IN THE SENATE

BY THE FINANCE COMMITTEE

CS FOR SENATE BILL NO. 150 (Finance)

IN THE LEGISLATURE OF THE STATE OF ALASKA

THIRTEENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act making a supplemental appropriation to the Department of Environmental Conservation for water and sewer grants; special appropriations to an unincorporated community and municipalities for water, sewer or solid waste grants, to the Department of Education for a water grant, and to the Department of Environmental Conservation for water and sewer studies; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

\* Section 1. The following appropriation items are for capital projects from the general fund to the agencies named and for the purposes expressed. (ED #\_\_ ) means that the capital project is located somewhere within that house of representatives election district. This geographic reference has been inserted by staff and is for information purposes only.

POSITION PAPER

CSSB15(FIN)

Fiscal propriety demands that the State maintain project monitoring capability to ensure that the grant funds are spent for the project, and are managed according to Borough or Municipal fiscal procedures. Accordingly, a minimal State operating budget impact will be felt with the passage of each special appropriation under AS 37.05.315-37.05.319, such as this specific bill proposes. I should point out at this time that local governments have recognized their similar responsibilities when awarding grants to local social service providers, etc. Municipalities charge an administrative overhead fee of one to three point eight percent per grant. The Department of Administration requests that the specific grant appropriation language acknowledge a State agency overhead factor of up to .5% (one half of one percent) as Department of Administration operating costs for all special appropriations awarded under AS 37.05.315.

The Department questions the historical practice promoted under AS 37.05.315 and wonders if the Department of Community and Regional Affairs might be of better assistance to local governments through its Local Government Assistance program. Whereas the Department of Administration functions as a centralized control agency for all other Executive Branch agencies, the Department of Community and Regional Affairs is specifically charged with the responsibility of assisting local government in maximizing services to citizens.

Kenneth R. Ryals 3/1/83  
Kenneth R. Ryals

PMS SENATOR FRANK FERGUSON

POUCH V

1740

JUNEAU AK

PLEASE ACCEPT THE FOLLOWING CAPITAL IMPROVEMENT PLAN FROM THE CITY OF HOOPER BAY. THE DETAILED PACKAGE AS OUTLINED BY COMMISSIONER MARK LEWIS OF DEPARTMENT OF COMMUNITY AND REGIONAL AFFAIRS WILL FOLLOW THIS TELEGRAM.

THE CITY'S BASIC NEED PRIORITIES INCLUDE:

1. WATER/SEWER SYSTEM,
2. TRASH SYSTEM,
3. CITY DOCK, BANK STABILIZATION, SMALL BOAT HARBOR,
4. TRANSPORTATION SYSTEMS.

THE CITY'S 1983 BASIC NEED REQUEST IS DLR\$250,000 MUNICIPAL GRANT FOR THE PLANNING, DESIGN, AND ENGINEERING OF THE WATER/SEWER SYSTEM AND A 1.5 MILLION DOLLAR COMMITMENT FOR THE FIRST SEASONS CONSTRUCTION IN 1984.

THE CITY'S MUNICIPAL DEVELOPMENT PRIORITY INCLUDES:

1. COMPREHENSIVE PLANNING GRANT OF DLR\$100,000,
2. AN ADMINISTRATION BUILDING DLR\$30,000,
3. GARAGE/SHOP SUPPLEMENTAL DLR\$75,000.
4. TRAMWAYS AND BOARDWALKS OF DLR\$200,000,
5. RECREATIONAL GRANT OF \$50,000 (BUILDING AND PLAYGROUND).

THANK YOU,

ALICE NAPOLEON, MAYOR

CITY OF HOOPER BAY

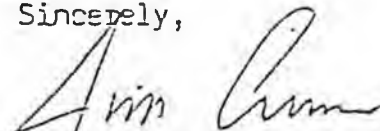

Hooper Bay (AN-82-280): The proposed improvements to the sanitation facilities include construction of a washeteria containing washers, dryers, showers, and saunas as well as sewage pickup points located throughout the community. In addition, a summer water distribution line will be extended to the new housing site. Construction is contingent upon AVCP/HUD housing contract.

We have included a copy of the study prepared for Savoonga which includes both capital costs and operation and maintenance costs for haul vehicles. The enclosed specification for a water haul vehicle is from a vehicle we purchased for the City of Tanana. The cost of the vehicle at the time of its purchase in 1981 was approximately \$32,000 FOB Seattle. The septic tank pumping unit specifications are from a vehicle we purchased for Atka, although it is similar to pumping units purchased for a number of Alaska communities. These septic tank pumping units cost from \$8,000 to \$10,000 FOB Seattle, based on the size of the unit. Transportation costs for both the septic tank pumper and the water haul vehicle would vary considerably based on the method of shipment and the destination. A typical cost to ship these units on commercial carriers from Seattle to Nome would be \$41 per hundred pounds.

