POSITION PAPER

Senate Bill No. 130

"An Act making a special appropriation to the Department of Health and Social Services for CPR manikins and films; and providing for an effective date."

This bill would appropriate the sum of \$28,000 to the Department of Health and Social Services, Division of Public Health, for the purchase and distribution of cardiopulmonary resuscitation (CPR) manikins and films.

The Division of Public Health of the Department of Health and Social Services strongly supports this bill for the following reasons:

- 1) Numerous national studies have shown that if a victim of cardiac arrest receives basic CPR within four minutes of collapse and advanced cardiac life support within eight minutes, the victim has a good chance of survival;
- 2) CPR is the basic, initial recommended treatment for any condition resulting in cardiac arrest, including severe trauma, drowning, or electric shock;
- 3) Medical experts in the Division of Public Health believe that, if all able bodied citizens are trained in CPR, numerous lives can be saved each year; and
- 4) Statewide distribution of CPR manikins and films will help ensure the availability of CPR training programs in all areas of the state.
