

who may and who may not be appointed and confirmed as public members to these boards.

N.B. The preceding finding and recommendation is not intended to be in any way critical of the Board member involved who, from all records and our personal observation, has been a diligent, sincere and dedicated member of the Board of Public Accountancy.

The following recommendations are addressed to the Division of Occupational Licensing (DOL), and should be read in conjunction with " A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development" October 30, 1978.

Recommendation No. 7

* DOL should develop improved statistical record-keeping methods and procedures.

In our review of the Board of Public Accountancy, DOL personnel were found to be helpful, courteous and cooperative in providing information with respect to the Board's operations and procedures. The essential statistics, records and files relating to the administration of the Board's affairs, however, were found to be confusing, difficult to retrieve, and deficient in systematic organization. Inaccurate input of data into the computer in the past has further complicated an already confused statistical picture.

The roster of licensed individuals and firms printed in May, 1978 (Directory of Public Accountancy) along with supplements printed May, 1978; October, 1978; January, 1979 and April, 1979 contains numerous errors and redundancies. The identification numbers assigned to individuals (CPA's and PA's), partnerships, resident and non-resident corporations are all preceded with the "alpha" designation AA or II, indicating active or inactive status. This inefficient system produces, for example, the issuance of No. AA 0048 to an active resident corporation in Anchorage as well as to an individual CPA in Juneau who has no connection with that corporation.

Statistics on renewals, deaths, lapsed licenses, licensed individuals leaving Alaska, etc. are difficult to retrieve, as is information on geographic distribution of certificate holders, pass/fail rate and other data regarding the Board's area of responsibility.

No systematic record appears to exist regarding annual work-load of the Board or the License Examiner assigned to the Board. Such data as number of applicants for examination, record of applicants sitting for parts of the exam previously failed, License Examiner time devoted to processing applicant files, breakdown of receipts by fee types, number of applicants certified by reciprocity with other states or nations, etc. once organized and established, is simple to maintain, and is extremely helpful in the preparation of Board and Division annual reports and budget requests, as well as providing the Board with information useful in establishing its needs and priorities.

Recommendation No. 8

DOL should handle investigations in a more comprehensive, efficient and timely manner.

Board minutes back to 1975 indicate a high level of frustration with the performance of DOL's investigative unit with respect to the investigation of complaints submitted regarding the field of public accountancy.

Investigative files have been closed on matters that have never been brought to the attention of the Board. Reports of cases pending and matters under investigation are promised at nearly every meeting to be presented "at the next Board meeting", but no such comprehensive investigative report has yet been forthcoming.

As independent contractors, we were not privy to the confidential files of the DOL investigative unit. Consequently, the statistical

data contained in Appendix B was developed by personnel of the Legislative Audit Division.

From Board minutes, the statistical summary of investigative activity and interviews with Board members, public accountants, DOL personnel and others, we conclude that DOL's investigative performance is a weak link in the State of Alaska's chain of public protection from abuses in the field of public accountancy. *

*

ANALYSIS OF PUBLIC NEED

The following analysis of Board activities relates to the public need factors defined in AS 44.66.050(c). This analysis addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or agency has operated in the public interest.

1. The Board of Public Accountancy has established criteria and composed regulations setting forth the standards which an individual must satisfy in order to practice public accountancy in Alaska.

2. The Board has established regulations requiring evidence of continuing professional education (CPE) as a condition of license renewal.

3. The Board has held an average of three meetings per year for the past four years, and conducts examinations twice a year in Anchorage, Fairbanks and Juneau.

II. The extent to which the operation of the board, commission or agency program has been impeded or enhanced by existing statutes, procedures and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

1. The Division of Occupational Licensing (DOL) has not maintained adequate statistics, records and files for Board use (see Recommendation No. 7)

2. Investigations of complaints regarding public accountancy matters have not been conducted in a timely manner by the investigative unit of DOL (see Appendix B, Recommendation No. 8 and the DOL Performance Audit Report).

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

1. The Board recommended amendments to AS 08.04.020 and AS 08.04.420 as well as deletion of AS 08.04.260. None of these recommended statutory revisions has yet been enacted.

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

1. Individuals who contact Board members or the Licensing Examiner who wish to present information, ask questions or register complaints are invited and encouraged to attend Board meetings.

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

1. Board meetings are held at least three times annually, and are advertised in a timely manner by DOL in Anchorage, Fairbanks and Juneau newspapers.

2. In accordance with the Administrative Procedures Act, the Board has invited interested persons and groups to offer testimony in regard to proposed changes in regulations, and has held advertised public hearings to receive testimony.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which the board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

1. In the past four years, one complaint concerning the Board's activities was filed with the Ombudsman's Office. The case involved a delay in granting a certificate by reciprocity, and was expeditiously resolved to the Ombudsman's satisfaction

2. No complaints regarding the Board's practices or activities have been recorded by the Division of Occupational Licensing, the Human Rights Commission or the Equal Employment Opportunity Office.

VII. The extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public.

1. Complaints against licensed accountants are indications of the quality of practice in the State. In the past five years, only seven complaints were filed with DOL charging licensed professionals with unethical, incompetent or unprofessional conduct.

2. The Board has proposed and adopted regulations and standards with respect to acceptable experience necessary for certification.

3. The Board has proposed and adopted regulations for continuing professional education (CPE) as a requisite for license renewal.

4. The Board exercises diligence to assure that only those individuals who fully comply with the requirements of the statute and regulations are certificated to practice public accountancy.

5. The Board has instituted a "critique program" to assist applicants in meeting the high standards of the profession.

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

1. The application forms for examination and certification do not inquire as to race or sex, nor do they require photos.

2. No evidence has been presented that the Board has discriminated against anyone on the basis of age, race or sex.

Recommendation No. 2

The Board of Public Accountancy should be brought to its full complement of seven members, and maintained at that strength by means of timely appointments of qualified professional and public members.

Implementation of Alaska's public disclosure law occasioned the resignation of many persons who, because of the confidential nature of their professional relationships, were unwilling to divulge the identity of their clients. The Board of Public Accountancy was no exception, and for a time in the mid-1970s, ceased to function as a duly constituted board.

The combination of resignations, membership requirements (addressed in Recommendation No. 1), slow appointment procedures, and the statutory addition of two public members, created a lack of continuity that has made it difficult for the Board to operate at peak efficiency. The Board is currently two members short of its full complement of seven members.

Board minutes examined indicate that meetings typically extend over a full two day period, and require many hours of diligent concentration and substantial travel of the members. The charge to "establish and maintain a high standard of integrity and dignity in the profession of public accountancy" is taken seriously by the Board. The State as well as the people of Alaska benefit from the many hours of unpaid and dedicated service contributed by members of the Board.

The Board of Public Accountancy is missing valuable input from the accounting profession and the public by not having a full complement of members. We recommend that the Office of the Governor expeditiously appoint qualified new members to the two vacant Board seats, and continue to make appointments or reappointments to this Board in a timely manner.

Recommendation No. 3

Without affecting the rights and privileges of presently-licensed Public Accountants, the Accountancy Law should be amended to discontinue the licensing of new applicants as Public Accountants.

In litigation involving state regulation of public accountancy, courts throughout the United States have held that only the auditing or attest function (the expression of an independent opinion on the fairness with which a financial statement presents a financial position in conformity with generally accepted accounting principles) is imbued with sufficient public interest to justify regulation by legislation.

Alaska's Accountancy Law establishes two classes of accountants, certified public accountants (CPA) and public accountants (PA). The experience and educational requirements for achieving PA status are substantially less stringent than those for certification as a CPA. Yet, the attest function can be performed by either class of accountant.

Of the 54 jurisdictions regulating public accountancy in the U.S., only 10 (including Alaska) continue to license PA's to perform the attest function under requirements lower than those applicable to certified public accountants. 40 jurisdictions either license only CPA's, or continue to license present PA's as a "dying class". The remaining four boards license PA's on a continuing basis, but do not permit them the attest function. The Comptroller General of the U.S. has established a policy for the General Accounting Office (GAO) which limits qualifications to audit federal programs to CPA's and those PA's who were licensed as of December 31, 1975.

Licensing two classes of professionals on the basis of different standards to perform identical services is neither logical nor does it serve the public interest. Without affecting the status of the five presently active PA's, the statute should be reviewed with the objective of discontinuing the licensing of new applicants as Public Accountants.

Recommendation No. 4

Electronic recordings should be made of all Board meetings, and the tapes retained by DOL for two years.

Although the Board is required to "keep a record of its proceedings" (AS 08.04.070.(d)), neither the Statutes nor the Alaska Administrative Code requires that Board meetings be recorded.

The practice has been to tape record Board meetings and for DOL personnel to prepare summary minutes from notes and the tapes. The written minutes are considered by the Board at its following meeting, corrections and amendments made, and the minutes adopted.

Following acceptance of the minutes of a meeting, the tapes have been re-used or destroyed.

Turnover in Board membership and DOL personnel make such an informal system of record-keeping less than desirable in light of the highly technical and quasi-legal matters with which the Board regularly deals.

Our review of Board meeting minutes for the past five years indicates that the quality and detail of the written and approved minutes varies substantially according to the familiarity of the Licensing Examiner assigned to the Board with its duties, responsibilities, terminology and subject matter. Maintenance of recorded tapes from which transcriptions can be made regarding details of subject matter not covered in the summary minutes would be of value to the Board in the case of defending a particular action, and would lessen concerns regarding the quality or completeness of the written minutes.

Recommendation No. 5

The Board should adopt a formal statement of goals, objectives and policies; and should prepare an annual report of its activities.

Under sunset legislation, the Board will have the burden of demonstrating a public need for its continued operation. The Board will be expected to develop and adopt formal goals, objectives, policies and programs which provide quantifiable measures. Without identifiable and measurable objectives, neither the Legislature, the Executive branch nor the Board itself can effectively evaluate performance.

The Annual Report of the Board of Public Accountancy should include:

1. The Board's purpose and goal;
2. Objectives and program for the year;
3. Statistics related to Board operations; (number of applicants, pass/fail rate, certificates issued, complaints processed, etc.)
4. Significant developments or Board concerns;
5. Amendments offered to Regulations or Statutes;
6. Board member participation and appointment status;
7. Receipts and disbursements related to Board operations.

The following recommendation is addressed to the legislative committee responsible for reviewing the performance of the Board of Public Accountancy.

Recommendation No. 6

AS 08.01.025 should be amended to state more clearly legislative intent with respect to the qualifications of public members of boards.

> Sec. 08.01.025. Public member. No public member of a board may:
> (1) be engaged in the occupation which the board regulates;
> (2) be associated by legal contract with a member of the occupation which the board regulates except as a consumer of the services provided by a practitioner of the occupation; or
> (3) have a direct financial interest in the occupation which the board regulates. (ch 258 SLA 1976)

In a letter dated February 13, 1979, Governor Hammond asked the Legislature to confirm a public member of the Board of Public Accountancy appointed by him to a three year term in July, 1978. The Legislature confirmed the appointment on April 11, 1979.

The person appointed and confirmed as a public member of the Board of Public Accountancy is employed by a CPA firm on a full-time basis in a secretarial capacity.

The question of whether being an employee of a professional practitioner constitutes having a "direct financial interest" in the regulated occupation is not within the scope of this review. Assuming that the legislative committee of reference was made aware of the nominee's employment and yet opted to recommend confirmation, one must assume that no conflict was seen by the Legislature in the matter.

Two respondents to the survey questionnaire (see Appendix D) questioned the propriety of public members being employed by a regulated CPA firm.

Simplification of the legal language contained in Sec. 08.01.025 would, we believe, be in the best interests of the Governor, the Legislature and all professional licensing boards by clearly and unequivocally stating

who may and who may not be appointed and confirmed as public members to these boards.

N.B. The preceding finding and recommendation is not intended to be in any way critical of the Board member involved who, from all records and our personal observation, has been a diligent, sincere and dedicated member of the Board of Public Accountancy.

The following recommendations are addressed to the Division of Occupational Licensing (DOL), and should be read in conjunction with " A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development" October 30, 1978.

Recommendation No. 7

DOL should develop improved statistical record-keeping methods and procedures.

In our review of the Board of Public Accountancy, DOL personnel were found to be helpful, courteous and cooperative in providing information with respect to the Board's operations and procedures. The essential statistics, records and files relating to the administration of the Board's affairs, however, were found to be confusing, difficult to retrieve, and deficient in systematic organization. Inaccurate input of data into the computer in the past has further complicated an already confused statistical picture.

The roster of licensed individuals and firms printed in May, 1978 (Directory of Public Accountancy) along with supplements printed May, 1978; October, 1978; January, 1979 and April, 1979 contains numerous errors and redundancies. The identification numbers assigned to individuals (CPA's and PA's), partnerships, resident and non-resident corporations are all preceded with the "alpha" designation AA or II, indicating active or inactive status. This inefficient system produces, for example, the issuance of No. AA 0048 to an active resident corporation in Anchorage as well as to an individual CPA in Juneau who has no connection with that corporation.

Statistics on renewals, deaths, lapsed licenses, licensed individuals leaving Alaska, etc. are difficult to retrieve, as is information on geographic distribution of certificate holders, pass/fail rate and other data regarding the Board's area of responsibility.

No systematic record appears to exist regarding annual work-load of the Board or the License Examiner assigned to the Board. Such data as number of applicants for examination, record of applicants sitting for parts of the exam previously failed, License Examiner time devoted to processing applicant files, breakdown of receipts by fee types, number of applicants certified by r ciprocity with other states or nations, etc. once organized and established, is simple to maintain, and is extremely helpful in the preparation of Board and Division annual reports and budget requests, as well as providing the Board with information useful in establishing its needs and priorities.

Recommendation No. 8

DOL should handle investigations in a more comprehensive, efficient and timely manner.

Board minutes back to 1975 indicate a high level of frustration with the performance of DOL's investigative unit with respect to the investigation of complaints submitted regarding the field of public accountancy.

Investigative files have been closed on matters that have never been brought to the attention of the Board. Reports of cases pending and matters under investigation are promised at nearly every meeting to be presented "at the next Board meeting", but no such comprehensive investigative report has yet been forthcoming.

As independent contractors, we were not privy to the confidential files of the DOL investigative unit. Consequently, the statistical

data contained in Appendix B was developed by personnel of the Legislative Audit Division.

From Board minutes, the statistical summary of investigative activity and interviews with Board members, public accountants, DOL personnel and others, we conclude that DOL's investigative performance is a weak link in the State of Alaska's chain of public protection from abuses in the field of public accountancy.

*

ANALYSIS OF PUBLIC NEED

The following analysis of Board activities relates to the public need factors defined in AS 44.66.050(c). This analysis addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or agency has operated in the public interest.

1. The Board of Public Accountancy has established criteria and composed regulations setting forth the standards which an individual must satisfy in order to practice public accountancy in Alaska.

2. The Board has established regulations requiring evidence of continuing professional education (CPE) as a condition of license renewal.

3. The Board has held an average of three meetings per year for the past four years, and conducts examinations twice a year in Anchorage, Fairbanks and Juneau.

II. The extent to which the operation of the board, commission or agency program has been impeded or enhanced by existing statutes, procedures and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

1. The Division of Occupational Licensing (DOL) has not maintained adequate statistics, records and files for Board use (see Recommendation No. 7)

2. Investigations of complaints regarding public accountancy matters have not been conducted in a timely manner by the investigative unit of DOL (see Appendix B, Recommendation No. 8 and the DOL Performance Audit Report).

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

1. The Board recommended amendments to AS 08.04.020 and AS 08.04.420 as well as deletion of AS 08.04.260. None of these recommended statutory revisions has yet been enacted.

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

1. Individuals who contact Board members or the Licensing Examiner who wish to present information, ask questions or register complaints are invited and encouraged to attend Board meetings.

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

1. Board meetings are held at least three times annually, and are advertised in a timely manner by DOL in Anchorage, Fairbanks and Juneau newspapers.

2. In accordance with the Administrative Procedures Act, the Board has invited interested persons and groups to offer testimony in regard to proposed changes in regulations, and has held advertised public hearings to receive testimony.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which the board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

1. In the past four years, one complaint concerning the Board's activities was filed with the Ombudsman's Office. The case involved a delay in granting a certificate by reciprocity, and was expeditiously resolved to the Ombudsman's satisfaction

2. No complaints regarding the Board's practices or activities have been recorded by the Division of Occupational Licensing, the Human Rights Commission or the Equal Employment Opportunity Office.

VII. The extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public.

1. Complaints against licensed accountants are indications of the quality of practice in the State. In the past five years, only seven complaints were filed with DOL charging licensed professionals with unethical, incompetent or unprofessional conduct.

2. The Board has proposed and adopted regulations and standards with respect to acceptable experience necessary for certification.

3. The Board has proposed and adopted regulations for continuing professional education (CPE) as a requisite for license renewal.

4. The Board exercises diligence to assure that only those individuals who fully comply with the requirements of the statute and regulations are certificated to practice public accountancy.

5. The Board has instituted a "critique program" to assist applicants in meeting the high standards of the profession.

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

1. The application forms for examination and certification do not inquire as to race or sex, nor do they require photos.

2. No evidence has been presented that the Board has discrimminated against anyone on the basis of age, race or sex.

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

Please refer to the previous section, Findings and Recommendations.

APPENDIX A

BOARD OF PUBLIC ACCOUNTANCY

REVENUE COMPARED WITH EXPENDITURES

Fiscal Years 1969 - 1979
(Unaudited)

Fiscal Year	Revenue[1/]	Expenditures	Difference
1969	$ 2,131	$ 2,289	$- 158
1970	8,865	3,584	+ 5,281
1971	5,605	4,565	+ 1,040
1972	9,605	7,029	+ 2,576
1973	4,585	5,766	- 1,181
1974	14,115	6,108	+ 8,007
1975	6,710	8,388	- 1,678
1976	20,777[2/]	8,243	+12,534
1977	15,135	11,961	+ 3,174
1978	38,700	15,115	+23,585
1979	21,186	19,922	+ 1,264

Note 1

Renewal registration fees are collected once every two years and cause revenues collected in the first year to be significantly greater than revenues collected in the next year.

Note 2

Fees were increased in 1976 and have not been increased since that time. Current fees are presented in Schedule 1.

Note 3

Expenditures include those made by Board members such as travel, per diem and some general support services such as telephone, postage, and examination expenses. They do not include that portion of the D.O.L. administrative expense allocated to the Board of Public Accountancy or of expenditures of other departments such as Department of Law, that may be assisting the Board and D.O.L.

Source: Alaska Division of Occupational Licensing and Annual Reports of the Department of Commerce and Economic Development.

SCHEDULE 1

STATE BOARD OF PUBLIC ACCOUNTANCY

VARIOUS FEES:

Uniform CPA Examination - $50.00 each sitting (fee is not prorated by number of parts taken)

Licensing and Certification Fees - (fees are the same for original certification and for biennial renewals)

Active CPA or PA	-	$ 60.00
Inactive CPA or PA	-	$ 20.00
Resident Partnership	-	$ 60.00
Resident Corporation	-	$ 60.00
Non-Res Partnership	-	$200.00
Non-Res Corporation	-	$200.00
Non-Res Permit (Individual)	-	$200.00

Registration of Office - No Fee

PA Partnerships, Change in Partners - $5.00

* All delinquent renewal fees (60 days past deadline) are subject to a $10.00 penalty fee.

Duplicate license fee - $ 2.00

Duplicate certificate fee - $10.00

APPENDIX B

INVESTIGATION STATISTICS

N.B. -- The scope of this Performance Review required that an analysis be made of complaints received by D.O.L. regarding public accountancy, and the disposition of any investigations conducted. Because the files maintained by the Investigative Section of D.O.L. are considered confidential in nature, the contractor was not allowed access. It was necessary for the contractor to seek assistance from Division of Legislative Audit personnel who have the authority to review confidential files of the various agencies. Personnel from the Division of Legislative Audit prepared a statistical analysis of the complaints received without divulging any confidential information on specific individuals. That analysis is included in this report and forms the basis for conclusions regarding the investigative unit.

The letter on the following page indicates the information requested from the Division of Legislative Audit by the contractor.

In response to this letter, the contractor was supplied the following report from the Division of Legislative Audit:

* * * * *

DEPARTMENT OF COMMERCE - OCCUPATIONAL LICENSING

State Board of Accountancy - Complaints/Investigations

Purpose, Scope & Conclusion - F.Y. 1980

Purpose

To provide R.W. Pavitt & Associates, Inc., and Homan-McDowell Associates with statistical information regarding complaints and investigations filed with the Department of Commerce and Economic Development, State Board of Accountancy.

August 8, 1979

Legislative Audit Division
State of Alaska
Pouch W
Juneau, Alaska 99811

Attention: Merle R. Jenson, Deputy Legislative Auditor

Dear Mr. Jenson:

We have reached a point in the conduct of the Performance Review of the Alaska State Board of Public Accountancy where information is needed with respect to complaints and investigations regarding the practice of public accountancy.

As you know, we do not have access to confidential files, and the available statistical information on investigations is not in a format that is of use to us in our review.

We request your assistance, therefore, in providing us with the following information pertaining to the responsibilities of the Board of Public Accountancy:

1. Number of complaints, 1975-present, by year.

2. Source of complaint...(member of public, Consumer Protection Agency, Board, board member, licensee, etc.)

3. Nature of complaint...(unlicensed practitioner, incompetent performance, overcharging for services, fraudulent or unlawful practices, criminal activity, etc.)

4. Action taken on complaint...(date received by DOL, investigative assignment, time devoted to investigation, etc.)

5. Disposition of complaint...(reported to Board, referred to AG's Office, investigation continued, investigation dropped [reason], investigation closed)

To be of maximum value in the development of review findings, this information should be received no later than August 31, 1979.

Yours truly,

R. W. Pavitt, AICP
President

RWP/bp

Scope

We will review the complaint files provided to us by the Department of Commerce and Economic Development for the period beginning 1975 to present.

Summary of Field Work

Following are statistics compiled from the case files provided to the auditor by the Investigative Unit of the Department of Commerce and Economic Development:

Case files reviewed	38
Duplicate files	(3)
Total Cases	35
Source of Complaints	
Public	15
Consumer Protection	0
Board	5
Licensee	2
Other (& unknown)	13
Total	35
Nature of Complaint	
Unlicensed	14
Incompetent	5
Overcharged	3
Fraud	2
Criminal Activity	6
Other (& unknown)	8
Total	38
Disposition of Complaints	
Reported to Board	6
Pending next Board Meeting	20
Referred to A.G.	2
Investigation Cont.	10
Investigation Closed	25

There are three investigators who work on complaints for the whole Department. Two of these are in Anchorage and one is in Juneau.

Once a complaint is filed ideally a control card is established. The original and fourth copy are kept in Juneau and the duplicate and triplicate are sent to Anchorage. Ideally, copies of complaints for the Anchorage/Juneau area are sent within one week to the appropriate investigator.

Prior to July 1978 all complaints were either kept in alphabetical order or in the licensee's file.

In September 1978 an inventory was taken of those complaints. Old cases were renumbered beginning with 5,000. However, because there are numerous licensee files, it is believed that not all complaints were included in this inventory. Thus, the exact number of complaint files provided for review is questionable.

Numerous cases were closed because of age after the inventory was taken. Additionally, if any cases were marked closed and no documentation existed in the file, it could be because an investigator called from Anchorage informing the Juneau office that the case was investigated and closed.

When cases are assigned the information is placed on the control card.

Information Source: DC&ED, Occ. Lic., Dick Long, Chief Investigator and Sue O'Brien, Adm. Support Tech I.

Comments

The following conditions existed:

1. Cases marked "closed" with the closure dated 9/78 still, one year later, had not gone before the Board.

2. The "unknown" listed cases are the result of lack of documentation in the file to extract such information; and

3. The files contained duplicate copies of documents and/or undecipherable notes on scraps of paper. Dick Long, Chief Investigator was on annual leave during the testing and thus was not available for comments or explanation.

Furthermore we were informed that the possibility existed that additional complaints had been filed other than what we were provided. We were informed that these complaints were in the licensee's file if they existed.

* * * END * * *

The preceding concludes the Division of Legislative Audit report. The following comments are those of the contractor:

A review of Alaska State Board of Accountancy minutes for the past two years shows the continuing difficulty of the Board in acquiring adequate information regarding complaints and investigations.

Date of Board Meeting	Remarks Regarding Investigations and Complaints
September 23, 1977	"The board would like a detailed report from Richard Long, Violations Officer, of the pending investigations on file for the next meeting."
October 17, 1977	No Report
December 2, 1977	No Report
March 17-18, 1978	No Report
August 21, 1978	No Report

September 28-29, 1978	Report by Richard Long, Violations Officer on five cases. Don Hostak, D.O.L. Director "reported that 23 of the 33 pending cases involving the Public Accountancy Board were in the process of being closed. The Board will be asked to approve these actions at a future meeting."
November 30-December 1, 1978	No Report
January 12, 1979	No Report
March 23-24, 1979	"Frank Moore reported on the division's investigations and reports of violations regarding public accounts." "He reported on cases pending and informed the board that there were no cases ready for closure at this time."
August 1-2, 1979	No Report

Further analysis of the information furnished by the Legislative Research Division shows that the 38 cases found in the investigative files of D.O.L. represented cases opened in the following years.

Year	No. Cases Opened
1973	1
1974	0
1975	2
1976	18
1977	3
1978	4
1979	10
Total	38

This seems to be in conflict with a September 12, 1978 letter from the Chief Investigator of D.O.L. to the Division of Legislative Audit which states that (1) there were three complaints filed between July 1, 1977 and June 30, 1978; (2) there was one complaint closed between July 1, 1977 and June 30, 1979; and (3) there were fourteen total number of cases in the file.

Three main problems are evident in this analysis, (1) there is a lack of proper procedure and documentation involving the investigation of complaints and (2) there is a lack of follow-through on closing out cases that have been investigated and presenting them to the Board of Public Accountancy, and (3) complaint cases are not handled in a timely manner since more than half are older than four years.

APPENDIX C

BOARD OF PUBLIC ACCOUNTANCY

STATISTICAL INFORMATION

SCHEDULE 1

Certificates Issued by Year by Type

Fiscal Year	Number Issued	By Examination	By Reciprocity
1961	16	4	12
1963	10	7	3
1965	12	6	6
1967	15	7	8
1969	18	9	9
1970	4	3	1
1971	48	20	28
1972	25	14	11
1973	37	20	17

APPENDIX D

SURVEY QUESTIONNAIRE SENT TO ACCOUNTANTS

A questionnaire and explanatory letter was sent to a randomly-selected "universe" of resident active and inactive CPA's and PA's. 222 questionnaires were mailed with the expectation that approximately 200 would reach the intended recipients. (We assumed that about 10% would prove undeliverable by reason of poor address, moved, left Alaska, died, etc.)

The questionnaires were mailed from Juneau on August 22, 1979. As of September 21, we had received 123 completed responses, and 22 were returned as undeliverable by the Post Office. Assuming that 200 questionnaires reached their destination, our actual response rate was a remarkable 61.5%, indicating that professional accountants in Alaska take the possible effects of "Sunset" on their profession quite seriously.

Of the 123 respondents, 84 (or 68%) indicated that they are in the public practice of accountancy; 19 (16%) practice private accounting; 10 (8%) are governmental accountants; 3 (2%) teach accounting, while 7 (6%) are employed outside the accounting profession. Geographic breakdown of the respondents was as follows:

LOCATION	NUMBER OF RESPONDENTS	% OF TOTAL RESPONSE
Anchorage	90	73.4 %
Fairbanks	9	7.3
Juneau	9	7.3
Ketchikan	2	1.6
Kenai	2	1.6
Soldotna	2	1.6
Kodiak	2	1.6
Bethel	1	.8
Gustavus	1	.8
Valdez	1	.8
Wasilla	1	.8
Unknown (no postmark)	3	2.4
	123	100.0 %

Only 6 respondents (4.8%) feel that State regulation of public accountancy is unnecessary, while 97.5% feel that Alaska should continue to license accountants.

91.8% disagreed with the statement that "Public Accountants (PA's) should be permitted to perform the audit (attest) function" (see Recommendation No. 3 in the FINDINGS AND RECOMMENDATIONS section of this report).

66.6 % of the respondents feel that the education and experience requirements for licensing in Alaska are "just about right". 15.4% think they are too low while 13.8% believe them to be too high. (4% expressed no opinion).

A surprising 76.4% agreed with the requirement for continuing professional education as a requisite for license renewal, while 20.3% don't feel it is necessary. 55.3% believe that an "open-book" ethics exam should be a condition of licensure, while 31.7% oppose such an action.

41 (33.3%) of the respondents accepted the invitation to make additional comments on subjects concerning the present method of regulating public accountancy in Alaska. Comments offered ranged from the penning of a few critical lines to a typewritten two-page letter accompanying the completed questionnaire. All of the completed questionnaires along with the added comments have been submitted with the working papers of this report to the Legislative Audit Division, where they are presently filed.

The comments are grouped and summarized as follows:

comments on the Board

- the Board is necessary and should be continued. (4 comments)
- all CPA's on the Board should be in public practice (3 comments)

Only 6 respondents (4.8%) feel that State regulation of public accountancy is unnecessary, while 97.5% feel that Alaska should continue to license accountants.

91.8% disagreed with the statement that "Public Accountants (PA's) should be permitted to perform the audit (attest) function" (see Recommendation No. 3 in the FINDINGS AND RECOMMENDATIONS section of this report).

66.6 % of the respondents feel that the education and experience requirements for licensing in Alaska are "just about right". 15.4% think they are too low while 13.8% believe them to be too high. (4% expressed no opinion).

A surprising 76.4% agreed with the requirement for continuing professional education as a requisite for license renewal, while 20.3% don't feel it is necessary. 55.3% believe that an "open-book" ethics exam should be a condition of licensure, while 31.7% oppose such an action.

41 (33.3%) of the respondents accepted the invitation to make additional comments on subjects concerning the present method of regulating public accountancy in Alaska. Comments offered ranged from the penning of a few critical lines to a typewritten two-page letter accompanying the completed questionnaire. All of the completed questionnaires along with the added comments have been submitted with the working papers of this report to the Legislative Audit Division, where they are presently filed.

The comments are grouped and summarized as follows:

comments on the Board

- the Board is necessary and should be continued. (4 comments)
- all CPA's on the Board should be in public practice (3 comments)

- DOL is inefficient.
- Policing of profession is almost non-existent. (2 comments)
- Investigation of complaints needs more attention. (2 comments)
- Proposed ethics exam should be "closed-book", and made part of the Uniform CPA examination.

The following pages include the explanatory letter sent out with the questionnaires, and the questionnaire itself, tabulated totally, with breakdowns of each responsorial group following:

Page - 37 - letter accompanying survey questionnaires

Page - 38 - tabulation of all responses

Page - 39 - tabulation of responses from accountants in public practice

Page - 40 - tabulation of responses from accountants in private practice

Page - 41 - tabulation of responses from accountants in governmental accounting

Page - 42 - tabulation of responses from accountants engaged in the teaching of accountancy

Page - 43 - tabulation of responses from accountants engaged in employment outside the accounting profession

August 22, 1979

Dear Alaskan Accountant:

Under the State's "Sunset Law" (AS 44.66), the Alaska State Board of Public Accountancy will terminate on June 30, 1980 unless the Legislature takes positive action to continue it beyond that date.

The Legislative Audit Division, which is charged by law with conducting in-depth performance reviews of each board, commission or agency named in the sunset legislation, has determined that in the case of the Board of Public Accountancy, independence and objectivity would be better served by contracting the review to a qualified management consulting firm than by performing the audit in-house. R. W. Pavitt and Associates, Inc. and Homan-McDowell Associates have been selected to conduct the review, and must complete the report by October 1, 1979.

Our major effort in this study has been to seek answers to several questions that we feel are basic to the issue (which the Legislature must face) of continuing the Board or allowing it to terminate:

(1) Is State regulation of public accountancy in the public interest?

(2) Do the statutes and regulations presently in force in Alaska assure the public of competent and qualified practitioners?

(3) Does the Alaska State Board of Public Accountancy (as presently constituted) provide the most appropriate and effective method of regulating these professional services?

In connection with our review, we request that you take a few minutes to complete the enclosed questionnaire and mail it back. Our "universe" for the recipients of the questionnaire consists of the roster of resident active and inactive Certified Public Accountants and Public Accountants, and the "sample" used amounts to 33.3% (every 3rd name) of that roster.

Your response to the questionnaire will be anonymous, and we hope that you will feel free to add any comments you may have regarding the present method of regulating public accountancy in Alaska.

In order to be tabulated, questionnaires must be received no later than September 10, 1979. Thank you for your cooperation in this matter.

Sincerely,

Bob Pavitt

JAY S. HAMMOND
GOVERNOR

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

December 4, 1979

RECEIVED
DEC 5 1979
LEGISLATIVE AUDIT

Mr. Gerald L. Wilkerson
Legislative Auditor
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

We have reviewed the enclosed agency responses to your preliminary report entitled:

"A Performance Review of the Alaska State Board of Public Accounting"

The Office of the Governor recognizes the importance of keeping appointments up-to-date with qualified professional and public members. Please be assured that every effort is being made to comply with your Recommendation No. 2.

While the agency responses make certain references to or allude to budget restrictions which limit the capacity of the Board and Division of Occupational Licensing, it has been well recognized that most or all budgets for State functions have been similarly restricted. Therefore, anticipated progress in implementing your recommended enhancements would appear subject to current and future fundings.

Otherwise those responses appear adequate and self-explanatory.

Sincerely,

Richard A. Smith

Richard A. Smith

STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

DIVISION OF OCCUPATIONAL LICENSING

POUCH D
JUNEAU, ALASKA 99811

November 29, 1979

RECEIVED
DEC 5 1979
LEGISLATIVE AUDIT

Mr. Gerald L. Wilkerson
Legislative Auditor
Division of Legislative Audit
Pouch W
Alaska Office Building
Juneau, Alaska 99811

Dear Mr. Wilkerson:

I have reviewed the preliminary audit report on "A Performance Review of the Alaska State Board of Public Accountancy October 1, 1979". On behalf of the Alaska State Board of Public Accountancy the following comments related to that report are submitted:

Recommendation 1:

The qualification and conditions of Board membership (AS 08.04.020) should be amended to specify five certified public accountants or public accounts and two public members.

Response:

We concur with the concept of this recommendation. The Governor at the request of the Alaska State Board of Public Accountancy introduced during the last session of the Legislature a bill changing the makeup of the State Board of Accountancy in a manner similar to that which is recommended. The proposed legislation (Committee Substitute for Senate Bill No. 185) amends AS 08.04.020 to read as follows: "Appointment and qualifications of Board. The Board consists of seven members appointed by the Governor. Each member shall be a resident of this state for at least one year. Three members shall be certified public accountants, two members shall be public members in accordance with AS 08.01.025, and the remaining members shall be individuals licensed under this chapter." Committee Substitutes for Senate Bill No. 185 has passed the State Senate and currently is being held by the House Commerce Committee. We strongly urge that the House Commerce Committee act favorably on this bill early in the next session of the Legislature.

8-H8LH

Recommendation 2:

The Board of Public Accountancy should be brought to its full complement of seven members, and maintained at that strength by means of timely appointments of qualified professional and public members.

Response:

The Board concurs with this recommendation. On January 11, 1979 Roxanne Kemp, a public member, and I met with Jessie Dodson of the Governor's staff to discuss appointments to the vacancies on the State Board. We requested the filling of these vacancies as soon as possible. The meeting with the Governor's staff is covered in the March 23-24, 1979 minutes of the State Board of Accountancy. The Board was notified that the Governor appointed an additional member to the Board on October 31, 1979. After this appointment one vacancy for an unlicensed member remains.

Recommendation 3:

Without effecting the rights and privileges of presently licensed public accountants, the accountancy laws should be amended to discontinue the licensing of new applicants as public accountants.

Response:

We concur with this recommendation. The need for a comprehensive review and revision of the State Accountancy Act has been scheduled for discussion during the Board's meeting on December 6 and 7, 1979.

Recommendation 4:

Electronic recordings should be made of all board meetings, and the tapes retained by DOL for two years.

Response:

The State Board of Accountancy has no objection to this recommendation. In the past we have cooperated with the Division of Occupational Licensing policy regarding the retention of tape recordings of Board meetings.

Recommendation 5:

The Board should adopt a formal statement of goals, objectives and policies; and should prepare an annual report of it's activities.

Response:

We concur with this recommendation. The Board has taken some steps to comply with this recommendation. The steps taken are as follows:

1. The Board's proposed budget for the year ending June 30, 1981 contains narrative in support of the Board's goals for 1981 and the associated costs to obtain those goals. This budget was adopted during the Board's March 23-24, 1979 meeting and submitted to the Department of Commerce.

2. During the March 23-24, 1979 meeting a listing of Board policies was derived from prior Board minutes. This listing was distributed to each Board member for review. These policies were formally adopted during the October 1-2, 1979 Board meeting.

3. Board goals and objectives were established and adopted during the August 1-2, 1979 meeting.

4. The State Board of Accountancy prepared a report of its actions for the year ending June 30, 1979. This report was approved during the August 1-2, 1979 Board meeting and submitted to the Division of Occupational Licensing.

It is our understanding that the Board has no statutory requirement for an annual report (calendar year report) but the Board does have a statutory requirement for a yearly performance report (year ending June 30). Therefore we interpret Recommendation 5 to relate to the performance report rather than an annual report.

Recommendation 6:

AS 08.01.025 should be amended to state more clearly legislative intent with respect to the qualification of public members of the Board.

Response:

We have no objection to this recommendation. It should be noted that the possible conflict referred to in this recommendation was made known during the confirmation hearings of the current unlicensed board member.

Recommendation 7:

DOL should develope improved statistical record keeping methods and procedures.

Response:

We concur with this recommendation. A board member, Charlotte Stuart, has prepared significant statistical data regarding Alaska CPA examination results. Part of Mrs. Stuart's work is contained as pages 30 and 31 of the Performance Review of the Alaska State Board of Public Accountancy. It would be helpful if DOL could prepare statistical data for Board use.

Recommendation 8:

DOL should handle investigations in a more comprehensive, efficient and timely manner.

Response:

We strongly endorse this recommendation. A DOL investigator met with the Board during its October 1-2, 1979 meeting and discussed thirty-seven (37) cases. As a result of this meeting twenty-four (24) cases were closed. The Board requested additional data on ten (10) cases be presented at its December 6-7, 1979 meeting. The three (3) remaining cases are still being investigated by DOL. This is the first comprehensive report we have received from DOL.

Two provisions of AS 44.66.050 (c) are as follows:

1. "The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest."

2. "The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection."

In addition to the Board's activity related to provision one (1) above, (page 17 of the audit report) the State Board of Accountancy has opposed statutory changes to AS 08.04 which were not generally of benefit to the public interest.

The Board believes that the following budgetary changes are necessary for it to comply with provision two (2) above: (page 19 of the audit report)

1. The State should provide adequate money for the Board to fulfill its duties. Examples of inadequate monies for the year ending June 30, 1980 are:

   - Monies for only three (3) Board meetings were appropriated. The Board should have four (4) meetings per year. Estimated additional cost - $2,800.

   - No monies were appropriated for the Board to appear before the Legislature on Sunset hearings. Estimated additional cost - $1,700.

   - No monies were appropriated for Board members to attend meetings of the National Association of State Boards of Accountancy. Yet Board members are expected to be proficient in administration and policing of accountancy in Alaska.

     The National Association of State Boards of Public Accountancy, of which Alaska is a member, has several ongoing programs which affect Alaska. Some of these programs are:

     - Entry Level Licensing - This program develops standards for entry into the profession to insure that the examination content, procedures for administering the examination, security of the examination content and grading the examination are proper. The accounting profession is unique in that the Uniform CPA Examination is recognized by all 50 states, the District of Columbia and three territories as the examination which properly measures a person's accounting abilities. This program also develops proper experience level requirements for entry into the profession.

     - Reciprocity and Temporary Practice - This program reviews existing statutes and regulations on accounting in the various states and the development of model statutes and regulations which promote licensure reciprocity amoung the states while providing adequate public protection.

     - Relicensing and Reentry - This program develops standards for evaluation of competence of an individual with an inactive license to upgrade to an active license or to relicense an individual whose license has lapsed for some reason.

o Practice Surveillance and Enforcement - This program assists state boards of accountancy in developing and establishing procedures to monitor activities of licensees on an ongoing basis and develop criteria for sanctions and penalties.

Participation by members of the Alaska State Board of Accountancy insures knowledge of what other states are doing, which impact Alaska. Two of Alaska's board members have been named to serve on NASBA committees.

Entry Level Licensing - C. Stewart
Practice Surveillance and Enforcement - V. Johnson

These Board members were not able to participate in committee activities because no monies were available for travel. Estimated additional costs - $4,800.

The estimated additional costs of the foregoing items is $11,000. The financial data contained on page 20 of the Performance Review indicates that sufficient monies are collected by the State from Board activities to finance these necessary Board functions.

These activities are included in the Board's 1980-1981 budget request which was submitted to DOL in March 1979. Similar activities were included in the Board's 1979-1980 budget but were deleted prior to the submission of the State Budget to the Legislature. We request that appropriations for these activities be included in the 1980-1981 State Budget.

2. The State Board of Public Accountancy believes that it needs to establish a positive enforcement program to monitor the activities of licensed accountants. At present, the only monitoring of a licensed individual's activity occurs when a complaint is filed against the licensee. The State Board of Accountancy believes that it should, on a sampling basis, review the work of licensed persons for substandard practices. A review of this type increases the chances of detecting unacceptable activities prior to the time they become so serious that a complaint is filed against the licensee.

The detection of substandard practices would:

- o Increase public protection by identifying marginal licensees before someone suffers injury; and
- o Provide the licensed individual an opportunity to take corrective measures prescribed by the state board with minimum disruption to their occupation.

In the three states, Florida, Colorado and Arizona, where this type of positive enforcement program has been undertaken, 30 percent of the investigations revealed substantial substandard practices by licensed individuals.
Estimated additional costs - $20,000

The Board's 1980-1981 Budget Request includes this new program.

* * * * *

We wish to acknowledge the courtesy and proficiency with which the Performance Review of the Alaska State Board Public Accountancy has been conducted. Should you desire additional comment or desire to discuss the Board's response to this review, please contact the Board.

Very truly yours,

LEGISLATIVE
AUDIT

Gerald Wilkerson, CPA
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

The following comments are offered in response to the Performance Review of the Board of Public Accountancy, as submitted by the Division of Legislative Audit.

Recommendation No. 1: We would have no objection to your recommendation but would suggest that consideration be given to comprising the board of three certified public accountants and two public members.

Recommendation No. 2: Agree.

Recommendation No. 3: We agree that such amendments would reduce unnecessary regulation while still serving the public interest and maintaining professional integrity.

Recommendation No. 4: Agreed. The board has discussed this matter and is complying with the recommendation.

Recommendation No. 5: Agreed. The board did submit goals and objectives for the FY '81 budget, and its performance report for FY '79.

Recommendation No. 6: Agreed.

Recommendation No. 7: Agreed. The Division is in the process of collecting data concerning the number of licensees, examination statistics, complaint information, correspondence work load and number of requests. Monthly reports are prepared by the examiners in addition to interim activity reports which detail activity between scheduled board meetings.

Recommendation No. 8: Agreed. Complaints received against all regulated professions should be handled on a timely basis.

I appreciate the time and efforts expended on this review and the opportunity to provide these comments.

Sincerely,

Bertram L. Wagnon
Deputy Commissioner

Juneau, Alaska 99811

March 13, 1980

The Honorable Clem Tillion
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Your Senate Commerce Committee has had under consideration for "Sunset" review the Board of Public Accountancy pursuant to your referral under AS 44.66.050 and AS 08.03.010.

