ATTN: (Miss) Kar W. Cory
Special Assistant to the Governor

Dear (Miss) Cory:

Thank you for your letter regards to the appointment I had from Governor Hammond to the Guide Licensing & Control Board.

I am sending you up-to-date resumé about myself to provide information Alaska State Legislature in January 1982 for confirmation of my term of service on the Guide Licensing and Control Board.

I am an full blood eskimo, born and raised here on the Island and spend most of my life hunting supporting my family.

After graduated from Mt. Edgecumbe High school I put in 5 years of teaching in school for Bureau of Indian Affairs.

I have been employed for Bering Sea Reindeer Products, Inc. here on the Island as Marketing Specialist and General Manager.

Today I am involved in Board of Directors for the following.

NIMA Corporation, here in the village as Vice-President.
Mekoryuk High School, Secretary.
IRA Council (Village Council) Member.
Church Board, Local Church. Secretary.
Alcoholism Awareness Program, Chairman.

In 1968 I was issued Special Guide License to Guide Walrus Hunters.
In 1975 I took my guide Tests and became Registered Guide.

Under those licenses, I have guideed 10-12 walrus Hunters and about 50 musk-ox hunters both residents and Non-residents.

Today I am involved in Board of Director for the Alaska Professional Hunters Association.

I am also member of the Safari Club International, member of the National Rifle Association.

I also have been selected to the Eskimo Walrus Sport Hunting Committee from 5 villages.

I hope this information will be helpful to you and the State Ligislatures.

Sincerely yours,

Edward J. Shavings, Sr.

RESUME'

CLARENCE VAIL CHATTERTON

2308 Boniface Parkway
Anchorage, Alaska 99504

Office: 907-279-2448
Home: 907-333-8161

VICE PRESIDENT, ROWAN DRILLING - U. S., Anchorage, Alaska

OBJECTIVE:

Appointment to the Oil & Gas Conservation Commission

SUMMARY:

Thirty-seven years of experience in oil and gas drilling, construction, exploration and production operations. Twenty plus years in Alaska, which includes eleven plus years guiding and being held accountable for Chevron - U. S. A. - Drilling & Production activities in Alaska including supervision of engineering, production, drilling and construction, and nine years with Rowan Drilling - U. S. as Administrative Officer. Concurrent with Rowan assignment served four years 1977-1981 in the Alaska State Legislature as a member of the House of Representatives.

EXPERIENCE

- January 1973 to present Rowan Drilling - U. S., 601 West 5th Avenue, Suite 531, Anchorage, Alaska, 99501. Vice President oil and gas well drilling contractor with five drill rigs in Alaska.
- April 1961 to January 1973 Standard Oil Company of California, P. O. Box 7-839, Anchorage, Alaska, 99510. District Superintendent, Producing Department, Alaska. Responsible and accountable for the guidance and direction of 61 employees; including professional engineers, foremen, operating, drilling and construction personnel. This period covered the drill-campaign at Swanson River, the installation of production facilities, the installation of a complete gas cycling-pressure maintenance plant as well as company's exploratory drilling activities in remote areas of Alaska, such as the Arctic North Slope. Assignment also includes negotiating all labor contracts for the Producing Department, Alaska. Also included an 8 month assignment in 1965 to an Organization and Cost Control Survey team for Standard of California to review their producing operations in the seven Western states for the purpose of developing a streamlined organization, work force, and cost saving methods.
- November 1957 to April 1961 Standard Oil Company of California, P. O. Box 455, Vernal, Utah 84078. District Superintendent, Producing Department, Utah. Responsible and accountable for the guidance and direction of 54 employees, including professional engineers, foremen, operating, drilling and construction personnel. This period covered an active development drilling campaign in the Redwash Oilfield, initiation

of pressure maintenance by water flooding and gas injection, initiation of gas sales to El Paso Natural Gas as well as responsibility for exploratory drilling operations in other parts of Utah and producing operations in the Aneth Oilfield.

- November 1952 Standard Oil Company of California, 225 Bush Street, San Francisco, California 94120. Staff Formation Evaluation Engineer, San Francisco. Responsible for establishing well bore formation evaluation procedures for the Producing Department, Western Operations, Incorporated. Assignment included holding formation evaluation seminars for the purpose of training Producing Department Engineers in formation evaluation techniques. Also functioned as the Department's expert on difficult well completion practices based on formation evaluation interpretations.
- December 1944 Standard Oil Company of California, P. O. Box 397, La Habra, California, 90631. Subsurface Petroleum Engineer, La Habra, California. Assignment carried responsibility of developing drilling and completion programs for oil and gas wells; subsurface structural interpretation, the assurance that operations fulfilled engineering requirements and the supervision of two or more Professional Engineers.
- May 1942 Lockheed Aircraft Corporation, Victory Boulevard, Burbank, California. Stress Analyst. Assignment covered the analytical stress analyses of designed component parts of aircraft such as the P-38 and the Lockheed Constellation, and the writing of reports to prove airworthiness of air frame for Civil Aeronautics Board.
- November 1944
- EDUCATION: Professional Engineer in Petroleum Engineering, Colorado School of Mines, 1942. Major: Petroleum Engineering and Geology. Minor: Mining Engineering.
- PERSONAL: Married, no children at home. Height: 5' 11" Weight 180 lbs. Excellent health.
- LICENSE: Registered Professional Engineer in Petroleum Engineering; State of California. Alaska extends reciprocity to California.
- COMMUNITY ACTIVITIES: 1964: President, Petroleum Club of Anchorage
1966: General Campaign Chairman, Greater Anchorage Community Chest.
1967: President, Board of Trustees, Greater Anchorage Community Chest.
1968: President, Rotary Club of Anchorage.
1969: President, Greater Anchorage Chamber of Commerce.
1976: Member of Governor's Management & Efficiency Review Group

