THE NEW ALASKA RAILROAD

AN ACTION PAPER
BY THE
COMMONWEALTH NORTH
RAILROAD COMMITTEE

January 1984

CONCLUSIONS AND RECOMMENDATIONS

1. The state should buy the Alaska Railroad.

   - it is vital to our economy;
   - the Alaska Railroad Transfer Act provides prenegotiated arrangements on contract rights, liabilities, land rights, and benefits that may not be achievable again;
   - the Alaska Railroad has the capability of being financially self-sufficient.

2. The railroad can be self-sufficient if it is allowed to be fully competitive; is organized as an independent corporation; and the cost of transferring the railroad is funded by the state rather than the railroad.

3. The potential for "making it on its own" is critical to the mission and future of the new Alaska Railroad.

4. A streamlined public purpose goal of self-sufficiency provides a clear measurement of success and makes it known that the railroad is to be run like a business.

5. The faster the railroad shows itself capable of self-sufficiency, the sooner it will be attractive to a private buyer.

6. Even though state-owned, the railroad should be operated like a private business and be allowed to compete in the marketplace without artificial restraints.

7. Adequate safeguards exist within the Interstate Commerce Commission (ICC) and federal antitrust laws to protect competing private carriers from predatory railroad pricing of unfair advantage.

8. The legislature should refuse special interests that propose to limit the railroad's scope of operations; such limits to competition would act to the detriment of the people of Alaska.

9. The organization of the new railroad must meet the requirements of federal transfer legislation and support the railroad's potential to be self-sustaining.

10. A public corporation provides the best opportunity for success of the new Alaska Railroad, allowing both semi-autonomous management and adequate control by the state.

11. If the state funds the equivalent of the first five years' transfer liabilities in advance -- $37.7 million -- the railroad will not require further appropriations and can pay remaining transfer liabilities from internally generated funds.

12. The legislature should appropriate $37.7 million to the Alaska Railroad Corporation for the purpose of meeting transfer-related liabilities and $22.3 million to the federal government for the purchase of the Alaska Railroad.

13. Transfer-related funding should be made to the Alaska Railroad Corporation immediately upon acceptance of the railroad to give the Corporation a clean start.

SHOULD THE STATE BUY THE ALASKA RAILROAD?

For almost six years Alaskans have been debating the pros and cons of taking over the Alaska Railroad from the federal government. In the beginning of the move to transfer the railroad, the question was simply whether Alaska would accept the railroad -- no price tag attached.

The final question, which the state must decide during the first seven months of 1984, is whether Alaska will accept the price and conditions mandated in the Alaska Railroad Transfer Act of 1982.

The Price: $22.3 million

Interestingly, public debate over whether or not to accept the purchase price of the railroad has focused on the same two concerns expressed when no purchase price was involved:

- First, will the railroad be a continuing, long-term drain on the state?

- Second, is it appropriate or even possible for the state government to operate a commercial enterprise like the Alaska Railroad?

The particular issues related to the transfer price are:

- Is the valuation fair?

- How much more, over and above the purchase price, will the transfer cost the state?

All of these concerns are debated against a background of conjecture as to what would happen if the state does not accept the railroad.

Commonwealth North first focused on the importance of the railroad transfer when draft legislation was introduced in 1981. We issued an interim report in January 1982 suggesting provisions that should be part of any transfer legislation passed by Congress.

In 1983, it became apparent to the Commonwealth North Board of Directors that further investigation of the railroad issues was required. Besides the immediate question of whether the transfer proposal was fair, the corollary questions of how the railroad should be operated under state control, and to what purpose, became increasingly important.

This report summarizes the conclusions reached after six months of independent work by the Commonwealth North Railroad Committee.

The committee examined the purchase of the Alaska Railroad on an "as is/ where is" basis. While many Alaskans believe the only reason to accept the railroad is for purposes of extension, we concluded that today's railroad, with its capabilities and limitations, is what is being offered, and it is today's railroad that must meet the test of purchase.

The committee examined the Alaska Railroad on an "as is/where is" basis.

YES! THE STATE SHOULD BUY THE RAILROAD

The Alaska Railroad is vital to Alaska's economy.

The railroad is central to the state's extremely limited land transportation system. It fosters movement of bulk freight that would otherwise be impossible to move long distance; offers an important transportation alternative and balance to the competitive pricing structure in Alaska; and offers the only economical method of moving mineral resources to markets.

The purchase price is reasonable. *

The committee was intensely involved in monitoring the valuation process. Overall, we are satisfied that the state's interests were accounted for and that there is no "hidden" information.

There was particular concern that the state have a true picture of the physical condition of the railroad. There is a spread between the United States Railway Association (USRA) assessment of condition and the state's engineering experts. Because this area is so critical, we used the state's higher forecasted costs in our analysis.

---

* See Appendix for breakdown of the transfer package.

The Railroad Transfer Act provides prenegotiated arrangements on contract rights, liabilities, and land rights that may not be achievable again.

These include statutory protection of the railroad's rights-of-way; tax exempt status, which permits tax-free industrial revenue bond use for capital improvements; exemption from certain federal railway employee-related laws; and a guarantee that the survey of lands to be conveyed to the state will be finished within a five-year time period.

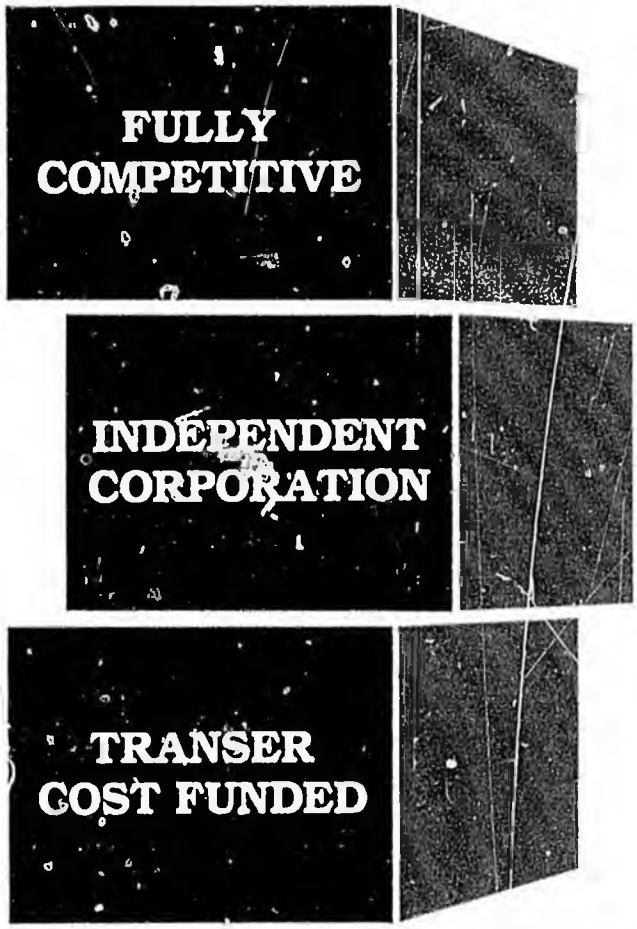
The Alaska Railroad has the capability of being financially self-sufficient.

This conclusion is based on published and proprietary financial reports of USRA, the state transfer team, and the railroad. In analyzing future revenue projections, the committee learned it could not rely entirely upon historical perspective.

Since 1980, there have been three critical changes that can make the difference between the railroad's past subsidized performance and the capability for self-sustaining future performance:

- Deregulation of the railroad industry nationwide positions the Alaska Railroad to benefit in the more competitive and less regulated marketplace that is evolving.

- Projected market changes in Alaska, particularly in products like coal, gravel, and pipe which are especially suited to railroad transportation.



- Opportunity for tighter management performance and cost control as a result of the change from federal ownership to state ownership.

THE NEW ALASKA RAILROAD

The most unexpected and encouraging conclusion reached by the committee is that the railroad has the potential of being financially self-sufficient from the time of purchase, and of operating without continuing appropriations from the state.

This will only happen, however, if the legislature is willing to meet three conditions necessary for a self-supporting railroad:

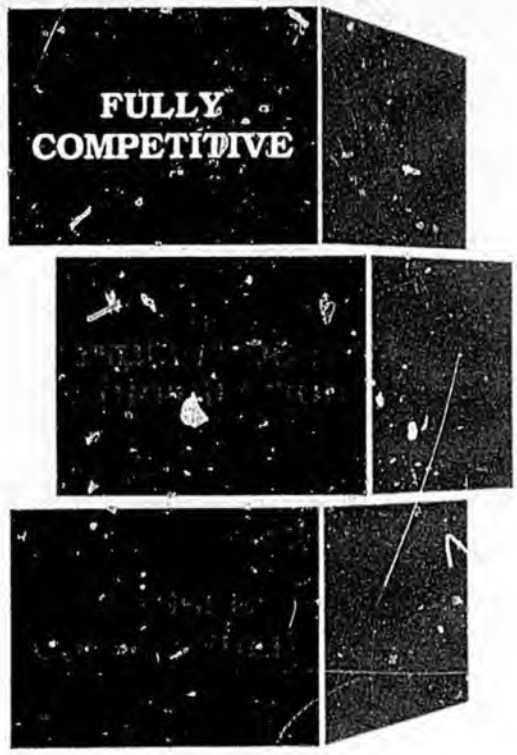
- The railroad must be allowed to be fully competitive.
- It must be organized as an independent corporation.
- The cost of transferring the railroad to the state must be recognized and funded by the state rather than the railroad.

This potential for "making it on its own" is critical to the mission and future of the new Alaska Railroad.

As to the mission, if the legislature agrees that the railroad has the potential to provide efficient, competitively priced freight and passenger service on a self-sustaining basis, they should direct it to do so.

If properly structured, the railroad promises to be financially self-sufficient.

Too many public corporations in Alaska and elsewhere have weakly worded policy goals in their enabling legislation that satisfy special interests but do not provide any means of measuring their success; or they have conflicting goals that are impossible to meet.



The concept of a streamlined public purpose goal of self-sufficiency provides a clear measurement of success and makes it known that the railroad is to be run like a business.

Under a legislative mandate to operate in a self-sufficient manner, all decisions related to such potentially political issues as level and purpose of capital expenditures, employee wage agreements, and level of debt are the direct function of revenue and the ability to pay.

Under a legislative requirement to operate in a self-sufficient manner, all special interests are on notice that if the railroad is required to undertake a service that is not economically viable, the state will have to fund that service.

A successful railroad will become attractive to private industry.

As to the future, the committee believes that the faster the Alaska Railroad shows itself capable of self-sufficiency, the sooner it will be attractive to a private buyer. If the railroad is never attractive as a successful business enterprise, the state may own it forever.

THE RAILROAD MUST BE FULLY COMPETITIVE

Railroads are capital intensive and as such, require large volumes of shipments to meet the cost of maintaining track, roadbed, and equipment. Market share and competition are the economic underpinning of any railroad.

Even though state owned, the railroad should be operated like a private business and be allowed to compete in the marketplace without artificial constraints.

Adequate safeguards exist within the Interstate Commerce Commission (ICC) and federal antitrust laws to protect competing private carriers from predatory railroad pricing or unfair advantage.

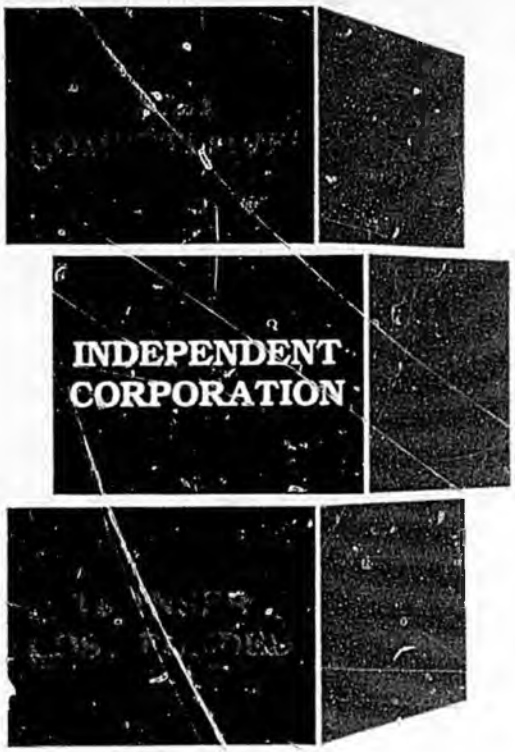
The legislature should refuse special interests that propose to limit the railroad's scope of operations; such limits to competition would act to the detriment of the people of Alaska.

Pricing and service decisions should be vested with the railroad: questions of private vs. public ownership in rate decision making must be left to experts who deal with these issues on a nationwide basis - the ICC and the courts.

The Staggers Act, passed in 1980 to allow railroads nationwide to become more competitive, requires the same rate-making methods, accounting requirements, and market dominance tests for publicly owned railroads as it does for privately owned railroads. The Act clearly requires all railroads to fix rates that cover at least 100 percent of

variable costs and to define maximum rate levels indicating a carrier is not exercising market dominance.

The Alaska Railroad has been partially subject to the ICC since 1963 and has been fully subject since July, 1983, as it will continue to be after the transfer. In addition, the transfer legislation makes the railroad subject to federal antitrust laws.



Finally, the committee concluded that it is doubtful that a lasting or meaningful compromise between competing carriers and the Alaska Railroad could be fashioned.

The railroad both competes with and cooperates with truck and water carriers; it would be impossible to determine where the railroad should offer special pricing without influencing the competitive advantage of one private carrier over another.

A competitive marketing philosophy has already resulted in the announcement of new private carriers serving Alaska in cooperation with the railroad.

Continued competition will encourage innovative marketing and use of technology to move goods at lower prices. The shipper and the Alaskan consumer will benefit and the revenues generated will strengthen the Alaska Railroad.

The legislature should refuse special interests that try to limit operations.

THE RAILROAD MUST BE AN INDEPENDENT CORPORATION

In examining the form of organization to operate the railroad, the committee was guided by two basic criteria:

1. That the organizational format meet the requirements and restrictions of the federal transfer legislation.

2. That the format support the railroad's potential to be self-sustaining.

The intent is to recommend a format that will isolate railroad management from unreasonable political pressure to provide services that are neither economic nor in the state's best interest, and at the same time protect the public interest.

The dilemma is historic for publicly funded corporations: how to hold such corporations accountable while providing freedom to manage.

Four basic organizational formats were examined: a mixed private/public organization; a separate railroad department; a line agency of a state department; and an independent public corporation/public authority.*

The committee concludes that a public corporation provides the best opportunity for success for the new Alaska Railroad. It provides for

* The term public corporation and public authority are used interchangeably.

semi-autonomous management; allows for adequate control by the state; and clearly falls within the transfer legislation's offer of tax exempt status "to a public corporation, authority, or other agency of the state."

The mixed private/public ownership format was attractive because it allows for the easiest transition to wholly private ownership. Such organization could be either a private corporation formed under Alaska Statute AS 10.05, or a limited partnership.

Management must be isolated from undue political pressure.

The mixed private/public format was ultimately rejected because of numerous disadvantages, including the probability that the railroad would be unable to finance capital expenditures with tax-exempt bonds.

It was determined that the disadvantages of line agency status to the railroad--particularly the lack of management flexibility--were so obvious that the railroad would never be self-supporting under this format.

Consideration was also given to the concept of a separate, independent department. Article III, Section 22 of the Alaska Constitution provides for the formulation of up to 20 departments in the executive branch of government.

As there are 17 departments at present, it is possible to place the railroad in its own department, under the direction of a commissioner appointed by the governor and subject to confirmation by the legislature.

A public corporation provides the best opportunity for the success of the railroad.

This form of organization was rejected principally on the basis that it offers few, if any, advantages over an independent corporation established pursuant to the Constitution.

RECOMMENDATIONS FOR THE ALASKA RAILROAD CORPORATION

1. The corporation should have full control over the surface and subsurface railroad lands.

   The purchase of the Alaska Railroad is often referred to as "a real estate deal" because of the value of land included in the transfer package.

   Some private leaseholders and municipal governments with railroad-owned waterfronts or city centers would like to see the land transferred to themselves. The corporation, as a matter of policy, should not sell revenue-producing property because it is in the interest of the entire state that the railroad hold these properties for its own needs.

2. The corporation and its union employees should cooperate in modernizing existing labor agreements during the two-year transitional period mandated in the federal transfer legislation.

   Particular attention should be given to any archaic work rules that inhibit efficiency. The goal should be to increase productivity rather than diminish compensation to employees.

   Efficient utilization of railroad employees is essential for a self-sufficient operation.

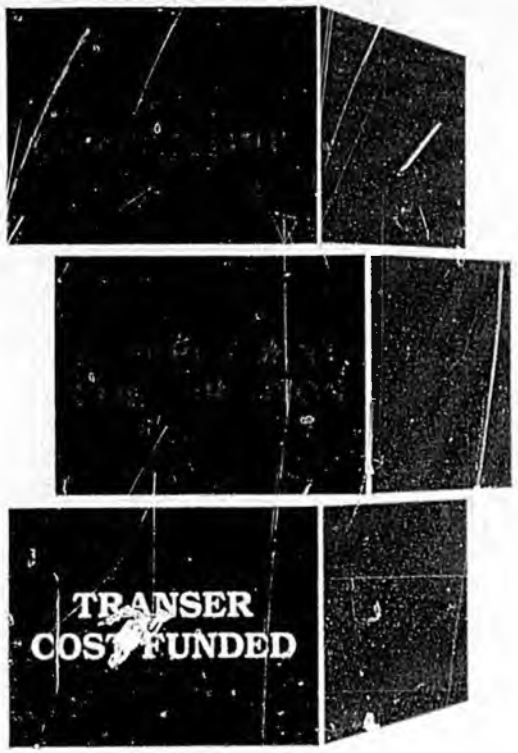
3. The corporation should not be mandated to propose or conduct feasibility studies for cross-country track extensions or sale of the railroad.

   Major rail extensions and sale issues are not operating issues. The mission of the railroad corporation should be closely focused on matters that affect economics and service to shippers and passengers on existing routes. Fea-

sibility studies are expensive, require extensive staff time, and could drain the limited funds of the railroad.

Extensions and sale proposals have broad policy implications that can best be considered by the executive and legislative branches of state government or private entities.

4. Passenger operations should be modified to take advantage of revenue opportunities and re-evaluate uneconomic services; a system should be devised to accurately identify passenger service costs.



Just as land leasing by the railroad is projected to be profitable, passenger service will likely remain a loss operation if all related expenses and capital costs are considered. To control these costs, however, it is important to account for them accurately.

Reliable cost information is crucial in considering service levels, pricing issues, and capital expenditure decisions.

5. The Board of Directors of the Alaska Railroad Corporation should consist of five to seven voting members representing the interest of the entire public; no board member should be appointed to represent a special interest.

Directors should be chosen for their professional judgment rather than their representations of special interests or home town. Similarly, non-voting membership is inappropriate.

Board members should be limited to two five-year terms of service and with staggered terms to mix continuity of experience with new ideas.

COST OF TRANSFER MUST BE FUNDED BY THE STATE

The USRA valuation report on the Alaska Railroad describes the railroad's operations as "modest when compared with railroads in the lower 48 where it would be classified as a medium-sized 'short-line' carrier with below average freight traffic density."

Historically, operations of the railroad have ranged from modestly profitable years to periods of substantial losses.

While optimistic for improved performance of the new Alaska Railroad, the committee concludes that the minimal cash margins forecast for the first five years will be insufficient to meet the purchase or transfer-related costs on top of operating and capital expenditures.

Marginal railroads fail historically because of a combination of acquisition cost, rehabilitation cost, and debt service.

The Alaska Railroad comes to the state debt free; however, there are four substantial transfer-related liabilities (in addition to the purchase price) connected with acquisition and rehabilitation that have been identified by the USRA and state transfer teams.

These liabilities primarily result from the manner the federal government operated the railroad and were partially recognized in the appraisal process as deductions from the overall value of the railroad.

1. Under state ownership the railroad will be subject to Occupational Safety and Health Act (OSHA) standards

and from Alaska fire and building-related codes. Substantial funds are needed to correct deficiencies now existing.

2. Maintenance-of-way and capital expenditure needs result from facilities which have been allowed to deteriorate but are necessary for the ongoing use of the system. For example, the condition of cross ties, rail, and structures in certain areas has been allowed to slip behind prudent replacement schedules, according to some independent experts.

3. At the time of transfer there will be a number of legal, administrative and consulting costs to start-up under state control. This is part of the railroad purchase cost and should be funded as such.

4. The final category of start-up costs is adequate working capital to cover cash timing requirements of the railroad corporation.

Until very recently, the transfer liabilities included an extremely high employee retirement figure, generally referred to as the "unfunded pension liability." While this liability was considered in the valuation process, the committee strongly believed that the state should not have to pay for this federal problem. Fortunately, the federal Office of Personnel Management has rendered an opinion relieving the state of responsibility for the unfunded pension cost.

Resolution of the pension liability issue was critical to purchase.

Resolution of this issue was critical to our recommendation to purchase the railroad.

USRA and the state transfer team "worst case" calculations for these four categories of liabilities alone may total $64.8 million over the next ten years. This amount is in addition to the $22.3 million purchase price payable to the federal treasury.

If the start-up liabilities were funded annually, the railroad would not

show positive cash flow until 1990, according to these projections.

However, the committee's analysis shows that if the state funds the equivalent of the first five years' liabilities in advance -- $37.7 million -- the railroad can be self-sufficient from the transfer date onward and not require further appropriations. (See Appendix.)

The cash required for funding the purchase and five years' transfer costs is as follows ($ million):

Code and OSHA compliance	$16.0
Deferred maintenance	15.3
Working capital	4.7
Start-up expense	1.7
Cash required by railroad corporation	$37.7
Purchase price payable to federal treasury	22.3
Funding required for transfer	$60.0

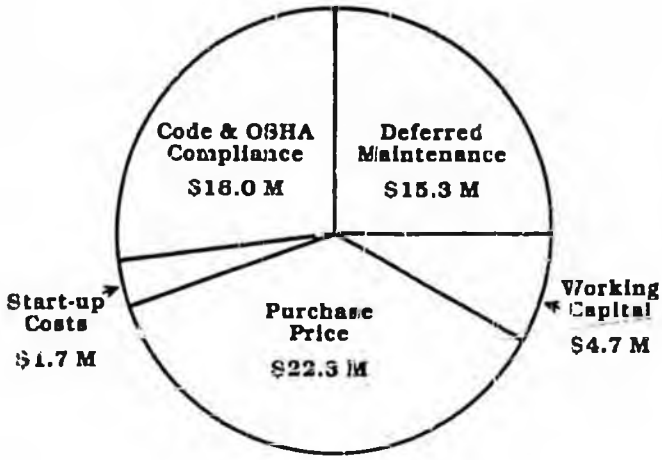
The legislature should appropriate $37.7 million to the railroad corporation for transfer-related costs.

If the state pays all of these costs at transfer, the railroad projections show the capacity to fund the remaining $27.0 million of liabilities from internally generated funds.

While $37.7 million is a substantial cost, it ultimately cannot be avoided. The expenditure would represent approximately 1.1 percent of the proposed $3.5 billion FY 85 state budget that would be in effect during the railroad transfer period. In consideration of the benefits derived, we believe this choice of funding would be well justified.

It is recommended that the legislature appropriate $37.7 million dollars to the Alaska Railroad Corporation for the purpose of meeting transfer-related liabilities and $22.3 million to the federal government.

Transfer-related funding should be made to the Alaska Railroad Corporation this legislative session to give the Corporation a clean start. By separating expenses generated as a result of transfer, the railroad management's success or failure in meeting a goal of self-sufficiency can be clearly measured.



In determining whether a goal of financial self-sufficiency was possible, the committee found that the more conventional financial statement approach in analyzing profit and loss analysis fails in two respects when examining the railroad's financial staetments.

Government accounting at the railroad allowed capitalizing certain track maintenance programs that otherwise would have been charged against profits currently. Therefore, in viewing historical performance of the railroad, it is more useful to calculate cash flow including capital expenditure programs, to measure the degree of self-sufficiency over time.

Capital expenditures historically and prospectively exceed depreciation charges, further supporting cash flow as the relevant measure in this analysis.

If the transfer-related liabilities are funded, the railroad will have four sources of revenue: the start-up monies from the legislature; operations; real estate; and borrowing capabilities.

While our cash flow analysis does not rely on debt, the transfer legislation provides for the tax-exempt status of the railroad and the ability to issue tax-exempt debt. However, to the extent possible, this source should only be

The Alaska Railroad Transfer-Related Costs: $60 million

The success of the railroad may parallel the fortunes of Alaska.

used for funding investments in equipment or facilities that will generate new revenues or reduce operating costs.

It is emphasized that the starting point in all of these analyses is revenue projections by current management. As noted in the discussion related to competition, revenues are all-important for economic success. High fixed costs will not drop significantly with reduced traffic. If major sustained shipments fail to materialize as expected, periods of negative cash flow could result. Management believes its base projections to be realistic, and, perhaps, conservative.

The Commonwealth North Railroad Committee is encouraged by the railroad's potential to be of even greater benefit to the State of Alaska. In many respects, the success of the railroad may parallel the future of Alaska's overall economy.

THE FUTURE OF THE ALASKA RAILROAD

The optimistic conclusion that the Alaska Railroad can be self-supporting on its existing system still must meet the test of fact.

But, for the first time in the Alaska Railroad's history, it will be Alaskans writing the legislation and making the decisions that will determine the railroad's future.

What about that future?

Two major policy questions concern extension of the track system and transfer of the railroad to private ownership.

The railroad has always held the potential of reaching out far beyond the "railbelt" of Alaska. Even after 60 years of operation the railroad system remains short of its original charge to be a frontier development tool.

The problems will remain the same under state ownership: rail extension is expensive; feasibility studies of major route expansions by both public and private interests have not yet been positive.

But, if the problems remain the same, the decision makers will be different and so will the criteria of public need and public good.

Issues of project funding and operating cost coverage can be looked at on an ability-to-pay basis from a state perspective, and while economic returns must be real, they may not need to be so immediate.

Major track extension of the Alaska Railroad may be in the far future, but under state ownership, Alaskans will decide how far.

We will also have control over the question of whether or not it is in the public interest to sell the railroad to a private buyer.

This issue should be carefully explored. However, until a favorable operating record can be demonstrated, it is unlikely that a responsible private buyer would offer to purchase the railroad, unless it were to gain control of its valuable landholdings.

These questions do not need to be solved immediately.

The challenge right now is to set up a successful Alaska Railroad Corporation and build on the future from there.

APPENDIX

THE TRANSFER PACKAGE

THE PURCHASE PRICE OF $22.3 MILLION BUYS THE STATE OF ALASKA THE FEDERAL ALASKA RAILROAD SYSTEM:

- 520 miles of single main and branch line track between Seward and Fairbanks--via Anchorage, Wasilla, Healy, and Nenana;
- 64 miles of branch track linking Fairbanks to Eielson Air Force Base, Healy to Suntrana, Matanuska Junction to Palmer, Portage to Seward, and an International Airport spur;
- 62 locomotives, 1653 freight cars, 46 passenger cars, and over 200 pieces of maintenance and emergency equipment;
- railroad yards, offices, maintenance buildings, storage, in Anchorage, Seward, Whittier, Healy, Nenana, and Fairbanks;
- 38,000 acres of land: 12,000 of right-of-way; 1,000 acres leased (for approximately $3 million annual rental income); 11,000 used as actual or future gravel sources; 7,000 acres for terminal and yard areas;
- 539 employees: 455 full time permanent, 84 temporary, 51 special categories.

THE ALASKA RAILROAD TRANSFER ACT (ARTA):

- requires the state to agree to operate the railroad as a rail carrier in intrastate and interstate commerce;
- requires the state to protect retirement benefits and to negotiate employment arrangements during the first two years of ownership;
- places the state-owned railroad under full and formal regulation by the Interstate Commerce Commission and federal anti-trust laws;
- requires that all revenues generated by the state-owned railroad are to be maintained and managed by the railroad for railroad-related purposes;
- qualifies the railroad "as a public corporation, authority, or other agency of the state" for tax exempt status.
- guarantees that the state will receive nothing less than an exclusive-use easement on railroad rights-of-way for transportation, communication, and utility purposes in all areas (except Denali National Park where the easement is for rail purposes only).

APPENDIX

ALASKA RAILROAD

OFFICE OF THE COMMISSIONER

ALASKA RAILROAD TRANSFER TEAM

April 12, 1984

The Honorable Al Adams
Chairman, House Finance Committee
Alaska State House
Pouch V
Juneau, Alaska 99811

Dear Representative Adams:

This letter is in response to several questions raised by your staff regarding the fiscal note for the CS for HB 512, an Act establishing the Alaska Railroad Corporation. In an attempt to offer more specificity for our estimates, enclosed is a package of information which should provide the requested justification.

The complexity of the transfer project and the need to plan for unknown contingencies given the unresolved legislative process make it difficult to present a full and detailed fiscal analysis. This is further complicated by the lack of a complete and accurate data base from which to project fiscal activity.

Although considerable independent analysis has been given to the available data in the preparation of this fiscal note, it has also been necessary to rely on historical railroad data and current railroad projections to complete our submittal. Once established under state ownership, it should be easier to provide more detailed documentation to support future funding requests.

The following is a brief discussion in response to all of the major points which I understand are of concern to your committee. It has been structured to give most of the requested information in the actual letter, with the various attachments serving as back-up for further review.

° Railroad Labor Relations Agency

I understand there is some concern over why a separate railroad labor relations agency has been proposed in the committee substitute. It was offered in response to concerns raised by both the House and Senate Transportation Committees, who wished to keep railroad employees as separate from normal state systems as possible. Further, it was thought that having a separate labor relations agency would allow the appointment of people with some special expertise in this area.

The alternative would be to require the State's existing Labor Relations Agency to assume the additional responsibility for the Alaska Railroad Corporation. The $35,000 cost estimate for FY 85 should not change significantly under this approach, since new expenses will be incurred under either arrangement.

The breakdown of this estimate is $7,000 for travel and per diem charges by board members, with the remaining $28,000 for contractual assistance by labor relations attorneys and specialists to resolve specific issues as they arise. This estimate is based on the actual experience of our existing Labor Relations Agency, and reflects performing activity for about nine months of the fiscal year, with work beginning as the corporation gears up for acceptance of the railroad.

° Operating Expenditures

I understand another issue for your committee is the desire to see more justification for the various estimates within the operating expenditure categories. Attachment A presents by month and object category additional information in this regard, including a detailed breakdown of railroad expenditures by individual departments.

These costs represent the overall expenses associated with operating the railroad during the pro-rated period of FY 85, and do not represent the level of general fund assistance needed to cover the anticipated shortfall. It is also important to note that no effort has been made on the fiscal note to allocate the projected shortfall as either capital or operating assistance, since such a distinction would be totally arbitrary.

Board of Directors: Expenditures for the Board of Directors have been assessed in the 100 and 200 level categories. A total of $160,000 has been budgeted for board members' compensation and travel expenses during FY 85. The estimate of $120,000 for compensation has been calculated on an assumption of 40 days of meetings and work activity by the board during FY 85. This estimate is in response to legislative intent expressed in the House Transportation Committee that a "working board" is envisioned during at least the first year of activity.

The $40,000 in funds for travel has been estimated on an assumption of approximately $500 per trip for air fare, per diem and expenses x four board members, which also assumes that two of the public members and the union representative will be from Anchorage. It is assumed there would be approximately 20 separate occasions for meetings or related activity requiring travel by board members during FY 85.

Personal Services: Except for the compensation to board members and some additional temporary and part-time assistance related to start-up activities, all expenditures projected for wages and fringe benefits during the December-to-June period of FY 85

represent maintaining current work force levels. Attachment A provides a complete breakdown for this area by month and by individual railroad department. All personal services for the Alaska Railroad Transfer Team are depicted under the contractual category since these funds will be passed by RSA to DOT&PF.

Travel: In addition to the $40,000 in funds set aside for travel by board members, another $100,000 expenditure is projected for expenditure by the Alaska Railroad during FY 85. Attachment A shows the monthly breakdown by each operating department. These estimates are based primarily on historical data from the railroad, along with some anticipated increase resulting from of the transfer. All travel expenditures for the Transfer Team are depicted as part of the single request under the contractual category.

Please note that the total of $140,000 in funds under this category represents a decrease from the original $300,000 requested in the fiscal note attached by the House Transportation Committee to the CS for HB 512. In reviewing the back-up, I discovered that the Transfer Team's travel estimate was inadvertently added to those for the railroad and the board. As a result, Attachment B is a revised fiscal note which shows the correct breakdown for this category. The net effect of this change is a reduction of $160,000 to the overall shortfall for FY 85.

Contracts: Approximately $2.5 million of this estimate is allocated to cover normal railroad needs during the pro-rated period in FY 85. These estimates are based on actual railroad experience and cover such items as the provision of data processing services, rolling stock per diem charges, specialized power and rolling stock maintenance, and general utility payments.

Please note that the total of $6.0 million for contracts as depicted on the revised fiscal note includes a re-allocation of $1.2 million from the supply category on the first submittal. In reviewing the back-up to this material, I discovered some service-related contracts which would be more appropriate for allocation under the contractual category. Accordingly, the supply category in the revised fiscal note has been reduced an equal amount.

Another $1.2 million of this category represents part of the total $2 million in estimated costs to the corporation for one-time, start-up expenditures for a range of services such as inventorying and remarking of all personal property, printing of new stationery and payment warrants, revising purchasing and leasing systems, and the initiation of a new accounting system. The remaining items under this category have already been explained in prior submittals or will be further detailed below as part of the expanded discussion on the Transfer Team's activity.

Supplies: This category covers all normal supply acquisitions for the railroad during this period which are treated as expenses to the business. The major items included under this category are fuel acquisition, small tools and lubricants used for maintenance of equipment, all paper materials used for railroad administration, and a miscellaneous inventory of such items as ties, rail and switches used in the maintenance of the track and roadbed. This allocation is based on historical railroad data for FY 83 and FY 84.

Equipment: This category covers all normal equipment acquisitions for this period that are not treated as capital investments by the railroad. The majority of these expenditures are in the mechanical and engineering departments. Major items covered by this category include replacement of miscellaneous mechanical shop equipment and maintenance-of-way equipment as described in Section IV of Appendix G to the Alaska Railroad Transfer Report; hy-rail vehicles; and replacement of microwave communication parts. This breakdown of cost is also based on historical railroad data.

Grants & Claims: This consists of expenses for workmen's compensation, along with overall risk management needs (i.e., tort actions; loss and damage claims; etc.). Attachment C is a recent analysis of these needs prepared by the Department of Administration's Division of Risk Management.

° Alaska Railroad Transfer Team

Several additional questions have been raised about the responsibility and needs of the Transfer Team during FY 85. If the State elects to purchase the Alaska Railroad this legislative session, the Transfer Team will have the primary responsibility to ensure an orderly transition from federal to state ownership, including directing and coordinating all related state activity. In addition, the Transfer Team will have the task to assist in the establishment of the new public corporation to own and operate the railroad, including technical assistance to the new board as it assumes its duties. This will mean a large amount of work, particularly in the first six to nine months of FY 85.

It is important to reiterate that the Transfer Team is an interim organization to coordinate state activities and to oversee the transition from federal ownership. Its duties should be largely completed by the end of FY 85. Any additional fiscal impact to state agencies as a result of acquiring the railroad can be budgeted for as part of normal budgeting activity starting in FY 86. This approach to budgeting for FY 84 and FY 85 has given the Legislature the opportunity to review all transfer-related costs in one specific budget request, instead of having all of the individual agencies separately budget for these impacts.

All of the positions in the various agencies to perform this work are specifically for this project, and are being funded solely with these monies. Most of these positions are already in existence during FY 84, and will merely continue during FY 85 until the completion of the project.

DOT&PF: A specific question has been raised about the size of the projected travel budget for DOT&PF and several of the other agencies. While I agree there is a large travel budget for this project, actual activity during the end of FY 83 and throughout FY 84 substantiates these estimates.

This project has required a large amount of constant travel by staff because of the statutory time limits set by the federal transfer legislation. In addition, this has been further exacerbated by the inherent conflict assocated with managing this project from Juneau given the policy implications of the issue and the location of the needed information at the railroad headquarters in Anchorage. Finally, there has been an ongoing need for a limited amount of travel back to Washington, D.C., Seattle, and Fairbanks. If the State elects to purchase the railroad, we anticipate this kind of activity to continue, particularly from July to December, in order to facilitate a quick and orderly transfer.

The travel component in this area covers the Transfer Team staff and all other DOT&PF officials from Juneau, Anchorage, or Fairbanks for travel directly related to the railroad transfer. There have already been several occasions when staff from other divisions (e.g., the facilities planning section) has assisted on specific work tasks for this project.

Based on a review of the initial estimate in relation to our actual expenditures during FY 83 and 84, I have adjusted our funding request in this area down to $46,000. This is based on an assumption of 40 trips during FY 85 between Anchorage and Juneau at approximately a total cost of $700 per trip for air fare, per diem and expenses; five trips between Juneau and Washington, D.C. at a cost of $1,600 per trip; eight trips between Juneau/Anchorage and Seattle at a $800 per trip; and eight trips between Juneau/ Anchorage and Fairbanks or other points along the line at $450 per trip.

An additional concern has been raised about the $35,000 projected for printing and miscellaneous professional services. $30,000 of this amount is projected for expenditure under an existing professional services contract with the Woodside Consulting Group to refine a capital improvement planning effort for ongoing use by the railroad and for use during preparation of the FY 86 budgets. This contract will also allow us to maintain a readily available railroad management expertise to assist with the establishment of the corporation. The remaining funds will be needed to print copies of the transfer documents for official state use.

° Department of Natural Resources

Most of these funds will be used to continue existing work by the Division of Technical Services for the preparation of conveyance documents and related title review work. There are currently two full-time positions engaged in this activity, with a third technical assistant scheduled to be added if the State proceeds with the transfer. A fourth non-permanent position would also be created in the Division of Land and Water Management to assist with transfer-related impacts. Attachment D presents a more detailed explanation for these estimates.

In re-checking DNR's original request, it was determined that the following changes can be made to the breakdown provided in Attachment B to the original fiscal note:

Object of Expenditure	Description	Amount
Personal Services	4 positions - DNR	$148.0
Travel	4 positions - DNR	13.6
Contractual	Appraisals/Printing	6.5
Supplies	Miscellaneous Commodities	3.0
Total		$170.1

This change reduces the DNR request to the level minimally needed to perform the necessary title and conveyance document work, to coordinate and oversee the cadastral survey work, and to ensure accomplishment of the tasks by the Division of Land and Water Management as explained in their attached memo.

In addition to these DNR impacts as part of the Transfer Team, an additional $35,000 funding request has been added to this note under the contractual line item in response to the anticipated impact from implementing Sec. 42.40.370 of the CS for HB 512. This section authorizes the Alaska Railroad Corporation to obtain state land from DNR through an expedited review and decision-making process. DNR is of the opinion that this section gives the corporation priority standing and will impact their ability to perform their other duties. Accordingly, these funds are for non-permanent staff assistance and some travel during FY 85 to respond to all such corporation requests. Fiscal impact during FY 86 is expected to be greater once the corporation has been organized and begins to explore expansion proposals.

Please note that the net effect of this revised budget for DNR, when combined with the reduced travel estimate for DOT&PF, is a reduction of $100,000 in funds being requested for the Transfer Team during FY 85. An appropriate adjustment has been made to both Attachment A and the revised fiscal note to reflect this change.

° Department of Labor

Attachment E provides a detailed breakout and explanation of the funding request of $213,500 for the Department of Labor to perform an extensive survey of the railroad's physical facilities in relation to federal and state occupational safety and health laws, regulations and standards. This funding will allow the Department of Labor to properly perform their statutory responsibilities on a one-time basis in relation to the Alaska Railroad.

° Department of Administration

Most activity in this area will consist of continuing work efforts initiated during FY 84. Particular attention must be paid to the analysis of the five collective bargaining agreements, which will be made available for use by the corporation in the process of renegotiating these agreements as required by the federal transfer law. Attachment F contains additional explanation and back-up with respect to the funding request for the Department of Administration. Please note that in addition to the $257,400 highlighted in the Transfer Team's attachment, another $80,000 in funds is being requested to hire a knowledgeable railroad labor relations attorney and to perform support work needed in relation to the preservation of railroad archives.

It is important to reiterate that this request does not fund permanent increases in the department's operations or staffing. The two non-permanent staff assistants will perform support work in a range of areas such as risk management, data processing, telecommunications, and EEO issues. The projected travel budget includes supporting these efforts, and any other department travel needs related to this project.

In terms of the contractual component, $45,000 has been set aside for the ongoing actuarial analysis by Mercer, Inc.; $50,000 for the labor relations attorney; $60,000 to perform DOA liaison work and staff assistance for the pre-transfer audit; and the remaining $30,000 to assure the State receives copies of all personnel records, and to assure an orderly cataloguing and storage of archival records at the railroad, at Sand Point, Washington, and at Washington, D.C.

° Department of Law

The Department of Law component to assist the Transfer Team is based entirely on actual experience during the last year and half of work. There will be a sizeable need for this legal assistance assuming state acceptance of the transfer, particularly during the first six months of FY 85. Considerable work is anticipated to represent the State in the adjudication process of 3(e) (ANCSA) claims against railroad property by native village corporations. Additional legal assistance will be needed for the preparation of the transfer documents relating

to land conveyances and personal property, preparation of personnel-related legal documents in concert with the U.S. Office of Personnel Management, timely responses to third parties concerns which may arise as a result of the transfer, and representation of the State vis-à-vis the Interstate Commerce Commission (ICC) to obtain certification and to initiate filings for rate-making purposes. An additional legal expense to be encountered relates to the actual establishment of the corporation and all of the legal work necessary to assist that effort.

The outside special counsel used in this project will be directly involved in all of the above functions. These efforts are coordinated with staff within the department, who also participate in performing this work. It should be noted that FY 85 costs in this area is less than for prior years, which is due to a projected downswing for this type of activity following actual transfer in late 1984.

° ICC Rate Valuation/Capital Plan Activity

The funding in this area will be used to initiate planning work necessary to file the appropriate valuation studies before the ICC for purposes of rate-making justification. In addition, the railroad needs to continue an ongoing capital planning effort to better assist the corporation in making investment decisions, and provide additional support for the ICC filings. An overall amount in excess of $1 million will probably be needed to properly complete such a full-scale valuation.

Included in this effort is the need to completely disassemble the current accounting system, restructure all cost center allocations accordingly, and appraise the value of the railroad as a going concern. Since condition and capital needs play a key part in this kind of assessment, it is important to coordinate the work to the maximum extent possible. The consulting assistance will consist of financial and operational railroad experts familiar with similar types of railroads and Class II ICC rate-making procedures.

Although the federal transfer legislation gives the State a two year hiatus before these filings must be made, it is important to initiate these efforts as soon as possible given the uncertain status of the current accounting system and the overall complexity of the actual project. The Transfer Team will use these funds to initiate the effort and then transfer responsibility for completion of the work task to the corporation.

° Summary

I would like to reiterate that the shortfall figure of $15.54 million has not been allocated between capital and operating needs. While to make such a distinction would be quite arbitrary,

it is possible to identify the following items as the major reasons for the shortfall: the replacement of the working capital fund; the OSHA and building code rehabilitation needs; the one-time, start-up expenditures; and funding for Transfer Team activities. This covers most of the projected shortfall and does represent those expenditures directly attributable to the transfer project.

I apologize for the length of this submittal, but I wanted to address as many of the specific concerns as possible. I trust this information satisfies your request and helps give some perspective to the complexity of this project. If you have any more questions, please give me a call at 465-3900.

Sincerely,

Mark S. Hickey
State Railroad Coordinator

TESTIMONY

BEFORE

THE ALASKA HOUSE AND SENATE TRANSPORTATION COMMITTEES

JANUARY 26, 1984

JUNEAU, ALASKA

H. L. SCHUYLER

SEA-LAND SERVICE, INC.

I AM HAROLD L. SCHUYLER, DIRECTOR OF PUBLIC AFFAIRS FOR SEA-LAND SERVICE, INC.'S ALASKA DIVISION.

WE, AT SEA-LAND, DO NOT OPPOSE THE TAKEOVER OF THE ALASKA RAILROAD BY THE STATE OF ALASKA FROM THE FEDERAL GOVERNMENT. THE RAILROAD IS NECESSARY FOR THE FUTURE GROWTH OF ALASKA RESOURCE DEVELOPMENT AREAS AND COMMUNITIES. COAL, MINERALS, AND FARMING PRODUCTS MUST HAVE AVENUES TO TIDEWATER PORTS IN ORDER TO BE EXPORTED TO WORLD MARKETS. THE MARKET FOR ALASKA'S MINERALS, WOOD PRODUCTS, AND GRAINS WILL BE FOREIGN, AND THE MOST ECONOMICAL METHOD TO MOVE BULK CARGOES TO TIDEWATER IS BY RAIL.

WE HAVE ANALYZED IN GREAT DETAIL SENATE BILL NO. 352 AND HOUSE BILL NO. 512 AND APPLAUD THEIR IMAGINATIVE AND FAR-REACHING PURPOSE; HOWEVER, WE, AT SEA-LAND, ARE CONCERNED ABOUT THE ADMINISTRATION, OPERATION, POLICIES, AND RULES AND REGULATIONS UNDER WHICH THE ALASKA RAILROAD AUTHORITY WILL BE OPERATING IN CARRYING OUT ITS MISSION.

AS PRESENTLY DRAFTED, THE LEGISLATION PROVIDES US THE FOLLOWING CONCERNS:

1. A STATE OWNED ENTITY WHICH IS EXEMPT FROM ALL FEDERAL, STATE, AND LOCAL TAXES HAS A GREAT ADVANTAGE OVER OTHER COMPETITIVE MODES OF TRANSPORTATION THAT ARE PAYING TAXES TO THE FEDERAL, STATE, AND LOCAL COMMUNITIES.

2. THE OPPORTUNITY FOR THE PROPOSED RAILROAD AUTHORITY TO SELL BONDS OR BOND ANTICIPATION NOTES AS TAX EXEMPT VEHICLES GIVES THE AUTHORITY ANOTHER DEFINITE EDGE IN OBTAINING CAPITAL FOR IMPROVEMENTS AS COMPARED TO PRIVATE TRANSPORTATION THAT MUST COMPETE FOR MONEY IN THE OPEN MARKET, PAYING CONSIDERABLY HIGHER INTEREST RATES THAN DOES THE STATE GOVERNMENT.

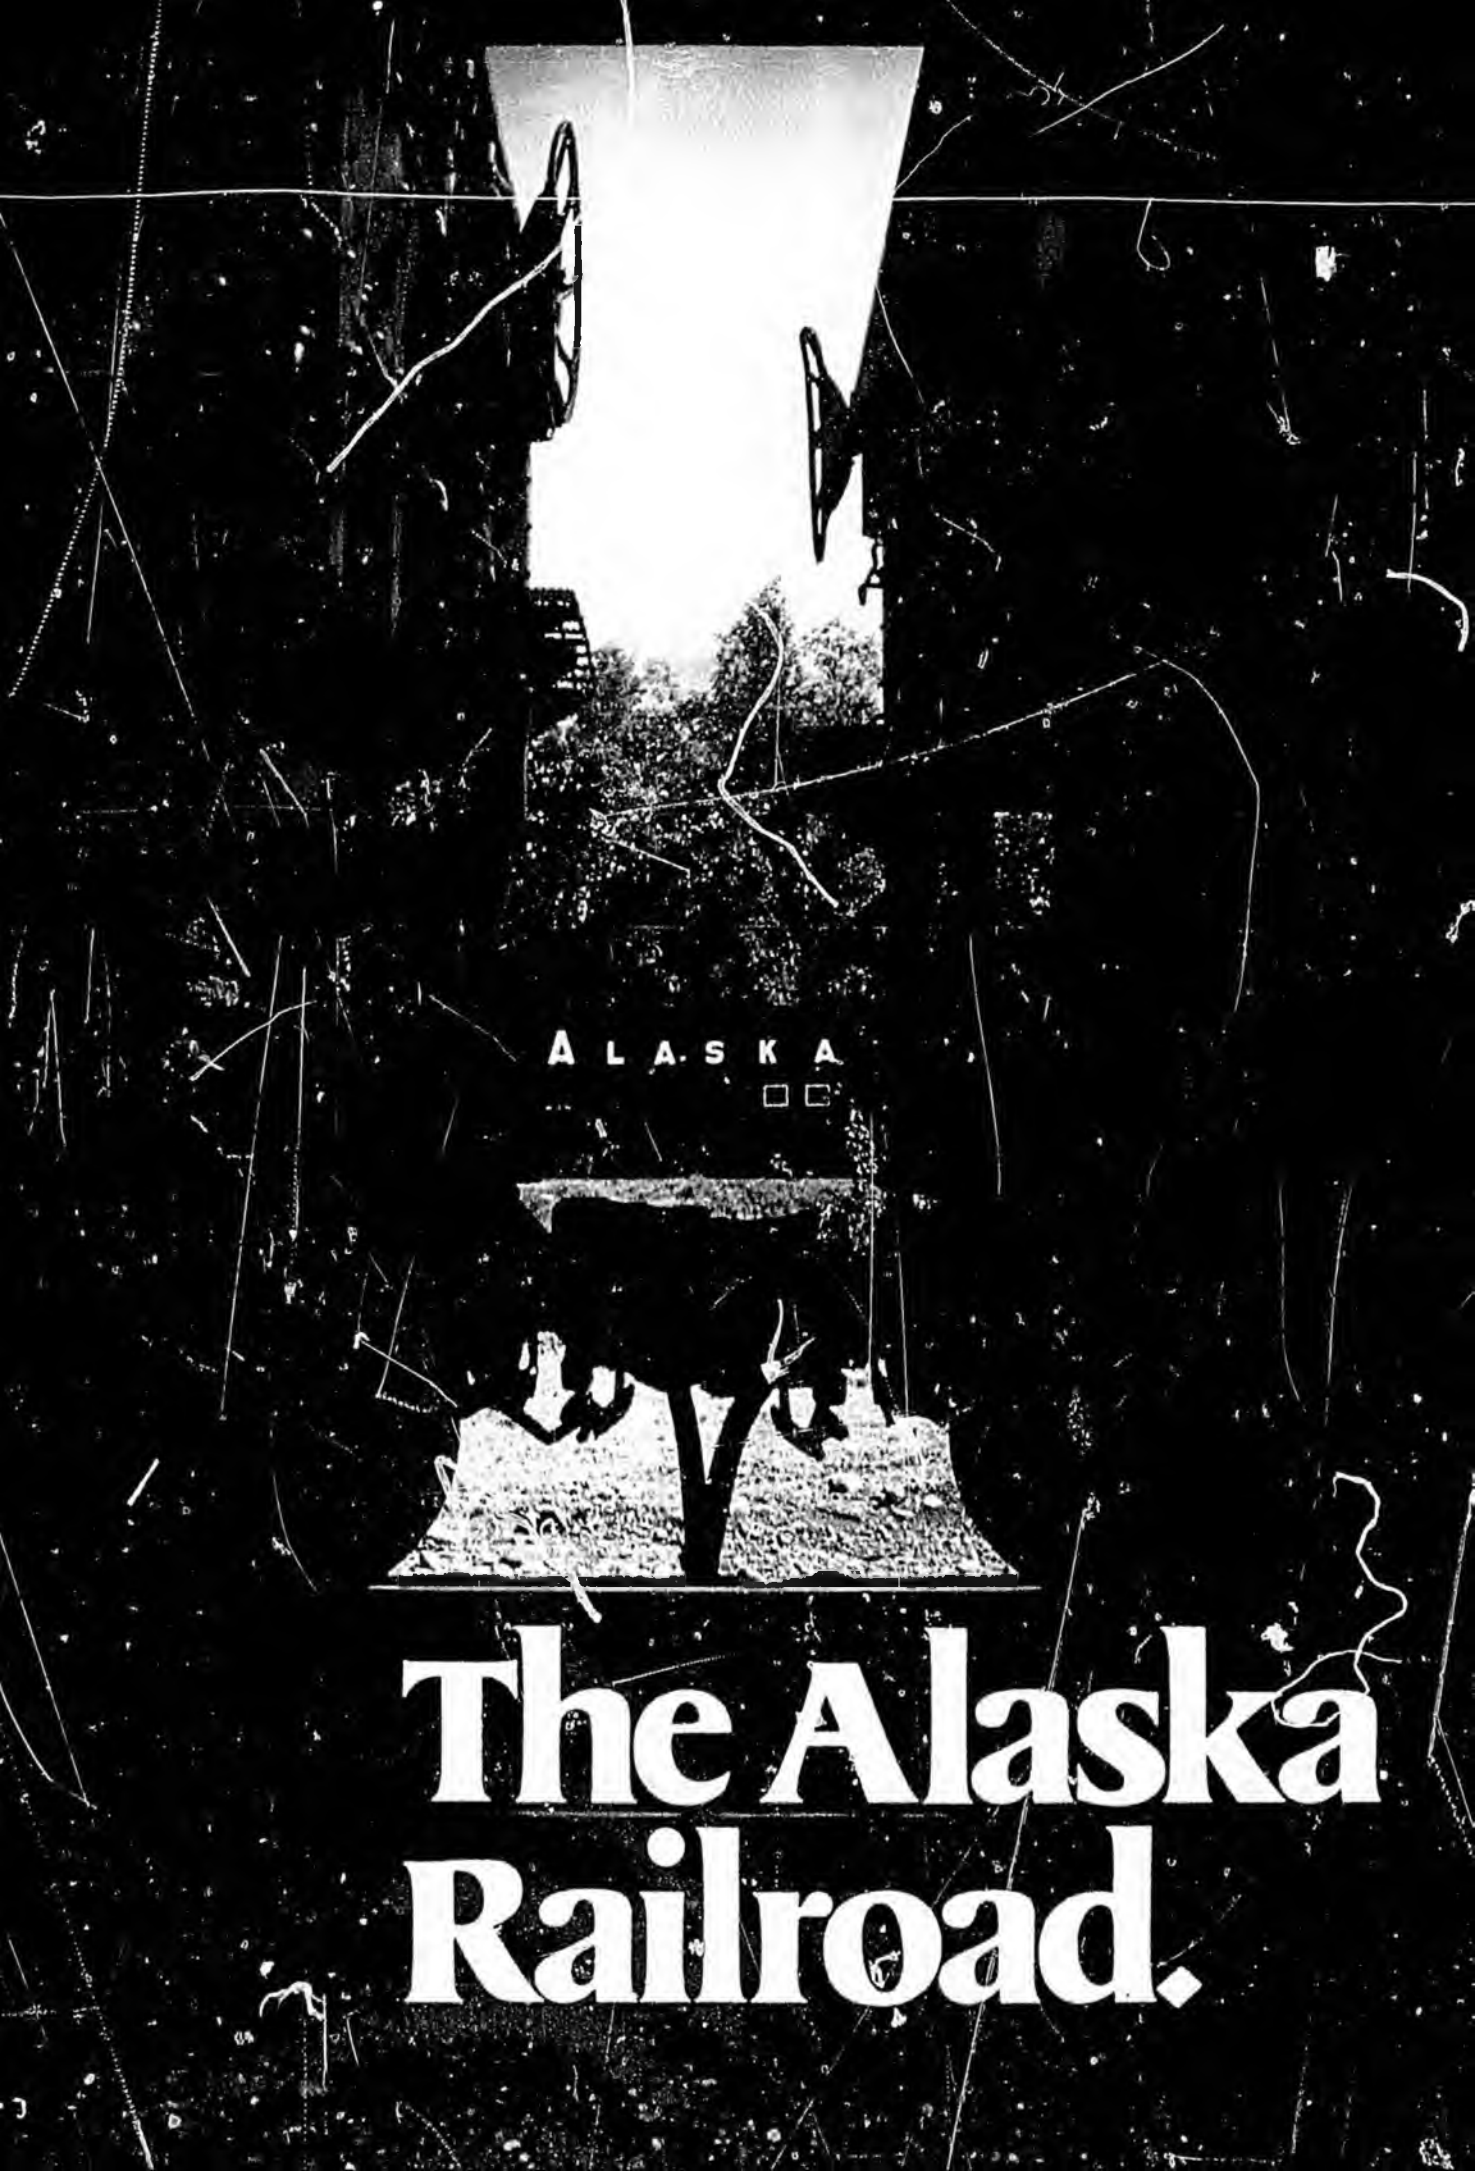
3. THE RAILROAD AUTHORITY IS VESTED WITH THE ABILITY TO ACQUIRE AND OPERATE OTHER MODES OF TRANSPORTATION SERVICE CONNECTING TO THE RAILROAD'S RAIL SERVICE IN DIRECT COMPETITION WITH PRIVATE TRANSPORTATION. THIS ALLOWS THE RAILROAD TO BUY TRUCK LINES, WATER CARRIERS, AND AIRLINES. THIS PART OF THE BILL IS PARTICULARLY WORRISOME AS THE ALASKA RAILROAD AUTHORITY COULD VERY WELL BECOME A STATE TRANSPORTATION SYSTEM WITH NO COMPETITION AS THE PRIVATE SECTOR WOULD NOT BE ABLE TO FINANCIALLY COMPETE WITH THE AUTHORITY. THERE IS ALSO THE FACT THAT THE STATE WOULD LOSE A CONSIDERABLE AMOUNT OF TAX BASE IF AND WHEN PRIVATE SECTOR TRANSPORTATION COMPANIES ARE FORCED OUT OF BUSINESS.

4. THE LEGISLATION LIBERALLY DISCUSSES RATE MAKING, AND RATE POLICY. THE ESTABLISHMENT OF RATES FOR ALASKA RAILROAD AUTHORITY'S REVENUES WILL EFFECT THE PRIVATE CARRIERS OF OTHER MODES OF TRANSPORTATION. WE ARE CERTAINLY NOT SUGGESTING THAT THE LEGISLATURE DICTATE THE AUTHORITY'S RATE POLICIES, HOWEVER, WE FEEL THAT ALL RATES PRESCRIBED BY THE AUTHORITY MUST BE AT A LEVEL SUFFICIENT TO RECOVER THE FULL COST OF PROVIDING THE PARTICULAR TRANSPORTATION CONCERNED, TAKING INTO FULL ACCOUNT THE LEVEL OF SUBSIDY AND THE COST OF BORROWED CAPITAL. SEA-LAND WOULD URGE SPECIFIC LEGISLATIVE AMENDMENTS WHICH WOULD PROHIBIT A STATE-OWNED RAILROAD FROM CHARGING RATES WHICH ARE BELOW THOSE CHARGED BY PRIVATELY-OWNED CARRIERS, FOR FREIGHT ON WHICH BOTH CARRIERS COMPETE, WHERE THE RATES DO NOT RECOVER THE FULL COST OF THE SERVICE OFFERED (TO INCLUDE ANY DIRECT OR INDIRECT SUBSIDY).

5. WE FEEL THE LEGISLATION NEEDS AN ANTITRUST PROVISION. THE LEGISLATION NEEDS TO BE AMENDED TO PLACE THE STATE-OWNED RAILROAD UNDER STATE ANTITRUST

LAWS. ALL OF THE PRIVATELY-OWNED WATER CARRIERS AND MOTOR CARRIERS ARE SUBJECT TO THE FEDERAL AND STATE ANTITRUST LAWS, AND WHILE THIS BODY CANNOT PLACE THE RAILROAD UNDER FEDERAL ANTITRUST LAWS, STILL IT IS OUR BELIEF THAT THE RAILROAD SHOULD BE SUBJECTED TO THE SAME LAWS AS ARE THE PRIVATE CARRIERS. IN SHORT, WE SHOULD ALL PLAY BY THE SAME RULES.

6. I AM SURE THIS COMMITTEE IS AWARE THAT THE STAGGERS RAIL ACT OF 1980 HAS VIRTUALLY DEREGULATED INTERSTATE RAIL SERVICE. AS A PRACTICAL MATTER, THE ALASKA RAILROAD AND ALL OTHER MAJOR RAIL LINES ARE TOTALLY UNREGULATED. WHILE DEREGULATION MAY BE GOOD IN THEORY, THE TRADE BETWEEN ALASKA AND THE LOWER 48 IS IN ESSENCE A MICROCOSM: ALL TRANSPORTATION MODES COMPETE DIRECTLY WITH EACH OTHER FOR THE SAME BASIC CONSUMABLES. WE READILY ACKNOWLEDGE THAT LARGE PORTIONS OF THE ALASKA RAILROAD'S FREIGHT ARE BULK COMMODITIES; STILL, ALL OF THE COMPETING MODES ARE REGULATED WHILE THE RAILROAD IS NOT, THUS GIVING THE RAILROAD A DISTINCT COMPETITIVE EDGE WHICH CAN BE SUBJECT TO ABUSE.



7. THE BILL PROVIDES FOR THE ESTABLISHMENT OF CONTRACT RATES BY THE RAILROAD. THE STAGGERS ACT ALLOWS CONTRACT RATES BUT THAT LAW CONTEMPLATED THE RAILROADS ENTERING INTO CONTRACTS WITH MAJOR SHIPPERS WHOSE CARGO THEY HAD HISTORICALLY HANDLED FOR THE BENEFIT OF BOTH. THAT CONTRACT ABILITY WAS NOT ENVISIONED TO BE USED AS A COMPETITIVE TOOL, AS IT HAS BEEN UTILIZED BY THE ALASKA RAILROAD. SEA-LAND HAS CHALLENGED THESE PRACTICES, BOTH BEFORE THE INTERSTATE COMMERCE COMMISSION AND IN THE COURTS, TO NO AVAIL BECAUSE THE RAILROAD IS UNREGULATED AND IMMUNE FROM SUIT WHILE OWNED BY THE FEDERAL GOVERNMENT. WE CANNOT LEGALLY ESTABLISH CONTRACT RATES AND, THEREFORE, CANNOT EFFECTIVELY COMPETE WITH SUCH RATES. WE URGE THIS BODY TO CRITICALLY SCRUTINIZE THAT PORTION OF THE BILL AND DELETE SUCH PROVISIONS FROM THE LEGISLATION.

8. ARTICLES 4 AND 5 OF THE LEGISLATION PROVIDE FOR THE AUTHORITY TO EXERCISE THE STATE'S POWER OF EMINENT DOMAIN/CONDEMNATION. SEA-LAND DOES NOT CHALLENGE THE STATE'S ABILITY IN THIS AREA, BUT WE STRONGLY FEEL THIS RIGHT SHOULD NOT BE LODGED WITHIN THE AUTHORITY BUT SHOULD BE RESERVED TO THE STATE TO PRECLUDE ANY COMPETITIVE USE OR ABUSE. IT IS A SIMPLE MATTER FOR THE RAILROAD AUTHORITY TO APPROACH THE STATE TO OBTAIN THE ABILITY TO ACQUIRE THE NECESSARY RIGHTS OF WAY.

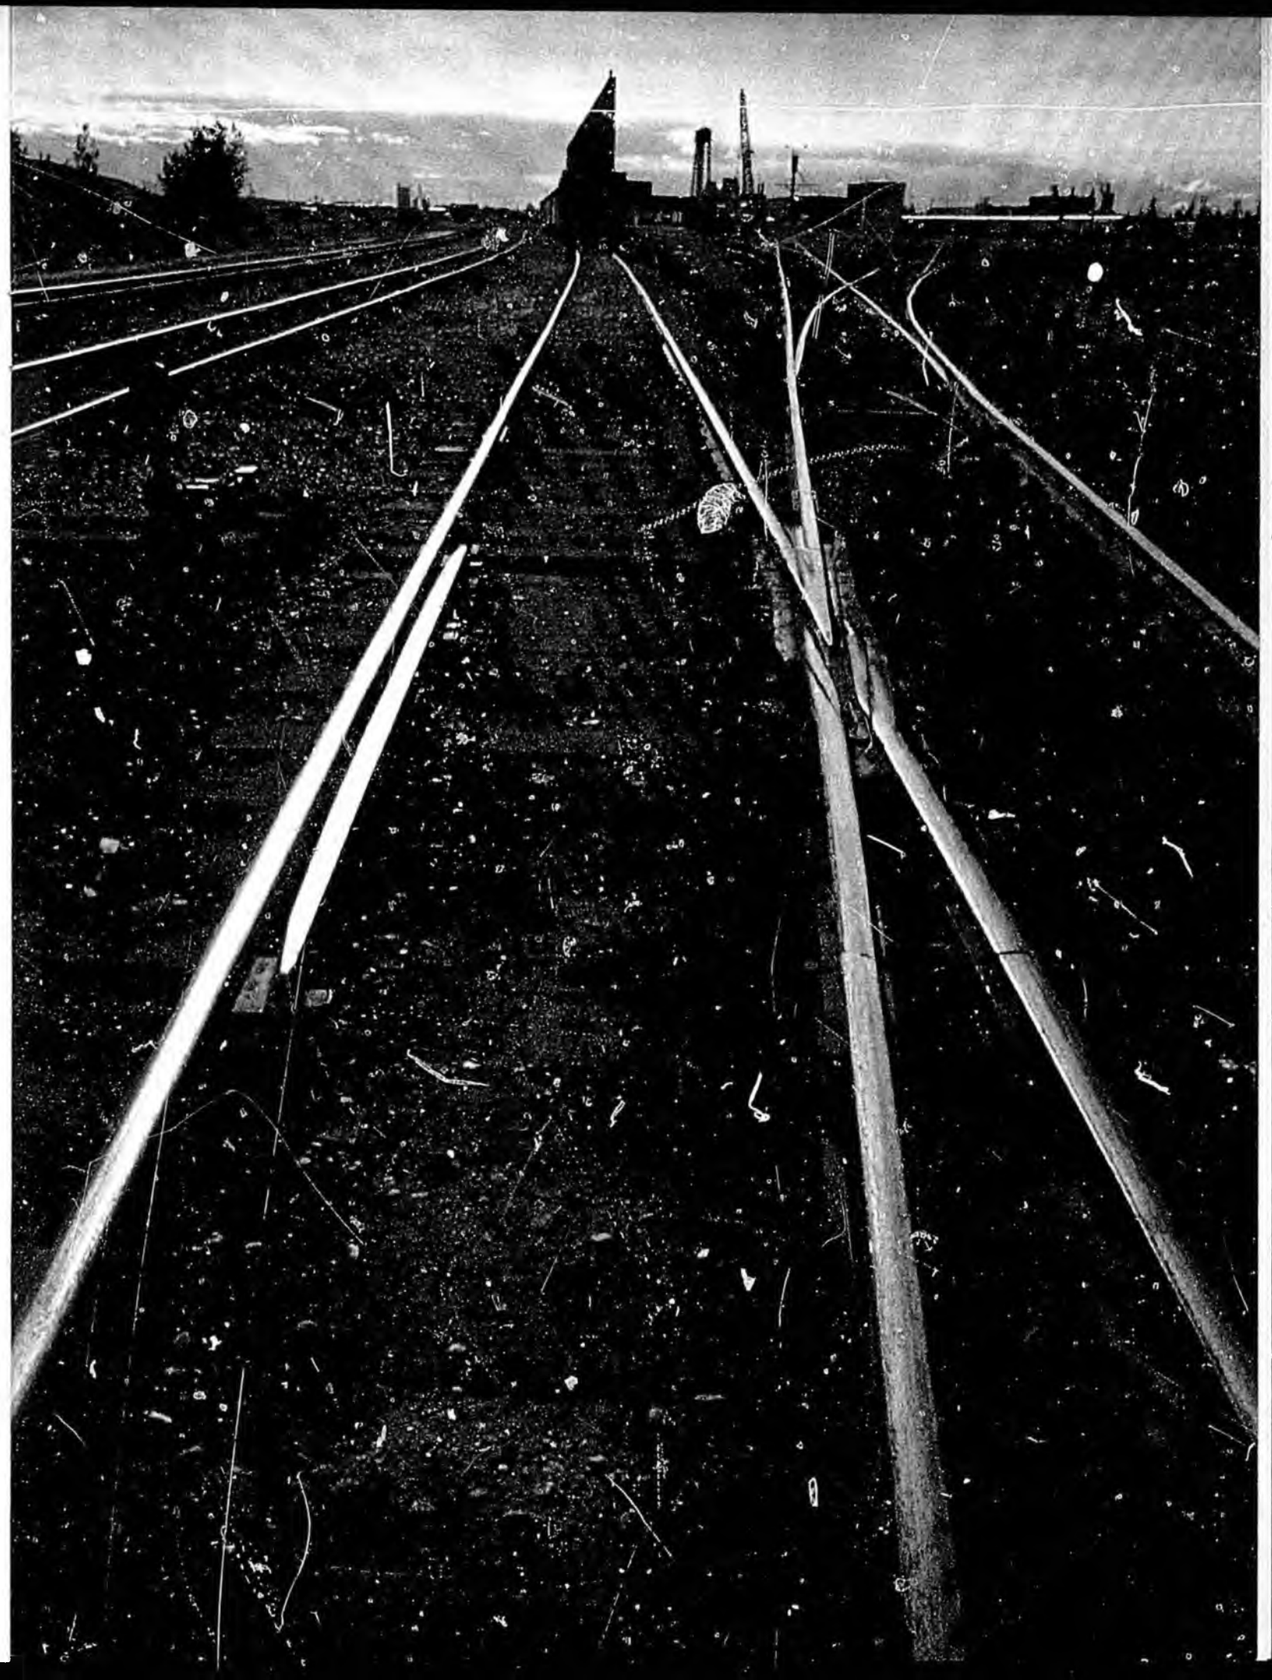
9. SEA-LAND NOTES THAT THE AUTHORITY CAN DETERMINE WHAT INFORMATION IT KEEPS CONFIDENTIAL. WE URGE THAT THIS ABILITY IS SUBJECT TO POSSIBLE ABUSE. AT A MINIMUM, ALL RATES, RULES, PRACTICES, DIVISIONS OF REVENUE, CONTRACTS, IF ANY, AND COST DATA MUST BE OPEN TO PUBLIC INSPECTION.

WE, AT SEA-LAND, ARE NOT HERE MERELY TO TELL YOU WHAT IS WRONG WITH THIS PROPOSED LEGISLATION. WE WISH TO BE CONSTRUCTIVE AND ASSIST IN REACHING THE BEST POSSIBLE COMPROMISE WHICH WILL WORK TO THE BENEFIT OF THE STATE, ITS CITIZENS, AND THE TRANSPORTATION CARRIERS SERVING ALASKA, AS WELL AS TO SEE A VIABLE RAILROAD PAYING ITS WAY IN THE STATE OF ALASKA AND GROWING WITH THE RESOURCE DEVELOPMENT.

WE CERTAINLY WOULD LIKE TO THANK THESE COMMITTEES FOR ALLOWING SEA-LAND SERVICE, INC. TO TESTIFY AND EXPLAIN OUR VIEWS. IT IS CERTAINLY NOT OUR INTENT TO HINDER THE RAILROAD'S OPERATION OR ITS DEVELOPMENT AND EXPANSION. THE RAILROAD IS A NECESSARY INGREDIENT FOR THE FUTURE OF THIS STATE. ALL WE ARE ASKING FOR IS FAIR COMPETITION FOR ALL MODES OF TRANSPORTATION IN THE ALASKA MARKET PLACE.

The Alaska Railroad.

In 1914, when railroads spanned the major continents of the world and man was taking to the air with increasing enthusiasm, Alaska was still raw wilderness, mostly untouched by civilization. The cities that did exist were remote and isolated, particularly in the area called Interior Alaska. There was no land link between these frontier outposts and the rest of the world; and their marine supply networks were only useable on a seasonal basis. Yet there was much that needed to be shipped in—and great wealth had to be shipped out. So, in 1914—after two private railroad companies had failed to penetrate Alaska's interior—Congress authorized the government to take over the 70 miles of track already laid, and to construct the remaining 400 miles of railroad needed to reach Fairbanks.



The Alaska Railroad.

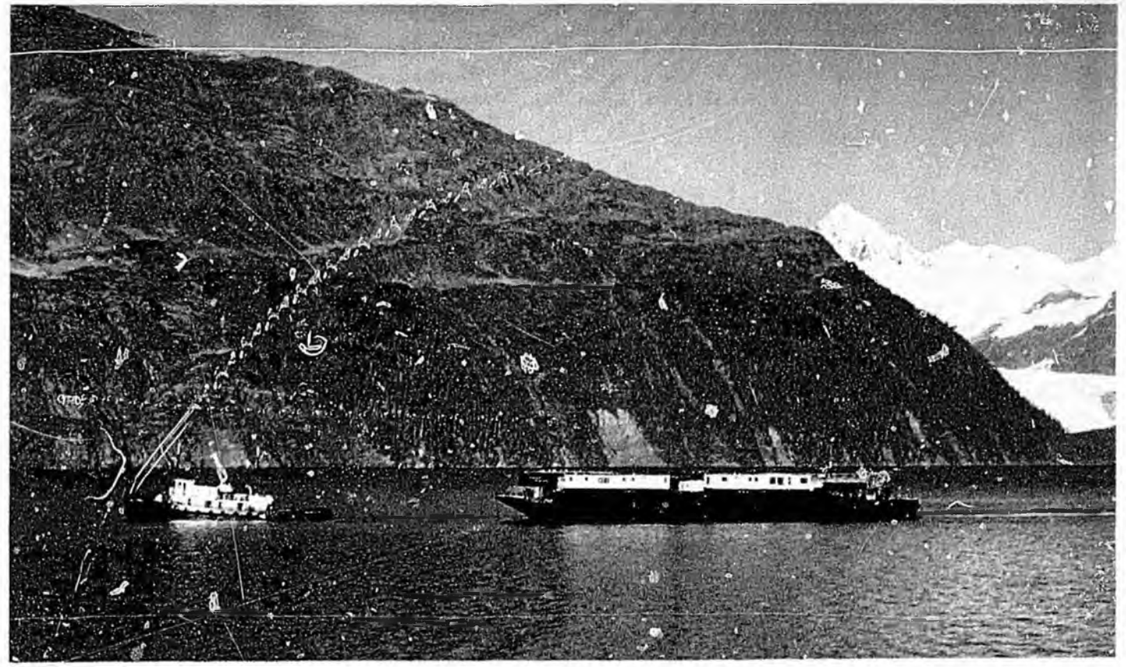
Shipping freight to and from Alaska is a lot less complicated than many shippers think. While it's true that Alaska has no direct land railroad link with the lower 48, Alaska does have something equally effective. And that's The Alaska Railroad.

Interlining with the major railroad, truck, air, and marine transport networks of the continental United States and Canada—and, through them, with the carriers of the world—and utilizing rail barge transport from Seattle and Prince Rupert, The Alaska Railroad is one of the most efficient, economical ways possible to get your goods to or from Alaska.

We offer a comprehensive range of facilities, services, and special equipment to help transport your shipments, as you'll discover in reading this brochure.

The Alaska Railroad system. It's unique. It's timely. And it saves you money.

It wasn't a job to be lightly undertaken. Mountain ranges, canyons, glaciers, thick forest, subzero temperatures—these obstacles, and many others, faced the railroad planners and builders every mile of the way. There were some who said it could never be done; but there were others determined to try. Construction took eight years, cost $52 million, and demanded some of the most innovative railroad engineering in history.

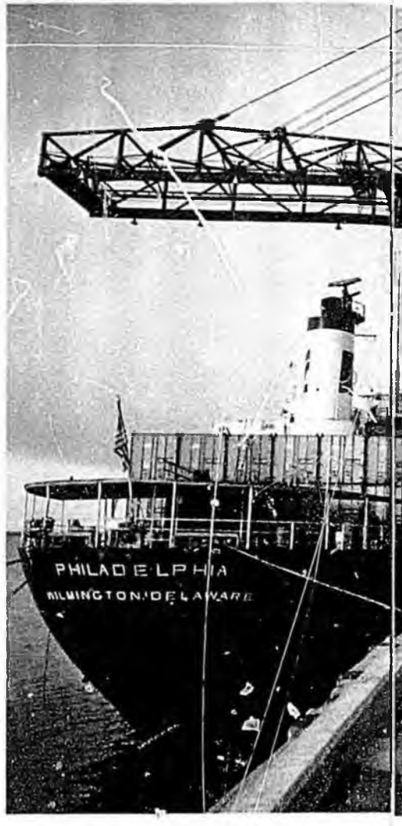


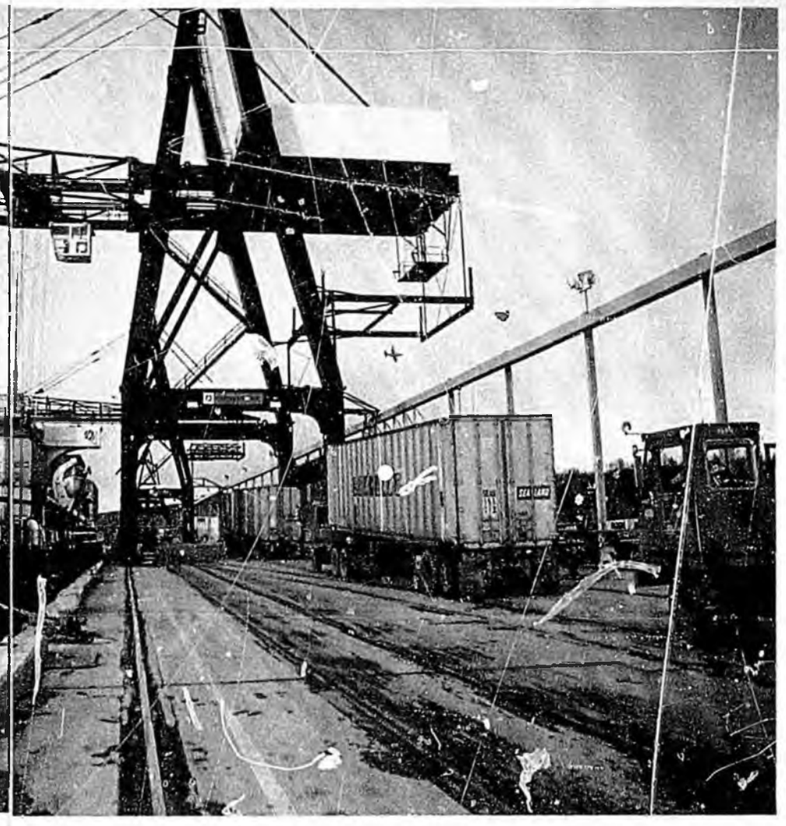
When You're Shipping To Alaska, We'll Do All The Work.

The Alaska Railroad offers direct interchange connections with the North American railroad network. And that works to your advantage. No matter what you're shipping—furniture from North Carolina, pipe from Pueblo, building materials from the Pacific Northwest, or drilling pipe and machinery from Texas—your goods will arrive at their Alaskan destination quickly, securely, and with a minimum of effort on your part.

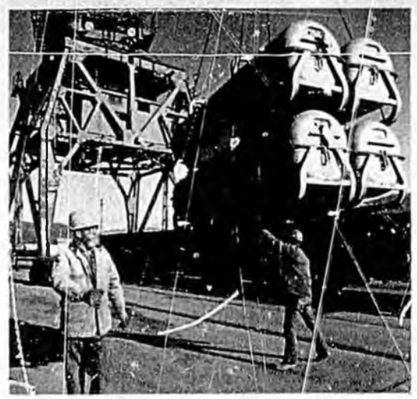
When you specify The Alaska Railroad as your designated Alaskan carrier, your cargo is routed via the continental railroad network to Seattle (1300 miles from Alaska destination ports) or Prince Rupert, British Columbia (870 miles.) There it is transferred to the rail barges of the Hydro-Train and Aqua-Train services for the sea voyage to Alaska. Rail cars are transferred to trains at Whittier, on Southcentral Alaska's Prince William Sound.

Bulk or break-bulk cargoes are offloaded in the Kenai Peninsula port of Seward, where extensive break-bulk and bulk freight facilities are available. Both of these ice-free ports serve as year-round marine terminals for The Alaska Railroad.

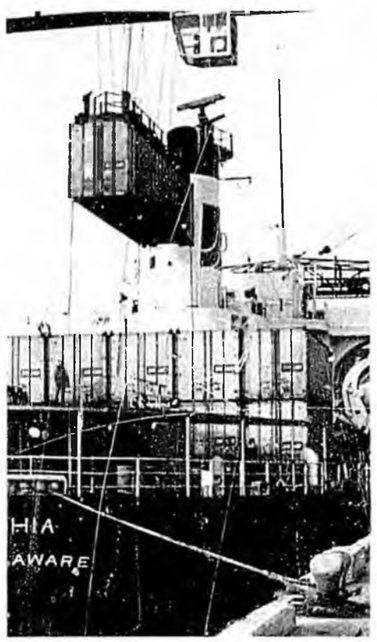




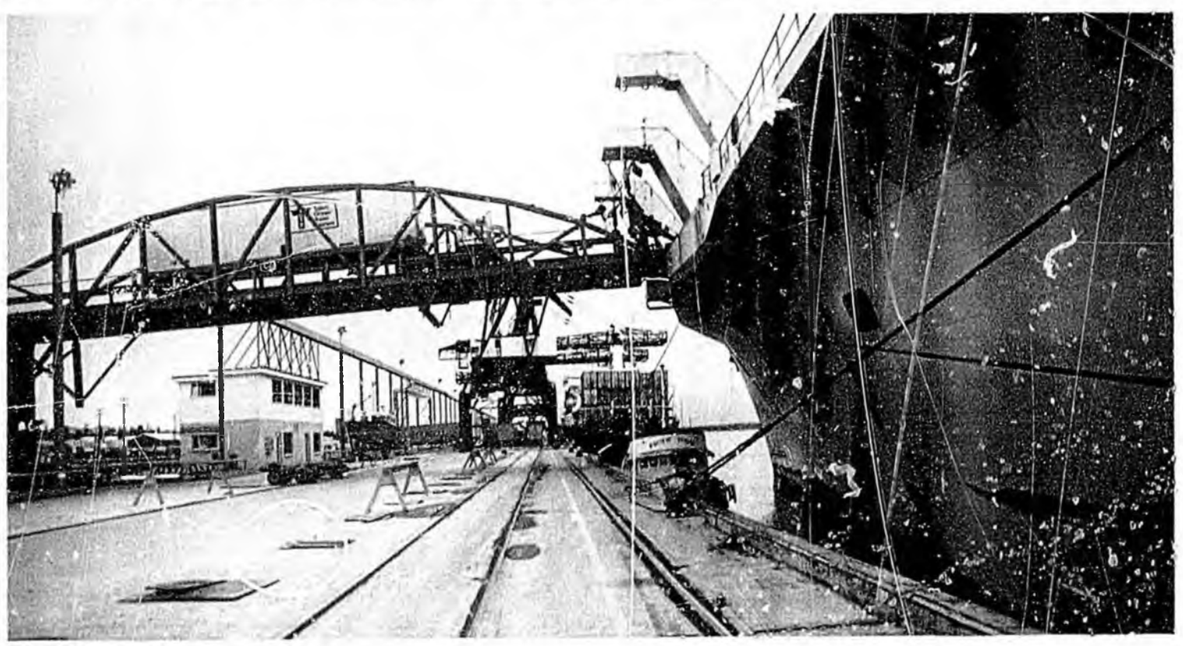
In 1923, President Harding traveled to Nenana, a small town in Alaska's interior. At the north end of the 700-foot single-span steel bridge across the Tanana River, the President drove a golden spike to signify the completion of The Alaska Railroad.

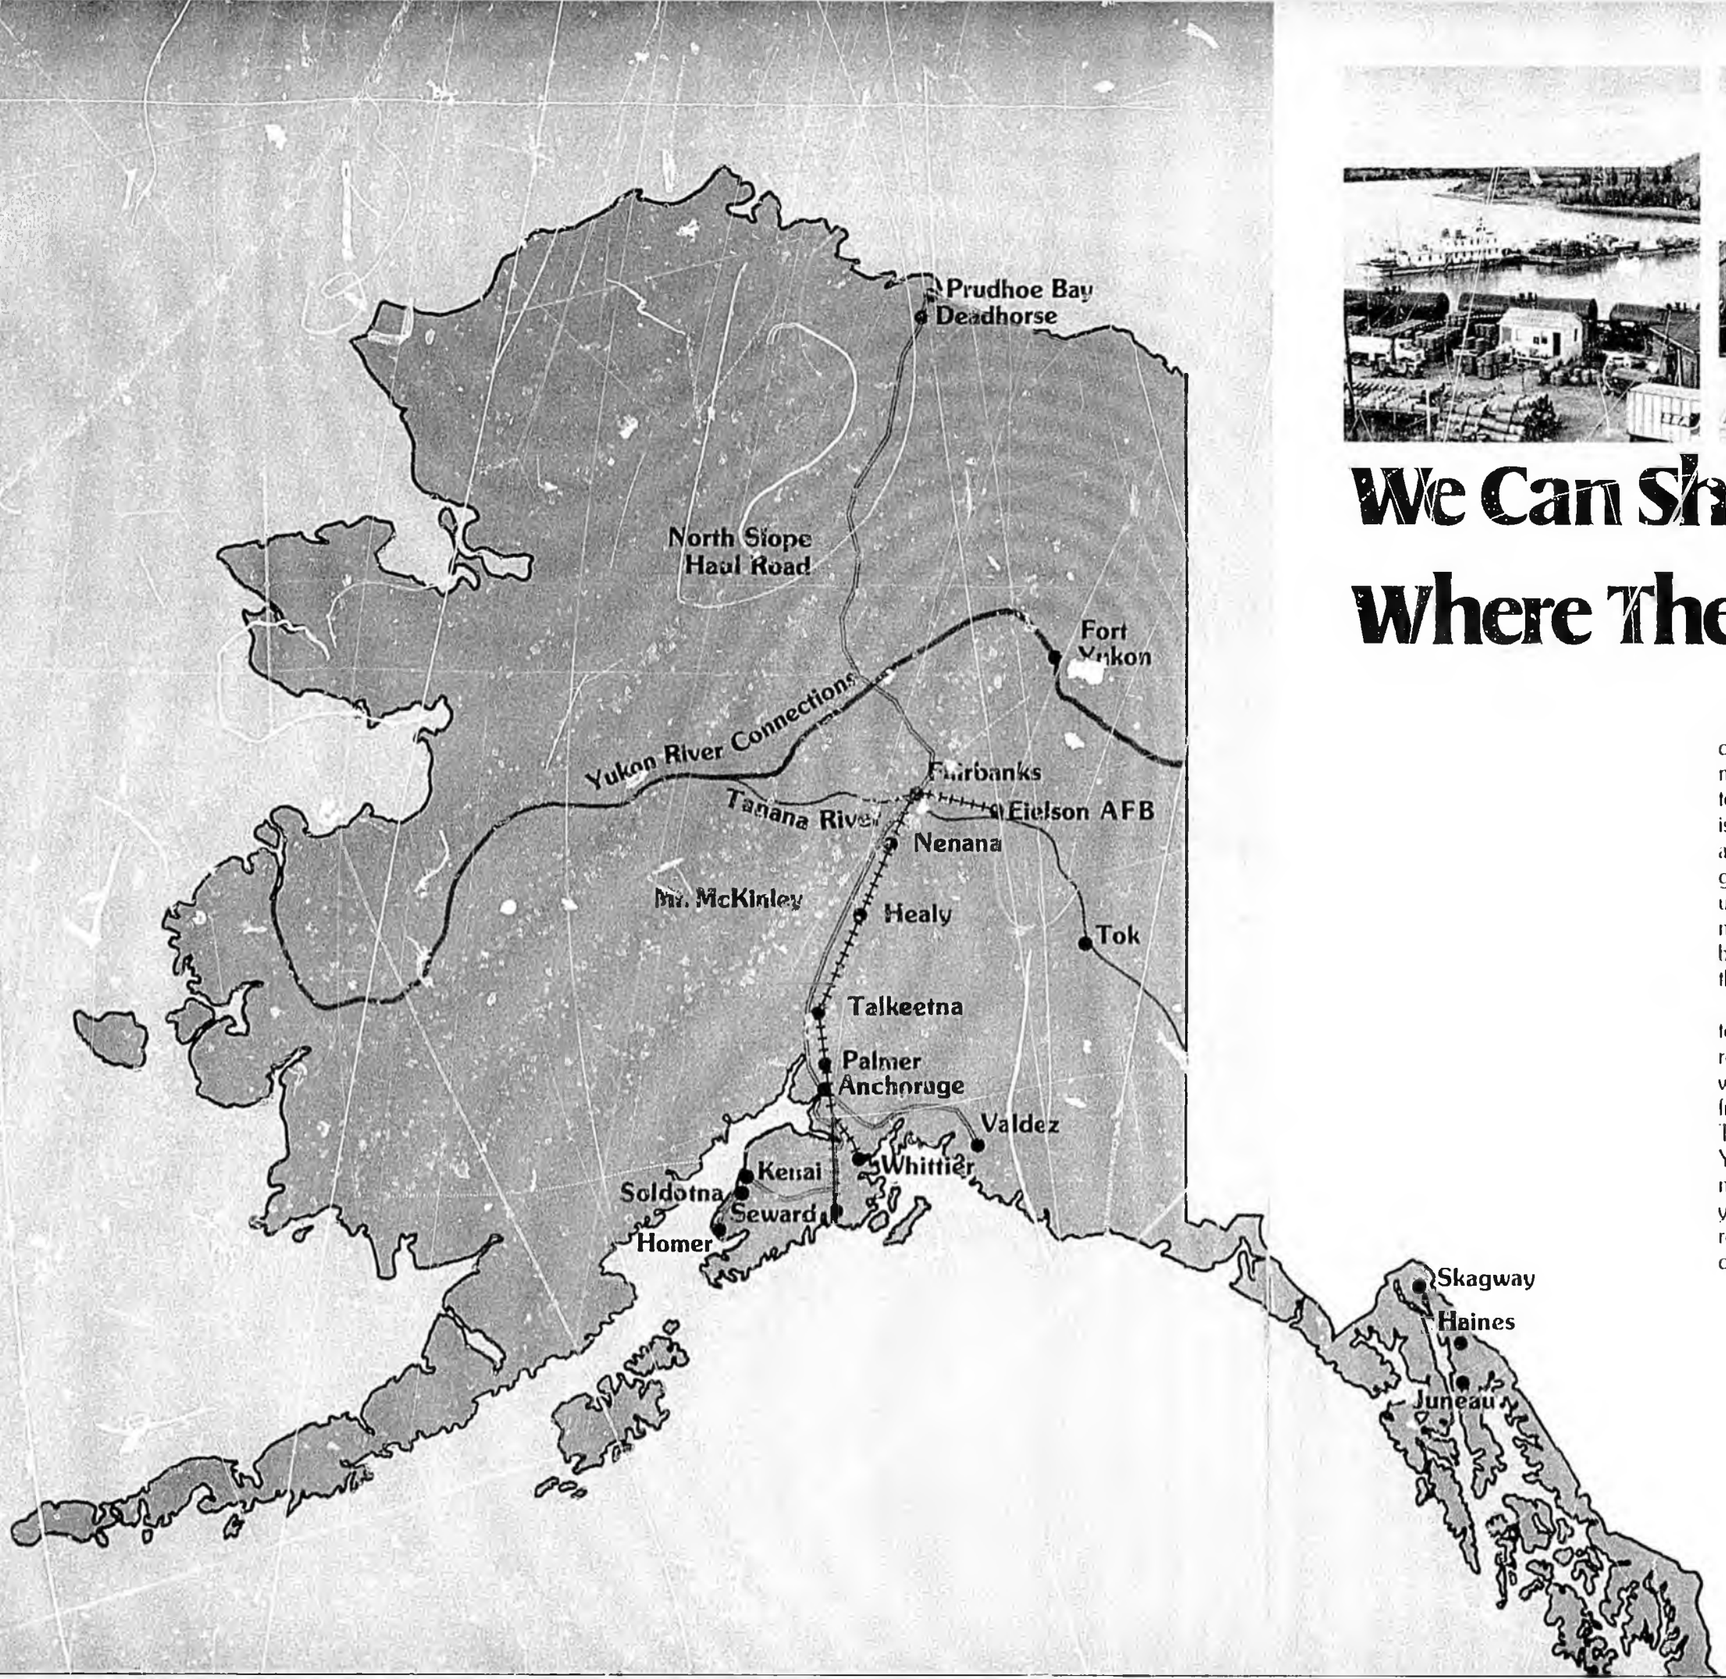


If you're shipping goods from Seattle to Fairbanks or beyond—in trailers on Totem Ocean Express, or in containers on Sea/Land—it costs less to "piggyback" those goods on The Alaska Railroad than it does to move them by highway transportation.



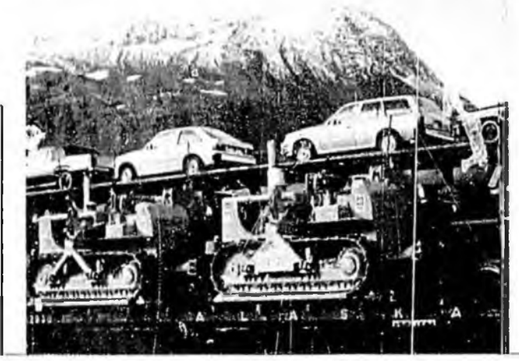
This far-reaching network works smoothly and effectively to bring those building materials, or that machinery, to Alaska in good time—and in good shape. We also have the potential to ship petrochemical products world-wide. In fact, we can ship almost anything, almost anywhere. And all you have to do to set the wheels in motion is be sure that The Alaska Railroad is specified on your bill of lading as your Alaskan carrier.





We Can Ship Your Freight Where The Rails Don't Run.

The area known as Interior Alaska covers thousands of square miles, much of it primitive wilderness; and its towns and settlements are often isolated by distance and terrain. But, although The Alaska Railroad itself goes no farther than Fairbanks, we utilize a combination of transportation modes—including motor carriers, river boats, and aircraft—to carry freight to the remote corners of the state.



Freight can be transferred at Nenana to river barges, which provide through routes and rate service in cooperation with The Alaska Railroad. This river freight service extends along the Tanana and Yukon Rivers to Fort Yukon, and even to Marshall, just 150 miles from the Bering Sea. So when you've got cargo destined for the bush, remember that The Alaska Railroad can take it there.

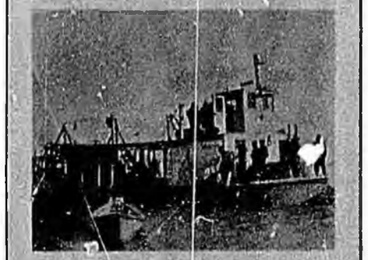
Yukon River Connections

Truck Connections to Prudhoe Bay Oilfields

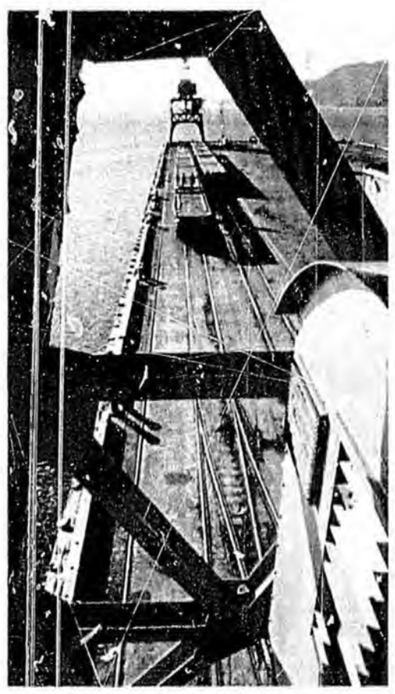
Vessel and Rail Barge Connections from Lower 48 and Canadian Ports

Rail Connections from Lower 48

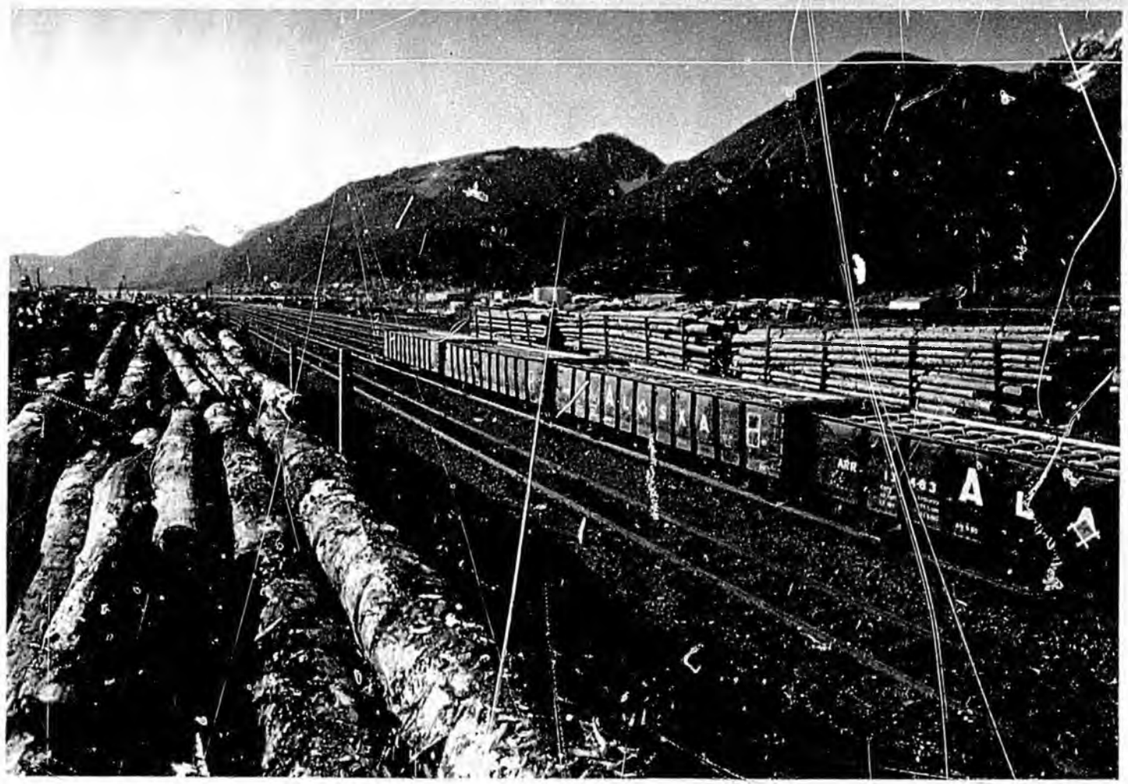
Domestic And Foreign Markets



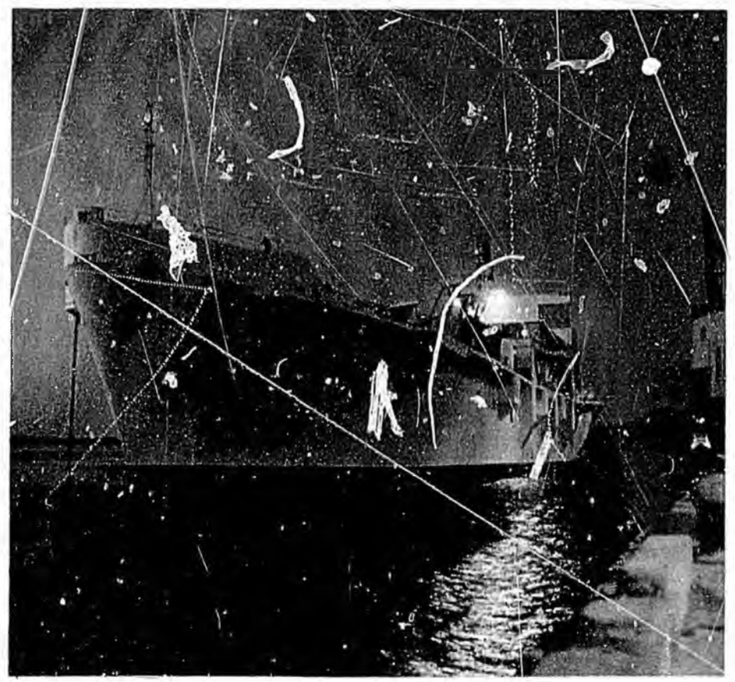
Over the past few years, we've begun to extend the reach of The Alaska Railroad to markets around the world. One key element of our system is our office in Seattle. Many shipping connections, both foreign and domestic, can be made through this office. For instance, if a broker in England requests that a shipment of canned Alaska salmon be delivered in Liverpool, arrangements can be made through the Seattle office. Shippers can ask for, and receive, almost any shipping arrangements they please--and they can call The Alaska Railroad in Seattle from anywhere in the United States, or the world.



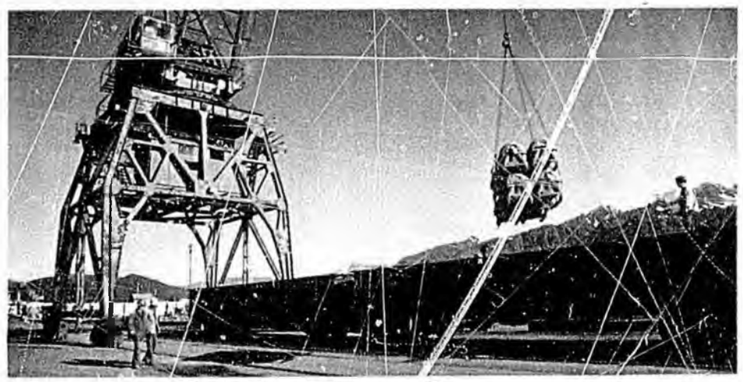
Today, we're shipping logs, wood chips, and scrap metal to Korea, Japan, and Taiwan; and have the capability to transport coal, grain, and other materials to any destination in the world. We've developed and maintained a position in foreign markets, and see them as an integral part of our future shipping network. And of course we're more than familiar with major domestic destinations. In addition, we have the flexibility to develop and expand facilities as required.

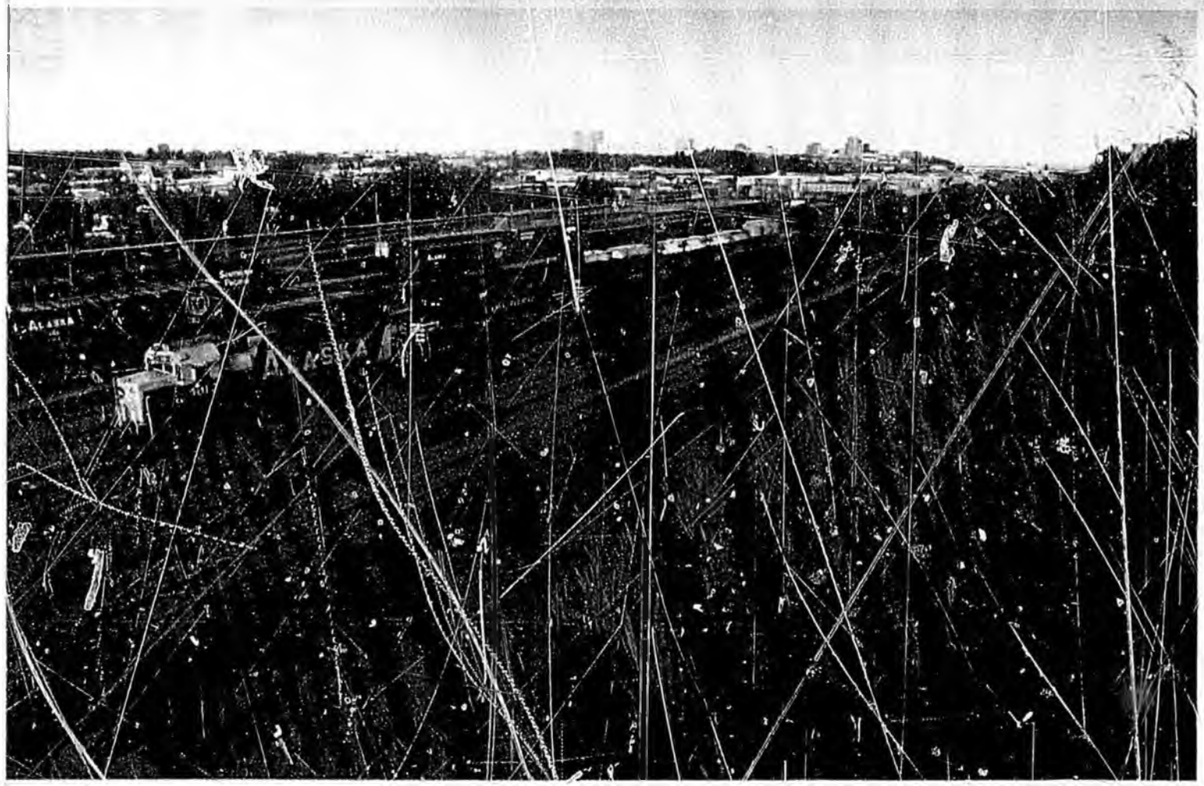


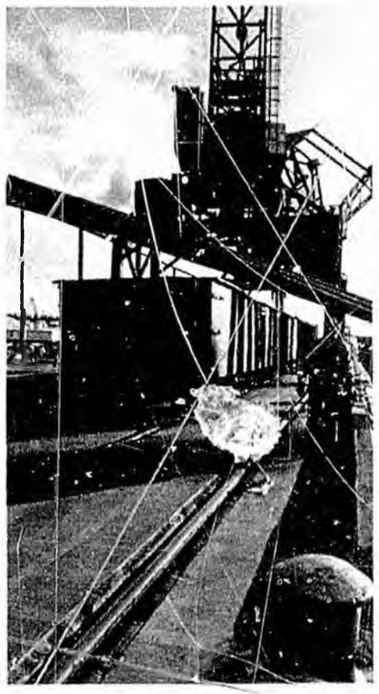
As Alaska grew, so did its railroad. Shipping goods to remote points became easier, less costly, and more effective. During World War II, the Railroad served as a vital supply link for the armed forces operating in Alaska.



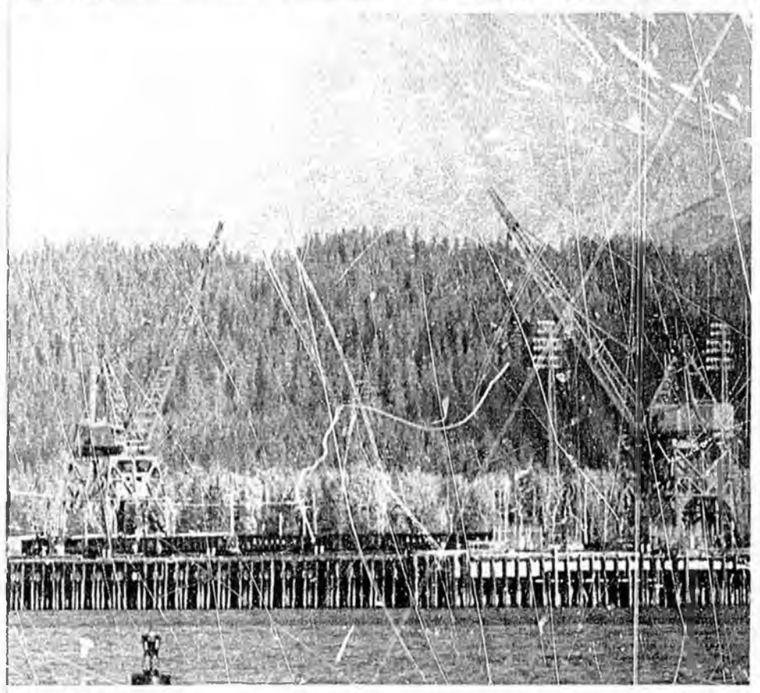
In May of 1962, the Railroad passed another milestone. Canadian National Railways initiated rail barge service from Prince Rupert, B.C., and, for the first time, the cars of other lines were rolling on Alaska Railroad tracks. Alaska Hydrotrain service from Seattle quickly followed; and today, freight from all over the continent—and the world—comes to Alaskans via The Alaska Railroad.



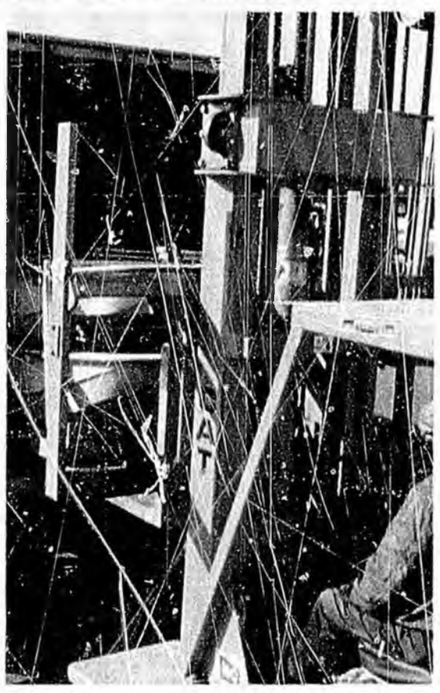




Special Equipment To Keep Freight Moving.



SEWARD FACILITIES

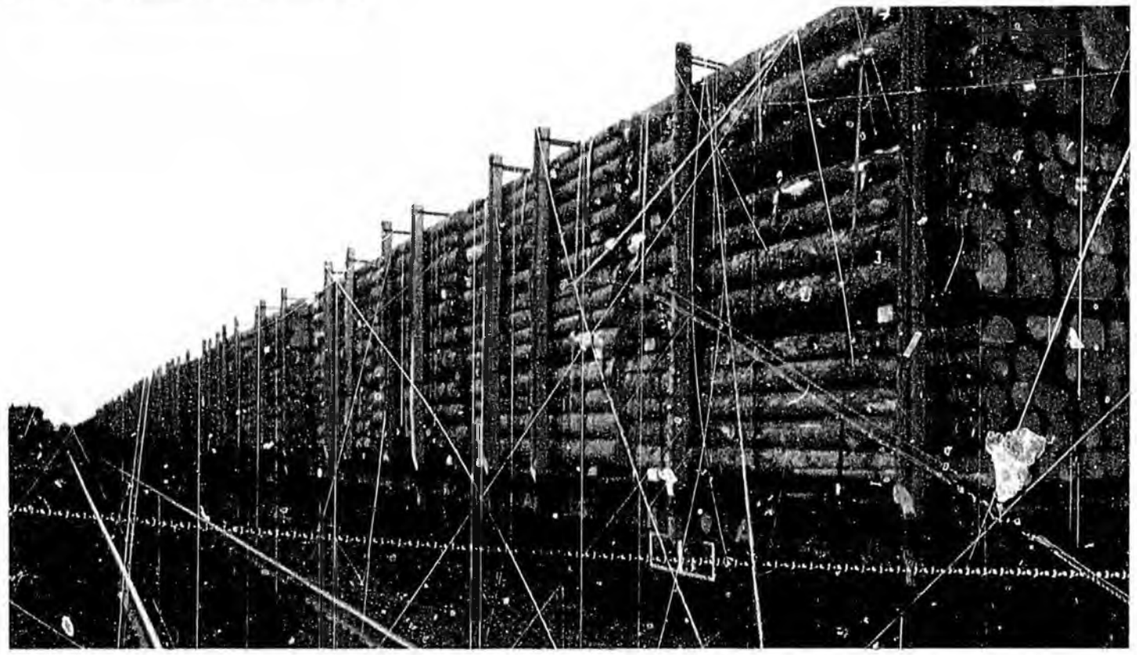


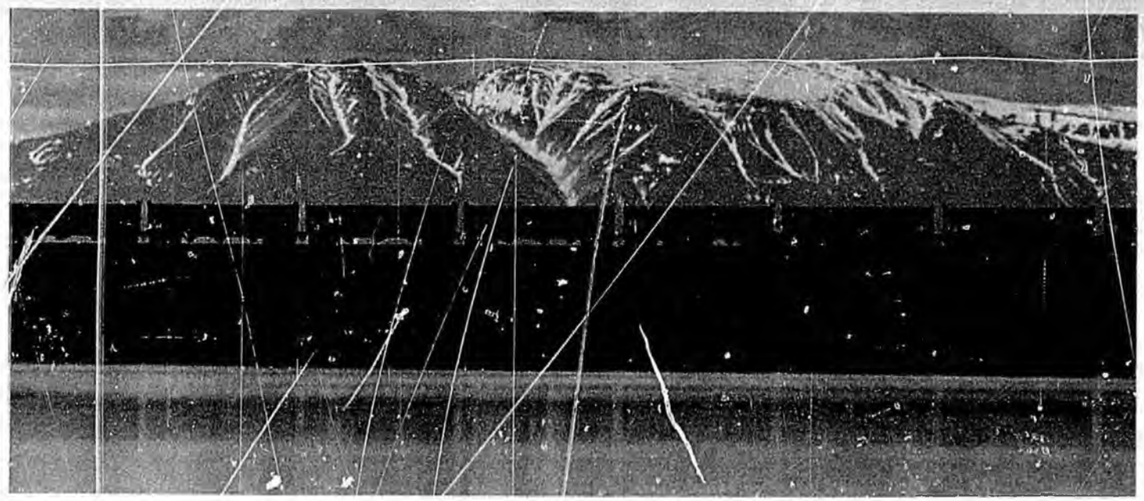
When you've got bulk freight to be shipped, we can handle it. Our freight bulk facilities in Seward include ample storage area, as well as crane facilities of up to 75 tons. Other cranes, as well as fork lifts and additional equipment, are available through The Alaska Railroad stevedoring contractor.

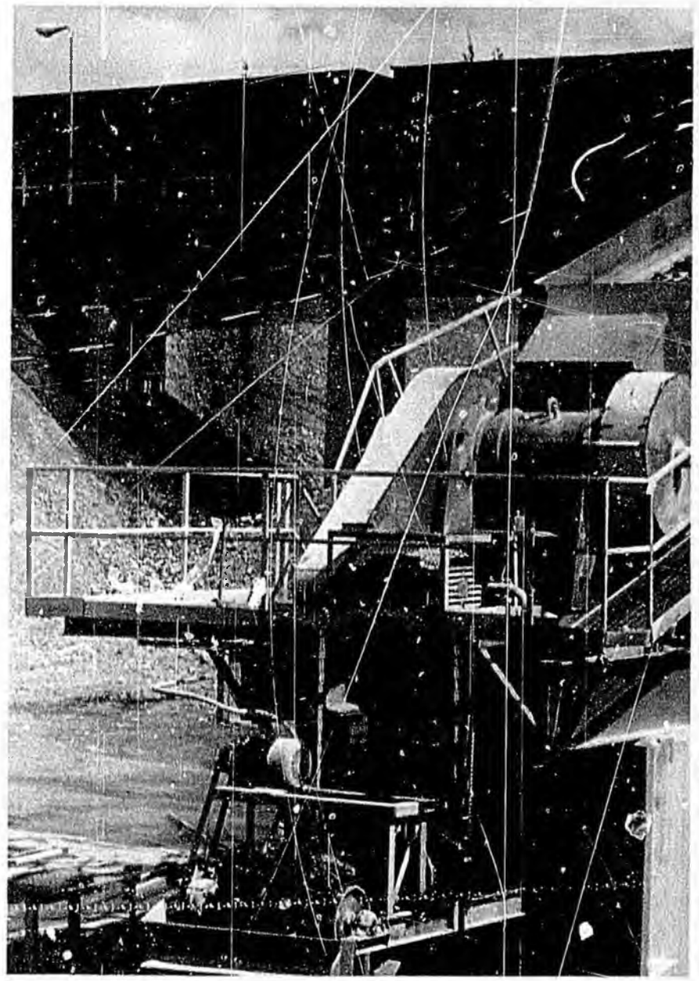
The Seward dock itself, owned by The Alaska Railroad, can accommodate ships up to 650 feet in length, with drafts of up to 35 feet. Storage accommodations available at the Seward terminal include over 23,000 square feet of covered area and 112,000 square feet of paved outside storage space, served by rail spur.

ANCHORAGE AND FAIRBANKS TERMINALS

Fast, efficient handling of freight is all in the day's work at The Alaska Railroad's Anchorage and Fairbanks terminal yards. Each is equipped with ample support equipment; including crawler and wheeled cranes, fork lifts, trucks, trailers, and tandem- and single-trailer chassis. Our transfer facilities in Fairbanks are capable of lifting 75 tons; those in Anchorage can lift 100 tons.



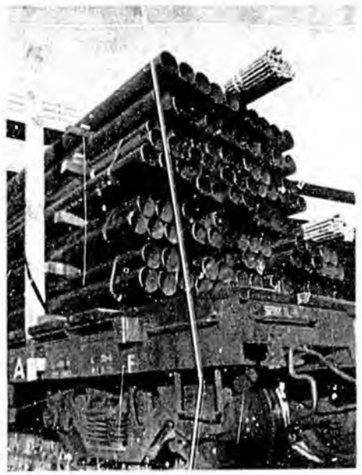


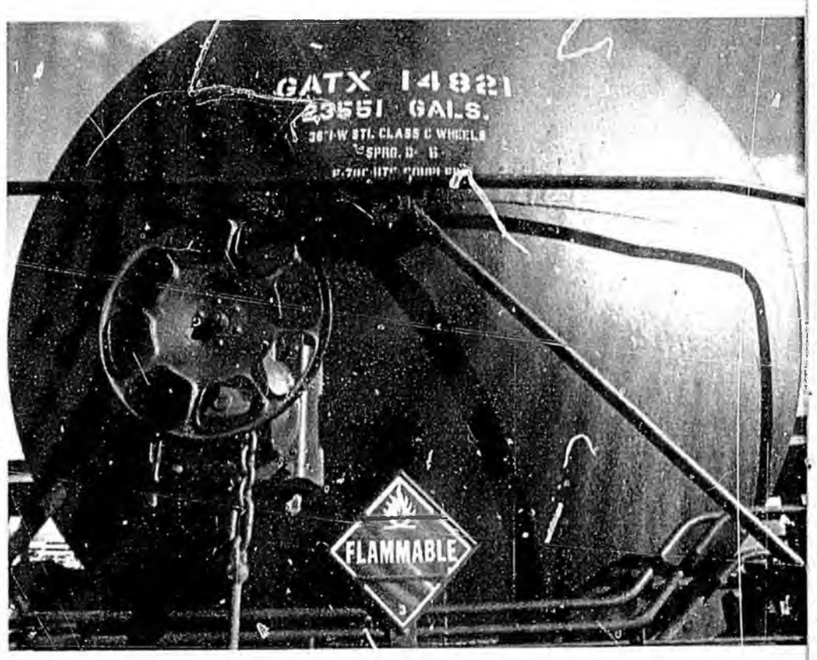


Unit Train Economy On The Alaska Railroad.

The Alaska Railroad also operates unit train service—single-commodity transport within Alaska. Unit trains devoted to the transportation of such bulk items as coal and gravel have become very popular with Alaskan shippers, and it's easy to see why.

When dealing with shipments as massive as 70 or 80 carloads of coal, or their equivalent, it makes sense to utilize simple, efficient rail transport. The Alaska Railroad can handle unit train shipments smoothly—saving time, trouble, and money for all the individual shippers, handlers, and consignees involved.

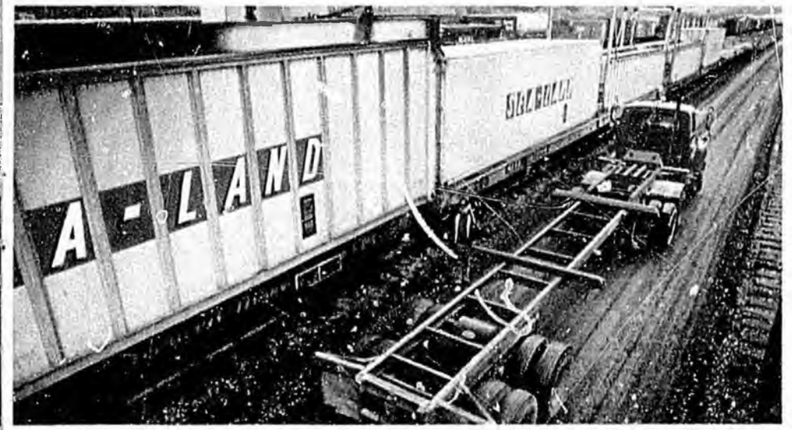




Specialized Shipping Needs Precision Handling.

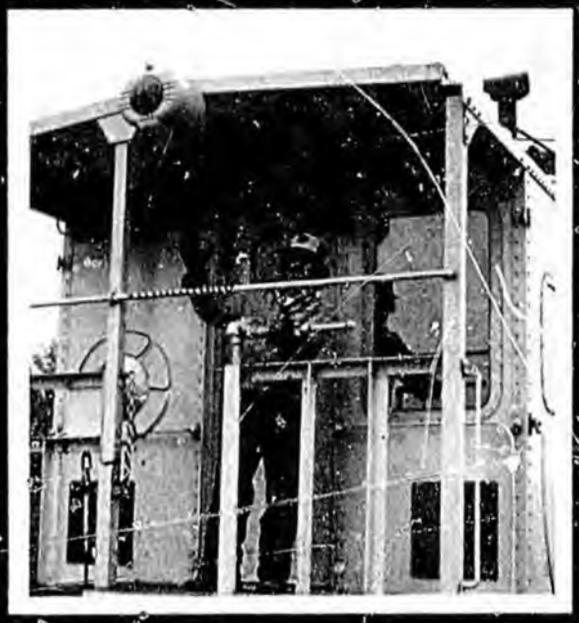
Much of the pipe used in construction of the Trans Alaska Pipeline was shipped north via The Alaska Railroad. To ensure the safe, undamaged arrival of the lengths of pipe, special equipment and handling techniques were developed and used.

The care displayed in this project is part of the standard procedure we follow for all clients of The Alaska Railroad.



Piggyback

The Alaska Railroad has all the facilities necessary to handle the shipment of both wheeled and unwheeled containers. When containerized goods arrive in Alaska by ship or barge, we can transfer the original containers to flatcars and expedite their shipment into the interior.



Climb Aboard.

When President Harding drove the final spike that completed The Alaska Railroad, it signified the beginning of a new era in Alaskan transportation.

Today, The Alaska Railroad is part of a vital shipping network linking the remotest points of Alaska with the rest of the state—and all of Alaska with the world.

Whether you're exporting logs to the Far East, importing fine wines from Europe, shipping bulk freight to Marshall, or just looking for a unique way to get close to the northern wilderness—you can do it all on The Alaska Railroad. So give us a call, and climb aboard.

HOUSE TRANSPORTATION COMMITTEE TO HOLD RAILROAD HEARINGS IN ANCHORAGE AND FAIRBANKS

JUNEAU - The House Transportation Committee will hold public hearings on House Bill 512 - a bill which would create an Alaska Railroad Corporation once the railroad is purchased by the State of Alaska - in Anchorage on Thursday, February 23 and in Fairbanks on Saturday, February 25.

The hearing in Anchorage will begin at 1:30 p.m. at the Legislative Information office at 1024 W. Sixth Avenue. The Fairbanks hearing will being at 10 a.m. at the Borough Assembly Chambers.

The bill was introduced in the House by Speaker Joe Hayes. A similar bill was introduced in the Senate by President Jay Kerttula.

(MORE)

Hayes, R-Anchorage, said input from Anchorage and Fairbanks will be essential for creating an operating entity by which to effectively manage the railroad.

"This bill is one of the final steps necessary to acquire the railroad from the federal government," Hayes said. "By establishing an entity to operate and manage it, it's my hope that the railroad can eventually be transferred to private enterprise. This bill sets up interim management until that becomes possible."

Hayes said HB 512 includes many of the issues addressed by the Alaska Railroad Transfer Advisory Commission, a public member group that presented recommendations to the legislature last years. The measure also embodies many of the concepts included in previous bills relating to the operation of the Alaska Railroad.

Committee members scheduled to attend the hearings are Rep. Bette Cato (D-Valdez), Rep. Mike W. Miller (R-North Pole), Rep. Mitch Abood (R-Anchorage), Rep. Adelheid Herrmann (D-Naknek), Rep. Jack McBride (D-Ketchikan), Rep. Mike Davis (D-Fairbanks), Rep. Bob Bettisworth (R-Fairbanks), Rep. Mike Szymanski (D-Anchorage), and Rep. Joe Flood (D-Anchorage).

Rep. Milo Fritz (R-Anchor Point) and committee staff members will also attend the hearings.

On Friday, February 24, the committee and staff will travel from Anchorage to Fairbanks on the railroad with Frank Jones, the general manager of the railroad.

(MORE)

"I would hope that the people of Anchorage and Fairbanks take this opportunity to voice their opinion on this bill," Cato said. "This is certainly one of the most important issues facing the Legislature this year and the Legislature will definitely take some action before adjourning. But before we act, we need to know how the people of Anchorage and Fairbanks feel about how the railroad should be operated and managed in future years.

"The railroad will play a vital role in the development of Alaska's resources and will also serve an important transportation service to the entire state for decades to come."

THE ALASKA RAILROAD - A STATUS REPORT
GIVEN AT THE ASCC ANNUAL CONVENTION IN SITKA, ALASKA, OCTOBER 1, 1983

BY JIM HARLE

GOOD MORNING:

I AM VERY PLEASED TO HAVE THIS OPPORTUNITY TO SPEAK TO MY FELLOW MEMBERS OF THE ALASKA STATE CHAMBER OF COMMERCE AND GUESTS. THIS MORNING I WOULD LIKE TO SHARE WITH YOU MY PERSONAL VIEWS ON AN ISSUE WHICH I BELIEVE WILL PLAY AN CONTINUING IMPORTANT ROLE IN THE DEVELOPMENT OF OUR GREAT STATE. THIS ISSUE IS THE TRANSFER AND OPERATION OF THE ALASKA RAILROAD.

THERE ARE THREE KEY CURRENT ELEMENTS INTERTWINED IN THIS ALASKA RAILROAD ISSUE WHICH I WOULD LIKE TO HIGHLIGHT FOR YOU TODAY. THESE ELEMENTS ARE AS FOLLOWS:

1. THE ALASKA RAILROAD TRANSFER ACT OF 1982
2. THE USRA RAILROAD CLOSING REPORT
3. THE STATE PURCHASE AND OPERATION OF THE ALASKA RAILROAD

THE ALASKA RAILROAD ACT OF 1982 IS THE FEDERAL LEGISLATION WHICH CREATES THE PROVISIONS OF THE TRANSFER OF THE RAILROAD FROM THE FEDERAL GOVERNMENT TO THE STATE OF ALASKA. THE KEY PROVISION OF THIS ACT, OF COURSE, IS THAT A FAIR MARKET VALUE IS TO BE ESTABLISHED FOR THE SALE OF THE RAILROAD NO LATER THAN OCTOBER 14, 1983. THIS VALUE IS TO BE DETERMINED BY THE U.S. RAILWAY ASSOCIATION, THE ARBITRATER SELECTED BY THE FEDERAL GOVERNMENT.

THE OTHER KEY PROVISION OF THE ACT IS THE PREPARATION OF THE CLOSING REPORT OR INVENTORY OF ALL ASSETS, PHYSICAL PLANT AND OBLIGATIONS OF THE RAILROAD. THIS CLOSING REPORT, WHICH WAS ISSUED ON JULY 14 OF THIS YEAR, WILL BE DISCUSSED IN MORE DETAIL A LITTLE LATER IN MY TALK.

AFTER ISSUANCE OF THE CLOSING REPORT, THE SECRETARY OF TRANSPORTATION HAS 12 MONTHS OR UNTIL JULY 14, 1984 TO CERTIFY ALASKAS AGREEMENT TO ALL CONDITIONS REQUIRED IN THE ACT. FIVE OF THE CONDITIONS OF THE ACT THAT ARE REQUIRED ARE HIGHLIGHTED AS FOLLOWS:

1. THE STATE MUST OPERATE THE RAILROAD AS A RAIL CARRIER UNDER ICC RULES.
2. THE STATE WILL PROVIDE FOR A TWO YEAR EMPLOYEE PROTECTION PROGRAM INCLUDING HEALTH AND LIFE INSURANCE AND REEMPLOYMENT RIGHTS.
3. PROVIDE FOR A ONE YEAR MANAGEMENT PROTECTION PROGRAM.
4. CONTINUE ALL COLLECTIVE BARGAINING AGREEMENTS FOR TWO YEARS.
5. PAY THE APPRAISED VALUE ESTABLISHED BY U.S.R.A.

SHOULD THE STATE NOT SATISFY THE CONDITIONS OF THE ACT, THE SECRETARY IS AUTHORIZED TO OTHERWISE DISPOSE OF THE RAILROAD IF SHE SO CHOOSES, GIVING PRIORITY TO A PURCHASER WHO WILL OPERATE THE RAILROAD.

IT IS INTERESTING TO THIS SPEAKER THAT THE FEDERAL LAW PROVIDES FOR LITTLE GUIDANCE SHOULD THE STATE LEGISLATURE DECIDE THAT THE VALUATION PRICE OF THE RAILROAD IS TOO LARGE. IN MY OPINION THIS IS AN ALL TOO REALISTIC POSSIBILITY.

SEVERAL STATE LEGISLATORS HAVE ALREADY BEEN HEARD TO SAY THAT "ANY PRICE FOR THE RAILROAD IS TOO HIGH". HOWEVER, I CAN JUST IMAGINE WHAT OUR FRIENDLY FEDERAL SENATOR FROM OHIO WILL SAY.

I WOULD PROPOSE THAT THE VALUATION OF $22.3 MILLION ANNOUNCED ON SEPTEMBER 21 BY U.S.R.A. IS AN EXTREMELY ATTRACTIVE PRICE WHICH SHOULD BE ACCEPTED BY GOVERNOR SHEFFIELD AND THE STATE LEGISLATURE.

THE SECOND ELEMENT, OF THIS RAILROAD ISSUE, IS THE CLOSING REPORT PREPARED BY THE U.S.R.A. AND JOINTLY SIGNED BY SECRETARY ELIZABETH DOLE AND GOVERNOR SHEFFIELD ON JULY 14, 1983. THE CLOSING REPORT IS ACTUALLY AN INVENTORY OF RAILROAD PROPERTY, ROLLING STOCK, AND LIABILITIES. TWO OF THE MOST OUTSTANDING ASSETS OF THE RAILROAD ARE ITS 700 EXPERIENCED EMPLOYEES AND ITS 41,000 ACRES OF LAND. THE 700 EMPLOYEES ARE MADE UP OF OVER 500 PERMANENT POSITIONS AND APPROXIMATELY 200 SEASONAL PERSONNEL WHO RECEIVED OVER $29 MILLION IN PAYROLL OUT OF TOTAL REVENUES OF $59 MILLION (49%). OR TO PUT THIS IN SIMPLER TERMS, THIS PAYROLL IS 49% OF REVENUE. THESE WAGES AND SALARIES ACTIVELY PARTICIPATE IN THE ALASKAN ECONOMY.

THE RAILROAD LANDS COMPRISE 41,000 ACRES OF LAND DISTRIBUTED THROUGHOUT THE RAILBELT AREA. THIS ACREAGE IS COMPRISED OF:

12,000 ACRES OF RIGHT-OF-WAY WHICH IS GENERALLY 200' WIDE.

29,000 ACRES OF MARINE AND RAIL TERMINALS, GRAVEL RESOURCES, INDUSTRIAL LEASES, MATERIAL AND ROCK RESERVES, ADMINISTRATION AREAS AND LAND FOR FUTURE DEVELOPMENT AND FACILITY EXPANSION.

1,000 ACREAS ARE UNDER LEASE TO BUSINESS PROVIDING $3 MILLION EACH YEAR IN REVENUES.

11,000 ACRES ARE ACTIVE GRAVEL AND ROCK QUARRIES.

10,000 ACRES DESIGNATED FOR FUTURE USE AND WATER SHED.

4,000 ACRES OR ABOUT 10% ARE SUBJECT TO CLAIMS BY NATIVE VILLAGES

THE LARGEST CLAIM UNDER THESE 4,000 ACRES IS AN 1,800 ACRE TRACT AT EAGLE RIVER.

THERE ARE THREE PRINCIPAL LIABILITIES OF THE RAILROAD:

FIRST, THE LONG TERM EMPLOYEE PENSION LIABILITIES WHICH ARE ESTIMATED AT $142 MILLION DOLLARS. THIS IS THE PRESENT VALUE OF THE TOTAL COSTS TO THE STATE-OWNED RAILROAD TO PAY BOTH THE PAST UNFUNDED RETIREMENT LIABILITIES AND TO PAY FUTURE RETIREMENT OBLIGATIONS. THIS LIABILITY WOULD EXIST EVEN IF THE RAILROAD WERE NOT TRANSFERRED TO THE STATE.

A SECOND PRINCIPAL LIABILITY IS THE AGE OF THE RAILROAD'S ROLLING STOCK. THE AVERAGE AGE OF THE FREIGHT CAR FLEET IS 30 YEARS AND THIS FLEET NUMBERS APPROXIMATELY 1,650 UNITS. THE LOCOMOTIVES, WHICH NUMBER 62 UNITS HAVE AN AVERAGE LIFE OF 14 YEARS, 15 OF THOSE LOCOMOTIVES ARE 3,000 HP UNITS BUILT BY GENERAL MOTORS BETWEEN 1975 AND 1978. ON THE OTHER HAND, LAST YEAR, 5 REBUILT UNITS WERE PURCHASED AND 4 NEW GENERAL MOTORS SUPER SERIES LOCOMOTIVES WERE TO ARRIVE BY THE END OF SEPTEMBER. THESE NEW ACQUISITIONS ARE COMPARABLE TO THE MOST MODERN EQUIPMENT ON ANY RAILROAD.

THE THIRD AND LAST PRINCIPAL LIABILITY IS THE AGE AND CONDITION OF THE RAILROAD'S BUILDINGS. MORE THAN 90% OF THE BUILDINGS ARE LOCATED AT ANCHORAGE, FAIRBANKS, WHITTIER, SEWARD AND HEALY. THESE STRUCTURES ARE USED FOR MAINTENANCE AND REPAIR OF EQUIPMENT; ADMINISTRATION; WAREHOUSING; SECTION HOUSES AND LIVING QUARTERS; TRANSIT SHEDS; AND TERMINAL FACILITIES. THESE FACILITIES ARE FROM 20 TO 25 YEARS OLD. AS YOU MIGHT IMAGINE, THE ALASKA RAILROAD, AS A FEDERAL AGENCY, HAS NOT BEEN SUBJECTED TO THE SAME HEALTH, SAFETY AND LOCAL BUILDING CODES THAT MIGHT APPLY TO NON-FEDERAL BUSINESS. TO BRING THESE

FACILITIES UP TO OSHA STANDARDS WOULD COST APPROXIMATELY $9.4 MILLION AND IT IS ESTIMATED TO BRING THESE STRUCTURES UP TO LOCAL BUILDING CODES MAY COST AS HIGH AS $50 MILLION DOLLARS.

IN A BUSINESS CASH FLOW SENSE, IT IS SOMEWHAT SATISFYING TO REALIZE THAT EACH OF THESE LIABILITIES IS A LONG TERM OBLIGATION. FOR INSTANCE, THERE IS NO IMMEDIATE NEED TO COMPLETELY REPLACE ALL RAIL FREIGHT UNITS, NOR WOULD IT BE PRUDENT TO INVEST $50 MILLION INTO UPGRADING THE EXISTING RAILROAD BUILDINGS. A WELL PLANNED CAPITAL IMPROVEMENT PROGRAM OVER A 10 TO 15 YEAR TERM SHOULD SATISFY ALL DEFICIENCIES.

THE PENSION OBLIGATION OF $142 MILLION IS A VERY LONG TERM OBLIGATION, BUT TO PUT THIS LIABILITY INTO PERSPECTIVE LET ME POINT OUT THAT IN 1982 THE ALASKA RAILROAD EMPLOYEES CONTRIBUTED $1-1/2 MILLION AS THEIR 7% CONTRIBUTION WHICH WAS MATCHED BY THEIR EMPLOYER CONTRIBUTING AN EQUAL 7% OF 1-1/2 MILLION DOLLARS. AS A POINT OF REFERENCE, EMPLOYEES OF THE STATE OF ALASKA CURRENTLY CONTRIBUTE 5% OF THEIR SALARIES TO RETIREMENT WHILE THE STATE TAXPAYERS CONTRIBUTE ANOTHER 12% TO THE STATE EMPLOYEE PENSION ACCOUNT.

MY ESTIMATE FOR THE ANNUAL CAPITAL REQUIRED TO SATISFY THESE THREE PRINCIPAL LIABILITIES SHOULD NOT EXCEED $18 MILLION.

LET ME GIVE YOU MY SNAPSHOT VIEW OF THE OVERWHELMING PLUSES OF THE ALASKA RAILROAD: THE RAILROAD IS A 520 MILE STANDARD GUAGE RAILROAD THAT OPERATES FROM TWO ICE FREE PORTS ON THE SOUTH, TO EIELSON AIR FORCE BASE ON THE EAST TO NENANA, WITH ITS ACCESS TO THE TANANA AND YUKON RIVERS ON THE WEST.

