1 IN THE HOUSE

2 HOUSE BILL NO. 405

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 TWELFTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act relating to the presidential party primary
7 election."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. AS 15.25 is amended by adding a new section to read:

10 Sec. 15.25.245. PRESIDENTIAL PARTY PRIMARY ELECTION. (a) Not-
11 withstanding the provisions of AS 15.25.220(c), if a political party
12 has established a rule that restricts participation in the national
13 convention delegate selection process to voters who have declared
14 publicly their preference for that political party, the director shall
15 prepare and distribute a separate presidential party primary election
16 ballot for each political party. The names of the candidates shall be
17 rotated as provided for the general election ballot.

18 (b) A person voting in an election held under AS 15.25.220 for a
19 presidential candidate of a political party whose rules restrict parti-
20 cipation in the national convention delegate selection process to
21 voters who have declared their preference for that political party
22 publicly may not vote for a candidate of that political party for
23 president without declaring publicly his political party preference for
24 that party with the election judge on the day of the presidential party
25 primary election.

26 (c) A person who declines to declare a party preference under (b)
27 of this section may not receive the ballot of a party whose rules
28 restrict participation in the national convention delegate selection
29 process to voters who declare their party preference for that party.

POSITION PAPER
CS for HOUSE BILL NO. 412 (HESS)

"An Act relating to dental disease prevention programs in schools."

WHAT THE BILL DOES: This bill recognizes that dental disease is the most prevalent ill health condition among Alaskans and that effective prevention must begin during early childhood. No amount of insurance coverage or dental health manpower can lessen this burden on society unless it is accompanied by a prevention program of this nature.

The education program and preventive services specified in this bill are clearly outlined and would be effective in decreasing the incidence of caries and peridontal disease. The program is optional both for school districts and for individuals within a participating district. In general, this bill will allow any community where public interest in dental disease prevention is of sufficiently high priority to have the elementary school set up the program.

DEPARTMENTAL POSITION: The Department supports this bill.

III. ANALYSIS (See Fiscal Note Preparation Instruction, Section III)

This Fiscal Note is based on the assumption this program will start service delivery in school year 1983-84. The grant programs offered in public schools would take several years to reach the maximum level. The affected grades (K-6) in school year 1981-82 have 49,682 children. This analysis assumes that 50% of them would be included in this program in the school year 83-84, with a gradual increase after that.

This program can only be effectively administered if the Department has the professional and clerical staff needed to conduct it. Since this program would take several years to reach full implementation, the Department proposes to administer the program with existing staff until the start of FY 85. At that time a half-time public health dentist and half-time clerk would be hired.

CS FOR HOUSE BILL NO. 412 (HESS)

3

IN THE LEGISLATURE OF THE STATE OF ALASKA

4

TWELFTH LEGISLATURE - SECOND SESSION

5

A BILL

6

For an Act entitled: "An Act relating to dental disease prevention programs

7

in schools; and providing for an effective date."

8

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9

* Section 1. LEGISLATIVE FINDINGS. The legislature finds that an over-

10

whelming percentage of children in the state have dental disease in the form

11

of dental caries and periodontal disease. Dental disease in childhood can

12

and does result in significant lifetime disability, pain, missing teeth, and

13

the need for dentures. Poor nutrition in childhood is a major contributing

14

factor in lifetime dental disability. The legislature also finds that dental

15

disease in children and the resultant abnormalities in adults can be prevented

16

by education and treatment programs for children. It is the intent of the

17

legislature in enacting this Act to establish a dental disease prevention

18

program for children under 13 years of age that will be financed and have

19

standards established at the state level but that will be operated at the

20

local level.

21

* Sec. 2. AS 18 is amended by adding a new chapter to read:

22

CHAPTER 09. DENTAL DISEASE PREVENTION PROGRAM FOR CHILDREN.

23

Sec. 18.09.010. DENTAL DISEASE PREVENTION PROGRAM IN THE SCHOOLS.

24

(a) A school district or regional educational attendance area may offer

25

a dental disease prevention program for school children under 13 years

26

of age. The program shall include

27

(1) educational programs that promote dental health and are

28

focused on development of personal practices by pupils; the educational

29

programs shall include instruction in the causes and prevention of

1 dental diseases, nutrition and dental health, and the need for regular
2 dental examinations and appropriate repair of existing defects;

3 (2) preventive services, including plaque control and super-
4 vised application of topical or systemic prophylactic agents, or both,
5 for caries prevention; services may include an information program for
6 parents in nutrition and in the use of topical and systemic flouride
7 treatment; services may not include dental restoration, orthodontics, or
8 extraction of teeth.