Biographical Summary

Robert B. Weeden

Bob Weeden was born and raised in New England. After earning baccalaureate and masters degrees in wildlife management at the universities of Massachusetts and Maine he headed west to study ecology at the University of British Columbia. In 1959 he and his Canadian wife (Judith Stenger, a biologist) moved to Fairbanks where they have made their permanent home. Their three children were born in Fairbanks.

Dr. Weeden was a biologist in the Alaska Department of Fish and Game from 1959-1969, responsible for statewide research on fur animals, waterfowl, and upland game. He did a stint as Acting Director of the Game Division in 1968. He joined the faculty of the University of Alaska in 1970 with an appointment shared between the Wildlife-Fisheries program and the Institute of Social and Economic Research. His work has involved teaching (in wildlife management and a wide array of courses in natural resource management), research, and public service.

From January 1975 to June 1976 he was Director of Policy Development and Planning in the Office of the Governor in Juneau while on professional leave from the University. His basic responsibility was coordination of cabinet-level policy development processes. Bob's deep interest in government is reflected in the numerous consulting projects he has completed for state and federal agencies and in the boards and commissions on which he has served. The most important of these are the Alaska Environmental Advisory Board (1971-74), U.S. Marine Fisheries Advisory Committee (1975-78), U.S. Marine Mammal Commission (1977 to present; appointment ends 1984), and the Alaska Power Authority (1980-present).

Bob maintained a very active participation in citizen conservation groups, primarily the Alaska Conservation Society which he helped form in 1960. He has written 60 scientific papers and a book on resource stewardship in Alaska (Alaska: Promises to Keep. 1978), as well as numerous short nontechnical articles.

December 1981

CURRICULUM VITAE

Name: Robert B. Weeden

Birth: 8 January 1953, Fall River, Massachusetts

Education:
B.Sc., University of Massachusetts, 1953, Wildlife Conservation
M.Sc., University of Maine, 1955, Wildlife Conservation
Ph.D., University of British Columbia, 1959, Zoology

Employment:
July 1976 - present: Professor of Resource Management, School of Agriculture and Land Resources Management, University of Alaska (joint appointment with Program in Wildlife and Fisheries, College of Environmental Sciences).
Jan., 1975 through May, 1976: On professional leave from University of Alaska. Director of Division of Policy Development and Planning, Office of the Governor, Juneau. State-wide planning. Responsibility for development of State policy under direction of the Governor and cooperatively with Cabinet. (See further details page 3, Public Service).
1970-75: Professor of Wildlife Management, University of Alaska, Fairbanks. Public service, teaching, and research. Joint appointment, Department of Wildlife and Fisheries and Institute of Social, Economic and Government Research.
1967-70: Associate in Wildlife, University of Alaska, Fairbanks.
1969-70: Alaska Conservation Representative (employed by coalition of local and national conservation groups). Public education, lobbying in Alaska Legislature.
1959-69: Game Biologist, Alaska Department of Fish and Game, Fairbanks. Upland game and waterfowl research, research administration for northern region; acting director, Division of Game (1968).
1958-59: Instructor in Zoology, Washington State University, Pullman. Trught animal ecology, waterfowl biology, general zoology.
1956-57: Teaching assistant, Department of Zoology, University of British Columbia (physiology, general zoology).
1955-55: Research assistant, University of Maine, Cooperative Wildlife Research Unit. (Waterfowl and fur animal research).
1952: Field assistant, Vermont Department of Fish and Game (Botanical survey of marshes and ponds in Connecticut River watershed).

Professional Organizations:

American Institute of Biological Sciences
American Ornithologists' Union (Life member)
Arctic Institute of North America (fellow)
Cooper Ornithological Society
Society of Sigma Xi
The Wildlife Society (life member; Regional Representative and Council Member, 1971-75)

Honors:

Lotta Crabtree Scholarship, University of Massachusetts, 1950
 Research Assistantship, University of Maine, 1953-55
 Research Assistantship, Canadian Research Council, University
 of British Columbia, 1956-57
 Research grant, Arctic Institute of North America, 1956
 American Motors Conservation Award, 1968
 National Wildlife Federation - Sears, Roebuck Conservation
 Award, 1970
 Outstanding Alaskan Conservationist Award, Shirkar Safari
 Club, 1971
 Travel grant from Ford Foundation to visit selected universities
 with environmental programs, 1972
 Grant for writing book on Alaskan resource conservation,
 1972-73 (Western Pennsylvania Conservancy, The Varian
 Foundation, The Sierra Club Foundation)

University Committees:

Ad Hoc Committee on Research Natural Areas, 1969-73
 Educational Programs Subcommittee, Self-Evaluation for
 Accreditation, 1973-74
 Ad Hoc Committee on Environmental Curriculum Development,
 1970-71
 University Academic Plan Development: Natural Resources General
 Responsibility Area (Wildlife-Fisheries Representative), 1974
 Professional Schools Curriculum Council (1978-81)
 Chancellor's Legislative Affairs Committee (1978)