Hauling of water or sewage in wheeled vehicles cannot be practiced in communities that do not have good gravel roads. In communities without good roads, tracked vehicles can sometimes be utilized, although the total vehicle cost would significantly increase. In addition, tracked vehicles are sometimes difficult to operate and maintain.

If you have any questions regarding our activities in these communities, please call me at 271-4708.

Sincerely,

James A. Crum, P.E.  
Engineer Director  
Chief, Sanitation Facilities  
Section

# ST. MICHAEL CITY COUNCIL

ST. MICHAEL, ALASKA 99659

November 4, 1982

ALLEN:

Senator Frank Ferguson

Gentlemen:

This is our list of projects and concerns for St. Michael. We would like you to work on these items in this legislative session.

**A Safe Water System:** The high incidence of hepatitis in our community make this a top priority item. Recently the PHS vaccinated many people in hopes of trying to control the spread of this horrible disease. This will be a never ending and hopeless endeavor as long as our water system remains inadequate. We need a commitment from you to help us have healthy children, our most valuable resource.

We need training programs available for operators of our heavy equipment, water system, waste disposal and building maintenance and repair. The present training facilities (Seward and Kotzebue) cannot handle the number of people who need training.

We need a road to dumpsites. The Dept. of Transportation have given their support and approval of this project. We need political muscle behind it.

Tachik Bay is a natural sheltered harbor. There are foundation materials available (old Steamboat pieces) for a dock facility. This needs development.

**Air Traffic Safety:** We are very independent on air transportation. We need state of the Art Navigational Aids for our airport.

New housing units there are currently ten families in sub-standard housing. Also, there are many new families (approximately 25 people) with no housing. They are all living with other families.

**Sewer and Water services in each home.** This is the USA AND 1982. There is no reason we cannot have these services installed. The BIA and REAA and other communities have these basic services.

The power usage has grown very rapidly with the new building, houses, and school. St. Michael still has the original equipment which is old and worn out. We need another larger generator.

**Funding for a permanent Pre-School Program:** Every year we have to scramble for funds. The State should help. Last year 3 programs were discontinued for lack of funds.

**City Street System:** All the homes sit on boggy, swampy land and it is very difficult to get around. Gravel roads would be very helpful.

**Development of a Safe Boat Harbor:** There are a lot of scrap irons in the water. They were not put there by us or made by us but dumped there and we have absolutely no way to clear it out. It is very dangerous to

## ST. MICHAEL CITY COUNCIL

ST. MICHAEL, ALASKA 99659

beach your boat and very unsightly also.

**Drainage System:** The use of culverts to drain off the water in particular by the airport. This has caused massive flooding and the boardwalk is underwater and one house is surrounded by water. The tundra used to be dry but, we need to reestablish the old drainage system the Army used to reclaim the swampy land.

We would like more information and Planning Assistance on sewage treatment facilities.

**Office Equipment:** We are about fifteen years behind in our equipment. We need information on what is available (i.e) copying machines, word processor, tele-conference equipment etc. also funding sources.

One of our major problems is roads, if we had a road network that extended through the village to a dump-site, waste disposal site, Standard Oil ( fuel for heat purchased here inaccessible at times) and Clear Lake ( our water supply)

We need or would like your support in implementing the " Here's Looking At You" Program in our schools curriculum.

Mukluk Telephone system is providing very sub-standard service. Suggestions, service orders, or complaints are all treated with a lack of concern or respect for community customers.

Local hire is a must for these projects. We do not need a lot of imported labor. We live here and want to work and be self supporting and enjoy the pride and satisfaction of a job well done.

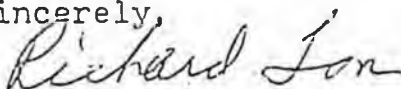

We look forward to working together with you to improve our community. Over the years St. Michael has been quietly in the background. We are seeking your help and expertise in upgrading our facilities.

Oil development is rapidly approaching here in Norton Sound, we want to be ready to help and take an active part in that development.

We want to plan in advance the best way to forsake and productive development of the land and sea's resources.

Thank you for taking your time to review our needs and we hope that you will take special attention to our priorities in the legislation.

