DEPARTMENT OF PUBLIC SAFETY

POSITION PAPER - HB 495

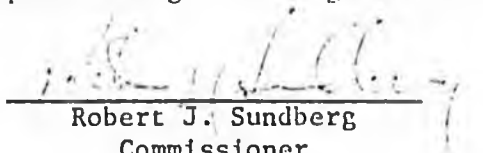

Opposed

January 24, 1984

HB 495, An Act providing for prisoner of war special registration plates.

The Department is opposed to this piece of legislation. Issuing special registration plates to any select group of individuals requires more documentation, and more employee effort than a normal registration. With any one group the effort may not be large, but with several groups the effort expended in proportion to the total number of registrations can be excessive.

Since there are so many groups deserving of recognition, the problem with this type legislation is where to stop once it's started. The reasoning would be that since one group has the plates, another group is just as deserving of special recognition and so on. For these very same reasons over the years the Department has successfully opposed special registration plates for Medal of Honor winners, National Guard members, Emergency Medical Technicians, Volunteer Firemen, etc. There is no argument that each of these groups is deserving of recognition, but the various types of special plate designs and registrations could become quite large.

## EX-POW LICENSE PLATES

The state of New Hampshire has become the most recent state to pass legislation providing for an ex-POW license plate. Latest information available designates it as the 40th state with special plates for its former prisoners of war residents. Each qualifying veteran in New Hampshire is entitled to one set of the new plates. There will be no charge for the plates by the Division of Motor Vehicles. However, the usual permit fees must be paid to the veteran's city or town of residence. Any questions regarding these plates should be referred to the office of Assistant Director Kenneth H. Lewis, PH: (603)271-2764.

Believed to be a first, the state of Illinois now provides special license plates for widows of POWs. The bill was sponsored by Sen. Watson and is effective immediately.

Pictured, left to right, is Robert Pelka, Director of the VAMC in Wichita, Kansas, and Jon Nelson, artist. Jon is the son of ex-POW Carl A. and Joyce Nelson of Cheney, Kansas. He did the painting, titled "The Good King", out of appreciation of the help Mr. Pelka has given the Nelsons and other veterans. He presented the painting, a blue ribbon winner at the County Fair, to Mr. Pelka. Jon is 15 years old.

## MEMORIAL AT TOMB OF THE UNKNOWN SOLDIER

At 3:05 p.m. on Wednesday, September 21, 1983, a wreath was placed on the Tomb of the Unknown Soldier by PNC Charles Miller and NC Earl Derrington, in quiet salute to the 17,026 Americans captured during WWI, WWII, Korea and Vietnam, who died during confinement. Living former POWs honor their comrades-in-arms who first gave their freedom and then their lives in service to their country.

**Sec. 28.10.171. Display of registration plates.** (a) When two registration plates are issued for a vehicle, they shall be attached to the vehicle for which issued, one in front and the other in the rear. When one registration plate is issued, it shall be attached to the rear of the vehicle for which issued.

(b) Every registration plate issued under this chapter shall be securely fastened to the vehicle to which it is assigned, with the upper edge of the plate horizontal, at a height of not less than 12 inches from the ground measuring from the bottom of the plate, and maintained in a location and condition so as to be clearly legible. However, when considered necessary to insure legibility, the commissioner may provide by regulation for another method of installation. (§ 7 ch 178 SLA 1978)

Am. Jur. reference. — 5 Am. Jur.,  
Automobiles, § 111.

**Sec. 28.10.181. Registration of unique and special vehicles and vehicles used for special purposes.** (a) The department shall register unique and special vehicles and vehicles used for special purposes and issue registration plates as provided in this section. Notwithstanding other provisions of this chapter, registration plates issued under this section remain with the person or organization to whom they are issued when vehicle ownership is transferred or title or interest in the vehicle is assigned, except for plates issued under (b), (h) and (i) of this section. Registration plates issued under this section may not be used on, or transferred to, a vehicle other than the vehicle for which the plates are issued without the approval of the department and payment of any required fees and taxes prescribed in §§ 421(d), 431 and 441 of this chapter; however, if the plates issued under (c), (f) and (j) of this section are transferred to a vehicle for which the registration fee is more than the fee for the vehicle from which the plates are transferred, the owner shall pay the difference between the two fees. Registration plates issued under this section to which a person is no longer entitled or the transfer of the plates to another vehicle which the department does not approve shall be returned immediately to the department by the person or organization to whom the plates were originally issued.

(b) Historic vehicles. The owner of an historic vehicle may make application for special registration under this subsection. The department, when satisfied that the vehicle meets the requirements for historic vehicle registration under regulations adopted by the commissioner, shall register the vehicle and issue two permanent registration plates of distinctive design and color bearing no date. These plates remain with the vehicle as long as it is registered under this subsection. Vehicles qualifying for registration under this subsection shall be issued registration plates numbered in a separate numerical series beginning with "Historic Vehicle No. 1."

(c) Special request plates. Upon application by the owner of a passenger vehicle, noncommercial van or pick-up truck, or motor home, the department may design and issue registration plates containing a series of not more than six letters or numbers or combination of letters and numbers as requested by the owner. The department may, in its discretion, disapprove the issuance of registration plates under this subsection when the requested symbols are a duplication of an existing registration or when the symbols are considered unacceptable by the department.

(d) Vehicles owned by disabled veterans and handicapped persons. A person who presents to the department written proof that he is at least 70 per cent disabled or medically handicapped and should be given special consideration by the public with respect to the parking or standing of his vehicle in designated spaces, may register one passenger vehicle without charge. The proof required under this subsection may consist of evidence that the person receives at least 70 per cent disability compensation from a government agency at the time of registration or an affidavit signed by a physician licensed to practice medicine in this state. Upon the request of the applicant the department shall issue a specially designed registration plate which displays

(1) recognition of the disabled veteran if the applicant's disability originated from his service with the armed forces of the United States; or

(2) the standard handicap symbol (the wheelchair logo).

