MEMORANDUM

January 26, 1985

TO: Members
Special Committee on Fisheries

FROM: Representative Peter Goff
Chairman

SUBJECT: 1/30 Teleconference

A teleconference has been scheduled for 2:00-3:00 p.m. Wednesday, January 30, 1985 with the Southeast Regional Fish and Game Advisory Council. This teleconference has been scheduled to give you the opportunity to become familiar with the advisory committee and regional council system.

The Southeast regional advisory council is one of the most active in the state and provides an excellent example of how local residents can gain more influence over activities affecting fish and wildlife. The Alaska National Interest Lands Conservation Act (ANILCA) granted the regional advisory councils a major role in resource management.

The regional council is meeting in Sitka concerning a number of issues coming before the Alaska Board of Fisheries and North Pacific Fishery Management Council. The regional council also will be discussing the management of Tongass National Forest.

Representatives of the Alaska Department of Fish and Game and the U.S. Forest Service will attend the teleconference at the Juneau site to respond to concerns raised by the Fisheries Committee and Regional Advisory Council.

I apologize for any inconvenience that may result from scheduling this teleconference at a time when the committee does not normally meet. The meeting time was set to accommodate the regional council agenda. It should be extremely informative and I hope you will be able to attend.
