1 IN THE SENATE

BY STURGULEWSKI

2 SENATE JOINT RESOLUTION NO.

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 FOURTEENTH LEGISLATURE - FIRST SESSION

5 Relating to sharing federal revenue
6 generated from development of the outer
7 continental shelf.

8 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 WHEREAS the State of Alaska is concerned with the potential environ-
10 mental, economic and social impacts of federal outer continental shelf
11 development activities on its adjacent coastal zone; and

12 WHEREAS the waters off the coast of Alaska contain 50 percent of the
13 fishery resources in the outer continental shelf of the United States; and

14 WHEREAS the people of the State of Alaska are critically dependent
15 upon this renewable fisheries resource for both commercial and subsistence
16 use; and

17 WHEREAS gaps currently exist in the knowledge of these fishery stocks
18 and optimum methods of managing them; and

19 WHEREAS, because of the fragile nature of Alaska's arctic and sub-
20 arctic ecosystems, federal outer continental shelf development poses the
21 possibility of severe impacts in coastal areas of the state; and

22 WHEREAS the development of large-scale energy projects on the outer
23 continental shelf is likely to result in periods of rapid growth followed
24 by difficult periods of economic contraction; and

25 WHEREAS appropriate precedent exists, as reflected in the Mineral
26 Leasing Act of 1920 and other federal lands leasing programs, to provide
27 financial assistance to states to help mitigate the impacts of resource
28 development on federal lands; and

29 WHEREAS without federal financial support, the capability of the state

1 to manage its valuable ocean and coastal resources, and to participate as a
2 partner in the outer continental shelf oil and gas leasing program, will be
3 seriously diminished;

4 BE IT RESOLVED by the Alaska State Legislature that the United States
5 Congress and the President of the United States are respectfully urged to
6 implement a program to share federal revenue generated from development of
7 the outer continental shelf with affected coastal states; and be it

8 FURTHER RESOLVED that this revenue sharing program should include
9 continued support for the coastal management and coastal energy impact
10 programs; and be it

11 FURTHER RESOLVED that this revenue sharing program should contain
12 funding for research, management, and rehabilitation activities to mitigate
13 the potential environmental, economic, and social impacts of outer conti-
14 nental shelf energy-related facility development on coastal resources; and
15 be it

16 FURTHER RESOLVED that this program should also include funding for the
17 conversion of facilities, including docks and harbors developed to support
18 the outer continental shelf leasing program, for use by the fishing indus-
19 try after leasing program activities are completed in a given area.

20 COPIES of this resolution shall be sent to the Honorable Ronald
21 Reagan, President of the United States; to the Honorable George Bush, Vice-
22 President of the United States and President of the U.S. Senate; to the
23 Honorable David Stockman, Director, Office of Management and Budget; to the
24 Honorable Donald Hodell, Secretary of the Interior; to the Honorable John
25 S. Herrington, Secretary of Energy; to the Honorable James Baker, Secretary
26 of the Treasury; to the Honorable Malcomb Baldrige, Secretary of Commerce;
27 to the Honorable Walter B. Jones, Chairman, House Committee on Merchant
28 Marine and Fisheries; to the Honorable John C. Danforth, Chairman, Senate
29 Committee on Commerce, Science and Transportation; and to the Honorable Ted

1 Stevens and the Honorable Frank Murkowski, U.S. Senators, and the Honorable
2 Don Young U.S. Representative, members of the Alaska delegation in Con-
3 gress.

TO: All Legislators
FROM: Rep. Dave Thompson *DWT*
SUBJECT: Revenue Sharing Resolution

In an effort to keep our concerns for the impact of any outer continental shelf development before the Federal Government, Representative Adelheid Herrmann and I would invite you to be cosponsor of this resolution.

This resolution will be introduced on Monday, March 18, and if you are interested in cosponsoring this resolution, it will be available in the Clerk's office before session.

MEMORANDUM

May 7, 1985

TO: All Members
Senate Resources Committee

FROM: Staff
Senate Resources Committee

RE: HJR 24 Relating to sharing federal revenue generated from
development of the outer continental shelf.

HJR 24 requests the U.S. Congress and the President to implement a program to share federal revenue from development of the outer continental shelf with affected coastal states.

At the present time, there are bills pending in the U.S. Senate (S. 55) and the U.S. House of Representatives (H.R. 624) that would establish outer continental shelf development revenue sharing with coastal states. While HJR 24 does not specifically support either bill, it does support the concept of federal revenue sharing.

The House has had this resolution under consideration and passed it by a vote of 35 yea and 2 nay.

6. H.R. 624

Sectional Analysis for HJR 24

House Joint Resolution 24 is sponsored by Reps. Thompson, Herrmann, Binkley, Hurley, Martin, Gruenberg, Sund, Grussendorf, Jenkins, Navarre, Taylor, Koponen, Uehling and Cato.

This resolution expresses the sponsors' concerns for the impact of outer continental shelf development activities defined in terms of dependent fishery resources, the fragile nature of the shoreline, and the social and economic problems of rapid growth and contractions.

HJR 24 evokes the precedence of the Mineral Leasing Act of 1920 to mitigate impact by the federal government on States not only with coastal shorelines, but other States so impacted.

Additionally, the bill requests funding for the conversion of on shore facilities, including docks and harbors developed to support the OCS leasing program, for use by the fishing industry after leasing programs are completed.

This bill was prepared with the knowledge of the bills introduced by Senator Ted Stevens and Representative Don Young, but does not specifically endorse these bills. This is a generic endorsement for the principals involved.

ISER RESEARCH SUMMARY

Institute of Social and Economic Research, University of Alaska

January 1985, R.S. No. 26

OCS Revenue Sharing in Alaska

Congress in 1984 proposed to share a maximum of 4 percent of federal petroleum revenues from the Outer Continental Shelf (OCS) with Alaska and the other coastal states—a share that would fall far short of the 25 percent or more of resource revenues that states receive from all other federal lands.

This is one of the findings of a recent report by the University of Alaska's Institute of Social and Economic Research. The report, prepared for the Office of the Governor, compares federal revenue-sharing programs for onshore lands with proposed levels of OCS revenue sharing. OCS lands are currently the only public lands from which the federal government keeps all resource revenues—but Congress came close to enacting an OCS revenue-sharing plan last year and will likely consider such plans again.

Existing Revenue-Sharing Programs for Federal Lands

State and local governments have long argued that they should be compensated for federal ownership of land within or adjacent to their boundaries. They feel they deserve compensation because federal ownership of land costs them control of the land and resources and because federal land is immune from state and local taxation. The federal government has accepted some of these arguments, and over the past 80 years has established a number of programs under which state and local governments collect substantial revenues from federal lands.

In its two largest revenue-sharing plans, the federal government distributes to affected states 25 percent of logging and other revenues from national forests and 50 percent of federal mineral-leasing revenues.¹ In addition to these and other programs that share resource revenues, federal "payment in lieu of taxes" programs attempt to replace actual or

¹Under the National Forest Revenue Act of 1908, states receive 25 percent of receipts from national forests located within their borders, and then must pass these revenues on to county governments. The Mineral Leasing Act of 1920 provides states with 50 percent of federal receipts from onshore mineral leases (although Alaska, through a special provision, receives 90 percent of most onshore mineral revenues).

potential revenues lost by local governments because they are unable to tax federal lands. These programs provide a steady stream of revenue to local governments affected by activities on adjacent federal lands, even if the lands produce no current revenues.

