

SCOMM

29:3

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

September 25, 1979

The Honorable Fred Zharoff
Representative
Box 405
Kodiak, Alaska 99615

Dear Representative Zharoff:

I am pleased to inform you of your appointment to the Bottom Fish Task Force. I appreciate your willingness to serve your state.

You are now accepting important responsibilities on behalf of Alaska. Alaska will be a better place in which to live because of the willingness of citizens such as yourself to devote time and talent in serve to our state.

Finally, it is my strong belief that serving on the Bottom Fish Task Force is both a privilege and a responsibility. Therefore, I expect each appointee to attend at least 75 percent of the meetings. Should circumstances arise preventing that, I ask you to request replacement so the Task Force will be able to continue to function efficiently.

Again, I am pleased to be able to appoint you and thank you for your willingness to serve your state.

Sincerely,

A large, stylized handwritten signature of Jay S. Hammond, written in dark ink, overlapping the printed name and title.

Jay S. Hammond
Governor

cc: The Honorable Terry Gardiner

Suggested substitute

WHEREAS the extent of nonresident alien investment in the Alaska seafood industry should be available to the citizens of Alaska; and

WHEREAS some corporations involved in Alaska's seafood industry have not disclosed their nonresident alien affiliates as required by AS 10.05; and

WHEREAS AS 43.75.015 provides that a person engaging or attempting to engage in a fisheries business shall first apply for and obtain a license from the Department of Revenue;

THEREFOR BE IT RESOLVED that the Alaska State Legislature respectfully requests that the Governor direct the Department of Revenue to decline to issue a license under AS 43.75.015 to any corporation unless that corporation has met the requirements of AS 10.05 and is a corporation in good standing as determined by the Department of Commerce and Economic Development.

Note

AS 43.75.020(b) provides that:

(b) Upon receipt of the application in proper form and accompanied by the initial fee, the department shall issue the license as of the date the application is filed or mailed, and the applicant may carry on the business from the date the application was actually made.

The effectiveness of the suggested resolution would hinge on whether an application could be considered as not in "proper form" if the applicant had not disclosed alien affiliation as required under AS 10.05. If this is

perceived as a problem, AS 43.75.020(b) could be amended to read:

(b) Upon receipt of the application in proper form and accompanied by the initial fee, and upon certification by the Commissioner of the Department of Commerce and Economic Development that the applicant has fulfilled the requirements of AS 10.05, the department shall issue the license as of the date the application is filed or mailed, and the applicant may carry on the business from the date the application was actually made.

MEMORANDUM

March 20, 1980

TO: Representative Fred Zharoff
FROM: Peter B. Froehlich *PBF*
RE: Comparison of HB 767 (Alien Affiliates in Alaska Business)
and SB 112 (Corporate Dissolution Reinvestment and Fees)
Research Request No. 96

You requested a comparison of HB 767 and SB 112 in addition to the sectional analysis of HB 767 which was provided to you on March 12, 1980. This memorandum briefly compares the two bills as requested, and summarizes my conversation with you and your aide on March 12.

As discussed in my earlier memorandum, HB 767 would make various amendments to the Alaska Business Corporation Act (AS 10.05). It includes 7 sections related to alien affiliates in Alaska business and 9 sections related to all corporations in Alaska business, regardless of any alien affiliation. For that reason, the scope of the title of HB 767 could be broadened to more clearly comply with the constitutional requirement that 9 bills be confined to one subject described in its title (Article III, Section 13 of the Alaska Constitution).

SB 112 would make various amendments not only to the Alaska Business Corporation Act (AS 10.05), but also to the Alaska Cooperative Association Act (AS 10.15), the Non-Profit Corporations chapter (AS 10.20), the Electric and Telephone Cooperative Act (AS 10.25), the Businesses chapter (AS 10.35), and the Religious Corporations chapter (AS 10.40). The bill includes 13 sections amending AS 10.05, 5 sections amending AS 10.15, 4 sections amending AS 10.20, 1 section amending AS 10.25, 2 sections amending AS 10.35, and one section amending AS 10.40.

Of the 26 substantive sections of SB 112, 24 involve changing the fees charged to corporations and businesses by the Department of Commerce and Economic Development under the various chapters of Title 10, Corporations and Associations. Most of these 24 fee provisions would change current

Representative Fred Zharoff
March 20, 1980
Page 2

statutorily specified fees to fees established by regulation. Only 2 sections of SB 112 involve corporate dissolution (Section 4 amending AS 10.05.594 and Section 19 amending AS 10.20.450). These sections would add provisions that both profit and non-profit corporations would survive for 5 years after dissolution for the purpose of conveying and otherwise dealing with property and for the purpose of service of process.

It appears that at least the 13 sections of SB 112 which would amend AS 10.05 could be incorporated into HB 767, all the sections of which would amend the same chapter. Of course, as mentioned above, a combined bill would need a sufficiently broad title describing a single subject. It may also be feasible to combine the sections of SB 112 amending other chapters of Title 9 if an even broader descriptive title were used. The Legal Affairs division of Legislative Affairs could assist with a new descriptive title in compliance with both the descriptive title and the single subject requirements of Article II, Section 13 of the Alaska Constitution.

Please contact this agency if we can provide any further information on this matter.

STATE OF ALASKA

DEPARTMENT OF COMMERCE & ECONOMIC DEVELOPMENT

DIVISION OF BANKING, SECURITIES, SMALL LOANS & CORPORATIONS

JAY E. HARRISON, GOVERNOR

POUCH D
JUNEAU, ALASKA 99811

February 27, 1980

Honorable Fred F. Zharoff
Chairman, Foreign Investment Committee
House of Representatives
Mail Stop: 3100
Juneau, Alaska 99811

Dear Mr. Zharoff:

Please find attached a signed copy of my memorandum giving a section-by-section analysis along with the fiscal note on HB 767.

As you know, we discussed the bill this past week in your office. I would be happy to discuss HB 767 and the amendments to SB 112 with you at your convenience.

Sincerely,

Julius J. Brecht
Director

FROM: Julius J. Brecht, Director
Division of Banking & Securities
Department of Commerce & Economic
Development

SUBJECT: Section-by-Section
Analysis of HB 767

This bill, at least in part, evolved out of discussions between Pat Dougherty (on contract for the Resources Committee to conduct a study of foreign investment in the Alaska seafood industry), the division staff, and myself. However, I have not had the opportunity to review and comment on the bill until now.

Much of the discussion of the intent of the bill centers on what constitutes "control" of a corporation sufficient to require reporting by an alien affiliate. Furthermore, there are jurisdictional questions as to whether the department can, as a practical matter, get corporation A doing business in Alaska to report on its affiliation with corporation B, located in some other state which is, in turn, affiliated with corporation C located in some other country. I have requested two opinions from the Department of Law in this regard, but have not as yet received them. Much of the analysis of whether or not the department can accomplish what the committee wants, i.e., disclosure of corporations C's involvement in A, using the example above, depends on those opinions. The opinions should be out within the next week or so.

Nevertheless, I do have the following specific comments regarding the provisions of the bill with the qualifications just discussed. The "Sec." number refers to the sections of the bill:

Sec. 1 (AS 10.05.250). This section makes a number of drafting style changes regarding the reorganization of a corporation, and, in addition, it requires a specific description of the nature of the affiliation between a surviving or controlling corporation and its alien affiliate. A similar requirement is imposed on domestic corporations at the time of incorporation (See, Sec. 3), foreign corporations in applying for a certificate of authority under AS 10.05 (See, Sec. 7), and on both domestic and foreign corporations at the time of submission of their corporate annual reports (See, Sec. 9). Presumably, one is to read the nature of the affiliation in the context of the definition of "affiliate" found at Sec. 14, however, there may be some difficulty in interpretation of this requirement on the part of the filer. See, Sec. 14 for further discussion.

Sec. 2 (AS 10.05.255(a)(3)). This provision requires that the articles of incorporation of a domestic corporation incorporating after the effective date of the bill must include reference to a code number identifying the nature of its business activity. A similar requirement is imposed by the bill on domestic and foreign corporations filing their annual corporate reports with the department (See, Sec. 8) and for applications for certificate of authority for foreign corporations wishing to do business in the State (See, Sec. 6). The proposed amendments submitted by the division to SB 112, include requiring that corporations furnish information on the "primary business activities" of the corporation in their biennial corporate reports. The division would very likely use the SIC code presently used by the Department of Revenue in issuing business licenses. However, I suggest that the provision on business activity not be specifically tied to a "code," i.e., I recommend that the approach taken in the amendments to SB 112 be used.

Sec. 3 (AS 10.05.255(a)(13)). This section requires that the articles of incorporation of a domestic corporation include a specific description of the nature of the affiliation between the corporation and its alien affiliates. See, Sec. 1.

Sec. 4 (AS 10.05.519(a)(1)). This section reduces the delinquency period from six to three months for purposes of the department to involuntarily dissolve a corporation. The amendments to SB 112 provide for a two-month period. That amendment is preferred.

Sec. 5 (AS 10.05.519(a)(6)). This section adds a new ground for the department to involuntarily dissolve a corporation and that being a misrepresentation of a material matter in an application, report, affidavit, or other document submitted under the chapter. It should be noted that similar language already applies to foreign corporations under AS 10.05.675(5). The provision of Sec. 519(a)(6) ties into AS 10.05.777 providing for interrogatories by the commissioner, and also will complement AS 10.05.783, providing that it is a misdemeanor to fail to answer truthfully such interrogatories. It should be noted that the amendments to SB 112 provide, in addition, that a domestic corporation may be involuntarily dissolved, if it is 30 days delinquent in filing a notice of change of an office, director, alien affiliate, or five percent shareholder.

Sec. 6 (AS 10.05.615(5)). This section requires that a foreign corporation, in applying for a certificate of authority to do business in Alaska, must give a code indicating the primary business activity of the corporation. See, Sec. 2 discussion. It should be noted that more than one code might apply to the operations of a corporation.

Sec. 7 (AS 10.05.615(12)). See, Sec. 1 and 6 for discussion.

Sec. 8 (AS 10.05.702(3)). See, Sec. 2 for discussion.

Sec. 9 (AS 10.05.702(8)). See, Sec. 1.

Sec. 10 (AS 10.05.700 & 703). Section 700 requires a corporation which publishes a report to its stockholder to submit a copy of the most recent issue with its annual report. This provision is unnecessary in that the information is readily available through the SEC for corporations with more than 500 shareholders and \$1 million in assets. Furthermore, such a requirement would greatly increase the volume of paper which the division must maintain. Sec. 703 requires that the department and the Department of Revenue establish, adopt and publish a numerically-coded list of business activities and make the list available to the public. I do not believe the section is necessary in that it is the department's intention to use the SIC code, presently used by the Department of Revenue in gathering information on the business activities of corporations on file under AS 10.05. See, Amendment 10 to SB 112, as submitted to the Senate Finance Committee several weeks ago. Furthermore, I do not believe that the department should be required to "publish" such a list. It is sufficient that the list be made available to the public.

Sec. 11 (AS 10.05.771). This section provides for a penalty for failure to file an annual report of 10% of the corporation tax for each month that the corporation is delinquent in that filing. While this penalty is a substantial increase over the present provision of a flat 10% penalty, it is open-ended and may actually defeat the purpose for its being. That is, it may be cheaper for a corporation to allow itself to be involuntarily dissolved and then reincorporate rather than pay the penalty. I believe the Department of Revenue has a similar penalty for income tax filings, however, there is a statutory maximum of six months penalty, i.e., 60%.

Sec. 12 (AS 10.05.783). See, Sec. 5 discussion. In addition, the class of misdemeanor is not specified. I believe, under these conditions, it may be classified as the next lower offense, i.e., a "violation."

Sec. 13 (AS 10.05.786). See, Sec. 12.

Sec. 14 (AS 10.05.825(18)). This section redefines "affiliate." The definition is very broad and may prove difficult to enforce. For example, in Sec. 825 (18)(C), the term "control" is used, but what constitutes control of a corporation? I have asked the Department of Law to provide clarification on this point. It may be advisable to have a representative of that department available to answer questions at the hearing on this bill.

Sec. 15 (AS 10.05.825(20)). The definition of "person" is expanded to include joint ventures, companies (i.e., unincorporated businesses), firms, societies, and estates. There may be some difficulty in applying this definition on a case-by-case basis. See, Sec. 14 for further discussion.

Sec. 16 (AS 10.05.825(22)). A new definition is provided for "alien" in an attempt to clean up the language of AS 10.05.702(8) and 825 (18). In addition, a definition of "state" is provided although I am not sure that it is needed.

Sec. 17. This section establishes the effective date of the bill as January 1, 1981. However, if the division is to be ready to process the additional corporate report data coming in at that time, additional personnel should be in place and familiar with the operation. I recommend that the effective date of the bill should be July 1, 1981.

In addition to the above comments, I would recommend that the definition of the "commissioner" be amended to mean "the commissioner of commerce and economic development or his designee." In this way the investigative responsibilities required by the bill can be handled directly by the division similar to the investigations conducted by the division in administering the Alaska Securities Act and the Alaska Uniform Lands Sales Practices Act.

Furthermore, at present, AS 10.05 does not prohibit an entity from holding itself out as a corporation when, in fact, it is not a domestic corporation or registered as a foreign corporation doing business in the state. The division has been made aware of at least one example where the term "Inc." is used by a business in Anchorage when, in fact, it is not registered under AS 10.05. This misrepresentation is not in the best interest of the Alaskan public. I recommend that appropriate language be added to make it unlawful for one to hold themselves out as incorporated when, in fact, they are not.

My comments on this bill have been necessarily brief. Several similar provisions are also found in the amendments to SB 112. It is my hope that the provisions of the two bills can be made compatible. I stand ready to discuss the bill at the convenience of the committee.

PART TIME						
TEMPORARY						

III. ANALYSIS (See Fiscal Note Preparation Instructions, Section III)

The above figures are based on a number of assumptions: 1) that approximately 10% of the business corporations or 1000 corporations have foreign affiliates (the division is aware of approximately 500 that have filed alien affiliate information, however, because of the confusion raised by the language of AS 10.05.702(8) and 10.05.825(18) there may be at least another 500 corporations that should file); 2) that the division could send out letters of inquiry to corporations on file that have not filed alien affiliate information either on a selective basis or to all of them asking specific questions about alien affiliation; 3) that the division could in addition review the filings of upwards of 100 to 200 corporations with some amount of detail; 4) that in addition the division could investigate in more detail and pursue upwards of 20 corporations that either resist or otherwise require comprehensive investigative effort to gain the information required by the bill; 5) that a clear definition of "control" can be devised in the best interest of the reporting corporations and the division in conducting investigations;

IV. DATE 2/22/80

PREPARED BY Julius J. Brecht, Director

AGENCY Division of Banking & Securities

PHONE 465-2521

Original: Legislative Finance

cc: Budget and Management

Prime Sponsor (First Legislator Named)

6) that the Department of Law can provide the legal support necessary to pursue discovery of corporate records located outside of the state and can demonstrate in actions brought in courts in other states that ~~exists~~ sufficient control between the corporation doing business in Alaska and an affiliate once, twice, or more removed doing business in another country; 7) that the Department of Law would be responsible for its own expenses in supporting the Division on the investigations.

The implementation of the program under the above assumptions would require a trained investigator, and two administrative/clerical people to process the filings and aid in investigations. The travel budget would be primarily for the investigator but also include allowances for witness travel for enforcement actions. The contractual budget includes provision for redesign and printing of forms and data processing revisions, maintenance, and operation of the on line data system with alien affiliate and other information required by the bill. The commodities/equipment budget would include necessities for the three new employees including a micro fiche reader.

- * It should be pointed out that the division recommends that the bill become effective on July 1, 1980 rather than January 1, 1981. See, bill analysis. However, this fiscal note has been prepared using the January effective date.

Japanese Firms Control Alaskan Fish Processing

ANCHORAGE (AP) — A handful of Japanese corporations financially control Alaska's seafood processing industry, according to a foreign investment report prepared for the state Legislature.

The report, written by Franklin Orth and Associates of Seattle, says 29 firms operating in Alaska in 1977 had known Japanese investors.

Of these 29 firms, 18 were tied back in the report to two Japanese corporations, Marubeni and Nippon.

However, the study says, the exact amount of control exerted by the Japanese firms can only be estimated.

The state has had little or no information on foreign investment or its influence on the industry.

U.S. Rep. John Breaux, D-Louisiana, currently is investigating Japanese influence in the American fishing industry, but he says he has found nothing to indicate Japanese influence is bad for U.S. interests.

"Lack of capital is a problem," he said. "It's being met in many areas by the influx of foreign money. It can be good and it can be bad. It's unhealthy when it becomes a dominant force."

The report says Japanese money has been poured into the Alaska fishing industry to the following extent:

- The Marubeni Corp. has total ownership of Marubeni America Corp. and its Bristol Bay plant, St. Elias Ocean Products with a plant in Cordova, Togiak Fisheries with plants in Togiak and Quinhagak and Alaska Pacific Seafoods with a plant in Kodiak.

- Marubeni America Corp. owns 50 percent interest in North Pacific Processors with plants in Kodiak and Cordova. North Pacific Processors owns 100 percent of Alaska Pacific Processors.

- Marubeni also owns 50 percent interest in Kodiak King Crab which has plants in Kodiak and Port Williams.

- Kodiak King Crab owns 100 percent of Cordova Bay Fisheries and Juneau Cold Storage.

- Marubeni also holds a nine percent equity interest in Ward's Cove Packing which has 50 to 100 percent interest in Red Salmon Co., Craig Fisheries Inc., Excursion Inlet Packing and E.C. Phillips & Son.

- Kyokuyo owns 99 percent of Whitney Fidalgo which owns all of Mokuhana Fisheries.

- Mitsubishi International is tied directly to Orca-Pacific Packing and Sitka Sound Seafoods which are tied to Icicle Seafoods, Seward Seafoods and Seward Fisheries, Viking Seafoods, The New England Fish Co., Egegik Packing, the Canadian Fishing Co., Sooke Harbour Fishing, British Columbia Packers, Rupert's Certi-Fresh and Nelbro Packing.

