December 23, 1981

The Honorable Jay S. Hammond
Governor of Alaska
Pouch A
Juneau, Alaska 99811

Dear Governor Hammond:

During a hearing conducted by the House Health, Education and Social Services Committee on December 9 at the University of Alaska, Anchorage, students aired deep concern about the lack of housing on campus.

The Committee feels that the student housing problem has grown to such magnitude that it should be brought to your attention, as well as the Legislature's.

More than 500 students at the Anchorage campus have signed petitions urgently requesting that student housing in Anchorage be a major priority in the state's fiscal 1983 budget. Copies of the petitions are attached for your review.

Student housing in Anchorage, I believe, would prove to be a good investment for the state.

✓? Not only would it help the over-all housing crunch, which has reached a crisis, but it would assist in keeping students from going Outside for their education.

Not only have local high school students indicated in surveys that a lack of housing is one reason why they attend college Outside, but some 300 students who dropped out of the University in the Fall cited a lack of housing and programs as primary reasons for leaving.

It also is estimated that from \$20 million to \$28 million in state student loans go with these students when they leave the state. Using a conservative economic multiplying factor of six, which represents the amount of money students would normally spend in the community, this means the Anchorage business community is losing about \$150 million in revenue each year.

There are two proposed Committee bills you may be interested in. Both will be introduced early next session.

The first piece of legislation---a special appropriation to the University of Alaska---would help solve the immediate housing shortage at the University. It sets aside \$2.2 million for the purchase, renovation and maintenance of the Carriage House.

The second proposal--also a special appropriation to the University--would earmark \$15 million for construction of 300 units on the Anchorage campus. However, this bill would be a capital improvement project only, and would not present a constant strain on the university's operating budget.

The University would merely contract for construction. The on-campus units would then be leased, operated and maintained by the private sector, eliminating the need to put more employees on the University payroll. The student dining area also would be leased.

Let me also point out that Anchorage, the state's largest community, currently has absolutely no student housing. Fairbanks not only has student housing, but there is \$10 million in the 1983 fiscal budget for additional housing and some \$3 million for renovation of existing housing units. President Barton has requested \$12 million for housing for the Juneau campus in the 1983 budget. The Board of Regents has approved the request.

Students who attend the Fairbanks campus pay \$325 per semester, (four months) while students in Anchorage pay \$400 to \$450 per month for an apartment off-campus. And because students cannot afford to sign long-term lease agreements, they are easily bumped from these off-campus units.

It also costs a student nearly \$6,000 a year to attend the University's Anchorage campus, while at the Fairbanks campus, it costs about \$3,600 a year.

Student housing in Anchorage would have additional benefits. It would cut down on automobile traffic in the campus area which also would save on fuel. Reduced rental costs would result in smaller student loans and free up loan money for students who desperately need to borrow.

Again, the Committee feels that student housing at the Anchorage campus is long overdue.

The Committee is not only seeking your support in this matter, but any assistance the state administration can provide would be deeply appreciated.

Sincerely,

Representative Mike Beirne
Chairman, House Health, Education
and Social Services

Representative Terry Martin
Vice-Chairman, House Health,
Education and Social Services

HOUSING 1981-1982

The Long Range Planning Sub-Committee for Student Housing, in order to obtain information related to housing needs, conducted three(3) surveys. Each survey was directed towards obtaining information from or about enrolled or potential UAA students. In addition information was obtained from the UAA offices of Admissions and Records, and Institutional Studies.

1. Surveys

- A. UAA students-during the December 1981 pre-registration, every fourth(4th) student who pre-registered was requested to fill out a questionnaire which asked for demographic (year in college, sex, age, married-single, number of children, mode of residence, etc.) information in order to get a picture of the type of residences and occupants.
- B. Local High Schools-a letter, accompanied by twenty(20) questionnaires, was sent to the public high schools that are located in the Anchorage Bowl, Wasilla, and Palmer. The letter requested each high school counseling office to distribute and collect the twenty (20) forms from an equal number of juniors and seniors. These forms asked: would a student attend UAA if housing were available, would a student attend UAA if housing were available and if _____ program were offered, would the student not attend UAA even if housing were available.
- C. Bush-ninety-seven(97) questionnaires were sent to non-Anchorage high schools requesting school officials to estimate, based on a number of ten(10), the number of students that would attend UAA if housing were available.

II. Survey Results

A. UAA-912 students during pre-registration registered for twelve(12) or more credit hours. The survey sampled 230(25%) of the students. Findings as follows:

(Multiply each figure by 4 for population.)

