CS FOR HOUSE BILL NO. 695 (HESS)

3

IN THE LEGISLATURE OF THE STATE OF ALASKA

4

TWELFTH LEGISLATURE - SECOND SESSION

5

A BILL

6

For an Act entitled: "An Act establishing a temporary board to plan for the
7 establishment of a permanent Board of Employment Train-
8 ing and Vocational Education; and providing for an
9 effective date."

10

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11

* Section 1. LEGISLATIVE INTENT. It is the intent of the legislature
12 that

13

(1) Alaskans be trained for Alaskan jobs;

14

(2) employment training and vocational education programs in the
15 state be unified and responsibility for those programs be placed in a single
16 independent board;

17

(3) members of the state's private sector most familiar with the
18 needs of business, industry, and labor and the changing opportunities in the
19 Alaska job market take the lead in planning, establishing policy, and develop-
20 ing programs in employment training and vocational education that will assist
21 in meeting the needs of employers for skilled workers and in fostering eco-
22 nomic development in the state;

23

(4) persons, without regard to age, sex, race, religious or polit-
24 ical persuasion, or ethnic background, in all communities of the state,
25 including those in high school, those in postsecondary schools, those who
26 have completed or discontinued formal education and are preparing to enter
27 the labor market, those who have already entered the labor market but need to
28 upgrade or learn new skills, those unemployed, those disadvantaged, and those
29 with special educational disabilities, will have ready access to employment

1 training or retraining and vocational education that is of high quality, that
2 is realistic in the light of actual or anticipated opportunities for gainful
3 employment, and that is suited to needs, interests, and ability to benefit
4 from the training; and

5 (5) quality employment training and vocational education programs
6 be established throughout the state through the development of comprehensive
7 statewide planning, improved data collection and uniform training standards
8 and the cooperation of business, industry, education, and labor in order to
9 foster continued economic development in the state.

10 * Sec. 2. BOARD OF EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION. (a)
11 The Board of Employment Training and Vocational Education is established in
12 the Department of Education. The board is not a division in the department.
13 The board is in the department for administrative support services only and
14 is not subject to the direction of the commissioner of education or the state
15 Board of Education.

16 (b) The board consists of seven members appointed by the governor. The
17 membership of the board shall include persons representing business and labor
18 and persons who are vocational educational instructors.

19 (c) The board shall elect a chairman from among its members.

20 * Sec. 3. COMPENSATION. A member of the board serves without compensa-
21 tion, but is entitled to the same travel and per diem authorized by law for
22 members of boards and commissions under AS 39.20.180.

23 * Sec. 4. By February 15, 1983, the Board of Employment Training and
24 Vocational Education shall submit to the legislature

25 (1) a plan that provides for the establishment by July 1, 1983, of
26 a permanent Board of Employment Training and Vocational Education to perform
27 at least the following duties:

28 (A) establish statewide priorities for the use of resources
29 available for employment training and vocational education;

1 (B) develop annual and multiple-year statewide plans for
2 employment training and vocational education programs;

3 (C) report annually to the legislature;

4 (D) provide for transferability between employment training
5 and vocational education programs throughout the state;

6 (E) provide for coordination of secondary and postsecondary
7 employment training and vocational education programs throughout the
8 state;

9 (F) provide for the representation of local community members
10 in vocational education matters that affect their communities;

11 (G) review

12 (i) all employment training and vocational education
13 programs administered by the University of Alaska and the Department
14 of Education at the postsecondary and adult levels that do not lead
15 to a baccalaureate or graduate degree;

16 (ii) all supplemental programs for employment training
17 and vocational education established and financed in accordance
18 with AS 14.17.061;

19 (iii) state adult vocational and technical training
20 centers;

21 (iv) programs established under the Comprehensive
22 Employment and Training Act of 1973 (P.L. 93-203; 29 U.S.C. secs.
23 801 - 999), except as provided otherwise by federal law; and

24 (v) on-the-job and classroom training programs estab-
25 lished under state law to replace or supplement Comprehensive
26 Employment and Training Act programs;

27 (H) establish and maintain a list of persons who possess
28 vocational and technical skills to give part-time or periodic employment
29 training and vocational education instruction on a contract basis to a

1 school district, regional educational attendance area, or postsecondary
2 institution;

3 (I) serve as the state board for the purposes of the federal
4 Acts described in AS 14.35.010;

5 (2) a plan for the establishment and administration of an
6 employment training for economic development fund for the purpose of develop-
7 ing a technically skilled Alaska work force for economic development projects
8 and to establish short-term technical training programs;

9 (3) a proposed budget for the board and its programs for fiscal
10 year 1984;

11 (4) other information, including proposed legislation, that would
12 assist the legislature in improving employment training and vocational educa-
13 tion in the state.

14 * Sec. 5. The Board of Employment Training and Vocational Education may
15 contract for staff and services necessary to develop the plans, budget, and
16 information required by sec. 4 of this Act.

17 * Sec. 6. DEFINITIONS. In this Act, unless the context indicates other-
18 wise,

19 (1) "board" means the Board of Employment Training and Vocational
20 Education;

21 (2) "employment training" means instruction, usually for a short-
22 term period, in specific job skills;

23 (3) "vocational education" means organized educational programs
24 that prepare individuals for employment or volunteer work in a particular
25 occupation or job not requiring a baccalaureate or advanced degree.

26 * Sec. 7. This Act is repealed on July 1, 1983.

27 * Sec. 8. This Act takes effect July 1, 1982.

20 ing programs in employment training and vocational education that will assist
21 in meeting the needs of employers for skilled workers and in fostering eco-
22 nomic development in the state;

23

(4) persons, without regard to age, sex, race, religious or polit-
24 ical persuasion, or ethnic background, in all communities of the state,
25 including those in high school, those in postsecondary schools, those who
26 have completed or discontinued formal education and are preparing to enter
27 the labor market, those who have already entered the labor market but need to
28 upgrade or learn new skills, those unemployed, those disadvantaged, and those
29 with special educational disabilities, will have ready access to employment

1 training or retraining and vocational education that is of high quality, that
2 is realistic in the light of actual or anticipated opportunities for gainful
3 employment, and that is suited to needs, interests, and ability to benefit
4 from the training; and

5 (5) quality employment training and vocational education programs
6 be established throughout the state through the development of comprehensive
7 statewide planning, improved data collection and uniform training standards
8 and the cooperation of business, industry, education, and labor in order to
9 foster continued economic development in the state.

10 * Sec. 2. BOARD OF EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION. (a)
11 The Board of Employment Training and Vocational Education is established in
12 the Department of Education. The board is not a division in the department.
13 The board is in the department for administrative support services only and
14 is not subject to the direction of the commissioner of education or the state
15 Board of Education.

16 (b) The board consists of seven members appointed by the governor. The
17 membership of the board shall include persons representing business and labor
18 and persons who are vocational educational instructors.

19 (c) The board shall elect a chairman from among its members.

20 * Sec. 3. COMPENSATION. A member of the board serves without compensa-
21 tion, but is entitled to the same travel and per diem authorized by law for
22 members of boards and commissions under AS 39.20.180.

23 * Sec. 4. By February 15, 1983, the Board of Employment Training and
24 Vocational Education shall submit to the legislature

25 (1) a plan that provides for the establishment by July 1, 1983, of
26 a permanent Board of Employment Training and Vocational Education to perform
27 at least the following duties:

28 (A) establish statewide priorities for the use of resources
29 available for employment training and vocational education;

1 (B) develop annual and multiple-year statewide plans for
2 employment training and vocational education programs;

3 (C) report annually to the legislature;

4 (D) provide for transferability between employment training
5 and vocational education programs throughout the state;

6 (E) provide for coordination of secondary and postsecondary
7 employment training and vocational education programs throughout the
8 state;

9 (F) provide for the representation of local community members
10 in vocational education matters that affect their communities;

11 (G) review

12 (i) all employment training and vocational education
13 programs administered by the University of Alaska and the Department
14 of Education at the postsecondary and adult levels that do not lead
15 to a baccalaureate or graduate degree;

16 (ii) all supplemental programs for employment training
17 and vocational education established and financed in accordance
18 with AS 14.17.061;

19 (iii) state adult vocational and technical training
20 centers;

21 (iv) programs established under the Comprehensive
22 Employment and Training Act of 1973 (P.L. 93-203; 29 U.S.C. secs.
23 801 - 999), except as provided otherwise by federal law; and

24 (v) on-the-job and classroom training programs estab-
25 lished under state law to replace or supplement Comprehensive
26 Employment and Training Act programs;

27 (H) establish and maintain a list of persons who possess
28 vocational and technical skills to give part-time or periodic employment
29 training and vocational education instruction on a contract basis to a

1 school district, regional educational attendance area, or postsecondary
2 institution;

3 (I) serve as the state board for the purposes of the federal
4 Acts described in AS 14.35.010;

5 (2) a plan for the establishment and administration of an
6 employment training for economic development fund for the purpose of develop-
7 ing a technically skilled Alaska work force for economic development projects
8 and to establish short-term technical training programs;

9 (3) a proposed budget for the board and its programs for fiscal
10 year 1984;

11 (4) other information, including proposed legislation, that would
12 assist the legislature in improving employment training and vocational educa-
13 tion in the state.

14 * Sec. 5. The Board of Employment Training and Vocational Education may
15 contract for staff and services necessary to develop the plans, budget, and
16 information required by sec. 4 of this Act.