In 1982, the 12 western states containing most federal lands (including Alaska but not Hawaii) received over 800 million dollars in shared resource revenues and an additional 76 million dollars in payments in lieu of taxes.

OCS Revenue-Sharing Proposals

Over the past decade when the federal government has stepped up its OCS leasing program, coastal states have argued for a share of OCS revenues to help them pay for the increased costs that can accompany this national energy program. These costs include increased costs of services resulting from a sharp increase in population and potential environmental costs of oil spills or other industrial accidents. States have maintained that the federal government should compensate them with a significant share of the development revenues from oil production on the OCS, just as it has historically compensated state and local governments for developments on other federal lands.

In 1984, a conference committee of both houses of Congress agreed on an OCS revenue-sharing bill, although Congress ultimately failed to enact it. Under that bill, 4 percent of OCS revenues would be set aside each year, up to a ceiling of \$300 million (the ceiling would increase slightly after 1985). Some of this money would be allocated to various coastal programs, and the remainder would be divided among coastal states under a complicated formula. No state could receive more than 15 percent of available revenues each year and would pass on one-third of what they received directly to local governments.

Potential Alaska Production and Revenues

Alaska may have a lot at stake in the federal government's ultimate decision on OCS revenue sharing. Although there have as yet been no commercial

discoveries on the Alaska OCS, most analysts believe the region will yield a number of huge fields, most likely in both the Beaufort and Bering Seas.

Figure 1 shows how hypothetical federal OCS royalties might compare with the state's petroleum revenues derived from state leases on the North Slope (most of projected state petroleum revenues). Both North Slope state and OCS revenues in Figure 1 are based on development scenarios that assume moderate oil prices, with production occurring from both the Beaufort and Bering Seas before the turn of the century. We emphasize that these projected OCS revenues are conditional on discovery and development of reserves of a particular size, and are intended just to show the scale these revenues could reach.²

The graph in Figure 1 shows that government OCS royalties could reach \$1 billion (in 1984 dollars) by the mid-1990s, and that by the late 1990s they could exceed the state's North Slope petroleum revenues—which are expected to decline, after adjusting for inflation. Recent Congressional proposals for dividing up those OCS revenues would put almost all of them into the federal treasury and yield the State of Alaska a small amount—perhaps on the order of \$20 to \$30 million annually.

On the other hand, if Congress would agree to share OCS revenues in the same proportions as it shares other federal resource revenues, Alaska could stand to collect OCS revenues on a scale 10 times larger—perhaps in the neighborhood of \$200 to \$500 million annually by the end of the century. ~~As a result of the fact that on reserves are in fact discovered in Alaska OCS in the coming years, the State of Alaska~~

²The OCS royalty projections are based on oil development scenarios published by the Minerals Management Service, U.S. Department of the Interior. They assume a constant real well-head price of \$25 per barrel for Bering Sea oil and \$15 per barrel for Beaufort Sea oil, with an average royalty share of one-sixth. Figure 1 does not include any potential state or federal revenues from natural gas.

Figure 1. Projected Alaska North Slope Oil Revenues and OCS Royalties

~~has an important stake in persuading the federal government to share OCS revenues as generously as it has shared resource revenues from other federal lands.~~

This Research Summary is based on Sharing Revenues from the Outer Continental Shelf and Other Federal Lands, 44 pp., prepared for the Office of the Governor, State of Alaska, by Matthew Berman and Karen White of the Institute of Social and Economic Research. DATE: April 2, 1985

SUBJECT: HJR 24 - OCS Revenue Sharing

The Alaska Municipal League supports HJR 24 relating to sharing federal revenue generated from the development of the Outer Continental Shelf (OCS).

At its annual business meeting on November 17, 1984 the membership of the Alaska Municipal League again expressed its support of the program by endorsing enactment by the United States Congress of an OCS Revenue Sharing Program to be funded annually from the proceeds of the oil and gas lease sales on the OCS at the level of at least \$300 million. The League further endorses an automatic pass-through of at least one-third of a state's allocation under such a program directly to communities affected by OCS activities. And the League endorses the concept that a state's and community's allocation of OCS Revenue Sharing funds be used for coastal planning and preparation, resources protection programs, construction of capital infrastructure resulting from OCS activity and health and social service needs resulting from OCS activity.

JAN 25 1985
FIRST NEWSLETTER OF COASTAL RESOURCES DEVELOPMENT, CONSERVATION & ENHANCEMENT

GOVERNMENTAL COORDINATION

Volume 16, Number 1, January 10, 1985

OCS REVENUE SHARING AND PORT AND WATER RESOURCES DEVELOPMENT PROPOSALS which failed to gain the support of both houses of Congress during the last session, are among the hundreds of bills introduced on the opening day (3Jan) of the 99th Congress. This year, both the Senate and House acted quickly to drop outer continental shelf revenue sharing bills in the hopper. However, the two measures, H.R. 5 and S. 55, introduced by Rep. Walter B. Jones (D-NC), chairman of the House Merchant Marine & Fisheries Committee, and Sen. Ted Stevens (R-AK), respectively, take different approaches to the concept of sharing the revenues of offshore oil and gas development with coastal states.

Jones' measure, with a few modifications, is the same bill which was considered and passed by the House during the last Congress, also numbered H.R. 5 (CZM, 15Sep83). The federal Ocean & Coastal Resource Management & Development Fund established under the bill would be financed by taking 10% of the growth in OCS revenues from a base year (1982). Up to \$300 million a year of federal revenues from the OCS would be shared with 35 coastal states (including Great Lakes) and territories, beginning in fiscal year 1986. Expenditures from the block grant fund would be subject to the normal appropriations process. The size of each grant would be determined by a five-part formula, which considers leasing activity, OCS petroleum production, coastal energy facilities, shoreline mileage, and coastal population.

Two "substantive changes" have been incorporated from last year's House-passed bill. First, Jones said, the Natl. Sea Grant Program is no longer eligible to receive direct financial support from the OCS fund. "It was determined," the merchant marine committee chairman remarked, "that Sea Grant was simply incompatible with the block grant framework..." The North Carolina congressman noted that this change is "endorsed" by the Sea Grant community. A second change involves the deletion of a provision addressing certain boundary disputes between the federal and state governments -- i.e., Rep. John Breaux's (D-LA) amendment to immobilize the baseline of a state's boundary once esta-

INSIDE THIS ISSUE: Bill seeks to limit New York City's discharge of raw material (p. 3)...Chesapeake Bay bill (p.3)... Virginia coastal program reviewed (pp. 3-5)...DOI cancels Part II of sale #82, defers scheduling next north. Atlantic sale (p. 5)...North Carolina, San Francisco Bay commission set hearings this month on proposed coastal policy changes (p. 7)...Key Largo no-anchoring zone established (p. 8)

blished by a final court decree. Jones noted that while that provision has been deleted, "this controversy is of continued significance, and will be addressed in either this or another context."

~~Steven's approach, on the other hand, is identical to the legis-~~lation that was conferred between the House and Senate last year (CZM, 9 Aug 84). ~~Under S. 55, the fund would be composed of 4% of all OCS~~ revenues averaged over the preceding three years. The amounts deposited in the fund would be restricted to no more than ~~\$300 million~~ in fiscal year 1985, increasing by no more than ~~105%~~ in subsequent years.

