Senate Judiciary
min. file on HB 2.

JK 9/82

SENATE JUDICIARY COMMITTEE

LETTER OF INTENT

SCS CSHB 34

It is the intent of the Senate Judiciary Committee in passing out Senate Committee Substitute for Committee Substitute for House Bill 34(Judiciary) that the Board of Regents of the University of Alaska develop a plan for distribution of revenues derived from university lands to be submitted to the legislature by January 10, 1983. The Committee intends that in developing this plan the Board consider a policy of reinvesting part of the revenues from university lands located within the boundaries of local governments so as to benefit the people within such communities. The Committee further intends that such a policy give appropriate weight to statewide and other area's needs, while addressing the objective of benefiting communities near revenue-producing university lands.

The Committee further intends that the University and the Municipality of Anchorage negotiate to settle their claims presented in litigation (3AN 79 2801 Civil), Third Judicial District and that the two parties shall report to the legislature by the tenth day of the 1983 session on the results of their discussions.

As originally introduced in the Senate, this bill was accompanied by companion legislation, originally SB 876, which provided funds to implement the Settlement Agreement between the State and the University date March 12, 1982.

The companion legislation, passed as part of the FY 83 budget, provided that \$500,000 in lapsed funds of the University of Alaska be used to conduct research to determine the total dollar compensation due

the University as a result of the Settlement Agreement. The funds will be used to employ independent professional fee appraisers to determine the fair market value of certain University-grant lands which have been utilized and/or disposed of by the State at less than fair market value, and to appraise certain state lands which might be conveyed to the University or relinquished to the State; to conduct research on financial transactions involving University grant-lands; and to process the quitclaim deeds necessary to convey clear title to all University-grant lands involved in the settlement.

Specifically, the Department of Law, as recipient of these funds, is to allocate \$110,000 directly to the Department of Natural Resources and the balance of \$390,000 directly to the University of Alaska, Statewide Office of Land Management. The attached budget contains a breakdown use of these funds.