17 * Sec. 6. DEFINITIONS. In this Act, unless the context indicates other-
18 wise,

19 (1) "board" means the Board of Employment Training and Vocational
20 Education;

21 (2) "employment training" means instruction, usually for a short-
22 term period, in specific job skills;

23 (3) "vocational education" means organized educational programs
24 that prepare individuals for employment or volunteer work in a particular
25 occupation or job not requiring a baccalaureate or advanced degree.

26 * Sec. 7. This Act is repealed on July 1, 1983.

27 * Sec. 8. This Act takes effect July 1, 1982.

1 (B) develop annual and multiple-year statewide plans for
2 employment training and vocational education programs;

3 (C) report annually to the legislature;

4 (D) provide for transferability between employment training
5 and vocational education programs throughout the state;

6 (E) provide for coordination of secondary and postsecondary
7 employment training and vocational education programs throughout the
8 state;

9 (F) provide for the representation of local community members
10 in vocational education matters that affect their communities;

11 (G) review

12 (i) all employment training and vocational education
13 programs administered by the University of Alaska and the Department
14 of Education at the postsecondary and adult levels that do not lead
15 to a baccalaureate or graduate degree;

16 (ii) all supplemental programs for employment training
17 and vocational education established and financed in accordance
18 with AS 14.17.061;

19 (iii) state adult vocational and technical training
20 centers;

21 (iv) programs established under the Comprehensive
22 Employment and Training Act of 1973 (P.L. 93-203; 29 U.S.C. secs.
23 801 - 999), except as provided otherwise by federal law; and

24 (v) on-the-job and classroom training programs estab-
25 lished under state law to replace or supplement Comprehensive
26 Employment and Training Act programs;

27 (H) establish and maintain a list of persons who possess
28 vocational and technical skills to give part-time or periodic employment
29 training and vocational education instruction on a contract basis to a

1 school district, regional educational attendance area, or postsecondary
2 institution;

3 (1) serve as the state board for the purposes of the federal
4 Acts described in AS 14.35.010;

5 (2) a plan for the establishment and administration of an
6 employment training for economic development fund for the purpose of develop-
7 ing a technically skilled Alaska work force for economic development projects
8 and to establish short-term technical training programs;

9 (3) a proposed budget for the board and its programs for fiscal
10 year 1984;

11 (4) other information, including proposed legislation, that would
12 assist the legislature in improving employment training and vocational educa-
13 tion in the state.

14 * Sec. 5. The Board of Employment Training and Vocational Education may
15 contract for staff and services necessary to develop the plans, budget, and
16 information required by sec. 4 of this Act.

17 * Sec. 6. DEFINITIONS. In this Act, unless the context indicates other-
18 wise,

19 (1) "board" means the Board of Employment Training and Vocational
20 Education;

21 (2) "employment training" means instruction, usually for a short-
22 term period, in specific job skills;

23 (3) "vocational education" means organized educational programs
24 that prepare individuals for employment or volunteer work in a particular
25 occupation or job not requiring a baccalaureate or advanced degree.

26 * Sec. 7. This Act is repealed on July 1, 1983.

27 * Sec. 8. This Act takes effect July 1, 1982.

1 (B) develop annual and multiple-year statewide plans for
2 employment training and vocational education programs;

3 (C) report annually to the legislature;

4 (D) provide for transferability between employment training
5 and vocational education programs throughout the state;

6 (E) provide for coordination of secondary and postsecondary
7 employment training and vocational education programs throughout the
8 state;

9 (F) provide for the representation of local community members
10 in vocational education matters that affect their communities;

11 (G) review

12 (i) all employment training and vocational education
13 programs administered by the University of Alaska and the Department
14 of Education at the postsecondary and adult levels that do not lead
15 to a baccalaureate or graduate degree;

16 (ii) all supplemental programs for employment training
17 and vocational education established and financed in accordance
18 with AS 14.17.061;

19 (iii) state adult vocational and technical training
20 centers;

21 (iv) programs established under the Comprehensive
22 Employment and Training Act of 1973 (P.L. 93-203; 29 U.S.C. secs.
23 801 - 999), except as provided otherwise by federal law; and

24 (v) on-the-job and classroom training programs estab-
25 lished under state law to replace or supplement Comprehensive
26 Employment and Training Act programs;

27 (H) establish and maintain a list of persons who possess
28 vocational and technical skills to give part-time or periodic employment
29 training and vocational education instruction on a contract basis to a

1 school district, regional educational attendance area, or postsecondary
2 institution;

3 (I) serve as the state board for the purposes of the federal
4 Acts described in AS 14.35.010;

5 (2) a plan for the establishment and administration of an
6 employment training for economic development fund for the purpose of develop-
7 ing a technically skilled Alaska work force for economic development projects
8 and to establish short-term technical training programs;

9 (3) a proposed budget for the board and its programs for fiscal
10 year 1984;

2 HOUSE BILL NO. 695

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 TWELFTH LEGISLATURE - SECOND SESSION

5 A BILL

6 For an Act entitled: "An Act relating to employment training and vocational
7 education and establishing the Board of Employment
8 Training and Vocational Education; and providing for an
9 effective date."

10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

11 * Section 1. LEGISLATIVE INTENT. It is the intent of the legislature
12 that

13 (1) Alaskans be trained for Alaskan jobs;

14 (2) employment training and vocational education programs in the
15 state be unified and responsibility for those programs be placed in a single
16 independent board;

17 (3) members of the state's private sector most familiar with the
18 needs of business, industry, and labor and the changing opportunities in the
19 Alaska job market take the lead in planning, establishing policy, and develop-
20 ing programs in employment training and vocational education that will assist
21 in meeting the needs of employers for skilled workers and in fostering eco-
22 nomic development in the state;

23 (4) persons, without regard to age, sex, race, religious or polit-
24 ical persuasion, or ethnic background, in all communities of the state,
25 including those in high school, those in postsecondary schools, those who
26 have completed or discontinued formal education and are preparing to enter
27 the labor market, those who have already entered the labor market but need to
28 upgrade or learn new skills, those unemployed, those disadvantaged, and those
29 with special educational disabilities, will have ready access to employment

1 training or retraining and vocational education that is of high quality, that
2 is realistic in the light of actual or anticipated opportunities for gainful
3 employment, and that is suited to needs, interests, and ability to benefit
4 from the training; and

5 (5) quality employment training and vocational education programs
6 be established throughout the state through the development of comprehensive
7 statewide planning, improved data collection and uniform training standards
8 and the cooperation of business, industry, education, and labor in order to
9 foster continued economic development in the state.

10 * Sec. 2. AS 14.35 is amended by adding new sections to read:

11 Sec. 14.35.011. BOARD OF EMPLOYMENT TRAINING AND VOCATIONAL EDUCA-
12 TION. (a) The Board of Employment Training and Vocational Education is
13 established in the Department of Education. The board is not a division
14 in the department. The board, its members, executive director and staff
15 are in the department for administrative support services only and are
16 not subject to the direction of the commissioner of education or the
17 state Board of Education.

18 (b) The board consists of seven members appointed by the governor
19 for staggered three-year terms. Members may be reappointed. Members
20 shall be selected as follows:

21 (1) four persons representing businesses or industries in the
22 state that are employing persons trained in employment training or
23 vocational education programs;

24 (2) two persons from labor unions or labor organizations in
25 the state whose members work in occupations for which training may be
26 received in employment training or vocational education programs; and

27 (3) one person representing institutions or organizations
28 that conduct employment training or vocational education programs in the
29 state.

1 (c) The board shall elect a chairman from among its members.

2 Sec. 14.35.012. DUTIES AND POWERS OF THE BOARD. (a) The board
3 serves as the state board for the purposes of the federal Acts described
4 in AS 14:35.010, as the state agency required under sec. 105 of Title I
5 (Community Service and Continuing Education) of the Higher Education Act
6 of 1965 (P.L. 89-329; 79 Stat. 1220; 20 U.S.C. 1005), as amended by the
7 Education Amendments of 1972 (P.L. 92-318, sec. 196; 88 Stat. 324), and
8 as the Board of Vocational Rehabilitation for the purposes of AS 23.15.-
9 010 - 23.15.200.

10 (b) The board shall

- 11 (1) establish statewide priorities for the use of resources
12 available for employment training and vocational education;
- 13 (2) develop annual and multiple-year statewide plans for
14 employment training and vocational education programs, containing objec-
15 tives to accomplish the statewide priorities established under (1) of
16 this subsection;
- 17 (3) report annually to the legislature on the achievement of
18 objectives in the statewide plans;
- 19 (4) provide for transferability between employment training
20 and vocational education programs throughout the state;
- 21 (5) provide for coordination of secondary and postsecondary
22 employment training and vocational education programs throughout the
23 state;
- 24 (6) establish local advisory councils to advise potential
25 recipients of opportunities for employment training and vocational
26 education;
- 27 (7) develop a statewide system for the collection and distri-
28 bution of data on employment training and vocational education;
- 29 (8) consult with the Department of Labor to coordinate employ-

1 ment training and vocational education programs with job market needs;

2 (9) prescribe by regulation uniform statewide standards for
3 state-financed and federally financed employment training and vocational
4 education programs;

5 (10) represent the state in all matters related to the admin-
6 istration of the federal Acts described in AS 14.35.010;

7 (11) perform all acts necessary to entitle the state to re-
8 ceive money available under the federal Acts described in AS 14.35.010
9 and expend and disburse the money according to those Acts;

10 (12) designate the districts, schools, departments, or classes
11 to participate in the benefits of money received under the federal Acts
12 described in AS 14.35.010;

13 (13) approve or disapprove, after reviewing for compliance
14 with statewide standards prescribed under (9) of this subsection,

15 (A) all employment training and vocational education
16 programs administered by the University of Alaska at the post-
17 secondary and adult levels that do not lead to a baccalaureate or
18 graduate degree;

19 (B) all supplemental programs for employment training
20 and vocational education established and financed in accordance
21 with AS 14.17.061;

22 (C) all adult and continuing education programs related
23 to employment training and vocational education conducted by a
24 state government department or agency, including, but not limited
25 to, fire service training, village public safety officer training,
26 and fisheries education programs; and

27 (D) state grant money designated for employment training
28 and vocational education programs;

29 (14) administer

1 (A) state adult vocational and technical training
2 centers;

3 (B) programs established under the Comprehensive Employ-
4 ment and Training Act of 1973 (P.L. 93-203; 29 U.S.C. secs. 801 -
5 999), except as provided otherwise by federal law;

6 (C) on-the-job and classroom training programs estab-
7 lished under state law to replace or supplement Comprehensive
8 Employment and Training Act programs;

9 (D) continuing education programs established under
10 sec. 105 of Title I (Community Service and Continuing Education) of
11 the Higher Education Act of 1965 (P.L. 89-329; 79 Stat. 1220; 20
12 U.S.C. 1005), as amended by the Education Amendments of 1972 (P.L.
13 92-318, sec. 196; 88 Stat. 324); and

14 (E) vocational rehabilitation programs established under
15 AS 23.15.

