March 3, 1986

Honorable Dick Shultz  
Co-Chair  
House Resource Committee  
Pouch V  
Juneau, Alaska 99811

Dear Representative Shultz:

This letter for you and the members of the House Resources Committee is in regards to HB 492, submitted by Representative Duncan of Juneau. HB 492 is a bill wishing to do away with current regulations concerning vessel registration. HB 492 wants it to be legal to commercial salmon fish and sport salmon fish from the same vessel. This same bill was introduced by Representative Duncan last year and was not adopted. The Elfin Cove Fish and Game Advisory Committee is, as we were last year and in previous years, opposed to HB 492.

Firstly, and perhaps most importantly, HB 492 is a Board of Fisheries matter. Our understanding of the system is that fish and game allocation matters are considered by the respective board, either Fisheries or Game. We, as an Advisory Committee, review proposals submitted to the boards and then make our advisory comments directly, first written then orally at the proper Board meeting. This way with due public notice of Fish and Game issues all concerned individuals, groups, etc., can get together and hammer things out at a meeting. We believe this to be a good regulatory-making process that gives anyone so inclined free direct access to the policymakers at a certain time at a certain place. When Fish and Game issues of an allocative nature surface in the Legislature, it's upsetting to us that lawmakers are not willing to use the proper forum to further their voters' wishes. We believe that HB 492 is this type of allocative fisheries issue.

We suggest that your Committee invite Dave Cantillion from the Juneau ADF&G office to speak to your Committee. The delicate balance of salmon allocation amongst the user groups would become clear once you were briefed to the regulations, allocation policies and fishing patterns and areas that the Troll Fishery operates by. Ask ADF&G the allocative ramifications of more commercial hand troll effort in July and August on the Coho stocks in Lynn Canal, Chatham and Icy Straights.

Of the 2,200 hand troll permits, almost 500 are held by people in the Juneau area and are not being used. Current regulations require a person to register their vessel either sport or commercial fish every year prior to the summer troll season, with no dual registration allowed. Therefore, many hand troll permit holders

Honorable Dick Shultz  
House Resource Committee  
March 3, 1986  
Page Two

in Juneau choose to register their boats (generally of fiberglass, 19 to 26 foot sport/pleasure type craft (the Juneau harbors are full of them)) for sport, in order to fish Kings in April, May and the first of June around Juneau on days off and weekends, and then later on fish in the Derby and also fish for Cohos.

If HB 492 carries, then this sport/hand troll fleet, numbering hundreds in the Juneau area alone, are from Auke Bay within two hours cruising time of fertile Coho fishing in Lynn Canal, Chatham and Icy Straights. So they want to enjoy the best of both worlds, sport fishing spawning sized kings in the Spring, and doing a little commercial hand trolling for Cohos during summer vacations. The hand troll fleet, by regulation, is allocated 20% of the total troll catch of Cohos; right now that is being maintained at about 18% though in 1980 it was 34% when 2,000 hand trollers fished because Limited Entry was coming in soon. So any substantial increase in hand troll effort on the Cohos will put that group over their allocation and they have to quit fishing.

This would really hurt the rural resident hand troller in Hoonah, Angoon, Gustavus, Elfin Cove and similar places who depend on Cohos for the large share of their fishing income. Also, the whole Troll Fishery could be tied up due to the Department's policy of monitoring the strength of the Coho run in Southeast Alaska by using run strength indicators in Northern Southeast, these are the Juneau sports fishery and the inside gill netters. If escapement and inside fishery allocation goals are not above the past ten year average, then the troll fleet, not the gill netters, seiners or sports, is closed totally for ten days.

The Department is very conservative with this policy. In the last three out of four years all criteria had been met but there was still a ten-day August closure. Hoonah had their fishing time reduced in Icy Straights to eight days on, six days off schedule from seven days a week not too long ago. They probably are not too interested in any extra fishing effort in their area. They will once again be asking the Board to repeal the "eight and six" at a meeting in Sitka this March. From my experience of attending board meetings for the last five years, all these issues -- early registration for vessels, 80/20 Coho allocation split, 10-day August Coho closure, "eight and six" in Icy Straights and similar proposals -- have come up for vote. Policy has remained the same because an allocation balance has been reached that provides for the stocks to regenerate and a viable allocation to each user group. Introduction of a new major user would have to be absorbed in respect to the plan the users are already

Honorable Dick Shultz  
House Resource Committee  
March 3, 1986  
Page Three

operating under, this could only fairly be done at a Board of Fisheries meeting.

