COMMITTEE REPORT  
SENATE

FURTHER: Finance

3/16/81

Date: \_\_\_\_\_

Mr. President:

The Committee on RESOURCES has had SB 291

making a special appropriation to the Dept. of Fish & Game for shooting and firearm safety programs

under consideration and (a majority of the committee) (the committee) reports it back with the following recommendations:

- do pass  do not pass
- do pass with attached amendments(s) *w/ JNO Rec.*  same title
- replace with CS for \_\_\_\_\_  new title
- and recommends \_\_\_\_\_
- AND attaches a "Letter of Intent"  New Fiscal Note
- reports it back without recommendation
- referred to the \_\_\_\_\_ Committee

MEMBERS SIGNING  
DO PASS

## Senate

### Committee on Resources

May 15, 1981  
1:30 p.m.

Beltz Room  
Room 211 - Capitol

#### MEMBERS PRESENT

Senator Fahrenkamp  
Senator Fischer  
Senator Mulcahy  
Senator Gilman  
Senator Sturgulewski  
Senator Eliason

---

#### Hearing:

- SB 304 An Act making a supplemental appropriation to the Department of Natural Resources for planning for the Tokositna Park.
- SB 305 An Act making a special appropriation to the Department of Natural Resources for planning for the Tokositna Park.
- SCR 21 Relating to research relating to proposed state and federal oil and gas lease sales.
- SJR 35 Relating to the exemption of Alaska hydroelectric projects from the licensing authority of the Federal Energy Regulatory Commission.
- SB 291 An Act making a special appropriation to the Department of Fish and Game for shooting and firearm safety programs.

---

Senator Rodey stated that SB 304 and SB 305 appropriate funds to continue the planning efforts on the Tokositna Park. He requested that the Committee consider passage of the suggested Committee Substitute and the letter of intent.

Senator Fischer put forth the motion to move CSSB 304 and CSSB 305 with individual recommendations. He also, asked for unanimous consent on the letter of intent.

SENATE RESOURCES COMMITTEE

Page: 2

May 15, 1981

Senator Parr stated that SCR 21 asks the Governor to submit a proposal in the next budget for an applied research program for proposed state and federal oil and gas lease sales.

Senator Sturgulewski put forth the motion to move SCR 21 with individual recommendations.

Dave Hutchens, Executive Director, Alaska Rural Electric Cooperatives, stated that SSSJR 35, would help shorten the time frame in which the Federal Energy Regulatory Commission issues licenses. All of FERC's personnel is located in Washington, D. C., and when they receive an application they are very ponderous in their deliberations.

Senator Gilman put forth the motion to move SSSJR 35 with individual recommendations.

Robert Hinman, Deputy Director, Division of Game, Department of Fish and Game, stated that the \$5 million appropriation in SB 291 is the recommendation of the State Range Planning Committee.

Randy Smith stated that he supports SB 291. The appropriation in SB 291 is for capital projects and for the Department of Fish and Game to provide some expertise to help the local organizations to institute the programs.

Senator Gilman put forth two amendments to SB 291. Senator Gilman put forth the motion to move SB 291 with individual recommendations as amended.

The Committee adjourned at 2:45 p.m.

SUMMARY

1. a) Related Bills (Similar or Conflicting)	1. b) Other Agencies Affected by Bill None
2. a) Organizational Support for Bill Advisory Committee on Hunting and Firearm Safety; several shooting and sportsmen's groups.	2. b) Organizational Opposition to Bill None

3. Program Effects of Bill

This bill would provide added funding to continue the program on development of shooting facilities statewide that was begun (by HB 477) last year. For complete listing of project needs, see attached report.