16 (c) The board shall establish and maintain a list of persons
17 approved by the board who possess vocational and technical skills to
18 give part-time or periodic employment training and vocational education
19 instruction. A school district, regional educational attendance area,
20 or postsecondary institution may contract with persons on the list to
21 provide periodic or part-time instruction in employment training and
22 vocational education.

23 (d) The board may

24 (1) adopt regulations necessary to carry out its functions
25 under AS 14.35.011 - 14.35.017;

26 (2) establish task forces, committees or subcommittees, not
27 necessarily consisting of board members, to advise and assist the board
28 in carrying out functions assigned by state or federal statute; and

29 (3) contract with, or use, local educational institutions or

1 other organizations or individuals to provide specific employment train-
2 ing and vocational education programs, prepare studies, conduct surveys,
3 submit recommendations, or otherwise contribute to the work of the board.

4 Sec. 14.35.013. EXECUTIVE DIRECTOR. (a) The board shall select
5 and employ an executive director, and may authorize the executive
6 director to select and employ staff. The executive director serves as
7 the state director of employment training and vocational education.

8 (b) The executive director is in the partially exempt service
9 under AS 39.25.120. The monthly salary of the executive director is
10 equal to Step A, Range 26 of the salary schedule in AS 39.27.011(a) for
11 Juneau.

12 (c) The board shall determine the prorated basis on which money
13 available under the federal Acts described in AS 14.35.010 shall be
14 available for the salary and necessary travel expenses of the state
15 director of employment training and vocational education.

16 Sec. 14.35.014. EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION
17 PLANS. The University of Alaska, community colleges, school districts,
18 and regional educational attendance areas shall assist the board in the
19 preparation of annual and multiple-year statewide plans for employment
20 training and vocational education by annually soliciting and submitting
21 to the board public testimony and comment on needs and desires for
22 employment training and vocational education throughout the state. The
23 board shall base its statewide plans, in part, on public testimony and
24 comment submitted.

25 Sec. 14.35.015. EMPLOYMENT TRAINING FOR ECONOMIC DEVELOPMENT FUND.
26 The employment training for economic development fund, consisting of
27 money appropriated to it by the legislature, is created for the purpose
28 of developing a technically skilled Alaska work force for economic
29 development projects. The board shall administer the employment training

1 for economic development fund and may contract with local and state
2 educatior agencies, nonprofit corporations, and private corporations and
3 organizations to establish short-term technical training programs. The
4 board shall report annually to the legislature on receipts and expendi-
5 tures and disbursements from the fund.

6 Sec. 14.35.016. BUDGETS. The board is subject to the Executive
7 Budget Act (AS 37.07).

8 Sec. 14.35.017. DEFINITIONS. In this chapter, unless the context
9 indicates otherwise,

10 (1) "board" means the Board of Employment Training and Voca-
11 tional Education;

12 (2) "employment training" means instruction, usually for a
13 short-term period, in specific job skills;

14 (3) "vocational education" means organized educational pro-
15 grams that prepare individuals for employment or volunteer work in a
16 particular occupation or job not requiring a baccalaureate or advanced
17 degree.

18 * Sec. 3. AS 14.17.061(a) is amended to read:

19 (a) In addition to the amounts authorized to be paid to school
20 districts under this chapter, funding of supplemental programs, on the
21 same basis as determined in the computation of state aid for the appli-
22 cable district, may be recommended by the commissioner with, in regard
23 to employment training and vocational education supplemental programs,
24 the approval of the Board of Employment Training and Vocational Educa-
25 tion.

26 * Sec. 4. AS 14.40.909(b)(3) is amended to read:

27 (3) serve as the state agency required under secs. [105 OF
28 TITLE I (COMMUNITY SERVICE AND CONTINUING EDUCATION),] 603 of Title VI
29 (Financial Assistance for Undergraduate Education) and 704 of Title VII

1 (Construction of Academic Facilities) of the Higher Education Act of
2 1965 (P.L. 89-329; 79 Stat. [1220,] 1262; 20 U.S.C. [1005,] 1123) as
3 authorized by sec. 1202(c) of Title XII of the Higher Education Act of
4 1965, as amended by the Education Amendments of 1972 (P.L. 92-318,
5 sec. 196; 86 Stat. 324);

6 * Sec. 5. AS 23.15.010 is amended to read:

7 Sec. 23.15.010. BOARD OF VOCATION REHABILITATION. The Board of
8 Employment Training and Vocational Education which administers the
9 program of vocational education is designated as the Board of Vocational
10 Rehabilitation to administer the vocational rehabilitation program.

11 * Sec. 6. AS 23.15.210(2) is amended to read:

12 (2) "board" means the Board of Employment Training and Voca-
13 tional Education acting as the Board of Vocational Rehabilitation;

14 * Sec. 7. AS 23.15.611(a) is amended to read:

15 (a) The Department of Labor is authorized to participate in pro-
16 grams of manpower training if it finds they are necessary to meet the
17 occupational needs of the state. This authorization includes authority
18 to execute on behalf of the state agreements or contracts which may be
19 necessary or desirable to enable the state to participate in a program,
20 to receive and expend all appropriate funds made available for programs
21 by the state or from other sources, to supervise the expenditure of the
22 funds and conduct of the programs by other public and private agencies
23 of the state, and to make the reports and certificates which are called
24 for, and in cooperative arrangements with the Department of Education
25 and the Board of Employment Training and Vocational Education.

26 * Sec. 8. AS 23.15.611(c) is amended to read:

27 (c) The Department of Education and the Board of Employment Train-
28 ing and Vocational Education shall work in cooperation with the Depart-
29 ment of Labor and shall provide training facilities and training in-

1 structors as needed for the programs with funds made available to the
2 Department of Education and the Board of Employment Training and Voca-
3 tional Education for those purposes.

4 * Sec. 9. AS 44.27.020(1) is amended to read:

5 (1) administer the state's program of education at the ele-
6 mentary, secondary, and adult levels, including, but not limited to,
7 programs of vocational education and training, [VOCATIONAL REHABILITA-
8 TION,] library services, correspondence courses, adult basic education,
9 and fire-service training, but not including degree programs of post-
10 secondary education and programs in vocational rehabilitation;

11 * Sec. 10. AS 44.99.010(a) is amended to read:

12 (a) There is created the Alaska Manpower Services Council to
13 review and monitor all manpower activities within the state and advise
14 and make recommendations concerning manpower activities to the governor,
15 the Board of Employment Training and Vocational Education, prime spon-
16 sors under the Comprehensive Employment and Training Act of 1973, state
17 manpower agencies, and the public.

18 * Sec. 11. AS 14.35.020 - 14.35.025 are repealed.

19 * Sec. 12. AS 39.25.120 is amended by adding a new paragraph to read:

20 (20) the executive director of the state Board of Employment
21 Training and Vocational Education.

22 * Sec. 13. This Act takes effect July 1, 1982.

ALASKA STATE LEGISLATURE
HOUSE OF REPRESENTATIVES
RESEARCH AGENCY

Pouch Y, State Capitol
Juneau, Alaska 99811
(907) 465-3991

April 2, 1982

MEMORANDUM

TO: Representative Eric Sutcliffe
FROM: Jonathan Sherwood *JMS*
Research Staff
RE: Research Request 82-108
Fiscal Note for CSHB 695

Pat Lawler of your office requested that we estimate the fiscal impact of the provisions of the Health, Education, and Social Services Committee Substitute for House Bill 695. This bill establishes a temporary Board of Employment Training and Vocational Education to provide a plan for the creation of a permanent Board of Employment Training and Vocational Education. We have calculated the following costs:

Travel	\$10,000
Contractual Services	<u>\$48,700</u>
TOTAL	\$58,700

EXPLANATION OF COSTS

Travel: This represents the cost of air fare and per diem for board members traveling to board meetings. In computing the travel costs we have made the following assumptions:

- (1) the Board will consist of three members from Anchorage, two members from Fairbanks, one member from Bethel, and one member from Juneau;
- (2) the board will meet four times, twice in Anchorage and twice in Juneau, and that the meetings will last for two days;
- (3) travel and per diem costs will increase by 10% from current levels as a result of inflation.