In accordance with the statutory requirements, a public hearing was held on the review of this board, at which written and oral testimony was received. Members of the board testified in person or by teleconference. The Committee considered the proposed budget of the board for FY 1981 and particularly examined the performance audit of the activities of the board conducted by R. W. Pavitt and Associates, Inc. and Homan-McDowell Associates under contract to the Division of Legislative Audit.

Guided, in part, by this performance review the Committee took into consideration the factors required to be considered under AS 44.66.050(c).

Your Commerce Committee thereby makes the following findings: The Committee concurs in the eight findings and recommendations as they appear on pages 7 through 15 of the Performance Review of the Board of Public Accountancy dated October 1, 1979 which is hereby incorporated by reference as though fully set out herein.

The Committee further recommends that the board use its powers in the granting of licenses, in acceptance of experience in the public and private sectors, and in cases involving reciprocity in a more judicious and evenhanded manner.

The Committee feels that it has adequately addressed the recommendations and categories required under AS 44.66.050(d), and recommends that with the changes stated in this report

the Board of Public Accountancy be continued for another four years, that is, that the repealer with regard to the activities of the board be amended to read June 30, 1984.

A bill will be introduced by the Commerce Committee facilitating the changes and recommendations in this report.

Respectfully submitted,

Brad A Bradley

Senator Brad Bradley
Chairman
Senate Commerce Committee

BB/bm

February 28, 1980

Senator Brad Bradley, Chairman
Senate Commerce Committee
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Senator Bradley:

I attended the teleconference hearing in Anchorage on Tuesday, February 26, 1980 concerning the sunset review of the State Board of Accountancy. Unfortunately, due to other commitments I was unable to stay for that portion of the hearing. Consequently, I am submitting my testimony in written form.

I have read the performance review of the State Board of Accountancy and concur with all of its recommendations. With the enactment of the Foreign Corrupt Practices Act and the increasing surveillance of the accounting profession by Congress and the Securities and Exchange Commission, the State must do its part to protect the public interest and insure the competence of those individuals who desire to offer their services to the public as accountants. It is therefore extremely important to continue the State Board of Accountancy, implement the eight recommendations contained in the report and fund the activities of the Board at a level at which they can operate effectively.

I am a Certified Public Accountant, but am not in public practice. I am responsible for issuing financial statements and constantly refer to the financial statements of other companies in my work. It is extremely important for these statements to be consistent and reliable so that investors, creditors and other users like me can make proper decisions based on them. The only way to accomplish this in Alaska is to insure a strong State Board of Accountancy.

Very truly yours,

Edward R. Geiger

cc: Senator Arliss Sturgulewski
Senator Tim Kelly
Senator Frank Ferguson
Senator Terry Stimson
Mr. Vern Johnson, Chairman, State Board of Public Accountancy

REPORT FROM STATE BOARD OF ACCOUNTANCY FOR FY '79

The problem that has been before the Board of Public Accountancy for several years is work experience before the CPA certification is issued. It is our responsibility in protecting the public to see that the persons who hold themselves out to be CPAs have had some experience in performing the audit (attest) function. This continues to be the only difference between accountants that are licensed and the non-licensed accountant or bookkeeper.

Our goal was accomplished with the adopting of final regulations in December 1978 that refined and clarified the type of experience necessary before the CPA certificate would be issued. Formal hearings were held in Juneau and an informal hearing held in Anchorage regarding the proposed changes in regulations. After they were cleared by the Department of Law on May 25, 1979, a certified mailing was done to all holders of CPA certificates issued by the State of Alaska to comply with Section 08.04.080 of the Accountancy Act.

We continued our efforts to help the unsuccessful CPA candidate by participating in the CPA critique program offered by the National State Board of Accountancy. The program has been held in Anchorage and a total of 36 CPA candidates have participated. We will expand and offer the program in both Anchorage and Fairbanks in the fall of 1979.

The number of candidates for the CPA examination continues to climb and a suitable place to hold the examination became a problem in Anchorage. A new location was secured for the November exam and used for the May exam. There was a noise problem at the May exam and we may be looking for other accommodations in November. Fairbanks and Juneau are also having an increase in candidates and will be suffering from inadequate facilities in FY '80.

The Board continues to be short of the required number of members. This presents a problem in securing a quorum for at least the summer meeting. We would urge the Governor to appoint the other public members as soon as possible.

The Board is scheduled for Sunset review in FY '80 and Pete Hogan, a Board member from Southeast, is working on a history of Board Activities since its creation. This should be ready for review and approval at our summer Board meeting.

Vern Johnson and Roxana Klemp are the legislative commitee for the Board. They worked with the Department of Commerce and Economic Development and the Governor's Office in introducing legislation in the spring of 1979 regarding changes in the current Accountancy Act.

Charlotte Stuart worked with the AICPA Advisory Grading Service for six weeks in 1978 while the grading of the May 1978 CPA examination was taking place. As the result of this experience, the Board had a report regarding the grading process and reaffirms the opinion that the CPA examination is fair and equitable. A study done on Alaska first-time candidates for the years 1973, 1974, 1975 showed that over 80% pass the examination within three years if they continue to take and retake it.

Many changes are taking place in the accounting profession and the Board continues to request funds for beginning a practice review program. At the present time, the Board does not have a method of monitoring a person's performance once they have received a CPA certificate and a permit to practice. We react to complaints rather than being able to take the initiative to see that the public is not harmed in the first place. This will be our main goal for the FY '80 year.

The Board has not had adequate funding for travel to Regional or Annual meetings of the National Association of State Boards of Accountancy. Two board members were asked to serve on National Committees. After a half promise that funding would be available from the State, Charlotte Stuart accepted a committee appointment to entry-level licensing and Vern Johnson was appointed to the practice review committee. Charlotte attended her committee meeting in Dallas and gave the committee report at the regional meeting in Hawaii. Both of these meetings were at her own expense since travel funds were not provided by the State.

Vern Johnson and Charlotte Stuart also attended the annual meeting of NASBA held in the fall of 1978 at their own expense. The State did provide travel for one member to attend the meeting and the Board voted to send our public member, Margaret Baker, so that she might gain some additional insight into the problems being confronted by all State Boards.

A problem that is facing all State Boards of Accountancies is recognition of foreign certificates. As the result of a lawsuit against one State Board, a joint committee was appointed by NASBA and the AICPA to do a review and evaluation of foreign examiations used as a basis for certification in various countries. The committee held public hearings in California in August of 1978. After the hearings, the following items were formulated:

1. The type of information required to assess the comparability of foreign licensing examination (i.e., preparation, security of examination, grading process).

2. Methodology for review.

3. Countries to be included were: Australia, Canada, England and Wales, India, Ireland, New Zealand, the Philippines, Scotland, and South Africa.

4. The time period to be covered would be from 1960 through 1977.

A report given at the Regional meeting on this committee confirms the opinion of the Alaska Board that it is impossible to measure the comparability of the foreign examinations as they relate to the Uniform CPA examination. Therefore, our Board continues to require all applicants for the CPA certificate to pass the entire Uniform CPA examination, since we have not been able to determine that the foreign examinations are equivalent to ours.

The Board held four meetings in FY '79. A one-day meeting in Fairbanks, one two-day meeting in Juneau and two two-day meetings in Anchorage. The Board continues to review each new candidate's application for the CPA examination and as the number of applicants increases, so does the workload of the Board.

The following is a statistical report on candidate applications:

New candidates approved for the CPA examinations:

November 1978 - 46
May 1979 - 51

Actual candidates scheduled for examinations:

November 1978 - 134
May 1979 - 152

No shows for the examinations:

November 1978 - 14
May 1979 - 18

Certificates issued by reciprocity: 33

Original Certificates issued: 46

Complaints filed with violations officer and brought to the Board: 4

The Board had a change of licensing officers again this year and this continues to be a problem. With the increase in salary grade level given the licensing officers, it is hoped the turnover will decrease.

Christian,

I have enclosed the summary you requested. It is not final typed but I assume it for your use and not publication.

I also enclosed a copy of the explanations for the original SB212 prepared by Jim Magown our executive secretary. You may already have a copy of this document and it can be used to ~~for~~ explain some of the incoporated paragraphs and sections.

Also enclosed is a copy of his explanation of our budget request. I know that you are not envolved with this aspect but should someone ask, it may be of assistance.

Steve

EXPLANATORY COMMENTS REGARDING CSSB 212

March 28, 1980

Prepared by James L. Magowan

Executive Secretary Alaska Real Estate Commission

Overview Comments: This bill: (1) clears up or clarifies much of the language of the present statutes making them clearer and more understandable; (2) eliminates ambiguities and/or contradictions in the current statutes that arose as certain sections were amended or repealed without appropriate changes being made in related sections or which arose through related changes in other chapters or titles being made without appropriate changes in the real estate licensing statutes; (3) sets forth new procedures for examination and issuance of licenses which eliminate duplication of effort and cost in these processes and should improve the service to the applicant; (4) eliminates the present anomaly in the statute that permits a licensee to operate even when claims against the licensee have been paid from the surety fund and the public no longer has the full protection of the surety fund; (5) eliminates the technical requirement that resident property managers be licensed - this requirement is currently very difficult to enforce and is probably not in the public interest; (6) clarifies and broadens within the intent of the statute the regulation making authority of the Commission; (7) replaces an out moded section for license reciprocity with other states with an effective means of licensure by endorsement.

In the following commentary, I will at times refer to the above numbers with respect to specific sections in CSSB 212.

Section 1. AS 8.88.041(b). This is a clean-up section related to items (1) and (2) above and brings the statute in line with changes which occurred when public members were added to the board.

Section 2. AS 8.88.071(a). The law currently is silent with regard to how a broker's affairs should be wound up when the broker/proprietor of a real estate business dies. This section remedies that particular problem. It should be noted that this is a problem that the Real Estate Commission has faced on a number of occasions in the past.

Section 3. AS 8.88.081. This section is explained by Item 6 above. It should be noted that because of the ambiguity of the current section, the Real Estate Commission has received differing interpretations of its authority from successive Assistant Attorney Generals who are assigned to assist the Commission in the regulation writing process.

Section 4. AS 8.88.091. Education. Most violations and problems encountered by the public are due to ignorance and lack of training rather than willful intent to injure or defraud the public. Educated licensees is the obvious answer to this problem. The current statute is such that, as a part of its educational activities, the Real Estate Commission is barred from publicizing even an informational newsletter to licensees on a periodic basis in order to keep them abreast of the real estate license law, changes that occur in the law and information on common violations encountered by the Commission where those violations may be a result of ignorance. This section slightly broadens the Commission's permitted educational activities and will enable the Commission to better inform licensees of their obligations and responsibilities to the public and to the Commission itself.

Section 5. AS 8.88.171. This section relates to Items (1), (2), (3) and (4) as set forth above. This is basically a housekeeping measure. It does eliminate the 90-day residency requirement for licensure which has apparently served no useful purpose and by reference and cross-reference eliminates some of the situations described in the numbered items above including a licensee being able to remain licensed and renew a license even though claims have been paid out of the surety fund and have not been repaid. Amendments to Section 171 and Section 211 and cross-references between those sections also permits procedural changes in the handling and processing of license applications and examinations for licensure which should cut down duplication of our effort, cost to the Division of Occupational Licensing or the State and which should also facilitate issuance of license to the licensee.

Section 8. AS 8.88.181(a). The amendment to this section is technical and clarifying in nature. The proposed changes broaden and allow for better coverage of real estate topics on the real estate examination.

Section 9. AS 8.88.191. Administration of Examination. This section deals with the physical administration of the examination and provides for examination applications to be handled directly by the testing service. This eliminates the redundant step which we currently must follow whereby applicants apply to the Division of Occupational Licensing which in turn forwards the applications to Educational Testing Service and receipts the application and funds received. The receipting of applications and the forwarding of applications to ETS involves a considerable amount of paperwork on the part of the license examiner. The paperwork is basically nonproductive work and eliminating it will be a net savings to the State. This section also clarifies the examinees' rights if they feel that their examination has been improperly graded. There have been occasions when examinees have requested that they be permitted to review the actual examination after they have failed it. Since

Alaska uses a national examination which is copyrighted and portions of it are used throughout the nation, it is extremely unlikely that the examination itself will be faulty, and if there is a fault with the examination this can be determined by the Commission reviewing the examination. For security purposes, therefore, it is deemed inappropriate for applicants to examine their actual examinations. In a remote possibility that an examination is improperly scored by the ETS computers, on request, any applicant may have an examination hand scored. This has been the practice in the past, and, to date, there have been no examination results which have been changed as a result of hand scoring. The computers in this situation are remarkably reliable. It should be noted that changing the application procedure from applications going to the license examiner to having applications going directly to Educational Testing Service will mean that the full $50.00 application fee will not be collected from those who fail the examination. Only those who pass the examination will submit applications for complete examination of their qualifications to the license examiner and will be required to pay the balance of the $50.00 examination fee.

All applicants who apply for the examination will send Educational Testing Service the fee for the written test. This fee is currently $12.50 and will probably go to $13.00 or $14.00 in the near future.

It is felt that the loss of revenue by not collecting the full $50.00 from applicants who fail is more than offset by the decreased workload on the license examiner in handling those applications. It is not felt that additional fees are justified if this process can be handled at no cost to the State and at less cost to the applicant.

The Commission could not justify handling applications simply for the purpose of collecting additional application fees.

Section 10. AS 08.88.211. This section has already been referenced.

This is a change in application procedures and processing whereby the Commission treats examination for licensure as having two parts; a written test which must be passed before an applicant's total qualifications are examined and the examination or review of the applicant's total qualifications are the two portions of licensure examination. Splitting the qualifications in this manner makes it possible for applicants to apply directly to Educational Testing Service for the written portion of the examination and eliminates the question of additional fees from applicants who failed the examination.

The statute, as currently written, talks about qualifications for examination and actually imposes qualifications on an applicant who wishes to take the written examination. The Real Estate Commission

feels that this is not necessary and that those who are otherwise eligible should take the written examination and then have their qualifications for licensure examined.

There have been some rewording changes in section 211 in order to clarify the types of offenses which would warrant denying an applicant a real estate license for previous convictions; and the wording of the statute has been or is being brought to conformity with the specific wordings used in the revised Alaska Criminal Code. This section and previously referenced sections, therefore, have the effect of permitting applicants to apply directly to ETS, take and pass the examination, then apply to the Real Estate Commission for examination for licensure rather than following the current procedure of applying to Occupational Licensing for the written examination and then applying for licensure, thereby duplicating effort.

Section 11. AS 08.88.221(c). This section adds a fee for transferring a license. License transfers are a heavy workload on the Occupational Licensing staff and it is appropriate that licensees pay for the service. This section also raises the fee from $2.00 to $5.00. This is more in line with the actual cost of handling this type of transaction.

Section 12. AS 08.88.221. This section is related to section 211 and, basically provides that when persons pay the examination fee directly to ETS, they shall be credited with the fee paid to ETS when they apply for licensure. Currently they pay their application fee to the State and the State is billed by ETS. This aspect of the bill will have no fiscal impact on the State other than to cut down the personnel required to handle applications. Instead of the fee coming to the State and then going to ETS, it goes directly to ETS, thereby improving the efficiency of the process.

Section 13. AS 08.88.241. Reinstatement of lapsed license. Licensees are required to keep the department informed of their employment and their address or location. When licensees fail to do this, at the end of the license year their licenses lapse. In essence, a lapsed license is the result of a licensee not conforming with the statutes. The way the law is currently written, it could be enforced in such a way that a lapsed licensee gains an economic advantage over a licensee who complies with the statute because the lapsed licensee does not pay inactive license fees; and lapsed licenses are currently treated the same as inactive licenses for purposes of renewal.

In order to eliminate this inequity, this section provides that a licensee whose license lapses for more than six months (a reasonable time for a person who inadvertently overlooks a renewal period) to lose the license until they again complete the examination requirements for licensure.

It should also be noted that a person who fails to comply with the law is probably a suitable subject for reexamination, since they obviously don't understand the law which regulates their business activities.

Section 14. AS 08.88.251(b). The changes in this section are simply for clarification. The section is self-explanatory.

Section 15. AS 08.88.251(c). The procedure described in the previous sub (c) of this section were cumbersome and ineffective and, basically, not followed by the division; this section simply spells out procedures which have already been developed and found to be more effective by the Division of Occupational Licensing.

Section 16. AS 08.88.263. License by Endorsement. Reciprocity is no longer practical due to varying license requirements, particularly educational requirements in different states. Alaska has no education requirement. Endorsement is the simplest way of assuring that licensees coming from other states will be licensed in Alaska with a minimum of hindrance, but at the same time providing for full protection of the public as well as other licensees in the state. Since state laws vary from state to state, it is felt appropriate that anyone practicing real estate in Alaska should be familiar with Alaska Real Estate Licensing Law. License by endorsement provides that anyone holding a license outside of the State who moves to Alaska can obtain an Alaska real estate license by simply demonstrating a knowledge of the Alaska Real Estate License Law. We recognize the fact that all states examine persons for real estate licenses and general real estate knowledge is transferrable from state to state.

Also Bill Section 16. AS 08.88.276. Suspension of License. This section provides for the suspension of a license whenever a claim is paid out of the surety fund against a licensee and is in effect until the licensee repays the fund. This is not a disciplinary action, and should not require the costly time consuming procedures of a hearing. It is simply recognition of the fact that as long as a claim has not been repaid to the fund, the public does not have the full protection of the surety fund which they are entitled to have. If the Commission fails to take disciplinary action and the licensee repays the fund they can immediately be issued a license under this section. There is no violation of the licensee's right to due process under this section. The licensee can defend themselves against payment from the surety fund in court and payments from the surety fund are ordered only after judgement. Therefore the licensee's rights are protected by the full judicial system. The licensee can be relicensed provided that no disciplinary action has occurred subsequent to the suspension for payment of the surety fund and the surety fund is repaid (the public then has full surety fund protection).

Section 17. AS 08.88.361. When commission is earned. Modern real estate practice involves more than a listing and selling of real property. The current statute could jeopardize a broker's right to collect a fee or commission for a service which does not involve a listing but does involve a written contract between the broker and the client. This revision of the wording simply makes the broker's right to compensation enforceable on written agreements other than listing agreements when listing agreement is not the appropriate instrument to be used.

Section 18. AS 08.88.421(1). This section of the bill provides for exception to the requirement to be licensed. There has been a great deal of confusion on the part of licensees who read the statute as it is currently written and believe that they are not required to have transactions on their own account processed through their employing broker. This is not correct even under the current statute because there is a more specific section in the statute which states that all transactions by a licensee must go through the broker even if they are for the licensee's own account. In addition, the wording about land defined in AS 34.55.046 which is not in Alaska clarifies the licensee's absolute responsibility to process transactions through his broker and eliminates confusion by persons reading the statute. The addition of the final words, "which is not in Alaska;" was necessitated by a legislative change in AS 34.55.044(6) which changed that section from defining only land located outside the State of Alaska to defining all subdivided land in the State of Alaska. When that statute was changed 421(1), by reference to that section, technically prohibited an Alaska subdivider of Alaska land from selling his own property without the services of a broker. This is clearly in violation of his constitutional rights. This wording clarifies that.

Section 19. AS 08.88.421(9). This section has been a source of great confusion. The basic intent of the section as spelled out in an Attorney General's opinion and enforced by the Commission over the years has been that no person may, as a regular vocation, sell real estate for another person whether on a salary or for compensation. The reason for this ruling by the Commission is that when a person purchases real estate from someone other than the owner of the real estate, they are entitled to have the full protection of competency and the surety fund provided by licensing. Additionally, no person may transact even one real estate transaction for a fee dependent upon the value or proportional to the value of the property sold even if the transaction is an isolated or single incident, because selling real estate for a fee even one time would require a license. The general exception applies to persons who are employed by corporations or partnerships for purposes other than the selling of real estate, but who in the course of their day to day activities might be called upon to dispose of excess property or property interests held by the corporation. The traditional example used by

the commission would be if a food chain were to determine that it had one store too many it might ask the manager of that store to handle the sale and disposition of the store. During the time of the sale, he would also be responsible for any other management activities, and would not be paid for disposing of excess or surplus company property in the course of his normal duties as manager of a store.

A confusing phrase in the statute has been the statement that a person may not perform these acts as a vocation or for compensation. Most people think that those two qualifications go together. The Commission has inserted the word "either" so that it reads..." either as a vocation or for compensation if the compensation is dependent upon and directly related to the value of the real estate." Performing real estate transaction as a vocation requires a license, performing real estate transactions for a commission requires a license. Again, it should be noted that the changes do not necessarily affect the statute itself or the way in which the statute has been or will be enforced but simply makes it clearer to those involved.

The other changes in this section are simply for clarification of meaning.

Section 20. AS 08.88.421. This is a new section. This section has already been referenced in the numbered items at the beginning of this document; specifically, item 5, eliminating the technical requirement for property managers to be licensed.

Section 21. AS 45.85.010. Real Estate Surety Fund. The surety fund as it is currently established by the statute is virtually impossible to manage in a manner which is equitable and acceptable to the licensees, the Commission, and the department. The statute provides that the fund shall build until it reaches $250,000. This has happened. The statute further provides that the fund may not go over $300,000. In the event that the fund is over $300,000 at the end of any fiscal year, the excess reverts to the General Fund. When the fund goes over $250,000 the Commissioner may, by regulation, adjust the surety fees to maintain the fund between $250,000 and $300,000. The cash flow to and from the fund is such that the $50,000 margin between $250,000 and $300,000 does not permit sufficient leeway for the Commissioner to adopt regulations in a timely fashion so that money is not lost to the General Fund, that appropriations may be made for educational purposes, and that claims can be determined prior to lowering fees. For example, in November of 1979, the fund paid out approximately $40,000. If the fund were at $250,000 at the beginning of November 1979, and the Commissioner were to then adopt regulations for the license year 1980 through 1981 reducing the fees because it was anticipated that the fund would continue to build, by the time we started collecting the new

fees the fund would have already dropped to $210,000. If, in addition to reducing the fees, an educational appropriation were made, such as was the case last year for $75,000, the fund would actually be down to $135,000 prior to the new license year. In addition to that, one or two more months like November of 1979 could totally deplete the fund, while, at the same time, the Commissioner was lowering fees and the Real Estate Commission was planning on using appropriation for educational programs.

Now that the fund has been in effect for four years, the use of the fund has dramatically increased and, at the same time, the predictability of the fund over a six month period has dramatically decreased. The Commission feels that it is necessary to broaden the margin between the mandatory minimum and the mandatory maximum limits of the fund so that appropriations and judgements can be made which will not result in the fund being depleted and the public going for some period of time without adequate protection under the fund.

It should be noted that a complicating factor in adjusting the fees is the fact that licenses are renewed every two years on the first of January. If adjustments are not made by the first of January of the license year, it would be manifestly inequitable to make an adjustment at mid-year. Therefore, it has been determined that adjustments will be made at the beginning of license years. Fiscal years, on the other hand, occur every twelve months at mid-calendar year and it is impossible to correlate surety fund adjustments with fiscal years in order to avoid having surety fund money revert to the General Fund. The licensees are understandably upset about such practice since they would view this as an additional and unjustified taxation of the licensees; a taxation which is discriminatory.

The Real Estate Commission is particularly concerned that the Real Estate Surety Fund be well managed since this is an item which can be controversial with respect to the licensees. Licensees are, in effect, self-insuring themselves against malpractitioners and, as such, are very sensitive about the use of the funds, and any excess funds being taken into the State General Treasury.

A new section has been added to AS 08.88.431 and, basically, this is a sub(5) defining resident manager as a person who resides on real property and manages for the benefit of another person. This definition is necessary to clarify the meaning of the change in Section 421 which exempts resident property managers from the licensing requirement. Without this definition it might be difficult to enforce any kind of regulation over property managers. This would manifestly endanger the public as can be seen by the fact that one of the largest frauds the Commision has encountered in recent years did involve a huge amount of money handled in

property management accounts. The Commission charged with protecting the public, and the realtors are charged with improving the industry. Both have reached a high degree of agreement on these changes to the statute and this is an indication of the need for the adoption of these changes. When the regulators and the regulatees are both acting conscientiously on behalf of their respective constituencies and are in agreement, it is highly likely that the changes they request are to the benefit of all concerned, including the public.

James L. Magowan

May 2, 1980

EXPLANATION OF THE PROPOSED BUDGET TO SUPPORT THE ALASKA REAL ESTATE COMMISSION CREATED UNDER HOUSE BILL ~~1004~~ SB 212

The proposed budget was developed through a simplified process of PPBS (Policy Program Budgeting System). The goals and objectives of the Real Estate Commission were identified. These represent the projected policies of the Commission. The functions and activities necessary to carry out those policies were determined as clearly as possible with current information. Commission policies cover enforcement. A policy for purposes of budgeting would include a goal stating how much enforcement is to be performed and the results expected. To carry out this policy through a program it is necessary to determine specific activities (program). For instance, complaints must be received cataloged , filed and tracked within the system. When it appears there may have been a violation, the violation must be investigated. The investigation must be scheduled and developed. The results must be prepared for prosecution through the Attorney General's Office. The Attorney General's Office must process the results of the Real Estate Commission investigations through its system. That system is beyond the direct control of the Real Estate Commission and therefore does not enter into the system except that the budget includes a specific allocation for a half-time attorney, which will assure a minimum level of A.G. support.

The specific activities of investigators, clerks, typists and other personnel in terms of processing the investigation and its results constitute the program which is instituted to achieve the policy goal.

Once the program has been determined the budget is axiomatic. A budget change changes the program which in turn changes the policies or goals.

It is estimated that a single investigation requires 20 to 30 hours of clerk-typist support if it is carried through the complete hearing and revocation, suspension or exoneration process.

If we accept a figure of two hearings per month as a reasonable policy goal at this stage of the Commission's development (two hearings per month is not enough to keep up with all valid complaints that could result in successful prosecutions but is a reasonable goal in view of the fact that the past year and a half has seen one hearing completed and one other hearing in process.) In this example, we then have an investigator who will be averaging two (2) completed investigations per month after the initial start up. That means one investigator will be producing between 40 & 60 hours per month of typing and clerical work for the support staff, on those two investigations alone. Additionally the investigator will also be responsible for the initial complaint handling, sending out letters, gathering initial responses, making reports of cases closed or not accepted for investigation and preparing periodic summary reports of all investigations, open, closed or in progress for the Commission. The investigator should be expected to utilize anywhere from 75 to 100% of one clerk-typist's time per month, if the investigator is to operate at an adequate level.

The investigator with clerical support will be responsible for keeping track of and keeping current records of the 150 to 200 complaints that

are anticipated over the next year, plus all cases currently on file and not completed. To do this with the number of personnel available requires adequate word processing equipment. The word processing equipment is part of the policy program budget system. Word processing equipment enables the investigator to achieve the operational goals set with the amount of time and clerical support available to him. A lack of adequate equipment can also effect basic policy goal achievement because it will delay the work of the investigator. Lack of proper equipment or management produces a syndrome which is usually manifest as a demand for more personnel.

The heart of PPB is that the budget is designed to achieve goals not simply to pay for positions or maintain a function which may or may not be in line with the goals. The budget is tied to the goals and the program is designed to achieve goals not to fit within the budget. Or to put it another way, the budgeting process is often backwards, programs are established or budget is established and then programs are developed out of the budget. In this system, the program is established and then the budget is derived from the program.

The fact that adequate personnel and equipment are required in order to achieve the policy goals set out and that all of these items are interrelated and that a change in one will effect the other components brings out the systems nature of this approach. This approach is a systems approach and is a means of budgeting systems to achieve goals.

In addition to enforcement the Real Estate Commission has a primary responsibility seeing to it that applicants are examined and licensed with a minimum of red tape or bureaucratic hassling and also that licenses

are issued in a prompt and expeditious manner. Real Estate licensees are a highly mobile population in terms of locus of employment. They frequently change employing brokers and brokers frequently move locations. It is essential to keep track of these movements because when complaints or inquiries come in about various licensees it is essential to know who is responsible for a given licensee. The issuing of licenses, the recording and tracking of changes and transfers, the processing of applicants for license, the review of applicants qualifications and so on are all what might be termed paper work intensive activities. Whenever an activity is what we will call paper work intensive it requires either a very high input of labor or it requires sophisticated paper work processing equipment to get the job done in a reasonable time. We have budgeted for word processing equipment, which will maximize the paper work handling capability of a relativly few personnel.

By using word processing equipment, for example, that has filing, indexing and retrival capability the license examiner will not have to maintain duplicate hand typed files for every licensee and every licensee location. By, using this type of equipment, when a change such as when a licensee, changes from one broker to another broker and also changes their license status from salesman to associate broker, the changes for can be accomplished in one operation by the license examiner. Additionally, if it is needed to send out a new license, a new license can be prepared automatically from the one entry which the examiner made into the system. When it is necessary to track an individual licensees employment or employment history this can be retrived from the system, automatically, by a

single operation. None of these things are currently possible with either the record-keeping or the word processing equipment available to the Real Estate Commission. The claim that the equipment saves man-hours or personnel costs is always met with the question,"How many people then are being eliminated?" In this situation, what we are proposing is starting with the minimum number of people. The word processing equipment is expanding the capability of those on the payroll to meet both current work load and a large portion if not the total portion of anticipated increase in work load in the immediate future.

It should be noted, that currently the routine issuing of licenses and maintaining the files is so under-equiped that we still have Real Estate licensees who have not received their licenses, renewal for which was sent months ago. This situation could be corrected under the current system by the addition of one or two license examiners or the installation of adequate word processing equipment. We are proposing word processing equipment. It should be noted that currently word processing equipment while costly, is nowhere near as costly as personnel.

A large part of the Real Estate Commission's current goals rest in the area of education or more accurately information. The Commission wishes to keep the licensees informed and the responsibilities and obligations that licensees must live up to in order to adequately serve and protect the public. One means of doing this would be through a periodic newsletter direct mailed to all licensees. The cost of the newletter itself and the mailing may be covered by the Real Estate Surety Fund Educational Program, however, the equipment necessary to produce the newsletter

and permit it to be written, edited and composed with an absolute minimum of clerk-typist and other personnel time being used requires adequate word processing equipment. One of the major benefits of word processing equipment is that it increases many-fold the output of the typist in terms of both quanity and quality.

The Real Estate Commission currently provides informational and informative articles to a number of publications including the Anchorage Realtor News Magazine, which goes to all members of the Anchorage Board of Realtors, Building Alaska magazine, which is distributed to many organizations including contractors and organizations involved in activities related to contracting and building industries in Alaska. Also local newspapers including the Fairbanks Daily News Minor, The Southeast Alaska Empire in Juneau and the Anchorage Daily News publish articles produced by the Commission. These articles are tailored to the various audiences at which the publications are directed. Daily News articles are aimed at increasing public awareness and ability to effectively work with Real Estate licencees and understand real estate transactions. Articles for Realtor News are designed specifically toward alerting the licensees to the requirements and obligations imposed by the Alaska Licensing Statute and advising licensees when areas of the Statutes appear to be subject to wide-spread mis-interpretation, hence violation. Articles written for Building Alaska magazine are aimed at both licensees and contractors with specific emphasis on the relationship between the licensee and the builder/contractor whom the licensee represents in a real estate transaction with emphasis on the obligation of both the contractor and the licensee to protect

the public. All articles and information released by, through or about the Real Estate Commission, particularly those that deal with licensee obligations and/or potential violations of the law by acts of licensees must be very carefully written, must be extensively edited and often re-written in order to avoid the possiblity of giving erroneous advice or slipping into the area of giving legal advice rather than advice and interpretation of the license law itself. Word Processing equipment improves the capability of the Commission staff to write, develop, edit and correct information for publication with a minimum use of clerical time. Basically, what we are looking at here is cost effectiveness in preparing printed information.

Using the PPB approach, we have examined the type and amount of publication involved, we have budgeted for the raw materials and we have also, budgeted for adequate personnel assuming the presence of adequate equipment and adequate personnel. Past experience has indicated that the Executive Secretary of the Real Estate Commission produces a volume of written work including correspondence and public information as well as notification to licensees, communications to the Real Estate Commission, to the public, to professional organizations, such as the Board of Realtors and articles as mentioned previously, which is sufficient to occupy a clerk-typist for at least 3/4's of the time therefore, with just the Executive Director and the Real Estate Investigator the Real Estate Commission would require approximately 1-1/4 clerk-typist simply to keep up the current level activity of the Executive Director and to support a reasonable level of investigations.

In addition to the typing, already mentioned there is further typing and

routine correspondence which currently is handled out of Juneau and is processed by either the License Examiner or clerk-typist in the Juneau office of the Division of Occupational Licensing which support the License Examiner on a when needed basis. Under 1004, the Real Estate Commission would not have access to these additional personnel even on an occassional basis, therefore the clerk-typist requested would also be utilized in some instances, to support the License Examiner with some of the non-technical aspects of his job, including the preparation of routine forms, documents and requests for information which must be sent out on a regular and continued basis.

Telephone

Both the Anchorage Field Office of Occupational Licensing and the Juneau office specifically the Real Estate License Examiner's desk currently receive a high volume of telephone calls. The Anchorage Field office receptionist spends approximately 1/2 to 3/4's of her time answering the telephone and receiving calls for the Real Estate Commission, specifically for the Executive Secretary. It is anticipated that the telephone call load, so to speak, will continue to increase because the number of licensees and the assistance required by licensees has increased constantly over the past 4 to 5 years. A clerk-typist, who is responsible for answering telephones produces relatively little typing because of the constant erratic and unpredictable interruptions of the telephone. The propose budget includes one clerk-typist for telephones who can supplement the typing support provided by the second clerk-typist.

Under House Bill 1004, the Real Estate Commission will be responsible for hearing claims for payment from the Real Estate Surety Fund and making

determinations and awards from the Surety Fund to aggrieved members of the public. This will involve notices, communications, summarizing complaints and preparing documents for the Real Estate Commission which up until this time neither the Real Estate Commission nor Occupational Licensing has had the responsibility for and therefore the work load for this activity must be estimated. Our estimates are if anything, conservative. It is anticipated that this would add at least another 1/4 to 1/2 person typing load. This is the weakest point in the budget because it could prove to be considerably more work anticipated due to it being a new activity of the Commission.

Travel

The Commission travel budget of $20,000 includes Commission meetings, Surety Fund hearings, investigations and attendance by the Executive Director at National Assoication of Real Estate License Law Officals conferences. The nature of the Commission's functions make the travel budget virtually self-explanatory.

The two clerical positions on the word processing equipment will be used to support one Executive Director, one investigator both of whom shall be considered the executive level positions as far as the type and volume of work they produce. Also one Licensing Examiner whose position should be considered a semi-executive level position in that the Licensing Examiner does require some clerical level support for some of the routine filing and entry that has to be performed particularly the Licensing Examiner is heavily involved in the technical examination of applicants

qualifications.

In addition a point overlooked with respect to a body such as the Real Estate Commission is that when you have seven (7) active volunteers as we should consider the Real Estate Commission, the clerical staff is in effect supporting these volunteers also. The seven members of the commission do generate work for the clerical staff. While individually they may not generate as much direct paperwork as say the Executive Director or the Investigator, they generate a considerable amount of work in view of the fact that they are active and this must also be supported by the same clerical staff as supports the Executive position of the Commission. What we have designed here is a set of policies, carried out by a program-budget which will achieve the goals of the Real Estate Commission and the legislature as expressed during the Sunset Hearings on Real Estate Commission and as implied in the letters from the House Commerce Committee and the Senate Commerce committee to the respect to House and Senate.

Those goals generally stated are:

1. Effective prosecution of those willfully injuring the public.
2. Effective education of thos who wish to provide service to the public.
3. Eliminate delays and confusion in the licensing of and tracking of Real Estate licensees.
4. Improve public awareness of the complexity of Real Estate transactions and the role of licensees so they may better utilize the services of licensees.

5. Better inform the public about the Real Estate Commission so that they know how and where to turn when they have a problem with a license.

6. Provide day to day answers to licensees who need them to voluntarily comly with the law and protect the public.

May 22, 1980

Christian,

Per your request I have outlined the sections of SB 212 with a brief explanation as follows:

Sec. 1 - 031: Changes the title of the Executive Secretary to Executive Director and gives the Commission the power to appoint and direct this position rather than the Commissioner of Commerce.

Sec. 2 - 034: Provides for the appointment by the Executive Director of a full-time investigator or auditor.

037: This section gives the Commission it's own powers for investigations and injunctions. In essence it is transferring the powers now held by the Commissioner of Commerce for investigations and cease and desist to the Commission and states the authority the Executive Director has WITH a majority of the Commission's approval.

Sec. 3 - 041(b): This change, which is part of the original SB212 passed by the Senate, simply prevents the appointment of a Commission that might have most of the Broker members from only one district. It assures that, if available, each district will have a Broker member.

Sec. 4 - 061: Deletes the approval of the Commissioner of Commerce from the Commission's authority to employ assistants.

Sec. 5 - 071(a): This was a portion of the original SB 212. The death of a sole-proprietor broker creates problems since the license is suspended upon death. It merely gives the Commission the power to appoint someone to handle the affairs of the office for the purpose of winding up the estate. The House Commerce Committee added the wording about having the Commission's appointee approved by a representative of the estate.

Sec. 6 - 071(b): This is simply a rewording of the current statute to clarify and reference appropriate statutes in SB212 if adopted.

Sec. 7 - 081: This section clarifies the intent of the statute and the regulation making authority of the Commission.

Sec. 8 - 091: Under the current statute the Commission is barred from publishing such items as a news letter to the licensees. This change would allow the Commission to better inform the licensees of the obligations and responsibilities.

Sec. 9 - 101: Changes the authority of the administrative duties from the Department of Commerce to the Commission.

Sec. 10 - 111: Changes Department to Commission.

Sec. 11 - 121: Changes Department to Commission.

Sec. 12 - 171(a): Under the Commissions current and future operating procedures Educational Testing Service (or any other testing service) provides the examinations and handles all of the testing centers and applications. The Commission will simply examine for licensing which will include the applicant presenting a certificate stating that he has passed the examination required for the license. Previously 08.88.211 was the section which stated who could be examined. In SB212 before you we have deleted 211 and placed those items which were appropriate under 171(a).

House Commerce Committee did change the length of time after conviction for a felony, etc. that one must wait before being licensed.

Simply put, anyone can apply to ETS and take the examination. To get licensed they must pass the qualifications of 171(a) by making application to the Commission and one of these qualifications is that they have passed the appropriate examination.

Sec. 13 - 171(b): Same as 171(a) except it applies to Associate Brokers.

Sec. 14 - 171 (c): Same as 171(a) except it applies to Salesmen.

Sec. 15 - 171(d): Changes Department to Commission.

Sec. 16 - 181(a): Due to ETS and other national testing procedures there are two sections for the exams, general and state. The Commission does not control the questions in the general section and therefore the change in this sections states the exam questions "may include" rather than "must include."

Sec. 18-221(c): Merely raises the fee for transferring or ammending licenses from $2 to $5.

Sec. 17 - 191: These changes are to conform with the current procedures for having the exams contracted out to a national testing service. Such items as having one-half of the examination fee returned if the applicant did not show up for the test are impractical under the new system.

Sec. 20 - 231: Changes Department to Commission.

Sec. 21 - 241: Changes the period a lapsed licensee may go before having to be re-examined from three to two years. In this instance it refers to someone who has not renewed his license.

Sec. 22 - 251(a): Changes Department to Commission.

Sec. 23 - 251(b): Changes are simply for clarity.

Sec. 24 - 251(c): Changes Department to Commission and corrects to current procedures. As an example, we no longer issue an inactive license certificate.

Sec. 25 - 263: Most states are now going to this procedure. If a licensee from another state comes to Alaska we will only require him to take the State portion of the examination and meet the requirements of 08.88.171. The reference to 08.88.211 could be deleted since it is being repealed at the end of this bill.

Sec. 26 - 291: Changes Department to Commission.

Sec. 27 - 301: Changes Department to Commission.

Sec. 28 - 361: There are many types of "listing" contracts used by the real estate industry and not all have to do with selling a property. Other would be leasing, management, etc. This section clarifies and corrects the previous statute.

Sec. 29 - 421(1): This section of the bill provides for exception to the requirement to be licensed. There has been a great deal of confusion on the part of licensees who read the current statute and believe they are not required to have transaction to their own account processed through their employing broker. The addition of the final words, "which is not in Alaska;" was necessitated by a legislative change in AS 34. 55.044(6) which changed that section from defining only land located outside of the State of Alaska to defining all subdivided land in the State of Alaska. When the statute was changed 421(1), by reference to that section, technically prohibited an Alaska subdivider from selling his own property without the services of a Broker. This is clearly a violation of his constitutional rights. This wording clarifies that.

Sec. 30 - 421(9): There has been great confusion in interpreting the current law. The changes in this section hopefully clarifies the interpretation of vocation and comensation.

Sec. 31 - 421: Resident managers have technically been required to be licensed under the existing statutes. This has been unreasonable and the addition of this section will allow certain types of resident managers not to be licensed.

Sec. 32 - 431: Defines resident manager.

Sec. 33 - 010: Due to the narrow window of the surety fund limits, $250,000 to $300,000 before excess funds revert to the general fund, the Commission and licensees have been lossing funds that they have paid. By increasing this window to $500,000 we will eliminate this problem.

One argument has been that the surety fund fees will not be reduced. The Commission may still lower the fees if appropriate provided the fund does not go below $250,000. It might be pointed out that the licensee is now receiving a $50,000 "bond" per year for a cost of, in the case of brokers, $62.50. Under the old bonding method this coverage would cost approximately $200 per year.

Sec. 34 - 020: Changes Commissioner to Commission.

Sec. 35 - 031: This section spells out the procedures one must use when making a claim to the Commission for payment from the surety fund.

Sec. 35 - 041: Lays out the procedures for the Commission for considering payment from the surety fund.

Sec. 35 - 051: Lays out how the Commission shall make payment upon findings from the surety fund.

Sec. 36 - 070: Changes Commissioner to Commission.

Sec. 37 - 080: Changes Commissioner to Commission.

Sec. 38 - 090: Changes Commissioner to Commission.

Sec. 39 - 120: Defines Commission

Sec. 40 - 010(c): Establishes a new sunset date for the Commission. The intent of the legislature has been to set the Commission up as an "experiment" and this establishes legislative review in two years rather than four.

Sec. 41 - : Repeallers.

Sec. 42 - : Effective date of the bill.

One additional comment. In the fiscal note we are requesting a budget for FY 81 of $278,300.00. According to Occupational Licensing's fiqures licensees have paid $428,294 into the general fund in FY78 and FY79. The yearly average is $214,147 or $64,153 short of the requested budget. Of the $278,300, $12,500 is for one-time cost of furniture, etc.

We are anticipating the excess amount to be approximately $14.00 per licensee.

If you have any questions, please call me at anytime. It is my opinion that this is an excellent and workable bill.

Lance Youngquist
Chairman, Alaska Real Estate Commission

586-1212

SECTIONAL ANALYSIS FOR HCSCS SB 212
May 27, 1980

(Sec. 08.88.031) P.1, L.11

Section 1 changes the title of the Executive Secretary to Executive Director and gives the Commission the power to appoint and direct this position rather than the Commissioner of Commerce. Essentially this removes the administrative support function of the Real Estate Commission from the Division of Occupational Licensing and places this function within the Real Estate Commission.

(Sec. 08.88.034) P.1, L.17

Section 2 provides for the appointment by the Executive Director of a full-time investigator auditor.

(Sec. 08.88.037) P.1, L.21

This position of Section 2 gives the Commission its own powers for investigations and injunctions and transfers the power now held by the Commissioner of Commerce for investigations and cease and desist to the Commission and states the authority the Executive Director has with a majority of the Commission's approval.

(Sec. 08.88.041(b)) P.2, L.25

Section 3 prevents the appointment of a Commission whose members are from only one district. It assures that, if available, each district will have a broker member. There is already a provision for two public members.

(SEC. 08.88.061) P.3, L.6 — SECTION 4 DELETES THE APPROVAL OF THE COMMISSIONER OF COMMERCE FROM THE COMMISSION'S AUTHORITY TO EMPLOY ASSISTANTS.