(e) Vehicles owned by the state, municipalities, and charitable organizations of the state. Every certificate of registration and registration plate issued to the state, a municipality or charitable organization of the state is in effect until the vehicle for which the registration certificate and plate were issued is no longer owned and operated by the state, the municipality or the charitable organization of the state or until the department, in its discretion, declares its expiration. The state, municipality or charitable organization of the state shall maintain a current listing of all vehicles registered to it in the order of the registration number assigned to each vehicle, and shall provide a copy of the listing to the department upon its request. The listing shall include a description of each vehicle and other identifying information

required by the department. Registration plates issued under this subsection shall be of a distinctive design and numbering system. For the purposes of this subsection, "charitable organization" means a nonprofit association, corporation, society or other entity organized, incorporated or headquartered in the state for educational, cultural, scientific or other charitable purposes, as prescribed in regulations of the department.

(f) Vehicles owned by elected state officials. The department shall issue special registration plates to each incumbent elected state official for display on noncommercial motor vehicles owned and driven by the official. The department shall number or design the plates so that registration by an elected state official is indicated upon the plates. The registration plates issued under this subsection remain with the owner of the vehicle only during his term of office.

(g) Vehicles owned by consular officers of foreign governments. A vehicle owned by a consular officer of a foreign government shall be issued registration plates displaying the title "consular corps" or "cc." However, the commissioner may waive the registration of consular vehicles and the payment of fees and taxes when consistent with international treaties or agreements.

(h) Vehicles owned by ranchers, farmers, and dairymen. A vehicle not exceeding an unladen total gross weight of 16,000 pounds, owned by a person deriving his primary source of livelihood from the operation of a ranch, farm, or dairy where he maintains his full-time residence, and which vehicle is used exclusively to transport his own ranch, farm, or dairy products to and from the market or to transport supplies, commodities or equipment to be used on his ranch, farm or dairy, may be registered under this subsection and may be issued registration plates of a distinctive design or system of numbering.

(i) Amateur mobile radio station vehicles. A validly licensed amateur radio operator who presents satisfactory proof that the owner holds an unexpired Federal Communications Commission amateur radio operator's license of any renewable class, and who presents satisfactory proof that the vehicle contains or carries an amateur radio transmitter and receiving unit of a type applicable to the license class applied for, and who is permitted by law to operate a fixed station, may register one amateur mobile radio station vehicle for each radio license issued by the federal government and may receive for the vehicle distinctive registration plates instead of regular registration plates. The number on the plates shall be the radio call sign of the owner.

(j) Vehicles owned by dealers. A state-registered and bonded vehicle dealer may apply for dealer registration plates. A plate issued under this subsection may be used only on dealer-owned vehicles during the routine and normal course of the dealer's business, excluding service vehicles, or for transporting an unregistered vehicle from a port of entry to the dealer's facilities or from one dealer to another or, in the case of a house

trailer, from the retail facility to a trailer space. If the dealer sells or transfers the vehicle, the dealer plates may be used on the vehicle by the new owner or transferee for a period of not more than five days after the sale or transfer. The department may seize the dealer plates if it has reason to believe that the plates are being used to defeat the purposes of, or are in violation of, this chapter. (§ 7 ch 178 SLA 1978)

Sec. 28.10.201. Title required; exceptions. (a) Except as otherwise provided in (b) of this section or in §§ 131 — 141 of this chapter, every owner of a vehicle subject to registration in this state shall apply for a certificate of title under this chapter.

(b) The owner of a vehicle described in § 11 of this chapter as being exempt from registration and the owner of a snowmobile or off-highway vehicle may not apply for, nor may the department issue, a certificate of title for such a vehicle. However, the department may issue a certificate of title to the owner of a vehicle exempt from registration under § 11(6) of this chapter, upon application by that owner.

(c) The certificate of title issued may, when there is more than one owner, state the name of each owner in the conjunctive or in the disjunctive in order to indicate that the owners own the vehicle together or in the alternative.

(d) Except for vehicles registered under §§ 131(b) and 141 of this chapter, the department may not register a vehicle unless the applicant for registration at the same time applies for and obtains a certificate of title under this chapter, or presents satisfactory evidence that a certificate of title was previously issued to him. The department may not accept the application for the original certificate of registration or title to a vehicle unless the vehicle is in the state at the time of application. Sec. 28.10.216. Inadequate evidence of ownership. (a) When the department is not satisfied as to the ownership of a vehicle or believes that there may be undisclosed security interests in it, the department may register the vehicle but shall either

(A) as to the ownership of the vehicle by applicant, and

(B) that there are no undisclosed security interests in the vehicle; or

(2) require the applicant, as a condition of the issuance of a certificate of title, to file with the department either

(A) a bond in the form prescribed by the department and executed by the applicant, or

(B) a deposit of cash.

(b) A bond or cash deposit filed under (a)(2) of this section shall be equal in amount to one and one-half times the value of the vehicle as determined by the department and be conditioned to indemnify former owners, secured parties, and subsequent purchasers of the vehicle and their successors against loss resulting from a defect in or undisclosed security interest on the title of the applicant. An injured party may sue on the bond for a breach of its conditions, but the liability of the surety or the department may not exceed the amount of the bond or deposit.

(c) The bond or deposit shall be returned (1) at the end of three years from its filing, or (2) when the vehicle is no longer registered in the state if (2) is earlier and if the certificate of title is surrendered to the department. Service on the department of notice that action is pending to recover on the bond or the deposit extends the periods established in this subsection until 45 days after a final decision in the action on the bond or on the deposit.