Contractual Services: According to Section 4 of CSHB 695, the Board is authorized to contract for staff and services. We estimate the following contractual costs:

Representative Sutcliffe
April 2, 1982
Page Two

Consultant study	\$44,300
Secretarial support	\$ 1,900
Printing	<u>\$ 2,500</u>
TOTAL	\$48,700

We computed these estimates with the following assumptions:

- (1) the Board will contract with a private consultant to assist in preparing a plan as specified in Section 3 of CSHB 695;
- (2) completion of the plan, including a draft report and a final report, will require approximately six months, with the consultant spending a total of five working months on the plan;
- (3) the consultant's fee is \$50 per hour, including all expenses except travel costs and the printing of the final report;
- (4) the consultant is located in Juneau, and will attend all board meetings;
- (5) the Board will require a secretary to transcribe the minutes of the meeting, handle official correspondence, and make arrangements for the Board meetings; approximately six days of secretarial support is required for every Board meeting;
- (6) the secretary will be paid the equivalent salary of a range 12A;
- (7) one thousand copies of the final report on the Board's plan will be printed at a cost of \$2.50 per copy.

The appendix on the following page provides our computation of costs. If you have any questions, or if we can be of further assistance, please do not hesitate to contact us.

VOCATIONAL EDUCATION IN ALASKA

A

POSITION PAPER

OF THE

ALASKA STATE VOCATIONAL ASSOCIATION

1981

ALASKA STATE VOCATIONAL ASSOCIATION

POSITION PAPER

This We Believe

As vocational educators joined together to form a professional association, we believe vocational education is that part of the education system, secondary or postsecondary, which provides the student with knowledge and skills which are unique to and a requirement for job success in a particular occupation or occupational category. We believe vocational education is that part of the career education concept that addresses the "preparation" for employment in those occupations which require other than a baccalaureate or advanced degree for job entry.

In designing a program to prepare an individual for employment, one or more of the following needs may be the target: (1) initial job entry; (2) updating to keep current with the requirements of the present job; (3) upgrading to a new level within an occupational area; or (4) job change to a different occupational field.

A vocational education program is a combination of specialized classes focused on the knowledge and skills required to succeed in a chosen occupational area. In addition, vocational education curriculum includes content ranging from information relevant in almost every type of work to subject matter applicable only to a particular job.

Comprehensive vocational education programs usually have the following common elements:

- (1) Instructional methods are oriented toward "learning by doing".
- (2) Instructional content is generally derived from occupational and/or task analysis of the target occupations in the community and further directed through an advisory committee made up of employers, supervisors, labor representatives, and workers representing the occupational area.
- (3) Instructors of vocational education classes are experienced and proficient in one or more of the occupations being addressed in the vocational instruction.
- (4) Cooperative education or cooperative work experience classes are offered to "bridge" the step between education and work.
- (5) Specialized classes with each contributing to the basic requirements for job success set forth by the employing community.

- (6) A vocational student leadership organization in which students can apply that which has been learned in the vocational education classes.
- (7) A guidance and counseling program that provides services and resources for career decision making, academic planning and job placement.
- (8) An evaluation system that provides data through student follow-up, employer survey, and other sources to determine the students' ability to meet the requirements of the employing community.

The vocational education program is a very important part of the comprehensive educational program and vice versa. One of the primary purposes of education is to prepare the individual for choosing, entering, succeeding and changing in their respective work life role. Vocational education provides an essential portion of the knowledge and skills needed by individuals choosing occupations requiring other than a baccalaureate or advanced degree.

Likewise, the general education program, and in some instances, the college preparatory program, provides knowledge and skills equally essential to job selection, entry and success. General education is considered to be that portion of the curriculum providing the student with the foundations for living needed by everyone in our society. General education should provide the essential prerequisite knowledge and skill for students to choose and succeed in the vocational education programs.

The vocational education program should be designed to meet a combination of student needs coupled with the realistic projected job force demands for the time the student will complete training.

Vocational education should provide the student with: (1) learning experiences leading to knowledge and skills at a level of proficiency which will permit cost effective performance on the job; (2) human relations skills to bring harmony in working with supervisors, peers, and customers; (3) knowledge and skills to facilitate the transition from the training program to the work world and to maintain employment after it is acquired; and (4) knowledge of the increased options open to the individual.

We believe the planning, implementation, and evaluation of all training and education for occupations must be carried out in a comprehensive manner. The labor market needs and the needs of individuals may be met through a variety of vocational programs. These programs include various government programs such as C.E.T.A., Job Corps, and the many inhouse training programs run by government agencies for their own employees. In addition, there are many vocational programs run by the private sector such as proprietary vocational schools, Alaska Native Corporations, apprenticeship programs, on-the-job training programs, and correspondence study. If the needs of Alaska and its people are to be served through vocational education, the total picture must be considered and planned accordingly. A comprehensive approach to vocational education is critical to the well-being of the vocational education program within the education system.

For Alaska, we see the primary purpose of vocational education to be the preparation of a majority of the people from approximately fifteen years of age through adulthood for job entry, job update, job upgrade or job change. The focus should be upon preparing an individual in an occupational field commensurate with his or her desires and abilities and in which employment opportunities exist.

Of great importance is the role of vocational education in economic and community development. Economic development means new or expanded jobs. Vocational education has the responsibility of preparing Alaskans with the knowledge and skill to fulfill these jobs. This is crucial in the effort to attract new industry or expand existing businesses. It is equally important to assure Alaskans of a chance for the newly created jobs and of a competitive edge over imported labor.

Community development depends upon people having a productive role in the community, having feelings of self worth and a sense of security. Vocational education contributes to this through the adequate preparation of individuals for their productive work roles within the community.

A diverse, high quality program of vocational education readily available and responsive to the people and the job market is critical to Alaska's future.

The Needs of Vocational Education

We, the professionals in vocational education, believe that the ideals of a quality vocational education system have not been fully realized in Alaska. This is true, in part, because of the absence of an adequate legislation and statewide administrative policy for vocational education, which could bring a much cleaner sense of purpose and direction to the system. The ultimate success of Alaska's vocational training efforts will depend upon the degree to which a high-level overall policy is developed, a policy to embrace the general goals and acceptable procedures for establishing, operating, maintaining and evaluating vocational education programs.

It is the position of the ASVA that this policy should establish guidelines for the development of an ongoing, comprehensive vocational education plan. A vocational education planning council currently exists in Alaska, under mandate from the Federal Government. However, the role of this council has been quite limited. Presently, the members serve to plan for the allocation of approximately one million dollars in federal vocational education funds. Vocational programs operated under state monies, other governmental offices and through the private sector are not considered in the council's planning efforts because of the jurisdictional questions and lack of a basis for authority to do so. Programs which are totally State funded (the majority of the programs in the State) are not included in Alaska's vocational education plan. State planning guidelines and standards should be established. The federal mandates of the planning council should be reviewed for relevancy to Alaska's needs. Then a planning group (be it the current council or some other group) should be commissioned, and supported by the State, to develop

a plan which is applicable to all vocational education programs in Alaska. Such a plan is needed to prioritize the allocation of vocational education and manpower development resources, based upon the degree to which programs are meeting the employment needs of Alaskans and the labor market demands of Alaska's future economy.

Alaska's comprehensive policy for vocational education should also include direction to state-level administrators for the setting of uniform standards for program operation. Presently, the quality of training can vary widely from one program to the next, often within the same institution. The type of training offered in programs with identical titles can vary widely. For example, one auto mechanics "program" may consist of one course which prepares students to do simple repairs on their own automobiles. Another auto mechanics program may consist of a sequence of courses which prepare students to qualify for entry-level employment. This complicates the students' ability to transfer from a program at the secondary level to another secondary program or into a more advanced postsecondary program. It also complicates the process of determining the degree to which students are being trained for employment.

Since program quality and content can vary so widely, it is impossible to make generalizations about the preparedness of Alaska's vocational education students to accept employment by simply looking at the number of students completing programs of training. Therefore, the ASVA believes that standards should be established for program operation which include: (1) criteria for starting new programs, e.g., local or statewide labor market projections; (2) competency levels to be achieved upon successful completion of programs in each subject area; (3) evaluation criteria for program success, e.g., percentage of completers finding employment, employers' ratings of students' success on the job, and/or testing of student competencies.

Just as the quality of vocational education programs varies widely in Alaska, so do the experience levels and qualifications of vocational education teachers, counselors and administrators. The setting of uniform standards for competence in staff, therefore, is another area which must be addressed by statewide policy. While vocational education is a component of the overall educational program, it is very specialized in many ways; and vocational educators need skills and competencies which are often unique to the field. They not only must be good managers, good teachers and good counselors, but they must also understand such things as how to efficiently operate capital-intensive programs and how to relate education directly associated with quality program leadership by specialists with expertise in the vocational area they are serving. If quality programs are to occur in Alaska, teacher training opportunities must be made available, district and college support must be available for teachers who wish to upgrade their skills, and State standards must be stabilized and followed for the hiring of vocational education teachers, administrators and counselors.

Much of what has been discussed so far has to do with the development of policy which will facilitate good program management, evaluation and accountability. In order to accomplish any of this, it is necessary to consistently collect, compile and analyze a fairly wide range of data on such things as the labor market, student enrollment, student completers, employer satisfaction, equipment and expenditures. Currently, however, much of the data upon which policymakers and administrators need to make informed decisions is simply not available in Alaska. Therefore, the ASVA believes that one of the most pressing needs of Alaska's vocational education system is a comprehensive data collection system, which will allow for the compilation of standardized data on all vocational education programs, including programs offered at the secondary and postsecondary levels. State-level administrators should be required to set data reporting standards for local programs. Data collected should be adequate to answer questions such as:

Who is being served by vocational education programs?