- Nippon and Mitsui have a controlling interest in Mopac Inc., a Cordova packer, and have ties to Dutch Harbor Seafoods, Universal Seafoods and Vita Foods.

- Alaska Pulp of Tokyo has total ownership of Harbor Seafoods in Homer.

- Sanaya Shoten and Marusan Sholai Co. own S.A. Packers.

Tribes Oppose Power Bill

PORTLAND, Ore. (AP) — Indian tribes with treaty rights to Columbia River salmon announced yesterday that they will oppose the Pacific Northwest regional power bill.

The Columbia River Inter-Tribal Fish Commission said the bill is unacceptable

because it does not adequately provide for "restoration, protection and enhancement of Columbia River fish runs."

The regional power bill, which already has been approved by the Senate, would establish the Bonne-

as broker for all electricity generated in the region.

The bill would allow customers of privately owned utilities to have access to the less expensive hydroelectric power generated in the Columbia River

Port of Po

PORTLAND, Ore. — After a decade brought the sophistication of shipping technology, increasing competitive challenges, the 88-year-old Port of Portland reached the top in 1977.

Port spokeswoman Corb Kanner described it as a year in which doors were reopened to world markets — mainland China — and former Neill Goldschmidt took his river city people to Washington, D.C., as secretary of transportation.

For the Marine Department of the Port, a year was a period of significant change. A decade of growth. Figures released by the Association of Port Authorities said Portland's highest growth rate of any U.S. port in 1977. Tonnage was up 34.7 percent and dollar value had risen 44.8 percent, placing Portland 18th respectively among American seaports.

Portland has long been known as the export port on the U.S. Pacific Coast. And 1979 showed a growth rate for nearly every port handled.

A Tax Break

New York Times
BALTIMORE — The man in the gray flannel suit can be clothed largely at the expense of the United States Treasury when his suits are designed to improve the corporate image.

The arrangement involves two tax breaks — "wardrobe analysis" and "suit leasing" — marketed by the Haas Tailoring Co. of Baltimore and its affiliate, the Guilford Leasing Co.

The result: Corporations now can lease suits for their executives just as they lease cars for salesmen and railroad freight cars to transport their goods. Part of the cost is a tax-deductible business expense, while part of it is considered income to the executive.

"We weren't sell tax loopholes five years ago; it worked out that Irving Neuman, president of both Guilford. "We set up Guilford Leasing to more business for leasing."

At first, he said suits were not too

"Our people were going into the suit business," Neuman said. "Companies wanted to tax status of suits. We kept telling them we don't sell suits; they should ask lawyers."

When it became clear that Guilford was not going to ground until the suit was resolved, Neuman said, the company lawyers to raise the question. "That's how we found the tax suit," he said. "Since the whole thing was crazy."

Word of the suit leasing through the world. Some Guil-

DEPARTMENT OF COMMERCE

Bureau of Economic Analysis

15 CFR Part 806

Survey of Foreign Direct Investment in U.S. Fish and Seafood Processing Industries

AGENCY: Bureau of Economic Analysis, Commerce.

ACTION: Final rule.

SUMMARY: This action amends 15 CFR Part 806 to provide for the BE-21—Survey of Foreign Direct Investment in U.S. Business Enterprises Engaged in the Processing, Packaging, or Wholesale Distribution of Fish or Seafoods. The purpose of the survey is to secure information on foreign direct investment in U.S. fish and seafood processing firms in order to analyze the market shares and impact of their operations on the domestic fish and seafood processing and wholesaling industries, and ultimately, the U.S. fishing industry.

There has been a continuing Congressional interest in foreign involvement in the U.S. fishing industry and the Magnuson Fishery Conservation and Management Act (Pub. L. 94-265) requires a phaseout of foreign involvement within our territorial seas as U.S. capacity develops. Barriers in the processing and marketing area may impede development of U.S. fishing capacity.

EFFECTIVE DATE: This rule is effective December 9, 1981.

FOR FURTHER INFORMATION CONTACT: George R. Kruer, Chief, International Investment Division, Bureau of Economic Analysis, U.S. Department of Commerce, Washington, D.C. 20230, (202) 523-0657.

SUPPLEMENTARY INFORMATION: In the July 6, 1981 Federal Register, Volume 46, No. 128, (46 FR 34812) BEA published a notice of proposed rulemaking to amend 15 CFR Part 806 to provide for this survey. In the July 15, 1981 Federal Register, Volume 46, No. 135, (46 FR 3715) the due date for comments was extended to August 6, 1981. Comments received in response to the notice of proposed rulemaking were considered in making this final rule, but did not result in any changes in the planned rules and survey form. No substantive changes have been made; some clarifying wording has been added.

The survey will consist of three forms: (1) Form BE-21P, "Identification Questionnaire," which is to be completed in advance of the other two forms and will be used to prepare a mailing list for the two statistical reports, Forms BE-21A and BE-21B.

(2) Form BE-21A, "Report for a U.S. Business Enterprise that is a U.S. Affiliate of a Foreign Person," which is to be completed by the U.S. affiliate, i.e., the U.S. business enterprise that is owned to the extent of 10 percent or more, directly or indirectly, by one foreign person, and that engaged in the processing, packaging, or wholesale distribution of fish or seafoods. The form is to cover the fully consolidated U.S. business enterprise, including all subsidiaries that are more than 50-percent owned.

(3) Form BE-21B, "Report for each Establishment of a U.S. Business Enterprise that is a U.S. Affiliate of a Foreign Person," which is to be completed for each establishment, of the U.S. affiliate, that engaged in the processing, packaging, or wholesale distribution of fish or seafoods.

Form BE-21P has been cleared by OMB. Forms BE-21A and B will not be prepared for comment until after the information reported on the BE-21P has been processed.

OMB publishes a notice in the FR of report forms received for clearance, which includes information on securing copies of the submission and to whom comments on the forms should be submitted. When Forms BE-21A and BE-21B have been prepared, they will be submitted to OMB for approval and the public may comment on them during OMB's regular clearance process. BEA itself will not issue any further notices as concerns Forms BE-21A and BE-21B. Forms BE-21A and BE-21B will not become effective until they have been approved by OMB under 44 U.S.C., Chapter 35, as amended.

All legal authorities, provisions, definitions, and requirements contained in 15 CFR 806.1 through 806.13 and 806.15 (a), (b), (c), (e), and (f) are also applicable to this survey.

The Bureau of Economic Analysis has determined that this rule is not "major" under Executive Order 12291. The public use burden will be undertaken within the Department of Commerce allocated FY 1982 Information Collection Budget ceiling.

Regulatory Flexibility Act—The provisions of the Regulatory Flexibility Act relating to a final rule are not applicable to this final rule, because it will not have a significant economic impact on a substantial number of small entities. As indicated in the material submitted to OMB requesting clearance of the form and the proposed rule, only 4,000 entities are expected to be subject to the reporting requirements of the Identification questionnaire, Form BE-21P. Not all of these are small entities and the average completion time will not exceed one-half hour. For those who

have to complete the full questionnaire, the burden should not exceed one hour. The number of enterprises estimated to be required to complete the statistical reports—Forms BE-21A and B—is only 60. Most of these will be large firms.

Copies of these forms may be obtained from the Bureau of Economic Analysis.

Accordingly, it is hereby certified under provisions of the Regulatory Flexibility Act (5 U.S.C. 606(b)), that this rule will not have a significant economic impact on the substantial number of small entities.

Part 806 is therefore modified as set forth below.

Sherman E. Unger,
General Counsel

PART 806—DIRECT INVESTMENT SURVEYS

The following subparagraph (j)(5) is added to § 806.15(j):

§ 806.15 Foreign direct investment in the United States.

(j) Other report forms

(5) BE-21—Survey of Foreign Direct Investment in U.S. Business Enterprises Engaged in the Processing, Packaging, or Wholesale Distribution of Fish or Seafoods. Reporting consists of:

(i) Form BE-21P—Identification Questionnaire. A completed questionnaire is required from (a) each U.S. business enterprise that is a U.S. affiliate of a foreign person and that engaged in the processing, packaging, or wholesale distribution of fish or seafoods, and (b) any person to whom a questionnaire is sent by BEA.

(ii) Form BE-21A—Report for a U.S. Business Enterprise that is a U.S. Affiliate of a Foreign Person. A completed report is required from each U.S. business enterprise that is a U.S. affiliate of a foreign person and that engaged in the processing, packaging, or wholesale distribution of fish or seafoods.

(iii) Form BE-21B—Report for each Establishment of a U.S. Business Enterprise that is a U.S. Affiliate of a Foreign Person. A completed report is required for each establishment, of the U.S. affiliate, that engaged in the processing, packaging, or wholesale distribution of fish or seafoods.

House Of Representatives**

Foreign Investment In U.S. Seafood Processing Industry Difficult To Assess

Foreign investment in the U.S. seafood processing industry has increased in recent years, but its extent and impact are uncertain.

Some industry and public officials are concerned that dependency on foreign sources of capital is causing U.S. processors to lose control of the industry.

Complete and actual disclosure of investment data is lacking, making analyses difficult. GAO raises significant questions concerning the effect of this investment.

CED-81-65
MARCH 30, 1981

Request for copies of GAO reports should be sent to:

**U.S. General Accounting Office
Document Handling and Information
Services Facility
P.O. Box 6015
Gaithersburg, Md. 20760**

Telephone (202) 275-6241

The first five copies of individual reports are free of charge. Additional copies of bound audit reports are \$3.25 each. Additional copies of unbound report (i.e., letter reports) and most other publications are \$1.00 each. There will be a 25% discount on all orders for 100 or more copies mailed to a single address. Sales orders must be prepaid on a cash, check, or money order basis. Check should be made out to the "Superintendent of Documents".

DEVELOPMENT DIVISION

B-202302

The Honorable Les AuCoin
U.S. House of Representatives

Dear Mr. AuCoin:

In response to your October 3, 1979, request and discussions with your office, this report discusses foreign investment in the U.S. seafood processing industry. It deals with the extent and nature of foreign investment and the impact of such investment.

As agreed with your office, we are sending copies of this report to congressional committees and the heads of departments and agencies whose programs we discuss. Copies are also being sent to appropriate interested parties and will be available to others upon request.

Sincerely yours,

Henry Eschwege
Director

**GENERAL ACCOUNTING OFFICE
REPORT TO THE
HONORABLE LES AUCOIN
HOUSE OF REPRESENTATIVES**

**FOREIGN INVESTMENT IN
U.S. SEAFOOD PROCESSING
INDUSTRY DIFFICULT TO ASSESS**

D I G E S T

Recent increases in foreign investment in the U.S. seafood processing industry have caused concern among industry and public officials that U.S. owners and managers are losing control of the industry. They fear that foreign investors may unduly influence U.S. production, marketing, pricing, and fisheries development.

In response to a congressional request, GAO studied the extent and nature of foreign investment and its impact on the seafood processing industry.

EXTENT OF FOREIGN INVESTMENT

GAO identified 61 U.S. seafood processing firms with foreign ownership. The majority were in Washington, Oregon, and Alaska, and the remaining firms were in six east coast States. (See pp. 4 to 13.)

GAO also identified 27 U.S. seafood processing firms located in Washington, Alaska, and on the east coast which had loans from foreign sources. Sixteen of the firms also had foreign ownership. (See pp. 4 to 11.)

**DATA ON FOREIGN INVESTMENT
IS INCOMPLETE**

Federal and State Government information on the extent of foreign investment in seafood processors is incomplete. The Commerce Department's Bureau of Economic Analysis is the principal Federal source for foreign ownership data. However, the Bureau's data classification procedures, consolidated reporting practices, and

filing exemptions prevent a complete and accurate disclosure of foreign ownership in a specific industry such as seafood processing. (See p. 14.)

Another Commerce Department agency, the Office of Foreign Investment in the United States, has primary responsibility for analyzing the effects of foreign investment. Until recently, however, the Office had not studied the seafood processing industry because the Office considers it to be a minor industry. In response to two congressional requests in 1979, the Office agreed to assess the extent and impact of foreign investment on seafood processors. The Office plans to issue this report in late 1981. (See pp. 15 to 16.)

Most of the States covered by GAO's review did not require firms doing business in their States to disclose foreign investment. Alaska requires disclosure of foreign ownership but not foreign loans. Enforcement of this requirement, however, has been lax. In 1980 Alaska enacted changes to strengthen its foreign ownership disclosure requirement. (See pp. 17 to 18.)

VARYING AND INCONCLUSIVE EFFECTS OF FOREIGN INVESTMENT

GAO found no consensus on the effects of foreign investment on seafood processors. While some industry and public officials believed that foreign investment affected seafood processors, others could discern little or no effect. Some believed that foreign investors may manipulate the industry while others believed that foreign investment supplies necessary and beneficial funds to U.S. seafood processors. (See pp. 20 to 31.)

The uncertainty and lack of consensus among seafood processors was highlighted by the results of GAO's industry questionnaire. Many respondents were reluctant

to answer certain questions or said they had no basis to judge the impact of foreign investment. (See apps. I to VI.)

ISSUES AND OBSERVATIONS

While a complete understanding of foreign investment is hindered by the absence of data and the lack of agreement among knowledgeable officials, GAO noted several potentially important observations and related questions.

1. A high percentage of foreign investment originates from relatively few companies within one country (Japan). Does such concentration potentially lessen competition and impede free operation of the marketplace?
2. Foreign investors may use a variety of indirect investment methods to gain control of seafood processors. To what degree does such indirect investment hinder the identification of the full extent, nature, and effects of foreign investment?
3. The percentage of the industry's total output that is produced by processors with foreign investment is unknown, as is the relationship between foreign ownership and production in individual processors. Can and should this information be gathered, considering that it would require access to confidential processor information?
4. Foreign representatives are sometimes placed on the board of directors or as executive officers of U.S. seafood processors. Does such action result in processors operating in a manner contrary to U.S. economic policies?
5. Foreign investors may specify certain provisions, such as the right to acquire a portion of a processor's production, in loan agreements with U.S. processors. To what extent do such actions adversely affect the industry's natural market fluctuations?

In deciding whether to explore these questions, consideration needs to be given to the

- expense further study would entail,
- burden further reporting requirements would place on seafood processors,
- possible discouragement of needed investment capital from foreign sources if Federal reporting requirements are increased, and
- results of the Office of Foreign Investment's 1981 study of the extent and impact of foreign investment in seafood processors.

Other economic and social concerns, such as how other industries may be affected by changes in the seafood processing industry, also need to be considered.

AGENCY COMMENTS AND GAO's EVALUATION

GAO furnished a draft of this report to the Department of Commerce and portions of the draft to the State of Alaska for comment. The Commerce Department generally agreed with GAO's observations and conclusions. The agency and the State of Alaska suggested that certain changes be made to add to or clarify information in the report. GAO considered each of the suggestions and made changes where appropriate.

CHAPTER 1
INTRODUCTION

On October 3, 1979, the Chairman, Ad Hoc Select Subcommittee on Maritime Education and Training, House Committee on Merchant Marine and Fisheries, asked us to gather data on the extent and nature of foreign investment and its impact on the U.S. seafood processing industry. The chairman expressed concern about the apparent marked increase in foreign ownership in the seafood processing industry, especially in the Pacific Northwest and Alaska, since implementation of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 et seq.). The chairman was also concerned about the apparent inadequate information on the extent of foreign investment and its influence on the U.S. fishing industry's development. 1/

PROFILE OF THE SEAFOOD PROCESSING INDUSTRY

The seafood processing industry has many relatively small, privately held firms. Many seafood processors also have few employees. For example, the Economic Development Council of Puget Sound, a nonprofit organization, reported that in Washington State, 48 firms employed fewer than 10 persons in 1979 and only 43 firms employed more than 50 persons; only 2 of these firms employed more than 1,000 persons.

The National Marine Fisheries Service (NMFS) reported that in 1978 there were about 1,500 seafood processing firms in the United States, excluding Alaska. The State of Alaska reported that in 1979 there were 174 seafood processing firms in the State. Some of these firms, however, operate more than one plant. For example, one firm in Alaska had 11 processing plants and another firm had 9 plants.

Many processors had relatively low gross dollar sales. The following table summarizes the 1979 gross revenues of the 260 seafood processors we surveyed (see app. I).

<u>1979 gross operating revenues</u>	<u>Percent</u>
Less than \$250,000	24
\$250,000 to \$499,999	7
\$500,000 to \$999,999	13
\$1,000,000 to \$4,999,999	27
\$5,000,000 to \$9,999,999	12
Over \$10,000,000	<u>17</u>
Total	<u><u>100</u></u>

1/The subcommittee was not continued for the 97th Congress.

Also, the large majority of these processors were privately owned firms.

PRIOR GAO REPORTS ON FISHERY
AND FOREIGN INVESTMENT MATTERS

We have issued several reports in recent years that cover various fishery and foreign investment issues. These reports include:

- "Developing Markets For Fish Not Traditionally Harvested By The United States: The Problems And The Federal Role" (CED-80-73, May 7, 1980). This report discussed the U.S. fishing industry's opportunities to make greater use of fish species that have not been traditionally harvested. We reported that the Federal Government could help the industry to develop nontraditional species by providing financing, consumer education, and quality control programs and by helping to ease trade barriers. We also reported that even though foreign investment is a financing source for U.S. fisheries, concern has been expressed that increased foreign investment may inhibit the United States from developing nontraditional species.
- "Foreign Direct Investment In The United States--The Federal Role" (ID-80-24, June 3, 1980). This report stated that the United States has become increasingly attractive to foreign investors. We recommended that greater emphasis be placed on analyzing and publishing studies concerning the economic impact of foreign direct investment.
- "Should Canada's Screening Practices For Foreign Investment Be Used By The United States?" (ID-79-45, Sept. 6, 1979). This report concluded that a foreign investment screening agency in the United States was not needed at that time.