Professional Meetings (Partial List):

North American Wildlife and Natural Resources Conference. At
 least 10 attended between 1952 and present. Papers (2);
 session chairman (4)
 Northwest Section of The Wildlife Society. Four attended; in-
 vited papers at 2
 Society of American Foresters (1970). Invited talk
 Geological Society of America (1971). Paper
 American Society of Petroleum Engineers (1970). Invited talk
 Association of Western Attorneys General (1974). Invited talk
 Western Association of Game and Fish Commissioners (1965, 1979).
 Papers (2)
 Western Regional Conference, National Audubon Society (1978).
 Invited talk
 International Ornithological Congress (1966). Oxford, England
 International Conference on Polar Bear Conservation (1965)
 Conference on Arctic Alternatives (1972). Ottawa; invited
 talk
 Conference on Productivity and Conservation in Northern Cir-
 cumpolar Regions (1970). Edmonton; paper
 Symposium on Alaska (1976). Yale University; paper
 Coastal Zone Management Conference (1975). Asilomar, California
 Alaska Constitution Review (1976). Invited talk
 Alaska Growth Policy Symposium (1974). Invited talk
 Symposium on Northern Forest Management (1977)
 Alaska Science Conference (attended 8 between 1960-1980)
 Conference on Development of Communities in the Circumpolar
 North. Wolcott, Vermont; paper

Teaching Assignments, 1970-1981:

Wildlife-Fisheries

Principles of Animal Population Dynamics and Management
(Fall 1970, 1971)

Wildlife of Forest and Tundra (Spring 1972, Fall 1973, 1974,
Spring 1981)

Advanced Wildlife Biology and Management (Spring 1974, Fall
1976 through 1980)

Wildlife Seminars (Spring 1972, Spring 1974)

Issues in Wildlife Management (Spring 1977 through 1979)

Biology

Ornithology (Spring 1971)

Land Resources

Conservation of Natural Resources (Spring 1971, Summer 1971,
Spring 1972, Fall 1973 through 1980)

Regional Planning (Fall 1974)

Natural Resources Legislation (Spring 1974, 1977, 1979, 1981)

Predicting Environmental Changes (Fall 1977, 1979)

Natural Resources Seminar (Spring 1977, 1979, 1980)

Natural Resources Policies (Spring 1978, 1980)

Recent Research:

Sabbatical Leave project: book on the role of natural environ-
ments in public policy in Alaska

Hewlett Foundation grant to plan Alaska Resource Managers Training
Center (1980-81)

Nongame Program Development Planning, 1978-79, Alaska Department
of Fish and Game. Land Use in Northern Alaska, especially the
corridor and impact area of the North Slope Haul Road, 1976-77.
For Division of Policy Development and Planning, Office of the
Governor

From 1973-1975, participated in Man in the Arctic Program,
Institute of Social and Economic Research, University of Alaska.
Policy-oriented studies of present and projected natural resource
activity, consequences of alternate petroleum leasing policies
with respect to population growth, environment, quality of life

Public Service:

Member, Alaska Environmental Advisory Board (1971 through 1974)

Member, Arctic Environmental Council (1974) (Established to
conduct independent evaluation of Trans-Alaska pipeline project;
administered through the Arctic Institute of North America)

Member, Marine Fisheries Advisory Committee, U.S. Department of
Commerce. Three-year appointment beginning 1 September 1975

Member, Governor's Committee on Delta Agriculture Project (1976-78)

Member, Committee of Scientific Advisors, U.S. Marine Mammal
Commission (1977-80): Commissioner, 1981-1984

Member, Scientific Advisors, Trout Unlimited (1979-80)

Scientific Studies Coordinator, Delta Farm Development Project,
(1977-79)

Public Service (continued):

Member, Board of Directors, Alaska Power Authority. Three-year appointment beginning July 1980

Also, variety of less formal but important non-remunerative consulting activities with Alaska Department of Fish and Game, Joint Federal-State Land Use Planning Commission, Alaska Department of Natural Resources.

As Director, Division of Policy Development and Planning, Office of the Governor of Alaska, I served in 1975 and 1976 as cabinet-level advisor to Governor Jay S. Hammond. Areas of particular involvement included forest policy in Southeast Alaska; natural gas pipeline routing; outer continental shelf development and coastal management policy; State land policy, including development of a State position on ANCSA Sec. 17(d)2; and petroleum leasing policies. Administrative duties included development and administration of the Alaska Coastal Management Program, administration of State Clearinghouse; Comprehensive State Planning (HUD 701 program); and Economic Development Administration comprehensive planning. Member of five-member Governor's Budget Review Committee.