(N)	Single	Rent	Children	Married	Rent	Children
Fresh(58)						
M 33	32	13(41%)	-	1	-	-
F 25	21	7(33%)	-	4	1	1
Soph(48)						
M 27	21	11(41%)	-	6	2	-
F 21	13	7(54%)	-	8	2	-
Jr.(76)						
M 29	21	14(67%)	-	8	3	2
F 47	30	20(67%)	6	17	6	2
Sr.(48)						
M 13	10	6(60%)	-	3	2	1
F 35	16	11(69%)	1	19	8	3
Total(230)						
M 102	84	44	-	18	7	3
F 128	80	45	7	48	16	5
	164	89(54%)	7	66	23	8

B. Anchorage High School Students-140 questionnaires (70 Jr's and 70 Sr's) were sent to the seven(7), twenty(20) each, for distribution and collection by the high school counseling offices. 101 (72%) were returned of which ninety-six(96) were usable. Findings as follows:

Questions:

- #1 Would attend UAA, current program offerings, if housing were available.
- #2 Would attend UAA if _____ programs were offered and if housing were available.
- #3 Would not attend, why.

	Jr.	Sr.
#1	5 (11%)	#1 5 (10%)
#2	11(24%)	#2 11(23%)
#3	<u>31(65%)</u>	#3 <u>33(67%)</u>
	47	49

- #3 Reasons—more than one(1 response-not in rank order.
 - a. warmer climate
 - b. get away from home
 - c. friends in other colleges
 - d. student life
 - e. poor academic reputation
 - f. leave Alaska for awhile

C. Bush (other than Anchorage area)-ninety-seven(97) questionnaires were sent, seventy-five(75) usable were returned. Each questionnaire asked a school official to estimate, using a n of ten(10), the number of students that would, 1)attend UAA if housing were available, 2) the number that would go outside, 3) the number that would attend an Alaskan college other than UAA, 3a) the number in 3) that would attend a four(4) year institution, 3b,the number in 3) that would attend a two(2) year institution. Findings as follows:

1. Would attend UAA	126 (17%)
2. Would go outside	365 (49%)
3. In Alaska non-UAA	<u>265 (35%)</u>
	756
3a 4yr.	177 (67%)
3b 2 yr	87 (33%)

III. Survey Interpretations

- A. If all the pre-registered full-time Spring '82 students who rent were in college housing, UAA would need units for $(89 \times 4) = 356$ single and $(66 \times 4) = 265$ married students. If only freshman and sophomores were considered for housing $(38 \times 4) = 152$ single and $(19 \times 4) = 76$ married units would be necessary.
- B. If current Anchorage area high school seniors attended UAA and lived in student housing $(2036 \times 60\% \text{ college attenders} \times 10\% \text{ UAA attenders}) = 122$ units would be needed.
- C. If the Bush students attended UAA, as estimated by high school officials, $(1865 \times 30\% \text{ attenders} \times 17\% \text{ UAA attenders}) = 95$ units would be necessary.
- D. Total units needed if all pre-registered freshman and sophomores, potential Anchorage area students, and potential Bush students lived in college housing 369 single and 76 married units would be needed.

IV. Information from Other Sources

A. Reports

1. Admissions and Records UAA-during the Fall Semester 1981, 139 June 1981 high school graduates attended UAA full-time. Ninety-seven(97) or seventy percent(70%) were graduates of Anchorage high schools. Eleven (11) or eight percent(8%) were graduate of Alaskan high schools other than the Anchorage area. Thirty(30) or twenty-six(26%) were graduates from out-of-state high schools.
2. Alaska Education Directory 1981-the Directory indicated that the Anchorage area public high schools had a senior class enrollment of $(10,176 \text{ students} \times 20\% \text{ seniors}) = 2036$. The Bush high schools had a senior class enrollment of $(9324 \text{ students} \times 20\% \text{ senior}) = 1865$.

3. Institutional Studies UAA—the Institutional Studies Office indicates a growth rate 1980 : 1981 of 26.2%.

B. Interpretations

If the same percent of Anchorage area students (97 - 2036)=5% attended UAA plus the same percent of the Bush students (11 - 1865) = .6% the full-time June 1982 Alaskan High School graduates that would enroll at UAA = 108. If the growth rate, Fall 1980 : Fall 1981, remained constant (26.2%) an additional 29 full-time freshman students or a total of 137 will enroll at UAA.

V. Conclusions

- A. Given that 36% of the full-time freshman rent and that UAA should enroll approximately 137 in-state June graduates as freshman; student housing for freshman would approximate fifty(50) units.
- B. Given that the sophomore through senior full-time student population will remain constant there will be 680 other than new freshman enrolled. If all these renters approximately $(680 \times .65) = 442$ (354 single and 88 married) units would be needed.
- C. Units for single students would be (35% returnees and 50 new freshman) = 404 + 88 married units or a total of 492 units for 100% housing of all full-time students who rent.
- D. If 25-30% of students who rent live in college housing (this is not an unusual %), the in college rentals would be approximately 123-148.
- E. If \$15,000,000 (as proposed) were used for housing $(\$15,000,000 - 150 \text{ sq. ft. per unit}) = \$18,750$ per unit. $(\$15,000,000 - \$18,750) = 800$ units. These 800 units combined with approximately 100 units in the Carriage House would total 900 units.