We trust your Committee can see the value in keeping the job of making regulations in the proper forum and not give HB 492 a favorable recommendation for passage.

Unfortunately, we cannot send a representative to your Committee hearing on HB 492 for further information exchange, though we remain at your service. My number in Elfin Cove is 239-2222.

Sincerely,

Jim Wild, Chairman  
Elfin Cove Fish and Game  
Advisory Committee

DEPARTMENT OF PUBLIC SAFETY

POSITION PAPER - HB 492

NEUTRAL

February 5, 1986

SB 492 - "An act relating to sport fishing from commercially licensed troll vessels; and providing for an effective date."

The Board of Fisheries has considered various proposals over the past years for allowing salmon sport fishing from commercial troll vessels. The Board has taken the position to not relax prohibition against salmon sport fishing from troll vessels as this could have an effect on the allocation of the commercial catch between the power and hand troll vessels. The U.S. - Canadian treaty presently regulates the number of King Salmon that can be taken by the commercial fishermen. They felt sport fishing if allowed could alter the present allocation and jeopardize the treaty. The Board of Fisheries did pass a regulation at the December meeting to allow sport fishing for bottom fish and halibut from commercial troll vessels in Southeast and Yakutat. The regulation will prohibit halibut being on board the vessel if there are salmon aboard. The enforcement will not be fully known until spring when commercial salmon trolling is in full swing.

Under the current regulations, only two citations were issued over the past twelve months, for observed violations of this regulation.

  
Robert J. Sundberg  
Commissioner

# STATE OF ALASKA

BILL SHEFFIELD, GOVERNOR

## DEPARTMENT OF PUBLIC SAFETY

### OFFICE OF THE COMMISSIONER

POUCH N  
JUNEAU, ALASKA 99811  
PHONE: 465-4322

February 7, 1986

The Honorable Jim Duncan  
Alaska State Legislature  
P.O. Box V  
Juneau, AK 99811

Dear Representative Duncan:

This is in response to your request for information regarding the Division of Fish and Wildlife's enforcement efforts related to sport fishing violations by commercial trollers.

It is difficult, if not impossible, to place a priority level or amount of time consumed in that particular area of enforcement, as the salmon sport fishing prohibition regulation is but one of a broad spectrum of regulations that are enforced while Troopers are conducting commercial and sport fishing patrols. That regulation is given no more nor less attention or time than others to be enforced.

Cost factors as related to not enforcing the regulation in question could not be calculated because, as stated before, it is just one of many incorporated in the enforcement effort of patrols. If that regulation were deleted, the enforcement effort would still be carried on.

There were two citations issued for violations of sport fishing from a commercial troll vessel over the past twelve months. One was issued out of Ketchikan, and the other out of Juneau.

I apologize for not being more precise in priority, time and cost factors related to the subject matter, but it is just one part of an overall patrol enforcement operation.

Sincerely,

Robert J. Sundberg  
Commissioner

**5 AAC 49.050. WATERS CLOSED TO SPORT FISHING.** (a) The Situk River drainage is closed to king salmon fishing upstream from the U.S. Forest Service Middle Cabin from July 1 through August 31 and is closed to all fishing from the old railroad bridge downstream to its mouth.

(b) The Lost River drainage is closed to fishing upstream from the Lost River bridge from August 15 through December 31.

(c) Tawah Creek drainage, tributary to Lost River, is closed to fishing within 50 yards of the R.E.L. Bridge. (In effect before 1985; am 5/31/85, Reg. 94)

Authority: AS 16.05.251

**5 AAC 49.060. SPORT FISHING FROM COMMERCIALLY LICENSED VESSELS.** (a) No person may sport fish from a registered salmon hand troll or power troll vessel, as those vessels are identified by the marking requirements of 5 AAC 39.270(c) and (d), except that this prohibition does not apply

(1) to charter vessels;

(2) in derby zones during derbies authorized by the department.

(b) The owner or operator of a charter vessel shall register that vessel annually with the department before the vessel is used for sport fishing. The following information must be provided at the time of registration with the department:

(1) the name of the individual or company owning the charter service;

(2) the permanent residence address, and mailing address, of the owner or company;

(3) the permanent vessel license plate number (ADF&G number) for the vessel,

(4) a photostatic copy of the current Alaska Business License of the company or individual owning the charter service; and

(5) a photostatic copy of the U.S. Coast Guard license to carry passengers for hire issued to the owner or operator of the vessel.