Other Activities:

Position Statements Committee, The Wildlife Society (1974, 1978, 1979)

Natural Resources Impact Committee, The Wildlife Society, 1974-75

Long-Range Planning Committee, The Wildlife Society, 1975-76

National Academy of Sciences Committee on Yellowstone Grizzlies, 1973-74

Conservation action and advocacy: Member of numerous local, state, national and international conservation groups. Major forum for advocacy is the Alaska Conservation Society; member since formation in 1960, editor of quarterly publication for five years, held offices of Vice President, President (eight terms), Board Member. Became Honorary Life Member, March 1976. Board Member, National Audubon Society (1976-1981)

Coordinator, Arctic Regional Directorate, MAN AND THE BIOSPHERE Program (1976-77)

Office of Technology Assessment Workshop on Access to Mineral Reserves in Alaska (1977)

Moderator, Joint Federal-State Land Use Planning Commission Wilderness Management Workshop (1978)

American Petroleum Institute Seminars on Alaska (1970, 1978)

Society of American Foresters Panel on Noncommercial Forests (1978)

National Research Council Committee on Department of Energy Arctic Research (1980-81)

Consultant, National Research Council Committee on Alaska Coal (1980)

Consultant to Alaska Historical Commission, 1980-81, on Alaska History Textbook project

Consultant, Alaska Council on Science and Technology

Dear Mr. Speaker:

The Committee on Resources has been given the responsibility to make a recommendation on the appointment of Edward Shavings of Mekoryik to the Guide Licensing and Control Board.

The Committee has declined to hold hearings on this confirmation, relying instead upon Mr. Shavings experience as a guide and his leadership capabilities as demonstrated by his past and present positions of responsibility in his community.

The Committee unanimously supports his confirmation to the board.

Thank you.

Re: Board of Fisheries

Dear Terry:

I attended the March meeting in Anchorage of the Board of Fisheries. At that meeting, Mr. Chris Goll approached me to discuss my pending appointment to the Board of Fisheries. During that discussion he informed me that he had a problem with, and would not support, my appointment to the Board because of what he felt was a conflict of interest on my part due to my "commercial" interests in fisheries, along with my being a director of a regional corporation involved in processing.

I feel it only right that Mr. Goll, because of his commercial interests as a sports fish guide and a sporting goods store owner, disqualify himself from reappointment to the Board of Fisheries. His personal self-interest has been shown in the record to influence his decisions. I would strongly recommend against the reappointment of Mr. Goll.

Very truly yours,

Gilbert Gunderson

RESUME

NAME: Chris F. Goll, Jr.

ADDRESS: 6425 Colgate Drive
Anchorage, Alaska 99504
and
May 15 through September 15
General Delivery
Sterling, Alaska 99672

BORN: October 11, 1942
Grand Rapids, Michigan

MARITAL STATUS: wife, Kathleen, since 1967
one child, Elizabeth Ann, age 5

POLITICAL AFFILIATIONS: Registered independent

MILITARY BACKGROUND: Enlisted in U. S. Naval Reserve in 1959. Called to active duty due to Berlin blockade in 1961. Worked for C. I. D. until release from active duty in 1973.

EMPLOYMENT HISTORY: 1968-1972 - General Agent for American National Insurance Company with offices in Anchorage, Fairbanks and Juneau.
1972-1977 - Mountain View Sports Center, retail sporting goods in Anchorage. (employee and stockholder)
1977-present - Founder, owner of Northwest Outfitters, Inc., retail sporting goods store, located at 8311 Arctic Blvd., Anchorage, Alaska.
- Registered guide (license #402) since 1973 in Game Management Units 15, 16, and 18.

OTHER SOURCES OF INCOME: wife employed as English teacher with Anchorage School District since 1968.

PERSONAL HISTORY: Born and reared in Grand Rapids, Michigan, my wife and I moved to Anchorage in July of 1968. Avidly interested in sport fishing and hunting, I wanted to become a part of "the last frontier". The success of my insurance agency enabled me to devote approximately four months a year to the apprenticeship required in obtaining a registered guide's license. I worked as an assistant guide for Eldon Brandt, Mile 123, Glenn Highway, and Herbert Fassler, Chugiak, during the years of 1969, 1970, 1971, and 1972. Licensed as a registered guide in 1973, I currently have two exclusive guide areas: one in Game Management Unit 15 is within boundaries of the Kenai National Wildlife Refuge and, thus, I am licensed with U. S. Fish and Wildlife as a concessionaire, and the other in Game Management Unit 16 is within the confines of Mt. McKinley National Park Preserve and, thus, I am licensed with the U. S. Park Service as a concessionaire. I also guide two hunts per

year for brown bear in Game Management Unit 18. I spend approximately sixty days in the field guiding hunters and ninety days in the field guiding fishermen. During the season I operate out of my private fishing camp on the Kenai River, guide steelhead fishermen in Southeastern Alaska, as well as trout and salmon fishermen in Western Alaska (Bristol Bay).

Throughout my thirteen years as an Alaskan resident, I have been keenly interested in the fish and game resources of the state. I have worked with the Department of Fish and Game to set up management strategies for sport fishing in Southcentral Alaska. In addition, I was a member of the Anchorage Fish and Game Advisory Committee from 1974 until 1976. I also served as chairman of the committee from 1975 until 1976 when I resigned. (See attached letter.) In 1978 I was appointed to the Board of Fisheries by Governor Jay Hammond. I have served on the Board since then.

AWARDS AND HONORS: National Wildlife Federation's Conservationist of the Year in 1980.