9 (b) An act performed or service provided under this chapter that
10 constitutes the practice of dentistry or dental hygiene shall be per-
11 formed, provided by, or subject to the supervision of a dentist licensed
12 in accordance with the provisions of AS 08.36 or AS 08.32.

13 Sec. 18.09.020. ADVISORY BOARD. A school district or regional
14 educational attendance area may establish an advisory board consisting
15 of representatives from education, dental professions, and parent groups,
16 or may use an existing health advisory body to advise on dental health
17 programs under this chapter. An advisory board or body shall hold a
18 public meeting at least twice a year so that interested persons may
19 provide testimony on the dental health needs of the community.

20 Sec. 18.09.030. STANDARDS. The Department of Health and Social
21 Services shall by regulation establish standards for the dental disease
22 prevention program.

23 Sec. 18.09.040. PROGRAM PROPOSALS. A school district or regional
24 educational attendance area in cooperation with a local advisory board
25 or body shall submit a proposal for a dental disease prevention program
26 to the department by July 1 of each year. The proposal shall include
27 the methods by which the program will be implemented in the school
28 district or regional educational attendance area.

29 Sec. 18.09.050. APPROVAL OF PROGRAM. The department shall review

1 program proposals submitted under AS 18.09.040 and approve those pro-
2 grams that meet standards established under AS 18.09.030. The depart-
3 ment shall reimburse a school district or regional educational attend-
4 ance area that has an approved program for expenses incurred for the
5 programs and services described in AS 18.09.010.

6 Sec. 18.09.060. JOINT PROGRAMS. The school district or regional
7 educational attendance area may contract with public and private non-
8 profit agencies, as well as with other school districts and regional
9 educational attendance areas, in conducting a dental disease prevention
10 program.

11 Sec. 18.09.070. ASSISTANCE FROM DEPARTMENT OF EDUCATION. The
12 Department of Education may assist the department and school districts
13 and regional educational attendance areas in developing in-service
14 training programs in dental health and dental disease prevention for
15 teachers and parents of children under 13 years of age. The technical
16 content of the training programs shall meet standards set by the depart-
17 ment under AS 18.09.030.

18 Sec. 18.09.080. WITHDRAWAL BY PARENT. The parent or guardian of a
19 child may withdraw the child from participation in all or a portion of a
20 dental disease prevention program by giving written notice to the school
21 district or regional educational attendance area.

22 Sec. 18.09.090. PARTICIPATION BY PRIVATE SCHOOLS. The standards
23 established by the department under AS 18.09.030 shall include proce-
24 dures by which a child in a private school in the state may receive the
25 benefits of the dental disease prevention program.

26 Sec. 18.09.100. REPORTS. (a) By January 1 of each year the
27 school district or regional educational attendance area shall submit to
28 the department a report on a dental disease prevention program estab-
29 lished by this chapter. The report shall contain information specified

1 by the department and shall include the number of children who

2 (1) participated in the program;

3 (2) were examined;

4 (3) required dental care;

5 (4) were treated;

6 (5) require further treatment.

7 (b) By February 1 of each year the department shall submit to the
8 legislature a report on all activities under the dental disease preven-
9 tion program including a summary of the information submitted under (a)
10 of this section.

11 Sec. 18.09.110. DEFINITION. In this chapter, "department" means
12 the Department of Health and Social Services.

13 * Sec. 3. (a) The Department of Health and Social Services shall, by
14 March 1, 1983, adopt regulations required by AS 18.09.030.

15 (b) The initial program proposals of the school districts and regional
16 educational attendance areas under AS 18.09 shall be filed with the Depart-
17 ment of Health and Social Services by July 1, 1983.

18 (c) A school district or regional educational attendance area shall
19 submit the initial report under AS 18.09.100(a) by January 1, 1984.

20 (d) The Department of Health and Social Services shall submit the
21 initial report under AS 18.09.100(b) by February 1, 1984.