Sincerely,

Richard Tom (Mayor)  
St. Michael, Alaska 99659

RT/vw

cc: City Files

St. Michael (AN-81-244): The VSW has funded the construction of a new 400,000 gallon water storage tank, a PE transmission line from the water source to the pumphouse, and rehabilitation of the pumphouse. The project is scheduled to be completed by mid-summer 1983. There is a need to provide water supply and waste disposal to several community buildings and to construct community gravel roads to improve garbage and waste disposal.

Wales (AN-77-956): A community washeteria and water storage tank was constructed in 1978-79. Remaining minor punch list items are scheduled to be completed this summer. Problems with electric power line to water source have been reported. Replacement of line in conduit should solve the problem. It also appears that the leachfield for the septic system is failing. IHS funds are not available to assist the community at this time.

Scammon Bay (AN-82-264): IHS has this project funded to upgrade community sanitation facilities in conjunction with a 39 unit HUD funded housing project. The houses will be constructed by the AVCP Housing Authority (AVCP), probably in 1984. Sanitation facility improvements include renovation of the water source, which is a surface water intake, a water transmission line, improvements to the pumphouse, extensions of water and sewer mains, a new sewage lift station and force main, and a sewage lagoon expansion. Details of this project are in the enclosed project summary. We will be starting construction this summer and completing the project by fall of 1984.

Kotlik (AN-81-252): A community washeteria is currently under construction. The facility will be operational by early summer. The washeteria and nearby Lower Yukon REAA School District grade school share a common water source, storage tank, and sewage treatment lagoon. Because of extremely poor soil conditions and lengthy village layout, no further extension of sanitation facilities is anticipated in the immediate future.

Elim (AN-80-224): In 1981, water and sewer mains were extended to provide service to the 35 new BSRHA/HUD houses. Improvements to the existing facilities included expansion of the water source, repair to water treatment plant, and replacement of the sewage treatment plant with a new sewage disposal system. Please refer to the enclosed correspondence dated March 4, 1982 directed to your office and the enclosed project summary.

Chevak (AN-82-272): Currently, work is underway to construct a new water treatment plant to provide additional water storage and treatment capacity for the city watering point and the VSW washeteria. Renovation of the sewage "honeybucket" dump stations, previously constructed with VSW funds, is also included in the scope of the project. At the request of the City of Chevak, IHS has completed a preliminary evaluation of the unmet needs for sanitation facilities. Please feel free to contact Mr. Reid Bond at 271-4719 if you require information pertinent to the study.

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 THIRTEENTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act making a supplemental appropriation to the  
7 Department of Environmental Conservation for water  
8 and sewer grants; special appropriations to an  
9 unincorporated community and municipalities for  
10 water, sewer or solid waste grants, to the Department  
11 of Education for a water grant, and to the Department  
12 of Environmental Conservation for water and sewer  
13 studies; and providing for an effective date."

14 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

15 \* Section 1. The sum of \$28,000,000 is appropriated from the general  
16 fund to the Department of Environmental Conservation for payment as grants  
17 for water and sewer facility construction under AS 46.03.020 - 46.03.030 to  
18 the following communities: Anchorage, Aniak, Bristol Bay Borough, Cordova,  
19 Fairbanks, Haines, Homer, Houston, Hydaburg, Juneau, Kake, Kenai, Kenai  
20 Peninsula Borough, Ketchikan, Ketchikan Public Utilities, Nome, North Pole,  
21 Petersburg, Sand Point, Scammon Bay, Seward, Sitka, Soldotna, Upper  
22 Kalskag, Valdez, Wasilla, and Wrangell.

23 \* Sec. 2. The sum of \$838,000 is appropriated from the general fund to  
24 the unincorporated community of Igiugig for payment as a grant for water,  
25 sewer, and solid waste facility construction.

26 \* Sec. 3. The sum of \$57,898,500 is appropriated from the general fund  
27 to the following municipalities for payment as grants for water and sewer  
28 facility construction.

29 Municipality of Anchorage:

1	Eagle River/Chugiak water	\$1,850,000
2	Point Woronzof wastewater plant	3,300,000
3	Port of Anchorage, AREA D & U.S.	1,000,000
4	Port of Anchorage, Lot 12B	4,800,000
5	Ship Creek water treatment plant	6,000,000
6	Solid waste landfill project	315,000
7	Akihiok:	
8	Sanitary landfill development	460,000
9	Bethel:	
10	Bethel sewer line extension	400,000
11	Bristol Bay Borough:	
12	South Naknek village well	87,000
13	Chevak:	
14	Watering points	248,000
15	Craig:	
16	Water and sewer Phase I completion	1,000,000
17	Dillingham:	
18	Airport Heights Subdivision water	
19	development	300,000
20	City of Fairbanks:	
21	Sewer drainage upgrade	960,000