CLUBS AND ORGANIZATIONS: Trout Unlimited

Alaska Chapter of Federation of Fly Fishermen (charter member, past president, three terms, and board member)
Safari Club International (charter member)
National Rifle Association (life member)
Alaska Professional Hunters Association
Alaska Professional Sport Fishing Association (charter member)
Ducks Unlimited
Alaska Sport Fishing Association (charter member)
Alaska Waterfowl Association (charter member)

PHILOSOPHY: The fisheries and wildlife resources of Alaska are among the most important renewable resources which we have. From an economic standpoint, the commercial fisheries industry along with the recreational fishing industry provide more employment opportunities for Alaskan residents (presently as well as in the future) than any of our other industries. Our state's commitment to develop our bottom fishery, strengthen the position of our domestic processors and continue the development of our tourism industry (of which recreational fishing is a significant ingredient) will further enhance these employment opportunities. With proper planning, statutes and regulations, I feel that development of our other resources (petroleum, mineral, and timber) can be accomplished in an orderly manner, which will maximize the benefits to our state and nation. Done properly, it will not be necessary to sacrifice one for the other. I believe that more attention should be

focused on the enhancement of our fisheries' stocks. Aquaculture programs, whether they be by the state or private non-profit in nature, should be viewed as only one of our management and enhancement tools, not as a solution to all of our fisheries' problems.

I am of the opinion that the area residents of our state should play an active role in the regulation and management of our fishery. This can best be accomplished through the strengthening support of our local advisory committee system. Additionally, it is imperative that our Department of Public Safety be provided the necessary financial support needed to adequately enforce the regulations which protect our valuable resources. I embrace our state constitution and the statement that the fisheries and wildlife resources are the common property of the people of the state. Further, I agree that we should have the latitude to discriminate between beneficial users when and where appropriate. I am firmly convinced that the Boards of Fisheries and Game are the agencies best qualified to determine this.

Relative to subsistence, I feel that most Alaskans should be able to adequately fulfill their personal needs through their participation in our commercial and/or sport fisheries. In those areas of the state where this is not possible, I feel that the Board of Fisheries is best qualified to make the necessary determination which would provide for those users.

Regarding federal oversight in management of fish and wildlife resources on national interest lands in Alaska, I am convinced that this will only occur based on a gross lack of performance on the part of our state to meet subsistence needs for those Alaskans residing in the affected area. I believe that the legitimate subsistence needs of these users can best be met by providing the Boards of Fish and Game, aided by local advisory committees, with the necessary authority, latitude, and support, and not the state's existing priority subsistence law.

Chris F. Goll, Jr.
6425 Colgate Drive
Anchorage, Alaska 99541
October 31, 1976

Governor Jay Hammond
Juneau, Alaska 99801

Dear Governor Hammond:

During the past year it has become increasingly difficult for the Anchorage Fish and Game Advisory Committee to find an adequate public meeting place for its regular meetings; thus, restricting the effectiveness of the committee. To cite one example, the only public facility available to us for the March meeting was a classroom in a local school.

Traditionally, the March meeting is a voting meeting with the committee concerning itself with regulatory game proposals to be acted upon by the Game Board at their April meeting. Some one hundred and twenty three concerned citizens of the Anchorage area were in attendance when I called the meeting to order at 7:00 P. M. Their purpose for attending was the opportunity to testify on particular proposals of interest to them. Most of the clubs and organizations concerned with the management of our fisheries and wildlife resources were represented. Due to the size of the classroom, later arrivals were forced to stand, many of them in the doorways or hall. At 11:00 P. M. before all testimony had been received and before voting could take place on the two hundred and fifty four game proposals at issue, I was forced to adjourn the meeting to comply with the curfew requirements of the school system. Needless to say, many of the people were upset, as they had devoted an evening of their time to give testimony and influence the voting of the committee on proposals with which they were concerned. They did not have that opportunity because of the curfew restrictions. As a result, many were unable to attend the meeting the following week.

Governor, as we both know, the sole purpose for the advisory committee system is to give the people of Alaska an opportunity to take an active part in the management of our very important fisheries and game resources. Without proper meeting facilities, that opportunity is seriously infringed upon and thus, damages the effectiveness of the system.

In oral testimony before the joint session of The Fisheries Board and The Game Board in April of this year, I discussed this problem, citing the aforementioned example, and offered a solution. I proposed an annual budget of \$750.00 for the Anchorage Advisory Committee; \$600.00 of that budget to be designated for the periodic rental of an adequate meeting facility. The remaining \$150.00 to cover postage, so that proper notification of our meetings could be mailed to all interested clubs, groups and individuals. In further testimony, I submitted that budget for formal approval. It was referred by the boards to Mr. James Brooks, your Commissioner of Fish and Game, who stated that he would take it under his consideration.

Since that time, I have reminded Dean Paddock, Coordinator for Advisory Committees, that I have not received any indication of action taken on the budget request.

Within the next three weeks it will be time for the Anchorage Advisory Committee to solicit public testimony on fisheries proposals on which the Board is to act in December. I have still not received an answer from the Commissioner on my budget request.

The Anchorage Advisory Committee represents nearly one half of the people in Alaska, based on population and sales of hunting, fishing and trapping licenses. Therefore, I conclude that if the Boards of Fisheries and Game and the Commissioner of Fish and Game under your administration were sincerely interested in the desires of the public affirmative action would have taken place long before now on my budget request.

Regretfully, I submit to you my resignation as chairman of the Anchorage Advisory Committee. I cannot work with a commissioner and boards that put less than a \$750.00 value on the input of half of the concerned people of Alaska.

Sincerely,

Chris F. Goll

Pouch V
State Capitol
Juneau, Alaska 99811MEMORANDUM

TO: Representative Fred Tharoff, Co-Chairman
House Committee on Resources

FROM: Representative Jim Duncan
Speaker of the House

DATE: May 11, 1981

SUBJECT: Confirmation of Governor's Appointments

The following name has been submitted by the Governor for confirmation. Please evaluate the nominee and conduct confirmation hearings as you deem necessary. Please submit your recommendations for action on the nomination by the House of Representatives as soon as possible.