22 * Sec. 4. The Legislative Budget and Audit Committee shall conduct an
23 evaluation of the dental disease prevention program provided by sec. 2 of
24 this Act during the fourth year of the program. The committee shall evaluate
25 the cost effectiveness of the program and the impact of the program on state
26 expenditures for medical and dental care. The committee shall submit its
27 report to the legislature by January 15, 1988.

28 * Sec. 5. This Act takes effect July 1, 1982.

21 * Sec. 2. AS 18 is amended by adding a new chapter to read:

22 CHAPTER 9. DENTAL DISEASE PREVENTION PROGRAM FOR CHILDREN.

23 Sec. 18.09.010. DENTAL DISEASE PREVENTION PROGRAM IN THE SCHOOLS.

24 (a) A school district or regional educational attendance area may
25 offer a dental disease prevention program for school children in kinder-
26 garten through sixth grade. The program shall include

27 (1) educational programs that promote dental health and are
28 focused on development of personal practices by pupils; the educational
29 programs shall include the causes and prevention of dental diseases,

1 ment shall reimburse a school district or regional educational attend-
2 ance area with an approved program \$3 a year for each participating
3 child for expenses incurred for the programs and services described in
4 AS 18.09.010.

5 Sec. 18.09.060. JOINT PROGRAMS. The school district or regional
6 educational attendance area may contract with other public and private
7 nonprofit agencies, as well as with other school districts and regional
8 educational attendance areas, in conducting a dental disease prevention
9 program.

10 Sec. 18.09.070. ASSISTANCE FROM DEPARTMENT OF EDUCATION. The
11 Department of Education may assist the department and school districts
12 and regional educational attendance areas in developing in-service
13 training programs in dental health and dental disease prevention for
14 kindergarten through sixth grade teachers. The technical content of
15 the training programs shall meet standards set by the department under
16 AS 18.09.030.

17 Sec. 18.09.080. WITHDRAWAL BY PARENT. The parent or guardian of
18 a child may give written notice to a school district or regional educa-
19 tional attendance area withdrawing a child from participation in a
20 dental disease prevention program. The notice may disapprove the
21 child's participation in all or any portion of the program.

22 Sec. 18.09.090. PARTICIPATION BY PRIVATE SCHOOLS. The standards
23 established by the department under AS 18.09.030 shall include proce-
24 dures under which a child in a private school in the state may receive
25 the benefits of the dental disease prevention program.

26 Sec. 18.09.100. REPORTS. (a) On January 1 of each year the
27 school district or regional educational attendance area shall submit to
28 the department a report on a dental disease prevention program estab-
29 lished by this chapter. The report shall contain information specified

1 by the department and shall include the number of participating child-
2 ren, the number of children examined, the number of children requiring
3 dental care, the number of children treated, and the number of children
4 requiring further treatment.

5 (b) On February 1 of each year the department shall submit to the
6 legislature a report on all activities under the dental disease preven-
7 tion program including a summary of the information submitted under (a)
8 of this section.

9 Sec. 18.09.110. DEFINITION. In this chapter, "department" means
10 the Department of Health and Social Services.

11 * Sec. 3. (a) The initial standards adopted by the Department of Health
12 and Social Services under AS 18.09.030 shall be published in regulations of
13 the department by March 1, 1982.

14 (b) The initial program proposals of the school districts and regional
15 educational attendance areas under AS 18.09 shall be filed with the Depart-
16 ment of Health and Social Services by July 1, 1982.

17 (c) The initial reports under AS 18.09.100(a) are due from a school
18 district or regional educational attendance area on January 1, 1983.

19 (d) The initial report from the Department of Health and Social Ser-
20 vices to the legislature under AS 18.09.100(b) is due February 1, 1983.

21 * Sec. 4. The Legislative Budget and Audit Committee shall conduct an
22 evaluation of the dental disease prevention program provided by AS 18.09 as
23 enacted in sec. 2 of this bill during the fourth year of the program. The
24 evaluation shall include the cost effectiveness of the program and the
25 impact of the program on state expenditures for medical and dental care.
26 The report shall be submitted to the legislature on or before January 1,
27 1987.

28 * Sec. 5. Sections 1 and 2 of this Act take effect July 1, 1981.

POSITION PAPER
HOUSE BILL NO. 412

"An Act relating to dental disease prevention programs in schools."

WHAT THE BILL DOES: This bill recognizes that dental disease is the most prevalent ill health condition among Alaskans and that effective prevention must begin during early childhood. No amount of insurance coverage or dental health manpower can lessen this burden on society unless it is accompanied by a prevention program of this nature.

