MEMORANDUM

TO: Richard Ramsey

FROM: Pete Jeans *PJ*
Senior Advisor
Senate Advisory Council

DATE: March 9, 1984

RE: In-State Preference Purchasing

In response to your request earlier today, the following is a breakdown of responses we received to our letter sent to all the states September 23, 1983 regarding laws or regulations addressing "In-State Preference Purchasing" of agricultural goods produced within their state.

A total of 31 states responded. Of that total 15 stated that they do not have a law or regulation that mandates a preference for the purchase of in-state goods and services specifically relating to public purchasing of agricultural products. In-state purchasing is encouraged in a majority of these states. Those states responding were:

California
Mississippi
Oklahoma
Utah
Nebraska
Maryland
Kentucky
Georgia

Illinois
Connecticut
New Hampshire
Nevada
Virginia
Illinois
Delaware

Memorandum

March 9, 1984

A total of 16 states responded that they did have statutory provisions that provide for in-state bidders preference for the purchase of goods and services made under state purchasing laws however, these statutes do not permit the sacrifice of price or quality in giving this preference. Here again, there is no regulations relating specifically to public purchasing of agricultural products. A number of these states also have regulations stating "preference shall be given to purchasing American made products and purchases from American based businesses whenever possible." Those states responding were:

New Mexico
Maine
Minnesota
Florida
Missouri
Colorado
Ohio
South Dakota

North Dakota
New York
Hawaii
Arkansas
Missouri
Iowa
Alabama
North Carolina

I have attached copies of these responses along with the regulations which have been cited. I hope this will be of use to you. If I can provide you with any additional information on this, please let me know.