(SEC. 08.88.071(A) P.3, L.12 — SECTION 5 GIVES THE COMMISSION THE POWER TO APPOINT SOMEONE TO HANDLE THE OFFICE AFFAIRS OF A DECEASED SOLE-PROPRIETOR BROKER, FOR THE PURPOSE OF CLOSING THE ESTATE.

(SEC. 08.88.071(B)) P.3, L.18 — SECTION 6 GUARANTEES REPAYMENT INTO THE REAL ESTATE SURETY FUND IF A CLAIM HAS BEEN AWARDED UNDER AS 45.85.

(SEC. 08.88.08L) P.4, L.2 — SECTION 7 CLARIFIES THE INTENT OF THE EXISTING STATUTE REGARDING THE REGULATION MAKING AUTHORITY OF THE COMMISSION.

(SEC. 08.88.091) P.4, L.6 — SECTION 8 WILL ALLOW THE COMMISSION TO PUBLISH INFORMATIONAL MATERIAL TO BETTER INFORM THE LICENSEES OF THEIR OBLIGATIONS AND RESPONSIBILITIES.

(SEC. 08.88.101) P.4, L.15 — SECTION 9 CHANGES THE AUTHORITY OF THE ADMINISTRATIVE DUTIES FROM THE DEPARTMENT OF COMMERCE (DOC) TO THE COMMISSION.

(SEC. 08.88.111) P.5, L.14 — SECTION 10 CHANGES DEPARTMENT OF COMMISSION.

(SEC. 08.88.121) P.5, L.20 — SECTION 11 CHANGES DEPARTMENT TO COMMISSION.

(SEC. 08.88.171(A)) P.5, L.27 — SECTION 12 STIPULATES THAT A STATE RESIDENT CAN APPLY FOR THE EDUCATIONAL TESTING SERVICE. FOR LICENSURE AN APPLICANT MUST PASS THE QUALIFICATIONS OF THIS SECTION.

(SEC. 08.88.171(B)) P.6, L.26 — SECTION 13 IS THE SAME AS SECTION 12 EXCEPT IT APPLIES TO ASSOCIATE BROKERS.

(SEC. 08.88.171(C)) P.7, L.20 — SECTION 14 IS THE SAME AS SECTION 12 EXCEPT IT APPLIES TO SALESMEN.

(SEC. 08.88.171(D)) P.8, L.8 — SECTION 15 CHANGES DEPARTMENT TO COMMISSION.

(SEC. 08.88.181(A)) P.8, L.12 — SECTION 16 STATES THE EXAM QUESTIONS "MAY INCLUDE" RATHER THAN "MUST INCLUDE" SINCE THE COMMISSION DOES NOT CONTROL THE QUESTIONS IN THE GENERAL SECTION OF THE NATIONAL EDUCATIONAL TESTING SERVICE.

(SEC. 08.88.191) P.8, L.19 — SECTION 17 CHANGES ARE TO CONFORM WITH THE CURRENT PROCEDURES FOR HAVING THE EXAMS CONTRACTED OUT TO A NATIONAL TESTING SERVICE.

(SEC. 08.88.221(C)) P.9, L.8 — SECTION 18 RAISES THE FEE FOR TRANSFERRING OR AMENDING LICENSES FROM $2 TO $5.

(SEC. 08.88.221) P.9, L.10 — SECTION 19 COMPENSATES AN APPLICANT BY REDUCING HIS EXAMINATION FEE BY THE AMOUNT PAID TO THE NATIONAL TESTING SERVICE.

(SEC. 08.88.23L) P.9, L.17 — SECTION 20 CHANGES DEPARTMENT TO COMMISSION.

(SEC. 08.88.241) P.9, L.21 — SECTION 21 CHANGES THE PERIOD A LAPSED LICENSEE MAY GO BEFORE HAVING TO BE RE-EXAMINED FROM THREE TO TWO YEARS.

(SEC. 08.88.251(A)) P.9, L.26 — SECTION 22 CHANGES DEPARTMENT TO COMMISSION.

(SEC. 08.88.251(B)) P.10, L.4 — SECTION 23 CLARIFIES EXISTING STATUTES CONCERNING INACTIVE LICENSEES.

(SEC. 08.88.251(C)) P.10, L.7 — SECTION 24 CHANGES DEPARTMENT TO COMMISSION AND OUTLINES THE PROCEDURE BY WHICH AN INACTIVE LICENSEE CAN AGAIN BECOME ACTIVE.

(SEC. 08.88.263(P.10, L.19 — SECTION 25 GUARANTEES RECIPROCITY WITH OUT-OF-STATE LICENSES PROVIDED THE APPLICANT HAS PASSED THE PORTION OF THE REAL ESTATE EXAMINATION WHICH EXAMINES ON ALASKA LAW.

(SEC. 08.88.291) P.10, L.26 — SECTION 26 CHANGES DEPARTMENT TO COMMISSION.

(SEC. 08.88.301) P.11, L.7 — SECTION 27 CHANGES DEPARTMENT TO COMMISSION.

(SEC. 08.88.361) P.11, L.11 — SECTION 28 CLARIFIES AND CORRECTS THE CURRENT STATUTE. THERE ARE NUMEROUS TYPES OF "LISTING" CONTRACTS USED BY THE REAL ESTATE INDUSTRY AND NOT ALL ARE INVOLVED WITH SELLING A PROPERTY. (I.E., LEASING, MANAGEMENT, ETC.)

(SEC. 08.88.421(1)) P.11, L.18 — SECTION 29 PROVIDES FOR EXCEPTION TO THE REQUIREMENTS TO BE LICENSED. SPECIFICALLY, TRANSACTIONS ON A BROKER'S OWN ACCOUNT MUST BE PROCESSED THROUGH THEIR EMPLOYING BROKER.

(SEC. 08.88.421(9)) P.11, L.23 SECTION 30 CLARIFIES THE INTERPRETATION OF THE WORD VOCATION WITH RESPECT TO COMPENSATION.

(SEC. 08.88.421) P.12, L.9 SECTION 31 ALLOWS CERTAIN TYPES OF RESIDENT MANAGERS NOT TO BE LICENSED. RESIDENT MANAGERS HAVE TECHNICALLY BEEN REQUIRED TO BE LICENSED UNDER THE EXISTING STATUTES.

(SEC. 08.88.431) P.12, L.16 SECTION 32 DEFINES RESIDENT MANAGER.

(SEC. 45.85.010) P.12, L.19 SECTION 33 RAISES THE AMOUNT FROM $300,000 TO $500,000 BEFORE EXCESS OF THE SECURITY FUND FUNDS REVERT TO THE GENERAL FUND. THE COMMISSION AND LICENSEES HAVE BEEN LOOSING FUNDS THAT THEY HAVE PAID IN.

(SEC. 45.85.020) P.12, L.27 — SECTION 34 CHANGES COMMISSIONER TO COMMISSION.

(SEC. 45.85.031) P.13, L.14 — SECTION 35 SPELLS OUT THE PROCEDURES ONE MUST USE WHEN MAKING A CLAIM TO THE COMMISSION FOR PAYMENT FROM THE SURETY FUND AND LAYS OUT HOW THE COMMISSION SHALL MAKE PAYMENT UPON FINDINGS FROM THE SURETY FUND.

(SEC. 45.85.070) P.15, L.20 — SECTION 36 CHANGES COMMISSIONER TO COMMISSION.

(SEC. 45.85.080) P.15, L.28 — SECTION 37 CHANGES COMMISSIONER TO COMMISSION.

(SEC. 45.85.090) P.16, L.6 — SECTION 38 CHANGES COMMISSIONER TO COMMISSION.

(SEC. 45.85.120) P.16, L.16 — SECTION 39 DEFINES COMMISSION.

(SEC. 08.03.010(c)) P.16, L.19 — SECTION 40 ESTABLISHES A NEW SUNSET DATE OF JUNE 30, 1982, FOR THE COMMISSION. THE INTENT OF THE LEGISLATURE IS TO ESTABLISH THE COMMISSION AS AN "EXPERIMENT" AND LEGISLATIVE REVIEW WILL BE IN TWO YEARS RATHER THAN FOUR.

SECTION 41. REPEALERS.

08.01.010(13) REMOVES THE REAL ESTATE COMMISSION FROM CENTRALIZED LICENSING.

08.03.010(B)(9) TERMINATION DATE OF JUNE 30, 1980

08.88.211 QUALIFICATION FOR EXAMINATION

08.88.431(3) REMOVED "DEPARTMENT" FROM DEFINITIONS

08.85.030 REMOVES APPLICATION FOR PAYMENT FOR THE SURETY FUND FROM THE DEPARTMENT OF COMMERCE.

45.85.040 REMOVES PAYMENT FROM THE SURETY FUND FROM THE DEPARTMENT OF COMMERCE.

45.85.050 REMOVES THE COMMISSIONER OF THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT FROM THE RESPONSIBILITY OF DISPENSING MONIES FROM THE SECURITY FUND. THIS FUNCTION WILL BE ADMINISTERED BY THE REAL ESTATE COMMISSION.

SECTION 42 IS THE EFFECTIVE DATE CLAUSE: JUNE 30, 1980.

SUNSET REVIEW PREPARED STATEMENT

BY

THE ALASKA REAL ESTATE COMMISSION

THURSDAY, JANUARY 24, 1980

JUNEAU, ALASKA

SUNSET REVIEW PREPARED STATEMENT BY THE ALASKA REAL ESTATE COMMISSION

THURSDAY, JANUARY 24, 1980

JUNEAU, ALASKA

Mr. Chairman and members of the House Commerce Committee. For the record, my name is Lance Youngquist and I am chairman of the Alaska Real Estate Commission. In attendance with me this morning are the six other real estate commissioners for Alaska, broker members Carol Maser of Anchorage, Gail Glad of Kenai, Karen Morris of Fairbanks, Ken Calhoun of Anchorage, and our two public members, Frank Austin of Anchorage and Gary Wilken of Fairbanks. We would like to thank the committee for the opportunity to make a presentation this morning.

Our statement is designed to achieve several objectives. We will provide you with comments on several aspects of the reports prepared for you by the Legislative Budget and Audit staff and the staff of the Department of Occupational Licensing and we will comment on our suggestions regarding possible legislative actions which would provide the tools needed to carry out the various responsibilities assigned to the Commission. I would like to add our thanks to the Legislative Audit and Occupational Licensing staffs for the opportunities they provided us with for input into their reports.

Because the document, "A Performance Review of the Alaska Real Estate Commission", prepared by Legislative Budget and Audit staff, is the primary

document being used by the committee, I would like to present the Commission's opinions as to the recommendations that were made in that document.

The first recommendation deals with investigative procedures and, specifically, potential conflicts of interest by the Commission's Executive Secretary. Under the investigative procedure that was developed between Occupational Licensing and the Commission approximately one year ago, item II.B. states, "The Executive Secretary will not receipt, review or retain any complaints concerning possible conflicts of interest, i.e., complaints concerning the Executive Secretary or a Commission member or their relatives or business partners, past or present, or any matter involving unlicensed activity. These complaints will be immediately referred to the investigative section. The Executive Secretary will not be involved with these complaints." The Commission is in total agreement with this statement and insists on its adherance.

As you know, there are a number of ways for an individual to enter a complaint into the system without going through the Executive Secretary, including direct contact with the investigative unit, through any Commission member, Occupational Licensing, the Attorney General's Office, and the Ombudsman. We feel the existing procedures that are now being used are adequate to deal with the potential conflicts.

Recommendation No. 2 deals with the real estate surety bond and the establishment of legislation to allow the commission to determine monetary settlements. The Real Estate Surety Fund was established through the strong efforts of the State's realtor organizations in an attempt to create a

more equitable program for loss recovery than the prior method of individual bonding. It was felt that having the courts determine the validity and amount of claims would be the most appropriate method as the legal questions, etc., are under the purview of the courts. While the recommendation by Legislative Audit is not rejected outright by the Commission, we must look at it from a practical point of view.

The Legislative Audit report states that five settlements have been made from the fund. As of this week, we have made eleven settlements, totalling $87,564.83. It must be understood that it takes time to go through the courts for a judgment and that many persons counseling potential claimants were not aware of the Surety Fund for many months. We are now beginning to see judgments from suits filed as long as two years ago and, also, an increasing awareness of the Fund by the public. In fact, the Commission is concerned that the Fund may not be adequate as currently structured.

We feel that for the Commission to take on the responsibility of handling claims would require several full-time commissioners, staff members and attorneys, plus clerical help, simply to hear the cases. The monetary cost would be tremendous. If the Commission were to hear the claims there would be a drastic increase in workload due to the minor disputes over such items as earnest moneys. Small claims and other similar courts currently provide adequate protection for most of these claims. The larger claims are being handled judicially by the higher courts.

The report suggested that the Surety Fund could be patterned after the Alaska Bar Association's Client Security Fund, which would allow "cheaper, easier and possibly quicker remed(ies) to damaged individuals. The Bar Association's Fund provides virtually unlimited coverage for very narrowly-based security claims while the Surety Fund provides limited coverage for a broad range of claims. I might add that, as of September 1979 there has never been a claim against the Bar Association's Security Fund. Our recommendations for changes in the Surety Fund are made later in this report.

Recommendation No. 3. As you are aware, Legislative Audit's recommendation to move the licensing investigative unit from Occupational Licensing to Public Safety will be implemented on February 15, according to the information we have received. Though the Commission has opposed this transfer, the objective now, assuming the transfer will be made, is to make the change work. Let me state what the Commission feels has been the real problem with investigations of real estate complaints.

The Real Estate Commission is charged with protecting the public from dishonesty and incompetence of real estate licensees. To do this, we must have adequate legal, investigative, and clerical support. We have dealt with two agencies, and now must deal with three agencies, for that support: Occupational Licensing for clerical and other support services, the Attorney General's Office for legal services, and now Public Safety for the investigative procedures.

In the past we have had one investigator to handle medical boards and the Real Estate Commission. The investigator has more cases from any one of these boards than can be well investigated by a single person. All cases, therefore, must be prioritized. Real estate cases are prioritized vis a vis medical cases. No real estate case can have top priority because brokers do not kill people with their malpractice as physicians might. The Attorney General's Office does not have anywhere near the staff needed and assigned to Occupational Licensing to handle all or even the most pressing cases. Again, prioritization occurs and, again, real estate cases rank below medical cases in danger to "life and limb".

We cannot disagree with the prioritization by the Attorney General's Office and the investigative unit of "life and limb" cases over "money" cases. We are not faulting them for not doing things; rather, we are faulting the system that forces them into this procedure.

The Legislative Audit observations on improper filing systems and record keeping are concurred with by the Commission. There are corrective procedures that can help this situation but, again, it boils down to clerk-typist assistance and word-processing equipment. Though there have been recent improvements in the clerk-typist area, word-processing is still in dire need.

The Legislative Audit report states that the average time for investigating real estate complaints is 11.4 weeks. That is the time it takes to process

a complaint in which little or no further investigation is necessary to close the complaint without license action. 11.4 months to go from a complaint to a hearing would be more reasonable and, in most instances, we are forced to advise complainants that prosecution takes 18 to 24 months or longer, if it gets done at all.

The result of all these problems is lack of enforcement and what amounts to voluntary compliance by some and violation with impunity by others. Our enforcement is more effective against the small offices and minor offenders simply because these licensees are often concerned with what the "Commission" thinks about them, and because they cannot afford expensive litigation.

Legislative Audit Recommendation No. 4 requests consideration of legislation to establish real estate courses before licensing. The has been a matter of considerable debate not only amongst the Commission members, but also with other licensees and the State's realtor organizations. As you may be aware, the Commission introduced a bill through Senator Bennett last year, SB 212, in which we request authority to establish mandatory educational requirements by regulation. The bill was amended through efforts of the State Association of Realtors who felt that precise hours and effective dates should be spelled out by statute.

The subject of mandatory education is a complicated one. We object to Legislative Audit's implication that because 41 other states have it, we should have it. In fact, some states are beginning to rescind previously adopted requirements.

SB 212 originally submitted by the Commission was permissive towards mandatory education but would have provided time and flexibility in introducing requirements and evaluating needs of the public and the industry. The Commission is on record as supporting this concept, as introduced in the original SB 212.

It is our feeling that we should establish sound programs and procedures first rather than last, then measure them for effectiveness and need. At that point, if desired and workable, they could be required to be mandatory. We feel this will insure their success and effectiveness. We are attempting this first step now with recent contracts using our excess Surety Fund moneys, as I will explain in a moment.

Recommendation No 5., to provide program objectives for Occupational Licensing's budget has a simple answer. We have, we do, and they are meaningless and very difficult to measure in quantitative terms since the budgeting structure has been so vague. We do not feel this is a fault of Occupational Licensing and, in general, we have been very pleased with the services they have provided for us. Our licensing examiner, Brent Long, has done an excellent job, and the regulations specialist, investigators and others have provided us with reasoned, conscientious, and available support. It is our opinion that our Executive Secretary, James Magowan, has taken a difficult position and molded it into one of top quality service to the Commission and the public. The Commission particularly takes note of the professional approach taken by the Director of Occupational Licensing, Ann Griggs, and we appreciate her support of the Commission with the limited resources available to her.

While these are our responses to Legislative Audit's recommendations, let me add some further observations on the Commission's activities. We will not dwell on the need of the Commission to demonstrate its need as required by Sunset statutes, as this is answered in the various reports that have been submitted to the Committee. However, we did feel that, assuming the need is there, we have been trying very hard to meet that need.

1. Over the pas few years we have completely rewritten all of our regulations and these became effective in August 1979. We have conscientiously reviewed our regulations on a continuing basis and we are presently in the public notice stage for additional changes.

2. While it is our opinion that our statutes need major overhauling, a subject I shall address in a moment, we have continually introduced legislation for statute changes, the most recent being SB 212.

3. We have fought long and hard for additional educational programs and, finally, with the Legislature's granting of a $75,000 appropriation from our Surety Fund last year, we have been able to assist the University of Alaska in establishing an Alaskan center for real estate education, and a continuing educational program which is currently being developed and should begin in about two months. This program, in addition to ongoing courses, will provide two-day seminars ten times per year in Anchorage, four times in Fairbanks, twice in Juneau, Homer and Kenai, and

once in Seward and Kodiak. We also plan to hold seminars in some of the more remote communities including Nome, Barrow, Bethel and Kotzebue where there is a growing need for real estate competence.

These seminars will provide top quality instructors and distinguished speakers, using University facilities, and are designed to update the licensees and the public in such areas as the law. They will also provide training in areas identified as major risk to the public, such as trust accounts.

We have also contracted to have a law manual prepared to assist the public and practitioners in further understanding of the real estate laws, and these manuals will be used as texts for some of the seminar programs.

4. Our Executive Secretary is currently writing and publishing many articles which are distributed through magazines and periodicals throughout the State. In addition, he provides 52 newspaper columns per year which are published in the Anchorage Daily News, Southeast Alaska Empire, and the Fairbanks Daily News-Miner. This has been done in addition to his many other duties and responsibilities.

5. We have not only instituted a new testing program for licensees through Educational Test Service but, as of this month, have established a new procedure whereby ETS will be taking full

responsibility for the examinations. Our past procedure was to have an individual who wanted to take the real estate exam apply directly to the State. Occupational Licensing would then take all of the applications, set up the exam centers, request the appropriate number of exams from ETS, do the testing, return the exams to ETS for grading, send the results to the examinees, receive the applications for licenses from those who had passed and, finally, license the individual. Under the new system, all applications will be made to ETS directly and they will have the total responsibility for the exam centers, monitors, testing, grading, etc. Only after ETS has notified the examinee of a passing grade will Occupational Licensing become involved by examining the applicant's other qualifications and issue the license. The Commission will maintain control over ETS for the tests and procedures. It becomes obvious that the man hours saved by the State through this procedure will be tremendous and the efficiency greatly increased. The additional cost for this service is merely $2.00 per exam and, in fact, will not cost the applicants any additional money.

6. We have broadened our testing program and are now giving exams not only in Anchorage, Fairbanks and Juneau, but also in Ketchikan, Kodiak, Nome, Bethel and Kenai/Soldotna.

In concluding these remarks, we would like to present our recommendations regarding what should be done to better perform our mandated function of serving the licensees and protecting the public. These recommendations are our request for assistance from you. We trust you will give careful consideration to them and we hope you will implement the procedures suggested.

Though you have heard the story many times that "we put more money into the system than we get out of it", this is a true statement when it comes from real estate licensees. Current figures show that the real estate licensing function over the past four years has provided revenues of $726.323, while expenses have equaled $601,803. The expense figures are from Occupational Licensing's method of dividing their total licensees by their total expenses. The revenue totals average $181,580 per year, which we feel should be totally used for the real estate function.

Considering that we are providing sufficient funds, we would request the following changes in the Real Estate Commission be implemented.

We request that the real estate licensing and enforcement functions be immediately set up as a separate "section" under the Department of Occupational Licensing and the Commission. It should have its own budget and be staffed with an administrator, investigator, auditor and license examiner, with sufficient clerical assistance to support their functions. In addition, a full time attorney should be assigned to the section by the Attorney General's Office. Full-time funding is already being provided for the administrator, in the form of our Executive Secretary, and the license examiner. Partial funding for the other positions, except for the auditor,

is provided through the time these positions now devote to the Commission.

A special comment should be made on the auditor position. Many of the problems we now encounter are related to trust account misuse and fiduciary responsibilities. With auditing capability, the Commission feels it can eliminate many of these problems before they occur. The preventive benefits to the public will far outweigh the cost.

The rapid growth of the real estate industry indicates a proportionate increase in the problems in the future. Rather than compound these problems by continually trying to use and improve old procedures, let us take one bold step, establish a "real estate section", and provide services at the levels required.

In addition to a "real estate section", we would also request the following:

1. Provide legislation that would raise the ceiling on the Surety Fund from $300,000 to $500,000. The Commission will be introducing this change as an amendment to SB 212.

2. Grant an appropriation or other support to the Commission to allow for a complete rewriting of the current real estate statutes. We estimate a cost of approximately $15,000.

3. Assist us in the immediate passage of SB 212, as introduced by the Commission, with appropriate amendments that we shall recommend.

We trust that these recommendations are not unreasonable, but practical, and that the service that licensees provide to the consumer and the State justifies their recognition by the State as an important and necessary element. The Commission is impressed by the high character and standard of our real estate industry and only asks that you allow us the tools to even better serve the public and the licensees. This is your responsibility. Ours is to do the best job we can in the areas assigned to us. We ask you to encourage continued improvement in our industry by your support.

The Real Estate Commission appreciates this opportunity to be heard and we are available for any questions you may have.

Alaska State Legislature

Senate

Committee on Commerce

Official Business

Pouch V
State Capitol
Juneau, Alaska 99811

March 13, 1980

The Honorable Clem Tillion
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Your Senate Commerce Committee has had under consideration for "Sunset" review the Real Estate Commission pursuant to your referral under AS 44.66.050 and AS 08.03.010.

In accordance with the statutory requirements, a public hearing was held on the review of this commission, at which written and oral testimony was received. Members of the commission testified in person or by teleconference. The Committee considered the proposed budget of the commission for FY 1981 and particularly examined the performance audit of the activities of the commission conducted by the Division of Legislative Audit.

Guided, in part, by this performance review the Committee took into consideration the factors required to be considered under AS 44.66.050(c).

Your Commerce Committee thereby makes the following findings: The Committee concurs only in recommendation number two and does not concur in recomendations one, three, four, and five as they appear on pages 10 through 13 of the Performance Review of the Real Estate Commission dated May 7, 1979, which is hereby incorporated by reference as though fully set out herein.

We agree with testimony provided by members of the commission that the commission could do a better job if it had its own investigator or auditor, or both. Therefore, legislation will be introduced which will remove the Real Estate Commission from the umbrella of the Division of Occupational Licensing (except for minor and administrative support) allowing the commission a separate budget, including

at least one full-time investigator or auditor. The Committee believes that minimum requirements for licensing of real estate brokers and real estate salesmen should be set by statute.

The Committee feels that it has adequately addressed the recommendations and categories required under AS 44.66.050(d), and recommends that with the changes stated in this report the Real Estate Commission be continued for another two years, that is, that the repealer with regard to the activities of the board be amended to read June 30, 1982.

We have recommended a two-year extension to allow review by the Legislature of this new structure before the running of a full four-year "Sunset" term.

A bill will be introduced by the Commerce Committee facilitating the changes and recommendations in this report.

Respectfully submitted,

Brad Bradley

Senator Brad Bradley
Chairman
Senate Commerce Committee

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the intent of Alaska Statutes 24.20.271(1) and 44.66.050 (sunset legislation), an audit of the Real Estate Commission was conducted to review Commission activities and accomplishments to determine if the Commission has been operating in an effective, efficient, and economical manner.

As required by legislative intent, this report shall be considered during the legislative oversight function in determining whether the Real Estate Commission should be reestablished. The law currently specifies that this Commission will terminate on June 30, 1980, but will continue until June 30, 1981 for the purpose of concluding its affairs.

Scope

The major areas reviewed were the Commission's operations and its licensing, examination, administration, complaint and affirmative action functions. Our review consisted of analyzing and evaluating the following:

(1) applicable statutes and Commission regulations;

(2) interviews with Commission members and questionnaires sent to the Commission;

(3) interviews with real estate agents and professional association representatives;

(4) tests of records and documents of the Commission and the Division of Occupational Licensing (OL), Department of Commerce and Economic Development;

(5) interviews with OL employees;

(6) complaints filed with OL, the Ombudsman's Office, Consumer Affairs Agency, and the Equal Employment Opportunity Office;

(7) questionnaires sent to Alaska licensed real estate brokers, associate brokers and salespersons; and

(8) review of other states' licensing requirements.

Scope Constraints

This review was hampered by the following constraints:

(1) The Commission has not established and reported financial and program plans as required by AS 37.07.050 nor has it developed and reported performance information regarding its effectiveness and accomplishments as required by AS 37.07.090.

(2) OL has not adequately collected, recorded or maintained pertinent files and statistics relating to the Commission to effectively and efficiently carry out its administrative responsibilities.

ORGANIZATION AND FUNCTION

The Real Estate Commission (REC) was established and operates under Title 8, Chapter 88 of the Alaska statutes. It is a regulatory commission composed of five real estate brokers, or associate brokers, and two public members.

The Commission regulates licensed real estate agents (brokers, associate brokers, and salespersons) by:

1. examining and issuing licenses to qualified applicants;

2. establishing or amending rules and regulations necessary to enforce State statutes;

3. holding hearings to revoke or suspend the license of a person violating real estate statutes or regulations;

4. prosecuting through the Department of Law, violators of real estate statutes and regulations.

The REC is also authorized to conduct real estate clinics, meetings, or educational institutes for the purpose of raising the standards of the real estate business and the competency of licensees.

Real estate brokers and associate brokers must pass an examination, be a resident of the State, have had 24 months of experience as a real estate salesperson, and not have engaged in conduct demonstrating their unfitness to be a broker. A broker differs from an associate broker in that a broker must be an owner of a real estate business or employed as a broker by a corporation. An associate broker has met the statutory qualifications of a broker, but is employed by a real estate broker.

A real estate salesperson must pass an examination, be a resident of the State, be employed by the owner of a real estate brokerage and not have engaged in conduct demonstrating unfitness to be a salesperson.

Real estate agents must pay a bond fee when obtaining or renewing their licenses. These fees are deposited in the Real Estate Surety Fund and are to be used for making settlements to victims of fraud, misrepresentation, and deceit by real estate agents. Settlements to damaged parties are only paid upon a court order. If the Surety Fund balance reaches above $250,000, the excess may be appropriated for educational programs put on by the REC.

The Commission has staff support from the Division of Occupation Licensing (OL). The Division is required to maintain license files, process applications, and provide other administrative support to the Commission. Also an executive secretary is assigned to perform investigative and other administrative services for the REC.

REPORT CONCLUSION

Policy Issues

This review contains policy issues raised as a result of our evaluation of various Board practices. The final policy decisions affecting these practices are not within the scope of this review but require legislative consideration. In debating these issues the legislative oversight committees should consider the findings and alternatives presented in this report, so that the potential impact of policy changes can be evaluated.

Report Conclusion

In our opinion, the Real Estate Commission (REC) should continue to regulate and license real estate professionals. The regulation and licensing of the profession is necessary because of the potential for substantial economic loss resulting from the business practices of unqualified, incompetent, or dishonest real estate practitioners.

However, in order for the REC to perform more effectively and efficiently, several changes need to be made. For instance, investigative procedures need to be changed to correct any potential for a conflict of interest by the executive secretary. The executive secretary has investigated complaints against real estate agents for REC and has been placed in potential conflict of interest situations (see Recommendation No. 1).

Also legislation needs to be introduced which would assign the responsibility to REC of whether and to what extent monetary settlements should be made from the Real Estate Security Fund to persons damaged by licensed real estate agents. In order for individuals to be granted damages, they must obtain a court order. This has only been done five times since the Fund was created in 1976 (see Recommendation No. 2).

The complaint filing system is incomplete and inadequate to show that investigations are properly conducted. Therefore investigative procedures for real estate complaints should be revised to develop an accurate and efficient system for handling complaints (see Recommendation No. 3).

In addition, there are no educational requirements for licensing of real estate agents. Forty other states require some type of education for agents and responses from a Division of Legislative Audit questionnaire indicate, a need for additional education (see Recommendation No. 4).

And finally, the REC should develop program objectives to be included in the Division of Occupational Licensing's budget documents that specifically state what can be accomplished in quantitative terms (see Recommendation No. 5).

FINDINGS AND RECOMMENDATIONS

Findings and Recommendations No. 1 through No. 4 are addressed to the Real Estate Commission. Finding and Recommendation No. 5 is addressed to the Division of Occupational Licensing (OL), and should be read in conjunction with "A Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development, October 30, 1978".

Recommendation No. 1

The Real Estate Commission (REC) in conjunction with the Division of Occupational Licensing (OL) should change and revise their investigative procedures to correct any potential conflict of interest by the executive secretary.

For the last few years, the executive secretary of the REC has been investigating complaints against real estate agents. Presently the executive secretary's wife is a real estate broker which places the executive secretary in a potential conflict of interest situation.

During our review, we noted several cases where a potential conflict of interest occured. One case resulted in a complaint against the executive secretary being filed with the Ombudsman's office. In another case, the complainant stressed that she hesitated to file a complaint because of the executive secretary's position.

We suggest that all incoming complaints be filed with the investigative unit of OL. The executive secretary should be allowed to attempt to settle minor complaints which do not involve relatives or commission members. However, all other complaints should be controlled and investigated by the investigative unit of OL.

If this system is implemented, the executive secretary should have more time to devote to other activities because of the decrease in investigative duties. This extra time could for example be available for planning and organizing future educational programs conducted by the Commission.

Recommendation No. 2

Legislation should be introduced to assign the REC responsibility for determining monetary settlements from the Real Estate Surety Fund.

The Real Estate Surety Fund is for public protection against fraudulent actions by licensed real estate agents. The statutes currently require that an individual obtain a court order before being granted a settlement from the Fund. Each settlement is limited statutorily to $10,000 or less. Persons with claims $2,000 or less could collect in small claims court. However, persons with claims greater than $2,000, may find it economically infeasible to obtain a court order because of the time and expense involved in litigation.

Since the Surety Fund's inception in 1976, there have been five settlements paid from the Fund. There have been about 400 real estate complaints filed with OL. Currently the Alaska Bar Rules assign the responsibility of controlling the Client Security Fund, which was created to protect consumers from fraudulent actions by lawyers, to the Board of Governors of the Alaska Bar Association.

We suggest that introduced legislation should be similar to the Alaska Bar Rules. This would allow cheaper, easier, and possibly quicker remedy to damaged individuals.

Recommendation No. 3

Investigation procedures for real estate complaints should be changed and revised to develop an accurate and proper system for handling complaints.

good

We found that Commission members were being informed as to the facts and opinions of investigations of potential license violations. In addition, a Commission member completed an investigation of a very sensitive complaint instead of the executive secretary, who normally handles investigations. Although the complaint has been closed, some questions about the case have not been fully investigated and answered.

In the Disciplinary Action Manual for Occupational Licensing Boards, the National Association of Attorney Generals has stressed that boards and commissions should refrain from involvement in investigations and that their primary role is decision maker.

We also reviewed the files of complaints against real estate agents to determine if investigations were properly completed. In an analysis of 100 complaints, we found:

a. twenty-one files contained inadequate or incomplete information; and

b. eighteen files either contained no documents or were only requests for information.

In addition, we found eight complaints listed and discussed in the Commission's meetings, which had no files. Consequently, there is no audit trail for the investigators or supervisors to determine what action to take, because the status of some complaints is unknown.

We recommended in "A Performance Review of the Division of Occupational Licensing, Department of Commerce and Ecomomic Developement", dated October 30, 1978, that OL's investigative unit should be transferred to the Department of Public Safety. If this recommendation is not implemented, we suggest that new investigative procedures for real estate complaints be implemented and include:

a. documentation identifying the reasons for starting an investigation;

b. progress reports for each investigation;

c. final action decided by REC;

d. number, substance, and disposition of any informally handled complaints; and

e. procedures for all investigations, except those assigned to the executive secretary, to be conducted and reviewed by the investigation section including those previously examined by Commission members.

Recommendation No. 4

Legislation should be considered which would require real estate agents to have completed real estate courses before being licensed.

Currently Alaska Statutes do not require education as an entrance requirement for real estate agents. Forty-one states require that applicants have some type of education for brokers and forty states require education for sales persons.

In addition, we received the following responses to a Division of Legislative Audit questionnaire from 98 licensed real estate agents.

a. Seventy-two percent know of real estate agents who lack a fundamental knowledge of proper practices, laws, and regulations.

b. Seventy percent believe that applicants should be required to have taken real estate courses before they are licensed.

c. Seventy-five percent believe that if the requirements for a real estate license were more difficult, there would be fewer agents entering the real estate profession. However, 65% believe agents would be more competent than they are now.

The REC has sent proposed statutory changes to OL to submit for legislative consideration. Our recommendation was included in the Commission's proposals.

Recommendation No. 5

The Real Estate Commission should develop program objectives to be included in OL's budget documents that specifically state what can be accomplished in quantitative terms.

Program objectives describe what a commission or agency is seeking to accomplish and can accomplish during a specific fiscal year. Well formulated objectives are capable of measurement and should include numeric targets so that actual accomplishments can be compared with stated targets.

Although OL has not included any of the individual boards or commission's goals in their budget documents, the Real Estate Commission has established its own objectives. Many of the Commission's objectives are worthy; however, they are not stated in quantitative terms nor are they objectives which the Commission has responsibility or control over. For instance, the following objectives are from their objectives listed in the minutes from March 16 - 17, 1977:

a. to produce a semi-annual roster of licensees; and

b. to develop consistent forms for licensees and applicants.

Both of these objectives are the responsibility of the Division of Occupational Licensing.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analysis of Commission activities relates to the public need factors defined in the "Sunset" law. This analysis is not intended to be all inclusive, but addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or program has operated in the public interest.

1. The Real Estate Commission (REC) has legally implemented several regulations concerning the:

   a. suspension, revocation, and issuance of licenses;

   b. prohibited conduct, by real estate agents;

   c. accounting for trust accounts by real estate agents.

2. According to OL's files, REC met five times last year; gave eleven examinations in Anchorage and four examinations in Fairbanks, Kenai, and Juneau; and held four hearings for proposed changes in regulations.

II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

1. Based on a review of 100 filed complaints, we found the average investigating time for real estate complaints is 11.4 weeks.

2. The complaint filing system is incomplete and inadequate to insure that investigations are properly conducted (see Recommendation No. 3).

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

1. REC has submitted proposed statutory changes to OL for legislative consideration. Those which were sent for consideration include upgrading the licensing statutes (see Recommendation No. 4), defining the authority of the Commission to issue a temporary permit, and allowing reciprocity. We believe these recommendations are in the publics' best interest.

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

1. The Commission has held part of their meetings to specifically meet with interested persons.

2. The executive secretary produces a column describing Commission business for the Realtor News, a publication of the Anchorage Board of Realtors. In addition, he has also written informative articles in local papers about real estate practices.

V. The extent to which the board, commission or or agency has encouraged public participation in the making of its regulations and decisions.

1. REC, through OL, advertises in newspapers to encourage public participation and also sends notices to interested associations. During the last three years, approximately one advertisement was published per newspaper for meetings, examinations, and hearings. These advertisements were limited to papers published in Juneau, Anchorage, Fairbanks, Ketchikan and Kenai. However one examination and two meetings were not advertised, which is in violation of the Administrative Procedures Act.

2. During the past three years, twenty-eight persons other than Commission members and State employees were present during meetings as recorded by Commission minutes.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

1. There have been seven complaints sent to the Ombudsman's Office up to November, 1978. Two of these dealt with investigations, two were caused by the failure of a licensee to receive a license, one had to do with testing facilities, one concerned a license delay, and one was caused by OL refusing to release investigative files. Two were marked justified and they were about testing facilities and the lack of investigation of a complaint.

VII. The extent to which a board or commission which regulated entry into an occupation or profession has presented qualified applicants to serve the public.

1. OL has collected 444 real estate complaint files for the last six years. We analyzed 100 of the files and found that 18 were not complaints and also found that eight complaints did not have files (see Recommendation No. 3).

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

1. Examination and license renewal forms contain questions on date of birth, height, weight, sex, color of hair and eyes, and/or place of birth. This may be a violation of Equal Employment Opportunity requirements (see the "Performance Review of the Division of Occupational Licensing, Department of Commerce and Economic Development" dated October 30, 1978).

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

Please refer to the previous section, Findings and Recommendations.

APPENDIXES

APPENDIX A

REAL ESTATE COMMISSION
REVENUES COMPARED WITH EXPENDITURES
Fiscal Year 1978
(UNAUDITED)

Average Revenue (See Schedule 1 and Note 1)	$202,584
Expenditures (See Note 2)	169,633
Excess of Revenues Over Expenditures	$ 32,951

Schedule 1

Types of Revenues

Revenues	Amount	Collection Time
Brokers and Associate Brokers		
Initial License Fee	$100	With issuance of license
Biennial Renewal - Active License	$100	Biennially
Biennial Renewal - Inactive License	$ 25	Biennially
Examination Fee	$ 50	With taking examination
Reciprocity Fee	$ 50	With granting of license through reciprocity
Fee for Amending a License	$ 2	With licensee filing to amend license
Salespersons		
Initial License Fee	$ 50	With issuance of license
Biennial Renewal - Active License	$ 50	Biennially
Biennial Renewal - Inactive License	$ 25	Biennially
Examination	$ 50	With taking examination

Revenues	Amount	Collection Time
Reciprocity Fee	$ 50	With granting of license through reciprocity
Fee for Amending a License	$ 2	With licensee filing to amend license

Note 1

Most of the real estate revenues are composed of renewal registration fees. These fees are collected once every two years and cause revenues in one year to be much greater than the revenues collected in the next year. Therefore, we calculated and reported an average of the revenues collected in Fiscal Year 1977 and 1978 in order to obtain an accurate representation of collected revenues.

Note 2

Expenditures include those made by Commission members, such as travel and per diem and an allocated percentage (estimated) of total administrative expenses of OL. They do not include expenditures for efforts of other departments, such as the Department of Law, that may be assisting the Commission and OL.

APPENDIX B

EXAMINATION AND ADMINISTRATIVE STATISTICS

Schedule 1

Washington	85.0

Note 1

These figures were obtained from the 1979 NARELLO Annual Report by the National Association of Real Estate License Law Officals.

APPENDIX C

QUESTIONNAIRE SENT TO COMMISSION MEMBERS

1. What do you believe to be the goals and objectives of the Real Estate Commission?

Description	*Number of Commission Members' Responses (See Note 1 and 2)*
To protect consumers.	*3*
To oversee actions of licensee.	*2*
To develop programs to help educate public and licensee.	*4*
To be a liaison between public, industry, and governing agency.	*3*
To carry out statutory duties and help provide public with assurance and confidence.	*3*
To obtain sufficient staff to handle investigations and audits in an expedient and accurate manner.	*1*
To establish a division for incorporating real estate licensing, securities, subdivisions, appraisers, title insurance, and other related industries and laws.	*1*

2. How does the Commission measure its progress in meeting its goals and objectives?

Description	*Number of Commission Members' Responses*
Have not developed self-critique program.	*1*
Failing to assume competency because of lack of cooperation with administration that oversees Commission.	*1*
Quantity and quality of complaint caseload.	*2*
Industry and public feedback.	*1*
Time in bringing complaints to hearing.	*1*

2. (Cont'd.)

Description	Number of Commission Members' Responses
Delay caused by workload in Attorney General's Office.	*1*
Commissions goals and objectives reviewed almost every meeting.	*1*

3. Is the staff from the Department of Commerce and/or other departments adequate to perform and enforce all laws and regulations relating to the Real Estate Commission? What staff support services are provided adequately/inadequately? Are investigations performed adequately/inadequately? Please give examples of inadequate service.

Description	Number of Commission Members' Responses
Licensing and examination staff is adequate.	*3*
Licensing and examination staff is inadequate.	*2*
Investigation staff is inadequate.	*4*
Investigations are generally good.	*1*
Too much turnover in the licensing examiner position.	*2*
Prefer to have a Real Estate Division handle this.	*1*
Need to have an auditor - investigator.	*2*

4. What evidence exists demonstrating that the absence of regulations and/or the commission would be detrimental to the public's best interest?

Description	Number of Commission Members' Responses
Not aware of documented evidence.	*1*
The number of complaints against unlicensed people.	*1*
Obvious that this industry with its fiduciary characteristics requires state-wide regulations.	*3*

5. Are there any statutes or regulations that you believe to be obsolete, vague, unduly restrictive, and/or inadequate to provide the Commission with the responsibility and power to properly govern the purpose and activities of the Commission? Please list and explain.

Description	*Number of Commission Members' Responses*
Statutes are incomprehensible and obsolete. Need to be re-written.	*3*
No regulations for property management.	*3*
No statute unduly restrictive.	*1*
No control over unlicensed activity.	*1*
Commission's goal to review and re-write statutes has not been accomplished.	*2*

6. Has the Commission recommended any statutory changes which are generally in the public's best interest?

Description	*Number of Commission Members' Responses*
Yes. Most recent is pre-licensing education and continuing education for licensees.	*5*

7. What changes need to be made which would improve the Commission's service to the public?

Description	*Number of Commission Members' Responses*
Need investigator and auditor.	*1*
Need to institute educational programs for the public and licensee.	*3*
Need to overall streamline statutes.	*1*
Need to establish a real estate division.	*2*

8. What do you believe is the underlying reason for many of the complaints against real estate practitioners (i.e. lack of knowledge of real estate laws, incompetence, unethical, or others)?

Description	Number of Commission Members' Responses
Lack of knowledge and concern for the law by those licensed.	4
Unethical practitioners.	2
Vague statutes.	2
Nature of transactions are cause of more chance for error.	1
Misunderstandings and unintentional violations.	2

9. Do you think continuing education requirements for license renewal would be in the public's best interest?

Description	Number of Commission Members' Responses
Yes. Both continuing education and pre-licensing requirements are a must.	3
Not necessarily, but it could.	1
Logistics problems of mandatory continuing education do not warrant establishment of this program now.	1

10. What do you believe is the reason for the low pass rate by applicants taking Alaska's (Educational Testing Services) examination for brokers and sales persons?

Description	Number of Commission Members' Responses
Not low when compared to others using the Educational Testing Service, but is quite normal.	3

10. (Cont'd.)

Description	*Number of Commission Members' Responses*
Combination of:	
a. State portion is a difficult test which has proven itself statistically; this portion, however, should not be made less difficult for the sake sake of increasing the pass rate.	*1*
b. The statutes and regulations are difficult to study and assimilate.	*1*
No reply.	*1*

Note 1

The questionnaire was sent to six Commission members and one prior Commission member. We received replies to our questions from five members therefore the response rate is 71%.