Steven's bill incorporates the five-part allocation formula of H.R. 5, however, there are several modifications. Under the House bill, which stipulates that all of the elements be weighed equally, no state may receive credit for either shoreline mileage or coastal population unless that state has a federally-approved coastal zone management program. On the other hand, S. 55 provides that states without federally-approved CZM programs get only 50% credit under coastal energy facilities, and no state may receive more than 30% credit under shoreline and population elements.

Other differences between the House and Senate versions: H.R. 5 provides that states with federally-approved CZM programs would receive no less than 0.5% of the total amount for block grants during any fiscal year, while Steven's measure calls for 1.62% to coastal states with approved CZM programs and no less than 0.5% to territories with approved programs; and the Senate version does not include the provision in Jones' bill that stipulates that 25% of the grants be earmarked for activities authorized under Coastal Zone Management Act.

Clean water and water resources development bills also were among the first ten legislative initiatives introduced in the House on 3 Jan. Rep. James J. Howard (D-NJ), chairman of the House Public Works & Transportation Committee, reintroduced the committee's omnibus water resources legislation which overwhelmingly passed the House last year (CZM, 19 Jul 84). H.R. 6 authorizes six deep-draft navigation projects and establishes a port infrastructure trust fund, which would consist of annual appropriations equivalent to \$2 billion in customs receipts. The fund would finance construction and operation and maintenance of general cargo ports (45 ft. in depth and shallower), 50% of deep-draft port construction (those with depths greater than 45%), and 50% of incremental O&M. Non-federal interests would be responsible for financing the remaining 50%.

A second port development measure, H.R. 45, introduced by Rep. Mario Biaggi (D-NY), separates out Title I from public works' omnibus water resources bill. That title includes a number of provisions offered by the New York congressman during House merchant marine committee consideration of the omnibus bill during the 98th Congress (CZM, 12 Apr 84). Rep. Barbara Mikulski (D-MD) also has introduced a port development vehicle. H.R. 50 would establish federal cost-sharing guidelines for certain port projects.

(continued on next page)

ment, at a 9Jan scoping meeting in Washington DC. The purpose of the meeting -- the federal Office of Ocean & Coastal Resource's first official involvement with the draft program -- was to determine the scope and significance of issues to be addressed in the draft environmental impact statement, which is scheduled to be distributed to the public 15Mar85. The program is expected to gain approval in Sep85.

No formal comments were made by the public at Wednesday's meeting, although representatives from the Navy Dept. and Fairfax County VA appeared to learn more about the state's plan. Buttleman explained that the state's proposed program does not add any new laws or regulations. Instead, it is based on an approach termed "networking," linking existing state programs, agencies and laws into a system which the state believes will meet federal requirements for an "effective" coastal program.

The central feature of Virginia's proposed program is a "core" of six existing regulatory programs that "ensure that critical land or water uses are subject to regulation by the commonwealth. The core programs include: fisheries management (administered by the Marine Resources Commission and the Commission of Game & Inland Fisheries); subaqueous land management (MRC); wetlands management (MRC); nonpoint source pollution control (enforced by the Soil & Water Resources Commission); point source pollution control (implemented by the State Water Control Board); and shoreline sanitation (State Health Dept.).

Virginia's initial participation in the planning phase of the federal program ended in 1979 because of the failure of a comprehensive state coastal zone management bill to gain approval from the General Assembly. Since that time, however, there have been "two major additions to the various arsenal of statutory and regulatory controls over shoreline activities," Buttleman said. This includes the addition of dunes management and non-vegetated wetlands management to the state's existing vegetated wetlands statute.

"We believe that the addition of these two programs fill two major gaps that existed at the last point Virginia participated in the federal program," said Buttleman. He noted that back in 1979, failure to fill those gaps through additional legislation resulted in Virginia and the federal coastal office "parting ways for a couple of years." The Virginia official added that his state also has adopted a set of coastal management goals and a biennial process of review and evaluation of activities "which help achieve those goals."

Two "prime reasons" for Virginia participating in the federal program, Buttleman said, are the funds that would become available this year and maybe in the future, and federal consistency. The commonwealth would be eligible for a grant of \$1 million in federal CZM program funds, if their federal coastal program is approved. The Virginia official pointed out that "we are not counting on federal funds to implement our program," as implementation already is occurring with state general funds. The state is proposing to use the money to "augment programs...that complement these regulatory actions." Virginia

99TH CONGRESS
1ST SESSION

S. 55

To establish an Ocean and Coastal Resources Management and Development Fund from which coastal States and territories shall receive block grants, and for other purposes.

IN THE SENATE OF THE UNITED STATES

JANUARY 3, 1985

Mr. STEVENS (for himself and Mr. MURKOWSKI) introduced the following bill; which was read twice and referred to the Committee on Commerce, Science, and Transportation

A BILL

To establish an Ocean and Coastal Resources Management and Development Fund from which coastal States and territories shall receive block grants, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 SHORT TITLE

4 SEC. 101. This title may be cited as the "Ocean and
5 Coastal Resources Management and Development Block
6 Grant Act".

7 FINDINGS

8 SEC. 102. The Congress finds and declares that—

1 be invested in management and scientific research ef-
2 forts to enhance the use, conservation, and understand-
3 ing of renewable ocean and coastal resources;

4 (6) the Mineral Leasing Act of 1920 and other
5 Federal lands leasing programs presently provide finan-
6 cial support to States affected by resource development
7 on onshore Federal lands, while no comparable Federal
8 program exists to provide such support to States affect-
9 ed by mineral extraction from the Outer Continental
10 Shelf;

11 (7) without Federal financial support, the capabil-
12 ity of States and localities to manage ocean and coastal
13 resources, as well as to participate as partners in the
14 Outer Continental Shelf Oil and Gas Leasing Program,
15 will be seriously diminished; and

16 (8) it is in the national interest to maintain sup-
17 port for State management of ocean and coastal re-
18 sources through activities in fisheries management,
19 coastal zone management, coastal energy impact as-
20 sistance, long-range scientific research, and other
21 ocean and coastal resource management programs.

22 DEFINITIONS

23 SEC. 103. For purposes of this title—

24 (1) "block grant" means a National Ocean and
25 Coastal Resources Management and Development
26 Block Grant;

1 cluding those associated with ocean thermal energy
2 conversion; and (ix) pipelines, transmission facilities,
3 and terminals associated with any of the foregoing.

4 For the purposes of this Act, the siting, construc-
5 tion, expansion, or operation of any coastal-related
6 energy facilities is "in close proximity to the coastal
7 zone of any State" if such siting, construction, expan-
8 sion, or operation has, or is likely to have, a significant
9 effect on such coastal zone.

10 (4) "coastal State" means the Commonwealth of
11 Puerto Rico and any State of the United States in, or
12 bordering on, the Atlantic Ocean, the Pacific Ocean,
13 the Arctic Ocean, the Gulf of Mexico, Long Island
14 Sound, or one or more of the Great Lakes;

15 (5) "coastal territory" means the Virgin Islands,
16 the Northern Mariana Islands, the Trust Territory of
17 the Pacific Islands, American Samoa, or Guam;

18 (6) "Fund" means the Ocean and Coastal Re-
19 sources Management and Development Fund;

20 (7) "Institute" means the National Coastal Re-
21 sources Research and Development Institute;

22 (8) "local government" means that term as de-
23 fined in section 304(11) of the Coastal Zone Manage-
24 ment Act of 1972 (16 U.S.C. 1453(11)) and, with re-
25 spect to the State of Alaska, the term includes unin-

1 average amount of all sums deposited in the Treasury of the
2 United States pursuant to section 9 of the Outer Continental
3 Shelf Lands Act (43 U.S.C. 1338) during the three previous
4 fiscal years.