OBJECTIVES, SCOPE, AND METHODOLOGY

In response to the subcommittee's request, we gathered and reviewed data on the extent and nature of foreign investment in the seafood processing industry in Washington, Oregon, and Alaska. Because seafood is also an important industry in certain east coast areas, we collected foreign investment data in six other States--Connecticut, Massachusetts, New Hampshire, New Jersey, New York, and Rhode Island. We examined two types of foreign investment--ownership or equity interest and loans to seafood processors

from foreign sources. In addition, we gathered information on the impact of foreign investment on the seafood processing industry.

We used various techniques to gather information and analyze the extent and impact of foreign investment. We analyzed responses to a GAO-prepared questionnaire that we sent to seafood processors in Washington, Oregon, Alaska, Connecticut, Massachusetts, New Hampshire, New Jersey, New York, and Rhode Island. Appendix I is a detailed explanation of our questionnaire methodology. Questionnaire responses are in appendixes II through VI. Congressman AuCoin agreed to confidentiality for respondents.

To obtain further data on the extent, nature, and impact of foreign investment, we met with Federal and State Government officials, interviewed seafood industry representatives, and reviewed pertinent studies on foreign investment. We met with headquarters officials and reviewed any foreign investment disclosure requirements at the Departments of Commerce, State, and Justice; the Securities and Exchange Commission; and the Federal Trade Commission. Within the Department of Commerce, we met with headquarters officials from the Bureau of Economic Analysis (BEA), Bureau of the Census, Office of Foreign Investment in the United States (OFIUS), and NMFS. We also met with regional NMFS officials in Juneau, Alaska; Seattle, Washington; and Gloucester, Massachusetts. In addition, we met with officials of the North Pacific Fishery Management Council in Anchorage, Alaska, and the Pacific Fishery Management Council in Portland, Oregon, to obtain further foreign investment information. At the State government level, we met with officials from Washington, Oregon, Alaska, and Massachusetts involved with fishery activities and commerce and economic development.

CHAPTER 2

FOREIGN INVESTMENT IS CONCENTRATED

IN WASHINGTON, OREGON, AND ALASKA

Considerable foreign investment in U.S. seafood processors is found in Washington, Oregon, and Alaska. The pre-dominate foreign investors in these States are Japanese fishing and trading companies. In six east coast States, foreign investment originates from Canada, Iceland, Norway, and Great Britain. In our review of nine west and east coast States, we identified 61 U.S. seafood processing firms with foreign ownership and 27 firms with foreign loans. This investment appears to be an increase over the last Federal estimate--a 1974 Department of Commerce study--that identified 47 seafood processing firms nationwide having foreign ownership of 10 percent or more. The Department of Commerce stated that more than half the firms received these investments since 1970.

Foreign firms invest in the U.S. seafood processing industry primarily to gain access to fishery products and for profitmaking opportunities. Favorable foreign exchange rates have also encouraged investment in the United States.

FOREIGN INVESTMENT IN WASHINGTON AND OREGON

Foreign ownership

Although the extent of foreign ownership in Washington and Oregon seafood processors is unknown, we identified 29 processing firms in these States with foreign ownership interest. Twenty of these firms had Japanese ownership. Together, Washington and Oregon have about 200 seafood processing firms.

Through our questionnaires we identified 15 seafood processing firms in Washington and Oregon with foreign ownership--14 in Washington and 1 in Oregon. Two consulting firms' reports to various governments identified foreign ownership in an additional 14 seafood processors.

A consulting firm under contract with the Pacific Northwest Regional Action Planning Commission (a regional inter-governmental planning body) compiled data on the extent of foreign ownership in companies operating in Washington, Oregon, and Idaho during 1979. The consultant's report covered foreign investment in manufacturing, nonmanufacturing

(including seafood processing), resource acquisitions, and financial corporations. The consultant identified six additional seafood processing firms with foreign ownership that were not disclosed in responses to our questionnaire--five in Washington and one in Oregon. According to the consultant's 1980 report

"* * * the extent of nondomestic investments made in the Pacific Northwest is growing rapidly and may represent a more important factor to the economy than previously recognized. The exact size and scope is virtually impossible to define because of the complicated corporate structures of many foreign investors, the low visibility maintained by many foreign-owned companies, and the lack of broad reporting requirements."

A 1977 State of Alaska contracted study of foreign investment in that State (see p. 8) identified eight additional processing firms headquartered in Washington with foreign ownership. These firms were not disclosed in response to our questionnaire nor included in the consultant's study. The eight firms were still operating during our review.

The following schedule shows that at least 20 of the 29 processing firms had Japanese ownership.

Origin of Foreign Owners

<u>Country of investor</u>	<u>Washington</u>	<u>Oregon</u>	<u>Total</u>
----- (number of firms) -----			
Japan	19	1	20
Canada	3	0	3
Mexico	0	1	1
United Kingdom	1	0	1
U.S.S.R.	1	0	1
Unknown	<u>3</u>	<u>0</u>	<u>3</u>
Total	<u>27</u>	<u>2</u>	<u>29</u>

Japanese ownership consisted of a variety of direct and indirect investments. For example, some U.S. processors were wholly or partially owned by Japanese companies; however, other processors may have been owned by U.S. subsidiaries of Japanese companies. In other cases, a U.S. processor may have been owned by another U.S. processor who in turn was owned by a Japanese company.

For 19 of the 20 firms in which ownership data was available, Japanese ownership in Pacific Northwest processing firms ranged from 9 to 100 percent. The most frequent Japanese investors were Marubeni Corporation, which invested in nine firms; Nippon Suisan Kaisha and Nichiro Gyogyo Kaisha, which each invested in three firms; Kyokuyo Company, which invested in two firms; and Taiyo Fishery Company, Fuji Marine Limited, Mitsubishi Corporation, and Mitsui and Company, which each invested in one firm. Some processing firms had more than one Japanese investor.

The known Canadian investors were Rupert's Certi-Fresh Foods, which had 100-percent ownership of one U.S. processor, and a Canadian family, which owned 23 percent of another U.S. processor. Dalgety Limited, a United Kingdom firm, had 100-percent ownership in one processor. The Mexican investor, Poroduc Pesquera del Pacifico, owned 50 percent of one processor. The U.S.S.R. owned 50 percent of one U.S. firm.

Many foreign owners are represented
in processors' operations

Many Washington and Oregon processing firms with foreign ownership also had foreign representatives on their board of directors or serving as executive officers. Thirteen of the 15 firms with foreign ownership identified by our questionnaire answered questions about foreign representation. Twelve of the 13 processors said that they had foreign representatives on their board of directors and 8 had foreigners serving as executive officers. Eight firms had both foreign board members and foreign officers.

In terms of size, 10 of the 13 foreign-owned firms responding to this portion of our questionnaire had assets exceeding \$1 million. All 13 firms had gross revenues in excess of \$1 million for 1979. Five firms had more than \$10 million in assets and gross revenues.

Foreign loans

Twenty-seven processing firms responding to our questionnaire said that they had foreign loans in 1979--15 of those firms were in Washington. At least 12 of these 15 processors received their loans from Japanese sources. Eight of the 15 processors also had foreign ownership. None of the responding Oregon processors said that they had loans from foreign sources.

Although the majority of foreign loans were less than \$500,000, we noted six firms with at least \$1 million in

foreign loans. Also, as the following schedule shows, foreign loans generally comprised a significant portion of the outstanding debt.

Washington State Processors
Total Outstanding and Foreign Debt in 1979

<u>Amount</u>	<u>Outstanding debt</u>	<u>Foreign debt</u>
	----- (number of processors) -----	
Less than \$250,000	4	5
\$250,000 to \$499,999	2	3
\$500,000 to \$999,999	1	1
\$1,000,000 to \$4,999,999	4	4
\$5,000,000 to \$9,999,999	1	0
Over \$10,000,000	<u>3</u>	<u>2</u>
Total	<u>15</u>	<u>15</u>

Some foreign loans to Washington processors had certain loan conditions. For example, five processors said that their loans provided for the foreign lender to acquire a portion of the processors' production, and four processors' loans called for a representative of the foreign lender to serve as a technician in the processing plants.

FOREIGN INVESTMENT IN ALASKA

Foreign ownership

As with Washington and Oregon processors, the extent of foreign ownership in Alaska seafood processors is unknown. The State of Alaska reported that in 1979 there were 174 seafood processing plants in the State. Through our questionnaire we identified 14 seafood processing firms in Alaska with foreign ownership. A January 1980 study contracted by the State of Alaska identified 23 additional seafood processors with foreign ownership. As shown below, at least 32 of the 37 processing firms had Japanese ownership.

Origin of Foreign Owners in Alaska Processing Firms

<u>Country of investor</u>	<u>Number of firms</u>
Japan	32
Canada	2
Netherlands	1
Unknown	<u>2</u>
Total	<u>37</u>

Sixteen of the 37 processing firms also operated in Washington and are included in the Washington and Oregon section of this chapter.

The Alaska study was performed by a consulting firm at the request of the State House of Representatives Interim Committee on Foreign Investment. Among other things, the committee requested the consulting firm to determine the extent of foreign ownership. The consultant reported that the State's files and records used as the basis for identifying foreign investors were missing information and contained incorrect information. The study stated that because the State of Alaska had incomplete ownership data, there could be many more firms having foreign ownership. Therefore, according to the report, " * * * it was not possible to determine ownership for a number of business entities * * *."

Extensive Japanese ownership in Alaska processors

For 30 of the 32 firms in which ownership data was available, Japanese ownership in Alaska seafood processors ranged from less than 10 percent to 100 percent. As in Washington and Oregon, Japanese ownership may occur directly or through ownership in another company. The following schedule shows the extent of Japanese ownership in 30 Alaska processors.

Extent of Japanese Ownership in Alaska Seafood Processors in 1977

<u>Percent of ownership</u>	<u>Number of firms</u>
100	4
90 to 99.9	3
50 to 89.9	7
25 to 49.9	a/9
Less than 25	<u>7</u>
Total	<u>30</u>

a/Includes one processing firm with 40 percent preferred stock investment.

Marubeni Corporation, a Japanese trading company, had ownership interest in at least 15 Alaska processors. Nippon Suisan Kaisha, a Japanese fishing company, had ownership interest in four processing firms. Accordingly, as many as

19 of the 30 processing firms with identified Japanese investment had an ownership interest by just two Japanese investors. Other Japanese firms that had invested in more than one Alaska processor include Mitsubishi Corporation, a trading company, and Kyokuyo Company, a fishing company.

The two Alaska processors with Canadian owners are both headquartered in Washington. One firm is wholly owned by a Canadian firm that has both Canadian and U.S. interests. The other firm is 23 percent Canadian owned. The processor with ownership from the Netherlands is 40 percent owned by a Netherlands citizen.

Foreign representatives involved in Alaska operations

Like firms in Washington and Oregon, many Alaska processing firms with foreign ownership had foreigners serving on their board of directors or as executive officers. Twelve of 14 processors that responded to our questionnaire were corporations. Ten of the 12 processors told us that they had foreign representatives on their board of directors and 8 had foreign executive officers. Eight firms had both foreign board members and foreign officers.

Ten of the 14 processors with foreign ownership had assets over \$1 million, and 11 had gross revenues over \$1 million for 1979.

Foreign loans

The extent of foreign loans to Alaska processors, like those to Washington firms, is considerable, and most loans are from Japanese investors. Seven Alaska processing firms that responded to our questionnaire said that they had foreign loans; six had loans from Japanese sources. The origin of the other loan was not identified. Three of the Alaska processing firms with foreign loans also had foreign ownership investment.

As the following schedule shows, four of the five Alaska processors with outstanding debts over \$1 million were indebted to foreign lenders for amounts exceeding \$1 million.

Alaska Processors
Total Outstanding and Foreign Debt in 1979

<u>Amount</u>	<u>Outstanding debt</u>	<u>Foreign debt</u>
	----- (number of processors) -----	
Less than \$250,000	1	2
\$250,000 to \$499,999	0	1
\$500,000 to \$999,999	1	0
\$1,000,000 to \$4,999,999	3	3
\$5,000,000 to \$9,999,999	1	1
More than \$10,000,000	<u>1</u>	<u>0</u>
Total	<u>7</u>	<u>7</u>

Many of the foreign loans to Alaska processors also had loan conditions. Five processors had provisions for the foreign lenders to acquire a portion of the processors' production, and four processors had provisions for foreigners to serve as technicians in the processing facilities.

FOREIGN INVESTMENT ON THE EAST COAST

Foreign ownership

As in the Pacific Northwest and Alaska, in the six east coast States we surveyed, we were unable to identify the complete extent of foreign ownership in seafood processors. However, we found that at least four foreign countries had invested in east coast seafood processing firms.

NMFS reported that there were about 230 seafood firms in the six east coast States covered by our questionnaire. Through our questionnaire, we identified five seafood processing firms on the east coast with foreign ownership. Using other available sources, including interviews with NMFS and industry officials, we identified six additional processing firms with foreign ownership. Nine of the processors were 100 percent foreign owned. No data was available on the extent of foreign ownership for two processors.

The following schedule shows that investors from at least four foreign countries (Canada, Norway, Iceland, and Great Britain) have invested in east coast seafood processors.

Origin of Foreign Owners

Country of investor	U.S. location						Total
	Mass.	Conn.	N.Y.	Maine	Penna.	N.J.	
	----- (number of processors) -----						
Canada	4	-	-	1	-	-	5
Norway	1	-	-	-	-	-	1
Iceland	-	1	-	-	1	-	2
Great Britain	-	-	-	-	-	1	1
Unknown	<u>1</u>	-	<u>1</u>	-	-	-	<u>2</u>
Total	<u>6</u>	<u>1</u>	<u>1</u>	<u>1</u>	<u>1</u>	<u>1</u>	<u>11</u>

All five east coast processors with foreign ownership that responded to our questionnaire had assets exceeding \$10 million, and four of the processors had 1979 gross revenues exceeding \$10 million. Three of the processors said that they had foreign representatives on their board of directors and one processor had a foreign executive officer.

Foreign loans

Five east coast processing firms that responded to our questionnaire stated that they had foreign loans. All five firms had foreign loans and total outstanding debts in excess of \$1 million in 1979, and all five firms had foreign ownership investment.

FOREIGN INVESTORS WANT ACCESS TO FISHERY PRODUCTS AND PROFIT-MAKING OPPORTUNITIES

The primary reasons that foreign firms invest in U.S. seafood processors are to gain access to fishery products and for profitmaking opportunities. Also, favorable foreign exchange rates encourage investment in the United States.

Access to U.S. fishery products

Seafood processing and Federal officials told us that the primary reason Japanese companies invest in U.S. seafood processors is to have access to a significant and continuous supply of U.S. fishery products. Japan needs this access because it depends on seafood as a source of protein and must look beyond its own fishing industry to meet this demand. U.S. processing firms export considerable amounts of seafood

products to Japan. For example, during 1979 Japan imported about 50 percent of the 195 million pounds of salmon exported by the United States.

According to an NMFS marketing specialist in Seattle, the Japanese have been investing in U.S. processing operations since 1965 when Japanese salmon fishing off Alaska was substantially curtailed. Since Japanese salmon fishing along the U.S. shoreline was restricted, Japanese fishing and trading companies began to seek access to the product by investing in U.S. processors.

Some officials, including a Japanese member of the board of directors of one U.S. processor, told us that the U.S. 200-mile fishery conservation zone, established by the Fishery Conservation and Management Act of 1976, further stimulated Japanese investment. This act allowed the U.S. Government to limit or exclude foreign fishing off U.S. coasts and to impose on both foreign and U.S. fishermen responsibilities for conserving and using the fishing resources within the 200-mile zone. The Japanese official's company--one of Japan's major international fishing companies--had an ownership interest in at least four U.S. processing firms to assure a supply of fish products for the Japanese market.

Profitmaking opportunities

Foreign investors have sought profitmaking opportunities in several ways. First, by gaining access and control of fishery products, the foreign owners can profit from the subsequent resale of those products. Second, foreign owners have an opportunity to expand the marketing of their own fishery products in the U.S. through the processing firms they have invested in. Third, foreign owners hope to earn a return on their ownership interest in U.S. processors.

According to a 1974 Department of Commerce report on foreign investment, expanding market opportunities for a foreign company's products appears to be the primary reason Canadian, Icelandic, Mexican, and Norwegian firms invest in U.S. processors. U.S. affiliates of investors from these countries import considerably more seafood products than they export.

Favorable foreign exchange rates encourage foreign investment

Changes in the exchange rate between the U.S. dollar and foreign currencies affect the desire of foreigners to invest in U.S. seafood processors. Japan's Ministry of Finance attributes the sharp increase in Japan's 1978 overseas investment primarily to the appreciation in the value of the yen vis-a-vis the dollar. Between January 1976 and December 1977 the yen-to-dollar exchange rate ranged from about 304 to 240 yen to the dollar. In 1978 the yen further strengthened--the yen-to-dollar exchange rate fell to 176 yen to the dollar by October 1978. With a stronger yen, Japanese investors could purchase more for their money.

CONCLUSIONS

Considerable foreign investment--primarily Japanese--exists in U.S. seafood processors in Washington, Oregon, and Alaska. Significantly less foreign ownership and foreign loans are found in east coast States. The extent of known foreign investment, however, is relatively small compared with the total number of seafood processors operating in Washington, Oregon, and Alaska and the six east coast States included in our review. Although we identified many foreign investors in Alaska, the complete extent of foreign investment in Alaska and other States is unknown. Chapter 3 discusses Government efforts to identify foreign investment.

Primary reasons for foreign investment in U.S. seafood processors include assuring access to U.S. fishery products, seeking profitmaking opportunities, and favorable foreign exchange rates. How foreign investment has affected the U.S. seafood processing industry is described in chapter 4.

CHAPTER 3
GOVERNMENT DATA ON FOREIGN INVESTMENT
IS INCOMPLETE

Federal and State Government information on the extent of foreign investment in the U.S. seafood processing industry is incomplete. Federal agencies are not required to maintain a record of U.S. seafood processors that have foreign ownership or foreign loans. Also, most of the States in our review did not require firms to disclose foreign ownership or loans. Although Alaska, an important fishing State, does require firms to disclose foreign ownership, the State has been lax in enforcing this requirement and does not require foreign loans to be disclosed.

