MEMORANDUM

February 24, 1983

SUBJECT: Nepotism
(HB 49)

TO: Representative Mitchell E. Abood, Jr.
Chairman, House State Affairs Committee

FROM: *LHA* Linn H. Asper
Legislative Counsel

You have asked whether the relationships included in the "second degree of kindred" as that term is defined in the proposed committee substitute for HB 49 are the same relationships that are traditionally associated with that phrase. The term "degree of kindred" is not defined in the Alaska Statutes. In other jurisdictions the "degree of kindred" between one person and another is normally determined as follows: Take the closest common ancestor of the two persons and count the generations back to that ancestor from each; each generation represents a degree of kindred. Thus, the first degree of kindred to a person includes the parents and children of that person, the second degree includes brothers and sisters, grandparents, and grandchildren, and the third degree includes nephews and nieces and aunts and uncles. In proposed CSHB 49 aunts and uncles are included within the definition of "second degree of kindred" although they would normally be considered to be in the "third degree of kindred". In other respects the statutory and common law definitions are the same.

It should be pointed out that since the definition of "second degree of kindred" in the proposed CSHB 49 only applies to the section in which it appears, the term can include any relationships that the legislature sees fit to include. You can also use a different term, such as "close relationship" if you feel that use of the traditional "degree of kindred" terminology will cause confusion.