Note 2

Each Commission member responded to each question with several answers. Therefore total responses for each question may exceed the number of Commission members.

APPENDIX D

QUESTIONNAIRE SENT TO REAL ESTATE AGENTS

		(See Note 1) % Responses		
		Yes	No	No Opinion
1.	Do you believe that it is in the public's best interest that the following professions be licensed?			
	a) Brokers	99%	1%	0%
	b) Associate Brokers	97%	2%	1%
	c) Salespersons	98%	1%	1%
2.	Do you believe that applicants for real estate licenses should be required to have taken real estate courses before they are licensed?	70%	30%	0%
3.	Do you believe that continuing education should be required for the following to renew their licenses?			
	a) Brokers	66%	29	5%
	b) Associate Brokers	63%	30%	7%
	c) Salespersons	58%	37%	5%
4.	Do you believe that the Real Estate Commission has operated in the public's best interest?	65%	10%	25%
5.	Do you know of real estate agents (brokers, salespersons) who lack a fundamental knowledge of proper practices, laws and regulations?	72%	24%	4%

		(See Note 1) % Responses		
		Yes	No	No Opinion
6.	Does the license examination cover material which is not relevant to actual practice?	46%	37%	17%
	If yes, please comment: *The most prevalent answer was that the exam asked irrelevant questions.*			
7.	Have Division of Occupational Licensing investigators, who you have contacted or have knowledge of, been thorough?	25%	1%	74%
8.	Has the Commission handled complaints fairly?	29%	3%	68%
9.	If the requirements for a license as a real estate agent were more difficult, what would happen (check each response that you think is true)?			
	a) There would be fewer agents entering the real estate profession	75%		
	b) Fees charged by agents would probably go up	6%		
	c) Agents would be more competent than they are now	65%		
	d) Probably no significant change	20%		
	e) Other (please explain): *The most prevalent answer was that there is need to weed out incompetent agents.*	19%

RECEIVED

AUG 3 1979

LEGISLATIVE AUDIT

Mr. Gerald Wilkerson, CPA
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

The following comments are in response to the Performance Review of the Real Estate Commission, as submitted by the Division of Legislative Audit.

Recommendation No. 1: Agree. The division has implemented procedures which are designed to avoid any possibility of conflicting interest potential. We will continue to update any procedures relating to this recommendation as well as to the entire investigative effort.

Recommendation No. 2: Agree. We believe that the public would best be served by a procedure which would allow pursuit of claims through the Commission rather than through the courts. Claimants would thus be able to present their case before a board with expertise in real estate; such a procedure should expedite settlement and avoid court costs.

Recommendation No. 3: Agree. Implementation of recent investigative procedure policies and continued efforts in this area will further this recommendation.

Recommendation No. 4: Agree. Other methods of upgrading the profession could also be considered, such as possible improvements to the examination. This will be discussed with the board at its August meeting.

Recommendation No. 5: Agree. The division has requested information on goals and objectives from all boards and commissions for inclusion in the FY '81 budget. We do feel that boards should be able to establish their own priorities. Such priorities, however, should be discussed with an attempt to resolve them in a spirit of mutual respect and cooperation.

Thank you for this opportunity to comment on the review and for the time and effort expended by you and your staff.

Sincerely,

Charles R. Webber
Commissioner

LEGISLATIVE
AUDIT

Mr. Richard A. Smith
State Internal Auditor
Office of the Governor
Department of Administration
Pouch A
Juneau, Alaska 99811

Mr. Smith,

It has come to my attention that the Legislative Budget and Audit Committee may be meeting in regards to Sunset Legislation o. the Alaska Real Estate Commission during the interim legislative session here in Juneau. I would appreciate your passing on to the Committee that should they desire I would be available to appear before them and attempt to answer any questions they might have. If that is their desire I would appreciate your informing me of the time and location.

Sincerely,

Lance Youngquist
Chairman, Alaska Real Estate Commission

July 30, 1979

RECEIVED
AUG 3 1979
LEGISLATIVE
AUDIT

Mr. Richard A. Smith
State Internal Auditor
Office of the Governor
Department of Administration
Pouch A
Juneau, Alaska 99811

Mr. Smith,

At the July meeting of the Alaska Real Estate Commission in Fairbanks, Alaska, it was decided that each commissioner would respond individually to the preliminary report, "A Performance Review of the Alaska Real Estate Commission." The following are my responses to the findings.

Recommendation No. 1: During the last six months the Alaska Real Estate Commission in conjunction with the Department of Licensing has instigated a new investigative procedure which I believe has satisfactorily answered all of the questions in this recommendation. In addition we have published a complaint bulletin which explains the procedures one could use in filing a complaint showing that complaints can be filed with others and not just the Executive Secretary.

Recommendation No. 2: While I am not adverse to this reccommendation I feel it would be imparative that the mechanics of such a program be looked into thoroughly. The repercussions on the licensee when a payment is made from the surety fund are severe and I feel it is extremely important that the Commission's authority be unquestioned when making a recommendation.

One of the reasons for the infrequent payments from this fund in the past is the lack of information on the program in the hands of those seeking settlements. Recently there have been instigated many more requests from the fund and I feel this will continue as more people are aware of this form of recourse.

Recommendation No. 3: Again, this procedure has been changed within the last six months and I feel we are now conforming to this recommendation in regards to the Commissions involvement in cases.

Investigations are still not being done in a timely manner and it is my opinion that the sole problem is one of man power. The Deptartment of Licensing has only three investigators to handle all of the boards and commissions and this is an impossible task. The nature of many of the real estate complaints are severe enough that immediate actions should be taken. This has been a physical impossibility.

In reference to transferring investigations to the Department of

Public Safety, I am totally opposed. The function is a proper one for the Department of Licensing provided they are given the manpower to handle the job.

Recommendation No. 4: We are in concurrence with this recommendation provided the procedure is correctly set up. Many states are recinding previously instituted requirements after finding that their procedures have not worked. By learning from other states mistakes I feel we can institute a good a proper program for Alaska.

Recommendation No. 5: This recommendation has been met through new procedures instituted by the Commission.

In summary I feel that the Alaska Real Estate Commission has corrected all of the deficiencies mentioned in the report that are within the Commission's power. The Commission, by statute, has been given a monumental task and with the continuing rapid number of new licensees, this task increases. Our principal downfall at the present time is in investigation and enforcement, a probelm that can only be corrected with more manpower in this area. I highly urge that the Commission be given a full-time investigator and a full time auditor at which point we would meet the intent legislatively mandated upon us.

Sincerely,

Lance Youngquist
Chairman

RECEIVE

JUL 30 1979

LEGISLATIVE AUDIT

July 25 8979

Dear Mr. Wilkerson,

In reply to your recent letter on the Preliminary Audit Report for the real estate commission, I offer the following.

Rec.# 1 I believe we have tried to correct the situation by our new method whereby copies of all complaints go to investigations also but I feel all initial complaints should come thro either the Exec. Sec., the individual commission members or OL with copies to above.

Paragraph 3 Wholeheartedly agree with Exec. Sec. being allowed to settle minor complaints but would also include his authority to screen those which have no basis for us to act upon. The commission can only act on License Violations so if a complaint does not fit this category it should be so noted by the Exec Sec and the Commission with copies to OL and then it should go no farther. We are already experiencing a slow down in investigation of complaints since using this new system and I feel the Exec. Sec. and commission members should be the ones to decide which should be investigated and which have no case authority.

Paragraph 4 The Exec. Sec. would have time to spare now if he didn't spend so much time trying to educate real estate licensees and the public in what He sees as the problems with the industry. I do not feel this is one of his functions, however, I agree with his using the time to plan and organize programs conducted by REC.

Rec. #2 In full favor and agreement. I would go even farther and suggest that we intorduce legislation allowing REC to fine and/or suspend a licensee for various violations. At present we have little authority to do more than reprimand and this is not particularly effective We also need to have cases handled promptly by the AG's office when a violation of a serious nature is found. In my opinion that office is probably one of the most ineffective in the entire state government structure and that is a sad state of affairs.

Rec. # 3 I agree there are problems with the system of handling complaints, we noted in Rec. # 1. We've hopefully changed to speed up the process from our end but perhaps, again as I memtioned earlier, we may need to determine what is a valid complaint and what does not come under a license law violation. Hopefully, education of the public and licensees by phamplets and perhaps the media can reduce this.

REALTOR®

308 G St., Suite 225, Anchorage, Alaska 99501 (907) 274-6324

We are no longer involved in the early process of a complaint. We only become involved and then only on an individual basis, when a complaint case is recommended for closure. This does help considerably in keeping us from involvement in investigations. I disagree with the recommendation for transferring investigations to Public Safety. I do agree with the new suggestions for establishing better investigative procedures and will so move at our meeting in Fairbanks.

Rec. # 4 Again I agree wholeheartedly. I would take it one step farther and require continuing education in at least some areas where changes occur on a continual basis, before re-licensure of both Brokers and Salesmen. As you noted we have proposed this and will continue to work toward its implementation.

Rec. # 5 We are trying to improve in this area--most of us feel we are not well enough informed as to just what you are suggesting, i.e. what can be accomplished in quantitative terms--perhaps you could give us some more positive example. I would disagree with you as to a. and b. not being our responsibility. If OL doesn't do it, then it does become our reponsibility and I feel people in the business know better what is needed than an "overview department" since we work with the problems on a daily basis.

I feel there is one area you did not consider which could have added greatly to your report. The real estate industry by and large pays it's way for it's regulations and I believe a better job of serving the public could be done if we were served by a seperate departmentof real estate rather than under the present umbrella of OL.

I do appreciate the work you have done on this report and feel it has helped us in re-evaluating some areas and has certainly caused all of us on REC to think about what our role as a member should be.

One final thought on your recommendation in OL - perhaps operating under Banking & Securities would be more appropriate if a separate department [illegible] isn't acceptable.

RECEIVED
AUG 3 1979
LEGISLATIVE AUDIT

Commissioner of Administration
State of Alaska
Juneau, AK 99811

Dear Sir:

In response to your request for comment on the preliminary audit report on the Alaska Real Estate Commission, I submit the following.

Recommendation # 1

At the outset it should be realized that the executive secretary is the only employee of the State that was hired to be, and is expected to be, knowledgeable in the real estate industry. Therefore, I am most adamant in keeping the executive secretary position as the primary contact for problems which, in the public's view, arise in dealing with this industry.

If the complaints are entered with the O.L. Investigative Section three consequences will result. They are:

1) Most importantly, contact will be lost by the general public with that one person that should be representing the State of Alaska's interests in the real estate industry.
2) The efficiency of the system will suffer due to complaints being lodged by the public through someone not entirely familiar with the industry, therefore a screening process will be eliminated which at present acts to resolve many complaints before they actually become formal cases.
3) It follows that the caseload will increase due to the lack of a screening process by a thoroughly knowledgeable individual.

The conflict of interest situation is not a great problem considering, if one wishes to register a complaint and feels there may be a conflict, there are other avenues to where we may turn to enter the complaint. He may enter the complaint with the Ombudsman, any Commission member in the State, Consumer Protection Agency, or directly to the O.L.'s investigative section. He is not required to deal at all times with the Executive Secretary.

In brief, if the complaint entering is changed to the O.L.'s Investigative Section, the harm done to the public in their frequent dealings with the State in regard to real estate problems far outweighs the benefits, which are only to eliminate a possible, and very infrequent, conflict situation which may easily be circumvented in other ways.

I urge you to continue to see that the public's complaints are entered through the Executive Secretary with a copy of the original complaints being sent to the investigative section, as is currently being done.

Recommendation # 2

I agree with the recommendation as modeled after the Alaska Bar rules.

Recommendation # 3

Action has been taken to eliminate prior knowledge, on the part of the Commission as a whole of those complaints which are entered.

More accurate record keeping is perhaps desireable however not what I would consider a priority item except in those cases of meaningful importance.

Recommendation # 4

I agree with the recommendation, however (1) given the information which the Commission is able to obtain from the State, (2) the infrequency which we meet as a group and, (3) the changing attitudes on the part of the interfacing state agencies(ie. the Attorney General's office),to first quantify and then obtain will be very difficult yet none the less worth the attempt.

If I can comment further on the Preliminary Review of the Real Estate Commission or on the Commission itself, please advise.

Sincerely yours,

Gary Wilken
Member
Real Estate Commission

RECEIVED
AUG 3 1979
LEGISLATIVE AUDIT

July 18, 1979

Commissioner of Administration
B. B. Allen, Commissioner
Pouch C
Juneau, Alaska 99811

Dear Commissioner Allen:

I have reviewed your legislative audit of the Real Estate Commission in accordance with the intent of Alaska Statutes 24.20.271 (1) and 44.66.050 (Sunset Legislation). Enclosed are my personal responses to your findings and recommedations.

Recommendation No. 1:

Agree in part.
Disagree in part.
Already implemented.

Currently, the Real Estate Commission through the Executive Secretary receives many complaints that have little relevance to Administrative Law. Most of these complaints are handled by a phone call to parties involved or an informal meeting between the complaintant and the other parties is scheduled and the problems are solved without being turned over to the investigators.

One of the major reasons that the Executive Secretary tries to settle as many complaints as possible is due to the limited time and service that the Real Estate Commission receives from the investagators of Occupational Licensing. The general public does not benefit when complaints are not investigated by O.L. and remain as open cases for months.

Suggestion: A full time investigator from O.L. should be assigned to the Real Estate Commission to handle real estate related matters.

Recommendation No. 2:

Agree.

Recommendation No. 3:

Agree in part.
Disagree in part.

Your examples of inadequate files or files that contain no documents could be eliminated by an investigator who understands real estate and is not concentrating on medical cases.

Since my appointment to the Real Estate Commission I have noticed a lack of services both from the Attorney General's Office for failure to prosecute cases, and from the investigators in O.L. claiming other priorities and lack of staff. To compensate for this lack of services the Real Estate Commission has utilized its own resources to determine the validity of cases which we felt were important for the protection of the general public. Procedures have now been adapted which coincide with your recommendation.

Recommendation No. 4:

Totally agree.

Legislation was introduced SB 212 last session to implement your recommendation. Perhaps if the administration would introduce this legislation rather then the Real Estate Commission it might have a better chance of passing.

Recommendation No. 5:

Agree with explanation.

Perhaps the Real Estate Commission would not need to include in their goals and objectives a semi-annual roster or consistent forms if O.L. would have included or implemented these two items. I agree that these two objectives are the responsibility of O.L., however O.L. has failed to provide this service to the Real Estate Commission consequently it was included as one of the goals of the Real Estate Commission.

Responses to Analysis of Public Need:

I. Agree.

II. 1) It is ridiculous for an investigation to take 11.4 weeks. If the Real Estate Commission was given their own investigator this would be reduced substantially.

2) The complaint filing system has already been changed to comply with your recommendations.

III. Agree.

IV. Agree both 1 & 2.

V. 1) O.L. is responsible for providing services to the Real Estate Commission and if an advertisement of a Real Estate Commission meeting was not published it was certainly not intentional.

VI. 1) I would also complain about the lack of investigation of a complaint to the Ombudsman's office,and unless the investigators spend more time and attention to the real estate complaints I expect that the Ombudsman's office will receive more complaints.

VII. 1) Talk to the investigators. The Real Estate Commission does not investigate complaints.

VIII. 1) To my knowledge there have been no complaints filed concerning the license renewal forms. If you think they should be changed because they ask questions regarding the color of hair and eyes and place of birth then please get a ruling from the Attorney General's Office. If they think it should be changed it will be done. I think there are many more priorities that a legislative audit could be doing then to investigate license renewal forms.

Overall Review

These opinions are my personal views, and perhaps not the opinions of the Real Estate Commission. I am the most recent appointment to the Real Estate Commission and perhaps not as knowlegable as other members. I have only attended two meetings, but I have drawn some conclusions about the Real Estate Commission in general which I would like to express.

1) The members of the Real Estate Commission are totally dissatisified with the services they have been receiving from O.L., especially in the area of investigations. I realize

there must be priorities, however, we are totally frustrated with the time it takes to get a complaint investigated. Even after it is investigated the time expended getting someone with the Attorney General's Office to file an action is tremendous. In one instance we have been waiting a year for some clarified regulations from the Attorney General's Office. Much too long. Real Estate is big business. Presently there are 1884 active salesman, 331 active associate brokers, 436 active brokers, 643 inactive salesman, 33 inactive associate brokers and 37 inactive brokers. Each month the O.L. license 157 new salesman. Last year O.L. received $130,000 from the real estate industry. This money came from licenses, transfers, and exams. Next year the figure will be in excess of $300,000 and will be nearly 30% of the total funding of O.L. These funds received by O.L. are not being utilized to the fullest.

Solution: Eliminate my job. Create a Real Estate Department within the Department of Commerce consisting of a Real Estate Commissioner, an Executive Secretary, a License Examiner, a full-time investigator to handle real estate complaints, an Assistant Attorney General who will give priority to real estate matters, and two clerical personnel -- one in Anchorage and one in Juneau. This department should, and could, be funded by increasing the license fees collected by O.L. from real estate licenses (totalling 3,364). One of our problems is that the Real Estate Commission is all voluntary and meets only four times a year for two days each time. You can only accomplish so much with this type of procedure. A Real Estate Commissioner would be appointed by the Governor and would have the responsibility for his department. This concept works well in other states and I think it would work better then the system we are now operating under. A continuing problem in bureaucracy is that the buck does not stop anyplace. The Real Estate Commission blames the investigators; the investigators say their problem is priorities set by O.L.; O.L. passes the buck to limited appropriation of the Legislature; the Legislature says no one is doing anything, so they pass Sunset and then we all spend thousands of man hours justifing our commissions, boards, and departments. Someone must take the responsibility for the performance of his department and I think that by eliminating the Real Estate Commission, and forming a Real Estate Department, it would streamline the system.

This response will probably be filed in the archives in a basement in Juneau somewhere never to be seen again. However, I do appreciate whoever reads this response for taking the time to wade through it.

Sincerely,

Ken Calhoon
Real Estate Commissioner

RE: Sunset Legislation on the Alaska Real Estate Commission

Dear Jon:

As we discussed yesterday, I will be unable to attend the Tele-Conference Hearing on the Sunset Legislation. However, the Alaska Association of Realtors has carefully followed this issue on the House side and several weeks ago I sent a letter to Representative Fred Brown commenting on the issue and reacting to written testimony provided by the Alaska Real Estate Commission. I have been advised by Lance Youngquist, Chairman of the Alaska Real Estate Commission, that he will present the same written testimony to your Committee. Therefore, I believe that my response to Representative Brown is still adequate. I have, therefore, enclosed a copy of my letter to Representative Brown, herewith.

Thank you for notifying me of this hearing and I will appreciate it if you will keep me advised of any further happenings.

Sincerely,

ALASKA ASSOCIATION OF REALTORS

RE: Sunset Legislation Concerning the Real Estate Commission

Dear Representative Brown:

As discussed with Mr. Bob Aaron of your staff while I was in Juneau two weeks ago, I would like to offer several comments on behalf of the Alaska Association of Realtors concerning the Sunset Review of the Alaska Real Estate Commission. We have reviewed the Performance Review prepared by the Division of Legislative Audit dated May 7, 1979, and have reviewed the written transcript of the testimony submitted by the Real Estate Commission on Thursday, January 24, 1980.

The Alaska Association of Realtors is generally in support of the statements and conclusions made by Mr. Lance Youngquist, speaking on behalf of the Alaska Real Estate Commission. We concur with the Commission's reply in regard to Legislative Audit Recommendation No. 2 and also believe that the present method of handling Surety Fund Claims is in the best public interest. We have no strong feeling in regard to Recommendation No. 3 but do believe that it is necessary that a greater emphasis be put on investigating existing complaints.

In reference to Legislative Audit Recommendation No. 4, please be advised that it is the position of the Alaska Association of Realtors to oppose any required real estate courses. This is not to be construed to mean that the Alaska Association of Realtors opposes advanced real estate education. We are, in fact, the largest provider of such education and have on our staff a full-time Director of Education (who holds two Master Degrees in education) who will be responsible for sponsoring 25 to 30 educational offerings during 1980 at which we expect an attendance of 500 to 600 persons. At the time of this writing, 140 of our members are attending the 3 courses sponsored by the Alaska Association of Realtors Institute. We strongly encourage education as a necessity for survival in a very competitive and fast changing business. In response to our educational efforts, over 200 of our members have obtained professional desig-

REALTOR® is a registered mark which identifies a professional in real estate who subscribes to a strict Code of Ethics as a member of the NATIONAL ASSOCIATION OF REALTORS®

nations in the real estate field. The standards for these designations greatly exceed anything that would likely be enacted into license law.

Our basic objection to mandatory education is that we have seen what has happened in many other States with such requirements. In every State in which such mandatory education has been enacted, it has been supported by the State Association of Realtors. However, in a number of States, the Associations are now regretting their support due to the fact that what often starts off as a well-meaning program becomes something quite different when it has been convoluted through the bureaucratic process. While a recent poll of our membership, in which 238 members participated, found that most feel that there should be some educational requirements for new licensees, there was no consensus on the matter of continuing education requirements. It is, of course, only typical that someone who already has a license, would like to see the requirements more difficult for those who have not achieved a license. The unfortunate fact is that to require enough education to be truly meaningful would have the effect of excluding a number of people from the business.

Anyone who survives in our profession beyond their first biennial renewal, has probably acquired more education and spent more time studying than could possibly be required by law. The problem with mandatory education is that most States have adopted a compromise program to appeal to all of the various disciplines within the industry. As a result, nobody in any of the specialized fields is getting the full degree of specialized education required. For example, a licensed broker specializing in commercial sales, is not likely to increase his competence by taking a basic course in residential financing.

We believe that the freedom of choice and free market competition will provide more competent licensees than a new law. While of course it is easy to point to the fact that there are a number of incompetent people in the business, it must recognized that we have only had a full-scaled educational program and an educational director for one year. If in three years the same problem exists, then we would be willing to reconsider our position. In the meantime, we must oppose all mandatory education as a prerequisite for or as a requirement to renew a license and ask that you give the free market and freedom of choice an opportunity to work.

We support the recommendation of the Real Estate commission that a "real estate section" be established within the Department of

Commerce. Likewise, we concur in raising the ceiling on the Surety Fund to $500,000 and that an appropriation should be made to completely rewrite the statutes. Because we realize that it will take time to rewrite the statutes, we are cooperating with the Commission in urging passage of SB 212.

Thank you for the opportunity to express our opinion.

Sincerely,

ALASKA ASSOCIATION OF REALTORS

Dear Senator:

Re: Senate Bill #518
"An Act Relating to the regulation of real estate brokers and salesman"

I am writing because the above bill is discrimatory to people desiring to obtain a Real Estate Broker or Real Estate Salesman License who live in rural areas.

Presently the real estate courses are given in Anchorage and Fairbanks and a three day stay-over in either of these cities is very restrictive to us in Southeastern or any of the people living in other communities.

However, I am in favor of the educational requirements but would stress that they be offered in all communities either through correspondence courses or through the local community colleges. This should be addressed in the above numbered bill.

Your consideration of this addition to the bill will be appreciated.

Sincerely,

Dorothy M. Benson

RE: Questions raised at Senate Commerce Committee Hearing

Dear Representative Martin,

I attended the Senate Commerce Committee Hearing on the potential sunset of the Board of Welding Examiners. Early in that hearing you raised two questions which (had I been able to stay until the end) I could have answered for you. My boss, Lenny Arsenault and I, testified before the House Labor and Management Committee on these specific points last week.

Your questions were: 1. Do we have enough Alaskan welders today, to be able to construct a large project such as the Gas Pipeline?

2. If we do not, how do we protect ourselves from an "invasion" by Tulsa, Local 798, or some other such group?

3. When we do have another major job in Alaska, how will we go about getting quality welders for that job?

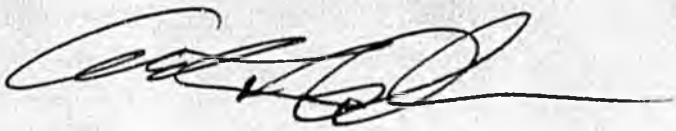
There are not enough Alaskan welders who have the necessary skills to do much of any pipeline work at all. In all of Alaska, we would probably have thirty such people with the necessary skills and the inclination, and the time, etc. to work on a pipeline. This means that welders will have to be imported from out of State for jobs such as the Gas Pipeline, as well as for the many, many miles of gathering lines, the water flood project etc. starting this summer. Getting to the answer of your third question: we will be training the pipefitters, and we can train the welders helpers, but this next summer alone we will start on a four year project which will require about 600 welders on the North Slope. The "beadmen" and welders, for these crews will almost all be expected to come from the Lower 48. There are a number of Institutions throughout the State teaching welding, almost none of them are concerned with pipeline welding. Local 375, has a brand new, Million Dollar Apprentice School, in which we do teach pipeline welding. Because work is scarce right now, we have little income for our Apprenticeship program and hence we are training very, very few welders, and the number will stay small until we have the income from North Slope work, or some other source to increase that number.

With respect to the "798 invasion", all pipeline jurisdiction north of the 63rd parallel, has been transfered from Tulsa, Local 798 to Fairbanks Local 375, with the exception of the large pipe (over 30 inches and under 52 inches). This main line jurisdiction remains with Local 798. This is however, a relatively small portion of all of the work. Because the work will be handled through Local 375,

whose Officers are entirely elected locally, Local 375 people and then others throughout the State of Alaska, will have an absolute first preference on reference to the jobs. Other welders with the necessary expertise will be brought in from the Lower 48, but they will not be in a group organised as any non-Alaska group, and their actions should all be suject to policing by Local 375. Any "invasion" should be limited to a small group of mainline pipefitters and welders.

If I can answer any further questions along these lines, or provide you with the specifics of statistics on predicted work, please feel free to call upon me.

Very truly yours,



ARTHUR L. ROBSON, Administrator
Prepaid Legal Services.

ALR/sew

Faulty wiring, welding not unusual, panel told

8 November 1979
Fairbanks News Miner

By SUSAN FISHER
Staff Writer

A $96,000 home in University Heights subdivision was found to have about a third of its electrical wiring installed with common lamp cord. Its mortgage is held by the state.

Inadequate welding jobs can pose a danger to the public and workers themselves, and without a state examining board, welding jobs would not be inspected.

Shoddy workmanship can spell life or death for electrical and welding workers and consumers, the Senate Commerce Committee was told Wednesday during a "sunset" review hearing on state examining boards.

The purpose of the review is to determine whether the state boards should continue in operation.

One of the most blatant examples of disregard for electrical standards was given by Terry Duszynski, inspector for the Interior Alaska Dwelling Inspection Council.

Duszynski, in teleconference testimony to the committee in Anchorage, told senators he inspected the University Heights home after it was sold.

It was appraised at $96,000 by a local real estate agent, and financing was arranged by a local bank. It is insured for 80 per cent of its value and its mortgage is held by Alaska Housing Finance Corp., Duszynski said.

But at least one-third of the home's wiring is in Zipcord, or common lamp cord, which had been used to wire switches and power for lights, and to wire a humidifier attached to a forced-air furnace. The main feeder cable was spliced using a split bolt connector and black tape.

Zipcord goes into the junction boxes, and is "sandwiched between studs and crushed under the furnace."

"This house was unsafe for habitation and it was still handled just like any other. The purchase occurred last April. This house is a fire waiting to happen," Duszynski said.

He also testified that the building the Fairbanks Legislative Information Office is in is improperly wired, and that two homes built for State Troopers in villages were wired by unlicensed electricians.

Duszynski testified that the inspection council has checked 45 homes

(See WIRING, page 3)

WIRING . . .

(Continued from page 1)

since it began in 1977. Of those, nine were found to have deficiencies, either electrical or otherwise, and five of those were inspected because of lawsuits between the owner and builder or seller.

He described in detail some of those flaws, and told the committee it will be "open season on the residents of this state" if the Legislature disbands the state Board of Electrical Examiners.

"If these unsafe conditions have persisted (with the board), can you imagine what will go on if there is no test to qualify the electrical contractor," he asked.

The council Duszynski works for performs inspection upon request. There is a fee for the inspections.

At one point in testimony on the electrical and welding examining boards, State Sen. Arliss Sturgulewski, R-Anchorage, asked why concerned persons did not approach their borough assemblies for requirements.

Robert Mellon, a Fairbanks electrician, said the borough does not have an inspection department, and another local man told the News-Miner that the borough may not have the constitutional authority to do inspections.

Phil Davis, a Fairbanks welder, described the collapse of structures due to improper welding, and said such dangers threaten workers and consumers alike.

The American Welders Society gives a written test for licenses, but does not require experience or a skills test.

Paul Lott, another Fairbanks welder, said there is confusion over the state board's role, and the lack of public information means some companies are being over-inspected while other jobs are going uninspected.

Lott said he would like to see a representative of Alyeska, Arco or another big company on the board. "It's always the big companies that observe the law, but have very little representation," he said.

Sec. 08.01.010. Applicability of chapter. This chapter applies to the

(1) Board of Public Accountancy;

(2) Board of Barber Examiners;

(3) Repealed by § 6 ch 32 SLA 1971.

(4) Board of Chiropractic Examiners;

(5) Board of Hairdressing and Beauty Culture Examiners;

(6) Board of Dental Examiners;

(7) Board of Electrical Examiners;

(8) State Board of Registration for Architects, Engineers and Land Surveyors;

(9) State Medical Board;

(10) Board of Nursing;

(11) Board of Examiners in Optometry;

(12) Board of Pharmacy;

(13) Real Estate Commission;

(14) Board of Veterinary Examiners;

(15) Board of Psychologist and Psychological Associate Examiners;

(16) Collection Agency Board;

(17) Board of Welding Examiners;

(18) Board of Marine Pilots;

(19) Board of Dispensing Opticians;

(20) Guide Licensing and Control Board;

(21) State Physical Therapy Board. (§ 1 ch 59 SLA 1966; am § 2 ch 136 SLA 1967; am § 2 ch 101 SLA 1968; am § 2 ch 143 SLA 1968; am § 2 ch 151 SLA 1968; am § 1 ch 106 SLA 1970; am § 6 ch 32 SLA 1971; am § 4 ch 179 SLA 1972; am § 2 ch 45 SLA 1973; am § 14 ch 65 SLA 1973; am § 1 ch 43 SLA 1975; am § 1 ch 43 SLA 1977)

Effect of amendments. — The first 1973 amendment added paragraph (19).

The second 1973 amendment inserted "and Psychological Associate" in paragraph (15).

The 1975 amendment added paragraph (20).

The 1977 amendment added paragraph (21).

Editor's note. — Section 2, ch. 59, SLA 1966, provides: "The Department of Commerce shall provide for the orderly transfer of the service functions which are to be performed by the department under this chapter."

Section 4, ch. 59, SLA 1966, provides: "A provision in existing law which conflicts with this Act is superseded by this Act."

Legislative committee reports. — For report on ch. 143, SLA 1968 (HB 707), see 1968 House Journal, p. 836. For report on ch. 32, SLA 1971 (HB 111 am), see 1971 House Journal, p. 138.

Sec. 08.01.020. Board organization. Unless otherwise provided, all board members are appointed by the governor and serve at his pleasure. Unless otherwise provided, the governor shall designate the chairman of the board, and all other officers shall be elected by the board members. (§ 1 ch 59 SLA 1966)

Sec. 08.01.025. Public members. No public member of a board may:

(1) be engaged in the occupation which the board regulates;

(2) be associated by legal contract with a member of the occupation which the board regulates except as a consumer of the services provided by a practitioner of the occupation; or

(3) have a direct financial interest in the occupation which the board regulates. (§ 1 ch 258 SLA 1976)

Sec. 08.01.030. Quorum. A majority of the membership of a board constitutes a quorum unless otherwise provided. (§ 1 ch 59 SLA 1966)

Sec. 08.01.040. Transportation and per diem. A board member is entitled to transportation expenses and per diem as set out in AS 39.20.180. (§ 1 ch 59 SLA 1966)

Sec. 08.01.050. Administrative duties of department. (a) The department shall provide the following administrative and budgetary services when appropriate:

(1) collect fees and issue receipts;

(2) maintain records and files;

(3) issue and receive application forms;

(4) notify applicants of acceptance or rejection of applicants as determined by the board;

(5) designate dates examinations are to be held and notify applicants;

(6) publish notice of examination;

(7) arrange space for holding examinations;

(8) notify applicants of results of examinations;

(9) issue licenses and certificates or temporary licenses or certificates as authorized by the board;

(10) issue duplicate licenses or certificates upon proof by the licensee of loss of the original and payment by the licensee of a fee of $2;

(11) notify licensees of renewal dates at least 30 days before the expiration date of their licenses;

(12) compile and maintain current a register of licenses;

(13) answer routine inquiries;

(14) maintain files relating to individual licensees;

(15) arrange for printing and advertising;

(16) purchase supplies;

(17) employ secretarial help when needed;

(18) perform other services which may be requested by the board;

(19) provide investigative services to the boards established under chs. 20, 32, 36, 64, 63, 71, 72, 80, 84, and 86 of this title, for the purpose of assisting those boards in matters of professional discipline.

(b) The form and content of a license, authorized by a board listed in § 10 of this chapter, including any document evidencing renewal of a license, shall be determined by the department after consultation with and consideration of the views of the board concerned. (§ 1 ch 59 SLA 1966; am § 1 ch 102 SLA 1976; am § 39 ch 218 SLA 1976; am § 2 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment added paragraph (19) of present subsection (a).

The second 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in the introductory paragraph of present subsection (a).

The third 1976 amendment designated the provisions of this section as subsection (a), and in that subsection, substituted "department" for "Department of Commerce" and "when appropriate" for "for the boards" in the introductory language and inserted "by the licensee" in two places in paragraph (10). The amendment also added subsection (b).

While none of the amendments gave effect to the others, this section is set out as it appears in ch. 258, SLA 1976, with the inclusion of paragraph (19) of subsection (a) added by ch. 102, SLA 1976.

Sec. 08.01.060. Application for license. All applications for examination or licensing to engage in the business or profession covered by this chapter shall be made in writing to the department. (§ 1 ch 59 SLA 1966)

Sec. 08.01.070. Administrative duties of boards. Each board shall perform the following duties in addition to those provided in its respective law:

(1) keep minutes and records of all proceedings;

(2) hold a minimum of one meeting each year;

(3) hold at least one examination each year;

(4) request, through the department, investigation of violations of its laws and regulations;

(5) prepare and grade examinations;

(6) pass on qualifications of applicants for examination and license;

(7) forward minutes of meetings to the department within 20 days;

(8) forward results of examinations to the department;

(9) notify the department of meeting dates at least 15 days before meeting. (§ 1 ch 59 SLA 1966)

Sec. 08.01.080. Department regulations. The department shall adopt regulations to carry out the purposes of this chapter including but not limited to describing

(1) how an examination is to be conducted;

(2) what is contained in application forms;

(3) how a person applies for an examination or license. (§ 1 ch 59 SLA 1966)

Sec. 08.01.087. Powers and duties of department. (a) The department may, upon its own motion, conduct investigations to determine whether any person has violated a provision of this chapter or a regulation adopted under it or a provision of a chapter in this title dealing with one of the boards listed in § 10 of this chapter or a regulation adopted by one of those boards, or to secure information useful in the administration of this chapter.

(b) If it appears to the commissioner that a person has engaged in or is about to engage in an act or practice in violation of a provision of this chapter or a regulation adopted under it, or any of the laws pertaining to or regulations adopted by the boards listed in § 10 of this chapter, he may, if he considers it in the public interest, and after notification to all board members by telephone or telegraph of a proposed order or action unless a majority of the members of the board object within 10 days,

(1) issue an order directing the person to stop the act or practice; however, reasonable notice of and an opportunity for a hearing must first be given to the person, except that the commissioner may issue a temporary order before a hearing is held; a temporary order remains in effect until a final order affirming, modifying, or reversing the temporary order is issued or until 15 days after the person receives the notice and has not requested a hearing by that time; a temporary order becomes final if the person to whom the notice is addressed does not request a hearing within 15 days after receiving the notice; the commissioner or his designee shall be the hearing officer at the hearing and shall issue a final order within 10 days after the hearing;

(2) bring an action in the superior court to enjoin the acts or practices and to enforce compliance with this chapter, a regulation adopted under it, or an order issued under it, or any of the laws pertaining to or regulations adopted by the boards listed in § 10 of this chapter;

(3) examine or have examined the books and records of any person whose business activities require licensure by a board listed in § 10 of this chapter and he may require that person to pay the reasonable costs of the examination; and

(4) issue subpoenas for the attendance of witnesses, and the production of books, records and other documents. (§ 3 ch 258 SLA 1976)

Sec. 08.01.090. Applicability of the Administrative Procedure Act. The Administrative Procedure Act (AS 44.62) applies to regulations adopted and proceedings held under this chapter, except those under AS 08.01.087(b). (§ 1 ch 59 SLA 1966; am § 4 ch 258 SLA 1976)

Effect of amendment. — The 1976 amendment added "except those under AS 08.01.087(b)" to the end of the section.

Sec. 08.01.100. License renewal, lapse and reinstatement. (a) All licenses shall be renewed biennially on the dates set by the department with the approval of the respective board.

(b) A registration, license, permit or certificates requiring renewal to continue effective must be renewed on or before the date set by the department or it will lapse. A penalty of $10 shall be charged in addition to all delinquent renewal fees for reinstatement of a registration, license, permit or certificate which remains lapsed for more than 60 days. (§ 1 ch 59 SLA 1966; am § 2 ch 94 SLA 1968)

Sec. 08.01.105. Penalty for improper payment. An applicant shall pay a penalty of $10 each time a negotiable instrument is presented to the department in payment of an amount due and payment is subsequently refused by the named payor. (§ 3 ch 258 SLA 1976)

Sec. 08.01.110. Definitions. In this chapter

(1) "board" includes the boards and commissions listed in § 10 of this chapter;

(2) "department" means the Department of Commerce and Economic Development;

(3) "commissioner" means the commissioner of commerce and economic development;

(4) "license" means any license, certificate, permit, or registration or similar evidence of authority issued by one of the boards listed in § 10 of this chapter;

(5) "licensee" means any person who holds a license;

(6) "occupation" means any of the trades or professions for which licensure is required by one of the boards listed in § 10 of this chapter. (§ 1 ch 59 SLA 1966; am § 40 ch 218 SLA 1976; am § 5 ch 258 SLA 1976)

Effect of amendments. — The first 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (2).

The second 1976 amendment added paragraphs (3) through (6).

Chapter 02. Miscellaneous Provisions.

Section
10. Professional designation requirements
20. Limitation of liability for members of licensing boards

Sec. 08.02.010. Professional designation requirements. (a) A person licensed in the state as a chiropractor as defined in AS 08.20.220, a dentist as defined in AS 08.36.360, a medical practitioner or osteopath as defined in AS 08.64.380, a professional nurse as defined in AS 08.68.410, an optometrist as defined in AS 08.72.300(3), a registered pharmacist under AS 08.80, a registered physical therapist under AS 08.84, or a psychologist under AS 08.86, shall professionally identify

himself by the use of appropriate letters or a title after his name which represents his specific field of practice. The letters or title shall appear on all signs, stationery or other advertising in which the person offers or displays his professional services to the public. In addition, a person engaged in the practice of medicine or osteopathy under AS 08.64.380(2), or a person engaged in any manner in the healing arts who diagnoses, treats, tests, or counsels other persons in relation to human health or disease and identifies himself by using the letters "M.D." or the title "doctor" or "physician" or any other title which tends to show that the person is willing or qualified to diagnose, treat, test, or counsel another person, shall clarify the letters or title by adding the appropriate specialist designation, if any, such as "dermatologist", "radiologist", "audiologist", "naturopath", or the like.

(b) A person subject to (a) of this section who fails to comply with the requirements of (a) of this section shall be given notice of his noncompliance by his appropriate licensing board. If, after a reasonable time, with opportunity for a hearing, his noncompliance continues, the board may suspend or revoke his license or registration, or administer other disciplinary action which in its determination is appropriate. (§ 1 ch 6 SLA 1979)

Sec. 08.02.020. Limitation of liability for members of licensing boards. No person is liable for damages or other relief in an action by reason of his performance of a duty, function, or activity as a member of a licensing board or by reason of a recommendation or action of the board when the person acts in the reasonable belief that his action or recommendation is warranted by facts known to him or to the board after reasonable efforts to ascertain the facts upon which the action or recommendation is made. (§ 45 ch 102 SLA 1976)

Chapter 03. Termination, Continuation and Reestablishment of Regulatory Boards

Section

10. Termination, continuation and reestablishment of regulatory boards

Cross reference. — As to review of the activities of agencies, boards and commissions, see AS 44.66.010 et seq.

Editor's note. — Section 1, ch. 149, SLA 1977, provides: "The legislature finds that the substantial increase in the number of state agencies, boards and commissions, and the proliferation of rules and regulations which each has adopted have contributed to a public disenchantment with the operation of state government, and that there is need for an effective and regular system of scrutiny of the programs and activities of all agencies, boards and commissions. The legislature further finds that the establishment of a system for periodic review by the public and the executive and legislative branches of certain state agencies, boards and commissions will help the governor and the legislature to determine the need for the continued existence of each of the agencies, boards and commissions."

Sec. 08.03.010. Termination, continuation and reestablishment of regulatory boards. (a) Boards listed in this subsection have a termination date of June 30, 1979:

(1) Board of Chiropractic Examiners (AS 08.20.010);
(2) Board of Dental Examiners (AS 08.36.010);
(3) State Medical Board (AS 08.64.010);
(4) Board of Nursing (AS 08.68.010);
(5) Board of Dispensing Opticians (AS 08.71.010);
(6) Board of Examiners in Optometry (AS 08.72.010);
(7) Board of Pharmacy (AS 08.80.010);
(8) Board of Veterinary Examiners (AS 08.98.010);
(9) Board of Psychologist and Psychological Associate Examiners (AS 08.86.010);
(10) Board of Nursing Home Administrators (AS 08.70.010);
(11) Physical Therapy Board (AS 08.84.010).

(b) Boards listed in this subsection have a termination date of June 30, 1980:

(1) Board of Public Accountancy (AS 08.04.010);
(2) Board of Barber Examiners (AS 08.12.010);
(3) Collection Agency Board (AS 08.24.011);
(4) Board of Hairdressing and Beauty Culture Examiners (AS 08.[illegible]010);
(5) Board of Electrical Examiners (AS 08.40.010);
(6) State Board of Registration for Architects, Engineers and Land Surveyors (AS 08.48.011);
(7) Guide Licensing and Control Board (AS 08.54.010);
(8) Board of Marine Pilots (AS 08.62.010);
(9) Real Estate Commission (AS 08.88.011);
(10) Board of Welding Examiners (AS 08.99.010);
(11) Board of Governors of the Alaska Bar Association (AS 08.08.040).

(c) Upon termination, each board listed in (a) and (b) of this section shall continue in existence until June 30 of the next succeeding year for the purpose of concluding its affairs. During this period, termination does not reduce or otherwise limit the powers or authority of each board. One year after the date of termination, a board not continued shall cease all activities.

(d) The termination, dissolution, continuation or reestablishment of a regulatory board shall be governed by the legislative oversight procedures of AS 44.66.050.

(e) A board scheduled for termination under this chapter may be continued or reestablished by the legislature for a period not to exceed four years. (§ 2 ch 149 SLA 1977)

Chapter 99. Board of Welding Examiners.