The education program and preventive services specified in this bill are clearly outlined and would be effective in decreasing the incidence of caries and periodontal disease. The program is optional both for school districts and for individuals within a participating district. In general, this bill will allow any community where public interest in dental disease prevention is of sufficiently high priority to have the elementary school set up the program.

SUGGESTIONS: The specification on p. 3, line 2, of \$3 per year for each participating child may not be advisable. Experience may show the necessary added cost to a school district may be more...or less than this. This flexibility would be allowed if there were language that empowered the Department to reimburse the costs of this service.

On p. 4, lines 1-3 specify reporting of much clinical dental information that would not ordinarily be gathered in school education and prevention programs. It would be preferable to gather this information on a sampling basis when indicated.

III. ANALYSIS (See Fiscal Note Preparation Instruction, Section III)

This Fiscal Note is based on the assumption this program will start service delivery in school year 1983-84. The grant programs offered in public schools would take several years to reach the maximum level. The affected grades (K-6) in school year 1981-82 have 49,682 children. This analysis assumes that 50% of them would be included in this program in the school year 83-84, with a gradual increase after that.

This program can only be effectively administered if the Department has the professional and clerical staff needed to conduct it. Since this program would take several years to reach full implementation, the Department proposes to add staff on a part-time basis starting in FY 84 and to reach full staffing at 2.0 FTE in FY 86. These line 100 figures are based on 1/3 staffing level in FY 84, 2/3 in FY 85 and full-time staff in FY 86. The detailed analysis on the next page reflects the part-time (1/3) staffing of these two positions. The subsequent two years are proportional to 2/3 and full-time respectively.

CS FOR HOUSE BILL NO. 412 (HESS)

3

IN THE LEGISLATURE OF THE STATE OF ALASKA

4

TWELFTH LEGISLATURE - SECOND SESSION

5

A BILL

6 For an Act entitled: "An Act relating to dental disease prevention programs
7 in schools; and providing for an effective date."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. LEGISLATIVE FINDINGS. The legislature finds that an over-
10 whelming percentage of children in the state have dental disease in the form
11 of dental caries and periodontal disease. Dental disease in childhood can
12 and does result in significant lifetime disability, pain, missing teeth, and
13 the need for dentures. Poor nutrition in childhood is a major contributing
14 factor in lifetime dental disability. The legislature also finds that dental
15 disease in children and the resultant abnormalities in adults can be prevented
16 by education and treatment programs for children. It is the intent of the
17 legislature in enacting this Act to establish a dental disease prevention
18 program for children under 13 years of age that will be financed and have
19 standards established at the state level but that will be operated at the
20 local level.

21 * Sec. 2. AS 18 is amended by adding a new chapter to read:

22 CHAPTER 09. DENTAL DISEASE PREVENTION PROGRAM FOR CHILDREN.

23 Sec. 18.09.010. DENTAL DISEASE PREVENTION PROGRAM IN THE SCHOOLS.

24 (a) A school district or regional educational attendance area may offer
25 a dental disease prevention program for school children under 13 years
26 of age. The program shall include

27 (1) educational programs that promote dental health and are
28 focused on development of personal practices by pupils; the educational
29 programs shall include instruction in the causes and prevention of

1 dental diseases, nutrition and dental health, and the need for regular
2 dental examinations and appropriate repair of existing defects;

3 (2) preventive services, including plaque control and super-
4 vised application of topical or systemic prophylactic agents; or both,
5 for caries prevention; services may include an information program for
6 parents in nutrition and in the use of topical and systemic flouride
7 treatment; services may not include dental restoration, orthodontics, or
8 extraction of teeth.

9 (b) An act performed or service provided under this chapter that
10 constitutes the practice of dentistry or dental hygiene shall be per-
11 formed, provided by, or subject to the supervision of a dentist licensed
12 in accordance with the provisions of AS 08.36 or AS 08.32.

13 Sec. 18.09.020. ADVISORY BOARD. A school district or regional
14 educational attendance area may establish an advisory board consisting
15 of representatives from education, dental professions, and parent groups,
16 or may use an existing health advisory body to advise on dental health
17 programs under this chapter. An advisory board or body shall hold a
18 public meeting at least twice a year so that interested persons may
19 provide testimony on the dental health needs of the community.