(c) Each person who sport fishes from a vessel licensed for commercial fishing, including a charter vessel, in waters closed to commercial salmon fishing shall, immediately upon boating, mark each salmon by removing its dorsal (large back) fin.

(d) Sport fishing is illegal in waters closed to commercial fishing while commercially caught troll salmon are in possession. (In effect before 1984; am 4/28/84, Reg. 90; am 5/31/85, Reg. 94)

Authority: AS 16.05.251

CHAPTER 49.

YAKUTAT AREA

5 AAC 49.050(a) is amended to read

5 AAC 49.050. WATERS CLOSED TO SPORT FISHING. (a) The Situk River drainage is closed to king salmon fishing upstream from the U.S. Forest Service middle cabin from July 1 through August 31, and is closed to all fishing from the old railroad bridge downstream to its mouth from June 15 through October 14. March 3, 1986

Honorable Adelheid Herrmann  
Co-Chair  
House Resource Committee  
Pouch V  
Juneau, Alaska 99811

Dear Representative Herrmann:

This letter for you and the members of the House Resources Committee is in regards to HB 492, submitted by Representative Duncan of Juneau. HB 492 is a bill wishing to do away with current regulations concerning vessel registration. HB 492 wants it to be legal to commercial salmon fish and sport salmon fish from the same vessel. This same bill was introduced by Representative Duncan last year and was not adopted. The Elfin Cove Fish and Game Advisory Committee is, as we were last year and in previous years, opposed to HB 492.

Firstly, and perhaps most importantly, HB 492 is a Board of Fisheries matter. Our understanding of the system is that fish and game allocation matters are considered by the respective board, either Fisheries or Game. We, as an Advisory Committee, review proposals submitted to the boards and then make our advisory comments directly, first written then orally at the proper Board meeting. This way with due public notice of Fish and Game issues all concerned individuals, groups, etc., can get together and hammer things out at a meeting. We believe this to be a good regulatory-making process that gives anyone so inclined free direct access to the policymakers at a certain time at a certain place. When Fish and Game issues of an allocative nature surface in the Legislature, it's upsetting to us that lawmakers are not willing to use the proper forum to further their voters' wishes. We believe that HB 492 is this type of allocative fisheries issue.

We suggest that your Committee invite Dave Cantillion from the Juneau ADF&G office to speak to your Committee. The delicate balance of salmon allocation amongst the user groups would become clear once you were briefed to the regulations, allocation policies and fishing patterns and areas that the Troll Fishery operates by. Ask ADF&G the allocative ramifications of more commercial hand troll effort in July and August on the Coho stocks in Lynn Canal, Chatham and Icy Straights.

Of the 2,200 hand troll permits, almost 500 are held by people in the Juneau area and are not being used. Current regulations require a person to register their vessel either sport or commercial fish every year prior to the summer troll season, with no dual registration allowed. Therefore, many hand troll permit holders

Honorable Adelheid Herrmann  
House Resource Committee  
March 3, 1986

in Juneau choose to register their boats (generally of fiberglass, 19 to 26 foot sport/pleasure type craft (the Juneau harbors are full of them)) for sport, in order to fish Kings in April, May and the first of June around Juneau on days off and weekends, and then later on fish in the Derby and also fish for Cohos.

If HB 492 carries, then this sport/hand troll fleet, numbering hundreds in the Juneau area alone, are from Auke Bay within two hours cruising time of fertile Coho fishing in Lynn Canal, Chatham and Icy Straights. So they want to enjoy the best of both worlds, sport fishing spawning sized kings in the Spring, and doing a little commercial hand trolling for Cohos during summer vacations. The hand troll fleet, by regulation, is allocated 20% of the total troll catch of Cohos; right now that is being maintained at about 18% though in 1980 it was 34% when 2,000 hand trollers fished because Limited Entry was coming in soon. So any substantial increase in hand troll effort on the Cohos will put that group over their allocation and they have to quit fishing.