4. Fiscal Impact:  None  Fiscal Note Attached

6. Amendments Proposed:

#1 Delete [and operation] in line 12; Delete [and to administer programs involving education and training in the safe use of firearms] in lines 13 and 14. We also suggest addition of a new section: New Section [The Department may expend a portion of these funds necessary to administer this Act. This amount is not to exceed 4% of the total.] *\$ re number needed*

8. Comments:

#2 The suggested amendments are intended to clarify that 1) the appropriation is designed to construct facilities, not to provide long term operating expenses for existing ranges, 2) that the appropriation is not intended to finance the Department's Hunter Safety training program, and 3) that a minimal amount may be used to hire personnel (Administrative Assistant and Clerk Typist) to administer the program.

BACKGROUND INFORMATION ON S.B. 291  
PREPARED FOR THE SENATE RESOURCES COMMITTEE  
BY THE  
DIVISION OF GAME  
ALASKA DEPARTMENT OF FISH AND GAME  
4/16/81

S.B. 291 would appropriate \$5.0 million for shooting and firearm safety programs in furtherance of the shooting and firearm safety program established by the Legislature in 1980 (S.B. 477) and funded by a 1980 appropriation of \$1.5 million. The amount of the new appropriation request is based on the recommendations of the Advisory Committee on Hunting and Firearm Safety which was established pursuant to S.B. 477. To understand the basis of the Committee's recommendations, it is useful to briefly review the actions of the Committee and of its predecessor, the State Range Planning Committee.

In FY 1980 the Department of Fish and Game received a legislative appropriation of \$15,000 to establish a State Range Planning Committee consisting of representatives from most major communities within the State. This committee, with direction from Game Division's Hunter Safety Coordinator, was to assess the needs for shooting facilities in cities and towns throughout Alaska and to make recommendations regarding acquisition and development of appropriate shooting facilities.

At its first meeting in October, 1979, the Committee established its purpose as that of recommending to the Legislature a long term program of land acquisition and range development, including development of existing ranges, so that shooting instruction and recreation could be carried out safely by as many Alaskans as possible. In developing its recommendations the Committee was to:

1. Identify existing facilities in all major communities;
2. Identify the need for additional shooting facilities in all major communities;
3. Recommend specific ranges to be constructed and their design;  
and

4. Recommend guidelines for the funding, acquisition and operation of ranges.

The Committee developed a list of existing range facilities (Appendix A, attached), and subsequently, at its November, 1979 meeting, developed a statewide list of recommendations for range acquisition, development and improvement (Appendix B, attached).

The Committee also established a set of guidelines for future range planning which included, in part, that:

1. Central, supervised shooting facilities should be developed in major population areas with more than 15,000 people;
2. The State should provide an outdoor shooting range adjacent to each community of over 1,000 people;
3. The State should provide indoor shooting facilities for firearm safety instruction in each community of over 1,000 people, preferably in connection with a high school; and
4. All communities with a population of less than 1,000 people should have designated shooting areas.

The Committee met again in December, 1979, and developed cost estimates for the list of recommended range acquisitions and improvements developed at the previous meeting (Appendix B), for those communities with populations of more than 1,000 people. The Committee determined that a transportable 80' X 30' prefabricated building would be adequate to meet the needs of most communities for indoor shooting facilities. These would have 5 shooting points for smallbore shooting only and were estimated to cost \$300,000 each.

For the smaller villages and communities desiring to designate new or formalize existing shooting areas the Committee agreed to allot up to \$2500 and provide technical assistance. Also, it was felt that this money could be used to develop portable indoor shooting items for student training.

Following passage of S.B. 477 the State Range Planning Committee was replaced by the new five-member Advisory Committee on Hunting and Firearm Safety.

The new Committee conducted its first meeting on October 9 and reviewed the actions and recommendations of the previous committee and the status of various range proposals. The Committee met again in November, 1980 and reviewed requests for funding that had been received. A project status list with funding amounts was developed and updated following the next meeting of the Committee in December (Appendix C, attached). Proposals for range facilities which had been approved by the Committee fully obligated the \$1.5 million appropriated by the Legislature in 1980.