BOARD OF FISHERIES

Harry S. Sundberg, term expiring January 31, 1984.

TD:jp

10'4" Alaskan Brown Bear.

Ladies' choice.

Kenai Peninsula Camp.

Hunting

Chris has the exclusive guide rights in two remote wilderness hunting areas. The hunting is excellent, the scenery is unequalled, the tent camp accommodations and food are pleasant. The guides are top-notch and colorful. This is the kind of experience that most hunters only dream about.

We offer a broad range of opportunities to accommodate our hunting clients. Multiple species as well as single animal trophy hunts are offered annually in three different geographic areas of Alaska. Our established hunting camps are strategically located in remote areas selected specifically for the abundance of game as well as the trophy qualities of the species to be hunted. By placing our comfortable tent camps in the immediate proximity of the species to be hunted, we eliminate daily travel time and maximize hunting time and opportunity. These key ingredients contribute significantly to the fulfillment of our number one goal, our clients' success and satisfaction.

Equipment and Accommodations

Boats range from radio-equipped 21-foot inboard jets, complete with full-weather canopy, for comfort and safety, to open river skiffs with outboard jet drives and Avon inflatables.

Aircraft are fully equipped bush planes on floats, wheels and skis available to suit your particular needs.

All of our equipment is professionally maintained and serviced on a regular basis, insuring your comfort and safety.

Lodging ranges from comfortable cabins with sauna facilities to more rustic but comfortable tent camps. The particular trip you select will determine your accommodations. Meals are family style with plenty to eat. Shore lunches are a specialty.

Northwest Outfitters, Inc.

In addition to our broad range of guiding services, we operate a fully stocked retail sporting goods store. Conveniently located in Anchorage at the corner of Arctic and Dimond Boulevard, our professional staff is available seven days per week to assist the resident and traveler alike. Whether it be licenses, tackle, outdoor clothing, ammunition, hip boots, waders or just plain good advice and information, you can be sure that our experts will accommodate your needs. Brand names such as Orvis, Cortland Pro Shop, Finnor, Hardy, Lacross and Woolrich assure you that this is Alaska's leading pro shop.

Whether it be hotel reservations in Anchorage or the preparation and shipping of your trophies, you can rest assured that personal attention will be given to every detail of your trip. "Your satisfaction is our guarantee for the future."

72 lb. Kenai River King.

Northwest Outfitters, Inc.

CHRIS F. GOLL
REGISTERED GUIDE
AND OUTFITTER

Your host and President Jimmy Carter.

Mrs. James T. Reynolds with her prize.

A 15 lb. Steelhead, Southeast Alaska.

70 lb. King...plus.

Dr. John Shultz with the one that didn't get away.

17 lb. Rainbow, Kenai River.

Picture yourself here.

Your Host and Guide

A registered guide and outfitter with over thirteen years professional experience, Chris is the president of Northwest Outfitters, Inc., an exclusive and complete sportsmen's and outfitting store in Anchorage.

Chris is known throughout Alaska for his expertise in the state's fisheries and wildlife resources. In 1977 Governor Jay Hammond appointed him to the prestigious Alaska Board of Fisheries, a seven-member regulatory board, which formulates and adopts regulations to control the destiny of Alaska's bountiful fisheries. Chris is also a certified official of the state's trophy fish awards program and a member of the Federation of Fly Fishermen, Trout Unlimited, Safari Club International, NRA and Alaska Professional Hunters Association. In 1980 Chris was awarded the National Wildlife Federation's coveted Conservationist of the Year award.

Fishing the Kenai

Located 140 miles southwest of Anchorage, the main camp on the Kenai River is adjacent to the Kenai National Wildlife Refuge, a wildlife wilderness refuge established to protect some of Alaska's most critical game and fish habitat from commercial and industrial development. The area is abundant with moose, Dall sheep, brown bear, and caribou and is noted for its spectacular scenery. Snowcapped peaks drop abruptly into turquoise waters and glacier-blue ice fields contrast with lush, green, alpine meadows. Brightly colored salmon are in evidence throughout the area on their upstream migration to spawning grounds.

Your host specializes in outfitting for the famous Kenai River king salmon, believed to be the largest strain of king salmon in the world. Seventy- to eighty-pound fish are caught each season, and fifty- to sixty-pounders are common. The best king fishing occurs between June 10 and July 30.

A bonus this time of the season are the sockeye or red salmon, ten-pound silvery beauties that, once hooked, perform some nice aerial activity.

The Kenai River is also noted for its strong silver salmon run. These fish run from eight to twenty pounds and average ten to fifteen pounds. Best silver fishing is from August 1st through October 15.

Each season a substantial number of salmon-sized rainbow trout, many over 15 pounds, are also taken. And ever present in the Kenai system is the Dolly Varden, a char ranging in size to twelve pounds. These colorful fish can be hooked throughout the year.

Also available are side trips to the numerous lakes in the area where fisherman can fly or spin fish for rainbow, grayling, char and lake trout. Interested parties can make arrangements for floatplane transportation with Chris.