THE RAILROAD SERVICED 175,000 PASSENGERS IN 1983 AND EXPECTS TO SERVICE OVER 200,000 IN 1984. WHAT THE RAILROAD DOES BEST IS HAUL LARGE BULK QUANTITIES SUCH AS COAL, GRAVEL, HEAVY FREIGHT AND PIGGYBACKS. IN 1983 THE RAILROAD WILL HAVE HAULED 4 1/2 MILLION TONS OF GRAVEL, 650,000 TONS OF COAL AND HANDLED OVER 12,000 CARLOADS OF INTERLINE FREIGHT. THE BIGGEST PLUS IN FREIGHT HANDLING WILL BE ADDED NEXT YEAR WITH A 15 YEAR COAL HAULING CONTRACT WITH SUN-EEL. THIS CONTRACT WILL CALL FOR SHIPMENT OF 800,000 TONS OF COAL FROM HEALY TO SEWARD ADDING MORE THAN $10 MILLION OF REVENUE ANNUALLY AS WELL AS 40 TO 50 EMPLOYEES TO THE RAILROAD PAYROLL. THE WORLD CLASS COAL PORT AT SEWARD WILL BE ABLE TO HANDLE 4 MILLION TONS EACH YEAR FROM A LOCATION WHICH IS 1,100 MILES CLOSER THAN VANCOUVER, B.C. AND 1,850 MILES CLOSER THAN LONG BEACH TO FAR EAST MARKETS. I WOULD EXPECT THAT OTHER FOREIGN PURCHASERS WILL BE WATCHING THE SUCCESS OF THIS ENTERPRISE CLOSELY.

FOR THOSE PESSIMISTS WHO NEED FURTHER ENTICEMENT TO REALIZE A BARGAIN, THE RAILROAD OWNS 600 ACRES OF LAND BETWEEN GOVERNMENT HILL AND FIRST AVENUE IN ANCHORAGE, CONSERVATIVELY ESTIMATED TO BE WORTH 1 1/2 TO 2 MILLION DOLLARS PER ACRE. IN FAIRBANKS THE RAILROAD OWNS 300 ACRES OF SIMILARLY LOCATED LAND VALUED AT 1 MILLION DOLLARS PER ACRE.

THIS MARKETABLE LAND WOULD BE WORTH IN EXCESS OF 1.5 BILLION DOLLARS AFTER THE 5 YEAR WAITING PERIOD WHICH IS REQUIRED BY THE FEDERAL TRANSFER ACT. AND AS MY <u>LAST</u> OFFER TO THOSE INDIVIDUALS WHO BELIEVE WE PAY TO MUCH ALREADY TO THE FEDERAL GOVERNMENT; I SUBMIT THESE ARGUMENTS:

1. THE FEDERAL TRANSFER ACT LANGUAGE ALLOWS FOR THE SALE OF TAX FREE BONDS TO FINANCE THE RAILROAD, AND,
2. THE RAILROAD HAS ABSOLUTELY NO DEBT.

BEFORE I CLOSE, I WANT TO TELL YOU WHAT NEEDS TO BE ADDRESSED AFTER THE TRANSFER OF THE RAILROAD TO THE STATE. THE TREATMENT OF THIS ACTION WILL HAVE A MUCH MORE COST IMPACT THAN THE SALE OF THE RAILROAD. THE CRITICAL ACTION TO BE DETERMINED IN THE NEXT SESSION OF THE LEGISLATURE WILL BE HOW THE RAILROAD IS OPERATED AND WHO WILL MANAGE THE OPERATIONS.

THE ALASKA STATE CHAMBER OF COMMERCE IS ON RECORD IN BOTH PUBLIC TESTIMONY AND AT HEARINGS BEFORE VARIOUS LEGISLATIVE BODIES FOR THE CREATION OF AN ALASKAN RAILROAD AUTHORITY MADE UP OF 7 PUBLIC MEMBERS WHO WOULD DEVELOP THE POLICY UNDER WHICH THE RAILROAD WOULD OPERATE.

IT HAS BEEN PROPOSED THAT THIS RAILROAD AUTHORITY WOULD CONTRACT THE DAY-TO-DAY OPERATIONS OF RAILROAD, TO A PRIVATE OPERATOR WHO WOULD MANAGE THE RAILROAD ON A PROFIT INCENTIVE BASIS. YOUR CHAMBER HAS FURTHER PROPOSED THAT THE EXPANSION ACTIVITIES FOR RAILROAD GROWTH, BE RETAINED BY THE STATE DEPARTMENT OF TRANSPORTATION WHO WOULD BE RESPONSIBLE FOR THE PLANNING, DESIGN, CONSTRUCTION OF ALL NEW ROUTES. ONCE THESE ROUTES WERE COMPLETED THEY WOULD BE TURNED OVER TO THE CONTRACT OPERATOR FOR PUBLIC USE. WE FEEL THIS PROPOSAL IS MOST RESPONSIBLE TO THE PUBLIC GOOD AND WILL PREVENT BUREAUCRATIC STAGNATION AND PREVENT AN IMMEDIATE LARGE GROWTH OF STATE EMPLOYEES ON THE STATE'S BUDGET.

I BELIEVE IT IS VERY AUSPICIOUS THAT WE GATHERED HERE IN SITKA, TO DISCUSS THE PENDING TRANSFER AND SALE OF THE ALASKA RAILROAD. SITKA WAS THE CAPITAL AT THE TIME OF THE SALE OF ALASKA TO THE UNITED STATES FOR A PURCHASE PRICE OF $7.2 MILLION. SO FOR THOSE OF YOU WHO SEE THE FUTURE OF OUR GREAT STATE AS WILLIAM SEWARD ONCE DARED, I URGE YOU TO SPEAK YOUR OPINION AND LET YOUR VOICE BE HEARD IN SUPPORT OF YOUR STATE CHAMBER'S PROPOSAL ON THE TRANSFER AND OPERATION OF THE ALASKA RAILROAD.

THANK YOU.

Railroad Floor Action Due

The Alaska Railroad legislation may come before the state House this week, but little resolution of differences between the state administration and the House leadership are in sight. Differences involve difficult consitutional issues and feelings run strong on both sides. Compromise will probably have to come as a result of counting votes on the House floor, or later as differences between the House and Senate are hammered out.

In many respects differences focus on the consitutional amendment granting confirmation rights to the Legislature, now restricted to heads of departments and certain boards and commissions. However, HJR-72 goes a step farther and insulates the governor from any say in the selection of a chief executive officer. Constiututional amendments require a two-thirds vote in each body of the legislature, making passage of such issues difficult unless there is substantial consensus. However, the House leadership has a certain advantage tactically with the threat of possible inaction on the railroad issue. The issue is presently a House vs. Administration issue, but could become a House vs. Senate issue also.

5

LEGISLATIVE DIGEST 4-29-84

Illegal Use Telecommunications

The Senate has passed SB-504 prohibiting the unauthorized use of telecommunications. The bill would make theft of cable, subscription or pay television a crime of criminal mischief in the third degree, with the exception of interception of signals from a satellite by a home earth station or other device. Criminal mischief in the third degree is a class A misdemeanor punishable by up to one year in jail and a fine of up to $1,000.

Revision "Marital" Rape

The Senate Judiciary Committee is considering legislation concerning spousal defense of sexual assault. SB-528 would make marital rape a Class A felony punishable by a mandatory eight year jail sentence. The Committee is leaning towards reducing the penalty for a first time offense to a Class A misdemeanor, although chances of passage of any such legislation look dim this year.

Recriminalization Of "Pot"

HB-698, recriminalizing the use of marijuana passed out of House Judiciary last week and was given a further referral to House Finance.

Railroad report sent to Congress

Governor Bill Sheffield and U.S. Transportation Secretary Elizabeth Dole delivered to Congress and the Alaska Legislature on July 19 a report on the proposed transfer of the federally-owned Alaska Railroad to the state.

Sheffield said delivery of the transfer report is an important step forward in the decision process regarding possible transfer of the railroad. Main purpose of the report, which satisfies a key statutory provision of the transfer legislation passed last December by Congress, is to provide in-depth information about the assets and liabilities of the railroad and other transfer matters on which a decision can be based.

"Delivery of the transfer report in no way represents a commitment by the State of Alaska to proceed with acceptance of the transfer," Sheffield said.

"The next step will be an assessment by the United States Railway Association of the fair market value of the Alaska Railroad. These two reports will serve as the basis for deciding whether to proceed with the transfer.

"This report," Sheffield said, "provides detailed descriptions of the rail properties, assets, and liabilities of the Alaska Railroad that would be transferred to the State. Highlights of the report include specific employee protection obligations, parcel-by-parcel identification of all railroad land holdings, comprehensive lists involving personal property and all leases, permits, and contractual obligations, and a detailing of the valuation procedures.

"More refined information will be provided in the months ahead, especially pertaining to certain employee protection obligations, OSHA consideration and state and local building code violations, and a method of amendment is provided for as more exact information becomes available.

"My administration is committed to assuring that all of this information, in detail, is fully known by the start of the next legislative session when we, the people of Alaska, begin in-depth deliberations about this very important issue," Sheffield said.

"Many hundreds of hours of hard work by both state and federal personnel have made this a thorough and very useful document," Sheffield concluded as he thanked all of those involved in compiling it.

Fish spilled in accidents

Two semi trucks loaded with frozen fish went into the ditch July 24 in separate incidents, according to State Troopers. Both accidents were costly but neither caused serious injury.

At 7:40 a.m. a semi hauling frozen fish for Tachick Freight of Soldotna turned over at Mile 52, Sterling Highway with an estimated $75,000 loss. Driver Paul Miller, 22, of Anchorage, swerved to avoid a passing vehicle that nearly caused a head-on collision, but his truck overturned. he was not hurt.

At 5:12 the same evening a truck hauling 40,000 pounds of frozen fish to Anchorage overturned near Mile 50, Seward Highway, dumping part of its load. Operator David Berkelo, 22, of Anchorage, and passenger Gregory Hutson received minor injuries. Damage was estimated at $60,000.

Troopers noted that seat belts were not worn in either accident.

COMPREHENSIVE RISK MANAGEMENT PROGRAM

ALASKA RAILROAD

State of Alaska

Department of Administration

Division of Risk Management

November 23, 1983

I. Preface

This proposed Comprehensive Risk Management Program has been structured to provide the Alaska Railroad (ARR) with the broadest most comprehensive program at the lowest possible cost projections, on the basis of various assumptions.

The program design utilizes broadly written insurance protection in conjunction with acceptable levels of self-insured retentions. The concept is based upon spread of risk, real and personal and business interruption values and probable maximum loss studies. It includes aggressive marketing efforts in order to achieve the lowest premium cost projections.

These lower premium cost projections are achieved by using insurance markets and brokers presently protecting and handling other State risks. This approach maximizes economy of scale producing lower pricing than had separate risks been presented to different underwriters or different brokers.

It should also be noted that because of time constraints we have not had sufficient time to conduct detailed risk management exposure analyses and, therefore, had to make numerous assumptions. These assumptions have resulted in cost of risk allocations, which are projections, based on the limited information available to us at the time of this study.

However, given additional time, we could more accurately project the cost of risk.

II. Description by coverage lines of Cost of Risk Analysis including insurance limits of liability, self-insured retentions and premiums.

A. Casualty Insurance

The casualty insurance includes:

Comprehensive General Liability
Automobile Liability
Workers' Compensation/Employer's Liability
Errors and Omissions Liability Insurances
Railroad Protective Liability

The policy providing this insurance is a manuscripted warranty policy containing broad liability protection excess a self-insured retention.

Limits

The limit of liability is $200,000,000 each occurrence.

Self-Insured Retention (SIR)

The SIR is $300,000 per occurrence. This is for claims brought against the Alaska Railroad.

Premium

The premium for the casualty insurance is negotiated by State Risk Management on behalf of the ARR and allocates the appropriate premium to the ARR.

B. Property Insurance

The property insurance program includes:

All Risks Physical Damage Insurance, including Earthquake, Flood and Subsidence

Business Interruption Insurance

Extra Expense Insurance

The policy providing this insurance is a manuscripted warranty policy providing all risk of physical damage protection including the broad form of extended coverages. It is written on a "replacement amount" basis and would provide a $100,000,000 limit of protection for each occurrence without a co-insurance or contribution clause.

The business interruption insurance is manuscripted so as to include "gross earnings and profit" and extra expense.

Limits

The limit of protection is $100,000,000 each occurrence, with automatic reinstatement of the limit following an occurrence. This limit includes all insured perils - not separately for each peril.

Self-Insured Retention (SIR)

The SIR is $200,000 per occurrence for all perils except earthquake, flood and subsidence.

The earthquake, flood and subsidence retention is $650,000 each occurrence for losses within the Borough of Anchorage, and $300,000 per occurrence on losses outside the Borough of Anchorage.

Premium

The premium is based on the estimated real and personal property--rolling stock of ARR, foreign rolling stock of others, locomotives and engines, railroad track and railroad bedding and business interruption values. State Risk Management negotiates the premium rate and allocates the appropriate premium to the ARR.

C. Boiler and Machinery Insurance

The boiler and machinery insurance can be written with or without machinery breakdown coverage for the locomotives which would cover the drive engine, generators, motors and gear sets. We understand the large railroads generally totally self-insure for the machinery breakdown risk.

Because we have not had sufficient time to adequately analyze this risk, we have provided the following alternative boiler and machinery programs:

Alternative 1

Object Covered:

Boilers, Pressure Vessels, Motors, Generators, Internal Combustion Engines, Transformers and Electrical Switch Gear.

Also includes any object that utilizes, transmits or generates mechanical or electrical power or is a fired or unfired pressure vessel.

Deductible

$10,000 each accident.

Coverage

Insuring against any kind of accident which necessitates repair or replacement or shows evidence of damage.

Alternative 2

Objects Covered:

All of the above shown in Alternative 1, except for rolling stock (61 locomotives).

Deductible

$2,500 each accident.

Premium

The premium for boiler and machinery insurance is a function of size and value of the various locomotive equipment/objects, such as generators, engines, various pressure or non-pressure vessels and transformers, listed above.

The premium is negotiated by State Risk Management who allocates the appropriate premium to the ARR.

D. Marine Insurance

1. Cargo Coverage

All risk coverage or as required by ICC-ARR freight tariff 3095-A, page 44, section 1, Insurance.

Limit: $50,000 per railcar with higher limits available upon request.

Deductible: $500 per occurrence.

2. Cargo Legal Liability

Legal Liability covering railroads liability, if any for any trans-shipments.

Limit: $250,000 per railcar with higher limits available upon request.

Deductible: $500 per occurrence.

3. Owned Vessels

Hull and Machinery Limit: As required

Protection and Indemnity Limit: $200,000,000

SIR: $100,000 per occurrence.

4. Non-Owned Vessels

Hull and Machinery Limit: As required

Protection and Indemnity Limit: $200,000,000

SIR: $100,000 per occurrence.

Premium

State Risk Management negotiates the premium for these insurances and allocates the appropriate premium to the ARR.

Note: Cargo premiums would depend on gross receipts of the railroad and would vary from FY to FY. Any owned vessel coverage would be based on hull and machinery values.

E. Pollution Liability

Pollution liability resulting from bodily injury, property damage, and environmental damage claims caused by pollution incidents.

Limit

$20,000,000

Note: Higher limits can be arranged once a detailed inspection of the ARR operations has been completed.

Self-Insured Retention

The SIR is $50,000.

Premium

This premium can only be negotiated after a careful study is concluded of the railroad's operating procedures. Because we have not had the opportunity to conduct this study, our premium indication can only be considered at best a preliminary projection.

F. Automobile Physical Damage

Owned automobile physical damage is totally self-insured by the owner (State agency).

Leased and short-term rental vehicle claims are handled by Division of Risk Management.

G. Miscellaneous Insurance(s)

1. Employee Dishonesty

Coverage/Limits

Covers all employees' dishonest acts to a limit of $15,000,000. Deductible is $5,000.

There is a need for ARR to supply employee data to State Risk Management for this coverage on an annual basis.

Premium

The annual premium allocation is based on total number of employees, broken down by classification of duties.

2. Aviation Insurance

Coverage

This insurance is provided under the State program. It covers any ARR-owned and non-owned aircraft, i.e., those cases in which ARR may hire or charter aircraft for travel purposes or those cases in which ARR may hire an aircraft for photography or supply purposes.

Limit

The coverage and limit comes within the State's Broker's Warranty Policy of $200,000,000.

Self-Insured Retention

There is no allocation of the SIR of $300,000 to ARR because of the minimal exposure.

Premium

The premium allocation is nil annually and there is no underwriting information requirement in view of the minimal exposure.

3. Employee Business Travel Accident Insurance

Coverage

Employee business travel accident insurance is provided through State Risk Management. This provides protection to ARR employees on a 24-hour basis while traveling on behalf of ARR. This is 24 hour protection, meaning that recovery is available on a 24-hour basis, while in a hotel, business office, restaurant, etc. The employee need not be in an airplane, train or bus to recover for injuries or death.

The limit of protection is $75,000.

Premium

The premium allocation is based on an underwriting requirement to furnish employee data to Risk Management on an annual basis.

4. Excess of Aggregate Insurance

Is an additional type of excess coverage which limits the amount the State pays for a series (or accumulation) of losses in one year.

Premium

Negotiated with underwriters, based on detailed loss projections furnished by our actuarial contractor.

III. Other Expenses

Safety Engineering

A preliminary study of the existing safety function indicates a need for:

A. One more full-time employee
Total estimated cost: $40-50,000

B. Outside safety contractor to be used on special projects for a minimum of 520 hours @ $70 per hour = $36,400 + out of pocket expenses of $5,000.

Total estimated cost: $41,400

We have not included these additional costs in our cost of risk allocation.

IV. Administration

A. Introduction

The foregoing is a description of various insurances provided through the services of State Risk Management in conjunction with brokers for the ARR.

This is a separate Risk Management program designed specifically to meet the needs of ARR.

The above assumes that ARR is an instrumentality of the State which falls within the Division of Risk Management area of responsibility.

The Division of Risk Management has the responsibility to design and administrate the risk management program for the State. As a part of that responsibility it must negotiate the premiums for the various insurance programs, brokers fees and establish and fund the various levels of SIR. These responsibilities extend to the ARR.

Premiums for various insurance programs are allocated by Risk Management to the various departments and division of the State based upon a proportional assessment of risk. The premiums and SIR fund amounts are communicated by Risk Management annually in advance of the budgeting process and the forthcoming fiscal year. This process is called "Cost of Risk Allocation."

B. Cost of Risk Allocation

Premiums/SIR Funding for FY 85

The following are projections for FY 85; however, if the purchase of the ARR was effected during FY 84, pro rata distributions would have to be established.

Casualty insurance premiums are $150,000.00. This is an annual premium allocation to be paid.

Casualty insurance SIR fund is established at $1,250,000.00.

Total of $1,400,000.00. (Please note, this projected amount is based on Alaska Workers' Compensation benefits. There is a remote possibility that FECA/Workers' Compensation benefits may apply and we would have to adjust our projection upward.)

Property, Business Interruption, Extra Expense premiums are estimated to be $150,000.00 annually.

The SIR fund for this insurance is established at $400,000. This fund should be established as soon as possible, but in any event as of the date the ARR authorizes the institution of this program. The SIR fund is not pro-rated.

Total is $550,000.00.

C. Boiler and Machinery

The annual premium for FY 85

Alternative 1

$10,000 excluding rolling stock

Alternative 2

$215,000 including rolling stock for machinery breakdown coverage

The SIR fund for this insurance is established at $10,000 for Alternative 1.

This should be established as soon as possible, but in any event as of the date ARR authorizes the institution of this insurance. The SIR fund is not pro-rated.

Total Alternative 1 is $20,000; Alternative 2 total is $215,000.

D. Marine

The annual premium for FY 85 is $60,000.

Marine insurance SIR fund is established at $75,000.

E. Pollution Liability

The annual premium for FY 85 is $50,000.

Pollution liability insurance SIR fund is established at $50,000.

F. Miscellaneous Insurance(s)

The annual premium for FY 85 is $10,000.

Total $10,000.

No SIR fund allocations because of minimal exposure and/or the nature of the applicable insurance coverage.

G. Recap of Estimated FY 85 premiums and SIR fund contributions

Coverage	Premium	SIR	Total
Casualty	$150,000	$1,250,000	$1,400,000
Property	150,000	400,000	550,000
Boiler and Machinery (1)	10,000	10,000	20,000
Marine	60,000	75,000	135,000
Pollution Liability	50,000	50,000	100,000
Miscellaneous	10,000	-0-	10,000
Excess of Aggregate	100,000	-0-	100,000
Subtotal	$530,000	$1,785,000	$2,315,000
Administrative and Miscellaneous Expenses			250,000
Grand Total Risk Management Costs			$2,565,000
Additional to Include Boiler and Machinery Alternative 2	215,000	-0-	215,000
Grand Total Including Alternative 2	$745,000	$1,785,000	$2,780,000

H. ARR Insurance Financing

Since Risk Management's Budget has already been determined by the interagency billings for FY 85, it would be necessary for the ARR to allocate the insurance costs to a separate account to enable Risk Management to pay the insurance premiums and reserve for self-insured retention.*

In the future FY's the cost of risk can be allocated prior to budget and be included as an interagency billing under the normal RSA handling.

We would appreciate special note be taken that the SIR funding levels are only early preliminary projections which would need to be verified by our actuarial contractor. The ARR would be included as part of our Annual Aggregate (Stop Loss) which affords protection for the various funded SIR's (limits the amount the State pays for a series or accumulation of losses in one year) up to a limit of 10,000,000. This coverage is shared and affected by the SIR losses assumed by other State agencies. Therefore, there is no guarantee that full $10,000,000 would directly benefit the ARR.

*Risk Management would not be allowed any more overhead for FY 85.

MEMORANDUM

State of Alaska

DEPARTMENT OF NATURAL RESOURCES
DIVISION OF TECHNICAL SERVICES

TO: Stan McAlister, Staff Analyst
Alaska Railroad Transfer Team

DATE: November 21, 1983

FILE NO:

TELEPHONE NO: 786-2293

FROM: Warner T. "Bud" May
Deputy Director

SUBJECT: Proposed Budget FY'85 -
ARR Transfer Project

Reference your memo dated 11/2/83 and our telephone conversation this morning. Attached is a proposed budget for DTS's involvement in the ARR project. We will revise our budget accordingly. As you indicated and as I understand it, necessary funds, even if the dollar amount is not the same, will be RSA'd to DTS if DOT/PF is budgeted for the project in FY'85.

I also understand that the Division of Land & Water Management has indicated its needs to you in the amount of $47.0. I will follow up on your advice to see how DNR will coordinate the work requested of us both this fiscal year and next. I agree with you tnat DNR should have a single contact for the project.

Chief, Land Management

SUBJECT. Manpower Needs, ARR Transfer

In response to Mark Hickey's 11/2/83 memo regarding budget input for the Alaska Railroad Transfer item, it is certain that there will be a significant involvement by the Division of Land and Water Management in implementing the Railroad Transfer.

The involvement of the Division in the ARR Transfer will include activities related to:

1. Researching status of state land:

   (a) as replacement land for lands claimed under 3(e) of ANCSA;
   (b) that may be considered for an exchange for lands necessary for operation of the railroad;

2. Implementing any transfer of land to the entity that will operate the railroad;

3. Evaluating exchange proposals to achieve necessary lands for operation of the railroad;

4. Preparation of maps, plats and other material on affected lands;

5. Appraisals of materials and land considered for disposition; and

6. Other realty services involving state lands, materials, timber and minerals.

The following are estimated costs:

1.	Personal Services (1 NRO II, Anchorage, incl. benefits)	$40,800
2.	Travel (2 trips to Juneau @ $336 plus 2 days per diem @ $80)	1,416
3.	Contractual (Appraisals)	5,000
4.	Commodities (Maps, displats, plats, mylars, etc.)	500
	TOTAL	$47,716

MEMORANDUM State of Alaska

TO: Stan McAlister
Alaska Railroad Transfer Team
DOT-PF

DATE: November 10, 1983

FILE NO:

TELEPHONE NO: 465-4870

FROM: Bob Bacolas, Diector
Division of Labor Standards
and Safety
Department of Labor

SUBJECT: Budget Needs of Alaska
Department of Labor

Attached is a detailed budget of Alaska Department of Labor's needs in FY 1985 if we are to fully participate in the AAR Transfer Project.

The proposed budget would allow us to do an extensive survey of the Alaska Railroad's physical facilities and review the work practices currently employed by the railroad. This survey and review will determine renovations to facilities and changes in work procedures that will be necessary to bring the railroad into compliance with Alaska's Mechnical Inspection laws and regulations and federal and state occupational safety and health laws, regulations and standards.

Our budget calls for a full time safety consultant and a full time electrical inspector. The safety consultant would survey the railroad for occupational safety and health hazards and the electrical inspector would do a survey of the electrical systems. The one-day survey we conducted on the railroad's Anchorage facilities indicates that one of the most pressing needs is to determine what changes are necessary in the electrical systems of the existing facilities to bring these systems up to Alaska code.

We are also asking for 6-months Administrative Officer I and Clerk Typist III positions in order to assure that a comprehensive report will be prepared from the surveys conducted by the two technical specialists.

These positions will be supported by the rest of the technical staff in our division. We have on our staff specialists in pressure vessels, plumbing, cranes and occupational health. Also, we will provide administrative and management support. We currently envision this special projects team to be under the supervision of one of our Deputy Directors in order to assure that they are dedicated to this project.

If you have any questions, please call me.

RECEIVED
NOV 15 1983
DOT
COMMISSIONER'S OFFICE

02-001A (Rev. 10/79)

PROPOSED ADOL BUDGET
FOR ALASKA RAILROAD TRANSFER

Position required in FY 1985 for Alaska Department of Labor to survey Alaska Railroad to determine what is needed to bring it into compliance with state occupational safety and health and building codes:

1. Occupational Safety and Health Consultant, salary range 50B; Stationed in Anchorage; full-time position.

Personal Services	$41,906
Fringe Benefits	$12,177
Sub-total	$54,083

2. Electrical Inspection, salary range 50B; stationed in Anchorage; full-time position.

Personal Services	$41,906
Fringe Benefits	$12,177
Sub-total	$54,083

3. Administrative Officer I, salary range 17B; stationed in Anchorage; 6-month position.

Personal Services	$17,166
Fringe Benefits	$4,988
Sub-total	$22,154

4. Clerk Typist III, salary range 8B; stationed in Anchorage; 6-month position.

Personal Services	$9,588
Fringe Benefits	$2,786
Sub-total	$12,374

Total Personal Services: $142,694

Non-personal services required to survey Alaska railroad:

Travel: 6 trips each for Safety Consultant and Electrical Inspector to visit Alaska Railroad facilities in various communities.

Transportation	6 X 2 X $250 =	$3,000
Per Diem	6 X 2 X 4 days X $90 =	$4,320
Sub-total		$7,320

Out-of-state training for Safety Consultant and Electrical Inspector to receive instruction about railroad operations.

Transportation	2 X $2,500 =	$3,000
Per Diem	2 X 14 days X $80 =	$2,240
Sub-total		$5,240

Total Travel: $12,560

Contractual:

Telephone and postage	$9,000
* Lease cars (2)	9,000
Rent (350 sq. ft. X $1,125 per sq. ft.)	4,725
* Repairs to lease cars	500
Department of Labor's administrative support services (13.17% of salaries)	14,562
Tuition for railroad operations course	2,000
Total Contractual	$39,787

* If DOT-PF will provide vehicles for these employees, it will not be necessary to lease cars.

Supplies:

Scientific supplies	$1,500
Personal protective equipment (Respirators, safety shoes, ear plugs, goggles, etc.)	3,000
Office supplies	2,000
Total Supplies	$6,500

Equipment:

Industrial health sampling equipment - minimum required 2 dosemiters with calibrators $1,500 unit; 6 high velocity sampling pump $500 unit; 6 sipin MSA sampling pumps @ $500/unit; 1 carbon monoxide reometer @ $500/unit	$9,500
Memory Typewriter	$2,500
Total Equipment	$12,000

Total Non-personal Services: $70,847

GRANT TOTAL FOR ADOL: $213,541

Attachment F

MEMORANDUM State of Alaska

TO: Mark Hickey
State Railroad Coordinator
Department of Transportation & Public Facilities

DATE: March 21, 1984

FILE NO:

TELEPHONE NO:

FROM: Commissioner Lisa Rudd
Department of Administration

SUBJECT: Fiscal Note for CSSB 352

The items budgeted for this department in the fiscal note for CSSB 352 do not fund permanent increases in Department operations or staffing, and are not included in the Department's FY 85 budget. Rather, these costs relate to:

- tasks that must be completed prior to transfer to meet the requirements of the Alaska Railroad Transfer Act, and assure an orderly transition from federal to state ownership, and

- post-transfer effort to assist the Railroad Corporation during their start-up period.

Specific tasks are described below:

Retirement and Benefits Retirement and insurance benefits must be provided for railroad employees. There are specific Transfer Act requirements that must be met for transferring employees, and benefits must also be provided for new employees hired after the transfer. These systems must be in place on the date of transfer. The budget for this effort is primarily for actuarial consulting services needed to establish the new systems. The Division of Retirement and Benefits is coordinating this work. The Division of Retirement and Benefits will absorb this additional workload for coordination with consultants, and communications with employee representatives without increased personal services costs.

Labor Relations The Alaska Railroad has labor agreements with six separate bargaining units. Because these agreements are linked to the federal system (e.g. leave is accrued according to federal personnel regulations, and grievances are settled through the Federal Labor Relations Agency) alternate arrangements will have to be made prior to transfer. In addition, the Transfer Act requires that all of these contracts be renegotiated within two years after transfer. We expect to assist the Railroad Corporation with this process. This work will be done through contractual services and with one full-time employee in a limited term exempt position that was established for this specific purpose.

Liaison and start-up assistance Many of our divisions will be providing start-up assistance to the Railroad Corporation. For example, the Division of Risk Management will help them design their risk management program. Most of this assistance will be provided within the normal division activities and budgets. We have included some personal services costs in the fiscal note to cover the cost of non-permanent staff assistance that is directly related to the railroad transfer effort.

Records Transfer The work in this area involves two specific projects. First is a project to assure that the Railroad Corporation has copies of essential personnel records. The original personnel records remain federal property and will be transferred to the Federal Office of Personnel Management at transfer. The second project is to assure orderly cataloging and storage of archival records. We anticipate that both of these projects will be done on a contractual basis.

The budget for the impact that CSSB 352 will have on this Department in FY 85 is summarized below.

Personnal Services	One full-time exempt position and funding for non-permanent staff assistance.	$105,000
Travel	Travel directly related to transition effort.	45,000
Contractual	Actuarial (to set up retirement system, etc.) Liaison/ Coordination, Records Transfer.	185,000
Supplies	Misc.	2,400
	TOTAL	$ 337,400

APPENDIX I

Public Law No. 69—63d Congress

(S. 48)

An Act to authorize the President of the United States to locate, construct, and operate railroads in the Territory of Alaska, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States is hereby empowered, authorized, and directed to adopt and use a name by which to designate the railroad or railroads and properties to be located, owned, acquired, or operated under the authority of this Act; to employ such officers, agents, or agencies, in his discretion, as may be necessary to enable him to carry out the purposes of this Act; to authorize and require such officers, agents, or agencies to perform any or all of the duties imposed upon him by the terms of this Act; to detail and require any officer or officers in the Engineer Corps in the Army or Navy to perform service under this Act; to fix the compensation of all officers, agents, or employees appointed or designated by him; to designate and cause to be located a route or routes for a line or lines of railroad in the Territory of Alaska not to exceed in the aggregate one thousand miles, to be so located as to connect one

or more of the open Pacific Ocean harbors on the southern coast of Alaska with the navigable waters in the interior of Alaska, and with a coal field or fields so as best to aid in the development of the agricultural and mineral or other resources of Alaska, and the settlement of the public lands therein, and so as to provide transportation of coal for the Army and Navy, transportation of troops, arms, munitions of war, the mails, and for other governmental and public uses, and for the transportation of passengers and property; to construct and build a railroad or railroads along such route or routes as he may so designate and locate, with the necessary branch lines, feeders, sidings, switches, and spurs; to purchase or otherwise acquire all real and personal property necessary to carry out the purposes of this Act; to exercise the power of eminent domain in acquiring property for such use, which use is hereby declared to be a public use, by condemnation in the courts of Alaska in accordance with the laws now or hereafter in force there; to acquire rights of way, terminal grounds, and all other rights; to purchase or otherwise acquire all necessary equipment for the construction and operation of such railroad or railroads; to build or otherwise acquire docks, wharves, terminal facilities, and all structures needed for the equipment and operation of such railroad or railroads; to fix, change, or modify rates for the transportation of passengers and property, which rates shall be equal and uniform, but no free transportation or passes shall be permitted except that the provisions of the interstate commerce laws relating to the transportation of employees and their families shall be in force as to the lines constructed under this Act; to receive compensation for the transportation of passengers and property, and to perform generally all the usual duties of a common carrier by railroad; to make and establish rules and regulations for the control and operation of said railroad or railroads, or any portion thereof, including telegraph and telephone lines, after completion under such terms as he may deem proper, but no lease shall be for a longer period than twenty years, or in the event of failure to lease, to operate the same until the further action of Congress: *Provided,* That if said railroad or railroads, including telegraph and telephone lines, are leased under the authority herein given,

then and in that event they shall be operated under the jurisdiction and control of the provisions of the interstate commerce laws; to purchase, condemn, or otherwise acquire upon such terms as he may deem proper any other line or lines of railroad in Alaska which may be necessary to complete the construction of the line or lines of railroad designated or located by him: *Provided*, That the price to be paid in case of purchase shall in no case exceed the actual physical value of the railroad; to make contracts or agreements with any railroad or steamship company or vessel owner for joint transportation of passengers or property over the road or roads herein provided for, and such railroad or steamship line or by such vessel, and to make such other contracts as may be necessary to carry out any of the purposes of this Act; to utilize in carrying on the work herein provided for any and all machinery, equipment, instruments, material, and other property of any sort whatsoever used or acquired in connection with the construction of the Panama Canal, so far and as rapidly as the same is no longer needed at Panama, and the Isthmian Canal Commission is hereby authorized to deliver said property to such officers or persons as the President may designate, and to take credit therefor at such percentage of its original cost as the President may approve, but this amount shall not be charged against the fund provided for in this Act.

The authority herein granted shall include the power to construct, maintain, and operate telegraph and telephone lines so far as they may be necessary or convenient in the construction and operation of the railroad or railroads as herein authorized and they shall perform generally all the usual duties of telegraph and telephone lines for hire.

That it is the intent and purpose of Congress through this Act to authorize and empower the President of the United States, and he is hereby fully authorized and empowered, through such officers, agents, or agencies as he may appoint or employ, to do all necessary acts and things in addition to those specially authorized in this Act to enable him to accomplish the purposes and objects of this Act.

The President is hereby authorized to withdraw, locate, and

dispose of, under such rules and regulations as he may prescribe, such area or areas of the public domain along the line or lines of such proposed railroad or railroads for town site purposes as he may from time to time designate.

Terminal and station grounds and rights of way through the lands of the United States in the Territory of Alaska are hereby granted for the construction of railroads, telegraph and telephone lines authorized by this Act, and in all patents for lands hereafter taken up, entered, or located in the Territory of Alaska there shall be expressed that there is reserved to the United States a right of way for the construction of railroads, telegraph and telephone lines to the extent of one hundred feet on either side of the center line of any such road and twenty-five feet on either side of the center line of any such telegraph or telephone lines, and the President may, in such manner as he deems advisable, make reservation of such lands as are or may be useful for furnishing materials for construction and for stations, terminals, docks, and for such other purposes in connection with the construction and operation of such railroad lines as he may deem necessary and desirable.

Section 2. That the cost of the work authorized by this Act shall not exceed $35,000,000, and in executing the authority granted by this Act the President shall not expend nor obligate the United States to expend more than the said sum; and there is hereby appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $1,000,000 to be used for carrying out the provisions of this Act, to continue available until expended.

Section 3. That all moneys derived from the lease, sale, or disposal of any of the public lands, including townsites, in Alaska, or the coal or mineral therein contained, or the timber thereon, and the earnings of said railroad or railroads, together with the earning of the telegraph and telephone lines constructed under this Act, above maintenance charges and operating expenses, shall be paid into the Treasury of the United States as other miscellaneous receipts are paid, and a separate account thereof shall be kept and annually reported to Congress.

Section 4. That the officers, agents, or agencies placed in charge of the work by the President shall make to the President annually,

and at such other periods as may be required by the President or by either House of Congress, full and complete reports of all their acts and doings and of all moneys received and expended in the construction of said work and in the operation of said work or works and in the performance of their duties in connection therewith. The annual reports herein provided for shall be by the President transmitted to Congress.

Approved March 12, 1914

Public Law No. 232—84th Congress

(H.R. 3332)

An Act to amend section 1 of the Act of March 12, 1914.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the first sentence of section 1 of the Act of March 12, 1914 (38 Stat. 305), as amended (48 U.S.C., sec. 301), is amended by striking out "but no lease shall be for a longer period than twenty years," and inserting in lieu thereof "but no lease of such railroad or railroads shall be for a longer period than twenty years and no other lease authorized in this Act shall be for a longer period than fifty-five years."

Approved August 4, 1955

APPENDIX II

Executive Order No. 1

Alaska Railroad

By authority of an act entitled "An Act to authorize the President of the United States to locate, consruct, and operate railroads in the Territory of Alaska and for other purposes," I do now designate and cause to be located the following routes for lines of railroad in the Territory of Alaska:

For a main line of railroad—

Commencing at the town of Seward on the westerly shore of Resurrection Bay, Alaska: thence following along said westerly shore in a northerly direction to the head of said bay: thence following up the drainage of Salmon Creek to a summit between said drainag and the drainage of Snow River: thence following the drainage of Snow River to Kenai Lake: thence continuing northerly along the easterly shore of Kenai Lake, along Falls Creek, along the shores of Lower and Upper Trail Lake, and up Trail Creek to a summit in the Kenai Mountains near mile 45 from Seward: thence descending along the drainage of Placer River to the head of Turnagain Arm of Cook Inlet: thence following the northeasterly shore of said Turnagain Arm and crossing Portage Creek and Twenty Mile River to the mouth of Kern Creek near mile 71 from Seward: thence in a northwesterly direction along the shore of Turnagain Arm to near the mouth of Big Rabbit Creek: thence leaving Turnagain Arm and running northerly to a summit in section 26, Township 14 North, Range 3 West, Seward Meridian: thence running northeasterly to near the head of Knik Arm of Cook Inlet: thence running northerly across the flats at the head of said Arm and crossing Knik and Matanuska Rivers, to a point about two miles north of the Matanuska River: thence running in a westerly and northwesterly direction, crossing the little Susitna River and following along the south-

(c) Shall post the rates for public inspection and file them with the Interstate Commerce Commission.

Section 3. *Rates; Interstate Commerce Commission.* (a) In respect of rates filed with the Interstate Commerce Commission pursuant to the provisions of this order, the Commission may act, to the extent practicable, and subject to the limitations provided in subsection (b) of this section, in the same manner as though the railroad were subject to Sections 1(1)(a), 1(4), 1(5), 1(5½), 1(6), 6(3), 6(6), 6(9), 13(1), 13(2) (to the extent that it relates to action by the Interstate Commerce Commission on its own motion), 15 (except 15(12) and 15(14)), 15a, 202(c) (1), and 202(c)(2) of the Interstate Commerce Act, as amended.

(b) When determining the justness and reasonableness of rates or charges maintained, or from time to time proposed to be maintained by the railroad, the Interstate Commerce Commission shall exclude for valuation and cost finding purposes the portion of capital investment allocated to national public purposes by the Secretary of the Interior under Section 2(a) hereof, and such rates and charges shall not be deemed to be unjust or unreasonable by reason of failure to yield sufficient revenues to cover any amounts for taxes not actually required by law to be paid or provide a return on capital investment.

Section 4. *Transitional provisions.* (a) The issuance of this order shall not affect any action heretofore taken by the Secretary of the Interior or his representative until such action has been modified or revoked in accordance with the provisions of this order.

(b) As promptly after the date of this order as may be convenient, the Secretary of the Interior shall post for public inspection and file with the Interstate Commerce Commission rates as referred to in Section 2(c) of this order. The rates posted and filed under this subsection may be the rates in force on the date of this order, with or without subsequent changes or modifications, or new rates.

This order supersedes Executive Order No. 3861 of June 8, 1923, and shall be codified for inclusion in the Code of Federal Regulations.

(2) a person who is able to assure that adequate transportation will be provided over a substantial portion of the feeder line described in subsection (a) of this section for a period of not less than 3 years; or

(3) any combination of members of the classes of applicants described in paragraphs (1) and (2) of this subsection.

Alaska Railroad Transfer Act of 1982.

TITLE VI—ALASKA RAILROAD TRANSFER

SHORT TITLE

45 USC 1201 note.

SEC. 601. This title may be cited as the "Alaska Railroad Transfer Act of 1982".

FINDINGS

45 USC 1201.

SEC. 602. The Congress finds that—

(1) the Alaska Railroad, which was built by the Federal Government to serve the transportation and development needs of the Territory of Alaska, presently is providing freight and passenger services that primarily benefit residents and businesses in the State of Alaska;

(2) many communities and individuals in Alaska are wholly or substantially dependent on the Alaska Railroad for freight and passenger service and provision of such service is an essential governmental function;

(3) continuation of services of the Alaska Railroad and the opportunity for future expansion of those services are necessary to achieve Federal, State, and private objectives; however, continued Federal control and financial support are no longer necessary to accomplish these objectives;

(4) the transfer of the Alaska Railroad and provision for its operation by the State in the manner contemplated by this title is made pursuant to the Federal goal and ongoing program of transferring appropriate activities to the States;

(5) the State's continued operation of the Alaska Railroad following the transfer contemplated by this title, together with such expansion of the railroad as may be necessary or convenient in the future, will constitute an appropriate public use of the rail system and associated properties, will provide an essential governmental service, and will promote the general welfare of Alaska's residents and visitors; and

(6) in order to give the State government the ability to determine the Alaska Railroad's role in serving the State's transportation needs in the future, including the opportunity to extend rail service, and to provide a savings to the Federal Government, the Federal Government should offer to transfer the railroad to the State, in accordance with the provisions of this title, in the same manner in which other Federal transportation functions (including highways and airports) have been transferred since Alaska became a State in 1959.

DEFINITIONS

45 USC 1202.

SEC. 603. As used in this title, the term—

(1) "Alaska Railroad" means the agency of the United States Government that is operated by the Department of Transportation as a rail carrier in Alaska under authority of the Act of

March 12, 1914 (43 U.S.C. 975 et seq.) (popularly referred to as the "Alaska Railroad Act") and section 6(i) of the Department of Transportation Act (49 U.S.C. 1655(i)), or, as the context requires, the railroad operated by that agency;

Definitions

(2) "Alaska Railroad Revolving Fund" means the public enterprise fund maintained by the Department of the Treasury into which revenues of the Alaska Railroad and appropriations for the Alaska Railroad are deposited, and from which funds are expended for Alaska Railroad operation, maintenance and construction work authorized by law;

(3) "claim of valid existing rights" means any claim to the rail properties of the Alaska Railroad on record in the Department of the Interior as of the day before the date of enactment of this Act;

(4) "date of transfer" means the date on which the Secretary delivers to the State the four documents referred to in section 604(b)(1) of this title;

(5) "employees" means all permanent personnel employed by the Alaska Railroad on the date of transfer, including the officers of the Alaska Railroad, unless otherwise indicated in this title;

(6) "exclusive-use easement" means an easement which affords to the easement holder the following:

(A) the exclusive right to use, possess, and enjoy the surface estate of the land subject to this easement for transportation, communication, and transmission purposes and for support functions associated with such purposes;

(B) the right to use so much of the subsurface estate of the lands subject to this easement as is necessary for the transportation, communication, and transmission purposes and associated support functions for which the surface of such lands is used;

(C) subjacent and lateral support of the lands subject to the easement; and

(D) the right (in the easement holder's discretion) to fence all or part of the lands subject to this easement and to affix track, fixtures, and structures to such lands and to exclude other persons from all or part of such lands;

(7) "Native Corporation" has the same meaning as such term has under section 102(6) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3102(6));

(8) "officers of the Alaska Railroad" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager; Assistant General Manager; Assistant to the General Manager; Chief of Administration; and Chief Counsel;

(9) "public lands" has the same meaning as such term has under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e));

(10) "rail properties of the Alaska Railroad" means all right, title, and interest of the United States to lands, buildings, facilities, machinery, equipment, supplies, records, rolling stock, trade names, accounts receivable, goodwill, and other real and personal property, both tangible and intangible, in which there is an interest reserved, withdrawn, appropriated, owned, administered or otherwise held or validly claimed for the Alaska Railroad by the United States or any agency or instrumentality

thereof as of the date of enactment of this Act, but excluding any such properties disposed of, and including any such properties acquired, in the ordinary course of business after that date but before the date of transfer, and also including the exclusive-use easement within the Denali National Park and Preserve conveyed to the State pursuant to this title and also excluding the following:

(A) the unexercised reservation to the United States for future rights-of-way required in all patents for land taken up, entered, or located in Alaska, as provided by the Act of March 12, 1914 (43 U.S.C. 975 et seq.);

(B) the right of the United States to exercise the power of eminent domain;

(C) any moneys in the Alaska Railroad Revolving Fund which the Secretary demonstrates, in consultation with the State, are unobligated funds appropriated from general tax revenues or are needed to satisfy obligations incurred by the United States in connection with the operation of the Alaska Railroad which would have been paid from such Fund but for this title and which are not assumed by the State pursuant to this title;

(D) any personal property which the Secretary demonstrates, in consultation with the State, prior to the date of transfer under section 604 of this title, to be necessary to carry out functions of the United States after the date of transfer; and

(E) any lands or interest therein (except as specified in this title) within the boundaries of the Denali National Park and Preserve;

(11) "right-of-way" means, except as used in section 609 of this title—

(A) an area extending not less than one hundred feet on both sides of the center line of any main line or branch line of the Alaska Railroad; or

(B) an area extending on both sides of the center line of any main line or branch line of the Alaska Railroad appropriated or retained by or for the Alaska Railroad that, as a result of military jurisdiction over, or non-Federal ownership of, lands abutting the main line or branch line, is of a width less than that described in subparagraph (A) of this paragraph;

(12) "Secretary" means the Secretary of Transportation;

(13) "State" means the State of Alaska or the State-owned railroad, as the context requires;

(14) "State-owned railroad" means the authority, agency, corporation or other entity which the State of Alaska designates or contracts with to own, operate or manage the rail properties of the Alaska Railroad or, as the context requires, the railroad owned, operated, or managed by such authority, agency, corporation, or other entity; and

(15) "Village Corporation" has the same meaning as such term has under section 3(j) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(j)).

TRANSFER AUTHORIZATION

SEC. 604. (a) Subject to the provisions of this title, the United States, through the Secretary, shall transfer all rail properties of the Alaska Railroad to the State. Such transfer shall occur as soon as practicable after the Secretary has made the certifications required by subsection (d) of this section and shall be accomplished in the manner specified in subsection (b) of this section. 45 USC 1203.

(b)(1) On the date of transfer, the Secretary shall simultaneously:

(A) deliver to the State a bill of sale conveying title to all rail properties of the Alaska Railroad except any interest in real property;

(B) deliver to the State an interim conveyance of the rail properties of the Alaska Railroad that are not conveyed pursuant to subparagraph (A) of this paragraph and are not subject to unresolved claims of valid existing rights;

(C) deliver to the State an exclusive license granting the State the right to use all rail properties of the Alaska Railroad not conveyed pursuant to subparagraphs (A) or (B) of this paragraph pending conveyances in accordance with the review and settlement or final administrative adjudication of claims of valid existing rights;

(D) convey to the State a deed granting the State (i) an exclusive-use easement for that portion of the right-of-way of the Alaska Railroad within the Denali National Park and Preserve extending not less than one hundred feet on either side of the main or branch line tracks, and eight feet on either side of the centerline of the "Y" track connecting the main line of the railroad to the power station at McKinley Park Station and (ii) title to railroad-related improvements within such right-of-way.

Prior to taking the action specified in subparagraphs (A) through (D) of this paragraph, the Secretary shall consult with the Secretary of the Interior. The exclusive-use easement granted pursuant to subparagraph (D) of this paragraph and all rights afforded by such easement shall be exercised only for railroad purposes, and for such other transportation, transmission, or communication purposes for which lands subject to such easement were utilized as of the date of enactment of this Act. In the event of reversion to the United States, pursuant to section 610 of this title, of the State's interests in all or part of the lands subject to such easement, such easement shall terminate with respect to the lands subject to such reversion, and no new exclusive-use easement with respect to such reverted lands shall be granted except by Act of Congress.

(2) The Secretary shall deliver to the State an interim conveyance of rail properties of the Alaska Railroad described in paragraph (1)(C) of this subsection that become available for conveyance to the State after the date of transfer as a result of settlement, relinquishment, or final administrative adjudication pursuant to section 606 of this title. Where the rail properties to be conveyed pursuant to this paragraph are surveyed at the time they become available for conveyance to the State, the Secretary shall deliver a patent therefor in lieu of an interim conveyance.

(3) The force and effect of an interim conveyance made pursuant to paragraphs (1)(B) or (2) of this subsection shall be to convey to and vest in the State exactly the same right, title, and interest in and to the rail properties identified therein as the State would have received had it been issued a patent by the United States. The

Secretary of the Interior shall survey the land conveyed by an interim conveyance to the State pursuant to paragraphs (1)(B) or (2) of this subsection and, upon completion of the survey, the Secretary shall issue a patent therefor.

(4) The license granted pursuant to paragraph (1)(C) of this subsection shall authorize the State to use, occupy, and directly receive all benefits of the rail properties described in the license for the operation of the State-owned railroad in conformity with the Memorandum of Understanding referred to in section 606(b)(3) of this title. The license shall be exclusive, subject only to valid leases, permits, and other instruments issued before the date of transfer and easements reserved pursuant to subsection (c)(2) of this section. With respect to any parcel conveyed pursuant to this title, the license shall terminate upon conveyance of such parcel.

(c)(1) Interim conveyances and patents issued to the State pursuant to subsection (b) of this section shall confirm, convey and vest in the State all reservations to the United States (whether or not expressed in a particular patent or document of title), except the unexercised reservations to the United States for future rights-of-way made or required by the first section of the Act of March 12, 1914 (43 U.S.C. 975d). The conveyance to the State of such reservations shall not be affected by the repeal of such Act under section 615 of this title.

(2) In the license granted under subsection (b)(1)(C) of this section and in all conveyances made to the State under this title, there shall be reserved to the Secretary of the Interior, the Secretary of Defense and the Secretary of Agriculture, as appropriate, existing easements for administration (including agency transportation and utility purposes) that are identified in the report required by section 605(a) of this title. The appropriate Secretary may obtain, only after consent of the State, such future easements as are necessary for administration. Existing and future easements and use of such easements shall not interfere with operations and support functions of the State-owned railroad.

(3) There shall be reserved to the Secretary of the Interior the right to use and occupy, without compensation, five thousand square feet of land at Talkeetna, Alaska, as described in ARR lease numbered 69-25-0303-5165 for National Park Service administrative activities, so long as the use or occupation does not interfere with the operation of the State-owned railroad. This reservation shall be effective on the date of transfer under this section or the expiration date of such lease, whichever is later.

(d)(1) Prior to the date of transfer, the Secretary shall certify that the State has agreed to operate the railroad as a rail carrier in intrastate and interstate commerce.

(2)(A) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to assume all rights, liabilities, and obligations of the Alaska Railroad on the date of transfer, including leases, permits, licenses, contracts, agreements, claims, tariffs, accounts receivable, and accounts payable, except as otherwise provided by this title.

(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the United States shall be solely responsible for—

(i) all claims and causes of action against the Alaska Railroad that accrue on or before the date of transfer, regardless of the date on which legal proceedings asserting such claims were or may be filed, except that the United States shall, in the case of

any tort claim, only be responsible for any such claim against the United States that accrues before the date of transfer and results in an award, compromise, or settlement of more than $2,500, and the United States shall not compromise or settle any claim resulting in State liability without the consent of the State, which consent shall not be unreasonably withheld; and

(ii) all claims that resulted in a judgment or award against the Alaska Railroad before the date of transfer.

(C) For purposes of subparagraph (B) of this paragraph, the term "accrue" shall have the meaning contained in section 2401 of title 28, United States Code. "Accrue."

(3)(A) Prior to the date of transfer, the Secretary shall also certify that the State-owned railroad has established arrangements pursuant to section 607 of this title to protect the employment interests of employees of the Alaska Railroad during the two-year period commencing on the date of transfer. These arrangements shall include provisions—

(i) which ensure that the State-owned railroad will adopt collective bargaining agreements in accordance with the provisions of subparagraph (B) of this paragraph;

(ii) for the retention of all employees, other than officers of the Alaska Railroad, who elect to transfer to the State-owned railroad in their same positions for the two-year period commencing on the date of transfer, except in cases of reassignment, separation for cause, resignation, retirement, or lack of work;

(iii) for the payment of compensation to transferred employees (other than employees provided for in subparagraph (E) of this paragraph), except in cases of separation for cause, resignation, retirement, or lack of work, for two years commencing on the date of transfer at or above the base salary levels in effect for such employees on the date of transfer, unless the parties otherwise agree during that two-year period;

(iv) for priority of reemployment at the State-owned railroad during the two-year period commencing on the date of transfer for transferred employees who are separated for lack of work, in accordance with subparagraph (C) of this paragraph (except for officers of the Alaska Railroad, who shall receive such priority for one year following the date of transfer);

(v) for credit during the two-year period commencing on the date of transfer for accrued annual and sick leave, seniority rights, and relocation and turnaround travel allowances which have been accrued during their period of Federal employment by transfered employees retained by the State-owned railroad (except for officers of the Alaska Railroad, who shall receive such credit for one year following the date of transfer);

(vi) for payment to transferred employees retained by the State-owned railroad during the two-year period commencing on the date of transfer, including for one year officers retained or separated under subparagraph (E) of this paragraph, of an amount equivalent to the cost-of-living allowance to which they are entitled as Federal employees on the day before the date of transfer, in accordance with the provisions of subparagraph (D) of this paragraph; and

(vii) for health and life insurance programs for transferred employees retained by the State-owned railroad during the two-year period commencing on the date of transfer, substantially

equivalent to the Federal health and life insurance programs available to employees on the day before the date of transfer (except for officers of the Alaska Railroad, who shall receive such credit for one year following the date of transfer).

(B) The State-owned railroad shall adopt all collective bargaining agreements which are in effect on the date of transfer. Such agreements shall continue in effect for the two-year period commencing on the date of transfer, unless the parties agree to the contrary before the expiration of that two-year period. Such agreements shall be renegotiated during the two-year period, unless the parties agree to the contrary. Any labor-management negotiation impasse declared before the date of transfer shall be settled in accordance with chapter 71 of title 5, United States Code. Any impasse declared after the date of transfer shall be subject to applicable State law.

5 USC 7101 *et seq.*

(C) Federal service shall be included in the computation of seniority for transferred employees with priority for reemployment, as provided in subparagraph (A)(iv) of this paragraph.

(D) Payment to transferred employees pursuant to subparagraph (A)(vi) of this paragraph shall not exceed the percentage of any transferred employee's base salary level provided by the United States as a cost-of-living allowance on the day before the date of transfer, unless the parties agree to the contrary.

(E) Prior to the date of transfer, the Secretary shall also certify that the State-owned railroad has agreed to the retention, for at least one year from the date of transfer, of the offices of the Alaska Railroad, except in cases of separation for cause, resignation, retirement, or lack of work, at or above their base salaries in effect on the date of transfer, in such positions as the State-owned railroad may determine; or to the payment of lump-sum severance pay in an amount equal to such base salary for one year to officers not retained by the State-owned railroad upon transfer or, for officers separated within one year on or after the date of transfer, of a portion of such lump-sum severance payment (diminished pro rata for employment by the State-owned railroad within one year of the date of transfer prior to separation).

(4) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to allow representatives of the Secretary adequate access to employees and records of the Alaska Railroad when needed for the performance of functions related to the period of Federal ownership.

(5) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to compensate the United States at the value, if any, determined pursuant to section 605(d) of this title.

TRANSITION PERIOD

Report to Congress and State legislature.
45 USC 1204.

SEC. 605. (a) Within 6 months after the date of enactment of this Act, the Secretary and the Governor of Alaska shall jointly prepare and deliver to the Congress of the United States and the legislature of the State a report that describes to the extent possible the rail properties of the Alaska Railroad, the liabilities and obligations to be assumed by the State, the sum of money, if any, in the Alaska Railroad Revolving Fund to be withheld from the State pursuant to section 603(8)(C) of this title, and any personal property to be withheld pursuant to section 603(8)(D) of this title. The report shall separately identify by the best available descriptions (1) the rail properties of the Alaska Railroad to be transferred pursuant to

section 604(b)(1) (A), (B), and (D) of this title; (2) the rail properties to be subject to the license granted pursuant to section 604(b)(1)(C) of this title; and (3) the easements to be reserved pursuant to section 604(c)(2) of this title. The Secretaries of Agriculture, Defense, and the Interior and the Administrator of the General Services Administration shall provide the Secretary with all information and assistance necessary to allow the Secretary to complete the report within the time required.

(b) During the period from the date of enactment of this Act until the date of transfer, the State shall have the right to inspect, analyze, photograph, photocopy and otherwise evaluate all of the rail properties of the Alaska Railroad and all records related to the rail properties of the Alaska Railroad maintained by any agency of the United States under conditions established by the Secretary to protect the confidentiality of proprietary business data, personnel records, and other information, the public disclosure of which is prohibited by law. During that period, the Secretary and the Alaska Railroad shall not, without the consent of the State and only in conformity with applicable law and the Memorandum of Understanding referred to in section 606(b)(3) of this title—

(1) make or incur any obligation to make any individual capital expenditure of money from the Alaska Railroad Revolving Fund in excess of $300,000;

(2) (except as required by law) sell, exchange, give, or otherwise transfer any real property included in the rail properties of the Alaska Railroad; or

(3) lease any rail property of the Alaska Railroad for a term in excess of five years.

(c) Prior to transfer of the rail properties of the Alaska Railroad to the State, the Alaska Railroad's accounting practices and systems shall be capable of reporting data to the Interstate Commerce Commission in formats required of comparable rail carriers subject to the jurisdiction of the Interstate Commerce Commission.

(d)(1) Within nine months after the date of enactment of this Act, the United States Railway Association (hereinafter in this section referred to as the "Association") shall determine the fair market value of the Alaska Railroad under the terms and conditions of this title, applying such procedures, methods and standards as are generally accepted as normal and common practice. Such determination shall include an appraisal of the real and personal property to be transferred to the State pursuant to this title. Such appraisal by the Association shall be conducted in the usual manner in accordance with generally accepted industry standards, and shall consider the current fair market value and potential future value if used in whole or in part for other purposes. The Association shall take into account all obligations imposed by this title and other applicable law upon operation and ownership of the State-owned railroad. In making such determination, the Association shall use to the maximum extent practicable all relevant data and information, including, if relevant, that contained in the report prepared pursuant to subsection (a) of this section.

(2) The determination made pursuant to paragraph (1) of this subsection shall not be construed to affect, enlarge, modify, or diminish any inventory, valuation, or classification required by the Interstate Commerce Commission pursuant to subchapter V of chapter 107 of title 49, United States Code (49 U.S.C. 10781 et seq.).

45 USC 712.

(e) Section 202(a) of the Regional Rail Reorganization Act of 1973 is amended—

(1) by striking "and" at the end of paragraph (9);

(2) by striking the period at the end of paragraph (10) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new paragraph:

"(11) determine the value of the Alaska Railroad, as required by section 605 of the Alaska Railroad Transfer Act of 1982.".

LANDS TO BE TRANSFERRED

45 USC 1205.

SEC. 606. (a) Lands among the rail properties of the Alaska Railroad shall not be—

(1) available for selection under section 12 of the Act of January 2, 1976, as amended (43 U.S.C. 1611, note), subject to the exception contained in section 12(b)(8)(i)(D) of such Act, as amended by subsection (d)(5) of this section;

Post, p. 2568.

(2) available for conveyance under section 1425 of the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2515);

(3) available for conveyance to Chugach Natives, Inc., under sections 1429 or 1430 of the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2531) or under sections 12(c) or 14(h)(8) of the Alaska Native Claims Settlement Act (43 U.S.C. 1611(c) and 1613(h)(8), respectively); or

(4) available under any law or regulation for entry, location, or for exchange by the United States, or for the initiation of a claim or selection by any party other than the State or other transferee under this title, except that this paragraph shall not prevent a conveyance pursuant to section 12(b)(8)(i)(D) of the Act of January 2, 1976 (43 U.S.C. 1611, note), as amended by subsection (d)(5) of this section.

(b)(1)(A) During the ten months following the date of enactment of this Act, so far as practicable consistent with the priority of preparing the report required pursuant to section 605(a) of this title, the Secretary of the Interior, Village Corporations with claims of valid existing rights, and the State shall review and make a good faith effort to settle as many of the claims as possible. Any agreement to settle such claims shall take effect and bind the United States, the State, and the Village Corporation only as of the date of transfer of the railroad.

(B) At the conclusion of the review and settlement process provided in subparagraph (A) of this paragraph, the Secretary of the Interior shall prepare a report identifying lands to be conveyed in accordance with settlement agreements under this title or applicable law. Such settlement shall not give rise to a presumption as to whether a parcel of land subject to such agreement is or is not public land.

(2) The Secretary of the Interior shall have the continuing jurisdiction and duty to adjudicate unresolved claims of valid existing rights pursuant to applicable law and this title. The Secretary of the Interior shall complete the final administrative adjudication required under this subsection not later than three years after the date of enactment of this Act, and shall complete the survey of all lands to be conveyed under this title not later than five years after the date of enactment of this Act, and after consulting with the Governor of the State of Alaska to determine priority of survey with

regard to other lands being processed for patent to the State. The Secretary of the Interior shall give priority to the adjudication of Village Corporation claims as required in this section. Upon completion of the review and settlement process required by paragraph (1)(A) of this subsection, with respect to lands not subject to an agreement under such paragraph, the Secretary of the Interior shall adjudicate which lands subject to claims of valid existing rights filed by Village Corporations, if any, are public lands and shall complete such final administrative adjudication within two years after the date of enactment of this Act.

(3) Pending settlement or final administrative adjudication of claims of valid existing rights filed by Village Corporations prior to the date of transfer or while subject to the license granted to the State pursuant to section 604(b)(1)(C) of this title, lands subject to such claims shall be managed in accordance with the Memorandum of Understanding among the Federal Railroad Administration, the State, Eklutna, Incorporated, Cook Inlet Region, Incorporated (as that term is used in section 12 of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1150)), and Toghotthele Corporation, executed by authorized officers or representatives of each of these entities. Duplicate originals of the Memorandum of Understanding shall be maintained and made available for public inspection and copying in the Office of the Secretary, at Washington, District of Columbia, and in the Office of the Governor of the State of Alaska, at Juneau, Alaska.

(4) The following procedures and requirements are established to promote finality of administrative adjudication of claims of valid existing rights filed by Village Corporations, to clarify and simplify the title status of lands subject to such claims, and to avoid potential impairment of railroad operations resulting from joint or divided ownership in substantial segments of right-of-way:

(A)(i) Prior to final administrative adjudication of Village Corporation claims of valid existing rights in land subject to the license granted under section 604(b)(1)(C) of this title, the Secretary of the Interior may, notwithstanding any other provision of law, accept relinquishment of so much of such claims as involved lands within the right-of-way through execution of an agreement with the appropriate Village Corporation effective on or after the date of transfer. Upon such relinquishment, the interest of the United States in the right-of-way shall be conveyed to the State pursuant to section 604(b)(1)(B) or (2) of this title.

(ii) With respect to a claim described in clause (i) of this subparagraph that is not settled or relinquished prior to final administrative adjudication, the Congress finds that exclusive control over the right-of-way by the Alaska Railroad has been and continues to be necessary to afford sufficient protection for safe and economic operation of the railroad. Upon failure of the interested Village Corporation to relinquish so much of its claims as involve lands within the right-of-way prior to final adjudication of valid existing rights, the Secretary shall convey to the State pursuant to section 604(b)(1)(B) or (2) of this title all right, title and interest of the United States in and to the right-of-way free and clear of such Village Corporation's claim to and interest in lands within such right-of-way.

(B) Where lands within the right-of-way, or any interest in such lands, have been conveyed from Federal ownership prior to

the date of enactment of this Act, or is subject to a claim of valid existing rights by a party other than a Village Corporation, the conveyance to the State of the Federal interest in such properties pursuant to section 604(b)(1)(B) or (2) of this title shall grant not less than an exclusive-use easement in such properties. The foregoing requirements shall not be construed to permit the conveyance to the State of less than the entire Federal interest in the rail properties of the Alaska Railroad required to be conveyed by section 604(b) of this title. If an action is commenced against the State or the United States contesting the validity or existence of a reservation of right-of-way for the use or benefit of the Alaska Railroad made prior to the date of enactment of this Act, the Secretary of the Interior, through the Attorney General, shall appear in and defend such action.

(c)(1) The final administrative adjudication pursuant to subsection (b) of this section shall be final agency action and subject to judicial review only by an action brought in the United States District Court for the District of Alaska. Review of agency action pursuant to this title shall be expedited to the same extent as the expedited review provided by section 1108 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3168).

(2) No administrative or judicial action under this title shall enjoin or otherwise delay the transfer of the Alaska Railroad pursuant to this title, or substantially impair or impede the operations of the Alaska Railroad or the State-owned railroad.

(3) Before the date of transfer, the State shall have standing to participate in any administrative determination or judicial review pursuant to this title. If transfer to the State does not occur pursuant to section 604 of this title, the State shall not thereafter have standing to participate in any such determination or review.

43 USC 1611 note.

(d)(1) Section 12(b)(7)(i) of the Act of January 2, 1976 (Public Law 94-204) is amended—

(A) by striking "subsection 12(b)(6)" and inserting in lieu thereof "section 12(b) (5) and (6)";

(B) by striking "12(b)(7)(ii)" and inserting in lieu thereof "12(b)(7)(iv)";

(C) by striking "crediting" and inserting in lieu thereof "using";

(D) by striking "this subsection 12(b)(7)(i)(b)" and inserting in lieu thereof "these subsections 12(b)(7) (i)(b) or (ii)";

(E) by striking "State" in the last sentence and inserting in lieu thereof "state"; and

(F) by striking the penultimate sentence.

(2) Section 12(b)(7) of such Act is amended—

(A) by redesignating subsections (ii) through (iv) as subsections (iv) through (vi), respectively; and

(B) by inserting immediately after subsection (i) the following:

"(ii) Subject to the exceptions stated in section 12(b)(9), and notwithstanding the foregoing subsection 12(b)(7)(i) and any provision of any other law or any implementing regulation inconsistent with this subsection, until the obligations of the Secretary and the Administrator of General Services under section 12(b) (5) and (6) are otherwise fulfilled:

"(A) concurrently with the commencement of screening of any excess real property, wherever located, for utilization by Federal agencies, the Administrator of General Services shall

notify the Region that such property may be available for conveyance to the Region upon negotiated sale. Within fifteen days of the date of receipt of such notice, the Region may advise the Administrator that there is a tentative need for the property to fulfill the obligations established under section 12(b) (5) and (6). If the Administrator determines the property should be disposed of by transfer to the Region, the Administrator or other appropriate Federal official shall promptly transfer such property; 43 USC 1611 note.

"(B) no disposition or conveyance of property under this subsection to the Region shall be made until the Administrator, after notice to affected State and local governments, has provided to them such opportunity to obtain the property as is recognized in title 40, United States Code and the regulations thereunder for the disposition or conveyance of surplus property; and

"(C) as used in this subsection, 'real property' means any land or interests in land owned or held by the United States or any Federal agency, any improvements on such land or rights to their use or exploitation, and any personal property related to the land. "Real property."

"(iii) If the Region accepts any conveyance under section 12(b)(7)(i) or (ii), it shall be in exchange for acres or acre-equivalents as provided in subparagraph I(C)(2)(e) of the document referred to in this section, except that, after the obligation of the Secretary and the Administrator under subparagraph I(C)(2)(g) of that document has been fulfilled, the acre-equivalents under subparagraph I(C)(2)(e)(iii)(A) shall be one-half the valued increment therein stated. The entitlement of the Region under section 12(b) of this Act shall be reduced by the number of acres or acre-equivalents attributed to the Region under this subsection. The Secretary and the Administrator are directed to execute an agreement with the Region which shall conform substantially to the 'Memorandum of Understanding Regarding the Implementation of Section 12(b)(7)', dated September 10, 1982, and submitted to the Senate Committee on Commerce, Science, and Transportation. The Secretary, the Administrator and the Region may thereafter otherwise agree to procedures to implement responsibilities under this section 12(b)(7), including establishment of accounting procedures and the delegation or reassignment of duties under this statute.".

(3) Section 12(b)(7)(iv) of such Act, as so redesignated by paragraph (2) of this subsection, is amended— 43 USC 1611 note.

(A) by striking "surplus" the first place it appears therein;

(B) by inserting immediately before the period at the end of the first sentence the following: "or paying for the conveyance of property pursuant to subsections (i) or (ii)";

(C) by inserting immediately after "account shall be" the following: "the sum of (1)";

(D) by striking "I(C)(2)(e)" and inserting in lieu thereof "I(C)(2)(e)(iii)(A)";

(E) by striking "the effective date of this subsection", and inserting in lieu thereof "December 2, 1980";

(F) by striking "and shall be adjusted" and inserting in lieu thereof "and (2) one-half the acre or acre-equivalent exchange value under subparagraph I(C)(2)(e)(iii)(A) of ten townships fewer than the unfulfilled entitlement of the Region on the same date to acres or acre-equivalents under paragraph I(C)(1)

of the document referred to in this section. The balance of the property account shall be adjusted in accordance with subsection 12(b)(7)(iii)"; and

(G) by striking "subsection 12(b)(6)" and inserting in lieu thereof "section 12(b) (5) and (6)".

43 USC 1611 note.

(4) Section 12(b)(7)(v) of such Act, as so redesignated by paragraph (2) of this subsection, is amended by striking "subsection (ii)" and inserting in lieu thereof "subsection (iv)".

43 USC 1611 note.

(5) Section 12(b)(8) of such Act is amended to read as follows:

"12(b)(8). Subject to the exceptions stated in section 12(b)(9), and notwithstanding any provisions of law or implementing regulation inconsistent with this section:

"(i) The deadlines in subparagraphs I(C)(2) (a) and (g) of the document referred to in this section shall be extended until the Secretary's obligations under section 12(b) (5) and (6) are fulfilled: *Provided*, That:

"(A) the obligation of the Secretary under subparagraph I(C)(2)(a) of such document shall terminate on such date, after July 15, 1984, that the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document: *Provided*, That the obligation of the Secretary under subparagraph I(C)(2)(g) of such document shall be fulfilled at such date, after July 15, 1984, that the sum of the acres or acre-equivalents identified for and placed in the pool and the acres or acre-equivalents used by the Region in purchasing property under section 12(b)(7) equals or exceeds 138,240 acres or acre-equivalents;

"(B) the authority of the Secretary under subparagraphs I(C)(2)(b) and I(C)(2)(g)(ii) of such document to contribute to the pool created under subparagraph I(C)(2)(a) of such document shall terminate (a) on July 15, 1984, if, by that date, the Secretary has fulfilled his obligation under subparagraph I(C)(2) (g), or (b) if not, on such date after July 15, 1984 as such obligation is fulfilled, or (c) if such obligation remains unfulfilled, on July 15, 1987;

"(C) the concurrence by the State as described in subparagraphs I(C)(2)(a)(vi) and I(C)(2)(c) of the document referred to in this section shall be deemed not required after the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document, but in no event after July 15, 1987. In lieu of such concurrence, after 1984 as to military property, and after the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document or July 15, 1987, whichever is earlier, as to any other property, except property of the Alaska Railroad which is governed by subsection 12(b)(6)(i)(D) of this Act, the Secretary shall not place any lands in the selection pool referred to in subparagraphs I(C)(2) (a) and (g) of the document referred to in this section without the prior written concurrence of the State. Such concurrence shall be deemed obtained unless the State advises the Secretary within ninety days of receipt of a formal notice from the Secretary that he is considering placing property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question, requires the property for a public purpose of the State or municipality; and

"(D) notwithstanding section 606(a)(2) of the Alaska Railroad Transfer Act of 1982, the Secretary may include property of the Alaska Railroad in the pool of lands to be made available for selection to the extent that he is authorized to do so under a provision of section 12(b) of this Act if the State consents to its inclusion, which consent is not subject to any limitation under subsection 12(b)(8)(i)(C) herein: *Provided*, That, while the Alaska Railroad is the property of the United States, the Secretary shall obtain the consent of the Secretary of Transportation prior to including such property: *And provided further*, That, if the transfer of the Alaska Railroad to the State does not occur pursuant to the terms of the Alaska Railroad Transfer Act of 1982 or any amendments thereto, the State's consent shall be deemed obtained unless the State advises the Secretary in writing, within ninety days of receipt of a formal notice from the Secretary that he is considering placing such property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question, requires the property for a public purpose of the State or the municipality.

Ante, p. 2564.

Ante, p. 2568.

Ante, p. 2556.

"(ii) In addition to the review required to identify public lands under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e)), the Secretary shall identify for inclusion in the pool all public lands (as such term is used under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e)), as described in subparagraph I(C)(2)(a)(v) of the document referred to in this section, and shall, in so doing, review all Federal installations within the boundaries of the Cook Inlet Region whether within or without the areas withdrawn pursuant to section 11 of the Alaska Native Claims Settlement Act (43 U.S.C. 1610) or by the Secretary acting under authority contained in that section: *Provided*, That no such additional review under such subparagraph shall be required of military installations or of such other installations as may be mutually excluded from review by the Region and the Secretary: *And provided further*, That the Secretary shall not review any property of the Alaska Railroad unless such property becomes available for selection pursuant to subsection 12(b)(8)(i)(D).

"(iii) The concurrence required of the State as to the inclusion of any property in the pool under subparagraph I(C)(2)(b) of the document referred to in this section shall be deemed obtained unless the State advises the Secretary in writing, within ninety days of receipt of a formal notice from the Secretary that the Secretary is considering placing property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question requires the property for a public purpose of the State or the municipality.

"(iv) The deadlines in subparagraph I(C)(1)(b) of the document referred to in this section shall be extended for an additional twenty-four months beyond the dates established in the Act of July 17, 1980 (Public Law 96-311; 94 Stat. 947).

"(v) On or before January 15, 1985, the Secretary shall report to the Congress with respect to:

Report to Congress.

"(A) such studies and inquiries as shall have been initiated by the Secretary and the Administrator of General Services, or have been prepared by other holding agencies,

to determine what lands, except for lands held by the Alaska Railroad or the State-owned railroad, within the boundaries of the Cook Inlet Region or elsewhere can be made available to the Region, to the extent of its entitlement;

"(B) the feasibility and appropriate nature of reimbursement of the Region for its unfulfilled entitlement as valued in subsection 12(b)(7)(iv) of this Act;

"(C) the extent to which implementation of the mechanisms established in section 12(b)(7) promise to meet such unfulfilled entitlement;

"(D) such other remedial legislation or administrative action as may be needed; and

"(E) the need to terminate any mechanism established by law through which the entitlement of the Region may be completed.".

43 USC 1611 note.

(6) Section 12(b) of such Act is amended by adding at the end thereof the following:

Ante, p. 2568.

"12(b)(9). No disposition or conveyance of property located within the State to the Region under section 12(b)(6), 12(b)(7) and 12(b)(8), as amended, shall be made if the property is subject to an express waiver of rights under the provisions of subparagraph I(C)(2)(f) of the document referred to in this section, or if such disposition or conveyance violates valid rights, including valid selections or valid authorized agreements, of Native Corporations (as such term is used in section 102(6) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3102(6)) or the State existing at the time of such disposition or conveyance under section 6 of Public Law 85-508, as amended (excepting section 906(e) of the Alaska National Interest Lands Conservation Act), sections 12(a), 12(b), 16(b) or 22(f) of the Alaska Native Claims Settlement Act, section 12(h) of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1154), or sections 1416, 1418 through 1425 (inclusive), 1427 through 1434 (inclusive), or 1436 of the Alaska National Interest Lands Conservation Act: *Provided, however,* That nothing within this subsection 12(b)(9) shall diminish such rights and priorities as the Region has under section 12(b) of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1151), as amended by section 4 of the Act of October 4, 1976 (Public Law 94-456; 90 Stat. 1935), section 3 of the Act of November 15, 1977 (Public Law 95-178; 91 Stat. 1369), section 2 of the Act of August 14, 1979 (Public Law 96-55; 93 Stat. 386), the Act of July 17, 1980 (Public Law 96-311; 94 Stat. 947), and section 1435 of the Alaska National Interest Lands Conservation Act.

43 USC 1611 note.
94 Stat. 2499, 2501-2515, 2518-2544, 2546.
43 USC 1611 note.

"12(b)(10). For the purpose of its incorporation into this section, paragraph I(C)(1) of the document referred to in this section is amended as follows: (1) by striking 'withdrawn' and inserting in lieu thereof 'withdrawn or formerly withdrawn'; (2) by striking '17(d)(1)' and inserting in lieu thereof '17(d)(1) and (2)'; and (3) by striking the last sentence of subparagraph I(C)(1)(a) and inserting in lieu thereof the following: 'Cook Inlet Region, Incorporated shall not nominate any lands within the boundaries of any conservation system unit, national conservation area, national recreation area, national forest, defense withdrawal, or any lands that were made available to the State for selection pursuant to sections 2 and 5 of the State-Federal Agreement of September 1, 1972.'.

"12(b)(11). Notwithstanding the provisions of section 906 of the Alaska National Interest Lands Conservation Act and section 6(i) of the Alaska Statehood Act (72 Stat. 339): 43 USC 1635. 48 USC note prec. 21.

"(i) The State is hereby authorized to convey to the United States for reconveyance to the Region, and the Secretary is directed to accept and so reconvey, lands tentatively approved for patent or patented to the State, if the State and the Region enter into an agreement that such lands shall be reconveyed to the Region to fulfill all or part of its entitlement under paragraph I(C)(1) of the document referred to in this section: *Provided*, That the acreage of lands conveyed to the United States under this provision shall be added to the State's unfulfilled entitlement pursuant to section 6 of the Alaska Statehood Act, and the number of townships to be nominated, pooled, struck, selected and conveyed pursuant to paragraph I(C)(1) of the document referred to in this section shall be reduced accordingly.

"(ii) The Secretary is directed to convey to the Region lands selected by the State prior to July 18, 1978 or pursuant to sections 2 and 5 of the State-Federal Agreement of September 1, 1972, if the State relinquishes such selections and enters into an agreement with the Region that such lands shall be reconveyed to the Region to fulfill all or part of its entitlement under paragraph I(C)(1) of the document referred to in this section, and the number of townships to be nominated, pooled, struck, selected and conveyed pursuant to paragraph I(C)(1) of the document referred to in this section shall be reduced accordingly.

"(iii) The Secretary, in the Secretary's discretion, is authorized to enter into an agreement with the State and the Region to implement the authority contained in this section 12(b)(11), which agreement may provide for conveyances directly from the State to the Region. Conveyances directly conveyed shall be deemed conveyances from the Secretary pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).".

(e) The State shall be liable to a party receiving a conveyance of land among the rail properties of the Alaska Railroad subject to the license granted pursuant to section 604(b)(1)(C) of this title for damage resulting from use by the State of the land under such license in a manner not authorized by such license. 45 USC 1205.

EMPLOYEES OF THE ALASKA RAILROAD

SEC. 607. (a)(1) Any employees who elect to transfer to the State-owned railroad and who on the day before the date of transfer are subject to the civil service retirement law (subchapter III of chapter 83 of title 5, United States Code) shall, so long as continually employed by the State-owned railroad without a break in service, continue to be subject to such law, except that the State-owned railroad shall have the option of providing benefits in accordance with the provisions of paragraph (2) of this subsection. Employment by the State-owned railroad without a break in continuity of service shall be considered to be employment by the United States Government for purposes of subchapter III of chapter 83 of title 5, United States Code. The State-owned railroad shall be the employing agency for purposes of section 8334(a) of title 5, United States Code, and shall contribute to the Civil Service Retirement and Disability 45 USC 1206. 5 USC 8331.

Fund a sum as provided by such section, except that such sum shall be determined by applying to the total basic pay (as defined in section 8331(3) of title 5, United States Code) paid to the employees of the State-owned railroad who are covered by the civil service retirement law, the per centum rate determined annually by the Director of the Office of Personnel Management to be the excess of the total normal cost per centum rate of the civil service retirement system over the employee deduction rate specified in section 8334(a) of title 5, United States Code. The State-owned railroad shall pay into the Federal Civil Service Retirement and Disability Fund that portion of the cost of administration of such Fund which is demonstrated by the Director of the Office of Personnel Management to be attributable to its employees.

(2) At any time during the two-year period commencing on the date of transfer, the State-owned railroad shall have the option of providing to transferred employees retirement benefits, reflecting prior Federal service, in or substantially equivalent to benefits under the retirement program maintained by the State for State employees. If the State decides to provide benefits under this paragraph, the State shall provide such benefits to all transferred employees, except those employees who will meet the age and service requirements for retirement under section 8336(a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program.

(3) If the State provides benefits under paragraph (2) of this subsection—

(A) the provisions of paragraph (1) of this subsection regarding payments into the Civil Service Retirement and Disability Fund for those employees who are transferred to the State program shall have no further force and effect (other than for employees who will meet the age and service requirements for retirement under section 8336(a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program); and

(B) all of the accrued employee and employer contributions and accrued interest on such contributions made by and on behalf of the transferred employees during their prior Federal service (other than amounts for employees who will meet the age and service requirements for retirement under section 8336 (a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program) shall be withdrawn from the Federal Civil Service Retirement and Disability Fund and shall be paid into the retirement fund utilized by the State-owned railroad for the transferred employees, in accordance with the provisions of paragraph (2) of this subsection. Upon such payment, credit for prior Federal service under the Federal civil service retirement system shall be forever barred, notwithstanding the provisions of section 8334 of title 5, United States Code.

(b) Employees of the Alaska Railroad who do not transfer to the State-owned railroad shall be entitled to all of the rights and benefits available to them under Federal law for discontinued employees.

(c) Transferred employees whose employment with the State-owned railroad is terminated during the two-year period commencing on the date of transfer shall be entitled to all of the rights and benefits of discontinued employees that such employees would have had under Federal law if their termination had occurred immediately before the date of the transfer, except that financial compensation paid to officers of the Alaska Railroad shall be limited to that compensation provided pursuant to section 604(d)(3)(E) of this title. Such employees shall also be entitled to seniority and other benefits accrued under Federal law while they were employed by the State-owned railroad on the same basis as if such employment had been Federal service.

(d) Any employee who transfers to the State-owned railroad under this title shall not be entitled to lump-sum payment for unused annual leave under section 5551 of title 5, United States Code, but shall be credited by the State with the unused annual leave balance at the time of transfer.

STATE OPERATION

SEC. 608. (a)(1) After the date of transfer to the State pursuant to section 604 of this title, the State-owned railroad shall be a rail carrier engaged in interstate and foreign commerce subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of subtitle IV of title 49, United States Code, and all other Acts applicable to rail carriers subject to that chapter, including the antitrust laws of the United States, except, so long as it is an instrumentality of the State of Alaska, the Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.), the Railroad Retirement Tax Act (26 U.S.C. 3201 et seq.), the Railway Labor Act (45 U.S.C. 151 et seq.), the Act of April 22, 1908 (45 U.S.C. 51 et seq.) (popularly referred to as the "Federal Employers' Liability Act"), and the Railroad Unemployment Insurance Act (45 U.S.C. 351 et seq.). Nothing in this title shall preclude the State from explicitly invoking by law any exemption from the antitrust laws as may otherwise be available. 45 USC 1207.

(2) The transfer to the State authorized by section 604 of this title and the conferral of jurisdiction to the Interstate Commerce Commission pursuant to paragraph (1) of this subsection are intended to confer upon the State-owned railroad all business opportunities available to comparable railroads, including contract rate agreements meeting the requirements of section 10713 of title 49, United States Code, notwithstanding any participation in such agreements by connecting water carriers.

(3) All memoranda which sanction noncompliance with Federal railroad safety regulations contained in 49 CFR Parts 209-236, and which are in effect on the date of transfer, shall continue in effect according to their terms as "waivers of compliance" (as that term is used in section 202(c) of the Federal Railroad Safety Act of 1970 (45 U.S.C. 431(c))).

(4) The operation of trains by the State-owned railroad shall not be subject to the requirement of any State or local law which specifies the minimum number of crew members which must be employed in connection with the operation of such trains.

(5) Revenues generated by the State-owned railroad shall be retained and managed by the State-owned railroad for railroad and related purposes.

(6)(A) After the date of transfer, continued operation of the Alaska Railroad by a public corporation, authority or other agency of the

State shall be deemed to be an exercise of an essential governmental function, and revenue derived from such operation shall be deemed to accrue to the State for the purposes of section 115(a)(1) of the Internal Revenue Code of 1954 (26 U.S.C. 115(a)(1)). Obligations issued by such entity shall also be deemed obligations of the State for the purposes of section 103(a)(1) of the Internal Revenue Code of 1954 (26 U.S.C. 103(a)(1)), but not obligations within the meaning of section 103(b)(2) of the Internal Revenue Code of 1954 (26 U.S.C. 103(b)(2)).

(B) Nothing in this title shall be deemed or construed to affect customary tax treatment of private investment in the equipment or other assets that are used or owned by the State-owned railroad.

(b) As soon as practicable after the date of enactment of this Act, the Interstate Commerce Commission shall promulgate an expedited, modified procedure for providing on the date of transfer a certificate of public convenience and necessity to the State-owned railroad. No inventory, valuation, or classification of property owned or used by the State-owned railroad pursuant to subchapter V of chapter 107 of title 49, United States Code (49 U.S.C. 10781 et seq.) shall be required during the two-year period after the date of transfer. The provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and section 382(b) of the Energy Policy and Conservation Act (42 U.S.C. 6362(b)) shall not apply to actions of the Commission under this subsection.

(c) The State-owned railroad shall be eligible to participate in all Federal railroad assistance programs on a basis equal to that of other rail carriers subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of subtitle IV of title 49, United States Code.

(d) After the date of transfer to the State pursuant to section 604 of this title, the portion of the rail properties within the boundaries of the Chugach National Forest and the exclusive-use easement within the boundaries of the Denali National Park and Preserve shall be subject to laws and regulations for the protection of forest and park values. The right to fence the exclusive-use easement within Denali National Park and Preserve shall be subject to the concurrence of the Secretary of the Interior. The Secretary of the Interior, or the Secretary of Agriculture where appropriate, shall not act pursuant to this subsection without consulting with the Governor of the State of Alaska or in such a manner as to unreasonably interfere with continued or expanded operations and support functions authorized under this title.

FUTURE RIGHTS-OF-WAY

45 USC 1208.

SEC. 609. (a) After the date of enactment of this Act, the State or State-owned railroad may request the Secretary of the Interior or the Secretary of Agriculture, as appropriate under law, to expeditiously approve an application for a right-of-way in order that the Alaska Railroad or State-owned railroad may have access across Federal lands for transportation and related purposes. The State or State-owned railroad may also apply for a lease, permit, or conveyance of any necessary or convenient terminal and station grounds and material sites in the vicinity of the right-of-way for which an application has been submitted.

(b) Before approving a right-of-way application described in subsection (a) of this section, the Secretary of the Interior or the

Secretary of Agriculture, as appropriate, shall consult with the Secretary. Approval of an application for a right-of-way, permit, lease, or conveyance described in subsection (a) of this section shall be pursuant to applicable law. Rights-of-way, grounds, and sites granted pursuant to this section and other applicable law shall conform, to the extent possible, to the standards provided in the Act of March 12, 1914 (43 U.S.C. 975 et seq.) and section 603(6) of this title. Such conformance shall not be affected by the repeal of such Act under section 615 of this title.

(c) Reversion to the United States of any portion of any right-of-way or exclusive-use easement granted to the State or State-owned railroad shall occur only as provided in section 610 of this title. For purposes of such section, the date of the approval of any such right-of-way shall be deemed the "date of transfer".

REVERSION

SEC. 610. (a) If, within ten years after the date of transfer to the State authorized by section 604 of this title, the Secretary finds that all or part of the real property transferred to the State under this title, except that portion of real property which lies within the boundaries of the Denali National Park and Preserve, is converted to a use that would prevent the State-owned railroad from continuing to operate, that real property (including permanent improvements to the property) shall revert to the United States Government, or (at the option of the State) the State shall pay to the United States Government an amount determined to be the fair market value of that property at the time its conversion prevents continued operation of the railroad. 45 USC 1209.

(b) If, after the date of transfer pursuant to section 604 of this title, the State discontinues use of any land within the right-of-way, the State's interest in such land shall revert to the United States. The State shall be considered to have discontinued use within the meaning of this subsection and subsection (d) of this section when:

(1) the Governor of the State of Alaska delivers to the Secretary of the Interior a notice of such discontinuance, including a legal description of the property subject to the notice, and a quitclaim deed thereto; or

(2) the State has made no use of the land for a continuous period of eighteen years for transportation, communication, or transmission purposes. Notice of such discontinuance shall promptly be published in the Federal Register by the Secretary, the Secretary of the Interior, or the Secretary of Agriculture, and reversion shall be effected one year after such notice, unless within such one-year period the State brings an appropriate action in the United States District Court for the District of Alaska to establish that the use has been continuing without an eighteen-year lapse. Any such action shall have the effect of staying reversion until exhaustion of appellate review from the final judgment in that action or termination of the right to seek such review, whichever first occurs. Publication in Federal Register.

(c) Upon such reversion pursuant to subsection (b) of this section, the Secretary of the Interior shall immediately convey by patent to abutting landowners all right, title and interest of the United States. Where land abutting the reverted right-of-way is owned by different persons or entities, the conveyance made pursuant to this

subsection shall extend the property of each abutting owner to the centerline of the right-of-way.

(d) If use is discontinued (as that term is used in subsection (b) of this section) of all or part of those properties of the Alaska Railroad transferred to the State pursuant to this title which lie within the boundaries of the Denali National Park and Preserve or the Chugach National Forest, such properties or part thereof (including permanent improvements to the property) shall revert to the United States and shall not be subject to subsection (c) of this section. Upon such reversion, jurisdiction over that property shall be transferred to the Secretary of the Interior or the Secretary of Agriculture, as appropriate, for administration as part of the Denali National Park and Preserve or the Chugach National Forest.

(e) Except as provided in subsections (a) through (d) of this section, if, within five years after the date of transfer to the State pursuant to section 604 of this title, the State sells or transfers all or substantially all of the State-owned railroad to an entity other than an instrumentality of the State, the proceeds from the sale or transfer that exceed the cost of any rehabilitation and improvement made by the State for the State-owned railroad and any net liabilities incurred by the State for the State-owned railroad shall be paid into the general fund of the Treasury of the United States.

(f) The Attorney General, upon the request of the Secretary, the Secretary of the Interior, or the Secretary of Agriculture, shall institute appropriate proceedings to enforce this section in the United States District Court for the District of Alaska.

OTHER DISPOSITION

45 USC 1210.

SEC. 611. If the Secretary has not certified that the State has satisfied the conditions under section 604 within one year after the date of delivery of the report referred to in section 605(a) of this title, the Secretary may dispose of the rail properties of the Alaska Railroad. Any disposal under this section shall give preference to a buyer or transferee who will continue to operate rail service, except that—

(1) such preference shall not diminish or modify the rights of the Cook Inlet Region, Incorporated (as that term is used in section 12 of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1150)), pursuant to such section, as amended by section 606(d) of this title; and

Ante, p. 2564.

(2) this section shall not be construed to diminish or modify the powers of consent of the Secretary or the State under section 12(b)(8) of such Act, as amended by section 606(d)(5) of this title.

Any disposal under this section shall be subject to valid existing rights.

DENALI NATIONAL PARK AND PRESERVE LANDS

45 USC 1211.

SEC. 612. On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), that portion of rail properties of the Alaska Railroad within the Denali National Park and Preserve shall, subject to the exclusive-use easement granted pursuant to section 604(b)(1)(D) of this title, be transferred to the Secretary of the Interior for administration as part of the Denali National Park and Preserve, except that a

transferee under section 611 of this title shall receive the same interest as the State under section 604(b)(1)(D) of this title.

APPLICABILITY OF OTHER LAWS

SEC. 613. (a) The provisions of chapter 5 of title 5, United States Code (popularly known as the Administrative Procedure Act, and including provisions popularly known as the Government in the Sunshine Act), the Federal Advisory Committee Act (5 U.S.C. App. 1 et seq.), the National Historic Preservation Act (16 U.S.C. 470 et seq.), section 4(f) of the Department of Transportation Act (49 U.S.C. 1653(f)), and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall not apply to actions taken pursuant to this title, except to the extent that such laws may be applicable to granting of rights-of-way under section 609 of this title. 45 USC 1212. 5 USC 500 *et seq.*

(b) The enactment of this title, actions taken during the transition period as provided in section 605 of this title, and transfer of the rail properties of the Alaska Railroad under authority of this title shall be deemed not to be the disposal of Federal surplus property under the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484) or the Act of October 3, 1944, popularly referred to as the "Surplus Property Act of 1944" (50 U.S.C. App. 1622). Such events shall not constitute or cause the revocation of any prior withdrawal or reservation of land for the use of the Alaska Railroad under the Act of March 12, 1914 (43 U.S.C. 975 et seq.), the Alaska Statehood Act (note preceding 48 U.S.C. 21), the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1145), the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2371), and the general land and land management laws of the United States.

(c) Beginning on the date of enactment of this Act, the ceiling on Government contributions for Federal employees health benefits insurance premiums under section 8906(b)(2) of title 5, United States Code, shall not apply to the Alaska Railroad.

(d) Nothing in this title is intended to enlarge or diminish the acreage entitlement of the State or any Native Corporation pursuant to existing law.

(e) With respect to interests of Native Corporations under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) and the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.), except as provided in this title, nothing contained in this title shall be construed to deny, enlarge, grant, impair, or otherwise affect any judgment heretofore entered in a court of competent jurisdiction, or valid existing right or claim of valid existing right.

CONFLICT WITH OTHER LAWS

SEC. 614. The provisions of this title shall govern if there is any conflict between this title and any other law. 45 USC 1213.

REPEAL AND AMENDMENT OF EXISTING STATUTES

SEC. 615. (a) On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), whichever first occurs, the following provisions are repealed:

(1) The Act of March 12, 1914 (43 U.S.C. 975 et seq.). 16 USC 353a.

48 USC 301a.

(2) The Act of June 24, 1946, to authorize certain expenditures by the Alaska Railroad (60 Stat. 304).

(3) The Act of July 19, 1932, concerning mining of coal adjacent to the Alaska Railroad (30 U.S.C. 208a).

(4) Section 6(i) of the Department of Transportation Act (49 U.S.C. 1655(i)).

(b) On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), whichever first occurs, the following provisions are amended as follows:

(1) Title 5, United States Code, is amended—

(A) in section 305(a), by striking paragraph (3), and by redesignating paragraphs (4)–(8) as paragraphs (3)–(7), respectively;

(B) in section 3401(1), by striking clause (iii), and by redesignating clauses (iv)–(viii) as clauses (iii)–(vii), respectively;

(C) in section 5102(a)(1), by striking clause (iii), and by redesignating clauses (iv)–(ix) as clauses (iii)–(viii), respectively;

(D) in section 5342(a)(1), by striking subparagraph (C), and by redesignating subparagraphs (D)–(J) as subparagraphs (C)–(I), respectively; and

(E) in section 7327, by striking subsection (a), and by striking the subsection designation "(b)".

(2) Section 102(7) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 802(7)) is amended by striking "and the Alaska Railroad".

(3) Section 10749(b) of title 49, United States Code, is amended—

(A) by inserting "or" at the end of paragraph (1)(B);

(B) by striking "; or" at the end of paragraph (2) and inserting in lieu thereof a period; and

(C) by striking paragraph (3).

(4) Section 324(a)(1) of the Public Health Service Act (42 U.S.C. 251(a)(1)) is amended by striking "employees of the Alaska Railroad and".

(5) Section 202(3)(a) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 410hh–1(3)(a)) is amended by striking the third sentence.

(6) Section 1(o) of the Railroad Retirement Act of 1974 (45 U.S.C. 231(o)) is amended by inserting immediately after "National Transportation Safety Board," the following: "the State-owned railroad (as defined in the Alaska Railroad Transfer Act of 1982), so long as it is an instrumentality of the State of Alaska,".

SEPARABILITY

45 USC 1214.

SEC. 616. If any provision of this title or the application thereof to any person or circumstance is held invalid, the remainder of this title and the application of such provision to other persons or circumstances shall not be affected thereby.

(2) a person who is able to assure that adequate transportation will be provided over a substantial portion of the feeder line described in subsection (a) of this section for a period of not less than 3 years; or

(3) any combination of members of the classes of applicants described in paragraphs (1) and (2) of this subsection.

Alaska Railroad Transfer Act of 1982

TITLE VI—ALASKA RAILROAD TRANSFER

SHORT TITLE

45 USC 1201 note

SEC. 601. This title may be cited as the "Alaska Railroad Transfer Act of 1982".

FINDINGS

45 USC 1201

SEC. 602. The Congress finds that—

(1) the Alaska Railroad, which was built by the Federal Government to serve the transportation and development needs of the Territory of Alaska, presently is providing freight and passenger services that primarily benefit residents and businesses in the State of Alaska;

(2) many communities and individuals in Alaska are wholly or substantially dependent on the Alaska Railroad for freight and passenger service and provision of such service is an essential governmental function;

(3) continuation of services of the Alaska Railroad and the opportunity for future expansion of those services are necessary to achieve Federal, State, and private objectives; however, continued Federal control and financial support are no longer necessary to accomplish these objectives;

(4) the transfer of the Alaska Railroad and provision for its operation by the State in the manner contemplated by this title is made pursuant to the Federal goal and ongoing program of transferring appropriate activities to the States;

(5) the State's continued operation of the Alaska Railroad following the transfer contemplated by this title, together with such expansion of the railroad as may be necessary or convenient in the future, will constitute an appropriate public use of the rail system and associated properties, will provide an essential governmental service, and will promote the general welfare of Alaska's residents and visitors; and

(6) in order to give the State government the ability to determine the Alaska Railroad's role in serving the State's transportation needs in the future, including the opportunity to extend rail service, and to provide a saving to the Federal Government, the Federal Government should offer to transfer the railroad to the State, in accordance with the provisions of this title, in the same manner in which other Federal transportation functions (including highways and airports) have been transferred since Alaska became a State in 1959.

DEFINITIONS

45 USC 1202

SEC. 603. As used in this title, the term—

(1) "Alaska Railroad" means the agency of the United States Government that is operated by the Department of Transportation as a rail carrier in Alaska under authority of the Act of

March 12, 1914 (43 U.S.C. 875 et seq.) (popularly referred to as the "Alaska Railroad Act") and section 6(i) of the Department of Transportation Act (49 U.S.C. 1655(i)), or, as the context requires, the railroad operated by that agency;

(2) "Alaska Railroad Revolving Fund" means the public enterprise fund maintained by the Department of the Treasury into which revenues of the Alaska Railroad and appropriations for the Alaska Railroad are deposited, and from which funds are expended for Alaska Railroad operation, maintenance and construction work authorized by law; Definitions.

(3) "claim of valid existing rights" means any claim to the rail properties of the Alaska Railroad on record in the Department of the Interior as of the day before the date of enactment of this Act;

(4) "date of transfer" means the date on which the Secretary delivers to the State the four documents referred to in section 304(b)(1) of this title;

(5) "employees" means all permanent personnel employed by the Alaska Railroad on the date of transfer, including the officers of the Alaska Railroad, unless otherwise indicated in this title;

(5) "exclusive-use easement" means an easement which affords to the easement holder the following:

(A) the exclusive right to use, possess, and enjoy the surface estate of the land subject to this easement for transportation, communication, and transmission purposes and for support functions associated with such purposes;

(B) the right to use so much of the subsurface estate of the lands subject to this easement as is necessary for the transportation, communication, and transmission purposes and associated support functions for which the surface of such lands is used;

(C) subjacent and lateral support of the lands subject to the easement; and

(D) the right (in the easement holder's discretion) to fence all or part of the lands subject to this easement and to affix track, fixtures, and structures to such lands and to exclude other persons from all or part of such lands;

(7) "Native Corporation" has the same meaning as such term has under section 102(6) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3102(6));

(8) "officers of the Alaska Railroad" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager; Assistant General Manager; Assistant to the General Manager; Chief of Administration; and Chief Counsel;

(9) "public lands" has the same meaning as such term has under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e));

(10) "rail properties of the Alaska Railroad" means all right, title, and interest of the United States to lands, buildings, facilities, machinery, equipment, supplies, records, rolling stock, trade names, accounts receivable, goodwill, and other real and personal property, both tangible and intangible, in which there is an interest reserved, withdrawn, appropriated, owned, administered or otherwise held or validly claimed for the Alaska Railroad by the United States or any agency or instrumentality

thereof as of the date of enactment of this Act, but excluding any such properties disposed of, and including any such properties acquired, in the ordinary course of business after that date but before the date of transfer, and also including the exclusive-use easement within the Denali National Park and Preserve conveyed to the State pursuant to this title and also excluding the following:

(A) the unexercised reservation to the United States for future rights-of-way required in all patents for land taken up, entered, or located in Alaska, as provided by the Act of March 12, 1914 (43 U.S.C. 975 et seq.);

(B) the right of the United States to exercise the power of eminent domain;

(C) any moneys in the Alaska Railroad Revolving Fund which the Secretary demonstrates, in consultation with the State, are unobligated funds appropriated from general tax revenues or are needed to satisfy obligations incurred by the United States in connection with the operation of the Alaska Railroad which would have been paid from such Fund but for this title and which are not assumed by the State pursuant to this title;

(D) any personal property which the Secretary demonstrates, in consultation with the State, prior to the date of transfer under section 604 of this title, to be necessary to carry out functions of the United States after the date of transfer; and

(E) any lands or interest therein (except as specified in this title) within the boundaries of the Denali National Park and Preserve;

(11) "right-of-way" means, except as used in section 609 of this title—

(A) an area extending not less than one hundred feet on both sides of the center line of any main line or branch line of the Alaska Railroad; or

(B) an area extending on both sides of the center line of any main line or branch line of the Alaska Railroad appropriated or retained by or for the Alaska Railroad that, as a result of military jurisdiction over, or non-Federal ownership of, lands abutting the main line or branch line, is of a width less than that described in subparagraph (A) of this paragraph;

(12) "Secretary" means the Secretary of Transportation;

(13) "State" means the State of Alaska or the State-owned railroad, as the context requires;

(14) "State-owned railroad" means the authority, agency, corporation or other entity which the State of Alaska designates or contracts with to own, operate or manage the rail properties of the Alaska Railroad or, as the context requires, the railroad owned, operated, or managed by such authority, agency, corporation, or other entity; and

(15) "Village Corporation" has the same meaning as such term has under section 3(j) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(j)).

TRANSFER AUTHORIZATION

SEC. 604. (a) Subject to the provisions of this title, the United States, through the Secretary, shall transfer all rail properties of the Alaska Railroad to the State. Such transfer shall occur as soon as practicable after the Secretary has made the certifications required by subsection (d) of this section and shall be accomplished in the manner specified in subsection (b) of this section. 45 USC 1203.

(b)(1) On the date of transfer, the Secretary shall simultaneously:

(A) deliver to the State a bill of sale conveying title to all rail properties of the Alaska Railroad except any interest in real property;

(B) deliver to the State an interim conveyance of the rail properties of the Alaska Railroad that are not conveyed pursuant to subparagraph (A) of this paragraph and are not subject to unresolved claims of valid existing rights;

(C) deliver to the State an exclusive license granting the State the right to use all rail properties of the Alaska Railroad not conveyed pursuant to subparagraphs (A) or (B) of this paragraph pending conveyances in accordance with the review and settlement or final administrative adjudication of claims of valid existing rights;

(D) convey to the State a deed granting the State (i) an exclusive-use easement for that portion of the right-of-way of the Alaska Railroad within the Denali National Park and Preserve extending not less than one hundred feet on either side of the main or branch line tracks, and eight feet on either side of the centerline of the "Y" track connecting the main line of the railroad to the power station at McKinley Park Station and (ii) title to railroad-related improvements within such right-of-way.

Prior to taking the action specified in subparagraphs (A) through (D) of this paragraph, the Secretary shall consult with the Secretary of the Interior. The exclusive-use easement granted pursuant to subparagraph (D) of this paragraph and all rights afforded by such easement shall be exercised only for railroad purposes, and for such other transportation, transmission, or communication purposes for which lands subject to such easement were utilized as of the date of enactment of this Act. In the event of reversion to the United States, pursuant to section 610 of this title, of the State's interests in all or part of the lands subject to such easement, such easement shall terminate with respect to the lands subject to such reversion, and no new exclusive-use easement with respect to such reverted lands shall be granted except by Act of Congress.

(2) The Secretary shall deliver to the State an interim conveyance of rail properties of the Alaska Railroad described in paragraph (1)(C) of this subsection that become available for conveyance to the State after the date of transfer as a result of settlement, relinquishment, or final administrative adjudication pursuant to section 606 of this title. Where the rail properties to be conveyed pursuant to this paragraph are surveyed at the time they become available for conveyance to the State, the Secretary shall deliver a patent therefor in lieu of an interim conveyance.

(3) The force and effect of an interim conveyance made pursuant to paragraphs (1)(B) or (2) of this subsection shall be to convey to and vest in the State exactly the same right, title, and interest in and to the rail properties identified therein as the State would have received had it been issued a patent by the United States. The

Secretary of the Interior shall survey the land conveyed by an interim conveyance to the State pursuant to paragraphs (1)(B) or (2) of this subsection and, upon completion of the survey, the Secretary shall issue a patent therefor.

(4) The license granted pursuant to paragraph (1)(C) of this subsection shall authorize the State to use, occupy, and directly receive all benefits of the rail properties described in the license for the operation of the State-owned railroad in conformity with the Memorandum of Understanding referred to in section 506(b)(3) of this title. The license shall be exclusive, subject only to valid leases, permits, and other instruments issued before the date of transfer and easements reserved pursuant to subsection (c)(2) of this section. With respect to any parcel conveyed pursuant to this title, the license shall terminate upon conveyance of such parcel.

(c)(1) Interim conveyances and patents issued to the State pursuant to subsection (b) of this section shall confirm, convey and vest in the State all reservations to the United States (whether or not expressed in a particular patent or document of title), except the unexercised reservations to the United States for future rights-of-way made or required by the first section of the Act of March 12, 1914 (43 U.S.C. 975d). The conveyance to the State of such reservations shall not be affected by the repeal of such Act under section 615 of this title.

(2) In the license granted under subsection (b)(1)(C) of this section and in all conveyances made to the State under this title, there shall be reserved to the Secretary of the Interior, the Secretary of Defense and the Secretary of Agriculture, as appropriate, existing easements for administration (including agency transportation and utility purposes) that are identified in the report required by section 505(a) of this title. The appropriate Secretary may obtain, only after consent of the State, such future easements as are necessary for administration. Existing and future easements and use of such easements shall not interfere with operations and support functions of the State-owned railroad.

(3) There shall be reserved to the Secretary of the Interior the right to use and occupy, without compensation, five thousand square feet of land at Talkeetna, Alaska, as described in ARR lease numbered 69-25-0003-5165 for National Park Service administrative activities, so long as the use or occupation does not interfere with the operation of the State-owned railroad. This reservation shall be effective on the date of transfer under this section or the expiration date of such lease, whichever is later.

(d)(1) Prior to the date of transfer, the Secretary shall certify that the State has agreed to operate the railroad as a rail carrier in intrastate and interstate commerce.

(2)(A) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to assume all rights, liabilities, and obligations of the Alaska Railroad on the date of transfer, including leases, permits, licenses, contracts, agreements, claims, tariffs, accounts receivable, and accounts payable, except as otherwise provided by this title.

(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the United States shall be solely responsible for—

(i) all claims and causes of action against the Alaska Railroad that accrue on or before the date of transfer, regardless of the date on which legal proceedings asserting such claims were or may be filed, except that the United States shall, in the case of

any tort claim, only be responsible for any such claim against the United States that accrues before the date of transfer and results in an award, compromise, or settlement of more than $2,500, and the United States shall not compromise or settle any claim resulting in State liability without the consent of the State, which consent shall not be unreasonably withheld; and

(ii) all claims that resulted in a judgment or award against the Alaska Railroad before the date of transfer.

(C) For purposes of subparagraph (B) of this paragraph, the term "accrue" shall have the meaning contained in section 2401 of title 28, United States Code. "Accrue."

(3)(A) Prior to the date of transfer, the Secretary shall also certify that the State-owned railroad has established arrangements pursuant to section 607 of this title to protect the employment interests of employees of the Alaska Railroad during the two-year period commencing on the date of transfer. These arrangements shall include provisions—

(i) which ensure that the State-owned railroad will adopt collective bargaining agreements in accordance with the provisions of subparagraph (B) of this paragraph;

(ii) for the retention of all employees, other than officers of the Alaska Railroad, who elect to transfer to the State-owned railroad in their same positions for the two-year period commencing on the date of transfer, except in cases of reassignment, separation for cause, resignation, retirement, or lack of work;

(iii) for the payment of compensation to transferred employees (other than employees provided for in subparagraph (E) of this paragraph), except in cases of separation for cause, resignation, retirement, or lack of work, for two years commencing on the date of transfer at or above the base salary levels in effect for such employees on the date of transfer, unless the parties otherwise agree during that two-year period;

(iv) for priority of reemployment at the State-owned railroad during the two-year period commencing on the date of transfer for transferred employees who are separated for lack of work, in accordance with subparagraph (C) of this paragraph (except for officers of the Alaska Railroad, who shall receive such priority for one year following the date of transfer);

(v) for credit during the two-year period commencing on the date of transfer for accrued annual and sick leave, seniority rights, and relocation and turnaround travel allowances which have been accrued during their period of Federal employment by transfered employees retained by the State-owned railroad (except for officers of the Alaska Railroad, who shall receive such credit for one year following the date of transfer);

(vi) for payment to transferred employees retained by the State-owned railroad during the two-year period commencing on the date of transfer, including for one year officers retained or separated under subparagraph (E) of this paragraph, of an amount equivalent to the cost-of-living allowance to which they are entitled as Federal employees on the day before the date of transfer, in accordance with the provisions of subparagraph (D) of this paragraph; and

(vii) for health and life insurance programs for transferred employees retained by the State-owned railroad during the two-year period commencing on the date of transfer, substantially

equivalent to the Federal health and life insurance programs available to employees on the day before the date of transfer (except for officers of the Alaska Railroad, who shall receive such credit for one year following the date of transfer).

(B) The State-owned railroad shall adopt all collective bargaining agreements which are in effect on the date of transfer. Such agreements shall continue in effect for the two-year period commencing on the date of transfer, unless the parties agree to the contrary before the expiration of that two-year period. Such agreements shall be renegotiated during the two-year period, unless the parties agree to the contrary. Any labor-management negotiation impasse declared before the date of transfer shall be settled in accordance with chapter 71 of title 5, United States Code. Any impasse declared after the date of transfer shall be subject to applicable State law.

5 USC 7101 et seq

(C) Federal service shall be included in the computation of seniority for transferred employees with priority for reemployment, as provided in subparagraph (A)(iv) of this paragraph.

(D) Payment to transferred employees pursuant to subparagraph (A)(vi) of this paragraph shall not exceed the percentage of any transferred employee's base salary level provided by the United States as a cost-of-living allowance on the day before the date of transfer, unless the parties agree to the contrary.

(E) Prior to the date of transfer, the Secretary shall also certify that the State-owned railroad has agreed to the retention, for at least one year from the date of transfer, of the offices of the Alaska Railroad, except in cases of separation for cause, resignation, retirement, or lack of work, at or above their base salaries in effect on the date of transfer, in such positions as the State-owned railroad may determine; or to the payment of lump-sum severance pay in an amount equal to such base salary for one year to officers not retained by the State-owned railroad upon transfer or, for officers separated within one year on or after the date of transfer of a portion of such lump-sum severance payment (diminished pro rata for employment by the State-owned railroad within one year of the date of transfer prior to separation).

(4) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to allow representatives of the Secretary adequate access to employees and records of the Alaska Railroad when needed for the performance of functions related to the period of Federal ownership.

(5) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to compensate the United States at the value, if any, determined pursuant to section 605(d) of this title.

TRANSITION PERIOD

Report to Congress and State legislature. 45 USC 1204

SEC. 605. (a) Within 6 months after the date of enactment of this Act, the Secretary and the Governor of Alaska shall jointly prepare and deliver to the Congress of the United States and the legislature of the State a report that describes to the extent possible the rail properties of the Alaska Railroad, the liabilities and obligations to be assumed by the State, the sum of money, if any, in the Alaska Railroad Revolving Fund to be withheld from the State pursuant to section 603(8)(C) of this title, and any personal property to be withheld pursuant to section 603(8)(D) of this title. The report shall separately identify by the best available descriptions (1) the rail properties of the Alaska Railroad to be transferred pursuant to

section 604(bX1) (A), (B), and (D) of this title; (2) the rail properties to be subject to the license granted pursuant to section 604(bX1XC) of this title; and (3) the easements to be reserved pursuant to section 304(cX2) of this title. The Secretaries of Agriculture, Defense, and the Interior and the Administrator of the General Services Administration shall provide the Secretary with all information and assistance necessary to allow the Secretary to complete the report within the time required.

(b) During the period from the date of enactment of this Act until the date of transfer, the State shall have the right to inspect, analyze, photograph, photocopy and otherwise evaluate all of the rail properties of the Alaska Railroad and all records related to the rail properties of the Alaska Railroad maintained by any agency of the United States under conditions established by the Secretary to protect the confidentiality of proprietary business data, personnel records, and other information, the public disclosure of which is prohibited by law. During that period, the Secretary and the Alaska Railroad shall not, without the consent of the State and only in conformity with applicable law and the Memorandum of Understanding referred to in section 606(bX3) of this title—

(1) make or incur any obligation to make any individual capital expenditure of money from the Alaska Railroad Revolving Fund in excess of $300,000;

(2) (except as required by law) sell, exchange, give, or otherwise transfer any real property included in the rail properties of the Alaska Railroad; or

(3) lease any rail property of the Alaska Railroad for a term in excess of five years.

(c) Prior to transfer of the rail properties of the Alaska Railroad to the State, the Alaska Railroad's accounting practices and systems shall be capable of reporting data to the Interstate Commerce Commission in formats required of comparable rail carriers subject to the jurisdiction of the Interstate Commerce Commission.

(dX1) Within nine months after the date of enactment of this Act, the United States Railway Association (hereinafter in this section referred to as the "Association") shall determine the fair market value of the Alaska Railroad under the terms and conditions of this title, applying such procedures, methods and standards as are generally accepted as normal and common practice. Such determination shall include an appraisal of the real and personal property to be transferred to the State pursuant to this title. Such appraisal by the Association shall be conducted in the usual manner in accordance with generally accepted industry standards, and shall consider the current fair market value and potential future value if used in whole or in part for other purposes. The Association shall take into account all obligations imposed by this title and other applicable law upon operation and ownership of the State-owned railroad. In making such determination, the Association shall use to the maximum extent practicable all relevant data and information, including, if relevant, that contained in the report prepared pursuant to subsection (a) of this section.

(2) The determination made pursuant to paragraph (1) of this subsection shall not be construed to affect, enlarge, modify, or diminish any inventory, valuation, or classification required by the Interstate Commerce Commission pursuant to subchapter V of chapter 107 of title 49, United States Code (49 U.S.C. 10781 et seq.).

45 USC 712.

(e) Section 202(a) of the Regional Rail Reorganization Act of 1973 is amended—

(1) by striking "and" at the end of paragraph (9);

(2) by striking the period at the end of paragraph (10) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new paragraph:

"(11) determine the value of the Alaska Railroad, as required by section 605 of the Alaska Railroad Transfer Act of 1982.".

LANDS TO BE TRANSFERRED

45 USC 1205.

SEC. 606. (a) Lands among the rail properties of the Alaska Railroad shall not be—

(1) available for selection under section 12 of the Act of January 2, 1976, as amended (43 U.S.C. 1611, note), subject to the exception contained in section 12(b)(8)(i)(D) of such Act, as amended by subsection (d)(5) of this section;

Post, p. 2568.

(2) available for conveyance under section 1425 of the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2515);

(3) available for conveyance to Chugach Natives, Inc., under sections 1429 or 1430 of the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2531) or under sections 12(c) or 14(h)(8) of the Alaska Native Claims Settlement Act (43 U.S.C. 1611(c) and 1613(h)(8), respectively); or

(4) available under any law or regulation for entry, location, or for exchange by the United States, or for the initiation of a claim or selection by any party other than the State or other transferee under this title, except that this paragraph shall not prevent a conveyance pursuant to section 12(b)(8)(i)(D) of the Act of January 2, 1976 (43 U.S.C. 1611, note), as amended by subsection (d)(5) of this section.

(b)(1)(A) During the ten months following the date of enactment of this Act, so far as practicable consistent with the priority of preparing the report required pursuant to section 605(a) of this title, the Secretary of the Interior, Village Corporations with claims of valid existing rights, and the State shall review and make a good faith effort to settle as many of the claims as possible. Any agreement to settle such claims shall take effect and bind the United States, the State, and the Village Corporation only as of the date of transfer of the railroad.

(B) At the conclusion of the review and settlement process provided in subparagraph (A) of this paragraph, the Secretary of the Interior shall prepare a report identifying lands to be conveyed in accordance with settlement agreements under this title or applicable law. Such settlement shall not give rise to a presumption as to whether a parcel of land subject to such agreement is or is not public land.

(2) The Secretary of the Interior shall have the continuing jurisdiction and duty to adjudicate unresolved claims of valid existing rights pursuant to applicable law and this title. The Secretary of the Interior shall complete the final administrative adjudication required under this subsection not later than three years after the date of enactment of this Act, and shall complete the survey of all lands to be conveyed under this title not later than five years after the date of enactment of this Act, and after consulting with the Governor of the State of Alaska to determine priority of survey with

regard to other lands being processed for patent to the State. The Secretary of the Interior shall give priority to the adjudication of Village Corporation claims as required in this section. Upon completion of the review and settlement process required by paragraph (1)(A) of this subsection, with respect to lands not subject to an agreement under such paragraph, the Secretary of the Interior shall adjudicate which lands subject to claims of valid existing rights filed by Village Corporations, if any, are public lands and shall complete such final administrative adjudication within two years after the date of enactment of this Act.

(3) Pending settlement or final administrative adjudication of claims of valid existing rights filed by Village Corporations prior to the date of transfer or while subject to the license granted to the State pursuant to section 604(b)(1)(C) of this title, lands subject to such claims shall be managed in accordance with the Memorandum of Understanding among the Federal Railroad Administration, the State, Eklutna, Incorporated, Cook Inlet Region, Incorporated (as that term is used in section 12 of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1150)), and Tyonek Native Corporation, executed by authorized officers or representatives of each of these entities. Duplicate originals of the Memorandum of Understanding shall be maintained and made available for public inspection and copying in the Office of the Secretary, at Washington, District of Columbia, and in the Office of the Governor of the State of Alaska, at Juneau, Alaska.

(4) The following procedures and requirements are established to promote finality of administrative adjudication of claims of valid existing rights filed by Village Corporations, to clarify and simplify the title status of lands subject to such claims, and to avoid potential impairment of railroad operations resulting from joint or divided ownership in substantial segments of right-of-way:

(A)(i) Prior to final administrative adjudication of Village Corporation claims of valid existing rights in land subject to the license granted under section 604(b)(1)(C) of this title, the Secretary of the Interior may, notwithstanding any other provision of law, accept relinquishment of so much of such claims as involved lands within the right-of-way through execution of an agreement with the appropriate Village Corporation effective on or after the date of transfer. Upon such relinquishment, the interest of the United States in the right-of-way shall be conveyed to the State pursuant to section 604(b)(1)(B) or (2) of this title.

(ii) With respect to a claim described in clause (i) of this subparagraph that is not settled or relinquished prior to final administrative adjudication, the Congress finds that exclusive control over the right-of-way by the Alaska Railroad has been and continues to be necessary to afford sufficient protection for safe and economic operation of the railroad. Upon failure of the interested Village Corporation to relinquish so much of its claims as involve lands within the right-of-way prior to final adjudication of valid existing rights, the Secretary shall convey to the State pursuant to section 604(b)(1)(B) or (2) of this title all right, title and interest of the United States in and to the right-of-way free and clear of such Village Corporation's claim to and interest in lands within such right-of-way.

(B) Where lands within the right-of-way, or any interest in such lands, have been conveyed from Federal ownership prior to

the date of enactment of this Act, or is subject to a claim of valid existing rights by a party other than a Village Corporation, the conveyance to the State of the Federal interest in such properties pursuant to section 604(b)(1)(B) or (2) of this title shall grant not less than an exclusive-use easement in such properties. The foregoing requirements shall not be construed to permit the conveyance to the State of less than the entire Federal interest in the rail properties of the Alaska Railroad required to be conveyed by section 604(b) of this title. If an action is commenced against the State or the United States contesting the validity or existence of a reservation of right-of-way for the use or benefit of the Alaska Railroad made prior to the date of enactment of this Act, the Secretary of the Interior, through the Attorney General, shall appear in and defend such action.

(c)(1) The final administrative adjudication pursuant to subsection (b) of this section shall be final agency action and subject to judicial review only by an action brought in the United States District Court for the District of Alaska. Review of agency action pursuant to this title shall be expedited to the same extent as the expedited review provided by section 1108 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3168).

(2) No administrative or judicial action under this title shall enjoin or otherwise delay the transfer of the Alaska Railroad pursuant to this title, or substantially impair or impede the operations of the Alaska Railroad or the State-owned railroad.

(3) Before the date of transfer, the State shall have standing to participate in any administrative determination or judicial review pursuant to this title. If transfer to the State does not occur pursuant to section 604 of this title, the State shall not thereafter have standing to participate in any such determination or review.

43 USC 1611 note

(d)(1) Section 12(b)(7)(i) of the Act of January 2, 1976 (Public Law 94-204) is amended—

(A) by striking "subsection 12(b)(6)" and inserting in lieu thereof "section 12(b) (5) and (6)";

(B) by striking "12(b)(7)(ii)" and inserting in lieu thereof "12(b)(7)(iv)";

(C) by striking "crediting" and inserting in lieu thereof "using";

(D) by striking "this subsection 12(b)(7)(i)(b)" and inserting in lieu thereof "these subsections 12(b)(7) (i)(b) or (ii)";

(E) by striking "State" in the last sentence and inserting in lieu thereof "state"; and

(F) by striking the penultimate sentence.

(2) Section 12(b)(7) of such Act is amended—

(A) by redesignating subsections (ii) through (iv) as subsections (iv) through (vi), respectively; and

(B) by inserting immediately after subsection (i) the following:

"(ii) Subject to the exceptions stated in section 12(b)(9), and notwithstanding the foregoing subsection 12(b)(7)(i) and any provision of any other law or any implementing regulation inconsistent with this subsection, until the obligations of the Secretary and the Administrator of General Services under section 12(b) (5) and (6) are otherwise fulfilled:

"(A) concurrently with the commencement of screening of any excess real property, wherever located, for utilization by Federal agencies, the Administrator of General Services shall

notify the Region that such property may be available for conveyance to the Region upon negotiated sale. Within fifteen days of the date of receipt of such notice, the Region may advise the Administrator that there is a tentative need for the property to fulfill the obligations established under section 12(b) (5) and (6). If the Administrator determines the property should be disposed of by transfer to the Region, the Administrator or other appropriate Federal official shall promptly transfer such property;

40 USC 1611 note.

"(B) no disposition or conveyance of property under this subsection to the Region shall be made until the Administrator, after notice to affected State and local governments, has provided to them such opportunity to obtain the property as is recognized in title 40, United States Code and the regulations thereunder for the disposition or conveyance of surplus property; and

"(C) as used in this subsection, 'real property' means any land or interests in land owned or held by the United States or any Federal agency, any improvements on such land or rights to their use or exploitation, and any personal property related to the land.

"Real property."

"(iii) If the Region accepts any conveyance under section 12(b)(7)(i) or (ii), it shall be in exchange for acres or acre-equivalents as provided in subparagraph I(CX2Xe) of the document referred to in this section, except that, after the obligation of the Secretary and the Administrator under subparagraph I(CX2Xg) of that document has been fulfilled, the acre-equivalents under subparagraph I(CX2XeXiiiXA) shall be one-half the valued increment therein stated. The entitlement of the Region under section 12(b) of this Act shall be reduced by the number of acres or acre-equivalents attributed to the Region under this subsection. The Secretary and the Administrator are directed to execute an agreement with the Region which shall conform substantially to the 'Memorandum of Understanding Regarding the Implementation of Section 12(b)(7)', dated September 10, 1982, and submitted to the Senate Committee on Commerce, Science, and Transportation. The Secretary, the Administrator and the Region may thereafter otherwise agree to procedures to implement responsibilities under this section 12(b)(7), including establishment of accounting procedures and the delegation or reassignment of duties under this statute.".

40 USC 1611 note.

(3) Section 12(b)(7)(iv) of such Act, as so redesignated by paragraph (2) of this subsection, is amended—

(A) by striking "surplus" the first place it appears therein;

(B) by inserting immediately before the period at the end of the first sentence the following: "or paying for the conveyance of property pursuant to subsections (i) or (ii)";

(C) by inserting immediately after "account shall be" the following: "the sum of (1)";

(D) by striking "I(CX2Xe)" and inserting in lieu thereof "I(CX2XeXiiiXA)";

(E) by striking "the effective date of this subsection", and inserting in lieu thereof "December 2, 1980";

(F) by striking "and shall be adjusted" and inserting in lieu thereof "and (2) one-half the acre or acre-equivalent exchange value under subparagraph I(CX2XeXiiiXA) of ten townships fewer than the unfulfilled entitlement of the Region on the same date to acres or acre-equivalents under paragraph I(CX1)

of the document referred to in this section. The balance of the property account shall be adjusted in accordance with subsection 12(b)(7)(iii)"; and

(G) by striking "subsection 12(b)(6)" and inserting in lieu thereof "section 12(b) (5) and (6)".

43 USC 1611 note.

(4) Section 12(b)(7)(v) of such Act, as so redesignated by paragraph (2) of this subsection, is amended by striking "subsection (ii)" and inserting in lieu thereof "subsection (iv)".

43 USC 1611 note.

(5) Section 12(b)(8) of such Act is amended to read as follows:

"12(b)(8). Subject to the exceptions stated in section 12(b)(9), and notwithstanding any provisions of law or implementing regulation inconsistent with this section:

"(i) The deadlines in subparagraphs I(C)(2) (a) and (g) of the document referred to in this section shall be extended until the Secretary's obligations under section 12(b) (5) and (6) are fulfilled: *Provided*, That:

"(A) the obligation of the Secretary under subparagraph I(C)(2)(a) of such document shall terminate on such date, after July 15, 1984, that the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document: *Provided*, That the obligation of the Secretary under subparagraph I(C)(2)(g) of such document shall be fulfilled at such date, after July 15, 1984, that the sum of the acres or acre-equivalents identified for and placed in the pool and the acres or acre-equivalents used by the Region in purchasing property under section 12(b)(7) equals or exceeds 138,240 acres or acre-equivalents;

"(B) the authority of the Secretary under subparagraphs I(C)(2)(b) and I(C)(2)(g)(ii) of such document to contribute to the pool created under subparagraph I(C)(2)(a) of such document shall terminate (a) on July 15, 1984, if, by that date, the Secretary has fulfilled his obligation under subparagraph I(C)(2) (g), or (b) if not, on such date after July 15, 1984 as such obligation is fulfilled, or (c) if such obligation remains unfulfilled, on July 15, 1987;

"(C) the concurrence by the State as described in subparagraphs I(C)(2)(a)(vi) and I(C)(2)(c) of the document referred to in this section shall be deemed not required after the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document, but in no event after July 15, 1987. In lieu of such concurrence, after 1984 as to military property, and after the Secretary has fulfilled his obligation under subparagraph I(C)(2)(g) of that document or July 15, 1987, whichever is earlier, as to any other property, except property of the Alaska Railroad which is governed by subsection 12(b)(6)(i)(D) of this Act, the Secretary shall not place any lands in the selection pool referred to in subparagraphs I(C)(2) (a) and (g) of the document referred to in this section without the prior written concurrence of the State. Such concurrence shall be deemed obtained unless the State advises the Secretary within ninety days of receipt of a formal notice from the Secretary that he is considering placing property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question, requires the property for a public purpose of the State or municipality; and

"(D) notwithstanding section 606(a)(2) of the Alaska Railroad Transfer Act of 1982, the Secretary may include property of the Alaska Railroad in the pool of lands to be made available for selection to the extent that he is authorized to do so under a provision of section 12(b) of this Act if the State consents to its inclusion, which consent is not subject to any limitation under subsection 12(b)(3)(i)(C) herein: *Provided*, That, while the Alaska Railroad is the property of the United States, the Secretary shall obtain the consent of the Secretary of Transportation prior to including such property: *And provided further*, That, if the transfer of the Alaska Railroad to the State does not occur pursuant to the terms of the Alaska Railroad Transfer Act of 1982 or any amendments thereto, the State's consent shall be deemed obtained unless the State advises the Secretary in writing, within ninety days of receipt of a formal notice from the Secretary that he is considering placing such property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question, requires the property for a public purpose of the State or the municipality.

Alaska, p. 2564.

Alaska, p. 2568.

Alaska, p. 2556.

"(ii) In addition to the review required to identify public lands under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e)), the Secretary shall identify for inclusion in the pool all public lands (as such term is used under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e)), as described in subparagraph 1(C)(2)(a)(v) of the document referred to in this section, and shall, in so doing, review all Federal installations within the boundaries of the Cook Inlet Region whether within or without the areas withdrawn pursuant to section 11 of the Alaska Native Claims Settlement Act (43 U.S.C. 1610) or by the Secretary acting under authority contained in that section: *Provided*, That no such additional review under such subparagraph shall be required of military installations or of such other installations as may be mutually excluded from review by the Region and the Secretary: *And provided further*, That the Secretary shall not review any property of the Alaska Railroad unless such property becomes available for selection pursuant to subsection 12(b)(8)(i)(D).

"(iii) The concurrence required of the State as to the inclusion of any property in the pool under subparagraph 1(C)(2)(b) of the document referred to in this section shall be deemed obtained unless the State advises the Secretary in writing, within ninety days of receipt of a formal notice from the Secretary that the Secretary is considering placing property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question requires the property for a public purpose of the State or the municipality.

"(iv) The deadlines in subparagraph 1(C)(1)(b) of the document referred to in this section shall be extended for an additional twenty-four months beyond the dates established in the Act of [illegible], 1980 (Public Law 96-311; 94 Stat. 947).

Report to Congress.

"(E) On or before January 15, 1985, the Secretary shall report to the Congress with respect to:

"(A) such studies and inquiries as shall have been initiated by the Secretary and the Administrator of General Services, or have been prepared by other holding agencies,

to determine what lands, except for lands held by the Alaska Railroad or the State-owned railroad, within the boundaries of the Cook Inlet Region or elsewhere can be made available to the Region, to the extent of its entitlement;

"(B) the feasibility and appropriate nature of reimbursement of the Region for its unfulfilled entitlement as valued in subsection 12(b)(7)(iv) of this Act;

"(C) the extent to which implementation of the mechanisms established in section 12(b)(7) promise to meet such unfulfilled entitlement;

"(D) such other remedial legislation or administrative action as may be needed; and

"(E) the need to terminate any mechanism established by law through which the entitlement of the Region may be completed.".

43 USC 1611 note.

(6) Section 12(b) of such Act is amended by adding at the end thereof the following:

"12(b)(9). No disposition or conveyance of property located within the State to the Region under section 12(b)(6), 12(b)(7) and 12(b)(8), as amended, shall be made if the property is subject to an express waiver of rights under the provisions of subparagraph 1(C)(2)(f) of the document referred to in this section, or if such disposition or conveyance violates valid rights, including valid selections or valid authorized agreements, of Native Corporations (as such term is used in section 102(6) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3102(6)) or the State existing at the time of such disposition or conveyance under section 6 of Public Law 85-508, as amended (excepting section 906(e) of the Alaska National Interest Lands Conservation Act), sections 12(a), 12(b), 16(b) or 22(f) of the Alaska Native Claims Settlement Act, section 12(h) of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1154), or sections 1416, 1418 through 1425 (inclusive), 1427 through 1434 (inclusive), or 1436 of the Alaska National Interest Lands Conservation Act: *Provided, however,* That nothing within this subsection 12(b)(9) shall diminish such rights and priorities as the Region has under section 12(b) of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1151), as amended by section 4 of the Act of October 4, 1976 (Public Law 94-456; 90 Stat. 1935), section 3 of the Act of November 15, 1977 (Public Law 95-178; 91 Stat. 1369), section 2 of the Act of August 14, 1979 (Public Law 96-55; 93 Stat. 386), the Act of July 17, 1980 (Public Law 96-311; 94 Stat. 947), and section 1435 of the Alaska National Interest Lands Conservation Act.

43 USC 1611 note.

"12(b)(10). For the purpose of its incorporation into this section, paragraph 1(C)(1) of the document referred to in this section is amended as follows: (1) by striking 'withdrawn' and inserting in lieu thereof 'withdrawn or formerly withdrawn'; (2) by striking '17(d)(1)' and inserting in lieu thereof '17(d)(1) and (2)'; and (3) by striking the last sentence of subparagraph 1(C)(1)(a) and inserting in lieu thereof the following: 'Cook Inlet Region, Incorporated shall not nominate any lands within the boundaries of any conservation system unit, national conservation area, national recreation area, national forest, defense withdrawal, or any lands that were made available to the State for selection pursuant to sections 2 and 5 of the State-Federal Agreement of September 1, 1972.'.

"12(b)(11). Notwithstanding the provisions of section 906 of the Alaska National Interest Lands Conservation Act and section 6(i) of the Alaska Statehood Act (72 Stat. 339): 43 USC 1635. 43 USC note prec. 21.

"(i) The State is hereby authorized to convey to the United States for reconveyance to the Region, and the Secretary is directed to accept and so reconvey, lands tentatively approved for patent or patented to the State, if the State and the Region enter into an agreement that such lands shall be reconveyed to the Region to fulfill all or part of its entitlement under paragraph 1(CX1) of the document referred to in this section: *Provided*, That the acreage of lands conveyed to the United States under this provision shall be added to the State's unfulfilled entitlement pursuant to section 6 of the Alaska Statehood Act, and the number of townships to be nominated, pooled, struck, selected and conveyed pursuant to paragraph 1(CX1) of the document referred to in this section shall be reduced accordingly.

"(ii) The Secretary is directed to convey to the Region lands selected by the State prior to July 18, 1973 or pursuant to sections 2 and 5 of the State-Federal Agreement of September 1, 1972, if the State relinquishes such selections and enters into an agreement with the Region that such lands shall be reconveyed to the Region to fulfill all or part of its entitlement under paragraph 1(CX1) of the document referred to in this section, and the number of townships to be nominated, pooled, struck, selected and conveyed pursuant to paragraph 1(CX1) of the document referred to in this section shall be reduced accordingly.

"(iii) The Secretary, in the Secretary's discretion, is authorized to enter into an agreement with the State and the Region to implement the authority contained in this section 12(b)(11), which agreement may provide for conveyances directly from the State to the Region. Conveyances directly conveyed shall be deemed conveyances from the Secretary pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).".

(e) The State shall be liable to a party receiving a conveyance of land among the rail properties of the Alaska Railroad subject to the license granted pursuant to section 804(b)(1)(C) of this title for damage resulting from use by the State of the land under such license in a manner not authorized by such license. 43 USC 1203.

EMPLOYEES OF THE ALASKA RAILROAD

SEC. 607. (a)(1) Any employees who elect to transfer to the State-owned railroad and who on the day before the date of transfer are subject to the civil service retirement law (subchapter III of chapter 83 of title 5, United States Code) shall, so long as continually employed by the State-owned railroad without a break in service, continue to be subject to such law, except that the State-owned railroad shall have the option of providing benefits in accordance with the provisions of paragraph (2) of this subsection. Employment by the State-owned railroad without a break in continuity of service shall be considered to be employment by the United States Government for purposes of subchapter III of chapter 83 of title 5, United States Code. The State-owned railroad shall be the employing agency for purposes of section 8334(a) of title 5, United States Code, and shall contribute to the Civil Service Retirement and Disability 45 USC 1211. 5 USC 8331.