5 (2) The amount deposited in the Fund in fiscal year
6 1985 shall not exceed \$300,000,000. Beginning in fiscal
7 year 1986, and in each fiscal year thereafter, the amount
8 deposited in the Fund shall not exceed 105 per centum of the
9 amount deposited in the Fund in the prior fiscal year.

10 (c) As provided in advance by appropriation Acts, the
11 Secretary shall use the total amount of any amounts deposit-
12 ed in the Fund during each fiscal year to carry out the pur-
13 poses of, and in accordance with, the provisions of sections
14 105 and 108 of this title.

15 NATIONAL OCEAN AND COASTAL RESOURCES

16 MANAGEMENT AND DEVELOPMENT BLOCK GRANTS

17 SEC. 105. (a) Subject to the provisions of section 104(c)
18 and this section, for fiscal year 1986 and for each subsequent
19 fiscal year, the Secretary shall provide to each State a na-
20 tional ocean and coastal resources management and develop-
21 ment block grant from amounts paid into the Fund during
22 such fiscal year under section 104(b).

23 (b)(1) No State may receive a block grant for a fiscal
24 year unless such State has submitted to the Secretary a
25 report for such fiscal year that—

1 (A) the amount of actual leasing with respect
2 to oil and gas which is carried out under the
3 Outer Continental Shelf Lands Act (43 U.S.C.
4 1331 et seq.) during the previous fiscal year
5 which occurs within the Outer Continental Shelf
6 planning area to which such State is adjacent; and

7 (B) the volume of oil and gas produced from
8 Outer Continental Shelf acreage leased by the
9 Federal Government which is first landed in such
10 State during the previous fiscal year.

11 (2) For each State, any proposed oil and gas lease
12 sales specified by the Outer Continental Shelf Leasing
13 Program prepared under section 18(a) of the Outer
14 Continental Shelf Lands Act (43 U.S.C. 1344(a)) and
15 scheduled to occur within the Outer Continental Shelf
16 planning area to which such State is adjacent.

17 (3) The coastal-related energy facilities (including
18 coal facilities) located within each State during the pre-
19 vious fiscal year. For any State for which the Secre-
20 tary has not approved a Coastal Zone Management
21 Program under section 306 of the Coastal Zone Man-
22 agement Act of 1972 (16 U.S.C. 1455), this criterion
23 shall be reduced by 50 per centum. The amounts re-
24 sulting from such reduction shall be reallocated propor-
25 tionately, under this paragraph, among States for

1 If any State would receive an allotment greater than
2 30 per centum, the Secretary shall reduce such allot-
3 ment to 30 per centum. The amounts resulting from
4 such reduction shall be reallocated proportionately
5 among these States that receive less than 30 per
6 centum of the amounts attributable to such criterion.

7 (f)(1) For States for which the Secretary has approved a
8 Coastal Zone Management Program under section 306 of the
9 Coastal Zone Management Act of 1972 (16 U.S.C. 1455), a
10 coastal State shall receive not less than 1.62 per centum, and
11 a coastal territory not less than one-half of 1 per centum, of
12 the total amount available for block grants under section
13 104(c) during any fiscal year.

14 (2) If, after the calculations required under subsection
15 (d), any coastal State or coastal territory is to receive a block
16 grant that is less than the respective minimum grant levels
17 established under paragraph (1), the Secretary shall increase
18 such State's block grant to the minimum level. Amounts nec-
19 essary to make such increases shall be derived by reducing
20 proportionately the block grant of each State which, as deter-
21 mined under subsection (d), exceeds the respective minimum
22 level under paragraph (1).

23 (3) For the purposes of the implementation of section
24 106(b), block grant levels may fall below the respective mini-
25 mum levels established under this section.

b) The Institute shall seek to conduct basic and applied research and carry out educational and demonstration projects designed to promote the efficient and responsible development of ocean and coastal resources, including Arctic resources. Such activities shall be based on biological, geological, genetic, economic and other scientific research applicable to the purposes of this section and shall include studies on economic development and diversification and environmental protection of the Nation's coastal areas.

c) (1) The policies of the Institute shall be established and administered by a Board of Governors composed of—

(A) two representatives appointed by the Governor of Oregon;

(B) one representative appointed by the Governor of Alaska;

(C) one representative appointed by the Governor of Washington;

(D) one representative appointed by the Governor of California; and

(E) one representative appointed by the Governor of Hawaii.

(2) The Board of Governors shall select and fund, on an annually competitive basis, research proposals, projects, and studies designed to promote the efficient and responsible economic development of ocean, coastal and Arctic resources.

1 for the purpose of audit and examination, to any books, docu-
2 ments, papers, and records of the Institute that are pertinent
3 to the funds received under this section.

4 (i) Employees of the Institute shall not, by reason of
5 such employment, be considered to be employees of the Fed-
6 eral Government for any purpose.

7 (j) For the purposes of this section, there are authorized
8 to be appropriated from the Fund in each fiscal year an
9 amount equal to, but not more than, 1.5 per centum of the
10 amount appropriated under section 104(c) in such fiscal year,
11 commencing with fiscal year 1986.

12

AUDIT

13 SEC. 109. (a) Under regulations promulgated by the
14 Secretary, any State receiving a block grant under section
15 105(a) shall, for each fiscal year that it receives such grant,
16 submit to the Secretary a financial audit of the trust fund
17 established pursuant to section 105(c). The income derived
18 from such trust fund for each fiscal year shall be included in
19 the audit required by this section.

20 (b) Each audit submitted by a State under subsection (a)
21 shall—

22 (1) contain a statement of all funds provided by
23 the block grant received by such State for the fiscal
24 year;

1 (3) make a final determination.

2 (d) If the Secretary makes a final determination under
3 subsection (c)(3) that all or any part of such funds were used
4 as required by this Act, the Secretary shall—

5 (1) provide in writing to the State the reasons for
6 the determination and the amount of funds misused;
7 and

8 (2) take appropriate action to recover an amount
9 equal to that determined to have been misused under
10 subsection (c), including the withholding of such
11 amount from a State's future block grant or the
12 amount which may have been suspended under subsec-
13 tion (c)(1).

14 (e) If no appeal of the final determination is filed within
15 sixty days following notification to the State of the final de-
16 termination, any funds withheld or recovered by the Secre-
17 tary under subsection (d)(2) shall be returned to the Fund.

18 (f) If an appeal of the final determination is filed within
19 the sixty-day period specified in subsection (e), any funds
20 withheld by the Secretary shall be held in escrow until such
21 time as a final determination is made of the appeal.

22 RULES AND REGULATIONS

23 SEC. 110. Within one hundred and eighty days of enact-
24 ment of this Act, the Secretary shall promulgate, pursuant to
25 section 553 of title 5, United States Code, after notice and
26 opportunity for participation by relevant Federal agencies.