Section
10. Creation and membership of board
20. Term of office
30. Source of appointments
40. Removal from office
50. Qualifications of board members
60. Meetings
70. Quorum
80. Powers and duties of the board
90. Applicability of Administrative Procedure Act
100. Expenses
110. Codes
120. Penalty

Sec. 08.99.010. Creation and membership of board. There is created the Board of Welding Examiners, consisting of seven members appointed by the governor. (§ 1 ch 151 SLA 1968)

Sec. 08.99.020. Term of office. Board members serve a term of five year. However, of the members first appointed, one shall be appointed for a term of one year, one for two years, one for three years, one for four years, and three for terms of five years. (§ 1 ch 151 SLA 1968)

Sec. 08.99.030. Source of appointments. The governor shall appoint board members from a list of persons prepared by the Alaska Chapter of the American Welding Society and the Alaska Society of Professional Engineers and submitted at least 30 days before the expiration of a term and not more than 60 days after a vacancy occurs in an unexpired ter[illegible]. The list shall contain not less than two recommended candidates for each appointment. The governor shall make appointments within 30 days after receiving the list. (§ 1 ch 151 SLA 1968; am § 1 ch 151 SLA 1970)

Sec. 08.99.040. Removal from office. Each member holds office at the pleasure of the governor notwithstanding the member's term. (§ 1 ch 151 SLA 1968)

Sec. 08.99.050. Qualifications of board members. Each member of the board shall be a citizen of the United States and a resident of the state. At least three members shall be persons with engineering degrees or registration as an engineer and each engineer member shall have at least five years engineering experience. All members shall have extensive experience in welding. (§ 1 ch 151 SLA 1968; am § 2 ch 151 SLA 1970)

Sec. 08.99.060. Meetings. The board shall meet at least once a year. (§ 1 ch 151 SLA 1968)

Sec. 08.99.070. Quorum. A majority of the board constitutes a quorum. (§ 1 ch 151 SLA 1968)

Sec. 08.99.080. Powers and duties of the board. (a) The board shall

(1) establish and promulgate rules and regulations concerning certification of welders in the state;

(2) establish and define certification tests as they apply to various types and categories of work done in or for the state;

(3) work with federal and private agencies and specifying engineers to establish uniform testing and certifying methods for all welders throughout the state;

(4) work with federal agencies and the agencies of other states to establish reciprocity agreements;

(5) set up criteria and define experience and documentary requirements which may be accepted in lieu of physical certification tests in the state;

(6) set the fees for the welder certification tests;

(7) examine, certify, and renew the certification of qualified applicants;

(8) keep a record of its proceedings, and submit annual reports to the governor and the legislature;

(9) promulgate regulations concerning the quality of welds and qualifications of welders required in specific areas of industry and construction and designate reporting procedures necessary to certify compliance with these quality standards;

(10) designate and approve persons qualified to administer welding tests, and designate and approve shops, laboratories, or other establishments qualified for testing coupons and weldments.

(b) The board may request technical personnel from the Department of Labor for the purpose of reviewing and analyzing reports and may request field inspection by the department for the purpose of assuring compliance with, and enforcement of the regulations, rules and orders promulgated under §§ 10 — 110 of this chapter. (§ 1 ch 151 SLA 1968; am §§ 3 — 6 ch 151 SLA 1970)

Sec. 08.99.090. Applicability of Administrative Procedure Act. The board shall comply with the Administrative Procedure Act (AS 44.62). (§ 1 ch 151 SLA 1968)

Sec. 08.99.100. Expenses. Members of the board are entitled to the per diem and travel expenses allowed by law. (§ 1 ch 151 SLA 1968)

Sec. 08.99.110. Codes. The United States of America Standards Institute Codes listed below are established as the piping codes for the state:

(1) B 31.1.0 — 1967 power piping;

(2) B 31.2 — 1968 fuel gas piping;

(3) B 31.8 — 1968 gas transmission and distribution piping system;

(4) B 31.3 — 1966 petroleum refining piping;

(5) B 31.4 — 1966 and B 31.4a — 1968 liquid petroleum transportation piping systems. (§ 6 ch 151 SLA 1970)

Revisor's note (1970). — For copies of the codes referred to in AS 08.99.110, write to the U.S.A. Standards Institute, Dept. PH 31, 10 East 40th Street, New York, New York 10016.

Sec. 08.99.120. Penalty. A person who violates a regulation adopted under §§ 10 — 110 of this chapter is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than $500. (§ 7 ch 151 SLA 1970)

CHAPTER 72.
BOARD OF WELDING EXAMINERS

Article
1. Codes
2. Welders
3. Welding Inspectors
4. General Provisions

ARTICLE 1.
CODES

Section
5. Rating
10. (Repealed)

12 AAC 72.005. RATING FOR WELDERS. Ratings for welders shall be governed by the code requirements in the job specifications. In the absence of code requirements, welders shall be certified in accordance with the applicable American Welding Society Code. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(2) and (9)

12 AAC 72.010. CERTIFICATE REQUIRED. Repealed. (8/21/78, Reg. 67)

ARTICLE 2.
WELDERS

Section
15. Welder qualification certificate required
20. (Repealed)
25. Requirements for welder qualification certificate
30. (Repealed)
35. Welder qualification certificate issued
40. (Repealed)
45. Requirements for maintaining a current welder qualification certificate

12 AAC 72.015. WELDER QUALIFICATION CERTIFICATE REQUIRED. A person may not perform a welding operation in the state for compensation, in which weldment failure would involve hazard to life or property unless he or she holds a current, valid welder qualification certificate in the appropriate rating. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(2),(5) and (9)

12 AAC 72.020. DURATION AND RENEWAL. Repealed. (8/21/78, Reg. 67)

12 AAC 72.025. REQUIREMENTS FOR WELDER QUALIFICATION CERTIFICATE. (a) Testing of welders shall be done under the direct supervision of a licensed welding inspector.

(b) An applicant for a welder qualification certificate or a company desiring to have a welder qualified shall

(1) submit to the welding inspector the welding procedure specifications or the welding performance specifications, or both when indicated, for the appropriate rating; and

(2) complete the welding test for the appropriate rating according to the terms of the welding procedure specifications or the welding performance specifications, or both when indicated.

(c) Prequalified procedure specifications may be used for test administration according to applicable codes. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(2),(5) and (9)

12 AAC 72.030. TEST SELECTION. Repealed. (8/21/78, Reg. 67)

12 AAC 72.035. WELDER QUALIFICATION CERTIFICATE ISSUED. The welding inspector shall issue the welding qualification certificate in the appropriate rating to the applicant or company upon the applicant's successful completion of the examination. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(7) and (10)

12 AAC 72.040. QUALIFICATION. Repealed (8/21/78, Reg. 67)

12 AAC 72.045. REQUIREMENTS FOR MAINTAINING A CURRENT WELDER QUALIFICATION CERTIFICATE. (a) A welder qualification certificate is valid if

(1) it is kept current in compliance with the code under which it is issued unless stated otherwise in the job specification; and

(2) the welder has been continuously employed on the welding process for which he is certified.

(b) The expiration or revocation of one rating does not affect any remaining rating. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(5) and (10)

70. (Repealed)
75. Application for welding inspector license
80. (Repealed)
85. Examination for welding inspector license
90. (Repealed)
95. Welding inspector license issued
105. Welding inspector license expiration and renewal
115. Duties and responsibilities of welding inspector
125. Prohibited conduct of welding inspector

12 AAC 72.050. TEST FACILITIES. Repealed. (8/21/78, Reg. 67)

12 AAC 72.055. WELDING INSPECTOR LICENSE REQUIRED. A person may not test a welder for the purpose of issuing a welder qualification certificate or inspect a welding operation in the state in which weldment failure would involve hazard to life or property unless he or she holds a current, valid welding inspector license. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7) and (10)

12 AAC 72.060. WELD QUALIFIER. Repealed. (8/21/78, Reg. 67)

12 AAC 72.065. REQUIREMENTS FOR WELDING INSPECTOR LICENSE. (a) An applicant for a welding inspector license must

(1) be a high school graduate or hold a state or military approved high school equivalency diploma;

(2) have no less than five years' experience at the technical level in an occupational function that directly involved

(A) design experience such as preparation of plans and drawings for weldment construction according to a code, standard or specification;

(B) construction experience such as actual construction or fabrication and erection of weldments in accordance with a code, standard, specification or drawing;

(C) maintenance experience such as detection and measurement of weld inadequacies or discontinuities in accordance with specified procedures, and

(D) repair experience such as repair or replacement of welds that were determined inadequate or defective by reference to a code, standard, specification or drawing;

(3) be familiar with and understand the fundamentals of shielded metal arc welding, stud arc welding, submerged arc welding, flux cored arc welding, gas metal arc welding, gas tungsten arc welding, electroslag welding, oxyfuel gas welding, brazing, thermal cutting and mechanical cutting;

(4) be capable of writing clear and concise reports and maintaining records;

(5) pass an eye examination to prove natural or corrected near distance acuity for reading J-1 letters at a distance of not less than 12 inches on Jaeger's standard test type chart for near vision, or equivalent test, and natural or corrected far distance acuity of 20/40 as evidenced by a written, signed statement from a physician or an optometrist;

(6) pass a closed book test on welding inspection fundamentals such as welding processes, nondestructive testing methods, and interpretation;

(7) pass an open book test on general code or standard requirements such as fabrication tolerances and preheat requirements;

(8) pass a demonstration of competency in the use of tools, gauges, and instruments pertaining to weld inspection; and

(9) submit evidence of having previously passed an all position welding qualification test in at least one welding process.

(b) The requirements of (a)(1) – (8) of this section will be waived for an applicant possessing a current welding inspector certificate issued by the American Welding Society in accordance with AWS QC 1-78 "Standard for Qualification and Certification of Welding Inspectors."

(c) An applicant may substitute up to two years of post-high-school education for two years of the five-year experience relevant to any of the functions covered by (a)(2) of this section and approved by the board. (Eff. 8/21/78, Reg. 67; am 7/22/79, Reg. 71)

Authority: AS 08.99.080(a)(5) and (10)

12 AAC 72.070. TEST FEES. Repealed. (8/21/78, Reg. 67)

12 AAC 72.075. APPLICATION FOR WELDING INSPECTOR LICENSE. Application for a welding inspector license must be made to the department on a form provided by the department and must be accompanied by a fee of $25. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(6) and (10)

12 AAC 72.080. CODES. Repealed. (8/21/78, Reg. 67)

12 AAC 72.085. EXAMINATION FOR WELDING INSPECTOR LICENSE. Examinations for welding inspector licenses will be conducted four times a year. Additional examinations may be conducted if the applicant furnishes all necessary facilities and pays all expenses incurred by the examiners. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(2), (7) and (10)

12 AAC 71.090. DEFINITIONS. Repealed. (8/21/78, Reg. 67)

12 AAC 72.095. WELDING INSPECTOR LICENSE ISSUED. The department will issue a welding inspector license to an applicant who

meets the requirements of sec. 65 of this chapter. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7) and (10)

12 AAC 72.105. WELDING INSPECTOR LICENSE EXPIRATION AND RENEWAL. (a) A welding inspector license is valid until March 1 of each year unless revoked for reasons stated in sec. 125 of this chapter.

(b) Application for renewal of a welding inspector license must be made to the department on a form provided by the department no later than February first of each year and must be accompanied by a fee of $10.

(c) An application for renewal of a welding inspector license must contain

(1) evidence of compliance with the requirement of sec. 65(a)(5) of this chapter; and

(2) evidence of employment as a welding inspector in the form of

(A) a signed statement of an employer;

(B) payroll records indicating the position held; or

(C) affidavits of two fellow employees attesting to employment activity of the applicant.

(d) Application for renewal of a welding inspector license which has lapsed is considered a new application. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7) and (10)

12 AAC 72.115. DUTIES AND RESPONSIBILITIES OF A WELDING INSPECTOR. (a) A welding inspector shall, when applicable

(1) keep the department advised of his current address for the mailing of renewal notices;

(2) verify that the work inspected conforms to the requirements of the applicable codes, standards and job specifications;

(3) verify that the base materials and consumable welding materials conform to the specification requirements and that the specified welding filler metals are used on each base metal or combination of base metals;

(4) verify that the welding equipment to be used for the work is that which is specified in the welding procedure and has the capability to produce the specified welds;

(5) verify that the welding procedures are as specified, and are qualified and available to the welders for reference;

(6) verify that the welders have been properly qualified in accordance with the applicable codes and standards and that their qualification authorizes them to use the welding procedures specified for the work;

(7) observe the qualification tests when qualifying welders;

(8) verify that only specified and properly qualified welding procedures are used for the work;

(9) verify that the joint preparation and fit-up meets the requirements of the welding procedure and drawings;

(10) verify that the specified filler metals are used and that the filler metals are maintained in proper condition for use as specified;

(11) observe the technique and performance of each welder;

(12) examine the work for conformance to the requirements of the applicable codes, standards, specifications and drawings;

(13) identify the work inspected with specified marking methods or appropriate records;

(14) perform the necessary visual inspections;

(15) verify that the required visual and other nondestructive examinations have been performed by qualified personnel in the specified manner and review the resulting information to assure that the results are complete;

(16) perform nondestructive examinations that are specified, if he or she is qualified in accordance with the specified requirements;

(17) prepare clear and concise reports and keep necessary records of the welding procedure, the welding procedure qualifications, the welder qualifications, the control of welding materials and the results of inspections and tests;

(18) act with complete integrity in professional matters and be forthright and candid to the board or its representative on matters pertaining to this standard;

(19) to preserve the health and well-being of the public by performing the duties required of weld inspection in a conscientious and impartial manner to the full extent of his or her responsibilities and qualifications;

(20) undertake and perform assignments only when qualified by training, experience, and capability;

(21) be objective, thorough and factual in any written report, statement or testimony of the work and include all relevant or pertinent information in such communiques or testimonials;

(22) sign only for work that he or she has inspected, or for work over which he or she has personal knowledge through direct technical control; and

(23) conscientiously avoid conflict of interests with the employer or client and disclose any business association, interests, or circumstances that might be so considered.

(b) If there is evidence that the welder's work does not conform to the requirements of the applicable code, standard or specification, the welding inspector may require requalification of the welder. The welding inspector shall require a requalification of a welder if that person's qualification is not current by the requirements of the applicable codes, standards or specifications.

(c) If the welding inspector is to perform nondestructive examinations other than visual, and there are no specified qualification requirements, he or she must be qualified and certified in accordance with the Recommended Practice No. SNT-TC-1A, "Personnel Qualification and Certification for Nondestructive Testing," June 1975. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7),(9) and (10)

12 AAC 72.125. PROHIBITED CONDUCT OF WELDING INSPECTOR. (a) A welding inspector licensed under this chapter is prohibited from performing acts including

(1) signing a blank welder qualification certificate;

(2) issuing a welding qualification certificate to a welder not tested under his or her direct supervision;

(3) delegating his or her responsibility in testing of welders;

(4) paying, soliciting, or offering, directly or indirectly, any bribe or commission for professional employment with the exception of the usual commission required by employment agencies;

(5) falsifying, exaggerating, or indulging in the misrepresentation of personal academic and professional qualifications, past assignments, accomplishments, and responsibilities or those of his or her associates;

(6) issuing statements, criticisms, or arguments on weld inspection matters connected with public policy which are solicited or paid for by an interested party or parties, without first identifying the party and the speaker and disclosing any possible pecuniary interest;

(7) expressing an opinion on a weld inspection subject unless it is founded upon adequate knowledge of the facts in issue, upon a background of technical competence pertinent to the subject and upon honest conviction of the accuracy and propriety of the statement;

(8) accepting compensation, financial or otherwise, from more than one party for services on the same project, or for services pertaining to the same project, unless the circumstances are fully disclosed and agreed to by all interested parties or their authorized agents;

(9) soliciting or accepting gratuities, directly or indirectly, from any party or parties dealing with the client or employer in connection with the welding inspector's work; and

(10) associating with or knowingly participating in a fraudulent or dishonest venture.

(b) The board will suspend, refuse renewal of or revoke the welding inspector's license, place the license holder on probation, or reprimand the holder, if he or she is found to have engaged in prohibited conduct. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7),(9) and (10)

ARTICLE 4.
GENERAL PROVISIONS

Section
899. Weld qualifier license
900. Definitions

12 AAC 72.899. WELD QUALIFIER LICENSE. A weld qualifier license issued under the authority of this chapter as it existed between August 2, 1973 and the effective date of this section is valid until six months after the effective date of this section and may not be renewed. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7)

12 AAC 72.900. DEFINITIONS. (a) In this chapter

(1) "appropriate rating" means that rating which is required by the specific code designated in the job specifications; when there is no job specification or a specific code is not designated in the job specification, appropriate rating is not less than the all-position certification issued in accordance with the current edition of the American Welding Society Code;

(2) "board" means the Board of Welding Examiners;

(3) "code" means nationally recognized welding, nondestructive testing or engineering principles or rules published as guides or requirements or both by societies or agencies charged with establishing such guidelines;

(4) "continuous employment" means employment without interruption of more than 90 consecutive days unless otherwise specified in the code under which the certificate is being renewed;

(5) "coupon" means a piece of metal cut and sectioned for testing;

(6) "cutting process" means a process in which the severing or removing of metals is effected;

(7) "department" means the Department of Commerce and Economic Development;

(8) "direct supervision" means being physically present at the work site and in personal charge of the work being performed;

(9) "job specifications" means the written document setting out the specific construction standards to be adhered to for the project;

(10) "rating" means a particular skill level in the art of welding;

(11) "responsibility" means being accountable to the board or its agents or both for one's action relating to the requirements of this chapter;

(12) "standards" means minimum acceptable guidelines established by societies or agencies or both charged with the responsibility for promulgating such guidelines;

(13) "technical level" means a level of work in welding using mathematics and science such as would require at least two years of post-high-school study at an accredited engineering school or technical institute or equivalent study;

(14) "valid" means having legal force and properly executed and binding under the law and is in compliance with the appropriate code, standard or specification;

(15) "weld testing methods" means the destructive or nondestructive means of evaluating the integrity of the weld metal or heat affected zone of the base material or both;

(16) "welder" means welder, welding operator and tacker;

(17) "welding" means the metal joining process used in making welds;

(18) "welding inspector" means a person meeting the requirements of secs. 55 – 125 of this chapter;

(19) "welding performance specification" means a document required before testing, setting the criteria for demonstration of a welder's ability to produce welds meeting prescribed standards;

(20) "welding procedure" means a written document specifying the essential variables as listed in the appropriate welding or engineering code or both;

(21) "welding procedure specification" means a document required before welding on any structure, specifying the parameters and requirements which control the quality of the welding for that structure;

(22) "welding process" means the method of application of heat or filler metal or both to complete the joining process;

(23) "welding qualification certificate" means a certificate issued under the authority of the board by a licensed welding inspector to a person verifying that he or she has successfully performed one or more of the specific welding tests required for a certification to a particular welding or engineering code;

(24) "weldment" means an assembly whose component parts are joined by welding.

(b) Terms not defined in this section shall be construed in accordance with American Welding Society A3.0-76, "Terms and Definitions." (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1) and (9)

STATE OF ALASKA

NOTICE OF PROPOSED CHANGES IN THE REGULATIONS OF THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT BOARD OF ELECTRICAL EXAMINERS

Notice is hereby given that the Department of Commerce and Economic Development, Board of Electrical Examiners, under authority vested by AS 08.40.045 proposes to amend regulations in Title 12 of the Alaska Administrative Code to implement AS 08.40 as follows:

12 AAC 32.011 and .090 are amended by adding a subsection which permits substitution of a degree in electrical engineering plus four years management experience to satisfy the requirements for an electrical administrator license in the outside linework and inside wiring categories.

12 AAC 32.210(a) is amended by deleting the word "percent."

12 AAC 32.900 is amended by adding provisions which place the licensed electrical administrator for an employing electrical contractor in "responsible charge" of electrical work performed by the employer and defines "responsible charge."

12 AAC 32.910(4) is amended by permitting a person who meets the requirements established by AS 18.62 for the issuance of a certificate of fitness but has not yet received the certificate to be included under the definition of "journeyman lineman" and/or "journeyman electrician."

Notice is also given that any person interested may present oral or written statements or arguments relevant to the action proposed at a hearing to be held at the National Electrical Contractor's Association Building at 712 West 36th Avenue in Anchorage, Alaska, at 10:00 a.m., on Wednesday, November 14, 1979.

Copies of the proposed regulations may be obtained by writing to:

Department of Commerce and Economic Development
Board of Electrical Examiners - Regulations
Division of Occupational Licensing
Pouch D, Juneau, Alaska 99811

The Department of Commerce and Economic Development, Board of Electrical Examiners, upon it own motion or at the instance of any interested person, may, at the hearing or after it, adopt the proposals substantially as described above or may decide to take no action on them.

Charles R. Webber

Charles R. Webber, Commissioner

Date

STATE OF ALASKA
BOARD OF WELDING EXAMINERS
MINUTES OF MEETING
JULY 27, 1979

In accordance with AS 08.99.060 and AS 44.62.310, a scheduled meeting of the Board of Welding Examiners was held on the Anchorage Community College Campus, Room 104, Building G, located at 2533 Providence Avenue, Anchorage, Alaska, on July 27, 1979.

There were present, constituting a quorum of the board:

Don Lockman, Chairman
Peter Millar
J. C. Wingfield
George Fox

Members absent were:

Phil Davis
Don Delk
Tim Farrell

Also present was Carol Fredriksson, Licensing Examiner II, Division of Occupational Licensing.

The meeting was called to order by the chairman, Don Lockman, at 2:20 p.m.

OLD BUSINESS

Minutes: The minutes of the April 27, 1979 meeting were read by Carol Fredriksson. J. C. Wingfield moved that the minutes be approved as read, seconded by Pete Millar, and carried unanimously.

NEW BUSINESS

New Board Members: Don Lockman wished the minutes to reflect that there had been two new board member appointments. These new members, George Fox and Tim Farrell, replaced James Crippen and Rick Schneider (former chairman). By receipt of a letter from Governor Jay Hammond, Don Lockman was requested to act as Chairman for the State Welding Examiners Board. Don Lockman was, in the past, Secretary and asked for suggestions for a new secretary from the board members. It was moved by Pete Millar and seconded by J. C. Wingfield that Don Delk would be appointed Secretary. The motion was carried unanimously.

Travel Budget: Discussion was held regarding the new members on the board and transportation and per diem that would be required for them to attend future meetings. Carol Fredriksson advised that at the time she did the travel budget she was not aware of the new members and their place of residence. She said she would revise their travel budget letter and send them a revised copy.

STATE OF ALASKA
NOTICE OF PROPOSED CHANGES IN THE REGULATIONS OF
THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT
BOARD OF PUBLIC ACCOUNTANCY

Notice is hereby given that the Department of Commerce and Economic Development, Board of Public Accountancy, proposes to adopt, amend and repeal regulations in Title 12 of the Alaska Administrative Code to implement AS 08.04 as follows:

12 AAC .04 is amended by:

1. requiring that an applicant who successfully completes the Uniform Certified Public Accountant Examination take and pass, prior to licensure as a P.A. or a C.P.A., an open book ethics examination prepared and graded by the American Institute of Certified Public Accountants;

2. requiring that any applicant for a license as a P.A. or a C.P.A. by endorsement or reciprocity from any other jurisdiction have taken, and passed, the examination(s) required by this State and be capable of meeting the board established experience requirements of this State;

3. repealing 12 AAC 04.090, .120 and .170(b)

Notice is also given that any person interested may present oral or written statements or arguments relevant to the action proposed at a hearing to be held before the board at 8:00 a.m., on December 6, 1979 in the Executive Dining Room of the Campus Center of the University of Alaska at 2801 Providence Drive in Anchorage, Alaska.

Copies of the proposed regulations may be obtained by writing to:

Department of Commerce and Economic Development
Board of Public Accountancy - Regulations
Division of Occupational Licensing
Pouch D, Juneau, Alaska 99811

The Department of Commerce and Economic Development, Board of Public Accountancy, upon its own motion or at the instance of any interested person, may, at the hearing or after it, adopt the proposals substantially as described above without further notice or may decide to take no action on them.

Charles R. Webber

Charles R. Webber, Commissioner

10/3/-2

Date

Sunset Legislation: Don Lockman read interim letter #1 to the Board of Welding Examiners from the Division of Legislative Audit dated June 20, 1979. This letter was to have been responded to by the board within fifteen working days. The board did not answer this letter due to the fact that they had not been able to meet as a board. They felt it was not proper of the Division of Legislative Audit to insist on a response by the board as they were not going to meet for two months. They felt that as individuals they should still answer the letter, even if the Division of Legislative Audit would not accept the responses. It was moved by George Fox and seconded by J. C. Wingfield that all board members shall respond to the interim letter, send their responses to Don Delk, who will then coordinate those responses and forward them to the proper channels. This motion was carried unanimously.

The board also requested the licensing examiner to have Elaine Garrett, Management Analyst, call them regarding future deadline dates and any other information she may have concerning the Sunset Legislation.

George Fox felt that if the board was terminated he would, in his personal opinion, expect that a Welding Bureau, like Canada's would be established which is very political. He felt their regulations were prompted by the tides of politics rather than technology. if sunsetted

Exam: It was discussed that six applicants would be taking the AWS exam on July 28, 1979 with Dr. Morgan of the University of Alaska proctoring the exam.

Test Proctors: Discussion was held on test proctors and how future exams were to be held. It was felt that AWS had decided to employ their own proctor for every exam and, with that in mind, the board MEMBERS felt their attendance at the exams was no longer necessary. They also felt that if AWS requests assistance at any exam, it is up to the division to send a licensing examiner to help them. It was noted that in past minutes Jane English had been established as the appointed administrator for AWS, along with two members from the board as proctors. J. C. Wingfield made a motion to reverse those previous decisions by the board and George Fox seconded the mtion, so that the board now resolves that AWS will conduct all future exams and if they request help from the division or the board, assistance will be given. The motion carried unanimously.

Welding Inspectors: The attached list of welding inspectors was presented to the board for their final approval of licensure. On motion made by J. C. Wingfield, seconded by Peter Millar, it was resolved to accept the list as presented and approved licensure of those applicants.

Board Meeting: The next board meeting will be October 26, and the next AWS exam will be October 27, 1979.

There being no further business the meeting adjourned at 4:05 p.m.

Respectfully Submitted

bring an action in the superior court to enjoin the act and to enforce compliance with § 120 of this chapter. (§ 1 ch 91 SLA 1963)

Article 4. General Provisions.

Section
250. Definitions

Sec. 08.98.250. Definitions. In this chapter

(1) a person who practices veterinary medicine, surgery, or dentistry is one who does any of the following:

(A) appends to his name a title or abbreviation indicating to the public that he is a veterinarian;

(B) for compensation, diagnoses or treats diseases, injuries, or deformities of domesticated animals;

(C) holds himself out to the public as one who diagnoses or treats diseases, injuries, or deformities of domesticated animals;

(D) maintains premises for receiving, examining, and treating a domesticated animal for compensation;

(2) "board" means the Board of Veterinary Examiners;

(3) "department" means the Department of Commerce and Economic Development. (§ 1 ch 91 SLA 1963; am § 60 ch 218 SLA 1976)

Revisor's note (1973). — In light of the 1966 amendment of AS 08.98.010, "Veterinarian" has been changed to "Veterinary" in paragraph (2) of this section.

Effect of amendment. — The 1976 amendment substituted "Department of Commerce and Economic Development" for "Department of Commerce" in paragraph (3).

Sec. 08.99.010. Creation and membership of board. There is created the Board of Welding Examiners, consisting of seven members appointed by the governor. (§ 1 ch 151 SLA 1968)

Sec. 08.99.020. Term of office. Board members serve a term of five years. However, of the members first appointed, one shall be appointed for a term of one year, one for two years, one for three years, one for four years, and three for terms of five years. (§ 1 ch 151 SLA 1968)

Sec. 08.99.030. Source of appointments. The governor shall appoint board members from a list of persons prepared by the Alaska Chapter

of the American Welding Society and the Alaska Society of Professional Engineers and submitted at least 30 days before the expiration of a term and not more than 60 days after a vacancy occurs in an unexpired term. The list shall contain not less than two recommended candidates for each appointment. The governor shall make appointments within 30 days after receiving the list. (§ 1 ch 151 SLA 1968; am § 1 ch 151 SLA 1970)

Sec. 08.99.040. Removal from office. Each member holds office at the pleasure of the governor notwithstanding the member's term. (§ 1 ch 151 SLA 1968)

Sec. 08.99.050. Qualifications of board members. Each member of the board shall be a citizen of the United States and a resident of the state. At least three members shall be persons with engineering degrees or registration as an engineer and each engineer member shall have at least five years engineering experience. All members shall have extensive experience in welding. (§ 1 ch 151 SLA 1968; am § 2 ch 151 SLA 1970)

Sec. 08.99.060. Meetings. The board shall meet at least once a year. (§ 1 ch 151 SLA 1968)

Sec. 08.99.070. Quorum. A majority of the board constitutes a quorum. (§ 1 ch 151 SLA 1968)

Sec. 08.99.080. Powers and duties of the board. (a) The board shall

(1) establish and promulgate rules and regulations concerning certification of welders in the state;

(2) establish and define certification tests as they apply to various types and categories of work done in or for the state;

(3) work with federal and private agencies and specifying engineers to establish uniform testing and certifying methods for all welders throughout the state;

(4) work with federal agencies and the agencies of other states to establish reciprocity agreements;

(5) set up criteria and define experience and documentary requirements which may be accepted in lieu of physical certification tests in the state;

Repealed (6) set the fees for the welder certification tests; By O.C

(7) examine, certify, and renew the certification of qualified applicants;

(8) keep a record of its proceedings, and submit annual reports to the governor and the legislature;

Repealed (9) promulgate regulations concerning the quality of welds and qualifications of welders required in specific areas of industry and construction and designate reporting procedures necessary to certify compliance with these quality standards;

12 AAC 72.065. REQUIREMENTS FOR WELDINC INSPECTOR LICENSE. (a) An applicant for a welding inspector license must

(1) be a high school graduate or hold a state or military approved high school equivalency diploma;

(2) have no less than five years' experience at the technical level in an occupational function that directly involved

(A) design experience such as preparation of plans and drawings for weldment construction according to a code, standard or specification;

(B) construction experience such as actual construction or fabrication and erection of weldments in accordance with a code, standard, specification or drawing;

(C) maintenance experience such as detection and measurement of weld inadequacies or discontinuities in accordance with specified procedures; and

(D) repair experience such as repair or replacement of welds that were determined inadequate or defective by reference to a code, standard, specification or drawing;

(3) be familiar with and understand the fundamentals of shielded metal arc welding, stud arc welding, submerged arc welding, flux cored arc welding, gas metal arc welding, gas tungsten arc welding, electroslag welding, oxyfuel gas welding, brazing, thermal cutting and mechanical cutting;

(4) be capable of writing clear and concise reports and maintaining records;

(5) pass an eye examination to prove natural or corrected near distance acuity for reading J-1 letters at a distance of not less than 12 inches on Jaeger's standard test type chart for near vision, or equivalent test, and natural or corrected far distance acuity of 20/40 as evidenced by a written, signed statement from a physician or an optometrist;

(6) pass a closed book test on welding inspection fundamentals such as welding processes, nondestructive testing methods, and interpretation;

(7) pass an open book test on general code or standard requirements such as fabrication tolerances and preheat requirements;

(8) pass a demonstration of competency in the use of tools, gauges, and instruments pertaining to weld inspection; and

(9) submit evidence of having previously passed an all position welding qualification test in at least one welding process.

(b) The requirements of (a)(3) – (8) of this section will be waived for an applicant possessing a current welding inspector certificate issued by the American Welding Society in accordance with AWS QC 1-77, "Standard for Qualification and Certification of Welding Inspectors."

(c) An applicant may substitute up to two years of post-high-school education for two years of the five-year experience relevant to any of the functions covered by (a)(2) of this section and approved by the board. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(5) and (10)

12 AAC 72.070. TEST FEES. Repealed. (8/21/78, Reg. 67)

12 AAC 72.075. APPLICATION FOR WELDING INSPECTOR LICENSE. Application for a welding inspector license must be made to the department on a form provided by the department and must be accompanied by a fee of $25. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(6) and (10)

12 AAC 72.080. CODES. Repealed. (8/21/78, Reg. 67)

12 AAC 72.085. EXAMINATION FOR WELDING INSPECTOR LICENSE. Examinations for welding inspector licenses will be conducted four times a year. Additional examinations may be conducted if the applicant furnishes all necessary facilities and pays all expenses incurred by the examiners. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1),(2), (7) and (10)

12 AAC 71.090. DEFINITIONS. Repealed. (8/21/78, Reg. 67)

12 AAC 72.095. WELDING INSPECTOR LICENSE ISSUED. The department will issue a welding inspector license to an applicant who

meets the requirements of sec. 65 of this chapter. (Eff. 8/21/78, Reg. 67)

Authority: AS 03.99.080(a)(7) and (10)

12 AAC 72.105. WELDING INSPECTOR LICENSE EXPIRATION AND RENEWAL. (a) A welding inspector license is valid until March 1 of each year unless revoked for reasons stated in sec. 125 of this chapter.

(b) Application for renewal of a welding inspector license must be made to the department on a form provided by the department no later than February first of each year and must be accompanied by a fee of $10.

(c) An application for renewal of a welding inspector license must contain

(1) evidence of compliance with the requirement of sec. 65(a)(5) of this chapter; and

(2) evidence of employment as a welding inspector in the form of

(A) a signed statement of an employer;

(B) payroll records indicating the position held; or

(C) affidavits of two fellow employees attesting to employment activity of the applicant.

(d) Application for renewal of a welding inspector license which has lapsed is considered a new application. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7) and (10)

12 AAC 72.115. DUTIES AND RESPONSIBILITIES OF A WELDING INSPECTOR. (a) A welding inspector shall, when applicable

(1) keep the department advised of his current address for the mailing of renewal notices;

(2) verify that the work inspected conforms to the requirements of the applicable codes, standards and job specifications;

(3) verify that the base materials and consumable welding materials conform to the specification requirements and that the specified welding filler metals are used on each base metal or combination of base metals;

(4) verify that the welding equipment to be used for the work is that which is specified in the welding procedure and has the capability to produce the specified welds;

(5) verify that the welding procedures are as specified, and are qualified and available to the welders for reference;

(6) verify that the welders have been properly qualified in accordance with the applicable codes and standards and that their qualification authorizes them to use the welding procedures specified for the work;

(7) observe the qualification tests when qualifying welders;

(8) verify that only specified and properly qualified welding procedures are used for the work;

(9) verify that the joint preparation and fit-up meets the requirements of the welding procedure and drawings;

(10) verify that the specified filler metals are used and that the filler metals are maintained in proper condition for use as specified;

(11) observe the technique and performance of each welder;

(12) examine the work for conformance to the requirements of the applicable codes, standards, specifications and drawings;

(13) identify the work inspected with specified marking methods or appropriate records;

(14) perform the necessary visual inspections;

(15) verify that the required visual and other nondestructive examinations have been performed by qualified personnel in the specified manner and review the resulting information to assure that the results are complete;

(16) perform nondestructive examinations that are specified, if he or she is qualified in accordance with the specified requirements;

(17) prepare clear and concise reports and keep necessary records of the welding procedure, the welding procedure qualifications, the welder qualifications, the control of welding materials and the results of inspections and tests;

(18) act with complete integrity in professional matters and be forthright and candid to the board or its representative on matters pertaining to this standard;

(19) to preserve the health and well-being of the public by performing the duties required of weld inspection in a conscientious and impartial manner to the full extent of his or her responsibilities and qualifications;

(20) undertake and perform assignments only when qualified by training, experience, and capability;

(21) be objective, thorough and factual in any written report, statement or testimony of the work and include all relevant or pertinent information in such communiques or testimonials;

(22) sign only for work that he or she has inspected, or for work over which he or she has personal knowledge through direct technical control; and

(23) conscientiously avoid conflict of interests with the employer or client and disclose any business association, interests, or circumstances that might be so considered.

(b) If there is evidence that the welder's work does not conform to the requirements of the applicable code, standard or specification, the welding inspector may require requalification of the welder. The welding inspector shall require a requalification of a welder if that person's qualification is not current by the requirements of the applicable codes, standards or specifications.

(c) If the welding inspector is to perform nondestructive examinations other than visual, and there are no specified qualification requirements, he or she must be qualified and certified in accordance with the Recommended Practice No. SNT-TC-1A, "Personnel Qualification and Certification for Nondestructive Testing," June 1975. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7),(9) and (10)

12 AAC 72.125. PROHIBITED CONDUCT OF WELDING INSPECTOR. (a) A welding inspector licensed under this chapter is prohibited from performing acts including

(1) signing a blank welder qualification certificate;

(2) issuing a welding qualification certificate to a welder not tested under his or her direct supervision;

(3) delegating his or her responsibility in testing of welders;

(4) paying, soliciting, or offering, directly or indirectly, any bribe or commission for professional employment with the exception of the usual commission required by employment agencies;

(5) falsifying, exaggerating, or indulging in the misrepresentation of personal academic and professional qualifications, past assignments, accomplishments, and responsibilities or those of his or her associates;

(6) issuing statements, criticisms, or arguments on weld inspection matters connected with public policy which are solicited or paid for by an interested party or parties, without first identifying the party and the speaker and disclosing any possible pecuniary interest;

(7) expressing an opinion on a weld inspection subject unless it is founded upon adequate knowledge of the facts in issue, upon a background of technical competence pertinent to the subject and upon honest conviction of the accuracy and propriety of the statement;

(8) accepting compensation, financial or otherwise, from more than one party for services on the same project, or for services pertaining to the same project, unless the circumstances are fully disclosed and agreed to by all interested parties or their authorized agents;

(9) soliciting or accepting gratuities, directly or indirectly, from any party or parties dealing with the client or employer in connection with the welding inspector's work; and

(10) associating with or knowingly participating in a fraudulent or dishonest venture.

(b) The board will suspend, refuse renewal of or revoke the welding inspector's license, place the license holder on probation, or reprimand the holder, if he or she is found to have engaged in prohibited conduct. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7),(9) and (10)

12 AAC 72.899. WELD QUALIFIER LICENSE. A weld qualifier license issued under the authority of this chapter as it existed between August 2, 1973 and the effective date of this section is valid until six months after the effective date of this section and may not be renewed. (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(7)

12 AAC 72.900. DEFINITIONS. (a) In this chapter

(1) "appropriate rating" means that rating which is required by the specific code designated in the job specifications; when there is no job specification or a specific code is not designated in the job specification, appropriate rating is not less than the all-position certification issued in accordance with the current edition of the American Welding Society Code;

(2) "board" means the Board of Welding Examiners;

(3) "code" means nationally recognized welding, nondestructive testing or engineering principles or rules published as guides or requirements or both by societies or agencies charged with establishing such guidelines;

(4) "continuous employment" means employment without interruption of more than 90 consecutive days unless otherwise specified in the code under which the certificate is being renewed;

(5) "coupon" means a piece of metal cut and sectioned for testing;

(6) "cutting process" means a process in which the severing or removing of metals is effected;

(7) "department" means the Department of Commerce and Economic Development;

(8) "direct supervision" means being physically present at the work site and in personal charge of the work being performed;

(9) "job specifications" means the written document setting out the specific construction standards to be adhered to for the project;

(10) "rating" means a particular skill level in the art of welding;

(11) "responsibility" means being accountable to the board or its agents or both for one's action relating to the requirements of this chapter;

(12) "standards" means minimum acceptable guidelines established by societies or agencies or both charged with the responsibility for promulgating such guidelines;

(13) "technical level" means a level of work in welding using mathematics and science such as would require at least two years of post-high-school study at an accredited engineering school or technical institute or equivalent study;

(14) "valid" means having legal force and properly executed and binding under the law and is in compliance with the appropriate code, standard or specification;

(15) "weld testing methods" means the destructive or nondestructive means of evaluating the integrity of the weld metal or heat affected zone of the base material or both;

(16) "welder" means welder, welding operator and tacker;

(17) "welding" means the metal joining process used in making welds;

(18) "welding inspector" means a person meeting the requirements of secs. 55 – 125 of this chapter;

(19) "welding performance specification" means a document required before testing, setting the criteria for demonstration of a welder's ability to produce welds meeting prescribed standards;

(20) "welding procedure" means a written document specifying the essential variables as listed in the appropriate welding or engineering code or both;

(21) "welding procedure specification" means a document required before welding on any structure, specifying the parameters and requirements which control the quality of the welding for that structure;

(22) "welding process" means the method of application of heat or filler metal or both to complete the joining process;

(23) "welding qualification certificate" means a certificate issued under the authority of the board by a licensed welding inspector to a person verifying that he or she has successfully performed one or more of the specific welding tests required for a certification to a particular welding or engineering code;

(24) "weldment" means an assembly whose component parts are joined by welding.

(b) Terms not defined in this section shall be construed in accordance with American Welding Society A3.0-76, "Terms and Definitions." (Eff. 8/21/78, Reg. 67)

Authority: AS 08.99.080(a)(1) and (9)

RE: CS for HB 994

Senator Brad Bradley
Alaska State Legislature
Pouch V (MS 3100)
Juneua, AK 99811

Dear Senator Bradley:

In 1968, the idea for the Board of Welding Examiners was to develop methods that would help reduce costs for an employer to hire welders: 1) through knowing the welder's background, as each welder would be registered with the state and carry a card so stating his certification; and 2) so registered welders could be hired for specific welding jobs and if further testing was needed, the employer would know the applicant's elementary welding background thus eliminating many primary tests which are quite expensive.

The ensuing welding boards have changed directions several times. Until now, they have added at least two layers of cost to employers who use welders: 1) through government, which involves registration of welding Inspector/Examiners and enforcement of these inspections; and 2) through regulations where the employer must now contract for, or employ additional persons to, inspect welds and to qualify welders.

The additional costs, only to Alaskan employers, further reduces the chance of the smaller Alaskan welding companies to compete with outside companies for the limited amount of business available in the state.

It should also be noted that a welding inspector/qualifier does not inspect prefab buildings, muffler installations, trailer-hitch work, or other major welding work done by others before being shipped into the state, thus the greater part of any welding entering the state is not inspected.

I do not feel the board has served any useful purpose to date, even though it has been functional for 10 years. It should also be noted that any welding company in the state may have their welders tested at any of the test labs in the state, thus eliminating the additional expense for an in-house welding qualifier. Overall, it appears this is a well-organized drive by 37 weld inspector left over from the pipeline days, to continue in lucrative jobs.

Should you feel that the bill is needed, may I make several suggestions for it's betterment:

SECTION 4, 08.99.050. The 37 welding inspectors presently registered in the state apparently wish to monopolize this board as they wish to have two of their members on it. I feel the board would be more responsive to the public needs if the language remained as in past statutes: "all members shall have extensive experience in welding".

SECTION 5, 08.99.080. I would like to ask that the American Society of Mechanical Engineers' Boiler and Pressure Vessel Code (ASME) be excluded from this law as these activities are covered in other statutes. The welding to boilers and pressure vessels is under the jurisdiction of competent National Board of Boiler & Pressure Vessel inspectors and they only inspect boilers and pressure vessels being fabricated in the ASME Code boiler and pressure vessel shops and oversee the repair to boilers and pressure vessels to assure it is done in a safe manner and in accordance to the ASME Code guidelines.

Should you have any questions, please do not hesitate to contact me at (907) 344-6809.

Regards,

Don Cather

Dear Mr. Russell:

RE: BOARD OF ELECTRICAL EXAMINERS
BOARD OF WELDING EXAMINERS
PUBLIC HEARING HELD NOVEMBER 7, 1979

Enclosed please find a copy of the transcript of the above-captioned hearings held on November 7, 1979. If you should have any questions, please do not hesitate to contact our offices.