What is being accomplished?

What is the cost?

What programs should be phased out and what new ones should be provided?

The statistics necessary to answer these questions include information on students (including race and sex), program completers, program leavers, expenditures, various projected labor force needs, and student success in employment. Without such basic information, Alaska's vocational education system will never be able to systematically offer training programs which are relevant to current economic conditions and job opportunities.

A viable vocational education system requires more than good management practices and the development of classroom standards. A successful vocational education system will require the development of stronger linkages with the employing community. It is widely recognized that many Alaskan jobs go to migrants from the "lower 48" while Alaskans go unemployed. Economists in the State seem to agree that this is due in part to the fact that many Alaskans simply do not have the requisite skills to qualify for the available jobs. The most appropriate response to this problem is to offer a quality system of vocational training, which can train Alaskans to a level at which they will be competitive with workers from the "outside". This will require a very close cooperative relationship between the schools, other government agencies, and the business community. This relationship can be accomplished in several ways, including: (1) state and local advisory councils which are composed of individuals from business, industrial, governmental and educational backgrounds; (2) cooperative education programs which offer academic credit to vocational education students for on-the-job training; (3) individual teacher contact with employers in their area of training; and (4) strong job counseling and job placement services in the schools.

Additionally, there must be a recognition of the Alaskan workers' need for job change. We are living in an age of rapid change. Studies indicate that the average person will change careers at least once, and perhaps several times, during his or her lifetime. New technologies are constantly making old skills obsolete, and giving rise to new occupations which demand a labor force equipped with new skills. As attempts are made to diversify the State's economy and to develop new industries, Alaska in particular, will demand a highly flexible work force. Educators must be able to meet the challenge of a rapidly changing economic environment by developing innovative approaches to training. Students must receive training which not only prepares them to advance within a particular occupation, but which also allows them to move from one occupation to another, and they must learn the value of continually upgrading their skills.

It is obvious, then, that educational institutions must do more than teach specific job skills in order to adequately prepare students for the world of work. That world is constantly changing. Students must learn to make decisions and to change with their environment. Therefore, the ASVA believes that a viable vocational education program must be part of a supporting career education concept. Career education helps each student understand the world of work, obtain information about the specific educational and job requirements of various careers, and acquire the knowledge and skills necessary to ultimately lead to the choice of a career. A sound career education program will help build, maintain and make greater use of vocational program options.

Recommendations

We of the Alaska State Vocational Association believe the primary purpose of vocational education is to prepare individuals for employment. In order for Alaska's vocational education program to meet this challenge in an efficient and effective manner it is important that some basic and key changes be made. These changes are summarized in the following comparison chart:

A Comparison Chart

<u>Current Status</u>	<u>Recommendation for Future</u>
1. Current legislation is vague, addresses vocational education the same as the Federal Law and does not include manpower development as a part of comprehensive vocational education.	1a. New legislation needs to be enacted to give direction to the development of a statewide comprehensive plan for vocational education. 1b. New legislation should be enacted to establish one governing body and to develop and oversee statewide policy on comprehensive vocational education.

Current Status (cont.)

4. Certification or standardized requirements for teachers, counselors and administrators of comprehensive vocational education are inconsistent, not enforced, or do not exist.

5. Data concerning the existing vocational and manpower programs, students, past students, and the workforce needs are non-existent or woefully inadequate for management decisions addressing future needs.

6. Current program standards and guidelines are not enforced, are unclear or, in many instances, do not exist to insure that each local vocational education program is closely associated with the potential employing community.

Recommendation for Future (cont.)

- 4a. Consistent standards should be developed and enforced for those who staff vocational education programs, based upon knowledge and skill requirements for the technical content being taught and the process of teaching, counseling or administering.

- 4b. Provisions should be developed within the state or through cooperative agreements with institutions of higher education outside the state to provide the required education to meet and maintain certification or personnel standards.

- 4c. Regulations should be set forth to ensure the employing agency actively supports inservice training dedicated to keeping vocational education personnel up-to-date and technically competent.

- 5a. A system should be designed and implemented to gather, process and provide data in a timely fashion on the comprehensive vocational education program (including manpower development, apprenticeship and other such training programs).

- 5b. Establish regulations for local programs to follow in providing consistent, complete, accurate and timely data to the statewide data system.

- 5c. Based upon statutes and statewide policy for comprehensive vocational education, establish the role of manpower forecast data in vocational education program decision making and provide the manpower need data accordingly.

- 6a. Program standards, regulations and guidelines must provide for the input of the employing community in such areas as prioritizing programs for implementation, phasing out, curriculum content, program evaluation, and work experience options. This is usually provided through an advisory committee arrangement.

Current Status (cont.)

7. Current emphasis in vocational education in Alaska is dominated by the priorities for providing the student with skills for avocational interests, career exploration, career awareness, or in a few instances, for first time job entry.
8. Career education concepts have been introduced to the K-12 educational system in Alaska but very little of the concept has been implemented in the schools; little has been accomplished in tying the career education concept and vocational education program together; little if anything has been done to introduce career education at the postsecondary level; and little commitment exists for career education at the State level in policy and administration of education.

Recommendation for Future (cont.)

- 6b. The comprehensive vocational education data system must provide for information from the employing community regarding its needs and its assessment of the workers coming from the vocational education program.
- 6c. Program standards and guidelines need to stress the importance of bridging the student's transition from education to work through simulation, work experience and placement programs.
- 7a. The comprehensive vocational education program must focus its efforts on preparing the individual to acquire a job, maintain a job, and upgrade in a job in a career field and leave the avocation, career awareness and career exploration up to other programs within the education system.
- 7b. The comprehensive vocational education program must more adequately address the growing need of Alaskans to have access to training for job update, job upgrade or job change throughout their working lives.
- 7c. The comprehensive vocational education program must address the State of Alaska's priorities for economic and community development and provide the opportunity for Alaskans to acquire the needed vocational training to obtain the newly developing jobs and to support the community and economic base for Alaska.
- 8a. Legislation and statewide policy should be developed and implemented addressing the importance of career education within the comprehensive education system.
- 8b. The regulations and guidelines should place emphasis upon the relationship and interdependency of career education and the comprehensive vocational education program.

Current Status (cont.)

Recommendation for Future (cont.)

- 8c. Career education should be planned and implemented as a concept which is a part of and a responsibility within each level of education, including graduate school, and appropriately a part of every discipline taught in the educational system.

If Alaska's vocational education system is to be expected to fulfill its purpose, policymakers and education/manpower administrators must give serious attention to these needed changes. The Alaska State Vocational Association is prepared and willing to support actions leading to changes which will better serve Alaskan's through a comprehensive vocational education program.

TESTIMONY IN REGARD TO CS FOR HB 695

Dr. Vern Oremus
April 6, 1982

My name is Vern Oremus. I am a professor of vocational education at the University of Alaska, Juneau and director of the statewide program of vocational teacher education for the University of Alaska. I've been involved with vocational education for fifteen years, and in Alaska for the past seven years as a community college director of vocational education, as a community college president, and as a professor of vocational education.

When I first testified in support of HB 695 as originally drafted, I tried to make several points, the main one being that in the seven years I have been involved with vocational education in Alaska I have witnessed a deterioration of programs at the local level and a total lack of coordination at the state level. I will elaborate somewhat on this statement because I think it's important to clearly understand how this bill was developed and why.

First, this bill has been a long time coming. When I first came to Alaska, I was shocked at the status of vocational education at the statewide level. There seemed to be no articulation, no leadership, and worst of all no standards to measure quality or quantity. Today we still have a lack of cooperation between agencies of vocational education; there are no statutes on the books setting standards for vocational programs. Unqualified teachers are being asked, and allowed, to instruct in vocational areas of the public schools, and there continues to be a constant battle between agencies for power, control, and funding.

I firmly believed HB 695 was the most positive step toward solving our ills I have seen in seven years. It's a shame it took vocational educators so long to stand up and say, yes, we need this. You see, vocational educators are not known for being particularly political or for oratory expertise. Vocational educators prefer to do their jobs, practice the trade if you will, and generally let the academic teachers give the speeches and the administrators push the papers. Perhaps that is one of our failings. The point is it takes a lot to make the practicing teacher stand up and say what HB 695 said. HB 695, and now the Committee Substitute, has been a long time coming. I hope you recognize the supporters of this bill from those in opposition. Those who oppose this bill are primarily those agencies affected, those with the most power and influence to lose, while those supporting the bill are the people on the firing line, the practicing teachers through their state association, the program heads, teacher educators, the state advisory council on vocational education, the people who have to make the system work.

It seems strange to me that those most affected by another layer of bureaucracy are asking for it. The reason is simple, the existing bureaucracy isn't doing the job well, or at all.

I work with vocational education at its grass roots level, in the field with practicing teachers. I deal with teachers every day, from Fairbanks to Bethel, Nome, to Ketchikan. I talk to them and I listen. My best sense is they are too busy trying to do their job to testify at hearings like this--but they do care. They are frustrated at having too many bosses in vocational education and seeing no real positive steps being taken; at seeing the constant infighting and turmoil. They see vocational education at the state level changing

direction as with the wind. They don't know what to do, and some don't care anymore. What a shame it is that this issue hasn't been brought to your attention sooner. Perhaps we were all hoping the system would solve its own problems; it obviously hasn't. What has occurred is the political forces within our state in vocational education have become larger, less responsive, and more territorial. Regardless of pledges to work cooperatively, when the chips are down, when dollars and political power are at stake, these forces polarize. I believe the Committee Substitute for HB 695 will solve this problem by finally doing what should have been done years ago, establishing guidelines for one board responsible for all vocational education in Alaska, giving it the power to act and holding it accountable for those actions.