1 erns a geographical area located entirely in a
2 coastal State and located on or adjacent to a
3 coastline, or within an area impacted by oper-
4 ations conducted pursuant to this Act, as deter-
5 mined by the Secretary;

6 (c) the term "coastline" means the line of ordi-
7 nary low water along the portion of the coast which is
8 in direct contact with the open sea, or with any of the
9 Great Lakes, and the line marking the seaward limit of
10 inland waters;

11 (d) the term "Governor" means the Governor or
12 chief executive officer of any coastal State, or the indi-
13 vidual or entity designated by the Governor to exercise
14 the powers granted to such Governor or chief execu-
15 tive officer under this subsection;

16 (e) the term "Secretary" means the Secretary of
17 the Treasury; and

18 (f) the term "coastal related energy facilities"
19 means any equipment or facility which, (A) is or will
20 be used primarily in the exploration for, or the devel-
21 opment, production, conversion, storage, transfer, proc-
22 essing, or transportation of, any energy resource or for
23 the manufacture, production, or assembly of equipment,
24 machinery, products, or devices which are involved in
25 any such energy-resource activity, and (B) is, or is

1 operation has, or is likely to have, a significant
2 effect on such coastal zone.

3 COASTAL RESOURCE AND ECONOMIC DEVELOPMENT FUND

4 SEC. 3(a). Upon enactment, the Secretary shall estab-
5 lish a fund in the Treasury of the United States to be known
6 as the Coastal Resource and Economic Development Fund
7 (hereafter referred to as the "Fund").

8 (b) The amount to be deposited annually in the Fund
9 shall be the greater of \$150,000,000 or 3 per centum (not to
10 exceed \$350,000,000) of revenues from bonuses and royalties
11 deposited annually in the Treasury of the United States pur-
12 suant to section 9 of the Outer Continental Shelf Lands Act
13 (43 U.S.C. 1338).

14 DISPOSITION OF GRANTS FROM FUND

15 SEC. 4(a)(1). During the fiscal year ending September
16 30, 1986, and during each fiscal year ending after September
17 30, 1986, the Secretary shall pay to the Governor of each
18 coastal State and to each unit of local coastal government,
19 from sums deposited in the Fund during that fiscal year pur-
20 suant to section 4, an amount certified to the Secretary by
21 the Secretary of the Interior pursuant to subsections (b) and
22 (c), and an amount certified to the Secretary by the Secretary
23 of Commerce pursuant to subsection (d).

24 (2) For the purposes of this subsection, 85 per centum of
25 the total moneys in the Fund for payments to coastal States

1 (3) For tracts within two hundred and fifty miles of
2 more than one coastal State, the amount of revenues certified
3 shall be calculated as in paragraph (2) but divided among the
4 coastal States in a manner inversely proportional to their rel-
5 ative distances from the tract.

6 (4) If a straight line could not be drawn from a tract to
7 the outer edge of a coastal State's territorial sea without
8 crossing the land mass of another State, the coastal State
9 shall get no share of the revenues from the tract.

10 (c) Pursuant to subsection (a), the Secretary of the De-
11 partment of Commerce shall certify an amount to be paid to
12 each State based upon the ratio of the amount of coastal-
13 related energy facilities (including coal facilities) located
14 within that coastal State, in relationship to the amount of
15 coastal-related energy facilities located in all of the coastal
16 States, during the previous fiscal year.

17 (d)(1) From the amounts certified by the Secretaries of
18 the Departments of the Interior and Commerce, pursuant to
19 subsections (b) and (c), 50 per centum shall be distributed to
20 each coastal unit of local government as specified in this sub-
21 section.

22 (2) Each amount certified pursuant to paragraph (1) to
23 be paid during a fiscal year to a unit of local coastal govern-
24 ment shall be proportional, as much as possible, to the total
25 of all amounts certified pursuant to paragraph (1) to be paid

1 tary of the Department of Commerce shall receive at least
2 \$2,500,000 under this section.

3 (g) If for any reason at the end of a fiscal year all sums
4 deposited into the Fund during that fiscal year are not fully
5 obligated and paid, the Secretary shall return such funds to
6 the general fund of the Treasury as miscellaneous receipts.

7 (h)(1) The Secretary shall ensure that an amount equal
8 to not less than 25 per centum of each amount paid to the
9 Governor of a coastal State during a fiscal year pursuant to
10 subsections (b) and (c) is used by such Governor for activities
11 including, but not limited to, activities relating to the man-
12 agement of coastal resources, scientific research, and fisheries
13 development, which the Governor determines are of assist-
14 ance to local coastal communities impacted by the operations
15 of this Act and, in the case of Alaska, that are located within
16 the boundaries of Coastal Resource Areas established pursu-
17 ant to the Alaska Coastal Management Act.

18 (2) The Secretary shall ensure that each amount paid to
19 a unit of local coastal government of a coastal State during a
20 fiscal year pursuant to subsection (d) is not used to replace
21 funds which such coastal State would provide to units of local
22 coastal government if such amount were not paid to the units
23 of local coastal government.

24 (3) The Secretary of the Treasury shall pay to the Gov-
25 ernor of the State of Alaska any amount certified by the Sec-

1 AUTHORIZATION OF APPROPRIATIONS

2 SEC. 5. For the fiscal year ending on September 30,
3 1986, and for each fiscal year ending after September 30,
4 1986, there is authorized to be appropriated to the Secretary
5 of the Treasury such sums as may be necessary to carry out
6 section 4 of this Act, not to exceed \$350,000,000 per fiscal
7 year.

DATE: March 15, 1985
TO: All Legislators
FROM: Rep. Dave Thompson *DWT*
SUBJECT: Revenue Sharing Resolution

In an effort to keep our concerns for the impact of any outer continental shelf development before the Federal Government, Representative Adelheid Herrmann and I would invite you to be cosponsor of this resolution.

This resolution will be introduced on Monday, March 18, and if you are interested in cosponsoring this resolution, it will be available in the Clerk's office before session.

1 IN THE HOUSE

BY THOMPSON AND HERRMANN

2 HOUSE JOINT RESOLUTION NO.

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 FOURTEENTH LEGISLATURE - FIRST SESSION

5 Relating to sharing federal revenue
6 generated from development of the outer
7 continental shelf.

8
9 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 WHEREAS the State of Alaska is concerned with the potential environ-
11 mental, economic and social impacts of federal outer continental shelf
12 development activities on its adjacent coastal zone; and

13 WHEREAS the waters off the coast of Alaska contain 50 percent of the
14 fishery resources in the outer continental shelf of the United States; and

15 WHEREAS the people of the State of Alaska are critically dependent
16 upon this renewable fisheries resource for both commercial and subsistence
17 use; and

18 WHEREAS gaps currently exist in the knowledge of these fishery stocks
19 and optimum methods of managing them; and

20 WHEREAS, because of the fragile nature of Alaska's arctic and sub-
21 arctic ecosystems, federal outer continental shelf development poses the
22 possibility of severe impacts in coastal areas of the state; and

23 WHEREAS the development of large-scale energy projects on the outer
24 continental shelf is likely to result in periods of rapid growth followed
25 by difficult periods of economic contraction; and

26 WHEREAS appropriate precedent exists, as reflected in the Mineral
27 Leasing Act of 1920 and other federal lands leasing programs, to provide
28 financial assistance to states to help mitigate the impacts of resource
29 development on federal lands; and