At its December meeting, the Committee discussed new legislative funding requests that would be desirable to continue the program of constructing or upgrading shooting facilities. The Committee decided to place emphasis on providing indoor shooting facilities in 1981-82. A list of projects and tentative funding requirements was prepared as a basis for a request for a legislative appropriation:

Juneau Trap Club	\$160,000
Juneau (indoor)	300,000
Izaak Walton (indoor)	500,000
Fairbanks (indoor)	500,000
Kodiak (outdoor)	300,000
Wrangell (indoor)	300,000
Palmer (indoor)	150,000
Kenai (indoor)	300,000
Sitka (indoor)	300,000
Ketchikan (indoor)	300,000
Anderson (indoor)	300,000

The identified project funding requirements totalled \$3.41 million. Other facilities needs in the communities of Nome, Galena, Kotzebue, Dillingham, and Petersburg had not been fully reviewed by the Committee, but it was felt that funds needed for these communities would total about \$1.6 million. Consequently an appropriation of \$5.0 million was considered desirable by the Committee.

The Department has reviewed the projects identified by the Committee for funding under a new legislative appropriation and concurs with the Committee's recommendation. A brief explanation of each project need and funding follows:

<u>Juneau</u> (indoor)	\$300,000
------------------------	-----------

Existing indoor facilities are inadequate for community needs. Benefits from an indoor facility would include training and recreational facilities for approximately 700 students, the membership of at least three local shooting/sportsman clubs, and the general public.

(outdoor)	160,000
-----------	---------

Also being sought is funding for additional expansion of local shotgun facilities. Recreational shotgunning, and waterfowl and upland game hunting in the Juneau area warrant the support of shotgun training activities. The needs of the Juneau area for outdoor rifle facilities has been addressed through the approval of a request for \$135,000 from the 1980 appropriation to upgrade the Montana Creek Range.

Anchorage (indoor)

500,000

A major indoor shooting facility in Anchorage is needed. This range would provide indoor shooting facilities to meet the training needs of 5-10 thousand students and at least that many adults. The Advisory Committee has recommended that this range be located on the Izaak Walton League range complex and that \$500,000 be appropriated for that purpose. The Izaak Walton League has received \$275,000 from the 1980 appropriation for upgrading its outdoor shooting facilities.

Fairbanks (indoor)

500,000

The original recommendation of the Committee was to develop three indoor ranges adjacent to high schools in the Fairbanks area at a cost of \$1 million. This was reduced to \$500,000 for one large facility. \$200,000 has been approved out of the 1980 appropriation for two separate outdoor ranges in Fairbanks.

Kodiak (outdoor)

300,000

Although Kodiak has received approval for development of an indoor facility for \$125,000, unsettled land transfers has made ownership of the facility site uncertain. An outdoor range would be developed in conjunction with the already-approved indoor facility. Appropriation of \$300,000 would assure acquisition of the land should the site pass into private ownership. An estimated 1000 students and adults would benefit from shooting and firearm safety training activities at the proposed facilities.

Wrangell (indoor)

300,000

Due to the limitations of the 1980 appropriation, the priorities for shooting facilities in Wrangell were reversed and funds were granted for the completion of an outdoor range first. Completion of an indoor range is now necessary. Wrangell has one of the most active firearms training programs in southeast Alaska. Indoor facilities would provide year-round training programs for several hundred people.

Palmer (indoor)

150,000

A proposal for an indoor shooting facility in the Palmer area is under development. \$65,000 from the 1980 appropriation has been reserved for the Palmer facility. An additional 150,000 is needed to complete the Palmer facility.

Kenai (indoor)

300,000

Originally recommended as two smallbore indoor ranges to be located in local high schools at an estimated cost of \$425,000, the recommendation has been changed to that of developing one centralized indoor range at a cost of about \$300,000. This facility would be used by approximately 2,000 students and adults annually for training purposes, and additional people for recreational shooting. Funding for improvements to outdoor shooting facilities on the Kenai Peninsula has been approved in the amount of \$26,000 from the 1980 appropriation.