Finally, I'm sure you are aware I've not addressed the substance of the CS for HB 695. Before this hearing is over, I'm confident you will have the bill dissected to your satisfaction. I leave that to others. These bills, HB 695 and the Committee Substitute, may well be the best thing that has happened to vocational education in this state for two reasons. First, it's pointed out a very serious problem and suggested a viable solution. Second, and most important, this bill has breathed new life into the practicing teacher. There is once again a common purpose--pass that bill. For once, I see teachers thinking in terms of "we," not "me." This isn't HB 695, but it's a start and you can't solve a problem unless you start somewhere. I urge its passage.

MEMORANDUM

TO: Representative Al Adams
FROM: Representative Eric Sutcliffe
RE: HB 695 and HB 696
DATE: April 6, 1982

I think we all would agree that quality employment training is vital if Alaskans are to participate in the economic development of the state. Today there are a number of shortcomings in our employment training system. Symptomatic are the drop-out rates in high schools, our unemployment rate, the lack of coordination between training and real jobs and our unpreparedness in the event of another pipeline-sized project. Employment training is not getting the attention it deserves.

The situation is complicated. Years of ad hoc efforts to provide employment training have created a tangle of programs residing in a number of state agencies, each of which is firmly set on protecting its own turf. Pulling all the disparate elements together and creating a board capable of taking the reins is a big policy decision. This bill would create a temporary board of employment training and vocational education which would review the present situation and design a workable unified employment training system for Alaska. The next legislature will then have the option of accepting the plans and recommendations of this board or not. But at least the next legislature will have some solid information and proposed legislation to act on as it sees fit.

HB 696 is the companion appropriation bill to HB 695. In view of our budget constraints, I asked the House Research Agency to estimate the minimum cost of the tasks outlined in HB 695. Based on their report, I would recommend amending HB 696 to reflect a fiscal note of \$58,700. Attached is the House Research Agency estimate of costs.

ALASKA STATE LEGISLATURE
HOUSE OF REPRESENTATIVES
RESEARCH AGENCY

Fourth Y, State Capitol
Juneau, Alaska 99811

April 2, 1982

MEMORANDUM

TO: Representative Eric Sutcliffe
FROM: Jonathan Sherwood JMS
Research Staff
RE: Research Request 82-108
Fiscal Note for CSHB 695

Pat Lawler of your office requested that we estimate the fiscal impact of the provisions of the Health, Education, and Social Services Committee Substitute for House Bill 695. This bill establishes a temporary Board of Employment Training and Vocational Education to provide a plan for the creation of a permanent Board of Employment Training and Vocational Education. We have calculated the following costs:

Travel	\$10,000
Contractual Services	<u>\$48,700</u>
TOTAL	\$58,700

EXPLANATION OF COSTS

Travel: This represents the cost of air fare and per diem for board members traveling to board meetings. In computing the travel costs we have made the following assumptions:

- (1) the Board will consist of three members from Anchorage, two members from Fairbanks, one member from Bethel, and one member from Juneau;
- (2) the board will meet four times, twice in Anchorage and twice in Juneau, and that the meetings will last for two days;
- (3) travel and per diem costs will increase by 10% from current levels as a result of inflation.

Contractual Services: According to Section 4 of CSHB 695, the Board is authorized to contract for staff and services. We estimate the following contractual costs:

Representative Sutcliffe
April 2, 1982
Page Two

Consultant study	\$44,300
Secretarial support	\$ 1,900
Printing	<u>\$ 2,500</u>
TOTAL	\$48,700

We computed these estimates with the following assumptions:

- (1) the Board will contract with a private consultant to assist in preparing a plan as specified in Section 3 of CSHB 695;
- (2) completion of the plan, including a draft report and a final report, will require approximately six months, with the consultant spending a total of five working months on the plan;
- (3) the consultant's fee is \$50 per hour, including all expenses except travel costs and the printing of the final report;
- (4) the consultant is located in Juneau, and will attend all board meetings;
- (5) the Board will require a secretary to transcribe the minutes of the meeting, handle official correspondence, and make arrangements for the Board meetings; approximately six days of secretarial support is required for every Board meeting;
- (6) the secretary will be paid the equivalent salary of a range 12A;
- (7) one thousand copies of the final report on the Board's plan will be printed at a cost of \$2.50 per copy.

The appendix on the following page provides our computation of costs. If you have any questions, or if we can be of further assistance, please do not hesitate to contact us.

Vocational education may ease unemployment

by Carol Murkowski
Times Writer

The United States doesn't have an unemployment problem, says Dr. Roni Posner; it has an employment problem. And vocational education could be the solution.

"On the job ladder, we have a lot of people with minimal skills at the bottom, and a lot of college-trained people at the top," says the American Vocational Association's director of planning and development. "In the middle, where you need technical skills, is where the gap is, and vocational education is the only employment program that can deliver those skills."

Posner is in Anchorage this week for the Alaska State Vocation Association and Alaska School Counselors Association statewide conference, campaigning against proposed federal budget cuts that would eventually end federal funding of vocational education.

"It's disastrous," Posner said flatly in an interview Thursday. President Reagan's proposal that states or private industry will pick up such programs "is ridiculous, and history has shown that," she said.

"The bottom line is that to

achieve the federal objectives of higher employment, you've got to supply federal direction and federal resources."

The 1982 federal budget for vocational education now stands at \$735 million, but the Reagan administration wants to bring the amount down to \$635 million, cut it to \$500 million in 1983, "and eventually, over the next decade, cut all federal contributions to vocational education," Posner said.

"The reason I use the word disastrous is that in most states, including Alaska, federal contributions are like the plug in a bathtub; when you pull it, everything goes down the drain," Posner said.

In Alaska, Posner said, the state has invested \$14 million in vocational education. However, she said, the state has no guidelines of its own, choosing to follow federal guidelines instead. If federal support is pulled, the state will have no focus for its vocational education programs.

However, Posner said, a bill to es-

tablish a state board of vocational education is currently before the state Legislature and would be a start in organizing the state programs and setting policy.

"I realize policy is sort on an abstract term, but you're talking about an action plan for the state, and how to improve and expand," she said. "If you put (a state board) into law and form regulations for development and action plans, lots of people in this state will take it and run with it."

Some things an Alaskan vocational education board might do, Posner said, are to:

- Provide incentives for young people to go into business for themselves, instead of relying on jobs from another employer or the government;

- Teach communities to lure industry with the promise of a pool of skilled workers, trained in "quick start" programs such as those in South Carolina, where education and industry work together to design

flexible training programs;

- And have teachers and guidance counselors meet regularly with business and industry representatives, to find out what type of skilled employees are needed.

National vocational education groups and industry are already working together on a number of issues, Posner said, including an increase in skilled technical workers, increased interest in scientific and mathematical skills, and special training for the needy, handicapped and minorities, especially in depressed regions. One of the most important issues, she says, is support of the proposed Defense Production Act, which would provide \$250 million each year for the next five years for military and defense preparedness.

"In the next five years, the president wants to put \$1.4 trillion into (defense) equipment, but if there's nobody to build it or operate it or fix it, we'll be in a lot of trouble," she said.

February 26, 1982

Honorable Eric Sutcliffe
State Representative for Alaska
State Legislature
Pouch V
Juneau, Alaska 99811

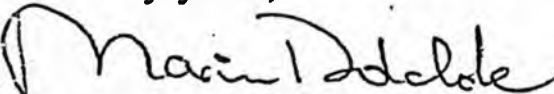

Dear Representative Sutcliffe:

On behalf of the Cook Inlet Native Association and Cook Inlet Region Inc., whom we consulted on this matter, I wish to express our mutual support for House Bill No. 695.

For your information and clarification concerning our support of this legislation, I've enclosed a copy of Jackie Guzialek's testimony which she made at the Legislative Hearing on this bill representing Cook Inlet Native Association. We feel this legislation will make significant strides toward eliminating unnecessary and duplicated efforts among boards, committees and commissions which transcend the full spectrum of "employment, training and vocational education" throughout the state.

Please keep us informed of progress on this bill and if we can lend further support toward its enactment, please feel free to call on us.

Sincerely yours,

for 

Robert W. Rude
President

Enclosure:

RWR:rm

TESTIMONY ON HOUSE BILL - 695

My name is Jackie Guzialek and I am a Director of Cook Inlet Native Association and the Chairman of the Anchorage Native Education Coalition, an Anchorage group which advocates improving educational opportunities for Alaskan Native people. An integrated vocational education system is needed in the State of Alaska, in order to deliver training at both the secondary and post secondary levels to all ALASKANS who can benefit from it. Alaska currently has many elements of a vocational education system but our State lacks a policy-making entity in the area of vocational education that is at a high enough level to make policy and to bridge the gaps between the currently existing policy-making bodies, none of which has jurisdiction over the entire vocational training system. The way that vocational educational delivery is presently organized, we have been unable to respond to rapidly changing conditions in the real world of employment in this State. We have not had a policy body that could allocate resources to provide early training that would respond to large economic development projects that were to come on line within two to five years. Currently, existing educational governing boards - the Board of Regents of the University of Alaska and the State Board of Education are vital and necessary to manage their own particular vocational programs. However, they must by law, concern themselves with broad and varied issues of managing their own massive educational enterprises, and cannot devote the time and attention that vocational planning on a State wide scale demands. Also, the distinguished citizens who serve on these two eminent boards are not for the most part representatives of the business and labor sectors of the Alaskan economy, who are the persons who hire the products of the vocational education programs and who are therefore, most knowledgeable about the manpower needs of Alaskan employers.