Sincerely,

Christian Basler
Administrative Assistant
Senate Commerce Committee

Enclosure

LEGISLATIVE PUBLIC HEARINGS

The Senate Commerce Committee will hold public hearings on Sunset Legislation pertaining to the following Boards and Commissions on the dates indicated:

WEDNESDAY, NOVEMBER 7, 1979

9:00 a.m. - 11:45 a.m. - A Performance Review of the Board of Electrical Examiners

1:30 p.m. - close - A Performance Review of the Board of Welding Examiners

Public hearings will be held in Anchorage - 1016 West Sixth Avenue, Suite 102

Hearings will be teleconferenced to Juneau and Fairbanks

6 November 1979

Introduction

Welding inspection has rightly been part of a quality assurance function in either the manufacture, regulation, or insurance of welded products or weldments. However, the increasing variety of welding processes, materials, codes and standards that are applied to these products makes it correspondingly more difficult to properly fulfill the inspection function, and to enforce or meet the design requirements. This simply means that welding inspectors have an increasingly important job and that this job must be done in a more uniform manner throughout the U.S. The American Welding Society's Committee on Qualification and Certification is working to help all concerned meet this challenge by offering a qualification and certification service that will standardize this job. The program is intended to serve the public, the welding industry, and the welding inspector equally.

This Guide provides information on how you can certify your qualifications as an inspector of weldments according to the AWS Standard for Qualification and Certification of Welding Inspectors*, and become registered with the American Welding Society.

The AWS is a nonprofit national organization that has gained world wide recognition for its contribution to the art and science of Welding. Its members receive such technical publications as the *Welding Handbook* and the monthly *Welding Journal*. If you would like more information on other benefits and on how to become a member, check the appropriate box when completing the attached application form.

*The AWS Standard for Qualification and Certification of Welding Inspectors is abbreviated in this Guide as the Standard.

In a Nutshell...

- You may qualify for the Certified Welding Inspector designation — CWI — if you meet the minimum requirements of AWS QC1-79, Standard for Qualification and Certification of Welding Inspectors.

- Certification requires a minimum of experience, education, and visual acuity, plus successful completion of a three part written examination.

- Nationwide examinations are offered on the last Saturday of April and October each year. Page 14 gives possible locations.

- Once certified, your name will be registered at AWS headquarters and published in a directory; also, you will receive a certificate and wallet card, documenting your qualification.

- Certification costs a total of $50 and is tax deductible.

- Recertification is required every three years.

Certification Questions and Answers

- *Why become certified?*
  Many welding personnel currently employed can measure themselves against standards for their occupation, but unfortunately they cannot provide documentation concerning their ability. Certification provides this documentation.

- *Does AWS certification signify anything else?*
  Yes. It signifies that there has been no action or ruling to refute his or her integrity or the character of his or her skills, practice, and conduct at welding inspection. Since proof of active practice or reexamination is required to recertify every 3 years, certification also signifies that the CWI is current with the state of the art.

- *Why was it decided to initiate the program with the Welding Inspector?*
  Because little, if anything, had been done to determine the competence of the Welding Inspector. Since that phase of the program is now operating successfully, a concerted effort is being made to establish certification standards for other categories of welding personnel.

- *Have standards for certification of the Welding Inspector been established?*
  Yes. The Standard for Qualification and Certification of Welding Inspectors, AWS QC1-79, begins on page 25 of this Guide.

- *Who established the standards for a Welding Inspector?*
  The AWS Qualification and Certification Committee, appointed by the President of the American Welding Society. This committee consists of members representing industry, consultants, educators, testing laboratories, an representatives from other technical societies.

- *What are the qualification requirements for certification?*
  The principal requirement is successful completion of a three part open and closed book examination. It is described along with the prerequisite education, experience, and visual acuity in Section 4 of the Standard, beginning on page 28.

- *Does a person have to pass an examination to recertify?*
  Not necessarily. If you satisfy the vision requirements and show proof of at least 2 years of qualifying experience during the three year period of your certification, you may recertify by paying the current recertification fee of $20.00 without reexamination. (See Section 9 of the Standard.)

- *Can a person become certified under a "Grandfather Clause?"*
  No. Only those who meet the qualification requirements will be certified.

- *Are the results of the qualification examination made public by AWS?*
  No. However, if you become certified, you will have passed the examination (among other requirements) and AWS will make it known in a directory. You alone will be notified if you fail, and any reference by AWS to that fact, from any inquiry, will be that you are not registered.

- *What is the total cost of certification?*
  The total cost for certification is $50.00. This consists of a $15.00 application fee, a $25.00 examination fee, and a $10.00 certification fee, all of which must be paid when you apply. (See page 10.)

- *Will I lose $50.00 if my application is turned down?*
  No. If you do not qualify to take the test, AWS will return your entire $50.00, your application, and an explanation of why you did not qualify. However, once your application is approved, the $15.00 application fee is nonrefundable.

- *If I am scheduled to take the test in the city of my choice and do not show up, can I get my money back?*
  No. Unless you notify AWS headquarters ON or BEFORE the test date that you will not be there, you will forfeit ALL fees. However, if you contact AWS by the 5th Monday preceding the test date, you may cancel and reschedule for the next examination at no additional charge. Alternatively, you may cancel by asking for a $35 refund, in which case, you must reapply and pay the full $50 if you later decide to take the test. If you cancel AFTER the 5th Monday, you may reschedule for an additional $25, or ask for a $10 refund.

- *If I take the test and fail, do I have to pay for another fee to take it again?*
  Yes. Unless you reschedule within one year of the most recent test you failed, you must submit a new application and pay all fees again. However, you may retake it for only $25 if you reschedule within that one year period.

- *Is the examination especially difficult?*
  It is difficult only to the extent that it presupposes knowledge of the fundamentals of basic welding processes and a good working knowledge and experience of welding inspection.

- *If I fail one part of the test do I have to retake the entire examination?*
  Yes. However, you should have no difficulty passing any part of the test you passed once because it will be made as equivalent in difficulty and content to the previous test as possible.

- *Does passing or failing the examination have any bearing on the candidate's status as a society member?*
  No.

- *When will I know how I did on the examination?*
  Within two months of the examination you will receive an official Test Score Report. It will give the passing score and your raw score on each part of the examination, plus your raw score on each subtopic of the closed book parts on fundamentals and practical applications. This will permit remedial study in any weak areas. For your privacy, test scores will not be discussed over the telephone.

- *Is there any text or study material that can be used to prepare for the test?*
  Yes. In addition to the codes and standards listed on pages 16-19, any of the following references and courses are recommended. Reference and course information may be obtained at the addresses shown on page 24.

AWS Publications:

1. *Certification Manual for Welding Inspectors*
2. *Welding Inspection*
3. *Symbols for Welding and Nondestructive Testing* AWS A2.4-79
4. Section 1-5 of the *Welding Handbook,* Sixth Edition
5. *Welding Handbook,* Volume One, Seventh Edition and Volume Two, Seventh Edition

Package courses available from AWS:

1. Current Welding Processes
2. Introductory Welding Metallurgy
3. Welding Inspection and quality Assurance

Homestudy and Extension Courses available from the American Society for Metals (ASM):

1. Course #35 — Weld Quality and Inspection

Homestudy and Extension Course available from the American Society for Nondestructive Testing (ASNT) and ASM:

2. Course #5 — Fundamentals of Nondestructive Testing

- *Are any of the above references available for loan?*
  The technical or reference sections of most public libraries keep the *Welding Handbook*, as well as other suitable references. You should check with your local library to see if they can be loaned. In addition, many AWS Sections maintain a library for AWS members. You should check with the Educational Committee Chairman of the local AWS Section for more information.

- *How often are the examinations given?*
  Nationwide examinations are given on the last Saturday of April and October each year. Test cities are listed on the application (in the centerfold).

- *Is it possible to take the examination at a time and place different than those of the nationwide examinations?*
  Yes. You may take the examination at AWS headquarters in Miami, Florida. However you must not have taken the test within the preceding 3 months. Applications and fees must be received in Miami at least two full weeks before the test date. Tests are offered on the first Friday of each March, June, September, and December; indicate your choice according to the asterisk in part 5A of the application form.

  Special examinations may also be arranged for dates and places different than those for the nationwide tests and the Miami tests. Detailed information may be obtained by contacting the Qualification-Certification Department in Miami.

- *Where can I obtain more information about the certification Program?*
  Write or call the Qualification & Certification Department, American Welding Society, 2501 Northwest 7th Street, Miami, Florida 33125; phone (305) 642-7090.

To become an AWS Certified Welding Inspector...

1. Fill out the application according to the instructions on page 11. Then, mail it with a $50 check or money order to the Q&C Department at AWS headquarters. Experience has shown that mail takes from 5 to 6 days to reach AWS, so DO NOT DELAY. Your application must be received in Miami by the 5th Monday preceding a scheduled nationwide examination, or 14 days prior to a special examination.
2. If your application is accepted, you will be sent the following:
   (1) your receipt for $50
   (2) your examination notice giving the test location, schedule, and instructions
   (3) your AWS eye examination form which must be completed, certified, and returned before your certificate is issued (if you pass the test). Your vision acuity may be validated from the results of vision tests made within a 7 month period preceding the welding inspector examination.
3. If you pass the examination and satisfy the vision requirements, you will then be registered and receive your certificate and wallet card.
4. If you fail the examination, you may retake it within one year of the first test for only $25. However, if you fail to reschedule during that period, you must submit a new application and pay all fees again.

The application deadline for the NATIONWIDE APRIL AND OCTOBER EXAMINATIONS IS THE FIFTH MONDAY PRECEDING EACH TEST DATE.

If you do not receive your exam notice at least one week before the test date, YOU should contact the Q&C Department in Miami immediately.

Make all fees payable to AWS and send check or money order with your application—DO NOT send CASH or PURCHASE ORDERS.

To fill out the application form...

READ the instructions that follow CAREFULLY and COMPLETELY; then, TYPE or PRINT clearly everything but your signature. Each item is keyed to the application for easy reference.

Part 1. PERSONAL

A. Spell your name exactly as it appears on your driver's license, or other suitable identification, and fill in your social security number. If you become certified, your name will appear on the certificate exactly as it is spelled on the form. Because of this, it is asked that you not use nicknames, unless you can be so identified.

B. List a COMPLETE mailing address which may be used to contact you at anytime on matters pertinent to your application, examination, certification and/or recertification.

C. List a phone number where AWS can contact you or leave a message that will reach you between the hours of 8 to 5, Monday thru Friday.

D. List your height, your weight, and the color of your eyes and hair.

E. List the month, day, and year you were born.

F. Mark "yes" or "no" as you choose. If yes, AWS will send you a brochure which outlines the benefits you could expect to receive by joining the American Welding Society. This brochure also contains an application for membership and lists the cities where you could participate in social, educational, and technical activities as a member.

G. If you have never taken an AWS test for Welding Inspectors, mark "no". If you have, mark "yes", and list the most recent date on which it was taken.

Part 2. OPEN BOOK TEST

A. Mark the box beside the ONE code or standard you want to use for the open book test. Choosing the one most familiar to you will be to your advantage. (See pages 16-19.)

Part 3. EDUCATIONAL BACKGROUND

A. Circle the numbers in Parts 3A1, 3A2, and 3A3 which indicate the highest grade or years you attended at each educational level. Note that if you do not hold a high school or equivalent diploma, you must document TEN or more years of qualifying experience (as defined in the following section) in Part 4 of your application.

B. Complete Parts 3B1 and 3B2 as indicated.

C. List post-high school education in Part 3C ONLY if you want to substitute it for experience. Please note that documentation of all claims must be submitted with your application (e.g. photocopied certificates, diplomas, transcripts). Education will be credited according to Section 4.1.3 of the Standard with proper documentation.

Part 4. QUALIFYING WORK EXPERIENCE

To comply with the five-year experience requirement in Section 4.1.2 of the Standard, you must show evidence of having performed the functions of a welding inspector or other job functions that require similar knowledge and ability. Periods of qualifying experience will be counted by the actual number of calendar months you were employed at specific JOBS (not employers). Those jobs which are considered to have a close relationship to the fabrication of weldments according to a code, standard, or specification, or consisted of welding inspection either periodically or full time, will be credited as qualifying experience.

To show this on your application, start with your present or most recent employer and CLEARLY, CONCISELY, AND ACCURATELY complete an entire box of items (4A thru 4D) for each employer. If you held more than one position with the same employer, list each one SEPARATELY in succeeding boxes, making sure to complete all other items that may have changed with each position under that employer, particularly your principal job duties.

Part 5. EXAMINATION SITES

A. Nationwide test cities or areas are listed below. Pick the city most convenient to you, and then circle the name where it appears on the application form. Note that the name and address of the test facility will normally not be known to you until about 10 days after the application deadline. Thus, you should make sure your travel arrangements will permit you to arrive at the test site in plenty of time on test day, particularly if you are not familiar with the area.

B. List the name of the test city and the test date if you have applied for a special examination. (See page 9.)

Nationwide Test Cities

Anchorage, AK
Birmingham, AL
Charlotte, NC
Chicago, IL
Cincinnati, OH
Cleveland, OH
Dallas/Ft. Worth, TX
Denver, CO
Des Moines, IA
Great Falls, MT
Hartford, CT
Houston, TX
Jacksonville, FL
Kansas City, KS
Long Beach/Los Angeles, CA
Miami, FL
Minneapolis, MN
New Orleans, LA
Norfolk, VA
Oklahoma City/Tulsa, OK
Philadelphia, PA
Phoenix, AZ
Portland, OR
Rochester, NY
St. Louis, MO
Salt Lake City, UT
San Francisco, CA
Seattle, WA

Notes on the Examination

The examination consists of three parts: part A, part B, and part C. Part A is a closed book fundamentals test; part B, a closed book practical application test; and part C, an open book code/standard test. Although each test has a different purpose, all are practical in that they cover basic knowledge or operating principles of methods, materials, processes, procedures, and equipment that apply to fabrication and inspection of weldments. Typical questions and answers for each part are shown in the section on "Sample Questions," beginning on page 16.

What to Expect on Examination Day

- The examination will be conducted by authorized representatives of AWS.
- Each test will begin and end at the times designated by the proctor. You will have two hours to answer approximately 45 questions on part C, 1½ hours for approximately 130 questions on part A, and 1½ hours for approximately 100 questions on part B. Experience has shown that you should have ample time to finish well within these periods.
- All questions will be of the five-response multiple choice type. (See Sample questions.)
- Some basic arithmetic will be required on the practical application test and it is recommended that you bring a slide rule or self-powered calculator. All required data will be provided.
- Your open book test DOES NOT cover any code/standard ADDENDA or REVISIONS. All questions will be on the BASIC document.
- Exchange of reference material or conversation during any segment of the examination will not be permitted.
- As you complete each test, you must certify that you understood test instructions, that you neither gave nor received help on the test, and that you saw the authorized proctor seal the envelope containing your test booklet and answer sheet.

What to Bring to the Examination Site

- Identification such as your driver's license or social security card.
- The code or standard you have chosen to be tested on.
- Either a self-powered calculator or slide rule.
- Two or three No. 2 lead pencils (No. 2 or 2½) and erasers.
- A wrist watch or time piece.

What Not to Bring to the Examination Site

- Visitors
- Reference material other than the required code or standard.
- A calculator designed for metric conversion.

Open Book Code/Standard Test

The open book test is designed to measure your ability to use a code or standard — not necessarily your knowledge of one. In addition, it has no greater or lesser value than the other two parts of the examination. All have equal weight. In essence, this means that if certified, your certificate will not reflect the one particular code or standard you used to take the test. Note also, that all open book tests were developed from the BASIC code/standard DOCUMENT — none were developed from addenda or revisions published subsequent to the editions listed below. Typical questions and answers (dash) for each open book test offered are shown below with the name and edition of the applicable code or standard. You must choose ONE of these to take the examination (see page 11), and you must bring it to the examination for reference use.

Reference: ASME Boiler and Pressure Vessel Code — Section VIII, Div. 1 and Section IX-77

1. Postweld heat treatment may be accomplished by either heating the entire vessel in a furnace or heating the vessel in more than one heat. If the latter is used, the sections heated must overlap
   (1) 3 feet.
— (2) 5 feet.
   (3) 30 times wall thickness.
   (4) 60 times wall thickness.
   (5) None of the above.

2. A change in base metal for brazing procedure qualification shall be in accordance with
   (1) QB-402.1 and QB-402.2 only.
   (2) QB-403.1 and QB-403.2 only.
   (3) QB-407.1.
— (4) QB-402.
   (5) All of the above.

3. A linear indication revealed by liquid penetrant examination is considered relevant if its major dimension is greater than
   (1) 1/32 inch.
— (2) 1/16 inch.
   (3) 3/32 inch.
   (4) 1/8 inch.
   (5) None of the above.

4. Welders who are qualified for the 4F position are also qualified for
   (1) 3F position.
   (2) 2G position.
   (3) 3G position.
   (4) 4G position.
— (5) None of the above.

4. QUALIFYING WORK EXPERIENCE

NOTE: CLEARLY, CONCISELY, and ACCURATELY complete a box of items (4A thru 4D) for each employer, listing your present or most recent employer first. If you held more than one position with the same employer, list each one SEPARATELY in succeeding boxes, making sure to complete all other items that may have changed with each position.

C. LIST your PRINCIPAL JOB DUTIES in each of the following areas:

1. Codes, Standards, Specifications: accepted & rejected welds in accordance with the Structural Welding Code
2. Welding Materials: verified correctness of numbers identifying base materials & welding consumables
3. Welding Equipment: verified correctness of setup of welding machines & welding fixtures
4. Welding Procedures: verified qualification & compliance
5. Welder Qualifications: observed technique & performance of welders
6. Visual Inspection and Quality Control: verified alignment & dimensions of work before, during, & after welding; marked defective welds
7. Nondestructive Examination: performed some MT & PT; reviewed & interpreted a few radiographs
8. Reports and Records: kept records & made reports of inspections

D. List any ADDITIONAL duties pertinent to weld inspection or weldment fabrication: None

SAMPLE ONLY

4. QUALIFYING WORK EXPERIENCE NOTE: CLEARLY, CONCISELY, and ACCURATELY complete a box of items (4A thru 4D) for each employer, listing your present or most recent employer first. If you held more than one position with the same employer, list each one SEPARATELY in succeeding boxes, making sure to complete all other items that may have changed with each position.

A. Company Name: _____

Dept./Division: _____

Supervisor/Personnel Manager: _____ Tel. No.: _____

Box/Street No.: _____ City: _____

State/Province: _____ Zip: _____

B. Mo. Yr. Mo. Yr.

Job Title: _____ From To

C. LIST your PRINCIPAL JOB DUTIES in each of the following areas:

1. Codes, Standards, Specifications
2. Welding Materials
3. Welding Equipment
4. Welding Procedures
5. Welder Qualifications
6. Visual Inspection and Quality Control
7. Nondestructive Examination
8. Reports and Records

D. List any ADDITIONAL duties pertinent to weld inspection or weldment fabrication:

5. EXAMINATION SITES

A. Circle the city of your choice for any nationwide examination:

Anchorage, AK	Hartford, CT	Philadelphia, PA
Birmingham, AL	Houston, TX	Phoenix, AZ
Charlotte, NC	Jacksonville, FL	Portland, OR
Chicago, IL	Kansas City, KS	Rochester, NY
Cincinnati, OH	Long Beach/Los Angeles, CA	St. Louis, MO
Cleveland, OH	Miami, FL*	Salt Lake City, UT
Dallas/Ft. Worth, TX	Minneapolis, MN	San Francisco, CA
Denver, CO	New Orleans, LA	Seattle, WA
Des Moines, IA	Norfolk, VA	
Great Falls, MT	Oklahoma City/Tulsa, OK	

B. Special Examination: City_____ Date_____

*Check one of the following ONLY if you are applying for a "Miami Special Test."

March ☐ June ☐ September ☐ December ☐

I hereby certify that the information I have included on this application is true; I give AWS permission to verify this information; I understand that any false statement or omission will nullify this application; I agree to comply with the provisions set forth in the Guide and the Standard concerning the administration of my examination and certification.

Signature _____ Date _____

NOTE: Before mailing this application, CHECK TO SEE that you have:

1. listed all required information
2. signed and dated it
3. enclosed your $50 check or money order
4. enclosed ALL NECESSARY DOCUMENTATION. See "To Fill Out the Application Form," in WIQC-79.

Rev. 7-79

3. EDUCATIONAL BACKGROUND

A. Circle below the highest grade or years attended at each level.

1. Grade and high school (including vocational) ..... 7 | 8 | 9 | 10 | 11 | 12
2. After high school: trade or technical (vocational) ..... 1 | 2 | 3 | 4
3. College ..... 1 | 2 | 3 | 4 | More than 4

B. Complete the following if you graduated high school or earned a high school equivalency diploma.

1. Date of graduation/issue: _____
2. Name of city and school/issuing agency: _____

C. List post-high school education below ONLY if you want to substitute it for experience.

Name and Address of Institution	Dates				Course of Study
	From		To		
	Mo.	Yr.	Mo.	Yr.	

*Incomplete or improperly completed forms will be returned

4. QUALIFYING WORK EXPERIENCE NOTE: CLEARLY, CONCISELY, and ACCURATELY complete a box of items (4A thru 4D) for each employer, listing your present or most recent employer first. If you held more than one position with the same employer, list each one SEPARATELY in succeeding boxes, making sure to complete all other items that may have changed with each position.

Reference: AWS D1.1-79—Structural Welding Code

5. Maximum root opening for a T-joint in 2 inch plate to be fillet welded is
   — (1) 3/16 inch.
   (2) 1/8 inch.
   (3) 5/32 inch.
   (4) 5/16 inch.
   (5) Not specified.

6. A welder qualified by making a horizontal position groove weld on one inch material, is also qualified to weld
   (1) flat and horizontal groove welds only.
   (2) flat and horizontal fillet welds only.
   — (3) both groove and fillet welds flat and horizontal.
   (4) one inch or less flat and horizontal groove welds.
   (5) Not specified.

7. If a crack is found in the weld metal the weld is acceptable if
   (1) the crack is less than 3/4 inch long.
   (2) the crack is removed and rewelded.
   — (3) the crack plus 2 inches of sound metal beyond the end of crack is removed and rewelded.
   (4) a piece of the metal containing the crack must be removed which has the width and length equal to the length of the crack followed by rewelding.
   (5) None of the above.

8. A welder qualified for SMAW using an E6012 electrode is also qualified to weld with
   (1) E7018.
   (2) E8016.
   (3) E6010.
   — (4) E7024.
   (5) Not specified.

Reference: API 1104-77, 14th Edition—Standard for Welding Pipelines and Related Facilities

9. For qualification of welding procedures the quality of the welds shall always be determined by
   — (1) destructive tests.
   (2) radiography.
   (3) ultrasonic inspection.
   (4) All of the above
   (5) None of the above

10. An established welding procedure must be re-established if there is a change in filler metal electrode from
    (1) E6010 to E6011.
    (2) E6010 to E7010.
    — (3) E7010 to E7016.
    (4) All of the above
    (5) None of the above

11. A 1/16 inch undercut on the inside of a 20 inch diameter, 1/2 inch wallpipe, is acceptable if its length does not exceed
    (1) 2 inches.
    (2) 4 inches.
    (3) 10.4 inches.
    (4) 20 inches.
    — (5) None of the above

12. For automatic production welding of pipe, which of the following changes in welding procedure require requalification?
    (1) Change in filler metal wire size from 1/16 inch to 3/32 inch
    (2) Change in shielding gas from argon to helium
    (3) Change in joint from V-groove to U-groove
    — (4) All of the above
    (5) Not specified

13. Groove weld tests made from P1 material by SMAW may be used for qualification of welder performance. Which of the following shall be used for evaluation?
    (1) Bend tests only.
    (2) Radiography only.
    (3) Radiography and bend tests.
    — (4) Either bend tests or radiography.
    (5) None of the above.

14. Backing rings are permitted in the fabrication of ferrous piping systems if they are the
    (1) consumable insert type.
    (2) removable ceramic type.
    (3) split band type.
    — (4) All of the above.
    (5) None of the above.

15. For a brazed joint to pass the peel test, the total of defective areas shall not exceed
    (1) 10% of any individual faying surface.
    (2) 20% of any individual faying surface.
    — (3) 30% of any individual faying surface.
    (4) 25% of the lap.
    (5) None of the above.

16. When local postheat treatment is required on non-boiler external piping, the minimum width of the band centered on the weld shall be the width of the weld plus
    — (1) 2 inches
    (2) 3 inches.
    (3) 4 inches.
    (4) 5 inches.
    (5) 6 inches.

Closed Book Fundamentals Test

The closed book test covers general technical and factual knowledge of welding inspection fundamentals. Its purpose is to measure your understanding of the basic principles and terminology of methods, materials, processes, and procedures that control weld quality. Typical questions and answers (dash) are as follows:

1. A 1/4 inch fillet weld has a nominal
   (1) throat dimension of 1/4 inch.
— (2) leg dimension of 1/4 inch.
   (3) area of 1/4 sq. inches.
   (4) volume of 1/4 cu. inches.
   (5) None of the above

2. Stress raisers in a weld are caused by
   (1) low impact strength of the weld metal.
   (2) low yield strength of the heat affected zone.
— (3) undercuts, incomplete penetration.
   (4) a smooth butt joint.
   (5) All of the above.

3. When using magnetic particle inspection, the nearer a discontinuity is to the surface,
   (1) the more diffuse becomes the powder pattern.
   (2) the less serious it is as a source of fatigue failure.
— (3) the more distinct becomes the powder pattern.
   (4) the less sharp becomes the flux leakage field.
   (5) None of these

4. Ultrasonic waves cannot be coupled to the test object effectively,
   (1) through a film of oil.
— (2) through a film of air.
   (3) through a layer of water.
   (4) through a layer of grease.
   (5) All of the above.

5. Inclusions in a weld will appear on a radiograph as
   (1) a dark spot.
   (2) a light spot.
   (3) a generalized gray area of varying contrast.
— (4) either a dark or light spot or area depending on the relative absorption ratio of the part material and the inclusion material.
   (5) None of the above

6. When oxy-fuel cutting is used, the inspector is most concerned for which of the following?
   (1) Travel speed too fast
   (2) Clean cutting tip
   (3) Kerf too wide
   — (4) Surface roughness of cut
   (5) None of these

7. The quality of a stud weld is best determined by
   (1) seeing if it is square.
   (2) checking for even fillet all around.
   — (3) hitting it to see if it will break or bend.
   (4) radiographic inspection.
   (5) None of these

8. A weld symbol referring to the arrow side of a joint appears
   (1) Above the reference line.
   — (2) Below the reference line.
   (3) At the end of the reference line.
   (4) On the arrow.
   (5) None of the above

9. Toughness may be defined briefly as the ability of a metal to
   (1) be hardened by heat treatment.
   (2) be easily deformed.
   — (3) absorb mechanical energy.
   (4) absorb heat energy.
   (5) None of the above

10. Steel has the best welding characteristics if the carbon content is
   — (1) 5 to 20 points.
   (2) 20 to 35 points.
   (3) 35 to 50 points.
   (4) 50 to 120 points.
   (5) 120 to 150 points.

Closed Book Practical Application Test

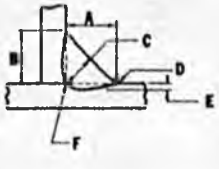
The practical application test covers topics which are more frequently encountered on the job. Its purpose is to measure your ability to make basic calculations and conversions; interpret test results, symbols, drawings, and procedures; and identify tools and processes.

Typical questions and answers (dash) are as follows:

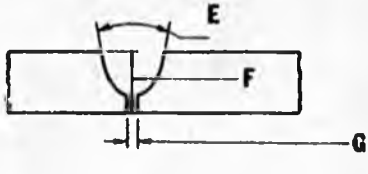
Property	U.S. customary units	SI units	
	To convert from	to	multiply by
tensile strength	pounds per square inch (psi)	pascal (Pa)	6894.757

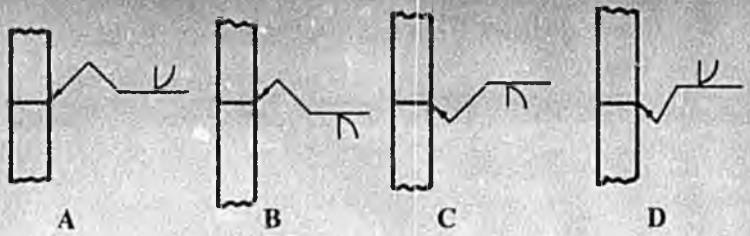
1. Using the above data, 60,000 psi is equivalent to which of the following?
   — (1) 413,685 kPa
   (2) 8,700 kPa
   (3) 41,360 kPa
   (4) 87,000 kPa
   (5) none of the above

2. For the fillet weld at right, F indicates the
   (1) leg
   (2) throat
   (3) face
   (4) toe
   — (5) root of weld



3. For the butt joint at right, F indicates the
   (1) shoulder
   (2) included angle
   — (3) effective throat
   (4) root opening
   (5) none of the above





4. Which of the welding symbols above correctly represents the welded joint shown below?
(1) A (2) B --(3) C (4) D (5) none of these

Film B

5. Film B shows evidence of
(1) slag inclusions
(2) porosity
— (3) tungsten inclusions
(4) undercut
(5) none of the above

AWS QC1-79

Standard for Qualification and Certification of Welding Inspectors

Introduction

Although the methods and extent may vary, the primary purpose of weld inspection remains the same: to determine that the manufacturer's work meets the criteria of a specification. Preferably part of a written specification, these criteria usually contain references to an appropriate code or standard and detailed drawings that outline specific and general requirements of the work. In order to interpret the limitations and intent of these requirements, the Welding Inspector must be thoroughly familiar with the welding processes, welding procedures, welder qualifications, materials, and the limitations of weld testing along with the capability to read drawings, keep records, make reports and responsible judgments. Effective weld inspection makes use of such procedures and personnel, and is performed in a manner that is consistent with the specification requirements and the technical and ethical principles involved.

1. Application and Scope

1.1 This standard describes the Welding Inspector's basic technical functions, the requirements by which welding personnel may become qualified, and the principles of conduct and practice by which certification can be maintained. Certification applies to qualified personnel who inspect weldments.

1.2 This standard is intended to supplement any requirements of an employer, code, standard, or specification and shall not be construed as a preemption of the employer's responsibility for the work or for the performance of such work.

2. Definitions

2.1 Terms used in this document are defined as follows:

2.1.1 certificate. The document issued the applicant upon successful examination.

2.1.2 certification. Written testimony of qualification.

2.1.3 Committee. The AWS Qualification and Certification Committee.

2.1.4 Certified Welding Inspector. A person who has been qualified and certified to the requirements of this standard.

2.1.5 Qualification. Satisfactory compliance with the qualification requirements of this standard.

2.1.6 work. That portion of the product or weldment that specifically involves or affects the use of welding.

2.1.7 weldment. A welded assembly in which the bulk of the component parts are prepared and joined by any combination of the cutting and welding processes covered by 4.1.4.

2.2 Terms not defined herein shall be in accordance with the latest edition of AWS A3.0 Terms and Definitions.

3. Function

3.1 Primary

3.1.1 The Welding Inspector verifies that the work which he or she inspects conforms to the requirements of the applicable codes, standards and job specifications.

3.2 Detail

3.2.1 Inspection of Materials. The Welding Inspector verifies that the base materials and consumable welding materials conform to the specification requirements and that the specified welding filler metals are used on each base metal or combination of base metals.

3.2.2 Inspection of Welding Equipment. The Welding Inspector verifies that the welding equipment to be used for the work is that which is specified in the welding procedure and has the capability to produce the specified welds.

3.2.3 Inspection of Welding Procedures. The Welding Inspector verifies that the welding procedures are as specified, qualified and available to the welders for reference.

3.2.4 Verification of Welder, Welding Operator, and Tacker Performance Qualifications. The Welding Inspector verifies that the welders, welding operators and tackers have been properly qualified in accordance with the applicable codes and standards, and that their qualification authorizes them to use the welding procedures specified for the work.

3.2.4.1 If there is evidence that the welder's, welding operator's, or tacker's work does not conform to the requirements of the applicable code, standard, or specification, the Welding Inspector may require requalification of the welder, welding operator, or tacker.

3.2.4.2 The Welding Inspector shall require a requalification of a welder, welding operator, or tacker if that person's qualification is not current by the requirements of the applicable codes, standards, or specifications.

3.2.5 Qualification. When qualifying welders, welding operators, and tackers, the Welding Inspector should observe the qualification tests.

3.2.6 Inspection of Work

3.2.6.1 The Welding Inspector verifies that only specified and properly qualified welding procedures are used for the work.

3.2.6.2 The Welding Inspector verifies that the joint preparation and fit-up meets the requirements of the welding procedure, drawings, or contract documents.

3.2.6.3 The Welding Inspector verifies that the specified filler metals are used and that the filler metals are maintained in proper condition for use as specified.

3.2.6.4 The Welding Inspector observes the technique and performance of each welder, welding operator, and tacker.

3.2.6.5 The Welding Inspector examines the work for conformance to the requirements of the applicable codes, standards, specifications and drawings.

3.2.6.6 The Welding Inspector identifies the work he or she inspects with specified marking methods or appropriate records.

3.2.7 Nondestructive Examination

3.2.7.1 The Welding Inspector performs the necessary visual inspections.

3.2.7.2 The Welding Inspector verifies that the required visual and other nondestructive examinations have been performed by qualified personnel in the specified manner. He or she shall review the resulting information to assure that the results are complete.

3.2.7.3 The Welding Inspector may perform nondestructive examinations that are specified, providing he or she is qualified in accordance with the specified requirements.

3.2.7.4 If the Welding Inspector is to perform nondestructive examinations other than visual, and there are no specified qualification requirements, he or she shall be qualified and certified in accordance with the current Recommended Practice No. SNT-TC-1A, Personnel Qualification and Certification for Nondestructive Testing.

3.2.8 Records

3.2.8.1 The Welding Inspector prepares clear and concise reports and should keep necessary records of the welding procedure, the welding procedure qualifications, the welder, welding operator and tacker qualifications, the control of welding materials and the results of inspections and tests.

4. Qualification Requirements

4.1 Each applicant for certification:

4.1.1 Shall be a high school graduate or hold a state or military approved high school equivalency diploma.

4.1.2 Shall have no less than five years experience (except as allowed in 4.1.3 below) in an occupational function that had a close relationship to weldments fabricated to a code, standard, or specification, and directly involved one or more of the following:

4.1.2.1 Preparation of plans and drawings for weldment construction—design.

4.1.2.2 Planning and control of welding materials, welding procedures, and welding operations for weldment fabrication—production.

4.1.2.3 Fabrication and erection of weldments—construction.

4.1.2.4 Detection and measurement of weld discontinuities—inspection.

4.1.2.5 Repair of welds that were determined defective—repair.

4.1.3 May substitute up to two years of post high school education for two years of the five year experience requirement provided the studies are relevant to any of the functions covered by 4.1.2 and approved by the Q & C Committee. Other education and experience* may be substituted for the requirements covered in 4.1.1 or 4.1.2 where it is deemed appropriate by the Q & C Committee. Education will be credited for any one of the following with proper documentation: (1) two years maximum for an Associate or higher degree in engineering technology, engineering, physics, or sciences, (2) two years maximum for two years of courses successfully completed in an engineering or technical school curriculum that can be (or could have been) applied to any degree covered in (1) above, (3) one year maximum for the equivalent of one year of courses successfully completed in a trade or technical school curriculum or college curriculum that can be (or could have been) applied to ANY degree or certificate of completion, (4) one month for each Continuing Education Unit (CEU)** awarded, up to a total of 15 CEU, for completion of courses, seminars, or conferences pertinent to any of the following: weld quality, control and inspection; welding materials; welding processes; welding metallurgy; welding design; nondestructive examination of welds. (Credit for any one course will be limited to 4 CEU.)

4.1.4 Shall be familiar with and understand the fundamentals of the following processes:

shielded metal arc welding	electroslag welding
stud arc welding	oxyfuel gas welding
submerged arc welding	brazing
flux cored arc welding	thermal cutting
gas metal arc welding	mechanical cutting
gas tungsten arc welding	

Note: Cutting processes refer only to those processes that are applied to the fabrication and repair of weldments.

4.1.5 Shall be capable of writing clear and concise reports and maintaining records.

4.1.6 Shall pass an eye examination, with or without corrective lenses, to prove (1) near vision acuity on Jaegar's J1 letters at 12 inches, or equivalent, and (2) far vision acuity of 20/40, or better.

*Three years of relevant teaching experience may be substituted for three years of the five year experience requirement with proper documentation (e.g. photocopied summaries of subjects taught, teaching certificates, and letters of reference). Relevant experience will be considered on the following basis: teaching full time in a trade, area, or technical school, college or university, the occupational skill of welding or subjects related to welding; its application, control, materials, and processes.

**The CEU is a nationally recognized standard unit of measurement. It is awarded for participation in an organized continuing education experience which occurred under capable direction and qualified instruction. One unit, or one CEU, is awarded for every ten contact hours of participation.

4.1.7 Shall pass an open book test (on general code or standard requirements such as fabrication tolerances, preheat requirements, etc.)

4.1.8 Shall pass a closed book test (on fundamental principles of such topics as welding processes, NDT methods, mechanical properties of materials, heat treatment, and duties of the welding inspector).

4.1.9 Shall pass a written practical application test (on welding inspection fundamentals such as interpretation of weld discontinuities, symbols, welding procedures and drawings; and basic on-the-job arithmetic).

5. Certification

5.1 The American Welding Society will issue to each applicant successfully meeting the qualification requirements a certificate stating that the applicant has met the AWS certification requirements. The certificate shall be valid for three years unless revoked by the reasons defined in Section 6.6.1 and the authority of Section 7 of this standard.

6. Code of Ethics

Preamble. In order to safeguard the public's health and well-being and to maintain integrity and high standards of skills, practice, and conduct in the occupation of welding inspection, the AWS Certified Welding Inspector shall be cognizant of the following principles and the scope to which they apply with the understanding that any unauthorized practice is subject to the Committee's review and may result in suspension or revocation of certification.

Note: Cutting processes refer only to those processes that are applied to the fabrication and repair of weldments.

4.1.5 Shall be capable of writing clear and concise reports and maintaining records.

4.1.6 Shall pass an eye examination, with or without corrective lenses, to prove (1) near vision acuity on Jaegar's J1 letters at 12 inches, or equivalent, and (2) far vision acuity of 20/40, or better.

*Three years of relevant teaching experience may be substituted for three years of the five year experience requirement with proper documentation (e.g. photocopied summaries of subjects taught, teaching certificates, and letters of reference). Relevant experience will be considered on the following basis: teaching full time in a trade, area, or technical school, college or university, the occupational skill of welding or subjects related to welding; its application, control, materials, and processes.

**The CEU is a nationally recognized standard unit of measurement. It is awarded for participation in an organized continuing education experience which occurred under capable direction and qualified instruction. One unit, or one CEU, is awarded for every ten contact hours of participation.

4.1.7 Shall pass an open book test (on general code or standard requirements such as fabrication tolerances, preheat requirements, etc.)

4.1.8 Shall pass a closed book test (on fundamental principles of such topics as welding processes, NDT methods, mechanical properties of materials, heat treatment, and duties of the welding inspector).

4.1.9 Shall pass a written practical application test (on welding inspection fundamentals such as interpretation of weld discontinuities, symbols, welding procedures and drawings; and basic on-the-job arithmetic).

5. Certification

5.1 The American Welding Society will issue to each applicant successfully meeting the qualification requirements a certificate stating that the applicant has met the AWS certification requirements. The certificate shall be valid for three years unless revoked by the reasons defined in Section 6.6.1 and the authority of Section 7 of this standard.

6. Code of Ethics

Preamble. In order to safeguard the public's health and well-being and to maintain integrity and high standards of skills, practice, and conduct in the occupation of welding inspection, the AWS Certified Welding Inspector shall be cognizant of the following principles and the scope to which they apply with the understanding that any unauthorized practice is subject to the Committee's review and may result in suspension or revocation of certification.

6.1 Integrity. The Welding Inspector is obligated to act with complete integrity in professional matters and to be forthright and candid to the Committee or its representative on matters pertaining to this standard.

6.2 Responsibility to the Public. The Welding Inspector is obligated to preserve the health and well-being of the public by performing the duties required of weld inspection in a conscientious and impartial manner to the full extent of his or her moral and civic responsibilities and qualifications. Accordingly, the Welding Inspector shall:

6.2.1 Undertake and perform assignments only when qualified by training, experience, and capability.

6.2.2 Be completely objective, thorough, and factual in any written report, statement, or testimony of the work and include all relevant or pertinent information in such communiques or testimonials.

6.2.3 Sign only for work that he or she has inspected, or for work over which he or she has personal knowledge through direct technical control.

6.2.4 Neither associate with nor knowingly participate in a fraudulent or dishonest venture.

6.3 Public Statements

6.3.1 The Welding Inspector will issue no statements, criticisms or arguments on weld inspection matters connected with public policy which are inspired or paid for by an interested party, or parties, without first identifying the party, the speaker, and disclosing any possible pecuniary interest.

6.3.2 The Welding Inspector will publicly express no opinion on a weld inspection subject unless it is founded upon adequate knowledge of the facts in issue, upon a background of technical competence pertinent to the subject, and upon honest conviction of the accuracy and propriety of the statement.

6.4 Conflict of Interest

6.4.1 The Welding Inspector shall conscientiously avoid conflict of interest with the employer or client and will disclose any business association, interests, or circumstances that might be so considered.

6.4.2 The Welding Inspector shall not accept compensation, financial or otherwise, from more than one party for services on the same project, or for services pertaining to the same project, unless the circumstances are fully disclosed and agreed to by all interested parties or their authorized agents.

6.4.3 The Welding Inspector shall not solicit or accept gratuities, directly or indirectly, from any party, or parties, dealing with the client or employer in connection with the Welding Inspector's work.

6.4.4 The Welding Inspector shall neither inspect, review, nor approve any work on behalf of another party, or parties, while serving in the capacity of an elected, retained, or employed public official.

6.5 Solicitation of Employment

6.5.1 The Welding Inspector shall neither pay, solicit, nor offer, directly or indirectly, any bribe or commission for professional employment with the exception of the usual commission required from licensed employment agencies.

6.5.2 The Welding Inspector shall neither falsify, exaggerate, nor indulge in the misrepresentation of personal academic and professional qualifications, past assignments, accomplishments, and responsibilities, or those of his or her associates.

6.6 Unauthorized Practice

6.6.1 Any violation of any required standard of conduct prescribed by this Standard if related to a welding inspector's occupation, including any violation of the Code of Ethics contained in the Standard, shall constitute an unauthorized practice subject to the imposition of sanctions.

7. Revocation

7.1 The Committee shall have the power to suspend, refuse renewal, or revoke the Welding Inspector's certification, and the power to place on probation or to reprimand holder, if he or she is found guilty of an unauthorized practice in a proceeding conducted in accordance with the Administrative Procedures Manual which the Committee has adopted for the purpose of handling and disposing of complaints.

7.2 The Committee may apply to any court of competent jurisdiction for an enforcement of its administrative decisions and rulings.

8. Reinstatement

8.1 Reinstatement of a revoked certification will be allowed with no penalty or prejudice to the individual, provided the reason for such revocation has been rectified to the Committee's satisfaction.

9. Recertification

9.1 The Welding Inspector shall be recertified upon payment of the current recertification fee and successful reexamination every three years with the following exception.

> Renewal applicants who show proof of periodic or full-time activity in one of the occupational areas specified in 4.1.2 during two of the last three years and who recomply with Section 4.1.6 shall be recertified upon payment of the current recertification fee without reexamination.

9.2 Application for renewal of a certification that has expired will be considered a new application.

9.3 The Welding Inspector shall maintain a current address with the AWS Qualification & Certification Department for the mailing of correspondence relative to his or her application, examination, certification/recertification.

PURPOSE AND SCOPE OF THE REVIEW

Purpose

In accordance with the intent of Alaska Statutes 24.20.271(1) and 44.66.050 (sunset legislation), a review of the Board of Welding Examiners was conducted to review Board activities and accomplishments to determine if the Board has been operating in an effective, efficient and economical manner.

As required by legislative intent, this report shall be considered during the legislative oversight function in determining whether the Board will be reestablished. The law currently specifies that this Board will terminate on June 30, 1980, but will continue until June 30, 1981 for the purpose of concluding its affairs.