Fund a sum as provided by such section, except that such sum shall be determined by applying to the total basic pay (as defined in section 8331(3) of title 5, United States Code) paid to the employees of the State-owned railroad who are covered by the civil service retirement law, the per centum rate determined annually by the Director of the Office of Personnel Management to be the excess of the total normal cost per centum rate of the civil service retirement system over the employee deduction rate specified in section 8334(a) of title 5, United States Code. The State-owned railroad shall pay into the Federal Civil Service Retirement and Disability Fund that portion of the cost of administration of such Fund which is demonstrated by the Director of the Office of Personnel Management to be attributable to its employees.

(2) At any time during the two-year period commencing on the date of transfer, the State-owned railroad shall have the option of providing to transferred employees retirement benefits, reflecting prior Federal service, in or substantially equivalent to benefits under the retirement program maintained by the State for State employees. If the State decides to provide benefits under this paragraph, the State shall provide such benefits to all transferred employees, except those employees who will meet the age and service requirements for retirement under section 8336(a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program.

(3) If the State provides benefits under paragraph (2) of this subsection—

(A) the provisions of paragraph (1) of this subsection regarding payments into the Civil Service Retirement and Disability Fund for those employees who are transferred to the State program shall have no further force and effect (other than for employees who will meet the age and service requirements for retirement under section 8336(a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program); and

(B) all of the accrued employee and employer contributions and accrued interest on such contributions made by and on behalf of the transferred employees during their prior Federal service (other than amounts for employees who will meet the age and service requirements for retirement under section 8336 (a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program) shall be withdrawn from the Federal Civil Service Retirement and Disability Fund and shall be paid into the retirement fund utilized by the State-owned railroad for the transferred employees, in accordance with the provisions of paragraph (2) of this subsection. Upon such payment, credit for prior Federal service under the Federal civil service retirement system shall be forever barred, notwithstanding the provisions of section 8334 of title 5, United States Code.

(b) Employees of the Alaska Railroad who do not transfer to the State-owned railroad shall be entitled to all of the rights and benefits available to them under Federal law for discontinued employees.

(c) Transferred employees whose employment with the State-owned railroad is terminated during the two-year period commencing on the date of transfer shall be entitled to all of the rights and benefits of discontinued employees that such employees would have had under Federal law if their termination had occurred immediately before the date of the transfer, except that financial compensation paid to officers of the Alaska Railroad shall be limited to that compensation provided pursuant to section 504(dX3X2) of this title. Such employees shall also be entitled to seniority and other benefits accrued under Federal law while they were employed by the State-owned railroad on the same basis as if such employment had been Federal service.

(d) Any employee who transfers to the State-owned railroad under this title shall not be entitled to lump-sum payment for unused annual leave under section 5551 of title 5, United States Code, but shall be credited by the State with the unused annual leave balance at the time of transfer.

STATE OPERATION

SEC. 508. (aX1) After the date of transfer to the State pursuant to section 604 of this title, the State-owned railroad shall be a rail carrier engaged in interstate and foreign commerce subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of subtitle IV of title 49, United States Code, and all other Acts applicable to rail carriers subject to that chapter, including the antitrust laws of the United States, except, so long as it is an instrumentality of the State of Alaska, the Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.), the Railroad Retirement Tax Act (26 U.S.C. 3201 et seq.), the Railway Labor Act (45 U.S.C. 151 et seq.), the Act of April 22, 1908 (45 U.S.C. 51 et seq.) (popularly referred to as the "Federal Employers' Liability Act"), and the Railroad Unemployment Insurance Act (45 U.S.C. 351 et seq.). Nothing in this title shall preclude the State from explicitly invoking by law any exemption from the antitrust laws as may otherwise be available. 45 USC 1207.

(2) The transfer to the State authorized by section 504 of this title and the conferral of jurisdiction to the Interstate Commerce Commission pursuant to paragraph (1) of this subsection are intended to confer upon the State-owned railroad all business opportunities available to comparable railroads, including contract rate agreements meeting the requirements of section 10713 of title 49, United States Code, notwithstanding any participation in such agreements by connecting water carriers.

(3) All memoranda which sanction noncompliance with Federal railroad safety regulations contained in 49 CFR Parts 209–236, and which are in effect on the date of transfer, shall continue in effect according to their terms as "waivers of compliance" (as that term is used in section 202(c) of the Federal Railroad Safety Act of 1970 (45 U.S.C. 431(c))).

(4) The operation of trains by the State-owned railroad shall not be subject to the requirement of any State or local law which specifies the minimum number of crew members which must be employed in connection with the operation of such trains.

(5) Revenues generated by the State-owned railroad shall be retained and managed by the State-owned railroad for railroad and related purposes.

(5XA) After the date of transfer, continued operation of the Alaska Railroad by a public corporation, authority or other agency of the

State shall be deemed to be an exercise of an essential governmental function, and revenue derived from such operation shall be deemed to accrue to the State for the purposes of section 115(a)(1) of the Internal Revenue Code of 1954 (26 U.S.C. 115(a)(1)). Obligations issued by such entity shall also be deemed obligations of the State for the purposes of section 103(a)(1) of the Internal Revenue Code of 1954 (26 U.S.C. 103(a)(1)), but not obligations within the meaning of section 103(b)(2) of the Internal Revenue Code of 1954 (26 U.S.C. 103(b)(2)).

(B) Nothing in this title shall be deemed or construed to affect customary tax treatment of private investment in the equipment or other assets that are used or owned by the State-owned railroad.

(b) As soon as practicable after the date of enactment of this Act, the Interstate Commerce Commission shall promulgate an expedited, modified procedure for providing on the date of transfer a certificate of public convenience and necessity to the State-owned railroad. No inventory, valuation, or classification of property owned or used by the State-owned railroad pursuant to subchapter V of chapter 107 of title 49, United States Code (49 U.S.C. 10781 et seq.) shall be required during the two-year period after the date of transfer. The provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and section 382(b) of the Energy Policy and Conservation Act (42 U.S.C. 6362(b)) shall not apply to actions of the Commission under this subsection.

(c) The State-owned railroad shall be eligible to participate in all Federal railroad assistance programs on a basis equal to that of other rail carriers subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of subtitle IV of title 49, United States Code.

(d) After the date of transfer to the State pursuant to section 604 of this title, the portion of the rail properties within the boundaries of the Chugach National Forest and the exclusive-use easement within the boundaries of the Denali National Park and Preserve shall be subject to laws and regulations for the protection of forest and park values. The right to fence the exclusive-use easement within Denali National Park and Preserve shall be subject to the concurrence of the Secretary of the Interior. The Secretary of the Interior, or the Secretary of Agriculture where appropriate, shall not act pursuant to this subsection without consulting with the Governor of the State of Alaska or in such a manner as to unreasonably interfere with continued or expanded operations and support functions authorized under this title.

FUTURE RIGHTS-OF-WAY

45 USC 1208.

SEC. 609. (a) After the date of enactment of this Act, the State or State-owned railroad may request the Secretary of the Interior or the Secretary of Agriculture, as appropriate under law, to expeditiously approve an application for a right-of-way in order that the Alaska Railroad or State-owned railroad may have access across Federal lands for transportation and related purposes. The State or State-owned railroad may also apply for a lease, permit, or conveyance of any necessary or convenient terminal and station grounds and material sites in the vicinity of the right-of-way for which an application has been submitted.

(b) Before approving a right-of-way application described in subsection (a) of this section, the Secretary of the Interior or the

Secretary of Agriculture, as appropriate, shall consult with the Secretary. Approval of an application for a right-of-way, permit, lease, or conveyance described in subsection (a) of this section shall be pursuant to applicable law. Rights-of-way, grounds, and sites granted pursuant to this section and other applicable law shall conform, to the extent possible, to the standards provided in the Act of March 12, 1914 (43 U.S.C. 975 et seq.) and section 503(6) of this title. Such conformance shall not be affected by the repeal of such Act under section 615 of this title.

(c) Reversion to the United States of any portion of any right-of-way or exclusive-use easement granted to the State or State-owned railroad shall occur only as provided in section 610 of this title. For purposes of such section, the date of the approval of any such right-of-way shall be deemed the "date of transfer".

REVERSION

Sec. 610. (a) If, within ten years after the date of transfer to the State authorized by section 504 of this title, the Secretary finds that all or part of the real property transferred to the State under this title, except that portion of real property which lies within the boundaries of the Denali National Park and Preserve, is converted to a use that would prevent the State-owned railroad from continuing to operate, that real property (including permanent improvements to the property) shall revert to the United States Government, or (at the option of the State) the State shall pay to the United States Government an amount determined to be the fair market value of that property at the time its conversion prevents continued operation of the railroad. 43 USC 1609

(b) If, after the date of transfer pursuant to section 504 of this title, the State discontinues use of any land within the right-of-way, the State's interest in such land shall revert to the United States. The State shall be considered to have discontinued use within the meaning of this subsection and subsection (d) of this section when:

(1) the Governor of the State of Alaska delivers to the Secretary of the Interior a notice of such discontinuance, including a legal description of the property subject to the notice, and a quitclaim deed thereto; or

(2) the State has made no use of the land for a continuous period of eighteen years for transportation, communication, or transmission purposes. Notice of such discontinuance shall promptly be published in the Federal Register by the Secretary, the Secretary of the Interior, or the Secretary of Agriculture, and reversion shall be effected one year after such notice, unless within such one-year period the State brings an appropriate action in the United States District Court for the District of Alaska to establish that the use has been continuing without an eighteen-year lapse. Any such action shall have the effect of staying reversion until exhaustion of appellate review from the final judgment in that action or termination of the right to seek such review, whichever first occurs. Publication in Federal Register.

(c) Upon such reversion pursuant to subsection (b) of this section, the Secretary of the Interior shall immediately convey by patent to abutting landowners all right, title and interest of the United States. Where land abutting the reverted right-of-way is owned by different persons or entities, the conveyance made pursuant to this

subsection shall extend the property of each abutting owner to the centerline of the right-of-way.

(d) If use is discontinued (as that term is used in subsection (b) of this section) of all or part of those properties of the Alaska Railroad transferred to the State pursuant to this title which lie within the boundaries of the Denali National Park and Preserve or the Chugach National Forest, such properties or part thereof (including permanent improvements to the property) shall revert to the United States and shall not be subject to subsection (c) of this section. Upon such reversion, jurisdiction over that property shall be transferred to the Secretary of the Interior or the Secretary of Agriculture, as appropriate, for administration as part of the Denali National Park and Preserve or the Chugach National Forest.

(e) Except as provided in subsections (a) through (d) of this section, if, within five years after the date of transfer to the State pursuant to section 604 of this title, the State sells or transfers all or substantially all of the State-owned railroad to an entity other than an instrumentality of the State, the proceeds from the sale or transfer that exceed the cost of any rehabilitation and improvement made by the State for the State-owned railroad and any net liabilities incurred by the State for the State-owned railroad shall be paid into the general fund of the Treasury of the United States.

(f) The Attorney General, upon the request of the Secretary, the Secretary of the Interior, or the Secretary of Agriculture, shall institute appropriate proceedings to enforce this section in the United States District Court for the District of Alaska.

OTHER DISPOSITION

45 USC 1210

SEC. 611. If the Secretary has not certified that the State has satisfied the conditions under section 604 within one year after the date of delivery of the report referred to in section 605(a) of this title, the Secretary may dispose of the rail properties of the Alaska Railroad. Any disposal under this section shall give preference to a buyer or transferee who will continue to operate rail service, except that—

(1) such preference shall not diminish or modify the rights of the Cook Inlet Region, Incorporated (as that term is used in section 12 of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1150)), pursuant to such section, as amended by section 606(d) of this title; and

Ante, p. 2564

(2) this section shall not be construed to diminish or modify the powers of consent of the Secretary or the State under section 12(b)(8) of such Act, as amended by section 606(d)(5) of this title.

Any disposal under this section shall be subject to valid existing rights.

DENALI NATIONAL PARK AND PRESERVE LANDS

45 USC 1211.

SEC. 612. On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), that portion of rail properties of the Alaska Railroad within the Denali National Park and Preserve shall, subject to the exclusive-use easement granted pursuant to section 604(b)(1)(D) of this title, be transferred to the Secretary of the Interior for administration as part of the Denali National Park and Preserve, except that a

transferee under section 611 of this title shall receive the same interest as the State under section 604(b)(1)(D) of this title.

APPLICABILITY OF OTHER LAWS

Sec. 613. (a) The provisions of chapter 5 of title 5, United States Code (popularly known as the Administrative Procedure Act, and including provisions popularly known as the Government in the Sunshine Act), the Federal Advisory Committee Act (5 U.S.C. App. 1 et seq.), the National Historic Preservation Act (16 U.S.C. 470 et seq.), section 4(f) of the Department of Transportation Act (49 U.S.C. 1653(f)), and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall not apply to actions taken pursuant to this title, except to the extent that such laws may be applicable to granting of rights-of-way under section 609 of this title. 43 USC 1212. 5 USC 500 et seq.

(b) The enactment of this title, actions taken during the transition period as provided in section 605 of this title, and transfer of the rail properties of the Alaska Railroad under authority of this title shall be deemed not to be the disposal of Federal surplus property under the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484) or the Act of October 3, 1944, popularly referred to as the "Surplus Property Act of 1944" (50 U.S.C. App. 1622). Such events shall not constitute or cause the revocation of any prior withdrawal or reservation of land for the use of the Alaska Railroad under the Act of March 12, 1914 (43 U.S.C. 975 et seq.), the Alaska Statehood Act (note preceding 48 U.S.C. 21), the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), the Act of January 2, 1975 (Public Law 94-204; 89 Stat. 1145), the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2371), and the general land and land management laws of the United States.

(c) Beginning on the date of enactment of this Act, the ceiling on Government contributions for Federal employees health benefits insurance premiums under section 8906(b)(2) of title 5, United States Code, shall not apply to the Alaska Railroad.

(d) Nothing in this title is intended to enlarge or diminish the acreage entitlement of the State or any Native Corporation pursuant to existing law.

(e) With respect to interests of Native Corporations under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) and the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.), except as provided in this title, nothing contained in this title shall be construed to deny, enlarge, grant, impair, or otherwise affect any judgment heretofore entered in a court of competent jurisdiction, or valid existing right or claim of valid existing right.

CONFLICT WITH OTHER LAWS

Sec. 614. The provisions of this title shall govern if there is any conflict between this title and any other law. 43 USC 1213.

REPEAL AND AMENDMENT OF EXISTING STATUTES

Sec. 615. (a) On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), whichever first occurs, the following provisions are repealed:

(1) The Act of March 12, 1914 (43 U.S.C. 975 et seq.). 16 USC 353a.

45 USC 801a.

(2) The Act of June 24, 1946, to authorize certain expenditures by the Alaska Railroad (60 Stat. 304).

(3) The Act of July 19, 1932, concerning mining of coal adjacent to the Alaska Railroad (30 U.S.C. 208a).

(4) Section 6(i) of the Department of Transportation Act (49 U.S.C. 1655(i)).

(b) On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), whichever first occurs, the following provisions are amended as follows:

(1) Title 5, United States Code, is amended—

(A) in section 305(a), by striking paragraph (3), and by redesignating paragraphs (4)–(8) as paragraphs (3)–(7), respectively;

(B) in section 3401(1), by striking clause (iii), and by redesignating clauses (iv)–(viii) as clauses (iii)–(vii), respectively;

(C) in section 5102(a)(1), by striking clause (iii), and by redesignating clauses (iv)–(ix) as clauses (iii)–(viii), respectively;

(D) in section 5342(a)(1), by striking subparagraph (C), and by redesignating subparagraphs (D)–(J) as subparagraphs (C)–(I), respectively; and

(E) in section 7327, by striking subsection (a), and by striking the subsection designation "(b)".

(2) Section 102(7) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 802(7)) is amended by striking "and the Alaska Railroad".

(3) Section 10749(b) of title 49, United States Code, is amended—

(A) by inserting "or" at the end of paragraph (1)(B);

(B) by striking "; or" at the end of paragraph (2) and inserting in lieu thereof a period; and

(C) by striking paragraph (3).

(4) Section 324(a)(1) of the Public Health Service Act (42 U.S.C. 251(a)(1)) is amended by striking "employees of the Alaska Railroad and".

(5) Section 202(3)(a) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 410hh-1(3)(a)) is amended by striking the third sentence.

(6) Section 1(o) of the Railroad Retirement Act of 1974 (45 U.S.C. 231(o)) is amended by inserting immediately after "National Transportation Safety Board," the following: "the State-owned railroad (as defined in the Alaska Railroad Transfer Act of 1982), so long as it is an instrumentality of the State of Alaska,".

SEPARABILITY

45 USC 1214.

SEC. 616. If any provision of this title or the application thereof to any person or circumstance is held invalid, the remainder of this title and the application of such provision to other persons or circumstances shall not be affected thereby.

ALASKA RAILROAD TRANSFER LEGISLATION
SECTION-BY-SECTION ANALYSIS

SECTION 1--TITLE

This section provides that the legislation may be cited as "Alaska Railroad Transfer Act of 1982."

SECTION 2--FINDINGS

This section states the reasons that the Alaska Railroad should be transferred to the State of Alaska. While the railroad has served the interest of the Federal Government in the past, today it primarily serves residents and businesses of the State. Further, the transfer is consistent with the Federal Governments efforts today to transfer programs to the States whenever appropriate. Finally the transfer is necessary in order to insure that in the future the railroad will be rated and it's services expanded to meet the needs of the State and the railroad users.

SECTION 3--DEFINITIONS

This section defines the major terms used in the legislation. Among those described is "rail properties of the Alaska Railroad." This definition is important because it describes the rail properties to be transferred. As defined in the legislation, rail properties means all right, title, and interest to real and personal properties held by or for the Alaska Railroad as of the date of enactment with limited exceptions, as follows: (1) The unexercised reservation to the United States in all patents to lands as provided for the construction of future rights-of-way; (2) the right of the Secretary of Transportation to exercise the power of eminent domain; (3) any money in the Alaska Railroad Revolving Fund that the Secretary and the State agree is needed to pay certain Federal obligations arising from operation of the railroad, which are not assumed by the State; (4) certain properties that the Secretary determines, with the consent of the State, to be necessary to carry out Federal functions after the transfer; and (5) certain properties in Denali National Park and Preserve.

This section defines "exclusive-use easement" as a surface easement for transportation, communication, and transmission purposes and support functions together with the right to use the subsurface if necessary for such purposes. The definition further guarantees subjacent and lateral support and entitles the easement holder to fence, afix, track fixtures and structures to and exclude persons from the land subject to the easement.

This section also defines the terms "State" and "State-owned Railroad". The definitions are broadly worded to give the State maximum flexibility in designating an appropriate organization for state ownership, operation, and management of the railroad after the transfer.

SECTION 4--TRANSFER AUTHORIZATION

This section establishes the primary transfer components. Under subsection (a), the Secretary of Transportation is required to transfer the rail properties of the Alaska railroad to the State without direct monetary consideration as soon as possible after four specified certifications are made.

Subsection (b) requires the Secretary of Transportation after consultation with the Secretary of the Interior to simultaneously deliver to the State the following documents on the date of transfer; (1) a bill of sale conveying title to all personal rail properties of the Alaska Railroad; (2) an interim conveyance of the real properties of the Alaska Railroad which are not subject to unresolved claims of valid existing rights; (3) an exclusive license to use rail properties not conveyed above pending resolution of claims of valid existing rights in accordance with the review, settlement, and final adjudication procedures established in section 6 (b); (4) an exclusive-use easement for railroad purposes and other existing uses to right-of-way lands located with the Denali National Park and Preserve and title to the improvements within that right-of-way. All other rail properties located in the park are transferred to the Department of the Interior for administration as part of the park.

Lands subject to an interim conveyance (including lands to be conveyed following the review, settlement and adjudication process discussed above), must be surveyed by the Department of the Interior within five years after the date of enactment pursuant to section 606 (b) (2)of the interim conveyance. Following completion of the survey, the Secretary is required to issue a patent to the State.

Subsection (c) provides that interim conveyances and patents issued to the State must transfer all U.S. reservations for the Alaska Railroad except unexercised reservations for future rights-of-way under the 1914 Alaska Railroad Act. In addition, there shall be reserved to the Secretaries of Interior, Defense and Agriculture as appropriate existing easements for administration identified in the closing report. The appropriate secretary may also obtain future easements with State consent. Existing and future easements may not interfere with operations and support functions of the Alaska Railroad.

The Park Service will continue to use and occupy through the Secretary of the Interior a small tract at Talkeetna, Alaska currently used for certain park activities. Son long as this use or occupation does not interfere with railroad operations.

With respect to the required certifications, subsection (d) directs the Secretary of Transportation to find that the State will operate the railroad as a carrier in intrastate and interstate commerce. In addition,

the Secretary is to certify that the State will assume the rights, liabilities and obligations of the Railroad. However, the State will not be responsible for claims or causes accruing on or before the date of transfer, or judgements rendered before the transfer, except those tort actions which result in claims in less than $2,500.

The Secretary must also find the State has established specified employee protection arrangements to apply during the two year period after the date of transfer. For those employees who are not officers and who choose to transfer to the State-owned railroad, the state must ensure that they are retained in their same positions, and unless otherwise agreed to, at least at the same level of compensation in effect at the time of transfer. These provisions are not to apply to those employees who are reassigned, retired, or separated for cause or lack of work.

Under this subsection, the State is to continue existing collective bargaining agreements during this two year period unless otherwise agreed to. This subsection further provides that these agreements are to be renegotiated during this period unless otherwise agreed to, and that they are to expire at the end of the two year period.

Finally, with respect to these employees, the State is to ensure that certain Federal benefits are retained. These include accrued leave, insurance, seniority rights, and cost of living increases. Also those employees who are transferred to the State-owned railroad but terminated or laid off, during the transition period, shall be entitled to priority of reemployment in the railroad and prior Federal service is to be counted in determining seniority for such purposes.

For officers of the railroad including the General Manager, Assistant General Manager, Assistant to the General Manager, Chief of Administration and Chief Consul, the Secretary must also certify that the State has agreed to retain those officers for at least one year from the date of transfer (except where separated for cause, resignation, retirement, or lack of work), at or above their base salary in effect on the date of transfer in such positions as the State may determine. As an alternative, the State may remove these employees upon payment of lump sum severance pay equal to their base salary for one year diminished pro-rata for employment by the state owned railroad within one year of the date of transfer prior to separation. Benefit guarantees discussed above for officers are in effect for one year only.

The fourth certification requirement insures that the State will allow the Secretary of Transportation access to records of the railroad and employees as needed to carry out the remaining Federal responsibilities connected with the transfer.

SECTION 5—TRANSITION PERIOD

This section sets for the the activities which are to occur, or are not the occur, during the period of enactment of the Legislation and the date of transfer. Subsection (a) provides for joint submission by the Secretary of Transportation and the Governor of Alaska, no later than six

months after enactment, of a report that describes in detail the rail properties of the railroad, the liabilities and obligations to be assumed by the State, and the sum of money, if any, in the Alaska Railroad Revolving Fund to be used by the Federal Government in carrying out it's remaining responsibilities.

Under Subsection (b), the State shall have access to properties of, and records pertaining to the railroad in order to evaluate and prepare for the transfer. Also the Secretary is directed not to take certain actions such as transfer, sale, or lease of the railroad properties or the obligation of railroad monies, without the consent of the State.

Finally, subsection (c) directs the Secretary prior to transfer to ensure that the railroad's accounting practices and systems conform to reporting standards set by the ICC. This action will facilitate the transition of the railroad to it's status as a regulated carrier in intrastate and interstate commerce.

SECTION 6—LANDS TO BE TRANSFERRED

This section sets forth the status of the rail properties to be transferred and provides for the orderly adjudication of claims of valid existing rights to those properties. Subsection (a) specifies that the property to be transferred is excluded from selection or conveyance provided under amendments to ANCSA relating to the Cook Inlet Region, Inc., the Chugach Natives, Inc. and certain future Eklutna Village Corporation selections provided for in ANILCA.

Subsection (b) reinforces the Department of the Interiors existing responsibility to adjudicate third party claims and to issue written opinions and appropriate documents of title. Specifically, the Secretary of the Interior is directed to complete the determination of "smallest practicable tract" under section 3(e) of ANCSA within two years of the enactment of this legislation. Prior to initiating these adjudications, a 10-month period is provided whereby all affected parties are directed to make a good faith effort to review and settle as many of these claims as possible. This subsection specifies that until settlement or final adjudication, interim management of the railroad lands subject to claims of valid existing rights shall be in accordance with standards agreed to in the Memorandum of Understanding between the FRA, the State, Cook Inlet Region, Inc. and Village Corporations. In recognition of the importance of maintaining exclusive control over right-of-way lands to ensure sufficient protection for safe and economic operation of the railroad, the final part of this subsection provides a process whereby Village Corporations are allowed to relinquish any claims to railroad lands within the right-of-way for subsequent transfer to the State. This provision further provides that failure to make such a relinquishment shall result in the conveyance to the State of all right, title and interest of the United States in the right-of-way free and clear of such claims.

Under subsection (c), any decision by the Secretary of the Interior pursuant to this section is open to review only by an action brought in the Federal District Court of Alaska and is to be expedited. The State is

allowed to participate in such an appeal as well as in any agency proceeding. To ensure that the goals of this legislation are not frustrated, this section further provides that no injunctive or other relief can delay the transfer of the railroad or impede its operations.

Lands among the rail properties are expressly excluded by subsection (d) from selection by Cook Inlet Region, Inc. (CIRI) and Chugach Natives, Inc. under 43 U.S.C.§1611 and sections 1425 and 1430 of P.L. 96-487 (ANILCA). Since the passage of P.L. 94-204 (ANCSA) in 1976, incorporating the Cook Inlet Land Exchange Agreement (exchange agreement), the Secretary of the Interior and the State of Alaska have been attempting to ensure the land entitlement of CIRI under that complex provision is fulfilled in a manner consistent with the interests of the State, environmental concerns, and concerns of other public and private entities.

In one of the integral parts of the exchange agreement, the "in-region pool" provision, the Secretary of the Interior, in conjunction with the General Services Administrator, was charged with promptly identifying and creating a selection pool of federal lands within the Cook Inlet Region. The transfer of the Alaska Railroad through this legislation would exclude rail properties from possible placement in the "in region" selection pool, unless the State or Secretary of Transportation consent to its inclusion.

ANILCA amended ANCSA to allow for "in-region pool" selections to occur out of state. Since the existing exchange agreement allows the Secretary of the Interior discretion to enlarge the "in region pool" using out of region entitlement, the objective of this section is to reaffirm this secretarial discretion and to make clear that out-of-state properties can be placed into the "in region pool". This subsection also allows CIRI to negotiate with local governments to obtain the properties being selected.

Utilization of CIRI's current statutory rights to obtain Federal surplus property wherever located will be essential for fulfillment of its entitlement. Therefore, a more detailed provision is needed to insure the properties will be made available. This section adjusts CIRI's current statutory right by specifically requiring that both the Secretary of the Interior and CIRI obtain early notice of potentially available properties. The amendments also clarify the Secretary of the Interior's authority to offer properties under his jurisdiction to CIRI as partial fulfillment of CIRI's entitlements.

In addition, to increase to properties within Alaska that can be placed into the "in region pool", section 6 extends CIRI's "in-region" priority statewide.

The amount of property within the "in-region pool" has been for various reasons less than the minimum amount required. On three separate occasions the original deadline on January 15, 1978 has had to be extended to recognize this fact. To ensure fulfillment, section 6 lifts the deadline until the pool is complete but in no event later than July 15, 1987.

Subsection (e) expressly provides that the State shall be liable to a party receiving a conveyance of land among the rail properties for damage

resulting in use by the State in a manner not authorized under the license provided in section 4.

SECTION 7—EMPLOYEES OF THE ALASKA RAILROAD

Subsection (a) of this section provides that those employees who transfer to the State-owned railroad and who presently participate in the Federal Civil Service System, may continue to participate in this system for as long as they continue to work for the State-owned railroad. However as an alternative, the State-owned railroad may provide such employees either in of substantially equivalent to those benefits the State provides it's employees under the State Retirement System. This section provides an exemption to the state alternative program for those transferred employees who are entitled to retire under the federal retirement system within five years of the date of transfer. These employees may elect to remain participants in the Federal system even if the State chooses to provide other benefits.

Subsection (b) of this section provides that those Federal employees who choose not to transfer to the State-owned railroad at the time the railroad is transferred to the State shall be entitled to all normal rights and benefits under federal law for discontinued employees.

Subsection (c) provides for similar protections for transferred employees whose employment with the State-owned railroad is involuntarily terminated during the two year period following the transfer.

SECTION 8—STATE OPERATION

Subsection (a) of this section provides that after the transfer, the State-owned railroad shall be subject to the same Federal laws, with some limited sections, as are other railroads, including the Interstate Commerce Act, the Federal antitrust laws (unless the State acts otherwise to invoke an exemption), and the railroad safety laws. The limited exemptions are the Railroad Retirement Act, the Railway Labor Act, the Federal Employers' Liability Act, and the Railroad Unemployment Insurance Act. All FRA memoranda which sanction noncompliance with Federal railroad safety regulations in effect on the date of transfer shall continue in effect according to their terms as "waivers of compliance".

In addition, subsection (a) exempts the State-owned railroad from any state or local statute specifying a minimum number of crew members that must be employed in connection with the operation of it's trains.

Subsection (a) specifies that the State-owned railroad shall retain and manage it's own revenues. The purpose of this provision is to avoid the need for annual appropriations by the State for the railroad.

Subsection (b) of this section requires the ICC to promulgate an expedited, modified procedure for providing the State-owned railroad a certificate of public need and necessity.

This subsection also exempts ICC actions under this subsection from the National Environmental Policy Act and the Energy Policy and Conservation Act in order to ensure an expeditious process.

Subsection (c) of this subsection provides that the State-owned railroad shall be eligible to participate in Federal assistance programs on the same basis as other railroads, including that provided for by the Railroad Revitalization and Regulatory Reform Act.

Subsection (d) of this section provides that the railroad properties within the Denali National Park and Preserve and Chugach National Forest shall be subject to applicable Federal Laws and regulations established for the protection of forest and park values. In making this determination, the appropriate secretary is to consult with the Governor of Alaska. Moreover, any determination by the Secretaries must be designed to avoid unreasonable interference with railroad operations. This subsection also requires that any decision to fence the right-of-way within Denali shall be subject to the concurrence of the Secretary of the Interior.

SECTION 9--FUTURE RIGHTS-OF-WAY

This section contemplates future rights-of-way for expansion of the railroad. Subsection (a) provides that the State or State-owned railroad may request the Secretary of the Interior, or the Secretary of Agriculture as appropriate, in consultation with the Secretary of Transportation to approve expeditiously pursuant to existing law, a right-of-way over Federal lands and applications for terminal and station grounds and material sites.

Subsection (b) specifies that any rights-of-ways and grounds and sites granted under this section must conform to the extent possible to the standards established in the Alaska Railroad Act of 1914.

Subsection (c) provides that a right-of-way granted under this section is subject to reversion in accordance with section 10 below.

SECTION 10--REVERSION

This section provides for the reversion to the United States of the properties of the Alaska Railroad if within [redacted] years of the transfer such properties are converted to a use that would prevent the State-owned railroad from continuing to operate. As an alternative to the actual reversion of the properties, the State at its option, may pay the United States an amount determined to be the value of the properties at the time they were converted to a use preventing the railroad from operating.

Subsection (b) specifically provides that if the State discontinues use of any land within the right-of-way for a continuous period of 18 years, or upon a formal notification of discontinuance from the State, the State's interest in these lands will revert to the United States.

Subsection (c) further states that upon such reversion, these lands will be conveyed by patent to abutting land owners, except as specified in subsection (d). This latter subsection provides that the portion of the right-of-way within the Denali National Park and Preserve and the Chugach National Forest will revert to the Department of the Interior and the Department of Agriculture, as appropriate, for administration as part of these units.

Subsection (e) provides that if the State sells or transfers the railroad within five years after the date of transfer, the proceeds from the sale or transfer that exceed the cost of any rehabilitation and improvements and any liabilities incurred by the State shall be paid to the United States.

SECTION 11—OTHER DISPOSITION

To ensure that the railroad is transferred from Federal ownership, this section authorizes the Secretary of Transportation to otherwise dispose of the railroad if satisfaction by the State of the four conditions under section 4 cannot be certified within a year of the delivery of the report mandated under section 5. Consistent with the concern for continued rail service, this section directs the Secretary to give preference to a prospective owner who will continue to operate rail service.

SECTION 12—DENALI NATIONAL PARK AND PRESERVE

All rail properties within the Denali National Park and Preserve are transferred to the Department of Interior for administration as part of the park subject to the exclusive-use easement discussed above.

SECTION 13—APPLICABILITY OF OTHER LAWS

This section exempts actions taken under the legislation from the requirements of a number of Federal statutes, including the National Environmental Policy Act and those provisions of the Administrative Procedures Act not pertaining to judicial review. The reasons for these exemptions is to ensure that the transfer process is not delayed.

This section also clarifies that actions taken under this legislation do not constitute a disposal of surplus Federal property or a revocation of withdrawals made from or confirmed for the Alaska Railroad under a number of specifically named and generally referenced land laws, including the Federal Land Policy and Management Act. These clarifications are necessary in order to ensure that the rail properties do not become available for entry or selection by third parties as a result of actions taken under the legislation.

SECTION 14—CONFLICT WITH OTHER LAWS

This section provides that this legislation shall govern in the event in any conflict between this legislation and any other law.

SECTION 15--REPEAL AND AMENDMENT OF EXISTING LAWS

This section repeals the Alaska Railroad enabling act and to other related laws, and makes conforming changes to other Federal laws that mention the Alaska Railroad. These changes would become effective at the times of transfer or other disposition or at the time of any other disposition of the railroad pursuant to Section 11 of this legislation.

SECTION 16--SEPARABILITY

This section provides that if any section is held invalid, other sections shall not be affected.

(2) a person who is able to assure that adequate transportation will be provided over a substantial portion of the feeder line described in subsection (a) of this section for a period of not less than 3 years; or

(3) any combination of members of the classes of applicants described in paragraphs (1) and (2) of this subsection.

Alaska Railroad Transfer Act of 1982

TITLE VI--ALASKA RAILROAD TRANSFER

SHORT TITLE

45 USC 1201 note

SEC. 601. This title may be cited as the "Alaska Railroad Transfer Act of 1982".

FINDINGS

45 USC 1201

SEC. 602. The Congress finds that—

(1) the Alaska Railroad, which was built by the Federal Government to serve the transportation and development needs of the Territory of Alaska, presently is providing freight and passenger services that primarily benefit residents and businesses in the State of Alaska;

(2) many communities and individuals in Alaska are wholly or substantially dependent on the Alaska Railroad for freight and passenger service and provision of such service is an essential governmental function;

(3) continuation of services of the Alaska Railroad and the opportunity for future expansion of those services are necessary to achieve Federal, State, and private objectives; however, continued Federal control and financial support are no longer necessary to accomplish these objectives;

(4) the transfer of the Alaska Railroad and provision for its operation by the State in the manner contemplated by this title is made pursuant to the Federal goal and ongoing program of transferring appropriate activities to the States;

(5) the State's continued operation of the Alaska Railroad following the transfer contemplated by this title, together with such expansion of the railroad as may be necessary or convenient in the future, will constitute an appropriate public use of the rail system and associated properties, will provide an essential governmental service, and will promote the general welfare of Alaska's residents and visitors; and

(6) in order to give the State government the ability to determine the Alaska Railroad's role in serving the State's transportation needs in the future, including the opportunity to extend rail service, and to provide a savings to the Federal Government, the Federal Government should offer to transfer the railroad to the State, in accordance with the provisions of this title, in the same manner in which other Federal transportation functions (including highways and airports) have been transferred since Alaska became a State in 1959.

DEFINITIONS

45 USC 1202

SEC. 603. As used in this title, the term—

(1) "Alaska Railroad" means the agency of the United States Government that is operated by the Department of Transportation as a rail carrier in Alaska under authority of the Act of

March 12, 1914 (43 U.S.C. 975 et seq.) (popularly referred to as the "Alaska Railroad Act") and section 6(i) of the Department of Transportation Act (49 U.S.C. 1655(i)), or, as the context requires, the railroad operated by that agency;

Definitions.

(2) "Alaska Railroad Revolving Fund" means the public enterprise fund maintained by the Department of the Treasury into which revenues of the Alaska Railroad and appropriations for the Alaska Railroad are deposited, and from which funds are expended for Alaska Railroad operation, maintenance and construction work authorized by law;

(3) "claim of valid existing rights" means any claim to the rail properties of the Alaska Railroad on record in the Department of the Interior as of the day before the date of enactment of this Act;

(4) "date of transfer" means the date on which the Secretary delivers to the State the four documents referred to in section 504(b)(1) of this title;

(5) "employees" means all permanent personnel employed by the Alaska Railroad on the date of transfer, including the officers of the Alaska Railroad, unless otherwise indicated in this title;

(6) "exclusive-use easement" means an easement which affords to the easement holder the following:

(A) the exclusive right to use, possess, and enjoy the surface estate of the land subject to this easement for transportation, communication, and transmission purposes and for support functions associated with such purposes;

(B) the right to use so much of the subsurface estate of the lands subject to this easement as is necessary for the transportation, communication, and transmission purposes and associated support functions for which the surface of such lands is used;

(C) subjacent and lateral support of the lands subject to the easement; and

(D) the right (in the easement holder's discretion) to fence all or part of the lands subject to this easement and to affix track, fixtures, and structures to such lands and to exclude other persons from all or part of such lands;

(7) "Native Corporation" has the same meaning as such term has under section 102(6) of the Alaska National Interest Lands Conservation Act (43 U.S.C. 3102(6));

(8) "officers of the Alaska Railroad" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager; Assistant General Manager; Assistant to the General Manager; Chief of Administration; and Chief Counsel;

(9) "public lands" has the same meaning as such term has under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e));

(10) "rail properties of the Alaska Railroad" means all right, title, and interest of the United States to lands, buildings, facilities, machinery, equipment, supplies, records, rolling stock, trade names, accounts receivable, good-will, and other real and personal property, both tangible and intangible, in which there is an interest reserved, withdrawn, appropriated, owned, administered or otherwise held or validly claimed for the Alaska Railroad by the United States or any agency or instrumentality

thereof as of the date of enactment of this Act, but excluding any such properties disposed of, and including any such properties acquired, in the ordinary course of business after that date but before the date of transfer, and also including the exclusive-use easement within the Denali National Park and Preserve conveyed to the State pursuant to this title and also excluding the following:

(A) the unexercised reservation to the United States for future rights-of-way required in all patents for land taken up, entered, or located in Alaska, as provided by the Act of March 12, 1914 (43 U.S.C. 975 et seq.);

(B) the right of the United States to exercise the power of eminent domain;

(C) any moneys in the Alaska Railroad Revolving Fund which the Secretary demonstrates, in consultation with the State, are unobligated funds appropriated from general tax revenues or are needed to satisfy obligations incurred by the United States in connection with the operation of the Alaska Railroad which would have been paid from such Fund but for this title and which are not assumed by the State pursuant to this title;

(D) any personal property which the Secretary demonstrates, in consultation with the State, prior to the date of transfer under section 604 of this title, to be necessary to carry out functions of the United States after the date of transfer; and

(E) any lands or interest therein (except as specified in this title) within the boundaries of the Denali National Park and Preserve;

(11) "right-of-way" means, except as used in section 609 of this title—

(A) an area extending not less than one hundred feet on both sides of the center line of any main line or branch line of the Alaska Railroad; or

(B) an area extending on both sides of the center line of any main line or branch line of the Alaska Railroad appropriated or retained by or for the Alaska Railroad that, as a result of military jurisdiction over, or non-Federal ownership of, lands abutting the main line or branch line, is of a width less than that described in subparagraph (A) of this paragraph;

(12) "Secretary" means the Secretary of Transportation;

(13) "State" means the State of Alaska or the State-owned railroad, as the context requires;

(14) "State-owned railroad" means the authority, agency, corporation or other entity which the State of Alaska designates or contracts with to own, operate or manage the rail properties of the Alaska Railroad or, as the context requires, the railroad owned, operated, or managed by such authority, agency, corporation, or other entity; and

(15) "Village Corporation" has the same meaning as such term has under section 3(j) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(j)).

TRANSFER AUTHORIZATION

SEC. 604. (a) Subject to the provisions of this title, the United States, through the Secretary, shall transfer all rail properties of the Alaska Railroad to the State. Such transfer shall occur as soon as practicable after the Secretary has made the certifications required by subsection (d) of this section and shall be accomplished in the manner specified in subsection (b) of this section. 45 USC 1208.

(b)(1) On the date of transfer, the Secretary shall simultaneously:

(A) deliver to the State a bill of sale conveying title to all rail properties of the Alaska Railroad except any interest in real property;

(B) deliver to the State an interim conveyance of the rail properties of the Alaska Railroad that are not conveyed pursuant to subparagraph (A) of this paragraph and are not subject to unresolved claims of valid existing rights;

(C) deliver to the State an exclusive license granting the State the right to use all rail properties of the Alaska Railroad not conveyed pursuant to subparagraphs (A) or (B) of this paragraph pending conveyances in accordance with the review and settlement or final administrative adjudication of claims of valid existing rights;

(D) convey to the State a deed granting the State (i) an exclusive-use easement for that portion of the right-of-way of the Alaska Railroad within the Denali National Park and Preserve extending not less than one hundred feet on either side of the main or branch line tracks, and eight feet on either side of the centerline of the "Y" track connecting the main line of the railroad to the power station at McKinley Park Station and (ii) title to railroad-related improvements within such right-of-way.

Prior to taking the action specified in subparagraphs (A) through (D) of this paragraph the Secretary shall consult with the Secretary of the Interior. The exclusive-use easement granted pursuant to subparagraph (D) of this paragraph and all rights afforded by such easement shall be exercised only for railroad purposes, and for such other transportation, transmission, or communication purposes for which lands subject to such easement were utilized as of the date of enactment of this Act. In the event of reversion to the United States, pursuant to section 610 of this title, of the State's interests in all or part of the lands subject to such easement, such easement shall terminate with respect to the lands subject to such reversion, and no new exclusive-use easement with respect to such reverted lands shall be granted except by Act of Congress.

(2) The Secretary shall deliver to the State an interim conveyance of rail properties of the Alaska Railroad described in paragraph (1)(C) of this subsection that become available for conveyance to the State after the date of transfer as a result of settlement, relinquishment, or final administrative adjudication pursuant to section 606 of this title. Where the rail properties to be conveyed pursuant to this paragraph are surveyed at the time they become available for conveyance to the State, the Secretary shall deliver a patent therefor in lieu of an interim conveyance.

(3) The force and effect of an interim conveyance made pursuant to paragraphs (1)(B) or (2) of this subsection shall be to convey to and vest in the State exactly the same right, title, and interest in and to the rail properties identified therein as the State would have received had it been issued a patent by the United States. The

Secretary of the Interior shall survey the land conveyed by an interim conveyance to the State pursuant to paragraphs (1)(B) or (2) of this subsection and, upon completion of the survey, the Secretary shall issue a patent therefor.

(4) The license granted pursuant to paragraph (1)(C) of this subsection shall authorize the State to use, occupy, and directly receive all benefits of the rail properties described in the license for the operation of the State-owned railroad in conformity with the Memorandum of Understanding referred to in section 606(b)(3) of this title. The license shall be exclusive, subject only to valid leases, permits, and other instruments issued before the date of transfer and easements reserved pursuant to subsection (c)(2) of this section. With respect to any parcel conveyed pursuant to this title, the license shall terminate upon conveyance of such parcel.

(c)(1) Interim conveyances and patents issued to the State pursuant to subsection (b) of this section shall confirm, convey and vest in the State all reservations to the United States (whether or not expressed in a particular patent or document of title), except the unexercised reservations to the United States for future rights-of-way made or required by the first section of the Act of March 12, 1914 (43 U.S.C. 975d). The conveyance to the State of such reservations shall not be affected by the repeal of such Act under section 615 of this title.

(2) In the license granted under subsection (b)(1)(C) of this section and in all conveyances made to the State under this title, there shall be reserved to the Secretary of the Interior, the Secretary of Defense and the Secretary of Agriculture, as appropriate, existing easements for administration (including agency transportation and utility purposes) that are identified in the report required by section 605(a) of this title. The appropriate Secretary may obtain, only after consent of the State, such future easements as are necessary for administration. Existing and future easements and use of such easements shall not interfere with operations and support functions of the State-owned railroad.

(3) There shall be reserved to the Secretary of the Interior the right to use and occupy, without compensation, five thousand square feet of land at Talkeetna, Alaska, as described in ARR lease numbered 69-25-0003-5165 for National Park Service administrative activities, so long as the use or occupation does not interfere with the operation of the State-owned railroad. This reservation shall be effective on the date of transfer under this section or the expiration date of such lease, whichever is later.

(d)(1) Prior to the date of transfer, the Secretary shall certify that the State has agreed to operate the railroad as a rail carrier in intrastate and interstate commerce.

(2)(A) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to assume all rights, liabilities, and obligations of the Alaska Railroad on the date of transfer, including leases, permits, licenses, contracts, agreements, claims, tariffs, accounts receivable, and accounts payable, except as otherwise provided by this title.

(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the United States shall be solely responsible for—

(i) all claims and causes of action against the Alaska Railroad that accrue on or before the date of transfer, regardless of the date on which legal proceedings asserting such claims were or may be filed, except that the United States shall, in the case of

any tort claim, only be responsible for any such claim against the United States that accrues before the date of transfer and results in an award, compromise, or settlement of more than $2,500, and the United States shall not compromise or settle any claim resulting in State liability without the consent of the State, which consent shall not be unreasonably withheld; and

(ii) all claims that resulted in a judgment or award against the Alaska Railroad before the date of transfer.

"Accrue."

(C) For purposes of subparagraph (B) of this paragraph, the term "accrue" shall have the meaning contained in section 2401 of title 28, United States Code.

(3)(A) Prior to the date of transfer, the Secretary shall also certify that the State-owned railroad has established arrangements pursuant to section 607 of this title to protect the employment interests of employees of the Alaska Railroad during the two-year period commencing on the date of transfer. These arrangements shall include provisions—

(i) which ensure that the State-owned railroad will adopt collective bargaining agreements in accordance with the provisions of subparagraph (B) of this paragraph;

(ii) for the retention of all employees, other than officers of the Alaska Railroad, who elect to transfer to the State-owned railroad in their same positions for the two-year period commencing on the date of transfer, except in cases of reassignment, separation for cause, resignation, retirement, or lack of work;

(iii) for the payment of compensation to transferred employees (other than employees provided for in subparagraph (2) of this paragraph), except in cases of separation for cause, resignation, retirement, or lack of work, for two years commencing on the date of transfer at or above the base salary levels in effect for such employees on the date of transfer, unless the parties otherwise agree during that two-year period;

(iv) for priority of reemployment at the State-owned railroad during the two-year period commencing on the date of transfer for transferred employees who are separated for lack of work, in accordance with subparagraph (C) of this paragraph (except for officers of the Alaska Railroad, who shall receive such priority for one year following the date of transfer);

(v) for credit during the two-year period commencing on the date of transfer for accrued annual and sick leave, seniority rights, and relocation and turnaround travel allowances which have been accrued during their period of Federal employment by transfered employees retained by the State-owned railroad (except for officers of the Alaska Railroad, who shall receive such credit for one year following the date of transfer);

(vi) for payment to transferred employees retained by the State-owned railroad during the two-year period commencing on the date of transfer, including for one year officers retained or separated under subparagraph (2) of this paragraph, of an amount equivalent to the cost-of-living allowance to which they are entitled as Federal employees on the day before the date of transfer, in accordance with the provisions of subparagraph (D) of this paragraph; and

(vii) for health and life insurance programs for transferred employees retained by the State-owned railroad during the two-year period commencing on the date of transfer, substantially

equivalent to the Federal health and life insurance programs available to employees on the day before the date of transfer (except for officers of the Alaska Railroad, who shall receive such credit for one year following the date of transfer).

(B) The State-owned railroad shall adopt all collective bargaining agreements which are in effect on the date of transfer. Such agreements shall continue in effect for the two-year period commencing on the date of transfer, unless the parties agree to the contrary before the expiration of that two-year period. Such agreements shall be renegotiated during the two-year period, unless the parties agree to the contrary. Any labor-management negotiation impasse declared before the date of transfer shall be settled in accordance with chapter 71 of title 5, United States Code. Any impasse declared after the date of transfer shall be subject to applicable State law.

5 USC 7101 *et seq*

(C) Federal service shall be included in the computation of seniority for transferred employees with priority for reemployment, as provided in subparagraph (A)(iv) of this paragraph.

(D) Payment to transferred employees pursuant to subparagraph (A)(vi) of this paragraph shall not exceed the percentage of any transferred employee's base salary level provided by the United States as a cost-of-living allowance on the day before the date of transfer, unless the parties agree to the contrary.

(E) Prior to the date of transfer, the Secretary shall also certify that the State-owned railroad has agreed to the retention, for at least one year from the date of transfer, of the offices of the Alaska Railroad, except in cases of separation for cause, resignation, retirement, or lack of work, at or above their base salaries in effect on the date of transfer, in such positions as the State-owned railroad may determine; or to the payment of lump-sum severance pay in an amount equal to such base salary for one year to officers not retained by the State-owned railroad upon transfer or, for officers separated within one year on or after the date of transfer, of a portion of such lump-sum severance payment (diminished pro rata for employment by the State-owned railroad within one year of the date of transfer prior to separation).

(4) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to allow representatives of the Secretary adequate access to employees and records of the Alaska Railroad when needed for the performance of functions related to the period of Federal ownership.

(5) Prior to the date of transfer, the Secretary shall also certify that the State has agreed to compensate the United States at the value, if any, determined pursuant to section 605(d) of this title.

TRANSITION PERIOD

Report to Congress and State legislature. 45 USC 1204.

SEC. 605. (a) Within 6 months after the date of enactment of this Act, the Secretary and the Governor of Alaska shall jointly prepare and deliver to the Congress of the United States and the legislature of the State a report that describes to the extent possible the rail properties of the Alaska Railroad, the liabilities and obligations to be assumed by the State, the sum of money, if any, in the Alaska Railroad Revolving Fund to be withheld from the State pursuant to section 603(8)(C) of this title, and any personal property to be withheld pursuant to section 603(8)(D) of this title. The report shall separately identify by the best available descriptions (1) the rail properties of the Alaska Railroad to be transferred pursuant to

section 504(bX1) (A), (B), and (D) of this title; (2) the rail properties to be subject to the license granted pursuant to section 504(bX1XC) of this title; and (3) the easements to be reserved pursuant to section 304(cX2) of this title. The Secretaries of Agriculture, Defense, and the Interior and the Administrator of the General Services Administration shall provide the Secretary with all information and assistance necessary to allow the Secretary to complete the report within the time required.

(b) During the period from the date of enactment of this Act until the date of transfer, the State shall have the right to inspect, analyze, photograph, photocopy and otherwise evaluate all of the rail properties of the Alaska Railroad and all records related to the rail properties of the Alaska Railroad maintained by any agency of the United States under conditions established by the Secretary to protect the confidentiality of proprietary business data, personnel records, and other information, the public disclosure of which is prohibited by law. During that period, the Secretary and the Alaska Railroad shall not, without the consent of the State and only in conformity with applicable law and the Memorandum of Understanding referred to in section 506(bX3) of this title—

(1) make or incur any obligation to make any individual capital expenditure of money from the Alaska Railroad Revolving Fund in excess of $300,000;

(2) (except as required by law) sell, exchange, give, or otherwise transfer any real property included in the rail properties of the Alaska Railroad; or

(3) lease any rail property of the Alaska Railroad for a term in excess of five years.

(c) Prior to transfer of the rail properties of the Alaska Railroad to the State, the Alaska Railroad's accounting practices and systems shall be capable of reporting data to the Interstate Commerce Commission in formats required of comparable rail carriers subject to the jurisdiction of the Interstate Commerce Commission.

(dX1) Within nine months after the date of enactment of this Act, the United States Railway Association (hereinafter in this section referred to as the "Association") shall determine the fair market value of the Alaska Railroad under the terms and conditions of this title, applying such procedures, methods and standards as are generally accepted as normal and common practice. Such determination shall include an appraisal of the real and personal property to be transferred to the State pursuant to this title. Such appraisal by the Association shall be conducted in the usual manner in accordance with generally accepted industry standards, and shall consider the current fair market value and potential future value if used in whole or in part for other purposes. The Association shall take into account all obligations imposed by this title and other applicable law upon operation and ownership of the State-owned railroad. In making such determination, the Association shall use to the maximum extent practicable all relevant data and information, including, if relevant, that contained in the report prepared pursuant to subsection (a) of this section.

(2) The determination made pursuant to paragraph (1) of this subsection shall not be construed to affect, enlarge, modify, or diminish any inventory, valuation, or classification required by the Interstate Commerce Commission pursuant to subchapter V of chapter 107 of title 49, United States Code (49 U.S.C. 10781 et seq.).

45 USC 712.

(e) Section 202(a) of the Regional Rail Reorganization Act of 1973 is amended—

(1) by striking "and" at the end of paragraph (9);

(2) by striking the period at the end of paragraph (10) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following new paragraph:

"(11) determine the value of the Alaska Railroad, as required by section 605 of the Alaska Railroad Transfer Act of 1982.".

LANDS TO BE TRANSFERRED

45 USC 1205.

SEC. 606. (a) Lands among the rail properties of the Alaska Railroad shall not be—

(1) available for selection under section 12 of the Act of January 2, 1976, as amended (43 U.S.C. 1611, note), subject to the exception contained in section 12(b)(8)(i)(D) of such Act, as amended by subsection (d)(5) of this section;

Post, p. 2568.

(2) available for conveyance under section 1425 of the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2515);

(3) available for conveyance to Chugach Natives, Inc., under sections 1429 or 1430 of the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2531) or under sections 12(c) or 14(h)(8) of the Alaska Native Claims Settlement Act (43 U.S.C. 1611(c) and 1613(h)(8), respectively); or

(4) available under any law or regulation for entry, location, or for exchange by the United States, or for the initiation of a claim or selection by any party other than the State or other transferee under this title, except that this paragraph shall not prevent a conveyance pursuant to section 12(b)(8)(i)(D) of the Act of January 2, 1976 (43 U.S.C. 1611, note), as amended by subsection (d)(5) of this section.

(b)(1)(A) During the ten months following the date of enactment of this Act, so far as practicable consistent with the priority of preparing the report required pursuant to section 605(a) of this title, the Secretary of the Interior, Village Corporations with claims of valid existing rights, and the State shall review and make a good faith effort to settle as many of the claims as possible. Any agreement to settle such claims shall take effect and bind the United States, the State, and the Village Corporation only as of the date of transfer of the railroad.

(B) At the conclusion of the review and settlement process provided in subparagraph (A) of this paragraph, the Secretary of the Interior shall prepare a report identifying lands to be conveyed in accordance with settlement agreements under this title or applicable law. Such settlement shall not give rise to a presumption as to whether a parcel of land subject to such agreement is or is not public land.

(2) The Secretary of the Interior shall have the continuing jurisdiction and duty to adjudicate unresolved claims of valid existing rights pursuant to applicable law and this title. The Secretary of the Interior shall complete the final administrative adjudication required under this subsection not later than three years after the date of enactment of this Act, and shall complete the survey of all lands to be conveyed under this title not later than five years after the date of enactment of this Act, and after consulting with the Governor of the State of Alaska to determine priority of survey with

regard to other lands being processed for patent to the State. The Secretary of the Interior shall give priority to the adjudication of Village Corporation claims as required in this section. Upon completion of the review and settlement process required by paragraph (1)(A) of this subsection, with respect to lands not subject to an agreement under such paragraph, the Secretary of the Interior shall adjudicate which lands subject to claims of valid existing rights filed by Village Corporations, if any, are public lands and shall complete such final administrative adjudication within two years after the date of enactment of this Act.

(3) Pending settlement or final administrative adjudication of claims of valid existing rights filed by Village Corporations prior to the date of transfer or while subject to the license granted to the State pursuant to section 604(b)(1)(C) of this title, lands subject to such claims shall be managed in accordance with the Memorandum of Understanding among the Federal Railroad Administration, the State, Ahtna, Incorporated, Cook Inlet Region, Incorporated (as that term is used in section 12 of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1150)), and Toghotthele Corporation, executed by authorized officers or representatives of each of these entities. Duplicate originals of the Memorandum of Understanding shall be maintained and made available for public inspection and copying in the Office of the Secretary, at Washington, District of Columbia, and in the Office of the Governor of the State of Alaska, at Juneau, Alaska.

(4) The following procedures and requirements are established to promote finality of administrative adjudication of claims of valid existing rights filed by Village Corporations, to clarify and simplify the title status of lands subject to such claims, and to avoid potential impairment of railroad operations resulting from joint or divided ownership in substantial segments of right-of-way:

(A)(i) Prior to final administrative adjudication of Village Corporation claims of valid existing rights in land subject to the license granted under section 604(b)(1)(C) of this title, the Secretary of the Interior may, notwithstanding any other provision of law, accept relinquishment of so much of such claims as involved lands within the right-of-way through execution of an agreement with the appropriate Village Corporation effective on or after the date of transfer. Upon such relinquishment, the interest of the United States in the right-of-way shall be conveyed to the State pursuant to section 604(b)(1)(B) or (2) of this title.

(ii) With respect to a claim described in clause (i) of this subparagraph that is not settled or relinquished prior to final administrative adjudication, the Congress finds that exclusive control over the right-of-way by the Alaska Railroad has been and continues to be necessary to afford sufficient protection for safe and economic operation of the railroad. Upon failure of the interested Village Corporation to relinquish so much of its claims as involve lands within the right-of-way prior to final adjudication of valid existing rights, the Secretary shall convey to the State pursuant to section 604(b)(1)(B) or (2) of this title all right, title and interest of the United States in and to the right-of-way free and clear of such Village Corporation's claim to and interest in lands within such right-of-way.

(B) Where lands within the right-of-way, or any interest in such lands, have been conveyed from Federal ownership prior to

the date of enactment of this Act, or is subject to a claim of valid existing rights by a party other than a Village Corporation, the conveyance to the State of the Federal interest in such properties pursuant to section [illegible](b)(1)(B) or (2) of this title shall grant not less than an exclusive easement in such properties. The foregoing requirements shall not be construed to permit the conveyance to the State of less than the entire Federal interest in the rail properties of the Alaska Railroad required to be conveyed by section 604(b) of this title. If an action is commenced against the State or the United States contesting the validity or existence of a reservation of right-of-way for the use or benefit of the Alaska Railroad made prior to the date of enactment of this Act, the Secretary of the Interior, through the Attorney General, shall appear in and defend such action.

(c)(1) The final administrative adjudication pursuant to subsection (b) of this section shall be final agency action and subject to judicial review only by an action brought in the United States District Court for the District of Alaska. Review of agency action pursuant to this title shall be expedited to the same extent as the expedited review provided by section 1108 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3168).

(2) No administrative or judicial action under this title shall enjoin or otherwise delay the transfer of the Alaska Railroad pursuant to this title, or substantially impair or impede the operations of the Alaska Railroad or the State-owned railroad.

(3) Before the date of transfer, the State shall have standing to participate in any administrative determination or judicial review pursuant to this title. If transfer to the State does not occur pursuant to section 604 of this title, the State shall not thereafter have standing to participate in any such determination or review.

43 USC 1611 note

(d)(1) Section 12(b)(7)(i) of the Act of January 2, 1976 (Public Law 94-204) is amended—

(A) by striking "subsection 12(b)(6)" and inserting in lieu thereof "section 12(b) (5) and (6)";

(B) by striking "12(b)(7)(ii)" and inserting in lieu thereof "12(b)(7)(iv)";

(C) by striking "crediting" and inserting in lieu thereof "using";

(D) by striking "this subsection 12(b)(7)(i)(b)" and inserting in lieu thereof "these subsections 12(b)(7) (i)(b) or (ii)";

(E) by striking "State" in the last sentence and inserting in lieu thereof "state"; and

(F) by striking the penultimate sentence.

(2) Section 12(b)(7) of such Act is amended—

(A) by redesignating subsections (ii) through (iv) as subsections (iv) through (vi), respectively; and

(B) by inserting immediately after subsection (i) the following:

"(ii) Subject to the exceptions stated in section 12(b)(9), and notwithstanding the foregoing subsection 12(b)(7)(i) and any provision of any other law or any implementing regulation inconsistent with this subsection, until the obligations of the Secretary and the Administrator of General Services under section 12(b) (5) and (6) are otherwise fulfilled:

"(A) concurrently with the commencement of screening of any excess real property, wherever located, for utilization by Federal agencies, the Administrator of General Services shall

notify the Region that such property may be available for conveyance to the Region upon negotiated sale. Within fifteen days of the date of receipt of such notice, the Region may advise the Administrator that there is a tentative need for the property to fulfill the obligations established under section 12(b) (5) and (6). If the Administrator determines the property should be disposed of by transfer to the Region, the Administrator or other appropriate Federal official shall promptly transfer such property;

40 USC 1511 note.

"(B) no disposition or conveyance of property under this subsection to the Region shall be made until the Administrator, after notice to affected State and local governments, has provided to them such opportunity to obtain the property as is recognized in title 40, United States Code and the regulations thereunder for the disposition or conveyance of surplus property; and

"Real property"

"(C) as used in this subsection, 'real property' means any land or interests in land owned or held by the United States or any Federal agency, any improvements on such land or rights to their use or exploitation, and any personal property related to the land.

"(iii) If the Region accepts any conveyance under section 12(b)(7)(i) or (ii), it shall be in exchange for acres or acre-equivalents as provided in subparagraph I(CX2Xe) of the document referred to in this section, except that, after the obligation of the Secretary and the Administrator under subparagraph I(CX2Xg) of that document has been fulfilled, the acre-equivalents under subparagraph I(CX2XeXiiiXA) shall be one-half the valued increment therein stated. The entitlement of the Region under section 12(b) of this Act shall be reduced by the number of acres or acre-equivalents attributed to the Region under this subsection. The Secretary and the Administrator are directed to execute an agreement with the Region which shall conform substantially to the 'Memorandum of Understanding Regarding the Implementation of Section 12(b)(7)', dated September 10, 1982, and submitted to the Senate Committee on Commerce, Science, and Transportation. The Secretary, the Administrator and the Region may thereafter otherwise agree to procedures to implement responsibilities under this section 12(b)(7), including establishment of accounting procedures and the delegation or reassignment of duties under this statute.".

40 USC 1511 note.

(3) Section 12(bX7Xiv) of such Act, as so redesignated by paragraph (2) of this subsection, is amended—

(A) by striking "surplus" the first place it appears therein;

(B) by inserting immediately before the period at the end of the first sentence the following: "or paying for the conveyance of property pursuant to subsections (i) or (ii)";

(C) by inserting immediately after "account shall be" the following: "the sum of (1)";

(D) by striking "I(CX2Xe)" and inserting in lieu thereof "I(CX2XeXiiiXA)";

(E) by striking "the effective date of this subsection", and inserting in lieu thereof "December 2, 1980";

(F) by striking "and shall be adjusted" and inserting in lieu thereof "and (2) one-half the acre or acre-equivalent exchange value under subparagraph I(CX2XeXiiiXA) of ten townships fewer than the unfulfilled entitlement of the Region on the same date to acres or acre-equivalents under paragraph I(CX1)

of the document referred to in this section. The balance of the property account shall be adjusted in accordance with subsection 12(b)(7)(iii)"; and

(G) by striking "subsection 12(b)(5)" and inserting in lieu thereof "section 12(b) (5) and (6)".

43 USC 1611 note.

(4) Section 12(b)(7)(v) of such Act, as redesignated by paragraph (2) of this subsection, is amended by striking "subsection (ii)" and inserting in lieu thereof "subsection (iv)".

43 USC 1611 note.

(5) Section 12(b)(8) of such Act is amended to read as follows:

"12(b)(8). Subject to the exceptions stated in section 12(b)(9), and notwithstanding any provisions of law or implementing regulation inconsistent with this section:

"(i) The deadlines in subparagraphs 1(C)(2) (a) and (g) of the document referred to in this section shall be extended until the Secretary's obligations under section 12(b) (5) and (6) are fulfilled: *Provided*, That:

"(A) the obligation of the Secretary under subparagraph 1(C)(2)(a) of such document shall terminate on such date, after July 15, 1984, that the Secretary has fulfilled his obligation under subparagraph 1(C)(2)(g) of that document: *Provided*, That the obligation of the Secretary under subparagraph 1(C)(2)(g) of such document shall be fulfilled at such date, after July 15, 1984, that the sum of the acres or acre-equivalents identified for and placed in the pool and the acres or acre-equivalents used by the Region in purchasing property under section 12(b)(7) equals or exceeds 138,240 acres or acre-equivalents;

"(B) the authority of the Secretary under subparagraphs 1(C)(2)(b) and 1(C)(2)(g)(ii) of such document to contribute to the pool created under subparagraph 1(C)(2)(a) of such document shall terminate (a) on July 15, 1984, if, by that date, the Secretary has fulfilled his obligation under subparagraph 1(C)(2) (g), or (b) if not, on such date after July 15, 1984 as such obligation is fulfilled, or (c) if such obligation remains unfulfilled, on July 15, 1987;

"(C) the concurrence by the State as described in subparagraphs 1(C)(2)(a)(vi) and 1(C)(2)(c) of the document referred to in this section shall be deemed not required after the Secretary has fulfilled his obligation under subparagraph 1(C)(2)(g) of that document, but in no event after July 15, 1987. In lieu of such concurrence, after 1984 as to military property, and after the Secretary has fulfilled his obligation under subparagraph 1(C)(2)(g) of that document or July 15, 1987, whichever is earlier, as to any other property, except property of the Alaska Railroad which is governed by subsection 12(b)(6)(i)(D) of this Act, the Secretary shall not place any lands in the selection pool referred to in subparagraphs 1(C)(2) (a) and (g) of the document referred to in this section without the prior written concurrence of the State. Such concurrence shall be deemed obtained unless the State advises the Secretary within ninety days of receipt of a formal notice from the Secretary that he is considering placing property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question, requires the property for a public purpose of the State or municipality; and

"(D) notwithstanding section 606(a)(2) of the Alaska Railroad Transfer Act of 1982, the Secretary may include property of the Alaska Railroad in the pool of lands to be made available for selection to the extent that he is authorized to do so under a provision of section 12(b) of this Act if the State consents to its inclusion, which consent is not subject to any limitation under subsection 12(b)(3)(i)(C) herein: *Provided*, That, while the Alaska Railroad is the property of the United States, the Secretary shall obtain the consent of the Secretary of Transportation prior to including such property: *And provided further*, That, if the transfer of the Alaska Railroad to the State does not occur pursuant to the terms of the Alaska Railroad Transfer Act of 1982 or any amendments thereto, the State's consent shall be deemed obtained unless the State advises the Secretary in writing, within ninety days of receipt of a formal notice from the Secretary that he is considering placing such property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question, requires the property for a public purpose of the State or the municipality.

Ante, p. 2564.

Ante, p. 2568.

Ante, p. 2556

"(ii) In addition to the review required to identify public lands under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e)), the Secretary shall identify for inclusion in the pool all public lands (as such term is used under section 3(e) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(e)), as described in subparagraph 3(C)(2)(a)(v) of the document referred to in this section, and shall, in so doing, review all Federal installations within the boundaries of the Cook Inlet Region whether within or without the areas withdrawn pursuant to section 11 of the Alaska Native Claims Settlement Act (43 U.S.C. 1610) or by the Secretary acting under authority contained in that section: *Provided*, That no such additional review under such subparagraph shall be required of military installations or of such other installations as may be mutually excluded from review by the Region and the Secretary: *And provided further*, That the Secretary shall not review any property of the Alaska Railroad unless such property becomes available for selection pursuant to subsection 12(b)(8)(i)(D).

"(iii) The concurrence required of the State as to the inclusion of any property in the pool under subparagraph 3(C)(2)(b) of the document referred to in this section shall be deemed obtained unless the State advises the Secretary in writing, within ninety days of receipt of a formal notice from the Secretary that the Secretary is considering placing property in the selection pool, that the State, or a municipality of the State which includes all or part of the property in question requires the property for a public purpose of the State or the municipality.

"(iv) The deadlines in subparagraph 3(C)(1)(b) of the document referred to in this section shall be extended for an additional twenty-four months beyond the dates established in the Act of July 17, 1980 (Public Law 96-311; 94 Stat. 947).

"(v) On or before January 15, 1985, the Secretary shall report to the Congress with respect to:

Report to Congress.

"(A) such studies and inquiries as shall have been initiated by the Secretary and the Administrator of General Services, or have been prepared by other holding agencies,

to determine what lands, except for lands held by the Alaska Railroad or the State-owned railroad, within the boundaries of the Cook Inlet Region or elsewhere can be made available to the Region, to the extent of its entitlement;

"(B) the feasibility and appropriate nature of reimbursement of the Region for its unfulfilled entitlement as valued in subsection 12(b)(7)(iv) of this Act;

"(C) the extent to which implementation of the mechanisms established in section 12(b)(7) promise to meet such unfulfilled entitlement;

"(D) such other remedial legislation or administrative action as may be needed; and

"(E) the need to terminate any mechanism established by law through which the entitlement of the Region may be completed.".

43 USC 1611 note

(6) Section 12(b) of such Act is amended by adding at the end thereof the following:

"12(b)(9). No disposition or conveyance of property located within the State to the Region under section 12(b)(6), 12(b)(7) and 12(b)(8), as amended, shall be made if the property is subject to an express waiver of rights under the provisions of subparagraph 1(C)(2)(f) of the document referred to in this section, or if such disposition or conveyance violates valid rights, including valid selections or valid authorized agreements, of Native Corporations (as such term is used in section 102(6) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3102(6)) or the State existing at the time of such disposition or conveyance under section 6 of Public Law 85-508, as amended (excepting section 906(e) of the Alaska National Interest Lands Conservation Act), sections 12(a), 12(b), 16(b) or 22(f) of the Alaska Native Claims Settlement Act, section 12(b) of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1154), or sections 1416, 1418 through 1425 (inclusive), 1427 through 1434 (inclusive), or 1436 of the Alaska National Interest Lands Conservation Act: *Provided, however,* That nothing within this subsection 12(b)(9) shall diminish such rights and priorities as the Region has under section 12(b) of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1151), as amended by section 4 of the Act of October 4, 1976 (Public Law 94-456; 90 Stat. 1925), section 3 of the Act of November 15, 1977 (Public Law 95-178; 91 Stat. 1369), section 2 of the Act of August 14, 1979 (Public Law 96-55; 93 Stat. 386), the Act of July 17, 1980 (Public Law 96-311; 94 Stat. 947), and section 1435 of the Alaska National Interest Lands Conservation Act.

43 USC 1611 note

"12(b)(10). For the purpose of its incorporation into this section, paragraph 1(C)(1) of the document referred to in this section is amended as follows: (1) by striking 'withdrawn' and inserting in lieu thereof 'withdrawn or formerly withdrawn'; (2) by striking '17(d)(1)' and inserting in lieu thereof '17(d)(1) and (2)'; and (3) by striking the last sentence of subparagraph 1(C)(1)(a) and inserting in lieu thereof the following: 'Cook Inlet Region, Incorporated shall not nominate any lands within the boundaries of any conservation system unit, national conservation area, national recreation area, national forest, defense withdrawal, or any lands that were made available to the State for selection pursuant to sections 2 and 5 of the State-Federal Agreement of September 1, 1972.'.

"12(b)(11). Notwithstanding the provisions of section 906 of the Alaska National Interest Lands Conservation Act and section 6(i) of the Alaska Statehood Act (72 Stat. 339):

43 USC 1635.
43 USC note prec. 21.

"(i) The State is hereby authorized to convey to the United States for reconveyance to the Region, and the Secretary is directed to accept and so reconvey, lands tentatively approved for patent or patented to the State, if the State and the Region enter into an agreement that such lands shall be reconveyed to the Region to fulfill all or part of its entitlement under paragraph 1(C)(1) of the document referred to in this section: *Provided*, That the acreage of lands conveyed to the United States under this provision shall be added to the State's unfulfilled entitlement pursuant to section 6 of the Alaska Statehood Act, and the number of townships to be nominated, pooled, struck, selected and conveyed pursuant to paragraph 1(C)(1) of the document referred to in this section shall be reduced accordingly.

"(ii) The Secretary is directed to convey to the Region lands selected by the State prior to July 18, 1973 or pursuant to sections 2 and 5 of the State-Federal Agreement of September 1, 1972, if the State relinquishes such selections and enters into an agreement with the Region that such lands shall be reconveyed to the Region to fulfill all or part of its entitlement under paragraph 1(C)(1) of the document referred to in this section, and the number of townships to be nominated, pooled, struck, selected and conveyed pursuant to paragraph 1(C)(1) of the document referred to in this section shall be reduced accordingly.

"(iii) The Secretary, in the Secretary's discretion, is authorized to enter into an agreement with the State and the Region to implement the authority contained in this section 12(b)(11), which agreement may provide for conveyances directly from the State to the Region. Conveyances directly conveyed shall be deemed conveyances from the Secretary pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).".

(e) The State shall be liable to a party receiving a conveyance of land among the rail properties of the Alaska Railroad subject to the license granted pursuant to section 604(b)(1)(C) of this title for damage resulting from use by the State of the land under such license in a manner not authorized by such license.

45 USC 1205.

EMPLOYEES OF THE ALASKA RAILROAD

SEC. 607. (a)(1) Any employees who elect to transfer to the State-owned railroad and who on the day before the date of transfer are subject to the civil service retirement law (subchapter III of chapter 83 of title 5, United States Code) shall, so long as continually employed by the State-owned railroad without a break in service, continue to be subject to such law, except that the State-owned railroad shall have the option of providing benefits in accordance with the provisions of paragraph (2) of this subsection. Employment by the State-owned railroad without a break in continuity of service shall be considered to be employment by the United States Government for purposes of subchapter III of chapter 83 of title 5, United States Code. The State-owned railroad shall be the employing agency for purposes of section 8334(a) of title 5, United States Code, and shall contribute to the Civil Service Retirement and Disability

45 USC 1206.
5 USC 8331.

Fund a sum as provided by such section, except that such sum shall be determined by applying to the total basic pay (as defined in section 8331(3) of title 5, United States Code) paid to the employees of the State-owned railroad who are covered by the civil service retirement law, the per centum rate determined annually by the Director of the Office of Personnel Management to be the excess of the total normal cost per centum rate of the civil service retirement system over the employee deduction rate specified in section 8334(a) of title 5, United States Code. The State-owned railroad shall pay into the Federal Civil Service Retirement and Disability Fund that portion of the cost of administration of such Fund which is demonstrated by the Director of the Office of Personnel Management to be attributable to its employees.

(2) At any time during the two-year period commencing on the date of transfer, the State-owned railroad shall have the option of providing to transferred employees retirement benefits, reflecting prior Federal service, in or substantially equivalent to benefits under the retirement program maintained by the State for State employees. If the State decides to provide benefits under this paragraph, the State shall provide such benefits to all transferred employees, except those employees who will meet the age and service requirements for retirement under section 8336(a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program.

(3) If the State provides benefits under paragraph (2) of this subsection—

(A) the provisions of paragraph (1) of this subsection regarding payments into the Civil Service Retirement and Disability Fund for those employees who are transferred to the State program shall have no further force and effect (other than for employees who will meet the age and service requirements for retirement under section 8336(a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program); and

(B) all of the accrued employee and employer contributions and accrued interest on such contributions made by and on behalf of the transferred employees during their prior Federal service (other than amounts for employees who will meet the age and service requirements for retirement under section 8336 (a), (b), (c) or (f) of title 5, United States Code, within five years after the date of transfer and who elect to remain participants in the Federal retirement program) shall be withdrawn from the Federal Civil Service Retirement and Disability Fund and shall be paid into the retirement fund utilized by the State-owned railroad for the transferred employees, in accordance with the provisions of paragraph (2) of this subsection. Upon such payment, credit for prior Federal service under the Federal civil service retirement system shall be forever barred, notwithstanding the provisions of section 8334 of title 5, United States Code.

(b) Employees of the Alaska Railroad who do not transfer to the State-owned railroad shall be entitled to all of the rights and benefits available to them under Federal law for discontinued employees.

(c) Transferred employees whose employment with the State-owned railroad is terminated during the two-year period commencing on the date of transfer shall be entitled to all of the rights and benefits of discontinued employees that such employees would have had under Federal law if their termination had occurred immediately before the date of the transfer, except that financial compensation paid to officers of the Alaska Railroad shall be limited to that compensation provided pursuant to section 604(d)(3)(E) of this title. Such employees shall also be entitled to seniority and other benefits accrued under Federal law while they were employed by the State-owned railroad on the same basis as if such employment had been Federal service.

(d) Any employee who transfers to the State-owned railroad under this title shall not be entitled to lump-sum payment for unused annual leave under section 5551 of title 5, United States Code, but shall be credited by the State with the unused annual leave balance at the time of transfer.

STATE OPERATION

SEC. 608. (a)(1) After the date of transfer to the State pursuant to section 604 of this title, the State-owned railroad shall be a rail carrier engaged in interstate and foreign commerce subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of subtitle IV of title 49, United States Code, and all other Acts applicable to rail carriers subject to that chapter, including the antitrust laws of the United States, except, so long as it is an instrumentality of the State of Alaska, the Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.), the Railroad Retirement Tax Act (26 U.S.C. 3201 et seq.), the Railway Labor Act (45 U.S.C. 151 et seq.), the Act of April 22, 1908 (45 U.S.C. 51 et seq.) (popularly referred to as the "Federal Employers' Liability Act"), and the Railroad Unemployment Insurance Act (45 U.S.C. 351 et seq.). Nothing in this title shall preclude the State from explicitly invoking by law any exemption from the antitrust laws as may otherwise be available. 45 USC 1207.

(2) The transfer to the State authorized by section 604 of this title and the conferral of jurisdiction to the Interstate Commerce Commission pursuant to paragraph (1) of this subsection are intended to confer upon the State-owned railroad all business opportunities available to comparable railroads, including contract rate agreements meeting the requirements of section 10713 of title 49, United States Code, notwithstanding any participation in such agreements by connecting water carriers.

(3) All memoranda which sanction noncompliance with Federal railroad safety regulations contained in 49 CFR Parts 209-236, and which are in effect on the date of transfer, shall continue in effect according to their terms as "waivers of compliance" (as that term is used in section 202(c) of the Federal Railroad Safety Act of 1970 (45 U.S.C. 431(c))).

(4) The operation of trains by the State-owned railroad shall not be subject to the requirement of any State or local law which specifies the minimum number of crew members which must be employed in connection with the operation of such trains.

(5) Revenues generated by the State-owned railroad shall be retained and managed by the State-owned railroad for railroad and related purposes.

(6)(A) After the date of transfer, continued operation of the Alaska Railroad by a public corporation, authority or other agency of the

State shall be deemed to be an exercise of an essential governmental function, and revenue derived from such operation shall be deemed to accrue to the State for the purposes of section 115(a)(1) of the Internal Revenue Code of 1954 (26 U.S.C. 115(a)(1)). Obligations issued by such entity shall also be deemed obligations of the State for the purposes of section 103(a)(1) of the Internal Revenue Code of 1954 (26 U.S.C. 103(a)(1)), but not obligations within the meaning of section 103(b)(2) of the Internal Revenue Code of 1954 (26 U.S.C. 103(b)(2)).

(B) Nothing in this title shall be deemed or construed to affect customary tax treatment of private investment in the equipment or other assets that are used or owned by the State-owned railroad.

(b) As soon as practicable after the date of enactment of this Act, the Interstate Commerce Commission shall promulgate an expedited, modified procedure for providing on the date of transfer a certificate of public convenience and necessity to the State-owned railroad. No inventory, valuation, or classification of property owned or used by the State-owned railroad pursuant to subchapter V of chapter 107 of title 49, United States Code (49 U.S.C. 10781 et seq.) shall be required during the two-year period after the date of transfer. The provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and section 382(b) of the Energy Policy and Conservation Act (42 U.S.C. 6362(b)) shall not apply to actions of the Commission under this subsection.

(c) The State-owned railroad shall be eligible to participate in all Federal railroad assistance programs on a basis equal to that of other rail carriers subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of subtitle IV of title 49, United States Code.

(d) After the date of transfer to the State pursuant to section 604 of this title, the portion of the rail properties within the boundaries of the Chugach National Forest and the exclusive-use easement within the boundaries of the Denali National Park and Preserve shall be subject to laws and regulations for the protection of forest and park values. The right to fence the exclusive-use easement within Denali National Park and Preserve shall be subject to the concurrence of the Secretary of the Interior. The Secretary of the Interior, or the Secretary of Agriculture where appropriate, shall not act pursuant to this subsection without consulting with the Governor of the State of Alaska or in such a manner as to unreasonably interfere with continued or expanded operations and support functions authorized under this title.

FUTURE RIGHTS-OF-WAY

45 USC 1208

SEC. 609. (a) After the date of enactment of this Act, the State or State-owned railroad may request the Secretary of the Interior or the Secretary of Agriculture, as appropriate under law, to expeditiously approve an application for a right-of-way in order that the Alaska Railroad or State-owned railroad may have access across Federal lands for transportation and related purposes. The State or State-owned railroad may also apply for a lease, permit, or conveyance of any necessary or convenient terminal and station grounds and material sites in the vicinity of the right-of-way for which an application has been submitted.

(b) Before approving a right-of-way application described in subsection (a) of this section, the Secretary of the Interior or the

Secretary of Agriculture, as appropriate, shall consult with the Secretary. Approval of an application for a right-of-way, permit, lease, or conveyance described in subsection (a) of this section shall be pursuant to applicable law. Rights-of-way, grounds, and sites granted pursuant to this section and other applicable law shall conform, to the extent possible, to the standards provided in the Act of March 12, 1914 (43 U.S.C. 975 et seq.) and section 503(6) of this title. Such conformance shall not be affected by the repeal of such Act under section 615 of this title.

(c) Reversion to the United States of any portion of any right-of-way or exclusive-use easement granted to the State or State-owned railroad shall occur only as provided in section 610 of this title. For purposes of such section, the date of the approval of any such right-of-way shall be deemed the "date of transfer".

REVERSION

SEC. 610. (a) If, within ten years after the date of transfer to the State authorized by section 504 of this title, the Secretary finds that all or part of the real property transferred to the State under this title, except that portion of real property which lies within the boundaries of the Denali National Park and Preserve, is converted to a use that would prevent the State-owned railroad from continuing to operate, that real property (including permanent improvements to the property) shall revert to the United States Government, or (at the option of the State) the State shall pay to the United States Government an amount determined to be the fair market value of that property at the time its conversion prevents continued operation of the railroad. 43 USC 1309

(b) If, after the date of transfer pursuant to section 504 of this title, the State discontinues use of any land within the right-of-way, the State's interest in such land shall revert to the United States. The State shall be considered to have discontinued use within the meaning of this subsection and subsection (d) of this section when:

(1) the Governor of the State of Alaska delivers to the Secretary of the Interior a notice of such discontinuance, including a legal description of the property subject to the notice, and a quitclaim deed thereto, or

(2) the State has made no use of the land for a continuous period of eighteen years for transportation, communication, or transmission purposes. Notice of such discontinuance shall promptly be published in the Federal Register by the Secretary, the Secretary of the Interior, or the Secretary of Agriculture, and reversion shall be effected one year after such notice, unless within such one-year period the State brings an appropriate action in the United States District Court for the District of Alaska to establish that the use has been continuing without an eighteen-year lapse. Any such action shall have the effect of staying reversion until exhaustion of appellate review from the final judgment in that action or termination of the right to seek such review, whichever first occurs. Publication in Federal Register.

(c) Upon such reversion pursuant to subsection (b) of this section, the Secretary of the Interior shall immediately convey by patent to abutting landowners all right, title and interest of the United States. Where land abutting the reverted right-of-way is owned by different persons or entities, the conveyance made pursuant to this

subsection shall extend the property of each abutting owner to the centerline of the right-of-way.

(d) If use is discontinued (as that term is used in subsection (b) of this section) of all or part of those properties of the Alaska Railroad transferred to the State pursuant to this title which lie within the boundaries of the Denali National Park and Preserve or the Chugach National Forest, such properties or part thereof (including permanent improvements to the property) shall revert to the United States and shall not be subject to subsection (c) of this section. Upon such reversion, jurisdiction over that property shall be transferred to the Secretary of the Interior or the Secretary of Agriculture, as appropriate, for administration as part of the Denali National Park and Preserve or the Chugach National Forest.

(e) Except as provided in subsections (a) through (d) of this section, if, within five years after the date of transfer to the State pursuant to section 604 of this title, the State sells or transfers all or substantially all of the State-owned railroad to an entity other than an instrumentality of the State, the proceeds from the sale or transfer that exceed the cost of any rehabilitation and improvement made by the State for the State-owned railroad and any net liabilities incurred by the State for the State-owned railroad shall be paid into the general fund of the Treasury of the United States.

(f) The Attorney General, upon the request of the Secretary, the Secretary of the Interior, or the Secretary of Agriculture, shall institute appropriate proceedings to enforce this section in the United States District Court for the District of Alaska.

OTHER DISPOSITION

45 USC 1210

SEC. 611. If the Secretary has not certified that the State has satisfied the conditions under section 604 within one year after the date of delivery of the report referred to in section 605(a) of this title, the Secretary may dispose of the rail properties of the Alaska Railroad. Any disposal under this section shall give preference to a buyer or transferee who will continue to operate rail service, except that—

(1) such preference shall not diminish or modify the rights of the Cook Inlet Region, Incorporated (as that term is used in section 12 of the Act of January 2, 1976 (Public Law 94-204; 89 Stat. 1150)), pursuant to such section, as amended by section 606(d) of this title; and

Ante, p. 2564

(2) this section shall not be construed to diminish or modify the powers of consent of the Secretary or the State under section 12(b)(8) of such Act, as amended by section 606(d)(5) of this title.

Any disposal under this section shall be subject to valid existing rights.

DENALI NATIONAL PARK AND PRESERVE LANDS

45 USC 1211.

SEC. 612. On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), that portion of rail properties of the Alaska Railroad within the Denali National Park and Preserve shall, subject to the exclusive-use easement granted pursuant to section 604(b)(1)(D) of this title, be transferred to the Secretary of the Interior for administration as part of the Denali National Park and Preserve, except that a

transferee under section 611 of this title shall receive the same interest as the State under section 604(b)(1)(D) of this title.

APPLICABILITY OF OTHER LAWS

SEC. 613. (a) The provisions of chapter 5 of title 5, United States Code (popularly known as the Administrative Procedure Act, and including provisions popularly known as the Government in the Sunshine Act), the Federal Advisory Committee Act (5 U.S.C. App. 1 et seq.), the National Historic Preservation Act (16 U.S.C. 470 et seq.), section 4(f) of the Department of Transportation Act (49 U.S.C. 1653(f)), and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall not apply to actions taken pursuant to this title, except to the extent that such laws may be applicable to granting of rights-of-way under section 609 of this title. 43 USC 1612. 5 USC 500 et seq.

(b) The enactment of this title, actions taken during the transition period as provided in section 605 of this title, and transfer of the rail properties of the Alaska Railroad under authority of this title shall be deemed not to be the disposal of Federal surplus property under the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484) or the Act of October 3, 1944, popularly referred to as the "Surplus Property Act of 1944" (50 U.S.C. App. 1622). Such events shall not constitute or cause the revocation of any prior withdrawal or reservation of land for the use of the Alaska Railroad under the Act of March 12, 1914 (43 U.S.C. 975 et seq.), the Alaska Statehood Act (note preceding 48 U.S.C. 21), the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), the Act of January 2, 1975 (Public Law 94-204; 89 Stat. 1145), the Alaska National Interest Lands Conservation Act (Public Law 96-487; 94 Stat. 2371), and the general land and land management laws of the United States.

(c) Beginning on the date of enactment of this Act, the ceiling on Government contributions for Federal employees health benefits insurance premiums under section 8906(b)(2) of title 5, United States Code, shall not apply to the Alaska Railroad.

(d) Nothing in this title is intended to enlarge or diminish the acreage entitlement of the State or any Native Corporation pursuant to existing law.

(e) With respect to interests of Native Corporations under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) and the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.), except as provided in this title, nothing contained in this title shall be construed to deny, enlarge, grant, impair, or otherwise affect any judgment heretofore entered in a court of competent jurisdiction, or valid existing right or claim of valid existing right.

CONFLICT WITH OTHER LAWS

SEC. 614. The provisions of this title shall govern if there is any conflict between this title and any other law. 43 USC 1613.

REPEAL AND AMENDMENT OF EXISTING STATUTES

SEC. 615. (a) On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), whichever first occurs, the following provisions are repealed:

(1) The Act of March 12, 1914 (43 U.S.C. 975 et seq.). 16 USC 533a.

48 USC 301a.

(2) The Act of June 24, 1946, to authorize certain expenditures by the Alaska Railroad (60 Stat. 304).

(3) The Act of July 19, 1932, concerning mining of coal adjacent to the Alaska Railroad (30 U.S.C. 208a).

(4) Section 6(i) of the Department of Transportation Act (49 U.S.C. 1655(i)).

(b) On the date of transfer to the State (pursuant to section 604 of this title) or other disposition (pursuant to section 611 of this title), whichever first occurs, the following provisions are amended as follows:

(1) Title 5, United States Code, is amended—

(A) in section 305(a), by striking paragraph (3), and by redesignating paragraphs (4)–(8) as paragraphs (3)–(7), respectively;

(B) in section 3401(1), by striking clause (ii), and by redesignating clauses (iv)–(viii) as clauses (iii)–(vii), respectively;

(C) in section 5102(aX1), by striking clause (iii), and by redesignating clauses (iv)–(ix) as clauses (iii)–(viii), respectively;

(D) in section 5342(aX1), by striking subparagraph (C), and by redesignating subparagraphs (D)–(J) as subparagraphs (C)–(I), respectively; and

(E) in section 7327, by striking subsection (a), and by striking the subsection designation "(b)".

(2) Section 102(7) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 802(7)) is amended by striking "and the Alaska Railroad".

(3) Section 10749(b) of title 49, United States Code, is amended—

(A) by inserting "or" at the end of paragraph (1XB);

(B) by striking "; or" at the end of paragraph (2) and inserting in lieu thereof a period; and

(C) by striking paragraph (3).

(4) Section 324(aX1) of the Public Health Service Act (42 U.S.C. 251(aX1)) is amended by striking "employees of the Alaska Railroad and".

(5) Section 202(3Xa) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 410hh-1(3Xa)) is amended by striking the third sentence.

(6) Section 1(o) of the Railroad Retirement Act of 1974 (45 U.S.C. 231(o)) is amended by inserting immediately after "National Transportation Safety Board," the following: "the State-owned railroad (as defined in the Alaska Railroad Transfer Act of 1982), so long as it is an instrumentality of the State of Alaska,".

SEPARABILITY

45 USC 1214.

SEC. 616. If any provision of this title or the application thereof to any person or circumstance is held invalid, the remainder of this title and the application of such provision to other persons or circumstances shall not be affected thereby.

ALASKA RAILROAD PURCHASE

By Representative Milo H. Fritz

The possible purchase of the Alaska Railroad from the Federal Government by the State of Alaska represents the most important and expensive piece of legislation that the second session of the 13th State Legislature will undertake. There is some question as to whether or not the state should purchase the railroad and in this article I intend making observations on the basis of conversations with certain individuals who have been successful in running railroads.

One consideration is the reason for the Federal Government wanting to sell an operation if it is a profitable one. If it is not profitable I see no reason for the state to undertake its purchase. It also is a consideration that the Federal Government spends hundreds of millions of dollars in foreign aid, has spent 30 billion dollars in loans to Poland which may never repay the money and contributes hundreds of millions of dollars to the International Monetary Fund which makes loans to Third World countries many of which have little possibility of ever repaying the loans. Under these circumstances it seems to me that the purchase price offered to Alaska of 22 million dollars is unrealistic and that a realistic purchase price would be a token value of one dollar in making the transfer.

Early in November it occurred to me that it would be a good idea if such a railroad existed, that I should try to make contact with someone who ran an intra-state railroad at a profit and who had had long experience in managing such an enterprise. Then on December 6 as though in answer to a prayer, I received the 28 November number of Barron's Financial weekly. In it there was the biography of Mr. Win Thornton, President of the Florida East Coast Railway, which was run at a profit, but which went through many very difficult periods owing to early bankruptcy and later labor difficulties involving strikes. The Barron's article explained how the railroad was run at a profit. Its right of way is between Jacksonville and Miami approximately the same distance between Seward and Fairbanks. The difference between the railroads, apart from climatic considerations, lies in the profitability of FEC and the Alaska

Railroad which excepting for five years since it began operations in the early 1920's, has run at a loss. It ran at a profit two years during pipeline construction and the past 3 years.

I went to St. Augustine, Florida, spent two days with Mr. Thornton and other officials of the FEC. I was given a very thorough briefing in its operations and past history which I believe should be of great value to the Alaska State House of Representatives in making its mind up to whether or not to vote in favor of purchasing the ARR from the Federal Government.

The people at FEC noted that the present labor contracts between the five labor unions involved in running the ARR, will be kept inviolate and intact for the first two years following the projected purchase. The FEC people said that the State of Alaska will lose all bargaining power unless contracts between the labor unions, who will be operating the railroad after the purchase, and the ARR are not brought to fruition before conveyance. They say that if the contracts are negotiated after the purchase all leverage for the State of Alaska will be lost and that if the state does not agree to what the labor unions want prolonged and expensive strikes will inevitably result.

They also recommended that the Board of Directors of the ARR after purchase and the manager of the railroad must be kept independent of any political pressure and that determinations regarding extension of the railroad through the North Slope, the Nome area, the Beluga coal fields and to the Canadian boarder must be dictated not on the basis of politics but on the basis of actual or potential profitability.

If the manager of the railroad is subject to political pressures and has not got his union contracts firmly in place before conveyance he might be unable to undertake such labor saving devices and operating procedures that would increase the efficiency of the railroad. The size of train crews should be determined on the basis of what is minimum for safety, for instance, and there must be permission granted for workers to cross craft lines according to the pressure of work. Such technical improvements as concrete cross ties, the electric sensor determination of individual journal temperatures, the shifting of loads, and the dragging of equipment are transmitted electronically. The dispatching office in the FEC is in contact with the two man crew that runs the trains between Miami and Jacksonville by means of a radio. The hot box, load shifting and dragging information is displayed in the dispatch office on rotating graphic drums that are similar to those familiar in electrocardographic, electroencephalographic, and seismic determinations.

The manager of the ARR whose labor relations will clearly delineated by pre-purchase agreements, will also be able to develop other research and development considerations that may come up from time to time. The decreasing use of box cars and the increase in the use of piggybacking operations, seem to be the trends at the FEC and other railroads in the south 48.

Mr. Thornton and the other officials also thought that the uncertain status of certain portions of the ARR rights of way, the Alaska Native land claims considerations, and certain vague agreements about the leasing and use of non-right-of-way properties also cast a cloud over the desirability of purchase. In answer to the direct question whether they would with the knowledge that they obtained about the ARR from the four documents that I had forwarded to them before my visit purchase the ARR the answer was no.

While I was in Florida I had the opportunity of watching the piggy back operation, the changing of wooden railroad ties to the concrete ties, the manufacture of concrete ties, the shifting of personnel from concrete work which was held in abeyance because of technical difficulties to other jobs, speaking to the men, watching the operation in the locomotive shop, and observing how the dispatching office worked while the trains were in motion. I have no doubt that the observation of certain ARR workers whom I have since met, is absolutely true; that the FEC is the state-of-the-art railroad far ahead of any other railroad of similar size any where in the south 48.

Next I went to Philadelphia and met Mr. Richard Hasselman, Executive Vice President of Conrail. I also had the opportunity in speaking to many of his officials. They also had studied the following documents before I got there: the Alaska Railroad Transfer Act, the Alaska Railroad Transfer legislation section by section analysis, the Alaska Railroad Transfer Report and the United States Railway Association Evaluation of The Alaska Railroad. The officials of Conrail who also ran their railroad at a profit, immediately noted the lack of contracts with the railroad unions that would be running the ARR after the purchase. A post conveyance set of agreements would be negotiated at great disadvantage to the State of Alaska. Again, in direct answer to the question regarding whether they would purchase the ARR under the present circumstances the answer was a unanimous no. They were familiar with the FEC operation and described it as the most enlightened and most brilliantly run railroad in the entire nation.

Mr. Hasselman asked whether I had been in contact with any lawyer who specialized in railroad labor relations. I replied that I never knew there was such a legal subspecialty. Accordingly Mr. Hasselman called up Mr. Henry H. Perritt, Jr. who is Professor of Law at Villanova University just outside of Philadelphia and who is a triple threat man in that he has a degree in Economics, one in Aeronautical Engineering, and one in Law. He had spent a good many years as counsel for Conrail in their negotiations between Conrail management and the labor unions. The Conrail people also pointed out that the five unions involved in running the ARR under the Federal Government, might not be the same ones who would be running the railroad under state auspices. They also pointed out the difficulties caused by clouding of the title of right-of-way lands and the difficulties that would ensue regarding the leasing or renting of non-right-of-way ARR properties. They suggested that passenger operations have been given up by almost all the privately owned railroads in the United States and that Amtrak was a federally funded means by which passenger traffic, even though it was run at a loss, was undertaken by the Federal Government.

After almost a day in conference with the officials of Conrail I took the train out to Villanova and had over an hours conference with Mr. Perritt, who had not had the advantage of reading the documents listed above. He subjected me to searching questions suggesting that the legislature should have a lawyer skilled in railroad labor negotiations to investigate the present and possible future relations between ARR management and railroad unions before the purchase and therefore be able to advise the legislature as to the type of legislation it should pass in either accepting or rejecting, modifying or amending pending legislation.

Before leaving on this trip it was my good fortune to have a forty minute conversation by long distance phone with Mr. D. W. Brosnan who is the recently retired Chief Executive officer of the Southern Railway which also runs at a profit. His conclusions were very little different from what the officials at Conrail, and FEC had arrived at. He had been sent copies of the above documents so that he had a chance to look over the situation before I phoned him. Since returning from Florida I have at hand a letter that he was kind enough to forward here presenting his attitude toward the possible purchase of the ARR from the Federal Government.

Upon returning to Juneau, and again quite by accident, as though some outside influence were guiding the destinies of the state, I received a call from Anchorage from Mr. Bradford W. Coupe who is a friend of Mr. Perritt and a member of the prestigious law firm of Morgan, Lewis & Bockius of Philadelphia which specializes in the type of law that has been discussed. At no expense to the State

he was willing to come down here and talk with me, the President of the Senate and the Speaker of the House, regarding the importance of investigation of present and possible future contracts with railroad unions in order to protect the state as well as the workers and the people of the state in the purchase of a railroad that would be run, if not at a profit, at least at the smallest possible loss.

Mr. Coupe came to Juneau and had an extensive conference with Speaker Hayes and a brief one with President Kerttula of the Senate. It was my recommendation and Mr. Coupe's that he with ten years experience in Alaska pipeline legislation be retained in order to permit the legislature to proceed on this important project with the greatest possible knowledge at hand for the consummation or rejection of the purchase before the deadline which appears in the ARR transfer legislation.

At the present time there seems to be some reluctance on the part of the Senate to join in an investigation at this time or retaining a specially skilled lawyer to protect the legislature's interest. However, Speaker Hayes is still interested and it is my hope that if the Senate does not care to become a party to this investigation, that the House undertake the investigation on its own.

I have no axe to grind. I very strongly feel that the legislature cannot intelligently make up its mind about this most important legislation unless it gets guidance from people who are experts in the complicated field of railroad labor legislation and in the running of a railroad, similar in size and scope to the one we consider purchasing. I think great consideration should be given to the unanimous opinion expressed by people who have the right to have one, that the purchase of the ARR has contemplated at this time is not in the interests in the State of Alaska or its people. I hope that the matters brought up in this paper will be made available to the people of Alaska through the medium of the newspapers.

PROHIBITED ACTS. (a) The corporation or an employee may not directly or indirectly:

(1) require or coerce an employee to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce an employee to make any report concerning an activity or undertaking of the employee's activities or undertakings unless the activity or undertaking is related to the performance of official duties;

(3) except as directly related to the performance of official duties, require or coerce an employee to submit to an interrogation, examination or psychological test that is designed to elicit information concerning

(A) a personal relationship with a person connected with the employee by blood or marriage,

(B) the employee's religious beliefs or practices,

(C) sexual matters,

(D) the employee's political affiliation or philosophy;

(4) coerce an employee to invest or contribute earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of an employee, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of employees suspected of being involved in criminal activity, or to investigate other activities directly related to official railroad business.

Page 40, line 28, insert a new section to read

"42.40.905 Legal Action. (a) The corporation shall notify the Department of Law 15 days prior to initiating legal action except when special circumstances exist which require immediate action to protect the corporation assets or to continue existing service.

(b) If notice of legal action is not given under (a) of this section within 7 days of taking action the board shall notify the Department of Law of the action taken and of the special circumstances which exempted the action from the requirements of (a) of this section."

Insert new sections as appropriate for Constitutional Amendment and effective dates.

* Sec. 6 AS 42.40.010 is amended to read:

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state [WITHIN THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT]. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

* Sec. 7. AS 42.40.020(a) is amended to read:

(a) The powers of the corporation are vested in the board of directors. The board consists of [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT,] the chief executive officer of the corporation, and eight [SEVEN] members appointed by the governor. At least six [FIVE] of the eight [SEVEN] appointed members must be registered voters in the state. No more than two appointed members may be from

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers.

(c) Claims against the corporation are not subject to the provisions of AS 44.77 regarding claims against the state.

(d) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.910. EXEMPTION FROM TAXATION. (a) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Subject to (b) of this section, the real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of

any one of the four judicial districts in the state. The appointed members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including transportation, business, and finance. Except for [THE COMMISSIONER,] the chief executive officer [,] and the member appointed under (d) of this section, a member may not be a state officer or employee.

* Sec. 8. AS 42.40.020(e) is amended to read:

(e) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

* Sec. 9. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. (a) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, members of the board serve for staggered terms of five years each [AT THE PLEASURE OF THE GOVERNOR].

* Sec. 10. AS 42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) conviction of a felony; or

(4) any conduct that was intended to harm the corporation, even if it does not constitute a crime.

* Sec. 11. AS 42.40.040(a) is amended to read:

(a) Except for the [COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND THE] chief executive officer, a vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

* Sec. 12. ~~[Sections 6 - 11 of]~~ this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

page 20, line 28 - Insert a new (d) as follows: "Leases to a party other then the State will be made at fair market value as determined either by appraisal or by competitive bid."

page 43, line 4 - Insert a new definition "Rule" as used in this chapter means every standard of general application or the amendment supplement or revision of a standard adopted by the corportation to implement, interpret, or make specific the law enforced or administered by it, to govern its procedure except one which:(1)relates only to the internal management of the corporation, (2) relates to specific rates, tariffs, divisions, and contract rate agreements; (3) relates to service schedules of the railroad (4) is directed to a specifically named person or to a group of persons and does not apply to the general public; or (5) relates to the use of public works under the jurisdiction of the corporation if the effect of the order is indicated to the public by means of signs or signals.

APR 1 0 1984

April 9, 1984

Rep. Betty Cato
Capitol, Room 128

Dear Rep. Cato:

Attached is a private sector approach that would make it possible for private enterprise to eventually own and operate the Alaska Railroad. The attached amendment is one that I offered to the Alaska Railroad operation bill, CS HB 512 (trans), this morning in House Finance Subcommittee.

The House Finance Subcommittee began work on the railroad bill this morning. We will meet every Monday, Wednesday and Friday at 8 a.m. until we have completely gone through CSHB 512.

Now. Back to my amendment. At first glance, many people like the idea of the railroad operating in the private arena, but they don't think it is possible. Too many people seem comfortable in letting the State take over ownership and management with a hope and a prayer that the system won't become entrenched as another State bureaucracy that needs yearly injections of operating dollars.

There has been a lot of lip service about putting the railroad into a private enterprise scheme, but nobody is coming up with anything concrete.

I believe my amendment, which allows private (individual) Alaskans to invest in the railroad and to eventually own it, is absolutely workable, sensible, and economic.

Sincerely,

Bob B

Rep. Bob Bettisworth

Page 41, lines 6 - 11:

Delete all material and renumber following sections accordingly.

Page 42, after line 11, insert new bill sections to read:

"* Sec. 11. ALASKA RAILROAD PURCHASE FUND. (a) The Department of Revenue shall establish a trust fund to be known as the Alaska Railroad purchase fund. Each permanent fund dividend designated for payment to the Alaska Railroad purchase fund under sec. 15 of this Act shall be deposited in the trust fund for the credit of the individual for whom the dividend was paid. Interest earned from the dividend shall also be credited to the individual.

(b) At any time before the board of directors of the Alaska Railroad Corporation forms a successor private corporation under sec. 12 of this Act, an individual may elect to withdraw a dividend deposited in the Alaska Railroad purchase fund together with interest earned on it by applying to the Department of Revenue in writing.

* Sec. 12. FORMATION OF SUCCESSOR CORPORATION. (a) When the Department of Revenue determines that the Alaska Railroad purchase fund contains $75,000,000, it shall notify the board of directors of the Alaska Railroad Corporation. The board shall determine the net book value of the corporation and direct the department to transfer that amount from the Alaska

Railroad purchase fund into the general fund in payment for the Alaska Railroad Corporation. The balance of the fund shall be transferred to the corporation by the department. For purposes of this subsection "net book value" means the amount paid by the state to the federal government for the Alaska Railroad, plus the amount of state money and value of state property transferred to the Alaska Railroad Corporation after the date of transfer of the railroad to the state, minus the amount of operating losses suffered or plus the amount of operating gains realized by the corporation from the date of transfer of the railroad to the date of the most recent audit conducted under AS 42.40.270.

(b) Within 120 days after all money is transferred from the Alaska Railroad purchase fund, the board of directors of the Alaska Railroad Corporation shall reincorporate the corporation under AS 10.05. The board shall enter into an agreement with the state on behalf of the successor private corporation not to convert, for 10 years after the date of transfer of the railroad to the state, all or part of the real property transferred to the state under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982), except that portion of property that lies within the Denali National Park and Preserve, to a use that would prevent the railroad from continuing to operate. Upon entering into this agreement, the state shall designate the private successor corporation as the entity to own, operate, and manage the Alaska Railroad and all assets and liabilities of the Alaska Railroad Corporation shall be transferred to the successor private corporation.

(c) Violation of the agreement entered into under (b) of this section shall result in the reversion to the state of all assets transferred by the state to the private successor corporation.

* Sec. 13. ISSUANCE OF STOCK. The board of directors shall issue stock in the successor private corporation formed under sec. 12 of this Act to each individual who elected under sec. 15 of this Act to deposit a permanent fund dividend into the Alaska Railroad purchase fund. Stock issued under this section shall represent the entire value of the corporation, and the amount of stock issued to each individual shall be based upon the amount credited to that individual in the Alaska Railroad purchase fund.

* Sec. 14. STOCKHOLDERS' MEETING. (a) At the time of issuing stock under sec. 13 of this Act, the board of directors shall notify each stockholder of the time and place of the first stockholders' meeting. The meeting shall be held within 90 days after the stock is issued.

(b) At the stockholders' meeting the board of directors shall resign and the stockholders shall elect nine individuals to serve as the new board of directors of the successor private corporation.

* Sec. 15. PERMANENT FUND DIVIDENDS. Beginning in 1984 and until the board of directors of the Alaska Railroad Corporation forms a successor private corporation under sec. 12 of this Act, the permanent fund dividend application form shall be prepared to allow an applicant to indicate whether the dividend payment should be paid to the applicant or to the Alaska Railroad purchase fund. The Department of Revenue shall pay the dividend as directed on the form. If an applicant does not indicate a preference for the payment of the permanent fund dividend on the application form, the dividend shall be paid to the applicant.

* Sec. 16. AS 42.40 is repealed."

Renumber following sections accordingly.

Page 42, after line 14, insert a new bill section to read:

"* Sec. 18. Section 16 of this Act takes effect on the date the Alaska Railroad Corporation is reincorporated under sec. 12 of this Act."

Renumber following section accordingly.

SUMMARY: Proposed Amendment to CSHB 512(Trans) by Bettisworth:

Intent: The Alaska Railroad Corporation established in CSHB 512(Trans) remains in effect until the accrual of $75 million in the ARR Purchase Fund. The State is paid the NET BOOK VALUE of the Railroad with the remaining balance in the fund transferred to the Alaska Railroad Corporation. The Corporation reincorporates as a private corporation. Upon reincorporation of the ARR Corporation, the entire Chapter 42.40 created in CSHB 512(Trans) is repealed. The private Corporation is then fully responsible for the ownership and operation of the Alaska Railroad.

I. Section 11. Alaska Railroad Purchase Fund

a). Dept. of Rev. to establish trust fund
  1). Optional PF Dividends depostited to individual credit
  2). Interest earned on deposits credited to individuals
  3). Individual may elect to withdraw dividend + earnings upon written request

II. Section 12. Formation of Successor Corporation

a). Dept. of Rev. notification of accrual of $75 million in fund to ARR Corp. Board and determine Net Book Value of ARR Corp.
  1). Transfer Net Book Value to general fund as payment of ARR Corp. with balance of fund transferred to Private Successor Corp.
  2). Net Book Value defined: (audit per 42.40.270)
    $_____ Amount paid by State to Federal Gov't
  + $_____ Approp. or transfer of property to Railroad
  - $_____ Operating losses or
  + $_____ Operating gains
  = $_____ NET BOOK VALUE

b). ARR Corp. to reincorporate under AS 10.05(Ak. Business Corp. Act) within 120 days after money transfer.
  1). Agreement between ARRC Board (on behalf of private successor corp) and State:
    a). Uphold 10 year Federal reversionary clause to prevent loss of real property to Federal Gov't.
    b). State designation of private successor corporation as entity to own, operate, and manage ARR.
    c). ARR Corp. assets and liabilities transferred to private corp.
  2). Violation of Agreement transfers assets back to state.

III. Section 13. Issuance of Stock

a). ARR Corp. Board will issue stock to each individual who elected to deposit their permanent fund dividend into the Purchase Fund.
  1). Individual's stock will be based on amount credited in Fund.

IV. Section 14. Stockholders Meeting

a). 90 days after issuance of stock
b). ARR Corp. Board Resigns
c). Stockholder Election: 9 individuals to serve as new board of private corp.

V. Section 15. Permanent Fund Dividend Application

a). 1984 addendum to Applications to provide option of payment to individual or ARR Purchase Fund.

VI. Section 16 & 18. Effective Date

a). Effective on the date the Alaska Railroad Corporation is reincorporated under Section 12 of this amendment.

M E M O R A N D U M April 7, 1984

SUBJECT: Alaska Railroad (amendment to CSHB 512(Trsp)

TO: Representative Robert Bettisworth

FROM: Tamara Brandt Cook
Deputy Director TBC

You have asked for an explanation of the provisions dealing with reversion of Alaska Railroad property from the state to the federal government contained in the Alaska Railroad Transfer Act. 45. U.S.C. 1209 contains several provisions on reversion of property in certain situations.

Under (a) if, within ten years after the date of acquisition of the railroad by the state, all or part of the real property transferred by the federal government is converted to a use that would prevent the state-owned railroad from continuing to operate, that property shall revert to the federal government or the state may pay the market value of the property to the federal government. This does not apply to property within the Denali National Park and Preserve. State-owned railroad is defined under 45 U.S.C. 1202(14) to mean:

> . . .the authority, agency, corporation or other entity which the State of Alaska designates or contracts with to own, operate or manage the rail properties of the Alaska Railroad . . .

Section 12(b) of this amendment requires the board of directors of the newly formed private corporation that is the successor to the Alaska Railroad Corporation to enter into an agreement with the state not to convert, for 10 years after the railroad is acquired by the state, all or part of the real property transferred by the federal government to a use that would prevent the railroad from continuing to operate. The state will designate the successor corporation as the entity to own, operate and manage the Alaska Railroad, in conformity with the requirement of federal law. If the

agreement is violated, all assets transferred ~~by~~ to the state to the successor corporation revert back to the state, so that the state will have an opportunity to correct the situation and avoid the reversion of property to the federal government.

Under (b) of the federal provision if the state discontinues use of land within the railroad right-of-way, the state's interest in the land reverts to the federal government. The provision goes on to describe ways in which it can be determined that the state has discontinued use of a right-of-way. This amendment does not address this provision, so discontinuing the use of a right-of-way by either the public or private successor corporation will result in the reversion. The federal government will not, however, retain an interest acquired through reversion of a right-of-way. Instead, the federal government will convey the interest to the abutting landowners under (c) of the federal provision.

Under (d) if use is discontinued of property transferred to the state that is within the Denali National Park and Preserve or the Chugach National Forest, the property will revert to the federal government. Upon reversion, the land will become part of the nation park or forest. This amendment does not address this provision, so discontinuing the use of land in the national park or forest by either the public or private successor corporation will result in the reversion.

Under (e) if, within five years after the state acquires the railroad, the state in turn transfers all or substantially all of the state-owned railroad to an entity other than an instrumentality of the state, the proceeds from the transfer that exceed the cost of improvements made by the state for the railroad and any net liabilities incurred by the state for the railroad shall be paid to the federal government. Since the language used in the federal law is not limited to outstanding liabilities of the state on the date of transfer but rather, seems to include all liabilities incurred by the state, even those incurred in the past and paid off, it appears that under this provision the state would have to turn over any profit it made in transferring the railroad after deducting money it had invested in the railroad and expenses it had incurred through the operation of the railroad. This amendment does not directly address this provision. However, under section 12(a) the state is to receive for the railroad only the amount paid by the state to the federal government.

The Alaska Railroad: A Resporse to "Obstacles" Preventing Private Ownership

By
Representative Robert Bettisworth

Private ownership of the Alaska Railroad has been down-played. The private ownership concept has not been thoroughly examined. It is necessary to respond to some of the statements by those who say too many obstcles stand in the way.

The approach taken in both the House and Senate bills is to establish a state owned "instrumentality" or corporation to operate the Alaska Railroad. The apparent assumption is that independence from state government can be acheived with this kind of operational vehicle.

An attempt at independence is indeed a laudable goal. However, neither CSHB 512 or CSSB 352 will accomplish this goal.

As a state owned corporation the railroad would be subject to undue political influence regardless of the attempt at separation. Under a plan for state ownership the Railroad would become a costly drain on the state's treasury if operating subsidies are necessary and investment decisions are made on a political rather than strictly economic basis.

The ammendment offered by Rep. Bettisworth would allow all Alaskans to participate in the ownership and control of the Alaska Railroad as private stockholders. As a private corporation it would have the managerial flexibility necessary to operate in an efficient manner. More importantly the railroad would have an incentive, namely the profit motive, to operate in an efficient manner while providing the level of service that the users of the Alaska Railroad are willing to pay for.

Following below are the obstacles most often raised by opponents of privatization of the railroad and responses to those arguments.

1. Tax exempt financing would not be possible if the railroad was privatly owned. This statment is false. Tax exempt industrial revenue bonding is available to private corporations through the Alaska Industrial Development Authority, and would also be available through the Regional Resource Development Authorities authorized by the Alaska Legislature in 1983. It should also be noted that in addition to the initial capitalization of $75 million additional equity capital could be attracted to the corporation. That equity capital would have to come from State appropriations if the State owned the railroad.

(over)

2. Exemption from municipal taxes would be lost requiring higher freight rates. This statement implies that local taxes are not levied on Railroad lands. Taxes are in fact currently paid on the value of the leasehold interest and on the leasehold improvements of parcels leased to private concerns. It is true that some of the value is presently exempted however a basic theorem of the amendment is that private sector opperating efficiencies will translate into lower freight rates even with any added burden of local property taxes. Further research is being done to quantify the increase in local property taxes which the private railroad would face.

3. Exemption from Federal income taxes would be lost. This is true. All private corporations which make a profit are expected to pay Federal taxes. This is simply a cost of doing business to a profitable corporation. It should be noted that if no profits are made, no corporate income taxes will be due.

4. Exemption from The Railroad Retirement act of 1974, the Railroad Retirement Tax act, the Federal Employers Liability Act, the Railway Labor Act, and the Railroad Unemployment Insurance Act would be lost under private ownership. If these are such expensive laws to comply with, why is the Alaska Railroad labor cost per employee nearly 150% of the national average for railroad employees? It would appear that private railroads experience much lower labor costs and that by"going private" labor costs would likely go down, not up as suggested by opponents of the ammendment.Furthermore, the appraisal of the Railroad by the United States Railway Association, which is the official document establishing the price, states that "there would be no significant changes in cash flow if the labor related statutes were applied".

5. Concern has been expressed over the fact that the Railroad would not be able to use the power of eminent domain for future expansion. This concern is not valid because the power of eminent domain is available to private corporations for the purposes of transportation and communication.

6. There has also been concern expressed that the Alaska Railroad Transfer Act (ARTA) would not allow transfer to a private corporation. This is simply not the case. Nothing in ARTA prevents transfer to a private corporation. Furthermore, all reversionary clauses in ARTA have been considered in drafting the proposed amendment, and they have been addressed by the drafter of CSHB 512, Tamara Brandt Cook, in the attached memo from her to Rep. Bettisworth dated April 7, 1984.

plus the amount of state assets transferred to the railroad after it is acquired, minus the amount of operating losses suffered or plus the amount of operating gains realized by the railroad after the date it is acquired by the state. Under this formula, it appears that only the amount of operating gains realized by the state, if any, would go to the federal government should the state transfer the railroad to the private successor corporation during the five year period. Since the railroad has not had a history of operating at a gain, the money that would go to the federal government might be insignificant.

C2/142

PRESS RELEASE
April 9, 1984

Rep. Bob Bettisworth
House of Representatives
Juneau, Alaska
465-4984, 465-4967

The Alaska Railroad could be transformed into a private corporation wholly owned by Alaskans in a matter of two or three years under a stock purchase plan devised by Rep. Bob Bettisworth, a Republican legislator from Fairbanks.

Bettisworth introduced an amendment to CS, House Bill 512 (trans), the bill that sets up the operating corporation created when the State of Alaska takes over the Alaska Railroad from the federal government. That legislation is presently in House Fianance Committee for review before it goes to the full body for action.

The amendment offered by Bettisworth would allow Alaskans to invest their Permanent Fund Dividends - on a wholly voluntary basis - in a stock ownership plan which would pay interest while that money was invested in a trust account.

"The idea is to eventually transform the Alaska Railroad, a government owned operation, into a private corporation owned by its stockholders who would be Alaskan residents," Bettisworth said.

"They would be allowed to invest their Permanent Fund Dividends in a trust fund for eventual conversion into stock in the New Alaska Railroad Corporation."

He added, "It's my assumption that most Alaskans will want to receive their checks and spend them or invest them as they individually chose, but there will be some who will want to invest in the railroad."

Last year's individual checks of approximately $385 went to every Alaskan woman, man and child who was a resident of the state for a year or more.

(more)

"If only 15% or 20% of Alaskans chose to put their dividends into the railroad corporation investment, that would raise close to $25 million in one year. At that rate, " he continued, "it would take two or three years to raise the $75 million that my amendment calls for as the purchase price for the New Alaska Railroad Corporation."

The "new" coorporation, under Bettisworth's suggested plan, would be directed by its own board of directors who would be elected by the stockholders. Only those Alaskans who want to invest would be obliged to do so. Each Alaskan would be allowed this option on an annual basis through the dividend distribution period. After the new corporation was formed, stock then could be transferred or sold.

If an investor wanted to withdraw his dividends from the trust, he would be allowed to do so - with interest - up until the time the new corporation is formed.

Bettisworth's amendment to the railroad transfer bill will not alter the bill's current thrust, that is, to take over State ownership and operation of the Alaska Railroad from the federal govenment.

"I want to see Alaskans own the railroad without the state government or any state bureaucracy running its day-to-day business. If the bureaucrats in Alaska get their hands on it on a long term basis, that will guarantee that it will not be economically independent and economically healthy," Bettisworth said.

"Private enterprise is the route to take with an investment of such significance to our state," he added.

MEMORANDUM

TO: Senate Transportation Committee

FROM: Gross & Burke AMG SAB

RE: Organization of Public Corporation to Operate the Alaska Railroad

At your request, we have reviewed the drafts of SB 10 and SB 352, with a view toward determining the extent to which those bills create a valid legal structure to operate the Alaska Railroad after its proposed purchase. Initially, we were asked whether the legislature had the power to require that gubernatorial appointments to the governing authority[1/] of the railroad be confirmed by the legislature. Both SB 352 and SB 10 presently require confirmation of executive appointments. At a second committee hearing we were requested to advise you of the minimum number of executive branch controls which must be placed on any entity created by law to operate the railroad to insure that the entity would be a part of the executive branch and, therefore, constitutionally sound. We shall answer the question in the order posed.

SB 10 and SB 352 both provide that appointments made by the Governor be confirmed by the legislature in joint session.

1/ SB 10 speaks of an "Authority" while SB 352 creates a similar organization but describes it as the "Railroad Corporation." Purely for the purposes of simplicity, we will refer to the basic organizational structure at issue here as an "Authority."

We assume that if a similar section remains in a bill, which passes the legislature, the Governcr will probably choose to submit the names of his appointees for confirmation just as he submits his appointees to a host of other boards and commissions in state government. It is our opinion, however, that should an occasion arise when the Governor decides not to submit a name or names for confirmation, the legislature would have no legal right to insist he do so.

Our conclusion is based both on the words of the Alaska Constitution and a decision of the Alaska Supreme Court. The constitution provides in Art. III, sec. 25 that:

> The head of each principal department shall be a single executive unless otherwise provided by law. He shall be appointed by the Governor, subject to confirmation by a majority of the members of the legislature in joint session . . .

Sec. 26 of the same article states that:

> When a board or commission is at the head of a principal department or a regulatory or quasi-judicial agency, its members shall be appointed by the Governor subject to confirmation by a majority of the members of the legislature in joint session . . .

The wording of the constitution is clear on its face. The legislature may confirm the heads of all departments, whether they are single executive officers or a board. The legislature may also confirm boards or commissions which are "regulatory or quasi-judicial" agencies. A regulatory authority is, as it implies, one whose basic function is to regulate a particular public activity. The Fish and Game Board is a classic example of such a regulatory board. A quasi-judicial

agency is one in which individual rights are adjudicated. An example of such a board would be the Public Utilities Commission, where contested proceedings determine rates.

The Railroad Authority as established in SB 352 or SB 10 fits under none of these definitions. It is not at the head of a department[2/] nor is it a quasi-judicial or regulatory agency. Under the constitution, then, the legislature has no power to confirm executive appointments to the Authority, unless the legislature can add to the powers of confirmation which are granted in the constitution.

The legislature attempted to do just that in 1975 when it passed a statute authorizing confirmation of a whole list of lesser executive branch officials, including deputy commissioners and certain division directors. The Alaska Supreme Court held that the statute granting the legislature the additional confirmation power was unconstitutional. Bradner v. Hammond, 553 P.2d 1 (Ak. 1976) In the Supreme Court's view, the power to appoint to positions in the executive branch is a power reserved to the Governor under the doctrine of separation of power, except as the constitution permits the legislature to participate in the process through confirmation. If the constitution does not specifically

2/ We recognize that SB 352 provides, "The corporation shall be considered a principal department only for the purposes of Art. III, sec. 26, Constitution of the State of Alaska." (emphasis added) In our view, however, the courts would almost certainly view this purely nominal designation as one purely of form, since the bill does not actually establish a new department with the kinds of gubernatorial controls normally associated with a principal department of state government. This issue of gubernatorial controls is addressed in detail later in this memorandum.

authorize confirmation, there is no legal power to do so and the Governor's power of appointment can not be subjected to confirmation by the legislature. Put another way, the Bradner case holds that the constitution states the outer limits of legislative powers of confirmation; the legislature may not expand that power by statute. While neither SB 10 or SB 352, as presently structured, would withstand constitutional challenge on the issue of confirmation, there are options available to the legislature which would provide a valid legal basis for the confirmation of appointments. We will set these options out briefly for your consideration.

The first and most obvious manner for the legislature to obtain confirmation power is to pass a joint resolution placing before the voters a constitutional amendment that would specifically authorize the legislature to confirm appointments to the Railroad Authority. This amendment could be placed before the voters during this year's election. If the amendment passed, the first appointees of the Governor to the authority or commission would be constitutionally subject to confirmation; if it did not pass, the situation would remain as it is today -- confirmation if and when the Governor chooses to submit the names. We should note that following the Bradner case a constitutional amendment granting broad additional confirmation powers to the legislature was put before the voters and failed, but whether that would be the fate of a more narrowly drawn provision would be difficult to predict.

The second option to insure confirmation would be to create an entirely new department of state government, which would be headed by the Railroad Authority. The sole purpose that new department would be to the railroad. In such an instance, the Authority would be at the head of a department and under Art. III, sec. 26 of the Alaska Constitution, the members of the Authority, would be subject to confirmation. There are, however, certain serious problems which might result from this approach. One of the basic purposes of the present bills creating an independent public corporation or authority (located nominally within a department) is to permit the Railroad Authority to raise money for operations without involving the general credit of the state. If, however, the authority which manages the railroad is a full department of state government there is some real question about its ability to successfully perform this fundraising activity without the involvement of state credit. Art. IX, sec. 8 of the constitution provides that no state debt may be incurred unless (1) it is authorized by law; (2) is for capital improvements; and (3) is ratified by the voters. Sec. XI of the same article provides that the restrictions of sec. 8 do not apply to debts incurred through revenue bonds issued by public corporations or public enterprises of the state when the only security is the revenue of the enterprise or the corporation. Whether or not an entire department of state government can be made a "public corporation" or whether

or not the entire activity of a department of state government would qualify as a "public enterprise" are questions that have never been decided in this state by any court. While the committee can certainly receive advice from legal counsel as to the possible or probable outcome of litigation on these subjects, it would at best be an educated guess. The result might well be that in order to obtain confirmation powers the committee would create a department which, in the end, might be subject to the same bonding restrictions applicable to all other departments of state government. I gather there is no disagreement within the committee that such a result would be highly undesirable. We cannot recommend this method of insuring confirmation powers because the risks are simply to great -- the legislature would be in totally unchartered waters and the magnitude of the questions involved is simply to great to accept that degree of risk.

Having discussed the issue of confirmation, we now move to the second issue posed by the committee. Specifically, that question involves the extent to which a public corporation may be established independently of the authority of executive branch and yet be a part of that branch of government. Art. III, sec. 22 of our constitution requires that all agencies of state government and their respective functions shall be allocated within no more than 20 principal departments.

The only exceptions provided are for "regulatory, quasi-judicial, and temporary agencies." As we view the functions of the operation of the Railroad -- whatever form of entity is chosen -- those functions are not primarily "regulatory" or " quasi-judicial." Further, the railroad operation would not necessarily be "temporary." Although conceivably the railroad could be sold or leased at some point in the future to a private corporation, the existence of the operating entity could well be permanent.

We think it is clear that the Alaska Supreme Court would view the Railroad Authority as performing operational or executive functions and would, therefore, require that the Authority be either a separate principal department or located within one of the already established principal departments. We have already reviewed the problems that would be created if the Railroad Authority would be made the head of an entirely separate principal department. Therefore, we are left with the conclusion that the only other constitutionally sound option is to place the governing board or authority within an existing department of state government.

Simply stated, then, the legal issue you have asked reduces itself to this. On the one hand, the legislature seeks to create an "independent" authority -- one which has financial and political autonomy and is not subject to direct gubernatorial control. On the other hand, the constitution

requires that all executive or managerial functions be a part of the executive branch, which, in turn, is under the supervision and control of the Governor. What then are the limits -- how much gubernatorial control is required to make the "independent" authority a constitutionally valid part of state government?

The cases that the Alaska Supreme Court has reviewed concerning the requirements of Art. III, sec. 22 make it clear that more than mere nominal placement of an independent corporate entity within a department in the executive branch is required. For example, in De Armond v. Alaska State Development Corporation, 376 P.2d 717 (Alaska 1962), it was claimed that the legislation creating the Alaska State Development Corporation was unconstitutional because it sought to create an independent agency that was nominally within the Department of Commerce, but which the challengers claimed was not in actuality within that department. The Alaska Supreme Court rejected this contention and upheld the constitutionality of the Development Corporation. In doing so, the court enumerated a number of features contained in the enabling legislation for the corporation, which demonstrated sufficient ties with the Department of Commerce to justify the conclusion that the corporation was (at least for constitutional purposes) truly within the Department of Commerce.

The factors that the court cited were as follows:

(1) the Commissioner of Commerce had a permanent seat on the board of directors and thus had "considerable influence" on the board;

(2) the other six members of the board were appointed by the Governor, and served at his pleasure;

(3) the board was required to submit comprehensive annual reports to the Governor and legislature;

(4) the financial records were to be audited annually by the legislative auditor; and

(5) the state's bank examiner was required to examine the corporation's records each year.

Additionally, although the court did not make clear what significance this fact had, it noted that the corporation was "temporary" and could be dissolved by a majority vote of the board subject to legislative approval.

Four years later, the court reviewed a similar challenge to the constitutionality of the Alaska State Mortgage Association; i.e. that it was only a nominal rather than a legitimate part of the department of state government in which it had been placed. Walker v. Alaska State Mortgage Association, 416 P.2d 245 (Alaska 1966). The court, however, noted that the mortgage association legislation contained most of the same features which it had cited in De Armond to support its conclusion that the development corporation was properly established within a department of state government. Like

the development corporation in De Armond, the mortgage association members were appointed by the Governor and served at his pleasure. The commissioner of Commerce had a permanent seat on the board of the association. Additionally, the court noted that as further evidence of gubernatorial control, the mortgage association was required to submit detailed annual reports to the Governor and legislature, the financial records were subject to an annual legislative audit, and certified copies of the minutes of every meeting of the association were required to be sent to the Governor.

Neither of these decisions, unfortunately, provide any guidance on the question of the minimum number of factors that will be required in order to meet the constitutional requirements of executive supervision or control. In both cases, however, the court seemed to emphasize two factors over and above all the others. The first was that board members served at the pleasure of the Governor. The second was that the Commissioner of the department within which these independent entities were located served on the board and was a full voting member. These two features were emphasized by the court to demonstrate that the Governor exercised at least partial control over the activities of the board. The court, for instance, noted that while the commissioner was only a single member of a multi-member board his position as a cabinet member would give him

substantial influence. The court further emphasized that the Governor was in a position to exercise influence on an otherwise independent board through the fact if there were a real disagreement in policy, he could exert control over the board members through his ultimate power to reove them. The court, in Walker, cited with approval language from the Superior Court decision in the case to this effect:

> If the Governor is dissatisfied with the executive director in either his capacity as a member of the Alaska State Housing Authority or the Alaska State Mortgage Association, he can assert his authority over the board members to effect the director's removal, and should they disregard his wishes, his alternative is to appoint members to the board who will appoint an executive director satisfactory to the Governor.

Walker, at 250 n.19.

At the same time, the court recognized that there may be important and legitimate reasons for the legislature to insulate a board or authority from direct gubernatorial influence over particular decisions. In the courts words:

> It is true that the Commissioner of Commerc can not dictate the decisions of the Board. Nor can any other state official . . . . It is quite apparent that the legislature intended the board to be free from outside control in making decisions on particular loans.

De Armond, at 724 (emphasis added).

Nonetheless, it is clear from the decisions that there are limits to the degree of insulation that the court will

tolerate and still uphold the constitutionality of the placement of the independent corporation nominally within a department of state government.

Accordingly, it is our view that to insure constitutionality of this bill the legislature should, at an absolute minimum:

1. create an independent authority which is part of an enumerated department of state government;

2. provide that the board for the public corporation or authority be comprised of persons appointed by the Governor and who serve at his pleasure;[3/] and

3. that the commissioner of the department in which the authority is placed serve as a voting member of the board.

3/ There is a secondary, but perhaps no less important, reason why the appointees to the governing body of the railroad should serve at the Governor's pleasure. As a constitutional matter, there is a serious question as to whether any appointee of the executive branch with the exception of those who serve in regulatory or quasi-judicial positions can be subject to any other restrictions but that they serve at the Governor's pleasure. The U.S. Supreme Court has interpreted that under the federal constitution, if an office is "executive" in nature, legislative efforts to restrict the president's power to remove an official are invalid. Myers v. United States, 272 U.S. 178. That opinion has been modified slightly in Humphries Executor v. United States, 295 U.S. 602, as the court held that a member of the Federal Trade Commission could have his term set by Congress and be insulated from removal by the president, but the court was clear to limit its opinion to quasi-legislative or judicial agencies, i.e. those that were actually passing regulations or resolving legal disputes as their prime function. The Railroad Authority would fall in neither of these categories, but would be within a traditional executive agency structure.

We raise this issue because we can be reasonably sure that the content of this bill will be litigated in the courts, if there is any reasonable basis to do so. The appointment of commissioners to the Railroad Authority who serve at the Governor's pleasure would reduce the possibility of legal attack on yet another basis.

It would be advisable, as well, to include at least some of the kinds of provisions (such as the annual reports to the Governor and legislative audits) which the court in De Armond cited as significant, although these may not be essential. Beyond that, the legislature may, in our view, limit the application of acts such as the Executive Budget Act, Administrative Procedures Act and others which impact most executive branch agencies, but are not, in our view, critical to upholding the constitutionality of this public corporation structure.

AMG/SAB/yw

GROSS-BURKE OPINION KEY POINTS

1. SB 10 and SB 352 both provide that appointments made by Governor and confirmed by legislature in joint session. Should an occaison arise when the Governor decides not to submit a name or names for confirmation, the legislature would have no legal right to insist he do so.

2. The Railroad Authority established under SB 10 and SB 352 does not fit the defintions for the head of a department nor quasi-judicial or regulatory agency. Under the constitution, the legislature has no power to confirm executive appointments to the Authority unless the legislature can add to the powers of confirmation which are granted in the constitution. In Supreme Court's view, the power to appoint positions in the executive branch is a power reserved for the Governor, except as the Constitution permits the Legislature to participate in the process through confirmation.

Therefore, the first and most obvious manner the legislature can obtain confirmation power is to pass a constitutional amendment to specifically authorize the legislature to confirm appointments to the Railroad Authority.

The second option would be to create an entirely new department of state government, headed by Railroad Authority. Constitutional problems with that if Railroad is to raise money for operations without involving general credit of state.

3. Question of extent to which a public corporation may be established independently of the authority of the executive branch and yet be a part of that branch of government. Alaska Constitution requires all agencies of state government allocated within no more that 20 principal departments. Only exceptions are for regulatory, quasi-judicial and temporary agencies-which the Railroad Authority does not fit into.

Believe the Alaska Supreme Court would view the Railroad Authority as performing operational or executive functions. Other than placing Authority in separate department, the only other option is to place governing body or authority within an existing department of state government.

Summarization: The major question presented is, What are the limits-how much gubernatorial control is required to make an independent authority a constitutionally valid part of state government?

In reviewing other cases decided by the Alaska Supreme Court, the Court cited the following factors to insure the constitutionality of the placement of an independent corporate entity within a department in the executive branch:

(1) Commissioner has a permanent seat on the Board of Directors
(2) Board members appointed by Governor and serve at his pleasure
(3) Board required to submit annual reports to Governor and Legislature
(4) Financial records audited annually by legislative auditor
(5) State's bank examiner required to examine Corporation's records each year

The Gross-Burke opinion's for insuring the constitutionality of the bill is that the legislature should:

(1) Create an independent authority which is part of a department in state government
(2) Board appointed by Governor who serve at his pleasure
(3) Commissioner of department where authority placed serves as voting member of board.

Alaska Railroad Operating Entity
Sheffield Administration - Policy Statement

The Alaska Railroad is a fundamental link in Alaska's overall transportation system. Ensuring the continuation and development of this rail system as Alaska's transportation needs grow should be a major public policy objective in the years ahead.

Along with most Alaskans, I share this objective. I hope to see the Alaska Railroad provide the maximum benefit to our residents with minimum involvement by State government for regulatory oversight and public funding.

I support the development of the Alaska Railroad from its present status of a federally owned and operated agency to one which is funded and operated to the maximum extent possible by the private sector through a private company management contract or similar form of lease arrangement. I believe it will take a period of time to reach this goal. Consequently, it is important that any legislation provide adequate and specific provisions mandating that these alternatives be addressed.

It is important to keep in mind one essential fact: as long as the Alaska Railroad receives public funding, there must be comparable public oversight and accountability for its operation and management. If we accept anything less, we will be shirking our responsibility to all Alaskans to prudently and properly manage public funds.