Sitka (indoor)

300,000

The need for an indoor shooting facility in Sitka was identified in the statewide assessment of shooting facilities by the Committee in 1979. Indoor shooting facilities would benefit some 500 students and 300 adults, annually, including law enforcement personnel in training activities. Sitka has been approved for funding in the amount of \$75,000 from the 1980 appropriation, for completion of its outdoor range.

Ketchikan (indoor)

300,000

There is a total lack of indoor shooting facilities in the Ketchikan area for hunter safety, law enforcement training and recreational activities. Such indoor facilities could be used in providing firearms training to approximately 500 Jr. high and high school students annually, for general public shooting activities.

Anderson (indoor)

300,000

Construction of an indoor shooting facility would be in conjunction with construction of a new high school at Anderson. The facility would serve residents of the Railbelt School District, including Anderson, Healy, and Clear.

---

TOTAL

\$3,410,000

This project listing is considered minimal for the continuation of construction and improvement of shooting facilities begun in 1980. In addition the Committee and the Department consider expansion of the program to bush communities essential, request additional funding for bush areas.

APPENDIX A

Region

I. Northwestern

A. Outdoor

1. Bethel - No designated shooting areas

## Senate

### Committee on Resources

April 15, 1981  
1:30 p.m.

Beltz Room  
211 - Capitol

---

#### MEMBERS PRESENT

Senator Fahrenkamp  
Senator Fischer  
Senator Bradley  
Senator Sturgulewski  
Senator Eliason  
Senator Mulcahy  
Senator Gilman

---

#### HEARING:

- SB 291 An Act making a special appropriation to the Department of Fish and Game for shooting and firearm safety.
- SB 292 An Act making a special appropriation to the Department of Fish and Game for the purchase of real property.
- SB 418 An Act relating to agricultural development projects.

Rodger Pegues, Assistant Attorney General, stated that SB 418 eliminates the litigation which has arisen over the Point McKenzie agricultural development project. SB 418 retroactively ratifies the prequalification requirements and classification of tracts used by the Agricultural Action Council and the Department of Natural Resources. Prolonged delay will bankrupt a number of the successful applicants and severely injure others.

Bob Palmer, Coordinator, Special Projects, Office of the Governor, spoke in favor of SB 418. He explained the Point McKenzie project was to increase the state's dairy production, therefore the prequalification requirements were necessary to insure that the lands would indeed go into dairy production.

Senator Sturgulewski put forth the motion to move SB 418 with individual recommendations.

Greg Bos, Division of Game, Department of Fish and Game, stated that the division strongly supports SB 291. The State Range Planning Committee identifies where ranges are needed and then makes recommendations to the Department of Fish and Game. The City of Anderson was deleted until more information is made available by the Planning Committee.

Joe Nava, Chairman, State Range Planning Committee, stated that he supports SB 291. He stated that the program needs some flexibility because the Committee does not always know the actual cost of a facility until the proposals are signed.

Ted Dixon, President, Tanana Valley Sportsmen Association, Fairbanks, stated that TVSA stands ready and willing to operate the range facility in Fairbanks. SB 291 will provide the needed funds for the range facility.

Randy Smith, representing himself and a member of numerous national gun clubs, stated that he favors the passage of SB 291. The program is very important and other states have benefited from similar programs.

Senator Mulcahy put forth the motion to delete "and operation" on page 1, line 12 of SB 291.

Senator Sturgulewski put forth the motion to obtain a fiscal note on SB 291.

Dave Harkness, Area Game Biologist, Department of Fish and Game, stated that he supports the passage of SB 292. He has spoken with the owner of the property and he has indicated a willingness to sell all of his land, 250.5 acres. This land provides a good access point, a viewing area, is adjacent to the rifle range and is close to the most popular wildlife viewing area in Anchorage.

Senator Fischer put forth the motion to move SB 292 with individual recommendations.