20 Sec. 18.09.030. STANDARDS. The Department of Health and Social
21 Services shall by regulation establish standards for the dental disease
22 prevention program.

23 Sec. 18.09.040. PROGRAM PROPOSALS. A school district or regional
24 educational attendance area in cooperation with a local advisory board
25 or body shall submit a proposal for a dental disease prevention program
26 to the department by July 1 of each year. The proposal shall include
27 the methods by which the program will be implemented in the school
28 district or regional educational attendance area.

29 Sec. 18.09.050. APPROVAL OF PROGRAM. The department shall review

1 program proposals submitted under AS 18.09.040 and approve those pro-
2 grams that meet standards established under AS 18.09.030. The depart-
3 ment shall reimburse a school district or regional educational attend-
4 ance area that has an approved program for expenses incurred for the
5 programs and services described in AS 18.09.010.

6 Sec. 18.09.060. JOINT PROGRAMS. The school district or regional
7 educational attendance area may contract with public and private non-
8 profit agencies, as well as with other school districts and regional
9 educational attendance areas, in conducting a dental disease prevention
10 program.

11 Sec. 18.09.070. ASSISTANCE FROM DEPARTMENT OF EDUCATION. The
12 Department of Education may assist the department and school districts
13 and regional educational attendance areas in developing in-service
14 training programs in dental health and dental disease prevention for
15 teachers and parents of children under 13 years of age. The technical
16 content of the training programs shall meet standards set by the depart-
17 ment under AS 18.09.030.

18 Sec. 18.09.080. WITHDRAWAL BY PARENT. The parent or guardian of a
19 child may withdraw the child from participation in all or a portion of a
20 dental disease prevention program by giving written notice to the school
21 district or regional educational attendance area.

22 Sec. 18.09.090. PARTICIPATION BY PRIVATE SCHOOLS. The standards
23 established by the department under AS 18.09.030 shall include proce-
24 dures by which a child in a private school in the state may receive the
25 benefits of the dental disease prevention program.

26 Sec. 18.09.100. REPORTS. (a) By January 1 of each year the
27 school district or regional educational attendance area shall submit to
28 the department a report on a dental disease prevention program estab-
29 lished by this chapter. The report shall contain information specified

1 by the department and shall include the number of children who

2 (1) participated in the program;

3 (2) were examined;

4 (3) required dental care;

5 (4) were treated;

6 (5) require further treatment.

7 (b) By February 1 of each year the department shall submit to the
8 legislature a report on all activities under the dental disease preven-
9 tion program including a summary of the information submitted under (a)
10 of this section.

11 Sec. 18.09.110. DEFINITION. In this chapter, "department" means
12 the Department of Health and Social Services.

13 * Sec. 3. (a) The Department of Health and Social Services shall, by
14 March 1, 1983, adopt regulations required by AS 18.09.030.

15 (b) The initial program proposals of the school districts and regional
16 educational attendance areas under AS 18.09 shall be filed with the Depart-
17 ment of Health and Social Services by July 1, 1983.

18 (c) A school district or regional educational attendance area shall
19 submit the initial report under AS 18.09.100(a) by January 1, 1984.

20 (d) The Department of Health and Social Services shall submit the
21 initial report under AS 18.09.100(b) by February 1, 1984.

22 * Sec. 4. The Legislative Budget and Audit Committee shall conduct an
23 evaluation of the dental disease prevention program provided by sec. 2 of
24 this Act during the fourth year of the program. The committee shall evaluate
25 the cost effectiveness of the program and the impact of the program on state
26 expenditures for medical and dental care. The committee shall submit its
27 report to the legislature by January 15, 1988.

28 * Sec. 5. This Act takes effect July 1, 1982.

III. ANALYSIS (See Fiscal Note Preparation Instruction, Section III)

This Fiscal Note is based on the assumption this program will start service delivery in school year 1983-84. The grant programs offered in public schools would take several years to reach the maximum level. The affected grades (K-6) in school year 1981-82 have 49,682 children. This analysis assumes that 50% of them would be included in this program in the school year 83-84, with a gradual increase after that.

This program can only be effectively administered if the Department has the professional and clerical staff needed to conduct it. Since this program would take several years to reach full implementation, the Department proposes to administer the program with existing staff until the start of FY 85. At that time a half-time public health dentist and half-time clerk would be hired.