I commend the members of our Legislature for the extensive interest they have demonstrated in the Alaska Railroad transfer issue. I know that many legislators have worked hard to develop acceptable transfer legislation which addresses a wide range of State policy concerns and interests over the past several years. Rather than introduce legislation of my own, I look forward to working with the legislation already in preparation provided that it is consistent with my following basic policy considerations:

(1) Railroad operations should be insulated from political interference but remain responsive to the public interest. The public entity selected should be one best able to accomplish this goal.

(2) The railroad entity should be constituted so that it has broad latitude in its operation and financing subject to public interest safeguards in existing state law, including the Executive Budget Act, Fiscal Procedures Act, and Administrative Procedures Act. I realize that certain sections of these laws may not be entirely applicable, and therefore limited exemptions may be necessary.

(3) All revenues generated by the railroad should only be expended for railroad and related purposes.

(4) The railroad should be able to incur bonded indebtedness to an extent consistent with its ability to repay the indebtedness from its own revenues.

(5) The railroad should hold title to the surface estate of all lands received in the purchase and enjoy access to subsurface material necessary for actual rail operations. Specific arrangements should be included to ensure consistency with general state land policies, and to provide that sale of real property cannot occur without the approval of the Department of Natural Resources.

(6) To minimize the State's exposure to railroad liabilities and to lower administrative costs, the railroad should take advantage of the economies of scale afforded by participation in the State's insurance and risk management plans. The Department of Administration should have primary responsibility for the negotiation of collective bargaining agreements with railroad employees.

(7) The railroad should prepare and implement operating and capital plans, and explore long-range expansion needs. No later than three years after acquisition, the railroad must prepare a report for the Governor and the Legislature recommending a method for obtaining private sector participation in railroad operations.

COMMONWEALTH NORTH RECOMMENDATIONS

Richard F. Barnes

RECOMMENDATIONS FOR THE ALASKA RAILROAD CORPORATION

1. The corporation should have full control over the surface and subsurface railroad lands.

   The purchase of the Alaska Railroad is often referred to as "a real estate deal" because of the value of land included in the transfer package.

   Some private leaseholders and municipal governments with railroad-owned waterfronts or city centers would like to see the land transferred to themselves. The corporation, as a matter of policy, should not sell revenue producing property because it is in the interest of the entire state that the railroad hold these properties for its own needs.

2. The corporation and its union employees should cooperate in modernizing existing labor agreements during the two-year transitional period mandated in the federal transfer legislation.

   Particular attention should be given to any archaic work rules that inhibit efficiency. The goal should be to increase productivity rather than diminish compensation to employees.

   Efficient utilization of railroad employees is essential for a self-sufficient operation.

3. The corporation should not be mandated to propose or conduct feasibility studies for cross-country track extensions or sale of the railroad.

   Major rail extensions and sale issues are not operating issues. The mission of the railroad corporation should be closely focused on matters that affect economics and service to shippers and passengers on existing routes. Feasibility studies are expensive, require extensive staff time, and could drain the limited funds of the railroad.

   Extensions and sale proposals have broad policy implications that can best be considered by the executive and legislative branches of state government or private entities.

4. Passenger operations should be modified to take advantage of revenue opportunities and re-evaluate uneconomic services; a system should be devised to accurately identify passenger service costs.

   Just as land leasing by the railroad is projected to be profitable, passenger service will likely remain a loss operation if all related expenses and capital costs are considered. To control these costs, however, it is important to account for them accurately.

   Reliable cost information is crucial in considering service levels, pricing issues, and capital expenditure decisions.

5. The Board of Directors of the Alaska Railroad Corporation should consist of five to seven voting members representing the interest of the entire public; no board member should be appointed to represent a special interest.

   Directors should be chosen for their professional judgment rather than their representations of special interests or home town. Similarly, non-voting membership is inappropriate.

   Board members should be limited to two five-year terms of service and with staggered terms to mix continuity of experience with new ideas.

Alaska State Legislature

OFFICIAL BUSINESS

CHAIRMAN
RULES COMMITTEE

MAR 1 9 1984

JAN FAIKS
POUCH V
CAPITOL BUILDING
JUNEAU, ALASKA 99811

Senate

MEMORANDUM

DATE: March 9, 1984

TO: All Members
Senate Transportation Committee
House Transportation Committee

FROM: Senator Jan Faiks

SUBJECT: How other State owned railroads are operated

NOTE: The following notes were gathered by my staff about how railroads in other states are run. I thought it might be interesting to you.

SOUTH DAKOTA

There are 433 miles of core track in SD that are in operation. The state owns more mileage that is not in use. There are also 316 miles of main line track that is part of the line running to the west coast. The state owns the track and contracts out the operation. There is no annual appropriation or subsidy from the Legislature. There is no report required to the Legislature. The operator(Burlington Northern RR) is responsible for all facets of running the railroad. The State purchased the track for $18 million with money raised by a special dedicated sales tax. The state provided the money for the original rehabilitation from a federal program for the rehabilitation of railroads. Burlington Northern runs the railroad as part of their own system and is run on a schedule that traffic demands. The state gets no percentage of the profits and is not liable for any of the debt of the RR. Their only interest is in having the railroad operated to provide the service needed by the shippers.

Information provided by Chris Randall Deputy Secretary of the Department of Transportation 605-773-3265.

VERMONT

In Vermont the state owns the track and the ROW. They lease it to an operator and the state receives a percentage of the gross profits based on a complicated formula. The state owns 4 rail

lines. Only one is operated at a deficit. The state will subsidize it only if it can be shown that it is in the best interests of the public to do so. Last year the subsidies amounted to $200,000. There are about 300 miles of track and the money was raised to purchase the railroad with a special bond issue. The operator has basically paid the state back for the purchase price through lease payments. There is an annual report required to be submitted to the Dept. and is available to the Legislature upon request.

NEW YORK

The state bought the Long Island Railroad in the 1960s and put it under the jurisdiction of the Metropolitan Transportation Authority. The state also owns a 100 mile branch line that it operates from Utica to Lake Placid. The revenues do not finance the service and money is appropriated each year form the Legislature. The railroad workers are employees of the Long Island Railroad.

Information obtained from John Connor 518-457-2320.

GEORGIA

Georgia owns 150 miles of mainline track. The track was built 125 years ago by the state. The oversight is by the State Properties Commission-they also oversee other state properties. Georgia leases the operation of the railroad to the CSX Corporation. They are required to submit an annual report to the Legislature. The state gets a percentage of the gross profits of the railroad. Last year this amounted to $3½ million dollars. The railroad has an obligation to maintain the railroad to the standards required of a class IV railroad. The contract was negotiated in the 1960s and will be renegotiated in 1992. The railroad workers are employees of Seaboard Railroad.

Information provided by Jim Statton.

WISCONSIN

The state purchased the branch lines from other major railroads. The state retains ownership of the line and provides to the operator 80% of the value of the track. Twenty percent comes from other sources. The railroad is on its own financially and nothing comes back to the state. The railroad pays very little in taxes and the state does not subsidize the railroad or cover any deficits. The Legislature felt that subsidies would not solve any problems, but only perpetuate the current problems. The Wisconsin Constitution prohibits the state from running a railroad. There are 500 miles of track. The oversight issue is very sensitive politically right now. There is a dispute now about how much access the state should have to the records of the railroad. When the state bought the

railroad, they purchased the land and the track but not the labor agreement.

Information provided by Keith Plasterer at 608-267-7347. Suggested we talk to the City of Belfast Maine 207-338-2330 and the City of Pineville, Oregon 503-447-6251.

Also suggested we read Small Railroads put out by the Association of American Railroads 1220 L street N.W. Washington D.C. 20036. 202-835-9100. $20.00
and Starting a Shortline by the American Association of Shortline Railroads 2000 Massachusetts Ave. N.W. 20036 202 785-2250.

and British Columbia-a Railroad Derailed by the University of B.C. Press

WEST VIRGINIA

The state owns and operates 51 miles of shortline. The state owns the ROW, track, and rolling stock. In 1978 when the railroad was abandoned, the state looked at three options for running the railroad and decided that running it themselves would be the most cost effective way. The state secured locomotives and engines from government surplus. The employees of the state and are non-union because state employees are not organized under state law. They are now in the process of putting the employees under state civil service system. The railroad is a state agency and is subject to state law. They must go through the Department of Finance and Administration for all purchasing and payment of bills. Every purchase over $200,000 goes through a bidding procedure. Every item less than $200,000 must be purchased from a list of approved vendors. This causes a lot of paperwork and delay. The railroad is forced to anticipate the time lag. Their budget must be approved by the Legislature. For FY 85 they requested $812,379 from the Legislature and anticipate revenues of $315,000. The W. Virginia Maintenance Authority keeps all revenues(that is they are not returned to the general fund). The railroad has 30 employees. The railroad has the authority to issue their own bonds but they have never done so. The former executive director, John Killoran, is now the Director of Strategic Planning for the Alaska Railroad. The people who were involved with the railroad in 1978 now regret their decision to have the railroad run by the state. They feel the railroad is force to compete with other railroads yet is hamstrung because they are forced to comply with state laws. The budget is overinflated and there are too many employees. There are trying to reduce the number by attrition.

Information provided by Donald J. Baker, Jr. Executive Director of the West Virginia Maintenance Authority at 304-538-2305.

MICHIGAN

Currently, the state owns the right of way for 879 miles of track however, only 670 miles are currently being used. The state holds title to the land but leases out the operation of the railroad to the private sector, therefore, none of the workers are considered employees of the state. All the systems serve mainly rural areas and were taken over by the state because each was in imminent danger of bankruptcy. They are managed by the Michigan Dept. of Transportation, Rail Freight Division. They were purchased by the sale of bonds that were financed from dedicated funds. In Michigan, there is a 13¢ per gallon gas tax levied and mass transit/railroads receive a portion of that income. The first rail system was purchased in 1976 for $11.9 million and at the time, the Legislature considered setting up a separate agency that would own and operate the railroad. This was opposed by the Chamber of Commerce because they felt it was akin to nationalization of the rails. After a long battle, the Legislature opted to put the system under their DOT and lease out the operation. The state has been subsidizing each of the systems but that financial assistance is being reduced every year and will be completely eliminated by September of 85.

This information was obtained from Don Riel (517) 373-6494.

ALABAMA

There are 75 miles of track in and around the Mobile area which serve the port. The railroad was built in 1929 by the Army Corps of Engineers and taken over by the state shortly thereafter. It has only 2 employees who work for the State of Alabama. The system is ran by the Port Authority, Docks Dept. and according to the director, "it's not a very big deal. Usually only runs once a day, carrying some cargo from the port into town." It pays for its own way, ie. their is no state subsidy.

NEW HAMPSHIRE

The state owns the right of way for 2 systems, one which is 72 miles long and the other which is 23 miles long. The larger one serves a sawmill and the other a furniture factory. Both were going bankrupt but the state stepped in and purchased both to ensure that the sawmill and furniture factory would remain open. The state owns the locomotives but none of the other rolling stock. They also lease out the operation to the private sector so the employees do not work for the state. Originally, the state created a separate agency to administer the railroad but they encountered many problems ie. no control so both systems are now administered by the Highway Department.

Bette:
Here are questions regarding the Cook Inlet Amendments. Please call when you have had a chance to look them over in relation to the copy of the actual amendments. I can give you some of the answers. I have used page numbers for easier understanding. Some general comments should be made at the beginning of the call:

o The amendments, if they are clarifying language, sure sure confusing! From one version to the next, citations do not matchup and I am concerned that a section means two different things in different areas. (there are several sections to get into later)

o I am concerned that this language is expanding and making substantive changes to either the lands bill and/or to the Cook Inlet Agreement. I realize that some of these are outside our focus on the railroad issue, but as a state representative, and as they appear on the railroad transfer bill, I feel responsible to understand their content. (are there substantive changes?)

o It has been the states position, as I understand it to allow technical amendments that do not make substantive changes but this latest set appears to go far beyond that. (any comments?)

Questions

1. What has been the Departments involvement in these amendments?

2. What is the Departments current responsibility in them?

3. What are the general effects of these amendments to the Railroad Transfer? (we will go into more detail later with specifics)

4. Do these amendments alter or expand either state or federal obligations to Cook Inlet Native Corporation. (could they set a precedent for other regional corporations) Is there any effect to Village Corporations

5. Comment: I see part of the problem in Washington D.C. is these amendments open up the lands bill,(ANILCA) or ANSCA. Isn't this a real danger to the transfer question with congress. Wouldn't it be easier for Sen. Stevens to deal with this elsewhere. I think the state should strongly urge him to not cloud the transfer with this.

6. Are these amendments, dated August 17, 1982, the final offering? Are they complete? and by that I mean if these go in to S. 1500 will the existing language come out?

7. In your opinion, what will Stevens do if the state issues a statement of strong opposition to these amendments" (with the timeline for the bill to come before the Senate, we had better make our determination very soon!!!)

8. What process, if any, are altered from existing lands legislation, or the Cook Inlet Agreement such as in or out of region selection abilities or increased entitlement?

9. Isn't the state giving up partial veto power on page 9 (c)? It seems as though "unless the state expressly" says no within a certain time period, lands go into the selection pool.

10. How is the state of Alaska's veto over native selections altered by these amendments? (the words "public purpose" should come out here. If they do: "how is the state to prove that lands "in the smallest practicable tract are necessary for a public purpose"? ** these are words in the 3E determination process**

**Interior has said that the 3E determination should be sufficient. Isn't it? then why do we need these amendments?

11. Department of Interior seems to get a lot more duties and authority under these amendments. What is their position on this set of amendments?

12. On page 6 (3) (A,B,C,D,E,F,G,), What is the effect of these?

13. What is going on at page 10 (D) I thought C.I.N.A. waived the right to select Railroad Lands? If the Railroad does not transfer to the state, (or if the state does not accept the terms and conditions), and it stays in federal ownership, doesn't this effect the federal governments ability to continue to operate the railroad? This seems real awkward. Again the question arises of how the state or a municipality will prove "public purpose".

14. On page 13 (B) it talks about the "unfulfilled entitlement as valued in subsection 12 (b) (7) (iv). On page 6 this subsection is amended. Does this expand or change entitlement? This looks like the section 6 (d) (3) in the S. 1500 as reported by Sen. Packwood. What is the effect of this?

15. I get really suspicious of repealers like page 14 (e). Also isn't there a provision in the lands bill,ANCSA or the Cook Inlet Agreement that says the courts are to give Cook Inlet the "benefit of the doubt"

when disputes arise. How will this "play" if these amendments are adopted and eventually end up in court?

16. Page 16, 12 (b) (11) (i)and(ii) are any lands be ng contemplated at this time? In the near future? Can you speculate as to what are they after?

(Optional) 17. Can you give me a time line sequence on how the transfer with these amendment "triggers" will take place? Perhaps Mark Hickey can help on this.

** This should give you some insight as to what is occuring. You may want to call Katz personally after this is over and urge him to oppose these amendments on everything beyond:
(1) Extension of the deadline for the "in-region" selection
(2) Updating the list of properties excluded from the out of region selection pool.

Use 3E

Preamble

To: Steve Hillard From: Mark Wittow, 9/3

WHEREAS, the State of Alaska, the United States Government and Cook Inlet Region, Inc. entered into an Agreement entitled The Terms and Conditions for Land Consolidation and Management in the Cook Inlet Area on December 10, 1975, as clarified on August 31, 1976 (hereinafter Terms and Conditions);

WHEREAS, the Terms and Conditions was ratified by the Alaska Legislature in Chapter 19, SLA 1976 and by the United States Congress in Public Law 94-204, Section 12, January 2, 1976, 81 Stat. 1150, as amended by Public Law 94-456, Section 3, October 4, 1976, 90 Stat. 1935; Public Law 95-178, Section 3(a), November 15, 1977, 91 Stat. 1369; Public Law 96-55. Section 2, August 14, 1979, 93 Stat. 386; Public Law 96-311, July 17, 1980, 94 Stat. 947; Public Law 96-487, Title XIV, Section 1435, December 2, 1980, 94 Stat. 2545;

WHEREAS, Congress is considering further amendment of the Terms and Conditions by the CIRI Alaska Railroad Waiver Amendments (copy attached);

WHEREAS, the purpose of the present Agreement is to implement the Terms and Conditions as amended by Congress, including the proposed CIRI Alaska Railroad Waiver Amendments.

in agreement preamble

AGREEMENT CONCERNING IMPLEMENTATION OF ALASKA RAILROAD WAIVER AMENDMENTS OF COOK INLET REGION, INCORPORATED

(1) Whereas (2) MOA limited (3) #4 (4) State, not APA

This Agreement is made this _____ day of _____, 1982, between Cook Inlet Region, Incorporated (hereinafter CIRI) and the State of Alaska (hereinafter State).

In consideration for the mutual terms, conditions and covenants contained in this Agreement, the parties agree as follows:

1. In the event that CIRI intends to negotiate a sale pursuant to subsections 12(b)(7)(ii) (A) or (B) of the CIRI Alaska Railroad Waiver Amendments (copy attached), CIRI shall notify the Commissioner of the Department of Natural Resources of the State with respect to real properties located within the State of which CIRI has received notice pursuant to the above subsections. The State shall immediately send a copy of the notice to any municipality in which all or part of said property is located. CIRI shall not accept title pursuant to a negotiated sale of such real property under the authority of the above subsections without the approval of the State. The State will make a good faith effort to provide a written response to CIRI within twenty-five (25) days of receipt of notice from CIRI. If, regarding improved properties, a written response is not received from the State within sixty (60) days of receipt of notice from CIRI, the approval of the State shall be deemed obtained. If, regarding unimproved properties, a written response is not received by CIRI within sixty (60) days of receipt of notice from CIRI, the approval of the State shall be deemed not obtained, subject to the possibility of subsequent approval by the State. The notice provided by CIRI to the Commissioner of the Department of Natural Resources shall designate the status of the property as improved or unimproved, shall specify whether all or part of the property is located within a municipality and shall recite the deadlines for a written response as defined by this paragraph.

2. The purpose of subsections 12(b)(7)(ii) (A) and (B) of the CIRI Alaska Railroad Waiver Amendments (copy attached), which allows CIRI the opportunity to obtain federal excess property as well as federal surplus property, is, among other things, to give CIRI additional notice that surplus property is available. CIRI has had difficulty obtaining information about available federal surplus property. The amendment allowing CIRI to obtain excess property does not broaden the kind of property CIRI could obtain under the surplus property procedures of 12(b)(7)(i). The phrase "excess property" in the amendments has the same definition as "excess property" at 40 U.S.C. § 472 (d) and (e) which state as follows:

> (d) The term "property" means any interest in property except (1) in the public domain; lands reserved or dedicated for national forest or national park purposes; minerals in lands or portions of lands withdrawn or reserved from the public domain which the Secretary of the Interior determines are suitable for disposition under the public land mining and mineral leasing laws; and lands withdrawn or reserved from the public domain except lands or portions of lands so withdrawn or reserved which the Secretary of the Interior, with the concurrence of the Administrator, determines are not suitable for return to the public domain for disposition under the general public-land laws because such lands are substantially changed in character by improvements or otherwise; (2) naval vessels of the following categories: Battleships, cruisers, aircraft carriers, destroyers, and submarines; and (3) records of the Federal Government.
>
> (e) The term "excess property" means any property under the control of any Federal agency which is not required for its needs and the discharge of its responsibilities, as determined by the head thereof.

3. If legal title is hereafter acquired by CIRI contrary to the provisions of this agreement, CIRI shall seek a recission of the conveyance from the United States. If the United States does not grant recission of the conveyance, CIRI shall forthwith convey title to the property to the State, but in no event later than one hundred and eighty (180) days of conveyance of title to CIRI from the United States.

4. The parties agree that "other federal lands", as described in Paragraph I.C.(2)(a)(vi) of the Terms and Conditions, unless otherwise agreed to by the State, does not include federal lands upon which there exists a valid State selection, provided however, that the State may not utilize the authority of Section 6 of the Statehood Act, as amended, to exclude or achieve a priority over a CIRI selection pursuant to Paragraph I.C.(2)(a)(vi) of the Terms and Conditions, of D-1 lands which were previously unperfected or abandoned public land entries, unless the State selection on lands within the exterior boundaries of CIRI was made before the effective date of the Terms and Conditions, or the State selection on lands from without the exterior boundaries of CIRI was made prior to the effective date of the CIRI Alaska Railroad Waiver Amendments.

5. The parties recognize that the CIRI Alaska Railroad Waiver Amendments do not alter the priorities established under the Terms and Conditions by paragraph I.C.(1) of the Terms and Conditions with respect to Statehood Act selections made subsequent to July 18, 1975.

6. CIRI shall enter into an agreement with the Secretary of the Interior, pursuant to subsection 12(b)(8)(ii) of the CIRI Alaska Railroad Waiver Amendments, to limit the I.C.(2)(a)(v) review process to the following properties:

(a) FAA
  (1) Homer VOR
  (2) Kenai VOR and airport (including PLO 2585 and ANS No. 11)
  (3) Talkeetna VOR, NDB and airport
  (4) Fire Island VOR
  (5) Skwentna NDB

(b) Coast Guard
  (1) Fire Island Race Pt.
  (2) Fire Island West Pt.
  (3) Kalgin Island
  (4) Two undeveloped lots on Government Hill, Anchorage

~~Unless the State~~

(d) FERC

(1) Power Project 395 (Chackachama), provided, however, that the review is to be limited to T. 12 and 13 N., R. 15 W., Seward Meridian, and that a two hundred foot (200') right of way corridor for transmission lines and road access may be reserved to the State at a location to be specified by the ~~Alaska Power Authority~~ State at a subsequent time not to exceed twenty years from receipt of conveyance by CIRI. CIRI will acknowledge this right of way covenant in a recordable instrument on the date of receipt of conveyance. Exercise of the reserved right of way by the ~~Alaska Power Authority~~ State will not result in liability for destruction of improvements. CIRI may negotiate a limitation upon this reserved right of way with the State ~~of its Alaska Power Authority~~ at any time.

(e) Alaska Railroad properties, in the event such properties become available for selection pursuant to subsection 12(b)(8)(i)(D).

The parties hereby agree that the identification of the above properties does not indicate a decision or view by the State regarding the facts to be determined in such a review. The parties further agree that designation of the above properties does not indicate agreement by the State, now or in the future, that any of the lands contained in these federal installations necessarily constitute public lands within the meaning of ANCSA Section 3(e) or Paragraph I.C.(2)(a)(v) of the Terms and Conditions, nor does it indicate a position by the State regarding a public purpose, if any, for which the property is used or might be contemplated for use in the future.

7. On or before September 27, 1982, CIRI shall provide to the Commissioner of the Department of Natural Resources a resolution from its Board of Directors authorizing this Agreement. This provision does not affect the validity of this Agreement.

by CIRI 8/31

Key Elements of CIRI/State Agreement:

I. Values to the State:

A. Waiver by CIRI of claims under the Terms and Conditions to the Alaska Railroad upon transfer to the State.

B. Additional limitations and waivers of claims by CIRI to federal lands (including military lands) under the "excess public lands" provision [§I(C)(2)(a)(v)] of the Terms and Conditions.

C. Substantially enhanced ability of CIRI to fulfill its entitlement outside the State of Alaska.

D. Creation of a "Red Line Pool" for CIRI out-of-region selection rights, which will provide to the State the opportunity for orderly and unclouded selection, prioritization and conveyance of its remaining Statehood entitlement. The Red Line Pool is subject to the following conditions:

1. limitation of CIRI selection rights to 30 pre-screened and state approved townships.

2. limitation of time for CIRI selections from the above pool to July 1985.

3. a schedule for prioritization of lands within the above pool.

4. an agreement of exchange for five townships of state patented lands at Illinois Creek in return for recoupment of state selection rights and waiver of remaining CIRI selection rights in the TAPS pipeline corridor as made available by BLM.

   (a) the lands are subject to mining claims by Anaconda, which supports the exchange and with which CIRI has an existent relationship, and

   (b) if required by law, the exchange will be subject to legislative approval.

E. Creation of federal "recoupment" provision for state selection rights for state-TA'd or patented lands transferred to CIRI.

F. Clarification and uniformity of state vetoes on CIRI selections within the state.

waiver

OSKA

II. Values to CIRI:

A. In return for waiver by CIRI of claims to the Alaska Railroad and other claims, as noted above, CIRI receives an enhanced ability to acquire surplus federal properties outside Alaska in order to fulfill its entitlement.

1. In response to concerns raised by the Federal Property Review Board and GSA regarding the federal surplus property disposal program outside Alaska, CIRI has agreed to limit its ability to acquire surplus federal property outside Alaska in two respects:

(a) to limit the value of the CIRI surplus property account to ten townships less than the remaining entitlement (i.e. CIRI must take ten townships from the out-of-region pool).

(b) to defer use of certain portions of the CIRI surplus account until 1984 and 1985.

B. Revision of federal out-of-region selection pool to reflect post-ANILCA land status.

C. In addition to the above, the legislation embodies certain extensions to the present CIRI deadlines as previously and independently assured by Senator Stevens.

The above elements represent key components of a seamless web of positions, compromises and concessions woven by numerous parties regarding the Alaska Railroad during the past year. These include CIRI, other Native interests, the Property Review Board, GSA, the Department of the Interior, Senator Stevens and the State of Alaska (as represented by DNR, DOT and at least four assistant AG's).

CIRI
9/14

Outline of Portion of CIRI Amendments

1. Time line regarding authority/obligation

   (a) In-region

      1. the obligation of the Secretary expires at the time of fulfillment of the minimum 138,240 acres after July 15, 1984

      2. the discretionary authority of the Secretary begins at the time of fulfillment of the obligation and continues until fulfillment of the entire CIRI entitlement

      3. the residual unfulfilled obligation is approximately 96,000 acres

   (b) Out-of-region (surplus, etc. property)

      1. there is no obligation of the Secretary to place out-of-region surplus, etc. properties into the in-region pool

      2. the discretionary authority of the Secretary to place out-of-region surplus, etc. properties into the in-region pool expires as follows:

         a) on July 15, 1984, if the in-region obligation is fulfilled

         b) after July 15, 1984, upon fulfillment of the in-region obligation

         c) in any case, no later than July 15, 1987

2. Public purpose vetoes

   (a) immediately as to ARR properties and out-of-region surplus, etc. property

   (b) on July 15, 1984, as to military properties in region

   (c) on July 15, 1987, as to all categories (a full generic veto on CIRI rights)

3. Original T&C vetoes

   (a) in addition to the above, the original limited in-region veto powers of the State under the T&C remain intact until July 15, 1987

Page 41, lines 6 - 11:

Delete all material and renumber following sections accordingly.

Page 42, after line 11, insert new bill sections to read:

"* Sec. 11. PERMANENT FUND DIVIDENDS. Until the board of directors of the Alaska Railroad Corporation issues stock under sec. 13 of this Act, the permanent fund dividend application form shall be prepared to allow an applicant to indicate whether the dividend payment should be paid to the applicant or to the Alaska Railroad purchase fund. The Department of Revenue shall pay the dividend as directed on the form. If an applicant does not indicate a preference for the payment of the permanent fund dividend on the application form, the dividend shall be paid to the applicant.

* Sec. 12. ALASKA RAILROAD PURCHASE FUND. (a) The board of directors of the Alaska Railroad Corporation shall establish a trust fund to be known as the Alaska Railroad purchase fund. Each permanent fund dividend received from the Department of Revenue shall be deposited in the account for the credit of the individual for whom the dividend was paid. Interest earned from the dividend shall also be credited to the individual.

(b) At any time before the board of directors of the Alaska Railroad Corporation issues stock under sec. 13 of this Act, an individual may elect to withdraw a dividend deposited in the Alaska Railroad purchase fund

together with interest earned on it by applying to the board in writing.

* Sec. 13. ISSUANCE OF STOCK. (a) When the board of directors of the Alaska Railroad Corporation determines that the Alaska Railroad purchase fund contains $75,000,000, the board shall pay the net book value of the corporation into the general fund in payment for the Alaska Railroad Corporation. Within 120 days after making the payment, the board shall reincorporate the Alaska Railroad Corporation under AS 10.05. All assets and liabilities of the Alaska Railroad Corporation shall be transferred to the successor private corporation. The board shall issue stock in the new private corporation to each individual who elected to deposit a permanent fund dividend into the Alaska Railroad purchase fund. Stock issued under this section shall represent the entire value of the corporation, and the amount of stock issued to each individual shall be based upon the amount credited to that individual in the Alaska Railroad purchase fund.

(b) For purposes of this section "net book value" means the amount paid by the state to the federal government for the Alaska Railroad, plus the amount of state money and value of state property transferred to the Alaska Railroad Corporation after the date of transfer of the railroad to the state, minus the amount of operating losses suffered or plus the amount of operating gains realized by the corporation from the date of transfer of the railroad to the date of the most recent audit conducted under AS 42.-40.270.

* Sec. 14. STOCKHOLDERS' MEETING. (a) At the time of issuing stock under sec. 13 of this Act, the board of directors shall notify each stockholder of the time and place of the first stockholders' meeting. The meeting shall be held within 90 days after the stock is issued.

(b) At the stockholders' meeting the board of directors of the Alaska Railroad Corporation shall resign and the stockholders shall elect nine individuals to serve as the new board of directors.

* Sec. 15. AS 42.40 is repealed."

Renumber following sections accordingly.

Page 42, after line 14, insert a new bill section to read:

"* Sec. 17. Section 15 of this Act takes effect on the date the Alaska Railroad Corporation is reincorporated under sec. 13 of this Act."

Renumber following section accordingly.

Re: The Alaska Railroad March 14, 1984

I have been made aware of some problems with the Alaska Railroad passing by the downtown Anchorage area. Even though the Bootleggers Cove, Turnagin Arm and Oceanview areas are not in my district, I have lived in Anchorage for 30 years and have concerns other than those in district 8. Please take the time to read my letter to the Governor and the resolution from the South Addition Community Council.

If you have questions please contact me.

Thank you.

John

March 12, 1984

Honorable Bill Sheffield
Governor
State of Alaska
Juneau, Alaska 99811

Dear Governor Sheffield:

The Legislature has been debating purchase and operation of the Alaska Railroad during this session and, I believe, will soon reach a resolution. However, many residents in Anchorage have expressed concern about a serious problem which has been occurring. Since you have been such a strong advocate of the railroad purchase, I am sure you have discussed the problem I am about to outline.

Many residents and businesses, particularly in the Bootlegger's Cove area of Anchorage, have become increasingly annoyed by the vibrations caused by train cars carrying heavy industrial products. In fact, these vibrations are becoming progressively worse and may cause structural damage as well if allowed to continue over a period of time. With coal exports planned for the future, and transportation to tidewater being a necessary step in that process, this problem will only escalate. Residents have expressed not only an annoyance with the cars, but a fear for health and safety concerns.

Governor, we both witnessed the devastation caused by the 1964 earthquake. We saw the clay formation just below the surface of the soil slide down the hill when it failed to withstand the geotechnic pressure placed on it. The hill below the Holiday Inn had to be reinforced to prevent further slides. Presently, the ARCO building is experiencing vibrations that have been traced to a water extractor at a nearby commercial laundry establishment. This further demonstrates the extreme sensitivity of the soils in the area.

For quite some time after the quake, the Army Corps of Engineers placed restrictions on building in certain areas of the downtown area. The Municipal Assembly is still sensitive to construction in some downtown areas and has, in fact, rejected proposed projects in recent years because of the concern of land stability. I understand the Municipality has restricted several downtown projects unless some type of ground stabilization is included in any project. Clearly, there is a continuing demonstration of concern about the stability of the downtown area.

I am concerned about the continued effect of heavy vibrations on structures present in the downtown area and in areas adjacent to the railway corridor. The potential for these heavy vibrations to further erode the stability of the land should be of extreme concern. I think several questions must be answered.

What does the state plan to do to lessen the effect of these vibrations?
Has there been any stabilization done to the area?
Are there plans to stabilize land and structures in the area to prevent potential damage? If so, what are the cost estimates for such stabilization?
Are you aware of any studies by the Corps of Engineers relating to what effect vibrations may have on buildings in the affected area or the effect of vibrations increasing the potential for soil sliding activity?
Have you given any consideration to an industrial bypass railroad route which would avoid travel through this sensitive area? If so, what cost might we anticipate for right of way acquisition, and what area might such a bypass impact?

I am sure these issues must be of concern to you as well, and I trust, in all the debate regarding state takeover and operation of the railroad, you have discussed these very issues with Mayor Tony Knowles. Certainly, it would be shortsighted if your administration, the Municipality or the Legislature ignored this serious concern in deliberations of the Alaska Railroad. Citizens in the South Addition area of Anchorage have signed a petition, which I have enclosed, urging state consideration of these concerns. To date, these citizens have apparently received little assistance from the Knowles administration towards solving this problem.

In summary, I am asking what your administration plans to do about this problem. Has consideration been given to rerouting the railroad to avoid the downtown areas?

Has consideration been given, for example, to a spur line through other areas where land is much more stable? And if such a spur line has been considered, do we need to progress at this time with railroad overpasses, which are estimated to cost millions of dollars, over major arterials? Perhaps, a spur line would not only eliminate the problems being caused by vibrations but would also eliminate the need to spend large sums simply to build massive train crossings. As I understand it, these intended crossing are being requested to accomodate increased heavy industrial commerce which will tend to interfere with commuter traffic. Yet a spur line might re-route such train traffic and make the need for these overpasses moot.

None of these questions should be considered as a stand against state takeover and operation of the Alaska Railroad. And, since state takeover and operation appears eventual, I think these are serious public concerns which should be addressed prior to state operation. They have potential for creating even greater life threatening and costly problems down the track, so to speak. I look forward to your reply knowing that you must share these concerns for the health and safety of Anchorage residents.

Sincerely,

John Cowdery

Representative-Anchorage

RESOLUTION

A RESOLUTION OF THE SOUTH ADDITION COMMUNITY COUNCIL PLACING THE STATE OF ALASKA ON NOTICE THAT OPERATIONAL PROBLEMS CURRENTLY EXIST RELATING TO THE TRAIN OPERATIONS OF THE ALASKA RAILROAD. THESE PROBLEMS AND THE COST TO SOLVE THEM SHOULD BE CONSIDERED WHEN THE STATE LEGISLATURE ADDRESSES THE TRANSFER OF THE ALASKA RAILROAD FROM FEDERAL CONTROL TO STATE OWNERSHIP.

THE SOUTH ADDITION COMMUNITY COUNCIL RESOLVES:

WE, the members of the South Addition Community Council are hereby putting the State of Alaska on notice that there are a number of problems involving the Alaska Railroad which will require solutions in the future. At present, various train operations of the Alaska Railroad) for example, south-yard switching operations, gravel hauling, etc.) involve excessive noise and vibrations constituting a serious hazard to the health, welfare and quality of life for the residents of the Bootleggers Cove and the South Addition. Additionally, these same problems are expected to increase with the beginning of the coal haul from Healy to Seward.

PASSED AND APPROVED by the steering committee of the South Addition Community Council; Anchorage, Alaska this 8th day of March, 1984.

Cindy C. Heaton

PRESIDENT

PETITION

WE, the undersigned residents of Bootleggers Cove and the South Addition, are hereby putting the State of Alaska on notice that there are a number of problems involving the ALASKA RAILROAD which will require solutions in the future. At present various operations of the ALASKA RAILROAD (for example, southyard switching operation, gravel hauling) involve excessive noise and vibrations constituting a serious hazard to the health, welfare and quality of life of the residents of the community through which the railroad passes.

INTERNATIONAL LONGSHOREMEN'S & WAREHOUSEMEN'S UNION

LOCAL 60 Seward, Alaska

PRESIDENT H.E.Rickard

SECRETARY R.E. Morgan

March, 12,1982

Frank L Jones General Manager
Alaska Railroad
Box 7-2111
Anchorage, Ak. 99510

Dear Sir:

The membership of our local has watched with interest the course, developments, & problems which have come to light on Seward being established as a coal port.

As you are aware we are vitally interested in any thing that delays, or obstructs the shipment of coal thru Seward. We do not understand the State of Alaskas reluctance to participate in using the dredge presently in Seward to assist you in a minor, job of deepening the Railroad Dock. The cost savings alone should be incentive enough for them. We do realize the City of Seward would much preferr forcing a marriage of SUN ELL and Pullman-Torkelson which would make a coal facility at the 4th of July industrial site much more viable This of course would assist them mightly in keeping the R.R.dock usage minimal. Then using the tack private enterprise is much better than Government competition of their docks.

We are further conserned also that the funds being used are State Funds to dredge 4th of July. We are also aware that legislation has been introduced to have the Alaska Railroad become an Alaska State identity. Therefore it would seem to us that it is in the BEST interests of all Alaskans that anything which could be done to increase or speed up the establishment of the Seward Port would be monies well spent.

We here in the I.L.W.U.-I.B.U. wish to extend to you an offer to assist you in your quest for help, and expediting the COAL.Grain, or whatever facilities of Sewards Railroad dock.

Please advise us of how, when or anyway we can be of help to you in your quest. We are presently poling our statewide membership to muster our political & Lobbying strenght on Sewards behalf.

Sincerely

H.E.Rickard

H.E.Rickard President

OFFICE OF
GENERAL MANAGER

Railroad vibrations

VIBRATIONS that shake Anchorage neighborhoods along the line of the Alaska Railroad have become a subject of public concern now that the South Addition and Bootleggers Cove Community Council has taken formal action and Rep. John Cowdery has referred the matter to Gov. Bill Sheffield.

The vibrations occur with each gravel train en route from the Matanuska Valley to the gravel plant south of town. Some residents claim the shake is equivalent to an earthquake nearing 6 on the Richter scale. Last summer there were as many as eight trains each 24 hours.

The vibration problem stands to become more acute if and when trainloads of coal start moving from the Usibelli mine to Seward.

A SPOKESMAN for the railroad has brushed off the subject, suggesting that the vibrations may be caused by excavatinng and development work in the area. However, the spokesman also said the railroad is trying to reduce the vibrations by replacing short rail sections with long ones to reduce the number of joints.

There have been reports that the railroad has been concerned in the past year. Besides planning for the longer rails, the ballast beneath the tracks has been strengthened.

Residents have no doubt that the railroad is the cause because vibrations occur only when a train passes. They stop when gravel hauls end for the winter season.

When the gravel trains first went into operation, the trains held their speed through Anchorage down to 10 miles a hour. This was increased to 15 miles an hour as a safety measure after it was discovered that people were trying to hop the slow-moving trains. It was after the speed-up that the objectionable vibrations started.

REP. COWDERY said in a letter to the governor that the legislature is now considering appropriations of some $60 million to construct overhead crossings at the Northern Lights and Dimond Boulevard crossings.

He pointed out that an early solution is desirable before those appropriations are made. If, he said, it proves necessary to reroute the railroad line to avoid the sensitive soils along the inlet, the overhead crossings will not be needed.

A major portion of the west side of Anchorage is involved. The track runs from Ship Creek to Turnagain Heights and thence through Spenard to the Seward Highway area and southward through Ocean View.

It would be wise for the state to get a clear definition of the liability it might be inheriting when the railroad becomes state property.

TELEGRAM SENT 3/8/84 10:00 a.m.

TO: Elizabeth Dole
Secretary of Transportation
U.S. Dept. of Transportation
Washington D.C.

The economic recovery of the City of Seward depends in a great measure upon the concept of an open dock at the Alaska Railroad facilities in Seward.

We have just been informed that Alaska Railroad has reversed it's stated position of an "open dock" concept and intends to sole source the Seward dock without hearing or competive bid.

I strongly object to such unilateral decisions and respectfully request a meeting with you to fully discuss all aspects.

John F. Gillespie
Vice Mayor
City of Seward

Fr: Representative John Cowdery J.C.
Re: Alaska Railroad March 22, 1984

I thought you should be made aware of a problem in Anchorage concerning the Alaska Railroad. At the expense of repeating myself, I think you can deduce the problem I am speaking of by reading the letter to the Governor and the memo to the Attorney General. Neither the Governor Sheffield or Mr. Gorsuch has replied to me.

I am also enclosing copies of petitions, signed by residents of the Bootleggers Cove, Turnagin Arm and Oceanview areas of Anchorage, to give you an idea of how many people view this situation as a problem that should be resolved before the state decides to purchase the railroad.

Thank you for you consideration of this serious problem.

March 12, 1984

Honorable Bill Sheffield
Governor
State of Alaska
Juneau, Alaska 99811

Dear Governor Sheffield:

The Legislature has been debating purchase and operation of the Alaska Railroad during this session and, I believe, will soon reach a resolution. However, many residents in Anchorage have expressed concern about a serious problem which has been occurring. Since you have been such a strong advocate of the railroad purchase, I am sure you have discussed the problem I am about to outline.

Many residents and businesses, particularly in the Bootlegger's Cove area of Anchorage, have become increasingly annoyed by the vibrations caused by train cars carrying heavy industrial products. In fact, these vibrations are becoming progressively worse and may cause structural damage as well if allowed to continue over a period of time. With coal exports planned for the future, and transportation to tidewater being a necessary step in that process, this problem will only escalate. Residents have expressed not only an annoyance with the cars, but a fear for health and safety concerns.

Governor, we both witnessed the devastation caused by the 1964 earthquake. We saw the clay formation just below the surface of the soil slide down the hill when it failed to withstand the geotechnic pressure placed on it. The hill below the Holiday Inn had to be reinforced to prevent further slides. Presently, the ARCO building is experiencing vibrations that have been traced to a water extractor at a nearby commercial laundry establishment. This further demonstrates the extreme sensitivity of the soils in the area.

For quite some time after the quake, the Army Corps of Engineers placed restrictions on building in certain areas of the downtown area. The Municipal Assembly is still sensitive to construction in some downtown areas and has, in fact, rejected proposed projects in recent years because of the concern of land stability. I understand the Municipality has restricted several downtown projects unless some type of ground stabilization is included in any project. Clearly, there is a continuing demonstration of concern about the stability of the downtown area.

I am concerned about the continued effect of heavy vibrations on structures present in the downtown area and in areas adjacent to the railway corridor. The potential for these heavy vibrations to further erode the stability of the land should be of extreme concern. I think several questions must be answered.

What does the state plan to do to lessen the effect of these vibrations?
Has there been any stabilization done to the area?
Are there plans to stabilize land and structures in the area to prevent potential damage? If so, what are the cost estimates for such stabilization?
Are you aware of any studies by the Corps of Engineers relating to what effect vibrations may have on buildings in the affected area or the effect of vibrations increasing the potential for soil sliding activity?
Have you given any consideration to an industrial bypass railroad route which would avoid travel through this sensitive area? If so, what cost might we anticipate for right of way acquisition, and what area might such a bypass impact?

I am sure these issues must be of concern to you as well, and I trust, in all the debate regarding state takeover and operation of the railroad, you have discussed these very issues with Mayor Tony Knowles. Certainly, it would be shortsighted if your administration, the Municipality or the Legislature ignored this serious concern in deliberations of the Alaska Railroad. Citizens in the South Addition area of Anchorage have signed a petition, which I have enclosed, urging state consideration of these concerns. To date, these citizens have apparently received little assistance from the Knowles administration towards solving this problem.

In summary, I am asking what your administration plans to do about this problem. Has consideration been given to rerouting the railroad to avoid the downtown areas?

Has consideration been given, for example, to a spur line through other areas where land is much more stable? And if such a spur line has been considered, do we need to progress at this time with railroad overpasses, which are estimated to cost millions of dollars, over major arterials? Perhaps, a spur line would not only eliminate the problems being caused by vibrations but would also eliminate the need to spend large sums simply to build massive train crossings. As I understand it, these intended crossing are being requested to accomodate increased heavy industrial commerce which will tend to interfere with commuter traffic. Yet a spur line might re-route such train traffic and make the need for these overpasses moot.

None of these questions should be considered as a stand against state takeover and operation of the Alaska Railroad. And, since state takeover and operation appears eventual, I think these are serious public concerns which should be addressed prior to state operation. They have potential for creating even greater life threatening and costly problems down the track, so to speak. I look forward to your reply knowing that you must share these concerns for the health and safety of Anchorage residents.

Sincerely,

John Cowdery
Representative-Anchorage

Mrs. Edith R. Bullock

Representative John Cowdery
State Legislature
Juneau, Alaska 99801

Dear Representative Cowdery:

I read in the Times last night about your questions on excessive railway vibrations.

For your information, our building is also effected. My apartment, on the top floor, facing the city and mountains, has a definite tremor when trains are passing heavily loaded.

I am sure all residential areas close to the railroad tracks are effected in the same manner. Anything you can do to correct this serious problem will be greatly appreciated.

Sincerely,

Edith R. Bullock

RECEIVED MAR 16 1984

RESOLUTION

A RESOLUTION OF THE SOUTH ADDITION COMMUNITY COUNCIL PLACING THE STATE OF ALASKA ON NOTICE THAT OPERATIONAL PROBLEMS CURRENTLY EXIST RELATING TO THE TRAIN OPERATIONS OF THE ALASKA RAILROAD. THESE PROBLEMS AND THE COST TO SOLVE THEM SHOULD BE CONSIDERED WHEN THE STATE LEGISLATURE ADDRESSES THE TRANSFER OF THE ALASKA RAILROAD FROM FEDERAL CONTROL TO STATE OWNERSHIP.

THE SOUTH ADDITION COMMUNITY COUNCIL RESOLVES:

WE, the members of the South Addition Community Council are hereby putting the State of Alaska on notice that there are a number of problems involving the Alaska Railroad which will require solutions in the future. At present, various train operations of the Alaska Railroad) for example, south-yard switching operations, gravel hauling, etc.) involve excessive noise and vibrations constituting a serious hazard to the health, welfare and quality of life for the residents of the Bootleggers Cove and the South Addition. Additionally, these same problems are expected to increase with the beginning of the coal haul from Healy to Seward.

PASSED AND APPROVED by the steering committee of the South Addition Community Council; Anchorage, Alaska this 8th day of March, 1984.

Craig C. Stamm

PRESIDENT

WE, the undersigned residents of the Anchorage Railroad Corridor, are hereby putting the State of Alaska on notice that there are a number of problems involving the ALASKA RAILROAD which require immediate solutions. At present various operations of the ALASKA RAILROAD (for example - southyard switching operation, gravel hauling) involve excessive noise and vibrations constituting a serious hazard to the health, welfare and quality of life of the residents of the community through which the railroad passes. In addition, the soil conditions of this area are rated as high hazard earthquake zone with the clay underlayment subject to shifting with the continuous vibration action which is hazardous to properties and life.

Juneau, Alaska 99811
c/o Room 409

Dear Mr. Cowdery:

Our firm is the current property manager of 510 L Street, Anchorage, Alaska 99501. As you may know, there are eighteen (18) residential condominiums on the top three floors of the building. I feel impeded to inform you, that many of the owners of these units have expressed concern over the vibration they have experienced when the train is passing.

We appreciate your efforts on informing the Governor of the area, concerning the problem.

Sincerely,

Dennis R. Campbell
Building Manager

March 21, 1984

Mr. Norm Gorsuch, Attorney General
Department of Law
Capital Room 412
Juneau, Alaska 99801

Dear Norm,

With increasing awareness about problems in Anchorage caused by vibrations from heavy trains, I have a legal question that I would like you to answer.

As you know, there are several residents in the Bootleggers Cove, Turnagin Arm, and Oceanview areas of Anchorage that are expressing their concern about vibrations caused by these heavy trains. Residents in the downtown area are especially worried since most of the building there has been on geotechnically weak clay soil.

Before the legislature decides whether or not to acquire the railroad I think it would be wise for us to have a clear definition of the state's liability in the event that these vibrations continue to cause damage to structures in the vicinity of the railroad corridor.

Because the legislature is dealing with the railroad issue at the present time I would appreciate your timely response to this inquiry.

Thank you,

John J. Cowdery

ARTICLE 7. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation [except that the provisions of AS 39.50.010-39.50.200 shall apply to the members of the board and all appointed executive officers.]

Sec. 42.40.710. COLLECTIVE BARGAINING RIGHTS. The provisions of the Public Employee Relations Act (AS 23.40.070-23.40.260) do not apply to the corporation or to its employees. However, employees of the corporation, except the chief executive officer and other executive officers appointed by the chief executive officer, may self organize and form, join or assist an organization to bargain collectively through representatives of their own choosing, and engage in concerted activities for the purpose of collective bargaining or other mutual aid or protection.

Sec. 42.40.720. RAILROAD LABOR RELATIONS AGENCY. (a) There is established a railroad labor relations agency which consists of three members appointed by the governor. One member shall be a member of the state labor relations agency (AS23.40). Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS 42.40.700-42.40.990 to carry out the provisions of this article.

(c) Members of the railroad labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.730. COLLECTIVE BARGAINING UNIT. The railroad labor relations agency shall decide in each case, in order to assure to employees the fullest freedom in exercising the rights guaranteed by AS. 42.40.700-

42.40.990 the unit appropriate for the purposes of collective bargaining, based on such factors as community of interest, wages, hours and other working conditions of the employees involved, the history of collective bargaining, and the desires of the employees. Bargaining units shall be as large as is reasonable, and unnecessary fragmenting shall be avoided.

Sec. 42.40.740. REPRESENTATIVES AND ELECTIONS. (a) The railroad labor relations agency shall investigate a petition if it is submitted in a manner prescribed by the labor relations agency and is

(1) by an employee or group of employees or an organization acting in their behalf alleging that 30 per cent of the employees of a proposed bargaining unit

(A) want to be represented for collective bargaining by a labor or employee organization as exclusive representative, or

(B) assert that the organization which has been certified or is currently being recognized by the corporation as bargaining representative is no longer the representative of the majority of employees in the bargaining unit; or

(2) by the corporation alleging that one or more organizations have presented to it a claim to be recognized as a representative of a majority of employees in an appropriate unit.

(b) If the railroad labor relations agency has reasonable cause to believe that a question of representation exists, it shall provide for an appropriate hearing upon due notice. If the railroad labor relations agency finds that there is a question of representation, it shall direct an election by secret ballot to determine whether or by which organization the employees desire to be represented and shall certify the results of the election. Nothing in this section prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the regulations of the

railroad labor relations agency or an election in a bargaining unit agreed upon by the parties. The railroad labor relations agency shall determine who is eligible to vote in an election and shall establish rules governing the election. In an election in which none of the choices on the ballot receives a majority of the votes cast, a runoff election shall be conducted, the ballot providing for selection between the two choices receiving the largest and the second largest number of valid votes cast in the election. If an organization receives the majority of the votes cast in the election it shall be certified by the railroad labor relations agency as exclusive representative of all the employees in the bargaining unit.

(c) An election may not be held in a bargaining unit or in a subdivision of a bargaining unit if a valid election has been held within the preceding 12 months.

(d) Nothing in this chapter prohibits recognition of an organization as the exclusive representative by the corporation by mutual consent.

(3) No election may be directed by the railroad labor relations agency in a bargaining unit in which there is in force a valid collective bargaining agreement, except during a 90-day period preceding the expiration date. However, no collective bargaining agreement may bar an election upon petition of persons in the bargaining unit but not parties to the agreement if more than three years have elapsed since the execution of the agreement or the last timely renewal, whichever was later.

Sec. 42.40.750. UNFAIR LABOR PRACTICES. (a) The corporation or its agent may not

(1) interfere, restrain or coerce an employee in the exercise of his rights guaranteed in AS 42.40.710;

(2) dominate or interfere with the formation, existence or administration of an organization;

(3) discriminate in regard to hire or tenure of employment or a term or condition of employment to encourage or discourage membership in an organization;

(4) discharge or discriminate against an employee because he has signed or filed an affidavit, petition or complaint or given testimony under AS 42.40.010-42.40.990;

(5) refuse to bargain collectively in good faith with an organization which is the exclusive representative of employees in an appropriate unit, including but not limited to the discussing of grievances with the exclusive representative.

(b) Nothing in this article prohibits the corporation from making an agreement with an organization to require as a condition of employment

(1) membership in the organization which represents the unit on or after the 30th day following the beginning of employment or on the effective date of the agreement, whichever is later; or

(2) payment by the employee to the exclusive bargaining agent of a service fee to reimburse the exclusive bargaining agency for the expense of representing the members of the bargaining unit.

(c) A labor or employee organization or its agents may not

(1) restrain or coerce

(A) an employee in the exercise of the rights guaranteed in AS 42.40.710 or

(B) the corporation in the selection of his representative for the purposes of collective bargaining or the adjustment of grievances;

(2) refuse to bargain collectively in good faith with the corporation,

if it has been designated in accordance with the provision of AS 42.40.700-42.40.990 as the exclusive representative of employees in an appropriate unit.

Sec. 42.40.760. INVESTIGATION AND CONCILIATION OF COMPLAINTS. If a verified written complaint by or for a person claiming to be aggrieved by a practice prohibited by AS 42.40.750 or a written accusation that a person subject to AS 42.40.700-42.40.990 has engaged in a prohibited practice, is filed with the railroad labor relations agency, it shall investigate the complaint or accusation. If it determines after the preliminary investigation that probably cause exists in support of the complaint or accusation, it shall try to eliminate the prohibited practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during this endeavor may be used as evidence in a subsequent proceeding.

Sec. 42.40.770. COMPLAINT AND ACCUSATION. If the railroad labor relations agency fails to eliminate the prohibited practice by conciliation and to obtain voluntary compliance with AS 42.40.700-42.40.990, or before it attempts conciliation, it may serve a copy of the complaint or accusation upon the respondent. The complaint or accusation and the subsequent procedures shall be handled in accordance with the administrative adjudication portion of the Administrative Procedure Act (AS 44.62).

Sec 42.40.780. ORDERS AND DECISIONS. If the railroad labor relations agency finds that a person named in the written complaint or accusation has engaged in a prohibited practice, the railroad labor relations agency shall issue and serve on the person an order or decision requiring him to cease and desist from the prohibited practice and to take affirmative action which will carry out the provisions of AS 42.40.700-42.40.990. If the railroad labor relations agency finds that a person named in the complaint or accusation has not engaged or is not engaging in a prohibited practice, the railroad labor

relations agency shall state its findings of fact and issue an order dismissing the complaint or accusation.

Sec. 42.40.790. ENFORCEMENT BY INJUNCTION. The railroad labor relations agency may apply to the superior court in the judicial district in which the prohibited practice occurred for an order enjoining the prohibited acts specified in the order or decision of the railroad labor relations agency. Upon a showing by the railroad labor relations agency that the person has engaged or is about to engage in the practice, an injunction restraining order, or other order which is appropriate may be granted by the court and shall be without bond.

Sec. 42.40.800. POWER TO INVESTIGATE AND COMPEL TESTIMONY. (a) For the purpose of the investigations, proceedings, or hearings which the railroad labor relations agency considers necessary to carry out the provisions of AS 42.40.700-42.40.990, the railroad labor relations agency may issue subpoenas requiring the attendance and testimony of witnesses and the production of relevant evidence.

(b) The railroad labor relations agency may administer oaths, examine witnesses, and receive evidence.

(c) The attendance of witnesses and the production of evidence may be required from any place in the state at any designated place of hearing.

(d) If a person refuses to obey a subpoena issued under AS 42.40.700-42.40.990, the superior court in the district in which the person resides or is found may, upon application by the railroad labor relations agency, issue an order requiring him to comply with the subpoena.

Sec. 42.40.810. REGULATIONS. The railroad labor relations agency shall adopt regulations under the Administrative Procedure Act (AS 44.62) to carry out the provisions of AS 42.40.700-42.40.990.

Sec. 42.40.820. PENALTY FOR VIOLATION OF ORDER OR DECISION. A person who violates a provision of an order or decision of the railroad labor relations agency is guilty of a misdemeanor and is punishable by fine of not more than $500.

Sec. 42.40.830. MEDIATION. If, after a reasonable period of negotiation over the terms of a collective bargaining agreement, a deadlock exists between the corporation and an organization, the railroad labor relations agency shall appoint a competent, impartial, disinterested person to act as mediator in any dispute on its own initiative or on the request of one of the parties to the dispute. The parties may also select a mediator by agreement or mutual consent. It is the function of the mediator to bring the parties together voluntarily under such favorable auspices as will tend to effectuate settlement of the dispute, but neither the mediator nor the railroad labor relations agency has any power of compulsion in mediation proceedings.

Sec. 42.40.840. STRIKES. Ninety days following the mediation process proscribed in Sec. 42.40.830 of this Act, employees of a collective bargaining unit may engage in a strike if a majority of the employees in that collective bargaining unit vote by secret ballot to do so.

Sec. 42.40.850. AGREEMENT. (a) Upon the completion of negotiations between an organization and the corporation, if a settlement is reached, the corporation shall reduce it to writing in the form of an agreement. The agreement shall include a term for which it will remain in effect, not to exceed three years. The agreement shall include a grievance procedure which shall have binding arbitration as its final step. Either party to the agreement has a right of action to enforce the agreement by petition to the labor relations agency.

(b) The Department of Administration ~~shall~~ participate in labor negotiations between the corporation and an employee organization. The corporation

~~shall~~ may seek advice of the Department of Administration prior to entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employment. However, the final decision regarding collective bargaining agreements, shall be made by the board.

Sec. 42.40.860. LABOR OR EMPLOYEE ORGANIZATION DUES AND EMPLOYEE BENEFITS, DEDUCTION AND AUTHORIZATION. Upon written authorization of a corporation employee within a bargaining unit, the corporation shall deduct from the payroll of the employee the monthly amount of dues, fees and other employee benefits as certified by the secretary of the exclusive bargaining representative and shall deliver it to the chief fiscal officer of the exclusive bargaining representative.

Sec. 42.40.870. EXEMPTION FROM ARTICLE 7. Notwithstanding the provisions of AS 42.40.890, a collective bargaining settlement reached, or agreement entered into, under AS 42.40.880 that incorporates union security provisions, including but not limited to a union shop or agency shop provision or agreement, shall safeguard the rights of nonassociation of employees having bona fide religious convictions based on tenets or teachings of a church or religious body of which an employee is a member. Upon submission of proper proof of religious conviction to the railroad labor relations agency, the agency shall declare the employee exempt from becoming a member of a labor organization or employee association. The employee shall pay an amount of money equivalent to regular union or association dues, initiation fees, and assessments to the union or association. Nonpayment of this money subjects the employee to the same penalty as if it were nonpayment of dues. The receiving union or association shall contribute an equivalent amount of money to a charity of its choice not affiliated with a religious, labor or employee organization. The union or association shall submit proof of contribution to the railroad labor relations agency.

Sec. 42.40.880. DEFINITIONS. In AS 42.40.700-AS 42.40.880,

(1) "railroad labor relations agency" means railroad employee labor relations agency with regard to the corporation and employees of the corporation.

(2) "election" means a proceeding conducted by the labor relations agency in which the employees in a collective bargaining unit cast a secret ballot for collective bargaining representatives, or for any other purpose specified in AS 42.40.700-42.40.990.

(3) "organization" means a labor or employee organization of any kind in which employees participate and which exists for the primary purpose of dealing with the corporation concerning grievances, labor disputes, wages, rates of pay, hours of employment and conditions of employment.

(4) "collective bargaining" means the performance of the mutual obligation of the corporation or its designated representatives and the representatives of the employees to meet at reasonable times, including meetings in advance of the budget making process and negotiating in good faith with respect to wages, hours and other terms and conditions of employment, or the negotiation of an agreement, or negotiation of a question arising under an agreement and the execution of a written contract incorporating an agreement reached if requested by either party, but these obligations do not compel either party to agree to a proposal or require the making of a concession;

(5) "terms and conditions of employment" means the hours of employment, the compensation and fringe benefits affecting the working conditions of the employees; but does not mean the general policies describing the function and purposes of the corporation.

HB 512
ARTICLE 7

COMPARISON OF 3/15/84 WORK DRAFT WITH PROPOSED DRAFT

Sec. 42.40.700 PERSONNEL. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Our draft is identical, except that we have made the "conflict of interest" provisions of AS 39 apply to the board and all appointed executive officers.

(b) The collective bargaining agreements in effect on the date of transfer between the corporation and its employees shall remain in effect until they expire by their terms or, as required under 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982), they are renegotiated, subject to the approval of the board.

This language is not included in our draft because similiar language is already included in the "temporary law" section of the bill.

(c) Subject to the provisions of 45 U.S.C. 1206 (Alaska Railroad Transfer Act) within 180 days of the first meeting of the board, the board and representatives of employee bargaining units shall implement ground rules for the re-negotiation of collective bargaining agreements.

This language is not included in our draft, but could be included in the "temporary law" section of the bill.

Sec. 42.40.710 COLLECTIVE BARGAINING (a) The provisions of AS 23.40.010 - 23.40.080, AS 23.40.110, AS 23.40.200 - 23.40.260 (Public Employee Relations Act) do not apply to the corporation or to it's employees. However, employees that are not executive officers may

organize, and form, join, or assist an organization to engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

This language provides that selected sections of the Public Employees ~~Relations~~ Act (PERA) apply to the railroad corporation, and exempts them from other sections. The language in our draft exempts them from all of the provisions of PERA, and incorporates language from appropriate provisions of PERA as part of the railroad bill.

(b) The Department of Administration may participate in labor negotiations between the corporation and an employee organization. The corporation shall seek advice of the Department of Administration prior to entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employment. However, the final decision regarding collective bargaining agreements shall be made by the board.

This language is not consistent with the position of the Administration. But, to be consistent with the Committee's draft we have included the same language in Sec. 42.40.850 (b) of our draft (except that we have changed may participate to shall participate).

(c) An agrement executed between the corporation and an employee organization shall provide for a greivance procedure in which the final step is binding arbitration. The agreement shall define "greivance" for purposes of this section.

Our draft includes comparable language in Sec. 42.40.850 (a).

Sec. 42.40.720 RAILROAD EMPLOYEES LABOR RELATIONS AGENCY (a) There is established a railroad employees labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure

of the governor.

Our draft includes similiar langauge in Sec. 42.40.720

(b) The railroad labor relations agency shall perform the functions described in AS 23.40.090 - 23.40.100, and AS 23.40.120 - 23.40.190.

Our draft contains similiar language. But, some of the sections of AS 23.40 referenced in this language are incorporated into the language of our draft.

(c) Members of the railroad employees labor relations agency receive no compensation for their service but are entitled to per diem and travel expenses authorized the boards and commissions.

Our draft contains the same language.

Sec. 42.40.730 ADVISORY ARBITRATION (a) If efforts at mediation under AS 23.40.190 fail to resolve a dispute, the dispute shall be submitted to advisory arbitration. The corporation shall choose one of the arbitrators, and the railroad employees labor relations board shall choose one of the arbitrators.

(b) Arbitration of the dispute shall be conducted under AS 09.43.100 to the extent that the sections do not conflict with this section. A decision reached by the arbitrators shall not be binding upon the parties.

Our draft substitutes Sec. 42.40.830 (MEDIATION) for this section.

Sec. 42.40.740 STRIKES (a) After submitting a dispute to advisory arbitration, employees may engage in a strike of a majority of all employees in collective bargaining units vote by secret ballot to do so.

We include a strike section in Sec. 42.40.840 but have added a provision for a 90 day "cooling off" period, and have revised the language to assure equal representation for each employee.

(b) Not withstanding the provisions of (a) of this section, the employees of the corporation may agree in writing to submit a dispite arising from interpretation or application of a collective bargaining agreement to arbitration.

We have deleted this section because it is redundant. Sec. 23.40.710 (c) of the House draft and Sec. 42.40.650 (a) of our draft already provide for this.

Sec. 42.40.750 POLITICAL ACTIVITIES (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may communicate with and appear before committees of Congress, the State legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $ 5,000. An action to enforce this section may be brought by any person.

This section is not in our draft, but there is no objection to including it.

Sec. 42.40.760 PROHIBITED ACTS (a) The railroad chief executive officer, or any person employed by the corporation may not directly or indirectly:

(1) require or coerce any employee of the corporation to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce any employee of the corporation to make any report concerning any of his/her activities or undertakings unless the activity or undertaking is related to the performance of his official duties.

(3) except as directly related to the performance of his/her official duties, require or coerce any employee of the corporation to submit to any interrogation or examination or psychological test which is designed to elicit from him information concerning

(A) his personal relationship with any person connected wtih him

by blood or marriage,

(B) his/her religious beliefs or practices,

(C) sexual matters

(D) his/her political affiliation or philosophy

(4) coerce any employee of the corporation to invest or contribute his earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of any employee of the corporation, if the employee does not proport to speak or act in an official activity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations or corporation employees suspected of being involved in criminal activity.

This section is not included in our draft because we assume that these provisions would be included in the personnel rules of the corporation. There is no objection to including the language in the law.

Page 2 Line 20

(E) the corporation will provide necessary and desirable freight and passenger rail transportation services to residents, businesses, visitors, and military installations in the state;

(F) the corporation will provide safe, economical, and efficient transportation to residents, businesses, visitors, and military insdtallations in the state;

(G) the corporation will develop and implement plans for a transportation network.

Subsection (E) is deleted and subsections (F) and (G) are renumbered (H) and (I), respectively.

Page 3 Line 13

The board consists of (five) the commissioner of the Department of Transportation and Public Facilities and six voting members appointed by the governor. These (five) six members must be residents of and registered voters in the state except as provided in (b) of this section. No more than two of these members may be from any one of the four judicial districts in the state. Two of the voting members must have at least five years experience as owners or managers of a business in the state. Except for the commissioner of the Department of Transportation and Public Facilities, (A) a voting member may not be a state officer or employee.

(c) Unless prohibited by law, one voting member shall be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

Page 5 Line 20

member of the board is entitled to compensation at a rate of ($200) $250 for

ARTICLE 2. MANAGEMENT.

Sec. 42.40.090. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier; subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) Generally manage the corporation on a self-sustaining basis;

(4) apply to the legislature for a subsidy if it is required to maintain a service which is not otherwise self-sustaining;

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporations while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

Page 6 Line 15

(c) (General or particular) Specific board authorization or concurrence is required for the following:

Page 7 Line 7

(12) the exercise of the power of eminent domain; and

(13) collective bargaining agreements as provided by 42.40.700.

Page 7 Line 19 adopted

Sec 42.40.220. MINUTES AND NOTICES OF MEETINGS. The board shall keep minutes of each meeting. Reasonable notice of the meetings shall be provided to the public.

Sec. 42.40.230. RULES. The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. Within 90 days after its first meeting the board shall adopt rules establishing a procedure for giving advance public notice and an opportunity for the public to comment on proposed ~~regulations~~ rules of the authority that, in the determination of the board, will have a substantial impact on the public or be used in the authority's dealings with a significant segment of the public.

(b) The rules shall also include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

Sec. 42.40.710. COLLECTIVE BARGAINING RIGHTS. (a) The provisions of the Public Employee Relations Act (AS 23.40) do not apply to the corporation or to its employees. However, employees of the corporation, except the chief executive official and other executive officials appointed by the chief executive official, may self organize and form, join, or assist an organization to engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

(b) The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.720. AGREEMENT. (a) The Department of Administration shall participate in the negotiations between the corporation and an employee organization. The corporation may not enter into a collective bargaining agreement concerning wages, hours, or other terms and conditions of employment unless the proposed contract terms are approved by the Department of Administration.

(b) An agreement executed between the corporation and an employee organization shall define "grievances." The agreement shall provide for a grievance procedure in which the final step in the procedure is binding arbitration.

continued

Sec. 42.40.730. RAILROAD EMPLOYEES LABOR RELATIONS AGENCY.

(a) There is established a railroad employees labor relations agency which consists of three members appointed by the governor. One member shall be a member of the labor relations agency (AS 23.40). Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS 23.40.090 -- 23.40.190 to carry out the provisions of the article.

(c) Members of the railroad employees labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.740. STRIKES. (a) Employees of the corporation may engage in a strike if a majority of the employees in a collective bargaining unit vote by secret ballot to do so.

(b) Notwithstanding the provisions of subsection (a), the employees and the corporation may agree in writing to submit a dispute arising from interpretation or application of a collective bargaining agreement to arbitration.

AMENDMENT

Offered in the HOUSE By Clocksin

TO: HB 512

Page 16, after line 10, insert a new section to read:

"Sec. 42.40.460. MUNICIPAL RIGHT-OF-WAYS. Upon request of a municipality the corporation shall grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board may require the municipality to agree to hold the corporation harmless for any use made of the right-of-way and to execute the agreement in a form approved by the board."

1/19/84

Sec. 42.40.230. Rules. (a) The board shall establish in its bylaws a procedure for adopting rules to carry out its functions and the purposes of this chapter.

(1) The corporation shall make available to members of the public copies of the rules adopted under this section.

(2) Within 45 days after adoption, the chairman of th board shall submit a rule adopted under this section to the chairman of the Administrative Regulation Review Committee under AS 24.20.400 - 24.20.460.

(b) Except as provided in (c) of this section, at least 15 days before the adoption, amendment, or repeal of a rule, the board shall give public notice of the proposed action by publishing the notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to every person who has filed a request for notice of proposes rules with the board or the corporation. The public notice must include a statement of the time, place, and nature of the proceedings for the adoption, amendment, or repeal of the rule and must include and informative summary of the proposed subject of the rule. On the date and at the time and place designated in the notice, the board shall give each interested person or his authorized representative , or both, the opportunity to present statements, arguments or contentions in writing, and shall give members of the public an opportunity to present statements, arguments, or contentions in writing, and shall give members of the public an opportunity to present oral statements, arguments, or contentions for a total period of at least one hour. The board shall consider all relevant matter presented to it before adopting, amending, or repealing a rule which is adopted, or its amendment or repeal, may vary in content from the informative summary

specified in this subsection if the subject matter of the rule, or its amendment or repeal, remains the same and the original notice was written so as to assure that members of the public are reasonably notified of the proposed subject of the board's action in order for them to determine whether their interests could be affected by the board's action on that subject.

(c) The board shall in its bylaws establish a procedure for adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or programs. The requirements of (b) of this section do not apply to the initial adoption of an emergency regulation; however, upon adoption of an emergency regulation, the board shall, within 10 days after adoption, give notice of the adoption in accordance with (b) of this section. No emergency regulation adopted under this subsection remains in effect more than 120 days unless the board complies with (b) of this section during the 120-day period.

(d) A rule adopted under this section becomes effective immediately upon its adoption by the board, unless otherwise specifically provided by order of the adoption.

(9) generally applicable, comprehensive increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission for application to rail carriers generally;

(10) diversification and major expansion or reduction of services beyond those provided on the date of transfer or as provided under this chapter;

(11) the exercise of the power of eminent domain;

(12) expansion of main or branch lines, other than routine track realignment as necessary to maintain service levels in effect on the date of transfer; and

(13) selection of independent auditors and accountants.

ARTICLE 2. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the authority may not participate in a decision of the authority in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if that person or a member of that person's immediate family has only a remote interest and if the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the

interested member or employee. As used in this subsection, "remote interest" means

(1) that of a nonsalaried officer of a nonprofit corporation;

(2) that of an employee or agent of a contracting party when the compensation of the employee or agent consists entirely of fixed wages or salary and the contract is awarded by bid or by other competitive process;

(3) that of a landlord or tenant of a contracting party, except when the property subject to the lease or sublease is owned or managed by the authority;

(4) that of a holder of less than one percent of the shares of the corporation or cooperative that is the contracting party;

(5) that of an owner of a savings and loan account or bank savings or share account or credit union deposit account if the interest represented by the account is less than two percent of the total deposits held by the institution; or

(6) other interests that in good faith are defined as remote by rules or regulations adopted by the authority.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) An action, including the award of a contract, in which a board member or employee participates in violation of this section or AS 39.50.090 is void if the board member's vote or employee's participation was necessary to the decision. If a board member votes or an employee participates in a decision in violation of this section or AS 39.50.090 and that vote or participation is not necessary to the

decision, the board may ratify the action after disclosure of the violation in a public meeting of the board and without participation by the interested member or employee in the decision to ratify. A board member or employee who violates a prohibition contained in this section or in AS 39.50 forfeits office upon a determination by the board in a public meeting that the violation was intentional.

(e) The executive officials and board members of the authority are subject to AS 39.50.

(f) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules and regulations implementing this section, providing additional conflict of interest and ethical rules and regulations as it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section or in AS 39.50.

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public, with the exception of executive sessions permitted by AS 44.62.310 and (b) of this section.

(b) In addition to those subjects which may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the authority's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of the information including but not limited to proprietary information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.220. MINUTES OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes

employee of the authority is not subject to personal liability or accountability for executing bonds or notes or because of their issuance.

Sec. 42.40.550. REVENUES. Revenues generated by the authority do not become part of the general fund of the state but are kept and managed by the authority for purposes authorized by this chapter.

Sec. 42.40.555. INSURANCE. The authority shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability, and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

Sec. 42.40.560. SAFEGUARDING OF MONEY. The authority shall maximize revenues from and deposit all money in depositories acceptable to the governor and otherwise safeguard the money under instructions as the governor may from time to time issue.

Sec. 42.40.565. FIDELITY BOND. The authority shall obtain a fidelity bond in an amount determined by the board for its members and any official responsible for accounts and finances. A bond must be in effect for the tenure in office of the bonded person.

Sec. 42.40.570. REVERSION OF ASSETS. If the authority ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 6. STATE OVERSIGHT.

Sec. 42.40.600. STATE REVIEW. (a) The board shall notify the governor and the leadership of the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer to the authority or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of main or branch lines by more than 25 miles or five percent of the railroad's total track mileage, whichever is greater; or

(3) the issuance of securities, notes, bonds or contracts for other borrowings with a term in excess of one year and in an amount exceeding $5,000,000.

(b) The notice required by (a) of this section must be in writing and describe the proposed undertaking in detail, specifying

(1) its financial impact on the authority;

(2) its impact on the level and nature of services provided by the authority;

(3) why the project is necessary or desirable to achieve the purposes of this chapter; and

(4) whether and when the undertaking will be self-sustaining financially.

(c) The notice required by (a) of this section shall be published and given in the same manner as notice required under AS 42.40.060.

(d) Within 45 days after receipt of the notice required by (a) of this section, the governor may

(1) disapprove the proposed undertaking;

(2) suspend the proposed undertaking and direct that it not be implemented until the legislature has reviewed it under (f) of this section; or

(3) approve the proposed undertaking, in which case the authority may proceed with the undertaking.

(e) A decision by the governor disapproving the proposed undertaking under (d) of this section is binding on the authority, unless the authority is directed by the legislature under AS 42.40.610 to

proceed with the proposed undertaking. If the governor suspends the proposed undertaking under (d) of this section, the governor shall promptly transmit a decision to the board and the leadership of the legislature in the form of a recommendation that the legislature acquiesce in the proposed undertaking or that the legislature reject the proposed undertaking. The authority's proposed undertaking is considered approved if the governor fails to act under (d) of this section within the prescribed time.

(f) During a legislative session, within 60 days after receipt of the governor's recommendation the legislature may, by law, reject the proposed undertaking. The legislation is binding on the authority. The proposed undertaking is considered approved if the legislature fails to pass legislation rejecting it within the prescribed time.

(g) Notwithstanding the provisions of (a) - (f) of this section, a proposed extension of main or branch lines by more than 50 percent of the railroad's total track mileage and requiring the issuance of securities, notes, bonds, or contracts for other borrowings of an amount in excess of $50,000,000 or provision for the management and operation of the railroad by a third-party contractor must be specifically authorized by law.

(h) An undertaking described in (a) or (g) of this section is considered approved or rejected for purposes of this section if

(1) the authority has been directed to act or refrain from acting in accordance with AS 42.40.610; or

(2) the legislature by law has specifically approved the undertaking by authorizing, appropriating financing for, or guaranteeing the authority's borrowing for the proposed undertaking.

Sec. 42.40.610. ACTION-FORCING MECHANISM. (a) The governor or

the legislature, by resolution, may request that the authority exercise or refrain from exercising its powers and authorities. Notice of a request shall be given to the legislature by the governor and to the governor by the legislature.

(b) To the greatest extent practicable within 30 days after receipt of a request the board shall respond to both the governor and the leadership of the legislature in writing specifying

(1) the manner in which it proposes to take the requested action or any modification to the requested action sought by the authority; or

(2) the specific reasons, financial, legal or otherwise, why the board declines to take the requested action.

(c) At the request of the governor or on its own initiative, the legislature by law may then direct the authority to take the requested action or the legislature may act to cure the problem precluding the authority from taking the requested action. If the authority is unable to take the requested action for financial reasons, it is obligated to do so, even if directed, only upon provision by the legislature of sufficient money to plan and implement the action.

Sec. 42.40.615. INTERVENTION. (a) When authorized by law, the governor as provided in the legislation shall intervene and exercise such control over the authority as is necessary and appropriate to correct a deficiency or to assure that the purposes of this chapter may be reasonably accomplished, including directing affirmative action when

(1) the board has requested intervention by resolution;

(2) the authority has represented to the public or to creditors that recourse may be had to the assets, property, or credit of the state on account of acts or omissions of the authority, unless

the secondary or direct liability has been expressly assumed by the state;

(3) the authority has failed to file an annual report as required by AS 42.40.310 within 120 days after receipt of formal notice of the omission or has filed an annual report that is false or misleading on a material matter;

(4) a deadlock has occurred in the board, or the membership of the board is insufficient to constitute a quorum for conduct of affairs so that the authority is unable to conduct its operations or perform its activities; or

(5) the assets of the authority have been or are committed to be misapplied or wasted or illegally expended, or the authority has committed or is about to commit a material violation of this chapter.

(b) The governor may take actions necessary to achieve the object of the intervention stated in the legislation and make ancillary corrections, and shall accomplish the purposes of the intervention as expeditiously as reasonable. Board members and employees may not be displaced nor the conduct of their duties impaired more than necessary to accomplish the purposes of the intervention and the intervention must cease as soon as the objective stated in the legislation and ancillary corrections have been accomplished.

Sec. 42.40.620. TRUSTEESHIP. (a) When authorized by law, the governor may petition the superior court of the State of Alaska for the Third Judicial District at Anchorage to impose a trusteeship over the authority and appoint the trustees if

(1) the board has requested imposition of the trusteeship by resolution;

(2) the authority has become insolvent or otherwise unable to carry out its contractual obligations to creditors and other

persons;

(3) the authority has filed an annual report that is false or deceptively misleading on a material matter;

(4) the authority has become incompetent or ineligible to carry out the public purposes for which it was established;

(5) the authority has misused, abused, or continuously exceeded the power or authority conferred by this chapter or committed repeated violations of this chapter;

(6) the assets of the authority have been or are committed to be misapplied or wasted, or illegally expended, or a material violation of this chapter has been committed or is about to be committed and the governor has determined that intervention as provided in AS 42.40.615 would not be feasible under the circumstances; or

(7) the credit-worthiness of the state has been directly or indirectly substantially impaired by actions of the authority.

(b) The trustees appointed by the superior court shall take reasonable actions necessary during the trusteeship to achieve its object. The trustees have the power and authority to reorganize the authority and amend its rules and regulations; suspend or remove board members and executive officials; manage the assets and affairs of the authority; and exercise all powers necessary or appropriate to fulfill outstanding agreements, to restore the capability of the authority to perform the functions and activities for which it was established, to reinstate its credit or credibility with its creditors or obligees or the credit of the state or its credibility with its creditors or obligees to the extent impaired by authority actions.

ARTICLE 7. MISCELLANEOUS PROVISIONS.

Sec. 42.40.700. PERSONNEL. (a) All personnel employed by the Alaska Railroad are personnel of the authority, and not of the state.

QUESTIONS/CONCERNS OF COMMITTEE

Railroad Land

- Surface and subsurface rights -- gravel deposits
- Classification of lands by DNR -- who has power of eminent domain?
- Legal requirements/restraints for land disposal by Railroad
- Revenues from managing subsurface resource development
- Open dock facility in Seward

Constitutional Questions

- Dedication of funds
- Is is constitutional to set-up separate department or corporation-independent Railroad authority or state-owned
- Governor appointed Board of Directors with legislative confirmation-constitutional amendment
- Oversite for Railroad-Executive Budget Act, Admin Procedures Act, Fiscal Procedures Act--and, who administers

Miscellaneous

- Value of non-operating properties
- Ultimate liability for Railroad
- Bond rating-default by Railroad, Borrowing level from State-bond selling power-state's credit rating
- Do we want labor contracts as part of transfer bill-who is responsible for negotiation of collective bargaining agreements-state or corporation?
- Consistency in bill wording-as long as Railroad gets public money must get public oversite
- OSHA and FRA requirements-how do we want to handle them-waivers of compliance for the state
- ICC exemption for state
- Number of states that own Railroad and the type of authorities set-up

united transportation union

ARTICLE 7. PERSONNEL AND LABOR RELATIONS

1. Sec. 42.40.840. STRIKES

1. Delete and Replace with the Following:

Sec. 42.40.840. BINDING ARBITRATION. 30 days after mediation if the dispute is not resolved, then the issue or issues shall be submitted to binding arbitration using the Federal Mediation Concilliation Service (F.M.C.S.) list of arbitrators.

2. Adopt Sec. 23.40.200. Classes of public employees; arbitration

(a) For purposes of this section, public employees are employed to perform services in one of the three following classes:

(1) those services which may not be given up for even the shortest period of time.

2. Sec. 42.40.850. AGREEMENT. Delete (a) Not to exceed three years.and adopt the concept of the Railway Labor Act, Part 2, Sec. 6.

(b) The Department of Administration may participate in the negotiations between the corporation and an employee organization.

Delete the following: The corporation may not enter into a collective bargaining agreement concerning wages, hours, or other terms and conditions of employment unless the proposed contract terms are approved by the Department of Administration.

united transportation union

STRIKES: (a) Employees may engage in a strike if a majority of the employees in all collective bargaining units vote by secret ballot to do so.

(b) Employees may engage in a strike after mediation, arbitration subject to the voting requirements of (a) of this section, for a limited time. The limit is determined by the interests of the health, safety or welfare of the public. The Alaska Railroad Corporation may apply to the superior court in the judicial district in which the strike is occurring for an order enjoining the strike. A strike may not be enjoined unless it can be shown that it has begun to threaten the health, safety or welfare of the public. A court, in deciding whether or not to enjoin the strike, shall consider the total equities in the particular class. "Total equities" includes not only the impact of a strike on the public, but also the extent to which employee organization and The Alaska Railroad Corporation have met their statutory obligations. If an impasse or deadlock still exists after the issuance of an injunction, the parties shall submit to arbitration.

(c) Notwithstanding the provisions of (a) and (b) of this section the employees with the concurrence of the employer may agree in writing to submit a dispute of a collective bargaining agreement to arbitration.

REFER TO FILE:

February 2, 1984

Following is a list of changes and additions we would like made to Senate Bill Number 352:

1. Page 3, line 26, change to read as follows: an employee of the corporation represented the bargaining units, appointed by the governor to represent the employees.

2. Page 26, line 11 through 14: delete

3. Page 26, line 9, insert the following:

d. Employees who are not part of an employees organization bargaining unit on the day before transfer, are not executive officials on the day after transfer, and are protected under the Federal Transfer Law for the two-year period shall become a subdivision of the existing white collar bargaining unit representing The Alaska Railroad Corporation for the purpose of collective bargaining.

e. Employees who are not protected under the transfer act for two years and are classified as temporary at the time of transfer will be protected based on their seniority date.

4. Page 27, line 22, insert the following:

(8) Executive officers are the empioyees occupying the following positions at The Alaska Railroad as of the day before the date of transfer: General Manager, Assistant General Manager, Assistant to the General Manager, Chief of Administration, and Chief Counsel.

(9) Collective bargaining is defined as negotiating with an employees organization, representing the employees of The Alaska Railroad Corporation on any matters pertaining to conditions of employment.

5. Alaska Statute Section 39.26.010, Prohibited Acts be adopted with the following modifications:

(a) The word "State" be replaced with "Alaska Railroad Corporation."

(b) Paragraph 5b. The heads of the administrative departments of the State may adopt internal management regulations for their respective departments, specifying exception to (a)(5) of this section. These regulations shall be submitted for approval to the personnel board provided for in AS 39.25.060. Replace as follows:

"The executive officials of The Alaska Railroad Corporation may adopt internal management regulations for their respective departments. These regulations shall be submitted for approval to the Board of Directors of The Alaska Railroad Corporation."

6. The State of Alaska's primary concern over including the current Alaska Railroad employees under PERS is over back year unfunded years. Why not modify the State statute for those employees of The Alaska Railroad who remain under the Civil Service Retirement to be eligible for coverage under the supplemental benefits system?

Your consideration of the above request will be greatly appreciated. Also, we would appreciate receiving copies of any amendments that are issued to this bill. If you have any questions, please do not hesitate to contact us.

Sincerely yours,

Jack F. Burton
President

AMENDMENT

Offered in the HOUSE By Miller

TO: HB 512

Page 16, after line 10, insert a new section to read:

"Sec. 42.40.460. MUNICIPAL RIGHT-OF-WAYS. Upon request of a municipality the corporation shall grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board may require the municipality to agree to hold the corporation harmless for any use made of the right-of-way and to execute the agreement in a form approved by the board."

1/19/84

Sec 42.40.220. MINUTES AND NOTICES OF MEETINGS. The board shall keep minutes of each meeting. Reasonable notice of the meetings shall be provided to the public.

Sec. 42.40.230. RULES. The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. Within 90 days after its first meeting the board shall adopt rules establishing a procedure for giving advance public notice and an opportunity for the public to comment on proposed ~~regulations~~ rules of the authority that, in the determination of the board, will have a substantial impact on the public or be used in the authority's dealings with a significant segment of the public.

(b) The rules shall also include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

adopted 3/16/84

section in 5/2

3/16/84
Senate change today

Sec. 42.40.230. Rules. (a) The board shall establish in its bylaws a procedure for adopting rules to carry out its functions and the purposes of this chapter.

(1) The corporation shall make available to members of the public copies of the rules adopted under this section.

(2) Within 45 days after adoption, the chairman of th board shall submit a rule adopted under this section to the chairman of the Administrative Regulation Review Committee under AS 24.20.400 - 24.20.460.

(b) Except as provided in (c) of this section, at least 15 days before the adoption, amendment, or repeal of a rule, the board shall give public notice of the proposed action by publishing the notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to every person who has filed a request for notice of proposes rules with the board or the corporation. The public notice must include a statement of the time, place, and nature of the proceedings for the adoption, amendment, or repeal of the rule and must include and informative summary of the proposed subject of the rule. On the date and at the time and place designated in the notice, the board shall give each interested person or his authorized representative , or both, the opportunity to present statements, arguments or contentions in writing, and shall give members of the public an opportunity to present statements, arguments, or contentions in writing, and shall give members of the public an opportunity to present oral statements, arguments, or contentions for a total period of at least one hour. The board shall consider all relevant matter presented to it before adopting, amending, or repealing a rule which is adopted, or its amendment or repeal, may vary in content from the informative summary

specified in this subsection if the subject matter of the rule, or its amendment or repeal, remains the same and the original notice was written so as to assure that members of the public are reasonably notified of the proposed subject of the board's action in order for them to determine whether their interests could be affected by the board's action on that subject.

(c) The board shall in its bylaws establish a procedure for adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or programs. The requirements of (b) of this section do not apply to the initial adoption of an emergency regulation; however, upon adoption of an emergency regulation, the board shall, within 10 days after adoption, give notice of the adoption in accordance with (b) of this section. No emergency regulation adopted under this subsection remains in effect more than 120 days unless the board complies with (b) of this section during the 120-day period.

(d) A rule adopted under this section becomes effective immediately upon its adoption by the board, unless otherwise specifically provided by order of the adoption.

Anchorage

CHAMBER of COMMERCE

Crossroads of | *the Air World*

Representative Bette Cato
State Capitol
Pouch V
Juneau, Alaska 99811

Dear Representative Cato,

For several years the Anchorage Chamber of Commerce has been closely following the transfer and operation issue of the Alaska Railroad. The Anchorage Chamber has expressed its support of a strong independent railroad which operates as a business entity.

We feel our objectives, and the citizens of the state, are best achieved through passage of HB 512. The major elements in this legislation which we support are as follows:

1. Specific reference under the legislative purpose of the eventual transfer of the railroad to the private sector.

2. The independent status of the Corporation as an entity of the State.

3. The strength of the Corporation Board of Directors identified by its powers and duties.

4. The establishment of the Executive Officers of the railroad to manage the day-to-day activities of the railroad.

5. We strongly support the Railroad Corporation right to hold and manage its lands including the right of eminent domain, and the right to request additional lands for railroad purposes.

6. We support the inclusion of the strong bonding authority of the Alaska Railroad Corporation.

7. We support the railroad generated revenues staying within the Corporation for future railroad purposes.

8. And finally, we support the Alaska Railroad employees being employees of the Corporation.

We would like to propose one addition to Article 4, Section 42.40.300 General Powers. We recommend that the Corporation be permitted to lease a portion or all of the operation of the railroad to a private entity. We feel this addition should be granted to the Corporation as an option to their management prerogatives and is within the overall intent of the proposed legislation.

We recommend your support of this legislation.

Sincerely,

Al Fleetwood, President
Anchorage Chamber of Commerce

Honorable Bette Cato
Alaska State Legislature
Pouch V (MS 3100)
Juneau, Alaska 99811

Dear Representative Cato:

Attached to this letter are a few suggested amendments which we believe to be in the best interest of the State, the citizens, and various modes of the transportation industry in the State of Alaska.

We do not feel that our suggestions are so restrictive that the Alaska Railroad will not be able to carry on with an economical/operational program and keep the Alaska Railroad a viable institution. The Authority, composed of astute businessmen and a General Manager who knows how to operate and market his railroad as a free enterprise business, will succeed. After all, we are all working for our share of the Alaska freight "pie." The only difference is that the private sector pays taxes to City, State, and Federal Governments, and pays the commercial interest rate for his capital.

Trust these suggestions are accepted and reviewed in an unbiased manner.

Thank you for your consideration and taking the time to review. All we, in the private sector, are asking for is to be able to compete on an equal basis.

Sincerely,

Hal Schuyler

SENATE BILL NO. 352

Suggested amendments that should make for a better bill:

1. Page 2, Section 1, Line 17. Add: "and to apply for any Federal monies to which the State would be entitled, or may be available;" §605 of ARTA.

2. Page 2, Section 1, Line 21. Add the word "rail" between "economical" and "transportation" in the middle of the sentence.

3. Page 2, Section 1, Line 28. Add: Paragraph "(H) The Corporation will not use State investments, subsidy money, non-taxable property and chattles in considering the pricing of the property services of the railroad."

4. Page 7, Article 1, Section 42.40.110, Delegation, Line 7. Add: "(12) Applying for subsidies, grants and endowments available from Federal, State or Private entities."

5. Page 8, Article 3, Administrative Provisions, Line 19. Add: "This shall be a public document."

6. Article 8, General Provisions, Page 27, Line 26. Prior to "Where possible," add: "The Corporation shall comply with and be subject to, all provisions of the Antitrust Laws." If this sentence cannot be added, strike out "Where possible."

adopted for HB512 3/13/84 HB512 additions

Sec. 42.40.280 PERFORMANCE AUDIT. The board shall have an annual performance audit conducted by a qualified professional performance auditing firm to assure that the railroad is being managed and operated effectively and efficiently in accordance with the requirements of this Act.

FH House Bill - 512 3/13/84

Sec. 42.40.~~4~~70. AGREEMENT (a) The Department of Administration may participate in labor negotiations between the corporation and an employee organization. The corporation ~~shall consult~~ shall notify with the Department of Administration prior to entering into a collective bargaining agreement concerning wages, hours, or other terms and conditions of employment. The Department of Administration ~~shall~~ will notify the Governor and the Legislature if any proposed contract provisions conflict with State labor management policy.

The Bd shall notify DOA of time & place of labor neg & DOA shall be able to attend those neg and DOA may ~~attend~~ participate @ request of Bd.

Sec. 42.40.280 PERFORMANCE AUDIT. The board shall have an annual performance audit conducted by a qualified professional performance auditing firm to assure that the railroad is being managed and operated effectively and efficiently in accordance with the requirements of this Act.

Sec. 42.40.470. AGREEMENT (a) The Department of Administration may participate in labor negotiations between the corporation and an employee organization. The corporation shall consult with the Department of Administration prior to entering into a collective bargaining agreement concerning wages, hours, or other terms and conditions of employment. The Department of Administration shall notify the Governor and the Legislature if any proposed contract provisions conflict with State labor management policy.

January 26, 1984

Alaska Railroad Operating Entity
Sheffield Administration - Policy Statement

The Alaska Railroad is a fundamental link in Alaska's overall transportation system. Ensuring the continuation and development of this rail system as Alaska's transportation needs grow should be a major public policy objective in the years ahead.

Along with most Alaskans, I share this objective. I hope to see the Alaska Railroad provide the maximum benefit to our residents with minimum involvement by State government for regulatory oversight and public funding.

I support the development of the Alaska Railroad from its present status of a federally owned and operated agency to one which is funded and operated to the maximum extent possible by the private sector through a private company management contract or similar form of lease arrangement. I believe it will take a period of time to reach this goal. Consequently, it is important that any legislation provide adequate and specific provisions mandating that these alternatives be addressed.

It is important to keep in mind one essential fact: as long as the Alaska Railroad receives public funding, there must be comparable public oversight and accountability for its operation and management. If we accept anything less, we will be shirking our responsibility to all Alaskans to prudently and properly manage public funds.

I commend the members of our Legislature for the extensive interest they have demonstrated in the Alaska Railroad transfer issue. I know that many legislators have worked hard to develop acceptable transfer legislation which addresses a wide range of State policy concerns and interests over the past several years. Rather than introduce legislation of my own, I look forward to working with the legislation already in preparation provided that it is consistent with my following basic policy considerations:

(1) Railroad operations should be insulated from political interference but remain responsive to the public interest. The public entity selected should be one best able to accomplish this goal.

(2) The railroad entity should be constituted so that it has broad latitude in its operation and financing subject to public interest safeguards in existing state law, including the Executive Budget Act, Fiscal Procedures Act, and Administrative Procedures Act. I realize that certain sections of these laws may not be entirely applicable, and therefore limited exemptions may be necessary.

(3) All revenues generated by the railroad should only be expended for railroad and related purposes.

(4) The railroad should be able to incur bonded indebtedness to an extent consistent with its ability to repay the indebtedness from its own revenues.

(5) The railroad should hold title to the surface estate of all lands received in the purchase and enjoy access to subsurface material necessary for actual rail operations. Specific arrangements should be included to ensure consistency with general state land policies, and to provide that sale of real property cannot occur without the approval of the Department of Natural Resources.

(6) To minimize the State's exposure to railroad liabilities and to lower administrative costs, the railroad should take advantage of the economies of scale afforded by participation in the State's insurance and risk management plans. The Department of Administration should have primary responsibility for the negotiation of collective bargaining agreements with railroad employees.

(7) The railroad should prepare and implement operating and capital plans, and explore long-range expansion needs. No later than three years after acquisition, the railroad must prepare a report for the Governor and the Legislature recommending a method for obtaining private sector participation in railroad operations.

SUGGESTED AMENDMENT TO HB 512

Page 19, lines 5 -- 29; page 20; and page 21, lines 1 -- 21

Delete all material and insert the following new material:

(f) In the discretion of the board, an issue of bonds may be secured by a trust indenture or trust agreement between the authority and a corporate trustee (which may be a trust company, bank, or national banking association, with corporate trust powers, located inside or outside the state) or by a secured loan agreement or other instrument or under a resolution giving powers to a corporate trustee by means of which the corporation may

(1) make and enter into any and all the covenants and agreements with the trustee or the holders of the bonds which the corporation may determine to be necessary or desirable, including, without limitation, covenants, provisions, limitations and agreements as to

(A) the application, investment, deposit, use and disposition of the proceeds of bonds of the ~~authority~~ CORPORATION or of money or other property of the corporation or in which it has an interest;

(B) the fixing and collection of rentals, charges, fees or other consideration for, and the other terms to be incorporated in, contracts with respect to the use of any of the corporation's property;

(C) the fixing and collection of tariffs, fees, charges or other consideration for the use of the Alaska Railroad by passengers and other users FOR SERVICE AND FREIGHT;

(D) the terms and conditions upon which additional bonds of the corporation may be issued;

(E) the vesting in the trustee of rights and remedies exercisable by the trustee for the protection of the holders of bonds of the corporation and not otherwise in violation of law and the restriction of the rights of an individual holder of bonds of the corporation;

(2) pledge, mortgage or assign money, leases, agreements, property or other assets of the corporation either presently in hand or to be received in the future, or both; and

(3) provide for any other matters of like or different character which in any way affect the security or protection of the bonds.

INTERSTATE COMMERCE COMMISSION

Memorandum

TO : Louis E. Gitomer **DATE:** February 27, 1984

FROM : [redacted]

SUBJECT :

Commission Jurisdiction over
the Alaska Railroad

~~Currently,~~ At the time the Interstate Commerce Commission ~~holds~~ lost no statutory authority over the Alaska Railroad (ARR). Exclusive authority over the operations of the railroad was granted to the President under the Alaska Railroad Act of 1914, and ~~This authority was~~ delegated to the Secretary of the Interior in 1915, and then ~~subsequently transferred to~~ the Secretary of Transportation in 1966.

~~While the Commission holds no statutory authority to regulate ARR,~~ in 1963 the Commission was delegated certain rate review authority by the President, ~~by~~ [Executive Order No. 11107 (codified at 49 U.S.C. 240)]. ~~This~~ and that executive order was recently superceded by [Executive Order No. 12434] an order issued by President Reagan in August 1983. [(Copies of 49 C.F.R. 240 and Executive Order No. 12434 are attached).] The new executive order clarified ~~the fact that the~~ Commission's ~~has final~~ ratemaking authority over ARR. (rather than merely offering advisory opinions to the DOT). See the attached case Sealand Service, Inc. v. I.C.C., 697 F.2d 1166 (1983). It also expressly incorporated certain revisions to the rates provisions

made to the Interstate Commerce Act since the first executive order was issued in 1963.[1]

Thus, Executive Order No. 12434 subjects ARR to the major rate provisions of the Interstate Commerce Act including the changes made by the Staggers Act of 1980.

In general, the Staggers Act, which was a major deregulatory step, assures railroads substantially more rate freedom than was afforded under prior law. It continues the policy started under the Railroad Revitalization and Regulation Reform Act of 1976 by substantially eliminating rate regulation of railroads where there is effective competition. Specifically, the Staggers Act:

1. Establishes a specific 14-point rail transportation policy to guide the Commission in its regulation of the railroad industry.

---

[1] Executive Order No. 12434 provides that with respect to rates filed by the Secretary, the Commission may act in the same manner as though the ARR were subject to the following Sections of Title 49 of the U.S. Code: §10101a (Rail Transporation Policy); subchapter I of Chapter 105 (Rail, Rail Water Express and Pipeline Carrier Transporation Jurisdiction); Chapter 107 (Rates, Tariffs and Valuations) with modifications to the contract rates provisions and except subchapter V (governing valuations of property), §10723 (charitable purposes), §10724 (emergency rates), §10746 (commodities manufactured or produced by a rail carrier), and §10751 (business entertainment expenses); Chapter 111 (Operations of Carriers) except subchapter III and IV (Railroad Cost Accounting; and Chapter 117 (Enforcement, Investigations, Rights and Remedies) except §11703 (enforcement by the Attorney General) and §11704 (actions by a private individual to enjoin abandonments).

2. Provides the Commission with jurisdiction to determine rate reasonableness only when a rail carrier is serving a captive shipper. ~~has~~ market dominance and the rate exceeds the applicable revenue to variable cost percentage threshold. ~~When determining reasonableness, the Commission is directed to consider the policy that carriers earn adequate revenues.~~

3. Provides that a rate may not be set below a reasonable minimum, that is predatory pricing - pricing below directly variable costs is prohibited. ~~for inflationary losses~~

~~4. Provides a formula which allows carriers to increase any rate to reflect increases in the Index of Railroad Costs and limits Commission jurisdiction over rate increases that are within the zone.~~

5. Permits the Commission, ~~on a quarterly basis, the~~ to prescribe a percentage rate increase or rate index for rail carriers ~~in order~~ to compensate for inflationary cost increases.

6. Requires the Commission to use its ~~suspension~~ powers To suspend a proposed rate only upon protest, ~~under limited circumstances~~ and requires the Commission to complete a proceeding within 5 months of the suspension (unless extended). If there is no timely decision the rate will go into effect.

Expand

A - Rate change filed - before rate effective
- Protested
- ICC decides to I C S or I
- If no S then rate goes into effect

B. After rate effective
- file complaint alleging unreasonableness
- ICC hearing
- Decision by ALJ
- Appeal to employee board
- Discretionary appeal to EC
- Court appeal

7. Authorizes one or more rail carriers to enter into contract rates with one or more shippers.2/

8. Provides standards and procedures for surcharging an existing joint rate or for canceling the application of a joint rate for a particular route.

9. Requires carriers to reduce and maintain rates on non-ferrous recyclables at specified levels.

10. Provides shippers and railroads greater service options by permitting the establishment of lesser liability requirements.

11. Exempts certain services from the rate discrimination provisions of current law.

12. Eliminates demand sensitive rates.

13. Phases out capital incentive rates.

14. Repeals incentive per diem provisions.

15. Encourages more efficient car utilization by permitting carriers to charge for special services or special levels of service not otherwise included in any tariff applicable to the movement.

16. Encourages competitive pricing by modifying the activity that a rate bureau may permit its members to engage in if it is

---

2/ The executive order modifies the contract rates provisions of the Staggers Act. ~~by (1) allowing carriers to participate in ARB's contract rate agreements and (2) by making any contract available to any other shipper for rates and service for transportation of the same type of commodity under similar conditions to the contract on file if the shipper is able to enter the contract at a time essentially contemporaneous to the contract period.~~ See page 6

to be approved by the Commission and immune from the antitrust laws. Only allow direct connections to deliver water.

17. ~~Eliminates §10726(e) of the act which dealt with situations where a rail carrier reduces rates~~ due to competition ~~with a water carrier.~~

18. Permits tariffs be effective with a shorter notice periods

19. Permits the Commission to exempt a person, class of persons, or transaction or service from regulation under specified circumstances.3/

After the date of transfer of the ARR, Section 608 of the Alaska ~~Railroad Transit~~ Railroad Transfer Act of 1982 (ART) provides AAR "shall be a rail carrier engaged in interstate and foreign commerce subject to the jurisdiction of the Interstate Commerce Commission under Chapter 105 of subtitle IV of title 49, United States Code and all other Acts applicable to rail carriers subject to that chapter, including the antitrust laws of the United States..."4/

Thus, following the transfer, in my opinion the AAR will be subject to the whole gambit of Commission regulation. As far as rate matters are concerned, the change from regulation under delegated authority to statutory authority will have limited impact except in the area of contracts. ~~one major area~~.

3/ The Staggers Act also clarifies the application of the Elkins Act to business expenses by rail carriers. ~~The [redacted] included in the executive order.~~ See 49 USC 10743 The executive order, however, did not make AAE subject to our jurisdiction under this provision.

4/ ~~This does not include~~ AAE employee interest is not subject certain designated acts affecting employee interests.

Encourages creation of short line railroads by private enterprise or state governments where class I railroads have or are seeking to withdraw from the market.

As noted in ~~footnote 2, the~~ executive order modified the contract rate provisions of 49 U.S.C. 10713 in ~~tow~~ two ways: First, it stated that any contract filed with the Commission shall be available to any other shipper for rates and service for transportation of the same type of commodity under similar conditions to the contract on file, if the other shipper is able to enter into such contract at a time essentially contemporaneous with the period during which the contract in file is offered. Second, it provides that connecting water carriers may participate in ARR contract rate agreements. While ~~the~~ water carriers' ability to participate in contract rate agreements is specifically maintained in section 608(a)(2), neither the ART nor the Interstate Commerce Act give a shipper the right to force a carrier to enter into a contract merely because contract with similar terms is on file with another shipper.5/

There will be several additional minor changes to rate regulation of ARR after transfer. Executive Order No. 12434 does not permit the Commission to act as if ARR were subject to the following provisions of Chapter 107: follows immediately

---

5/ If the Commission, however, determines that grounds for a complaint have been established under 49 U.S.C. 10713(d)(2)(B)(i) [governing allegations that a rail carrier who has entered a contract for the transportation of certain agricultural commodities has unreasonably discriminated by refusing to enter into a similar agreement with a similarly situated shipper], the Commission can order the carrier to provide rates and services substantially similar to the contract at issue.

§10723 (permitting free transportation for charitable purposes); §10724 (permitting free or reduced rate transportation in emergencies); §10746 (prohibiting the carrier from transporting commodities manufactured or produced by the carrier); §10751 (concerning the propriety of business entertainment expenses) and subchapter V (requiring Commission inventory, valuation and classification of rail property). Following transfer, ARR will be subject to all of these provisions. (However, no inventory, valuation, or classification of property owned or used by the state-owned railroad will be required under subchapter 107 during the two years after the transfer. See §608(b) of ART.

In addition to these rate matters, ARR will also become subject to a number of additional provisions of the Interstate Commerce Act. These include (1) Chapter 109 licensing procedures governing the acquisition, construction and operations of rail lines,[6] the abandonment and ~~discontinuance~~ discontinuance of operations over rail lines, the financial assistance procedures and the feeder line development program; (2) Chapter 111 provisions governing carrier obligations, car service, rail cost accounting principles, and reporting and records requirements; (3) Chapter 113 governing finance procedures including the issuance of carriers' securities, equipment trust

[6] Pursuant to §608(b) of ART, the Commission has issued a certificate and decision ~~[illegible]~~ which finds that the present and future public convenience and necessity require the acquisition and operation of the Alaska Railroad by the Alaska State-owned railroad. The certificate and decision will be effective on the date of transfer. Alaska Railroad

and other securities interests, limitations on ownership, restrictions on officers and directors, limitations on pooling and division of earnings, the consolidation, mergers and acquisition of control of carriers; and changes in financial structure; (4) Chapter 115 provisions governing Federal-State relations including Commission Authority over intrastate transportation;[1] (5) Chapter 117 to the extent that enforcement remedies were excluded by Executive Order 12434; and (6) Chapter 119 governing civil and criminal penalties.

[1] ~~In States~~ Alaska has not been authorized to exercise rate-related jurisdiction over intrastate transportation provided by the ARR, under 49 U.S.C. 11501. See State Intrastate Rail Rate Authority, 564 I.C.C. 881 (1981)

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of _____. [THE CORPORATION SHALL BE CONSIDERED A PRINCIPAL DEPARTMENT ONLY FOR THE PURPOSES OF ART. III, SEC. 26, CONSTITUTION OF THE STATE OF ALASKA.] The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of _____ and four [FIVE] voting members appointed by the governor. These four [FIVE] members must be residents of and registered voters in the state except as provided in (b) of this section. No more than two of these members may be from any one of the four judicial districts in the state. Two of the voting members must have at least five years experience as owners or managers of a business in the state. Except for the commissioner of _____, a voting member may not be a state officer or employee.

(b) One person who is not a resident of or registered voter in this state may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(c) In addition to the voting members, the following nonvoting members shall serve on the board:

(1) an employee of the corporation appointed by the governor to represent the employees;

(2) the chief executive officer of the corporation.

(d) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(e) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(f) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(g) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

[(h) THE GOVERNOR MAY, BY WRITTEN NOTICE TO THE MEMBER, REMOVE A MEMBER FROM THE BOARD FOR

(1) INCAPACITATION CAUSED BY INJURY OR SICKNESS THAT LEAVES THE MEMBER UNABLE TO PERFORM DUTIES UNDER THIS CHAPTER;

(2) CONTINUED REFUSAL OR INABILITY TO ATTEND MEETINGS OF THE BOARD;

(3) CONVICTION OF A FELONY; OR

(4) CONVICTION OF A MISDEMEANOR INVOLVING MORAL TURPITUDE.]

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. Except for the commissioner of _____, the voting members of the board serve for staggered terms of five years each, and serve at the pleasure of the governor during their terms.

QUESTIONS/CONCERNS OF COMMITTEE

Railroad Land

- Surface and subsurface rights -- gravel deposits
- Classification of lands by DNR -- who has power of eminent domain?
- Legal requirements/restraints for land disposal by Railroad
- Revenues from managing subsurface resource development
- Open dock facility in Seward

Constitutional Questions

- Dedication of funds
- Is is constitutional to set-up separate department or corporation-independent Railroad authority or state-owned
- Governor appointed Board of Directors with legislative confirmation-constitutional amendment
- Oversite for Railroad-Executive Budget Act, Admin Procedures Act, Fiscal Procedures Act--and, who administers

Miscellaneous

- Value of non-operating properties
- Ultimate liability for Railroad
- Bond rating-default by Railroad, Borrowing level from State-bond selling power-state's credit rating
- Do we want labor contracts as part of transfer bill-who is responsible for negotiation of collective bargaining agreements-state or corporation?
- Consistency in bill wording-as long as Railroad gets public money must get public oversite
- OSHA and FRA requirements-how do we want to handle them-waivers of compliance for the state
- ICC exemption for state
- Number of states that own Railroad and the type of authorities set-up

(c) Transferred employees whose employment with the State-owned railroad is terminated during the two-year period commencing on the date of transfer shall be entitled to all of the rights and benefits of discontinued employees that such employees would have had under Federal law if their termination had occurred immediately before the date of the transfer, except that financial compensation paid to officers of the Alaska Railroad shall be limited to that compensation provided pursuant to section 604(dX3XE) of this title. Such employees shall also be entitled to seniority and other benefits accrued under Federal law while they were employed by the State-owned railroad on the same basis as if such employment had been Federal service.

(d) Any employee who transfers to the State-owned railroad under this title shall not be entitled to lump-sum payment for unused annual leave under section 5551 of title 5, United States Code, but shall be credited by the State with the unused annual leave balance at the time of transfer.

STATE OPERATION

SEC. 608. (aX1) After the date of transfer to the State pursuant to section 604 of this title, the State-owned railroad shall be a rail carrier engaged in interstate and foreign commerce subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of subtitle IV of title 49, United States Code, and all other Acts applicable to rail carriers subject to that chapter, including the antitrust laws of the United States, except, so long as it is an instrumentality of the State of Alaska, the Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.), the Railroad Retirement Tax Act (26 U.S.C. 3201 et seq.), the Railway Labor Act (45 U.S.C. 151 et seq.), the Act of April 22, 1908 (45 U.S.C. 51 et seq.) (popularly referred to as the "Federal Employers' Liability Act"), and the Railroad Unemployment Insurance Act (45 U.S.C. 351 et seq.). Nothing in this title shall preclude the State from explicitly invoking by law any exemption from the antitrust laws as may otherwise be available.

(2) The transfer to the State authorized by section 604 of this title and the conferral of jurisdiction to the Interstate Commerce Commission pursuant to paragraph (1) of this subsection are intended to confer upon the State-owned railroad all business opportunities available to comparable railroads, including contract rate agreements meeting the requirements of section 10713 of title 49, United States Code, notwithstanding any participation in such agreements by connecting water carriers.

(3) All memoranda which sanction noncompliance with Federal railroad safety regulations contained in 49 CFR Parts 209-236, and which are in effect on the date of transfer, shall continue in effect according to their terms as "waivers of compliance" (as that term is used in section 202(c) of the Federal Railroad Safety Act of 1970 (45 U.S.C. 431(c))).

(4) The operation of trains by the State-owned railroad shall not be subject to the requirement of any State or local law which specifies the minimum number of crew members which must be employed in connection with the operation of such trains.

(5) Revenues generated by the State-owned railroad shall be retained and managed by the State-owned railroad for railroad and related purposes.

(6XA) After the date of transfer, continued operation of the Alaska Railroad by a public corporation, authority or other agency of the

45 USC 1207.

State shall be deemed to be an exercise of an essential governmental function, and revenue derived from such operation shall be deemed to accrue to the State for the purposes of section 115(a)(1) of the Internal Revenue Code of 1954 (26 U.S.C. 115(a)(1)). Obligations issued by such entity shall also be deemed obligations of the State for the purposes of section 103(a)(1) of the Internal Revenue Code of 1954 (26 U.S.C. 103(a)(1)), but not obligations within the meaning of section 103(b)(2) of the Internal Revenue Code of 1954 (26 U.S.C. 103(b)(2)).

(B) Nothing in this title shall be deemed or construed to affect customary tax treatment of private investment in the equipment or other assets that are used or owned by the State-owned railroad.

(b) As soon as practicable after the date of enactment of this Act, the Interstate Commerce Commission shall promulgate an expedited, modified procedure for providing on the date of transfer a certificate of public convenience and necessity to the State-owned railroad. No inventory, valuation or classification of property owned or used by the State-owned railroad pursuant to subchapter V of chapter 107 of title 49, United States Code (49 U.S.C. 10781 et seq.) shall be required during the two-year period after the date of transfer. The provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and section 382(b) of the Energy Policy and Conservation Act (42 U.S.C. 6362(b)) shall not apply to actions of the Commission under this subsection.

(c) The State-owned railroad shall be eligible to participate in all Federal railroad assistance programs on a basis equal to that of other rail carriers subject to the jurisdiction of the Interstate Commerce Commission under chapter 105 of subtitle IV of title 49, United States Code.

(d) After the date of transfer to the State pursuant to section 504 of this title, the portion of the rail properties within the boundaries of the Chugach National Forest and the exclusive-use easement within the boundaries of the Denali National Park and Preserve shall be subject to laws and regulations for the protection of forest and park values. The right to fence the exclusive-use easement within Denali National Park and Preserve shall be subject to the concurrence of the Secretary of the Interior. The Secretary of the Interior, or the Secretary of Agriculture where appropriate, shall not act pursuant to this subsection without consulting with the Governor of the State of Alaska or in such a manner as to unreasonably interfere with continued or expanded operations and support functions authorized under this title.

FUTURE RIGHTS-OF-WAY

43 USC 1209.

SEC. 609. (a) After the date of enactment of this Act, the State or State-owned railroad may request the Secretary of the Interior or the Secretary of Agriculture, as appropriate under law, to expeditiously approve an application for a right-of-way in order that the Alaska Railroad or State-owned railroad may have access across Federal lands for transportation and related purposes. The State or State-owned railroad may also apply for a lease, permit, or conveyance of any necessary or convenient terminal and station grounds and material sites in the vicinity of the right-of-way for which an application has been submitted.

(b) Before approving a right-of-way application described in subsection (a) of this section, the Secretary of the Interior or the

what does this mean in regards to the Railroad Rate Policy?

What sort of Assistance is available.

Very Important

Others

1) Welcan water carriers Compete about subsidy and the State competing with for. rate Carriers. Inasmuch as the Railroad is an ICC Carrier and water carriers are F.M.C. 2) Is there Competition here? 3) Do F.M.C. Rates compare with ICC Rates?

were you involved in the Section 609 study required in the Staggers Act? What were the Findings.

(4) The important public purposes to be served by the railroad authority require the authority to have all of the powers and duties granted to it by this chapter; the Legislature intends that the authority exercise such powers and duties as a public service on behalf of the State of Alaska and recognizes that the exercise of the powers and duties granted by this chapter will require the authority to engage in a wide variety of different kinds of conduct; the Legislature further intends that in engaging in types of conduct related to the exercise of its powers and performance of its duties under this chapter, the authority shall not be subject to either the federal or state antitrust laws nor any other limitation that could hinder the effective exercise of the powers and duties granted by this chapter to the Authority.

ARTICLE ~~1~~. 2. CREATION AND ORGANIZATION

Sec. 42.40~~.010~~.200. ESTABLISHMENT OF AUTHORITY. ~~The Alaska Railroad Authority is established as a public corporation of the~~

deemed by the ~~Board~~ Council to be necessary for the operation of a railroad."

~~Section~~ 3. 42.40.710. Except as may be specifically provided otherwise, the provisions of this Act take effect upon enactment.

ARTICLE 8 APPLICATION OF OTHER LAWS

Sec. 42.40.800. CONFLICTING LAWS INAPPLICABLE. Insofar as the provisions of this Act are in conflict with the provisions of any other law, or parts thereof, the provisions of this Act shall prevail. Specifically, and without otherwise limiting the generality of the foregoing, it is intended by this Act that the federal and state antitrust laws shall not be applicable to any action of the Alaska Railroad Authority taken pursuant to the provisions of this Act. The Legislature of the State of Alaska by this Act expressly authorizes the Authority to engage in all types of conduct related to pursuit of the purposes, exercise of the powers, and performance of the duties granted to the Authority by this Act and expressly intends to displace the antitrust laws from applying to

all such conduct and activities of the authority. It is similarly intended that the antitrust laws shall not be applicable to any action or conduct engaged in by the Alaska Railroad Authority Council and its individual members pursuant to the provisions of this Act.

Sec. 42.40.810. REPEAL AND AMENDMENT OF EXISTING STATUTES.

(1) A.S. Title 19 shall not apply to the operations of the Alaska Railroad. [Title 19 sets forth the responsibilities of and restrictions on the Department of Transportation and Public Facilities in the construction and operations of highways. Some of its provisions regarding construction, public bids, etc. arguably apply to other activities of Public Facilities, to which the railroad will be nominally assigned.]

(2) A.S. 23.10.420 shall not apply to the operations of the Alaska Railroad. [Full-crew law]

(3) A.S. 30.15 shall not apply to the operations of the Alaska Railroad. [Procedures for state grants for construction of local port facilities.]

Offered in the SENATE By V.Fischer

TO: SB 352

Page 16, after line 10, insert a new section to read:

"Sec. 42.40.460. MUNICIPAL RIGHTS-OF-WAY. Upon request of a municipality the corporation shall grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board may require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless for any use made of the right-of-way; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities."

DRAFT

GUIDELINES FOR STATE OVERSIGHT OF RAILROAD FISCAL PROCEDURES

Because the railroad will be a public entity there must be public oversight and accountability. The entity statute should assure that this oversight be provided in a manner that:

-- gives railroad management the flexibility needed to operate in the competitive business environment, and

-- facilitates the transfer of the railroad to a private sector operator.

These goals can be achieved with oversight based on the following principles:

1. The responsibility for establishing and maintaining the railroad's accounting and procurement systems will be delegated from the Commissioner of Administration to the Board of Directors of the Alaska Railroad Corporation.
2. Delegation will be made after the Commissioner of Administration and the Legislative Auditor have assured that the railroad's accounting and procurement systems comply with accepted standards.
3. This delegation may be revoked if the railroad does not annually receive acceptable financial and performance audit reports.

D R A F T

Suggested language for Article 7 (Collective Bargaining)

You have requested that we draft preliminary language which establishes a mechanism for collective bargaining for employees of the Alaska Railroad. In accordance with your request, our preliminary proposal is intended to establish procedures which are substantially identical to the procedures established under the Public Employee Relations Act (PERA) (AS 23.40). To assure the independence of the corporation for purposes of collective bargaining, however, the corporation is specifically exempted from PERA.

Sec. _____. COLLECTIVE BARGAINING RIGHTS. The provisions of the Public Employee Relations Act (AS 23.40) do not apply to the corporation or to its employees. However, employees of the corporation, except the chief executive official and other executive officials appointed by the chief executive official, may self-organize and form, join or assist an organization to engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

Sec. _____. AGREEMENT. (a) The corporation may request The Department of Administration shall participate in the negotiations between the corporation and an employee organization. The corporation may

not enter into a collective bargaining agreement concerning wages, hours, or other terms and conditions of employment unless the proposed contract terms are approved by the Department of Administration.

(b) An agreement executed between the corporation and an employee organization shall define "grievances." The agreement shall provide for a grievance procedure in which the final step in the procedure is binding arbitration.

Sec. _____. RAILROAD EMPLOYEES LABOR RELATIONS AGENCY. (a) There is established a railroad employees labor relations agency which consists of three members appointed by the governor. One member shall be a member of the labor relations agency (AS 23.40). Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS 23.40.090 -- 23.40.190 to carry out the provisions of the article.

(c) Members of the railroad employees labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. _____. STRIKES. (a) Employees of the corporation

may engage in a strike if a majority of the employees in a collective bargaining unit vote by secret ballot to do so.

(b) Notwithstanding the provisions of subsection (a), the employees and the corporation may agree in writing to submit a dispute arising from interpretation or application of a collective bargaining agreement to arbitration.

IN THE HOUSE

HOUSE BILL NO. 512

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) The Alaska Railroad is an essential part of the state transportation network that without state action will cease to be a transportation option available within Alaska. The federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence. It is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government.

(2) There is vast potential in Alaska's natural resource areas and that extension of the Alaska Railroad into natural resource areas is necessary for the achievement of the goals of lower freight cost and long-term economic growth.

(b) It is the purpose of this Act to create an entity and to provide that entity with the powers and duties necessary to operate and manage the Alaska Railroad as a viable independent entity pending the eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

(c) The legislature declares that

(1) the exercise of the powers of the state in the interest of the people of the state is necessary to accomplish the policy set out in (a) of this section by authorizing the creation of a public corporation with the powers, duties, and functions as provided in this Act to operate the Alaska Railroad and to manage its rail, industrial, port and other properties;

(2) it is in the best interests of the people of the state for the public corporation that will operate and manage the Alaska Railroad to be created in such a way that

(A) the corporation will be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) the corporation, and not the state, will constitute a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission;

(C) the corporation will have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) the corporation may carry out its responsibilities on a self-sustaining basis;

(E) the best possible combination of types and levels of safe, efficient, and economical transportation can be provided that is necessary to meet the overall needs of the state, supported when necessary by state investment;

(F) the railroad may be operated prudently and according to sound business management practices; and

(G) borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation for the purposes of art. III, sec. 22, Constitution of the State of Alaska. The corporation shall be considered a principal department only for the purposes of art. III, sec. 26, Constitution of the State of Alaska. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of five voting members appointed by the governor. These five members must be residents of and registered voters in the state except as provided in (b) of this section. No more than two of these members may be from any one of the four judicial districts in the state. Two of the voting members must have at least five years experience as owners or managers of a business in the state. A voting member may not be a state officer or employee.

(b) One person who is not a resident of or registered voter in the state may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(c) In addition to the voting members, the following nonvoting members shall serve on the board:

(1) an employee of the corporation appointed by the governor to represent the employees;

(2) the chief executive officer of the corporation.

(d) The voting members of the board shall be confirmed by a

majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(e) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(f) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(g) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

(h) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) conviction of a felony; or

(4) conviction of a misdemeanor involving moral turpitude.

Sec. 42.40.030. TERM OF OFFICE. The appointed members of the board serve for staggered terms of five years each.

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed. Nomore than 2 terms.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the

board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $200 for each day the member is engaged in the actual performance of duties as a member of the board.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM AND NOTICE OF MEETINGS. Three voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. The board shall provide by rule for the manner of voting and representation of persons absent from meetings. The rules may provide for voting and conferring by means of telecommunication devices or by mail or for voting as directed in a written proxy taking a position on a particular issue.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint and fix compensation for the chief executive officer of the corporation. The chief executive officer serves at the pleasure of the board.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of

the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 60 days of its establishment, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(c) General or particular board authorization or concurrence is required for the following:

(1) transferring the corporation's entire interest in real property;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging authority assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantee;

(6) adopting a long-range expansion and capital improvement plan;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) expanding or reducing services in a major way as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

Bd counsel

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public ~~with the exception of~~ except that the board may conduct an executive session ~~conducted~~ for the purposes listed under AS 44.62.310 and (b) of this section.

(b) In addition to those subjects that may be discussed in executive session ~~under AS 44.62.310,~~ the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information associated with specific shippers, divisions, and contract rate agreements.

Sec 42.40.220. MINUTES OF MEETINGS. The board shall keep minutes of each meeting.

Sec. 42.40.230. RULES. The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. The rules shall include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section, information in the possession of the corporation is public and is open

to public inspection at reasonable times.

(b) Except as provided in AS 42.40.270, the corporation may by rule designate and withhold disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission, and information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.250. SPECIAL REPORT. The corporation shall investigate and prepare a report for the governor and the legislature on the long-term operations of the railroad that are in the best interest of the state. The report shall be due January 1, 1988. It shall make specific recommendations on operational alternatives and the transfer of all or part of the railroads operations to the private sector.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of

- Corp. sets policy for R&R
- Directors are held accountable

other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax,

financing, or financial arrangement the corporation considers appropriate for expansion or extension and operation of the Alaska Railroad;

(13) maintain offices and facilities at places it designates;

(14) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(15) prescribe rates to be charged for services provided by the Alaska Railroad on a competitive basis;

(16) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(17) enter into contracts and leases with connecting carriers and shippers, that contain provisions to preserve and expand the railroad's traffic base;

(18) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(19) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(20) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

→ Estate Collective Bargaining *

(21) assume and satisfy liabilities of the United States or its agencies as provided by the federal transfer legislation and the closing report or its substantive equivalent as accepted by the legislature;

(22) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(23) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(24) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(27) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(28) cancel bonds purchased under (21) of this section.

Sec. 42.40.310. LONG-RANGE EXPANSION AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range expansion plan and a capital improvement plan. The long-

range expansion plan shall delineate the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted.

(b) The board shall annually review and update the plans required under (a) of this section. The board may not contract for the preparation or revision of either the long-range expansion plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the corporation may

(1) defend and indemnify a current or former employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf

NOT Assets

of the corporation and within the scope of official duties or powers; and

(2) purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense, settlement or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. As to all land that is transferred or acquired

(1) railroad rights-of-way or easements transferred under the federal act or otherwise acquired shall be classified as railroad utility corridors;

(2) future railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of other width as designated by the corporation, and may be surveyed by the metes and bounds method; and

(3) the corporation may lease or rent portions of the utility corridor for other transportation services.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board by rule may identify and request conveyance of land owned by or subject to selection by the

state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, future or intended railroad purposes. The request must include a statement of and justification for the present, future or intended railroad use. Upon submission of a request for classification and conveyance to the commissioner of natural resources, the commissioner shall temporarily classify and reserve the land identified in the request for railroad purposes and shall temporarily vacate a classification allowing disposal or lease of that land under laws or programs of the state. A temporary classification and vacation is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall;

(1) classify that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to classify the land for railroad purposes.

(c) A conveyance under (b)(1) of this section vests in the corporation the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials on the lands conveyed without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) The corporation's ownership of state land entitles it to

exclusive use and control of the surface, subsurface, complete subjacent and lateral support of the surface, subsurface, and the right to tunnel, ditch, recontour, excavate or otherwise use the subsurface for railroad transportation, transmission, and related purposes.

(f) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for lawful purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the state's lawful purposes in condemning property.

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law

that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq (the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

ARTICLE 6. FINANCIAL PROVISIONS. Look at this

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In a claim or other legal action against the corporation involving its activities, including the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, the party or parties that maintained the action shall be liable to the corporation for its full costs and legal fees in defending the action and for the financial losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers as provided in AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

Subject to Fiscal Procedures

Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of AS 42.40.300 and 42.40.310.

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by

resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner,

on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes enter into the following agreements with the holders of the bonds or bond anticipation notes:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed

or mutilated bonds or notes;

(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds

or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

(17) appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

(18) limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) make covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

Sec. 42.40.580. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose

signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation

required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.650. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted

in the resolution authorizing the issuance of the refunding bonds or in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. (a) The real and

personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 7. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

(b) The collective bargaining agreements between the corporation and its employees shall remain in effect until they expire by their

terms or, as required under 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982), they are renegotiated, subject to the approval of the board.

(c) The corporation may not enter into a collective bargaining agreement concerning wages, hours, working conditions or other employment terms, conditions and benefits with an organization representing the corporation's chief executive official or executive officials appointed by the chief executive official.

Sec. 42.40.710. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may ~~not~~ communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

ARTICLE 8. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the deed of conveyance for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. CONFLICTING LAWS INAPPLICABLE. If provisions of this Act are in conflict with the provisions of other law, the provisions of this Act prevail. Where possible, provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 4. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD

CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the governor shall designate the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) one shall serve a term of three years;

(3) one shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 5. EFFECTIVE DATE. This Act takes effect immediately in accordance with AS 01.10.070(c).

RE: The Experiences of the Alaska Renewable Resources Corporation
(Or the Rise and Fall of ARC)

Dean F. Olson, Adjunct Associate Professor, School of Business & Public Affairs, University of Alaska-Anchorage, a former trustee of the Alaska Renewable Resources Corporation, has written an excellent analysis of the Alaska Renewable Resources Corporation which was created by the legislature in 1978. After numerous legislative changes, the now-named Alaska Resources Corporation will be dissolved on July 1, 1989 if HB 685 introduced by the Sheffield administration becomes law.

Dean Olson has described what happened to an organization created with interest and enthusiasm to broaden economic opportunities in renewable resources. He makes specific recommendations as to why it is important to create political independence for a public corporate structure and yet retain certain legislative and executive prerogatives. His analysis can be of value while considering various proposed structures currently before the legislature.

Enclosure

Venture Capital for Development:

The Experiences of the

Alaska Renewable Resources Corporation

January 1984
Dean F. Olson
Adjunct Associate Professor
School of Business &
Public Affairs
University of Alaska-Anchorage
(Former Trustee - The Alaska
Renewable Resource Corporation

I. Introduction

This paper describes the experiences of the Alaska Renewable Resources Corporation (ARRC) during the period from 1979 to 1982. The paper begins with a brief description of the founding legislation and the policy making environment which existed at the time the ARRC was established. The paper then traces the operating experiences of the agency over the three years period ending in June 1982. Finally, certain conclusions are drawn from the ARRC experience in the hope that other governments contemplating similar organizations can avoid making the same public policy errors.

The use of federal funds to broaden and strengthen the private sector through equity investment into privately owned businesses has been accepted public policy for nearly thirty years. Since the mid 1950's federal programs have supported privately owned venture investment firms known as Small Business Investment Corporations (SBIC's) and Minority Small Business Investment Corporations (MESBICS). In the 1960's a number of Community Development Organization (CDC's) were established to further assist the business development efforts of selected target groups.

State support of equity investment into private business is a more recent development. Since the early 1970's State support for venture investment into private enterprises has lead to the initiation of development institutions in Massachussetts, Connecticut, Maine and Kentucky. While these organizations differ considerably they share the broad goal of enhancing private business development through the placement of various types of risk capital.

In Alaska, the State Legislature established (in 1978) and funded (in 1979) the Alaska Renewable Resources Corporation. The Alaska Renewable Resources Corporation (ARRC) was to be funded in yearly intervals at 2.5% of the State's oil and gas royalty receipts. ARRC's goal in general terms was to create a broadened economy based more upon renewable resource businesses. The ARRC was to accomplish this goal through venture capital placement into private businesses owned in the majority by Alaskan residents.

Managed initially by a board of three full time trustees appointed by the Governor, the ARRC could make equity investments for up to 49% of an investee's outstanding common stock and could make loans on any terms which accommodated the needs of the new or expanding business. Any single investment was limited to $1.5 million unless 'follow-up' investment was regarded as necessary to preserve the initial placement.

In 1982, after three years of operation, discontent with the ARRC resulted in legislation which made significant changes in the scope of the agency's investment policies; the size of investments it could make, and how the agency was funded and organized. Further legislation is being planned in 1984 to terminate the agency.

II. Founding Legislation and Public Policy Issues

By any objective measure the legislation establishing the ARRC was creative public policy. Prompted by the realization that oil and gas royalty income to the State would begin 'playing out' in the early 1990's, certain legislators and Alaska's Governor (Jay Hammond) promoted the

creation of several institutions. The Alaska Industrial Development Authority (AIDA) was created to 'package' small business loans into larger tax exempt bond issues for public sale. The Alaska Commercial Fish and Agricultural Bank (CFAB) was created as a cooperative lending institution to make loans to farmers, fishermen, fish processors and timber producers. The Alaska Permanent Fund (APF) was created to serve as a savings account into which a proportion of royalty receipts was to be placed as a hedge against the future downturn in revenues. Additional institutions were created to enhance hydroelectric power generation (the Alaska Power Authority) and to support the residential construction market (the Alaska Housing Finance Corporation).

The ARRC was intended to 'balance out' the above rainbow of development institutions by providing a source of equity financing to new and expanding businesses engaged in the production of renewable resources (Fishing and fish processing, Agriculture, Forest products, and Alternative energy). The agency was empowered to own up to 49% of the outstanding common stock of target enterprises. Further, the ARRC could make loans at any interest rate for a term of less than 30 years. The ARRC also had granting powers which it could employ to stimulate inquiry into new technology which might enhance renewable resources. Finally, the ARRC could provide technical assistance funds for business development. Totals loans and investment into a single business was limited to $1.5 million.

The initial legislation provided that the ARRC was to receive 2.5% of State lease bonuses, rentals and royalty income. In practice, the agency

approached the legislature each year for operating and investment capital budgets. Over the three year period ending in June, 1982, the ARRC received below 1% of State receipts.

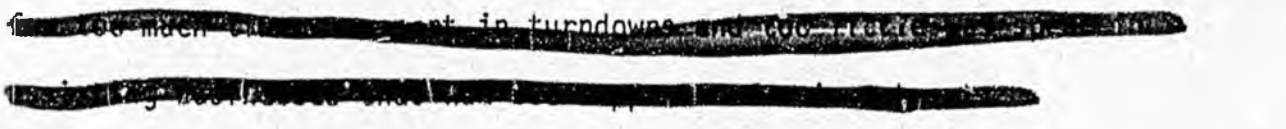
The ARRC was governed by a full time board of three trustee appointed by the Governor for four year terms. The trustees (and all other ARRC employees) were employees of the State of Alaska. There were no professional qualifications for trustees provided for in the legislation. The three trustees were to have equal authority and responsibility for agency decisions.

The ARRC was designed to work in concert with private businesses to:

> (1) rehabilitate, enhance and develop renewable resources by providing maximum opportunities for employment and a higher standard of living for its citizens; and
>
> (2) further the development of renewable resources that would contribute to a stable self sustaining state economy, employment and life style alternations for citizens (AS 37.12.010).

The legislature agreed, when passing the ARRC legislation, that achievement of the above public policy objectives was being retarded by a cyclical, narrowly based economy. The ARRC was directed to remove barriers to achieving a broadened economy by assisting in research and development and by providing venture capital to renewable resource businesses owned by Alaskan citizens.

The enabling legi lation permitted considerable financing flexibility by the ARRC. No income or minimum yield requirements were placed upon the



agency. Grants could not exceed 10% of ARRC capital, but this was never a serious constraint. Because operating funds were appropriated each year, the agency did not have to live within budgets bounded by its investment income.

In sum, the ARRC was created as a part of an array, a 'rainbow', of institutions designed to increase economic opportunities for Alaskans. The ARRC's role was to provide high risk capital to start-up and expanding businesses in renewable resource industries. An agency of State government, the ARRC was managed by a tripartite board of trustees of equal authority and was given substantial flexibility in the selection of alternative investment structure to employ in placing its investments.

III. Operating Experiences 1979-82

The ARRC attracted immediate interest from Alaskans with business ideas. Within six months from its beginning the agency had received several hundred proposals. Many proposals were not well developed, while others were complete business plans. Over the three year period the ARRC received an average of 400 proposals per year.

The ARRC loaned or made investments into about 3% of the proposals reviewed. An immense amount of staff energy was devoted to screening proposals and investigating business plans nearing completion. In retrospect

Due to its political origins and the widespread perception that the ARRC was a "State loan program" (a source of soft money) it was difficult to make turndowns stick. Applicants whose proposals had been turned down would often protest to legislators and succeed in getting their proposal reviewed a second time. While their tactic did not result in an investment it did consume and inordinate amount of energy. Turndowns were particularly difficult to enforce when the proposing business was a major factor in the economy of a small Alaskan community. In these instances local and State politicians would join forces in seeking a favorable review.

By early 1980 the ARRC had acquired the reputation for being slow to reach decisions and for being harsh in its evaluation of proposals. Legislators assailed the agency for 'not getting the money on the street' fast enough. Review of business plans did require three to four months. Investigation and 'due diligence' on the plan and the background of management personnel often requires this length of time; a fact little appreciated by most applicants and legislators accustomed to dealing with collateral lenders.

In May 1980, one year from the operational beginnings of the ARRC, the legislature directed the agency to help seafood processors prepare for a salmon harvest of historically large proportions. Prompted by concerns that domestic processing capacity would fall short of the harvest the legislature appropriated $15 million for the ARRC and directed the agency to suspend normal business planning and investment criterion, as well as the $1.5 million investment limit, and move to aid the industry in its

attempts to finance the expansion necessary to process the 1980 salmon harvest.

In addition, in May 1980, the legislature directed ARRC to move to assist timber processors in Southeast Alaska build wood-fired electrical generation plants so as to conform to EPA pollution standards. Again, the emergency legislation suspended the ARRC's normal screening criteria and the $1.5 million investment limit. Some $5.2 million was allocated to this special purpose.

The effect of the emergency legislation for fish and timber processors was to redirect the ARRC's strategic focus away from new business development and toward the 'fast tract' restructuring and refinancing of existing businesses. The table below shows the magnitude of this type of activity in relation to the total portfolio on June 30, 1981 and 1982. Refinancing activity accounted for about three quarters of the portfolio in each year and about one quarter of the number of transactions.