SHORTAGE OF FEDERAL DATA ON FOREIGN INVESTMENT IN SEAFOOD PROCESSORS

Federal agencies have incomplete information on foreign investment in the seafood processing industry. The Department of Commerce is the primary Federal agency responsible for collecting and analyzing data on foreign direct investment.^{1/} Within the Department, BEA is the principal source for foreign investment data. Other Department offices--OFIUS, NMFS, and the Bureau of the Census--also keep certain foreign investment data. Collectively, however, these Federal agencies have incomplete data on foreign investment in the U.S. seafood processing industry.

Bureau of Economic Analysis

BEA's data classification procedures, consolidated reporting practices, and filing exemptions prevent a complete and accurate disclosure of foreign investment in a specific U.S. industry such as seafood processing.

^{1/}Investment resulting in 10 percent or greater foreign ownership.

BEA classifies its survey data into broad industry categories that do not separately identify seafood processors. Also, BEA permits companies to report on a consolidated basis all of a firm's divisions and subsidiaries. This practice hinders identifying large companies with seafood processing divisions. Moreover, when more than 50 percent of a company's outstanding voting stock is owned by a parent company, BEA allows the parent company to be the sole reporting entity. Since seafood processors are often linked with companies in other industries, seafood processing data could be combined with other industries and not separately classified.

Moreover, because BEA does not collect data from businesses having assets, net sales or gross revenues, and net income of less than \$5 million in a reporting year for annual surveys, its current foreign investment data may be understated. Our questionnaire showed that at least 71 percent of the responding processors had assets or gross operating revenues under \$5 million. As a result, many seafood processors with foreign ownership may be exempt from BEA's minimum annual reporting level.

Office of Foreign Investment in the United States

OFIUS has primary responsibility for analyzing the effects of foreign investment. Even so, it has not studied foreign investment in the seafood processing industry, primarily because OFIUS officials consider seafood processing to be a minor industry. However, OFIUS has received several requests for studies on foreign investment in the industry.

OFIUS was established in 1975 to (1) develop a consistent and timely data collection and processing system on foreign direct investment in the United States, (2) evaluate and report on the impact of foreign direct investment, and (3) prepare reports for publication. OFIUS, however, collects only publicly reported data, such as data found in newspapers and filings with Federal agencies.

OFIUS has the authority to decide which foreign investment activities it will study. According to OFIUS officials, priority is given to studying foreign investment activities in major industries such as manufacturing, finance, insurance, petroleum, and real estate, where most foreign investment occurs. OFIUS, however, has received requests from various Members of the Congress concerning foreign investment in seafood processors. In June 1979 Senator Ted Stevens of Alaska requested OFIUS to conduct a joint Federal/State of Alaska study on the extent and impact of foreign investment in Alaska.

seafood processors. In September 1979 Senator Warren Magnuson of Washington asked the Commerce Department to study the extent and effects of Japanese investment in the U.S. fishing industry. These requests have been consolidated into a single study. To conduct its study, OPIUS plans to survey the industry and issue its report in late 1981.

National Marine Fisheries Service

Although NMFS gathers various data from the seafood processing industry, it does not collect data on foreign investment. NMFS gathers annual fishery production data from seafood processing plants. However, according to headquarters officials, NMFS is concerned with what and how much seafood each plant processes and not with who owns the plants.

Bureau of the Census

In the past, the Bureau of the Census collected relatively little information on foreign ownership. Recent attempts to collect the information, however, do not adequately identify foreign ownership in the seafood processing industry.

During the September 1978 hearings before the Subcommittee on Commerce, Consumer, and Monetary Affairs, House Committee on Government Operations, the Associate Director for Economic Fields, Bureau of the Census, stated that

"Census participation in the measurement of foreign ownership has been minimal * * * Census has no surveys or programs specifically designed to collect information on foreign ownership, nor are any funds budgeted by the Congress to Census for this purpose."

Recognizing, however, the increasing importance of foreign investment information, several years ago Census supplemented an existing survey to include questions about ownership. The annual survey included a question on whether a foreign entity owns 10 percent or more of the voting stock or other equity rights of the reporting company. If the answer is yes, the reporting company is asked to provide the name and home office address of the owning entity and its ownership percentage.

The survey, however, does not provide complete data to identify foreign ownership in the seafood processing industry because it excludes single-establishment (single plant) firms and partially excludes multi-establishment (multi-plant) firms with fewer than 50 employees.

**WASHINGTON AND OREGON DO NOT
REQUIRE DISCLOSING FOREIGN INVESTMENT**

Neither Washington nor Oregon require firms in their States to disclose foreign ownership or loans from foreign sources. According to officials in these States, neither State government has expressed concern about the extent or effects of foreign investment in seafood processors.

Oregon requires corporations operating in the State to register and file an annual report disclosing the place of incorporation, identity of the registered agent, names and addresses of principal officials, and the nature of the business activity conducted in the State. Similarly, Washington requires registration and an annual report disclosing the place of incorporation, and if that location is out of State, the address of the principal offices. It also requires firms to identify the registered agent and the officers and directors of the corporations and the business activity conducted in that State.

Although neither Washington nor Oregon requires firms to identify foreign owners or foreign lenders, the Pacific Northwest Regional Action Planning Commission (a Federal/State partnership entity) contracted for studies on the extent of foreign ownership in Pacific Northwest industries. The consulting firm reported on the extent of foreign ownership investment in 1975 and 1979. However, these studies did not analyze the effects of foreign ownership or foreign loans.

**ALASKA REQUIRES DISCLOSING
FOREIGN OWNERSHIP--BUT COMPLIANCE
HAS BEEN QUESTIONABLE**

Alaska requires U.S. and foreign corporations doing business in the State to disclose foreign ownership. However, according to a State-hired consultant's report on foreign investment in Alaska, until 1979 the State agency that monitors compliance had been lax in assuring that the required disclosures were made. Lax enforcement was the result of vagueness in State laws and insufficient funds to provide effective enforcement. Alaska does not require that foreign loans be reported.

Alaska's attempts to have foreign ownership reported have not produced complete and accurate information. According to the consultant, many of the required annual reports were delinquent for excessive periods. For example, in October 1979 the State was still processing 1978 forms and taxes. State law permitted corporations to be delinquent up to 9 months from the January filing deadline before taking adverse action against a delinquent corporation. We were also told that Alaska never verified the data reported.

Until 1979 the State never returned or rejected any annual reports that were incomplete. In 1979, however, about 75 percent of the approximately 6,000 nondelinquent reports were returned because they were incomplete.

In 1979 a State-hired consultant reviewed the annual reports for 1977. The consultant found numerous reports with deficient or misleading information. The consultant concluded that the reported data was unreliable because it lacked verification. The Director of the Division of Banking, Securities, Small Loans, and Corporations, Alaska Department of Commerce and Economic Development, stated that increasing the accuracy of report filings would require substantial increases in the number of employees and in the division's budget. He said, however, that the State Legislature has failed to provide sufficient financial support to the division to carry out legislative intent.

Improvements enacted

The consultant proposed statutory and administrative changes to improve the completeness and reliability of disclosures. In June 1980 the Governor of Alaska signed into law amendments intended to strengthen Alaska's foreign ownership disclosure requirements. In September 1980 the chairman of the Alaska House Interim Committee on Foreign Investment said that these amendments should improve foreign ownership disclosure requirements and that further changes should not be necessary. He added, however, that the legislature must still provide funding to carry out the additional administrative duties.

MASSACHUSETTS DOES NOT REQUIRE DISCLOSING FOREIGN INVESTMENT

Like Washington and Oregon, Massachusetts does not require firms in the State to disclose foreign investment. The Corporations Division of the Massachusetts Secretary of State's office requires firms incorporated in the State to

file an annual statement of condition. However, the statements only require a firm to disclose its name, address, outstanding stock, and the names and addresses of its principal officers. A representative of the Secretary of State's office said that the agency has no responsibility to monitor foreign investment.

Within the State's Department of Commerce and Development, the Foreign Business Council maintains a listing of foreign-owned firms, including seafood processors. The listing, however, does not include the investment amount. According to a Council official, the purpose of the Council is to promote foreign investment.

CONCLUSIONS

Although various Federal agencies collect data on foreign investment, no single agency maintains a complete record of foreign investment in U.S. seafood processors. Basically, foreign investment information is not available because (1) data gathering and reporting practices prevent collecting accurate data on foreign involvement and (2) the processing industry is relatively small, thus receiving a low priority from those Federal agencies monitoring foreign investment in U.S. industries.

Certain State governments in important fishing areas also do not have data on foreign investment since they do not require firms to disclose any foreign affiliation. Even Alaska, a State that requires foreign ownership disclosure, has not strictly enforced the requirement. Although recent modifications are expected to improve the disclosure of foreign ownership in Alaska businesses, the legislature must still provide funding to carry out these improvements.

Since neither the Federal nor State Government authorities maintain complete data on foreign ownership or loans, the actual extent of foreign investment may be significantly greater than that presently identified. This lack of complete information on foreign investment in the U.S. seafood processing industry is likely to continue if current Federal data collection practices and most State disclosure requirements remain unchanged.

CHAPTER 4

SEAFOOD PROCESSORS AND GOVERNMENT

OFFICIALS IDENTIFIED FAVORABLE AND UNFAVORABLE

EFFECTS OF FOREIGN INVESTMENT

Through our interviews with industry and Government officials and the responses we received from our questionnaire, we found no consensus on the effects of foreign investment. While some industry and public officials believed that foreign investment affected seafood processors, others could discern little or no effect.

Those processors who believed that foreign investment did affect their firms listed a variety of effects; however, their comments can be grouped into two main areas:

- How foreign investment affects the industry's financial condition.
- How foreign investment affects the industry's operations.

A summary of processors' responses to our questionnaire on the conditions affected by foreign investment are in appendixes II through VI.

To fully understand these industry and Government comments and put them in perspective, the fluctuations in the supply and demand for seafood must also be considered. These factors include fluctuations in the Japanese demand for U.S. seafood products and the large runs of salmon off Japan and Alaska during 1979-80.

HOW FOREIGN INVESTMENT AFFECTS THE INDUSTRY'S FINANCIAL CONDITION

The seafood processing industry is dependent upon securing financing for operating needs. Traditionally, however, U.S. processors have had difficulty obtaining needed funds from U.S. sources; U.S. investors have generally not been interested in this high-risk, low-return industry. Some U.S. processors, however, have been able to attract needed financing from foreign sources--especially Japan.

Difficulties in obtaining loans from U.S. financial institutions

Some processing officials said that they had problems obtaining loans from U.S. lenders. One processing official told us that his firm had been able to secure operating funds from a U.S. bank but had been unable to secure financing for capital needs from U.S. lenders. Loans from Japanese sources, however, were made available because the firm sold a large volume of products to Japanese buyers. As of September 30, 1979, the firm owed Japanese lenders about \$7.5 million. Also, officials of this firm told us that they entered into purchase agreements with Japanese buyers whereby the buyer provided advances to cover operating expenses and the processor in turn agreed to sell that buyer a portion of the processed product.

One processor said that since U.S. investors have shown little interest in the industry, no restrictions should be placed on foreign financial sources. This processor, which is almost entirely Japanese owned, believed that if foreign investments were restricted, many processing firms probably would be forced out of business. Another processor with foreign loans said that without sufficient support from U.S. lenders, investors, and the Government, there is little choice but to work with foreigners. These comments were reinforced by a processor who said, "The problem isn't foreign investment, it's American lack of interest."

We discussed problems in securing financing from U.S. sources in our May 7, 1980, report to the Chairman, House Committee on Merchant Marine and Fisheries, entitled "Developing Markets For Fish Not Traditionally Harvested By The United States: The Problems And The Federal Role" (CED-80-73). We reported that U.S. lending institutions often perceive development of nontraditional fisheries, such as Alaska bottomfish, as a high-risk endeavor. As a result, fishermen and seafood processors face difficulties obtaining financing from commercial lenders as well as from Federal agencies, such as NMFS. Although the NMFS Fishing Vessel Obligation Guarantee and Capital Construction Fund Programs are directed to helping obtain financing for the harvesting sector, they use lending criteria that favor traditional fisheries and limit funds for the development of higher risk, nontraditional fisheries. Also, from both programs Capital Construction Fund money is generally not available to finance shoreside processing facilities. Our report suggested that these programs be expanded to include nontraditional fish processors.

In recognition of the need for some higher risk financing for nontraditional species, NMFS proposed legislative changes to the Fishing Vessel Obligation Guarantee Program to provide guaranteed financing for higher risk vessels in developing fisheries. In addition, NMFS initially proposed extending the Capital Construction Fund Program to shoreside facilities. However, the proposal was withdrawn in December 1979, pending further study. According to an official of NMFS' Financial Assistance Division, this study has been held in abeyance pending congressional action on a Capital Construction Fund proposal under consideration.

On December 22, 1980, President Carter signed the American Fisheries Promotion Act (Public Law 96-561). An earlier version of the bill which passed the Senate would have extended the Capital Construction Fund Program to shoreside processors. However, the final version of the act does not include this extension provision.

Dependency on short-term operating loans

Many seafood processors are also extremely dependent on short-term operating loans from foreign sources. Processors must gear up for their operations each year before the start of the fishing/processing season and must pay fishermen for the raw fish when delivered. Processors, however, do not recover these costs until the processed products are sold. In the interim, these firms face considerable cash flow problems. As a result, operating loans are needed until their finished products are sold. Some processors were willing to accept Japanese loans and sales conditions tied to those loans because doing so provided them with needed operating funds and a market for their products.

Foreign equity/loans have strengthened the financial operating capability of U.S. processors

Some industry and Government officials told us that foreign equity and loans have strengthened the financial operating capability of U.S. seafood processors.

Japanese companies have capital
available and better loan terms

Processors told us that financing was available from Japanese sources that was not available elsewhere and that this financing was available at better loan terms. One processor said:

"* * * Capital has been made available by Japanese companies that was not available from other sources. This capital was, and is, used to expand and develop the industry by providing new and improved processing facilities and pack finance." [1/]

* * * * *

"As prices decline and markets become weak, some marginal operators are unable to survive. Strongly financed operations usually do survive and those entities in the Northwest fish industry, for the most part, have been financed by Japanese companies. This situation has created a misconception on the actual cause of these difficulties and it has been surmised by some that Japanese involvement caused these various problems. In my opinion this is untrue."

A processor with Japanese investment told us that 75 percent of the firm's operating loans are from Japanese banks and 25 percent are from U.S. banks.

The recent (1979-80) high level of U.S. commercial lending rates has inhibited seafood processors' ability to obtain financing from U.S. lenders. The relatively low interest rates charged by Japanese lending sources as compared with U.S. lenders may be sought by U.S. processors either directly or indirectly through a foreign investor. For example, during 1979 Japan's prime lending rate ranged from 3.75 to 6.5 percent. In April 1980 the rate reached 9.25 percent. The U.S. prime lending rate was considerably higher during the same period. For example, the prime rate at the largest commercial bank in the State of Washington, a commonly used lending source for Alaska and Northwest processors, reached 20 percent in early April 1980. In 1979 the prime rate for

1/Financing for canning and other processing activities.

this bank ranged from 11-1/2 to 15-3/4 percent. Consequently, it seems financially desirable for U.S. seafood processors to seek financing from Japanese sources.

Japanese investment has helped
develop Alaska's processing industry

The executive director of the North Pacific Fishery Management Council (Anchorage, Alaska) told us that Japanese investment has helped to develop Alaska's processing sector. According to the executive director of the Pacific Fishery Management Council (Portland, Oregon), many U.S. investors do not understand seafood processing operations and the marketing of seafood products as well as Japanese fishing and trading company officials. An Alaskan investor added that U.S. investors have generally been uninterested because they are unfamiliar with Alaska seafood processing and lower risk, higher return opportunities are available elsewhere.

Another processor stated that when his firm was formed in 1973-74, he tried to secure U.S. sources for equity and operating capital. He discovered, however, that potential U.S. investors and lenders declined financial assistance. As a result, he sought financial assistance from non-U.S. sources and successfully obtained equity and operating assistance from a Japanese company.

HOW FOREIGN INVESTMENT AFFECTS
THE INDUSTRY'S OPERATIONS

Some processors and Federal and State officials have become concerned about the increased dependency of U.S. processors on foreign sources of capital and foreign purchases of U.S. fishery products. Because of this dependency, some U.S. processors believe that foreign investors have the ability to control to their own advantage U.S. processors' operations.

Processors' decisions may be
controlled by foreign investors

An NMFS Seattle official told us that the extensive Japanese investment in U.S. processors leads to some processors' decisions and actions being controlled by their foreign investors. As an example, he cited a proposal by a processor to purchase and convert a barge into a floating processing vessel. NMFS approval is required for such action. He said that when the processor made his proposal, 16 other processors telephoned NMFS to voice opposition to

the conversion. As a result, NMFS scheduled a hearing on the purchase and conversion; however, only 2 of the 16 complaining processors appeared and testified against the conversion at the hearing. He said that he subsequently checked the financial background of the 16 firm and found that the 2 processors that testified did not have foreign financial support while the other 14 processors did.

Some officials from firms with extensive foreign ownership told us that their foreign investors do not become involved in the firm's operations. The president of one firm told us that the Japanese owners do not place any conditions on the firm's operational decisions. Another processor told us that foreign investors have made various suggestions, but they have not been involved in the firm's operational decisions and have not dictated to the firm's management how to run the company. A third processor told us that as long as the invested company had U.S. managers and employees and the foreign investors stayed out of the firm's operations, the foreign investment was not a problem. Although this firm is more than 90 percent Japanese owned and the majority of its board of directors is Japanese, the officials said that the foreign investors do not become involved in daily operations.

In contrast, the vice president of another processor with substantial foreign investment told us that Japanese investor's representatives are at its headquarters offices in Seattle and that all major policies and decisions come from the investor's offices in Japan. An official from a processing firm without foreign investment believed that while Japanese-owned U.S. processors generally do not change management, foreign investors do exert control and influence over the invested firm's policies and operations.