House Bills 695 and 696, developed by the Alaska State Council on Career and Vocational Education provides for a Board of Employment, Training and Vocational Education. This board, if created by the legislature will have the authority to do the State wide policy making and planning that are so desperately needed in our state in order to provide a framework for the development of a true vocational educational system.

From the perspective of a person interested in the betterment of the Standard of living of Alaskan people whether Native or not, I believe that this proposed legislation will enable us to devote the kind of emphasis on vocational education that has long been lacking in our State. Thank you for the opportunity to express my views.

FUTURE HOMEMAKERS OF AMERICA

Feb. 14, 1982

Dear Representative Beirne,

We feel it is time for a committee or council to look at Vocational education and training for Alaskans. I appreciate your support of House Bill 695 and 696.

Yours very sincerely,

AND
INTERNATIONAL
FEDERATION OF
HOME
ECONOMICS

Dear Representative Beirne,

I am a home economics teacher who is concerned about House Bills 695 & 696. I am also President-Elect of the Alaska Home Economics Association, but I'm writing this letter as a teacher.

I am in favor of House Bill 695 because I think it's vitally important that the vocational education programs around the state be unified & that they are actually training people for jobs. In order for this to be done there needs to be a person or persons responsible for checking on each of the schools to make sure the programs are relevant & preparing the students for the work world. I have taught home economics in Anchorage & now Juneau & have not seen any evidence of this in the past few years since the Dept. of Education changed its format.

Another thing that concerns me about this bill is that there should be a practicing vocational teacher on the board - someone who knows what's actually happening in the classroom.

I would appreciate your support of House Bills 695 & 696.

Sincerely,
Dody Maki
Home Economist

Representative M. F. Beirne
Alaska State Legislature
Pouch V
Juneau, AK 99811

Dear Representative Beirne:

I am writing to you as both an administrator charged with the schooling of children and as a resident of Alaska who is concerned for the economic well being of our state and its people. The Legislature will soon be acting upon legislation calling for the establishment of a separate Board of Employment Training and Vocational Education. I urge your support of this legislation. I also urge your leadership and direction of those who will be responsible for making this Board capable of bringing order to a condition which can only be called chaotic.

In 1969 the Stanford Research Institute, in a study done for the Governor, stated that "The continuing high unemployment among workers (especially Natives) is often blamed on the influx of seasonal workers. . . ." "The fact that these people continue to come to the state and take available jobs indicates that their skill levels are generally higher than those of the unemployed and underemployed resident workers."

In my opinion we have done little to improve this situation to this date. Last year at about this time I critically looked again at this matter, particularly as it related to rural Alaska. Rather than repeat my observations, I am enclosing a copy of the article in which they appeared.

In 1979, under the sponsorship of the Alaska State Advisory Council on Vocational and Career Education, a series of forums were held on the status

Representative M. F. Beirne
February 1, 1982
Page Two

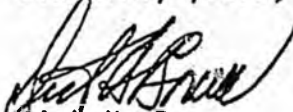

of vocational education, training and employment in the state. The findings generally pointed up that things were little better than in 1969. indeed the statement made by SRI in 1969 that "With regard to vocational education, we support not only wider offerings in secondary schools but (also) increased emphasis on and coordination of all vocational education instruction as well as expanded inservice and pre-service training by the state", relates very closely to findings and recommendations growing out of the forums, a summary of which is also enclosed.

Although I share your concern for not adding more people or agencies to state government, in this case I have an overriding concern for what is not being done and the often counter-productive dissipation of available resources which is occurring. To coin a phrase, I think it safe to say never before have so many done so little for so few in the history of Alaska.

The economic well being of our youth, our adults and our state may depend upon the action taken by you this session. One of your most critical decisions will be in connection with legislation bringing order to the chaotic state of the vocational education-training-employment issue. I sincerely urge you to actively support this long overdue consolidation of effort in connection with this vital issue.

If there is anything which I can do to further explain either the factors involved or my thoughts on this matter, I hope you will not hesitate to call upon me.

Sincerely yours,

Dick H. Bower
Superintendent

Representative Mike Beirne
Pouch V
Juneau, AK 99611

Dear Representative Beirne,

My name is William Carlson. I am Chairman of the Alaska Apprenticeship and Training Coordinators Association. I am also a member of the State Advisory Council for Career and Vocational Education and a member of the Planning Council for Career and Vocational Education. The following is a text of my testimony on House Bill 695 relating to employment training and vocational education and establishing the Board of employment training and vocational education.

"I think House Bill 695 is a viable alternative for any and all CETA type legislation that has, and will, be submitted such as Senate Bill 318, House bill 567 and METS Program for City budget and others. The pot of money at the end of the rainbow trick is unfair to those who don't, or can't, use it. Can you honestly say that everyone can use it? No! Because most of it will be targeted to select groups as the legislation proposes. Besides, there is not enough money to go fairly to all. The vocational needs of Alaska have not been met in the past because it has been a low priority. Accountability for present vocational education funds is non existant. There are millions going to Vocational Education now in Alaska and no one could tell you what it has accomplished. As a taxpayer and a labor oriented person, I don't like it. A Vocational Education Board would have A-1 priority; vocational education for Alaskan labor. With this type of emphasis, I believe, the existing high schools can provide students with entry level skills to be very employable in the Alaskan labor market. Community Colleges which are now in existance can provide upgrade classes, as they do now, but in an expanded capacity. At this time, I believe, new, expensive vocational education centers are not, repeat, Not, needed. Bush Schools can double for community colleges at night. Each village will have access to that educational opportunity. The bush communities are labor oriented. They work for a living and are not necessarily professional. In short, I think high

schools are not doing the job as well as they could in vocational education. As you relate to the bill, teacher qualifications will be a priority for the Board. Articulation will be a by-word in all Board actions. I support this bill with the reservation that there will be equal representation from labor and the business industry. The Board membership shall include three members from Business/Industry and three from labor organizations. This equity is needed to insure all problems will be addressed and give Alaskan youths a fighting chance to compete in the labor market.

The Western Alaska Building Trades Council has endorsed this bill with the provision that equal representation be provided for.

This bill is not a figment of someones imagination. It was put together as a result of studies by different organizations in Alaska and public hearings. An opinion poll was taken just recently that showed majority favor for the establishment of the Vocational Education Board. This is available from the Vocational Education Advisory Council.

Listed below are the changes which should be made in the bill. With these changes the bill has my full support.

SEC. 14.35.011. BOARD OF EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION.

Paragraph (b), sub paragraph (1) Change from four persons to: THREE persons representing businesses or industries in the state that are employing persons trained in employment training or vocational education programs.

Paragraph (b), sub paragraph (2) Change from two persons to; THREE persons from labor unions or labor organizations in the state whose members work in occupations for which training may be received in employment training or vocational education programs.

SEC. 14.35.012. DUTIES AND POWERS OF THE BOARD:

Paragraph (b) sub paragraph (9), ADD: Excepting those that are regulated by existing Federal Standards, ie; Bureau of Apprenticeship and training."

This concludes my testimony in regards to House bill 695. I thank you for your consideration and attention.

Sincerely Yours,

William R. Carlson
Chairman, Alaska Apprenticeship and Training Coordinators Association

LEGISLATION.

CENTRAL COUNCIL
tingit and haıda indian tribes of alaska
One Sealaska Plaza - Suite 200
Juneau, Alaska 99801
(907) 586-1432 or 586-3613

MY NAME IS RAY PADDOCK, I AM EXECUTIVE DIRECTOR OF THE CENTRAL COUNCIL OF TLINGIT & HAIDA INDIAN TRIBES OF ALASKA. THE CENTRAL COUNCIL IS A CONGRESSIONALLY RECOGNIZED TRIBAL GOVERNING BODY WHICH HAS BEEN OPERATING HUMAN AND COMMUNITY SERVICE PROGRAMS SINCE 1965. EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION HAVE ALWAYS BEEN OF THE HIGHEST PRIORITY TO OUR ORGANIZATION.

THE FOLLOWING COMMENTS WILL BE EXPANDED UPON BY FURTHER WRITTEN TESTIMONY TO BE SUBMITTED AT A LATER DATE.

TO BEGIN, IT IS OUR BELIEF THAT THE NEGATIVE ASPECTS OF FEDERAL CUTS IN FUNDING WHICH PROVIDE BOTH EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION SERVICES WITHIN ALASKA CANNOT BE OVERSTRESSED. THE STATE'S RECOGNITION OF THE GAPS THAT WILL BE CREATED BY THE FEDERAL FUNDING REDUCTIONS IS BOTH ADMIRABLE AND WORTHY OF PRAISE.

HOWEVER, WE STRONGLY FEEL THAT BEFORE THE RELATIVE STRENGTHS AND WEAKNESSES OF VARIOUS JOB TRAINING AND PLACEMENT SCENARIOS CAN BE ADEQUATELY ADDRESSED, THERE IS AN OVERWHELMING NEED TO EXPLORE THE CURRENT STRUCTURE OF THE STATE'S SYSTEM FOR SERVICE DELIVERY IN THE AREAS OF EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION. THUS, OUR VIEWS WILL, FOR THE MOST PART, SPEAK TO QUESTION #5 IN SENATOR FERGUSON'S LETTER OF NOVEMBER 17th.