Table I

Alaska Renewable Resources Corporation

Portfolio by Type

of Transaction

June 30

($'000)

	$		#	
	1981	1982	1981	1982
Refinancing	$17,212	$21,448	6	7
Expansions	1,425	1,711	5	6
Start-ups	3,699	4,762	9	11
R & D and Demonstration	1,088	646	7	5
Totals	$23,424	$28,567	27	29

The strategic redirection of the ARRC, from business developer to business savior, is in retrospect the single most important factor in understanding the agency's short and confusing history. The emergency redirection of effort served to cloud the strategic role intended for the ARRC. The ARRC never recovered from the confusion.

Another element of importance in understanding the ARRC's experience is the organizational structure created in the initial legislation. The tripartite board of full time trustees of equal responsibility and authority produced incredible confusion in the internal operation of the

ARRC and in the external environment of the agency. The concept simply could not be made to work. It is hard to imagine any combination of executive personalities which could function effectively in this context.

The dependency of the ARRC upon annual legislative appropriations for operating and investment budgets produced several operational impediments. First, ARRC personnel could never be sure that the agency could participate in second or third round financings of start-up companies. Follow-up financing of this type is common in more than one-half of all new businesses. The initial venture investor is usually a player in these subsequent 'trips to the well' by the venture. The ARRC could provide no assurance to prospective co-investors that it would be in existence to help with any future financings. Second, the ARRC emerged as a political football each year. Legislative supporters of the ARRC and the public policy issues underlying its creation found it increasingly difficult to convince legislators with disappointed constituents. Furthermore, as more legislators became aware that the ARRC could and did take equity positions in private businesses, philosophical concerns about the basic public policy issues became more pronounced. Philosophical support for the agency was never strong and began to erode fairly quickly with a few well publicized turndowns and an equally well publicized bankruptcy in which the ARRC took control of the enterprise.

The ARRC invested in over 30 businesses over the three year period under review. Table II shows that from its beginning in 1979 to June 30, 1982, the agency placed $23.3 million in loans and $7.2 million in equity

investments. The preponderant role played by the two 'assistance funds' is again quite evident.

Table II

Alaska Renewable Resources Corporation

Total Loans & Equity Investments

Fiscal Year Ending

June 30,

($'000)

Loans	1980	1981	1982	1983
Agriculture	$37.6	$273.9	$790.1	$261.9
Fisheries	2,310.2	5,965.0	7,557.3	4,129.2
Fisheries Assistance Fund[1]	5,023.6	10,748.8	11,129.0	8,398.4

sub-total	$1,025.1	$5,679.1	$7,245.7	$6,640.9
Total	$8,597.5	$23,362.8	$30,550.6	$23,622.0

[1]Special legislation passed in May 1980 directed the agency to provide emergency refinancing to fish processors.

[2]Special legislation passed in May 1980 directed the agency to provide emergencing financing to forest product producers.

[3]Legislation passed in May 1982 permitted the agency to invest in manufacturing and mining.

While the volume of transaction activity grew quickly, the full time staff remained small. The first professional employee was hired in March 1980. By the end of that year four investment officers had been retained. As Table III reveals, operating expenses were relatively low in relation to the volume of funds invested and the volume of proposals reviewed. Operating expenses were about 8% of portfolio volume in 1980 and declined to 3.6% in 1982. Operating costs include expert help retained to review specific proposals as well as all full time staff expenses. Table III also reveals that the technical assistance and granting powers that the agency enjoyed were never a major dimension of the ARRC's activities. Finally, provisions for the 'write down' of loans and investments are depicted. Some 20.9% of the portfolio was reserved for loss in 1982. The actual write down of portfolio assets amounted to 22.7% over the fiscal year ending June 30, 1983.

Operating Expenses	687.5	1,111.0	1,096.7	627.4	3,522.6

Each portfolio company is unique. The investment structure employed by the ARRC in each transaction was tailored to investor requirements. The following descriptive examples of the types of transactions the ARRC completed illustrate the diversity of the investment structures employed by the agency.

Portfolio Company A A major fish processing company operating in several fishing communities through out Alaska had grown rapidly since its inception in the mid 1960's.

The company's commercial bankers were requiring a major refinancing which would improve working capital balances and bring better balance to the company's debt to equity ratio. The company was closely held by Alaskan fishermen. The refinancing could not be accomplished within the resources of the existing owners. Financial performance of the company, the condition of the new issues market, and uncertain industry forecasts combined to render a public offering of equity unattractive. The ARRC and another venture capital investor invested a total of $6.5 million. Certain assets were purchased by the investors and leased back to the company under a lease purchase agreement. The ARRC also acquired a minority equity position in the company through a purchase of common stock and a convertible debenture. A stock repurchase formula was negotiated which would enable the company to purchase the ARRC's stock position over several years. The

company later exercised its option to repurchase the property and has begun to purchase ARRC held stock.

Portfolio Company B A large Pacific Coast firm had gone bankrupt and the trustee was liquidating assets, some of which were in Alaska. A group of Alaskan entrepreneurs and the ARRC acquired a fish processing plant from the bankruptcy court with the intention of converting the plant to process 'bottom fish', an underutilized resource. The plant was purchased with a $3.5 million loan and investment by the ARRC. The structure consisted of a $2 million note secured by plant and equipment; a $1 million subordinated convertible note, and a $.5 million purchase of 47% of the new company's outstanding common stock. The ARRC later provided substantial additional funds to finance conversion and provide working capital. The new company went bankrupt in 1982. The ARRC owns the facility.

Portfolio Company C A group of Alaskan entrepreneurs had acquired the west coast license for a patented enzyme for conversion of fish waste into a high protein concentrate. The new company needed funds to build a prototype processing plant in hopes of confirming the feasibility of the enzyme when employed under actual production conditions. The ARRC provided $535,000 in initial financing through a $335,000 subordinated note with deferred payments of interest and principle and a $200,000 purchase of 30% of outstanding common stock in the new company.

Portfolio Company D A group of 30 Eskimo fishermen in western Alaska desired to enter a commercial herring fishery which had begun the year before along the coast near their villages. The fishermen needed materials and technical assistance in building the herring skiffs, purchase of the outboard motors and other gear, and to organize a producers cooperative. The ARRC provided loan funds direct to each fishermen to build his own boat and buy the gear. The ARRC also paid for technical assistance to get the project underway.

Portfolio Company E A successful commercial crab and halibut fisherman needed financial help to convert his vessel to a 'long liner' for the harvest of bottom fish. As a demonstration project, the ARRC financed the conversion costs and, through the purchase of common stock in a newly formed company, provided start-up working capital. The initial investment consisted of $175,000 in a subordinated deferred payment loan and $175,000 in equity.

Portfolio Company F A successful ship repair facility needed funds to expand docking and plant facilities and to purchase a major item of equipment. The owners could not finance the equity portion of expansion costs and bank lending was not suitable for the young firm in terms of interest rates or repayment schedule. The ARRC provided $350,000 in subordinated deferred payment debt and $150,000 in equity in exchange for 22% of outstanding common stock.

The common elements in each of these examples is the assumption of high risk by the ARRC and other investors. Conventional lending sources

were either not available or inappropriate for the situation. The equity capital requirements were well beyond the capacity of the existing owners. Consequently, the ARRC's investment structure employed a combination of loan and equity capital. Restructuring of the investment a year or two later was required in many cases.

In May 1982, in response to encouragement from the Board of Trustees and testimony from others, legislation was passed which dramatically changed the ARRC. The tripartite board was replace by a part time board of five persons. The maximum investment per transaction was reduced to $500,000. Manufacturing and mining were included among eligible industries.

Importantly, the newly named agency 'the Alaska Resources Corporation' (ARC), was endowed with the portfolio then in existence and about $12 million in uncommited investment capital it held at that point in time. This reduced the political sensitive of the agency but did not remove it from political supervision in that the Governor retained appointive powers.

Since May 1982, the ARC has been essentially inactive as regards new investments. The present governor is reportedly drafting legislation which would terminate the agency in 1984, thus bringing to a close a noble attempt to implement creative public policy.

IV. Conclusions from the ARRC Experience

Certain conclusions can be drawn from the three year period the ARRC existed. While the Alaskan experience need not be a forecast of outcomes

from similar programs to harness venture capital to public policy, the ARRC experience does suggest that any such attempt be attentive to the following factors.

(1) Discussion of proposed legislation establishing a State financed venture capital investment organization should be open and well publicized. Many Alaskan legislators and the public in general had a very poor understanding of venture (equity) investment and little appreciation of the public policy issues raised by government ownership of private companies;

(2) Do not depart from fully tested organizational structures in use by successful businesses. Full-time boards are not an effective organization for this purpose.

(3) Establish the organization with a definitive endowment of paid in capital. Earnings should be retained by the organization.

(4) Require the organization to attain self-supporting operations within a specified period of years; provide for the organization to issue its own securities without the guarantee of the State.

(5) Establish a certain minimum experiential and professional qualification for appointments to the board of directors.

(6) Provide for separation of employees from State employment. Permit salary and compensation structures analagous to those in private industry; and,

(7) Provide clear strategic focus to the organization in the enabling legislation.

These conclusions underscore the importance of providing for the political independence of the organization except for the ultimate power of the legislature to terminate and the power of the executive to appoint. The Alaskan experience suggests that measures which fall short of providing for such independence are too prone to political abuse to become effective agents of economic change.

RR plan receives support

By TOM KIZZIA
Daily News reporter

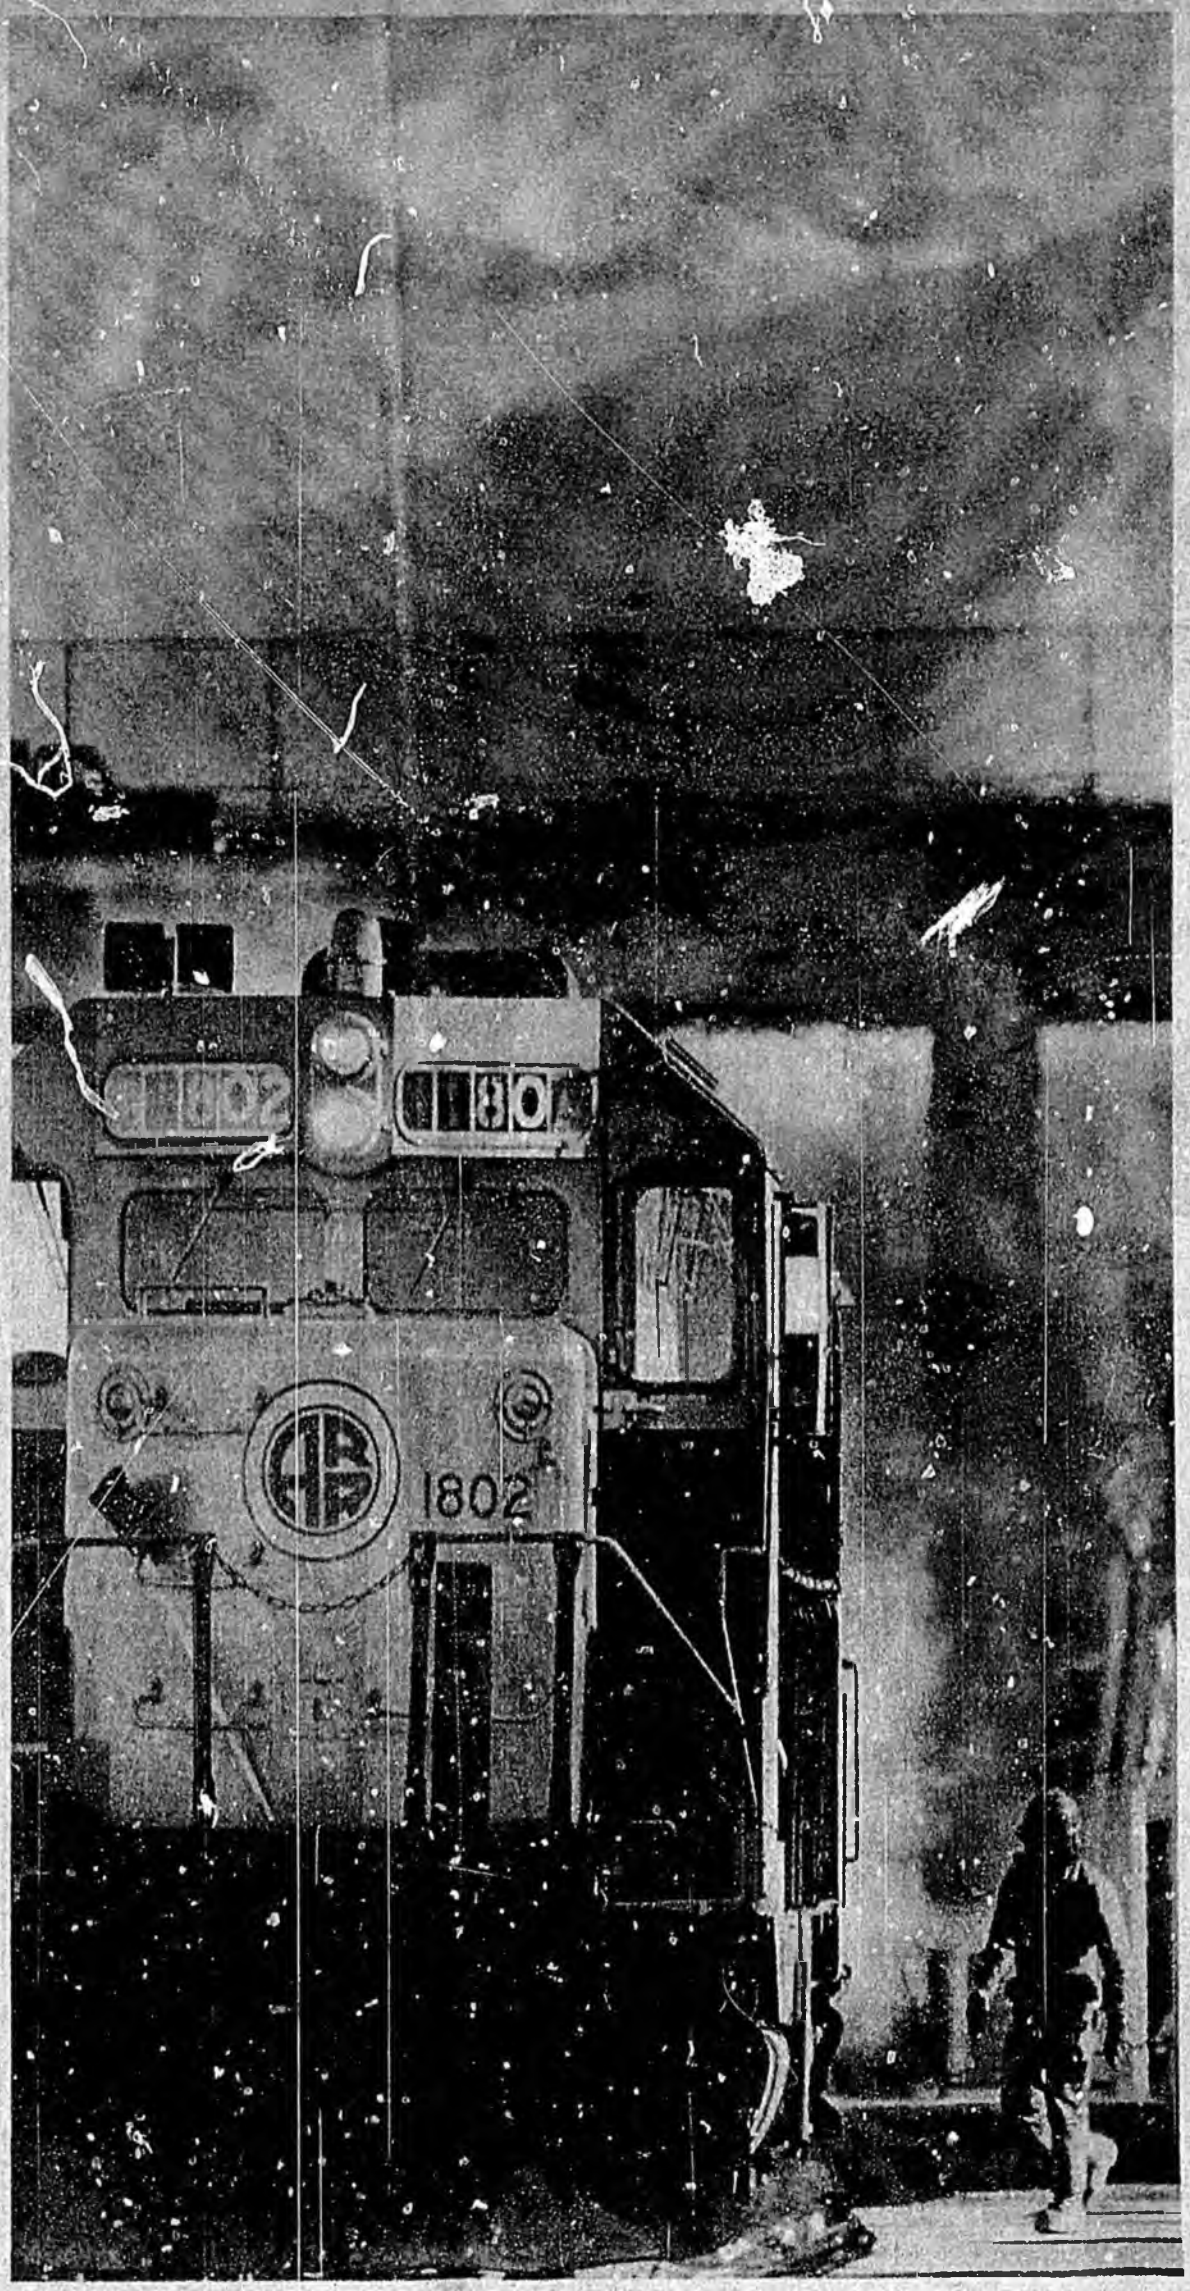
A new survey of Wasilla and Palmer commuters shows that most would consider taking the train to Anchorage each day — provided there is reasonably frequent service and buses to carry them to work from the Alaska Railroad station downtown.

The survey was taken for a task force of municipal, state and railroad officials now looking into creation of a test commuter train. The task force is expected to make recommendations in the next few weeks based on the new marketing survey.

Planning for a commuter train to the Matanuska-Susitna Valley ground to a halt in 1979 after a consultant's study concluded traffic wouldn't justify the cost of additional rail investment. The 1979 study recommended increased bus service.

But unexpected population growth in the valley and increasing congestion on the Glenn Highway have encouraged officials to take another look at rail.

"We're really asking the question, whither the Glenn Highway corridor?" said Tom Brigham, transit director for the municipality of Anchorage. "The rail costs may be high, but they're not prohibitive compared to what they sink into roads."



Brigham said rail service to downtown Anchorage could strengthen the downtown area and help reduce automobile congestion citywide.

The commuter rail possibility was revived last summer in a meeting between Mayor Tony Knowles, Alaska Railroad general manager Frank Jones and U.S. Secretary of Transportation Elizabeth Dole, Brigham said.

The study group includes representatives of the Matanuska-Susitna Borough, the state Department of Transportation and Public Facilities, the municipality and the railroad.

A key question before the task force is whether a

See Page B-2, RAILROAD

Anchorage Daily News/Jim Lavrakas

Alaska Railroad may make commuter runs to the Mat-Su Valley in the future.

Railroad plan gains support

Continued from Page B-1

single commuter test train would draw enough ridership to prove that more extensive service could be cost-effective.

"We don't want to try it and fall flat," said Bill Coghill, director of planning for the Alaska Railroad. "If that happens then the whole idea is gone for three or four years."

The new marketing survey, completed in January by Transcom Inc. of Seattle, found that 85 percent of the 200 commuters interviewed said they would consider taking the train in winter.

But they rated downtown distribution and flexibility of schedule as very important — and officials say these may be hard to satisfy, especially in a test.

"There isn't going to be a train coming along every 10 or 15 minutes," said Coghill.

"We support the concept, but the borough is not pushing to do it until it can be done right," said Matanuska-Susitna Borough planning director Robert Stickles.

Rated only slightly less important in the survey were ticket cost and travel time.

Officials said the train trip from a possible park-and-ride station at the Glenn and Parks Highway junction would be about one hour, roughly comparable with driving time. Investments of some $25 million to straighten track between Eagle River and Anchorage could cut 15 minutes off the journey, they said.

Respondents to the survey said they would be willing to pay $5 to $6 for a round trip ticket. Officials said operating costs for the trip would be about twice as much per seat.

Capital costs would push the overal subsidy higher, particularly if commuter service is run in summer, when all existing passenger cars are in use by the railroad.

"The subsidy is going to have to come from the state Department of Transportation," Stickles said.

Detailed cost studies of commuter service have not yet been done, the officials stressed.

The state does not have money in next year's budget to subsidize a test of commuter service, said Roger Maggard, who represents the Department of Transportation and Public Facilities on the committee.

Brigham said the availability of federal funds, which tends to favor highway projects, could affect the long-range decision regarding the Glenn Highway corridor.

Anchorage
CHAMBER of COMMERCE

Crossroads of | the Air World

Representative Bette Cato
State Capitol
Pouch V
Juneau, Alaska 99811

Dear Representative Cato,

For several years the Anchorage Chamber of Commerce has been closely following the transfer and operation issue of the Alaska Railroad. The Anchorage Chamber has expressed its support of a strong independent railroad which operates as a business entity.

We feel our objectives, and the citizens of the state, are best achieved through passage of HB 512. The major elements in this legislation which we support are as follows:

1. Specific reference under the legislative purpose of the eventual transfer of the railroad to the private sector.

2. The independent status of the Corporation as an entity of the State.

3. The strength of the Corporation Board of Directors identified by its powers and duties.

4. The establishment of the Executive Officers of the railroad to manage the day-to-day activities of the railroad.

5. We strongly support the Railroad Corporation right to hold and manage its lands including the right of eminent domain, and the right to request additional lands for railroad purposes.

6. We support the inclusion of the strong bonding authority of the Alaska Railroad Corporation.

7. We support the railroad generated revenues staying within the Corporation for future railroad purposes.

8. And finally, we support the Alaska Railroad employees being employees of the Corporation.

We would like to propose one addition to Article 4, Section 42.40.300 General Powers. We recommend that the Corporation be permitted to lease a portion or all of the operation of the railroad to a private entity. We feel this addition should be granted to the Corporation as an option to their management prerogatives and is within the overall intent of the proposed legislation.

We recommend your support of this legislation.

Sincerely,

Al Fleetwood, President
Anchorage Chamber of Commerce

February 24, 1984

Representative Bette M. Cato
Pouch V
Juneau, Alaska 99811

Dear Representative Cato:

The Alaska Railroad is an important asset to the state and vital to the economy of Fairbanks. For this reason, the Greater Fairbanks Chamber of Commerce and particularly its Transportation Committee has devoted a great deal of attention to the details of the pending acquisition and proposed plans for operation. This has been reflected in our annual Interior Transportation Needs Report published for the past three years and substantial input provided at various public and private meetings.

We have carefully reviewed legislation pending for railroad management and operation. It is apparent that the authors of HB 512 and SB 352 wished to establish a state owned entity to manage the railroad that was as close to a private sector entity as possible given the transfer constraints. We highly support this philosophy and offer the following comments and suggestions to further strengthen this concept.

* We noted that the preamble of HB 512 and SB 352 contains the basic intent and powers of the legislation, but the intent and powers are not repeated in the body of proposed AS 42, Chapter 40. Would it not strengthen this intent by setting it in State Statute also?

* SB 352 and HB 512 offer the most attractive organization to operate the railroad within the state government. We believe it is preferable to have the railroad as an operating entity separate from the Department of Transportation and Public Facilities (DOTPF) or any other state department provided that DOTPF is substantially involved in railroad expansion efforts.

* All legislation is similar in that the governor appoints a board of directors to provide overall railroad direction; however, SB 10 establishes a stronger criteria for membership selection. The composition of the board will determine if the railroad is to be

operated successfully as a prudent state investment. For this reason, we believe it important to consider that the appointed board members will have a vastly different responsibility than most other state boards, commissions and advisory groups.

The board of directors for the railroad will direct a megacorporation which will be dependent upon the expertise of the directors for profit and growth. The talents and expertise of the board members will be utilized for profit and their obligations are similar to those of directors of corporations in the private sector. For these reasons, we believe their selection and remuneration should be similar. While SB 10 provides better criteria for board membership selection, neither bill addresses the question of remuneration adequately. We suggest that perhaps renumeration should be similar to that of a legislator. This could ensure the incentive necessary for full commitment by the board members.

* Neither bill ensures that Interior Alaska (or any other area) is represented on the board. This is of utmost importance to the position of the Chamber of Commerce. We are not prepared to endorse any legislation unless we are assured that Interior Alaska has proper representation on the board of directors.

* It is our interpretation that HB 512 (SB 352), as they are now written, would not allow railroad expansion into other modes of transportation other than contractual arrangements. We concur with this wording as long as the railroad remains in controlling state owneship.

* The most significant difference between SB 10 and HB 512 (SB 352) lies in state overview of railroad operations. This is an extremely sensitive issue. SB 10 provides a close overview by the administration and the legislature; while HB 512 reflects almost no overview. This lack of overview extends to other state assets made available to the railroad. It appears that the authors of SB 512 tried to incorporate mechanisms to insure prompt and economically sensitive attention from other state agencies based upon frustrations experienced in the past when dealing with these agencies. While we are sympathetic to these frustrations, we do not believe it wise to attempt to cure ills of other state agencies through the "Department of Railroads." They should be addressed in a more direct manner. In our opinion departments within the state should not have their primary responsibility compromised by overriding authority from another department.

State land and funds used for railroad operation demand some overview, yet the railroad should not be subject to constant review and approval by the administration and/or legislature. We offer the following suggestions to deal with this sensitive issue:

1. A distinction be made between railroad operation and railroad expansion. Railroad operation would be defined as operating the railroad as received from the federal government, the initial operating budget as set by the legislature and future subsidies as requested by the governor and/or provided by the legislature. The board of directors would have complete authority over railroad operation. Subsequent subsidies would have automatic state overview since they would be at the discretion of the legislature. Land ownership, as received from the federal government, should be transferred to the railroad corporation in fee simple (both surface and subsurface rights). Bonding for the railroad operation (new equipment, upgrading track, etc.) would be limited to railroad revenue bonds and would not obligate any other state asset. Since these bonds would reflect only the railroad's financial strength, the board of directors should have complete authority to obtain such bonding.

2. Expansion or certain railroad services (such as passenger service) may be desirable for reasons other than profit motive, and the state may wish to provide services or extensions to guide and promote the state's development. State land, funding and/or bonding based upon other state assets will be necessary. A board with a profit mandate would be reluctant to embrace these measures if they would adversely affect the profitability of the railroad, and the state government should share in this responsibility and authority. Therefore, it is suggested that action requiring state assets (land, funding or bonding) receive close overview. State land used for railroad purposes should be surface rights only (excluding gravel and possibly coal extraction). Future rights-of-way should be by permit within a state-owned transportation corridor established for all modes and utilities.

The above described concept provides for complete board authority and responsibility for current railroad operation and profitability and limits liability to railroad assets. State overview would be assured when assets other than the railroad's were pledged and when expansion or services were deemed in the state's best overall interest even though adversely affecting the railroad's economy.

* Neither bill adequately addresses private ownership. One method which might be considered is that the railroad corporation create stock and schedule its sale to private investors at market value. Such a schedule must reflect the state's best interest and as a minimum include 51 percent ownership for ten years and perhaps longer to meet the federal criteria for continued operation. A sunset requirement for a percentage of state ownership might be

the best vehicle to use. If the legislature did not extend the minimum percent of state ownership at the end of any time increment, then an increased share of ownership would be made available to private investors.

We appreciate the opportunity to provide our thoughts and wish to continue our involvement in developing this legislation.

Sincerely,

Buki Wright
President

CITY OF SEWARD
POSITION PAPER ON STATE ACQUISITION AND MANAGEMENT
OF THE ALASKA RAILROAD

As the community from which Alaska Railroad had its beginning, Seward has been closely tied to the rail for its lifeblood, for all of it's 80 year history. The acquisition and management of the railroad by the State of Alaska is of vital concern to the citizens of this community.

The present Alaska Railroad operation, despite some physical plant problems, is basically a sound operation. Clearly there is a need for plant improvements and it needs the ability to extend rail to the resource rich areas of our state. Any new proposal for management must seek to maintain those parts of the railroad that are operating effectively, and to cure, when possible, the liabilities of the present system. The City of Seward is concerned that without this analysis, the railroad could become less of a rail service. We should improve its physical plant, allow it to function under professional management. If this becomes the case, the City of Seward would fully support the railroad transfer even if a price has to be paid. We would not, however, support such a transfer if the rail system is not improved, and acquiring the Railroad requires a cash outlay by the State.

MANAGEMENT:

As an integral part of the State's long term economic development policy, the Alaska Railroad must be managed in such a way as to minimize the influences of political cycles resulting from our election process. It must be operated with the fiscal strength necessary to overcome the short term changes in government, inflation rates, commodity prices and operating cost.

It is our desire that any Authority created to manage the Alaska Railroad be as professional, efficient and aggressive as possible. We feel that the Authority should operate as similar as possible to private enterprise and if possible, should have the option of contracting for the operation of the railroad with a private company.

To achieve these goals, the Railroad Authority should not be a Department of the State government, but a separate entity. The Board should represent professionals in the business and service areas allied to railroad operations. The Board should be appointed by the governor, and serve terms of six years. The board members should delegate a significant percentage of the management of the railroad to the railroad's chief executive. The chief executive must be the best person available and possess railroad operating experience, and be compensated accordingly.

The Railroad Authority should have the ability to bond or otherwise obtain funds for upgrading and expansion. The railroad will initially require an investment underwritten by the State.

It is important that the revenues generated by the Alaska Railroad do not become part of the General Fund of the State of Alaska, but be put back into the Railroad's General Fund for operation of the railroad. Equally important is the need for all of the assets, including land to be in the control of the Railroad Authority, not under the Department of Natural Resources. As part of the

transfer agreement, the Federal Government must allow the State clear title to all Alaska Railroad lands. The Alaska Railroad Authority should also possess the right of eminent domain.

DEVELOPMENT OF ALASKA RESOURCES:

Because of Alaska's size of land area, small population centers, and frontier transportation infrastructure, Alaskans are particularly dependent upon the Alaska Railroad for the growth and development of interior resources.

The City of Seward feels the railroad should be expanded and utilized as the primary tool in developing the resources within the State of Alaska. Careful expansion of the railroad will improve the overall business climate in Alaska. We feel it is a legitimate use of State funds for for the State to use its railroad to assist in opening up the undeveloped areas of the state.

PORTS:

Most Alaskan ports are operated by local governments. Recognizing that, it is probable that with transfer of the railroad and its associated ports, the State will find itself competing with local ports. Every effort should be made, if possible to transfer railroad port operations to willing local governments.

IN SUMMARY, we stress that:

The Alaska Railroad be used to promote development and that the transfer and enabling legislation promote that philosophy.

In conjunction with railroad expansion, the impact of a long lead time necessary for railroad extension be recognized and shortened where possible.

Any State acquisition of the railroad be predicated upon the State's commitment to provide funding to upgrade the capital and rolling stock facilities of the existing system.

If the State acquires the Alaska Railroad, it should explore the option of contracting the railroad's operation to a qualified private contractor rather than running it as a State enterprise.

If a State Constitution change is necessary to accomplish the creation of an independent authority, we would support legislation to place the issue on the ballot.

CITY OF OPPORTUNITY

February 21, 1984

The Honorable Bette M. Cato
Chairman
House Transportation Committee
State of Alaska
Pouch V
Juneau, Alaska 99811

Dear Representative Cato:

As a follow-up to the public hearing held by the Transportation Committee on Saturday, February 18, 1984 at the Borough Building, Soldotna, Alaska, please enter the following comments concerning House Bill No. 512, "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date".

I, personally, am in favor of the transfer of the Alaska Railroad from the Federal Government to the State of Alaska for 23 million dollars. The plan to establish the Alaska Railroad Corporation to manage and operate the railroad is a good one, and similar plans have been used successfully many times.

The assets of the railroad in the Anchorage area alone far outweigh the purchase price.

Were the State of Alaska to consider continued economic activity and growth in minerals and agriculture, respectively, the acquisition of the railroad becomes a critical and essential first move. The mining and exportation of coal, and the production and transportation of barley may determine the economic health of at least three large regions of Alaska. One has to visualize the movement of gravel from areas of abundance to urban sections to appreciate the ability of a railroad to move freight cheaply and safely.

The acquisition of the railroad presents problems as well as benefits. The problems are not beyond resolution.

Mr. Tatsuya Ishikara, Managing Director, Market Survey, Japan Railway Technical Service Association, Tokyo, gave a fine report on the benefits of a railroad system at the International Conference on Alaska's Resources that was sponsored by the Resource Development Council for Alaska, Inc. and the State of Alaska. The conference was held February 15 -16, 1984.

This is not a burning issue on the west side of the Kenai Peninsula, but one feels that with not too much effort, a great amount of support for the railroad purchase could be located.

Sincerely,

Justin G. Maile

FISCAL NOTE

CSHB 512

BILL SHEFFIELD, GOVERNOR

DEPARTMENT OF TRANSPORTATION AND PUBLIC FACILITIES

POUCH Z
JUNEAU, ALASKA 99811
PHONE: (907) 465-3900

OFFICE OF THE COMMISSIONER
Alaska Railroad Transfer Team

March 23, 1984

The Honorable Bette Cato
Chairman, House Transportation Committee
Alaska State Legislature
Pouch V
Juneau, Alaska 99811

Dear Representative Cato:

Enclosed per your request is a fiscal note on the committee substitute for HB 512, an Act establishing the Alaska Railroad Corporation. Also enclosed is a detailed analysis with supporting documentation to explain its contents.

The estimates in this fiscal note are based on the results of the Alaska Railroad Transfer Team's Alaska Railroad Acquisition Assessment, released in December 1983. Although our "worst case" scenario has been used for these calculations, current indicators regarding uncertainty over potential traffic increases suggest this analysis for FY 85 is a more realistic forecast for determining actual fiscal impact.

Based on a request from the Senate Transportation Committee, the Transfer Team is re-assessing these estimates to develop a "best case" alternative for legislative consideration. This analysis will factor in the full impact of increased revenues from the export coal movement, SeaWay Express' entry into Seward, and additional special trains to meet the summer cruise ships at Whittier. This information will be provided to your committee as soon as it becomes available.

All estimates are presented in constant 1985 dollars and have been inflated from our original 1983 constant dollar estimates using an annual 6% inflation factor. The "general fund" line under the "funding component" is the projected annual shortfall to the State resulting from acquisition of the railroad. In FY 85, an overall appropriation of $15.8 million will be needed to cover the expected shortfall.

The figures in this note are basically the same as those presented to the Senate Transportation Committee for the CS for SB 352. Another $50,000 per year has been added to this note in response to the higher compensation levels for board members in Sec. 42.40.050, and the additional notice requirements in Sec. 42.40.090.

25A-T1LH

The FY 85 estimate is based on an assumption that actual transfer will occur somewhere between November and January of that fiscal year. Accordingly, most of the figures (e.g., revenues) are merely prorated for a seven month fiscal year ending in July 1985.

In addition, there are certain one-time, start-up expenditures directly attributable to the actual railroad transfer which causes the sizeable shortfall during FY 85. Included in this area are such items as $4.9 million for replacement of the railroad's working capital fund, $4.5 million for initiation of compliance with OSHA requirements and state and local building codes, and $2 million for specific transition expenses to be incurred by the new corporation in taking over the railroad.

Another $1.75 million of the 300 level contractual category is for the Alaska Railroad Transfer Team to perform its duties during FY 85. These funds are to support several one-time transition activities, most of which are already underway in this fiscal year. All other FY 85 fiscal impact to state agencies as result of enacting this legislation has also been included in this submittal.

I trust this information helps to explain the highlights of the enclosed fiscal note. If you would like any additional assistance, please do not hesitate to contact me at 465-3900.

Sincerely,

Mark S. Hickey
State Railroad Coordinator

STATE OF ALASKA 1984 LEGISLATIVE SESSION

FISCAL NOTE

Bill/Resolution No.: HB 512
Title: Alaska Railroad Corporation Act of 1984

BILL ANALYSIS

Overview:

This fiscal note is based upon the results of the Alaska Railroad Team's Alaska Railroad Acquisition Assessment, released in December 1983. That document provides a comprehensive analysis of the major issues concerning acquisition of the Alaska Railroad (ARR). It includes a thorough assessment of the financial exposure to the State from ensuring continued rail operations in accordance with the requirements of the Alaska Railroad Transfer Act of 1982 (ARTA).

The estimates presented in this fiscal note are derived from the "worst case" scenario of future railroad activity. Current indicators such as the continued uncertainty over the export coal contracts suggest use of this analysis as the most realistic forecast for determining actual fiscal impact. Please note that the acquisition cost of $22.3 million for railroad purchase has been addressed in a separate fiscal note attached to the acquisition legislation.

While the data and forecasts used in both the Acquisition Assessment and this fiscal note reflect the input and work of the railroad and the United States Railway Association (USRA), the final estimates are based on independent analysis and downward adjustment by the Transfer Team. Our work includes such factors as removal of uncertain revenue increases, increased costs for compliance with state and local building codes, and additional adjustments for necessary capital rehabilitation.

This bill analysis is limited to providing explanations of the fiscal impact resulting from the proposed legislation. It should be noted that there exist policy conflicts between provisions of this legislation and the Sheffield Administration's Policy Statement of January 26, 1984.

Assumptions:

The FY 85 figures are based upon an assumption that actual railroad transfer will occur somewhere between November and January of that fiscal year. As a result, most of the estimates are merely prorated for a partial fiscal year ending in July 1985. However, there are certain one-time, start-up expenditures directly attributable to the actual railroad transfer which cause the sizeable shortfall during what is only a partial fiscal year.

Although a breakout of specific operating expenditures has been provided for FY 85 in order to provide the railroad operating entity a functioning program during its first year of operations, an actual budget structure has not been included to avoid prejudicing the new operating entity's prerogatives to formulate its own budget structure and subsequent submissions. Please note that the FY 85 submittal also contains the request for all funds needed by the Transfer Team and other state agencies to perform the duties resulting from passage of this legislation and acquisition of the railroad.

Although the current legislation places the Alaska Railroad within the Department of Commerce and Economic Development for purposes of the constitution, other sections of this bill anticipate removing it if a proposed constitutional amendment passes next November. Accordingly, this note does not address a specific "agency affected" to avoid a future conflict in this area.

Since the constitutional amendment cannot become effective until November if it passes, this note is predicated on an assumption that all funds for the corporation will be passed through by the respective line agency under which the corporation is located. Funds for all other state agencies will be passed on to the Transfer Team for further processing as appropriate.

Administrative costs incurred by the line agency under which the corporation is located should be minimal and will be covered as part of the corporation's overhead. Please note that all fiscal impact to state agencies resulting from this legislation have been coordinated by the Transfer Team and are reflected in this note.

All estimates are presented in constant 1985 dollars. An annual inflation factor of 6% has been used to convert the original 1983 constant dollar estimates in the Acquisition Assessment.

Operating Expenditures:

This estimate includes both general operating expenses and new expenditures resulting from the railroad transfer (i.e., additional costs due to potential loss of railroad gravel reserves under third-party claims). Included in the former category are costs for maintenance-of-way, maintenance of power and equipment, transportation services, communications, administration and overhead, marketing and real estate management. The latter category includes increased legal and overhead expenses, additional insurance and risk management contributions, fiscal impact to the Transfer Team and other state agencies because of railroad acquisition, and one-time, start-up costs for items such as the printing of new letterhead and the marking of personal property.

Although revenue is projected to increase during FY 87-89, costs during that period are not significantly larger than the first two years of operations due to the sizeable, one-time transfer related expenses immediately following transfer. These estimates are based on historical data provided by current railroad personnel and reflect anticipated operating expenditures needed to comply with the terms of ARTA.

Attachment A provides more details on the FY 85 submittal by object of expenditure. Some $4 million of this estimate is to cover immediate expenditures resulting from actual transfer of the railroad. This includes the following:

(1) $1.750 million for the Alaska Railroad Transfer Team to perform its duties as outlined in Attachment B;

(2) $2 million for specific one-time, start-up costs to be incurred by the new entity for items such as the marking and inventorying of personal property, the printing of new stationery and payment warrants, additional legal costs, and certain corporation expenditures for the new Board of Directors;

(3) $200,000 in funds to conduct a final pre-transfer audit to establish the accuracy of balance sheets and the identification of accounting problem areas; and

(4) $80,000 in additional fiscal impact to the Department of Administration to ensure preservation of railroad archival records and additional labor relations work not budgeted for in the Transfer Team's FY 85 budget memo.

Another component of the FY 85 submittal includes $270,000 in funds in direct response to the following requirements of the legislation:

(1) $200,000 to initiate the Special Report required in Section 9 on the feasibility of attracting private sector involvement in the railroad's operations;

(2) $35,000 to the Department of Natural Resources to respond to any state land request by the corporation under Section 42.40.360; and

(3) $35,000 to fund costs for the new railroad employees labor relations agency as provided in Section 42.40.780.

The remaining estimates in this area reflect the normal operating expenses by category for the part of FY 85 involving state operation of the railroad. These specific estimates have been prepared with the close cooperation of railroad administration and budgeting personnel. All expenditures for per diem and compensation of the Board of Directors have been included in the general estimates for the 100 and 200 categories.

Capital Expenditures:

The capital component of this fiscal note represents a combination of increaed capital costs resulting from transfer and prorated expenditures for ongoing railroad operations. The analysis contained in Chapters 4 and 5 of the Acquisition Assessment serve as the basis for both of these estimates.

In addition, the results from the State's independent engineering condition assessment have been used to project an increased level of expenditure minimally acceptable to begin reversing deterioration of the railroad's physical plant, including the initiation of a systematic plan for replacing aged rolling stock. It is important to understand that engineering condition alone cannot be the basis for a projected level of sustained capital expenditure, but must be tempered by national trade-offs between long-term plant condition and available revenues.

The capital estimate of $15.8 million includes a one-time expenditure of $4.9 million to replace the railroad's working capital fund. ARTA establishes a process where little, if any, money will be transferred from the ARR's Revolving Fund because of pre-transfer federal claims and contingent liabilities that must be paid by the fund. As a result, an amount equal to about one month's worth of operating expenses (which is similar

to working capital requirements for other railroads) is needed to fund and maintain adequate working capital for the railroad after transfer.

Another capital expenditure resulting from railroad transfer is the initiation of compliance with Occupational Safety and Health Act (OSHA) requirements and state and local building codes. Approximately $4.5 million per year has been set aside during the forecasted period to move toward compliance in these areas. Chapter 5.3 of the Acquisition Assessment provides more details regarding this requirement.

The remaining $6.4 million of this estimate covers general railroad capital needs, prorated for the period of state ownership during FY 85. An additional $7.85 million is projected for expenditure by the railroad for this program. Attachment C provides additional information regarding the capital improvement program to be performed during FY 85.

It should also be noted that based on a recent audit review of the ARR's financial statements, about $4 million per year of capital expenditures could just as easily be categorized as operating costs (primarily maintenance-of-way expenditures) if generally accepted accounting principles are applied to the railroad. However, no adjustments have been made with our estimates to avoid creating greater confusion by conflicting with existing railroad procedures prior to a general system overhaul by the corporation upon transfer.

Revenue:

This estimate on a prorated basis represents projected FY 85 revenues from its freight, passenger and real property rental activities. The FY 85 revenue figure is based on a projected commodity mix fairly similar to the last two years of railroad operations. Attachment D contains some additional information from the ARR's 1983 Draft Annual Report regarding FY 82 and FY 83 operations.

These projections are based on information from the railroad and USRA, which were then adjusted downward by the Transfer Team to remove 50% of the net cash from anticipated revenue increases in export coal, interline and pipe traffic. If either of these movements were in fact to materialize in a significant way, it could sizeably reduce the need for general fund assistance during FY 87-89. Likewise, any major downswing from our projections would probably result in the need for even larger general fund assistance during those years.

Funding Source:

The "Other Funds" appearing on the fiscal note are railroad revenues.

Positions:

ARTA basically mandates a two-year period of full protection of current salaries and benefits for all employees who choose to transfer. What happens following that period becomes a matter for contractual negotiation between management and employees.

The figures presented in this part of the fiscal note are the actual number of employees in each category as of March 1, 1984. No estimate can be made of the actual number of those choosing to transfer, although it is anticipated that most employees will do so. In the case of temporary employees, the first number on this line is the actual number today, while the second estimate reflects the average number of temporary hires used in the summer for major maintenance work.

Summary:

The estimates provided in the attached fiscal note are primarily based on the Transfer Team's assessment of the likely fiscal impacts from state acquisition of the Alaska Railroad. It is important to reiterate that the acquisition cost of $22.3 million has been addressed in a separate fiscal note attached to the acquisition legislation.

It is our view that the corporation's overall organization as currently envisioned in the proposed legislation will not have any appreciable impact immediately on the railroad's general financial condition. Beyond the increased cost for modifying the existing administrative and management systems during the first two or three years following state takeover, it is difficult to predict whether the proposed organizational arrangements in this legislation will generate cost efficiencies not enjoyed during federal ownership.

The philosophy in the current legislation is, to the extent possible, to foster a self-sustaining business orientation for railroad operations. This is consistent with the Transfer Team's analysis of the types of steps necessary to achieve a break-even position at some point during the first decade of state operations.

There is no specific mandate in this legislation for new extensions or any more services than those currently in existence. This should allow the railroad adequate time to reorganize and streamline its existing operations. In addition, although several specified planning responsibilities have been added to the railroad's duties, the long-term savings from performing these kinds of systematic assessments should more than compensate for any short-term costs resulting from performance of these efforts.

Attachment E is a ten year summary (FY 73-82) of the railroad financial operations during federal ownership. It should be noted that an additional $66.2 million dollars in congressional appropriations was provided during this period to cover passenger expenses and certain capital needs.

ATTACHMENT A

Operating Budget - FY85

In Thousands (000) of Dollars

This operating budget is prorated for FY 85 except for the impacts to state agencies depicted in the 300 level. All amounts shown are in 1985 dollars. These estimates represent the total prorated FY 85 operating budget for the railroad following state acquisition Projected revenues from the railroad's operations will serve as the main source of funds for these expenditures, with limited assistance from general fund appropriations.

Category	Amount	Explanation
100 Personal Services	$24,350.0	This funding level is based upon current work force of 478 permanent full-time, 38 part-time and 64 temporary positions. Of this amount salary comprises $19,980 and benefits comprise $4,370. Also included in this estimate are the Board of Directors' compensation expenses.
200 Travel	300.0	This funding level is the estimate of travel funding needs, including the Board of Directors' travel expenses.
300 Contractual	4,800.0	This funding level includes coverage of the following areas: continuation of Transfer Team activities for FY 85 - $1,750.0 (see Attachment B); Transfer Financial Audit - $200.0; $200.0 for initiation of the Special Report required in Section 9 of the bill; Department of Administration - $80.0 for archives preservation and labor relations coordination; costs for the labor relations agency under Article 8 of the bill - $35.0; Department of Natural Resources - $35.0 for land designation activities under Article 5 of the bill. The remainder of these funds are for the railroad's general contractual needs resulting from capital improvement, operations and financial planning activities.

400 Supplies	5,200.0	This funding level is required for the day-to-day operations of the railroad, supporting all facets of operations from administration to maintenance of way.
500 Equipment	1,200.0	This item is the complement of the supply item also supporting day-to-day railroad operations.
700 Grants & Claims	1,500.0	This item provides for funds for the railroad's risk management expenses, payment of damage claims, workmen's compensation expenses and other money claims against the railroad. No grants are anticipated.
TOTAL:	37,350.0	

Attachment B
3/14/84

ALASKA RAILROAD TRANSFER PROJECT

FY 85 PROJECT BUDGET

The goal of the Alaska Railroad Transfer Team is to provide an orderly and informed decision-making process for possible transfer of the Alaska Railroad from federal ownership, thus ensuring continuation of essential rail services in Alaska. If a decision is reached to pursue state take-over of the railroad, then it is also the goal of the Alaska Railroad Transfer Team to organize and oversee a systematic transition from federal ownership.

This document discusses the major work components of the FY 85 budget submittal. The need to pursue some of these efforts is entirely contingent on a decision to acquire, while other work efforts are separate from that decision. Attachment A provides the FY 85 budget submittal as introduced by the Governor. Attachment B is the project budget for FY 84 and provides considerable detail regarding several work tasks, many of which are ongoing in 1985.

The following breakdown is structured or a component or agency basis, versus reiterating specific details regarding ongoing work tasks. As a result, some of this explanation should be read in conjunction with Attachment B in order to fully understand all of the scheduled work efforts.

Work Component #1 - Alaska Railroad Transfer Team Staff

As indicated in Attachment A, funding is needed to support four positions in the Office of the Commissioner, Department of Transportation and Public Facilities. These positions are as follows: a State Railroad Coordinator (Special Assistant II); a Planner IV; a Planner III; and a Correspondence Secretary III. These four individuals comprise the Transfer Team Staff with direct responsibility for performance and coordination of all team activities. This group reports directly to the Commissioner of DOT&PF in the performance of their duties. The following breakdown represents expenditures directly related to this area by object of expenditure.

Object of Expenditure	Description	Amount
Personal Services	4 Positions - DOT&PF	$195,100
Travel	4 Positions - DOT&PF	66,000
Contractual	Printing/limited Professsional Services	35,000
Supplies	Miscellaneous	8,000
	Total	$304,100

Work Component #2 - Department of Natural Resources Assistance

An existing Reimbursable Services Agreement with the Department of Natural Resources will be continued during FY 85. Work efforts covered by this assistance include ongoing support activity by the Division of Technical Services for conveyance documents and related title review work. Additional support by DNR will be provided for coordination with the Bureau of Land Management's cadastral survey work and assistance from the Division of Land and Water Management to implement the railroad transfer. The following breakdown by object of expenditure presents the needed funding for these services.

Object of Expenditure	Description	Amount
Personal Services	4 Positions - DNR	$191,900
Travel	4 Positions - DNR	20,000
Contractual	Miscellaneous Professional Services	30,000
Supplies	Miscellaneous	8,100
	Total	$250,000

Work Component #3 - Department of Labor Assistance

Specific assistance is still needed by the Department of Labor to perform an extensive survey of the railroad's physical facilities in relation to federal and state occupational safety and health laws, regulations and standards. Although this was scheduled for performance during FY 84, insufficient funding required postponement of this work effort until FY 85. Scheduled funds during FY 84 for this effort were diverted to cover additional labor relations work by the Department of Administration and the use of an Engineer-in-Training position to assist with the engineering condition assessment. The following breakdown provides an estimate for this activity by object of expenditure.

Object of Expenditure	Description	Amount
Personal Services	2 Full-time - DOL 2 part-time	$142,700
Travel	2 Full-time - DOL	7,300
Training	2 Full-time	5,200
Contractual	Miscellaneous Professional Services	39,800
Supplies	Miscellaneous	6,500
Equipment	Health Sampling Equipment/ Memory Typewriter	12,000
	Total	$213,500

Work Component #4 - Department of Administration Assistance

Activity in the area will consist of continuing work efforts initiated during FY 84 explained under task #6 of Attachment B. Particular attention must be paid to the analysis of the five collective bargaining agreements, which will support the full scale initiation of the two-year renegotiation process in conjunction with the new entity established to operate the railroad. Another important work effort will be to conduct an orderly transition from federal to state ownership for all personnel matters and ensure that all of the specified requirements from the federal transfer legislation are properly met by the new organization established to operate the railroad. Other efforts include assistance with insurance and risk management needs. The following breakdown by object of expenditure presents the necessary funding for this area.

Object of Expenditure	Description	Amount
Personal Services	1 Full-time Position	$105,000
	2 Part-time Positions	45,000
Travel	1 Full-time, 2 Part-time	[illegible]
Contractual	Liaison Assistance/ Miscellaneous Professional Services	105,000
Supplies	Miscellaneous	2,400
	Total	$257,400

Work Component #5 - Department of Law Assistance

Assistance from the Department of Law is needed for several tasks to be performed by existing AG staff and retained special counsel. Included are the following work efforts: (1) legal work pertaining to the 3(e) (ANCSA) claims against railroad property by native village corporations, including ongoing negotiation and staff work to support the State's position during the adjudication process; (2) legal assistance for the preparation of transfer documents and attention to related land conveyance problems; (3) resulting from the response to various court actions by third parties because the railroad transfer; (4) ongoing legal assistance with issues involving regulation by the Interstate Commerce Commission (ICC); and (5) support of efforts relating to personnel/ labor relation matters. The following breakdown by object of expenditure presents the needed funding for this area.

Object of Expenditure	Description	Amount
Personal Services	Staff Attorneys	$180,000
Travel	Staff Attorneys	20,000
Contractual	Wickwire Lewis	150,000
	David Walsh	75,000
	David Rogers	75,000
	Total	$500,000

Work Component #6 - ICC Rate Valuation/Capital Plan Activity

Work efforts under this component will consist of the following: (1) initiation of planning work necessary to file the appropriate valuation studies before the ICC for purposes of rate-making justification; and (2) performance of ongoing capital planning analysis. This second task will be a continuation of efforts performed under task #5 in Attachment B. It will be coordinated with the initiation of the ICC valuation studies to maximize generation of a data base useful to both efforts. Funding in this area is needed for contractual assistance, which will be directly managed by the Transfer Team Staff.

Object of Expenditure	Description	Amount
Contractual	Consulting Assistance	$225,000
	Total	$225,000

ALASKA RAILROAD TRANSFER PROJECT BUDGET

PROJECT BUDGET

The following depicts the project budget by work component and amount:

		Amount
(1)	Alaska Railroad Transfer Team Staff	$ 304,100
(2)	Department of Natural Resources Assistance	250,000
(3)	Department of Labor Assistance	213,500
(4)	Department of Administration Assistance	257,400
(5)	Department of Law Assistance	500,000
(6)	ICC Rate Valuation/Capital Plan Activity	225,000
	Project Total	$1,750,000

ATTACHMENT C

Capital Improvement Program - FY85

In Thousands (000) of Dollars

This CIP is prorated for FY 85. All amounts shown in 1985 dollars. These estimates represent costs to the State and are only part of the ARR's total capital budget. Revenues from the ARR for capital improvements will be added to State funding.

Item	Amount	
Working Capital Fund	$ 4,900	As with all businesses, the ARR will need working capital. It is estimated that one month's worth of operating expenses will be adequate working capital for the ARR.
OSHA/Code Compliance	$ 4,500	As a federal agency, the ARR has not been subject to many health, safety, and building code standards that would otherwise apply. These codes will apply upon transfer, and initial surveys conducted by the State have been used to determine necessary compliance levels. See Appendix C of the Alaska Railroad Acquisition Assessment for more details.
Other Capital Improvements	$ 6,400	These expenses represent the minimal expenditure necessary for the ARR to maintain current levels of service, while initiating efforts to reverse deterioration of physical plant condition. Component priorities have been selected using the findings of the State's independent condition assessment. As indicated in the attached supplement, most capital improvements are for track and roadbed, upgrade of certain cargo handling facilities, and motive power and equipment purchases.
TOTAL	$15,800	

Supplement to Item #3, Attachment C

Track & Roadbed - $6,185,000

Ties - Install 50,000 @ $42.00 ea.	= $2,100,000
Rail - Install 6 miles @ $350,000 ea.	= $2,100,000
Ballast - Install 85,000 yd^3 @ $14 yd^3	= $1,190,000
Other - (Turnouts, sledding, culverts, ditching)	= $ 795,000

Bridges - $883,000
- Replace stringers, bents, and spans
- Reset bearings, piles, and abuttments

Tunnels - $1,060,200
- Line with multi-plate
- Excavate rock fall areas

Docks - $706,800
- Preliminary work to rebuild barge slip #1 at Whittier

Communications - $570,000
- Complete microwave system
- Remove pole lines
- Acquire equipment

Motive Power & Equipment - $4,845,000

Locomotives	= $2,250,000
Upgrade Facilities	= $1,845,000
Equipment	= $ 750,000

Note: This totals $14.25 million and is the ARR's overall FY 85 capital budget, of which $6.4 million is covered under this fiscal note.

FINANCIAL

DRAFT

The following four financial statements (Tables VIII through XI) describe the financial situation (Note 1) of The Alaska Railroad.

TABLE VIII: STATEMENT OF INCOME
FISCAL YEARS 1982-83
(Thousand dollars)

CATEGORY	1983	1982
REVENUES (Note 2):		
Operating Revenues:		
Freight	$43,787	$47,877
Passenger	3,305	2,627
Other (Note 15)	5,305	4,941
Total Operating Revenues	52,397	55,445
Non-Operating Revenues (Note 16)	3,697	3,352
Total Revenues	$56,094	$58,797
EXPENSES (Note 3):		
Operating Expenses:		
Maintenance of Way & Structures (Note 4)	$9,859(1)	$8,554
Maintenance of Equipment	12,326	11,702
Transportation	19,551	18,685
Traffic Management	865	757
Incidental	4,525	4,152
General and Administration (Note 5)	5,863	5,128
Total Operating Expenses	52,993	48,978
Non-Operating Expense (Note 17)	277	258
Total Expenses	$53,270	$49,236
NET PROFIT (Surplus)	$2,824	$9,561
Add Depreciation included in Expenses	4,404	3,712
CASH FLOW (Gain)	$7,228	$13,273

Notes follow Table XI

(1) Includes $1.7 million which was part of Congressional Appropriation major maintenance and not included in FY 1982 expense.

Expense/Revenue Ratio	94.97%	83.74%

Notes follow Table XI

A modern wheel truing machine was installed in a newly constructed shop building in 1983.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF ACCOUNTING POLICIES

The Alaska Railroad uses the generally accepted principles, standards, and related requirements of governmental accounting as approved by the Comptroller General of the United States. Operations are conducted in a manner consistent with related commercial enterprises and, at the same time, in conformance with the requirements incumbent upon a Government agency.

As is the customary practice of the industry, the Railroad uses betterment and retirement accounting instead of depreciation accounting for roadbed and track. Under this method, prescribed by the Interstate Commerce Commission, the cost of replacing tracks and structures--less salvage recovered--is charged to the appropriate operating expense account and only the cost of betterments is capitalized. These capitalized items are not depreciated, but upon retirement of the tracks and structures, the entire capitalized amounts--less salvage recovered--are charged to expense.

The accounting system and related procedures disclose financial condition and operating results to provide full accountability of the Government's investment in the Railroad and to afford management the necessary data to carry out its responsibility in the most efficient and economical manner.

The Railroad is financed from a revolving fund.

2. REVENUES

Revenues from rail operations are included in income on an accrual basis upon the completion of service.

3. EXPENSES

Expenses are accrued or applied or both on a basis consistent with generally accepted accounting principles.

4. MAINTENANCE OF WAY AND STRUCTURES

Maintenance of way and structures include expenses incurred by engineering ($9,207,000) and communications ($652,000).

5. GENERAL AND ADMINISTRATION

General and administration accounts include expenses for headquarters and staff ($1,378,000) and the administration department ($4,485,000).

6. EXTRAORDINARY ITEMS

Extraordinary items include the loss on excess current inventories ($23,000), deferred outlays ($3,760,000), prior-year adjustments ($697,000), and costs associated with the transfer evaluation ($1,166,000).

7. DEPRECIATION

Depreciation is computed using the straightline method and is based on estimated service lives of depreciable properties, except for the railway track and structures, which are computed using the industry betterment method. Depreciation charges are determined by using the composite or group rates applicable to various classes of property.

The following is a list of depreciation charges in FY 1983:

	(Thousand dollars)
Mechanical - equipment	$2,807
Engineering - buildings and structures	892
Transportation - docks	438
Communications	170
Non-operating	66
Other	31
Total	$4,404

8. CASH

Cash refers to the fund balance with the U.S. Treasury, which is the net amount of cash receipts, e.g., revenues, proceeds from sales, and amounts of congressional appropriations, less disbursements.

9. TRUST AND DEPOSIT FUNDS

Trust and deposit funds include special deposits and other collections not covered by the revolving fund and cleared by disbursement or transfer, as appropriate. A contra account to this asset account is reflected in the liability section.

10. MATERIALS AND SUPPLIES

Inventories, consisting of replacement or repair parts for equipment and road property, construction materials, and fuel, are valued at average cost, including freight.

11. LAND

Land includes only property purchased by the Railroad from private owners and carried at acquisition cost. The Railroad owns over 38,000 acres withdrawn from the public domain at no cost; this land is not included in the financial records.

12. ADDITIONS AND BETTERMENTS IN PROGRESS

This is a control account for authorized capital projects during the period of construction or procurement. Upon completion of the capital project, the related costs are transferred into the appropriate fixed asset property account.

13. PROPRIETARY INTEREST OF THE U.S. GOVERNMENT

The proprietary interest shows the Federal Government's net interest in The Alaska Railroad. At the end of FY 1983, it is summarized as follows:

	(Thousand dollars)
Appropriation by Congress	$259,496
Allotments from other agencies, sales of lots, etc.	1,724
Property transferred or donated (not public domain)	19,903
Earthquake losses	(16,738)
Deficits from operations and capital losses to 6/30/54	(63,764)
Retained earnings (7/1/54 to 9/30/82)	(18,171)
FY 1983 operating results	2,624
Extraordinary Items (Note 6)	(5,646)
Total proprietary interest of the U.S. Government	$179,628

14. CONGRESSIONAL APPROPRIATIONS

Funds appropriated by Congress were obligated within the fiscal year, as shown below:

	(Million dollars)	
	FY 83	FY 82
Congressional appropriations received	$7.60	$6.16
Obligated during fiscal year	$7.60	$6.16
Amount unobligated at end of fiscal year	$0.00	$0.00

15. OTHER OPERATING REVENUES

Other operating revenues include those revenues that were neither freight nor passenger. Individual accounts exceeding $90,000 in FY 1983 were:

	(Thousand dollars)
Reimbursable services	$2,036
Sale of non-invested property	1,301
Reimbursements - real estate, utilities, and equipment	541
Whittier shuttle - vehicles	533
Wharfage and handling	148
Mail	145
Switching	116
Equipment rentals	90
All other	395
Total	$5,305

16. NON-OPERATING REVENUES

Non-operating revenues in FY 1983 were:

	(Thousand dollars)
Miscellaneous rentals	$3,466
Interest earned	144
All other	87
Total	$3,697

17. NON-OPERATING EXPENSES

Non-operating expenses in FY 1983 were:

	(Thousand dollars)
Buildings	$199
Depreciation	60
Equipment	10
All Other	2
Total	$277

At a re-enactment of the original golden spike ceremony Governor Sheffield wields the same maul used by President Harding in 1923.

DRAFT

FREIGHT

Table II shows freight revenue tons and freight revenue dollars by major classification of commodities for fiscal years 1983 and 1982. Total tonnage for fiscal year 1983 exceeded fiscal year 1982 by 34 percent. For the third consecutive year sand and gravel led all other commodities in percentage gains. The primary cause of the 60-percent escallation was a vigorous private and business construction year plus increases in public works projects in Anchorage. The drop in movements of iron and steel products from Seward to Fairbanks destined for the North Slope from its peak in 1982 accounted for the return of manufacturers and miscellaneous products to a lower level, but still above FY 1981.

TABLE II: FREIGHT TRAFFIC BY COMMODITY

COMMODITY	1983 FY	1982 FY	% CHANGE
REVENUE TONS CARRIED (000's)			
Sand and Gravel	4,397.7	2,753.8	+ 59.7
Coal	625.8	653.6	- 4.2
Petroleum, Oil, Lubricants	462.2	439.4	+ 5.2
Manufacturers and Misc.	323.1	449.9	- 28.2
TOFC/COFC (Piggyback)	98.0	122.4	- 19.9
Products of Forests	105.1	77.0	+ 36.5
Products of Agriculture	6.1	6.8	- 10.3
Total Tonnage	6,018.0	4,502.9	+ 33.7
REVENUE DOLLARS (000's)			
Sand & Gravel	6,647	4,556	+ 45.9
Coal	5,007	5,072	- 1.3
Petroleum, Oil, Lubricants	9,723	8,376	+ 16.1
Manufacturers and Misc.	15,704	22,512	- 30.2
TOFC/COFC (Piggyback)	3,625	4,915	- 26.2
Products of Forests	2,955	2,301	+ 28.4
Products of Agriculture	126	145	- 13.1
Total Revenue	43,787	47,877	- 8.5

PASSENGER

Aggressive and expanded advertising and marketing resulted in an overall increase of 21 percent in passenger ridership as shown in Table II. The marketing efforts included active promotion of tour packages which attracted, for the first time, nine cruise ships to stop at the Railroad's Port of Whittier, and provided over 14,000 of the special train riders.

TABLE III: PASSENGERS HANDLED

SERVICE	1983 FY	1982 FY	% CHANGE
Anchorage-Denali-Fairbanks	61,887	60,810	+ 1.8
Anchorage-Portage-Whittier (Shuttle)	117,740	95,449	+ 23.4
Specials	31,732	18,857	+ 68.3
Total Passengers Handled	211,359	175,116	+ 20.7

The number of vehicles carried on the Anchorage-Portage-Whittier (shuttle) service was 19,516, up 10 percent over FY 1982.

TARRIFS

The major rate adjustments made in FY 1983 are reflected in Table IV:

TABLE IV: FY 1983 TARIFF CHANGES

TYPE	DATE	% INCREASE
Interline	1-17-83	5
Intrastate:		
General Commodities	2-12-82	5
Gravel	4-19-83	3
Passenger:		
Anchorage - Fairbanks	1-01-83	10
Whittier Shuttle	7-01-83	10

* The Federal Government changed its fiscal year from July 1-June 30 to October 1-September 30 beginning in FY 1977, resulting in a transition quarter in 1976. To avoid a 15-month fiscal year for comparisons, these statistics use July 1, 1975 through June 30, 1976 as FY 1976, and October 1, 1976 through September 30, 1977 as FY 1977, dropping the transition quarter.

**Mfrs. & Misc. NOS. (not otherwise specified) discontinued, now included in specific categories.

12/1/83

STATE OF ALASKA 1984 LEGISLATIVE SESSION

FISCAL NOTE

Bill/Resolution No.: SB 352
Title: Alaska Railroad Corporation Act of 1984

BILL ANALYSIS

Overview:

This fiscal note is based upon the results of the Alaska Railroad Team's Alaska Railroad Acquisition Assessment, released in December 1983. That document provides a comprehensive analysis of the major issues concerning acquisition of the Alaska Railroad (ARR). It includes a thorough assessment of the financial exposure to the State from ensuring continued rail operations in accordance with the requirements of the Alaska Railroad Transfer Act of 1982 (ARTA).

The estimates presented in this fiscal note are derived from the "worst case" scenario of future railroad activity. Current indicators such as the continued uncertainty over the export coal contracts suggest use of this analysis as the most realistic forecast for determining actual fiscal impact. Please note that the acquisition cost of $22.3 million for railroad purchase has been addressed in a separate fiscal note attached to the acquisition legislation.

While the data and forecasts used in both the Acquisition Assessment and this fiscal note reflect the input and work of the railroad and the United States Railway Association (USRA), the final estimates are based on independent analysis and downward adjustment by the Transfer Team. Our work includes such factors as removal of uncertain revenue increases, increased costs for compliance with state and local building codes, and additional adjustments for necessary capital rehabilitation.

This bill analysis is limited to providing explanations of the fiscal impact resulting from the proposed legislation. It should be noted that there exist policy conflicts between provisions of this legislation and the Sheffield Administration's Policy Statement of January 26, 1984.

Assumptions:

The FY 85 figures are based upon an assumption that actual railroad transfer will occur somewhere between November and January of that fiscal year. As a result, most of the estimates are merely prorated for a partial fiscal year ending in July 1985. However, there are certain one-time, start-up expenditures directly attributable to the actual railroad transfer which cause the sizeable shortfall during what is only a partial fiscal year.

Although a breakout of specific operating expenditures has been provided for FY 85 in order to provide the railroad operating entity a functioning program during its first year of operations, an actual budget structure has not been included to avoid prejudicing the new operating entity's prerogatives to formulate its own budget structure and subsequent submissions. Please note that the FY 85 submittal also contains the request for all funds needed by the Transfer Team and other state agencies to perform the duties resulting from passage of this legislation and acquisition of the railroad.

Although the current legislation places the Alaska Railroad within the Department of Commerce and Economic Development for purposes of the constitution, other sections of this bill anticipate removing it if a proposed constitutional amendment passes next November. Accordingly, this note does not address a specific "agency affected" to avoid a future conflict in this area.

Since the constitutional amendment cannot become effective until November if it passes, this note is predicated on an assumption that all funds for the corporation will be passed through by the respective line agency under which the corporation is located. Funds for all other state agencies will be passed on to the Transfer Team for further processing as appropriate.

Administrative costs incurred by the line agency under which the corporation is located should be minimal and will be covered as part of the corporation's overhead. Please note that all fiscal impact to state agencies resulting from this legislation have been coordinated by the Transfer Team and are reflected in this note.

All estimates are presented in constant 1985 dollars. An annual inflation factor of 6% has been used to convert the original 1983 constant dollar estimates in the Acquisition Assessment.

Operating Expenditures:

This estimate includes both general operating expenses and new expenditures resulting from the railroad transfer (i.e., additional costs due to potential loss of railroad gravel reserves under third-party claims). Included in the former category are costs for maintenance-of-way, maintenance of power and equipment, transportation services, communications, administration and overhead, marketing and real estate management. The latter category includes increased legal and overhead expenses, additional insurance and risk management contributions, fiscal impact to the Transfer Team and other state agencies because of railroad acquisition, and one-time, start-up costs for items such as the printing of new letterhead and the marking of personal property.

Although revenue is projected to increase during FY 87-89, costs during that period are not significantly larger than the first two years of operations due to the sizeable, one-time transfer related expenses immediately following transfer. These estimates are based on historical data provided by current railroad personnel and reflect anticipated operating expenditures needed to comply with the terms of ARTA.

Attachment A provides more details on the FY 85 submittal by object of expenditure. Some $4 million of this estimate is to cover immediate expenditures resulting from actual transfer of the railroad. This includes the following:

(1) $1.750 million for the Alaska Railroad Transfer Team to perform its duties as outlined in Attachment B;

(2) $2 million for specific one-time, start-up costs to be incurred by the new entity for items such as the marking and inventorying of personal property, the printing of new stationery and payment warrants, additional legal costs, and certain corporation expenditures for the new Board of Directors;

(3) $200,000 in funds to conduct a final pre-transfer audit to establish the accuracy of balance sheets and the identification of accounting problem areas; and

(4) $80,000 in additional fiscal impact to the Department of Administration to ensure preservation of railroad archival records and additional labor relations work not budgeted for in the Transfer Team's FY 85 budget memo.

Another component of the FY 85 submittal includes $270,000 in funds in direct response to the following requirements of the legislation:

(1) $200,000 to initiate the Special Report required in Section 9 on the feasibility of attracting private sector involvement in the railroad's operations;

(2) $35,000 to the Department of Natural Resources to respond to any state land request by the corporation under Section 42.40.360; and

(3) $35,000 to fund costs for the new railroad employees labor relations agency as provided in Section 42.40.780.

The remaining estimates in this area reflect the normal operating expenses by category for the part of FY 85 involving state operation of the railroad. These specific estimates have been prepared with the close cooperation of railroad administration and budgeting personnel. All expenditures for per diem and compensation of the Board of Directors have been included in the general estimates for the 100 and 200 categories.

Capital Expenditures:

The capital component of this fiscal note represents a combination of increased capital costs resulting from transfer and prorated expenditures for ongoing railroad operations. The analysis contained in Chapters 4 and 5 of the Acquisition Assessment serve as the basis for both of these estimates.

In addition, the results from the State's independent engineering condition assessment have been used to project an increased level of expenditure minimally acceptable to begin reversing deterioration of the railroad's physical plant, including the initiation of a systematic plan for replacing aged rolling stock. It is important to understand that engineering condition alone cannot be the basis for a projected level of sustained capital expenditure, but must be tempered by national trade-offs between long-term plant condition and available revenues.

The capital estimate of $15.8 million includes a one-time expenditure of $4.9 million to replace the railroad's working capital fund. ARTA establishes a process where little, if any, money will be transferred from the ARR's Revolving Fund because of pre-transfer federal claims and contingent liabilities that must be paid by the fund. As a result, an amount equal to about one month's worth of operating expenses (which is similar

to working capital requirements for other railroads) is needed to fund and maintain adequate working capital for the railroad after transfer.

Another capital expenditure resulting from railroad transfer is the initiation of compliance with Occupational Safety and Health Act (OSHA) requirements and state and local building codes. Approximately $4.5 million per year has been set aside during the forecasted period to move toward compliance in these areas. Chapter 5.3 of the Acquisition Assessment provides more details regarding this requirement.

The remaining $6.4 million of this estimate covers general railroad capital needs, prorated for the period of state ownership during FY 85. An additional $7.85 million is projected for expenditure by the railroad for this program. Attachment C provides additional information regarding the capital improvement program to be performed during FY 85.

It should also be noted that based on a recent audit review of the ARR's financial statements, about $4 million per year of capital expenditures could just as easily be categorized as operating costs (primarily maintenance-of-way expenditures) if generally accepted accounting principles are applied to the railroad. However, no adjustments have been made with our estimates to avoid creating greater confusion by conflicting with existing railroad procedures prior to a general system overhaul by the corporation upon transfer.

Revenue:

This estimate on a prorated basis represents projected FY 85 revenues from its freight, passenger and real property rental activities. The FY 85 revenue figure is based on a projected commodity mix fairly similar to the last two years of railroad operations. Attachment D contains some additional information from the ARR's 1983 Draft Annual Report regarding FY 82 and FY 83 operations.

These projections are based on information from the railroad and USRA, which were then adjusted downward by the Transfer Team to remove 50% of the net cash from anticipated revenue increases in export coal, interline and pipe traffic. If either of these movements were in fact to materialize in a significant way, it could sizeably reduce the need for general fund assistance during FY 87-89. Likewise, any major downswing from our projections would probably result in the need for even larger general fund assistance during those years.

Funding Source:

The "Other Funds" appearing on the fiscal note are railroad revenues.

Positions:

ARTA basically mandates a two-year period of full protection of current salaries and benefits for all employees who choose to transfer. What happens following that period becomes a matter for contractual negotiation between management and employees.

The figures presented in this part of the fiscal note are the actual number of employees in each category as of March 1, 1984. No estimate can be made of the actual number of those choosing to transfer, although it is anticipated that most employees will do so. In the case of temporary employees, the first number on this line is the actual number today, while the second estimate reflects the average number of temporary hires used in the summer for major maintenance work.

Summary:

The estimates provided in the attached fiscal note are primarily based on the Transfer Team's assessment of the likely fiscal impacts from state acquisition of the Alaska Railroad. It is important to reiterate that the acquisition cost of $22.3 million has been addressed in a separate fiscal note attached to the acquisition legislation.

It is our view that the corporation's overall organization as currently envisioned in the proposed legislation will not have any appreciable impact immediately on the railroad's general financial condition. Beyond the increased cost for modifying the existing administrative and management systems during the first two or three years following state takeover, it is difficult to predict whether the proposed organizational arrangements in this legislation will generate cost efficiencies not enjoyed during federal ownership.

The philosophy in the current legislation is, to the extent possible, to foster a self-sustaining business orientation for railroad operations. This is consistent with the Transfer Team's analysis of the types of steps necessary to achieve a break-even position at some point during the first decade of state operations.

There is no specific mandate in this legislation for new extensions or any more services than those currently in existence. This should allow the railroad adequate time to reorganize and streamline its existing operations. In addition, although several specified planning responsibilities have been added to the railroad's duties, the long-term savings from performing these kinds of systematic assessments should more than compensate for any short-term costs resulting from performance of these efforts.

Attachment E is a ten year summary (FY 73-82) of the railroad financial operations during federal ownership. It should be noted that an additional $66.2 million dollars in congressional appropriations was provided during this period to cover passenger expenses and certain capital needs.

ATTACHMENT A

Operating Budget - FY85

In Thousands (000) of Dollars

This operating budget is prorated for FY 85 except for the impacts to state agencies depicted in the 300 level. All amounts shown are in 1985 dollars. These estimates represent the total prorated FY 85 operating budget for the railroad following state acquisitic Projected revenues from the railroad's operations will serve as the main source of funds for these expenditures, with limited assistance from general fund appropriations.

Category	Amount	Explanation
100 Personal Services	$24,300.0	This funding level is based upon current work force of 478 permanent full-time, 38 part-time and 64 temporary positions. Of this amount salary comprises $19,950 and benefits comprise $4,350. Also included in this estimate are the Board of Directors' compensation expenses.
200 Travel	300.0	This funding level is the estimate of travel funding needs, including the Board of Directors' travel expenses.
300 Contractual	4,800.0	This funding level includes coverage of the following areas: continuation of Transfer Team activities for FY 85 - $1,750.0 (see Attachment B); Transfer Financial Audit - $200.0; $200.0 for initiation of the Special Report required in Section 9 of the bill; Department of Administration - $80.0 for archives preservation and labor relations coordination; costs for the labor relations agency under Article 8 of the bill - $35.0; Department of Natural Resources - $35.0 for land designation activities under Article 5 of the bill. The remainder of these funds are for the railroad's general contractual needs resulting from capital improvement, operations and financial planning activities.

400 Supplies	5,200.0	This funding level is required for the day-to-day operations of the railroad, supporting all facets of operations from administration to maintenance of way.
500 Equipment	1,200.0	This item is the complement of the supply item also supporting day-to-day railroad operations.
700 Grants & Claims	1,500.0	This item provides for funds for the railroad's risk management expenses, payment of damage claims, workmen's compensation expenses and other money claims against the railroad. No grants are anticipated.
TOTAL:	37,300.0	

Attachment B
3/14/84

ALASKA RAILROAD TRANSFER PROJECT

FY 85 PROJECT BUDGET

The goal of the Alaska Railroad Transfer Team is to provide an orderly and informed decision-making process for possible transfer of the Alaska Railroad from federal ownership, thus ensuring continuation of essential rail services in Alaska. If a decision is reached to pursue state take-over of the railroad, then it is also the goal of the Alaska Railroad Transfer Team to organize and oversee a systematic transition from federal ownership.

This document discusses the major work components of the FY 85 budget submittal. The need to pursue some of these efforts is entirely contingent on a decision to acquire, while other work efforts are separate from that decision. Attachment A provides the FY 85 budget submittal as introduced by the Governor. Attachment B is the project budget for FY 84 and provides considerable detail regarding several work tasks, many of which are ongoing in 1985.

The following breakdown is structured on a component or agency basis, versus reiterating specific details regarding ongoing work tasks. As a result, some of this explanation should be read in conjunction with Attachment B in order to fully understand all of the scheduled work efforts.

Work Component #1 - Alaska Railroad Transfer Team Staff

As indicated in Attachment A, funding is needed to support four positions in the Office of the Commissioner, Department of Transportation and Public Facilities. These positions are as follows: a State Railroad Coordinator (Special Assistant II); a Planner IV; a Planner III; and a Correspondence Secretary III. These four individuals comprise the Transfer Team Staff with direct responsibility for performance and coordination of all team activities. This group reports directly to the Commissioner of DOT&PF in the performance of their duties. The following breakdown represents expenditures directly related to this area by object of expenditure.

Object of Expenditure	Description	Amount
Personal Services	4 Positions - DOT&PF	$195,100
Travel	4 Positions - DOT&PF	66,000
Contractual	Printing/limited Professsional Services	35,000
Supplies	Miscellaneous	8,000
	Total	$304,100

Work Component #2 - Department of Natural Resources Assistance

An existing Reimbursable Services Agreement with the Department of Natural Resources will be continued during FY 85. Work efforts covered by this assistance include ongoing support activity by the Division of Technical Services for conveyance documents and related title review work. Additional support by DNR will be provided for coordination with the Bureau of Land Management's cadastral survey work and assistance from the Division of Land and Water Management to implement the railroad transfer. The following breakdown by object of expenditure presents the needed funding for these services.

Object of Expenditure	Description	Amount
Personal Services	4 Positions - DNR	$191,900
Travel	4 Positions - DNR	20,000
Contractual	Miscellaneous Professional Services	30,000
Supplies	Miscellaneous	8,100
	Total	$250,000

Work Component #3 - Department of Labor Assistance

Specific assistance is still needed by the Department of Labor to perform an extensive survey of the railroad's physical facilities in relation to federal and state occupational safety and health laws, regulations and standards. Although this was scheduled for performance during FY 84, insufficient funding required postponement of this work effort until FY 85. Scheduled funds during FY 84 for this effort were diverted to cover additional labor relations work by the Department of Administration and the use of an Engineer-in-Training position to assist with the engineering condition assessment. The following breakdown provides an estimate for this activity by object of expenditure.

Object of Expenditure	Description	Amount
Personal Services	2 Full-time - DOL 2 part-time	$142,700
Travel	2 Full-time - DOL	7,300
Training	2 Full-time	5,200
Contractual	Miscellaneous Professional Services	39,800
Supplies	Miscellaneous	6,500
Equipment	Health Sampling Equipment/ Memory Typewriter	12,000
	Total	$213,500

Work Component #4 - Department of Administration Assistance

Activity in the area will consist of continuing work efforts initiated during FY 84 explained under task #6 of Attachment B. Particular attention must be paid to the analysis of the five collective bargaining agreements, which will support the full scale initiation of the two-year renegotiation process in conjunction with the new entity established to operate the railroad. Another important work effort will be to conduct an orderly transition from federal to state ownership for all personnel matters and ensure that all of the specified requirements from the federal transfer legislation are properly met by the new organization established to operate the railroad. Other efforts include assistance with insurance and risk management needs. The following breakdown by object of expenditure presents the necessary funding for this area.

Object of Expenditure	Description	Amount
Personal Services	1 Full-time Position	$105,000
	2 Part-time Positions	45,000
Travel	1 Full-time, 2 Part-time	105,000
Contractual	Liaison Assistance/ Miscellaneous Professional Services	
Supplies	Miscellaneous	2,400
	Total	$257,400

Work Component #5 - Department of Law Assistance

Assistance from the Department of Law is needed for several tasks to be performed by existing AG staff and retained special counsel. Included are the following work efforts: (1) legal work pertaining to the 3(e) (ANCSA) claims against railroad property by native village corporations, including ongoing negotiation and staff work to support the State's position during the adjudication process; (2) legal assistance for the preparation of transfer documents and attention to related land conveyance problems; (3) resulting from the response to various court actions by third parties because the railroad transfer; (4) ongoing legal assistance with issues involving regulation by the Interstate Commerce Commission (ICC); and (5) support of efforts relating to personnel/ labor relation matters. The following breakdown by object of expenditure presents the needed funding for this area.

Object of Expenditure	Description	Amount
Personal Services	Staff Attorneys	$180,000
Travel	Staff Attorneys	20,000
Contractual	Wickwire Lewis	150,000
	David Walsh	75,000
	David Rogers	75,000
	Total	$500,000

Work Component #6 - ICC Rate Valuation/Capital Plan Activity

Work efforts under this component will consist of the following: (1) initiation of planning work necessary to file the appropriate valuation studies before the ICC for purposes of rate-making justification; and (2) performance of ongoing capital planning analysis. This second task will be a continuation of efforts performed under task #5 in Attachment B. It will be coordinated with the initiation of the ICC valuation studies to maximize generation of a data base useful to both efforts. Funding in this area is needed for contractual assistance, which will be directly managed by the Transfer Team Staff.

Object of Expenditure	Description	Amount
Contractual	Consulting Assistance	$225,000
	Total	$225,000

ALASKA RAILROAD TRANSFER PROJECT BUDGET

PROJECT BUDGET

The following depicts the project budget by work component and amount:

		Amount
(1)	Alaska Railroad Transfer Team Staff	$ 304,100
(2)	Department of Natural Resources Assistance	250,000
(3)	Department of Labor Assistance	213,500
(4)	Department of Administration Assistance	257,400
(5)	Department of Law Assistance	500,000
(6)	ICC Rate Valuation/Capital Plan Activity	225,000
	Project Total	$1,750,000

ATTACHMENT C

Capital Improvement Program - FY85

In Thousands (000) of Dollars

This CIP is prorated for FY 85. All amounts shown are in 1985 dollars. These estimates represent costs to the State, and are only part of the ARR's total capital budget. Revenues from the ARR for capital improvements will be added to State funding.

Item	Amount	
Working Capital Fund	$ 4,900	As with all businesses, the ARR will need working capital. It is estimated that one month's worth of operating expenses will be adequate working capital for the ARR.
OSHA/Code Compliance	$ 4,500	As a federal agency, the ARR has not been subject to many health, safety, and building code standards that would otherwise apply. These codes will apply upon transfer, and initial surveys conducted by the State have been used to determine necessary compliance levels. See Appendix C of the Alaska Railroad Acquisition Assessment for more details.
Other Capital Improvements	$ 6,400	These expenses represent the minimal expenditure necessary for the ARR to maintain current levels of service, while initiating efforts to reverse deterioration of physical plant condition. Component priorities have been selected using the findings of the State's independent condition assessment. As indicated in the attached supplement, most capital improvements are for track and roadbed, upgrade of certain cargo handling facilities, and motive power and equipment purchases.
TOTAL	$15,800	

Supplement to Item #3, Attachment C

Track & Roadbed - $6,185,000

Ties - Install 50,000 @ $42.00 ea.	= $2,100,000
Rail - Install 6 miles @ $350,000 ea.	= $2,100,000
Ballast - Install 85,000 yd^3 @ $14 yd^3	= $1,190,000
Other - (Turnouts, sledding, culverts, ditching)	= $ 795,000

Bridges - $883,000
- Replace stringers, bents, and spans
- Reset bearings, piles, and abuttments

Tunnels - $1,060,200
- Line with multi-plate
- Excavate rock fall areas

Docks - $706,800
- Preliminary work to rebuild barge slip #1 at Whittier

Communications - $570,000
- Complete microwave system
- Remove pole lines
- Acquire equipment

Motive Power & Equipment - $4,845,000

Locomotives	= $2,250,000
Upgrade Facilities	= $1,845,000
Equipment	= $ 750,000

Note: This totals $14.25 million and is the ARR's overall FY 85 capital budget, of which $6.4 million is covered under this fiscal note.

FINANCIAL

DRAFT

The following four financial statements (Tables VIII through XI) describe the financial situation (Note 1) of The Alaska Railroad.

TABLE VIII: STATEMENT OF INCOME
FISCAL YEARS 1982-83
(Thousand dollars)

CATEGORY	1983	1982
REVENUES (Note 2):		
Operating Revenues:		
Freight	$43,787	$47,877

Notes follow Table XI

A modern wheel truing machine was installed in a newly constructed shop building in 1983.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF ACCOUNTING POLICIES

The Alaska Railroad uses the generally accepted principles, standards, and related requirements of governmental accounting as approved by the Comptroller General of the United States. Operations are conducted in a manner consistent with related commercial enterprises and, at the same time, in conformance with the requirements incumbent upon a Government agency.

As is the customary practice of the industry, the Railroad uses betterment and retirement accounting instead of depreciation accounting for roadbed and track. Under this method, prescribed by the Interstate Commerce Commission, the cost of replacing tracks and structures--less salvage recovered--is charged to the appropriate operating expense account and only the cost of betterments is capitalized. These capitalized items are not depreciated, but upon retirement of the tracks and structures, the entire capitalized amounts--less salvage recovered--are charged to expense.

The accounting system and related procedures disclose financial condition and operating results to provide full accountability of the Government's investment in the Railroad and to provide management the necessary data to carry out its responsibility in the most efficient and economical manner.

The Railroad is financed from a revolving fund.

2. REVENUES

Revenues from rail operations are included in income on an accrual basis upon the completion of service.

3. EXPENSES

Expenses are accrued or applied or both on a basis consistent with generally accepted accounting principles.

4. MAINTENANCE OF WAY AND STRUCTURES

Maintenance of way and structures include expenses incurred by engineering ($9,207,000) and communications ($652,000).

5. GENERAL AND ADMINISTRATION

General and administration accounts include expenses for headquarters and staff ($1,3[illegible]0) and the administration department ($4,485,000).

6. EXTRAORDINARY ITEMS

Extraordinary items include the loss on excess current inventories ($23,000), deferred outlays ($3,760,000), prior-year adjustments ($697,000), and costs associated with the transfer evaluation ($1,166,000).

7. DEPRECIATION

Depreciation is computed using the straightline method and is based on estimated service lives of depreciable properties, except for the railway track and structures, which are computed using the industry betterment method. Depreciation charges are determined by using the composite or group rates applicable to various classes of property.

The following is a list of depreciation charges in FY 1983:

	(Thousand dollars)
Mechanical - equipment	$2,807
Engineering - buildings and structures	892
Transportation - docks	438
Communications	170
Non-operating	66
Other	31
Total	$4,404

8. CASH

Cash refers to the fund balance with the U.S. Treasury, which is the net amount of cash receipts, e.g., revenues, proceeds from sales, and amounts of congressional appropriations, less disbursements.

9. TRUST AND DEPOSIT FUNDS

Trust and deposit funds include special deposits and other collections not covered by the revolving fund and cleared by disbursement or transfer, as appropriate. A contra account to this asset account is reflected in the liability section.

10. MATERIALS AND SUPPLIES

Inventories, consisting of replacement or repair parts for equipment and road property, construction materials, and fuel, are valued at average cost, including freight.

11. LAND

Land includes only property purchased by the Railroad from private owners and carried at acquisition cost. The Railroad owns over 38,000 acres withdrawn from the public domain at no cost; this land is not included in the financial records.

12. ADDITIONS AND BETTERMENTS IN PROGRESS

This is a control account for authorized capital projects during the period of construction or procurement. Upon completion of the capital project, the related costs are transferred into the appropriate fixed asset property account.

13. PROPRIETARY INTEREST OF THE U.S. GOVERNMENT

The proprietary interest shows the Federal Government's net interest in The Alaska Railroad. At the end of FY 1983, it is summarized as follows:

	(Thousand dollars)
Appropriation by Congress	$259,496
Allotments from other agencies, sales of lots, etc.	1,724
Property transferred or donated (not public domain)	19,903
Earthquake losses	(16,738)
Deficits from operations and capital losses to 6/30/54	(63,764)
Retained earnings (7/1/54 to 9/30/82)	(18,171)
FY 1983 operating results	2,824
Extraordinary Items (Note 6)	(5,646)
Total proprietary interest of the U.S. Government	$179,628

14. CONGRESSIONAL APPROPRIATIONS

Funds appropriated by Congress were obligated within the fiscal year, as shown below:

	(Million dollars)	
	FY 83	FY 82
Congressional appropriations received	$7.60	$6.16
Obligated during fiscal year	$7.60	$6.16
Amount unobligated at end of fiscal year	$0.00	$0.00

15. OTHER OPERATING REVENUES

Other operating revenues include those revenues that were neither freight nor passenger. Individual accounts exceeding $90,000 in FY 1983 were:

	(Thousand dollars)
Reimbursable services	$2,036
Sale of non-invested property	1,301
Reimbursements - real estate, utilities, and equipment	541
Whittier shuttle - vehicles	533
Wharfage and handling	148
Mail	145
Switching	116
Equipment rentals	90
All other	395
Total	$5,305

16. NON-OPERATING REVENUES

Non-operating revenues in FY 1983 were:

	(Thousand dollars)
Miscellaneous rentals	$3,466
Interest earned	144
All other	87
Total	$3,697

17. NON-OPERATING EXPENSES

Non-operating expenses in FY 1983 were:

	(Thousand dollars)
Buildings	$199
Depreciation	60
Equipment	10
All Other	2
Total	$277

At a re-enactment of the original golden spike ceremony Governor Sheffield wields the same maul used by President Harding in 1923.

DRAFT

FREIGHT

Table II shows freight revenue tons and freight revenue dollars by major classification of commodities for fiscal years 1983 and 1982. Total tonnage for fiscal year 1983 exceeded fiscal year 1982 by 34 percent. For the third consecutive year sand and gravel led all other commodities in percentage gains. The primary cause of the 50-percent escallation was a vigorous private and business construction year plus increases in public works projects in Anchorage. The drop in movements of iron and steel products from Seward to Fairbanks destined for the North Slope from its peak in 1982 accounted for the return of manufacturers and miscellaneous products to a lower level, but still above FY 1981.

TABLE II: FREIGHT TRAFFIC BY COMMODITY

COMMODITY	1983 FY	1982 FY	% CHANGE
REVENUE TONS CARRIED (000's)			
Sand and Gravel	4,397.7	2,753.8	+ 59.7
Coal	625.8	653.6	- 4.2
Petroleum, Oil, Lubricants	462.2	439.4	+ 5.2
Manufacturers and Misc.	323.1	449.9	- 28.2
TOFC/COFC (Piggyback)	98.0	122.4	- 19.9
Products of Forests	105.1	77.0	+ 36.5
Products of Agriculture	6.1	6.8	- 10.3
Total Tonnage	6,018.0	4,502.9	+ 33.7
REVENUE DOLLARS (000's)			
Sand & Gravel	6,647	4,556	+ 45.9
Coal	5,007	5,072	- 1.3
Petroleum, Oil, Lubricants	9,723	8,376	+ 16.1
Manufacturers and Misc.	15,704	22,512	- 30.2
TOFC/COFC (Piggyback)	3,625	4,915	- 26.2
Products of Forests	2,955	2,301	+ 28.4
Products of Agriculture	126	145	- 13.1
Total Revenue	43,787	47,871	- 8.5

PASSENGER

Aggressive and expanded advertising and marketing resulted in an overall increase of 21 percent in passenger ridership as shown in Table II. The marketing efforts included active promotion of tour packages which attracted, for the first time, nine cruise ships to stop at the Railroad's Port of Whittier, and provided over 14,000 of the special train riders.

TABLE III: PASSENGERS HANDLED

SERVICE	1983 FY	1982 FY	% CHANGE
Anchorage-Denali-Fairbanks	61,887	60,810	+ 1.8
Anchorage-Portage-Whittier (Shuttle)	117,740	95,449	+ 23.4
Specials	31,732	18,857	+ 68.3
Total Passengers Handled	211,359	175,116	+ 20.7

The number of vehicles carried on the Anchorage-Portage-Whittier (shuttle) service was 19,516, up 10 percent over FY 1982.

TARRIFS

The major rate adjustments made in FY 1983 are reflected in Table IV:

TABLE IV: FY 1983 TARIFF CHANGES

TYPE	DATE	% INCREASE
Interline	1-17-83	5
Intrastate:		
General Commodities	2-12-82	5
Gravel	4-19-83	3
Passenger:		
Anchorage - Fairbanks	1-01-83	10
Whittier Shuttle	7-01-83	10

* The Federal Government changed its fiscal year from July 1-June 30 to October 1-September 30 beginning in FY 1977, resulting in a transition quarter in 1976. To avoid a 15-month fiscal year for comparisons, these statistics use July 1, 1975 through June 30, 1976 as FY 1976, and October 1, 1976 through September 30, 1977 as FY 1977, dropping the transition quarter.

**Mfrs. & Misc. NOS. (not otherwise specified) discontinued, now included in specific categories.

IN THE SENATE

SENATE TRANSPORTATION COMMITTEE SUBSTITUTE

SENATE BILL NO. 352

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government;

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state consistent with the other findings and policies of this section.

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(G) preserve the integrity of the railroad utility corridor for transportation, communication, and transmission purposes.

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Commerce and Economic Development. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of Commerce and Economic Development and six voting members appointed by the Governor. These six members

must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of thes members may be from any one of the four judicial districts in the state. Two of the voting members must have at least five years experience as owners or managers of a business in the state. Except for the commissioner of Commerce and Economic Development, a voting member may not be a state officer or employee.

(b) One person may be appointed by the governor to be a votin member of the board, if, at the time of appointment, the person has a least 10 years of experience in manag ent of railroads.

(c) Unless prohibited by law, one voting member shall be or hav been an executive official of an American railroad that is not now o was never a connecting carrier* of the Alaska railroad.

*(d) In addition to the voting members, the following nonvoting members shall serve on the board:

(1) an employee of the corporation appointed by the governor to represent the employees;

(2) the chief executive officer of the corporation.

(e) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has bee rejected by the legislature.

(f) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

*Problem - future anal is

(g) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(h) The chairperson shall call meetings of the board at leas once every three months. The chairperson may call other meetings o the board as the chairperson considers necessary. The chairperso shall preside at meetings of the board.

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. Except for th commissioner of Commerce and Economic Development, the voting membe of the board serve for staggered terms of five years each, and serv at the pleasure of the governor during their terms.

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board i filled by appointment by the governor, and the appointment must b confirmed by the legislature in joint session. A member selected t fill a vacancy holds office for the balance of the term for which th member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of quorum of members to exercise the powers and perform the duties of th board.

(c) A member whose term has expired shall serve until a succes sor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointe member of the board is entitled to compensation at a rate of $250 fo each day the member is engaged in the actual performance of duties a a member of the board. The board may provide by rule for compensatio for partial days during which a member is engaged in the actua performance of duties.

(b) In addition to compensation under (a) of this section, an

appointed member of the board is entitled to per diem and trave expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. Four voting members of the boar constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. Four affirmative votes are required fo board action. The board shall provide by rule for the manner o voting, except that the board may not provide for voting by proxy The rules may provide for voting and conferring by means of telecommunication devices.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.090. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) Generally manage the corporation on a self-sustaining basis;

(4) apply to the legislature for a subsidy if it is required to maintain a service which is not otherwise self-sustaining;

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporations while insuring that borrowing by the corporation does no

directly or indirectly endanger the state's own borrowing capacity.

(7) The board shall review all public and private land disposals proposals in planning for future development or expansion.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation subject to the approval by the Governor. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 60 days of its establishment, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(c) Specific board authorization or concurrence is required f the following:

(1) transferring the corporation's entire interest in rea property;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to th corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range expansion and capital improvemen plan;

(7) certifying annual reports;

(8) effecting generally applicable increases and decrease in rates other than those periodically approved by the United State Interstate Commerce Commission;

(9) expanding or reducing services in a maior way

(10) expanding the main or branch lines, other than perform ing routine track alignment as necessary to maintain service levels a effect on the date of transfer;

(11) selecting independent auditors and accountants;

(12) the exercise of the power of eminent domain;

(13) collective bargaining agreements as provided by 42.40.700.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. PUBLIC BOARD MEETINGS. (a) The meetings of th board are public except executive sessions. The question of holding

an executive session to discuss matters that come within the exceptions contained in (b) and (c) of this section shall be determined by a majority vote of the body. No subjects may be considered at the executive session except those mentioned in the motion calling for the executive session unless auxiliary to the main question. No action may be taken at the executive session.

(b) The following excepted subjects may be discussed in an executive session:

(1) matters, the immediate knowledge of which would clearly have an adverse effect upon the finances of the Alaska Railroad;

(2) subjects that tend to prejudice the the reputation and character of any person, provided the person may request a public discussion;

(3) matters which by law, municipal charter, or ordinance are required to be confidential.

(c) The board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information associated with specific shippers, divisions, and contract rate agreements.

Sec 42.40.220. MINUTES AND NOTICE OF MEETINGS. The board shall keep minutes of each meeting. Reasonable notice of the meetings shall be provided to the public.

**Sec. 42.40.230. RULES. The board shall establish a procedu for adopting rules to carry out its functions and the purposes of th chapter. The rules shall include a procedure for the adoption c emergency rules when the adoption of an emergency rule is essential t continue or to reinstate the orderly operation of the corporation' facilities or program.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Excep as provided by rule of the corporation under (b) of this section information in the possession of the corporation is public and is ope to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold publi disclosure of matters of a nonpublic, privileged, or proprietar nature. Those matters include personnel records, communications wit and work product of counsel consistent with the standards an practices of the United States Interstate Commerce Commission, an information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. This report shall include a breakdown of a service's real costs and income in each category of railroad operations.

**To be revised to include notice of adoption of rules as required by Alaska Housing Finance or Permanent Fund Corporation.

Sec. 42.40.230. Rules. (a) The board shall establish in its bylaws a procedure for adopting rules to carry out its functions and the purposes of this chapter.

(1) The corporation shall make available to members of the public copies of the rules adopted under this section.

(2) Within 45 days after adoption, the chairman of th board shall submit a rule adopted under this section to the chairman of the Administrative Regulation Review Committee under AS 24.20.400 - 24.20.460.

(b) Except as provided in (c) of this section, at least 15 days before the adoption, amendment, or repeal of a rule, the board shall give public notice of the proposed action by publishing the notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to every person who has filed a request for notice of proposes rules with the board or the corporation. The public notice must include a statement of the time, place, and nature of the proceedings for the adoption, amendment, or repeal of the rule and must include and informative summary of the proposed subject of the rule. On the date and at the time and place designated in the notice, the board shall give each interested person or his authorized representative , or both, the opportunity to present statements, arguments or contentions in writing, and shall give members of the public an opportunity to present statements, arguments, or contentions in writing, and shall give members of the public an opportunity to present oral statements, arguments, or contentions for a total period of at least one hour. The board shall consider all relevant matter presented to it before adopting, amending, or repealing a rule which is adopted, or its amendment or repeal, may vary in content from the informative summary

specified in this subsection if the subject matter of the rule, or its amendment or repeal, remains the same and the original notice was written so as to assure that members of the public are reasonably notified of the proposed subject of the board's action in order for them to determine whether their interests could be affected by the board's action on that subject.

(c) The board shall in its bylaws establish a procedure for adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or programs. The requirements of (b) of this section do not apply to the initial adoption of an emergency regulation; however, upon adoption of an emergency regulation, the board shall, within 10 days after adoption, give notice of the adoption in accordance with (b) of this section. No emergency regulation adopted under this subsection remains in effect more than 120 days unless the board complies with (b) of this section during the 120-day period.

(d) A rule adopted under this section becomes effective immediately upon its adoption by the board, unless otherwise specifically provided by order of the adoption.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

Sec. 42.40.280. PERFORMANCE AUDIT. On a yearly basis the board shall have a performance audit conducted by a recognized railroad management expert on all aspects of the Alaska Railroad operations.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt rules;

(3) adopt bylaws governing the business of the corporation;

(4) sue and be sued;

(5) appoint trustees and agents of the corporation and prescribe their powers and duties;

(6) hire legal counsel to represent the corporation;

(7) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(8) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying

under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(9) acquire property by eminent domain in accordance with AS 42.40.430;

(10) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, or transfer any real or personal property including facilities and equipment in accordance with the provisions of this Act.

(11) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(12) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(13) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate for expansion or extension and operation of the Alaska Railroad;

(14) maintain offices and facilities at places it designates;

(15) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(16) prescribe rates to be charged for services provided t the Alaska Railroad consistent with 45 U.S.C. 1201-1214 (Alask Railroad Transfer Act of 1982);

(17) determine the routes, schedules, and types of servic to be provided by the Alaska Railroad;

(18) enter into contracts, leases, and other agreements wit connecting carriers, shippers, and other persons concerning th services, activities, operations, properties and facilities of th railroad, including contracts, leases and other agreements tha contain provisions intended to preserve and expand the railroad' traffic base;

(19) plan for and undertake expansion of the railroad an railroad activities, including extension of the Alaska Railroad's rai system, and contract with other modes of transportation service con necting to the railroad's rail services;

(20) adopt rules that are designed to safeguard propert owned, managed, or transported by the corporation and to protec employees and persons using the corporation's property or services;

(21) hire and discharge railroad personnel and determin benefits and other terms and conditions of employment established i accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alask Railroad Transfer Act of 1982);

(22) assume and satisfy liabilities of the United States o its agencies as provided by the federal transfer legislation and th closing report or its substantive equivalent as accepted by the legis- lature;

(23) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(24) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(25) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(26) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(27) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(28) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(29) cancel bonds purchased under (28) of this section.

(30) do all things necessary, convenient or desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

**Sec. 42.40.310. LONG-RANGE EXPANSION AND CAPITAL IMPROVEM PLANS. (a) The corporation shall prepare and the board shall adop long-range expansion plan and a capital improvement plan. The lo: range expansion plan shall delineate the manner in which the corpo tion intends to accomplish the purposes of this chapter during each the five years after the plan is adopted. The capital improveme plan shall present and explain the corporation's anticipated capit improvements for each of the five years after the plan is adopted.

(b) The board shall annually review and update the plans r quired under (a) of this section. The board may not contract for t preparation or revision of either the long-range expansion plan or t capital improvement plan, but shall require their preparation or revision by employees of the corporation.

(c) The board shall provide copies of its updated plans to th governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporatio shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corpo- ration may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorize by law by persons having the possession or control of it is prohibi- ted.

(b) Notwithstanding the provisions of this section, the corpo- ration may

staff language for a two year program plan.

(1) defend and indemnify a current or former employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers; and

(2) purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. (a) All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All lands transferred or acquired shall be designated as follows

(1) railroad rights-of-way or easements transferred under the federal act or otherwise acquired are railroad utility corridors;

(2) All other real property transferred under the Transfer Act, or otherwise acquired, are rail lands.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width only if the adjoining land is not rail property, and may be surveyed by the metes and bounds method; and

(c) The corporation may not sell land within the railroad corridor. However, the corporation may lease, grant easements or permits, or otherwise authorize use of portions of the railroad utility corridor but only for transportation, communication, and transmission purposes and for support functions associated with such purposes.

(d) The corporation may lease, grant easements or permits, or otherwise authorize use of portions of rail lands for other services including but not limited to transportation, communication, and transmission purposes and for support function associated with such purposes.

Sec. 42.40.410. NOMINATION OF LAND. The board may by rule identify and request federal land to be nominated for state selection for Railroad purposes.

Sec. 42.40.420. IDENTIFICATION,CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board by rule may identify and request conveyance of land owned by or tentatively approved for transfer to the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, or future railroad purposes. The request must include a statement of and justification for the present, or future railroad use. Upon submission of a request for classification and conveyance

to the commissioner of natural resources, the commissioner shall temporarily designate and reserve the land identified in the request for railroad purposes and shall temporarily vacate a classification allowing disposal or lease of that land under laws or programs of the state. A temporary designation and vacation is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall;

(1) designate that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to designate the land for railroad purposes.

(3) approve in part and deny in part the request for designation under this section and convey as appropriate.

(c) In the absence of a reservation to the contrary, a conveyance under (b) of this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract or use for its purposes, timber and other constructed material, sand, gravel, rock, and the right to tunnel, ditch, recontour, excavate or otherwise use the surface or subsurface for railroad, transportation, transmission, and related purposes without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporacion may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

*Sec. 42.40.425. LAND USE REGULATION. The board may adopt exclusive regulations governing land use by private parties having interests in or permits for land owned or managed by the corporation. The power conferred by this section is exercised for the common health, safety, and welfare of the public and, to the extent constitutionally permissible, may not be limited by the terms and conditions of leases, contracts, or other transactions with private parties.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for lawful purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the state's lawful purposes in condemning property.

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand,

*Problem - future analysis

timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

(e) The corporation may vacate land, or part of it, or rights in land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing of the deed, title reverts to the State of Alaska, if compensation has been paid.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq (the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.460. MUNICIPAL RIGHTS-OF-WAY. Upon request of a municipality the corporation may grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the right-of-way including but not limited to

(a) defending the corporation in any cause of action brought against the railroad as a result of such use,

(b) indemnifying the corporation for the amount of any judgement rendered against the railroad including prejudgement interest, costs, and attorney's fees; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. (a) The corporation shall protect its assets, services, and personnel by insurance, including certain self-insured retentions.

(b) The corporation shall also maintain Casualty, Property, Business Interruption, Marine, Boiler and Machinery, Pollution Liability, and Miscellaneous Insurances in amounts reasonably calculated to cover potential claims for bodily injury, death or disability, consequential and property damage that may arise or be related to its operations and activities, including the liabilities of the State.

(c) The Corporation may contract with the Department of Administration, Division of Risk Management for the provision of all or part of the requirements in subsections (a) and (b).

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In any claim or other legal action against the corporation, including actions involving the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, whether or not the action is considered to be a public interest case, it is not an abuse of discretion for a court to award full costs and attorney fees and for the losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

*Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of AS 42.40.300 and 42.40.310.

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

*Problem - future analysis

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) Bond or bond anticipation note proceeds may not be dedicated to activities other than those the board reasonably determines to be specifically related to the purposes for which the instruments are issued.

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes,

or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corpo-

ration, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

(17) appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

(18) limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) make covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

Sec. 42.40.580. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts

or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation for the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds

or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.650. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the

state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. *(a) The real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

*Problem - future analysis

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 7. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.710. COLLECTIVE BARGAINING RIGHTS. (a) The provisions of the Public Employee Relations Act (AS 23.40) do not apply to the corporation or to its employees. However, employees of the corporation, except the chief executive official and other executive officials appointed by the chief executive official, may self organize and form, join, or assist an organization to engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

(b) The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.720. AGREEMENT. (a) The Department of Administration shall participate in the negotiations between the corporation and an employee organization. The corporation may not enter into a collective bargaining agreement concerning wages, hours, or other terms and conditions of employment unless the proposed contract terms are approved by the Department of Administration.

(b) An agreement executed between the corporation and an employee organization shall define "grievances." The agreement shall provide for a grievance procedure in which the final step in the procedure is binding arbitration.

Sec. 42.40.730. RAILROAD EMPLOYEES LABOR RELATIONS AGENCY.

(a) There is established a railroad employees labor relations

agency which consists of three members appointed by the governor. One member shall be a member of the labor relations agency (AS 23.40). Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS 23.40.090 -- 23.40.190 to carry out the provisions of the article.

(c) Members of the railroad employees labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.740. STRIKES. (a) Employees of the corporation may engage in a strike if a majority of the employees in a collective bargaining unit vote by secret ballot to do so.

(b) Notwithstanding the provisions of subsection (a), the employees and the corporation may agree in writing to submit a dispute arising from interpretation or application of a collective bargaining agreement to arbitration.

Sec. 42.40.750. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may upon request communicate with and appear berore committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

*(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

ARTICLE 8. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska

*Problem - future analysis

Railroad Corporation is not subject to the jurisdiction of the Alaska Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

*(4) AS 37.05;

*(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

*(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.910. CONFLICTING LAWS INAPPLICABLE. If provisions of AS 42.40.010 - 42.40.990 conflict with the provisions of other law, the provisions of AS 42.40.010 - 42.40.990 prevail. Provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1202 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the deed of conveyance for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

*Problem - future analysis

*(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all interests in real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation as provided in 45 USC 1202(10).

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act of 1984.

* Sec. 3. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE: REMOVAL. (a) Except for the commissioner of Commerce and Economic Development, the voting members of the board serve for staggered terms of five years each [, AND SERVE AT THE PLEASURE OF THE GOVERNOR DURING THEIR TERMS].

* Sec. 4. AS 42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation causes by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

* Sec. 5. AS 42.40.100(a) is amended to read:

(a) The board shall appoint the chief executive officer of the corporation [SUBJECT TO THE APPROVAL BY THE GOVERNOR]. The chief executive officer serves at the pleasure of the board. The

*Problem - future analysis

board shall fix compensation for the chief executive officer.

* Sec. 6. SPECIAL REPORT. The governor shall contract with a private consultant for the preparation of a report on the long-term operations of the railroad that are in the best interest of the state. The report shall be submitted to the governor and the legislature by January 1, 1988. It shall contain specific recommendations on operational alternatives and the transfer of all or part of the railroad operation to the private sector.

* Sec. 7. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.030 enacted in Sec. 2 of this Act, the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) one shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 8. PRE-EXISTING RULES, REGULATIONS AND ORDERS OF THE ALASKA RAILROAD. The Board of Commissioners of the Alaska Railroad Corporation, by resolution, may continue in force for a period of not more than two years after date of transfer all or part of the rules, regulations, and orders of the Alaska Railroad which were in effect one day before the date of transfer and are not inconsistent with this chapter or other state law. All authorities continued in force under this section shall expire on the second anniversary of the date of transfer. The Board of Directors may adopt in its rules, regulations, and orders the substance of former federal authorities relating to the Alaska Railroad. This adoption is not considered a continuation of the federal authorities if made in compliance with the procedural requirements of this chapter and other applicable law.

* Sec. 9. COLLECTIVE BARGAINING AGREEMENT BETWEEN THE ALASKA RAILROAD CORPORATION AND EMPLOYEES. As soon as practicable after transfer of the Alaska Railroad, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees immediately before transfer of the Alaska Railroad. The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1202-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 10. Sections 3 - 5 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 11. Sections 1, 2, 6, 7, 8 and 9 of this Act take effect immediately in accordance with AS 01.10.070.(c).

*Problem - future analysis

Bill Drafts

#1

3/22/84 Draft

IN THE HOUSE

HOUSE BILL NO. 512

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) It is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the Railroad under the terms and conditions offered by the United States

government;

(5) there is vast potential in Alaska's natural resource areas and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state;

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) Generally carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the

overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state within the Department of Commerce and Economic Development, but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential governmental function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of the Department of Commerce and Economic Development, the Chief Executive Officer and seven voting members appointed by the governor. Of the seven voting members, at least five must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The public [voting] members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including, but not limited to transportation, business, and finance.

Except for the commissioner of commerce and economic development, a voting member may not be a state officer or employee.

(1) One voting member [shall] may be or have been an executive official of an American railroad that is not now or was ne er a connecting carrier of the Alaska railroad.

(2) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(3) One [an] employee of the corporation from an empolvee bargaining unit appointed by the governor to represent the employees;

(4) the chief executive officer of the corporation.

(b) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(c) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(d) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(e) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

Sec. 42.40.030. TERM OF OFFICE AND REMOVAL. Except for the commissioner of commerce and economic development, the appointed members of the board serve for staggered terms of five years each, and serve at the pleasure of the governor during their terms..

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of [$250] $400 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. [Four] Five voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. [Four] Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by means of telecommunication devices.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.080. MANAGEMENT BY THE BOARD. The board is responsible

for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier; subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) Generally manage the corporation on a self-sustaining basis

(4) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(5) raise needed capital by issuing obligations of the corporation while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

(6) review state and other land disposals in planning for future development or expansion.

(7) insure that accepted railroad industry standards are used for the corporation's accounting and procurement systems.

Sec. 42.40.090. STATE OVERSIGHT (a). The board shall notify the governor and the leadership of the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer to the authority or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or 5 percent of the railroads total track mileage, whichever is

greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000.

(4) any possible application for state appropriation for any service which is not self-sustaining.

(b) The notice required by (a) of this section must be in writing and describe the proposed undertaking in detail, specifying

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) why the action is necessary or desirable to achieve the purposes of this chapter and;

(4) whether and when the undertaking will be self-sustaining financially.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation. [subject to the approval by the Governor.] The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 180 days of the first meeting of the board, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(5) establish and maintain the Railroad's procurement and accounting systems.

(c) Specific board approval [authorization or concurrence] is required for the following:

(1) transferring the corporation's entire interest in real property; other than the execution of a release of a lein or satisfaction of a mortgage after payment has been received;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program and capital improvement plan subject to Sec. 42.40.310;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversification and major expanison or reducing services beyond those provided on the date of transfer or as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

(12) certifying collective bar ng agreements with railroad employees as provided by AS. 42.4 .700;

(13) capital projects with an estimated completion cost in excess of $500,000 or an estimated completion time of more than one year;

(14) the exercise of the power of eminent domain;

(15) adopting annual budgets.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the corporation [authority] may not participate in a decision of the corporation [authority] in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if that person or a member of that persons immediate family has only a

remote interest and if the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the interested mamber or employee. As used in this subsection, "remote interest" means interests that in good faith are defined as remote by rules adopted by the corporation.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section.

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public with the exception of an executive session conducted under AS 44.62.310 and (b) of this section.

(b) In addition to those subjects that may be discussed in executive session, the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information including but not limited to proprietary information associated with specific shippers, divisions, and contract rate agreements.

Sec 42.40.220. MINUTES AND NOTICE OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes of the public portion of each meeting to the governor and the leadership of the legislature. The board shall provide by rule for advance public notice for its meetings.

***** Sec. 42.40.230. RULES. (a) The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. Within 90 days after its first meeting the board shall adopt rules establishing a procedure for giving advance public notice and an opportunity for the public to comment on proposed regulations of the authority that in the determination of the board, will have a substantial impact on the public or be used in the corporations dealings with a significant segment of the public.

(b) The rules shall also include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

(c) The Board of Directors of the Alaska Railroad Corporation, by resolution, may continue in force after date of transfer all or part of the rules, regulations, and orders of the Alaska Railroad which were in effect one day before the date of transfer and are not inconsistent with this chapter or other state law. The Board of Directors may adopt in its rules, regulations, and orders the substance of former federal authorities relating to the Alaska Railroad. This adoption is not considered a continuation of the federal authorities if made in compliance with the procedural requirements of this chapter and other applicable law.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section,

information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, and information including but not limited to specific shippers, divisions, and contract rate agreements.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The plans may include suggestions for legislation relating to the structure, powers, or duties of the corporation or relating to operation of facilities of the corporation. This report shall include a breakdown of a service's real costs and income in each category of railroad operations.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

Sec. 42.40.280. PERFORMANCE AUDIT. The board shall have a performance audit conducted by a qualified professional preformance auditing firm to assure thst the railroad is bei[illegible] managed and

operated effectively and efficiently in accordance with the requirements of this Chapter.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt rules and bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its

political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter .

(13) maintain offices and facilities at places it desig-nates;

(14) acquire, hold, and disperse of Stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests which are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(15) undertake and provide for the acquisition, construction, maintenance, equiping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(16) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(17) prescribe rates to be charged for services provided by the Alaska Railroad in accordance with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(18) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(19) enter into contracts, leases or other agreements with connecting carriers and shippers, and other persons concerning the services, activities, operations, properties, and facilities of the railroad. including contracts leases and other agreements that contain provisions intended to preserve and expand the railroad's traffic base;

(20) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(21) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(22) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(23) assume and satisfy liabilities of the United States or its agencies as provided by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982;

(24) maintain or provide for a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(25) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(26) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(27) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(28) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(29) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(30) cancel bonds purchased under (29) of this section;

(31) adopt rules having the force of law that require designated classes of proprietary information and communications to be held confidential;

(32) do all things necessary, convenient and desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. LONG-RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range program plan and a capital improvement plan. The board shall consult [interface] with affected [other related] state agencies in preparation of the plans. The long-range program plan shall delineate the manner in which the corporation intends to accomplish

the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted and shall reflect efforts to upgrade the railway and develop safer, more cost-effective rail operations.

(b) The board shall annually review and update the plans required under (a) of this section. [The board may not contract for the preparation or revision of either the long-range program plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.]

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense,

settlement, or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All lands transferred or acquired are designated as follows

(1) railroad rights-of-way or easements transferred under the Transfer Act or otherwise acquired shall be classified as railroad utility corridors;

(2) all other real property transferred under the Transfer Act or otherwise acquired, are rail lands.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width only if the adjoining land is not rail property, and may be surveyed by the metes and bounds method; and

(c) The corporation may not sell land within the railroad corridor. [However], Except as provided in AS 42.40.460, the corporation may lease, grant easements or permits or otherwise authorize use of portions of the utility corridor but only for transportation, transmission, or communication purposes and for support functions associated with such purposes, so long as parallel uses of the railroad corridor are

not restricted.

(d) The corporation may convey, lease, grant easements or permits or otherwise authorize use of portions of rail lands for other

services including but not limited to transportation, transmission, and communication purposes and for support functions associated with such purposes. Final sale of land must be approved by the legislature.

(e) Vegetation control involving the use of pesticided and herbacides on lands owned or managed by the Corporation shall be conducted in compliance with state requirements otherwise applicable with state requirements otherwise applicable to state pesticide and herbacide projects.

Sec. 42.40.410 NOMINATION OF LAND The board may nominate federal land for state selection through the Department of Natural Resources for railroad purposes.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board [by rule] may identify and request conveyance of land owned by or tentatively approved for transfer to [subject to selection by] the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, or future [or intended] railroad purposes. The request must include a statement of and justification for the present or future [or intended] railroad use. Upon submission of a request for [classification and] conveyance to the commissioner of natural resources, the commissioner shall temporarily [classify and] reserve the land identified in the request for railroad purposes and shall temporarily [vacate a classification allowing] hold in abayance any disposal or lease of that land other than to the corporation under laws or programs of the state. [A temporary classification and vacation] such lands held by the department of natural resources under this section is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by written decision shall;

(1) designate [classify] that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to designate [classify] the land for railroad purposes.

(3) approve in part and deny in part the request for designation [classification] under this section and convey as appropriate.

(c) In the absence of a reservation to the contrary, a conveyance under (b) of this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials and the right to tunnel, ditch, recontour, excavate or otherwise use the sub-surface for railroad, transportation, transmission, or communication and related services without regard to the classification of the resources as part of the surface or sub-surface estate.

(d) The corporation may reconvey to the state land received under this section or under 45.U.S.C. 1201-1214 (the Alaska Railroad Transfer Act of 1982) that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines

that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue state rail operations at a normal level.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for railroad [lawful] purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the [state's lawful] purposes of this chapter [in condemning property].

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

(e) The corporation may vacate land, or part of it, or rights in land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing of the deed, title reverts to the State of Alaska, if compensation has been paid.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq (the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.460. MUNICIPAL RIGHTS -OF-WAY. Upon request of a municipality the corporation may grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the right-of-way including but not limited to

(a) defending the corporation in any cause of action brought against the railroad as a result of such use.

(b) indemnifying the corporation for the amount of any judgement rendered against the railroad including prejudgement interest, costs, and attorney's fees; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or

revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers as provided in AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(c) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(d) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

(e) The corporation may defend and indemnify a current or former

employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter [AS 42.40.300 and 42.40.310].

ARTICLE 7 BONDS AND NOTES

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and [bond anticipation] notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal, state, or local government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(d) Bonds and notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds and notes may be sold in the manner, on the terms, and at the price the board determines. [Bond anticipation] notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) In the discretion of the board, an issue of bonds may be secured by a trust indenture (which may be a trust company, bank or national banking association, with corporate trust powers, located inside or outside the state) or by a secured loan agreement or other instrument or under resolution giving powers to a corporate trustee by means of which the corporation may

(1) make and enter into any and all the covenants and agreements with the trustees or the holders of the bonds which the corporation may determine to be necessary or desirable, including, without limitation, covenants, provisions, limitations and agreements as to

(A) the application, investment, deposit, use and disposition of the proceeds of bonds of the corporation or of money or other property of the corporation or in which it has an interest;

(B) the fixing and collection of rentals, charges, fees or other consideration for, and the other terms to be incorporated in, contracts with respect to the use of any of the corporation's property;

(C) the fixing and collection of tariffs, fees, charges or other consideration for the use or service of the Alaska Railroad by passengers, and other users and freight;

(D) the terms and conditions upon which additional bonds of the corporation may be issued;

(E) the vesting in the trustee of rights and remedies exercisable by the trustee for the protection of the holders of bonds of the corporation and not otherwise in violation of law and the restriction of the rights of an individual holder of bonds of the corporation;

(2) pledge, mortgage or assign money , leases, agreements, property or other assets of the corporation either presently in hand or to be received in the future, or both; and

(3) provide for any other matters of like or different character which in any way affect the security or protection of the bonds.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private or public sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind in tort contract or otherwise against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are

negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. (a) The real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

***(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.[, except that the provisions of AS 39.50.010-39.50.200 shall apply to the members of the board and all appointed executive officers.]

Sec. 42.40.710 COLLECTIVE BARGAINING RIGHTS. The provisions of the Public Employee Relations Act (AS 23.40.070-23.40.260) do not apply to the corporation or to its employees. However, employees of the corporation, except the chief executive officer and other executive officers appointed by the chief executive officer, may self organize and form, join or assist an organization to bargain collectively through representatives of their own choosing, and engage in concerted activities for the purpose of collective bargaining or other mutual aid or protection.

Sec. 42.40.720 RAILROAD LABOR RELATIONS AGENCY. (a) There is established a railroad labor relations agency which consists of three members appointed by the governor. One member shall be a member of the state labor relations agency (AS23.40). Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS 42.40.700-42.40.990 to carry out the provisions of this article.

(c) Members of the railroad labor relations agency receive no compensation for their service, but are entitled to per diem and travel expenses authorized for board and commissions.

Sec. 42.40.730. COLLECTIVE BARGAINING UNIT. The railroad labor relations agency shall decide in each case, in order to assure to employees the fullest freedom in exercising the rights guaranteed by AS.42.40.700-42.40.990 the unit appropriate for the purposes of collective bargaining, based on such factors as community of interest, wages, hours

and other working conditions of the employees involved, the history of collective bargaining, and the desires of the employees. Bargaining units shall be as large as is reasonable, and unnecessary fragmenting shall be avoided.

Sec. 42.40.740. REPRESENTATIVES AND ELECTIONS. (a) The railroad labor relations agency shall investigate a petition if it is submitted in a manner prescribed by the labor relations agency and is

(1) by an employee or group of employees or an organization acting in their behalf alleging that 30 percent of the employees of a proposed bargaining unit

(A) want to be represented for collective bargaining by a labor or employee organization as exclusive representative, or

(B) assert that the organization which has been certified or is currently being recognized by the corporation as bargaining representative is no longer the representative of the majority of employees in an appropriate unit; or

(2) by the corporation alleging that one or more organizations have presented to it a claim to be recognized as a representative of a majority of employees in an appropriate unit.

(b) If the railroad labor relations agency has reasonable cause to believe that a question of representation exists, it shall provide for an appropriate hearing upon due notice. If the railroad labor relations agency finds that there is a question of representation, it shall direct an election by secret ballot to determine whether or by which organization the employees desire to be represented and shall certify the results of the election. Nothing in this section prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the regulations of the railroad labor relations agency or an election in a bargaining unit agreed upon by the parties. The railroad labor relations

agency shall determine who is eligible to vote in an election and shall establish rules governing the election. In an election in which none of the choices on the ballot receives a majority of the votes cast, a runoff election shall be conducted, the ballot providing for selection between the two choices receiving the largest number of valid votes cast in the election. If an organization receives the majority of the votes cast in the election it shall be certified by the railroad labor relations agency as exclusive representative of all the employees in the bargaining unit.

(c) An election may not be held in a bargaining unit or in a subdivision of a bargaining unit if a valid election has been held within the preceding 12 months.

(d) Nothing in this chapter prohibits recognition of an organization as the exclusive representative by the corporation by mutual consent.

(3) No election may be directed by the railroad labor relations agency in a bargaining unit in which there is in force a valid collective bargaining agreement, except during a 90-day period preceding the expiration date. However, no collective bargaining agreement may bar an election upon petition of persons in the bargaining unit but not parties to the agreement if more than three years have elapsed since the execution of the agreement or the last timely renewal, whichever was later.

Sec. 42.40.750. UNFAIR LABOR PRACTICES. (a) The corporation or its agent may not

(1) interfere, restrain or coerce an employee in the exercise of his rights guaranteed in AS 42.40.710;

(2) dominate or interfere with the formation, existence or administration of an organization;

(3) discriminate in regard to hire or tenure of employment or a term or condition of employment to encourage or discourage membership in an organization;

(4) discharge or discriminate against an employee because he has signed or filed an affidavit, petition or complaint or given testimony under AS 42.40.010-42.40.990;

(5) refuse to bargain collectively in good faith with an organization which is the exclusive representative of employees in an appropriate unit, including but not limited to the discussing of grievances with the exclusive representative.

(b) Nothing in this article prohibits the corporation from making an agreement with an organization to require as a condition of employment

(1) membership in the organization which represents the unit on or after the 30th day following the beginning of employment or on the effective date of the agreement, whichever is later; or

(2) payment by the employee to the exclusive bargaining agent of a service fee to reimburse the exclusive bargaining agency for the expense of representing the members of the bargaining unit.

(c) A labor or employee organization or its agents may not

(1) restrain or coerce

(A) an employee in the exercise of the rights guaranteed in AS 42.40.710 or

(B) the corporation in the selection of his representative for the purposes of collective bargaining or the adjustment of grievances;

(2) refuse to bargain collectively in good faith with the corporation, if it has been designated in accordance with the provision of AS 42.40.700-42.40.990 as the exclusive representative of employees in an appropriate unit.

Sec. 42.40.760. INVESTIGATION AND CONCILIATION OF COMPLAINTS. If a verified written complaint by or for a person claiming to be aggrieved by a practice prohibited by AS 42.40.750 or a written accusation that a person subject to AS 42.40.700-42.40.990 has engaged in a prohibited practice, is

filed with the railroad labor relations agency, it shall investigate the complaint or accusation. If it determines after th preliminary investigation that probably cause exists in support of the complaint or accusation, is shall try to eliminate the prohibited practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during this endeavor may be used as evidence in a subsequent proceeding.

Sec. 42.40.770 COMPLAINT AND ACCUSATION. If the railroad labor relations agency fails to eliminate the prohibited practice by conciliation and to obtain voluntary compliance with AS 42.40.700-42.40.990, or before it attempts conciliation, it may serve a copy of the complaint or accusation upon the respondent. The complaint or accusation and the subsequent procedures shall be handled in accordance with the administrative adjudication portion of the Administrative Procedures Act (AS 44.62).

Sec. 42.40.780 ORDERS AND DECISIONS. If the railroad labor relations agency finds that a person named in the written complaint or accusation has engaged in a prohibited practice, the railroad labor relations agency shall issue and serve on the person an order or decision requiring him to cease and desist from the prohibited practice and to take affirmative action which will carry out the provisions of AS 42.40.700-42.40.990. If the railroad labor relations agency finds that a person named in the complaint or accusation has not engaged or is not engaging in a prohibited practice, the railroad labor relations agency shall state its findings of fact and issue an order dismissing the complaint or accusation.

Sec. 42.40.790 ENFORCEMENT BY INJUNCTION. The railroad labor relations agency may apply to the superior court in the judicial district in which the prohibited practice occurred for an order enjoining the prohibited acts specified in the order or decision of the railroad labor relations agency. Upon showing by the railroad labor relations agency that

the person has engaged or is about to engage in the practice, an injunction restraining order, or other order which is appropriate may be granted by the court and shall be without bond.

Sec. 42.40.800 POWER TO INVESTIGATE AND COMPEL TESTIMONY. (a) For the purpose of the investigations, proceedings, or hearings which the railroad labor relations agency considers necessary to carry out the provisions of AS 42.40.700-42.40.990, the railroad labor relations agency may issue subpoenas requiring the attendance and testimony of witnesses and the production of relevant evidence.

(b) The railroad labor relations agency may administer oaths, examine witnesses, and receive evidence.

(c) The attendance of witnesses and the production of evidence may be required from any place in the state at any designated place of hearing.

(d) If a person refuses to obey a subpoena issued under AS 42.40.700-42.40.990, the superior court in the district in which the person resides or is found may, upon application by the railroad labor relations agency, issue an order requiring him to comply with the subpoena.

Sec. 42.40.810 REGULATIONS. The railroad labor relations agency shall adopt regulations under the Administrative Procedure Act (AS 44.62) to carry out the provisions of AS 42.40.700-42.40.990.

Sec. 42.40.820. PENALTY FOR VIOLATION OF ORDER OR DECISION. A person who violates a provision of an order or decision of the railroad labor relations agency is guilty of a misdemeanor and is punishable by fine of not more than $500.

Sec. 42.40.830. MEDIATION. If after a reasonable period of negotiation over the terms of a collective bargaining agreement, an impasse exists between the corporation and an organization, the railroad labor relations agency shall appoint a person, mutually agreeable to the parties

from a list of qualified mediator/arbitrators knowlegable in railway labor agreements to act as mediator in the dispute.

(b) Prior to a determination of an impasse under this section, the parties may also select a mediator by agreement or mutual consent.

(c) It shall be the function of the mediator to bring the parties together voluntarily under such favorable auspices as will tend to effectuate settlement of the dispute, but neither the mediator nor the railroad labor relations agency has any power of compulsion in mediation proceedings.

Sec. 42.40.840. STRIKES. (a) Following a decision by the mediator to end the mediation proceedings, employees of a collective bargaining unit may engage in a strike for a limited time if a majority of the employees in that collective bargaining unit vote by the interest of the health, safety or wrlfare of the public. The corporation may apply to the superior court in the judicial district in which the strike is occuring for an order enjoining the strike. A strike may not be enjoined unless it can be shown that it has begun or is about to threaten the health, safety or welfare of the public. A court, in deciding whether or not to enjoin the stike, shall consider the total equities in the particular class. "Total equities" includes not only the impact of a strike on the public but also the extent to which an employee organizstion and the corporation have met their statutory obligations. If an impasse or deadlock still exists after the issuance of an injunction, the parties shall submit the dispute to binding arbitration. The arbitrator shall be the same person selected under Sec. 42.40.830 and shall fasion the award as he/she deems equitable.

(b) Notwithstanding the provisions of (a) of this section, the parties to the dispute may mutually agree to submit the dispute to binding arbitration.

Sec. 42.40.850. AGREEMENT. (a) Upon the completion of negotiations between an organization and the corporation, if a settlement is reached, the corporation shall reduce it to writing in the form of an agreement. The agreement shall include a grievance procedure which shall have binding arbitration as its final step. Either party to the agreement has a right of action to enforce the agreement by petition to the labor relations agency.

(b) The parties to an agreement under this section may agree to terms which specify an expiration date for the agreement. If a specfic term is set for which an agreement will remain in effect, provisions shall be included prohibiting any strikes or lockouts during the term of the agreement during and establishing a process for minor amendments to the agreement during the term of the agreement, which shall have binding arbitration as its final step.

(c) The Department of Administration may participate in labor negotiations between the corporation and an employee organization. The corporation shall seek advice of the Department of Administration prior to entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employment. However, the final decision regarding collective bargaining agreements, shall be made by the board.

Sec. 42.40.860. LABOR OR EMPLOYEE ORGANIZATION DUES AND EMPLOYEE BENEFITS, DEDUCTION AND AUTHORIZATION. Upon written authorization of a corporation employee within a bargaining unit, the corporation shall deduct from the payroll of the employee the monthly amount of dues, fees and other employee benefits as certified by the secretary of the exclusive bargaining representative and shall deliver it to the chief fiscal officer of the exclusive bargaining representative.

Sec. 42.40.870. EXEMPTION FROM ARTICLE 7. Notwithstanding the provisions of AS 42.40.860, a collective bargaining settlement reached, or

agreement entered into, under AS 42.40.850 that incorporates union security provisions, including but not limited to a union shop or agency shop provision or agreement, shall safeguard the rights of nonassociation of employees having bona fide religious convictions based on tenets or teachings of a church or religious body of which an employee is a member. Upon submission of proper proof of religious conviction to the railroad labor relations agency, the agency shall declare the employee exempt from becoming a member of a labor organization or employee association. The employee shall pay an amount of money equivalent to regular union or association dues, initiation fees, and assessments to the union or association. Nonpayment of this money subjects the employee to the same penalty as if it were nonpayment of dues. The receiving union or association shall contribute an equivalent amount of money to a charity of its choice not affiliated with a religious, labor or employee organization. The union or association shall submit proof of contribution to the railroad labor relations agency.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 38;

(11) AS 44.62.040 - 44.62.320.

Sec. 42.40.910. SPECIAL REPORT. The corporation shall investigate and prepare a report for the governor and the legislature on the long-term operations of the railroad that are in the best interest of the state. The report shall be due January 1, 1988. It shall make specific recommendations on operational alternatives and the transfer of all or part of the railroads operations to the private sector.

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the [deed of conveyance] transfer documents for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all interest in real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation:

(8) "executive officials" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager, Assistant General Manager,

Assistant to the General Manager, Chief of Administration and General Counsel.

(9) "railroad labor relations agency" means railroad employee labor relations agency with regard to the corporation and employees of the corporation.

(10) "election" means a proceeding conducted by the labor relations agency in which the employees in a collective bargaining unit cast a secret ballot for collective bargaining representatives, or for any other purpose specified in AS 42.40.700-42.40.990

(11) "organization" means a labor or employee organization of any kind in which employees participate and which exists for the primary purpose of dealing with the corporation concerning grievances, labor disputes, wages, rates of pay, hours of employment and conditions of employment.

(12) "collective bargaining" means the performance of the mutual obligation of the corporation or its designated representatives and the representatives of the employees to meet at reasonable times, including meetings in advance of the budget making process and negotiating in good faith with respect to wages, hours and other terms and conditions of employment, or the negotiation of an agreement, or negotiation of a question arising under an agreement and the execution of a written contract incorporating an agreement reached if requested by either party, but these obligations do not compel either party to agree to a proposal or require the making of a concession;

(13) "terms and conditions of employment" means the hours of employment, the compensation and fringe benefits affecting the working conditions of the employees; but does not mean the general policies describing the function and purposes of the corporation.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as

the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.010 ESTABLISHMENT OF THE CORPORATION

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and, is an instrumentality of the state [within the Department of Commerce and Economic Development], but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential governmental function of the state.