Foreign investors may control production and marketing

Some officials believed foreign investors can control the marketing and production of seafood products because U.S. firms are dependent on Japanese buyers and many loan agreements have buying conditions.

An official from the Alaska Department of Commerce and Economic Development said that since the Japanese consume a large portion of Alaska's fish production, processors have had an easy time selling to Japanese buyers. As a result, the processors have become dependent on those buyers. The chairman of Alaska's Interim Committee on Foreign Investment told us that this dependence is a major problem for the

processing sector. Since marketing the products is tied to the Japanese market, the price received by the U.S. processors is dependent on conditions in that foreign market.

A common stipulation of most foreign loans to U.S. processors is a first right of refusal on the borrower's production. This stipulation gives the lender the option to purchase the processor's products at whatever selling price the processor is offered from other potential buyers. For example, if a potential buyer offers \$1 per pound for a certain species, the loan terms require the processor to first offer the product to the lender at that price. Generally, this option is in effect until the loan is repaid and in some cases for a fixed term after the loan is repaid.

While foreign investment has provided needed financial assistance to U.S. processors, some industry and other officials are concerned about the large amount of foreign investment. As a result, one processor told us that the foreign involvement has tied the U.S. industry to another country. An Alaska Department of Commerce and Economic Development official said that because of the dominant Japanese influence, the State is concerned about the potential for manipulation of the industry because the industry is so closely tied to the Japanese economy. Alaska legislators were also concerned because investors from one foreign country dominate foreign investment in this State.

Foreign investors may control prices

Some seafood processors and Alaska officials expressed concern about the ability of Japanese buyers to get together and discuss pricing strategies. Some processors said that by controlling prices, the Japanese buyers control the activities of most processing firms. The President of the Alaska Senate told us that although he does not believe price fixing has occurred, potential for it exists. However, an official in the Governor's office stated that although there have been allegations of collusive agreement by Japanese buyers, no evidence has been presented to substantiate those allegations.

One processor told us that he believes Japanese fish buyers deliberately raise the price to assure an adequate supply; the processor in turn pays fishermen a high price to assure an adequate supply. The processor said that Japanese buyers are known to break buying agreements. We were told that if the processor tries to get the buyer to honor the agreement, the buyer usually declares that the quality of the product is lower than agreed to and offers to pay a lower

price. The processor told us that Japanese buyers will threaten to try to force the U.S. processor out of business if the processor institutes legal action for noncompliance with the purchase agreement. This practice creates an extremely difficult situation for a U.S. processor.

An official in the Alaska Governor's office said that since processors are so dependent on selling to a particular buyer, if that buyer rejects their product, that processor may not be able to sell to other potential buyers. Some officials told us that Japanese buyers will not buy from a processor that has financial ties with other Japanese investors.

Several processors believed that Japanese buyers set a maximum price that they will pay processors for their product. This practice has created extreme difficulties for both the processing and fishing sectors. For example, in 1979 Alaska processors and fishermen negotiated a price for king crab before the fishing season started. After processors and fishermen agreed to the price, Japanese buying orders arrived at prices that were considerably less than what the processors expected. In some cases, processors had already paid fishermen the previously agreed upon price and therefore faced losses on these products. Subsequently, raw-product purchase prices were reduced, which created financial difficulties for fishermen who had geared up for the season expecting higher prices.

Japanese investment may have a negative impact on Alaska bottomfish development

Foreign ownership can give the investor the potential to influence or control the operations of U.S. seafood processors to the advantage of the foreign investor. As a result, some NMFS, State of Alaska, and processor officials believe the extensive Japanese investments have a negative impact on U.S. bottomfish development. In Alaska, pollock is the dominant bottomfish resource; other abundant species include cod, rockfish, flatfish, and sablefish.

We discussed this concern in our report to the Chairman, House Committee on Merchant Marine and Fisheries, entitled "Developing Markets For Fish Not Traditionally Harvested By The United States: The Problems And The Federal Role" (CED-80-73, May 7, 1980). We reported that concern had been expressed, particularly in Alaska, that the development of nontraditional species may be inhibited because of increasing foreign investment and control over processing firms. We reported that some officials believed Alaska bottomfish development may be slowed because foreign investors may be reluctant

to help develop U.S. bottomfish capabilities. By retarding U.S. bottomfish development, the Japanese can continue to maintain their dominance in harvesting and processing bottomfish fisheries off Alaska. To support U.S. bottomfish development would accelerate the time when foreign operators no longer dominate in the U.S. 200-mile fishing zone off Alaska. Developing U.S. bottomfish capability would reduce bottomfish allocations to foreign countries fishing in the U.S. fishery conservation zone. Such a prospect would not be favorable to foreign countries that fish the zone, particularly Japan. For example, one seafood processor told us that

"The most damage * * * occurs when a [foreign] fishing company buys control of a U.S. processor and discourages development to benefit foreign fishermen. Subsequently the foreign product enters the U.S. at prices below what U.S. processors can compete with."

An NMFS Seattle official said that he had been told Japanese owners and Japanese customers of U.S. financial institutions have pressured these lenders not to make loans to processors trying to initiate bottomfish processing.

Contrary to these beliefs, a Japanese Fishing Association representative told us that the Japanese are not investing in the processing sector to discourage the U.S. development of Alaska bottomfishery resources. He said that the Japanese recognize that a future decrease will occur in the foreign fishing allocation in the 200-mile U.S. fishing zone as the U.S. expands its capabilities.

SEAFOOD SUPPLY CONDITIONS AFFECT THE DEMAND AND PRICE FOR U.S. SEAFOOD PRODUCTS

Although the Japanese demand for U.S. seafood products increased dramatically in the late 1970's it decreased in 1980. This kind of changing market condition should be understood in evaluating industry and Government concerns about the effects of foreign investment.

Japanese imports of U.S. fishery products decreased 18 percent for the first 6 months of 1980 from the same period in 1979. Salmon imports declined 30 percent for the same period. Japan's cold storage holding of salmon in December 1979 rose about 53 percent above the December 1978 inventory. The high year-end inventory was primarily the result of Japan's heavy purchases of the huge 1979 Alaska salmon harvest

and the large 1979 catch of salmon off the Japanese coast. In 1979 Alaska fishermen harvested 468 million pounds of salmon. The 1980 Alaska salmon harvest exceeded the 1979 catch and was the fourth largest in the State's history.

During 1979 the United States exported about 195 million pounds of salmon, about 50 percent going to Japan. Japan's imports of fresh/frozen salmon from the United States increased from about 32 million pounds in 1977 to 93 million pounds in 1979. The following table shows the dramatic increase in salmon exports to Japan.

U.S. Salmon Exports To Japan

<u>Year</u>	<u>Fresh/frozen</u>	<u>Fillets/steaks portions</u>	<u>Canned</u>	<u>Total</u>
------(thousands of pounds)-----				
1979	93,458	1,820	3,078	98,356
1978	87,679	2,126	1,505	91,310
1977	31,854	1,809	717	34,380
1976	4,275	872	201	5,348

Source: NMFS

Along with Japan's recent large increase in imported U.S. salmon products, Japanese fishing fleets had a large 1979 harvest. For example, the salmon catches off Hokkaido, Japan, in September 1979, 20 days into the season, exceeded the 1978 pace by more than 30 percent.

CONCLUSIONS AND OBSERVATIONS

Industry and Federal and State Government officials expressed a variety of views on the effect of foreign investment in U.S. seafood processors. While some officials believed that foreign investment definitely affects seafood processors, others could discern little or no effect. Those who believed that foreign investment affects seafood processors expressed opinions that ranged from concern that foreign investors may manipulate the industry to the belief that foreign investment is necessary and beneficial to U.S. processors.

The response to our questionnaire highlighted both the lack of consensus among seafood processors and the reluctance of some processors to discuss the effects of foreign investment on their firms. We mailed questionnaires to 453

processors; 307 questionnaires were returned. Of these, however, only 260 were useable in our analysis. Furthermore, many respondents failed to answer certain questions or said they had no basis on which to judge the impact. For example, although 66 processors believed foreign ownership in U.S. processors had an unfavorable impact, 122 processors said that such ownership had no impact or they had no basis to judge or did not respond. We obtained similar responses from processors when we asked about the impact of foreign loans. (See appendixes I and II for further information on questionnaire results.)

We also tried to determine if foreign investment increased or decreased certain production, marketing, pricing, and other operating factors for seafood processors. Again, questionnaire results revealed a lack of consensus. For example, although 41 processors believed foreign investment decreased their control over their business operations, 65 said there was no impact, 43 had no basis to judge, and 39 did not respond to the question.

The uncertainty and lack of consensus surrounding the question of foreign investment was further illustrated by our interviews with officials of U.S. firms having foreign investment. Some officials were reluctant to discuss the impact of foreign investment on their firms or believed that foreign investment had no effect on their firms operations. Others felt that foreign investment was beneficial for the industry in general and necessary for the survival of some firms. Still others believed that foreign investors negatively influenced the operations of some U.S. firms, either through direct involvement or loan provisions.

Available Federal data can do little to resolve uncertainties over the effects of foreign investment. As mentioned in chapter 3, the only major Federal study of foreign investment in the U.S. seafood industry is scheduled for completion in 1981. The uncertainty that surrounds the foreign investment question, coupled with difficulties in obtaining data, hinders Federal evaluation efforts.

While the issue of foreign investment is clouded by the lack of agreement among knowledgeable officials and the absence of reliable data, we identified several potentially important observations and related questions.

1. A high percentage of foreign investment originates from relatively few companies within one country (Japan). Does such concentration potentially lessen competition and impede free operation of the marketplace?

2. Foreign investors may use a variety of indirect investment methods to gain control of seafood processors. To what degree does such indirect investment hinder identifying the full extent, nature, and effects of foreign investment?
3. The percentage of the industry's total output that is produced by processors with foreign investment is unknown, as is the relationship between foreign ownership and production in individual processors. Can and should this information be gathered, considering that it would require access to confidential processor information?
4. Foreign representatives are sometimes placed on the board of directors or as executive officers of U.S. seafood processors. Does such action result in processors operating in a manner contrary to U.S. economic policies?
5. Foreign investors may specify certain provisions, such as the right to acquire a portion of a processor's production, in loan agreement with U.S. processors. To what extent do such actions adversely affect the industry's natural market fluctuations?

In deciding whether to explore the above issues further, consideration needs to be given to

- the expense further study would entail,
- the burden further reporting requirements would place on seafood processors,
- the possible discouragement of needed investment capital from foreign sources if additional reporting requirements are imposed, and
- the results of OFIUS' 1981 study of the extent and impact of foreign investment in seafood processors.

Other economic and social concerns, such as how other industries may be affected by changes in the seafood processing industry also needs to be considered.

AGENCY COMMENTS AND OUR EVALUATION

We furnished a draft of this report to the Department of Commerce and portions of the draft to the State of Alaska

for comment. The Commerce Department generally agreed with our observations and conclusions. The agency and the State of Alaska suggested certain changes be made to add to or clarify information in the report. We considered each of the suggestions and made changes where appropriate.

QUESTIONNAIRE METHODOLOGY

Complete and reliable data on the extent and impact of foreign ownership and loans in the seafood processing industry does not exist. We used a questionnaire survey to collect information to help us determine the extent and impact of foreign investment in the seafood processing industry.

Since we could not identify a complete and current universe of seafood processing firms, a statistically valid sample could not be made. We did, however, identify seafood processing firms in the geographic areas of our audit by using the National Fisheries Institute 1979-1980 Blue Book of firms that engage in fishery-related activities, and the National Fisherman's Pacific Packers Report for 1980 that identifies major seafood processors on the west coast. Also, we identified firms engaged in seafood activities from the Alaska Department of Fish and Game 1979 intent-to-operate list of seafood processors, the Economic Development Council of Puget Sound 1979 list of seafood processors in Washington State, and the NMFS 1978 list of processors of fishery products. We believe these sources enabled us to identify most seafood processors in those geographical areas.

We mailed questionnaires in June 1980 to 453 firms. Follow-up letters were mailed twice during July 1980. We received 307 responses. For various reasons, such as the Postal Service returning the questionnaire to us as undeliverable or the firms telling us that they would not complete the questionnaire, 46 of the 307 responses were not useable. Of the 260 useable responses, only 196 were from firms engaged in seafood processing in 1979. The following schedule shows by State the number of firms that were mailed questionnaires, the number of questionnaires returned, the number of useable responses, and the number of firms processing seafood in 1979.

<u>State</u>	<u>Number of firms mailed question- naires</u>	<u>Number of question- naires returned</u>	<u>Number of useable responses</u>	<u>Number of firms processing in 1979</u>
Alaska	169	103	82	57
Washington	172	120	107	80
Oregon	26	23	18	17
California				
(note a)	3	3	3	3
Connecticut	3	2	2	2
Massachusetts	44	30	25	21
New Hampshire	1	1	1	0
New Jersey	8	5	4	2
New York	22	16	15	12
Rhode Island	<u>5</u>	<u>4</u>	<u>3</u>	<u>2</u>
Total	<u>453</u>	<u>307</u>	<u>260</u>	<u>196</u>

a/The three California firms operated in the Pacific Northwest.

A copy of the questionnaire with the numerical responses for the 196 seafood processors is included in appendix II.

Our auditors and systems analysts designed the questionnaire for this study. Development of the questionnaire included pretesting with seafood processing firms with and without foreign investment in Washington and Massachusetts. Appendixes III through VI contain numerical responses to most questions from west coast and east coast processors with and without foreign investment.

**RESPONSES FROM SEAFOOD PROCESSING FIRMS
WITH AND WITHOUT FOREIGN INVESTMENT**

The terms "your firm" or "this firm" refer to the organization to which this questionnaire was addressed

I. OWNERSHIP

1. Which of the following best describes your firm? (Check one.)

- | | |
|--|---------------|
| 1. ☐ Individual proprietorship
(Go to question 2.) | <u>27</u> |
| 2. ☐ Partnership (Go to question 3.) | <u>12</u> |
| 3. ☐ Cooperative (Go to question 5.) | <u>4</u> |
| 4. ☐ Corporation (Go to question 7.) | <u>153</u> A/ |

2. Is the proprietor a U.S. citizen? (Check one.)

- | | |
|---------------------------------|----|
| 1. ☐ No | 0 |
| 2. ☐ Yes | 27 |
- (Go to question 17.)

3. Approximately how many partners were in your firm in 1979? (Check one.)

- | | |
|---|---|
| 1. ☐ Less than 4 | 9 |
| 2. ☐ 5 to 99 | 3 |
| 3. ☐ 100 to 499 | 0 |
| 4. ☐ 500 or more | 0 |

4. Approximately what percent of the partners are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 11 |
| 2. ☐ 1 to 24% | 1 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |
- (Go to question 17.)

5. Approximately how many members were in your cooperative in 1979? (Check one.)

- | | |
|---|---|
| 1. ☐ Less than 100 | 2 |
| 2. ☐ 100 to 199 | 1 |
| 3. ☐ 200 to 499 | 1 |
| 4. ☐ 500 and above | 0 |

6. Approximately what percent of your members are foreigners (not U.S. citizens)?

- | | |
|--|---|
| 1. ☐ None, all are U.S. citizens. | 4 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |
- (Go to question 17.)

7. Approximately how many shareholders, who are authorized to vote, were in your corporation in fiscal year 1979? (Check one.)

- | | |
|---|-----|
| 1. ☐ Less than 100 | 142 |
| 2. ☐ 100 to 499 | 3 |
| 3. ☐ 500 to 999 | 1 |
| 4. ☐ 1000 or more | 3 |
| No response | 4 |

8. Approximately what percent of your corporation's shareholders, who are authorized to vote, are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|-----|
| 1. ☐ None, all are U.S. citizens | 120 |
| 2. ☐ 1 to 24% | 4 |
| 3. ☐ 25 to 49% | 8 |
| 4. ☐ 50 to 74% | 5 |
| 5. ☐ 75 to 99% | 1 |
| 6. ☐ 100% | 8 |
| 7. ☐ Don't know | 1 |
| No response | 6 |

9. Are shares in your corporation publicly traded? (Check one.)

- | | |
|---------------------------------|-----|
| 1. ☐ Yes | 3 |
| 2. ☐ No | 143 |
| No response | 7 |

A/ Responses to questions regarding corporations in appendixes III through VI will not sum to the total in this appendix because some corporations did not disclose if they had or did not have foreign ownership and other corporations were headquartered in States other than those shown in those appendixes.

10. Approximately what percent of the corporation's board members are foreigners (not U.S. citizens)? (Check one.)

1. ☐ None, all are U.S. citizens 124
 2. ☐ 1 to 24% 4
 3. ☐ 25 to 49% 6
 4. ☐ 50 to 74% 6
 5. ☐ 75 to 99% 6
 6. ☐ 100% 1
 7. ☐ Don't know 1

11. Approximately what percent of the corporation's executive officers are foreigners (not U.S. citizens)? (Check one.)

1. ☐ None, all are U.S. citizens 132
 2. ☐ 1 to 24% 6
 3. ☐ 25 to 49% 5
 4. ☐ 50 to 74% 3
 5. ☐ 75 to 99% 1
 6. ☐ 100% 1
 No response 5

14. Please indicate: (A) the names of companies owning shares in this firm, (B) their location, (C) approximate percentage of your firm's stock they own, and (D) if 10 percent or more of their voting stock is owned by a foreign (non-U.S.) organization or there are more than four companies, list the additional names on the back of (see page 14).

A	B	C	D
Companies owning stock in your firm	City of headquarters	Approximate % of your firm's stock they own	Is 10% or more of their voting stock foreign (non-U.S.) owned? (Check one box for each row)
			1 2 3
			Yes No Not Sure
1. _____ %			☐ ☐ ☐
2. _____ %			☐ ☐ ☐
3. _____ %			☐ ☐ ☐
4. _____ %			☐ ☐ ☐

GAO Note: Does not apply for summary information contained in this appendix.

15. Does your firm own any voting shares in any other seafood processing companies? (Check one.)

1. ☐ Yes
 2. ☐ No (Go to question 17.)

GAO Note: Does not apply for summary information contained in this appendix.