1 WHEREAS without federal financial support, the capability of the state
2 to manage its valuable ocean and coastal resources, and to participate as a
3 partner in the outer continental shelf oil and gas leasing program, will be
4 seriously diminished;

5  BE IT RESOLVED by the Alaska State Legislature that the United States
6 Congress and the President of the United States are respectfully urged to
7 implement a program to share federal revenue generated from development of
8 the outer continental shelf with affected coastal states; and be it

9 FURTHER RESOLVED that this revenue sharing program should include
10 continued support for the coastal management and coastal energy impact
11 programs; and be it

12 FURTHER RESOLVED that this revenue sharing program should contain
13 funding for research, management, and rehabilitation activities to mitigate
14 the potential environmental, economic, and social impacts of outer conti-
15 nental shelf energy-related facility development on coastal resources; and
16 be it

17 FURTHER RESOLVED that this program should also include funding for the
18 conversion of facilities, including docks and harbors developed to support
19 the outer continental shelf ^{development,} leasing program, for use by the ^{STATES} ~~fishery~~ industries
20 ^{COASTAL RESOURCE RELATED INDUSTRIES} after ~~leasing~~ ^{production/development} program activities are completed in a given area.

21 COPIES of this resolution shall be sent to the Honorable Ronald
22 Reagan, President of the United States; to the Honorable George Bush, Vice-
23 President of the United States and President of the U.S. Senate; to the
24 Honorable David Stockman, Director, Office of Management and Budget; to the
25 Honorable Donald Hodell, Secretary of the Interior; to the Honorable John
26 S. Herrington, Secretary of Energy; to the Honorable James Baker, Secretary
27 of the Treasury; to the Honorable Malcomb Baldrige, Secretary of Commerce;
28 to the Honorable Walter B. Jones, Chairman, House Committee on Merchant
29 Marine and Fisheries; to the Honorable John C. Danforth, Chairman, Senate

1 Committee on Commerce, Science and Transportation; and to the Honorable Ted
2 Stevens and the Honorable Frank Murkowski, U.S. Senators, and the Honorable
3 Don Young, U.S. Representative, members of the Alaska delegation in Con-
4 gress.

1 (1) it is in the interest of the United States, for
2 both economic and national security reasons, to provide
3 expeditious and orderly development of Outer Conti-
4 nental Shelf oil and gas resources;

5 (2) the primary benefits of the Outer Continental
6 Shelf Leasing Program accrue to the entire Nation in
7 the form of direct revenues and increased national
8 energy security;

9 (3) while State and local governments may benefit
10 from Outer Continental Shelf leasing activity, these
11 benefits are less pronounced and less direct than those
12 accruing to the Nation. Outer Continental Shelf oil and
13 gas activity often requires significant investment on the
14 part of State and local governments in planning for and
15 providing public services and facilities necessitated by
16 such activity;

17 (4) offshore energy development may cause ad-
18 verse environmental impacts throughout the coastal
19 areas of the United States and require States and local
20 governments to assume additional responsibilities at a
21 time when they do not possess the necessary financial
22 resources;

23 (5) because the revenues of the Outer Continental
24 Shelf Program are derived from the development of
25 nonrenewable offshore mineral resources, they should

1 be invested in management and scientific research ef-
2 forts to enhance the use, conservation, and understand-
3 ing of renewable ocean and coastal resources;

4 (6) the Mineral Leasing Act of 1920 and other
5 Federal lands leasing programs presently provide finan-
6 cial support to States affected by resource development
7 on onshore Federal lands, while no comparable Federal
8 program exists to provide such support to States affect-
9 ed by mineral extraction from the Outer Continental
10 Shelf;

11 (7) without Federal financial support, the capabil-
12 ity of States and localities to manage ocean and coastal
13 resources, as well as to participate as partners in the
14 Outer Continental Shelf Oil and Gas Leasing Program,
15 will be seriously diminished; and

16 (8) it is in the national interest to maintain sup-
17 port for State management of ocean and coastal re-
18 sources through activities in fisheries management,
19 coastal zone management, coastal energy impact as-
20 sistance, long-range scientific research, and other
21 ocean and coastal resource management programs.

22 DEFINITIONS

23 SEC. 103. For purposes of this title—

24 (1) "block grant" means a National Ocean and
25 Coastal Resources Management and Development
26 Block Grant;

1 (2) "coastal population" means that term as de-
2 fined in regulations issued on May 17, 1982, at 15
3 CFR Part 927;

4 (3) "coastal-related energy facilities" means any
5 equipment or facility that (A) is or will be used primar-
6 ily in the exploration for, or the development, produc-
7 tion, conversion, storage, transfer, processing, or trans-
8 portation of, any energy resource or for the manufac-
9 ture, production, or assembly of equipment, machinery,
10 products, or devices that are involved in any such
11 energy-resource activity, and (B) is, or is likely to be,
12 sited, constructed, expanded, or operated in, or in close
13 proximity to, the coastal zone of any State because of
14 technical requirements;

15 The term includes, (i) electric generating plants;
16 (ii) facilities associated with the transportation, trans-
17 fer, or storage of coal; (iii) petroleum refineries and as-
18 sociated facilities; (iv) gasification plants; (v) facilities
19 associated with the transportation, conversion, treat-
20 ment, transfer, or storage of liquefied natural gas; (vi)
21 oil and gas facilities, including platforms, assembly
22 plants, storage depots, tank farms, crew and supply
23 bases, and refining complexes; (vii) facilities, including
24 deepwater ports, for the transfer of petroleum; (viii) fa-
25 cilities used for alternative ocean energy activities, in-

1 cluding those associated with ocean thermal energy
2 conversion; and (ix) pipelines, transmission facilities,
3 and terminals associated with any of the foregoing.

4 For the purposes of this Act, the siting, construc-
5 tion, expansion, or operation of any coastal-related
6 energy facilities is "in close proximity to the coastal
7 zone of any State" if such siting, construction, expan-
8 sion, or operation has, or is likely to have, a significant
9 effect on such coastal zone.

10 (4) "coastal State" means the Commonwealth of
11 Puerto Rico and any State of the United States in, or
12 bordering on, the Atlantic Ocean, the Pacific Ocean,
13 the Arctic Ocean, the Gulf of Mexico, Long Island
14 Sound, or one or more of the Great Lakes;

15 (5) "coastal territory" means the Virgin Islands,
16 the Northern Mariana Islands, the Trust Territory of
17 the Pacific Islands, American Samoa, or Guam;

18 (6) "Fund" means the Ocean and Coastal Re-
19 sources Management and Development Fund;

20 (7) "Institute" means the National Coastal Re-
21 sources Research and Development Institute;

22 (8) "local government" means that term as de-
23 fined in section 304(11) of the Coastal Zone Manage-
24 ment Act of 1972 (16 U.S.C. 1453(11)) and, with re-
25 spect to the State of Alaska, the term includes unin-

1 corporated communities, including Alaska Native vil-
2 lages;

3 (9) "Outer Continental Shelf planning area"
4 means one of the geophysical regions of the Outer
5 Continental Shelf which is so designated in the Outer
6 Shelf Leasing Program (43 U.S.C. 1344) dated July
7 21, 1982, or as so designated in subsequent Outer
8 Continental Shelf Leasing Programs;

9 (10) "proportionately" means in the same ratio as
10 a State's allocation;

11 (11) "Secretary" means the Secretary of Com-
12 merce;

13 (12) "shoreline mileage" means that term as de-
14 fined in regulations issued on May 17, 1982, at 15
15 CFR Part 927; and

16 (13) "State" means any coastal State or coastal
17 territory.