* Sec. 4 AS 42.40.020 (a) is amended to read:

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of [the commissioner of the Department of Commerce and Economic Development, the Chief Executive Officer and eight [seven] voting members appointed by the governor. These eight members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The public [voting] members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including, but not limited to transportation, business, and finance. Except for [the commissioner of commerce and economic development], the chief executive officer, and the member appointed under (d) of this section, a voting member may not be a state officer or employee.

(1) One voting member [shall] may be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

(2) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(3) One [an] employee of the corporation from an empolyee bargaining unit appointed by the governor to represent the employees;

(4) the chief executive officer of the corporation.

(b) Except for [the commissioner of commerce and economic development and] the chief executive officer of the corporation, the voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(c) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(d) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(e) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

* Sec. 5. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE: REMOVAL. (a) Except for the commissioner of Commerce and Economic Development, the voting members of the board serve for staggered terms of five years each [, AND SERVE AT THE PLEASURE OF THE GOVERNOR DURING THEIR TERMS].

* Sec. 6. AS.42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation causes by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

(4) any conduct that was intended to harm the corporation whether or not it constitutes a crime

* Sec. 7. AS 42.40.100(a) is amended to read:

(a) The board shall appoint the chief executive officer of the corporation [SUBJECT TO THE APPROVAL BY THE GOVERNOR]. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

* Sec. 8. CONFLICTING LAWS INAPPLICABLE. If provisions of this Act are in conflict with the provisions of other state law, the provisions of this Act prevail. [Where possible], Provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 9. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the governor shall designate the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 10. COLLECTIVE BARGAINING AGREEMENT BETWEEN THE ALASKA RAILROAD CORPORATION AND EMPLOYEES. (a) As soon as practicable after establishment of the corporation and prior to transfer of the Alaska Railroad, the Alaska Railroad Corporation and its employees shall adopt

collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees immediately before transfer of the Alaska Railroad. The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1202-1214 (Alaska Railroad Transfer Act of 1982).

(b) The board shall by rule on or before the date of transfer under the authority granted in Sec. 42.40.230(c) adopt personnel rules and other rules and regulations as necessary to prevent an interruption of services.

(c) The board shall renegotiate all collective bargaining agreements during the two-years period following transfer in accordance with 45 U.S.C. 1202-1214, unless the parties agree to the contrary.

(d) Subject to the provisions of 45 U.S.C. 1202-1214 (Alaska Railroad Transfer Act of 1982) within 180 days of the first meeting of the board, the board and representatives of employee bargaining units shall implement ground rules for the renegotiation of collective bargaining agreements.

* Sec 11. Sections 3 - 7 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 12. Sections 1,2,8-11 of this Act take effect immediately in accordance with AS 01.10.070.(c).

* Sec. 13. EFFECTIVE DATE. This Act takes effect immediately in accordance with AS 01.10.070(c).

3/15/84 Draft

IN THE HOUSE

HOUSE BILL NO. 512

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) It is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States

government;

(5) there is vast potential in Alaska's natural resource areas and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state;

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state

investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Commerce and Economic Development, but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential governmental function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of the Department of Commerce and Economic Development, the Chief Executive Officer and seven voting members appointed by the governor. These eight members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The public [voting] members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter,

including, but not limited to transportation, business, and finance. Except for the commissioner of commerce and economic development, a voting member may not be a state officer or employee.

(1) One voting member [shall] may be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

(2) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(3) One [an] employee of the corporation from an empolyee bargaining unit appointed by the governor to represent the employees;

(4) the chief executive officer of the corporation.

(b) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(c) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(d) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(e) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

Sec. 42.40.030. TERM OF OFFICE AND REMOVAL. Except for the commissioner of commerce and economic development, the appointed members of the board serve for staggered terms of five years each, and serve at the pleasure of the governor during their terms..

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of [$250] $400 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. [Four] Five voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. [Four] Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by means of telecommunication devices.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.080. MANAGEMENT BY THE BOARD. The board is responsible

for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier; subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) Generally manage the corporation on a self-sustaining basis

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporation while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

(7) review all public and private land disposals in planning for future development or expansion.

(8) insure that accepted railroad industry standards are used for the corporation's accounting and procurement systems.

Sec. 42.40.090. STATE OVERSIGHT (a). The board shall notify the governor and the leadership of the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer to the authority or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or 5 percent of the railroads total track mileage, whichever is

greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000.

(4) any possible application for state appropriation for any service which is not self-sustaining.

(b) The notice required by (a) of this section must be in writing and describe the proposed undertaking in detail, specifying

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) why the project is necessary or desirable to achieve the purposes of this chapter and;

(4) whether and when the undertaking will be self-sustaining financially.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation. [subject to the approval by the Governor.] The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 180 days of the first meeting of the board, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(5) establish and maintain the Railroad's procurement and accounting systems.

(c) Specific board approval [authorization or concurrence] is required for the following:

(1) transferring the corporation's entire interest in real property; other than the execution of a release of a lein or satisfaction of a mortgage after payment has been received;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program and capital improvement plan subject to Sec. 42.40.310;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversification and major expanison or reducing services beyond those provided on the date of transfer or as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

(12) certifying collective barganing agreements with railroad employees <u>as provided by AS. 42.40.700</u>;

(13) capital projects with an estimated completion cost in excess of $500,000 or an estimated completion time of more than one year;

<u>(14) the excercise of the power of eminent domain.</u>

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the <u>corporation</u> [authority] may not participate in a decision of the <u>corporation</u> [authority] in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if that person or a member of that persons immediate family has only a remote interest and if the fact and extent of the interest is

disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the interested mamber or employee. As used in this subsection, "remote interest" means interests that in good faith are defined as remote by rules adopted by the corporation.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section.

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public with the exception of an executive session conducted under AS 44.62.310 and (b) of this section.

(b) In addition to those subjects that may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information including but not limited to proprietary information associated with specific shippers, divisions, and contract rate agreements.

Sec 42.40.220. MINUTES AND NOTICE OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes of the public portion of each meeting to the governor and the leadership of the legislature. The board shall provide by rule for advance public notice for its meetings.

***** Sec. 42.40.230. RULES. (a) The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. Within 90 days after its first meeting the board shall adopt rules establishing a procedure for giving advance public notice and an opportunity for the public to comment on proposed regulations of the authority that in the determination of the board, will have a substantial impact on the public or be used in the corporations dealings with a significant segment of the public.

(b) The rules shall also include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

(c) The Board of Directors of the Alaska Railroad Corporation, by resolution, may continue in force after date of transfer all or part of the rules, regulations, and orders of the Alaska Railroad which were in effect one day before the date of transfer and are not inconsistent with this chapter or other state law. The Board of Directors may adopt in its rules, regulations, and orders the substance of former federal authorities relating to the Alaska Railroad. This adoption is not considered a continuation of the federal authorities if made in compliance with the procedural requirements of this chapter and other applicable law.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section,

information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, and information including but not limited to specific shippers, divisions, and contract rate agreements.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The plans may include suggestions for legislation relating to the structure, powers, or duties of the corporation or relating to operation of facilities of the corporation. This report shall include a breakdown of a service's real costs and income in each category of railroad operations.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

Sec. 42.40.280. PERFORMANCE AUDIT. The board shall have a performance audit conducted by a qualified professional preformance auditing firm to assure thst the railroad is being managed and

operated in accordance with the requirements of this Act.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt rules and bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter

(13) maintain offices and facilities at places it designates;

(14) acquire, hold, and disperse of Stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests which are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(15) undertake and provide for the acquisition, construction, maintenance, equiping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(16) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(17) prescribe rates to be charged for services provided by the Alaska Railroad <u>in accordance with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982)</u>;

(18) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(19) enter into contracts, leases or other agreements with connecting carriers and shippers, and other persons concerning the services, activities, operations, properties, and facilities of the railroad. including contracts leases and other agreements that contain provisions intended to preserve and expand the railroad's traffic base;

(20) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(21) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(22) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(23) assume and satisfy liabilities of the United States or its agencies as provided by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982 *****and the closing report or its substantive equivalent as accepted by the legislature;

(24) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(25) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(26) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(27) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(28) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(29) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(30) cancel bonds purchased under (29) of this section;

(31) adopt rules having the force of law that require designated classes of proprietary information and communications to be held confidential;

(32) do all things necessary, convenient and desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. LONG-RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range program plan and a capital improvement plan. The board shall consult [interface] with affected [other related] state agencies in preparation of the plans. The long-range program plan shall delineate the manner in which the corporation intends to accomplish

the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted and shall reflect efforts to upgrade the railway and develop safer, more cost-effective rail operations.

(b) The board shall annually review and update the plans required under (a) of this section. [The board may not contract for the preparation or revision of either the long-range program plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.]

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense,

settlement, or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All lands transferred or acquired shall be designated as follows

(1) railroad rights-of-way or easements transferred under the Transfer Act or otherwise acquired shall be classified as railroad utility corridors;

(2) all other real property transferred under the Transfer Act or otherwise acquired, are rail lands.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width only if the adjoining land is not rail property, and may be surveyed by the metes and bounds method; and

(c) The corporation may not sell land within the railroad corridor. [However], Except as provided in AS 42.40.460, the corporation may lease, grant easements or permits or otherwise authorize use of portions of the utility corridor but only for transportation, transmission, or communication purposes and for support functions associated with such purposes, so long as parallel uses of the railroad corridor are

not restricted.

(d) The corporation may sell, lease, grant easements or permits or otherwise authorize use of portions of rail lands for other

services including but not limited to transportation, transmission, and communication purposes and for support functions associated with such purposes. Final sale [or disposal] of land must be approved by the legislature.

(e) Vegetation control involving the use of pesticided and herbacides on lands owned or managed by the Corporation shall be conducted in compliance with state requirements otherwise applicable with state requirements otherwise applicable to state pesticide and herbacide projects.

Sec. 42.40.410 NOMINATION OF LAND The board may [by rule] identify and request through the Department of Natural Resources federal land to be nominated for state selection for railroad purposes.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board [by rule] may identify and request conveyance of land owned by or tentatively approved for transfer to [subject to selection by] the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, or future [or intended] railroad purposes. The request must include a statement of and justification for the present or future [or intended] railroad use. Upon submission of a request for [classification and] conveyance to the commissioner of natural resources, the commissioner shall temporarily [classify and] reserve the land identified in the request for railroad purposes and shall temporarily [vacate a classification allowing] hold in abayance any disposal or lease of that land other than to the corporation under laws or programs of the state. [A temporary classification and vacation] such lands held by the department of

natural resources under this section is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall;

(1) designate [classify] that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to designate [classify] the land for railroad purposes.

(3) approve in part and deny in part the request for designation [classification] under this section and convey as appropriate.

(c) In the absence of a reservation to the contrary, a conveyance under (b) of this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials and the right to tunnel, ditch, recontour, excavate or otherwise use the sub-surface for railroad, transportation, transmission, or communication and related services without regard to the classification of the resources as part of the surface or sub-surface estate.

(d) The corporation may reconvey to the state land received under this section or under 45.U.S.C. 1201-1214 (the Alaska Railroad Transfer Act of 1982) that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location

and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is nec ry to maintain safe and adequate rail operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for railroad [lawful] purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the [state's lawful] purposes of this chapter [in condemning property].

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

(e) The corporation may vacate land, or part of it, or rights in land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing of the deed, title reverts to the State of Alaska, if compensation has been paid.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law

that will enhance the operations of the corporation and may receive conveyance of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq (the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.460. MUNICIPAL RIGHTS -OF-WAY. Upon request of a municipality the corporation may grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the right-of-way including but not limited to

(a) defending the corporation in any cause of action brought against the railroad as a result of such use.

(b) indemnifying the corporation for the amount of any judgement rendered against the railroad including prejudgement interest, costs, and attorney's fees; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In a claim or other legal action against the corporation involving its activities, including the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, the party or parties that maintained the action shall be liable to the corporation for its full costs and legal fees in defending the action and for the financial losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the

presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers as provided in AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action..

(f) The corporation may defend and indemnify a current or former employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter [AS 42.40.300 and 42.40.310].

ARTICLE 7 BONDS AND NOTES

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and [bond anticipation] notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal, state, or local government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

[***(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.]

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or [bond anticipation] notes may be sold in the manner, on the terms, and at the price the board determines. [Bond anticipation] notes shall mature at the time or times determined by

the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) In the discretion of the board, an issue of bonds may be secured by a trust indenture (which may be a trust company, bank or national banking association, with corporate trust powers, located inside or outside the state) or by a secured loan agreement or other instrument or under resolution giving powers to a corporate trustee by means of which the corporation may

(1) make and enter into any and all the covenants and agreements with the trustees or the holders of the bonds which the corporation may determine to be necessary or desirable, including, without limitation, covenants, provisions, limitations and agreements as to

(A) the application, investment, deposit, use and disposition of the proceeds of bonds of the corporation or of money or other property of the corporation or in which it has an interest;

(B) the fixing and collection of rentals, charges, fees or other consideration for, and the other terms to be incorporated in, contracts with respect to the use of any of the corporation's property;

(C) the fixing and collection of tariffs, fees, charges or other consideration for the use or service of the Alaska Railroad by passengers, and other users and freight;

(D) the terms and conditions upon which additional bonds of the corporation may be issued;

(E) the vesting in the trustee of rights and remedies exercisable by the trustee for the protection of the holders of bonds of the corporation and not otherwise in violation of law and the restriction of the rights of an individual holder of bonds of the

corporation;

(2) pledge, mortgage or assign money , leases, agreements, property or other assets of the corporation either presently in hand or to be received in the future, or both; and

(3) provide for any other matters of like or different character which in any way affect the security or protection of the bonds.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private or public sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind in tort contract or otherwise against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest or it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. (a) The real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

***(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the

corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

(b) The collective bargaining agreements in effect on the date of transfer between the corporation and its employees shall remain in effect until they expire by their terms or, as required under 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982), they are renegotiated, subject to the approval of the board.

(c) Subject to the provisions of 45 USC 1206 (Alaska Railroad Transfer Act of 1982) Within 180 days of the first meeting of the Board, the Board and representatives of employee bargaining units shall implement ground rules for the re-negotiation of collective bargaining agreements.

NOTE: Sec. 42.40.710 COLLECTIVE BARGAINING (a) The provisions of AS. 23.40.010- 23.40.080, AS. 23.40.110, AS. 23.40.200-23.40.260. (Public Employee Relations Act) do not apply to the corporation or to it's employees. However, employees that are not executive officers

may organize, and form, join, or assist an organization to engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

(b) The Department of Administration may participate in labor negotiations between the corporation and an employee organization. The corporation shall seek advice of the Department of Administration proir to entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employment. However, the final decision regarding collective bargaining agreements, shall be made by the board.

(c) An agreement executed between the corporation and an employee organization shall provide for a grievance procedure in which the final step in the procedure is binding arbitration. The agreement shall define "grievance" for purposes of this section.

Sec. 42.40.720 RAILROAD EMPLOYEES LABOR RELATIONS AGENCY. (a) There is established a rail oad employees labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS. 23.40.090 - 23.40.100, and AS. 23.40.120-23.40.190 .

(c) Members of the railroad employees labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized the boards and commissions.

Sec. 42.40.730 ADVISORY ARBITRATION (a) If efforts at mediation under AS 23.40.190 fail to resolve a dispute, the dispute shall be submitted to advisory arbitration. The corporation shall choose one of the arbitrators, the railroad labor relations agency shall choose

one of the arbitrators, and the Railroad Employees Labor Relations board shall choose one of the arbitrators.

(b) Arbitration of the dispute shall be conducted under AS. 09.43.100 to the extent that the sections do not conflict with this section. A decision reached by the arbitrators shall not be binding upon the parties.

Sec. 42.40.740 STRIKES (a) After submitting a dispute to advisory arbitration, employees may engage in a strike if a majority of all employees in collective bargaining units vote by secret ballot to do so.

(b) Not withstanding the provisions of (a) of this section, the employees with the concurrance of the corporation may agree in writing to submit a dispute arising from interpretation or application of a collective bargaining agreement to binding arbitration.

Sec. 42.40.750. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

Sec. 42.40.760. PROHIBITED ACTS. (a) The railroad Chief Executive Officer, or any person employed by the corporation may not directly or indirectly:

(1) require or coerce any employee of the corporation to participate in any way in any activity or undertaking unless the

activity or undertaking is related to the performance of official duties;

(2) require or coerce any employee of the corporation to make any report concerning any of his/her activities or undertakings unless the activity or undertaking is related to the performance of his official duties.

(3) except as directly related to the performance of his/her official duties, require or coerce any employee of the corporation to submit to any interrogation or examination or psychological test which is designed to elicit from him information concerning

(A) his personal relationship with any person connected with him by blood or marriage,

(B) his/her religious beliefs or practices,

(C) sexual matters

(D) his/her political affiliation or philosophy

(4) coerce any employee of the corporation to invest or contribute his earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of any employee of the corporation, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of corporation employees suspected of being involved in criminal activity.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.910. SPECIAL REPORT. The corporation shall investigate and prepare a report for the governor and the legislature on the long-term operations of the railroad that are in the best interest of the state. The report shall be due January 1, 1988. It shall make specific recommendations on operational alternatives and the transfer of all or part of the railroads operations to the private sector.

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the [deed of conveyance] transfer documents for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all interest in real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation:

(8) "executive officials" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager, Assistant General Manager, Assistant to the General Manager, Chief of Administration and General Counsel.

(9) "collective bargaining" is defined as negotiating with an employees organization, representing employees of The Alaska Railroad Corporation on matters pertaining to conditions of employment.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.010 ESTABLISHMENT OF THE CORPORATION

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state [within the Department of Commerce and Economic Development], but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers

provided in this chapter is considered an essential governmental function of the state.

* Sec. 4 AS 42.40.020 (a) is amended to read:

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of [the commissioner of the Department of Commerce and Economic Development, the Chief Executive Officer and eight [seven] voting members appointed by the governor. These eight members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The public [voting] members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including, but not limited to transportation, business, and finance. Except for [the commissioner of commerce and economic development], the chief executive officer, and the member appointed under (d) of this section, a voting member may not be a state officer or employee.

(1) One voting member [shall] may be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

(2) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(3) One [an] employee of the corporation from an empolyee bargaining unit appointed by the governor to represent the employees;

(4) the chief executive officer of the corporation.

(b) Except for [the commissioner of commerce and economic development and] the chief executive officer of the corporation, the

voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(c) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(d) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(e) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

* Sec. 5. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE: REMOVAL. (a) Except for the commissioner of Commerce and Economic Development, the voting members of the board serve for staggered terms of five years each [, AND SERVE AT THE PLEASURE OF THE GOVERNOR DURING THEIR TERMS].

* Sec. 6. AS.42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation causes by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

(4) any conduct that was intended to harm the corporation whether or not it constitutes a crime

* Sec. 7. AS 42.40.100(a) is amended to read:

(a) The board shall appoint the chief executive officer of the corporation [SUBJECT TO THE APPROVAL BY THE GOVERNOR]. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

* Sec. 8. CONFLICTING LAWS INAPPLICABLE. If provisions of this Act are in conflict with the provisions of other state law, the provisions of this Act prevail. [Where possible], Provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 9. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the governor shall designate the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 10. COLLECTIVE BARGAINING AGREEMENT BETWEEN THE ALASKA RAILROAD CORPORATION AND EMPLOYEES. As soon as practicable after establishment of the corporation and prior to transfer of the Alaska Railroad, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees immediately before transfer of the Alaska Railroad. The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1202-1214 (Alaska Railroad Transfer Act of 1982).

* Sec 11. Sections 3 - 7 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 12. Sections 1,2,8-11 of this Act take effect immediately in accordance with AS 01.10.070.(c).

* Sec. 13. EFFECTIVE DATE. This Act takes effect immediately in accordance with AS 01.10.070(c).

3/14/84 Draft

IN THE HOUSE

HOUSE BILL NO. 512

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) It is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States

government;

(5) there is vast potential in Alaska's natural resource areas and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state;

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs or the state, supported when necessary by state

investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Commerce and Economic Development, but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential governmental function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of the Department of Commerce and Economic Development, the Chief Executive Officer and seven voting members appointed by the governor. These eight members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The public [voting] members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter,

including, but not limited to transportation, business, and finance. Except for the commissioner of commerce and economic development, a voting member may not be a state officer or employee.

(1) One voting member [shall] may be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

(2) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(3) One [an] employee of the corporation from an empolyee bargaining unit appointed by the governor to represent the employees;

(4) the chief executive officer of the corporation.

(b) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(c) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(d) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(e) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

Sec. 42.40.030. TERM OF OFFICE AND REMOVAL. Except for the commissioner of commerce and economic development, the appointed members of the board serve for staggered terms of five years each, and serve at the pleasure of the governor during their terms..

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of [$250] $400 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. [Four] Five voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. [Four] Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by means of telecommunication devices.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.080. MANAGEMENT BY THE BOARD. The board is responsible

for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier; subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) Generally manage the corporation on a self-sustaining basis

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporation while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

(7) review all public and private land disposals in planning for future development or expansion.

(8) insure that accepted railroad industry standards are used for the corporation's accounting and procurement systems.

Sec. 42.40.090. STATE OVERSIGHT (a). The board shall notify the governor and the leadership of the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer to the authority or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or 5 percent of the railroads total track mileage, whichever is

greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000.

(4) any possible application for state appropriation for any service which is not self-sustaining.

(b) The notice required by (a) of this section must be in writing and describe the proposed undertaking in detail, specifying

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) why the project is necessary or desirable to achieve the purposes of this chapter and;

(4) whether and when the undertaking will be self-sustaining financially.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation. [subject to the approval by the Governor.] The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 180 days of the first meeting of the board, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(5) establish and maintain the Railroad's procurement and accounting systems.

(c) Specific board approval [authorization or concurrence] is required for the following:

(1) transferring the corporation's entire interest in real property; other than the execution of a release of a lein or satisfaction of a mortgage after payment has been received;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program and capital improvement plan subject to Sec. 42.40.310;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversification and major expanison or reducing services beyond those provided on the date of transfer or as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

(12) certifying collective barganing agreements with railroad employees as provided by AS. 42.40.700;

(13) capital projects with an estimated completion cost in excess of $500,000 or an estimated completion time of more than one year;

(14) the excercise of the power of eminent domain.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the corporation [authority] may not participate in a decision of the corporation [authority] in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if that person or a member of that persons immediate family has only a remote interest and if the fact and extent of the interest is

disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the interested member or employee. As used in this subsection, "remote interest" means interests that in good faith are defined as remote by rules adopted by the corporation.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section.

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public with the exception of an executive session conducted under AS 44.62.310 and (b) of this section.

(b) In addition to those subjects that may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information including but not limited to proprietary information associated with specific shippers, divisions, and contract rate agreements.

Sec 42.40.220. MINUTES AND NOTICE OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes of the public portion of each meeting to the governor and the leadership of the legislature. The board shall provide by rule for advance public notice for its meetings.

***** Sec. 42.40.230. RULES. (a) The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. Within 90 days after its first meeting the board shall adopt rules establishing a procedure for giving advance public notice and an opportunity for the public to comment on proposed regulations of the authority that in the determination of the board, will have a substantial impact on the public or be used in the corporations dealings with a significant segment of the public.

(b) The rules shall also include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

(c) The Board of Directors of the Alaska Railroad Corporation, by resolution, may continue in force after date of transfer all or part of the rules, regulations, and orders of the Alaska Railroad which were in effect one day before the date of transfer and are not inconsistent with this chapter or other state law. The Board of Directors may adopt in its rules, regulations, and orders the substance of former federal authorities relating to the Alaska Railroad. This adoption is not considered a continuation of the federal authorities if made in compliance with the procedural requirements of this chapter and other applicable law.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section,

information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, and information including but not limited to specific shippers, divisions, and contract rate agreements.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The plans may include suggestions for legislation relating to the structure, powers, or duties of the corporation or relating to operation of facilities of the corporation. This report shall include a breakdown of a service's real costs and income in each category of railroad operations.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

Sec. 42.40.280. PERFORMANCE AUDIT. The board shall have a performance audit conducted by a qualified professional preformance auditing firm to assure thst the railroad is being managed and

operated in accordance with the requirements of this Act.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt rules and bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter

(13) maintain offices and facilities at places it designates;

(14) acquire, hold, and disperse of Stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests which are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(15) undertake and provide for the acquisition, construction, maintenance, equiping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(16) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(17) prescribe rates to be charged for services provided by the Alaska Railroad <u>in accordance with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982)</u>;

(18) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(19) enter into contracts, leases or other agreements with connecting carriers and shippers, and other persons concerning the services, activities, operations, properties, and facilities of the railroad. including contracts leases and other agreements that contain provisions intended to preserve and expand the railroad's traffic base;

(20) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(21) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(22) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(23) assume and satisfy liabilities of the United States or its agencies as provided by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982 *****and the closing report or its substantive equivalent as accepted by the legislature;

(24) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(25) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(26) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(27) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(28) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(29) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(30) cancel bonds purchased under (29) of this section;

(31) adopt rules having the force of law that require designated classes of proprietary information and communications to be held confidential;

(32) do all things necessary, convenient and desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. LONG-RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range program plan and a capital improvement plan. The board shall consult [interface] with affected [other related] state agencies in preparation of the plans. The long-range program plan shall delineate the manner in which the corporation intends to accomplish

the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted and shall reflect efforts to upgrade the railway and develop safer, more cost-effective rail operations.

(b) The board shall annually review and update the plans required under (a) of this section. [The board may not contract for the preparation or revision of either the long-range program plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.]

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense,

settlement, or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All lands transferred or acquired shall be designated as follows

(1) railroad rights-of-way or easements transferred under the Transfer Act or otherwise acquired shall be classified as railroad utility corridors;

(2) all other real property transferred under the Transfer Act or otherwise acquired, are rail lands.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width only if the adjoining land is not rail property, and may be surveyed by the metes and bounds method; and

(c) The corporation may not sell land within the railroad corridor. [However], Except as provided in AS 42.40.460, the corporation may lease, grant easements or permits or otherwise authorize use of portions of the utility corridor but only for transportation, transmission, or communication purposes and for support functions associated with such purposes, so long as parallel uses of the railroad corridor are

not restricted.

(d) The corporation may sell, lease, grant easements or permits or otherwise authorize use of portions of rail lands for other

services including but not limited to transportation, transmission, and communication purposes and for support functions associated with such purposes. Final sale or disposal of land must be approved by the legislature.

(e) Vegetation control involving the use of pesticided and herbacides on lands owned or managed by the Corporation shall be conducted in compliance with state requirements otherwise applicable with state requirements otherwise applicable to state pesticide and herbacide projects.

Sec. 42.40.410 NOMINATION OF LAND The board may [by rule] identify and request through the Department of Natural Resources federal land to be nominated for state selection for railroad purposes.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board [by rule] may identify and request conveyance of land owned by or tentatively approved for transfer to [subject to selection by] the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, or future [or intended] railroad purposes. The request must include a statement of and justification for the present or future [or intended] railroad use. Upon submission of a request for [classification and] conveyance to the commissioner of natural resources, the commissioner shall temporarily [classify and] reserve the land identified in the request for railroad purposes and shall temporarily [vacate a classification allowing] hold in abayance any disposal or lease of that land other than to the corporation under laws or programs of the state. [A temporary classification and vacation] such lands held by the department of

natural resources under this section is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall;

(1) designate [classify] that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to designate [classify] the land for railroad purposes.

(3) approve in part and deny in part the request for designation [classification] under this section and convey as appropriate.

(c) In the absence of a reservation to the contrary, a conveyance under (b) of this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials and the right to tunnel, ditch, recontour, excavate or otherwise use the sub-surface for railroad, transportation, transmission, or communication and related services without regard to the classification of the resources as part of the surface or sub-surface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of

the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequat rail operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for railroad [lawful] purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the [state's lawful] purposes of this chapter [in condemning property].

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, and, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

(e) The corporation may vacate land, or part of it, or rights in land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing of the deed, title reverts to the State of Alaska, if compensation has been paid.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq (the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.460. MUNICIPAL RIGHTS -OF-WAY. Upon request of a municipality the corporation may grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the right-of-way including but not limited to

(a) defending the corporation in any cause of action brought against the railroad as a result of such use.

(b) indemnifying the corporation for the amount of any judgement rendered against the railroad including prejudgement interest, costs, and attorney's fees; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or

revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In a claim or other legal action against the corporation involving its activities, including the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, the party or parties that maintained the action shall be liable to the corporation for its full costs and legal fees in defending the action and for the financial losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights,

privileges, and immunities as the state and state officers as provided in AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

(f) The corporation may defend and indemnify a current or former employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of AS 42.40.300 and 42.40.310.

ARTICLE 7 BONDS AND NOTES

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes

may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

***(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes enter into the following agreements with the holders of the bonds or bond anticipation notes:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

***(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

***(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

***(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

***(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

***(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

***(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

***(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

***(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

***(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside

the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

***(17) appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

***(18) limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) make covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

***Sec. 42.40.580. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the

delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind in tort contract or otherwise against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

***Sec. 42.40.650. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or

in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. (a) The real and personal property of the corporation and its assets, income, and

receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

***(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

(b) The collective bargaining agreements <u>in effect on the date of transfer</u> between the corporation and its employees shall remain in

effect until they expire by their terms or, as required under 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982), they are renegotiated, subject to the approval of the board.

(c) Subject to the provisions of 45 USC 1206 (Alaska Railroad Transfer Act of 1982) Within 180 days of the first meeting of the Board, the Board and representatives of employee bargaining units shall implement ground rules for the re-negotiation of collective bargaining agreements.

Sec. 42.40.710 COLLECTIVE BARGAINING (a) Unless specifically provided in this Act, the provisions of AS. 23.40 (Public Employee Relations Act) do not apply to the corporation or to it's employees. However, employees that are not executive officers may organize, and form, join, or assist an organization to engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

(b) The Department of Administration may participate in labor negotiations between the corporation and an employee organization. The corporation shall seek advice of the Department of Administration proir to entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employment. However, the final decision regarding collective bargaining agreements, shall be made by the board.

(c) An agreement executed between the corporation and an employee organization shall provide for a grievance procedure in which the final step in the procedure is binding arbitration. The agreement shall define "grievance" for purposes of this section.

Sec. 42.40.720 RAILROAD EMPLOYEES LABOR RELATIONS AGENCY. (a) There is established a railroad employees labor relations agency that consists of three members appointed by the governor. One member shall

be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS. 23.40.090 - 23.40.190 and carry out the provisions of AS 42.40.750-810.

(c) Members of the railroad employees labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized the boards and commissions.

Sec. 42.40.730 STRIKES (a) Employees may engage in a strike if a majority of the employees in all collective bargaining units vote by secret ballot to do so.

(b) Not withstanding the provisions of (a) of this section, the employees of the corporation may agree in writing to submit a dispute arising from interpretation or application of a collective bargaining agreement to arbitration.

Sec. 42.40.730. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

Sec. 42.40.760. PROHIBITED ACTS. (a) The railroad Chief Executive Officer, or any person employed by the corporation may not directly or indirectly:

(1) require or coerce any employee of the corporation to

participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce any employee of the corporation to make any report concerning any of his/her activities or undertakings unless the activity or undertaking is related to the performance of his official duties.

(3) except as directly related to the performance of his/her official duties, require or coerce any employee of the corporation to submit to any interrogation or examination or psychological test which is designed to elicit from him information concerning

(A) his personal relationship with any person connected with him by blood or marriage,

(B) his/her religious beliefs or practices,

(C) sexual matters

(D) his/her political affiliation or philosophy

(4) coerce any employee of the corporation to invest or contribute his earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of any employee of the corporation, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of corporation employees suspected of being involved in criminal activity.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.910. SPECIAL REPORT. The corporation shall investigate and prepare a report for the governor and the legislature on the long-term operations of the railroad that are in the best interest of the state. The report shall be due January 1, 1988. It shall make specific recommendations on operational alternatives and the transfer of all or part of the railroads operations to the private sector.

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the [deed of conveyance] <u>transfer documents</u> for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all interest in real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation:

(8) "executive officials" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager, Assistant General Manager, Assistant to the General Manager, Chief of Administration and General Counsel.

(9) "collective bargaining" is defined as negotiating with an employees organization, representing employees of The Alaska Railroad Corporation on matters pertaining to conditions of employment.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.010 ESTABLISHMENT OF THE CORPORATION

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state [within the Department of Commerce and Economic Development], but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers

provided in this chapter is considered an essential governmental function of the state.

* Sec. 4 AS 42.40.020 (a) is amended to read:

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of [the commissioner of the Department of Commerce and Economic Development, the Chief Executive Officer and eight [seven] voting members appointed by the governor. These eight members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The public [voting] members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including, but not limited to transportation, business, and finance. Except for [the commissioner of commerce and economic development], the chief executive officer, and the member appointed under (d) of this section, a voting member may not be a state officer or employee.

(b) Except for [the commissioner of commerce and economic development and] the chief executive officer of the corporation, the voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(c) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(d) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(e) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

* Sec. 5. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE: REMOVAL. (a) Except for the commissioner of Commerce and Economic Development, the voting members of the board serve for staggered terms of five years each [, AND SERVE AT THE PLEASURE OF THE GOVERNOR DURING THEIR TERMS].

* Sec. 6. AS.42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation causes by injury or sickness that leaves the member unable to perfoim duties under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

(4) any conduct that was intended to harm the corporation whether or not it constitute a crime

* Sec. 7. AS 42.40.100(a) is amended to read:

(a) The board shall appoint the chief executive officer of the corporation [SUBJECT TO THE APPROVAL BY THE GOVERNOR]. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

* Sec. 8. CONFLICTING LAWS INAPPLICABLE. If provisions of this Act are in conflict with the provisions of other state law, the provisions of this Act prevail. [Where possible], Provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 9. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the governor shall designate the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 10. COLLECTIVE BARGAINING AGREEMENT BETWEEN THE ALASKA RAILROAD CORPORATION AND EMPLOYEES. As soon as practicable after establishment of the corporation and prior to transfer of the Alaska Railroad, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees immediately before transfer of the Alaska Railroad. The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1202-1214 (Alaska Railroad Transfer Act of 1982).

* Sec 11. Sections 3 - 7 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 12. Sections 1,2,8-11 of this Act take effect immediately in accordance with AS 01.10.070.(c).

* Sec. 13. EFFECTIVE DATE. This Act takes effect immediately in accordance with AS 01.10.070(c).

IN THE HOUSE

HOUSE BILL NO. 512

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States

government;

(5) there is vast potential in Alaska's natural resource areas and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state;

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state

investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Commerce and Economic Development, but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential governmental function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of the Department of Commerce and Economic Development and seven voting members appointed by the governor. These seven members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The voting members must have experience or professional training and expertise in fields relevant to the purposes of this

chapter, including, but not limited to transportation, business, and finance. A voting member may not be a state officer or employee.

(b) Unless prohibited by law, one voting member shall be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

(c) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(c) In addition to the voting members, the following nonvoting members shall serve on the board:

(1) an employee of the corporation appointed by the governor to represent the employees;

(2) the chief executive officer of the corporation.

(d) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(e) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(f) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(g) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

****** (h) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves

the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) Conviction of a felony

******

Sec. 42.40.030. TERM OF OFFICE AND REMOVAL. The appointed members of the board serve for staggered terms of five years each, and serve at the pleasure of the governor during their terms..

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $250 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. Four voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. Four affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by means of telecommunication devices. The rules may provide for excluding non-voting members during executive sessions.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.090. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier; subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(4) raise needed capital by issuing obligations of the corporation while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation subject to the approval by the Governor. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The

appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 180 days of the first meeting of the board, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation other than the execution of a release of a lein or satisfaction of a mortgage after payment has been received;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(c) Board authorization or concurrence is required for the following:

(1) transferring the corporation's entire interest in real property;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program and capital improvement plan subject to Sec. 42.40.310;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversification and major expanison or reducing services beyond those provided on the date of transfer or as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

(12) certifying collective barganing agreements with railroad employees.

(13) capital projects with an estimated completion cost in excess of $500,000 or an estimated completion time of more than one year.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the authority may not participate in a decision of the authority in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "particpate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if

that person or a member of that persons immediate family has only a remote interest and if the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the interested mamber or employee. As used in this subsection, "remote interest" means interests that in good faith are defined as remote by rules adopted by the corporation.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section.

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public with the exception of an executive session conducted under AS 44.62.310 and (b) of this section.

(b) In addition to those subjects that may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information including but not limited to proprietary

information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.220. MINUTES OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes of the public portion of each meeting to the governor and the leadership of the legislature.

***** Sec. 42.40.230. RULES. The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. The rules shall include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) Except as provided in AS 42.40.270, the corporation may by rule designate and withhold disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, and information including but not limited to specific shippers, divisions, and contract rate agreements.

Sec. 42.40.250. SPECIAL REPORT. The corporation shall investigate and prepare a report for the governor and the legislature on the long-term operations of the railroad that are in the best interest of the state. The report shall be due January 1, 1988. It shall make

specific recommendations on operational alternatives and the transfer of all or part of the railroads operations to the private sector.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The plans may include suggestions for legislation relating to the structure, powers, or duties of the authority or relating to operation of facilities of the authority.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt rules and bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430or by declaration of taking;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter

(13) maintain offices and facilities at places it designates;

(14) acquire, hold, and disperse of Stocks, memberships, contracts, bonds, general or limited partnership interests or other

interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests which are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(15) undertake and provide for the acquisition, construction, maintenance, equiping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(16) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(17) prescribe rates to be charged for services provided by the Alaska Railroad;

(18) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(19) enter into contracts and leases with connecting carriers and shippers, and other persons concerning the services, activities, operations, properties, and facilities of the railroad. including contracts leases and other agreements that contain provisions to preserve and expand the railroad's traffic base;

(20) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(21) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(22) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(23) assume and satisfy liabilities of the United States or its agencies as provided by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982 and the closing report or its substantive equivalent as accepted by the legislature;

(24) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(25) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(26) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(27) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(28) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(29) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(30) cancel bonds purchased under (21) of this section;

(31) adopt rules having the force of law that require designated classes of proprietary information and communications to be held confidential;

(32) do all things necessary, convenient and desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. LONG-RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range program plan and a capital improvement plan. The board shall interface with other related state agencies in preparation of the plans. The long-range program plan shall delineate the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted.

(b) The board shall annually review and update the plans required under (a) of this section. The board may not contract for the preparation or revision of either the long-range program plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private

distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. As to all land that is transferred or acquired

(1) railroad rights-of-way or easements transferred under the federal act or otherwise acquired shall be classified as railroad utility corridors;

(2) future railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of other width as designated by the corporation, and may be surveyed by the metes and bounds method; and

(3) the corporation may lease or rent portions of the utility corridor for other transportation services.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board by rule may identify and request conveyance of land owned by or subject to selection by the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, future or intended railroad purposes. The request must include a statement of and justification for the present, future or intended railroad use. Upon submission of a request for classification and conveyance to the commissioner of natural resources, the commissioner shall temporarily classify and reserve the land identified in the request for railroad

purposes and shall temporarily vacate a classification allowing disposal or lease of that land under laws or programs of the state. A temporary classification and vacation is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall;

(1) classify that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to classify the land for railroad purposes.

(3) approve in part and deny in part the request for classification under this section.

(c) A conveyance under (b)(1) or (3) of this section vests in the corporation the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials the land conveyed without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) The corporation's ownership of state land entitles it to exclusive use and control of the surface, subsurface, complete subjacent and lateral support of the surface, subsurface, and the right to tunnel, ditch, recontour, excavate or otherwise use the subsurface for railroad, transportation, transmission, and related purposes.

(f) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for lawful purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the state's lawful purposes in condemning property.

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq

(the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. (a) The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

(b) Notwithstanding the provisions of this section, the corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or

proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In a claim or other legal action against the corporation involving its activities, including the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, the party or parties that maintained the action shall be liable to the corporation for its full costs and legal fees in defending the action and for the financial losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers as provided in AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

(f) The corporation may defend and indemnify a current or former employee, agent, or board member of the corporation and their

successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of AS 42.40.300 and 42.40.310.

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes enter into the following agreements with the holders of the bonds or bond anticipation notes:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or

notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

(17) appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

(18) limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) make covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

Sec. 42.40.580. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are

immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind in tort contract or otherwise against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital

in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.650. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the

corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. (a) The real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their

well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 7. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

(b) The collective bargaining agreements between the corporation and its employees shall remain in effect until they expire by their terms or, as required under 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982), they are renegotiated, subject to the approval of the board.

(c) The corporation may not enter into a collective bargaining agreement concerning wages, hours, working conditions or other employment terms, conditions and benefits with an organization representing the corporation's chief executive official or executive officials appointed by the chief executive official.

Sec. 42.40.710. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity.

However, board members and employees of the corporation may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

ARTICLE 8. STATE OVERSIGHT AND REVIEW

Sec. 42.40.800. STATE OVERSIGHT (a). The board shall notify the governor and the leadership of the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer to the authority or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or 5 percent of the railroads total track mileage, whichever is greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000.

ARTICLE 8. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska

Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the deed of conveyance for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation:

(8) "executive officials" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager, Assistant General Manager, Assistant to the General Manager, Chief of Administration and General Counsel.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. CONFLICTING LAWS INAPPLICABLE. If provisions of this Act are in conflict with the provisions of other law, the provisions of this Act prevail. Where possible, provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 4. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the governor shall designate the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) one shall serve a term of three years;

(3) one shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 5. EFFECTIVE DATE. This Act takes effect immediately in accordance with AS 01.10.070(c).

IN THE HOUSE BY THE FINANCE COMMITTEE

CS FOR HOUSE BILL NO. 512 (Finance)

IN THE LEG LATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to operate the Alaska Railroad with a board of nine directors responsible for management of the corporation; requiring the board to appoint a chief executive officer to manage the daily affairs and operations of the corporation; authorizing the board to adopt rules to carry out its functions; authorizing the corporation to issue bonds and notes; authorizing the corporation to own and manage all property acquired by the corporation or transferred to the state under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982); authorizing the corporation to exercise eminent domain; exempting the corporation from AS 19, AS 23.40.070 - 23.40.260, AS 30.15, AS 35, AS 37.05, AS 37.07, AS 37.10.010 - 37.10.060, 37.10.085, AS 37.20, AS 37.25, AS 38, AS 39, and AS 44.62.040 - 44.62.320; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government; and

(5) there is vast potential in Alaska's natural resource areas and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to

(1) create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(2) provide for the level of railroad service that best satisfies the needs of the people of the state;

(3) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by ensuring that the corporation will

(A) be exclusively responsible for the management of the

financial and legal obligations of the Alaska Railroad;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing bonds exempt from federal and state taxation;

(D) generally carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical railroad transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad according to sound business management practices;

(G) preserve the integrity of the railroad utility corridor for transportation, communication, and transmission purposes;

(4) ensure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the

corporation are vested in the board of directors. The board consists of the chief executive officer of the corporation, and eight members appointed by the governor. The eight appointed members must be registered voters in the state except as provided in (1) and (2) of this subsection. Except for the member appointed under (3) of this subsection, no more than two appointed members may be from any one of the four judicial districts in the state. Except for the chief executive officer and the member appointed under (3) of this subsection, a member may not be a state officer or employee. Appointed members shall have the following qualifications:

(1) one member of the board shall be a person who has at least 10 years of experience in railroad management; a person who is not a resident of the state may be appointed under this paragraph;

(2) one member of the board shall be or have been an executive official of a United States railroad and shall be selected in accordance with 49 U.S.C. (Interstate Commerce Act); a person who is not a resident of the state may be appointed under this paragraph;

(3) one member shall be an employee who is a member of a bargaining unit representing employees of the corporation;

(4) two members shall have at least five years of experience as owners or managers of a business in the state;

(5) one member shall be a public member with no direct or indirect financial interest in a transportation industry, except as a consumer of transportation services.

(b) The appointed members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. (a) The appointed members of the board serve for staggered terms of five years each.

(b) The governor may, by written notice to a member, remove the member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) conviction of a felony; or

(4) any conduct intended to harm the corporation, even if it does not constitute a crime.

Sec. 42.40.040. VACANCIES. (a) Except for the chief executive officer of the corporation, a vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) An appointed member of the board whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $400 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which an appointed member is engaged in actual performance of duties as a member of the board.

(b) In addition to compensation under (a) of this section, an

appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. BOARD OFFICERS. (a) The board shall elect from its membership a chairman and vice-chairman and prescribe their duties by rule.

(b) The board shall appoint a secretary and prescribe the duties of the secretary.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.120. In managing the corporation the board shall

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) generally manage the corporation on a self-sustaining basis;

(4) provide for safe, efficient, and economical railroad transportation to meet the overall needs of the state;

(5) raise needed capital by issuing bonds of the corporation while ensuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity;

(6) review state and other land disposal proposals to aid in planning for future development or expansion of railroad transportation services;

(7) ensure that the accounting procedures of the corporation meet generally accepted accounting principals consistent with

railroad industry standards;

(8) ensure that the procurement procedures of the corporation comply with the procurement standards and procedures established for state agencies to the extent practicable consistent with efficient railroad operations;

(9) apply to the legislature for an appropriation to be used to provide a service that is not otherwise self-sustaining if a subsidy is required to maintain that service.

Sec. 42.40.110. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation who serves at the pleasure of the board. The board shall fix the compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The compensation for an executive officer appointed under this subsection is subject to board approval.

Sec. 42.40.120. DELEGATION. (a) The board may by rule delegate to the chief executive officer powers and duties necessary or appropriate for the management of the daily affairs and operations of the corporation.

(b) The board shall by rule establish procedures for carrying out the following powers and duties of the corporation and may delegate the exercise of the following powers and duties in accordance with the procedures to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests in property, except the corporation's entire interest in land;

(2) establishing specific rates, tariffs, divisions, and

contract rate agreements;

(3) making routine changes in service levels;

(4) establishing procurement and accounting procedures for the corporation; and

(5) performing procurement activities.

(c) The board may by rule require the exercise of a power or duty delegated under (a) or (b) of this section to be subject to board approval. Specific board approval is required for the following:

(1) issuing bonds;

(2) mortgaging or pledging corporation assets;

(3) donating property or other assets belonging to the corporation;

(4) acting as a surety or guarantor;

(5) adopting a long-range program or capital improvement plan;

(6) adopting annual reports;

(7) effecting general, comprehensive increases and decreases in rates;

(8) diversifying, expanding, or reducing services in a major way;

(9) expanding the main or branch rail lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer;

(10) selecting independent auditors and accountants;

(11) exercising the power of eminent domain;

(12) entering into collective bargaining agreements;

(13) adopting annual budgets; and

(14) beginning capital projects with an estimated completion cost of more than $500,000 or an estimated completion time of more

than one year.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.150. MEETINGS OF THE BOARD. (a) The chairman of the board shall call meetings of the board at least once every three months and may call other meetings of the board as necessary. The chairman shall preside at meetings.

(b) Except for executive sessions, the meetings of the board are public. The board shall provide by rule for a method of providing notice to the public of its meetings.

(c) The board shall keep minutes of each meeting.

Sec. 42.40.160. QUORUM AND VOTING. (a) Five members of the board constitutes a quorum for the transaction of business.

(b) Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by telecommunication devices.

Sec. 42.40.170. EXECUTIVE SESSIONS. (a) The question of holding an executive session shall be determined in accordance with AS 42.40.160. A subject may not be considered at an executive session unless it is mentioned in the motion calling for the executive session or is auxiliary to a subject mentioned. An action may not be taken at an executive session.

(b) Only the following subjects may be discussed in an executive session:

(1) matters, the immediate knowledge of which would clearly have an adverse effect upon the finances of the corporation;

(2) unless one person has requested to have the subjects discussed in public, subjects that tend to prejudice the reputation and character of a person;

(3) matters that, by law or municipal charter or ordinance, are permitted to be kept confidential from public disclosure;

(4) matters pertaining to personnel;

(5) matters pertaining to the corporation's legal position;

(6) land acquisition or disposal; and

(7) proprietary or other information of a type treated as confidential under the standards and practices of the United States Interstate Commerce Commission, including practices that protect information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.175. RULES. (a) The board shall adopt rules to carry out its functions and the purposes of this chapter, including rules to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services. At least 15 days before the adoption of a rule, the board shall give public notice of the proposed action by publishing a notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to each person who has requested notice of proposed rules. The notice must state the time, place, and nature of the proceedings and must contain a summary of the subject of the proposed change.

(b) On the date and at the time and place designated in the notice required under (a) of this section the board shall provide each interested person an opportunity to present statements in writing concerning the proposed rule and shall give members of the public an opportunity to present oral statements for a total period of at least one hour.

(c) The board shall consider all relevant matters presented to it before adopting a rule. The board may take action on a rule that

varies in content from the summary provided with the notice of the proposed rule if the subject of the rule was reflected in the summary and it provided reasonable notice to the public as to whether their interests could be affected by the board's action on that subject.

(d) The board shall establish in the bylaws of the corporation additional procedures for adopting rules if necessary.

Sec. 42.40.180. EMERGENCY RULES. (a) The board shall establish in the bylaws of the corporation a procedure for the adoption of a rule on an emergency basis. An emergency rule may be adopted only when necessary for the orderly operation of the corporation's facilities or programs. The requirements of AS 42.40.175 do not apply to actions taken under this section. However, within 10 days after the adoption of a rule on an emergency basis the board shall give notice of its action that substantially complies with the notice requirements of AS 42.40.175(a).

(b) An action taken under this section remains in effect for not more than 120 days. To prevent an emergency rule from lapsing the board may adopt the same rule under AS 42.40.180 before the end of the 120-day period.

Sec. 42.40.185. VALIDITY OF RULES. (a) Failure to mail notice to a person under AS 42.40.175(a) or 42.40.180(a) does not invalidate an action taken by the board.

(b) An interested person may challenge a rule adopted by the board by bringing an action in the superior court. In addition to other grounds, a court may declare a rule invalid

(1) for substantial failure by the board to comply with AS 42.40.175 or 42.40.180; or

(2) if the rule was adopted under AS 42.40.180, upon the grounds that the emergency rule was not necessary for the orderly

operation of the corporation's facilities or programs.

Sec. 42.40.190. PREVIOUSLY ADOPTED RULES AND ORDERS. (a) The board may provide by resolution that rules and orders in effect on the date of transfer that are not inconsistent with this chapter or other state law remain in effect until amended or repealed by the board. The board may adopt the substance of former federal rules or orders relating to the Alaska Railroad and this may not be considered a continuation of the federal rules or orders if adopted by the board in accordance with procedural requirements of this chapter or other law.

(b) AS 42.40.175 does not apply to actions taken under this section.

Sec. 42.40.200. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate as confidential and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of legal counsel, and, consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, other information including proprietary information associated with specific shippers, divisions and contract rate agreements.

Sec. 42.40.210. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or executive officer of the corporation may not participate in a decision of the corporation in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of

this section.

(b) A board member or executive officer may participate in a decision if that person or a member of that person's immediate family has only a remote interest, the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or in the decision, and thereafter in a public meeting the board by vote authorizes or approves the participation. If the person whose participation is under consideration is a board member, that person may not vote under this subsection. For purposes of this subsection, "remote interest" means an interest that in good faith is defined as remote by rules adopted by the corporation.

(c) A board member or executive officer is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or executive officer who intentionally violates a prohibition contained in this section.

(e) For purposes of this section

(1) "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes;

(2) "immediate family" means

(A) spouse;

(B) dependent parent, parent-in-law, child, son-in-law, daughter-in-law, sibling, uncle, aunt, niece, or nephew.

Sec. 42.40.220. COMPLAINT PROCEDURE. The board shall provide by rule for a formal procedure for the receipt and consideration of complaints or suggestions regarding activities of the corporation.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.250. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, personal property, rights, rights-of-way, franchises, easements, and other interest in land, and acquire by appropriation water rights that are located in the state, taking title to the property in the name of the corporation;

(8) hold, maintain, use, operate, improve, lease, encumber and otherwise grant security interests in land or personal property and exchange, donate, convey, alienate, or otherwise dispose of personal property, subject to other provisions of this chapter;

(9) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to other provisions of federal or state law or municipal ordinances;

(10) undertake and provide for the management, operation,

maintenance, use, and control of all of the property of the corporation, including tracks, equipment and other property transferred to the corporation by the federal government or any person;

(11) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter;

(12) maintain offices and facilities at places it designates;

(13) apply to the state, the United States, and foreign countries or other proper agencies for the permits, licenses, rights-of-way, or approvals necessary to construct, maintain, and operate railroad transportation services, and obtain, hold, and reuse the licenses and permits in the same manner as other railroad operators;

(14) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(15) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(16) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, property, and facilities of the corporation, including agreements that contain provisions to preserve and expand the railroad's traffic base;

(17) plan for and undertake expansion of the railroad and railroad activities, including extension of the rail system, and contract with other modes of transportation service connecting to the rail system;

(18) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment;

maintenance, use, and control of all of the property of the corporation, including tracks, equipment and other property transferred to the corporation by the federal government or any person;

(11) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter;

(12) maintain offices and facilities at places it designates;

(13) apply to the state, the United States, and foreign countries or other proper agencies for the permits, licenses, rights-of-way, or approvals necessary to construct, maintain, and operate railroad transportation services, and obtain, hold, and reuse the licenses and permits in the same manner as other railroad operators;

(14) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(15) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(16) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, property, and facilities of the corporation, including agreements that contain provisions to preserve and expand the railroad's traffic base;

(17) plan for and undertake expansion of the railroad and railroad activities, including extension of the rail system, and contract with other modes of transportation service connecting to the rail system;

(18) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment;

(19) assume all rights, liabilities, and obligations of the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(20) maintain or provide for a security force to protect property owned, managed or transported by the corporation and persons using railroad transportation services provided by the corporation;

(21) issue its bonds and provide for and secure their payment, provide for the rights of their holders and hold or dispose of them;

(22) purchase the corporation's bonds at a price not more than the principal amount of them plus interest;

(23) cancel bonds of the corporation purchased by the corporation;

(24) secure the payment of its bonds by pledge, mortgage, or other lien on its contracts, revenue, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) borrow money, including the amounts necessary to establish reasonable reserves, and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates other money will be available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(27) acquire, hold, and dispose of stocks, memberships, contracts, bonds, general or limited partnership interests or other interest in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in

connection with these interests that are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(28) undertake and provide for the acquisition, construction, maintenance, equipping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(29) do all things necessary or desirable to carry out the powers and duties of the corporation granted or necessarily implied in this chapter or other laws of the state or the laws or regulations of the federal government.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the Alaska Railroad the board shall distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The report may include suggestions for legislation relating to the structure, powers or duties of the corporation or to operation facilities of the corporation. Subject to AS 42.40.290, the report shall itemize the cost of providing each category of service offered by the railroad and the income generated by each category. The report shall list all complaints and suggestions received by the corporation during the previous fiscal year and describe the action taken on the complaint or suggestion.

Sec. 42.40.270. AUDITS. (a) The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The board shall have an annual performance audit conducted by a qualified professional performance auditing firm to assure that the railroad is being managed and operated effectively and efficiently in accordance with the requirements of this chapter.

(b) The corporation shall make all of its financial records available to an auditor appointed by the governor and to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.200 and rules implementing that section.

Sec. 42.40.280. STATE OVERSIGHT REPORTS. (a) The board shall provide a state oversight report to the governor and the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or five percent of the railroad's total track mileage, whichever is greater; or

(3) the issuance of securities, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000;

(4) an application for an appropriation to be used for providing any service that is not self-sustaining.

(b) The report under (a) of this section shall be in writing, describe the proposed undertaking in detail, and specify

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) the reasons the action is necessary or desirable to achieve the purposes of this chapter; and

(4) whether and when the undertaking is expected to be self-sustaining financially.

Sec. 42.40.290. LONG RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long range program plan and a capital improvement plan. The board shall consult with affected state agencies and municipalities in preparing the plans. The long range program plan shall explain the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted and shall reflect efforts to upgrade the railroad and develop safer, more cost-effective rail operations.

(b) The board shall annually review and update the long range program and capital improvement plans. The board shall provide copies of the updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.300. USE OF CORPORATION ASSETS. The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for a purpose not authorized by law by a person having the possession or control of it is prohibited.

Sec. 42.40.310. INDEMNIFICATION. (a) The corporation may defend and indemnify a current or former member of the board, employee, or agent of the corporation against all costs, expenses, judgments, and liabilities, including attorney's fees, incurred by or imposed upon that person in connection with a civil or criminal action

which the person is involved by affiliation with the corporation, the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

(b) The corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold them harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding. The purchase of insurance is discretionary with the board and insurance is not considered to be compensation to the insured person.

ARTICLE 5. CORPORATION PROPERTY.

Sec. 42.40.350. LAND. (a) The corporation shall take title in its own name to all land transferred under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982). All land that is transferred or acquired by the corporation is designated as follows:

(1) railroad rights-of-way are railroad utility corridors;

(2) land outside the railroad utility corridors is rail land.

(b) A railroad utility corridor shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, unless the corporation does not own or control sufficient land for a corridor of that width. A railroad utility corridor may be surveyed by the metes and bounds method. The corporation may not convey its entire interest in land within a railroad utility corridor except as provided in AS 42.40.400 and 42.40.370(d). The corporation may lease, grant easements or permits, or otherwise authorize use of portions of a utility corridor for transportation, communication, and

transmission purposes and support functions associated with those purposes and for commercial and other uses if the use does not restrict other parallel uses of the utility corridor.

(c) The corporation may lease, grant easements or permits, or otherwise authorize use of portions of rail land. However, the corporation may not convey its entire interest in rail land except as provided in AS 42.40.~~300~~370(d) and 42.40.400~~(d)~~.

(d) A lease by the corporation to a party other than the state shall be made at fair market value as determined by appraisal by a qualified appraiser or by competitive bid.

Sec. 42.40.360. REQUEST FOR LAND. (a) The board may nominate federal land it determines may be useful for railroad purposes and request the commissioner of natural resources to select the land for the state through the federal land selection process.

(b) The board may identify and request the commissioner of natural resources to convey land necessary or useful for present or future railroad purposes owned by or tentatively approved for transfer to the state, including land not contiguous to land already held by the corporation. The request must include a statement of and justification for the present or future railroad use. Upon receipt of a request, the commissioner shall temporarily reserve the land identified in the request for railroad purposes and defer disposal or lease of that land under other laws to a party other than the corporation. The temporary reservation of land is subject to valid existing rights and remains in effect for 180 days.

Sec. 42.40.370. CONVEYANCE OF STATE LAND. (a) Within 90 days after receiving a request under AS 42.40.360(b) the commissioner of natural resources shall by written decision

(1) designate the identified land for railroad purposes

and, subject to valid existing rights, convey the state's interests in the land to the corporation;

(2) notify the corporation of reasons for refusal to designate the identified land for railroad purposes; or

(3) approve in part and deny in part the request for designation of the identified land and convey as appropriate.

(b) A conveyance of land under this section may be for less than fair market value as determined by the commissioner of natural resources.

(c) In the absence of a reservation to the contrary, a conveyance of land under this section vests in the corporation ownership, control of the surface, material, and mineral estate, including the right to extract or use timber and other construction materials, sand, gravel, rock, and the right to tunnel, ditch, recontour, excavate, or otherwise use the land for railroad, transportation, transmission, or communication services.

(d) The corporation may reconvey to the state land received under this section, under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982), by eminent domain, or otherwise that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

Sec. 42.40.380. USE OF STATE LAND. When emergency conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state land adjacent to or in the vicinity of the existing right-of-way and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with the concurrence of the Department of Natural Resources. The relocation must affect only the amount of state land

necessary to adequately restore or continue safe rail operations at a normal level.

Sec. 42.40.390. EMINENT DOMAIN. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land for railroad purposes consistent with this chapter. Notwithstanding AS 09.55.250, the corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple title is necessary to carry out the purposes of this chapter.

(b) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(c) The power of eminent domain conferred under this section includes the power to obtain clay, gravel, sand, timber, rock, or other material for the operation of the railroad, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.400. VACATION OF EASEMENTS. The corporation may vacate an easement acquired under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) by executing and filing a deed in the appropriate recording district. Upon filing the deed the state shall acquire the easement for use in conformity with 45 U.S.C. 1201 - 1214.

Sec. 42.40.410. FEDERAL LAND. The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of federal land that will enhance the operations of the corporation if it is available under a federal law other than the Alaska Statehood Act of 1958 (P.L. 85-508, 72 Stat. 339). The corporation may receive in its own name conveyances of all interests in federal land.

Sec. 42.40.420. MUNICIPAL USE OF LAND. Upon request of a municipality the corporation may authorize use of the railroad utility corridor or rail land for a pedestrian walkway or trail. Before

authorizing a use under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless from and indemnify the corporation for liability and claims arising from any use authorized under this section including

(A) defending the corporation in a cause of action brought against the corporation as a result of the use; and

(B) indemnifying the corporation for the amount of a judgment, including prejudgment and postjudgment interest, rendered against the corporation or for the amount of a settlement entered into by the corporation, and for all costs and attorney's fees incurred by the corporation in settling or defending the claim; and

(2) stop the use upon request of the corporation if the use interferes with expansion or replacement of railroad facilities, creates a safety hazard, or interferes with railroad operations.

Sec. 42.40.430. ACQUISITION OF GOVERNMENT PROPERTY. (a) The corporation, as an instrumentality of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 - 1622c (Surplus Property Act of 1944), 40 U.S.C. 471 et seq. (Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes. The corporation may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

(b) The corporation is an instrumentality and agency of the state for purposes of exchanging land with the United States, municipalities, corporations including corporations formed under 43 U.S.C.

1601 - 1628 (Alaska Native Claims Settlement Act), and individuals.

Sec. 42.40.440. USE OF PESTICIDES AND HERBICIDES. Vegetation control involving the use of pesticides or herbicides on land owned or managed by the corporation may be conducted only in compliance with state requirements applicable to other state pesticide or herbicide use.

Sec. 42.40.450. ADVERSE POSSESSION. No prescription or statute of limitations runs against the title or interest of the corporation to or in land owned by the corporation or under its jurisdiction. Title to or interest in land owned by the corporation or under its jurisdiction may not be acquired by adverse possession or prescription, or in any other manner except by conveyance from or formal vacation by the corporation.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.510. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for board members and each officer of the corporation responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.520. INSURANCE. Except as provided in AS 42.40.-310(b), the corporation shall protect its assets, services, and employees by purchasing insurance or providing for certain self-insurance retentions. The corporation shall also maintain casualty, property, business interruption, marine, boiler and machinery,

pollution liability, and other insurance in amounts reasonably calculated to cover potential claims against the corporation or state for bodily injury, death or disability, and property damage that may arise from or be related to corporation operations and activities.

Sec. 42.40.530. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes in accordance with 45 U.S.C. 1207-(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.540. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter.

ARTICLE 7. BONDS.

Sec. 42.40.600. GENERAL PROVISIONS. (a) The corporation by resolution may issue bonds to provide money to carry out its purposes.

(b) Bonds may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear fixed or variable interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination or denominations;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(c) Bonds may be sold in the manner, on the terms, and at the price the board determines. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board, but notes shall mature at the time or times determined by the board.

Sec. 42.40.610. NEGOTIABLE INSTRUMENTS. Bonds issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.620. BONDS ELIGIBLE FOR INVESTMENT. Bonds issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds of the state is authorized by law.

Sec. 42.40.630. PAYMENT OF BONDS. The principal and interest on bonds of the corporation is payable from corporation money or assets. Bonds may be additionally secured by a pledge of a grant or contribution from the federal, state, or municipal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

Sec. 42.40.640. SECURITY FOR BONDS. In the discretion of the board, an issue of bonds may be secured by a trust indenture, which may be a trust company, bank or national banking association, with

corporate trust powers, located inside or outside the state, or by a secured loan agreement or other instrument or under resolution giving powers to a corporate trustee by means of which the corporation may

(1) make and enter into any and all the covenants and agreements with the trustees or the holders of the bonds that the corporation may determine to be necessary or desirable, including covenants, provisions, limitations and agreements as to

(A) the application, investment, deposit, use and disposition of the proceeds of bonds of the corporation or of money or other property of the corporation or in which it has an interest;

(B) the fixing and collection of rentals, charges, fees or other consideration for, and the other terms to be incorporated in, contracts with respect to the use of any of the corporation's property;

(C) the fixing and collection of tariffs, fees, charges or other consideration for the use or service of the Alaska Railroad by passengers, and other users and freight;

(D) the terms and conditions upon which additional bonds of the corporation may be issued;

(E) the vesting in the trustee of rights and remedies exercisable by the trustee for the protection of the holders of bonds of the corporation and not otherwise in violation of law and the restriction of the rights of an individual holder of bonds of the corporation;

(2) pledge, mortgage, or assign money, leases, agreements, assets, or property of the corporation either presently in hand or to be received in the future, or both; and

(3) provide for any other matters of like or different

character that in any way affect the security or protection of the bonds.

Sec. 42.40.650. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private or public sale of bonds to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.660. VALIDITY OF SIGNATURES. If an officer of the corporation whose signature or a facsimile of whose signature appears on bonds or coupons attached to them ceases to be an officer before the delivery of the bond or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.670. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds.

Sec. 42.40.675. PLEDGE OF THE STATE. The state pledges to and agrees with the holders of bonds issued under this chapter and with the federal agency that loans or contributes funds in respect to a project, that the state will not limit or alter the rights and powers vested in the corporation by this chapter to fulfill the terms of a contract made by the corporation with the holders or federal agency, or in any way impair the rights and remedies of the holders until the

bonds together with the interest on them with interest on unpaid installments of interest, and all costs and expenses in connection with an action or proceeding by or on behalf of the holders, are fully met and discharged. The corporation is authorized to include this pledge and agreement of the state, insofar as it refers to holders of bonds of the corporation, in a contract with the holders and insofar as it relates to a federal agency, in a contract with the federal agency.

Sec. 42.40.680. REMEDIES. A holder of bonds issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.690. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.700. LIMITATION ON PERSONAL LIABILITY. A board member or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.705. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

Sec. 42.40.710. CORPORATION EMPLOYEES. Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.720. COLLECTIVE BARGAINING RIGHTS. The provisions of AS 23.40.070 - 23.40.260 do not apply to the corporation or to its employees. However, employees who are not executive officers may organize and form, join, or assist an organization to engage in collective bargaining through representatives of their own choosing and engage in concerted activities for the purpose of collective

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.700. LIMITATION ON PERSONAL LIABILITY. A board member or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.705. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

Sec. 42.40.710. CORPORATION EMPLOYEES. Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.720. COLLECTIVE BARGAINING RIGHTS. The provisions of AS 23.40.070 - 23.40.260 do not apply to the corporation or to its employees. However, employees who are not executive officers may organize and form, join, or assist an organization to engage in collective bargaining through representatives of their own choosing and engage in concerted activities for the purpose of collective

bargaining or other mutual aid or protection.

Sec. 42.40.730. RAILROAD LABOR RELATIONS AGENCY. (a) There is established a railroad labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall carry out the provisions of AS 42.40.710 - 42.40.890.

(c) Members of the railroad labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.740. COLLECTIVE BARGAINING UNIT. The railroad labor relations agency shall decide in each case, in order to ensure employees the fullest freedom in exercising the rights guaranteed by AS 42.40.710 - 42.40.890 the unit appropriate for the purposes of collective bargaining, based on such factors as community of interest, wages, hours and other working conditions of the employees involved, the history of collective bargaining, and the desires of the employees. Bargaining units shall be as large as is reasonable, and unnecessary fragmenting shall be avoided.

Sec. 42.40.750. REPRESENTATIVES AND ELECTIONS. (a) The railroad labor relations agency shall investigate a petition if it is submitted in a manner prescribed by the railroad labor relations agency by

(1) an employee or group of employees or an organization acting in their behalf alleging that 30 percent of the employees of a proposed bargaining unit

(A) want to be represented for collective bargaining by a labor or employee organization as exclusive representative;

or

(B) assert that the organization that has been certified or is currently being recognized by the corporation as bargaining representative is no longer the representative of the majority of employees in an appropriate unit; or

(2) the corporation alleging that one or more organizations have presented to it a claim to be recognized as a representative of a majority of employees in an appropriate unit.

(b) If the railroad labor relations agency has reasonable cause to believe that a question of representation exists, it shall provide for a hearing upon due notice. If the railroad labor relations agency finds that there is a question of representation, it shall direct an election by secret ballot to determine whether or by which organization the employees desire to be represented and shall certify the results of the election. Nothing in this subsection prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the regulations of the railroad labor relations agency or an election in a bargaining unit agreed upon by the parties.

(c) The railroad labor relations agency shall determine who is eligible to vote in an election held under this section and shall establish rules governing the election. In an election in which none of the choices on the ballot receives a majority of the votes cast, a runoff election shall be conducted, the ballot providing for selection between the two choices receiving the largest number of valid votes cast in the election. If an organization receives the majority of the votes case in the election it shall be certified by the railroad labor relations agency as exclusive representative of all the employees in the bargaining unit. An election may not be held in a bargaining unit

or in a subdivision of a bargaining unit if a valid election has been held within the preceding 12 months.

(d) Nothing in this chapter prohibits recognition of an organization as the exclusive representative by the corporation by mutual consent.

(e) An election may not be directed by the railroad labor relations agency in a bargaining unit in which there is in force a valid collective bargaining agreement, except during a 90-day period preceding the expiration date. However, no collective bargaining agreement may bar an election upon petition of employees in the bargaining unit but not parties to the agreement if more than three years have elapsed since the execution of the agreement or the last timely renewal, whichever was later.

Sec. 42.40.760. UNFAIR LABOR PRACTICES. (a) The corporation or its agent may not

(1) interfere, restrain, or coerce an employee in the exercise of the rights guaranteed in AS 42.40.720;

(2) dominate or interfere with the formation, existence, or administration of an organization;

(3) discriminate in regard to hire or tenure of employment or a term or condition of employment to encourage or discourage membership in an organization;

(4) discharge or discriminate against an employee because the employee has signed or filed an affidavit, petition or complaint or given testimony under AS 42.40.710 - 42.40.890;

(5) refuse to bargain collectively in good faith with an organization that is the exclusive representative of employees in an appropriate unit, including the discussing of grievances with the exclusive representative.

(b) Nothing in AS 42.40.710 - 42.40.890 prohibits the corporation from making an agreement with an organization to require as a condition of employment

(1) membership in the organization that represents the unit on or after the 30th day following the beginning of employment or on the effective date of the agreement, whichever is later; or

(2) payment by the employee to the exclusive bargaining agent of a service fee to reimburse the exclusive bargaining agency for the expense of representing the members of the bargaining unit.

(c) An organization or its agents may not

(1) restrain or coerce

(A) an employee in the exercise of the rights guaranteed in AS 42.40.720; or

(B) the corporation in the selection of a representative for the purposes of collective bargaining or the adjustment of grievances;

(2) refuse to bargain collectively in good faith with the corporation, if it has been designated in accordance with AS 42.40.710 - 42.40.890 as the exclusive representative of employees in an appropriate unit.

Sec. 42.40.770. INVESTIGATION AND CONCILIATION OF COMPLAINTS. If a verified written complaint by or for a person claiming to be aggrieved by a practice prohibited by AS 42.40.760 or a written accusation that a person subject to AS 42.40.710 - 42.40.890 has engaged in a prohibited practice, is filed with the railroad labor relations agency, it shall investigate the complaint or accusation. If it determines after a preliminary investigation that probable cause exists in support of the complaint or accusation, it shall try to eliminate the prohibited practice by informal methods of conference

conciliation, and persuasion. Nothing said or done during this endeavor may be used as evidence in a subsequent proceeding.

Sec. 42.40.780. COMPLAINT AND ACCUSATION. If the railroad labor relations agency fails to eliminate the prohibited practice by conciliation and to obtain voluntary compliance with AS 42.40.710 - 42.40.890 or before it attempts conciliation, it may serve a copy of the complaint or accusation upon the respondent. The complaint or accusation and the subsequent procedures shall be handled in accordance with the administrative adjudication portion of the Administrative Procedure Act (AS 44.62).

Sec. 42.40.790. ORDERS AND DECISIONS. If the railroad labor relations agency finds that a person named in the written complaint or accusation has engaged in a prohibited practice, the railroad labor relations agency shall issue and serve on the person an order or decision requiring the person to cease and desist from the prohibited practice and to take affirmative action that will carry out the provisions of AS 42.40.710 - 42.40.890. If the railroad labor relations agency finds that a person named in the complaint or accusation has not engaged or is not engaging in a prohibited practice, the railroad labor relations agency shall state its findings of fact and issue an order dismissing the complaint or accusation.

Sec. 42.40.800. ENFORCEMENT BY INJUNCTION. The railroad labor relations agency may apply to the superior court in the judicial district in which the prohibited practice occurred for an order enjoining the prohibited acts specified in the order or decision of the railroad labor relations agency. Upon showing by the railroad labor relations agency that the person has engaged or is about to engage in the practice, an injunction, restraining order, or other order that is appropriate may be granted by the court and shall be without bond.

Sec. 42.40.810. POWER TO INVESTIGATE AND COMPEL TESTIMONY. (a) For the purpose of the investigations, proceedings, or hearings that the railroad labor relations agency considers necessary to carry out AS 42.40.710 - 42.40.890, the railroad labor relations agency may issue subpoenas requiring the attendance and testimony of witnesses and the production of relevant evidence.

(b) The railroad labor relations agency may administer oaths, examine witnesses, and receive evidence.

(c) The attendance of witnesses and the production of evidence may be required from any place in the state at any designated place of hearing.

(d) If a person refuses to obey a subpoena issued under AS 42.40.710 - 42.40.890, the superior court in the district in which the person resides or is found may, upon application by the railroad labor relations agency, issue an order requiring the person to comply with the subpoena.

Sec. 42.40.820. REGULATIONS. The railroad labor relations agency shall adopt regulations under the Administrative Procedure Act (AS 44.62) to carry out AS 42.40.710 - 42.40.890.

Sec. 42.40.830. PENALTY FOR VIOLATION OF ORDER OR DECISION. A person who violates a provision of an order or decision of the railroad labor relations agency is guilty of a misdemeanor and is punishable by a fine of not more than $500.

Sec. 42.40.840. MEDIATION. (a) If, after a reasonable period of negotiation over the terms of a collective bargaining agreement, an impasse as determined by the railroad labor relations agency exists between the corporation and an organization, the railroad labor relations agency shall appoint a person mutually agreeable to the parties from a list of seven qualified mediators/arbitrators

knowledgeable in railway labor agreements to act as mediator in the dispute.

(b) Before the determination of an impasse under this section, the parties may also select a mediator by mutual consent.

(c) It shall be the function of the mediator to bring the parties together to effectuate a settlement of the dispute, but neither the mediator nor the railroad labor relations agency has any power of compulsion in mediation proceedings.

Sec. 42.40.850. STRIKES. (a) Following a decision by the mediator to end the mediation proceedings, employees of a collective bargaining unit may engage in a strike for a limited time if a majority of the employees in that collective bargaining unit vote by secret ballot to do so. The limit of the strike is determined by the interest of the health, safety, or welfare of the public.

(b) The corporation may apply to the superior court in the judicial district in which the strike is occurring for an order enjoining the strike. A strike may not be enjoined unless it can be shown that it has begun to threaten, or is about to threaten, the health, safety, or welfare of the public. A court, in deciding whether to enjoin the strike, shall consider the total equities in the particular case, including the impact of a strike on the public and the extent to which an employee organization and the corporation have met their statutory obligations.

(c) If an impasse or deadlock still exists after the issuance of an injunction, the parties shall submit the dispute to binding arbitration. The arbitrator shall be the same person selected under AS 42.40.840 and shall fashion the award the arbitrator considers equitable.

Sec. 42.40.860. AGREEMENTS. (a) The Department of

Administration may participate in labor negotiations between the corporation and an organization. The corporation shall seek advice of the Department of Administration before entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employment. However, the final decision regarding collective bargaining agreements, shall be made by the board.

(b) Upon the completion of negotiations between an organization and the corporation, if a settlement is reached, the corporation shall reduce it to writing in the form of an agreement. The agreement shall include a grievance procedure that shall have binding arbitration as its final step. Either party to the agreement has a right of action to enforce the agreement by petition to the railroad labor relations agency.

(c) The parties to an agreement under this section may agree to terms that specify an expiration date for the agreement.

(d) Notwithstanding (a) - (c) of this section, an organization and the corporation may mutually agree to submit a dispute to binding arbitration at any time.

Sec. 42.40.870. ORGANIZATION DUES AND EMPLOYEE BENEFITS, DEDUCTION AND AUTHORIZATION. Upon written authorization of an employee within a bargaining unit, the corporation shall deduct from the payroll of the employee the monthly amount of dues, fees, and other employee benefits as certified by the secretary of the exclusive bargaining representative and shall deliver it to the chief fiscal officer of the exclusive bargaining representative.

Sec. 42.40.880. EXEMPTION. Notwithstanding the provisions of AS 42.40.870, a collective bargaining settlement reached, or agreement entered into, under AS 42.40.860 that incorporates union security provisions, including a union shop or agency shop provision or

agreement, shall safeguard the rights of nonassociation of employees having bona fide religious convictions based on tenets or teachings of a church or religious body of which an employee is a member. Upon submission of proper proof of religious conviction to the railroad labor relations agency, the agency shall declare the employee exempt from becoming a member of an organization. The employee shall pay an amount of money equivalent to regular organization dues, initiation fees, and assessments to the organization. Nonpayment of this money subjects the employee to the same penalty as if it were nonpayment of dues. The receiving organization shall contribute an equivalent amount of money to a charity of its choice not affiliated with a religious, labor, or employee organization. The organization shall submit to the railroad labor relations agency proof of contribution.

Sec. 42.40.885. PROHIBITED ACTS. (a) The corporation or an employee may not directly or indirectly

(1) require or coerce an employee to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce an employee to make any report concerning an activity or undertaking of the employee's activities or undertakings unless the activity or undertaking is related to the performance of official duties;

(3) except as directly related to the performance of official duties, require or coerce an employee to submit to an interrogation, examination, or psychological test that is designed to elicit information concerning

(A) a personal relationship with a person connected with the employee by blood or marriage,

(B) the employee's religious beliefs or practices,

(C) sexual matters,

(D) the employee's political affiliation or philosophy;

(4) coerce an employee to invest or contribute earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of an employee, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of employees suspected of being involved in criminal activity or to investigate other activity directly related to official railroad business.

Sec. 42.40.890. DEFINITIONS. In AS 42.40.710 - 42.40.890

(1) "collective bargaining" means the performance of the mutual obligation of the corporation or its designated representatives and the representatives of the employees to meet at reasonable times, including meetings in advance of the budget making process, and negotiating in good faith with respect to wages, hours, and other terms and conditions of employment, or the negotiation of an agreement, or negotiation of a question arising under an agreement and the execution of a written contract incorporating an agreement reached if requested by either party, but these obligations do not compel either party to agree to a proposal or require the making of a concession;

(2) "election" means a proceeding conducted by the labor relations agency in which the employees in a collective bargaining unit cast a secret ballot for collective bargaining representatives, or for any other purpose specified in AS 42.40.710 - 42.40.890;

(3) "organization" means a labor or employee organization of any kind in which employees participate and that exists for the primary purpose of dealing with the corporation concerning grievances, labor disputes, wages, rates of pay, hours of employment and conditions of employment;

(4) "terms and conditions of employment" means the hours of employment, the compensation and fringe benefits, and the employer's personnel policies affecting the working conditions of the employees, but does not mean the general policies describing the function and purposes of an employer.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers under AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(c) Claims against the corporation are not subject to the provisions of AS 44.77 regarding claims against the state.

(d) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.905. NOTICE OF LEGAL ACTIONS. (a) The corporation shall notify the Department of Law within 30 days before initiating legal action unless special circumstances exist that require immediate

legal action to protect the corporation assets or to continue existing service.

(b) If notice of legal action is not given under (a) of this section, within 15 days of taking action the board shall notify the Department of Law of the action taken and of the special circumstances that exempted the action from the requirements of (a) of this section.

Sec. 42.40.910. EXEMPTION FROM TAXATION. (a) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Subject to (b) of this section, the real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

(c) This section does not affect or limit an exemption from license fees, property taxes, excise taxes, income taxes, or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

Sec. 42.40.920. APPLICATION OF EXISTING LAWS. (a) The corporation is not subject to the jurisdiction of the Alaska Transportation Commission.

(b) Unless specifically provided otherwise in this chapter, the following laws do not apply to the operations of the corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 38;

(11) AS 44.62.040 - 44.62.320.

(c) The corporation is subject to AS 45.50.562 - 45.50.596.

Sec. 42.40.930. CONFLICTING LAWS INAPPLICABLE. If provisions of this chapter conflict with the provisions of other state law, the provisions of this chapter prevail. Provisions of this chapter shall be construed so that they do not conflict with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.940. RAILROAD FACILITIES CODE COMPLIANCE. (a) Not later than two years after the date of transfer, the Department of Labor in consultation with the corporation shall develop and the corporation, shall adopt a plan to achieve compliance with AS 18.60. The plan shall be implemented and compliance achieved within five years after it is adopted.

(b) No later than two years after the date of transfer, the corporation in consultation with the Department of Public Safety and appropriate municipal officials, shall develop and adopt a plan to achieve compliance with building and related safety codes applicable

to facilities of the corporation. The plan shall be implemented and compliance achieved within five years after it is adopted. In the sole determination of the commissioner of public safety, any existing building owned or controlled by the corporation that does not present a serious safety hazard and for which compliance would be uneconomical in consideration of its remaining useful life shall be exempted from compliance with state or municipal safety codes.

Sec. 42.40.950. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

Sec. 42.40.980. DEFINITIONS. In this chapter, unless the context otherwise requires,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "bonds" means bonds, bond anticipation notes, notes, refunding bonds, or other obligations;

(3) "corporation" means the Alaska Railroad Corporation;

(4) "date of transfer" means the date on which the United States Secretary of Transportation delivers the transfer documents under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(5) "employees" means all persons employed by the corporation including executive officers;

(6) "executive officer" means the corporation's chief executive officer, an employee who fulfills management functions and is so designated by the board, and employees occupying the following positions on the date of transfer: general manager, assistant general manager, assistant to the general manager, chief of administration, and general counsel;

(7) "land" means any interest in real property, including tide and submerged land and any right appurtenant to the interest;

(8) "rule" means a standard of general application or the amendment, supplement, revision, or repeal of a standard adopted by the corporation to implement, interpret, or make specific the law enforced or administered by it to govern its procedure except one that

(A) relates only to the internal management of the corporation;

(B) relates to specific rates, tariffs, divisions, and contract rate agreements;

(C) relates to service schedules of the railroad;

(D) is directed to a specifically named person or to a group of persons and does not apply to the general public; or

(E) relates to the use of public works under the jurisdiction of the corporation if the effect of the order is indicated to the public by means of signs or signals.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation are as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 4. COLLECTIVE BARGAINING AGREEMENTS. (a) As soon as practicable after establishment of the Alaska Railroad Corporation and before transfer of the Alaska Railroad to the state, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska

Railroad and its employees on the date of transfer of the railroad. The collective bargaining agreements adopted under this section between the corporation and its employees shall remain in effect to the extent required under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

(b) The board of directors of the Alaska Railroad Corporation shall on or before the date of transfer of the Alaska Railroad to the state adopt personnel rules necessary to prevent an interruption of services of the railroad.

(c) Subject to 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982), within 180 days after the first meeting of the board of directors of the Alaska Railroad Corporation, the board and representatives of employee bargaining units shall establish procedures for the renegotiation of collective bargaining agreements adopted under (a) of this section. The board shall renegotiate all agreements adopted under (a) of this section within two years after the date of transfer of the Alaska Railroad to the state unless the parties agree to the contrary.

* Sec. 5. SALE OF RAILROAD. (a) Not later than two years following the date of the transfer of the Alaska Railroad to the state, the Board of Directors of the Alaska Railroad Corporation, in consultation with the state, shall request proposals from the private sector for the acquisition or operation of the Alaska Railroad. The board may engage the services of an investment banking firm or other professional expertise to assist in the development of the request and evaluation of proposals received. The board shall consider every proposal from the private sector for the acquisition or operation of the Alaska Railroad, even if it is not made in response to a request for proposals under this subsection.

(b) In order to be considered responsive, a proposal must

(1) ensure continued or improved rail service;

(2) return to the state its investment in the Alaska Railroad to

the extent possible;

(3) be consistent with the terms and conditions of 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982), and not activate the reversion provisions of 45 U.S.C. 1209 (Alaska Railroad Transfer Act of 1982);

(4) demonstrate with reasonable certainty that the railroad after acquisition by the private sector will be operated as a profitable carrier; as used in this paragraph, "profitable carrier" means a carrier that will be able to

(A) generate sufficient revenue to meet its expenses, including reasonable maintenance of necessary equipment and facilities; and

(B) finance its capital needs in the private market; and

(5) demonstrate how the railroad can continue operation of services, including current levels of passenger service.

(c) The board may negotiate the details of any proposal found to be responsive, including the execution of a letter of intent to conclude a transfer upon approval of the governor and the legislature.

(d) Within one year after requesting proposals under (a) of this section, the board shall submit a report on the results of the process to the governor, including its specific findings on the responsiveness of any proposal received and its recommendations for conclusion of a transfer of the railroad or its management to the private sector.

(e) Within 120 days after receipt of the board's report, if the board has recommended transfer of the Alaska Railroad or its management to the private sector, the governor shall

(1) disapprove the proposed transfer; or

(2) submit the report and recommendations to the legislature.

(f) Failure by the governor to act within 120 days after receipt of

the board's report shall be considered disapproval.

(g) The legislature shall approve or disapprove a proposed transfer without modification. The approval of the legislature is required before the board is authorized to complete the transfer.

(h) Unless a proposal under (a) of this section is approved, the process provided in this section shall be repeated every two years.

(i) The board shall, within five years after the date of transfer of the Alaska Railroad to the state, prepare a report for the governor and the legislature on the feasibility of other operational alternatives for transfer consistent with the criteria under (b) of this section of all or part of the railroad to the private sector, including allowing recipients of permanent fund dividends to direct their dividends to a railroad purchase fund.

* Sec. 6. SPECIAL REPORT. The corporation shall study any problems created by vibrations due to operating the railroad from Ship Creek through Inlet View to the Turnagain Area and extending to Potter's Marsh. The study shall include consideration of any potential for problems that may be created by hauling coal and larger quantities of gravel along that portion of the rail line. By February 1, 1986, the corporation shall present a report to the legislature on the study containing recommendations for correcting any problems identified.

* Sec. 7. This Act takes effect on the effective date of an amendment to the constitution of the State of Alaska relating to the Alaska Railroad.

IN THE HOUSE BY THE FINANCE COMMITTEE

CS FOR HOUSE BILL NO. 512 (Finance)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government; and

(5) there is vast potential in Alaska's natural resource areas

and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to

(1) create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(2) provide for the level of railroad service that best satisfies the needs of the people of the state consistent with the other findings and policies of this section;

(3) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by ensuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing bonds exempt from federal and state taxation;

(D) generally carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical railroad transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad

according to sound business management practices;

(G) preserve the integrity of the railroad utility corrido for transportation, communication, and transmission purposes;

(4) ensure that borrowing by the corporation does not directl or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There i established the Alaska Railroad Corporation. The corporation is public corporation and is an instrumentality of the state within th Department of Commerce and Economic Development. The corporation ha a legal existence independent of and separate from the state. Th exercise by the corporation of the powers provided in this chapter i considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of th corporation are vested in the board of directors. The board consists of the commissioner of commerce and economic development the commissioner of transportation and public facilities, and seve members appointed by the governor. The seven appointed member must be registered voters in the state except as provided in (1) and (2) of this subsection. At least two appointed members shall b from each judicial district directly served by the Alaska Railroad Except for the commissioners, a member may not be a state office or employee. Appointed members shall have the following qualifications:

(1) one member of the board shall be a person who has a least 10 years of experience in railroad management; a person who i not a resident of the state may be appointed under this paragraph;

(2) one member of the board shall be or have been an executive official of a United States railroad and shall be selected in accordance with 49 U.S.C. (Interstate Commerce Act); a person who is not a resident of the state may be appointed under this paragraph;

(3) two members shall have at least five years of experience as owners or managers of a business in the state.

(b) Except for the commissioners, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature or the legislature adjourns without confirming the member.

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. (a) Except for the commissioner of commerce and economic development, and the commissioner of transportation and public facilities, the members of the board serve for staggered terms of five years each.

(b) The governor may, by written notice to a member, remove the member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter

(2) continued refusal or inability to attend meetings of the board;

(3) conviction of a felony;

(4) any conduct intended to harm the corporation, even if it does not constitute a crime; or

(5) malfeasance and misfeasance.

Sec. 42.40.040. VACANCIES. (a) Except for the commissioner of commerce and the commissioner of transportation and public facilities, a vacancy on the board is filled by appointment by the governor, and

the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) An appointed member of the board whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $400 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which an appointed member is engaged in actual performance of duties as a member of the board.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. BOARD OFFICERS. (a) The board shall elect from its membership a chairman and vice-chairman and prescribe their duties by rule.

(b) The board shall appoint a secretary and prescribe the duties of the secretary.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but may delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.120. In managing the corporation the board shall

(1) be responsible for the management of the financial an

legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) generally manage the corporation on a self-sustaining basis;

(4) provide for safe, efficient, and economical railroad transportation to meet the overall needs of the state;

(5) raise needed capital by issuing bonds of the corporation while ensuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity;

(6) review state and other land disposal proposals to aid in planning for future development or expansion of railroad transportation services;

(7) ensure that standards of the United States Interstate Commerce Commission for class I railroads are used for accounting purposes by the corporation;

(8) ensure that the procurement procedures of the corporation comply with the procurement standards and procedures established for state agencies to the extent practicable consistent with efficient railroad operations;

(9) apply to the legislature for an appropriation to be used to provide a service that is not otherwise self-sustaining if a subsidy is required to maintain that service.

Sec. 42.40.110. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation who serves at the pleasure of the board. The board shall fix the compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint

and fix the compensation for other executive officers. The compensation for an executive officer appointed under this subsection is subject to board approval.

Sec. 42.40.120. DELEGATION. (a) The board may by rule delegate to the chief executive officer powers and duties necessary or appropriate for the management of the daily affairs and operations of the corporation.

(b) The board shall by rule establish procedures for carrying out the following powers and duties of the corporation and may delegate the exercise of the following powers and duties in accordance with the procedures to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests in property, except the corporation's entire interest in land;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels;

(4) establishing procurement and accounting procedures for the corporation; and

(5) performing procurement activities.

(c) The board may by rule require the exercise of a power or duty delegated under (a) or (b) of this section to be subject to board approval. Specific board approval is required for the following:

(1) issuing bonds;

(2) mortgaging or pledging corporation assets;

(3) donating property or other assets belonging to the corporation;

(4) acting as a surety or guarantor;

(5) adopting a long-range program or capital improvement plan;

(6) adopting annual reports;

(7) effecting general, comprehensive increases and decreases in rates;

(8) diversifying, expanding, or reducing services in a major way;

(9) expanding the main or branch rail lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer;

(10) selecting independent auditors and accountants;

(11) exercising the power of eminent domain;

(12) entering into collective bargaining agreements;

(13) adopting annual budgets; and

(14) beginning capital projects with an estimated completion cost of more than $500,000 or an estimated completion time of more than one year.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.150. MEETINGS OF THE BOARD. (a) The chairman of the board shall call meetings of the board at least once every three months and may call other meetings of the board as necessary. The chairman shall preside at meetings.

(b) Except for executive sessions, the meetings of the board are public. The board shall provide by rule for a method of providing notice to the public of its meetings.

(c) The board shall keep minutes of each meeting.

Sec. 42.40.160. QUORUM AND VOTING. (a) Five members of the board constitutes a quorum for the transaction of business.

(b) Five affirmative votes are required for board action. The

board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by telecommunication devices.

Sec. 42.40.170. EXECUTIVE SESSIONS. (a) The question of holding an executive session shall be determined in accordance with AS 42.40.160. A subject may not be considered at an executive session unless it is mentioned in the motion calling for the executive session or is auxiliary to a subject mentioned. An action may not be taken at an executive session.

(b) Only the following subjects may be discussed in an executive session:

(1) matters, the immediate knowledge of which would clearly have an adverse effect upon the finances of the corporation;

(2) unless the person has requested to have the subjects discussed in public, subjects that tend to prejudice the reputation and character of a person;

(3) matters that, by law or municipal charter or ordinance, are permitted to be kept confidential from public disclosure;

(4) matters pertaining to personnel;

(5) matters pertaining to the corporation's legal position;

(6) land acquisition or disposal; and

(7) proprietary or other information of a type treated as confidential under the standards and practices of the United States Interstate Commerce Commission, including practices that protect information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.180. RULES. (a) The board shall adopt rules to carry out its functions and the purposes of this chapter, including rules to safeguard property owned, managed, or transported by the

corporation and to protect employees and persons using the corporation's property or services. At least 15 days before the adoption of a rule, the board shall give public notice of the proposed action by publishing a notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to each person who has requested notice of proposed rules. The notice must state the time, place, and nature of the proceedings and must contain a summary of the subject of the proposed change.

(b) On the date and at the time and place designated in the notice required under (a) of this section the board shall provide each interested person an opportunity to present statements in writing concerning the proposed rule and shall give members of the public an opportunity to present oral statements for a total period of at least one hour.

(c) The board shall consider all relevant matters presented to it before adopting a rule. The board may take action on a rule that varies in content from the summary provided with the notice of the proposed rule if the subject of the rule was reflected in the summary and it provided reasonable notice to the public as to whether their interests could be affected by the board's action on that subject.

(d) The board shall establish in the bylaws of the corporation additional procedures for adopting rules if necessary.

Sec. 42.40.190. EMERGENCY RULES. (a) The board shall establish in the bylaws of the corporation a procedure for the adoption of a rule on an emergency basis. An emergency rule may be adopted only when necessary for the orderly operation of the corporation's facilities or programs. The requirements of AS 42.40.180 do not apply to actions taken under this section. However, within 10 days after the adoption of a rule on an emergency basis the board shall give notice

of its action that substantially complies with the notice requirements of AS 42.40.180(a).

(b) An action taken under this section remains in effect for not more than 120 days. To prevent an emergency rule from lapsing the board may adopt the same rule under AS 42.40.190 before the end of the 120-day period.

Sec. 42.40.200. VALIDITY OF RULES. (a) Failure to mail notice to a person under AS 42.40.180(a) or 42.40.190(a) does not invalidate an action taken by the board.

(b) An interested person may challenge a rule adopted by the board by bringing an action in the superior court. In addition to other grounds, a court may declare a rule invalid

(1) for substantial failure by the board to comply with AS 42.40.180 or 42.40.190; or

(2) if the rule was adopted under AS 42.40.190, upon the grounds that the emergency rule was not necessary for the orderly operation of the corporation's facilities or programs.

Sec. 42.40.205. APPLICATION. Adoption of a rule is not subject to AS 42.40.180 or 42.40.190 if it

(1) relates only to the internal management of the corporation;

(2) relates to specific rates, tariffs, divisions, and contract rate agreements;

(3) relates to service schedules of the railroad;

(4) is directed to a specifically named person or to a group of persons and does not apply to the general public; or

(5) relates to the use of public works under the jurisdiction of the corporation if the effect of the order is indicated to the public by means of signs or signals.

Sec. 42.40.210. PREVIOUSLY ADOPTED RULES AND ORDERS. (a) The board may provide by resolution that rules and orders in effect on the date of transfer remain in effect until amended or repealed by the board. The board may adopt the substance of former federal rules or orders relating to the Alaska Railroad and this may not be considered a continuation of the federal rules or orders if adopted by the board in accordance with procedural requirements of this chapter or other law.

(b) AS 42.40.180 does not apply to actions taken under this section.

Sec. 42.40.220. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate as confidential and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of legal counsel, and, consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, other information including proprietary information associated with specific shippers, divisions and contract rate agreements.

Sec. 42.40.230. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or executive officer of the corporation may not participate in a decision of the corporation in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section.

(b) A board member or executive officer may participate in decision if that person or a member of that person's immediate famil has only a remote interest, the fact and extent of the in.est i disclosed to the board in a public meeting and is noted in the minute of the board before any participation by the member or in the deci sion, and thereafter in a public meeting the board by vote authorize or approves the participation. If the person whose participation i: under consideration is a board member, that person may not vote unde: this subsection. For purposes of this subsection, "remote interest' means an interest that in good faith is defined as remote by rule: adopted by the corporation.

(c) A board member or executive officer is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or executive officer who intentionally violates a prohibition contained in this section.

(e) For purposes of this section

(1) "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes;

(2) "immediate family" means

(A) spouse;

(B) dependent parent, parent-in-law, child, son-in-law, daughter-in-law, sibling, uncle, aunt, niece, or nephew.

Sec. 42.40.240. COMPLAINT PROCEDURE. The board shall provide by

rule for a formal procedure for the receipt and consideration of complaints or suggestions regarding activities of the corporation.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.250. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, personal property, rights, rights-of-way, franchises, easements, and other interest in land, and acquire by appropriation water rights that are located in the state, taking title to the property in the name of the corporation;

(8) hold, maintain, use, operate, improve, lease, encumber and otherwise grant security interests in land or personal property and exchange, donate, convey, alienate, or otherwise dispose of personal property, subject to other provisions of this chapter;

(9) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to other provisions of federal or state law or municipal ordinances;

(10) undertake and provide for the management, operation, maintenance, use, and control of all of the property of the

corporation, including tracks, equipment and other property transferred to the corporation by the federal government or any person;

(11) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter;

(12) maintain offices and facilities at places it designates;

(13) apply to the state, the United States, and foreign countries or other proper agencies for the permits, licenses, rights-of-way, or approvals necessary to construct, maintain, and operate transportation and related services, and obtain, hold, and reuse the licenses and permits in the same manner as other railroad operators;

(14) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(15) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(16) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, property, and facilities of the corporation, including agreements that contain provisions to preserve and expand the railroad's traffic base;

(17) plan for and undertake expansion of the railroad and railroad activities, including extension of the rail system, and contract with other modes of transportation service connecting to the rail system;

(18) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment;

(19) assume all rights, liabilities, and obligations of the

Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(20) maintain or provide for a security force to protect property owned, managed or transported by the corporation and persons using railroad transportation services provided by the corporation;

(21) issue its bonds and provide for and secure their payment, provide for the rights of their holders and hold or dispose of them;

(22) purchase the corporation's bonds at a price not more than the principal amount of them plus interest;

(23) cancel bonds of the corporation purchased by the corporation;

(24) secure the payment of its bonds by pledge, mortgage, or other lien on its contracts, revenue, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) borrow money, including the amounts necessary to establish reasonable reserves, and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates other money will be available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(27) acquire, hold, and dispose of stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests that are provided in contracts or

agreements and that are allowed by law concerning the satisfaction of debts;

(28) undertake and provide for the acquisition, construction, maintenance, equipping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(29) do all things necessary or desirable to carry out the powers and duties of the corporation granted or necessarily implied in this chapter or other laws of the state or the laws or regulations of the federal government.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the Alaska Railroad the board shall distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The report may include suggestions for legislation relating to the structure, powers or duties of the corporation or to operation facilities of the corporation. Subject to AS 42.40.200, the report shall itemize the cost of providing each category of service offered by the railroad and the income generated by each category.

Sec. 42.40.270. AUDITS. (a) The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The board shall have an annual performance audit conducted by a recognized railroad management expert to assure that the railroad is being managed and operated effectively and efficiently in accordance with the requirements of this chapter. Auditors shall use the standards of the United States Interstate Commerce Commission for Class I railroads.

(b) The corporation shall make all of its financial records available to an auditor appointed by the governor and to the legislative audit division for examination. Disclosure to the public by the

auditor or legislative audit division of this information is subject to AS 42.40.200 and rules implementing that section.

Sec. 42.40.280. STATE OVERSIGHT REPORTS. (a) The board shall provide a state oversight report to the governor and the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or five percent of the railroad's total track mileage, whichever is greater;

(3) the issuance of securities, bonds or contracts in an amount exceeding $5,000,000; or

(4) an application for an appropriation to be used for providing any service that is not self-sustaining.

(b) The report under (a) of this section shall be in writing, describe the proposed undertaking in detail, and specify

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) the reasons the action is necessary or desirable to achieve the purposes of this chapter; and

(4) whether and when the undertaking is expected to be self-sustaining financially.

Sec. 42.40.285. LEGISLATIVE APPROVAL REQUIRED. Unless the legislature approves the action by law, the corporation may not

(1) exchange, donate, sell, or otherwise convey its entire

interest in land;

(2) issue securities, bonds, or contracts in an amount exceeding $5,000,000;

(3) extend main or branch lines by more than 25 miles or five percent of the railroad's total track mileage, whichever is greater.

Sec. 42.40.290. LONG RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long range program plan and a capital improvement plan. The board shall consult with affected state agencies and municipalities in preparing the plans. The long range program plan shall explain the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted and shall reflect efforts to upgrade the railroad and develop safer, more cost-effective rail operations.

(b) The board shall annually review and update the long range program and capital improvement plans. The board shall provide copies of the updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.300. USE OF CORPORATION ASSETS. The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for a purpose not authorized by law by a person having the possession or control of it is

prohibited.

Sec. 42.40.310. INDEMNIFICATION. (a) The corporation may defend and indemnify a current or former member of the board, employee, or agent of the corporation against all costs, expenses, judgments, and liabilities, including attorney's fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

(b) The corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold them harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding. The purchase of insurance is discretionary with the board and insurance is not considered to be compensation to the insured person.

ARTICLE 5. CORPORATION PROPERTY.

Sec. 42.40.350. LAND. (a) The corporation shall take title in its own name to all land transferred under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982). All land that is transferred or acquired by the corporation is designated as follows:

(1) railroad rights-of-way are railroad utility corridors;

(2) land outside the railroad utility corridors is rail land.

(b) A railroad utility corridor shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, unless the corporation does not own or control sufficient land

for a corridor of that width. A railroad utility corridor may be surveyed by the metes and bounds method. The corporation may not convey its entire interest in land within a railroad utility corridor except as provided in AS 42.40.285, 42.40.370(d), and 42.40.400. The corporation may lease, grant easements or permits, or otherwise authorize use of portions of a utility corridor for transportation, communication, and transmission purposes, including pipelines and support functions associated with those purposes and for commercial and other uses if the use does not restrict other parallel uses of the utility corridor.

(c) The corporation may lease, grant easements or permits, or otherwise authorize use of portions of rail land. However, the corporation may not convey its entire interest in rail land except as provided in AS 42.40.285, 42.40.370(d), and 42.40.400.

(d) A lease by the corporation to a party other than the state shall be made at fair market value as determined by appraisal by a qualified appraiser or by competitive bid.

Sec. 42.40.360. REQUEST FOR LAND. (a) The board may nominate federal land it determines may be useful for railroad purposes and request the commissioner of natural resources to select the land for the state through the federal land selection process.

(b) The board may identify and request the commissioner of natural resources to convey land necessary or useful for present or future railroad purposes owned by or tentatively approved for transfer to the state, including land not contiguous to land already held by the corporation. The request must include a statement of and justification for the present or future railroad use. Upon receipt of a request, the commissioner shall temporarily reserve the land identified in the request for railroad purposes and defer disposal or

lease of that land under other laws to a party other than the corporation. The temporary reservation of land is subject to valid existing rights and remains in effect for 180 days.

Sec. 42.40.370. CONVEYANCE OF STATE LAND. (a) Within 90 days after receiving a request under AS 42.40.360(b) the commissioner of natural resources shall by written decision

(1) designate the identified land for railroad purposes and, subject to valid existing rights, convey the state's interests in the land to the corporation;

(2) notify the corporation of reasons for refusal to designate the identified land for railroad purposes; or

(3) approve in part and deny in part the request for designation of the identified land and convey as appropriate.

(b) A conveyance of land under this section may be for less than fair market value as determined by the commissioner of natural resources.

(c) In the absence of a reservation to the contrary, a conveyance of land under this section vests in the corporation ownership, control of the surface, material, and mineral estate, including the right to extract or use timber and other construction materials, sand, gravel, rock, and the right to tunnel, ditch, recontour, excavate, or otherwise use the land for railroad, transportation, transmission, or communication services.

(d) The corporation may reconvey to the state land received under this section, under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982), by eminent domain, or otherwise that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

Sec. 42.40.380. USE OF STATE LAND. When emergency conditions

require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state land adjacent to or in the vicinity of the existing right-of-way and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with the concurrence of the Department of Natural Resources. The relocation must affect only the amount of state land necessary to adequately restore or continue safe rail operations at a normal level.

Sec. 42.40.390. EMINENT DOMAIN. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land for railroad purposes consistent with this chapter. Notwithstanding AS 09.55.250, the corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple title is necessary to carry out the purposes of this chapter.

(b) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(c) The power of eminent domain conferred under this section includes the power to obtain clay, gravel, sand, timber, rock, or other material for the operation of the railroad, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.400. VACATION OF EASEMENTS. The corporation may vacate an easement acquired under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) by executing and filing a deed in the appropriate recording district. Upon filing the deed the state shall acquire the easement for use in conformity with 45 U.S.C. 1201 - 1214.

Sec. 42.40.410. FEDERAL LAND. The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of federal land that will enhance the operations of the

corporation if it is available under a federal law other than the Alaska Statehood Act of 1958 (P.L. 85-508, 72 Stat. 339). The corporation may receive in its own name conveyances of all interests in federal land.

Sec. 42.40.420. MUNICIPAL USE OF LAND. Upon request of a municipality the corporation may authorize use of the railroad utility corridor or rail land for a pedestrian walkway or trail. Before authorizing a use under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless from and indemnify the corporation for liability and claims arising from any use authorized under this section including

(A) defending the corporation in a cause of action brought against the corporation as a result of the use; and

(B) indemnifying the corporation for the amount of a judgment, including prejudgment and postjudgment interest, rendered against the corporation or for the amount of a settlement entered into by the corporation, and for all costs and attorney's fees incurred by the corporation in settling or defending the claim; and

(2) stop the use upon request of the corporation if the use interferes with expansion or replacement of railroad facilities, creates a safety hazard, or interferes with railroad operations.

Sec. 42.40.430. ACQUISITION OF GOVERNMENT PROPERTY. The corporation, as an instrumentality of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 - 1622c (Surplus Property Act of 1944), 40 U.S.C. 471 et seq. (Federal Property and Administrative Services Act of 1949), or other law, property under the

control of a federal department or agency that is useful for the corporation's purposes. The corporation may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.435. EXCHANGE OF LAND. The corporation may exchange land subject to AS 42.40.285. The corporation is an instrumentality and agency of the state for purposes of exchanging land with the United States, municipalities, corporations including corporations formed under 43 U.S.C. 1601 - 1628 (Alaska Native Claims Settlement Act), and individuals.

Sec. 42.40.440. USE OF PESTICIDES AND HERBICIDES. Vegetation control involving the use of pesticides or herbicides on land owned or managed by the corporation may be conducted only in compliance with state requirements applicable to other state pesticide or herbicide use.

Sec. 42.40.450. ADVERSE POSSESSION. No prescription or statute of limitations runs against the title or interest of the corporation to or in land owned by the corporation or under its jurisdiction. Title to or interest in land owned by the corporation or under its jurisdiction may not be acquired by adverse possession or prescription, or in any other manner except by conveyance from or formal vacation by the corporation.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.510. FIDELITY BOND. The corporation shall obtain a

fidelity bond in an amount determined by the board for board members and each officer of the corporation responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.520. INSURANCE. Except as provided in AS 42.40.-310(b), the corporation shall protect its assets, services, and employees by purchasing insurance or providing for certain self-insurance retentions. The corporation shall also maintain casualty, property, business interruption, marine, boiler and machinery, pollution liability, and other insurance in amounts reasonably calculated to cover potential claims against the corporation or state for bodily injury, death or disability, and property damage that may arise from or be related to corporation operations and activities.

Sec. 42.40.530. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes in accordance with 45 U.S.C. 1207-(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.540. APPROPRIATIONS. The corporation may request a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter.

ARTICLE 7. BONDS.

Sec. 42.40.600. GENERAL PROVISIONS. (a) The corporation by resolution may issue bonds to provide money to carry out its purposes.

(b) Bonds may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear fixed or variable interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination or denominations;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(c) Bonds may be sold in the manner, on the terms, and at the price the board determines. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board, but notes shall mature at the time or times determined by the board.

Sec. 42.40.610. NEGOTIABLE INSTRUMENTS. Bonds issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.620. BONDS ELIGIBLE FOR INVESTMENT. Bonds issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds of the state is authorized by law.

Sec. 42.40.630. PAYMENT OF BONDS. The principal and interest on

bonds of the corporation is payable from corporation money or assets. Bonds may be additionally secured by a pledge of a grant or contribution from the federal, state, or municipal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

Sec. 42.40.640. SECURITY FOR BONDS. In the discretion of the board, an issue of bonds may be secured by a trust indenture, which may be a trust company, bank or national banking association, with corporate trust powers, located inside or outside the state, or by a secured loan agreement or other instrument or under resolution giving powers to a corporate trustee by means of which the corporation may

(1) make and enter into any and all the covenants and agreements with the trustees or the holders of the bonds that the corporation may determine to be necessary or desirable, including covenants, provisions, limitations and agreements as to

(A) the application, investment, deposit, use and disposition of the proceeds of bonds of the corporation or of money or other property of the corporation or in which it has an interest;

(B) the fixing and collection of rentals, charges, fees or other consideration for, and the other terms to be incorporated in, contracts with respect to the use of any of the corporation's property;

(C) the fixing and collection of tariffs, fees, charges or other consideration for the use or service of the Alaska Railroad by passengers, and other users and freight;

(D) the terms and conditions upon which additional bonds of the corporation may be issued;

(E) the vesting in the trustee of rights and remedies

exercisable by the trustee for the protection of the holders of bonds of th orporation and not otherwise in violation of law and the restriction of the rights of an individual holder of bonds of the corporation;

(2) pledge, mortgage, or assign money, leases, agreements, assets, or property of the corporation either presently in hand or to be received in the future, or both; and

(3) provide for any other matters of like or different character that in any way affect the security or protection of the bonds.

Sec. 42.40.650. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private or public sale of bonds to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.660. VALIDITY OF SIGNATURES. If an officer of the corporation whose signature or a facsimile of whose signature appears on bonds or coupons attached to them ceases to be an officer before the delivery of the bond or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.670. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the

issuance of the bonds.

Sec. 42.40.675. PLEDGE OF THE STATE. The state pledges to and agrees with the holders of bonds issued under this chapter and with the federal agency that loans or contributes funds in respect to a project, that the state will not limit or alter the rights and powers vested in the corporation by this chapter to fulfill the terms of a contract made by the corporation with the holders or federal agency, or in any way impair the rights and remedies of the holders until the bonds together with the interest on them with interest on unpaid installments of interest, and all costs and expenses in connection with an action or proceeding by or on behalf of the holders, are fully met and discharged. The corporation is authorized to include this pledge and agreement of the state, insofar as it refers to holders of bonds of the corporation, in a contract with the holders and insofar as it relates to a federal agency, in a contract with the federal agency.

Sec. 42.40.680. REMEDIES. A holder of bonds issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.690. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds issued under this chapter are payable solely from the

revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.700. LIMITATION ON PERSONAL LIABILITY. A board member or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.705. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

Sec. 42.40.710. CORPORATION EMPLOYEES. Employees of the Alaska

Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.720. COLLECTIVE BARGAINING RIGHTS. The provisions of AS 23.40.070 - 23.40.260 do not apply to the corporation or to its employees. However, employees who are not executive officers may organize and form, join, or assist an organization to engage in collective bargaining through representatives of their own choosing and engage in concerted activities for the purpose of collective bargaining or other mutual aid or protection.

Sec. 42.40.730. RAILROAD LABOR RELATIONS AGENCY. (a) There is established a railroad labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall carry out the provisions of AS 42.40.710 - 42.40.890.

(c) Members of the railroad labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.740. COLLECTIVE BARGAINING UNIT. The railroad labor relations agency shall decide in each case, in order to ensure employees the fullest freedom in exercising the rights guaranteed by AS 42.40.710 - 42.40.890 the unit appropriate for the purposes of collective bargaining, based on such factors as community of interest, wages, hours and other working conditions of the employees involved, the history of collective bargaining, and the desires of the employees. Bargaining units shall be as large as is reasonable, and unnecessary fragmenting shall be avoided.

Sec. 42.40.750. REPRESENTATIVES AND ELECTIONS. (a) The

railroad labor relations agency shall investigate a petition if it is submitted in a manner prescribed by the railroad labor relations agency by

(1) an employee or group of employees or an organization acting in their behalf alleging that 30 percent of the employees of a proposed bargaining unit

(A) want to be represented for collective bargaining by a labor or employee organization as exclusive representative; or

(B) assert that the organization that has been certified or is currently being recognized by the corporation as bargaining representative is no longer the representative of the majority of employees in an appropriate unit; or

(2) the corporation alleging that one or more organizations have presented to it a claim to be recognized as a representative of a majority of employees in an appropriate unit.

(b) If the railroad labor relations agency has reasonable cause to believe that a question of representation exists, it shall provide for a hearing upon due notice. If the railroad labor relations agency finds that there is a question of representation, it shall direct an election by secret ballot to determine whether or by which organization the employees desire to be represented and shall certify the results of the election. Nothing in this subsection prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the regulations of the railroad labor relations agency or an election in a bargaining unit agreed upon by the parties.

(c) The railroad labor relations agency shall determine who is eligible to vote in an election held under this section and shall

establish rules governing the election. In an election in which none of the choices on the ballot receives a majority of the votes cast, a runoff election shall be conducted, the ballot providing for selection between the two choices receiving the largest number of valid votes cast in the election. If an organization receives the majority of the votes case in the election it shall be certified by the railroad labor relations agency as exclusive representative of all the employees in the bargaining unit. An election may not be held in a bargaining unit or in a subdivision of a bargaining unit if a valid election has been held within the preceding 12 months.

(d) Nothing in this chapter prohibits recognition of an organization as the exclusive representative by the corporation by mutual consent.

(e) An election may not be directed by the railroad labor relations agency in a bargaining unit in which there is in force a valid collective bargaining agreement, except during a 90-day period preceding the expiration date. However, no collective bargaining agreement may bar an election upon petition of employees in the bargaining unit but not parties to the agreement if more than three years have elapsed since the execution of the agreement or the last timely renewal, whichever was later.

Sec. 42.40.760. UNFAIR LABOR PRACTICES. (a) The corporation or its agent may not

(1) interfere, restrain, or coerce an employee in the exercise of the rights guaranteed in AS 42.40.720;

(2) dominate or interfere with the formation, existence, or administration of an organization;

(3) discriminate in regard to hire or tenure of employment or a term or condition of employment to encourage or discourage

membership in an organization;

(4) discharge or discriminate against an employee because the employee has signed or filed an affidavit, petition or complaint or given testimony under AS 42.40.710 - 42.40.890;

(5) refuse to bargain collectively in good faith with an organization that is the exclusive representative of employees in an appropriate unit, including the discussing of grievances with the exclusive representative.

(b) Nothing in AS 42.40.710 - 42.40.890 prohibits the corporation from making an agreement with an organization to require as a condition of employment

(1) membership in the organization that represents the unit on or after the 30th day following the beginning of employment or on the effective date of the agreement, whichever is later; or

(2) payment by the employee to the exclusive bargaining agent of a service fee to reimburse the exclusive bargaining agency for the expense of representing the members of the bargaining unit.

(c) An organization or its agents may not

(1) restrain or coerce

(A) an employee in the exercise of the rights guaranteed in AS 42.40.720; or

(B) the corporation in the selection of a representative for the purposes of collective bargaining or the adjustment of grievances;

(2) refuse to bargain collectively in good faith with the corporation, if it has been designated in accordance with AS 42.40.710 - 42.40.890 as the exclusive representative of employees in an appropriate unit.

Sec. 42.40.770. INVESTIGATION AND CONCILIATION OF COMPLAINTS

If a verified written complaint by or for a person claiming to be aggrieved by a practice prohibited by AS 42.40.760 or a written accusation that a person subject to AS 42.40.710 - 42.40.890 has engaged in a prohibited practice, is filed with the railroad labor relations agency, it shall investigate the complaint or accusation. If it determines after a preliminary investigation that probable cause exists in support of the complaint or accusation, it shall try to eliminate the prohibited practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during this endeavor may be used as evidence in a subsequent proceeding.

Sec. 42.40.780. COMPLAINT AND ACCUSATION. If the railroad labor relations agency fails to eliminate the prohibited practice by conciliation and to obtain voluntary compliance with AS 42.40.710 - 42.40.890 or before it attempts conciliation, it may serve a copy of the complaint or accusation upon the respondent. The complaint or accusation and the subsequent procedures shall be handled in accordance with the administrative adjudication portion of the Administrative Procedure Act (AS 44.62).

Sec. 42.40.790. ORDERS AND DECISIONS. If the railroad labor relations agency finds that a person named in the written complaint or accusation has engaged in a prohibited practice, the railroad labor relations agency shall issue and serve on the person an order or decision requiring the person to cease and desist from the prohibited practice and to take affirmative action that will carry out the provisions of AS 42.40.710 - 42.40.890. If the railroad labor relations agency finds that a person named in the complaint or accusation has not engaged or is not engaging in a prohibited practice, the railroad labor relations agency shall state its findings of fact and issue an order dismissing the complaint or accusation.

Sec. 42.40.800. ENFORCEMENT BY INJUNCTION. The railroad labor relations agency may apply to the superior court in the judicial district in which the prohibited practice occurred for an order enjoining the prohibited acts specified in the order or decision of the railroad labor relations agency. Upon showing by the railroad labor relations agency that the person has engaged or is about to engage in the practice, an injunction, restraining order, or other order that is appropriate may be granted by the court and shall be without bond.

Sec. 42.40.810. POWER TO INVESTIGATE AND COMPEL TESTIMONY. (a) For the purpose of the investigations, proceedings, or hearings that the railroad labor relations agency considers necessary to carry out AS 42.40.710 - 42.40.890, the railroad labor relations agency may issue subpoenas requiring the attendance and testimony of witnesses and the production of relevant evidence.

(b) The railroad labor relations agency may administer oaths, examine witnesses, and receive evidence.

(c) The attendance of witnesses and the production of evidence may be required from any place in the state at any designated place of hearing.

(d) If a person refuses to obey a subpoena issued under AS 42.40.710 - 42.40.890, the superior court in the district in which the person resides or is found may, upon application by the railroad labor relations agency, issue an order requiring the person to comply with the subpoena.

Sec. 42.40.820. REGULATIONS. The railroad labor relations agency shall adopt regulations under the Administrative Procedure Act (AS 44.62) to carry out AS 42.40.710 - 42.40.890.

Sec. 42.40.830. PENALTY FOR VIOLATION OF ORDER OR DECISION. A person who violates a provision of an order or decision of the

railroad labor relations agency is guilty of a misdemeanor and is punishable by a fine of not more than $500.

Sec. 42.40.840. MEDIATION. (a) If, after a reasonable period of negotiation over the terms of a collective bargaining agreement, an impasse as determined by the railroad labor relations agency exists between the corporation and an organization, the railroad labor relations agency shall appoint a person mutually agreeable to the parties from a list of seven qualified mediators/arbitrators knowledgeable in railway labor agreements to act as mediator in the dispute.

(b) Before the determination of an impasse under this section, the parties may also select a mediator by mutual consent.

(c) It shall be the function of the mediator to bring the parties together to effectuate a settlement of the dispute, but neither the mediator nor the railroad labor relations agency has any power of compulsion in mediation proceedings.

Sec. 42.40.850. STRIKES. (a) Following a decision by the mediator to end the mediation proceedings, employees of a collective bargaining unit may engage in a strike for a limited time if a majority of the employees in that collective bargaining unit vote by secret ballot to do so. The limit of the strike is determined by the interest of the health, safety, or welfare of the public.

(b) The corporation may apply to the superior court in the judicial district in which the strike is occurring for an order enjoining the strike. A strike may not be enjoined unless it can be shown that it has begun to threaten, or is about to threaten, the health, safety, or welfare of the public. A court, in deciding whether to enjoin the strike, shall consider the total equities in the particular case, including the impact of a strike on the public and

the extent to which an employee organization and the corporation have met their statutory obligations.

(c) If an impasse or deadlock still exists after the issuance of an injunction, the parties shall submit the dispute to binding arbitration. The arbitrator shall be the same person selected under AS 42.40.840 and shall fashion the award the arbitrator considers equitable.

(d) Notwithstanding (a) - (c) of this section, an organization and the corporation may mutually agree to submit a dispute to binding arbitration at any time.

Sec. 42.40.860. AGREEMENTS. (a) The Department of Administration may participate in labor negotiations between the corporation and an organization. The corporation shall seek advice of the Department of Administration before entering into a collective bargaining agreement concerning wages hours, and other terms and conditions of employment. However, the final decision regarding collective bargaining agreements, shall be made by the board.

(b) Upon the completion of negotiations between an organization and the corporation, if a settlement is reached, the corporation shall reduce it to writing in the form of an agreement. The agreement shall include a grievance procedure that shall have binding arbitration as its final step. Either party to the agreement has a right of action to enforce the agreement by petition to the railroad labor relations agency.

(c) The parties to an agreement under this section may agree to terms that specify an expiration date for the agreement.

Sec. 42.40.870. ORGANIZATION DUES AND EMPLOYEE BENEFITS, DEDUCTION AND AUTHORIZATION. Upon written authorization of an employee within a bargaining unit, the corporation shall deduct from the

payroll of the employee the monthly amount of dues, fees, and other employee benefits as certified by the secretary of the exclusive bargaining representative and shall deliver it to the chief fiscal officer of the exclusive bargaining representative.

Sec. 42.40.880. EXEMPTION. Notwithstanding the provisions of AS 42.40.870, a collective bargaining settlement reached, or agreement entered into, under AS 42.40.860 that incorporates union security provisions, including a union shop or agency shop provision or agreement, shall safeguard the rights of nonassociation of employees having bona fide religious convictions based on tenets or teachings of a church or religious body of which an employee is a member. Upon submission of proper proof of religious conviction to the railroad labor relations agency, the agency shall declare the employee exempt from becoming a member of an organization. The employee shall pay an amount of money equivalent to regular organization dues, initiation fees, and assessments to the organization. Nonpayment of this money subjects the employee to the same penalty as if it were nonpayment of dues. The receiving organization shall contribute an equivalent amount of money to a charity of its choice not affiliated with a religious, labor, or employee organization. The organization shall submit to the railroad labor relations agency proof of contribution.

Sec. 42.40.885. PROHIBITED ACTS. (a) The corporation or an employee may not directly or indirectly

(1) require or coerce an employee to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce an employee to make any report concerning an activity or undertaking of the employee's activities or undertakings unless the activity or undertaking is related to the

performance of official duties;

(3) except as directly related to the performance of official duties, require or coerce an employee to submit to an interrogation, examination, or psychological test that is designed to elicit information concerning

(A) a personal relationship with a person connected with the employee by blood or marriage,

(B) the employee's religious beliefs or practices,

(C) sexual matters,

(D) the employee's political affiliation or philosophy;

(4) coerce an employee to invest or contribute earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of an employee, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of employees suspected of being involved in criminal activity or to investigate other activity directly related to official railroad business.

Sec. 42.40.890. DEFINITIONS. In AS 42.40.710 - 42.40.890

(1) "collective bargaining" means the performance of the mutual obligation of the corporation or its designated representatives and the representatives of the employees to meet at reasonable times, including meetings in advance of the budget making process, and negotiating in good faith with respect to wages, hours, and other terms and conditions of employment, or the negotiation of an agreement, or

negotiation of a question arising under an agreement and the execution of a written contract incorporating an agreement reached if requested by either party, but these obligations do not compel either party to agree to a proposal or require the making of a concession;

(2) "election" means a proceeding conducted by the labor relations agency in which the employees in a collective bargaining unit cast a secret ballot for collective bargaining representatives, or for any other purpose specified in AS 42.40.710 - 42.40.890;

(3) "organization" means a labor or employee organization of any kind in which employees participate and that exists for the primary purpose of dealing with the corporation concerning grievances, labor disputes, wages, rates of pay, hours of employment and conditions of employment;

(4) "terms and conditions of employment" means the hours of employment, the compensation and fringe benefits, and the employer's personnel policies affecting the working conditions of the employees, but does not mean the general policies describing the function and purposes of an employer.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers under

AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(c) Claims against the corporation are not subject to the provisions of AS 44.77 regarding claims against the state.

(d) The corporation is not subject to the provisions of AS 44.80.010, regarding the state as a party to an action.

Sec. 42.40.905. NOTICE OF LEGAL ACTIONS. (a) The corporation shall notify the Department of Law within 30 days before initiating legal action unless special circumstances exist that require immediate legal action to protect the corporation assets or to continue existing service.

(b) If notice of legal action is not given under (a) of this section, within seven days of taking action the board shall notify the Department of Law of the action taken and of the special circumstances that exempted the action from the requirements of (a) of this section.

Sec. 42.40.910. EXEMPTION FROM TAXATION. (a) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Subject to (b) of this section, the real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

(c) This section does not affect or limit an exemption from license fees, property taxes, excise taxes, income taxes, or other taxes provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

Sec. 42.40.920. APPLICATION OF EXISTING LAWS. (a) The corporation is not subject to the jurisdiction of the Alaska Transportation Commission.

(b) Unless specifically provided otherwise in this chapter, the following laws do not apply to the operations of the corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 38;

(11) AS 44.62.040 - 44.62.320.

(c) The corporation is subject to AS 45.50.562 - 45.50.596.

Sec. 42.40.930. CONFLICTING LAWS INAPPLICABLE. If provisions of this chapter conflict with the provisions of other state law, the provisions of this chapter prevail. Provisions of this chapter shall be construed so that they do not conflict with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.935. RAILROAD FACILITIES CODE COMPLIANCE. (a) Not later than two years after the date of transfer, the Department of

Labor in consultation with the corporation shall develop and the corporation, shall adopt a plan to achieve compliance with AS 18.60. The plan shall be implemented and compliance achieved within five years after it is adopted.

(b) No later than two years after the date of transfer, the corporation in consultation with the Department of Public Safety and appropriate municipal officials, shall develop and adopt a plan to achieve compliance with building and related safety codes applicable to facilities of the corporation. The plan shall be implemented and compliance achieved within five years after it is adopted. In the sole determination of the commissioner of public safety, any existing building owned or controlled by the corporation that does not present a serious safety hazard and for which compliance would be uneconomical in consideration of its remaining useful life shall be exempted from compliance with state or municipal safety codes.

Sec. 42.40.940. NEGOTIATION FOR SALE OF THE RAILROAD. The governor may require the board to negotiate in good faith the sale of the Alaska Railroad.

Sec. 42.40.950. REVERSION OF ASSETS. If the corporation ceases to exist, for reasons other than sale of the Alaska Railroad, its assets revert to the state.

Sec. 42.40.980. DEFINITIONS. In this chapter, unless the context otherwise requires,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "bonds" means bonds, bond anticipation notes, notes, refunding bonds, or other obligations;

(3) "corporation" means the Alaska Railroad Corporation;

(4) "date of transfer" means the date on which the United

States Secretary of Transportation delivers the transfer documents under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(5) "employees" means all persons employed by the corporation including executive officers;

(6) "executive officer" means the corporation's chief executive officer, an employee who fulfills management functions and is so designated by the board, and employees occupying the following positions on the date of transfer: general manager, assistant general manager, assistant to the general manager, chief of administration, and general counsel;

(7) "land" means any interest in real property, including tide and submerged land and any right appurtenant to the interest;

(8) "rule" means a standard of general application or the amendment, supplement, revision, or repeal of a standard adopted by the corporation to implement, interpret, or make specific the law enforced or administered by it to govern its procedure.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state [WITHIN THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT]. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

* Sec. 4. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the terms of the appointed members of the first board of directors of the

Alaska Railroad Corporation are as follows:

(1) one shall serve a term of two years;

(2) one shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 5. COLLECTIVE BARGAINING AGREEMENTS. (a) As soon as practicable after establishment of the Alaska Railroad Corporation and before transfer of the Alaska Railroad to the state, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees on the date of transfer of the railroad. The collective bargaining agreements adopted under this section between the corporation and its employees shall remain in effect to the extent required under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

(b) The board of directors of the Alaska Railroad Corporation shall on or before the date of transfer of the Alaska Railroad to the state adopt personnel rules necessary to prevent an interruption of services of the railroad.

(c) Subject to 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982), within 180 days after the first meeting of the board of directors of the Alaska Railroad Corporation, the board and representatives of employee bargaining units shall establish procedures for the renegotiation of collective bargaining agreements adopted under (a) of this section. The board shall renegotiate all agreements adopted under (a) of this section within two years after the date of transfer of the Alaska Railroad to the state unless the parties agree to the contrary.

* Sec. 6. SALE OF RAILROAD. (a) Not later than two years following the date of the transfer of the Alaska Railroad to the state, the Board of Directors of the Alaska Railroad Corporation, in consultation with the

state, shall request proposals from the private sector for the acquisition or operation of the Alaska Railroad. The board may engage the services of an investment banking firm or other professional expertise to assist in the development of the request and evaluation of proposals received. The board shall consider every proposal from the private sector for the acquisition or operation of the Alaska Railroad, even if it is not made in response to a request for proposals under this subsection.

(b) In order to be considered responsive, a proposal must

(1) ensure continued or improved rail service;

(2) return to the state its investment in the Alaska Railroad to the extent possible;

(3) be consistent with the terms and conditions of 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982), and not activate the reversion provisions of 45 U.S.C. 1209 (Alaska Railroad Transfer Act of 1982);

(4) demonstrate with reasonable certainty that the railroad after acquisition by the private sector will be operated as a profitable carrier; as used in this paragraph, "profitable carrier" means a carrier that will be able to

(A) generate sufficient revenue to meet its expenses, including reasonable maintenance of necessary equipment and facilities; and

(B) finance its capital needs in the private market; and

(5) demonstrate how the railroad can continue operation of services, including current levels of passenger service.

(c) The board may negotiate the details of any proposal found to be responsive, including the execution of a letter of intent to conclude a transfer upon approval of the governor and the legislature.

(d) Within one year after requesting proposals under (a) of this

section, the board shall submit a report on the results of the process to the governor, including its specific findings on the responsiveness of any proposal received and its recommendations for conclusion of a transfer of the railroad or its management to the private sector.

(e) Within 120 days after receipt of the board's report, if the board has recommended transfer of the Alaska Railroad or its management to the private sector, the governor shall

(1) disapprove the proposed transfer; or

(2) submit the report and recommendations to the legislature.

(f) Failure by the governor to act within 120 days after receipt of the board's report shall be considered approval.

(g) The legislature may disapprove a proposed transfer without modification by law enacted within 45 days after the proposal is submitted. If a proposal is submitted while the legislature is not in session, the legislature may disapprove the proposal with 45 days after the beginning of the next regular session. Failure by the legislature to act within the period required under this subsection shall be considered approval of the proposal.

(h) Unless a proposal under (a) of this section is approved, the process provided in this section shall be repeated every two years.

(i) The board shall, within five years after the date of transfer of the Alaska Railroad to the state, prepare a report for the governor and the legislature on the feasibility of other operational alternatives for transfer consistent with the criteria under (b) of this section of all or part of the railroad to the private sector, including allowing recipients of permanent fund dividends to direct their dividends to a railroad purchase fund.

* Sec. 7. SPECIAL REPORT. The corporation shall study any problems created by vibrations due to operating the railroad from Ship Creek through

Inlet View to the Turnagain Area and extending to Potter's Marsh. The study shall include consideration of any potential for problems that may be created by hauling coal and larger quantities of gravel along that portion of the rail line. By February 1, 1986, the corporation shall present a report to the legislature on the study containing recommendations for correcting any problems identified.

* Sec. 8. Section 3 of this Act takes effect on the effective date of an amendment to the constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 9. Sections 1, 2, and 4 - 7 of this Act take effect immediately in accordance with AS 01.10.070(c).

SUBJECT: Alaska Railroad
(CSSB 352 (Trsp))

TO: Senator Pappy Moss
Chairman, Senate Transportation
Committee

FROM: Tamara Brandt Cook
Deputy Director
Division of Legal Services

Here is a draft of CSSB 352 (Trsp) that you requested. Due to the general complexity of the bill and the fact that provisions were submitted to the Senate Transportation Committee from many sources, I have found a great many redundancies, ambiguities, and conflicts in this bill. In resolving these problems I have tried to conform to the apparent intent of the committee, but may have misconstrued some provisions. For this reason it is critical that you carefully review this draft and let me know if there are changes that should be made to it.

In addition, be alerted that I have reorganized portions of the bill, primarily by dividing very long sections into several smaller sections or moving sections from inappropriate articles and placing them elsewhere. I have changed certain wording so that it is consistent. For example, since "land" is defined to be all real property including tide and submerged land, I have replaced references to "real property" with "land" and removed superfluous references to tide and submerged land. Likewise, since "executive officer" and "executive official" appear to be interchangeable, I have consistently used the term "executive officer".

Section 42.40.020(e) provides for confirmation of board members. It is my understanding that you wish to retain this provision and that you understand that it can only function as a request to the governor to submit the members for confirmation, as has been done with certain other boards and

commissions. It is not, however, constitutionally enforceable under Article III, sections 25 and 26 of the state constitution as construed in Bradner v. Hammond, 553 P.2d 1 (Alaska, 1976).

Section 42.40.390 appears to be an attempt to grant the power of land use regulation, such as platting and zoning, to the railroad corporation, which would contravene the requirement contained in Article X, section 2 that all local government powers shall be vested in boroughs and cities. If, on the other hand, the purpose of the section is to exclude rail property from municipal land use regulation, that should be done specifically. I would recommend that the section be clarified or eliminated.

Section 42.40.720 grants protection from liability resulting from the execution or issuance of bonds or notes to employees and executive officers. Both these terms are defined and neither includes members of the board of directors. Should they be specifically included within this section?

Section 42.40.900(b) provides that in claims brought against the corporation in which it is the prevailing party, it is not an abuse of discretion for a court to award full costs and attorney's fees. I note that, for some reason, actions brought by the corporation are not included within this section. More importantly, this appears to be an attempt to overrule the line of cases that overturns awards of full attorney's fees by trial courts as abuses of discretion. Continental Ins. Co. v. U.S. Fid. & Guar. Co., 552 P.2d 964 (Alaska 1976); Davis v. Hallett, 587 P.2d 1170 (Alaska 1978). An award of attorney's fees is always subject to review for possible abuse of discretion. To the extent that this section treats the railroad corporation differently from other litigants similarly situated by shielding an award of full attorney's fees from review, it may constitute a denial of equal protection of the law under both the state and federal constitutions. To the extent that this section can be construed not to discriminate in favor of the corporation, it serves no purpose. I would recommend that it be eliminated.

Please let me know if I can be of further assistance with this draft.

IN THE SENATE BY THE TRANSPORTATION COMMITTEE

CS FOR SENATE BILL NO. 352 (Transportation)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to operate the Alaska Railroad with a board of nine directors responsible for management of the corporation; requiring the board to appoint a chief executive officer to manage the daily affairs and operations of the corporation; authorizing the board to adopt rules to carry out its functions; authorizing the corporation to issue bonds and notes; authorizing the corporation to manage all property acquired by the corporation or transferred to the state under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982); authorizing the corporation to exercise eminent domain; exempting the corporation from certain laws; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation

network;

(D) foster and promote the development of the st land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence; and

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government.

(b) It is the purpose of this Act to

(1) create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(2) provide for the level of transportation service that best satisfies the needs of the people of the state consistent with the other findings and policies of this section;

(3) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by ensuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing

obligations exempt from federal and state taxation and applying for federal money to which the state may be entitled or that may be available;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(G) preserve the integrity of the railroad utility corridor for transportation, communication, and transmission purposes;

(4) ensure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state within the Department of Commerce and Economic Development. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of commerce and economic development, the chief executive officer of the corporation, and seven members appointed by

the governor. The seven appointed members must be registered voters in the state except as provided in (b) and (c) of this section. No more than two appointed members may be from any one of the four judicial districts in the state. Two of the appointed members must have at least five years experience as owners or managers of a business in the state. Except for the commissioner, the chief executive officer, and the member appointed under (d) of this section, a member may not be a state officer or employee.