Scope

The major areas reviewed were the Board's operations and its licensing, examination, administration, complaint and affirmative action functions. Our review consisted of analyzing and evaluating the following:

(1) Applicable statutes and Board regulations;

(2) discussions with the Board and questionnaires sent to Board members;

(3) tests of records and documents of the Board and the Division of Occupational Licensing (OL), Department of Commerce and Economic Development, for the years 1976-1978;

(4) interviews with OL employees;

(5) complaints filed with OL, the Ombudsman's Office, Consumer Affairs Agency and the Human Rights Commission during the period 1976-1978;

(6) questionnaires sent to State licensed welding inspectors; and

(7) interviews with personnel and review of publications of the American Welding Society (AWS).

Scope Constraints

This review was hampered by the following constraints:

(1) The Board has not established and reported financial and program plans as required by AS 37.07.050 nor has it developed and reported

performance information regarding its effectiveness and accomplishments as required by AS 37.07 .090 and AS 08.99.080(a)(8).

(2) OL has not adequately collected, recorded and maintained pertinent files and statistics relating to the Board to effectively and efficiently carry out its administrative responsibilities.

ORGANIZATION AND FUNCTION

The Board of Welding Examiners was established by the 1968 Session Laws of Alaska. It is organized under the Department of Commerce and Economic Development, which provides administrative and investigative support through the Division of Occupational Licensing.

The Board consists of seven members with extensive experience in welding who are appointed by the Governor for staggered five year terms. At least three members must be engineers, i.e., with engineering degrees or registration as an engineer and at least five years engineering experience.

The functions of the Board are addressed in AS 08.99. Among the powers and duties cited, the statute directs the Board to: promulgate rules and regulations regarding the certification of welders; examine, certify and renew certification; define tests and certification methods; report annually to the Legislature and Governor.

REPORT CONCLUSION

Policy Issues

This review contains policy issues raised as a result of our evaluation of various Board practices. The final policy decisions affecting these practices are not within the scope of this review but require legislative consideration. In debating these issues, the legislative oversight committees should consider the findings and alternatives presented in this report in reaching their decisions.

Report Conclusion

In our opinion, there is not a sufficient public need for continuing either the Board or State licensing of welding personnel.

Most consumers (e.g. engineers, construction and pipeline companies) of welding services possess adequate knowledge to properly evaluate the qualifications of those offering the service. To assist in identifying qualifications, the American Welding Society administers a certification program for welding inspectors, the only classification of welding personnel being licensed by the State. If it is determined that State regulation of welding is desirable, less restrictive alternatives--such as statutory requirements for welder, qualification certificates--are viable (see Recommendation No. 1).

In the event that the Board is reestablished by the Legislature, certain changes should be implemented in order for the Board to more effectively serve the public.

The Board should thoroughly review applications before licenses are issued (see Recommendation No. 2).

To better represent the public and the industry, statutory requirements for membership on the Board should be expedited (see Recommendation No. 3).

Statutes governing the Board should be reviewed and amended to clarify duties, enforcement responsibility, and the applicability of administrative adjudication procedures (see Recommendation No. 4).

Additional revision of Board regulations is needed to make them clear, reasonable and within the scope of the Board's purpose (see Recommendation No. 5).

The Board should develop formal objectives and report performance as required by AS 37.07.050 and AS 08.99.080 (see Recommendation No. 6).

FINDINGS AND RECOMMENDATIONS

Findings and Recommendations No. 1 through No. 6 are addressed to the Board of Welding Examiners, with Recommendation No. 3 also being addressed to the Office of the Governor.

Recommendation No. 1

We recommend that the Board of Welding Examiners be allowed to terminate June 30, 1980 and that State licensing of welding personnel be discontinued.

Under regulations which became effective in August, 1978, the Board of Welding Examiners is licensing "welding inspectors" (WI). Among the functions of the WI are testing weldments and issuing welder qualification certificates. Such certificates are required under the regulations for welders performing operations in which weldment failure would be hazardous to life or property.

Requirements for WI licensure are based on the American Welding Society (AWS) program for certification of WI's. The written examination required for licensure is administered by AWS. In addition to other requirements for AWS certification, an applicant for State WI licensure must have passed a welder qualification test, demonstrating practical skills.

In determining whether there is a continued public need for the Board of Welding Examiners, several factors should be considered.

The primary goal of regulating occupations is to protect the public. Licensing is desirable when:

1. The unlicensed practice of an occupation poses a serious risk to the life, safety, health or economic well-being of a relatively large number of consumers;

2. the consumers of a service are at a disadvantage in evaluating the qualifications of a provider; and

3. there is evidence of abuse, by providers of the service, to which the consumer has inadequate recourse through the general law.

Because of its relationship to the integrity of a structure, inferior welding has the potential of resulting in physical, economic or environmental harm. However, we believe the potential has a public impact only in cases of large-scale projects, such as public structures, commercial buildings, or ventures like the pipeline.

evidence of the required visual examination. Consequently, none of the licenses renewed in 1979 documented that this requirement had been met.

2. At the direction of the Board, the licensing examiner was issuing licenses to applicants prior to a review of qualifications by the Board. In August, 1978, the Board began licensing "welding inspectors" and discontinued licensing "weld qualifiers". The change produced a certain degree of confusion on the part of the licensees, as well as the examiner, regarding the qualifications for licensure. As a result, licenses were issued to 4 (out of 48 tested) applicants who did not submit adequate proof of meeting the qualifications of a welding inspector.

AS 08.01.070(6) requires licensing boards to pass on the qualifications of applicants for licensure. As evidenced by the above described findings, current review procedures are not effective. As a result, the public is not being protected from unqualified practitioners, which is the primary objective of occupational licensing. We therefore recommend that no license be issued until the Board has thoroughly reviewed the qualifications of an applicant and has determined that all requirements for licensure or renewal have been met.

Recommendation No. 3

To ensure adequate representation of the regulated occupation and the general public: (a) the composition, terms and sources of nomination for Board membership should be reviewed and amended; (b) the Office of the Governor should make appointments in compliance with statutory requirements and in a timely manner.

As provided in AS 08.99.010-.050, the Board of Welding Examiners consists of seven members with extensive welding experience, three of whom must be engineers. Members are appointed by the Governor for staggered five year terms from nominations submitted by the Alaska Chapter of the American Welding Society and the Alaska Society of Professional Engineers.

Board Composition and Nominations

Over 20% of the licensed Welding Inspectors, as well as one in five Board members, responding to Legislative Audit questionnaires felt that the statutory requirements do not ensure adequate representation of the occupation. Their comments included opinions that the present Board consists of too many persons involved with test labs and that more than one member from the same firm should not serve concurrently. It was suggested that the Board should represent the various areas of the occupation: engineers, test labs, construction, fabrication and petrochemicals.

Persons responsible for the construction of such projects, who are actually the "consumers" of welding services, can be expected to have the experience and knowledge needed to evaluate the qualifications of welding personnel. This is especially true now that the AWS certified WI program provides a means of identifying qualified inspectors. Furthermore, the AWS program includes a code of ethics and procedures for handling consumer complaints.

It should be noted that if an interstate gas pipeline is built, construction activities would be under the jurisdiction of the Federal Power Commission. The Board's authority to impose welding regulations over such a pipeline is doubtful.

Also noteworthy is: (a) AWS's lack of support for State licensure of welding personnel, and (b) that only one other state to date requires licensing of WI's.

We found no evidence that State licensing of WI's affords significant additional protection to consumers. Furthermore, of the few complaints filed with State agencies against the welding occupation, only one alleged inferior welding practices, the remainder concerned unlicensed practice of the occupation or problems encountered in obtaining a license.

If, as a result of the "sunset" process, the Legislature determines that regulation of welding is needed, less restrictive alternatives are, in our opinion, viable. Welder qualification certificates can be required by statute and, if desired, the AWS certification program for WI's could be adopted by reference.

While we recognize the time and effort contributed by Board members, we do not believe that a sufficient public need exists for continuing the present licensing and regulatory structure.

However, in the event that the Board is reestablished, we recommend the following changes be made in its operation.

Recommendation No. 2

The Board should assume a more active role in the licensing process.

During our test of licensing files we noted the following:

1. Application forms do not request all the information necessary to determine if requirements for licensure have been met. There is no provision for documenting qualifications for initial licensure (as defined in 12 AAC 72.065(a) 1-8), except through the submission of AWS QC-1 certificate. Applicants for renewal are not asked to provide

Furthermore, it was expressed that nominations should be accepted from the entire industry rather than two societies to which many qualified, interested persons are not known.

In addition to statute changes in Board membership suggested by licensees, in our opinion the Board should include at least one lay member, who has no direct financial interest in the regulated occupation. Although lay members lack technical expertise, they can and should contribute to policy formulation and enforcement decisions. The importance of a representative of the primary interest group, the public, should definitely be addressed.

Terms of Board members

Responses to licensee questionnaries also pointed to a significant opinion that Board member terms should be: (1) shorter (54% of those responding) and, (2) limited to no more than two consecutive terms (80% of those responding). The reason most frequently expressed was to create a more responsive, active Board.

Size of the Board

In addition, we believe that the Board is unnecessarily large when compared with other State boards and considering it currently licenses only 50 persons. We recommend a reduction in size to five members to increase operating efficiency and coordination with the Divison of Occupational Licensing (OL), and to reduce associated travel costs.

Appointments

Our examination of records in the Office of the Governor and the Division of Occupational Licensing (OL) showed that since 1973 the Board has had between 3 and 8 properly appointed members at a given time. In fact, it met the requirement for seven members for only nine months during the period reviewed. Of the "current" board, we finally determined--after receiving much conflicting information -- that three terms expired in December, 1978. In addition, only two of the seven members of the most recent board are engineers, as defined in the statutes.

In conclusion, we recommend that the Board seek changes in the statutes which will result in improved representation and efficiency of operation. Furthermore, as recommended in our October 30, 1978 performance review of OL, we urge the Office of the Governor to make more timely appointments to the occupational boards to ensure compliance with statutory requirements.

Recommendation No. 4

The Board should propose revisions to the statutes in order to clarify: (a) the intended powers and duties of the Board; (b) how welding regulations are to be enforced; and (c) the applicability of administrative adjudication procedures.

A. Authority for the Board of Welding Examiners is found in AS 08.99, which was last amended in 1970. Since that time, changes in Board membership, activities and regulations have occurred. As a result, several subsections of AS 08.99.080(a) no longer pertain to operations of the Board.

1. § 6 requires the Board to approve fees for welder certification tests. The Board no longer engages in this activity. However, this section was cited as the authority for charging fees for licensing welding inspectors.

2. § 10 states that the Board shall approve test facilities. The revised regulations omit this activity and instead address licensing of welding inspectors.

3. § 9 requires the Board to designate reporting procedures necessary to certify compliance with quality standards. No reporting methods are addressed in the regulations.

B. Statutes provide for the enforcement of welding regulations by both the Department of Labor (AS 08.99.080(b)) and the Department of Commerce and Economic Development (AS 08.01.087). The dual assignment of enforcement responsibility has resulted in confusion. The assignment of investigative duties needs clarification so that regulations are adequately enforced and consumer complaints are properly handled.

C. Although AS 08.01.090 states that the Administrative Procedures Act (AS 44.62) applies to proceedings held under the Centralized Licensing Chapter, the Board of Welding Examiners is excluded from a listing of agencies to which administrative adjudication procedures apply (AS 44.62.330). As a result of the omission, the applicability of the adjudication procedures is in doubt. The Board should be included in the listing in AS 44.62.330 through an amendment to the statutes.

Recommendation No. 5

The Board should continue its efforts in revising administrative regulations.

One of the primary activities of the Board over the past several years was the substantial revision of 12 AAC 72, the administrative regulations governing the occupation of welding in Alaska. The changes became effective August 21, 1978.

In the course of our review we noted several areas of 12 AAC 72 which merit further consideration, and possibly amendment.

1. Requirements for welder qualification (12 AAC 72.015) and welding inspector licensure (12 AAC 72.055) apply to all compensated welding operations in the State "in which weldment failure would involve hazard to life or property". The applicability of the regulations needs clarification to simplify interpretation and to make their enforcement manageable.

2. 12 AAC 72.045 requires "continuous employment" on a process (without interruption of more than 90 consecutive days) as a condition of maintaining a current welder qualification certificate. We believe this is unduly restrictive because:

   a. The regulations also require that a certificate be current under the code or job specifications under which it was issued.

   b. A welder qualified in several processes may be assigned by his employer to only one process for several months. Before he could be assigned to another process, additional time and expense would be requried for re-testing.

   c. The limited construction season in Alaska causes many welders to be without work for more than 90 day periods.

3. 12 AAC 72.105 requires an annual renewal of welding inspector licenses. This conflicts with AS 08.01.100 which requres biennial renewal of occupational licenses. It also creates additional administrative effort for both the Division of Occupational Licensing and the licensee, with no demonstrable benefit to the public.

4. 12 AAC 72.085 provides for quarterly examinations for welding inspector license. The provision,

which exceeds the regular semi-annual administration of the exam by the American Welding Society (AWS), was included to give sufficient opportunity to become licensed under the revised regulations. While we concur with the Board's reasoning, we feel they should review this policy in light of increased costs and the relatively small number (an average of 9) who take the exam each quarter.

In reviewing questionnaire responses from licensed WI's, we noted concern regarding the interpretation, acceptance and enforceability of the regulations. Doubts concerning the enforceability were likewise expressed by Board members who responded to a separate questionnaire: three believed they could not be enforced, expecially among small operators; two said they could be enforced if State funding for investigation was adequate.

We believe that the cited opinions of members of the occupation support our contention that additional revisions to the regulations are needed to make them clear, reasonable and within the scope of the Board's purpose.

Recommendation No. 6

With the assistance of the Division of Occupational Licensing (OL), the Board should develop procedures for defining its objectives and reporting its performance to the Governor and the Legislature.

As part of the "sunset" process of determining whether there is a continued public need for its existence, each Board must identify formal objectives. Where practical, these objectives should be quantifiable so that the Board's performance can be measured.

The budget process is the vehicle by which State agencies usually identify goals and objectives. While OL prep res such documents on a division-wide basis, objectives and measurements have not been developed for individual boards (see our October 30, 1978 performance review of (OL).

Furthermore, although required by AS 08.99.080(a)(8), the Board has not been submitting annual reports to the Governor and the Legislature. We recommend such reports be prepared and contain, at a minimum, the following information:

1. Board's purpose and objectives;

2. operating receipts and expenditues;

3. participation by Board members;

4. changes in statutes and regulations; and

5. significant activities and concerns.

The process of identifying objectives and reporting performance not only allows outside parties to evaluate the need for the Board, it also provides an important tool for the Board to evaluate itself and adjust its priorities for the most effecitve use of its resources.

ANALYSIS OF PUBLIC NEED

Limited Analysis

The following analysis of Board activities relates to the public need factors defined in the "sunset" law. This analysis is not intended to be all inclusive, but addresses those areas we were able to cover within the scope of our review.

I. The extent to which the board, commission or program has operated in the public interest.

A. The Board revised its regulations (effective August, 1978), incorporating a nationally recognized program for certifying welding inspectors. However, we found that the regulations: (1) duplicate efforts of the national organization; (2) are vague with regard to applicability; (3) difficult to enforce (see Recommendatons No. 1 and No. 5).

II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

A. Due to statutory membership requirements and appointment delays, neither the public nor the occupation is assured of adequate representation on the Board (see Recommendaton No. 3).

B. The responsibility for enforcement of Board regulations is not clearly defined (see Recommendation No. 4).

C. The Board has not developed written plans or reported achievements by which to evaluate its performance (see Recommendation No. 6).

D. The Division of Occupational Licensing (OL) has not maintained updated statistics for Board use (see the OL Performance Audit Report).

III. The extent to which the board, commission or agency has recommended statutory changes which are generally of benefit to the public interest.

A. Statutes governing the Board have not been revised since 1970. We noted several sections which have become obsolete, yet the Board has not proposed any changes (see Recommendation No. 4).

IV. The extent to which the board, commission or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, and availability of service which it has provided.

A. We found no documentation of Board efforts to encourage input on the effect of its regulations and decisions, except as noted in V below.

V. The extent to which the board, commission or agency has encouraged public participation in the making of its regulations and decisions.

A. In accordance with the Administrative Procedures Act, the Board solicited written and oral testimony from persons interested in its proposed regulation revisions.

B. Board meetings are held four times per year and are announced in Anchorage, Fairbanks, Juneau and Ketchikan newspapers. However, they are not advertised in a timely manner (see the OL Performance Audit Report).

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of the ombudsman have been processed and resolved.

A. No formal complaints concerning Board activities have been filed with OL.

B. Of the two complaints filed with the Ombudsman during the last three years, both were closed and considered rectified.

VII. The extent to which a board or commission which regulates entry into an occupation or profession has presented qualified applicants to serve the public.

A. The Board has not adequately reviewed applications for licensure. As a result licenses were issued to several persons whose qualifications were not adequately documented (see Recommendation No. 2).

B. Few complaints have been received against members of the regulated occupation. All but one dealt with unlicensed (rather than unethical or substandard) practice.

VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission or agency to its own activities and the area of activity or interest.

A. We found no complaints or other evidence to indicate discriminatory practices by the Board. However, application forms request information on age. The question is of a potentially discriminatory nature and should be eliminated unless it is based on a bona fide occupational qualification.

IX. The extent to which statutory, regulatory, budgeting or other changes are necessary to enable the agency, board or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

A. Please refer to the previous section, Findings and Recommendations.

APPENDIXES

APPENDIX A

BOARD OF WELDING EXAMINERS
REVENUES COMPARED WITH EXPENDITURES
Fiscal Year 1978
(UNAUDITED)

Revenue (See Note 1)	$ -0-
Expenditures (See Note 2)	(11,289)
Excess of Expenditures Over Revenues	$(11,289)

Note 1

Prior to the revision of its regulations in August, 1978, the Board did not assess any fees for licensure. Examination fees are remitted directly to the American Welding Society which administers the examination. Therefore no revenue was reported for the Board prior to the Fiscal Year 1979.

Note 2

Expenditures include those made by Board members, such as travel and per diem and an allocated percentage (estimated) of total administrative expenses of OL. They do not include expenditures for efforts of other departments, such as the Department of Law, that may be assisting the Board and OL.

APPENDIX B

ADMINISTRATIVE STATISTICS

Licensed Welding Inspectors as of 3/12/79 (see Note 1)	Number	As % of Total
Alaska residence	27	55%
Out-of-state residence	22	45%

Board Meetings in Calendar Years 1976-1978	
Average Number of Meetings per calendar year (see Note 3)	4.7 meetings
Average Number of Board members per meeting	4.6 members

Note 1

We were unable to determine, from information on file with OL, the legal residence of licensees. The above figures reflect mailing addresses.

Note 2

Numbers of individuals taking examinations were provided by the American Welding Society.

Note 3

At its January 27, 1978 meeting, the Board adopted a policy to hold meetings four times per year, on Fridays preceeding examinations. All meetings have been held in Anchorage.

APPENDIX C

QUESTIONNAIRE SENT TO BOARD MEMBERS

1. What are the goals and objectives of the Board?

Description	*Number of Board Members' Responses (See Notes 1 and 2)*
Decrease hazards to public/environment by improving the quality of welded products.	*3*
Improve quality of welded products.	*1*
Should be quality control, but currenily involves self-protective business interests.	*1*

2. What are the past accomplishments and future plans of the Board for meeting its goals?

Description	*Number of Board Members' Responses*
Past accomplishments:	
Revised regulations to license welding inspectors, thereby improving welding in general.	*4*
Economic self-interest.	*1*
Future plans:	
Maintain quality of criteria.	*2*
Give technical advice to State departments.	*1*
Should support Bureau concept; too much ill will towards present Board.	*1*
Continue pre-joint activity.	*1*

3. In what ways would the absence of regulation of welding in Alaska be detrimental to the public interest?

Description	Number of Board Members' Responses
Quality of component inspection and welder certification would suffer; non-code work would increase to detriment of the public.	3
Not detrimental; profesisonal societies have certification programs; private industry monitors itself.	1
Left unmonitored, quality would be circumvented to increase profits.	2
Higher cost because weldment failure is more expensive after a product is operating.	1

4. What alternatives to Board regulation of welding exist? Are the alternatives viable? Why?

Description	Number of Board Members' Responses
Bureau such as introduced by SB121; not viable; too expensive, bureaucratic.	1
Require extensive insurance coverage, relying on insurance companies to enforce standards; too expensive.	1
Eliminate Board; let industry police itself:	
Viable.	1
Not viable; not effective in past; only some large companies have developed quality control programs.	2
Utilize procedures other than welding; not practical.	1

5. Are existing statutes (AS 08.01 and AS 08.99) obsolete, vague, unduly restrictive, and/or inadequate to provide the Board with the authority to meet its objectives? What changes would you suggest?

Description	*Number of Board Members' Responses*
Adequate; no changes suggested.	2
Inadequate; need Bureau to perform physical function.	1
Somewhat vague, restrictive; Board's authority is doubtful but interest in welding has increased.	1
Obsolete; should address licensing of inspectors rather than welders, test facilities and code writing.	1

6. Are the recently amended regulations:

	Number of Board Members' Responses
A. too restricitve; too lenient?	
No; satisfactory.	4
Yes.	1
B. easily interpreted?	
Yes.	4
No.	1
C. enforceable?	
No, especially among small operators	3
Yes, if State adequately funds investigations.	2
D. accepted by those being regulated?	
Yes.	2
Partially or generally.	2
Voluntary compliance.	1

7. What procedures are followed in the event a complaint against the Board or a licensee is received?

Description	Number of Board Members' Responses
Forward to OL for investigation; Board can act in advisory capacity.	1
Investigation; possible revocation of license.	1
No complaints reveived as yet against licensee.	2
Forward to Department of Labor to investigate.	1

8. In what ways, if any, could the Department of Commerce and Economic Development improve its service to the Board in the areas of administrative support and enforcement?

Description	Number of Board Members' Responses
No need for improvement.	2
OL does not understand Board function well enough to enforce.	1
Administrative support is excellent; Department of Labor is responsible for enforcement.	1
Need more funding for inspectors and to advertise regulations.	1

9. Should continuing education or re-examination be required for licensees? Why or why not?

Description	Number of Board Members' Responses
American Welding Society requires re-examination if licensee does not remain active in inspection. This requirement is sufficient for now.	5

10. Other comments to assist us in evaluating the need for the Board and its performance:

Description	*Number of Board Members' Responses*
Regulations are workable for large companies; small operators can not afford licensed inspector.	*1*
Create Bureau to perform Board's physical function; need internal regulations to prevent several Board members from one business from serving concurrently.	*1*
Board has been active in revising regulations; now responsible for maintaining standards.	*1*
Need additional funding for enforcement; should publicize regulations.	*1*

Note 1

Questionnaires were mailed to seven Board members. Replies were received from five.

Note 2

Because certain questions received several answers from Board members, total numbers of replies may exceed the number of Board members who responded.

APPENDIX D

QUESTIONNAIRE SENT TO LICENSED WELDING INSPECTORS

The following questions were sent to licensed welding inspectors (see Note 1). For each question we have noted the number of responses. We have also indicated the most typical written comments following each question as compiled from the questionnaire (see Note 2).

			Number of Licensees Responding		
			Yes	No	No Opinion
1.	(a)	Is certification of welding inspectors necessary to protect the public's health, safety and welfare?	35	2	0

Comments:

Yes--Quality of product is controlled establishing minimum qualifications for welding inspectors.

If inspections were not required, some contractors would use cheaper, unqualified welders.

No---Licensing does not ensure adequate protection;

Should not be limited to AWS-certified inspectors.

(b) If your reply to "a" was yes, which of the following methods of certification would be best:

	check one:
i. license issued by the Board	14
ii. license issued by the State	6
iii. only AWS certification	12
iv. other:	4

1. (Cont'd)

Comments:

Board - is better judge of qualifications due to knowledge of, and experience in welding; is flexible; can exercise closer control.

State - less likely to be prejudiced.

AWS - has expertise, good program; usable in all states; more efficient.

Other - Employer training program results in known abilty.

	Number of Licensees Responding		
	Yes	No	No Opinion
2. Are current requirements for obtaining a welding inspector license (education, experience, written and practical tests) fair and reasonable measures of technical knowledge and ability?	32	5	0

Comments:

Yes--Exam is fair test of knowledge; practical skill is necessary.

No---Qualification as welder is not necessary to inspect; need more specific practical experience; no proof of employment.

3.	Has the Board given sufficient notice to the public and/or the profession regarding:			
	a. exams?	26	5	6
	b. meetings?	20	10	7
	c. proposed regulation changes?	18	12	7

Comments:

Yes--the small number of licensees allows for adequate communication with Board
No---many are unaware of Board's existence; newspaper notices are not effective.

		Number of Licensees Responding		
		Yes	No	No Opinion
4.	Are the recently amended regulations of the Board (12 AAC 72):			
	a. too restrictive?	2	23	12
	b. too lenient?	3	20	14
	c. enforceable?	19	8	10
	d. easily interpreted?	23	3	11
	e. accepted by industry?	15	10	12

Comments:

Board not needed since firms must comply with codes.

Regulations are not being observed, especially by small contractors; are not enforceable.

Regulations are too general; need to clarify applicability.

Inadequate publicity on regulations; needed to protect public; industry more interested in profit than quality.

5.	In what ways can the Board assure the public of continued proficiency of licensed welding inspectors:			
	a. evidence of continued employment in the field?	33	1	3
	b. periodic re-examination of practical skills?	9	16	12
	c. periodic written re-examination?	3	20	14
	d. continuing education?	18	8	11
	e. Other?	6		31

		Number of Licensees Responding		
		Yes	No	No Opinion
5.	(Cont'd.)			
	Comments:			
	Re-examination is necessary only if there is a sustained absence from inspection.			
	Other ways include eye exams, inspection for compliance, maintenance of AWS certificate.			
6.	Are you aware of any discriminatory practices by the Board with regard to an individual's race, religion, color, national origin, age or sex?	1	35	1
7.	Do you feel the support provided by the Department of Commerce and Economic Development, Division of Occupational Licensing, has been adequate:			
	a. in the area of administrative services?	26	5	6
	b. in investigating complaints?	10	8	19
	Comments:			
	Not enough knowledge of welding.			
	Need funding for Department of Labor to enforce.			
	Not aware of support or complaints.			
	Need to inform affected parties.			
8.	By statute, the Board of Welding Examiners consists of seven members with extensive welding experience, three of whom must be engineers. Members are appointed for five year terms from nominations submitted by the Alaska Chapter of the American Welding Society and Alaska Society of Professional Engineers. Do you believe the Board:			
	a. is too large?	3	25	9
	b. is to small?	1	25	11

	Number of Licensees Responding		
	Yes	No	No Opinion
8. (Cont'd.)			
c. adequately represents the regulated profession?	25	7	5
d. members should have shorter terms?	14	12	11
e. members should serve a limited number of terms?	20	5	12
f. should be served by a public member, not directly involved in welding?	4	25	8

Comments:

Should represent various segments of industry, including active welders; too many on Board represent test labs.

Shorter terms would create a more responsive Board.

No more than one or two terms.

Board is working well under current structure; conscientious.

9. Other comments to assist us in evaluating the public need for the Board and/or its performance:

Comments:

Good regulations but problems in implementation and enforcement.

Dubious need for Board.

Board has improved quality of welding; unqualified people used in past.

Need to consider products fabricated outside of State, safety standards, reports on Board activity.

Reputable company training programs should be accepted in lieu of license.

Note 1

Number of questionnaires sent to licensees	44
Number of responses	37
Response rate	84%

Note 2

Comments were reviewed and considered in the performance of our audit and are briefly summarized in this appendix.

LEGISLATIVE AUDIT

September 28, 1979

Mr. Gerald Wilkerson
Legislative Auditor
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

We have reviewed the enclosed agency response to your preliminary report entitled:

"A Performance Peview of the Board of Welding Examiners - June 8, 1979"

Additionally, we have reviewed and are enclosing copies of responses by the following Board Members:

Donald M. Lockman
Don Delk
Peter A. Millar

We believe the Department of Commerce's response appropriately sets forth the position of the Executive Branch of State government affecting continued existence of the Board. Member responses attached for your information, provide additional insight and reaction to your report recommendation.

Sincerely,

Richard A. Smith

Richard A. Smith
State Internal Auditor

LEGISLATIVE AUDIT

Mr. Gerald Wilkerson, C.P.A.
Division of Legislative Audit
Pouch W
Juneau, Alaska 99811

Dear Mr. Wilkerson:

The following comments are in response to the Performance Review of the Board of Welding Examiners, as submitted by the Division of Legislative Audit.

The department is still evaluating the viability of alternative methods of regulation and reserves the right to make additional findings and conclusions which may affect the continued existence of this board. This information will be presented to the Legislature during sunset hearings.

Thank you for the opportunity to respond to this report and for the time and effort expended by you and your staff.

Sincerely,

Bertram L. Wagnon
Acting Commissioner

RECEIVED
SEP 28 1979
LEGISLATIVE
AUDIT

Dear Ms. Garrett:

In response to the recently received Performance Review of the Board of Welding Examiners submitted by Gerald L. Wilkerson, CPA, Legislative Auditor, Division of Legislative Audit dated August 23, 1979, I submit the following statements.

In reviewing the aforementioned Audit Report, it is quite obvious that the Audit Committee lacks the welding knowledge to fully understand the needs of the public in reference to protection against hazards from poor or inadequate weldments within the State.

In the beginning of the Boards existence, the largest issue was addessed to the licensing of weldors within the State. It was recognized by the Board that a weldor licensing would be a monumental task that would require a tremendous personnel and monetary effort on the State's part. The personnel requiring the expertise in this profession would not be available to the State as persons of this level are sought after by the industry on a continuing basis. Besides the lack of qualified persons available, the funds for such a task was also not available. It was recognized by the Board that qualified people from industry could control the certification of weldors if these qualified people could be responsible by proving their qualifications as Welding Inspectors.

The Board of Welding Examiners then began formulating a program to examine the qualifications of Welding Inspectors, although funds were not available from the State to adequately put a program of this nature together. At this same time, unbeknown to the Board, the American Welding Society had recognized the same need for testing Welding Inspectors and had implemented a testing procedure. The Board then adopted the AWS Testing Program guideline and the licensing of Welding Inspectors was born within the State.

The State licensed Welding Inspector holds a responsibility to the public to certify weldors within the guidelines of the nationally recognized Welding Codes used in Alaska. This responsibility protects the public from gross negligence of improper weldments that could fail, but only to the extent of those weldors actually certified by the Welding Inspectors.

As this method of assurance is still in the infancy stage due to the newness of the application, it is immature to criticize the effectiveness of the program. As more Welding Inspectors are licensed within the State, the greater the public protection will become.

There have been many instances of weld failures of crane booms, trailer hitches, store awnings, fishing boat hulls, school playground equipment, recreational equipment as well as building structures and harbor facilities, all of which are hazardous to the general public. Only trained personnel can recognize a poor or inadequate weldment and determine the abilities of a certifiable weldor.

It has been proven over the years that industry does not generally control the quality of production, evidenced by the need of welding codes to guide the users to implace restrictions of fabricat.on to assure quality. This is also evidenced by the need of societies to indoctrinate testing programs and Alaska to create the Board of Welding Examiners.

The Board has made acknowledgeable strides in creating a regulation that closely fits the needs of public interests, although additional revisions and clarifications of the regulations are clearly recognized by the Board members. These Board members serve without payment for their services, so progress is naturally slower than paid employees would be, although the expertise of these members would be more costly than the State would care to absorb if they would be available for hire. The cost to the State is at a minimum and should be recognized by the Audit Committee.

The size of the Board should be enlarged to accommodate the availability of donated services and to expand the current expertise level needed to properly evaluate the publics needs and industry's acceptance to those safeguards. As Board member nominations are received from two societies, they are not restricted to the societies membership by any means.

The Board's future activities will be guided by the public's desires of creating more effective regulations that are enforceable pursuant to the public's needs. These goals are yet to be formalized and categorized to a general public need. With the forthcoming projects of the petrochemical industry in the State, a greater need will be emphasized for the Board's guidance in revising regulations to insure the Alaskan public will be protected from inadequate welding by assuring Welding Inspectors are properly tested and are qualified to pass judgement on the certification of weldors.

There has already been a Senate Bill proposed to create a welding bureau within the State which would be more of a bureaucratic administration of welding than a regulation, which if nothing else, emphasizes the need for the Board of Welding Examiners to create a better regulation guideline.

Sincerely,

Donald M. Lockman

Donald M. Lockman, Chairman
Board of Welding Examiners

BOARD OF WELDING EXAMINERS

September 25, 1979

RECEIVED

SEP 28 1979

LEGISLATIVE AUDIT

Mr. Don Lockman
Chairman
Board of Welding Examiners
8235 Endicott Street
Anchorage, Alaska 99501

Dear Mr. Lockman:

Enclosed are my responses to the preliminary audit report on the Board of Welding Examiners.

1. Report Conclusion

a. I concur that most consumers (e.g., engineers, construction and pipeline companies) of welding services possess adequate knowledge to properly evaluate the qualifications of those providing services.

b. However, from personal experience, it has been observed that those who have the knowledge are not the individuals out in the field doing inspection and quality assurance work. Examples: 1) the Ketchbaw-Alyeska controversy would, in all probability, not have occurred if the project was being adequately controlled by qualified welding inspection. I personally know senior managers on the project that had very limited knowledge of welding or inspection. I know of one inspector who was a used car salesman with no qualifications; 2) movies of the first pipeline run on the North side of Cook Inlet clearly show that pipeline inspection consisted of a truck mirror on a three-foot handle and a flashlight. Clearly inadequate; 3) the roof of the Bethel Hospital and the walkway between the campuses at Alaska Community College and the University of Alaska in Anchorage demonstrate a complete lack of inspection. Untold dollars were spent on correcting the projects to ensure safety to the public.

c. In short, millions of dollars have been spent to correct deficiencies that would not have occurred with adequate welding inspection. Also, hazards claiming lives have occurred within the State which could have been prevented if adequate inspection had been available to correct safety violations or defect code violations. Examples: Building 6-900 on Elmendorf burning in the 1960's and killing a welder and helper. A welder killed when working off of empty gasoline drums during construction of the parks highway.

d. I believe that the knowledge is possessed by the consumers but that it, in many cases, is not, or inadequately applied.

e. I agree that the AWS welding inspection program is the best thing since light bread, however, at this time, there is nothing that requires companies to use qualified inspectors (except 12 AAC 72), that has been the direction that the board has taken to provide higher quality inspection to welding projects, thereby saving the public untold dollars in rework and to increase the safety during welding operations and in the final product.

2. Recommendation No. 1

I admit that the board has problems that must be corrected. I, however, believe that the board is needed as shown in the preceding comments. I also feel that, for the last year, the board has made very little progress since almost all energy has been expended on Sunset Review. If we can ever get this review completed and get back to work on revising statutes, regulations and implement corrections to problems, we will make great strides toward protecting the public (our main job).

This audit has been very helpful in pointing out problem areas, but we must now have time to work in implementing the recommendations instead of continuing to prepare for the review.

Recommendation No. 2

1. The State does not need to look at visual examinations since it is virtually impossible to obtain or maintain an AWS QC-1 Certificate without the results of the exam being received by AWS. We do not need to increase the bureaucracy by requesting something that has already been requested and supplied.

2. I concur that the board should review qualifications prior to issuing licenses.

Recommendation No. 3

1. I agree. However, I consider myself a lay member since I work for the Federal Government as an aircraft maintenance officer. I have very little chance to gain monetarily from any actions of the board. I also am technically qualified to make good input to the board's operations. If appointments are made from the entire industry some method must be set up to solicit applications.

b. The Office of the Governor must respond in a timely manner in order to be effective.

Recommendation No. 4

a. Concur.

b. Concur.

c. Concur.

Recommendation No. 5

1. Concur.

2. This one is tough, but should be looked at.

3. Concur.

4. Concur.

Recommendation No. 6

1. Concur.

2. Concur.

3. Concur.

4. Concur.

5. Concur.

Additional Comments

I was asked for more information than I could supply simply because of one reason: time. It seems that every time a response is required from me by the Division of Legislative Audit, I am working 14-hour days and on my way out of State. Twenty days to respond is inadequate. If we could respond during the next scheduled board meeting, we could work for a couple of days and come up with the type of response that you are

looking for. All board members are busy and need additional time to meet together to comply with your wishes.

Appendix A

If the board has collected no revenues, the companies that have paid for test lab licenses in the past, as well as myself, paying for welder qualifier and welding inspector licenses are surely getting ripped off. I suggest homework should be done. I also feel that the expenditures by the board are insignificant for the amount of work that has been done by the board.

Appendix D

It appears to me that properly qualified welding inspectors (if not qualified they could not pass AWSQC-i), more or less support the board. Individuals who cannot qualify under AWS QC-i will not (for obvious reasons), support the board.

I appreciate the opportunity to reply to the Division of Legislative Audit, but, again, request more of the item that I have the least of, time.

Very truly yours,

Don Delk

LEGISLATIVE
AUDIT

August 9, 1979

To: Don Delk
Secretary, Board of Welding Examiners

Re: Comments in regards to Judy White's letter of June 20, 1979 to the Board of Welding Examiners

In general the letter received by Judy White, Auditor Division of Legislative Audit, in regards to Sunset Legislation is very well written and pinpoints exactly many of the problems of the Board of Welding Examiners.

I would like to take exception, however, to the following points:

a) AWS's lack of support for State licensure: Robert Foxall, AWS National Chairman, 1978; John Moeller, AWS Chairman, 1977 and Ken Fordyce, AWS National Certification Chairman have been present at Anchorage AWS meetings and have spoken highly of the Board of Welding Examiners' work in regards to licensing inspectors.

b) It may be true that only one state requires licensing of Welding Inspectors, however the AWS certification program has only been in effect since 1976 and thus it is understandable that very few states have adopted the requirement of certification.

c) Certification of welders instead of inspectors was discussed previously by the board. It was felt that it is easier to monitor and license 100 welding inspectors than 2,000 welders. I do agree that monitoring either welding inspectors or welders by state agencies is not feasible, however I do believe many individual welding inspectors have vastly upgraded their knowledge and ability in meeting the state license requirment.

d) In regards to the state license files, there are discrepencies all of which are minor and easily corrected. I do believe that the public is being protected from "unqualified practitioners" to a greater extent than ever before.

e) In regards to the make up of the Board of Welding Examiners size, appointments, etc. I would agree that we need a more diverse group, however I would think that seven members is a workable number. Meetings of twice or once yearly I would think is a better solution for cutting costs than limiting the numbers of members to five. We may only affect 50 to 100 inspectors, however the regulations affect thousands of welders.

f) In regards to revising the statutes, revising administrative regulations, developing board objectives and document administrative procedures; many good points were brought up. I would like to see the Auditor, Judy White, attend our next meeting if possible in order that we might make some progress in these areas.

In conclusion, I would say that although the present statutes are probably unenforceable to a large extent they never the less have made a very positive impact in the area of welding in Alaska with many inspectors being licensed

through the American Welding Society. Personally I do not believe the Board should be terminated in 1980, however I do not feel that further regulation of the industry by government is necessary either.

LEGISLATIVE
AUDIT

October 3, 1979

Gerald L. Wilkerson, CPA
Legislative Auditor
Division of Legislative Audit
Pouch WF
Juneau, AK 99811

RE: A Performance Review of the Board of Welding Examiners, June 8, 1979.

Dear Mr. Wilkerson:

Your letter of September 10th has requested a reply within twenty (20) days. In order to meet this deadline, we two board members have had several meetings and discussions. We have not had time to get together with the entire board or to circulate a reply, so that all of the board could participate in this answer.

At the time of the Legislative committee hearing, the welding board contemplates "presenting its case." Our discussions indicate that this case will be in three parts:

1) an orientation in respect to welding

2) recommendations of prominent authorities throughout the United States with respect to State regulation of welding, and

3) a series of specific proposals including but not limited to those raised by the preliminary audit report.

By way of the requested written reply, to the findings and recommendations of the written audit report, we set forth the following:

1) Re: Recommendation No. 1. Termination of the Board. We disagree. The performance review sets forth good criteria to determine whether licensing is desirable. Essentially we agree that licensing is desirable when a) unlicensed practice poses a serious risk; b) consumers are at a disadvantage in evaluating the welder; and c) there has been abuse with inadequate recourse through the general law. Here the unlicensed practise can mean failure of the weld with the attendant sinking of the vessel, collapse of a structural steel member, bursting of a pipe, leakage of carbon monoxide from a muffler into the interior of an automobile, etc. It is safe to say that the general public does not know enough about welding and welders to be able to evaluate a person's qualifications as a welder. The sinking of barges, collapse of crane booms and leakage of pipelines and car mufflers, have resulted in loss of life and environmental damage; in addition to the structural damage and loss of time which can be compensated through the general law. Therefore, licensing is desirable.

Performance review is correct in indicating that the State of Alaska has not been in a financial position to regulate, by licensing, all welding personnel in the past. It is also correct in indicating that only one other State to date has elected the stop gap measure currently used by the Board of Welding examiners, of licensing welding inspectors. We respectfully suggest, that that time is at hand when public safety and environmental necessity merit the regulation of welding in a more thorough manner. We further suggest that the logical means to do this is through a State Board of Welding Examiners, who will be able to be more active than the Board has been allowed to be in the past.

2) Re: Recommendation No. 2. The Board more active in Licensing. We agree with this recommendation. The performance review makes excellent points in this regard and its suggestions together with others to be proposed by ourselves should be adopted within the next year. To implicate these will require action by the Board in promulgating regulations and a budget which will permit actual work in the field. It is to be hoped that both of these processes could be completed by the beginning of fiscal 1980-81.

3) Re: Recommendation No. 3. Assuring adequate representation on the Board. We concur with the bulk of this recommendation. The performance review is good as far as it goes, in reviewing the Board composition, terms, etc. We feel that there are additional factors which should be considered in the make-up of the Board and the terms to be served. This is a Legislative process and we will be presenting specific recommendations to the Legislature in this regard. Because it is the turn of the Welding Board for review under the sunset law it would be hoped that these matters could be completed by the Legislature at its next session. The harder portion of the recommendation to implicate, concerns the direction that the Governor act in a more timely manner in making appointments to the Board. The Board itself would be glad to participate as requested in screening and recommending appointments. It is beyond the ability of the Board to direct the Governor in the course of making appointments. We agree with the recommendation but are not in a political position to be able to implicate it.

4) Re: Recommendation No. 4. Board recommendation of statutory revisions. We concur with this recommendation. As mentioned above we feel that the time has come when the State no longer need use the Board of Welding Examiners as a stop-gap measure to "do the best it can", to protect public safety and environmental concern. We favor the review of powers and duties of the Board. The Board has long requested fiscal support for the enforcement of welding regulations, since it is obviously quite difficult to be a fierce tiger when you are toothless. We certainly have no objections to the applicability of the administrative procedures act. Implementation of this should be by Legislative action and it can be completed by the effective date of Legislation affecting the welding board during 1980.

This paper is not the place to present a series of detailed recommendations. These will be provided at the Legislative hearing.

5) Re: Recommendation No. 5. Continuing revision of administrative regulations. We concur with the recommendation although we may differ on some of the detailed suggestions. Once again these suggestions are good, they represent needs that should be met and that the Board has been endeavoring to meet over the past couple of years. We propose that the Board continue its process of review and address the specific points raised. This should be implicated by board action with a target date of July 1, 1980.

6) Re: Recommendation No. 6. Defining objectives and reporting to the Governor and Legislature. We concur with the recommendation, feeling that part of the defining of objectives is established by the Legislature, and that staff time will have to be provided to permit the requested reporting to be done. Because this recommendation is partially budgetary it will have to be accomplished through both board action and legislative action and would probably become effective July 1, 1980 when the new budget becomes effective. We hope that the presentation that we will be making to the Legislative committees as part of the "sunset" process, will be of considerable help in arriving at the implication of this recommendation.