18 OCEAN AND COASTAL RESOURCES MANAGEMENT AND

19 DEVELOPMENT FUND

20 SEC. 104. (a) There is established in the Treasury of the
21 United States a fund to be known as the Ocean and Coastal
22 Resources Management and Development Fund.

23 (b)(1) Beginning in fiscal year 1986 and in each fiscal
24 year thereafter, the Secretary of the Treasury shall deposit
25 into the Fund, not later than sixty days after the end of the
26 previous fiscal year, an amount equal to 4 per centum of the

1 average amount of all sums deposited in the Treasury of the
2 United States pursuant to section 9 of the Outer Continental
3 Shelf Lands Act (43 U.S.C. 1338) during the three previous
4 fiscal years.

5 (2) The amount deposited in the Fund in fiscal year
6 1985 shall not exceed \$300,000,000. Beginning in fiscal
7 year 1986, and in each fiscal year thereafter, the amount
8 deposited in the Fund shall not exceed 105 per centum of the
9 amount deposited in the Fund in the prior fiscal year.

10 (c) As provided in advance by appropriation Acts, the
11 Secretary shall use the total amount of any amounts deposit-
12 ed in the Fund during each fiscal year to carry out the pur-
13 poses of, and in accordance with, the provisions of sections
14 105 and 108 of this title.

15 NATIONAL OCEAN AND COASTAL RESOURCES

16 MANAGEMENT AND DEVELOPMENT BLOCK GRANTS

17 SEC. 105. (a) Subject to the provisions of section 104(c)
18 and this section, for fiscal year 1986 and for each subsequent
19 fiscal year, the Secretary shall provide to each State a na-
20 tional ocean and coastal resources management and develop-
21 ment block grant from amounts paid into the Fund during
22 such fiscal year under section 104(b).

23 (b)(1) No State may receive a block grant for a fiscal
24 year unless such State has submitted to the Secretary a
25 report for such fiscal year that—

1 (A) specifies the proposed allocation by such State
2 of the block grant among coastal zone management ac-
3 tivities, coastal energy impact activities, living marine
4 resource activities, and natural resource preservation,
5 enhancement, and management activities under section
6 106(a); and

7 (B) describes each proposed activity receiving
8 funds provided by the block grant and the amounts
9 proposed to be expended for each activity.

10 (2) In order to be eligible to receive a block grant pursu-
11 ant to this Act and before submitting the report required
12 under paragraph (1), each State shall provide opportunities
13 for the public to review and comment on the report and shall
14 hold at least one public hearing on such report at a site in the
15 State convenient for encouraging maximum public participa-
16 tion.

17 (c) A block grant shall not be paid from the Fund to a
18 State until the State has established a trust fund for the re-
19 ceipt of such grant.

20 (d) The amount of each block grant provided under sub-
21 section (a) shall be determined by the Secretary under a for-
22 mula established by the Secretary which gives equal consid-
23 eration to each of the following criteria:

24 (1) For each State, the equal combination of—

1 (A) the amount of actual leasing with respect
2 to oil and gas which is carried out under the
3 Outer Continental Shelf Lands Act (43 U.S.C.
4 1331 et seq.) during the previous fiscal year
5 which occurs within the Outer Continental Shelf
6 planning area to which such State is adjacent; and

7 (B) the volume of oil and gas produced from
8 Outer Continental Shelf acreage leased by the
9 Federal Government which is first landed in such
10 State during the previous fiscal year.

11 (2) For each State, any proposed oil and gas lease
12 sales specified by the Outer Continental Shelf Leasing
13 Program prepared under section 18(a) of the Outer
14 Continental Shelf Lands Act (43 U.S.C. 1344(a)) and
15 scheduled to occur within the Outer Continental Shelf
16 planning area to which such State is adjacent.

17 (3) The coastal-related energy facilities (including
18 coal facilities) located within each State during the pre-
19 vious fiscal year. For any State for which the Secre-
20 tary has not approved a Coastal Zone Management
21 Program under section 306 of the Coastal Zone Man-
22 agement Act of 1972 (16 U.S.C. 1455), this criterion
23 shall be reduced by 50 per centum. The amounts re-
24 sulting from such reduction shall be reallocated propor-
25 tionately, under this paragraph, among States for

1 which the Secretary has approved such a management
2 program.

3 (4) The shoreline mileage of each State for which
4 the Secretary has approved a Coastal Zone Manage-
5 ment Program under section 306 of the Coastal Zone
6 Management Act of 1972 (16 U.S.C. 1455).

7 (5) The coastal population of each State for which
8 the Secretary has approved a Coastal Zone Manage-
9 ment Program under section 306 of the Coastal Zone
10 Management Act of 1972 (16 U.S.C. 1455).

11 (e) For purposes of paragraphs (4) and (5) of subsection
12 (d)—

13 (1) the Secretary shall be presumed to have ap-
14 proved the Coastal Zone Management Program of any
15 State if the Secretary determines that, in any fiscal
16 year, such State is making satisfactory progress toward
17 the development of a Coastal Zone Management Pro-
18 gram which will be approvable under section 306 of
19 the Coastal Zone Management Act (16 U.S.C. 1455).
20 Such presumption may be renewed only once and for a
21 period not to exceed one additional fiscal year if the
22 Secretary makes such determination under this subsec-
23 tion for such additional fiscal year; and

24 (2) a State shall not receive in excess of 30 per
25 centum of the amounts attributable to either criterion.

1 If any State would receive an allotment greater than
2 30 per centum, the Secretary shall reduce such allot-
3 ment to 30 per centum. The amounts resulting from
4 such reduction shall be reallocated proportionately
5 among these States that receive less than 30 per
6 centum of the amounts attributable to such criterion.

7 (f)(1) For States for which the Secretary has approved a
8 Coastal Zone Management Program under section 306 of the
9 Coastal Zone Management Act of 1972 (16 U.S.C. 1455), a
10 coastal State shall receive not less than 1.62 per centum, and
11 a coastal territory not less than one-half of 1 per centum, of
12 the total amount available for block grants under section
13 104(c) during any fiscal year.

14 (2) If, after the calculations required under subsection
15 (d), any coastal State or coastal territory is to receive a block
16 grant that is less than the respective minimum grant levels
17 established under paragraph (1), the Secretary shall increase
18 such State's block grant to the minimum level. Amounts nec-
19 essary to make such increases shall be derived by reducing
20 proportionately the block grant of each State which, as deter-
21 mined under subsection (d), exceeds the respective minimum
22 level under paragraph (1).

23 (3) For the purposes of the implementation of section
24 103(b), block grant levels may fall below the respective mini-
25 mum levels established under this section.

1 (g) If, after the calculations required under subsections
2 (d), (e) and (f), any State would receive a block grant which is
3 greater than 15 per centum of the funds appropriated under
4 section 104(c), the Secretary shall reduce such State's block
5 grant to 15 per centum. The amounts resulting from such
6 reduction shall be reallocated proportionately among States
7 receiving less than 15 per centum of such funds and more
8 than the minimum grant levels under subsection (f).