(b) One person who is not a resident of the state may be appointed by the governor to be a member of the board, if, at the time of appointment, the person has at least 10 years of experience in railroad management.

(c) One member of the board shall be or have been an executive official of a United States railroad and shall be selected in accordance with any requirements imposed under 49 U.S.C. (Interstate Commerce Act). A person who is not a resident of the state may be appointed under this subsection.

(d) One member shall be an employee who is a member of a bargaining unit representing employees of the corporation.

(e) Except for the commissioner of commerce and economic development and the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

Sec. 42.40.030. TERM OF OFFICE. Except for the commissioner of commerce and economic development and the chief executive officer of the corporation, members of the board serve for staggered terms of five years each at the pleasure of the governor.

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member of the board whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $250 for each day the member is engaged in the actual performance of duties as a member of the board.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. BOARD OFFICERS. (a) The board shall elect from its membership a chairman and vice-chairman and prescribe their duties by rule.

(b) The board shall appoint a secretary and prescribe the duties of the secretary.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.120. In managing the corporation the board shall

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) manage the corporation on a self-sustaining basis;

(4) apply to the legislature for an appropriation to be used to provide a particular service that is not otherwise self-sustaining if a subsidy is required to maintain that service;

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporation while ensuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity;

(7) review all state land disposal proposals to aid in planning for future development or expansion of transportation services;

(8) ensure that the accounting and procurement procedures of the corporation meet accepted railroad industry standards.

Sec. 42.40.110. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation who serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The compensation for an executive officer appointed under this subsection is subject to board approval.

Sec. 42.40.120. DELEGATION. (a) The board shall by rule delegate to the chief executive officer powers and duties necessary or appropriate for the management of the daily affairs and operations of the corporation. The board may by rule require the exercise of a

delegated power or duty to be subject to board approval.

(b) Within 60 days after its first meeting, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests in property;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels;

(4) establishing procurement and accounting procedures for the corporation; and

(5) performing procurement activities.

(c) Notwithstanding (a) and (b) of this section, specific board approval is required for the following:

(1) conveying the corporation's entire interest in land;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range capital improvement and program plan;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) expanding or reducing services in a major way;

(10) expanding the main or branch rail lines, other than performing routine track alignment as necessary to maintain service

levels in effect on the date of transfer;

(11) selecting independent auditors and accountants;

(12) exercising the power of eminent domain;

(13) entering into collective bargaining agreements; and

(14) adopting annual budgets.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.150. MEETINGS OF THE BOARD. (a) The chairman of the board shall call meetings of the board at least once every three months and may call other meetings of the board as necessary. The chairman shall preside at meetings.

(b) Except for executive sessions, the meetings of the board are public. The board shall provide by rule for a method of providing reasonable notice to the public of its meetings.

(c) The board shall keep minutes of each meeting.

Sec. 42.40.160. QUORUM AND VOTING. (a) Five voting members of the board constitutes a quorum for the transaction of business.

(b) Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by telecommunication devices.

Sec. 42.40.170. EXECUTIVE SESSIONS. (a) The question of holding an executive session shall be determined by a majority vote of the board. A subject may not be considered at an executive session unless it is mentioned in the motion calling for the executive session or is auxiliary to a subject mentioned. An action may not be taken at an executive session.

(b) The board may exclude from an executive session the chief executive officer of the corporation and the member appointed under AS 42.40.020(d) if the subject of the session is related to labor

relations or personnel contracts.

(c) Only the following subjects may be discussed in an executive session:

(1) matters, the immediate knowledge of which would clearly have an adverse effect upon the finances of the corporation;

(2) subjects that tend to prejudice the reputation and character of a person and that the person has not requested to have discussed in public;

(3) matters that, by law or municipal charter or ordinance, are permitted to be kept confidential from public disclosure;

(4) matters pertaining to personnel;

(5) matters pertaining to the corporation's legal position;

(6) land acquisition or disposal; and

(7) proprietary or other information of a type treated as confidential under the standards and practices of the United States Interstate Commerce Commission, including practices that protect information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.180. RULES. (a) The board shall adopt rules to carry out its functions and the purposes of this chapter, including rules to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services. At least 15 days before the adoption, amendment, or repeal of a rule, the board shall give public notice of the proposed action by publishing a notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to each person who has requested notice of proposed changes to rules. The notice must state the time, place, and nature of the proceedings and must contain a summary of the subject of the

proposed change.

(b) On the date and at the time and place designated in the notice required under (a) of this section the board shall provide each interested person an opportunity to present statements in writing concerning the proposed change and shall give members of the public an opportunity to present oral statements for a total period of at least one hour.

(c) The board shall consider all relevant matters presented to it before adopting, amending, or repealing a rule. The board may take action on a rule that varies in content from the summary provided with the notice of the proposed change if the subject of the rule was reflected in the summary and it provided reasonable notice to the public as to whether their interests could be affected by the board's action on that subject.

(d) The board shall establish in the bylaws of the corporation additional procedures for adopting rules if necessary.

Sec. 42.40.190. EMERGENCY RULES. (a) The board shall establish in the bylaws of the corporation a procedure for the adoption, amendment, or repeal of a rule on an emergency basis. An emergency change may be made only when necessary for the orderly operation of the corporation's facilities or programs. The requirements of AS 42.40.180 do not apply to actions taken under this section. However, within 10 days after the adoption, amendment, or repeal of a rule on an emergency basis the board shall give notice of its action that substantially complies with the notice requirements of AS 42.40.180(a).

(b) An action taken under this section remains in effect for not more than 120 days. To prevent an emergency change from lapsing the board may make the same change under AS 42.40.180 before the end of

the 120-day period.

Sec. 42.40.200. VALIDITY OF RULES. (a) Failure to mail notice to a person under AS 42.40.180(a) or 42.40.190(a) does not invalidate an action taken by the board.

(b) An interested person may challenge a rule adopted, amended, or repealed by the board by bringing an action in the superior court. In addition to other grounds, a court may declare a change invalid

(1) for substantial failure by the board to comply with AS 42.40.180 or 42.40.190; or

(2) if the rule was adopted under AS 42.40.190, upon the grounds that the emergency change was not necessary for the orderly operation of the corporation's facilities or programs.

Sec. 42.40.210. PREVIOUSLY ADOPTED RULES AND ORDERS. The board may provide by resolution that rules and orders in effect on the date of transfer remain in effect until amended or repealed by the board.

Sec. 42.40.220. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of legal counsel, and proprietary or other information of a type treated as confidential under standards and practices of the United States Interstate Commerce Commission, including practices that protect information associated with specific shippers, divisions, and contract rate agreements.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.250. GENERAL POWERS. In addition to the exercise of

other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, personal property, rights, rights-of-way, franchises, easements, and other interest in land, and acquire by appropriation water rights that are located in the state, taking title to the property in the name of the corporation;

(8) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, or transfer land or personal property, subject to other provisions of law;

(9) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to other provisions of federal or state law or municipal ordinances;

(10) undertake and provide for the management, operation, maintenance, use, and control of all of the property of the corporation, including rail properties transferred to it by the federal government;

(11) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate for expansion or extension and operation of the Alaska

Railroad;

(12) maintain offices and facilities at places it designates;

(13) apply to the state, the United States, and foreign countries or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and obtain, hold, and reuse the licenses and permits in the same manner as other railroad operators;

(14) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(15) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(16) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, property, and facilities of the railroad, including agreements that contain provisions to preserve and expand the railroad's traffic base;

(17) plan for and undertake expansion of the railroad and railroad activities, including extension of the rail system, and contract with other modes of transportation service connecting to the rail system;

(18) hire and discharge railroad personnel and determine benefits and other terms of employment, in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(19) assume and satisfy liabilities of the United States in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) and the closing report of July 14, 1983, as amended, prepared and submitted to Congress and the Legislature under 45 U.S.C. 1204(a);

(20) maintain a security force to enforce state law and the corporation's rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(21) issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and hold or dispose of them;

(22) purchase the corporation's bonds at a price not more than the principal amount of them plus interest;

(23) cancel bonds of the corporation purchased by the corporation;

(24) secure the payment of its obligations by pledge, mortgage, or other lien on its contracts, revenues, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) borrow money, including the amounts necessary to establish reasonable reserves, and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates other money will be available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing; and

(27) do all things necessary or desirable to carry out the powers and duties of the corporation granted or necessarily implied in this chapter or other laws of the state or the laws or regulations of the federal government.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the Alaska Railroad the board shall direct preparation of, certify and distribute to the governor and to the

legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The report shall itemize the cost of providing each category of service offered by the railroad and the income generated by each category.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor and to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.-40.220 and rules implementing that section.

Sec. 42.40.280. LONG RANGE CAPITAL IMPROVEMENT AND PROGRAM PLAN. (a) The corporation shall prepare and the board shall adopt a long range capital improvement and program plan. The plan shall explain the manner in which the corporation intends to accomplish the purposes of this chapter and the corporation's anticipated capital improvements during each of the five years after the plan is adopted.

(b) The board shall annually review and approve revisions to the long range capital improvement and program plan. The board shall provide copies of the updated plan to the governor and the legislature by December 1 of each year.

(c) The employees of the corporation shall prepare and revise the long range capital improvement and program plan. The board may not contract for the preparation or revision of the plan.

Sec. 42.40.290. USE OF CORPORATION ASSETS. The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private

distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for a purpose not authorized by law by a person having the possession or control of it is prohibited.

Sec. 42.40.300. INDEMNIFICATION. (a) The corporation may defend and indemnify a current or former member of the board, employee, or agent of the corporation against all costs, expenses, judgments, and liabilities, including attorney's fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

(b) The corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold them harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding. The purchase of insurance is discretionary with the board and insurance is not considered to be compensation to the insured person.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.350. LAND. (a) All land transferred under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All land that is transferred or acquired by the corporation is designated as follows:

(1) railroad rights-of-way or easements are utility

corridors;

(2) land other than railroad rights-of-way or easements is rail land.

(b) Utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width if the adjoining land is not rail land, and may be surveyed by the metes and bounds method. The corporation may not convey land within a utility corridor. However, the corporation may lease, grant easements or permits, or otherwise authorize use of portions of a utility corridor for transportation, communication, and transmission purposes and for support functions associated with those purposes, if the use does not restrict other parallel uses of the utility corridor.

(c) The corporation may convey, lease, grant easements or permits, or otherwise authorize use of portions of rail land for any purpose that does not interfere with use of a utility corridor.

Sec. 42.40.360. REQUEST FOR LAND. (a) The board may identify federal land necessary or useful for present, future or intended railroad purposes and request the commissioner of natural resources to nominate the land for state selection.

(b) The board by rule may identify and request the commissioner of natural resources to convey land necessary or useful for present, future, or intended railroad purposes owned by or tentatively approved for transfer to the state, including land not adjacent to a utility corridor. The request must include a statement of and justification for the present, future or intended railroad use. Upon receipt of a request, the commissioner shall temporarily reserve the land identified in the request for railroad purposes and delay disposal or lease of that land under other laws to a party other than the

corporation. The temporary reservation of land is subject to valid existing rights and remains in effect for 180 days.

Sec. 42.40.370. CONVEYANCE OF LAND. (a) Within 90 days after receiving a request under AS 42.40.360(b) the commissioner of natural resources shall

(1) designate the identified land for railroad purposes and, subject to valid existing rights, convey the state's interests in the land to the corporation;

(2) notify the corporation of reasons for refusal to designate the identified land for railroad purposes; or

(3) approve in part and deny in part the request.

(b) In the absence of a reservation to the contrary, a conveyance of land under this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract or use timber and other construction materials, sand, gravel, rock, and the right to tunnel, ditch, recontour, excavate, or otherwise use the land for railroad, transportation, transmission, and related purposes without regard to the classification of the resources as part of the surface or subsurface estate.

(c) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

Sec. 42.40.380. USE OF STATE LAND. When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state land adjacent to or in the vicinity of the existing right-of-way and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the

relocation and notify the the Department of Natural Resources. The relocation must affect only the amount of state land necessary to adequately restore or continue safe rail operations at a normal level.

Sec. 42.40.390. LAND USE RULES. The board may adopt exclusive rules governing land use by parties having interests in or permits for land owned or managed by the corporation. The power conferred by this section is exercised for the common health, safety, and welfare of the public and to the extent constitutionally permissible, may not be limited by the terms and conditions of leases, contracts, or other transactions.

Sec. 42.40.400. EMINENT DOMAIN. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land for lawful purposes consistent with this chapter. The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is title necessary to carry out the lawful purposes in condemning property.

(b) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(c) The power of eminent domain conferred under this section includes the power to obtain clay, gravel, sand, timber, rock, or other material for railroad use, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.410. VACATION OF LAND. The corporation may vacate land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing the deed the state shall acquire title to the land.

Sec. 42.40.420. FEDERAL LAND. The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of federal land available under federal law that will

enhance the operations of the corporation. The corporation may receive in its own name conveyances of all interests in federal land.

Sec. 42.40.430. MUNICIPAL EASEMENTS. Upon request the corporation may grant to a municipality a limited use easement in rail land or, subject to AS 42.40.350(b), over a utility corridor to be used for a pedestrian walkway or trail. Before granting a limited use easement under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the easement including

(A) defending the corporation in a cause of action brought against the corporation as a result of the use; and

(B) indemnifying the corporation for the amount of a judgment rendered against the corporation including prejudgment interest, costs, and attorney's fees; and

(2) vacate the easement upon request of the corporation if, as determined by the corporation, the easement interferes with expansion or replacement of railroad facilities.

Sec. 42.40.440. ACQUISITION OF GOVERNMENT PROPERTY. The corporation, as an instrumentality of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq. (Surplus Property Act of 1944), 40 U.S.C. 471 et seq. (Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes. The corporation may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred

by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.510. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for board members and each executive officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.520. INSURANCE. Except as provided in AS 42.40.300-(b), the corporation shall protect its assets, services, and personnel by purchasing insurance or providing for certain self-insurance retentions. The corporation shall also maintain casualty, property, business interruption, marine, boiler and machinery, pollution liability, and other insurance in amounts reasonably calculated to cover potential claims against the corporation or state for bodily injury, death or disability and property damage that may arise from or be related to corporation operations and activities.

Sec. 42.40.530. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes in accordance with 45 U.S.C. 1207-(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.540. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter.

ARTICLE 7. BONDS AND NOTES.

Sec. 42.40.600. GENERAL PROVISIONS. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide

money to carry out its purposes. However, the proceeds may not be used for activities other than those specifically related to the purposes for which the instruments are originally issued.

(b) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(c) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

Sec. 42.40.610. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.620. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds

and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.630. PAYMENT OF BONDS AND NOTES. (a) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(b) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

Sec. 42.40.640. AGREEMENTS WITH HOLDERS. The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes enter into the following agreements with the holders of the instruments:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or

notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

(14) to vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) to pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

(17) to appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

(18) to limit the rights of the holders of bonds or notes of

the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

Sec. 42.40.650. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when those definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.660. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds bei refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or

in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.670. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.680. VALIDITY OF SIGNATURES. If an officer of the corporation whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.690. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the

issuance of the bonds or notes.

Sec. 42.40.700. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.710. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.720. OFFICERS AND EMPLOYEES NOT LIABLE. An executive officer or employee of the corporation is not subject to personal

liability or accountability because of the execution or issuance of bonds or notes.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.750 CORPORATION EMPLOYEES. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.760. COLLECTIVE BARGAINING RIGHTS. The provisions of AS 23.40 (Public Employee Relations Act) do not apply to the corporation or to its employees. However, employees that are not executive officers may organize and form, join, or assist an organization to engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

Sec. 42.40.770. AGREEMENT. (a) At the request of the board or corporation employee organization, the Department of Administration shall participate in negotiations between the corporation and the employee organization.

+ add 14+51A

(b) An agreement executed between the corporation and an employee organization shall provide for a grievance procedure in which the final step in the procedure is binding arbitration. The agreement shall define "grievance" for purposes of this section.

Sec. 42.40.780. RAILROAD EMPLOYEES LABOR RELATIONS AGENCY. (a) There is established a railroad employees labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS 23.40.090 - 23.40.190 and carry out the provisions of AS 42.40.750 - 42.40.810.

(c) Members of the railroad employees labor relations agency

receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.790. STRIKES. (a) Employees may engage in a strike if a majority of the employees in a collective bargaining unit vote by secret ballot to do so.

(b) Notwithstanding the provisions of (a) of this section, the employees and the corporation may agree in writing to submit a dispute arising from interpretation or application of a collective bargaining agreement to arbitration.

Sec. 42.40.800. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

Sec. 42.40.810. PROHIBITED ACTS. (a) The corporation, an executive officer, or employee may not directly or indirectly:

(1) require or coerce an employee to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce an employee to make any report concerning an activity or undertaking of the employee's activities or undertakings unless the activity or undertaking is related to the performance of official duties;

(3) except as directly related to the performance of

official duties, require or coerce an employee to submit to an interrogation, examination or psychological test that is designed to elicit information concerning

(A) a personal relationship with a person connected with the employee by blood or marriage,

(B) the employee's religious beliefs or practices,

(C) sexual matters,

(D) the employee's political affiliation or philosophy;

(4) coerce an employee to invest or contribute earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of an employee, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of employees suspected of being involved in criminal activity.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) In a claim or other legal action against the corporation including actions involving the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, it is not an abuse of discretion for a court to award full costs and attorney's fees, including compensation for the financial losses to

official duties, require or coerce an employee to submit to an interrogation, examination or psychological test that is designed to elicit information concerning

(A) a personal relationship with a person connected with the employee by blood or marriage,

(B) the employee's religious beliefs or practices,

(C) sexual matters,

(D) the employee's political affiliation or philosophy;

(4) coerce an employee to invest or contribute earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of an employee, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of employees suspected of being involved in criminal activity.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) In a claim or other legal action against the corporation including actions involving the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, it is not an abuse of discretion for a court to award full costs and attorney's fees, including compensation for the financial losses to

the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers.

(d) Claims against the corporation are not subject to the provisions of AS 44.77 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.910. EXEMPTION FROM TAXATION. (a) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Subject to (b) of this section, the real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

(c) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes,

provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

Sec. 42.40.920. APPLICATION OF EXISTING LAWS. (a) The corporation is not subject to the jurisdiction of the Alaska Transportation Commission.

(b) The following laws do not apply to the operations of the corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 44.62 040 - 44.62.320.

Sec. 42.40.930. CONFLICTING LAWS INAPPLICABLE. If provisions of AS 42.40 conflict with the provisions of other law, the provisions of AS 42.40 prevail. Provisions of AS 42.40 shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.940. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

Sec. 42.40.980. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "collective bargaining" means negotiating with an

employees organization and representing employees on matters pertaining to conditions of employment;

(3) "corporation" means the Alaska Railroad Corporation;

(4. "date of transfer" means the date on which the United States Secretary of Transportation delivers the deed of conveyance for the properties of the Alaska Railroad under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(5) "employees" means all persons employed by the corporation including executive officers;

(6) "executive officer" means the corporation's chief executive officer, assistant chief executive officer, assistant to the chief executive officer, chief of administration, superintendent of transportation, manager of marketing and sales, chief engineer, chief mechanical officer, manager of industrial development and real estate, manager of budget and accounting, manager of planning, manager of personnel, manager of supply and procurement, chief of security, manager of operating rules, manager of data processing, manager of strategy, manager of operations planning, manager of supply, manager of procurement, manager of safety, manager of administrative procedure, chief counsel, or, if so designated by the board, any employee who fulfills these management functions under a different title or who exercises a similar or comparable level of responsibility;

(7) "land" means all real property, including tide and submerged land;

(8) "rail properties" means all real and personal property, tangible and intangible, of the corporation.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state [WITHIN THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT]. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

* Sec. 4. AS 42.40.020(a) is amended to read:

(a) The powers of the corporation are vested in the board of directors. The board consists of [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT,] the chief executive officer of the corporation, and eight [SEVEN] members appointed by the governor. The eight [SEVEN] appointed members must be registered voters in the state except as provided in (b) and (c) of this section. No more than two appointed members may be from any one of the four judicial districts in the state. Two of the appointed members must have at least five years experience as owners or managers of a business in the state. Except for [THE COMMISSIONER,] the chief executive officer [,] and the member appointed under (d) of this section, a member may not be a state officer or employee.

* Sec. 5. AS 42.40.020(e) is amended to read:

(e) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

* Sec. 6. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. (a) Except for [THE

COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, members of the board serve for staggered terms of five years each [AT THE PLEASURE OF THE GOVERNOR].

* Sec. 7. AS 42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

* Sec. 8. AS 42.40.180 is repealed and reenacted to read:

Sec. 42.40.180. RULES. (a) The board shall establish a procedure for adopting, amending, and repealing rules to carry out its functions and the purposes of this chapter, including a procedure for the adoption or change of rules on an emergency basis when essential to continue or to reinstate the orderly operation of the corporation's facilities or programs.

(b) The board shall adopt rules to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services.

* Sec. 9. SPECIAL REPORT. The governor shall contract with a private consultant for the preparation of a report on the long-term operations of the Alaska Railroad that are in the best interest of the state. The report shall be submitted to the governor and the legislature by January 1, 1988. It shall contain specific recommendations on operational alternatives and the transfer of all or part of the railroad operation to the private sector.

* Sec. 10. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD

Cook
3/16/84

Original sponsors: Kerttula, Faiks, Halford, et al

IN THE SENATE BY THE TRANSPORTATION COMMITTEE

CS FOR SENATE BILL NO. 352 (Transportation)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to operate the Alaska Railroad with a board of nine directors responsible for management of the corporation; requiring the board to appoint a chief executive officer to manage the daily affairs and operations of the corporation; authorizing the board to adopt rules to carry out its functions; authorizing the corporation to issue bonds and notes; authorizing the corporation to own and manage all property acquired by the corporation or transferred to the state under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982); authorizing the corporation to exercise eminent domain; exempting the corporation from AS 19, AS 23.40, AS 30.15, AS 35, AS 37.05, AS 37.07, AS 37.10.010 - 37.10.060, 37.10.085, AS 37.20, AS 37.25, AS 38, AS 39, and AS 44.62.040 - 44.62.320; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the

state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence; and

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government.

(b) It is the purpose of this Act to

(1) create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(2) provide for the level of transportation service that best satisfies the needs of the people of the state consistent with the other findings and policies of this section;

(3) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by ensuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation and applying for federal money to which the state may be entitled or that may be available;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(G) preserve the integrity of the railroad utility corridor for transportation, communication, and transmission purposes;

(4) ensure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state within the Department of Commerce and Economic Development. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the

corporation are vested in the board of directors. The board consists of the commissioner of commerce and economic development, the chief executive officer of the corporation, and seven members appointed by the governor. The seven appointed members must be registered voters in the state except as provided in (b) and (c) of this section. No more than two appointed members may be from any one of the four judicial districts in the state. Two of the appointed members must have at least five years experience as owners or managers of a business in the state. Except for the commissioner, the chief executive officer, and the member appointed under (d) of this section, a member may not be a state officer or employee.

(b) One member of the board shall be a person who has at least 10 years of experience in railroad management. A person who is not a resident of the state may be appointed under this subsection.

(c) One member of the board shall be or have been an executive official of a United States railroad and shall be selected in accordance with any requirements imposed under 49 U.S.C. (Interstate Commerce Act). A person who is not a resident of the state may be appointed under this subsection.

(d) One member shall be an employee who is a member of a bargaining unit representing employees of the corporation.

(e) Except for the commissioner of commerce and economic development and the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

Sec. 42.40.030. TERM OF OFFICE. Except for the commissioner of

commerce and economic development and the chief executive officer of the corporation, members of the board serve for staggered terms of five years each at the pleasure of the governor.

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member of the board whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $250 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which an appointed member is engaged in actual performance of duties as a member of the board.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. BOARD OFFICERS. (a) The board shall elect from its membership a chairman and vice-chairman and prescribe their duties by rule.

(b) The board shall appoint a secretary and prescribe the duties of the secretary.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. MANAGEMENT BY THE BOARD. The board is

responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.120. In managing the corporation the board shall

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) generally manage the corporation on a self-sustaining basis;

(4) apply to the legislature for an appropriation to be used to provide a particular service that is not otherwise self-sustaining if a subsidy is required to maintain that service;

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporation while ensuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity;

(7) review all private and state land disposal proposals to aid in planning for future development or expansion of transportation services;

(8) ensure that the accounting and procurement procedures of the corporation meet accepted railroad industry standards.

Sec. 42.40.110. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation who serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The

compensation for an executive officer appointed under this subsection is subject to board approval.

Sec. 42.40.120. DELEGATION. (a) The board shall by rule delegate to the chief executive officer powers and duties necessary or appropriate for the management of the daily affairs and operations of the corporation. The board may by rule require the exercise of a delegated power or duty to be subject to board approval.

(b) Within 60 days after its first meeting, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests in property;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels;

(4) establishing procurement and accounting procedures for the corporation; and

(5) performing procurement activities.

(c) Notwithstanding (a) and (b) of this section, specific board approval is required for the following:

(1) conveying the corporation's entire interest in land;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range capital improvement and program plan;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) expanding or reducing services in a major way;

(10) expanding the main or branch rail lines, other than performing routine t k alignment as necessary to maintain service levels in effect on the date of transfer;

(11) selecting independent auditors and accountants;

(12) exercising the power of eminent domain;

(13) entering into collective bargaining agreements; and

(14) adopting annual budgets.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.150. MEETINGS OF THE BOARD. (a) The chairman of the board shall call meetings of the board at least once every three months and may call other meetings of the board as necessary. The chairman shall preside at meetings.

(b) Except for executive sessions, the meetings of the board are public. The board shall provide by rule for a method of providing reasonable notice to the public of its meetings.

(c) The board shall keep minutes of each meeting.

Sec. 42.40.160. QUORUM AND VOTING. (a) Five voting members of the board constitutes a quorum for the transaction of business.

(b) Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by telecommunication devices.

Sec. 42.40.170. EXECUTIVE SESSIONS. (a) The question of holding an executive session shall be determined by a majority vote of the board. A subject may not be considered at an executive session unless

it is mentioned in the motion calling for the executive session or is auxiliary to a subject mentioned. An action may not be taken at an executive session.

(b) Only the following subjects may be discussed in an executive session:

(1) matters, the immediate knowledge of which would clearly have an adverse effect upon the finances of the corporation;

(2) unless the person has requested to have the subjects discussed in public, subjects that tend to prejudice the reputation and character of a person;

(3) matters that, by law or municipal charter or ordinance, are permitted to be kept confidential from public disclosure;

(4) matters pertaining to personnel;

(5) matters pertaining to the corporation's legal position;

(6) land acquisition or disposal; and

(7) proprietary or other information of a type treated as confidential under the standards and practices of the United States Interstate Commerce Commission, including practices that protect information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.180. RULES. (a) The board shall adopt rules to carry out its functions and the purposes of this chapter, including rules to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services. At least 15 days before the adoption, amendment, or repeal of a rule, the board shall give public notice of the proposed action by publishing a notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to each person who has requested notice of proposed

changes to rules. The notice must state the time, place, and nature of the proceedings and must contain a summary of the subject of the proposed change.

(b) On the date and at the time and place designated in the notice required under (a) of this section the board shall provide each interested person an opportunity to present statements in writing concerning the proposed change and shall give members of the public an opportunity to present oral statements for a total period of at least one hour.

(c) The board shall consider all relevant matters presented to it before adopting, amending, or repealing a rule. The board may take action on a rule that varies in content from the summary provided with the notice of the proposed change if the subject of the rule was reflected in the summary and it provided reasonable notice to the public as to whether their interests could be affected by the board's action on that subject.

(d) The board shall establish in the bylaws of the corporation additional procedures for adopting rules if necessary.

Sec. 42.40.190. EMERGENCY RULES. (a) The board shall establish in the bylaws of the corporation a procedure for the adoption, amendment, or repeal of a rule on an emergency basis. An emergency change may be made only when necessary for the orderly operation of the corporation's facilities or programs. The requirements of AS 42.40.180 do not apply to actions taken under this section. However, within 10 days after the adoption, amendment, or repeal of a rule on an emergency basis the board shall give notice of its action that substantially complies with the notice requirements of AS 42.40.180(a).

(b) An action taken under this section remains in effect for not

more than 120 days. To prevent an emergency change from lapsing the board may make the same change under AS 42.40.180 before the end of the 120-day period.

Sec. 42.40.200. VALIDITY OF RULES. (a) Failure to mail notice to a person under AS 42.40.180(a) or 42.40.190(a) does not invalidate an action taken by the board.

(b) An interested person may challenge a rule adopted, amended, or repealed by the board by bringing an action in the superior court. In addition to other grounds, a court may declare a change invalid

(1) for substantial failure by the board to comply with AS 42.40.180 or 42.40.190; or

(2) if the rule was adopted under AS 42.40.190, upon the grounds that the emergency change was not necessary for the orderly operation of the corporation's facilities or programs.

Sec. 42.40.210. PREVIOUSLY ADOPTED RULES AND ORDERS. The board may provide by resolution that rules and orders in effect on the date of transfer remain in effect until amended or repealed by the board. AS 42.40.180 does not apply to actions taken under this section.

Sec. 42.40.220. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of legal counsel, and, consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, other information including proprietary information associated with specific shippers, divisions

and contract rate agreements.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.250. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, personal property, rights, rights-of-way, franchises, easements, and other interest in land, and acquire by appropriation water rights that are located in the state, taking title to the property in the name of the corporation;

(8) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, or transfer land or personal property, subject to other provisions of this chapter;

(9) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to other provisions of federal or state law or municipal ordinances;

(10) undertake and provide for the management, operation, maintenance, use, and control of all of the property of the corporation, including all land and personal property of the Alaska Railroad transferred under 45 U.S.C. 1203(a) and described in the

report dated July 14, 1983, as amended, submitted to Congress and the legislature under 45 U.S.C. 1204(a);

(11) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate for expansion or extension and operation of the Alaska Railroad;

(12) maintain offices and facilities at places it designates;

(13) apply to the state, the United States, and foreign countries or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and obtain, hold, and reuse the licenses and permits in the same manner as other railroad operators;

(14) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(15) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(16) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, property, and facilities of the railroad, including agreements that contain provisions to preserve and expand the railroad's traffic base;

(17) plan for and undertake expansion of the railroad and railroad activities, including extension of the rail system, and contract with other modes of transportation service connecting to the rail system;

(18) hire and discharge railroad personnel and determine benefits and other terms of employment, in accordance with 45 U.S.C.

1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(19) assume and satisfy liabilities of the United States in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) and the closing report of July 14, 1983, as amended, prepared and submitted to Congress and the Legislature under 45 U.S.C. 1204(a);

(20) maintain a security force to enforce state law and the corporation's rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(21) issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and hold or dispose of them;

(22) purchase the corporation's bonds at a price not more than the principal amount of them plus interest;

(23) cancel bonds of the corporation purchased by the corporation;

(24) secure the payment of its obligations by pledge, mortgage, or other lien on its contracts, revenues, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) borrow money, including the amounts necessary to establish reasonable reserves, and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates other money will be available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing; and

(27) do all things necessary or desirable to carry out the powers and duties of the corporation granted or necessarily implied in

this chapter or other laws of the state or the laws or regulations of the federal government.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the Alaska Railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The report shall itemize the cost of providing each category of service offered by the railroad and the income generated by each category.

Sec. 42.40.270. AUDITS. (a) The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The board shall have an annual performance audit conducted by a recognized railroad management expert to assure that the railroad is being managed and operated effectively and efficiently in accordance with the requirements of this chapter.

(b) The corporation shall make all of its financial records available to an auditor appointed by the governor and to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.220 and rules implementing that section.

Sec. 42.40.280. LONG RANGE CAPITAL IMPROVEMENT AND PROGRAM PLAN. (a) The corporation shall prepare and the board shall adopt a long range capital improvement and program plan. The plan shall explain the manner in which the corporation intends to accomplish the purposes of this chapter and the corporation's anticipated capital improvements during each of the five years after the plan is adopted.

(b) The board shall annually review and approve revisions to the long range capital improvement and program plan. The board shall

provide copies of the updated plan to the governor and the legislature by December 1 of each year.

Sec. 42.40.290. USE OF CORPORATION ASSETS. The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for a purpose not authorized by law by a person having the possession or control of it is prohibited.

Sec. 42.40.300. INDEMNIFICATION. (a) The corporation may defend and indemnify a current or former member of the board, employee, or agent of the corporation against all costs, expenses, judgments, and liabilities, including attorney's fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

(b) The corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold them harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding. The purchase of insurance is discretionary with the board and insurance is not considered to be compensation to the insured person.

ARTICLE 5. CORPORATION PROPERTY.

Sec. 42.40.350. LAND. (a) All land transferred under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All land that is transferred or acquired by the corporation is designated as follows:

(1) railroad rights-of-way or easements are railroad utility corridors;

(2) land other than railroad rights-of-way or easements is rail land.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width if the adjoining land is not rail land, and may be surveyed by the metes and bounds method. The corporation may not convey land within a utility corridor. However, the corporation may lease, grant easements or permits, or otherwise authorize use of portions of a utility corridor for transportation, communication, and transmission purposes and support functions associated with those purposes, and for other uses authorized under this chapter if the use does not restrict other parallel uses of the utility corridor.

(c) The corporation may convey, lease, grant easements or permits, or otherwise authorize use of portions of rail land.

Sec. 42.40.360. REQUEST FOR LAND. (a) The board may nominate federal land necessary or useful for present, future or intended railroad purposes and request the commissioner of natural resources to sellect the land for the state through the federal land selection process.

(b) The board by rule may identify and request the commissioner of natural resources to convey land necessary or useful for present,

future, or intended railroad purposes owned by or tentatively approved for transfer to the state including land not adjacent to a railroad utility corridor. The request must include a statement of and justification for the present, future or intended railroad use. Upon receipt of a request, the commissioner shall temporarily reserve the land identified in the request for railroad purposes and delay disposal or lease of that land under other laws to a party other than the corporation. The temporary reservation of land is subject to valid existing rights and remains in effect for 180 days.

Sec. 42 40.370. CONVEYANCE OF LAND. (a) Within 90 days after receiving a request under AS 42.40.360(b) the commissioner of natural resources shall by written decision

(1) designate the identified land for railroad purposes and, subject to valid existing rights, convey the state's interests in the land to the corporation;

(2) notify the corporation of reasons for refusal to designate the identified land for railroad purposes; or

(3) approve in part and deny in part the request.

(b) A conveyance of land under this section may be for less than its appraised value as determined by the commissioner of natural resources.

(c) In the absence of a reservation to the contrary, a conveyance of land under this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract or use timber and other construction materials, sand, gravel, rock, and the right to tunnel, ditch, recontour, excavate, or otherwise use the land for railroad, transportation, transmission, and related purposes without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

Sec. 42.40.380. USE OF STATE LAND. When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state land adjacent to or in the vicinity of the existing right-of-way and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation and notify the the Department of Natural Resources. The relocation must affect only the amount of state land necessary to adequately restore or continue safe rail operations at a normal level.

Sec. 42.40.390. LAND USE RULES. The board may adopt exclusive rules governing land use by parties having interests in or permits for land owned or managed by the corporation. The power conferred by this section is exercised for the common health, safety, and welfare of the public and to the extent constitutionally permissible, may not be limited by the terms and conditions of leases, contracts, or other transactions.

Sec. 42.40.400. EMINENT DOMAIN. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land for lawful purposes consistent with this chapter. The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple title is necessary to carry out the lawful purposes in condemning the land.

(b) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(c) The power of eminent domain conferred under this section

includes the power to obtain clay, gravel, sand, timber, rock, or other material for railroad use, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.410. VACATION OF LAND. The corporation may vacate land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing the deed the state shall acquire title to the land.

Sec. 42.40.420. FEDERAL LAND. The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of federal land available under federal law that will enhance the operations of the corporation. The corporation may receive in it own name conveyances of all interests in federal land.

Sec. 42.40.430. MUNICIPAL USE OF RAILROAD LAND. Upon request the corporation may authorize use of railroad land for municipal purposes. Subject to AS 42.40.350(b), the corporation may authorize a municipality to establish a walkway or trail over a utility corridor. Before authorizing a use under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the railroad land including

(A) defending the corporation in a cause of action brought against the corporation as a result of the use; and

(B) indemnifying the corporation for the amount of a judgment rendered against the corporation including prejudgment interest, costs, and attorney's fees; and

(2) stop the use of railroad land upon request of the corporation if, as determined by the corporation, the use interferes with expansion or replacement of railroad facilities.

Sec. 42.40.440. ACQUISITION OF GOVERNMENT PROPERTY. The corporation, as an instrumentality of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq. (Surplus Property Act of 1944), 40 U.S.C. 471 et seq. (Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes. The corporation may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.510. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for board members and each executive officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.520. INSURANCE. Except as provided in AS 42.40.300-(b), the corporation shall protect its assets, services, and employees by purchasing insurance or providing for certain self-insurance retentions. The corporation shall also maintain casualty, property, business interruption, marine, boiler and machinery, pollution liability, and other insurance in amounts reasonably calculated to cover potential claims against the corporation or state for bodily injury, death or disability and property damage that may arise from or be related to corporation operations and activities.

Sec. 42.40.530. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes in accordance with 45 U.S.C. 1207-(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.540. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter.

ARTICLE 7. BONDS AND NOTES.

Sec. 42.40.600. GENERAL PROVISIONS. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes. However, the proceeds may not be used for activities other than those specifically related to the purposes for which the instruments are originally issued.

(b) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without

premium.

(c) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

Sec. 42.40.610. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.620. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.630. PAYMENT OF BONDS AND NOTES. (a) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(b) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or

bond anticipation note proceeds are not available, from other money or assets of the corporation.

Sec. 42.40.640. AGREEMENTS WITH HOLDERS. The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes enter into the following agreements with the holders of the instruments:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

(9) covenant against extending the time for the payment of

bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

(14) to vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) to pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust

company or bank having the powers of a trust company inside or outside the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

(17) to appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

(18) to limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

Sec. 42.40.650. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when those definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.660. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest

that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.670. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private or public sale of bonds or bond anticipation notes to an underwriter the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.680. VALIDITY OF SIGNATURES. If an officer of the corporation whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.690. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.700. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.710. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a

political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.720. LIMITATION ON PERSONAL LIABILITY. A board member or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.750 CORPORATION EMPLOYEES. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.760. COLLECTIVE BARGAINING RIGHTS. The provisions of AS 23.40 (Public Employee Relations Act) do not apply to the corporation or to its employees. However, employees that are not executive officers may organize and form, join, or assist an organization to engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

Sec. 42.40.770. AGREEMENT. (a) At the request of the board or corporation employee organization, the Department of Administration shall participate in negotiations between the corporation and the employee organization.

(b) An agreement executed between the corporation and an employee organization shall provide for a grievance procedure in which

the final step in the procedure is binding arbitration. The agreement shall define "grievance" for purposes of this section.

Sec. 42.40.780. RAILROAD EMPLOYEES LABOR RELATIONS AGENCY. (a) There is established a railroad employees labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS 23.40.090 - 23.40.190 and carry out the provisions of AS 42.40.750 - 42.40.810.

(c) Members of the railroad employees labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.790. STRIKES. (a) Employees may engage in a strike if a majority of the employees in a collective bargaining unit vote by secret ballot to do so.

(b) Notwithstanding the provisions of (a) of this section, the employees and the corporation may agree in writing to submit a dispute arising from interpretation or application of a collective bargaining agreement to arbitration.

Sec. 42.40.800. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An

action to enforce this section may be brought by any person.

Sec. 42.40.810. PROHIBITED ACTS. (a) The corporation or an employee may not directly or indirectly:

(1) require or coerce an employee to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce an employee to make any report concerning an activity or undertaking of the employee's activities or undertakings unless the activity or undertaking is related to the performance of official duties;

(3) except as directly related to the performance of official duties, require or coerce an employee to submit to an interrogation, examination or psychological test that is designed to elicit information concerning

(A) a personal relationship with a person connected with the employee by blood or marriage,

(B) the employee's religious beliefs or practices,

(C) sexual matters,

(D) the employee's political affiliation or philosophy;

(4) coerce an employee to invest or contribute earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of an employee, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of employees suspected of being involved in criminal

activity.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers.

(c) Claims against the corporation are not subject to the provisions of AS 44.77 regarding claims against the state.

(d) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.910. EXEMPTION FROM TAXATION. (a) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Subject to (b) of this section, the real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision or the state.

(b) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of

the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

(c) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

Sec. 42.40.920. APPLICATION OF EXISTING LAWS. (a) The corporation is not subject to the jurisdiction of the Alaska Transportation Commission.

(b) The following laws do not apply to the operations of the corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085

(8) AS 37.20;

(9) AS 37.25;

(10) AS 38;

(11) AS 44.62.040 - 44.62.320.

Sec. 42.40.930. CONFLICTING LAWS INAPPLICABLE. If provisions of AS 42.40 conflict with the provisions of other state law, the provisions of AS 42.40 prevail. Provisions of AS 42.40 shall be construed so that they do not conflict with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.940. REVERSION OF ASSETS. If the corporation ceases

to exist, for whatever reason, its assets revert to the state.

Sec. 42.40.980. DEFINITIONS. In this chapter unless the context otherwise requires,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "collective bargaining" means negotiating with an employees organization and representing employees on matters pertaining to conditions of employment;

(3) "corporation" means the Alaska Railroad Corporation;

(4) "date of transfer" means the date on which the United States Secretary of Transportation delivers the transfer documents under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(5) "employees" means all persons employed by the corporation including executive officers;

(6) "executive officer" means the corporation's chief executive officer, assistant chief executive officer, assistant to the chief executive officer, chief of administration, superintendent of transportation, manager of marketing and sales, chief engineer, chief mechanical officer, manager of industrial development and real estate, manager of budget and accounting, manager of planning, manager of personnel, manager of supply and procurement, chief of security, manager of operating rules, manager of data processing, manager of strategy, manager of operations planning, manager of supply, manager of procurement, manager of safety, manager of administrative procedure, chief counsel, or, if so designated by the board, any employee who fulfills these management functions under a different title or who exercises a similar or comparable level of responsibility;

(7) "land" means any interest in real property, including tide and submerged land.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state [WITHIN THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT]. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

* Sec. 4. AS 42.40.020(a) is amended to read:

(a) The powers of the corporation are vested in the board of directors. The board consists of [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT,] the chief executive officer of the corporation, and <u>eight</u> [SEVEN] members appointed by the governor. The <u>eight</u> [SEVEN] appointed members must be registered voters in the state except as provided in (b) and (c) of this section. No more than two appointed members may be from any one of the four judicial districts in the state. Two of the appointed members must have at least five years experience as owners or managers of a business in the state. Except for [THE COMMISSIONER,] the chief executive officer [,] and the member appointed under (d) of this section, a member may not be a state officer or employee.

* Sec. 5. AS 42.40.020(e) is amended to read:

(e) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed

board member until the member is rejected by the legislature.

* Sec. 6. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. (a) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, members of the board serve for staggered terms of five years each [AT THE PLEASURE OF THE GOVERNOR].

* Sec. 7. AS 42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

* Sec. 8. AS 42.40.180 is repealed and reenacted to read:

Sec. 42.40.180. RULES. (a) The board shall establish a procedure for adopting, amending, and repealing rules to carry out its functions and the purposes of this chapter, including a procedure for the adoption or change of rules on an emergency basis when essential to continue or to reinstate the orderly operation of the corporation's facilities or programs.

(b) The board shall adopt rules to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services.

* Sec. 9. SPECIAL REPORT. The governor shall contract with a private consultant for the preparation of a report on the long-term operations of the Alaska Railroad that are in the best interest of the state. The report shall be submitted to the governor and the legislature by January 1, 1988. It shall contain specific recommendations on operational alternatives and

the transfer of all or part of the railroad operation to the private sector.

* Sec. 10. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation are as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 11. COLLECTIVE BARGAINING AGREEMENTS. (a) As soon as practicable before transfer of the Alaska Railroad to the state, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees on the date of transfer of the railroad. The collective bargaining agreements adopted under this section between the corporation and its employees shall remain in effect to the extent required under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

(b) Within 180 days after the first meeting of the board of directors of the Alaska Railroad Corporation, the board and representatives of employee bargaining units shall establish procedures for the renegotiation of bargaining agreements adopted under (a) of this section.

* Sec. 12. AS 42.40.190 and 42.40.200 are repealed.

* Sec. 13. Sections 3 - 8 and 12 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 14. Sections 1, 2, and 9 - 11 of this Act take effect immediately in accordance with AS 01.10.070(c).

ERRATA

Page 8, line 10, delete entire number (11) and renumber accordingly.

Page 9, line4, should be AS 42.40.160 instead of AS 42.40.140.

Page 17, line 1 and line 8, add the following:

After "REPORT." insert "(a)" and on line 8 add a new (b) to read: "(b) Every five years the annual report shall include an analysis of potential sales arrangements with private enterprise. The analysis shall include documentation of at least three corporation initiated orrers to sell the corporation to private enterprise."

IN THE SENATE BY THE FINANCE COMMITTEE

CS FOR SENATE BILL NO. 352 (Finance)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to operate the Alaska Railroad with a board of nine directors responsible for management of the corporation; requiring the board to appoint a chief executive officer to manage the daily affairs and operations of the corporation; authorizing the board to adopt rules to carry out its functions; authorizing the corporation to issue bonds and notes; authorizing the corporation to own and manage all property acquired by the corporation or transferred to the state under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982); authorizing the corporation to exercise eminent domain; exempting the corporation from AS 19, AS 23.40.070 - 23.40.260, AS 30.15, AS 35, AS 37.05, AS 37.07, AS 37.10.010 - 37.10.060, 37.10.085, AS 37.20, AS 37.25, AS 38, AS 39, and AS 44.62.040 - 44.62.320; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence; and

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government.

(b) It is the purpose of this Act to

(1) create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(2) provide for the level of transportation service that best satisfies the needs of the people of the state consistent with the other findings and policies of this section;

(3) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by ensuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) operate the railroad as a common carrier subject to the

jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation and applying for federal money to which the state may be entitled or that may be available;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(G) preserve the integrity of the railroad utility corridor for transportation, communication, and transmission purposes;

(4) ensure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state within the Department of Commerce and Economic Development. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists

of the commissioner of commerce and economic development, the chief executive officer of the corporation, and seven members appointed by the governor. The seven appointed members must be registered voters in the state except as provided in (b) and (c) of this section. Except for the member appointed under (d) of this section, no more than two appointed members may be from any one of the four judicial districts in the state. Two of the appointed members must have at least five years experience as owners or managers of a business in the state. Except for the commissioner, the chief executive officer, and the member appointed under (d) of this section, a member may not be a state officer or employee.

(b) One member of the board shall be a person who has at least 10 years of experience in railroad management. A person who is not a resident of the state may be appointed under this subsection.

(c) One member of the board shall be or have been an executive official of a United States railroad and shall be selected in accordance with any requirements imposed under 49 U.S.C. (Interstate Commerce Act). A person who is not a resident of the state may be appointed under this subsection.

(d) One member shall be an employee who is a member of a bargaining unit representing employees of the corporation.

(e) Except for the commissioner of commerce and economic development and the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

Sec. 42.40.030. TERM OF OFFICE. Except for the commissioner of commerce and economic development and the chief executive officer of

the corporation, members of the board serve for staggered terms of five years each at the pleasure of the governor.

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member of the board whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $400 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which an appointed member is engaged in actual performance of duties as a member of the board.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. BOARD OFFICERS. (a) The board shall elect from its membership a chairman and vice-chairman and prescribe their duties by rule.

(b) The board shall appoint a secretary and prescribe the duties of the secretary.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain

powers and duties to the chief executive officer in accordance with AS 42.40.120. In managing the corporation the board shall

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) generally manage the corporation on a self-sustaining basis;

(4) apply to the legislature for an appropriation to be used to provide a particular service that is not otherwise self-sustaining if a subsidy is required to maintain that service;

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporation while ensuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity;

(7) review all private and state land disposal proposals to aid in planning for future development or expansion of transportation services;

(8) ensure that the accounting and procurement procedures of the corporation meet accepted railroad industry standards;

(9) ensure that standards of the United States Interstate Commerce Commission for class I railroads are used for accounting purposes by the corporation.

Sec. 42.40.110. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation who serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The compensation for an executive officer appointed under this subsection is subject to board approval.

Sec. 42.40.120. DELEGATION. (a) The board shall by rule delegate to the chief executive officer powers and duties necessary or appropriate for the management of the daily affairs and operations of the corporation. The board may by rule require the exercise of a delegated power or duty to be subject to board approval.

(b) Within 60 days after its first meeting, the board shall delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests in property that do not constitute a transfer of the corporation's entire interest in land;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels;

(4) establishing procurement and accounting procedures for the corporation; and

(5) performing procurement activities.

(c) Notwithstanding (a) and (b) of this section, specific board approval is required for the following:

(1) issuing notes, debentures, and bonds;

(2) mortgaging or pledging corporation assets;

(3) donating property or other assets belonging to the corporation;

(4) acting as a surety or guarantor;

(5) adopting a long-range capital improvement and program

plan;

(6) adopting annual reports;

(7) effecting general comprehensive increases and decreases in rates;

(8) expanding or reducing services in a major way;

(9) expanding the main or branch rail lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer;

(10) selecting independent auditors and accountants;

(11) exercising the power of eminent domain;

(12) entering into collective bargaining agreements; and

(13) adopting annual budgets;

(14) beginning a capital project with an estimated completion cost of more than $500,000 or an estimated completion time of more than one year.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.150. MEETINGS OF THE BOARD. (a) The chairman of the board shall call meetings of the board at least once every three months and may call other meetings of the board as necessary. The chairman shall preside at meetings.

(b) Except for executive sessions, the meetings of the board are public. The board shall provide by rule for a method of providing reasonable notice to the public of its meetings.

(c) The board shall keep minutes of each meeting.

Sec. 42.40.160. QUORUM AND VOTING. (a) Five voting members of the board constitutes a quorum for the transaction of business.

(b) Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for

voting and conferring by telecommunication devices.

Sec. 42.40.170. EXECUTIVE SESSIONS. (a) The question of holding an executive session shall be determined in accordance with AS 42.40.140. A subject may not be considered at an executive session unless it is mentioned in the motion calling for the executive session or is auxiliary to a subject mentioned. An action may not be taken at an executive session.

(b) Only the following subjects may be discussed in an executive session:

(1) matters, the immediate knowledge of which would clearly have an adverse effect upon the finances of the corporation;

(2) unless the person has requested to have the subjects discussed in public, subjects that tend to prejudice the reputation and character of a person;

(3) matters that, by law or municipal charter or ordinance, are permitted to be kept confidential from public disclosure;

(4) matters pertaining to personnel;

(5) matters pertaining to the corporation's legal position;

(6) land acquisition or disposal; and

(7) proprietary or other information of a type treated as confidential under the standards and practices of the United States Interstate Commerce Commission, including practices that protect information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.180. RULES. (a) The board shall adopt rules to carry out its functions and the purposes of this chapter, including rules to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services. At least 15 days before the adoption,

amendment, or repeal of a rule, the board shall give public notice of the proposed action by publishing a notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to each person who has requested notice of proposed changes to rules. The notice must state the time, place, and nature of the proceedings and must contain a summary of the subject of the proposed change.

(b) On the date and at the time and place designated in the notice required under (a) of this section the board shall provide each interested person an opportunity to present statements in writing concerning the proposed change and shall give members of the public an opportunity to present oral statements for a total period of at least one hour.

(c) The board shall consider all relevant matters presented to it before adopting, amending, or repealing a rule. The board may take action on a rule that varies in content from the summary provided with the notice of the proposed change if the subject of the rule was reflected in the summary and it provided reasonable notice to the public as to whether their interests could be affected by the board's action on that subject.

(d) The board shall establish in the bylaws of the corporation additional procedures for adopting rules if necessary.

Sec. 42.40.190. EMERGENCY RULES. (a) The board shall establish in the bylaws of the corporation a procedure for the adoption, amendment, or repeal of a rule on an emergency basis. An emergency change may be made only when necessary for the orderly operation of the corporation's facilities or programs. The requirements of AS 42.-40.180 do not apply to actions taken under this section. However, within 10 days after the adoption, amendment, or repeal of a rule on

an emergency basis the board shall give notice of its action that substantially complies with the notice requirements of AS 42.40.-180(a).

(b) An action taken under this section remains in effect for not more than 120 days. To prevent an emergency change from lapsing the board may make the same change under AS 42.40.180 before the end of the 120-day period.

Sec. 42.40.200. VALIDITY OF RULES. (a) Failure to mail notice to a person under AS 42.40.180(a) or 42.40.190(a) does not invalidate an action taken by the board.

(b) An interested person may challenge a rule adopted, amended, or repealed by the board by bringing an action in the superior court. In addition to other grounds, a court may declare a change invalid

(1) for substantial failure by the board to comply with AS 42.40.180 or 42.40.190; or

(2) if the rule was adopted under AS 42.40.190, upon the grounds that the emergency change was not necessary for the orderly operation of the corporation's facilities or programs.

Sec. 42.40.210. PREVIOUSLY ADOPTED RULES AND ORDERS. The board may provide by resolution that rules and orders in effect on the date of transfer remain in effect until amended or repealed by the board. AS 42.40.180 does not apply to actions taken under this section.

Sec. 42.40.220. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a privileged or proprietary nature. Those matters include personnel records, communications with and work

product of legal counsel, and, consistent with the standards practices of the United States Interstate Commerce Commission for the protection of these matters, other information including proprietary information associated with specific shippers, divisions and contract rate agreements.

Sec. 42.40.230. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or executive officer of the corporation may not participate in a decision of the corporation in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section.

(b) A board member or executive officer may participate in a decision if that person or a member of that person's immediate family has only a remote interest, the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or in the decision, and thereafter in a public meeting the board by vote authorizes or approves the participation. If the person whose participation is under consideration is a board member, that person may not vote under this subsection. For purposes of this subsection, "remote interest" means an interest that in good faith is defined as remote by rules adopted by the corporation.

(c) A board member or executive officer is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this

section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or executive officer who intentionally violates a prohibition contained in this section.

(e) For purposes of this section

(1) "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes;

(2) "immediate family" means

(A) spouse;

(B) dependent parent, parent-in-law, child, son-in-law, daughter-in-law, sibling, uncle, aunt, niece, or nephew, residing in the household of the board member or executive officer.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.250. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, personal property, rights, rights-of-way, franchises, easements, and other interest in land, and acquire by appropriation water rights that are located in the State, taking title to the

property in the name of the corporation;

(8) hold, maintain, use, operate, improve, lease, exchange, or encumber land or personal property and exchange, donate, convey, alienate, or otherwise dispose of personal property, subject to other provisions of this chapter;

(9) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to other provisions of federal or state law or municipal ordinances;

(10) undertake and provide for the management, operation, maintenance, use, and control of all of the property of the corporation, including all land and personal property of the Alaska Railroad transferred under 45 U.S.C. 1203(a) and described in the report dated July 14, 1983, as amended, submitted to Congress and the legislature under 45 U.S.C. 1204(a);

(11) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate for expansion or extension and operation of the Alaska Railroad;

(12) maintain offices and facilities at places it designates;

(13) apply to the state, the United States, and foreign countries or other proper agencies for the permits, licenses, rights-of-way, or approvals necessary to construct, maintain, and operate railroad transportation services, and obtain, hold, and reuse the licenses and permits in the same manner as other railroad operators;

(14) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(15) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(16) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, property, and facilities of the railroad, including agreements that contain provisions to preserve and expand the railroad's traffic base;

(17) plan for and undertake expansion of the railroad and railroad activities, including extension of the rail system, and contract with other modes of transportation service connecting to the rail system;

(18) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment, in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(19) assume all rights and liabilities of the Alaska Railroad in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) and the closing report of July 14, 1983, as amended, prepared and submitted to Congress and the Legislature under 45 U.S.C. 1204(a);

(20) maintain a security force to enforce municipal ordinances, state laws, and the corporation's rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(21) issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and hold or dispose of them;

(22) purchase the corporation's bonds at a price not more than the principal amount of them plus interest;

(23) cancel bonds of the corporation purchased by the

corporation;

(24) secure the payment of its obligations by pledge, mortgage, or other lien on its contracts, revenues, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) borrow money, including the amounts necessary to establish reasonable reserves, and pay financing charges interest on the obligations for a reasonable period after which the corporation estimates other money will be available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(27) acquire, hold, and dispose of stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests that are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(28) undertake and provide for the acquisition, construction, maintenance, equipping, and operation of connecting, switching, terminal, or other railroads and railroad facilities;

(29) enter into agreements with a state agency or other instrumentality of the state; and

(30) do all things necessary or desirable to carry out the powers and duties of the corporation granted or necessarily implied in this chapter or other laws of the state or the laws or regulations of the federal government.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the Alaska Railroad the board shall adopt and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The report shall itemize the cost of providing each category of service offered by the railroad and the income generated by each category consistent with the protection of privileged and proprietary information under AS 42.40.220.

Sec. 42.40.270. AUDITS. (a) The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The board shall have an annual performance audit conducted by a recognized railroad management expert to assure that the railroad is being managed and operated effectively and efficiently in accordance with the requirements of this chapter. Auditors shall use the standards of the United States Interstate Commerce Commission for class I railroad carriers.

(b) The corporation shall make all of its financial records available to an auditor appointed by the governor and to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.220 and rules implementing that section.

Sec. 42.40.280. STATE OVERSIGHT REPORTS. (a) The board shall provide a state oversight report to the governor and the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services pro-

vided;

(2) extension of the main or branch lines by more than 25 miles or five percent of the railroad's total track mileage, whichever is greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000;

(4) an application for an appropriation to be used for providing any service that is not self-sustaining.

(b) The report under (a) of this section shall be in writing, describe the proposed undertaking in detail, and specify

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) the reasons the action is necessary or desirable to achieve the purposes of this chapter; and

(4) whether and when the undertaking is expected to be self-sustaining financially.

Sec. 42.40.290. LONG-RANGE CAPITAL IMPROVEMENT AND PROGRAM PLAN. (a) The corporation shall prepare and the board shall adopt a long-range capital improvement and program plan. The plan shall explain the manner in which the corporation intends to accomplish the purposes of this chapter and the corporation's anticipated capital improvements during each of the five years after the plan is adopted.

(b) The board shall annually review and approve revisions to the long-range capital improvement and program plan. The board shall provide copies of the updated plan to the governor and the legislature by December 1 of each year.

Sec. 42.40.300. USE OF CORPORATION ASSETS. The corporation

shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for a purpose not authorized by law by a person having the possession or control of it is prohibited.

Sec. 42.40.310. INDEMNIFICATION. (a) The corporation may defend and indemnify a current or former member of the board, employee, or agent of the corporation against all costs, expenses, judgments, and liabilities, including attorney's fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

(b) The corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold them harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding. The purchase of insurance is discretionary with the board and insurance is not considered to be compensation to the insured person.

ARTICLE 5. CORPORATION PROPERTY.

Sec. 42.40.350. LAND. (a) The corporation shall receive from the United States and, in its own name, take title to all rail property transferred under 45 U.S.C. 1201 - 1214 (Alaska Transfer Act of

1982). All land that is transferred or acquired by the corporation is designated as follows:

(1) railroad rights-of-way are railroad utility corridors;

(2) land outside railroad utility corridors is rail land.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, unless the corporation does not own or control sufficient land to allow a corridor width of 100 feet on both sides of the centerline of the extended or main branch line track. Railroad utility corridors may be surveyed by the metes and bounds method. The corporation may not convey title to land within a utility corridor. However, the corporation may lease, grant easements in or permits for, or otherwise authorize use of portions of a utility corridor for transportation, communication, and transmission purposes and support functions associated with those purposes, and for other commercial uses authorized under this chapter if the use does not restrict other parallel uses of the utility corridor.

(c) The corporation may lease, grant easements or permits, or otherwise authorize use of portions of rail land. However, the corporation may not convey its entire interest in rail land except as provided in AS 42.40.370(d) and 42.40.400.

(d) A lease by the corporation to a party other than the state shall be made at fair market value as determined by an appraisal or by competitive bid.

Sec. 42.40.360. REQUEST FOR LAND. (a) The board may nominate federal land it determines may be useful for present or future railroad purposes for selection under the Alaska Statehood Act (P.L. 85-508, 72 Stat. 339), as amended, and request the commissioner of natural resources to select the land for the state through the federa

land selection process.

(b) The board by rule may identify and request the commissioner of natural resources to convey land necessary or useful for present, future, or intended railroad purposes owned by or tentatively approved for transfer to the state, including land not contiguous with a railroad utility corridor or rail land. The request must include a statement of and justification for the present, future or intended railroad use. Upon receipt of a request, the commissioner shall temporarily reserve the land identified in the request for railroad purposes and defer disposal or lease of that land under other laws to a party other than the corporation. The temporary reservation of land is subject to valid existing rights and remains in effect for 180 days.

Sec. 42.40.370. CONVEYANCE OF LAND. (a) Within 90 days after receiving a request under AS 42.40.360(b) the commissioner of natural resources shall by written decision

(1) designate the identified land for railroad purposes and, subject to valid existing rights, convey the state's interests in the land to the corporation;

(2) notify the corporation of reasons for refusal to designate the identified land for railroad purposes; or

(3) approve in part and deny in part the request.

(b) A conveyance of land under this section may be for less than its appraised value as determined by the commissioner of natural resources.

(c) In the absence of a reservation to the contrary, a conveyance of land under this section vests in the corporation ownership, control of the surface material and mineral estate, including the exclusive right to extract or use timber and other construction materials, sand, gravel, rock, and the right to tunnel, ditch, recontour,

excavate, or otherwise use the land for railroad, transportation, transmission, communication, and related purposes.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

Sec. 42.40.380. USE OF STATE LAND. When emergency conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state land adjacent to or in the vicinity of the existing right-of-way and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation and notify the the Department of Natural Resources. The relocation must affect only the amount of state land necessary to adequately restore or continue safe rail operations at a normal level.

Sec. 42.40.390. LAND USE RULES. The board may adopt exclusive rules governing land use by parties having interests in or permits for land owned or managed by the corporation. The power conferred by this section is exercised for the common health, safety, and welfare of the public and to the extent constitutionally permissible, may not be limited by the terms and conditions of leases, contracts, or other transactions.

Sec. 42.40.400. VACATION OF EASEMENTS. The corporation may vacate an easement acquired under this chapter by executing and filing a deed in the appropriate recording district. Upon filing the deed the state shall acquire the easement for use in conformity with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.410. FEDERAL LAND. The corporation may submit applications on its own behalf as an instrumentality of the state for

acquisition of federal land available under federal law that will enhance the operations of the corporation if it is available under a federal law other than the Alaska Statehood Act of 1958 (P.L. 85 - 508, 72 Stat 339), as amended. The corporation may receive in its own name conveyances of all interests in federal land.

Sec. 42.40.420. MUNICIPAL USE OF RAILROAD LAND. Upon request the corporation may authorize use of railroad land for municipal purposes. Subject to AS 42.40.350(b), the corporation may authorize a municipality to establish a walkway or trail over a utility corridor. Before authorizing a use under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless from and indemnify the corporation for any liability and claims arising from any use authorized under this section including

(A) defending the corporation in a cause of action brought against the corporation as a result of the use; and

(B) indemnifying the corporation for the amount of a judgment, including prejudgment and postjudgment interest, rendered against the corporation or for the amount of a settlement entered into by the corporation, and for all costs and attorney's fees incurred by the corporation in settling or defending the claim; and

(2) stop the use of railroad land upon request of the corporation if, as determined by the corporation, the use interferes with expansion, replacement of railroad facilities, creates a safety hazard, or interferes with railroad operations.

Sec. 42.40.430. ACQUISITION OF GOVERNMENT PROPERTY. (a) The corporation, as an instrumentality of the state, may acquire in its

own name from the United States under 50 App U.S.C. 1622 - 1622c (Surplus Property Act of 1944), 40 U.S.C. 471 et seq. (Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes. The corporation may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

(b) The corporation is an instrumentality and agency of the state for purposes of exchanging land with the United States, municipalities, corporations including corporations formed under 43 U.S.C. 1601 - 1628 (Alaska Native Claims Settlement Act), and individuals.

Sec. 42.40.440. USE OF PESTICIDES AND HERBICIDES. Vegetation control involving the use of pesticides or herbicides on land owned or managed by the corporation may be conducted only in compliance with state requirements applicable to other state pesticide or herbicide use.

Sec. 42.40.450. ADVERSE POSSESSION. No prescription or statute of limitations runs against the title or interest of the corporation to or in land owned by the corporation or under its jurisdiction. Title to or interest in land owned by the corporation or under its jurisdiction may not be acquired by adverse possession or prescription, or in any other manner except by conveyance from or formal vacation by the corporation.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.510. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for board members and each executive officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.520. INSURANCE. Except as provided in AS 42.40.300-(b), the corporation shall protect its assets, services, and employees by purchasing insurance or providing for certain self-insurance retentions. The corporation shall also maintain casualty, property, business interruption, marine, boiler and machinery, pollution liability, and other insurance in amounts reasonably calculated to cover potential claims against the corporation or state for bodily injury, death or disability and property damage that may arise from or be related to corporation operations and activities.

Sec. 42.40.530. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes in accordance with 45 U.S.C. 1207-(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.540. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter.

ARTICLE 7. BONDS AND NOTES.

Sec. 42.40.600. GENERAL PROVISIONS. (a) The corporation by resolution may issue bonds and notes to provide money to carry out its purposes.

(b) Bonds or notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(c) Bonds and notes may be sold in the manner, on the terms, and at the price the board determines. Notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

Sec. 42.40.610. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.620. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political

subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.630. PAYMENT OF BONDS AND NOTES. The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

Sec. 42.40.640. SECURITY FOR BONDS. In the discretion of the board, an issue of bonds may be secured by a trust indenture, which may be a trust company, bank or national banking association, with corporate trust powers, located inside or outside the state, or by a secured loan agreement or other instrument or under resolution giving powers to a corporate trustee by means of which the corporation may

(1) make and enter into any and all the covenants and agreements with the trustees or the holders of the bonds that the corporation may determine to be necessary or desirable, including covenants, provisions, limitations and agreements as to

(A) the application, investment, deposit, use and disposition of the proceeds of bonds of the corporation or of money or other property of the corporation or in which it has an interest;

(B) the fixing and collection of rentals, charges, fees or other consideration for, and the other terms to be incorporated in, contracts with respect to the use of any of the corporation's property;

(C) the fixing and collection of tariffs, fees, charges or other consideration for the use or service of the Alaska Railroad by passengers, and other users and freight;

(D) the terms and conditions upon which additional bonds of the corporation may be issued;

(E) the vesting in the trustee of rights and remedies exercisable by the trustee for the protection of the holders of bonds of the corporation and not otherwise in violation of law and the restriction of the rights of an individual holder of bonds of the corporation;

(2) pledge, mortgage, or assign money, leases, agreements, assets, or property of the corporation either presently in hand or to be received in the future, or both; and

(3) provide for any other matters of like or different character that in any way affect the security or protection of the bonds.

Sec. 42.40.650. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private or public sale of bonds or notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.660. VALIDITY OF SIGNATURES. If an officer of the corporation whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.670. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all

parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.675. PLEDGE OF THE STATE. The state pledges to and agrees with the holders of bonds issued under this chapter and with the federal agency that loans or contributes funds in respect to a project, that the state will not limit or alter the rights and powers vested in the corporation by this chapter to fulfill the terms of a contract made by the corporation with the holders or federal agency, or in any way impair the rights and remedies of the holders until the bonds together with the interest on them with interest on unpaid installments of interest, and all costs and expenses in connection with an action or proceeding by or on behalf of the holders, are fully met and discharged. The corporation is authorized to include this pledge and agreement of the state, insofar as it refers to holders of bonds of the corporation, in a contract with the holders and insofar as it relates to a federal agency, in a contract with the federal agency.

Sec. 42.40.680. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.690. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.700. LIMITATION ON PERSONAL LIABILITY. A board member or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.710. CORPORATION EMPLOYEES. Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.720. COLLECTIVE BARGAINING RIGHTS. The provisions of AS 23.40.070 - 23.40.260 do not apply to the corporation or to its employees. However, employees who are not executive officers may

organize and form, join, or assist an organization to engage in collective bargaining through representatives of their own choosing and engage in concerted activities for the purpose of collective bargaining or other mutual aid or protection.

Sec. 42.40.730. RAILROAD LABOR RELATIONS AGENCY. (a) There is established a railroad labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall carry out the provisions of AS 42.40.710 - 42.40.890.

(c) Members of the railroad labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.740. COLLECTIVE BARGAINING UNIT. The railroad labor relations agency shall decide in each case, in order to ensure employees the fullest freedom in exercising the rights guaranteed by AS 42.40.710 - 42.40.890 the unit appropriate for the purposes of collective bargaining, based on such factors as community of interest, wages, hours and other working conditions of the employees involved, the history of collective bargaining, and the desires of the employees. Bargaining units shall be as large as is reasonable, and unnecessary fragmenting shall be avoided.

Sec. 42.40.750. REPRESENTATIVES AND ELECTIONS. (a) The railroad labor relations agency shall investigate a petition if it is submitted in a manner prescribed by the railroad labor relations agency by

(1) an employee or group of employees or an organization acting on their behalf alleging that 30 percent of the employees of a

proposed bargaining unit

(A) want to be represented for collective bargaining by a labor or employee organization as exclusive representative; or

(B) assert that the organization that has been certified or is currently being recognized by the corporation as bargaining representative is no longer the representative of the majority of employees in an appropriate unit; or

(2) the corporation alleging that one or more organizations have presented to it a claim to be recognized as a representative of a majority of employees in an appropriate unit.

(b) If the railroad labor relations agency has reasonable cause to believe that a question of representation exists, it shall provide for a hearing upon due notice. If the railroad labor relations agency finds that there is a question of representation, it shall direct an election by secret ballot to determine whether or by which organization the employees desire to be represented and shall certify the results of the election. Nothing in this subsection prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the regulations of the railroad labor relations agency or an election in a bargaining unit agreed upon by the parties.

(c) The railroad labor relations agency shall determine who is eligible to vote in an election held under this section and shall establish rules governing the election. In an election in which none of the choices on the ballot receives a majority of the votes cast, a runoff election shall be conducted, the ballot providing for selection between the two choices receiving the largest number of valid votes cast in the election. If an organization receives the majority of the

votes case in the election it shall be certified by the railroad labor relations agency as exclusive representative of all the employees in the bargaining unit. An election may not be held in a bargaining unit or in a subdivision of a bargaining unit if a valid election has been held within the preceding 12 months.

(d) Nothing in this chapter prohibits recognition of an organization as the exclusive representative by the corporation by mutual consent.

(e) An election may not be directed by the railroad labor relations agency in a bargaining unit in which there is in force a valid collective bargaining agreement, except during a 90-day period preceding the expiration date. However, a collective bargaining agreement may not bar an election upon petition of employees in the bargaining unit but not parties to the agreement if more than three years have elapsed since the execution of the agreement or the last timely renewal, whichever was later.

Sec. 42.40.760. UNFAIR LABOR PRACTICES. (a) The corporation or its agent may not

(1) interfere, restrain, or coerce an employee in the exercise of the rights guaranteed in AS 42.40.720;

(2) dominate or interfere with the formation, existence, or administration of an organization;

(3) discriminate in regard to hire or tenure of employment or a term or condition of employment to encourage or discourage membership in an organization;

(4) discharge or discriminate against an employee because the employee has signed or filed an affidavit, petition or complaint or given testimony under AS 42.40.710 - 42.40.890;

(5) refuse to bargain collectively in good faith with an

organization that is the exclusive representative of employees in an appropriate unit, including the discussing of grievances with the exclusive representative.

(b) Nothing in AS 42.40.710 - 42.40.890 prohibits the corporation from making an agreement with an organization to require as a condition of employment

(1) membership in the organization that represents the unit on or after the 30th day following the beginning of employment or on the effective date of the agreement, whichever is later; or

(2) payment by the employee to the exclusive bargaining agent of a service fee to reimburse the exclusive bargaining agency for the expense of representing the members of the bargaining unit.

(c) An organization or its agents may not

(1) restrain or coerce

(A) an employee in the exercise of the rights guaranteed in AS 42.40.720; or

(B) the corporation in the selection of a representative for the purposes of collective bargaining or the adjustment of grievances;

(2) refuse to bargain collectively in good faith with the corporation, if it has been designated in accordance with AS 42.40.-710 - 42.40.890 as the exclusive representative of employees in an appropriate unit.

Sec. 42.40.770. INVESTIGATION AND CONCILIATION OF COMPLAINTS. If a verified written complaint by or for a person claiming to be aggrieved by a practice prohibited by AS 42.40.760 or a written accusation that a person subject to AS 42.40.710 - 42.40.890 has engaged in a prohibited practice, is filed with the railroad labor relations agency, it shall investigate the complaint or accusation. If it

determines after a preliminary investigation that probable cause exists in support of the complaint or accusation, it shall try to eliminate the prohibited practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during this endeavor may be used as evidence in a subsequent proceeding.

Sec. 42.40.780. COMPLAINT AND ACCUSATION. If the railroad labor relations agency fails to eliminate the prohibited practice by conciliation and to obtain voluntary compliance with AS 42.40.710 - 42.40.890 or before it attempts conciliation, it may serve a copy of the complaint or accusation upon the respondent. The complaint or accusation and the subsequent procedures shall be handled in accordance with the administrative adjudication portion of the Administrative Procedure Act (AS 44.62).

Sec. 42.40.790. ORDERS AND DECISIONS. If the railroad labor relations agency finds that a person named in the written complaint or accusation has engaged in a prohibited practice, the railroad labor relations agency shall issue and serve on the person an order or decision requiring the person to cease and desist from the prohibited practice and to take affirmative action that will carry out the provisions of AS 42.40.710 - 42.40.890. If the railroad labor relations agency finds that a person named in the complaint or accusation has not engaged or is not engaging in a prohibited practice, the railroad labor relations agency shall state its findings of fact and issue an order dismissing the complaint or accusation.

Sec. 42.40.800. ENFORCEMENT BY INJUNCTION. The railroad labor relations agency may apply to the superior court in the judicial district in which the prohibited practice occurred for an order enjoining the prohibited acts specified in the order or decision of the railroad labor relations agency. Upon showing by the railroad labor

relations agency that the person has engaged or is about to engage in the practice, an injunction, restraining order, or other order that is appropriate may be granted by the court and shall be without bond.

Sec. 42.40.810. POWER TO INVESTIGATE AND COMPEL TESTIMONY. (a) For the purpose of the investigations, proceedings, or hearings that the railroad labor relations agency considers necessary to carry out AS 42.40.710 - 42.40.890, the railroad labor relations agency may issue subpoenas requiring the attendance and testimony of witnesses and the production of relevant evidence.

(b) The railroad labor relations agency may administer oaths, examine witnesses, and receive evidence.

(c) The attendance of witnesses and the production of evidence may be required from any place in the state at any designated place of hearing.

(d) If a person refuses to obey a subpoena issued under AS 42.-40.710 - 42.40.890, the superior court in the district in which the person resides or is found may, upon application by the railroad labor relations agency, issue an order requiring the person to comply with the subpoena.

Sec. 42.40.820. REGULATIONS. The railroad labor relations agency shall adopt regulations under the Administrative Procedure Act (AS 44.62) to carry out AS 42.40.710 - 42.40.890.

Sec. 42.40.830. PENALTY FOR VIOLATION OF ORDER OR DECISION. A person who violates a provision of an order or decision of the railroad labor relations agency is guilty of a misdemeanor and is punishable by a fine of not more than $500.

Sec. 42.40.840. MEDIATION. (a) If, after a reasonable period of negotiation over the terms of a collective bargaining agreement, an impasse as determined by the railroad labor relations agency exists

between the corporation and an organization, the railroad labor relations agency shall appoint a person mutually agreeable to the parties from a list of seven qualified mediators or arbitrators knowledgeable in railway labor agreements to act as mediator in the dispute.

(b) Before the determination of an impasse under this section, the parties may also select a mediator by mutual consent.

(c) It shall be the function of the mediator to bring the parties together to effectuate a settlement of the dispute, but neither the mediator nor the railroad labor relations agency has any power of compulsion in mediation proceedings.

Sec. 42.40.850. STRIKES. (a) Following a decision by the mediator to end the mediation proceedings, employees of a collective bargaining unit may engage in a strike for a limited time if a majority of the employees in that collective bargaining unit vote by secret ballot to do so. The limit of the strike is determined by the interest of the health, safety, or welfare of the public.

(b) The corporation may apply to the superior court in the judicial district in which the strike is occurring for an order enjoining the strike. A strike may not be enjoined unless it can be shown that it has begun to threaten, or is about to threaten, the health, safety, or welfare of the public. A court, in deciding whether to enjoin the strike, shall consider the total equities in the particular case, including the impact of a strike on the public and the extent to which an employee organization and the corporation have met their statutory obligations.

(c) If an impasse or deadlock still exists after the issuance of an injunction, the parties shall submit the dispute to binding arbitration. The arbitrator shall be the same person selected under

AS 42.40.840 and shall fashion the award the arbitrator considers equitable.

Sec. 42.40.860. AGREEMENTS. (a) The Department of Administration may participate in labor negotiations between the corporation and an organization. The corporation shall seek advice of the Department of Administration before entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employment. However, the final decision regarding collective bargaining agreements shall be made by the board.

(b) Upon the completion of negotiations between an organization and the corporation, if a settlement is reached, the corporation shall reduce it to writing in the form of an agreement. The agreement shall include a grievance procedure that shall have binding arbitration as its final step. Either party to the agreement has a right of action to enforce the agreement by petition to the railroad labor relations agency.

(c) The parties to an agreement under this section may agree to terms that specify an expiration date for the agreement.

(d) Notwithstanding (a) - (c) of this section, an organization and the corporation may mutually agree to submit a dispute to binding arbitration at any time.

Sec. 42.40.870. ORGANIZATION DUES AND EMPLOYEE BENEFITS, DEDUCTION AND AUTHORIZATION. Upon written authorization of an employee within a bargaining unit, the corporation shall deduct from the payroll of the employee the monthly amount of dues, fees, and other employee benefits as certified by the secretary of the exclusive bargaining representative and shall deliver it to the chief fiscal officer of the exclusive bargaining representative.

Sec. 42.40.880. EXEMPTION. Notwithstanding the provisions of

AS 42.40.870, a collective bargaining settlement reached, or agreement entered into, under AS 42.40.860 that incorporates union security provisions, including a union shop or agency shop provision or agreement, shall safeguard the rights of nonassociation of employees having bona fide religious convictions based on tenets or teachings of a church or religious body of which an employee is a member. Upon submission of proper proof of religious conviction to the railroad labor relations agency, the agency shall declare the employee exempt from becoming a member of an organization. The employee shall pay an amount of money equivalent to regular organization dues, initiation fees, and assessments to the organization. Nonpayment of this money subjects the employee to the same penalty as if it were nonpayment of dues. The receiving organization shall contribute an equivalent amount of money to a charity of its choice not affiliated with a religious, labor, or employee organization. The organization shall submit to the railroad labor relations agency proof of contribution.

Sec. 42.40.885. PROHIBITED ACTS. (a) The corporation or an employee may not directly or indirectly

(1) require or coerce an employee to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce an employee to make any report concerning an activity or undertaking of the employee's activities or undertakings unless the activity or undertaking is related to the performance of official duties;

(3) except as directly related to the performance of official duties, require or coerce an employee to submit to an interrogation, examination, or psychological test that is designed to elicit information concerning

(A) a personal relationship with a person connected with the employee by blood or marriage;

(B) the employee's religious beliefs or practices;

(C) sexual matters;

(D) the employee's political affiliation or philosophy;

(4) coerce an employee to invest or contribute earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of an employee, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of employees suspected of being involved in criminal activity or to investigate other activity directly related to official railroad business.

Sec. 42.40.890. DEFINITIONS. In AS 42.40.710 - 42.40.890

(1) "collective bargaining" means the performance of the mutual obligation of the corporation or its designated representatives and the representatives of the employees to meet at reasonable times, including meetings in advance of the budget making process, and negotiating in good faith with respect to wages, hours, and other terms and conditions of employment, or the negotiation of an agreement, or negotiation of a question arising under an agreement and the execution of a written contract incorporating an agreement reached if requested by either party, but these obligations do not compel either party to agree to a proposal or require the making of a concession;

(2) "election" means a proceeding conducted by the labor

relations agency in which the employees in a collective bargaining unit cast a secret ballot for collective bargaining representatives, or for any other purpose specified in AS 42.40.710 - 42.40.890;

(3) "organization" means a labor or employee organization of any kind in which employees participate and that exists for the primary purpose of dealing with the corporation concerning grievances, labor disputes, wages, rates of pay, hours of employment and conditions of employment;

(4) "terms and conditions of employment" means the hours of employment, the compensation and fringe benefits, and the employer's personnel policies affecting the working conditions of the employees, but does not mean the general policies describing the function and purposes of an employer.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers.

(c) Claims against the corporation are not subject to the provisions of AS 44.77 regarding claims against the state.

(d) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.905. NOTICE OF LEGAL ACTIONS. (a) The corporation

shall notify the Department of Law within 30 days before initiating legal action unless special circumstances exist that require immediate legal action to protect the corporation assets or to continue existing service.

(b) If notice of legal action is not given under (a) of this section, within 15 days of taking action the board shall notify the Department of Law of the action taken and of the special circumstances that exempted the action from the requirements of (a) of this section.

Sec. 42.40.910. EXEMPTION FROM TAXATION. (a) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Subject to (b) of this section, the real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

(c) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

Sec. 42.40.920. APPLICATION OF EXISTING LAWS. (a) The

corporation is not subject to the jurisdiction of the Alaska Transportation Commission.

(b) The following laws do not apply to the operations of the corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 38;

(11) AS 44.62.040 - 44.62.320.

Sec. 42.40.930. CONFLICTING LAWS INAPPLICABLE. If provisions of AS 42.40 conflict with the provisions of other state law, the provisions of AS 42.40 prevail. Provisions of AS 42.40 shall be construed so that they do not conflict with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.940. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

Sec. 42.40.980. DEFINITIONS. In this chapter unless the context otherwise requires,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "collective bargaining" means negotiating with an employees organization and representing employees on matters pertaining to conditions of employment;

(3) "corporation" means the Alaska Railroad Corporation;

(4) "date of transfer" means the date on which the United States Secretary of Transportation delivers the transfer documents under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(5) "employees" means all persons employed by the corporation including executive officers;

(6) "executive officer" means the corporation's chief executive officer, assistant chief executive officer, assistant to the chief executive officer, chief of administration, superintendent of transportation, manager of marketing and sales, chief engineer, chief mechanical officer, manager of industrial development and real estate, manager of budget and accounting, manager of planning, manager of personnel, manager of supply and procurement, chief of security, manager of operating rules, manager of data processing, manager of strategy, manager of operations planning, manager of supply, manager of procurement, manager of safety, manager of administrative procedure, chief counsel, or, if so designated by the board, any employee who fulfills these management functions under a different title or who exercises a similar or comparable level of responsibility;

(7) "land" means any interest in real property, including tide and submerged land, and any right appurtenant to the interest;

(8) "rule" means a standard of general application or the amendment, supplement, revision, or repeal of a standard adopted by the corporation to implement, interpret, or make specific the law enforced or administered by it to govern its procedure except one that

(A) relates only to the internal management of the corporation;

(B) relates to specific rates, tariffs, divisions, and contract rate agreements;

(C) relates to service schedules of the railroad;

(D) is directed to a specifically named person or to a group of persons and does not apply to the general public; or

(E) relates to the use of public works under the jurisdiction of the corporation if the effect of the order is indicated to the public by means of signs or signals.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state [WITHIN THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT]. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

* Sec. 4. AS 42.40.020(a) is amended to read:

(a) The powers of the corporation are vested in the board of directors. The board consists of [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT,] the chief executive officer of the corporation, and <u>eight</u> [SEVEN] members appointed by the governor. The <u>eight</u> [SEVEN] appointed members must be registered voters in the state except as provided in (b) and (c) of this section. Except for the member appointed under (d) of this section, no more than two appointed members may be from any one of the four judicial districts in the state. Two of the appointed members must have at least five years experience as owners or managers of a business in the state. Except for [THE COMMISSIONER,] the chief executive officer [,] and the member appointed under (d) of this section, a member may not be a stat

officer or employee.

* Sec. 5. AS 42.40.020(e) is amended to read:

(e) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

* Sec. 6. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. (a) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, members of the board serve for staggered terms of five years each [AT THE PLEASURE OF THE GOVERNOR].

* Sec. 7. AS 42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

* Sec. 8. AS 42.40.180 is repealed and reenacted to read:

Sec. 42.40.180. RULES. (a) The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter, including a procedure for the adoption of rules on an emergency basis when essential to continue or to reinstate the orderly operation of the corporation's facilities or programs.

(b) The board shall adopt rules to safeguard property owned, managed, or transported by the corporation and to protect employees

and persons using the corporation's property or services.

* Sec. 9. SPECIAL REPORT. The governor shall contract with a private consultant for the preparation of a report on the long-term operations of the Alaska Railroad that are in the best interest of the state. The report shall be submitted to the governor and the legislature by January 1, 1988. It shall contain specific recommendations on operational alternatives and the transfer of all or part of the railroad operation to the private sector.

* Sec. 10. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation are as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 11. COLLECTIVE BARGAINING AGREEMENTS. (a) As soon as practicable before transfer of the Alaska Railroad to the state, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees on the date of transfer of the railroad. The collective bargaining agreements adopted under this section between the corporation and its employees shall remain in effect to the extent required under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

(b) Within 180 days after the first meeting of the board of directors of the Alaska Railroad Corporation, the board and representatives of employee bargaining units shall establish procedures for the renegotiation of bargaining agreements adopted under (a) of this section.

* Sec. 12. The state-owned railroad as defined under 45 U.S.C. 1202(4) may not apply for a right-of-way across the Western (Kobuk River) unit of the Gates of the Arctic National Preserve under 16 U.S.C. 410hh(4)(b) - (e).

* Sec. 13. AS 42.40.190 and 42.40.200 are repealed.

* Sec. 14. Sections 3 - 8 and 13 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 15. Sections 1, 2, and 9 - 12 of this Act take effect immediately in accordance with AS 01.10.070(c).

Working Draft Number 7
March 8, 1984

IN THE SENATE

SENATE TRANSPORTATION COMMITTEE SUBSTITUTE

SENATE BILL NO. 352

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) It is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued

existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government;

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state consistent with the other findings and policies of this section.

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation and to apply for any Federal monies to which the State would be entitled, or may be available;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and

levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(G) preserve the integrity of the railroad utility corridor for transportation, communication, and transmission purposes.

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Commerce and Economic Development. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of Commerce and Economic Development and six voting members appointed by the Governor. These six members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than

two of these members may be from any one of the four judicial districts in the state. Two of the voting members must have at least five years experience as owners or managers of a business in the state. Except for the commissioner of Commerce and Economic Development, a voting member may not be a state officer or employee.

(b) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(c) One voting member shall be or have been an executive official of an American railroad consistent with the Interstate Commerce Act (49 U.S.C. et.sec.).

(d) In addition to the voting members, the following non-voting members shall serve on the board:

(1) an employee who is a member of a bargaining unit with the corporation shall be appointed by the governor to represent the employees.

(2) the chief executive officer of the corporation.

(e) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(f) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(g) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(h) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. Except for the commissioner of Commerce and Economic Development, the voting members of the board serve for staggered terms of five years each, and serve at the pleasure of the governor during their terms.

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $250 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. Four voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. Four affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by means of telecommunication devices.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.090. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) Manage the corporation on a self-sustaining basis;

(4) apply to the legislature for a subsidy if it is required to maintain a service which is not otherwise self-sustaining;

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporations while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

(7) review all public and private land disposal proposals in planning for future development or expansion.

(8) insure that accepted railroad industry standards are used for the corporation's accounting and procurement systems.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board approval imposed by the rules.

(b) Within 60 days after their first meeting, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions,

and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(5) establish and maintain the Railroad's procurement and accounting systems.

(c) Specific board approval is required for the following:

(1) transferring the corporation's entire interest in real property;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range capital improvement and program plan;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) expanding or reducing services in a major way;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer;

(11) selecting independent auditors and accountants;

(12) the exercise of the power of eminent domain;

(13) collective bargaining agreements as provided by 42.40.710.

(14) annual budget plans.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public except executive sessions. The question of holding an executive session to discuss matters that come within the exceptions contained in (b) and (c) of this section shall be determined by a majority vote of the body. No subjects may be considered at the executive session except those mentioned in the motion calling for the executive session unless auxiliary to the main question. No action may be taken at the executive session.

(b) The following excepted subjects may be discussed in an executive session:

(1) matters, the immediate knowledge of which would clearly have an adverse effect upon the finances of the Alaska Railroad;

(2) subjects that tend to prejudice the the reputation and character of any person, provided the person may request a public discussion;

(3) matters which by law, municipal charter, or ordinance are required to be confidential.

(c) The board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information including but not limited to proprietary information associated with specific shippers, divisions, and contract rate agreements.

(d) The board may by motion exclude non-voting members of

the board from an executive session for defined and specific reasons.

Sec 42.40.220. MINUTES AND NOTICE OF MEETINGS. The board shall keep minutes of each meeting. Reasonable notice of the meetings shall be provided to the public.

Sec. 42.40.230. RULES. (a) The board shall establish in its bylaws a procedure for adopting rules to carry out its functions and the purposes of this chapter.

(1) The corporation shall make available to members of the public copies of the rules adopted under this section.

(2) Within 45 days after adoption, the chairman of the board shall submit a rule adopted under this section to the chairman of the Administrative Regulation Review Committee under AS 24.20.400 - 24.20.460.

(b) Except as provided in (c) of this section, at least 15 days before the adoption, amendment, or repeal of a rule, the board shall give public notice of the proposes action by publishing the notice in at least three newspapers of general circulation in the state and by mailing a copy of the notice to every person who has filed a request for notice of proposed rules with the board or the corporation. The public notice must include a statement of the time, place, and nature of the proceedings for adoption, amendment, or repeal of the rule and must include an informative summary of the proposes subject of the rule. On the date and at the time and place designated in the notice, the board shall give each interested person or his authorized representative, or both, the opportunity to present statements, arguments or contentions in writing, and shall give members of the public an opportunity to present oral statements, arguments,

or contentions for a total period of at least one hour. The board shall consider all relevant matter presented to it before adopting, amending, or repealing a rule which is adopted, or its amendment or repeal, may vary in content from the informative summary specified in this subsection if the subject matter of the rule, or its amendment or repeal, remains the same and the original notice was written so as to assure that members of the public are reasonably notified of the proposed subject of the board's action in order for them to determine whether their interests could be affected by the board's action on that subject.

(c) The board shall in its bylaws establish a procedure for adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or programs. The requirements of (b) of this section do not apply to the initial adoption in accordance with (b) of this section. No emergency regulation adopted under this subsection remains in effect more than 120 days unless the board complies with (b) of this section during the 120-day period.

(d) A rule adopted under this section becomes effective immediately upon its adoption by the board, unless otherwise specifically provided by order of the adoption.

(e) The failure to mail notice to a person as provided in (b) of this section does not invalidate an action taken by the board.

(f) An interested person may get a judicial declaration on the validity of a rule by bringing an action for declaratory relief in the superior court. In addition to any other ground

the court may declare the regulation invalid (1) for substantial failure to comply with this section, or (2) in the case of an emergency regulation or order of repeal, upon the grounds that the facts recited in the statement do not constitute an emergency under (c) of this section.

(g) Provisions of this section do not apply to rules, regulations and orders in effect before the transfer of the Alaska Railroad to the State of Alaska under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) and adopted in accordance to Section 8 of this law.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission including but not limited to proprietary information, and information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. This report shall include a breakdown of a service's real costs and income in each category of railroad operations.

of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(9) acquire property by eminent domain in accordance with AS 42.40.430;

(10) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, or transfer any real or personal property including facilities and equipment in accordance with the provisions of this Act.

(11) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(12) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(13) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate for expansion or extension and operation of the Alaska Railroad;

(14) maintain offices and facilities at places it designates;

(15) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to

obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(16) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(17) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(18) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, properties and facilities of the railroad, including contracts, leases and other agreements that contain provisions intended to preserve and expand the railroad's traffic base;

(19) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(20) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(21) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(22) assume and satisfy liabilities of the United States or its agencies as provided by the federal transfer legislation and the closing report or its substantive equivalent as accepted by the legislature;

(23) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(24) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(25) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(26) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(27) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(28) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(29) cancel bonds purchased under (28) of this section.

(30) do all things necessary, convenient or desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. LONG-RANGE CAPITAL IMPROVEMENT AND PROGRAM PLAN. (a) The corporation shall prepare and the board shall

adopt a long-range capital improvement and program plan. The plan shall delineate the manner in which the corporation intends to accomplish the purposes of this chapter and explain the corporation's anticipated capital improvements during each of the five years after the plan is adopted.

(b) The board shall annually review and update the plan required under (a) of this section. The board may not contract for the preparation or revision of the plan, but shall require their preparation and revision by employees of the corporation.

(c) The board shall provide copies of its updated plan to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the corporation may

(1) defend and indemnify a current or former employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope

of official duties or powers; and

(2) purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. (a) All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All lands transferred or acquired shall be designated as follows

(1) railroad rights-of-way or easements transferred under the federal act or otherwise acquired are railroad utility corridors;

(2) All other real property transferred under the Transfer Act, or otherwise acquired, are rail lands.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width only if the adjoining land is not rail property, and may be surveyed by the metes and bounds method; and

(c) The corporation may not sell land within the railroad

corridor. However, the corporation may lease, grant easements or permits, or otherwise authorize use of portions of the railroad utility corridor but only for transportation, communication, and transmission purposes and for support functions associated with such purposes so long as parallel uses of the Railroad corridor are not restricted.

(d) The corporation may lease, grant easements or permits, or otherwise authorize use of portions of rail lands for other services including but not limited to transportation, communication, and transmission purposes and for support function associated with such purposes.

Sec. 42.40.410. NOMINATION OF LAND. The board may ~~by rule~~ identify and request federal land to be nominated for state selection for Railroad purposes.

Sec. 42.40.420. IDENTIFICATION, CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board by rule may identify and request conveyance of land owned by or tentatively approved for transfer to the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, or future railroad purposes. The request must include a statement of and justification for the present, or future railroad use. Upon submission of a request for classification and conveyance to the commissioner of natural resources, the commissioner shall temporarily designate and reserve the land identified in the request for railroad purposes and shall temporarily vacate a classification allowing disposal or lease of that land under laws or programs of the state. A temporary designation and vacation is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall;

(1) designate that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to designate the land for railroad purposes.

(3) approve in part and deny in part the request for designation under this section and convey as appropriate.

(c) In the absence of a reservation to the contrary, a conveyance under (b) of this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract or use for its purposes, timber and other constructed material, sand, gravel, rock, and the right to tunnel, ditch, recontour, excavate or otherwise use the surface or subsurface for railroad, transportation, transmission, and related purposes without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the

relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

*Sec. 42.40.425. LAND USE REGULATION. The board may adopt exclusive rules governing land use by parties having interests in or permits for land owned or managed by the corporation. The power conferred by this section is exercised for the common health, safety, and welfare of the public and, to the extent constitutionally permissible, may not be limited by the terms and conditions of leases, contracts, or other transactions.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for lawful purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the state's lawful purposes in condemning property.

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

(e) The corporation may vacate land, or part of it, or rights in land acquired for railroad purposes by executing and

*Problem - future analysis

filing a deed in the appropriate recording district. Upon filing of the deed, title reverts to the State of Alaska, if compensation has been paid.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq (the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.460. MUNICIPAL RIGHTS-OF-WAY. Upon request of a municipality the corporation may grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the right-of-way including but not limited to

(a) defending the corporation in any cause of action brought

against the railroad as a result of such use,

(b) indemnifying the corporation for the amount of any judgement rendered against the railroad including prejudgement interest, costs, and attorney's fees; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. (a) The corporation shall protect its assets, services, and personnel by insurance, including certain self-insured retentions.

(b) The corporation shall also maintain Casualty, Property, Business Interruption, Marine, Boiler and Machinery, Pollution Liability, and Miscellaneous Insurances in amounts reasonably calculated to cover potential claims for bodily injury, death or disability, consequential and property damage that may arise or be related to its operations and activities, including the liabilities of the State.

(c) The Corporation may contract with the Department of

Administration, Division of Risk Management for the provision of all or part of the requirements in subsections (a) and (b).

Sec. 42.40.540. CLAIMS. (a) All claims and suits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In any claim or other legal action against the corporation, including actions involving the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, whether or not the action is considered to be a public interest case, it is not an abuse of discretion for a court to award full costs and attorney fees and for the losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.80.010, regarding the state as a party to an action.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45

U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

*Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of AS 42.40.300 and 42.40.310.

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

*Problem - future analysis

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) Bond or bond anticipation note proceeds may not be dedicated to activities other than those the board reasonably determines to be specifically related to the purposes for which the instruments are issued.

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their

limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use

and disposition of insurance money;

(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

(17) appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

(18) limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) make covenants other than and in addition to the covenants expressly authorized in this section, of like or dif-

ferent character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

Sec. 42.40.580. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind against the corporation, irrespective of whether those parties have

notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.62[illegible] REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the

state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.650. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter

are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. *(a) The real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise

*Problem - future analysis

or other person, other than the corporation.

(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 7. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.710. COLLECTIVE BARGAINING RIGHTS. (a) The provisions of the Public Employee Relations Act (AS 23.40) do not apply to the corporation or to its employees. However, employees of the corporation, except the chief executive official and other executive officials appointed by the chief executive official, may self organize and form, join, or assist an organization to

engage in collective bargaining with respect to wages, hours and other terms and conditions of employment.

(b) The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.720. AGREEMENT. (a) ~~At the request of either the board of directors of the corporation or an employee organization,~~ the Department of Administration shall participate in labor negotiations.

(b) An agreement executed between the corporation and an employee organization shall define "grievances." The agreement shall provide for a grievance procedure in which the final step in the procedure is binding arbitration.

Sec. 42.40.730. RAILROAD EMPLOYEES LABOR RELATIONS AGENCY.

(a) There is established a railroad employees labor relations agency which consists of three members appointed by the governor. One member shall be a member of the labor relations agency (AS 23.40). Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall perform the functions described in AS 23.40.090 -- 23.40.190 to carry out the provisions of the article.

(c) Members of the railroad employees labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.740. STRIKES. (a) Employees of the corporation may engage in a strike if a majority of the employees in a

collective bargaining unit vote by secret ballot to do so.

(b) Notwithstanding the provisions of subsection (a), the employees and the corporation may agree in writing to submit a dispute arising from interpretation or application of a collective bargaining agreement to arbitration.

Sec. 42.40.750. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

*(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

Sec. 42.40.760. PROHIBITED ACTS. (a) The railroad ~~corporation~~ Chief Executive officer, or any person employed by the corporation may not directly or indirectly:

(1) require or coerce any employee of the corporation to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce any employee of the corporation to make any report concerning any of his/her activities or undertakings unless the activity or undertaking is related to the performance of his official duties.

(3) except as directly related to the performance of his/her official duties, require or coerce any employee of the corpo-

ration to submit to any interrogation or examination or psychological test which is designed to elicit from him information concerning

(A) his personal relationship with any person connected with him by blood or marriage,

(B) his religious beliefs or practices,

(C) sexual matters,

(D) his political affiliation or philosophy;

(4) coerce any employee of the corporation to invest or contribute his earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of any employee of the corporation, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of corporation employees suspected of being involved in criminal activity.

ARTICLE 8. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

*Problem - future analysis

*(4) AS 37.05;

*(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

*(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.910. CONFLICTING LAWS INAPPLICABLE. If provisions of AS 42.40.010 - 42.40.990 conflict with the provisions of other law, the provisions of AS 42.40.010 - 42.40.990 prevail. Provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1202 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the deed of conveyance for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

*(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all interests in real property,

*Problem - future analysis

including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation as provided in 45 USC 1202(10).

(8) "executive officials" means the authority's chief executive officer, assistant chief executive officer, assistant to the chief executive officer, chief of administration, superintendent of transportation, manager of marketing and sales, chief engineer, chief mechanical officer, manager of industrial development and real estate, manager of budget and accounting, manager of planning, manager of personnel, manager of supply and procurement, chief of security, manager of operating rules, manager of data processing, or any employee of the authority who fulfills the management functions under a different title or who exercises a similar or comparable level of responsibility if so designated by the board;

(9) "Collective bargaining" is defined as negotiating with an employees organization, representing the employees of The Alaska Railroad Corporation on matters pertaining to conditions of employment.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act of 1984.

* Sec. 3. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE: REMOVAL. (a) Except for the commissioner of Commerce and Economic Development, the voting members of the board serve for staggered terms of five years each [, AND SERVE AT THE PLEASURE OF THE GOVERNOR DURING THEIR TERMS].

* Sec. 4. AS 42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation causes by injury or sickness that leaves the member unable to perform dutie under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

* Sec. 5. AS 42.40.100(a) is amended to read:

(a) The board shall appoint the chief executive officer of the corporation [SUBJECT TO THE APPROVAL BY THE GOVERNOR]. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

* Sec. 6. SPECIAL REPORT. The governor shall contract with a private consultant for the preparation of a report on the long-term operations of the railroad that are in the best interest of the state. The report shall be submitted to the governor and the legislature by January 1, 1988. It shall contain specific recommendations on operational alternatives and the transfer of all or part of the railroad operation to the private sector.

* Sec. 7. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.030 enacted in Sec. 2 of this Act, the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) one shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

*Problem - future analysis

* Sec. 8. PRE-EXISTING RULES, REGULATIONS AND ORDERS OF THE ALASKA RAILROAD. The Board of ~~Commissioners~~ Directors of the Alaska Railroad Corporation, by resolution, may continue in force after date of transfer all or part of the rules, regulations, and orders of the Alaska Railroad which were in effect one day before the date of transfer and are not inconsistent with this chapter or other state law. The Board of Directors may adopt in its rules, regulations, and orders the substance of former federal authorities relating to the Alaska Railroad. This adoption is not considered a continuation of the federal authorities if made in compliance with the procedural requirements of this chapter and other applicable law.

* Sec. 9. COLLECTIVE BARGAINING AGREEMENT BETWEEN THE ALASKA RAILROAD CORPORATION AND EMPLOYEES. As soon as practicable after transfer of the Alaska Railroad, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees immediately before transfer of the Alaska Railroad. The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1202-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 10. Sections 3 - 5 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 11. Sections 1, 2, 6, 7, 8 and 9 of this Act take effect immediately in accordance with AS 01.10.070.(c).

*Problem - future analysis

3/10/84 Draft

IN THE HOUSE

HOUSE BILL NO. 512

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) It is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States

government;

(5) there is vast potential in Alaska's natural resource areas and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state;

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state

investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Commerce and Economic Development, but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential governmental function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of the Department of Commerce and Economic Development and eight voting members appointed by the governor. These eight members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The public [voting] members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including, but not limited to

transportation, business, and finance. Except for the commissioner of commerce and economic development, a voting member may not be a state officer or employee.

(1) One voting member [shall] may be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

(2) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(3) One [an] employee of the corporation from an empolyee bargaining unit appointed by the governor to represent the employees;

(4) the chief executive officer of the corporation.

(b) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(c) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(d) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(e) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

Sec. 42.40.030. TERM OF OFFICE AND REMOVAL. Except for the commissioner of commerce and economic development, the appointed members of the board serve for staggered terms of five years each, and serve at the pleasure of the goverror during their terms..

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of [$250] $400 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. [Four] Five voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. [Four] Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by means of telecommunication devices.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.090. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain

powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier; subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) Generally manage the corporation on a self-sustaining basis

(4) notify the legislature of any possible application for state appropriation for any service which is not self-sustaining.

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporation while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

(7) review all public and private land disposals in planning for future development or expansion.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation. [subject to the approval by the Governor.] The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate

powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 180 days of the first meeting of the board, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(c) Specific board approval [authorization or concurrence] is required for the following:

(1) transferring the corporation's entire interest in real property; other than the execution of a release of a lein or satisfaction of a mortgage after payment has been received;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program and capital improvement plan subject to Sec. 42.40.310;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversification and major expansion or reducing services beyond those provided on the date of transfer or as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

(12) certifying collective barganing agreements with railroad employees as provided by AS. 42.40.700;

(13) capital projects with an estimated completion cost in excess of $500,000 or an estimated completion time of more than one year;

(14) the excercise of the power of eminent domain.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the corporation [authority] may not participate in a decision of the corporation [authority] in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if that person or a member of that persons immediate family has only a

remote interest and if the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the interested mamber or employee. As used in this subsection, "remote interest" means interests that in good faith are defined as remote by rules adopted by the corporation.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section.

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public with the exception of an executive session conducted under AS 44.62.310 and (b) of this section.

(b) In addition to those subjects that may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information including but not limited to proprietary

information associated with specific shippers, divisions, and contract rate agreements.

Sec 42.40.220. MINUTES AND NOTICE OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes of the public portion of each meeting to the governor and the leadership of the legislature. The board shall provide by rule for advance public notice for its meetings.

***** Sec. 42.40.230. RULES. (a) The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. Within 90 days after its first meeting the board shall adopt rules establishing a procedure for giving advance public notice and an opportunity for the public to comment on proposed regulations of the authority that in the determination of the board, will have a substantial impact on the public or be used in the corporations dealings with a significant segment of the public.

(b) The rules shall also include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission for the

protection of these matters, and information including but not limited to specific shippers, divisions, and contract rate agreements.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The plans may include suggestions for legislation relating to the structure, powers, or duties of the corporation or relating to operation of facilities of the corporation. <u>This report shall include a breakdown of a service's real costs and income in each category of railroad operations</u>.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

52 - 42.40.280 → Added

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt rules and bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter

(13) maintain offices and facilities at places it designates;

(14) acquire, hold, and disperse of Stocks, memberships, contracts, bonds, general or limited partnership interests or other

interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests which are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(15) undertake and provide for the acquisition, construction, maintenance, equiping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(16) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(17) prescribe rates to be charged for services provided by the Alaska Railroad in accordance with 45 U.S C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(18) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(19) enter into contracts, leases or other agreements with connecting carriers and shippers, and other persons concerning the services, activities, operations, properties, and facilities of the railroad. including contracts leases and other agreements that contain provisions intended to preserve and expand the railroad's traffic base;

(20) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(21) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(22) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(23) assume and satisfy liabilities of the United States or its agencies as provided by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982 *****and the closing report or its substantive equivalent as accepted by the legislature;

(24) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(25) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(26) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(27) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(28) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest,

consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(29) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(30) cancel bonds purchased under (29) of this section;

(31) adopt rules having the force of law that require designated classes of proprietary information and communications to be held confidential;

(32) do all things necessary, convenient and desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. LONG-RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range program plan and a capital improvement plan. The board shall consult [interface] with affected [other related] state agencies in preparation of the plans. The long-range program plan shall delineate the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted.

(b) The board shall annually review and update the plans required under (a) of this section. [The board may not contract for the preparation or revision of either the long-range program plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.]

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. As to all land that is transferred or acquired

(1) railroad rights-of-way or easements transferred under the federal act or otherwise acquired shall be classified as railroad utility corridors;

(2) future railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main

or branch line, or may be of other width as designated by the corporation, and may be surveyed by the metes and bounds method; and

(3) the corporation may lease or rent portions of the utility corridor for other transportation services.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board by rule may identify and request conveyance of land owned by or subject to selection by the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, future or intended railroad purposes. The request must include a statement of and justification for the present, future or intended railroad use. Upon submission of a request for classification and conveyance to the commissioner of natural resources, the commissioner shall temporarily classify and reserve the land identified in the request for railroad purposes and shall temporarily vacate a classification allowing disposal or lease of that land under laws or programs of the state. A temporary classification and vacation is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by written Decision — departmental order shall;

(1) classify that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to classify the land for railroad purposes.

(3) approve in part and deny in part the request for classification under this section.

(c) A conveyance under (b)(1) or (3) of this section vests in the corporation the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials the land conveyed without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) The corporation's ownership of state land entitles it to exclusive use and control of the surface, subsurface, complete subjacent and lateral support of the surface, subsurface, and the right to tunnel, ditch, recontour, excavate or otherwise use the subsurface for railroad, transportation, transmission, and related purposes.

(f) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

→ (g) U 29. Control Navigable

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for lawful purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the state's lawful purposes in condemning property.

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq (the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. (a) The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In a claim or other legal action against the corporation involving its activities, including the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, the party or parties that maintained the action shall be liable to the corporation for its full costs and legal fees in defending the action and for the financial losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers as provided in AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

(f) The corporation may defend and indemnify a current or former employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of AS 42.40.300 and 42.40.310.

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution

or person, or a pledge of money, income, or revenue of the corporation from any source.

(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes

enter into the following agreements with the holders of the bonds or bond anticipation notes:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for

the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

(17) appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

(18) limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) make covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

Sec. 42.40.580. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an

underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind in tort contract or otherwise against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.650. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are

unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. (a) The real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes,

provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.[illegible]. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 7. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

(b) The collective bargaining agreements between the corporation and its employees shall remain in effect until they expire by their terms or, as required under 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982), they are renegotiated, subject to the approval of the board.

(c) The corporation may not enter into a collective bargaining agreement concerning wages, hours, working conditions or other

employment terms, conditions and benefits with an organization representing the corporation's chief executive official or executive officials appointed by the chief executive official.

Sec. 42.40.710. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

ARTICLE 8. STATE OVERSIGHT AND REVIEW

Sec. 42.40.800. STATE OVERSIGHT (a). The board shall notify the governor and the leadership of the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer to the authority or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or 5 percent of the railroads total track mileage, whichever is greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000.

ARTICLE 8. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.XXX. SPECIAL REPORT. The corporation shall investigate and prepare a report for the governor and the legislature on the long-term operations of the railroad that are in the best interest of the state. The report shall be due January 1, 1988. It shall make specific recommendations on operational alternatives and the transfer of all or part of the railroads operations to the private sector.

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the deed of conveyance for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation:

(8) "executive officials" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager, Assistant General Manager, Assistant to the General Manager, Chief of Administration and General Counsel.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. CONFLICTING LAWS INAPPLICABLE. If provisions of this Act are in conflict with the provisions of other law, the provisions of this Act prevail. Where possible, provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 4. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the governor shall designate the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) one shall serve a term of three years;

(3) one shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 5. EFFECTIVE DATE. This Act takes effect immediately in accordance with AS 01.10.070(c).

13-2150

IN THE HOUSE BY THE TRANSPORTATION COMMITTEE

HOUSE JOINT RESOLUTION NO.

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

Proposing an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. Article III, sec. 22, Constitution of the State of Alaska, is amended to read:

SECTION 22. EXECUTIVE BRANCH. Except as provided in Section 28 of this article, all [ALL] executive and administrative offices, departments, and agencies of the state government and their respective functions, powers, and duties shall be allocated by law among and within not more than twenty principal departments, so as to group them as far as practicable according to major purposes. Regulatory, quasi-judicial, and temporary agencies may be established by law and need not be allocated within a principal department.

* Sec. 2. Article III, Constitution of the State of Alaska, is amended by adding a new section to read:

SECTION 28. ALASKA RAILROAD. Upon the transfer of the Alaska Railroad to the state under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act), a board, commission, authority, or corporation to manage the railroad and its property may be established by law within or outside of a principal department. Members of the board, commission, authority, or board of directors of the corporation shall be appointed by the governor, subject to confirmation by a majority of the members of each house of the legislature in joint session, and may be removed as provided by law. The board, commission, authority, or

board of directors may appoint a principal executive officer if authorized by law.

* Sec. 3. The amendments proposed by this resolution shall be placed before the voters of the state at the next general election in conformity with art. XIII, sec. 1, Constitution of the State of Alaska, and the election laws of the state.

IN THE HOUSE BY THE TRANSPORTATION COMMITTEE

HOUSE JOINT RESOLUTION NO.

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

Proposing an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. Article III, sec. 22, Constitution of the State of Alaska, is amended to read:

SECTION 22. EXECUTIVE BRANCH. Except as provided in Section 28 of this article, all [ALL] executive and administrative offices, departments, and agencies of the state government and their respective functions, powers, and duties shall be allocated by law among and within not more than twenty principal departments, so as to group them as far as practicable according to major purposes. Regulatory, quasi-judicial, and temporary agencies may be established by law and need not be allocated within a principal department.

* Sec. 2. Article III, Constitution of the State of Alaska, is amended by adding a new section to read:

SECTION 28. ALASKA RAILROAD. Upon the transfer of the Alaska Railroad to the state under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act), a board, commission, authority, or corporation to manage the railroad and its property may be established by law within or outside of a principal department. Members of the board, commission, authority, or board of directors of the corporation shall be appointed by the governor, subject to confirmation by a majority of the members of each house of the legislature in joint session, and may be removed as provided by law. The board, commission, authority, or

board of directors may appoint a principal executive officer if authorized by law.

* Sec. 3. The amendments proposed by this resolution shall be placed before the voters of the state at the next general election in conformity with art. XIII, sec. 1, Constitution of the State of Alaska, and the election laws of the state.

IN THE HOUSE

HOUSE BILL NO. 512

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States

government;

(5) there is vast potential in Alaska's natural resource areas and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state;

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state

investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Commerce and Economic Development, but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential governmental function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of the Department of Commerce and Economic Development and seven voting members appointed by the governor. These seven members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The voting members must have experience or professional training and expertise in fields relevant to the purposes of this

chapter, including, but not limited to transportation, business, and finance. A voting member may not be a state officer or employee.

(b) Unless prohibited by law, one voting member shall be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

(c) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(c) In addition to the voting members, the following nonvoting members shall serve on the board:

(1) an employee of the corporation appointed by the governor to represent the employees;

(2) the chief executive officer of the corporation.

(d) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(e) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(f) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(g) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

****** (h) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves

the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) Conviction of a felony

******

Sec. 42.40.030. TERM OF OFFICE AND REMOVAL. The appointed members of the board serve for staggered terms of five years each, and serve at the pleasure of the governor during their terms..

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $250 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. Four voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. Four affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by means of telecommunication devices. The rules may provide for excluding non-voting members during executive sessions.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.090. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier; subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(4) raise needed capital by issuing obligations of the corporation while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation subject to the approval by the Governor. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The

appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 180 days of the first meeting of the board, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation other than the execution of a release of a lein or satisfaction of a mortgage after payment has been received;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(c) Board authorization or concurrence is required for the following:

(1) transferring the corporation's entire interest in real property;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program and capital improvement plan subject to Sec. 42.40.310;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversification and major expanison or reducing services beyond those provided on the date of transfer or as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

(12) certifying collective barganing agreements with railroad employees.

(13) capital projects with an estimated completion cost in excess of $500,000 or an estimated completion time of more than one year.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the authority may not participate in a decision of the authority in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "particpate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if

that person or a member of that persons immediate family has only a remote interest and if the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the interested mamber or employee. As used in this subsection, "remote interest" means interests that in good faith are defined as remote by rules adopted by the corporation.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section.

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public with the exception of an executive session conducted under AS 44.62.310 and (b) of this section.

(b) In addition to those subjects that may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information including but not limited to proprietary

information associated with specific shippers, divisions, and contract rate agreements.

Sec 42.40.220. MINUTES OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes of the public portion of each meeting to the governor and the leadership of the legislature.

***** Sec. 42.40.230. RULES. The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. The rules shall include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) Except as provided in AS 42.40.270, the corporation may by rule designate and withhold disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, and information including but not limited to specific shippers, divisions, and contract rate agreements.

Sec. 42.40.250. SPECIAL REPORT. The corporation shall investigate and prepare a report for the governor and the legislature on the long-term operations of the railroad that are in the best interest of the state. The report shall be due January 1, 1988. It shall make

specific recommendations on operational alternatives and the transfer of all or part of the railroads operations to the private sector.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The plans may include suggestions for legislation relating to the structure, powers, or duties of the authority or relating to operation of facilities of the authority.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt rules and bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430or by declaration of taking;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter

(13) maintain offices and facilities at places it designates;

(14) acquire, hold, and disperse of Stocks, memberships, contracts, bonds, general or limited partnership interests or other

interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests which are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(15) undertake and provide for the acquisition, construction, maintenance, equiping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(16) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(17) prescribe rates to be charged for services provided by the Alaska Railroad;

(18) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(19) enter into contracts and leases with connecting carriers and shippers, and other persons concerning the services, activities, operations, properties, and facilities of the railroad. including contracts leases and other agreements that contain provisions to preserve and expand the railroad's traffic base;

(20) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(21) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(22) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(23) assume and satisfy liabilities of the United States or its agencies as provided by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982 and the closing report or its substantive equivalent as accepted by the legislature;

(24) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(25) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(26) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(27) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(28) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(29) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(30) cancel bonds purchased under (21) of this section;

(31) adopt rules having the force of law that require designated classes of proprietary information and communications to be held confidential;

(32) do all things necessary, convenient and desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. LONG-RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range program plan and a capital improvement plan. The board shall interface with other related state agencies in preparation of the plans. The long-range program plan shall delineate the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted.

(b) The board shall annually review and update the plans required under (a) of this section. The board may not contract for the preparation or revision of either the long-range program plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private

distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. As to all land that is transferred or acquired

(1) railroad rights-of-way or easements transferred under the federal act or otherwise acquired shall be classified as railroad utility corridors;

(2) future railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of other width as designated by the corporation, and may be surveyed by the metes and bounds method; and

(3) the corporation may lease or rent portions of the utility corridor for other transportation services.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board by rule may identify and request conveyance of land owned by or subject to selection by the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, future or intended railroad purposes. The request must include a statement of and justification for the present, future or intended railroad use. Upon submission of a request for classification and conveyance to the commissioner of natural resources, the commissioner shall temporarily classify and reserve the land identified in the request for railroad

purposes and shall temporarily vacate a classification allowing disposal or lease of that land under laws or programs of the state. A temporary classification and vacation is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall;

(1) classify that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to classify the land for railroad purposes.

(3) approve in part and deny in part the request for classification under this section.

(c) A conveyance under (b)(1) or (3) of this section vests in the corporation the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials the land conveyed without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) The corporation's ownership of state land entitles it to exclusive use and control of the surface, subsurface, complete subjacent and lateral support of the surface, subsurface, and the right to tunnel, ditch, recontour, excavate or otherwise use the subsurface for railroad, transportation, transmission, and related purposes.

(f) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for lawful purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the state's lawful purposes in condemning property.

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq

(the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. (a) The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

(b) Notwithstanding the provisions of this section, the corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or

proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In a claim or other legal action against the corporation involving its activities, including the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, the party or parties that maintained the action shall be liable to the corporation for its full costs and legal fees in defending the action and for the financial losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers as provided in AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

(f) The corporation may defend and indemnify a current or former employee, agent, or board member of the corporation and their

successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of AS 42.40.300 and 42.40.310.

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes enter into the following agreements with the holders of the bonds or bond anticipation notes:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or

notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

(17) appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

(18) limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) make covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

Sec. 42.40.580. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are

immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind in tort contract or otherwise against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital

in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.650. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the

corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. (a) The real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their

well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 7. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

(b) The collective bargaining agreements between the corporation and its employees shall remain in effect until they expire by their terms or, as required under 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982), they are renegotiated, subject to the approval of the board.

(c) The corporation may not enter into a collective bargaining agreement concerning wages, hours, working conditions or other employment terms, conditions and benefits with an organization representing the corporation's chief executive official or executive officials appointed by the chief executive official.

Sec. 42.40.710. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity.

However, board members and employees of the corporation may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

ARTICLE 8. STATE OVERSIGHT AND REVIEW

Sec. 42.40.800. STATE OVERSIGHT (a). The board shall notify the governor and the leadership of the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer to the authority or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or 5 percent of the railroads total track mileage, whichever is greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000.

ARTICLE 8. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska

Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the deed of conveyance for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation:

(8) "executive officials" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager, Assistant General Manager, Assistant to the General Manager, Chief of Administration and General Counsel.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. CONFLICTING LAWS INAPPLICABLE. If provisions of this Act are in conflict with the provisions of other law, the provisions of this Act prevail. Where possible, provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 4. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the governor shall designate the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) one shall serve a term of three years;

(3) one shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 5. EFFECTIVE DATE. This Act takes effect immediately in accordance with AS 01.10.070(c).

12
3/[illegible]/84 Draft

IN THE HOUSE

HOUSE BILL NO. 512

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE.

(a) The Legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States

government;

(5) there is vast potential in Alaska's natural resource areas and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer to the private sector for ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982). It is the purpose of the legislature to

(1) provide for the level of service that best satisfies the needs of the people of the state;

(2) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by insuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state

investment;

(F) provide for the prudent operation of the railroad according to sound business management practices; and

(3) insure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and for the purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Commerce and Economic Development, but the corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential governmental function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of the Department of Commerce and Economic Development and eight voting members appointed by the governor. These eight members must be residents of and registered voters in the state except as provided in (b) and (c) of this section. No more than two of these members may be from any one of the four judicial districts in the state. The public [voting] members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including, but not limited to

transportation, business, and finance. Except for the commissioner of commerce and economic development, a voting member may not be a state officer or employee.

(1) One voting member [shall] may be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad.

(2) One person may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(3) One [an] employee of the corporation from an empolyee bargaining unit appointed by the governor to represent the employees;

(4) the chief executive officer of the corporation.

(b) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(c) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(d) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(e) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

Sec. 42.40.030. TERM OF OFFICE AND REMOVAL. Except for the commissioner of commerce and economic development, the appointed members of the board serve for staggered terms of five years each, and serve at the pleasure of the governor during their terms..

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of [$250] $400 for each day the member is engaged in the actual performance of duties as a member of the board. The board may provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. QUORUM. [Four] Five voting members of the board constitute a quorum for the transaction of business.

Sec. 42.40.070. VOTING. [Four] Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by means of telecommunication devices.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.080. MANAGEMENT BY THE BOARD. The board is responsible

for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.110. In carrying out its responsibilities under this section the board shall, subject to AS 42.40.110,

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier; subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) Generally manage the corporation on a self-sustaining basis

(5) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(6) raise needed capital by issuing obligations of the corporation while insuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

(7) review all public and private land disposals in planning for future development or expansion.

(8) insure that accepted railroad industry standards are used for the corporation's accounting and procurement systems.

Sec. 42.40.090. STATE OVERSIGHT (a). The board shall notify the governor and the leadership of the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer to the authority or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or 5 percent of the railroads total track mileage, whichever is

greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000.

(4) any possible application for state appropriation for any service which is not self-sustaining.

(b) The notice required by (a) of this section must be in writing and describe the proposed undertaking in detail, specifying

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) why the project is necessary or desirable to achieve the purposes of this chapter and;

(4) whether and when the undertaking will be self-sustaining financially.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation. [subject to the approval by the Governor.] The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 180 days of the first meeting of the board, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(5) establish and maintain the Railroad's procurement and accounting systems.

(c) Specific board approval [authorization or concurrence] is required for the following:

(1) transferring the corporation's entire interest in real property; other than the execution of a release of a lein or satisfaction of a mortgage after payment has been received;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program and capital improvement plan subject to Sec. 42.40.310;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversification and major expanison or reducing services beyond those provided on the date of transfer or as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

(12) certifying collective barganing agreements with railroad employees as provided by AS. 42.40.700;

(13) capital projects with an estimated completion cost in excess of $500,000 or an estimated completion time of more than one year;

(14) the excercise of the power of eminent domain.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the corporation [authority] may not participate in a decision of the corporation [authority] in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if that person or a member of that persons immediate family has only a remote interest and if the fact and extent of the interest is

disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the interested mamber or employee. As used in this subsection, "remote interest" means interests that in good faith are defined as remote by rules adopted by the corporation.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section.

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public with the exception of an executive session conducted under AS 44.62.310 (b) of this section.

(b) In addition to those subjects that may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information including but not limited to proprietary information associated with specific shippers, divisions, and contract rate agreements.

Sec 42.40.220. MINUTES AND NOTICE OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes of the public portion of each meeting to the governor and the leadership of the legislature. The board shall provide by rule for advance public notice for its meetings.

***** Sec. 42.40.230. RULES. (a) The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. Within 90 days after its first meeting the board shall adopt rules establishing a procedure for giving advance public notice and an opportunity for the public to comment on proposed regulations of the authority that in the determination of the board, will have a substantial impact on the public or be used in the corporations dealings with a significant segment of the public.

(b) The rules shall also include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

(c) The Board of Directors of the Alaska Railroad Corporation, by resolution, may continue in force after date of transfer all or part of the rules, regulations, and orders of the Alaska Railroad which were in effect one day before the date of transfer and are not inconsistent with this chapter or other state law. The Board of Directors may adopt in its rules, regulations, and orders the substance of former federal authorities relating to the Alaska Railroad. This adoption is not considered a continuation of the federal authorities if made in compliance with the procedural requirements of this chapter and other applicable law.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section,

information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, and information including but not limited to specific shippers, divisions, and contract rate agreements.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The plans may include suggestions for legislation relating to the structure, powers, or duties of the corporation or relating to operation of facilities of the corporation. This report shall include a breakdown of a service's real costs and income in each category of railroad operations.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

Sec. 42.40.280. PERFORMANCE AUDIT. On a yearly basis the board shall have a performance audit conducted by a recognized railroad management team expert on all aspects of the Alaska Railroad

operations.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt rules and bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter

(13) maintain offices and facilities at places it designates;

(14) acquire, hold, and disperse of Stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests which are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(15) undertake and provide for the acquisition, construction, maintenance, equiping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(16) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(17) prescribe rates to be charged for services provided by the Alaska Railroad <u>in accordance with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982)</u>;

(18) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(19) enter into contracts, leases or other agreements with connecting carriers and shippers, and other persons concerning the services, activities, operations, properties, and facilities of the railroad. including contracts leases and other agreements that contain provisions intended to preserve and expand the railroad's traffic base;

(20) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(21) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(22) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(23) assume and satisfy liabilities of the United States or its agencies as provided by 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982 *****and the closing report or its substantive equivalent as accepted by the legislature;

(24) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(25) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(26) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(27) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(28) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(29) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(30) cancel bonds purchased under (29) of this section;

(31) adopt rules having the force of law that require designated classes of proprietary information and communications to be held confidential;

(32) do all things necessary, convenient and desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. LONG-RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range program plan and a capital improvement plan. The board shall consult [interface] with affected [other related] state agencies in preparation of the plans. The long-range program plan shall delineate the manner in which the corporation intends to accomplish

the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted and shall reflect efforts to upgrade the railway and develop safer, more cost-effective rail operations.

(b) The board shall annually review and update the plans required under (a) of this section. [The board may not contract for the preparation or revision of either the long-range program plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.]

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense, settlement, or monetary

judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All lands transferred or acquired shall be designated as follows

(1) railroad rights-of-way or easements transferred under the Transfer Act or otherwise acquired shall be classified as railroad utility corridors;

(2) all other real property transferred under the Transfer Act or otherwise acquired, are rail lands.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width only if the adjoining land is not rail property, and may be surveyed by the metes and bounds method; and

(c) The corporation may not sell land within the railroad corridor. [However], Except as provided in AS 42.40.460, the corporation may lease, grant easements or permits or otherwise authorize use of portions of the utility corridor but only for transportation, transmission, or communication purposes and for support functions associated with such purposes. Final sale or disposal of land must be approved by the legislature.

(d) The corporation may lease, grant easements or permits or otherwise authorize use of portions of rail lands for other services including but not limited to transportation, transmission, and communication purposes and for support functions associated with such

purposes, so long as parallel uses of the railroad corridor are not restricted.

(c) Vegetation control involving the use of pesticided and herbacides on lands owned or managed by the Corporation shall be conducted in compliance with state requirements otherwise applicable with state requirements otherwise applicable to state pesticide and herbacide projects.

Sec. 42.40.410 NOMINATION OF LAND The board may [by rule] identify and request through the Department of Natural Resources federal land to be nominated for state selection for railroad purposes.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board [by rule] may identify and request conveyance of land owned by or tentatively approved for transfer to [subject to selection by] the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, or future [or intended] railroad purposes. The request must include a statement of and justification for the present or future [or intended] railroad use. Upon submission of a request for [classification and] conveyance to the commissioner of natural resources, the commissioner shall temporarily [classify and] reserve the land identified in the request for railroad purposes and shall temporarily [vacate a classification allowing] hold in abayance any disposal or lease of that land other than to the corporation under laws or programs of the state. [A temporary classification and vacation] such lands held by the department of natural resources under this section is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall;

(1) designate [classify] that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to designate [classify] the land for railroad purposes.

(3) approve in part and deny in part the request for designation [classification] under this section and convey as appropriate.

(c) In the absence of a reservation to the contrary, a conveyance under (b) of this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials and the right to tunnel, ditch, recontour, excavate or otherwise use the sub-surface for railroad, transportation, transmission, or communication and related services without regard to the classification of the resources as part of the surface or sub-surface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail

operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for railroad [lawful] purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the [state's lawful] purposes of this chapter [in condemning property].

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

(e) The corporation may vacate land, or part of it, or rights in land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing of the deed, title reverts to the State of Alaska, if compensation has been paid.

Sec. 42.40.450. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq

(the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.460. MUNICIPAL RIGHTS -OF-WAY. Upon request of a municipality the corporation may grant to the municipality a right-of-way in a railroad utility corridor or in land owned by the corporation to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the right-of-way including but not limited to

(a) defending the corporation in any cause of action brought against the railroad as a result of such use.

(b) indemnifying the corporation for the amount of any judgement rendered against the railroad including prejudgement interest, costs, and attorney's fees; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right

of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.520. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for its members and any officer responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.530. INSURANCE. The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims for bodily injury, death or disability and property damage that may arise from or be related to its operations and activities, naming the state as an additional insured.

Sec. 42.40.540. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation, and not against the state.

(b) In a claim or other legal action against the corporation involving its activities, including the expansion, extension and construction of the railroad, in which the corporation is the prevailing party, the party or parties that maintained the action shall be liable to the corporation for its full costs and legal fees in defending the action and for the financial losses to the corporation that are directly attributable to the maintenance of that action.

(c) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights,

privileges, and immunities as the state and state officers as provided in AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(d) Claims against the corporation are not subject to the provisions of AS 44.77.010 - 44.77.070 regarding claims against the state.

(e) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

(f) The corporation may defend and indemnify a current or former employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

Sec. 42.40.550. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes as required by 45 U.S.C. 1207(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.560. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of AS 42.40.300 and 42.40.310.

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution

from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

***(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

(f) The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes enter into the following agreements with the holders of the bonds or bond anticipation notes:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

***(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

***(8) provide for the replacement of lost, stolen, destroyed or mutilated bonds or notes;

***(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

***(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

***(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

***(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

***(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

***(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint a trustee under this chapter or limit the rights, powers and duties of the trustee;

***(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds or notes;

(16) agree with a corporation trustee, that may be a trust company or bank having the powers of a trust company inside or outside

the state, as to the pledging or assigning of revenue or funds that or in which the corporation has a right or interest; the agreement may provide for other rights and remedies exercisable by the trustee for the protection of the holders of bonds or notes of the corporation and not otherwise in violation of law, and may provide for the restriction of the rights of an individual holder of bonds or notes of the corporation;

***(17) appoint and provide for the duties and obligations of a paying agent or other fiduciary inside or outside the state;

***(18) limit the rights of the holders of bonds or notes of the corporation to enforce a pledge or covenant securing the bonds or notes; and

(19) make covenants other than and in addition to the covenants expressly authorized in this section, of like or different character, and make covenants to do or refrain from doing acts in order to better secure bonds or notes or that, in the absolute discretion of the board, will tend to make bonds or notes more marketable.

***Sec. 42.40.580. INTERIM RECEIPTS, TEMPORARY BONDS, AND TEMPORARY BOND ANTICIPATION NOTES. Before the preparation of definitive bonds or bond anticipation notes, the corporation may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.590. VALIDITY OF SIGNATURES. If an officer whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the

delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.600. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private sale of bonds or bond anticipation notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.610. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind in tort contract or otherwise against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.620. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.630. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.640. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

*** Sec. 42.40.650. REFUNDING BONDS. (a) The corporation may provide for the issuance of refunding bonds for the purpose of refunding bonds then outstanding that have been issued under this chapter, including the payment of a redemption premium on them and interest that accrues to the date of redemption of the bonds. Refunding bonds shall be issued in accordance with provisions of this chapter that relate to the issuance of bonds to the extent those provisions are appropriate.

(b) Refunding bonds may be sold or exchanged for outstanding bonds issued under this chapter and the proceeds may be applied to the purchase, redemption or payment of the outstanding bonds in addition to other authorized purposes. Pending the application of the proceeds of refunding bonds to the payment of the principal, accrued interest and redemption premium on the bonds being refunded, and, if permitted in the resolution authorizing the issuance of the refunding bonds or

in the trust agreement securing them, to the payment of interest on the refunding bonds and expenses in connection with the refunding, the proceeds may be invested in direct obligations of the United States or obligations the principal of and the interest on which are unconditionally guaranteed by the United States that mature or may be redeemed not later than the date the proceeds of the refunding bonds, together with the interest accruing on them, will be required for the purposes intended.

Sec. 42.40.660. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.670. OFFICERS NOT LIABLE. An officer or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

Sec. 42.40.680. EXEMPTION FROM TAXATION. (a) The real and personal property of the corporation and its assets, income, and

receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) This section does not affect or limit an exemption from license fees, property taxes, or excise, income or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

***(c) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Therefore, the corporation is not required to pay a tax or assessment on property owned by the corporation under the provisions of this chapter or on the income from the property.

(d) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

Sec. 42.40.690. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

ARTICLE 7. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.700 PERSONNEL. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

(b) The collective bargaining agreements <u>in effect on the date of transfer</u> between the corporation and its employees shall remain in

effect until they expire by their terms or, as required under 45 U.S.C. 1206 (Alaska Railroad Transfer Act of 1982), they are renegotiated, subject to the approval of the board.

(c) Subject to the provisions of 45 USC 1206 (Alaska Railroad Transfer Act of 1982) Within 180 days of the first meeting of the Board, the Board and representatives of employee bargaining units shall implement ground rules for the re-negotiation of collective bargaining agreements.

(d) The corporation may not enter into a collective bargaining agreement concerning wages, hours, working conditions or other employment terms, conditions and benefits with an organization representing the corporation's chief executive official or executive officials appointed by the chief executive official.

Sec. 42.40.710. POLITICAL ACTIVITIES. (a) Money, assets, or property of the corporation may not be used for political activity. However, board members and employees of the corporation may communicate with and appear before committees of Congress, the state legislature, and municipal governing bodies in connection with matters directly affecting the corporation.

(b) A board member or employee who violates the provisions of this section is personally subject to a civil penalty assessed by a judge of the superior court in an amount not to exceed $5,000. An action to enforce this section may be brought by any person.

Sec. 42.40.760. PROHIBITED ACTS. (a) The railroad Chief Executive Officer, or any person employed by the corporation may not directly or indirectly:

(1) require or coerce any employee of the corporation to participate in any way in any activity or undertaking unless the activity or undertaking is related to the performance of official duties;

(2) require or coerce any employee of the corporation to make any report concerning any of his/her activities or undertakings unless the activity or undertaking is related to the performance of his official duties.

(3) except as directly related to the performance of his/her official duties, require or coerce any employee of the corporation to submit to any interrogation or examination or psychological test which is designed to elicit from him information concerning

(A) his personal relationship with any person connected with him by blood or marriage,

(B) his/her religious beliefs or practices,

(C) sexual matters

(D) his/her political affiliation or philosophy

(4) coerce any employee of the corporation to invest or contribute his earnings in any manner or for any purpose;

(5) restrict or attempt to restrict after-working-hour statements, pronouncements or other activities, not otherwise prohibited by law or personnel rule, of any employee of the corporation, if the employee does not purport to speak or act in an official capacity.

(b) The provisions of (a) of this section do not diminish the authority of an authorized law enforcement agency to conduct criminal investigations of corporation employees suspected of being involved in criminal activity.

ARTICLE 8. GENERAL PROVISIONS.

Sec. 42.40.900. APPLICATION OF EXISTING STANDARDS. The Alaska Railroad Corporation is not subject to the jurisdiction of the Alaska Transportation Commission. The following laws do not apply to the operations of the Alaska Railroad Corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 44.62.040 - 44.62.320.

Sec. 42.40.910. SPECIAL REPORT. The corporation shall investigate and prepare a report for the governor and the legislature on the long-term operations of the railroad that are in the best interest of the state. The report shall be due January 1, 1988. It shall make specific recommendations on operational alternatives and the transfer of all or part of the railroads operations to the private sector.