A UNIFIED STATE COMMISSION OR BOARD WHICH WOULD OVERSEE ALL STATE ACTIVITIES DEALING WITH EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION WOULD BE A LOGICAL FIRST STEP. AT THE PRESENT TIME THERE EXISTS A COMPLEX "NON-SYSTEM" FOR DELIVERY OF THESE ESSENTIAL SERVICES WITHIN THE STATE. THIS "NON-SYSTEM" INCLUDES SUCH VARIED SERVICE PROVIDERS AS THE STATE DEPARTMENTS OF (1) EDUCATION, AND (2) COMMUNITY & REGIONAL AFFAIRS (AND THEIR VARIOUS DIVISIONS), THE COMMUNITY COLLEGE AND UNIVERSITY SYSTEMS, THE MUNICIPALITY OF ANCHORAGE, NATIVE REGIONAL NON-PROFITS, AND UNIONS AND AUTONOMOUS PRIVATE SECTOR BOARDS AND ASSOCIATIONS. INEFFICIENCY, DUPLICATION OF SERVICE, AND LACK OF COHERENT GOALS ARE ONLY SOME OF THE RESULTS OF THIS "NON-SYSTEMS".

WHILE A STATE COMMISSION WOULD ONLY BE ABLE TO SET SPECIFIC POLICY REGARDING GOALS AND OBJECTIVES TO BE ACHIEVED BY THOSE ENTITIES OVER WHICH IT HAS AUTHORITY, A "TOTAL SYSTEM" VIEW WOULD ENABLE IT TO SET STATE PRIORITIES IN LIGHT OF THE GOALS WHICH THE OTHER ENTITIES ARE ATTEMPTING TO ACHIEVE. IT WOULD EVEN BE POSSIBLE THAT, WITH PROPER COORDINATION AND INVOLVEMENT OF ALL PARTIES CONCERNED, A STATE COMMISSION COULD IDENTIFY BROAD GOALS TOWARDS WHICH EVERYONE COULD LOGICAL WORK. THIS IS MEANT TO IMPLY THAT ALL ENTITIES CURRENTLY INVOLVED IN THE DELIVERY OF EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION SERVICES ARE VITAL.

OUR HIGHEST PRIORITY, THEN, IS TO ADVOCATE THE CREATION OF A UNIFIED STATE COMMISSION OR BOARD THAT WOULD HAVE AS IT'S PRIMARY FUNCTION THE DEVELOPMENT OF A PROCESS THAT WILL OPTIMALLY ENHANCE COORDINATION AND COHERENCY WITHIN THE EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION SYSTEM OF THE STATE.

NOTWITHSTANDING THIS PRIMARY CONCERN, THERE ARE SPECIFIC AREAS IN WHICH WE FEEL MAJOR INADEQUACIES EXIST. THESE INCLUDE, BUT ARE NOT LIMITED TO, THE NEED FOR: (1) IMPROVEMENT OF BASIC EDUCATIONAL SKILLS, WORK ATTITUDES AND HABITS, AND KNOWLEDGE OF WORKPLACE AMONG MANY PRESENT AND POTENTIAL INDIVIDUALS IN THE WORKFORCE: (2) OCCUPATIONAL SKILLS TRAINING: (3) ENHANCEMENT OF CAREER AWARENESS PROGRAMS IN SECONDARY SCHOOLS (ESPECIALLY IN SMALL RURAL COMMUNITIES); (4) JOB PLACEMENT ACTIVITIES AND EMPLOYMENT INCENTIVES; (5) ENHANCEMENT OF ACTIVITIES WHICH STRESS JOB CREATION AND RETENTION.

IN CLOSING, I WOULD LIKE TO POINT OUT THAT ACADEMIC EDUCATION HAS HISTORICALLY BEEN EMPHASIZED IN ALASKA AT THE EXPENSE OF EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION. WHILE IT IS RECOGNIZED THAT ACADEMIC EDUCATION IS ONE OF THE MOST IMPORTANT AND NECESSARY SOCIALIZATION TOOLS THAT WE HAVE AVAILABLE TO US, THE IMPORTANCE OF SUCCESSFUL WORK EXPERIENCES FOR ALL INDIVIDUALS IN OUR SOCIETY CANNOT GO UNRECOGNIZED. THE POTENTIAL FOR ECONOMIC DEVELOPMENT IN ALASKA IS SEEMINGLY LIMITLESS, AND WILL ENCOMPASS A BROAD RANGE OF INDUSTRIES AND ATTENDANT SUPPORT SERVICES THAT IS UNMATCHED ANYWHERE ELSE IN THE NATION. A WORKFORCE COMPOSED OF INDIVIDUALS WITH THE SKILLS AND TRAINING NECESSARY TO MEET THE VARIED DEMANDS OF THE FUTURE, AS WELL AS THE PRESENT, JOB MARKET IS A NECESSITY. AND IT IS ONLY THROUGH A SYSTEM THAT MAXIMIZES COORDINATION OF TRAINING AND EDUCATION THAT THIS WILL BE ACHIEVED.

THANK YOU.

Goldbelt, Inc.

TESTIMONY ON HOUSE BILL NO. 695

GOLDBELT, INC., AS THE JUNEAU NATIVE CORPORATION UNDER THE ALASKA CLAIMS SETTLEMENT ACT, IS IN SUPPORT OF HOUSE BILL NO. 695, WITH THE FORMATION OF A BOARD OF EMPLOYMENT TRAINING AND VOCATIONAL EDUCATION, THE EMPLOYMENT AND TRAINING NEEDS WILL BE GIVEN THE PRIORITY IT SO GREATLY NEEDS. THIS BOARD WILL ESTABLISH LOCAL ADVISORY COUNCILS WHICH IS NECESSARY TO ENSURE TRAINING AND EMPLOYMENT FOR ALASKA RESIDENTS.

Joseph E. Kahklen
President

POSITION PAPER

HOUSE BILL NO. 695

House Bill No. 695 is "An Act relating to employment training and vocational education and establishing the Board of Employment Training and Vocational Education; and providing for an effective date."

The intent of this bill is to better plan, coordinate, and standardize the many employment training and vocational education programs in the state in order to foster economic development. This bill would:

- 1) Establish a Board of Employment, Training and Vocational Education within the Department of Education. The seven person board would include representatives from business or industry, labor organizations, and training institutions.
- 2) Employ an Executive Director and staff to carry out the Board's responsibilities.
- 3) Require annual and long range statewide plans for employment training and vocational education.
- 4) Establish an Employment Training for Economic Development Fund to be administered by the Board for training programs.

In addition the bill amends several areas of legislation affecting the Departments of Education and Labor.

The Department of Health and Social Services supports the intent of improved planning, coordination and standardization of employment training and vocational education programs. However, the Department of Health and Social Services defers to the Departments of Education and Labor to comment on the specific proposals in this bill.

The Department of Health and Social Services also recommends that training programs which are under DHSS responsibility be exempted from the requirement of this bill. Some of these training programs include the following.

- 1) Division of Family and Youth Services - Work Incentive (WIN) Program - This is a bi-agency effort to reduce welfare dependency by assisting Aid to Families with Dependent Children recipients to become self-sufficient. The Department of Labor provides employment and training services designed to enhance welfare recipients to obtain and retain employment. DHSS provides the social services necessary to prepare and support the registrants and their families as they strive for self-sufficiency. Alaska may soon implement a work experience program for AFDC recipients which will probably utilize the WIN services delivery system but make DHSS the responsible administering agency.

- 2) Office of Alcoholism and Drug Abuse - training for alcohol and drug abuse programs. The State Office of Alcoholism and Drug Abuse has a voluntary certification program with 10 core competencies for alcohol and drug abuse counselors throughout the state.
- 3) Division of Adult Corrections - training for correctional officers and probation officers. The Division of Adult Corrections also has a correctional industries program which is a correctional rehabilitation program designed to develop a work ethic among inmates.
- 4) The Division of Mental Health and Developmental Disabilities - grants for sheltered workshops, prevocational, and vocational training for Mental Health and Developmental Disabilities clients.
- 5) Division of Public Health - Emergency Medical Technicians and Emergency Medical Technician Instructors training programs. Under AS 18.08.080 the Department of Health and Social Services is mandated to prescribe by regulation a course of training or other requirements prerequisite to the issuance of certificates which provide the following:
 - a) certifies that a person meets the training and other requirements as an emergency medical technician;
 - b) authorizes an emergency medical technician certified under this chapter to provide under the written or oral direction of a physician those advanced life support services enumerated on the certificate;
 - c) certifies that a person, organization, or government agency which provides an emergency medical service meets the minimum operating standards prescribed by the department; and
 - d) authorizes an emergency medical service certified under this chapter to provide under written or oral direction of a physician those advanced life support services enumerated on the certificate.

In accordance with its mandate under the above cited statute, the Department of Health and Social Services has promulgated regulations under Title 7, Part 2, Chapter 26 of the Alaska Administrative Code. These regulations have been endorsed by the Department of Public Safety and the Alaska State Medical Board.

For the most part, the above cited training programs use existing training standards or guidelines. The Department of Health and Social Services is concerned that HB 695 may result in duplication of existing review processes for DHSS grant and training programs. DHSS also uses several program advisory boards which are created by statute, such as for Mental Health and Developmental Disabilities, Alcohol and Drug Abuse, and Emergency Medical Services.

POSITION PAPER HB 695
Page 3

DHSS is concerned that the Board of Employment Training and Vocational Education would duplicate the efforts of these advisory boards. DHSS is also concerned that grantees would have additional standards to comply with for grant approval.

The Department of Health and Social Services supports the intent of HB 695, but recommends that DHSS grant and training programs be exempted from the review and approval or disapproval authority of the proposed Board of Employment Training and Vocational Education.

The Department of Health and Social Services estimates that HB 695 will have no fiscal impact on this department.