This would really hurt the rural resident hand troller in Hoonah, Angoon, Gustavus, Elfin Cove and similar places who depend on Cohos for the large share of their fishing income. Also, the whole Troll Fishery could be tied up due to the Department's policy of monitoring the strength of the Coho run in Southeast Alaska by using run strength indicators in Northern Southeast, these are the Juneau sports fishery and the inside gill netters. If escapement and inside fishery allocation goals are not above the past ten year average, then the troll fleet, not the gill netters, seiners or sports, is closed totally for ten days.

The Department is very conservative with this policy. In the last three out of four years all criteria had been met but there was still a ten-day August closure. Hoonah had their fishing time reduced in Icy Straights to eight days on, six days off schedule from seven days a week not too long ago. They probably are not too interested in any extra fishing effort in their area. They will once again be asking the Board to repeal the "eight and six" at a meeting in Sitka this March. From my experience of attending board meetings for the last five years, all these issues -- early registration for vessels, 80/20 Coho allocation split, 10-day August Coho closure, "eight and six" in Icy Straights and similar proposals -- have come up for vote. Policy has remained the same because an allocation balance has been reached that provides for the stocks to regenerate and a viable allocation to each user group. Introduction of a new major user would have to be absorbed in respect to the plan the users are already

Honorable Adelheid Herrmann  
House Resource Committee

RE: HB 492--SPORT FISHING FROM COMMERCIAL TROLL VESSELS

MESSAGE: HB 492 SHOULD PASS AS THE NATURAL RESOURCE OF THE STATE  
SHOULD BE SHARED BY EVERYONE. SPORT FISHING FROM COMMERCIALY  
REGISTERED VESSELS DURING CLOSED COMMERCIAL SEASONS SPREADS THE  
FISHING TO EVERYONE BUT WOULD REQUIRE THE NEED FOR TWO BOATS IF  
NOT PASSED. THE ONLY REQUIREMENT SHOULD BE A VALID SPORT FISHING  
LICENSE.  
EOM/JG

# MEMORANDUM

# State of Alaska

TO: Rodger Painter  
Legislative Aide to  
The Honorable Peter Goll

DATE: January 31, 1986

FILE NO:

TELEPHONE NO:

FROM: Kurt Schelle <sup>KS</sup>  
Director of Research  
Commercial Fisheries Entry  
Commission

SUBJECT: Hand Troll Data Request

Enclosed are data on the hand troll fishery which you requested. The following reports have been included:

1. Southeast Salmon Permits Issued and Fished 1975-1985

This report includes data on all of the gear types harvesting salmon in Southeast Alaska with the exception of Yakutat set net. The number of persons who fished have been reported by resident type. The 1984 and 1985 data from the report should be considered preliminary because of the status of the fish ticket files.

2. Southeast Hand Troll Permits Issued and Fished 1982-1985

This report concentrates on the hand troll fishery since entry limitation. It includes a breakout by transferable and non-transferable permits. Again, the 1984 and 1985 data should be considered preliminary.

3. Estimated Earnings for Southeast Salmon Permits by Gear Type 1975-1985

This report includes estimates of total and average gross earnings by gear type. Please note that the averages represent averages per permit. 1984 and 1985 data should be considered as preliminary.

4. Definitions

This brief report provides an explanation on how the resident types are defined which are used in reports 5 and 6 below.

5. Summary of Net Changes in the Distribution of Permit Ownership, by Resident Type, 1982-1985 - Southeast Alaska Hand Troll

This report provides detailed information on the distribution of hand troll entry permits since limited entry. Resident type breakouts are provided. Of particular interest is the relatively large number of revokes over this time period. The vast majority of these are due to forfeitures resulting from two year non-renewals.

6. Summary of Yearly Net Changes in Permit Ownership, Southeast Alaska Hand Troll, 1982-1985

This report provides summary data on net changes in permit ownership by resident type in the hand troll fishery. The net results of transfers and the effects of revocations can be clearly seen.

The Rutter status report which you requested has not yet been completed. The data is being prepared by Karen Wells of our adjudications section. She will forward the information to you as soon as possible.

Please let me know if you have any questions concerning these reports. If we can be of further assistance, please don't hesitate to ask.