12. Where is your firm incorporated? (Check one.)

1. ☐ United States 146
 2. ☐ Canada
 3. ☐ Iceland
 4. ☐ Japan
 5. ☐ Norway
 6. ☐ Other. Specify _____

13. Do any other companies currently own any of your firm's authorized voting stock? (Check one.)

1. ☐ Yes
 2. ☐ No (Go to question 15.)

GAO Note: Does not apply for summary information contained in this appendix.

16. Please indicate: (A) the names of other companies in which your firm owns shares, (B) their location, (C) approximate percentage of your ownership, and (D) if 10 percent or more of their voting stock is owned by a foreign (non-U.S.) organization or individual. (If there are more than four companies, list the additional names on the back of the questionnaire.)

A	B	C	D		
Companies in which your firm owns shares	City of headquarters	Approximate % of their stock your firm owns	Is 10% or more of their voting stock foreign (non-U.S.) owned? (Check one box for each row)

For the following questions on assets, revenues, and debts in Parts II & III, please include in your figures your firm's share from any subsidiary operations as listed in question 16.

II. SIZE AND TYPE OF OPERATION

17. Approximately what were your firm's total assets for your 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 55 |
| 2. ☐ \$250,000 to \$499,999 | 18 |
| 3. ☐ \$500,000 to \$999,999 | 32 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 55 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 16 |
| 6. ☐ \$10,000,000 or more | 19 |
| No response | 1 |

18. Approximately what was your firm's gross operating revenue for your 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 46 |
| 2. ☐ \$250,000 to \$499,999 | 13 |
| 3. ☐ \$500,000 to \$999,999 | 26 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 53 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 23 |
| 6. ☐ \$10,000,000 or more | 34 |
| No response | 1 |

19. Approximately what percent of this revenue was from the following operations? (Fill in percentages.)

- _____ % Seafood brokerage or trading
- _____ % Seafood processing (including operations such as dressing, steaking, freezing and canning)
- _____ % Fishing
- _____ % Other (specify) _____

100% TOTAL

GAO Note: Does not apply for summary information contained in this appendix.

III. DEBT

20. Approximately what was your firm's total outstanding debt (short and long term) for the 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 93 |
| 2. ☐ \$250,000 to \$499,999 | 19 |
| 3. ☐ \$500,000 to \$999,999 | 16 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 44 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 13 |
| 6. ☐ \$10,000,000 or more | 10 |

21. To the best of your knowledge was any of this debt in the form of loans from foreign individuals (non-U.S. citizens) or foreign organizations (Non U.S. organizations incorporated or chartered in a foreign country, including U.S. branches of foreign banks)?

- | | |
|---|-----|
| 1. ☐ Yes | 27 |
| 2. ☐ No (Go to question 27.) | 169 |

22. What was the approximate total amount of these foreign loans? (Check one.)

- | | |
|--|---|
| 1. ☐ Less than \$250,000 | 7 |
| 2. ☐ \$250,000 to \$499,999 | 4 |
| 3. ☐ \$500,000 to \$999,999 | 1 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 9 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 2 |
| 6. ☐ \$10,000,000 or more | 4 |

23. Approximately what percentages of the total amount of these foreign loans were from the following types of lenders? (Fill in percentages)

- | | |
|---|--|
| _____ % Banks or other financial institutions | GAO Note: Does not apply for summary information contained in this appendix. |
| _____ % Companies | |
| _____ % Individuals | |
| _____ % Governments | |
| _____ % Other (specify) | |

100% TOTAL

24. Approximately what percentages of the total amount of these foreign loans were from sources in the following countries? (Fill in percentages)

- | | |
|-------------------------|--|
| _____ % Canada | GAO Note: Does not apply for summary information contained in this appendix. |
| _____ % Iceland | |
| _____ % Japan | |
| _____ % Norway | |
| _____ % Other (specify) | |

100% TOTAL

25. Which of the following provisions are included as part of any of these loan arrangements? (Check all that apply.)

- | | |
|--|----|
| 1. ☐ Provides for a representative of the foreign lender on your firm's Board of directors. | 2 |
| 2. ☐ Provides for a representative of the foreign lender to serve as a executive officer in your firm. | 1 |
| 3. ☐ Provides for a representative of the foreign lender to serve as a technician in your processing plant. | 8 |
| 4. ☐ Provides for the foreign lender to acquire a portion of your firm's production. | 10 |
| 5. ☐ Other (specify) | 0 |
| 6. ☐ No special provisions such as listed above. | 15 |

26. It has been alleged that most foreign loans are from seven large Japanese firms; We would like to verify this allegation. Which of the following foreign organizations, if any, provided loans to your firm? (Check all that apply.)

- | | |
|---|----|
| 1. ☐ Kyokuyo | 0 |
| 2. ☐ Marubeni | 0 |
| 3. ☐ Mitsubishi | 2 |
| 4. ☐ Mitsu | 0 |
| 5. ☐ Nichiro Gyogyo Kaisha | 2 |
| 6. ☐ Nippon Suisan Kaisha | 2 |
| 7. ☐ Taiyo | 2 |
| 8. ☐ None of the above | 19 |

IV. POSSIBLE IMPACTS OF FOREIGN ACTIVITIES ON U.S. FIRMS

If 51% or more of this firm's ownership belongs to non-U.S. citizens, skip to question 30.

27. In your opinion how much, if at all, are foreign individuals or companies engaging in the following activities regarding the U.S. seafood processing industry? (Check one box for each row.)

	Great extent	Some extent	Little if any	No basis to judge	No response
	1	2	3	4	
1. Making loans to U.S. processors	☐ 62	☐ 50	☐ 5	☐ 50	29
2. Buying shares in U.S. processing firms	☐ 69	☐ 46	☐ 1	☐ 51	29
3. Setting up processing plants in the U.S.	☐ 27	☐ 67	☐ 12	☐ 58	32
4. Giving preferential pricing to selected processors	☐ 28	☐ 48	☐ 14	☐ 75	31
5. Controlling seafood supplies	☐ 51	☐ 36	☐ 21	☐ 57	31
6. Controlling the seafood market	☐ 73	☐ 41	☐ 9	☐ 43	30
7. Other (specify) <u>A/</u>	☐ 7	☐ 1	☐ 0	☐ 15	173

A/ Does not lend itself to summarization.

28. In your opinion what kinds of impact, if any, are the following foreign activities having on your firm?
(Check one box for each row.)

	Very favorable impact	Favor- able impact	No impact	Unfavor- able impact	Very un- favorable impact	No basis to judge	No response
	1	2	3	4	5	6	
1. Making loans to U.S. processors	☐ 5	☐ 16	☐ 38	☐ 44	☐ 3	☐ 58	29
2. Buying shares in U.S. processing firms	☐ 3	☐ 5	☐ 34	☐ 44	☐ 22	☐ 58	30
3. Setting up processing plants in the U.S.	☐ 3	☐ 5	☐ 25	☐ 44	☐ 27	☐ 60	32
4. Giving preferential pricing to selected processors	☐ 2	☐ 3	☐ 21	☐ 35	☐ 29	☐ 73	33
5. Controlling seafood supplies	☐ 2	☐ 2	☐ 20	☐ 44	☐ 35	☐ 62	31
6. Controlling the seafood market	☐ 2	☐ 5	☐ 13	☐ 50	☐ 50	☐ 46	30
Other (specify) <u>A/</u>	☐ 0	☐ 0	☐ 1	☐ 1	☐ 8	☐ 19	167

A/Does not lend itself to summarization.

29. Some may feel their firm has been affected by foreign (non-U.S.) investments—either directly by investments in their firm or indirectly by investments in other processors. In your opinion, how much, if at all, have foreign investments increased or decreased the following for your firm? (Check one box for each row.)

Conditions possibly affected by foreign investments	Greatly increased	In-creased	No impact	De-creased	Greatly decreased	No basis to judge	No response
	1	2	3	4	5	6	
1. Capital available to our firm	☐ 7	☐ 18	☐ 77	☐ 7	☐ 1	☐ 51	35
2. Our ability to obtain U.S. capital	☐ 4	☐ 11	☐ 73	☐ 18	☐ 4	☐ 50	36
3. Technical and management assistance available to us	☐ 8	☐ 28	☐ 67	☐ 8	☐ 1	☐ 47	37
4. Our total markets for all seafood	☐ 10	☐ 36	☐ 23	☐ 42	☐ 9	☐ 37	39
5. Our domestic markets for all seafood	☐ 3	☐ 13	☐ 46	☐ 46	☐ 14	☐ 37	37
6. Our foreign markets for all seafood	☐ 9	☐ 28	☐ 28	☐ 36	☐ 12	☐ 45	38
7. Our total markets for new products	☐ 5	☐ 19	☐ 48	☐ 16	☐ 5	☐ 67	36
8. Our research and development activities	☐ 3	☐ 14	☐ 65	☐ 7	☐ 6	☐ 62	39
9. Prices we sell seafood	☐ 13	☐ 23	☐ 22	☐ 47	☐ 21	☐ 34	36
10. Amount of employment for U.S. citizens	☐ 4	☐ 29	☐ 50	☐ 20	☐ 3	☐ 52	38
11. Prices we pay fishermen or other seafood sources	☐ 20	☐ 36	☐ 24	☐ 31	☐ 15	☐ 35	35
12. Competition with other processors	☐ 21	☐ 50	☐ 32	☐ 13	☐ 4	☐ 40	36
13. Our control over our business operations	☐ 1	☐ 7	☐ 65	☐ 30	☐ 11	☐ 43	39
14. U.S. taxes we pay	☐ 7	☐ 28	☐ 52	☐ 13	☐ 2	☐ 56	38

NORTHWEST PROCESSORS PLEASE CONTINUE WITH THIS QUESTION.

NORTHEAST PROCESSORS GO TO QUESTION 30.

15. Our development of the Alaska bottomfish industry	☐ 3	☐ 14	☐ 26	☐ 16	☐ 11	☐ 58	29 <u>A/</u>
16. Our development of the Pacific bottomfish industry	☐ 4	☐ 18	☐ 25	☐ 21	☐ 12	☐ 47	30 <u>A/</u>

A/157 of the 196 responding processors are located on the west coast, including 3 which are headquartered in California.

V. GOVERNMENT REGULATIONS

30. What kind of government regulations, if any, do you feel should be placed on foreign ownership of U.S. seafood processors? (Check the one block that best describes your position.)

- | | |
|---|----|
| 1. ☐ Liberalize regulations to encourage foreign ownership | 5 |
| 2. ☐ Make no changes in regulations | 24 |
| 3. ☐ Require periodic disclosure to the government of foreign ownership | 33 |
| 4. ☐ In addition to disclosure, restrict the amount of foreign ownership | 83 |
| 5. ☐ Exclude all foreign ownership in U.S. seafood processing firms. | 34 |

No response 17

31. What level of government should have primary responsibility for regulating foreign ownership? (Check one.)

- | | |
|--|-------|
| 1. ☐ Federal Government | 121 |
| 2. ☐ State government | 46 |
| 3. ☐ Other (specify) | 11 A/ |

No response 18

VI. COMMENTS

34. Please provide any other comments you may have about foreign involvement in the seafood processing industry

GAO Note: Does not apply for summary information contained in this appendix.

35. ☐ Check here if you wish to receive a copy of our final report

GAO Note: Does not apply for summary information contained in this appendix.

32. What kind of government regulations, if any, do you feel should be placed on foreign loans to U.S. seafood processors? (Check the one block that best describes your position.)

- | | |
|---|----|
| 1. ☐ Liberalize regulations to encourage foreign loans | 29 |
| 2. ☐ Make no changes in regulations | 26 |
| 3. ☐ Require periodic disclosure to the government of foreign loans | 43 |
| 4. ☐ In addition to disclosure, restrict the amount of foreign loans | 53 |
| 5. ☐ Exclude all foreign loans to U.S. seafood processors | 24 |
| No response | 21 |

33. What level of government should have primary responsibility for regulating foreign loans? (Check one.)

- | | |
|--|-------|
| 1. ☐ Federal Government | 118 |
| 2. ☐ State government | 39 |
| 3. ☐ Other (specify) | 14 A/ |

No response 25

A/Does not lend itself to summarization.

**RESPONSES FROM WEST COAST ^{1/} SEAFOOD PROCESSORS WITHOUT
FOREIGN INVESTMENT**

OWNERSHIP

1. Which of the following best describes your firm? (Check one.)

- | | |
|---|-----------|
| 1. ☐ Individual proprietorship (Go to question 2.) | <u>25</u> |
| 2. ☐ Partnership (Go to question 3.) | <u>11</u> |
| 3. ☐ Cooperative (Go to question 5.) | <u>4</u> |
| 4. ☐ Corporation (Go to question 7.) | <u>77</u> |

2. Is the proprietor a U.S. citizen? (Check one.)

- | | |
|---------------------------------|----|
| 1. ☐ No | 0 |
| 2. ☐ Yes | 25 |
- (Go to question 17.)

3. Approximately how many partners were in your firm in 1979? (Check one.)

- | | |
|---|---|
| 1. ☐ Less than 4 | 8 |
| 2. ☐ 5 to 99 | 3 |
| 3. ☐ 100 to 499 | 0 |
| 4. ☐ 500 or more | 0 |

4. Approximately what percent of the partners are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 11 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |

| No response | 1 |

^{1/}Includes Alaska, Washington, and Oregon.

APPENDIX III

10. Approximately what percent of the corporation's board members are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 76 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |

No response

11. Approximately what percent of the corporation's executive officers are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 76 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |

No response

12. Where is your firm incorporated? (Check one.)

- | | |
|--|----|
| 1. ☐ United States | 77 |
| 2. ☐ Canada | 0 |
| 3. ☐ Iceland | 0 |
| 4. ☐ Japan | 0 |
| 5. ☐ Norway | 0 |
| 6. ☐ Other. Specify _____ | 0 |

APPENDIX III

II. SIZE AND TYPE OF OPERATION

17. Approximately what were your firm's total assets for your 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 43 |
| 2. ☐ \$250,000 to \$499,999 | 15 |
| 3. ☐ \$500,000 to \$999,999 | 22 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 26 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 5 |
| 6. ☐ \$10,000,000 or more | 6 |

18. Approximately what was your firm's gross operating revenue for your 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 41 |
| 2. ☐ \$250,000 to \$499,999 | 12 |
| 3. ☐ \$500,000 to \$999,999 | 18 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 29 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 8 |
| 6. ☐ \$10,000,000 or more | 9 |

GAO Note: Responses to questions 13, 14, 15, 16, 19, 23, 24, 34, and 35 are not summarized in this appendix. Copies of the questions are in appendix II.

III. DEBT

20. Approximately what was your firm's total outstanding debt (short and long term) for the 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 74 |
| 2. ☐ \$250,000 to \$499,999 | 8 |
| 3. ☐ \$500,000 to \$999,999 | 8 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 18 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 8 |
| 6. ☐ \$10,000,000 or more | 1 |

21. To the best of your knowledge was any of this debt in the form of loans from foreign individuals (non-U.S. citizens) or foreign organizations (Non U.S. organizations incorporated or chartered in a foreign country, including U.S. branches of foreign banks)?

- | | |
|---|-----|
| 1. ☐ Yes | 0 |
| 2. ☐ No (Go to question 27.) | 117 |

22. What was the approximate total amount of these foreign loans? (Check one.)

- | | |
|--|---|
| 1. ☐ Less than \$250,000 | 0 |
| 2. ☐ \$250,000 to \$499,999 | 0 |
| 3. ☐ \$500,000 to \$999,999 | 0 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 0 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 0 |
| 6. ☐ \$10,000,000 or more | 0 |

23. Which of the following provisions are included as part of any of these loan arrangements? (Check all that apply.)

- | | |
|--|---|
| 1. ☐ Provides for a representative of the foreign lender on your firm's Board of directors. | 0 |
| 2. ☐ Provides for a representative of the foreign lender to serve as a executive officer in your firm. | 0 |
| 3. ☐ Provides for a representative of the foreign lender to serve as a technician in your processing plant. | 0 |
| 4. ☐ Provides for the foreign lender to acquire a portion of your firm's production. | 0 |
| 5. ☐ Other (specify) _____ | 0 |
| 6. ☐ No special provisions such as listed above. | 0 |

26. It has been alleged that most foreign loans are from seven large Japanese firms. We would like to verify this allegation. Which of the following foreign organizations, if any, provided loans to your firm? (Check all that apply.)

- | | |
|---|---|
| 1. ☐ Kyokuyo | 0 |
| 2. ☐ Marubeni | 0 |
| 3. ☐ Mitsubishi | 0 |
| 4. ☐ Mitsui | 0 |
| 5. ☐ Nichiro Gyogyo Kaisha | 0 |
| 6. ☐ Nippon Suisan Kaisha | 0 |
| 7. ☐ Taiyo | 0 |
| 8. ☐ None of the above | 0 |

IV. POSSIBLE IMPACTS OF FOREIGN ACTIVITIES ON U.S. FIRMS

If 51% or more of this firm's ownership belongs to non-U.S. citizens, skip to question 28.

27. In your opinion how much, if at all, are foreign individuals or companies engaging in the following activities regarding the U.S. seafood processing industry? (Check one box for each row.)

	Great extent	Some extent	Little if any	No basis to judge	No response
	1	2	3	4	
1. Making loans to U.S. processors	☐ 43	☐ 33	☐ 1	☐ 29	11
2. Buying shares in U.S. processing firms	☐ 51	☐ 27	☐ 0	☐ 29	10
3. Setting up processing plants in the U.S.	☐ 16	☐ 43	☐ 10	☐ 36	12
4. Giving preferential pricing to selected processors	☐ 17	☐ 32	☐ 10	☐ 46	12
5. Controlling seafood supplies	☐ 30	☐ 25	☐ 14	☐ 36	12
6. Controlling the seafood market	☐ 52	☐ 28	☐ 1	☐ 25	11
7. Other (specify) <u>A/</u>	☐ 7	☐ 0	☐ 0	☐ 10	100

A/ Does not lend itself to summarization.

