(A) payments made by the municipality during the current fiscal year for the retirement of principal and interest on outstanding bonds, notes or other indebtedness incurred after December 31, 1981, and authorized by the qualified voters of the municipality before July 1, 1983, except where the growth rate during school year 82-3 was at least 12% and authorization by the qualified voters of the municipality occurs before ~~December 31,~~ ^{September 30,} 1983 and cost of school construction does not exceed ~~\$36,000,000;~~ ^{\$20,000,000;} to pay costs of school construction, additions to schools, and major rehabilitation projects that exceed \$25,000 and are approved under AS 14.07.020(11);

(B) cash payments made after June 30, 1982, and before July 1, 1983, except where the growth rate during school year 82-3 was at least 12% before ~~December 31,~~ ^{September 30,} 1983 and cost of school construction does not exceed ~~\$36,000,000;~~ ^{\$20,000,000;} by the municipality during the fiscal year two years earlier to pay costs of school construction, additions to schools, and major rehabilitation projects that exceed \$25,000 and are approved under AS

* Sec. 2. AS 43.18.100(a) is amended by adding a new paragraph to read:

(5) subject to (h) and (i) of this section, 50 percent of

(A) payments made by the municipality during the fiscal year for the retirement of principal and interest on outstanding bonds, notes or other indebtedness authorized by the qualified voters of the municipality after June 30, 1983 to pay costs of school construction, additions to schools, and major rehabilitation projects that exceed \$25,000 and are approved under AS 14.07.020(11); and

* Sec. 3. AS 43.18.100 is amended by adding a new subsection to read:

(j) The state may not allocate money to a municipality for a school construction project under (a)(5) of this section unless the project is approved by the commissioner before the local vote on the bond issue for the project. In approving a project under this subsection, the commissioner shall require

(1) the municipality to include on the ballot for the bond issue the total cost of each project and the amounts that will be paid by the state and by the municipality;

(2) that the bonds may not be redeemed before expiration and must be repaid in ^{approximately} equal payments over a period of at least 15 years;

(3) the municipality to demonstrate the need for the project by factors such as increased enrollment in the school district,

the health and safety of the students, and the factors listed in AS 14.11.010(c).

* Sec. 4. FINDINGS. The legislature finds that the present system of providing assistance to school systems should be studied for modification and improvement. The legislature further finds that during the period of study an alternative mechanism to the existing foundation support system is desirable.
