1. Senator Josephson (Senate HESS Committee) ^{MAY} ~~will~~ recommend approval of SB 85 which will repeal the CON law (note lines 16 and 17 on the attached bill where brackets indicate deletion from the bill).

Senate Josephson will do this providing we also ask for repeal of Alaska Statute 29.90.010 through 030. This statute provides for the State's participation on Certificate of Need approved projects and it is referred to as construction revenue sharing funds. We are in agreement with the repeal of this statute.

Note: In lieu of the construction revenue sharing funds, we are asking for passage of HB (House Bill) 112 -- which is outlined in # 2.

2. HB 112 "An Act relating to the maintenance and improvement of health facilities" is a bill that must be passed for both bills to work.

What makes this bill special is that any facility wanting state funding consideration will have to present their project to the MEDICAL CARE ADVISORY COMMITTEE (see definition of committee on page 1 of HB 112) for approval.

The committee, using criteria and guidelines as outlined in the bill, will prioritize those projects seeking funding and make their recommendations to the Commissioner of Health & Social Services.

The Commissioner will, in turn and after department review, pass on his recommendations to the Governor for inclusion in the Governor's budget.

- 3: In addition, we understand that some legislators are also concerned about the potential increase in operating revenue sharing funds as outlined in Alaska Statute 29.89. 030.

The Alaska State Hospital Association is in favor of recommending to the legislature that a maximum CAP of \$250,000 per year be the maximum amount given to any facility.

This item is not directly related to items 1 and 2, but is a concern of some members of the legislative body.