28. In your opinion, what kinds of impact, if any, are the following foreign activities having on your firm? (Check one box for each row.)

	Very favorable impact	Favorable impact	No impact	Unfavorable impact	Very unfavorable impact	No basis to judge	No response
	1	2	3	4	5	6	
1. Making loans to U.S. processors	☐ 2	☐ 8	☐ 26	☐ 27	☐ 5	☐ 39	10
2. Buying shares in U.S. processing firms	☐ 2	☐ 4	☐ 20	☐ 24	☐ 15	☐ 41	11
3. Setting up processing plants in the U.S.	☐ 2	☐ 3	☐ 14	☐ 31	☐ 14	☐ 41	12
4. Giving preferential pricing to selected processors	☐ 2	☐ 1	☐ 14	☐ 23	☐ 16	☐ 48	13
5. Controlling seafood supplies	☐ 2	☐ 0	☐ 12	☐ 32	☐ 18	☐ 42	11
6. Controlling the seafood market	☐ 2	☐ 3	☐ 3	☐ 35	☐ 33	☐ 31	10
7. Other (specify) <u>A/</u>	☐ 0	☐ 0	☐ 1	☐ 1	☐ 6	☐ 11	98

A/ Does not lend itself to summarization.

29. Some may feel their firm has been affected by foreign (non-U.S.) investments—either directly by investments in their firm or indirectly by investments in other processors. In your opinion, how much, if at all, have foreign investments increased or decreased the following for your firm? (Check one box for each row.)

Conditions possibly affected by foreign investments	Greatly increased	In-creased	No impact	De-creased	Greatly decreased	No basis to judge	No response
	1	2	3	4	5	6	
1. Capital available to our firm	☐ 2	☐ 9	☐ 52	☐ 6	☐ 1	☐ 34	13
2. Our ability to obtain U.S. capital	☐ 0	☐ 6	☐ 44	☐ 12	☐ 4	☐ 38	13
3. Technical and management assistance available to us	☐ 2	☐ 16	☐ 47	☐ 6	☐ 1	☐ 32	13
4. Our total markets for all seafood	☐ 5	☐ 21	☐ 13	☐ 31	☐ 4	☐ 27	16
5. Our domestic markets for all seafood	☐ 2	☐ 6	☐ 23	☐ 35	☐ 8	☐ 29	14
6. Our foreign markets for all seafood	☐ 4	☐ 15	☐ 19	☐ 24	☐ 10	☐ 30	15
7. Our total markets for new products	☐ 3	☐ 10	☐ 29	☐ 10	☐ 3	☐ 49	13
8. Our research and development activities	☐ 0	☐ 8	☐ 39	☐ 3	☐ 4	☐ 47	16
9. Prices we sell seafood	☐ 10	☐ 13	☐ 9	☐ 34	☐ 15	☐ 24	12
10. Amount of employment for U.S. citizens	☐ 1	☐ 17	☐ 31	☐ 14	☐ 2	☐ 37	15
11. Prices we pay fishermen or other seafood sources	☐ 11	☐ 23	☐ 11	☐ 25	☐ 11	☐ 24	12
12. Competition with other processors	☐ 13	☐ 30	☐ 19	☐ 11	☐ 3	☐ 28	13
13. Our control over our business operations	☐ 0	☐ 4	☐ 38	☐ 23	☐ 4	☐ 33	15
14. U.S. taxes we pay	☐ 3	☐ 20	☐ 25	☐ 9	☐ 1	☐ 44	15

NORTHWEST PROCESSORS PLEASE CONTINUE WITH THIS QUESTION.
NORTHEAST PROCESSORS GO TO QUESTION 30.

16. Our development of the Pacific bottomfish industry	☐ 3	☐ 14	☐ 18	☐ 18	☐ 10	☐ 38	16

V. GOVERNMENT REGULATIONS

30. What kind of government regulations, if any, do you feel should be placed on foreign ownership of U.S. seafood processors? (Check the one block that best describes your position.)

- | | |
|---|----|
| 1. ☐ Liberalize regulations to encourage foreign ownership | 2 |
| 2. ☐ Make no changes in regulations | 5 |
| 3. ☐ Require periodic disclosure to the government of foreign ownership | 21 |
| 4. ☐ In addition to disclosure, restrict the amount of foreign ownership | 62 |
| 5. ☐ Exclude all foreign ownership in U.S. seafood processing firms. | 20 |
| No response | 7 |

31. What level of government should have primary responsibility for regulating foreign ownership? (Check one.)

- | | |
|---|----|
| 1. ☐ Federal Government | 71 |
| 2. ☐ State government | 37 |
| 3. ☐ Other (specify) <u>A/</u> | 3 |

No response 6

A/Does not lend itself to summarization.

32. What kind of government regulations, if any, do you feel should be placed on foreign loans to U.S. seafood processors? (Check the one block that best describes your position.)

- | | |
|---|----|
| 1. ☐ Liberalize regulations to encourage foreign loans | 15 |
| 2. ☐ Make no changes in regulations | 6 |
| 3. ☐ Require periodic disclosure to the government of foreign loans | 35 |
| 4. ☐ In addition to disclosure, restrict the amount of foreign loans | 37 |
| 5. ☐ Exclude all foreign loans to U.S. seafood processors | 14 |
| No response | 10 |

33. What level of government should have primary responsibility for regulating foreign loans? (Check one.)

- | | |
|---|----|
| 1. ☐ Federal Government | 67 |
| 2. ☐ State government | 34 |
| 3. ☐ Other (specify) <u>A/</u> | 4 |

No response 12

RESPONSES FROM WEST COAST ^{1/} SEAFOOD PROCESSORS

WITH FOREIGN INVESTMENT

I. OWNERSHIP

1. Which of the following best describes your firm? (Check one.)

- | | |
|---|-----------|
| 1. ☐ Individual proprietorship (Go to question 2.) | <u>1</u> |
| 2. ☐ Partnership (Go to question 3.) | <u>1</u> |
| 3. ☐ Cooperative (Go to question 5.) | <u>0</u> |
| 4. ☐ Corporation (Go to question 7.) | <u>31</u> |

2. Is the proprietor a U.S. citizen? (Check one.)

- | | |
|---------------------------------|---|
| 1. ☐ No | 0 |
| 2. ☐ Yes | 1 |
- (Go to question 17.)

3. Approximately how many partners were in your firm in 1979? (Check one.)

- | | |
|---|---|
| 1. ☐ Less than 4 | 1 |
| 2. ☐ 5 to 99 | 0 |
| 3. ☐ 100 to 499 | 0 |
| 4. ☐ 500 or more | 0 |

4. Approximately what percent of the partners are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|---|
| 1. ☐ None, all are U.S. citizens | 0 |
| 2. ☐ 1 to 24% | 1 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |

(Go to question 17.)

5. Approximately how many members were in your cooperative in 1979? (Check one.)

- | | |
|---|---|
| 1. ☐ Less than 100 | 0 |
| 2. ☐ 100 to 199 | 0 |
| 3. ☐ 200 to 499 | 0 |
| 4. ☐ 500 and above | 0 |

6. Approximately what percent of your members are foreigners (not U.S. citizens)?

- | | |
|--|---|
| 1. ☐ None, all are U.S. citizens. | 0 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |

(Go to question 17.)

7. Approximately how many shareholders, who are authorized to vote, were in your corporation in fiscal year 1979? (Check one.)

- | | |
|---|----|
| 1. ☐ Less than 100 | 30 |
| 2. ☐ 100 to 499 | 0 |
| 3. ☐ 500 to 999 | 1 |
| 4. ☐ 1000 or more | 0 |

8. Approximately what percent of your corporation's shareholders, who are authorized to vote, are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 10 |
| 2. ☐ 1 to 24% | 2 |
| 3. ☐ 25 to 49% | 8 |
| 4. ☐ 50 to 74% | 5 |
| 5. ☐ 75 to 99% | 1 |
| 6. ☐ 100% | 5 |
| 7. ☐ Don't know | 0 |

9. Are shares in your corporation publicly traded? (Check one.)

- | | |
|---------------------------------|----|
| 1. ☐ Yes | 0 |
| 2. ☐ No | 31 |

^{1/}Includes Alaska, Washington, and Oregon.

10. Approximately what percent of the corporation's board members are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 11 |
| 2. ☐ 1 to 24% | 4 |
| 3. ☐ 25 to 49% | 5 |
| 4. ☐ 50 to 74% | 6 |
| 5. ☐ 75 to 99% | 4 |
| 6. ☐ 100% | 1 |
| 7. ☐ Don't know | 0 |

11. Approximately what percent of the corporation's executive officers are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 17 |
| 2. ☐ 1 to 24% | 5 |
| 3. ☐ 25 to 49% | 4 |
| 4. ☐ 50 to 74% | 3 |
| 5. ☐ 75 to 99% | 1 |
| 6. ☐ 100% | 1 |

12. Where is your firm incorporated? (Check one.)

- | | |
|--|----|
| 1. ☐ United States | 28 |
| 2. ☐ Canada | 0 |
| 3. ☐ Iceland | 0 |
| 4. ☐ Japan | 0 |
| 5. ☐ Norway | 0 |
| 6. ☐ Other. Specify _____ | 0 |
| No response | 3 |

N. SIZE AND TYPE OF OPERATION

17. Approximately what were your firm's total assets for your 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 5 |
| 2. ☐ \$250,000 to \$499,999 | 2 |
| 3. ☐ \$500,000 to \$999,999 | 4 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 11 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 5 |
| 6. ☐ \$10,000,000 or more | 6 |

18. Approximately what was your firm's gross operating revenue for your 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 3 |
| 2. ☐ \$250,000 to \$499,999 | 1 |
| 3. ☐ \$500,000 to \$999,999 | 2 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 10 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 10 |
| 6. ☐ \$10,000,000 or more | 7 |

GAO Note: Responses to questions 13, 14, 15, 16, 19, 23, 24, 34, and 35 are not summarized in this appendix. Copies of the questions are in appendix II.

III. DEBT

20. Approximately what was your firm's total outstanding debt (short and long term) for the 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 9 |
| 2. ☐ \$250,000 to \$499,999 | 3 |
| 3. ☐ \$500,000 to \$999,999 | 2 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 12 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 3 |
| 6. ☐ \$10,000,000 or more | 4 |

21. To the best of your knowledge was any of this debt in the form of loans from foreign individuals (non-U.S. citizens) or foreign organizations (Non U.S. organizations incorporated or chartered in a foreign country, including U.S. branches of foreign banks)?

- | | |
|---|----|
| 1. ☐ Yes | 22 |
| 2. ☐ No (Go to question 27.) | 11 |

22. What was the approximate total amount of these foreign loans? (Check one.)

- | | |
|--|---|
| 1. ☐ Less than \$250,000 | 7 |
| 2. ☐ \$250,000 to \$499,999 | 4 |
| 3. ☐ \$500,000 to \$999,999 | 1 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 7 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 1 |
| 6. ☐ \$10,000,000 or more | 2 |

25. Which of the following provisions are included as part of any of these loan arrangements? (Check all that apply.)

- | | |
|--|----|
| 1. ☐ Provides for a representative of the foreign lender on your firm's Board of directors. | 2 |
| 2. ☐ Provides for a representative of the foreign lender to serve as a executive officer in your firm. | 1 |
| 3. ☐ Provides for a representative of the foreign lender to serve as a technician in your processing plant. | 8 |
| 4. ☐ Provides for the foreign lender to acquire a portion of your firm's production. | 10 |
| 5. ☐ Other (specify) _____ | 0 |
| 6. ☐ No special provisions such as listed above. | 10 |

26. It has been alleged that most foreign loans are from seven large Japanese firms. We would like to verify this allegation. Which of the following foreign organizations, if any, provided loans to your firm? (Check all that apply.)

- | | |
|---|----|
| 1. ☐ Kyokuyo | 0 |
| 2. ☐ Marubeni | 0 |
| 3. ☐ Mitsubishi | 2 |
| 4. ☐ Mitsui | 0 |
| 5. ☐ Nichiro Gyogyo Kaisha | 2 |
| 6. ☐ Nippon Suisan Kaisha | 2 |
| 7. ☐ Taiyo | 2 |
| 8. ☐ None of the above | 15 |

IV. POSSIBLE IMPACTS OF FOREIGN ACTIVITIES ON U.S. FIRMS

If 51% or more of this firm's ownership belongs to non-U.S. citizens, skip to question 30.

27. In your opinion how much, if at all, are foreign individuals or companies engaging in the following activities regarding the U.S. seafood processing industry? (Check one box for each row.)

	Great extent	Some extent	Little if any	No basis to judge	No response
	1	2	3	4	
1. Making loans to U.S. processors	☐ 12	☐ 8	☐ 1	☐ 0	12
2. Buying shares in U.S. processing firms	☐ 11	☐ 6	☐ 0	☐ 4	12
3. Setting up processing plants in the U.S.	☐ 5	☐ 10	☐ 1	☐ 4	13
4. Giving preferential pricing to selected processors	☐ 4	☐ 8	☐ 0	☐ 9	12
5. Controlling seafood supplies	☐ 7	☐ 6	☐ 3	☐ 5	12
6. Controlling the seafood market	☐ 10	☐ 5	☐ 2	☐ 4	12
7. Other (specify)	☐ 0	☐ 1	☐ 0	☐ 0	32

28. In your opinion, what kinds of impact, if any, are the following foreign activities having on your firm? (Check one box for each row.)

	Very favorable impact	Favorable impact	No impact	Unfavorable impact	Very unfavorable impact	No basis to judge	No response
	1	2	3	4	5	6	
1. Making loans to U.S. processors	☐ 3	☐ 6	☐ 4	☐ 7	☐ 0	☐ 2	11
2. Buying shares in U.S. processing firms	☐ 1	☐ 0	☐ 6	☐ 9	☐ 5	☐ 1	11
3. Setting up processing plants in the U.S.	☐ 1	☐ 0	☐ 6	☐ 5	☐ 8	☐ 2	11
4. Giving preferential pricing to selected processors	☐ 0	☐ 1	☐ 4	☐ 3	☐ 9	☐ 5	11

V. GOVERNMENT REGULATIONS

30. What kind of government regulations, if any, do you feel should be placed on foreign ownership of U.S. seafood processors? (Check the one block that best describes your position.)

1. ☐ Liberalize regulations to encourage foreign ownership 2
2. ☐ Make no changes in regulations 9
3. ☐ Require periodic disclosure to the government of foreign ownership 4
4. ☐ In addition to disclosure, restrict the amount of foreign ownership 11
5. ☐ Exclude all foreign ownership in U.S. seafood processing firms. 2

No response 5

31. What level of government should have primary responsibility for regulating foreign ownership? (Check one.)

1. ☐ Federal Government 20
2. ☐ State government 6
3. ☐ Other (specify) A 3

No response 4

32. What kind of government regulations, if any, do you feel should be placed on foreign loans to U.S. seafood processors? (Check the one block that best describes your position.)

1. ☐ Liberalize regulations to encourage foreign loans 6
2. ☐ Make no changes in regulations 11
3. ☐ Require periodic disclosure to the government of foreign loans 4
4. ☐ In addition to disclosure, restrict the amount of foreign loans 6
5. ☐ Exclude all foreign loans to U.S. seafood processors 1

No response 5

33. What level of government should have primary responsibility for regulating foreign loans? (Check one.)

1. ☐ Federal Government 18
2. ☐ State government 5
3. ☐ Other (specify) A 5

No response 5

A/Does not lend itself to summarization.

**RESPONSES FROM EAST COAST ^{1/} SEAFOOD PROCESSORS
WITHOUT FOREIGN INVESTMENT**

I. OWNERSHIP

1. Which of the following best describes your firm? (Check one.)

- | | |
|--|-----------|
| 1. ☐ Individual proprietorship
(Go to question 2.) | <u>1</u> |
| 2. ☐ Partnership (Go to question 3.) | <u>0</u> |
| 3. ☐ Cooperative (Go to question 5.) | <u>0</u> |
| 4. ☐ Corporation (Go to question 7.) | <u>30</u> |

2. Is the proprietor a U.S. citizen? (Check one.)

- | | |
|---------------------------------|---|
| 1. ☐ No | 0 |
| 2. ☐ Yes | 1 |
- (Go to question 17.)

3. Approximately how many partners were in your firm in 1979? (Check one.)

- | | |
|---|---|
| 1. ☐ Less than 4 | 0 |
| 2. ☐ 5 to 99 | 0 |
| 3. ☐ 100 to 499 | 0 |
| 4. ☐ 500 or more | 0 |

4. Approximately what percent of the partners are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|---|
| 1. ☐ None, all are U.S. citizens | 0 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |
- (Go to question 17.)

5. Approximately how many members were in your cooperative in 1979? (Check one.)

- | | |
|---|---|
| 1. ☐ Less than 100 | 0 |
| 2. ☐ 100 to 199 | 0 |
| 3. ☐ 200 to 499 | 0 |
| 4. ☐ 500 and above | 0 |

6. Approximately what percent of your members are foreigners (not U.S. citizens)?

- | | |
|---|---|
| 1. ☐ None, all are U.S. citizens | 0 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |
- (Go to question 17.)

7. Approximately how many shareholders, who are authorized to vote, were in your corporation in fiscal year 1979? (Check one.)

- | | |
|---|----|
| 1. ☐ Less than 100 | 30 |
| 2. ☐ 100 to 499 | 0 |
| 3. ☐ 500 to 999 | 0 |
| 4. ☐ 1000 or more | 0 |

8. Approximately what percent of your corporation's shareholders, who are authorized to vote, are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 30 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |

9. Are shares in your corporation publicly traded? (Check one.)

- | | |
|---------------------------------|----|
| 1. ☐ Yes | 0 |
| 2. ☐ No | 30 |

^{1/} Includes Connecticut, Massachusetts, New Hampshire, New Jersey, New York, and Rhode Island.