KS/dw

1982 ----- 84004.01  
1975-81 -- 83056.01

## Definitions

### Urban/Rural

1. Urban includes all towns with 1980 U.S. Census populations of 2,000 or more.
2. Communities are designated urban even though their populations are under 2,000 if they lie within an "urbanized area." Urbanized areas are defined as all communities and places connected by highway to urban centers with populations of 6,000 or more and lying within a 20-mile radius of the urban center (for cities from 6,000 to 20,000 population) or a 40-mile radius (for cities of more than 20,000). The radius is measured from the center of the city as denoted by the city location point on maps, rather than from the city limits. An exception to the radius rule is that the Anchorage "urbanized area" does not extend north of Knik Arm nor south of Turnagain Arm.

The cities of 6,000 to 20,000 population are Juneau, Ketchikan and Sitka. The cities above 20,000 are Anchorage and Fairbanks.

### Local/Nonlocal

1. On the coast, area lines are based on Fish and Game salmon regulatory areas. Residences in both Southeast and Yakutat are designated local to the hand and power troll fisheries. In accord with permit and fishery regulations, residences with the Cape Yakataga and Port Heiden overlap areas are "local" for both relevant overlap areas.
2. The Upper and Lower Yukon and Kuskokwim River fishery areas are based on immediate river drainages. The Lower Yukon area extends up the Yukon River to just above Holy Cross. The Upper Yukon "local" area extends up the Koyukuk tributary as far as Huslia, the Chandalar as far as Venetie and the Tanana to Delta Junction, 30 miles beyond the upper limits of commercial fishing on that river. The Kuskokwim local area extends 30 miles upriver beyond the limit of commercial fishing on that river and includes the Stony River tributary as far as Lime Village and the Holitna River as far as Kasheglok.
3. The Bristol Bay area extends inland up the Nushagak River and includes the entire Tikchik Lake system as well as Lake Iliamna and Lake Clark.
4. The Cook Inlet local area includes all but the eastern edge of the Anchorage Borough. The line dividing the Cook Inlet and

Prince William Sound ADF&G regulatory areas are extended inland directly north. That is, the line runs from Cape Fairfield at 148°50'W, north to 61°32'N (just north of Bodenbug Butte and south of Palmer) and thence west to 150°30'W (to the community of Susitna) and thereafter follows, at a little distance inland, the western shore of Cook Inlet, ending at Cape Douglas.

5. The Prince William Sound area extends up the Copper River to the confluence of the Bremner River. Taking in the census subareas of Prince William Sound and Cordova, but not the Copper River subarea, it excludes the interior Copper River as well as the Edgerton, Richardson and Glenn Highway communities.

Trans = net change in resident type due to permanent transfers.

Migr = net change in resident type due to migrations (permit holder moving from one city to another).

Rev = net change in resident type due to revocation proceedings.

(including deaths of nontransferable permits holders, PERMITS FORFEITED DUE TO NONRENEWAL, AND criminal revokes.

Net = total net change in resident type.

Alaska Rural Local: ALASKA resident of a RURAL community which is LOCAL to the fishery for which the permit applies.

Alaska Rural Nonlocal: ALASKA resident of a RURAL community which is LOCAL to the fishery for which the permit applies.

Alaska Urban Local: ALASKA resident of an URBAN community which is LOCAL to the fishery for which the permit applies.

Alaska Urban Nonlocal: ALASKA resident of an URBAN community which is LOCAL to the fishery for which the permit applies.

Nonresident: Nonresident of ALASKA

DOC : Department of Commerce signifies permits which have been foreclosed and which are temporarily the property of the state (DOC) or of the Commercial Fishing and Agriculture Bank (CFAB).

Migrations: changes in resident type resulting from permit holders moving from one city to another.

Forfeits: permits which have been revoked because renewal fees have not been paid for two years.

Lapsed: nontransferable permits no longer fishable due to the death of the permit holder.

Criminal Revokes: permits which have been revoked due to criminal action.

Alaska Rural Local: ALASKA resident of a RURAL community which is LOCAL to the fishery for which the permit applies.

Alaska Rural Nonlocal: ALASKA resident of a RURAL community which is LOCAL to the fishery for which the permit applies.

Alaska Urban Local: ALASKA resident of an URBAN community which is LOCAL to the fishery for which the permit applies.

Alaska Urban Nonlocal: ALASKA resident of an URBAN community which is LOCAL to the fishery for which the permit applies.

Nonresident: Nonresident of ALASKA

Dept of Commerce: permits which have been foreclosed and which are temporarily the property of the state (DOC) or of the Commercial Fishing and Agriculture Bank (CFAB).