Sec. 42.40.950. DEFINITIONS. In this chapter,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the [deed of conveyance] <u>transfer documents</u> for the properties of the Alaska Railroad under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officials;

(5) "railroad utility corridor" means a right-of-way for railroad and related purposes as defined in 45 U.S.C. 1202(11) (Alaska Railroad Transfer Act of 1982).

(6) "land" means all interest in real property, including tide and submerged land;

(7) "rail properties" means all real and personal property, tangible and intangible, of the corporation:

(8) "executive officials" means the employees occupying the following positions at the Alaska Railroad as of the day before the date of transfer: General Manager, Assistant General Manager, Assistant to the General Manager, Chief of Administration and General Counsel.

(9) "collective bargaining" is defined as negotiating with an employees organization, representing employees of The Alaska Railroad Corporation on matters pertaining to conditions of employment.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE: REMOVAL. (a) Except for the commissioner of Commerce and Economic Development, the voting members of the board serve for staggered terms of five years each [, AND SERVE AT THE PLEASURE OF THE GOVERNOR DURING THEIR TERMS].

* Sec. 4. AS.42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation causes by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board; or

(3) conviction of a felony.

(4) any conduct that was intended to harm the corporation whether or not it constitutes a crime

* Sec. 5. AS 42.40.100(a) is amended to read:

(a) The board shall appoint the chief executive officer of the corporation [SUBJECT TO THE APPROVAL BY THE GOVERNOR]. The chief executive officer serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

* Sec. 6. CONFLICTING LAWS INAPPLICABLE. If provisions of this Act are in conflict with the provisions of other state law, the provisions of this Act prevail. [Where possible], provisions of this Act shall be construed so that they do not conflict with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

* Sec. 7. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the governor shall designate the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 8. COLLECTIVE BARGAINING AGREEMENT BETWEEN THE ALASKA RAILROAD CORPORATION AND EMPLOYEES. As soon as practicable after establishment of the corporation and prior to transfer of the Alaska Railroad, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees immediately before transfer of the Alaska Railroad. The collective bargaining agreements between the corporation and its employees shall remain in effect consistent with 45 U.S.C. 1202-1214 (Alaska Railroad Transfer Act of 1982).

* Sec 9. Sections 3 - 5 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 10. Sections 1,2,6,7,8 of this Act take effect immediately in accordance with AS 01.10.070.(c).

* Sec. 9. EFFECTIVE DATE. This Act takes effect immediately in accordance with AS 01.10.070(c).

IN THE HOUSE BY THE TRANSPORTATION COMMITTEE

CS FOR HOUSE BILL NO. 512 (Transportation)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government; and

(5) there is vast potential in Alaska's natural resource areas

and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to

(1) create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(2) provide for the level of service that best satisfies the needs of the people of the state;

(3) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by ensuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) generally carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad

according to sound business management practices;

(4) ensure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state within the Department of Commerce and Economic Development. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of commerce and economic development, the chief executive officer of the corporation, and seven members appointed by the governor. At least five of the seven appointed members must be registered voters in the state. No more than two appointed members may be from any one of the four judicial districts in the state. The appointed members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including transportation, business, and finance. Except for the commissioner, the chief executive officer, and the member appointed under (d) of this section, a member may not be a state officer or employee.

(b) One member of the board may be a person who has at least 10 years of experience in railroad management.

(c) One member of the board may be or have been an executive

official of a United States railroad that is not now and never was a connecting carrier of the Alaska Railroad.

(d) One member shall be an employee who is a member of a bargaining unit representing employees of the corporation.

(e) Except for the commissioner of commerce and economic development and the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

Sec. 42.40.030. TERM OF OFFICE. Except for the commissioner of commerce and economic development and the chief executive officer of the corporation, members of the board serve for staggered terms of five years each at the pleasure of the governor.

Sec. 42.40.040. VACANCIES. (a) Except for the commissioner of commerce and economic development and the chief executive officer, a vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member of the board whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $400 for each day the member is engaged in the actual performance of duties as

a member of the board. The board may provide by rule for compensation for partial days during which an appointed member is engaged in actual performance of duties as a member of the board.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. BOARD OFFICERS. (a) The board shall elect from its membership a chairman and vice-chairman and prescribe their duties by rule.

(b) The board shall appoint a secretary and prescribe the duties of the secretary.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.120. In managing the corporation the board shall

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) generally manage the corporation on a self-sustaining basis;

(4) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(5) raise needed capital by issuing obligations of the corporation while ensuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity;

(6) review state and other land disposal proposals to aid

in planning for future development or expansion of transportation services;

(7) ensure that the accounting and procurement procedures of the corporation meet accepted railroad industry standards.

Sec. 42.40.110. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation who serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.120. DELEGATION. (a) The board shall by rule delegate to the chief executive officer powers and duties necessary or appropriate for the management of the daily affairs and operations of the corporation.

(b) Within 60 days after its first meeting, the board shall by rule delegate the following powers and duties of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests in property;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels;

(4) establishing procurement and accounting procedures for the corporation; and

(5) performing procurement activities.

(c) The board may by rule require the exercise of a power or

duty delegated under (a) or (b) of this section to be subject to board approval. Specific board approval is required for the following:

(1) except for executing a release of a mortgage or other lien after payment is received, conveying the corporation's entire interest in land;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program or capital improvement plan;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversifying, expanding, or reducing services provided on the date of transfer;

(10) expanding the main or branch rail lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer;

(11) selecting independent auditors and accountants;

(12) exercising the power of eminent domain;

(13) entering into collective bargaining agreements;

(14) adopting annual budgets; and

(15) beginning capital projects with an estimated completion cost of more than $500,000 or an estimated completion time of more than one year.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.150. MEETINGS OF THE BOARD. (a) The chairman of the board shall call meetings of the board at least once every three months and may call other meetings of the board as necessary. The chairman shall preside at meetings.

(b) Except for executive sessions, the meetings of the board are public. The board shall provide by rule for a method of providing notice to the public of its meetings.

(c) The board shall keep minutes of each meeting and shall send a certified copy of the public portion of each meeting to the governor and the legislature.

Sec. 42.40.160. QUORUM AND VOTING. (a) Five members of the board constitutes a quorum for the transaction of business.

(b) Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by telecommunication devices.

Sec. 42.40.170. EXECUTIVE SESSIONS. The board may consider in an executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary or other information of a type treated as confidential under the standards and practices of the United States Interstate Commerce Commission, including practices that protect information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.180. RULES. (a) The board may adopt rules

(1) governing the business of the corporation; and

(2) designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services.

(b) Within 90 days after its first meeting, the board shall

establish a procedure for adopting, amending, and repealing rules to carry out the functions and the purposes of this chapter. The procedures shall provide for advance public notice and opportunity for public comment on proposed rules or changes to rules that, in the determination of the board, will have a substantial impact on the public or be used in the corporation's dealings with a significant segment of the public.

(c) The board shall establish a procedure for the adoption, amendment, or repeal of a rule on an emergency basis when essential for the orderly operation of the corporation's facilities or programs.

Sec. 42.40.190. PREVIOUSLY ADOPTED RULES AND ORDERS. The board may provide by resolution that rules and orders in effect on the date of transfer that are not inconsistent with this chapter or other state law remain in effect until amended or repealed by the board. The board may adopt the substance of former federal rules or orders relating to the Alaska Railroad and this may not be considered a continuation of the federal rules or orders if adopted by the board in accordance with procedural requirements of this chapter or other law.

Sec. 42.40.200. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate as confidential and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of legal counsel, and, consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, other information including proprietary information associated with specific shippers,

divisions and contract rate agreements.

Sec. 42.40.210. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or executive officer of the corporation may not participate in a decision of the corporation in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section.

(b) A board member or executive officer may participate in a decision if that person or a member of that person's immediate family has only a remote interest, the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or in the decision, and thereafter in a public meeting the board by vote authorizes or approves the participation. If the person whose participation is under consideration is a board member, that person may not vote under this subsection. For purposes of this subsection, "remote interest" means an interest that in good faith is defined as remote by rules adopted by the corporation.

(c) A board member or executive officer is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or executive officer who intentionally violates a prohibition contained in this section.

(e) For purposes of this section "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.250. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, personal property, rights, rights-of-way, franchises, easements, and other interest in land, and acquire by appropriation water rights that are located in the state, taking title to the property in the name of the corporation;

(8) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer land or personal property, subject to other provisions of this chapter;

(9) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to other provisions of federal or state law or municipal ordinances;

(10) undertake and provide for the management, operation, maintenance, use, and control of all of the property of the corporation, including tracks, equipment and other property transferred to the corporation by the federal government or any person;

(11) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter;

(12) maintain offices and facilities at places it designates;

(13) apply to the state, the United States, and foreign countries or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and obtain, hold, and reuse the licenses and permits in the same manner as other railroad operators;

(14) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(15) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(16) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, property, and facilities of the railroad, including agreements that contain provisions to preserve and expand the railroad's traffic base;

(17) plan for and undertake expansion of the railroad and railroad activities, including extension of the rail system, and contract with other modes of transportation service connecting to the rail system;

(18) hire and discharge railroad personnel and determine

benefits and other terms of employment, in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(19) assume and satisfy liabilities of the United States in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(20) maintain or provide for a security force to enforce state law and the corporation's rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(21) issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and hold or dispose of them;

(22) purchase the corporation's bonds at a price not more than the principal amount of them plus interest;

(23) cancel bonds of the corporation purchased by the corporation;

(24) secure the payment of its obligations by pledge, mortgage, or other lien on its contracts, revenues, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) borrow money, including the amounts necessary to establish reasonable reserves, and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates other money will be available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(27) include in any borrowing the amounts necessary to

establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(28) acquire, hold, and dispose of stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests that are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(29) undertake and provide for the acquisition, construction, maintenance, equipping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(30) do all things necessary or desirable to carry out the powers and duties of the corporation granted or necessarily implied in this chapter or other laws of the state or the laws or regulations of the federal government.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the Alaska Railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The report may include suggestions for legislation relating to the structure, powers or duties of the corporation or to operation facilities of the corporation. The report shall itemize the cost of providing each category of service offered by the railroad and the income generated by each category.

Sec. 42.40.270. AUDITS. (a) The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The board shall have an annual performance audit conducted by a qualified professional performance auditing firm to assure that the railroad is being managed and operated effectively and efficiently in accordance with the requirements of this chapter.

(b) The corporation shall make all of its financial records available to an auditor appointed by the governor and to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.200 and rules implementing that section.

Sec. 42.40.280. STATE OVERSIGHT REPORTS. (a) The board shall provide a state oversight report to the governor and the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or five percent of the railroad's total track mileage, whichever is greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000;

(4) an application for an appropriation to be used for providing any service that is not self-sustaining.

(b) The report under (a) of this section shall be in writing,

describe the proposed undertaking in detail, and specify

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) the reasons the action is necessary or desirable to achieve the purposes of this chapter; and

(4) whether and when the undertaking is expected to be self-sustaining financially.

Sec. 42.40.290. LONG RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long range program plan and a capital improvement plan. The board shall consult with affected state agencies in preparing the plans. The long range program plan shall explain the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted and shall reflect efforts to upgrade the railroad and develop safer, more cost-effective rail operations.

(b) The board shall annually review and update the long range program and capital improvement plans. The board shall provide copies of the updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.300. USE OF CORPORATION ASSETS. The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property,

other assets, or credit of the corporation for a purpose not authorized by law by a person having the possession or control of it is prohibited.

Sec. 42.40.310. INDEMNIFICATION. (a) The corporation may defend and indemnify a current or former member of the board, employee, or agent of the corporation against all costs, expenses, judgments, and liabilities, including attorney's fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

(b) The corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold them harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding. The purchase of insurance is discretionary with the board and insurance is not considered to be compensation to the insured person.

ARTICLE 5. CORPORATION PROPERTY.

Sec. 42.40.350. LAND. (a) All land transferred under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All land that is transferred or acquired by the corporation is designated as follows:

(1) railroad rights-of-way or easements are railroad utility corridors;

(2) land other than railroad rights-of-way or easements is

rail land.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width if the adjoining land is not rail land, and may be surveyed by the metes and bounds method. The corporation may not convey land within a utility corridor. Except as provided in AS 42.40.420, the corporation may lease, grant easements or permits, or otherwise authorize use of portions of a utility corridor for transportation, communication, and transmission purposes and support functions associated with those purposes if the use does not restrict other parallel uses of the utility corridor.

(c) The corporation may convey, lease, grant easements or permits, or otherwise authorize use of portions of rail land. However, sale of rail land is subject to approval by the legislature.

Sec. 42.40.360. REQUEST FOR LAND. (a) The board may nominate federal land for railroad purposes and request the commissioner of natural resources to select the land for the state through the federal land selection process.

(b) The board may identify and request the commissioner of natural resources to convey land necessary or useful for present or future railroad purposes owned by or tentatively approved for transfer to the state, including land not adjacent to a railroad utility corridor. The request must include a statement of and justification for the present or future railroad use. Upon receipt of a request, the commissioner shall temporarily reserve the land identified in the request for railroad purposes and delay disposal or lease of that land under other laws to a party other than the corporation. The temporary reservation of land is subject to valid existing rights and remains in effect for 180 days.

Sec. 42.40.370. CONVEYANCE OF LAND. (a) Within 90 days after receiving a request under AS 42.40.360(b) the commissioner of natural resources shall by written decision

(1) designate the identified land for railroad purposes and, subject to valid existing rights, convey the state's interests in the land to the corporation;

(2) notify the corporation of reasons for refusal to designate the identified land for railroad purposes; or

(3) approve in part and deny in part the request for designation of the identified land and convey as appropriate.

(b) In the absence of a reservation to the contrary, a conveyance of land under this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract or use timber and other construction materials, sand, gravel, rock, and the right to tunnel, ditch, recontour, excavate, or otherwise use the land for railroad, transportation, transmission, or communication services without regard to the classification of the resources as part of the surface or subsurface estate.

(c) The corporation may reconvey to the state land received under this section or under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

Sec. 42.40.380. USE OF STATE LAND. When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state land adjacent to or in the vicinity of the existing right-of-way and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the

relocation with the concurrence of the Department of Natural Resources. The relocation must affect only the amount of state land necessary to adequately restore or continue safe rail operations at a normal level.

Sec. 42.40.390. EMINENT DOMAIN. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land for railroad purposes consistent with this chapter. The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple title is necessary to carry out the purposes of this chapter.

(b) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(c) The power of eminent domain conferred under this section includes the power to obtain clay, gravel, sand, timber, rock, or other material for railroad use, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.400. VACATION OF LAND. The corporation may vacate land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing the deed the state shall acquire title to the land.

Sec. 42.40.410. FEDERAL LAND. The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of federal land available under federal law that will enhance the operations of the corporation. The corporation may receive in its own name conveyances of all interests in federal land.

Sec. 42.40.420. MUNICIPAL RIGHTS-OF-WAY. Upon request of a municipality the corporation may grant to the municipality a right-of-way in a railroad utility corridor or in rail land to be used for a pedestrian walkway or trail. Before granting a right-of-way under

this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the right-of-way including

(A) defending the corporation in a cause of action brought against the corporation as a result of the use; and

(B) indemnifying the corporation for the amount of a judgment rendered against the corporation including prejudgment interest, costs, and attorney's fees; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities.

Sec. 42.40.430. ACQUISITION OF GOVERNMENT PROPERTY. The corporation, as an instrumentality of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq. (Surplus Property Act of 1944), 40 U.S.C. 471 et seq. (Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes. The corporation may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.440. USE OF PESTICIDES AND HERBICIDES. Vegetation control involving the use of pesticides or herbicides on land owned or managed by the corporation may be conducted only in compliance with state requirements applicable to other state pesticide or herbicide use.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or

revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.510. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for board members and each officer of the corporation responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.520. INSURANCE. The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims against the corporation or state for bodily injury, death or disability and property damage that may arise from or be related to corporation operations and activities.

Sec. 42.40.530. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes in accordance with 45 U.S.C. 1207-(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.540. APPROPRIATIONS. The corporation may request, with the concurrence of the governo a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter.

ARTICLE 7. BONDS AND NOTES.

Sec. 42.40.600. GENERAL PROVISIONS. (a) The corporation by resolution may issue bonds and notes to provide money to carry out its purposes.

(b) Bonds and notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or

within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(c) Bonds and notes may be sold in the manner, on the terms, and at the price the board determines. Notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

Sec. 42.40.610. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.620. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of

bonds or notes of the state is authorized by law.

Sec. 42.40.630. PAYMENT OF BONDS AND NOTES. The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal, state, or municipal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

Sec. 42.40.640. SECURITY FOR BONDS. In the discretion of the board, an issue of bonds may be secured by a trust indenture, which may be a trust company, bank or national banking association, with corporate trust powers, located inside or outside the state, or by a secured loan agreement or other instrument or under resolution giving powers to a corporate trustee by means of which the corporation may

(1) make and enter into any and all the covenants and agreements with the trustees or the holders of the bonds that the corporation may determine to be necessary or desirable, including covenants, provisions, limitations and agreements as to

(A) the application, investment, deposit, use and disposition of the proceeds of bonds of the corporation or of money or other property of the corporation or in which it has an interest;

(B) the fixing and collection of rentals, charges, fees or other consideration for, and the other terms to be incorporated in, contracts with respect to the use of any of the corporation's property;

(C) the fixing and collection of tariffs, fees, charges or other consideration for the use or service of the Alaska Railroad by passengers, and other users and freight;

(D) the terms and conditions upon which additional bonds of the corporation may be issued;

(E) the vesting in the trustee of rights and remedies exercisable by the trustee for the protection of the holders of bonds of the corporation and not otherwise in violation of law and the restriction of the rights of an individual holder of bonds of the corporation;

(2) pledge, mortgage or assign money, leases, agreements, property, or other assets of the corporation either presently in hand or to be received in the future, or both; and

(3) provide for any other matters of like or different character that in any way affect the security or protection of the bonds.

Sec. 42.40.650. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private or public sale of bonds or notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.660. VALIDITY OF SIGNATURES. If an officer of the corporation whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.670. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all

parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the issuance of the bonds or notes.

Sec. 42.40.680. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.690. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.700. LIMITATION ON PERSONAL LIABILITY. A board member or employee of the corporation is not subject to personal liability or accountability because of the execution or issuance of bonds or notes.

ARTICLE 3. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.710 CORPORATION EMPLOYEES. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.720. COLLECTIVE BARGAINING RIGHTS. The provisions of AS 23.40.070 - 23.40.260 do not apply to the corporation or to its employees. However, employees who are not executive officers may organize and form, join, or assist an organization to engage in collective bargaining through representatives of their own choosing and engage in concerted activities for the purpose of collective bargaining or other mutual aid or protection.

Sec. 42.40.730. RAILROAD LABOR RELATIONS AGENCY. (a) There is established a railroad labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall carry out the provisions of AS 42.40.710 - 42.40.890.

(c) Members of the railroad labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.740. COLLECTIVE BARGAINING UNIT. The railroad labor

relations agency shall decide in each case, in order to ensure employees the fullest freedom in exercising the rights guaranteed by AS 42.-40.710 - 42.40.890 the unit appropriate for the purposes of collective bargaining, based on such factors as community of interest, wages, hours and other working conditions of the employees involved, the history of collective bargaining, and the desires of the employees. Bargaining units shall be as large as is reasonable, and unnecessary fragmenting shall be avoided.

Sec. 42.40.750. REPRESENTATIVES AND ELECTIONS. (a) The railroad labor relations agency shall investigate a petition if it is submitted in a manner prescribed by the labor relations agency by

(1) an employee or group of employees or an organization acting in their behalf alleging that 30 percent or the employees of a proposed bargaining unit

(A) want to be represented for collective bargaining by a labor or employee organization as exclusive representative; or

(B) assert that the organization that has been certified or is currently being recognized by the corporation as bargaining representative is no longer the representative of the majority of employees in an appropriate unit; or

(2) the corporation alleging that one or more organizations have presented to it a claim to be recognized as a representative of a majority of employees in an appropriate unit.

(b) If the railroad labor relations agency has reasonable cause to believe that a question of representation exists, it shall provide for a hearing upon due notice. If the railroad labor relations agency finds that there is a question of representation, it shall direct an election by secret ballot to determine whether or by which

organization the employees desire to be represented and shall certify the results of the election. Nothing in this subsection prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the regulations of the railroad labor relations agency or an election in a bargaining unit agreed upon by the parties.

(c) The railroad labor relations agency shall determine who is eligible to vote in an election held under this section and shall establish rules governing the election. In an election in which none of the choices on the ballot receives a majority of the votes cast, a runoff election shall be conducted, the ballot providing for selection between the two choices receiving the largest number of valid votes cast in the election. If an organization receives the majority of the votes case in the election it shall be certified by the railroad labor relations agency as exclusive representative of all the employees in the bargaining unit. An election may not be held in a bargaining unit or in a subdivision of a bargaining unit if a valid election has been held within the preceding 12 months.

(d) Nothing in this chapter prohibits recognition of an organization as the exclusive representative by the corporation by mutual consent.

(e) An election may not be directed by the railroad labor relations agency in a bargaining unit in which there is in force a valid collective bargaining agreement, except during a 90-day period preceding the expiration date. However, no collective bargaining agreement may bar an election upon petition of employees in the bargaining unit but not parties to the agreement if more than three years have elapsed since the execution of the agreement or the last timely renewal, whichever was later.

Sec. 42.40.760. UNFAIR LABOR PRACTICES. (a) The corporation or its agent may not

(1) interfere, restrain, or coerce an employee in the exercise of the rights guaranteed in AS 42.40.720;

(2) dominate or interfere with the formation, existence, or administration of an organization;

(3) discriminate in regard to hire or tenure of employment or a term or condition of employment to encourage or discourage membership in an organization;

(4) discharge or discriminate against an employee because the employee has signed or filed an affidavit, petition or complaint or given testimony under AS 42.40.710 - 42.40.890;

(5) refuse to bargain collectively in good faith with an organization that is the exclusive representative of employees in an appropriate unit, including the discussing of grievances with the exclusive representative.

(b) Nothing in AS 42.40.710 - 42.40.890 prohibits the corporation from making an agreement with an organization to require as a condition of employment

(1) membership in the organization that represents the unit on or after the 30th day following the beginning of employment or on the effective date of the agreement, whichever is later; or

(2) payment by the employee to the exclusive bargaining agent of a service fee to reimburse the exclusive bargaining agency for the expense of representing the members of the bargaining unit.

(c) An organization or its agents may not

(1) restrain or coerce

(A) an employee in the exercise of the rights guaranteed in AS 42.40.720; or

(B) the corporation in the selection of a representative for the purposes of collective bargaining or the adjustment of grievances;

(2) refuse to bargain collectively in good faith with the corporation, if it has been designated in accordance with AS 42.40.710 - 42.40.890 as the exclusive representative of employees in an appropriate unit.

Sec. 42.40.770. INVESTIGATION AND CONCILIATION OF COMPLAINTS. If a verified written complaint by or for a person claiming to be aggrieved by a practice prohibited by AS 42.40.760 or a written accusation that a person subject to AS 42.40.710 - 42.40.890 has engaged in a prohibited practice, is filed with the railroad labor relations agency, it shall investigate the complaint or accusation. If it determines after a preliminary investigation that probable cause exists in support of the complaint or accusation, it shall try to eliminate the prohibited practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during this endeavor may be used as evidence in a subsequent proceeding.

Sec. 42.40.780. COMPLAINT AND ACCUSATION. If the railroad labor relations agency fails to eliminate the prohibited practice by conciliation and to obtain voluntary compliance with AS 42.40.710 - 42.40.890 or before it attempts conciliation, it may serve a copy of the complaint or accusation upon the respondent. The complaint or accusation and the subsequent procedures shall be handled in accordance with the administrative adjudication portion of the Administrative Procedure Act (AS 44.62).

Sec. 42.40.790. ORDERS AND DECISIONS. If the railroad labor relations agency finds that a person named in the written complaint or accusation has engaged in a prohibited practice, the railroad labor

relations agency shall issue and serve on the person an order or decision requiring the person to cease and desist from the probibited practice and to take affirmative action that will carry out the provisions of AS 42.40.710 - 42.40.890. If the railroad labor relations agency finds that a person named in the complaint or accusation has not engaged or is not engaging in a prohibited practice, the railroad labor relations agency shall state its findings of fact and issue an order dismissing the complaint or accusation.

Sec. 42.40.800. ENFORCEMENT BY INJUNCTION. The railroad labor relations agency may apply to the superior court in the judicial district in which the prohibited practice occurred or an order enjoining the prohibited acts specified in the order or decision of the railroad labor relations agency. Upon showing by the railroad labor relations agency that the person has engaged or is about to engage in the practice, an injunction, restraining order, or other order that is appropriate may be granted by the court and shall be without bond.

Sec. 42.40.810. POWER TO INVESTIGATE AND COMPEL TESTIMONY. (a) For the purpose of the investigations, proceedings, or hearings that the railroad labor relations agency considers necessary to carry out AS 42.40.710 - 42.40.890, the railroad labor relations agency may issue subpoenas requiring the attendance and testimony of witnesses and the production of relevant evidence.

(b) The railroad labor relations agency may administer oaths, examine witnesses, and receive evidence.

(c) The attendance of witnesses and the production of evidence may be required from any place in the state at any designated place of hearing.

(d) If a person refuses to obey a subpoena issued under

AS 42.40.710 - 42.40.890, the superior court in the district in which the person resides or is found may, upon application by the railroad labor relations agency, issue an order requiring the person to comply with the subpoena.

Sec. 42.40.820. REGULATIONS. The railroad labor relations agency shall adopt regulations under the Administrative Procedure Act (AS 44.62) to carry out AS 42.40.710 - 42.40.890.

Sec. 42.40.830. PENALTY FOR VIOLATION OF ORDER OR DECISION. A person who violates a provision of an order or decision of the railroad labor relations agency is guilty of a misdemeanor and is punishable by a fine of not more than $500.

Sec. 42.40.840. MEDIATION. (a) If, after a reasonable period of negotiation over the terms of a collective bargaining agreement, an impasse as determined by the railroad labor relations agency exists between the corporation and an organization, the railroad labor relations agency shall appoint a person mutually agreeable to the parties from a list of seven qualified mediators/arbitrators knowledgeable in railway labor agreements to act as mediator in the dispute.

(b) Before the determination of an impasse under this section, the parties may also select a mediator by agreement or mutual consent.

(c) It shall be the function of the mediator to bring the parties together to effectuate a settlement of the dispute, but neither the mediator nor the railroad labor relations agency has any power of compulsion in mediation proceedings.

Sec. 42.40.850. STRIKES. (a) Following a decision by the mediator to end the mediation proceedings, employees of a collective bargaining unit may engage in a strike for a limited time if a majority of the employees in that collective bargaining unit vote by

secret ballot to do so. The limit of the strike is determined by the interest of the health, safety, or welfare of the public.

(b) The corporation may apply to the superior court in the judicial district in which the strike is occuring for an order enjoining the strike. A strike may not be enjoined unless it can be shown that it has begun to threaten, or is about to threaten, the health, safety, or welfare of the public. A court, in deciding whether to enjoin the strike, shall consider the total equities in the particular case, including the impact of a strike on the public and the extent to which an employee organization and the corporation have met their statutory obligations.

(c) If an impasse or deadlock still exists after the issuance of an injunction, the parties shall submit the dispute to binding arbitration. The arbitrator shall be the same person selected under AS 42.40.340 and shall fashion the award considered equitable.

(d) Notwithstanding the provisions of (a) - (c) of this section, the parties to the dispute may mutually agree to submit the dispute to binding arbitration at any time.

Sec. 42.40.360. AGREEMENTS. (a) The Department of Administration may participate in labor negotiations between the corporation and an organization. The corporation shall seek advice of the Department of Administration before entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employement. However, the final decision regarding collective bargaining agreements, shall be made by the board.

(b) Upon the completion of negotiations between an organization and the corporation, if a settlement is reached, the corporation shall reduce it to writing in the form of an agreement. The agreement shall include a grievance procedure that shall have binding arbitration as

its final step. Either party to the agreement has a right of action to enforce the agreement by petition to the railroad labor relations agency.

(c) The parties to an agreement under this section may agree to terms that specify an expiration date for the agreement.

Sec. 42.40.870. ORGANIZATION DUES AND EMPLOYEE BENEFITS, DEDUCTION AND AUTHORIZATION. Upon written authorization of an employee within a bargaining unit, the corporation shall deduct from the payroll of the employee the monthly amount of dues, fees, and other employee benefits as certified by the secretary of the exclusive bargaining representative and shall deliver it to the chief fiscal officer of the exclusive bargaining representative.

Sec. 42.40.880. EXEMPTION. Notwithstanding the provisions of AS 42.40.870, a collective bargaining settlement reached, or agreement entered into, under AS 42.40.860 that incorporates union security provisions, including a union shop or agency shop provision or agreement, shall safeguard the rights of nonassociation of employees having bona fide religious convictions based on tenets or teachings of a church or religious body of which an employee is a member. Upon submission of proper proof of religious conviction to the railroad labor relations agency, the agency shall declare the employee exempt from becoming a member of an organization. The employee shall pay an amount of money equivalent to regular organization dues, initiation fees, and assessments to the organization. Nonpayment of this money subjects the employee to the same penalty as if it were nonpayment of dues. The receiving organization shall contribute an equivalent amount of money to a charity of its choice not affiliated with a religious, labor, or employee organization. The organization shall submit to the railroad labor relations agency proof of contribution.

Sec. 42.40.890. DEFINITIONS. In AS 42.40.710 - 42.40.890

(1) "collective bargaining" means the performance of the mutual obligation of the corporation or its designated representatives and the representatives of the employees to meet at reasonable times, including meetings in advance of the budget making process, and negotiating in good faith with respect to wages, hours, and other terms and conditions of employment, or the negotiation of an agreement, or negotiation of a question arising under an agreement and the execution of a written contract incorporating an agreement reached if requested by either party, but these obligations do not compel either party to agree to a proposal or require the making of a concession;

(2) "election" means a proceeding conducted by the labor relations agency in which the employees in a collective bargaining unit cast a secret ballot for collective bargaining representatives, or for any other purpose specified in AS 42.40.710 - 42.40.890;

(3) "organization" means a labor or employee organization of any kind in which employees participate and that exists for the primary purpose of dealing with the corporation concerning grievances, labor disputes, wages, rates of pay, hours of employment and conditions of employment.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the

corporation and its board members and employees enjoy the same rights, privileges, and immunities as the state and state officers under AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(c) Claims against the corporation are not subject to the provisions of AS 44.77 regarding claims against the state.

(d) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.910. EXEMPTION FROM TAXATION. (a) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Subject to (b) of this section, the real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

(c) This section does not affect or limit an exemption from license fees, property taxes, excise taxes, income taxes, or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

Sec. 42.40.920. APPLICATION OF EXISTING LAWS. (a) The corporation is not subject to the jurisdiction of the Alaska Transportation

Commission.

(b) Unless specifically provided otherwise in this chapter, the following laws do not apply to the operations of the corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 38;

(11) AS 44.62.040 - 44.62.320.

Sec. 42.40.930. CONFLICTING LAWS INAPPLICABLE. If provisions of this chapter conflict with the provisions of other state law, the provisions of this chapter prevail. Provisions of this chapter shall be construed so that they do not conflict with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.940. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

Sec. 42.40.980. DEFINITIONS. In this chapter, unless the context otherwise requires,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the transfer documents under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the corporation including executive officers;

(5) "executive officer" means the corporation's chief executive officer, an employee who fulfills management functions and is so designated by the board, and employees occupying the following positions on the date of transfer: general manager, assistant general manager, assistant to the general manager, chief of administration, and general counsel;

(6) "land" means any interest in real property, including tide and submerged land.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.910. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state [WITHIN THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT]. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

* Sec. 4. AS 42.40.020(a) is amended to read:

(a) The powers of the corporation are vested in the board of directors. The board consists of [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT,] the chief executive officer of the corporation, and <u>eight</u> [SEVEN] members appointed by the governor. At least <u>six</u> [FIVE] of the <u>eight</u> [SEVEN] appointed members must be registered voters in the state. No more than two appointed members may be from any one of the four judicial districts in the state. The appointed members must have substantial experience or professional training and

expertise in fields relevant to the purposes of this chapter, including transportation, business, and finance. Except for [THE COMMISSIONER,] the chief executive officer [,] and the member appointed under (d) of this section, a member may not be a state officer or employee.

* Sec. 5. AS 42.40.020(c) is amended to read:

(c) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

* Sec. 6. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. (a) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, members of the board serve for staggered terms of five years each [AT THE PLEASURE OF THE GOVERNOR].

* Sec. 7. AS 42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) conviction of a felony; or

(4) any conduct that was intended to harm the corporation, even if it does not constitute a crime.

* Sec. 8. AS 42.40.040(a) is amended to read:

(a) Except for the [COMMISSIONER OF COMMERCE AND ECONOMIC

DEVELOPMENT AND T[E] chief executive officer, a vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

* Sec. 9. SPECIAL REPORT. The corporation shall prepare a report for the governor and the legislature on the long-term operations of the Alaska Railroad that are in the best interest of the state. The report shall be submitted by January 1, 1988. It shall contain specific recommendations on operational alternatives and the transfer of all or part of the railroad's operation's is to the private sector.

* Sec. 10. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation are as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 11. COLLECTIVE BARGAINING AGREEMENTS. (a) As soon as practicable after establishment of the Alaska Railroad Corporation and before transfer of the Alaska Railroad to the state, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees on the date of transfer of the railroad. The collective bargaining agreements adopted under this section between the corporation and its employees shall remain in effect to the extent required under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

(b) The board of directors of the Alaska Railroad Corporation shall

on or before the date of transfer of the Alaska Railroad to the state adopt personnel rules necessary to prevent an interruption of services of the railroad.

(c) Subject to 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982), within 180 days after the first meeting of the board of directors of the Alaska Railroad Corporation, the board and representatives of employee bargaining units shall establish procedures for the renegotiation of collective bargaining agreements adopted under (a) of this section. The board shall renegotiate all agreements adopted under (a) of this section within two years after the date of transfer of the Alaska Railroad to the state unless the parties agree to the contrary.

* Sec. 12. Sections 3 - 8 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 13. Sections 1, 2, and 9 - 11 of this Act take effect immediately in accordance with AS 01.10.070(c).

IN THE HOUSE BY THE TRANSPORTATION COMMITTEE

CS FOR HOUSE BILL NO. 512 (Transportation)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) it is the policy of the state to

(A) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state;

(B) foster and promote the long-term economic growth and development of the state;

(C) develop and implement plans for a transportation network;

(D) foster and promote the development of the state's land and natural resources;

(2) the Alaska Railroad is an essential part of the state transportation network that may, unless preserved by state action, cease to be a transportation option in Alaska;

(3) the federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence;

(4) it is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government; and

(5) there is vast potential in Alaska's natural resource areas

and extension of the Alaska Railroad into natural resource areas is necessary for long-term economic growth.

(b) It is the purpose of this Act to

(1) create a viable economic entity with the powers and duties necessary to operate and manage the Alaska Railroad pending eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(2) provide for the level of service that best satisfies the needs of the people of the state;

(3) create a public corporation with the powers, duties, and functions needed to operate the Alaska Railroad and manage its rail, industrial, port and other properties in the best interest of the people of the state by ensuring that the corporation will

(A) be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad rather than the state;

(B) operate the railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(C) have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) generally carry out its responsibilities on a self-sustaining basis;

(E) provide the best possible combination of types and levels of safe, efficient, and economical transportation to meet the overall needs of the state, supported when necessary by state investment;

(F) provide for the prudent operation of the railroad

according to sound business management practices;

(4) ensure that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state within the Department of Commerce and Economic Development. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of the commissioner of commerce and economic development, the chief executive officer of the corporation, and seven members appointed by the governor. At least five of the seven appointed members must be registered voters in the state. No more than two appointed members may be from any one of the four judicial districts in the state. The appointed members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including transportation, business, and finance. Except for the commissioner, the chief executive officer, and the member appointed under (d) of this section, a member may not be a state officer or employee.

(b) One member of the board may be a person who has at least 10 years of experience in railroad management.

(c) One member of the board may be or have been an executive

official of a United States railroad that is not now and never was a connecting carrier of the Alaska Railroad.

(d) One member shall be an employee who is a member of a bargaining unit representing employees of the corporation.

(e) Except for the commissioner of commerce and economic development and the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

Sec. 42.40.030. TERM OF OFFICE. Except for the commissioner of commerce and economic development and the chief executive officer of the corporation, members of the board serve for staggered terms of five years each at the pleasure of the governor.

Sec. 42.40.040. VACANCIES. (a) Except for the commissioner of commerce and economic development and the chief executive officer, a vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member of the board whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $400 for each day the member is engaged in the actual performance of duties as

a member of the board. The board may provide by rule for compensation for partial days during which an appointed member is engaged in actual performance of duties as a member of the board.

(b) In addition to compensation under (a) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Sec. 42.40.060. BOARD OFFICERS. (a) The board shall elect from its membership a chairman and vice-chairman and prescribe their duties by rule.

(b) The board shall appoint a secretary and prescribe the duties of the secretary.

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. MANAGEMENT BY THE BOARD. The board is responsible for the management of the corporation but shall delegate certain powers and duties to the chief executive officer in accordance with AS 42.40.120. In managing the corporation the board shall

(1) be responsible for the management of the financial and legal obligations of the Alaska Railroad;

(2) operate the Alaska Railroad as a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission consistent with 45 U.S.C. 1207;

(3) generally manage the corporation on a self-sustaining basis;

(4) provide for safe, efficient, and economical transportation to meet the overall needs of the state;

(5) raise needed capital by issuing obligations of the corporation while ensuring that borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity;

(6) review state and other land disposal proposals to aid

in planning for future development or expansion of transportation services;

(7) ensure that the accounting and procurement procedures of the corporation meet accepted railroad industry standards.

Sec. 42.40.110. EXECUTIVE OFFICERS. (a) The board shall appoint the chief executive officer of the corporation who serves at the pleasure of the board. The board shall fix compensation for the chief executive officer.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Sec. 42.40.120. DELEGATION. (a) The board shall by rule delegate to the chief executive officer powers and duties necessary or appropriate for the management of the daily affairs and operations of the corporation.

(b) Within 60 days after its first meeting, the board shall by rule delegate the following powers and duties of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests in property;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels;

(4) establishing procurement and accounting procedures for the corporation; and

(5) performing procurement activities.

(c) The board may by rule require the exercise of a power or

duty delegated under (a) or (b) of this section to be subject to board approval. Specific board approval is required for the following:

(1) except for executing a release of a mortgage or other lien after payment is received, conveying the corporation's entire interest in land;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging corporation assets;

(4) donating property or other assets belonging to the corporation;

(5) acting as a surety or guarantor;

(6) adopting a long-range program or capital improvement plan;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

(9) diversifying, expanding, or reducing services provided on the date of transfer, except as authorized in a major way under this chapter;

(10) expanding the main or branch rail lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer;

(11) selecting independent auditors and accountants;

(12) exercising the power of eminent domain;

(13) entering into collective bargaining agreements;

(14) adopting annual budgets; and

(15) beginning capital projects with an estimated completion cost of more than $500,000 or an estimated completion time of more than one year.

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.150. MEETINGS OF THE BOARD. (a) The chairman of the board shall call meetings of the board at least once every three months and may call other meetings of the board as necessary. The chairman shall preside at meetings.

(b) Except for executive sessions, the meetings of the board are public. The board shall provide by rule for a method of providing notice to the public of its meetings.

(c) The board shall keep minutes of each meeting and shall send a certified copy of the public portion of each meeting to the governor and the legislature.

Sec. 42.40.160. QUORUM AND VOTING. (a) Five members of the board constitutes a quorum for the transaction of business.

(b) Five affirmative votes are required for board action. The board shall provide by rule for the manner of voting, except that the board may not provide for voting by proxy. The rules may provide for voting and conferring by telecommunication devices.

Sec. 42.40.170. EXECUTIVE SESSIONS. The board may consider in an executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary or other information of a type treated as confidential under the standards and practices of the United States Interstate Commerce Commission, including practices that protect information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.180. RULES. (a) The board may adopt rules

(1) governing the business of the corporation; and

(2) designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services.

(b) Within 90 days after its first meeting, the board shall establish a procedure for adopting, amending, and repealing rules to carry out the functions and the purposes of this chapter. The procedures shall provide for advance public notice and opportunity for public comment on proposed rules or changes to rules that, in the determination of the board, will have a substantial impact on the public or be used in the corporation's dealings with a significant segment of the public.

(c) The board shall establish a procedure for the adoption, amendment, or repeal of a rule on an emergency basis when essential for the orderly operation of the corporation's facilities or programs.

Sec. 42.40.190. PREVIOUSLY ADOPTED RULES AND ORDERS. The board may provide by resolution that rules and orders in effect on the date of transfer that are not inconsistent with this chapter or other state law remain in effect until amended or repealed by the board. The board may adopt the substance of former federal rules or orders relating to the Alaska Railroad and this may not be considered a continuation of the federal rules or orders if adopted by the board in accordance with procedural requirements of this chapter or other law.

Sec. 42.40.200. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) The corporation may by rule designate as confidential and withhold public disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of legal counsel, and, consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, other information

including proprietary information associated with specific shippers, divisions and contract rate agreements.

Sec. 42.40.210. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or executive officer of the corporation may not participate in a decision of the corporation in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section.

(b) A board member or executive officer may participate in a decision if that person or a member of that person's immediate family has only a remote interest, the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or in the decision, and thereafter in a public meeting the board by vote authorizes or approves the participation. If the person whose participation is under consideration is a board member, that person may not vote under this subsection. For purposes of this subsection, "remote interest" means an interest that in good faith is defined as remote by rules adopted by the corporation.

(c) A board member or executive officer is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

(d) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules implementing this section, providing additional conflict of interest and ethical rules it considers appropriate, and providing for the removal by the board of a board member or executive officer who intentionally violates a

prohibition contained in this section.

(e) For purposes of this section "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.250. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, personal property, rights, rights-of-way, franchises, easements, and other interest in land, and acquire by appropriation water rights that are located in the state, taking title to the property in the name of the corporation;

(8) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer land or personal property, subject to other provisions of this chapter;

(9) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to other provisions of federal or

state law or municipal ordinances;

(10) undertake and provide for the management, operation, maintenance, use, and control of all of the property of the corporation, including tracks, equipment and other property transferred to the corporation by the federal government or any person;

(11) recommend to the legislature and the governor any tax, financing, or financial arrangement the corporation considers appropriate to carry out the duties under this chapter;

(12) maintain offices and facilities at places it designates;

(13) apply to the state, the United States, and foreign countries or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and obtain, hold, and reuse the licenses and permits in the same manner as other railroad operators;

(14) prescribe rates to be charged for services provided by the Alaska Railroad consistent with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(15) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(16) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, property, and facilities of the railroad, including agreements that contain provisions to preserve and expand the railroad's traffic base;

(17) plan for and undertake expansion of the railroad and railroad activities, including extension of the rail system, and contract with other modes of transportation service connecting to the rail system;

(18) hire and discharge railroad personnel and determine benefits and other terms of employment, in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(19) assume and satisfy liabilities of the United States in accordance with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(20) maintain or provide for a security force to enforce state law and the corporation's rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(21) issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and hold or dispose of them;

(22) purchase the corporation's bonds at a price not more than the principal amount of them plus interest;

(23) cancel bonds of the corporation purchased by the corporation;

(24) secure the payment of its obligations by pledge, mortgage, or other lien on its contracts, revenues, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) borrow money, including the amounts necessary to establish reasonable reserves, and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates other money will be available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(27) acquire, hold, and dispose of stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture, or other legal entity, and exercise the powers or rights in connection with these interests that are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(28) undertake and provide for the acquisition, construction, maintenance, equipping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(29) do all things necessary or desirable to carry out the powers and duties of the corporation granted or necessarily implied in this chapter or other laws of the state or the laws or regulations of the federal government.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the Alaska Railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year. The report may include suggestions for legislation relating to the structure, powers or duties of the corporation or to operation facilities of the corporation. The report shall itemize the cost of providing each category of service offered by the railroad and the income generated by each category.

Sec. 42.40.270. AUDITS. (a) The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The board shall have an annual performance audit conducted by a qualified professional performance auditing firm to assure that the railroad is

being managed and operated effectively and efficiently in accordance with the requirements of this chapter.

(b) The corporation shall make all of its financial records available to an auditor appointed by the governor and to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.200 and rules implementing that section.

Sec. 42.40.280. STATE OVERSIGHT REPORTS. (a) The board shall provide a state oversight report to the governor and the legislature before undertaking

(1) expansion, reduction, or diversification of services provided by the railroad upon the date of transfer or as provided under this chapter that the board determines would represent a significant and permanent change in the level and nature of services provided;

(2) extension of the main or branch lines by more than 25 miles or five percent of the railroad's total track mileage, whichever is greater; or

(3) the issuance of securities, notes, bonds or contracts with a term in excess of one year and in an amount exceeding $5,000,000;

(4) an application for an appropriation to be used for providing any service that is not self-sustaining.

(b) The report under (a) of this section shall be in writing, describe the proposed undertaking in detail, and specify

(1) its financial impact on the corporation;

(2) its impact on the level and nature of services provided by the corporation;

(3) the reasons the action is necessary or desirable to

achieve the purposes of this chapter; and

(4) whether and when the undertaking is expected to be self-sustaining financially.

Sec. 42.40.290. LONG RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long range program plan and a capital improvement plan. The board shall consult with affected state agencies in preparing the plans. The long range program plan shall explain the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted and shall reflect efforts to upgrade the railroad and develop safer, more cost-effective rail operations.

(b) The board shall annually review and update the long range program and capital improvement plans. The board shall provide copies of the updated plans to the governor and the legislature by December 1 of each year.

Sec. 42.40.300. USE OF CORPORATION ASSETS. The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for a purpose not authorized by law by a person having the possession or control of it is prohibited.

Sec. 42.40.310. INDEMNIFICATION. (a) The corporation may defend and indemnify a current or former member of the board,

employee, or agent of the corporation against all costs, expenses, judgments, and liabilities, including attorney's fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers.

(b) The corporation may purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold them harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding. The purchase of insurance is discretionary with the board and insurance is not considered to be compensation to the insured person.

ARTICLE 5. CORPORATION PROPERTY.

Sec. 42.40.350. LAND. (a) All land transferred under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. All land that is transferred or acquired by the corporation is designated as follows:

(1) railroad rights-of-way or easements are railroad utility corridors;

(2) land other than railroad rights-of-way or easements is rail land.

(b) Railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of lesser width if the adjoining land is not rail land, and may be surveyed by the metes and bounds method. The

corporation may not convey land within a utility corridor. Except as provided in AS 42.40.420, the corporation may lease, grant easements or permits, or otherwise authorize use of portions of a utility corridor for transportation, communication, and transmission purposes and support functions associated with those purposes if the use does not restrict other parallel uses of the utility corridor.

(c) The corporation may convey, lease, grant easements or permits, or otherwise authorize use of portions of rail land. However, sale of rail land is subject to approval by the legislature.

Sec. 42.40.360. REQUEST FOR LAND. (a) The board may nominate federal land for railroad purposes and request the commissioner of natural resources to select the land for the state through the federal land selection process.

(b) The board may identify and request the commissioner of natural resources to convey land necessary or useful for present or future railroad purposes owned by or tentatively approved for transfer to the state, including land not adjacent to a railroad utility corridor. The request must include a statement of and justification for the present or future railroad use. Upon receipt of a request, the commissioner shall temporarily reserve the land identified in the request for railroad purposes and delay disposal or lease of that land under other laws to a party other than the corporation. The temporary reservation of land is subject to valid existing rights and remains in effect for 180 days.

Sec. 42.40.370. CONVEYANCE OF LAND. (a) Within 90 days after receiving a request under AS 42.40.360(b) the commissioner of natural resources shall by written decision

(1) designate the identified land for railroad purposes and, subject to valid existing rights, convey the state's interests in

the land to the corporation;

(2) notify the corporation of reasons for refusal to designate the identified land for railroad purposes; or

(3) approve in part and deny in part the reques for designation of the identified land and convey as appropriate.

(b) In the absence of a reservation to the contrary, a conveyance of land under this section vests in the corporation ownership, control of the surface and subsurface, and the exclusive right to extract or use timber and other construction materials, sand, gravel, rock, and the right to tunnel, ditch, recontour, excavate, or otherwise use the land for railroad, transportation, transmission, or communication services without regard to the classification of the resources as part of the surface or subsurface estate.

(c) The corporation may reconvey to the state land received under this section or under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982) that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

Sec. 42.40.380. USE OF STATE LAND. When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state land adjacent to or in the vicinity of the existing right-of-way and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with the concurrence of the Department of Natural Resources. The relocation must affect only the amount of state land necessary to adequately restore or continue safe rail operations at a normal level.

Sec. 42.40.390. EMINENT DOMAIN. (a) The corporation may

exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land for railroad purposes consistent with this chapter. The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple title is necessary to carry out the purposes of this chapter.

(b) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(c) The power of eminent domain conferred under this section includes the power to obtain clay, gravel, sand, timber, rock, or other material for railroad use, the land necessary to obtain the material, and access to the land and material.

Sec. 42.40.400. VACATION OF LAND. The corporation may vacate land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing the deed the state shall acquire title to the land.

Sec. 42.40.410. FEDERAL LAND. The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of federal land available under federal law that will enhance the operations of the corporation. The corporation may receive in its own name conveyances of all interests in federal land.

Sec. 42.40.420. MUNICIPAL RIGHTS-OF-WAY. Upon request of a municipality the corporation may grant to the municipality a right-of-way in a railroad utility corridor or in rail land to be used for a pedestrian walkway or trail. Before granting a right-of-way under this section the board shall require the municipality to execute an agreement in a form approved by the board to

(1) hold the corporation harmless and indemnify the corporation for any use made of the right-of-way including

(A) defending the corporation in a cause of action

brought against the corporation as a result of the use; and

(B) indemnifying the corporation for the amount of a judgment rendered against the corporation including prejudgment interest, costs, and attorney's fees; and

(2) vacate the right-of-way upon request of the corporation if the right-of-way interferes with expansion or replacement of railroad facilities.

Sec. 42.40.430. ACQUISITION OF GOVERNMENT PROPERTY. The corporation, as an instrumentality of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq. (Surplus Property Act of 1944), 40 U.S.C. 471 et seq. (Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes. The corporation may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

Sec. 42.40.440. USE OF PESTICIDES AND HERBICIDES. Vegetation control involving the use of pesticides or herbicides on land owned or managed by the corporation may be conducted only in compliance with state requirements applicable to other state pesticide or herbicide use.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

Sec. 42.40.510. FIDELITY BOND. The corporation shall obtain a fidelity bond in an amount determined by the board for board members

and each officer of the corporation responsible for accounts and finances. A bond must be in effect during the entire tenure in office of the bonded person.

Sec. 42.40.520. INSURANCE. The corporation shall keep in force public liability insurance in an amount reasonably calculated to cover potential claims against the corporation or state for bodily injury, death or disability and property damage that may arise from or be related to corporation operations and activities.

Sec. 42.40.530. REVENUE. Revenue generated by or appropriated to the corporation shall be retained and managed by the corporation for railroad and related purposes in accordance with 45 U.S.C. 1207-(a)(5) (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.540. APPROPRIATIONS. The corporation may request, with the concurrence of the governor, a direct appropriation or grant from the legislature to assist in carrying out the provisions of this chapter.

ARTICLE 7. BONDS AND NOTES.

Sec. 42.40.600. GENERAL PROVISIONS. (a) The corporation by resolution may issue bonds and notes to provide money to carry out its purposes.

(b) Bonds and notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(c) Bonds and notes may be sold in the manner, on the terms, and at the price the board determines. Notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 50 years from their date, determined by the board.

Sec. 42.40.610. NEGOTIABLE INSTRUMENTS. Bonds and notes issued under this chapter and interest coupons attached to them are negotiable instruments under the laws of this state, subject only to applicable provisions for registration.

Sec. 42.40.620. BONDS AND NOTES ELIGIBLE FOR INVESTMENT. Bonds and notes issued under this chapter are securities in which all public officers and public bodies of the state and its political subdivisions, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. These bonds and notes may be deposited with a state or municipal officer of an agency or political subdivision of the state for any purpose for which the deposit of bonds or notes of the state is authorized by law.

Sec. 42.40.630. PAYMENT OF BONDS AND NOTES. The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal, state, or

municipal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

Sec. 42.40.640. SECURITY FOR BONDS. In the discretion of the board, an issue of bonds may be secured by a trust indenture, which may be a trust company, bank or national banking association, with corporate trust powers, located inside or outside the state, or by a secured loan agreement or other instrument or under resolution giving powers to a corporate trustee by means of which the corporation may

(1) make and enter into any and all the covenants and agreements with the trustees or the holders of the bonds that the corporation may determine to be necessary or desirable, including covenants, provisions, limitations and agreements as to

(A) the application, investment, deposit, use and disposition of the proceeds of bonds of the corporation or of money or other property of the corporation or in which it has an interest;

(B) the fixing and collection of rentals, charges, fees or other consideration for, and the other terms to be incorporated in, contracts with respect to the use of any of the corporation's property;

(C) the fixing and collection of tariffs, fees, charges or other consideration for the use or service of the Alaska Railroad by passengers, and other users and freight;

(D) the terms and conditions upon which additional bonds of the corporation may be issued;

(E) the vesting in the trustee of rights and remedies exercisable by the trustee for the protection of the holders of bonds of the corporation and not otherwise in violation of law

and the restriction of the rights of an individual holder of bonds of the corporation;

(2) pledge, mortgage or assign money, leases, agreements, property, or other assets of the corporation either presently in hand or to be received in the future, or both; and

(3) provide for any other matters of like or different character that in any way affect the security or protection of the bonds.

Sec. 42.40.650. INDEPENDENT FINANCIAL ADVISOR. In negotiating the private or public sale of bonds or notes to an underwriter, the board shall retain a financial advisor who is independent from the underwriter.

Sec. 42.40.660. VALIDITY OF SIGNATURES. If an officer of the corporation whose signature or a facsimile of whose signature appears on bonds, notes, or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid the same as if the person had remained in office until delivery.

Sec. 42.40.670. VALIDITY OF PLEDGE. (a) The pledge of assets or revenue of the corporation to the payment of the principal or interest on bonds or notes of the corporation is valid and binding from the time the pledge is made and the assets or revenue are immediately subject to the lien of the pledge without physical delivery or further act. The lien of a pledge is valid and binding against all parties having claims of any kind against the corporation, irrespective of whether those parties have notice of the lien of the pledge.

(b) Nothing in this section prohibits the corporation from selling assets subject to a pledge, except that a sale may be restricted by the trust agreement or resolution providing for the

issuance of the bonds or notes.

Sec. 42.40.680. REMEDIES. A holder of bonds or notes issued under this chapter or of coupons attached to them, and a trustee under a trust agreement or resolution authorizing the issuance of the bonds or notes, except as restricted by a trust agreement or resolution, either at law or in equity, may

(1) enforce all rights granted under this chapter, the trust agreement or resolution, or any other contract executed by the corporation under this chapter; and

(2) compel the performance of all duties of the corporation required by this chapter or by the trust agreement or resolution.

Sec. 42.40.690. CREDIT OF STATE NOT PLEDGED. (a) The state and its political subdivisions are not liable for the debts of the corporation. Bonds and notes issued under this chapter are payable solely from the revenue or assets of the corporation and do not constitute a

(1) debt, liability, or obligation of the state or of a political subdivision of the state; or

(2) pledge of the faith and credit of the state or of a political subdivision of the state.

(b) The corporation may not pledge the credit or the taxing power of the state or its political subdivisions. Each bond and note issued under this chapter shall contain on its face a statement that

(1) the corporation is not obligated to pay it or the interest on it except from the revenue or assets pledged for it; and

(2) neither the faith and credit nor the taxing power of the state or of a political subdivision of the state is pledged to the payment of it.

Sec. 42.40.700. LIMITATION ON PERSONAL LIABILITY. A board member or employee of the corporation is not subject to personal

liability or accountability because of the execution or issuance of bonds or notes.

ARTICLE 8. PERSONNEL AND LABOR RELATIONS.

Sec. 42.40.710 CORPORATION EMPLOYEES. (a) Employees of the Alaska Railroad are employees of the corporation and not of the state. The provisions of AS 39 do not apply to employees of the corporation.

Sec. 42.40.720. COLLECTIVE BARGAINING RIGHTS. The provisions of AS 23.40.070 - 23.40.260 do not apply to the corporation or to its employees. However, employees who are not executive officers may organize and form, join, or assist an organization to engage in collective bargaining through representatives of their own choosing and engage in concerted activities for the purpose of collective bargaining or other mutual aid or protection.

Sec. 42.40.730. RAILROAD LABOR RELATIONS AGENCY. (a) There is established a railroad labor relations agency that consists of three members appointed by the governor. One member shall be a member of the state personnel board. Members serve at the pleasure of the governor.

(b) The railroad labor relations agency shall carry out the provisions of AS 42.40.710 - 42.40.890.

(c) Members of the railroad labor relations agency receive no compensation for their services, but are entitled to per diem and travel expenses authorized for boards and commissions.

Sec. 42.40.740. COLLECTIVE BARGAINING UNIT. The railroad labor relations agency shall decide in each case, in order to ensure employees the fullest freedom in exercising the rights guaranteed by AS 42.-40.710 - 42.40.890 the unit appropriate for the purposes of collective bargaining, based on such factors as community of interest, wages, hours and other working conditions of the employees involved, the

history of collective bargaining, and the desires of the employees. Bargaining units shall be as large as is reasonable, and unnecessary fragmenting shall be avoided.

Sec. 42.40.750. REPRESENTATIVES AND ELECTIONS. (a) The railroad labor relations agency shall investigate a petition if it is submitted in a manner prescribed by the labor relations agency by

(1) an employee or group of employees or an organization acting in their behalf alleging that 30 percent of the employees of a proposed bargaining unit

(A) want to be represented for collective bargaining by a labor or employee organization as exclusive representative; or

(B) assert that the organization that has been certified or is currently being recognized by the corporation as bargaining representative is no longer the representative of the majority of employees in an appropriate unit; or

(2) the corporation alleging that one or more organizations have presented to it a claim to be recognized as a representative of a majority of employees in an appropriate unit.

(b) If the railroad labor relations agency has reasonable cause to believe that a question of representation exists, it shall provide for a hearing upon due notice. If the railroad labor relations agency finds that there is a question of representation, it shall direct an election by secret ballot to determine whether or by which organization the employees desire to be represented and shall certify the results of the election. Nothing in this subsection prohibits the waiving of hearings by stipulation for the purpose of a consent election in conformity with the regulations of the railroad labor relations agency or an election in a bargaining unit agreed upon by the

parties.

(c) The railroad labor relations agency shall determine who is eligible to vote in an election held under this section and shall establish rules governing the election. In an election in which none of the choices on the ballot receives a majority of the votes cast, a runoff election shall be conducted, the ballot providing for selection between the two choices receiving the largest number of valid votes cast in the election. If an organization receives the majority of the votes case in the election it shall be certified by the railroad labor relations agency as exclusive representative of all the employees in the bargaining unit. An election may not be held in a bargaining unit or in a subdivision of a bargaining unit if a valid election has been held within the preceding 12 months.

(d) Nothing in this chapter prohibits recognition of an organization as the exclusive representative by the corporation by mutual consent.

(e) An election may not be directed by the railroad labor relations agency in a bargaining unit in which there is in force a valid collective bargaining agreement, except during a 90-day period preceding the expiration date. However, no collective bargaining agreement may bar an election upon petition of employees in the bargaining unit but not parties to the agreement if more than three years have elapsed since the execution of the agreement or the last timely renewal, whichever was later.

Sec. 42.40.760. UNFAIR LABOR PRACTICES. (a) The corporation or its agent may not

(1) interfere, restrain, or coerce an employee in the exercise of the rights guaranteed in AS 42.40.720;

(2) dominate or interfere with the formation, existence, or

administration of an organization;

(3) discriminate in regard to hire or tenure of employment or a term or condition of employment to encourage or discourage membership in an organization;

(4) discharge or discriminate against an employee because the employee has signed or filed an affidavit, petition or complaint or given testimony under AS 42.40.710 - 42.40.890;

(5) refuse to bargain collectively in good faith with an organization that is the exclusive representative of employees in an appropriate unit, including the discussing of grievances with the exclusive representative.

(b) Nothing in AS 42.40.710 - 42.40.890 prohibits the corporation from making an agreement with an organization to require as a condition of employment

(1) membership in the organization that represents the unit on or after the 30th day following the beginning of employment or on the effective date of the agreement, whichever is later; or

(2) payment by the employee to the exclusive bargaining agent of a service fee to reimburse the exclusive bargaining agency for the expense of representing the members of the bargaining unit.

(c) An organization or its agents may not

(1) restrain or coerce

(A) an employee in the exercise of the rights guaranteed in AS 42.40.720; or

(B) the corporation in the selection of a representative for the purposes of collective bargaining or the adjustment of grievances;

(2) refuse to bargain collectively in good faith with the corporation, if it has been designated in accordance with

AS 42.40.710 - 42.40.890 as the exclusive representative of employees in an appropriate unit.

Sec. 42.40.770. INVESTIGATION AND CONCILIATION OF COMPLAINTS. If a verified written complaint by or for a person claiming to be aggrieved by a practice prohibited by AS 42.40.760 or a written accusation that a person subject to AS 42.40.710 - 42.40.890 has engaged in a prohibited practice, is filed with the railroad labor relations agency, it shall investigate the complaint or accusation. If it determines after a preliminary investigation that probable cause exists in support of the complaint or accusation, it shall try to eliminate the prohibited practice by informal methods of conference, conciliation, and persuasion. Nothing said or done during this endeavor may be used as evidence in a subsequent proceeding.

Sec. 42.40.780. COMPLAINT AND ACCUSATION. If the railroad labor relations agency fails to eliminate the prohibited practice by conciliation and to obtain voluntary compliance with AS 42.40.710 - 42.40.890 or before it attempts conciliation, it may serve a copy of the complaint or accusation upon the respondent. The complaint or accusation and the subsequent procedures shall be handled in accordance with the administrative adjudication portion of the Administrative Procedure Act (AS 44.62).

Sec. 42.40.790. ORDERS AND DECISIONS. If the railroad labor relations agency finds that a person named in the written complaint or accusation has engaged in a prohibited practice, the railroad labor relations agency shall issue and serve on the person an order or decision requiring the person to cease and desist from the probibited practice and to take affirmative action that will carry out the provisions of AS 42.40.710 - 42.40 890. If the railroad labor relations agency finds that a person named in the complaint or accusation

has not engaged or is not engaging in a prohibited practice, the railroad labor relations agency shall state its findings of fact and issue an order dismissing the complaint or accusation.

Sec. 42.40.800. ENFORCEMENT BY INJUNCTION. The railroad labor relations agency may apply to the superior court in the judicial district in which the prohibited practice occurred for an order enjoining the prohibited acts specified in the order or decision of the railroad labor relations agency. Upon showing by the railroad labor relations agency that the person has engaged or is about to engage in the practice, an injunction, restraining order, or other order that is appropriate may be granted by the court and shall be without bond.

Sec. 42.40.810. POWER TO INVESTIGATE AND COMPEL TESTIMONY. (a) For the purpose of the investigations, proceedings, or hearings that the railroad labor relations agency considers necessary to carry out AS 42.40.710 - 42.40.890, the railroad labor relations agency may issue subpoenas requiring the attendance and testimony of witnesses and the production of relevant evidence.

(b) The railroad labor relations agency may administer oaths, examine witnesses, and receive evidence.

(c) The attendance of witnesses and the production of evidence may be required from any place in the state at any designated place of hearing.

(d) If a person refuses to obey a subpoena issued under AS 42.40.710 - 42.40.890, the superior court in the district in which the person resides or is found may, upon application by the railroad labor relations agency, issue an order requiring the person to comply with the subpoena.

Sec. 42.40.820. REGULATIONS. The railroad labor relations

agency shall adopt regulations under the Administrative Procedure Act (AS 44.62) to carry out AS 42.40.710 - 42.40.890.

Sec. 42.40.830. PENALTY FOR VIOLATION OF ORDER OR DECISION. A person who violates a provision of an order or decision of the railroad labor relations agency is guilty of a misdemeanor and is punishable by a fine of not more than $500.

Sec. 42.40.840. MEDIATION. (a) If, after a reasonable period of negotiation over the terms of a collective bargaining agreement, an impasse as determined by the railroad labor relations agency exists between the corporation and an organization, the railroad labor relations agency shall appoint a person mutually agreeable to the parties from a list of seven qualified mediators/arbitrators knowledgeable in railway labor agreements to act as mediator in the dispute.

(b) Before the determination of an impasse under this section, the parties may also select a mediator by agreement or mutual consent.

(c) It shall be the function of the mediator to bring the parties together to effectuate a settlement of the dispute, but neither the mediator nor the railroad labor relations agency has any power of compulsion in mediation proceedings.

Sec. 42.40.850. STRIKES. (a) Following a decision by the mediator to end the mediation proceedings, employees of a collective bargaining unit may engage in a strike for a limited time if a majority of the employees in that collective bargaining unit vote by secret ballot to do so. The limit of the strike is determined by the interest of the health, safety, or welfare of the public.

(b) The corporation may apply to the superior court in the judicial district in which the strike is occuring for an order enjoining the strike. A strike may not be enjoined unless it can be

shown that it has begun to threaten, or is about to threaten, the health, safety, or welfare of the public. A court, in deciding whether to enjoin the strike, shall consider the total equities in the particular case, including the impact of a strike on the public and the extent to which an employee organization and the corporation have met their statutory obligations.

(c) If an impasse or deadlock still exists after the issuance of an injunction, the parties shall submit the dispute to binding arbitration. The arbitrator shall be the same person selected under AS 42.40.840 and shall fashion the award considered equitable.

(d) Notwithstanding the provisions of (a) - (c) of this section, the parties to the dispute may mutually agree to submit the dispute to binding arbitration at any time.

Sec. 42.40.860. AGREEMENTS. (a) The Department of Administration may participate in labor negotiations between the corporation and an organization. The corporation shall seek advice of the Department of Administration before entering into a collective bargaining agreement concerning wages, hours, and other terms and conditions of employement. However, the final decision regarding collective bargaining agreements, shall be made by the board.

(b) Upon the completion of negotiations between an organization and the corporation, if a settlement is reached, the corporation shall reduce it to writing in the form of an agreement. The agreement shall include a grievance procedure that shall have binding arbitration as its final step. Either party to the agreement has a right of action to enforce the agreement by petition to the railroad labor relations agency.

(c) The parties to an agreement under this section may agree to terms that specify an expiration date for the agreement.

Sec. 42.40.870. ORGANIZATION DUES AND EMPLOYEE BENEFITS, DEDUCTION AND AUTHORIZATION. Upon written authorization of an employee within a bargaining unit, the corporation shall deduct from the payroll of the employee the monthly amount of dues, fees, and other employee benefits as certified by the secretary of the exclusive bargaining representative and shall deliver it to the chief fiscal officer of the exclusive bargaining representative.

Sec. 42.40.880. EXEMPTION. Notwithstanding the provisions of AS 42.40.870, a collective bargaining settlement reached, or agreement entered into, under AS 42.40.860 that incorporates union security provisions, including a union shop or agency shop provision or agreement, shall safeguard the rights of nonassociation of employees having bona fide religious convictions based on tenets or teachings of a church or religious body of which an employee is a member. Upon submission of proper proof of religious conviction to the railroad labor relations agency, the agency shall declare the employee exempt from becoming a member of an organization. The employee shall pay an amount of money equivalent to regular organization dues, initiation fees, and assessments to the organization. Nonpayment of this money subjects the employee to the same penalty as if it were nonpayment of dues. The receiving organization shall contribute an equivalent amount of money to a charity of its choice not affiliated with a religious, labor, or employee organization. The organization shall submit to the railroad labor relations agency proof of contribution.

Sec. 42.40.890. DEFINITIONS. In AS 42.40.710 - 42.40.890

(1) "collective bargaining" means the performance of the mutual obligation of the corporation or its designated representatives and the representatives of the employees to meet at reasonable times, including meetings in advance of the budget making process, and

negotiating in good faith with respect to wages, hours, and other terms and conditions of employment, or the negotiation of an agreement, or negotiation of a question arising under an agreement and the execution of a written contract incorporating an agreement reached if requested by either party, but these obligations do not compel either party to agree to a proposal or require the making of a concession;

(2) "election" means a proceeding conducted by the labor relations agency in which the employees in a collective bargaining unit cast a secret ballot for collective bargaining representatives, or for any other purpose specified in AS 42.40.710 - 42.40.890;

(3) "organization" means a labor or employee organization of any kind in which employees participate and that exists for the primary purpose of dealing with the corporation concerning grievances, labor disputes, wages, rates of pay, hours of employment and conditions of employment;

(4) "terms and conditions of employment" means the hours of employment, the compensation and fringe benefits affecting the working conditions of the employees; it does not mean the general policies describing the function and purposes of the corporation.

ARTICLE 9. GENERAL PROVISIONS.

Sec. 42.40.900. CLAIMS. (a) All claims and lawsuits involving activities of the railroad, including suits in contract, quasi-contract, or tort, shall be brought against the corporation and not against the state.

(b) For the purposes of actionable claims, undertakings, payments of judgments, execution, interest, punitive damages, statutes of limitations, bonds, costs, and similar matters related to the presentation and prosecution of claims by and against the corporation, the corporation and its board members and employees enjoy the same rights,

privileges, and immunities as the state and state officers under AS 09.10.120, AS 09.50.250 - 09.50.290, and AS 09.65.040.

(c) Claims against the corporation are not subject to the provisions of AS 44.77 regarding claims against the state.

(d) The corporation is not subject to the provisions of AS 44.-80.010, regarding the state as a party to an action.

Sec. 42.40.910. EXEMPTION FROM TAXATION. (a) The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions. Subject to (b) of this section, the real and personal property of the corporation and its assets, income, and receipts are exempt from all taxes and special assessments of the state or a political subdivision of the state.

(b) Bonds and notes issued under this chapter are issued by a body corporate and public of the state and for an essential public and governmental purpose. Therefore, the bonds and notes, the interest and income from them, and all fees, charges, funds, revenue, income and other money pledged or available to pay or secure the payment of the bonds and notes or interest on them, are exempt from taxation except for inheritance, transfer, and estate taxes.

(c) This section does not affect or limit an exemption from license fees, property taxes, excise taxes, income taxes, or other taxes, provided under any other law, nor does it create a tax exemption with respect to the interest of any business enterprise or other person, other than the corporation.

Sec. 42.40.920. APPLICATION OF EXISTING LAWS. (a) The corporation is not subject to the jurisdiction of the Alaska Transportation Commission.

(b) Unless specifically provided otherwise in this chapter, the following laws do not apply to the operations of the corporation:

(1) AS 19;

(2) AS 30.15;

(3) AS 35;

(4) AS 37.05;

(5) AS 37.07;

(6) AS 37.10.010 - 37.10.060;

(7) AS 37.10.085;

(8) AS 37.20;

(9) AS 37.25;

(10) AS 38;

(11) AS 44.62.040 - 44.62.320.

Sec. 42.40.930. CONFLICTING LAWS INAPPLICABLE. If provisions of this chapter conflict with the provisions of other state law, the provisions of this chapter prevail. Provisions of this chapter shall be construed so that they do not conflict with 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

Sec. 42.40.940. REVERSION OF ASSETS. If the corporation ceases to exist, for whatever reason, its assets revert to the state.

Sec. 42.40.980. DEFINITIONS. In this chapter, unless the context otherwise requires,

(1) "board" means the board of directors of the Alaska Railroad Corporation;

(2) "corporation" means the Alaska Railroad Corporation;

(3) "date of transfer" means the date on which the United States Secretary of Transportation delivers the transfer documents under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982);

(4) "employees" means all persons employed by the

corporation including executive officers;

(5) "executive officer" means the corporation's chief executive officer, an employee who fulfills management functions and is so designated by the board, and employees occupying the following positions on the date of transfer: general manager, assistant general manager, assistant to the general manager, chief of administration, and general counsel;

(6) "land" means any interest in real property, including tide and submerged land.

Sec. 42.40.990. SHORT TITLE. This chapter may be referred to as the Alaska Railroad Corporation Act.

* Sec. 3. AS 42.40.010 is amended to read:

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation and is an instrumentality of the state [WITHIN THE DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT]. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

* Sec. 4. AS 42.40.020(a) is amended to read:

(a) The powers of the corporation are vested in the board of directors. The board consists of [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT,] the chief executive officer of the corporation, and <u>eight</u> [SEVEN] members appointed by the governor. At least <u>six</u> [FIVE] of the <u>eight</u> [SEVEN] appointed members must be registered voters in the state. No more than two appointed members may be from any one of the four judicial districts in the state. The appointed members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter,

including transportation, business, and finance. Except for [THE COMMISSIONER,] the chief executive officer [,] and the member appointed under (d) of this section, a member may not be a state officer or employee.

* Sec. 5. AS 42.40.020(e) is amended to read:

(e) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, the members of the board shall be confirmed by a majority of the members of each house of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member until the member is rejected by the legislature.

* Sec. 6. AS 42.40.030 is amended to read:

Sec. 42.40.030. TERM OF OFFICE; REMOVAL. (a) Except for [THE COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND] the chief executive officer of the corporation, members of the board serve for staggered terms of five years each [AT THE PLEASURE OF THE GOVERNOR].

* Sec. 7. AS 42.40.030 is amended by adding a new subsection to read:

(b) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) conviction of a felony; or

(4) any conduct that was intended to harm the corporation, even if it does not constitute a crime.

* Sec. 8. AS 42.40.040(a) is amended to read:

(a) Except for the [COMMISSIONER OF COMMERCE AND ECONOMIC DEVELOPMENT AND THE] chief executive officer, a vacancy on the board

is filled by appointment by the governor, and the appointment must be confirmed by the members of each house of the legislature in joint session. A member appointed to fill a vacancy holds office for the balance of the term for which the member's predecessor was appointed.

* Sec. 9. SPECIAL REPORT. The corporation shall prepare a report for the governor and the legislature on the long-term operations of the Alaska Railroad that are in the best interest of the state. The report shall be submitted by January 1, 1988. It shall contain specific recommendations on operational alternatives and the transfer of all or part of the railroad's operation's is to the private sector.

* Sec. 10. APPOINTMENT OF FIRST BOARD OF DIRECTORS OF ALASKA RAILROAD CORPORATION. Notwithstanding AS 42.40.020 enacted in sec. 1 of this Act, the terms of the appointed members of the first board of directors of the Alaska Railroad Corporation are as follows:

(1) one shall serve a term of two years;

(2) two shall serve a term of three years;

(3) two shall serve a term of four years; and

(4) two shall serve a term of five years.

* Sec. 11. COLLECTIVE BARGAINING AGREEMENTS. (a) As soon as practicable after establishment of the Alaska Railroad Corporation and before transfer of the Alaska Railroad to the state, the Alaska Railroad Corporation and its employees shall adopt collective bargaining agreements that continue the provisions of the agreements in effect between the Alaska Railroad and its employees on the date of transfer of the railroad. The collective bargaining agreements adopted under this section between the corporation and its employees shall remain in effect to the extent required under 45 U.S.C. 1201 - 1214 (Alaska Railroad Transfer Act of 1982).

(b) The board of directors of the Alaska Railroad Corporation shall on or before the date of transfer of the Alaska Railroad to the state ad

personnel rules necessary to prevent an interruption of services of the railroad.

(c) Subject to 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982), within 180 days after the first meeting of the board of directors of the Alaska Railroad Corporation, the board and representatives of employee bargaining units shall establish procedures for the renegotiation of collective bargaining agreements adopted under (a) of this section. The board shall renegotiate all agreements adopted under (a) of this section within two years after the date of transfer of the Alaska Railroad to the state unless the parties agree to the contrary.

* Sec. 12. Sections 3 - 8 of this Act take effect on the effective date of an amendment to the Constitution of the State of Alaska relating to the Alaska Railroad.

* Sec. 13. Sections 1, 2, and 9 - 10 of this Act take effect immediately in accordance with AS 01.10.070(c).

SENATE BILL NO. 10

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act relating to the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS, POLICY, AND DECLARATIONS. (a) The legislature finds that

(1) the United States government has expressed its determination to discontinue federal operation of the Alaska Railroad at the earliest possible date;

(2) for the time being, private acquisition and operation of the railroad in a manner consistent with the federal transfer legislation and this Act is not presently considered to be a reasonable possibility or in the best interests of the citizens of the state;

(3) continued operation of the railroad is possible only if the state acquires the railroad from the federal government and provides for operation of the railroad;

(4) continued operation and development of the Alaska Railroad is essential to the long-term economic growth and development of the state and its natural resources and will serve an important public purpose; and

(5) continued operation of the Alaska Railroad will promote the general welfare of the people of the state by providing important freight and passenger service to residents of the state, businesses, visitors, and military installations in the state.

(b) It is the policy of the state to

(1) foster and promote the development of the state's land and

IN THE SENATE BY KERTTULA, FAIKS AND HALFORD

SENATE BILL NO. 352

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - SECOND SESSION

A BILL

For an Act entitled: "An Act establishing the Alaska Railroad Corporation to manage and operate the Alaska Railroad; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. LEGISLATIVE FINDINGS AND PURPOSE. (a) The legislature finds that

(1) The Alaska Railroad is an essential part of the state transportation network that without state action will cease to be a transportation option available within Alaska. The federal government has offered to the state the option of taking over the Alaska Railroad to ensure its continued existence. It is in the state's best interest to accept the railroad under the terms and conditions offered by the United States government.

(2) There is vast potential in Alaska's natural resource areas and that extension of the Alaska Railroad into natural resource areas is necessary for the achievement of the goals of lower freight cost and long-term economic growth.

(b) It is the purpose of this Act to create an entity and to provide that entity with the powers and duties necessary to operate and manage the Alaska Railroad as a viable independent entity pending the eventual transfer of the railroad to the private sector for its ownership or operation or both consistent with 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982).

(c) The legislature declares that

SB 352

The statement of legislative purpose in SB 152 bears little resemblance to that statement in SB 10.

ont.)

natural resources;

(2) foster and promote the long-term economic growth and development of the state;

(3) provide necessary and feasible freight and passenger rail transportation services to residents, businesses, visitors, and military installations in the state;

(4) develop and implement plans for a transportation network that effect the policies set out in this subsection; and

(5) provide safe, economical, and efficient transportation to residents, businesses, visitors, and military installations in the state.

(c) The legislature declares that

(1) the exercise of the powers of the state in the interest of the people of the state is necessary to accomplish the policy set out in (b) of this section by authorizing the creation of a public authority with the powers, duties, and functions as provided in this Act to operate the Alaska Railroad and to manage its rail, industrial, port and other properties;

(2) it is in the best interests of the people of the state for the public authority created by this Act to operate and manage in a prudent manner the Alaska Railroad

(A) to be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) with the railroad authority, and not the state, constituting a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission;

(C) with the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) to carry out its responsibilities on a self-sustaining basis;

(cont.)

(1) the exercise of the powers of the state in the interest of the people of the state is necessary to accomplish the policy set out in (a) of this section by authorizing the creation of a public corporation with the powers, duties, and functions as provided in this Act to operate the Alaska Railroad and to manage its rail, industrial, port and other properties;

(2) it is in the best interests of the people of the state for the public corporation that will operate and manage the Alaska Railroad to be created in such a way that

(A) the corporation will be exclusively responsible for the management of the financial and legal obligations of the Alaska Railroad;

(B) the corporation, and not the state, will constitute a common carrier subject to the jurisdiction of the United States Interstate Commerce Commission;

(C) the corporation will have the ability to raise capital by issuing obligations exempt from federal and state taxation;

(D) the corporation may carry out its responsibilities on a self-sustaining basis;

(E) the best possible combination of types and levels of safe, efficient and economical transportation can be provided that is necessary to meet the overall needs of the state, supported when necessary by state investment;

(F) the railroad may be operated prudently and according to sound business management practices; and

(G) borrowing by the corporation does not directly or indirectly endanger the state's own borrowing capacity.

2

(cont.)

(E) to provide the best possible combination of types and levels of safe, efficient, and economical transportation that is necessary to meet the overall needs of the state supported when necessary by state investment;

(F) according to sound business management practices;

(G) to provide the level of service that best satisfies the needs of the people of the state;

(H) in a fiscally sound manner; and

(I) to ensure that borrowing by the authority does not directly or indirectly endanger the state's own borrowing capacity;

(3) the continued operation of the railroad will assure greater use, development, reclamation, and settlement of the state's land for the maximum benefit of the people; and

(4) the important public purposes to be served by the railroad authority require the authority to have all of the powers and duties granted to it by this Act; the legislature intends that the authority, consistent with sound business management practices, exercise its powers and duties as a public service on behalf of the state and recognizes that the exercise of the powers and duties granted by this Act requires the authority to engage in the wide range of conduct authorized by this Act.

SB-10

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD AUTHORITY.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF AUTHORITY. There is established the Alaska Railroad Authority. The authority is a public corporation and, for purposes of art. III, sec. 22, Constitution of the State of Alaska, is an instrumentality of the state within the Department of Transportation and Public Facilities, but the authority has a legal existence independent of and separate from the state. The exercise by the authority of the powers provided in this chapter is considered an essential governmental function of the state. The existence of the authority is perpetual.

SB-352(HB-512)

* Sec. 2. AS 42 is amended by adding a new chapter to read:

CHAPTER 40. ALASKA RAILROAD CORPORATION.

ARTICLE 1. ESTABLISHMENT AND ORGANIZATION.

Sec. 42.40.010. ESTABLISHMENT OF THE CORPORATION. There is established the Alaska Railroad Corporation. The corporation is a public corporation for the purposes of art. III, sec. 22, Constitution of the State of Alaska. The corporation shall be considered a principal department only for the purposes of art. III, sec. 26, Constitution of the State of Alaska. The corporation has a legal existence independent of and separate from the state. The exercise by the corporation of the powers provided in this chapter is considered an essential government function of the state.

Comparison

The statement in SB 10 that the authority is an instrumentality of the state within DOT&PF is omitted from SB 352 and a statement that the corporation "shall be considered a principal department..." is inserted in an apparent effort to justify legislative confirmation of board members. Both SB 10 and SB 352 provide that certain members of the board shall be confirmed by the legislature. The Alaska Supreme Court has found that the power to appoint executive officers is solely an executive function. While Article III, sections 25 and 26 of the state constitution requires legislative confirmation of the appointments of heads of departments and members of quasi-judicial or regulatory agencies, the court has held that those sections represent the outer limits of the legislature's power to confirm.

(4) (cont.)

(Bradner v. Hammond, 553 P. 2d 1 (Alaska, 1976)) in an apparent effort to force the Alaska Railroad Corporation into a status that will allow for legislative confirmation of appointments to the board, Sec. 42.40.010 of SB 352 contains the following sentence:

> "The corporation shall be considered a principal department only for the purposes of Article III, sec. 26, Constitution of the State of Alaska."

Despite this effort at characterizing the board as a ". . . board or commission . . . at the head of a principal department or a regulatory or quasi-judicial agency. . . ." (Article III, Section 26, Constitution of the State of Alaska), I am certain that the court would find that the board does not fit within the terms of Article III, section 26 and that legislative confirmation on that basis is inappropriate.

There is a basis for arguing in support of the confirmation requirement. It could be argued that Bradner applies only to appointments of officers of the executive branch and does not apply to appointments of officers of public corporations or authorities that have an independent legal status from the executive branch of government. Confirmation of appointments to independent public corporations or authorities does not directly invade the governor's power of appointment, because the governor has no duty to administer the corporation that is similar to his duty to administer the executive branch. Nevertheless, it must be stressed that the provision regarding confirmation of board members is subject to constitutional attack.

Sec. 42.40.020. LIMITATION OF LIABILITY. A liability incurred by the authority must be satisfied exclusively from the assets and credit of the authority and no creditor or other person has a right of action against the state on account of a debt, obligation, or liability of the authority.

ARTICLE 6. FINANCIAL PROVISIONS.

Sec. 42.40.500. LIMITATION OF LIABILITY. A liability incurred by the corporation shall be satisfied exclusively from the assets or revenue of the corporation and no creditor or other person has a right of action against the state because of a debt, obligation, or liability of the corporation.

SB-10

Sec. 42.40.030. BOARD OF COMMISSIONERS. (a) The powers of the authority are vested in the Board of Commissioners. The board consists of the commissioner of transportation and public facilities, who serves as a voting member; the chief executive officer of the authority, who serves as an ex officio nonvoting member; an authority employee appointed by the governor, who serves as a nonvoting member and represents the labor organizations that are certified to represent authority employees; and six voting public members appointed by the governor. The public members must have substantial experience or professional training and expertise in fields relevant to the purposes of this chapter, including, but not limited to transportation, business, and finance and must have the standing in their communities to command the respect of their fellow citizens. Unless prohibited by law, one public member shall be or have been an executive official of an American railroad that is not now or was never a connecting carrier of the Alaska railroad. At least four public members must be selected from areas served by the railroad. The public members may not be state officers or employees.

(b) The public members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A public member appointed by the governor, unless and until the member has been rejected by the legislature, has the full powers and responsibilities of a confirmed board member.

(c) The board shall elect from its membership a chairman, a vice-chairman, a treasurer, and a secretary and prescribe their specific duties by rule.

(d) The chairman shall call meetings of the board at least once every three months. The chairman may call other meetings of the board as the chairman considers necessary. The chairman shall preside at meetings of the board.

(e) The governor by written notice to the member may remove a public member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) conviction of a misdemeanor involving moral turpitude or a felony; or

(4) any conduct that was intended to harm the authority whether or not it constitutes a crime.

SB-352(HB-512)

Sec. 42.40.020. BOARD OF DIRECTORS. (a) The powers of the corporation are vested in the board of directors. The board consists of five voting members appointed by the governor. These five members must be residents of and registered voters in the state except as provided in (b) of this section. No more than two of these members may be from any one of the four judicial districts in the state. Two of the voting members must have at least five years experience as owners or managers of a business in the state. A voting member may not be a state officer or employee.

(b) One person who is not a resident of or registered voter in the state may be appointed by the governor to be a voting member of the board, if, at the time of appointment, the person has at least 10 years of experience in management of railroads.

(c) In addition to the voting members, the following nonvoting members shall serve on the board:

(1) an employee of the corporation appointed by the governor to represent the employees;

(2) the chief executive officer of the corporation.

(d) The voting members of the board shall be confirmed by a majority of the membership of the legislature in joint session. A member appointed by the governor has the full powers and responsibilities of a confirmed board member unless and until the member has been rejected by the legislature.

(e) The board shall elect from its membership a chairperson and vice-chairperson and prescribe their specific duties by rule.

(f) The board shall appoint a secretary and prescribe the specific duties of the secretary.

(g) The chairperson shall call meetings of the board at least once every three months. The chairperson may call other meetings of the board as the chairperson considers necessary. The chairperson shall preside at meetings of the board.

(h) The governor may, by written notice to the member, remove a member from the board for

(1) incapacitation caused by injury or sickness that leaves the member unable to perform duties under this chapter;

(2) continued refusal or inability to attend meetings of the board;

(3) conviction of a felony; or

(4) conviction of a misdemeanor involving moral turpitude.

Compariso

The board of directors is composed of five voting members and one non-voting member appointed by the governor in SB 352. The chief executive officer of the corporation serves as another non-voting member as in SB 10. Otherwise, composition of the board of commissioners under Section 42.40.030 of SB 10 is substantially different. Material in (e) (4) of SB 10 does not appear in SB 352.

Sec. 42.40.040. TERM OF OFFICE; VACANCIES. (a) The public members of the board serve for staggered terms of five years each.

(b) A vacancy on the board is filled by appointment by the governor and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(c) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(d) A member whose term has expired shall serve until a successor has been appointed.

Sec. 42.40.010. TERM OF OFFICE. The appointed members of the board serve for staggered terms of five years each.

Sec. 42.40.040. VACANCIES. (a) A vacancy on the board is filled by appointment by the governor, and the appointment must be confirmed by the legislature in joint session. A member selected to fill a vacancy holds office for the balance of the term for which the member's predecessor is appointed.

(b) A vacancy on the board does not impair the authority of a quorum of members to exercise the powers and perform the duties of the board.

(c) A member whose term has expired shall serve until a successor has been appointed.

SB-10

Sec. 42.40.050. COMPENSATION AND EXPENSES. A public member of the board is entitled to compensation at the rate of $300 for each day the member is engaged in actual performance of duties as a member of the board. The board shall provide by rule for compensation for partial days during which a member is engaged in the actual performance of duties. A member is entitled to per diem and travel expenses authorized by law for state boards and commissions under AS 39.20.180.

SB-352(HB-512)

Sec. 42.40.050. COMPENSATION AND EXPENSES. (a) An appointed member of the board is entitled to compensation at a rate of $200 for each day the member is engaged in the actual performance of duties as a member of the board.

(b) In addition to compensation under (b) of this section, an appointed member of the board is entitled to per diem and travel expenses authorized by law for state boards and commissions.

Compensation for board members is $200 per day in SB 352 and $300 per day in SB 10. In addition, compensation is available to appointed members only under SB 352. There is no provision for payment for partial days in SB 10.

Sec. 42.40.060. QUORUM AND NOTICE OF MEETINGS. Four voting members of the board constitute a quorum for the transaction of business. In addition to the notice requirements of AS 44.62, notice of a meeting of the board, including an agenda for the meeting, must be given to

(1) each member of the board;

(2) the governor;

(3) the leadership of the legislature;

(4) at least two newspapers of statewide circulation; and

(5) members of the general public upon request.

Sec. 42.40.060. QUORUM AND NOTICE OF MEETINGS. Three voting members of the board constitute a quorum for the transaction of business.

Three voting members constitutes a quorum in SB 352 rather than four as in SB 10. The additional provisions on notice of meetings in SB 10 do not appear in SB 352.

SB-10 SB-352(HB-512) Comparison

Sec. 42.40.070. VOTING. The board shall provide by rule for t
manner of voting and any representation of persons absent from mee
ings. The rules may provide for voting and conferring by means
telecommunication devices or by mail or for voting as directed in
written proxy taking a position on a particular issue so long
voting is consistent with AS 44.62.310. However, no proxy is allowed
that delegates to the holder discretion to act for a principal on
undisclosed or general matters.

Sec. 42.40.070. VOTING. The board shall provide by rule for the
manner of voting and representation of persons absent from meetings.
The rules may provide for voting and conferring by means of telecommu-
nication devices or by mail or for voting as directed in a written
proxy taking a position on a particular issue.

SB 352 does not contain the last line in SB 10 limiting use of proxy.

SB-10

Sec. 42.40.080. MANAGEMENT OF AUTHORITY. (a) Unless the board provides for management of the authority by a third-party contractor under (b) of this section,

(1) the board shall appoint and fix compensation for the chief executive officer and legal counsel of the authority; the appointment of legal counsel is subject to the approval, for competence, of the governor;

(2) the chief executive officer shall appoint and fix compensation for the other executive officials; the appointments and compensation are subject to board approval;

(3) officials appointed under (1) and (2) of this subsection serve at the pleasure of the board;

(4) the chief executive officer may appoint and fix compensation for any additional personnel necessary to carry out the purposes of this chapter;

(5) except as may be required by federal law, no executive official of the authority may be compensated at a rate in excess of that established under AS 39.20.080 for the heads of principal executive departments of the state.

(b) The board may provide for, in a manner consistent with the purposes of this chapter and subject to the approval of the state as provided in AS 42.40.600(g), the management and operation of the railroad by a third-party contractor. Subject to the limitations in (a) of this section, the board may provide for appointment and compensation of any executive official, including but not limited to those provided for in (a) of this section, necessary to augment the management and operation of the railroad by the third-party contractor.

SB-352(HB-512)

ARTICLE 2. MANAGEMENT.

Sec. 42.40.100. EXECUTIVE OFFICERS. (a) The board shall appoint and fix compensation for the chief executive officer of the corporation. The chief executive officer serves at the pleasure of the board.

(b) The chief executive officer of the corporation shall appoint and fix the compensation for other executive officers. The appointment of other executive officers and their compensation are subject to board approval.

Comparison

No provision is contained in SB 352 for management by a third-party contractor as in SB 10. SB 352 contains no limit on compensation as is found in (a) (5) of SB 10.

SB-10 SB-352(HB-512) Comparison

Sec. 42.40.090. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the authority to the chief executive officer, subject to any requirement of board concurrence or authorization imposed by the rules.

(b) Within 180 days of its establishment, the board shall by rule delegate the following activities of the authority to the chief executive officer or other executive official designated by the board, subject to any board review of the activities as may be specified in the rules:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the authority's entire interest in real property of the authority;

(2) establishment of specific rates, tariffs, divisions and contract rate agreements;

(3) routine changes in service levels; and

(4) procurement.

(c) General or particular board authorization or concurrence is required for the following:

(1) transfer of the authority's entire interest in real property other than the execution of a release of a lien or satisfaction of a mortgage after payment has been received;

(2) issuance of notes, debentures, or bonds;

(3) mortgaging or pledging of authority assets;

(4) donation of money, property, or other assets belonging to the authority;

(5) an action by the authority as a surety or guarantor;

(6) capital projects with an estimated completion cost in excess of $250,000 or an estimated completion time of more than one year;

(7) adoption of the long-range program and capital improvement plans under AS 42.40.325;

(8) certification of annual reports under AS 42.40.310;

SB 10

Sec. 47.40.110. DELEGATION. (a) The board shall by rule delegate powers and duties necessary and appropriate for the management of the daily affairs and operations of the corporation to the chief executive officer, subject to a requirement of board concurrence or authorization imposed by the rules.

(b) Within 60 days of its establishment, the board shall by rule delegate the following activities of the corporation to the chief executive officer or other executive officers designated by the board:

(1) leasing, granting easements in, issuing permits for the use of, or conveying other interests that do not constitute a transfer of the corporation's entire interest in real property of the corporation;

(2) establishing specific rates, tariffs, divisions, and contract rate agreements;

(3) making routine changes in service levels; and

(4) performing procurement activities.

(c) General or particular board authorization or concurrence is required for the following:

(1) transferring the corporation's entire interest in real property;

(2) issuing notes, debentures, and bonds;

(3) mortgaging or pledging authority assets;

(4) donating property, or other assets belonging to the corporation;

(5) acting as a surety or guarantee;

(6) adopting a long-range expansion and capital improvement plan;

(7) certifying annual reports;

(8) effecting generally applicable increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission;

SB 352

In (b) 180 days in SB 10 is changed to 60 days in SB 352. Material in (c) (6) of SB 10 does not appear in SB 352.

(cont.)

(9) generally applicable, comprehensive increases and decreases in rates other than those periodically approved by the United States Interstate Commerce Commission for application to rail carriers generally;

(10) diversification and major expansion or reduction of services beyond those provided on the date of transfer or as provided under this chapter;

(11) the exercise of the power of eminent domain;

(12) expansion of main or branch lines, other than routine track realignment as necessary to maintain service levels in effect on the date of transfer; and

(13) selection of independent auditors and accountants.

(cont.)

(9) expanding or reducing services in a major way as provided under this chapter;

(10) expanding the main or branch lines, other than performing routine track alignment as necessary to maintain service levels in effect on the date of transfer; and

(11) selecting independent auditors and accountants.

14

ARTICLE 2. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. CONFLICTS OF INTEREST. (a) Except as provided in this section, a board member or employee of the authority may not participate in a decision of the authority in which that person or a member of that person's immediate family has a direct or indirect financial interest unless the financial interest is a remote financial interest and participation is approved under (b) of this section. For purposes of this section, "participate in a decision" includes all discussions, deliberations, preliminary negotiations, and votes concerning a matter that is the subject of formal action by the board.

(b) A board member or employee may participate in a decision if that person or a member of that person's immediate family has only a remote interest and if the fact and extent of the interest is disclosed to the board in a public meeting and is noted in the minutes of the board before any participation by the member or employee in the decision, and thereafter in a public meeting the board authorizes or approves the participation by a vote of its membership excluding the interested member or employee. As used in this subsection, "remote interest" means

(1) that of a nonsalaried officer of a nonprofit corporation;

(2) that of an employee or agent of a contracting party when the compensation of the employee or agent consists entirely of fixed wages or salary and the contract is awarded by bid or by other competitive process;

(3) that of a landlord or tenant of a contracting party, except when the property subject to the lease or sublease is owned or managed by the authority;

(4) that of a holder of less than one percent of the shares of the corporation or cooperative that is the contracting party;

(5) that of an owner of a savings and loan account or bank savings or share account or credit union deposit account if the interest represented by the account is less than two percent of the total deposits held by the institution; or

(6) other interests that in good faith are defined as remote by rules or regulations adopted by the authority.

(c) A board member or employee is not considered to be financially interested in a decision when the decision could not affect that person in a manner different from its effect on the public or community.

No comparable provision

ont.) (d) An action, including the award of a contract, in which a board member or employee participates in violation of this section or AS 39.50.090 is void if the board member's vote or employee's participation was necessary to the decision. If a board member votes or an employee participates in a decision in violation of this section or AS 39.50.090 and that vote or participation is not necessary to the decision, the board may ratify the action after disclosure of the violation in a public meeting of the board and without participation by the interested member or employee in the decision to ratify. A board member or employee who violates a prohibition contained in this section or in AS 39.50 forfeits office upon a determination by the board in a public meeting that the violation was intentional.

(e) The executive officials and board members of the authority are subject to AS 39.50.

(f) Within 120 days of the first meeting of the board, the board shall adopt and may subsequently amend rules and regulations implementing this section, providing additional conflict of interest and ethical rules and regulations as it considers appropriate, and providing for the removal by the board of a board member or employee who intentionally violates a prohibition contained in this section or in AS 39.50.

No comparable provision

Sec. 42.40.210. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public, with the exception of executive sessions permitted by AS 44.62.310 and (b) of this section.

(b) In addition to those subjects which may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the authority's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of the information including but not limited to proprietary information associated with specific shippers, divisions, and contract rate agreements

ARTICLE 3. ADMINISTRATIVE PROVISIONS.

Sec. 42.40.200. PUBLIC BOARD MEETINGS. (a) The meetings of the board are public with the exception of an executive session conducted under AS 44.62.310 and (b) of this section.

(b) In addition to those subjects that may be discussed in executive session under AS 44.62.310, the board may consider in executive session matters that pertain to personnel, the corporation's legal position, land acquisition or disposal, or proprietary information, as defined in a manner consistent with the standards and practices of the United States Interstate Commerce Commission for protection of information associated with specific shippers, divisions, and contract rate agreements.

Sec. 42.40.220. MINUTES OF MEETINGS. The board shall keep minutes of each meeting and shall send a certified copy of the minutes of the public portion of each meeting to the governor and the leadership of the legislature.

Sec 42.40.220. MINUTES OF MEETINGS. The board shall keep minutes of each meeting.

SB 352 contains no requirement that copies of minutes be sent th to the governor and leadership of the legislature as in SB 10.

SB-10

Sec. 42.40.230. ADMINISTRATIVE PROCEDURE. (a) Except for AS 44.62.310 regarding public meetings, as limited by AS 42.40.210(b), the Administrative Procedure Act (AS 44.62) does not apply to the authority, its rules, regulations, or actions taken under this chapter. The authority shall make available to members of the public copies of the rules and regulations adopted under this section. Within 45 days after adoption, the chairman of the board shall submit a regulation adopted under this section to the chairman of the Administrative Regulation Review Committee under AS 24.20.400 - 24.20.460. The legislature may annul or temporarily suspend a regulation adopted by the authority.

(b) The board shall adopt rules and regulations to govern its procedures and to carry out the purposes of this chapter. Within 90 days after its first meeting the board shall adopt rules establishing a procedure for giving advance public notice and an opportunity for the public to comment on proposed regulations of the authority that, in the determination of the board, will have a substantial impact on the public or be used in the authority's dealings with a significant segment of the public. The rules shall also provide for the adoption of emergency regulations without public notice and comment when the immediate adoption or repeal of a regulation is necessary to continue or reinstate the orderly operation of the authority's facilities or programs. However, emergency regulations may not remain in effect more than 120 days unless during that period the board complies with the public notice and comment procedure required for regulations that are not of an emergency nature.

(c) The rules adopted under (b) of this section establishing a regulation-making procedure and all rules or regulations relating to procurement of property by the authority, conflicts of interest, disclosure of information in the possession of the authority, or the regulation of persons outside the authority through the exercise of police power shall be submitted to the attorney general for review and approval before becoming effective. The attorney general shall respond to the authority within 60 days after receipt of the rules or regulations either approving them as consistent with or disapproving

SB-352(HB-512)

Sec. 42.40.230. RULES. The board shall establish a procedure for adopting rules to carry out its functions and the purposes of this chapter. The rules shall include a procedure for the adoption of emergency rules when the adoption of an emergency rule is essential to continue or to reinstate the orderly operation of the corporation's facilities or program.

Comparison

Most of the material regarding rule making in SB 10 is omitted from SB 352. The board is simply authorized to adopt rules.

(cont.)

them as in conflict with the Alaska Statutes and the Constitution of the State of Alaska. A disapproval of rules or regulations must be accompanied by a memorandum of law explaining the conflict with existing law and a recommendation for revisions to cure the defect. Rules or regulations submitted to the attorney general are considered approved if the attorney general fails to approve or disapprove the rules or regulations, as provided in this subsection, within 60 days after receipt.

(d) A regulation is not subject to the procedures in (b) of this section if it is one that

5 (1) relates to the use of public works, [including terminal areas, industrial reserves, rights-of-way and streets,] under the jurisdiction of the ~~authority~~ Corporation if the effect of the ~~regulation~~ order is indicated to the public by means of signs or signals;

4. (2) is directed to a specifically named person or to a group of persons and does not apply ~~generally throughout the state~~ to the general public; or

3. (3) [CONCERNS] related to service schedules of the railroad; or

2. (4) relates to specific [RATES] tariffs, divisions, and contract rate agreements.

(e) The authority is an agency of the state for purposes of jurisdictional determinations and judicial review of the authority's action.

SB 10

(1) relates only to the internal management of the Corporation;
2

(30)

SB-10 SB-352(HB-512) Comparison

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule or regulation of the authority under this section, facts and information in the possession of the authority are public and communications, reports, files, books, accounts, and papers of every nature in its possession are open to public inspection at reasonable times.

(b) The authority may by rule or regulation designate and withhold disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include but are not limited to personnel records, communications with and work product of counsel and, consistent with the standards and practices of the United States Interstate Commerce Commission for the protection of these matters, other information including but not limited to proprietary information associated with specific shippers, divisions, and contract rate agreements.

(c) A person may make written objections to the public disclosure of information contained in an application, report, or document filed with the authority, stating the grounds for the objection. When an objection is made, the board may order the information withheld from public disclosure if the information

(1) would adversely affect the interest of that person and is not required in the interest of the public; or

(2) may be protected from disclosure consistent with the standards and practices of the United States Interstate Commerce Commission including but not limited to proprietary information associated with specific shippers, divisions and contract rate agreements.

Sec. 42.40.240. PUBLIC DISCLOSURE OF INFORMATION. (a) Except as provided by rule of the corporation under (b) of this section, information in the possession of the corporation is public and is open to public inspection at reasonable times.

(b) Except as provided in AS 42.40.270, the corporation may by rule designate and withhold disclosure of matters of a nonpublic, privileged, or proprietary nature. Those matters include personnel records, communications with and work product of counsel consistent with the standards and practices of the United States Interstate Commerce Commission, and information associated with specific shippers, divisions, and contract rate agreements.

SB 352 contains no provision like (c) of SB 10 authorizing objection to public disclosure of information.

SB-10

ARTICLE 3. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. The authority may

(1) adopt a seal;

(2) adopt rules and regulations;

(3) sue and be sued;

(4) appoint officers, employees, trustees, and agents, and prescribe their powers and duties;

(5) hire legal counsel to represent the authority;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interests in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the authority;

(8) acquire property by eminent domain or by declaration of taking;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, mortgage, encumber, and otherwise grant security interests in or transfer any real or personal property including without limitation facilities and equipment;

(10) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(11) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(12) contract with and accept transfers, gifts, grants or loans of funds or property from the United States, the state, and its political subdivisions, subject to the provisions of federal, state, or local programs;

SB-352(HB-512)

ARTICLE 4. POWERS AND DUTIES.

Sec. 42.40.300. GENERAL POWERS. In addition to the exercise of other powers authorized by law, the corporation may

(1) adopt a seal;

(2) adopt bylaws governing the business of the corporation;

(3) sue and be sued;

(4) appoint trustees and agents of the corporation and prescribe their powers and duties;

(5) hire legal counsel to represent the corporation;

(6) make contracts and execute instruments necessary or convenient in the exercise of its powers and duties;

(7) acquire by purchase, lease, bequest, devise, gift, exchange, the satisfaction of debts, the foreclosure of mortgages, or otherwise, real or personal property, rights, rights-of-way, franchises, easements, and other interest in land, including land lying under water and appropriation of water rights that are located in the state, taking title to the property in the name of the corporation;

(8) acquire property by eminent domain in accordance with AS 42.40.430;

(9) hold, maintain, use, operate, lease, exchange, donate, improve, convey, alienate, dispose of, or transfer any real or personal property including facilities and equipment;

(10) contract with and accept transfers, gifts, grants or loans of funds or property from the United States and the state or its political subdivisions, subject to the provisions of federal, state, or local programs;

(11) undertake and provide for the management, operation, maintenance, use, and control of all of the properties of the corporation including, the tracks, equipment and other property transferred to it by the federal government or by any person;

(12) recommend to the legislature and the governor any tax,

Comparison

Not all of the general powers in SB 10 are contained in SB 352, however those powers omitted in this section appear to be essentially covered in other sections. In addition, SB 352 authorizes the adoption of corporate bylaws.

(cont.)

(13) acquire, hold and dispose of stocks, memberships, contracts, bonds, general or limited partnership interests or other interests in another corporation, association, partnership, joint venture or other legal entity, and exercise the powers or rights in connection with these interests which are provided in contracts or agreements and that are allowed by law concerning the satisfaction of debts;

(14) undertake or provide for the management, operation, maintenance, use, and control of all of the properties of the Alaska Railroad including without limitation, the tracks, equipment and other property transferred to it by the federal government or by any person;

(15) undertake or provide for the acquisition, construction, maintenance, equipping, and operation of connecting, switching, terminal, or other railroads and railroad facilities in the state;

(16) recommend to the legislature and the governor any tax, financing, or security measure the authority considers appropriate for maximizing the public interest in the operation of the railroad;

(17) lend its funds, property, credit or services for authority purposes;

(18) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the authority is a party;

(19) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the authority estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

SB 10

(cont.)

financing, or financial arrangement the corporation considers appropriate for expansion or extension and operation of the Alaska Railroad;

(13) maintain offices and facilities at places it designates;

(14) apply to the appropriate agencies of the state, the United States, and a foreign country or other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate railroad transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(15) prescribe rates to be charged for services provided by the Alaska Railroad on a competitive basis;

(16) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(17) enter into contracts and leases with connecting carriers and shippers, that contain provisions to preserve and expand the railroad's traffic base;

(18) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system, and contract with other modes of transportation service connecting to the railroad's rail services;

(19) adopt rules that are designed to safeguard property owned, managed, or transported by the corporation and to protect employees and persons using the corporation's property or services;

(20) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations imposed by 45 U.S.C 1201-1214 (Alaska Railroad Transfer Act of 1982);

SB 352

(cont.)

(20) maintain offices and facilities at places it designates;

(21) purchase the authority's bonds at a price not more than the principal amount of them plus interest;

(22) cancel bonds purchased under (21) of this section;

(23) apply to the appropriate agencies of the state, the United States, and to a foreign country and other proper agencies for the permits, licenses, or approvals necessary to construct, maintain, and operate transportation services, and to obtain, hold, and reuse the licenses and permits in the same manner as other operating units or persons;

(24) prescribe rates to be charged for services provided by the Alaska Railroad;

(25) determine the routes, schedules, and types of service to be provided by the Alaska Railroad;

(26) enter into contracts, leases, and other agreements with connecting carriers, shippers, and other persons concerning the services, activities, operations, properties and facilities of the railroad, including contracts, leases and other agreements that contain provisions intended to preserve and expand the railroad's traffic base;

(27) plan for and undertake expansion of the railroad and railroad activities, including extension of the Alaska Railroad's rail system and acquisition and operation of other modes of transportation service connecting to the railroad's rail service;

(28) adopt regulations having the force of law that are designed to safeguard property owned, managed, or transported by the authority, to protect employees and persons using the authority's property or services, and to promote safe, healthy, secure, and

(cont.)

(21) assume and satisfy liabilities of the United States or its agencies as provided by the federal transfer legislation and the closing report or its substantive equivalent as accepted by the legislature;

(22) maintain a security force to enforce state law and the corporations rules with respect to violations that occur on or to property owned, managed or transported by the corporation;

(23) borrow money and issue its bonds or notes and provide for and secure their payment, provide for the rights of their holders and purchase, hold, or dispose of its bonds or notes;

(24) secure the payment of its obligations by pledge or mortgage or other lien on its contracts, revenues, income, or property;

(25) consent to the modification of the rate of interest, time of payment of an installment of principal or interest, or other term of a loan, contract, or agreement to which the corporation is a party;

(26) include in any borrowing the amounts necessary to establish reasonable reserves and pay financing charges and interest on the obligations for a reasonable period after which the corporation estimates funds will be otherwise available to pay the interest, consultant, advisory, and legal fees, and other expenses necessary or incident to borrowing;

(27) purchase the corporation's bonds at a price not more than the principal amount of them plus interest; and

(28) cancel bonds purchased under (21) of this section.

24

(cont.)

effective railroad operations;

(29) maintain a security force to enforce state law and the authority's regulations;

(30) adopt rules and regulations having the force of law that require designated classes of proprietary and personnel information and communications to be confidential;

(31) hire and discharge railroad personnel and determine benefits and other terms and conditions of employment established in accordance with obligations that may be imposed by the federal transfer legislation;

(32) assume and satisfy liabilities of the United States or its agencies as provided by the federal transfer legislation and the closing report, or its substantive equivalent, as accepted by the legislature; and

(33) do all things necessary, convenient or desirable to carry out the powers and duties expressly granted or necessarily implied in this chapter or under other laws of the state or the laws and regulations of the federal government.

Sec. 42.40.310. ANNUAL REPORT. The board shall direct preparation of, certify and distribute to the governor and to each member of the legislature by February 1 of each year a report generally describing the operations and financial condition of the authority. The board may include in the report suggestions for legislation relating to the structure, powers, or duties of the authority or relating to the operation of facilities of the authority.

Sec. 42.40.260. ANNUAL REPORT. Within 90 days following the end of the fiscal year of the railroad the board shall direct preparation of, certify and distribute to the governor and to the legislature a report describing the operations and financial condition of the corporation during the preceding fiscal year.

The report is due 90 days after the end of the fiscal year in SB 352 rather than February 1. The last line in SB 10 regarding suggestions for legislation does not appear in SB 352

Sec. 42.40.320. ANNUAL AUDIT. The board shall have the financial records of the authority audited annually by an independent certified public accountant experienced in railroad accounting. The authority shall, at all times during normal business hours and as often as the governor's auditor or the legislative audit division considers necessary, make available to an auditor appointed by the governor or to the legislative audit division for examination all of its financial records, and shall permit the auditor appointed by the governor or the legislative audit division to audit, examine and make excerpts or transcripts from the records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, conditions of employment, provision of services and the rates at which the services are provided and other relevant data; disclosure of this information is subject to AS 42.40.240 and rules and regulations implementing that section.

Sec. 42.40.270. ANNUAL AUDIT. The board shall have the financial records of the corporation audited annually by an independent certified public accountant experienced in railroad accounting. The corporation shall make all of its financial records available to an auditor appointed by the governor or to the legislative audit division for examination. Disclosure to the public by the auditor or legislative audit division of this information is subject to AS 42.40.240 and rules implementing that section.

SB-10

Sec. 42.40.325. LONG-RANGE PROGRAM AND CAPITAL IMPROVEMENT PLANS. (a) The authority shall prepare and the board shall adopt a long-range program plan and a capital improvement plan in accordance with sec. 10 of this Act.

(b) The long-range program plan must delineate the manner in which the authority intends to accomplish the purposes of and fulfill its responsibilities under this chapter during each of the five years after the plan is adopted. The long-range program plan shall provide information substantially consistent with the requirements of AS 37.07.050. The format of the long-range program plan must be jointly determined by the authority, the legislative audit division, and the division of budget and management, Office of the Governor.

(c) The long-range capital improvement plan must present and explain the authority's anticipated capital improvements for each of the five years after the plan is adopted. The long-range capital improvement plan must include the information required by AS 42.40.-600(b) together with any other information prescribed by the governor or the legislative audit division.

(d) The authority shall annually revise and the board shall adopt the plans required in this section.

(e) The authority shall provide copies of its plans to the governor and the leadership of the legislature.

(f) The governor and the legislative audit division may conduct an annual performance and efficiency audit in accordance with sec. 10 of this Act.

SB-352(HB-512)

Sec. 42.40.310. LONG-RANGE EXPANSION AND CAPITAL IMPROVEMENT PLANS. (a) The corporation shall prepare and the board shall adopt a long-range expansion plan and a capital improvement plan. The long-range expansion plan shall delineate the manner in which the corporation intends to accomplish the purposes of this chapter during each of the five years after the plan is adopted. The capital improvement plan shall present and explain the corporation's anticipated capital improvements for each of the five years after the plan is adopted.

(b) The board shall annually review and update the plans required under (a) of this section. The board may not contract for the preparation or revision of either the long-range expansion plan or the capital improvement plan, but shall require their preparation and revision by employees of the corporation.

(c) The board shall provide copies of its updated plans to the governor and the legislature by December 1 of each year.

Comparison

There are many minor differences between these sections. Material in (c) and (f) of SB 10 is deleted, while SB 352 adds the date that copies of the plan are to be delivered; December 1.

SB-10

Sec. 42.40.330. USE OF AUTHORITY ASSETS. (a) The authority shall apply all money, property, other assets, and credit of the authority toward activities authorized by this chapter. The authority may not issue shares of stock, pay dividends, make private distribution of assets, make loans to board members or employees, or engage in business for private benefit. The use of authority money, property, other assets, or credit for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the authority may

(1) assist board members and employees as members of a general class of persons to be assisted by an activity to the same extent as other members of the class and as long as no special privileges or treatment accrues to the member or employee by reason of status or position held in the authority;

(2) return to board members and employees fees, dues, or service charges originally contributed by them and surplus to the purposes for which collected;

(3) defend and indemnify a current or former employee, agent, or board member of the authority and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, reasonably incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the authority, if acting in good faith on behalf of the authority and within the scope of official duties or powers; and

(4) purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the authority and to hold these individuals harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

SB-352(HB-512)

Sec. 42.40.320. USE OF CORPORATION ASSETS. (a) The corporation shall apply all money, property, other assets, and credit of the corporation toward activities authorized by this chapter. The corporation may not issue shares of stock, pay dividends, make private distributions of assets, make loans to board members or employees, or engage in business for private benefit. The use of money, property, other assets, or credit of the corporation for purposes not authorized by law by persons having the possession or control of it is prohibited.

(b) Notwithstanding the provisions of this section, the corporation may

(1) defend and indemnify a current or former employee, agent, or board member of the corporation and their successors against all costs, expenses, judgments, and liabilities, including attorney fees, incurred by or imposed upon that person in connection with a civil or criminal action in which the person is involved by affiliation with the corporation, if the person acted in good faith on behalf of the corporation and within the scope of official duties or powers; and

(2) purchase insurance to protect and hold personally harmless its employees, agents, and board members from an action, claim, or proceeding instituted against these individuals arising out of the performance, purported performance, or failure of performance, in good faith, of duties for, or employment with, the corporation and to hold these individuals harmless from expenses connected with the defense, settlement, or monetary judgments from that action, claim, or proceeding; the purchase of insurance and its policy limits are discretionary with the board and insurance is not considered to be compensation to the insured individual.

(b) (1) and (2) of SB 10 do not appear in SB 352.

SB-10 SB-352(HB-512) Comparison

ARTICLE 4. RAIL PROPERTIES.

Sec. 42.40.400. RAIL PROPERTIES. (a) The authority shall receive from the United States and, in its own name, take title to all rail properties transferred under the federal transfer legislation. All land among the rail properties so transferred or otherwise acquired by the authority is subject to AS 38.95.010 and is not subject to classification, control or disposal under AS 38 or other state law, except as otherwise specifically provided in this chapter.

(b) Within 120 days after transfer of the rail properties, the authority shall convey to the state the subsurface estate of and the mineral rights in the land among the rail properties. The conveyance shall be made by one or more quitclaim deeds executed by the chief executive officer and delivered to the commissioner of natural resources. The authority may reserve in each quitclaim deed the right to extract and use for the authority's purposes sand, gravel, other construction materials, and, in accordance with AS 42.40.410(g), coal on the subject land. The interest retained by the authority after conveyance to the state under this subsection entitles it to exclusive use and control of the surface, complete subjacent and lateral support of the surface, and the right to tunnel, ditch, recontour, excavate and otherwise use the subsurface for railroad, transportation, transmission, and related purposes.

(c) The authority may litigate, compromise, and otherwise settle claims related to the transfer of rail properties from the United States and to recover for breach of warranties made or other obligations assumed by the United States or other party in relation to the transfer or status of the rail properties.

(d) The authority may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the authority and may receive conveyances of all interests in its own name.

(e) The authority, as an agency of the state, may acquire in its own name from the United States under the Surplus Property Act (50 App. U.S.C. 1622 et seq.), the Federal Property and Administrative Services Act of 1949 as amended (40 U.S.C. 471 et seq.), or other law, property under the control of a federal department or agency that is useful for the authority's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

ARTICLE 5. RAIL PROPERTIES.

Sec. 42.40.400. LAND. All land among the rail properties transferred under 45 U.S.C. 1201-1214 (Alaska Railroad Transfer Act of 1982) or otherwise acquired by the corporation is under the control of the corporation. As to all land that is transferred or acquired

(1) railroad rights-of-way or easements transferred under the federal act or otherwise acquired shall be classified as railroad utility corridors;

(2) future railroad utility corridors shall be of a width at least 100 feet on both sides of the centerline of the extended main or branch line, or may be of other width as designated by the corporation, and may be surveyed by the metes and bounds method; and

(3) the corporation may lease or rent portions of the utility corridor for other transportation services.

Sec. 42.40.430. OTHER ASSETS. (a) The corporation may submit applications on its own behalf as an instrumentality of the state for acquisition of interests in federal land available under federal law that will enhance the operations of the corporation and may receive conveyances of all interests in its own name.

(b) The corporation, as an agency of the state, may acquire in its own name from the United States under 50 App U.S.C. 1622 et seq (the Surplus Property Act of 1944), 40 U.S.C. 471 et seq as amended (the Federal Property and Administrative Services Act of 1949), or other law, property under the control of a federal department or agency that is useful for the corporation's purposes and may acquire from the Department of Administration property of the state made available under AS 44.71.010 - 44.71.040.

The two provisions differ considerably. However, some of the provisions of SB 10 are found in other sections of SB 352. Material in (b), (c), and (f) of SB 10 is not contained in SB 352.

(cont.)

(f) Before disposing of an interest in real property, other than a leasehold, a utility or access easement, or a land use permit, to a party other than the state, the authority shall give public notice of the disposition in two newspapers of general circulation. The authority shall make copies of the notice available to the public at its administrative office, and mail copies of the notice to the commissioner of natural resources, the governor, and the leadership of the legislature.

Sec. 42.40.410. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board by resolution may identify land owned by or subject to selection by the state, including tide and submerged land, as necessary or useful for present or intended railroad purposes. The resolution must include a statement of and justification for the present or intended railroad use and the date when the use should begin. Upon submission of the resolution and a request for classification and conveyance to the commissioner of natural resources, the commissioner may temporarily classify and reserve the land identified in the request for railroad purposes and may temporarily vacate a classification allowing disposal or lease of that land under laws or programs of the state. A temporary classification and vacation is subject to valid existing rights.

(b) Within 180 days after receiving the request, the commissioner of natural resources by departmental order shall

(1) permanently classify the surface estate of that land for railroad purposes and, subject to valid existing rights, convey the state's interests in and to the surface estate of the land to the authority;

(2) deny the classification and conveyance as not in the best interest of the state; or

(3) approve in part and deny in part the request for classification under this section.

(c) In the absence of a reservation to the contrary, a conveyance under (b) of this section vests in the authority the exclusive right to extract and use for its purposes sand, gravel, other construction materials, and, in accordance with (g) of this section, coal on the land conveyed without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The authority and the commissioner of natural resources may agree to joint management of railroad land and to conditions for classification of railroad land. The authority and the commissioner of natural resources may agree to periodic joint review of state land to determine suitability for railroad purposes and periodic joint review of the status of railroad land to determine the necessity for continued ownership by the authority. The authority may reconvey to the state land that the authority and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the authority's purposes.

Sec. 42.40.420. CLASSIFICATION, ACQUISITION, AND USE OF STATE LAND FOR RAILROAD PURPOSES. (a) The board by rule may identify and request conveyance of land owned by or subject to selection by the state, including tide and submerged land and land not adjacent to a railroad corridor, as necessary or useful for present, future or intended railroad purposes. The request must include a statement of and justification for the present, future or intended railroad use. Upon submission of a request for classification and conveyance to the commissioner of natural resources, the commissioner shall temporarily classify and reserve the land identified in the request for railroad purposes and shall temporarily vacate a classification allowing disposal or lease of that land under laws or programs of the state. A temporary classification and vacation is subject to valid existing rights and remains in effect for 180 days.

(b) Within 90 days after receiving a request under (a) of this section, the commissioner of natural resources by departmental order shall:

(1) classify that land for railroad purposes and, subject to valid existing rights, convey the state's interests to the corporation; or

(2) notify the corporation of reasons for refusal to classify the land for railroad purposes.

(c) A conveyance under (b)(1) of this section vests in the corporation the exclusive right to extract and use for its purposes sand, gravel, rock, timber and other construction materials the land conveyed without regard to the classification of the resources as part of the surface or subsurface estate.

(d) The corporation may reconvey to the state land received under this section that the corporation and the commissioner of natural resources jointly identify as unnecessary or unsuitable for the corporation's purposes.

(e) The corporation's ownership of state land entitles it to exclusive use and control of the surface, subsurface, complete subjacent and lateral support of the surface, subsurface, and the right to tunnel, ditch, recontour, excavate or otherwise use the subsurface for railroad, transportation, transmission, and related purposes.

(f) When physical conditions require that track or other right-of-way fixtures of the corporation be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the corporation may effect the relocation with concurrence of the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level.

In (b), 180 days in SB 10 is changed to 90 days in SB 352. In SB 352 there is no provision similar to (b) (3) in SB 10 allowing the commissioner to approve in part a request for classification. There is no provision similar to (g) in SB 10 concerning the extraction of coal.

ont.) (e) The authority's ownership of a surface interest in state land entitles it to exclusive use and control of the surface, complete subjacent and lateral support of the surface, and the right to tunnel, ditch, recontour, excavate or otherwise use the subsurface for railroad, transportation, transmission, and related purposes.

(f) When physical conditions require that track or other right-of-way fixtures of the authority be moved from the existing location and relocated on state-owned land adjacent to or in the vicinity of the existing right-of-way, and the chief executive officer determines that relocation is necessary to maintain safe and adequate rail operations, the authority may effect the relocation after notice to the Department of Natural Resources. The relocation must be limited to land adequate to restore or continue safe rail operations at a normal level. Within 45 days after a relocation under this subsection, the authority shall request classification and conveyance of the land for railroad purposes in accordance with (a) of this section.

(g) Before the authority extracts coal on lands in which it owns an interest, as authorized by AS 42.40.400(b) and (c) of this section, it shall submit a request for authorization to do so to the Department of Natural Resources. Within 45 days after receiving the request, the Department of Natural Resources shall approve the request if it determines that the coal to be extracted is located on lands in which the authority owns an interest and is not subject to existing rights of a third party. The state holds title to all coal on lands in which the authority owns an interest until the coal is extracted from the land by the authority under this subsection or otherwise disposed of in accordance with AS 38.05.130 and AS 42.40.415. The authority may use coal made available to it under this chapter for operational, non-income producing purposes only, including the generation of power to support operations and in-kind compensation to a person with whom the authority contracts to extract coal.

Sec. 42.40.415. DEVELOPMENT OF OIL, GAS, MINERALS, AND GEOTHERMAL RESOURCES ON AUTHORITY LAND. (a) The Department of Natural Resources, in accordance with AS 38.05, may lease or otherwise develop oil, gas, minerals, and geothermal resources located on land in which the authority owns an interest, including a surface interest, only upon satisfaction of the following conditions:

(1) the Department of Natural Resources submits to the authority a request for authorization identifying the interest to be developed and describing with specificity the proposed plan for development of the interest, potential negative effects the proposed development may have on the authority's operations, and measures that will be used to avert or mitigate the effects;

(2) the authority reviews the request for authorization and, after considering potential negative effects and proposed mitigation measures, determines that the plan of development presents no appreciable risk of interference with the operations of the authority;

(3) the Department of Natural Resources and the authority agree upon a suitable requirement that the lessee or party other than the state undertaking the development reimburse the authority from the proceeds of the development for costs incurred by the authority and materials lost by the authority as a result of the development; and

(4) the authority issues to the Department of Natural Resources a written authorization to proceed with the plan for lease or development; the authority may not unreasonably withhold its consent to a request for authorization submitted by the Department of Natural Resources under this section.

(b) The Department of Natural Resources shall require a party other than the state exercising rights under this section to post a surety bond in an amount sufficient to secure the authority against potential detrimental effects of the activity undertaken.

(c) The Department of Natural Resources shall maintain an accurate record of all income received by the state from the land in which the authority has an interest and of the value of all subsurface estates conveyed by the authority to the state. The Department of Natural Resources shall prepare a yearly summary of the income and subsurface value and submit it to the legislature and the authority before March 15 of each year.

(d) There is established in the state treasury the Alaska Railroad income fund. All income received by the state from lands in which the authority has an interest shall be deposited into the fund.

No comparable provision

Sec. 42.40.420. LAND USE RECULATION. The board may adopt exclusive regulations governing land use by private parties having interests in or permits for land owned or managed by the authority. The power conferred by this section is exercised for the common health, safety, and welfare of the public and, to the extent constitutionally permissible, may not be limited by the terms and conditions of leases, contracts, or other transactions with private parties.

No comparable provision

SB-10

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The authority may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for lawful purposes consistent with this chapter.

(b) The authority may acquire a fee simple title whenever, in the judgment of the authority, ownership of a fee simple is necessary to carry out the authority's lawful purposes in condemning property. When the authority acquires a fee simple, it shall as soon as practicable reconvey the subsurface estate to the state by a quitclaim deed.

(c) The authority may file a declaration of taking, under AS 09.55.420 - 09.55.460, in the same manner and with the same effect as the state.

(d) The authority's power of eminent domain includes, without limitation, the power to obtain material, including clay, gravel, sand, or rock, the land necessary to obtain the material, and access to the land and material.

(e) The authority may vacate land, or part of it, or rights in land acquired for railroad purposes by executing and filing a deed in the appropriate recording district. Upon filing of the deed, title reverts to the State of Alaska, if compensation has been paid.

SB-352(HB-512)

Sec. 42.40.430. EMINENT DOMAIN AND ACQUISITION OF PROPERTY AND MATERIALS. (a) The corporation may exercise the power of eminent domain under AS 09.55.240 - 09.55.460 to acquire land or an interest in land for lawful purposes consistent with this chapter.

(b) The corporation may acquire a fee simple title whenever, in the judgment of the board, ownership of a fee simple is necessary to carry out the state's lawful purposes in condemning property.

(c) The corporation may file a declaration of taking in the manner provided for the state under AS 09.55.420.

(d) The power of eminent domain conferred under this section includes the power to obtain material, including clay, gravel, sand, timber, or rock for railroad use, the land necessary to obtain the material, and access to the land and material.

Comparison

The last sentence in (b) of SB 10 is deleted from SB 352 and the material in (c) of SB 10 is deleted.

ARTICLE 5. FINANCIAL PROVISIONS.

Sec. 42.40.500. BONDS AND NOTES. (a) The authority, by resolution of the board, may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on the bonds or notes of the authority are payable from money or assets of the authority. Bond anticipation notes may be payable from the proceeds of the sale of bonds or from the proceeds of sale of other bond anticipation notes or, if bond or bond anticipation note proceeds are not available, the notes may be paid from other money or assets of the authority. Bonds or notes may be additionally secured by a pledge of a grant or contribution or other property from the federal government, the state or any of its political subdivisions, or a corporation, association, institution, or person, or a pledge of money, income, or revenues of the authority from any source.

(c) Bonds or bond anticipation notes may be issued in one or more series and shall be dated, bear interest (fixed or variable) at the rate or rates per year or within the maximum rate, be in the denomination, be in the form, either coupon or registered, carry the conversion or registration provisions, have the rank of priority, be executed in the manner and form, be payable from the sources in the medium of payment and place or places inside or outside the state, be subject to authentication by a trustee or fiscal agent, and be subject to the terms of redemption with or without premium, as the resolution of the board may provide. Bond anticipation notes mature at the time or times determined by the board. Bonds mature at the time, not exceeding 50 years from their date, determined by the board. Before the preparation of definitive bonds or bond anticipation notes, the authority may issue interim receipts or temporary bonds or bond anticipation notes, with or without coupons, exchangeable for bonds or bond anticipation notes when these definitive bonds or bond anticipation notes have been executed and are available for delivery.

Sec. 42.40.570. BONDS AND NOTES. (a) The corporation by resolution may issue bonds and bond anticipation notes to provide money to carry out its purposes.

(b) The principal and interest on bonds or notes of the corporation is payable from corporation money or assets. Bonds or notes may be additionally secured by a pledge of a grant or contribution from the federal government or a corporation, association, institution or person, or a pledge of money, income, or revenue of the corporation from any source.

(c) Bond anticipation notes may be payable from the proceeds of the sale of bonds or other bond anticipation notes, or, if bond or bond anticipation note proceeds are not available, from other money or assets of the corporation.

(d) Bonds or bond anticipation notes may be issued in one or more series and shall, as provided by the resolution of the board,

(1) be dated;

(2) bear interest at a required rate or rates per year or within a maximum rate;

(3) be in a required denomination;

(4) be in a coupon or registered form;

(5) carry conversion or registration provisions;

(6) have a required rank or priority;

(7) be executed in the required manner and form;

(8) be payable as required from the sources, in the medium of payment, and place or places inside or outside the state;

(9) be subject to authentication by a trustee or fiscal agent; and

(10) be subject to terms of redemption with or without premium.

(e) Bonds or bond anticipation notes may be sold in the manner,

(cont.)

(d) Bonds or bond anticipation notes may be sold in the manner, on the terms, and at the price the board determines.

(e) If an officer whose signature or a facsimile of whose signature appears on bonds or notes or coupons attached to them ceases to be an officer before the delivery of the bond, note, or coupon, the signature or facsimile is valid as if the officer had remained in office until delivery.

(f) Bond or bond anticipation note proceeds may not be dedicated to activities other than those the board reasonably determines to be specifically related to the purposes for which the instruments are issued.

(g) In a resolution of the board authorizing or relating to the issuance of bonds or bond anticipation notes, the board has power by provisions in the resolution that will constitute covenants of the authority, and contracts with the holders of the bonds or bond anticipation notes

(1) to pledge to a payment or purpose all or a part of its revenues to which its right then exists or may later exist, and the money derived from the revenues, and the proceeds of its bonds or notes;

(2) to covenant against pledging all or part of its revenues, or against permitting or suffering a lien on the revenues or its property;

(3) to covenant as to establishment of reserves or sinking funds and the provision for and the regulation and disposition of the reserves or sinking funds;

(4) to covenant with respect to or against limitations on a right to sell or otherwise dispose of property of any kind;

(5) to covenant as to bonds and notes to be issued, and

(cont.)

on the terms, and at the price the board determines. Bond anticipation notes shall mature at the time or times determined by the board. Bonds shall mature at the time, not exceeding 30 years from their date, determined by the board.

(f) The corporation may by provisions in a resolution authorizing or relating to the issuance of bonds or bond anticipation notes enter into the following agreements with the holders of the bonds or bond anticipation notes:

(1) pledge all or part of its revenue to which its right then exists or may thereafter exist, the money derived from the revenue, and the proceeds of its bonds or notes;

(2) covenant against pledging all or part of its revenue, or against permitting or suffering a lien on its revenue or property;

(3) covenant as to establishment of reserves or sinking funds and provide for, regulate, and dispose of the reserves or sinking funds;

(4) covenant regarding limitations on a right to sell or otherwise dispose of property of any kind;

(5) covenant as to bonds and notes to be issued, their limitations, terms and conditions, the custody, application and disposition of the proceeds of the bonds and notes;

(6) covenant as to the issuance of additional bonds or notes, or limitations on the issuance of additional bonds or notes, and the incurring of other debts;

(7) covenant as to the payment of the principal of or interest on the bonds or notes, the sources and methods of payment, the rank or priority of the bonds or notes with respect to a lien or security, or the acceleration of the maturity of the bonds or notes;

(8) provide for the replacement of lost, stolen, destroyed

cont.)

their limitations, terms and conditions, and as to the custody, application and disposition of the proceeds of the bonds and notes;

(6) to covenant as to the issuance of additional bonds or notes, or as to limitations on the issuance of additional bonds or notes and the incurring of other debts;

(7) to covenant as to the payment of the principal of or interest on the bonds or notes, as to the sources and methods of payment, as to the rank or priority of the bonds or notes with respect to a lien or security, or as to the acceleration of the maturity of the bonds or notes;

(8) to provide for the replacement of lost, stolen, destroyed, or mutilated bonds or notes;

(9) to covenant against extending the time for the payment of bonds or notes or interest on bonds or notes;

(10) to covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the authori-

(11) to covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) to establish the procedure, if any, by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) to covenant as to the custody of its properties or investments, their safekeeping and insurance, and the use and

(cont.)

or mutilated bonds or notes;

(9) covenant against extending the time for the payment of bonds or notes, or interest on the bonds or notes;

(10) covenant as to the redemption of bonds or notes and privileges of their exchange for other bonds or notes of the corporation;

(11) covenant to create or authorize the creation of special funds of money to be held in pledge or otherwise for operating expenses, payment or redemption of bonds or notes, reserves or other purposes, and as to the use and disposition of the money held in the funds;

(12) establish the procedure by which the terms of a contract or covenant with or for the benefit of the holders of bonds or notes may be amended or abrogated, the amount of bonds or notes the holders of which must consent to amendment or abrogation, and the manner in which the consent may be given;

(13) covenant as to the custody of any of its properties or investments, their safekeeping and insurance, and the use and disposition of insurance money;

(14) vest in a trustee or trustees inside or outside the state property, rights, powers and duties in trust as the corporation may determine that may include any or all of the rights, powers and duties of a trustee appointed by the holders of bonds or notes of the corporation, and to limit or abrogate the rights of the holders of the bonds or notes of the corporation to appoint, a trustee under this chapter or limit the rights, powers and duties of the trustee;

(15) pay the costs or expenses incident to the enforcement of the bonds or notes, of the provisions of the resolution, or of a covenant or agreement of the corporation with the holders of its bonds

cont.)

disposition of insurance money;

(14) to vest in a trustee or trustees inside or outside the state property, rights, powers, and duties in trust as the authority may determine, that may include any or all of the rights, powers, and duties of a trustee appointed by the holders of bonds or notes of the authority, and to limit or abrogate the rights of the holders of the bonds or notes of the authority to appoint a trustee under this chapter or limit the rights, powers, and duties of the trustee;

(15) to pay the costs or expenses incident to the enforcement of the bonds or notes or of the provisions of the resolution or of a covenant or agreement of the authority with the holders of its bonds or notes;

(16) to agree with an authority trustee that may be a trust company or bank having the powers of a trust company inside or outside the state as to the pledging or assigning of revenues or funds in which the authority has any rights or interest; the agreement may further provide for other rights and remedies exercisable by the trustee as may be proper for the protection of the holders of bonds or notes of the authority and not otherwise in violation of law and may provide for the restriction of the rights of an individual holder of bonds or notes of the authority;

(17) to appoint and provide for the duties and obligations of a paying agent or other fiduciary as the resolution may provide inside or outside the state;

(18) to limit the rights of the holders of bonds or notes of the authority to enforce a pledge or covenant securing the bonds or notes; and