10. Approximately what percent of the corporation's board members are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 30 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |
| 7. ☐ Don't know | 0 |

11. Approximately what percent of the corporation's executive officers are foreigners (not U.S. citizens)? (Check one.)

- | | |
|---|----|
| 1. ☐ None, all are U.S. citizens | 30 |
| 2. ☐ 1 to 24% | 0 |
| 3. ☐ 25 to 49% | 0 |
| 4. ☐ 50 to 74% | 0 |
| 5. ☐ 75 to 99% | 0 |
| 6. ☐ 100% | 0 |

12. Where is your firm incorporated? (Check one.)

- | | |
|--|----|
| 1. ☐ United States | 30 |
| 2. ☐ Canada | 0 |
| 3. ☐ Iceland | 0 |
| 4. ☐ Japan | 0 |
| 5. ☐ Norway | 0 |
| 6. ☐ Other. Specify _____ | 0 |

II. SIZE AND TYPE OF OPERATION

17. Approximately what were your firm's total assets for your 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 5 |
| 2. ☐ \$250,000 to \$499,999 | 0 |
| 3. ☐ \$500,000 to \$999,999 | 5 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 14 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 5 |
| 6. ☐ \$10,000,000 or more | 1 |
| No response | 1 |

18. Approximately what was your firm's gross operating revenue for your 1979 fiscal year? (Check one.)

- | | |
|--|----|
| 1. ☐ Less than \$250,000 | 1 |
| 2. ☐ \$250,000 to \$499,999 | 0 |
| 3. ☐ \$500,000 to \$999,999 | 5 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 13 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 3 |
| 6. ☐ \$10,000,000 or more | 8 |
| No response | 1 |

GAO Note: Responses to questions 13, 14, 15, 16, 19, 23, 24, 34, and 35 are not summarized in this appendix. Copies of the questions are in appendix II.

III. DEBT

20. Approximately what was your firm's total outstanding debt (short and long term) for the 1979 fiscal year? (Check one.)

- | | |
|--|---|
| 1. ☐ Less than \$250,000 | 9 |
| 2. ☐ \$250,000 to \$499,999 | 7 |
| 3. ☐ \$500,000 to \$999,999 | 5 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 7 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 1 |
| 6. ☐ \$10,000,000 or more | 1 |

21. To the best of your knowledge was any of this debt in the form of loans from foreign individuals (non-U.S. citizens) or foreign organizations (Non U.S. organizations incorporated or chartered in a foreign country, including U.S. branches of foreign banks)?

- | | |
|---|----|
| 1. ☐ Yes | 0 |
| 2. ☐ No (Go to question 27.) | 31 |

22. What was the approximate total amount of these foreign loans? (Check one.)

- | | |
|--|---|
| 1. ☐ Less than \$250,000 | 0 |
| 2. ☐ \$250,000 to \$499,999 | 0 |
| 3. ☐ \$500,000 to \$999,999 | 0 |
| 4. ☐ \$1,000,000 to \$4,999,999 | 0 |
| 5. ☐ \$5,000,000 to \$9,999,999 | 0 |
| 6. ☐ \$10,000,000 or more | 0 |

25. Which of the following provisions are included as part of any of these loan arrangements? (Check all that apply.)

- | | |
|--|---|
| 1. ☐ Provides for a representative of the foreign lender on your firm's Board of directors. | 0 |
| 2. ☐ Provides for a representative of the foreign lender to serve as a executive officer in your firm. | 0 |
| 3. ☐ Provides for a representative of the foreign lender to serve as a technician in your processing plant. | 0 |
| 4. ☐ Provides for the foreign lender to acquire a portion of your firm's production. | 0 |
| 5. ☐ Other (specify) | 0 |
| <hr/> | |
| 6. ☐ No special provisions such as listed above. | 0 |

26. It has been alleged that most foreign loans are from seven large Japanese firms; We would like to verify this allegation. Which of the following foreign organizations, if any, provided loans to your firm? (Check all that apply.)

- | | |
|---|---|
| 1. ☐ Kyokuyo | 0 |
| 2. ☐ Marubeni | 0 |
| 3. ☐ Mitsubishi | 0 |
| 4. ☐ Mitsui | 0 |
| 5. ☐ Nichiro Gyogyo Kaisha | 0 |
| 6. ☐ Nippon Suisan Kaisha | 0 |
| 7. ☐ Taiyo | 0 |
| 8. ☐ None of the above | 0 |

IV. POSSIBLE IMPACTS OF FOREIGN ACTIVITIES ON U.S. FIRMS

If 51% or more of this firm's ownership belongs to non-U.S. citizens, skip to question 28.

27. In your opinion how much, if at all, are foreign individuals or companies engaging in the following activities regarding the U.S. seafood processing industry? (Check one box for each row.)

	Greet extent	Some extent	Little if any	No basis to judge	No response
	1	2	3	4	
1. Making loans to U.S. processors	☐ 4	☐ 7	☐ 2	☐ 16	2
2. Buying shares in U.S. processing firms	☐ 4	☐ 9	☐ 1	☐ 14	3
3. Setting up processing plants in the U.S.	☐ 5	☐ 9	☐ 1	☐ 13	3
4. Giving preferential pricing to selected processors	☐ 4	☐ 6	☐ 4	☐ 14	3
5. Controlling seafood supplies	☐ 8	☐ 5	☐ 2	☐ 13	3
6. Controlling the seafood market	☐ 6	☐ 7	☐ 5	☐ 10	3
7. Other (specify)	☐ 0	☐ 0	☐ 0	☐ 5	26

28. In your opinion what kinds of impact, if any, are the following foreign activities having on your firm? (Check one box for each row.)

	Very favorable impact	Favor- able impact	No impact	Unfavor- able impact	Very un- favorable impact	No basis to judge	No response
	1	2	3	4	5	6	
1. Making loans to U.S. processors	☐ 0	☐ 0	☐ 6	☐ 8	☐ 0	☐ 13	4
2. Buying shares in U.S. processing firms	☐ 0	☐ 0	☐ 6	☐ 8	☐ 1	☐ 11	5
3. Setting up processing plants in the U.S.	☐ 0	☐ 1	☐ 5	☐ 4	☐ 4	☐ 12	5
4. Giving preferential pricing to selected processors	☐ 0	☐ 1	☐ 2	☐ 6	☐ 3	☐ 14	5
5. Controlling seafood supplies	☐ 0	☐ 2	☐ 3	☐ 4	☐ 4	☐ 13	5

V. GOVERNMENT REGULATIONS

30. What kind of government regulations, if any, do you feel should be placed on foreign ownership of U.S. seafood processors? (Check the one block that best describes your position.)

- | | |
|---|----|
| 1. ☐ Liberalize regulations to encourage foreign ownership | 1 |
| 2. ☐ Make no changes in regulations | 7 |
| 3. ☐ Require periodic disclosure to the government of foreign ownership | 4 |
| 4. ☐ In addition to disclosure, restrict the amount of foreign ownership | 6 |
| 5. ☐ Exclude all foreign ownership in U.S. seafood processing firms. | 10 |

No response

31. What level of government should have primary responsibility for regulating foreign ownership? (Check one.)

- | | |
|---|----|
| 1. ☐ Federal Government | 20 |
| 2. ☐ State government | 3 |
| 3. ☐ Other (specify) <u>A/</u> | 3 |

No response

5

32. What kind of government regulations, if any, do you feel should be placed on foreign loans to U.S. seafood processors? (Check the one block that best describes your position.)

- | | |
|---|---|
| 1. ☐ Liberalize regulations to encourage foreign loans | 5 |
| 2. ☐ Make no changes in regulations | 8 |
| 3. ☐ Require periodic disclosure to the government of foreign loans | 1 |
| 4. ☐ In addition to disclosure, restrict the amount of foreign loans | 6 |
| 5. ☐ Exclude all foreign loans to U.S. seafood processors | 8 |

No response
33. What level of government should have primary responsibility for regulating foreign loans? (Check one.)

- | | |
|---|----|
| 1. ☐ Federal Government | 23 |
| 2. ☐ State government | 0 |
| 3. ☐ Other (specify) <u>A/</u> | 3 |

No response

5

A/ Does not lend itself to summarization.

III. DEBT

20. Approximately what was your firm's total outstanding debt (short and long term) for the 1979 fiscal year? (Check one.)

- | | | |
|----|---|---|
| 1. | ☐ Less than \$250,000 | 0 |
| 2. | ☐ \$250,000 to \$499,999 | 0 |
| 3. | ☐ \$500,000 to \$999,999 | 0 |
| 4. | ☐ \$1,000,000 to \$4,999,999 | 1 |
| 5. | ☐ \$5,000,000 to \$9,999,999 | 0 |
| 6. | ☐ \$10,000,000 or more | 4 |

21. To the best of your knowledge was any of this debt in the form of loans from foreign individuals (non-U.S. citizens) or foreign organizations (Non U.S. organizations incorporated or chartered in a foreign country, including U.S. branches of foreign banks)?

- | | | |
|----|--|---|
| 1. | ☐ Yes | 5 |
| 2. | ☐ No (Go to question 27.) | 0 |

22. What was the approximate total amount of these foreign loans? (Check one.)

- | | | |
|----|---|---|
| 1. | ☐ Less than \$250,000 | 0 |
| 2. | ☐ \$250,000 to \$499,999 | 0 |
| 3. | ☐ \$500,000 to \$999,999 | 0 |
| 4. | ☐ \$1,000,000 to \$4,999,999 | 2 |
| 5. | ☐ \$5,000,000 to \$9,999,999 | 1 |
| 6. | ☐ \$10,000,000 or more | 2 |

25. Which of the following provisions are included as part of any of these loan arrangements? (Check all that apply.)

- | | | |
|----|---|---|
| 1. | ☐ Provides for a representative of the foreign lender on your firm's Board of directors. | 0 |
| 2. | ☐ Provides for a representative of the foreign lender to serve as a executive officer in your firm. | 0 |
| 3. | ☐ Provides for a representative of the foreign lender to serve as a technician in your processing plant. | 0 |
| 4. | ☐ Provides for the foreign lender to acquire a portion of your firm's production. | 0 |
| 5. | ☐ Other (specify) _____ | 0 |
| 6. | ☐ No special provisions such as listed above. | 5 |

HOUSE SELECT SUBCOMMITTEE ON RITING
EDUCATION AND TRAINING
LEE ANCOIN, DR., CHAIRMAN

SUBCOMMITTEE ON FISHING
WILDLIFE CONSERVATION
AND THE ENVIRONMENT
SUBCOMMITTEE ON OCEANOGRAPHY

CONGRESS OF THE UNITED STATES
HOUSE OF REPRESENTATIVES
WASHINGTON, D.C. 20515

October 3, 1979

The Honorable Elmer B. Staats
Comptroller General of the United States
United States General Accounting Office
Washington, D.C. 20548

Dear Mr. Staats:

For some time I have been deeply concerned about the extent and impact of foreign investment on the U.S. fishing industry. There is woefully inadequate information with respect to the extent of this investment and its implication on the development of the domestic fishing industry. Indications are, however, that since implementation of the Fishery Conservation and Management Act of 1976, which limits the amount and species of fish foreign vessels can harvest in U.S. waters, foreign ownership in the processing sector has increased markedly, especially in the Pacific Northwest and Alaska.

In view of the above, I am requesting that the General Accounting Office gather data on the extent and nature of such investment (including "captive loans" and market manipulation techniques) and study the impact such investment has on the U.S. seafood processing industry. Although I am primarily concerned about such investment in the Pacific Northwest and Alaska, you need not restrict your study to that area. I am aware of two studies of foreign investment in Alaska's fishing industry currently being performed by Frank Orth and Associates, Seattle, Washington; and by the Department of Commerce's Office of Foreign Investment. You should coordinate your efforts with these groups to help avoid any duplication.

Recently I introduced legislation, H.R. 1906 which would limit foreign investment, as well as require an annual report on the level of foreign investment in the U.S. fishing industry. Your study will be most helpful to me and the Congress in consideration of this legislation.

I look forward to receiving the results of your work as soon as possible. Under present plans, I expect that shortly after the ne

Mr. Henry Eschwege
Director, Community and Economic
Development Division
U. S. General Accounting Office
Washington, D.C. 20548

Dear Mr. Eschwege:

This is in reply to your letter of December 10, 1980, requesting comments on the draft report entitled "Foreign Investment in U. S. Seafood Processors -- Issues and Observations."

We have received the enclosed comments of the Acting Administrator, National Oceanic and Atmospheric Administration for the Department of Commerce and believe they are responsive to the matters discussed in the report.

Sincerely,

Frederic A. Haim, Jr.
Acting Inspector General

OFFICE OF THE ADMINISTRATOR

February 12, 1981

Mr. Henry Eschwege
Director, Community and Economic
Development Division
U.S. General Accounting Office
Washington, D.C. 20540

Dear Mr. Eschwege:

This is in response to your letter of December 10, 1980, requesting the Department of Commerce's comments on a draft report entitled "Foreign Investment in U.S. Seafood Processors--Issues and Observations."

The draft report provides a useful analysis of the complexities involved in measuring the extent and impact of foreign investment in the U.S. seafood processing industry.

The draft report (page ii of the Digest and page 15 of the main body of the report) seems to imply that Commerce, and particularly the Office of Foreign Investment in the United States (OFIUS), has intentionally avoided an in-depth analysis of foreign direct investment (FDI) in the U.S. seafood processing industry because it is a "minor industry." In fact, OFIUS and the Bureau of Economic Analysis (BEA) are responsible for collecting comprehensive data and for conducting various analyses of FDI. OFIUS and BEA have limited resources and their analyses have highlighted those industries with the greatest level of FDI. Once concerns over the potential impact of increased FDI on the U.S. fish processing industry were voiced by Congress and others, the Department of Commerce agreed to undertake a rigorous, in-depth study of this sector.

GAO Comment: This statement agrees with our discussion beginning on p. 15.

The study will be based on data collected (on a mandatory and confidential basis) from the entire universe of U.S. fish processors, packagers and wholesalers defined as foreign-owned--those in which one foreign entity owns or controls, directly or indirectly, 10 percent or more of the voting securities of an incorporated U.S. business enterprise. The special survey designed to collect these data has involved input from OFIUS, BEA, and the National Marine Fisheries Service (NMFS), as well as an organization representing the domestic industry. Tabulation of survey responses should provide an accurate assessment of the extent of foreign ownership and provide insight into the economic impact of foreign-owned respondents on the overall U.S. industry.

We suggest the following change to the text in the paragraph beginning at the bottom of page 22 and ending at the top of page 23 to reflect the different activity levels required for the Benchmark Survey (1974 and 1980) and the annual surveys (1977-79). The underlined language below represents our suggested changes.

"Moreover, because BEA does not collect data from businesses having assets, net sales or gross revenues, and net income less than \$5 million in a reporting year in their annual surveys, its current foreign investment data may be understated....As a result, many seafood processors with foreign ownership may be exempt from BEA's minimum annual reporting level."

Sincerely yours,

Eldon Greenberg
Acting Administrator

GAO Comment: Suggested clarification added. See page 15.

Mr. Henry Eschwege
Director
Community & Economic
Development Division
U.S. General Accounting Office
Washington, D.C. 20548

Dear Mr. Eschwege:

Your letter of December 10, 1980 to Commissioner Webber has been referred to me for comment. That letter, of course, pertained to the draft report to the Chairman of the Ad Hoc Select Subcommittee on Maritime Education and Training of the House Committee on Merchant Marine and Fisheries.

My comments are keyed to the text that was included with your letter and are as follows.

First, in the first section entitled "Alaska Requires Disclosing Foreign Ownership -- But Compliance Has Been Questionable," the reference to "firms operating" in Alaska is misleading. That phrase in the first line of the section should be replaced by "Domestic and Foreign Corporations Doing Business."

GAO Comment: Sentence revised to "U.S. and foreign * * *."
See p. 17.

Second, in that same paragraph there is reference to the alleged lax monitoring of the reports required by State law. I would like to point out that while the consultant's report did make that statement, I believe the statement to be untrue. The reason for noncompliance with the law in 1979 was not the result of lax administration by this division. Rather, the reason for noncompliance with the statute was that the law itself was vague and the Legislature has not appropriated funds to provide effective enforcement of even the new law enacted on July 1, 1980. That new law was the result of substantial input by this division as to workable language to provide effective enforcement.

GAO Comment: Sentence added discussing vagueness and insufficient funding. See p. 17.

Third, there is reference to the status of processing of forms and taxes for the year 1978. It is true that the division was still seeking compliance by certain corporations as late as October 1979. What is not stated is that this predicament is a direct result of the present Alaska Business Corporation Act (AS 10.05), which allows a corporation to be delinquent for up to nine months from the filing deadline of January 2 of each year before the department can take the definitive step of dissolving the corporation.

GAO Comment: Sentence added to clarify. See p. 18.

Fourth, in the third paragraph of this section there is reference to the status of processing in 1979 and reference to the primary cause for the rejection of forms being the failure to report "ownership data." Please be advised that this was not the primary cause. The primary cause was that no information was provided as to the "control" of corporations by alien affiliates.

GAO Comment: Sentence revised to state reports were returned because of incompleteness. See p. 18.

Fifth, in the final paragraph of the section there is reference made to numerous reports with deficient or misleading information. Again, please be advised that the reason for this state of affairs is the lack of financial support to the division to carry out legislative intent. For example, while the Legislature did enact changes to the alien affiliate reporting requirements which should clarify those reporting requirements, the Legislature nevertheless did not pass the appropriations requested by the division to carry out the legislative intent.

GAO Comment: Sentence added discussing insufficient financial support to carry out legislative intent. See p. 18.

With regard to the section of the draft entitled "Improvements Enacted," please be advised that while the Chairman of the Alaska House Interim Committee on Foreign Investment stated that the enactment of the clarification of the alien affiliate requirements would improve foreign ownership disclosure, the division is caught in a position of not being able to fully carry out the legislative intent because of lack of funds to conduct a proper investigation of the filing system and take other steps necessary to enforce the statute.

GAO COMMENT: Page 18 of the draft already discusses funding problems.

I look forward to seeing the revised draft of the report in question with regard to Alaska and, also, the full report on foreign investment in general.

Sincerely,

A handwritten signature in dark ink, appearing to read "Julius G. Brecht". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.

Julius G. Brecht