Steelhead (April and May)

Beginning in mid April, fresh-run steelhead enter a number of streams in Southeast Alaska. These wild fish, many of which exceed twenty pounds stand ready to test the skills of our angling clients. Ten to fifteen hookups per rod in a day's time (not uncommon) support the fact that this is truly a "steelheader's paradise." Fly and spin fishermen alike will relish the opportunities offered by this unique experience.

Personal Gear, Licenses and Equipment

Upon receipt of your deposit, a complete list of recommended gear and equipment will be provided for your convenience. Your host will supply necessary gear and equipment should you desire.

Four Children, Four Grandchildren
Social Security #543-32-8647
Born September 25, 1930
at Jefferson Oregon

Education: Grade 12, Graduated from Jefferson High School

May 1959 Moved from Lebanon Oregon to Homer Alaska.

1959-1961 Fished commercially in Cook Inlet for Salmon, King Crab,
• Dungeness Crab, Halibut, and Pot Shrimp.

Sept-Nov 1961 In charge of Plant clean-up, also a working processor
on M/V Mercator, a floating processor -- South end of Kodiak
Island.

Nov-Dec 1961 Skipped King Crab tender Seldovia to Homer.

Jan-Apr 1962 Worked on Floating Processor M/V Theresa Lee at Adak,
Alaska processing King Crab meat.

Apr-June 1962 Commercial fished King Crab in Cook Inlet.

June 1962-May 1965 Plant Superintendent, Pacific Alaskan Seafoods,
Homer, Alaska -- Processing King Crab, Dungeness Crab,
Halibut, Salmon, and Shrimp.
Fall 1964 assisted in building a new processing plant and
purchased all of the equipment necessary for complete
operation.

March 1965-Oct 1966 Plant Superintendent, Ursin Seafoods, Kodiak, Alaska.

Oct 1966-Sept 1967 Plant Superintendent, Washington Fish & Oyster Co.
Port Williams, Alaska. Designed and in charge of re-building
part of old salmon cannery into a King Crab processing opera-
tion -- meat extraction and shell line.

Sept 1967-May 1972 Plant Superintendent, Roxane Fisheries, Inc.
Division of Kinnear & Wendt. Canning (hot pack) of King
and Tanner Crab, brine frozen King, Tanner, and Dungeness Crab.

May 1972-Apr 1975 Plant Superintendent, Wakefield Seafoods, Inc.
Port Lions, Alaska. Processing of King Crab and Tanner Crab.
Meat extraction and shell, brine, and blast frozen products.
During this time was very active in City activities. Served
on Airport Committee, Road Maintenance Committee. Instru-
mental in helping to get financing for a water system through
E.D.A., H.U.D., and F.H.A. Worked with City officials and
State of Alaska Marine Highway System in maintaining ferry
service to Port Lions and Kodiak. Assisted in trying to find
funding and filling of necessary forms for a small boat harbor
at Port Lions.

Resume Continued
Royal Jack DeVaney

Apr 1975-Oct 1975 Assisted management at Seldovia for Wakefield Seafoods after plant burning down at Port Lions.

Oct 1975-June 1979 Plant Manager, Wakefield Seafoods, Inc. and upon acquisition by Anfac Foods d/b/a Pacific Pearl Seafoods in 1976, Plant Manager for Pacific Pearl Seafoods at Captains Bay, Unalaska, Alaska.

March 1977 was advanced to Project Manager in charge of building a new processing facility on the Dutch Harbor side of Unalaska, which included overseeing and approving the structure of new dock, bunkhouse, and design and building and installation of processing equipment. Purchasing of all generators, boilers, and refrigeration equipment plus installation of same. The plant was put into production in February 1978.

October 1977-December 1978 was Mayor of Unalaska.

February 1978-December 1978 Committee member of Planning & Zoning Board, Member Alaska Department of Fish & Game Advisory Board.

Instrumental in starting a medical facility and having a medical doctor start a practice on the Dutch Harbor side of the City of Unalaska.

January 1979 Advanced to Alaskan Operations Manager for Pacific Pearl Seafoods, and opening an office in Anchorage, Alaska.

My job is to direct the operation of the Alaska processing plants, to assure that production and quality requirements are met at the most favorable cost to the company.

Pacific Pearl has seven processing facilities in Alaska (Seldovia, Kodiak, Roxane, Sand Point, Captain's Bay, Dutch Harbor, and a floating processing vessel, the M/V Akutan). The Alaskan Operations Manager directs and supervises the Anchorage, Alaska operations office staff who are responsible for the operations, personnel, and purchasing functions within the Anchorage area, also to coordinate all of these functions between the plants and the Bellevue, Washington office.

Alaska State Legislature

Official Business

Speaker of the House of Representatives

Pouch V
State Capitol
Juneau, Alaska 99811

MEMORANDUM

TO: Representative Fred Zharoff, Co-Chairman
House Committee on Resources

FROM: Representative Jim Duncan
Speaker of the House

DATE: April 8, 1981

SUBJECT: Confirmation of Governor's Appointments

The attached list of Governor's appointees have been referred to your committee for recommendations on confirmation. It is necessary to receive your committee recommendation as soon as possible. If the committee has decided not to hold confirmation hearings and, therefore, has no recommendations, I would like a memorandum indicating such action.