F. These 900 units would house all UAA full-time student renters (900-492) and leave an excess of 408 units. If the 900 units were rented by the usual percent that live in college housing (900 - 123 to 148) = 777 to 752 excess units would exist.

VI. Recommendations

- A. If University owned and/or operated-Go slow-start with approximately 100 units-this will accomodate projected need-Phase in additional housing per enrollment growth projections.
- B. If private owned and/or operated-number of units immaterial, reserve 100 units for full-time UAA students-increase reservation number per enrollment growth projections.

Summary

1. There currently is a need for college housing in the Anchorage area. The University of Alaska, Anchorage must decide on the type (apartment, single, or combination) of units and the number needed.
2. Decision must be reached regarding ownership and management of housing and should the ownership and/or management be public or private.
3. The housing needs would change if all UAA students, (full and part-time after registration), and ACC students were considered.

CAMPUS AFFAIRS

February 3, 1982

Barbara Miekins
House HESS Committee
Pouch V
Juneau, Alaska 99811

Dear Barbara:

Enclosed you will find a "Draft" of a study that was conducted by the University of Alaska Long Range Planning Committee. Please keep in mind that it only relates to the University of Alaska, Anchorage and does not include Anchorage Community College.

A UAA Student Housing Committee has reviewed the Careage House facility. We have determined that it could hold between seventy(70) and one-hundred(100) students depending upon double or triple room occupancy. Also in order to accommodate a large number of students extensive renovation would have to take place. For example there are only two(2) showers and two(2) tubs. There are a number of nursing stations, a physical therapy station, lounges, linen and laundry areas that would have to be converted to make maximum use possible. In addition an internal living unit would have to be constructed in order to provide for a live-in manager.

These modifications, examples, are in no way intended to mean that the facility is not suited for student housing but rather to point out that any facility that is built for one purpose does not automatically fit the use of another purpose.

If you have any questions feel free to contact me.

Sincerely,

A handwritten signature in dark ink, appearing to read "Leo Piccard".

Leo Piccard
Vice Chancellor, Campus Affairs

Lease: \$30,000/month or \$1.18 per S.F.
per month with annual C.P.I. 50%
of increase
- 5) Lease - Triple Net
Term: 15 Years
Lease: \$25,000/month or \$.98 per S.F.
per month with option to purchase
after the 10th year, no C.P.I.

CONDITION: User agrees to a covenant not to use
the facility for long-term care

You indicated your concept to date did not include food service to the occupants of the dormitory and that you were hoping for a \$200 to \$225 per occupant monthly cost for the building. It would appear from quick analysis the differential between your objective and my pricing of the lease concepts is derived from principally two areas:

- A) I am pricing a building which includes spaces you have not included in your cost objectives, i.e. kitchen and dining areas.
- B) My lease concepts reflect considerations for time, risk and investment considerations.

In any event, I believe we can reach a common agreement that will achieve your objectives and ours. I shall be looking at some alternatives which occurred to me on the flight home last night.

As I said, we are anxious to put the facility back into use. We are talking with other interested parties and will continue to work with these parties until we have received an offer agreeable to us. Therefore, time is of the essence and I am available to answer any and all questions you will have. I look forward to hearing from you soon.

Very truly yours,

HEALTH MANAGEMENT SERVICES, INC.

Eugene L. Johnson

CARRIAGE HOUSE ACQUISITION

OWNERS

Carriage House is owned by the Carriage Corp. of Seattle. Health Planning Services Inc., a subsidiary of Carriage, leases the building.

Individuals:

Carriage Corp. President:	J.P. McElroy (206)451-8661
Health Planning Services President:	Marvin Trepus
Assistant:	Gene Johnson (206)881-8668

HISTORY OF BUILDING

Operated as a nursing home until 1979. Legislature appropriated money (HB 50) for acquisition and renovation in 1980 for the Municipality. Was to be utilized for Salvation Army Detox Center/and Akeela House Detox Center.

Bert Hall of the Municipality reported strong community opposition to the site in neighborhood and the money lapsed into general fund. Rick Urion (Carriage Corp. lobbyist) says Hall did not want building an orchestrated failure. Dankworth used the lapsed funds (3.9 million) for road projects.

HOUSE ACTIVITY

Berne, Martin, and Barnes are submitting special appropriation for 1.9 million for acquisition and 50 K for renovation they are combining it with 7 million for student loans and 4.5 million for operating Mt. Edgecombe in FY B2.

MY ACTIVITY

I have submitted a bill request for same amount on 12-8-81.