9 REQUIREMENTS ON THE USE OF BLOCK GRANTS

10 SEC. 106. Block grants provided to a State under sec-
11 tion 105(a) shall be used for the enhancement and manage-
12 ment of ocean and coastal resources and for the amelioration
13 of any adverse impacts that result from the siting, construc-
14 tion, expansion, or operation of coastal-related energy
15 facilities.

16 (a) Such block grants shall be used only for each
17 of the following activities:

18 (1) activities of such State authorized by the
19 Coastal Zone Management Act of 1972 (16
20 U.S.C. 1451 et seq.);

21 (2) activities of such State pursuant to the
22 Coastal Energy Impact Program administered
23 under section 308 of the Coastal Zone Manage-
24 ment Act of 1972 (16 U.S.C. 1457);

1 (2) provide to its local governments allocations
2 from such block grant, taking into consideration the re-
3 sponsibilities of the local governments in carrying out
4 activities under section 106(a).

5 (b) In carrying out its responsibilities under subsection
6 (a)(2), the State shall give particular emphasis to the activi-
7 ties of local governments in—

8 (1) providing public services and public facilities
9 required as a result of the siting, construction, expan-
10 sion, or operation of coastal-related energy facilities;
11 and

12 (2) preventing, reducing, or ameliorating any un-
13 avoidable loss of valuable environmental or recreational
14 resources if such loss results from the siting, construc-
15 tion, expansion, or operation of coastal-related energy
16 facilities.

17 (c) In carrying out its responsibilities under this section,
18 each State shall provide no less than 33 $\frac{1}{3}$ per centum of
19 each block grant received under section 105(a) to its local
20 governments.

21 NATIONAL COASTAL RESOURCES RESEARCH AND
22 DEVELOPMENT INSTITUTE

23 SEC. 108. (a) The Secretary shall provide for the estab-
24 lishment of a National Coastal Resources Research and De-
25 velopment Institute to be administered in affiliation with the
26 Oregon State University Marine Science Center.

1 (b) The Institute shall seek to conduct basic and applied
2 research and carry out educational and demonstration
3 projects designed to promote the efficient and responsible de-
4 velopment of ocean and coastal resources, including Arctic
5 resources. Such activities shall be based on biological, geo-
6 logical, genetic, economic and other scientific research appli-
7 cable to the purposes of this section and shall include studies
8 on the economic development and diversification and environ-
9 mental protection of the Nation's coastal areas.

10 (c) (1) The policies of the Institute shall be established
11 and administered by a Board of Governors composed of—

12 (A) two representatives appointed by the Gover-
13 nor of Oregon;

14 (B) one representative appointed by the Governor
15 of Alaska;

16 (C) one representative appointed by the Governor
17 of Washington;

18 (D) one representative appointed by the Governor
19 of California; and

20 (E) one representative appointed by the Governor
21 of Hawaii.

22 (2) The Board of Governors shall select and fund, on a
23 nationally competitive basis, research proposals, projects, and
24 studies designed to promote the efficient and responsible eco-
25 nomic development of ocean, coastal and Arctic resources.

1 (d)(1) The Board of Governors shall establish an Adviso-
2 ry Council composed primarily of specialists in ocean and
3 coastal resources from the academic community but which
4 shall include appropriate representation from ocean and
5 coastal user groups.

6 (2) To the maximum extent practicable, the Advisory
7 Council shall be composed of individuals from every coastal
8 region of the Nation.

9 (3) The Advisory Council shall advise the Board of Gov-
10 ernors on its recommendations regarding proposals, projects,
11 and studies which are presented to the Board of Governors.

12 (e) The Institute shall be administered by a Director
13 who shall be appointed by the chancellor of the Oregon
14 Board of Higher Education in consultation with the Board of
15 Governors. The Director shall report to the Board of Gover-
16 nors.

17 (f) The Secretary shall conduct an ongoing evaluation of
18 the activities of the Institute to ensure that funds received by
19 the Institute under this section are used in a manner consist-
20 ent with the provisions of this section.

21 (g) The Institute shall report to the Secretary on its
22 activities within two years after the date of enactment of this
23 Act.

24 (h) The Comptroller General of the United States, and
25 any of his duly authorized representatives, shall have access,

1 for the purpose of audit and examination, to any books, docu-
2 ments, papers, and records of the Institute that are pertinent
3 to the funds received under this section.

4 (i) Employees of the Institute shall not, by reason of
5 such employment, be considered to be employees of the Fed-
6 eral Government for any purpose.

7 (j) For the purposes of this section, there are authorized
8 to be appropriated from the Fund in each fiscal year an
9 amount equal to, but not more than, 1.5 per centum of the
10 amount appropriated under section 104(c) in such fiscal year,
11 commencing with fiscal year 1986.

12

AUDIT

13 SEC. 109. (a) Under regulations promulgated by the
14 Secretary, any State receiving a block grant under section
15 105(a) shall, for each fiscal year that it receives such grant,
16 submit to the Secretary a financial audit of the trust fund
17 established pursuant to section 105(c). The income derived
18 from such trust fund for each fiscal year shall be included in
19 the audit required by this section.

20 (b) Each audit submitted by a State under subsection (a)
21 shall—

22 (1) contain a statement of all funds provided by
23 the block grant received by such State for the fiscal
24 year;

1 (2) include a statement of all financial assistance
2 provided to such State's local governments pursuant to
3 section 107;

4 (3) be conducted by an entity which is independ-
5 ent of any agency or official administering or using
6 funds provided by such block grant; and

7 (4) be conducted in accordance with the financial
8 and compliance element of the standards for audit of
9 governmental organizations, activities, and functions
10 established by the Comptroller General of the United
11 States.

12 (c) After receiving a State's financial audit under this
13 section, the Secretary shall—

14 (1) make a preliminary evaluation of each audit
15 submitted pursuant to this section. If the Secretary de-
16 termines, in the preliminary evaluation of a State's
17 audit, that all or any part of the block grant has not
18 been used as required by this Act, the Secretary shall
19 publish notice of this finding in the Federal Register.
20 In addition, the Secretary may suspend, and place in
21 escrow, an amount from any future block grant which
22 is equivalent to the amount misused, pending final de-
23 termination pursuant to paragraph (3);

24 (2) provide the State with an opportunity for a
25 hearing; and

1 (3) make a final determination.

2 (d) If the Secretary makes a final determination under
3 subsection (c)(3) that all or any part of such funds were used
4 as required by this Act, the Secretary shall—

5 (1) provide in writing to the State the reasons for
6 the determination and the amount of funds misused;
7 and

8 (2) take appropriate action to recover an amount
9 equal to that determined to have been misused under
10 subsection (c), including the withholding of such
11 amount from a State's future block grant or the
12 amount which may have been suspended under subsec-
13 tion (c)(1).

14 (e) If no appeal of the final determination is filed within
15 sixty days following notification to the State of the final de-
16 termination, any funds withheld or recovered by the Secre-
17 tary under subsection (d)(2) shall be returned to the Fund.

18 (f) If an appeal of the final determination is filed within
19 the sixty-day period specified in subsection (e), any funds
20 withheld by the Secretary shall be held in escrow until such
21 time as a final determination is made of the appeal.

22 RULES AND REGULATIONS

23 SEC. 110. Within one hundred and eighty days of enact-
24 ment of this Act, the Secretary shall promulgate, pursuant to
25 section 553 of title 5, United States Code, after notice and
26 opportunity for participation by relevant Federal agencies,