We hope that we will be notified of the time of the Legislative committee hearing at the earliest possible date. A good presentation requires lead time to make people available and work concepts into shape. We look forward to cooperating with you in the future in this process.

Respectfully submitted,

J. C. WINGFIELD

RE: Board of Welding Examiners

SUBJECT: Board response to recommendations enclosed in Performance Review of the Board of Welding Examiners of June 8, 1979.

Recommendation #1:

We, the Board, feel the Board of Welding Examiners should be allowed to continue.

In addressing the primary goal of regulating occupations to protect the public:

1. An uncertified weldor or welding inspector can produce a product which impairs the life, safety, health and economic well being of all potential consumers. Many items of this nature can be addressed which are specific projects both State financed and privately funded.

2. Potentially, every resident in Alaska is a consumer of welding services. Only a small number of Alaskan residents possess the knowledge to evaluate the qualification of a provider of welding services. Almost every item constructed or repaired in the State has welding involved in some stage of construction or repair, ie: fuel oil tanks, bridges, aircraft, automobile fixtures, buildings, pipelines, etc. from very small items to large scale projects.

3. There is much evidence of abuse of welded components to which the consumers (which is the tax paying public) have no adequate recourse through the general laws. Instead, the consumer must depend on specialists such as qualified weldors and certified welding inspectors to protect their interests.

Rebuttal of Last Paragraph, Page 8:

The potential of public impact is not only addressed to large scale projects but more often to everyday usage of welded components such as trailer hitches, gas tanks, lawn mowers, and many small items used around the home. Imminent physical and economical harm can be brought upon the public due to inferior welding on these types of small scale projects.

Much public impact has been expended on large scale projects such as mentioned due to the economic impact of reworking inferior welding, many of which have been State funded projects which the public had already paid for.

First Paragraph, Page 9:

The statment that persons responsible for the construction of large projects are the consumers of welding services is erroneous as has been indicated above. Almost every resident of Alaska is a consumer of welding services.

Even the large companies do not always possess the adequate welding personnel to evaluate welding components, such has been experienced in the pipeline project.

We agree with the statement that "the AWS Certified Welding Inspector Program provides a means of identifying qualified inspectors", although the only requirement to this program is the State regulation 12AAC72.005 which was drafted and implimented by the State Board of Welding Examiners. The AWS Program is a voluntary program only.

Second Paragraph, Page 9:

Even though the interstate gas pipeline falls under the jurisdiction of the Federal Power Commission it is generally the Federal Government's policy to comply with the intent of State laws and regulations.

Third Paragraph, Page 9:

The AWS's support has largely influenced the State's regulations by providing a means for evaluating welding inspectors qualifications and has supported the intent of the Welding Board to impliment their program but has naturally desired to remain politically inactive.

The statement that "only one other State has required licensing of welding inspectors", has no influence on Alaska except to show that Alaska is a progressive State in protection of their consumers.

Fourth Paragraph, Page 9:

There is evidence of the State licensing of Welding Inspectors affording significant protection to consumers by a significant increase of welding knowledge in the State since the practice of licensing of welding inspectors was established.

Fifth Paragraph, Page 9:

The weldor qualification certificates could be required by statute if desired but the AWS Certification Program for Welding Inspectors could not be adopted by reference without a Board of Examiners to evaluate changes in the program or amending requirements due to the rapidly changing welding industry.

Sixth Paragraph, Page 9:

Sufficient public need does exist for continuing the present licensing and regulatory structure as evidenced by the welding inspectors who attempt to become licensed and found themselves not possessing an adequate knowledge of welding to successfully be licensed. This is illustrated by the audit committee in Recommendation #2, item #2.

Recommendation #2, Page 9:

Item #1, Page 9:

Application forms do request all information necessary to determine requirements for licensure by means of the initial AWS QC-1 Certificate which has documented items of compliance with 12 AAC 72.065 (a) 1-8. The State Board of Welding Examiners are knowledgeable of the AWS Documentation Program that insures the compliance with 12 AAC 72.065 (a) 1-8. No additional documentation is needed until the Board sees evidence that the AWS Program is not fulfilling the obligation set forth in the State's regulations. At such time that the AWS's Program is changed to a noncompliance of these regulations, the State Board will require additional documentation. Applicants for renewal need not be asked for evidence of a visual examination since the AWS renewal requires this proof of examination upon renewal.

Item #2, Page 9:

The Board of Welding Examiners agree with the intent of item #2, recommendation No. 2, as of October 26, 1979 will require all applicants to be reviewed by the Board prior to issuance of licenses.

Recommendation #3, Page 10:

Rebuttal, Last Paragraph, Page 10:

At the present time the Board is well rounded and represents the suggested areas of the occupation. For example:

(a) Two members are from test labs, one of which is diversified to construction activities.

(b) One member is from the petrochemical industry.

(c) One member is from a Federal Governmental Department.

(d) One member is from a labor organization.

(e) One member is from the welding craft.

(f) One member is from the nondestructive inspection field.

No two members are from the same company or corporation.

First Paragraph, Page 11:

Nominations are accepted from the entire industry through two societies who submit nominations to the governor. If the vehicle of these two societies are not used, the State will have to setup a program to accept nominations.

Most qualified interested persons are well aware of the existence of these two societies.

A person wishing to be nominated is not required to be a member of either Society and can be submitted if they possess the required knowledge and experience of the welding industry.

Second Paragraph, Page 11:

The Board would be receptive to including a lay member to the Board as the eighth member.

Terms of Board Members, Page 11:

The Board feels the term of five years is not excessive and agrees that no member should serve more than two consecutive terms.

Size of the Board, Page 11:

We do not feel the Board is unduly large due to the many facets of the industry to be addressed for public protection. If the Board number was reduced, a quorum could be too small to address the overall Board's responsibilities. The Board represents approximately 50 licensed welding inspectors and all certified weldors in the state numbering many thousands. As the licensing of welding inspectors is relatively new, the number of inspectors will be rapidly increasing as industry in the state increases.

Appointments, Page 11:

We agree, the Office of the Governor should make rapid appointments.

Recommendation #4, Page 12:

A. The Board feels an obligation to recommend changes in the statement AS08.99.080 that no longer pertains to the Board's activities. These statute recommendations are as follows:

Section 08.99.050, Qualifications of Board Members:
Add "except for one lay member".

Section 08.99.080, Qualifications of Board Members:
1. Change to read "Establish and promulgate rules and regulations concerning welding in the state."

2. Abolish.

3. Change to read "Work with federal and private agencies and specifying engineers to insure the Board is aware of the state of the art".

4. No change.

5. Insert after work accepted "for the licensing of welding inspectors". Omit existing words following the word accepted.

6. Change the wording to read "Set the fees for welding inspector licenses".

7. Change the wording to read "Examine, certify and renew the licenses of qualified applicants".

8. No change.

9. Abolish.

10. Change the wording to read "Designate and approve persons qualified to administer welding tests through the licensing of welding inspectors".

Renumber Item 10 (b) to 11

11. (a) Omit word "Technical".

(b) Omit "Department of Labor" and replace with "Department of Commerce and Economic Development".

(c) Omit reference following the words "promulgated under" XXXXXXXXXXXX leaving the words "this chapter".

(d) Omit reference after words "this chapter".

Section 08.99.110, Codes:

Change wording to read "The welding codes within the State will be governed by the job specification, in the absence of job specifications the minimum code requirement shall be the applicable AWS Code".

B. Page 12:

The recommended change to AS08.99.080 (b) deletes the Department of Labor.

C. Page 12:

The Board agrees with the audit statement and will require assistance from the department on this issue.

Recommendation #5, Page 13:

1. AAC 72.055 and AAC 72.015 - Add "or cause economic loss" following life or property.

2. AAC 72.045 - Omit from item (1) word "and". Omit all of item (2).

3. Change regulation 12 AAC 72.105 (a) to read:

   A welding inspector license is valid from the date of issuance or renewal through the expiration date of the inspector's American Welding Society's QC1 Certification submitted with the licensing application or renewal.

   Change regulation 12 AAC 72.105 (b) to read:

   Application for renewal of a welding inspector license must be made to the department on a form provided by the department and must be accompanied by a fee of $10.00.

Change Alaska Statue 08.01.100 to read:

(a) All licenses, except Welding Inspector licenses, shall be renewed biennially on the dates set by the department with the approval of the respective board. Welding Inspector licenses will be renewed upon application in conjunction with the renewal of the Welding Inspector's AWS QCI Certification renewal with the approval of the board.

4. The Board feels that the mandatory requirement of licensing requires a greater latitude for the availability of examination and therefore the requirement of four test dates are in order.

Second Paragraph, Page 14:

The Board feels that continuing revisions of the regulations are required if the Board is to remain viable.

Recommendation #6, Page 14:

The Board feels an annual report is in order and will do so with the assistance of the Department of Occupational Licensing.

The aforementioned statements and recommended changes to the Alaska Statutes Chapter 01. Centralized Licensing, Chapter 99. Board of Welding Examiners and Professional/Vocational Regulations Chapter 72 Board of Welding Examiners was approved by a Board quorum during the October 26, 1979 meeting of the Board of Welding Examiners.

Respectfully Submitted,

Alaska State Legislature

Senate

Committee on Commerce

Official Business

Pouch V
State Capitol
Juneau, Alaska 99811

March 13, 1980

The Honorable Clem Tillion
President of the Senate
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Mr. President:

Your Senate Commerce Committee has had under consideration for "Sunset" review the Board of Welding Examiners pursuant to your referral under AS 44.66.050 and AS 08.03.010.

In accordance with the statutory requirements, a public hearing was held on the review of this board, at which written and oral testimony was received. Members of the board testified in person or by teleconference. The Committee considered the proposed budget of the board for FY 1981 and particularly examined the performance audit of the activities of the board conducted by the Division of Legislative Audit.

Guided, in part, by this performance review the Committee took into consideration the factors required to be considered under AS 44.66.050(c).

In considering the findings and recommendations of the Division of Legislative Audit as they appear on pages 8 through 15 of the Performance Review of the Board of Welding Examiners dated June 8, 1979, which is hereby incorporated by reference as though fully set out herein, the Committee makes the following recommendations:

> The Committee finds that it would be in the best interests of the people of the state of Alaska for the board to be continued and disagrees with Legislative Audit recommendation number 1 which recommends that State licensing of welding personnel be discontinued.

In general, we concur with findings 2 through 6. It appears that the Board of Welding Examiners will address these problems adequately through regulatory change. If it proceeds to do so, it will not be necessary for the Committee to address these problems by statute.

The Committee feels that it has adequately addressed the recommendations and categories required under AS 44.66.050(d), and recommends that with the changes stated in this report the Board of Welding Examiners be continued for another four years, that is, that the repealer with regard to the activities of the board be amended to read June 30, 1984.

A bill will be introduced by the Commerce Committee to implement the recommendations in this report.

Respectfully submitted,

Brad Bradley

CORRESPONDENCE RE: THE CONTINUATION OF THE BOARD OF WELDING EXAMINERS
CSSB 553, SCSCSHB 994

Don Cather, Pressure Vessel Inspector with The Dept. of Labor
The board is not needed for it duplicates powers already in existence.

Mechanical Contractors of Fairbanks - The board is not needed. Duplication.

Veco Inc. of Anchorage - The board is not needed.

Bruce Stephens, Stephens Brother Plumbing - The board is not needed.

Ralph Eldrige, Mechanical Contractors of Anchorage - Opposed to the contimuation of the Board.

Don Lochman, Chairman, State Board of Welding Examiners - Opposes Sec. 9 which requires the board's budget to be determined by license fee income. This would require an increase in the license fee.

Brad: I also talked with Frank Lee who is a Welder and he indicated to me that the board should be terminated and that it does duplicate powers already in existence.

RE: CS 553

Senator Mike Colletta
Alaska State Legislature
Pouch V (MS 3100)
Juneau, Alaska 99811

Dear Senator Colletta:

In 1968, the idea for the Board of Welding Examiners was to develop methods that would help reduce costs for an employer to hire welders: 1) through knowing the welder's background, as each welder would be registered with the state and carry a card so stating his certification; and 2) so registered welders could be hired for specific welding jobs and if further testing was needed, the employer would know the applicant's elementary welding background thus eliminating many primary tests which are quite expensive.

The ensuing welding boards have changed directions several times. Until now, they have added at least two layers of cost to employers who use welders: 1) through government, which involves registration of welding Inspector/Examiners and enforcement of these inspections; and 2) through regulations where the employer must now contract for, or employ additional persons, to inspect welds and to qualify welders.

The additional costs, only to Alaskan employers, further reduces the chance of the smaller Alaskan welding companies to compete with outside companies for the limited amount of business available in the state.

It should also be noted that a welding inspector/qualifier does not inspect prefab buildings, muffler installations, trailer-hitch work, or other major welding work done by others before being shipped into the state, thus the greater part of any welding entering the state is not inspected.

I do not feel the board has served any useful purpose to date, even though it has been functional for 10 years. It should also be noted that any welding company in the state may have their welders tested at any of the test labs in the state, thus eliminating the additional expense for an in-house welding qualifier. Overall, it appears this is a well-organized drive by

37 weld inspectors left over from the pipeline days, to continue in lucrative jobs. As may be noted on the attachment of the 59 weld inspectors registered in Alaska, less than two-thirds are residents -- certainly not a good image for local hiring.

Should you feel that the bill is needed, may I make several suggestions for its betterment:

SECTION 4, 08.99.050. The 37 welding inspectors presently registered in the state apparently wish to monopolize this board as the new bill would have two of the members on it. I feel the board would be more responsive to the public needs if the language remained as in past statutes: "all members shall have extensive experience in welding."

SECTION 5, 08.99.080. I would like to ask that the American Society of Mechanical Engineers' Boiler and Pressure Vessel Code (ASME) be excluded from this law as these activities are covered in other statutes. The welding to boilers and pressure vessels is under the jurisdiction of competent National Board of Boiler and Pressure Vessel inspectors and they only inspect boilers and pressure vessels being fabricated in the ASME Code boiler and pressure vessel shops and oversee the repair to boilers and pressure vessels to assure it is done in a safe manner and in accordance to the ASME Code guidelines.

Should you have any questions, please do not hesitate to contact me at (907) 344-6809.

Regards,

Don Cather

May 16, 1980

Senator Mike Colletta
Pouch V
Juneau, Alaska 99811

(Mail Stop Number 3100)

Dear Mr. Colletta:

HB 994
Re: Senate Bill No. 553

Every segment of industry has a stake in having the consumer associate receive its products and services within the concept of professionalism. This is especially important at a time when there is a prevalence among many to accept shoddy merchandise and workmanship from everyone. This is an unfortunate but inescapable way of life. Our industry, the Plumbing, Heating and Cooling Contractors, rejects this style of life.

We are governing ourselves with a system of self controls. Welding examiners and welding certification in our industry is already provided for by a Testing Board. Testing boards and labs are operated by private companies and service owners, architects and other agencies as required by the standards and specifications of the industry. These boards and labs follow regulations and standards of the American Welding Society and the Alaska Society of Professional Engineers.

We discussed the proposed legislation at our last regular meeting and feel we have enough regulation and proper controls. Re-establishing the Board of Welding Examiners and the creation of a five or seven member panel would provide little or no benefit to our industry. Regulations of this type should be aided by the experience and comments of the industry it intends to govern. This is unneeded regulation.

Board not necessary.

Please call or write to any of us for other personal comments concerning this or other regulations.

Sincerely,

MECHANICAL CONTRACTORS OF FAIRBANKS, INC.

DON LOCKMAN, CHAIRMAN
STATE BOARD OF WELDING EXAMINERS
o 276-3440
h 243-4737

RE: HB 994 Welding Examiners (SB 553) CS ready →

Don is opposed to Sect 9 in original HB that requires brd budget be determined by license fee income. This would require an increase in the license fee.

The current initial licensing fee is $ 25 with a $10 annual renewal fee. The Board has discussed and agreed to a change to a 3 year renewal at $ 60, but this would have to be much higher to cover the costs of examinations more than once a year. This is seasonal work.

The Board is meeting at 2 PM Fiday, tomorrow, in Bldg. G, Rm 103
Anchorage Community College

is still in CS(Com.) reported out of Commerce Committee 4/24

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

Personnel Services
One Investigator at Range 18A located in Anchorage
(7% inflation factor used) $37,186.00

Travel (7% inflation factor used)
Travel for 5 board members to meet 4 times per year. As the board already meets 4 times per year, it is felt sufficient, however, the meetings for FY81 and each year thereafter would have to be increased to two days rather than one. All meetings are held in Anchorage. 300.00
The Licensing Examiner would now have an additional day per diem for the examination. 240.00
Investigation travel would be approximately 14 days per month at $60 per day allotement. 12,480.00
TOTAL TRAVEL $13,020.00

IV. DATE 4/17/80 PREPARED BY Ann Griggs, Director
AGENCY Occupational Licensing
PHONE 465-2534

Original: Legislative Finance
cc: Budget and Management
Prime Sponsor (First Legislator Named)

33--001 (Rev. 12/79)

Contractual (7% inflation factor used)
Contractual costs include figures for the leasing of one automobile and the costs incurred by it. $ 6,600.00

Equipment (This will be a one time cost in FY81)
Breakdown of equipment for the one position includes:

1 bookcase	$ 84.76	
1 four drawer file	181.80	
1 chair	126.83	
2 side chairs	121.52	
1 desk	389.38	
1 typewriter table	60.93	
1 mat	35.46	
1 typewriter	900.00	$ 1,900.78

Land and Structures (7% inflation factor used)
The Investigatot position will require approximately 126 square feet located in Anchorage at a costs of $1.25 per foot per month. $ 1,900.00

RE: CS for HB 994

Senator Brad Bradley
Alaska State Legislature
Pouch V (MS 3100)
Juneua, AK 99811

Dear Senator Bradley:

In 1968, the idea for the Board of Welding Examiners was to develop methods that would help reduce costs for an employer to hire welders: 1) through knowing the welder's background, as each welder would be registered with the state and carry a card so stating his certification; and 2) so registered welders could be hired for specific welding jobs and if further testing was needed, the employer would know the applicant's elementary welding background thus eliminating many primary tests which are quite expensive.

The ensuing welding boards have changed directions several times. Until now, they have added at least two layers of cost to employers who use welders: 1) through government, which involves registration of welding Inspector/Examiners and enforcement of these inspections; and 2) through regulations where the employer must now contract for, or employ additional persons to, inspect welds and to qualify welders.

The additional costs, only to Alaskan employers, further reduces the chance of the smaller Alaskan welding companies to compete with outside companies for the limited amount of business available in the state.

It should also be noted that a welding inspector/qualifier does not inspect prefab buildings, muffler installations, trailer-hitch work, or other major welding work done by others before being shipped into the state, thus the greater part of any welding entering the state is not inspected.

I do not feel the board has served any useful purpose to date, even though it has been functional for 10 years. It should also be noted that any welding company in the state may have their welders tested at any of the test labs in the state, thus eliminating the additional expense for an in-house welding qualifier. Overall, it appears this is a well-organized drive by 37 weld inspector left over from the pipeline days, to continue in lucrative jobs.

Should you feel that the bill is needed, may I make several suggestions for it's betterment:

SECTION 4, 08.99.050. The 37 welding inspectors presently registered in the state apparently wish to monopolize this board as they wish to have two of their members on it. I feel the board would be more responsive to the public needs if the language remained as in past statutes: "all members shall have extensive experience in welding".

SECTION 5, 08.99.080. I would like to ask that the American Society of Mechanical Engineers' Boiler and Pressure Vessel Code (ASME) be excluded from this law as these activities are covered in other statutes. The welding to boilers and pressure vessels is under the jurisdiction of competent National Board of Boiler & Pressure Vessel inspectors and they only inspect boilers and pressure vessels being fabricated in the ASME Code boiler and pressure vessel shops and oversee the repair to boilers and pressure vessels to assure it is done in a safe manner and in accordance to the ASME Code guidelines.

Should you have any questions, please do not hesitate to contact me at (907) 344-6809.

Regards,

Don Cather

SENATE CS FOR CS FOR HOUSE BILL NO. 994

(SAME BRIEFING FOR CS FOR SB 553)

MR. PRESIDENT, I MOVE THE ADOPTION OF CS FOR SB 553, WHICH IS IDENTICAL, AT THIS POINT, TO SCS FOR CSHB 994 FOR THE SAME BOARD. WE HAVE WORKED JOINTLY TO TRY TO PREVENT AN UNNECESSARY AND OFTEN TIME-CONSUMING FREE CONFERENCE COMMITTEE.

THIS BILL CONTINUES THE EXISTENCE OF THE BOARD OF WELDING EXAMINERS UNITL JUNE 30, 1984. (ANOTHER 4 YEARS). THE BOARD OF WELDING EXAMINERS AGREED TO MAKE CHANGES IN THEIR REGULATIONS AS DESIGNATED ON PAGE 4, LINES 6-27; AND WE AGREED TO EXTEND THEM.

(SEC. 08.99.010)
P. 1, LS. 12-14

SECTION 1 REDUCES THE MEMBERSHIP ON THE BOARD FROM (7) TO 5 MEMBERS. THE BOARD HAS BEEN TOO LARGE CONSIDERING THAT THERE ARE ONLY 65 WELDING LICENSEES IN THE STATE.

(SEC. 08.99.020)
P. 1, LS. 17-18

SECTION 2 LIMITS MEMBERSHIP ON THE BOARD TO TWO CONSECUTIVE TERMS TO ALLOW FRESH MEMBERS AND IDEAS. THIS SECTION ALSO DELETES THE PROVISION FOR STAGGERING TERMS OF MEMBERS BECAUSE THE CURRENT BOARD MEMBERS WILL COMPLETE THEIR TERMS, AND SINCE THE TERMS ARE STAGGERED, NEW TERMS ARE AUTOMATICALLY STAGGERED ALSO.

(SEC. 08.99.030)
PS. 1/2, LS. 22/2

SECTION 3 ALLOWS THE GOVERNOR TO APPOINT THREE OF THE BOARD MEMBERS FROM A LIST OF PERSONS PREPARED BY THE ALASKA CHAPTER OF THE AMERICAN WELDING SOCIETY AND THE ALASKA SOCIETY OF PROFESSIONAL ENGINEERS. THE GOVERNOR'S OFFICE HAS BEEN CHOOSING BOARD MEMBERS FROM

THIS LIST FOR YEARS NOW DUE TO THE FACT THAT THESE SOCIETIES HAVE A GREATER KNOWLEDGE OF WHO WOULD BE THE BEST CANDIDATES FOR MEMBERSHIP. SECTION 3 ALSO REDUCES THE NUMBER TO THREE IN ORDER TO ALLOW FOR TWO PUBLIC MEMBERS ON THE BOARD. ONE OF THE PUBLIC MEMBERS MUST HAVE GENERAL KNOWLEDGE OF WELDING AND THE TWO PUBLIC MEMBERS WILL PROVIDE GREATER CONSUMER PROTECTION AND PROVIDE FOR THE PUBLIC'S INTEREST.

(SEC. 08.99.050)
P. 2, Ls. 6-11

SECTION 4 REDUCES THE NUMBER OF MEMBERS WITH ENGINEERING DEGREES FROM (THREE) TO ONE MEMBER IN ORDER TO ADD TWO WELDING INSPECTORS CERTIFIED BY THE AMERICAN WELDING SOCIETY. THIS WILL MAKE THE BOARD MORE DIVERSIFIED AND COVERS ANOTHER AREA OF THE WELDING PROFESSION.

(SEC. 08.99.080(A)(1))
P. 2, Ls. 12-14

SECTION 5 IS AMENDED TO INCLUDE WELDING INSPECTORS SINCE THEY HAVE BEEN ADDED TO THE BOARD.

(SEC. 08.99.089(A)(2))
P. 2, Ls. 15-18

SECTION 6 IS AMENDED TO INCLUDE: OR FOR A POLITICAL SUBDIVISION OF THE STATE. THIS PROVIDES FOR SUCH PROJECTS AS THE UPCOMING GAS LINE WHICH MAY RUN OUTSIDE STATE BOUNDARIES.

(SEC. 08.99.080(A)(3))
P. 2, Ls. 20-22

SECTION 7 IS AMENDED TO EXCLUDE (FOR ALL WELDERS THROUGHOUT THE STATE) BECAUSE THE ESTABLISHMENT OF UNIFORM TESTING AND CERTIFYING METHODS IS TO APPLY ONLY TO THOSE WHERE IT IS REQUIRED -- ONLY

CERTAIN TYPES OF OPERATIONS AS SPELLED OUT IN THE REGULATIONS. THIS DOES NOT PERTAIN TO ALL WELDERS WITH GARAGE OPERATIONS, ETC. WHILE THE BOARD MUST STILL WORK WITH THESE GROUPS TO ESTABLISH TESTING AND CERTIFYING METHODS, THIS CHANGE PROVIDES THE BOARD WITH SOME FLEXIBILITY AS TO THE PARTICULAR WELDERS WHICH IT WILL CHOOSE TO REGULATE.

(SEC. 08.99.080(A)(9))
P. 2, Ls. 24-29

SECTION 8 IS AMENDED TO INCLUDE AND INSPECTION SINCE WELDING INSPECTORS ARE NOW INCLUDED ON THE BOARD AND THESE REGULATIONS MUST BE ESTABLISHED TO ENSURE CONSISTENT QUALITY OF WELDS. IT ALSO INCLUDES THE ADDITION: INCLUDING CONSTRUCTION BY OR ON BEHALF OF THE STATE OR A POLITICAL SUBDIVISION OF THE STATE. THIS AGAIN REFERS TO THE FACT THAT SUCH PROJECTS AS THE GAS LINE MAY INVOLVE AREAS AND DEPARTMENTS OUTSIDE THE STATE.

(SEC. 08.99.080(A))
P. 3, Ls. 2-5

SECTION 9 IS AMENDED BY ADDING PARAGRAPH 11: PREPARE AN ANNUAL BUDGET TO BE SUBMITTED TO THE LEGISLATURE AND REQUEST AN ANNUAL APPROPRIATION FROM THE GENERAL FUND TO COVER OPERATING EXPENSES OF THE BOARD, NOT TO EXCEED THE AMOUNT OF INCOME TO BE RECEIVED FROM FEES UNDER THIS CHAPTER FOR THE YEAR; THIS WAS PUT IN, IN ORDER TO MAKE THE BOARDS MORE FISCALLY AWARE AND HAVE A GREATER UNDERSTANDING OF THE MONIES THEY GENERATE AND SPEND. THE IDEA HERE IS TO HAVE

THE BOARDS PAY FOR THEMSELVES. THE HOUSE PUT THIS IN AND WE WENT ALONG WITH THIS TO AVOID A FREE CONFERENCE.

(SEC. 08.99.080(A))
P. 3, LS. 6-9

SECTION 9 ALSO ADDED THE FOLLOWING PARAGRAPH: THE BOARD SHALL ADOPT REGUALTIONS REQUIRING THE APPLICATION OF THE LATEST STANDARDS AND CODES ADOPTED BY THE AMERICAN WELDING SOCIETY IF A CONTRACT OR JOB SPECIFICATION FAILS TO DESIGNATE THE STANDARDS OR CODES TO BE APPLIED TO A PARTICULAR WELDMENT. THIS ADDITION SIMPLY SETS THE MINIMUM STANDARDS AS THOSE ADOPTED BY THE AMERICAN WELDING SOCEITY. THERE WAS A NEED HERE FOR MINIMUM STANDARDS WHERE A JOB OR CONTRACT FAILED TO SET THE STANDARDS.

(SEC. 08.99.080(B))
P. 3, LS. 11-16

SECTION 10 IS AMENDED SIMPLY TO MAKE ONLY THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT RESPONSIBLE FOR ANALYZING REPORTS AND PERFORMING FIELD INSPECTIONS INSTEAD OF BOTH THE DEPARTMENT OF LABOR AND THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT. IN THE PAST, BOTH DEPARTMENTS WERE RESPONSIBLE FOR THIS AND THIS AMENDMENT MAKES IT MUCH SIMPLER KEEPING THE RESPONSIBILITY WITHIN ONLY THE ONE DEPARTMENT.

(SEC. 08.99.080)
P. 3, LS. 17-19

SECTION 11 ADDS A SUBSECTION FOR THE BOARD TO ADOPT REGULATIONS TO PERMIT CERTIFIED WELDING INSPECTORS TO EXAMINE, CERTIFY, AND RENEW CERTIFICATIONS OF WELDERS. THIS IS BECAUSE

WELDING INSPECTORS HAVE BEEN ADDED TO THE BOARD AND THEY ARE CAPABLE OF ADOPTING SUCH REGULATIONS FOR GREATER INSPECTION CONSISTENCY AND QUALITY.

(SEC. 08.99)
P. 3, LS. 21-24

SECTION 12 ADDS A NEW SUBECTION ENTITLED: RENEWAL OF WELDING INSPECTOR CERTIFICATES BECAUSE WELDING INSPECTORS HAVE BEEN ADDED TO THE BOARD. A SECTION WAS ADDED TO CREATE AN EXEMPTION TO AS 08.01.100(A), WHICH REQUIRES THAT THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT ESTABLISH DATES FOR RENEWAL OF OCCUPATIONAL LICENSES. THIS WAS DONE SO THAT THE CERTIFICATE OF A WELDING INSPECTOR ISSUED UNDER THIS ACT EXPIRES ON THE DATE OF EXPIRATION OF THE WELDING INSPECTOR'S CERTIFICATION BY THE AMERICAN WELDING SOCIETY.

(SEC. 08.03.010(c))
P. 3, LS. 25-27

SECTION 13 IS AMENDED TO CONTINUE THE BOARD OF WELDING EXAMINERS FOR ANOTHER FOUR YEARS UNTIL JUNE 30, 1984.

(SEC. 08.99.110)
P. 3, L. 28

SECTION 14 IS REPEALED, WHICH ARE OUTDATED PIPING CODES. THESE TIE THE WELDERS TO OUTDATED CODES. NOW THE BILL STATES THE MINIMUM CODES AS THOSE OF THE AMERICAN WELDING SOCIETY UNLESS OTHERWISE STIPULATED IN A CONTRACT OR JOB. UNDER THIS BILL, THE BOARD IS NOW REQUIRED TO REINCORPORATE NEW UP-TO-DATE STANDARDS EVERY YEAR. THESE PIPING CODES ARE SIMPLY OUT OF DATE.

(SEC. 08.03.010(B)(10)) P. 3, L. 28

SECTION 14 IS REPEALED WHICH REMOVES THE BOARD OF WELDING EXAMINERS FROM THE LIST OF BOARDS WHICH HAD A TERMINATION DATE OF JUNE 30, 1980.

PS, 3/4, LS. 29/5

SECTION 15 KEEPS THE CURRENT MEMBERS OF THE BOARD OF WELDING EXAMINERS ON THE BOARD UNTIL THEIR TERMS EXPIRE AT WHICH TIME THE BOARD WILL BE RECONSTITUTED IN ACCORDANCE WITH SECTIONS 3 AND 4 OF THIS ACT. IN THE YEAR THAT THREE TERMS EXPIRE SIMULTANEOUSLY, TWO OF THOSE TERMS ARE ABOLISHED WHICH BRINGS THE TOTAL MEMBERSHIP OF THE BOARD TO FIVE WHICH THIS BILL STIPULATES.

P. 4, LS. 6-27

SECTION 16 SPELLS OUT WHICH REGULATIONS THE BOARD MUST ADOPT AT THEIR NEXT BOARD MEETING. WE ARE TAKING THE WELDERS OUT OF STATE CERTIFICATION IN THE AREAS WHERE IT IS NOT NEEDED. CERTIFICATION IS NEEDED ONLY IN AREAS OF CONTRACTORS, BUILDERS, AND PIPELINES. CERTIFICATION IS NOT NEEDED IN "HOME-GARAGE" OPERATIONS, ETC. THE REGULATIONS ARE AS FOLLOWS:

(1) PROVIDE THAT ONLY IF A JOB HAS BEEN ADVERTISED OR IS DONE PURSUANT TO A WRITTEN CONTRACT MUST THE WORK BE PERFORMED BY A CERTIFIED WELDER;

(2) REQUIRE THAT THE SIGNATURE AND LICENSE NUMBER OF THE WELDING INSPECTOR WHO ISSUES A WELDING QUALIFICATION CERTIFICATE TO APPEAR ON IT;

(3) PROVIDE THAT A WELDER NOT BE REQUIRED TO BE CONTINUOUSLY EMPLOYED USING THE WELDING PROCESS FOR WHICH HE IS CERTIFIED IN ORDER TO KEEP HIS CERTIFICATION VALID;

(4) PROVIDE THAT IF INSPECTION OF A WELDMENT IS REQUIRED, THE INSPECTION MUST BE PERFORMED ONLY BY A LICENSED WELDING INSPECTOR UNLESS EXEMPTED;

(5) PERMIT AN EXEMPTION TO (4) BY ALLOWING THE INSPECTION OF A WELDMENT IN A PUBLIC WORKS PROJECT BY AN ENGINEER IF A LICENSED WELDING INSPECTOR IS NOT AVAILABLE; HOWEVER, THE ENGINEER MUST BE APPROVED BY THE BOARD; THE INSPECTION MUST BE DONE UNDER THE GENERAL DIRECTION OF A LICENSED WELDING INSPECTOR, AND THIS SPECIAL EXEMPTION EXPIRES JANUARY 1, 1982

(6) INCLUDE ANY OTHER REGULATIONS NEEDED TO IMPLEMENT THIS ACT.

P. 4, Ls. 28-29

SECTION 7. THIS ACT TAKES EFFECT IMMEDIATELY IN ORDER TO ALLOW THE WELDERS TO ADOPT THE REGULATIONS AT THEIR NEXT BOARD MEETING.

Mr President, I move the adoption of CS for SB 553, which is identical, at this point, to SCS for CSHB 994 for the same board. We have worked jointly to try to prevent an unnecessary and often time-consuming Free Conference Committee -

SENATE CS FOR CS FOR HOUSE BILL NO. 994

(SAME BRIEFING FOR CS FOR SB 553)

LINE BY LINE ANALYSIS

1. THIS BILL CONTINUES THE EXISTENCE OF THE BOARD OF WELDING EXAMINERS UNITL JUNE 30, 1984. (ANOTHER 4 YEARS). THE BOARD OF WELDING EXAMINERS AGREED TO MAKE CHANGES IN THEIR REGULATIONS AS DESIGNATED ON PAGE 4, LINES 6-27; AND WE AGREED TO EXTEND THEM.

Sec 08.99.010 Sec 1.

2. (PAGE 1, LINES 12-14) ~~THIS BILL~~ REDUCES THE MEMBERSHIP ON THE BOARD FROM (7) TO 5 MEMBERS. THE BOARD HAS BEEN TOO LARGE CONSIDERING THAT THERE ARE ONLY 65 WELDING LICENSEES IN THE STATE.

Sec. 08.99.020 Sec 2

3. (PAGE 1, LINES 17 & 18) ~~THE BILL~~ LIMITS MEMBERSHIP ON THE BOARD TO TWO CONSECUTIVE TERMS TO ALLOW FRESH MEMBERS AND IDEAS. THIS SECTION ALSO DELETES THE PROVISION FOR STAGGERING TERMS OF MEMBERS BECAUSE THE CURRENT BOARD MEMBERS WILL COMPLETE THEIR TERMS, AND SINCE THE TERMS ARE STAGGERED, NEW TERMS ARE AUTOMATICALLY STAGGERED ALSO.

Sec. 08.99.030 (P1, lines 22-29, P2 line 1+2)

4. ~~THIS BILL~~ ALLOWS THE GOVERNOR TO APPOINT THREE OF THE BOARD MEMBERS FROM A LIST OF PERSONS PREPARED BY THE ALASKA CHAPTER OF THE AMERICAN WELDING SOCIETY AND THE ALASKA SOCIETY OF PROFESSIONAL ENGINEERS. THE GOVERNOR'S OFFICE HAS BEEN CHOOSING BOARD MEMBERS FROM THIS LIST FOR YEARS NOW DUE TO THE FACT THAT THESE SOCIETIES HAVE A GREATER KNOWLEDGE OF WHO WOULD BE THE BEST CANDIDATES FOR MEMBERSHIP, (~~PAGE 1, LINES 22-28~~). Sec 3 also ~~THE BILL~~ REDUCES THE NUMBER TO THREE IN ORDER TO ALLOW FOR TWO PUBLIC MEMBERS ON THE BOARD. (~~PAGE 1, LINE 29 AND PAGE 2, LINES 1 & 2~~). ONE OF THE PUBLIC MEMBERS MUST HAVE GENERAL KNOWLEDGE OF WELDING AND THE TWO PUBLIC MEMBERS WILL PROVIDE GREATER CONSUMER PROTECTION AND PROVIDE FOR THE PUBLIC'S INTERESTS.

Sec 08.99.050 Sec. 4

5. (PAGE 2, LINES 6-11) ~~THIS BILL~~ REDUCES THE NUMBER OF MEMBERS WITH ENGINEERING DEGREES FROM (THREE) TO ONE MEMBER IN ORDER TO ADD TWO WELDING INSPECTORS CERTIFIED BY THE AMERICAN WELDING SOCIETY. THIS WILL MAKE THE BOARD MORE DIVERSIFIED AND COVERS ANOTHER AREA OF THE WELDING PROFESSION.

Sec 8.99.080(a)(1)

6. (PAGE 2, LINES 12-14) SECTION 5, ~~AS 08.99.080(A)(1)~~ IS AMENDED TO INCLUDE WELDING INSPECTORS SINCE THEY HAVE BEEN ADDED TO THE BOARD.

Sec

7. (PAGE 2, LINES 15-18) SECTION 6, AS 08.99.089(A)(2) IS AMENDED TO INCLUDE: OR FOR A POLITICAL SUBDIVISION OF THE STATE. THIS PROVIDES FOR SUCH PROJECTS AS THE UPCOMING GAS LINE WHICH MAY RUN OUTSIDE STATE BOUNDARIES.

Sec

8. (PAGE 2, LINES 20-22) SECTION 7, AS 08.99.080(A)(3) IS AMENDED TO EXCLUDE (FOR ALL WELDERS THROUGHOUT THE STATE) BECAUSE THE ESTABLISHMENT OF UNIFORM TESTING AND CERTIFYING METHODS IS TO APPLY ONLY TO THOSE WHERE IT IS REQUIRED--ONLY CERTAIN TYPES OF OPERATIONS AS SPELLED OUT IN THE REGULATIONS. THIS DOES NOT PERTAIN TO ALL WELDERS WITH GARAGE OPERATIONS, ETC. WHILE THE BOARD MUST STILL WORK WITH THESE GROUPS TO ESTABLISH TESTING AND CERTIFYING METHODS, THIS CHANGE PROVIDES THE BOARD WITH SOME FLEXIBILITY AS TO THE PARTICULAR WELDERS WHICH IT WILL CHOOSE TO REGULATE.

Sec

9. (PAGE 2, LINES 24-29) SECTION 8, AS 08.99.080(A)(9) IS AMENDED TO INCLUDE AND INSPECTION SINCE WELDING INSPECTORS ARE NOW INCLUDED ON

THE BOARD AND THESE REGULATIONS MUST BE ESTABLISHED TO ENSURE CONSISTENT QUALITY OF WELDS. IT ALSO INCLUDES THE ADDITION: INCLUDING CONSTRUCTION BY OR ON BEHALF OF THE STATE OR A POLITICAL SUBDIVISION OF THE STATE. THIS AGAIN REFERS TO THE FACT THAT SUCH PROJECTS AS THE GAS LINE MAY INVOLVE AREAS AND DEPARTMENTS OUTSIDE OF THE STATE.

10. (PAGE 3, LINES 2-5) SECTION 9, ~~AS~~ Sec. 08.99.080(A) IS AMENDED BY ADDING PARAGRAPH 11: PREPARE AN ANNUAL BUDGET TO BE SUBMITTED TO THE LEGISLATURE AND REQUEST AN ANNUAL APPROPRIATION FROM THE GENERAL FUND TO COVER OPERATING EXPENSES OF THE BOARD, NOT TO EXCEED THE AMOUNT OF INCOME TO BE RECEIVED FROM FEES UNDER THIS CHAPTER FOR THE YEAR; THIS WAS PUT IN, IN ORDER TO MAKE THE BOARDS MORE FISCALLY AWARE AND HAVE A GREATER UNDERSTANDING OF THE MONIES THEY GENERATE AND SPEND. (4) PROVIDE THAT IF INSPECTION OF A WELDMENT IS REQUIRED, THE INSPECTION MUST BE PERFORMED ONLY BY A LICENSED WELDING INSPECTOR UNLESS EXEMPTED;

(5) PERMIT AN EXEMPTION TO (4) BY ALLOWING THE INSPECTION OF A WELDMENT IN A PUBLIC WORKS PROJECT BY AN ENGINEER IF A LICENSED WELDING INSPECTOR IS NOT AVAILABLE; HOWEVER, THE ENGINEER MUST BE APPROVED BY THE BOARD; THE INSPECTION MUST BE DONE UNDER THE GENERAL DIRECTION OF A LICENSED WELDING INSPECTOR, AND THIS SPECIAL EXEMPTION EXPIRES JANUARY 1, 1982;

(6) INCLUDE ANY OTHER REGULATIONS NEEDED TO IMPLEMENT THIS ACT.

20. (PAGE 4, LINES 28-29) SECTION 7, THIS ACT TAKES EFFECT IMMEDIATELY IN ORDER TO ALLOW THE WELDERS TO ADOPT THE REGULATIONS AT THEIR NEXT BOARD MEETING.

THE BOARD OF WELDING EXAMINERS
AS 08.99

Chapter 99. Board of Welding Examiners.

Section
10. Creation and membership of board
20. Term of office
30. Source of appointments
40. Removal from office
50. Qualifications of board members
60. Meetings
70. Quorum
80. Powers and duties of the board
90. Applicability of Administrative Procedure Act
100. Expenses
110. Codes
120. Penalty

Sec. 08.99.010. Creation and membership of board. There is created the Board of Welding Examiners, consisting of seven members appointed by the governor. (§ 1 ch 151 SLA 1968)

Sec. 08.99.020. Term of office. Board members serve a term of five years. However, of the members first appointed, one shall be appointed for a term of one year, one for two years, one for three years, one for four years, and three for terms of five years. (§ 1 ch 151 SLA 1968)

Sec. 08.99.030. Source of appointments. The governor shall appoint board members from a list of persons prepared by the Alaska Chapter of the American Welding Society and the Alaska Society of Professional Engineers and submitted at least 30 days before the expiration of a term and not more than 60 days after a vacancy occurs in an unexpired term. The list shall contain not less than two recommended candidates for each appointment. The governor shall make appointments within 30 days after receiving the list. (§ 1 ch 151 SLA 1968; am § 1 ch 151 SLA 1970)

Sec. 08.99.040. Removal from office. Each member holds office at the pleasure of the governor notwithstanding the member's term. (§ 1 ch 151 SLA 1968)

Sec. 08.99.050. Qualifications of board members. Each member of the board shall be a citizen of the United States and a resident of the state. At least three members shall be persons with engineering degrees or registration as an engineer and each engineer member shall have at least five years engineering experience. All members shall have extensive experience in welding. (§ 1 ch 151 SLA 1968; am § 2 ch 151 SLA 1970)

Sec. 08.99.060. Meetings. The board shall meet at least once a year. (§ 1 ch 151 SLA 1968)

Sec. 08.99.070. Quorum. A majority of the board constitutes a quorum. (§ 1 ch 151 SLA 1968)

Sec. 08.99.080. Powers and duties of the board. (a) The board shall

(1) establish and promulgate rules and regulations concerning certification of welders in the state;

(2) establish and define certification tests as they apply to various types and categories of work done in or for the state;

(3) work with federal and private agencies and specifying engineers to establish uniform testing and certifying methods for all welders throughout the state;