Runnin' on empty

BY SATCH CARLSON

The transmutation of a new Alaskan

I have to tell you about Chris Goll. Chris Goll is a friend of mine (or he was before he read this, anyway) and I have decided he is exactly what people have in mind when they talk about somebody being an Alaskan. No, he wasn't born here; he was born (in a log cabin, I bet) in the flatlands, mostly Michigan, which is where he grew up. I suppose the Upper Peninsula is where he learned to hunt and fish and love the wild country, blah blah.

Well, Goll was a definite Outdoorsman, even down there in the flatlands, but he started out in business by selling insurance. Now, selling insurance is an honorable profession I suppose, but I don't think it was his true calling. In fact, when he married one Kathy Wood, her mother was wondering what this woodsy type would give his bride as a gift. "Pearls are traditional," she sniffed.

Chris gave her a sleeping bag and a wool shirt. And some Levi's.

And then some six months later he gave her Alaska. On a trial basis. For a year, maybe. After all, he could always sell insurance, even in Alaska.

That was something over 10 years ago, and they've been here ever since, and if you ever get Goll out of Alaska it will be in a pin box.

What I like best about Goll, I think, is that he is here for the right reasons. Architect Ralph Alley once said there were two kind of immigrants in Alaska: those who came because there was something to get, and those who came because they had something to give. What Chris Goll had to give was his love of the wilderness.

About this time you're probably picturing Goll as a wild-eyed Conservationist, one of those evil greenies we're always being warned about by the Republicans. Well, he is a conservationist — but we'll talk about that in

and I have decided he is exactly what people have in mind when they talk about somebody being an Alaskan.

No, he wasn't born here; he was born (in a log cabin, I bet) in the flatlands, mostly Michigan, which is where he grew up.

What I like best about Goll, I think, is that he is here for the right reasons. Architect Ralph Alley once said there were two kind of immigrants in Alaska: those who came because there was something to get, and those who came because they had something to give. What Chris Goll had to give was his love of the wilderness.

About this time you're probably picturing Goll as a wild-eyed Conservationist, one of those evil greenies we're always being warned about by the Republicans. Well, he is a conservationist — but we'll talk about that in

edged expert when it came to fishing. He knew portions of the Kenai River better than I know the alley behind the Fly-By-Night Club. He was appointed to the fish and game board by the governor. He was booked solid with big game hunting trips, fishing trips, board meetings; he spent what time he could in the store; he saw his wife and curly-haired daughter on rare occasions.

Oh, and he went fishin' with Jimmy.

Yes, Chris Goll is the guy who guided President Carter on the Great Grayling Shoot-out. Stood around in hip waders, tying flies with the President; now, that has GOT to be status back at the ol' rod and gun club.

In fact, even more status was to be bestowed: Goll was named the Conservationist of the Year by the National Wildlife Federation.

What?! An avowed hunter, a fisherman, a guide, being recognized for his contributions to conservation? Yes, because in these days of strident positions and all-or-nothing arguments, there are still those who understand that sometimes the best caretakers of the environment are those who are out there in the darn stuff all the time; the best game management policies are often proposed by those who hunt the game; the love and appreciation for the wilderness is often most keenly felt by those who walk that wilderness.

Now, I consider myself a conservationist, even — horrors! — an environmentalist, but I will confess I last went canoeing more than two years ago. Moose have grown up and died of old age since I last shot one. Dall sheep are safe from my attack (as are numerous fishes, although not from lack of piscacidal effort). Still, I am glad to consider Chris Goll my caretaker, if you will; if we're talking about public lands, I am pleased to have Chris Goll walking around taking care of my share.

Besides, these days he is not depleting the resources at all. *For the first time since he's been here, Chris Goll has no meat in the freezer!* Chris has not yet bagged a moose, or a caribou, or Bambi. True, the freezer overflows with dead salmon, but it's not the same.

And I find a delicious irony in the fact that if he doesn't get on the stick, the man who is perhaps the foremost num-rod in the whole state of Alaska is going to go home for Thanksgiving dinner and eat Spam.

My name is Harry Sten Sundberg and I was born on June 27, 1922 in Hennesberget, Norway. My family emmigrated to the United States in 1925, and settled in Wrangell, Alaska in 1928.

I attended the Wrangell Public Schools and graduated from High School in 1940. During the summer months as a teenager, I worked as a fisherman, primarily in the gillnet fishery, but also part time in seining, trolling, and halibut fishing.

During World War II I served in the U.S. Navy, primarily in the central Pacific area. Upon returning home early in 1946, I returned to salmon fishing in the Wrangell/Petersburg area.

In 1948, forming a partnership with another Wrangell fisherman, Mr. Ben Engdal, construction began on a processing facility that started operation in May 1949 as Harbor Seafoods Co. The company operated as a shrimp cannery in the early years and gradually expanded into the salmon canning field. As the business expanded it became necessary to incorporate as Harbor Seafoods Co. Inc., and facilities were incorporated to handle fresh and frozen products such as halibut, troll salmon, etc. Mr. Engdal and I sold our interest in the business in 1975, but the company continues to be the primary fish processor in the Wrangell area and is a modern facility.

I have been a continuing member of the local fish and game advisory board prior to statehood until the present, and have represented the city on various fishery meetings, such as the 200 mile conference held in Seattle in 1979, and the National Marine Fishery meeting with B.C. Hydro on Stikine river problems held in Juneau in 1980. At the present I am most active as a member of the Thomas Bay Power Commission, representing the communities of Wrangell and Petersburg in their efforts to build the Tye Lake Hydropower project for the benefit of their residents.
