Resume on Sundberg

to build a state lake

My name is Harry Sten Sundberg and I was born on June 27, 1928 in Hennesberget Norway. My family emigrated to the United States in 1925, and settled in Wrangell Alaska in 1926.

I attended the Wrangell Public Schools and graduated from High School in 1940. During the summer months as a teenager, I worked as a fisherman, primarily in the gillnet fishery, but also part time in salmon, trolling and halibut fishing.

During World War 2 I served in the U.S. Navy, mainly in the central Pacific area. Upon returning home early in 1947, I returned to salmon fishing in the Wrangell/Petersburg area.

In 1948, forming a partnership with another area fisherman, Mr. Ben Engdal, construction began on a processing facility which started operation in May 1949 as Harbor Seafoods Co. The company operated as a shrimp cannery in the early years and gradually expanded into the salmon canning field. As the business expanded it became necessary to incorporate as Harbor Seafoods Co. Inc., and facilities were incorporated to handle fresh and frozen products such as halibut, small salmon, etc. Mr. Engdal and I sold our interest in the business in 1975, but the company continues to be the primary fish processor in the Wrangell area and is a modern facility.

I have been a continuing member of the local Fish and Game advisory board prior to statehood until the present, and have represented the city on various fishery meetings, such as the 200 mile conference held at Seattle in 1979 and the National Marine Fishery meeting with B.C. Hydro on Stikine river problems, held in Juneau in 1980. At the present I am most active as a member of the Thomas Bay Lower Commission, representing the communities of Wrangell and Petersburg in their efforts to build the Tye Lake Hydropower project for the benefit of their residents.

Alaska Sportfishing Association

3605 Arctic Blvd., Suite 800 • Anchorage, Alaska 99503

February 28, 1983

Representative Dick Shultz
Co-Chairman, Natural Resources Committee
Pouch V
Juneau, AK 99811

Dear Representative Shultz:

The Alaska Sportfishing Association urgently requests your support in denying confirmation to Governor Sheffield's appointees to the Board of Fisheries until such time as two, true sportfishing representatives are appointed to the board. Please keep in mind that the Board of Fisheries meets on March 21, 1983, whether these appointees are confirmed or not. Sportfishing and tourism for 1983 and beyond will be affected by their decisions.

The appointments to the Board of Fisheries by Governor Sheffield has triggered a highly indignant response by sportfishing enthusiasts throughout Alaska. The lobbying and pressures brought by commercial-fishing interests have decreased the representation to this critical body from three to what we now consider to be effectively zero.

The Board of Fisheries has the power to allocate fish above escapement requirements to the various fishing interests. We feel that the appointments, as they currently exist, are an absolute insult to the 100,000 licensed sportfishermen in the Anchorage-bowl, and a serious threat to sportfishing interests from the Matanuska Valley to Homer. The five sportfishing associations in the Anchorage area asked for an appointment with Governor Sheffield while he was here. He did not even grant time to listen to our grievance.

We do not contend that the appointees are not highly respected and qualified people. We simply insist on true sportfishermen being placed on the Board of Fisheries to represent sportfishing and the highly valuable tourist industry when allocating fish resources.

We do question the ability of Mr. Paul Weller, the only appointee with sportfishing inclinations, to fairly represent the sportfishing side. The last time a sportfishing representative was chosen from the Kenai-Soldotna area (Dr. Fair), who truly represented the sportfishermen and acted on their behalf, was forced to resign after receiving threatening phone calls, attempted boycott of his business, chiding to his children at school, and malicious acts to his private property. Mr. Weller is backed by Lottie Ettelman, a long-time, setnet-fishing operator and commercial-fishing activist (in addition to being a top democat in that area). In fairness to Mr. Weller, he was considerate enough to attend our general membership meeting on February 8, 1983, which displayed some interest in representing our cause, though there was a feeling he lacked knowledge of fishing issues (after four years of representation on the Kenai-Soldotna Advisory Committee).

Representative Dick Shultz

In my earlier letter to Governor Sheffield before the appointments were made, we recommended Mr. William E. Moulton, Jr., and Ms. Toni Salmeier as two superbly-qualified individuals who have been highly involved in both the sportsfishing and tourist industry. Mr. Moulton is also a Fish and Wildlife graduate.

Additionally, your support in the speedy passage of House Bill 63 is requested. This bill would establish sportsfishing on an equal basis with subsistence fishing and would at least minimize the devisiveness of the priority subsistence issue.

These and many other actions are drawing keen interest by sportsfishers throughout Alaska. I assure you that we intend to track actions taken and to keep the public aware of the responsiveness of their legislators.

Sincerely,

Robert L. Hunter, President
Alaska Sportsfishing Association