On 12-9-81 I spoke with Gene Johnson of A.P.S. Inc. He reports some hesitancy on their part because of failure to acquire in the past. I asked him to supply me with:

1. Cost of acquisition
2. Cost of 5 year lease
3. Cost of 10 year lease

He will also provide us with floor plan, building specs, and general information. Johnson claims 1.9 figure is insufficient for acquisition.

MY PLAN

Appropriate enough for 5-7 year lease for immediate occupancy. In the meantime, plan and build dorms on university land. Private nursing home space will be needed in the future anyway so let Carriage retain possession.

RE: Carcage House Health Care Center - Projections & Costs

Dear Rick:

Enclosed is the summary of Projected and Actual Costs for the Carcage House Health Care Center utilizing actual operating information for the period 12-1-1979/ 5-31-1980, and 10-1-1980 / 10-31-1980, as well as our projections as to approximate State costs for the period 12-1-1980 / 5-31-1981.

Actual costs incurred by Carcage House Health Care Center were \$112,181 for the 6 month period 12-1-1979/5-31-1980 compared to an estimated State cost of \$10,236 for the period 12-1-1980/5-31-1981.

Actual costs of operation for the period 10-1-1980/10-31-1980 in the amount of \$17,036 would continue for each month that Health Care Services Alaska, Inc. is required to operate the premises.

We trust that this information will prove adequate for your needs.

Very truly yours,

Health Management Services, Inc.

PETITION FOR STUDENT HOUSING

TO: The Honorable Jay Hammond, Governor, State of Alaska
The Honorable Terry Miller, Lt. Governor, State of Alaska
The Alaska State Legislature
President Jay Barton, University of Alaska
The University Board of Regents

WE, THE UNDERSIGNED, believe that student housing at UNIVERSITY OF ALASKA, ANCHORAGE campus, is long overdue, desperately needed, and should be a major priority in the State's Fiscal Year '83 budget.

At the present time, we are forced to obtain rental units in a strained Anchorage rental market. The lack of adequate student housing adds a great deal to the cost of education and adds a burden to a student's budget.

We fully support funding for student housing at the University of Alaska's Anchorage campus and request your assistance in obtaining the needed funds.

 President Jay Barton, University of Alaska
 The University Board of Regents

WE, THE UNDERSIGNED, believe that student housing at UNIVERSITY OF ALASKA, ANCHORAGE campus, is long overdue, desperately needed, and should be a major priority in the State's Fiscal Year '83 budget.

At the present time, we are forced to obtain rental units in a strained Anchorage rental market. The lack of adequate student housing adds a great deal to the cost of education and adds a burden to a student's budget.

We fully support funding for student housing at the University of Alaska's Anchorage campus and request your assistance in obtaining the needed funds.

PETITION FOR STUDENT HOUSING

TO: The Honorable Jay Hammond, Governor, State of Alaska
 The Honorable Terry Miller, Lt. Governor, State of Alaska
 The Alaska State Legislature
 President Jay Barton, University of Alaska
 The University Board of Regents

WE, THE UNDERSIGNED, believe that student housing at UNIVERSITY OF ALASKA, ANCHORAGE campus, is long overdue, desperately needed, and should be a major priority in the State's Fiscal Year '83 budget.

At the present time, we are forced to obtain rental units in a strained Anchorage rental market. The lack of adequate student housing adds a great deal to the cost of education and adds a burden to a student's budget.

We fully support funding for student housing at the University of Alaska's Anchorage campus and request your assistance in obtaining the needed funds.

PETITION FOR STUDENT HOUSING

Ron Barton

TO: The Honorable Jay Hammond, Governor, State of Alaska
 The Honorable Terry Miller, Lt. Governor, State of Alaska
 The Alaska State Legislature
 President Jay Barton, University of Alaska
 The University Board of Regents

WE, THE UNDERSIGNED, believe that student housing at UNIVERSITY OF ALASKA, ANCHORAGE campus, is long overdue, desperately needed, and should be a major priority in the State's Fiscal Year '83 budget.

At the present time, we are forced to obtain rental units in a strained Anchorage rental market. The lack of adequate student housing adds a great deal to the cost of education and adds a burden to a student's budget.

We fully support funding for student housing at the University of Alaska's Anchorage campus and request your assistance in obtaining the needed funds.

PETITION FOR STUDENT HOUSING

TO: The Honorable Jay Hammond, Governor, State of Alaska
 The Honorable Terry Miller, Lt. Governor, State of Alaska
 The Alaska State Legislature
 President Ron Smith, Anchorage Community College
 The University Board of Regents

WE, THE UNDERSIGNED, students at Anchorage Community College hereby express our concern for the lack of student housing in the University system at Anchorage.

We fully support funding for student housing and academic programs at the University of Alaska's Anchorage campus and request your assistance in obtaining the needed funds.
